Pages 27889–28142

PART I

HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

PRESIDENTIAL PROCLAMATION—National Forest Products Week, 1974 27889

EXECUTIVE ORDERS—
Continuing the regulation of exports 27891
Delegating to the Secretary of Agriculture the function of submitting an annual report to the Congress concerning the location of new Federal facilities in rural areas 27893

PENN CENTRAL TRANSPORTATION COMPANY—Dot issues emergency order regarding certain defective track; effective 8–2–74 27947

MEDICAID—HEW regulations on financial penalty for failure to provide child health screening services; effective 7–1–74 27905

HEAD START GRANTEES—HEW policies and procedures for selection, initial funding, and refunding; effective 8–2–74 27907

MARINE MAMMAL PROTECTION—Interior Department issues Administrative and Status Report 1974 27922

BIOLOGICAL PRODUCTS—FDA proposes general safety test for inactivated influenza vaccine; effective 8–12–74 27916

NATIONAL HEART AND LUNG INSTITUTE—HEW regulations on grants for National Research and Demonstration Centers; effective 8–2–74 27902

SUGARBEETS—USDA determination of prices for 1974 crop; effective 8–2–74 27895

RICE—USDA proposal on fees and charges for inspection services; comments by 9–30–74 27914

REAL ESTATE LOAN INVESTMENTS—FHLBB amends percentage limitations; effective 8–2–74 27898

SYNTHETIC NATURAL GAS PLANTS—FEA regulation on allocation of petroleum products 27910

(Continued inside)

PART II:

MINIMUM WAGES—Labor Department decisions and index for Federal and federally assisted construction (2 documents) **27990, 28094**

August 2, 1974—Pages 27889–28142

reminders

(The items in this list were editorially compiled as an aid to FEDERAL REGISTER users. Inclusion or exclusion from this list has no legal significance. Since this list is intended as a reminder, it does not include effective dates that occur within 14 days of publication.)

Rules Going Into Effect Today

This list includes only rules that were published in the FEDERAL REGISTER after October 1, 1972.

	page no. and date
FCC—Re-regulation of radio and television broadcasting; miscellaneous amendments	24368; 7–2–74

federal register

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

MEETINGS—
Commerce Department: National Industrial Energy Conservation Council, 8–21–74 27931
Defense Department: Advisory Group on Electron Devices, 8–20–74 27922
Interior Department: Pictured Rocks National Lakeshore Advisory Commission, 8–23–74 27931
AEC/EPA: Meeting concerning draft environmental statement on liquid metal fast breeder reactor program, 8–13–74 27935

list of cfr parts affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1974, and specifies how they are affected.

Title 3—The President

PROCLAMATION 4305

National Forest Products Week, 1974

By the President of the United States of America

A Proclamation

During the decades ahead, as our population continues to grow and we continue to maintain our high standard of living, demands for wood products will increase dramatically.

We can meet those demands. In contrast to the specter of shrinking energy and mineral resources, supplies of timber can be increased. It takes millions of years for the earth to create just one drop of oil or an ounce of metal ore. But foresters can plant seedlings today that will grow into harvestable trees in 10 to 40 years.

Timber is one of the few renewable resources, with the added advantages of being disposable, recyclable, inexpensive, durable, and plentiful. Under intensive management, our forests can produce more than twice the volume of timber being grown today.

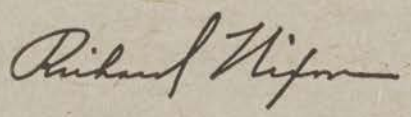
Improving our knowledge of the growth, harvesting, and use of wood will require the continued cooperation of Federal and State forestry programs, the forest products industry, private forest landowners, and all who care about the conservation and prudent use of our forest resources. I am confident that as a result of this cooperative effort, wood and forest products will remain readily available at reasonable cost to the American public.

In order to give further recognition and emphasis to the importance of forest resources and forest products to the Nation, the Congress has by a joint resolution of September 13, 1960 (74 Stat. 898) designated the seven-day period beginning on the third Sunday of October in each year as National Forest Products Week, and has requested the President to issue an annual proclamation calling for the observance of that week.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, do hereby call upon the people of the United States to observe the week beginning October 20, 1974, as National Forest Products Week, with activities and ceremonies designed to direct

public attention toward and demonstrate our gratitude for the forest resources with which we have been so abundantly blessed and for their contributions to our material, emotional, and spiritual well-being.

IN WITNESS WHEREOF, I have hereunto set my hand this thirty-first day of July, in the year of our Lord nineteen hundred seventy-four, and of the Independence of the United States of America the one hundred ninety-ninth.



[FR Doc.74-17749 Filed 7-31-74;12:48 pm]

EXECUTIVE ORDER 11796

Continuing the Regulation of Exports

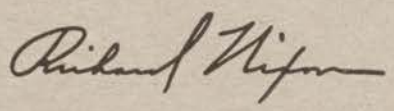
By virtue of the authority vested in the President by the Constitution and statutes of the United States, including section 5(b) of the act of October 6, 1917, as amended (12 U.S.C. 95a), and in view of the continued existence of the national emergencies declared by Proclamation No. 2914 of December 16, 1950, and Proclamation No. 4074 of August 15, 1971, and the importance of continuing (a) to exercise the necessary vigilance over exports from the standpoint of their significance to the national security of the United States; (b) to further significantly the foreign policy of the United States and to aid in fulfilling its international responsibilities; and (c) to protect the domestic economy from the excessive drain of scarce materials and reduce the serious inflationary impact of abnormal foreign demand, it is hereby ordered:

SECTION 1. Notwithstanding the expiration of the Export Administration Act of 1969, as amended, the provisions for administration of that act contained in Executive Order 11533 of June 4, 1970 as continued in effect by Executive Order 11683 of August 29, 1972, shall continue in full force and effect and shall authorize the exercise and administration of export controls, under the authority vested in me as President of the United States by section 5(b) of the act of October 6, 1917, as amended (12 U.S.C. 95a).

SEC. 2. Except to the extent another basis is provided in the second sentence of section 3 of this order, all rules and regulations issued by the Secretary of Commerce, published in title 15, chapter III, subchapter B of the Code of Federal Regulations, parts 368 to 399 inclusive, and all orders, regulations, licenses and other forms of administrative action issued or taken pursuant thereto, shall until amended or revoked by the Secretary of Commerce, remain in full force and effect, the same as if issued or taken pursuant to this order, except that the maximum fine which may be imposed under part 387.1(a)(1) shall not exceed $10,000 and that the civil penalty provided for under part 387.1(b)(3) will not be applicable to any violation of the regulations under this order.

SEC. 3. The delegations of authority in this order shall not affect the authority of any agency or official pursuant to any other delegation of Presidental authority, presently in effect or hereafter made, under section 5(b) of the act of October 6, 1917, as amended. Those regulations issued under the Export Control Act of 1949, as amended, to implement foreign policy set forth in Executive Orders Nos. 11322 of January 5, 1967 and 11419 of July 29, 1968, shall until amended or revoked by the Secretary of Commerce continue to apply as regulations issued under such orders.

THE WHITE HOUSE,
July 30, 1974.



[FR Doc.74-11747 Filed 7-31-74;12:47 pm]

EXECUTIVE ORDER 11797

Delegating to the Secretary of Agriculture the Function of Submitting an Annual Report to the Congress Concerning the Location of New Federal Facilities in Rural Areas

By virtue of the authority vested in me by section 901(b) of the Agricultural Act of 1970 (84 Stat. 1383) (as amended by section 601 of the Rural Development Act of 1972 (86 Stat. 674; Public Law 92–419)) and by section 301 of title 3 of the United States Code, the Secretary of Agriculture is authorized to exercise the authority vested in the President by section 901(b) of the Agricultural Act of 1970, as amended, in all matters relating to reporting criteria and the preparation and submission of annual reports to the Congress concerning the location of new Federal facilities in rural areas, without approval, ratification, or other action by the President. Departments and agencies shall cooperate with the Secretary of Agriculture in the preparation of the annual reports required by section 901(b), as amended.

THE WHITE HOUSE,
July 31, 1974.

Richard Nixon

[FR Doc.74–17748 Filed 7–31–74;12:48 pm]

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER VIII—AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE (SUGAR), DEPARTMENT OF AGRICULTURE

SUBCHAPTER I—DETERMINATION OF PRICES

[Docket No. SH-321]

PART 871—SUGARBEETS

Fair and Reasonable Prices for 1974 Crop

The Sugar Act requires producers who also process sugarbeets grown by other producers to pay prices determined by the Secretary of Agriculture to be fair and reasonable as one of the conditions for receiving Sugar Act payments on their own production.

Such determination may not be made until after investigation and opportunity for interested persons to testify on the fair and reasonable prices to be paid under either purchase or toll agreements. A series of public hearings was held during October 1973 in several cities within the major producing regions of the sugarbeet area.

The determination, which is applicable to the 1974 crop of sugarbeets, requires processors to pay for all beets at a price not less than that provided in the purchase contract which they have entered into with producers. Sugarbeet purchase contracts for the 1974 crop were negotiated by producers and processors and submitted to the Department subsequent to the public hearings. Examination of the contracts indicates that most of the major provisions relating to the payment for sugarbeets conform to those of the 1973 crop purchase contracts.

Pursuant to the provisions of section 301(c)(2) of the Sugar Act of 1948 (7 U.S.C. 1131(c)(2)), as amended (herein referred to as "act"), after investigation and due consideration of the evidence presented at public hearings held during October 1973, the following determination is hereby issued.

The regulations previously appearing in these sections under "Determination of Prices; Sugarbeets" remain in full force and effect as to the crops to which they were applicable.

Sec.
871.24 General requirements.
871.25 Purchase agreements.
871.26 Reporting requirements.
871.27 Applicability.
871.28 Subterfuge.

AUTHORITY: Secs. 301, 403, 61 Stat. 929, as amended, 932; (7 U.S.C. 1131, 1153).

§ 871.24 General requirements.

A producer of sugarbeets who is also a processor of sugarbeets (herein referred to as "processor") shall have paid, or contracted to pay for all sugarbeets of the 1974 crop grown by other producers and processed by him, in accordance with the following requirements:

§ 871.25 Purchase agreements.

(a) The price for all 1974-crop sugarbeets delivered by a producer and processed by a processor, shall be not less than that required to be paid pursuant to the 1974-crop sugarbeet purchase contract between the processor and the producer, subject to the provisions of paragraphs (b), (c), and (d) of this section.

(b) If the processor, in determining the net proceeds pursuant to the contract makes a deduction from the gross sales price of sugar for factory-site bulk sugar storage facilities owned by the processor, or for factory-site bulk pulp storage facilities owned by the processor in those districts where producers share directly in the total net returns from the sales of sugar, pulp, and molasses, such deduction shall be limited to amortization of such facilities, including improvements over a reasonable period, interest at prevailing rates on the unrecovered cost, taxes, insurance, maintenance, and operating costs properly applicable thereto. After the costs of the facilities, including improvements, have been fully recovered such deductions shall be limited to taxes, insurance, maintenance, and operating costs properly applicable thereto: *Provided*, That if there is an agreement between the processor and producers such deductions for factory-site storage facilities owned by the processor shall be as agreed upon if less than that provided above.

(c)(1) In factory districts using a scale-type sugarbeet purchase contract where the processor has constructed tanks for the storage of concentrated juice, has stored such juice for a period of not less than 30 days after the end of the slicing campaign and has processed such juice granulated sugar, and there is agreement between the processor and producers for the processor to make a charge for the storage of concentrated juice, a storage charge measured by the additional costs incurred as a result of factory clean-up and start-up in connection with the juice processing campaign may be deducted from the gross sales price of sugar: *Provided*, That such charge shall not exceed two cents per month (based on the length of time such juice is stored between the end of the slicing campaign and the start-up of the juice processing campaign, such period not to exceed six months) per 100 pounds granulated sugar equivalent of the juice so stored.

(2) In those factory districts in Michigan and Ohio using a percentage-type sugar beet purchase contract, wherein growers share with the processor in factory extraction efficiency, and where the processor has constructed and is operating tanks for the storage of concentrated juice, a deduction from the gross sales price of sugar and by-products may be made for the amortization of such tanks as provided in the processor's 1974-crop sugarbeet purchase contract.

(d) In determining the net proceeds pursuant to the contract, the gross sales price per 100 pounds to be applicable to sugar sold to an affiliate company or other affiliate business entity, or to sugar used by the processor during the settlement period, shall be not less than the weighted average quoted basis price, less customary allowance, and plus appropriate prepays and package differentials which would have been applicable to such sugar had it been marketed to nonaffiliated purchasers.

§ 871.26 Reporting requirements.

The processor shall submit to the Director, Sugar Division, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture, Washington, D.C. 20250, within 60 days after the close of the sales period specified in the sugarbeet purchase contract, an itemized statement for each settlement district, certified by an independent accountant, showing the computation of "net proceeds" or "net returns" as provided in such contract, such statement to be in substantially the form as that contained in Schedule A attached hereto and made a part hereof: *Provided*, That, if the processor markets sugar to an affiliate company or other affiliate business entity or if the processor uses any beet sugar, the weighted average gross sales price for each category, the marketing expenses applicable to each, and the net proceeds derived therefrom shall be reported in substantially the form shown on Schedule A–1 attached hereto and made a part hereof, to supplement the information submitted in accordance with Schedule A: *Provided further*, That if the processor in determining net proceeds makes a deduction for factory-site bulk sugar, bulk pulp or concentrated juice storage facilities owned by the processor, the total cost of such facilities, including improvements, the amount of the deduction and the expenses used in determining such deduction shall be reported in substantially the form shown

on Schedule A–2 attached hereto and made a part hereof, to supplement the information submitted in accordance with Schedule A.

§ 871.27 Applicability.

The requirements of this part are applicable to all sugarbeets purchased from other producers and processed by a processor who produces sugarbeets (a processor-producer is defined in § 821.1 of this chapter); and to sugarbeets purchased by a cooperative processor from nonmembers. The requirements are not applicable to sugarbeets processed by a cooperative processor for its members.

§ 871.28 Subterfuge.

The processor shall not reduce returns to producers below those determined in accordance with the requirements of this part through any subterfuge or device whatsoever.

STATEMENT OF BASES AND CONSIDERATIONS

General. The foregoing determination establishes the fair and reasonable price requirements which must be met, as one of the conditions for payment under the act, by a producer who processes sugarbeets of the 1974 crop grown by other producers.

Requirements of the act. Section 301(c)(2) of the act provides as a condition for payment, that the producer on the farm who is also, directly or indirectly a processor of sugarbeets, as may be determined by the Secretary, shall have paid, or contracted to pay under either purchase or toll agreements, for any sugarbeets grown by other producers and processed by him at rates not less than those that may be determined by the Secretary to be fair and reasonable after investigation and due notice and opportunity for public hearing.

1974-crop fair price determination. This determination provides that a processor shall be deemed to have complied with the fair price provisions of the act if he has paid, or contracted to pay, prices for all sugarbeets processed that are not less than those determined pursuant to the applicable 1974-crop purchase contract with producers. Other provisions of the 1973-crop determination are continued essentially unchanged.

At the public hearing in Ann Arbor, Michigan, a representative of the Growers, Farmers and Manufacturers of Beet Sugar Association, stated that unless the sugar industry maintains itself in a competitive price position with other crops, beet growers are going to cut down production or cut out production entirely.

At the hearing held in San Francisco, California, a representative of the Utah-Idaho Sugar Company recommended that the Department increase the processor's share of net returns above the $10.00 net return level. In support of the recommendations, the witness stated that the processor has borne the risk for the safe storage of beets and for fluctuating marketing conditions; that the average price for beets paid to growers in territories served by the Utah-Idaho Sugar Company has been increasing faster than the average paid in all areas over the past few years; and that it is in the best interests of the growers, the communities where they live, and the nation itself to keep all of the present factories in operation.

The National Sugarbeet Growers Federation and two grower associations submitted supplemental briefs objecting to the proposal by Utah-Idaho Sugar Company to change the sharing relationship in favor of the processor. In support of their view, they pointed out that deterioration of the beet sugar industry is due to poor management decisions in operations and marketing, and obsolete processing techniques; that growers not only accept the full risk of producing a crop of sugarbeets, but also share the risk of sugar shrinkage; and that the growers' share of returns is already insufficient, and any attempt to reduce it will result in a further decline in acreage.

The Utah-Idaho Sugar Company submitted a brief in which they modified their recommendation of increasing the processor's share of net returns above $10.00. In the brief, they requested that the processor's share of net returns above the $10.50 level of net returns be increased. They stated that the change in the sharing relationship would be made only in increments of net returns not yet achieved, and therefore the effect would not be retrogressive.

Examination of the 1974-crop purchase contracts, which have been negotiated by producers and processors and submitted to the Department subsequent to the hearings, indicates that with few exceptions the major provisions relating to payments for sugarbeets conform to those of the 1973-crop contracts. One processor increased its scale of payments so that growers will have a greater share in net returns. Another processor changed the schedule of payments to cover higher net returns, but the growers' share will remain unchanged. One company has changed one of its contracts so that payment will be based on two factory cossette test districts, whereas in 1973 there were five cossette test districts. One processor changed the basis for payment from cossette test to modified individual sugar content test in one contract. Another company has amended its contract to include early harvested beets in the calculation of the average sugar content of beets under certain circumstances. There are two amendments to the contracts between two California processors and their growers to make the initial payment for sugarbeets at $9.25 net selling price.

A sugarbeet processor has added an amendment to one of its contracts requiring the grower to pay all transportation charges in excess of $1.50 per ton of beets delivered to the factory; increased in one of its districts the additional amount paid for beets delivered by the grower directly to the receiving station; and added amendments to another contract requiring growers to pay all delivery expenses, with stipulated reimbursements to be made by the company. Another processor increased the grower freight participation charges in some of its contracts; in one contract the company agreed to pay a hauling allowance for beets delivered to the designated beet receiving station and released growers from participation in freight costs; and in another contract the company increased the deduction from grower payments for the company's bulk sugar storage facilities. Another processor has effected a change in its contracts by lowering the deduction to be applied to the net basic price for sugarbeets delivered prior to October 1, 1974.

Other changes in the 1974 purchase contracts include increases in the price of sugarbeet seed by six companies; increases in the deduction for association dues by three companies; an increase in the deduction for experimental work at another company; and elimination of the provision for beet seed by another company.

The processor recommendation that the sharing relationship at increments of net returns above the $10.50 level be increased in favor of the processor has been evaluated.

Consideration has been given to that and all other recommendations received at the hearings, to the provisions of the purchase contracts, to the comparative average costs of producers and processors obtained by field survey for a prior crop and recast in terms of prospective price and production conditions for the 1974 crop, and to other pertinent factors. Analysis of the comparative average operating results of producers and processors indicates that the producers' share of returns, on average, continues to be favorable as compared to their share of total production and processing costs, and that the provisions for payment in the 1974-crop purchase contracts are fair and reasonable at the levels of sugar prices and net returns which may be expected during the marketing season.

On the basis of an examination of all relevant factors, the provisions of this determination are deemed to be fair and reasonable. Accordingly, I hereby find and conclude that the foregoing price determination will effectuate the price provisions of the Sugar Act of 1948, as amended.

NOTE: The recordkeeping and reporting requirements of these regulations have been approved, by and subsequent recordkeeping and reporting requirements will be subject to the approval of the Office of Management and Budget in accordance with the Federal Reports Act of 1942.

Effective date. This determination shall become effective August 2, 1974, and is applicable to 1974-crop sugarbeets.

Signed at Washington, D.C. July 26, 1974.

GLENN A. WEIR,
Acting Administrator, Agricultural Stabilization and Conservation Service.

SCHEDULE A—STATEMENT OF AVERAGE NET RETURN TO NET PROCEEDS FROM SALES OF SUGAR [1]

Company _____
Settlement Area _____
Settlement Period _____

	Per Hundredweight Sugar (dollars)
Gross Sales Price	
Less Sales and Marketing Expenses (Applicable to Sugar only):	
Federal excise tax	
Freight on sugar to destination	
Cash discount	
Allowances	
Public storage (actually paid)	
Off-site storage owned by the processor (amount charged)	
On-site storage (computed charge) [2]	
Loading and handling	
Cost of packing in excess of basis pack	
Texas	
Insurance	
Brokerage and Commissions	
Advertising	
Sales department expenses:	
Salaries	
Travel	
Miscellaneous	
Other (specify)	
Total expense	
Net Return on Net Proceeds	

[1] Where the purchase contract provides that the proceeds from the sales of molasses and beet pulp are to be included in calculating the net return or net proceeds, show separately the gross price and the marketing expenses applicable to each.

[2] Obtain from Schedule A–2.

(Data will be held confidential and will not be published in any manner as would disclose the operations of any company.)

SCHEDULE A–1.—*Statement of gross sales prices applicable to sugar sold to affiliated companies or entities and used by the processor, as compared to sales to nonaffiliated purchasers*

Item	Affiliated purchasers	Used by processor	Nonaffiliated purchasers
Sugar sold or used—hundredweight			
	Dollars per hundredweight		
Quoted basis price	$	$	$
Customary allowances (itemize):			
Open competitive			
Other		XXXXX	
		XXXXX	
		XXXXX	
Basis price—less allowances			
Prepay		XXXXX	
Package differential		XXXXX	
Gross sales price			
Marketing expenses		(1)	
Net proceeds			

[1] If any marketing expenses are deducted from the gross sales price by the processor in computing net return for this particular sugar, such expenses shall be itemized separately.

NOTE.—Data will be held confidential and will not be published in any manner as would disclose the operations of any company.

SCHEDULE A–2—STATEMENT RELATING TO CHARGES FOR COMPANY-OWNED FACTORY-SITE BULK SUGAR, BULK PULP, AND CONCENTRATED JUICE STORAGE IN COMPUTING NET PROCEEDS, 1974-CROP (SUBMIT SEPARATE SCHEDULE FOR EACH FACILITY)

Company _____
Location of Bulk Sugar, Pulp, or Juice Storage Facility _____
Settlement Areas Included _____
Settlement Period _____
Sugar Sold During Settlement Period—Cwt _____

(Total Dollars)

Original cost of facility (year first used ____) _____
Improvements (item and date): _____
_____
Total cost of facility including improvements _____
Total Amount Recovered Prior to 1974-crop _____
Total Unrecovered Cost of Facility _____
Operating Costs or Charges for 1974-crop:
Interest on uncovered cost _____
Taxes _____
Insurance _____
Maintenance and Operating (Itemize): _____
_____
Total operating costs for 1974-crop _____
Amount applied against 1974-crop to amortize cost of facility _____
Total amount charged for facility in computing net proceeds—1974-crop—(to be carried to Schedule A as amount of deduction) _____
Unamortized cost of facility at end of 1974-crop _____

(Data will be held confidential and will not be published in any manner as would disclose the operations of any company.)

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Regulation 650]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

This regulation fixes the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period August 4–10, 1974. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910. The quantity of lemons so fixed was arrived at after consideration of the total available supply of lemons, the quantity of lemons currently available for market, the fresh market demand for lemons, lemon prices, and the relationship of season average returns to the parity price for lemons.

§ 910.950 Lemon Regulation 650.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the quantity of lemons that may be marketed during the ensuing week stems from the production and marketing situation confronting the lemon industry.

(i) The committee has submitted its recommendation with respect to the quantity of lemons it deems advisable to be handled during the ensuing week. Such recommendation resulted from consideration of the factors enumerated in the order. The committee further reports the demand for lemons has eased somewhat because of cooling trends along the Eastern Seaboard and in the Mid-West. Average f.o.b. price was $6.52 per carton the week ended July 27, 1974, compared to $6.30 per carton the previous week. Track and rolling supplies at 152 cars were up 12 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of lemons which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit

information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on July 30, 1974.

(b) *Order.* (1) The quantity of lemons grown in California and Arizona which may be handled during the period August 4, 1974, through August 10, 1974, is hereby fixed at 280,000 cartons.

(2) As used in this section, "handled", and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: August 2, 1974.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.74–17858 Filed 8–1–74;11:30 am]

Title 12—Banks and Banking

CHAPTER V—FEDERAL HOME LOAN BANK BOARD

SUBCHAPTER C—FEDERAL SAVINGS AND LOAN SYSTEM

[No. 74–749]

PART 545—OPERATIONS

Percentage Limitations on Real Estate Loan Investments by Federal Savings and Loan Associations

JULY 30, 1974.

The Federal Home Loan Bank Board considers it advisable to amend § 545.6–7(a)(1)(v) of the rules and regulations for the Federal Savings and Loan System (12 CFR 545.6–7(a)(1)(v)) for the purpose of conforming said section to the provisions of §§ 545.6–1(a) (4) and (5) (12 CFR 545.6–1 (a), (b)) relating to certain percentage-of-assets limitations on loans secured by single-family dwellings. Accordingly, the Board hereby amends said § 545.6–7(a)(1)(v) to read as set forth below, effective August 2, 1974.

Whether a loan is subject to a percentage-of-assets limitation under § 545.6–1(a) (4) or (5) depends upon both the value of the security property and the purchase price of the security property. Such a loan is subject to such applicable limitation as long as such loan is in excess of 80 percent of either the value or the purchase price of the security property, determined at the time the loan is made.

In part, § 545.6–7(a)(1) lists certain loans on single-family dwellings which are not subject to any percentage-of-assets limitation. Prior to the present amendment, § 545.6–7(a)(1)(v) did not conform to the provisions of said §§ 545.6–1(a) (4) and (5) in that said § 545.6–7(a)(1)(v) contained no provision relating to the purchase price of the security property. The present amendment corrects this inaccuracy in said § 545.6–7(a)(1)(v) by retaining the prior provision therein as to the value of the security property and by adding thereto an appropriate provision as to the purchase price of the security property.

Since the above amendment is of a technical nature to conform certain regulatory provisions and does not impose additional requirements, the Board hereby finds that notice and public procedure are unnecessary under the provisions of 12 CFR 508.11 and 5 U.S.C. 553(b); and the Board also finds, for the same reason, that publication for the 30-day period specified in 12 CFR 508.14 and 5 U.S.C. 553(d) prior to the effective date of said amendment is unnecessary; and the Board hereby provides that said amendment shall become effective as hereinbefore set forth.

Section 545.6–7 is amended by revising paragraph (a)(1)(v) as follows:

§ 545.6–7 Percentage limitations on real estate loan investments.

(a) * * *

(1) * * *

(v) a loan on a single-family dwelling made under § 545.6–1(a) (4) or (5), as long as such loan is in excess of 80 percent of the value or purchase price of the security property, whichever is less, determined at the time the loan was made;

* * * * *

(Sec. 5, 48 Stat. 132, as amended; (12 U.S.C. 1464) Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943–48 Comp., p. 1071)

By the Federal Home Loan Bank Board.

[SEAL] GRENVILLE L. MILLARD, Jr.,
Assistant Secretary.

[FR Doc.74–17705 Filed 8–1–74;8:45 am]

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 74–CE–13–AD; Amdt. 39–1911]

PART 39—AIRWORTHINESS DIRECTIVES

Cessna 177 Series Airplanes

There have been reports of failure of the oil pressure gage line between the firewall and the oil pressure gage on Cessna 177 series airplanes. This failure results in loss of engine oil and may cause subsequent engine damage and power loss due to oil starvation. Since this condition is likely to exist or develop in other airplanes of the same type design an airworthiness directive (AD) is being issued, applicable to certain serial numbers of Cessna Models 177, 177RG, and F177RG airplanes, requiring the installation of a set of clamps between the oil pressure gage line and the flap control cable in accordance with Cessna Service Letter SE74–2 dated January 25, 1974. This installation will preclude failure by providing support to the oil pressure gage line and reduce vibration of this line.

Since immediate action is required in the interest of safety, compliance with the notice and public procedure provision of the Administrative Procedure Act is not practical and good cause exists for making this amendment effective in less than thirty (30) days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation regulations is amended by adding the following new AD.

CESSNA.—Applies to Models 177 (Serial Numbers 17700001 thru 17702041), 177RG (Serial Numbers 177RG00001 thru 177RG0445) and F177RG (Serial Numbers F177RG0001 thru F177RG0092) airplanes.

Compliance: Within the next 50 hours' time in service after the effective date of this AD, unless already accomplished.

To prevent failure or chafing of the oil pressure gage line located between the firewall and the oil pressure gage, install clamps between the flap control cable and the oil pressure gage line in accordance with Cessna Service Letter SE74–2 dated January 25, 1974, or later approved revisions. Any alternate method of compliance must be approved by Chief, Engineering and Manufacturing Branch, FAA, Central Region.

This amendment becomes effective August 9, 1974.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Kansas City, Missouri, on July 25, 1974.

A. L. COULTER,
Director, Central Region.

[FR Doc.74–17677 Filed 8–1–74;8:45 am]

[Airworthiness Docket No. 74–WE–22–AD; Amdt. 39–1909]

PART 39—AIRWORTHINESS DIRECTIVES

Lockheed Model L–1011–385–1 Airplanes

A proposal to amend Part 39 of the Federal Aviation regulations to include an airworthiness directive requiring modification of the cargo door control system on L–1011–385–1 airplanes was published in 39 FR 18469.

Interested persons have been afforded an opportunity to participate in the making of the amendment.

One comment was received. The commentator requested a 2500 hour compliance time rather than the 1000 hour compliance time citing loss of service to the public, revenue losses, and the low probability of occurrence of the single failure that would cause the door to open. The FAA has considered this request and has extended the compliance time to 1800 hours, based on the base

overhaul period and the probability of occurrence of the failure.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation regulations is amended by adding the following new airworthiness directive:

LOCKHEED.—Applies to Model L-1011-385-1 series aircraft with Lockheed serial numbers 1002 through 1066, certificated in all categories.

Compliance required within 1,800 hours additional time in service after the effective date of this AD, unless already accomplished.

To prevent a single failure from causing a cargo door to open during takeoff roll, accomplish one of the following:

(a) Modification as described in Lockheed Service Bulletin 093-52-045 dated October 18, 1973, or later FAA-approved revisions.

(b) Equivalent modifications, approved by the Chief, Aircraft Engineering Division, FAA Western Region.

Aircraft may be flown to a base where maintenance may be performed per FAR's 21.197 and 21.199.

This amendment becomes effective September 11, 1974.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Los Angeles, California on July 25, 1974.

ARVIN O. BASNIGHT,
Director, FAA Western Region.

[FR Doc.74-17675 Filed 8-1-74;8:45 am]

[Docket No. 74-NE-30; Amdt. 39-1910]

PART 39—AIRWORTHINESS DIRECTIVE

Sikorsky S-56, S-64A, and S-64E Helicopters

There has been a report that test stand inspection of main rotor head spindle lock nuts, P/N S1510-23031-0 and P/N S1510-23031-1, on S-64 helicopters revealed fatigue cracks in the lock nuts, and indicated that stresses higher than those anticipated by the design are developed in critical areas of the lock nut. Failure of a lock nut during operation could cause failure of the main rotor blade. Since this condition is likely to exist or develop in other helicopters having a main rotor head spindle similar in design to that of the S-64, an Airworthiness Directive is being issued to impose life limits on main rotor head spindle lock nuts, P/N S1510-23031-0 and P/N S1510-23031-1, installed on Sikorsky S-56, S-64A, and S-64E helicopters.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than thirty (30) days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation regulations is amended by adding the following new Airworthiness Directive:

SIKORSKY AIRCRAFT.—Applies to S-64A, S-64E, and S-56 helicopters certificated in all categories.

Compliance required as indicated.

To prevent fatigue failures of the main rotor head spindle lock nut, accomplish the following:

(a) Before the accumulation of 750 hours time in service on a main rotor head spindle lock nut, P/N S1510-23031-0, or within the next 25 hours time in service after the effective date of this AD, whichever occurs later, replace the affected lock nut with a serviceable part of the same part number.

(b) Before the accumulation of 10,500 hours time in service on a main rotor head spindle lock nut, P/N S1510-23031-1, or within the next 25 hours time in service after the effective date of this AD, whichever occurs later, replace the affected lock nut with a serviceable part of the same part number.

This amendment becomes effective August 15, 1974.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Burlington, Massachusetts, on July 24, 1974.

FERRIS J. HOWLAND,
Director, New England Region.

[FR Doc.74-17676 Filed 8-1-74;8:45 am]

[Airspace Docket No. 74-GL-14]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On page 18469 of the FEDERAL REGISTER dated May 28, 1974, the Federal Aviation Administration published a notice of proposed rulemaking which would amend § 71.171 of Part 71 of the Federal Aviation regulations so as to designate a control zone at Jefferson, Ohio.

Interested persons were given 45 days to submit written comments, objections and data concerning the proposed amendments. Two comments were received. The Air Transport Association concurred with the proposal. Mr. Donald W. Allen of the Allen Airport, Dorset, Ohio, objected to the establishment of the control zone on the basis that it would create a hazard in encouraging instrument approaches to the Ashtabula County Airport. Mr. Allen indicated he did not believe the approach to Ashtabula County Airport is safe. However, the Agency believes that the control zone would give added protection to the instrument approach procedure and, in addition, would require current weather reports be made available to the pilots conducting an approach during the time the zone is effective. Accordingly, the proposed amendment is hereby adopted without change and is set forth below.

This amendment shall be effective October 10, 1974.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Des Plaines, Illinois, on July 25, 1974.

R. O. ZIEGLER,
Director, Great Lakes Region.

In § 71.171 (39 FR 354), the following control zone is added:

JEFFERSON, OHIO

Within a 5-mile radius of the Ashtabula County Airport (latitude 41°46'40" N., longitude 80°41'45" W.); within 3 miles each side of the Jefferson, Ohio VORTAC 242° radial, extending from the 5-mile radius zone to 8.5 miles SW of the VORTAC. This control zone is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual.

[FR Doc.74-17678 Filed 8-1-74;8:45 am]

[Airspace Docket No. 74-EA-53]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Area

The Federal Aviation Administration is amending §§ 71.171 and 71.181 of Part 71 of the Federal Aviation regulations so as to alter the Hazleton, Pa., Control Zone (39 FR 388) and Transition Area (39 FR 508).

The Control Zone and 700-foot floor Transition Area are described, in part, by reference to the Weatherly (Hazleton) radio beacon. The Weatherly radio beacon is a nonfederal facility and is being decommissioned in its present location as an IFR navigational aid.

The foregoing requires an alteration of the description in both airspace areas to delete reference to the radio beacon. Since the amendment is editorial in nature, notice and public procedure hereon are unnecessary.

In view of the foregoing, Part 71 of the Federal Aviation regulations is amended, effective 0901 G.m.t. September 12, 1974, as follows:

1. Amend § 71.171 of Part 71, Federal Aviation regulations so as to alter the description of the Hazleton, Pa. Control Zone by deleting, "to 13.5 miles east of the VOR; within 2 miles each side of a 276° bearing from the Weatherly RBN (40°58'47" N., 75°53'52" W.), extending from the 5-mile radius zone to the RBN." and by substituting therefor, "to 13.5 miles east of the VOR.".

2. Amend § 71.181 of Part 71, Federal Aviation regulations so as to alter the description of the Hazleton, Pa., 700-foot floor transition area by deleting, "to 19 miles east of the VOR; within 4.5 miles each side of a 071° bearing from the Weatherly RBN (40°58'47" N., 75°53'52" W.), extending from the 8.5-mile radius area to 10 miles east of the RBN; within 3.5 miles each side of a 076° bearing from the Weatherly RBN, extending from the 8.5-mile radius area to 11.5

miles east of the RBN." and by substituting therefor, "to 19 miles east of the VOR.".

(Sec. 307(a), Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Jamaica, N.Y., on July 22, 1974.

TIMOTHY L. HARTNETT,
Acting Director,
Eastern Region.

[FR Doc.74-17679 Filed 8-1-74;8:45 am]

[Airspace Docket 74-EA-25]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE AND REPORTING POINTS

Alteration of Control Zone and Transition Area; Effective Date Change

The Federal Aviation Administration is amending the subject docket so as to change the effective date due to a delay in the commissioning of a new landing system (39 FR 18769, May 30, 1974).

In view of the foregoing, the effective date is herewith changed from 0901 G.m.t. July 18, 1974 to 0901 G.m.t. September 12, 1974, upon publication in the FEDERAL REGISTER.

(Sec. 307(a), Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1346); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Jamaica, N.Y., on July 23, 1974.

ROBERT H. STANTON,
Director, Eastern Region.

[FR Doc.74-17680 Filed 8-1-74;8:45 am]

[Airspace Docket 74-EA-13]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE AND REPORTING POINTS

Alteration of Transition Areas; Effective Date Change

The Federal Aviation Administration published the subject docket to alter the Potsdam and Ogdensburg, N.Y., Transition Areas with an effective date of 0901 G.m.t. August 15, 1974 (39 FR 20479, June 11, 1974).

Because of the delay in commissioning the Potsdam, New York, RBN, the effective date is herewith changed to 0901 G.m.t. October 10, 1974.

(Sec. 307(a), Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1346); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Jamaica, N.Y., on July 23, 1974.

ROBERT H. STANTON,
Director, Eastern Region.

CHAPTER II—CIVIL AERONAUTICS BOARD

SUBCHAPTER D—SPECIAL REGULATIONS

[Regulation SPR-77; Amdt. 6]

PART 378a—BULK INCLUSIVE TOURS BY TOUR OPERATORS

Repeal of Part

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., July 29, 1974.

Part 378a of the Board's Special Regulations has, in effect, expired by its terms [1] and therefore should be repealed. Since repeal imposes no burden on anyone, the Board finds that notice and public procedure thereon are unnecessary and repeal may be made effective immediately.

Accordingly, the Civil Aeronautics Board hereby repeals Part 378a of the Special Regulations (14 CFR Part 378a), effective July 29, 1974.

(Sec. 204 of the Federal Aviation Act of 1958, as amended; 72 Stat. 743; (49 U.S.C. 1324.))

By the Civil Aeronautics Board.

Effective: July 29, 1974.

Adopted: July 29, 1974.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

Title 19—Customs Duties

CHAPTER I—UNITED STATES CUSTOMS SERVICE

[T.D. 74-204]

PART 6—AIR COMMERCE REGULATIONS

Duty on Foreign Repairs to U.S. Registered Aircraft Engaged in Trade

Correction

In FR Doc. 74-17269, appearing at page 27431 in the issue for Monday, July 29, 1974, the effective date in the paragraph above the signatures in the third column of page 27431 is corrected to read: "August 28, 1974."

Title 21—Food and Drugs

CHAPTER II—DRUG ENFORCEMENT ADMINISTRATION, DEPARTMENT OF JUSTICE

PART 1308—SCHEDULES OF CONTROLLED SUBSTANCES

Exempt Chemical Preparations

The Administrator of the Drug Enforcement Administration has received applications pursuant to § 1308.23 of Title 21 of the Code of Federal Regulations requesting that several chemical preparations containing controlled substances be granted the exemptions provided for in § 1308.24 of Title 21 of the Code of Federal Regulations.

The Administrator hereby finds that each of the following chemical preparations and mixtures is intended for laboratory, industrial, educational, or special research purposes, is not intended for general administration to a human being or other animal, and either (a) contains no narcotic controlled substance and is packaged in such a form or concentration that the package quantity does not present any significant potential for abuse, (b) contains either a narcotic or non-narcotic controlled substance and one or more adulterating or denaturing agents in such a manner, combination, quantity, proportion or concentration, that the preparation or mixture does not present any potential for abuse, or (c) the formulation of such preparation or mixture incorporates methods of denaturing or other means so that the controlled substance cannot in practice be removed, and therefore the preparation or mixture does not present any significant potential for abuse. The Administrator further finds that exemption of the following chemical preparations and mixtures is consistent with the public health and safety as well as the needs of researchers, chemical analysts, and suppliers of these products.

Therefore, pursuant to section 202(d) of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 812(d)), and under the authority vested in the Attorney General by sections 301 and 501(b) of the Act (21 U.S.C. 821 and 871(b) and delegated to the Administrator of the Drug Enforcement Administration by § 0.100 of Title 28 of the Code of Federal Regulations (see 38 FR 18380, July 2, 1973) the Administrator hereby orders that Part 1308 of Title 21 of the Code of Federal Regulations be amended as follows:

a. By amending § 1308.24(i) by adding the following chemical preparations:

§ 1308.24 Exempt chemical preparations.

Title 33—Navigation and Navigable Waters

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 74-97]

PART 117—DRAWBRIDGE OPERATION REGULATIONS

Sturgeon Bay, Wisconsin

This amendment changes the regulations for the Michigan Street drawbridge across Sturgeon Bay, Wisconsin, to permit closed periods from May 15 through September 15. This amendment was circulated as a public notice dated April 19, 1974 by the Commander, Ninth Coast Guard District and was published in the FEDERAL REGISTER as a notice of proposed rulemaking (CGD 74-97) on April 9, 1974 (39 FR 12870). Four comments were received. Three recommended that public vessels of the United States and/or commercial vessels be excluded from this requirement. These recommendations have validity and are incorporated in the regulation as published below. One recommended clarification or elimination of § 117.645(e) which sets forth certain standards for appurtenances unessential to navigation. After review of this matter the Coast Guard has determined that its elimination is the logical step to follow and it is therefore excluded in this section.

Accordingly, Part 117 of Title 33 of the Code of Federal Regulations is amended by revising § 117.645 to read as follows:

§ 117.645 Sturgeon Bay, Wisconsin; bridges.

(a) The owners of or agencies controlling the highway drawbridge over Sturgeon Bay shall provide the necessary tenders and the proper mechanical appliances for the safe, efficient openings of the draw.

(b) Signals: (1) The opening signal shall be one long blast followed by one short blast of a whistle, horn, siren or by shouting.

(2) Acknowledging Signals: (i) When the draw will open, same as opening signal.

(ii) When the draw will not open or is open and must be closed—four short blasts, repeated at regular intervals until acknowledged by the vessel. As soon as the draw can open, the drawtender shall sound the opening signal.

(c) Draw Operation Requirements: (1) The draw of the railroad bridge shall be maintained in the fully open position.

(2) The draw of the highway bridge shall open as follows:

(i) From March 15 through May 14 and from September 16 through December 31—on signal.

(ii) From May 15 through September 15, from 6:00 p.m. to 6:30 a.m.—on signal.

(iii) From May 15 through September 15, from 6:30 a.m. to 6:00 p.m.—on the hour and half-hour provided vessels are waiting to pass. However, public vessels of the United States and commercial vessels shall be passed through the draw on signal during this period.

(iv) From January 1 through March 14—on signal if at least 12 hours notice is given.

(d) Clearance gauges, of a type approved by the Commandant, shall be installed on the upstream and downstream sides of the drawbridge by and at the expense of the owner of or agency controlling the bridge and such gauges shall be kept in good repair and legible condition.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g)(2); 49 CFR 1.46(c)(5), 33 CFR 1.05-1(c)(4))

Effective date. This revision shall become effective on September 2, 1974.

Dated: July 23, 1974.

R. I. PRICE,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

[FR Doc.74-17685 Filed 8-1-74;8:45 am]

Title 41—Public Contracts and Property Management

CHAPTER 101—FEDERAL PROPERTY MANAGEMENT REGULATIONS

SUBCHAPTER E—SUPPLY AND PROCUREMENT

[FPMR Amdt. E-147]

PART 101-27—INVENTORY MANAGEMENT

Subpart 101-27.3—Maximizing Use of Inventories

REVISED CRITERIA FOR ESTABLISHING ECONOMIC RETENTION LIMITS

This amendment provides updated information based upon prevailing conditions in the present economy for agency use in establishing economic stock retention limits.

Section 101-27.304-1 is revised as follows:

§ 101-27.304-1 Establishment of economic retention limit.

An economic retention limit must be established for inventories so that the Government will not incur any more than the minimum necessary costs to provide stock of an item at the time it is required. Generally, it would be more economical to dispose of stock in excess of the limit and procure stock again at a future time when the need is more proximate rather than incur the cumulative carrying costs.

(a) The agency managing a centrally managed or agency managed item shall establish an economic retention limit so that the total cumulative cost of carrying a stock of the item (including interest on the capital that is tied up in the accumulated carrying costs) will be no greater than the reacquisition cost of the stock (including the procurement or order cost). Consideration should be given to any significant net return that might be realized from present disposal of the stock. Where no information has been issued, the net return from disposal is assumed to be zero. Guidelines for setting stock retention limits are provided in the following table and explanatory remarks that follow:

Annual carrying costs as a percentage of item reacquisition costs	Economic retention limit in years of supply—net return on disposal as a percentage of item reacquisition costs				
	0	5	10	15	20
10	7¼	6¾	6¼	6	5⅝
15	5⅛	5	4⅞	4¼	4
20	4¼	4	3¾	3½	3¼
25	3½	3¼	3	3	2¾
30	3	2¾	2⅝	2⅛	2¼
35	2⅝	2⅛	2¼	2¼	2
40	2⅛	2¼	2	2	1⅝

NOTE: The entries in the tables were calculated by determining how long an item must be carried in inventory before the total cumulative carrying costs (including interest on the additional funds that would be tied up in the accumulated annual carrying costs) would exceed the acquisition costs of the stock at that time (reacquisition costs). For example, assuming no net return from disposal, the accumulated carrying costs computed at the rate of 25 percent per year on the reacquisition cost of the stock and compounded annually at 10 percent (GSA's recommended rate of interest on Government investments) would be:

Years	Compounded carrying costs as a percentage of reaquisition costs	Accumulated costs as a percentage of reacquisition costs
1	27.5	27.5
2	30.3	57.8
3	33.3	91.1
4	36.6	127.7
5	40.3	168.0
6	44.3	212.3

At 25 percent a year, accumulated carrying costs would be equivalent to the reacquisition costs after 3½ years. Three and one-half years is, therefore, the economic retention limit for items with a 25 percent annual carrying cost rate. Where an activity has not yet established an estimate of its carrying cost, an annual rate of 10 percent may be used as an interim rate thereby resulting in an economic retention limit of 7¼ years when the net return on disposal is zero. The elements of carrying (holding) cost are given in the GSA Handbook, The Economic Order Quantity Principle and Applications. The handbook is listed in the GSA Supply Catalog and may be ordered in the same manner as other items in the catalog.

(b) The economic retention limit at a user stocking activity can best be determined by the item manager (for centrally managed or agency managed items) on the basis of overall Government requirements and planned procurement. Since stocks in long supply at a user stocking activity are less likely to find utilization outlets, the retention limit at these activities should be relatively small. Generally the economic retention limit at a user stocking activity should be computed in the same manner as in paragraph (a) of this section and then reduced by 70 percent.

(Sec. 205(c), 63 Stat. 390; (40 U.S.C. 486(c)))

Effective date. This regulation is effective August 2, 1974.

Dated: July 24, 1974.

DWIGHT A. INK,
Acting Administrator of General Services.

[FR. Doc.74-17549 Filed 8-1-74;8:45 am]

Title 42—Public Health

CHAPTER I—PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 52a—NATIONAL HEART AND LUNG INSTITUTE GRANTS FOR NATIONAL RESEARCH AND DEMONSTRATION CENTERS

On April 18, 1974 a notice of proposed rulemaking was published in the FEDERAL REGISTER (39 FR 13895), proposing addition of a new part 52a to 42 CFR for the purpose of implementing section 415(b) of the Public Health Service Act, which authorizes the Director, National Heart and Lung Institute, to make grants to plan, establish, strengthen, and support the basic operation of national research centers for basic or clinical research into, training in, and demonstration of, advanced diagnostic, prevention, and treatment methods for heart, blood vessel, lung, and blood diseases.

Interested persons were invited to submit, on or before May 17, 1974, written comments regarding the proposed regulations.

One comment was received, objecting to § 52a.8(b)(2), which specifically identified library support as a non-allowable cost. This provision has been deleted from the final regulations, along with the remainder of § 52a.8(b), and § 52a.8(a), inasmuch as the cost principles covering this program are now set forth in subpart Q of 45 CFR Part 74 (incorporated by reference in § 52a.11).

In addition to the foregoing, a few minor changes have been made in the regulations, all editorial or technical in nature.

This part shall become effective on August 2, 1974.

Dated: June 25, 1974.

CHARLES C. EDWARDS,
Assistant Secretary for Health.

Approved: July 25, 1974.

FRANK CARLUCCI,
Acting Secretary.

Accordingly, Title 42 of the Code of Federal Regulations is amended by adding a new Part 52a, as follows:

Sec.
52a.1 Applicability.
52a.2 Definitions.
52a.3 Eligibility.
52a.4 Application.
52a.5 Program requirements.
52a.6 Grant Awards.
52a.7 Payment.
52a.8 Expenditure of grant funds.
52a.9 Nondiscrimination.
52a.10 Human subjects; animal welfare.
52a.11 Applicability of 45 CFR Part 74.
52a.12 Progress and fiscal records and reports.
52a.13 Grantee accountability.
52a.14 Publications and copyright.
52a.15 Additional conditions.

AUTHORITY: Sec. 215, 58 Stat. 690, as amended (42 U.S.C. 216); sec. 415(b), 86 Stat. 683 (42 U.S.C. 287d(b)).

§ 52a.1 Applicability.

The regulations in this part apply to grants (other than for construction) to plan, establish, strengthen, and support the basic operation of national research and demonstration centers for basic or clinical research into, training in, and demonstration of advanced diagnostic, prevention, and treatment methods for heart, blood vessel, lung, and blood diseases, as authorized by section 415(b) of the Public Health Service Act (42 U.S.C. 287d(b)).

§ 52a.2 Definitions.

(a) "Act" means the Public Health Service Act, as amended.

(b) "Director, NHLI," means the Director of the National Heart and Lung Institute and any other officer or employee of said Institute to whom the authority involved has been delegated.

(c) "Nonprofit" as applied to any agency or institution means an agency or institution which is a corporation or an association no part of the net earnings of which inures or may lawfully inure to the benefit of any private shareholder or individual.

(d) "Council" means the National Heart and Lung Advisory Council established by section 417(a) of the Act (42 U.S.C. 287f(a)).

(e) "National Program" means the National Heart, Blood Vessel, Lung, and Blood Disease Program referred to in section 413 of the Act (42 U.S.C. 287b).[1]

§ 52a.3 Eligibility.

To be eligible for a grant under this part, an applicant must be:

(a) a public or nonprofit private hospital or school of medicine, or other public or nonprofit private agency or institution; and

(b) located in a State, the District of Columbia, Puerto Rico, the Virgin Islands, the Canal Zone, Guam, American Samoa, or the Trust Territory of the Pacific Islands.

§ 52a.4 Application.

(a) Each agency or institution desiring a grant under this part shall submit an application in such form and manner and on or before such dates as the Director, NHLI, may from time to time require.[2] Such application shall be executed by an individual authorized to act for the applicant and to assume on behalf of the applicant the obligations imposed by the terms and conditions of the award, including the regulations of this part.

(b) In accordance with section 1–00–30 of the Department of Health, Education, and Welfare Grants Administration Manual,[3] each private institution which does not already have on file with the National Institutes of Health evidence of nonprofit status, must submit with its application acceptable proof of such status.

(c) In addition to any other pertinent information that the Director, NHLI, may require, each application shall set forth in detail:

(1) The personnel, facilities, and other resources currently available to the applicant with which to initiate and maintain the proposed center program;

(2) Any basic or clinical research, training, or demonstration activities in which the applicant is currently engaged relating to advanced diagnostic, prevention, or treatment methods for heart, blood vessel, lung, or blood diseases; the sources of funding for such activities; and the relevance of these activities to the National Program;

(3) The major disease area or areas (i.e., heart, blood vessel, lung, or blood diseases) on which the applicant would concentrate if awarded a grant under this part;

(4) The names and qualifications of the center director and key staff members who would be responsible for conducting proposed activities of the center;

(5) The proposed center program, including proposed research and demonstration projects and information and education activities, and the relevance of each to the National Program;

(6) The opportunities that would be available for training of professional personnel, including allied health professions personnel;

(7) The availability of community resources necessary to carry out the proposed activities;

(8) The organizational structure of the applicant;

(9) The proposed support period (not to exceed five years); a detailed budget including a list of other anticipated sources of support; and a justification for the amount of grant funds (not exceeding $5,000,000 in any year) requested;

(10) Proposed methods for monitoring and evaluating individual activities and the overall program; and

(11) Proposed methods for coordination of center activities with the National Heart and Lung Institute and the National Program.

§ 52a.5 Program requirements.

An approvable application must provide assurances that:

(a) The proposed program will include all of the following components: basic and clinical research relating to the major disease areas on which the applicant would concentrate; plans for demonstrating the applicability of clinical research findings in such disease areas; information and education activities pertaining to such disease areas; and opportunities for training, including training of allied health professions personnel;

(b) The center will be an identifiable organizational unit of the applicant headed by a center director responsible for the center program;

(c) The applicant will have staff, facilities, and other resources available with which to initiate the proposed program; and

(d) Any significant changes in the center's scientific or other activities will be made only with the prior approval of the Director, NHLI.

§ 52a.6 Grant awards.

(a) Within the limits of funds available, after consultation with the Council, the Director, NHLI, may award grants to applicants with proposed programs which in his judgment best promote the purposes of section 415(b) of the Act, taking into consideration among other pertinent factors:

(1) The scientific and technical merit of the overall proposed program and its individual components;

(2) The significance of said program in relation to the goals of the National Program;

(3) The qualifications and experience of the center director and other key personnel;

(4) The extent to which the center activities would be coordinated with the National Heart and Lung Institute and the National Program;

(5) The extent to which the various components of the proposed program would be coordinated into one multidisciplinary effort within the center;

(6) The administrative and managerial capability of the applicant;

(7) The reasonableness of the proposed budget in relation to the proposed program;

(8) The adequacy of the methods for monitoring and evaluating the overall program and its components; and

(9) The degree to which the application adequately provides for the requirements set forth in § 52a.5.

(b) All grant awards shall be in writing and shall specify the period of support (not to exceed five years), the total recommended amount of funds for the entire period of support, the approved budget for the initial budget period, and the amount awarded (not in excess of $5,000,000 in any year) for the initial budget period.

(c) Neither the approval of any application nor any grant award shall commit or obligate the United States in any way to make any additional, supplemental, continuation, or other award with respect to any approved application or portion thereof.

(d) The amount of any grant award shall be determined by the Director, NHLI, on the basis of his estimate of the sum necessary to pay all or part of the allowable costs for the budget period covered by the award.

(e) An initial period of support may be extended by the Director, NHLI, for additional periods not in excess of five years each, after review of the operations of the grantee by an appropriate scientific review group established by the Director, NHLI, and consultation with the Council, except that if an additional period of support involves only the expenditure of funds previously awarded, consultation with the Council is not required.

---

[1] Single copies of the National Program are available upon request from the Division of Extramural Affairs, National Heart and Lung Institute, National Institutes of Health, 9000 Rockville Pike, Bethesda, Maryland 20014.

[2] Applications and instructions are available from the Division of Extramural Affairs, National Heart and Lung Institute, National Institutes of Health, 9000 Rockville Pike, Bethesda, Maryland 20014.

[3] The Department of Health, Education, and Welfare Grants Administration Manual is available for public inspection and copying at the Department's and Regional Offices' information centers listed in 45 CFR § 5.31 and may be purchased from the Superintendent of Documents, U.S. Printing Office, Washington, D.C. 20402.

§ 52a.7 Payment.

The Director, NHLI, shall from time to time make payments to a grantee of all or a portion of any grant award, either in advance or by way of reimbursement, for expenses incurred or to be incurred in accordance with its approved application.

§ 52a.8 Expenditure of grant funds.

(a) Any funds granted pursuant to this part shall be expended solely for the purposes for which the funds were granted in accordance with the approved application and budget, the regulations of this part, the terms and conditions of the award, and the applicable cost principles prescribed by subpart Q of 45 CFR Part 74.

(b) Any unobligated grant funds remaining in the grant account at the close of a budget period may, with prior approval by the Director, NHLI, be carried forward and remain available for obligation during the remainder of the period of support and any extensions thereof (approved in accordance with § 52a.6(e) of this part), subject to such limitations as the Director, NHLI, may prescribe. The amount of any subsequent award will take into consideration unobligated grant funds remaining in the grant account. At the end of the final period of support any unobligated grant funds remaining in the grant account must be refunded to the Federal Government.

§ 52a.9 Nondiscrimination.

(a) Attention is called to the requirements of Title VI of the Civil Rights Act of 1964 (78 Stat. 252, 42 U.S.C. 2000d et seq.) which provides that no person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. A regulation implementing such Title VI, which is applicable to grants made under this part, has been issued by the Secretary of Health, Education, and Welfare with the approval of the President (45 CFR Part 80).

(b) Attention is also called to the requirements of Title IX of the Education Amendments of 1972 and in particular to section 901 of such Act which provides that no person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance.

(c) Grant funds used for alterations and renovations shall be subject to the condition that the grantee shall comply with the requirements of Executive Order 11246, 30 FR 12319 (Sept. 24, 1965), as amended, and with the applicable rules, regulations, and procedures prescribed pursuant thereto.

§ 52a.10 Human subjects; animal welfare.

No award may be made under this part unless the applicant has complied with:

(a) 45 CFR Part 46 and any other applicable requirements pertaining to the protection of human subjects.

(b) Chapter 1–43 of the Department of Health, Education, and Welfare Grants Administration Manual and any other applicable requirements concerning animal welfare.

§ 52a.11 Applicability of 45 CFR Part 74.

The provisions of 45 CFR Part 74, establishing uniform administrative requirements and cost principles, shall apply to all grants under this part to State and local governments as those terms are defined in Subpart A of that Part 74. The relevant provisions of the following subparts of Part 74 shall also apply to grants to all other grantee organizations under this part:

45 CFR PART 74

Subpart
- A General
- B Cash Depositories
- C Bonding and Insurance
- D Retention and Custodial Requirements for Records
- F Grant-Related Income
- G Matching and Cost Sharing
- K Grant Payment Requirements
- M Grant Closeout, Suspension, and Termination
- O Property
- Q Cost Principles

§ 52a.12 Progress and fiscal records and reports.

Each grant award shall require that the grantee maintain such progress and fiscal records and file with the Director, NHLI, such progress and fiscal reports relating to the conduct and results of the approved grant and the use of grant funds as the Director, NHLI, may find necessary to carry out the purposes of section 415(b) of the Act and the regulations.

§ 52a.13 Grantee accountability.

(a) All payments made by the Director, NHLI, shall be recorded by the grantee in accounting records separate from the records of all other grant funds, including funds derived from other grant awards. With respect to each approved center the grantee shall account for the sum total of all amounts paid by presenting or otherwise making available to the Director, NHLI, satisfactory evidence of expenditures for direct and indirect cost, meeting the requirements of this part.

(b) *Accounting for royalties.* Royalties received by grantees from copyrights on publications or other works developed under the grant, or from patents or inventions conceived or first actually reduced to practice in the course of or under such grant, shall be accounted for as follows:

(1) *State and local governments.* Where the grantee is a State or local government as those terms are defined in subpart A of 45 CFR Part 74, royalties shall be accounted for as provided in 45 CFR 74.44.

(2) *Grantees other than State and local governments.* Where the grantee is not a State or local government as those terms are defined in subpart A of 45 CFR Part 74, royalties shall be accounted for as follows:

(*a*) Patent royalties, whether received during or after the grant period, shall be governed by agreements between the Assistant Secretary for Health, Department of Health, Education, and Welfare, and the grantee, pursuant to the Department's patent regulations (45 CFR Parts 6 and 8).

(*b*) Copyright royalties, whether received during or after the grant period, shall first be used to reduce the Federal share of the grant to cover the costs of publishing or producing the materials, and any royalties in excess of the costs of publishing or producing the materials shall be distributed in accordance with Chapter 1–420 of the Department of Health, Education, and Welfare Grants Administration Manual.

§ 52a.14 Publications and copyright.

(a) *State and local governments.* Where the grantee is a State or local government as those terms are defined in subpart A of 45 CFR Part 74, the Department of Health, Education, and Welfare copyright requirement set forth in 45 CFR 74.140 shall apply with respect to any book or other copyrightable materials developed or resulting from an activity supported by a grant under this part.

(b) *Grantees other than State and local governments.* Where the grantee is not a State or local government as those terms are defined in subpart A of 45 CFR Part 74, except as may otherwise be provided under the terms and conditions of the award, the grantee may copyright without prior approval any publications, films, or similar materials developed or resulting from an activity supported by a grant under this part, subject to a royalty-free, non-exclusive, and irrevocable license or right in the Government to reproduce, translate, publish, use, disseminate and dispose of such materials, and to authorize others to do so.

§ 52a.15 Additional conditions.

The Director, NHLI, may with respect to any grant award impose additional conditions prior to or at the time of any award when in his judgment such conditions are necessary to assure or protect advancement of the approved program, the interests of the public health, or the conservation of grant funds.

Title 43—Public Lands: Interior

CHAPTER II—BUREAU OF LAND MANAGEMENT, DEPARTMENT OF THE INTERIOR

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 5429]

[Riverside 03582]

CALIFORNIA

Partial Revocation of Public Water Reserve

By virtue of the authority vested in the President by section 1 of the Act of June 25, 1910, 43 U.S.C. 141 (1970), and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Executive Order No. 6116 of April 29, 1933, creating Public Water Reserve No. 151, as amended by Public Land Order No. 814 of April 1, 1952, is hereby revoked so far as it affects the following described land:

SAN BERNARDINO MERIDIAN

T. 5 S., R. 6 E.,
Sec. 28, formerly the northerly 30.59 acres of lot 5, now described as lot 13.

The area described aggregates 30.59 acres in Riverside County, in accordance with the supplemental plat of sec. 28, filed September 23, 1968.

2. This revocation is made in furtherance of an exchange under section 8 of the Act of June 28, 1934, as amended, 43 U.S.C. 315g (1970).

JACK O. HORTON,
Assistant Secretary of the Interior.

JULY 25, 1974.

[FR Doc.74-17639 Filed 8-1-74;8:45 am]

[Public Land Order 5432]
[Utah 0147788]

UTAH

Amendment and Correction of Public Land Order No. 5414

By virtue of the authority contained in section 24 of the Federal Power Act of June 10, 1920, as amended, 16 U.S.C. 818 (1970), and pursuant to a determination of the Federal Power Commission in DA-192-Utah, it is ordered as follows:

1. Paragraph 1 of Public Land Order No. 5414 of February 13, 1974, Powersite Restoration No. 650, partially revoking Powersite Withdrawal No. 107, which appeared in the FEDERAL REGISTER issue of February 20, 1974, 39 FR 6519, is hereby amended to add and delete the following described national forest lands as indicated:

Add:

ASHLEY NATIONAL FOREST

SALT LAKE MERIDIAN

T. 3 N., R. 21 E.,
sec. 28, SW¼NW¼.
T. 2 N., R. 22 E.,
sec. 7, SE¼NW¼.

The above described areas aggregate 80 acres.

Delete:

T. 3 N., R. 21 E.,
sec. 28, SW¼SW¼.
T. 2 N., R. 22 E.,
sec. 7, SE¼SW¼ (Nonexistant).

2. Paragraph 2 of Public Land Order No. 5414 is hereby amended to include the following described land which was inadvertently omitted:

SALT LAKE MERIDIAN

T. 3 N., R. 21 E.,
sec. 29, S½S½.

The above described lands contain 160 acres.

3. The purpose of this order is to correct the descriptions in paragraph 1 of subject order, and to add lands which were inadvertently omitted from paragraph 2 of said order.

4. Of the lands deleted in paragraph 1 of this order the SE¼SW¼ of sec. 7 is nonexistant and SW¼SW¼ section 28 is in the Ashley National Forest and has been withdrawn for the Flaming Gorge National Recreation Area under the jurisdiction of the Department of Agriculture pursuant to the Act of October 1, 1968, 82 Stat. 904. Subject lands will not be open to entry, and any use of these lands will be governed by the provisions of that Act, and the provisions of existing withdrawals.

5. It has been determined that the promulgation of this public land order is not a major Federal action significantly affecting the quality of the human environment and that no detailed statement pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, 42 U.S.C. section 4332(2)(C), is required.

JACK O. HORTON,
Assistant Secretary of the Interior.

JULY 26, 1974.

Title 45—Public Welfare

CHAPTER II—SOCIAL AND REHABILITATION SERVICE (ASSISTANCE PROGRAMS), DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 205—GENERAL ADMINISTRATION—PUBLIC ASSISTANCE PROGRAMS

PART 249—SERVICES AND PAYMENT IN MEDICAL ASSISTANCE PROGRAMS

Medicaid; Financial Penalty for Failure to Provide Child Health Screening Services

Notice of proposed rule making was published December 19, 1973 at 38 FR 34821, implementing section 299F of Pub. L. 92-603, Social Security Amendments of 1972. Requirements were specified for the application of a financial penalty against States which fail to inform AFDC families of the availability of screening, diagnosis and treatment services under the title XIX program of medical assistance, or to provide or arrange for such services.

Five State agencies, eight organizations and one Congressional delegation responded. Two respondents concurred in the regulation as proposed. Several suggested changes which could be made only by statute, such as application of the penalty against title XIX rather than AFDC funds or postponement of effective date. The remaining major comments and the Department's response are summarized below:

1. *Minimum screening services.* A respondent stated that the minimum components of a State screening program should be expanded by incorporating the recommended services listed in the screening guideline, MSA-PRG-21. This would be inappropriate at this time, because States need flexibility to meet their own particular health needs, and, in fact, most States have incorporated the recommended services.

2. *Annual written notification of AFDC families.* Suggestions were that written notice be optional; that States set their own notification schedules; and that in addition to written notice, other more aggressive techniques including personal contact be required. A written notice is the most practical method of complying with the requisites of Congressional intent. Given the limited capability of States to relate notification schedules to screening schedules on an individual basis, and the flow of recipients in and out of the assistance payments system, notification no less often than annually is a reasonable compromise. With respect to the third comment, the purpose of the regulation is only to prescribe the requirements representing the legal minimum necessary to avoid a penalty. In implementing the program, States are free to use additional means to inform recipients, including mass media, educational programs, and caseworker contacts.

3. *Informing the medically needy.* The suggestion was made that Congress intended the informing process be extended to the medically needy. However, by statute, the penalty can apply only to the failure to inform, provide or arrange for EPSDT services to those on cash assistance.

4. *Providing necessary transportation.* The requirement was interpreted to mean provision routinely of transportation for all Medicaid eligibles. This is not intended; the regulation has been clarified to indicate that the reference is simply to the existing requirement in effect under State plans.

5. *Provision of screening within 60 days of request, and of diagnosis and treatment within 60 days of screening.* Objections to the time requirements cited the possible difficulty of scheduling appointment to read "a reasonable period norecipients or scarcity of providers. To allow for extenuating circumstances, the Department has changed the requirement to read "as reasonable period normally not to exceed 60 days" from the date of request or screening.

6. *Arrangement for treatment not available under State plans.* It was suggested that the State should refer eligible children to other sources for uncovered services. States have been encouraged to make such referrals (MSA-PRG-21), and this is also included in the guide issued with this regulation.

7. *Informing recipients of provider names and locations.* One respondent interpreted the requirement to mean that recipients were to be given a list of all providers, regardless of the particular type of service needed. This is not intended. States may furnish lists geared to service needs. It was also suggested that the lists be provided only on request; this is not acceptable since such provision is part of the State's responsibility for arranging for services.

8. *Reports and other means for determining application of penalty, and documentation by States.* Respondents suggested both more and fewer reporting and documentation requirements. The

Department does not believe it practical to impose additional requirements at this time, since many States do not have the necessary capability. The requirements as stated are the minimum necessary to assure proper application of the penalty, which relates to all aspects of informing families and providing and arranging for services. In administering any statistical reporting system, the Department will allow reasonable time periods for collecting and reporting data. One respondent suggested the reporting system be able to demonstrate that States will develop and maintain standards for quality of care. The statutory provisions relating to the penalty do not provide authority to establish standards for quality of care. However, existing title XIX regulations require States to assure quality of all services (45 CFR 249.10(a)(8)).

9. *Existing enforcement procedures.* The question was raised whether existing administrative compliance procedures are replaced by the penalty provision. Congress has provided, with the one percent penalty, an additional penalty for nonimplementation. Existing enforcement authorities also remain in effect.

Accordingly, the regulation as proposed with changes noted above in items 4 and 5 has been adopted. A technical change has also been made to clarify that the provision for reconsideration of imposition of a penalty, under section 1116 (d) of the Social Security Act, applies to the WIN and family planning sanctions specified in § 205.146 (a) and (b) as well as to the early screening penalty (new § 205.146(d)).

Chapter II, Title 45 of the Code of Federal Regulations is amended as follows:

1. Section 205.146 of Part 205 is amended by adding new paragraphs (c) and (d) to read as set forth below:

§ 205.146 Specific limitations on Federal financial participation under title IV–A.

* * * * *

(c) *Penalty for failure to provide early and periodic screening, diagnosis and treatment of children under Title XIX of the Act*—(1) *General.* Pursuant to section 403(g) of the Act, notwithstanding any other provision of this chapter, total payments to a State under title IV–A of the Act for any quarter of any fiscal year beginning on or after July 1, 1974, shall be reduced by 1 percentage point (calculated without regard to any other reduction under this section), if the State fails to:

(i) Inform all families in the State receiving Aid to Families with Dependent Children under the State's title IV–A plan of the availability of child health screening services under the State's title XIX plan. For purposes of this provision, to "inform" means to notify all AFDC families in writing no less often than annually of the availability of the early and periodic screening, diagnosis and treatment (EPSDT) program under the State title XIX plan by providing pamphlets, brochures, or other written materials, which clearly and specifically describe (A) what EPSDT services are available and (B) where and how they may be obtained. States must also have arrangements to inform those individuals for whom printed material is inappropriate.

(ii) Provide or arrange for the provision of such screening services in all cases where they are requested. This means that a State must:

(A) Inform recipients requesting screening services of the names and locations of providers offering such services, and of the transportation services available under the State plan as required under § 249.10(a)(5) of this chapter; and

(B) Take steps to assist recipients requesting screening services so that such recipients are able to receive them within a reasonable period normally not to exceed 60 days from the date of request.

(iii) Arrange for (directly or through referral to appropriate agencies, organizations, or individuals) corrective treatment the need for which is indicated by such screening services and which is available under the State plan in accordance with § 249.10(a)(3) of this chapter. This means that the State must:

(A) Inform recipients in need of diagnostic and treatment services of the names and locations of health providers offering such services, and of the transportation services available under the State plan as required under § 249.10(a)(5) of this chapter; and

(B) Take steps to assist recipients needing diagnostic and treatment services so that such recipients are able to receive them within a reasonable time period. Initial diagnosis and treatment must be available normally within 60 days of the screening.

(2) *Application of penalty.* (i) The penalty will be applied on a quarterly basis, beginning with the quarter starting July 1, 1974.

(ii) Determination of whether the penalty is applicable will be based on:

(A) Reports from States on actual compliance in practice with the conditions specified in paragraph (c)(1) of this section; and

(B) Such other surveys or reviews as may be deemed necessary by SRS.

(3) *Documentation.* States must be able to document that they have met each condition of paragraph (c)(1) of this section and shall provide reports thereon as prescribed in this regulation and in Program Regulation Guides and Program Instructions issued by SRS.

(d) *Reconsideration of penalty imposition.* Whenever a penalty is imposed under the provisions of this section, the State shall be entitled to and upon request shall receive a reconsideration of the imposition of the penalty in accordance with section 1116(d) of the Social Security Act, and regulations issued thereunder.

2. Section 249.10(a)(3) is revised as set forth below:

§ 249.10 Amount, duration, and scope of medical assistance.

(a) *State plan requirements.* * * *

(3) In carrying out the requirements in paragraph (a) (1) and (2) of this paragraph with respect to the item of care set forth in paragraph (b)(4)(ii) of this section, provide:

(i) For establishment of administrative mechanisms to identify available screening and diagnostic facilities, to assure that individuals under 21 years of age who are eligible for medical assistance may receive the services of such facilities, and to make available such services as may be included under the State plan;

(ii) For identification of all eligible individuals, including those who are in need of medical or remedial care and services furnished through title V grantees, and for assuring that individuals eligible for title V services are informed of such services and are referred to title V grantees for care and services, as appropriate;

(iii) For agreements to assure maximum utilization of existing screening, diagnostic, and treatment services provided by other public and voluntary agencies such as child health clinics, OEO Neighborhood Health Centers, day care centers, nursery schools, school health programs, family planning clinics, maternity clinics, and similar facilities;

(iv) That early and periodic screening and diagnosis to ascertain physical and mental defects, and treatment of conditions discovered within the limits of the State plan on the amount, duration, and scope of care and services, will be available to all eligible individuals under 21 years of age; and that, in addition, eyeglasses, hearing aids, and other kinds of treatment for visual and hearing defects, and at least such dental care as is necessary for relief of pain and infection and for restoration of teeth and maintenance of dental health, will be available, whether or not otherwise included under the State plan, subject, however, to such utilization controls as may be imposed by the State agency. See § 205.146(c) of this chapter relating to reduction in Federal financial participation under title IV–A of the Act for failure to provide early and periodic screening, diagnosis, and treatment of children.

CHAPTER XIII—Office of Human Development, Department of Health, Education, and Welfare

PART 1302—POLICIES AND PROCEDURES FOR SELECTION, INITIAL FUNDING, AND REFUNDING OF HEAD START GRANTEES, AND FOR SELECTION OF REPLACEMENT GRANTEES

Notice of proposed rulemaking setting forth policies and procedures for selection, initial funding, and refunding of Head Start grantees, and for selection of replacement grantees was published in the FEDERAL REGISTER at 39 FR 6723 on February 22, 1974. Interested persons were invited to submit written comments, suggestions, or objections on or before March 25, 1974. By close of business April 1, 1974, some 214 letters from 8 regions had been received.

Comments received that were numerically and otherwise significant fall into the following five categories:

1. In the selection of replacement grantees there should be consultation with parents and representatives of communities other than government officials.

2. When replacing grantees, continued employment of present staff should be better protected.

3. Grantees should be assured refunding until appeal rights are exhausted.

4. There should be specific national criteria for the selection of grantees.

5. Appeal rights should be clarified and strengthened.

The views expressed in the comments were given careful review and consideration. The first category, supported by 65.8 percent of the comments received, was accepted and is reflected in an amendment to § 1302.1–3. The second category, with 54.2 percent support, appeared to be based on the fear that standards of employment would change causing personnel to be dropped upon replacement of grantees. This is seen as unfounded, and the category of comment was not adopted as a basis of amendment of the regulations. Section 1302.2–2 (a), (b), and (c) were amended, however, to clarify the special, comparative criteria to be applied in the selection of replacement grantees. The third and fifth categories, each supported by less than 20 percent of the comments, are not germane to these regulations. They are covered in proposed regulations providing for appeals procedures currently under Departmental review which, it is expected, will be published as a notice of proposed rulemaking in the near future. Category 4 also supported by less than 20 percent of the comments, was based on the fear that grantee selections would be made on other than sound program reasons. It is believed that this will not happen, and that the regulations as published provide a reasonable program base for making selections among grantee applicants.

In addition, § 1302.2–1 was amended to further emphasize the importance of the parent involvement policy in the Head Start program, as well as the need to employ target area residents and to provide career development opportunities to Head Start staff. Section 1302.3–2 was the subject of a clarifying amendment as to the circumstances for restoring grantee financial viability by an increase in the Federal grant.

Effective date. These regulations are effective August 2, 1974.

Dated: July 26, 1974.

FRANK CARLUCCI,
Acting Secretary of Health, Education, and Welfare.

AUTHORITY: Sec. 602(n), 78 Stat. 530, 42 U.S.C. 2942(n); Delegation of Authorities to Secretary of Health, Education, and Welfare, 38 FR 19291.

Subpart A—General

§ 1302.1–1 Purpose and scope.

The purpose of this part is to set forth policies and procedures for the selection, initial funding and refunding of Head Start grantees and for the selection of replacement grantees in the event of the voluntary or involuntary termination, or denial or refunding, of Head Start programs. It particularly provides for consideration of the need for selection of a replacement grantee where the continuing eligibility (legal status) and fiscal capability (financial viability) of a grantee to operate a Head Start program is cast in doubt by the cessation of funding under section 221 of the Act or by the occurrence of some other major change. It is intended that Head Start programs be administered effectively and responsibly; that applicants to administer programs receive fair and equitable consideration; and that the legal rights of current Head Start grantees be fully protected.

§ 1302.1–2 Definitions.

As used in this part—

(a) The term "Act" means The Economic Opportunity Act of 1964.

(b) The term "community action agency" means a public or private nonprofit agency or organization designated as a community action agency by the Director of the Office of Economic Opportunity pursuant to section 210(a) or section 210(d) of the Act.

(c) The term "community action program" means a program operated by a community action agency.

(d) The term "Head Start grantee" or "grantee" means a public or private nonprofit agency or organization whose application to operate a Head Start program pursuant to section 222(a)(1) of the Act has been approved by the responsible OCD official.

(e) The term "legal status" means the existence of an applicant or grantee as a public agency or organization under the law of the State in which it is located, or existence as a private nonprofit agency or organization as a legal entity recognized under the law of the State in which it is located. Existence as a private non-profit agency or organization may be established under applicable State or Federal law.

(f) The term "approvable application" means an application for a Head Start program, either as an initial application or as an application to amend an approved application covering an on-going Head Start program, which, in addition to showing that the applicant has legal status and financial viability, provides for comprehensive services for children and families and for effective and responsible administration which are in conformity with the Act and applicable regulations, the Head Start Manual and Head Start policies, with special reference to:

(1) Head Start Program Performance Standards—OCD Notice N–30–364–1 (TN–73.1);

(2) Program Options for Project Head Start—OCD Notice N–30–334–1 (TN–72.1);

(3) Employment of non-professionals—Head Start Manual, p. 16, para. b; and

(4) The Parents—Instruction I–30, Section B.2.

These issuances may be obtained from the responsible OCD official.

(g) The term "financial viability" means the capability of an applicant or the continuing capability of a grantee to furnish the non-Federal share of the cost of operating an approvable or approved Head Start program.

(h) The term "OCD" means the Office of Child Development in the Office of Human Development in the Department of Health, Education, and Welfare, and includes regional staff.

(i) The term "responsible OCD official" means the official who is authorized to make the grant in question.

§ 1302.1–3 Consultation with public officials and consumers.

Responsible OCD officials will consult with Governors, or their representatives, appropriate local general purpose government officials, and Head Start Policy Council and other appropriate

representatives of communities to be served on the proposed replacement of Head Start grantees.

§ 1302.1–4 Transfer of unexpended balances.

When replacing a grantee, unexpended balances of funds in the possession of such grantee in the fiscal year following the fiscal year for which the funds were appropriated may be transferred to the replacement grantee if the approved application of the replacement grantee provides for the continuation of the Head Start services without significant change to the same enrollees and their parents and undertakes to offer employment to the staff of the terminating grantee. A letter of concurrence in the change should be obtained from the terminating grantee whenever possible.

§ 1302.1–5 Notice for show cause and hearing.

Actions to be taken pursuant to this part to suspend, deny refunding of or terminate grants shall be subject to the provisions of section 604(2) and (3) of the Act with respect to giving grantees reasonable notice and opportunity to show cause why the action should not be taken (in case of suspension or denial of refunding) or opportunity for a full and fair hearing (in case of termination).

Subpart B—Bases for Selection of Grantees

§ 1302.2–1 Selection among applicants.

The basis for making a selection among applicants for a Head Start program shall be the extent to which the application selected reasonably promises the most effective and responsible Head Start program of the approvable applications submitted in terms of (a) the cost-effectiveness of the program proposed to be provided; (b) the qualifications and experience of the applicant in planning, organizing, and providing comprehensive child development services at the community level; (c) the provisions made for direct participation of parents in the planning, conduct and administration of the program; (d) the opportunities provided for employment of target area residents and career development opportunities for paraprofessional and other staff; (e) the suitability of the facilities and equipment proposed to be utilized in carrying out the Head Start program; and (f) the administrative and fiscal capabilities of the applicant to administer all Head Start programs carried out in the community.

§ 1302.2–2 Selection among applicants to replace grantee.

The bases for making a selection among applicants which submit approvable applications to replace a grantee, in addition to the basis in § 1302.2–1 of this Part, shall be:

(a) The extent to which provision is made for a continuation of services to the eligible children who have been participating as enrollees in the program;

(b) The extent to which provision is made for continuation of services to the target area or areas served by the program; and

(c) The extent to which provision is made for continued employment by the applicant of the qualified personnel of the existing program.

§ 1302.2–3 Community action agency priority.

So long as the Economic Opportunity Act is in effect, applications of community action agencies as initial or replacement applicants for new Head Start programs or as grantees for refunding shall have priority over other applications consistent with the provisions of section 222(a) of the Act for the inclusion of Head Start programs in community action programs and §§ 1302.2–1 and 1302.2–2 of this Part.

Subpart C—Change in Grantee Requiring Amendment of Approved Application or Replacement of Head Start Program

§ 1302.3–1 Grantee to show both legal status and financial viability.

(a) Upon the occurrence of a change in the legal condition of a grantee or of a substantial diminution of the financial resources of a grantee, or both, for example, such as might result from cessation of grants to the grantee under section 221 of the Act, the grantee is required within 30 days after the effective date of the regulations in this Part or the date the grantee has notice or knowledge of the change, whichever is later, to show in writing to the satisfaction of the responsible OCD official that it has and will continue to have legal status and financial viability. Failure to make this showing may result in suspension, termination or denial of refunding.

(b) The responsible OCD official will notify the grantee in writing of the decision as to the grantee's legal status and financial viability within 30 days after receiving the grantee's written submittal.

(c) When it is consistent with proper and efficient administration, the responsible OCD official may extend a grantee's program year to end on the date when a change in its legal condition or a substantial diminution of financial resources, or both, is scheduled to take place.

§ 1302.3–2 Grantee shows legal status but not financial viability.

(a) If a grantee shows legal status but impaired financial viability the responsible OCD official will entertain a timely request for amendment of the grantee's approved application which restores the grantee's financial viability either by a reduction in the program which produces minimum disruption to services and functions, or by an amendment which incorporates essential functions and services not previously funded as part of the total cost of the Head Start program, and, therefore, requires an increase in the amount of the Head Start grant but which will not result in a Federal share of the total cost of the Head Start program in excess of the percentage authorized by the Act or applicable regulations. In considering such a request which includes an increase in the Head Start grant the responsible OCD official will take into account the funds available to him for obligation and whether the proposed increase is consistent with that distribution of Head Start funds which:

(1) Maximizes the number of children served within his area of responsibility, or in the case of experimental or demonstration programs, the experimental or demonstration benefits to be achieved, and

(2) Maintains approximately the same distribution of Head Start program funds to States as exist during the fiscal year in which his decision is made.

(b) A request for amendment will be considered to be timely if it is included with the written submittal required by § 1302.2–1(a) of this Part, submitted within 30 days after receiving the notice required by § 1302.3–1(b) of this Part, or submitted as a part of a timely application for refunding.

(c) The grantee will be notified in writing by the responsible OCD official within 30 days after submission of the requested amendment of the decision to approve or disapprove the requested amendment. If the requested amendment is disapproved the notice will contain a statement of the reasons for disapproval.

§ 1302.3–3 Suspension or termination of grantee which shows financial viability but not legal status.

If a grantee fails to show that it will continue to have legal status after the date of change even though it may show financial viability, the grant shall be suspended or terminated or refunding shall be denied as of the date of change. If it appears reasonable to the responsible OCD official that the deficiency in legal status will be corrected within 30 days he may suspend the grant for not to exceed 30 days after the date of change or the date of submission of a timely request for amendment. If such correction has not been made within the 30 day period the grant shall be terminated.

§ 1302.3–4 Suspension or termination of grantee which shows legal status but not financial viability.

(a) If the date of change of financial viability precedes or will precede the end of the grantee's program year the grant will be suspended or terminated on that date, or, if a request for amendment has been submitted under § 1302.3–2 of this Part, upon written notice of disapproval of the requested amendment, whichever is later. If it appears reasonable to the responsible OCD official that the deficiency in financial viability will be corrected within 30 days he may suspend the grant for not to exceed 30 days after the date of change or notice of disapproval. If such correction has not been made within the 30 day period the grant will be terminated.

§ 1302.3–5 Denial of refunding of grantee.

(a) If the date of change will coincide with or will come after the end of the

program year and the grantee has notice or knowledge of such change prior to the end of the program year any action taken to approve the grantee's application for refunding for the following program year shall be subject to rescission or ratification depending upon the decision of the responsible OCD official on the grantee's legal status and financial viability and on any requested amendment submitted by the grantee. If the requested amendment is disapproved the responsible OCD official may extend the program year in accordance with § 1302.3-1(c) of this part.

(b) If the date of change coincides with the end of the program year and the grantee does not have notice or knowledge of the change prior thereto and the grantee's application for refunding for the following program year has been approved, such approval shall be subject to rescission or ratification depending upon the decision of the responsible OCD official on the grantee's legal status and financial viability and on any requested amendment submitted by the grantee.

(c) If the date of change will conicide with or will come after the end of the program year and if the responsible OCD official has prior notice thereof from the grantee or other official source such as the United States Office of Economic Opportunity, action to approve any application for refunding submitted by the grantee shall be deferred pending decision by the responsible OCD official on the grantee's legal status and financial viability and any requested amendment submitted by the grantee.

(d) When the responsible OCD official determines to approve a requested amendment for refunding he will approve it for the full term of the proposed program period, if that period as approved is no longer than a program year.

§ 1302.3-6 Control of funds of grantee scheduled for change.

Responsible OCD officials will place strict controls on the release of grant funds to grantees which are scheduled for change by cessation of their grants under section 221 of the Act. Specifically, the following controls will be established:

(a) Funds will be released on a monthly basis regardless of the form of grant payment.

(b) Funds released each month will be limited to the amount required to cover actual disbursements during that period for activities authorized under the approved Head Start program.

(c) The amount of funds released must be approved each month by the responsible OCD official based on a careful review of the grantee's expenditure plan.

(d) Grantee expenditure plans may be amended as necessary and must be supported by quarterly financial reports.

Title 17—Commodity and Securities Exchanges

CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Rel. No. 34-10934]

PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

Securities Exchange Act Rule 19b-2; Continued Partial Suspension of the Effectiveness

The Securities and Exchange Commission today announced its intention to continue the partial stay of Securities Exchange Act rule 19b-2, 17 CFR 240.19 b-2, that has been in effect since March, 1973. Rule 19b-2 was promulgated on January 16, 1973,[1] requiring all national securities exchanges registered with the Commission pursuant to Section 6 of the Securities Exchange Act[2] to adopt rules requiring their members to utilize exchange membership to conduct a predominantly public securities business.

Because of the pendency of appeals challenging the validity of the Commission's rule before the Court of Appeals for the Third Circuit,[3] and the partial, limited stay of the rule that court granted to the PBW Stock Exchange, Inc. and certain of its members, the Commission announced,[4] on March 22, 1973, a comparable, limited, temporary suspension of the effectiveness of rule 19b-2 for all national securities exchanges with respect to those of their members which became such prior to the date of the rule's adoption.

On September 28, 1973, the Court of Appeals for the Third Circuit granted the Commission's motion to dismiss the petitions for review of rule 19b-2 on the ground that the court lacked jurisdiction directly to review the rule.[5] The court, however, stayed the issuance of its mandate pending the filing and ultimate disposition of a petition for a writ of certiorari in the Supreme Court. Such a petition was filed on January 21, 1974, and was denied on April 29, 1974.[6]

Pursuant to rule 41(b) of the Federal Rules of Appellate Procedure, an order in lieu of mandate was issued by the Court of Appeals for the Third Circuit on May 7, 1974. All stays of the effectiveness of rule 19b-2 theretofore granted by that court have terminated, therefore, as a matter of law.

On May 8, 1974, Connecticut Nutmeg Securities, Inc. and Alden A. Ives, Treasurer of the State of Connecticut, filed suit against the Commission and each individual Commissioner in his official capacity in the United States District Court for the District of Connecticut under the Administrative Procedure and Declaratory Judgment Acts, seeking a declaration of the invalidity of rule 19b-2 and an injunction against the rule's operation and enforcement.[7] Similar complaints seeking comparable relief were filed in the United States District Court for the Eastern District of Pennsylvania on May 10, 1974, by the PBW Stock Exchange, Inc.[8] and on June 21, 1974, by Equity Services, Inc., Glicoa Associates, Inc. and Penn Mutual Securities Corporation, three members of the PBW.[9]

The Commission's determination to continue its partial suspension of the effectiveness of rule 19b-2 during the pendency of these actions is based, in part, on the fact that legislation currently pending in the Congress would clarify and resolve most of the fundamental questions relating to the appropriate utilization of stock exchange membership, with which rule 19b-2 is concerned.[10] The partial suspension of the effectiveness of rule 19b-2 will be continued on the same terms announced by the Commission on March 22, 1973.[11] In this connection, the Commission reminds all registered national securities exchanges that rule 19b-2 is fully applicable to all exchange members that became such on or after January 16, 1973—the date that rule 19b-2 was adopted.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

JULY 29, 1974.

Title 10—Energy

CHAPTER II—FEDERAL ENERGY ADMINISTRATION

PART 211—MANDATORY PETROLEUM ALLOCATION REGULATIONS

Allocation of Petroleum Products to Synthetic Natural Gas Plants; Statement of Policy and Special Rule

I. Introduction

On January 15, 1974, the Federal Energy Office (FEO) issued the Mandatory Petroleum Allocation Regulations. These regulations did not specifically provide for the allocation of petroleum products to synthetic natural gas (SNG) plants. On June 1, 1974, amendments to FEO's allocation regulations became effective. The June 1 amendments set forth the allocation priority status of SNG producers who established base period usage of particular SNG feedstocks. (See e.g., § 211.83 indicating allocation priorities for the use of propane.) Section 211.29 was added to provide those SNG manufacturers who had no established base period use, or whose needs had become greater than they were during the base period, with an opportunity to petition for assignment or adjustment of the volumes used to calculate their entitlements under the regulations. Petitions for assignments or adjustments were to be treated in accordance with criteria specified in the regulation.

On May 14, 1974, the FEO issued a Notice of Public Hearing to announce to the general public that hearings on the SNG feedstock allocation regulations would be held. The notice solicited both oral presentations and written submissions.

Hearings were held on May 28 and 29, 1974, in the Administrator's Press Conference Room on the 3rd floor of the New Post Office Building, 12th and Pennsylvania Avenue, NW., Washington, D.C. 20461. The purpose of these proceedings was to develop further a record upon which FEO might base its determination as to whether the June 1 amendments to Part 211, or some other treatment under the Mandatory Petroleum Allocation Regulations is appropriate for allocation of SNG feedstocks.

Eighteen oral presentations were made at the hearings and over 100 written comments were filed. The presentations and comments came from persons representing various interests, both public and private, including state and federal government representatives, natural gas transmission and distribution companies, manufacturers of petrochemical products, marketers of LPG and fuel oil, and other concerned individuals.

The major supporters of allocation of petroleum feedstocks for use in SNG manufacture are the gas distribution companies and the American Gas Association (AGA). Additional support for SNG manufacture was expressed by state public service commissions. The thrust of the comments supporting SNG manufacture centered on the importance of natural gas service. The gas industry provides approximately 50 percent of the energy needs of the nation, apart from transportation. SNG proponents stressed the fact that the natural gas supply/demand imbalance continues to increase and that many gas transmission and distribution companies have been forced to curtail service to some customers. Such companies claimed an inherent mandate, and in some instances, a directive from local regulatory agencies, to serve the public. It was suggested that SNG manufacture represents the sole source of short term relief for these companies, and that the only fair and equitable approach is to entitle SNG facilities to feedstock.

Opposition to the manufacture of SNG came largely from firms which manufacture or use petrochemicals, and from companies which market liquid petroleum gas (LPG) and fuel oil. The overriding concern expressed by representatives of the petrochemical industry seems to stem from their dependence on naphtha and propane as sources of feedstock and fuel. It was claimed that the supply of these products would be jeopardized by according SNG manufacturers priority status for allocation entitlements. Additional opposition to SNG manufacture was expressed by agricultural interests, including the Mississippi Department of Agriculture and Commerce. These interests expressed concern over the amount of propane available for crop drying and rural residential use if propane were to be allocated as a feedstock for use in an SNG facility. The following discussion sets forth in more detail the views of those favoring and the views of those in opposition to SNG manufacture.

The Federal Energy Administration is concluding this proceeding by issuing this statement of its general policy respecting SNG facilities and by adopting a special rule by which this policy will be implemented. The priority status of SNG production, as now set forth in the various allocation subparts, remains unchanged. However, since very few SNG facilities were in operation during the base periods for the different feedstocks set forth in the FEA allocation program, the majority of SNG facilities will need to petition the FEA for assignment or adjustment of their base period volumes. A special rule is therefore being promulgated, as a supplement to § 211.29, to govern the consideration of such petitions by the FEA. The special rule is designed to "grandfather" SNG facilities which are existing or under construction and which utilize naphtha feedstocks, to the extent that contracts for feedstock supply have previously been negotiated. Petitions for additional supplies on behalf of such facilities will be handled on a case-by-case basis with due consideration of specific criteria set out in the special rule. Facilities which are in existence or under construction, but which require feedstocks other than naphtha will also be handled on a case-by-case basis. The special rule calls for consideration of capital expenditure where the petition has been filed on behalf of an SNG facility which was under construction by May 1, 1975. Petitions filed on behalf of proposed SNG facilities, however, will be handled under the special rule on a case-by-case basis without regard to capital expenditure.

Respecting future SNG facilities and respecting existing facilities requiring propane, natural gas liquids, or petroleum derivatives other than naphtha, the special rule does not provide a means of obtaining feedstocks which may be implemented without further proceedings. The special rule is not finally determinative of the rights and duties of a given SNG producer or its customers; it expressly envisions individual proceedings directed toward the problem of allocating feedstock volumes to a specific SNG facility in a given market area. The policy stated herein, can, and will, be adjusted, pursuant to the special rule, in appropriate cases where the record so requires. When applied in specific cases, opportunity will be afforded interested parties to challenge or support the implementation of this policy through factual or legal presentation.

Respecting existing SNG facilities requiring naphtha feedstocks, however, the special rule provides a means of obtaining feedstock which is determinative of the rights and duties of all interested parties, to the extent that contracts for feedstock supply currently exist. No further proceedings in this regard are contemplated. Where the feedstock needs of such facilities exceed volumes represented by current contracts, however, provision has been made for further individual proceedings.

Of course, it should be noted that anyone adversely affected by the special rule or by a decision achieved pursuant to proceedings contemplated by the special rule, may file an administrative appeal under appropriate circumstances or seek individualized relief in accordance with Subpart C of Part 205 of the FEA regulations, entitled "Exceptions."

II. Statement of Policy

A. *Statement of findings.* (1) Natural gas, which currently supplies approximately 33 percent of total energy requirements in the United States, continues to be in serious short supply. Additions to proven reserves have been declining in recent years to such an extent that, during 1973, additions to domestic reserves were 6.8 trillion cubic feet (TCF) while production over the same period amounted to 22.4 TCF. The most recent Federal Power Commission forecast[1] indicates that this trend will continue, absent increased price incentives for exploration and development of new sources of supplies, and that yearly domestic natural gas production will decline from 22.5 TCF in 1975 to 20.6 TCF in 1980. Gas requirements, for the same period have been estimated to be in the order of 25 TCF and 27 TCF for the years 1975 and 1980, respectively.

The disparity between production and requirements has forced many gas

[1] National Gas Survey, Vol. I, Case II, Ch. 9, Issued June 7, 1974.

transmission and gas distribution companies to implement curtailment plans. Seventeen major interstate pipelines are experiencing shortages that will force them not only to interrupt, on a continuing basis, customers who have "interruptible" contracts, but to curtail customers who have firm contracts as well. In some instances, gas transmission and distribution companies are being curtailed by as much as 25–30 percent of their needs. The curtailment of firm contracts by such companies could result in interruptions of natural gas supply to some small commercial and residential customers during the upcoming heating season, especially if the winter is severe.

The curtailment problem is complicated by the fact that although customers purchasing gas on interruptible service are, in many instances, required to have alternate fuel capability, not all interruptible customers have real fuel supply alternatives. Some customers have purchased interruptible gas because it was the cheapest fuel available. Many installed only the minimal alternate fuel capability. In some instances, it is not feasible to operate alternate facilities for prolonged periods of time. Customers with such limited alternate capability were, in reality, gambling on continued natural gas availability. Those that took such risks range from hospitals to industrial plants and their position today is serious.

(2) Assuming deregulation of the field price for "new" gas and the relaxation of other restraints which have inhibited efforts to increase production, more abundant sources of gas supplies could be realized in the future. In the meantime, several alternative means of supplementing the supply of natural gas have been investigated by the gas companies. Options such as coal gasification, importation of liquefied natural gas (LNG), importation of increased volumes of Canadian gas, and shipment of Alaskan gas are all feasible ventures which are being expeditiously pursued; but it will be three to five years before any significant increments of supply will be realized from these sources.

(3) The manufacture of SNG by reforming petroleum feedstocks has been selected by several gas companies as the most attractive short range alternative for supplementing their natural gas supplies. There are 13 such plants operating or under construction at the present time. There are also 12 SNG plants that are planned with reasonably firm intentions.

(4) The total output of the plants which are operational or under construction is projected at 1.3 billion cubic feet of SNG per day. Their total cost approximates 600 million dollars. Operation of these plants will require over 300,000 barrels per day of light hydrocarbon feedstocks ranging from ethane to light naphthas. While this total is modest in relation to overall petroleum needs of nearly 18 million barrels per day, demand for a particular feedstock can be large in relation to the supply in a given market area.

Propane demand by SNG plants operating or under construction (including propane contained in natural gas liquids) is estimated at about 75,000 barrels per day, or approximately 26 million barrels per year. This demand represents about 7 percent of the projected domestic supply of propane. Demand for naphtha and natural gas liquids as feedstocks for SNG plants operating or under construction may reach 177,000 barrels per day or approximately 65 million barrels per year—about 3.1 percent of the projected domestic supply of these fuels. Over the short term (the next 1–2 years), however, the total planned consumption of naphtha for production of SNG represents less than 2 percent of the nation's total naphtha supply. It should be noted that the impact of this demand is increased by the fact that not all of the available supply of naphtha is suitable for SNG manufacture.

Some substitution of feedstocks is possible, but plant design is generally restricted to a narrow range of hydrocarbons. To go above or below the design range would involve some loss in capacity.

(5) The great bulk of the United States' naphtha supply is blended into gasoline. There are, however, some petrochemical plants utilizing naphtha at the present time. While the demand for naphtha as a petrochemical feedstock constitutes less than 1 percent of the total supply of naphtha, the petrochemical industry is becoming increasingly dependent on naphtha. The consumption of naphtha in the manufacture of SNG will put pressure on the availability of naphtha for gasoline blending and petrochemical purposes unless the refining sector of the industry increases severity of refinery operations to convert middle distillates to gasoline.

(6) There is a supply/demand imbalance respecting LPG projected within the next three years. By 1977, it is estimated that surplus inventories of LP-gases will have been exhausted and that the supply shortfall will require significant reduction in consumption. The major uses of LPG in this country include agricultural production, rural residential heating, and petrochemical production. If LPG and natural gas liquids (NGL) are allocated as feedstocks for the manufacture of SNG, the supply/demand imbalance will be aggravated and, in a given market area, high priority end uses may not be satisfied. Some areas of the country are more vulnerable than others in this regard.

(7) The utilization of petroleum products in the manufacture of SNG is, in most instances, an inefficient use of energy resources. The typical loss of BTU availability occasioned by the reformation of light hydrocarbons into SNG and the distribution of SNG to end-users may range from 5–8 percent greater than the BTU loss associated with likely real alternatives. Moreover, in comparison to the alternate use of heating oil, for example, the total cost of the manufacture and distribution of SNG to end-users, in some cases, would exceed the cost associated with the use of heating oil in the same market area by approximately 50 cents per million BTU's.

There are, however, some unique situations wherein the comparison of proposed SNG manufacture with an existing energy production and distribution system (e.g., one which currently produces SNG from diesel oil) reveals that there are BTU efficiency gains to be realized by the construction of an SNG facility utilizing naptha, natural gas liquids, or propane as a feedstock.

B. *Statement of conclusions and policy.* The manufacture of SNG from petroleum is, in most instances, an inefficient use of resources. Generally, SNG plants are designed to reform light hydrocarbons into a compatible natural gas substitute by means of a process which consumes at least 8–10 percent of the BTU's contained in the feedstock. No net increase in our supply of energy is realized. Moreover, the reformation process results in an increase in the total economic cost of available energy.

In addition, it is conceivable that in some instances, a fuel which is in a form that may be used directly by end-users with priority needs will be converted to SNG to supply either the same end-users or customers with similar needs. In the energy short situation, FEA declines to encourage or authorize the manufacture of SNG where such circumstances may exist. Accordingly, FEA will implement a policy which, in general, discourages allocation of scarce petroleum resources to manufacturers of SNG.

The information available to the FEA at the present time is insufficient to ascertain, in detail, the likely effects of an allocation decision respecting a specific facility in a given market area. Due to this uncertainty, petitioners seek allocation of feedstock for SNG will, in most instances, be handled on a case-by-case basis. In granting or denying the petition of an SNG plant for allocation of feedstock, the FEA will consider not only the criteria listed in § 211.29, but an additional set of criteria set forth in a special rule, issued today as an appendix to Subpart A, Part 211. These criteria are designed to reflect, generally, the FEA's conclusion, based on the findings set forth above, that, in a given instance, the allocation decision should be based on a balancing of the relative hardships placed upon interested parties who compete for a particular feedstock and upon consumers of energy in the market area. It is FEA's intention, however, that in view of the economic and thermal inefficiency associated with the SNG plants, it will be the extraordinary case in which feedstock will be allocated for use in a facility the physical construction of which occasioned less than five million dollars of actual expenditure prior to May 1, 1974.

Nevertheless, there are some unique circumstances where in feedstock allocation may be warranted, such as the

transformation or replacement of an existing gas manufacturing system with a new SNG plant where such transformation results in a net gain in thermal efficiency and, therefore, in conservation of energy resources. Another extraordinary circumstance which might warrant allocation would be where the manufacture of SNG would replace consumption of electricity generated from petroleum oils or gas; again, the gain in thermal efficiency would be a primary consideration.

Where at least five million dollars was spent on physical construction prior to May 1, 1974. FEA recognizes that there are additional considerations to be taken into account. Of particular moment is the total amount of capital expenditures committed by SNG manufacturers whose plants are operating or under construction. These commitments were made at a time when the serious energy shortages, occasioned in part by the Arab Embargo, were not anticipated. To some extent, FEA distinguishes these facilities as representing a demand for petroleum products which existed when the Mandatory Petroleum Allocation Program was adopted and which, therefore, are entitled to additional consideration.

Unfortunately, the demand for feedstock represented by existing facilities jeopardizes the availability of supplies of petroleum products to competing users in disparate fashion. The use of propane and natural gas liquids for the manufacture of SNG over the next three years has been found to be significant when compared to the nation's projected supply of these feedstocks over the same period. The FEA is particularly concerned over the use of propane in view of the fact that agricultural production and rural residential heating, as well as petrochemical production, are jeopardized by any increased pressure on the supply/demand imbalance which exists in the propane market.

It should be noted that the FEA is also especially concerned over the use of propane and NGL's that originate in Canada. The proximity of Canada as a source of fuels has resulted in a great reliance upon Canadian propane and natural gas liquids in States that border Canada from Washington to Ohio. Many propane users in those States would not be able adequately to replace lost Canadian supplies except through significant capital expenditures, if at all. This raises the possibility that treatment of Canadian propane and NGL's as unrestricted imports under § 211.12(g) may lead to the disruption of domestic allocation patterns respecting these fuels. Therefore, generally, FEA will require that propone and NGL's imported from Canada be allocated so as to preserve, where possible, historical patterns of usage, especially where rural residential heating and agricultural production are concerned. Accordingly, the FEA encourages the importation of propane and NGL supplies from non-Canadian sources (i.e. offshore).

On the other hand, over the short term, the planned consumption of naphtha by SNG manufacturers represents less than 2 percent of the nation's total naphtha supply. The major interests which compete with SNG for this feedstock are producers of petrochemicals and gasoline blenders. The concern of petrochemical producers was largely a function of anticipated increases in their future requirements, an increased need which has not been conclusively demonstrated. Gasoline blending, of course, is not regarded by FEA as a high priority use when compared with residential space heating needs.

Accordingly, FEA has determined that those SNG facilities which were under construction on May 1, 1974, which require naphtha as a feedstock, and which otherwise qualify for allocation of feedstock in accordance with the special rule issued today, will receive 100 percent of their feedstock needs to the extent that they are represented by existing supply contracts. Petitions for additional supplies for such facilities will be considered on a case-by-case basis. It is anticipated, however, that allocation entitlements for such additional supplies will be granted where the petitioner has located a supplier on its own initiative. As in the case of propane, imported supplies are particularly encouraged.

SNG facilities which were under construction on May 1, 1974, and which require feedstocks other than naphtha, will be considered on a case-by-case basis. FEA has determined that petitions from such facilities shall be treated by reference to the same criteria used in passing on the petitions of future SNG facilities except that capital expenditure shall be taken into account.

Two considerations raised in regard to the marketing of SNG which are of particular concern to the FEA are service to interruptible customers and pricing. FEA recognizes that there are jurisdictional and practical difficulties that preclude the FEA from allocating SNG. Nevertheless, FEA is determined that the general inefficiency of SNG manufacturing shall not be compounded by the allocation of feedstocks to manufacturers which serve customers who have alternate means of satisfying their energy needs. Therefore, the special rule requires that, in passing upon the petition of an SNG plant for the allocation of feedstock, the FEA must take into account the extent to which an SNG manufacturer provides service to customers which have alternate fuel capacity on a continuing basis. It is the FEA's policy that, except in the case of existing plants which require naphtha and which have existing contracts for feedstock supply, service to customers who have alternate fuel capability on a continuing basis must be interrupted or curtailed before feedstocks for use in the manufacture of SNG will be allocated.

Most existing and prospective SNG manufacturers indicate that SNG will be priced on a "rolled in" basis. FEA has determined that this method of pricing fails adequately to reflect the true costs associated with incremental gas supplies provided by an SNG facility. Incremental pricing respecting service to customers who would be curtailed but for the availability of supplemental volumes of SNG, would encourage such customers to more realistically assess the relative costs of alternative sources of energy. Therefore, the FEA wishes to make clear its concurrence with the FPC policy favoring incremental pricing and to indicate its intention, wherever possible, to encourage such pricing on the part of SNG manufacturers and their customers. Accordingly, the extent to which an SNG manufacturer provides for a program of incremental pricing of SNG will be taken into account before entitlements to feedstocks are assigned.

The FEA recognizes that the natural gas supply/demand imbalance works a substantial hardship on many gas transmission and distribution companies and that the statement of policy and the special rule issued today will operate to eliminate SNG manufacture from liquid hydrocarbon feedstocks as a supplemental supply alternative for the majority of these companies. It is not the FEA's intention, however, to discourage the pursuit of other alternatives available to these companies. Rather, it is FEA's policy to encourage further commitment by these companies to alternative means of supplementing gas supplies which do not result in the serious drawbacks associated with SNG manufacture from liquid petroleum. Coal gasification and increased levels of domestic exploration and resource development, in particular, are encouraged. In the meantime, the FEA continues to advocate the deregulation of the wellhead price of "new" gas as a means of reducing the need for alternatives to the production and distribution of natural gas.

(Emergency Petroleum Allocation Act of 1973, Pub. L. 93-159; Federal Energy Administration Act of 1974, Pub. L. 93-275; E.O. 11790 (39 FR 23185)).

In consideration of the foregoing Chapter II of Title 10 of the Code of Federal Regulations is amended as set below, effectively immediately.

Issued in Washington, D.C., on July 31, 1974.

ROBERT E. MONTGOMERY, Jr.,
Acting General Counsel.

An appendix to Subpart A of Part 211 is added to read as follows:

APPENDIX—SPECIAL RULE No. 1

1. *Scope.* This special rule applies to all synthetic natural gas plants petitioning the FEA for assignment of a supplier and a base period volume pursuant to § 211.29.

2. *Purpose.* This special rule amplifies the consideration which shall be given the criteria listed in § 211.29 in granting or denying a petition for assignment or adjustment under that provision.

3. *Definitions.* "Interruptible service" means a service from schedules or contracts under which the seller is not expressly obligated to deliver specific volumes within a

given time period, and which anticipates and permits interuption on short notice, or service under schedules or contracts which expressly or impliedly require installation of alternate fuel capability.

"Groundbreaking" means the on site expenditure of at least five million dollars on the actual physical construction of an SNG facility prior to May 1, 1974.

4. *Allocation of naphtha to synthetic natural gas plants where groundbreaking has occurred.* In considering the petition for assignment of supplies and base period volume or adjustment of base period volume under § 211.29 made on behalf of a synthetic natural gas plant which utilizes naphtha as an exclusive feedstock and with respect to which groundbreaking has occurred, the FEA shall grant such petition to the extent that contracts for supply calling for delivery of specific volumes are currently in effect. To the extent that such petition calls for an assignment or adjustment of volumes greater than those represented by existing contracts, the FEA shall consider such petition in the manner set forth in paragraph 5 of this rule.

5. *Allocation of feedstocks other than naphtha to synthetic natural gas plants where groundbreaking has occurred.* The FEA shall, in granting or denying a petition for assignment or adjustment under § 211.29, consider, in addition to the criteria listed in § 211.29, the following factors:

(a) The availability, including source, volume, and interchangeability, of SNG feedstocks;

(b) The degree to which an SNG manufacturer and/or its customers have curtailed supplies of natural gas to their interruptible customers which have alternate fuel capability on a continuing basis;

(c) The existence, character, and effect of any natural gas curtailment plan affecting the market area served by an SNG manufacturer and/or its customers;

(d) The availability of alternative sources of gas including imports of liquefied natural gas (LNG), imported methanol, and coal gasification, and the extent to which a manufacturer has attempted to use such sources;

(e) The thermal efficiency, taking both distribution and the reforming process into account, of SNG manufacture as compared to other likely energy production alternatives in the same market area;

(f) The economic impact upon the prospective SNG manufacturer of the FEA's decision in granting or denying the petition, including the amount of capital expenditures to date and the effect of a given decision on the manufacturer's capital rate base;

(g) The impact on the cost of energy to consumers in a particular market area, including the feasibility or existence of a rate schedule providing for incremental pricing of synthetic natural gas;

(h) The projected feedstock capacity of the facility and the projected growth of the energy market served by the facility over the period of allocation;

(i) The effect of allocation on demand for scarce petroleum products in a particular market area with due regard for the relative priority, as set forth in the relevant allocation subpart of, competing uses;

(j) The impact of an allocation decision on market area employment opportunities; and

(k) The environmental impact of allocation options within a market area.

6. *Allocation of feedstocks to synthetic natural gas plants where groundbreaking did not occur prior to May 1, 1974.* The FEA shall, in granting or denying a petition for assignment or adjustment under § 211.29, consider, in addition to the criteria listed in § 211.29, the following factors:

(a) The availability, including source, volume, and interchangeability, of SNG feedstocks;

(b) The degree to which an SNG manufacturer and/or its customers have curtailed supplies of natural gas to their interruptible customers which have alternate fuel capability on a continuing basis;

(c) The existence, character, and effect of any natural gas curtailment plan affecting the market area served by an SNG manufacturer and/or its customers;

(d) The availability of alternative sources of gas including imports of liquified natural gas (LNG), imported methanol, and coal gasification, and the extent to which a manufacturer has attempted to use such sources;

(e) The thermal efficiency, taking both distribution and the reforming process into account, of SNG manufacture as compared to other likely energy production alternatives in the same market area;

(f) The impact on the cost of energy to consumers in a particular market area, including the feasibility or existence of a rate schedule providing for incremental pricing of synthetic natural gas;

(g) The projected feedstock capacity of the facility and the projected growth of the energy market served by the facility over the period of allocation;

(h) The effect of allocation on demand for scarce petroleum products in a particular market area with due regard for the relative priority, as set forth in the relevant allocation subpart, of competing uses;

(i) The impact of an allocation decision on market area employment opportunities; and

(j) The environmental impact of allocation options within a market area.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 68]

FEES AND CHARGES FOR FEDERAL RICE INSPECTION SERVICE

Proposed Revision

The Agricultural Marketing Act of 1946 provides for the collection of fees equal as nearly as may be to the cost of the inspection service rendered under its provisions.

Pursuant to sections 203 and 205 of the Act, 60 Stat. 1087 and 1090 (7 U.S.C. 1622 and 1624), notice is hereby given, according to the administrative procedures provisions of section 553 of Title 5, United States Code, that the U.S. Department of Agriculture has under consideration a proposed revision of the fees and charges for Federal rice inspection services (7 CFR 68.42 and 7 CFR 68.43).

This proposed amendment provides (1) hourly charges for lot inspections currently charged for on a hundredweight basis; (2) a commitment service by which an applicant may enter into an annual agreement with the Agricultural Marketing Service for the furnishing of service on a weekly commitment basis, whereby the applicant agrees to pay for a minimum of 8 hours of service per day per man, Monday through Friday, and the Agricultural Marketing Service agrees to make official inspection personnel available to perform such service for the applicant under reduced hourly rates, as compared to the hourly rates charged for services on a noncommitment basis. The commitment service can be used by one applicant who guarantees to pay for the full 8 hours per day per man, Monday through Friday, or by two or more applicants each guaranteeing to share the cost of the 8 hours; (3) an additional charge per lot or sublot inspection for quality when performed other than at the point of sampling; (4) a minimum fee for noncommitment hourly services of 2 hours per man per callout or inspection visit; (5) an increase in the fees per sample for sample inspections; (6) a clarification of the regulations for charging hourly rates for overtime and legal holidays; and (7) a clarification of the definition for the term "holiday."

The proposed change from volume rates to hourly rates is necessary because the current fee structure is inequitable in that applicants having a high volume of product movement are, in effect and, in fact, subsidizing applicants with low or limited volumes of product movement. The proposed changes would provide a more equitable assessment of charges among applicants and better management control of cost and revenue in the rice inspection program.

Accordingly, the Department proposes that the fees and charges for Federal rice inspection services be amended as follows:

1. Provide for a commitment service by which an applicant may enter into an annual agreement with the Agricultural Marketing Service for rice inspection service on a weekly basis whereby the applicant agrees to pay for a minimum of 8 hours of service per day per man, Monday through Friday, and the Agricultural Marketing Service agrees to make official inspection personnel available to perform such service for the applicant. Under such an agreement, the base hourly commitment rate would be $14.40 for all work performed between the hours of 6 a.m. and 6 p.m. Monday through Friday, except on legal holidays; $17.40 for all work performed before 6 a.m. or after 6 p.m. Monday through Friday, and any time Saturday or Sunday, except on legal holidays; $28.80 for all work performed on legal holidays. The commitment service can be used by one applicant who guarantees to pay for the full 8 hours per day per man, Monday through Friday, or by two or more applicants each guaranteeing to share the cost of the 8 hours per day per man.

2. Change the lot inspection fee from $0.0145, $0.0230, $0.0280, $0.0350, $0.0385, $0.0420, and $0.0455 per hundredweight, depending on the services requested, to a noncommitment hourly rate of $19.40 for all work performed between the hours of 6 a.m. and 6 p.m. Monday through Friday, except on legal holidays; $22.40 for all work performed before 6 a.m. or after 6 p.m. Monday through Friday, and any time Staturday or Sunday, except on legal holidays; $38.80 for legal holidays; and a minimum fee of 2 hours per man per callout or inspection visit at the applicable hourly rate.

3. Provide an additional charge per lot or sublot inspection for quality performed other than at the point of sampling of $9.70, $8.10, and $6.45 for rough rice, brown rice for processing, and milled rice, respectively.

4. Increase the fees per sample for sample inspections from $8.30, $6.90, and $4.50 to $9.70, $8.10, and $6.45 for rough rice, brown rice for processing, and milled rice, respectively.

5. Amend § 68.43(a)(1) to clarify provisions for charging hourly rates for overtime and legal holidays.

6. Clarify the definition of the term "holiday."

In consideration of the foregoing, it is proposed to amend §§ 68.42c and 68.43 (a)(1) as follows:

§ 68.42c Fees and charges for Federal rice inspection services.

The following fees and charges apply to the Federal rice inspection services specified below:

Service:	*Fee or Charge*
(a) Appeal inspection. The applicable fees or charges which would be assessed if the inspection were not an appeal: *Provided,* That no fees or charges shall be assessed if it is found that there was a material error in the inspection from which an appeal was taken.	
(b) Commitment service. If desired, an applicant may enter into an annual agreement with the Agricultural Marketing Service for the rice inspection services on a weekly basis, whereby the applicant agrees to pay for a minimum of 8 hours of service per day per man, Monday through Friday, and the Agricultural Marketing Service agrees to make official inspection personnel available to perform such service for the applicant. The commitment service can be used by one applicant who guarantees to pay for the full 8 hours per day per man, Monday through Friday, or by two or more applicants each guaranteeing to share the cost of the 8 hours per day per man:	

Service:	Fee or Charge
Provided, That each party to the commitment agrees to assume an even number of hours so that charges may be easily prorated. An applicant who terminates a commitment, and within 1 year after cancellation is granted a new commitment at his request, shall pay for any moving costs incurred by the Agricultural Marketing Service to transfer official inspection personnel to service the applicant's new commitment. If more than one applicant is involved in the reapplication for a canceled commitment requiring the transfer of official inspection personnel, the moving costs will be prorated among the applicants according to each applicant's committed portion of the official inspection personnel's services. However, the moving costs will be charged only to those applicants involved in the reapplication who were parties to the previously canceled commitment. Under a commitment service, the Agricultural Marketing Service reserves the right to (1) determine the number of official inspection personnel needed to perform the service for a commitment applicant and (2) temporarily reassign official inspection personnel from a commitment applicant when, in the opinion of the Director, the official inspection personnel is not needed to perform service for the commitment applicant. The commitment applicant in such instances would be credited with the number of hours charged to the other applicants, provided that the hours worked for the commitment applicant plus the hours worked for the other applicants do not exceed 8 hours on any day, Monday through Friday. (Hours in excess of 8 hours per day (Monday through Friday) cannot be credited to the 40 hours of committed work per week.) Hourly rates for commitment services shall begin when the official inspection personnel arrive at the point of service and end when they depart from the point of service, computed to the nearest quarter hour (less mealtime, if any). Hourly rates include the cost of travel and transportation to perform the service requested and the original and four copies of a certificate.	
(c) Extra copies of certificates: Per copy	$1.00
(d) Hourly rates per man-hour for commitment service:	
(1) For all work performed between the hours of 6 a.m. and 6 p.m. Monday through Friday, except on holidays[1]	14.40
(2) For all work performed before 6 a.m. or after 6 p.m. Monday through Friday, and any time Saturday or Sunday, except on holidays[1]	17.40
(3) For all work performed on holidays[1]	$28.80
(4) Minimum fees for service performed under a commitment service agreement shall be on the basis of 8 hours per day per man, Monday through Friday, calculated at the hourly rate of $14.40.	
(5) Standby time shall be charged at the applicable hourly rate as shown in (1), (2), and (3) above.	
(e) Hourly rates per man-hour for noncommitment service:	
(1) For all work performed between the hours of 6 a.m. and 6 p.m. Monday through Friday, except on holidays[1]	19.40
(2) For all work performed before 6 a.m. or after 6 p.m. Monday through Friday, and any time Saturday or Sunday, except on holidays[1]	22.40
(3) For all work performed on holidays[1]	38.80
(4) Minimum fee per man per callout or inspection visit for noncommitment service—2 hours at the applicable hourly rate.	
NOTE: Only one fee will be charged for inspection services per man-hour, whether performed singly or concurrently.	
(f) Inspection for quality[2] charges per lot or sublot when performed other than at the point of sampling (but see also (d) and (e)):	
(1) Rough rice	9.70
(2) Brown rice for processing	8.10
(3) Milled rice	6.45
(g) Interpretative line samples: Per set	50.00
NOTE: These interpretive line samples illustrate the lower limit for milling degrees only. Interpretive line samples are available for examination at, or may be purchased from, the Grain Inspection Branch, Grain Division, Agricultural Marketing Service, U.S. Department of Agriculture, 6525 Belcrest Road, Hyattsville, Maryland 20782. Interpretive line samples are also available for examination at selected field offices of the Grain Division. A list of these field offices may be obtained from the above address.	
(h) Noncommitment service. A noncommitment service is provided for applicants who do not enter into a commitment service agreement with the Agricultural Marketing Service. Service on a noncommitment basis will be furnished to applicants in the order in which requests are received, insofar as consistent with good management, efficiency, and economy. Precedence will be given, when necessary, to (1) commitment service participants, (2) requests for appeal service, (3) requests made by any Government agency, and (4) requests made by any regular user of the service. Hourly rates shall begin when the official inspection personnel arrive at the point of service and shall end when they depart from the point of service, computed to the nearest quarter hour (less mealtime, if any). Hourly rates include the cost of travel and transportation to perform the service requested and the original and four copies of a certificate.	
(i) Original lot inspection for noncommitment service:	
(1) For sampling and inspection for quality[2] when performed at the point of sampling and inspection—the applicable hourly rate. (See paragraph (e).)	
(2) For sampling and inspection for origin—the applicable hourly rate. (See paragraph (e).)	
(j) Sample inspection:	
(1) Inspection for quality[2] per sample:	
(i) Rough rice	$9.70
(ii) Brown rice for processing	8.10
(iii) Milled rice	6.45
(2) Factor analysis for any single factor: Per factor	2.00
(k) Special inspection services for noncommitment service: Includes, but is not limited to, checkcounting, checkloading, checkweighing, condition examination, facility examination, observing fumigation, observing loading or unloading, and storage or carrier examination—the applicable hourly rate. (See paragraph (e).)	
(l) Standby time for noncommitment service—the applicable hourly rate. (See paragraph (e).)	

[1] Holiday shall mean the legal public holidays specified in paragraph (a) of section 6103, title 5, of the United States Code (5 U.S.C. 6103 (a)) and any other day declared to be a holiday by Federal statute or Executive Order: *Provided*, That if the specified legal public holiday falls on a Saturday, the preceding Friday shall be deemed to be the holiday, or if the specified legal public holiday falls on a Sunday, the following Monday shall be deemed to be the holiday.

[2] Includes kind, class, grade, factor analysis, equal to type, milling yield, or any other quality designation as defined in the rice standards or instructions, whether singly or combined, except as provided for in paragraph (j).

Section 68.43(a)(1) would be amended to read as follows:

§ 68.43 Fees and charges; general provisions.

(a) * * *

(1) All fees shown, whether hourly rates or volume rates, shall include (i) the cost of travel and transportation to perform the service requested, and (ii) the original and four copies of a certificate.

* * * * *

Comments and proposed effective date. If the proposed revision as set forth herein is adopted in whole or in part, it is intended that the revision would be made effective on January 5, 1975.

Public hearings on the proposed revision will not be held, but all persons who desire to submit written data, views, or arguments on this proposal should file them in duplicate with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than September 30, 1974. Any persons who desire to submit their views orally in an informal manner should so inform the Director, Grain Division, Agricultural Marketing Service, U.S. Department of Agriculture, 6525 Belcrest Road, Hyattsville, Maryland 20782 (telephone (301) 436–8776) so that arrangements may be made for such submission by September 30, 1974. A summary of such views will be made and furnished for verification to the person making the submission and, if approved, may be filed by him in the Office of the Hearing Clerk. All comments so filed will be available for public inspection during official hours of business (7 CFR 1.27(b)). Consideration will be given to all comments filed with the Hearing Clerk, and to all other information available to the U.S. Department of Agriculture, in arriving at a decision on the proposed revision of the fees and charges for Federal rice inspection services.

Copies of the current fees and charges for Federal rice inspection services may be obtained from the Director, Grain Division, Agricultural Marketing Service, 6525 Belcrest Road, Hyattsville, Maryland 20782, or from any field office of the Grain Division.

Done at Washington, D.C. on July 30, 1974.

E. L. PETERSON,
Administrator,
Agricultural Marketing Service.

[7 CFR Part 947]

IRISH POTATOES GROWN IN MODOC AND SISKIYOU COUNTIES IN CALIFORNIA AND IN ALL COUNTIES IN OREGON EXCEPT MALHEUR COUNTY

Proposed Expenses, Rate of Assessment and Late Payment Charges

Consideration is being given to the approval of proposed expenses and a proposed rate of assessment as hereinafter set forth which were recommended by the Oregon-California Potato Committee, established pursuant to Marketing Agreement No. 114, as amended, and Order No. 947, as amended (7 CFR Part 947).

This marketing order program regulates the handling of Irish potatoes grown in Modoc and Siskiyou Counties in California and in all counties in Oregon except Malheur County, and is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

All persons who desire to submit written data, views, or arguments in connection with these proposals may file the same in quadruplicate with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than August 19, 1974. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)). The proposals are as follows:

§ 947.227 Expenses and rate of assessment.

(a) The reasonable expenses that are likely to be incurred during the fiscal period ending June 30, 1975, by the Oregon-California Potato Committee for its maintenance and functioning, and for such purposes as the Secretary determines to be appropriate, will amount to $33,675.

(b) The rate of assessment to be paid by each handler in accordance with the Marketing Agreement and this part shall be one-half of one cent ($0.005) per hundredweight of potatoes handled by him as the first handler thereof during said fiscal period: *Provided,* That seed potatoes and potatoes for canning, freezing and "other processing" as defined in the amendment to the act (P.L. 91–196) shall be exempt.

(c) In accordance with the provisions of § 947.41, late payment charges of $1.00 per month or one percent per month, whichever is greater, shall be charged on the unpaid balance for each past-due account. An account is past-due 60 days after the billing date.

(d) Unexpended income in excess of expenses for the fiscal period ending June 30, 1975, may be carried over as a reserve.

(e) Terms used in this section have the same meaning as when used in said marketing agreement and this part.

Dated: July 30, 1974.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Food and Drug Administration

[21 CFR Part 610]

INACTIVATED INFLUENZA VACCINE, GENERAL SAFETY TEST

Notice of Proposed Rulemaking

The Public Health Service Act requires that all biological products to be offered for sale in interstate commerce be licensed to insure their continued safety, purity, and potency. Inactivated influenza vaccine has been federally licensed for a number of years. As with nearly all licensed products, inactivated influenza vaccine must comply with the requirements of the general safety test in § 610.11 (21 CFR 610.11). The general safety test is intended to be a final check on each filling of each lot of product. The purpose of the test is to detect the presence of any toxic contaminant that may have resulted from the manufacturing process. The current regulation prescribes that the test animals be inoculated parenterally, without specifying either subcutaneous or intraperitoneal administration, and that up to 5.0 milliliters may be used in guinea pigs and up to 0.5 milliliter in mice. It has been the standard practice of most manufacturers and of the Food and Drug Administration, however, to utilize intraperitoneal inoculation at the 5.0-milliliter level for guinea pigs and at the 0.5-milliliter level for mice.

In the past several months, numerous lots of inactivated influenza vaccines produced by some manufacturers have for the first time resulted in the death of at least one of the two test guinea pigs during the 7-day observation period after the intraperitoneal inoculation of 5.0 milliliters of the vaccine. No deaths have occurred in the mice inoculated intraperitoneally with 0.5 milliliter of the same vaccine. None of these lots has yet been released for marketing, pending the conclusions of the Commissioner of Food and Drugs about the safety of this vaccine and the advisability of amending the regulation involved.

During the time in which the Food and Drug Administration has become aware of this problem, the Bureau of Biologics has been actively investigating its nature and etiology. Two factors are of particular significance: The increased potency of the vaccine, and the level of endotoxin, a bacterial substance derived from the cell wall of Gram-negative organisms.

The early influenza vaccines were of relatively low potency and contained higher amounts of bacterial contaminants than the licensed vaccines available today, since the original manufacturing methods did not include purification. Clinical trials conducted when purification processes were first used

demonstrated that the more purified vaccines, which constitute a much more potent and potentially more protective product, could be administered to humans without provoking the significant rates of fever or local reactions associated with the earlier crude vaccines. These manufacturing developments permitted the Federal regulatory authority to require a continuing increase in vaccine potency. As a result, the bivalent (types A and B combined) influenza vaccine available for the 1974–75 respiratory virus season is several times more potent than the vaccines of a decade ago. Furthermore, the vaccine for use this coming influenza year will contain 40 percent more type B influenza antigen than the bivalent product marketed during 1973–74, so as to provide increased protection against the relatively new Hong Kong strain of type B influenza virus.

A degree of unavoidable bacterial contamination of the vaccine is the result of the method of vaccine production. Inactivated influenza vaccine is prepared by propagation of influenza viruses in embryonated hens' eggs. In this process, the virus-rich fluid is harvested from thousands of eggs daily, the virus is inactivated, and the viral antigens are concentrated and partially purified. Since eggs are not uniformly sterile, an amount of bacterial contamination is predictable. The final influenza vaccine is sterile, however, since any bacteria present at the time of viral harvest are killed by the processes used to inactivate the viruses themselves.

Endotoxin, being a natural constituent of Gram-negative bacteria, is an unavoidable component of these vaccines. The Bureau of Biologics has determined that endotoxin in commercial influenza vaccines distributed in recent years has varied from a few hundredths of a microgram to several micrograms per unit. These amounts are relatively minimal. Common bacterial vaccines such as those for pertussis and typhoid contain endotoxin in levels 10 to 10,000 times higher than those found in influenza vaccine.

A thorough review of the existing data concerning the intraperitoneal inoculation of certain lots of the vaccine in the general safety test has led the Commissioner to conclude that the recent test failures result from both the increased potency of this year's vaccines and the continued presence of bacterial endotoxins in influenza vaccines. Moreover, tests by the Bureau of Biologics indicate that current production of some of the higher potency influenza viral antigens alone, even without appreciable endotoxins, can kill guinea pigs which have been inoculated intraperitoneally. To the extent that this occurs, increased product potency alone has outpaced the utility of the current test as performed intraperitoneally and the test no longer serves as a screen for the presence of toxic contaminants.

Endotoxins are undesirable contaminants of influenza vaccines; however, review of extensive clinical experience with vaccines manufactured and administered in recent years fails to demonstrate a relationship between endotoxin content and vaccine reactivity for man. Recently, in order to assess the clinical impact of the presence of endotoxin in conjunction with the increased potency of the 1974–75 flu vaccine, two double blind clinical studies, designed to evaluate the effects of these factors, have been conducted with influenza vaccines containing 0.02 and 0.03 and 0.02 and 6.0 micrograms per human dose respectively. These studies revealed minimal clinical reactivity with no discernible differences in the rates or degree of reactivity between vaccines containing the higher amounts of endotoxin and the vaccine containing minimal amounts. Thus, it appears that the levels of endotoxin commonly present in influenza vaccines in past years, when present in the current, more potent influenza vaccine formula will not increase clinical adverse reactions in man although the vaccines containing both 0.3 and 6.0 micrograms of endotoxin have resulted in guinea pig death when injected intraperitoneally at the 5.0-milliliter level. Neither of these vaccines killed mice inoculated with the 0.5-milliliter volume intraperitoneally and neither killed guinea pigs inoculated subcutaneously with 5.0-milliliter volumes.

In reaching a judgment on the safety of these vaccines, the Commissioner must compare the benefits of the protection provided by the vaccines with the risks of administration of the lots of this vaccine which have resulted in guinea pig death.

A review of the benefit/risk factors clearly dictates that the great majority of lots of the vaccine should be released for use. The Bureau of Biologics estimates that approximately 12,000,000 doses of the vaccine are represented by batches that have resulted or would result in guinea pig death if the general safety test were conducted intraperitoneally. This represents 40 percent of the total vaccine production for the 1974–75 influenza season. Since the vaccine is given one dose per person, protection from influenza of 12 million Americans is at issue. Attack rates of influenza vary greatly from year to year and are relatively unpredictable. Major antigenic changes in the virus often result in 20 percent or more of the population contracting influenza within a single winter season. In a more typical year, as is likely the case for the winter of 1974–75, much lower attack rates would be expected. However, even in a year in which no more than one in a hundred unprotected persons would be infected, the use of 12 million doses of vaccine with an effectiveness of 50 percent would prevent approximately 60,000 cases of influenza. The unavailability of the vaccine could be particularly significant to those persons for whom the vaccine is strongly recommended by the Public Health Service Advisory Committee on Immunization Practice, namely, the elderly, persons with various chronic diseases, and others in high risk population groups. Although mortality data do not permit reliable projections, there is no question that among the 60,000 unprotected persons, a significant number of deaths would result from contracting flu, and that all persons would experience temporary incapacitating illness. A failure of adequate supplies of vaccines also creates a potential for disruption of vital national services since such groups as the military are commonly vaccinated before each winter season.

After consideration of these facts, it is the Commissioner's judgment that the increased risks from the vaccines are minimal. Inactivated influenza vaccine has been administered intramuscularly and subcutaneously for a number of years with amounts of endotoxin comparable to that permitted in this proposal with no significant adverse effects. Thus, even assuming the presence of endotoxins in this vaccine at the highest level now known to the Bureau of Biologics, significant clinical reactions are not expected to occur, as has been shown by the recent clinical studies and by clinical data resulting from use of other forms of vaccines with much higher endotoxin levels. Indeed, even where typhoid vaccines containing massive amounts of endotoxins (several hundred micrograms) are administered by the same route, the only known consequence is a transient fever and a temporary swelling and discomfort at the point of injection.

It is routine medical practice to administer bacterial vaccines containing high levels of endotoxin, such as pertussis vaccine, intramuscularly to children. The potential for a reactive temperature rise and tenderness at the injection site have long been recognized as an acceptable consequence in view of the protection afforded.

Therefore, in light of acknowledged public health needs, and in consideration of the recently gathered clinical evidence which indicates that lots that have failed a portion of the general safety test create no increased clinical reactivity in man, the Commissioner has determined that benefit/risk considerations fully justify the release of this vaccine under appropriate testing standards.

The Commissioner has considered whether a specific modification of the general safety test in § 610.11 is necessary before permitting release of lots which have resulted in guinea pig death when administered intraperitoneally at 5.0 milliliters since the present regulation appears to permit such release if the vaccine does not result in guinea pig death when administered subcutaneously, or at less than 5.0 milliliters intraperitoneally. In view of the fact that 5.0-milliliter intraperitoneal administration is the standard procedure, the Commissioner has concluded that a separate provision of the regulations should be promulgated. Therefore, the Commissioner proposes that a new § 610.11a be added to Part 610 to specify an adequate alternative test and safety standard before these lots of influenza vaccine may be released.

Two requirements are proposed for § 610.11a. First, the Commissioner has concluded that the guinea pig inoculation may be administered either intraperitoneally or subcutaneously and that the safety test will be satisfied if no guinea pig deaths occur with the latter even if they occur with the former. It is anticipated that subcutaneous inoculation will significantly increase the number of lots of vaccine passing the test and will still provide an adequate screening test for safety.

Second, in order to provide adequate safety standards concerning the release of lots of influenza vaccines, the Commissioner is also proposing to require that influenza vaccine be assayed for endotoxin in comparison to a reference product to be provided by the Food and Drug Administration, and that only vaccines containing no more endotoxin than the reference product be released for use. The reference product to be provided will be the vaccine lots used in the recent clinical trial with the highest endotoxin level, which demonstrated no increased clinical reaction as compared with lots of vaccine containing practically no endotoxin, although the vaccine had resulted in guinea pig deaths when administered intraperitoneally.

On March 27, 1974, the Food and Drug Administration proposed certain revisions to the regulations governing the general safety test (39 FR 11301) which included permitting only intraperitoneal inoculation of test animals. Therefore, the provisions for influenza vaccine in this proposal would constitute an exception to the general standard in that earlier proposal, since they would permit either a subcutaneous or intraperitoneal administration. However, this experience with influenza vaccine does not alter the Commissioner's intention to amend the general safety test as proposed earlier for all other biological products not otherwise exempted.

The Commissioner has determined that this question requires public notice with appropriate time for comment since it represents a de facto change in the method in which the general safety test has been conducted for this product by most manufacturers. A 10-day comment period is provided regarding this proposal. This reflects the fact that, if influenza vaccine is to be useful for this coming influenza season, it must be made available to those in need of it commencing in September of this year. The requirements of vaccine production are such that it is impossible for any additional quantities of influenza vaccine for use in the 1974–75 season to be produced at this time.

Pertinent data and information supporting the need for these amendments have been placed on public display in the office of the Hearing Clerk, Food and Drug Administration.

Therefore, pursuant to provisions of the Public Health Service Act (section 351, 58 Stat. 702, as amended; 42 U.S.C. 262) and under authority delegated to him (21 CFR 2.120), the Commissioner proposes that Part 610 of Subchapter F of Title 21 of the Code of Federal Regulations be amended by adding a new § 610.11a to read as follows:

§ 610.11a Inactivated influenza vaccine, general safety test.

For inactivated influenza vaccine, the general safety test shall be conducted in the manner indicated in § 610.11 except that, with reference to guinea pigs, the test shall be satisfied if the product provides satisfactory results using either the subcutaneous or intraperitoneal injection of 5.0 milliliters of inactivated influenza into each guinea pig. The requirements for general safety for inactivated influenza vaccine shall not be considered to be satisfied unless each lot of influenza vaccine is assayed for endotoxin in comparison to a reference preparation provided by the Food and Drug Administration, and such lot is found to contain no more endotoxin than the reference preparation.

Interested persons may, on or before August 12, 1974, file with the Hearing Clerk, Food and Drug Administration, Room 4–65, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours, Monday through Friday. For good cause as set forth above, the Commissioner anticipates that the regulation will be effective upon issuance of the final order, pursuant to the Administrative Procedures Act (5 U.S.C. 553(d)).

Dated: July 29, 1974.

SAM D. FINE,
Associate Commissioner for Compliance.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 74–CE–10]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation regulations so as to alter the transition area at Spencer, Iowa.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Central Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, Mo. 64106. All communications received on or before September 3, 1974 will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, Mo. 64106.

Since the designation of controlled airspace, a new public-use instrument approach procedure has been established for the Spencer, Iowa Municipal Airport, utilizing a new VOR facility installed on the airport. Accordingly, it is necessary to alter the transition area at Spencer to adequately protect aircraft executing this new approach procedure.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation regulations as hereinafter set forth:

In § 71.181 (39 FR 440), the following transition area is amended to read:

SPENCER, IOWA

That airspace extending upward from 700 feet above the surface within a five-mile radius of the Spencer, Iowa Municipal Airport (latitude 43°09'45" N., longitude 95°-11'30" W.); and within three miles each side of the Spencer VOR 298° radial, extending from the five-mile radius zone to eight miles northwest of the VOR; within five miles east and three miles west of the Spencer VOR 134° radial, extending from the five-mile radius zone to 15 miles southeast of the VOR; and that airspace extending upward from 1,200 feet above the surface within 4½ miles northeast and 9½ miles southwest of the Spencer VOR 298° radial, extending from 6½ miles southeast of the VOR to 18½ miles northwest of the VOR; within eight miles northeast and 9½ miles southwest of the Spencer VOR 134° radial, extending from 6½ miles northwest of the VOR to 22½ miles southeast of the VOR.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Kansas City, Missouri, on June 19, 1974.

GEORGE R. LACAILLE,
Acting Director, Central Region.

ENVIRONMENTAL PROTECTION AGENCY

[41 CFR Parts 15–3, 15–16]

[FRL 199–1]

LETTER CONTRACTS AND FORMS

Notice of Proposed Rulemaking

Notice is hereby given in accordance with the administrative procedures provisions in 5 U.S.C. 553 that pursuant to

the Federal Property and Administrative Service Act of 1949, as amended, the Environmental Protection Agency is considering an amendment to 41 CFR Chapter 15 by adding new §§ 15–3.408, *Letter Contract* and 15–16.552–1, *Letter Contract*. Section 15–3.408 implements 41 CFR 1–3.408 and § 15–16.552–1 provides a format and provisions for a letter contract.

Interested parties may submit written comments concerning the proposed amendment to the Contracts Management Division, PM–214, Environmental Protection Agency, Washington, D.C. 20460. Communications received on or before September 3, 1974, will be considered prior to adoption of the final regulation. A copy of each communication received will be placed on file for public inspection in the Contracts Management Division, Room W415, Waterside Mall, Washington, D.C. 20460.

Dated: July 25, 1974.

JOHN QUARLES,
Acting Administrator.

Subpart 15–3.4, Types of Contracts, is added consisting at this time of § 15–3.408 *Letter contract* as follows.

Subpart 15–3.4—Types of Contracts

§ 15–3.408 Letter contract.

(a) *Limitations.* (1) A letter contract may be entered into in accordance with § 1–3.408 of this title only after approval by the:

(i) Director, Contracts Management Division, PM–214, in accordance with § 15–1.5403–2(b), when the face value of the complete contract and any individual modification thereto is expected to exceed $250,000.00, and

(ii) Chief officer responsible for procurement at the contracting activity when the face value of the complete contract and any individual modification thereto is not expected to exceed $250,000.

(2) A letter contract negotiated on a noncompetitive basis shall be justified as prescribed in EPA Order 1900.1.

(3) A letter contract shall be superseded by a definitive contract within ninety (90) days from the date the letter contract is accepted, unless a period of performance in excess of ninety (90) days is authorized by the chief officer responsible for procurement at the contracting activity. The letter contract shall specify the date by which the definitive contract is to be negotiated. In the event the letter contract is not negotiated and executed within ninety (90) days from date of acceptance, it shall be terminated unless the ninety (90) days period is extended by the chief officer responsible for procurement at the contracting activity.

(4) Ordinarily, letter contracts should not authorize payment to the contractor in excess of 50 percent of the estimated total of the anticipated definitive contract. The maximum monetary liability of the Government under the letter contract shall be stated in the contract schedule and shall not exceed 50 percent of the estimated total price or cost and fee of the definitive contract, unless a larger amount is authorized by the chief officer responsible for procurement at the contracting activity.

(5) A letter contract shall not describe, refer to, or otherwise commit the Government to a definitive contract in excess of funds available for obligation or commitment at the time the letter contract is executed. Also, the letter contract shall state, in appropriate situations (e.g., where award is based on price competition), the maximum price or cost and fee which may be negotiated for the definitive contract.

(6) A letter contract shall not be modified to:

(i) Extend the period of performance or to increase the dollar amount without the prior approval of the officials designated in § 15–3.408(c)(1), or

(ii) Accomplish new procurement, unless the new procurement is inseparable from the procurement covered by the existing letter contract. Such modifications are subject to the same limitations as new letter contracts.

(b) *Contents.* A letter contract and the resulting definitive contract shall contain all applicable provisions required by law and regulation. The letter contract will be composed of a transmittal letter and signature page, administrative recitals, appropriate EPA General Provisions, special schedule articles, and other schedule articles peculiar to the procurement. A format for a letter contract is illustrated in § 15–16.552.1.

(c) *Definitive contract.* (1) The definitive contract resulting from a letter contract shall constitute the entire agreement between the parties and shall include in the contract Schedule any letter contract clauses, articles, terms or conditions which are to continue in effect. Also, the definitive contract shall contain a contract Schedule Article similar to the following:

ARTICLE-LETTER CONTRACT

This definitive contract is effective _____ (date) and replaces Letter Contract No. _____ dated _____, and all amendments thereto, and hereinafter forms the entire agreement between the parties.

Any costs incurred or payments made under Letter Contract No. _____ will be considered to have been incurred or made under this definitive contract.

(2) The effective date of the definitive contract shall be the date the contract is signed by the Contracting Officer, unless a different date is specified in the contract.

(Sec. 205(c), 63 Stat. 377, as amended (40 U.S.C. 486(c))

Section 15–16.552–1 is added to Subpart 15–16.5 to read as follows:

§ 15–16.552–1 Letter contract.

EPA letter contracts shall be prepared in a format similar to that illustrated below. The chief officer responsible for procurement at the contracting activity may authorize modification of the format.

(a) *Transmittal letter and signature page.*

ENVIRONMENTAL PROTECTION AGENCY

Date: _____
Letter Contract
Contract No.: _____

(Contractor)

GENTLEMEN: 1. This letter, when accepted by you, will constitute a Letter Contract bearing the contract number shown above, whereby you, as Contractor, agree to furnish to the Government the products or services set forth in the attached Contract Schedule in accordance with the terms, conditions, and administrative provisions set forth in the Schedule and the General Provisions identified in the Schedule which are attached hereto and made a part hereof. This Letter, Schedule, and General Provisions are submitted to you in _____ copies.
(number)

2. If you agree to the terms set forth in the Schedule and General Provisions referenced therein, please indicate your acceptance by signing the original and _____ copies of this letter in the place provided in the lower left corner and return the executed copies to the Contracting Officer who signed this letter on behalf of the United States.

3. It is understood by your acceptance hereof that you will undertake, without delay, to enter into negotiations with the Environmental Protection Agency looking to the execution of a definitive contract and to furnish all cost and price information requested by the Contracting Officer. The form and provisions of the definitive contract which the Environmental Protection Agency intends to use as the basis for negotiation are set forth in the Schedule.

SCHEDULE

ARTICLE I—STATEMENT OF WORK

(Include a complete, detailed description of products and services to be furnished or cite an Exhibit and incorporate by reference.)

ARTICLE II—REPORTS AND DATA

(Specify technical, progress, and financial reports and data required or cite reporting and data requirements as Exhibits and incorporate by reference. Reporting requirements should include report contents, reporting periods, dates of submission, distribution, and approval requirements.)

ARTICLE III—PERIOD OF PERFORMANCE

(Specify number of months or other time period required for total performance or list delivery date for each end item, as applicable. If appropriate, show performance period for each phase of work. See optional ARTICLE I below.)

ARTICLE IV—INSPECTION AND ACCEPTANCE

(Specify where and by whom inspection and acceptance will be performed, e.g.)

a. Final inspection of all items and services called for by this contract will be performed by _____[1] at _____.[2]

b. Final acceptance of all items and services called for by this contract will be performed by _____[1] at _____.[2]

ARTICLE V—F.O.B. POINT

(State F.O.B. point(s) for each item to be delivered and include any instructions concerning transportation modes and charges; see EPPR 15-19.3. Also, packing, packaging, marking, and shipping instructions may be added or referenced here or stated in a separate ARTICLE, as considered appropriate.)

ARTICLE VI—PAYMENT

(Include the following limitations and appropriate billing instructions.)

a. Payments under this Letter Contract shall not exceed $_____.

b. The total price or cost and fee to be negotiated for the definitive contract shall not exceed (insert total dollars).

c. The maximum amount for which the Government will be liable if this Letter Contract is terminated is $_____.

d. Nothing shall be paid under this Letter Contract to the Contractor for profit or fee, except as provided in the Termination clause of this Letter Contract.

e. Specify billing instructions. Note optional ARTICLE 2 below.

(Note optional ARTICLE 7 for use in cost sharing situations.)

ARTICLE VII—TECHNICAL DIRECTION

(If applicable, incorporate an appropriate technical direction article. See optional ARTICLES 4, 5 and 6 below.)

ARTICLE VIII—CONTRACTOR PROJECT DIRECTOR

(This ARTICLE may be added when a "Project Director" is to be named in the contract.

Performance of work required by this Letter Contract shall be conducted under the direction of Contractor's representative _____ (name). The Government reserves the right to approve any successor.)

ARTICLE IX—SUBCONTRACT CONSENT

To facilitate the review by the Contracting Officer of a proposed subcontract, the Contractor shall submit the information required by Clause _____ entitled "Subcontracts, of the General Provisions, EPA Form _____. The Contracting Officer shall review the request for consent to placement of the subcontract and advise the Contractor of his decision.

(NOTE: List known subcontractors, if applicable.)

ARTICLE X—PRICING OF PROPRIETARY AND/OR STANDARD ITEMS

Any and all proprietary and/or standard items manufactured by the Contractor, used in connection with the work to be performed under this contract, shall be charged to the contract at prices equal to or less than net prices charged, after the most favorable discount, to any customer for similar quantities of similar items, which prices shall also be equal to or less than the most favorable prices at which the standard items could be obtained from other suppliers.

ARTICLE XI—PUBLICITY AND PUBLICATIONS

It is agreed that the Contractor shall acknowledge Environmental Protection Agency support whenever research projects funded in whole or in part by this contract are publicized in any news media. The Contractor shall include in any publication or on any sign or billboard resulting from the research performed under this contract an acknowledgement identifying the Environmental Protection Agency as the sponsoring agency and the associated contract number.

ARTICLE XII—TERMINATION

In addition to the consideration specified in Clause(s) _____ of the General Provisions, EPA Form _____, this Letter Contract shall be terminated by the Government and the termination settled in accordance with that TERMINATION Clause if:

a. The Contracting Officer determines that the parties are unable to agree upon a definitive contract, or

b. This Letter Contract is not superseded by a definitive contract within ninety (90) days after acceptance of this Letter Contract, unless an extension of time is granted by the Contracting Officer.

ARTICLE XIII—CLAUSES INCORPORATED

a. There is incorporated by reference in this Letter Contract all the clauses contained in EPA Form _____, General provisions for a type _____ contract, except for changes specified in ARTICLE XIV, entitled "ALTERATIONS."

b. (Identify and reference any other clauses or provisions appropriate to the contract and include such clauses with the SCHEDULE.)

ARTICLE XIV—ALTERATIONS

(Identify alterations, e.g.,

a. The following clauses of EPA Form _____, General Provisions _____, are hereby deleted.

b. Clause _____ of EPA Form _____, General Provisions _____, is hereby deleted and Clause _____ is inserted in lieu thereof and hereby made part of the General Provisions.

c. Add corrections or other changes to clauses.)

ARTICLE XV—DEFINITIVE CONTRACT

a. It is contemplated that a _____ type definitive contract will be negotiated on the basis of the Schedule and General Provisions of this Letter Contract and such additional clauses as are appropriate to the subject matter of this contract. However, the parties are not hereby committed to the negotiation of this type of contract.

b. The Contractor agrees to submit cost and pricing data promptly and to enter into negotiation of a definitive contract no later than _____ (date).

c. It is understood and agreed that pending negotiation of the definitive contract contemplated by this Letter Contract, the Contractor's Proposal No. _____, dated _____ shall remain available for acceptance by the Government. To the extent that the ultimate definitive contract is for the same work covered by the aforesaid proposal, the Contractor agrees to negotiate a period of performance or delivery date and a price or cost and fee no less favorable than offered in the proposal.

ARTICLE XVI—DIRECTION TO PROCEED

Except as otherwise expressly provided to the contrary in this Letter Contract, the Contractor is directed, upon his acceptance of this Letter Contract, to proceed immediately to procure the necessary materials, and to pursue such work with all diligence to the end that the products or services called for under ARTICLE I of the Schedule will be delivered or performed in accordance with ARTICLE III of the Schedule and all other terms of this Letter Contract.

ARTICLE XVII—CONTENTS OF CONTRACT

This contract _____ (number) consists of the following:

Transmittal Letter and Signature Page
Administrative Recitals
Schedule Pages 1 thru __
General Provisions, EPA Form _____

(d) *Optional Articles.* The following optional articles may be used as appropriate, article numbers may be adjusted as required.

ARTICLE 1—LEVEL OF EFFORT

(The following article may be used in CPFF Term Form situations where the total manhours of effort are specified in the scope of work.)

a. The Contractor's contractual obligation is expressed in terms of total manhours to perform the effort set forth in ARTICLE I—*SCOPE OF WORK*. The Contractor shall provide approximately _____ manhours of direct labor in pursuit of the effort described in ARTICLE I—*SCOPE OF WORK*, which numbers of manhours shall hereinafter be referred to as the "Level of Effort" for this contract. Provided, however, the Contractor shall provide not less than _____ nor more than _____ manhours of direct labor in pursuit of the effort described in *Article* I—*Scope of work*.

b. The parties hereto agree to negotiate an equitable adjustment in the estimated cost and fee of this contract in the event the "Level of Effort" actually expended by the Contractor is less than the number of manhours of direct labor established as the minimum effort in paragraph a. above.

c. It is recognized that the Contractor is not obligated to furnish, nor is the Government required to accept, any manhours of effort in excess of the number of manhours of direct labor established as the maximum in paragraph a. above.

ARTICLE 2—OPTIONAL PARAGRAPH e. TO PAYMENT ARTICLE VI

d. Contractor's invoices or vendor's shipping documents used as invoices shall be prepared in accordance with the attached form entitled, _____, which is attached hereto and made a part of this Letter Contract. Vouchers shall be submitted for certification to the EPA Project Officer, who will forward them to _____ for payment. Payment will be made as provided in Clause _____ of the

---

[1] Insert Project Officer, Contracting Officer, or _____ (name), Representative of the Contracting Officer as applicable. If appropriate, add the following statement: "For the purpose of this ARTICLE, the Project Officer named in the Administrative Recitals of this contract is the authorized representative of the Contracting Officer."

[2] State place or places of inspection and acceptance.

General Provision, EPA Form _____, except as otherwise provided in this ARTICLE VI. The Contractor shall enter the following statement on the reverse of the voucher.

EPA Project Officer Certificate

I certify to the best of my knowledge and belief that the items for which reimbursement is claimed in this voucher are reasonable and were necessarily incurred in the performance of the related contract; that the Contractor performed the services for which reimbursement is claimed; that all required reports have been received.

---------- ----------
Date Project Officer

ARTICLE 3—F.O.B. POINT

a. The F.O.B. point for all items, except reports furnished pursuant to the Article hereof entitled "REPORTS OF WORK", under this contract is _____.

b. The F.O.B. point for reports furnished pursuant to the Article entitled "REPORTS OF WORK" is as set forth therein.

c. Shipments shall be made on commercial bills of lading. The Contractor shall place the following statement on each commercial bill of lading:

"Transportation hereunder is for the Environmental Protection Agency, and the actual total transportation charges paid to the carrier(s) by the consignor or consignee are to be reimbursed by the Government, pursuant to cost-reimbursable contract No. _____. This may be confirmed by contracting such agency at (insert address of contracting activity).

ARTICLE 4—TECHNICAL DIRECTION.

The EPA Project Officer or other authorized individual named in the Administrative Recitals of this contract is responsible for guiding the technical aspects of the project and for general surveillance of the work performed. The Project Officer or named individual is not authorized to make any commitments or any changes which constitute work not within the general scope of this contract, change the expressed terms and conditions incorporated into this contract, or constitute a basis for any increase in contract price or extension of the contract Period of Performance.

ARTICLE 5—TECHNICAL DIRECTION.

(The following may be used in all Cost Reimbursement situations except cost sharing and co-sponsored Contracts and RFP's:

The attachment entitled "Technical Direction" is hereby made a part of this contract. At the time of award of this contract, the Contracting Officer will designate a Project Officer who will be responsible for the technical administration of this contract in accordance with the provisions of the attachment entitled "Technical Direction.")

ARTICLE 6—TECHNICAL DIRECTION

(The following article will be used in RFP's and Contracts which involve Cost Sharing or Co-sponsorship under separate contractual arrangements:

The attachment entitled "Technical Direction" is hereby made a part of this contract. At the time of award of this Government contract, the Contracting Officer will designate a Project Officer who will be responsible for issuing the technical directives for the Government contract in accordance with the provisions of the attachment entitled "Technical Direction.")

ARTICLE 7—PAYMENT

(The following is for use in RFP's and contracts where the Contractor is required to share some portion of costs incurred:

a. The estimated cost for the performance of this contract is $_____. The Contractor agrees to bear without reimbursement by the Government __ (%) percent of the cost for performance hereunder. Such cost sharing shall be effected as follows:

Public vouchers or invoices submitted in accordance with the provisions of this contract shall show the total cost incurred for the period for which the vouchers or invoice is submitted, the cumulative total of costs incurred through the billing period, and the percentage of costs to be reimbursed by the Government. However, the Government is not obligated to reimburse the Contractor in excess of __ (%) percent of such amount. The Government shall not be obligated to reimburse the Contractor for the Government's share of the costs in excess of $_____, nor is the Contractor obligated by this contract to expend his own funds in excess of $_____.)

ARTICLE 8—DESIGNATION OF PATENT ADVISOR

The Patent Advisor, Office of General Counsel, Environmental Protection Agency, is hereby designated to represent the Contracting Officer in administering the Patents and Inventions clause of this contract. Correspondence with respect to this clause should be directed to the Patent Advisor with a copy to the Contracting Officer. The requirements of the Patents and Inventions clause regarding the identification and mailing address of the Contracting Officer in subcontracts containing the clause may be satisfied in such subcontracts by including this entire paragraph.

ARTICLE 9—DESIGNATION OF PROPERTY ADMINISTRATOR

_____, Contract Property Administrator, is hereby designated the property administrator for this contract. The Contractor agrees to furnish to the Contract Property Administrator information regarding Government property as specified in this contract and in the manner and to the extent required by the Contract Property Administrator or his duly designated successors.

ARTICLE 10—DEFINITIONS

(Define terms, as appropriate)

FOREIGN ASSISTANCE UNDER THE FISHERMEN'S PROTECTIVE ACT

Transfer of Funds

Pursuant to section 5(b) of the Fishermen's Protective Act of 1967, as amended, and in accordance with Executive Order 11772, I hereby certify that it is in the national interest not to transfer to the account established in the Treasury pursuant to section 9 of the Fishermen's Protective Act of 1967, as amended, funds from the Foreign Assistance Act of 1961 programmed for Panama in the amount of $57,200, which amount is equal to the amounts specified in the attached list paid by the Secretary of Treasury in accordance with section 3 of the Fishermen's Protective Act of 1967, as amended, for the seizure of the fishing boat RAFFAELLO on April 18, 1974.

This determination and certification shall be conveyed to the Congress, as required by law.

This determination shall be published in the FEDERAL REGISTER.

[SEAL] JOSEPH J. SISCO,
Acting Secretary of State.

JULY 5, 1974.

DEPARTMENT OF DEFENSE

Office of the Secretary

ADVISORY GROUP ON ELECTRON DEVICES

Notice of Meeting

The Department of Defense Advisory Group on Electron Devices will meet in closed session August 20, 1974 at 201 Varick Street, New York, New York.

The purpose of the DoD Advisory Group on Electron Devices, and various working groups thereof, is to provide the Director of Defense Research and Engineering and the Military Departments with advice and recommendations on the conduct of economical and effective research and development programs in the field of electron devices; e.g., lasers, radar tubes, transistors, infrared sensors, etc. The group is also the vehicle for interservice coordination of planned R&D efforts.

In accordance with Public Law 92–463, section 10, paragraph (d), it is hereby determined that the AGED meetings concern matters listed in section 552(b) of title 5 of the United States Code, particularly subparagraph (1) thereof, and that the public interest requires such meetings be closed insofar as the requirements of subsections (a)(1) and (a)(3) of section 10, Public Law 92–463 are concerned.

MAURICE W. ROCHE,
Director, Correspondence and Directives, OASD (Comptroller).

JULY 30, 1974.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

MARINE MAMMALS

Administrative and Status Report 1974

The following report of administrative actions and the status of marine mammals under the jurisdiction of the Department of the Interior is hereby published in the FEDERAL REGISTER in compliance with section 103(f) of the Marine Mammal Protection Act of 1972 (Public Law 92–522).

The Department of the Interior, under section 3(12)(B) of the Act, is responsible for the following marine mammals: Walruses, polar bear, sea otter, manatees, and dugongs. This report is current as of June 21, 1974.

ADMINISTRATIVE ACTIONS

Final regulations were published in the FEDERAL REGISTER of February 25, 1974, to implement the Marine Mammal Protection Act of 1972. These regulations provide rules and procedures regarding wildlife under the jurisdiction of the Department of the Interior, including definitions, prohibition on taking and scientific research and public display permits. Eleven permit applications were received during the period May 10, 1973–June 21, 1974. Three of these were approved, three were rejected and five were pending final action.

Scientific research permits were issued to the University of Miami for the collection of up to thirty (30) manatees found dead, and to the U.S. Fish and Wildlife Service to immobilize and mark up to 125 polar bears. One public display permit was issued to Sea World, Inc. for the collection of eight (8) walrus pups. The walrus pups will be used to replace the twelve (12) walrus which were collected by Sea World last year, all of which were lost due to apparent dietary problems. The issuance of the Sea World permit was based primarily on the need for further investigation of the husbandry requirements of walrus.

The applications rejected were all for public display by various zoos. Two were rejected as they were blanket permit applications for marine mammals and the third, which was withdrawn, was a request to import manatees. The five pending permits include a request to import for public display, a polar bear skin; a request to import, for public display, two live polar bears; and three requests for scientific research. The applications for scientific research are to collect and tag walrus; to import skeletal parts of one polar bear, which is already dead; and to take walrus and sea otter as part of a continuing research project by the Alaska Department of Fish and Game.

SUMMARY.—*Status of marine mammal permit applications as of June 21, 1974*

Type application	Number received	Number approved	Number rejected	Number pending
Scientific research	5	2		3
Public display	6	1	3	2

Fish and Wildlife Service enforcement personnel reported a total of ninety (90) investigations of violations of the Marine Mammal Protection Act of 1972 as of March 30, 1974. Thirty-four of these cases were referred to the National Marine Fisheries Service, who had primary jurisdiction. The remaining were either acted upon or referred to States involved. Seven states reported a total of nineteen marine mammal investigations. These were primarily concerned with sea otters and manatees.

A close liaison has been established with the Marine Mammal Commission

including procedures for review of permit applications and exchange of information. Fish and Wildlife Service personnel attended Marine Mammal Commission meetings in Seattle, Washington and San Diego, California.

In an effort to further strengthen overall coordination of this Department's responsibilities, the Fish and Wildlife Service established and filled a Program Coordinators position in January and a Marine Mammal Coordinators position in May. The Marine Mammal Coordinator will serve as a focus and catalyst for all marine mammal matters within the Department and will act as liaison with the Departments of Commerce and State, Marine Mammal Commission, State agencies, and interested conservation organizations.

During Fiscal Year 1974, the Fish and Wildlife Service provided additional positions in Alaska for law enforcement and research, the two principal programs involved. The research on polar bears, sea otters, and walrus is being accelerated.

All affected states have been contacted regarding cooperative research efforts (section 109). Initial contact to facilitate early initiation of field work was in terms of contract research, with Fish and Wildlife Service providing all funding.

This has been supplemented by preparation (and anticipated early publication) of procedures for participation in "grant" type efforts. Thus far, response has been obtained only from Alaska (received in April) and their proposals are being reviewed.

From November 13 to 15, 1973, the five circumpolar nations—Canada, Denmark, Norway, the U.S. and the U.S.S.R.—met in Oslo, Norway and concluded an agreement for the conservation of the polar bear. At the conclusion of the meeting it was signed by all the participants except the Soviet Union, which signed the Agreement on February 1, 1974. The Agreement is not only the first among the circumpolar nations, but the first for the conservation of that animal.

The Agreement provides a broad prohibition on the taking of polar bears, subject to an exception limited by the ability of hunters to penetrate into the Arctic from surrounding territories by the sole means which are, or have become, traditional for them; by dog sled or in some cases, snowmobile. The Agreement bans the use of aircraft and large motorized vessels. The generally accepted principles of polar conservation will continue to apply. In this respect, there is in the case of several of the polar nations a moratorium on the taking of polar bears.

Arrangements were made for research programs and international sharing and coordination of research results, the protection of polar bear ecosystems and control of international traffic in illegal polar bear skins.

A special task force composed of Fish and Wildlife Service and National Marine Fisheries Service representatives has been established to prepare an environmental impact statement concerning the waiving of the moratorium in regard to several species of marine mammals in Alaska. This study is being undertaken as a result of a request submitted by the State of Alaska in January 1973, for approval of State laws and regulation under section 109(a)(2) of the Act, allowing a managed harvest of certain marine mammals.

Status of Marine Mammals

POLAR BEAR

(Ursus maritimus)

Distribution and migration. Polar bears occur only in the northern hemisphere, nearly always in association with Arctic sea ice. Centers of six geographically isolated polar bear populations that have been identified in the main polar basin are Wrangel Island-western Alaska, northern Alaska, northern Canada, Greenland, Spitsbergen-Franz Josef Land, and central Siberia. Separate populations also occur further south in Hudson Bay in Canada.

Bears are most abundant near the southern edge of the sea ice but do occur throughout most of the polar basin and have been recorded as far north as 88° N. latitude. They make extensive north-south movements related to the seasonal position of the southern edge of the ice. In winter, bears off Alaska commonly occur as far south as Bering Strait and occasionally reach St. Lawrence Island and even St. Matthew Island in the Bering Sea. In the summer, north of Alaska, the edge of the ice pack and bears commonly occur between 71° and 72° N. latitude. Pregnant females concentrate for winter denning and bearing young on large offshore Russian islands, northern Canadian islands, and certain of the Spitsbergen islands.

Abundance and trends. Total population estimates, which range from a low of 10,000 by the Soviets to a high of 20,000 by the Norwegians, are based on broad assumptions and should be considered as very general. Abundance of bears off the Alaska coast and the magnitude of sustained long-term harvests suggest that the 20,000 figure may be low.

During the 1930's, 1940's, and 1950's, Alaska Natives harvested about 120 bears annually. Trophy hunting with the use of aircraft developed in the 1950's, and the average annual kill gradually increased to 250 for 1961–72. The number of bears reported per hour of flying by Alaska hunting guides did not show a trend during 1956–69, the period when guides provided reliable data. Sex composition for 1961–72, when 87 percent of the bears were taken with the use of aircraft, was 70–80 percent males. Selective hunting with use of aircraft reduced the percentage of mature males in the population. A high percentage of females with young in the population indicated a healthy rate of reproduction, however. Age composition of bears harvested west of Alaska during the aircraft hunting era did not show a trend. The average age of bears harvested north of Alaska declined in 1970 and 1971, reflecting high harvests in 1966 and 1967, and then increased in 1972 as a result of hunting restrictions and reductions in harvest after 1967. Harvests after passage of the Marine Mammal Protection Act of 1972, which permits hunting only by Natives for subsistence or as a source of material for traditional articles of Native handicraft or clothing, were 7 in 1973 and approximately 40 in 1974. An increase in the number of bears was reported along Alaska's northwest and north coast in the winter of 1973–74, possibly because the Marine Mammal Act had sharply reduced harvests for two seasons. Some residents of the Arctic coast are now concerned that polar bears may become numerous enough to become a nuisance in some areas.

Russians believe that polar bear populations in the Soviet Arctic declined during the first half of the century and have now stabilized since hunting was stopped in 1956. Average annual harvests in Spitsbergen, about 300 prior to 1970, have been reduced to an estimated 5 or 6 by a 5-year moratorium on hunting. The harvest in Greenland is 125–150 bears per year. Annual harvests in Canada approached 600 during the early 1960's and are now about 500.

General biology. Polar bears, other than family groups of females and young, are solitary most of the year. During the breeding season in late March, April, and May, males actively seek out females by following their tracks on the sea ice. Bears are polygamous; a male remains with a female a relatively short time and then seeks another female. Delayed implantation probably occurs.

Pregnant females seek out denning areas, generally in October. Known denning concentration areas occur on Russian, Canadian, and Spitsbergen islands. Bears den along sections of the Greenland coast and the north Alaska coast. Some denning occurs on heavy pack ice north of Alaska. Bears most commonly den under banks along the coast or rivers, or on slopes where snow drifts. A denning female commonly forms a depression in the snow and then enlarges a denning chamber as snow drifts over her. Young, weighing between 1 and 2 pounds, are born in December. A litter of two is the most common, one is quite common, and three is rare. The female and cubs break out of the den in late March or early April when cubs weigh about 15 pounds. They make short trips to and from the opened den for several days as the cubs become acclimated to outside temperatures. If the den is on land the family group then travels to the sea ice. In most sections of the Arctic, young remain with the mother until they are about 28 months old.

Females breed again at about the time they separate from their young so normally they can produce litters every third year. Females can first breed at 3 or 4 and males at 4 years of age, but some animals are older at first breeding.

Most bears do not live beyond 25 years. Mature females off the Alaskan coast weigh 400 to 700 pounds and mature males 700 to 1,400 pounds. Animals west of Alaska are larger than animals north of Alaska. Polar bears feed primarily on ringed seals and also on bearded, harp, and bladdernose seals. They occasionally eat carrion, including whale, walrus, and seal carcasses, and small mammals, birds, eggs, and vegetation when other food is not available.

Approximately 60 percent of Alaskan bears harbor *Trichinells spiralis*, apparently obtained from eating seals and other marine mammals, garbage, and possibly carcasses of other bears. Polar bear liver is toxic if eaten because of high vitamin A content.

Ecological problems. Long-term climatic trends probably have a major impact on bear populations. Warming trends restrict areas that are suitable for denning and feeding, and cooling trends favor expansion of populations.

Human development, especially that associated with oil and gas extraction, poses the greatest immediate threat to polar bears. Oil exploration and drilling in denning areas could cause bears to den in less suitable areas. Oil spills from offshore drilling or transporting of oil through ice covered waters could reduce insulating value of bears' fur and adversely affect the food chain below them. Ice would hinder or prevent containment of a spill, and currents could distribute oil over large areas.

Recent studies indicate that a significant number of bears have traditionally denned and produced young along Alaska's north coast. Increased human activity will perhaps cause fewer bears to come ashore to den and, therefore, they will den in less favorable sea ice sites or will desert land dens earlier than normal when cubs are less able to survive. The proposed gas pipeline from Prudhoe Bay, Alaska, to the MacKenzie Delta, Canada, could have a serious impact on polar bear denning in and west of the Arctic National Wildlife Refuge.

Mercury and low levels of DDT and PCB's have been found in tissue samples of all Alaskan bears checked for these contaminants.

Allocation problems. In Alaska after about 1950, trophy hunting with aircraft largely replaced Native hunting from the ground for subsistence and sale of hides. Use of airplanes for hunting has been severely criticized in recent years, and some preservationists would like to stop even the small amount of hunting which Natives now do from the ground. On the other hand, non-Native residents of the Arctic coast believe they are being discriminated against because only Natives can hunt.

The U.S.S.R. believes that bear stocks off the Siberian coast have been reduced and restricts taking to a few cubs for zoos. Until recent years, Norwegian sealers killed bears as predators, Spitsbergen trappers used baited set guns to obtain hides for sale, and trophy hunters took bears from Norwegian boats in the summer. The present feeling in Norway is that only a few residents of Spitsbergen should take bears, and set guns should not be used. In Greenland only Eskimos or long-term residents are permitted to harvest bears, primarily for subsistence and personal use of skins. The Canadian harvest has traditionally been by Eskimos for subsistence and to obtain skins for sale. Trophy hunting from the ground is starting in Canada and is being encouraged by managing agencies.

Regulations. In Alaska, past management practices to limit polar bear harvests established seasons, bag limits, and a permit system; protected young and females with young; and limited the number of hunts conducted by each guide. Two management areas were established, one to the west of Alaska and one to the north of Alaska. Residents were allowed to hunt bears at any time for food provided aircraft were not used. Hides and skulls of all bears taken had to be presented to the Alaska Department of Fish and Game within 30 days for examination, sealing, and removal of a tooth for age determination. Alaska banned the use of aircraft for hunting polar bears after July 1972, and lengthened the season to encourage sport hunting from the ground.

The Federal Marine Mammal Protection Act of 1972 assumed management authority for polar bears and limited their harvest to Alaska coastal Eskimos for subsistence or for manufacture of traditional Native articles of clothing or handicraft. The Marine Mammal Act removed restrictions on harvest of females with young and young by Natives. Marine Mammal Act regulations prevent polar bear skins from being tanned or sold to non-Natives, and skins from bears now being taken are being wasted.

The U.S.S.R. has not allowed polar bear hunting since 1956. Norway stopped set gun and trophy hunting in 1971 and enacted a 5-year moratorium in 1973 on all harvesting because recent studies indicate the Spitsbergen polar bear population is smaller than previously believed. In Greenland only Eskimos or long-term residents may take bears and must use traditional ground methods of hunting. In Canada, prior to 1968, Eskimos hunting from the ground took bears with few restrictions. The Northwest Territories, where most bears are taken, has now established polar bear hunting districts with quotas. Trophy hunters may purchase a permit from a district to take a bear from its quota, provided a resident is used as a guide.

In November 1973 the five polar bear nations drafted an agreement on conservation of polar bears which, when ratified, will allow bears to be taken only in areas where they have been taken by traditional means in the past, and will prohibit use of aircraft and large motorized vessels as an aid in taking. The agreement also calls for both national research and cooperative international research and management, especially on populations occurring on the high seas or within more than one national jurisdiction; provides protection for ecosystems of which polar bears are a part; by resolution seeks special protection from hunting for denning females, females with cubs, and cubs; and by resolution asks for an international system of hide identification to better control traffic in hides.

Current research effort. The governments of Canada, Norway, Denmark, U.S.S.R., and the United States are conducting intensive long-term investigations. In most countries shorter term projects funded by universities and grants complement government programs. Research programs are coordinated internationally by the Polar Bear Specialist Group under the auspices of the International Union for the Conservation of Nature.

SEA OTTER

(*Enhydra lutris*)

Distribution and migration. Populations in waters of the United States are resident (the sea otter is not migratory) along the west coast of North America from central California north to Prince William Sound and westward along the Aleutian Chain to Attu Island. In waters of the U.S.S.R. the sea otter occurs at the Commander Islands, along the southern Kamchatka Peninsula, and among the Kuril Islands. It seldom ranges offshore beyond the 30-fathom (180 feet) depth curve.

Abundance and trends. In 1956 the Alaska sea otter population, based on aerial surveys, was estimated to be about 25,000 animals and to be increasing exponentially at about 4 to 5 percent per year; the world population was estimated at 32,000 to 35,000 animals. After additional surveys in 1970, the Alaska population estimate was 50,000. In 1972, with refined techniques and additional surveys using a variety of methods, the Alaskan population was estimated to be 100,000 to 125,000 animals and still increasing. The Alaska Department of Fish and Game published a breakdown of sea otter population estimates according to Game Management units. The total estimates taken from this publication are 101,050 to 121,050 otters.

From a helicopter survey of Prince William Sound in June 1973, the Alaska Department of Fish and Game estimated that there were 5,000 sea otters and that the population was extending its range and increasing. The results of a similar survey made in early March 1974 are not yet available. A surface survey of some of the areas of Prince William Sound by the U.S. Fish and Wildlife Service at about the same time indicated between 7 and 8 pups per 100 animals other than pups.

The sea otter has received a high measure of protection by both Federal and State laws since 1911 and is not subject to aboriginal hunting. Prior to 1741, a large coastal Native population had exploited the sea otter for some thousands of years. Thus, within its present range the sea otter today is probably more abundant than it has been for centuries.

Otters from Amchitka Island and Prince William Sound were transplanted

to the following locations: Southeastern Alaska in 1965, 1966, 1968, and 1969 (total 413); British Columbia in 1969, 1970, and 1972 (total 89); Washington in 1969 and 1970 (total 59); Oregon in 1970 and 1971 (total 93); and the Pribilof Islands in 1959 and 1968 (total 64). All transplant figures are from J. S. Vania and are contained in unpublished reports of the Alaska Department of Fish and Game and annual reports of the Marine Mammal Committee of the American Society of Mammalogists, 1965–73. Among transplanted otters, young have been observed in Southeastern Alaska, British Columbia, and Oregon.

The northwestern coast of Washington was surveyed from a helicopter in early May 1974 by the Fish and Wildlife Service. Only one adult sea otter was seen. Widely scattered individuals may have been overlooked, but conditions for observing were good. It is likely that few of the 59 animals translocated in 1969 and 1970 remain. Survival of transplanted sea otters ranged from poor to excellent, so the numbers of animals reported transplanted is of variable significance.

California population counts are as follows: about 150 in 1938, 638 in August 1957, 1,014 in August 1968 and 1,060 in January 1972. Otters occur from Monterey Bay, California, south to Morro Bay and are extending their range north and south. Based on the 1972 count, the total California population was estimated to be 1,200 to 1,500 animals. The sea otter population in mid-1973 was estimated to be about 1,600 to 1,800 animals that ranged from Santa Cruz on the north to just beyond Point Buchon on the south. These counts and estimates indicate that the population is extending its range and increasing.

General biology. The sea otter is the largest member of the family Mustelidae, reaching a length of 148 cm and a weight of 45.5 kg. It becomes sexually mature at about 4 years of age and bears a single young, weighing approximately 2.3 kg, about every 2 years. The pup nurses for 10 to 12 months, but during this period often takes solid food gathered by the mother. The mother is very attentive to her young. Most of the young are born during the summer, but births and mating may occur at any season. Breeding behavior is promiscuous; mating male and female remain together for as long as 3 days. The dense underfur is about 1 inch long; the guard hairs are about 0.25 inch longer. A healthy animal may accumulate considerable body fat but there is no layer of blubber. The sea otter is, therefore, dependent for insulation from cool (35° to 50° F) marine waters on the air blanket retained among the 800,000,000 pelage fibers.

Mortality at Amchitka Island (the only area studied intensively) is greatest in winter and early spring. A dense population there depleted food organisms, and starvation occurred during stormy weather. Young, deserted by mothers during storms, accounted for 70 percent of the mortality. The remaining 30 percent were predominantly animals showing signs of old age. Most of the dead animals exhibited signs of starvation and enteritis. Internal parasites include Trematoda (4 spp.), Cestoda (2 spp.), Nematoda (1 sp.) and Acanthocephala (5 or possibly 6 spp.). A nasal mite, the only ectoparasite found, is common in harbor seals but occurred rarely in the sea otter; infestation from contacts on common hauling out places is suspected.

Ecological problems. In several Aleutian Island areas the sea otter has overpopulated its habitat and depleted food resources; population declines were observed. Oil pollution of waters occupied by sea otters would be fatal to them. Pesticide residues have been found in California sea otters, but the effect on them is unknown.

Allocation problems. There is conflict over management of the population off the coast of California, because the sea otter is a predator of the abalone. An organized group (Friends of the Sea Otter, Big Sur, California 93920) wants the population completely protected so that it can expand into its original range. Abalone fishermen, both commercial and sport, want the population controlled and limited to the refuge and areas where the abalone is not abundant.

From 1962 through 1969, the State of Alaska took 2,933 pelts for sale at auction, but the enterprise was of marginal financial success. No harvest of skins has been taken since 1969. The sale of 402 skins took place on February 9, 1972.

Regulations. The sea otter is protected by the Marine Mammal Protection Act of 1972 (PL 92–522). In California it is listed as a completely protected animal.

Current research and funding of sea otter studies. The State of Alaska employed one full-time biologist (Karl B. Schneider) from 1965 to 1973. The U.S. Fish and Wildlife Service employed one full-time biologist from 1955 to 1974. Another biologist was assigned in 1974. The California Department of Fish and Game employs one full-time biologist (Paul W. Wild) and an assistant (Jack Ames). This program began in 1968 and continues. The Owings Foundation, privately endowed, employs Judson Vandevere as a full-time sea otter naturalist.

ATLANTIC WALRUS

(*Odobenus rosmarus rosmarus*)

Distribution and migration. The Atlantic walrus is found in open waters near ice in the Arctic and Atlantic Oceans. There appear to be two breeding groups: (1) Kara Sea to eastern Greenland and (2) western Greenland and eastern Canada. Most animals migrate south in winter and move north in the spring as the ice retreats. Stormy weather may occasionally force overland travel.

Abundance and trends. No figures on numbers are available since 1967 when the estimate was 25,000. The average annual kill is estimated at 2,700 and the annual increment is believed to be between 12 and 20 percent. Any increase in kill would seriously jeopardize this subspecies. Herds in the Barents, Kara, and White Seas are reported to be close to extinction.

General biology. This subspecies is smaller than the Pacific walrus with males averaging 680 kg and females 566 kg. Gestation period is thought to be 10 to 11 months with one young produced every other year. The young nurse for as long as 24 months.

Ecological problems. Dredging or other disturbance of clam beds would probably threaten the primary food base of the walrus.

Allocation problems. Eskimo hunters kill about 2,700 per year with the meat being used primarily for dog food and the tusks for carving figurines and tools. The number of animals lost after killing is probably high.

Regulations. Since 1956 the U.S.S.R. has prohibited all hunting except that necessary to meet the needs of the Eskimo people. Denmark limits the take to Greenland residents using craft under 40 tons. Hunting areas and dates are also specified. Canada limits killing to Eskimos and a few white residents.

PACIFIC WALRUS

(*Odobenus rosmarus*)

Distribution and migration. The entire population winters in the seasonal pack ice of the Bering Sea. When the ice was at maximum extent in April 1972, concentrations of walruses were found north and south of the west end of St. Lawrence Island and in central Bristol Bay. Areas of sparse abundance surround the areas of concentration. Ice movements caused by currents of wind and water create leads and break up pack ice. Walruses are thus able to feed in these relatively shallow waters, generally less than 40 fathoms (240 feet) deep.

There may be two or more peaks in migration, depending on weather and ice conditions. From mid-May to early June most females and young move through Bering Strait with ice carried by strong currents. In mid-June large numbers of males move north. However, in 1954 about 1,000 adult and subadult males remained throughout the summer on and near Round Island in northern Bristol Bay. An estimated 1,500–2,000 were present therein June 1958, and 2,000 to 3,000 on shore plus additional animals in the water in 1966. Other haul-out areas may be used in winter. In 1962 and 1965 small numbers (100 to 150) were seen on beaches of Amak Island. Several thousand were hauled out on the east shore of Big Diomede Island in December 1966 and, at the same time, between 1,000 and 1,500 came ashore on the Punuk Islands, south of St. Lawrence Island.

In the west, walruses haul out on Ruder Spit, Arakamchechen Island, and Cape Intsova in the Chukchi Sea. At one site on Cape Instova (1947), the first walruses were observed to come ashore on August 8, 1947, and by October 10, about 8,000 were hauled out.

During the northward spring migration into the Arctic Ocean, the majority of walruses pass through the western side of Bering Strait and proceed westward

to Wrangel Island. Here, three types of hauling grounds were identified: those used by mothers with young, those used by adult males, and those used by subadults. Few walruses move eastward into the Beaufort Sea.

Abundance and trends. Prior to large-scale exploitation by whalers of European descent which began in about 1868, the Pacific walrus was estimated to number about 200,000 animals. The population may have fallen to a low of 40,000 to 50,000 in the 1950 to 1956 period. Beginning in 1960, aerial surveys of walruses were undertaken. From data obtained on the five surveys (two in 1960, one each in 1961, 1968, and 1972), total estimates were computed by extending the number of animals observed in a 1-mile flight track to the estimated area occupied by walruses. From the 1960 surveys, the total population was estimated to range from 73,000 to 117,000. The 1972 surveys provided a median estimate of 135,000 walruses, and a range of 93,000 to 179,000. J. J. Burns has gathered much basic biological information from walruses taken by Eskimos. From these data, his estimate of the walrus population approximates the computed mean of the 1972 aerial survey. He considers that the similar results obtained by the very different methods confirm a population of approximately 140,000 walruses. Studies of his material, as well as a comparison of the 1960 and 1972 surveys, indicate that the population may still be increasing, but it will not continue to do so if the annual kill is increased.

Annual mortality rates, using Ricker's "catch curve," were estimated by various investigators to range from 11 to 15 percent. Among males from 14 to 33 years of age, the mortality rate was 14 percent. The hunter take of walruses in Alaska in 1973 was about average, 1,581 animals (1,240 adult males, 231 adult females, and 110 calves); the total kill, including those killed and lost, was estimated to be about 2,700 animals.

The take of walruses by the U.S.S.R. from 1968 through 1973 was 1,097, 960, 957, 860, 1,518, and 1,291. The number killed but lost is not included. The harvest cannot exceed 2,000, the present annual quota.

General biology. Only one pinniped, the southern elephant seal, is larger than the Pacific walrus. An adult male walrus weighed 1,557 kg. The maximum standard length of 23 adult males was 356 cm. Among 26 adult females, the maximum weight was 1,062 kg and the maximum length was 238 cm. From a sample of newborn young the maximum weight was 77 kg and the maximum length was 137 cm. Some females ovulate for the first time at age 5; others, more rarely, are delayed until age 8. Males become fertile at ages 7 to 8 years but are not physically mature until they are at least 10 years old. The walrus is polygamous, with a mid-season sex ratio of 5 cows to 1 bull in the main breeding area southwest of St. Lawrence Island. The gestation period, including a 3 to 3.5 month delayed implantation, is about 15 months. The young are usually born in May, during the spring migration northward. Each female bears a single calf and nurses it about 2 years. The females and young are very gregarious, males are gregarious outside the breeding season. Studies of cementum layers in canine teeth indicate that walruses often attain ages of 20 to 30 years, with maximum ages of 37 years for a male and 26 for a female.

Walruses, having a greater specific gravity than water, must rest on ice or land at fairly frequent intervals. By means of pharyngeal pouches that may be inflated, however, walruses are able to sleep while floating upright at sea.

Clams (six species identified) are the most important food species. The stomach contents of an adult male contained about 50 pounds of *Mya truncata* siphons and 35 pounds of *Clinocardium nuttalli* feet. Other food includes echinoderms, annelids, sipunculids, and priapuloids. Occasionally individual adult males turn to a diet of seal flesh.

Parasites and diseases. Internal parasites recorded from walruses include the following: Trematoda (3 spp.), Cestoda (3 spp.), Nematoda (6 spp.), and Acanthocephala (4 spp.). All walruses except calves are infested with external parasites, including three species of sucking lice. A small percentage of adult male walruses become carnivorous and feed on seal flesh. Probably it is this abnormal feeding behavior that accounts for trichinosis infection of from 1 to 10 percent of 1,060 male walruses sampled from four arctic regions. Incidence of uterine cysts and other disease conditions is low, as far as is known, and such diseases and abnormalities appear to be unimportant.

Ecological problems. Dredging for gold and offshore drilling for oil in the Bering and Arctic Seas are activities now under consideration by industry. The extensive clam beds, which furnish the basic food resource of the walrus, are not yet subject to human exploitation. If dredging for clams is undertaken, the food base of the Pacific walrus could be seriously threatened. Also of concern is the frequent harassment of walrus by aircraft when they are hauled out in summer on the Walrus Islands State Game Sanctuary (Togiak Bay), Bristol Bay.

Allocation problems. Siberian and Alaskan Natives kill 5,000 to 6,000 walruses annually for subsistence, and less than 50 were taken per year by trophy hunters and for display in marine aquariums. Loss of walruses during hunting ranges from 20 to 60 percent and averages about 50 percent because of inefficient Eskimo hunting techniques. Additional waste occurs in the utilization of the products of retrieved walruses. If ivory is the primary objective, utilization amounts to as little as 1 to 3 percent of the potential. When meat and hides are used, utilization is as high as 90 percent of the carcasses taken.

Regulations. Trophy hunting was stopped by the Marine Mammal Protection Act of 1972 (PL 92–522). Requested trophy hunting permits by guides under the hardship clause were not issued by the Secretary of the Interior. The taking of walruses by Native Alaskans (Eskimos and Aleuts) for meat, hides, and ivory which may be used to manufacture traditional artifacts for sale is permitted. PL 92–522 allows Natives to take an unlimited number of male and female walruses. The Alaska State law, which the Federal legislation invalidated, was more restrictive, it imposed a bag limit of 5 females per resident hunter with no limit on males.

Current research and funding of Walrus studies. A walrus research program is being established by the U.S. Fish and Wildlife Service. F. H. Fay, U.S. Department of Health, Education, and Welfare, has worked part-time for many years on walrus studies. In the 1973 hunting season, the Alaska Department of Fish and Game maintained observers on St. Lawrence Island, Little Diomede Island, and King Island to monitor the kill. Studies have also been supported under the Sea Grant Program, University of Alaska.

AFRICAN MANATEE

(*Trichechus senegalensis*)

Distribtuion and migration. The African Manatee occurs in coastal waters and in adjacent rivers along the coast of West Africa from the mouth of the Senegal River (16° N) to the mouth of the Cuanza River in Angola. They have been reported from the Faleme, Gambia and Casamance rivers of Senegal and Gambia, and from the coasts of Guinea. Others rivers known to support manatees are the Sierra Leone, the Missunado, the St. Paul's and the Cavalla rivers. In Ghana, they are now apparently retricted to Lake Volta and the upper reaches of the Volta River. Manatees have been taken at Benin and Lagos, Nigeria, and are numerous in most of the larger rivers of southern Nigeria. They occur in the Niger River and are commonly known as far upriver as Idah, on the western border. They travel even further upriver, and have been noted in Segou, Mali, approximately 200 miles southwest of Timbuktu. Manatees also ascend the Benue River, a large tributary of the Niger. They have been reported in this waterway as far east as Numan (9° N 12 W). It is not thought that manatees occur in Lake Chad, although specimens have been collected from its principal tributaries, the Baningi, the Bahr Keeta and the River Shari. In Cameroon, they are found within the Korup Reserve and have been reported fro mthe Mungo and Wouri rivers. It is also likely that they inhabit the Campo River in southern Cameroon. Specimens have been taken from the Rio Muni, Gabon and Ogooue rivers and may also be found in the Loeme River of Congo Brazzaville. In Zaire, *T. senegalensis* occurs in the lower Congo River, and also in the upper drainage of the Uele River, east to Kibali. The Loge, Dnade, Bengo and Cuanza rivers of Angola all reportedly contain manatees.

No migrational movements have been noted for this species.

Abundance and trends. No population estimates are available for this species. The African Manatee was reported as rare in the Senegal, Faleme and Casamance rivers of Senegal as early as 1900. Recent reports of manatee abundance in Senegal, Guinea and Portuguese Guinea are lacking. Manatees remain common enough in the Sierra Leone river estuaries today to be trapped for food, but no information is available on the current status of manatees along the coast from Liberia, to Nigeria. Manatees have been extirpated from the Mekrou River of Dahomey and the portion of the Niger River on the Niger-Dahomey border, although they are thought to still be numerous in most of the larger rivers of southern Nigeria. Populations seem to be stable in the lower Niger, the Benue River, and the Anambra system of creeks, but manatees are rare in the Izichi River of Nigeria. *T. senegalensis* has apparently been extirpated in Lake Chad and is classified as rare in the Cameroons. The lower reaches of the Congo River reportedly support considerable numbers, but populations have diminished in the upper rivers. In general, the manatee population of Zaire is much reduced. *T. senegalensis* is classified as a vulnerable species, but little data is available on the recent distribution or abundance of this animal.

General biology. Externally, this manatee is indistinguishable from the West Indian Manatee. It is large, fusiform and nearly hairless, with paddlelike flippers and a spatulate tail. Average adults measure from 2.5 to 3.4 m in length and weigh from 400 to 500 kg. It has been hypothesized that breeding occurs during the late dry season in weedy swamps and lagoons, but documentation has not been provided. The gestation period is unknown but is probably about one year. One is the usual number of young. Newborn calves are approximately 1 m in length, and they are believed to remain with the parent cow for a long period of time. There is no further information available on reproductive or population biology of this species. African Manatees favor weedy swamps and marigots. They are believed to be active throughout the day, but feed mostly at night. Their diet includes mangrove leaves, *Cymodocea nodosa, Polygonum,* and *Eichornia crassipes,* but they have also been reported feeding on *Rhizophora,* a terrestrial plant which often hangs over water. A 1.85 m captive male consumed 12 kg of vegetables daily. Upon reaching 2.4 m in length, he regularly ate 17 to 18 kg of vegetables, *Elodea* and legumes daily. The only information available on the social behavior of *T. senegalensis* is that groups of 4 animals, including half-grown calves have been observed.

The one internal parasite reported for the African Manatee is *Chiorchis fabaceus,* a trematode found in the large intestine. No diseases of this species have been reported from the wild, but one captive died as a result of acute enteritis. There is no evidence of predation on *T. senegalensis* by any species other than man.

Ecological problems. Propellers and keels of boats striking submerged manatees may inflict mortal wounds. While there has been no evidence presented indicating that this is a real problem in West Africa as it is in Florida, the Ijaw fishermen of the Anambra system of creeks in Nigeria, considered manatees a nuisance to their boat traffic. In 1932, they began trapping and killing manatees, and within three years, managed to exterminate the local population. Manatees inhabit the recently formed Lake Volta in Ghana and Lake Kainje in Nigeria, which are currently being swamped by the growth of aquatic weeds. Use of herbicides on the weeds which are consumed by the manatees presents a potential threat to the manatee. Pollution of waters in areas of human development would be expected to adversely affect the food sources of manatees. This species occurs within the Doro River Forest Reserve of Nigeria and in the proposed Korup and Campo Reserves of Cameroon.

Allocation problems. The African manatee has long been hunted throughout its range, largely for its meat. Nets, harpoons and guns are used in taking manatees and the hunting is usually done at night. Manatee hunting has been a regular occupation in the lower Congo, Angola and in northern Nigeria. No estimates are available as to the current take. An additional problem is the accidental netting of manatees in shark nets. These are set along many coastal areas of West Africa. *T. senegalensis* has been considered as a potential solution to the problem of aquatic weed control in man-made lakes and river systems. Experiments carried out on the West Indian manatee indicate that successful weed control by manatees is feasible for limited areas only. It is likely that the use of manatees in conjunction with the alternative mechanical weed removers, would provide the best means of control.

Regulations. The African Manatee is currently protected in Senegal, Guinea, Sierra Leone, Liberia, Ivory Coast, Ghana, Togo, Dahomey, Nigeria, Cameroon, Gabon, Congo Brazzaville, Zaire and Angola.

Current research. Silvia Sikes, of Benue-Plateau State, Nigeria, is currently involved in manatee conservation. She is being funded by a personal fellowship in manatee conservation from the University of Ibadan and is dispersing information to the forestry divisions of other Nigerian states to make them aware of this endangered animal. She is also gathering data on distribution in local rivers. Peter van Bree of Amsterdam is supervising a taxonomic study comparing *T. senegalensis* to *T. manatus.* The National Fish and Wildlife Laboratory of the U.S. Department of the Interior has compiled a report on the distribution, conservation and natural history of *T. senegalensis.*

AMAZONIAN MANATEE

(*Trichechus inunguis*)

Distribution and migration. The Amazonian Manatee is strictly fluviatile, apparently being confined to the Amazon Basin and possibly the Orinoco drainage. In Brazil, it occurs in the Amazon River and the following tributaries: the Rio Tocantins, the Rio Xingu, the Tapajos, the Nhamunda, the Rio Madeira and the Rio Negro. They have also been reported in the Rio Branco, which is almost continuous with the Essequibo and Rupununni rivers of Guyana during flooding, thus allowing manatees access to these rivers. It is thought that *T. inunguis* also inhabits the upper Orinoco and the Cano Casiquiare of Venezuela, but records are lacking. In Colombia, Amazonian Manatees may be found in the Amazon, the Putumayo River (west to Puerto Asis) and in the Caqueta River (west to the Araracuara rapids). They may also frequent the Apaporis River. Peruvian rivers supporting manatees are: the Rio Napo, the Rio Tigre, the Rio Maranon (as far as its confluence with the Rio Pastaza), the Rio Samiria and the Rio Pacaya. They also inhabit the Ucayli and Huallago River drainages, but are absent from both the Madre de Dios and the Purus systems. No information is available on migration of this species.

Abundance and trends. Amazonian Manatees were formerly abundant in the Brazilian Amazon. Thousands of skins were brought yearly to Manaus for trade in the 1930's and 1940's. *T. inunguis* is consequently rare today in most of the Amazon and its tributaries. They are, however, still fairly common in some lakes on the lower Tapajos, and in the Nhamunda River. In general, this manatee is regarded as rare in Colombia. This species is nearer to extinction in Peru than any other mammal, although modest numbers do remain in the Rio Samiria and the Rio Pacaya. All reports indicate dramatic decline in numbers of Amazonian Manatees throughout their range. Population estimates are not available, but extinction has been predicted within the next few decades if local hunting pressures continue.

General biology. T. inunguis is a large, fusiform, nearly hairless marine mammal with paddlelike flippers and a spatulate tail. It is distinct from the other manatee species (*T. manatus* and *T. senegalensis*) in both appearance and habitat. It is characteristically more slender in form with elongated flippers lacking nails, and it is marked by a unique white breast patch. This species is the only entirely fluviatile manatee. Adults may reach lengths of 2.8 m and estimated weights are between 125 and 250 kg. Breeding apparently occurs throughout the year. The gestation period is thought to be about one year, and one is the usual number of young born. Newborn calves are less than one meter in

length, and weigh less than 20 kg. Further information on reproduction, ontogenetic variation and population structure are lacking. Longevity in nature is unknown, but a captive pair survived for 12½ years before they died.

Amazonian Manatees feed upon a variety of aquatic vegetation including *Statiotes, Potamogeton, Vallisneria, Ceratophyllum, Ulva, Myriophyllum* and *Zostera*. Daily consumption of food plants has not been measured under natural conditions, but captive adults generally require 9 to 15 kg of lettuce and vegetables daily. There is no documentation of any natural predation on *T. inunguis*, but jaguars, sharks, piranha, and caiman have been suggested as likely predators. The trematode, *Chiorchis fabaceus*, occurring in the large intestine, is the only internal parasite reported for this species. Bronchial disorders, pneumonia and skin problems have been noted in captives, and one captive developed a case of osteomyelitis as a result of a harpoon wound.

Allocation problems. Many Indian tribes of Amazonia have hunted manatees in the past, both for the meat, and for the hides which were used in making shields. Harpoons and nets were used in capturing the animals, but the final killing was done by driving wooden plugs into the nostrils causing suffocation. In the 1930's and 1940's, the Amazonian Manatee was commercially exploited for the skins, which were shipped to Portugal and Rio de Janeiro to be used primarily in the manufacture of machine belting and water hoses. A meat preparation called "mixira," consisting of meat boiled in its own fat, was canned and also shipped abroad. Thousands of manatees were slaughtered yearly. Protective legislation has since been enacted, and the present rate of exploitation is reportedly reduced. However, poaching continues and manatee meat still commonly appears in the markets of Colombia and Brazil. In Leticia, Colombia, a large manatee today is worth about 40 Col. pesos. The price has reportedly slumped in other areas.

Regulations. T. inunguis is totally protected in Brazil (1968), Venezuela (1970), Colombia (1969), Peru (1973), and Guyana (1961).

Current research. Diana Magor is the only individual currently studying *T. inunguis*. She is based in Leticia, Columbia, and is collecting data on growth, distribution, and the natural history of the Amazonian Manatee.

WEST INDIAN MANATEE

(*Trichechus manatus*)

Distribution and migration. T. manatus inhabits rivers, estuaries, and coastal areas of the tropical and sub-tropical regions of the New World Atlantic. It commonly ranges from southern Georgia to the northern coasts of Surinam, in South America; occasional stragglers have been reported from as far north as Currituck Sound, Virginia (37° N.) and as far south as Goiana, Brazil (7° S.). Within the U.S., the range of *T. manatus* is largely confined to peninsular Florida and southern Georgia. On the west coast of Florida, the Suwannee River (30° N.) is the northern limit of the manatee's range. They occur south of this river in a series of semi-isolated populations located along the coast and in adjacent rivers in Citrus County, in lower Tampa Bay, in Charlotte Harbor, and in the Everglades. The distribution on the east coast is nearly continuous, with manatees commonly occurring in the Intracoastal Waterway and the Indian River, and traveling well up the St. John's River.

In Mexico, manatees range southward from Veracruz, within the Bay of Campeche and on both sides of the Yucatan Peninsula. Distribution appears to be continuous along the coast from British Honduras to Costa Rica, whereas isolated populations only remain in Panama. These are located in Chiriqui Bay, the Changuinola River, the Sixaola River, and possibly the Cocle River. Colombian rivers which manatees inhabit are the Atrato, Leon, Suriqui, and the Magdalena and its tributaries. They may also be found along the eastern coast of Colombia and in the Meta River. *T. manatus* frequents the lower Orinoco of Venezuela plus its tributaries, the Apure, Arauca, Payara, Capanaparo, and the Claro, as well as Lake Maracaibo. In Guyana and Surinam, manatees are found primarily in the rivers of the coastal plain. They have also been recorded from Jamaica, Cuba, and the Dominican Republic.

Manatees in Georgia and northern Florida apparently cannot withstand the cold winter temperatures. Some seek warm water springs or localities where factories discharge heated water into the rivers. There are twenty-five such warm water refugia used by manatees on the Atlantic and Gulf coasts. Arrival at these congregating sites usually begins in November; many animals remain for the winter, but there is continuous exchange of old and new members of the congregations. Summer observations of manatees at two northern Florida localities are common, whereas the animals are absent during the winter. This strongly suggests southward migration to avoid the cold. Offshore movements may also occur during all seasons.

Abundance and Trends: Aerial surveys of Florida coasts and rivers during 1972–73 indicate a manatee population numbering between 800 and 1,300. Numbers appear to be increasing along the west coast of Florida and are similarly increasing or stable along the Atlantic coast. Manatee numbers in Mexico are markedly reduced and reports are rare; however, their current local status appears to be stable. Likewise, populations in British Honduras seem to be decreased but stable. Manatees are reported to be fast decreasing in Guatemala. Present status in Honduras and Costa Rica is unknown, and estimates for Nicaragua range from a few score to several hundred. Numbers are low in Panama.

Manatees are currently decreasing in many Colombian rivers and are extremely rare in the Santa Marta District and in the Llanos of eastern Colombia. They have been extirpated from Taganga Bay, the Canal de Dique, and the Cienaga de Guajaro. In Venezuela, manatees are considered neither abundant nor rare in the lower Orinoco Basin. Estimates of some thousands but not tens of thousands of manatees have been made for Guyana, but populations are reportedly reduced for both Guyana and Surinam.

It can be generally concluded that hunting pressures in Mexico, Central and South America have resulted in the present diminished manatee populations. However, hunting efforts have decreased somewhat in these areas, partially due to the scarcity of manatees, permitting remaining populations to stabilize.

General biology. The West Indian Manatee is large, fusiform in shape, and thick-skinned with little hair. The forelimbs are modified paddles with rudimentary nails, and the spatulate tail is horizontally flattened. Adults range in size from 2.5 to over 4.5 m in length and corresponding weights vary from 200 to 600 kg. However, average adults are between 3 and 4 m in length and weigh less than 500 kg. Sexual dimorphism in size has not been documented. *T. manatus* has no definite breeding season; breeding occurs throughout the year. The cow is polyandrous, allowing several bulls to copulate with her during her relatively short period of receptivity. Mating has been observed in water about 2.5 m in depth as well as in shallows less than 1 m deep. The gestation period is probably about 385 to 400 days and parturition is thought to occur in secluded shallows. Successful breeding has not occurred under captive conditions. One is the usual number of young; however, twins and a case of foster parenthood have been recorded. Newborn calves may measure over 1 m in length and weigh between 11 and 27 kg. Suckling from the pectoral teats occurs underwater. Calves begin grazing at an early age, but nursing may continue for 1 or 2 years. Therefore, breeding probably occurs every 2.5 to 3 years. Manatees have been classified into the following age groups: calves, any young animal associating with a cow; juveniles, independent but not yet sexually mature; and adults, animals taking part in reproduction. Transition to adulthood is gradual and sexual maturity may not be attained until 4 or possible 6 years of age. Manatte longevity in the wild is unknown, but a captive has been successfully maintained in Florida for 23 years.

Manatees are asocial or weakly social. The only lasting bond is that between the cow and her calf. A possible exception is the estrus herd of bulls, which may last from one week to more than a month, during a cow's estrus cycle. Groups occasionally form and there is some social interaction seen in play and homosexual behavior, but these relationships are ephemeral only.

T. manatus is apparently arythmical with no specific daily patterns of behavior. Adults may spend from 6 to 8 hours daily in feeding. Manatees are wholly herbivorous, consuming a variety of food plants in the following order of preference: (1) Submerged plants, (2) surface floating vegetation, and (3) emergents. Quantities of incidentally ingested insect larvae, amphipods, mollusks, shrimp, and other invertebrates probably provide necessary amounts of protein for the manatee. Captive adults consume 30 to 50 kg of vegetation each day. It is thought that manatees must return to freshwater occasionally for drinking.

Internal parasites of *T. manatus* are trematodes (2 spp.) and nematodes (1 sp.). A single copepod (*Harpacticus pulex*) was also reported on the skin. Manatees in saltwater become covered with marine diatoms (*Zygnema* and *Navicula*) and barnacles, whereas animals remaining in freshwater develop a coat of algae (*Lyngbya* and *Compsopogon*). Manatees appear to be susceptible to pneumonia and other bronchial disorders when exposed to unusually low temperatures. To date, there is no documentation of predation upon the manatee by any animals other than man. Crocodilians, sharks, and prianha have been suggested as likely predators.

Ecological problems. In the United States, wounds inflicted by motor boat propellers and keels pose a major problem and are thought to be the prime cause of manatee mortality. Water contamination by industrial effluents is responsible for the destruction of proper manatee habitat and food supplies. In upper Tampa Bay, the natural submergent vegetation has been eradicated by this pollution, resulting in the absence of manatees in the upper bay. Dredging may also have detrimental effects, increasing the water turbidity to a point where submergent plants can no longer survive. Natant plants seem to thrive under these conditions, and in the absence of the preferred submergents, manatees do consume these natants. However, the floating plants present a problem to boat traffic and (as in the St. John's River)are sprayed with herbicides, such as 2-4-D, which are directly ingested by manatees. Oil spills from offshore drilling would also be expected to have detrimental effects on the mantee's food supplies. Vandalism, poaching, and accidental nettings are additional threats to the manatee.

Blue Springs Park (a winter congregating site) is the only locality in Florida with lowered boat speed limits and swimming restrictions for manatee protection. Manatees also inhabit the Everglades National Park. They are found within the Parque Nacional Isla de Salamanca of Colombia, but their occurrence in other foreign reserves or sanctuaries is unknown.

Allocation problems. Manatees have long been hunted for their meat, hides, oil and ivory. Although protective legislation is nearly complete, the meat is still sold openly in the markets of Colombia and Venezuela. *T. manatus* has been used successfully in small scale aquatic weed clearance projects in Guyana, Mexico, and Panama, but at this point, large-scale utilization of manatees for weed control does not seem feasible, for large numbers of animals are required. The manatee has also been suggested for domestication for meat in the distant future. Current decimated populations, plus a low reproductive rate deem this project as unrealistic.

Regulations. Protective legislation for the manatee now exists in the following countries: U.S., British Honduras, Costa Rica, Panama, Colombia, Venezuela, Guyana, Cuba, Jamaica, Puerto Rico, Trinidad, Haiti, and the Dominican Republic.

Current research. The National Fish and Wildlife Laboratory of the U.S. Department of the Interior will initiate a tracking and field study of *T. manatus* in Florida in July 1974. This project will be headed by Howard W. Campbell. E. Mondolf of Venezuela is compiling records of this species in his country to determine their local range and P. van Bree of Amsterdam is supervising a taxonomic study comparing *T. manatus* to *T. senegalensis.* The U.S. National Academy of Sciences and the National Science Research Council of Guyana are planning to jointly establish an international manatee research center in Guyana. They hope to direct their research towards reproduction, physiology, and nutrition of the West Indian Manatee. This project is currently in the early stages of planning.

DUGONG

(*Dugong dugong*)

Distribution and migration. The dugong occurs in tropical and subtropical waters of the Indo-Pacific. It is totally marine and is usually found in coastal waters from two to three fathoms in depth. Along the east coast of Africa it ranges from Egypt in the Red Sea, south to Delagoa Bay (26°S), Mozambique. This distribution is discontinuous due to local extirpation in certain areas. Dugongs have been reported from the Persian Gulf and they also range along the west coast of India, south of the Gulf of Kutch. They occur in Ceylonese waters and are present in the Andaman Islands, the Mergul Archipelago, Burma, Malaysia, the Moluccas and Sumatra. They may still be found in the Ryuyu Archipelago, and specimens have been taken in Formosa and Hong Kong. The present range extends south and east to include Guam, the Palau Islands, the Carolines, New Britain, New Guinea, the Solomons, New Caledonia, and New Hebrides. In Australia, dugongs occur all along the northern coast from Perth (32°S), on the west coast, to Brisbane, in the east. They are absent from the Marshall, Gilbert, Ellice, and Fiji Islands,

Long distance migrations are unknown for this species, but local, offshore movements are apparent. These are correlated with the changing monsoon seasons and possibly with resulting shifts in abundance of food sources. During the season of rough seas and extreme winds, the animals move to shore, apparently seeking shelter. Such movements have been reported in east Africa, India, and the Philippines (where they are no longer present). Similar migrations have not been noted in Australia.

Abundance and trends. No numerical estimates of dugongs are available, but populations are thought to be much reduced and continuing to decline throughout nearly all portions of the range.

Dugongs are more abundant in Kenya and the Somali Republic than elsewhere along the coast of Africa. They are now extremely rare in the Red Sea and the Gulf of Aqaba. They were once abundant enough in the Gulf of Mannar (between Ceylon and India) to support a large commercial dugong fishery. The only remaining remnants of this population are restricted to the region near the Mannar Peninsula of Ceylon, from Jaffna to Puttalam. Numbers have declined along the Sarawak coast of Malaysia, and few dugongs can be found today in the Ryuyu Archipelago. The only stable populations occur off the northern Australia coast, in Shark Bay, Broome, the Gulf of Carpentaria and along the northern coast of Queensland. These stocks appear to be maintaining themselves and may even be increasing. At present, dugongs do not occur in any marine parks, reserves, or sanctuaries.

General biology. Dugongs are large fusiform marine mammals with flipper-like forelimbs and a broadly notched, horizontal tail fluke. Adults range from 2.4 to 2.7 m in length and corresponding weights are 230 to 360 kg. The thick, nearly hairless skin is deep slate in color and is usually marked with numerous scars and scratches. Dugongs were quite social in the past, occurring in large herds of several hundred animals. Today, groups of one to six animals are the usual number. Breeding apparently occurs throughout the year. The gestation period is thought to be about one year and one is the usual number born. Twins rarely have been reported. Newborn calves are about 1.1 m in length. Calves begin grazing within the first three months after birth, but continue to nurse for over a year, reaching a length of up to 1.8 m. Sexual maturity is attained when animals reach an approximate length of up to 2.4 m (estimated 2 to 3 years of age). Sexual dimorphism in sizes of adults is not evident. Longevity of the dugong in the wild is unknown, but a pair of captives were maintained successfully for 10 years.

Dugongs are largely herbivorous and rely primarily upon marine sea grasses of the families Potamogetonaceae and Hydrocharitaceae, occurring in waters which range from 21 to 38° C throughout the year. Brown algae (Sargassum) may also be consumed in significant amounts when sea grasses are locally in short supply. Dugongs reportedly prefer to feed at night or with the rising tide.

There are few observations of predation upon the dugong by animals other than man. Fishermen have claimed the shark is a predator, but in over 100 dugongs netted and drowned in Queensland, none ever showed any sign of attack by sharks or any other predators. Internal parasites include Trematoda (10 spp.) and Nematoda (2 spp.). Barnacles and green filamentous algae have been observed on dugongs but do not appear harmful. No diseases have been reported.

Allocation problems. Man is the major threat to the dugong's existence. Boat traffic in offshore areas may inflict mortal wounds. Increased marine fishery activities in the India-Ceylon area have resulted in accidental nettings, drowning substantial numbers of dugongs. Dynamiting for fish is also assumed to affect dugongs adversely. In Queensland, Australia, a shark netting program has resulted in large dugong mortality; similar netting programs exist in Africa.

Dugongs have been hunted throughout their range. Their meat is similar to veal or pork, and "keeps" for long periods of time. Average sized adults yield from five to eight gallons of oil similar to cod liver oil, and the hide makes excellent leather, especially suitable for sandalmaking. Tusks and bones are used as ivory and several body parts were once thought to have medicinal or aphrodisiac properties. Today, hunting pressures are much reduced, in part due to the decline of dugongs. In spite of legislative protection, however, poaching continues. In Australia, the aborigines and Torres Islanders may still legally hunt the animals. One village (250 people) caught an average of about 70 animals per year during the early 1960's.

Regulations. The dugong is totally protected in Egypt, Anglo-Egyptian Sudan, Ethiopia, Somalia, Kenya, Tanzania, Mozambique, Madagascar, South Africa, Natal, India, Ceylon, Sabah, Sarawak, the Philippines, Japan, Formosa, New Caledonia, and Australia. While protection is near complete, effective enforcement is virtually impossible.

Current research. George Heinsohn is continuing his study of dugongs in Townsville, Queensland. Animals accidentally drowned in shark nets are providing population and reproduction data, as well as information on food habits. Robert Kater and Adrian Hillier are also reportedly studying dugongs in Kenya, but the nature of their investigations is unknown. The National Fish and Wildlife Laboratory of the U.S. Department of the Interior has assembled a report on the distribution, status, and natural history of this species. Surveys are planned for FY 1974–75 to determine dugong distribution in many areas of the Pacific where data are lacking.

References to publications and other information used in preparing the Marine Mammal Status Reports are available from the National Fish and Wildlife Laboratory, U.S. Fish and Wildlife Service, U.S. National Museum, 10th and Constitution Avenue, NW., Washington, D.C. 20560.

Dated: July 29, 1974.

CURTIS BOHLEN,
Deputy Assistant Secretary,
Fish and Wildlife and Parks.

TRUST TERRITORIES OF THE PACIFIC ISLANDS

Transfer of Administrative Responsibility for Certain Lands

The purpose of this document is to give public notice that on June 27, 1974, the Secretary of the Interior designated Howland, Baker, and Jarvis Islands in the Pacific Ocean as units of the National Wildlife Refuge System. Administrative responsibility was transferred from the Office of Territorial Affairs to the United States Fish and Wildlife Service. These units will be administered under the general regulations for the National Wildlife Refuge System published in Title 50, Code of Federal Regulations. This action was affected through issuance of Chapter 3, Part 575 of the Departmental Manual.

Following are geographic coordinate descriptions:

HOWLAND ISLAND NATIONAL WILDLIFE REFUGE

This refuge includes all of Howland Island approximately in latitude 0°49′ north and longitude 176°43′ west from Greenwich, together with its territorial sea extending outward to the three-mile limit.

BAKER ISLAND NATIONAL WILDLIFE REFUGE

This refuge includes all of Baker Island approximately in latitude 0°13′30″ north and longitude 176°33′ west from Greenwich, together with its territorial sea extending outward to the three-mile limit.

JARVIS ISLAND NATIONAL WILDLIFE REFUGE

This refuge includes all of Jarvis Island approximately in latitude 0°22′30″ south and longitude 160°01′ west from Greenwich, together with its territorial sea extending outward to the three-mile limit.

DOUGLAS P. WHEELER,
Acting Assistant Secretary for
Fish and Wildlife and Parks.

[INT DES 74–79]

COLONIAL NATIONAL HISTORICAL PARK, VIRGINIA

Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act, the Department of the Interior has prepared a draft environmental statement for the Proposed Amendment to the Act of August 29, 1967, Raising the Authorized Land Acquisition Ceiling for Colonial National Historical Park, Virginia.

The statement examines the impact of raising the land acquisition ceiling to allow for purchasing and/or acquiring an interest in approximately 115 acres of private land within the present boundaries of the park.

Written comments on the environmental statement are invited and will be accepted on or before September 16, 1974. Comments should be addressed to the Superintendent, Colonial National Historical Park (address below).

Copies of the draft environmental statement are available from or for inspection at the following locations:

Mid-Atlantic Regional Office
National Park Service
143 South Third Street
Philadelphia, Pennsylvania 19106

Virginia Office
National Park Service
P.O. Box 10008
Richmond, Virginia 23240

Colonial National Historical Park
P.O. Box 210
Yorktown, Virginia 23690

Dated: July 29, 1974.

STANLEY D. DOREMUS,
Deputy Assistant Secretary
of the Interior.

PICTURED ROCKS NATIONAL LAKESHORE ADVISORY COMMISSION

Notice of Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a meeting of the Pictured Rocks National Lakeshore Advisory Commission will be held at 1:00 p.m., e.d.t., Friday, August 23, 1974, at the Grand Marais Community Center, Grand Marais, Michigan.

The Commission was established by Public Law 89-668 to meet and consult with the Secretary of the Interior on general policies and specific matters related to the administration and development of the Pictured Rocks National Lakeshore.

Members of the Commission are:

Mr. Edward N. Locke (Chairman)
Mr. Neal Beaver
Mr. Glenn C. Gregg
Mr. Francis Putvin
Mr. David C. West

The purpose of the meeting is to receive activity reports on matters affecting Pictured Rocks National Lakeshore. Park development, back-country management, Beaver Basin complex, Development Concept Plan and the Grand Marais harbor situation will be discussed.

The meeting is open to the public. The meeting room will accommodate about 125 persons in addition to committee members. Interested persons may file written statements with the official listed below prior to the meeting.

Further information concerning this meeting may be obtained from Robert L. Burns, Superintendent, Pictured Rocks National Lakeshore, P.O. Box 40, Munising, Michigan 49862, telephone, area code 906-387-2607. Minutes of the meeting will be available for public inspection two weeks after the meeting at Pictured Rocks National Lakeshore Headquarters at Sand Point four miles east of Munising, Michigan on County Road H58.

Dated: July 24, 1974.

MERRILL D. BEAL,
Acting Regional Director, Midwest Region, National Park Service.

CERTIFICATES OF BENEFICIAL OWNERSHIP

Interest Rates to Investors

Correction

In FR Doc. No. 74-16872, appearing at page 26765 in the issue for Tuesday, July 23, 1974, the term of investment for the rate of interest at 9.30 percent should read "3 through 4 years."

Office of the Secretary

FOREST SERVICE ADVISORY COMMITTEES

Proposed Reestablishment

Notice is hereby given that the Department of Agriculture proposes to reestablish the following five local Forest Service advisory committees for an additional 2-year period:

California Advisory Committee to the U.S. Forest Service
Northeastern Forest Research Advisory Committee
Pacific Northwest Forestry Research Advisory Committee
Sawtooth National Forest Multiple Use Advisory Committee
Wasatch National Forest Advisory Committee

The purpose of these committees is as follows:

California Advisory Committee to the U.S. Forest Service. To advise the Regional Forester and Station Director on broad questions of policy, programs, and procedures affecting the multiple use management of the National Forests in the California Region, and the research program of the Pacific Southwest Forest and Range Experiment Station.

Northeastern Forest Research Advisory Committee. To advise the Station Director of the Northeastern Forest Experiment Station in Upper Darby, Pennsylvania, on research projects and programs so that full consideration may be given to a balanced research effort in accordance with regional needs and public interest.

Pacific Northwest Forestry Research Advisory Committee. To advise the Station Director of the Pacific Northwest Forest and Range Experiment Station in Portland, Oregon, on research projects and programs for attainment of relative priorities and program balance in accordance with regional needs and public interest.

Sawtooth National Forest Multiple Use Advisory Committee. To advise the Forest Supervisor of the Sawtooth National Forest in Twin Falls, Idaho, on broad questions of policy, programs, and procedures concerning protection, development, and multiple use management of the Sawtooth National Forest.

Wasatch National Forest Advisory Committee. To advise the Forest Supervisor of the Wasatch National Forest in Salt Lake City, Utah, on broad questions of policy, programs, and procedures concerning protection, development, and multiple use management of the Wasatch National Forest.

The Assistant Secretary for Conservation, Research and Education has determined that reestablishment of these committees is in the public interest in connection with duties imposed on the Department by law. This notice is given in compliance with Public Law 92-463.

Comments of interested persons concerning reestablishment may be submitted to the Forest Service, Administrative Management Staff, Room 4007, U.S. Department of Agriculture, Washington, DC 20250, on or before August 19, 1974.

All written submissions made pursuant to this notice will be available for public inspection in the Administrative Management Staff office during regular business hours (7 CFR 1.27(b)).

JOSEPH R. WRIGHT, JR.,
Assistant Secretary for Administration.

NATIONAL INDUSTRIAL ENERGY CONSERVATION COUNCIL

Notice of Public Meeting

A meeting of the NIECC will be held from 10 a.m. to 12 noon on Wednesday, August 21, 1974, in Room 4830, Main Commerce Building, 14th & E Streets, NW., Washington, D.C.

The Council will report and advise the Secretary of Commerce on programs and problems relating to energy conservation within the industrial and commercial sectors; provide a forum for the exchange of views on conservation between government and the industrial-commercial sectors; advise on policies, plans, and actions of government agencies involving energy use and conservation. The Council may identify and evaluate current and potential energy conservation plans within industry.

The agenda will include statements by Secretary Frederick B. Dent and FEA Administrator John Sawhill. The agenda will also include reports and discussions by Committee members in Technology, Product Efficiency, Public Awareness, and Motivation areas.

The public will be permitted to attend and a limited number of seats will be available to the public.

Oral statements or participation by the public in the meeting will not be permitted, but any member of the public who wishes to file a written statement with the Council may do so before or after the meeting.

Persons who wish to attend the meeting should contact Herbert Schmitz at Office of Energy Programs, Room 2203, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, D.C. 20230—(202) 967-4703.

DAVID J. FOEGE,
Assistant Director, National Industrial Energy Conservation Council.

AUTHENTIC NATIVE ARTICLES OF HANDICRAFT AND CLOTHING

Public Hearings; Marine Mammal Protection Act

On June 3, 1974, the Director, National Marine Fisheries Service, published in the FEDERAL REGISTER (39 FR 19500) a proposed list of Authentic Native Articles of Handicraft and Clothing. Written comments on and objections to the proposal were received by the Director until the close of business on July 3, 1974.

In order to provide an additional opportunity for interested persons to present their comments and objections, the National Marine Fisheries Service and the U.S. Fish and Wildlife Service will hold public hearings on the proposed list in Alaska on the following dates:

August 26, 1974, Anchorage, Alaska, 9:00 a.m., at the City Council Chambers in the Loussac Library.

August 27, 1974, Fairbanks, Alaska, 9:00 a.m., at the City Council Chamber in the Alaska State Bank Building.

August 29, 1974, Nome, Alaska, in the District Court Chambers.

Additional written comments on and objections to the proposed list will be received by the Director, National Marine Fisheries Service, Washington, D.C. 20235, until the close of business on September 13, 1974.

Dated: July 30, 1974.

JACK W. GEHRINGER,
Acting Director, National Marine Fisheries Service.

[F.R. Doc.17669 Filed 8-1-74;8:45 am]

ALASKA DEPARTMENT OF FISH AND GAME

Notice of Issuance of Permit

On May 20, 1974, notice was published in the FEDERAL REGISTER (39 FR 17785) that an application had been submitted to the National Marine Fisheries Service by the Alaska Department of Fish and Game, Subport Building, Juneau, Alaska 99801, to take by killing each year for three years: one-hundred fifty (150) Pacific harbor seals (*Phoca vitulina richardii*), fifty (50) northern sea lions (*Eumetopias jubatus*); five (5) belukha whales (*Delphinapterus leucas*); ten (10) ringed seals (*Pusa hispida*); ten (10) bearded seals (*Erignathus barbatus*); ten (10) ribbon seals (*Histriophoca fasciata*); and ten (10) ice-breeding harbor seals (*Phoca vitulina largha*); and to tag up to 500 Pacific harbor seals (*Phoca vitulina richardii*), 300 ice-breeding harbor seals (*Phoca vitulina largha*), and 3,000 northern sea lions (*Eumetopias jubatus*).

Notice is hereby given that, on July 19, 1974, and as authorized under the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407) the National Marine Fisheries Service issued a Scientific Research Permit for the above mentioned mammals to the Alaska Department of Fish and Game, subject to certain conditions specified therein. The permit is available for review by interested persons in the Office of the Director, National Marine Fisheries Service, Washington, D.C. 20235, and in the Office of the Regional Director, National Marine Fisheries Service, Alaska Region, P.O. Box 1668, Juneau, Alaska 99801.

Dated: July 19, 1974.

JACK W. GEHRINGER,
Acting Director, National Marine Fisheries Service.

[FR Doc.74-17671 Filed 8-1-74;8:45 am]

KENNETH C. BALCOMB

Receipt of Application for a Scientific Research Permit

Notice is hereby given that the following applicant has applied in due form for a permit to take marine mammals for scientific research as authorized by the Marine Mammal Protection Act of 1972 and the regulations governing the taking and importing of marine mammals.

Mr. Kenneth C. Balcomb, III, Moclips Cetological Society, Moclips, Washington 98562, to collect data and specimen material from beached dead cetaceans of any species from world-wide locations, depositing this material in a jurisdictionally appropriate museum and to radio tag twenty-five (25) whales from the following ten species: gray whale (*Eschrichtius robustus*), right whale (*Eubalaena glacialis*), minke whale (*Balaenoptera acutorostrata*), sei whale (*Balaenoptera borealis*), fin whale (*Balaenoptera physalus*), blue whale (*Balaenoptera musculus*), humpback whale (*Megaptera novaeangliae*), killer whale (*Orcinus orca*), bottlenosed whale (*Hyperoodon* sp.) and sperm whale (*Physeter catodon*). The Permit is requested for a five-year period and to be valid for tagging whales in the North Pacific Ocean and the North Atlantic Ocean. The radio tags will be attached by slapping the tag-package from the end of a six meter pole. The tag will attach by means of 6-10 barbs which will insert in the blubber. Another type of tag which may be tried is that of a stainless steel tube of a diameter similar to that of a Discovery Committee whale mark. The tube will contain a radio transmitter with a flexible connection that will protrude from the surface of the whale. The device will be delivered to the animal by means of a cross bow or hand held harpoon gun.

Mr. Balcomb has tagged whales with the Discovery Committee mark over the last ten years, and has been developing the radio tags described above for three years.

The proposed research is intended to provide information by tracking the tagged whales over an extended period of time to investigate migrations and study the behavior of the tagged whales. After the development of suitable techniques and equipment, the radio tags are planned to provide several channels of physiological data and will allow correlation of tagged and untagged whales for analysis of schools and stocks of whales.

The endangered species involved in this proposal are: the gray whale (*Eschrichtius robustus*), right whale (*Eubalaena glacialis*), sei whale (*Balaenoptera borealis*), fin whale, (*Balaenoptera physalus*), blue whale (*Balaenoptera musculus*), humpback whale (*Megaptera novaeangliae*), and the sperm whale (*Physeter catodon*). The proposed research will offer information on migrations, stocks composition, feeding cycles and behavioral profiles. As the animals requested are not to be restrained or held captive, no mortalities or injuries need be anticipated.

Documents submitted in connection with this application are available in the Office of the Director, National Marine Fisheries Service, Washington, D.C. 20235, Office of the Regional Director, National Marine Fisheries Service, Northwest Region, Lake Union Building, 1700 Westlake Avenue North, Seattle, Washington 98109, and the Office of the Regional Director, National Marine Fisheries Service, Southwest Region, 300 South Ferry Street, Terminal Island, California 97031.

Concurrent with the publication of this notice in the FEDERAL REGISTER, the

Secretary of Commerce is sending copies of the application to the Marine Mammal Commission and the Committee of Scientific Advisors.

Interested parties may submit written data or views on this data on or before September 3, 1974 to the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235.

All statements and opinions contained in this notice in support of this application are those of the Applicant and do not necessarily reflect the views of the National Marine Fisheries Service.

Dated: July 26, 1974.

WILLIAM F. ROYCE,
Acting Director,
National Marine Fisheries Service.

[FR Doc.74-17672 Filed 8-1-74;8:45 am]

NORBERT J. FLANIGAN

Receipt of Application for Scientific Research Permit

Notice is hereby given that the following applicant has applied in due form for a permit to take and import marine mammals for scientific research as authorized by the Marine Mammal Protection Act of 1972 and the regulations governing the taking and importing of marine mammals.

Norbert J. Flanigan, Professor of Biology, St. Norbert College, DePere, Wisconsin 54115, to take and import the brains and spinal cords of ten (10) adult pilot whales (*Globicephala melaena*), the brains and spinal cords of twenty (20) fetal pilot whales (*Globicephala melaena*), and thirty (30) complete pilot whale fetuses (*Globicephala melaena*) for the purpose of scientific research.

The specimen materials will be collected from animals taken in the course of the pilot whale fishery of the Faroe Islands. No animals will be killed by the Applicant. The materials will be collected during the one-year period beginning in June 1975.

The complete fetuses will be utilized in general embryological studies. The brain and spinal cord materials will be utilized in microscopic analysis of the neuroanatomy of pilot whales. The Faroe Islands pilot whale fishery has been selected as the location for collecting the desired materials due to the numbers of animals involved, which allows the collection of a significant number of neuroanatomic and embryologic specimens. Previous investigations have been primarily reliant upon sporadic strandings of whales, which often yield specimen materials of poor quality due to the rapid post-mortem decay.

Dr. Flanigan has been engaged in research on comparative vertebrate neuroanatomy for a period of more than 15 years, specializing in cetaceans for the last 10 years.

Microscopic sections of the requested materials will be retained at St. Norbert College, where they will be available to other researchers interested in cetacean neuro-anatomy.

Documents submitted in connection with this application are available in the Office of the Director, National Marine Fisheries Service, Washington, D.C. 20235, telephone 202-343-7780, and the Office of the Regional Director, National Marine Fisheries Service, Northeast Region, Federal Building, 14 Elm Street, Gloucester, Massachusetts 01930, telephone 617-281-0640.

Concurrent with the publication of this notice in the FEDERAL REGISTER the Secretary of Commerce is sending copies of the application to the Marine Mammal Commission and the Committee of Scientific Advisors.

Interested parties may submit written data or views on this application on or before September 3, 1974, to the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235.

All statements and opinions contained in this notice in support of this application are those of the Applicant and do not necessarily reflect the views of the National Marine Fisheries Service.

Dated: July 26, 1974.

JACK W. GEHRINGER,
Acting Director,
National Marine Fisheries Service.

NAVAL UNDERSEA CENTER

Modification of Permit

Notice is hereby given that, pursuant to the provisions of Sections 216.33 (d) and (e) of the regulations governing the taking and importing of marine mammals (39 FR 1851, January 15, 1974), the Scientific Research Permit issued to the Naval Undersea Center, Biomedical Research Department on March 7, 1974, as modified on July 8, 1974 (39 FR 24932), is further modified, by means of Amendment No. 3, in the following manner.

The gray seals (*Halichoerus grypus*) authorized to be imported, under the provisions of the Permit issued on March 7, 1974, from Iceland, may be taken and imported from Iceland and/or Prince Edward Island, Canada.

This modification is effective on August 2, 1974.

The permit, as modified, and documentation pertaining to the modification, is available for review in the Office of the Director, National Marine Fisheries Service, Washington, D.C. 20235 and the Office of the Regional Director, National Marine Fisheries Service, Southwest Region, 300 South Ferry Street, Terminal Island, California 90731.

Dated: July 26, 1974.

WILLIAM F. ROYCE,
Acting Director,
National Marine Fisheries Service.

DAVID T. RICHARDSON

Issuance of Permit for Marine Mammals

On May 20, 1974, notice was published in the FEDERAL REGISTER (39 FR 17785), that an application had been filed with the National Marine Fisheries Service by David T. Richardson, Department of Marine Resources, Fisheries Research Station, West Boothbay Harbor, Maine 04575, for a permit to take, tag, mark and release twenty-five (25) Atlantic harbor seals (*Phoca vitulina concolor*) for scientific research.

Notice is hereby given that, on July 18, 1974, and as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407), the National Marine Fisheries Service issued a permit for the above mentioned taking to David T. Richardson, subject to certain conditions set forth therein. The permit is availabe for review by interested persons in the Office of the Director, National Marine Fisheries Service, Washington, D.C. 20235 and the Office of the Regional Director, National Marine Fisheries Service, Northeast Region, Federal Building, 14 Elm Street, Gloucester, Massachusetts 01930.

Dated: July 18, 1974.

ATOMIC ENERGY COMMISSION

[Docket Nos. 50-348, 50-364]

ALABAMA POWER CO.

Availability of Draft Environmental Statement

Pursuant to the National Environmental Policy Act of 1969 and the United States Atomic Energy Commission's regulations in 10 CFR Part 51, notice is hereby given that a Draft Environmental Statement prepared by the Commission's Directorate of Licensing related to the proposed Joseph M. Farley Nuclear Power Plant Units 1 and 2 for the operating license stage by Alabama Power Company in the County of Houston is available for inspection by the public in the Commission's Public Document Room at 1717 H Street, NW, Washington, D.C., and in the George S. Houston Memorial Library, 212 W. Verdeshaw Street, Dothan, Alabama. The Draft Statement is also being made available at the Alabama Development Office, State Office Building, Montgomery, Alabama 36104 and Southeast Alabama Regional Planning and Development Commission, P.O. Box 1460, Dothan, Alabama.

Copies of the Commission's Draft Environmental Statement may be obtained by request addressed to the U.S. Atomic Energy Commission, Washington, D.C., 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing.

The Applicant's Environmental Report, as supplemented, submitted by Alabama Power Company is also available for public inspection at the above-designated locations. Notice of availability of the Applicant's Environmental Report was published in the FEDERAL REGISTER on October 30, 1973 (38 FR 29907).

Pursuant to 10 CFR Part 51, interested persons may submit comments on the Applicant's Environmental Report, as supplemented, and the Draft Environmental Statement for the Commission's consideration. Federal and State agencies are being provided with copies of the Applicant's Environmental Report and the Draft Environmental Statement (local agencies may obtain these documents upon request). Comments are due by September 23, 1974. Comments by Federal, State, and local officials, or other persons received by the Commission, will be made available for public inspection at the Commission's Public Document Room in Washington, D.C. and the George S. Houston Memorial Library, 212 W. Verdeshaw Street, Dothan, Alabama 36301. Upon consideration of comments submitted with respect to the Draft Environmental Statement, the Regulatory staff will prepare a Final Environmental Statement, the availability of which will be published in the FEDERAL REGISTER.

Comments on the Draft Environmental Statement from interested members of the public should be addressed to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing.

Dated at Bethesda, Maryland, this 26th day of July 1974.

For the Atomic Energy Commission.

GORDON K. DICKER,
Chief, Environmental Projects Branch 2, Directorate of Licensing.

[FR Doc.74-17642 Filed 8-1-74;8:45 am]

[Docket Nos. STN 50-488, STN 50-489, STN 50-490, STN 50-491, STN 50-492, and STN 50-493]

DUKE POWER CO.

Receipt of Application for Construction Permits and Facility Licenses and Availability of Applicant's Environmental Reports

Duke Power Company, pursuant to section 103 of the Atomic Energy Act of 1954, as amended, has filed an application which was docketed on May 24, 1974, for authorization to construct and operate six pressurized water nuclear power reactors at its Perkins and Cherokee sites. The application was tendered on March 29, 1974. Following a preliminary review for completeness, the application—the Preliminary Safety Analysis Report, General and Financial Information and the Antitrust Information—was found to be acceptable for docketing on May 21, 1974. However, the Environmental Reports were not sufficiently complete for docketing and Duke Power Company filed revised Environmental Reports on June 17, 1974. The revised Reports were found to be acceptable on July 5, 1974. This application has been filed utilizing two approaches of the Commission's Standardization Policy for nuclear power plants—the "reference system" and "duplicate plant" concepts. (See "Licensing of Duplicate Nuclear Power Plants; Review of Standard Nuclear Power Plant Designs," Notice of Proposed Rules, 39 FR 13668, April 16, 1974.) The application references the standard nuclear steam supply system design of Combustion Engineering's Standard Safety Analysis Report (CESSAR), Docket No. STN 50-470, which is currently under staff review. The remainder of the plant design, with the exception of some specific site features, consists of identical duplicates for all six units. Docket Nos. STN 50-488, STN 50-489, and STN 50-490 have been assigned to Units 1, 2, and 3, respectively, at the Perkins site and STN 50-491, STN 50-492, and STN 50-493 have been assigned to Units 1, 2, and 3, respectively, at the Cherokee site. These docket numbers should be referenced in any correspondence relating to this application.

The Perkins site is located in the southeast portion of Davie County, North Carolina, on the Yadkin River about 11 miles west of Lexington, 12 miles north of Salisbury and about 17 miles southeast of Winston-Salem. The Cherokee site is located in the eastern portion of Cherokee County, South Carolina, on the west bank of the Broad River about 6 miles southeast of Blacksburg and 21 miles northeast of Spartanburg.

Each of the proposed nuclear units, designated by the applicant as the Perkins Nuclear Station, Units 1, 2, and 3, and the Cherokee Nuclear Station, Units 1, 2, and 3, are designed for initial operation at approximately 3800 megawatts thermal with a net electrical output of approximately 1280 megawatts.

A Notice of Hearing with opportunity for public participation is being published separately.

Any person who wishes to have his views on the antitrust matters of the application presented to the Attorney General for consideration should submit such views to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Office of Antitrust and Indemnity, Directorate of Licensing, Regulation, on or before September 17, 1974. The request should be filed in connection with Docket Nos. STN 50-488-A, STN 50-489-A, STN 50-490-A, STN 50-491-A, STN 50-492-A, and STN 50-493-A.

A copy of the application is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20545, at the Davie County Public Library, 416 N. Main Street, Mocksville, North Carolina 27028, and at the Cherokee County Library, Gaffney, South Carolina 29340.

Duke Power Company has also filed, pursuant to the National Environmental Policy Act of 1969 and the regulations of the Commission in Appendix D to 10 CFR Part 50, separate Environmental Reports for the Perkins and Cherokee Stations. The reports discuss environmental considerations related to the proposed construction of the Perkins and Cherokee Stations. The reports are being made available for public inspection at the aforementioned locations, and are being made available at the Clearinghouse and Information Center, 116 West Jones Street, Raleigh, North Carolina 27603, at the Piedmont Triad Council of Governments, P.O. Box 8945, Greensboro, North Carolina 27410, at the Office of the Governor, Division of Administration, Wade Hampton Office Building, Columbia, South Carolina 29201, and at the South Carolina Appalachian Council of Governments, Drawer 6668, 11 Regency Hills Drive, Greenville, South Carolina 29606.

After the Environmental Reports have been analyzed by the Commission's Director of Regulation or his designee, draft environmental statements related to the proposed action will be prepared by the Commission. Upon preparation of the draft environmental statements, the Commission will, among other things, cause to be published in the FEDERAL REGISTER a summary notice of availability of the draft statements. The summary notice will request comments from interested persons on the proposed action and on the draft statements. The summary notice will also contain a statement to the effect that comments of Federal agencies and State and local officials thereon will be made available when received. Upon consideration of comments submitted with respect to the draft environmental statement, the Regulatory staff will prepare final environmental statements, the availability of which will be published in the FEDERAL REGISTER.

Dated at Bethesda, Maryland, this 8th day of July 1974.

For the Atomic Energy Commission.

OLAN D. PARR,
Chief,
Light Water Reactors Group 1-3.

[Docket Nos. STN 50-498 and STN 50-499]

HOUSTON LIGHTING AND POWER ET AL.

Receipt of Application for Construction Permits, Facility Licenses, and Availability of Applicants', Environmental Report

Houston Lighting and Power Company, the City of San Antonio, Central Power and Light Company, and the City of Austin (the applicants), pursuant to section 103 of the Atomic Energy Act of 1954, as amended, have filed an application, which was docketed July 5, 1974, for authorization to construct and operate two

generating units utilizing two pressurized water reactors. The application was tendered on May 17, 1974. Following a preliminary review for completeness, the application was accepted on June 20, 1974, for docketing. Docket Nos. STN 50–498 and STN 50–499 have been assigned to the application and should be referenced in any correspondence relating to the application.

The proposed nuclear facilities, designated by the applicants as the South Texas Project, Units 1 and 2 are located on the west side of the Colorado River, in south central Matagorda County, Texas and are designated for initial operation at approximately 3800 megawatts (thermal) each, with a net electrical output of approximately 1250 megawatts each.

A Notice of Hearing with opportunity for public participation is being published separately.

Any person who wishes to have his views on the antitrust matters of the application presented to the Attorney General for consideration should submit such views to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Office of Antitrust and Indemnity, Directorate of Licensing, on or before September 17, 1974. The request should be filed in connection with Docket Nos. STN 50–498–A and STN 50–499–A.

A copy of the application is available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20545, and at the Matagorda County Courthouse, 1700 7th Street, Bay City, Texas.

The applicants have also filed, pursuant to the National Environmental Policy Act of 1969 and the regulations of the Commission in Appendix D to 10 CFR Part 50, an Environmental Report dated July 1, 1974. The report, which discusses environmental considerations related to the construction and operation of the proposed facilities is being made available for public inspection at the aforementioned locations and at the Division of Planning Coordination, Office of the Governor, P.O. Box 12428, Capitol Station, Austin, Texas 78711, and at the Houston-Galveston Area Council, 3311 Richmond Avenue, Houston, Texas 77006.

After the Environmental Report has been analyzed by the Commission's Director of Regulation or his designee, a draft environmental statement will be prepared by the Commission's Regulatory staff. Upon preparation of the draft environmental statement, the Commission will, among other things, cause to be published in the FEDERAL REGISTER a summary notice of availability of the draft statement, with a request for comments from interested persons on the draft statement. The summary notice will also contain a statement to the effect that comments of Federal agencies and State and local officials will be made available when received. Upon consideration of comments submitted with respect to the draft environmental statement, the Regulatory staff will prepare a final environmental statement, the availability of which will be published in the FEDERAL REGISTER.

Dated at Bethesda, Maryland, this 5th day of July 1974.

For the Atomic Energy Commission.

A. W. DROMERICK,
Acting Chief, Light Water Reactors Project Branch 1–1, Directorate of Licensing.

[Docket No. 50–305]

WISCONSIN PUBLIC SERVICE CORP. ET AL.

Issuance of Facility License Amendment

Notice is hereby given that the U.S. Atomic Energy Commission (the Commission) has issued Amendment No. 2 to Facility Operating License No. DPR–43, issued to Wisconsin Public Service Corporation, Wisconsin Power and Light Company, and Madison Gas and Electric Company, which revised Technical Specifications for operation of the Kewaunee Nuclear Power Plant, located in Kewaunee County, Wisconsin. The amendment is effective as of its date of issuance.

The amendment deletes paragraph 6.1.b.5 of the Technical Specifications which was added to the Technical Specifications by Change No. 2 on April 19, 1974. Paragraph 6.1.b.5 granted temporary relief for control room staffing pending issuance of licenses to additional control room operators.

The Commission has made appropriate findings as required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations in 10 CFR Ch. 1, which are set forth in the license amendment.

For further details with respect to this action, see (1) Amendment No. 2 to License No. DPR–43, with attachments, and (2) the Commission's related Safety Evaluation. These are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., and at the Kewaunee County Library, Kewaunee, Wisconsin.

A copy of items (1) and (2) may be obtained upon request addressed to the United States Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing—Regulation.

Dated at Bethesda, Maryland, this day of July, 1974.

For the Atomic Energy Commission.

KARL KNIEL,
Chief, Light Water Reactors Branch 2–2, Directorate of Licensing.

LMFBR PROGRAM ENVIRONMENTAL IMPACT STATEMENT

Notice of Meeting

Notice is hereby given by the Atomic Energy Commission (AEC) and the Environmental Protection Agency (EPA) of an informal meeting between staffs of the two agencies to be held in Room 2010, New Executive Office Building, 17th and H Streets NW., Washington, D.C. 20545, on August 13, 1974 at 9:00 a.m.

The purpose of the meeting will be discussion between the staffs of the two agencies of EPA's views in connection with the Draft Environmental Impact Statement on the Liquid Metal Fast Breeder Reactor Program which AEC issued on March 14, 1974. The public is invited to observe these discussions.

Further information can be obtained from Mr. W. Herbert Pennington, Assessments and Coordination Officer, Division of Biomedical and Environmental Research, U.S. Atomic Energy Commission, Washington, D.C. 20545 and Mr. E. David Harward, Director, Technical Assessment Division, U.S. Environmental Protection Agency, Washington, D.C. 20460.

Dated this first day of August, 1974.

W. H. PENNINGTON,
Acting Assistant General Manager for Biomedical and Environmental Research and Safety Programs, Atomic Energy Commission.

ROGER STRELOW,
Acting Assistant Administrator for Air and Waste Management, Environmental Protection Agency.

CIVIL AERONAUTICS BOARD

[Docket No. 26798; Order 74–7–135]

ALOHA AIRLINES, INC. AND HAWAIIAN AIRLINES, INC.

Fare Increases; Order Denying Petition for Reconsideration

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 30th day of July, 1974.

By Order 74–6–69 dated June 13, 1974, the Board suspended and ordered investigated fare increases proposed by Aloha Airlines, Inc. (Aloha) and Hawaiian Airlines, Inc. (Hawaiian). This action was premised upon the facts that both carriers achieved a rate of return well in excess of 12 percent for the year ended March 31, 1974; that the carriers' forecast 1974 revenues appeared to be substantially understated in relation to actual results in the first quarter of 1974; and that Aloha's treatment of leased property was inconsistent with the Board's policy. Aloha and Hawaiian have petitioned the Board for reconsideration, requesting that the suspension of the proposed fares be vacated.

Aloha contends that it did not, in fact, achieve a 12 percent return on invest-

ment for the year ended March 31, 1974, and alleges that its rate of return for calendar 1974 will be 7.3 percent at current fare levels, and 11.4 percent with the proposed fares. This projection is based upon fuel price increases experienced to June 1, 1974, which were 82.3 percent above the September 30, 1973 level.[1] Aloha anticipates a 10 percent growth in traffic in 1974, and states that this will result in a much less favorable profit position than the first quarter 1974 results would indicate.

Hawaiian alleges that the Board erred in its estimate of 1974 revenues, stating that revenue in the first quarter of 1974 was atypically high and that more recent experience indicates a softening of the market. Hawaiian reports that there has been a steady decline in traffic growth since March 1974, with April being 1.2 percent, May 8.2 percent, and June 0.8 percent above the same months of 1973. Thus, the carrier contends that "it is not reasonable to assume, in view of the present and anticipated softening of the market, that increases in 1974 will put its first quarter in the same perspective for 1974 as the first quarter of 1973 bore to the full year." Hawaiian also contends that the Board did not properly adjust first quarter 1974 revenues to eliminate revenues from the security charge which was not imposed in the first quarter 1973, and that the Board failed to annualize its first quarter costs, which would require a substantial upward adjustment.

Upon review of the petitions, and all other relevant matters, the Board finds that they do not establish error in the Board's decision, nor do they contain information which would support lifting of the Board's suspension.

Since our suspension of the proposed fare increase, more recent data have become available from both the carriers' Form 41 reports and their filings in this Docket. As the carriers state, there has been a slackening in the rate of traffic growth, and further increases have occurred in the price of fuel. Accordingly, we have revised our earlier traffic and revenue estimates to reflect actual results for the first half of 1974, annualized on the basis of the 1973 relationship. This produces a projected traffic increase of 8.8 percent[2] which we believe to be entirely reasonable when tested against the capacity which the carriers have projected for 1974. The resulting load factor of 64.0 percent correlates very closely with the average load factor of 63.3 percent experienced by the carriers in 1973, and the 66.2 percent experienced during the first half of 1974.

On the basis of our revised traffic projection, and applying the carriers' forecast capacity and cost data, adjusted for the latest fuel cost increases, we conclude that both carriers would achieve a return on investment substantially in excess of 12 percent in 1974 were the fare increase to be permitted. At the current fare level, they should fall very slightly short of meeting full return, on a combined basis.

Despite Aloha's contention, the Board did not overstate that carrier's 1973 rate of return. While it now follows the proper treatment of leased aircraft, Aloha has nevertheless failed to add back interest expense in its computation, and thereby understates its true rate of return, both for 1973 and its 1974 forecast. Hawaiian, on the other hand, while not challenging the Board's rate of return computation, has constructed a hypothetical 1974 rate of return based upon our prior estimate of 1974 revenue which it argues will not materialize. Essentially, this is done by increasing operating expenses to reflect the additional flying time it contends would be required to accommodate the additional traffic. Thus, neither carrier has, in fact, provided a true picture of the impact upon rate of return which would result from the fare proposal, nor of financial results at present fare levels.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404, and 1002 thereof.

It is ordered, That:

1. The petitions of Aloha Airlines, Inc. and Hawaiian Airlines, Inc., requesting reconsideration of Order 74-6-69, dated June 13, 1974, are hereby denied; and

2. This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.74-17699 Filed 8-1-74;8:45 am]

[1] On July 8, the carrier filed an amendment to its petition which indicates that its July 1, 1974 fuel cost is 32.811 cents per gallon, or 101.6 percent above its September 1973 weighted average of 16.276 cents.

[2] This projection is somewhat below Aloha's estimate of 10 percent. Our original projection anticipated an increase in traffic of 11.5 percent.

[Docket No. 26668]

EASTERN AIR LINES, INC. AND OZARK AIR LINES, INC.

Route Transfer Agreement; Hearing

Notice is hereby given, pursuant to the provisions of the Federal Aviation Act of 1958, as amended, that a hearing in the above-entitled proceeding will be held on September 10, 1974, at 10:00 a.m. (local time) in Room 911, Universal Building, 1825 Connecticut Avenue, NW., Washington, D.C., before the undersigned.

For information concerning the issues and other details involved in this proceeding, interested persons are referred to the prehearing conference report served June 17, 1974, and other documents which are in the docket of this proceeding on file in the Docket Section of the Civil Aeronautics Board.

Dated at Washington, D.C., July 29, 1974.

[SEAL] HARRY H. SCHNEIDER,
Administrative Law Judge.

[Docket No. 25908]

TRANSATLANTIC ROUTE PROCEEDING

Draft Statement of Environmental Assessment; Availability

The Civil Aeronautics Board's Bureau of Operating Rights has released a "Draft Statement of Environmental Assessment" in connection with the Transatlantic Route Proceeding.

The Statement concludes that the matters before the Board in that proceeding would not constitute a "major federal action significantly affecting the quality of human environment." The issues in the proceeding include:

(a) Whether the public convenience and necessity require the renewal of the temporary transatlantic certificate authority held by Pan American World Airways, Inc., in routes 132 and 133, Trans World Airlines, Inc., in route 147 (except at Canton and Shanghai), and Seaboard World Airlines, Inc., in route 119; whether the public convenience and necessity require the certification of authority to provide transatlantic passenger, cargo (combination or all-cargo) and mail service, either on a temporary or permanent basis, between Luxembourg, on the one hand, and the U.S. coterminal points set out in paragraph (b), on the other;

(b) whether the public convenience and necessity require the certification of authority to provide transatlantic passenger, cargo (combination or all-cargo) and mail service, either on a temporary or permanent basis, to the foreign points considered in paragraph (a) above from the following U.S. points:

Atlanta, Ga., Baltimore, Md., Boston, Mass., Chicago, Ill., Cleveland, Ohio, Dallas/Ft. Worth, Tex., Denver, Colo., Detroit, Mich., Hartford, Conn., Houston, Tex., Kansas City, Mo., Las Vegas, Nev., Los Angeles, Calif., Miami, Fla., Minneapolis/St. Paul, Minn., New Orleans, La., New York, N.Y.-Newark, N.J., Philadelphia, Pa., Phoenix, Ariz., Pittsburgh, Pa., Portland, Oreg., St. Louis, Mo., San Diego, Calif., San Francisco-Oakland-San Jose, Calif., San Juan, P.R., Seattle, Wash., Tampa, Fla., and Washington, D.C.;

(c) whether the public convenience and necessity require the grant of stopover privileges at the domestic coterminal points in issue;

(d) whether (a) the public convenience and necessity require the amendment, alteration, modification, or suspension of any certificate of public convenience and necessity pursuant to section 401(g) of the Act insofar as that certificate authorizes service to any point in Ireland and (b) the public interest requires the suspension of service of any carrier now authorized to serve any point in Ireland;

(e) whether the public convenience and necessity require the renewal of the certificates of public convenience and necessity held by Capitol International Airways, Inc., Overseas National Airways, Inc., Saturn Airways, Inc., Trans International Airlines, Inc., Universal Airlines, Inc., and World Airways, Inc., authorizing transatlantic supplemental air transportation;

(f) whether the public convenience and necessity require the certification of transatlantic supplemental cargo authority on a temporary or permanent basis; and

(g) what will be the impact on the human environment of final Board action in this proceeding.

(h) whether Part 208 of the Board's Economic Regulations should be modified to impose the following limitations on transatlantic charters: (a) Frequency and regularity restrictions, (b) limitation of any cargo authority that may be authorized to single-entity charters, subject to frequency and regularity restrictions, and (c) a prior approval requirement;

(i) whether the public convenience and necessity require the certification of supplemental authority on a temporary or permanent basis between a point or points in Puerto Rico and/or the Virgin Islands, on the one hand, and points in Greenland, Iceland, the Azores, Europe, Africa, and Asia, as far east as (and including) India, on the other hand.[1]

Interested persons and agencies of the federal, state, and local governments will be given 45 days to submit comments in response to the draft statement. Comments are due by September 16, 1974. Upon receipt of comments, the Bureau of Operating Rights will prepare and issue a revised statement. Comments so received will be made available to the public.

Copies of the draft statement are available from the Bureau of Operating Rights, Civil Aeronautics Board, Washington, D.C. 20428.

Dated at Washington, D.C., on July 30, 1974.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.74-17698 Filed 8-1-74;8:45 am]

COUNCIL ON ENVIRONMENTAL QUALITY

ENVIRONMENTAL IMPACT STATEMENTS

Notice of Availability

Environmental impact statements received by the Council on Environmental Quality from July 22 through July 26, 1974. The date of receipt for each statement is noted in the summary. Under Council Guidelines, the minimum period for public review and comment on draft environmental impact statements is forty-five (45) days from this FEDERAL REGISTER notice of availability (September 16, 1974).

Copies of individual statements are available for review from the originating agency. Back copies will also be available from a commercial source, the Environmental Law Institute, of Washington, D.C.

[1] Appropriate changes in the definition of supplemental air transportation contained in the Board's Economic Regulations to include Puerto Rico and the Virgin Islands is also in issue.

ATOMIC ENERGY COMMISSION

Contact: For Non-Regulatory Matters: Mr. W. Herbert Pennington, Office of Assistant General Manager, E-201, AEC, Washington, D.C. 20545, (301) 973-4241. For Regulatory Matters: Mr. A. Giambusso, Deputy Director for Reactor Projects, Directorate of Licensing, P-722, AEC, Washington, D.C. 20545, (301) 973-7373.

Draft

Floating Nuclear Power Plants, Offshore Power System, Florida, July 24: The statement refers to the issuance of a manufacturing license to Offshore Nuclear Power Sys., an incorporated venture of Westinghouse and Tenneco, for the startup and operation of a proposed manufacturing facility on Blount Island, Jacksonville. Eight floating nuclear power plants (FNP) will be constructed in a shipyard-like facility. Each plant has a pressurized water reactor of 3425 MWt and 1150 MWe (net) generating capacity. No nuclear fuel will be handled at the site. A second environmental impact statement will be issued to evaluate the generic impacts of siting and operations in the coastal waters of the Atlantic Ocean and the Gulf of Mexico. (ELR Order No. 41205.)

Final

Braidwood Station, Units 1 and 2, Will County, Illinois, July 22: The statement refers to the proposed issuance of a construction permit to the Commonwealth Edison Company for the two unit Station. The two pressurized water reactors will produce 6850 MWt, which will be used to generate 2240 MWe (net). Exhaust steam will be cooled by a once through flow of water from an artificial lake; makeup (93 cfs, avg.) will be drawn from the Kankakee River, and blowdown (46 cfs, avg.) will be discharged to it. Approximately 734 acres of agricultural land, 848 acres of woods and fallow field, and 2838 acres of strip-mine spoil will be required for the station and cooling lake. An excessive growth of algae in the cooling lake might impose adverse impact on the Kankakee. Comments made by: USDA, USCG, HUD, DOI, DOC, HEW, FPC, AHP, COE, EPA, State and local agencies. (ELR Order No. 41198.)

DEPARTMENT OF COMMERCE

Contact: Dr. Sidney R. Galler, Deputy Assistant Secretary for Environmental Affairs, Department of Commerce, Washington, D.C. 20230, (202) 967-4335.

Final

Submarine Sand Recovery System, Hawaii, July 23: Proposed is the full-scale long endurance field testing of the prototype of a unique system for mining ocean bottom sand. The system, designed for use from a small vessel, consists primarily of a suction probe which buries itself in thick deposits of sand by hydrojet action and removes large cones of sand. The test site is located at Keahou, Kona, Hawaii. The long range secondary effects in the area of socio-economic impact could be significant if the system proves to be economically and environmentally practical and is extensively utilized (122 pages. Comments made by: DOT, COE, EPA, State and local agencies, and concerned citizens. (ELR Order No. 41203.)

DEPARTMENT OF DEFENSE

ARMY

Contact: Mr. George A. Cunney, Jr., Acting Chief, Environmental Office, Directorate of Installations, Office of the Deputy Chief of Staff for Logistics, Washington, D.C. 20310, (202) OX 4-4269.

Final

Project EAGLE, Supplement A, Colorado, July 25: The document supplements a final environmental impact statement which was filed with the Council on September 20, 1973, on the demilitarization and disposal of the M34 GB Cluster at Rocky Mountain Arsenal (RMA). The supplement covers the disposal of an additional quantity of bulk GB which will be disposed of concurrently with the GB from the M34 GB Clusters, using the same facility and process. The additional GB totals 378,000 lbs., contained in five underground tanks. The agent would be drained from the tanks, de-watered, and reduced to a salt by-product, which will be stored in sealed drums at RMA. (ELR Order No. 41214.)

ARMY CORPS

Contact: Mr. Francis X. Kelly, Director, Office of Public Affairs, Attn: DAEN-PAP, Office of the Chief of Engineers, U.S. Army Corps of Engineers, 1000 Independence Avenue SW., Washington, D.C. 20314, (202) 693-7168.

Draft

Kings River Channel Improvement Project, California, July 22: The statement refers to the Kings River Channel Improvement Project, Cole Slough-Laton Area, California. About 14,000 lineal feet of new levee and patrol road will be constructed in the vicinity of Laton, 5,000 lineal feet of bank protection work will be placed at 16 different sites. Levee construction and bank protection work may cause limited short-term turbidity. Also 5 acres of riparian habitat will be cleared (Sacramento District) (28 pages). (ELR Order No. 41191.)

Beach Erosion, Hurricane Protection Proj., Dade County, Florida, July 24: The project involves the partial restoration of the 10.5 mile Dade County, Florida, Beach Erosion Control and Hurricane Protection Project to provide protective and recreational beach. Adverse impacts are temporary turbidity and siltation in the borrow and fill areas during construction, and the destruction of some marine life (Jacksonville District). (ELR Order No. 41209.)

Bolles Harbor, Confined Disposal Facility, Michigan, July 25: The project involves the construction of a confined disposal facility for polluted dredged materials from the La Plaisance Creek navigation channel at Bolles Harbor. Adverse impacts are the loss of 20 acres of La Plaisance Bay bottom land and open water, and the creation of a possible habitat for attached phytoplankton (Detroit District) (54 pages). (ELR Order No. 41218.)

Orange and West Orange, Flood Control, New Jersey, July 25: The project involves the construction of a flood control project in Orange and West Orange consisting of a diversion structure and conduit diverting the flow from the East Fork of the East Branch Rahway River to the West Fork of the East Branch Rahway River. Construction of the diversion conduit will result in traffic disruption and delays as well as increased noise and dust (New York District) (35 pages). (ELR Order No. 41219.)

Final

Claiborne Lock and Dam, Alabama, July 26: The proposed action is the completion of construction and the continued operation of the navigation project on the Alabama River. The dam also reregulates the peaking power releases from the Millers Ferry hydroelectric project. There has been a loss of stream fishery; 2,810 acres of forest and agricultural lands have been committed to the project. Comments made by: DOI, HUD, DOT, EPA, HEW, USDA, and State agencies. (ELR Order No. 41223.)

Anchorage Harbor Navigation Dredging, Alaska, July 25: The statement refers to the proposed maintenance dredging of 60,000 cu. yds. of spoil annually from the Anchorage Harbor. Adverse impact will include disruption to marine biota and to the water-land

interface (Anchorage District). Comments made by: DOI, DOT, EPA, State and local agencies. (ELR Order No. 41221.)

Indian Bend Wash, Maricopa County, Arizona, July 23: Proposed is the construction of flood control and recreational facilities in the cities of Scottsdale and Tempe. There will be an interceptor channel, siphon, and a dike, a greenbelt floodway, and an outlet channel. Included also will be a wildlife sanctuary and a nature area, a park, and a fishing lake. Approximately 41 acres of land will be committed to the project; 790 acres of open space will be preserved (135 pages). Comments made by: AHP, USDA, DOC, HEW, HUD, DOI, FPA, State and local agencies. (ELR Order No. 41199.)

Final

Brookville Lake, East Fork Whitewater River, Franklin and Union Counties, Indiana, July 26: The proposed project is the construction of the Brookville Dam and related project works on the East Fork of Whitewater River for the purposes of flood control, recreation, and water supply. The project will inundate 7,780 acres of forest and agricultural land and 24 miles of stream. Relocation of numerous public facilities and the displacement of 255 families will occur. Other adverse impacts are: loss of wildlife habitat, increased erosion, sedimentation and air pollution, degradation of water quality and loss of stream habitat. Comments made by: DOI, HUD, EPA, DOC, USDA, DOT, State agencies, and concerned citizens. (ELR Order No. 41222.)

Cleveland Harbor, Maintenance Dredging, Ohio, July 25: The project involves the dredging of approximately 1,125,000 cubic yards of sediment from Cleveland Harbor, and maintenance of piers and breakwaters. Adverse impacts include odor from the pumping process, increased turbidity, and increased noise and dust during the maintenance period. The major negative impact will be the depositing of dredged sediments into Lake Erie if pilot disposal sites are filled and ongoing construction of another disposal facility is not completed (Buffalo District). Comments made by: USCG, DOC, HUD, DOI, EPA, State and local agencies, and concerned citizens. (ELR Order No. 41220.)

FEDERAL POWER COMMISSION

Contact: Dr. Richard F. Hill, Acting Advisor on Environmental Quality, 441 G Street, N.W., Washington, D.C. 20426, (202) 386-6084.

Draft

St. Clair River interconnection, Michigan, July 23: Proposed is the construction of an overhead 345 kV transmission line by the Detroit Edison Co. from its St. Clair-Jewel line to the international border on the St. Clair River. Ontario Hydro would construct a similar line from its Lambton Station to the border connection. The Edison line would be 2.0 miles in length; the Ontario line would be 0.8 mile. Impact will include the restriction of land use on 24.8 acres of right-of-way, and possible disruption of shipping traffic on the St. Clair during construction and maintenance operations (two volumes). (ELR Order No. 41202.)

GENERAL SERVICES ADMINISTRATION

Contact: Mr. Andrew E. Kauders, Executive Director of Environmental Affairs, General Services Administration, 18th and F Streets, NW., Washington, D.C. 20405, (202) 343-4161.

Draft

Federal Office Building, New Haven, Connecticut, July 24: Proposed is the construction of a Post Office-Federal Building in New Haven and the retention and renovation of the existing U.S. Post Office and Courthouse. The two projects will be part of a Government center complex being planned by the City of New Haven. There will be adverse impact from construction disruption (88 pages). (ELR Order No. 41210.)

Federal Building and Courthouse, Columbia, Richland County, South Carolina, July 24: Proposed is the construction of a new Federal Building and U.S. Courthouse with parking and vehicle maintenance facilities. The project will encompass 464,250 square feet, and will include parking for 595 cars. The building will replace four government owned buildings and 19 leased locations. There will be adverse impact from construction disruption (82 pages). (ELR Order No. 41211.)

DEPARTMENT OF HUD

Contact: Mr. Richard H. Broun, Acting Director, Office of Community and Environmental Standards, Room 7206, 451 7th Street SW., Washington, D.C. 20410, (202) 755-5980.

Draft

"The Colony" Denton County, Texas, July 25: The statement refers to the review and acceptance of an application for approval of a housing subdivision. The project encompasses 2698 acres in southeastern Denton County. A total of 8950 units, including 6958 single family detached units, will be constructed. Among project impacts will be the expansion of urban land development into an area where little experienced urban planning has been practiced, and the creation of pressures on the Garza-Little Elm Recreation Reservoir, an under-developed and under planned recreation resource. (ELR Order No. 41215.)

DEPARTMENT OF INTERIOR

Contact: Mr. Bruce Blanchard, Director, Environmental Project Review, Room 7260, Department of the Interior, Washington, D.C. 20240, (202) 343-3891.

BUREAU OF RECLAMATION

Draft

Eastern New Mexico Water Supply Project, several counties, New Mexico, July 25: Proposed is the construction of a 248-mile aqueduct system to deliver a supplemental supply of municipal and industrial water from the Ute Reservoir on the Canadian River to nine eastern New Mexico cities in Quay, Curry, Roosevelt, and Lea counties. The project would require the modification of the Ute Dam and Reservoir, the construction of pumping stations, and appurtenant facilities. Impacts will include the inundation of an additional 4,100 acres of land at the Reservoir, and the commitment of 1,500 acres of land to right-of-way.

Final

Hayden-Ault 345 kv transmission line, Colorado River, several counties, Colorado and Wyoming, July 22: The proposed project entails the construction of 160 miles of 345-kv transmission line from Hayden, Colorado to Ault, Colorado and a new 345 kv substation near Ault. A total of 3,680 acres of land will be acquired for right-of-way. Loss of vegetation and wildlife habitat will occur (450 pages). Comments made by: DOI, AHP, USDA, FPC, EPA, State and local agencies, and concerned citizens. (ELR Order No. 41190.)

BUREAU OF LAND MANAGEMENT

Final

Oil and Gas Lease Sale 36, Louisiana, July 25: Proposed is the sale of oil and gas leases to 295 tracts (totalling 1,421,739.13 acres) of outer continental shelf lands off Louisiana. Seventy-two tracts are situated in water depths of 200 meters or more. All tracts pose some degree of pollution risk. Each tract offered is subject to a matrix analytical technique in order to evaluate significant environmental impacts should leasing occur and subsequent oil and gas exploration ensue. The sale is tentatively scheduled for late fall, 1974 (two volumes). Comments made by: DOI, AEC, DOT, DOD, DOC, EPA, State and local agencies, and concerned citizens. (ELR Order No. 41212.)

DEPARTMENT OF TRANSPORTATION

Contact: Mr. Martin Convisser, Director, Office of Environmental Quality, 400 7th Street SW., Washington, D.C. 20590, (202) 426-4357.

FEDERAL HIGHWAY ADMINISTRATION

Draft

S.R. 143 (Hohokan Freeway) Maricopa County, July 24: The statement refers to the construction of a multi-lane roadway within a partial or limited controlled access right of way for a length of 2.48 miles in and adjacent to the cities of Phoenix and Tempe in Maricopa County. The completed facility will be S.R. 143 (Hohokan Freeway). The alignment crosses the locations of the Salt River bed, a railroad, and a major canal. Adverse impacts include the acquisition of land, displacement of families and businesses, and slight increases in air and noise pollution levels. (ELR Order No. 41206.)

Rte. 118, Simi Valley-San Fernando Valley Freeway, Los Angeles County, California, July 22: The statement refers to the proposed construction of 5.1 miles of the Simi Valley-San Fernando Valley Freeway between De Soto Avenue and Balboa Boulevard in the City and County of Los Angeles. Adverse impacts are increased air and noise pollution, displacement of 203 residences and the use of 9.3 acres of dedicated parkland. A 4(f) determination is necessary concerning Rinaldi Street, Limekin Canyon, and Aliso Canyon. (ELR Order No. 41197.)

U.S. 30, Meridian, Ada County, Idaho, July 22: The proposed action would consist of two separate projects located in the city of Meridian. The action involves the upgrading of an existing 2-lane facility incorporating curb and gutters, combination sidewalk-bikelane, and painted medians. Adverse impacts are displacement of some wildlife and impacts normally associated with construction. (53 pages). (ELR Order No. 41195.)

Overland Road, Boise, Ada County, Idaho, July 22: The project involves the improvement of Overland Road on existing location in Boise, Ada County. It is to consist of street widening and resurfacing over a distance of 1.42 miles between the Cole Road-Overland Road-Interstate 80N intersection and Orchard St. Adverse impacts are increased noise levels, acquisition of 2.6 acres of land, and negative impacts normally associated with construction (58 pages). (ELR Order No. 41196.)

US-54, Pratt and Kingman Counties, Kansas, July 26: The project involves the improvement of 46 miles of US-54 from Cullison in Pratt County to a point northeast of Kingman in Kingman County. The project includes grading, surfacing, bridge construction, and right-of-way acquisition. Adverse impacts are loss of some cropland, severance of some properties, and increased air, noise, and surface water pollution due to construction. A 4(f) determination may be necessary on the Kingman County Game Reserve depending on what alternative is selected. (ELR Order No. 41224.)

White Castle-Plaquemine Highway, Iberville County, Louisiana, July 25: The statement refers to the construction of the White-Castle-Plaquemine Highway, a land service

facility, located in Iberville Parish. The highway would start one mile northwest of White Castle and proceed in a northwesterly direction along the existing LA 1 to the junction of LA 1 and LA 992–3. The total length of the project is 6.7 miles. The project will displace 5 families. (ELR Order No. 41217.)

State Route 140, Worcester County, Massachusetts, July 23: The proposed action is located in the city of Gardner and the town of Westminster, Worcester County. It involves the relocation of 5 miles of Route 140, from the Route 2 interchange at West Main St., Westminster, to existing Route 140 in North Gardner. There will be negative environment impacts normally associated with construction. (ELR Order No. 41200.)

Route 52, Auburn-Oxford, Worcester County, Massachusetts, July 25: The statement refers to the construction of SR–52 from Oxford north to the existing interchange of US 20 and I–290 in Auburn. The total length of the road will be 7 miles. Adverse impacts are increased noise levels, and the displacement of 12 families (93 pages). (ELR Order No. 41216.)

U.S. 2, Ray to Bethold, Williams, Mountrail and Ward Counties, North Dakota, July 24: The project consists of constructing a 2-lane hard-surfaced roadway from near Ray to near Berthold. Right-of-way for a future 4-lane facility will be acquired at this time. A new bridge will be constructed over the White Earth River. The proposed improvement is approximately 70 miles long. Adverse impacts are the loss of wildlife habitat, loss of agricultural land, and the acquisition of from 1,600 to 3,000 acres depending upon which alternative is selected. (ELR Order No. 41208.)

West Portland Park and Ride, Multnomah County, Oregon, July 24: The statement refers to the proposed West Portland Park and Ride project for the city of Portland. The purpose of the proposal is to select a terminal site and route for an express bus system operating between West Portland and the Portland central business district. Adverse impacts are the displacement of families and businesses, possible increased noise in building near the selected site, and construction disruptions. (ELR Order No. 41207.)

STH 67, Waukesha County, Wisconsin, July 22: The project involves the construction of a 2.5-mile segment of Highway 67 between Delafield Road and the City of Oconomowoc. The proposed improvement consists of widening the existing section of Highway 67 from a single roadway facility carrying two-way traffic to a dual-lane divided highway. Adverse impacts are the loss of some trees and increased noise (104 pages). (ELR Order No. 41193.)

Final

US 45, 143 St. to 179 St., Cook County, Illinois, July 26: Proposed is the reconstruction of 4.5 miles of US 45, between 143 St. and 179 St. in order to provide four 12' traffic lanes and a 16' median. A small amount of additional land will be acquired for right-of-way purposes. Comments made by: HUD, EPA, USDA, DOC, OEO, DOL, and State agencies. (ELR Order No. 41225.)

SR–619 (State Street), Summit County, Ohio, July 23: The project involves the construction of a grade separation over the railroad tracks of the Akron-Barberton Belt Line, Erie Lackawanna, Penn Central and Baltimore Railroads. Starting in the vicinity of Highland Avenue intersection with State Street and continuing northwest along State St. for a length of .56 miles. The project will cause the displacement of 17 families and 3 businesses (28 pages). Comments made by: DOI, EPA, HUD, HEW, and State agencies. (ELR Order No. 41201.)

U.S. COAST GUARD

Draft

New Orleans Vessel Traffic System, Louisiana, July 22: Proposed is the establishment of a Vessel Traffic System which will cover the Mississippi River from Mile 243 AHP to 15 statute miles south of the entrance buoys to the South and Southwest Passes, including the Mississippi River Gulf Outlet. The system will consist of a combination of vessel traffic levels which will include VHF–FM communications, radar surveillance, and a vessel movement reporting system, in part or total. The project is intended to reduce the number of vessel accidents caused by collisions, rammings, and groundings. There will be some adverse impact from construction of system elements (12 pages). (ELR Order No. 41192.)

GARY L. WIDMAN,
General Counsel.

ENVIRONMENTAL PROTECTION AGENCY

[OPP–32000/92 (FRL 244–7)]

NOTICE OF RECEIPT OF APPLICATIONS FOR PESTICIDE REGISTRATION

Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (38 FR 31862) its interim policy with respect to the administration of section 3(c)(1)(D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This policy provides that EPA will, upon receipt of every application for registration, publish in the FEDERAL REGISTER a notice containing the information shown below. The labeling furnished by the applicant will be available for examination at the Environmental Protection Agency, Room EB–37, East Tower, 401 M Street SW., Washington, D.C. 20460.

On or before October 1, 1974, any person who (a) is or has been an applicant, (b) believes that data he developed and submitted to EPA on or after October 21, 1972, is being used to support an application described in this notice, (c) desires to assert a claim for compensation under section 3(c)(1)(D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data, must notify the Administrator and the applicant named in the notice in the FEDERAL REGISTER of his claim by certified mail. Notification to the Administrator should be addressed to the Information Coordination Section, Technical Services Division (WH–569), Office of Pesticide Programs, 401 M Street SW., Washington, D.C. 20460. Every such claimant must include, at a minimum, the information listed in the interim policy of November 19, 1973.

Applicants submitted under 2(a) or 2(b) of the interim policy will be processed to completion in accordance with existing procedures. Applications submitted under 2(c) of the interim policy cannot be made final until the 60 day period has expired. If no claims are received within the 60 day period, the 2(c) application will be processed according to normal procedure. However, if claims are received within the 60 day period, the applicants against whom the claims are asserted will be advised of the alternatives available under the Act. No claims will be accepted for possible EPA adjudication which are received after October 1, 1974.

APPLICATIONS RECEIVED

EPA File Symbol 1022–UIT. Chapman Chemical Co., PO Box 9158, 416 E. Brooks Rd., Memphis TN 38109. AMBRITE TC INSECTICIDAL WOOD PRESERVATIVE. Active Ingredients: Benzene Hexachloride, gamma isomer 9.35%; Copper-8-quinolinolate 3.37%; Xylene 35.00%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 11619–E. Chemical Testing Corp., 32–10 37th Ave., Long Island City NY 11101. KEMICIDE–159 SLIME CONTROL. Active Ingredients: Disodium cyanodithioimidocarbonate 3.18%; Ethylenediamine 1.20%; Potassium N-methyldithiocarbamate 4.37%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 239–EUET. Chevron Chemical Co., 940 Hensley St., Richmond CA 94804. ORTHENE TREE & ORNAMENTAL SPRAY. Active Ingredients: Acephate (O, S-Dimethyl acetylphosphoramidothioate) 75%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 115–EO. Continental Chemical Co., 2750 Grand Ave., Cleveland OH 44104. ALGEX NO. 817. Active Ingredients: Disodium cyanodithioimidocarbonate 6.35%; Ethylenediamine 2.40%; Potassium N-methyldithiocarbamate 8.75%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 115–EI. Continental Chemical Co. ALGEX NO. 816. Active Ingredients: Disodium cyanodithioimidocarbonate 4.23%; Ethylenediamine 1.60%; Potassium N-methyldithiocarbamate 5.83%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 115–ET. Continental Chemical Co. ALGEX No. 815. Active Ingredients: Disodium cyanodithioimidocarbonate 3.18%; Ethylenediamine 1.20%; Potassium N-methyldithiocarbamate 4.37%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 34077–A. Excelsior Varnish Inc., 1219 W. 74th St., Cleveland OH 44102. ALGAECIDE A–162. Active Ingredients: Disodium cyanodithioimidocarbonate 6.35%; Ethylenediamine 2.40%; Potassium N-methyldithiocarbamate 8.75%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 34077–L. Excelsior Varnish, Inc. ALGAECIDE A–161. Active Ingredients: Disodium cyanodithiomidocarbonate 4.23%; Ethylenediamine 1.60%; Potassium N-methyldithiocarbamate 5.83%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 34077–U. Excelsior Varnish Inc. ALGAECIDE A–160. Active Ingredients: Disodium cyanodithioimidocarbonate 3.18%; Ethylenediamine 1.20%; Potassium N-methyldithiocarbamate 4.37%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 12130–GU. Farm Chemicals, Inc., PO Box 456, Aberdeen NC 28315. 4–3–1 TOX-ETHYL METHYL. Active Ingredients: Toxaphene 38.92%; Parathion (O,O-diethyl O-p-nitrophenyl phosphorothioate) 19.46%; O,O-dimethyl O-p-nitrophenyl thiophosphate 9.73%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA Reg. No. 279–1518. FMC Corp., 100 Niagara St., Agricultural Chemical Division, Middleport NY 14105. ETHION 25 WP INSECTICIDE. Active Ingredients: Ethion (O,O,O',O'-Tetraethyl S,S'-methylene bisphosphorodithioate) 25.0%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 8764–GG. FMC Corp., Citrus Machinery Div., PO Box 552, Riverside CA 92502. BIN TREATING OIL INSECTICIDE-FUNGICIDE. Active Ingredients: Petroleum oils 99.00%; O-Phenylphenol 0.25%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 8764–GU. FMC Corp. HYPOCLOR BUFFER 913 FUNGICIDE. Active Ingredients: Borax 87.5% (Sodium borate decahydrate). Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 8764–GE. FMC Corp., Citrus Machinery Div. STA-FRESH 407 FUNGICIDAL FRUIT COATING. Active Ingredients: 2-(4-Thiazolyl) benzimidazole 0.06% (Thiabendazole). Method of Support: Application proceeds under 2(c) of interim policy.

EPA Reg. No. 279–1529. FMC Corp., 100 Niagara St., Middleport NY 14105. DIBROM 8 MISCIBLE NALED INSECTICIDE. Active Ingredients: Naled 58%; Xylene 20%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA Reg. No. 904–200. B. G. Pratt Division, Gabriel Chemicals Ltd., 204 21st Ave., Paterson NJ 07509. DURSBAN G-232 GRANULAR LAWN INSECT CONTROL. Active Ingredients: Chlorpyrifos [O,O-Diethyl O-(3,5,6-trichloro-2-pyridyl) phosphorothioate] 2.32%; Aromatic Petroleum Derivative Solvent 1.26%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 34291–R. William Hinderlong, PO Box 115, Battle Ground WA 98604. VAPO-SWAT. Active Ingredients: Gamma Isomer of Benzene Hexachloride (from LINDANE) 100%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 2413–O. M & M Chemical Sales Corp., 1073 Hancock St., Quincy, MA 02169. PENTA-5 WOOD PRESERVATIVE. Active Ingredients: Pentachlorophenol 4.40%; Other chlorophenols 0.60%; Petroleum solvents 81.00%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 2224–UI. Mobil Chemical Co., Industrial Chemicals Division, PO Box 26683, Richmond VA 23261. MOCAP PLUS NEMATICIDE-INSECTICIDE. Active Ingredients: O-Ethyl S, S-Dipropyl Phosphorodithioate 10%; O, O-Diethyl S-(2-(ethylthio)ethyl) Phosphorodithioate 5%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA Reg. No. 2224–44. Mobile Chemical Co., PO Box 26683, Richmond VA 23261. MOCAP NEMATICIDE-INSECTICIDE EMULSIFIABLE CONCENTRATE. Active Ingredients: O-Ethyl S,S-Dipropyl Phosphorodithioate 69.0%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 4389–TU. Pacific Chemical, Division Pace National Corp., 500 7th Ave., South, Kirkland WA 98033. CHEMPROCIDE GERMICIDE. Active Ingredients: n-alkyl (C12 40%, C14 50%, C16 10%) dimethyl benzyl ammonium chloride 10%; Trisodium phosphate 1%; Tetrasodium ethylenediaminetetraacetate 1%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA Reg. No. 476–2132. Stauffer Chemical Co., 1200 S. 47th St., Richmond CA 94804. SUTAN + 6-E/BLADEX 80-WP COMBINATION. Active Ingredients: S-Ethyl Diisobutylthiocarbamate 77.3%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 11668–E. Turpentine & Rosin Factors of Texas, Inc., PO Box 135, El Paso TX 79941. PENTA WATER REPELLENT WOOD PRESERVATIVE. Active Ingredients: Pentachlorophenol 4.47%; Other Chlorophenols & Related Compounds 0.52%; Mineral Spirits 81.05%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 168–UOO. Wasatch Chemical Division, Entrada Industries, Inc., PO Box 6219, Salt Lake City UT 84106. WASCO GRAIN FUMIGANT. Active Ingredients: Carbon tetrachloride 83.3%; Carbon disulphide 16.7%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 9782–EE. Woodbury Chemical Co. of Homestead, PO Box 4319, Princeton FL 33030. DURSBAN 1% GRANULAR INSECTICIDE. Active Ingredients: Chlorpyrifos [O, O-diethyl O-(3,5,6-trichloro-2-pyridyl) phosphorothioate] 1.0% Method of Support: Application proceeds under 2(c) of interim policy.

Dated: July 25, 1974.

FEDERAL HOME LOAN BANK BOARD

[H.C. No. 177]

WESTERN AND SOUTHERN LIFE INSURANCE CO.

Receipt of Application for Permission To Acquire Control of Tannery Savings and Loan Company

JULY 30, 1974.

Notice is hereby given that the Federal Savings and Loan Insurance Corporation has received an application from Western and Southern Life Insurance Company, Cincinnati, Ohio, a unitary savings and loan holding company, for approval of acquisition of control of the Tannery Savings and Loan Company, Cincinnati, Ohio, an insured institution, under the provisions of section 408(e) of the National Housing Act, as amended (12 U.S.C. 1730a(e)), and § 584.4 of the Regulations for Savings and Loan Holding Companies, said acquisition to be effected by offering to each holder of an outstanding running stock account and investment share account in Tannery Savings and Loan Company an account in Eagle Savings Association, an insured subsidiary of Western and Southern Life Insurance Company. As a result of said transaction the Tannery Savings and Loan Company will be merged into Eagle Savings Association. Comments on the proposed acquisition should be submitted to the Director, Holding Companies Section, Office of Examinations and Supervision, Federal Home Loan Bank Board, Washington, D.C. 20552, on or before September 3, 1974.

[SEAL] GRENVILLE L. MILLARD, Jr.,
Assistant Secretary,
Federal Home Loan Bank Board.

FEDERAL POWER COMMISSION

[Docket No. E–8624]

ARIZONA PUBLIC SERVICE CO.

Order Permitting Intervention

JULY 29, 1974.

On March 20, 1974, Citizens Utilities Company (CUC) filed a timely petition to intervene in the above-docketed proceeding. We believe that the participation of CUC in this proceeding may be in the public interest and we shall accordingly grant such petition to intervene.

The Commission finds:

The participation of Citizens Utilities Company in this proceeding may be in the public interest.

The Commission orders:

(A) Citizens Utilities Company is hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such intervenor shall be limited to matters affecting rights and interests specifically set forth in its petition to intervene, and *Provided, further,* That the admission of such intervenor shall not be construed as recognition by the Commission that it may be aggrieved because of any orders issued by the Commission in this proceeding.

(B) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.74–17627 Filed 8–1–74;8:45 am]

[Docket No. CP73-149]

CENTRAL FLORIDA GAS CORP.

Extension of Time

JULY 26, 1974.

On June 27, 1974, Central Florida Gas Corporation filed a motion for an extension of time within which applicant shall comply with paragraph (F) of the Commission's order issued July 25, 1973.

Upon consideration, notice is hereby given that the time is extended to and including January 25, 1975, within which applicant shall comply with order issued July 25, 1973.

KENNETH F. PLUMB,
Secretary.

[Docket No. ID-1736]

CHARLES E. BRACKETT

Supplemental Application

JULY 26, 1974.

Take notice that on July 22, 1974, Charles E. Brackett (Applicant) filed a supplemental application with the Federal Power Commission. Pursuant to section 305(b) of the Federal Power Act, Applicant seeks authority to hold the following position:

Director, Southern Electric Generating Company, Public Utility.

Southern Electric Generating Company is engaged in the generation and transmission of electric energy within the State of Alabama and the sale of such energy under a long-term contract to Alabama Power Company and Georgia Power Company, each of which owns 50 percent of its common stock.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 23, 1974 file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RI75-4]

COLORADO OIL & GAS CORP.

Petition for Special Relief

JULY 23, 1974.

Take notice that on July 2, 1974, Colorado Oil and Gas Corporation, Five Greenway Plaza East, Houston, Texas 77046, filed a petition for special relief in Docket No. RI75-4, pursuant to § 2.76 of the Commission's general policy and interpretations. Petitioner seeks a rate of 34.575 cents per Mcf and requests relief from the area rate prescribed in Opinion No. 598 for the sale of natural gas to Southern Natural Gas Company for the Biloxi Marsh Land No. 1 Well and any other well completed after August 1, 1972, in the Chandeleur Sound Block 73 Area, St. Bernard Parish, Louisiana.

Any person desiring to be heard or to make any protest with reference to said petition should on or before August 9, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Docket Nos. CP73-132, 230, 135, 148; CP74-227, 122, 137]

DISTRIGAS CORP., ET AL.

Further Extension of Time

JULY 26, 1974.

On July 18, 1974, Distrigas Corporation, Distrigas of Massachusetts Corporation, Distrigas of New York Corporation, and Distrigas Pipeline Corporation (applicants) filed a motion for a further extension of time to file a portion of applicants' direct case.

Upon consideration, notice is hereby given that the time is further extended to and including August 21, 1974, within which applicants shall file the remaining portion of the case-in-chief.

By direction of the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-17631 Filed 8-1-74;8:45 am]

[Docket Nos. E-7795, E-7989]

PHILADELPHIA ELECTRIC CO.

Order Granting Rehearing, Amending Prior Order and Denying Request To Defer Payment of Refunds

JULY 26, 1974.

On June 4, 1974, the Commission issued an Order in Compliance With Court Mandate [1] which dismissed all proceedings in Docket Nos. E7795 and E7989; ordered the filing of the November 12, 1971, fixed-rate, fixed-term contract between Philadelphia and Lansdale and initiated an investigation under section 206 of the Federal Power Act to determine the lawfulness of the rates to be charged under the contract in light of the test enunciated by the Supreme Court in the Sierra case.[2] This order was issued to comply with the decision of the United States Court of Appeals for the District of Columbia which held that the November 12, 1971, contract embodied the lawful rate for service between Philadelphia Electric Company (Philadelphia) and the Borough of Lansdale, Pennsylvania (Lansdale) and that since the contract was for a fixed-rate and a fixed-term, it prohibited unilateral rate increase filings by Philadelphia by section 205 of the Federal Power Act.

On June 28, 1974, Lansdale filed a petition requesting that the June 4 order be clarified or amended to provide that Philadelphia make refunds with appropriate interest of all amounts collected as a result of the filings made effective subject to refund in Docket Nos. E-7795 and E-7989 to the extent those rates are in excess of the rates prescribed in the November 12, 1971, contract.

On July 17, 1974, Philadelphia filed an answer to Lansdale's pleading requesting that the making of refunds be deferred pending the outcome of a state court proceeding [3] wherein Philadelphia is seeking, through the introduction of parol evidence, reformation of the November 12, 1971, contract to provide for unilateral rate increases by Philadelphia under section 205 of the Federal Power Act.

We agree with Lansdale that our June 4, 1974, order should be amended to provide for refunds plus appropriate interest of amounts collected in excess of the rates prescribed in the November 12, 1971, contract and we shall so provide in this order.

We reject, however, Philadelphia's contention that we should defer the granting of such refunds pending the outcome of its proceedings in the state court. In this regard, the Commission emphasizes that the D.C. Circuit specifically found that Philadelphia's contract with Lansdale of November 12, 1971, did, in fact, provide for a fixed-rate for a fixed-term. Our order of June 4, 1974, merely effectuated this mandate of the Court by dismissing the prior proceedings and ordering the filing of the November 12, 1971 contract. Philadelphia's initiation of state court proceedings challenging the status of that contract can, thus, not relieve this Commission of its responsibility to comply with the mandate of the Court of Appeals.

---

[1] See: Borough of Lansdale, Pennsylvania v. F.P.C., D.C. Cir., Nos. 73-1301 and 73-1649, decided March 15, 1974.

[2] F.P.C. v. Sierra Pacific Power Company, 350 U.S. 358 (1956).

[3] Philadelphia Electric Company v. Borough of Lansdale, Case No. 74-9550, Court of Common Pleas, County of Montgomery, Commonwealth of Pennsylvania.

The Commission finds:

(1) Good cause exists to grant Lansdale's application for rehearing and amend our June 4, 1974, order as hereinafter ordered and conditioned.

(2) Good cause does not exist to grant Philadelphia's request to defer the payment of refunds pending the outcome of the state court proceeding initiated by Philadelphia.

The Commission orders:

(A) Lansdale's application for rehearing filed on June 28, 1974, is granted and our June 4, 1974, order is amended to provide that, within 30 days of the date of issuance of this order, Philadelphia shall refund with interest at 7 percent per annum, all amounts collected, subject to refund, in Docket Nos. E-7795 and E-7989 in excess of the rates prescribed in the November 12, 1971, contract between Philadelphia and Lansdale.

(B) Philadelphia's request to defer the payment of refunds filed on July 17, 1974, is denied.

(C) The Secretary of the Commission shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.74-17632 Filed 8-1-74;8:45 am]

[Docket Nos. E-8176, E-8570]

SOUTHERN CALIFORNIA EDISON CO.

Order Denying Petition for Reconsideration of Order Denying Motion for Consolidation

JULY 26, 1974.

On June 10, 1974, we issued an order denying the motion of Southern California Edison Company ("Edison") to consolidate the proceedings in the above dockets for hearing and decision and to use 1973 actual operating data rather than adjusted 1972 test year data in the cases in Docket No. E-8176 on the basis primary objectives were fairness to the parties and staff who have prepared their cases in Docket No. E-8176 on the baiss of 1972 test year data and avoidance of delaying hearings in Docket No. E-8176, then scheduled for June 1974, by consolidation with the hearings in Docket No. E-8170, set at that time to commence on September 10, 1974.

On July 8, 1974, Edison filed a petition for reconsideration of our June 10 order. In support thereof, Edison reiterates its earlier arguments concerning the preferability of using 1973 actual operating data for both proceedings. Edison further states that requests by staff and intervenors for time extensions in the proceeding in Docket No. E-8570 suggests difficulty on their part in preparing for hearings in Docket No. E-8570. Edison infers, therefore, that the proceedings in Docket No. E-8570 may lay such a claim on the time of the staff and intervenors that future extensions of hearing and briefing dates will be required in Docket No. E-8176.

We note, however, that hearings in Docket No. E-8176 have commenced on July 23, 1974. We do not believe that the public interest would be best served by consolidation requiring adjournment of the hearings until November 19, 1974, the presently scheduled date for commencement of hearings in Docket No. E-8570.

We also find that Edison has not presented persuasive reasons for now requiring 1973 actual operating data to be used in the proceeding in Docket No. E-8570 rather than appropriately adjusted data for the test year originally picked by Edison and relied on by staff and the intervenors in their preparation.

The Commission finds and orders:

(1) Upon reconsideration, good cause has not been shown for modifying the order issued on June 10, 1974, denying Edison's motion to consolidate.

(2) The Commission Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[Docket No. RP74-89]

TRUNKLINE GAS CO.

Order Granting Late Petitions To Intervene

JULY 29, 1974.

On June 28, 1974, we issued an Order Accepting for Filing Proposed Tariff Sheets, Suspending and Ordering Revision of those Tariff Sheets, Granting Interventions, Establishing Hearing Procedures, and Denying Waiver in this above-captioned docket. On June 12, 1974, Michigan Consolidated Gas Company petitioned for late intervention. On June 13, 1974, East Ohio Gas Company also petitioned to intervene. On July 5, 1974, and July 10, 1974, Illinois Power Company and Central Illinois Public Service Company filed untimely petitions to intervene in this proceeding. All petitioners allege that their interests may be affected by this proceeding. We shall permit these petitioners to intervene.

The Commission finds:

Good cause exists to grant the above-mentioned petitioners to intervene in this proceeding.

The Commission orders:

(A) The above-mentioned petitioners are hereby permitted to intervene in this proceeding, subject to the Rules and Regulations of the Commission; *Provided, however,* that the participation of such intervenors shall be limited to matters affecting the rights and interests specifically set forth in the respective petitions to intervene; and *Provided, further,* that the admission of such intervenors shall not be construed as recognition that they or any of them might be aggrieved because of any order or orders issued by the Commission in this proceeding.

(B) The late interventions granted herein shall not be the basis for delaying or deferring the procedural schedule heretofore established for the orderly and expeditious disposition of this proceeding.

(C) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[Docket No. E-7671]

UPPER MISSISSIPPI RIVER BASIN

Extension of Time

JULY 26, 1974.

On July 9, 1974, Blandin Paper Company, Northwest Paper Company and Minnesota Power and Light Company filed a joint request for an extension of time to respond to the Bureau of Power's annex dated April, 1974 to the March, 1973 Supplemental Report on the Investigation of headwater benefits in the Upper Mississippi River Basin 1925 through 1965 which was transmitted by letter dated June 4, 1974. Requests were also received from St. Regis Paper Company on July 12, 1974, Northern States Power Company on July 22, 1974, and Ford Motor Company on July 26, 1974.

Upon consideration, notice is hereby given that the time is extended to and including October 28, 1974, within which responses may be filed to the above annex dated April, 1974.

KENNETH F. PLUMB, *Secretary.*

[Docket RP73-94]

VALLEY GAS TRANSMISSION, INC.

Order Accepting for Filing and Suspending Proposed PGA Rate Increase

JULY 26, 1974.

On June 12, 1974, Valley Gas Transmission, Inc. (Valley Gas) filed a proposed PGA rate increase for sales to two pipeline customers under Rate Schedules 1 and 2 and a proposed PGA reduction to Iroquois Gas Corporation (Iroquois) under Rate Schedules 5 and 8.[1]

The rate increases to Tennessee Gas Pipe Line (Tennessee) and United Gas Pipe Line Company (United) result primarily from increased surcharges to recoup increased balances in the deferred purchase gas account. The rate reduction to Iroquois is based on a reduction in the average cost of gas resulting basically from the elimination of high priced purchases of emergency gas. Valley Gas requested a waiver of the Commission's notice requirements to permit an effective date of July 1, 1974. Valley's filing of June 12, 1974, was noticed on July 15, 1974, with comments, protests and petitions to intervene due on or before July 25, 1974. On June 26, 1974, Iroquois protested the filing and requested a one-day suspension because, Iroquois alleges

[1] Second Revised Sheet No. 2A to FPC Gas Tariff, Original Volume No. 1.

that the revised rates reflect the transfer of a portion of a segregated gas supply from one customer to another.

Our review of the June 12, 1974, filing and the proposed rates included therein indicate that the proposed rates have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory or preferential or otherwise unlawful. We shall accordingly accept for filing Valley Gas' proposed tariff sheets for filing, suspend for one da yand permit the rates to become effective thereafter subject to refund.

With regard to the question of the small producer purchases, we note that the Supreme Court in Federal Power Commission v. Texaco, Inc., et al.[3] recently remanded the question of the standards the Commission must use in determining the justness and reasonableness of the prices for small producer purchases pursuant to Commission Order No. 428. We believe, therefore, that it would be premature to order a hearing with regard to the proposed PGA increase at this time. We shall permit these rates to be charged to refund as of July 2, 1974, pending further order in this docket.

The Commission finds:

It is necessary and appropriate in the public interest and to aid in the enforcement of the Natural Gas Act that Valley Gas' proposed PGA rate increase filing of June 12, 1974, should be accepted for filing, suspended for one day and permitted to become effective subject to refund pending further Commission order in this docket.

The Commission orders:

(A) Valley Gas' June 12, 1974, PGA rate increase filing is hereby accepted for filing, suspended and permitted to become effective on July 2, 1974, subject to refund pending further Commission order in this docket.

(B) In accordance with § 154.51 of the Commission's regulations, waiver of the notice requirements is hereby granted.

(C) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

OFFICE OF MANAGEMENT AND BUDGET

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on July 30, 1974 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

The symbol (x) identifies proposals which appear to raise no significant issues, and are to be approved after brief notice through this release.

Further information about the items on this Daily List may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503 (202-395-4529).

[Rel. No. 18516; 70-5525]

MICHIGAN CONSOLIDATED GAS CO.

Proposed Short-Term Borrowing; Issuance and Sale of Notes and Commercial Paper

JULY 31, 1974.

Notice is hereby given that Michigan Consolidated Gas Company ("Michigan Consolidated"), One Woodward Avenue, Detroit, Michigan 48226, a gas utility subsidiary company of American Natural Gas Company, a registered holding company, has filed an application-declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6 and 7 of the Act and rules 42(b)(2), 50(a)(2) and 70(b)(2) promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the application-declaration, which is summarized below, for a complete statement of the proposed transactions.

Michigan Consolidated proposes, from time to time until September 1, 1975, and to the extent funds are available, to borrow up to a maximum of $15,000,000 outstanding at any one time from the Trust Department of the National Bank of Detroit ("Trust Department"), which administers, as Trustee, pension and other funds of many corporations. It is stated that borrowings from the Trust Department will be made under an agreement between Michigan Consolidated and the Trust Department, on notes, at an interest rate (computed on a 360-day interest bearing basis) equivalent to the highest rate paid daily by General Motors Acceptance Corporation on its commercial paper with a maturity of 30 to 180 days. Michigan Consolidated will be notified by the Trust Department of any change in the interest rate. The notes issued from January 1 to June 30 will mature July 1 of the same year and those issued from July 1 to December 31 will mature January 1 of the following year. The Trust Department will have the right, however, to demand payment at any time of all or any part of the principal of the loan or loans outstanding. Michigan Consolidated will have the right to repay the notes at any time without penalty. Michigan Consolidated proposes to report quarterly to the Commission the amounts borrowed from the Trust Department and the interest rate thereon. If borrowings from the Trust Department should decline below $7,000,000, it may be necessary, depending upon the amount of borrowings from the banks and commercial paper outstanding, to supply the required funds for a short time by a temporary drawing down of Michigan Consolidated's cash balances. The Trust Department has a continuous flow of funds from its internal operations and follows a practice of pooling these funds and loaning them to various corporations through its nominee, Trussal & Co., so that Michigan Consolidated anticipates always having a minimum of $7,000,000 available from this source.

Michigan Consolidated states it has obtained lines of credit from a group of six commercial banks (herein collectively referred to as "Banks") providing for banks borrowings on its promissory notes ("Notes"). The Banks and their respective commitments are as follows:

Name of bank:	*Amount of commitment (millions)*
National Bank of Detroit, Detroit, Mich	$10
First National City Bank, New York, N.Y	7
The Chase Manhattan Bank, New York N.Y	4
Manufacturers Hanover Trust Co., New York, N.Y	3
The Detroit Bank & Trust Co., Detroit, Mich	3
Manufacturers National Bank of Detroit, Detroit, Mich	3
	30

Michigan Consolidated states the Notes will be unsecured and will be issued in varying amounts commencing in September 1974, and from time to time as funds are required by Michigan Consolidated. There are no commitment fees, closing or other related charges payable to the Banks in connection with the bank borrowings. The Notes may be prepaid at any time without penalty. If any Notes are prepaid, new Notes may be issued provided that the aggregate principal amount of Notes outstanding at any one time does not exceed $30,000,000. The Notes will be dated as of the date of issuance and will mature September 1, 1975. Each Note will bear interest at the prime rate in effect at the lending bank on the date of each borrowing and will be adjusted to the prime rate effective with any change in said rate. Interest shall be payable at the end of each 90-day period subsequent to the date of the first borrowing and at maturity. As a condition of these lines of credit, Michigan Consolidated is required to maintain compensating balances with the Banks. If it is assumed that these balances are maintained solely in order to fulfill the compensating balance requirement, the effective cost is thereby increased by approximately one and one-half percent above the stated rates, based upon a prime rate of 12 percent.

Michigan Consolidated proposes, in lieu of borrowing under the lines of credit, to issue and sell from time to time commercial paper ("notes") payable to bearer, with maturities not later than September 1, 1975, in the aggregate face amount not to exceed $30,000,000 outstanding at any one time. The commercial paper will be sold to Goldman, Sachs & Co., a New York, New York dealer in commercial paper. The commercial paper will have varying maturities of not more than 270 days after the date of issue and will be issued and sold in varying denominations of not less than $50,000 and not more than $2,000,000 directly to Goldman, Sachs & Co. at a discount which will not be in excess of the discount rate per annum prevailing at the date of issuance for commercial paper of comparable quality and like maturities. Michigan Consolidated proposes to sell commercial paper only so long as the effective interest cost for such commercial paper does not exceed the equivalent cost of borrowings from commercial banks (after taking into consideration compensating balances) on the date of sale, except for commercial paper of maturity not exceeding 90 days issued to refund outstanding commercial paper, if, in the judgment of Michigan Consolidated, it would be impractical to borrow from commercial banks to refund such outstanding commercial paper.

No commission or fee will be payable by Michigan Consolidated in connection with the issue and sale of such commercial paper notes. Goldman, Sachs & Co., as principal, will reoffer such notes at a discount not to exceed ⅛ of 1 percent per annum less than the prevailing discount rate to Michigan Consolidated. Such notes will be reoffered to not more than 200 identified and designated customers in a list (non-public) prepared in advance by Goldman, Sachs & Co. and no additions will be made to the customer list without approval of this Commission. It is anticipated that the commercial paper will be held by customers to maturity; however, if any commercial paper is repurchased by Goldman, Sachs & Co., such paper will be reoffered only to others in the group of 200 customers. Michigan Consolidated proposes to report quarterly to the Commission pursuant to rule 24 the amounts issued and sold by Goldman, Sachs & Co. and the discount thereon.

In June 1974, Michigan Consolidated sold 1,500,000 shares of its $14 par value common stock for $21,000,000 (HCAR No. 18391, April 25, 1974) and in August 1974, proposes to sell $40,000,000 principal amount of first mortgage bonds (HCAR No. 18501, July 17, 1974). Part of the proceeds will be used to retire $29,000,000 of outstanding bank loans due September 1, 1974 (HCAR No. 18081, August 31, 1973). The remaining net proceeds together with the borrowings herein requested and funds generated from operations will be used to finance Michigan Consolidated's 1974 construction program (estimated at $100,000,000). It is anticipated that funds required to retire the borrowings herein requested will ultimately be obtained from additional long-term financing and funds generated internally.

Michigan Consolidated states that the total amount of proposed borrowings from the Trust Department, Banks and or the issuance and sale of commercial paper will not exceed $37,000,000 outstanding at any one time.

Michigan Consolidated also plans to borrow, pursuant to the exemption contained in Section 6(b) of the Act, up to $26,000,000 to partially finance current inventory of gas placed in underground storage. It is stated that funds are generated in an amount sufficient to repay these borrowings as the inventory gas is sold to meet the winter demand of customers.

Michigan Consolidated requests that the sale of its proposed commercial

paper be exempted from the competitive bidding requirements of rule 50 on the grounds that the commercial paper will have maturities of nine months or less, that current rates for prime borrowers such as Michigan Consolidated are published daily in financial publications, and that it is not practical to invite bids for commercial paper.

Fees and expenses incident to the proposed transactions are estimated at $3,000, including counsel fees of $500. The application-declaration states that no State or Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than August 26, 1974, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the application-declaration which he desires to controvert; or he may request that he be notified should the Commission order a hearing in respect thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicant-declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as filed or as it may be amended, may be granted and permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

SMALL BUSINESS ADMINISTRATION

ALLIED INVESTMENT DEVELOPERS, INC.

[License Application No. 04/04-5114]

Application for License as Small Business Investment Company

An application for a license to operate as a small business investment company under the provisions of section 301(d) of the Small Business Investment Act of 1958, as amended (15 U.S.C. 661 et seq.), has been filed by Allied Investment Developers, Inc. (applicant), with the Small Business Administration (SBA) pursuant to 13 CFR 107.102 (1974).

The officers and directors of the applicant are as follows:

Robert V. Milberg, 1504 Michigan Avenue, Miami Beach, Florida 33139, President, Director.

Arthur W. Parks, 9325 El Cajon Boulevard, La Mesa, California 92041, Vice President, Director.

Daniel E. Kelly, 7350 S.W. 134 Terrace, Miami, Florida 33156, Secretary, Treasurer, Director.

The applicant, a Florida corporation with its principal place of business located at 1200 Biscayne Boulevard, Suite 202, Miami, Florida 33132, will begin operations with $275,000 of paid-in capital and paid-in surplus, derived from the sale of 275,000 shares of common stock to sixteen shareholders.

As a small business investment company under section 301(d) of the Act, the applicant has been organized and chartered solely for the purpose of performing the functions and conducting the activities contemplated under the Small Business Investment Act of 1958, as amended from time to time, and will provide assistance solely to small business concerns which will contribute to a well-balanced national economy by facilitating ownership in such concerns by persons whose participation in the free enterprise system is hampered because of social or economic disadvantages.

Matters involved in SBA's consideration of the applicant include the general business reputation and character of the proposed management, and the probability of successful operation of the applicant under their management, including adequate profitability and financial soundness, in accordance with the Small Business Investment Act and SBA rules and regulations.

Any person may, not later than August 19, 1974, submit to SBA written comments on the proposed applicant. Any such communication should be addressed to the Deputy Associate Administrator for Investment, Small Business Administration, 1441 L Street, NW., Washington, D.C. 20416.

A copy of this notice shall be published in a newspaper of general circulation in Miami, Florida.

Dated: July 26, 1974.

JAMES THOMAS PHELAN,
Deputy Associate Administrator for Investment.

[FR Doc.74-17666 Filed 8-1-74;8:45 am]

ASSET MANAGEMENT CAPITAL CO.

[License No. 09/09-0170]

Issuance of a License To Operate as a Small Business Investment Company

On May 14, 1974, a notice was published in the FEDERAL REGISTER (39 FR 17269) stating that an application had been filed with the Small Business Administration pursuant to § 107.102 of the regulations governing Small Business Investment Companies (38 FR 30836, November 7, 1973) for a license to operate as a small business investment company by Asset Management Capital Company, 1417 Edgewood Drive, Palo Alto, California 94301.

Interested parties were invited to submit their written comments to SBA. No comments were received.

Notice is hereby given that pursuant to the provisions of the Small Business Investment Act of 1958, as amended (15 U.S.C. 661 et seq.) after having considered the application and all other pertinent information and facts with regard thereto, SBA has issued License No. 09/09-0170 to Asset Management Capital Company to operate as a small business investment company.

Dated: July 25, 1974.

JAMES THOMAS PHELAN,
Deputy Associate Administrator for Investment.

[FR Doc.74-17663 Filed 8-1-74;8:45 am]

DOAN RESOURCES CORP.

[License No. 05/05-0098]

Application for Approval of Conflict of Interest Transaction

Notice is hereby given that Doan Resources Corp. (Resources), 110 East Grove, Midland, Michigan 48640, a Federal Licensee under the Small Business Investment Act of 1958, as amended (Act), has filed an application pursuant to § 107.1004 of the regulations governing small business investment companies (13 CFR 107.1004(1974)), for an exemption from the provisions of the conflict of interest regulation.

The exemption, if granted, will permit Resources to provide a $50,000 financing to Fitterer Engineering Associates, Inc. (FEA). The investment will consist of 25,000 shares of stock at a price of $2.00 per share.

Doan Associates, the sole shareholder of Resources, owns in excess of 25 percent of the outstanding stock of FEA.

Information provided by Resources in connection with the application indicates that FEA manufactures and sells disposable oxygen probes under three U.S. Patents and that FEA needs $50,000 for operating funds for the rest of the year. Such funds are not available from other sources.

Pursuant to the Regulations, FEA is considered to be an associate of Resources. As such, the transaction will require an exemption pursuant to § 107.1004(b)(1) of the regulations.

Notice is hereby given that any person may, on or before August 19, 1974, submit, in writing, relevant comments on the proposed transaction to: Associate Administrator for Finance and Investment, Small Business Administration, 1441 "L" Street, NW., Washington, D.C. 20416.

A copy of this notice shall be published in a newspaper of general circulation in Midland, Michigan.

Dated: July 26, 1974.

JAMES THOMAS PHELAN,
Deputy Associate Administrator for Investment.

FINANCIAL OPPORTUNITIES, INC.

[License Application No. 04/04-5113]

Application for License as Small Business Investment Company

An application for a license to operate as a small business investment company under the provisions of section 301(d) of the Small Business Investment Act of 1958, as amended (15 U.S.C. 661 et seq.), has been filed by Financial Opportunities, Inc. (applicant) with the Small Business Administration pursuant to 13 CFR 107.102 (1974).

The officers and directors of the applicant are as follows:

Anthony W. Foeliger, 9817 Vieux Carre, Louisville, Kentucky 40223, President, General Manager.
Robert T. Johnson, 7518 Westdale Road, Louisville, Kentucky 40222, Vice Pres., Secretary, Asst. Treasurer, Director.
Albert Christen, 214 North Hite Avenue, Louisville, Kentucky 40206, Treasurer, Director.
Harlin D. Peden, 422 Kaelin Drive, Louisville, Kentucky 40207, Director.
Joe P. Peden, 3223 Five Oaks Place, Louisville, Kentucky 40206, Director.

The applicant, a Kentucky corporation, with its principal place of business located at 981 South Third Street, Louisville, Kentucky 40203, will begin operations with $300,000 of paid-in capital and paid-in surplus derived from the sale of 3,000 shares of common stock to Convenient Industries of America, Inc., a franchisor for Convenient Food Marts.

As a small business investment company under section 301(d) of the Act, the applicant has been organized and chartered solely for the purpose of performing the functions and conducting the activities contemplated under the Small Business Investment Act of 1958, as amended from time to time, and will provide assistance solely to small business concerns which will contribute to a well-balanced national economy by facilitating ownership in such concerns by persons whose participation in the free enterprise system is hampered because of social or economic disadvantages.

Matters involved in SBA's consideration of the applicant include the general business reputation and character of the proposed management, and the probability of successful operation of the applicant under their management, including adequate profitability and financial soundness, in accordance with the Small Business Investment Act and SBA rules and regulations.

Any person may, not later than August 19, 1974, submit to SBA written comments on the proposed applicant. Any such communication should be addressed to the Deputy Associate Administrator for Investment, Small Business Administration, 1441 L Street, NW., Washington, D.C. 20416.

A copy of this notice shall be published in a newspaper of general circulation in Louisville, Kentucky.

Dated: July 26, 1974.

[Notice of Disaster Loan Area 1087]

NEW YORK

Notice of Disaster Relief Loan Availability

As a result of the President's declaration of the State of New York, as a major disaster following severe storms and flooding beginning about July 3, 1974, applications for disaster relief loans will be accepted by the Small Business Administration from disaster victims in the following counties: Oneida and Onondaga, and adjacent affected areas. Adjacent areas include only counties within the state for which the declaration is made and do not extend beyond state lines.

Applications may be filed at the:

Small Business Administration
District Office
Fayette and Salina Streets
Syracuse, New York 13202

and at such temporary offices as are established. Such addresses will be announced locally.

Applications for disaster loans under this announcement must be filed not later than September 23, 1974.

Dated: July 25, 1974.

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[FRA E.O. No. 4]

PENN CENTRAL TRANSPORTATION CO.

Emeregncy Order Regarding Certain Track

Between July 11, 1974 and July 21, 1974, track inspectors of the Federal Railroad Administration's (FRA) Office of Safety conducted inspections of Penn Central Transportation Co. tracks between Chicago, Illinois and Jeffersonville, Indiana, to determine compliance with the requirements of the Track Safety Standards, 49 CFR 213. (See Appendix A for specific designation of track involved.) The line in question is employed for both freight and passenger service. Preliminary analysis of FRA accident investigations suggests that track conditions contributed to accidents involving Amtrak passenger trains on April 30, 1974, at Winamac, Indiana, and June 17, 1974 at Greeenwood, Indiana.

FRA track inspectors made a field investigation of the entire 419 mile segment of main line track between Jeffersonville, Indiana, and Chicago, Illinois, by use of an FRA track geometry test car. In addition, 194 miles of the same track were visually inspected for roadbed, track structure, and other defects. During these inspections, FRA track inspectors were accompanied by appropriate representatives of the Penn Central. The combined methods of inspection revealed 1,329 track defects. Upon being advised of defects, the carrier removed some track from service and made immediate repairs. In addition, 98 miles were reduced in class in an attempt to achieve compliance with Part 213. These actions notwithstanding, certain segments of track failed to comply with the minimum standards specified in Part 213 with respect to track gage, profile, condition of ties, defective rails, ballast, and other specific defects more specifically identified in Appendix B attached hereto.

I have thoroughly reviewed and carefully considered the results of the above mentioned inspections. As a result of this review, I have determined that the segments of substandard track, more specifically identified in Appendix B hereto, are in an unsafe condition and thereby create an emergency situation involving a hazard of death or injury to persons affected by the use thereof.[1] Therefore, pursuant to the authority contained in section 203 of the Federal Railroad Safety Act of 1970 (45 U.S.C. 432) delegated to me under § 1.49(n) of the regulations of the Secretary of Transportation (49 CFR 1.49(n)), I hereby issue the following order:

1. All passenger and freight service over the track segments designated in Appendix B on the line of Penn Central Transportation Co. between Jeffersonville, Indiana, and Chciago, Illinois, more particularly described in Appendix A, shall be terminated not later than 8:00 a.m. Central Daylight time on August 2, 1974. Provided that, any Amtrak train in transit over such track at that time may continue to its final terminal.

2. Operation of all passenger and freight service (except work trains engaged in repair or restoration of the

[1] In addition to the identification of these specified segments of substandard track, the results of FRA inspections indicated violations of standards prescribed for track in other Classes. These violations will be addressed through the usual enforcement procedures of the FRA.

track) over such track segments designated in Appendix B shall be prohibited until all substandard track conditions have been corrected by the Penn Central Transportation Co.

3. Penn Central Transportation Co. shall notify the FRA of the correction of such substandard track conditions and operations of passenger and freight service shall be resumed only after inspection and approval of the FRA.

An opportunity for review of this order shall be provided in accordance with section 554 of title 5 of the United States Code.

A civil penalty of not less than $250 nor more than $2500 will be assessed for each violation of this order, and each day of such violation will constitute a separate offense (45 U.S.C. 438).

This order is issued under the authority of section 203 of the Federal Railroad Safety Act of 1970 (84 Stat. 972, 45 U.S.C. 432) and § 1.49(n) of the regulations of the Office of the Secretary of Transportation (49 CFR 1.49(n)).

Issued in Washington, D.C., on August 1, 1974.

JOHN W. INGRAM,
Administrator.

INTERSTATE COMMERCE COMMISSION

[Notice 561]

ASSIGNMENT OF HEARINGS

JULY 30, 1974.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after August 2, 1974.

MC 134401 Sub 6, Sherwood W. Hume, d.b.a. Hume Equipment Co., continued to September 3, 1974, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 128215 Sub 15, Martin Trailer Toters, Inc., now assigned September 4, 1974, at Baton Rouge, La., is cancelled and the application is dismissed.

MC 113855 Sub-281, International Transport, Inc., is continued to October 8, 1974, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC–F–12034, Umthun Trucking Company—Purchase—Dearmin Transfer, Inc., now assigned July 31, 1974, at Chicago, Ill., is cancelled and transferred to modified procedure.

MC–C–8337, Hennis Freight Lines, Inc.—Investigation and Revocation of Certificates, now assigned September 11, 1974, at Washington, D.C., is cancelled and reassigned to September 11, 1974, at Atlanta, Ga., in a hearing room to be later designated.

MC 111401 Sub-396, Groendyke Transport, Inc., and MC 111740 Sub-28, Oil Transport Company, now being assigned October 7, 1974 (1 week), at Santa Fe, New Mexico, in a hearing room to be later designated.

MC–C–8242, General Leaseways, Inc., Burk Distributing Co., Inc., Levi Distributing, Inc., Keith V. Knight, d.b.a. Knight Distributing Co., and Joseph G. Bowers—Investigation of Operations, now being assigned hearing October 16, 1974 (1 day), at Des Moines, Iowa, in a hearing room to be later designated.

MC 134599 Sub 98, Interstate Contract Carrier Corp., continued to October 8, 1974, at the Offices of the Interstate Commerce Commission, Washington, D.C.

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

Elimination of Gateway

JULY 30, 1974.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commision's Gateway Elimination Rules (49 CFR 1065(a)), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission within 10 days from August 2, 1974. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will

not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such leter-notices by number.

No. MC–17868 (Sub-No. E24), filed May 31, 1974. Applicant: H. E. BRINKERHOFF & SONS TRANSPORTATION CO., 1001 South Fourteenth Street, Harrisburg, Pa. 17104. Applicant's representative: Thomas Kingsley, 1819 H Street NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in El Paso County, Tex., on the one hand, and, on the other, points in Ohio in and east of Cuyahoga, Summit, Stark, Carroll, and Jefferson Counties, and those in West Virginia in and east of Hancock, Brooke, Marshall, Wetzel, Harrison, Barbour, Randolph, and Pochohontos Counties. The purpose of this filing is to eliminate the gateway of Harrisburg, Pa.

No. MC–26396 (Sub-No. E1), filed June 4, 1974. Applicant: PAPELKA TRUCKING CO., d.b.a. THE WAGGONERS, P.O. Box 990, Livingston, Montana 59047. Applicant's representative: Jacob P. Billing, 1126 Sixteenth St. NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, from Belgrade, Manhattan, and Trident, Mont., to points in North Dakota, South Dakota, Minnesota, and Wisconsin. The purpose of this filing is to eliminate the gateway of Clyde Park, Mont.

No. MC–26396 (Sub-No. E2), filed June 4, 1974. Applicant: PAPELKA TRUCKING CO., d.b.a. THE WAGGONERS, P.O. Box 990, Livingston, Montana 59047. Applicant's representative: Jacob P. Billig, 1126 Sixteenth Street NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, from points in those parts of Montana and Wyoming within 100 miles of Bridger, Mont., including Bridger, Mont., to points in North Dakota, South Dakota, Minnesota, and Wisconsin. The purpose of this filing is to eliminate the gateway of Clyde Park, Mont.

No. MC–35628 (Sub-No. E1), filed May 14, 1974. Applicant: INTERSTATE MOTOR FREIGHT SYSTEM, 134 Grandville Ave. SW., Grand Rapids, Mich. 49502. Applicant's representative: Chandler VanOrman, Southern Building, 15th and H Streets NW., Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Proposal 1: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring the use of special equipment) (1) between points in Arkansas (except those in Mississippi County), on the one hand, and, on the other, points in Iowa in and west of Howard, Chickasaw, Bremer, Black Hawk, Grundy, Marshall, Jasper, Marion, Lucas, and Wayne Counties; (2) between points in Arkansas, on the one hand, and, on the other, points in Iowa in and west of Worth, Cerro Gordo, Franklin, Hardin, Story, Polk, Warren, Clarke, and Decatur Counties; (3) between points in Benton, Washington, Crawford, Franklin, Scott, Polk, Howard, Sevier, Little River, and Miller Counties, Ark., on the one hand, and, on the other, points in Iowa; (4) between points in Arkansas in and west of Carroll, Madison, Pope, Yell, Perry, Pulaski, Jefferson, Cleveland, Bradley, and Union Counties, on the one hand, and, on the other, points in Iowa in and west of Allamakee, Clayton, Dubuque, Jones, Cedar, Johnson, Washington, Jefferson, and Davis Counties.

(5) Between points in Arkansas, on the one hand, and, on the other, points in Nebraska (except Omaha, Nebr.); (6) between points in Oklahoma, on the one hand, and, on the other, points in Iowa; (7) between points in Oklahoma in and east of Nowata, Rogers, Tulsa, Okmulgee, McIntosh, Pittsburg, Atoka, and Bryan Counties, on the one hand, and, on the other, points in Nebraska (except Omaha, Nebr.); (8) between points in Oklahoma on the one hand, and, on the other, points in Dakota, Thurston, Burt, Washington, Douglas, Sarpy, Cass, Otoe, Nemaha, and Richardson Counties, Nebr. (except Omaha, Nebr.); (9) between points in Oklahoma in and east of Washington, Tulsa, Creek, Okfuskee, Seminole, Pontotoc, Murray, Carter, and Love Counties, on the one hand, and, on the other, points in Nebraska in and east of Cedar, Wayne, Stanton, Colfax, Saunders, Lancaster, Johnson, and Pawnee Counties (except Omaha, Nebr.); (10) between points in Kansas in, south, and east of Brown, Jackson, Shawnee, Osage, Lyon, Chase, Butler, Harvey, Kingman, Pratt, Kiowa, Ford, Meade, Seward, Stevens, and Morton Counties, on the one hand, and, on the other, points in Iowa; (11) between points in Kansas on the one hand, and, on the other, points in Iowa in and east of Kossuth, Pocahontas, Calhoun, Carroll, Audubon, Cass, Mills, and Fremont Counties; (12) between points in Doniphan, Atchison, Leavenworth, Wyandotte, Johnson, Miami, Linn, Bourbon, Crawford, Neosho, Cherokee, and Labette Counties, Kans., on the one hand, and, on the other, points in Nebraska (except Omaha).

(13) Between points in Kansas in and east of Brown, Jackson, Shawnee, Osage, Coffey, Woodson, Wilson, and Montgomery Counties on the one hand, and, on the other, points in Nebraska in, north, and west of Dakota, Dixon, Wayne, Stanton, Madison, Boone, Greeley, Howard, Sherman, Custer, Dawson, Lincoln, and Perkins Counties; (14) between points in Chase, Dundy, Hayes, Hitchcock, Frontier, Red Willow, Gosper, Furnas, Harlan, Franklin, Webster, Nuckolls, Thayer, Jefferson, and Gage Counties, Nebr., on the one hand, and, on the other, points in Iowa in and east of Worth, Cerro Gordo, Franklin, Grundy, Tama, Poweshiek, Mahaska, Monroe, and Appanoose Counties, Nebr.; (15) between points in Illinois in and south of Adams, Schuyler, Mason, Logan, McLean, Ford, and Iroquois Counties on the one hand, and, on the other, points in Nebraska (except Omaha); (16) between points in Illinois on the one hand, and, on the other, points in Nebraska in and south of Scotts Bluff, Morrill, Garden, Keith, Lincoln, Frontier, Gosper, Harlan, Franklin, Webster, Nuckolls, Thayer, Jefferson, Gage, Pawnee, and Richardson Counties (except Omaha, Nebr.); (17) between points in Illinois in and south of Lake, Kendall, Livingston, Woodford, Peoria, Fulton, McDonough, and Hancock Counties on the one hand, and, on the other, points in Nebraska in and south of Cass, Lancaster, Seward, York, Hamilton, Hall, Buffalo, Custer, Thomas, Hooker, Grant, Garden, Dawes, and Sioux Counties; (18) between points in Illinois in and south of Vermilion, Champaign, Piatt, De Witt, Logan, Menard, Cass, Schuyler, and Adams Counties on the one hand, and, on the other, points in Iowa in and west of Osceola, O'Brien, Cherokee, Ida, Crawford, Shelby, Cass, Adams, and Taylor Counties; (19) between points in Illinois in and south of Crawford, Jasper, Effingham, Fayette, Bond, and Madison Counties, on the one hand, and, on the other, points in Iowa in and west of Emmet, Palo Alto, Pocahontas, Calhoun, Greene, Guthrie, Adair, Adams, and Taylor Counties.

(20) Between points in the Indiana portion of the Chicago, Ill., commercial zone, on the one hand, and, on the other, points in Nebraska in and south of Cass, Lancaster, Seward, York, Hamilton, Hall, Buffalo, Loup, Blaine, Thomas, Hooker, Grant, Garden, Dawes, and Sioux Counties; (21) between points in Kansas in and south of Doniphan, Brown, Jackson, Wabaunsee, Geary, Dickinson, Saline, Ellsworth, Barton, Rush, Ness, Lane, Scott, Wichita, and Greeley Counties, on the one hand, and, on the other, points in Iowa in and east of Osceola, O'Brien, Cherokee, Ida, Crawford, Shelby, Pottawattamie, Mills, and Fremont Counties; (22) between points in Arkansas in and west of Boone, Newton, Pope, Conway, Perry, Pulaski, Jefferson, Lincoln, Drew, and Ashley Counties, on the one hand, and, on the other, points in Iowa in, north, and west of Scott, Muscatine, Johnson, Iowa, Poweshiek, Mahaska, Wapello, and Appanoose Counties; and (23) between Sapulpa, Okla., on the one hand, and, on the other, Norfolk and York, Nebr. The purpose of this filing is to eliminate the gateway of St. Joseph, Mo. Proposal 2: The *commodities* described in proposal 1 above, from points in Arkansas to Topeka, Atchison, and Lawrence, Kans. The purpose of this filing is to eliminate the gateway of Kansas City, Mo. Proposal 3: The *commodities* described in proposal 1 above, between

points in the Indiana portion of the Chicago, Ill., commercial zone, on the one hand, and, on the other, points in Iowa in and south of Davis, Appanoose, Wayne, Clarke, Union, Adams, Montgomery, and Pottawatamie Counties. The purpose of this filing is to eliminate the gateway of Unionville, Mo.

Proposal 4: *Frozen foods,* (1) from points in Arkansas to points in Minnesota, South Dakota, and North Dakota, (2) from points in Oklahoma in, south and east of Ottawa, Craig, Nowata, Washington, Osage, Kay, Grant, Kingfisher, Blaine, Custer, and Beckham Counties, on the one hand, and, on the other, points in Minnesota in and east of Roseau, Beltrami, Hubbard, Wadena, Todd, Stearns, Meeker, McLeod, Sibley, Nicollet, Blue Earth, and Faribault Counties, and (3) from points in Oklahoma in, south and east of Washington, Tulsa, Creek, Lincoln, Oklahoma, Canadian, Caddo, Kiowa, and Jackson Counties, on the one hand, and, on the other, points in Minnesota in and east of Kittson, Marshall, Polk, Norman, Clay, Otter Tail, Grant, Stevens, Kandiyohi, Renville, Redwood, Brown, Watonwan, and Martin Counties. The purpose of this filing is to eliminate the gateway of Marshall, Mo.

No. MC–82841 (Sub-No. E4), filed June 1, 1974. Applicant: HUNT TRANSPORTATION, INC., 10770 Eye Street, Omaha, Nebr. 68127. Applicant's representative: Bruce A. Bullock, Suite 530, Univac Bldg., 7100 W. Center Road, Omaha, Nebr. 68106. Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Farm machinery,* (1) between points in that part of Kansas on and west of a line beginning at the Kansas-Nebraska State line, thence along U.S. Highway 75 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction Kansas Highway 63, thence along Kansas Highway 63 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction Kansas Highway 177, thence along Kansas Highway 177 to junction U.S. Highway 77, thence along U.S. Highway 77 to the Kansas-Oklahoma State line, on the one hand, and, on the other, points in that part of Iowa on and within a line beginning at the junction of Iowa Highways 175 and 37 near Turin, thence along Iowa Highway 175 to junction U.S. Highway 69, thence along along U.S. Highway 69 to junction Iowa Highway 3, thence along Iowa Highway 3 to junction U.S. Highway 218, thence along U.S. Highway 218 to junction U.S. Highway 18, thence along U.S. Highway 18 to junction Iowa Highway 150, thence along Iowa Highway 150 to junction Iowa Highway 3, thence along Iowa Highway 3 to junction U.S. Highway 52, thence along U.S. Highway 52 to the Mississippi River, thence along the Mississippi River to U.S. Highway 6, thence along U.S. Highway 6 to junction U.S. Highway 218, thence along U.S. Highway 218 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Iowa Highway 37, thence along Iowa Highway 37 to junction Iowa Highway 37, (2) between points in that part of Iowa on, south, and east of a line beginning at the Iowa-Illinois State line, thence along U.S. Highway 61 to junction Iowa Highway 92, thence along Iowa Highway 92 to junction U.S. Highway 63, thence along U.S. Highway 63 to the Iowa-Missouri State line, on the one hand, and, on the other, points in that part of Wyoming on, south, and west of a line beginning at the Wyoming-Idaho State line, thence along Wyoming Highway 22 to junction U.S. Highway 187, thence along U.S. Highway 187 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 26, thence along U.S. Highway 26 to junction Wyoming Highway 789, thence along Wyoming Highway 789 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 80, thence along U.S. Highway 80 to junction Wyoming Highway 130, thence along Wyoming Highway 130 to junction Wyoming Highway 230, thence along Wyoming Highway 230 to the Wyoming-Colorado State line, and (3) between points in Colorado, on the one hand, and, on the other, points in Iowa. The purpose of this filing is to eliminate the gateways of Valley, Nebr., Nickerson, Nebr. and points in Nebraska within 25 miles thereof, for points in (1) and (3) above, and Valley, Nebr., Nickerson, Nebr., and points in Nebraska within 25 miles thereof, and Lincoln County, Colo., for points in (2) above.

No. MC–82841 (Sub-No. E2), filed June 1, 1974. Applicant: HUNT TRANSPORTATION, INC., 10770 Eye Street, Omaha, Nebr. 68127. Applicant's representative: Bruce A. Bullock, Suite 530, Univac Bldg., 7100 W. Center Road, Omaha, Nebr. 68106. Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Farm machinery,* (1) from Ottuma and Burlington, Iowa, to points in that part of New Mexico on and west of a line beginning at the Colorado-New Mexico State line, thence along U.S. Highway 85 to junction U.S. Highway 70, thence along U.S. Highway 70 to junction U.S. Highway 54, thence along U.S. Highway 54 to the New Mexico-Texas State line, (2) from Charles City, Iowa, to points in that part of Wyoming on, south, and west of a line beginning at the Idaho-Wyoming State line, thence along U.S. Highway 30N to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 80, thence along U.S. Highway 80 to junction U.S. Highway 287, thence along U.S. Highway 287 to the Wyoming-Colorado State line, and (3) between points in that part of Kansas on and west of a line beginning at the Kansas-Nebraska State line, thence along U.S. Highway 73 to junction U.S. Highway 36, thence along U.S. Higway 36 to junction Kansas Highway 63, thence along Kansas Highway 63 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction Kansas Highway 99, thence along Kansas Highway 99 to the Oklahoma-Kansas State line, on the one hand, and, on the other, points in that part of Iowa on and north of a line beginning at the Iowa-Illinois State line, thence along U.S. Highway 52 to junction U.S. Highway 18, thence along U.S. Highway 18 to junction U.S. Highway 69, thence along U.S. Highway 69 to the Iowa-Minnesota State line. The purpose of this filing is to eliminate the gateways of Valley, Nebr., Nickerson, Nebr., and points in Nebraska within 25 miles thereof, and Lincoln County, Colo., for points in (1) and (2) above, and Valley, Nebr., and Nickerson, Nebr., and points within 25 miles thereof, for points in (3) above.

No. MC–82841 (Sub-No. E8), filed June 1, 1974. Applicant: HUNT TRANSPORTATION, INC., 10770 Eye Street, Omaha, Nebr. 68127. Applicant's representative: Bruce A. Bullock, Suite 530, 7100 W. Center Road, Omaha, Nebr. 68106. Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Lumber,* (1) between points in Arizona, on the one hand, and, on the other, points in Wyoming, and (2) from points in California, to points in Colorado and Wyoming. The purpose of this filing is to eliminate the gateway of points in Utah.

No. MC–82841 (Sub-No. E9), filed June 1, 1974. Applicant: HUNT TRANSPORTATION, INC., 10770 Eye Street, Omaha, Nebr. 68127. Applicant's representative: Bruce A. Bullock, Suite 530, 7100 W. Center Road, Omaha, Nebr. 68106. Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Lumber,* from points in Utah, to points in South Dakota, Missouri, and Minnesota. The purpose of this filing is to eliminate the gateway of points in Colorado or Wyoming.

No. MC–82841 (Sub-No. E10), filed June 1, 1974. Applicant: HUNT TRANSPORTATION, INC., 10770 Eye Street, Omaha, Nebr. 68127. Applicant's representative: Bruce A. Bullock, Suite 530, 7100 W. Center Road, Omaha, Nebr. 68106. Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Lumber,* from points in Utah, to points in Illinois, Michigan, and Ohio. The purpose of this filing is to eliminate the gateway of points in Colorado or Wyoming.

No. MC–82841 (Sub-No. E11), filed June 1, 1974. Applicant: HUNT TRANSPORTATION, INC., 10770 Eye Street, Omaha, Nebr. 68127. Applicant's representative: Bruce A. Bullock, Suite 530, 7100 W. Center Road, Omaha, Nebr. 68106. Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Lumber,* (1) from points in California, to points in Illinois and Michigan, and (2) from points in Arizona to points in Michigan. The purpose of this filing is to eliminate the gateways of Utah and Colorado or Utah and Wyoming for points in (1) above, and Utah and Colorado for points in (2) above.

No. MC–82841 (Sub-No. E12), filed June 1, 1974. Applicant: HUNT TRANSPORTATION, INC., 10770 Eye Street, Omaha, Nebr. 68127. Applicant's representative: Bruce A. Bullock, Suite 530, 7100 W. Center Road, Omaha, Nebr. 68106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, (1) from points in Arizona, to points in Ohio, (2) from points in that part of Arizona on, west, and north of a line beginning at the United States-Mexico boundary line, thence along Arizona Highway 85 to junction U.S. Highway 8, thence along U.S. Highway 8 to junction Arizona Highway 84, thence along Arizona Highway 84 to junction Arizona Highway 287, thence along Arizona Highway 287 to junction U.S. Highway 80/89, thence along U.S. Highway 80/89 to junction U.S. Highway 60, thence along U.S. Highway 60 to junction Arizona Highway 173, thence along Arizona Highway 173 to junction Arizona Highway 73, thence along Arizona Highway 73 to junction Arizona Highway 273, thence along Arizona Highway 273 to junction U.S. Highway 60, thence along U.S. Highway 60 to the Arizona-New Mexico State line, to points in Missouri and Illinois. The purpose of this filing is to eliminate the gateways of points in Utah and Colorado.

No. MC–82841 (Sub-No. E13), filed June 1, 1974. Applicant: HUNT TRANSPORTATION, INC., 10770 Eye Street, Omaha, Nebr. 68127. Applicant's representative: Bruce A. Bullock, Suite 530, 7100 W. Center Road, Omaha, Nebr. 68106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, (1) from points in Arizona, to points in South Dakota, and (2) from points in California to points in Wisconsin and Ohio. The purpose of this filing is to eliminate the gateways of points in Utah and Colorado for points in (1) above, and points in Utah and Wyoming for points in (2) above.

No. MC–95540 (Sub-No. E233), filed April 28, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Rd. NE., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned goods*, from points in Maryland, Delaware, and Virginia, east of the Chesapeake Bay and south of the Chesapeake and Delaware Canal, to points in Texas. The purpose of this filing is to eliminate the gateway of points in Pike or Spalding Counties, Ga.

No. MC–95540 (Sub-No. E234), filed April 28, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Rd. NE., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned goods*, from points in New Jersey on and south of U.S. Highway 30, to points in Texas. The purpose of this filing is to eliminate the gateway of points in Pike or Spalding Counties, Ga.

No. MC–95540 (Sub-No. E235), filed April 28, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Rd. NE., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned goods*, from points in New Jersey on and south of U.S. Highway 30, to points in Arkansas on, west, and south of a line beginning at the Arkansas-Missouri State line, and extending along Arkansas Highway 115 to Pocahontas, thence along U.S. Highway 67 to Hoxie, thence along U.S. Highway 63 to its junction with U.S. Highway 61, thence along U.S. Highway 61 to the Mississippi River. The purpose of this filing is to eliminate the gateway of points in Pike or Spaulding Counties, Ga.

No. MC–95540 (Sub-No. E236), filed April 28, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Rd. NE., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Food products*, from Buffalo, N.Y., to points in Texas on and south of a line beginning at the Texas-New Mexico State line, and extending east along Texas Highway 125 to its junction with Texas Highway 116, thence along Texas Highway 116 to Lubbock, thence along U.S. Highway 82 to Seymour, thence along Texas Highway 199 to its junction with U.S. Highway 380, thence along U.S. Highway 380 to its junction with Interstate Highway 30, thence along Interstate Highway 30 to its junction with Texas Highway 49, thence along Texas Highway 49 to its junction with Texas Highway 11, thence along Texas Highway 11 to its junction with Texas Secondary Highway 125, thence along Texas Secondary Highway 125 to the Texas-Louisiana State line. The purpose of this filing is to eliminate the gateway of Doraville, Ga.

No. MC–95540 (Sub-No. E237), filed April 28, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Rd. NE., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from Gainesville, Ga., to points in Colorado. The purpose of this filing is to eliminate the gateway of Tifton, Ga.

No. MC–95540 (Sub-No. E239), filed April 28, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Rd. NE., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Food products*, other than frozen, in vehicles equipped with mechanical refrigeration, from Buffalo, N.Y., to points in Arkansas on, south, and east of a line beginning at the Mississippi River and extending along U.S. Highway 82 to El Dorado, thence on Arkansas Highway 15 to the Arkansas-Louisiana State line. The purpose of this filing is to eliminate the gateway of Doraville, Ga.

No. MC–95540 (Sub-No. E240), filed April 28, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Rd. NE., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes transporting: *Meats, meat products, and meat byproducts*, as described in Section A of Appendix to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles), from points in California on and south of the line beginning at San Francisco and extending east along Interstate Highway 80 to Oakland, thence along Interstate Highway 580 to Monteca, thence along California Highway 120 to Benton Station, thence along U.S. Highway 6 to the California-Nevada State line, to points in Pennsylvania on and east of a line beginning at the Pennsylvania-Maryland State line and extending along Pennsylvania Highway 15 to Harrisburg, thence along Interstate Highway 81 to the Pennsylvania-New York State line. The purpose of this filing is to eliminate the gateway of Tifton, Ga.

No. MC–95540 (Sub-No. E436), filed May 9, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Rd. NE., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods* (except in bulk, in tank vehicles), from Buffalo, N.Y., to points in California. The purpose of this filing is to eliminate the gateway of points in Tennessee (except Memphis, Tenn., and points in the commercial zone thereof).

No. MC–95540 (Sub-No. E496), filed May 17, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, 5299 Roswell Rd. NE., Suite 212, Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber* (except plywood), from Marietta, Ohio, to points in Georgia on and west of a line beginning at the Georgia-North Carolina State line, and extending along Georgia Highway 17 to its junction with U.S. Highway 1/221, thence along U.S. Highway 1/221 to Swainsboro, thence along

U.S. Highway 1 to its junction with Georgia Highway 57, thence along Georgia Highway 57 to its junction with Georgia Highway 23, thence along Georgia Highway 23 to its junction with U.S. Highway 25/341 to Brunswick, thence along Georgia Highway 50 to the Atlantic Ocean. The purpose of this filing is to eliminate the gateway of Knoxville, Tenn.

No. MC–95540 (Sub-No. E502), filed May 17, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, 5299 Roswell Rd. NE., Suite 212, Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bananas*, from points in Virginia on and east of a line beginning at the Virginia-North Carolina State line, and extending along Interstate Highway 85 to its junction with Interstate Highway 95, thence along Interstate Highway 95 to its junction with Interstate Highway 64, thence east along Interstate Highway 64, to its junction with Virginia Highway 33, thence along Virginia Highway 33 to the Chesapeake Bay, thence along the Chesapeake Bay to the Atlantic Ocean, to points in Arizona on and south of a line beginning at the Arizona-California State line, and extending east along U.S. Highway 66 to Holbrook, thence along U.S. Highway 180 to St. Johns, thence along U.S. Highway 180/666 to Springerville, thence along U.S. Highway 60 to the Arizona-New Mexico State line. The purpose of this filing is to eliminate the gateways of Jacksonville, Fla., and Gulfport, Miss.

No. MC–96324 (Sub-No. E1), filed May 16, 1974. Applicant: GENERAL DELIVERY, INC., P.O. Box 1816, Fairmont, W. Va. Applicant's representative: Harold G. Hernly, Jr., 118 North St. Asaph Street, Alexandria, Va. 22314. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glassware*, between points in Ohio, on the one hand, and, on the other, points in Maryland (except that no service is authorized between points in that part of Ohio north of U.S. Highway 30, and east of U.S. Highway 250, on the one hand, and, on the other, points in Garrett and Allegany Counties, Md.). The purpose of this filing is to eliminate the gateway of the plant site of Continental Can Company at Clarksburg, W. Va.

No. MC–96324 (Sub-No. E2), filed May 16, 1974. Applicant: GENERAL DELIVERY, INC., P.O. Box 1816, Fairmont, W. Va. Applicant's representative: Harold G. Hernly, Jr., 118 North St. Asaph Street, Alexandria, Va. 22314. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glassware*, (1) between points in Ohio, on the one hand, and, on the other, points in that part of Pennsylvania east of U.S. Highway 15 and south of U.S. Highway 22, and (2) between points in that part of Ohio south of U.S. Highway 30 and east of U.S. 23, on the one hand, and, on the other, points in that part of Pennsylvania east of U.S. Highway 19. The purpose of this filing is to eliminate the gateway of the plant site of Continental Can Company at Clarksburg, W. Va.

No. MC–96324 (Sub-No. E3), filed May 16, 1974. Applicant: GENERAL DELIVERY, INC., P.O. Box 1816, Fairmont, W. Va. Applicant's representative: Harold G. Hernly, Jr., 118 North St. Asaph Street, Alexandria, Va. 22314. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) *Glassware*, from points in Ohio to points in New Jersey (the plant site of Continental Can Company at Clarksburg, W. Va.)*; and (B) *Glass containers, fibreboard boxes, and wooden bottle carriers*, from points in Ohio to points in New Jersey (points in Harrison County, W. Va., and Fairmont, W. Va.)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC–96324 (Sub-No. E4), filed May 16, 1974. Applicant: GENERAL DELIVERY, INC., P.O. Box 1816, Fairmont, W. Va. Applicant's representative: Harold G. Hernly, Jr., 118 North St. Asaph Street, Alexandria, Va. 22314. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glassware*, between points in Ohio, on the one hand, and, on the other, points in Virginia. The purpose of this filing is to eliminate the gateway of the plant site of Continental Can Company at Clarksburg, W. Va.

No. MC–96324 (Sub-No. E5), filed May 16, 1974. Applicant: GENERAL DELIVERY INCORPORATED, P.O. Box 1816, Fairmont, W. Va. Applicant's representative: Harold G. Hernly, Jr., 118 North St. Asaph Street, Alexandria, Va. 22314. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) *Glassware*, from points in Kentucky to points in New Jersey and points in New York (the plant site of Continental Can Company at Clacksburg, Va.)*; and (B) *glass containers, fibreboard boxes, and wooden bottle carriers*, from points in Kentucky to points in New Jersey and New York (points in Harrison County, W. Va., and Fairmont, W. Va.)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC–96324 (Sub-No. E8), filed May 5, 1974. Applicant: GENERAL DELIVERY INCORPORATED, P.O. Box 1816, Fairmont, W. Va. Applicant's representative: Harold G. Hernly, Jr., 118 North St. Asaph Street, Alexandria, Va. 22314. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glassware*, (1) from points in that part of Ohio south of U.S. Highway 30 to points in that part of New York east of New York Highway 98, and (2) from points in that part of Ohio on and north of U.S. Highway 30 to points in that part of New York east and south of New York Highway 7. The purpose of this filing is to eliminate the gateway of the plant site of Continental Can Company, at Clarksburg, W. Va.

No. MC–96324 (Sub-No. E9), filed May 16, 1974. Applicant: GENERAL DELIVERY INCORPORATED, P.O. Box 1816, Fairmont, W. Va. Applicant's representative: Harold G. Hernly, Jr., 118 North St. Asaph Street, Alexandria, Va. 22314. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Malt beverages and advertising material*, from Newark, N.J., to points in that part of West Virginia south of U.S. Highway 50, and *empty malt beverage containers*, from points in West Virginia south of U.S. Highway 50 to Newark, N.J. The purpose of this filing is to eliminate the gateway of points in that part of West Virginia on and north of U.S. Highway 50.

No. MC–96324 (Sub-No. E10), filed May 16, 1974. Applicant: GENERAL DELIVERY INCORPORATED, P.O. Box 1816, Fairmont, W. Va. Applicant's representative: Harold G. Hernly, Jr., 118 North St. Asaph Street, Alexandria, Va. 22314. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glass containers*, and *machinery* and *crating materials* used in the manufacture and shipping thereof, between points in Kentucky, on the one hand, and, on the other, points in Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont. The purpose of this filing is to eliminate the gateways of points in Harrison County, W. Va., and Fairmont, W. Va.

No. MC–96324 (Sub-No. E13), filed May 16, 1974. Applicant: GENERAL DELIVERY INCORPORATED, P.O. Box 1816, Fairmont, W. Va. Applicant's representative: Harold G. Hernly, Jr., 118 North St. Asaph Street, Alexandria, Va. 22314. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glass containers, fiberboard boxes*, and *wooden bottle carriers*, from points in Fayette and Greene Counties, Pa., to points in New Jersey. The purpose of this filing is to eliminate the gateways of points in Monongalia County, W. Va., and Fairmont, W. Va.

No. MC–96324 (Sub-No. E15), filed May 16, 1974. Applicant: GENERAL DELIVERY INCORPORATED, P.O. Box 1816, Fairmont, W. Va. Applicant's representative: Harold G. Hernly, Jr., 118 North St. Asaph Street, Alexandria, Va. 22314. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glass containers*, and *machinery and crating materials* used in the manufacture and shipping thereof, between points in Greene, Fayette, and Washington Counties, Pa., on the one hand, and, on the other, points in Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont. The purpose of this filing is to eliminate the gateways of

points in Harrison County, W. Va., and Fairmont, W. Va.

No. MC–86324 (Sub-No. E16), filed May 16, 1974. Applicant: GENERAL DELIVERY INCORPORATED, P.O. Box 1816, Fairmont, W. Va. Applicant's representative: Harold G. Hernly, Jr., 118 North St. Asaph Street, Alexandria, Va. 22314. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Molds and machinery parts* used in the manufacture of glass containers (except commodities requiring special equipment), from Bridgeton, N.J., to points in West Virginia. The purpose of this filing is to eliminate the gateway of Fairmont, W. Va.

No. MC–96324 (Sub-No. E19), filed May 16, 1974. Applicant: GENERAL DELIVERY INCORPORATED, P.O. Box 1816, Fairmont, W. Va. Applicant's representative: Harold G. Hernly, Jr., 118 North St. Asaph Street, Alexandria, Va. 22314. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glass containers*, and *closures* therefor, and *fibreboard boxes and accessories* therefor when moving incidentally to a shipment of glass containers, from points in that part of West Virginia on and north of U.S. Highway 33, and on and east of U.S. Highway 19, to Terre Haute, Ind., and Pekin and Joliet, Ill.; and *molds and machinery parts* used in the manufacture of glass containers (except commodities requiring special equipment), between points in that part of West Virginia on and north of U.S. Highway 33, and on and east of U.S. Highway 19, on the one hand, and, on the other, Joliet, Ill. The purpose of this filing is to eliminate the gateway of Star City, W. Va.

No. MC–96324 (Sub-No. E20), filed May 16, 1974. Applicant: GENERAL DELIVERY, INC., P.O. Box 1816, Fairmont, W. Va. Applicant's representative: Harold G. Hernly, Jr., 118 N. St. Asaph St., Alexandria, Va. 22314. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glass containers, fibreboard boxes, and wooden bottle carriers*, from points in West Virginia to points in New Jersey; and *materials and supplies* used in the manufacture and distribution of glass containers (except commodities in bulk), from points in New Jersey, to points in West Virginia. The purpose of this filing is to eliminate the gateway of Fairmont, W. Va.

No. MC–96324 (Sub-No. E21), filed May 16, 1974. Applicant: GENERAL DELIVERY INCORPORATED, P.O. Box 1816, Fairmont, W. Va. Applicant's representative Harold G. Hernly, Jr., 118 N. St. Asaph St., Alexandria, Va. 22314. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) *Glass containers, fibreboard boxes, and wooden bottle carriers*, from points in West Virginia to points in New York, and (B) *Materials and supplies* used in the manufacture and distribution of glass containers (except commodities in bulk), from points in New York to points in West Virginia (except that no service is authorized in (A) and (B) above between points in that part of New York west of New York Highway 21, on the one hand, and, on the other, points in that part of West Virginia north of a line beginning at the Pennsylvania-West Virginia State line near Blacksville, W. Va., thence along West Virginia Highway 7 to the West Virginia-Ohio State line). The purpose of this filing is to eliminate the gateway of Fairmont, W. Va.

No. MC–96324 (Sub-No. E22), filed May 16, 1974. Applicant: GENERAL DELIVERY INC., P.O. Box 1816, Fairmont, W. Va. Applicant's representative: Harold G. Hernly, Jr., 118 North St. Asaph St., Alexandria, Va. 22314. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glass containers, and machinery and crating materials*, used in the manufacture and shipping thereof, between points in West Virginia, on the one hand, and, on the other, points in Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont. The purpose of this filing is to eliminate the gateway of Fairmont, W. Va.

No. MC–96324 (Sub-No. E24), filed May 16, 1974. Applicant: GENERAL DELIVERY INC., P.O. Box 1816, Fairmont, W. Va. Applicant's representative: Harold G. Hernly, Jr., 118 North St. Asaph St., Alexandria, Va. 22314. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glassware*, from points in West Virginia to points in New York (except that no service is authorized from points in that part of West Virginia north of a line beginning at the Pennsylvania-West Virginia State line near Blacksville, W. Va., thence along West Virginia Highway 7 to the West Virginia-Ohio State line, to points in that part of New York west of New York Highway 21). The purpose of this filing is to eliminate the gateway of the plant site of Continental Car Company at Clarksburg, W. Va.

No. MC–96324 (Sub-No. E25), filed May 16, 1974. Applicant: GENERAL DELIVERY INC., P.O. Box 1816, Fairmont, W. Va. Applicant's representative: Harold G. Hernly, Jr., 118 North St. Asaph St., Alexandria, Va. 22314. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, materials, supplies, and equipment*, incidental to, or used in, construction, development, operation, and maintenance of facilities for the discovery, development, and production of natural gas and petroleum, including pipeline development; and *machinery, highway and building construction materials, glassware, pottery ware, and crating materials*, between points in that part of West Virginia on and west of U.S. Highway 220, and on and north of U.S. Highway 60, on the one hand, and, on the other, points in Maryland. The purpose of this filing is to eliminate the gateway of points in Harrison County, W. Va.

No. MC–107403 (Sub-No. E111), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum wax*, in bulk, in tank vehicles, from points in New Jersey to points in Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, South Carolina, West Virginia, and Tennessee. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC–107403 (Sub-No. E112), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid wax*, in bulk, in tank vehicles, from points in New Jersey, to points in Iowa and Missouri. The purpose of this filing is to eliminate the gateway of Cleveland, Ohio.

No. MC–107403 (Sub-No. E113), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vegetable Oils*, in bulk, in tank vehicles, from points in New Jersey to points in Alabama, Florida, Georgia, North Carolina, South Carolina, and Tennessee. The purpose of this filing is to eliminate the gateway of Newark, N.J.

No. MC–107403 (Sub-No. E114), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fish oils, animal oils, and vegetable oils, and blends thereof*, in bulk, in tank vehicles, from points in New Jersey north of New Jersey Highway 33, to points in Virginia. The purpose of this filing is to eliminate the gateway of Newark, N.J.

No. MC–107403 (Sub-No. E115), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fish oil, sea animal oil, and vegetable oil*, in bulk, in tank vehicles, restricted to transportation only of mixed loads thereof or when transported in mixed loads with chemicals otherwise authorized, from points in New Jersey, to points in Illinois, Indiana,

Iowa, Kansas, Kentucky, Michigan, Minnesota, Missouri, Wisconsin, and Ohio. The purpose of this filing is to eliminate the gateway of Newark, N.J.

No. MC–107403 (Sub-No. E117), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Non-flammable liquids*, in bulk, in tank trucks (except petroleum and petroleum products other than medicinal petroleum products, and liquid wax, and not including wine, cider, vinegar, milk, road oil, coal tar, and coal tar products), from points in New Jersey to points in Maine, Massachusetts, New Hampshire, and Vermont. The purpose of this filing is to eliminate the gateway of Newark, N.J.

No. MC–107403 (Sub-No. E118), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry chemicals*, in bulk, in tank vehicles, from points in Lenawee, Monroe, Hillsdale, Jackson, Washtenaw, and Wayne Counties, Mich., to points in Illinois and Wisconsin. The purpose of this filing is to eliminate the gateway of the plant site of the B. F. Goodrich Company, in Milan Township (Allen County), Ind. (approximately 13 miles east of Fort Wayne, Ind.).

No. MC–107403 (Sub-No. E119), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry calcium chloride*, in bulk, in tank vehicles, from St. Louis, Mich., to points in New Jersey and Maryland. The purpose of this filing is to eliminate the gateway of Warren, Ohio, and Lewistown, Pa.

No. MC–107403 (Sub-No. E120), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from Muskegon, Mich., and points within five miles thereof to points in West Virginia within 150 miles of Monongahela, Pa. The purpose of this filing is to eliminate the gateway of Zanesville, Ohio.

No. MC–107403 (Sub-No. E121), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from Muskegon, Mich., to points in Maine, Massachusetts, and New Hampshire. The purpose of this filing is to eliminate the gateways of Zanesville, Ohio, Natrium, W. Va., and Newark, N.J.

No. MC–107403 (Sub-No. E123), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Non-flammable liquid chemicals* (except petroleum and petroleum products other than medicinal petroleum products and liquid wax, and not including road oil, coal tar, and coal tar products), from Muskegon, Mich., to points in Rhode Island and Connecticut. The purpose of this filing is to eliminate the gateways of Zanesville, Ohio, Natrium, W. Va., and Newark, N.J.

No. MC–107403 (Sub-No. E124), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from Muskegon, Mich., to points in Pennsylvania, Delaware, New Jersey, and Maryland. The purpose of this filing is to eliminate the gateways of Zanesville, Ohio, and Natrium, W. Va.

No. MC–107403 (Sub-No. E125), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from Muskegon, Mich., to points in Minnesota, Missouri, Iowa, and Nebraska. The purpose of this filing is to eliminate the gateway of the plant sites of Baird Chemicals Industries, Inc., located at or near Mapleton, Ill.

No. MC–107403 (Sub-No. E126), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, as described in the *Maxwell Co., Extension—Addyston*, 63 M.C.C. 677, in bulk, in tank vehicles, from Muskegon, Mich., to points in North Carolina, South Carolina, Virginia, and Georgia. The purpose of this filing is to eliminate the gateways of Zanesville, Ohio, and the plant site of the Stauffer Chemical Corporation plant near Point Pleasant, Mason County, W. Va.

No. MC–107403 (Sub-No. E127), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Phosphatic fertilizer solutions* (except phosphoric acid), in bulk, in tank vehicles, from the plant site of Monsanto Chemical Company, in Trenton, Mich., to points in Pennsylvania, Delaware, Maryland, and New York. The purpose of this filing is to eliminate the gateways of Zanesville, Ohio, and Pittsburgh, Pa.

No. MC–107403 (Sub-No. E146), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry chemicals* (except calcium chloride), in bulk, in tank vehicles, from points in Michigan, to points in Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont. The purpose of this filing is to eliminate the gateways of Solvay, N.Y., and Painesville, Ohio.

No. MC–107403 (Sub-No. E147), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry chemicals*, in bulk, from points in Michigan, to points in Pennsylvania and West Virginia. The purpose of this filing is to eliminate the gateways of Zanesville, Ohio, and Riverview, Ohio.

No. MC–107403 (Sub-No. E148), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry chemicals*, in bulk, in tank vehicles, from points in Michigan to points in New Jersey and Maryland. The purpose of this filing is to eliminate the gateways of Wooster, Ohio, and Lewistown, Pa.

No. MC–107403 (Sub-No. E149), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry chemicals, in* bulk, in tank or hopper type vehicles, from points in Michigan, to points in North Carolina and South Carolina. The purpose of this filing is to eliminate the gateways of Pataskala and Cincinnati, Ohio.

No. MC–107403 (Sub-No. E151), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry chemicals*, in bulk, in tank vehicles, from points in Michigan to points in Virginia.

The purpose of this filing is to eliminate the gateways of Pataskala and South Point, Ohio.

No. MC–107403 (Sub-No. E152), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry chemicals*, in bulk, in tank vehicles, from points in Lenawee, Monroe, Hillsdale, Jackson, Washtenaw, and Wayne Counties, Mich., those in Lucas, Wood, Fulton, Ottawa, Sandusky, Erie, Henry, Williams, and Defiance Counties, Ohio, and those in Steuben, DeKalb, and Allen Counties, Ind., to points in Maryland, New Jersey, and those in New York east of U.S. Highway 11. The purpose of this filing is to eliminate the gateways of Birmingham, Ohio, and Lewistown, Pa.

No. MC–107403 (Sub-No. E153), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry chemicals* (except soda ash), in bulk, in tank vehicles, from the plant site of the Monsanto Chemical Company in Trenton, Mich., to points in West Virginia. The purpose of this filing is to eliminate the gateway of Mt. Vernon and Riverview, Ohio.

No. MC–107403 (Sub-No. E154), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry chemicals* (except soda ash), in bulk, in tank vehicles, from the plant site of the Monsanto Chemical Company in Trenton, Mich., to points in Maine, New Hampshire, and Vermont. The purpose of this filing is to eliminate the gateways of Elyria, and Painesville, Ohio, and Solvay, N.Y.

No. MC–107403 (Sub-No. E155), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry chemicals* (except soda ash), in bulk, in tank vehicles, from the plant site of the Monsanto Chemical Company in Trenton, Mich., to points in North Carolina and South Carolina. The purpose of this filing is to eliminate the gateway of Cincinnati, Ohio.

No. MC–107403 (Sub-No. E156), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry chemicals*, in bulk, in tank vehicles, from points in Michigan to points in Kentucky. The purpose of this filing is to eliminate the gateways of Pataskala and Condit, Ohio.

No. MC–107403 (Sub-No. E157), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, as described in Appendix XIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, in bulk, in tank vehicles, from Claymont, Del., to points in Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, and New York. The purpose of this filing is to eliminate the gateway of Delaware City, Del.

No. MC–107403 (Sub-No. E158), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry plastics*, synthetics, in bulk, in tank vehicles, from Claymont, Del., to points in Alabama, Connecticut, Florida, Georgia, Missouri, North Carolina, Virginia, and Tennessee. The purpose of this filing is to eliminate the gateways of Camden, N.J., Pottstown, Pa., and Delaware City, Del.

No. MC–107403 (Sub-No. E159), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry resins and dry plastics*, in bulk, in tank and hopper-type vehicles (except in dump vehicles), from Claymont, Del., to points in Maine, New Hampshire, New York, and Missouri. The purpose of this filing is to eliminate the gateways of Camden, N.J., and Pottstown, Pa.

No. MC–107403 (Sub-No. E160), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Non-flammable liquids* (except petroleum and petroleum products other than medicinal petroleum products and liquid wax, and except wine, cider, vinegar, milk, road oil, coal tar, and coal tar products), in bulk, in tank vehicles, from points in Delaware to points in New York. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC–107403 (Sub-No. E161), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals and solvents* (except petroleum products and coal tar products), in bulk, from points in Delaware, to points in Wisconsin. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa., Natrium, W. Va., and the plant site of the B. F. Goodrich Company, in Milan Township (Allen County), Ind. (approximately 13 miles east of Fort Wayne, Ind.).

No. MC–107403 (Sub-No. E162), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except petroleum products and coal tar products), in bulk, from points in Delaware, to points in Alabama, Georgia, Mississippi, South Carolina, West Virginia, and Tennessee. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC–107403 (Sub-No. E163), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as *a common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except petroleum products and coal tar products), in bulk, from points in Delaware, to points in Kentucky. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC–107403 (Sub-No. E164), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as *a common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except petroleum, petroleum products, coal tar, and coal tar products), in bulk, from points in Delaware to points in Nebraska and Minnesota. The purpose of this filing is to eliminate the gateways of Philadelphia, Pa., Natrium, W. Va., and the plant site of the Baird Chemicals Industries, Inc., located at or near Mapleton, Ill.

No. MC–107403 (Sub-No. E165), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as *a common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except petroleum products and coal tar products), in bulk, from points in Delaware, to points in Illinois, Indiana, Iowa, Michigan, Missouri, and Ohio. The purpose of this filing is to eliminate the gateways of Philadelphia, Pa., and Natrium, W. Va.

No. MC–107403 (Sub-No. E166), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as *a common carrier*, by motor vehicle, over irregular routes, transporting: *Non-flammable liquids* (except petroleum and petroleum products other than medicinal petroleum products and liquid wax, and not including wine, cider, vinegar, milk, road oil, coal tar, and coal tar products), in bulk, in tank vehicles, from points in Delaware to points in Maine, Massachusetts, New Hampshire, and Vermont. The purpose of this filing is to eliminate the gateways of Philadelphia, Pa., and Newark, N.J.

No. MC–107403 (Sub-No. E167), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Non-flammable liquids* (except petroleum, and petroleum products other than medicinal petroleum products and liquid wax and not including wine, cider, vinegar, milk, road oil, coal tar, and coal tar products), from points in Delaware, to points in Rhode Island and Connecticut. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC–107403 (Sub-No. E168), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Non-flammable liquid chemicals*, in bulk, from points in Delaware to points in Pennsylvania. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC–107403 (Sub-No. E209), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry chemicals* (except such oils and greases as may be included in the term chemicals), in bulk, in tank or hopper type vehicles, from points in Niagara Falls, N.Y., to points in Wisconsin and Illinois. The purpose of this filing is to eliminate the gateway of Ashtabula, Ohio, and the plant site of the B. F. Goodrich Company, in Milan Township (Allen County), Ind. (approximately 13 miles east of Fort Wayne, Ind.).

No. MC–107403 (Sub-No. E210), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry chemicals*, in bulk, in tank or hopper type vehicles, from Niagara Falls, N.Y., to points in West Virginia. The purpose of this filing is to eliminate the gateway of Pittsburgh, Pa.

No. MC–107403 (Sub-No. E211), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry chemicals* (except calcium chloride), in bulk, in tank or hopper type vehicles, from Solvay, N.Y., to points in Maryland. The purpose of this filing is to eliminate the gateway of Lewistown, Pa.

No. MC–107403 (Sub-No. E212), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes transporting: *Dry chemicals* (except calcium chloride), in bulk, in tank or hopper type vehicles, from Solvay, N.Y., to points in Illinois and Wisconsin. The purpose of this filing is to eliminate the gateways of Niagara Falls, N.Y., Ashtabula, Ohio, and the plantsite of the B. F. Goodrich Co., in Milan Township (Allen County), Ind. (approximately 13 miles east of Fort Wayne, Ind.).

No. MC–107403 (Sub-No. E213), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry chemicals* (except calcium chloride), in bulk, in tank or hopper type vehicles, from Solvay, N.Y., to points in West Virginia and Ohio. The purpose of this filing is to eliminate the gateway of Pittsburgh, Pa.

No. MC–107403 (Sub-No. E214), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry chemicals* (except calcium chloride), in bulk, in tank or hopper type vehicles, from Solvay, N.Y., to points in Indiana, Michigan, and Kentucky. The purpose of this filing is to eliminate the gateways of Niagara Falls, N.Y., and Ashtabula, Ohio.

No. MC–107403 (Sub-No. E215), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry chemicals* (except calcium chloride), in bulk, in tank or hopper type vehicles, from Solvay, N.Y., to points in Ohio. The purpose of this filing is to eliminate the gateway of Niagara Falls, N.Y.

No. MC–107403 (Sub-No. E216), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry plastics*, synthetic, in bulk, in tank or hopper type vehicles, from Solvay, N.Y., to points in North Carolina, Virginia, and South Carolina. The purpose of this filing is to eliminate the gateway of Delaware City, Del.

No. MC–107403 (Sub-No. E217), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry plastics*, in bulk, in tank or hopper type vehicles, from Solvay, N.Y., to points in Arkansas, Iowa, Kansas, Missouri, Nebraska, and Oklahoma. The purpose of this filing is to eliminate the gateways of Niagara Falls, N.Y., and Circleville, Ohio.

No. MC–107403 (Sub-No. E218), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except petroleum, petroleum products, coal tar, and coal tar products), from points in New York, to points in Maryland, Virginia, North Carolina, South Carolina, Tennessee, Georgia, Mississippi, Alabama, and West Virginia. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC–107403 (Sub-No. E219), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle over irregular routes, transporting: *Dry silicate of soda*, in bulk, in tank vehicles, from Skaneateles Falls, N.Y., to points in Illinois and Wisconsin. The purpose of this filing is to eliminate the gateways of Euclid and Elyria, Ohio, and the plant site of the B. F. Goodrich Company, in Milan Township (Allen County), Ind. (approximately 13 miles east of Fort Wayne, Ind.).

No. MC–107403 (Sub-No. E220), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry silicate of soda*, in bulk, in tank vehicles, from Skaneateles Falls, N.Y., to points in Ohio (except Williams, Ashtabula, Trumbull, Mahoning, Richland, Knox, Defiance, Paulding, Van Wert, Fulton, Columbiana, Lorain, Ashland, Holmes, Coshocton,

Henry, Putnam, Lucas, Wood, Hancock, Carroll, Harrison, Wayne, Medina, Cuyahoga, Lake, Ottawa, Sandusky, Seneca, Wyandot, Jefferson, Guernsey, Geauga, Portage, Stark, Tuscarawas, Erie, Huron, Crawford, Morrow, Belmont, Noble, and Monroe Counties, Ohio). The purpose of this filing is to eliminate the gateways of Euclid and Pataskala, Ohio.

No. MC–107403 (Sub-No. E221), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's repesentative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Aluminum slag*, in bulk, from East Chicago, Ind., to points in West Virginia. The purpose of this filing is to eliminate the gateway of Columbus, Ohio.

No. MC–107403 (Sub-No. E222), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Coal tar products*, in bulk, in tank vehicles, from Indianapolis, Ind., to points in New York, Pennsylvania, Delaware, Maryland, and New Jersey. The purpose of this filing is to eliminate the gateways of Zanesville, Ohio, Natrium, W. Va., and the plant site of the B. F. Goodrich Company, in Milan Township (Allen County), Ind. (approximately 13 miles east of Fort Wayne, Ind.).

No. MC–107403 (Sub-No. E223), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry chemicals*, in bulk, in tank vehicles, from the plant site of the B. F. Goodrich Company, in Milan Township (Allen County), Ind. (approximately 13 miles east of Fort Wayne, Ind.), to points in Virginia, North Carolina, and South Carolina. The purpose of this filing is to eliminate the gateway of Cincinnati, Ohio.

No. MC–107403 (Sub-No. E224), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, as described in the *Maxwell Co., Extension—Addyston*, 63 M.C.C. 677 (except such oils and greases as may be included in the term chemicals), from the plant site of the B. F. Goodrich Company in Milan Township (Allen County), Ind. (approximately 13 miles east of Fort Wayne, Ind.), to points in West Virginia. The purpose of this filing is to eliminate the gateways of Zanesville, Ohio, and the plant site of the Stauffer Chemical Corporation near Point Pleasant, Mason County, W. Va.

No. MC–107403 (Sub-No. E225), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals* as described in the *Maxwell Co., Extension—Addyston*, 63 M.C.C. 677 (except soda ash, such oils and greases as may be included in the term chemicals, and not including those derived from petroleum), in bulk, in tank vehicles, from the plantsite of the B. F. Goodrich Company, in Milan Township (Allen County), Ind. (approximately 13 miles east of Fort Wayne, Ind.), to points in New York (except Long Island). The purpose of this filing is to eliminate the gateway of Painesville, Ohio.

No. MC–107403 (Sub-No. E226), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except such oils and greases as may be termed chemicals), in bulk, in tank vehicles, from the plantsite of the B. F. Goodrich Company, in Milan Township (Allen County), Ind. (approximately 13 miles east of Fort Wayne, Ind.), to points in Maine, New Hampshire, and Massachusetts. The purpose of this filing is to eliminate the gateways of Zanesville, Ohio, Natrium, W. Va., and Newark, N.J.

No. MC–107403 (Sub-No. E227), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except such oils and greases as may be included in the term chemicals), in bulk, in tank vehicles, from the plant site of B. F. Goodrich Company, in Milan Township (Allen County), Ind. (approximately 13 miles east of Fort Wayne, Ind.), to points in Pennsylvania, Delaware, Maryland, and New Jersey. The purpose of this filing is to eliminate the gateways of Zanesville, Ohio, and Natrium, W. Va.

No. MC–107403 (Sub-No. E228), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Nonflammable liquid chemicals*, in bulk, in tank vehicles, from the B. F. Goodrich Company in Milan Township (Allen County), Ind. (approximately 13 miles east of Fort Wayne, Ind.), to points in Connecticut and Rhode Island. The purpose of this filing is to eliminate the gateway of Zanesville, Ohio, and Natrium, W. Va., and Newark, N.J.

No. MC–107403 (Sub-No. E229), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid coal tar products*, in bulk, in tank vehicles, from Indianapolis, Ind., to points in Maine, New Hampshire, and Massachusetts. The purpose of this filing is to eliminate the gateway of the plantsite of the B. F. Goodrich Company in Milan Township (Allen County), Ind. (approximately 13 miles east of Fort Wayne, Ind.), Zanesville, Ohio, Natrium, W. Va., and Newark, N.J.

No. MC–107403 (Sub-No. E230), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid petroleum and petroleum products*, as defined in Appendix XIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, in bulk, in tank vehicles from Huntington, Ind., to points in Maine, Massachusetts, and New Hampshire. The purpose of this filing is to eliminate the gateway of Findlay, Ohio, Coraopolis and Petrolia, Pa., and Newark, N.J.

No. MC–107403 (Sub-No. E231), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid petroleum products*, as defined in Appendix XIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, in bulk, in tank vehicles, from Huntington, Ind., to points in Pennsylvania, within 150 miles of Monongahela, Pa. The purpose of this filing is to eliminate the gateways of Findlay, Ohio, and Coraopolis, Pa.

No. MC–107403 (Sub-No. E232), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry chemicals*, in bulk, in tank vehicles, from the plantsite of the B.F. Goodrich Company in the Milan Township of Allen County, Ind. (approximately 13 miles east of Fort Wayne, Ind.), to points in New York, east of U.S. Highway 11. The purpose of this filing is to eliminate the gateway of Zanesville, Ohio, and Lewistown, Pa.

No. MC–107403 (Sub-No. E233), filed May 29, 1974. Applicant: MATLACK,

INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Aluminum slag*, in bulk, from East Chicago, Ind., to points in New York west of U.S. Highway 11. The purpose of this filing is to eliminate the gateway of Painesville, Ohio.

No. MC–107403 (Sub-No. E234), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry chemicals* (except calcium chloride), in bulk, in tank vehicles, from points in Indiana, to points in Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont. The purpose of this filing is to eliminate the gateways of Painesville, Ohio, and Solvay, N.Y.

No. MC–107403 (Sub-No. E235), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry chemicals*, in bulk, in tank vehicles, from points in Indiana to points in New Jersey and Maryland. The purpose of this filing is to eliminate the gateways of Zanesville, Ohio, and Lewistown, Pa.

No. MC–107403 (Sub-No. E236), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid petroleum products*, as defined in Appendix XIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, in bulk, in tank vehicles, from Huntington, Ind., to points in Delaware, New Jersey, and New York. The purpose of this filing is to eliminate the gateways of Findlay, Ohio, Coraopolis and Petrolia, Pa.

No. MC–107403 (Sub-No. E237), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry chemicals*, in bulk, in tank vehicles, from points in Indiana to points in West Virginia and Pennsylvania. The purpose of this filing is to eliminate the gateways of Zanesville and Riverview, Ohio.

No. MC–107403 (Sub-No. E238), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry commodities*, in bulk, from points in Indiana, to points in Franklin, Pickaway, Pike, Scioto, Licking, Fairfield, Hocking, Vinton, Jackson, Lawrence, Coshocton, Muskingum, Perry, Athens, Meigs, Gallia, Guernsey, Morgan, Washington, Noble, Harrison, Monroe, Jefferson, and Belmont Counties, Ohio. The purpose of this filing is to eliminate the gateway of Pataskala, Ohio.

No. MC–107403 (Sub-No. E239), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry commodities*, in bulk, from points in Indiana, to points in West Virginia, within 150 miles of Monongahela, Pa. The purpose of this filing is to eliminate the gateway of Zanesville, Ohio.

No. MC–107403 (Sub-No. 240), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry commodities* (except fly ash and cement), in bulk, in tank vehicles, from points in Indiana, to points in New York west of U.S. Highway 11. The purpose of this filing is to eliminate the gateway of Painesville, Ohio.

No. MC–107403 (Sub-No. E241), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry commodities*, in bulk, from points in Pennsylvania, to points in Ohio (except Ashtabula, Trumbull, Mahoning, Columbiana, Jefferson, Belmont, Monroe, Washington, Meigs, Athens, Morgan, Bovle, Perry, Muskingum, Guernsey, Harrison, Coshocton, Tuscarawas, Holmes, Carroll, Stark, Wayne, Ashland, Richland, Medina, Lorain, Huron, Erie, Cuyahoga, Summit, Portage, Geauga, and Lake Counties, Ohio). The purpose of this filing is to eliminate the gateway of Pataskala, Ohio.

No. MC–107403 (Sub-No. E242), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, as defined in *The Maxwell Co., Extension—Addyston*, 63 M.C.C. 677, in bulk, in tank vehicles, from points in Pennsylvania, within 150 miles of Monongahela, Pa., to points in Illinois, Indiana, Ohio, Michigan, Missouri, and Iowa. The purpose of this filing is to eliminate the gateway of Natrium, W. Va.

No. MC–107403 (Sub-No. E243), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry commodities*, in bulk, from points in Pennsylvania, to points in Ohio, within 150 miles of Monongahela, Pa. The purpose of this filing is to eliminate the gateways of Zanesville, Akron, and Wooster, Ohio.

No. MC–107403 (Sub-No. E248), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry chemicals*, in bulk, from points in Pennsylvania, within 150 miles of Monongahela, Pa., to points in Indiana, Kentucky, and Michigan. The purpose of this filing is to eliminate the gateway of Zanesville, Ohio.

No. MC–107403 (Sub-No. E250), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except gasoline, fuel oil, benzene, kerosene, petroleum, petroleum products, coal tar, and coal tar products), in bulk, in tank vehicles, from points in Pennsylvania, within 100 miles of Philadelphia to points in Maine, Massachusetts, New Hampshire, and Vermont. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa., and Newark, N.J.

No. MC–107403 (Sub-No. E251), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except petroleum, petroleum products, coal tar, and coal tar products), from points in Pennsylvania, within 100 miles of Philadelphia, Pa., to points in Ohio. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC–107403 (Sub-No. E252), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above) Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except petroleum, petroleum products, coal tar, and coal tar products), from points in Pennsylvania within 100 miles of Philadelphia, Pa., to points in Virginia, North Carolina, South Carolina, Georgia, Mississippi, Alabama, Tennessee, and West Virginia.

No. MC–107403 (Sub-No. E253), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above) Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Nonflammable liquid chemicals*, as defined in the *Maxwell Co., Extension—Addyston*, 63 M.C.C. 677 (except petroleum, petroleum products other than medicinal petroleum products, and not including road oil, coal tar, and coal tar products), in bulk, in tank vehicles, from points in Pennsylvania to points in Tennessee. The purpose of this filing is to eliminate the gateways of Washington, Pa., Natrium, W. Va. and Ironton, Ohio.

No. MC–107496 (Sub-No. E538), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, as described in Appendix XIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, in bulk, in tank vehicles, from points in Nebraska on and east of U.S. Highway 81 to points in North Dakota on and east of North Dakota Highway 32. The purpose of this filing is to eliminate the gateways of Norfolk, Nebr., Yankton, S. Dak., and Marshall, Minn.

No. MC–107496 (Sub-No. E539), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid petrochemicals*, in bulk, in tank vehicles, from Forsyth, Ill., to points in Nebraska. The purpose of this filing is to eliminate the gateway of the plant site of Hawkeye Chemical Co., at or near Clinton, Iowa.

No. MC-107496 (Sub-No. E540), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid petrochemicals*, in bulk, in tank vehicles, from Albany, Ill., and points within 5 miles thereof, to points in Nebraska. The purpose of this filing is to eliminate the gateway of the plant site of Hawkeye Chemical Co. at or near Clinton, Iowa.

No. MC-107496 (Sub-No. E541), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vegetable oils, nonedible oils, fatty acids, blended or prepared paint oils, blended or prepared varnish oils, liquid synthetic resins, surface coating resin compound, and ester gum*, in bulk, in tank vehicles, from Minneapolis, Minn., to points in New Mexico. The purpose of this filing is to eliminate the gateway of Denver, Colo.

No. MC-107496 (Sub-No. E546), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Anhydrous ammonia*, in bulk, in tank vehicles, from the plant site and storage facilities of the Armour Agricultural Chemical Company, located at or near Selma, Mo., to points in Michigan. The purpose of this filing is to eliminate the gateway of the plant site of Amoco Chemicals Corporation located approximately six miles southwest of Joliet, Ill.

No. MC-107496 (Sub-No. E547), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Molasses* when used as an animal feed supplement, in bulk, in tank vehicles, from points in Missouri to points in Idaho, The purpose of this filing is to eliminate the gateway of Lucerne, Colo.

No. MC–107496 (Sub-No. E548), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, as described in Appendix XIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, in bulk, in tank vehicles, from points in Lake, Porter, LaPorte, St. Joseph, Elkhart, Marshall, and Stark Counties, Ind., to points in Illinois on and north of a line from the Illinois-Indiana State line along U.S. Highway 50 to Lawrenceville, thence along Alternate Highway 50 to U.S. Highway 50, thence along U.S. Highway 50 to the Illinois-Missouri State line. The purpose of this filing is to eliminate the gateway of East Chicago, Ind.

No. MC–107496 (Sub-No. E549), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, as described in Appendix XIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, in bulk, in tank vehicles, from Eau Claire, Wis., and points within 20 miles thereof, to points in South Dakota. The purpose of this filing is to eliminate the gateway of Marshall, Minn.

No. MC–107496 (Sub-No. E552), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Anhydrous ammonia*, in bulk, from the plantsite of the Chevron Chemical Co., at or near Sugar Creek, Mo., to points in Ohio. The purpose of this filing is to eliminate the gateway of Ft. Madison, Iowa.

No. MC–107496 (Sub-No. E553), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Anhydrous ammonia*, in bulk, in tank vehicles, from the plantsite and storage facilities of the Armour Agricultural Chemical Company, located at or near Selma, Mo., to points in Nebraska (except points on and east of U.S. Highway 83). The purpose of this filing is to eliminate the gateway of Military, Kans.

No. MC–107496 (Sub-No. E554), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Anhydrous ammonia*, in bulk, in tank vehicles, from the plant site and storage facilities of the Armour Agricultural Chemical Company, located at or near Selma, Mo., to points in North Dakota. The purpose of this filing is to eliminate the gateway of Military, Kans.

No. MC–124711 (Sub-No. E1), filed May 12, 1974. Applicant: BECKER AND SONS, INC., P.O. Box 1050, El Dorado, Kansas 67042. Applicant's representative: L. M. Braun, 600 Leininger Bldg., Oklahoma City, Okla. 73112. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Liquid nitrogen fertilizer solution*, in bulk, from White Cloud, Kans., to points in Arkansas; (2) *Nitrogen fertilizer solution*, in bulk, in tank vehicles, (a) from the terminal facilities of W. R. Grace & Co., at Atchison, Kans., to points in Minnesota, South Dakota, and North Dakota, (b) from Pryor, Okla., to points in Minnesota, South Dakota, and North Dakota, (c) from Fremont, Nebr., to points in Arkansas, and (d) from the plantsite of Cominco American, Inc., near Beatrice, Nebr., to points in Arkansas; (3) *Liquid fertilizer solution*, in bulk, from White Cloud, Kans., to points in Minnesota, South Dakota, and North Dakota; (4) *Nitrogen fertilizer solutions*, (a) from Lawrence, Kans., to points in Minnesota, South Dakota, and North Dakota, (b) from Hong, Nebr., to points in Arkansas, and (c) from the plantsite of Phillips Petroleum Company at or near Aurora, Nebr., to points in Arkansas; (5) *Petroleum products*, in bulk, in tank vehicles, (a) from Sheerin and Borger, Tex., to points in that part of Colorado on and

east of a line beginning at the New Mexico-Colorado State line, thence along U.S. Highway 285 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction Colorado Highway 7, thence along Colorado Highway 7 to junction Colorado Highway 66, thence along Colorado Highway 66 to junction U.S. Highway 287, thence along U.S. Highway 287 to the Colorado-Wyoming State line (except Baca and Las Animas Counties), and (b) from Laverne, Okla., to points in that part of Colorado on and east of a line beginning at the New Mexico-Colorado State line, thence along U.S. Highway 285 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction Colorado Highway 7, thence along Colorado Highway 7 to junction Colorado Highway 6, thence along Colorado Highway 66 to junction U.S. Highway 287, thence along U.S. Highway 287 to the Colorado-Wyoming State line;

(6) *Petroleum and petroleum products*, as defined by the Commission, in bulk, in tank vehicles, (a) from points in that part of Texas on and north of a line beginning at the Texas-Oklahoma State line, thence along U.S. Highway 66 to junction U.S. Highway 287, thence along U.S. Highway 287 to the Texas-Oklahoma State line, to points in that part of Nebraska on, west, and south of a line beginning at the Wyoming-Nebraska State line, thence along U.S. Highway 30 to junction U.S. Highway 183, thence along U.S. Highway 183 to the Nebraska-Kansas State line, (b) between points in that part of Oklahoma on, north, and west of a line beginning at the Oklahoma-Texas State line, thence along U.S. Highway 66 to junction U.S. Highway 183, thence along U.S. Highway 183 to the Oklahoma-Kansas State line, on the one hand, and, on the other, points in that part of Nebraska on, west, and south of a line beginning at the Wyoming-Nebraska State line, thence along U.S. Highway 30 to junction U.S. Highway 183, thence along U.S. Highway 183 to the Nebraska-Kansas State line (except Kimball, Cheyenne, and Devel Counties), and (c) between points in that part of Oklahoma on, north, and west of a line beginning at the Oklahoma-Texas State line, thence along U.S. Highway 66 to junction U.S. Highway 183, thence along U.S. Highway 183 to the Oklahoma-Kansas State line (except Cimarron County), on the one hand, and, on the other, points in that part of Nebraska on, west, and south of a line beginning at the Wyoming-Nebraska State line, thence along U.S. Highway 30 to junction U.S. Highway 183, thence along U.S. Highway 183 to the Nebraska-Kansas State line;

(7) *Fertilizer ammoniated solution*, in bulk, in tank vehicles, from Etter, Tex., to points in Idaho, Montana, and Harding, Butte, Lawrence, Meade, Pennington, Custer, and Fall River Counties, S. Dak.;

(8) *Petroleum products*, in bulk, in tank vehicles, from points in that part of Texas on, north, and east of a line beginning at the Texas-Oklahoma State line, thence along U.S. Highway 66 to junction U.S. Highway 287, thence along U.S. Highway 287 to the Texas-Oklahoma State line, to points in that part of Colorado on and east of a line beginning at the New Mexico-Colorado State line, thence along U.S. Highway 285 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction Colorado Highway 7, thence along Colorado Highway 7 to Colorado Highway 66, thence along Colorado Highway 66 to junction U.S. Highway 287, thence along U.S. Highway 287 to the Colorado-Wyoming State line except Baca and Las Animas Counties);

(9) *Ammonium nitrate and nitrogen fertilizer solutions* from Port Neal Industrial Complex, Big Soo Terminal, and the plant sites of, and warehouses and storage facilities utilized by Terra Chemicals International, Inc., American Cyanamid Company, and Monsanto Company, located in Woodbury County, Iowa, and Dakota County, Nebr., to points in Arkansas; and

(10) *Oil, gasoline, and grease*, in bulk and in containers, (a) from Potter and Randall Counties, Tex., to points in that part of Colorado on and east of a line beginning at the New Mexico-Colorado State line, thence along U.S. Highway 285 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction Colorado Highway 7, thence along Colorado Highway 7 to junction Colorado Highway 66, thence along Colorado Highway 66 to junction U.S. Highway 287, thence along U.S. Highway 287 to the Colorado-Wyoming State line (except Baca and Las Animas Counties), and (b) from Borger and Sheerin, Tex., to points in that part of Kansas on, south, and west of a line beginning at the Kansas-Colorado State line, thence along U.S. Highway 36 to junction U.S. Highway 81, thence along U.S. Highway 81 to the Kansas-Oklahoma State line.

The purpose of this filing is to eliminate the gateways of Lawrence, Kans., for points in (1), (2)(c), (4)(b)(c), and (9) above, Omaha, Nebr., for points in (2), (3), and (4)(a) above, points in that part of Kansas on, west, and south of a line beginning at the Kansas-Missouri State line, thence along Kansas Highway 96 to junction U.S. Highway 183, thence along U.S. Highway 183 to the Nebraska-Kansas State line, for points in (5) and (10)(b) above, Shallow Water, Kans., for points in (6) above, the plant site of Wycon Chemical Company near Cheyenne, Wyo., for points in (7) above, points in that part of Kansas on and west of U.S. Highway 183 for points in (8) above, and points in that part of Kansas on, south, and west of a line beginning at the Kansas-Colorado State line, thence along U.S. Highway 36 to junction U.S. Highway 81, thence along U.S. Highway 81 to the Kansas-Oklahoma State line for points in (10)(a) above.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

General Wage Determination Decisions, Modifications and Supersedeas Decisions

GENERAL WAGE DETERMINATION DECISIONS

General Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders 12–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General Wage Determination Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

MODIFICATIONS AND SUPERSEDEAS DECISIONS TO GENERAL WAGE DETERMINATION DECISIONS

Modifications and Supersedeas Decisions to General Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedeas Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders 13–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing General Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and Federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedeas Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rulemaking procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Wage Determination Decision.

$.50 - Health & Welfare
.30 - Pension
.02 - Apprentice Training

CLASSIFICATION DEFINITIONS
LABORERS

GROUP I - Laborers(construction), plant laborers or yardmen, right-of-way laborers, landscape laborer, utility man or handyman, joint setter, flagman, carpenter helper, waterproofing laborer, slurry seal, seal coating, surface treatment or road mix laborer, riprap laborer and grouter, asphalt laborer, dump man (batch trucks), guardrail and fence installers, mesh handlers and placers, concrete curing applicator, scaffold erector.

GROUP II - Asphalt raker, concrete puddler, kettle man (pipeline), all machine driven tools, mason tender, mortar mixer, sheeting and shoring man, surface grinder man, power buggy or power wheelbarrow.

GROUP III- Form setter, bottom man, welder helper (pipeline), concrete saw man, cutting with burning torch, pipelayer, hand spiker (railroad), car pusher (without air), underground man (working in sewer and waterline, repairing and reconditioning), tunnel laborer (without air) and caisson, cofferdam (below 25 feet deep), air track and wagon drill.

GROUP IV - Blaster, powder man, muckers, wrencher (mechanical joints and utility pipeline), yarner, top lander.

GROUP V - Curb setter and cutter, miner without air, concrete crew in tunnels, utility pipeline tapper, gunnite nozzle man, waterline caulker.

ZONE DEFINITIONS

ZONE 1 - Cuyahoga, Geauga, and Lake Counties.
ZONE 2 - Lorain, Portage, and Summit Counties.
ZONE 3 - Ashtabula, Erie, Huron, Lucas, Mahoning, Medina, Ottawa, Stark, Trumbull, and Wood Counties
ZONE 4 - Brown, Carroll, Clermont, Clinton, Greene, Hamilton, Montgomery, Sandusky, and Wayne Counties.
ZONE 5 - Remainder of State.

DECISION NO. AR-3048

POWER EQUIPMENT OPERATORS
ZONE 1 - Columbiana, Mahoning and Trumbull Counties

	Basic Hourly Rates	Fringe Benefits Payments			
		H & W	Pensions	Vacation	App. Tr.
CLASS I	$9.62	.50	.50		.12
CLASS II	8.98	.50	.50		.12
CLASS III	8.72	.50	.50		.12
CLASS IV	8.31	.50	.50		.12
CLASS V	8.21	.50	.50		.12
CLASS VI	9.89	.50	.50		.12

CLASSIFICATION DEFINITIONS
POWER EQUIPMENT OPERATORS

CLASS I - Asphalt planer heater, Austin western & similar type, Back hoe, Batch plant-portable concrete, Berm builder-automatic, Backfiller w/drag attachment, Boat derrick, Boat-tug, Boring mach. attached to tractor, Bullclam, Bulldozer, G.M.I. road builder & similar types, Cable placer & layer, Carrier-straddle, Carryall - scraper or scoop, Chicago boom, Compactor w/blade attached, Concrete spreader finisher comb., Crane, Crane-stationary or climbing, Crane-electric overhead, Crane-side boom, Crane-truck, Crane-tower, Derrick-boom, Dirrick-car, Diggers-wheel (not trencher or road widner), Double nine, Drag line, Dredge, Drill-Kenny or similar type, Electromatic, Fork lift, Frankie pile, Gradall, Grader-power, Gurry, Gurry-self propelled, High lift, Hoist-monorail, Hoist-stationary & mobile tractor, Hoist-2 or 3 drum, Jackall, Jumbo mach., Kocal or Kuhlman, Land-seagoing vehicle, Loader- Elevating, Loader-front end, Locomotive, Mechanic as welder, Metro clip harvester w/boom, Mucking mach., Paver-asphalt finishing mach., Paver-road concrete, Paver-slip form, Place crete mach, Post driver, Power driven hydraulic pumps and jacks-drilling, Shovel, Spikemaster, Stonecrusher, Tie puller & loader, Tie tamper, Tractor-double boom, Tractor w/attachments, Trucks-boom, Truck-tire-assigned to job, Trench mach., Tunnel machine (Mark 21 Java or similar), Whiley

CLASS II - Asphalt plant, Bending machine, Boring mach., Chip harvester w/o boom, cleaning Mach.-pipeline type, Coating Mach.-pipeline type, Concrete belt placer, concrete finisher, Concrete planer or asphalt, Concrete spreader, Elevator, Fork lift walk behind, Form line mach., Grease truck op., Grout pump, Gunnite mach., Huck bolting Mach., Hydraulic scaffold, Paving breaker, Pipe dream, Pot fireman, Power broom, Refrigeration plant, Sasgen derrick, Seeding Mach., Self-propelled mobile vibrator compactor or roller, Hoist-single drum, Soil stabilizer (pump type), Spray cure Mach.-Self propelled, Staw blower mach., Sub-grader, Tube finisher or broom C.M. or similar type of Tugger Hoist

CLASS III - Batch plant-job related, Boiler op., Compressor (125 CFM or over), Curb builder (self propelled), Generator-steam, Jack-hydraulic-power driven, Mixer-concrete, Mulching Mach., Pin puller, Pulverizer, Pump, Road finishing mach. (pull type), Roller,Saw-concrete-self propelled. Signal man, spray cure Mach.-motar powered,Spreader (side driver shoulder attachment), Tractor, Trencher-form, Water blaster

CLASS IV - Brake man, Compressor under 125CFM, Conveyor, Conveyor 12 feet or under other than servicing brick layers, Deck hand, Drill wagon, fireman, Generator sets, Heaters-portable power (2 to 5), Helper-mechanic, Jacks Hydraulic (reailroad), Ladavator, Roller (walk behind 1 ton or over), Steam jenny, Syphons, Vibrator-gasoline, Welding machines (2) (fuel burning)

CLASS V - Oiler

CLASS VI - Rigs-pile driving or cassion type

DECISION NO. AR-3048

POWER EQUIPMENT OPERATORS
ZONE 2 - Ashtabula, Cuyahoga, Erie, Geauga, Lake, Lorain, Medina, Portage, and Summit Counties
ZONE 3 - Remainder of State.

	ZONE 2	ZONE 3				
	Basic Hourly Rates	Basic Hourly Rates	Fringe Benefits Payments			
			H & W	Pensions	Vacation	App. Tr.
CLASS A	$9.43	$8.69	.46	.80		.11

CLASS C	8.44	7.63	.46	.80		.11
CLASS D	7.92	7.20	.46	.80		.11
CLASS E	7.28	6.44	.46	.80		.11

CLASSIFICATION DEFINITIONS
POWER EQUIPMENT OPERATORS

CLASS A - Air compressor on steel erection, Asphalt plant engineer (Cleveland District only), Boiler Op., compressor or generator when mounted on rig, Cableways, combination concrete mixer and tower, Concrete plants (over 4 yds. cap.), Concrete pumps, Cranes (all types inc. A frames, boom trucks, cherry pickers), Derricks, Draglines, Dredge (dipper clam or suction), Elevation grader or euclid loader, Floating equipment (all types), Helicopter crew (hoist ot winch), Hoes (all types), Hoisting engines (including shaft & tunnel work), Industrial type tractor, Jet enginer dryer (D8 or D9) diesel tractor, Locomotives (standard guage), Maintenance Op. Class A, Mixer (paving single or double drum), Mucking mach., Multiple scraper, piledriving mach. (all types), Power shovel, Quad 9 (double pusher), Refrigerating mach. (freezer operation), Rotary drill on caisson work, slip form paver, Tower derricks, Tree shredder, Trench mach. (over 24" wide), Truck mounted concrete pump, Tug boat, Tunnel mach., Mining mach., Wheel excavator.

CLASS B - Asphalt paver, Automatic subgrade mach. self propelled (CMI type), Boring mach. Op. (more than 48"), Bulldozers, Endloader, Kolman Loader (production type-dirt), Lead grease man, Maintenance Op. Class B (in Zone 2 Portage & Summit Cos. only), Power grader, Power scraper, Push cat, Trench mach.(24" wide & under)

CLASS C - Air compressor on tunnel work (low pressure), Asphalt plant engineer, Locomotive (narrow guage), Concrete mixers (more than 1 bag cap.), Mixers (1 bag cap. - side loader), Power boiler over 15 lb. pressure, Pump Op. installing and operating well points, Pumps (4" & over discharge), Rollers (asphalt), Utility Op. (small equipment), Welding mach. & generators.

CLASS D - Back fillers, Bar (joint & mesh installing mach.), Batch plant, Boring mach. Op. (48" or less), Bull floats, Burlap & curing mach., Compressors (portable, sewer, hwy, & hwy.), Concrete plant (4 yd. & under cap.), concrete saw (multiple), Conveyors (Hwy.), Crusher, Deckhand, Drill highway (w/integral power), Farm type tractors w/att., Finishing mach., Firemen (floating equipment, all types), Fork lift (hwy.), Form trenchers, Hydro hammer, Hydro seeder, Pavement breaker, Plant mixers, Post driver, Post hole digger (power auger), Power brush burner, Power form handling Equip., Road widening trencher, Rollers (brick, grade, macadam), self propelled power spreader, self-propelled power subgrader, Steam firemen, Tractor (pulling sheepfoot roller or grader), Vibratory compactor (w/integral power).

CLASS E - Drum firemen (asphalt plant), Helpers, Inboard-outboard motor boat-launch, Oil heaters (asphalt plant), Oilers, Power driven heaters, Pumps (under 4" discharge), Signalmen, Tire repairmen.

DECISION NO. AR-3048

TRUCK DRIVERS	Basic Hourly Rates	Fringe Benefits Payments			
		H & W	Pensions	Vacation	App. Tr.

CLASS IV	6.87	a16.00	a6.00		
CLASS V	7.14	a16.00	a6.00		

CLASSIFICATION DEFINITIONS
TRUCK DRIVERS

CLASS I - Straight and dump trucks (including asphalt), warehousemen, straight fuel trucks

CLASS II - Semi fuel trucks, semi pole drivers (hauling steel pipe), semi tractor drivers

CLASS III- Ready-mix, agitator or bulk concrete drivers, dry batch trucks

CLASS IV - Euclids, darts, tank asphalt spreaders, low boys, carryalls, tournarocker, high-lifts, fork lifts, extra long trailers and semi-pole trailers (except when handling steel pipe), double hook-up tractor trailers including team track and and railroad siding, semi-tractor and tri-axle trailer, tag along trailer, expandable trailer, loads or towing requiring road permits

CLASSIFICATION DEFINITIONS
TRUCK DRIVERS

CLASS I - 4-wheel service trucks, 4 wheel dump trucks, batch trucks, oil distributors, asphalt distributors

CLASS II - Tandems

CLASS III-Semi-tractor trucks, pole trailers, fuel trucks, asphalt-oil spraybar man when operated from cab

CLASS IV - All trucks five axle and over

CLASS V - Euclid wagons, Euclid end-dumps, low boys, heavy duty equipment over 12 cu. yd. capacity when used exclusively for transportation, truck mechanics

FOOTNOTES

a. Per week per employee.

CLASSIFICATIONS

LABORERS

CLASS 1: Tunnel miners and all laborers inside tunnel, compressed air laborers, air-blow pipemen, mortaring men on sewer and drain pipe (the applying of mortar and composition mixers), all bottom men on sewer work-all sewer and drain pipe layers-multiple concrete duct or any other type of pipe used on public utility work--8 feet or more below ground level, and all other sewer and trench laborers 8 feet or more below ground level, all labor work inside cofferdam, the use of a 10 feet or more drill steel for hand held drills, caisson laborers ground level down to 15 feet, all air tools 8 feet or more below ground level, and all laborers on swinging and suspended scaffolds, chimney and silo laborers working at a height of 48 to 100 feet, all tamping hammers over 150 lbs., all laborers working inside of a sphere or any type or make of tank at a height of 48 feet to 100 feet, all hydraulic, electric and air tools, or any other type 8 feet or more below ground level
CLASS 2: Asphalt rakers, hod carriers, plaster laborers, gunnite laborers, road form setters, wagon and tower drillers on land and floating plant used on dredging, asphalt gunners and plug men (undercoating on road work), mortar pump laborers and plaster pump laborers
CLASS 3: Outside tunnel miner helpers, sewer and drain pipe layers and multiple concrete duct or any other type of pipe used on public utility work, ground level down to 8 feet, blasting men helpers, pumpcrete pipe handlers
CLASS 4: Gunnite nozzle men, caisson laborers from 15 feet below ground level down to 50 feet
CLASS 5: Caisson laborers 50 feet or more below ground level, laborers working under radio active conditions, blasting men (powdermen)
CLASS 6: Mortar mixers, handling asphalt shingles, patented scaffolds, sewer and trench work - ground level fown to 8 feet, catch basis and manhole diggers, mesh handling on road work, cement and mineral filler handler, concrete puddlers, batch dumpers, (cement and asphalt) vibrator operators, sand and stone wheelers to mixer (handlers), concrete wheelers, air-tamping hammermen concrete and paving breakers, rock drillers, jamchammermen, 1-bag mixer, asphalt laborers, chain and power saw, pit men, all fence laborers, mason tenders, (mortar and brick wheeler), wagon and tower drill helpers, kettlemen and tarmen, tank cleaners, scaffold and stagin[illegible] laborers, pot firemen (tarmen), Salamander tenders for any purpose, water pumps,

LABORERS (Cont'd)

CLASS 6 (Cont'd): water pumps, rip rap, electrician, plumber and finisher helpers (minimum), handling of slab steel road forms in any type manner, except form setting, setting center strips, contraction and expansion joints (road work), unloading and h handling thereof the following; brick, transite materials, cast iron water pipe, reinforced concrete rods, sewer and drain tile, railroad ties and all other creosoted materials, paving blocks and concrete forms, handling of insulation of any type, all mortar and composition mixers for sewer work, track laborers, chimney and silo laborers working at a height of one to 48 feet, all laborers working on swinging, suspended or any type or make or scaffolding one foot to 48 feet, all laborers working inside a sphere or any type or make of tank--minimum rate, all laborers working inside a sphere or any type or make of tank from bottom to a height of 48 feet--minimum rate, form strippers (any type), mechanical or motized buggies, handling multiple concrete duct or any type of pipe used in publis utility work unless otherwise specified herein, snapping of wall ties and removal of roads, drilling of anchor bolt holes; Concrete or asphalt clipper type saws and self-propelled saws, shoulder and grade laborers, all hydraulic electric and air or any other type of tools, grouting and caulking, carpenters helpers, cleaning lumber, nail pulling, deck hand, dredgehand shore laborers, bankmen on floating plant, tool and material checkers, signalmen and flagmen on all construction work defined herein, cleaning, of devris, removal of trees, concrete curing, temporary concrete protection, regardless of manner or materials used, truck helpers, wrecking and demolition laborers, all laborers, all landscaping, laying or sod, and planting of trees

POWER EQUIPMENT OPERATORS

CLASS 1: Apsco or equal spreading machine; Backhoe; Backfiller; Boom or winch cat; Bituminous mixplace machine; Blacksmith; Bituminous surfacing machine; Bulldozer; Crane; Shovel; Dragline; Truckcrane; Piledriver; Concrete finishing machine or spreader machine; Concrete breaker; Concrete or pumpcrete pumps; Dinky or standard locomotive; Drill well; Elevating grader; Forklifts; Rubbertired; Flex-plane; Gradall; Hi-lift, handblade, power; Hoists, tugger type; Hoist, (2 drums) or over one; Guy-derrick; Hyster mechanic; Motor patrol; Mixer 21 cu. ft. or over; Push cat; Pulls and scrapers; Pumps; 2 well points; P&H pulverizer or pulverizer equal to pugmill; Rubber-tired farm type tractor w/bulldozer or hi-lift (over ½ yd.), Rubber-tired tractor w/auger; Skimmer scoops; Seaman tiller; Spreader, Jersey; Tract-air used w/drill or Hi-lift; Trenching machine, or ditching machine; Wood chipper with tractor; Self-propelled roller w/10 ft. blade; Concrete pumps; Equipment greaser

CLASS 2: Roller, self-propelled, Power subgrader; Elevator operator

CLASS 3: Rubber-tired farm type tractor w/bull dozer or hi-lift (½ yd. or less)

CLASS 4: Pump, one well point; All tract type tractors, pulling any type roller or disc.

CLASS 5: Oiler; All wheel type tractors, Oiler on 30 HP ditches and over; Oiler, H Hydra-crane with 15 ton lifting capacity or more and cranes similar to Hydra-crane w/15 ton capacity and more

CLASS 6: Air compressor w/vaive driving piling air compressors, 2(220 cu. ft. capacity or over); Air track drills, air track drill w/compressor; Automatic bins scales w/compressor or generator; Pipeline boring machine; Bulk cement plant w/separate compressor bulk float power operator; Concrete saws, (two); Hydra-lift (single motor); Straw mulcher blower w/spout

CLASS 7: Backend man on bituminous surfacing machine; Boom or winch truck; Cat wagon w/or w/out dump; Conveyors, two; Chip spreader, self-propelled concrete saw, on self-propelled; Form grader; Heaters, (motor driven); Hoist, 1 drum; Truck crane oiler; Vibrator, self-propelled.

POWER EQUIPMENT OPERATORS (Cont'd)

CLASS 8: Air track drill (one); Belt drag machine, Power boom, Mechanical; Plasterer applicator; Tract-air

CLASS 9: Air compressor (220 cu. ft. capacity or over), one; Air compressor under (220 cu. ft.) two; Automatic bins, bulk cement plant w/built in compressor, running of same motor or electric motor; Firemen or switchmen; Form tamper, self-propelled; Light plants (two); Welding machine (two); Pumps (two); or combination or 2 pumps, Light plants, welding machines, air compressor (under 220 cu. ft.); Mud jacks or wood chipper; Mixers, less than 21 cu. ft., Motor mixer w/skip or pump; Pipeline track jack

CLASS 10: Air compressor, under 220 cu. ft. capacity (one); Conveyor (one); Conveyor operator on self-propelled chip spreader; Heater (one); Motor driven; Light plant (one) pump (one); Welding machine (one) Ulmac or Equal spreader

RIVER WORK AND LEVEE WORK ON MISSISSIPPI AND OHIO RIVERS

CLASS 11: Crane, shovel, dragline 4 yards or more, scraper, 18 yards, struck or over, dredge, derrick and piledriver, push boat operator, mechanic or 4 yards machine or over, Engine man on dredge, Levee man on dredge

CLASS 12: Oiler on crane, dragline, shovel, 4 yard machine or over; Oiler on dredge

of 4 ft. or less), tugger hoist vibro tamp, well drill, well point system (Submersible pumps when used in lieu of well-point system), winch (motor driven), winch cat	7.925	.80	.35	a	.10	
Compressor (under 315 c.f.), concrete paver or mixer (under 16S), concrete pavement spreaders and finishers (not automated), conveyor (over 12 ft.), electric submersible pump (4" and over), farm tractor with or without accessories, fine grade machine (not automated), fireman, form tamper, generator (2,500 watts and over), hydraulic pump, mechanical heaters-more than two (2) mechanical heaters or any mechanical heater or heaters whose combined output exceeds 640,000 BTU per hour (manufacturer's rating), mulching machine, oiler, power driven welding machine - 300 amp. and over (other than all electric), one welding machine under 300 amp. will not require an engineer unless in a battery), power heaterman (hay drier) pump (under 4"), revinius widner (road widener), steam cleaner or jenny, tractor with or without towed accessories	7.15	.80	.35	a	.10	
Crane or derrick with a boom length of over 150 ft. including jib, and on a pile driver with leads or boom length of over 100 ft.	9.40	.80	.35	a	.10	

FOOTNOTES:

a. Paid Holidays: New Year's Day; Memorial Day; Independence Day; Labor Day; Thanksgiving Day and Christmas Day, providing employee has worked 5 consecutive working days before and the working day after the holiday.

HEAVY & HIGHWAY CONSTRUCTION - POWER EQUIPMENT OPERATORS:

GROUP I: Automated concrete spreader (CMI), automatic fine grader, backhoe (except tractor mounted, rubber tired), belt placer (CMI type), blacktop plant (automated), cherry picker (over 5 tons capacity), concrete pump (8" or over), crane, cranes & derricks (steel erection), dragline, dredge, dual drum paver, excavator (all purpose-hydraulically operated), fork lift (factory rated 15 ft. and over), front end loader 4 c.y. and over), head tower (sauerman or equal), hoist (2 or 3 drum), mine hoist, mucking machine or male, overhead crane (gantry or straddle type), piledriver, power grader, quarry master (or equivalent), scraper, shovel, sideboom, slip form paver (if second man is nuded, he shall be on oiler), tractor drawn belt type loader, truck crane, tunnel shovel

GROUP II: Backhoe (tractor mounted, rubber tired), bituminous spreader and mixer, blacktop plant (non-automated), blast or rotary drill truck or tractor mounted), boring machine, cage-hoist, central mix plant (non-automated) and all concrete batching plants), cherry picker (5 tons capacity and under), compressors (4 or less) exceeding 2000 C.F.M. combined capacity, concrete paver (over 165), concrete pump (under 8"), crusher, diesel power unit, drill rigs (tractor mounted), front end loader (under 4 c.y.), hi-pressure - boiler (15 lbs. and over), hoist (one drum), Kolman plant loader and similar type loaders (if another man is required to clean screen or to mountain the equipment, he shall be on oiler), looomotive, maintenance/engineer/greaseman/ welder, mixer (for stabilized base self-propelled), monorail machine, plant engineer, pump crete, ready mix concrete plant, refrigeration equipment (for soil stabilization), road widener, roller (all above subgrade), tractor with dozer and/or pusher, trencher, tugger-hoist, winch, winch cot

GROUP III: A-frame truck, compressors (4 not to exceed 2000 C.F.M. combined capacity or 3 or less with more than 1200 C.F.M. but not to exceed 200 C.F.M.), compressors (any size but subject to other provisions for compressors), dust collectors, generators, pumps, welding machines (4 of any type or combination), concrete pavement spreaders and finishers, conveyor, drill-core, drill-well, electric pumps used in conjunction with well point system, farm tractor with accessories, fine grade machine, fork lift (under 15 ft.), gunite machine, homers (hydraulic-self propelled), post hole digger and post driver, power sweeper, roller (grade and fill), submersible electric pump (when used in lieu of well point system), tractor with towed accessories, vibratory compactor, vibro tamp, well point

GROUP IV: Aggregate plant, boiler (used in conjunction with production), cement and bin operator, compressors (3 or less not to exceed 1200 c.f.m. combined capacity), compressor (any size, bust subject to other provisions for compressors), dust collectors, generators pumps, welding machines (3 or less of any combination), concrete paver or mixer (165 and under), concrete saw (self propelled), fireman, form tamper, hydraulic pump (jacking system), lighting plants, mulching machine, oiler, parapet concrete or pavement grinder, power broom (towed), power heaterman, revinius widener, shell winder, steam cleaner, tractor

CLASSIFICATIONS

Class I Digging machines, cranes, piledrivers, lighters, locomotives, derricks, hoists, pavers, front end loaders 3 to 4 Yds., economobile, ross carriers
Class II Fork lifts
Class III Firemen
Class IV Oilers
Class V Bulldozers, spreader, roller, front end loader less than 3 Yds., tractors
Class VI Scrapers, graders, dozer pusher operator
Class VII Pippin type backhoe operator
Class VIII Maintenance engineer
Class IX Gas & electric driven heaters, pumps, concrete mixers, stone crusher, air compressor, light plants, welding machines, concrete pumps
Class X Test boring machine operator
Class XI Test boring machine assistant
Class XII Well point installation crews
Class XIII Operators of truck cranes with booms of 130 to 150 feet, operators of cat cranes with booms of 150 to 180 feet
Class XIV Operators of truck cranes with booms over 150 feet, operators of cat cranes with booms over 180 feet

RHODE ISLAND-1-TD-2-3-L

HEAVY & HIGHWAY CONSTRUCTION TRUCK DRIVERS	Basic Hourly Rates	Fringe Benefits Payments			
		H & W	Pensions	Vacation	App. Tr.
Class I	$6.68	.45	.50	a+b	
Class II	6.83	.45	.50	a+b	
Class III	6.88	.45	.50	a+b	
Class IV	6.98	.45	.50	a+b	
Class V	7.08	.45	.50	a+b	
Class VI	7.33	.45	.50	a+b	
Class VII	7.58	.45	.50	a+b	

Class I
Pick-up trucks, Station Wagons and Panel Trucks
Class II
Two Axle, Helpers on Low Beds
Class III
Three Axle Equipment and ready mix equipment
Class IV
Four & Five Axle Equipment
Class V
Low Bed Trailers, Special Earth moving equipment under 35 tons, Mechanics, Paving Restoration Vehicle & Vac Haul
Class VI
Special Earth Moving Equipment over 35 tons
Class VII
Trailers when used on a double hook-up (pulling 2 trailers)

PAID HOLIDAYS:
A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTES:
a. Holidays: A through F; Washington's Birthday, Columbus Day, Veteran's Day; V-J Day providing employee has worked at least one day in the calendar week in which the holiday falls.

b. Employee who has been on payroll for 1 year or more but less than 5 years and has worked 150 days during the last year of employment shall receive : 1 week's vacation; 5 years or more - 2 weeks vacation.

[FR Doc.74-17447 Filed 8-1-74;8:45 am]

INDEX TO GENERAL WAGE DETERMINATION DECISIONS AND MODIFICATIONS AS OF JULY 5, 1974

There is set forth below an index to general wage determination decisions and modifications as published in the FEDERAL REGISTER pursuant to the Davis-Bacon and related Acts. The index lists general wage determination decisions and modifications by State and county. An updated index is published on the first Friday of each month.

The index is published for the convenience of the public and the Department of Labor will endeavor to keep it accurate and up to date. In the event the data in the index and published general decisions do not coincide, the published general decisions shall control.

Abbreviations:

(B)—Building Construction.
(D)—Dredging Construction.
(F)—Flood Control Construction.
(H)—Heavy Construction.
(Hw)—Highway Construction.
(R)—Residential Construction.
Mod.—Modification.
(HE)—Heavy Engineering.
(LE)—Light Engineering.
(U)—Utility.
(S)—Streets.
(W&S)—Water and Sewer Lines.

Signed at Washington, D.C., this 26th day of July 1974.

RAY J. DOLAN,
Assistant Administrator,
Wage and Hour Division.

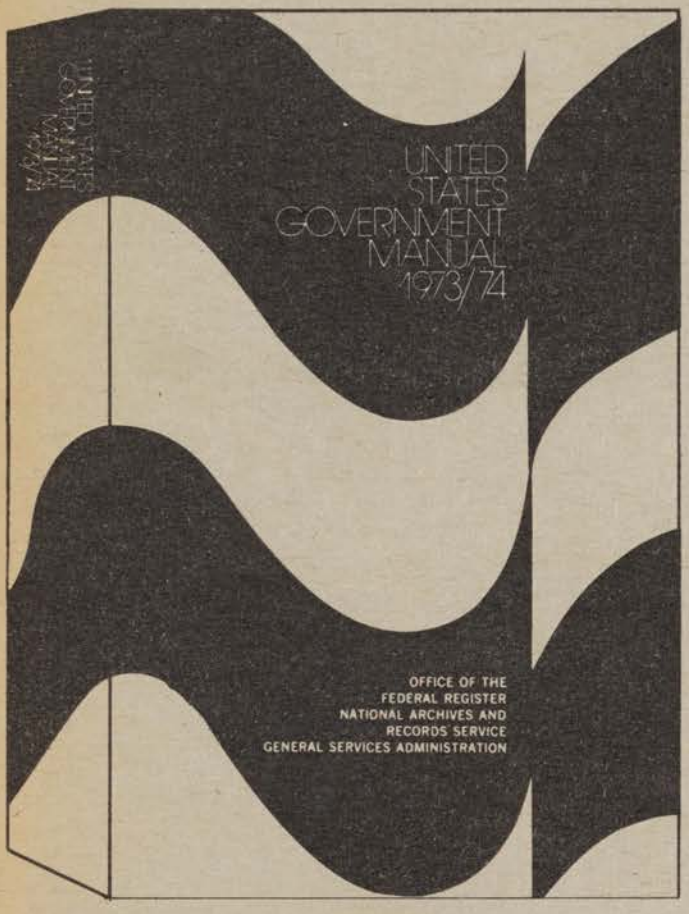
United States Government Manual

1973/74 Edition

"Bureaucrat's Bible" or "Guerrilla Handbook"?



The Manual has been called the "bureaucrat's bible." It has also been called a "guerrilla warfare handbook for citizens tired of jousting with windmills."

As the United States Government Organization Manual, it has been a familiar aid to businessmen, researchers, lawyers, and students seeking current information about the Federal Government. This year, the title has been changed to reflect a broader emphasis on consumer-interest programs, although the agency organization charts are still included.

A fresh, modern format highlights a "Sources of Information" section for most agencies, with addresses and telephone numbers for obtaining information on:

- Employment
- Government contracts
- Environmental programs
- Small business opportunities
- Federal publications
- Speakers and films available to civic and educational groups

$4.95 PER COPY
Paperbound, with charts

MAIL ORDER FORM To:

Superintendent of Documents, Government Printing Office, Washington, D.C. 20402
