rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 75-NW-20-AD; Amendment 39-2375]

PART 39—AIRWORTHINESS DIRECTIVES

Boeing 727 Series Airplanes

A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive requiring replacement of all blind rivets with bolts and nutplates or an approved equivalent on the outboard aileron tab mast fittings on Boeing Model 727 series airplanes was published in 40 FR 29301.

Interested persons have been afforded an opportunity to participate in the making of the amendment. The Air Transport Association (ATA) submitted two comments in response to the proposed AD. In its first comment, the ATA expressed its confidence that a reasonable inspection program will detect loose fasteners prior to the development of the hazardous condition. In support of this comment, ATA mentioned the results of the one-time inspection required by AD 75-08-10 (40 FR 15866) and the Boeing 727 operators' past experience. The FAA agrees that most airline inspection programs are adequate to detect loose fasteners; however, the number of reports of loose rivets submitted in response to the requirements of AD 75-08-10 indicate that the replacement of the blind rivets with more positive fasteners, such as bolts and nutplates, is desirable. In its second comment, the ATA stated that it does not object to a mandatory 2500 hour repetitive inspection of the blind rivets provided replacement of rivets with bolts is an optional terminating action. This, of course, is not the FAA's intent by the proposed AD as mentioned above, which consisted of replacement of all blind rivets by July 1, 1977, with an interim inspection within 2500 hours from the effective date of the AD. It is established that the rivets will in time become loose, which in turn may lead to the failure of all tab mast fitting attachments. Replacement is, therefore, the only acceptable terminating action. Accordingly, the FAA does not concur with this ATA comment.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

BOEING: Applies to all Boeing Model 727 series airplanes, certificated in all categories. Compliance required as indicated.

To prevent wing vibration from loose blind rivets in the outboard aileron tab mast fittings, accomplish the following:

A. Within the next 2500 flight hours or 325 days from the effective date of this AD, whichever occurs first, inspect the attaching blind rivets of the outboard aileron tab mast fittings for looseness. Repair, as necessary, in accordance with Boeing Alert Service Bulletin 727-57-137, Revision 1, or later FAA approved revisions, or in a manner approved by the Chief, Engineering and Manufacturing Branch, FAA Northwest Region.

B. As terminating action to this AD, prior to July 1, 1977, unless already accomplished, replace all blind rivets with bolts and nutplates in accordance with Boeing Alert Service Bulletin 727-57-137, Revision 1, or later FAA approved revisions, or in a manner approved by the Chief, Engineering and Manufacturing Branch, FAA Northwest Region.

The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1).

All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to Boeing Commercial Airplane Company, P.O. Box 3707, Seattle, Washington 98124. The documents may also be examined at FAA Northwest Region, 9010 East Marginal Way South, Seattle, Washington.

This amendment becomes effective November 5, 1975.

(Secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

The incorporation by reference provisions in the document were approved by the Director of the FEDERAL REGISTER on June 19, 1967.

Issued in Seattle, Washington, September 22, 1975.

C. B. WALK, Jr.,
Director, Northwest Region.

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the description of the Tucson, Arizona (Davis-Monthan AFB) control zone.

The control zone is described in part by reference to the Davis-Monthan AFB ILS outer marker. The United States Air Force plans to decommission the outer marker on December 4, 1975. This will require an editorial change in the description of the control zone by substituting a distance from the Davis-Monthan TACAN in lieu of the reference to the outer marker.

Since the amendment is editorial in nature, involves no change in airspace boundaries, and imposes no additional burden on any person, notice and public procedure thereon is unnecessary.

In consideration of the foregoing in § 71.171 (40 FR 354) the description of the Tucson, Arizona (Davis-Monthan AFB) control zone is amended in part as follows: Delete all after ". . . extending from the 5-mile radius zone . . ." and substitute ". . . to the Davis-Monthan TACAN 139° radial 6.5 miles southeast of the TACAN."

Effective date. This amendment shall be effective 0901 G.m.t. December 4, 1975.

(Sec. 307(a) of the Federal Aviation Act of 1958, as amended, (49 U.S.C. 1348(a)), and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Los Angeles, California on September 22, 1975.

LYNN L. HINK,
Acting Director, Western Region.

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the control zone at Shreveport, La. (Barksdale AFB).

On August 1, 1975, a notice of proposed rule making was published in the FEDERAL REGISTER (40 FR 32346) stating the Federal Aviation Administration proposed to alter the control zone at Shreveport, La. (Barksdale AFB).

Interested persons were afforded an opportunity to participate in the rule making through submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., December 4, 1975, as hereinafter set forth.

In § 71.171 (40 FR 354), the Shreveport, La. (Barksdale AFB), control zone is amended to read:

SHREVEPORT, LA. (BARKSDALE AFB)

That airspace within a 5-mile radius of Barksdale AFB (latitude 32°30'05" N., longitude 93°39'45" W.); within 2 miles each side of the Elm Grove VOR 330° radial extending from the 5-mile radius zone to 0.5 of a mile

NW of the VOR; within 2 miles each side of the Barksdale TACAN 148° radial extending from the 5-mile radius zone to 7.5 miles SE of the TACAN; excluding the portion within the Shreveport, La. (Shreveport Regional Airport), control zone and excluding the portion within the Shreveport, La. (Downtown Airport), control zone.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Fort Worth, Tex., on September 18, 1975.

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Area

On page 31958 of the FEDERAL REGISTER dated July 30, 1975, the Federal Aviation Administration published a Notice of Proposed Rule Making which would amend §§ 71.171 and 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the control zone and translation area at Mt. Vernon, Illinois.

Interested persons were given 30 days to submit written comments, suggestions or objections regarding the proposed amendments.

No objections have been received and the proposed amendments are hereby adopted without change and are set forth below.

These amendments shall be effective 0901 G.m.t., December 4, 1975.

(sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Des Plaines, Illinois on September 10, 1975.

R. O. ZIEGLER,
Acting Director, Great Lakes Region.

In § 71.171 (40 FR 354), the following control zone is amended to read:

MT. VERNON, ILLINOIS

Within a 5 mile radius of Mount Vernon-Outland Airport (latitude 38°19'23" N., longitude 88°51'33" W.); within 4.5 miles each side of the Mount Vernon VOR 044° radial, extending from the 5 mile radius zone to 10.5 miles northeast of the VOR. This control zone is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual.

In § 71.181 (40 FR 441), the following transition area is amended to read:

MT. VERNON, ILLINOIS

That airspace extending upward from 700 feet above the surface within a 7 mile radius of Mount Vernon-Outland Airport (latitude 38°19'23" N., longitude 88°51'33" W.); within 5 miles each side of the Mount Vernon VOR 044° radial, extending from the 7 miles radius area to 11.5 miles northeast of the VOR.

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the College Station, Tex., transition area.

On August 1, 1975, a notice of proposed rule making was published in the FEDERAL REGISTER (40 FR 32344) stating the Federal Aviation Administration proposed to alter the transition area at College Station, Tex.

Interested persons were afforded an opportunity to participate in the rule making through submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., December 4, 1975, as hereinafter set forth.

In § 71.181 (40 FR 441), the College Station, Tex., transition area is amended as follows:

COLLEGE STATION, TEX.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of Easterwood Field (latitude 30°35'19" N., longitude 96°21'54" W.); within 2 miles each side of the College Station VORTAC 107° radial extending from the 5-mile-radius area to 18 miles east of the VORTAC; within 3.5 miles each side of the College Station northwest localizer course extending from the 5-mile-radius area to 13 miles northwest of the localizer site (latitude 30°35'59" N., longitude 96°21'48.3" W.); within 1.5 miles each side of the southeast localizer course extending from the 5-mile-radius area to 7 miles southeast of the localizer site; within a 5-mile radius of Coulter Field (latitude 30°43'00" N., longitude 96°19'45" W.); within 2 miles each side of the College Station VORTAC 025° radial extending from the 5-mile-radius area of Coulter Field to 15 miles northeast of the College Station VORTAC. (Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Fort Worth, Tex., on September 16, 1975.

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the Houston, Tex., transition area.

On August 1, 1975, a notice of proposed rule making was published in the FEDERAL REGISTER (40 FR 32344) stating the Federal Aviation Administration proposed to alter the transition area at Houston, Tex.

Interested persons were afforded an opportunity to participate in the rule making through submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., December 4, 1975, as hereinafter set forth.

In § 71.181 (40 FR 441), the Houston, Tex., transition area is amended to read:

HOUSTON, TEX.

That airspace extending upward from 700 feet above the surface within an area bounded by a line beginning at latitude 30°35'00" N., longitude 95°28'00" W.; thence to latitude 29°45'00" N., longitude 94°44'00" W.; thence to the intersection of the arc of a 5-mile-radius circle centered on Scholes Field, Galveston, Tex. (latitude 29°15'55" N., longitude 94°41'35" W.), and latitude 29°16'00" N. at a point east of Scholes Field; thence clockwise along the arc of the 5-mile-radius circle to latitude 29°16'00" N. at a point west of Scholes Field; thence to latitude 29°30'00" N., longitude 95°54'00" W.; to latitude 30°26'00" N., longitude 95°42'00" W. to point of beginning and including within 3.5 miles each side of the 335°T (227°M) bearing from the Lakeside Airport NDB (latitude 29°50'52" N., longitude 95°41'19" W.) extending from the NDB to 11.5 miles northwest.

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of VOR Federal Airways

On September 12, 1975, F.R. Doc. 75-24251 was published in the FEDERAL REGISTER (40 FR 42342) amending Part 71 of the Federal Aviation Regulations effective 0901 G.m.t., December 4, 1975, by realigning V-285 airway north of Goshen, Ind. F.R. Doc. 75-24251 realigns the airway as proposed in the Notice of Proposed Rule Making on July 14, 1975, (40 FR 29554) from Goshen, Ind., to Kalamazoo, Mich. The Goshen, Ind., VOR TAC radial to describe the airway from Goshen was incorrectly specified as the Goshen 037° radial, when it should have been the Goshen 038° radial. Action to make this correction is taken herein. Since this amendment is minor in nature and no substantive change in the regulations is effected, notice and public procedure thereon are unnecessary.

In consideration of the foregoing, F.R. Doc. 75-24251 is amended, effective 0901 G.m.t., December 3, 1975, as hereinafter set forth.

In item 2. "037°" is deleted and "038°" is substituted therefor.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Washington, D.C., on September 23, 1975.

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On page 32839 of the FEDERAL REGISTER dated August 5, 1975, the Federal Aviation Administration published a Notice of Proposed Rule Making which would amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the transition area at Litchfield, Minnesota.

Interested persons were given thirty days to submit written comments, suggestions, or objections regarding the proposed amendment.

No objections have been received and the proposed amendment is hereby adopted without change and is set forth below.

This amendment shall be effective 0901 G.m.t. October 23, 1975.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Des Plaines, Illinois on September 10, 1975.

R. O. ZEIGLER,
Acting Director, Great Lakes Region.

In § 71.181 (40 FR 441), the following transition area is amended to read:

LITCHFIELD, MINNESOTA

That airspace extending upward from 700 feet above the surface within a 6-mile radius of the Litchfield Municipal Airport (latitude 45°08'18" N., longitude 94°30'56" W.); and within 3½ miles each side of the Darwin VORTAC 139° radial, extending from the 6-miles radius to 11½ miles southeast of the VORTAC.

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

On page 31958 of the FEDERAL REGISTER dated July 30, 1975, the Federal Aviation Administration published a Notice of Proposed Rule Making which would amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to designate a transition area at Hallock, Minnesota.

Interested persons were given 30 days to submit written comments, suggestions or objections regarding the proposed amendment.

No objections have been received and the proposed amendment is hereby adopted without change and is set forth below.

This amendment shall be effective 0901 G.m.t., December 4, 1975.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Des Plaines, Illinois on September 10, 1975.

R. O. ZIEGLER,
Acting Director, Great Lakes Region.

In § 71.181 (40 FR 441), the following transition area is added:

HALLOCK, MINNESOTA

That airspace extending upward from 700 feet above the surface within 5 miles northeast and 5 miles southwest of the Pembina VORTAC 135° radial extending from 6 miles southeast of the VORTAC to 22.5 miles southeast of the VORTAC and that airspace extending upward from 1200 feet above the surface 4.5 miles northeast and 7 miles southwest of the 315° radial and the 135° radial of Pembina VORTAC extending from 6 miles southeast of the VORTAC to 12.5 miles northwest of the VORTAC excluding that airspace north of latitude 49°00'00" N.; within 9.5 miles northeast and 4.5 miles southwest of the Pembina VORTAC 135° radial extending from 17.5 miles southeast of the VORTAC to 36 miles southeast of the VORTAC; and that airspace within a 29.5 mile radius of the Pembina VORTAC extending counterclockwise from the 183° radial to 4.5 miles southwest of and parallel to the 135° radial.

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to designate a 700-foot transition area at Mansfield, La.

On August 1, 1975, a notice of proposed rule making was published in the FEDERAL REGISTER (40 FR 32345) stating the Federal Aviation Administration proposed to designate a 700-foot transition area at Mansfield, La.

Interested persons were afforded an opportunity to participate in the rule making through submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.M.T., December 4, 1975, as hereinafter set forth.

In § 71.181 (40 FR 441), the following transition area is added:

MANSFIELD, LA.

That airspace extending upward from 700 feet above the surface within an 8.5-mile radius of DeSoto Parish Airport (latitude 32°04'20" N., longitude 93°45'47" W.).

CHAPTER XI—SOCIAL AND ECONOMIC STATISTICS ADMINISTRATION, DEPARTMENT OF COMMERCE

PART 1160—PUBLIC INFORMATION

Deletion

In accordance with Administrative Procedure 5 U.S.C. 553, notice and hearing on this amendment and postponement of the effective date thereof are unnecessary because this amendment is the result of an organizational change.

On May 8, 1975 a notice was published in the FEDERAL REGISTER (40 FR 20070) establishing Chapter XI entitled "Social and Economic Statistics Administration" in Title 15 of the Code of Federal Regulations. On August 4, 1975, the Secretary of Commerce, through Department of Commerce Organization Orders 35-1A and 35-2A, abolished the Social and Economic Statistics Administration. Therefore, 15 CFR Chapter XI is deleted from the Code of Federal Regulations.

Dated: September 23, 1975.

Title 16—Commercial Practices

CHAPTER I—FEDERAL TRADE COMMISSION

[Docket 8878]

PART 13—PROHIBITED TRADE PRACTICES AND AFFIRMATIVE CORRECTIVE ACTIONS

Kaiser Steel Corp.

Subpart—Acquiring corporate stock or assets: § 13.5 Acquiring corporate stock or assets; § 13.6 Arrangements, connections, dealings, etc. Subpart—Corrective actions and/or requirements: § 13.533 Corrective actions and/or requirements; 13.533-35 Employment of independent agencies.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 7, 38 Stat. 731, as amended; 15 U.S.C. 18)

In the Matter of Kaiser Steel Corporation, a corporation.

Consent order requiring an Oakland, Calif., steel company, among other things to transfer the business of MSL Tube, acquired from MSL Industries, Inc., to a wholly-owned subsidiary, Kaiser Steel Tubing, Inc., whose records must be audited annually by an independent public accountant.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows: [1]

ORDER

For purposes of this Order, the following definitions shall apply:

"ERWMSST," or Electric Resistance Welded Mechanical and Structural Steel Tubing, means tubing formed from flat-rolled steel into solid-wall tubing in an electric resistance welded tube mill and used for mechanical or structural applications. It can be made from hot-rolled, cold-rolled or galvanized sheet steel and may be in a round, square, rectangular or a special shape form. ERWMSST does not include pipe or tubing which is used for the conduction of fluids and/or gases ("pipe" or "pressure tubing").

"Respondent" means Kaiser Steel Corporation and any of its domestic subsidiaries and their respective successors and assigns.

"The Business of MSL Tube" means the tubing business acquired by Respondent from MSL Industries, Inc. and all additions subsequently made thereto, including the physical plant located in Vernon, California and presently owned by Respondent and operated by the Kaiser Steel Tubing Division of Respondent; the nine tube mills presently at such physical plant; and all related inventories, accounts receivable and current liabilities of the Kaiser Steel Tubing Division.

"California ERWMSST Producer(s)" means (1) the manufacturers of ERWMSST listed in Appendix A and (2) any other individual or corporation not affiliated with any of the manufacturers listed in Appendix A which, subsequent to the date of this Order, commences to manufacture and sell ERWMSST within the State of California.

"Secondary Sheet Steel" means sheet steel which does not meet the producer's quality standards for prime sheet steel and which is for this reason sold at prices lower than the producer's prices for prime sheet steel.

"Affiliated person" means a person who is at the time of any action taken pursuant to Paragraph III of this Order an officer, director, employee or agent of Respondent or who owns or controls, directly or indirectly, more than one percent of the outstanding shares of the capital stock of Respondent.

I

It is ordered, That A. Respondent shall, within six months after the date this Order becomes final, transfer, assign and convey The Business of MSL Tube to a wholly-owned subsidiary, hereinafter called Kaiser Steel Tubing, Inc. ("KST"). KST shall maintain, in accordance with good accounting practice, separate and complete corporate records and accounts, which shall be audited annually by an independent public accountant. KST shall preserve such records for a period of at least five years.

B. Respondent shall not sell any type of sheet steel, including Secondary Sheet Steel, to KST at a price (including extra charges and discounts) lower than Respondent's then current list price unless, to Respondent's reasonable belief, other California ERWMSST producers can substantially satisfy their requirements for such type of sheet steel by purchases at such lower price.

C. With regard to all other commercial transactions between Respondent and KST, Respondent shall establish procedures to insure that such transactions are no more favorable to KST than would be the case if they were entered into between Respondent and independent parties on reasonable commercial terms. Respondent shall not enter into any such commercial transaction with KST except on terms which accord with these procedures. Respondent shall report annually to the Commission all such commercial transactions with KST in the preceding year involving more than $25,000. In addition, such transactions shall be reviewed by the independent accountants described in Paragraph I(A) above, and Respondent shall submit to the Commission the reports containing the opinion of said accountants as to whether such transactions complied with the procedures established pursuant to this Paragraph.

II

It is further ordered, That A. Respondent shall in each calendar year make available for sale to each California ERWMSST Producer, at a price not exceeding Respondent's then current published list price (including applicable extra charges and discounts), subject to credit terms appropriate under the circumstances, and on conditions of sale not less favorable than those offered to KST, a quantity of sheet steel for use in the manufacture of ERWMSST equal to the average of such Producer's annual purchases of sheet steel from Respondent for use in the manufacture of ERWMSST for the three years during the period 1969 through 1973, inclusive, in which such company purchased the greatest quantities of sheet steel from Respondent (its "base years"). In making such allocations, Respondent shall use its best efforts to make available to each such ERWMSST Producer, hot-rolled, cold-rolled and galvanized sheet steel in the same ratio as those types of steel were purchased by such Producer from Respondent during its base years. Respondent shall make available for sale to any California ERWMSST Producer (1) whose average annual purchases of sheet steel from Respondent for use in the manufacture of ERWMSST during its "base years" were less than 1,000 tons, or (2) who commenced the manufacture and sale of ERWMSST in the State of California subsequent to the date of this Order, a minimum annual allocation of 1,000 tons of hot-rolled sheet steel for use in the manufacture of ERWMSST.

B. In any calendar year Respondent shall increase the quantities of sheet steel made available to California ERWMSST Producers pursuant to Paragraph II(A) by the same percentage by which its sales of sheet steel to KST for use in the manufacture of ERWMSST in the most recent calendar year exceeded its 1974 sales of sheet steel to KST for that purpose.

C. Respondent shall in each year, to the extent Secondary Sheet Steel is available, include in the quantity of sheet steel made avalable for sale to each California ERWMSST Producer pursuant to this Paragraph, at such Producer's option, Secondary Sheet Steel for use in the manufacture of ERWMSST in the same proportion that Respondent's sales of Secondary Sheet Steel to KST for use in the manufacture of ERWMSST in the then current calendar year bear to its total sales of sheet steel to KST for that purpose during such calendar year.

D. Respondent shall not be obligated to deliver sheet steel offered for sale to California ERWMSST Producers pursuant to the provisions of this Paragraph during any period when its ability to produce or deliver sheet steel is substantially impaired by reason of labor difficulties, war, civil commotion, act of God, governmental action, failure of equipment, sources of supply or transportation, or other occurrence beyond Respondent's control; and the quantity of sheet steel which Respondent shall be obligated to make available for sale to California ERWMSST Producers in any year in which such an occurrence takes place shall be reduced in proportion to the total reduction in Respondent's production of sheet steel, caused by such occurrence, below its projected production for that year.

III

It is further ordered, That within one year from the date this Order becomes

[1] Copies of the Complaint, Decision and Order filed with the original document.

final, Respondent shall, or shall cause KST to, with respect to each of three tube mills and associated equipment (including jib crane; pay-off reel; coil end joining table; looping system; forming mill; welder; tube cooling section; sizing mill; cut-off device; drive system and console table) suitable for the manufacture of ERWMSST in commonly used sizes from approximately ½ inch to approximately 1½ inch diameter, presently included among The Business of MSL Tube, either (1) sell such mill or mills and associated equipment to persons who are not Affiliated Persons; or (2) impound such mill or mills and associated equipment, provided that any mill or mills and associated equipment so impounded shall not again be used by Respondent or KST for the production of ERWMSST within the State of California without prior consent of the Commission.

IV

It is further ordered, That if Respondent or KST elects to sell any tube mill pursuant to alternative one of Paragraph III of this Order, nothing in this Order shall be deemed to prohibit Respondent from retaining, accepting, and enforcing in good faith any security interest therein, not to exceed five years in duration, for the sole purpose of securing to Respondent or KST full payment of the price, with interest, at which such tube mill is sold; *provided, however*, that should Respondent or KST, by exercise of such security interest regain direct or indirect control of any such tube mill, it shall be redivested or impounded in accordance with Paragraph III of this Order, within one year from the date of reacquisition.

V

It is further ordered, That KST shall not sell or offer to sell ERWMSST and steel mill products together at a single price. Nothing in this Paragraph shall prevent KST from offering carload or truckload discounts which are computed on the sale of quantities of both tubing and such other products, based on cost savings attributable to the sale of those products together.

VI

It is further ordered, That Respondent shall, within 60 days from the date this Order becomes final, submit to the Commission a detailed written report of its actions, plans, and progress in complying with the provisions of this Order and in fulfilling its objectives. Every 60 days thereafter, until Respondent has taken one of the alternative actions required by Paragraph III of this Order, Respondent shall submit a subsequent report on its progress in complying with Paragraph III. Respondent shall submit annually, within 90 days after the end of its fiscal year, a detailed written report of its actions in complying with the remaining provisions of this Order.

VII

It is further ordered, That, pending sale or impoundment of the tube mills which are the subject of Paragraph III of this Order, Respondent shall not make any changes in, other than in the ordinary course of business, or permit any deterioration of, any of such tube mills which may impair such mill's capacity for the manufacture of ERWMSST.

VIII

It is further ordered, That, for a period of ten years from the date this Order becomes final, Respondent shall not, without the prior approval of the Federal Trade Commission, acquire, or acquire and hold, directly or indirectly, the whole or any part of the assets, stock, share capital, or other actual or potential equity interest or right of participation in the earnings of any domestic concern, corporate or non-corporate, engaged in the manufacture of ERWMSST in the States of Arizona, California, Idaho, Nevada, Oregon, Utah and Washington.

IX

It is further ordered, That Respondent notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation, or any other proposed change in the corporation which may affect compliance obligations arising out of this Order.

X

It is further ordered, That the provisions of this Order shall remain in effect for a period of ten years from the date this Order becomes final.

In the matter of Litton Industries, Inc.

Order modifying a substitute order dated March 4, 1975, 85 F.T.C. —, 40 FR 18989, by striking the compliance paragraph requiring the filing of reports every sixty (60) days and substituting a new compliance paragraph requiring the filing of compliance reports on an annual basis after finality of the order.

The order modifying order to cease and desist, including further order requiring report of compliance therewith, is as follows:[1]

Respondent, by letter dated July 25, 1975, which will be treated as a petition to reopen this proceeding, has requested that the requirement that it file compliance reports at 60-day intervals, contained in the order to cease and desist issued March 4, 1975, be modified so as to require only annual reports. The Bureau of Competition has filed an answer wherein it advises that it does not oppose respondent's request.

The Commission has duly considered respondent's request and has determined that it should be granted.

It is ordered That the proceeding be, and it hereby is, reopened.

It is further ordered That the order to cease and desist be, and it hereby is, modified by striking the compliance paragraph and substituting therefor the following:

It is further ordered That respondent shall, within 60 days after the date of service of this order, and on the anniversary of the date of finality of the order thereafter, until respondent shall have fully complied with the provisions of this order, submit, in writing, to the Federal Trade Commission a report setting forth in detail the manner and form in which respondent intends to comply, is complying, or has complied with this order.

The order modifying order to cease and desist was issued by the Commission September 3, 1975.

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

[Docket No. 75N-0033]

COLOR ADDITIVES AND CERTIFICATION

Updating and Corrections

The Commissioner of Food and Drugs is issuing regulations to remove certain internal inconsistencies and certain obsolete provisions from the color additive regulations (21 CFR Parts 8 and 9). This regulation is effective December 1, 1975.

Under the Color Additive Amendments of 1960 to the Federal Food, Drug, and Cosmetic Act, all color additives used in foods, drugs, and cosmetics must first be listed for such use by the Food and Drug Administration (Pub. L. 86-618, Title I, 74 Stat. 397-404 (21 U.S.C. 376)). However, to permit continued use of colors that were already commercially established when the amendments were enacted, pending determinations regarding the listing of such colors, the transitional provisions of the Color Additive Amendments provide for provisional listing of such commercially established colors (Pub. L. 86-618, Title II, 74 Stat. 404-407 (21 U.S.C. 376 note)).

Since 1960, numerous colors have been listed or provisionally listed by the Food and Drug Administration for various uses, and other colors have been removed from use. Also, some colors are now listed for certain uses and provisionally listed for other uses.

In reviewing the color additive regulations, it has come to the Commissioner's attention that, in the course of promulgating and revising numerous color additive regulations over the past 15 years, certain internal inconsistencies have inadvertently resulted and certain obsolete material has inadvertently been retained. The amendments below correct these errors.

The corrections fall into the following categories:

1. *Nomenclature and specifications.* When a color additive is listed for any use, current scientific nomenclature and specifications for the color are employed. This has occasionally led to situations where a new regulation listing a color for certain uses employs more modern nomenclature and specifications for the color than an older provisional listing regulation applicable to other uses of the color. Where such inconsistency exists, the regulations have been amended to incorporate uniformly the modern nomenclature and specifications employed in the more recent regulation. Such changes are made in the provisional regulations for FD&C Blue No. 2, D&C Green No. 5, FD&C Yellow No. 5, FD&C Red No. 3, and FD&C Blue No. 1. Also, the table entry in § 8.501(a) for FD&C Red No. 3 is set out in the amendment below to restore the footnote reference inserted by publication in the FEDERAL REGISTER of July 12, 1969 (34 FR 11542) and omitted inadvertently in the 1973, 1974, and 1975 CFR editions.

2. *Deletions of obsolete regulations.* The provisional listings for FD&C Blue No. 2 and D&C Green No. 8 have been restricted to limit the provisional listings clearly to the uses for which petitions have been filed.

The amendments to the regulations also delete from 21 CFR Part 9 provisional specifications for D&C Green No. 7, D&C Red No. 14, D&C Red No. 29, and D&C Red No. 39, all of which are no longer provisionally listed in 21 CFR 8.501. Section 8.510(d) (21 CFR 8.510 (d)) is likewise amended to eliminate cross-references to obsolete specifications, which are being deleted from the regulations by these amendments.

3. *Miscellaneous.* In addition to corrections noted above, certain other changes are made for internal consistency within the regulations, e.g., the third sentence in the introductory paragraph of § 8.501 (21 CFR 8.501) is revised to show that specifications for a provisionally listed color may appear in Part 8 as well as Part 9; the provisional listings in § 8.501(b) for D&C Red No. 36 and D&C Orange No. 5 are revised to cross-reference § 8.503 (21 CFR 8.503), which specifically applies to these colors and should be cross-referenced for the information of persons reading the provisional listings; and § 8.510 is amended to be consistent with the regulation published in the FEDERAL REGISTER of March 15, 1973 (38 FR 7006) restoring D&C Brown No. 1 and Ext. D&C Violet No. 2 to the provisional lists for coloring use in externally applied cosmetics and to delete the obsolete parenthetical reference to § 9.90 (21 CFR 9.90) in paragraph (h)(1) of the section.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 701(a), Pub. L. 75-717, 52 Stat. 1055 (21 U.S.C. 371 (a))) and the transitional provisions of the Color Additive Amendments of 1960 (sec. 201 et seq., Pub. L. 86-618, 74 Stat. 404-407 (21 U.S.C. 376 note)) and under authority delegated to the Commissioner (21 CFR 2.120), Parts 8 and 9 of Chapter I of Title 21 of the Code of Federal Regulations are amended as follows:

PART 8—COLOR ADDITIVES

1. Part 8 is amended as follows:

a. In § 8.501, the introductory text and the following entries in the tables in paragraphs (a) and (b) are revised to read as follows:

§ 8.501 Provisional lists of color additives.

The Commissioner of Food and Drugs finds that the following lists of color additives are provisionally listed under section 203(b) of the Color Additive Amendments of 1960 (sec. 203(b), 74 Stat. 405 (21 U.S.C. 376 note)). Except for color additives for which petitions have been filed, progress reports are required by January 1, 1968, and at 6-month intervals thereafter. Specifications for color additives listed in paragraphs (a), (b), and (c) of this section appear in the respective designated sections. The listing of color additives in this section is not to be construed as a listing for surgical suture use unless color additive petitions have been submitted for such use or the Commissioner has been notified of studies underway to establish the safety of the color additive for such use. The color additives listed in paragraphs (a), (b), and (c) may not be used in products which are intended to be used in the area of the eye.

The color additive FD&C Yellow No. 5 shall conform in identity and specifications to the requirements of § 8.275(a) (1) and (b) of this chapter.

b. By revising § 9.62 to read as follows:

§ 9.62 FD&C Red No. 3.

The color additive FD&C Red No. 3 shall conform in identity and specifications to the requirements of § 8.242(a) (1) and (b) of this chapter.

c. By revising § 9.80 to read as follows:

§ 9.80 FD&C Blue No. 1.

The color additive FD&C Blue No. 1 shall conform in identity and specifications to the requirements of § 8.206(a) (1) and (b) of this chapter.

d. By revising § 9.81 to read as follows:

§ 9.81 FD&C Blue No. 2.

The color additive FD&C Blue No. 2 shall conform in identity and specifications to the requirements of § 8.4022(a) and (b) of this chapter.

e. By revising § 9.103 to read as follows:

§ 9.103 D&C Green No. 5.

The color additive D&C Green No. 5 shall conform in identity and specifications to the requirements of § 8.4069(a) and (b) of this chapter.

§ 9.184 [Revoked]

i. By revoking § 9.184 *D&C Red No. 39.*

Effective date. This order shall become effective December 1, 1975. The Commissioner invites comment from any interested person(s) designating other inconsistencies or obsolete provisions in the color additive regulations which should be corrected. The Commissioner will stay any provision of this order for which comment is received by October 30, 1975, showing that substantive rights have been impaired, e.g., the Commissioner has not intended by this order to delete from the regulations any provisionally listed use of a color supported by a color additive petition, and the Commissioner would reinstate any use deleted by this order for which it could be shown that a supporting petition was in fact on file with the Food and Drug Administration.

Title 37—Patents, Trademarks, and Copyrights

CHAPTER I—PATENT AND TRADEMARK OFFICE, DEPARTMENT OF COMMERCE

PART 1—RULES OF PRACTICE IN PATENT CASES

Late Payment of Issue Fee

On March 25, 1975, notice of proposed rulemaking was published in the FEDERAL REGISTER (40 FR 13221) regarding the proposal by the Patent and Trademark Office to amend Title 37 of the Code of Federal Regulations by amending § 1.316 and by revising § 1.317 dealing with the late payment of issue fees. Interested persons were given until June 4, 1975 to submit written comments and suggestions. Full and careful consideration was given to all written comments received. Upon review of these comments it was recognized that § 1.155 dealing with the issue and term of design patents should also be amended.

The amendment to § 1.155 is to add a new paragraph (b) worded exactly the same as that proposed, and now being promulgated, for paragraph (b) of § 1.316. Since the wording of revised paragraph (b) of § 1.155 is exactly the same as that proposed for paragraph (b) of § 1.316, and the concept involved is exactly the same, further notice and public procedure relative to § 1.155 are found to be unnecessary under 5 U.S.C. 553(a) (3)(B) and (d)(3).

In consideration of the comments received and pursuant to the authority contained in Section 6 of the Act of July 19, 1952 as amended (85 Stat. 364; 35 U.S.C. 6), Part I of Title 37, Code of Federal Regulations is hereby amended as set forth below.

1. Section 1.155 is revised to read as follows:

§ 1.155 Issue and term of design patents.

(a) If, on examination, it shall appear that the applicant is entitled to a design patent under the law, a notice of allowance will be sent to him, his attorney, or his agent, calling for the payment of an issue fee in an appropriate amount dependent on the duration of the term desired by the applicant. If this issue fee is not paid within 3 months of the date of the notice of allowance, the application shall be regarded as abandoned.

(b) The Commissioner may accept the late payment of the fee specified in the notice of allowance later than three months after the mailing of the notice as though no abandonment had ever occurred if upon petition the delay in payment is shown to have been unavoidable. The petition to accept the delayed payment must be accompanied by the issue fee or portion thereof specified in the notice of allowance, unless it has been previously submitted, the fee for delayed payment, and a showing in the form of an oath or declaration as to the causes of the delay.

2. In section 1.316, paragraph (b) is revised to read as follows:

§ 1.316 Application abandoned for failure to pay issue fee.

* * * * *

(b) The Commissioner may accept the late payment of the fee specified in the notice of allowance later than three months after the mailing of the notice as though no abandonment had ever occurred if upon petition the delay in payment is shown to have been unavoidable. The petition to accept the delayed payment must be accompanied by the issue fee or portion thereof specified in the notice of allowance, unless it has been previously submitted, the fee for delayed payment, and a showing in the form of an oath or declaration as to the causes of the delay.

3. Section 1.317 is revised to read as follows:

§ 1.317 Lapsed patents; delayed payment of balance of issue fee.

(a) Any remaining balance of the issue fee is to be paid within three months from the date of notice thereof and, if not paid, the patent will lapse at the termination of the three month period.

(b) The Commissioner may accept the late payment of the balance of the issue fee after the three month period as though no lapse had ever occurred if upon petition the delay in payment is shown to have been unavoidable. The petition to accept the delayed payment must be accompanied by the remaining balance of the issue fee specified in the notice, unless it has been previously submitted, the fee for delayed payment, and a showing in the form of an oath or declaration as to the causes of the delay.

Effective date. This revision shall become effective November 1, 1975.

LUTRELLE F. PARKER,
Acting Commissioner of Patents and Trademarks.

BETSY ANCKER-JOHNSON,
Assistant Secretary for Science and Technology.

Title 42—Public Health

CHAPTER I—PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 57—GRANTS FOR CONSTRUCTION OF HEALTH RESEARCH FACILITIES (INCLUDING MENTAL RETARDATION RESEARCH FACILITIES, TEACHING FACILITIES, STUDENT LOANS, EDUCATIONAL IMPROVEMENT AND SCHOLARSHIPS

Special Health Career Opportunity Grants

In the FEDERAL REGISTER of March 13, 1975 (40 FR 11733), the Assistant Secretary for Health, with the approval of the Secretary of Health, Education, and Welfare, proposed to amend Part 57 by adding a new Subpart S to implement section 774(b) of the Public Health Service Act. That section authorizes the Secretary to award grants to public or nonprofit private health or educational entities to assist in meeting the costs of special health career opportunity projects, as set forth in the authorizing legislation.

Interested persons were afforded the opportunity to participate in the rulemaking through submission of comments on or before April 14, 1975. The following is a summary of the comments received and the response to such comments:

(1) Section 57.1802(h)(1) of the proposed regulations (§ 57.1802(i)(1) of the final regulations) includes as eligible for support projects to increase the enrollment of specified types of students in "*schools of* medicine, dentistry, osteopathy, optometry, podiatry, pharmacy, veterinary medicine, *public health or other health training*". (Emphasis supplied.) One comment suggested that the regulations define the terms "public health" and "other health training" as so used. Section 724 of the Public Health Service Act defines the term "school of public health" for purposes of this program as a school which provides training leading to a graduate degree in public health. Accordingly, and in response to this comment, a new § 57.1802(f) has been added to the regulation, which includes such definition of "school of public health". In the interest of clarity that section also includes the statutorily mandated definitions of the other listed health professions schools. The final regulations, however, do not contain a definition of "other health training". Since training for supportive personnel is an expanding field in which new types of health personnel are continually being developed, it is felt that a regulatory definition of "other health training" would be too restrictive at the present time.

(2) One comment suggested that because of the shortage of health personnel in many rural areas, the proposed regulations be revised to require that "persons receiving financial assistance" under section 774(b) serve in rural areas or repay such assistance. There is no authority in the statute for imposing a service or repayment obligation upon persons who participate in supported projects, and therefore the suggested addition has not been made.

(3) One comment recommended that the proposed regulations be revised to provide direct financial assistance to individuals for training as health personnel in shortage areas. Grants under section 774(b) may only be made, however, to public or nonprofit private health or educational entities which will undertake the projects there listed, and therefore the suggested revision cannot be made.

(4) One comment recommended that schools of public administration be among the educational resources utilized as health training institutions under § 57.1802(i)(1) of the regulations (§ 57.1802(h)(1) of the proposed regulations). For the reasons stated above (see comment 1), a definition of "other health training" has not been included in the regulations. While schools of public administration, as educational entities, are eligible for grants under this subpart, they must propose projects which are designed to carry out the purposes specified in the authorizing legislation. Grants made pursuant to section 774(b) are not intended for the support of the health training program itself, but are only to assist in meeting the costs of projects designed to identify and increase admission and enrollment of certain individuals in schools providing health training.

(5) One comment questioned the wisdom of evaluating proposed projects on, among other factors, ". . . the potential of the project to continue on a self-sustaining basis", as provided in § 57.1805(a)(4) of the proposed regulations since the individuals participating in projects supported under section 774(b) may be financially or otherwise disadvantaged. That provision of the regulations, however, is concerned with the potential of the applicant, i.e., the health or educational entity, rather than the potential of individuals, to continue the project after the period of grant support. The proposed provision has been revised in order to clarify this point, and it now appears as § 57.1805(a)(5) of the regulations.

In addition to the changes described above, § 57.1804 of the proposed regulations, "Application", has been revised to provide further information concerning the contents of an approvable application for a special health career opportunity grant. Section 57.1808 of the proposed regulations, "Nondiscrimination", has also been revised to include a provision calling attention to the requirements of section 504 of the Rehabilitation Act of 1973, as amended, relating to nondiscrimination of the handicapped.

Accordingly, a new Subpart S is added to 42 CFR Part 57 and is adopted as set out below.

Effective date: These regulations are effective September 30, 1975.

Dated: August 26, 1975.

R. MOURE,
Assistant Secretary for Health.

Approved: September 25, 1975.

DAVID MATHEWS,
Secretary.

AUTHORITY: Sec. 215, 58 Stat. 690, as amended (42 U.S.C. 216); sec. 774(b) 85 Stat. 446 (42 U.S.C. 295f-4(b)).

§ 57.1801 Applicability.

The regulations of this subpart are applicable to the award of special health career opportunity grants to public or

nonprofit private health or educational entities under section 774(b) of the Public Health Service Act (42 U.S.C. 295f–4(b)).

§ 57.1802 Definitions.

As used in this subpart:

(a) "Act" means the Public Health Service Act, as amended.

(b) "Secretary" means the Secretary of Health, Education, and Welfare and any other officer or employee of the Department of Health, Education, and Welfare to whom the authority involved has been delegated.

(c) "Council" means the National Advisory Council on Health Professions Education (established by section 725 of the Act).

(d) "Health or educational entity" means an organization, agency, or combination thereof, which has the provision of health or educational programs as one of its major functions.

(e) "Nonprofit" as applied to any private entity means that no part of the net earnings of such entity inures or may lawfully inure to the benefit of any private shareholder or individual.

(f) "School of medicine", "school of dentistry", "school of otseopathy", "school of pharmacy", "school of optometry", "school of podiatry", "school of public health" mean a school which provides training leading, respectively, to a degree of doctor of medicine, a degree of doctor of dentistry or an equivalent degree, a degree of doctor of osteopathy, a degree of bachelor of science in pharmacy or an equivalent degree, a degree of doctor of optometry or an equivalent degree, a degree of doctor of podiatry or an equivalent degree, a degree of doctor of veterinary medicine or an equivalent degree, and a graduate degree in public health, and including advanced training related to such training provided by any such school.

(g) "Project period" means the total time for which support for a project has been approved, as specified in the grant award document.

(h) "Budget period" means the interval of time into which the approved activity is divided for budgetary purposes, as specified in the grant award document.

(i) "Special health career opportunity grant" means a grant under this subpart to assist in meeting the costs of projects to:

(1) establish or operate projects designed to identify, and increase admissions to and enrollment in schools of medicine, dentistry, osteopathy, optometry, podiatry, pharmacy, veterinary medicine, public health, or other health training of, individuals whose background and interests make it reasonable to assume that they will engage in the practice of their health profession in rural or other areas having a severe shortage of personnel in such health professions; or

(2)(i) identify individuals with a potential for education or training in the health professions (including veterans of the Armed Forces of the United States with training or experience in the health field) who due to socioeconomic factors are financially or otherwise disadvantaged, and encourage and assist them (A) to enroll in a school of medicine, dentistry, osteopathy, pharmacy, optometry, podiatry, veterinary medicine, public health, or other health training; or (B) if they are not qualified to enroll in such a school, to undertake such postsecondary education or training as may be required to qualify them to enroll in such a school; or

(ii) publicize existing sources of financial aid available to persons enrolled in any such school or who are undertaking training necessary to qualify them to enroll in any such school; or

(iii) establish such programs as the Secretary determines will enhance and facilitate the enrollment, pursuit, and completion of study by individuals referred to in subsection (2)(i) in schools referred to in subsection (2)(i)(A).

(ii) publicize existing sources of financial aid available to persons enrolled in any such school or who are undertaking training necessary to qualify them to enroll in any such school; or

(iii) establish such programs as the Secretary determines will enhance and facilitate the enrollment, pursuit, and completion of study by individuals referred to in subsection (2)(i) in schools referred to in subsection (2)(i)(A).

§ 57.1803 Eligibility.

To be eligible for a grant under section 774(b) of the Act the applicant shall:

(a) Be a public or nonprofit private health or educational entity.

(b) Be located in any one of the several states of the United States, the District of Columbia, Puerto Rico, the Virgin Islands, the Canal Zone, Guam, American Samoa, or the Trust Territory of the Pacific Islands.

§ 57.1804 Application.

(a) Each eligible health or educational entity desiring a special health career opportunity grant shall submit an application in such form and at such time as the Secretary may prescribe.[1]

(b) The application shall be executed by an individual authorized to act for the applicant and to assume on behalf of the applicant the obligations imposed by the terms and conditions of any award, including the regulations of this subpart.

(c) The application shall contain a full and adequate description of the proposed project and of the manner in which the applicant intends to conduct the project and carry out the requirements of this subpart, a budget and justification of the amount of grant funds requested, and such other pertinent information as the Secretary may require.

(d) To be considered for approval under this subpart, an application must, at a minimum, meet each of the following requirements:

(1) Propose a project to carry out one or more of the purposes specified in section 774(b) of the Act.

(2) Set forth specific, measurable objectives for the project that are consistent with the purposes of section 774(b) of the Act.

(3) Describe the content of the proposed project in light of the objectives set forth in paragraph (d)(2) of this section.

(4) Describe a methodology for assessing the proposed project and the degree to which the defined objectives are met.

(5) In the case of projects designed to promote the purpose specified in section 774(b)(1) of the Act, describe a methodology for identifying those individuals whose background and interests make it reasonable to assume that they will engage in the practice of their health profession in rural or other areas having a severe shortage of personnel in such health professions.

(6) In the case of projects designed to promote the purpose specified in section 774(b)(1) of the Act, describe the manner in which the proposed project will increase admissions to and enrollment in schools of medicine, dentistry, osteopathy, optometry, podiatry, pharmacy, veterinary medicine, public health, or other health training of individuals referred to in paragraph (d)(5) of this section.

(7) In the case of projects designed to promote one or more of the purposes specified in section 774(b)(2) of the Act, describe a methodology for identifying those individuals with a potential for education or training in the health professions (including veterans of the Armed Forces of the United States with training or experience in the health field) who due to socioeconomic factors are financially or otherwise disadvantaged.

(8) In the case of projects designed to promote one or more of the purposes specified in section 774(b)(2) of the Act, describe the manner in which the proposed project will encourage and assist individuals referred to in paragraph (d)(7) of this section (i) to enroll in a school of medicine, dentistry, osteopathy, pharmacy, optometry, podiatry, veterinary medicine, public health, or other health training; or (ii) if they are not qualified to enroll in such a school, to undertake such postsecondary education or training as may be required to qualify them to enroll in such a school.

(9) Estimate the number of individuals referred to in paragraph (d)(5) or paragraph (d)(7) of this section, as appropriate, to be aided by the proposed project.

(10) Provide evidence satisfactory to the Secretary that the applicant will have available adequate staff, facility and equipment resources for the conduct of the proposed project.

§ 57.1805 Evaluation and grant awards.

(a) Within the limits of funds available for such purpose, the Secretary, after consultation with the Council, may award grants to those applicants whose projects will in his judgment best promote the purposes of section 774(b) of the Act, taking into consideration:

(1) The potential effectiveness of the proposed project in carrying out such purposes;

[1] Applications and instructions may be obtained from the Regional Health Administrator of the Regional Office of the Department of Health, Education, and Welfare for the region in which the applicant is located.

(2) The number and types of individuals who can be expected to benefit from the project;

(3) The administrative and managerial ability of the applicant to carry out the project successfully;

(4) The soundness of the fiscal plan for assuring effective utilization of grant funds; and

(5) The potential of the project, after the period of grant support, to continue to meet the purposes of section 774(b) through other financial resources.

(b) The amount of any award under this subpart will be determined by the Secretary on the basis of his estimate of the sum necessary for all or a designated portion of the direct costs of the project plus an additional amount for indirect costs, if any, which will be calculated by the Secretary either (1) on the basis of his estimate of the actual indirect costs reasonably related to the project, or (2) on the basis of a percentage of all or a portion of, the estimated direct costs of the project when there are reasonable assurances that the use of such percentage will not exceed the approximate actual indirect costs. Such award may include an estimated provisional amount for indirect costs or for designated direct costs (such as fringe benefit rates) subject to upward (within the limits of available funds) as well as downward adjustments to actual costs when the amount properly expended by the grantee for provisional items has been determined by the Secretary.

(c) All grant awards shall be in writing, and shall set forth the amount of funds granted and the period for which such funds will be available for obligation by the grantee.

(d) Neither the approval of any project nor the award of any grant shall commit or obligate the United States in any way to make any additional, supplemental, continuation, or other award with respect to any approved project or portion thereof. For continuation support, grantees must make separate application at such times and in such form as the Secretary may dictate.

§ 57.1806 Grant payments.

The Secretary shall from time to time make payments to a grantee of all or a portion of any grant award, either in advance or by way of reimbursement for expenses incurred or to be incurred in the performance of a project, to the extent he determines such payments necessary to promote prompt initiation and advancement of the approved project.

§ 57.1807 Expenditure of grant funds.

(a) Any funds granted pursuant to this subpart shall be expended solely for carrying out the approved project in accordance with section 774(b) of the Act, the regulations of this subpart, the terms and conditions of the award and the applicable cost principles prescribed by Subpart Q of 45 CFR Part 74.

(b) Any unobligated grant funds remaining in the grant account at the close of a budget period may be carried forward and be available for obligation during subsequent budget periods of the project period. The amount of a subsequent award will take into consideration the amount remaining in the grant account. At the end of the last budget period of the project period, any unobligated grant funds remaining in the grant account must be refunded to the Federal Government.

§ 57.1808 Nondiscrimination.

(a) Attention is called to the requirements of section 799A of the Act and 45 CFR Part 83 which together provide that the Secretary may not make a grant, loan guarantee, or interest subsidy payment under Title VII of the Act to, or for the benefit of, any entity unless he receives satisfactory assurances that the entity will not discriminate on the basis of sex in the admission of individuals to its training programs.

(b) Attention is called to the requirements of Title VI of the Civil Rights Act of 1964 (78 Stat. 252, 42 U.S.C. 2000d et seq.), and in particular to section 601 of such Act which provides that no person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. A regulation implementing such Title VI, which is applicable to grants made under this subpart, has been issued by the Secretary with the approval of the President (45 CFR Part 80).

(c) Attention is called to the requirements of Title IX of the Education Amendments of 1972 and in particular to section 901 of such Act which provides that no person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance.

(d) Attention is called to the requirements of section 504 of the Rehabilitation Act of 1973, as amended, which provides that no otherwise qualified handicapped individual in the United States shall solely by reason of his handicap, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.

(d) Grant funds used for alteration or renovation shall be subject to the condition that the grantee shall comply with the requirements of Executive Order 11246, 30 FR 12319 (Sept. 24, 1965) as amended, and with the applicable rules, regulations, and procedures prescribed pursuant thereto.

§ 57.1809 Grantee accountability.

(a) *Accounting for grant award payments.* All payments made by the Secretary shall be recorded by the grantee in accounting records separate from the records of all other funds, including funds derived from other grant awards. With respect to each approved project the grantee shall account for the sum total of all amounts paid by presenting or otherwise making available evidence satisfactory to the Secretary of expenditures for costs meeting the requirements of this subpart: *Provided*, That when the amount awarded for indirect costs was based on a predetermined fixed percentage of estimated direct costs, the amount allowed for indirect costs shall be computed on the basis of such predetermined fixed-percentage rates applied to the total or selected elements of the reimbursable direct costs incurred.

(b) *Accounting for royalties.* Royalties received by grantees from copyrights on publications or other works developed under the grant, or from patents or inventions conceived or first actually reduced to practice in the course of or under such grant shall be accounted for as follows:

(1) *State and local governments.* Where the grantee is a State or local government as those terms are defined in 45 CFR 74.3, royalties shall be accounted for as provided in 45 CFR 74.44.

(2) *Grantees other than State and local governments.* Where the grantee is not a State or local government as so defined, royalties shall be accounted for as follows:

(i) Patent royalties, whether received during or after the grant period, shall be governed by agreements between the Assistant Secretary for Health, Department of Health, Education, and Welfare, and the grantee, pursuant to the Department's patent regulations (45 CFR Parts 6 and 8).

(ii) Copyright royalties, whether received during or after the grant period, shall first be used to reduce the Federal share of the grant to cover the costs of publishing or producing the materials, and any royalties in excess of the costs of publishing or producing the materials shall be distributed in accordance with Chapter 1-420, Department of Health, Education, and Welfare Grants Administration Manual.[2]

(c) *Grant closeout.*—(1) *Date of final accounting.* A grantee shall render, with respect to each approved project, a full account, as provided herein, as of date of the termination of grant support. The Secretary may require other special and periodic accounting.

(2) *Final settlement.* There shall be payable to the Federal Government as final settlement with respect to each approved project the total sum of (i) any amount not accounted for pursuant to paragraphs (a) and (b) of this section; and (ii) any other amounts due pursuant to Subparts F, M, and O of 45 CFR Part 74. Such total sum shall constitute a debt owed by the grantee to the Federal Government and shall be recovered from the grantee or its successor or assigns by setoff or other action as provided by law.

§ 57.1810 Publications and copyright.

(a) *State and local governments.* Where the grantee is a State or local government as those terms are defined in 45 CFR 74.3, the Department of

[2] The Department of Health, Education, and Welfare Grants Administration Manual is available for public inspection and copying at the Department's and Regional Offices' information centers listed in 45 CFR 5.31 and may be purchased from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

Health, Education, and Welfare copyright requirement set forth in 45 CFR 74.140 shall apply with respect to any book or other copyrightable materials developed or resulting from a project supported by a grant under this subpart.

(b) *Grantees other than State and local governments.* Where the grantee is not a State or local government, as so defined, except as may otherwise be provided under the terms and conditions of the award, the grantee may copyright without prior approval any publications, films, or similar materials developed or resulting from a project supported by a grant under this subpart, subject to a royalty-free, nonexclusive, and irrevocable license or right in the Government to reproduce, translate, publish, use, disseminate and dispose of such materials, and to authorize others to do so.

§ 57.1811 Applicability of 45 CFR Part 74.

The provisions of 45 CFR Part 74, establishing uniform administrative requirements and cost principles shall apply to all grants under this subpart to State and local governments as those terms are defined in Subpart A of Part 74. The relevant provisions of the following subparts of Part 74 shall also apply to all other grantee organizations under this subpart:

SUBPART

A General.
B Cash Depositories.
C Bonding and Insurance.
D Retention and Custodial Requirements for Records.
F Grant-Related Income.
K Grant Payment Requirements.
L Budget Revision Procedures.
M Grant Closeout, Suspension, and Termination.

Q Cost Principles.

§ 57.1812 Additional conditions.

The Secretary may with respect to any grant award impose additional conditions prior to or at the time of any award when in his judgment such conditions are necessary to assure or protect advancement of the approved project, the interests of the public health, or the conservation of grant funds.

CHAPTER II—BUREAU OF LAND MANAGEMENT, DEPARTMENT OF THE INTERIOR

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 5540; Arizona 029895]

ARIZONA

Partial Revocation of Reclamation Withdrawals

By virtue of the authority contained in section 3 of the Act of June 17, 1902, as amended and supplemented, 43 U.S.C. 416 (1970), it is ordered as follows:

1. The departmental orders of July 2, 1902, September 30, 1904, and March 14, 1929, and any other order or orders which withdrew lands for reclamation purposes, are hereby revoked so far as they affect the following described lands:

GILA AND SALT RIVER MERIDIAN

T. 9 S., R. 23 W.,
sec. 32, E½NE¼NE¼, SW¼NE¼NE¼, N½SE¼NW¼NE¼, NW¼NW¼NE¼, N½SW¼NW¼NE¼, N½SW¼NE¼, NW¼SE¼NE¼, E½NW¼, SW¼, S½NW¼SE¼, N½SW¼SE¼, SE¼SW¼SE¼, SE¼SE¼.

The areas described aggregate 410 acres in Yuma County.

2. Of the lands described above the following will not be subject to use or disposition under the public land laws as consummation of this revocation will vest title in the State of Arizona by virtue of the Act of June 20, 1910 (36 Stat. 572):

GILA AND SALT RIVER MERIDIAN

T. 9 S., R. 23 W.,
Sec. 32, E½NW¼, SW¼, S½NW¼SE¼, N½SW¼SE¼.

The areas described aggregate 280 acres.

The remaining lands have been conveyed out of Federal ownership and are not subject to use or disposition under the public land laws.

Dated: September 23, 1975.

SUBTITLE A—OFFICE OF THE SECRETARY OF THE INTERIOR

PART 18—RECREATION FEES

Recreation Use Fees for Rental of Hunting Blinds

On August 15, 1975, there was published in the FEDERAL REGISTER (40 FR 34368) a notice of proposed amendment to 43 CFR 18.9, which sets forth a schedule of recreation use fees to be collected by outdoor recreation administering bureaus of the Department of the Interior, to authorize those bureaus to select a fee for the rental of hunting blinds up to $10 per blind per day or a fraction thereof. The public was afforded a 30-day comment period.

No comments were received. Therefore, § 18.9(c) of Title 43 of the Code of Federal Regulations is amended as follows:

§ 18.9 Establishment of recreation use fees.

(c) Schedule of Recreation Use Fees: * *

Rental of hunting blinds	Up to $10 per blind per day or fraction thereof.

The Department of the Interior has determined that the beginning of the migratory waterfowl hunting seasons on October 1, 1975, constitutes "good cause" under 5 U.S.C. § 553(d)(3) (1970) to

warrant the expeditious adoption of this amendment in order to permit the orderly and efficient administration of hunting activities on those national wildlife refuges where migratory waterfowl hunting is permitted. Accordingly, the effective date of this amendment is September 30, 1975.

CHAPTER X—COMMUNITY SERVICES ADMINISTRATION

PART 1076—ECONOMIC DEVELOPMENT PROGRAMS

Composition and Selection of CDC Boards of Directors

The purpose of this subpart is to provide guidelines for the size, residency and representation requirements, and selection procedures for the governing bodies (boards of directors) of community development corporations (CDCs). These guidelines, except as noted, are fairly flexible, permitting CDCs considerable leeway to structure their boards of directors in accordance with local needs and conditions. This subpart therefore provides an overall operating policy for CDCs to follow in establishing their boards, together with certain minimum requirements which all CDCs must meet.

All CDCs were given an opportunity to review this policy statement and to submit comments, many of which have been incorporated into this final version printed herein. However, CSA welcomes additional comments which should be received at CSA by (30 days after publication). Please address all comments to: Mr. Louis Ramirez, Associate Director, Office of Economic Development, Community Services Administration, 1200-19th Street, NW., Washington, D.C. 20506.

Effective date: The provisions of this subpart are effective October 30, 1975.

BERT A. GALLEGOS,
Director.

§ 1076.10-1 Applicability.

This subpart applies to all community development corporations (CDCs) financially assisted by CSA under Sections 712 and 747 of the Community Services Act of 1974, subject to the provisions of § 1076.10-5.

§ 1076.10-2 Policy.

(a) It is the clear intent of Title VII that CDCs be self-help organizations controlled by and responsible to low-income residents. It is also the intent of Title VII that CDCs mobilize other community resources and carry out their self-help efforts in partnership with the business and financial community. The governing policy for CDC boards is therefore that they be composed primarily of low-income residents or their representatives, chosen through a direct or indirect election process to assure their legitimacy as spokesman for the target area residents, with additional representation from local businesses and financial institutions to strengthen the board's technical skills and involvement with the larger community.

(b) § 1076.10-3 provides the specific requirements for the composition of CDC boards. § 1076.10-3 outlines the representation requirements for the two basic categories of board members. § 1076.10-4 provides the specific requirements for selecting board members, including a discussion of the two different methods—direct and indirect—for electing representatives of target area residents.

§ 1076.10-3 Composition of CDC Boards.

(a) *Size of Board.* CDCs are free to determine the size of their boards of directors. In doing so, CDCs must strike a balance between various, sometimes conflicting, considerations. On the one hand, they must be of a sufficient size as to provide adequate representation to both the target area residents and the business community (see paragraph (c) below), to permit the formation of working committees without requiring the same individuals to serve on more than one or two, and to insure that even a minimum quorum is still large enough to represent the community and legitimately reach basic policy and program decisions. On the other hand, the board must be small enough to permit business to be conducted in an efficient and expeditious way. It has been the experience of OED that the ideal size for a CDC board is between 15 and 30 members. Generally, anything larger tends to become unwieldly, while anything smaller overtaxes the capacity of individual members and limits the board's representativeness. Where a CDC chooses to have a board larger than 30 or smaller than 15 members, it shall explain its choice to OED.

(b) *Residency Requirements.* (1) Members of CDC boards of directors should be residents of the special impact area, except in those instances where it is necessary to choose non-residents to insure effective representation of the business and financial community. In almost all rural CDCs (with the possible exception of Indian reservations) where the special impact area is a sizable land mass including middle class and affluent residential areas as well as high levels of low-income population, there will seldom be a need to have non-residents on the board even to represent the business sector. In urban CDCs, where the special impact area is usually a low-income neighborhood of a large city, effective spokesmen for the business and financial community may not reside within the special impact area, even if their businesses or financial institutions are located there. In most urban CDCs it will be necessary to reach out to the larger community to find adequate representation of the business sector.

(2) Nevertheless, as provided in paragraph (c) below, representatives of the special impact area residents must always constitute a controlling interest on the CDC board. Accordingly, even in a CDC where every representative of the business and financial community is a non-resident, a clear majority of the board members will be residents of the area served.

(c) *Representation Requirements.* There are two categories of members on CDC boards of directors: representatives of the low-income community to be served and representatives of the business, financial, and general community.

(1) *Low-Income Community.*

(i) In order to comply with the policy requirements that CDCs be responsive to the low-income residents of the special impact area, representatives of the low-income community must have a controlling interest on any CDC board of directors. This means that at a minimum representatives of the low-income community shall hold more than half of the seats on the board of directors. OED experience has indicated that an even larger proportion, generally around two-thirds, is preferable, since a bare majority is often not enough, given the relative inexperience of some community representatives, for representatives of the low-income community to maintain effective control.

(ii) Often, the total size of the board will determine the proportion of community representatives. The smaller the board, the greater the likelihood that community representatives will constitute less than the preferable two-thirds, so that a sufficient number of business sector representatives may be included on the board. On the other hand, on a larger board of, for example, 25 members, there is no reason why community representatives could not constitute at least two-thirds of the board and still allow sufficient seats for effective representation of the business sector.

(iii) Representatives of the low-income community need not themselves be low-income, provided they have been selected in a democratic fashion in accordance with § 1076.10-4. If appropriate selection procedures have been followed, however, it would normally be anticipated that many of the representatives of the low-income community will themselves be low-income. If only a small proportion of the community representatives are themselves low-income the CDC must demonstrate why this is not an indication of inadequate representation of the community to be served.

(2) *Business and Financial Community.*

(i) The purpose of this category of board membership is twofold: to bring to the board individuals with specialized skills and experience which are crucial if the board is to be able to effectively make policy on business and community development programs; and to provide effective bridges between the CDC and other private financial and leadership resources in the larger community. While such representatives must be willing to make a personal commitment to the CDC

program and its basic objectives, their selection to the board may not be based primarily on their prior interest and involvement in the problems of the low-income community, but rather on their technical expertise and institutional contacts.

(ii) This category of board members normally includes businesspeople, accountants, officials of banks and other financial institutions, management representatives of local industrial firms, attorneys, and others exhibiting a positive interest in the Special Impact Program and the concept of community controlled economic development. This category might also include individuals who are not technically businesspeople but who hold leadership positions of prominence in the community, including public elected officials or their representatives, and directors or senior officials of public agencies or of related private non-profit agencies (e.g. local housing agencies, community action agencies, employment services, foundations, etc.).

(iii) To the extent the duly selected representatives of the low-income community may possess some of these skills, the effectiveness of the entire board will be improved. However, it is highly unlikely the community representatives will themselves bring to the board the total range and depth of business and leadership expertise needed to carry out an effective CDC program. Representatives of the business and financial community must be selected specifically because of their specialized skills.

§ 1076.10–4 Selection of CDC Board Members.

Because of the different purposes of the two categories of board membership, the selection process for each must necessarily be different.

(a) *Low-Income Community.*

(1) Two methods of selecting representatives of the low-income community are generally used by CDCs and are acceptable to OED: direct election by the members (if the CDC is a non-profit corporation) or stockholders (if the CDC is a for-profit corporation) of the CDC; or indirect election by constituent community organizations within the special impact area which themselves use an acceptable democratic selection process. Often a mix of the two methods is used, with some, or most, community representatives chosen by direct election, and others by indirect election. While both methods are acceptable to OED, the direct election method is preferable. Even where it is demonstrated that the indirect election method is justified, it is preferred that a mix of the two methods be used so that at least some representatives are elected directly.

(2) The selection method used will depend primarily on whether or not the CDC has a broad membership base. Where the CDC has a large membership the direct election method is normally used. Where the CDC does not have a large membership the indirect method is often the only alternative. A broad well-informed, and active membership base is an important ingredient in building an effective and responsive CDC. Such a membership base—provided it is truly representative of the low-income residents and not only of one segment or faction—is concrete evidence of the CDC's legitimacy and support in the community to be served. A broad-based membership also helps to define who the program's beneficiaries are. Moreover, it is a way to insure that the CDC does not become an expression of a small group of self-appointed spokesmen, however well intentioned they might be.

(3) On the other hand, there may be circumstances where it would not be feasible to establish a broad-based membership, particularly in a large and diverse community where it would be hard to determine basic eligibility for membership. In such cases, where there are other well-established organizations which are clearly legitimate and effective spokesmen for the low-income residents, and which themselves have broad-based memberships, it may be preferable to have such organizations in turn select representatives to the CDC board. The burden is on the CDC, however, to demonstrate to OED why a direct membership base is not practical or advantageous and why the indirect election method would more effectively meet the community representation objectives of the Special Impact Program.

(4) Where the direct election method is used, the representatives of the low-income community may be elected by the CDC membership at an annual meeting or at a series of area meetings of members, preceded by some acceptably democratic nomination procedure. The actual procedure should be one that is adapted to the specific CDC. It should be spelled out in the CDC's by-laws. All representatives of the low-income community may be elected at large. However, many CDCs, particularly rural CDCs serving multi-county target areas, prefer to divide their community representative board seats on an area basis (for example, in a six-county program, to apportion two seats to each county), with the members from each area electing their own representatives. In some instances, a combination of these methods is used with some representatives elected on an area basis and some on an at-large basis (or some by indirect election).

(5) Where the indirect election method is used, the CDC must first identify the organizations which will elect representatives to the board, justifying to OED why those organizations are representative of all or portions of the community and why the number of seats allocated to each organization is appropriate. The CDC must then establish procedures to insure that the constituent organizations elect their representatives to the CDC board through democratic means.

(b) *Business and Financial Community.* (1) Normally, the most effective selection procedure is for the community representatives on the CDC board, once themselves elected, to meet and select the remaining members of the board. This provides for a process whereby the representatives of the business sector will not be self-appointed individuals unwelcomed by the community representatives, but properly motivated representatives who come to the board at the invitation of the target area residents to be served.

(2) In choosing representatives of the business and financial community, the other members of the board should seek the advice and counsel of CDC staff, community leaders, and the organizations or institutions to be represented. In doing so, it is essential that no one be unilaterally selected to represent an organization or institution without the blessing of that organization or institution and its willingness to commit the individual's time and services. It is also essential that the community representatives put aside personal preferences and seek to find individuals with the desired skills and institutional contacts, rather than simply choose indivduals who share the same backgrounds and experiences of the community representatives themselves.

(3) CDCs should avoid identifying by name in their by-laws the specific community institutions from which they may select representatives for their boards, since often over time community interests may change and different institutions may become preferable sources of board representatives. Where CDC by-laws already specify such institutions by name such by-laws should be periodically reviewed for change to allow for the substitution or addition of other institutions whose participation may be more relevant to the CDC's goals.

§ 1076.10–5 Compliance Procedures and Waivers.

(a) All CDCs funded by OED for the first time in Fiscal Year 1975 or in succeeding fiscal years must be in compliance with this Instruction as of the effective date of their initial OED grant, unless the conditions of their initial grant provide for a planned phase-in period for compliance during the initial grant period. All such CDCs, however, must be in complete compliance within a year of the effective date of their initial OED grant. In no case shall any such CDC be granted a waiver of any provisions of this subpart.

(b) All CDCs funded by OED for the first time in Fiscal Year 1974 or in prior fiscal years must be in compliance with this subpart within one year of the effective date of this subpart, unless granted a waiver of certain provisions of this subpart. Waivers will normally not be granted by OED, and only upon a finding that (1) despite the noncompliance with particular provisions of this subpart the CDC's board composition and selection procedures have been demonstrated in actual practice to have substantially satisfied the intent to Title VII, and (2) the disruption and dislocation that would be caused by changing long-established

CDC procedures would outweigh the advantages to be gained by such changes. In no event will OED consider requests for waivers submitted (1) after one year from the effective date of this subpart, or (2) from CDCs now in compliance with this subpart who wish to change their board composition and selection procedures in such a way as to not comply with this subpart.

Title 49—Transportation

CHAPTER I—MATERIALS TRANSPORTATION BUREAU, DEPARTMENT OF TRANSPORTATION

[Docket No. HM-113; Amdt. Nos. 173-91, 177-33]

PART 173—SHIPPERS

PART 177—SHIPMENTS MADE BY WAY OF COMMON, CONTRACT, OR PRIVATE CARRIERS BY PUBLIC HIGHWAY

MC 330 and MC 331 Cargo Tanks Stress Corrosion Cracking

The purpose of these revisions to the amendments made under Docket No. HM-113; Amendments 173-91 and 177-33 is to: (1) authorize the reshipment of anhydrous ammonia without requiring a water content analysis; (2) revise the testing requirements for cargo tanks without manholes, and (3) modify certain portions of the regulations for editorial and clarification purposes.

On June 11, 1975, the Hazardous Materials Regulations Board published regulations in Docket No. HM-113; Amendment Nos. 173-91, 177-83, 178-37 (40 FR 24902) intended to prevent or reduce stress corrosion cracking in MC 330 and MC 331 cargo tanks. Since the publication of the amendments, a number of petitions have been received pertaining to the amendments. These revisions are addressed to those petitions and to other changes of the regulations dealing with stress corrosion cracking.

The provisions of § 173.33(e)(10) require that MC 330 and MC 331 cargo tanks, constructed of quenched and tempered steel or constructed of other than quenched and tempered steel but without post-weld heat treatment, must be internally inspected by the wet fluorescent magnetic particle method. Subsequent to the publication of this requirement which appeared in Docket HM-113, it was determined that there are cargo tanks without manholes which would be required to be internally inspected. It was not the intent of the rule making to require cargo tanks without manholes to be modified to include manholes for these tests. Therefore, § 173.33(e)(10) is revised to indicate that the testing requirements do not apply to cargo tanks without manholes.

The purpose of the Note following § 173.33(e)(10) was to assure that persons who had voluntarily inspected a cargo tank by the wet fluorescent magnetic particle method during the development of the rule making docket would not have to retest that tank sooner than the 5-year period prescribed in the final amendment. Because of the time that transpired between the publication of the Notice of Proposed Rule Making and the issuance of the Amendment, the need for the Note no longer exists.

In paragraphs (a)(1) and (a)(2) of § 177.817, there are references to § 173.315(a)(1) Note 14. These paragraphs are being revised to show reference to § 173.427(a)(3). The reason for this change is that the carrier may or may not accept the shipment based on the information supplied on the shipping papers since he cannot determine whether the requirements prescribed under the note have been satisfied.

Also, several petitions for reconsideration have been received seeking a change to § 173.315(a)(1) Note 14, which requires that a shipper analyze anhydrous ammonia for water content prior to each shipment. Petitioners contend that: (1) Once water is added to the ammonia it becomes part of the composition of that ammonia and permanently remains so; (2) repetitive testing during storage or at the time of shipment from storage is unnecessary because the nature of the product has not changed; (3) certification by the manufacturer at the time of shipment to storage should permit the storage point to properly certify that the same ammonia contains 0.2 percent water at the time of reshipment; (4) each test for water content exposes personnel to certain safety hazards, and if the ammonia has been previously tested and certified this retesting causes a totally unnecessary exposure; and (5) many field storage facilities are not properly equipped nor do they have the trained personnel to perform the required test.

The Bureau has concluded that the petitions have merit and agrees that ammonia can be reshipped without additional tests for water content provided certain requirements have been met. These requirements are as follows: (1) The ammonia must have been certified as containing the prescribed amount of water; and (2) the person reshipping the ammonia must not reduce the amount of water in the ammonia by any means. The testing requirements governing the minimum water content of anhydrous ammonia are applicable to shipments from a storage facility at point of manufacture.

The Bureau has also concluded that Note 14 to the table in § 173.315(a)(1) has become unreasonably lengthy. Therefore, a portion of Note 14 dealing with the preparation of anhydrous ammonia for shipment has been transferred to a newly created paragraph (L) in § 173.315. Appropriate editorial changes have been made to the table in paragraph (a)(1).

In accordance with the foregoing, Amendments 173-91 and 177-33 in Docket HM-113 are amended as follows:

1. In § 173.33 paragraph (e)(10), the Note following the paragraph is deleted; a sentence is added at the close of the paragraph to read as follows:

§ 173.33 Cargo tank use authorization.

* * * * *

(e) * * *

(10) . . . This paragraph does not apply to cargo tanks that do not have manholes.

NOTE: [Deleted]

2. In § 173.315 paragraph (a)(1), the Table is amended by changing the first entry in column 1 to read, "Anhydrous ammonia (see Note 14 and paragraph (l) of this section)"; Note 14 is revised; paragraph (l) is added to read as follows:

§ 173.315 Compressed gases in cargo tanks and portable tank containers.

(1) * * *

* * * * *

NOTE 14: Specifications MC 330 and MC 331 cargo tanks constructed of other than quenched and tempered steel ("NOT") are authorized for all grades of anhydrous ammonia. Specifications MC 330 and MC 331 cargo tanks constructed of quenched and tempered steel ("QT") (see marking requirements of § 177.823(b)(5) of this subchapter) are authorized for anhydrous ammonia having a minimum water content of 0.2 per cent by weight. Any tank being placed in anhydrous ammonia service or a tank which has been in other service or has been opened for inspection, test, or repair, must be cleaned of the previous product and must be purged of air before loading. See §§ 173.427(a)(3) and 177.817(a)(1) of this subchapter for special shipping paper requirements.

(l) Anhydrous ammonia must not be offered for transportation or transported in specification MC 330 and MC 331 cargo tanks constructed of quenched and tempered ("QT") steel except as provided in this paragraph.

(1) The ammonia must have a minimum water content of 0.2 per cent by weight. Any addition of water must be made using steam condensate, de-ionized, or distilled water.

(2) Except as otherwise provided in this paragraph, each person offering for transportation or transporting anhydrous ammonia shall perform a periodic analysis for prescribed water content in the ammonia. The analysis must be performed—

(i) From a sample of the ammonia in storage taken at least once every 7 days, or each time ammonia is added to the storage tanks, whichever is less frequent; or

(ii) At the time the cargo tanks are loaded, then a sample of the ammonia taken from at least one loaded cargo tank out of each 10 loads, or from one cargo tank every 24 hours, whichever is less frequent; or

(iii) At the same frequency as described in subparagraph (ii) of this paragraph, from a sample taken from the loading line to the cargo tank.

(3) If water is added at the time of loading—

(i) The sample for analysis must be taken from a point in the loading line

between the water injection equipment and the cargo tank; and

(ii) Positive provisions must be made to assure water injection equipment is operating.

(4) If water injection equipment becomes inoperative, suitable corrective maintenance must be performed after which a sample from the first loaded cargo tank must be analyzed for prescribed water content.

(5) The analysis method for water content must be as prescribed in CGA Pamphlet G-2.2, titled "Tentative Standard Method for Determining Minimum of 0.2 per cent water in Anhydrous Ammonia," 1975 edition.

(6) Records indicating the results of the analysis taken, as required by this paragraph, must be retained for 2 years and must be open to inspection by representative of the Department.

(7) Each person receiving anhydrous ammonia containing 0.2 per cent water by weight may offer for transportation or transport that ammonia without performing the prescribed analysis for water content provided—

(i) The ammonia received was certified as containing 0.2 per cent water as prescribed in §§ 173.427(a)(3) and 177.817(a)(1) of this subchapter; and

(ii) The amount of water in the ammonia has not been reduced by any means.

§ 177.817 [Amended]

In § 177.817 paragraphs (a)(1) and (a)(2) are amended by changing the reference "173.315(a)(1) Note 14 of this subchapter" to read "§ 173.427 of this subchapter."

Effective: These revisions to the Amendments are effective October 1, 1975. However, compliance with the regulations as amended herein is authorized immediately.

CHAPTER IV—FEDERAL CROP INSURANCE CORPORATION, DEPARTMENT OF AGRICULTURE

[Amendment No. 70]

PART 401—FEDERAL CROP INSURANCE

Sugar Beets—Applicable in All States Except California

On page 22270 of the FEDERAL REGISTER of May 22, 1975 (40 FR 22270), was published a notice of proposed rule making to amend in its entirety § 401.140 of the Federal Crop Insurance Regulations for 1969 and Succeeding Crop Years, as amended (7 CFR 401.101 et seq.). Interested persons were given 30 days after

publication of the notice in which to submit written data, views, or arguments with respect to the proposed amendment.

While no response was received from the general public, as a result of some comments received from field representatives of the Federal Crop Insurance Corporation it has been determined to make three changes in the amendment which are outlined below.

The proposed amendment, as issued in the notice, effective beginning with the 1976 Crop Year was adopted with the following additions and revisions:

1. A basis and purpose paragraph is added preceding the amendment.

2. An authority clause is added immediately following the amendment.

Basis and Purpose. The amendment herein is issued pursuant to and in accordance with the Federal Crop Insurance Act, as amended.

In prior years, coverages under the Sugar Beet Crop Insurance Program have been established in terms of percentages of the normal yield (cwt of commercially recoverable sugar) established in accordance with regulations issued by the United States Department of Agriculture pursuant to the Sugar Act of 1948, as amended. For purposes of determining losses, production has also been determined in cwt of commercially recoverable sugar as provided in such regulations. Since the Sugar Act is no longer in effect, it has been necessary to revise the Sugar Beet Crop Insurance Program to provide a new basis for coverages and for determining losses. Basically, that is the purpose of this amendment. The three changes made in the amendment since the publication of the notice above mentioned are of a relatively minor character. One provides for 60 days after the time of loss for filing claims for indemnities. Another would delete the last proviso of section 4(d) relating to appraisals, and otherwise revise the subsection so as to treat appraised production in substantially the same way as harvested production in determining production to count. The third change deletes section 6 relating to the annual premium. It is the intention of the Corporation to make this change in the Standard Policy, for all crops covered thereby, at a later date.

§ 401.140 of the Federal Crop Insurance Regulations for the 1969 and Succeeding Crop Years, as amended, (7 CFR 401.101 et seq.) is hereby amended in its entirety as follows:

§ 401.140 The sugar beet endorsement applicable in all States except California.

1. *Insured crop.* The crop insured shall be sugar beets grown under a contract with a processor for processing as sugar. Item 1 of the second sentence of subsection 2(c) of the policy shall not be applicable to sugar beets.

Insurance shall not attach or be considered to have attached to any acreage (1) excluded from the processor contract for, or during, the crop year, and (2) unless otherwise provided on the county actuarial table, planted to sugar beets the preceding crop year in Michigan, Minnesota, and Ohio, or the two preceding years in other states.

2. *Production guarantees.* The applicable production guarantees in tons per acre shall be those shown on the county actuarial table (hereinafter called "actuarial table") and are progressive as follows:

(1) *First Stage*—From planting until July 1 or upon determination by the Corporation that the acreage was damaged prior to July 1 to the extent that growers in the area usually would not further care for the crop.

(2) *Second Stage*—From July 1 until 15 percent of the per acre production guarantee for the third stage has been harvested.

(3) *Third Stage*—After 15 percent of the per acre production guarantee for this stage has been harvested.

The stage of production applicable in any case shall not be determined to be the same for an entire insurance unit unless the entire unit meets the requirements for the same stage. When the entire unit does not meet the requirements for the same stage, the stages of production shall be determined for the various portions of the unit.

3. *Insurance period.* Insurance on any insured acreage shall attach at the time the sugar beets are planted and shall cease upon harvesting, but in no event shall insurance remain in effect later than the applicable date set forth below of the calendar year in which the sugar beets are normally harvested.

Michigan, Minnesota, Montana, and North Dakota	Nov. 10
Ohio	Nov. 25
All other States	Nov. 15

4. *Claim for loss.* (a) Any claim for loss on an insurance unit (hereinafter called "unit") must be submitted to the Corporation, on a form prescribed by the Corporation, no later than 60 days after the time of loss. The Corporation reserves the right to provide additional time if it determines that circumstances beyond the control of either party prevent compliance with this provision.

(b) It is the responsibility of the insured to provide complete information of all production from the unit, to establish that the loss claimed was caused during the insurance period by one or more of the hazards insured against, and to furnish such other information about the loss as may be required by the Corporation.

(c) Losses shall be determined separately for each unit. The amount of loss with respect to any unit shall be determined by (1) multiplying the insured acreage of sugar beets on the unit by the applicable production guarantee per acre; which product shall be the production guarantee for the unit, (2) subtracting therefrom the total production to be counted for the unit, (3) multiplying the remainder by the applicable price for computing indemnities, and (4) multiplying the result obtained in (3) by the insured interest: *Provided*, That if for the unit the insured fails to report all of his interest or insurable acreage, the amount of loss shall be determined with respect to all of his interest and insurable acreage, but in such cases or otherwise, if the premium computed on the basis of the insurable acreage and interest exceeds the premium on the reported acreage and interest, or the acreage and interest when determined by the Corporation under section 3 of the policy, the amount of loss shall be reduced proportionately.

The total production to be counted for a unit shall be determined by the Corporation, and subject to provisions hereinafter, shall include all harvested production and any appraisals made by the Corporation for unharvested or potential production, poor farming practices, uninsured causes of loss, or for acreage abandoned or put to another use without the consent of the Corporation: *Provided*, That for unharvested acreage or acreage not qualifying for the third stage production guarantee only the amount of appraised and harvested production in excess of the difference between the third stage production guarantee and the production guarantee applicable to such acreage shall be counted except that for acreage abandoned, put to another use without prior written consent of the Corporation, or damaged solely by an uninsured cause, not less than the applicable production guarantee shall be counted.

(d) Any harvested production of sugar beets shall be adjusted by the factor (rounded to three decimal places) obtained by dividing the average percentage of sugar in the sugar beets, as determined from individual tests made at the time of delivery to the processor, by the percentage of sugar shown on the actuarial table: *Provided, however*, That if individual tests of sugar content are not made by the processor at the time of delivery of the sugar beets, the factor to be used shall be 1.000: *Provided, further*, That at the time of normal harvest, for sugar beets which are not acceptable under the contract with a processor due to an insurable cause of loss occurring within the insurance period, the Corporation will determine the production to count by dividing the value of the beets, as determined by the Corporation, by the value of undamaged beets containing the percentage of sugar shown on the actuarial table and multiplying the result obtained by the tons of beets.

5. *Cancellation and termination for indebtedness dates.* For each year of the contract the cancellation date is the December 31 and the termination date for indebtedness the April 15 immediately preceding the beginning of the crop year.

6. *Meaning of terms.* (a) "Harvest" means the lifting and topping of the sugar beets for the purpose of delivery to a processor.

(Secs. 506, 516, 51 Stat. 73, as amended, 77, as amended; 7 U.S.C. 1506, 1516)

Adopted by the Board of Directors on September 18, 1975.

[SEAL] PETER F. COLE,
Secretary, Federal Crop Insurance Corporation.

PART 403—PEACH CROP INSURANCE

Regulations for the 1976 and Succeeding Crop Years

Pursuant to the authority contained in the Federal Crop Insurance Act, as amended, the Peach Crop Insurance Regulations for the 1965 and Succeeding Crop Years, as amended, which shall remain in full force and effect for the 1975 crop year, are hereby amended for the 1976 and Succeeding Crop Years to read as set forth below. The provisions of this subpart shall apply, until amended or superseded to all continuous peach crop insurance contracts as they relate to the 1976 and succeeding crop years.

Secs.
403.40 Availability of Peach Crop Insurance.
403.41 Premium rates and amounts of insurance.

Sec.
403.42 Application for insurance.
403.43 Public notice of indemnities paid.
403.44 Creditors.
403.45 The application and the policy.

AUTHORITY: Secs. 506, 516, 52 Stat. 73, as amended, 77, as amended, 7 U.S.C. 1506, 1516.

§ 403.40 Availability of peach crop insurance.

Peach crop insurance shall be offered for the 1976 and succeeding crop years under the provisions of § 403.40 through § 403.45 in counties within limits prescribed by and in accordance with the provisions of the Federal Crop Insurance Act as amended. The counties shall be designated by the Manager of the Corporation from a list of counties approved by the Board of Directors of the Corporation for peach crop insurance. The counties designated by the Manager shall be published by appendix to this section.

§ 403.41 Premium rates and amounts of insurance.

The Manager shall establish premium rates and the amounts of insurance per acre which shall be shown on the county actuarial table on file in the office for the county. Such premium rates and amounts of insurance may be changed from year to year.

§ 403.42 Application for insurance.

Application for insurance may be submitted as provided in § 403.45 at the office for the county of the Corporation. The Corporation reserves the right to discontinue the taking of applications in any county upon its determination that the insurance risk involved is excessive prior to the closing date for the filing of applications. Such closing date shall be January 10 of the first crop year for which insurance is to be in effect.

§ 403.43 Public notice of indemnities paid.

The Corporation shall provide for posting annually in each county at the county courthouse a listing of the indemnities paid in the county.

§ 403.44 Creditors.

An interest of a person other than the insured in an insured crop existing by virtue of a lien, mortgage, garnishment, levy, execution, bankruptcy, or any involuntary transfer shall not entitle the holder of the interest to any benefit under the contract other than as provided in the application and policy set forth in § 403.45.

§ 403.45 The application and the policy.

The provisions of the Application and Policy for Peach Crop Insurance for the 1976 and Succeeding Crop Years are as follows:

1. The undersigned applicant (herein called the "Insured"), subject to the applicable provisions of the regulations of the Federal Crop Insurance Corporation (herein called the "Corporation"), hereby applies to the Corporation for insurance on his interest in peach crops (hereinafter called "the insured crop") located in the above-identified county (hereinafter called "the county"). The insured applies for the amount of insurance shown below which shall be an amount shown on the county actuarial table on file in the Corporation's office for the county. The amounts of insurance available each crop year and prescribed premium rates each crop year are shown on the county actuarial table from year to year. In counties where alternative amounts of insurance per acre are made available for election by the insured, the insured may change the amount of insurance which was in effect for a prior crop year and elect a new amount of insurance per acre by notifying the office for the county in writing before the date insurance attaches for the crop year for which the change is to become effective. Unless the contract of insurance is cancelled or terminated pursuant to the terms hereof, the amount of insurance per acre in effect for a crop year shall be the amount of insurance most recently elected by the insured and shown on a form prescribed for such purpose not to exceed the maximum dollar amount per acre shown on the county actuarial table for such crop year, except that when alternative amounts of insurance are not offered, the amount of insurance per acre for a crop year shall be the amount prescribed by the Corporation.

2. *Causes of loss insured against.* The insurance provided is against unavoidable loss resulting from frost, freeze, hurricane, tornado, hail, a number of hours of chilling temperatures insufficient to effectively break the dormant period, or windstorm when accompanied by hail provided that the percent of loss due to hail on any acreage is five percent or more of the peaches on the trees on the date when such damage occurs, subject however, to any exceptions, exclusions, limitations, or additions with respect to such causes of loss as are set forth on the county actuarial table. The Corporation shall not pay any loss hereunder as a result of split pits and misshapen fruit regardless of the cause thereof.

3. *Insured crop.* Only peaches grown on insurable acreage in any crop year as shown on the county actuarial table (a) in which the insured had an interest on the date insurance attaches, (b) which are grown on acreage on which the trees have reached the fourth growing season, and (c) which are grown on acreage having a minimum expected production on the date insurance attaches of 100 bushels per acre are insured.

4. *Responsibility of insured to report acreage and interest.* The insured at the time of filing this application shall also file on a form prescribed by the Corporation a report of all the acreage of the insured crop in the county in which he has an interest and shown his interest therein. Such report shall include a designation of all the acreage of peaches which is uninsurable under the provisions of the preceding section. This report shall be revised for any crop year before insurance attaches if the acreage and interest therein has changed and the latest reports filed shall be considered as the basis for continuation of insurance from year to year, subject to revision as provided herein. The Corporation reserves the right to determine the insured acreage and the insured's interest therein. The acreage and interest insured shall be the acreage and interest reported by the insured or as determined by the Corporation, whichever the Corporation shall elect.

5. *The contract.* Upon acceptance of this application by the Corporation, the contract shall be in effect for the crop year specified above and shall continue for each succeeding crop year until canceled or terminated in accordance with the applicable provisions of the contract. This application and policy, and amendments thereto, if any, and the county actuarial tables for each crop year on file in the Corporation's office for the county shall constitute the contract for peach insurance. Any changes made in the contract shall not affect the continuity from year to year.

6. *Insurance period.* For each crop year insurance attaches on January 11, and as to any insured acreage ceases upon harvest, or September 15, whichever occurs first.

7. *Annual premium.* (a) The annual premium for each unit shall be earned and payable on the date insurance attaches and shall be determined by multiplying the applicable amount of insurance for the insured acreage by the applicable premium rate and multiplying the product thereof by the insured's interest at the time insurance attaches.

(b) The insured's annual premium shall be adjusted in accordance with the county actuarial table. Adjustments for insurance experience as shown on the county actuarial table shall be transferred to (1) the contract of the insured's estate or surviving spouse in case of the death of the insured, (2) the contract of the person who succeeds the insured as the insured's transferee in operating only the same farm or farms, if the Corporation finds that such transferee has previously actively participated in the farming operation involved, or (3) the contract of the same insured who stops farming in one county and starts farming in another county.

8. *Premium note.* In consideration hereof, the insured promises to pay to the order of the Federal Crop Insurance Corporation each crop year of the contract the annual premium and further agrees that any amount due the Corporation by the insured may be deducted from any indemnity payable to the

insured and when not prohibited by law, from any loan or payment otherwise due the insured under any program administered by the United States Department of Agriculture.

11. *Life of contract.* This contract is noncancelable the first crop year and shall continue in effect for each succeeding crop year until either the insured, or the Corporation, cancels the contract by giving written notice to the other by November 30 immediately preceding the crop year for which the cancellation is to become effective. The contract shall, however, terminate for nonpayment of premium if such premium is not paid by January 10 following the crop year in which the premium was earned. Insurance shall terminate if no premium is earned under this application and policy for three consecutive crop years.

12. *Notice of damage or loss.* (a) It shall be a condition precedent to payment of any indemnity on any insurance unit (hereinafter called "unit") hereunder that the insured report each damage to the insured crop from a cause of loss insured against to the office for the county immediately after such damage giving the date, cause, and estimated extent of such damage. If not so reported within seven days, the Corporation reserves the right to reject any claim arising out of such damage on the unit if it determines that it has been prejudiced by such failure to report or by failure to give notice as required in subsection (b) of this section.

(b) Notice of the time of intended harvesting shall be given to the office for the county at least seven days before the beginning of harvest if a loss is to be claimed, and a final adjustment has not been made by that time. *Provided, however,* That if damage occurs within the seven-day period before the beginning of harvest, or during harvest, and a loss is to be claimed, notice shall be given immediately.

13. *Amount of loss and proof of loss.* (a) Any claim for loss on any unit shall be submitted to the Corporation, on a form prescribed by the Corporation, within 60 days after harvesting of the insured crop is completed on the unit but not later than 60 days after the calendar date for the end of the insurance period shown in section 6. The Corporation reserves the right to provide additional time if it determines that circumstances beyond the control of either party prevent compliance with this provision.

(b) Losses shall be determined separately for each unit and for the period in which the loss occurred, as hereinafter provided, except that any damage occurring in the second period which the Corporation cannot accurately separate from damage occurring in the first period shall be treated as having occurred in the first period. The amount of loss with respect to any unit for either period shall be determined by (1) multiplying the insured acreage of peaches on the unit by the applicable amount of insurance per acre, (2) multiplying the result thus obtained by the applicable percent of loss determined in accordance with subsection (c) of this section, and (3) multiplying the result by the insured interest.

(c) Reported damages from insured causes shall be indemnified on the basis of appraisals of production made by the Corporation and the percent of damage from insured causes occurring within either period shall be determined by relating the production lost due to insured causes to the production which the Corporation determines would have been produced had no damage from insured or uninsured causes occurred (herein called the "expected production").

The Corporation reserves the right to delay final appraisal of the extent of any damage, occurring in either period, and the settlement of any claim until the extent of damage can reasonably be determined.

Determination of the expected production for each period for any acreage shall be made by the Corporation on the applicable of such information as past production, cultural practices, age, size, condition and general capabilities of the trees, peaches on the trees, peaches harvested, and by comparing production with similar trees on which no damage has occurred. In addition, in determining the expected production for the second period any peaches harvested or lost due to uninsured causes in the first period shall also be taken into account.

All insured damage occurring within a period will be related to the expected production established for that period by the Corporation except that the minimum expected production used to determine the percent of damage for either period will never be less than 100 bushels per acre for the unit.

Any damage due to insured causes and any appraisals made by the Corporation shall be disregarded and no indemnity shall be payable whenever a normal crop of peaches, as determined by the Corporation, on the basis of age, size, condition, productive capabilities, and the cultural practices followed, remain on the trees.

The maximum amount payable under this contract shall be 80 percent of the amount of insurance for a unit. Subject to this limitation, the percent of loss payable for each period and the periods involved are as follows:

First Period: This period shall be from the date insurance attaches through the later of March 31, or the date of the last frost or freeze damage occurring on the unit, as determined by the Corporation. The percent of loss payable as a result of damage occurring during this period shall be that in excess of 50 percent as determined in accordance with the provisions hereof. Any loss due to a number of hours of chilling temperatures insufficient to effectively break the dormant period shall be deemed to have occurred in this period.

Second Period: This period shall commence on April 1, or the day following the date of the last frost or freeze damage occurring on the unit thereafter, as determined by the Corporation, and shall continue to the end of the insurance period. The percent of loss payable as a result of damage occurring during this period shall be that in excess of 20 percent as determined in accordance with the provisions hereof: *Provided, however,* That for the unit this deductible shall be reduced by 1 percentage point for each 1 percent of damage in excess of 40 percent determined by the Corporation to have occurred in the first period.

(d) It shall be a condition precedent to payment of any claim that the insured furnish records of production harvested and any information required by the Corporation regarding the manner and extent of damage or loss.

14. *Abandonment of crop.* There shall be no abandonment of the insured crop or portion thereof to the Corporation.

15. *Contract changes.* After the first crop year the Corporation reserves the right to amend or change the terms of this contract from year to year. Notice thereof shall be mailed to the insured or made available at the office for the county by the November 15 immediately preceding the beginning of the crop year for which such amendment is to become effective. Acceptance of the changes will be conclusive in the absence of notice from the insured to cancel the contract as provided in paragraph 11, above.

16. *Collateral assignment—Transfer of Interest.* The right to an indemnity in any crop year may be assigned as security upon prior approval of the Corporation. If the insured transfers his interest in the insured crop in any crop year he may, upon prior approval of the Corporation, transfer his right to an indemnity for such crop year with respect to the transferred interest in the insured crop. Any assignment or transfer shall be made on assignment or transfer forms prescribed by the Corporation and shall be subject to all the terms set forth thereon and to the terms hereof.

17. *Insured interest.* For the purpose of determining the amount of indemnity the interest insured shall not exceed the interest of the insured at the time of damage, as determined by the Corporation.

18. *Misrepresentation and fraud.* The Corporation may void the contract without affecting the insured's liability for any earned premium(s) if at any time the insured has concealed or misrepresented any material fact or committed any fraudulent act against the Corporation and such voidance shall be effective as of the beginning of the crop year which relates to the insured crop with respect to which any such act or omission occurred.

19. *Subrogation.* The insured (including his assignee or transferee) assigns to the Corporation all rights of recovery against any person for loss or damage to the extent that payment hereunder is made and shall execute all papers required and take appropriate action to secure such rights.

20. *Cause of loss not insured against.* The contract shall not cover any loss due to neglect or malfeasance of the insured, any member of his household, his tenants, or employees, or failure to follow recognized good peach farming practices, or to any cause other than a cause insured against.

21. *Payment of indemnity.* (a) Any indemnity will be payable within 30 days after a claim for loss is approved by the Corporation. However, in no event shall the Corporation be liable for interest or damages in connection with any claim for indemnity whether such claim be approved or disapproved by the Corporation.

(b) If the insured dies or is judicially declared incompetent before insurance attaches in any crop year, the contract shall terminate as of the date of death or judicial declaration, but if such an event occurs after insurance attaches in any crop year the contract shall terminate at the end of such crop year and any indemnity payable shall be paid to the person or persons the Corporation determines to be beneficially entitled thereto.

22. *Meaning of terms.* For purposes of insurance on peaches the terms:

(a) "County actuarial table" means the forms and related material approved by the Corporation which are on file for public inspection in the office for the county, and which show the applicable amounts of insurance, premium rates, and related information with respect to peach crop insurance for the crop year in the county.

(b) "Office for the county" means the Corporation's office for the county shown in this

application and policy or such office as may be designated by the Corporation from time to time.

(c) "County" means the area shown on the county actuarial table which may include units located in a local producing area bordering on the county.

(d) "Crop year" means the calendar year in which insurance attaches.

(e) "Production harvested" means marketable peaches picked from the trees or from the ground.

(f) "Insurance unit" means all insurable acreage of peaches in the county in which (1) the insured has 100 percent interest on the date insurance attaches for the crop year that is located on contiguous land under the same ownership, or (2) the same two or more persons have 100 percent interest on the date insurance attaches for the crop year that is located on contiguous land under the same ownership, excluding any other acreage of peaches in which such persons do not have 100 percent interest on such date. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee. Contiguous land shall include only land that is touching at any point except that land that is separated only by a public or private way shall be considered contiguous. The Corporation may by agreement in writing with the insured before insurance attaches in any crop year combine units for the purpose of providing premium benefits resulting from the acreage of the varieties of peaches on the unit.

NOTE.—The reporting requirements contained herein have been approved by the Office of Management and Budget in accordance with the Federal Reports Act of 1942.

It is desirable that these changes become effective with the 1976 crop year. Notices of changes must be given peach insureds by November 15, 1975. Inasmuch as there is considerable administrative detail involved in notification to each current policyholder, and, upon approval, additional and lengthy underwriting work is to be performed on a new actuarial structure prior to such notification to all peach policyholders, all of which must be accomplished prior to November 15, 1975, the date upon which such changes must be on file in the office for the county of the Corporation, it would therefore be impossible to follow both the procedure for notice and public participation prescribed by 5 U.S.C. 553 (b) and (c) prior to the adoption of this amendment and to comply with the contractual provisions with respect to filing such changes in time to be effective with the 1976 crop year.

Under the circumstances, the Board of Directors found that it would be impracticable and contrary to the public interest to follow the procedure for notice and public participation prescribed by 5 U.S.C. 553 (b) and (c), as directed by the Secretary of Agriculture in a Statement of Policy, executed July 20, 1971 (36 F.R. 13804), prior to its adoption. Accordingly, said regulations were adopted by the Board of Directors on September 18, 1975.

[SEAL] PETER F. COLE,
Secretary, Federal Crop Insurance Corporation.

Approved on September 25, 1975.

EARL L. BUTZ,
Secretary.

AUTHORITY: Secs. 57, 161, 68 Stat. 932, 948, as amended; 42 U.S.C. 2077, 2201; sec. 104, Pub. L. 93-438 (October 11, 1974), sec. 223, 68 Stat. 958, as amended; 42 U.S.C. 2273, §§ 810.10 and 810.11 issued under sec. 161o., 68 Stat. 950, as amended; 42 U.S.C. 2201(o).

§ 810.1 Purpose.

The regulations in this part incorporate a general authorization made by the Administrator under section 57.b.(2) of the Atomic Energy Act of 1954, as amended (78 Stat. 605); establish reporting requirements applicable to persons who engage in certain unclassified activities in foreign atomic energy programs; and establish procedures governing applications for specific authorizations to engage directly or indirectly in the production of special nuclear material outside the United States.

§ 810.2 Scope.

The regulations in this part apply to all persons within or under the jurisdiction of the United States.

§ 810.3 Definitions.

As used in this part:

(a) "Act" means the Atomic Energy Act of 1954 (68 Stat. 919) including any amendments thereto.

(b) "Agreement for cooperation" means an agreement for cooperation with any nation or regional defense organization pursuant to section 123 of the Act.

(c) "Atomic weapon" means any device utilizing atomic energy, exclusive of the means for transporting or propelling the device (where such means is a separate and divisible part of the device), the principal purpose of which is for use as, or for development of, a weapon, or weapon prototype or a weapon test device.

(d) "Administration" means the United States Energy Research and Development Administration.

(e) "Administrator" means the Administrator of the United States Energy Research and Development Administration.

(f) "Defense information" means any information in any category determined by any Government agency authorized to classify information, as being information respecting relating to, or affecting the national defense.

(g) "Nuclear reactor" means an apparatus, other than an atomic weapon, designed or used to sustain nuclear fission in a self-supporting chain reaction.

(h) "Person" means (1) any individual, corporation, partnership, firm, association, trust, estate, public or private institution, group, Government agency other than the Administration, any State or any political subdivision of, or any political entity within a State; and (2) any legal successor, representative, agent or agency of the foregoing.

(i) "Research and development" means (1) theoretical analysis, exploration, or experimentation; or (2) the extension of investigative facilities and theories of a scientific or technical nature into practical application for experimental and demonstration purposes, including the experimental production and testing of motors, devices, equipment, materials, and processes.

(j) "Restricted Data" means all data concerning (1) design, manufacturing or utilization of atomic weapons; (2) the production of special nuclear material; or (3) the use of special nuclear material in the production of energy, but shall not include any data declassified or removed from the Restricted Data category pursuant to section 142 of the Act.

(k) "Source material" means source material as defined in the regulations contained in 10 CFR, Part 40.

(l) "Special nuclear material" means special nuclear material as defined in the regulations contained in 10 CFR, Part 70.

(m) "United States", when used in a geographical sense, includes all territories and possessions of the United States, the Canal Zone and Puerto Rico.

§ 810.4 Communications.

All communications concerning the regulations in this part should be addressed to the Administrator, Energy Research and Development Administration, Washington, D.C. 20545, Attention: Division of International Security Affairs. Communications and reports may be delivered in person at the Administration's main offices in Washington, D.C. or Germantown, Maryland.

§ 810.5 Interpretations.

Except as specifically authorized by the Administrator in writing, no interpretation of the meaning of the regulations in this part by any officer or employee of the Administration other than a written interpretation by the General Counsel will be recognized to be binding upon the Administration.

§ 810.6 Authorization requirement.

Section 57b.(2) of the Act, as implemented by the Energy Reorganization Act of 1974, provides that it shall be unlawful for any person to engage directly or indirectly in the production of any special nuclear material outside of the United States except (a) under an agreement for cooperation made pursuant to section 123 of the Act, or (b) upon authorization by the Administrator after a determination that such activity will not be inimical to the interest of the United States.

§ 810.7 Generally authorized activities.

(a) Pursuant to section 57b.(2) of the Act, the Administrator has determined that any activity which constitutes directly or indirectly engaging in the production of any special nuclear material outside of the United States will not be inimical to the interest of the United States and is authorized by the Administrator, provided that it:

(1) Does not constitute directly or indirectly engaging in any such activity in any of the following countries or areas:

Albania;
Bulgaria;
China, including Manchuria (and excluding Taiwan (Formosa)) (includes Inner Mongolia; the provinces of Tsinghai and Sikang; Sinkiang; Tibet; the former Kwantung Leased Territory, the present Port Arthur Naval Base Area and Liaoning province);
Viet-Nam;
Cuba;
Czechoslovakia;
East Germany (Soviet zone of Germany and the Soviet Sector of Berlin);
Estonia;
Hungary;
Latvia;
Lithuania;
North Korea;
Outer Mongolia;
Poland;
Rumania;
Union of Soviet Socialist Republics; and

(2) Does not constitute directly or indirectly engaging in any of the following activities outside of the United States:

(i) Designing or assisting in the design of facilities for the chemical processing of irradiated special nuclear material, facilities for the production of heavy water, facilities for the separation of isotopes of uranium, or equipment or components especially designed for any of the foregoing; or

(ii) Constructing, fabricating, or operating such facilities; or

(iii) Constructing, fabricating, or furnishing equipment or components especially designed for use in such facilities; or

(iv) Training foreign personnel in the design, construction, fabrication, or operation of such facilities or equipment or components especially designed therefore; or

(v) Furnishing information not available to the public in published form [1] for use in the design, construction, fabrication or operation of such facilities or equipment or components especially designed therefore; and

(3) Does not involve the communication of Restricted Data or other classified defense information; and

(4) Is not in violation of other provisions of law.

(b) Pursuant to section 57.b.(2) of the Act, the Administrator has determined that any activity not generally authorized pursuant to paragraph (a) of this section, which constitutes directly or indirectly engaging in the production of any special nuclear material outside of the United States, will not be inimical to the interest of the United States, and is authorized by the Administrator, provided that it:

(1) Does not involve the communication of Restricted Data or other classified defense information; and

(2) Is not in violation of other provisions of law; and either.

(3) Is limited to participation in (i) meetings of or conferences sponsored by educational institutions, laboratories, scientific or technical organizations; (ii) international conferences held under the auspices of a nation or group of nations; or (iii) exchange programs approved by the Department of State; or

(4) Is limited to the furnishing of information which is available to the public in published form [2] or which will be made available to the public in published form within 60 days after the furnishing thereof.

§ 810.8 Grant and revocation of specific authorization.

(a) Any person who proposes to engage directly or indirectly in the production of special nuclear material outside of the United States may apply, unless such proposed activity is authorized pursuant to an agreement for cooperation or is authorized by § 810.7, for a specific authorization to the Energy Research and Development Administration, Washington, D.C. 20545, attention: Division of International Security Affairs.

(b) The Administrator will approve an application for a specific authorization to engage directly or indirectly in the production of special nuclear material outside of the United States by conducting any of the activities enumerated in § 810.7(a) if, after taking into account following factors, he determines that such activity will not be inimical to the interest of the United States:

(1) Whether the United States has an agreement for cooperation with the country in which the proposed activity will be conducted;

(2) Whether the country in which the proposed activity will be conducted is a party to the treaty on the Nonproliferation of Nuclear Weapons (NPT) and, pursuant thereto, has entered into an agreement with the International Atomic Energy Agency (IAEA) for the application of safeguards to its peaceful nuclear activities;

(3) Whether the country in which the proposed activity will be conducted, if not a party to the NPT, will accept IAEA safeguards with respect to the project;

(4) The relative significance of the proposed activity and availability of comparable assistance from other sources; and

(5) Any other fact which may bear upon the political, economic, or security interests of the United States.

(c) An authorization pursuant to this § 810.8 may be revoked, suspended, or modified, in whole or in part:

(1) For any material false statement in the application for an authorization or in any additional information submitted pursuant to § 810.11, or

(2) If the Administrator finds that the conduct of any or all of the authorized activities would be inimical to the interest of the United States.

§ 810.9 Contents of application.

(a) Each application shall contain the following information:

(1) The full name, address and citizenship of the applicant. If the applicant is a corporation or other entity, it shall indicate the State where it was incorporated or organized, the location of the principal office, and shall furnish information known to the applicant concerning the control or ownership, if any, exercised over the applicant by any alien, foreign corporation or foreign Government. Each application shall contain complete and accurate disclosure with respect to the real party or parties in interest.

(2) A complete statement of the activity for which Administration authorization is requested, including designation of the country or countries involved and a detailed description of the specific project to which such activity relates.

(b) If the application contains restricted data or other defense information, it shall be prepared in such manner that all restricted data and other defense information are separated from the unclassified information.

(c) Information contained in applications, statements or reports otherwise filed by the applicant with the Administration may be incorporated by reference, provided that each such reference is clear and specific.

§ 810.10 Reports.

(a) Except as provided in paragraph (c) of this section, each person who engages in an activity specified in paragraph (b) of this section shall within 30 days from the commencement of such activity submit a report to the Energy Research and Development Administration, Washington, D.C. 20545, Attention: Division of International Security Affairs. Each such report shall contain the following information:

[1] For purposes of this section, "information which is available to the public in published form" shall include, but not be limited to any information contained in an application filed in accordance with the regulations of the U.S. Patent Office and eligible for foreign filing under 35 U.S.C. 184. In addition, information which is available from the Administration pursuant to 5 U.S.C. 552 shall, for purposes of this section, be deemed to be information available to the public in published form.

[2] Ibid.

(1) The name, address and citizenship of the person submitting the report;

(2) The name, address and citizenship of the person or persons for whom such activities are performed;

(3) A description of the activity, including its locations.

(b) Activities to be reported:

(1) The design, construction, or operation, outside the United States, of:

(i) A nuclear reactor; or

(ii) A facility for the separation of isotopes of plutonium; or

(iii) A facility for the chemical, physical or metallurgical processing or fabrication or alloying of special nuclear material; or

(iv) A facility for the production of zirconium (hafnium-free or low-hafnium), reactor-grade graphite, or beryllium; or

(2) The design or fabrication outside the United States, of any component part especially designed or fabricated for a nuclear reactor or other facility specified in subparagraph (1) of this paragraph; or

(3) The furnishing of designs, drawings, or other technical data for use outside the United States in the construction or operation of a facility specified in subparagraph (1) of this paragraph or in the fabrication of a component part specified in subparagraph (2) of this paragraph; or

(4) The separation, outside of the United States, of isotopes of uranium or plutonium, or

(5) The production, outside of the United States, of heavy water, zirconium (hafnium-free or low-hafnium), reactor-grade graphite, or beryllium; or

(6) The chemical, physical or metallurgical processing or fabricating or alloying, outside the United States, of special nuclear material.

(c) The reporting requirements of this section shall not apply to:

(1) Any activity consisting only of (i) the communication of information generally available to the public in published form; or (ii) financial assistance; or (iii) the transmittal of information relating only to conceptual design or performance characteristics of nuclear reactors or facilities; or (iv) the comparative evaluation of types of reactors or facilities; or (v) any combination of the foregoing.

(2) Any person to the extent that such person engages in activity authorized by § 810.7 as the employee of a person required to submit a report pursuant to paragraph (a) of this section.

(3) Any activity specifically authorized by the Administrator.

§ 810.11 Additional information.

The Administration may at any time require any person who engages in activity specified in § 810.10 to submit additional information with respect to such activity.

§ 810.12 Violations.

An injunction or other court order may be obtained prohibiting any violation of any provision of the act or any regulation or order issued thereunder. Any person who wilfully violates any provision of the act or any regulation or order issued thereunder may be guilty of a crime and, upon conviction, may be punished by fine or imprisonment or both, as provided by law.

§ 810.13 Effective date.

The regulations in this part are effective September 30, 1975.

NOTE.—The reporting requirements contained herein have been approved by the Office of Management and Budget in accordance with the Federal Reports Act of 1942.

Dated at Washington, D.C., this 23rd day of September, 1975.

For the Energy Research and Development Administration.

EDWARD B. GILLS,
Acting Assistant Administrator for National Security.

OTC Margin Stock List

Pursuant to the authority of section 7 of the Securities Exchange Act of 1934 (15 U.S.C. 78g) and in accordance with § 207.2(f)(2) of Regulation G, "Securities Credit by Persons other than Banks, Brokers or Dealers," § 220.2(e)(2) of Regulation T, "Credit by Brokers and Dealers," and § 221.3(d)(2) of Regulation U, "Credit by Banks for the Purpose of Purchasing or Carrying Margin Stocks," and in accordance with the criteria specified in § 207.5 of Regulation G, § 220.8(h) and (i) of Regulation T, and § 221.4(d) and (e) of Regulation U, there is set forth below the list of stocks traded over-the-counter, current as of September 29, 1975, that the Board of Governors has found meet the criteria specified above and thus have the degree of national investor interest, the depth and breadth of market, and the availability of information respecting the stock and its issuer to warrant subjecting such stocks to the requirements of Regulations G, T, U and X, 12 C.F.R. 224, which makes Regulations G, T and U applicable to borrowers of securities credit.

It is unlawful for any person to cause any representation to be made that inclusion of a security on this List indicates that the Board or the Securities and Exchange Commission has in any way approved such security or transaction therein. Also, any reference to the Board in connection with this List or any securities thereon in an advertisement or similar communication is unlawful.

The requirements of 5 U.S.C. 553 with respect to notice and public participation were not followed in connection with the issuance of this List because following such requirements is unnecessary due to the objective character of the criteria for inclusion on the List, specified in 12 C.F.R. 207.5 (d) and (e), 220.8 (h) and (i), and 221.4 (d) and (e). No additional useful information would be gained by public participation. The requirements of 5 U.S.C. 553 with respect to deferred effective date have not been followed in connection with issuance of this List because to do so would allow some persons to reap unfair profits and would not aid other persons affected thereby.

By order of the Board of Governors of the Federal Reserve System acting by its Director of the Office of Saver and Consumer Affairs pursuant to delegated authority (12 C.F.R. 265.2(h)(1)), effective September 29, 1975.

[SEAL] GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

LIST OF OTC MARGIN STOCKS

as of September 29, 1975

This List of OTC Margin Stocks is comprised of stocks traded over-the-counter (OTC) that have been determined by the Board of Governors of the Federal Reserve System to be subject to margin requirements as of September 29, 1975, pursuant to Sections 207.2(f) of Federal Reserve Regulation G, "Securities Credit by Persons other than Banks, Brokers or Dealers," 220.2(e) of Regulation T, "Credit by Brokers and Dealers," and 221.3(d) of Regulation U, "Credit by Banks for the Purpose of Purchasing or Carrying Margin Stocks."

The List is published from time to time by the Board as a guide for lenders subject to the regulations and the general public. Stocks will be added to the List, or deleted, in the interim between publications as deemed appropriate by the Board. This List supersedes the previous List of OTC Margin Stocks published as of July 29, 1974, including changes thereto.

CAUTION: It is unlawful for any person to cause any representation to be made that inclusion of a security on this List indicates that the Board or the Securities and Exchange Commission has in any way approved such security or transactions therein. Also, any references to the Board in connection with this List or any securities thereon in an advertisement or similar communication is unlawful.

Any inquiry relating to this List or to Regulations G, T, U or X should be addressed to the nearest Federal Reserve Bank.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 39]

[Docket Nos. 75-NW-15-AD, 75-NW-25-AD]

AIRWORTHINESS DIRECTIVES

Boeing Model 727 Series Airplanes

A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive requiring inspections and repair, as necessary, of the lower fuselage body skin at BBL 0 doubler locations between Body Stations 360 and 740 for corrosion and/or cracks on Boeing Model 727 series airplanes was published in 40 F.R. 22554.

Upon review of the comments received regarding the notice, and upon further consideration of the problem, the FAA has determined that the proposed action is not entirely appropriate or adequate. Therefore, pursuant to the authority delegated to me by the Administrator (31 F.R. 13697), the proposed airworthiness directive published in the FEDERAL REGISTER in 40 F.R. 22554 is hereby withdrawn.

Further examination of lower body skin corrosion problems revealed that frequent external visual inspections for bulging skin, pulling rivets, etc., are more reliable for detection of corrosion in its early stages than the proposed long-term internal visual inspections or the use of low-cycle eddy current inspections. Furthermore, subsequent to issuance of NPRM 75-NW-15-AD, the FAA became aware of an instance of severe cracking at Stringer 27 above BBL 0. This area is outside of that covered by the proposed AD. An investigation revealed that there had been two other occurrences at Stringer 27 that were of equally severe proportions. As a result of this review, FAA now believes that the mandatory action should consist of external visual inspections conducted more frequently and should be expanded to also include the lower body skin between Stringers 27L and 27R under the body fairing from the forward end of the fairing to Body Station 740. The proposed AD would require that the inspections be made at intervals not to exceed 90 days except for the body skin under the body fairing, for which removal would be required every other inspection only. Thus, the area to be inspected is larger and the inspection intervals are more frequent, although the inspections are less complex.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communication should identify the docket number and be submitted in duplicate to the Department of Transportation, Federal Aviation Administration, Northwest Region, Attention: The Regional Counsel, Airworthiness Rules Docket, 9010 East Marginal Way South, Seattle, Washington 98108. All communications received on or before November 3, 1975, will be considered by the Administrator before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

In consideration of the foregoing, it is proposed to amend § 39.13 of the Federal Aviation Regulations by adding the following new airworthiness directive:

BOEING: Applies to Boeing Model 727 series airplanes, listed in Boeing Service Bulletin 727-53-128, or later FAA approved revisions, certificated in all categories. Compliance required as indicated.

To detect corrosion and/or cracking in the lower body skin between Body Stations 360 and 740, accomplish the following:

A. Within the next 90 days after the effective date of this AD, and thereafter at intervals not to exceed 90 days, inspect the lower body skin per paragraph B:

1. Along BBL 0 from Body Stations 360 to 740.

2. Between Stringers 27L and 27R from the forward end of the body fairing to Body Station 740.

The reinspection interval for A2 may be at times not to exceed 180 days. This inspection will require removal of several access panels, the most forward body fairing segment, and the ram air splitter vane. Remove such items in accordance with the procedures specified in the Boeing 727 Maintenance Manual or equivalent.

B. Conduct an external visual inspection of the lower body skin for cracks, bulges, loose or pulling rivets, missing or white powdered rivet heads, and other evidence of corrosion or cracking. If corrosion and/or cracking is found, repair per paragraph C.

C. Repair in accordance with Boeing Service Bulletin 727-53-128, or later FAA approved revisions, or in a manner approved by the Chief, Engineering and Manufacturing Branch, FAA Northwest Region.

D. Areas repaired in accordance with paragraph C, the Boeing 727 Structural Repair Manual, or Boeing Service Bulletin 727-53-73, or later FAA approved revisions, need not comply with the inspection requirements of this AD. Areas in which corrosion/cracking is not found must be reinspected per paragraph B at the intervals specified in paragraph A, until terminating action per paragraph E is accomplished.

E. Installation of either the complete repair doubler or skin panel replacement in accordance with Boeing Service Bulletin 727-53-128, or an installation approved by the Chief, Engineering and Manufacturing Branch, FAA Northwest Region, constitutes terminating action for this AD.

F. Upon request of the operator, an FAA maintenance inspector, subject to prior approval of the Chief, Engineering and Manufacturing Branch, FAA Northwest Region, may adjust the repetitive inspection intervals specified in this AD to permit compliance at an established inspection period of the operator, if the request contains substantiating data to justify the increase for that operator.

(Secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423) and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655 (c)).

Issued in Seattle, Washington, September 22, 1975.

C. B. WALK, JR.,
Director, Northwest Region.

DESIGNATION OF TRANSITION AREA

Notice of Proposed Rule Making

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations to designate a 700-foot transition area at Orange, Tex.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101. All communications received on or before October 30, 1975 will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Texas. An informal docket will also be available for examination at the Office of the Chief, Airspace and Procedures Branch, Air Traffic Division.

It is proposed to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth.

In § 71.181 (40 FR 441), the following transition area is added:

ORANGE, TEX.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Orange County Airport (latitude 30°04'10" N., longitude 93°48'05" W.) and within 3 miles each side of the 042° bearing from the proposed NDB (latitude 30°04'35" N., longitude 93°47'35" W.) extending from the 5-mile radius area to 2.5 miles northeast.

The proposed transition area will provide controlled airspace for aircraft executing the proposed NDB RWY 21 (Original) instrument approach procedure.

This notice will also serve to notify airspace users of the change of airport category from VFR to IFR.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348) and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Fort Worth, TX., on September 15, 1975.

ALBERT H. THURBURN,
Acting Director,
Southwest Region.

Regulations Submitted by EPA to FAA

Correction

In FR Doc. 75-25811, appearing at page 44256, in the issue for Thursday, September 25, 1975 make the following changes:

On page 44270 in the third column:

1. A paragraph was inadvertently omitted and should be inserted immediately above the last paragraph to read as follows:

"The FAA has not received from EPA an inflationary impact assessment or environmental impact assessment for the proposals set forth in this notice."

2. The signature should be changed to read "J. A. Ferrarese, *Acting Director, Flight Standards Service.*"

[14 CFR Part 152]

[Docket No. 14932; Notice No. 75-32A]

PROCESSING AIRPORT DEVELOPMENT ACTIONS AFFECTING THE ENVIRONMENT

Extension of Comment Period

The Federal Aviation Administration proposed in Notice 75-32, published on August 20, 1975 (40 F.R. 36516), to amend Part 152 of the Federal Aviation Regulations to revise references to applicable procedures for processing airport development actions affecting the environment. The notice stated that consideration would be given to all comments received on or before October 3, 1975.

The National Association of State Aviation Officials (NASAO), the American Association of Airport Executives (AAAE), and the Airport Operators Council International (AOCI) have requested an extension of the time for comments on this proposed regulatory action. NASAO and AAAE are both holding meetings during the latter part of September, 1975, at which time Notice 75-32 is to be discussed, and the requested extension of time would permit them to prepare comments after discussion at their respective meetings. AOCI has requested an extension of time in order to allow individual airport operators a better opportunity for detailed study of the proposal and its ramifications.

In consideration of the foregoing, I find that the petitioners have a substantive interest in the proposed rule, that good cause exists for extending the comment period on Notice 75-32, and that such an extension is consistent with the public interest.

Therefore, pursuant to the authority delegated to me by the Administrator (14 CFR 11.45), the time within which comments on Notice 75-32 will be received is extended to November 3, 1975.

Issued in Washington, D.C., on September 25, 1965.

WILLIAM V. VITALE,
Director,
Airports Service.

Materials Transportation Bureau

[49 CFR Part 177]

[Docket No. HM-110; Reference Notice 75-5]

REPAIRS TO VEHICLES IN CLOSED BUILDINGS

Withdrawal of Notice of Proposed Rulemaking

This notice withdraws that part of the notice of proposed rulemaking, 75-5 (40 FR 21485), which proposed a revision to the regulation pertaining to repair and maintenance, in closed buildings, of vehicles containing flammable liquid or gas.

Of the comments received in response to this proposal, most objected for several reasons. Upon review of the proposal, in the light of these objections, the Materials Transportation Bureau found a need for additional research and consideration.

Withdrawal of this proposal also shows the need to delay the effective date of a recent amendment, which addresses the same matter. (Amendment No. 177-31 (39 FR 41741).) It would otherwise become effective on October 1, 1975. A notice to postpone the effective date appears elsewhere in this publication.[1]

The Bureau expects to issue another notice of proposed rulemaking after further consideration. The views of interested parties, which are currently on file, will be reconsidered in the development of the new proposal.

In consideration of the foregoing, that part of the proposal (§ 177.854(g)) published in the FEDERAL REGISTER (49 FR 21485) on May 16, 1975, and circulated as part of Notice 75-5 is hereby withdrawn.

COMPLIANCE ENFORCEMENT AND DEFECTS INVESTIGATION

Notice of Proposed Rulemaking

This notice proposes codifying existing agency practice with respect to compliance enforcement and defects investigation procedures by adding a Part 554 to Title 49 of the Code of Federal Regulations. The proposed Part combines and

[1] See FR Doc. 75-26243 in the Rules and Regulations section of this issue.

condenses previously published policy directives (39 F.R. 1373, January 8, 1974; 38 F.R. 31460, November 14, 1973) and incorporates changes required by the Motor Vehicle and Schoolbus Safety Amendments of 1974, P.L. 93-492, 88 Stat. 1470. The purpose of codification is more fairly and effectively to implement the National Traffic and Motor Vehicle Safety Act, as amended, 15 U.S.C. 1381 *et seq.*, by better informing interested persons of the agency's procedures.

The agency's organization and general enforcement scheme remains unchanged. Separate Standards Enforcement and Defects Investigation offices develop priorities, solicit information, and conduct investigations. Both issue monthly reports on pending investigations. Preliminary determinations are communicated to the public through FEDERAL REGISTER notices of public meetings and through press releases when appropriate. Final determinations of the Administrator are based on the investigatory file and information communicated at any public meeting.

The principal proposed change makes more similar the operations of the Office of Standards Enforcement and the Office of Defects Investigation. The present proposal calls for the presentation of data, views, and arguments (either at a hearing or in written form) about 30 days after an initial determination of any noncompliance or safety-related defect, at which time a manufacturer could attempt to establish that there is no defect or failure to comply or that the alleged defect does not affect motor vehicle safety. A new Part 556 (49 CFR Part 556), as proposed, would allow manufacturers to petition for exemption from defect and noncompliance notification and remedy requirements on grounds that the defect or noncompliance is inconsequential as it relates to motor vehicle safety. The NHTSA would consider the merits of such a petition either at the hearing or as separate written arguments of the manufacturer in refutation of the agency's initial determination.

In consideration of the foregoing, it is proposed that a new Part 554 be added to Title 49 of the Code of Federal Regulations, to read as set forth below.

Interested persons are invited to submit comments on the proposal. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5108, 400 Seventh Street, SW., Washington, D.C. 20590. It is requested but not required that 10 copies be submitted.

All comments received before the close of business on the comment closing date indicated below will be considered, and will be available for examination in the docket at the above address both before and after that date. To the extent possible, comments filed after the closing date will also be considered. However, the rulemaking action may proceed at any time after that date, and comments received after the closing date and too late for consideration in regard to the action will be treated as suggestions for future rulemaking. The NHTSA will continue to file relevant material as it becomes available in the docket after the closing date, and it is recommended that interested persons continue to examine the docket for new material.

Comment closing date: November 14, 1975.

Proposed effective date: Date of publication of final rule in the FEDERAL REGISTER.

New Part 554 as proposed would read as follows:

PART 554—STANDARDS ENFORCEMENT AND DEFECTS INVESTIGATION

Sec.
554.1 Scope.
554.2 Purpose.
554.3 Application.
554.4 Office of standards enforcement.
554.5 Office of defects investigation.
554.6 Opening an investigation.

554.8 Monthly reports.
554.9 Availability of files.
554.10 Preliminary determinations and public meetings.
554.11 Final determinations.

AUTHORITY: Secs. 103, 108, 109, 112, 114, 119, Pub. L. 89-563, 80 Stat. 718 (15 U.S.C. 1392, 1397, 1398, 1401, 1403, 1407); Secs. 102-104, 196, Pub. L. 93-492, 88 Stat. 1470 (15 U.S.C. 1410a, 1411-1418); delegations of authority at 49 CFR 1.51 and 49 CFR 501.8.

§ 554.1 Scope.

This part establishes procedures for enforcing Federal motor vehicle safety standards, investigating possible safety-related defects, and making non-compliance and defect determinations.

§ 554.2 Purpose.

The purpose of this part is to inform interested persons of the procedures followed by the National Highway Traffic Safety Administration in order more fairly and effectively to implement National Traffic and Motor Vehicle Safety Act (the Act).

§ 554.3 Application.

This part applies to actions, investigations, and defect and non-compliance determinations of the National Highway Traffic Safety Administration under sections 109, 112, 124, 152, 156, 157, and 158 of the Act (15 U.S.C. 1398, 1401, 1411, 1412, 1416, 1417, 1418).

§ 554.4 Office of standards enforcement.

The Office of Standards Enforcement, Motor Vehicle Programs, investigates compliance with Federal motor vehicle safety standards, and to this end may—

(a) Verify that manufacturers certify compliance with all applicable safety standards;

(b) Collect field reports from all sources;

(c) Inspect manufacturers' certification test data and other supporting evidence, including dealer communications;

(d) Inspect vehicles and equipment already in use or new vehicles and equipment at any stage of the manufacturing, distribution and sales chain; and

(e) Conduct selective compliance tests.

§ 554.5 Office of Defects Investigation.

The Office of Defects Investigation, Motor Vehicle Programs, conducts investigations to implement the provisions of the Act concerning the identification and correction of safety-related defects in motor vehicles and motor vehicle equipment. It elicits from every available source and evaluates on a continuing basis any information suggesting the existence of a safety-related defect.

§ 554.6 Opening an investigation.

(a) A compliance or defect investigation is opened either on the motion of the Administrator or his delegate or on the granting of a petition of an interested party under Part 552 of this chapter.

(b) A manufacturer is notified immediately by telephone of any compliance test failure in order to enable the manufacturer to begin his own investigation.

§ 554.7 Investigation priorities.

(a) Compliance investigation priorities are reviewed annually and are set according to the following criteria:

(1) Prior compliance test data;

(2) Accident data;

(3) Engineering analysis of vehicle and equipment designs;

(4) Consumer complaints; and

(5) Market share.

(b) Defects inputs are reviewed periodically by an appropriate panel of engineers in consultation with the Office of Chief Counsel to determine whether a formal investigation should be opened by the Office of Defects Investigation.

§ 554.8 Monthly reports.

(a) *Compliance.* A monthly compliance report is issued which lists investigations opened, closed, and pending during that month, identifies compliance test reports accepted, and indicates how individual reports may be obtained.

(b) *Defects.* A monthly defects report is issued which lists investigations opened, closed, pending, and suspended during that month. An investigation may be designated "suspended" where the information available is insufficient to warrant further investigation. Suspended cases are automatically closed 60 days after appearing in a monthly report unless new information is received which justifies a different disposition.

§ 554.9 Availability of files.

All files of closed or suspended investigations are, except for exempt mate-

rial, available for public inspection in the NHTSA Technical Reference Library. Communications between the agency and a manufacturer with respect to ongoing investigations are also available. Reproduction of entire files or of individual documents can be arranged.

§ 554.10 Preliminary determinations and public meetings.

(a) A preliminary determination of failure to comply with safety standards or of a safety-related defect is made by the Administrator or his delegate based on the completed investigative file compiled by the appropriate office.

(b) The determination is communicated to the manufacturer in a letter which makes available all information on which the decision is based. The letter advises the manufacturer of his right to present data, views and arguments to establish that there is no defect or failure to comply or that the alleged defect does not affect motor vehicle safety. The letter also specifies the time and place of a public meeting for the presentation of arguments or sets a date by which written comments must be submitted. Submission of all information, whether at a public hearing or in written form, is normally scheduled about 30 days after the preliminary determination.

(c) Public notice of a preliminary determination is made in a FEDERAL REGISTER notice that—

(1) Identifies the motor vehicle or item of equipment and its manufacturer;

(2) Summarizes the information upon which the determination is based;

(3) Gives the location of all information available for public examination; and

(4) States the time and place of a public meeting or the deadline for written submissions in which the manufacturer and interested persons may present data, views, and arguments respecting the determination.

(d) A transcript of the public meeting is kept and exhibits may be offered. There is no cross-examination of witnesses.

(e) If the Administrator makes a determination that a failure to comply or a safety-related defect does not exist he may, at his discretion in a particular case, within 60 days of the determination, invite interested persons to submit their views on the NHTSA investigation in another public meeting. Notice and procedures for such a meeting are as specified in paragraphs (c) and (d) of this section.

§ 554.11 Final determinations.

(a) The Administrator bases his final determination on the completed investigatory file and the data, views, and arguments submitted at the public meeting.

(b) If the Administrator determines that a failure to comply or a safety-related defect exists, he orders the manufacturer to furnish the notification specified in the Act and to remedy the defect or failure to comply.

(c) If the Administrator determines that a failure to comply or a safety-related defect does not exist, he so notifies the manufacturer and all other persons who participated in the public meeting.

(d) A statement of the Administrator's final determination and the reasons for it appears in each completed public file.

[OST Docket No. 21; Notice No. 75-8]

EASTERN-CENTRAL STANDARD TIME ZONE BOUNDARY IN THE STATE OF MICHIGAN

Proposed Relocation

The Board of County Commissioners of Iron County, Michigan, has petitioned the Department of Transportation to amend § 71.5 of title 49 of the Code of Federal Regulations to redefine the boundary between the eastern and central time zones so as to include Iron County in the eastern time zone.

At present, four counties in the Upper Peninsula of Michigan—Iron, Gogebic, Dickenson and Menominee—are within the central time zone. The remainder of the State of Michigan is within the eastern time zone. The four counties were relocated from the eastern to the central zone by order of the Secretary of Transportation issued April 10, 1973, and effective 2:00 a.m., April 29, 1973 (38 FR 9228, April 12, 1973).

The Board of Commissioners, which had supported the relocation of the central time zone in 1973, now believes commerce and the convenience of citizens have been disrupted by the relocation. The Board believes the convenience of commerce and of its citizens would best be served by relocating the time zone limits to include Iron County within the eastern time zone.

Under the Time Act originally enacted in 1918, as amended by the Uniform Time Act of 1966 (15 U.S.C. 260 *et seq.*) the Secretary of Transportation is authorized to modify the limits of time zones having regard to "the convenience of commerce and the existing junction points and division points of carriers engaged in interstate or foreign commerce."

In consideration of the foregoing, the Department proposes to amend paragraph (a) of § 71.5 of title 49 of the Code of Federal Regulations to relocate the boundary between the eastern and central time zones so as to include Iron County in the eastern time zone.

Before taking final action to adopt, deny, or modify the proposed boundary requested by the petitioner, the Secretary of Transportation will consider the timely comments of all interested persons. Comments should identify the regulatory docket or notice number (see above) and be submitted to the Docket Clerk, Office of the General Counsel, Department of Transportation, Washington, D.C. 20590. Comments received on or before October 20, 1975, will be considered before final action is taken on the petition. All docketed comments will be available for public inspection and copying, both before and after the closing date for comments, in the Office of the Assistant General Counsel for Regulation, Room 10424, Department of Transportation Headquarters (Nassif) Building, 400 Seventh Street, S.W., Washington, D.C., between 9:00 a.m. and 5:30 p.m. local time, Monday through Friday, except Federal holidays.

This proceeding does not concern adherence to or exemption from advanced time. The Uniform Time Act of 1966 requires observance of advanced time from 2:00 a.m. on the last Sunday in April to 2:00 a.m. on the last Sunday in October of each year, but permits any State to exempt itself from this requirement by law applicable to the entire State. A State that has parts in more than one time zone may exempt the entire area within one time zone without exempting the entire State. Thus, any part of the State of Michigan placed in the central time zone must, under existing law in the State of Michigan, observe central advanced time from 2:00 a.m. on the last Sunday in April to 2:00 a.m. on the last Sunday in October of each year. All such parts may, however, be exempted collectively from such observance by act of the Michigan legislature.

The Department intends that any change in the existing boundary which results from the adoption of this proposal shall take effect at 2:00 a.m., Sunday, October 26, 1975, the beginning of the changeover date to standard (nonadvanced) time.

This proposal is issued under authority of the Act of March 19, 1918, as amended by the Uniform Time Act of 1966 (15 U.S.C. 260-67); section 6(e)(5) of the Department of Transportation Act (49 U.S.C. 1655(e)(5)); and § 1.59(a) of the Regulations of the Office of the Secretary of Transportation (49 CFR 1.59(a)).

Issued in Washington, D.C., on September 25, 1975.

JOHN HART ELY,
General Counsel.

[Docket No. 75N-0254]

CONDITIONS FOR MARKETING HUMAN PRESCRIPTION DRUGS AND DEVICES

Regulatory Policy and Proposed Rulemaking for Marketing Contact Lenses

The Commissioner of Food and Drugs is proposing to adopt a regulation setting forth the Food and Drug Administration's longstanding regulatory policy for marketing contact lenses and explaining the criteria the Agency will use to determine whether contact lenses are to be regarded as drugs or devices. Interested persons have until December 1, 1975 to

submit written comments regarding the proposal.

Background—Contact lenses consisting entirely of polymethylmethacrylate (PMMA) have been marketed in the United States since the early 1950's and have been and continue to be regarded by the Agency as devices within the meaning of section 201(h) of the Federal Food, Drug, and Cosmetic Act. Such products do not require administrative approval for marketing.

Since the introduction of hydrophilic soft contact lenses in the 1960's, the agency has regarded all contact lenses other than those consisting of PMMA as new drugs requiring premarketing clearance. This decision to regulate such contact lenses under the new drug provisions of the Federal Food, Drug, and Cosmetic Act was based on a recognition that new plastic materials that had not been shown to be safe and effective were being introduced for use in the manufacture of contact lenses. The introduction of these new materials led to new lens design and use, new manufacturing methods, and new methods for lens care. The Food and Drug Administration is concerned that the use of these contact lenses may result in serious eye damage if the new material of which they are composed is unsafe for use in the eye, if the user cannot feasibly care for the lenses, or if the highly complex procedures for the manufacture of these lenses are not carefully controlled to assure a product of uniform quality.

To be safe for use, contact lenses must be compatible with the ocular tissue and nonbiodegradable, i.e., incapable of introducing potentially toxic substances into the surrounding tissue through leaching or migration. To determine the safety of contact lenses, studies must be conducted to define the biocompatibility of the lenses with ocular tissue and to determine their biodegradability. Such studies must supply data adequate to establish the safety of the lenses and should include, among others, ocular irritation studies, tissue reactivity studies, primary ocular irritation studies using extractables obtained from the lenses, and studies to determine the possible effects that might be produced by the lenses following inadvertent use with common ophtalmic preparations, including those available on the prescription of a licensed practitioner. In evaluating such studies, the frequency and duration of contact lens wear require that consideration be given to the long term tolerance of ocular tissues to the lenses. In addition, tests must be conducted to determine the danger of potentially toxic substances leaching or migrating from the lenses into the surrounding ocular tissue. To assess this danger it is necessary to determine the quantitative amounts of the toxic substances that may be detrimental.

Several characteristics of contact lenses require a system for daily care by the lens wearer that is effective and practical. Although plastic contact lenses are highly polished on both sides, they are still slightly porous. If such lenses are stored while dry, the chemical constituents of tears can produce an undesirable residue of material on the surface of the lens which can disturb its optical transparency. Additionally, pathogenic organisms and toxic substances may be transferred to the lens. In certain cases, a buildup of proteinaceous deposits has been observed on contact lenses. Consequently, methods must be developed for daily cleaning and aspepticizing of lenses to prevent damage of the eye from infection and to maintain the effectiveness of the lenses. Where disinfecting solutions are required, studies must be conducted to determine if the constituents of the solution will be absorbed and concentrated in the lenses and subsequently eluted into the wearer's eyes in order to prevent the severe eye damage which may occur under these circumstances.

To be safe for use, contact lenses must also be capable of being manufactured under conditions which will assure a product of uniform quality. Complex chemistry is involved in the synthesis of new plastics used in contact lenses, and apparently minor alterations of the component in the plastic may affect the absorption of the plastic or the therapeutic usefulness or stability of the product. In assessing the adequacy of the procedures for manufacturing contact lenses, consideration must be given to purity of raw materials and methods of production to assure that toxic substances are not present in the raw materials or produced in the manufacturing process.

The Agency's policy of regarding contact lenses other than those consisting entirely of PMMA as new drugs is consistent with the decision of the Supreme Court in *United States* v. *An Article of Drug . . . Bacto-Unidisk*, 394 U.S. 784 (1969), and of the United States Court of Appeals for the Second Circuit in *AMP Inc.* v. *Gardner*, 389 F. 2d 825 (C.A. 2), *cert. denied sub nom, AMP, Inc.* v. *Cohen*, 393 U.S. 825 (1968). These decisions recognized that products falling within the act's broad definition of "drug" may properly be regulated as new drugs to accomplish the act's basic purpose of protecting the public health. As Chief Justice Warren stated in *United States* v. *Bacto-Unidisk*, *supra* at 793, 798-99, in his opinion for the Court:

> [I]t is clear from § 201 that the word "drug" is a term of art for the purposes of the Act, encompassing far more than the strict medical definition of that word * * *. The historical expansion of the definition of drug, and the creation of a parallel concept of devices, clearly show * * * that Congress fully intended that the Act's coverage be as broad as its literal language indicates—and equally clearly, broader than any strict medical definition might otherwise allow * * *. [L]egislative history, read in light of the statute's remedial purpose, directs us to read the classification "drug" broadly, and to confine the device exception [to a relatively narrow interpretation] * * *.

At the time of these court decisions, contact lenses consisting entirely of PMMA had become widely used since their introduction. Experience in using these lenses had raised no substantial questions as to their safety and effectiveness. Therefore, the Food and Drug Administration continues to regard these lenses as devices.

The policy of the Food and Drug Administration of regarding all contact lenses other than those consisting entirely of PMMA as new drugs has been publicized and is generally known to contact lens manufacturers. (See, e.g., Halberg, G. Peter, M.D., "Regulatory Aspects of Contact Lenses," *Transactions of the American Academy of Ophthalmology and Otolaryngology* 78:419, May–June 1974, a speech presented at the Seventy-eighth Annual Meeting of the American Academy of Ophthalmology and Otolaryngology, Dallas, Texas, September 16–20, 1973. A copy is on display with the Hearing Clerk). Further evidence of industry awareness of this policy is the fact that several new drug or investigational new drug applications for contact lenses made of polymers other than PMMA have been submitted to the Agency.

Regulatory Policy—The Agency has in the past regarded, and will continue to regard, contact lenses consisting entirely of PMMA as devices within the meaning of section 201(h) of the act. Manufacturers of these contact lenses are responsible for assuring that such devices are not adulterated or misbranded.

The Agency has undertaken a study to determine the extent to which adjuvants such as cross-linking agents, resin bases, catalysts, colorants, and antioxidants are used in the manufacture of contact lenses consisting of PMMA to determine the effects of such adjuvants on the essential physicochemical characteristics of PMMA and thus to determine which of these contact lenses may be regarded as devices and which should be regarded as new drugs. The public will be advised of the findings of this study when it is completed, or if new information raising questions about the safety and effectiveness of any such contact lenses is developed.

The Agency has in the past regarded, and will continue to regard, as new drugs contact lenses consisting of polymers other than PMMA, e.g., cellulose acetate butyrate (CAB), polycarbonate, silicone, and hydroxyethylmethacrylate (HEMA). Appropriate regulatory action will be initiated against any such contact lenses introduced into interstate commerce that are not the subject of an approved full new drug application (NDA) or "Notice of Claimed Investigational Exemption for a New Drug" (IND).

Although the Agency's enforcement policy regarding contact lenses has previously been publicized, this policy is not set forth in Title 21 of the Code of Federal Regulations. Accordingly, the Commissioner of Food and Drugs has concluded that, formally to advise the public, this regulatory policy should be promulgated as a regulation and codified in Title 21, C.F.R. Such a regulation is proposed below. Upon promulgation, this

regulation will codify the Agency's current regulatory policy regarding contact lenses as set forth in this notice.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 505, 701 (a), 52 Stat. 1052-1053 as amended, 1055 (21 U.S.C. 355, 371(a))) and under authority delegated to him (21 CFR 2.120), the Commissioner proposes that Part 310 be amended by adding a new section to read as follows:

§ 310.512 Conditions for marketing contact lenses for human use.

(a) The Food and Drug Administration regards as devices, within the meaning of section 201(h) of the act, contact lenses consisting entirely of polymethylmethacrylate (PMMA). Manufacturers of these contact lenses are responsible for assuring that such devices are not adulterated or misbranded.

(b) The Food and Drug Administration has undertaken a study to determine the extent to which adjuvants such as cross-linking agents, resin bases, catalysts, colorants, and antioxidants are used in the manufacture of contact lenses consisting of PMMA to determine the effects of such adjuvants on the essential physicochemical characteristics of PMMA and thus to determine which of these contact lenses may be regarded as devices and which shall be regarded as drugs. The public will be advised of these findings when this study is completed or if new information raising questions about the safety and effectiveness of any such contact lenses is developed.

(c) The Food and Drug Administration regards as new drugs contact lenses consisting of polymers other than PMMA, e.g., cellulose acetate butyrate (CAB), polycarbonate, silicone, and hydroxyethylmethacrylate (HEMA). Any such lenses shipped in interstate commerce that are not the subject of an approved full new drug application (NDA) or "Notice of Claimed Investigational Exemption for a New Drug" (IND) shall be subject to regulatory action to enforce section 505 of the act.

Interested persons may, on or before December 1, 1975, submit to the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate and identified with the Hearing Clerk docket number found in brackets in the heading of this document) regarding this proposal. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: September 24, 1975.

Acting Associate Commissioner for Compliance.

[21 CFR Part 1010]

[Docket No. 70N-0259]

PERFORMANCE STANDARDS FOR ELECTRONIC PRODUCTS

Exemptions from Performance Standards for Products Intended for United States Government Use

The Commissioner of Food and Drugs proposes to amend Part 1010 of the Code of Federal Regulations (21 CFR Part 1010) to provide for exemptions from standards for electronic products intended for use by departments or agencies of the United States. The proposed amendment would add new § 1010.5. The granting of such exemptions is authorized by section 358(a)(5) of the Radiation Control for Health and Safety Act of 1968. Comments on this proposal must be submitted on or before December 1, 1975.

Pursuant to the act, electronic products intended for use by United States departments or agencies may be granted exemption from applicable performance standards of 21 CFR Subchapter J. provided the department or agency has prescribed procurement specifications governing the emissions of electronic product radiation and provided further that the product is of a type used solely or predominantly by departments or agencies of the United States. The manufacturer, which may or may not be the government agency, shall apply for the exemption. The purchasing specifications would have to be included in the application and would have to contain adequate provisions for radiation safety.

Proposed § 1010.5 would provide that:

1. Manufacturers would be required to submit:

a. The product's procurement specifications that relate to radiation emission. This would allow the Food and Drug Administration (FDA) to determine if there are adequate criteria governing the emission of electronic product radiation.

b. Evidence that the specific products for which exemption is sought are intended for use by departments or agencies of the United States Government and are of a type used solely or predominantly by such departments or agencies. Exemptions granted under this section would only be for products to be acquired and used by U.S. departments or agencies.

c. A description of the product and its intended use, to allow the FDA to become familiar with the product and any potential radiation hazards associated with it.

d. A description of the possible incompatability of the applicable standard in 21 CFR Subchapter J with the product's intended use. In general, exemptions from standards can be more readily justified if adherence to the standard would conflict with the intended use of the product.

e. A description of the exact manner in which it is proposed to deviate from the requirements of the standard. This is necessary to determine whether exemption from an applicable standard is appropriate.

f. A description of the advantages to be derived from deviations from requirements of the applicable standard. Deviation from requirements of a standard would be allowed only if there is a clear need or advantage in so doing.

g. An explanation of alternate means of radiation protection that are to be provided. If adherence to specific radiation protection criteria of an applicable standard is not appropriate, alternate means of radiation protection would be considered in evaluating the application.

h. The length of time the manufacturer desires to have the exemption in effect, and, if appropriate, the number of units to be manufactured under the exemption. All exemptions granted would have a termination date and, if appropriate, a specified number of units. Since electronic product technology is rapidly changing, it is not considered compatible with good radiation protection practice to allow open ended exemptions.

i. Additional information necessary to evaluate and act on the exemption request. Such additional information would be requested by the Director, Bureau of Radiological Health, Food and Drug Administration.

2. The proposed provisions would permit the Director, Bureau of Radiological Health, to amend or renew exemptions. This will avoid the necessity for submission and processing of completely new applications, where unwarranted.

3. The Director, Bureau of Radiological Health, would have authority to withdraw an exemption at any time when necessary to protect the public health, or when justified by the provisions of the act or 21 CFR Subchapter J. An exemption might be withdrawn if, for example, a standard is amended to make the exemption unnecessary. Withdrawal of an exemption could also be based upon additional information not anticipated or not available at the time the exemption is granted.

4. Applications for exemptions would be submitted to the office of the Hearing Clerk, Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20852. Applicants would be informed in writing by the Director, Bureau of Radiological Health of action on a requested exemption.

5. All applications for exemptions and amendments and extensions thereof, and all correspondence relating to such applications, would be available for public disclosure in the office of the Hearing Clerk, except for confidential or proprietary information submitted in accordance with 21 CFR Part 4.

Where applicable, State radiation control authorities will be notified of ap-

plications for exemptions, as well as actions taken.

No environmental impact statement or environmental impact analysis report is required pursuant to 21 CFR 6.1(b) because this amendment will not significantly affect the quality of the human environment.

Therefore, under the Public Health Service Act, as amended by the Radiation Control for Health and Safety Act of 1968 (sec. 358, 82 Stat. 1177–1179 (42 U.S.C. 263f, 263j)) and under authority delegated to him (21 CFR 2.120), the Commissioner proposes to amend Part 1010 by adding a new § 1010.5 to read as follows:

§ 1010.5 Exemptions for products intended for United States Government use.

(a) *Criteria for exemptions.* Upon application by a manufacturer (including assembler), the Director, Bureau of Radiological Health, Food and Drug Administration, may grant an exemption from any performance standard under Subchapter J of this chapter for an electronic product subject to such standard when he determines that such electronic product is intended for use by departments or agencies of the United States: *Provided*, That such department or agency has prescribed procurement specifications governing emissions of electronic product radiation: *Provided further*, That such product is of a type used solely or predominantly by departments or agencies of the United States.

(b) *Applications for exemptions.* Applications for exemptions or for amendments or extensions thereof shall be submitted in quintuplicate to the Hearing Clerk, Food and Drug Administration, Rm. 4–65, 5600 Fishers Lane, Rockville, MD 20852.

(1) The application for exemptions shall include the following information:

(i) The product's procurement specifications that govern emissions of electronic product radiation.

(ii) Evidence that such product is intended for use by a department or agency of the United States and is of a type used solely or predominantly by departments or agencies of the United States.

(iii) A description of the product and its intended use.

(iv) An explanation of how compliance with the applicable standard would restrict or be inappropriate for this intended use.

(v) A description of the manner in which it is proposed to deviate from the requirements of the applicable standard.

(vi) An explanation of the advantages to be derived from such deviation.

(vii) An explanation of how alternate means of radiation protection will be provided.

(viii) The period of time it is desired that the exemption be in effect, and, if appropriate, the number of units the applicant wishes to manufacture.

(ix) The name, address, and telephone number of the manufacturer or his agent.

(x) The name, address, and telephone number of the United States department or agency purchasing the product.

(xi) Such other information required by regulation or by the Director, Bureau of Radiological Health, to evaluate and act on the application.

(2) The application for amendment or extension of an exemption shall include the following information:

(i) The exemption number and expiration date.

(ii) The amendment or extension requested and basis for the amendment or extension.

(iii) A description of the effect of the amendment or extension on protection from radiation produced by the product.

(iv) An explanation of how alternate means of radiation protection will be provided.

(c) *Ruling on applications.* (1) The Director, Bureau of Radiological Health, may approve or deny, in whole or in part, a requested exemption or any amendment or extension thereof, and he shall inform the applicant in writing of his action on a requested exemption or amendment or extension. Each exemption will be assigned an identifying number.

(2) The Director, Bureau of Radiological Health, shall amend or withdraw an exemption whenever he determines that such action is necessary to protect the public health or otherwise is justified by provisions of the act or this subchapter. Such action shall become effective when the applicant receives written notice of the action, except that it shall become effective immediately when the Director determines that it is necessary to prevent an imminent health hazard.

(3) All applications for exemptions and for amendments and extensions thereof and all correspondence relating to such applications shall be available for public disclosure in the office of the Hearing Clerk, except for confidential or proprietary information submitted in accordance with Part 4 of this chapter.

Interested persons may, on or before December 1, 1975, submit with the Hearing Clerk, Food and Drug Administration, Rm. 4–65, 5600 Fishers Lane, Rockville, MD 20852, written comments regarding this proposal. Comments shall be submitted in quintuplicate and shall be identified with the Hearing Clerk docket number found in brackets in the heading of this document. It is proposed to make this amendment effective 10 days after publication of the final order. Received comments may be seen in the above office, Monday through Friday, from 9 a.m. to 4 p.m., except on Federal legal holidays.

Dated: September 23, 1975.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for Compliance.

APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Massachusetts: Proposed Change in the Sulfur Content of Fuel Burned in the Metropolitan Boston Air Quality Control Region

On May 31, 1972 (37 FR 10842), pursuant to section 110 of the Clean Air Act and 40 CFR Part 51, the Administrator approved with exceptions the Massachusetts Implementation Plan for the attainment of national ambient air quality standards.

On July 11, 1975 the Massachusetts Secretary of Environmental Affairs informally submitted a proposed revision pursuant to recently adopted Chapter 494, Commonwealth of Massachusetts' "An Act Relative to Periodic Review of Ambient Air Quality Standards" to be included in the implementation plan. The Secretary completed formal submittal of the revision on September 16, 1975. This revision would make less stringent the regulations governing sulfur content of fuels burned in the Boston core area by allowing electric generating facilities having an energy input capacity of two and one half billion (2.5 billion) or greater BTU per hour to burn fossil fuel with a sulfur content not to exceed 0.55 pounds per million BTU heat release potential (approximately equivalent to 1% sulfur content fuel oil). Also, those facilities located in the Metropolitan Boston Air Quality Control Region but not in the Boston core having an energy input capacity of one hundred million (100,000,000) or greater BTU per hour may burn fossil fuel with sulfur content not in excess of 1.21 pounds per million BTU heat release potential (approximate equivalent to 2.2 percent sulfur content fuel oil). These changes would be effective from July 1, 1975 to July 1, 1977. The proposed revision requires that each source be reviewed by the Department of Environmental Quality Engineering in order to insure that ambient air quality standards will not be exceeded. The proposed revision also requires that the use of such fuel must be approved in writing by the Department.

In certain cases the establishment of a network of continuous ambient air sulfur dioxide monitors will be required in the vicinity of a facility or combination of facilities eligible to burn fuel of the revised higher sulfur content. As a minimum, additional monitors will be required whenever the annual usage of the higher sulfur fuel would exceed ten (10) million oil-equivalent gallons in any one city or town. Exceedence of ambient air quality standards for sulfur dioxide recorded by such monitoring systems would be grounds for requiring an immediate and permanent return to the

use of lower sulfur fuel for the sources involved.

Copies of the Massachusetts submission are available for public inspection during normal business hours at the Environmental Protection Agency, Region I, J.F.K. Federal Building, Room 2113, Boston, Massachusetts 02203; Department of Environmental Quality Engineering, Bureau of Air Quality Control, Room 320, 600 Washington Street, Boston, Massachusetts 02111; and the Freedom of Information Center, Environmental Protection Agency, 401 M Street, SW, Washington, D.C. 20460.

The Regional Administrator hereby issues this notice setting forth the Massachusetts revision as proposed rulemaking and advises the public that interested persons may participate in this rulemaking by submitting written comments, preferably in triplicate, to the address below. Relevant comments received by October 31, 1975, will be considered and acknowledged. Comments received will be available for public inspection during normal working hours at the Region I office. All comments should be addressed to: Regional Administrator, Region I, Environmental Protection Agency, Room 2203, J.F.K. Federal Building, Boston, Massachusetts 02203.

The Administrator's decision to approve or disapprove the plan revision will be based on whether it meets the requirements of Sections 110(a)(2)(A)–(h) and 110(a)(3) of the Clean Air Act and EPA regulations in 40 C.F.R. Part 51. The Agency will incorporate in the rules adopted a concise general statement of their basis and purpose. This revision is being proposed pursuant to sections 110(a) and 301 of the Clean Air Act, as amended (42 U.S.C. 1857c–(5)(a) and 1857g).

Dated: September 23, 1975.

JOHN A. S. MCGLENNON,
Regional Administrator.

WISCONSIN AIR IMPLEMENTATION PLAN

Proposed Disapproval of New Source Review Provisions

On May 31, 1972 the Administrator of the Environmental Protection Agency approved, with certain exceptions, the Wisconsin Air Implementation Plan (37 FR 10842).

A subsequent review of the approval notice surfaced a deficiency in the review procedures for permitting construction or modification of sources. Section 144.39(1) of the Wisconsin Statutes (Ch. 83, Laws of 1967) permits construction of new sources or modifications if the State Agency fails to issue a prohibition order regardless of whether or not such construction/modification would interfere with attainment/maintenance of national air quality standards. NR 154.05(1) reiterates the language of the statute in the State Agency regulations.

Section 110(a)(2)(D) & (a)(4) of the Clean Air Act [42 U.S.C. 1857c–5 (a)(2)(D) & (a)(4)] and 40 CFR 51.11(a)(4) & 51.18 of the EPA regulations require States to have legal authority and enforceable procedures to prevent construction or modification of a source which may (a) violate portions of the applicable control strategy or (b) interfere with attainment/maintenance of a national standard.

In addition, 40 CFR 51.18(h) requires States to have procedures providing for public comment including a 30-day comment period.

The "default permit" contained in the Wisconsin Statute and regulations impedes the ability of the State to meet the above-described requirements. Accordingly, to the extent that issuance of "default permits" would interfere with the authority of the State of Wisconsin to prohibit construction which will cause violation of air quality standards or portions of the applicable plan, the Wisconsin plan should be disapproved. EPA is today proposing substitute regulations applicable to sources receiving "default permits." In addition, the Wisconsin plan should be disapproved for failure to meet public comment requirements, and a substitute regulation applicable to all new or modified source permits is proposed.

In the event that the State acts to correct these deficiencies by submitting a revision to the plan, the proposed plan disapproval and substitute regulations will be withdrawn.

Interested persons may participate in this rule-making procedure by submitting all remarks in writing to the Regional Administrator, EPA, Region V, 230 South Dearborn Street, Chicago, Illinois 60604. Comments must be received no later than October 30, 1975, to be eligible for consideration. All comments will be available for public inspection at the above location during normal business hours. The agency will carefully weigh all comments submitted.

(42 U.S.C. 1857c–5)

Dated: September 22, 1975.

JOHN QUARLES,
Acting Administrator.

It is proposed to amend Part 52 of Chapter I, Title 40, of the Code of Federal Regulations as follows:

Subpart YY—Wisconsin

1. Section 52.2574 is amended by adding paragraph (b) as follows:

§ 52.2574 Legal authority.

* * * * *

(b) The requirements of § 51.11(a)(4) of this Chapter are not met since Section 144.39(1) of the Wisconsin Statutes may preclude prevention of new source construction or modification in certain situations.

2. Section 52.2579 is amended by adding paragraphs (c), (d), and (e) as follows:

§ 52.2579 Review of new sources and modifications.

* * * * *

(c) The requirements of § 51.18 (a)(b) and (h) of this Chapter are not met because the State does not have procedures to prevent new source construction or modification in certain circumstances, and the State has failed to submit procedures providing for public comment on all new source-construction or modification permits.

(d) Regulation for review of new or modified sources which have received a "permit by default." (1) This requirement is applicable to any stationary source in the State of Wisconsin, the construction or modification of which is commenced after the effective date of this regulation and which has not been issued a permit to construct or a stop work order under Wisconsin NR 154.05(1).

(2) No owner or operator shall commence construction or modification of any stationary source subject to this regulation after the effective date of this regulation without first obtaining approval from the Administrator of the location and design of such source.

(i) Application for approval to construct or modify shall be made on forms furnished by the Administrator, or by other means prescribed by the Administrator.

(ii) A separate application is required for each source.

(iii) Each application shall be signed by the applicant.

(iv) Each application shall be accompanied by site information, the nature and amount of emissions, plans, description, specifications and drawings showing the design of the source, and the manner in which it will be operated and controlled. Such information shall be sufficient to enable the Administrator to make any determination pursuant to paragraph (d)(3) of this section.

(v) Any additional information, plans, specification, evidence or documentation that the Administrator may require shall be furnished upon request.

(3) No approval to construct or modify will be granted unless the applicant shows to the satisfaction of the Administrator that:

(i) The source will operate without causing a violation of any local, State or Federal regulation which is part of the applicable plan; and

(ii) The source will not prevent or interfere with attainment or maintenance of any national ambient air quality standard.

(4) Within 30 days after receipt of an application submitted pursuant to this requirement, the Administrator shall:

(i) Make preliminary determination on whether construction/modification of the source should be approved, conditionally approved, or disapproved.

(ii) Make available in at least one location in the region in which the proposed construction/modification is to take place, a copy of all materials submitted by the owner or operator, a copy

of the Administrator's preliminary determination, and a copy or summary of all other materials, if any, considered by the Administrator in making his determination.

(iii) Notify the public, by prominent advertisement in a newspaper of general circulation in the region in which the proposed construction/modification is to take place, of the opportunity for written comment on the information submitted by the owner or operator and the Administrator's preliminary determination on the approvability of the construction/modification.

(iv) Send a copy of the notice required pursuant to this sub-paragraph to all State and local air pollution control agencies having jurisdiction in the region where the construction/modification is to take place.

(v) Consider public comments submitted in writing within 30 days after the date such information is made available in making his final decision on the application. All public comments shall be made available for public inspection in at least one location in the region in which the construction/modification is to take place.

(5) The Administrator shall take final action on an application within 30 days after the close of a 30-day public comment period and will notify the applicant in writing of his approval, conditional approval, or denial of the application. The Administrator will set forth his reasons for any denial.

(6) The Administrator may impose any reasonable conditions upon an approval, including conditions requiring the source to be provided with:

(i) Sampling ports of a size, number, and location as the Administrator may require,

(ii) Safe access to each port,

(iii) Instrumentation to monitor and record emission data, and

(iv) Any other sampling and testing facilities.

(7) The Administrator may cancel an approval if the construction is not begun within 2 years from the date of issuance, or if, during the construction, work is suspended for one year.

(8) Any owner or operator subject to the provisions of this regulation shall furnish the Administrator written notification as follows:

(i) A notification of the anticipated date of initial startup of the source not more than 60 days or less than 30 days prior to such date.

(ii) A notification of the actual date of initial startup of a source within 15 days after such date.

(9) Within 60 days after achieving the maximum production rate at which the source will be operated, but not later than 180 days after initial startup of such source, the owner or operator of such source shall conduct a performance test(s) in accordance with methods and under operating conditions approved by the Administrator and furnish the Administrator a written report of the results of such performance test.

(i) Such test shall be at the expense of the owner or operator.

(ii) The Administrator may monitor such test and may also conduct performance tests.

(iii) The owner or operator of a source shall provide the Administrator 15 days prior notice of the performance test to afford the Administrator the opportunity to have an observant present.

(iv) The Administrator may waive the requirement for performance tests if the owner or operator of a source has demonstrated by other means to the Administrator's satisfaction that the source is being operated in compliance with all State and Federal regulations which are part of the applicable plan.

(10) Approval to construct shall not be required for:

(i) The installation or alteration of an air pollutant detector, air pollutants recorder, combustion controller, or combustion shutoff.

(ii) Air conditioning or ventilating systems not designed to remove air pollutants generated by or released from equipment.

(iii) Fuel burning equipment, other than smokehouse generators, which has a heat input of not more than 250 MBtu/h (62.5 billion g-cal/h) and burns only gaseous fuel containing not more than 0.5 gr H_2S per 100 std. ft^3 (5.7 g/100 $stdm^3$); has a heat input of not more than 1 MBtu/h (250 Mg-cal/h) and burns only distillate oil; or has a heat input of not more than 350,000 Btu/h (88.2 Mg-cal/h) and burns any other fuel.

(iv) Mobile internal combustion engines.

(v) Laboratory equipment used exclusively for chemical or physical analyses.

(vi) Other sources of minor significance specified by the Administrator.

(11) Approval to construct or modify shall not relieve any owner or operator of the responsibility to comply with all local, State, and Federal regulations which are part of the applicable plan.

(e) Regulation providing for public comment. (1) Prior to approval or disapproval of the construction or modification of a stationary source, the Secretary of the Wisconsin Department of Natural Resources shall:

(i) Make a preliminary determination whether the construction/modification of the stationary source shall be approved, approved with conditions, or disproved.

(ii) Make available in at least one location in the region in which the proposed construction/modification would take place, a copy of all materials submitted by the owner or operator, a copy of the Secretary's preliminary determination, and a copy or summary of other materials, if any, considered by the Secretary in making his preliminary determination, and

(iii) Notify the public, by prominent advertisement in a newspaper of general circulation in the region in which the proposed construction/modification would take place, of the opportunity for public comment on the information submitted by the owner or operator and the Secretary's preliminary determination on the approvability of the construction/modification.

(2) A copy of the notice required pursuant to this paragraph shall be sent to the Administrator through the appropriate regional office; and to all other States and local air pollution control agencies having jurisdiction in the region where the construction/modification will take place.

(3) Public comments submitted in writing within 10 days of the date such information is made available shall be considered by the Secretary in making his final decision on the application.

MULTIPLE OWNERSHIP OF STANDARD, FM, TELEVISION BROADCAST STATIONS AND CROSS-OWNERSHIP OF CABLE TELEVISION SYSTEMS

Order Extending Time for Filing Comments and Reply Comments

In the matter of amendment of §§ 73.35, 73.240, 73.636, and 76.501 of the Commission's Rules relating to Multiple Ownership of Standard, FM, Television Broadcast Stations and Cross-Ownership of Cable Television Systems (stock held by insurance companies, mutual funds, and other institutional investors).

1. On June 11, 1975, (40 FR 34614) the Commission issued its Notice of Proposed Rule Making in this matter and invited comments from interested parties. The original deadline for comments was August 11, 1975, and for reply comments the date was August 26, 1975. In response to a request from the American Life Insurance Association (ALI), the Commission, by order of August 4, 1975, extended these dates to September 26 and October 13, 1975, respectively.

2. ALI, by request of September 15, 1975, asks that the time for filing initial comments be extended briefly until October 3, and for reply comments until October 20, 1975. ALI bases its request on the fact that the meetings held by its members raised certain questions concerning the proposal which require further coordination and circulation by mail of the material among those companies.

3. We are of the opinion that this brief extension of time is in the public interest. Accordingly, it is ordered, That the dates for filing comments and reply comments are extended to and including October 3, 1975 and October 20, 1975, respectively.

4. This action is taken pursuant to authority found in sections 4(i), 5(d)(1)

and 303(r) of the Communications Act of 1934, as amended, and § 0.281 and 1.46 of the Commission's Rules.

SEPTEMBER 22, 1975.

By notice issued September 16, 1975, an oral argument was scheduled for September 24, 1975. Several requests for postponement of the argument have been filed.

Upon consideration, notice is hereby given that the oral argument is postponed to October 23, 1975, at 9:00 a.m. (EDT). All parties made respondents hereto, as well as interested state commissions and any other interested parties, may participate. Those similarly situated and making similar contentions are urged to present their arguments through the same counsel. All persons desiring to make oral argument shall so inform the Secretary on or before 3:00 p.m. on Tuesday, October 14, 1975, and shall state the time they request.

In addition, any party wishing to file any written statements or supplementary exhibits relating to the oral argument shall file such statements or exhibits no later than 3:00 p.m. on Tuesday, October 14, 1975, and shall serve such documents on all parties to this proceeding.

DISCLOSURE REGULATIONS CONCERNING RETAIL PRICES FOR PRESCRIPTION DRUGS

Trade Regulation Rule; Final Notice

On June 4, 1975, the Commission published in the FEDERAL REGISTER (40 F.R. 24031) an Initial Notice of a Proposed Trade Regulation Rule entitled "Disclosure Regulations Concerning Retail Prices For Prescription Drugs", pursuant to the Federal Trade Commission Act, as amended, 15 U.S.C. 41, et seq., the provisions of Part 1, Subpart B of the Commission's Procedures and Rules of Practice, 16 CFR 1.7, et seq., and section 553 of Subchapter II, Chapter 5, Title 5 of the U.S. Code (Administrative Procedure).

Now, pursuant to the same authority and more specifically to the authority of Section 1.12 of the Commission's Procedures and Rules of Practice, the undersigned duly appointed Presiding Officer for this proceeding hereby gives Final Notice of proposed rulemaking, incorporating by reference the contents of the Initial Notice described above, including the two proposed rules contained therein, which rules are hereinafter referred to as the "proposed rule".

WRITTEN COMMENTS

All interested persons are hereby notified that they may continue to submit written data, views or arguments on any issue of fact, law, policy or discretion which may have some bearing upon the proposed rule. Such comments should be submitted to Henry B. Cabell, Presiding Officer, Federal Trade Commission, Washington, D.C. 20580, no later than November 21, 1975. To assure prompt consideration comments should be identified as "Prescription Drug Price Comment" and submitted, when feasible and not burdensome, in five copies. Comments previously submitted in response to the Initial Notice have been placed in the public record and need not be resubmitted.

PUBLIC HEARINGS: DATES AND PLACES

Notice is also given that public hearings on the proposed rule will be held at the locations set forth below, commencing on the dates and times specified at each location:

1. Public hearings will be held commencing on December 1, 1975, at 10:00 a.m. in Chicago, Illinois:

Room 347 A and B, John C. Kluczynski, Federal Building, 230 South Dearborn Street, Chicago, Illinois.

2. Public hearings will be held commencing on December 15, 1975, at 10:00 a.m. in San Francisco, California:

Room 12138, Federal Building, 450 Golden Gate Avenue, San Francisco, California.

3. Public hearings will be held commencing on January 12, 1976, at 10:00 a.m. in Washington, D.C.:

Room 332, Federal Trade Commission Building, 6th and Pennsylvania Avenue NW., Washington, D.C.

Persons desiring to present their views orally in Chicago should so inform the Commission's representative listed below not later than November 21, 1975:

1. Chicago, Illinois

Jerome S. Lamet, (312) 353-4423, Federal Trade Commission, Suite 1437, 55 East Monroe Street, Chicago, Illinois 60603.

Persons desiring to present their views orally in San Francisco should so inform the appropriate Commission representative listed below not later than November 21, 1975:

2. San Francisco, California

John M. Porter, (415) 556-1270, Federal Trade Commission, 450 Golden Gate Avenue, San Francisco, California 94102.

Persons desiring to present their views orally in Washington, D.C., should so inform the Commission representive listed below not later than December 19, 1975:

3. Washington, D.C.

INSTRUCTIONS FOR WITNESSES

All prospective witnesses are advised that reasonable limitations upon the length of time allotted to any person may be imposed and that these time periods may vary from witness to witness, depending upon all the circumstances, including the needs of each witness, the complexity of the expected testimony, the number of parties represented by each witness and the cumulative nature of expected testimony. Witnesses will be expected to stay within the time allotted for their remarks, and the Presiding Officer may allocate additional time for questioning. To the extent that individual views are not thereby suppressed, individual members of interested groups are encouraged to make their views known through group representatives. As a general rule, witnesses are expected to confine their remarks to twenty minutes or less, unless an exception has been made, and to develop their testimony at greater length through their written submissions. A witness is not entitled to testify at more than one hearing site.

Persons wishing to deliver prepared statements are required to file such statements with the designated Commission representative listed above no later than November 21, 1975, for those witnesses appearing in Chicago, Illinois, and in San Francisco, California, and no later than December 19, 1975, for those witnesses appearing in Washington, D.C., and, when possible, to furnish five copies of any statement in excess of two pages.

Persons not intending to deliver prepared statements are required to file with the designated Commission representative listed above by the same dates, depending upon the location at which they intend to appear, a written summary of the general nature of their testimony (i.e. a brief statement of each important point, observation, conclusion or opinion they anticipate making).

The Presiding Officer retains the discretion to deny the right to present oral testimony to any person who fails to file a prepared statement or written summary of expected oral testimony, or who otherwise fails to comply with the advance notification requirements of this Notice.

A prospective witness who plans to introduce documents or other written evidence as exhibits must furnish such exhibits, properly identified with the witness's name and sequential number (e.g. Jackson Exhibit-1) to the designated Commission representative listed above by the same dates, depending upon the location at which the witness intends to appear unless for good cause shown the witness can demonstrate why this could not have been done at that time.

All prospective witnesses may and, indeed, are encouraged to direct their remarks toward any question of fact, law, policy or discretion relevant to the proposed rule and, in this regard, the usual rules of evidence applicable to litigated proceedings will not apply. However, all prospective witnesses are advised that, to the extent their remarks may bear upon any disputed issues of fact which may be later designated, they may be subject to limited cross examination as to those issues by representatives of other interested parties, as designated by the Presiding Officer, or to cross examination by the Presiding Officer on behalf of such representatives, or to direct rebuttal submissions. All witnesses will be subject to direct examination by the Presiding Officer and by such interested parties as he may within his discretion permit and subject to his control. Oral presentations will not be under oath unless the Presiding Officer so directs.

DESIGNATED ISSUES OF FACT

Based on the material contained in the public record of these proceedings, including comments received subsequent to publication of the initial notice on June 4, 1975, the Presiding Officer has determined that there are no disputed issues of fact which meet the criteria of § 1.13(d)(1)(i) of the Commission's Procedures and Rules of Practice for consideration in accordance with § 1.13(d)(5) and (6) of those procedures and rules. Accordingly, no such issues are designated in this Notice.

The Presiding Officer may at any time, on his own motion or pursuant to a written petition by interested persons, designate issues of disputed fact which meet the criteria of § 1.13(d)(1)(i) of the Commission's Procedures and Rules of Practice. No such petition shall be considered unless good cause is shown why such issue was not proposed during the time specified in the Initial Notice and subsequent extension of that time. The only issues which will be considered in response to such petitions are disputed issues of fact which are material and necessary to resolve.

In the event issues of disputed fact are subsequently designated, testimony with respect to such issues may entitle designated representatives of other interested parties to conduct or have conducted such cross examination as the Presiding Officer may determine to be appropriate and to be required for a full and true disclosure with respect to any issue so designated. In the alternative, the Presiding Officer may determine that full and true disclosure as to any such issue may be achieved through rebuttal submissions or the presentation of additional oral or written statements. Interested parties must promptly notify the Presiding Officer in writing of their particular interest with respect to each such issue, including a general statement of their position with respect to such issues. Requests to examine, including to cross examine or to present rebuttal submissions, shall be accompanied by a specific justification therefor.

In the event such issues of disputed fact are designated, the Presiding Officer will promptly identify groups of persons with the same or similar interests in the proceeding. Such groups will be required to select a single representative for the purpose of examination or rebuttal submissions and, if they are unable to agree, the Presiding Officer may select a representative of each such group. Any member of a group who is unable to agree upon group representation after a good faith effort to do so and who seeks to present substantial and relevant issues which will not be adequately presented by the group representative may be allowed to conduct or have conducted any examination, including cross examination or rebuttal submissions, to which he is entitled on issues designated for consideration in accordance with this Notice.

SUMMARY OF CLOSING DATES

All written comments, November 21, 1975.

Witnesses' prepared statements, summaries of anticipated testimony and exhibits: Chicago witnesses, November 21, 1975; San Francisco witnesses, November 21, 1975; Washington, D.C., witnesses, December 19, 1975.

INTERSTATE COMMERCE COMMISSION

[EX PARTE NO. 252 (Sub-No. 2)]

[49 CFR Part 1036]

INCENTIVE PER DIEM CHARGES ON BOXCARS

Incentive Per Diem Charges; Gondolas

At a General Session of the INTERSTATE COMMERCE COMMISSION, held at its office in Washington, D.C., on the 4th day of September, 1975.

By petitions filed on February 11, 1975, and February 18, 1975, the Chessie System Lines[1] and the Norfolk and Western Railway Company have requested the Commission pursuant to Rule 44 of the General Rules of Practice, 49 CFR 1100.44, to institute a rulemaking proceeding under section 1(14)(a) of the Interstate Commerce Act, 49, U.S.C. 1(14)(a), to issue rules and regulations establishing incentive per diem charges on plain gondola rail freight cars.[2] The Chessie System Lines suggest that incentive per diem charges prescribed for plain boxcars, 49 CFR 1036.2, be collected from gondola car users.

From its inception, this proceeding was designed to be an on-going forum for consideration of appropriate incentives to cure the short supply of specific types of railroad freight cars. The program adopted for plain boxcars has been expanded and improved and a commitment to extend the program to other types of cars found to be in short supply has been made on the public record.[3] Therefore, it is appropriate that careful consideration be given to carrier proposals to extend incentive per diem rules and charges to an additional component of the railroad freight car fleet. Such consideration is especially appropriate when substantial users of the gondola fleet have come forward to support the carrier petitions.[4]

Addition of an incentive element to the compensation paid to the freight car owner is reserved by statute to defined circumstances. Incentive charges may not be levied indiscriminately and funds generated by lawful charges must be dedicated to meet the needs of commerce for specific car types. Our present rules were adopted to conform to these principles. The rules have been tempered by experience and offer a rational starting point to embark on this investigation.

A decision to add gondola cars to the incentive per diem program must be based on an adequate factual record. The national level of ownership of gondola cars must be considered and the need for an incentive element of compensation must be evaluated. The record should be developed to describe current utilization and distribution practices in order to examine the impact of these practices on gondola car supply. Statistics representing gondola car availability should be rationally correlated with present and future transportation requirements under efficient operations to determine whether the statistics represent a mandate for action.[5] Attached as Appendix A is a compilation of weekly reports of gondola car surplus and shortage statistics as reported to the Association of American Railroads for the past 18 months.[6] These figures may be used as a guide to poten-

[5] See *Incentive Per Diem Charges—1968*, 349 I.C.C. 303, 311 where we stated "However, we are amenable to an expansion of the incentive per diem program to cars other than general service boxcars if: (1) a record is made showing the car to be in short supply, (2) a record is made showing a reluctance to expeditiously release the car by the terminating or delivering railroad, (3) a record is made demonstrating that additional incentive to purchase the car is needed, and (4) a record is made showing such an extension of the incentive per diem program to be of general benefit."

[6] Unserviceable cars are omitted from the reported figures but should be accounted for on the record.

tial needs but should not be unduly relied upon. Considerable explanatory materials should be presented to translate these numbers into a meaningful car supplyanalysis.

The rules proposed today for the gondola freight car are appropriate modifications of the boxcar rules. 49 CFR 1036 is proposed to be amended by adding the words "and gondola cars" to the title and inserting those words following the word "boxcars" in § 1036.2 and § 1036.3. The mechanical designations for plain and/or equipped gondola cars are proposed to be added to those listed at § 1036.1. It is proposed that the use of funds earmarked in accordance with § 1036.3 to build, rebuild, lease or purchase gondola cars be governed by the matching funds approach adopted in *Incentive Per Diem Charges—1968 (XF Cars)*, 350 I.C.C. 11.[7] A program for use of funds unspent 18 months after the end of the calendar year in which the funds are collected has not been determined.[8] Suggestions for use of unspent funds should be included in statements responding to this notice and order. Statements regarding the advisability of year-round application of the proposed rules and charges should also be submitted.

It does not appear that the proposed addition of gondola cars to the incentive per diem program constitutes a major Federal action requiring preparation of an environmental impact statement under the procedures of the National Environmental Policy Act of 1969, 42 U.S.C. 4321, et seq. However, comments regarding environmental issues, if any should be included in statements filed with the Commission in responding to this notice and order.

Upon consideration of the above-described matters and good cause appearing therefor:

It is ordered, That a proceeding be, and it is hereby, instituted under authority of Part I of the Interstate Commerce Act, 49 U.S.C. 1 et seq., and sections 553 and 559 of the Administrative Procedure Act, 5 U.S.C. 553 and 559 to determine whether plain and/or equipped gondola cars should be added to the incentive per diem program by adoption of the amendments to 49 CFR 1036 proposed herein or other regulations justified by the record.

It is further ordered, That all common carriers by railroad be, and they are hereby, made respondents in this proceeding.

It is further ordered, That the Commission's Bureau of Enforcement be, and it is hereby, authorized and directed to participate in this proceeding.

It is further ordered, That no oral hearing be scheduled unless a need therefor should later appear, but that respondents or any other interested parties may participate in this proceeding by submitting written statements of verified facts, views and arguments.

It is further ordered, That any person interested in this proceeding shall notify this Commission, by filing with the Interstate Commerce Commission, Office of Proceedings, Room 5342, Washington, D.C. 20423, on or before October 6, 1975, a statement of his interest. Inasmuch as the Commission desires whenever possible (a) to conserve time, (b) to avoid unnecessary expense to the public, and (c) to serve pleadings by parties only upon those who intend to take an active part in the proceeding, the statement of intention to participate shall include a specification of the extent of such person's interest, including (1) whether such interest extends merely to receiving Commission releases in this proceeding, (2) whether he genuinely wishes to participate by receiving or filing initial and/or reply statements, (3) if he desires to participate as described in (2), whether he will consolidate or is capable of consolidating his interests with those of other interested parties by filing joint statements in order to limit the number of pleadings to be served, such consolidation of interests being strongly urged by the Commission, and (4) any other pertinent information which will aid in limiting the service list to be issued in this proceeding; that this Commission shall then prepare and make available to all such persons a list containing the names and addresses of all parties desiring to participate in this proceeding and upon whom copies of all statements must be filed; and that at the time this list is served dates will be fixed for the filing of initial and reply statements.

And it is further ordered, That a copy of this notice and order be deposited in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., for public inspection, and that statutory notice of the institution of this proceeding be given to the general public by delivering a copy to the Director, Office of the Federal Register, for publication therein.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

---

[7] Net credit balances resulting from incentive per diem settlements would be matched by an equal amount of the carrier's own funds.

[8] The possibility of implementing a pool of free-running gondola cars fashioned after Railbox as a depository for unspent funds should be considered. Therefore, both Trailer Train Company and the American Rail Box Car Company are invited to submit their views on this question.

NATIONAL ENVIRONMENTAL POLICY ACT OF 1969

Revised Guidelines for Implementation

Upon consideration of the record in the above-entitled proceeding; and

It appearing, That the FEDERAL REGISTER Notice of the institution of this rulemaking proceeding at 40 Fed. Reg. 37233 (August 26, 1975) omitted the preliminary statement which invited comment thereon in light of the recent Supreme Court decision in *Aberdeen & Rockfish Railroad Co.* v. *Students Challenging Regulatory Agency Procedures (SCRAP)*, — US — (1975); the said omission necessitates an extension of time in which representations on the proposed rulemaking shall be filed; and good cause appearing therefor:

It is ordered, That the time in which representations on the proposed rulemaking shall be filed be, and it is hereby, extended to October 10, 1975.

It is further ordered, That notice of this finding shall be given to the general public by depositing a copy of this order and the attached notice in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., for public inspection, and by delivering a copy of the notice to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER as notice to interested persons.

Dated at Washington, D.C., this 24th day of September, 1975.

REVISED GUIDELINES FOR THE IMPLEMENTATION OF THE NATIONAL ENVIRONMENTAL POLICY ACT OF 1969

The Interstate Commerce Commission hereby gives notice that by order served August 15, 1975, a rulemaking proceeding was instituted for the purpose of proposing revised guidelines for implementation of the National Environmental Policy Act of 1969. Through an inadvertency, the FEDERAL REGISTER Notice of the proposed rulemaking at 40 Fed. Reg. 37233 (August 26, 1975), omitted the preliminary statement to the bound copy of the rulemaking which invited public comment in light of the recent Supreme Court opinion rendered in *Aberdeen & Rockfish Railroad Co.* v. *Students Challenging Regulatory Agency Procedures* (SCRAP), — U.S. — (Nos. 73–1966 and 73–1971, June 24, 1975), 7 ERC 2009 (SCRAP II).

The proposed rules should accordingly be examined in light of *SCRAP II* and the public is invited to comment not only on the proposed rules but on the following additional questions raised by SCRAP II:

1. In light of SCRAP II, should the Commission revise its environmental regulations currently in force and codified at 49 C.F.R. § 1100.250, (Appendix A following Notice of Proposed Rulemaking)?

2. If so, how should the regulations be modified to recognize the impact of SCRAP II as to the timing of draft impact statements in adjudicatory proceedings?

3. Is the filing of a draft environmental impact statement a prerequisite to the preparation of the "detailed (final) impact statement" required by NEPA?

4. Is an applicant-prepared environmental impact report an appropriate vehicle for consulting with and obtaining comments from other Federal agencies?

Secretary.

ADVISORY COMMITTEE ON INTERNATIONAL INTELLECTUAL PROPERTY

Meeting

The International Copyright Panel of the Department of State's Advisory Committee on International Intellectual Property will meet in open session October 24, 1975, at the Department of State in Conference Room 1105 from 10:00 a.m. to 1:00 p.m. The purpose of this open meeting will be to discuss three topics:

(a) A report on the meeting of the Subcommittees of the Berne Executive Committee and the Intergovernmental Copyright Committee of the Universal Copyright Convention on Reprographic Reproduction that was held in Washington, D.C. June 16–21, 1975 at the Department of State.

(b) Desirability of adopting one or more additional protocols to the Agreement on the Importation of Educational, Scientific and Cultural Materials (Florence Agreement). This will involve considerations such as a protocol to extend the privileges under Annex A of the Florence Agreement to sound recordings and other audio-visual materials, microforms, and a broadening of the coverage with respect to books and related materials. Sound recordings, which are now protected under the United States Copyright Law, are increasingly important instruments for the widespread dissemination of educational information and cultural materials, *e.g.* music.

(c) Discussion of a UNESCO project concerning a draft multilateral convention on the subject of taxation of copyright royalties. In November 1975 UNESCO will convene an International Committee of Experts to consider the possibility of an international agreement to avoid the double-taxation of copyright royalties.

The public attending may, as time permits and subject to the instruction of the Chairman, participate in the discussions or may submit written views to the Chairman prior to or at the meeting for later consideration by the Committee.

Members of the general public who plan to attend the meeting will be admitted up to the limits of the capacity of the meeting room. Entrance to the Department of State building is controlled and entry will be facilitated if arrangements are made in advance of the meeting. It is requested that prior to October 24, 1975, members of the general public who plan to attend the meeting inform their name and affiliation and address to Mr. Steven R. Pruett, Office of Business Practices, Department of State; the telephone number is area code 202, 632–0307. All non-government attendees at the meeting should use the C Street entrance to the building.

ADVISORY COMMITTEE ON THE LAW OF THE SEA

Notice of Continuation of Closed Meeting

The Ad Hoc Hard Minerals Group meeting of the Advisory Committee on the Law of the Sea was unable to complete its agenda in its closed meeting on September 24, 1975 and it has been determined to continue this meeting on October 21 and 22, 1975, at 10:00 a.m. at the U.S. Department of State, Washington, D.C., in Room 7516. This meeting was published in the FEDERAL REGISTER on August 20, 1975 (40 FR 36392).

During these closed sessions, documents classified under the provisions of Executive Order 11652 will be discussed.

The purpose of the closed Ad Hoc Meeting is to continue discussion of issues in Committee I of the Third United Nations Conference on the Law of the Sea, specifically the establishment of a deep seabeds mining regime.

In the opinion of the concerned offices in the Department of State, closure of the continued session of the meeting remains warranted under the provisions of 5 USC 552(b)(1).

GRAND CANYON NATIONAL PARK

Intention to Issue a Concession Permit

Pursuant to the provision of Section 5 of the Act of October 9, 1965 (79 Stat. 969; 16 U.S.C. 20) public notice is hereby given that thirty (30) days after the date of publication of this notice, the Department of the Interior, through the Superintendent, Grand Canyon National Park, proposes to issue a concession permit to Norman C. Johnson, dba Village Sports Den authorizing him to provide concession facilities and services for the public at Grand Canyon National Park for a period of one year from January 1, 1975, through December 31, 1975.

An assessment of the environmental impact of this proposed action has been made and it has been determined that it will not significantly affect the quality of the human environment, and that it is not a major Federal action under the National Environmental Policy Act and the guidelines of the Council on Environmental Quality. The environmental assessment may be reviewed in the Office of the Superintendent, Grand Canyon National Park.

The foregoing concessioner has performed his obligations under the expired permit to the satisfaction of the National Park Service, and therefore, pursuant to the Act cited above, is entitled to be given preference in the renewal of the permit and in the negotiation of a new permit. However, under the Act cited above, the Secretary is also required to consider and evaluate all proposals received as a result of this notice. Any proposal to be considered and evaluated must be submitted on or before October 30, 1975.

Interested parties should contact the Superintendent, Grand Canyon National Park, P.O. Box 129, Grand Canyon, Arizona 86023 for information as to the requirements of the proposed permit.

Forest Service

LYNDON B. JOHNSON NATIONAL GRASSLAND UNIT PLAN

Notice of Availability of Final Environmental Statement

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a final environmental statement for the Lyndon B. Johnson National Grassland Unit Plan, National Forests in Texas, Lufkin, TX. USDA-FS-R8-FES (Adm.) 75-7.

The management direction and action proposed and described in this Environmental Statement and Unit Plan is for a 10-year period beginning November 1, 1975. Included in this unit plan are proposed projects for recreation management, vegetative manipulation to benefit wildlife, needed erosion control measures, improved transportation systems, range improvement projects and other action plans.

This unit is part of the Caddo-Lyndon B. Johnson Ranger District which is administered as part of the National Forests in Texas. The unit contains 20,332 acres of federally-owned lands located in Wise and Montague counties in the north-central part of Texas.

TOIYABE NATIONAL FOREST GRAZING ADVISORY BAARD—MONO DIVISION

Intent To Establish Grazing Advisory Board

The Department of Agriculture proposes to establish the Toiyabe National Forest Grazing Advisory Board—Mono Division for the period ending January 5, 1977, under Forest Service regulation 36 CFR 231.10.

This is to be a local advisory board of the Forest Service to provide National

Forest range users a means for the collective expression of their views and recommendations concerning the management and administration of the Toiyabe National Forest grazing lands and to develop local interest and responsibility in better range management.

The Assistant Secretary for Conservation, Research and Education determined that establishment of this board is necessary and in the public interest in connection with duties imposed on the Department by law.

Comments of interested persons concerning establishment of this board may be submitted to the Forest Supervisor, Toiyabe National Forest, 111 N. Virginia Street, Reno, Nevada 89501, on or before October 15, 1975.

All written submissions made pursuant to this notice will be available for public inspection in the Forest Supervisor's office during regular business hours (7 CFR 1.27(b)).

JOSEPH R. WRIGHT, Jr.
Assistant Secretary for Administration.

ARIZONA ELECTRIC POWER COOPERATIVE, INC.

Proposed Loan Guarantee

Under the authority of Public Law 93-32 (87 STAT. 65) and in conformance with applicable agency policies and procedures as set forth in REA Bulletin 20-22 (Guarantee of Loans for Bulk Power Supply Facilities), notice is hereby given that the Administrator of REA will consider providing a guarantee supported by the full faith and credit of the United States of America for a loan in the approximate amount of $8,360,000 to Arizona Electric Power Cooperative, Inc., of Benson, Arizona. These loan funds will be used for the financing of miscellaneous generation plant improvements, miscellaneous transmission system improvements, and for the completion of previously approved generation and transmission facilities.

Legally organized lending agencies capable of making, holding and servicing the loan proposed to be guaranteed may obtain information on the proposed project, including the engineering and economic feasibility studies and the proposed schedule for the advances to the borrower of the guaranteed loan funds from Mr. Dexter Smith, Manager, Arizona Electric Power Cooperative, Inc., P.O. Box 670, Benson, Arizona 85602.

In order to be considered, proposals must be submitted on or before October 30, 1975 to Mr. Smith. The right is reserved to give such consideration and make such evaluation or other disposition of all proposals received, as Arizona Electric and REA deem appropriate. Prospective lenders are advised that the guaranteed financing for this project is available from the Federal Financing Bank under a standing agreement with the Rural Electrification Administration.

Copies of REA Bulletin 20-22 are available from the Director, Information Services Division, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250.

Dated at Washington, D.C., this 24th day of September, 1975.

Food and Drug Administration

[Docket No. 75N-0107]

FOOD FOR SPECIAL DIETARY USES

Notice of Reopening of Hearing

The Commissioner of Food and Drugs announces the reopening of the hearing on food for special dietary uses on November 10, 1975, at 9 a.m., in Rm. 4A-35, Parklawn Bldg., 5600 Fishers Lane, Rockville, MD 20852.

The Commissioner established new regulations, published in the FEDERAL REGISTER of August 2, 1973 (38 FR 20708, 20730), to govern the labeling of foods for special dietary uses in §§ 125.1, 125.2 and 125.3 (21 CFR 125.1, 125.2 and 125.3) and to govern the composition of dietary supplements of vitamins and minerals in § 80.1 (21 CFR 80.1). Subsequently, fifteen petitions for review of these regulations were filed in various United States courts of appeals; all were eventually consolidated in the United States Court of Appeals for the Second Circuit. After extensive briefing and argument, that Court rendered judgment on August 15, 1974. *National Nutritional Foods Association* v. *Food and Drug Administration*, 504 F.2d 761 (2nd Cir. 1974), *cert. denied*, 95 S. Ct. 1326 (1975). While the Court stated that it was "broadly sustaining the regulations", it nevertheless remanded the regulations to the Food and Drug Administration for certain specified action, including the partial reopening of the administrative hearing upon which the regulations were based. A copy of this judgment is on file with the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852.

In the FEDERAL REGISTER of May 28, 1975 (40 FR 23244), the Commissioner issued, inter alia, a preliminary notice of reopening of hearing which stated, in part:

> The Court's decision remanded the regulations to the Agency "with instructions to reopen the record for the limited purpose of permitting reasonable cross-examination of Dr. [William H.] Sebrell (or, if he is not available, some other qualified member of the [Food and Nutrition] Board) [of the National Academy of Sciences] by Dr. [Miles] Robinson or counsel of some other similarly interested participant". [504 F.2d 799.]
>
> Dr. Sebrell is no longer a member of the Food and Nutrition Board. Tentative arrangements have been made to call instead Dr. Alfred E. Harper, who was Dr. Sebrell's successor as the Chairman of the Committee on Dietary Allowances of the Food and and Nutrition Board, serving in that capacity at the time of development and publication of the most recent (eighth) edition (1974) of the National Academy of Sciences-National Research Council's "Recommended Dietary Allowances." Dr. Harper is Professor of Nutrition Sciences and Biochemistry and Chairman of the Department of Nutritional Sciences, University of Wisconsin. Dr. Harper will not tender any direct testimony on behalf of the Government except to identify and provide for the record a copy of the eighth edition (1974) of the "Recommended Dietary Allowances" developed by the Food and Nutrition Board of the National Academy of Sciences-National Research Council. (The seventh edition (1968) of this publication was one of the fundamental sources relied upon in the development of Parts 80 and 125. The eighth edition was published after appellate review of these regulations had begun. Since the eighth edition was cited and quoted in briefs before the Court of Appeals and the Court itself referred to the eighth edition in its decision [504 F.2d 791, 798, 799 (Ftnt. 67)], it seems clear that a copy of the publication in its entirety should be included in the record prior to the commencement of the examination of Dr. Harper.) Instead, pursuant to the Court's direction, [Dr. Harper] will be available as Dr. Sebrell's successor to respond to inquiry by

those opposed to the regulations, concerning (1) the methodology employed in development of the recommended dietary allowances by the Board and the scientific foundation upon which these allowances are based, (2) the scientific appropriateness of the Food and Drug Administration's use of the Board's recommended dietary allowances, and (3) possible biases or conflicts of interest on the part of the Board, as well as other relevant subjects.

Therefore, in accordance with the foregoing discussion, and pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 701(f)(2), 52 Stat. 1056 (21 U.S.C. 371(f)(2))) and under authority delegated to the Commissioner (21 CFR 2.120): *It is ordered,*

1. That the public hearing on food for special dietary uses be reopened in accordance with the instructions of the United States court of Appeals for the Second Circuit with respect to the final order published in the FEDERAL REGISTER of August 2, 1973, which established new regulations governing the labeling of foods for special dietary uses in §§ 125.1, 125.2 and 125.3 (21 CFR 125.1, 125.2, and 125.3), and governing the composition of dietary supplements of vitamins and minerals in § 80.1 (21 CFR 80.1).

2. That Dr. Alfred E. Harper, chairman of the Committee on Dietary Allowances of the Food and Nutrition Board of the National Academy of Sciences-National Research Council during development and publication of the most recent (eighth) edition (1974) of the "Recommended Dietary Allowances" developed by said Board, will be available at such hearing for reasonable examination.

3. That pursuant to the direction of the Second Circuit, Dr. Harper will respond to inquiry by those opposed to the regulations, concerning:

(a) The methodology employed in development of the recommended dietary allowances by the Board and the scientific foundation upon which these allowances are based,

(b) The scientific appropriateness of Food and Drug Administration use of the Board's recommended dietary allowances, and

(c) Possible biases or conflicts of interest on the part of the Board, as well as any other subjects deemed by the Administrative Law Judge to be relevant to the examination mandated by the Court of Appeals.

While the Court has required only that Dr. Robinson or counsel of some other similarly interested participant be allowed to engage in examination of Dr. Harper, the Commissioner intends that reasonable examination may be conducted by as many participants reflecting as many points of view as is reasonably possible.

The hearing shall take place in the Hearing Room, Food and Drug Administration, Rm. 4A-35, 5600 Fishers Lane, Rockville, MD 20852. The presiding officer is expected to be Administrative Law Judge Daniel J. Davidson. The hearing shall commence on November 10, 1975, at 9 a.m. Written notices of appearance must be filed with the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852, not later than October 30, 1975.

In order to make appropriate procedural decisions to assure a fair, orderly, and expeditious hearing in advance of the appearance of the witness, a prehearing conference will be held in the Hearing Room on October 3, 1975, at 10 a.m. All persons who wish to participate in the examination of Dr. Harper shall appear, in person or by counsel, at that time. If requests to engage in examination are numerous and the participants cannot agree among themselves on apportionment of time or subject matter sufficient to accommodate all participants within a reasonable period of time, participants with genuinely common interests will be grouped in order to allow a qualified representative(s) of each group to examine Dr. Harper for a reasonable period of time.

Upon the conclusion of the reopened hearing, the Administrative Law Judge shall prepare and submit to the Commissioner a report setting forth his recommended Findings of Fact and Conclusions of Law. The report of the Administrative Law Judge shall simultaneously be made available to the participants in the hearing, who will be afforded a reasonable period of time, not to exceed 30 days, to file exceptions with the Commissioner. The Commissioner will review the record of the examination of Dr. Harper, the report of the Administrative Law Judge, and any timely filed exceptions to such report prior to promulgating final regulations.

Dated: September 24, 1975.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for Compliance.

AUTOMOBILI LANBORGHINI

Petition for Temporary Exemption From Federal Motor Vehicle Safety Standards

Automobili Ferruccio Lamborghini S.P.A. of Italy has applied for a 3-year exemption of its Countach model from Motor Vehicle Safety Standard No. 215, *Exterior Protection*. The basis of the petition is that compliance would cause it substantial economic hardship.

Lamborghini's annual production is approximately 350 passenger cars. It manufactured 60 Countachs from June 1974 to June 1975, and anticipates that 20 vehicles per year will be produced under the exemption for the United States market. Although the car has only entered production relatively recently, its design and engineering date from late 1968 and early 1969 before the proposal and adoption of Standard No. 215, which was initially effective September 1, 1972. The company has spent approximately $268,000 conforming the vehicle with all other Federal motor vehicle safety standards, and it has submitted a detailed estimate of 40 changes plus costs necessary to effect compliance with Standard No. 215. Conformance would require $435,960, which is approximately 90 percent of the company's cumulative net profits in the years 1971-73. Lamborghini has spent $17,855 on tooling for bumper equipment to be added to Countachs to be sold in the United States that will afford partial compliance with Standard No. 215. The company intends to conform at the end of the 3-year period. Because of the decline in luxury auto sales in Europe, failure to enter the American market with the Countach will cause it further hardship.

This notice of receipt of a petition for a temporary exemption is published in accordance with the NHTSA regulations on this subject (49 CFR 555.7), and does not represent any agency decision or other exercise of judgment concerning the merits of the petition.

Interested persons are invited to submit comments on the petition for exemption of Automobili Lamborghini. Comments should refer to the Docket Section, National Highway Traffic Safety Administration, Room 5108, 400 Seventh Street, S.W., Washington, D.C. 20590. It is requested but not required that five copies be submitted.

All comments received before the close of business on the comment closing date indicated below will be considered. The application and supporting materials, and all comments received, are available for examination in the docket both before and after the closing date. Comments received after the closing date will also be filed and will be considered to the extent practicable. Notice of final action on the petition will be published in the FEDERAL REGISTER.

[Docket No. EX. 75-7; Notice 3]

RITE-WAY INC. OF INDIANA

Petition for Temporary Exemption From Federal Motor Vehicle Safety Standard

Rite-Way Inc. of Indiana, of Fort Wayne, Indiana, has applied for an extension of its temporary exemption from Motor Vehicle Safety Standard No. 121, *Air Brake Systems* (49 CFR 571.121), on the basis that compliance would cause it substantial economic hardship. Notice of its previous petition was published on February 13, 1975 (40 FR 6703). The Administrator granted Rite-Way an exemption on March 24, 1975 (40 FR 13023), to expire September 1, 1975.

Rite-Way manufactured 70 motor vehicles (ready-mix trucks) in 1974. It requests an exemption from Standard No. 121 until March 1, 1978. The company is a wholly owned subsidiary of Moran Tank Company, which acquired it in 1972, when Rite-Way was operating under the Federal Bankruptcy Act. Shortages of parts and the state of the economy forced Rite-Way to file for reorganization under Chapter XI of the Act in November 1974. Efforts to interest suppliers in providing prototype components to a small-volume producer have resulted in delays to programs intended to implement Standard No. 121. The company's financial state caused it to close its truck manufacturing facility in Natchez, Mississippi, leaving it with an inventory of parts worth almost $85,000 that have been obsoleted by the advent of Standard No. 121. The exemption period would allow it to exhaust the inventory and phase in the new standard on an orderly basis. The company had a net income of $125,000 in the fiscal year ending July 31, 1974. Between then and November 25, 1974, the company has a net loss of $250,000. The company intends to conform by the end of the exemption period.

In granting the original exemption for a period shorter than that requested, the Administrator found persuasive the comment by Oshkosh Truck Corporation that it was "capable of supplying Rite-Way with steering driving axles on completed chassis to satisfy their production requirements." Rite-Way has examined this possibility and finds that its unique front discharge mixer is not adaptable to the Oshkosh chassis which is designed for a conventional rear discharge mixer, except at a cost the company terms "prohibitive." Rite-Way anticipates that its supplier will provide it with a prototype conforming axle in October 1975. It estimates that its engineering and test program will require 4 months to complete after receipt of the conforming axle. The company emphasizes the financial constraints placed upon it because of its operation under Chapter XI.

This notice of receipt of a petition for a temporary exemption is published in accordance with the NHTSA regulations on this subject (49 CFR 555.7), and does not represent any agency decision or other exercise of judgment concerning the merits of the petition.

Interested persons are invited to submit comments on the petition of Rite-Way described above. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5108, 400 Seventh Street, S.W., Washington, D.C. 20590. It is requested but not required that five copies be submitted.

All comments received before the close of business on the comment closing date indicated below will be considered. The application and supporting materials, and all comments received, are available for examination in the docket both before and after the closing date. Comments received after the closing date will also be filed and will be considered to the extent possible. Notice of action upon the petition will be published in the FEDERAL REGISTER.

TVR ENGINEERING LTD.

Petition for Temporary Exemption From Federal Motor Vehicle Safety Standard

TVR Engineering Ltd. Blackpool, England, has petitioned for a 3-year exemption from Federal Motor Vehicle Safety Standard No. 215, *Exterior Protection*, on the basis that compliance would cause it substantial economic hardship.

TVR manufactured 450 passenger cars from January 1, 1974, to August 31, 1975. Approximately 80 percent of its 1974 production was shipped to North America (338 cars to the United States, 12 to Canada). On January 3, 1975, its factory

was almost completely destroyed by a fire. Petitioner was in the process of designing and testing procedures related to Standard No. 215 at that time, but "all of the stock, including the developmental work in progress, was destroyed." As a result, TVR "was unable to produce and market a production model for the year 1975, and to complete its research, development, testing" and work related to compliance with Standard No. 215. Unless the exemption is granted, "Petitioner will be deprived of its 1976 sales year." The effect of this "will be the financial ruin and collapse of Petitioner's business."

Its net income in 1974 was approximately $8,000 (3519 Pounds). While the company has asked for a 3-year exemption, it states that it will attempt to comply before that time, but it cannot possibly do so before 1977.

This notice of receipt of a petition for a temporary exemption is published in accordance with the NHTSA regulations on this subject (49 CFR 555.7), and does not represent any agency decision or other exercise of judgment concerning the merits of the petition.

Interested persons are invited to submit comments on the petition for exemption of TVR Engineering Ltd. described above. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5108, 400 Seventh Street, S.W., Washington, D.C., 20590. [Order 75-9-83; Docket No. 28345]

IRAN AIR

Order

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 24th day of September, 1975.

Iran Air (Iran National Airlines Company) is the holder of a foreign air carrier permit issued pursuant to Order 74-5-28, which authorizes it to perform foreign air transportation of persons, property and mail between Iran and certain points in the United States.[1] This permit, issued pursuant to the Air Transport Agreement between the Government of Iran and the Government of the United States, enables Air Iran to operate scheduled services to the United States with whatever number of frequencies and combination of authorized points it desires.

In addition, Iran Air's permit authorizes the carrier to engage in charter trips in foreign air transportation subject to Part 212 of the Board's Economic Regulations. Under this authority Iran Air may perform an unlimited number of on-route charters without any requirements for advance approval. The carrier may also perform off-route charters upon prior approval of the Board with as little as five days' advance notice required. There are no fees for such approval, and no "right of first refusal" can be exercised by any U.S. carrier.

The right to operate charter transportation is generally not included in the various bilateral agreements to which the United States is a party. Nevertheless it has been a long-standing policy of the Board to unilaterally grant charter authority to foreign air carriers providing scheduled services. Such rights are therefore dependent strictly upon comity and reciprocity.[2] As we have often said previously, the Board firmly believes that the development of international air transportation is best served by a liberal grant of charter rights between countries. However, when other foreign governments exercise their powers in a manner which sharply restricts the charter operations of United States carriers, we will act promptly and firmly to respond to such abuses. Indeed, we are required by law to do so. Section 2 of the International Air Transportation Fair Competitive Practices Act of 1974[3] expressly requires that several agencies, including the Board, keep under review "all forms of discrimination or unfair competitive practices to which United States air carrier are subject in providing foreign air transportation services and each *shall take all appropriate actions within its jurisdiction to eliminate such forms of discrimination or unfair competitive practices found to exist.*" [emphasis added]

It has recently come to our attention that the Government of Iran has given its national airline, Iran Air, a right of first refusal over certain charters from the United States to Iran. In turn, Iran Air has been requiring nondesignated U.S. carriers[4] to obtain a "No Objection

Certificate" before a charter flight will be allowed to operate. For cargo flights, the fee for such a certificate is either 10 percent of the general cargo rate or 15 percent of the charter price, whichever is higher. For passenger flights, the fee is either 10 percent of the normal economy-class fare or 15 percent of the charter price, whichever is higher. We understand that this policy holds even in cases where neither Iran Air nor the authorized certificated U.S. air carrier is able to perform the flight.

We have concluded that this "no-objection fee" represents precisely the type of discrimination and unfair competitive practices which the Congress has mandated that we attempt to eliminate. On two previous occasions the staff, under delegated authority, has refused to grant exemptions to U.S. charter carriers to provide charter flights to Iran where it appeared that a "no-objection fee" would be paid.[4] We recognize that sanctions against U.S. carriers do not represent a viable long-term solution to the problem. There is absolutely no reason why United States carriers should continue to be penalized for Iran Air's discriminatory practices.

We believe that the policy of Iran Air is so completely out of line with the general principles of comity and reciprocity on which the Board relied in granting that carrier its charter authority, that a strong and prompt response is necessary. Under sec. 212.4(b) of the Board's Economic Regulations, the Board may at any time, with or without hearing, notify a foreign air carrier that it cannot perform on-route charter trips in the absence of prior Board approval. This sanction is fully appropriate when U.S. carriers have been blatantly victimized by unfair practices, such as in the present case.

Accordingly, the Board finds it in the public interest that Iran Air shall not perform on-route charter trips in the absence of prior Board authorization until such time as the carrier is able to affirmatively prove to the satisfaction of the Board that its present policy of imposing special fees upon U.S. carriers engaged in charter operations in Iran is no longer in effect.[4] Pending termination of the service fee requirement, the Board will not be disposed to grant either on-route or off-route charter flights if so requested. However, as soon as Iran Air is able to supply its assurances that its present policy has been permanently discontinued, we will act expeditiously to terminate this order and again resume our liberal attitude toward charter operations conducted by Iran Air.

Accordingly, it is ordered that:

1. Iran National Airlines Corporation (Iran Air) be and hereby is notified that, effective thirty (30) days after the date of this order, it shall not perform any on-route charter trip unless specific authority in the form of a Statement of Authorization to conduct such charter trip has been granted by the Board. In the event that an application for a Statement of Authorization has been timely filed at least 30 days in advance of a proposed flight, notice of the Board's failure to approve either the whole or part of such application will be submitted to the President of the United States at least 10 days prior to the date of the proposed flight. Any such failure to approve a timely filed on-route charter trip application shall be subject to stay or disapproval by the President within 10 days after the date of the Board's notification; and

2. Copies of this order shall be served upon Iran Air and the Ambassador of Iran in Washington, D.C.

This order will be published in the FEDERAL REGISTER, and will be transmitted to the President.

By the Civil Aeronautics Board.

UNITED AIR LINES, INC.

Proposed Round-Trip Excursion Fare; Order Dismissing Complaints

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 24th day of September, 1975.

By tariff revisions [1] marked to become effective October 1, 1975, United Air Lines, Inc., (United) proposes a round-trip excursion fare for travel beginning February 1, 1976, which will afford discounts from regular coach fares of 20 percent during the period June 1 through September 15, 1976 and 30 percent during the remaining eight and one-half months of the year. The fare will be applicable in all 48-state markets except to/from Florida [2]; be subject to a 7-day minimum-stay requirement (30-day maximum); and will require that tickets be purchased at least 14 days prior to departure. The fare is marked to expire January 31, 1977.

This proposal differs from previous promotional-fare plans in that United proposes to limit capacity available for passengers traveling at the fare to a maximum of 35 percent of the seats on each flight. A lesser number of discount seats may be assigned based on full-fare traffic demand. The 35 percent maximum discount-seat availability is to be based on the standard seats by aircraft type used by the Board in computing rate-making return on investment.[3] The carrier would allocate capacity by flight by programming reservation computers to reflect the desired inventory of discount-fare seats.

Based on extensive studies and passenger surveys of existing and past discount-fare plans, United believes that a greater degree of capacity control is desirable to insure, to the maximum extent possible, that only otherwise empty seats are sold to discount-fare passengers, and that with such controls space will remain available for full-fare passengers. United argues that a major weakness of promotional fares to date has been the freedom which discount-fare passengers have to book flights that are also in great demand by full-fare passengers. Compounding this problem is the fact that significant existing capacity is underutilized because carriers are limited in their ability to shift discount-fare travel to underutilized flights at, for example, less popular departure times.[4] United believes that with its proposal carriers can, in effect, fine-tune individual flight capacity to accommodate discount-fare traffic more effectively.

Based on generation studies conducted on Bicentennial excursion-fare traffic, as well as additional surveys, United estimates that 30 percent of the traffic at its proposed fare will be generated. The carrier estimates net added revenues of $32.4 million and additional expense of $15.5 million, resulting in a net annual contribution to profit of approximately $17 million. Included in the cost estimate is $300,000 of one-time costs (agent training, initial computer programming etc.) and $125,000 in recurring annual costs, primarily for computer file maintenance.

Complaints against the proposal have been filed by American Airlines, Inc. (American), Braniff Airways, Inc. (Braniff), Delta Air Lines, Inc. (Delta), North Central Airlines, Inc. (North Central), Northwest Airlines, Inc. (Northwest), and Trans World Airlines, Inc. (TWA). The complainants allege, *inter alia*, that United's maximum discount-seat limitation is too high to be meaningful or effective and that in a competitive environment it is highly unlikely that carriers will blackout or reduce available discount-fare seats below the maximum without the certain knowledge that a competitor's flight during the same time period is also unavailable for excursion-fare passengers. It is further alleged that application of the proposed excursion fare will be uneconomic in short-haul markets because of lack of generation and the high risk of diversion—factors which the Board itself cited in suspending earlier proposals to extend discount fares into markets under 750 miles.[5]

Upon consideration of the tariff filing, the justification, complaints, and an-

[1] Revisions to Airline Tariff Publishers Company, Agent, Tariff C.A.B. Nos. 229 and 142.

[2] United has filed a different excursion-fare proposal for its Florida markets.

[3] The maximum number of discount-fare seats by aircraft type will be set out in the rules tariff.

[4] The carrier also contends that weekend and holiday blackouts typically imposed on discount fares often overly protect space for regular-fare passengers and not infrequently particular flights consistently operate at low load factors during periods in which discount-fare travel is prohibited.

[5] The Port Authority of New York and New Jersey has filed an answer in support of United's proposal, and Western Air Lines, Inc. has filed an answer in support of the complaints.

swers thereto, and all other relevant matters, the Board finds that the complaints do not set forth sufficient facts to warrant investigation of the proposal, and consequently the requests for suspension will be denied and the complaints dismissed.

The fact that there is variation in traffic demand from market to market, whether seasonal, time-of-day, directional, or caused by other factors, seems to us to call for a discount-fare approach more responsive to these elements than are the other plans in existence today. Moreover, there is little question that with the unstable current and prospective fuel cost situation, the carriers must make more efficient use of existing aircraft capacity, and, in our view, the discount-fare capacity allocation concept involved here would aid in achievement of this objective.

The central concept involved here is the flight-by-flight allocation of discount-fare capacity (subject to a 35 percent seat maximum) determined by individual carriers based on past experience on each flight and their judgment of how best to spread discount-fare passengers over existing flights. The argument is made by complainants that the 35 percent maximum standard is not sufficiently restrictive, and that it will be a brave carrier that will blackout any flight, or even reduce the available discount-fare seats below the maximum without the certain knowledge that his competitor's flight at the same period is also unavailable for excursion-fare passengers. Implied in this argument is the rationale that share-of-market motivations will override all other considerations. If this is true, it is unlikely that any manageable discount-fare scheme could be devised which will limit the carriage of discount-fare passengers to those times and/or to those seats where such traffic is of the greatest economic value. We do not accept the premise that the carriers will act irrationally and are convinced that an experiment with a fare that can slot passengers to fill otherwise empty seats is desirable and if sensibly applied can go a long way toward maximizing revenues on existing flights.

It is also our opinion that the 7-day minimum-stay and 14-day advance-purchase provisions, when combined with the ability to limit discount-fare capacity by flight, should minimize the risk of full-fare diversion in short-haul markets, if the carriers apply the capacity-control concept prudently in the manner intended. The Board has been reluctant to permit carriers to apply individual round-trip excursion fares in short-haul markets because of the uncertainty of the generative potential of such fares in short-haul markets. However, we believe that the instant proposal is sufficiently controllable to permit a test of its generative potential in short-haul markets where, for the most part, discount fares have not been available for travel for several years, and a significant number of seats go unused today.

Finally, although certainly not a dispositive point, we welcome United's proposal to contribute to fare simplification by canceling a number of existing promotional fares in favor of the capacity-controlled excursion fare.

All carriers offering the fare permitted herein are directed to maintain a record of the seats made available by flight for this discount fare. Carriers will report and specifically isolate traffic and revenue data applicable to this fare in their discount-fare submissions pursuant to Phase 5 (*DPFI*). In addition, a carrier publishing this fare will provide traffic and capacity data, by equipment type, for its top two city-pairs (based on local O & D passengers) for each of five mileage blocks in the form set forth in Appendix A* for the second full week in each month beginning in February 1976 and ending with January 1977. This latter report will accompany the aforementioned recurrent discount-fare report.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404, and 1002 thereof,

It is ordered that:

1. The complaints in Dockets 28232, 28243, 28246, 28248, 28249, and 28258 be and hereby are dismissed; and

2. Copies of this order be served upon American Airlines, Inc., Braniff Airways, Inc., Delta Air Lines, Inc., North Central Airlines, Inc., Northwest Airlines, Inc., Trans World Airlines, Inc., United Air Lines, Inc., Western Air Lines, Inc., and The Port Authority of New York and New Jersey.

This order will be published in the FEDERAL REGISTER.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

CERTAIN COTTON, WOOL AND MAN-MADE FIBER TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN THE REPUBLIC OF KOREA

Entrance or Withdrawal From Warehouse for Consumption

SEPTEMBER 25, 1975.

On June 26, 1975, the United States Government, in furtherance of the objectives of, and under the terms of, the Arrangement Regarding International Trade in Textiles, done at Geneva on December 20, 1973, concluded a comprehensive Bilateral Cotton, Wool, and Man-Made Fiber Textile Agreement with the Government of the Republic of Korea concerning exports of cotton, wool and man-made fiber textiles over a three-year period beginning on October 1, 1974 and extending through September 30, 1977. Among the provisions of the agreement are those establishing an aggregate limit for cotton textiles and cotton textile products in Categories 1–64, wool texile products in Categories 101–132, and man-made fiber textile products in Categories 200–243. Within the aggregate limit, the following group limits have been established: Group I (Categories 1–38, shoe uppers in Category 63, 64, 200–213, and 241–243); Group II (Categories 39–62, Category 63, except shoe uppers, and 214–240); and Group III (Categories 101–132). Within the aggregate and applicable group limits, specific limits have been established for Categories 9/10, 18/19 and part of 26 (printcloth), 22/23, 26 (duck), 45/46/47, 48, 49, 50/51, 52, 120, 219, 221, 222, part of 224 (men's and boys' suits), 228, 234, 235, 237, and 238. All other categories are subject to consultation limits within the aggregate and applicable group limits.

The agreement contains provisions for consultations to be held between the Governments of the United States and the Republic of Korea to establish levels for those categories not having specific export limitations for the agreement year beginning on October 1, 1975. Inasmuch as those consultations have not yet taken place, the levels set forth below for Categories 39, 104, 121, 208, 210, 218, 224 (other than men's and boys' suits), and 229 are the same as those which applied in the previous agreement year. These levels will be adjusted, as needed, following completion of consultations between the two governments.

Accordingly, there is published below a letter of September 25, 1975 from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs, directing that for the twelve-month period beginning on October 1, 1975 and extending through September 30, 1976, entry into the United States for consumption and withdrawal from warehouse for consumption in Categories 9/10, 18/19/26 (printcloth), 22/23, 26 (duck), 39, 45/46/47, 48, 49, 50/51, 52, 104, 120, 121, 208, 210, 218, 219, 221, 222, 224, 228, 229, 234,

235, 237, and 238 be limited to the designated levels. This letter and the actions taken pursuant thereto are not designed to implement all of the provisions of the bilateral agreement, but are designed to assist only in the implementation of certain of its provisions.

ALAN POLANSKY,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance, U.S. Department of Commerce.

COMMISSIONER OF CUSTOMS,
Department of the Treasury,
Washington, D.C. 20229.

DEAR MR. COMMISSIONER: Under the terms of the Arrangement Regarding International Trade in Textiles, done at Geneva on December 20, 1973, pursuant to the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of June 26, 1975, between the Governments of the United States and the Republic of Korea, and in accordance with the provisions of Executive Order 11651 of March 3, 1972, you are directed to prohibit, effective on October 1, 1975 and for the twelve-month period extending through September 30, 1976, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textile products in Categories 9/10, 18/19 and part of 26, 22/23, part of 26, 39, 45/46/47, 48, 49, 50/51, and 52; wool textile products in Categories 104, 120, and 121; and man-made fiber textile products in Categories 208, 210, 218, 219, 221, 222, 224, 228, 229, 234, 235, 237, and 238 in excess of the following levels of restraint:

327.__01 through 04, 06, 08
328.__01 through 04, 06, 08

[3] All T.S.U.S.A. numbers in category 224 except T.S.U.S.A. Nos. 380.0420, 380.8143, 380.0402, and 380.8103.

In carrying out this directive, entries of cotton, wool and man-made fiber textile products in all of the foregoing categories, except Category 229, produced in the Republic of Korea and exported to the United States prior to October 1, 1975, shall, to the extent of any unfilled balances, be charged against the levels of restraint established for such goods during the period October 1, 1974 through September 30, 1975. In the event that the levels of restraint established for that twelve-month period have been exhausted by previous entries, such goods shall be subject to the levels set forth in this letter. Entries of man-made fiber textile products in Category 229 prior to October 1, 1975 shall not be subject to this directive.

Man-made fiber textile products in Category 229 which have been released from the custody of the U.S. Customs Service under the provisions of 19 U.S.C. 1448(b) before the effective date of this directive shall not be denied entry under this directive.

The levels of restraint set forth above are subject to adjustment pursuant to the provisions of the bilateral agreement of June 26, 1975 between the Governments of the United States and the Republic of Korea which provide, in part, that: (1) within the aggregate and applicable group limits, specific levels of restraint within Group I may be exceeded by 10 percent; within Group II, by 7 percent; and within Group III, by 5 percent; (2) these same levels may be increased for carryover and carryforward up to 11 percent of the applicable category limit; (3) consultation levels may be increased within the aggregate and applicable group limits upon agreement between the two governments; and (4) administrative arrangements or adjustments may be made to resolve minor problems arising in the implementation of the agreement. Any appropriate adjustments under the provisions of the bilateral agreement referred to above will be made to you by letter.

A detailed description of the categories in terms of T.S.U.S.A. numbers was published in the FEDERAL REGISTER on February 3, 1975 (40 F.R. 5010).

In carrying out the above directions, entry into the United States for consumption shall be construed to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of the Republic of Korea and with respect to imports of cotton, wool and man-made fiber textile products from the Republic of Korea have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

ALAN POLANSKY,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance, U.S. Department of Commerce.

CERTAIN MAN-MADE FIBER TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN THAILAND

Entry or Withdrawal From Warehouse for Consumption

SEPTEMBER 26, 1975.

On July 31, 1975, the United States Government requested the Government of Thailand to enter into consultations under Article 3 of the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, concerning exports to the United States of man-made fiber textile products in Categories 219 (shirts, including blouses) and 229 (woven coats), produced or manufactured in Thailand. Public notice of this request was published in the FEDERAL REGISTER on August 12, 1975 (40 F.R. 33853), and public comment and/or submission of additional information was invited by September 10, 1975.

Since no solution has been mutually agreed upon, the United States Government, in furtherance of the objectives of, and under the terms of the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, including Article 3, is establishing restraints at the following levels for the period beginning on July 31, 1975 and extending through July 30, 1976:

Category		12-month level of restraint
219	dozen	869,901
229	do	180,369

These levels of restraint do not apply to man-made fiber textile products in Categories 219 and 229, produced or manufactured in Thailand and exported to the United States prior to July 31, 1975.

There is published below a letter of September 26, 1975 from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs directing that, effective on September 30, 1975, the amounts of man-made fiber textile products in Categories 219 and 229, produced or manufactured in Thailand, which may be entered or withdrawn from warehouse for consumption in the United States

during the twelve-month period beginning on July 31, 1975, be limited to the designated levels.

ALAN POLANSKY,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance, U.S. Department of Commerce.

Department of the Treasury,
Washington, D.C. 20229.

SEPTEMBER 26, 1975.

DEAR MR. COMMISSIONER: Under the terms of the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, and in accordance with the provisions of Executive Order 11651 of March 3, 1972, you are directed to prohibit, effective on September 30, 1975 and for the twelve-month period beginning on July 31, 1975 and extending through July 30, 1976, entry into the United States for consumption and withdrawal from warehouse for consumption, of man-made fiber textile products in Categories 219 and 229, produced or manufactured in Thailand, in excess of the following levels of restraint:

Category		12-month level of restraint
219	dozen	869,901
229	do	180,369

Entries of man-made fiber textile products in Categories 219 and 229, produced or manufactured in Thailand, which have been exported to the United States prior to July 31, 1975, shall not be subject to this directive.

Man-made fiber textile products in Categories 219 and 229 which have been released from the custody of the U.S. Customs Service under the provisions of 19 U.S.C. 1448(b) prior to the effective date of this directive shall not be denied entry under this directive.

A detailed description of these categories in terms of T.S.U.S.A. numbers was published in the FEDERAL REGISTER on February 3, 1975 (40 F.R. 5010).

In carrying out the above directions, entry into the United States for consumption shall be construed to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of Thailand and with respect to imports of man-made fiber textile products from Thailand have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

ALAN POLANSKY,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance, U.S. Department of Commerce.

COMMODITY FUTURES TRADING COMMISSION

AGGREGATION OF ACCOUNTS—CONTROLLED OR DISCRETIONARY

Request for Comment

The Commodity Futures Trading Commission ("Commission") has received petitions and inquiries from futures commission merchants and others requesting that the Commission establish guidelines and interpretations (reversing prior interpretations) concerning aggregation of certain accounts for purposes of reporting requirements and speculative trading and position limits under the Commodity Exchange Act. Due to the general importance of these issues, the Commission has determined to seek comment from interested persons. Comments will be reviewed by the Commission in its consideration of what action, if any, is necessary or appropriate.

Background.—One of the primary objectives of the Commodity Exchange Act, 7 U.S.C. § 1 *et seq.*, ("Act"), as amended by the Commodity Futures Trading Commission Act of 1974, Pub. L. No. 93-463, (Oct. 23, 1974) ("CFTC Act"), is to maintain highly competitive futures markets by limiting the impact of large trading or positions. The Commission is authorized by section 4a(1) of the Act to establish speculative trading and position limits.[1] That section further provides that, in determining whether:

> . . . any person has exceeded such limits, the positions held and trading done by any persons directly or indirectly controlled by such person shall be included with the positions held and trading done by such person; and further, such limits upon positions and trading shall apply to positions held by, and trading done by, two or more persons acting pursuant to an expressed or implied agreement or understanding, the same as if the positions were held by, or the trading were done by, a single person.[2]

Prior to the adoption of the CFTC Act, this section had been the subject of interpretative statements issued by the Administrator of the Commodity Exchange Authority ("CEA"). One interpretative statement, Administrative Determination 229 (Oct. 14, 1971) ("A.D. 229"), concerned "customer trading programs" of futures commission merchants and stated that these programs have the following elements:

> They normally require the customer to sign an agreement not obtained from other customers and to make a minimum deposit in excess of that required of other customers. Those in the program are given specific advice or recommendations not made available to other customers of the firm. Although participants are not required to follow specific recommendations, the programs are designed to provide best results when such recommendations are followed.

A.D. 229 concluded with respect to customer trading programs that:

> All trades and positions in all customers' accounts included in a trading program must be combined for reporting and speculative limit purposes. Any officer, partner or employee of a futures commission merchant who operates a customer trading program is acting on behalf of the futures commission merchant.

Subsequent to the issuance of A.D. 229, futures commission merchants were informed by the Administrator that section 4a(1) of the Act also requires aggregation of discretionary accounts for reporting and speculative limit purposes. Objection has been made to the determinations of the Administrator.

The Commission seeks comment on all types of programs which are presently operated by futures commission merchants, their employees, commodity trading advisors, commodity pool operators or others. These programs may include individual customer accounts over which futures commission merchants or their employees have discretion in any manner; commodity pools or funds; accounts managed by commodity trading advisors; and any other program, or series of transactions, in which any person may be deemed to be acting in concert with another person or exercising control over trading or positions of another person (*e.g.*, interlocking directorates or joint officers of firms conducting transactions in commodity futures or common partners, common management or common advisors for firms conducting commodity futures transactions).

The Commission seeks comment in the following general areas.

1. Should the Commission establish any guidelines for aggregation under section 4a(1) of the Act? If so, what factors should be considered in establishing such guidelines? What should be the content of those guidelines? The Commission is particularly interested in information on the degree of control being exercised over trading or positions of any person, how and by whom that control is being exercised (whether by means of a trading program or otherwise), and under what circumstances.

2. Is aggregation appropriate for all forms of discretionary customer accounts including those of futures commission merchants and of employees thereof, and of others, such as accounts over which commodity trading advisors, commodity pool operators or others are in a position to exercise control or discretion? If not, what safeguards should be required to assure compliance with the requirements of section 4a(1)? Is a prima facie violation of section 4a(1) established in instances where the speculative limits have been surpassed and where data and other circumstances indicate that a common trading plan is

[1] Trading and position limits for certain commodities have been established. *See* 17 C.F.R. § 150 (1975).

being followed or that trades have been made in concert? Should there be a presumption that a futures commission merchant, commodity trading advisor or other person controls all accounts in which discretion to trade is vested in such a person? How could such a presumption be rebutted? Is a "Chinese wall" concept (providing for separation of functions within a particular firm) such as that used in the securities industry, adaptable to the commodity futures industry for purposes of determining control? If the concept is adaptable, the Commission requests comment upon the factors that should be considered in determining if there is separation of control in fact (*e.g.*, location of a firm's offices and representatives, procedural guidelines of a firm for trading and management of accounts, utilization of common computer and trading facilities, utilization of common research and the degree of independence granted to individual account managers).

* * * * *

The foregoing questions are not intended, in any way, to restrict or limit comment to the issues presented herein. The Commission seeks comment in any area which interested persons believe would be appropriate.

In connection with this request for comment, the Commission will independently investigate the operations of futures commission merchants to determine the nature of control being exercised over accounts maintained by these firms. These investigations will be for the purpose of gathering information to assist the Commission in its deliberations on this issue. However, if information obtained in these investigations reveals violations of the Act, those violations will be prosecuted.

All interested persons may comment on these issues by submitting comments in written form to the Commodity Futures Trading Commission, 1120 Connecticut Avenue, N.W. Washington, D.C. 20036, Attn: CCU. The Commission is especially interested in comments from futures commission merchants, exchanges, traders, dealers, customers, and other interested persons. Comments must be received on or before November 30, 1975. Copies of all comments received will be available for inspection at the Commission's office in Washington, D.C. In addition, interested persons may request the opportunity to express their views at an oral hearing. Should the Commission conclude that an oral presentation will be of value, it will, by subsequent notice, set the time and place of that hearing.

Issued in Washington, D.C., on September 24, 1975.

By the Commission.

Chairman, Commodity Futures Trading Commission.

ENVIRONMENTAL PROTECTION AGENCY

[OPP-50022A (FRL 436-4)]

INTERIOR DEPARTMENT

Issuance of Experimental Use Permit to Use Sodium Cyanide for Coyote Control

On July 28, 1975, notice was given (40 FR 31656) that the U.S. Department of the Interior (USDI) had applied to the Environmental Protection Agency (EPA) for an experimental use permit to use sodium cyanide for coyote control. Specifically, this application requested permission to use a sodium cyanide solution in toxic collars to be placed on tethered lambs in an effort to evaluate the effectiveness of the collars in controlling depredation by coyotes that are preying on sheep. The notice in the FEDERAL REGISTER also solicited comments from interested parties.

Two comments were received in response to this solicitation of views; both were from national nonprofit organizations. One of the commenters objected to the issuance of this permit due to the fact that sheep and coyotes would be killed in what the commenters considered an inhumane and, in some States, illegal, fashion. The other commenter discussed factors such as safety features of the plan (labeling, decontaminating and disposing of the collars, alerting the public of the program via the media, etc.) and suggested that data be obtained on permeability of sodium cyanide and polyvinylchloride collar material. Both commenters' observations were taken into consideration during the time the decision was being made as to whether the permit should be issued. Some of the suggestions regarding safety features were incorporated as part of the permit program. These comments are available for inspection in the office of the Federal

Register Section, Technical Services Division (WH-569), Office of Pesticide Programs, EPA, Room E-401, 401 M St., S.W., Washington, D.C. 20460.

After due deliberation of the application, comments, and other relevant information, and pursuant to section 5 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136), an experimental use permit has been issued to the U.S. Department of the Interior, Washington, D.C. 20460. Such permit is in accordance with, and subject to, the provisions of 40 CFR Part 172; Part 172 was published in the FEDERAL REGISTER on April 30, 1975 (40 FR 18780), and defines EPA procedures with respect to the use of pesticides for experimental purposes.

This experimental use permit (No. 6704-EUP-6) allows the use of 1,500 liters of a 33% sodium cyanide solution in up to 3,000 collars to be placed on tethered lambs. The program is authorized only in the States of Arizona, Califorina, Idaho, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, Texas, Utah, and Wyoming. The experimental use permit is effective from September 2, 1975, to September 2, 1976. The program is to be carried out under the direct supervision of the Fish and Wildlife Service, USDI. Test sites will be limited to those areas where coyote predation has been confirmed; no more than five collars per damage complaint will be used. Damage assessments will be made before and during tests with the entire area ranged by the flock searched daily.

Restrictions have been placed on use of the device in the geographical ranges of rare or endangered species, in accordance with the Rare and Endangered Species Act. The device has also been restricted from use in National Parks, Monuments, and places where excessive exposure to the public and family pets is probable. These restrictions will protect the users, minimize the devices' impact on the environment and allow the development of required data.

Interested parties wishing to review the experimental use permit are referred to Room E-315, Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M St., SW., Washington, D.C. 20460. It is suggested that such interested persons call 202/755-4851 before visiting the EPA Headquarters Office, so that the appropriate permit may be made conveniently available for review purposes. These files will be available for inspection from 8:30 a.m. to 4 p.m. Monday through Friday.

MONSANTO CO.

Issuance of Experimental Use Permit

Pursuant to section 5 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136), an experimental use permit has been issued to Monsanto Company, St. Louis, Missouri 63166. Such permit is in accordance with, and subject to, the provisions of 40 CFR Part 172; Part 172 was published in the FEDERAL REGISTER on April 30, 1975 (40 FR 18780), and defines EPA procedures with respect to the use of pesticides for experimental purposes.

This experimental use permit (No. 524-EUP-21) allows the use of 25,800 pounds of the herbicide glyphosate on corn, cotton, soybeans, and wheat against various annual and perennial grasses and broadleaf weeds. A total of 8,400 acres is involved; the program is authorized in the 48 contiguous States and Hawaii, except Nevada and Rhode Island. The experimental use permit is effective from September 16, 1975, to September 16, 1976. Temporary tolerances have been established for residues of the active ingredient in or on corn, soybeans, and wheat. All cotton treated under the permit will be destroyed or used for research purposes only.

Interested parties wishing to review the experimental use permit are referred to Room E-315, Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M St. S.W., Washington, D.C. 20460. ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

TASK FORCE ON DEMONSTRATION PROJECTS AS A COMMERCIALIZATION INCENTIVE

Determination To Establish

Pursuant to the Federal Advisory Committee Act (P.L. 92-463), I hereby certify that the establishment of a Task Force on Demonstration Projects as a Commercialization Incentive as hereinafter identified, is in the public interest in connection with the performance of duties imposed upon the Energy Research and Development Administration by the Energy Reorganization Act of 1974 and other applicable law. This determination follows consultation with the Office of Management and Budget (OMB), pursuant to Section 9(a)(2) of the Federal Advisory Committee Act and OMB Circular No. A-63 (Revised).

1. *Name of Task Force.* Task Force on Demonstration Projects as a Commercialization Incentive.

2. *Purpose.* To advise the Energy Research and Development Administration on methods of structuring technical demonstrations of new or improved energy systems so that these demonstrations may be responsive to nontechnical as well as technical issues which are vital in the ultimate decision to proceed with commercial exploitation.

3. *Effective Date of Establishment and Duration.* The Task Force is established, effective 15 days after publication of this notice and after filing of the charter with the standing committees of Congress having legislative jurisdiction of the Energy Research and Development Administration. The Task Force's termination date shall be June 30, 1976.

4. *Membership.* The membership of the Task Force shall be fairly balanced in terms of the points of view represented and the Task Force's function. Membership will include representatives from principal interest groups involved in commercialization decisions in the field of energy: the developer, the investor, and the regulator. There will be no dis-

crimintaion on the basis of race, color, national origin, religion, or sex.

5. *Task Force Operation.* The Task Force will operate in accordance with provisions of the Federal Advisory Committee Act (P.L. 92-463), ERDA policy and procedures, OMB Circular No. A-63 (Revised), and other directives and instructions issued in implementation of the Act.

ROBERT C. SEAMANS, Jr.

FEDERAL COMMUNICATIONS COMMISSION

[FCC 75R-354; Doc. No. 20407; File No. BP-19047]

GILBERT BROADCASTING CORP., ET AL.

Memorandum Opinion and Order (40 FR 18495)

In re applications of Gilbert Broadcasting Corporation, Newark, New Jersey, Docket No. 20407, File No. BP-19047; Community Group for North Jersey Radio, Inc., Newark, New Jersey, Docket No. 20408, File No. BP-19079; Sound Radio, Inc., Newark, New Jersey, Docket No. 20409, File No. BP-19080; Fidelity Voices, Inc., Newark, New Jersey, Docket No. 20410, File No. BP-19081; Venture III Corporation, Newark, New Jersey, Docket No. 20412, File No. BP-19086; For construction permits.

By the Review Board: Board Member Kessler dissenting, in part, with respect to the inclusion of a Section 1.65 issue directed against Fidelity Voices because the Commission's Ownership files would reveal these broadcast holdings.

1. Before the Review Board is a petition to enlarge issues filed May 13, 1975, by Gilbert Broadcasting Corporation (Gilbert) seeking the addition of various issues against Community Group for North Jersey Radio, Inc. (Community Group), Sound Radio, Inc. (Sound), Fidelity Voices, Inc., (Fidelity Voices) and Venture III Corporation (Venture III).[1][2]

2. *Misrepresentation Issue.* According to Gilbert, Community Group, in a letter filed with the Commission under the date of July 14, 1971, stated that its principals would include twenty-three named persons, six of them employees of Station WNJR. However, petitioner contends, three of these six WNJR employees had no agreement with Community Group concerning their participation in its application and did not authorize the use of their name in this connection,[3] and a fourth, Edward L. Strawther, was at that time associated with another applicant in this proceeding. Thus, Gilbert asserts, Community Group made false representations to the Commission regarding the identity of its principals, thereby necessitating the addition of a misrepresentation issue against it. Community Group does not dispute the accuracy of Gilbert's factual allegations, but argues instead that the representations were made in good faith with no intent to deceive or mislead the Commission.[4]

3. The Review Board will not add the requested issue. While petitioner has established that Community Group made inaccurate claims to the Commission concerning the identity of its principals, it has not, in our opinion, raised a substantial question as to whether these claims were made in bad faith. Community Group's application, filed two months after the letter cited by Gilbert, contains a complete and accurate listing of its participants, a fact which we find inconsistent with petitioner's contention that Community Group attempted to conceal the identity of these persons. Further, as Community Group itself points out, any effort on its part to gain a comparative advantage by falsely claiming an association with the six WNJR employees would be automatically doomed to failure, since at least four of the six were then and still are participants in one of the other applicants in this proceeding. Under these circumstances, we can see no basis for concluding that Community Group acted improperly in an effort to deceive the Commission and we will accordingly not add a misrepresentation issue against it.

4. *Section 1.514 Issue.* In support of its requested Section 1.514 issue, Gilbert cites various alleged "omissions and deficiencies" in Community Group's representations regarding the distribution and ownership of its capital stock, including a failure to specify the beneficial owners of some of the stock in question, a failure to indicate the persons for whom certain shares of stock were reserved, and a failure to include signed stock subscription agreements and employment agreements with the application. Moreover, petitioner alleges, the original Community Group application did not provide all of the required information concerning that applicant's principals, in that the date and place of birth was not reported for some principals and complete employment information, including prior broadcast experience, was not reported for others.[5] While some of these deficiencies are of little consequence, Gilbert concedes, others involve matters of potential decisional significance, and taken together, it continues, the deficiencies are sufficient to justify the addition of an issue.

5. The Board, however, must reject this contention. As both Community Group and the Broadcast Bureau point out, Community Group's original application provided a complete and accurate account of the ownership and distribution of its capital stock, and, while the application may have contained some minor errors or omissions in this regard, these defects were clearly of a *de minimis* nature. With respect to the other matters cited by Gilbert, we again agree with Community Group and the Bureau that the unreported information is of minor significance, that no intent to conceal has been shown, and that the requested issue is therefore unwarranted. See *Western Television Co.*, 50 FCC 2d 453, 32 RR 2d 350 (1974).

6. *Section 1.65 Issue.* Gilbert alleges that Community Group has failed to report the following information to the Commission in violation of Section 1.65 of the Commission's Rules: (1) changes in the positions held by John W. Alexander (president, a director and 11.5% stockholder of Community Group) in WNJR Charities, Inc.;[6] (2) a civil action (later dismissed) against Alan B. Clark (vice-president, a director and 7.5% stockholder of the applicant) and James N. Clark (a director and 2% stockholder); (3) all of the positions held by James R. Cowan (a director and 11.5% stockholder) including his appointment as Assistant Secretary of Defense for Health and Environment and his membership on the board of directors of a Newark drug rehabilitation center; (4) the discharge of Harry Haslett (until recently vice-president, a director, and 0.2% stockholder) from Station WNJR;

---

[1] A sixth application for regular authority to operate the facilities of WNJR, Newark, New Jersey, that of W.M.E.D. Associates, Inc., was dismissed by Order of the Presiding Judge, FCC 75M-1211, released July 10, 1975. Consequently, Gilbert's request for various issues against this applicant is now moot.

[2] Also before the Board are the following related pleadings: (a) supplement and errata to petition to enlarge, filed May 27, 1975, by Gilbert; (b) opposition, filed June 25, 1975, by Sound; (c) opposition, filed June 30, 1975, by Community Group; (d) opposition, filed June 30, 1975, by Venture III; (e) opposition, filed July 1, 1975, and supplement thereto filed July 17, 1975, by Fidelity Voices; (f) joint opposition, filed June 30, 1975, by Community Group and Venture III; (g) partial opposition and comments, filed July 1, 1975, by the Broadcast Bureau; (h) second supplement to petition to enlarge, filed July 3, 1975, by Gilbert; (i) opposition to supplement, filed July 9, 1975, by Sound; (j) opposition to supplement, filed July 24, 1975, by Venture III; (k) partial opposition to supplement, filed July 25, 1975, by the Broadcast Bureau; (l) reply, filed August 7, 1975, by Gilbert; (m) motion to strike, filed August 14, 1975, by Community Group and Venture III; (n) opposition to motion to strike, filed August 20, 1975, by Gilbert; and (o) opposition to motion to strike, filed August 25, 1975, by the Broadcast Bureau.

[3] An affidavit from each of the three persons in question is included in Gilbert's petition.

[4] Community Group's contention that it believed Strawther would join in its application and bring three other WNJR employees with him is supported only by Strawther's unverified statement to this effect. Since this statement does not comply with the requirements of Section 1.229(c) of the Commission's Rules, it must be rejected.

[5] Gilbert's attempt to raise new allegations of fact not responsive to matters contained in the oppositions with respect to this and other of its requested issues in its reply pleading will be rejected and the allegations themselves disregarded. See Sections 1.45 and 1.294 of the Rules. See also *Industrial Business Corporation*, 40 FCC 2d 69, 26 RR 2d 1447 (1973).

[6] WNJR Charities, Inc. is the managing partner of WNJR Radio Company, the partnership which is currently operating Station WNJR on an interim basis.

(5) the termination of Rhett Evers' (assistant vice-president, a director, and 0.1% stockholder) employment at a radio station; (6) the confirmation of the nomination of Harry Hazelwood, Jr. (a director and 10% stockholder) as a Judge of the Superior Court of Essex County, New Jersey;[7] the failure of Benjamin F. Jones (a director and 5% stockholder) to be re-elected Commissioner of Parks and Public Property of Orange, New Jersey; (8) changes in the address and/or employment of two directors, one holding a 0.5% interest in the applicant and one a 1.1% interest; (9) two judgments against Charles E. Young (a director and 10.2% stockholder); and (10) a judgment against Constance Washington (a director and 0.5% stockholder) and a change in her employment.[8] Citing *Brindlee Broadcasting Corp.*, 46 FCC 2d 721, 30 RR 2d 207 (1974), and *Southern Broadcasting Co.*, 38 FCC 2d 461, 25 RR 2d 1138 (1972), for the proposition that failure to report changes in business interests and employment constitutes grounds for adding a section 1.65 issue; *1400 Corp.*, 14 FCC 2d 281, 13 RR 2d 1178 (1968), and *Berwick Broadcasting Corp.*, 12 FCC 2d 175, 12 RR 2d 771 (1968), for the proposition that failure to report outstanding unsatisfied judgments likewise justifies addition of an issue; *Voice of Reason, Inc.*, 37 FCC 2d 686, 25 RR 2d 645 (1970), and *Fred Kaysbier*, 34 FCC 2d 788, 20 RR 2d 844 (1970), for the proposition that failure to report civil actions which might have an adverse impact on the applicant's financial qualifications warrants addition of a Section 1.65 issue; and *Cosmopolitan Enterprises, Inc.*, 49 FCC 2d 934, 31 RR 2d 1651 (1974), and *Minshall Broadcasting Co., Inc.*, 10 FCC 2d 647, 11 RR 2d 754 (1967), for the proposition that numerous failures to report may indicate a pattern of carelessness and irresponsibility, Gilbert requests the addition of a Section 1.65 issue against Community Group.[9]

7. Both Community Group and the Bureau oppose Gilbert's request. None of the alleged omissions regarding the business interests of Community Group's principals involves a matter of possible decisional significance, they contend, and likewise, they continue, none of the unreported civil actions and judgments could have an adverse impact on the applicant's financial qualifications, as all of the principals involved purchased their stock prior to the litigation in question.[10] Hence, they assert, the instant situation can be distinguished from the cases cited by Gilbert, all of which concerned failures to report important matters of clear decisional significance. Finally, both Community Group and the Bureau dispute Gilbert's characterization of Community Group's conduct as representing a pattern of carelessness and irresponsibility, since in their view, the omissions are neither sufficiently numerous nor important to warrant such a description. The Board agrees with this assessment. While Community Group has by its own admission failed to report all changes in its principals' activities, most of the unreported changes appear to be of very minor importance, none involves a potential matter of decisional significance, and no motive to conceal is apparent. Furthermore, we do not believe they indicate a serious pattern of irresponsibility on Community Group's part. Accordingly, we can find no basis for adding the requested Section 1.65 issue and will deny Gilbert's request.

8. *Section 1.526 Issue.* According to the uncontroverted affidavit of William A. Franklin, a Gilbert principal, on May 6, 1975, Community Group's public file did not contain a January 1973 amendment to its application, which amendment provided the following information: (1) the election of a new officer and the removal of a director, (2) a new table listing the business and employment interests of its principals, (3) a new balance sheet, and (4) material completing its community survey showing. Both Community Group and the Bureau would dismiss this admitted violation of Section 1.526 as being too unimportant to require an issue, and the Board agrees with their position. Thus we note that none of the material which was omitted from the public file has been shown to be of any importance and no motive for these omissions other than simple inadvertence has been suggested or demonstrated. Under these circumstances, we do not believe that further inquiry into this matter would be fruitful and we will therefore not add the requested issue. See *Media, Inc.*, 22 FCC 2d 875, 18 RR 2d 1175 (1970).

9. *Irresponsibility of John W. Alexander and Frank L. Hubert.* Gilbert contends that John W. Alexander and Frank L. Hubert, Venture III's controlling stockholder, acted irresponsibly in their positions as trustees of WNJR Charities, Inc., and requests an issue to determine the effects thereof on the qualifications of their respective applicants. Specifically, Gilbert asserts that Alexander and Hubert as members of the board of directors of WNJR Charities, Inc. failed to dismiss WNJR's general manager in spite of his admitted violations of his employment contract; voted to demote or dismiss the four WNJR employees (all of them principals of Gilbert) who brought these violations to the board's attention; refused to permit one of the above employees to present her views to the board; called a special meeting of the board without notifying Gilbert's representative, in violation of the by-laws of the partnership;[11] and held an election of officers in which Gilbert's representative was removed as president and chairman of the board, again in violation of the partnership agreement. According to petitioner, all of these actions were "taken out of pure vindictiveness, recrimination and other [base] motives" in an effort to improve the positions of Community Group and Venture III at the expense of Gilbert and, thus, "put in question the responsibility of the persons who [so] acted." In support of its various allegations, Gilbert offers two affidavits from Seymour M. Chase, its counsel and designee on the board of WNJR Charities, Inc.

10. Community Group, Venture III and the Bureau all oppose Gilbert's request. In the Bureau's opinion, matters involving alleged violations of fiduciary duties should be pleaded initially before a local forum, citing *Northeast Oklahoma Broadcasting, Inc.*, 40 FCC 2d 543, 27 FR 2d 144 (1973); in any event, the Bureau maintains, none of the alleged actions appear to constitute abuses of discretion by either Alexander or Hubert. Community Group and Venture III, for their part, contend that the decision to retain the general manager was purely a matter of business judgment, that the decisions to demote or dismiss the four employees cited by Gilbert were based solely on the quality of their work and the needs of the station, that the refusal to permit one employee to appear before the board was consistent with past practice, and that the special board meeting and the election both conformed to the terms of the partnership agreement. Gilbert, in reply, disputes the second of these contentions, however. The decisions to dismiss and demote the four employees were made with the improper intention of damaging the Gilbert application, it asserts, as evidenced by the fact that two of the four were given no reason for the actions taken against them and a third was told by WNJR's general manager that the time had come when he (the general manager) had to punish those who had harmed him.[12] Moreover, Gilbert argues, New Jersey case law supports its allegation that Alexander and Hubert breached their fiduciary duties as trustees of WNJR Charities, Inc., by failing to discharge the general manager, and for this reason, it concludes, its re-

[7] Hazelwood's nomination for this position was reported by amendment dated January 30, 1973.

[8] The above listing does not include those allegations which are supported only by petitioner's "information and belief." Gilbert justifies these requests by claiming that the matters raised are "peculiarly within the knowledge of persons who are principals in the applications involved." The Board cannot accept this argument, however, since to do so would render the requirements of Section 1.229(c) totally meaningless. Accordingly, all such requests have been rejected.

[9] Gilbert has also requested Section 1.65 issues against Fidelity Voices, Sound and Venture III and, in each instance, has cited the above cases in support of its request. For purposes of convenience, the Board will not repeat these citations, or the Bureau's response thereto, in considering the other requests.

[10] Community Group's claim that Charles E. Young was unaware of the judgments against him until the filing of the instant petition is not supported by an appropriate affidavit from Young and must therefore be rejected. See Section 1.229(c) of the Commission's Rules.

[11] WNJR Charities, Inc. is composed of representatives from Gilbert Community Group and Venture III.

[12] These contentions are supported by the affidavits of the three employees concerned.

quest for a character issue should be granted.[12]

11. The Review Board will not add the requested issue. Gilbert's allegations that Alexander and Hubert violated their fiduciary duties and breached the WNJR Charities, Inc. partnership agreement raise questions concerning the proper interpretation of local law and we have consistently declined to intervene in such matters where they have not first been presented to or acted upon by the appropriate local forum. See *Northeast Oklahoma Broadcasting, Inc., supra.* In addition, petitioner would have the Commission review what appears to be primarily a matter of directorial judgment. As for Gilbert's other contention—that Alexander and Hubert "punished" four WNJR employees because they criticized the station's general manager—it is our view that this charge is based on speculation rather than on specific factual allegations and for this reason must be dismissed. Thus, we note that Gilbert's primary support for this aspect of its request is the affidavits of three of the four employees in question, each one setting forth that affiant's opinion of the reasons why he or she was demoted or fired. In light of the subjective nature of this material, we cannot accept it as a basis for further inquiry into this matter and we will therefore deny petitioner's request.

FIDELITY VOICES, INC.

12. *Sections 1.514 and 1.65 Issues: Dismissed Applications.* By Memorandum Opinion and Order, *Sound Radio, Inc.*, 45 FCC 2d 804, 29 RR 2d 950 (1974), the Commission approved an agreement providing for the merger of Fidelity Voices, Inc., Community Action Radio Enterprises (CARE), The Brown Broadcasting Corporation (Brown) and Greater Newark Broadcasters, Inc. (Broadcasters) into one application, that of Fidelity Voices, and the dismissal of the other three applications. From each of the four applications a majority of the principals, both in number and in ownership interest, joined the merged application, Gilbert asserts, and for this reason it contends, any questions which might have been raised with respect to the four original applications may now be raised with respect to the merged application. According to petitioner, the CARE, Brown, and Broadcasters applications were not complete when filed and were not consistently updated as required by Sections 1.514 and 1.65 of the Commission's Rules. Because, Gilbert maintains, each principal in the merged application who was also a principal in one of the above three applications was responsible for the completeness and accuracy of that application from the time it was filed until the time it was dismissed, and because, it continues, any failures in this regard offer some indication of the care and responsibility which these persons can be expected to display as licensees, an inquiry into the completeness and accuracy of the CARE, Brown and Broadcasters applications is relevant to the instant proceeding and should be authorized by the Board.

13. Gilbert concedes that its argument is a "novel" one, an assessment with which both Fidelity Voices and the Bureau agree. The latter two parties disagree with Gilbert in all other respects, however, since in their view any Sections 1.514 and 1.65 issues which might have been added against CARE, Brown, or Broadcasters became moot at the time these applications were dismissed. The Board agrees with Fidelity Voices and the Bureau and will accordingly deny Gilbert's request. The CARE, Brown and Broadcasters applications are no longer before the Commission and, for this reason, we believe, their completeness and accuracy have no relevance to the instant proceeding. Had Gilbert demonstrated intentional misrepresentations or other serious misconduct on the part of particular persons once associated with the dismissed applicants and now associated with Fidelity Voices, we would, of course, consider an appropriate character issue against the latter applicant. But petitioner has alleged only that persons now associated with Fidelity Voices may have violated Sections 1.514 and 1.65 in their capacity as principals of prior applicants for broadcast licenses, and, in our view, such allegations, even if true, are too remote from the instant proceeding to warrant further inquiry.

14. *Section 1.514 Issue: Original Application.* Gilbert contends that the original Fidelity Voices application failed to disclose the birth date of one principal and the dates of employment of several others and did not include a balance sheet as required by the application form. While petitioner's observations are accurate the omissions themselves are for the most part trivial in nature and do not, in our view, justify addition of a Rule 1.514 issue. See *Western Television Co., supra.*

15. *Section 1.65 Issue: Amended Application.* According to Gilbert, the following information was not reported to the Commission by Fidelity Voices in violation of Section 1.65 of the Commission's Rules:[14] (1) that James Brown (a 22.5% stock subscriber of Fidelity Voices) is the controlling principal of J. B. Broadcasting, Ltd., licensee of standard broadcast Station WJBE, Knoxville, Tennessee; of J. B. Broadcasting of Baltimore, Ltd., licensee of standard broadcast Station WEBB, Baltimore, Maryland; and of J. B. Broadcasting of Augusta, Ltd., licensee of standard broadcast Station WRDW, Augusta, Georgia; (2) that Al Garner (a 2.5% stock subscriber) is a vice-president and 10% stockholder of J. B. Broadcasting of Baltimore, Ltd.; (3) that Charles A. Stanziale, Jr. (secretary-treasurer, a director and 3.12% stock subscriber) resigned as a Judge of Newark's Municipal Court, discontinued another position with the city, and serves as a director of a New Hampshire corporation; (4) that Everett T. Felder (president, a director and 6.125% stock subscriber) owns a small interest (10 of 2,000 proposed shares) in an investment company and has assumed new responsibilities at Station WNJU-TV, Newark; (5) that three principals have changed their addresses; (6) that Edward A. Schober (a 0.6% stock subscriber) has held various unreported positions, including some in broadcasting; (7) that one principal has died; and (8) that the applicant held elections in which its existing officers and directors were re-elected.

16. The Board will add a Section 1.65 issue against Fidelity Voices. Though some of Gilbert's allegations can be dismissed as trivial and unimportant, its undisputed claim that the applicant did not disclose all of the broadcast holdings of James Brown and Al Garner involves a matter of potential decisional significance in this proceeding and, thus, cannot be so excused. See *Brindlee Broadcasting Corp., supra; Minshall Broadcasting Co., Inc., supra.* We will, however, specify the issue on a comparative basis only, since petitioner has offered no evidence suggesting intentional misconduct on Fidelity Voices' part and no motive to conceal or mislead is apparent from the pleadings.[15]

17. *Misrepresentation Issue.* Turning to Fidelity Voices' community survey, Gilbert alleges that the handwriting on the survey questionnaires titled "Community Leaders Survey" which were purportedly completed by Fidelity Voices' then-principal, Angel Rodriguez, differs so radically from the handwriting on the questionnaires titled "Community Survey" which were also purportedly completed by Rodriguez, and from Rodriguez's signature on a stock subscription agreement submitted with the original Fidelity Voices application, that an inquiry into possible misrepresentation on the applicant's part is necessary. The Board must reject this allegation. As the Bureau correctly notes, the *Primer*[16] does not require an interviewer to personally fill out or sign his interview forms and Fidelity

[12] The motion to strike Gilbert's reply with respect to this issue will be denied. While Community Group and Venture III are correct in their contention that the affidavits submitted with the reply were executed before the original petition to enlarge was filed, these affidavits are responsive to matters raised in the opposition an dthus cannot be considered new material. Likewise, Gilbert's citation of New Jersey case law is responsive to points made in the opposition pleadings.

[14] Gilbert views the Fidelity Voices application, as amended to reflect its merger with CARE, Brown, and Broadcasters, as constituting an essentially new application and for this reason requests both 1.514 and 1.65 issues with respect to the amended application. Our reading of the Commission's Order approving the merger convinces us that a new application was not created at that time, however, and we will thus treat Gilbert's request as one seeking a Section 1.65 issue only.

[15] The unverified statement of former counsel to Fidelity Voices that he inadvertently omitted James Brown's broadcast interests from the amended application does not comply with the requirements of Section 1.229 (c) and will be rejected.

[16] *Primer on Ascertainment of Community Problems by Broadcast Applicants*, 27 FCC 2d 650, 21 RR 2d 1507 (1971).

Voices has not claimed that Rodriguez did so here. The important consideration is whether Rodriguez, in fact, conducted the interviews of those persons on whose questionnaires his name appears, and since Gilbert has offered no specific allegations of fact indicating that he did not, its request must be denied.[17]

18. *Section 1.526 Issue.* Gilbert alleges, and Fidelity Voices does not dispute, that in March and May of 1975, Fidelity Voices' public file was not located at the address specified in its application and did not contain several items including an amendment concerning its community survey and an amendment showing its merger with CARE, Brown and Broadcasters. While this failure on Fidelity Voices' part to maintain a complete public file at the appropriate location does constitute a violation of Section 1.526, the Board considers this violation too insignificant to justify the addition of an issue. In this respect, we note that the correct location of the public file was easily ascertainable at the address specified in the application, that the omitted information does not appear to be of major importance, and that no motive to conceal is apparent. See *Media, Inc., supra.*[18]

19. *Past Rule Violations Issue.* Stations controlled by James Brown have been subject to findings of rule violations by the Commission, Gilbert argues, making an inquiry into Fidelity Voices' qualifications necessary in this proceeding.[19] Specifically, petitioner maintains: (a) that by Memorandum Opinion and Order (FCC 73–643), released June 19, 1973, the Commission imposed on J. B. Broadcasting of Augusta, Ltd., a forfeiture of $300 for violation of Sections 73.111 and 73.112 regarding program logs; (b) that on March 25, 1975, the Commission notified J. B. Broadcasting of Augusta, Ltd., of a forfeiture liability of $1,000 for broadcasting lottery information in violation of Title 13, Section 1304, of the United States Code; and (c) that by Memorandum Opinion and Order (FCC 74–1123), released October 25, 1974, the Commission imposed upon J. B. Broadcasting of Baltimore, Ltd., a forfeiture of $10,000 for violations of various technical rules.

20. Both the Bureau and Fidelity Voices oppose Gilbert's request, the former on the grounds that past broadcast experience may be explored under the standard comparative issue and the latter on the grounds that the Commission's forfeiture determinations are still under dispute and may be tested in court. The Board is of the view that addition of an issue inquiring into the violations alleged in the forfeiture Orders is neither warranted nor necessary. The alleged violations in question have not been shown to represent a pattern of willful or intentional misconduct; nor has it been demonstrated that the licensees failed to correct the violations after the forfeitures were levied against them. Thus, petitioner has not, in our opinion, established that the alleged violations could affect Fidelity Voices' basic qualifications. However, we agree with the Broadcast Bureau that despite the pendency of appeals, evidence of the conduct underlying the forfeiture Orders can be considered under the past broadcast record or experience criteria of the standard comparative issue in the discretion of the presiding officer. *Cf. RKO General, Inc. (WOR–TV)*, 47 FCC 2d 824, 30 RR 2d 955 (1974).

SOUND RADIO, INC.

21. *Misrepresentation Issue.* By letter of April 4, 1974, counsel for Sound submitted to the Commission a letter written by Edward Dawkins, Jr., an employee of Station WNJR and a principal of Sound. In this letter, Dawkins claimed that he was threatened with dismissal from his position at WNJR by principals of Gilbert who were attempting to eliminate all representatives of competing groups from the station's staff and control the station themselves. According to Gilbert, these representations were "blatant and willful falsehoods" which Dawkins knew or had reason to know were untrue at the time he made them. In view of the gravity of this matter, petitioner asserts, a misrepresentation issue against Sound is justified.

22. Sound, in opposition, maintains that Dawkins' letter was motivated by a sincere belief that his allegations were correct and offers, as evidence of Dawkins' sincerity, a copy of a memorandum from Charles R. Green—a Gilbert principal and the operations manager of WNJR—to Dawkins, accusing Dawkins of being "thick-headed" and "incompetent" and ending with the sentence, "[t]he day is fast approaching when you, among others, will have to prove that you have the ability to hold your job." In addition, Sound contends, at the time the Dawkins letter was written, one Community Group principal and one Venture III principal had recently been dismissed from the WNJR staff and the four Gilbert principals associated with the station had all received promotions. Given these circumstances, Dawkins' concern about his own employment status and about the future plans of the four Gilbert principals was not unreasonable, Sound asserts. The Bureau also opposes Gilbert's request, since it, too, believes that Dawkins' fears were apparently not unfounded.

23. The Board will deny Gilbert's request. Though petitioner has contended that Dawkins knew or should have known that his allegations were untrue, the Green memorandum, the dismissal of the Community Group and Venture III representatives, and the promotion of the four Gilbert principals all tend to support a contrary conclusion, *i.e.*, that Dawkins' concerns were sincere and not unreasonable. Given this fact, we cannot conclude that Gilbert has substantiated its charges of misrepresentation and we will accordingly not authorize a further inquiry into this matter.

24. *Character Issue.* Citing *TV 9, Inc. v. FCC*, 495 F. 2d 929, 161 U.S. App. D.C. 349, 28 RR 2d 1115 (1973), Gilbert requests an inquiry into the failure of W. Scott Gorman, a director and 8.33% stockholder of Sound, to file federal income tax returns for the years 1961–1972, and the effect thereof on Sound's qualifications to be a Commission licensee.[20] Sound, in opposition, does not deny that Gorman may have violated Federal law. It does, however, dispute petitioner's contention that this conduct justifies the addition of a character issue against it. According to Sound, in *TV 9, Inc., supra*, the indicted principal had served as general counsel to the applicant and had advised it on editorial and programming matters during the years in which the applicant actually operated a broadcast station. Gorman's participation in its activities has been limited to attendance at directors and stockholders meetings, Sound maintains, and for this reason, it asserts, the factual situation in *TV 9, Inc.* is easily distinguishable from the instant situation.[21]

25. The Board agrees with this assessment and will therefore deny petitioner's request. While violations of law on the part of a principal to an application may sometimes justify a character issue against that applicant, we do not believe that such is the case here. It is undisputed (1) that Gorman's alleged misconduct was unknown to Sound's other principals at the time its application was filed; (2) that Sound took steps to remove Gorman as a principal as soon as the alleged misconduct was revealed; (3) that Gorman's participation in the Sound application has been very limited in nature; (4) that Gorman's alleged misconduct did not involve broadcasting or any application before the Commission; (5) that the alleged misconduct, so far as the allegations indicate misconduct, was a misdemeanor; and (6) that no criminal action has been instituted against Gorman by appropriate authorities. Given these considerations, we do not think this situation presents the issue presented in *TV 9, Inc.* and we fail to perceive how

[17] Our examination of the original questionnaire forms leads us to agree with the Bureau's suggestion that Rodriguez may have had his interviewees fill in the forms themselves and then added his own signature.

[18] Gilbert's request for a Section 1.526 issue based on alleged violations of this section by Station WEBB will be denied. As the Bureau correctly notes, WEBB's license is not presently before the Commission and its compliance with Section 1.526 is a matter too remote from the instant proceeding to be relevant here.

[19] Gilbert cites *WGOE, Inc.*, 43 FCC 2d 815, 28 RR 2d 759 (1973); *Louis Vander Plate*, 26 FCC 2d 874, 20 RR 2d 798 (1970); and *DuPage County Broadcasting, Inc.*, 21 FCC 2d 395, 18 RR 2d 321 (1970), in support of its request.

[20] Petitioner also alleges that Gorman misappropriated funds while serving as the shop steward for a local union. This allegation is not supported by the affidavit of a person with personal knowledge of the incident in question, however, and will therefore be rejected. See Section 1.229(c).

[21] Sound further notes that Gorman has resigned from its application, but acknowledges that this fact does not moot Gilbert's request.

Gorman's activities could have a substantial impact on Sound's qualifications. Accordingly, we will deny Gilbert's request. See *Chapman Radio and Television Co.*, 47 FCC 2d 775, 30 RR 2d 1089 (1974).[25]

26. *Section 1.526 Issue.* In support of its request for a Section 1.526 issue against Sound, Gilbert submits the affidavit of one Larrie W. Stalks who states that he was unable to find the offices of Sound or persons he understood to be its principals at the address specified in its application. Sound, in opposition, concedes that its public file was not available at the specified location for a period of two years but urges that it be excused for this failure to comply with Section 1.526 because it acted inadvertently and has now corrected its mistake. While the Board cannot dismiss a missing public file as a minor or unimportant matter, we do believe that the factors cited by Sound mandate that we add a Section 1.526 issue against it on a comparative basis only. See *Robert Cowan Wagner*, 38 FCC 2d 1187, 26 RR 2d 429 (1973).

27. *Section 1.65 Issue.* Gilbert alleges that Sound has violated Section 1.65 of the Commission's Rules by failing to report the following information concerning its principals: (1) one business interest of Dionne Warwis Elliott (vice-president, a director and 8.33% stock subscriber in Sound); (2) the marriage and change in residence of Geraldine E. Warrick (president and 8.33% stock subscriber) and her husband's position as producer and host of a radio program; (3) the broadcast experience of Harold R. Sims (vice-president and a director) during his high school years; (4) a change in the employment of Benjamin Hickman Wright, Sr. (vice-president, a director, and 8.33% stock subscriber); (5) all of the business and broadcast interests of Jerome H. Berenzweig (vice-president, assistant secretary, a director and 8.33% stock subscriber); (6) all of the business interests of Stanley R. Sommer (treasurer, a director and 8.33% stock subscriber) and the precise nature of his commitment to the proposed station; (7) the position of Dr. Oscar Sistrunk, Jr. (a director and 8.33% stock subscriber) as a director and stockholder of a New Jersey bank; and (8) all of the business activities of Daniel E. Robinson (vice-president, a director, and 8.33% stock subscriber).

Both Sound and the Bureau oppose Gilbert's request. The precise nature of Stanley R. Sommer's commitment to the proposed station was reported to the Commission, they contend,[26] and all of the other matters raised by petitioner are of little importance and no decisional significance. The Board agrees with this contention and will accordingly not add a Section 1.65 issue against Sound.

28. *Suburban Issue.* According to Gilbert Sound's survey of members of the general public was conducted by the Golden Age Project, a Newark senior citizen group which has not been shown to qualify as a professional survey organization under the requirements of the Commission's *Primer, supra*. Further, petitioner urges, the methodology used to select the persons included in this survey has not been specified in the application, making it impossible to determine whether the sample was in fact a random one. Given these defects in Sound's *Suburban* showing, Gilbert concludes, an issue inquiring into its efforts to ascertain the needs and problems of its proposed service area is necessary.

29. The Board will grant Gilbert's request. In response to petitioner's original allegations, Sound has offered only the affidavit of Ms. Sidni Jacobs, its secretary, who states that it is her "recollection" that the Golden Age Project has done survey work in the past and that although she doesn't recall "the exact specifics", it is also her "recollection" that the interviewers selected the persons to be interviewed from the Newark telephone directory.[27] As petitioner rightly points out in its reply, these vague and inconclusive statements do not constitute a persuasive showing that the Golden Age Project is a professional research service as required by the *Primer, supra*, Q. & A. 11(b), or that the persons included in the general public survey were selected in a manner designed to produce a random sample of the population as required by the *Primer, supra*, Q. & A. 13(b).[28] Accordingly, we agree with Gilbert's contention that a further inquiry into this matter is warranted and will add a limited issue for this purpose.

VENTURE III CORPORATION

30. *Sections 1.514 and 1.65 Issues.* On the basis of over fourteen alleged violations of Section 1.514 and over thirty alleged violations of Section 1.65, Gilbert requests the addition of Sections 1.514 and 1.65 issues against Venture III. While some of the alleged violations involve information of minimal importance, others involve matters which could assume decisional significance in the instant proceeding and, for this reason, the Board will grant Gilbert's request. Thus, we note that Venture III has apparently failed to report five unsatisfied judgments against Edward L. Strawther, its president and 0.8% stockholder, which judgments might well raise questions concerning Strawther's character and reliability, if not his ability to meet his financial obligations to the applicant;[29] it has also apparently failed to report three suits totaling $486,000 against it or its parent company, Hubert Enterprises, Inc., as well as four suits totaling over $14,000 against Frank L. Hubert, all of which legal actions could affect its ability to finance its proposal, see *Voice of Reason, supra*, and *Fred Kaysbier, supra*;[30] and it has further apparently failed to advise the Commission of changes in its officers and directors, see *Pacifica Foundation*, 41 FCC 2d 71, 27 RR 2d 1031 (1973). Under these circumstances, further inquiry into Venture III's compliance with Sections 1.514 and 1.65 is clearly necessary.

31. *Suburban Issue.* In its application, Venture III states that its survey of the general public was conducted by Albert Black, doing business as Garden State Consultants, "a market research organization in the Newark, New Jersey area", and consisted of interviews with 254 persons conducted "either at the homes of the individuals or at such gathering places as churches, supermarkets, or like public gatherings." Gilbert maintains that the above information is not sufficient to establish Garden States Consultants as a professional survey organization within the meaning of the *Primer, supra*, or to establish Venture III's survey as the true random sample required by the *Primer, supra*, and, on these grounds, requests a *Suburban* issue against Venture III.

32. The Board will deny the first part of Gilbert's request, but grant the second. Venture III, in its application, identifies Garden State Consultants as a professional survey organization and, in the absence of specific allegations to the contrary, we can see no basis for further inquiry into Garden State's professional

[25] We would note in this connection that petitioner has offered no evidence indicating that Gorman's conduct involved willful or deliberate violations of law or that it otherwise had any relationship to Sound's ability to operate a broadcast station in the public interest. Hence, even if we held Sound responsible for Gorman's activities, we could not add a character issue against the applicant because of them. See *Report on Uniform Policy as to Violation by Applicants of Laws of the United States*, 42 FCC 2d 399, 1 RR Part 3 91:495 (1951).

[26] On December 3, 1973, Sound reported to the Commission that Stanley R. Sommer would devote 20 hours weekly to the proposed station during its first year of operation. In a later amendment filed August 16, 1974, Sound changed its description of Sommer's duties to read "full time". While conceding that the latter amendment was "perhaps . . . inartfully worded", Sound maintains that it was not intended to change the "first year" portion of Sommer's commitment. The Board also considers the wording of the second amendment "inartful", but can find no basis therein for concluding that Sound either failed to report relevant information or attempted to misrepresent Sommer's intentions.

[27] Attached to Ms. Jacobs' affidavit is a letter from the administrative assistant of the Golden Age Project describing the group's work. This letter has not been notarized, however, and thus cannot be considered in our disposition of this request.

[28] We would note, in this regard, that Sound's *Suburban* showing does not provide any information as to the race, sex, age, or geographical distribution of the persons contacted for its survey of the general public. Consequently, we cannot determine whether or not these persons reflect the general population of the Newark area and cannot fault Gilbert for failing to make such a showing in its petition. Compare *Ken Stephens*, 53 FCC 383, — RR 2d — (1975).

[29] Venture III claims that Strawther satisfied some of these judgments prior to the filing of its application; it has not, however, provided an affidavit to this effect from Strawther as required by Section 1.229(c).

[30] In its designation Order the Commission specified a financial issue against Venture III.

qualifications.[33] Venture III's description of its survey techniques, in contrast, leaves many questions unanswered. While the applicant claims to have contacted persons at their homes or at public places, it has neither represented that these places were selected to achieve a random sample of its proposed service area nor demonstrated that such a sample was, in fact, obtained. Compare *Ken Stephens, supra.* In our view, this deficiency requires further exploration under an appropriate issue.

33. *Status of Hubert Enterprises Issue.* Petitioner alleges that Hubert Enterprises, Inc., the 60% stockholder of Venture III, has not filed its New Jersey Corporation Business Tax Returns for the years 1971–1973, is currently on a delinquent register for this reason, and could be liable to injunction proceedings by the State Attorney General restraining it from transacting any business if it continues to be delinquent in this regard. It is petitioner's contention that the above facts warrant the addition of a specific issue addressed to Hubert Enterprises' tax problems. The Board, however, can see no merit in this position. Hubert Enterprises' tax status is undoubtedly relevant to the question of Venture III's financial qualifications, but the financial issue already specified in this proceeding is broad enough to encompass this matter without resort to an additional issue. Likewise, Venture III's failure to notify the Commission of Hubert Enterprises' dealings with the State Department of the Treasury might justify a Section 1.514 or 1.65 issue against the applicant, had such an issue not already been added herein. Gilbert appears to question Hubert Enterprises' ability to conduct business in light of the possibility of an injunction proceeding against it, but this possibility is, in our view, largely a matter of speculation and surmise. And, Gilbert's allegation that Hubert Enterprises' failure to file State tax returns requires the specification of a character issue against Venture III must also be rejected, we believe, in light of petitioner's failure to demonstrate that the conduct in question might affect Venture III's ability to operate a broadcast station in the public interest. *Cf. Report on Uniform Policy as to Violation by Applicants of Laws of the United States, supra.* In summary, we find no basis for an additional issue premised on the failure of Hubert Enterprises to file certain State tax returns and will therefore deny petitioner's request.

34. *Character Issue.* In support of its requested character issue, Gilbert charges that Frank L. Hubert, in his capacity as an officer and director of WNJR Charities, Inc., obtained personal enrichment from WNJR without the knowledge and permission of the remaining officers and directors, thereby violating his fiduciary responsibilities at a trustee of the station and breaching the contract establishing the interim operation. Petitioner's allegations raise questions concerning the proper interpretation of fiduciary responsibilities and contract provisions, and, as we have noted elsewhere in this Memorandum Opinion and Order, such questions should ordinarily be addressed in the first instance to the appropriate local forum rather than to the Commission. See paragraph 11, *supra.* No reasons for adopting a different approach here have been put forward by Gilbert, and we will accordingly deny its request.

35. *Section 1.526 Issue.* In an affidavit accompanying Gilbert's petition, Charles R. Green, an officer, director and stockholder of Gilbert, states that on March 4, 1975, he asked to see Venture III's public file at the office where it was located but was told at first that the file was being transferred elsewhere. Approximately four minutes later the file was produced for his inspection. Green continues, and upon subsequent examination he found the file to be incomplete in several respects. Of particular importance in this regard, Gilbert maintains, is that the file did not contain the map showing a modified nighttime contour contained in a September 18, 1972 amendment to the Venture III application.

36. Both Venture III and the Bureau oppose Gilbert's request. Green was permitted to examine the public file minutes after he asked permission to do so, they assert, and all of the information which he found to be missing from the file was of very minimal importance. Specifically, they contend, a map similar to the one contained in the September 18, 1972 amendment was included in a December 12, 1972 amendment to the Venture III application, and for this reason, they argue, the omission of the former map did not render the public file incomplete or inaccurate in any significant respect. The Board agrees that a Section 1.526 issue against Venture III is not warranted. While the applicant has admittedly violated this section of the Commission's Rules, none of the material which it omitted from its public file has been shown to be of any importance and no motivation for these omissions other than simple inadvertence has been suggested or demonstrated. Under these circumstances, we do not believe that further inquiry into this matter would be fruitful and we will therefore not add the requested issue. See *Media, Inc., supra.*

37. ACCORDINGLY, IT IS ORDERED, That the motion to strike, filed August 14, 1975, by Community Group for North Jersey Radio, Inc. and Venture III Corporation, IS DENIED; and

38. IT IS FURTHER ORDERED, That the petition to enlarge issues, filed May 13, 1975, by Gilbert Broadcasting Corporation, IS GRANTED to the extent indicated herein, and IS DENIED in all other respects; and

39. IT IS FURTHER ORDERED, That the issues in this proceeding ARE ENLARGED to include the following issues:

1. To determine whether Sound Radio, Inc., has failed to comply with the provisions of Section 1.526 of the Commission's Rules, and, if so, to determine the effect thereof on the applicant's comparative qualifications to be a Commission licensee.

2. To determine whether Fidelity Voices, Inc., failed to comply with the provisions of Section 1.65 of the Commission's Rules, and, if so, to determine the effect thereof on the applicant's comparative qualifications to be a Commission licensee.

3. To determine whether Sound Radio, Inc.'s survey of the general public was conducted by a professional research service, whether this survey included consultations with a random sample of members of the general public, and whether, in light thereof, it has complied with the requirements of the *Primer on Ascertainment of Community Problems by Broadcast Applicants.*

4. To determine whether Venture III Corporation failed to comply with the provisions of Sections 1.514 and 1.65 of the Commission's Rules and, if so, to determine the effect thereof on the applicant's basic and/or comparative qualifications to be a Commission licensee.

5. To determine whether Venture III Corporation's survey of the general public included consultations with a random sample of members of the general public, and whether, in light thereof, it has complied with the requirements of the *Primer on Ascertainment of Community Problems by Broadcast Applicants.*

40. IT IS FURTHER ORDERED, That the burden of proof under that issue troduction of evidence and proof under Issue (3), above, SHALL BE on Sound Radio, Inc.; that the burden of proceeding under Issue (4), above, SHALL BE on Gilbert Broadcasting Corporation and the burden of proof under that issue SHALL BE on Venture III Corporation; and that the burdens of proceeding and proof under Issue (5), above, SHALL BE on Venture III Corporation.

SOUTHWEST PENNSYLVANIA CABLE TV, INC.

Cease and Desist Order; Memorandum Opinion and Order

DESIGNATING HEARING ON STATED ISSUES [37 FR 6517]

By the Commission: Commissioner Hooks absent.

1. The above-captioned proceeding was initiated as a result of Southwest Pennsylvania Cable TV, Inc.'s (Southwest) California, Pennsylvania alleged failure to provide network program exclusivity to Station WIIC-TV (Pittsburgh, Pennsylvania), upon that station's request, as required by Section 76.91 (formerly Sec-

[33] In contrast, the Sound application identifies the Golden Age Project as "a senior citizen group." See paragraphs 28–29, *infra.*

tion 74.1103) of our cable television rules. Southwest had requested a waiver of this rule, which we denied. 19 FCC 2d 989 (1969). Southwest's alleged failure to provide network program exclusivity to WIIC resulted in the issuance of the show cause order. FCC 72-230, release March 24, 1972.

2. In its opposition to the show cause proceeding, Southwest claimed for the first time that WIIC's failure to demand non-duplication network program protection from all cable television systems within the appropriate signal contours was sufficient to deny the cease and desist order. We found this contention irrelevant to the question of whether Southwest violated our cable television rules (Order to Show Cause, *supra*, at para. 3), and thus no evidence on this matter was taken. After hearing, a cease and desist order was issued against Southwest. 43 FCC 2d 723 (I.D. 1972), *aff'd*, 43 FCC 2d 717 (Rev. Bd. 1973). We denied review (FCC 74-541, released June 5, 1974), and Southwest appealed.

3. The United States Court of Appeals for the District of Columbia set aside the Commission's cease and desist order and remanded the case for further proceeding consistent with its decision. *Southwest Pennsylvania Cable TV, Inc.* v. *FCC*, No. 74-1633, decided June 23, 1975. The court agreed that our denial of Southwest's petition for waiver was proper and that we properly refused to relitigate the issues presented in Southwest's waiver petition. However, the Court remanded the proceeding with directions to consider whether WIIC-TV was selectively requesting non-duplication protection and to afford Southwest an opportunity to proffer evidence on the possibility of economic injury resulting from such selective enforcement. A hearing will be held to adduce evidence on this matter.

4. Accordingly, IT IS ORDERED, That a hearing is designated, at a time and place to be specified in a subsequent order, on the following issues:

(1) To determine whether WIIC-TV has requested network program exclusivity protection, pursuant to Section 76.91 of the Commission's Rules, on a selective basis from the cable television systems on which WIIC-TV is entitled to such protection, and if so, whether Southwest Pennsylvania Cable TV, Inc. would be competitively disadvantaged and suffer significant economic harm thereby.

(2) To determine whether, in light of the evidence adduced on the above issue, a cease and desist order would be in the public interest.

WWLE, INC. AND MECHANICVILLE BROADCASTING CO.

Memorandum Opinion and Order

In re applications of WWLE, Inc. for renewal of license of Station WWLE, Cornwall-on-Hudson, New York, Ralph Nardella, Sr., Ralph Nardella, Jr., John J. Farina and Alvin J. Wise d/bas Mechanicville Broadcasting Co. for new license for Station WMVI, Mechanicville, New York.

By the Commission: 1. The Commission presently has before it for consideration (i) the above-captioned license renewal application for Station WWLE, Cornwall-on-Hudson, New York, filed on March 1, 1972 by WWLE, Incorporated (hereinafter WWLE); (ii) an informal objection against the application, filed on May 26, 1972 by Mr. John J. Farina; (iii) a letter responding to Farina's allegations filed by WWLE on September 5, 1972; and (iv) a supplement to the letter of September 5, 1972, filed on June 30, 1975 by Paul N. Lofaro. We also shall consider here, for reasons discussed at Paragraph 24, *infra*, an application filed July 13, 1972 for license to cover a construction permit for Station WMVI, Mechanicville, N.Y., issued to Mechanicville Broadcasting Company, a partnership in which complainant Farina presently holds a 30 per cent interest.

BACKGROUND

2. An application (Form 314), for the assignment of the licensee of Station WWLE, Cornwall-on-Hudson, New York, from Mrs. Adeline R. Edmonds tr/as Radio Cornwall, to WWLE, Incorporated (BAL-7187) was filed with the Commission on December 2, 1970. The form reflected that the assignee corporation's outstanding 75 shares of stock were held equally by Messrs. Angelo R. Martinelli, Paul N. Lofaro and John J. Farina, each owning 33⅓ percent of the corporation. The assignee's portions of the application were signed by Mr. Farina as vice president and it contained a statement that all exhibits were prepared under his direction.

3. The assignment application was granted on March 15, 1971, and on May 28, 1971, the Commission received an Ownership Report (Form 323) from WWLE reflecting consummation of the assignment. This form was also signed by Mr. Farina, and it too stated that Martinelli, Lofaro, and Farina each owned 25 shares of WWLE's 75 outstanding shares of corporate stock. In addition, the document stated that each of the three principals had paid $333.34 in cash for his respective 25 shares of stock, the date of acquisition being November 21, 1970.

4. In February of 1972, Martinelli and Lofaro wrote a letter to the Commission, "in order to correct certain inaccuracies" which had just come to their attention with respect to the ownership of Station WWLE. They alleged that the two previously mentioned forms submitted by Farina were not correct. They continued by saying they alone had each subscribed for 25 shares of WWLE's stock, and under the subscription agreement, each of the two principals was to pay $3,000 and each was obligated to loan the corporation considerable sums of money to pay for the operation of the station. No stock was issued until April 26, 1971, when 25 shares were taken by each of the two men, each paying $3,000 for his respective shares. It was also averred that Farina was never a shareholder even though the terms of his contract of employment, which was executed on the closing date, April 26, 1971, did include an option to acquire shares in the future, provided certain conditions were achieved. Martinelli and Lofaro claim Farina never paid any monies for stock or loaned WWLE any capital. Thus no stock was ever issued to him. The letter was closed with the statement that, due to prior misrepresentations and continued dissatisfaction, Farina was fired on July 9, 1971. They enclosed a copy of the employment stock option agreement, which indicated that Farina would become an officer and director during the term of his employment as manager. The copy contained signatures of all three.

5. On March 2, 1972, copies of Martinelli's and Lofaro's letter, the combination agreement between the two principals of WWLE and Farina's employment contract, along with a letter from the Commission requesting comment were sent to Farina. In his reply Farina claimed that he had been victimized by Martinelli and Lofaro, who allegedly had induced him to work long hours at low pay in return for an ownership interest in WWLE, and thus challenged their story on many important points and raised several additional questions.

STOCK OWNERSHIP

6. In his informal complaint Mr. Farina initially raises the issue of misrepresentation of the true ownership of WWLE. He states that he had been affiliated with the station as an employee since its creation, and when Messrs. Martinelli and Lofaro decided to purchase it they requested that he remain, offering him a small salary and one-third ownership of WWLE as consideration. Farina says the seemingly generous offer was due to his familiarity with FCC's rules and regulations, and because of his extensive knowledge of Station WWLE, which was completely and candidly revealed to Martinelli and Lofaro before they decided to purchase it. Farina denies that he knowingly signed the employment contract containing the stock option. Although Farina admits that he never received any stock certificates, he says that he had no reason to doubt the

representations of Martinelli and Lofaro, who always held out Farina as one of WWLE's three principals. He says they told him that the stock certificates were being kept at the office of their local attorney along with other corporate records. He states that all three reviewed the contents of a final copy of the assignment application at Martinelli's office prior to filing it with the Commission. An article in the December 21, 1970 issue of *Broadcasting Magazine* described the sale to all three. Farina recalls Martinelli's and Lofaro's showing the article to WWLE staff members as well as others outside the station. Finally, Farina states that he received an oral offer from Martinelli's and Lofaro's lawyer on their behalf to buy out his interest as late as February 1972.

7. In response, Martinelli and Lofaro allege that it is Farina who has made misrepresentations, not they. They explain that before they met John Farina they had absolutely no experience in the broadcast industry. On their first encounter Farina advised them that it was his professional opinion that the purchase of station WWLE offered a "golden opportunity" to make a tremendous amount of money, explaining that they could purchase the radio station for a nominal cost because it was in financial trouble and, though the station was presently in the red, with proper management it could be turned into very profitable venture. Relying on Farina's representations, say Martinelli and Lofaro, they decided to purchase the station. Subsequently, between acceptance of the offer of sale and the consummation of the purchase, Martinelli and Lofaro discovered that Farina had made some serious misrepresentations concerning the station's assets and liabilities, as well as an alleged minimum price which was supposedly set by the Commission.

8. They continue by relating that their trust in Farina was badly shaken and that they thereafter conducted an assessment of their situation regarding the purchase of Station WWLE, concluding that they were in too deeply to feasibly terminate the venture and that although Farina had made significant and damaging misrepresentations, they were, nevertheless, dependent upon him. Therefore, they decided against severing their relationship with Farina and, acting on the advice of their attorney, they offered him a stock option, conditioned on a profitable performance of the station. Finally, however, due to his prior misrepresentations and their continued dissatisfaction with the operation and performance of the station, he was discharged on July 9, 1971, before he had an opportunity to exercise the stock option. Martinelli and Lofaro claim that it was not until February 1, 1972, when they discovered that Farina had misrepresented to the Commission that he held one-third of the stock in WWLE. They dispute Farina's contention that he was held out as a stockholder or partner of WWLE. Martinelli and Lofaro stress that everyone familiar with the station, including the entire staff, was always aware that Martinelli and Lofaro were equal and exclusive stockholders of the corporation. Martinelli and Lofaro repeat that Farina did in fact sign the employment contract containing the stock option agreement. Moreover, Martinelli and Lofaro emphasize that they delegated to Farina the responsibility of filing the instrument with the Commission, which he obviously failed to do.

9. The record on the question of who actually owns or owned WWLE is a morass of conflicting statements which cannot be reconciled without a hearing. In addition to the question of misrepresentation of ownership of WWLE, Inc. in BAL-7187 and in the ownership report subsequently filed with the Commission, there is a quetsion of unauthorized transfer of control of WWLE when Farina was expelled from the corporation without its having obtained prior Commission consent on a Form 316 transfer application.[1] This failure of WWLE, Inc. to file the Farina employment and stock option contract within 30 days of its execution, in violation of Section 1.613 of our rules, also has a bearing on these questions and possibly on WWLE, Inc.'s qualifications, if misrepresentation or fraudulent concealment of true ownership was involved.

CONTROL PRIOR TO ASSIGNMENT

10. The contract of sale from Radio Cornwall (Paragraph 2, *supra*) called for the assignee, WWLE, Inc., to lend the assignor operating capital to ensure that the station would remain on the air until the transaction could be consummated, presumably following Commission consent. While this in itself is not an unacceptable procedure if the assignor remains unquestionably in control, Farina alleges that before BAL-7187 was granted Lofaro took over an office at the station, and began working closely with the station manager and bookkeeper. Farina states: "All during the negotiating period and interum (sic) period between applying for the license and its final transfer, Lofaro was in complete charge, even acting with power-of-attorney at WWLE."

11. In their letter of September 5, 1972, Martinelli and Lofaro state that during the period between the signing of the contract, on October 2, 1970, and the consummation of the assignment, on April 28, 1971, Lofaro visited the station only one day a week and would spend an hour or two in discussion with Farina. They did not, however, comment on the statement that Lofaro acted with power-of-attorney at WWLE.

12. In light of the contradictions between the two versions, particularly the hanging question of the power-of-attorney, an issue will be added as to whether there was an unauthorized transfer of control of WWLE prior to grant of BAL-7187.

[1] This possible unauthorized transfer may be viewed separately from the pre-assignment events discussed immediately below.

FINANCING

13. Farina's second allegation is that false representations concerning the financing of the station were made to the Commission. He states that Martinelli was not the sole financial backer, either during the interim between the time the transfer application was filed and the actual transfer of the broadcast license or after the transfer of the license—although such was represented to Farina, to the prior owner of the station, and to the Commission. Farina asserts that Lofaro may have been, at least, a part-financer during the period between the time of the transfer application was filed and the actual transfer of the license, without the Commission's being informed.

14. In response Martinelli and Lofaro argue that the Commission was not informed because Farina told them that the Commission required specific financial information of only one partner. Farina allegedly chose Martinelli because he was the owner of several business enterployed by Martinelli as a business prises, whereas Lofaro was merely emmanager.

15. Section 309(d) of the Communications Act of 1934, as amended, requires that a challenger of a license renewal application must set forth specific allegations of fact sufficient to show a grant of the challenged application would be prima facie inconsistent with the public interest, convenience and necessity. Farina's allegations relating to Lofaro's financial interest in Station WWLE, even by the most charitable reading, fall substantially short of the specificity required by Section 309(d) of the Act. Accordingly, it is concluded that Farina has failed to raise a substantial and material question of fact in this regard.

PERFORMANCE

16. Farina claims that while he was the manager of Station WWLE the radio transmission was of such high quality that it actually surpassed minimum FM standards. But now the station has a "muddy" sound which reflects less competent maintenance than was available during his tenure. Much of the problem, according to Farina, is due to the fact that the present engineering personnel are not of the same education and training as was formerly the case. He adds that the ex-chief engineer "was the most fully educated of any station in the area."

17. It is further alleged that the station's news coverage is a mere shadow of its former comprehensiveness. Farina thinks the decline in news coverage is due to unwise personnel cuts initiated by Martinelli and Lofaro. Among persons allegedly fired were the news editors and outside reporters (stringers), one of the announcers and the "secretary-typist-copywriter". Farina claims, as a result of the reduction in manpower, that the station only has one full-time newsman and the remaining announcers are forced to assume additional responsibilities and

hours of work. The "Dow Jones News Wire", a service that was almost completely sold out to advertisers, was dropped, says Farina. He relates his surprise over this development, since business news was so popular.

18. Finally, Farina declares that WWLE's renewal application is virtually an exact copy of the license assignment application filed more than two years before. Therefore, he concludes, it can be assumed that the renewal application is designed to mislead the Commission with erroneous information regarding programming and staffing policies.

19. Martinelli and Lofaro counter by saying that while Station WWLE was under the inept management of Farina it was spiralling toward bankruptcy, and it was only after he was fired that they managed to pull it out of its financial nose dive and get it operating in the black. While Farina was in charge, he allegedly hired people recklessly, many of them cronies, without considering their qualifications or the needs of the station. Examples are said to be his hiring a copy-writer who had no experience in the field and who could not even type, and his employing an announcer who could not operate his own control board, which in turn required the addition to the payroll of an extra engineer to operate the control board during this announcer's show.

20. The two men contend that Farina's charges are completely without merit, and that the station's policies, programming and format have hardly changed, unless for the better. The Station reportedly is still affiliated with the American Broadcasting Company's Radio Information Network as well as United Press International, and it maintains its own news department for local and regional news. Martinelli and Lofaro agree, however, that the Dow Jones Business News Service was discontinued, but the decision was made by Dow Jones, which indicated that it was not profitable. With the exception of the termination of Farina and his cronies in the news department, the entire staff—including the engineering department—has been kept intact. Therefore, in light of the foregoing, Martinelli and Lofaro declare that it is Farina who wishes to mislead the Commission, not they.

21. An investigation of station and Commission records discloses no evidence of a failure to comply with the Commission's standards of performance and operation since Farina was discharged. Nor has petitioner alleged with the specificity required to raise a substantial question of WWLE's performance during the July, 1971–June, 1972 period between Farina's discharge and license expiration.

ADDITIONAL ALLEGATIONS

22. Farina also makes the following general and conclusory assertions: (1) there is no evidence that WWLE, as stated in its renewal application, is attempting to develop its coverage of college and professional sports; (2) WWLE, without giving prior notice to the Commission, has been promoting *Stock Market Magazine*, a publication owned solely by Martinelli; (3) Martinelli violated the Commission's rules by using the station's facilities to promote his candidacy for Mayor of Yonkers, New York, without allowing his opponent access to WWLE's airways.

23. The Commission finds that no further administrative action is warranted on these allegations, due to the pervasive lack of specificity with which they are drawn. It is well established that the allegation of ultimate and conclusory facts, or mere general assertions, is not sufficient to require exploration in a hearing.

THE MECHANICVILLE APPLICATION

24. As noted in Paragraph 1, *supra*, complainant Farina holds a substantial interest in Mechanicville Broadcasting Company, permittee and would-be licensee of Station WMVI. A construction permit for the facility was granted by the Commission on April 2, 1969, construction was duly completed, and the station currently is operating under program test authority, pending final Commission action on the WMVI license application under consideration here. On January 21, 1972, Mechanicville filed an application for assignment of the WMVI construction permit to a newly formed partnership, also named Mechanicville Broadcasting Co., comprised of Farina and Alvin Wise, who like Farina is one of the partners comprising the permittee partnership. Under the new partnership arrangement Wise would retain his interest of 10 percent and Farina would acquire the 60 percent interest presently held by the Nardellas, thereby increasing his interest in Station WMVI from 30 percent to 90 percent. While the assignment application remains incomplete, and is not yet ready for Commission action, we find that administrative efficiency will be served by examining the effect, if any, of Farina's participation in the ownership and operation of Station WMVI. Based on the foregoing discussion of the WWLE application, we conclude that substantial and material questions concerning the character of John J. Farina have been raised which may bear on his qualifications and those of Mechanicville Broadcasting Company, to become a Commission licensee. Accordingly, an appropriate issue will be designate.[1]

ULTIMATE CONCLUSIONS

25. In the judgment of the Commission, substantial and material questions of fact have been raised with respect not only to misrepresentation (para. 6) but also to possible violations of Section 310(b) of the Act, involving transfers of control, and Sections 1.514(a) and 1.615 of the rules, concerning content of applications and reporting of ownership information (para. 2 and 3). The pleadings also raise serious questions concerning the alleged acquisition of Farina's stock by Martinelli and Lofaro through the employment of fraud and deceit, casting doubt on their character qualifications. The Commission is, therefore, unable to make the statutory finding that a grant of the renewal application for Station WWLE is consistent with the public interest, convenience and necessity, and is of the opinion that the foregoing matters should be explored in an evidentiary hearing.

26. Accordingly, IT IS ORDERED, That pursuant to Section 309(e) of the Communications Act of 1934, as amended, the captioned applications ARE DESIGNATED FOR HEARING in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following conditions:

1. To determine the facts and circumstances surrounding the submission of the WWLE assignment application (BAL–7187) on December 2, 1970, and the ownership report of WWLE, Incorporated, filed May 28, 1971, and whether complete and accurate information with respect to the ownership of WWLE, Inc. was set forth as required by Sections 1.514(a) and 1.615 of the Commission's Rules.

2. To determine whether the license for Station WWLE was transferred, assigned or disposed of, by transfer of control of WWLE, Inc., prior to the grant of BAL–7187 without a finding by the Commission that the public interest, convenience and necessity would be served thereby, in violation of Section 310(b) of the Communications Act of 1934, as amended.

3. To determine the facts and circumstances surrounding the execution and late filing—in violation of Section 1.613 of the Rules—of the alleged Farina employment and stock option contract.

4. To determine whether, in light of the evidence adduced under the foregoing issues, Messrs. Angelo R. Martinelli and Paul N. Lofaro, misrepresented to or concealed facts from the Commission in connection with the ownership or operation of WWLE, Inc. and Station WWLE respectively.

5. To determine the facts and circumstances surrounding the alleged "firing" of Mr. John J. Farina by Messrs. Martinelli and Lofaro, and whether this ouster constituted an unauthorized transfer of control in violation of Section 310(b) of the Communications Act of 1934, as amended.

6. To determine whether, in the light of the evidence adduced pursuant to the foregoing issues, a grant of the subject license renewal application for Station WWLE would serve the public interest, convenience, and necessity.

7. To determine whether, in light of the evidence adduced under the foregoing issues, Mr. Farina misrepresented to or concealed facts from the Commission in connection with the ownership or operation of WWLE, Inc. and Station WWLE respectively.

8. To determine whether, in light of the evidence adduced pursuant to the foregoing issues, a grant of the subject li-

[1] Mr. Farina also filed, on February 28, 1975, a competing application for Station WJJZ, Mount Holly, N.J. If and when a comparative hearing is ordered on the Mount Holly facility, we will take into consideration the status or outcome of the proceeding ordered here.

cense application for Station WMVI would serve the public interest, convenience, and necessity.

27. IT IS FURTHER ORDERED, That the informal objection to the above-captioned license renewal application filed by Mr. John J. Farina, is GRANTED to the extent indicated above, and IS DENIED in all other respects.

28. IT IS FURTHER ORDERED, That, in accordance with Section 309(e) of the Communications Act of 1934, as amended, the burden of proceeding with the introduction of evidence upon issues (1) through (5) shall be on the complainant, Mr. John J. Farina, the Broadcast Bureau may then introduce such evidence as it may possess; and the burden of proof shall be on the applicant, WWLE, Inc., with respect to issues (1) through (6).

29. IT IS FURTHER ORDERED, That, in accordance with Section 309(e) of the Communications Act of 1934, as amended, the burden of proceeding with the introduction of evidence upon issue (7) shall be on Messrs. FEDERAL POWER COMMISSION

[Docket Nos. E-8621, E-9280, E-9081 *et al.*[1]]

ARIZONA PUBLIC SERVICE CO., ET AL.

Order Approving Stipulation and Offer of Settlement Subject to Conditions

SEPTEMBER 16, 1975.

By order issued July 15, 1974, the Commission instituted an investigation pursuant to Section 206 of the Federal Power Act into the justness and reasonableness of Arizona Public Service Company (APS) Rate Schedule FPC Nos. 3, 6, 18, 26, 32, 38, 50, 52, 57, 58, and 59, including the automatic adjustment provisions contained therein. By orders issued September 26, 1974, in Docket Nos. E-8621, *et al.*, March 21, 1975, in Docket Nos. E-9280, *et al.*, and April 18, 1975, in Docket No. E-9081, the Commission accepted for filing proposed monthly billing adjustments, subject to refund pending the final disposition of this consolidated proceeding. (See Appendix A hereto)

Interventions and protests in these dockets were filed by Arizona Electric Power Cooperative, Inc. (Arizona Coop), Tucson Gas and Electric Company (Tucson), and Citizens Utilities Company (Citizens).

The automatic adjustment provisions in the rate schedules provide for adjustment in tax expenses to reflect changes in applicable rates, and adjustments in Operation and Maintenance charges based on wage and price indices. APS has periodically filed new changes in monthly billing to reflect implementation of the various clauses, with waiver of notice requested on the grounds that the magnitude of the various changes could not be determined prior to the end of the billing period. It was sought to revise the various agreements containing automatic adjustments in order to reduce the number of filings required and in particular to eliminate adjustments tied to indices.

Pursuant to the above orders and the Secretary's Notice dated December 4, 1974, a hearing was held on February 3, 1975. At that hearing the testimony of three APS witnesses and 47 exhibits, and the testimony of one Staff witness, were received in evidence. The hearing was recessed and held in abeyance, at the request of the parties (including Commission Staff) to discuss settlement of the proceeding. As a result of that, and subsequent conferences, APS, intevenor Arizona Electric Power Cooperative (AEPCO), and Staff of the Commission reached an agreement which was submitted to the Presiding Administrative Law Judge on June 27, 1975. On that date the Presiding Administrative Law Judge certified to the Commission the proposed settlement agreed to by the 3 parties in the proceeding.

Public Notice of the filing of the proposed Stipulation and Offer of Settlement was issued on July 7, 1975, with all comments or protests due on or before July 24, 1975. No comments were received.

The Agreement provides in essence that adjustments for increases in price of materials and supplies and labor rates (i.e. those based on national and state indices) shall be frozen at the level established as of December 31, 1974. Adjustments subsequent to that date shall be submitted as a rate change filing in accordance with Section 35.13 of Commission's Regulations and such rate changes shall be limited to actual changes in costs of materials and supplies and labor rates of APS. The Agreement also provides for APS to flow through all of the additional investment tax credit resulting from the Tax Reduction Act of 1975.

Our review of the settlement indicates that, for purpose of clarification, we should condition our acceptance of the settlement to provide that, notwithstanding any provisions contained therein, no change in rates, other than changes pursuant to Commission approved fuel cost adjustment clauses or Commission approved research and development cost adjustment clauses, shall be made by APS without compliance with Sections 35.1 and 35.13 of the Regulations and Section 205 of the Federal Power Act. Subject to this condition, we find that the proposed settlement represents a reasonable and appropriate resolution of the issues raised in this proceeding, and that the public interest would be served by our acceptance and approval of this proposed settlement as hereinafter ordered and conditioned.

The Commission finds: The proposed settlement filed in this proceeding on June 27, 1975, as a settlement of the issues involved herein is reasonable, proper and in the public interest in carrying out the provisions of the Federal Power Act and should be approved, subject to the condition that notwithstanding any provision contained in the proposed settlement, no change in rates, other than changes in rates made pursuant to Commission approved fuel cost adjustment clauses and Commission approved research and development cost adjustment clauses, shall be made by APS without compliance with Sections 35.1 and 35.13 of the Regulations and Section 205 of the Federal Power Act.

The Commission orders: (A) The proposed Stipulation and Offer of Settlement filed in this proceeding on June 27, 1975, as a settlement of the issues involved herein is hereby approved and adopted, subject to the conditions set forth in Ordering Paragraphs (B) and (C) below.

(B) Notwithstanding any provisions of the settlement agreement, APS shall effectuate no change in rates, other than changes in rates made pursuant to Commission approved fuel cost adjustment clauses and research and development cost adjustment clauses, without compliance with Sections 35.1 and 35.13 of the Regulations and Section 205 of the Federal Power Act; *Provided, however,* that Arizona shall flow through all of the investment tax credit resulting from the Tax Reduction Act of 1975, as provided in the settlement agreement.

(C) Within 30 days of the date of issuance of this order, APS shall file Rate Schedule supplements which conform to the settlement agreement and the terms and conditions of this order.

(D) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

SAGEBRUSH STS JOINT VENTURE, ET AL.

Notice of Applications for "Small Producer" Certificates [1]

SEPTEMBER 19, 1975.

Take notice that each of the Applicants listed herein has filed an application pursuant to Section 7(c) of the Natural Gas Act and Section 157.40 of the Regulations thereunder for a "small producer" certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce, all as more fully set forth in the applications which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before October 17, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI75-706]

ARKLA EXPLORATION CO.

Amendment to Application

SEPTEMBER 23, 1975.

Take notice that on September 18, 1975, Arkla Exploration Company (Applicant), P.O. Box 1734, Shreveport, Louisiana 71151, filed in Docket No. CI75-706 an amendment to its application filed in said docket for a certificate of public convenience and necessity pursuant to Section 7(c) of the Natural Gas Act, by which amendment Applicant requests authorization to sell natural gas from acreage in addition to that from which Applicant proposes in its initial application to make sales, all as more fully set forth in the amendment which is on file with the Commission and open to public inspection.

By the instant amendment Applicant requests authorization to sell gas from its own interests and the interests of Stephens Production Company to Arkansas Louisiana Gas Company pursuant to a contract dated March 25, 1975, on file as Applicant's FPC Gas Rate Schedule No. 49, as amended by an agreement dated July 9, 1975, adding production from the HCM-Oblander No. 1, sec. 7, T. 18 N., R. 11 W., Blaine County, Oklahoma, and as amended by an agreement dated September 5, 1975, adding production from sec. 8, T. 18 N., R. 11 W., Blaine County, Oklahoma. The contract of March 25, 1975, provides for a rate of 51.0 cents per Mcf at 14.65 psia, but by letter filed June 2, 1975, Applicant agrees to accept a certificate conditioned in accordance with Section 2.56a of the Commission's General Policy and Interpretations (18 CFR 2.56a).

[1] This notice does not provide for consolidation for hearing of the several matters covered herein.

Any person desiring to be heard or to make any protest with reference to said amendment should on or before October 10, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

BACA GAS GATHERING SYSTEM, INC.

Rate Increase

SEPTEMBER 23, 1975.

Take notice that Baca Gas Gathering System, Inc. (Baca), on September 12, 1975, tendered for filing the First Revised Sheet No. 3A, Volume 3. Baca states that the proposed changes, to be effective October 14, 1975, would increase its revenues from jurisdictional sales by approximately $262,000.

Copies of the filing were served upon the company's jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene, or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Section 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8 and 1.10). All such petitions or protests should be filed on or before October 7, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make the protestant a party to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this publication are on file with the Commission and available for public inspection.

[Docket Nos. E-8445 and E-8949]

CAMBRIDGE ELECTRIC LIGHT CO.

Order Approving Settlement Agreement

SEPTEMBER 22, 1975.

On July 24, 1975, the Presiding Administrative Law Judge certified to the Commission for approval a proposed settlement agreement between Cambridge Electric Light Company (Cambridge) and the Municipal Light Board of the Town of Belmont, Massachusetts, (Belmont). If approved, the settlement would resolve all issues at these consolidated proceedings and would result in a reduction of approximately $76,500 in revenues below those rates currently being collected.

These proceedings originated on October 12, 1973, when Cambridge tendered, at Docket E-8445, a proposed change of rates for wholesale service to Belmont which would increase the revenues from that customer by approximately $250,000, based on test year 1972. By Commission order issued December 13, 1973, the proposed increase was suspended for the maximum statutory period of five months to become effective on May 14, 1974.

On August 1, 1974, at Docket No. E-8949, Cambridge submitted a second rate increase application, proposing further increased charges to Belmont of $487,140, based on test year 1973. By order issued August 30, 1974, we suspended Cambridge's second proposed increase for one day, until September 2, 1974, consolidated those proceedings with those at Docket No. E-8445, and established hearing procedures.

After evidence had been served, the parties reached the present accord. The principal provisions of the proposed settlement may be summarized as follows:

Article I provides for no change in the rate schedule at Docket No. E-8445 on the ground that the rate at that docket failed to recover Cambridge's revenue requirements, based upon a 1973 test year.

Article II provides for a settlement cost of service of $2,092,549 which represents a negotiated dollar agreement arrived at solely for the purpose of settlement. The settlement cost of service (See Appendix A) is based upon an agreed-upon overall rate of return of 9.02 percent which provides a return on equity of 10.40 percent (See Appendix B).

Article III provides for revision of Cambridge's Fuel Cost Adjustment provision at Docket No. E-8949 to reflect losses associated with wholesale sales only, and to conform with the Commission's disposition in Opinion No. 720, to be effective February 12, 1975. The parties also agreed that for the purpose of Commission Order No. 517, the filing to be made by Cambridge in implementation of the Agreement is to be treated as a supplement to Cambridge's rate filing of August 1, 1974 in Docket No. E-8949.

Article IV provides for refunds from September 2, 1974 with interest at the rate of 7 percent per annum. Refunds due under the Fuel adjustment provision would be computed from February 12, 1975.

Article V provides for a moratorium on wholesale rate increases to Belmont so as to prevent any increase from taking effect prior to April 1, 1976. The parties further agree within this article that should we require the filing of a fuel clause complying with Order No. 517 to be effective as of January 1, 1976, which results in a reduction in the energy charge, including the base energy rate and fuel adjustment charge, they will not object to Cambridge's request that the base energy charge per Kwh be increased as of January 1, 1976 to compensate for the reduction per Kwh in the fuel adjustment charge.

Article VI provides that the provisions of the agreement shall not become effective unless and until unconditional Commission approval becomes final and nonreviewable.

Article VII contains a general reservation disclaiming reliance on any principle underlying or supposed to underlie the settlement as negotiated.

Public notice of the proposed settlement was issued on August 1, 1975 with petitions or protests to be filed on or before August 27, 1975. On August 18, 1975, the Commission Staff filed comments supporting the proposed settlement agreement stating that the agreement reflects a cost of service and revenues below the levels justified by Staffs' cost of service studies.

The Commission Staff states that Article V recognizes that Cambridge is to have a certain revenue level, part of which is generated by its fuel adjustment clauses and that a change in such adjustment is not to cause a change in settlement revenues.

Staff explains further that in formulating the agreement regarding the effective date of Cambridge's fuel clause conforming to Order No. 517, or modifications of rate schedules to offset revenue changes which would occur if we were to order such clause to take effect on January 1, 1976, the parties have not undertaken to limit the Commission's discretion. This is consistent with our reading of the proposed settlement. Upon Cambridge's filing of its revised fuel adjustment clause pursuant to Commission Order No. 517, we shall exercise our discretion in determining whether such clause shall be placed into effect as of January 1, or April 1, 1976. In exercising such discretion we shall consider the intent of the parties as set forth within the subject agreement.

Based upon our review of the proposed settlement agreement, the record relating thereto, and the comments of the Commission Staff, we find that the settlement agreement represents a reason-

able resolution of the issues in these proceedings in the public interest, and that accordingly, it should be approved and adopted.

The Commission finds. The settlement of these proceedings on the basis of the settlement agreement certified herein by the Presiding Judge on July 24, 1975, is reasonable and proper and in the public interest in carrying out the provisions of the Federal Power Act, and such agreement should be approved.

The Commission orders. (A) The settlement agreement certified by the Presiding Judge on July 24, 1975, is incorporated by reference and made a part hereof, and is approved and adopted.

(B) Within 30 days Cambridge shall file revised sheets and rate schedules to conform with the proposed settlement agreement as herein approved.

(C) Within 30 days Cambridge shall make refunds to Belmont of the respective differences between the rates presently in effect and the settlement rates, with interest at the rate of 7 per cent per annum.

(D) Within 45 days Cambridge shall file with this Commission a statement of refunds pursuant to Section 1.35 of the Commission's Regulations under the Federal Power Act.

(E) This order is without prejudice to any findings or orders which have been made or which may hereafter be made by this Commission, and it is without prejudice to any claims or contentions which may be made by the Commission, its Staff, the Company, or by any other party or person affected by this order in any proceedings now pending or hereafter instituted by or against the Company or any other person or party.

(F) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

CENTRAL VERMONT PUBLIC SERVICE

Further Extension of Procedural Dates

SEPTEMBER 23, 1975.

On September 5, 1975, Vermont Electric Cooperative, filed a motion to extend the procedural dates fixed by order issued December 5, 1974, as most recently modified by notice issued June 23, 1975, in the above-designated proceeding. The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Intervenor Testimony, October 6, 1975.
Service of Company Rebuttal, October 20, 1975.
Hearing, October 28, 1975 (10:00 a.m. EST).

By direction of the Commission.

CHATTANOOGA GAS CO.

Proposed PGA Rate Adjustment

SEPTEMBER 22, 1975.

Take notice that on September 12, 1975, Chattanooga Gas Company (Chattanooga), tendered for filing proposed changes to Original Volume No. 1 of its FPC Gas Tariff to be effective on October 16, 1975, consisting of the following revised tariff sheets:

Fourteenth Revised Sheet No. 6, and alternatively, Alternate Fourteenth Revised Sheet No. 6.

Chattanooga states that the sole purpose of these Revised Tariff Sheets is to adjust Chattanooga's LNG rates pursuant to the PGA provision in Section 5 of the General Terms and Conditions of its FPC Tariff to reflect increased purchased gas costs resulting from a general rate increase by one of its suppliers, Southern Natural Gas Company, (Southern) in Docket No. RP75-84.

Chattanooga requests that its Fourteenth Revised Sheet No. 6 be made effective on October 16, 1975, the proposed effective date of the underlying increase by Southern which utilizes the method of rate design set out in Opinion No. 671 (United Gas Pipeline Company, 50 FPC 1348 (1973)).

Chattanooga further states that it is relying on its alternate rate increase reflected on Alternate Fourteenth Revised Sheet No. 6 to be effective on October 16, 1975, in the event Fourteenth Revised Sheet No. 6 is not accepted to be effective on October 16, 1975.

Chattanooga states that copies of the filing have been mailed to all of its jurisdictional customers.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 9, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. CP64-89]

CITIES SERVICE GAS CO. AND NATURAL GAS PIPELINE COMPANY OF AMERICA

Petition To Amend

SEPTEMBER 22, 1975.

Take notice that on September 11, 1975, Cities Service Gas Company (Petitioner), P.O. Box 25128, Oklahoma City, Oklahoma 73125, filed in Docket No. CP64-89 a petition to amend further the order of the Commission of January 2, 1964 (31 FPC 3), as amended, issued in said docket pursuant to Section 7(c) of the Natural Gas Act to authorize the exchange of natural gas at an additional exchange point in Grady County, Oklahoma, with Natural Gas Pipeline Company of America (Natural), all as more fully set forth in the petition to amend on file with the Commission and open to public inspection.

Petitioner states that pursuant to an amendment dated April 22, 1975, to the gas exchange agreement between itself and Natural, they agree to an additional point of exchange in Grady County, Oklahoma. Under the agreement, Natural would deliver to Petitioner gas purchased from the Anthony No. 1 Well in Grady County, and Petitioner would redeliver exchange volumes attributable to

such deliveries at previously authorized exchange points. It is stated that the volumes to be delivered under the amendment would not increase the maximum quantity of gas authorized to be exchanged between Petitioner and Natural. The proposed exchange is said to require the construction of a side tap, which Petitioner states it does not believe requires certification, if however certification is required, Petitioner requests such certification.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before October 14, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

COLORADO INTERSTATE GAS CO.

Order Accepting Proposed Disposition of Refunds

SEPTEMBER 23, 1975.

On July 30, 1975, Colorado Interstate Gas Company (CIG) filed a report of its intended disposition of refunds accruing under the Hugoton-Anadarko area rate proceeding. Notice of CIG's plan was issued August 13, 1975, with protests or petitions to intervene due on or before August 27, 1975. No protests or petitions to intervene were filed.

CIG states that it intends to flow the applicable refunds through by following the procedures set forth in Section 23 of its FPC Gas Tariff, Second Revised Volume No. 1. That section provides that the jurisdictional amount of CIG's supplier refunds shall be applied to its unrecovered purchased gas cost account.

CIG also requests that its filing of July 30, 1975 replace filings it had made earlier, on December 20, 1974 and January 20, 1975, in respect of refunds from Phillips Petroleum Company and Panhandle Producing Company.

The jurisdictional portion of the refunds provided by the instant filing amount to $4,101,390.46. We believe that CIG's proposed disposition of such refunds is in the public interest and accordingly accept CIG's plan.

The Commission finds. Good cause exists to accept CIG's plan for disposition of refunds.

The Commission orders: (A) CIG's plan for disposition of refunds is hereby accepted.

(B) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[Docket Nos. E-8650, etc.]

COLUMBUS AND SOUTHERN OHIO ELECTRIC CO.

Order Granting in Part and Denying in Part Motions

SEPTEMBER, 23, 1975.

On August 15, 1975, the City of Westerville, Ohio (Westerville) filed a motion styled Motion of Westerville To Require Furnishing of Papers, Et. Al. requesting the following relief:

1. To require Columbus and Southern Ohio Electric Company (C&SOE) to furnish a complete copy of the filing to Westerville.
2. To defer action in this proceeding until Westerville has had a chance to examine the matters furnished it by C&SOE.

Westerville also advises that it will inform the Commission as to whether or not the proposed increased rates should be set for hearing or consolidated with other rate increase proceedings before the Commission in other dockets. On August 25, 1975, Westerville filed a motion seeking consolidation of C&SOE's rate increase filings in the captioned dockets[1] and for rescheduling of the hearing currently set for October 21, 1975 in Docket No. E-8650. We shall deny the relief sought by Westerville.

We shall grant Westerville's motion that we order C&SOE to provide a copy of the filing in Docket No. E-9343 to Westerville. Westerville was permitted to intervene in that proceeding by order issued July 15, 1975. We note, however, that Westerville does not state that it requested such information directly from C&SOE and that its request was denied. As to any requests in the future, Westerville will be required to show that it has pursued discovery of the Company before invoking the authority of this Commission to require that C&SOE furnish data to Westerville.

By letter order issued May 29, 1975, the rates for service to the City of Columbus were accepted for filing and the proceedings in Docket No. E-9343 were terminated. Accordingly, there is no further action to be taken in that proceeding and Westerville's motion to defer action must be denied. We believe that Westerville can fully protect its rights in the cases involving rates for service to it.

We also do not believe that consolidation of the proceedings concerning the rates for service to Westerville is in the public interest. The proceedings in Docket No. E-8650 have been previously delayed by an interlocutory appeal of a procedural question to the Commission. The testimony and exhibits of all parties have been filed and the matter is proceeding towards hearing on October 21, 1975. However, in Docket No. E-9407, testimony and exhibits have not been filed by either our Staff or Intervenors. C&SOE has also not filed its rebuttal. Therefore, consolidation would only serve to delay resolution of the proceeding in Docket No. E-8650. Accordingly, we shall deny Westerville's motion to consolidate.

Westerville has not shown any cause for delay of the hearing in Docket No. E-8650. That motion should properly be addressed to the Presiding Administrative Law Judge since the matter is now before him. However, there is an implied predicate to the motion for rescheduling of the hearing, that the motion for consolidation be granted. Since we deny the motion to consolidate, we also deny the motion to reschedule the hearing in Docket No. E-8650.

The Commission finds.—Except as hereinafter ordered, good cause has not been shown to grant the relief sought by Westerville's motions of August 15, 1975 and August 25, 1975.

The Commission orders.—(A) C&SOE shall provide Westerville with a copy of its filing in Docket No. E-9343 within 15 days of the issuance of this order.

(B) Westerville's motions of August 15, 1975 and August 25, 1975 are otherwise hereby denied.

(C) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

EASTERN SHORE NATURAL GAS CO.

Proposed Excess and Emergency Gas Service Rate

SEPTEMBER 23, 1975.

Take notice that on September 11, 1975, Eastern Shore Natural Gas Company tendered for filing three revised tariff sheets:

Thirteenth Revised Sheet No. 3A
Eighteenth Revised Sheet No. 18A
Second Revised Sheet No. 18B

These provide for an excess and emergency gas service rate to be effective October 1, 1975, to those buyers desiring to purchase natural gas from Eastern Shore and to whom Eastern Shore sells or for whom it transports such gas under this rate when an emergency is existent or anticipated on a particular buyer's system. The proposed new rate is .20, derived by rate of excess gas service plus the cost of gas purchased to provide the service. Deliveries thereunder will be on an interruptible basis, subject to such curtailment, interruption or discontinuance at any time as Eastern Shore deems necessary and desirable.

Eastern Shore also requests a waiver of the notice requirements of Section 154.22 of the Regulations and of Section 20.2 of the General Terms and Conditions of its Tariff to permit the tariff sheets to become effective as of October 1, 1975.

Eastern Shore states that it has mailed a copy of this filing to interested purchasers and State Commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 3, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and available for public inspection.

GETTY OIL COMPANY, ET AL.

Order Granting Temporary Certificate of Public Convenience and Necessity

SEPTEMBER 22, 1975.

Texaco Inc. filed an application for a certificate of public convenience and necessity in Docket No. CI76-74 on August 4, 1975, to initiate the sale of gas from East Cameron Block 281, offshore Louisiana, Federal Domain, to Tennessee Gas Pipeline Company. Texaco owns a 50 percent interest in Block 281 Field and requests a certificate at the national rate, pursuant to Opinion No. 699-H. Texaco has filed as part of its application its contract dated July 14, 1975, which provides for a term of five years and limits the dedication of gas produced from horizons found between the surface and the base of the D-3 sand in the Block 281 Field. In the Commission's order issued July 24, 1975, to Tenneco Oil Company, Docket Nos. CI75-746, a temporary certificate was issued for the other 50 percent of the undivided interest in East Cameron Block 281, and Tenneco Oil Company was directed to present evidence of reserves and deliverability in the consolidated proceeding, *Getty Oil Company, et al.*, Docket No. CI75-319, *et al.* As the instant application of Texaco involves its undivided 50 percent interest in the same field, we shall consolidate Texaco's application with the other related applications for hearing and decision. The status of Texaco's gas interest was noted by the Commission in its issuance of a certificate to the pipeline companies by order issued July 18, 1975, in *Texas Eastern Transmission Corporation, et al.*, Docket Nos. CP63-177, *et al.* (page 4), wherein, among other things, the Commission authorized the construction of Project 281 facilities. The Commission by order paragraph (M) of the order issued July 24, 1975, in the related dockets *Marathon Oil Company, et al.*, Docket Nos. CI75-641, *et al.*, directed Texaco to file a written statement within 10 days advising the Commission of its intention with regard to its 50 percent interest in said Federal Domain Block 281 Field.

In its application Texaco states that all commercially producible natural gas reserves from the surface to the limit of each well bore in Block 281 Field are committed to the contract with Tennessee and that Texaco has not reserved any gas for its own use and that there are no known natural gas reserves below the depth limitation contained in the contract. The Commission's order issuing certificates to the pipelines for construction of related transportation facilities is conditioned upon the producers receiving and accepting temporary or permanent certificates for the related sales. Therefore, in order to permit the construction of facilities to proceed, the Commission will grant a temporary certificate to Texaco, as it has to Tenneco Oil Company, and consolidate Texaco's application with that of the other producers.

On August 25, 1975, Tenneco Oil Company (TOC) and Tenneco Exploration, Ltd. (TEL) filed an application for rehearing [1] and request for severance. The pleading was filed in *Marathon Oil Company, et al.*, Docket Nos. CI75-641, *et al.*

The Commission issued an order granting a temporary certificate of public convenience and necessity to TOC and TEL to allow those producers to initiate sales of gas to Tennessee from East Cameron 281 and Eugene Island 342-3 offshore Louisiana, Federal Domain. In addition to granting the temporary certificates, the Commission set the applications of TOC and TEL for hearing on the issues of limitations of gas sales contracts. The contracts of TOC and TEL limits dedication of reserves to the base of defined producing formations, limited dedications to 75 percent of the reserves in those dedicated depths for a limited term of 10 years.

The issues of limitations in the contracts of TOC and TEL therefore are identical to the issues in *Getty Oil Company, et al.*, Docket No. CI75-319, *et al.*, order issued June 3, 1975. On July 24, 1975, the Commission denied rehearing of the CACG Group in Docket Nos. CI75-319, *et al.* In order for the offshore pipeline construction to proceed, the Commission issued a conditioned certificate to Tennessee and the other pipelines involved by order issued July 18, 1975, in *Texas Eastern Transmission Corporation, et al.*, Docket No. CP63-177, *et al.* The Commission has been advised that TOC and TEL filed on August 21, 1975, their acceptance of the temporary certificates issued to them on July 24, 1975.

TOC and TEL argue that:

> Tenneco Oil and Tenneco Exploration believes the law to be clear that the Commission has no statutory authority to compel a producer to seek a certificate to sell gas or to dedicate gas reserves [citations omitted]. More specifically, these cases make clear that the Commission has no direct authority under the Act to order a gas producer to produce gas from dedicated reserves. *Skelly Oil Co.* v. *FPC*, 375 F. 2d 6 (10th Cir. 1967).

On July 24, 1975, in *Getty Oil Company, et al.*, Docket No. CI75-319, *et al.*,

[1] The orders issuing temporary certificates and consolidating the applications for hearing are not final orders of the Commission; therefore, the applications for rehearing will be treated as petitions for reconsideration.

the Commission denied rehearing of these identical arguments of TEL and TOC which were set forth by the CAGC group and were rejected by the Commission. For those reasons the Commission will deny the TOC and TEL's petition for reconsideration. The *Skelley* case cited by petitioners here in any event contains no such ruling. Furthermore, the Supreme Court in the *Permian Basin Area Rate Cases*, 390 U.S. 747 overturned the Tenth Circuit decision when it affirmed the Commission's decision in *Permian I*, 34 FPC 159 (1965). The Commission's statutory authority to condition producer certificates is summarized in the ruling of the Supreme Court in *Sunray Mid-Continent Oil Co.* v. *FPC*, 364 U.S. 137, 155–56, (1960):

> Petitioner now urges an application of that decision [*United Gas Pipe Line Co.* v. *Mobile Gas Service Corp.*, 350 U.S. 332] that could make private contracts the only stabilizing factor under the Act. Not only does this reading have nothing to do with the integrity of private contracts which *Mobile* underwrote, but it makes a severe incursion into the sources of that stability of natural gas prices and supply to which that decision gave confirmation. Our consideration of this, as well as the rest of petitioner's arguments, leads us to reiterate our holding the clear implication of what we recently said in CATCO: An initial application of an independent producer to make movements of natural gas in interstate commerce leads to a certificate of public convenience and necessity under which the Commission controls the basis on which gas may be initially dedicated to interstate use.

Upon completion of the hearing and receipt of evidence on natural gas supply, the Commission will make the final determination of "the basis on which gas may be initially dedicated to interstate use."

In the alternative, TOC and TEL request severance of their applications because Tenneco Oil Company has proposed in Docket No. CI75–466 that reserves from Eugene Blocks 342 and 343 and East Cameron Block 281 be used to correct the imbalance of deliveries by TOC to Tennessee Gas Pipeline Company. The issue in Docket No. CI75–466, order to show cause issued February 7, 1975, and order clarifying order to show cause issued March 24, 1975, required "Tenneco and Tennessee [Gas Pipeline Company] to show cause why Tenneco should not immediately pay back to Tennessee an imbalance of 12,552,488 Mcf" which Tennessee had delivered without FPC authorization to Creole Gas Pipeline for the account of Tenneco to be used by TOC refinery and Air Products. The order of February 7, 1975, contains no reference by TOC to Eugene Island Blocks 342–343 and East Cameron Block 281.

On July 31, 1975, an initial decision was issued in Docket No. CI75–466 and briefs have been filed on exceptions. The ALJ there noted that TOC referred to East Cameron Block 281 (p. 13 of initial decision) as part of an "unsatisfactory" proposal filed with his office on July 21 (p. 12 of initial decision). The ALJ noted that (p. 13, footnote 2) "in any event, it is difficult to determine from the confused, confusing and reluctant testimony of Tenneco's witness precisely what, and to what extent, reserves could be made available for repayment. (See e.g., Tr. 255–301)."

Gas sales contract limitations are not an issue in Docket No. CI75–466. TOC and TEL's motion herein for severance is not, therefore, well taken and will be denied.

Petitions to intervene have been filed by the following parties:

Shell Oil Company, Marathon Oil Company, Cabot Corporation, Tennessee Gas Pipeline Company, Associated Gas Distributors, Air Products and Chemicals Inc.

The Comission finds.—(1) Texaco Inc. is a "natural-gas company" within the meaning of the Natural Gas Act as heretofore found by the Commission.

(2) Participation by petitioners to intervene may be in the public interest in the proceedings in which they have filed petitions.

The Commission orders.—(A) Based upon the allegations presented in the requests for temporary certificates and upon the need for additional natural gas supplies, the Commission finds that an emergency exists and a temporary certificate is hereby issued to Applicant in Docket No. CI76–74 pursuant to Section 7 of the Natural Gas Act authorizing the sale by Applicant of natural gas in interstate commerce for resale for ultimate public consumption, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, subject to Opinion No. 699, as amended, and any further orders issued thereunder, conditioned to the lesser of the contract rates or the national base rate of 51.0 cents per Mcf (14.73 psia), subject to upward and downward Btu adjustment from a base of 1,000 Btu per cubic foot, plus a 0.5 cent per Mcf gathering allowance.

(B) Applicant's acceptance or rejection of the temporary certificate shall be filed within 30 days of the date hereof. If accepted, the temporary certificates shall be effective upon the date of receipt of the acceptance by the Secretary. Service under the temporary certificate shall commence within 30 days from the date of completion of the facilities by the purchaser or transporter. Such service may not be discontinued without permission of the Commission issued pursuant to the provisions of Section 7(b) of the Natural Gas Act whether the contract term has expired or not. The issuance of temporary certificates and the acceptance of the rate schedule are without prejudice to such final disposition of the application for certificate as the record may require.

(C) The proceeding in Docket Nos. CI76–74 is hereby consolidated for hearing and decision with the proceedings in *Getty Oil Co., et al.*, Docket No. CI75–319, *et al.*

(D) Section 154.93(b–1) of the Commission's Regulations is waived to permit the inclusion in the rate schedule of Applicant granted temporary certificate in paragraph (A) above of the contract provision for rate increases to higher area rate found to be proper by hearing, rulemaking, or a Commission approved settlement, and reimbursement by buyer of any excess royalty payment shall not be construed as meaning that any rate increase based on such pricing provision will be accepted for filing without suspension.

(E) The rate schedule related to the authorization granted herein is accepted for filing to become effective on the date of initial delivery. Applicant shall advise the Commission of said date within 10 days thereof.

The rate schedule has been designated as follows:

Description	*Designation*
Contract 7/14/1975	Texaco Inc., Gas Rate Schedule No. 521

(F) Acceptance of the rate schedule of Applicant in Docket No. CI76–74 does not constitute Commission approval of the contractual reservations or limitations involved pending resolution of the matter on the merits after hearing and decision.

(G) Appropriate authorization from the Commission is required by any pipeline to transport any gas which the producers may be permitted to reserve.

(H) Petitioners to intervene are permitted to intervene in the proceedings in which they have filed petitions to intervene subject to the rules and regulations of the Commission; *Provided, however*, that participation by such interveners shall be limited to matters, affecting asserted rights and interest as specifically set forth in the petitions to intervene; and, *Provided, further*, that the admission of such interveners shall not be construed as recognition by the Commission that they might be aggrieved, because of any order of the Commission entered in these proceedings.

(I) Applicant Texaco shall present as part of its prepared evidence, supporting data to show the volumes of natural gas to be produced and sold during the term of its contract from contractually specified formations in each Block; the estimated gross and net total recoverable natural gas reserves in each formation in each Block; the estimated gross and net recoverable natural gas reserves commercially producible from the surface to the limit of the well bore in each Block, and deliverability schedules relating to each of the three reserves estimates called for above. Texaco may adopt, if desired, the presentation of evidence on this matter by TOC relating to Block 281 Field.

(J) Pursuant to the authority of the Natural Gas Act, particularly Sections 7 and 15 thereof, the Commission's Rules of Practice and Procedure, and the Regulations under the Natural Gas Act (18 CFR Chapter 1), a public hearing shall be held commencing November 18, 1975, at 10:00 a.m. (EDT) in a hearing room of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, concerning the matters in Docket No. CI76–74.

(K) On or before October 27, 1975, Applicant, Texaco, and all persons in

support of the applicant shall each file their prepared testimony and exhibits comprising their case-in-chief upon all parties to this proceeding, the Office of Administrative Law Judges, Commission Staff and all parties to the consolidated proceeding in Docket Nos. CI75–319, *et al.*

(L) The joint petition for rehearing and severance of Tenneco Oil Company and Tenneco Exploration filed August 25, 1975, is denied.

By the Commission.

Commissioner Smith, in *concurring* with the issuance of this order, does not endorse the Commission's conclusions on the extent of its authority to require unconditional sales contracts by the producers, for the reasons set out in his dissenting statements to *Getty Oil Company, et al.*, Docket No. CI75–319, *et al.*, issued June 3, 1975, and *Marathon Oil Company, et al.*, Docket No. CI75–641, *et al.*, issued July 24, 1975.

[Docket No. CI76–148]

LONE STAR PRODUCING CO.

Notice of Application

SEPTEMBER 23, 1975.

Take notice that on September 11, 1975, Lone Star Producing Company (Applicant), 301 South Harwood Street, Dallas, Texas 75201, filed in Docket No. CI76–148 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and deliver of natural gas in interstate commerce from its interest in three wells in Hansford County, Texas, to Natural Gas Pipeline Company of America (Natural), all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant proposes to sell to Natural gas from the following sources:

(1) 20.51 percent of 8/8 of the estimated quantity proven, developed and economically recoverable natural gas owned by and established through the exploration activities of Applicant on the date of first delivery of gas by Applicant to Natural attributable to the Lackey Unit #1, Well #1 and underlying the lands and leases described in the contract but limited to the subsurface interval from 7,050 feet and 7,074 feet at no other interval, and excluding, without limitation, royalty interests, overriding royalty interests, production payments, and similar interest not owned exclusively by Applicant.

(2) 20.51 percent of 8/8 of the estimated quantity of proven, developed and economically recoverable natural gas owned by and established through the exploration activities of Applicant on the date of first delivery of gas by Applicant to Pipeline attributable to the Lackey Unit #2, Well #1 and underlying the lands and leases described in the contract but limited to the subsurface interval from 6,988 feet to 7,008 feet and at no other interval, excluding, without limitation, royalty interest, overriding royalty interests, production payments, and similar interests not owned exclusively by Applicant.

(3) 20.51 percent of 8/8 of the estimated quantity of proven, developed and economically recoverable natural gas owned by and established through the exploration activities of Applicant on the date of first delivery of gas by Applicant to Pipeline attributable to the Lackey Unit #3, Well #1–U and underlying the lands and leases described in the contract but limited to the subsurface interval from 6,838 feet to 3,848 feet and at no other interval excluding, without limitation, royalty interests, overriding royalty interests, production payments, and similar interests not owned exclusively by Applicant.

(4) 20.51 percent of 8/8 of the estimated quantity of proven, developed and economically recoverable natural gas owned by and established through the exploration activities of Applicant on the date of first delivery of gas by Applicant to Pipeline attributable to the Lackey Unit #3, Well #1–L and underlying the lands and leases of the contract, but limited to the subsurface interval from 7,004 feet to 7,014 feet and at no other intervals, excluding, without limitation, royalty interests, overriding royalty interests, production payments and similar interests not owned exclusively by Applicant.

Applicant proposes to sell gas at an initial rate of 54.84 cents per Mcf at 14.65 psia, including 4.11 cents per Mcf tax reimbursement and subject to upward and downward Btu adjustment.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 14, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

IOWA PUBLIC SERVICE CO.

Notice of Application

SEPTEMBER 24, 1975.

Take notice that on August 29, 1975, Iowa Public Service Company (Applicant), filed an application pursuant to Section 204 of the Federal Power Act seeking authorization to issue up to 25,000 additional shares of its presently authorized common stock, par value $5 per share. The stock will be issued in 1975 and early 1976 pursuant to Applicant's Employee and Stockholder Dividend Reinvestment and Stock Purchase Plan.

Applicant is incorporated under the laws of the State of Iowa, with its principal business at Sioux City, Iowa and is engaged in the generation, transmission, distribution and sale of electrical energy in the states of Iowa, Nebraska and South Dakota.

The new stock will be offered to all registered holders of the company's shares of common and/or preferred stock and to most full time employees of the company pursuant to a voluntary plan whereby participants may elect to invest their regular cash dividends and/or optional cash payments in the company's common stock. The purchase price of the new stock will be the average of the high and low sales prices on the New York Stock Exchange on the investment date (or the next preceding day on which the New York Stock Exchange is open, if it is closed on the investment date). No shares will be sold under the Plan at less than the par value of such shares.

The net proceeds from the sale of the New Stock will be used to reduce short-term loans incurred and to be incurred prior to the sales of the New Stock to secure funds for construction purposes and to meet expenditures for the construction program.

Any person desiring to be heard or to make any protest with reference to such application should, on or before October 14, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons desiring to become parties to a proceeding or to participate as a party in any hearing therein must file peti-

tions to intervene in accordance with the Commission's Rules. The application is on file with the Commission and available for public inspection.

[Docket No. CP74-213]

MICHIGAN WISCONSIN PIPE LINE CO.

Notice of Petition To Amend

SEPTEMBER 22, 1975.

Take notice that on September 10, 1975, Michigan Wisconsin Pipe Line Company (Petitioner), One Woodward Avenue, Detroit, Michigan 48226, filed in Docket No. CP74-213 a petition to amend the order of the Commission of September 6, 1974, issuing a certificate of public convenience and necessity pursuant to Section 7(c) of the Natural Gas Act to authorize the installation and operation of a 12,050 horsepower compressor at Great Lakes Gas Transmission Company's (Great Lakes) Crystal Falls Compressor Station No. 8 in lieu of a 7,500 horsepower compressor, all as more fully set forth in the petition to amend on file with the Commission and open to public inspection.

Petitioner states that by the order of the Commission of September 6, 1974 (52 FPC —), it is authorized to install a 7,500 horsepower compressor unit at Great Lakes' compressor station No. 8 near Crystal Falls, Michigan. Petitioner states that it received a bid from a manufacturer for a compressor unit predicated on a full rating of 12,050 horsepower but having a capability of being downrated to 7,500 horsepower. The cost of the 12,050 horsepower unit is said to be approximately $200,000 more than the cost of the 7,500 horsepower unit. The additional 7,500 horsepower compressor is said to be required to accommodate the transportation of additional volumes of gas to be exchanged by Petitioner and Great Lakes. Petitioner states that the 12,050 horsepower unit would further afford protection against lower than normal delivery pressure to Petitioner from Great Lakes. The petition states that the compressor would be operated at its full ratings only when there is inadequate line pressure, since the operation at 7,500 horsepower is more favorable under normal winter operating conditions than when fully loaded.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before October 14, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

[Docket Nos. RP73-14, RP73-102, PGA 75-3 and AP75-3]

MICHIGAN WISCONSIN PIPE LINE CO.

Order Cancelling Hearing

SEPTEMBER 22, 1975.

On March 13, 1975 Michigan Wisconsin Pipe Line Company (Company) tendered for filing a revision to tariff[1] to reflect, *inter alia*, approximately $2 million in advance payments[2] made in the lower 48 states. By order issued April 30, 1975 the Commission ordered a hearing to determine whether those advances conformed to Commission standards.

On August 20, 1975 the Company filed a motion to cancel the hearings ordered on the advance payments issue. In support of its motion, the Company states that it has presented prepared testimony of Mr. Jack J. Jamison which supported the inclusion of the advance payments in the Company's rate base. Further, by letter dated August 5, 1975, Staff Counsel informed the Chief Presiding Administrative Law Judge that Staff did not intend to file evidence at the hearing because

[B]ased on comprehensive analysis of the advances under investigation the Staff has found that any adjustments Staff would make to [the Company's] rate increase application at this docket would be so minor as to have virtually no effect upon the company's rates and charges.

The other parties to the proceeding have indicated no opposition to the payments.[3]

The Commission may not rely solely on the conclusory statement of its Staff in approving a rate increase. However, there is evidence in the record which supports the propriety of the advance payments and the Commission shall rely on that evidence.

This order shall be without prejudice to the rights of any party to challenge any amount advanced by Michigan Wisconsin but not expended by the producer in rate filings made pursuant to Article IV of the Stipulation and Agreement approved by order issued February 19, 1974 in Docket No. RP73-102 or in any future rate increase filed pursuant to Section 4 of the Natural Gas Act.

The Commission finds:

Good cause exists to cancel the hearing on the issue of the propriety of the advance payments listed in Appendix A and approve that portion of the Company's rate increase which reflects those advance payments.

The Commission orders:

(A) The hearing on the propriety of the advance payments listed in Appendix A is hereby cancelled.

(B) That portion of the rate increase filed by the Company on March 13, 1975 which is based upon the inclusion in rate base of the advance payments listed in Appendix A is hereby approved.

(C) This order is without prejudice to the rights of any party to challenge any amounts advanced by Michigan Wisconsin but not expended by the producer in rate filings made pursuant to Article IV of the Stipulation and Agreement approved by order issued February 19, 197e in Docket No. RP73-102 or in any future rate increase filed pursuant to Section 4 of the Natural Gas Act.

(D) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

MOUNTAIN FUEL SUPPLY CO. AND PHILLIPS PETROLEUM CO.

Order Granting Certificate, Establishing Show Cause Procedural Dates and Fixing Date for Formal Hearing

SEPTEMBER 22, 1975.

On October 30, 1974, Mountain Fuel Supply Company (Mountain Fuel) filed in Docket No. CP75-131 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the continued operation of certain facilities in Uinta County, Wyoming, and the transportation of natural gas by means thereof; the sale of gas to Phillips Petroleum Company (Phillips) for use in its pressure maintenance project in its Bridger Lake (Oil) Field, Summit County, Utah, such gas to be sold by Phillips back to Mountain Fuel at a later date; and the continuation of Mountain Fuel's storage arrangement in the Bridger Lake Field with Phillips. Such application was filed in response to a Commission order of July 22, 1974, in Docket No. CP73-213 directing Mountain Fuel to show cause why it should not seek certificate authority as to its facilities connected with the Bridger Lake Field storage project and why its previous actions with regard to Bridger Lake were not in violation of the Natural Gas Act.

Mountain Fuel requests authorization for the operation of approximately 24.2 miles of 10 inch transmission line with appurtenant facilities in Uinta County, Wyoming, from its main transmission line southward to the Wyoming-Utah border near the Bridger Lake Field in Summit County, Utah. This pipeline was placed into operation on December 10, 1969, without Commission authorization and has been used to sell on an interruptible basis up to 15,000 Mcf of gas daily to Phillips for use in its Bridger Lake pressure maintenanc project pursuant to a gas sales contract dated July 31, 1969, as amended. Phillips is required to pay Mountain Fuel a charge of 41 cents per Mcf (15.025 psia) for the gas so sold. Under the terms of this contract, Phillips agreed upon completion or termination of its gas injection program, to sell back to Mountain Fuel the natural gas previously injected. Pursuant to this contract the following volumes have been sold to Phillips: [1]

	Mcf
1971	3,193,719
1972	1,654,206
1973	2,099,173
1974 (Actual & Estimated)	2,513,303

The subject pipeline has also been used to effectuate a storage agreement with Phillips whereby Mountain Fuel delivers gas volumes in excess of its committed sales volumes to Phillips at its Bridger Lake compressor facilities for injection into the field and later withdrawal at Phillips Fork "A" No. 5 well, except that during certain periods casinghead gas produced from other wells may be delivered to Mountain Fuel and accounted for as though delivered from said well. For all gas withdrawn Mountain Fuel is required to pay Phillips a charge of 10.0 cents per Mcf. Withdrawals beyond 10,000 Mcf per day are not permitted and if the required pressure for injection exceeds 5,500 psig, Phillips is not required to accept gas. Besides the said pipeline, a metering station, dehydrator and heater, and 425 feet of 4-inch lateral line located in the Bridger Lake field were constructed in order to effectuate the storage arrangement.[2]

Mountain Fuel proposes to use this storage service in order to add supply flexibility to its system in meeting peak day requirements. Gas accumulated in Mountain Fuel's storage account may also be used to satisfy Phillip's nominations under the July 31, 1969, interruptible sales contract.

Cost of the subject pipeline was $667,707 of which Phillips reimbursed Mountain Fuel for $445,118. Originally Phillips was to pay for the entire cost but it was relieved of this by a March 6, 1974, amendment of the July 31, 1969, contract wherein the rate for the subject sale of gas was increased from an initial rate of 19.0 cents per Mcf at 15.025 psia, with .5 cent per Mcf escalations every two years thereafter, to 40.0 cents per Mcf with 1.0 cent per Mcf annual escalations. The cost of the lateral line, measurement station and dehydrator and heater within the Bridger Lake Field was $42,198.

The subject pipeline was constructed on an existing right of way previously acquired by Phillips for an oil pipeline. The pipeline traverses 5.3 miles of the Wasatch National Forest and its construction therein was in accordance with the requirements of the U.S. Forest Service. The Commission finds approval of the subject proposal would not be a major federal action significantly affecting the environment.

Pursuant to our order of July 22, 1974, in Docket No. CP73-213, heretofore mentioned, Mountain Fuel was ordered to show cause why its actions in constructing and operating various facilities in relation to the Bridger Lake storage field were not in violation of Section 7 of the Natural Gas Act. By our order of August 20, 1975, in Docket No. CP73-213, although we found that Mountain Fuel's facilities involved with Bridger Lake were jurisdictional, we transferred the violation issue therein to this docket. Since the issuance of our July 22, 1974, order, with the filing of the subject application, new information has come forward which warrants the expansion of this violation issue involving Mountain Fuel and the initiation of a similar show cause proceeding against Phillips for its actions.

Specifically, we direct Mountain Fuel to show cause why it should not be found in violation of Sections 7 and 4 of the Natural Gas Act for:

(1) Constructing and operating the 24.2 mile 10-inch transmission pipeline and appurtenant facilities, and selling gas to Phillips for resale, without Commission authorization [Section 7(c)].

(2) Constructing and operating facilities related to the Bridger Lake storage service without Commission authorization [Section 7(c)].

(3) Implementing its part of the Bridger Lake storage agreement without Commission authorization [Section 7(c)].

(4) Selling gas for resale to Phillips without a filed tariff and changing the rate to Phillips without proper filings (Section 4).

As regards Phillips Petroleum Company, since it appears that Phillips is providing storage service to Mountain Fuel and charging a specific rate for such service, herein we require Phillips to show cause in the assigned Docket No. CP76-94 why:

(a) It should not file a certificate application pursuant to Section 7(c) for the continued operation of facilities in the Bridger Lake field and to provide storage service for Mountain Fuel;

(b) It should not file a tariff pursuant to Section 4 of the Natural Gas Act to cover such storage service; and

(c) It should not be found in violation of the Act for (i) operating storage facilities in the Bridger Lake field without Commission authorization [Section 7(c)], (ii) implementing its part of the storage arrangement with Mountin Fuel without Commission authorization [Section 7(c)], and (iii) providing the storage service without a filed FPC tariff (Section 4).

We direct both Mountain Fuel and Phillips to show cause why punitive action should not be taken against them with respect to any violations which might be found in this proceeding.

Finally, we remind Mountain Fuel that by our order of August 20, 1975, we have ordered it to show cause in this docket why punitive action pursuant to Section 21 of the Natural Gas Act should not be taken with reference to the violation found in Docket No. CP73-213 for constructing and operating its Chalk Creek storage project since 1960 without Commission authorization.

Because of the seriousness of the show cause matters herein, we believe it is appropriate that an evidentiary record be developed so as to aid our decision making. All parties are hereby warned that failure to address themselves to show cause issues raised herein could result in an adverse decision to them. Mere general denials of the subject order unsupported by specific facts upon which Mountain Fuel and Phillips rely will not be considered as complying with this order.[3]

After due notice by publication in the FEDERAL REGISTER no petitions to intervene, protests or notices of intervention have been filed in Docket No. CP75-131.

[1] Mountain Fuel projects for 1975 sales of 1,250,000 Mcf at 14.73 psia.

[2] These facilities are used solely for withdrawal purposes.

The Commission finds:

(1) Mountain Fuel Supply Company is a "natural gas company" within the meaning of the Natural Gas Act as heretofore found by the Commission.

(2) The facilities hereinbefore described as more fully described in Docket No. CP75–131, are to be used in the transportation, storage and sale of natural gas in interstate commerce for resale subject to the jurisdiction of the Commission, and the continued operation of such facilities and the proposed transportation of natural gas by Applicant are subject to the requirements of subsections (c) and (e) of Section 7 of the Natural Gas Act.

(3) Applicant is able and willing presently to do the acts and to perform the service proposed and to conform to the provisions of the Natural Gas Act and the requirements, rules and regulations of the Commission thereunder.

(4) The sale of gas by Mountain Fuel together with the operation of facilities and the transportation of gas for both storage and sale purposes are required by the public convenience and necessity and a certificate therefor should be issued as hereinafter ordered and conditioned.

(5) It may be that Mountain Fuel and Phillips are in violation of Section 7 and 4 of the Natural Gas Act as hereinbefore described.

(6) There exist common questions of law and fact which warrant the consolidation of Docket Nos. CP75–131 and CP 76–94 for hearing and disposition.

(7) It is necessary and appropriate that the issues discussed herein should be set for formal hearing.

The Commission orders:

(A) Mountain Fuel shall show cause, if any there be, why it should not be held in violation of Sections 7 and 4 of the Natural Gas Act for its actions involving the Bridger Lake sale and storage project with Phillips as hereinbefore described and why any punitive action should not be taken with respect to its action involving Bridger Lake and for its actions with regard to the violation found in Docket No. CP73–213.

(B) Phillips Petroleum Company shall show cause in Docket No. CP76–94, if any there be, why it should not make Section 7 and 4 filings for its storage operations and facilities in the Bridger Lake field, why it should not be found in violations why it should not be found in violation of the Natural Gas Act for its Bridger Lake storage operations and why punitive action should not be taken for any violations found, as hereinbefore described.

(C) Pursuant to the provisions of the Natural Gas Act, Docket Nos. CP75–131 and CP76–94 are consolidated for disposition and a formal hearing shall be convened in Docket Nos. CP75–131 and CP76–94, in a hearing room of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426 on November 12, 1975, at 10 a.m. (EDT). The Presiding Administrative Law Judge for the purpose—See Delegation of Authority 18 CFR 3.5(d)—shall preside at the hearing in this proceeding and shall prescribe relevant procedural matters not herein provided.

(D) The direct case of Mountain Fuel and Phillips Petroleum Company as to all issues raised herein shall be filed and served on all parties of record including the Commission Staff on or before October 22, 1975.

(E) A certificate of public convenience and necessity is issued authorizing Mountain Fuel to retain in place and to continue to operate the facilities described in Docket No. CP75–131 to make the subject sale of gas to Phillips for resale as hereinbefore described.

(F) The facilities and sale authorized in paragraph (E) above are conditioned upon Mountain Fuel complying with all applicable Commission rules and regulations particularly Section 157.20 (a), (e), and (f) and Part 154 of the Commission's regulations.

(G) A ate of public convenience na

(G) A certificate of public convenience and necessity is issued to Mountain Fuel in Docket No. CP75–131 to retain in place and to operate the facilities necessary for and to implement the storage service by Phillips in the Bridger Lake field, as hereinbefore described, conditioned upon Phillips making appropriate filings to implement its part of the storage arrangement within 60 days from the date any such filings are found to be required by the Natural Gas Act, and also upon Commission approval thereof.

(H) Any person desiring to be heard in the expanded consolidated proceeding should on or before October 14, 1975, file with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426 a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to this proceeding must file a petition to intervene in accordance with the Commission's Rules.

By the Commission.

[Docket No. CP76–81]

NATURAL GAS PIPELINE COMPANY OF AMERICA

Notice of Application

SEPTEMBER 19, 1975.

Take notice that on September 10, 1975, Natural Gas Pipeline Company of America (Applicant), 122 South Michigan Avenue, Chicago, Illinois 60603, filed in Docket No. CP76–81 an application pursuant to Section 7 of the Natural Gas Act and Section 157.7(g) of the Regulations thereunder (18 CFR 157.7(g)) for a certificate of public convenience and necessity authorizing the construction and for permission and approval to abandon, for a twelve-month period commencing October 1, 1975, and the operation of field gas compression and related metering and appurtenant facilities, all as more fully set forth in the application on file with the Commission and open to public inspection.

The stated purpose of this budget-type application is to augment Applicant's ability to act with reasonable dispatch in the construction and abandonment of facilities which will not result in changing Applicant's system salable capacity or service from that authorized prior to the filing of the instant application.

Applicant states that the total cost of the proposed construction and abandonment would not exceed $3,000,000, nor would the cost of any single project exceed $500,000. Applicant states further that these costs would be financed from funds on hand.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 9, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[Docket Nos. CP76-83 and CP76-84]

NORTHERN STATES POWER CO.

Notice of Applications

SEPTEMBER 22, 1975.

Take notice that on September 11, 1975, Northern States Power Company (Wisconsin) (Applicant), 100 North Barstow Street, Eau Claire, Wisconsin 54701, filed in Docket No. CP76-83 pursuant to Section 7(c) of the Natural Gas Act an application for approval of the construction of the liquefied natural gas (LNG) peak shaving plant in Eau Claire County, Wisconsin, and for a certificate of public convenience and necessity authorizing the continued operation of such LNG facilities, in the alternative to Applicant's answer to the Commission's order to show cause[1] in which answer Applicant asserts that such approval and authorization are unnecessary. Take further notice that, concurrently, Applicant filed an application in Docket No. CP76-84 pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale of LNG to Wisconsin Gas Company (Wisconsin Gas). Applicant's proposals are more fully set forth in its applications which are on file with the Commission and are open to public inspection.

Applicant states that it completed construction of the Eau Claire LNG facilities in 1969 under the authorization of the Public Service Commission of Wisconsin (PSCW). Applicant alleges that at the time authorization for the LNG facilities was sought no interstate sales of LNG were contemplated. By order issued July 12, 1972, in Docket No. CP72-201 the Commission authorized the transportation and sale of LNG in interstate commerce by Applicant to its parent corporation Northern States Power Company (Minnesota). Subsequently, by order issued June 23, 1975, the Commission directed Applicant to show cause why its construction and operation of the subject LNG facilities without Commission authorization are not in violation of the Natural Gas Act.

[1] Order Issued June 23, 1975, in *Wisconsin Gas Co., et al.* Docket No. CP75-155, *et al.*

In response thereto Applicant has filed, concurrently herewith, its answer to the order to show cause. In its answer Applicant asserts that since the Eau Claire facilities were constructed under the authorization of and are fully regulated by PSCW, Commission jurisdiction over such facilities would overlap and interfere with PSCW's supervision. Should the Commission reject this approach, Applicant, in the alternative, seeks Commission approval of the Eau Claire facility, the construction of which has already been certificated by PSCW. Applicant claims that the fact that construction of the subject facilities has already been completed makes a request for construction authorization a pointless exercise.

In Docket No. CP76-83 Applicant requests approval of the construction of the LNG peak-shaving facilities and authority to continue to operate such facilities for the sale of LNG in interstate commerce as authorized by the Commission. Applicant states that the plant has been designed to liquefy natural gas at a rate of 1,940 Mcf per day for storage in a holding tank having a net capacity of 270,000 Mcf of equivalent natural gas (78,000 bbl.). The vaporization and send-out design rate will be 24,000 Mcf of vaporous gas per day. Applicant states that such facilities are required to meet the wintertime peak requirements of the high priority (i.e., residential and small volume commercial/industrial) consumers served by its system.

The cost of the LNG facilities is stated to have been $2,420,314, which sum was paid out of the general corporate funds of Applicant.

By its application in Docket No. CP76-84 Applicant requests authorization to implement the terms of a sale and exchange agreement, dated July 16, 1973, and its addendum, with Wisconsin Gas. The agreement provides for Applicant to deliver certain quantities of LNG to Wisconsin Gas at Applicant's Eau Claire plant, which LNG would then be transported by Wisconsin Gas in cryogenic trucks. In exchange, Wisconsin Gas would arrange to have delivered to Applicant twice the equivalent volume of LNG delivered to Wisconsin Gas by Applicant. To meet its make-up gas obligation Wisconsin Gas would limit its receipt of its gas entitlement from Michigan Wisconsin Pipe Line Company (Mich Wis). In turn, Mich Wis would limit its receipt of its gas entitlement from Midwestern Gas Transmission Company (Midwestern); and Midwestern would deliver the make-up gas to Applicant at an existing delivery point in Cass County, North Dakota. Applicant states that the LNG obtained by Wisconsin Gas would be used to serve high priority markets in those communities in western Wisconsin where Wisconsin Gas is served by Northern Natural Gas Company.

Applicant states that the schedule of quantities of LNG which would be delivered by it to Wisconsin Gas is as follows:

Year	Commence	Terminate	Annual LNG requirements in 1,000 ft³ equivalent of vaporous gas	Probable site of LNG vaporizing plant(s)	Maximum daily payback obligation (1,000 ft³)
1973-74	Dec. 1, 1973	Mar. 31, 1974	10,000	Black River Falls	2,000
1974-75	Sept. 1, 1974	Mar. 31, 1975	25,000	Rice Lake	2,000
1975-76	Sept. 1, 1975	Mar. 31, 1976	40,000	Richland Center	3,000
1976-77	Sept. 1, 1976	Mar. 31, 1977	60,000	None additional	4,000

1979-80	Sept. 1, 1979	Mar. 31, 1980	75,000	do	5,000
1980-81	Sept. 1, 1980	Mar. 31, 1981	75,000	do	5,000
1981-82	Sept. 1, 1981	Mar. 31, 1982	75,000	do	5,000
1982-83	Sept. 1, 1982	Mar. 31, 1983	75,000	do	5,000

Any person desiring to be heard or to make any protest with reference to said applications should on or before October 14, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceedings. Any person wishing to become a party to either proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, hearings will be held without further notice before the Commission on these applications if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificates is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that formal hearings are required, further notice of such hearings will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearings.

PUBLIC SERVICE COMPANY OF INDIANA

Notice of New Delivery Point

SEPTEMBER 2, 1975.

Take notice that on September 11, 1975, Public Service Company of Indiana tendered for filing an agreement dated July 9, 1975, with the City of Logansport, Indiana for the supply of the total electrical requirements of an industrial customer to be served by the City of Logansport at a delivery point not included in the Interconnection Agreement between the above two parties designated as Rate Schedule FPC No. 223.

Service to the City of Logansport commenced on May 20, 1975, based on the tariff filed with the Commission on January 8, 1974, in Docket No. E-8587 which went into effect on October 15, 1974, subject to refund based on the final order of the Commission in such Docket.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 3, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. ER76-20]

SUPERIOR WATER, LIGHT AND POWER COMPANY

Order Denying Motion for Reconsideration

SEPTEMBER 23, 1975.

On August 25, 1975, Superior Water, Light and Power Company (Superior or Company) filed an application for rehearing of Commission Order dated August 21, 1975, in the above-entitled proceeding.[1]

The August 21, 1975, Order provided, *inter alia*, for acceptance of Superior's proposed rate increase and suspension for five months with the use thereof deferred until January 22, 1976, subject to refund, pending the outcome of the consolidated hearing of this case with Docket Nos. E-9499 and E-9502 involving its

parent company, Minnesota Power and Light Company (MP&L).

Superior in its application for rehearing states that its filing was consolidated in the Order of August 21, 1975, with Docket Nos. E-9499 and E-9502 involving MP&L because "the major portion of the proposed rate increase of Superior in the instant submittal is intended to track the recent rate increase filing of its parent Company MP&L in Docket No. E-9502," and Superior's rate increase filing, therefore, "will involve matters similar" to those currently pending in MP&L's June, 1975 rate application.

Superior points to the fact that on July 18, 1975, the Commission suspended the effectiveness of MP&L's rate increase as it applies to Superior for a period of 30 days until August 18, 1975; while on August 21, 1975, the Commission suspended the effectiveness of Superior's increase for the full statutory period of 5 months until January 22, 1976. Superior states that because its need is based largely on the cost of purchased power from MP&L, its rate increase should be given an effective date more in line with the effective date given to MP&L's rate filing, and to do otherwise will place the Company in a serious financial condition. Superior also argues for a shortened suspension period based upon its allegation that it is in serious financial trouble at this time, citing, among other things, that its rate-of-return on common equity declined from a 1973 level of 7.5% to .81% causing Superior to postpone a planned issue of first mortgage bonds totaling $3,500,000.

We do not find Superior's arguments in support of a shortened suspension period to be persuasive. We have reviewed all of the pertinent cost and revenue data contained in Superior's rate filing as well as the arguments contained in Superior's August 25, 1975, pleading and have, upon reconsideration, found the five month suspension ordered in our August 21, 1975, order to be appropriate. Accordingly, we shall deny Superior's August 25, 1975, motion for reconsideration of our August 21, 1975, order in this proceeding.

The Commission finds:

Superior's motion for reconsideration should be denied.

The Commission orders:

(A) Superior's August 25, 1975, motion for reconsideration of the Commission's August 21, 1975, order is hereby denied.

(B) The Secretary shall cause prompt publication of this order to be made in the Federal Register.

By the Commission.

[FR Doc.75-26004 Filed 9-29-75;8:45 am]

[1] We shall treat Superior's pleading as a motion for reconsideration because applications for rehearing of suspension orders do not lie insofar as they relate, *inter alia*, to the length of the suspension ordered. *Municipal Light Boards of Reading and Wakefield, Mass. v. TRUNKLINE GAS CO.

Notice of Application

SEPTEMBER 22, 1975.

Take notice that on September 8, 1975, Trunkline Gas Company (Applicant), P.O. Box 1642, Houston, Texas 77001, filed in Docket No. CP76-78 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of natural gas for Transcontinental Gas Pipe Line Company (Transco) and Consolidated Gas Supply Corporation (Consolidated) from offshore to onshore Louisiana, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant requests in the instant application that it be authorized to transport up to 14,900 Mcf of gas per day from an existing interconnection between its pipeline and a gathering pipeline of Transco and Consolidated on a platform of Placid Oil Company in South Timbalier Block 179, offshore Louisiana, to a point of delivery to Transco for Transco's account and for the account of Consolidated downstream of Mobil Oil Corporation's Cow Island Processing Plant, Vermilion Parish, Louisiana. The gas transported would be transported through Shell Oil Corporation's existing Calumet Processing Plant along with the other volumes of Applicant's gas. Thermally equivalent volumes of gas would be delivered to or for the account of Transco and Consolidated less processing fuel and shrinkage and compressor fuel.

The cost of the proposed service is stated to consist of a monthly demand charge of $3.31 per Mcf for the 11,200 Mcf demand level of Transco and the 3,700 Mcf contract demand level of Consolidated. Such rate is said to be subject to increase or decrease by an amount equal to 10.88 cents per Mcf that Applicant transports in excess of the contract demand requirement or fails or is unable to take on any day.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 14, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[Notice 75-73]

NASA LIFE SCIENCES COMMITTEE

Meeting

The NASA Life Sciences Committee will meet on October 23-24, 1975, at the NASA Ames Research Center, Moffett Field, California 94035. The meeting will be held in Room B-39, Life Sciences Building Number 239 of the Ames Research Center, Moffett Field, California 94035. Members of the public will be admitted on a first come first served basis, up to the seating capacity of the room, which is about 80 persons.

The NASA Life Sciences Committee serves in an advisory capacity only. In this capacity it is concerned with man in relation to space travel and habitation, with exobiology, with other life forms, and including: physiology, behavior, clinical aerospace medicine, microbiology, radiobiology, biochemistry, nutrition and food technology, biology of gravity and rhythms, and biotechnology. The current Chairman is Dr. G. Donald Whedon. There are 18 members.

The following list sets forth the approved agenda and schedule for the October 23-24, 1975 meeting of the Life Sciences Committee. For further information, please contact Dr. Walton L. Jones: Area Code 202, 755-2342.

OCTOBER 23, 1975

Time	*Topic*
0900-0930	Administrative. (Purpose: Subjects being discussed will include topics such as final approval of previous committee minutes; report on results of Space Program Advisory Council meeting and activities.)
0930-0945	Skylab Follow-up Mineral Balance Bed Rest Study, status and discussion. (Purpose: To discuss status of plans for a Skylab follow-up mineral balance bed rest study to validate bed rest as an analogue to spaceflight.)
0945-1000	Review of Applications Committee Activities. (Purpose To inform the LSC of the Applications Committee meeting attended by the LSC liaison member.)
1000-1100	Review of Marine Mammal Tracking, Project BESMEX. (Purpose: To brief the committee on the nature and status of this joint animal tracking study of the Bering Sea area.)
1100-1130	Review of summer study on Molecular Biology. (Purpose: To brief the committee on the results of the summer study, Recombinant D&A Molecular Program and to discuss its relation to the potential mission of a Mars Return Sample.)
1300-1530	Viking Status Report; Planetary Biology and Planetary Quarantine Program Review. (Purpose: To give the committee an in depth briefing of the content of the program as well as plans and status of Mars Return Sample Studies, and to solicit comments and advice of the LSC members.)
1530-1630	Tour of Ames Exobiology Facilities.
1630-1700	Discussion (Purpose: To formulate position on issues discussed during the day.)
	OCTOBER 24, 1975
0800-0830	Status of U.S. Experiments to be flown on the 1975 Soviet Biological Satellite. (Purpose: To brief the committee on the status of this program.)
0830-0930	Review of the Sixth meeting of the U.S./U.S.S.R. Working Group on Space Biology and Medicine. (Purpose: To brief the committee on the discussions held at the sixth meeting of this working group and to solicit comments and advice of the LSC members.)
0930-1000	Life Sciences Announcement of Opportunity Returns. (Purpose: To inform the LSC of the analysis to date of the returns to the Life Sciences Planning Announcement and to solicit comment and advice of the LSC members on future courses of action.)
1000-1100	Human Factors in Aviation Safety. (Purpose: To brief the LSC on status and content of the Ames Aviation Safety Research program.)
1100-1200	Technology Utilization program at Ames and Stanford University. (Purpose: To brief the LSC on the status and content of the Biomedical Applications Team Activities and the Biomedical Applications Engineering Projects and to solicit comments and advice of the members.)
1200-1230	Discussion (Purpose: To formulate position on issues discussed during meeting.)

[Docket No. 50-3]

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.

Notice of Denial of Request for Variance

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has denied a request by Consolidated Edison Company of New York, Inc. (the licensee) for authorization to resume power operation of the Indian Point Nuclear Generating Station Unit 1 (the facility), located in Westchester County, New York.

The facility has been in a shutdown condition since October 31, 1974, which was the expiration date of a variance previously granted to the licensee from the requirements of the Commission Interim Acceptance Criteria for Emergency Core Cooling Systems for Light-Water Power Reactors (36 FR 12247; June 29, 1971). The unexpended energy in the facility's fuel would permit operation for an additional period of approximately four months; however, absent relief from certain rules and orders of the Commission, the facility cannot be operated. Further operation would require another variance from the requirements of the Interim Acceptance Criteria and an exemption from the containment testing requirements of 10 CFR Part 50, Appendix J. In addition, such operation would require extensions of time for compliance with two Commission orders, requiring, respectively, upgrading of the reactor protection system and an analysis of certain seismic and geologic considerations.

For the reasons set forth in a concurrently issued Safety Evaluation with Respect to Further Operation of Indian Point Unit No. 1, the Commission has concluded that the requested variance, exemption and extensions of time should be denied.

On February 4, 1975, the Commission published in the FEDERAL REGISTER (40 F.R. 5196) notice of receipt and consideration of the licensee's request for a variance from the Interim Acceptance Criteria. The notice indicated that the requested variance might also involve an exemption from Appendix J to 10 CFR Part 50. The notice also invited the submission of views and comments by any interested persons on the licensee's request.

Comments were received from Mr. Alfred S. Forsyth of Chappaqua, New York, in which he objected to any action that would dispense with the containment testing requirements of 10 CFR Part 50. No other comments were received within the time period specified in the Notice. However, submissions in the nature of comments on the proposed action were filed after the close of the comment period by the Yonkers Chamber of Commerce of Yonkers, New York, the Federal Energy Administration and the New York Public Service Commission. Each of these organizations stressed the savings of oil and/or the corresponding reduction in energy costs that would result from continued operation of the facility. None of these organizations addressed the health and safety considerations relevant to such operation. In addition, the licensee submitted, after the close of the comment period, letters dated May 28, 1975, June 16, 1975, and July 3, 1975 which urged favorable consideration of the pending request for authorization to operate the facility. The licensee addressed savings of oil and energy costs in addition to addressing health and safety considerations of further operation of the Indian Point Nuclear Generating Station, Unit 1.

For further details with respect to this action, see (1) the licensee's request for variance dated January 15, 1975, as supplemented May 28, 1975, June 16, 1975, and July 3, 1975, (2) comments on the licensee's request from Mr. Alfred S. Forsyth dated February 6, 1975, the Yonkers Chamber of Commerce of Yonkers, New York dated April 29, 1975, the Federal Energy Administration dated June 27, 1975, and the State of New York. Public Service Commission dated July 11, 1975, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C., and at the Hendrick Hudson Free Library, 31 Albany Post Road, Montrose, New York.

A copy of item (2) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 23rd day of September, 1975.

For the Nuclear Regulatory Commission,

ROBERT W. REID,
Chief, Operating Reactors Branch #4, Division of Reactor Licensing.

METROPOLITAN EDISON CO., ET AL

Notice of Proposed Issuance of Amendment to Facility Operating License

The Nuclear Regulatory Commission (the Commission) is considering the issuance of an amendment to Facility Operating License No. DPR-50 issued to Metropolitan Edison Company, Jersey Central Power & Light Company and Pennsylvania Electric Company (the licensees) for operation of the Three Mile Island Nuclear Station, Unit 1, a pressurized water reactor, located in Dauphin County, Pennsylvania, and currently authorized for operation at power levels up to 2535 Mwt.

The amendment would revise provisions in the Technical Specifications in accordance with the licensee's application for license amendment dated August 8, 1975. The amendment would modify operating limits in the Technical Specifications based upon an evaluation of ECCS performance calculated in accordance with an acceptable evaluation model that conforms to the requirements of the Commission's regulations in 10 CFR Part 50, § 50.46. The amendment would modify various limits previously established in accordance with the Commission's Interim Acceptance Criteria, and would, with respect to Three Mile Island Unit 1, terminate the restrictions imposed by the Commission's December 27, 1974 Order for Modification of License, and would impose instead, limitations established in accordance with the Commission's Acceptance Criteria for Emergency Core Cooling Systems for Light Water Nuclear Power Reactors, 10 CFR Part 50, § 50.46.

Prior to issuance of the proposed license amendment, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations.

By October 29, 1975 the licensee may file a request for a hearing and any person whose interest may be affected by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of the amendment to the subject facility operating license. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of Section 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER notice and Section 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, by the above date. A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and to G. F. Trowbridge, Esquire, Shaw, Pittman, Potts, Trowbridge & Madden, Barr Building, 910 17th Street, N.W., Washington, D.C. 20006, the attorney for the licensee.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see (1) the application for amendment dated August 8, 1975, and (2) the Commission's Order for Modification of License and the documents referred to in the Order dated December 27, 1974 published in the FEDERAL REGISTER on January 9, 1975 (40 FR 1766), which are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the Government Publications Section, State Library of Pennsylvania, Box 1601 (Education Building), Harrisburg, Pennsylvania. The license amendment and the Safety Evaluation, when issued, may be inspected at the above locations and a copy may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland this September 22, 1975.

ROBERT W. REID,
Chief, Operating Reactors Branch #4, Division of Reactor Licensing.

[DOCKET NO. 50-548]

OMAHA PUBLIC POWER DISTRICT; NEBRASKA PUBLIC POWER DISTRICT; FORT CALHOUN STATION, UNIT 2

Notice of Receipt of Application for Construction Permit and Operating License

The Omaha Public Power District and Nebraska Public Power District, pursuant to Section 103 of the Atomic Energy Act of 1954, as amended, have filed a portion of an application for licenses to construct and operate the proposed Fort Calhoun Station, Unit 2. This portion, consisting of the Preliminary Safety Analysis Report and general and financial information, was accepted for docketing on September 11, 1975 and assigned Docket No. 50-548. The Notice of Receipt of Partial Application for Construction Permit and Facility License was published in the FEDERAL REGISTER under Docket No. P-556-A on January 23, 1975, (40 FR 4498). This partial application contains the information requested by the Attorney General for the purpose of an anti-trust review of the application.

The application is for authorization to construct and operate a pressurized water nuclear reactor designated as the Fort Calhoun Station, Unit 2, on a site owned by Omaha Public Power District located on the southwest bank of the Missouri River approximately 19 miles north-northwest of the center of Omaha, Nebraska, near the village of Fort Calhoun in Washington County, Nebraska. The reactor is designed for an initial output of 3425 megawatts thermal, with an equivalent net electrical output of approximately 1150 megawatts.

A separate notice will be published on the availability of the environmental report and a Notice of Hearing will be published at a later date, setting forth the radiological and environmental issues to be considered during the review. A date for submitting Petitions for Leave to Intervene will also be set forth in the Notice of Hearing.

Dated at Bethesda, Maryland this 23rd day of September, 1975.

For the Nuclear Regulatory Commission,

WALTER R. BUTLER,
Chief, Light Water Reactors Branch 1-2, Division of Reactor Licensing.

REGULATORY GUIDE

Notice of Issuance and Availability

The Nuclear Regulatory Commission has issued a guide in its Regulatory Guide Series. This series has been developed to describe and make available to the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

Regulatory Guide 10.1, Revision 2, "Compilation of Reporting Requirements for Persons Subject to NRC Regulations," presents a compilation of all reporting requirements applicable to the various types of NRC licensees and other persons subject to NRC regulations. The guide identifies the proper NRC addressee or addressees for each report and designates the number of copies required. Revision 2 includes a change in terminology to make

the guide consistent with Section 208 of the Energy Reorganization Act of 1974 and other minor corrections.

Comments and suggestions in connection with (1) items for inclusion in guides currently being developed or (2) improvements in all published guides are encouraged at any time. Comments should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section.

Regulatory Guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Requests for single copies of issued guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future guides should be made in writing to the Director, Office of Standards Development, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Telephone requests cannot be accommodated. Regulatory Guides are not copyrighted and Commission approval is not required to reproduce them.

Notice of Issuance and Availability

The Nuclear Regulatory Commission has issued a guide in its Regulatory Guide Series. This series has been developed to describe and make available to the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

Regulatory Guide 1.16, Revision 4, "Reporting of Operating Information—Appendix A Technical Specifications," describes a reporting program acceptable to the NRC staff for meeting the reporting requirements of Appendix A technical specifications. Revision 4 is issued primarily to make terminology consistent with Section 208 of the Energy Reorganization Act of 1974.

Comments and suggestions in connection with (1) items for inclusion in guides currently being developed (listed below) or (2) improvements in all published guides are encouraged at any time. Public comments on Regulatory Guide 1.16, Revision 4, will, however, be particularly useful in evaluating the need for an early revision if received by November 26, 1975.

Comments should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section.

Regulatory Guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. THE TOLEDO EDISON CO.

Notice of Availability of Final Environmental Statement for the Davis-Besse Nuclear Power Station, Units 2 and 3

Pursuant to the National Environmental Policy Act of 1969 and the United States Nuclear Regulatory Commission's regulations in 10 CFR Part 51, notice is hereby given that the Final Environmental Statement prepared by the Commission's Office of Nuclear Reactor Regulation, related to the proposed construction of Davis-Besse Nuclear Power Station, Units 2 and 3, is available for inspection by the public in the Commission's Public Document Room at 1717 H Street, NW., Washington, D.C. and in the Ida Rupps Public Library, 310 Madison Street, Port Clinton, Ohio 43452. The Final Environmental Statement is also being made available at the Office of the Governor, State Clearing-

house, 62 East Broad Street, 2nd Floor, Columbus, Ohio 43215 and the Toledo Metropolitan Area Council of Governments, 420 Madison Avenue, Toledo, Ohio 43604.

The notice of availability of the Draft Environmental Statement for the Davis-Besse Nuclear Power Station, Units 2 and 3 and requests for comments from interested persons was published in the FEDERAL REGISTER on February 21, 1975 (40 FR 7703). The comments received from Federal, State, local and interested members of the public have been included as an appendix to the Final Environmental Statement.

Copies of the Final Environmental Statement (Document No. NUREG-75/083) may be purchased at current rates from the National Technical Information Service, Springfield, Virginia 22161. (Paper Copy: $7.25; microfiche: $2.25)

[Docket No. PRM-50-15]

DETROIT EDISON COMPANY, INC., AND PUBLIC SERVICE COMPANY OF INDIANA

Filing of Petition for Rule Making

Notice is hereby given that LeBoeuf, Lamb, Leiby, and MacRae, 1757 N Street, NW., Washington, D.C., by letter dated September 15, 1975, has filed with the Nuclear Regulatory Commission a petition for rule making on behalf of The Detroit Edison Company, Inc., and Public Service Company of Indiana.

The petitioners request the Commission to issue an amendment of 10 CFR Part 50 that would clarify the extent of the Commission's regulatory authority over the construction and routing of transmission lines and related equipment associated with nuclear power reactors and would clarify the extent to which the environmental impact of such lines and equipment must be considered in the Commission's assessment of the environmental impact of the licensing of a particular nuclear facility pursuant to the National Environmental Policy Act of 1969.

The petitioners contend that the Commission's regulatory authority over transmission lines and related equipment is limited to onsite portions of such lines and equipment associated with a nuclear power facility, in accordance with the limitations placed on the Commission's jurisdiction by the Atomic Energy Act of 1954, as amended.

The petitioners further contend that while the NEPA mandates consideration of alternatives to transmission lines to be constructed from a proposed nuclear installation facility to an interconnecting point on an existing or planned high voltage transmission system, NEPA does not authorize the Commission to regulate the routing of those lines either directly or by license condition.

The proposed rule set out in the petition would add a new paragraph (f) to 10 CFR 50.10 to read as follows:

(f) The provisions of paragraphs (c) and (d) of this section shall not be deemed to prohibit any offsite construction activities including, but not limited to, construction of transmission lines. Further paragraph (e) of this section shall not be deemed to authorize the Director of Nuclear Reactor Regulation to either authorize or prohibit any such offsite construction activities.

The petitioners also request that the Commission issue an order directing its staff to revise Regulatory Guide 4.2 (Rev. 1), "Preparation of Environmental Reports for Nuclear Power Stations," January 1975, to conform with their proposed rule.

A copy of the petition for rule making is available for public inspection in the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. A copy of the petition may be obtained by writing the Division of Rules and Records at the below address.

All interested persons who desire to submit written comments or suggestions concerning the petition for rule making should send their comments to the Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, on or before December 1, 1975.

Dated at Washington, D.C., this 25th day of September 1975.

Secretary of the Commission.

OFFICE OF MANAGEMENT AND BUDGET

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on September 25, 1975 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

Requests for extension which appear to raise no significant issues are to be approved after brief notice through this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503, (202-395-4529), or from the reviewer listed.

POSTAL RATE COMMISSION

[Docket No. R76–1; Order No. 83]

POSTAL RATE AND FEE CHANGES, 1975

Order Designating a Presiding Officer and an Officer of the Commission, Establishing Date of Prehearing Conference and Establishing Proceedings

SEPTEMBER 26, 1975.

On September 19, 1975, the Postal Rate Commission (hereinafter Commission) issued a Notice[1] stating that the United States Postal Service (hereinafter Postal Service or Service) had filed a Request (September 18, 1975) for a recommended decision on changes in rates and fees for postal services.

I. APPOINTMENT OF PRESIDING OFFICER

In furtherance of the Commission's expeditious consideration of the Request and pursuant to section 30(b) of the Commission's rules of practice [39 C.F.R. § 30(b)], the Commission will conduct the prehearing conferences and hearings en banc. Clyde S. DuPont, Chairman, will be presiding officer in such proceedings [39 C.F.R. §§ 3001.5(e); 3001.23]. An initial prehearing conference will be held on October 22, 1975, and, if necessary, October 23, 1975. The conference will commence each day at 10:00 a.m. at the Postal Rate Commission's hearing room, suite 500, 2000 L Street, N.W., Washington, D.C. 20268, and shall be on the record and a transcript made except where the presiding officer determines otherwise.

II. APPOINTMENT OF THE OFFICER OF THE COMMISSION

The Officer of the Commission (OOC) designated to represent the general public[2] in this proceeding will be Norman D. Schwartz, Assistant General Counsel (Litigation). During this proceeding, the OOC will direct the activities of Commission personnel assigned to assist him, and neither he nor any such personnel will participate in nor advise as to any Commission decision in the case.[3] The OOC will supply for the record, at the appropriate time, the names of all Commission personnel assigned to assist him in this case. In this proceeding the OOC shall be separately served three copies of all filings in addition to, and simultaneously with, service on the Commission of the 25 copies required by section 10(c) of the rules of practice [39 C.F.R. § 3001.10(c)].

III. PROCEDURES FOR EXPEDITION

Section 3624 of the Postal Reorganization Act (39 U.S.C. § 3624), as well as section 24 of the Commission's rules of practice (39) C.F.R. § 3001.24), provides that the Commission is to conduct its proceedings and issue a recommended decision with the utmost practicable expedition consistent with fairness to the

[3] *See* 39 C.F.R. § 3001.8.

parties. In order to do so, we are issuing the present detailed order so that all those who contemplate participating in this case (even though not yet admitted) will have ample time to prepare for the prehearing conference.

In this regard, the Commission directs the attention of the parties, and of petitioners for leave to intervene or be heard as limited participators, to section 24(d) of the Commission's rules of practice which sets forth the matters which the presiding officer and the participants shall consider and resolve at the prehearing conference. All participants are required and expected to appear at the prehearing conference fully prepared to discuss in detail and resolve these matters. Additionally, participants will have an opportunity to comment on the attached list of suggested procedural guidelines and proposed special rules of practice and should be authorized to make commitments with respect thereto. *See* Attachment A. Before the close of the prehearing conference, participants will also have the opportunity to make opening statements, if they so desire.

In the past, our rules regarding discovery have been leniently enforced on occasion. For example, time limitations have been waived and extended (particularly for completion of discovery) in so many instances that considerable delay of the proceedings has resulted. Because we are determined to accelerate the conduct of this case, as the statute requires, and because the recent trial and decision of our previous rate case have given us a body of useful experience which we anticipate will guide us in this proceeding, we plan to adhere as strictly as possible to the procedural requirements and filing deadlines set out in our rules of practice. The parties should therefore—from the outset of this proceeding—make certain that they have provided adequate resources for the prompt preparation of and response to all discovery requests.

In furtherance of this objective, we have tentatively decided on a procedure to be followed in case answers to discovery requests are not forthcoming within the prescribed time. If a motion to compel responses is not answered by a demonstration of cogent and convincing reasons for delay, the presiding officer will prescribe a time at which the witness to whom the discovery requests were addressed will be produced for oral examination on the subject matter of such requests. This examination will be conducted in parallel with the main hearings, before special presiding officers [4] to be designated by the Commission for that purpose. The special presiding officer will record any objections made, together with his proposed disposition thereof, and transmit both to the Chairman acting in his capacity as presiding officer of the main hearing. A transcript will be made of any such examination, and the responding witness may be represented by counsel. We expect that such ancillary proceedings will accelerate the obtaining of responses (which would otherwise have to be pursued by written pleadings and motions), while not requiring the main proceedings to be halted.

While we are not at this time specifying any procedures for the taking of depositions in parallel with the principal hearing, the parties and the presiding officer will consider their use when appropriate to hasten responses to discovery requests and where attendance of a special presiding officer may not be required.

All participants should give careful consideration to expediting this proceeding and in connection therewith review the proposed schedule of procedural stages. *See* Attachment B. This schedule will be discussed at the prehearing conference for the purpose of fixing target dates for completion of each stage. For the information of the participants wishing to propose estimated completion dates for each stage, it is noted by the Commission that evidentiary hearings in Docket No. R74–1 were held on 46 days. Given this experience—and that of Docket R71–1 which had approximately 64 hearing days—we are of the view that the total time needed to develop the requisite evidentiary record herein should not exceed a period of 6 months. Accordingly, we tentatively plan to close the record in these proceedings by March 30, 1976.

The requirements of the Act demand expedited proceedings, coupled with procedural fairness. We must respond accordingly. We would also alert the parties that our intention to expedite this proceeding applies with equal force to the briefing stage following the close of the record. Parties should therefore be prepared to propose a briefing schedule consonant with this policy. *See* Attachment B.

In determining that a six-month hearing schedule is prima facie sufficient, and that a relatively short briefing schedule will likely be appropriate, we are also guided by the fact that postal rate proceedings are no longer in the prototype stage. Thus, we anticipate eliminating from consideration certain subjects which were before us in earlier rate proceedings.

While we are not prepared at this time to make specific exclusions, we are of the view, for example, that little if any discussion of *general* cost theory will be required in this docket. The guidelines laid down in Docket No. R74–1 will be generally adhered to. We do not contemplate either assembling a record or issuing a decision on broad general aspects of cost theory.

Similar comments apply to the use of demand analysis to distribute nonattributable costs, in accordance with the general principles laid down in Docket No. R74–1. We regard those principles as largely settled, and will entertain proposed refinements and corrections as part of the present record, but not overall critiques or defenses of the general theory adopted in that proceeding.

However, we would emphasize that it is not our intention at this time to rule on any proposed evidentiary presentation. That would be premature action on our part. Nonetheless, it is our view that parties should carefully associate testimony concerning economic theory and demand analysis with specific applications thereto—including rate design. Thus, discussion of theory in these areas may still be appropriate if it relates to specific matters such as the proper attribution of a given cost segment, or a challenge to an allegedly erroneous application of the general volume variability theory.

IV. Prehearing Conference Statements

In preparation for the initial prehearing conference, each participant should serve a document captioned "Prehearing Conference Statement" on or before October 20, 1975, containing the following:

1. A suggested list which states with particularity the issues the party believes should be addressed in this case. (Asterisks, denoting those issues on which the party intends to present evidence, should precede the stated issue.)

2. A statement of the participant's tentative position on each of the proposed issues.

3. A brief statement describing for each issue the evidence, if any, the participant proposes to introduce.

4. A legal memorandum, where appropriate, in support of the issues proposed, the positions taken, the evidence to be presented and other legal matters which should be considered.

5. Any other matter the participant believes should be pursued at the prehearing conference.

Prior to the initial prehearing conference, all participants are encouraged informally and promptly to inform the Postal Service of desired preliminary clarification in the Service's presentation which each participant believes necessary in order to expedite this proceeding.

V. Discovery

The Commission directs the attention of all participants to the provisions of sections 25, 26 and 27 of the rules of practice (39 C.F.R. §§ 3001.25, 3001.26, 3001.27) establishing the availability of, and the rules for, discovery procedures. The discovery process is one aspect of rate proceedings which we particularly wish to expedite. Interrogatories must be answered promptly so that the expedited hearing program we are adopting here can function effectively.

In an effort to reduce or obviate certain peripheral discovery by the parties, the Commission will entertain proper oral motions requesting an opportunity to engage in a limited amount of "preliminary cross examination" of Postal Service witnesses during prehearing conferences. In this regard, the Service is requested to have its witnesses present and be able to provide for the record the requested clarifications or any other relevant information which might be re-

[4] Analogous procedures are found in the judiciary where Special Masters sometimes are appointed by a court for the hearing of particular matters. *See* F.R.C.P. Rule 53.

quested at the prehearing conference.[3] A similar "preliminary cross examination" session for clarification of the presentation's of the participants will be held following the filing of other participants' cases.

As stated, it is our desire that this type of clarifying questioning will help reduce the length of the formal discovery period by disposing of purely informational requests on the record during prehearing conferences. Preliminary cross examination, however, should be requested only where a party is of the view (and can persuasively demonstrate) that the expected responses are an essential part of the hearing record. Normally, participants should use informal off-the-record conference techniques to the maximum extent possible. In this connection, we would request the Postal Service to file periodically, *e.g.*, every two weeks, (1) a listing of information given to parties in response to informal requests and (2) a copy of the information to be lodged in the dockets section of the Postal Rate Commission. This procedure will avoid duplicative requests from participants for identical information. It will be optional for other participants to follow this procedure because, unlike the Service, they are not usually the source of "data base" information.

The Commission orders: (A) The Commission will sit en banc, with Clyde S. DuPont, Chairman, as presiding officer, in the above-captioned proceeding.

(B) A prehearing conference, regarding which a Notice of Proceeding was published in the FEDERAL REGISTER on September 24, 1975 (40 Fed. Reg. 44043), will be held on October 22, 1975, and October 23, 1975, at 10:00 a.m. each day in the Postal Rate Commission hearing room, suite 500, 2000 L Street, N.W., Washington, D.C. 20268. The Conference will be held for the purposes specified in section 24 of the Commission's rules of practice (39 C.F.R. § 3001.24) and in this order, and to afford all participants in the proceeding an opportunity to be heard with respect to the procedures to be followed in expeditiously determining the issues to be resolved in Docket No. R76-1. The conference proceedings shall be recorded by an official reporter except where otherwise directed by the presiding officer.

(C) Norman D. Schwartz, Assistant General Counsel (Litigation) is hereby designated as the Officer of the Commission to represent the general public in this proceeding. Service of documents on the Commission shall not constitute service on the OOC who shall separately be served three copies of all documents.

By the Commission.

[SEAL] JAMES R. LINDSAY,
Secretary.

[3] Such requests might, for example, be for workpapers, sources of numbers used, explanations or demonstrations of mathematical processes employed, etc. We contemplate that any extensive responses would be provided in writing, but any inquiry which can be answered immediately by a witness should be so disposed of.

PART I: PROPOSED SPECIAL RULES OF PRACTICE*

Grouping. Participants with common interests or positions in this proceeding should group themselves to make a joint presentation including oral representation, briefing, and presentation of evidence. Such grouping will be without derogation to the right of any party to present a separate point of view where his position differs from that of the group in which he is participating.

Discovery. The discovery procedures set forth in the Commission's order herein are not exclusive. The parties will be expected also to engage in informal discovery wherever possible to clarify exhibits and testimony. The results of such efforts may be introduced into the record by stipulation, supplementary testimony, or exhibit, by presenting selected written interrogatories and answers for adoption by a witness at the hearing or other appropriate means.

Case-in-Chief. The case-in-chief of all participants shall be in writing and shall include the participant's direct case and its rebuttal, if any, to the United States Postal Service's case-in-chief. It should be accompanied by legal memoranda, where appropriate.

Exhibits. Exhibits should be self-explanatory. They should contain appropriate footnotes or narrative explaining the source of each item of information used and the methods employed in statistical compilations. The principal title of each exhibit should state what it contains and may also contain a statement of the purpose for which the exhibit is offered; however, such a statement will not be considered part of the evidentiary record. Where one part of a multi-page exhibit is based on another part, as on another exhibit, appropriate cross references should be made. Relevant exposition should be included in the exhibit or given in the accompanying testimony.

Official Notice. Parties requesting official notice should refer to the page and paragraph of such material and should furnish copies of the referenced item for the record and for other parties.

Special Service and Dates. Interrogatories and answers thereto should be served on the Commission, the Officer of the Commission (three copies), on the complementary party, and on any other party so requesting.

Follow-up interrogatories should be served within five days of receipt of the answer to the prior interrogatory unless a good reason is stated.

Written cross-examination will be utilized whenever possible, to introduce factual or statistical evidence. Written cross-examination should be served three days before the announced appearance of a witness on the Commission, on the Officer of the Commission (three copies), on the witness' counsel, and on any participant so requesting.

Oral cross-examination will be permitted for testing assumptions, conclusions, or other opinion evidence. However, requests for permission to conduct oral cross-examination must be made in advance, accompanied by (1) specific references to the subject matter to be examined, and (2) page references to the relevant direct testimony. Requests by participants for oral cross-examination should be served three days before the announced appearance of a witness on the Commission, on the Officer of the Commission (three copies), on counsel for the witness, and on any participant so requesting.

General. Argument will not be received in evidence. It is the province of the lawyer, not the witness. It should be presented in brief or memoranda.

New affirmative matter (not in reply to another party's direct case) should not be included in rebuttal testimony or exhibits.

Cross-examine will be limited to testimony which is adverse to the participant wishing to cross-examine.

Legal memoranda, where appropriate, will be welcome at any stage of the proceeding.

PART II: SUGGESTED PROCEDURAL GUIDELINES

1. All parties will be expected to reference their exhibits and the testimony of their witnesses to one another and where inconsistencies between testimony or numerical figures appear, such inconsistencies are to be explained.

2. Parties will be required to sponsor as exhibits workpapers which were relied on for the purpose of proposing rates or for challenging the proposed rates of another party or the Postal Service.

3. Any participant who proposes a rate or set of rates will be expected to calculate all appropriations implied by such proposals. The participant will also be expected to show through workpapers or testimony how such appropriations were calculated. (See *e.g.*, The Commission's Recommended Decision in Docket No. R74-1, Appendix L.)

4. The Postal Service and all other participants will be expected to demonstrate in a specific, cogent manner the relationship of proposed rates to the ratemaking criteria of the Postal Reorganization Act. Generalized statements that a particular rate meets the ratemaking criteria of the Act will be considered non-responsive.

5. The Postal Service and all participants will be expected to fully document all phases of their presentation and to provide all studies relied on in the presentation of each case-in-chief or rebuttal of other participants' presentations. Where studies or documents are primarily relied on as the basis of a proposed rate or rates, the participant relying on such material will be expected to sponsor the material as an exhibit.

6. Documents and studies which are prohibitively expensive to reproduce for use by each participant, or which are

* In the main, these special rules of practice have been utilized effectively in past administrative proceedings before the Commission and we propose their continued use.

prohibitively voluminous, shall be filed in the docket section of the Postal Rate Commission and shall be sponsored as an exhibit by the participant. The filed documents should receive both (1) a hearing Exhibit number and (2) a "PRC lib. ref." number.

7. Volume data presented by the Service and all participants shall be provided by class and subclass.

8. The Postal Service shall provide detail as to the specific nature and the dollar amount of the various items in each cost segment on both a "before" and "after rate" basis.

9. Hearings on the Postal Service's proposed rate changes will be commenced immediately following that part of the discovery process relating to the Service's proposed changes.

Statement of basis and purpose. The basis and purpose of the foregoing proposed rule change is as follows:

Purpose of proposed rule change. The change in prices is not designed as a price increase, except in the Automatic Stock Loan and forms areas, but a restructuring designed to facilitate efficient clearing and depository interfaces. The secondary objective of these changes is to relate the charges directly to the costs of providing the individual services.

Basis under the act for proposed rule change. The proposed rule change is intended to comply with Section 17(b)(3)(D) of the Securities Exchange Act of 1934 in order to "provide for the equitable allocation of reasonable dues, fees and other charges among its participants."

Comments received from members, participants, or others on proposed rule change. No comments have been received from participants or members.

Burden on competition. No burden has been placed on competition.

The foregoing rule change has become effective, pursuant to Section 19(b)(3) of the Securities Exchange Act of 1934. At any time within sixty days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Securities Exchange Act of 1934.

Interested persons are invited to submit written data, views, and arguments concerning the foregoing. Persons desiring to make written submissions should file six copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street, NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the Midwest Stock Exchange, Inc. All submissions should refer to the file numbers referenced in the caption above and should be submitted on or before October 21, 1975.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[Release No. 34-11675; File No. SR-CBOE-1975-3]

CHICAGO BOARD OPTICNS EXCHANGE, INC.

Proposed Rule Change by Self-Regulatory Organizations

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on September 19, 1975, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

EXCHANGE'S STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

The proposed amendment to Section 6.1 of the Chicago Board Options Exchange, Incorporated ("CBOE") Constitution would increase the number of Directors on the CBOE Board of Directors from fifteen to twenty-one and would require that the composition be as follows: the Chairman, Vice Chairman, and the President, 3 public directors, at least 6 individual members who primarily conduct their business on the floor of the CBOE, control their own memberships and are in business for themselves; at least 6 individuals that are executive officers of member organizations (of which officers at least 3 shall be members) who individually are not primarily engaged in business on the floor of the CBOE and of which at least 3 must have as their principal place of business a location which is more than 80 miles from Chicago; and 3 individual members who may function in any recognized category either individually

or on behalf of a member organization.

The proposed amendment to Section 6.3 of the Constitution ensures that if an executive officer of a member organization ceases to be employed by the member organization, he will resign his position on the Board.

The proposed amendment to Section 5.3 of the Constitution extends the present methodology of counting ballots to accommodate the new requirements proposed in the amendments to Section 6.1. These provisions ensure that the minimum number of people in the various categories reflected in the proposed revisions to Section 6.1 will be represented on the Board even if such persons do not receive a plurality of votes.

The proposed amendment to Section 4.5 of the Constitution reduces the required number of signatures which a candidate petitioning to run for the Board of Directors or the Nominating Committee needs to obtain from the number found by determining 10% of the total membership to that of no less than 100 members. In addition, instead of requiring that all petitions be submitted no later than 20 business days prior to the annual election, the proposed amendment extends the last date for submission of a petition to November 15.

The proposed amendment to Section 4.3 of the Constitution specifically places an obligation on the members of the Nominating Committee to choose candidates for the Board of Directors and for the Nominating Committee that not only meet the requirements contained in Section 6.1, but also that reflect the various interests represented among the membership of the CBOE.

Exchange's Statement of Basis and Purpose

The basis and purpose of the foregoing proposed rule change is as follows:

The purpose of the proposed changes to the CBOE Constitution is to 1) increase the number of individuals able to participate on the Board and widen the representation of the various interests engaged in business on the CBOE on the Board of Directors; 2) revise the provisions concerning resignation, disqualification and removal of directors to reflect the proposed changes in Board composition; 3) revise the balloting procedures to ensure that the representation required by virtue of the foregoing change in Board composition is effected; 4) facilitate the process through which a member can petition to become a candidate for the Board of Directors or the Nominating Committee by reducing the number of signatures required and by lengthening the time within which petitions can be filed; and 5) place a specific obligation on the Nominating Committee to choose candidates for the Board of Directors and for the Nominating Committee which reflect the various membership interests.

In accordance with Section 6(b)(3) of the Securities Exchange Act of 1934, as amended, the CBOE proposes amending Section 6.1 of its Constitution so that a greater representative portion of its members may participate as members of the Board of Directors. In addition to the above statutory directive, the unprecedented growth in the CBOE membership mandates that the CBOE not only expand the number of members on its Board from 15 to 21, but that also a minimum number of people reflecting various CBOE membership categories be required to be elected. Consequently in order to achieve a fair representative cross section from its membership on the Board, the proposed Constitutional changes provide for at least six individual members that are primarily engaged in floor activities who own or control their own membership, at least six executive officers of member organizations (of which officers at least three shall be members) who individually are not primarily engaged in floor activities and of which at least three shall have a principal place of business more than 80 miles from Chicago, and three members who may function in any recognized member capacity. In addition to the above, the CBOE Constitution will continue to require that the Board include a Chairman and a Vice Chairman, the President of the CBOE, as well as three public directors.

The CBOE believes that members of its prior Board of Directors have reflected a fair representation of its members. However, since the Constitutional provisions specifying the number and composition of the Board were created prior to the CBOE's inception, the size and complexion of today's membership suggest that the within proposed changes be implemented in order to preserve the fairness of member representation which the Board has previously enjoyed.

This concept of ensuring balanced representation among the members of the CBOE on the Board of Directors extends to the changes proposed in the Resignation, Disqualification and Removal, Counting of Ballots, Nomination by petition and Nominating Procedure, i.e. Section 6.3, 5.3, 4.5 and 4.3 of the Constitution, respectively. The proposed revisions in the Resignation, Disqualification and Removal section of the Constitution ensure that if a director ceases to be an executive officer of a member organization, such director will resign. In this way, another executive officer of a member organization may be elected as a director and preserve the balance of the Board.

The proposed revisions in the Counting of Ballots section of the Constitution preserve the representational mandates contained in the above described proposed revisions to Section 6.1. This is accomplished by providing that a minimum number of persons from specific categories be elected each year, notwithstanding that such persons do not receive a plurality of the votes cast.

The liberalization of the provisions of the section of the Constitution concerning Nomination by Petition further facilitates a member's ability to become a candidate, and, if he receives the required number of votes, a member of the Board. By providing that a petition candidate secure fewer signatures for a valid petition and have a longer period of time within which to obtain such signatures, the proposed Constitutional revisions reduce the constraints placed upon those who would circulate a petition.

The proposed revisions to the section of the Constitution regarding the Nominating Procedure results in obligating the members of such Committee to choose candidates for the Board and that Committee in accordance with the provisions of Section 6.1 and in a manner that reflects the various interests represented on the Exchange. Consequently, any non-adherence to such obligations would invite petition candidates who could, under the proposed revisions to Section 4.5 of the Constitution, more easily than ever before find their way onto the ballot for the election of directors. Through this petition process a check-and-balance would be introduced into the provisions of the Nominating Procedures section, since petition candidates most often come forth when members believe that persons other than those slated by the Nominating Committee would provide greater balance to the various interests represented on the Board.

The above Constitutional revisions have been proposed as a result of CBOE's belief that fair representation of its members in the selection of its directors and the administration of its affairs is necessary to maintain and continue the viability of the CBOE and maximize the CBOE's responsiveness to the needs of the investing public and the membership community as a whole. Consequently, the CBOE believes the above proposed revisions are consistent with the protection of investors and the public interest and in accordance with the provisions of the Securities Exchange Act of 1934, as amended.

Comments from the CBOE membership will be manifested in the form of the vote taken at the Special Meeting called for October 6, 1975 to determine whether the above proposed Constitutional revisions should be implemented.

It is the position of the CBOE that the proposed Constitutional revisions will not impose any burden on competition.

On or before November 4, 1975, or within such longer period (i) as the Commission may designate until December 29, 1975, if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above-mentioned self-regulatory organization consents, the Commission will:

(A) by order approve such proposed rule change, or

(B) institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying at the principal office of the

above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before October 30, 1975.

CHICAGO BOARD OPTIONS EXCHANGE, INC.

Proposed Rule Change by Self-Regulatory Organizations

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on September 10, 1975 the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

EXCHANGE'S STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

The proposed rule change reflects the adoption of the following new policy pertaining to the selection of underlying securities for options transactions on CBOE:

Interpretations and Policies. [new] 5.3.01 At the time it selects an underlying security for options transactions, the Securities Committee shall determine from information publicly available at the Securities and Exchange Commission that the following conditions with respect to the issuer of the underlying security are met:

1. The issuer and its consolidated subsidiaries had a net income, after taxes but before extraordinary items net of tax effect, of at least $250,000 for each of the last three fiscal years.

2. The issuer and its subsidiaries have not during the past three years defaulted in the payment of any dividend or sinking fund installment on preferred stock, or in the payment of any principal, interest or sinking fund installment on any indebtedness for borrowed money, or in the payment of rentals under long-term leases.

3. The issuer has been subject to and has complied in all respects, including timeliness, with the requirements of Sections 13 and 14 of the Securities Exchange Act of 1934 for a period of at least the last three fiscal years.

EXCHANGE'S STATEMENT OF BASIS AND PURPOSE

The basis and purpose of the foregoing proposed rule change is as follows:

The purpose of policy statement 5.3.01 is to provide additional standards to be applied by CBOE's Securities Committee in connection with its approval of underlying securities for options transactions. The selection of underlying securities is presently governed by standards set forth in an agreement between CBOE, the American Stock Exchange, PBW Stock Exchange, and The Options Clearing Corporation. These standards, which are not affected by policy statement 5.3.01 and will remain in effect, relate to the number of outstanding shares or other units, the number of holders, and the trading volume of underlying securities. In addition, prior to the effectiveness of policy statement 5.3.01, CBOE had agreed that it would not select an underlying security for options trading if at the time of such selection The Options Clearing Corporation had been advised by the SEC that the issuance of listed options in respect of such underlying security would require the Clearing Corporation to make special disclosures in the registration statement filed by the Clearing Corporation under the Securities Act of 1933 or in any prospectus forming a part thereof concerning the organization, business or financial condition of the issuer of such underlying security. Based on the then existing position of the SEC Division of Corporation Finance, such agreement had the practical effect of requiring that the issuers of underlying securities would, subject to certain exceptions, generally meet the requirements for the registration of securities on Form S-7 under the Securities Act of 1933. Since then, the SEC has proposed modifying the requirements for the use of Form S-7 in certain respects (Securities Act of 1933 Release No. 5013). Policy statement 5.3.01 reflects certain of the proposed modifications as to the use of Form S-7, and also reflects the inclusion of these standards as a stated policy of CBOE. The effect of the change will be to make eligible certain securities the issuers of which did not meet the earlier S-7 requirements, while at the same time to continue to provide standards for the selection of underlying securities.

CBOE believes that it is in the public interest and consistent with the protection of investors to provide objective standards for the selection of underlying securities, and policy statement 5.3.01 is designed to provide such standards relating to the issuers of underlying securities.

Comments were neither solicited nor received concerning policy statement 5.3.01.

CBOE believes that no burden on competition will be occasioned by policy statement 5.3.01. At present, all exchanges which trade options have identical selection standards. Policy statement 5.3.01 relates to CBOE's selection of underlying securities, and any other exchange is free to adopt these or different standards, subject to the procedures of the Securities Exchange Act of 1934.

The foregoing rule change has become effective, pursuant to Section 19(b)(3) of the Securities Exchange Act of 1934. At any time within sixty days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Securities Exchange Act of 1934.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20649. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street, N.W., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before October 30, 1975.

For the Commission by the Division of Market Regulation, pursuant to the delegated authority.

[Rel. No. 8952 (812-3857)]

CONNECTICUT MUTUAL LIFE INSURANCE CO. AND CML ACCUMULATION ANNUITY ACCOUNT E

Notice of Application

SEPTEMBER 24, 1975.

NOTICE IS HEREBY GIVEN that Connecticut Mutual Life Insurance Company ("Company"), a Connecticut mutual life insurance company, and CML Accumulation Annuity Account E ("Account"), 140 Garden Street, Hartford, Connecticut 06115, a separate account of the company registered under the Investment Company Act of 1940 ("Act") as an open-end, diversified management investment company (collectively referred to as "Applicants") have filed an application on September 3, 1975, pursuant to Section 6(c) of the Act for an order of exemption from Sections 14(a), 17(f), and 27(c)(2) of the Act and Rule 17f-2 thereunder. All interested persons are referred to the application on file with the Commission for a statement of the representations therein, which are summarized below.

The Account was established by the Company as the facility through which the Company will segregate and invest assets attributable to certain individual accumulation annuity contracts issued in connection with (1) plans meeting the requirements of Sections 403(b) or 408 of the Internal Revenue Code of 1954, as amended ("Code") (2) plans established by persons entitled to the benefits of the Self-Employed Individuals Tax Retirement Act of 1962, as amended, commonly known as H.R. 10, and (3) other plans qualified under Section 401(a) or 403(a) of the Code. It will also be used to segregate and invest assets attributable to a group variable annuity contract to be issued to the Agent's Retirement Plan of the Company.

Section 14(a). Section 14(a) prohibits an investment company from making a public offering of its securities unless it either has a net worth of at least $100,000, has made a previous public offering of its securities at which time it had a net worth of at least $100,000, or has made firm agreements with no more than 25 responsible persons to purchase sufficient securities to bring its net worth to at least $100,000 prior to the time other members of the public purchase securities. Rule 14a–2 provides an exemption from the provisions of Section 14(a) for a registered separate account offering tax-benefited variable annuity contracts which may be purchased in connection with a plan which meets the requirements for qualification under Section 401 of the Code, the requirements for deductions under Section 404(a)(2) of the Code, or are contracts which meet the requirements of Section 403(b) of the Code. Under the Rule, a sponsoring insurance company is precluded from knowingly placing non-tax-benefited money in such account at any time in the future. The Rule is available to such account only if, at the commencement of the offering, the establishing insurance company possesses a combined capital and surplus if a stock company, or unassigned surplus if a mutual company, of $1,000,000.

Although the Account will include assets attributable to annuity contracts issued in connection with plans meeting the requirements of Section 408 of the Code, Applicants believe that the operations of the Account fall within the spirit and purpose of Rule 14a–2 and that the Company meets the requirements of that Rule. The Company had an unassigned surplus of $141,668,000 as of December 31, 1974. To avoid any question as to the applicability of Rule 14a–2 to Applicants, however, Applicants request an exemption from the provisions of Section 14(a) to the extent necessary to permit the accumulation annuity contracts, including those offered in conjunction with plans adopted pursuant to Section 408 of the Code, to be offered prior to the time the Account has obtained a net worth of $100,000. Applicants request the exemption on the grounds that the tax treatment afforded assets arising from tax-benefited separate accounts varies from payments made under other variable annuity contracts. A privately contributed $100,000 in such account, therefore, requires separate accounting, and the Account would be subject to the same administrative and other difficulties which led to the adoption of Rule 14a–2.

Section 17(f)(3) and Rule 17f–2. Section 17(f)(3) provides that a registered management investment company may maintain its securities and similar investments in its own custody, but only in accordance with such rules and regulations or orders as the Commission may from time to time prescribe for the protection of investors. Rule 17f–2 requires, with certain exceptions, that all securities and similar investments must be deposited in the safekeeping of a bank or other company whose functions and physical facilities are supervised by federal or state authorities and that access to the securities be limited to certain specified persons.

Applicants state that the vault maintained by the Company is similar to the vaults maintained by most banks and the Company keeps therein securities and similar investments of a value of approximately one billion dollars. Furthermore, the Company's procedures and activities in this respect are closely supervised by the Connecticut Commissioner of Insurance. Accordingly, Applicants request an exemption from Section 17(f) and Rule 17f–2 to the extent necessary to permit the Company to maintain custody in its vault of the securities and other similar investments held in the Account, and to permit not more than twenty duly authorized officers or responsible employees of the Company, as well as representatives of the Connecticut Commissioner of Insurance, members of the National Association of Insurance Commissioner's duly designated zonal auditing committee and selected responsible members of the Company's internal audit team to have access to such securities and similar investments of the Account on the grounds that adequate protection will be afforded to accumulation annuity contract owners.

Section 27(c)(2). Section 27(c)(2) prohibits a registered investment company or a depositor or underwriter for such company from selling periodic payment plan certificates unless the net proceeds of all payments (except amounts deducted for sales load) are deposited with a bank having the qualifications prescribed by Section 26(a)(1) and are held by a bank as trustee or custodian under an agreement containing, in substance, the provisions of Section 26(a)(2) and (3). Section 26(a)(2) requires that the trustee or custodian segregate and hold in trust all securities and cash of the trust, places certain restrictions on charges which may be made against the trust income and corpus, and excludes from expenses which the trustee or custodian may charge against the trust any payments to the depositor or principal underwriter, other than a fee not exceeding such reasonable amount as the Commission may prescribe, for performing bookkeeping and other administrative services delegated to them by the trustee or custodian. Section 26(a)(3) governs the circumstances under which the trustee or custodian may resign.

Applicants request an exemption from Section 27(c)(2) to permit the proceeds of all payments under the accumulation annuity contracts to be held by the company on the grounds that its status as a regulated insurance company, and its obligations as an insurance company to its accumulation annuity contract owners, substantially provide the protection contemplated by the requirements of Section 27(c)(2). Applicants have consented to the requested exemption being made subject to the following conditions: (1) that the charges to accumulation annuity contract owners for administrative services shall not exceed such reasonable amounts as the Commission shall prescribe, jurisdiction being reserved for such purpose, and (2) that the payment of sums and charges out of the assets of the Account shall not be deemed to be exempted from regulation by the Commission by reason of the requested order, provided that the Applicants' consent to this condition shall not be deemed to be a concession to the Commission of authority to regulate the payments of sums and charges out of such assets other than charges for administrative services, and Applicants reserve the right in any proceeding before the Commission or in any suit or action in any court to assert that the Commission has no authority to regulate the payment of such other sums or charges.

Section 6(c) authorizes the Commission to exempt any person, security, or transaction or any class or classes of persons, securities, or transactions from any provisions of the Act and Rules promulgated thereunder if such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than October 20, 1975 at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such a request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of such service (by affidavdit or in the case of an attorney at law by certificate) shall be filed contemporaneous with the request. As provided by Rule 0–5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following such date unless the Commission orders a hearing on request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

NEW YORK STOCK EXCHANGE, INC.

Proposed Rule Change by Self-Regulatory Organizations

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L.

No. 94-29, 16 (June 4, 1975) notice is hereby given that on September 19, 1975, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

It is proposed that the first sentence of Section 2.1 of Article II of the By-Laws of The Depository Trust Company (DTC), a wholly-owned subsidiary of New York Stock Exchange, Inc., be amended as follows:

The entire Board shall consist of [fourteen] *fifteen* directors until changed as hereinafter provided.

STATEMENT OF BASIS AND PURPOSE

The basis and purpose of the foregoing proposed rule change is as follows:

3. *Purpose of Proposed Rule Change.* The purpose of the proposed rule change is to increase the number of directors of DTC to fifteen, the maximum number of directors presently permitted to DTC.

4. *Basis under the Act for Proposed Rule Change.* Not Applicable.

5. *Comments Received from Members, Participants or Others on Proposed Rule Change.* Comments on the proposed rule change were not solicited.

6. *Burden on Competition.* None.

On or before November 4, 1975, or within such longer period (i) as the Commission may designate until December 29, 1975 if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above-mentioned self-regulatory organization consents, the Commission will:

(A) by order approve such proposed rule change, or

(B) institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection in the Public Reference Room, 1100 L Street, N.W., Washington, D.C. Copies of such filing will also be available for inspection at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before October 21, 1975.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

ARMOR ELEVATOR CO.

Notice of Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-60: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on June 24, 1975 in response to a worker petition received on June 20, 1975 by the International Association of Machinists and Aerospace Workers on behalf of workers formerly producing elevator component parts at the Woodside, New York plant of the Armor Elevator Company.

The notice of investigation was published in the FEDERAL REGISTER (40 FR 28142) on July 3, 1975. No public hearing was requested and none was held. An amended petition was filed on July 25, 1975.

The information upon which the determination was made was obtained principally from officials of the Armor Elevator Company, its customers, the International Trade Commission, the Department of Commerce, the National Elevator Industries Incorporated and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated,

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely, and

(3) That increases of imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof contributed importantly to such total or partial separation, or threat thereof, and to such decline in sales or production.

For purposes of paragraph (3), the term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Significant Total or Partial Separations

Employment at the Woodside plant declined 17 percent in the first seven months of 1975 compared with the first seven months of 1974.

Sales or Production, or Both, Have Decreased Absolutely

Sales for the Armor Elevator Company declined 84 percent in the first half of 1975 compared to the first half of 1974.

Increased Imports Contributed Importantly

Imports of articles like or directly competitive with those produced at the Woodside plant of Armor Elevator decreased in value from $5,971,000 in 1973 to $3,799,000 in 1974. Imports remained at constant value levels in the first quarter of 1975 compared to the first quarter of 1974. The ratios and imports to domestic consumption and production decreased from 1.1 percent and 1.1 percent, respectively in 1973 to .8 percent and .7 percent in 1974.

The evidence developed by the Department's investigation indicates that the separation of workers engaged in production of the Armor Elevator Company was not caused by the transfer of production to Canada nor by increased imports of products like or directly competitive with those produced at the Woodside plant. The separation of workers resulted from decreased orders for elevators and escalators due to the sharp decline in commercial construction.

Conclusion

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with elevator component parts produced at the Woodside, New York plant of the Armor Elevator Company did not contribute importantly to the total or partial separations of the workers at such plant.

Signed at Washington, D.C. this 23rd day of September 1975.

Director, Office of Foreign Economic Policy.

DUNBAR PATTERN CO.

Notice of Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-85; investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on July 15, 1975 in response to a worker

petition received on July 14, 1975 which was filed by the Boot and Shoe Workers Union (AFL–CIO) on behalf of workers formerly producing shoe patterns at the St. Louis, Missouri plant of Dunbar Pattern Company.

The notice of investigation was published in the FEDERAL REGISTER (40 FR 30765) on July 22, 1975. No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Dunbar Pattern Company, its major customers, industry analysts, the U.S. International Trade Commission, the U.S. Department of Commerce, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated.

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely, and

(3) That increases of imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof contributed importantly to such total or partial separation, or threat thereof, and to such decline in sales or production.

For purposes of paragraph (3), the term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Significant Total or Partial Separations

Employment levels at the St. Louis plant declined steadily from January 1975 to July 1975, when the plant closed. Average monthly employment declined 80 percent during that period.

Sales or Production, or Both, Have Decreased Absolutely

Sales of shoe patterns produced at the St. Louis plant declined steadily since 1972. Sales declined 52 percent from 1972 to 1974 and declined 36 percent in the first seven months of 1975 compared to the same period of 1974.

Increased Imports Contributed Importantly

Articles like or directly competitive with shoe patterns made at the St. Louis plant are not imported into the United States.

The evidence developed in the Department's investigation indicates that the three largest customers of the St. Louis plant, which accounted for about two thirds of plant sales, began to produce most or all of their shoe patterns internally after purchasing computerized grading machines for that purpose. As a result, these customers sharply reduced purchases from the St. Louis plant. The sharp reduction in purchases by the plant's major customers combined with the company's inability to find new customers, prompted the decision to terminate production at the St. Louis plant.

Conclusion

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with shoe patterns produced by the St. Louis, Missouri plant of Dunbar Pattern Company did not contribute importantly to the total or partial separation of the workers of that plant.

Signed at Washington, D.C. this 12th day of September 1975.

Director, Office of Foreign Economic Policy.

ALLEGHENY & WESTERN RAILWAY COMPANY, BUFFALO, ROCHESTER AND PITTSBURG RAILWAY COMPANY AND THE BALTIMORE & OHIO RAILROAD COMPANY ABANDONMENT PORTION RURAL VALLEY BRANCH BETWEEN ECHO AND MARGARET, IN ARMSTRONG COUNTY, PENNSYLVANIA

The Interstate Commerce Commission hereby gives notice that by order dated September 11, 1975, it has been determined that the proposed abandonment by the Allegheny & Western Railway Company, Buffalo, Rochester and Pittsburg Railway Company and the Baltimore & Ohio Railroad Company of a portion of the Rural Valley Branch between Echo and Margaret, in Armstrong County, Pennsylvania, if approved by the Commission does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA, 42 U.S.C. §§ 4321, *et seq.*, and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(C) of the NEPA.

It was concluded, among other things, that the environmental impacts of the proposed action are considered insignificant because it would not be inconsistent with local land use plans, the volume of traffic over the line has been low, and the diversion of rail traffic to local roadways would not be significantly detrimental to environmental quality in the subject area. Any plans for the future extraction of fossil fuel reserves which would utilize the line proposed for abandonment are not at this time considered to be definitive.

This determination was based upon the staff preparation and consideration of an environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423; telephone 202-343-2086.

Interested persons may comment on this matter by filing their statements in writing with the Interstate Commerce Commission, Washington, D.C., 20423, on or before October 24, 1975.

This negative environmental determination shall become final unless good and sufficient reason demonstrating why an environmental impact statement should be prepared for this action is submitted to the Commission by the above-specified date.

[Ex Parte 241; Rule 19, 8th Rev. Exemption 99]

CENTRAL RAILROAD COMPANY OF NEW JERSEY

Exemption Under Mandatory Car Service Rules

It appearing, That the U.S. railroads own numerous plain gondolas less than 61 ft.; that under present conditions, there are substantial surpluses of these cars on the lines of the car owners; that return of these cars to the car owners would result in their being stored idle on these lines; that such cars can be used by other carriers for transporting traffic offered for shipments to points remote from the car owners; and that compliance with Car Service Rules 1 and 2 prevents such use of plain gondolas, resulting in unnecessary loss of utilization of such cars.

It is ordered, That pursuant to the authority vested in me by Car Service Rule 19, plain gondola cars described in the Official Railway Equipment Register, I.C.C. R.E.R. No. 396, issued by W. J. Trezise, or successive issues thereof, as having mechanical designation "GA," "GB," "GD," "GH," "GS," and "GW," which are less than 61 ft. 0 in. long, and which bear the reporting marks assigned to United States Railroads, shall be exempt from the provisions of Car Service Rules 1(a), 2(a), and 2(b). (See Exceptions 1, 2 and 3)

Exception 1: This exemption does not supersede United States customs regulations applicable to cars owned by Canadian or Mexican railroads.

Exception 2: This exemption shall not apply to cars subject to service orders issued by the Interstate Commerce Commission or to Directives issued by the Car Service Division of the Association of American Railroads, restricting the use of designated cars.

Exception 3: This exemption shall not apply to plain gondola cars owned by the railroads named below:

The Central Railroad Company of New Jersey, Robert D. Timpany, Trustee, Reporting Marks: CNJ.
Florida East Coast Railway Company, Reporting Marks: FEC.
The Kansas City Southern Railway Company, Reporting Marks: KCS.
Illinois Terminal Railroad Company, Reporting Marks: ITC.
Louisiana & Arkansas Railway Company, Reporting Marks: LA.
Maine Central Railroad Company, Reporting Marks: MEC.
Missouri-Kansas-Texas Railroad Company, Reporting Marks: BKTY-MKT-MKTT.
Penn Central Transportation Company, (Robert W. Blanchette, Richard C. Bond and John H. McArthur, Trustees), Reporting Marks: PC-PRR-NYC.
Richmond, Fredericksburg and Potomac Railroad Company, Reporting Marks: RFP.
Union Pacific Railroad Company, Reporting Marks: UP.

Effective September 24, 1975.

Expires November 30, 1975.

Issued at Washington, D.C., September 17, 1975.

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

Elimination of Gateway Letter Notices

SEPTEMBER 25, 1975.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's *Gateway Elimination* Rules (49 CFR 1065), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before October 10, 1975. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will *not* operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

INTERSTATE COMMERCE COMMISSION

UNIFORM SYSTEM OF ACCOUNTS

■

Class I and Class II Common and Contract Motor Carriers of Property

Title 49—Transportation

CHAPTER X—INTERSTATE COMMERCE COMMISSION

[No. 32155 (Sub No. 2)[1]]

PART 1207—CLASS I AND CLASS II COMMON AND CONTRACT MOTOR CARRIERS OF PROPERTY

Uniform System of Accounts, Supplemental Report and Order of the Commission

SEPTEMBER 9, 1975.

Certain revised accounting regulations governing Class I and Class II Common and Contract Motor Carriers of Property are adopted to be effective January 1, 1976.

On March 21, 1973, the Commission, in response to a petition from the American Trucking Associations, Inc., (ATA), in this proceeding, No. 32155 (Sub-No. 2), adopted a revised system of accounts for Class I and Class II Common and Contract Motor Carriers of Property (49 CFR 1207). Later October 12, 1973, the Commission, in Docket No. 32155 (Sub-No. 3), modified the accounting regulations approved in the Sub-No. 2 proceedings by adding a separate classification of revenue and expense accounts for household goods carriers. The revisions became effective January 1, 1974. Subsequently, on October 11, 1974, the Commission in Docket No. 32155 (Sub-No. 2) made additional changes to the accounting regulations in Part 1207 in order to clarify certain of the regulations and to correct inconsistencies and other miscellaneous discrepancies.

The purpose of the changes set forth in the appendix to this Report are to reflect additional clarifying and corrective amendments to the accounting regulations in Part 1207. None of the changes made in this report are considered to be burdensome or controversial and therefore public proceedings under Section 553 of the Administrative Procedure Act, 5 U.S.C. 553, are considered unnecessary. The following types of nonsubstantive changes are made:

1. The conversion tables relating accounts in the present system with those accounts of similar content under the system in effect prior to January 1, 1974, are updated to reflect the amendments adopted by the Commission on October 11, 1974.

2. Activities one through four are opened for accounts 4750, 4820, 4840, 5310, 5350, 5370, and 5510 to allow more precise distribution of expenses to related activities.

3. The definition of "Platform" activity and accounts 4290, 4590, and 5360 (Instruction 27 and 28A carriers) are expanded to specify platform related equipment and distribution of expenses associated with this equipment.

4. Activity 6, Packing and Crating, is opened for accounts 8130, 8310, 8610, 8660, and 8710 (Instruction 28B carriers) to provide for direct charges of those expenses to the activity.

5. Other minor changes of a clarifying or corrective nature are made.

FINDINGS

We find that Part 1207 of Chapter X of Title 49 of the Code of Federal Regulations, effective January 1, 1976, should be amended to reflect the modifications as set forth in the appendix to this report; that such rule changes are reasonable and necessary to the effective enforcement of the provisions of Part II of the Interstate Commerce Act, as amended; that such rules, as modified, are otherwise lawful and consistent with the public interest and the National Transportation Policy; and that this is not a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969.

An appropriate order will be entered.

ORDER

At a General Session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 9th day of September 1975.

Consideration having been given to the matters and things involved in these proceedings, and the Commission, on this date, having made and filed a report containing its findings and conclusions, which report is hereby made a part hereof:

It is ordered, That, effective January 1, 1976, the accounting regulations prescribed in Part 1207 of Chapter X, Subchapter C of Title 49 of the Code of Federal Regulations be, and they are hereby, revised to read as shown in the appendix to the above mentioned report.

It is further ordered, That service of this order shall be made on all affected motor carriers of property; and to the Governor of every State and to the Public Utilities Commissions or Boards of each State having jurisdiction over transportation; and that notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C. and by filing a copy with the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER.

AUTHORITY: 49 Stat. 546, as amended, 563, as amended, and 564, as amended; 49 U.S.C. 304, 320, and 322.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

NOTE: This decision is not a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969.

CLASS I AND CLASS II HOUSEHOLD GOODS CARRIER CONVERSION TABLES

These conversion tables relate the household goods carrier operating accounts under the present system effective January 1, 1974, with accounts of similar content under the previous system. For instructions on using the tables, see the text which immediately precedes Table I-A, Class I Motor Carriers.

In referring to the conversion tables be sure to note any symbols following the account title. For example, account 5005 includes a pound sign (£) at the end of the account title. An explanation of the pound (£) sign and other symbols is provided in the "Guide to Symbols" which precedes each household goods carrier conversion table.

[1] These expenses were previously recorded in 1 account, 610. However, because the present accounts, effective Jan. 1, 1974, are so numerous they are listed here rather than within the conversion table. See account 610 in the conversion table for the other details involved in converting the noncarrier operating expense accounts.

Federal Agency Regional Maps and Tables

DIRECTORY OF FEDERAL REGIONAL STRUCTURE

This directory of Federal agency regional structure is designed to give practical information about regional offices of Federal departments and agencies.

The Standard Federal Regional Boundaries System was established in 1969 to streamline Federal field office operations and encourage Federal-State-local interchange. Boundaries were drawn and regional office locations designated for 10 regions, and agencies urged to adopt the uniform system. A map of the Standard Federal Regions, and tables of the agencies conforming to this system can be found on pages 45008 to 450016.

The regional maps of agencies not conforming to the uniform regional system begin on page 450017. Each map is accompanied by a table showing addresses, telephone numbers, and key officials for all regions.

The information contained in this directory was compiled with agency assistance, as of July 1, 1975.

FRED J. EMERY,
Director, Office of
the Federal Register.

PRIVACY ACT OF 1974

■

VARIOUS AGENCIES

Title 5—Administrative Personnel

CHAPTER I—CIVIL SERVICE COMMISSION

PART 293—PERSONNEL RECORDS AND FILES

PART 297—PROTECTION OF PRIVACY IN PERSONNEL RECORDS

The Civil Service Commission published in the FEDERAL REGISTER on May 27, 1975 (40 FR 22842) a notice of proposed rulemaking to amend 5 CFR Part 293 by adding a subpart A and by establishing a new Part 297 to implement provisions of the Privacy Act of 1974 (Pub. L. 93-579). The proposed amendment would add a new subpart A to Part 293 to establish basic policies for the establishment and maintenance of personnel systems of records, including safeguarding personal information about individuals contained in manual and automated record systems. The proposed amendment would also establish a new Part 297, subpart A, to establish procedures for protection of personal information contained in personnel records, including specific requirements regarding the collection of personal information about individuals, access to and correction and amendment of personnel records, and the disclosure of personal information about individuals from personnel records. Interested persons were given 30 days in which to submit comments and suggestions regarding the proposed amendments. All comments submitted were given due consideration.

As a result of comments received, subpart A, Part 293, and subpart A, Part 297, are revised in their entirety and are hereby adopted as set forth below.

Effective date. These rules are effective September 27, 1975.

1. In 5 CFR Part 293, Subpart A is added as follows:

Subpart A—Basic Policies on Maintenance of Personnel Records and Files

AUTHORITY: 5 U.S.C. 552a; 3 CFR 1954-1958 Comp., p. 205.

Subpart A—Basic Policies on Maintenance of Personnel Records and Files

§ 293.101 Purpose.

(a) The purpose of this subpart is to set forth the basic policies for governing the establishment, maintenance, and use of personnel records and files for which the Civil Service Commission is responsible in accordance with 5 U.S.C. 552a. This subpart applies to any department and independent establishment in the executive branch of the Federal Government, including a Government corporation or Government controlled corporation, except the Central Intelligence Agency and the Federal Bureau of Investigation.

(b) In this subpart:

(1) "Record" means any item, collection, or grouping of information about an individual that is maintained by an agency, including but not limited to education, financial transactions, medical history, and criminal or employment history, when such information contains a name, or an identifying number, symbol, or other identifying particular assigned to an individual, such as a finger or voice print or photograph;

(2) "System of records" means a group of any records under the control of any agency from which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifying particular assigned to an individual;

(3) "Routine use" means, with respect to the disclosure of a record, the use of such record for a purpose which is compatible with the purpose for which it was collected;

(4) "Personnel record" means any personal information maintained in a system of records as defined in paragraph (b)(2) of this section that is needed at all echelons of management for personnel management programs or processes such as staffing, employee development, retirement, and grievances and appeals; and

(5) "Commission" means Civil Service Commission.

§ 293.102 Responsibility.

(a) Each Government agency is responsible for collecting and maintaining records associated with its personnel management program. The Commission is responsible for leadership in those areas of personnel policy and operations that must be uniform Government-wide.

(b) Specifically, the Commission is responsible for managing major Government-wide systems of personnel records as required by statute or Executive Order. For each system of personnel records the Commission:

(1) Prescribes the contents, format, or methods of keeping the records; and

(2) Requires agencies or Commission offices to maintain and retrieve the records by individual name or identifying number.

(c) In accordance with paragraphs (b)(1) and (2) of this section, the Commission is responsible for the following specific Government-wide systems of personnel records:

(1) Appeals, Grievances, and Complaints Records;

(2) Confidential Employment and Financial Interest Statements,

(3) General Personnel Records;

(4) Personnel Investigations Records; and

(5) Recruiting, Examining, and Placement Records.

(d) In addition, the Commission is responsible for systems of records on individuals that it maintains and uses entirely within the Commission. These systerms of records are as follows:

(1) Defense Mobilization Emergency Cadre Records.

(2) Civil Service Retirement Records.

(3) Executive Assignment and Inventory Records.

(4) Federal Executive Development Program Records.

(5) Litigation and Political Activity (Hatch Act) Records.

(6) Motor Vehicle Operator and Accident Report Records.

(7) Pay, Leave, and Travel Records.

(8) Personnel Research Test Validation Records.

(e) Each agency is responsible for maintaining and controlling systems of personnel records, in addition to those specified in paragraph (c) of this section, that it keeps, prescribes, or controls, including:

(1) Personnel records maintained by agencies that are supplemental or related to the Government-wide systems of personnel records for which the Commission is responsible, but are not specifically required by the Commission.

(2) Personnel records maintained by agencies that are retrieved by individual name or identifying number as an agency convenience when the Commission does not require agencies to keep the records in that manner.

§ 293.103 Publication of annual notices.

(a) A notice of the existence of personnel records meeting the definition of a system of records as defined in this part shall be published annually in the format prescribed by the General Services Administration in the FEDERAL REGISTER, and shall include:

(1) The name and location of the system;

(2) The categories of individuals on whom records are maintained in the system;

(3) The categories of records maintained in the system;

(4) Each routine use of the records contained in the system, including the categories of users and the purposes of such use;

(5) The policies and practices of the agency regarding storage, retrievability, access controls, retention, and disposal of the records;

(6) The title and business address of the agency official who is responsible for the system of records;

(7) The agency procedures whereby an individual can request and receive notice as to whether the system of personnel records contains a record pertaining to him;

(8) The agency procedures whereby an individual can learn how access can be gained to any record pertaining to that

individual in a particular system of personnel records, and the procedure for correcting or contesting its content; and

(9) The categories of sources of records in the system.

(b) All systems of personnel records that are maintained by an agency are subject to the requirement to publish an annual descriptive notice. The Commission is responsible for publishing notices describing the systems of records for which it is responsible as outlined in § 293.102. Agencies are responsible for publishing notices describing any systems of personnel records that they maintain other than those outlined in § 293.102(c).

§ 293.104 New uses of information.

(a) Whenever there is a change in the routine use of a system of personnel records published previously in accordance with § 293.103, but at least 30 days prior to the publication of the next annual notice, the responsible agency or the Commission shall publish in the FEDERAL REGISTER, in accordance with 5 U.S.C. 553, a notice of intention to establish a new routine use for the system of records. The notice shall contain the following information:

(1) The name of the system of personnel records for which the new routine use is to be established;

(2) The authority for the system of personnel records;

(3) The purpose for which the record is to be maintained;

(4) The proposed new routine use or uses;

(5) The purpose of new routine use or uses; and

(6) The categories of recipients for each use.

Agencies shall publish routine uses in advance for all systems of personnel records for which they are responsible. The Commission will publish such notices for systems of records for which it is responsible. Agency requests for additional routine uses for systems of personnel records for which the Commission is responsible must be sent to:

Director, Bureau of Manpower Information Systems, U.S. Civil Service Commission, 1900 E Street N.W., Washington, D.C. 20415.

§ 293.105 Content of systems of personnel records.

Agencies shall maintain in systems of personnel records only information about an individual that is relevant and necessary to accomplish the personnel administration purposes of the agency required by statute or Executive Order. Agencies shall identify the specific provision in law which authorizes them to maintain or propose to maintain information in a system of personnel records. Authority to maintain a system of personnel records does not give the agency the authority to maintain any information merely because that information may be useful, but instead permits the maintenance of information which is relevant and necessary. Agencies should test each item in a system to ensure that it is both relevant and necessary. The Commission shall identify in Chapter 297 of the Federal Personnel Manual those statutes, Executive Orders, or other authorities which authorize agencies to maintain personal information in systems of personnel records that are required by the Commission. All other items of information recorded in systems of personnel records shall be similarly identified in an internal publication by the agency.

§ 293.106 Reports concerning changes to systems of personnel records.

(a) Agencies shall provide to Congress, the Office of Management and Budget, and for the period of its existence, the Privacy Protection Study Commission, advance notice of any proposal to establish or alter any system of personnel records. This report will be submitted in accordance with guidelines provided in the Office of Management and Budget/Circular No. A–108.

§ 293.107 Use of the Social Security Account Number in personnel systems of records.

(a) Agencies shall not deny any individual any right, benefit, or privilege provided by law or the Commission because of an individual's refusal to provide his or her Social Security Account Number.

(b) The provisions of paragraph (a) of this section shall not apply with respect to the disclosure of a Social Security Account Number to any agency maintaining a system of records in existence and operating before January 1, 1975, if such disclosure was required under statute, Executive Order, or regulation adopted prior to such date to verify the identity of an individual.

(c) Agencies will assure that a written explanation is distributed to each individual when an individual is requested to disclose his or her Social Security Account Number on a personnel form or document. The written explanation shall include:

(1) The use or uses that will be made of the Social Security Account Number;

(2) The statute or authority under which the Social Security Account Number is solicited; and

(3) Whether the disclosure of the Social Security Account Number is mandatory or voluntary.

§ 293.108 Collection of personal information from individual concerned.

Any information used in whole or in part in making a determination about an individual's rights, benefits, or privileges under Federal personnel programs should, to the extent practicable, be collected directly from the subject individual. Agencies should use information collected from the individual, such as that provided by the individual in the application for employment, unless: (a) The nature of the information is such that it can only be obtained from a third party; (b) the cost of collecting the information directly from the individual is unreasonable when compared with the cost of collecting it from a third party; (c) there is no risk that information collected from third parties, if inaccurate, could result in an adverse determination to the individual concerned; (d) the information supplied by an individual must be verified by a third party; or (e) provisions are made to verify with the subject individual information collected from a third party.

§ 293.109 Restriction on maintenance of certain records.

Personnel records describing how individuals exercise rights guaranteed by the First Amendment are prohibited unless specifically authorized by statute, or by the individual concerned, or unless pertinent to and within the scope of an authorized law enforcement activity. The exercise of these rights includes, but is not limited to, religious and political beliefs, freedom of speech and the press, and freedom of assembly and to petition.

§ 293.110 Rules of conduct.

It is the responsibility of the head of each agency to assure that persons involved in the design, development, operation, or maintenance of any system of personnel erocrds are informed of all requirements to protect the privacy of the individuals who are subjects of the records. Employees should be informed of all the implications of their actions in this area, including especially:

(a) That criminal penalties are provided under 5 U.S.C. section 552a for knowingly and willfully disclosing a record about an individual without the written consent or the written request of that individual, or unless disclosure is for one of the reasons listed under section 297.109 of this chapter; and

(b) That the agency may be subject to civil suit due to failure to comply with the provisions of §§ 297.105, 297.108, 297.111, and 297.112 of this chapter.

§ 293.111 Safeguarding personal information about individuals contained in manual personnel record systems.

In order to insure the security and confidentiality of records and to protect against any anticipated threats or hazards to the security or integrity of such records, each agency shall:

(a) Establish administrative, technical, and physical controls to protect personal information about individuals contained in manual personnel records from unauthorized access or disclosure. Each agency shall designate an official assigned to a location where personnel records are stored who shall be responsible for providing protection and accountability for such records at all times and insuring that personnel records are secured in appropriate containers whenever they are not in use or under direct control of authorized persons. Personnel records may be used, held, or stored only where facilities or conditions are adequate to prevent unauthorized access. Whenever personnel records are not under the personal control of an authorized person, they must be stored in lockable metal filing cabinets or in a secured room. Alternative storage facilities may be employed, provided they furnish an

equivalent or greater degree of physical security than the cited methods.

(b) Access to and use of personnel records shall be permitted only to persons whose official duties require such access or, pursuant to § 297.109 of this chapter, to a person to whom the personnel record pertains or to his or her designated personal representative. To the extent feasible, access to areas where personnel records are stored will be limited to only those persons whose official duties require work in such areas. Proper control of personnel records shall be maintained at all times, including an accounting of their removal from the storage area.

(c) Each agency shall assure that all persons whose official duties require access to and use of personnel records are adequately trained to protect the security and privacy of personnel records.

(d) The disposal and destruction of personnel records shall be in accordance with General Records Schedule 1 promulgated by the General Services Administration or, alternatively, with any agency records control schedules approved by the National Archives and Records Service of the General Services Administration.

§ 293.112 Safeguarding data about individuals contained in automated record systems.

(a) Each agency shall establish administrative, technical, physical, and security safeguards to prevent unauthorized disclosure, modification, or destruction of identifiable personal data in automated systems of records. These safeguards shall apply to all automated systems that contain personal data traceable to individuals, including all reports and outputs from those systems which contain identifiable personal data. The safeguards must be sufficient to (1) prevent careless, accidental, or unintentional disclosure, modification, or destruction of identifiable personal data; (2) minimize the risk that skilled technicians or knowledgeable persons could improperly obtain access to, modify, or destroy identifiable personal data; and (3) to prevent casual entry by unskilled persons who have no official reason for access to such data. Each agency shall designate an official assigned to a location where automated identifiable personal data are processed, stored, or mantained, who shall be responsible for the protection and accountability of all personal data in automated systems, including input and output documents, punched cards, and magnetic tapes, disks, or records.

(b) Identifiable personal data may be processed, stored, or maintained by automated data systems only where facilities or conditions are adequate to prevent unauthorized access to identifiable personal data in any form. Whenever identifiable personal data, including input and output documents, punched cards, and magnetic tapes or disks are not under the personal control of an authorized person, such data must be stored in adequate locked containers or in a secured room. These are minimum requirements; however, more stringent physical security controls may be employed.

(c) Access to and use of identifiable personal data associated with automated data systems shall be limited to those persons whose official duties require such access. At all times and in whatever form the data might appear, effective control shall be exercised over identifiable personal data associated with automated systems.

(d) Each agency shall provide adequate training to all persons whose official duties require access to, processing, or maintenance of identifiable personal data in automated systems in order to achieve the security and privacy of personal data.

(e) The disposal of identifiable personal data is to be accomplished in such a manner as to make the data unobtainable to unauthorized personnel. Unneeded personal data stored on reusable media such as magnetic tapes must be erased prior to release of the media for other uses.

§ 293.113 Accounting of the disclosures of personnel records.

(a) Unless made pursuant to paragraphs (a) or (b) of § 297.109 of this chapter, all disclosures of records covered by this section shall be accounted for by keeping a written record of the following information: (1) Description of the record disclosed; (2) the date, nature, and purpose of each disclosure of a record to any person or to another agency; and (3) the name and address of the person to whom the disclosure is made. No accounting is necessary for information disclosed pursuant to Part 294 of this chapter.

(b) The accounting of disclosures may be recorded in any system an agency determines is sufficient for this purpose. However, the agency must be able to construct from its system a listing of all disclosures. The accounting should provide a cross-reference to the justification or basis upon which the release was made, including any written documentation required when records are released for statistical or law enforcement purposes. The agency must retain the accounting for five years or the life of the record, whichever is longer, after the disclosure for which the accounting is made.

(c) For purposes of this part, the system of accounting of disclosures is not a system of records under the definition in § 293.101(b) and no accounting need be maintained for disclosure of the accounting of disclosures.

§ 293.114 Annual report.

By April 30th of each year, agencies will submit to the Office of Management and Budget, with a copy to the Commission, a report covering activities under the Privacy Act of 1974 as they relate to personnel records. Agencies shall follow the instructions issued by the Office of Management and Budget for submitting the report.

Subpart A—Records Maintained on Individuals

§ 297.101 Purpose.

The purpose of this part is to set forth the basic policies of the Commission on protection of individual privacy in regard to personnel records and files maintained within the Federal Government. This part applies to any department and independent establishment in the executive branch of the Federal Government, including a Government corporation or Government controlled corporation, except the Central Intelligence Agency and the Federal Bureau of Investigation.

§ 297.102 Definitions.

(a) All terms used in this subpart which are defined in 5 U.S.C. 552a shall have the same meaning herein.

(b) As used in this subpart:

(1) The term "Act" means the "Privacy Act of 1974," Pub. L. 93–579.

(2) The term "Commission" means the Civil Service Commission.

(3) The term "inquiry" means either a request for general information regarding the Act and this subpart or a request by an individual that the Commission or an agency determine whether it has any record in a system of personnel records which pertains to that individual.

(4) The term "request for access" means a request by an individual or other authorized person to see a record which is in a particular system of records which pertains to that individual.

(5) The term "request for correction or amendment" means the request by an individual that the Commission or an agency change (either by correction, amendment, addition, or deletion) a particular record in a system of records which pertains to that individual.

(6) The term "review" means the request by an individual that an initial denial of a request be reviewed and reversed.

§ 297.103 Responsibility.

(a) Each agency is responsible for protection of individual privacy in its personnel management processes and in the systems of personnel records for which it is responsible under § 293.102 of this chapter.

(b) The Commission is responsible for protection of individual privacy in its internal personnel management processes and in the systems of personnel records for which it is responsible under § 293.102 of this chapter.

(c) With respect to the Government-wide systems of personnel records for which the Commission is responsible as defined in paragraph (c), § 293.102 of this chapter, the Commission will perform directly some of the functions required by 5 U.S.C. 552a and will rely on agencies to perform other functions under Commission policy guidelines and subject to Commission review and evaluation. The division of tasks between the Commission and agencies with respect to these Government-wide personnel records systems is set forth in Chapters 293 and 297 of the Federal Personnel Manual.

§ 297.104 Uses of information.

Agencies shall ensure that individuals from whom information is collected about themselves are informed of the reasons for requesting the information, how it may be used, and what the consequences are, if any, of not providing the information. As a minimum, the individual should be given the following information in language which is explicit and easily understood and not so lengthy as to deter an individual from reading it:

(a) Cite the specific provisions of the statute or Executive Order, including a brief title or subject, which authorizes the agency to collect the personal information it is requesting. Inform the individual whether or not a response is mandatory or voluntary and the possible consequences of failing to respond.

(b) Cite the general purposes for which the information will be used by the agency which maintains it.

(c) Cite the special routine uses for which the information will be employed. This may be a summary of the information published in the public notice under § 293.103 of this chapter.

(d) Cite the effects on the individual, if any, of not providing any or all of the information requested.

§ 297.105 Standards of accuracy.

(a) To minimize the risk that an agency will make an unwarranted adverse personnel determination about an individual or disseminate inaccurate information about an individual, all personnel records which are used in making any such determination shall be maintained with such accuracy, relevance, timeliness, and completeness as is reasonably necessary to assure fairness to the individual in the determination.

(b) The following criteria will be used by the Commission and agencies in establishing standards of accuracy of information maintained on individuals:

(1) The factual accuracy of the information;

(2) The sufficiency of the information to make a fair and equitable determination about an individual;

(3) The relevance and necessity of the information in terms of the purpose for which it was collected;

(4) The timeliness and currency of the information in light of the purpose for which it was collected;

(5) The completeness of the information in terms of the purpose for which it was collected; and

(6) The degree of possibility that the information could unfairly result in a determination adverse to an individual.

(c) Agencies must provide, at the individual's request, an opportunity for an individual to review automated and manual personnel records that are maintained concerning the individual and that have the potential of being used in making a determination about the individual or being disclosed under routine uses outside the agency. Agencies must announce this opportunity by a notice to all employees at least annually.

§ 297.106 Procedures for requesting information pertaining to individual records in a system of records.

(a) Any individual may submit an inquiry to the Commission or to an agency. The inquiry should be made either in person or by mail addressed to the official identified in the notification procedures paragraph of the systems of records notice published in the FEDERAL REGISTER. An individual who believes the Commission or an agency maintains a record pertaining to him or her, but does not know which system of records might contain such a record, can obtain assistance from a Commission office in the area where he or she resides or from an agency personnel office. A list of area offices is included in an appendix to the notice of systems of records published in the FEDERAL REGISTER.

(b) The processing of inquiries submitted by mail will be facilitated if the words "PRIVACY ACT INQUIRY" appear in capital letters on the face of the envelope, and on the letter of inquiry.

(c) The Commission has an official form for making inquiries and requests. Copies may be obtained by contacting any of the Commission's offices listed in the appendix to the notice of systems of records or from agency personnel offices.

(d)(1) The Commission or the agency will accept an inquiry whether presented in person or by mail. If the inquiry is for general information regarding the Act and this part, the requestor is not required to submit any specific information in support of the request. If the inquiry is a request that the Commission or an agency determine whether it has, in a given system of records, a record which pertains to the individual, the following information should be submitted.

(i) Name and address of the individual making the request;

(ii) Name and address of the individual to whom the record pertains, if the requesting individual is either the parent of a minor or the legal guardian if the individual has been declared to be incompetent due to physical or mental incapacity or age by a court of competent jurisdiction or an authorized representative of an individual as indicated in § 297.108(f) of this part;

(iii) A certified or authenticated copy of documents establishing parentage or guardianship or a notarized statement authorizing a person to request access to such records;

(iv) Name of the system of records, as published in the FEDERAL REGISTER;

(v) Such additional information as the individual knows will or believes might assist the Commission or the agency in responding to the inquiry and in verifying the individual's identity (for example, date of birth, place of birth, place of work, names of parents where applicable, dates of employment, Social Security Number, position title, etc.);

(vi) Date of inquiry; and

(vii) Individual's signature.

The Commission or agency reserves the right to require compliance with the identification procedures appearing in § 297.107 of this subpart where circumstances warrant.

(2) In compliance with 5 U.S.C. 552a (e)(3), each individual supplying the information in accordance with paragraph (d)(1) of this section hereby is informed that:

(i) 5 U.S.C. 552a authorizes solicitation of the information; disclosure is voluntary, and no penalty is attached for failure to provide the information;

(ii) The principal purpose for which the information is intended to be used is processing the inquiry under the Act;

(iii) The routine uses which may be made of the information are routine uses appearing in the notice of systems of records published in the FEDERAL REGISTER; and

(iv) The effects of not providing all or any part of the information may be to render impossible or to delay the Commission's or the agency's processing of and action on the request under the Act.

(3) If, having been made aware of the contents of paragraph (d)(2) of this section, an individual submits the information listed in paragraph (d)(1) of this section, he or she will be deemed to have made the submission on a purely voluntary and consensual basis.

(e) Any inquiry which is not addressed as specified in paragraph (a) of this section or which is not marked as specified in paragraphs (b) and (d) of this section will be so addressed and marked by the Commission or agency personnel and forwarded immediately to the responsible System Manager indicated in the notice of systems of records. An inquiry which is not properly addressed by the individual will not be deemed to have been "received" for purposes of measuring time periods for response until the inquiry has been forwarded to the System Manager. In each instance when an inquiry so forwarded is received, the appropriate System Manager shall notify the individual

that his or her inquiry was improperly addressed and the date when the inquiry was received at the proper address.

(f) The responsible System Manager will act promptly upon each inquiry received. The Commission or the agency will make every effort to respond within 10 days (excluding Saturdays, Sundays, and holidays) of the date of receipt. If a response cannot be made within 10 days, the System Manager shall send an acknowledgement during that period providing information on the status of the inquiry and asking for such further information as may be necessary to process the inquiry.

(g) An individual shall not be required to state a reason for or otherwise justify a proper inquiry under this part.

§ 297.107 Requirements for identification of individuals making requests for access.

(a) The requirements for identification of individuals seeking access to records are as follows:

(1) *In person.* Each individual making a request in person shall be required to present satisfactory proof of identity. The means of proof, in order of preference or priority, are:

(i) A document bearing the individual's photograph (for example, driver's license, passport, or military or civilian identification card);

(ii) A document bearing the individual's signature, (for example, medicare card, unemployment insurance book, employer identification card, national credit card and professional, craft, or union membership card); and

(iii) A document bearing neither the photograph nor the signature of the individual. Use of such a document may require the individual to provide further proof of identity. In the event the individual can provide no suitable documentation of identity, the Commission or the agency will require a signed statement asserting the individual's identity and stipulating that the individual understands the penalty provision of 5 U.S.C. 552a(i)(3). In order to avoid any unwarranted disclosure of an individual's records, the Commission or an agency reserves the right to determine the adequacy of proof of identity offered by any individual.

(2) *Not in person.* If the individual making a request does not appear in person before a Commission or an agency official or employee authorized to determine identity, the Commission or the agency may accept any available document or evidence that makes it clear that the requestor and the subject of the record are one and the same. The Commission or the agency reserves the right to require that a certificate of a notary public or equivalent official empowered to administer oaths must accompany the request. The Commission or the agency may also require a signed statement asserting the individual's identity and stipulating that the individual understands the penalty provision of 5 U.S.C. 552a (i)(3).

(3) *Parents of minors and legal guardians.* An individual acting as the parent of a minor or the legal guardian of the individual to whom the record pertains shall establish his or her personal identity in the same manner prescribed in either paragraph (a) (1) or (2) of this section. In addition, such other individual shall establish his or her identity in the representative capacity of parent, guardian, or authorized representative. In the case of a parent of a minor, for proof of identity, the Commission or the agency may require a certified or authenticated copy of the minor's birth certificate. For proof of identity in the case of a legal guardian of an individual who has been declared incompetent due to physical or mental incapacity or age by a court of competent jurisdiction, the Commission or the agency may require a certified or authenticated copy of the court's order. A parent or legal guardian may be accompanied during personal access to a record by another individual, provided the provisions of § 297.108 are satisfied.

(b) When the provisions of this part are alleged to have the effect of impeding an individual in exercising his or her right to access, the Commission or agency will consider, from an individual making a request, alternative suggestions regarding proof of identity and access to records.

§ 297.108 Access to personnel records by individuals.

(a) The following procedures apply for access to personnel records by individuals:

(1) Current Federal employees should contact the System Manager indicated in the notice of systems of records in person or by mail.

(2) Former Federal employees should contact in person or by mail one of the Commission's offices, nearest to where he or she resides, indicated in the appendix to the notice of systems of records. That office will request the personnel records from the National Personnel Records Center and comply with paragraphs (b) through (h) of this section.

(3) Other individuals should contact the System Manager indicated in the notice of systems of records.

(b) Grant of access—(1) *Notification.* An individual shall be granted access to a record pertaining to him or her upon request, except where provisions of paragraph (g)(1) of this section apply. The System Manager or his designee shall notify the individual of such determination and provide the following information:

(i) The method of access, as set forth in paragraph (b)(2) of this section;

(ii) The place at which the record may be inspected;

(iii) The earliest date on which the record may be inspected and the period of time the records will remain available for inspection. In no event shall the earliest date be later than 30 days from the date of notification;

(iv) The estimated date by which a copy of the record could be mailed and the estimate of fees when appropriate and pursuant to § 297.115. In no event shall the estimated date by later than 30 days from the date of notification;

(v) The fact that the individual, if he or she wishes, may be accompanied by another individual during personal access, subject to procedures set forth in paragraph (b) of this section; and

(vi) Any additional requirements needed to grant access to a specific record.

(2) *Methods of access.* The following methods of access to records by an individual may be available depending on the circumstances of a given situation:

(i) Inspection in person may be made in the office specified by the System Manager granting access, during the hours specified.

(ii) Transfer of records to a Commission office or other Federal facility more convenient to the individual may be arranged, but only if the System Manager determines that a suitable facility is available, that the individual's access can be properly supervised at the facility, and that transmittal of the records to that facility will not unduly interfere with operations of the Commission or involve unreasonable costs, in terms of both money and manpower; and

(iii) Copies may be mailed at the request of the individual, subject to payment of fees, when appropriate, and pursuant to § 297.115.

(c) Special procedures shall apply to disclosure of the following records:

(1) Medical information about an applicant or employee may be disclosed by the Commission or other Government agency to the applicant or employee, or a representative designated in writing, except that medical information concerning a mental or other condition of such a nature that a prudent physician would hesitate to inform a person suffering from it of its exact nature and probable outcome may be disclosed only to a licensed physician designated in writing for that purpose by the individual to whom the information pertains or his or her designated representative.

(2) Investigative records and reports shall be disclosed to the individual to whom they pertain upon his or her request to the extent permitted by the Privacy Act of 1974, except that disclosure will not be made of such material that would reveal the identity of a source who furnished information to the Government under an express promise that the identity of the source would be held in confidence, or, prior to September 27, 1975, under an implied promise that the identity of the source would be held in confidence. Medical information contained in investigative records and reports will be disclosed to the individual to whom it pertains unless, in the judgment of the agency, access to such information could have an adverse effect upon such individual. In such a case, the information will be made available to a licensed physician named by the requesting individual.

(3) Medical information in retirement and insurance records may be released to the individual to whom it pertains, or to such representative as he designates in writing, except that medical information which indicates the existence of a malignancy, a mental condition, or other condition about which a prudent physician would hesitate to inform an individual suffering from such a condition about its exact nature and probable outcome, shall not be released to the individual to whom the records pertain or to any individual designated by him, other than a physician designated by the individual or his guardian in writing to receive a full report of the medical evidence in his or her file, including copies of background reports of reported behavioral irregularities or manifestations of unsatisfactory service which are ordinarily obtained in connection with an application for disability retirement, and furnished as background factual evidence to Government medical institutions, psychiatrists, or other physicians who conduct the official retirement medical examination.

(4) Examination and related material shall be disclosed only under circumstances that maintain the integrity of the competitive testing program. The test papers of a competitor may be disclosed to the competitor only during the examination except that answer sheets may be reviewed by a competitor in the office where the examination was given in the presence of a Commission employee upon request. A copy of the answer sheet will not be made available to a competitor.

(5) The Commission will disclose to the parties concerned the information contained in an appeal file established under Part 772 of this chapter, subject to the provisions for access to medical and investigative information in paragraphs (c) (1) and (2) of this section. For the purpose of this subsection, "the parties concerned" means the applicant for Government employment, Government employee, or former Government employee involved in the proceeding, his representative designated in writing, and the representatives of the agency and the Commission.

(6) The agency having custody of a discrimination complaint file established under Part 713 of this chapter, or a grievance file established under Part 771 of this chapter will disclose to the parties concerned the information contained in the file, subject to the provisions for access to medical and investigative information in paragraphs (c) (1) and (2) of this section. For purposes of this subsection, "the parties concerned" has the same meaning indicated in paragraph (c) (5) of this section.

(d) The Commission or the agency shall supply such other information and assistance at the time of access as to make the record intelligible to the individual.

(e) The Commission or the agency reserves the right to limit access to copies and abstracts of original records, rather than the original records. This election would be appropriate, for example, when the record is in an automated data medium such as tape or disk, when the record contains information on other individuals, and when deletion of information is permissible under exemptions (for example, 5 U.S.C. 552a(k)(2)). In no event shall original records of the Commission be made available to the individual except under the immediate supervision of the System Manager or his or her designee. Title 18 U.S.C., section 2701(a) makes it a crime to conceal, mutilate, obliterate, or destroy any record filed in a public office, or attempt to do any of the foregoing.

(f) Any individual who requests access to a record pertaining to that individual may be accompanied by another individual of his or her choice. "Accompanied" includes discussion of the record in the presence of the other individual. The individual to whom the record pertains shall authorize the presence of the other individual in writing and shall include the name of the other individual, a specific description of the record to which access is sought, the date and the signature of the individual to whom the record pertains. The other individual shall sign the authorization in the presence of the System Manager or his designee. An individual shall not be required to state a reason or otherwise justify his or her decision to be accompanied by another individual during personal access to a record.

(g) Initial denial of access. (1) *Grounds.* Access by an individual will be denied only upon a determination by the System Manager or his designee that:

(i) The record is subject to an exemption under § 297.117;

(ii) The record is information compiled in reasonable anticipation of a civil action or proceeding;

(iii) The provisions of paragraph (c) (1) of this section pertaining to medical records are not acceptable to the individual; or

(iv) The individual refuses to provide information necessary to process the request for access.

(2) *Notification.* The System Manager or his designee shall give notice of denial of access to records to the individual in writing and shall include the following information:

(i) The System Manager's or his designee's name and title or position;

(ii) The date of the denial;

(iii) The reasons for the denial, including citation to appropriate sections of the Act and this subpart; and

(iv) The individual's opportunities, if any, for further administrative consideration, including the title and address of the official responsible for such reviews.

(3) *Administrative review.* When an initial denial of a request is issued by the System Manager or his designee, the individual's opportunities for further consideration shall be as follows:

(i) As to denial under paragraph (g) (1) (i) of this section, the sole procedure for challenging the validity of the rule is a petition for the issuance, amendment, or repeal of a rule under 5 U.S.C. 553(e). Such petition shall be filed with the Director, Bureau of Manpower Information Systems, U.S. Civil Service Commission, 1900 E Street, N.W., Washington, D.C. 20415. Within the Commission, no such denial is administratively final until such a petition has been filed by the individual and disposed of on the merits by the Commission.

(ii) As to denial made by an agency under paragraph (g) (1) (ii), (iii), or (iv) of this section, the individual may file for review with the Director, Bureau of Manpower Information Systems, U.S. Civil Service Commission, 1900 E Street, N.W., Washington, D.C. 20415, if the information is maintained in a record under the Government-wide systems of personnel records as indicated by § 293.102(c) of this chapter. As to a denial made by an official of the Commission under paragraph (g) (1) (ii), (iii), or (iv) of this section, the individual may file for review with the Assistant Executive Director for Freedom of Information and Privacy, U.S. Civil Service Commission, 1900 E Street, N.W., Washington, D.C. 20415, if the information is maintained in a record under the Government-wide systems of personnel records, as indicated by § 293.102(c) of this chapter, or in a system of records that is maintained and used primarily within the Commission, as indicated by § 293.102(d) of this chapter. The procedures appearing in § 297.113 shall be followed by both the individual and the Commission to the extent practicable.

(h) If a request is partially granted or partially denied, the Director, Bureau of Manpower Information Systems, U.S. Civil Service Commission, or the Assistant Executive Director for Freedom of Information and Privacy, U.S. Civil Service Commission, as appropriate, shall follow the appropriate procedures of this section as to the records within the grant and the records within the denial.

§ 297.109 Written consent for disclosure.

Generally, an agency may not disclose any personnel record to any person or to another agency without the express written consent of the individual to whom the record pertains. Written consent is not required if the disclosure is:

(a) To officers or employees of the agency that maintains the record who have a need for the information in the official performance of their duties;

(b) Required under the provisions of the Freedom of Information Act (5 U.S.C. 552);

(c) For a routine use as published in the annual notice in the FEDERAL REGISTER;

(d) To the Bureau of the Census for purposes of carrying out activities pursuant to the provisions of Title 13;

(e) To a recipient who has provided the agency with advance adequate assurance that the record will be used solely as a statistical research or reporting record and the record is to be transferred in a form that is not individually identifiable. The advance assurance must

be in writing and should include as a minimum:

(1) A statement of the purpose for requesting the records; and

(2) Certification that the records will be used only for statistical purposes.

These written statements should be maintained as agency records under § 293.113 of this chapter. In addition to stripping personally identifying information from records released for statistical purposes (other than those related to disclosures under paragraph (e)), agencies shall ensure that the identity of the individual cannot reasonably be deduced by combining various statistical records.

(f) To the National Archives of the United States as a record which has sufficient historical or other value to warrant its continued preservation by the United States Government, or for the evaluation by the Administrator of General Services or his designee to determine whether the record has such value;

(g) To another agency or unit of local, State, or Federal Government for a civil or law enforcement activity on receipt of written request from the head of an agency or unit describing the law enforcement purpose for which the record is required and specifying which record is required. A record may be disclosed to a law enforcement agency at the initiative of the agency which maintains the record when criminal conduct is suspected, provided that such disclosure has been established as a routine use under § 293.103 of this chapter, and when the instance of misconduct is directly related to the purpose for which the record is maintained;

(h) To a person showing compelling circumstances affecting the health and safety of an individual (not necessarily the individual to whom the record pertains). Upon such disclosure, a notification of such disclosure must be sent to the last known address of the individual to whom the record pertains;

(i) To either House of Congress or to committee or subcommittee (joint or of either House) to the extent that the subject matter falls within their jurisdiction;

(j) To the Comptroller General, or any of his authorized representatives, in the course of the performance of the duties of the General Accounting Office; or

(k) Pursuant to the order of a court of competent jurisdiction.

§ 297.110 Notification of disclosure under compulsory legal process.

If a record is disclosed under a compulsory legal process under § 297.109 (g) or (k) and the issuance of the order or subpena is made public by the court which issued it, the agency or the National Personnel Records Center will make a reasonable effort to notify the individual to whom the record pertains. A notice should be sent to the individual's last known address according to the agency's files.

§ 297.111 Request for correction or amendment of record.

(a) Any individual may submit a request for correction of or amendment to a record that pertains to him or her to the Commission or an agency. The request should be made either in person or by mail to the System Manager or his designee indicated in the notice of systems of records.

(b) The processing of requests submitted by mail will be facilitated if the words "PRIVACY ACT REQUEST" appear in capital letters on the face of the envelope, and the letter of inquiry.

(c) Any request which is not addressed as specified in paragraph (a) of this section or which is not marked as specified in paragraph (b) of this section will be so addressed and marked by Commission or agency personnel and forwarded immediately to the responsible System Manager. A request not properly addressed by the individual will not be deemed to have been "received" for purposes of measuring time periods for response until the responsible System Manager receives it. In each instance when a request so forwarded is received, the System Manager or his designee shall notify the individual that his or her request was improperly addressed and the date when the request was received at the proper address.

(d) Since the request for correction or amendment normally will follow a request for access under § 297.108, the individual's identity will be established by his or her signature on the request.

(e) A request for correction or amendment should include the following:

(1) The specific identification of the record sought to be corrected or amended (for example, description, title, date, paragraph, sentence, line, and words);

(2) The specific wording to be deleted, if any;

(3) The specific wording to be inserted or added, if any, and the exact place at which it is to be inserted or added; and

(4) A statement of the basis for the requested correction or amendment, with all available supporting documents and materials which substantiate the statement.

(f) The provisions of § 297.106(d) (2) and (3) apply to the information obtained under paragraph (e) of this section.

§ 297.112 Review of request for correction or amendment of record.

(a) (1) Not later than 10 days (excluding Saturdays, Sundays, and holidays) after receipt of a request to correct or amend a record, the System Manager or his designee shall send an acknowledgement providing an estimate of time within which action will be taken on the request. If a response cannot be made within 10 days due to unusual circumstances, the System Manager shall send an acknowledgement during that period providing information on the status of the request and asking for such further information as may be necessary to process the request. Unusual circumstances shall include circumstances where a search for and collection of requested records from storage, field facilities or other establishments are required, cases where a voluminous amount of data is involved, or instances where information on other individuals must be separated or deleted from the particular record. No acknowledgement will be sent if the request can be reviewed, processed, and the individual notified of the results of review (either compliance or denial) within the 10 days. Requests filed in writing will be acknowledged in writing at the time submitted.

(2) Promptly after acknowledging receipt of a request, or after receiving such information as might have been requested, or after arriving at a decision in 10 days, the System Manager or his designee shall either:

(i) Make the requested correction or amendment and advise the individual in writing of such action, providing either a copy of the corrected or amended record or a statement as to the means whereby the correction or amendment was effected in cases where a copy cannot be provided (for example, erasure of information from a record maintained only in an electronic data bank); or

(ii) Inform the individual in writing that his or her request is denied and provide the following information:

(A) The System Manager's or his designee's name and title or position;

(B) The date of the denial;

(C) The reasons for denial, including citation of the appropriate sections of the Act and this part; and

(D) The procedures for review of the denial as set forth in § 297.113, including the name and address of the Director, Bureau of Manpower Information Systems, or the Assistant Executive Director for Freedom of Information and Privacy, as appropriate. The term "promptly" in this paragraph means within 30 days (excluding Saturdays, Sundays, and holidays). If the System Manager or his designee cannot make the determination in 30 days, the individual will be advised in writing of the reasons therefor and of the estimated date by which the determination will be made.

(b) Whenever an individual's record is corrected or amended pursuant to a request by that individual, the System Manager or his designee shall notify all persons and agencies to which the corrected or amended portion of the record had been disclosed prior to its correction or amendment, if an accounting of such disclosure required by the Act was made. The notification shall require a recipient agency maintaining the record to acknowledge receipt of the notification, to correct or amend the record, and to apprise any agency or person to which it had disclosed the record of the substance of the correction or amendment. This requirement does not apply to disclosures made pursuant to paragraphs (a) or (b) of § 297.109.

(c) The following criteria are examples of those that will be considered by the System Manager or his designee in reviewing a request for correction or amendment:

(1) The sufficiency of the evidence submitted by the individual;

(2) The factual accuracy of the information;

(3) The relevance and necessity of the information in terms of the purpose for which it was collected;

(4) The timeliness and currency of the information in light of the purpose for which it was collected;

(5) The completeness of the information in terms of the purpose for which it was collected;

(6) The degree of possibility that denial of the request could unfairly result in determinations adverse to the individual;

(7) The character of the record sought to be corrected or amended; and

(8) The propriety and feasibility of complying with specific means of correction or amendment requested by the individual.

(d) The Commission or the agency will not make an effort to gather evidence for the individual, but does reserve the right to verify the evidence which the individual submits.

(e) Correction or amendment of a record requested by an individual will be denied upon a determination by the System Manager that:

(1) The information submitted by the individual is not accurate or relevant;

(2) The correction or amendment would violate an enacted statute or regulation; or

(3) The individual refuses to provide information which is necessary to process the request to correct or amend the record.

(f) If a request is partially granted and partially denied, the System Manager shall follow the appropriate procedures of this section as to the records within the grant and the records within the denial.

(g) When an agency detects erroneous data in an individual's personnel records or a third party source provides corrected information, it shall correct the record and provide all recipients of such record with the corrected information to the extent that it is relevant to the recipient's uses and deemed feasible to do so.

§ 297.113 Review of initial adverse determination on correction or amendment.

(a) When a request for correction or amendment has been denied initially under § 297.112, the individual may submit a written appeal within 30 days after the date of the initial denial.

(b) A request for review of a denial made by an agency shall be addressed to the Director, Bureau of Manpower Information Systems, U.S. Civil Service Commission, 1900 E Street, N.W., Washington, D.C. 20415, if the information is maintained in a record under the Government-wide systems of personnel records as indicated by § 293.102(c) of this chapter. A request for review of a denial made by an official of the Commission shall be addressed to the Assistant Executive Director for Freedom of Information and Privacy, U.S. Civil Service Commission, 1900 E Street, N.W., Washington, D.C. 20415, if the information is maintained in a record under the Government-wide systems of personnel records as indicated by § 293.102(c) of this chapter, or in a systems of records that is maintained and used primarily within the Commission as indicated by § 293.102(d) of this chapter. The processing of requests will be facilitated if the words "PRIVACY APPEAL" appear in capital letters on both the envelope and the top of the appeal papers. The request not addressed and marked as provided herein will be so marked by Commission or agency personnel when it is so identified, and will be forwarded immediately to the Director, Bureau of Manpower Information Systems, U.S. Civil Service Commission, 1900 E Street, N.W., Washington, D.C. 20415, or the Assistant Executive Director for Freedom of Information and Privacy, U.S. Civil Service Commission, 1900 E Street, N.W., Washington, D.C. 20415, as appropriate. A request that is not properly addressed by the individual will not be deemed to have been "received" for purposes of measuring the time periods in this section until the Director, Bureau of Manpower Information Systems or the Assistant Executive Director for Freedom of Information and Privacy has received it. In each instance when a request so forwarded is received, the Director, Bureau of Manpower Information Systems or the Assistant Executive Director for Freedom of Information and Privacy, as appropriate, shall notify the individual that his or her request was improperly addressed and the date when the request was received at the proper address.

(c) The individual's request papers shall include the following: a copy of the original request for correction or amendment; a copy of the initial denial; and a statement of the reasons why the initial denial is believed to be in error. The request shall be signed by the individual. The record that the individual requests be corrected or amended will be supplied by the System Manager who issued the initial denial. While the foregoing normally will comprise the entire record on request, the System Manager may seek additional information necessary to assure that the final determination is fair and equitable and, in such instances, the additional information will be disclosed to the individual to the greatest extent possible and an opportunity provided for comment thereon.

(d) The Director, Bureau of Manpower Information Systems or the Assistant Executive Director for Freedom of Information and Privacy, as appropriate, shall act upon the request and issue a final determination in writing not later than 30 days (excluding Saturdays, Sundays, and holidays) from the date on which the appeal is received; provided that the Director, Bureau of Manpower Information Systems or the Assistant Executive Director for Freedom of Information and Privacy, as appropriate, may extend the 30 days upon deciding that a fair and equitable review cannot be made within that period, but only if the individual is advised in writing of the reason for the extension and the estimated date by which a final determination will be issued (estimated date should not be later than the 60th day excluding Saturdays, Sundays, and holidays after receipt of appeal unless unusual circumstances, as described in § 297.112(a)(1) are met).

(e) If a request is determined in favor of the individual, the final determination shall include the specific corrections or amendments to be made. A copy thereof shall be transmitted promptly both to the individual and to the System Manager who issued the initial denial. Upon receipt of such final determination, the System Manager promptly shall take the actions set forth in § 297.112(b).

(f) If the request is denied, the final determination shall be transmitted promptly to the individual and state the reasons for the denial. The notice of final determination also shall inform the individual of the following information:

(1) The right of the individual to file a concise statement of reasons for disagreeing with the final determination. Such a statement shall be filed with the Director, Bureau of Manpower Information Systems, U.S. Civil Service Commission, 1900 E Street, N.W., Washington, D.C. 20415, or with the Assistant Executive Director for Freedom of Information and Privacy, U.S. Civil Service Commission, 1900 E Street, N.W., Washington, D.C. 20415, as appropriate. It should identify the date of the final determination and be signed by the individual. The Director, Bureau of Manpower Information Systems or the Assistant Executive Director for Freedom of Information and Privacy, as appropriate, shall acknowledge receipt of such statement and inform the individual of the date it was received;

(2) The fact that any such disagreement statement filed by the individual will be noted in the disputed record and that a copy of the statement will be provided to persons and agencies to which the record is disclosed subsequent to the date of receipt of such statement;

(3) The fact that the Commission will append to any such disagreement statement filed by the individual, a copy of the final determination or summary thereof which also will be provided to persons and agencies to which the disagreement statement is disclosed; and

(4) The right of the individual to judicial review of the final determination under 5 U.S.C. 552a(g)(1)(A), as limited by 5 U.S.C. 552a(g)(5).

(g) In making the final determination, the Director, Bureau of Manpower Information Systems or the Assistant Executive Director for Freedom of Information and Privacy, as appropriate, shall use the criteria set forth in § 297.112(c) of this subpart and shall deny an appeal only the grounds set forth in § 297.112(e).

(h) If an appeal is partially granted and partially denied, the Director, Bureau of Manpower Information Systems or the Assistant Executive Director for Freedom of Information and Privacy, as

appropriate, shall follow the appropriate procedures of this section as to the records within the grant and the records within the denial.

(i) Although a copy of the final determination or a summary thereof will be treated as part of the individual's record for purposes of disclosure in instances where the individual has filed a disagreement statement, it will not be subject to correction or amendment by the individual.

(j) The provisions of § 297.106(d) (2) and (3) apply to the information obtained under paragraphs (c) and (g)(1) of this section.

§ 297.114 Disclosure of record to person other than the individual to whom it pertains.

(a) The Commission or the agency may disclose a record pertaining to an individual to a person other than the individual only in the following instances:

(1) Upon written request by the individual, including authorization under § 297.108(f);

(2) With the prior written consent of the individual;

(3) To a parent or legal guardian under 5 U.S.C. 552a(h);

(4) When required by the Act and not covered explicitly by the provisions of 5 U.S.C. 552a(b);

(5) When permitted under 5 U.S.C. 552a(b) (1) through (11); and

(6) To a survivor of a deceased employee, or annuitant, or someone acting in his or her behalf.

(b) The situations referred to in paragraph (a)(4) of this section include the following:

(1) 5 U.S.C. 552a(c)(4) requires dissemination of a corrected or amended record or notation of a disagreement statement by the Commission in certain circumstances;

(2) 5 U.S.C. 552a(g) authorizes civil action by an individual and requires disclosure by the Commission to the court; and

(3) Section 5(e)(2) of the Act authorizes release of any records or information by the Commission to the Privacy Protection Study Commission upon request of the Chairman of that Commission.

(c) The System Manager or his designee shall make an accounting of each disclosure by him of any record contained in a system of records in accordance with 5 U.S.C. 552a(c) (1) and (2). Except for a disclosure made under 5 U.S.C. 552a(b)(7), the System Manager or his designee shall make such accounting available to the individual, on request submitted in accordance with § 297.107. The System Manager or his designee shall make reasonable efforts to notify any individual when any record in a system of records is disclosed to any person under compulsory legal process, promptly upon being informed that such process has become a matter of public record as required by § 297.110.

§ 297.115 Fees.

(a) The general policy of the Commission is to provide a copy or a portion of a record free of charge to an individual upon request. However, in cases where the records are voluminous the Commission or an agency may, at its discretion, charge a fee when the cost would be in excess of five dollars ($5).

(b) The schedule of fees for copies is prescribed in § 294.107(c) of this chapter. The fees charged must be in accordance with the provisions of paragraphs (a), (b), and (d) of this section.

(c) No fees shall be charged or collected for the following: search for and retrieval of the records; review of the records; making a copy of a record when it is a necessary part of the process of making the record available for review; copying at the initiative of the Commission or an agency without a request from the individual; and transportation of records.

(d) It is the policy of the Commission to provide an individual with one copy of each record or portion thereof corrected or amended pursuant to his or her request without charge as evidence of the correction or amendment.

§ 297.116 Publication of rules and procedures.

(a) The Commission sets forth in this part the rules and procedures for disclosure of personnel records for which it has responsibility.

(b) Agencies shall publish similar rules and procedures consistent with those of the Commission for disclosure of personnel records for which they have responsibility.

§ 297.117 Specific exemptions.

(a) Some systems of records under the Act that are maintained by the Commission contain material subject to exemptions appearing at 5 U.S.C. 552a(k) (1), (2), (5), and (6) relating to national defense and foreign policy materials, civil law enforcement in connection with the administration of the merit system, information obtained from a source who furnished such information under a properly granted promise that the identity of the source would be held in confidence, and to testing and examination materials that are used solely to determine individual qualifications for appointment or promotion in the Federal service. The systems of records published in the Federal Register by the Commission which are within these exemptions are: CSC—8, CSC/GOVT—4, and CSC/GOVT—5. The Commission hereby asserts a claim to specific exemptions of such systems of records. The materials would be exempt from 5 U.S.C. 552a (c)(3), (d), (e)(1), (e)(4) (g), (h), and (i) and (f).

(b) The specific exemptions determined to be necessary and proper with respect to systems of records maintained by the Commission or an agency for the Commission, including the reasons and parts of each system to be exempted, the provisions of the Act from which they are exempted, and the justifications for the exemptions, are as follows:

(1) *Personnel Investigations Records.* All information about an individual in the records that meets the criteria stated in 5 U.S.C. 552a(k) (1), (2), (5), and (6) are exempt from the requirements of 5 U.S.C. 552a (c)(3) and (d) relating to access and contest and making an accounting of disclosure to the individual named in the record for the following reasons:

(i) In that personnel investigations from time to time obtain information relevant to the matter under investigation which is properly classified by another agency and which pertains to national defense and foreign policy, application of exemptions (k)(1) will be required to prevent the individual from gaining access to such information under subsection (d) of the Act;

(ii) In that personnel investigations involve civil law enforcement in connection with the administration of the merit system, the effectiveness of which would be impaired should the individual obtain access to the investigative record of the matter, the application of exemption (k)(2) may be required to prevent the individual from gaining access under subsection (d) of the Act. Also, as the access by the individual to an accounting of disclosures of the record of such an investigation may impair a law enforcement function, the application of the exemptions to subsection (c)(3) of the title will be required;

(iii) In that a personnel investigation can involve information obtained from a source who furnished such information under a properly granted promise that the identity of the source would be held in confidence the application of exemption (k)(5) will be required to honor such a promise should the individual request access to the record under subsection (d); and

(iv) In that personnel investigations in connection with the administration of the examining function of the merit system may involve the collection of test material, the application of exemption (k)(6) will be required to prevent the exposure of such material which would compromise the examining process.

(2) *Personnel Research Test Validation Records and Recruiting, Examining, and Placement Records.* All material and information about an individual that meet the criteria stated in 5 U.S.C. 552a (k)(6) are exempt from the requirements of 5 U.S.C. 552a (c)(3), (d), (e)(1), (e)(4) (g), (h), and (i); and (f) relating to access and contest, making an accounting of disclosure to the individual named in the record, maintenance of information in records, publication of specific material annually in the FEDERAL REGISTER, and provisions regarding agency rules in that portions of this system relate to testing or examination materials that are used solely to determine individual qualifications for appointment or promotion in the Federal service the disclosure of which would compromise the objectivity or fairness of the testing or examination process. The specific materials that are exempted are as follows:

(i) Answer keys;

(ii) Test booklets;

(iii) Test item files;

(iv) Rating sheets;
(v) Rating schedules, including crediting plans;
(vi) Transmutation tables; and
(vii) Ratings given for the purpose of validating examinations.

Title 7—Agriculture

SUBTITLE A—OFFICE OF THE SECRETARY OF AGRICULTURE

PART 1—ADMINISTRATIVE REGULATIONS

Adoption of Privacy Act Regulation

On September 4, 1975, a document was published in the FEDERAL REGISTER (40 FR 40849) proposing to amend Subpart G of 7 CFR Part 1 by issuing § 1.123 (Specific Exemptions) of the Department of Agriculture's (USDA) regulations implementing the Privacy Act of 1974 (5 U.S.C. 552a). Interested parties were given the opportunity to submit, not later than September 19, 1975, written comments on these proposed regulations.

No comments have been received, and the proposed regulation is hereby adopted as set forth below.

This regulation is being made effective less than 30 days after publication for good cause pursuant to 5 U.S.C. 553(d)(3). If this regulation were not effective until after September 27, 1975 (the effective date of the Privacy Act), there would be a period of time in which USDA would be unable to invoke the exemptions to protect records involved in various criminal, civil, and administrative enforcement proceedings.

Effective date: September 27, 1975.

Done at Washington, D.C., this 26 day of September, 1975.

EARL L. BUTZ,
Secretary.

Subpart G of 7 CFR Part 1 is amended by issuing § 1.123 to read as follows:

§ 1.123 Specific Exemptions.

Pursuant to 5 U.S.C. 552a(k), the systems of records (or portions thereof) maintained by agencies of USDA identified below are exempted from the provisions of 5 U.S.C. 552a (c)(3), (d), (e)(1), (e)(4)(G), (H) and (I), and (f). The reasons for exempting each system are set out in the notice for that system published in the FEDERAL REGISTER.

CHAPTER II—CIVIL AERONAUTICS BOARD

[Regulation PR-148, Enactment of Part 310a]

Title 14—Aeronautics and Space

PART 310a—ACCESS TO SYSTEMS OF RECORDS—REGULATIONS AND EXEMPTIONS IMPLEMENTING THE PRIVACY ACT OF 1974

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. September 25, 1975.

By PDR-39/ODR-11,[1] the Board issued a Notice of Proposed Rulemaking to enact a New Part 310a and to amend Part 385, so as to implement the Privacy Act of 1974 by advising of access

[1] Docket 28083, dated July 15, 1975, 40 FR 30283 (July 18, 1975).

and procedures relating to systems of records which the Board maintains containing information about individuals, and which are covered by notices issued by the Board,[2] or, in the case of systems of personnel records, which are covered by government-wide notices issued by the Civil Service Commission.

Having received no comment upon the proposed rule, we have decided to adopt the rule, as proposed, but with a modification of footnote 3 so as to more accurately summarize various reports maintained by the Board in its regulatory capacity.

Since this is a procedural rule, imposing no burden on any person and is required by the Privacy Act of 1974 to be in effect by September 27, 1975, the within rule may become effective on less than 30 days' notice.

Accordingly, the Board hereby enacts a new Part 310a of its Procedural Regulations (14 CFR Part 310a), effective September 27, 1975, as hereinafter set forth:

Sec.
310a.1 Purpose and scope.
310a.2 Definitions.
310a.3 Procedures for requests pertaining to individual records in a record system.
310a.4 Times, places, and requirements for identification of individuals making requests.
310a.5 Disclosure of requested information to individuals.
310a.6 (Reserved)
310a.7 Request for correction or amendment to record.
310a.8 Agency review of request for correction or amendment to record.
310a.9 Appeal of initial adverse agency determination on correction or amendment or other request.
310a.10 Disclosure of record to person other than the individual to whom it pertains.
310a.11 Fees.
310a.12 Penalties.
310a.13 (Reserved)
310a.14 Specific exemptions.

AUTHORITY: Secs. 204(a) of the Federal Aviation Act of 1958, as amended, 72 Stat. 743, 49 U.S.C. 1324, and sections 552a (e)(4) and (f) of the Privacy Act of 1974, 88 Stat. 1899, 5 U.S.C. 552a (e)(4) and (f).

§ 310a.1 Purpose and scope.

(a) This regulation is published pursuant to the Privacy Act of 1974, Pub. L. 93-579 sections 552a (f) and (k), 5 U.S.C. 552a (f) and (k) (hereinafter the "Privacy Act"). It (1) establishes or advises of procedures whereby an individual can (i) request notification of whether the Board maintains or has disclosed a record pertaining to him in any nonexempt system of records, (ii) request a copy or other access to such a record or to an accounting of its disclosure, (iii) request that the record be amended and (iv) appeal any initial adverse determination of any such request; and (2) specifies those systems of records which the Board has determined to exempt from the procedures established by this regulation and from certain provisions of the Privacy Act.

(b) The procedures specified by this Part 310a apply only to a request by an individual. Except as otherwise provided, they govern only records containing personal information maintained in (1) systems of records of which notice has been published by the Board in the FEDERAL REGISTER pursuant to Section 552a(e)(4) of the Privacy Act of 1974 and which have not been exempted from the provisions of this regulation, and (2) those records contained in such systems of records which are not contained in government-wide systems of personnel records of which notice has been published in the Federal Register by the Civil Service Commission.[1] Requests for notification, access and amendment of personnel records maintained by the Board which are contained in systems of records of which notice has been given by the Civil Service Commission are governed by the Commission's notices, Part 297 of the Commission's regulations (5 CFR 297), and internal Board directives established pursuant to the Commission's regulations, and information concerning these procedures may be obtained from the Director, Office of Personnel, Civil Aeronautics Board, 1825 Connecticut Avenue, N.W., Washington, D.C. 20428.[2] Access to records maintained by the Board which are not subject to the requirements of the Privacy Act is governed by Part 310 of this chapter (14 CFR 310).[3]

§ 310a.2 Definitions.

As used in this part:

"Individual" means a natural person who is a citizen of the United States or an alien lawfully admitted for permanent residence.

"Record" means any item of personal information relating to an individual as opposed to information concerning a business entity or activity.

"System of Records" means a grouping of records maintained by the Board of which notice has been published by the Board in the FEDERAL REGISTER pursuant to Section 552a(e)(4) of the Privacy Act of 1974.

§ 310a.3 Procedures for requests pertaining to individual records in a record system.

(a) For records in a system of records of which notice has been given by the Board other than the system entitled "Employee payroll and leave and attendance records and files—CAB," an individual wanting to (1) obtain notification of whether the Board maintains a record pertaining to him in such a system, (2) obtain notification of whether and to whom the Board has disclosed a record for which an accounting of disclosure is required to be kept and made available to him, (3) obtain a copy of a record pertaining to him or the accounting of its disclosure, (4) review a record pertaining to him or the accounting of its disclosure with or without a person of his own choosing to accompany him, shall mail or deliver a request therefor to the Office of the Secretary, Civil Aeronautics Board, 1825 Connecticut Avenue, NW., Washington, D.C. 20428. Such request shall be in writing, shall contain the printed or typewritten name of the individual to whom the records pertains, and if filed by the parents of any minor or the legal guardian of any incompetent person, the printed or typewritten name of the parent or legal guardian and a statement of the relationship between such person and the individual to whom the record pertains, and the signature of the individual making the request and the address to which a reply should be sent. Each request shall state the nature of the information or action desired, and shall identify to the extent feasible the record

---

[2] The proposed notices were subsequently published in 40 FR 33181, August 6, 1975, and 40 FR 40782, September 3, 1975.

[1] Notwithstanding these limitations, any individual who believes himself to be entitled to notice or access to Board records or action concerning them which is not provided by this regulation may obtain a determination as to such entitlement by a request conforming to the requirements of this part.

[2] Most, if not all, of the records in the Board system "Employee payroll and leave and attendance records and files—CAB" appear to be included in the government-wide systems of personnel records for which the Civil Service Commission has given notice. In view of this overlap, this regulation provides that the Civil Service requirements and procedures for notification and access to records maintained in the government-wide systems of personnel records shall apply to records within the system "Employee payroll and leave and attendance records and files—CAB" and establishes other requirements and procedures relating to this system of records, including ones relating to requests for correction or amendment of records in the system, which accord with those applicable to records maintained in government-wide systems.

[3] The Board requires reports from air carriers and other persons which contain information concerning individuals but which are not maintained in "systems of records" within the meaning of the Privacy Act since such records are neither maintained in nor is access gained to them by the name of an individual or by some identifying particular or number assigned to an individual. Rather, their maintenance and access is by name of the air carrier or other business entity to which the information relates. They include the following public records: reports filed pursuant to 14 CFR 241 and 244 of the names and addresses of persons holding more than 5% of the issued and outstanding capital stock or capital of certificated air carriers and air freight forwarders, respectively; reports filed pursuant to 14 CFR 241 of compensation and expenses of persons and firms (other than directors, officers and employees) receiving $20,000 or more per year from certificated air carriers and of directors, officers, supervisors or key personnel of the carriers affiliated with these persons or firms; reports filed pursuant to 14 CFR 241 of security interests of all officers and directors of certificated air carriers and compensation paid principal officers and directors of these carriers; reports filed pursuant to 14 CFR 245 and 246 of ownership of stock by officers, directors and affiliates of air carriers; and reports filed pursuant to 14 CFR 374a with respect to extensions of credit by air carriers for transportation provided to political candidates or persons acting on behalf of candidates.

and system of records which are the subject of the request.

(b) For records in the system of records entitled "Employee payroll and leave and attendance records and files—CAB," an individual wanting to (1) obtain notification of whether the Board maintains a record pertaining to him in this system of records, (2) obtain notification of whether and to whom the Board has disclosed a record for which an accounting of disclosure is required to be kept and made available to him, (3) obtain a copy of a record pertaining to him or the accounting of its disclosure, (4) review a record pertaining to him or the accounting of its disclosure with or without a person of his own choosing to accompany him, shall make a request therefor to the Director, Office of Personnel, Civil Aeronautics Board, 1825 Connecticut Avenue, NW., Washington, D.C. 20428. Such request may be made orally or in writing, shall state the nature of the information or action desired, and shall identify the record which is the subject of the request. If the request is in writing, it shall contain the printed or typewritten name of the individual to whom the record pertains, and, if filed by the parent of any minor or the legal guardian of any incompetent person, the printed or typewritten name of the parent or legal guardian and a statement of the relationship between such person and the individual to whom the record pertains, and the signature of the individual making the request and the address to which a reply should be sent. The Director, Office of Personnel, shall determine such requests and take action concerning them in accordance with the requirements and procedures specified by Part 297 of the regulations of the Civil Service Commission (5 CFR 297) and Board directives thereunder for the determination and action upon requests pertaining to records maintained by the Board which are contained in government-wide systems of personnel records of which the Civil Service Commission has given notice, and shall advise the individual whether an appeal of any adverse determination by him may be appealed within the Board as specified in § 310a.9.[4]

§ 310a.4 Times, places, and requirements for identification of individuals making requests.

Verification of identity of persons making written requests to the Secretary ordinarily will not be required. The signature upon such requests shall be deemed to be a certification by the person signing that he is the individual to whom the record pertains or the parent of a minor or the duly appointed legal guardian of the individual to whom the record pertains. The Secretary may, however, require additional verification of identity as specified by him in any instance in which he deems it advisable.

§ 310a.5 Disclosure of requested information to individuals.

(a) Responses to requests pursuant to § 310a.3(a) will be made by the Secretary with reasonable dispatch. An acknowledgement of the request will normally be sent within 10 days (excluding Saturdays, Sundays and legal public holidays) of its receipt and will indicate when the requested notification or disclosure will be sent, when and where the records will be available for personal inspection, and if a copy of a record has been requested, the number of pages the Board will copy to comply with the individual's request and that the copy will be mailed to the individual or held at the Board for the individual upon receipt of a check or money order payable to the Board for the sum due for copying these documents.

(b) The Secretary shall notify the individual in writing with respect to any adverse determination of a request pursuant to § 310a.3(a), shall specify the reasons therefor, and shall advise of the procedure for appealing such adverse determination to the Managing Director as specified in § 310a.9.

§ 310a.6 [Reserved]

§ 310a.7 Request for correction or amendment to record.

(a) An individual may request amendment of a record pertaining to him in a system of records subject to this Part by mailing or delivering to Director, Office of Personnel, a written request concerning "Employee payroll and leave and attendance records and files—CAB" and to the Secretary a written request concerning all other systems of records maintained by the Board. Such written request shall conform to the requirements of § 310a.3 and shall also state the nature of the information in the record the individual believes to be unnecessary, inaccurate, irrelevant, untimely, or incomplete and the amendment desired, and shall state concisely the reasons therefor.

§ 310a.8 Agency review of request for correction or amendment to record.

(a) Not later than 10 days (excluding Saturdays, Sundays and legal public holidays) after the date of receipt of a request to amend the record, the Secretary or the Director, Office of Personnel, shall acknowledge in writing such receipt and, if a determination has not been made, inform the individual when he may expect to be advised of action taken on the request.

(b) If the Secretary or the Director, Office of Personnel, determines not to grant all or any portion of the request to amend a record, he shall notify the individual in writing and shall specify the reasons therefor, and shall advise of the procedure for appealing such adverse determination to the Managing Director, as specified in § 310a.9, or to the appropriate Civil Service Commission official.

§ 310a.9 Appeal of initial adverse agency determination on correction, or amendment or other request.

(a) Not more than 10 days (excluding Saturdays, Sundays and legal public holidays) after receipt by an individual (1) of an adverse determination by the Secretary concerning any request made under this Part, or (2) of an adverse determination by the Director, Office of Personnel, which is subject to appeal within the Board, the individual may appeal to the Managing Director who has been delegated authority by the Chairman to make determinations on such appeals. The appeal shall be by letter, mailed or delivered to the Office of the Managing Director, Civil Aeronautics Board, 1825 Connecticut Avenue, NW., Washington, D.C. 20428. The letter shall identify the records involved in the same manner as they were identified to the Secretary or the Director, Office of Personnel, shall indicate the dates of the request and adverse determination, and shall indicate the expressed basis for that determination. In addition, the letter of appeal shall state briefly and succinctly the reasons why the adverse determination should be reversed.

(b) The Managing Director shall either determine the appeal or, at his discretion, pass the matter to the Board for its determination. Such determination shall be made not later than 30 days (excluding Saturdays, Sundays and legal public holidays) from the date the individual's letter of appeal is received, unless the Chairman, for good cause shown, extends such 30-day period. If the 30-day period is so extended, the individual shall be notified of the reasons for the extension and the date on which a final determination may be expected.

(c) If the Managing Director or the Board determines that the adverse determination should be reversed, appropriate action shall be taken and the individual shall be notified in writing of that action. If the Managing Director or the Board determines that the adverse determination will not be reversed, the individual shall be notified in writing of that determination, the reasons therefor, and of his right to seek judicial review of the decision pursuant to section 552a(g) of the Privacy Act, 5 U.S.C. 552a(g). If the adverse determination sustained by the Managing Director or the Board denies a request to amend a record, the individual shall also be advised of his right to file a concise statement of his reasons for disagreeing with the refusal to amend which may contain information which the individual believes should be substituted. Such statements shall ordinarily not exceed one page and the Board reserves the right to reject statements of excessive length. Such statements shall be filed with the Secretary within 30 days (excluding Saturdays, Sundays and legal public holidays) of notification of the refusal to amend a record.

(d) A decision by either the Managing Director or the Board pursuant to paragraph (c) of this section is final and will not be subject to petition for reconsideration. It is subject to judicial review in the

[4] Requirements for requests or actions concerning personnel records of which notice has been given by the Civil Service Commission and which have been made applicable by this regulation to "Employee payroll and leave and attendance records and files—CAB" are specified in applicable Civil Service Regulations and Board directives and information concerning them may be obtained from the Director, Office of Personnel.

district court of the United States in which the complainant resides, or has his principal place of business, or in which the Board records are situated, or in the District of Columbia.

§ 310a.10 Disclosure of record to person other than the individual to whom it pertains.

(a) Except as provided by section 552a (b) of the Privacy Act, 5 U.S.C. 552a(b), the written request or prior written consent of the individual to whom a record pertains, or of his parent if a minor, or legal guardian if incompetent, shall be required before such record is disclosed.

(b) If the individual elects to inspect a record in person and desires to be accompanied by another person, the individual shall present to the Secretary or Director, Office of Personnel, a signed statement by him authorizing his record to be disclosed in the presence of the accompanying named person.

§ 310a.11 Fees.

No fees will be charged for the first copy of a record contained in the system of records entitled "Employee payroll and leave and attendance records and files—CAB." The appropriate fees for additional copies of records contained in such system, and for copies or records contained in other systems of records of which notice has been given by the Board, are set forth in Part 389 of this chapter.

§ 310a.12 Penalties.

Title 18 U.S.C. 1001, Crimes and Criminal Procedures, makes it a criminal offense, subject to a maximum fine of $10,000 or imprisonment for not more than 5 years or both, to knowingly and willfully make or cause to be made any false or fraudulent statements or representations in any matter within the jurisdiction of any agency of the United States. Section 552a(i)(3) of the Privacy Act, 5 U.S.C. 552a(i)(3) makes it a misdemeanor, subject to a maximum fine of $5,000, to knowingly and willfully request or obtain any record concerning an individual under false pretenses. Section 552a(i) (1) and (2) of the Privacy Act, 5 U.S.C. 552a(i) (1) and (2) provide penalties for violations by agency employees of the Privacy Act or regulations established thereunder.

§ 310a.13 [Reserved]

§ 310a.14 Specific exemptions.

Pursuant to subsection (k) of the Privacy Act (5 U.S.C. 552a(k)), the following system of records is exempt from subsections (c)(3), (d), (e)(1), (e)(4)(G), (H) and (I) and (f) of section 552a of that Act, and from the provisions of this Part:

(a) Investigatory material compiled for law enforcement purposes—CAB.

PART 385—DELEGATIONS AND REVIEW OF ACTION UNDER DELEGATIONS; NONHEARING MATTERS

Delegations of Authority To Act Under the Privacy Act of 1974

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. September 25, 1975.

For the reasons set forth in PR-148, effective contemporaneously herewith, the CAB hereby amends Part 385 of its Organization Regulations (14 CFR Part 385), effective September 27, 1975, as follows:

1. Amend the Table of Contents by adding, under Subpart B, a description of §§ 385.24 and 385.25, the table as amended to read as follows:

* * * * *

385.24 Delegation to the Secretary.
385.25 Delegation to the Director, Office of Personnel.

* * * * *

2. Amend § 385.12 by adding a new paragraph (e), to read as follows:

§ 385.12 Delegation to the Managing Director.

* * * * *

(e) Receive and determine appeals from adverse determinations by the Secretary or the Director, Office of Personnel, of requests under the Privacy Act of 1974, Pub. L. 93-579, section 552a, 5 U.S.C. 552a, and Part 310a of the Board's Procedural Regulations.

3. Add a new § 385.24 to read as follows:

§ 385.24 Delegation to the Secretary.

The Board hereby delegates to the Secretary the authority to receive and determine pursuant to the Privacy Act of 1974, Pub. L. 93-579, section 552a, 5 U.S.C. 552a and Part 310a of the Board's Procedural Regulations, requests for notification, accounting of disclosure, inspection and amendment of records contained in a system of records of which the Board has published notice other than the system of records entitled "Employee payroll and leave and attendance records and files—CAB."

4. Add a new § 385.25 to read as follows:

§ 385.25 Delegation to the Director, Office of Personnel.

The Board hereby delegates to the Director, Office of Personnel, the authority to:

(a) Receive and determine pursuant to the Privacy Act of 1974, Pub. L. 93-579, section 552a, 5 U.S.C. 552a, and Part 310a of the Board's Procedural Regulations, requests for notification, accounting of disclosure, inspection and amendment of records contained in the system of records entitled "Employee payroll and leave and attendance records and files—CAB."

(b) Receive and determine pursuant to the Privacy Act of 1974, Pub. L. 93-579, section 552a, 5 U.S.C. 552a and Part 297 of the Civil Service Commission Regulations, 5 CFR Part 297, requests for notification, accounting of disclosure, inspection and amendment of records contained in government-wide systems of personnel records maintained by the Board of which the Civil Service Commission has given notice.

Title 29—Labor

CHAPTER XIV—EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

PART 1611—PRIVACY ACT REGULATIONS

Notice is given that the Equal Employment Opportunity Commission hereby amends 29 CFR by establishing Part 1611 which implements the provisions of the Privacy Act of 1974, 5 U.S.C. 552a, with regard to systems of records maintained by the Commission.

These regulations set forth the procedures whereby individuals can request information about, access to, or amendment of records pertaining to them which are contained in a system of records maintained by the Commission. They also set forth the procedures the Commission is to follow in processing these requests.

Notice of the Commission's intent to promulgate these regulations was published in the August 27, 1975, issue of the FEDERAL REGISTER, 40 FR 39377. The period for comment having expired, these regulations are hereby effective September 30, 1975.

These regulations are promulgated under the authority of the Privacy Act of 1974, Pub. L. 93-579, 88 Stat. 1896, 5 U.S.C. 552a, and Section 713(a), 42 U.S.C. 2000e-12(a).

Signed this 23rd day of September, 1975.

LOWELL W. PERRY,
Chairman.

In consideration of the foregoing, 29 CFR is hereby amended by adding Part 1611 to read as follows:

AUTHORITY: 5 U.S.C. 552a.

§ 1611.1 Purpose and scope.

This Part contains the regulations of the Equal Employment Opportunity Commission (Commission) implementing the Privacy Act of 1974, 5 U.S.C. 552a. It sets forth the basic responsibilities of the Commission with regard to the Commission's compliance with the requirements of the Privacy Act (the Act) and offers guidance to members of the public who wish to exercise any of the rights established by the Act with regard to records maintained by the Commission.

§ 1611.2 Definitions.

For purposes of this Part, the terms "individual," "maintain," "record," and "system of records" shall have the meanings set forth in 5 U.S.C. 552a.

§ 1611.3 Procedures for requests pertaining to individual records in a record system.

(a) Any person who wishes to be notified if a system of records maintained by the Commission contains any record pertaining to him or her, or to request access to such records, shall submit a written request in accordance with the instructions set forth in the system notice published in the FEDERAL REGISTER by the Commission for that system of records.[1] This request shall include:

(1) The name of the individual making the request;

(2) The name of the system of records (as set forth in the system notice to which the request relates);

(3) Any other information specified in the system notice; and

(4) When the request is one for access, a statement as to whether the requester desires to make a personal inspection of the records, or be supplied with copies by mail.

(b) Requests pertaining to personnel records contained in government-wide systems of personnel records of which notice has been published by the Civil Service Commission in the FEDERAL REGISTER,[2] shall conform to the requirements of paragraph (a) of this section, and shall be directed to the following officials:

(1) For present or former Commission employees of GS-11 and lesser grade or non-General Schedule employees of equivalent grade, whose normal duty station is or was a District or Regional Office of the Commission, requests shall be directed to the Regional Director having jurisdiction over the duty station. The locations of the Regional Offices are set forth in 29 CFR 1610.21(b).

(2) For all other present or former Commission employees, requests shall be directed to the Director, Office of Personnel, Equal Employment Opportunity Commission, 2401 E Street, N.W., Washington, D.C. 20506.

(c) Any person whose request for access under paragraph (a) of this section is denied, may appeal that denial in accordance with § 1611.5(c).

§ 1611.4 Times, places, and requirements for identification of individuals making requests.

(a) If a person submitting a request for access under § 1611.3 has asked that the Commission authorize a personal inspection of records pertaining to that person, and the appropriate Commission official has granted that request, the requester shall present himself or herself at the time and place specified in the Commission's response or arrange another, mutually convenient time with the appropriate Commission official.

(b) Prior to inspection of the records, the requester shall present sufficient personal identification (e.g., driver's license, employee identification card social security card, credit cards). If the requester is unable to provide such identification, the requester shall complete and sign in the presence of a Commission official a signed statement asserting his or her identity and stipulating that he or she understands that knowingly or willfully seeking or obtaining access to records about another individual under false pretenses is a misdemeanor punishable by fine up to $5,000.

(c) Any person who has requested access under § 1611.3 to records through personal inspection, and who wishes to be accompanied by another person or persons during this inspection, shall submit a written statement authorizing disclosure of the record in their presence.

(d) A request filed by the parent of any minor or the legal guardian of any incompetent person should state the relationship of the requester to the individual to whom the record pertains, the present sufficient identification and, if not evident from information already available to the Commission, present appropriate proof of the relationship or guardianship.

(e) A person making a request pursuant to a power of attorney must possess a specific power of attorney to make that request.

§ 1611.5 Disclosure of requested information to individuals.

(a) Upon receipt of request for notification as to whether the Commission maintains a record about an individual and/or request for access to such record:

(1) The appropriate Commission official shall acknowledge such request in writing within 10 working days of receipt of the request. Wherever practicable, the acknowledgement should contain the notification and/or determination required in paragraph (a)(2) of this section.

(2) The appropriate Commission official shall provide, within 30 working days of receipt of the request, written notification to the requester as to the existence of the records and/or a determination as to whether or not access will be granted. In some cases, such as where records have to be recalled from the Federal Records Center, notification and/or a determination of access may be delayed. In the event of such a delay, the Commission official shall inform the requester of this fact, the reasons for the delay, and an

estimate of the date on which notification and/or a determination will be forthcoming.

(3) If access to a record is granted, the determination shall indicate when and where the record will be available for personal inspection. If a copy of the record has been requested, the Commission official shall mail that copy or retain it at the Commission to present to the individual, upon receipt of a check or money order in an amount computed pursuant to § 1611.11.

(4) When access to a record is to be granted, the appropriate Commission official will normally provide access within 30 working days of receipt of the request unless, for good cause shown, he or she is unable to do so, in which case the requester shall be informed within 30 working days of receipt of the request as to those reasons and when it is anticipated that access will be granted.

(5) The Commission shall not deny any request under § 1611.3 concerning the existence of records about the requester in any system of records it maintains, or any request for access to such records, unless that system is exempted from the requirements of 5 U.S.C. 552a in §§ 1611.13 or 1611.14.

(6) If the Commission receives a request pursuant to § 1611.3 for access to records in a system of records it maintains which is so exempt, the appropriate Commission official shall determine if the exemption is to be asserted.

(b) Upon request, the appropriate Commission official shall make available an accounting of disclosures pursuant to 5 U.S.C. 552a(c)(3).

(c) If access to a record is denied pursuant to paragraphs (a)(2) or (b) of this section, the determination shall specify the reasons therefor, and shall advise the individual that he or she may appeal that denial in writing to the Chairman, Equal Employment Opportunity Commission, 2401 E Street, N.W., Washington, D.C. 20506. When taking such an appeal, the requester should clearly label the envelope "Personal Information Access Appeal."

(d) In the event that upon an appeal under paragraph (c) of this section, access to a record is denied by the Chairman, the Chairman shall advise the individual of his or her right to bring a civil action in federal district court to seek review of the denial, in accordance with 5 U.S.C. 552a(g).

(e) Nothing in 5 U.S.C. 552a or this Part allows an individual access to any information compiled in reasonable anticipation of a civil action or proceeding.

§ 1611.6 Special procedures: Medical records.

In the event the Commission receives a request pursuant to § 1611.3 for access to medical records (including psychological records) whose disclosure the appropriate Commission official determines could be harmful to the individual to whom they relate, he or she may refuse to disclose the records directly to the requester but shall transmit them to a physician designated by that individual.

§ 1611.7 Request for correction or amendment to record.

(a) Any person who wishes to request correction or amendment of any record pertaining to him or her which is contained in a system of records maintained by the Commission, shall submit that request in writing in accordance with the instructions set forth in the system notice for that system of records. If the request is submitted by mail, the envelope should be clearly labeled "Personal Information Amendment." The request shall include:

(1) The name of the individual making the request;

(2) The name of the system of records (as set forth in the system notice to which the request relates);

(3) A description of the nature (e.g., modification, addition or deletion) and substance of the correction or amendment requested; and

(4) Any other information specified in the system notice.

(b) Any person submitting a request pursuant to paragraph (a) of this section shall include sufficient information in support of that request to allow the Commission to apply the standards set forth in 5 U.S.C. 552a(e).

(c) All requests to amend pertaining to personnel records continued in government-wide systems of personnel records of which notice has been published by the Civil Service Commission in the FEDERAL REGISTER shall conform to the requirements of paragraphs (a) and (b) of this section and shall be directed to the appropriate officials as indicated in § 1611.3(b).

(d) Any person whose request under paragraph (a) of this section is denied may appeal that denial in accordance with § 1611.9(a).

§ 1611.8 Agency review of request for correction or amendment of record.

(a) When the Commission receives a request for amendment or correction under § 1611.7(a), the appropriate Commission official shall acknowledge that request in writing within 10 working days of receipt. She or she shall promptly either:

(1) Determine to grant all or any portion of a request for correction or amendment; and:

(i) Advise the individual of that determination;

(ii) Make the requested correction or amendment; and

(iii) Inform any person or agency outside the Commission to whom the record has been disclosed, and where an accounting of that disclosure is maintained in accordance with 5 U.S.C. 552a(c), of the occurrence and substance of the correction or amendments, or;

(2) Inform the requester of the refusal to amend the record in accordance with the request; the reason for the refusal; and the procedures whereby the requester can appeal the refusal to the Chairman of the Commission.

(b) If the Commission official informs the requester of the determination within the 10-day deadline, a separate acknowledgement is not required.

(c) In conducting the review of a request for correction or amendment, the Commission official shall be guided by the requirements of 5 U.S.C. 552a(e).

(d) In the event that the Commission receives a notice of correction or amendment to information in a record contained in a system of records which it maintains, it shall comply with paragraph (a)(1) of this section in the same manner as if the Commission itself had made the original correction or amendment.

§ 1611.9 Appeal of initial adverse agency determination on correction or amendment.

(a) If the appropriate Commission official determines not to grant all or any portion of a request for correction or amendment, the requester may appeal this determination in writing to the Chairman, Equal Employment Opportunity Commission, 2401 E Street, N.W., Washington, D.C. 20506. When taking such an appeal, the requester should clearly label the envelope "Personal Information Amendment Appeal."

(b) The Chairman shall make a final determination with regard to an appeal submitted under paragraph (a) of this section not later than 30 working days from the date on which the individual requests a review, unless, for good cause shown, the Chairman extends this 30-day period and so notifies the requester together with an estimate of the date on which a final determination will be made. The authority to extend this period may not be delegated. Such extension should be utilized only in exceptional circumstances and should not normally exceed 30 days.

(c) In conducting the review of an appeal submitted under paragraph (a) of this section, the Chairman shall be guided by the requirements of 5 U.S.C. 552a(e).

(d) If the Chairman determines to grant all or any portion of a request on an appeal submitted under paragraph (a) of this section, he or she shall so inform the requester, and the appropriate Commission official shall comply with the procedures set forth in § 1611.8(a)(1).

(e) If the Chairman determines in accordance with paragraphs (b) and (c) of this section not to grant all or any portion of a request on an appeal submitted under paragraph (a) of this section, he or she shall inform the requester:

(1) Of this determination and the reasons therefor;

(2) Of the requester's right to file a concise statement of reasons for disagreement with the refusal of the Commission;

(3) That such statements of disagreement will be made available to anyone

to whom the record is subsequently disclosed, together with (if the Commission deems it appropriate) a brief statement summarizing the Commission's reasons for refusing to amend the record;

(4) That prior recipients of the disputed record will be provided with a copy of the statement of disagreement together with (if the Commission deems it appropriate) a brief statement of the Commission's reasons for refusing to amend the record, to the extent that an accounting of disclosures is maintained under 5 U.S.C. 552a(c); and

(5) Of the requester's right to file a civil action in federal district court to seek a review of the Chairman's determination, in accordance with 5 U.S.C. 552a(g).

(f) The Commission shall ensure that any statements of disagreement submitted by a requester are handled in accordance with paragraphs (e) (3) and (4) of this section.

§ 1611.10 Disclosure of record to person other than the individual to whom it pertains.

The Commission shall not disclose any record which is contained in a system of records it maintains, by any means of communication to any person or to another agency, except pursuant to a written request by, or with the prior written consent of the individual to whom the record pertains, unless the disclosure is authorized by one or more provisions of 5 U.S.C. 552a(b).

§ 1611.11 Fees.

(a) No fee shall be charged for searches necessary to locate records. No charge shall be made if the total fees authorized are less than $1.00. Fees shall be charged for services rendered under this Part as follows:

(1) Copies made by photocopy device or otherwise (per page), $.05.

(2) Attestation of each record as a true copy, $.75.

(3) Certification of each record as a true copy under the seal of the Commission, $1.00.

(b) All required fees shall be paid in full prior to issuance of requested copies of records. Fees are payable to "Treasury of the United States."

§ 1611.12 Penalties.

The criminal penalties which have been established for violations of the Privacy Act of 1964 are set forth in 5 U.S.C. 552a(i). Penalties are applicable to any officer or employee of the Commission; to contractors and employees of such contractors who enter into contracts with the Commission on or after September 27, 1975, and who are considered to be employees of the Commission within the meaning of 5 U.S.C. 552a(m); and to any person who knowingly and willfully requests or obtains any record concerning an individual from the Commission under false pretenses.

§ 1611.13 General Exemptions. [Reserved]

§ 1611.14 Specific Exemptions.

Pursuant to subsection (k)(2) of the Act, 5 U.S.C. § 552a(k)(2), the following system of records is exempt from subsections (c)(3), (d), (e)(1), (e)(4) (G), (H), and (I), and (f) of the Act, and from the provisions of this Part.

(a) Charge of Discrimination Case Files.[3]

IMPLEMENTATION OF PRIVACY ACT OF 1974

Systems of Records and Notice of Routine Uses Thereof

The systems of records of the Equal Employment Opportunity Commission, listed below, are hereby noticed in accordance with the requirements of 5 U.S.C. 552a(e)(b) (Privacy Act of 1974, Pub. L. 93-579 Stat. 1896):

1. Affirmative Action Plan Employee Data
2. Attorney Referral List
3. Charge of Discrimination Case Files
4. Commissioners' Biographical File
5. Correspondence and Congressional Inquiries
6. Employee Alcoholism and Drug Abuse Records
7. Employee Pay and Leave Records
8. Employee Travel Records
9. Labor-Management Negotiated Agreements
10. Voluntary Programs Skills Bank
11. Correspondence File
12. Officials' Biographical File
13. Employee Productivity Listing

Pursuant to 5 U.S.C. 552a(e)(11), the routine uses of each of these named sustems of records were set out for public comment in the August 27, 1975, issue of the Federal Register, 40 F.R. 39219. As a result of comments received, there have been several minor amendments to the notices, as well as the following major charges:

1. The addition of three new systems of records:
   (a) a new EEO-11, Correspondence File;
   (b) EEO-12, Officials' Biographical File; and
   (c) EEO-13, Employee Productivity listing:
2. The addition of two routine uses for EEOC-3, Charge of Discrimination Case Files. The newly added uses are (a) disclosing information in the case files to certain persons in contemplation of or in connection with Title VII litigation, and (b) cooperating with Title VII litigants and prospective Title VII litigants by allowing, when requested, access to information in other case files involving the same respondent, provided that the information in other case files is relevant or material to the private litigant's case.

The period for comment having expired, this notice is hereby effective upon publication in the Federal Register.

Signed this 23rd day of September, 1975.

Lowell W. Perry
Chairman.

DEPARTMENT OF DEFENSE

Defense Supply Agency

PRIVACY ACT EXEMPTIONS

Notice of Proposed Rulemaking

The Director of the Defense Supply Agency proposes to designate the following system of records maintained by the Defense Supply Agency for exemptions under the specified provisions of the Privacy Act of 1974 (Public Law 93–579).

Any person interested in the exemptions proposed herein may participate in this proposed rulemaking by submitting written data, views or arguments on the proposed exemptions to the Director, Defense Supply Agency, Cameron Station, Alexandria, Va. 22314, on or before October 30, 1975.

All systems of records maintained by the Defense Supply Agency shall be exempt from the requirements of 5 U.S.C. 552a(d) pursuant to 5 U.S.C. 552a(k)(1) to the extent that the system contains any information properly classified under Executive Order 11652, and which is required by the Executive Order to be kept secret in the interest of national defense or foreign policy. This exemption, which may be applicable to parts of all systems of records, is necessary because certain record systems not otherwise specifically designated for exemptions herein may contain isolated items of information which have been properly classified.

WALLACE H. ROBINSON, JR.,
Lieutenant General, USMC,
Director.

EXEMPTED RECORD SYSTEMS

(General Exemptions)

ID: S150.20 DSAH–T.

Sys Name: Security Violation Files.

Exemption: This system of records is exempted from the following provisions of the title 5, United States Code, section 552a: (c)(3), (c)(4), (d), (e)(1), (e)(2), (e)(3), (e)(4)(G), (e)(4)(H), (e)(4)(I), (e)(5), (e)(8), (f), and (g).

Authority: 5 U.S.C. 552a(j)(2).

Reasons: Granting individuals access to information collected and maintained by this component relating to the enforcement of criminal laws could interfere with orderly investigations, with the orderly administration of justice, and possibly enable suspects to avoid detection or apprehension. Disclosure of this information could result in the concealment, destruction or fabrication of evidence and jeopardize the safety and well being of informants, witnesses and their families, and law enforcement personnel and their families. Disclosure of this information could also reveal and render ineffectual investigative techniques, sources and methods used by this component and could result in the invasion of the privacy of individuals only incidentally related to an investigation.

The exemption of the individual's right of access to his records and the reasons therefor necessitate the exemption of this system of records from the requirements of the other cited provisions.

EXEMPTED RECORD SYSTEMS

(Specific Exemptions)

ID: S153.01 DSAH–T.

Sys name: Personnel Security Files.

Exemption: This system of records is exempt from the following provisions of title 5, United States Code, section 552a: subsection (d).

Authority: 5 U.S.C. 552a(k)(1), (2), and (5).

Reasons: Material contained in this record system which is properly and currently classified under the provisions of Executive Order 11652 must be strictly controlled, the disclosure of which would have an adverse effect on the National defense. Also, investigatory material is exempt to the extent that the disclosure of such material would reveal the identity of a source who furnished the information to the Government under an express promise that the identity of the source would be held in confidence, or prior to the effective date of the Act, under an implied promise that the identity of the source would be held in confidence. This exemption will protect the identities of certain sources who would be otherwise unwilling to provide information to the Government.

EXEMPTED RECORD SYSTEMS

(General Exemptions)

ID: S160.50 DSAH–T.

Sys name: Criminal Incidents/Investigations File.

Exemption: This system of records is exempted from the following provisions of the title 5, United States Code, section 552a: (c)(3), (c)(4), (d), (e)(1), (e)(2), (e)(3), (e)(4)(G), (e)(4)(H), (e)(4)(I), (e)(5), (e)(8), (f), and (g).

Authority: 5 U.S.C. 552a(j)(2).

Reasons: Granting individuals access to information collected and maintained by this component relating to the enforcement of criminal laws could interfere with orderly investigations, with the orderly administration of justice, and possibly enable suspects to avoid detection or apprehension. Disclosure of this information could result in the concealment, destruction or fabrication of evidence and jeopardize the safety and well being of informants, witnesses and their families, and law enforcement personnel and their families. Disclosure of this information could also reveal and render ineffectual investigative techniques, sources and methods used by this component and could result in the invasion of the privacy of individuals only incidentally related to an investigation.

The exemption of the individual's right of access to his records and the reasons therefor necessitate the exemption of this system of records from the requirements of the other cited provisions.

JOINT BOARD FOR THE ENROLLMENT OF ACTUARIES

[20 CFR Part 903]

ACCESS TO RECORDS

The Joint Board for the Enrollment of Actuaries (Joint Board) proposes to adopt regulations to implement the Privacy Act of 1974 (5 U.S.C. 552a) and to publish such regulations as a new Part 903 to Chapter VIII, Title 20 CFR.

In general, the proposed regulations prescribe the means by which any individual may learn whether records pertaining to such individual are being maintained by the Joint Board and limitations on access to such records by anyone, including the individual to whom they pertain. They provide for annual publication in the FEDERAL REGISTER of notices concerning the existence of, and nature of information contained in, systems of records maintained by the Joint Board and the intended uses of such information in such systems. They provide procedures by which an individual may obtain access to records maintained by the Joint Board, which pertain to such individual, procedures by which such individual may request amendment of such records and procedures for the resolution of disputes when a request for amendment is denied. A schedule of fees for the copying of records pertaining to individuals is also included.

The proposed regulations also designate persons who are responsible for making determinations concerning notification, access and requests for amendment of records.

On Wednesday, August 27, 1975, the Joint Board published in the FEDERAL REGISTER (40 FR 39387) a proposed rule exempting five systems of records from the provisions of 4 U.S.C. 552a. The proposed sections, §§ 903.1–903.3, have been incorporated into this proposed rule as § 903.8(a)–(c). The text is unchanged.

Interested parties may submit comments by September, 1975, addressed to Office of the Executive Director, Joint Board for the Enrollment of Actuaries, c/o U.S. Department of the Treasury, Washington, D.C. 20220. All comments received by October 30, 1975 will be considered prior to issuance of these regulations in final form on or before October 30, 1975.

Any such comments will be available for public inspection upon request therefor.

DONALD S. GRUBBS, JR.,
Chairman, Joint Board for the
Enrollment of Actuaries.

It is therefore proposed that a new Part 903 be added to Chapter VIII of Title 20 of the Code of Federal Regulations to read as follows:

PART 903—ACCESS TO RECORDS

Subpart A—Records Pertaining to Individuals

Sec.

903.1 Purpose and scope of regulations.
903.2 Definitions.
903.3 Procedures for notification with respect to records regarding individuals.
903.4 Procedures for access to records regarding individuals.
903.5 Procedures for amendment of records regarding individuals-format, agency review and appeal from initial adverse agency determination.
903.6 Fees.
903.7 Guardianship.
903.8 Exemptions.

AUTHORITY: The provisions of this Subpart A of Part 903 issued under 5 U.S.C. 552a.

§ 903.1 Purpose and scope of regulations.

The regulations in this subpart are issued to implement the provisions of the Privacy Act of 1974 (5 U.S.C. 552a). The regulations relate to all records maintained by the Joint Board for the Enrollment of Actuaries (Joint Board) which are identifiable by individual name or identifier and all systems of such records which are retrievable by name or other identifier. They do not relate to personnel records of Government employees, which are under the jurisdiction of the Civil Service Commission, and, thus, sub-

ject to regulations issued by such Commission. The regulations set forth the procedures by which individuals may request notification of whether the Joint Board maintains or has disclosed a record pertaining to them or may seek access to such records maintained in any non-exempt system of records, request amendment of such records, and appeal any initial adverse determination with respect to any such request.

§ 903.2 Definitions.

(a) The term "agency" includes any executive department, military department, Government corporation, Government controlled corporation, or other establishment in the executive branch of the Government (including the Executive Office of the President), or any independent regulatory agency (see 5 U.S.C. 552(e));

(b) The term "individual" means a citizen of the United States or an alien lawfully admitted for permanent residence;

(c) The term "maintain" includes maintain, use, collect or disseminate;

(d) The term "record" means any item, collection, or grouping of information about an individual that is maintained by the Joint Board, including, but not limited to, his education, financial transactions, medical history, and criminal or employment history and that contains his name, or the identifying number, symbol, or other identifying particular assigned to the individual such as a finger or voice print or a photograph;

(e) The term "system of records" means a group of any records under the control of the Joint Board from which information is retrieved by the name of the individual or by some identifying number, symbol, or other identifying particular assigned to the individual;

(f) The term "routine use" means, with respect to the disclosure of a record, the use of such record for a purpose which is compatible with the purpose for which it was collected.

§ 903.3 Procedures for notification with respect to records regarding individuals.

(a) *Procedures for notification.* The systems of records maintained by the Joint Board are listed annually as required by the Privacy Act of 1974. Any individual, who wishes to know whether a system of records contains a record regarding him, may write to the Executive Director, Joint Board for the Enrollment of Actuaries, c/o U.S. Department of the Treasury, Washington, D.C. 20220. Requests may also be delivered personally to the Executive Director, Joint Board for the Enrollment of Actuaries, 2401 E Street, NW., Suite 1537, Washington, D.C. between the hours of 9 a.m. and 5 p.m. on workdays. Any such inquiry will be acknowledged in writing within 10 days (excluding Saturdays, Sundays and legal public holidays) of receipt of the request.

(b) *Requests.* A request for notification of whether a record exists shall:

(1) Be made in writing and signed by the person making the request, who must be the individual about whom the record is maintained, or his duly authorized representative (see § 903.7);

(2) State that it is made pursuant to the Privacy Act, 5 U.S.C. 552a, or the regulations contained in this Part;

(3) Furnish the name of the system of records with respect to which notification is sought, as specified in the systems notices published in the FEDERAL REGISTER, Volume 40, No. 167;

(4) Mark "Privacy Act Request" on the request and on the envelope in which the request is contained;

(5) Be addressed as specified in paragraph (a) of this section, unless personally delivered; and

(6) Meet the requirements set forth in paragraph (c) of this section.

(c) *Verification of identity.* Notification of the existence of records in certain systems maintained by the Joint Board will not be made unless the individual requester's identity is verified. Where applicable, requirements for verification of identity are specified in the notices of systems published in the FEDERAL REGISTER, Volume 40, No. 167.

(d) *Date of receipt of request.* A request for notification with respect to records shall be considered to have been received on the date on which the requirements of paragraphs (a), (b) and (c) of this section have been satisfied. Requests for notification shall be stamped with the date of receipt by the Office of the Executive Director.

(e) *Exemptions.* The procedures prescribed under paragraphs (a), (b) and (c) of this section shall not apply to: (1) Systems of records exempted pursuant to 5 U.S.C. 552a(k); (2) information compiled in reasonable anticipation of a civil action or proceeding (see 5 U.S.C. 552a(d)(5)); or (3) information regarding an individual which is contained in, and inseparable from, another individual's record.

(f) *Notification of determination.*— (1) *In general.* The Executive Director shall, except as otherwise provided in this paragraph, notify an individual requester as to whether or not a system of records contains a record regarding such individual. Such notification shall be made within 30 days (excluding Saturdays, Sundays and legal public holidays) after the date of receipt of the request, as determined in accordance with paragraph (d) of this section. If it is not possible to respond within 30 days, the Executive Director will inform the requester, stating the reasons for the delay (e.g., volume of records involved, need to consult other agencies, or the difficulty of the legal issues involved) and when a response will be dispatched.

(2) *Denial of request.* When it is determined that a request for notification with respect to records will be denied (whether in whole or in part or subject to conditions or exceptions), the person making the request shall be so notified by mail in accordance with paragraph (f)(1) of this section. The letter of notification shall set forth the name and title or position of the responsible official.

(3) *Records exempt in whole or in part.* (i) When an individual requests notification with respect to records concerning himself which have been compiled in reasonable anticipation of a civil action or proceeding either in a court or before an administrative tribunal, the Executive Director will neither confirm nor deny the existence of the record but shall advise the individual only that no record with respect to the existence of which he is entitled to be notified pursuant to the Privacy Act of 1974 has been identified.

(ii) Requests for records which have been exempted from the requirement of notification pursuant to 5 U.S.C. 552a (k)(2) shall be responded to in the manner provided in paragraph (f)(3)(i) of this section.

§ 903.4 Procedures for access to records regarding individuals.

(a) *Access.* The Executive Director of the Joint Board shall, upon request by any individual to gain access to a record regarding him which is contained in a system of records maintained by the Joint Board, permit that individual and, upon his/her request, a person he/she chooses to accompany him/her, to review the record and have a copy made of all or any portion thereof in a form comprehensible to the individual, except that the Executive Director may require the individual to furnish a written statement authorizing discussion of that individual's record in the accompanying person's presence. Such request may be addressed to the Executive Director, Joint Board for the Enrollment of Actuaries, c/o U.S. Department of the Treasury, Washington, D.C. 20220. Requests may also be delivered personally to the Executive Director, Joint Board for the Enrollment of Actuaries, 2401 E Street, N.W., Suite 1537, Washington, D.C., between the hours of 9 a.m. and 5 p.m. on workdays. Any such inquiry will be acknowledged in writing within 10 days (excluding Saturdays, Sundays and legal public holidays) of receipt of the request (see paragraph (e) of this section).

(b) *Requests.* A request for access to records shall:

(1) Be signed in writing by the person making the request, who must be the individual about whom the record is maintained, or his duly authorized representative (see § 903.7);

(2) State that it is made pursuant to the Privacy Act, 5 U.S.C. 552a, or the regulations contained in this Part;

(3) Furnish the name of the system of records to which access is sought, as specified in the systems notices published in the FEDERAL REGISTER, Volume 40, No. 167;

(4) Mark "Privacy Act Request" on the request and on the envelope in which the request is contained;

(5) Be addressed as specified in paragraph (a) of this section, unless personally delivered;

(6) State whether the requester wishes to inspect the records or desires to have

a copy made and furnished without inspecting them;

(7) State, if the requester desires to have a copy made, the requester's agreement to pay the fees for duplication as ultimately determined in accordance with § 903.6; and

(8) Meet the requirements set forth in paragraph (c) of this section.

(c) *Verification of identity.* Access to records contained in certain systems maintained by the Joint Board will not be granted unless the individual requester's identity is verified. Where applicable, requirements for verification of identity are specified in the notices of systems published in the FEDERAL REGISTER, Volume 40, No. 167.

(d) *Exemptions.* The procedures specified in paragraphs (a), (b) and (c) of this section shall not apply to: (1) Systems of records exempted pursuant to 5 U.S.C. 552a(k); (2) information compiled in reasonable anticipation of a civil action or proceeding (see 5 U.S.C. 552a(d)(5)); or (3) information regarding an individual which is contained in, and inseparable from, another individual's record.

(e) *Date of receipt of request.* A request for access to records shall be considered to have been received on the date on which the requirements of paragraphs (a), (b) and (c) of this section have been satisfied. Requests for access, and any separate agreement to pay, shall be stamped with the date of receipt by the Office of the Executive Director. The latest of such stamped dates will be deemed to be the date of receipt of the request.

(f) *Notification of determination.*—(1) *In general.* Notification of determinations as to whether to grant access to records requested will be made by the Executive Director of the Joint Board. The notification of the determination shall be made within 30 days (excluding Saturdays, Sundays and legal public holidays) after the date of receipt of the request, as determined in accordance with paragraph (g) of this section. If it is not possible to respond within 30 days, the Executive Director will inform the requester, stating the reason(s) for the delay (e.g., volume of records requested, need to consult other agencies, or the difficulty of the legal issues involved) and when a response will be dispatched. (See 5 U.S.C. 552a(d) and (f)).

(2) *Granting of access.* When it has been determined that the request for access will be granted—(i) and a copy requested; such copy in a form comprehensible to him shall be furnished promptly, together with a statement of the applicable fees for duplication as set forth elsewhere in these regulations (See § 903.6); and (ii) and the right to inspect has been requested, the requester shall be promptly notified in writing of the determination, and when and where the requested records may be inspected. An individual seeking to inspect records concerning himself may be accompanied by another individual of his own choosing. The individual seeking access shall be required to sign the required form indicating that the Joint Board is authorized to discuss the contents of the subject record in the accompanying person's presence. If, after making the inspection, the individual making the request desires a copy of all or a portion of the requested records, such copy in a form comprehensible to him shall be furnished upon payment of the applicable fees for duplication as prescribed by § 903.6. Fees shall not be charged where they would amount, in the aggregate, to less than $3.00. (See 5 U.S.C. 552a(d) and (f)).

(3) *Denial of request.* When it is determined that the request for access to records will be denied (whether in whole or in part or subject to conditions or exceptions), the person making the request shall be so notified by mail in accordance with paragraph (f)(1) of this section. The letter of notification shall contain a statement of the reasons for not granting the request as made, set forth the name and title or position of the responsible official and advise the individual making the request of the right to file suit in accordance with 5 U.S.C. 552a(g)(1)(B).

(4) *Records exempt in whole or in part.*

(i) When an individual requests records concerning himself which have been compiled in reasonable anticipation of a civil action or proceeding either in a court or before an administrative tribunal, the Executive Director will neither confirm nor deny the existence of the record but shall advise the individual only that no record available to him pursuant to the Privacy Act of 1974 has been identified.

(ii) Requests for records which have been exempted from disclosure pursuant to 5 U.S.C. 552a(k)(2) shall be responded to in the manner provided in paragraph (f)(4)(i) of this section unless a review of the information indicates that the information has been used or is being used to deny the individual any right, privilege or benefit for which he is eligible or to which he would otherwise be entitled under federal law. In that event, the individual shall be advised of the existence of the information but such information as would identify a confidential source shall be extracted or summarized in a manner which protects the source to the maximum degree possible and the summary extract shall be provided to the requesting individual.

§ 903.5 Procedures for amendment of records regarding individuals-format, agency review and appeal from initial adverse agency determination.

(a) *In general.* Subject to the application of exemptions promulgated by the Joint Board, in accordance with 5 U.S.C. 552a(k), the Executive Director shall, in conformance with 5 U.S.C. 552a(d)(2), permit an individual to request amendment of a record pertaining to him. Any such request shall be addressed to the Executive Director, Joint Board for the Enrollment of Actuaries, U.S. Department of the Treasury, Washington, D.C. 20220 or delivered personally to the Executive Director, Joint Board for the Enrollment of Actuaries, 2401 E Street, N.W., Suite 1537, Washington, D.C. Any request for amendment of records or any appeal from the initial denial of a request which does not fully comply with the requirements of this section will not be deemed subject to the time constraints of paragraph (e) of this section, unless and until amended so as to comply. However, the Executive Director shall forthwith advise the requester in what respect the request or appeal is deficient so that it may be resubmitted or amended. (See 5 U.S.C. 552a (d) and (f)).

(b) *Form of request to amend records.* In order to be subject to the provisions of this section, a request to amend records shall:

(1) Be made in writing and signed by the person making the request, who must be the individual about whom the record is maintained, or his duly authorized representative (See § 903.7);

(2) State that it is made pursuant to the Privacy Act, 5 U.S.C. 552a or these regulations;

(3) Mark "Privacy Act Amendment Request" on the request and on the envelope; and

(4) Reasonably describe the records which the individual desires to have amended, including, to the best of the requester's knowledge, dates of letters requesting access to such records previously and dates of letters in which notification concerning access was made, if any, and the individual's documentation justifying the correction. (See 5 U.S.C. 552a (d) and (f)).

(c) *Date of receipt of request.* A request for amendment of records pertaining to an individual shall be deemed to have been received for purposes of this subpart when the requirements of paragraphs (a) and (b) of this section have been satisfied. The Office of the Executive Director shall stamp the date of receipt of the request thereon. (See 5 U.S.C. 552a (d) and (f)).

(d) *Review of requests to amend records.* The Executive Director shall:

(1) Not later than 10 days (excluding Saturdays, Sundays, and legal public holidays) after the date of receipt of such request, acknowledge in writing such receipt; and

(2) Promptly, either—(i) make any correction of any portion of a record which the individual believes and the Executive Director agrees is not accurate, relevant, timely, or complete; or (ii) inform the individual of the refusal to amend the record in accordance with his request, the reason for the refusal, and that he may request that the Joint Board review such refusal. (See 5 U.S.C. 552a (d) and (f)).

(e) *Administrative appeal.*—(1) *In general.* The Joint Board shall permit individuals to request a review of initial decisions made under paragraph (d) of this section when an individual disagrees with a refusal to amend his record. (See 5 U.S.C. 552a(d), and (g)(1)).

(2) *Form of request for administrative review of refusal to amend record.* At any time within 35 days after the date of the notification of the initial decision described in paragraph (d)(2)(ii) of this section, the requester may submit a request for review of such refusal to the official specified in the notification of the initial decision. The appeal shall:

(i) Be made in writing stating any arguments in support thereof and be signed by the person to whom the record pertains, or his duly authorized representative (See § 903.7);

(ii) Within 35 days of the date of the initial decision: (A) be addressed and mailed to the Joint Board for the Enrollment of Actuaries, c/o U.S. Department of the Treasury, Washington, D.C. 20220; or (B) be personally delivered to the Executive Director, Joint Board for the Enrollment of Actuaries, 2401 E Street, N.W., Suite 1537, Washington, D.C. on workdays between the hours of 9 a.m. and 5 p.m.;

(iii) Have clearly marked on the appeal and on the envelope, "Privacy Act Amendment Appeal";

(iv) Reasonably describe the records requested to be amended; and

(v) Specify the date of the initial request to amend records, and the date of the letter giving notification that the request was denied. (See 5 U.S.C. 552a (d) and (f)).

(3) *Date of Receipt.* Appeals shall be promptly stamped with the date of their receipt by the Office of the Executive Director and such stamped date will be deemed to be the date of receipt for all purposes of this section. The receipt of the appeal shall be acknowledged within 10 days from the date of receipt (unless the determination on appeal is dispatched in 10 days, in which case, no acknowledgment is required) by the Joint Board and the requester is advised of the date of receipt established by the foregoing and when a response is due in accordance with this paragraph. (See 5 U.S.C. 552a (d) and (f)).

(4) *Review of administrative appeals from denial of requests to amend records.* The Joint Board shall complete the review and notify the requester of the final agency decision within 30 days (exclusive of Saturdays, Sundays and legal public holidays) after the date of receipt of such appeal, unless it extends the time for good cause shown. If such final agency decision is to refuse to amend the record, in whole or in part, the requester shall also be advised of his right: (i) to file a concise "Statement of Disagreement" setting forth the reasons for his disagreement with the decision which shall be filed within 35 days of the date of the notification of the final agency decision and (ii) to seek judicial review of the final agency decision under 5 U.S.C. 552a(g)(1)(A). (See 5 U.S.C. 552a (d), (f) and (g)(1)).

(5) *Notation on record and distribution of statements of disagreement.* The Executive Director is responsible, in any disclosure containing information about which an individual has filed a "Statement of Disagreement", occurring after the filing of the statement under (4) above for clearly noting any portion of the record which is disputed and providing copies of the statement and, if deemed appropriate, a concise statement of the Joint Board's reasons for not making the amendments requested, to persons or other agencies to whom the disputed record has been disclosed. (See 5 U.S.C. 552a(d)(4)).

(f) *Records not subject to correction.* The following records are not subject to correction or amendment by individuals:

(i) Transcripts or written statements made under oath;

(ii) Transcripts of Grand Jury proceedings, judicial or quasi-judicial proceedings which form the official record of those proceedings;

(iii) Pre-sentence reports comprising the property of the courts but maintained in agency files;

(iv) Records pertaining to the determination, the collection and the payment of federal taxes; and

(v) Records duly exempted from correction by notice published in the FEDERAL REGISTER.

§ 903.6 Fees.

Charges for copies of records made pursuant to Part 903 of this chapter will be at the rate of $0.10 per copy. For records not susceptible to photocopying, e.g., over-size materials, photographs, etc., the amount charged will be the actual cost of copying. Only one copy of each record requested will be provided. No charge will be made unless the charge as computed above would exceed $3 for each request or related series of requests. If a fee in excess of $25 is required, the requester will be notified that the fee must be tendered before the records will be copied.

§ 903.7 Guardianship.

The guardian of a person judicially determined to be incompetent shall, in addition to establishing the identity of the person he represents, establish his own guardianship by furnishing a copy of a court order establishing the guardianship and may thereafter act on behalf of such individual. (See 5 U.S.C. 552a(h)).

§ 903.8 Exemptions.

(a) *Names of systems:* (1) JBEA—Enrollment Files.

(2) JBEA—Application Files.

(3) JBEA—General Information.

(4) JBEA—Charge Case Inventory Files.

(5) JBEA—Suspension and Termination Files.

(b) *Provisions from which exempted:* These systems contain records described in 5 U.S.C. 552a(k), the Privacy Act of 1974. Exemption will be claimed for such records only where appropriate from the following provisions: subsections (c)(3), (d)(1), (2), (3) and (4), (e)(1), (e)(4)(G), (H) and (I), and (f)(1), (2), (3), (4) and (5) of 5 U.S.C. 552a.

(c) *Reasons for claimed exemptions:* (1) The Privacy Act of 1974 creates several methods by which individuals may learn of and obtain records containing information on such individuals and consisting of investigatory material compiled for law enforcement purposes. These methods are as follows: subsection (c)(3) allows individuals to discover if other agencies are investigating such individuals; subsections (d)(1), (e)(4)(H) and (f)(2), (3) and (5) establish the ability of individuals to gain access to investigatory material compiled on such individuals; subsections (d)(2), (3) and (4), (e)(4)(H) and (f)(4) presuppose access and enable individuals to contest the contents of investigatory material compiled on these individuals; and subsections (e)(4)(G) and (f)(1) allow individuals to determine whether or not they are under investigation. Because these subsections are variations upon the individual's ability to ascertain whether his civil or criminal misconduct has been discovered, these subsections have been grouped together for purposes of this notice.

(2) (i) The Joint Board believes that imposition of the requirements of subsection (c)(3), which requires that accountings of disclosures be made available to individuals, would impair the ability of the Joint Board and other investigative entities to conduct investigations of alleged or suspected violations of the regulations governing the performance of actuarial services with respect to plans to which the Employee Retirement Income Security Act (ERISA) applies, and of civil or criminal laws. Making the accountings of disclosures available to individuals enables such individuals to identify entities investigating them and thereby to determine the nature of the violations of which they are suspected. With such knowledge, individuals would be able to alter their illegal activities, destroy or alter evidence of such activities and seriously impair the successful completion of investigations. For these reasons, the Joint Board seeks exemption from the requirements of subsection (c)(3).

(ii) With respect to subsections (d)(1), (e)(4)(H), and (f)(2), (3) and (5), the Joint Board believes that access to investigatory material would prevent the successful completion of investigations. Individuals who gain access to investigatory material involving them discover the nature and extent of the violations of regulations, and of civil and criminal laws, of which they are suspected. By gaining access, such individuals also learn the facts developed during investigations. Knowledge of these matters enables these individuals to destroy or alter evidence which would otherwise have been used against them. In addition, knowledge of the facts and suspected violations gives individuals, who are committing ongoing violations, or who are about to commit violations of regulations, or of civil or criminal laws, the opportunity to temporarily postpone the commission of the violations or to effectively disguise the commission of these violations. Material compiled on investigated individuals reveals investi-

gative techniques and procedures, disclosure of which enables such individuals to structure their illegal activities so as to escape detection. Further, such material may contain, or by its very nature reveal, the identity of confidential sources. When the identities of confidential sources are revealed, they may be subjected to various forms of reprisal. If confidential sources of information are subjected to actual reprisals or fear thereof, they may become reluctant to provide information necessary to identify or prove the guilt of persons who violate regulations, or civil or criminal laws. Further, the protections afforded by the above-referenced subsections are unnecessary because the Joint Board may not deny enrollment or suspend or terminate the enrollment of an individual to perform actuarial services until it has provided such individual with due process safeguards. For the reasons stated in this subparagraph, the Joint Board seeks exemptions from the requirements of subsections (d)(1), (e)(4)(H), and (f)(2), (3) and (5).

(iii) With respect to subsections (d)(2), (3) and (4), (e)(4)(H), and (f)(4), the Joint Board believes that the imposition of these requirements, which presuppose access and provide for amending records, would impair the ability to conduct investigations and would be unnecessary for the same reasons stated in the preceding subparagraph (2)(B). Those reasons herein are incorporated by reference. Therefore, the Joint Board seeks exemption from the requirements of subsections (d)(2), (3) and (4), (e)(4)(H), and (f)(4).

(iv) With respect to subsections (e)(4)(G) and (f)(1), the Joint Board believes that informing individuals that they are the subjects of a particular system or systems of records would impair the ability of the Joint Board and its agents to successfully complete investigations of suspected or alleged violators of the regulations governing the performance of actuarial services with respect to plans to which ERISA applies. Individuals who learn that they are suspected of violating said regulations are given the opportunity to destroy or alter evidence needed to prove the alleged violations. Such individuals may also be able to impair investigations by temporarily suspending or restructuring the activities which place them in violation of said regulations. Further, as noted in preceding subparagraph (2)(B) and incorporated by reference herein, the procedural requirements imposed on the Joint Board by ERISA make the protections afforded by subsections (e)(4)(G) and (f)(1) unnecessary. For these reasons, the Joint Board seeks exemptions from the requirements of subsections (e)(4)(G) and (f)(1).

(v) Subsection (e)(1) of the Privacy Act of 1974 requires that the Joint Board maintain in its records only information that is relevant and necessary to accomplish a purpose of the Office required to be accomplished by statute or by executive order of the President. The Joint Board believes that imposition of said requirement would seriously impair its ability, and the abilities of its agents and other investigative entities to effectively investigate suspected or alleged violations of regulations and of civil or criminal laws. The Joint Board does not initiate inquiries into indviduals' conduct unless it receives information evidencing violation by such individuals of the regulations governing performance of actuarial services with respect to plans to which ERISA applies. Sources of such information may be unfamiliar with the Joint Board's interpretations of said regulations and, therefore, may not always provide only relevant and necessary information. Therefore, it may often be impossible to determine whether or not information is relevant and necessary. For these reasons, the Joint Board seeks exemptions from the requirement of subsection (e)(1).

(vi) Subsection (e)(4)(I) of the Privacy Act of 1974 requires the publication of the categories of sources of records in each system of records. The Joint Board believes that imposition of said requirement would seriously impair its ability to obtain information from such sources for the following reasons. Revealing such categories of sources could disclose investigative techniques and procedures and could cause sources to decline to provide information because of fear of reprisal, or fear of breaches of promises of confidentiality. For these reasons, the Joint Board seeks exemptions from the requirement of subsection (e)(4)(I).

PRIVACY PROTECTION STUDY COMMISSION

PRIVACY ACT OF 1974

Proposed Notices of Record Systems

The following Notices of Record Systems were drafted as prescribed by section e(4) of the Privacy Act of 1974, and the routine uses thereof are hereby offered for public comment. These Record Sytems are the only ones in the Commission's inventory. Interested parties have until October 31, 1975, to submit comments which should be addressed to the Executive Director, Privacy Protection Study Commission.

Signed the 24th day of September, 1975.

Carole Parsons
Executive Director

PPSC—1

System name: Commission Member and Staff Personnel Records—PPSC—1

System location: 2120 L Street, N.W., Suite 424, Washington, D.C. 20506

Categories of individuals covered by the system: Commission members, individuals employed by PPSC, and applicants for employment.

Categories of records in the system: Contains copies of biographic background information, personnel records, payroll information, time and attendance records, consultants' employment files and files of applicants for employment.

Authority for maintenance of the system: Privacy Act of 1974, P.L. 93-579, Section 5.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Identification of PPSC members and personnel, their employment records and records of applicants for employment. Used by Commission members, the Executive Director, the General Counsel, the Administrative Officer, and the Public Information Officer. Files on current employees and commissioners may contain biographic background information, the disclosure of which would not constitute a clearly unwarranted invasion of personal privacy and may therefore be made available to the press and the public.

A record from a system of records maintained by the PPSC may be disclosed to a federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

In the event that a system of records maintained by PPSC to carry out its functions indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether federal, state, local charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, rule, regulation or order issued pursuant thereto.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Information is stored in file folders.

Retrievability: Information is retrieved by name.

Safeguards: Information other than biographic background information and attendance reports is stored in locked file drawers.

Retention and disposal: Information is retained during PPSC's existence and then stored with the National Archives.

System manager(s) and address: Administrative Officer, Privacy Protection Study Commission, Suite 424, 2120 L Street, N. W., Washington, D. C. 20506

Notification procedure: Address inquiries to the Public Information Officer.

Record access procedures: Address inquiries to the Public Information Officer.

Record source categories: Individual to whom the record pertains, from previous employers and from generally available research material.

PPSC—2

System name: Letters of contact with the Commission—PPSC—2.

System location: Privacy Protection Study Commission, 2120 L Street, N. W., Suite 424, Washington, D. C. 20506.

Categories of individuals covered by the system: Individuals who as individuals have directed correspondence to the Commission.

Categories of records in the system: Contains letters received by the Commission expressing interest in the work of the Commission, and bringing matters relating to the Commission's work to its attention.

Authority for maintenance of the system: Privacy Act of 1974, PL93-579, Section 5.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Used by the members, and staff of the Commission in order to identify issues subject to its study and be aware of comment on the Commission's work.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Information is stored in file folders.

Retrievability: Information is retrieved by name.

Safeguards: Information is contained in locked file drawer.

Retention and disposal: Information is retained during PPSC's existence and then stored with the National Archives.

System manager(s) and address: Public Information Officer, 2120 L Street, N. W., Suite 424, Washington, D. C. 20506

Notification procedure: Address inquiries to the Public Information Officer.

Record access procedures: Address inquiries to the Public Information Officer.

Contesting record procedures: Address inquiries to the Public Information Officer.

Record source categories: Individual to whom the record pertains.

CONSUMER PRODUCT SAFETY COMMISSION

PRIVACY ACT OF 1974

Notices of Systems of Records

Notice is hereby given that the Consumer Product Safety Commission, in accordance with 5 U.S.C. 552a(e) (4) and (11), section 3 of the Privacy Act of 1974, (P.L. 93-579) proposes to adopt the following notices of systems of records which it maintains which contain information about individuals. Interested persons are requested to submit written comments regarding these notices on or before October 30, 1975. Comments should be submitted, preferably in five copies, to the Secretary, Consumer Product Safety Commission, Washington, D.C. 20207. Received comments may be seen in the Office of the Secretary, 10th Floor, 1750 K Street, N.W., Washington, D.C. during business hours (8:30 a.m. to 5 p.m.) Monday through Firday.

This notice does not include those systems of records existing within the Commission for which other Federal agencies have assumed responsibility for publishing a Government-wide notice. The primary example is the publication of systems of records pertaining to Federal employee personnel records by the United States Civil Service Commission. Any notice of a system of records inadvertently omitted from this notice will be published as an amendment at a later date.

Dated: September 24, 1975.

Sadye E. Dunn,
Secretary,

Consumer Product Safety Commission.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

PENSION AND WELFARE PLANS

Annual Information Returns/Reports

The Internal Revenue Service and the Department of Labor have developed proposed annual information returns/reports to be filed by an employer or plan administrator of a pension or welfare benefit plan as required by section 104 of the Employee Retirement Income Security Act of 1974 and section 6058(a) of the Internal Revenue Code of 1954. The forms will be used for common reporting to both agencies.

In the early stages of development of the draft annual return/report forms, simplified forms were proposed for both (1) Keogh pension plans with fewer than 100 participants and (2) all other pension and welfare plans with fewer than 100 participants. A separate form has been developed for Keogh plans with fewer than 100 participants, containing items which relate uniquely to Keogh pension plans. This form (5500–K) is considerably shorter than the form for all other plans. In developing the reporting forms for all other pension and welfare plans, the Department and the Service were able to reduce the information required to the extent that the questions now contained in proposed Form 5500 (to be used by all welfare plans and by all pension plans except Keogh plans filing Form 5500–K) are equally applicable to both large and small pension plans. Therefore, no separate form is proposed for non-Keogh plans and welfare plans with fewer than 100 participants. However, based upon the differing nature of welfare plans, such plans will not be required to answer certain questions on Form 5500. In addition, an opinion of an independent qualified public accountant will not be required for either pension or welfare plans with fewer than 100 participants.

The proposed forms, reproduced in this issue of the FEDERAL REGISTER, are as follows:

Form 5500, Annual Return/Report of Employee Benefit Plans (to be filed for all plans, other than Keogh plans filing Form 5500–K).

Form 5500–K, Annual Return/Report of Employee Pension Benefit Plan(s) (to be filed for plans with fewer than 100 participants, at least one of whom is an owner-employee).

Schedule A (Form 5500), Insurance Information (to be filed for each defined benefit, defined contribution, and welfare benefit plan which is wholly or partly insured).

Schedule B (Form 5500), Actuarial Information (to be filed for all pension benefit plans subject to the minimum funding standards of section 412 of the Internal Revenue Code or Part 3 of Title I of the Employee Retirement Income Security Act).

Because of the extensive changes made to pension and welfare plan reporting requirements by the Employee Retirement Income Security Act of 1974, both the Internal Revenue Service and the Department of Labor are interested in receiving written comments and suggestions for improving the proposed forms and instructions prior to final publication. The public, practitioner groups, and other interested parties or organizations are invited to submit comments.

Copies of this issue of the FEDERAL REGISTER, containing the proposed forms, may be obtained by writing or calling, Distribution Manager, A:FM:P, Room 1237, Internal Revenue Building, 1111 Constitution Avenue N.W., Washington, D.C. 20224, Telephone (202) 964-3132, or Public Information Office, Room N5641, New Department of Labor Building, 200 Constitution Avenue N.W., Washington, D.C. 20216, Telephone (202) 523–7408.

Interested parties should note that the comments period closes on October 30, 1975.

Three copies of any comments or recommendations should be sent to the Chairman, Tax Forms Coordinating Committee, Room 1515, Internal Revenue Building, 1111 Constitution Avenue NW., Washington, D.C. 20224.

ALVIN D. LURIE,
Assistant Commissioner (Employee Plans and Exempt Organizations), Internal Revenue Service.

Instructions for Form 5500 (November 1975)

Annual Return/Report of Employee Benefit Plan

(Code references are to the Internal Revenue Code of 1954. ERISA refers to the Employee Retirement Income Security Act of 1974.)

Who Must File

Each plan administrator or employer who maintains an employee pension benefit plan (defined benefit or defined contribution plan), including plans to which contributions have been discontinued (sometimes referred to as "frozen" plans or "wasting trusts"), covered by Part I, Title I or Title II of ERISA must file an annual return/report with both the Department of Labor (DOL) and the Internal Revenue Service (IRS).

Each administrator of a welfare benefit plan covered by Part I, Title I of ERISA must file an annual report with DOL only.

Exception: *A welfare benefit plan having fewer than 100 participants at all times during the plan year is not required to file an annual return (report) if: (1) benefits are paid as needed solely from the general assets of the employer or employee organization maintaining the plan, (2) benefits are provided exclusively through insurance contracts or policies issued by an insurance company or similar organization which is qualified to do business in any state, the premiums for which are paid directly by the employer or employee organization from its general assets, or partly from its general assets and partly from contributions by its employees or members (which are forwarded by the employer or employee organization within 3 months of receipt), or (3) both.*

Plans excluded from coverage under Title I of ERISA include governmental plans, certain church plans, plans maintained solely for the purpose of complying with workmen's compensation, unemployment compensation, or disability insurance laws, plans maintained outside the U.S. primarily for the benefit of persons substantially all of whom are nonresident aliens, and unfunded excess benefit plans.

All governmental and church plans must file an annual return/report with IRS only; certain church plans must also file an annual return/report with DOL.

Employers who maintain annuities under section 403(b) of the Code and or trusts under section 408(c) of the Code must file an annual report with DOL only.

Single Employer.—An individual annual report is to be filed for each employee benefit plan maintained by an employer or employee organization for its employees, members or officers. This means that an employer who has adopted, for example, two separately covered pension plans and three separately covered welfare plans would need to file five reports.

Master and Prototype Plans.—A separate report is to be filed for each employer who maintains a master, prototype, trade or association plan.

Multiemployer.—A separate report is to be filed for each multiemployer plan as defined in sections 414(f) of the Code and 3(37) of ERISA. Contributing employers are not to file individually, either with DOL or IRS, with respect to such plans.

Controlled Group of Corporations and Common Control Trades or Businesses (Section 414(b) and (c) of the Code).—One return/report is to be filed for each benefit plan. An individual employer is not required to file with DOL or IRS any report or return with respect to such plan.

Multiple-Employer Plan.—If more than one employer adopts the same plan and such employers are not members of the same controlled group, not under common control and the plan is not a multiemployer plan, one return/report must be filed for each employer.

See General Instructions for Information concerning penalties for failure to file an annual registration or annual return/report.

General Information

Section 6058 of the Code and section 104 of ERISA provide that each plan administrator/employer (sole proprietor, partnership, corporation, association, trust, exempt organization or other employer) who maintains an employee benefit plan subject to Title I or II of ERISA must file, annually, information concerning each such plan with IRS and DOL.

In order to reduce duplication of reporting and the burden of compliance with ERISA by plan administrators and employers, the IRS and DOL have, pursuant to section 3004 of ERISA, designed a joint annual return/report form.

DOL Form D–2, which was filed to report information on plans under the Welfare and Pension Plans Disclosure Act, is obsolete for plan years beginning on and after January 1, 1975.

IRS Forms 4848, 4848A, 4849 and Schedule A (Form 4848), which were filed to report on funded plans of deferred compensation, are obsolete for taxable years ending on and after December 31, 1975 and for plan years ending in such taxable year. With respect to industry- or area-wide union negotiated plans, the above forms are obsolete for plan years ending on and after December 31, 1975.

The new DOL–IRS forms are Form 5500, Annual Return/Report of Employee Benefit Plan, and Form 5500–K, Annual Return/Report of Employee Pension Benefit Plan(s) (with fewer than 100 participants, and with at least one owner-employee).

In addition, Form 5501, Annual Return for Funded Plans of Deferred Compensation, must be filed with IRS only.

General Instructions

A. What to File.—Form 5500, Annual Return/Report of Employee Benefit Plan, must be filed annually to report for all plans except plans which have both (i) fewer than 100 participants, at all times during the plan year, and (ii) at least one owner-employee participant. This form must be filed with both IRS and DOL.

Form 5500–K, Annual Return/Report of Employee Pension Benefit Plans(s), must be filed, in lieu of Form 5500, annually for owner-employee (Keogh) plans that have fewer than 100 participants at all times during the plan year and at least one owner-employee participant. This form must be filed with both IRS and DOL.

Exception: *A Keogh plan in which no common-law employee participates should file with IRS only.*

Schedule A (Form 5500), Insurance Information, should be attached to Forms 5500 and 5500–K in every case where any benefits under the plan are provided by an insurance company, insurance service or other similar organization.

Schedule B (Form 5500), Actuarial Information, should be attached to Form 5500 or 5500–K for most defined benefit plans. See instructions for Schedule B.

Form 5504, Statement in Support of Deduction for Payments to Defined Benefit and Defined Contribution Plans, should be attached to Form 5500. Form 5504 should be attached only to forms filed with IRS.

Form 5505, Statement in Support of Deduction for Payments made on Behalf of Self-Employed Individuals to Defined Benefit and Defined Contribution Plans, should be attached to Form 5500. Form 5505 should be attached only to forms filed with IRS.

Accountant's statement.—An independent qualified public accountant shall offer an opinion as to whether the financial information in items 15 and 16 has been presented fairly in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year. Such opinion should be based on an examination conducted in accordance with generally accepted auditing standards, and shall involve such tests of the books and records of the plan as are considered necessary by the independent qualified public accountant. The accountant shall also offer his opinion as to whether the schedules for item 17 of Form 5500 present fairly, and in all material respects, the information contained therein when considered in conjunction with the financial statements taken as a whole.

The accountant's opinion is required only for plans with 100 or more participants and shall be made a part of the annual report.

Accountant's footnotes should accompany the financial statements, where appropriate, concerning significant changes in the plan and the impact of the changes on benefits; a description of material lease commitments and contingent liabilities; a description of agreements and transactions with persons known to be parties-in-interest; a general description of priorities upon termination of the plan; and any other matters necessary to fully and fairly present the financial statements of the plan.

Form 5501, Annual Return for Funded Plans of Deferred Compensation, must be filed on a taxable year basis by every employer who maintains more than one plan of deferred compensation. Attached thereto should be copies of all Forms 5500 for plans whose plan years ended with or within such taxable year.

Employers who file a return/report on Form 5500–K only are not required to file Form 5501 with respect to such plan.

An employer who contributes only to a multiemployer plan is not required to file Form 5501.

Code section 403(b) annuity need only complete items 1 through 6, 9, 10 and 20.

Code section 408(c) trust need only complete items 1 through 6, 9, 10 and 20.

B. When to File.—Forms 5500 and 5500–K must be filed with DOL for plan years beginning on or after January 1, 1975.

Forms 5500 and 5500–K must be filed with IRS for plan years ending in 1975 and later only if the employer's taxable year in which falls the end of such plan year ends on or after December 31, 1975. If the employer's taxable year ends prior to December 31, 1975, all plan information should be filed with IRS on Forms 4848 and 4849 and Schedule A (Form 4848) or Form 4848A.

When to File with DOL.—File all required forms and schedules for each plan as follows:

For a single-employer plan whose plan year ends with the employer's taxable year or within 4 months before the end of such taxable year, file on or before the 15th day of the 5th month following the close of the employer's taxable year.

For example, if an employer's taxable year ends December 31st and the plan year ends August 31st, the plan return/report must be filed on or before May 15th.

For all other plan years, file on or before 135 days following the close of the plan year.

When to File with IRS.—File all required forms and schedules on or before the 15th day of the 5th month following the close of:

(1) The employer's taxable year, in case of a single-employer plan or

(2) The plan year, in the case of a plan with more than one employer.

C. Where to File.—All **DOL forms and schedules** should be mailed to:

Caution: *ERISA imposes penalties for failure to furnish complete information and failure to file statements and returns (reports).*

A penalty of $1 (not to exceed $5,000) for each participant for whom a registration statement (required of certain plans) is not filed. See section 6652(e)(1) of the Code. Effective for plan years beginning after December 31, 1975.

A penalty of $1 (not to exceed $1,000) for each day for failure to file a notification of change of status of a plan. See section 6652(e)(2) of the Code. Effective for plan years beginning after December 31, 1975.

A penalty of $10 (not to exceed $5,000) for each day for failure to file annual returns in connection with certain plans of deferred compensation, certain trusts and annuities and bond purchase plans. See section 6652(f) of the Code. Effective for plan years beginning after September 2, 1974.

Caution: *The following penalties which are imposed by ERISA will be administered by DOL:*

Any individual who willfully violates any provision of Part 1 of Title I of ERISA shall upon conviction be fined not more than $5,000 or imprisoned not more than one year, or both. See section 501 of ERISA.

A penalty up to $10,000 or 5 years imprisonment, or both, is provided for any person who makes any false statement or representation of fact knowing it to be false, or knowingly conceals, covers up, or fails to disclose any fact required by ERISA. See section 111 of ERISA.

Specific Instructions For Form 5500

The following instructions are set out for specific line items, if there is need to further explain the line item.

1(a). Enter the name and address of the plan sponsor. In all cases where the plan covers only the employees of one employer, enter the name of the employer.

The term "plan sponsor" means—

(i) the employer in the case of an employee benefit plan established or maintained by a single employer,

(ii) the employee organization in the case of a plan established or maintained by an employee organization or,

(iii) in the case of a plan established or maintained by two or more employers or jointly by one or more employers and one or more employee organizations, the association, committee, joint board of trustees, or other similar group of representatives of the parties who establish or maintain the plan.

1(b). Enter the employer identification number (EIN) assigned to the plan sponsor/employer.

Employers and plan administrators who do not have an EIN should apply for one on Form SS–4, available from any IRS or Social Security Administration office. Send Form SS–4 to the same Internal Revenue Service Center to which this form is sent.

1(c). Enter business telephone number.

1(d). For single-employer plans, enter the day the employer's taxable year ends. For example, if the taxable year is a calendar year, enter December 31. For plans with more than one employer, enter "NA."

1(e). From the list of business codes in the instructions, enter the one that best describes the nature of the employer's business. If more than one employer is involved, enter the business code for the predominant business activity.

2(a). If the document constituting the plan appoints or designates a plan administrator, enter the name and address.

The term "administrator" means—

(i) the person or a group of persons specifically so designated by the terms of the instrument under which the plan is operated,

(ii) if an administrator is not so designated, the plan sponsor/employer or,

(iii) in the case of a plan for which an administrator is not designated and plan sponsor cannot be identified, such other person as prescribed by regulations of the Secretary of Labor.

2(b). A plan administrator as defined in 2(a) above must have an EIN for reporting purposes. Enter the plan administrator's EIN here. If the plan administrator has no EIN, see 1(b) above.

3. Make an entry only if during the year there was a change in the name, EIN or address of the plan sponsor, or in the name, EIN or address of the plan administrator. If there has been no change in any item above, enter "NA."

4. Check only one box. A single-employer plan is a plan which is maintained by one employer or one employee organization. See section 414(b), (c) and (f) of the Code or 3(37) of ERISA for definitions of entities other than a single-employer plan.

5(a). Enter the formal name of the plan or sufficient information to identify the plan.

5(b). Enter the three digit number the employer or plan administrator assigned to the plan. All welfare plan numbers will start at 501. All other plans start at 001.

6(a). Check only one box to indicate the type of plan. If the plan provides more than one type of benefit, such as fixed and unit, check "Other" and specify.

Welfare plans check (viii) only.

7. The term "participant" means any employee or former employee of an employer, or any member or former member of an employee organization, who is or may become eligible to receive a benefit of any type from an employee benefit plan which covers employees of such employer or members of such organization, or whose beneficiaries may be eligible to receive any such benefit.

The term "beneficiary" means a person designated by a participant, or by the terms of an employee benefit plan, who is or may become entitled to a benefit thereunder.

For welfare plans, dependents are considered to be neither participants nor beneficiaries.

8(b). Section 104(a)(1)(D) of ERISA requires that the administrator file with DOL any material modifications in the terms of the plan and any other change in the information contained in the plan description. Form EBS–1 must be used to report these changes.

8(c). Enter date of most recent amendment regardless of when made.

8(d). No amendment which reduces the accrued benefits of any participant shall take effect unless notice of such amendment has been filed with the Secretary of Labor. See section 302(c)(8) of ERISA.

9. If a resolution to terminate the plan has been adopted or if the plan has been terminated, enter the effective date of termination or proposed termination. Also indicate whether Form xxxx or a copy of the determination letter the District Director issued concerning the termination is attached. If no determination has been made, you must attach completed Form xxxx. If the determination letter was issued after the close of the plan year, you may attach it instead of Form xxxx.

10. If this plan was involved in a merger or consolidation, it is necessary to show what other plan or plans were involved.

11(a). Check if benefits are provided solely by trust funds or partly by trust funds and partly by insurance contracts.

13. If there has been any change in the appointment of any trustee, qualified public accountant, insurance carrier, enrolled actuary, administrator, investment manager, or custodian attach statement, on a sheet of paper the same size as this form, disclosing the name of the individual who was changed and the reason for such change.

14. Set out the required information for each fiduciary and/or persons such as consultant, broker, trustee, accountant, insurance carrier, actuary, administrator, investment manager, or custodian who rendered services to the plan.

If the payment was made to an organization or association, enter the name of such organization or association.

Do not include (1) persons who performed solely ministerial duties or received only minimal compensation, (2) persons whose sole compensation in relation to the plan consists of insurance fees and commissions listed in Schedule A.

15. All plans involving a trust or separately maintained fund including plans partially or fully funded by contracts with insurance companies, insurance service or other similar organizations must complete the financial information set out in items 15 and 16. The term "current value" means fair market value where available and otherwise the fair value as determined in good faith by a trustee or a named fiduciary pursuant to the terms of the plan and in accordance with regulations of the Secretary of Labor, assuming an orderly liquidation at the time of such determination.

If "current value" is not readily available for the beginning of the plan year of this report, use book value and so indicate by footnote to financial statement.

In columns headed "Acquisition" and "Disposition" show the gross value of all purchases and sales. If the same asset were purchased and sold in the plan year, show both transactions in their respective columns. Beginning assets plus or minus acquisitions and dispositions will not necessarily equal the ending balance.

15(e). Show value of building and other depreciable property used in the operation of the plan. Buildings and other property held for investment should be shown in (c) or (d) above.

15(f)(i). Enter the amount shown on line 7 of Schedule A. If two or more Schedules A are attached, enter the sum of the lines 7 for all Schedules A.

15(f)(ii). Enter the amount shown on line 6(e) of Schedule A. If two or more Schedules A are attached, enter the sum of the lines 6(e) for all Schedules A.

15(j)(i). Enter total amount of claims which have been processed and approved for payment directly from the trust but have not been paid.

16(b). Show current value of securities or other property contributed to the plan.

16(f). Show the amount the trust received for surrendered insurance contracts.

16(i). If distributions include securities or other property, show the current value in this figure.

16(k). Include here such items as amount paid for legal services, day care services, training and apprenticeship services.

17(a). If "Yes," set out each investment in the following or similar format using the same size paper as this form:
Assets held for investment purposes, as of the end of the plan year.
Note: *In column a., place an asterisk (*) on the line of each identified person who is a party-in-interest to the plan.*

a.	b. Identity of issuer, borrower, lessor or similar party	c. Description of investment including maturity date, rate of interest, collateral, par or maturity value	d. Cost	e. Current value

17(b). If "Yes," set out each transaction with the information set forth below in the following or similar format using the same size paper as this form:

a. Identity of party involved	b. Relationship to plan, employer or other party-in-interest	c. Description of transactions including maturity date, rate of interest, collateral, par or maturity value	d. Purchase price	e. Selling price	f. Lease rental	g. 18(f). If "Yes," list on a sheet of paper the same size as this form, the amounts of such losses, the amount recovered for each loss from the bonding company, and the amount recovered from the individual causing the loss. The individual causing the loss need not be identified in your answer. (If the amounts do not equal the total loss sustained, explain.)

Example

Amount of Losses	Amount recovered from bonding company	Amount recovered from individual causing the loss
$5,000.00	$3,000.00	$2,000.00

19. The term "prohibited group" means the employees of the employer who are officers, shareholders or highly compensated.

The term "rank-and-file employees" means the employees of the employer who are not in the prohibited group.

23. If you checked "No" for (a) or (b), you should review the plan to see that coverage does not result in discrimination in favor of employees who are officers, shareholders or highly compensated.

The term "party in interest" means, as to an employee benefit plan—

(A) any fiduciary (including, but not limited to, any administrator, officer, trustee, or custodian), counsel, or employee of such employee benefit plan;

(B) a person providing services to such plan;

(C) an employer any of whose employees are covered by such plan;

(D) an employee organization any of whose members are covered by such plan;

(E) an owner, direct or indirect, of 50 percent or more of—

(i) the combined voting power of all classes of stock entitled to vote or the total value of shares of all classes of stock of a corporation,

(ii) the capital interest or the profits interest of a partnership, or

(iii) the beneficial interest of a trust or unincorporated enterprise,

which is an employer or an employee organization described in subparagraph (C) or (D);

(F) a relative of any individual described in subparagraph (A), (B), (C), or (E);

(G) a corporation, partnership, or trust or estate of which (or in which) 50 percent or more of—

(i) the combined voting power of all classes of stock entitled to vote or the total value of shares of all classes of stock of such corporation,

(ii) the capital interest or profits interest of such partnership, or

(iii) the beneficial interest of such trust or estate,

is owned directly or indirectly, or held by persons described in subparagraph (A), (B), (C), (D), or (E);

(H) an employee, officer, director (or an individual having powers or responsibilities similar to those of officers or directors), or a 10 percent or more shareholder directly or indirectly, of a person described in subparagraph (B), (C), (D), (E), or (G), or of the employee benefit plan; or

(I) a 10 percent or more (directly or indirectly in capital or profits) partner or joint venturer of a person described in subparagraph (B), (C), (D), (E), or (G).

The Secretary, after consultation and coordination with the Secretary of the Treasury, may by regulation prescribe a percentage lower than 50 percent for subparagraphs (E) and (G) and lower than 10 percent for subparagraph (H) or (I). The Secretary may prescribe regulations for determining the ownership (direct or indirect) of profits and beneficial interests, and the manner in which indirect stockholdings are taken into account.

For purposes of this form, party-in-interest is deemed to include a disqualified person.

Instructions for Form 5500-K
(November 1975)
Annual Return/Report of Employee Pension Benefit Plan(s)
With fewer than 100 participants and with at least one owner-employee

(Code references are to the Internal Revenue Code of 1954, ERISA refers to the Employee Retirement Income Security Act of 1974.)

Who Must File

Every sole proprietor, partnership, administrator or plan administrator who administers or maintains a Keogh plan, including plans to which contributions have been discontinued (sometimes referred to as "frozen" plans), with fewer than 100 participants and with at least one owner-employee, must file.

See General Instructions for information concerning penalties for failure to file an annual registration or annual return (report).

General Information

Section 6058 of the Code and section 104 of ERISA provide that each plan administrator/employer (sole proprietor, partnership, corporation, association, trust, exempt organization or other employer) who maintains an employee benefit plan subject to Title I or II of ERISA must file annually information concerning each such plan with the Internal Revenue Service (IRS) and with the Department of Labor (DOL).

In order to reduce duplication of reporting and the burden of compliance with ERISA by plan administrators and employers, the IRS and DOL have, pursuant to section 3004 of ERISA, designed a joint annual return/report form.

DOL Form D–2, which was filed to report information on plans under the Welfare and Pension Plans Disclosure Act, is obsolete for plan years beginning on and after January 1, 1975.

IRS Forms 4848, 4848A, 4849 and Schedule A (Form 4848), which were filed to report on funded plans of deferred compensation, are obsolete for taxable years ending on and after December 31, 1975 and for plan years ending in such taxable year. With respect to industry- or area-wide union negotiated plans, the above forms are obsolete for plan years ending on and after December 31, 1975.

The new DOL–IRS forms are Form 5500, Annual Return/Report of Employee Benefit Plan and Form 5500–K, Annual Return/Report of Employee Pension Benefit Plan(s) With fewer than 100 participants and with at least one owner-employee.

General Instructions

A. What to File.—Form 5500–K must be filed annually whether or not a contribution was made during the plan year. A sole proprietor or partnership with more than one owner-employee plan (with fewer than 100 participants per plan) must report all such plans on one Form 5500–K and a separate page two for each plan. If you file a Form 5500–K, you are not required to file Form 5501, Annual Return for Funded Plans of Deferred Compensation, with respect to such plan.

Keogh plans of sole proprietors and partnerships who have no common-law employees should be reported on Form 5500–K, completing only page one. In such cases, file with IRS only.

Schedule A (Form 5500), Insurance Information, must be attached to Form 5500–K in every case where benefits under the plan are provided by an insurance company, insurance service or other similar organization.

Exception: *A sole proprietor or partnership with no employee is not required to file Schedule A.*

Schedule B (Form 5500), Actuarial Information, must be attached to Form 5500–K for most defined benefit plans. See instructions for Schedule B.

Exception: *A sole proprietor or partnership with no employee is not required to file Schedule B or an actuary's statement.*

Form 5504, Statement in Support of Deduction for Payments to Defined Benefit and Defined Contribution Plans, should be attached to Form 5500–K. Form 5504 should be attached only to forms filed with IRS.

Form 5505, Statement in Support of Deduction for Payments Made on Behalf of Self-Employed Individuals to Defined Benefit and Defined Contribution Plans, should be attached to Form 5500–K. Form 5505 should be attached only to forms filed with IRS.

Keogh plans with no owner-employee may not be reported on Form 5500–K—such plans must be reported on Form 5500.

Keogh plans with 100 or more participants, whether or not there is an owner-employee in the plan, must file Form 5500.

B. When to File.—Form 5500–K must be filed with DOL for plan years beginning on or after January 1, 1975.

Exception: *A sole proprietor who has no employee* **should file with IRS only.**

Form 5500–K must be filed with IRS for plan years ending in 1975 and later only if the employer's taxable year in which falls the end of such plan year ends on or after December 31, 1975. If the employer's taxable year ends prior to December 31, 1975, all plan information should be filed with IRS on Form 4848A.

When to File with DOL.—File Form 5500–K and schedules, if any, for each plan as follows:

For a single-employer whose plan year ends with the employer's taxable year or within 4 months before the end of such taxable year, file on or before the 15th day of the 5th month following the close of the employer's taxable year.

For example, if an employer's taxable year ends December 31st and the plan year ends August 31st, the plan report must be filed on or before May 15th.

For all other plan years, file on or before 135 days following the close of the plan year.

When to File with IRS.—File Form 5500–K on or before the 15th day of the 5th month following the close of:

(1) The employer's taxable year, in case of a single-employer plan or
(2) The plan year, in the case of a plan with more than one employer.

C. Where to File.—All **DOL forms and schedules** should be mailed to:

OEBS Annual Report
U.S. Department of Labor
Washington, D.C. 20216

All **IRS forms and schedules** should be filed with the Internal Revenue Service Center where you file your Form 1040 or 1065.

Caution: *ERISA imposes penalties for failure to furnish complete information and failure to file statements and returns (reports).*

A penalty of $1 (not to exceed $5,000) for each participant for whom a registration statement (required of certain plans) is not filed. See section 6652(e)(1) of the Code. Effective for plan years beginning after December 31, 1975.

A penalty of $1 (not to exceed $1,000) for each day for failure to file a notification of change of status of a plan. See section 6652(e)(2) of the Code. Effective for plan years beginning after December 31, 1975.

A penalty of $10 (not to exceed $5,000) for each day for failure to file annual returns in connection with certain plans of deferred compensation, certain trusts and annuities and bond purchase plans. See section 6652(f) of the Code. Effective for plan years beginning after September 2, 1974.

Caution: *The following penalties which are imposed by ERISA will be administered by DOL:*

Any individual who willfully violates any provision of Part 1 of Title I of ERISA shall upon conviction be fined not more than $5,000 or imprisoned not more than one year, or both. See section 501 of ERISA.

A penalty up to $10,000 or 5 years imprisonment, or both, is provided for any person who makes any false statement or representation of fact knowing it to be false, or knowingly conceals, covers up, or fails to disclose any fact required by ERISA. See section 111 of ERISA.

Specific Instructions for Form 5500–K

The following instructions are set out for specific line items, wherein there is need to further explain the line item.

1(a). Enter the name and address of the plan sponsor. In each case where the plan has but one employer, enter the name of the employer.

The term "plan sponsor" means—

(i) the employer in the case of an employee benefit plan established or maintained by a single employer;

(ii) the employee organization in the case of a plan established or maintained by an employee organization; or

(iii) in the case of a plan established or maintained by two or more employers or jointly by one or more employers and one or more employee organizations, the association, committee, joint board of trustees, or other similar group of representatives of the parties who establish or maintain the plan.

1(b). Enter the employer identification number (EIN) assigned to the plan sponsor/employer.

Employers and plan administrators who do not have an EIN should apply for one on Form SS–4, available from any IRS or Social Security Administration office. Send Form SS–4 to the same Internal Revenue Service Center to which this form is sent.

1(c). Enter business telephone number.

1(d). For one employer plan, enter the day the employer's taxable year ends. For example, if the year is for a calendar year, enter December 31. For plans with more than one employer, enter "NA."

1(e). From the list of business codes in the instructions, enter the one that best describes the nature of the employer's business. If more than one employer is involved, enter the business code for the predominant business activity.

2(a). If the document constituting the plan appoints or designates a plan administrator, enter the name and address.

The term "administrator" means—

(i) the person specifically so designated by the terms of the instrument under which the plan is operated;

(ii) if an administrator is not so designated, the plan sponsor/employer; or

(iii) in the case of a plan for which an administrator is not designated and plan sponsor cannot be identified, such other person as prescribed by regulations.

2(b). A plan administrator as defined in 2(a) above must have an EIN for reporting purposes. Enter the plan administrator's EIN here. If the plan administrator has no EIN, see 1(b) above.

3. Make an entry only if during the plan year there was a change in the name, EIN or address of the plan sponsor, or in the name, EIN or address of the plan administrator. If there has been no change in any item above, enter "NA."

5. Enter the three digit serial number you the sponsor/employer assigned to each of your plans. Start your numbering sequence with 001. List the name of each plan in column (a) and list the information asked for in columns (b) thru (j) for each plan.

7(b). Section 104(a)(1)(D) of ERISA requires that the administrator file with DOL any material modification in the terms of the plan and any other change in the information contained in the plan description. Form EBS–1 must be used to report these changes.

7(c). Enter date of most recent amendment regardless when made.

8(a). If "Yes," set out each investment in the following or similar format using the same size paper as this form:
Assets held for investment purposes, as of the end of the plan year.

Note: *In column a., place an esterisk (*) on the line of each identified person who is a party-in-interest to the plan.*

a.	b. Identity of issuer, borrower, lessor or similar party	c. Description of investment including maturity date, rate of interest, collateral, par or maturity value	d. Cost	e. Current value

8(b). If "Yes," set out each transaction with the information set forth below in the following or similar format using the same size paper as this form:

a. Identity of party involved	b. Relationship to plan employer or other party-in-interest	c. Description of transactions including maturity date, rate of interest, collateral, par or maturity value	d. Purchase price	e. Selling price	f. Lease rental	g. Expenses incurred in connection with transaction	h. Cost of asset	i. Current value of asset	j. Net gain or (loss) on each transaction

8(c). If "Yes," set out each loan in the following or similar format using the same size paper as this form:

Note: *In column a., place an asterisk (*) on the line of each identified person who is a party-in-interest to the plan.*

a.	b. Identity of party involved	c. Original amount of loan	Amount received during reporting year		f. Unpaid balance	g. Detailed description of loan including dates of making and maturity, interest rate, the type and value of collateral and other material terms	Amount overdue	
			d. Principal	e. Interest			h. Principal	i. Interest

Explain what steps have been taken to collect overdue amounts.

8(d). If "Yes," give the following information in the format below or similar format using the same size paper as this form:

Note: *In column a., place an asterisk (*) on the line of each identified person who is a party-in-interest to the plan.*

a.	b. Identity of lessor/lessee	c. Relationship to plan, employer, employee organization or other party-in-interest	d. Terms and description (type of property, location and date it was purchased, terms regarding rent, taxes, insurance, repairs, expenses, renewal options, date property was leased)	e. Original cost	f. Value at time of lease	g. Gross rental receipts during the plan year	h. Expenses paid during the plan year	i. Net receipts	j. Amount in arrears

Attach a statement explaining what steps have been taken to collect amount due or otherwise remedy the default.

8(e). If "Yes," show each reportable transaction in the following or similar format using the same size paper as this form:

Note: *In the case of a purchase or sale of a security on the market, do not identify the person from whom purchased or to whom sold.*

a. Identity of party involved	b. Description of asset (include interest rate and maturity in case of a loan)	c. Purchase price	d. Selling price	e. Lease rental	f. Expense incurred with transaction	g. Cost of asset	h. Current value of asset	i. Net gain or (loss)

Note: *The 3% figure is based on the current value of the plan assets at the beginning of the plan period.*

9(f). If "Yes," list on a sheet of paper the same size as this form, the amounts of such losses, amount recovered for each loss from the bonding company, and the amount recovered from the individual causing the loss. The individual causing the loss need not be identified in your answer. (If the amounts do not equal the total loss sustained, explain.)

Example

Amount of Losses	Amount recovered from bonding company	Amount recovered from individual causing the loss
$5,000.00	$3,000.00	$2,000.00

10. If there has been any change in the appointment of any trustee, qualified public accountant, insurance carrier, enrolled actuary, administrator, investment manager, or custodian, attach statement, on a sheet of paper the same size as this form, disclosing the name of the individual who was changed and the reason for such change.

11. Set out the required information for each fiduciary and/or persons such as consultant, broker, trustee, accountant, insurance carrier, actuary, administrator, investment manager, or custodian who rendered services to the plan. If the payment was made to an organization or association, enter the name of such organization or association.

Do not include (1) persons who performed solely ministerial duties or received only minimal compensation, (2) persons whose sole compensation in relation to the plan consists of insurance fees and commissions listed in Schedule A.

The term "party in interest" means, as to an employee benefit plan—

(A) any fiduciary (including, but not limited to, any administrator, officer, trustee, or custodian), counsel, or employee of such employee benefit plan;

(B) a person providing services to such plan;

(C) an employer any of whose employees are covered by such plan;

(D) an employee organization any of whose members are covered by such plan;

(E) an owner, direct or indirect, of 50 percent or more of—

(i) the combined voting power of all classes of stock entitled to vote or the total value of shares of all classes of stock of a corporation,

(ii) the capital interest or the profits interest of a partnership, or

(iii) the beneficial interest of a trust or unincorporated enterprise,

which is an employer or an employee organization described in subparagraph (C) or (D);

(F) a relative of any individual described in subparagraph (A), (B), (C), or (E);

(G) a corporation, partnership, or trust or estate of which (or in which) 50 percent or more of—

(i) the combined voting power of all classes of stock entitled to vote or the total value of shares of all classes of stock of such corporation,

(ii) the capital interest or profits interest of such partnership, or

(iii) the beneficial interest of such trust or estate,

is owned directly or indirectly, or held by persons described in subparagraph (A), (B), (C), (D), or (E);

(H) an employee, officer, director (or an individual having powers or responsibilities similar to those of officers or directors), or a 10 percent or more shareholder directly or indirectly, of a person described in subparagraph (B), (C), (D), (E), or (G), or of the employee benefit plan; or

(I) a 10 percent or more (directly or indirectly in capital or profits) partner or joint venturer of a person described in subparagraph (B), (C), (D), (E), or (G).

The Secretary, after consultation and coordination with the Secretary of the Treasury, may by regulation prescribe a percentage lower than 50 percent for subparagraphs (E) and (G) and lower than 10 percent for subparagraph (H) or (I). The Secretary may prescribe regulations for determining the ownership (direct or indirect) of profits and beneficial interests, and the manner in which indirect stockholdings are taken into account.

For purposes of this form, party-in-interest is deemed to include a disqualified person.

General Instructions

This schedule must be filed with Form 5500 or 5500–K for every defined benefit, defined contribution and welfare benefit plan where insurance contracts are a part of the plan.

Specific Instructions

(References are to the line items on the form.)

If individual policies are being reported, identify the name of any trustee, or insurance carrier and the benefits provided thereunder.

Under each policy number, list the benefits provided by that particular contract. The benefits specified for which information must be detailed are: medical, dental, surgical, hospital, disability income (sickness and accident, etc.), accidental death and dismemberment, death, unemployment, and retirement (for age, service or disability and including supplemental death benefits).

2(b) through (e).—Include any individual who is or may become eligible to receive benefits of any type from an employee welfare or pension benefit plan, or whose beneficiaries or dependents may be eligible to receive any such benefit. Opposite each line of coverage, record separately the number of persons (active employees as well as dependents thereof and retired employees as well as dependents thereof) who have been covered by such benefit.

Since the plan coverage may fluctuate during the year, the number of persons entered should be that which the administrator determines will most reasonably reflect the number covered by the plan during the reporting year.

2(f).—Enter the beginning and ending dates of the policy year for each contract listed under column (a).

3.—Fees include administrative fees, service fees and payments (other than commissions reported in column (c) for services, expenses or other reasons which are paid to a policyholder, agent, broker or other individual or firm.

5(a).—The premium rate information called for here may be furnished by attachment of appropriate schedules of current premium rates or by a statement as to the basis of the premium rates.

6.—Show deposit fund amounts rather than experience credit records when both are maintained.

9(b)(i).—Enter the total amount of claims charged to the contract. In parenthesis, enter the amount of claims paid which, because of pooling of experience, will usually be different.

Instructions

Who Must File.—The employer or plan administrator of a plan of deferred compensation that is subject to the Minimum Funding Standards (see section 412 of the Code and Part 3 of Title I of ERISA) must file this schedule as an attachment to the annual return/report filed for the plan.

Specific Instructions

(References are to line items on the form.)

1(b) The valuation for a plan year may be as of any date in the year, including the first and last. Valuations must be performed within the period specified by section 103(d) of ERISA and section 6059(a) of the Code.

1(f) If no valuation was made for the current year, enter the normal cost calculated in the most recent actuarial valuation, or the estimated cost for the current year based on such valuation. If an estimate is used, indicate in item 1(i) the method of calculating the estimated amount.

1(g) Amounts in 1(g) should all be of the same date which should be the date of the end of the plan year or date as of which the most recent actuarial valuation was made. If amounts are not as of the date of most recent actuarial valuation, indicate in item 1(i) the method of determining the amount shown. Liabilities fully funded by annuity and insurance contracts other than any contract funds not allocated to individuals may be omitted from both items 1(g)(i) and 1(g)(ii). Plans using the aggregate cost method should omit 1(g)(i) and (iii). Plans using the frozen initial liability method should enter "NA" on 1(g)(i).

1(h) This should be as of the same date as 1(g) or, if not, the method of adjustment between the two dates should be indicated in 1(i).

1(i) A one page summary of plan provisions will ordinarily be adequate. Actuarial methods should be described in accordance with section 3(31) of ERISA as accrued benefit cost (or unit credit), entry age normal cost, individual level premium, aggregate cost, attained age normal cost or frozen initial liability, where those terms are applicable.

2. Show all employer and employee contributions for the plan year made by an employer not later than 2½ months (or such later date allowed under section 412(c)(10) of the Code and section 302(c)(10) of ERISA) after the end of the plan year. If there are more than 12 payments, aggregate by month.

5 In lieu of signing the statement shown in 5, an enrolled actuary may attach a signed statement containing the name, address, enrollment number, telephone number and the actuary's opinion that the assumptions used in preparing Schedule B are in the aggregate reasonably related to the experience of the plan and to reasonable expectations, and represent his or her best estimate of anticipated experience under the plan. In addition, the actuary may offer any other comments related to the information contained in Schedule B.
