CONTINUED INSIDE

PART II:

PROCUREMENT
ERDA republishes regulations 46801

reminders

(The items in this list were editorially compiled as an aid to FEDERAL REGISTER users. Inclusion or exclusion from this list has no legal significance. Since this list is intended as a reminder, it does not include effective dates that occur within 14 days of publication.)

Rules Going Into Effect Today

HEW/SRS—Limits on payment to certified facilities for treatment of end-stage renal disease.... 28793; 7–9–75

Justice/INS—Documentary requirements: nonimmigrants; waivers; admission of certain inadmissible aliens; parole 33431; 8–8–75

State—Visas: document of nonimmigrants under the Immigration and Nationality Act, as amended; passports and visas not required for certain nonimmigrants.. 33444; 8–8–75

Treasury/Customs—Bonded merchandise; private carriers.. 41084; 9–5–75

List of Public Laws

This is a listing of public bills enacted by Congress and approved by the President, together with the law number, the date of approval, and the U.S. Statute citation. Subsequent lists appear each day in the FEDERAL REGISTER, and copies of the laws may be obtained from the U.S. Government Printing Office.

The following bill was vetoed by the President: H.R. 4222, National School Lunch Act and Child Nutrition Act of 1966 Amendments of 1975. Message dated September 30, 1975; Weekly Compilation of Presidential Documents, Vol. 11, No. 40.

S. 2270..... Public Law 94–101
An act to authorize an increase in the monetary authorization for certain comprehensive river basin plans previously approved by the Congress, and for other purposes
(Oct. 2, 1975; 89 Stat. 484)

PRIVACY ACT PUBLICATIONS

The following government agencies have submitted Privacy Act documents to the Office of the Federal Register for publication. These documents are available for public inspection at the Federal Register Office, 1100 L St., NW., Rm. 8401. They will be published according to the following schedule. See also this issue of the FEDERAL REGISTER for additional Privacy Act documents.

Agency	*1975 Date of Issue*

ATTENTION: Questions, corrections, or requests for information regarding the contents of this issue only may be made by dialing 202–523–5282. For information on obtaining extra copies, please call 202–523–5240. To obtain advance information from recorded highlights of selected documents to appear in the next issue, dial 202–523–5022.

federal register

Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Title 3—The President

Executive Order 11881 • October 3, 1975

Delegation of Authority To Issue Regulations With Respect to Section 459 of the Social Security Act

By virtue of the authority vested in me by the Constitution and the laws of the United States of America, and as President of the United States of America, and to further the implementation of section 459 of the Social Security Act, as added by the Social Services Amendments of 1974 (88 Stat. 2357, 42 U.S.C. 659), it is hereby ordered as follows:

SECTION 1. (a) This order is applicable to all executive agencies of the Federal Government which make any payment of money, the entitlement to which is based upon remuneration for employment, to any individual.

(b) "Executive agency" means all departments, independent establishments, wholly-owned Federal corporations, and all agencies, boards, commissions, councils, bodies, groups, entities, organizations or instrumentalities of the Federal Government, including advisory bodies, except those in the legislative or judicial branches of the Federal Government.

SEC. 2. The Civil Service Commission shall, in consultation with the Department of Justice, issue regulations for the uniform implementation by all executive agencies of section 459 of the Social Security Act. The regulations shall establish standards for determining what constitutes remuneration for employment, shall provide procedures to facilitate appropriate service of process upon an executive agency, and shall establish such other standards and procedures as are necessary or appropriate for the uniform implementation of this order and section 459 of the Social Security Act. Such regulations may require that executive agency regulations be issued as appendices thereto.

SEC. 3. Each executive agency shall issue such rules, regulations and directives, pursuant to and in accord with those issued by the Civil Service Commission pursuant to this order, as are necessary to implement the regulations of the Civil Service Commission, this order and section 459 of the Social Security Act.

SEC. 4. Regulations issued pursuant to this order by the Civil Service Commission and all other executive agencies shall be made available to the public by publication in the FEDERAL REGISTER.

Gerald R. Ford

THE WHITE HOUSE,
October 3, 1975.

[FR Doc.75-27083 Filed 10-3-75;3:09 pm]

Executive Order 11882 • October 6, 1975

Membership of Energy Research and Development Administration on Established River Basin Commissions

By virtue of the authority vested in me by section 202 of the Water Resources Planning Act (79 Stat. 247, 42 U.S.C. 1962b–1), and as President of the United States, it is hereby ordered as follows:

SECTION 1. Section 3(2) of Executive Order No. 11345 of April 20, 1967, as amended, establishing the Great Lakes Basin Commission, is amended by adding "Energy Research and Development Administration," immediately after "Department of Transportation."

SEC. 2. Section 3(2) of each of the following Executive orders is amended by deleting "Atomic Energy Commission" and substituting therefor "Energy Research and Development Administration":

(a) Executive Order No. 11371 of September 6, 1967, as amended, establishing the New England River Basins Commission;

(b) Executive Order No. 11578 of January 13, 1971, establishing the Ohio River Basin Commission;

(c) Executive Order No. 11658 of March 22, 1972, establishing the Missouri River Basin Commission; and

(d) Executive Order No. 11659 of March 22, 1972, as amended, establishing the Upper Mississippi River Basin Commission.

SEC. 3. The Administrator of the Energy Research and Development Administration shall appoint a member to each river basin commission to serve as the representative of that agency as soon as practicable after the date of issuance of this order.

Gerald R. Ford

THE WHITE HOUSE,
October 6, 1975.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER I—AGRICULTURAL MARKETING SERVICE (STANDARDS, INSPECTIONS, MARKETING PRACTICES), DEPARTMENT OF AGRICULTURE

PART 51—FRESH FRUITS, VEGETABLES AND OTHER PRODUCTS (INSPECTION, CERTIFICATION AND STANDARDS)

Subpart—United States Standards for Grades of Lettuce [1]

On June 4, 1975, a notice of proposed rulemaking was published in the FEDERAL REGISTER (40 FR 24013) regarding the revision of United States Standards for Grades of Lettuce (7 CFR, 51.2510–51.2531). These grade standards are issued under authority of Agricultural Marketing Act of 1946 (60 Stat. 1087, as amended; 7 U.S.C. 1621–1627), which provides for the issuance of official U.S. grades to designate different levels of quality for the voluntary use of producers, buyers and consumers. Official grading services are also provided under this act upon request of any financially interested party and upon payment of a fee to cover the cost of such services.

Statement of consideration leading to the revision of the grade standards. Following publication on June 4, 1975 of the proposal in the FEDERAL REGISTER copies were widely distributed to individuals and to groups and organizations of lettuce growers, shippers, wholesalers, and retailers. Information concerning the proposal was also carried in newspapers and trade publications.

The period for comment ended on August 31 and five written comments were received in response to the proposal, four from industry organizations generally recommending adoption of the changes proposed and one from a large food chain expressing approval of the proposed standards.

Both grower-shipper and receiver organizations expressed concern over the proposed deletion of the U.S. Commercial grade, pointing out that this would deprive New York State lettuce wholesalers of an acceptable grade designation for use in complying with the "Agriculture and Markets Law, Relating to Grade, Brand, and Sale of Lettuce." However, the deletion of this grade will not impose any hardship on lettuce handlers as in 1974 New York State incorporated a New York Commercial grade in their lettuce standards. The requirements of this grade, as stated in the standards are practically identical with corresponding U.S. Standards for Grades of Lettuce and would provide all interested parties with an acceptable grade designation.

In addition a large grower-shipper organization requested that the weight requirements be removed from the Standard Pack section as, in their opinion, it is unrealistic to expect shippers to use this section as lettuce generally is packed and inspected in the field where adequate facilties for weighing are not available.

As there is also substantial interest on the part of certain wholesalers in specifying weight limitations when purchasing lettuce and in order for the standards to be more practical and compatible to current industry practices, the weight reirements in the Standard Pack section is deleted and a new Standard weight requirements in the Standard Pack section is deleted and a new Standard Weight section is added. This is the only change from the published proposal. The optional Standard Weight section would require that lettuce packed in standard lettuce containers shall have a net weight of not less than 42 pounds and not more than 50 pounds.

After consideration of all relevant matters presented by interested persons, including the proposal set forth in the aforesaid notice, the following U.S. Standards for Grades of Lettuce are hereby promulgated pursuant to the Agricultural Marketing Act of 1946 (60 Stat. 1087, as amended; 7 U.S.C. 1621–1627).

The following Subpart to 7 CFR Part 51 is revised as follows:

AUTHORITY: The provisions of this subpart issued under secs. 203, 205, 60 Stat. 1087, as amended, 1090 as amended; 7 U.S.C. 1622, 1624.

Subpart—United States Standards for Grades of Lettuce

GRADES

§ 51.2510 U.S. Fancy.

"U.S. Fancy" consists of heads of lettuce which meet the following requirements:

(a) Basic requirements:
(1) Similar varietal characteristics;
(2) Fresh;
(3) Green;
(4) Not soft;
(5) Not burst;
(b) Free from:
(1) Decay;
(2) Russet spotting;
(3) Doubles;
(c) Free from injury by:
(1) Tipburn;
(2) Downy mildew;
(3) Field freezing;
(4) Discoloration;
(d) Not damaged by any other cause.
(e) Each head shall be fairly well trimmed unless specified as closely trimmed.
(f) For tolerances see § 51.2513.

§ 51.2511 U.S. No. 1.

"U.S. No. 1" consists of heads of lettuce which meet the following requirements:

(a) Basic requirements:
(1) Similar varietal characteristics;
(2) Fresh;
(3) Green;
(4) Not soft;
(5) Not burst;
(b) Free from:
(1) Decay;
(2) Doubles.
(c) Not damaged by any other cause.
(d) Each head shall be fairly well trimmed unless specified as closely trimmed.

[1] Packing of the product in conformity with the requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug and Cosmetic Act or with applicable State laws and regulations.

(e) For tolerances see § 51.2513.

§ 51.2512 U.S. No. 2.

"U.S. No. 2" consists of heads of lettuce which meet the following requirements:

(a) Basic requirements:

(1) Similar varietal characteristics;

(2) Not burst;

(b) Free from decay;

(c) Not seriously damaged by any other cause;

(d) Unless otherwise specified each head shall be reasonably trimmed.

(e) For tolerances see § 51.2513.

TOLERANCES

§ 51.2513 Tolerances.

In order to allow for variations incident to proper grading and handling the following tolerances, by count, shall be permitted in any lot:

(a) *U.S. Fancy—(1) For defects at shipping point.*[3] 8 percent for heads of lettuce which fail to meet the requirements of this grade: *Provided*, That included in this amount not more than 5 percent shall be allowed for soft heads: *And provided further*, That not more than 4 percent shall be allowed for defects causing serious damage; included in this latter amount not more than 1 percent for heads which are affected by decay on any portion of the head exclusive of the wrapper leaves.

(2) *En route or at destination.* 12 percent for heads of lettuce which fail to meet the requirements of this grade: *Provided*, That included in this amount not more than the following percentages shall be allowed for defects listed:

(i) 8 percent for heads having permanent defects including therein not more than 5 percent for soft heads; or,

(ii) 6 percent for heads which are seriously damaged; including therein not more than 4 percent for heads seriously damaged by permanent defects and not more than 3 percent for heads which are affected by decay on any portion of the head exclusive of the wrapper leaves. (see § 51.2514).

(b) *U.S. No. 1—(1) For defects at shipping point.*[3] 8 percent for heads of lettuce which fail to meet the requirements of this grade: *Provided*, That included in this amount not more than 5 percent shall be allowed for soft heads: *And provided further*, That not more than 4 percent shall be allowed for defects causing serious damage, included in this latter amount not more than 1 percent for heads which are affected by decay on any portion of the head exclusive of the wrapper leaves.

(2) *En route or at destination.* 12 percent for heads of lettuce which fail to meet the requirements of this grade: *Provided*, That included in this amount not more than the following percentages shall be allowed for defects listed:

(i) 8 percent for heads having permanent defects including therein not more than 5 percent for soft heads; or,

(ii) 6 percent for heads which are seriously damaged; including therein not more than 4 percent for heads seriously damaged by permanent defects and not more than 3 percent for heads which are affected by decay on any portion of the head exclusive of the wrapper leaves. (see § 51.2514)

(c) *U.S. No. 2—(1) For defects at shipping point.*[3] 8 percent for heads of lettuce which fail to meet the requirements of this grade: *Provided*, That included in this amount not more than 3 percent shall be allowed for heads which are affected by decay on any portion of the head exclusive of the wrapper leaves.

(2) *En route or at destination.* 12 percent for heads of lettuce which fail to meet the requirements of this grade: *Provided*, That included in this amount not more than the following percentages shall be allowed for defects listed:

(i) 8 percent for heads having permanent defects; or,

(ii) 5 percent for heads which are affected by decay on any portion of the head exclusive of the wrapper leaves. (see § 51.2514)

APPLICATION OF TOLERANCES

§ 51.2514 Application of tolerances.

(a) In order to meet the requirements of a specified grade the average percentage of defective specimens in the lot, based on sample inspection shall be within the tolerance specified, and the number of defective specimens in individual packages in the lot shall be within the limitations set forth in the following table:

TABLE I.—Maximum number of defective heads permitted in any package

Lot tolerance, percent	Total number of heads in package			
	24	18 or 20	30	Over 30
1	1	1	2	2
3	3	2	3	4
4	3	3	4	4
5	3	3	4	5
6	4	3	5	6
8	5	4	6	7
12	6	5	7	9

PRECOOLING REQUIREMENTS

§ 51.2515 Precooling requirements.

The following precooling requirements may be used in certifying lettuce in the producing area:

(a) Lettuce certified as meeting "Precooling Requirements" in the producing area shall have a core temperature of not more than 36° F (2.2° C) when placed in a refrigerated conveyance or storage.

(1) The temperature shall be taken near the center of the head with a thermometer which has previously been cooled to the approximately temperature of the lettuce.

STANDARD PACK

§ 51.2516 Standard pack.

(a) Heads of lettuce shall be fairly uniform in size, and fairly tightly to tightly packed but not excessively tightly packed in uniform layers in the container according to the approved and recognized methods; except that in standard fiberboard containers a "bridge" of 6 heads may be placed between the layers in a 2½ dozen pack.

(1) Fairly uniform in size means that not more than 10 percent, by count, of heads in any container may vary appreciably in size from the standard size head for the count pack.

(i) The standard size head for a 2 dozen pack is that size head, having 4 wrapper leaves, which will pack tightly but not excessively tightly, 3 rows with 4 heads of uniform size in each row in a layer in a standard fiberboard container. Heads having lesser or greater numbers of wrapper leaves which can be packed as specified herein are considered equivalent in size to a standard size head with 4 wrapper leaves.

(2) Excessively tightly packed means that heads are packed so tightly as to cause distortion, or crushing of the heads or breaking of the midribs.

(b) When heads of lettuce are wrapped no head may have more than 1 wrapper leaf.

(c) In order to allow for variations incident to proper packing not more than a total of 10 percent of the containers in any lot may fail to meet the requirements of standard pack.

STANDARD WEIGHT

§ 51.2517 Standard weight.

(a) The following weight requirements may be used in connection with grade.

(1) Lettuce packed in standard lettuce containers shall have a net weight of not less than 42 pounds (19 kg) and not more than 50 pounds (23 kg).

(b) In order to allow for variations incident to proper packing, not more than a total of 5 percent of the containers in any lot may fail to meet the requirements of standard weight.

SOLIDITY CLASSIFICATION

§ 51.2518 Solidity classification.

(a) Solidity of lettuce may be specified in connection with the grade in accordance with any of the following classification:

(1) *Hard.* "Hard" means that the head is compact and solid. This term represents the highest degree of solidity.

(2) *Firm.* "Firm" means that head is compact, but may yield slightly to moderate pressure.

(3) *Fairly firm.* "Fairly firm" means that although the head is not firm, it is not soft and spongy, and has good head formation.

(4) *Soft.* "Soft" means that the head is easily compressed or spongy.

DEFINITIONS

§ 51.2519 Similar varietal characteristics.

"Similar varietal characteristics" means that the heads in any container have the same characteristic leaf growth. For example, lettuce of the Iceberg and Big Boston types shall not be mixed.

§ 51.2520 Fresh.

"Fresh" means that the head as a whole has normal succulence and the wrapper leaves and the outermost head leaves are not more than slightly wilted.

§ 51.2521 Green.

"Green" means that one-half or more of the exterior surface of the head, exclusive of the wrapper leaves, has at least a light green color.[3]

§ 51.2522 Burst.

"Burst" means that the head is split or broken open.

§ 51.2523 Doubles.

"Doubles" means two heads on the same stem.

§ 51.2524 Fairly well trimmed.

"Fairly well trimmed" means that the butt is trimmed off closely below the point of attachment of the outer leaves, and that on a head of Iceberg type lettuce, wrapper leaves do not exceed 7 in number.

§ 51.2525 Closely trimmed.

"Closely trimmed" means that the butt is trimmed off closely below the point of attachment of the outer leaves, and that on a head of Iceberg type lettuce, wrapper leaves do not exceed 3 in number.

§ 51.2526 Reasonably trimmed.

"Reasonably trimmed" means that the butt is trimmed off closely below the point of attachment of the outer leaves, and that on a head of Iceberg type lettuce, wrapper leaves do not exceed 12 in number.

§ 51.2527 Cap leaf.

"Cap leaf" is the first head leaf. This is the outermost leaf which fairly closely enfolds the compact portion of the head, some portion of which extends to the top of the crown. The tip of the leaf may be separated from the head, *Provided, That* the separation does not extend more than 1¼ inches (31.8 mm) in height from the compact portion of the head. (See figure 1.)

(a) All leaves outside of the cap leaf are wrapper leaves.

(b) On elongated or pointed heads the inner leaves that closely enfold the head three-fourths of their length are head leaves.

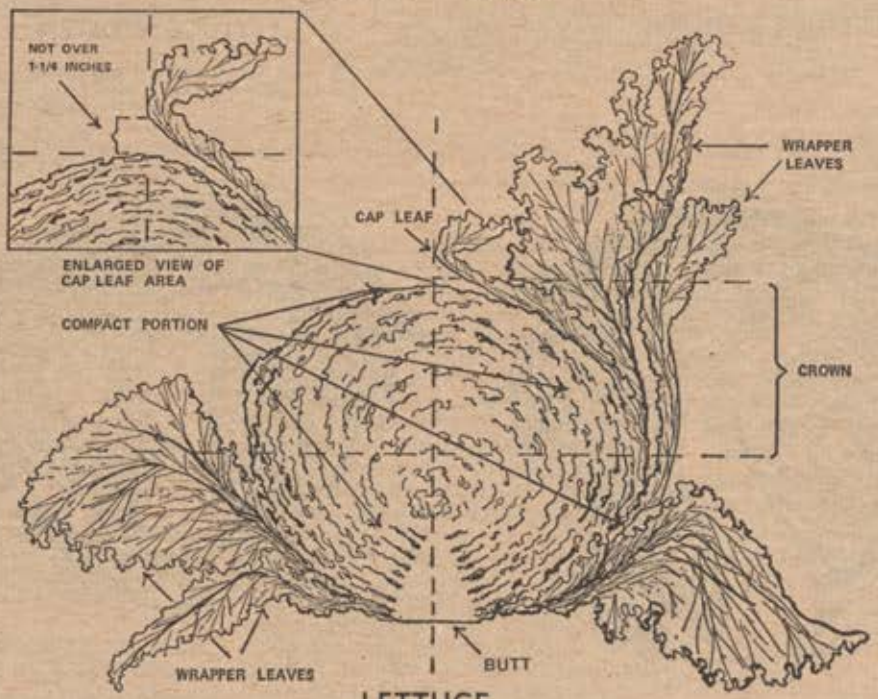

§ 51.2528 Crown.

"Crown" means the upper half of the head. (See figure 1.)

§ 51.2529 Injury.

"Injury" means any specific defect described in § 51.2534, Tables II and III, or an equally objectionable variation of any one of these defects, any other defect, or any combination of defects, which noticeably detracts from the appearance, or the edible or marketing quality of the lettuce.

[3] The color referred to is illustrated by plate 5 GY 8/6 in the Munsell Book of Color. Individual plates of the above color may be purchased from the Munsell Color Co., 2441 North Calvert, Baltimore, Md. 21218.

LETTUCE
(ICEBERG TYPE)
FIGURE 1.

USDA-AMS-F&V-1973

§ 51.2530 Damage.

"Damage" means any specific defect described in § 51.2534, Tables II and III, or an equally objectionable variation of any one of these defects, any other defect, or any combination of defects, which materially detracts from the appearance, or the edible or marketing quality of the lettuce.

§ 51.2531 Serious damage.

"Serious damage" means any specific defect described in § 51.2534, Tables II and III, or an equally objectionable variation of any one of these defects, any other defect, or any combination of defects, which seriously detracts from the appearance, or the edible or marketing quality of the lettuce.

§ 51.2532 Permanent defects.

"Permanent defects" means defects which are not subject to change during shipment or storage, including but not limited to soft, burst, open or poorly trimmed heads, seedstems or dirt.

§ 51.2533 Condition defects.

"Condition defects" means defects which are subject to change during shipment or storage, including but not limited to decay, tipburn, russet spotting, pink rib, rib discoloration, and freezing injury.

§ 51.2534 Classification of defects.

TABLE II.—AT SHIPPING POINT [1]

Defect	Injury	Damage	Serious damage
Tipburn	More than 2 spots of tipburn occurring anywhere in the compact portion of the head or the aggregate area of discernible tipburn, regardless of color, exceeds that of a rectangle 1-inch (25.4 mm) in length and ¼-inch (6.4 mm) in width.	Aggregate area of tipburn occurring anywhere in the compact portion of the head exceeds a rectangle 1-inch (25.4 mm) in length and ½-inch (12.7 mm) in width.	Aggregate area of tipburn occurring anywhere in the compact portion of the head exceeds that of a rectangle 3-inches (76.2 mm) in length and 1-inch (25.4 mm) in width.
Downy mildew	Occurring on any head or wrapper leaf	Readily apparent on any head leaf; when mildew not accompanied by discoloration is readily apparent on more than 2 wrapper leaves, or discoloration associated with mildew is readily apparent on any wrapper leaf.	Materially detracting from the appearance or shipping quality of any head leaf; mildew not accompanied by discoloration is readily apparent on more than 3 wrapper leaves, or discoloration associated with mildew is readily apparent on more than 2 wrapper leaves.
Opening		In a hard or firm head when ⅛ or more of the head is separated from the remainder, or any degree of opening in a fairly firm head.	
Seedstems		Excessively long, excessively curved, tough or fibrous. (see figs. 2 and 3).	Causing the head to split or when protruding through the outer head leaves.
Broken midribs		More than 2 head leaves have midribs broken in 2 due to abnormal growth.	More than 4 head leaves have midribs broken in 2 due to abnormal growth.
Russett spotting	Present in any degree	Present in any degree	Present in any degree.
Pink rib	Occurring on any head leaf	Ribs of more than 2 head leaves show areas of deep pink color more than 2-inches (50.8 mm) in length or when causing more than 2 head leaves to be excessively papery and tough.	Areas of deep pink color seriously detracts from the appearance or the edible quality of more than 2 head leaves.

[1] Shipping point, as used in these standards, means the point of origin of the shipment in the producing area or at port of loading for ship stores for overseas shipment, or, in the case of shipments from outside the continental United States, the port of entry into the United States.

TABLE II.—AT SHIPPING POINT

Defect	Injury	Damage	Serious damage
Rib discoloration	Occurring on any head leaf	Aggregate length of brown or black spots on outer surface of any head leaf exceeds 1 inch (25.4 mm).	Seriously detracting from the appearance or the edible quality of more than 2 head leaves.
Dirt		Compact portion of the head is smeared with mud, or wrapper leaves are badly smeared with mud, or when the basal portion is caked with mud or dry dirt.	
Insects and worms		Compact portion of the head is infested, or the wrapper leaves are badly infested with insects or worms, or there is feeding injury on the compact portion of the head.	Compact portion of the head is infested, or the wrapper leaves are badly infested with insects or worms, or there is feeding injury on more than 2 head leaves.
Field Freezing	Any peeling, feathering or yellow or brown discoloration resulting from field freezing is readily apparent on any outer head leaf.	Peeling or feathering extends over more than ¼ the area of the crown on more than 2 head leaves or yellow or brown discoloration resulting from field freezing extends over more than ½ of the crown, or the wrapper leaves are seriously damaged by discoloration resulting from freezing.	
Discoloration (other than caused by freezing)	Any 1 of the following types or a combination of 2 or more types the seriousness of which exceeds the maximum allowed for any 1 type: (1) Yellow or brown discoloration from any cause affecting any portion of the leaf, or materially detracting from the appearance of the wrapper leaves. (2) Yellow or brown discoloration from any cause when readily apparent on the compact portion of the head. (3) Discoloration following bruising noticeably detracting from the appearance of more than 2 outer head leaves.	Any 1 of the following types or a combination of 2 or more types the seriousness of which exceeds the maximum allowed for any 1 type: (1) Yellow or brown, affecting any portion of the leaf, or seriously detracting from the appearance of the wrapper leaves. (2) Yellow or brown, materially detracting from the appearance of the head exclusive of the wrapper leaves. (3) Discoloration following bruising materially detracting from the appearance of more than 2 outer head leaves.	Any 1 of the following types, or a combination of 2 or more types the seriousness of which exceeds the maximum allowed for any 1 type: (1) Yellow or brown, affecting any portion of the leaf, or very seriously detracting from the appearance of the wrapper leaves. (2) Yellow or brown, seriously detracting from the appearance of the head leaves exclusive of the wrapper leaves. (3) Discoloration following bruising seriously detracting from the appearance of more than 2 outer head leaves.

TABLE III (EN ROUTE OR AT DESTINATION)

Defect	Injury	Damage	Serious damage
Tipburn	Aggregate area of tipburn of a light buff [4] or darker color exceeds that of a rectangle 1 inch (25.4 mm) in length and ¼ inch (6.4 mm) in width.	Aggregate area of tipburn of a light buff [4] or darker color occurring anywhere in the compact portion of the head exceeds a rectangle 1 inch (25.4 mm) in length and ½ inch (12.7 mm) in width.	Aggregate area of tipburn of a light buff [4] or darker color occurring anywhere in the compact portion of the head exceeds that of a rectangle 3 inches (78.2 mm) in length and 1 inch (25.4 mm) in width.
Downy mildew	Any that is readily apparent on any head leaf or discoloration associated with mildew is readily apparent on more than 2 wrapper leaves.	Materially detracting from the appearance of any head leaf or seriously detracting from the appearance of more than 2 wrapper leaves.	Materially detracting from the appearance of more than 2 head leaves or seriously detracting from the appearance of the wrapper leaves.
Pink rib	More than 2 head leaves having midribs showing noticeable areas of pink color as viewed on the outer surface of the leaf or when causing any head leaf to be excessively papery and tough.	See table II	See table II.
Russet spotting	Present in any degree	Present in any degree on more than 2 outer head leaves, or when the number, size, and color of the spots materially detracts from the appearance of any head leaf.	The number, size, and color of the spots seriously detracts from the appearance of 2 or more head leaves.
Rib discoloration	Any distinct brown or black spots or rib discoloration present on the outer surface of any head leaf.	See table II	See table II.

[4] The color referred to is illustrated by plate 10 YR 8/4 in the Munsell Book of Color. Individual plates of the above color may be purchased from the Munsell Color Co., 2441 North Calvert Street, Baltimore, Md. 21218.

NOTE.—For classification of the following defects refer to Table II: opening, seedstems, broken midribs, field freezing, discoloration, and dirt.

These standards shall become effective on December 1, 1975 and will thereupon supersede the United States Standards for Grades of Lettuce which have been in effect since June 16, 1970 (7 CFR, 51.2510–51.2531).

Dated: October 1, 1975.

DONALD E. WILKINSON,
Administrator.

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

PART 989—RAISINS PRODUCED FROM GRAPES GROWN IN CALIFORNIA

Desirable Free Tonnage for Natural Thompson Seedless, Dipped Seedless, and Zante Currants and Export Outlets for Reserve Tonnage Raisins

Notice was published in the September 4, 1975, issue of the FEDERAL REGISTER (40 FR 40842) of a proposal to: Designate a desirable free tonnage for natural Thompson Seedless, Dipped Seedless, and Zante Currant raisins of 148,000, 5,620, and 2,850 tons, respectively, which would be made available as free tonnage of those varietal types of raisins during the 1975–76 crop year; and revise the list of countries to which sales of reserve tonnage raisins may be made so that it would apply to reserve raisins of any varietal type. Currently, the list applies only to natural Thompson Seedless raisins.

Interested persons were afforded an opportunity to submit written data, views, or arguments on the proposal. Six written comments were received.

The proposal was unanimously recommended by the Raisin Administrative Committee, hereinafter referred to as the "Committee". The Committee's recommendation was under §§ 989.54(a) and 989.67(c) of the marketing agreement, as amended, and Order No. 989, as amended (7 CFR Part 989), hereinafter referred to collectively as the "order". The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), hereinafter referred to as the "act".

The Committee's recommendation with respect to desirable free tonnage was based on its review of shipment data, inventory data, and other matters, relating to a desirable free tonnage for natural Thompson Seedless, Dipped Seedless, and Zante Currant raisins, for the 1975–76 crop year.

The proposed desirable free tonnages are based upon the following estimates:

Item	Natural condition tons		
	Natural Thompson seedless	Dipped seedless	Zante currants
1. Free tonnage demand	150,000	6,750	2,637
2. Desirable carryout, Aug. 31, 1976	20,000	750	500
3. Total requirements	170,000	7,500	3,137
4. Less estimated carryin, Sept. 1, 1975	22,000	1,880	287
5. Desirable free tonnage	148,000	5,620	2,850

At present, the list of countries to which sale in export of reserve tonnage raisins may be made by handlers is contained in § 989.221 of Subpart—Supplementary Regulations (7 CFR 989.201–989.230; 40 FR 4417, 31739). The list now is applicable only to sale of reserve raisins of the natural Thompson Seedless varietal type. Section 989.221 should be amended in order to make it applicable to all reserve tonnage raisins without regard to varietal type.

One comment was submitted by the Committee. The Committee met September 10, 1975, and reviewed crop year-end shipment and inventory statistics. Based on this review and consideration of its marketing policy for the 1975–76 crop year, the Committee unanimously requested the Secretary to designate the desirable free tonnages for natural Thompson Seedless, Dipped Seedless, and Zante Currant raisins proposed in the notice.

All other commentators objected to the establishment of a desirable free tonnage for Dipped Seedless raisins. They contended that volume regulation on these raisins should not be established before a surplus actually exists, that production of these raisins is limited to market needs, and producers have marketed all they produced. Moreover, the crop year (September 1–August 31) for sun-dried raisins does not coincide with the season for Dipped Seedless raisins, resulting in confusion because the statistical reporting covers different periods. The commentators also contended that the proposal is unfair because it would include Dipped Seedless raisins with sun-dried raisins in a surplus pool, the desirable free tonnage for Dipped Seedless raisins should be determined the same as would be determined for Golden Seedless raisins, it appears that a segment of the industry is trying to restrict Dipped Seedless raisins so they will not be able to comepete effectively in the market, and the proposal is arbitrary because Dipped Seedless raisins have no long established marketing history on which to base a regulation.

Under the order, the Committee must review shipment and inventory data and other matters relating to the quantity of raisins of a varital type which should be made available as free tonnage for that varietal type during the crop year. This quantity is referred to as the desirable free tonnage, and is recommended by the Committee to the Secretary if a free tonnage percentage for those raisins may be designated. Whenever the Secretary finds, from the recommendation and supporting information supplied by the Committee, or from other available information, that designation of the desirable free tonnage would tend to effectuate the declared policy of the act, he shall designate that tonnage. The crop year is defined in the order as the 12-month period beginning on September 1 of any year and ending with August 31 of the following year, and can only be changed by amendment of the order.

It is necessary that rulemaking action with respect to the establishment of the desirable free tonnage for a varietal type be undertaken early, and in advance of known production, so that any volume regulation for those raisins may be initiated as soon as possible. The Committee submits its recommendation on preliminary free and reserve tonnage percentages to the Secretary, generally in early October. In arriving at its recommendation, the Committee must take a number of factors into consideration, including the estimated supply of and demand for other varietal types and regulations applicable to these. The Secretary designates these percentages if he finds from the recommendation and supporting information supplied by the Committee, or from other available information, that to do so would tend to effectuate the declared policy of the act. The designation of a desirable free tonnage does not establish volume regulations for a varietal type, but merely indicated the quantity of those raisins which should be made available as free tonnage during the crop year. Thus, it enables producers of that varietal type to tailor their production accordingly. If circumstances during the crop year indicate that the volume regulation established for the varietal type should be changed by increasing the free tonnage percentage, the order authorizes the change. The purpose of volume regulation is to establish and maintain orderly marketing conditions.

After consideration of all relevant matter presented, including that in the notice, the written comments submitted pursuant to the notice, the information and recommendation of the Committee, and other available information, it is found that: (1) Designating a desirable free tonnage for natural Thompson Seedless, Dipped Seedless, and Zante Currant raisins; and (2) revising the list of countries to which sale of reserve tonnage raisins may be made so that it would apply to reserve raisins of any varietal type, as hereinafter set forth, will tend to effectuate the declared policy of the act.

It is further found that good cause exists for not postponing the effective time of this action until 30 days after publication in the FEDERAL REGISTER (7 U.S.C. 553) in that: (1) The desirable free tonnage for varietal types of raisins are for a crop year and the current crop year began September 1, 1975; (2) handlers should be apprised of these desirable free tonnages as soon as practicable to enable them to plan their operations accordingly; (3) handlers require no advance notice to comply with this action; and (4) no useful purpose would be served by postponing the effective time of this action.

Therefore, Subpart—Supplementary Regulations (§§ 989.201–989.229) is amended as follows:

1. Section 989.221 is revised to read:

§ 989.221 Countries to which sale in export of reserve tonnage raisins may be made by handlers.

The countries to which sale in export of reserve tonnage raisins may be made by handlers shall be all of those countries, other than Australia, outside of the Western Hemisphere. For purposes of this section, "Western Hemisphere" means the area east of the international dateline and west of 30° W. longitude but excluding all of Greenland. All of the countries covered by this section to which sale in export of reserve tonnage raisins may be made shall be deemed listed in this section for the purposes of § 989.67(c).

2. A new § 989.224 is added, reading as follows:

§ 989.224 Desirable free tonnage.

The desirable free tonnage designated for natural Thompson Seedless, Dipped Seedless, and Zante Currant raisins for the 1975–76 crop year are 148,000, 5,620, and 2,850 tons, respectively.

(Secs. 1–19, 48 Stat. 31, as amended; (7 U.S.C. 601–674))

NOTE.—It is hereby certified that the economic and inflationary impacts of this regulation have been carefully evaluated in accordance with OMB Circular A–107.

Dated: October 2, 1975.

CHARLES R. BRADER,
Deputy Director,
Fruit and Vegetable Division.

[FR Doc.75–26917 Filed 10–6–75;8:45 am]

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER D—EXPORTATION AND IMPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

PART 97—OVERTIME SERVICES RELATING TO IMPORTS AND EXPORTS

Commuted Traveltime Allowances

The purpose of this amendment is to establish commuted traveltime periods as nearly as may be practicable to cover the time necessarily spent in reporting to and returning from the place at which an employee of Veterinary Services performs overtime or holiday duty when such travel is performed solely on account of overtime or holiday duty. Such establishment depends upon facts within the knowledge of the Animal and Plant Health Inspection Service.

Therefore, pursuant to the authority conferred upon the Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service by § 97.1 of the regulations concerning overtime services relating to imports and exports (9 CFR 97.1), administrative instructions 9 CFR 97.2 (1975 ed.), as amended January 3, 1975 (40 FR 757), February 21, 1975 (40 FR 7620), March 11, 1975 (40 FR 11346), May 8, 1975 (40 FR 20065), July 1, 1975 (40 FR 27643), and September 23, 1975 (40 FR 43717), prescribing the commuted traveltime that shall be included in each period of overtime or holiday duty, are hereby amended by adding to the respective lists therein as follows:

§ 97.2 **Administrative instructions prescribing commuted travel time.**

* * * * *

FOUR HOURS

Acadian Regional Airport, New Iberia, Louisiana (served from Baton Rouge, Louisiana).

* * * * *

(64 Stat. 561; (7 U.S.C. 2260))

Effective date. The foregoing amendment shall become effective October 7, 1975.

It is to the benefit of the public that this instruction be made effective at the earliest practicable date. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, pursuant to 5 U.S.C. 553, it is found upon good cause that notice and public procedure on this instruction are impracticable, unnecessary, and contrary to the public interest and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 2d day of October, 1975.

PIERRE A. CHALOUX,
Acting Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service.

Title 12—Banks and Banking

CHAPTER II—FEDERAL RESERVE SYSTEM

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

[Reg. D, Q]

PART 204—RESERVES OF MEMBER BANKS

PART 217—INTEREST ON DEPOSITS

Definition of Savings Deposits

On June 5, 1975 the Board invited public comments to be submitted by July 25, 1975 on proposed amendments to its Regulation D (Reserves of Member Banks) and Regulation Q (Interest on Deposits) that would permit member banks to classify funds of corporations, associations, and other organizations operated for profit as savings deposits (40 FR 25031).

As proposed, the amendments would have permitted member banks to accept savings deposits from such organizations to the extent such funds do not exceed $100,000 per depositor at a member bank. The Board requested comments from the public concerning the appropriateness of such a limitation. After review and consideration of all comments received, the Board has decided to adopt the amendments in a slightly modified form to permit member banks to accept savings deposits from business organizations up to a maximum of $150,000 per depositor.

The amendments have been adopted in order to provide smaller business organizations, which do not ordinarily have access to short-term money market instruments, with a means of realizing a short-term return on their funds. These amendments will also enable member banks to compete more effectively with other financial institutions that are permitted to accept savings deposits from businesses. The Board adopted the $150,000 per depositor limitation in order to limit the concentration of any potentially volatile funds in savings deposits and to confine the effects of the proposed amendments primarily to small businesses. The limitation of $150,000 was adopted instead of the $100,000 originally proposed since it was determined that the higher level would more adequately accommodate the needs of smaller business enterprises.

The amendments will become effective November 10, 1975. Member banks should maintain savings deposits established by business organizations as a separate deposit classification for reporting purposes.

In those states where member banks are permitted by law to offer deposits subject to negotiable orders of withdrawal (NOW's), such accounts will continue to be available only to individuals and other qualifying organizations as provided for by § 217.1(e) of Regulation Q.

After review of all relevant matter presented, pursuant to its authority under section 19 of the Federal Reserve Act (12 U.S.C. 461) to define the terms used in that section, the Board has decided to adopt the amendments as set forth below.

Effective November 10, 1975, § 204.1(e) of Regulation D (12 CFR 204.1(e)) and § 217.1(e) of Regulation Q (12 CFR 217.1(e)) are amended as follows:

§ 204.1 **Definitions.**

* * * * *

(e) *Savings deposits.* The term "savings deposit" means a deposit—(1) that consists of funds deposited to the credit of or in which the entire beneficial interest is held by one or more individuals, or a corporation, association, or other organization operated primarily for religious, philanthropic, charitable, educational, fraternal, or other similar purposes and not operated for profit; [4] or that consists of funds deposited to the credit of or in which the entire beneficial interest is held by the United States, any State of the United States, or any country, municipality, or political subdivision thereof, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, American Samoa, Guam, or political subdivision thereof; or that consists of funds deposited to the credit of, or in which any beneficial interest is held by a corporation, association, or other organization not qualifying above to the extent such funds do not exceed $150,000 per such depositor at a member bank; [4a] and

* * * * *

§ 217.1 **Definitions.**

* * * * *

(e) *Savings deposits.* The term "savings deposit" means a deposit—(1) that consists of funds deposited to the credit of or in which the entire beneficial interest is held by one or more individuals, or of a corporation, association, or other organization operated primarily for religious, philanthropic, charitable, educational, fraternal, or other similar purposes and not operated for profit; [4] or that consists of funds deposited to the credit of or in which the entire beneficial interest is held by the United States, any State of the United States, or any county, municipality, or political subdivision thereof, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, American Samoa, Guam, or political subdivision thereof; or that consists of funds deposited to the credit of, or in which any beneficial interest is held by a corporation, association, or other organization not qualifying above to the extent such funds do not exceed $150,000 per such depositor at a member bank; [4a] and

* * * * *

By order of the Board of Governors, October 2, 1975.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

CHAPTER III—FEDERAL DEPOSIT INSURANCE CORPORATION

SUBCHAPTER B—REGULATIONS AND STATEMENTS OF GENERAL POLICY

PART 329—INTEREST ON DEPOSITS

Corporations and Other Profit-Making Entities Maintaining Savings Accounts in Insured Nonmember Commercial Banks

1. On June 6, 1975 the Board of Directors of the Federal Deposit Insurance Corporation adopted a proposed amendment to §§ 329.1 and 329.7 of Part 329 of its regulations (12 CFR 329.1 and 329.7) to permit corporations, partnerships, associations, or other organizations operated for profit to maintain savings deposits in insured nonmember commercial banks. The proposed amendment was published as a notice of pro-

[4] Deposits in joint accounts of two or more individuals may be classified as savings deposits if they meet the other requirements of the above definition. Deposits of a partnership operated for profit may also be classified as savings to the extent such deposits do not exceed $150,000 per partnership at a member bank.

[4a] Where a deposit is to the credit of the bank's own trust department and the funds involved are utilized to cover checks, such deposit may not be classified as a savings deposit.

posed rulemaking in the FEDERAL REGISTER on June 11, 1975 (40 FR 24918–19). Interested persons were given until July 25, 1975 to submit written data, views, or arguments on the proposed amendment.

On June 5, 1975 the Board of Governors of the Federal Reserve announced its adoption of a similar proposal for Federal Reserve member banks. The Federal Reserve proposal differed from the FDIC proposal in that the former suggested a limitation of $100,000 on the amount that a profit-making business organization could deposit in a savings account with a member bank. Both proposals asked for public comment on the desirability of having such an amount limitation. The Federal Reserve proposal was published in the FEDERAL REGISTER on June 12, 1975 (40 FR 25031), with the deadline for comments being July 25, 1975.

After considering all comments submitted to the FDIC and after consulting with the Board of Governors of the Federal Reserve, the Board of Directors has decided to adopt the proposed amendment with a limitation of $150,000 on the amount of funds which a single profit-making business organization may maintain in a savings deposit at any one insured nonmember commercial bank.

Although the Board of Directors received a number of comments objecting to the idea of an amount limitation, and despite the Board's reservations concerning the desirability of a limitation such as the above, the Board decided to adopt it in the interest of achieving uniform regulatory treatment of a subject that has obvious competitive significance for all insured commercial banks, both member and nonmember. In the Board's view, its action accords with the intent evidenced by Congress in enacting interest rate control legislation that requires prior consultation among the federal agencies which supervise financial institutions before prescribing or changing rules governing the payment and advertisement of interest on deposits.

2. Section 329.1 of 12 CFR Part 329 is amended by revising paragraph (e) to read as follows:

§ 329.1 Definitions.

* * * * *

(e) *Savings deposits.* (1) The term "savings deposit" means a deposit:

(i) Which consists of funds deposited to the credit of one or more individuals, or of a public unit, as defined in section 3(m) of the Federal Deposit Insurance Act, or of a corporation, association, or other organization operated primarily for religious, philanthropic, charitable, educational, fraternal, or other similar purposes and not operated for profit,[4] or

[4] Deposits in joint accounts of two or more individuals may be classified as savings deposits under paragraph (e)(1)(i) if they meet the other requirements of the definition in paragraph (e)(1)(i), but deposits of a partnership operated for profit may not be so classified. Deposits to the credit of an individual or a public unit of funds in which in which the entire beneficial interest is held by one or more individuals or public units, or by such a corporation, association, or other organization; or

(ii) Which consists of funds deposited to the credit of, or in which all or part of the beneficial interest is held by a corporation, partnership, association, or other organization which does not come within paragraph (e)(1)(i) of this section, but only to the extent that such deposits do not exceed $150,000 for any such corporation, partnership, association, or other organization in any one bank; and

(iii) In the case of both paragraphs (e)(1)(i) and (e)(1)(ii) of this section, with respect to which the depositor is not required by the deposit contract but may at any time be required by the bank to give notice in writing of an intended withdrawal not less than 30 days before such withdrawal is made[5] and which is not payable on a specified date or at the expiration of a specified time after the date of deposit.

(2)(i) Except as provided in paragraph (e)(2)(ii) of this section, the term "savings deposit", as defined in paragraph (e)(1)(i) of this section, shall include all interest-bearing deposits subject to withdrawal by negotiable or transferable instruments for the purpose of making transfers to third parties where such withdrawals are authorized by law.[5a]

(ii) No insured nonmember bank or insured nonmember mutual savings bank shall maintain an interest-bearing deposit for a corporation, partnership, association or other organization under paragraph (e)(1)(ii) of this section, or for a public unit, as defined in section 3(m) of the Federal Deposit Insurance Act, if such deposit is subject to withdrawal by negotiable or transferable instrument for the purpose of making transfers to third parties: *Provided*, That any insured nonmember bank or insured nonmember mutual savings bank may maintain such a deposit for a public unit until January 1, 1976 if the deposit was established before May 5, 1975: *And provided*, That any deposit which would otherwise be prohibited by this paragraph (e)(2)(ii) shall not be subject to such prohibition if it is held by a public unit operated primarily for charitable, educational or other similar purposes.

* * * * *

the beneficial interest is held by a corporation, partnership, association, or other organization operated for profit or not operated primarily for religious, philanthropic, charitable, educational, fraternal, or other similar purposes, may not be classified as savings deposits except to the extent permitted in paragraph (e)(1)(ii).

[5] The exercise by the bank of its right to require such notice shall not cause the deposit to cease to be a savings deposit.

[5a] Limited by Federal law to banks in Massachusetts and New Hampshire (87 Stat. 342).

3. Section 329.7 of 12 CFR Part 329 is amended by revising paragraph (b)(1) to read as follows:

§ 329.7 Maximum rates of interest or dividends payable on deposits by insured nonmember mutual savings banks.[14]

* * * * *

(b) *Maximum rates payable*—(1) *General*—(i) * * *

(ii) Notwithstanding the provisions of paragraph (b)(1)(i) of this section, no insured nonmember mutual savings bank shall pay interest or dividends at a rate in excess of 5 percent per annum on any deposit that is subject to withdrawal by negotiable or transferable instruments for the purpose of making transfers to third parties where such withdrawals are authorized by law.[14a] Eligibility for corporations, partnerships, associations, other organizations and public units shall be limited in accordance with the provisions of § 329.1(e)(2)(ii).

(Sec. 18(g), 12 U.S.C. 1828(g), 80 Stat. 824, 88 Stat. 1558)

4. In accordance with the provisions of 5 U.S.C. 553(d) and 302.5 of the FDIC's rules and regulations, and in order to afford the affected banks and their customers a reasonable period of accommodation and adjustment, the amendments' effective date will be delayed until November 10, 1975.

5. Effective date: November 10, 1975.

By order of the Board of Directors, October 1, 1975.

FEDERAL DEPOSIT INSURANCE CORPORATION,
[SEAL] ALAN R. MILLER,
Executive Secretary.

[FR Doc.75-26880 Filed 10-6-75;8:45 am]

[14] * * *

[14a] Federal law limits the offering of such deposits by mutual savings banks to those banks located in Massachusetts and New Hampshire (87 Stat. 342).

CHAPTER V—FEDERAL HOME LOAN BANK BOARD

SUBCHAPTER B—FEDERAL HOME LOAN BANK SYSTEM

[No. 75-892]

PART 524—OPERATIONS OF THE BANKS

Charitable Donations

The Federal Home Loan Bank Board considers it desirable to amend § 524.12 of the regulations for the Federal Home Loan Bank System (12 CFR 524.12) for the purpose of permitting a Federal Home Loan Bank to make charitable donations within reasonable limits. Such donations within reasonable limits would, in the Board's view, further the corporate interests of the Banks. Present § 524.12 prohibits such donations.

Accordingly, the Board hereby amends said § 524.12 to read as set forth below.

Since this amendment relieves restriction, the Board hereby finds that notice and public procedure are unnecessary under the provisions of 12 CFR 508.11 and 5 U.S.C. 553(b) and that publication of said amendment for the 30-day period specified in 12 CFR 508.14 and 5 U.S.C. 553(d) is likewise unnecessary. Therefore, the Board hereby provides that the amendment shall become effective September 11, 1975.

Section 524.12 is revised to read as follows:

§ 524.12 Donations.

A Bank shall make contributions to charitable organizations only in accordance with the following limitations:

(a) Such donations shall not exceed $5,000 in the aggregate in any calendar year;

(b) Donations to any one charitable organization shall not exceed $1,000 in the aggregate in any calendar year; and

(c) Each such donation shall be approved by the Bank's board of directors.

Exceptions to the limitations in this section shall be made only with prior approval of the Director or Deputy Director of the Office of the Federal Home Loan Banks.

(Sec. 17, 47 Stat. 736, as amended; 12 U.S.C. 1437, Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943–48, Comp., p. 1071).

By the Federal Home Loan Bank Board.

[SEAL] J. J. FINN, *Secretary.*

SUBCHAPTER D—FEDERAL SAVINGS AND LOAN INSURANCE CORPORATION

[No. 75-896]

PART 563—OPERATIONS

Nationwide Lending

OCTOBER 1, 1975.

The following summary of the amendments adopted by this Resolution is provided for the reader's convenience and is subject to the full provisions of this Resolution, including the provisions in the preamble thereof and in the amended regulations set forth below.

I. *Regulations prior to present amendment.* The Office of Examinations and Supervision could act for the Federal Savings and Loan Insurance Corporation in approving or disapproving applications by insured institutions for exceptions to any of the Corporation's limitations or requirements relating to nationwide lending.

II. *Amended regulations.* Applications by insured institutions for exceptions to the Corporation's percent-of-assets limitations regarding nationwide lending must be acted upon by the Board. This Resolution, in effect, revokes the authority formerly delegated to the Office of Examinations and Supervision to approve or disapprove such applications.

III. *Reason for amendment.* The Board reserves to itself the authority to act upon certain applications which may involve, in substance, the expansion of the applicant's normal lending territory.

The Federal Home Loan Bank Board, as the operating head of the Federal Savings and Loan Insurance Corporation, considers it desirable to amend § 563.9 of the rules and regulations for Insurance of Accounts (12 CFR 563.9) regarding nationwide lending for the purpose of revoking the authority of the Director, or a Deputy Director, of the Office of Examinations and Supervision to approve or disapprove applications by insured institutions for exceptions to the percent-of-assets limitations in said § 563.9. This Resolution does not change the authority of such Director or Deputy Director to approve or disapprove applications for exceptions to the limitations or requirements in said § 563.9 as to scheduled items or local eligible servicers.

Accordingly, the Board hereby amends § 563.9 by revising subsection (f)(2) thereof to read as set forth below, effective October 10, 1975.

Since this amendment relates to rules of Board organization, procedure, or practice, the Board hereby finds that notice and public procedure as to such amendments are unnecessary under the provisions of 12 CFR 508.11 and 5 U.S.C. 553(b); and because publication of said amendments for the 30-day period specified in 12 CFR 508.14 and 5 U.S.C. 553(d) prior to the effective date would, in the opinion of the Board, likewise be unnecessary for the same reason, the Board hereby provides that said amendments shall become effective as hereinbefore set forth.

§ 563.9 Nationwide lending.

* * * * *

(f) *Exceptions to limitations or requirements.* * * *

(2) The Director of the Office of Examinations and Supervision is authorized to approve or disapprove, on behalf of the Corporation, applications by insured institutions for waivers of all or any portion of the scheduled items limitations or the local eligible servicer requirements of this section, or both, filed in accordance with paragraph (f)(1) of this section. In connection with approvals made pursuant to the authority in the immediately preceding sentence, such Director may specify the terms and conditions of such approvals. Such Director is also authorized to delegate to any Deputy Director of the Office of Examinations and Supervision the authority conferred by this paragraph (f)(2) under such circumstances and subject to such limitations as the Director may prescribe.

* * * * *

(Sec. 402, 403, 48 Stat. 1256, 1257, as amended; 12 U.S.C. 1725, 1726. Reorg. Plan No. 3 of 1947, 12 F.R. 4981, 3 CFR, 1943–48 Comp., p. 1071).

By the Federal Home Loan Bank Board.

[SEAL] J. J. FINN, *Secretary.*

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airworthiness Docket No. 75-WE-33-AD, Amdt. 39-2377]

PART 39—AIRWORTHINESS DIRECTIVES

Douglas Model DC-10 Series Airplanes

Amendment 39-2218 (40 FR 22825), AD 75-11-10, requires inspection and modification of the down locks and air bottle control valve levers to prevent inadvertent opening of Type I passenger doors on Douglas Model DC-10 Series airlines. After issuing Amendment 39-2218, the agency determined that the compliance time for modifying the air bottle control valve levers could be extended and an alternate means of compliance provided. This finding was based on no further occurrences of service difficulties; incorporation of the applicable down lock provisions of AD's 75-06-07, 75-11-10, and 75-13-03; and the routinely conducted preflight checks of the air storage bottle pressure gages. Therefore, the AD is being amended to provide an alternate means of retaining the air bottle control valve lever, and to extend the compliance time of paragraph (C), subject to certain conditions.

Since this amendment provides alternate means of compliance, and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations, is amended by deleting paragraph (C) and adding a new paragraph (C) as follows:

(C) Compliance required as indicated, unless the modification required by (C)(2) is already accomplished.

(1) Within the next 1500 hours' time in service after the effective date of this AD, and thereafter at intervals not to exceed 500 hours' time in service from the last inspection,

(a) Reinspect the air storage bottle control valve lever (reference (A)(1)(d), above) to insure that it is in its normal operating (stowed) position; or

(b) Verify that the door handle has not been disturbed subsequent to the accomplishment of the inspection or check required by (A)(2)(a), above. Any method used to insure that the operating handle has not been disturbed must not interfere with normal and emergency operation of the door.

(2) Within the next 3000 hours' time in service after the effective date of this AD,

(a) Install retention springs on the Type I door air storage bottle control valve lever in accordance with Douglas Service Bulletin No. 52-140, dated April 30, 1975, or later FAA-approved revisions; or

(b) Install a new design Type I door air storage bottle control valve in accordance with Douglas Service Bulletin No. 52-154, dated September 19, 1975, or later FAA-approved revisions.

This amendment becomes effective October 14, 1975.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c))

Issued in Los Angeles, Calif., on September 26, 1975.

ROBERT H. STANTON,
Director,
FAA Western Region.

[FR Doc.75-27665 Filed 10-6-75;8:45 am]

[Airspace Docket No. 75-EA-56]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Area

The Federal Aviation Administration is amending §§ 71.171 and 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the Martinsburg, W. Va., control zone (40 FR 403) and Transition Area (40 FR 536, 24518).

The control zone and transition area descriptions make reference to Martinsburg Municipal Airport, Martinsburg, W. Va. The name of the airport has been changed to Eastern West Virginia Regional Airport. Thus an amendment is required to reflect the name change in the description.

Since the amendment is editorial in nature, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

In view of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective on October 7, 1975, as follows:

1. Amend § 71.171 of Part 71 of the Federal Aviation Regulations by amending the description of the Martinsburg, West Virginia Control Zone by deleting, "Martinsburg Municipal Airport" and by inserting, "Eastern West Virginia Regional Airport" in lieu thereof.

2. Amend § 71.181 of Part 71 of the Federal Aviation Regulations by amending the description of the Martinsburg, West Virginia Transition Area by deleting, "Martinsburg Municipal Airport" and by inserting, "Eastern West Virginia Regional Airport" in lieu thereof.

(Sec. 307(a), Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348); sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c)).

Issued in Jamaica, N.Y., on September 12, 1975.

DUANE W. FREER,
Director, Eastern Region.

[FR Doc. 75-26766 Filed 10-6-75; 8:45 am]

[Airspace Docket No. 75-GL-53]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Extension of Federal Airways

On August 7, 1975, a notice of proposed rulemaking (NPRM) was published in the FEDERAL REGISTER (40 FR 33223) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 71 of the Federal Aviation Regulations that would extend V-72 to Bloomington, Ill., and V-156 to Cedar Rapids, Iowa.

Interested persons were afforded an opportunity to participate in the proposed rulemaking through the submission of comments. The only comment received was from the Air Transport Association of America who expressed no objection.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., December 4, 1975, as hereinafter set forth.

Section 71.123 (40 FR 307, 42342) is amended as follows:

In V-72 "INT Bible Grove 015° and Vandalia,, Ill. 075° radials." is deleted and "Mattoon, Ill.; to Bloomington, Ill." is substituted therefor.

In V-156 "From Moline, Ill.," is deleted and "From Cedar Rapids, Iowa, via Moline, Ill.;" is substituted therefor.

(Sec 307(a). Federal Aviation Act of 1958, (49 U.S.C. 1348(a)); sec. 6 (c), Department of Transportation Act, (49 U.S.C. 1655(c)))

Issued in Washington, D.C., on September 30, 1975.

EDWARD J. MALO,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.75-26778 Filed 10-6-75;8:45 am]

[Airspace Docket No. 75-SO-90]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On August 13, 1975, a notice of proposed rulemaking was published in the FEDERAL REGISTER (40 FR 33997), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Wetumpka, Ala., transition area.

Interested persons were afforded an opportunity to participate in the rulemaking through the submission of comments. There were no comments received.

Subsequent to issuance of the NPRM, it was determined that the procedure turn altitude associated with the VOR RWY 27 instrument approach procedure would not be lowered. Therefore, additional controlled airspace for the procedure is not required and the proposal to design the same is hereby withdrawn. It is necessary to change the VOR radial from 069° to 070°. The designation of controlled airspace for protection of aircraft executing the proposed RNAV RWY 27 instrument approach procedure remains valid.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., December 4, 1975, as hereinafter set forth.

In § 71.181 (40 FR 441) the Wetumpka, Ala., transition area is amended as follows:

"* * * Maxwell VOR 069° radial, extending from the 7-mile radius area to 22 miles northeast of the Maxwell VOR * * *" is deleted and "* * * Maxwell VOR 070° radial, extending from the 7-mile radius area to 22 miles east of the Maxwell VOR; within 6 miles north and 4.5 miles south of the 090° bearing from the airport, extending from the 7-mile radius area to 17.5 miles east of the airport * * *" is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958, (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c))

Issued in East Point, Ga., on September 26, 1975.

PHILLIP M. SWATEK,
Director, Southern Region.

[FR Doc.75-26767 Filed 10-6-75;8:45 am]

[Airspace Docket No. 75-SO-82]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

On August 14, 1975, a notice of proposed rulemaking was published in the FEDERAL REGISTER (40 FR 34141), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would designate the Winnsboro, S.C., transition area.

Interested persons were afforded an opportunity to participate in the rulemaking through the submission of comments. There were no comments received.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., December 4, 1975, as hereinafter set forth.

In § 71.181 (40 FR 441), the following transition area is added:

WINNSBORO, S.C.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of Fairfield County Airport (latitude 34°19'00" N, longitude 81°06'30" W); within 3 miles each side of the 208° bearing from Winnsboro RBN (latitude 34°18'56" N, longitude 81°06'41" W), extending from the 5-mile radius area to 8.5 miles southwest of the RBN.

(Sec. 307(a), Federal Aviation Act of 1958, (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c))

Issued in East Point, Ga., on September 26, 1975.

PHILLIP M. SWATEK,
Director, Southern Region.

[FR Doc. 75-26774 Filed 10-6-75;8:45 am]

[Airspace Docket No. 75-SO-84]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

On August 14, 1975, a notice of proposed rulemaking was published in the FEDERAL REGISTER (40 FR 34141), stating

that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would designate the Cedar Springs, Ga., transition area.

Interested persons were afforded an opportunity to participate in the rulemaking through the submission of comments. There were no comments received.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., December 4, 1975, as hereinafter set forth.

In § 71.181 (40 FR 441), the following transition area is added:

CEDAR SPRINGS, GA.

That airspace extending upward from 700 feet above the surface within a 6.5-mile radius of Great Southern Airport (latitude 31°08'25" N, longitude 85°02'48" W); within 2.5 miles each side of the Dothan VORTAC 115° radial, extending from the 6.5-mile radius area to 17 miles east of the VORTAC.

(Sec. 307(a), Federal Aviation Act of 1958, (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c))

Issued in East Point, Ga., on September 26, 1975.

PHILLIP M. SWATEK,
Director, Southern Region.

[Airspace Docket No. 75-SO-94]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On August 14, 1975, a notice of proposed rulemarking was published in the FEDERAL REGISTER (40 FR 34140), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Monroe, N.C., transition area.

Interested persons were afforded an opportunity to participate in the rulemaking through the submission of comments. There were no comments received.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., December 4, 1975, as hereinafter set forth.

In § 71.181 (40 FR 441), the Monroe, N.C., transition area is amended as follows:

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

That airspace extending upwards from 700 feet above the surface within a 6.5-mile radius of Monroe Airport (Lat. 35°01'15" N., Long. 80°38'00" W.); within 4.5 miles northwest and 9.5 miles southeast of the 217° bearing from the Wesley RBN (Lat. 34°58'17" N., Long. 80°40'55" W.), extending from the 6.5-mile radius area to 18.5 miles southwest of the RBN; excluding the portions that coincide with the Charlotte, N.C., and Lancaster, S.C., transition areas.

Issued in East Point, Ga., on September 26, 1975.

PHILLIP M. SWATEK,
Director, Southern Region.

[Airspace Docket No. 75-SO-96]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On August 19, 1975, a notice of proposed rulemaking was published in the FEDERAL REGISTER (40 FR 36144), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Cheraw, S.C., transition area.

Interested persons were afforded an opportunity to participate in the rulemaking through the submission of comments. There were no comments received.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., December 4, 1975, as hereinafter set forth.

In § 71.181 (40 FR 441), the Cheraw, S.C., transition area is amended as follows: "* * * to the VOR * * *" would be deleted and "* * * to the VOR; within 2 miles each side of the 251° bearing from the Cheraw RBN (Lat. 34°44'47" N., Long. 79°50'40" W.), extending from the 5-mile radius area to the RBN * * *" would be substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958, (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c)))

Issued in East Point, Ga., on September 26, 1975.

PHILIP M. SWATEK,
Director, Southern Region.

[Airspace Docket No. 75-SO-97]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On August 19, 1975, a notice of proposed rulemaking was published in the FEDERAL REGISTER (40 FR 36144), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Marion, S.C., transition area.

Interested persons were afforded an opportunity to participate in the rulemaking through the submission of comments. There were no comments received.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., December 4, 1975, as hereinafter set forth.

In § 71.181 (40 FR 441), the Marion, S.C., transition area is amended as follows: " * * * VORTAC excluding the portion that coincides with the Florence transition area * * *" would be deleted and "* * * VORTAC; within 3 miles each side of the 211° bearing from Marion RBN (Lat. 34°11'06" N., Long. 79°-20'00" W.), extending from the 6-mile radius area to 8.5 miles southwest of the RBN; excluding the portion within Florence transition area * * *" would be substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958, (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act, (49 U.S.C.1655(c)))

Issued in East Point, Ga., on September 26, 1975.

[Airspace Docket No. 75-SO-95]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On August 20, 1975, a notice of proposed rulemaking was published in the FEDERAL REGISTER (40 FR 36380), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Bennettsville, S.C., transition area.

Interested persons were afforded an opportunity to participate in the rulemaking through the submission of comments. There were no comments received.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., December 4, 1975, as hereinafter set forth.

In § 71.181 (40 FR 441), the Bennettsville, S.C., transition area is amended as follows: "* * * Long. 79°43'47" W.) * * *" would be deleted and "* * * Long. 79°43'57" W.); within 3 miles each side of the 245° bearing from Bennettsville RBN (Lat. 34°37'39" N., Long. 79°43'53" W.), extending from the 6.5-mile radius area to 8.5 miles southwest of the RBN, excluding the portion within the Darlington, S.C., transition area * * *" would be substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c))

Issued in East Point, Ga., on September 26, 1975.

PHILLIP M. SWATEK,
Director, Southern Region.

[FR Doc.75-26773 Filed 10-6-75;8:45 am]

[Airspace Docket No. 75-SO-98]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

On August 20, 1975, a notice of proposed rulemaking was published in the

FEDERAL REGISTER (40 FR 36381), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would designate the Newberry, S.C. transition area.

Interested persons were afforded an opportunity to participate in the rulemaking through the submission of comments. There were no comments received.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., December 4, 1975, as hereinafter set forth.

In § 71.181 (40 FR 441), the following transition area is added:

NEWBERRY, S.C.

That airspace extending upward from 700 feet above the surface within a 6.5-mile radius of Newberry Municipal Airport (Lat. 34°18'40" N., Long. 81°38'20" W.); within 3 miles each side of the 031° bearing from the Enoree RBN (Lat. 34°18'41" N., Long. 81°38' 10" W.), extending from the 6.5-mile radius to 8.5 miles northeast of the RBN.

(Sec. 307(a), Federal Aviation Act of 1958, (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c))

Issued in East Point, Ga., on September 26, 1975.

PHILLIP M. SWATEK,
Director, Southern Region.

[FR Doc.75-26770 Filed 10-6-75;8:45 am]

[Airspace Docket No. 75-SO-111]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone; Correction

On September 12, 1975, FR Doc. 75-24258 was published in the FEDERAL REGISTER (40 FR 42303, amending Part 71 of the Federal Aviation Regulations by altering the Atlanta, Ga. (Dobbins AFB/NAS Atlanta) control zone.

In the amendment, the reference to Charlie Brown County Airport was misspelled as Charley Brown County Airport. It is necessary to amend the FR Doc. to reflect this change. Since this amendment is editorial in nature, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, effective immediately, FR Doc. 75-24258 is amended as follows: In line five of the description, "* * * (Charles Brown County Airport) * * * *" is deleted and "* * * (Charlie Brown County Airport) * * *" is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958, (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c))

Issued in East Point, Ga., on September 23, 1975.

GORDON W. BECKER,
Acting Director, Southern Region.

[FR Doc.75-26771 Filed 10-6-75;8:45 am]

[Airspace Docket No. 75-SO-126]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the Louisville, Miss., transition area.

The Louisville transition area is described in § 71.181 (40 F.R. 441). In the description, an extension, predicated on the 353° bearing from the Louisville RBN, was designated to provide controlled airspace protection for IFR aircraft executing the NDB-A Instrument Approach Procedure. The final approach course has been changed to 346°. It is necessary to alter the description to reflect this change. Since this amendment is minor in nature, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., December 4, 1975, as hereinafter set forth.

In § 71.181 (40 F.R. 441), the Louisville, Miss., transition area is amended as follows: "* * * 353° * * *" is deleted and "* * * 346° * * *" is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958, (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c))

Issued in East Point, Ga., on September 29, 1975.

PHILLIP M. SWATEK,
Director, Southern Region.

[Airspace Docket No. 75-SO-91]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

On August 14, 1975, a notice of proposed rulemaking was published in the FEDERAL REGISTER (40 FR 34141), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would designate the Demopolis, Ala., transition area.

Interested persons were afforded an opportunity to participate in the rulemaking through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., December 4, 1975, as hereinafter set forth.

In § 71.181 (40 FR 441), the following transition area is added:

DEMOPOLIS, ALA.

That airspace extending upwards from 700 feet above the surface within a 6.5-mile radius of Demopolis Municipal Airport (lat. 32°27'45" N, long. 87°57'05" W).

(Sec. 307(a), Federal Aviation Act of 1958, (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c)))

Issued in East Point, Ga., on September 26, 1975.

PHILLIP M. SWATEK,
Director, Southern Region.

PART 75—ESTABLISHMENT OF JET ROUTES AND AREA HIGH ROUTES

Extension of Jet Routes

On August 20, 1975, the Federal Aviation Administration published a notice of proposed rulemaking (40 FR 36381) proposing to amend Part 75 of the Federal Aviation Regulations to extend J-40 and J-150 northeast of Gordonsville, Va. Interested persons were afforded an opportunity to participate in the proposed rulemaking through the submission of comments. The two comments received were favorable.

In consideration of the foregoing, Part 75 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., December 4, 1975, as hereinafter set forth.

Section 75.100 (40 FR 705,28077, 39 FR 41520) is amended as follows:

a. In J-40 "to the INT of the Richmond 009° and the Gordonsville, Va. 059° radials." is deleted and "INT Richmond 009° and Gordonsville, Va. 059° radials; INT Gordonsville 059° and New Castle, Del., 222° radials; to New Castle." is substituted therefor.

b. In J-150 "From Robbinsville, N.J., via" is deleted and "From Gordonsville, Va., via INT Gordonsville, 059° and Woodstown, N.J. 230° radials; Woodstown; Robbinsville, N.J.;" is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958, (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c))

Issued in Washington, D.C., on September 30, 1975.

EDWARD J. MALO,
Chief, Airspace and Air Traffic Rules Division.

Title 16—Commercial Practices

CHAPTER I—FEDERAL TRADE COMMISSION

[Docket No. C-2724]

PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

North American Pools, Inc., et al.

Subpart—Advertising falsely or misleadingly: § 13.10 Advertising falsely or misleadingly; 13.10-1 Availability of merchandise and/or facilities; § 13.70

Fictitious or misleading guarantees; § 13.135 Nature of product or service; § 13.155 Prices; 13.155–10 Bait; 13.155–33 Demonstration reductions; 13.155–35 Discount savings; 13.155–70 Percentage savings; 13.155–80 Retail as cost, wholesale, discounted, etc.; 13.155–100 Usual as reduced, special, etc. § 13.160 Promotional sales plans; § 13.170 Qualities or properties of product or service; 13.170–30 Durability or permanence; § 13.205 Scientific or other relevant facts; § 13.260 Terms and conditions. Subpart—Contracting for sale in any form binding on buyer prior to specified time period: § 13.527 Contracting for sale in any form binding on buyer prior to end of specified time period. Subpart—Corrective actions and/or requirements: § 13.53 Corrective actions and/or requirements; 13.533–20 Disclosures; 13.533–45 Maintain records; 13.533–45(a) Advertising substantiation. Subpart—Disparaging products, merchandise, services, etc.: § 13.1042 Disparaging products, merchandise, services, etc. Subpart—Misrepresenting oneself and goods—Goods: § 13.1572 Availability of advertised merchandise and/or facilities; § 13.1647 Guarantees; § 13.1685 Nature; § 13.1710 Qualities or properties; § 13.1740 Scientific or other relevant facts; § 13.1760 Terms and conditions. —Prices: § 13.1779 Bait; § 13.1800 Demonstration reductions; § 13.1823 Terms and conditions; § 13.1825 Usual as reduced or to be increased.—Promotional sales plans: § 13.1830 Promotional sales plans. Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1855 Identity; § 13.1892 Sales contract, right-to-cancel provisions; § 13.1895 Scientific or other relevant facts; § 13.1905 Terms and conditions. Subpart—Offering unfair, improper and deceptive inducements to purchase or deal: § 13.1980 Guarantee, in general; § 13. 2063 Scientific or other relevant facts.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45)

In the Matter of North American Pools, Inc., a corporation, and John Maione, individually and as an officer of said corporation.

Consent order requiring a Totowa, N.J., seller, distributor and installer of swimming pools, among other things to cease using unfair and deceptive sales practices including misrepresenting the availability of merchandise; misrepresenting prices; disparaging advertised products; misrepresenting guarantees and product durability.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows: [1]

[1] Copies of the Complaint, Decision and Order, filed with the original document.

ORDER

It is ordered, That respondents, North American Pools, Inc., a corporation, its successors and assigns, and its officers, and John Maione, individually and as an officer of the aforesaid corporation and respondents' agents, representatives and employees, directly or through any corporate or other device, in connection with the advertising, offering for sale, sale, distribution or installation of swimming pools or any other product, in or affecting commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Advertising or offering for sale any products for the purpose of obtaining leads or prospects for the sale of different products unless the advertised products are capable of adequately performing the function for which they are offered, and respondents maintain an adequate and readily available stock of said products.

2. Using any advertising sales plan or procedure involving the use of false, deceptive or misleading statements or representations designed to obtain leads or prospects for the sale of other merchandise.

3. Representing, directly or indirectly, that any products or services are offered for sale when such is not a bona fide offer to sell said products or services.

4. Disparaging, any product, installation or service which is advertised or offered for sale by respondents.

5. Representing, directly or by implication, that any price for a swimming pool or other product or service sold by respondents is a special, pre-season or sale price, when such price does not constitute a significant reduction from an established selling price at which such swimming pool, product or service has been sold in substantial quantities by respondents in the recent, regular course of business.

6. Representing, in any manner, that the swimming pools or any other products sold by respondents are maintenance free or require no periodic servicing or inspection.

7. Representing, directly or indirectly, that any of the respondents' products, installations or services are warranted or guaranteed, unless the nature and extent of the warranty or guarantee, the identity of the warrantor or guarantor and the manner in which the warrantor or guarantor will perform thereunder are clearly and conspicuously disclosed in immediate conjunction therewith; and unless respondents promptly and fully perform all of their obligations and requirements, directly or impliedly represented under the terms of each such warranty or guarantee.

8. Representing that by purchasing any merchandise, purchasers are afforded savings amounting to the difference between respondents' stated price and respondents' former price unless such merchandise has been sold or offered for sale at retail in good faith for a reasonably substantial period of time in the recent, regular course of business.

9. Misrepresenting, in any manner, the amount of savings available to purchasers or prospective purchasers of any merchandise sold or offered for sale by respondents.

10. Representing, directly or indirectly, that any price is reduced from respondents' former price if records customarily maintained by respondents fail to establish that such price constitutes a significant reduction from the price at which such merchandise has sold in substantial quantities or offered for sale in good faith for a reasonably substantial period of time, by respondents in the recent, regular course of their business.

11. Misrepresenting, directly or indirectly, that the pool of any of respondents' purchasers or prospective purchasers will be used for any type of advertising, demonstration or model or that as a result of such use, respondents' purchasers or prospective purchasers will be granted reduced prices or will receive a discount on the purchase price of said pool.

12. Failing to furnish the buyer with a fully completed receipt or copy of any contract pertaining to such sale at the time of its execution, which is in the same language, e.g., Spanish, as that principally used in the oral sales presentation and which shows the date of the transaction and contains the name and address of the seller, and in immediate proximity to the space reserved in the contract is not used and in bold face type or on the front page of the receipt if a contact is not used and in bold face type of a minimum size of 10 points, a statement in substantially the following form:

You, the buyer, may cancel this transaction at any time prior to midnight of the third business day after the date of this transaction. See the attached notice of cancellation form for an explanation of this right.

13. Failing to furnish each buyer, at the time he signs the sales contract or otherwise agrees to buy consumer goods or services from the seller, a completed form in duplicate, captioned "NOTICE OF CANCELLATION", which shall be attached to the contract or receipt and easily detachable, and which shall contain in ten point bold face type the following information and statements in the same language, e.g., Spanish, as that used in the contract:

NOTICE OF CANCELLATION

(Enter date of transaction) _____
(Date)

You may cancel this transaction, without any penalty or obligation, within three business days from the above date.

If you cancel, any property traded in, any payments made by you under the contract or sale, and any negotiable instrument executed by you will be returned within 10 busi-

ness days following receipt by the seller or your cancellation notice, and any security interest arising out of the transaction will be cancelled.

If you cancel, you must make available to the seller at your residence, in substantially as good condition as when received, any goods delivered to you under this contract or sale; or you may if you wish, comply with the instructions of the seller regarding the return shipment of the goods at the seller's expense and risk.

If you do make the goods available to the seller and the seller does not pick them up within 20 days of the date of your notice of cancellation, you may retain or dispose of the goods without any further obligation. If you fail to make the goods available to the seller, or if you agree to return the goods to the seller and fail to do so, then you remain liable for performance of all obligations under the contract.

To cancel this transaction, mail or deliver a signed and dated copy of this cancellation notice or any other written notice, or

Send a telegram, to ----------;
(Name of seller)

at ----------;
(Address of seller's place of business)

not later than midnight of ----------.
(Date)

I hereby cancel this transaction.

(Date)

(Buyer's signature)

14. Failing, before furnishing copies of the "Notice of Cancellation" to the buyer, to complete both copies by entering the name of the seller, the address of the seller's place of business, the date of the transaction, and the date, not earlier than the third business day following the date of the transaction, by which the buyer may give notice of cancellation.

15. Including in any door-to-door contract or receipt any confession of judgment or any waiver of any of the rights to which the buyer is entitled under this order including specifically his right to cancel the sale in accordance with the provisions of this order.

16. Failing to inform each buyer orally, at the time he signs the contract or purchases the goods or services, of his right to cancel.

17. Misrepresenting in any manner the buyer's right to cancel.

18. Failing or refusing to honor any valid notice of cancellation by a buyer and within 10 business days after receipt of such notice, to (i) refund all payments made under the contract or sale; (ii) return any goods or property traded in, in substantially as good condition as when received by the seller; (iii) cancel and return any negotiable instrument executed by the buyer in connection with the contract or sale and take any action necessary or appropriate to terminate promptly any security interest created in the transaction.

19. Negotiating, transferring, selling or assigning any note or other evidence of indebtedness to a finance company or other third party prior to midnight of the fifth business day following the day the contract was signed or the goods or services were purchased.

20. Failing, within 10 business days of receipt of the buyers' notice of cancellation, to notify him whether the seller intends to repossess or abandon any shipped or delivered goods.

Provided, however, That nothing contained in this order shall relieve respondents of any additional obligations respecting contracts required by federal law or the law of the state in which the contract is made. When such obligations are inconsistent, respondents can apply to the Commission for relief from this provision with respect to contracts executed in the state in which such different obligations are required. The Commission, upon showing, shall make such modifications as may be warranted in the premises.

It is further ordered, That in any advertisement for swimming pools, respondents shall disclose the material composition of the major structural components of said swimming pool including pool walls, deck, supporting members, rails and liner. Where print advertisements are utilized by respondents, said disclosures shall be set forth in a type size sufficient to clearly and conspicuously disclose the material composition of the said components to a potential purchaser. Where a pool requires periodic painting to preserve or protect wooden components thereof, respondents shall clearly and conspicuously set forth said fact in type of the same size used to list the material composition of major structural components of said swimming pools.

It is further ordered, That respondents maintain records, to be furnished upon request of the Federal Trade Commission or its staff, which disclose the factual basis for any representations or statements made with respect to any prohibition or affirmative disclosure requirement of this order, including, but not limited to, a copy of each advertisement in which a swimming pool is offered for sale at a specified price, the volume of sales of such advertised pool at the advertised price and the name and address of each purchaser of such advertised pool.

It is further ordered, That the individual respondent named herein promptly notify the Commission of the discontinuance of his present business or employment and of his affiliation with a new business or employment. Such notice shall include respondent's current business address and a statement as to the nature of the business or employment in which he is engaged as well as a description of his duties and responsibilities.

It is further ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent, such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the Order.

It is further ordered, That respondents shall forthwith distribute a copy of this order to all operating personnel, agents or representatives concerned with the promotion, sale and distribution of swimming pools or any other article of merchandise and secure from such person a signed statement acknowledging receipt of said Order.

It is further ordered, that no provision of this Order shall be construed in any way to annul, invalidate, repeal, terminate, modify or exempt respondents from complying with agreements, orders or directives of any kind obtained by any other agency or act as a defense to actions instituted by municipal or state regulatory agencies. No provision of this Order shall be construed to imply that any past or future conduct of respondents complies with the rules and regulations of, or the statutes administered by the Federal Trade Commission.

It is further ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this Order.

The Decision and Order was issued by the Commission September 10, 1975.

CHARLES A. TOBIN,
Secretary.

[Docket No. C-2725]

PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

Tony Evans Motors, Inc., et al.

Subpart—Advertising falsely or misleadingly: § 13.73 Formal regulatory and statutory requirements; 13.73-92 Truth in Lending Act; § 13.155 Prices; 13.155-95 Terms and conditions; 13.155-95(a) Truth in Lending Act. Subpart—Misrepresenting oneself and goods—Prices: § 13.1823 Terms and conditions; 13.1823—20. Truth in Lending Act. Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1852 Formal regulatory and statutory requirements; 13.1852-75 Truth in Lending Act; § 13.1905 Terms and conditions; § 13.1905-60 Truth in Lending Act.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 82 Stat. 146, 147; 15 U.S.C. 45, 1601, *et seq.*)

In the Matter of Tony Evans Motors, Inc., a corporation doing business as Tony Evans Mobile Home Show, Capital Mobile Home Show, Mobile Home Show, and Repo Information Center and Anthony P. Evans, Individually and as an officer of said corporation.

Consent order requiring a Reno, Nev., mobile home dealer, among other things to cease violating the Truth in Lending Act by failing to disclose to consumers, in connection with the extension of consumer credit, such information as required by Regulation Z of the said Act.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:[1]

ORDER

It is ordered, That respondents Tony Evans Motors, Inc., a corporation, doing business as Tony Evans Mobile Home Show, Capital Mobile Home Show, Mobile Home Show, and Repo Information Center, or by any other name, and its successors and assigns, and its officers, and Anthony P. Evans, individually and as an officer of said corporation, and respondents' agents, representatives, and employees, directly or through any corporation, subsidiary, division, or other device, in connection with any extension or arrangement for the extension of consumer credit, or any advertisement to aid, promote, or assist directly or indirectly any extension of consumer credit, as "consumer credit" and "advertisement" are defined in Regulation Z (12 CFR Part 226) of the Truth in Lending Act (15 U.S.C. 1601 et seq.), do forthwith cease and desist from:

1. Stating, in any advertising, the rate of any finance charge without stating the rate of that charge expressed as an "annual percentage rate", as required by Section 226.10(d)(1) of Regulation Z.

2. Representing in any such advertisement, directly or by implication, that no downpayment is required, the amount of the downpayment or the amount of any installment payment, either in dollars or as a percentage, the dollar amount of any finance charge, the number of installments or the period of repayment, or that there is no charge for credit, unless all of the following items are clearly and conspicuously stated, in terminology prescribed under § 226.8 of Regulation Z, as required by § 226.10(d)(2) of Regulation Z:

(a) The cash price;

(b) The amount of the downpayment required or that no downpayment is required, as applicable;

(c) The number, amount, and due dates or period of payment scheduled to repay the indebtedness if the credit is extended;

(d) The amount of the finance charge expressed as an annual percentage rate; and

(e) The deferred payment price.

3. Failing, in any advertisement, to make all disclosures, determined in accordance with §§ 226.4 and 226.5 of Regulation Z, at the time and in the manner, form and amount prescribed by § 226.10 of Regulation Z.

It is further ordered, That respondents deliver a copy of this order to cease and desist to all present and future personnel of respondents engaged in the consummation of any sale or extension of consumer credit or in any aspect of preparation, creation, or placing of advertising, to aid, promote, or assist any extension of consumer credit, and that respondents secure a signed statement acknowledging receipt of said order from each such person.

It is further ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent, such as dissolution, assignment, or sale, resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of this order.

It is further ordered, That the individual respondent named herein promptly notify the Commission of the discontinuance of his present business or employment and of his affiliation with a new business or employment. Such notice shall include respondent's current business address and a statement as to the nature of the business or employment in which he is engaged as well as a description of his duties and responsibilities.

It is further ordered, That respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this order.

The Decision and Order was issued by the Commission September 10, 1975.

CHARLES A. TOBIN,
Secretary.

Title 20—Employees' Benefits

CHAPTER III—SOCIAL SECURITY ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

[Regs. No. 5, further amended]

PART 405—FEDERAL HEALTH INSURANCE FOR THE AGED AND DISABLED

Hospital Insurance Benefits; Posthospital Extended Care

Correction

In FR Doc. 75-25246 appearing at page 43895 in the issue of Wednesday, September 24, 1975 on page 43898, second column, the second sentence in § 405.128, now reading "However, if skilled rehabilitation services are not available on a 7-day-a-week basis, a patient whose inpatient stay is based solely on the need for skilled rehabilitation services would meet the "daily basis" requirement that skilled rehabilitation such services on at least 5 days a week." should read "However, if skilled rehabilitation services are not available on a 7-day-a-week basis, a patient whose inpatient stay is based solely on the need for skilled rehabilitation services would meet the "daily basis" requirement where he needs and receives such services on at least 5 days a week."

Title 30—Mineral Resources

CHAPTER IV—FEDERAL METAL AND NONMETALLIC MINE SAFETY BOARD OF REVIEW

PART 400—PROCEDURAL RULES

Revocation

Pursuant to provisions contained in section 101(b) of Pub. L. 94-41, approved June 27, 1975 (89 Stat. 226), repealing sections 2(e), 10 and 11 of the Federal Metal and Nonmetallic Mine Safety Act (80 Stat. 772, 778-779; 30 U.S.C. 721, 729-730 (1970)), which created the Federal Metal and Nonmetallic Mine Safety Board of Review, and amending section 12 of the Act by removing all references to "the Board" and inserting in lieu thereof "the Secretary of the Interior," (80 Stat. 781; 30 U.S.C. 731 (1970)), notice is hereby given that the Secretary of the Interior has determined that the regulations contained in this chapter are obsolete and should be revoked. He has also found that notice and public procedure for the revocation of these regulations are unnecessary and are not in the public interest. The revocation will, therefor, become effective October 7, 1975.

Accordingly, the regulations in Chapter IV of Title 30 of the Code of Federal Regulations of the United States of America are revoked, and the chapter is reserved.

Appropriate editorial changes are being effected in references to review procedures under the Federal Metal and Nonmetallic Mine Safety Act, as amended, which appear in Subpart F of Part 4 of Subtitle A—Office of the Secretary of the Interior, of Title 43 of the Code of Federal Regulations, by a document published elsewhere in this issue of the FEDERAL REGISTER, (40 FR 46310).

Dated October 1, 1975.

KENT FRIZZELL,
Acting Secretary of the Interior.

[FR Doc.75-26760 Filed 10-6-75;8:45 am]

Title 35—Panama Canal

CHAPTER I—CANAL ZONE REGULATIONS

PART 51—AIR NAVIGATION

Traffic Pattern and Runway Information

This document eliminates existing references to the Canal Zone airport known as Old France Field and substitutes traffic pattern and runway information for the airport known as New France Field. This change is necessary in view of the termination by the Canal Zone Government of the use of Old France Field as an airport facility. Since September 14, 1975 users of that facility have been accommodated at the airport known as New France Field, which has heretofore been closed to civilian air traffic.

The text of the amendments to Part 51 are set forth below.

1. Part 51 is amended by revising the title of Subpart B and the table of sections under Subpart B to read as follows:

Subpart B—Supplementary Regulations Prescribed by Governor; Operating Rules and Traffic Patterns for New France Field

Sec.
51.121 Ground or flight visibility requirement.
51.122 General traffic pattern rules.
51.123 Traffic patterns.
51.124 New France Field facilities.

2. Section 51.122 is amended by revising paragraphs (c) and (d) to read as follows:

§ 51.122 General traffic pattern rules.

* * * * *

(c) Aircraft entering the traffic pattern shall exercise caution and courtesy so as not to cause aircraft already in the pattern to deviate from their course. Aircraft shall enter the traffic pattern for runway 36 over a point approximately one mile due east of the terminus of runway 36. Aircraft shall enter the traffic pattern for runway 18 at a point approximately one mile due east of the terminus of runway 18. Straight in approaches to either runway will not be permitted.

(d) Aircraft leaving the traffic pattern shall, when departing runway 36, proceed straight out to Galeta Road, and then make a 45° right turn. Aircraft departing runway 18 shall proceed straight out too a point approximately ½ mile south of Boyd-Roosevelt Highway, and then make a 45° left turn.

* * * * *

3. Section 51.123 is revised as follows:

§ 51.123 Traffic patterns.

Traffic patterns for New France Field are as follows:

Runway 36

Turns—Right hand.
Altitudes—1,700 feet MSL (360° overhead). 1,200 feet MSL (conventional). 700 feet MSL (light aircraft & helicopters).
Downwinding leg shall be flown east of Coco Solo Hospital, parallel to runway.

Runway 18

Turns—Left hand.
Altitudes—1,700 feet MSL (360° overhead). 1,200 feet MSL (conventional). 700 feet MSL (light aircraft and helicopters).
Downwind leg shall be flown east of Coco Solo Hospital, parallel to runway.

4. Section 51.124 is revised as follows:

§ 51.124 New France Field facilities.

The field facilities at New France Field are:

Runway length—6,000 feet.
Runway direction—360—180.
Latitude—9°21'30" N., longitude 79°52'00" W.
Chart WAC: 769.
Runway base: Concrete.
Elevation: 26 feet.

(2 C.Z.C. 701, 76A Stat 29; 35 CFR 3.1(a)(2); 35 CFR 51.81)

Effective date. These amendments are effective September 14, 1975.

Dated: September 23, 1975.

[SEAL] H. R. PARFITT,
Governor of the Canal Zone.

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER C—AIR PROGRAMS

[FRL 440-3]

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Revision to the New York State Implementation Plan; Correction

In the FEDERAL REGISTER of August 20, 1974, paragraph (c)(5) of § 52.1670 appearing on page 30038 is corrected to become paragraph (c)(4) of § 52.1670.

Dated: October 2, 1975.

ROGER STRELOW,
Assistant Administrator For Air and Waste Management.

[FR Doc.75-26946 Filed 10-6-75;8:45 am]

SUBCHAPTER E—PESTICIDE PROGRAMS

[FRL 440-6; PP5F1578/R57]

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Acephate

On February 27, 1975, notice was given (40 FR 8379) that Chevron Chemical Co., 940 Hensley St., Richmond CA 94804, had filed a petition (PP 5F1578) with the Environmental Protection Agency (EPA). This petition proposed that 40 CFR 180.108 be amended to establish tolerances for combined residues of the insecticide acephate (O,S-dimethyl acetic phosphoramidothioate) and its cholinesterase-inhibiting metabolite (O,S-dimethyl phosphoramidothioate) in or on celery at 10 parts per million (ppm), sweet peppers at 4 ppm, beans (succulent form, including pods) at 3 ppm, and dry beans at 1 ppm. Chevron subsequently amended the petition by increasing the proposed tolerance for dry beans from 1 ppm to 3 ppm.

The data submitted in the petition and other relevant material have been evaluated, and it is concluded that the tolerance should be established as proposed. The pesticide is considered useful for the purpose for which the tolerances are sought. The existing meat, milk, poultry, and egg tolerances are adequate to cover residues resulting from the proposed use, and 40 CFR 180.6(a)(1) applies. The tolerances established by amending 40 CFR 180.108 will protect the public health. Any person adversely affected by this regulation on or before November 6, 1975 may file written objections with the Hearing Clerk, Environmental Protection Agency, 401 M St., SW, East Tower Room 1019, Washington D.C. 20460. Such objections should be submitted in quintuplicate and specify both the provisions of the regulation deemed to be objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

Effective on October 7, 1975, Part 180, Subpart C, is amended by revising Section 180.108 as set forth below.

(Sec. 408(d)(2) Federal Food, Drug and Cosmetic Act (21 U.S.C. 346a))

Dated: October 1, 1975.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

Section 180.108 is amended by (1) adding celery to the paragraph "10 parts per million * * *", (2) adding the paragraph "4 parts per million * * *" after the paragraph "10 parts per million * * *" to include a tolerance for peppers (sweet is synonomous with bell and bell is cited in the regulation), and (3) adding the paragraph "3 parts per million * * *" after the paragraph "4 parts per million * * *" to include a tolerance for beans (succulent and dry). (Pods are considered part of the succulent bean and therefore not specifically differentiated in the following regulation.)

§ 180.108 Acephate; tolerances for residues.

* * * * *

10 parts per million in or on celery and lettuce (head) (of which no more than 1 part per million is O,S-dimethyl phosphoramidothioate).

4 parts per million in or on peppers (bell) (of which no more than 1 part per million is O,S-dimethyl phosphoramidothioate).

3 parts per million in or on beans (succulent and dry form) (of which no more than 1 part per million is O,S-dimethyl phosphoramidothioate).

* * * * *

PART 4—DEPARTMENT HEARINGS AND APPEALS PROCEDURES

Miscellaneous Amendments

Incident to the publication elsewhere in this volume of a revocation of the regulations in Chapter IV of Title 30, Code of Federal Regulations, pursuant to section 101(b) of Pub. L. 94-41, approved June 27, 1975 (89 Stat. 226), repealing §§ 2(e), 10 and 11 of the Federal Metal and Nonmetallic Mine Safety Act (80 Stat. 772, 778-779; 30 U.S.C. 721, 729-730 (1970)), which created the Federal Metal and Nonmetallic Mine Safety Board of Review, and amending section 12 of the Act by removing all references to "the Board" and inserting in lieu thereof "the

Secretary of the Interior," (80 Stat. 781; 30 U.S.C. 731 (1970)), notice is hereby given that the Department is amending regulations in Part 4 of this title as set forth below. Notice and public procedure under 5 U.S.C. 553 (1970) are unnecessary and not in the public interest for these amendments which are editorial in nature, and the amendments will be made effective October 7, 1975.

1. The first sentence of paragraph (4) of section 4.1 is amended to read as follows:

§ 4.1 Scope of authority; applicable regulations.

* * * * *

(4) *Board of Mine Operations Appeals.* The Board performs finally for the Department the appellate and other review functions of the Secretary under the Federal Coal Mine Health and Safety Act of 1969 (Pub. L. 91–173; 83 Stat. 742 et seq.), and the review authority of the Secretary under the Federal Metal and Nonmetallic Mine Safety Act (Pub. L. 89–577; 80 Stat. 772 et seq., as amended by Pub. L. 94–41; 89 Stat. 226, 30 U.S.C. 721–728, 731–740). * * *

* * * * *

Subpart F—Special Rules Applicable to Mine Health and Safety Hearings and Appeals

2. Paragraph (b) of § 4.500 is amended to include the words "as amended" after the reference to the Federal Metal and Nonmetallic Mine Safety Act of 1966. As amended the paragraph reads:

§ 4.500 Jurisdiction.

* * * * *

(b) The Board is authorized to exercise, pursuant to regulations published in the FEDERAL REGISTER, the authority of the Secretary under the Federal Metal and Nonmetallic Mine Safety Act of 1966, as amended, to review withdrawal orders.

* * * * *

3. The center heading preceding the general rules governing procedures under the Federal Metal and Nonmetallic Mine Safety Act of 1966 is amended to include the words "as amended" at the end of the heading. As amended the heading reads:

PROCEDURES UNDER FEDERAL METAL AND NONMETALLIC MINE SAFETY ACT OF 1966, AS AMENDED

4. The first paragraph of § 4.651 and paragraph (a) thereof are amended to read as follows:

§ 4.651 Definitions.

As used in these rules pertaining to Procedures under Federal Metal and Nonmetallic Mine Safety Act of 1966, as amended:

(a) The term "Act" means the Federal Metal and Nonmetallic Mine Safety Act, Pub. L. 89–577, as amended by Pub. L. 94–41.

* * * * *

Dated: October 1, 1975.

KENT FRIZZELL,
Acting Secretary of the Interior.

Title 50—Wildlife and Fisheries

CHAPTER I—UNITED STATES FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 20—MIGRATORY BIRD HUNTING

Open Seasons, Bag Limits, and Possession of Certain Migratory Game Birds

Correction

In FR Doc. 75–24772 appearing at page 44710 as the Part III in the issue of Monday, September 29, 1975, the following changes should be made:

1. In the table in § 20.104(b) on page 44711, the Season dates for "Common Snipe (Wilson's)", for "Massachusetts", now reading "Sept. 1–Nov. 4." should read "Sept. 1–Nov. 4.", and for "Missouri" the dates now reading "Oct. 1–Dec. 44.", should read "Oct. 1–Dec. 4.".

2. On page 44714 in the table:

a. Under "North Carolina", the "Possession Limit" for the entry "Brant" should read "8".

b. Under "Pennsylvania", the "Bag Limit" for the entry "Mergansers" should read "5".

c. In the third column, in the second line of the first paragraph, the word "vou" should read "vous".

3. In the table on page 44716, transfer the "*" after the first entry under "Season dates", so that the first entry will read "Oct. 1*–Nov. 14____".

4. On page 44719, in the table, under "Idaho", the "Possession Limit" for the entry "Canada geese" should read "2".

5. On page 44721, in the table, under "West of Cascade Mountains:", under "Geese:", the entry for "Canada and white-fronted geese (singly or in the aggregate), under "Limits—Bag Possession", across from the entry "the aggregate)", delete the figures "3 and 6".

PART 32—HUNTING

Certain National Wildlife Refuges in New Mexico and Texas

The following special regulations are issued and are effective on October 7, 1975.

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

NEW MEXICO

BOSQUE DEL APACHE NATIONAL WILDLIFE REFUGE

The public hunting of quail and rabbit on the Bosque del Apache National Wildlife Refuge, New Mexico, is permitted from November 27, 1975 through January 25, 1976, inclusive, but only on the area designated by signs as open to hunting. This open area, comprising 44,200 acres, includes all refuge lands east of the Bureau of Reclamation Channelization Project and all refuge lands west of the A.T. & S.F. Railroad right-of-way. These areas are delineated on maps available at refuge headquarters, San Antonio, New Mexico, and from the Regional Director, U. S. Fish and Wildlife Service, P.O. Box 1306, Albuquerque, New Mexico 87103. Hunting shall be in accordance with all applicable State regulations covering the hunting of quail and rabbit subject to the following special conditions:

(1) Hunting with rifles and handguns is prohibited.

(2) Access is from Highway 85, Bureau of Reclamation east channel road, and through the refuge main entrance at headquarters. Vehicles are permitted only on established roads.

(3) No more than two (2) dogs per hunter may be used for the purpose of hunting.

(4) Hunters shall leave the refuge by one-half hour after sunset.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through January 25, 1976.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

The public hunting of deer on the Bosque del Apache National Wildlife Refuge, New Mexico, is permitted only on the area designated by signs as open to hunting. This open area, comprising 20,200 acres, is delineated on maps available at refuge headquarters, San Antonio, New Mexico, and from the Regional Director, U.S. Fish and Wildlife Service, P.O. Box 1306, Albuquerque, New Mexico 87103. Hunting shall be in accordance with all applicable State regulations covering the hunting of deer subject to the following special conditions:

(1) The open season for hunting deer on the refuge is November 8 and 9, 1975, and from November 11 through November 23, 1975, inclusive.

(2) The limit shall be one (1) buck deer, possessing an antler at least 2 inches long.

(3) All hunters must pick up a permit, issued free of charge, at refuge headquarters prior to hunting on the refuge. Permits may be picked up only from 8 A.M. through 6 P.M. during the period November 3 through November 23, 1975.

(4) One-half of the permit must be prominently displayed on the vehicle's dashboard while hunter is in the field. The other half must be carried on the hunter's person.

(5) All hunters must check out through the refuge headquarters no later than one hour after the official sunset following each day's hunt.

(6) Vehicular travel is restricted to established roads only.

(7) Hunting and retrieval of kill must be primarily by foot. Horses are strictly prohibited.

(8) The refuge is closed to all camping except in wilderness areas.

(9) Fires are prohibited.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through November 23, 1975.

SAN ANDRES NATIONAL WILDLIFE REFUGE

The public hunting of deer (either sex) on the San Andres National Wildlife

Refuge, New Mexico, is permitted from November 29 through November 30, 1975, inclusive, but only on the area designated by signs as open to hunting. This open area, comprising 57,215 acres, is delineated on maps available from the Refuge Manager, Bosque del Apache National Wildlife Refuge, P.O. Box 278, San Antonio, New Mexico 87832, and from the Regional Director, U.S. Fish and Wildlife Service, P.O. Box 1306, Albuquerque, New Mexico 87103. Hunting shall be in accordance with all applicable State, Federal and military regulations subject to the following special conditions:

(1) Hunters must check in and out in person at the check station located on the Jornada road near U.S. 70. The check station will be open 24 hours a day. Hunters may check in during the afternoon of November 28, 1975. Time of entry into the hunting area will be at the discretion of the officers in charge. Any entry permits required by the military authorities will be available at the check station. All hunters must check out no later than 10 P.M., November 30, 1975.

(2) No entry into the hunting area from the west will be permitted north of Rope Springs road. Hunters will not be permitted to enter the hunting area from the east side of the San Andres Range except at the discretion of the officers in charge.

(3) The officers in charge may restrict the number of hunters entering any one area. If required by the firing schedule, hunters will be cleared from all areas where their safety is endangered.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through November 30, 1975.

TEXAS

LAGUNA ATASCOSA NATIONAL WILDLIFE REFUGE

The public hunting of deer on the Laguna Atascosa National Wildlife Refuge, Texas, is permitted only on the area designated by signs as open to hunting. This open area, comprising 19,240 acres, is delineated on maps available at refuge headquarters, Harlingen, Texas, and from the Regional Director, U.S. Fish and Wildlife Service, P.O. Box 1306, Albuquerque, New Mexico 87103. Hunting shall be in accordance with all applicable State regulations covering the archery hunt of deer subject to the following special conditions:

(1) Hunting with, or possession of, weapons other than long bow is not permitted.

(2) The open season for hunting deer on the refuge is from sunrise to 2 p.m., Fridays through Mondays, October 3, 4, 5, 6, 10, 11, 12, 13, 17, 18, 19 and 20, 1975.

(3) Hunting hours will close at 2 P.M. each day.

(4) The bag limit is two (2) buck deer.

(5) Target and field arrows are not permitted.

(6) Hunters must check in and out each day of the hunt at the Laguna Atascosa field office, which will be open one hour before sunrise to 2 P.M. Permits will be issued and collected at this point. Deer must be checked out at this check point.

(7) Vehicles will not be permitted off refuge roads or beyond blocked off gates.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through October 20, 1975.

W. O. NELSON, Jr.,
Regional Director,
Albuquerque, New Mexico.

SEPTEMBER 29, 1975.

[FR Doc.75-26756 Filed 10-6-75;8:45 am]

PART 32—HUNTING

Parker River National Wildlife Refuge, Massachusetts

The following special regulations are issued and are effective during the period October 15, 1975 through January 31, 1976.

§ 32.12 Special regulations, migratory game birds; for individual wildlife refuge areas.

MASSACHUSETTS

PARKER RIVER NATIONAL WILDLIFE REFUGE

Public hunting of waterfowl and coots on the Parker River National Wildlife Refuge, Massachusetts, is permitted only on the areas designated by signs as open to hunting. These open areas, comprising 1,900 acres, and known as the Pine Island Hunting Area, Parker River Hunting Area, Nelson's Island Hunting Area, and the Youth Hunting Area, are delineated on maps available at refuge headquarters, Newburyport, Massachusetts or from the Regional Director, Fish and Wildlife Service, U.S. Post Office and Courthouse Building, Boston, Massachusetts 02109. Hunting shall be in accordance with all applicable State and Federal regulations covering the hunting of migratory game birds, subject to the following special conditions:

(1) Hunters will be required to take and pass an open book Qualification Examination for refuge waterfowl hunters prior to hunting on the refuge. This examination will be distributed and returned via mail.

(2) The number of hunters on the Pine Island Area will be limited to 75 each day, Parker River Area to 25 each day, and the Nelson's Island Area to 50 each day. Participation will be on a first-come, first-served basis.

(3) Hunters on all three areas are limited to 15 shotshells per day.

(4) The Youth Hunting Area will be open during the regular State waterfowl season for Young Waterfowl trainees on selected days except Sundays under the provisions of this special program. Literature describing this program is available at the refuge headquarters.

The provisions of this special regulation supplement the regulations governing hunting on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through January 31, 1976.

WILLIAM C. ASHE,
Acting Regional Director,
U.S. Fish and Wildlife Service.

OCTOBER 1, 1975.

[FR Doc.75-26870 Filed 10-6-75;8:45 am]

PART 32—HUNTING

Alamosa National Wildlife Refuge, Colorado

The following special regulation is issued and is effective October 7, 1975.

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

COLORADO

ALAMOSA NATIONAL WILDLIFE REFUGE

The public hunting of pheasants on the Alamosa National Wildlife Refuge, Colorado is permitted only on the area designated by signs as open to hunting. This open area, comprising 3,946 acres, is delineated on maps available at refuge headquarters, Alamosa, Colorado, and from the Regional Director, U.S. Fish and Wildlife Service, P.O. Box 25486, Denver Federal Center, Denver, Colorado 80225.

Hunting shall be in accordance with all applicable State regulations governing the hunting of pheasants subject to the following special conditions:

(1) The pheasant hunting season on the refuge extends from November 15 through November 23, 1975, inclusive.

(2) Dogs—Not to exceed two dogs per hunter may be used in the hunting of pheasants.

(3) Admittance—Entrance to the open area and parking of vehicles will be restricted to designated parking areas.

(4) Hunting with rifles and hand guns is prohibited.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through November 24, 1975.

SEPTEMBER 30, 1975.

CHARLES R. BRYANT,
Refuge Manager,
Alamosa National Wildlife Refuge.

[FR Doc.75-26867 Filed 10-6-75;8:45 am]

PART 32—HUNTING

Monte Vista National Wildlife Refuge, Colorado

The following special regulation is issued and is effective October 7, 1975.

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

COLORADO

MONTE VISTA NATIONAL WILDLIFE REFUGE

The public hunting of pheasants on the Monte Vista National Wildlife Ref-

uge, Colorado, is permitted only on the area designated by signs as open to hunting. This open area, comprising 5,314 acres, is delineated on maps available at refuge headquarters, Monte Vista, Colorado, and from the Regional Director, U.S. Fish and Wildlife Service, P.O. Box 25486, Denver Federal Center, Denver, Colorado 80225.

Hunting shall be in accordance with all applicable State regulations governing the hunting of pheasants subject to the following special conditions:

(1) The pheasant hunting season on the refuge extends from November 15 through November 23, 1975, inclusive.

(2) Shooting hours for pheasant will be from sunrise to sunset daily, except on opening day when shooting hours will be from noon to sunset.

(3) The use of steel shot will be required for the hunting of pheasant throughout the hunting season. The possession or use of lead shot in the hunting area is prohibited except when participating as a selected hunter in the Refuge's unknown shot investigation.

(4) Having lead shot in one's possession while in the hunting area will be considered prima facie evidence that the person having such shot in his possession is engaged in hunting with same.

(5) Steel shot shells in 12 gauge only, #4 shot, will be available for sale at refuge headquarters.

(6) Dogs—Not to exceed two dogs per hunter may be used in the hunting of pheasant.

(7) Hunting with rifles and hand guns is prohibited.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through November 24, 1975.

CHARLES R. BRYANT,
Refuge Manager, Monte Vista National Wildlife Refuge.

SEPTEMBER 29, 1975.

PART 32—HUNTING

Monte Vista National Wildlife Refuge, Colorado

The following special regulation is issued and is effective October 7, 1975.

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

COLORADO

MONTE VISTA NATIONAL WILDLIFE REFUGE

Archery hunting of pheasants, rabbits, skunk, badger, raccoon, coyote, and bobcat on the Monte Vista National Wildlife Refuge, Colorado, is permitted only on the area designated by signs or maps as open to hunting. This open area, comprising 2,865 acres, is delineated on maps available at refuge headquarters, Monte Vista, Colorado, and from the Regional Director, U.S. Fish and Wildlife Service, P.O. Box 25486, Denver Federal Center, Denver, Colorado 80225.

Archery hunting shall be in accordance with all applicable State regulations governing the hunting of pheasants, rabbits, skunk, badger, raccoon, coyote and bobcat subject to the following special conditions:

(1) The archery hunting season on the refuge extends from November 15 through November 23, 1975, inclusive.

(2) Weapons—Only non-mechanical bow as permitted by State regulations and flu-flu arrows may be used for hunting.

(3) Dogs—Not to exceed two dogs per hunter may be used in the hunting of pheasants, rabbits, skunk, badger, raccoon, coyote, and bobcat.

(4) Admittance—Entrance to the open area and parking of vehicles will be restricted to designated parking areas.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through November 24, 1975.

SEPTEMBER 29, 1975.

PART 33—SPORT FISHING

Tewaukon National Wildlife Refuge, N. Dak.

The following special regulation is issued and is effective on October 7, 1975.

§ 33.5 Special regulations; sport fishing, for individual wildlife refuge areas.

NORTH DAKOTA

TEWAUKON NATIONAL WILDLIFE REFUGE

Sport fishing on the Tewaukon National Wildlife Refuge, Cayuga, North Dakota, is permitted only on the areas designated by signs as open to fishing. These open areas are Lake Tewaukon, Mann Lake, and Sprague Lake, comprising 1,440 acres, and are shown on maps available at refuge headquarters and from the office of the Area Manager, U.S. Fish and Wildlife Service, Box 1897, Bismarck, North Dakota 58501. Sport fishing shall be in accordance with all applicable State regulations subject to the following special conditions:

(1) The open season for sport fishing on the refuge extends from December 15, 1975 through March 28, 1976.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through March 28, 1976.

HERBERT G. TROESTER,
Refuge Manager, Tewaukon Nat'l Wildlife Refuge.

SEPTEMBER 30, 1975.

PART 285—ATLANTIC TUNA FISHERIES

Bluefin Tuna Season Closure

Correction

In FR Doc. 75-25517 appearing on page 43916 in the issue of Wednesday, September 24, 1975, the date in the first column, seventh line of the first paragraph and in the second column, last sentence, should be changed to read, "September 22, 1975".

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR Part 1]

INCOME TAX

Certain Retroactive Amendments of Employee Plans

Notice is hereby given that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments pertaininig thereto which are submitted in writing (preferably six copies) to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224, by November 6, 1975. Pursuant to 26 CFR 601.601(b), designations of material as confidential or not to be disclosed, contained in such comments, will not be accepted. Thus, persons submitting written comments should not include therein material that they consider to be confidential or inappropriate for disclosure to the public. It will be presumed by the Internal Revenue Service that every written comment submitted to it in response to this notice of proposed rulemaking is intented by the person submitting it to be subject in its entirety to public inspection and copying in accordance with the procedures of 26 CFR 601.702(d)(9). Any person submitting written comments who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit a request, in writing, to the Commissioner by November 6, 1975. In such case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER, unless the person or persons who have requested a hearing withdraw their requests for a hearing before notice of the hearing has been filed with the Office of the Federal Register. The proposed regulations are to be issued under the authority contained in sections 401(b) and 7805 of the Internal Revenue Code of 1954 (88 Stat. 943, 68A Stat. 917; 26 U.S.C. 401(b) and 7805).

DONALD C. ALEXANDER,
Commissioner of Internal Revenue.

This document contains proposed amendments to the income tax regulations (26 CFR Part 1) under section 401 (b) of the Internal Revenue Code of 1954 as added by section 1023 of the Employee Retirement Income Security Act of 1974 (Pub. L. 93-406; 88 Stat. 943), hereinafter referred to as the "Act", in order to provide rules for certain retroactive changes in plans pursuant to section 401(b) of the Code.

A pension, profit-sharing, stock bonus, or annuity plan is a qualified plan under the Code only if it satisfies certain requirements. Under section 401(b) of the Code, prior to amendment by the Act, a new plan which did not satisfy certain of these requirements for the employer's taxable year in which it was put into effect could nevertheless be treated as if it satisfied those requirements for that year if a remedial plan amendment was made no later than the 15th day of the third month after the close of that taxable year. The amendment was required to be retroactive so that the plan, as amended, satisfied these requirements for the entire taxable year. Under section 401(a), prior to amendment by the Act, these remedial amendments were given retroactive effect only in cases involving the requirements of section 401(a) (3), (4), (5) or (6) of the Code.

As amended by section 1023 of the Act, section 401(b) of the Code applies to amendments involving any of the requirements of section 401(a) of the Code. Further, the relief provided by section 401(b) as amended is available to existing plans as well as new plans. Thus, a remedial amendment may be made under section 401(b) as amended to cure a defect in an earlier plan amendment.

In addition, the period of time in which a remedial retroactive amendment can be adopted under section 401(b) as amended has been extended to the time for filing the employer's return for the taxable year for which the plan or amendment was adopted or put into effect, including extensions of such filing time. This retroactive amendment period can be further extended by the Secretary of the Treasury or his delegate.

The regulations provide for remedial amendments to be adopted with respect to disqualifying provisions. Under the proposed regulations, a "disqualifying provision" is any provision of a plan as adopted, a plan amendment, or the Act, which causes a plan to fail to satisfy the requirements of section 401(a), 403 (a) or 405(a). The remedial amendment period begins on the effective date of a disqualifying provision, and ends on the filing date (including extensions) for the return for the employer's taxable year in which falls the later of the date on which the provision was adopted or put into effect, or, in the case of an Act provision which causes a plan to be disqualified, the effective date of such provision. For purposes of the proposed regulations, the effective date of a disqualifying provision is (1) the date a plan is put into effect, (2) the earlier of the date a plan amendment is adopted or put into effect, or (3) the effective date of an Act provision which causes the plan to be disqualified.

The proposed regulations provide for further extension of the remedial amendment period under certain circumstances. Generally, the period is extended for up to 150 days beginning with the day after the close of the last taxable year to which the remedial amendment period would otherwise relate if, before the expiration of the remedial amendment period (without respect to any extensions) the employer who maintains the plan or the plan administrator files a request for a determination letter with respect to the initial qualification of the plan or the effect of the disqualifying provision upon the qualified status of the plan. The time during which such an application is pending before the Internal Revenue Service is not charged against the 150-day extension, and the 150-day extension does not expire less than 30 days after notice of final determination with respect to the plan is issued by the Internal Revenue Service or 30 days after a declaratory judgment by the United States Tax Court under section 7476 of the Code, in a case or controversy involving such determination, becomes final. Further, the 150-day period is not to expire before December 31, 1975. In no case, however, may the 150-day period end after the expiration of the period for assessment of tax with respect to the taxable year immediately preceding the first day of the 150-day period.

Under the proposed regulations, section 401(b) as amended does not apply where the remedial amendment period (determined with regard to extensions) ends prior to September 2, 1974.

PROPOSED AMENDMENTS TO THE REGULATIONS

In order to provide rules relating to certain retroactive changes in plans pursuant to section 401(b) of the Internal Revenue Code of 1954, as amended by section 1023 of the Employee Retirement Income Security Act of 1974 (Pub. L. 93-406, 88 Stat. 943), the Income Tax Regulations (26 CFR Part 1) under section 401 of the Code are amended as follows:

PARAGRAPH 1. Section 1.401-5 is amended by revising the section title and adding at the end thereof the following new sentence:

§ 1.401–5 Period for which requirements of section 401(a) (3), (4), (5), and (6) are applicable with respect to plans put into effect before September 2, 1974.

* * * This section shall not apply to any pension, profit-sharing, stock bonus, or annuity plan put into effect after September 1, 1974, and shall not apply with respect to any disqualifying provision to which § 1.401(b)–1 applies.

PAR. 2. The following new sections are inserted immediately after § 1.401–14:

§ 1.401(b) Statutory provisions; qualified pension, profit-sharing, and stock bonus plans; certain retroactive changes in plan.

Sec. 401. *Qualified pension, profit-sharing, and stock bonus plans.* * * *

(b) *Certain retroactive changes in plan.* A stock bonus, pension, profit-sharing, or annuity plan shall be considered as satisfying the requirements of subsection (a) for the period beginning with the date on which it was put into effect, or for the period beginning with the earlier of the date on which there was adopted or put into effect any amendment which caused the plan to fail to satisfy such requirements, and ending with the time prescribed by law for filing the return of the employer for his taxable year in which such plan or amendment was adopted (including extensions thereof) or such later time as the Secretary or his delegate may designate, if all provisions of the plan which are necessary to satisfy such requirements are in effect by the end of such period and have been made effective for all purposes for the whole of such period.

* * * * *

[Sec. 401(b) as amended by sec. 1023, Employee Retirement Income Security Act 1974 (Pub. L. 94–406, 88 Stat. 943)]

§ 1.401(b)–1 Certain retroactive changes in plan.

(a) *General rule.* (1) Under section 401(b), a stock bonus, pension, profit-sharing or annuity plan or bond purchase plan which does not satisfy the requirements of section 401(a) on any day solely as a result of a disqualifying provision (as defined in paragraph (b) of this section) shall be considered to have satisfied such requirements on such day if there is adopted during the remedial amendment period (as determined under paragraphs (c) and (d) of this section) with respect to such disqualifying provision an amendment which causes the plan to satisfy all such requirements of sections 401(a), 403(a) or 405(a) for the whole of the remedial amendment period (including extensions thereof).

(2) This section shall not apply to any disqualifying provision if the remedial amendment period (as determined under paragraphs (c) and (d)(1) of this section, without regard to paragraph (d)(2) of this section) with respect to such disqualifying provision ends prior to September 2, 1974.

(b) *Disqualifying provisions.* For purposes of this section, with respect to a plan described in paragraph (a) of this section the term "disqualifying provision" means any provision of—

(1) A plan as adopted,

(2) A plan amendment, or

(3) The Employee Retirement Income Security Act of 1974 (Pub. L. 93–406, 88 Stat. 829),

which causes such plan to fail to satisfy the requirements of section 401(a), 403(a), or 405(a).

(c) *Remedial amendment period.* (1) The remedial amendment period with respect to a disqualifying provision begins on the effective date of the disqualifying provision. For purposes of this section, the effective date of a disqualifying provision is—

(i) In the case of a disqualifying provision in a plan as adopted, the date the plan is put into effect,

(ii) In the case of a plan amendment, the date the plan amendment is adopted or put into effect (whichever is earlier), or

(iii) In the case of a statutory provision described in paragraph (b)(3) of this section, the effective date of such provision.

(2) Unless extended as provided by paragraph (d) of this section, the remedial amendment period ends with the time prescribed by law (including extensions) for filing the return of the employer for the employer's taxable year in which falls—

(i) With respect to a disqualifying provision in a plan as adopted, or a plan amendment, the later of the date on which such provision was adopted or put into effect.

(ii) With respect to a statutory provision described in paragraph (b)(3) of this section, the effective date of such provision.

(d) *Extension for determination letters*—(1) *In general.* If, before the end of the remedial amendment period (determined without regard to this paragraph) with respect to a disqualifying provision, the employer or plan administrator files a request pursuant to § 601.201(o) of this chapter (Statement of Procedural Rules) for a determination letter with respect to the initial qualification of the plan or the effect of such disqualifying provision on the qualified status of the plan (or a trust which is part of a plan) under section 401(a), 403(a), or 405(a), then except as provided in subparagraph (3) of this paragraph, such remedial amendment period may be extended for a period not to exceed 150 days, beginning on the day after the last day of the employer's taxable year in which falls the date described in subdivision (i) or (ii) of paragraph (c)(2) of this section. The 150-day period does not include any day on which there is pending before the Internal Revenue Service a request for a determination letter described in this subparagraph. For this purpose, such a request is considered to be pending before the Internal Revenue Service from the date it is filed with the Internal Revenue Service to the date on which notice of the final determination with respect to the request is issued by the Internal Revenue Service, the request is withdrawn, or the request is otherwise finally disposed of by the Internal Revenue Service.

(2) *Special Rules.* Except as provided in subparagraph (3) of this paragraph, the period provided by subparagraph (1) of this paragraph shall not end prior to the later of December 31, 1975, or the expiration of 30 days after—

(i) The date on which a notice of final determination with respect to a request described in that subparagraph is issued by the Internal Revenue Service, or, where applicable,

(ii) The date on which a judgment pursuant to section 7476 (relating to declaratory judgments) by the United States Tax Court in a case or controversy involving such determination becomes final.

(3) *Overall limitation.* The period provided by subparagraph (1) of this paragraph shall not expire later than the last day (determined under section 6501) for assessment of any tax imposed by the Internal Revenue Code with respect to the taxable year of the employer immediately preceding the first day of such period.

DEPARTMENT OF THE INTERIOR

Office of the Secretary

[30 CFR Part 211]

[43 CFR Part 3041]

SURFACE MANAGEMENT OF FEDERALLY OWNED COAL RESOURCES AND COAL MINING OPERATIONS

Availability of Draft Environmental Impact Statement

Pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a draft environmental impact statement on proposed new Bureau of Land Management coal leasing, permitting and licensing regulations (43 CFR Part 3041) and revised Geological Survey coal exploration, mining operating, and reclamation regulations (30 CFR Part 211) as they apply to all aspects of coal operations on public and acquired lands; the 211 regulations also apply to Indian lands administered by the Department of the Interior. Regulations and revisions are included to: Expand Federal scope of authority to private surface over Federally owned minerals; require submission of detailed exploration and/or mining plans prior to operations; and require reclamation as an integral part of mining operations. Secretary of the Interior is given discretion to implement State regulations on Federal lands at Governor's request.

The draft environmental statement is available for public review in the U.S. Geological Survey Public Inquires Office, Room 1021, Federal Building, Denver, Colorado 80202; the U.S. Geological Survey Library, Building 25, Denver Federal Center, Denver, Colorado 80225; the U.S. Geological Survey Library, Room 4A100 USGS National Center, Reston, Virginia

22092; the U.S. Geological Survey Library, Building 5, Menlo Park, California 94025.

Individual copies are available at the following Bureau of Land Management Offices:

Alaska State Office: 555 Cordova Street, Anchorage, Alaska 99501.
Arizona State Office: Federal Building, Room 3022, Phoenix, Arizona 85025.
California State Office: 2800 Cottage Way, Room E-2841, Sacramento, California 95825.
Colorado State Office: 1600 Broadway, Room 700, Denver, Colorado 80202.
Idaho State Office: Federal Building, Room 398, 550 West Fort Street, Boise, Idaho 83702.
Montana State Office: (N. Dak., S. Dak.) Federal Building, 316 North 26th Street, Billings, Montana 59101.
Nevada State Office: Federal Building, 300 Booth Street, Reno, Nevada 89502.
New Mexico State Office: Federal Building, Santa Fe, New Mexico 87501.
Oregon State Office: (Washington) 729 Northeast Oregon Street, Portland, Oregon 97208.

DEPARTMENT OF LABOR

Manpower Administration

[29 CFR Part 8]

FEDERAL CONTRACTS IN AREAS OF CONCENTRATED UNEMPLOYMENT OR UNDEREMPLOYMENT

Definition of Economically Disadvantaged Individual

Defense Manpower Policy No. 4 and Executive Order 10582 provide for preference in awarding Federal contracts to employing establishments located in areas of concentrated unemployment or underemployment, and areas of substantial labor surplus. The purpose of this program is to provide employment opportunities in the areas so designated.

Presently 29 CFR Part 8, which implements the Secretary of Labor's responsibilities under this program, uses the term "Disadvantaged Individual" to define that class of individuals who are potentially eligible to participate in the DMP-4 program. The individuals are identified and referred to the employing establishments by the local State Employment Service Office and by other authorized community agencies.

Pursuant to Manpower Administration Order 5-75 the Manpower Administration eliminated the term "disadvantaged individual" and adopted the term "economically disadvantaged individual," with a different definition, to describe persons eligible for certain program benefits.

In order to standardize data item definitions in Manpower programs and to insure conformity of terms between the DMP-4 program and the Employment Service Automated Reporting System notice is hereby given that the Manpower Administration proposes to eliminate the term "disadvantaged individual" and its definition and adopt the term "economically disadvantaged individual" and its corresponding definition for the purposes of Defense Manpower Policy No. 4.

Inquiries may be addressed, and data views, and arguments concerning the proposed amendment may be submitted to William B. Lewis, Associate Manpower Administrator for U.S. Employment Service, Department of Labor, Room 8000, Patrick Henry Building, Sixth and D Streets, NW., Washington, D.C. All materials received on or before November 6, 1975 will be considered.

In consideration of the foregoing, it is proposed that Section 8, "Definitions", be amended by (1) deleting the definition of "disadvantaged individual" set forth in § 8.2(d(and substituting therefore a definiton of "economically disadvantaged individual," and (2) substituting the term "economically disadvantaged individual" in those sections which now contain the term "disadvantaged individual". With the proposed amendment Part 8 would read as follows:

PART 8—PREFERENCE IN FEDERAL PROCUREMENT UNDER DEFENSE MANPOWER POLICY NO. 4 AND EXECUTIVE ORDER 10582 [1]

Sec.
8.1 Purpose.
8.2 Definitions.
8.3 Criteria for areas of substantial unemployment.
8.4 Criteria for areas of persistent unemployment.
8.5 Termination of classification.
8.6 Publication or certification.
8.7 Classification of sections of concentrated unemployment or underemployment and certification of eligible firms.
8.8 Order of preference.
8.9 Certificate of eligibility.

AUTHORITY: The provisions of this Part 8 issued under 47 Stat. 1520, 63 Stat. 1024; 41 U.S.C. 10a–10d, E.O. 10582, 3 CFR, 1954–1958 Comp., p. 230; E.O. 10480, E.O. 10773, 32A CFR Ch. 1. DMP 4.

§ 8.1 Purpose.

(a) This part implements the responsibilities of the Secretary of Labor in determining sections of concentrated unemployment or underemployment, and areas of persistent or substantial labor surplus in accordance with Defense Manpower Policy No. 4 of the Office of Emergency Planning (32A CFR Ch. 1, DMP 4), and areas of substantial unemployment, in accordance with Executive Order 10582 (3 CFR 1954–58 Comp., P. 230) issued pursuant to the Buy American Act (41 U.S.C. 10a et seq.).

(b) Defense Manpower Policy No. 4 provides that preference be given in the placement of Federal Government contracts and facilities to sections of concentrated unemployment or underemployment, and areas of persistent or substantial labor surplus with preference being given in accordance with regulations prescribed by the Secretary of Labor. The Secretary of Labor is directed to classify sections of concentrated unemployment or underemployment, and areas having a persistent or substantial surplus of labor, under standards to be established by the Secretary, and to certify to the existence of a persistent or substantial labor surplus in areas not meeting the minimum size requirements for classification. The Secretary of Labor is also directed to certify employing establishments which comply with regulations of the Secretary for the employment of economically disadvantaged individuals.

(c) Section 3(c) of Executive Order 10582 issued pursuant to the Buy Amer-

[1] 35 FR 2387, Feb. 8, 1970.

ican Act permits rejection by executive agencies of any foreign bid or offered price for materials in any situation in which the domestic low bidder would produce substantially all of the materials in areas of substantial unemployment, as determined by the Secretary of Labor, during such period as the President determines that such preference would be in the national interest.

§ 8.2 Definitions.

As used in this part:

(a) "Labor area" means a geographical area consisting of a central city or cities and surrounding territory within commuting distance in which there is a concentration of economic activity or labor demand, and workers can generally change jobs without changing their residences.

(b) "Substantial labor surplus." An area is one of substantial labor surplus for purposes of Defense Manpower Policy No. 4 if it has substantial unemployment in accordance with criteria specified in § 8.3.

(c) "Persistent labor surplus." An area is one of persistent labor surplus under Defense Manpower Policy No. 4 if it has persistent unemployment in accordance with the criteria specified in § 8.4.

(d) "Economically Disadvantaged Individual." An individual shall be considered as economically disadvantaged is a member of a family (1) which receives cash welfare payments, or (2) whose annual income in relation to family size and location does not exceed the most recently established poverty levels determined in accordance with criteria established by the Office of Management and Budget (OMB)."

(e) "Employing Establishment." An employing establishment is an individual, industrial facility, plant, mill, mine, or other business operation located at a single physical site, where production, manufacturing, or other industrial operations are performed. Each branch or subsidiary unit of a large corporate entity may be considered an individual establishment, except that all such units in the same physical location shall be considered a single establishment.

§ 8.3 Criteria for areas of substantial unemployment.

(a) The Secretary will classify a labor area as one of substantial unemployment if (1) he finds that its rate of unemployment is 6 percent or more of the area work force, discounting temporary or seasonal factors, and (2) he anticipates that the rate of unemployment during the next two months will remain at 6 percent or more, discounting temporary or seasonal factors.

(b) For purposes of Executive Order 10582, any area which has been determined to be one of persistent unemployment in accordance with § 8.4 will be deemed to be an area of substantial unemployment. Any employing establishment certified in accordance with § 8.7(b) will be deemed to be located in an area of substantial unemployment.

§ 8.4 Criteria for areas of persistent unemployment.

The Secretary will classify as an area of persistent unemployment any labor area, municipality of 250,000 or more population according to the latest available Census data, or county in which he finds the rate of unemployment during the most recent calendar year is 6 percent or more of its work force and that the rate of unemployment in such area has:

(a) Averaged 6 percent or more and been at least 50 percent above the national average for 3 of the preceding 4 calendar years, or

(b) Averaged 6 percent or more and been at least 75 percent above the national average for 2 of the preceding 3 calendar years, or

(c) Averaged 6 percent or more, and been at least 100 percent above the national average for 1 of the preceding 2 calendar years.

§ 8.5 Termination of classification.

(a) The Secretary of Labor will terminate the classification of an area of substantial unemployment after any month in which he finds (1) it no longer has an unemployment rate of 6 percent, discounting temporary or seasonal factors, and (2) that the rate of unemployment anticipated during the next 2 months is less than 6 percent, discounting temporary or seasonal factors.

(b) During the first quarter of each calendar year the Secretary of Labor will review the annual average rate of unemployment during the previous calendar years in areas which were classified as areas of persistent unemployment, and shall terminate not later than June 30 of that year the classification of those areas which no longer meet the criteria set forth in § 8.4.

(c) The Secretary of Labor shall terminate the designation of a section of concentrated unemployment or underemployment whenever he finds that the conditions of unemployment or underemployment have improved to the extent that the designation is no longer warranted.

§ 8.6 Publication or certification.

The Secretary of Labor will publish at regular intervals a list of establishments certified in accordance with § 8.7 and the list of sections of concentrated unemployment or underemployment and areas of persistent or substantial unemployment: *Provided, however,* That in the case of an area of less than 1,500 population, he will not publish but on request will authorize the appropriate State Employment Security Agency to certify that such area is one of substantial or persistent unemployment if it meets the qualifying conditions set forth in § 8.3 or § 8.4 of this part.

§ 8.7 Classification of sections of concentrated unemployment or underemployment and certification of eligible establishments.

(a) The Secretary of Labor will classify as sections of concentrated unemployment or underemployment appropriate sections of States or "labor areas."

(b) Employing establishments in or near such classified sections of concentrated unemployment or underemployment and employing establishments in areas of persistent or substantial unemployment shall be certified by the Secretary as eligible for preference in the placement of Federal Government contracts or subcontracts under Defense Manpower Policy No. 4 provided that such establishments have agreed to employ, in accordance with plans approved by the Secretary of Labor, a proportionate number of economically disadvantaged individuals, residing within the classified sections or areas, who have been identified and referred to the employing establishments by the local State Employment Service Office, the local Concentrated Employment Program Sponsor or by other authorized community agencies. Employing establishments so certified which will perform a substantial portion of a Federal Government contract, or other firms which will place a substantial portion of the Federal Government contract with employing establishments certified pursuant to this paragraph (b), shall obtain preference in accordance with § 8.8.

(c) Employing establishments located in any area shall be certified by the Secretary as eligible for preference in the placement of Federal Government contracts or subcontracts under Defense Manpower Policy No. 4 provided that such establishments have agreed to employ, in accordance with plans approved by the Secretary of Labor, a proportionate number of economically disadvantaged individuals who have been identified and referred to the employing establishments by the local State Employment Service Office, the local Concentrated Employment Program Sponsor or by other authorized community agencies. Employing establishments so certified which will perform a substantial portion of a Federal Government contract, or other firms which will place a substantial portion of the Federal Government contract with employing establishments certified pursuant to this paragraph (c), shall obtain preference in accordance with § 8.8.

§ 8.8 Order of preference.

The order of preference for the placement of contracts under Defense Manpower Policy No. 4 is as follows:

(a) Employing establishments or other firms eligible for preference in accordance with paragraph (b) of § 8.7;

(b) Employing establishments or other firms eligible for preference in accordance with paragraph (c) of § 8.7;

(c) Employing establishments or other firms which will perform or cause to be performed a substantial portion of a Federal Government contract in an area of persistent or substantial unemployment.

§ 8.9 Certificates of eligibility.

(a) The Secretary of Labor's approval of an establishment's plan to employ economically disadvantaged individuals

shall be evidenced by a certificate issued to the employing establishment by the appropriate local office of the State Employment Security Agency. This local office will determine whether the establishment qualifies for the certificate and issue it where appropriate. The Secretary of Labor, or his authorized representative, may, in all cases, review and, if necessary, change the determination made by the local State Employment Security Agency either granting or denying a certificate of eligibility. Any establishment which is denied a certificate may request a reconsideration or review by the Secretary, or his authorized representative, by writing to the Secretary of Labor, U.S. Department of Labor, Washington, D.C. 20210, and setting forth reasonable grounds therefor.

(b) Certificates of eligibility shall be valid for a period of 6 months, or until recalled by the State Employment Security Agency, or surrendered by the Employer, whichever is earliest.

(c) No certificate which would afford an employing establishment first preference under § 8.8 shall be issued to any establishment whose plans for the employment of economically disadvantaged individuals do not provide that at least 25 percent of the total number of new hires each month beginning with the date of certification and continuing until the expiration of the validity period or completion of an awarded contract or subcontract whichever is later shall be economically disadvantaged individuals identified and referred to the employing establishment pursuant to § 8.7 (b).

(d) No certificate which would afford an employing establishment second preference under § 8.8 shall be issued to any establishment whose plans for the employment of economically disadvantaged individuals do not provide that at least 15 percent of the total number of new hires each month beginning with the date of certification and continuing until the expiration of the validity period or completion of an awarded contract or subcontract whichever is later shall be economically disadvantaged individuals identified and referred to the employing establishment pursuant to § 8.7(c).

Signed at Washington, D.C. this 2d day of October 1975.

WILLIAM H. KOLBERG,
Assistant Secretary for Manpower.

[FR Doc.75-26883 Filed 10-6-75;8:45 am]

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Parts 610, 660]

[Docket No. 75N-0209]

HEPATITIS B SURFACE ANTIGEN

Proposed Additional Standards

A notice to manufacturers was published in the FEDERAL REGISTER of January 29, 1975 (40 FR 4329), stating that Hepatitis B Surface Antigen (HB_sAg) is a biological product that may not be lawfully marketed in interstate commerce until licensed, pursuant to section 351 of the Public Health Service Act, as part of an in vitro diagnostic product used to determine the presence of antibody to hepatitis B surface antigen (anti-HBs).

The Commissioner of Food and Drugs is proposing standards for manufacture of Hepatitis B Surface Antigen. Interested persons have until December 8, 1975, to submit comments. These proposed standards for HB_sAg are similar to the standards governing the manufacture of anti-HBs already prescribed in §§ 660.1 through 660.5 (21 CFR 660.1 through 660.5).

HB_sAg, also referred to as hepatitis B antigen and hepatitis associated (Australia) antigen, is thought to be a surface component of the hepatitis B virus. A high incidence of type B viral hepatitis, a disease caused by infection with hepatitis B virus, occurs in patients receiving transfusions of blood which contain HB_sAg, and from injection with devices and products contaminated with this antigen. Anti-HBs appears in the serum of individuals having recovered from type B viral hepatitis. The disease is unlikely to recur in individuals who have the anti-HBs in their serum.

HB_sAg may be used as an in vitro diagnostic reagent to determine the presence of anti-HBs, thus identifying those individuals who may have been infected with hepatitis B virus. The testing information is valuable in evaluating the potential benefit and hazard from use of certain blood derivatives, which carry a high risk of transmitting hepatitis B virus. In addition, use of HB_sAg for detecting anti-HBs in the blood of recipients of blood and blood products provides a source of epidemiologic information regarding frequency of infection with hepatitis B virus. This information is also useful in the continuing assessment of the safety of blood and blood products, and in measuring the impact of various remedies designed to reduce the incidence of post-transfusion viral hepatitis, type B.

HB_sAg is used most commonly in the passive hemagglutination and solid phase radioimmunoassay methods for detecting anti-HBs:

(1) In the passive hemagglutination method, red blood cells are coated with HB_sAg. The sample of serum being tested is mixed with the HB_sAg-coated red blood cells. If anti-HBs is present in the serum, the antibody will react with the HB_sAg, causing the red blood cells to agglutinate.

(2) In the solid phase radioimmunoassay method, HB_sAg is attached to a solid phase, i.e., a solid surface such as the bottom of a test tube or a plastic or glass bead. The sample of serum being tested is added to the solid phase. If anti-HBs is present in the serum, it will attached to the HB_sAg on the solid phase. Radio-iodinated HB_sAg is then added and will react with the antibody to form a radioactive HB_sAg-Antibody-HB_sAg complex. The radioactivity of the solid phase with the complex attached is measured by gamma counter, along with suitable controls, to determine the presence of the antibody.

Variations of these two methods, as well as other methods, may also be used for determining the presence of anti-HBs. In all methods, improper handling of HB_sAg before, during, and after its use as an in vitro diagnostic reagent poses a potential health hazard to laboratory personnel, the public, and the environment. Accordingly, the Commissioner finds that the proposed additional standards are necessary to ensure safety, purity, potency, and effectiveness for the manufacture of HB_sAg diagnostic reagent products.

The product may be marketed in a package containing HB_sAg and ancillary reagents and materials needed for the testing procedure. To reduce the risk of contracting hepatitis from handling the reagent, the proposed standards require in § 660.41(a) that the product and all ancillary reagents and materials supplied in the package with the product, shall be manufactured in a manner that will reduce the risk of transmitting type B viral hepatitis. Additionally, proposed § 660.45 (c) requires a warning on the package and container label that the reagent is capable of transmitting hepatitis, and should be handled accordingly.

At least four distinct subtypes of the HB_sAg have been identified, based on their immunologic reactivities. These subtypes have been designated *adw*, *adr*, *ayw*, and *ayr*. Identification of these HB_sAg subtypes and specific antibodies to them is of importance in the definitive identification and epidemiologic study of individuals who are HB_sAg carriers or who have been infected by a known carrier. Accordingly, proposed § 660.45(a) requires that the package and final container label identify the HB_sAg subtype.

Data, submitted by manufacturers and confirmed by the Bureau of Biologics, indicate that radio-labeled HB_sAg and HB_sAg-coated red blood cells in the unlyophilized state maintain their purity and effectiveness for 45 days and 14 days respectively; HB_sAg that is not radiolabeled maintains its purity and effectiveness for at least 6 months. In light of the short dating period for radiolabeled HB_sAg and HB_sAg-coated red blood cells in the unlyophilized state, the Commissioner has determined that it is impractical to require notification of official release from the Director, Bureau of Biologics before each filling of these products is issued by the manufacturer. Instead, proposed § 660.46 *Samples, protocols* official release (21 CFR 660.46) requires that (1) a sample of a filling from each lot, and (2) a protocol for each filling, be submitted to the Bureau of Biologics within 1 day after the manufacturer's release date so that the Bureau may confirm the safety, purity, potency and effectiveness of the product and permit release of these products by manufacturers under the requirements of § 610.1 *Tests prior to release required*

for each lot (21 CFR 610.1) without obtaining an official release. It is also proposed that § 610.53 *Dating period for specific products* (21 CFR 610.53) be amended to prescribe a dating period of 45 days for iodinated (I^{125}) hepatitis B surface antigen products, a dating period of 14 days for hepatitis B surface antigen-coated red blood cell products and a dating period of 6 months for all other HB_sAg products. Pertinent background data on which the Commissioner relies in proposing this regulation, are on public display in the office of the Hearing Clerk, Food and Drug Administration, Rm. 4–65, 5600 Fishers Lane, Rockville, MD 20852.

Therefore, under the Public Health Service Act (sec. 351, 58 Stat. 702, as amended (42 U.S.C. 262)) and under authority delegated to him (21 CFR 2.120), the Commissioner proposes that Subchapter F in Chapter I of Title 21 of the Code of Federal Regulations be amended as follows:

1. In Part 610 by alphabetically adding to § 610.53 a new item and dating period to the list of substances to read as follows:

§ 610.53 Dating period for specific products.

* * * * *

Hepatitis B Surface Antigen.	Six months (5° C. 6 months). Unlyophilized coated red blood cells, 14 days, § 610.51 does not apply. Iodinated (I^{125}) products, 45 days, § 610.51 does not apply.

* * * * *

2. In Part 660 by adding a new Subpart E consisting of §§ 660.40 through 660.46, to read as follows:

Subpart E—Hepatitis B Surface Antigen

Sec.
660.40 Hepatitis B Surface Antigen.
660.41 Processing.
660.42 Reference panel.
660.43 Potency test.
660.44 Specificity.
660.45 Labeling.
660.46 Samples, protocols, official release.

AUTHORITY: Public Health Service Act (sec. 351, 58 Stat. 702, as amended (42 U.S.C. 262).)

Subpart E—Hepatitis B Surface Antigen

§ 660.40 Hepatitis B Surface Antigen.

(a) *Proper name and definition.* The proper name of this product shall be Hepatitis B Surface Antigen (HB_sAg), which shall consist of a serum or tissue preparation containing one or more subtypes of the Hepatitis B Surface Antigen.

(b) *Source.* The source of the product shall be blood, plasma, serum or tissue, obtained aseptically from nonhuman primates that have met the applicable requirements of § 600.11 of this chapter, or from human donors whose blood is positive for the Hepatitis B Surface Antigen.

§ 660.41 Processing.

(a) *Method.* The processing method shall be one that has been shown to yield consistently a specific and potent final product, free of properties which would adversely affect the test results when the product is tested by the methods recommended by the manufacturer in the package insert. The product and all ancillary reagents and materials supplied in the package with the product shall be manufactured in a manner that will reduce the risk of transmitting type B viral hepatitis, such as the heating of albumin and plasma protein fraction for 10 hours at 60° C.

(b) *Ancillary reagents and materials.* All ancillary reagents and materials supplied in the package with the product shall meet generally accepted standards of purity and quality and shall be effectively segregated and otherwise manufactured in a manner that will reduce the risk of contaminating the product and other biological products. Ancillary reagents and materials accompanying the product, which are used in the performance of the test as described by the manufacturer's recommended test procedures, shall have been shown not to affect adversely the product within the prescribed dating period.

(c) *Final container.* The final container shall be sterile, colorless, and transparent.

(d) *Date of manufacture.* The date of manufacture of Hepatitis B Surface Antigen that has been iodinated with radioactive iodine (I^{125}) shall be the day of labeling the antibody with the radionuclide.

§ 660.42 Reference panel.

A Reference Hepatitis B Antiserum Panel shall be obtained from the Bureau of Biologics, 8800 Rockville Pike, Bethesda, MD 20014, and shall be used for determining the potency and specificity of Hepatitis B Surface Antigen.

§ 660.43 Potency test.

To be satisfactory for release, each filling of Hepatitis B Surface Antigen shall be tested against the Reference Hepatitis B Antiserum Panel and shall be sufficiently potent to be able to detect the antibody in the appropriate sera of the reference panel by all test methods recommended by the manufacturer in the package insert.

§ 660.44 Specificity.

Each filling of the product shall be specific for Hepatitis B Surface Antigen as determined by specificity tests found acceptable to the Director, Bureau of Biologics.

§ 660.45 Labeling.

In addition to the requirements of §§ 610.60, 610.61 and 320.10 of this chapter, the label shall bear the following:

(a) The antigen subtype and the source of the product, to follow immediately the proper name on both the final container label and the package label, e.g., *adw* chimpanzee.

(b) The name of the test method(s) recommended for use of the product on the package label and on the final container label, when capable of bearing a full label (see § 610.60(a) of this chapter).

(c) A warning on the package label and on the final container label stating that the product is capable of transmitting hepatitis and should be handled accordingly.

(d) The package shall include a package insert providing (1) detailed instructions for use, (2) an adequate description of all recommended test methods, and (3) warnings as to possible hazards, including hepatitis transmitted in handling the product and any ancillary reagents and materials accompanying the product.

§ 660.46 Samples, protocols, official release.

(a) The following material shall be submitted to the Director, Bureau of Biologics:

(1) A sample of a filling from each lot packaged as for distribution, including all ancillary reagents and materials.

(2) A protocol which consists of a summary of the history of manufacture of each filling test, including all results of each test for which test results are required by the Director, Bureau of Biologics.

(b) The filling of the product may not be issued by the manufacturer until notification of official release of the filling is received from the Director, Bureau of Biologics, except as provided in paragraph (c) of this section.

(c) Unlyophilized HB_sAg-coated red blood cells and radio-labeled products may be released by the manufacturer under the requirements of § 610.1 of this chapter without obtaining an official release from the Director, Bureau of Biologics: *Provided*, That the materials required in paragraph (a) of this section are submitted to the Director, Bureau of Biologics and postmarked no later than 1 day following the manufacturer's release date.

Interested persons may, on or before December 8, 1975, submit to the Hearing Clerk, Food and Drug Administration, Rm. 4–65, 5600 Fishers Lane, Rockville, MD 20852, written comments regarding this proposal. Comments should be filed in quintuplicate (except that individuals may submit single copies), and should be identified with the Hearing Clerk docket number found in brackets in the heading of this document. Received comments may be seen in the above office Monday through Friday, from 9 a.m. to 4 p.m., except on Federal legal holidays.

Dated: September 30, 1975.

SAM D. FINE,
Associate Commissioner for Compliance.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 39]

[Airworthiness Docket No. 75-SW-64]

BELL MODELS 204B, 205A-1, AND 212 HELICOPTERS

Proposed Airworthiness Directives

The Federal Aviation Administration is considering amending Part 39 of the Federal Aviation Regulations by adding an airworthiness directive applicable to Bell Models 204B, 205A-1, and 212 helicopters. All Model 205A helicopters have been converted to Model 205A-1 helicopters. There have been reports of cracks occurring in the main rotor blade inboard end doublers on Bell Model 212 helicopters, as a result of corrosion pits, that could result in possible progressive failure of the inboard end of the main rotor blade. The Bell Models 204B and 205A-1 main rotor blades are constructed and protected in a similar manner and are subject to the same environment.

Since this condition could exist or develop in other helicopters of the Bell Models 204B, 205A-1, and 212 type design, the proposed airworthiness directive would require inspection, sealing, and refinishing within 90 days and, thereafter, at intervals not to exceed one year from the last inspection. The proposed AD would require compliance with Part I of Bell Helicopter Company Service Bulletins No.'s 204-75-1 or 205-75-5 or 212-75-6 for Bell Models 204B, 205A-1, and 212 helicopters to prevent possible cracks in the main rotor blades as a result of corrosion. Part I in each of the three bulletins is identical. The noted service bulletins require compliance at calendar time and at hours' time in service. For simplicity and uniformity, the agency proposes to require compliance in calendar time only.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or comments as they may desire. Communications should identify the docket number and be submitted in triplicate to the Regional Counsel, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101. All communications received on or before November 8, 1975, will be considered by the Director before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the office of Regional Counsel for examination by interested persons.

This amendment is proposed under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, it is proposed to amend § 39.13 of Part 39 of the Federal Aviation Regulations by adding the following new airworthiness directive:

BELL. Applies to Bell Models 204B, 205A-1, and 212 helicopters certificated in all categories.

(a) Compliance required as follows:

(1) For main rotor blades having 12 or more months' installed time on a helicopter, on the effective date of this AD, conduct inspections within 90 days' time unless already accomplished.

(2) For main rotor blades having less than 12 months' installed time on a helicopter on the effective date of this AD, conduct inspections prior to attaining 15 months' installed time on a helicopter.

(3) Conduct repetitive inspections at intervals not to exceed 12 months' installed time from the last inspection.

(b) To detect possible cracks and corrosion and to prevent further corrosion in the main rotor blade inboard portion, accomplish the following:

(1) Remove the main rotor blades from the helicopter and prepare the blades for inspection as noted in Bell Helicopter Company Service Bulletin No. 205-75-5 dated July 25, 1975, or later approved revisions, Part I, paragraph A.

(2) Inspect the blades as noted in Service Bulletin No. 205-75-5 or later approved revisions, Part I, paragraph B. Blades with cracks or adhesive voids exceeding the limits specified in Service Bulletin No. 205-75-5, Part I, paragraph B, may not be returned to service.

(3) Repair and refinish discrepant blades as specified in Service Bulletin No. 205-75-5, or later approved revisions, Part I, paragraphs B and C.

(4) Install blades on the helicopter in accordance with the applicable model maintenance and overhaul information manual and balance and track the blades.

(c) Equivalent means of compliance with paragraph (b) of this AD may be approved by the Chief, Engineering and Manufacturing Branch, Flight Standards Division, Southwest Region, Federal Aviation Administration. Bell Service Bulletins No. 204-75-1 dated July 25, 1975, No. 212-75-6 dated July 25, 1975, or later FAA-DER approved revisions to these bulletins are approved as equivalent means of compliance with paragraph (b).

(d) Upon request of the operator, an FAA maintenance inspector, subject to prior approval of the Chief, Engineering and Manufacturing Branch, Flight Standards Division, FAA Southwest Region, may adjust the repetitive inspection intervals specified in this AD to permit compliance at an established inspection period of the operator if the request contains substantiating data to justify the increase for that operator.

(e) The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1). All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to Service Manager, Bell Helicopter Company, PO Box 482, Fort Worth, Texas 76101. These documents may also be examined at the Office of the Regional Counsel, Southwest Region, FAA, 4400 Blue Mound Road, Fort Worth, Texas, and at FAA headquarters, 800 Independence Avenue, SW., Washington, D.C. A historical file on this AD which includes the incorporated material in full is maintained by the FAA at its headquarters in Washington, D.C., and at the Office of the Regional Counsel, Southwest Region, FAA, 4400 Blue Mound Road, Fort Worth, Texas.

Issued in Fort Worth, Texas, on September 26, 1975.

HENRY L. NEWMAN,
Director,
Southwest Region.

[FR Doc.75-26780 Filed 10-6-75;8:45 am]

[14 CFR Part 39]

[Docket No. 15038]

HAWKER SIDDELEY AVIATION, LTD. DH-104 AIRPLANES

Proposed Airworthiness Directives

The Federal Aviation Administration is considering amending Part 39 of the Federal Aviation Regulations by adding an airworthiness directive applicable to Hawker Siddeley Aviation DH-104 airplanes. There have been reports of internal corrosion of the engine mount stay struts on DH-104 airplanes that could result in separation of the engine from the airplane. Since this condition is likely to exist or develop in other airplanes of the same type design, the proposed airworthiness directive would require an inspection of the engine mount stay struts and replacement if necessary on DH-104 airplanes and provide for reporting of inspection results to the Federal Aviation Administration.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to the Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, AGC-24, 800 Independence Avenue SW., Washington, D.C. 20591. All communications received on or before November 6, 1975, will be considered by the Administrator before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

This amendment is proposed under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, it is proposed to amend § 39.13 of Part 39 of the Federal Aviation Regulations by adding the following new airworthiness directive:

HAWKER SIDDELEY AVIATION, LTD. Applies to DH-104 airplanes certificated in all categories that are not equipped with engine mount stay struts marked as Issue 7 or subsequent or marked "D.O.I. No. 68639".

Compliance is required within 50 hours time in service after the effective date of this AD, unless already accomplished.

To detect internal corrosion of the engine mount stay struts, P/N 4 EM. 357A and P/N 4 EM.359A, accomplish the following:

(a) Remove the stay struts from the aircraft and inspect in accordance with the X-ray procedure of Appendix I of Hawker Siddeley Technical News Sheet No. 229, dated

March 19, 1973, or an FAA-approved equivalent.

(b) Replace any stay strut for which internal corrosion is detected by the inspection required by paragraph (a) of this AD with a new part or otherwise serviceable spare part of the same part number determined to be free of internal corrosion by the inspection required by paragraph (a) of this AD or an FAA-approved equivalent.

(c) It is requested that copies of the X-rays, or results of an FAA-approved equivalent inspection, be forwarded to the Chief, Aircraft Certification Staff, FAA, Europe, Africa, and Middle East Region, % American Embassy, APO New York, N.Y. 09667. (Reporting approved by the Bureau of the Budget under BOB No. 04-RO 174).

Issued in Washington, D.C. on September 29, 1975.

R. P. SKULLY,
Director,
Flight Standards Service.

[14 CFR Part 39]

[Docket No. 15037]

HAWKER SIDDELEY AVIATION, LTD. DH-114 AIRPLANES

Proposed Airworthiness Directives

The Federal Aviation Administration is considering amending Part 39 of the Federal Aviation Regulations by adding an airworthiness directive applicable to Hawker Siddeley Aviation, Ltd. DH114 airplanes. There have been reports of internal corrosion of the engine mount stay struts on DH-114 airplanes that could result in separation of the engine from the airplane. Since this condition is likely to exist or develop in other airplanes of the same type design, the proposed airworthiness directive would require an inspection of the engine mount stay struts and replacement if necessary on DH-114 airplanes and provide for reporting of inspection results to the Federal Aviation Administration.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to the Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, AGC-24, 800 Independence Avenue, SW., Washington, D.C. 20591. All communications received on or before November 6, 1975, will be considered by the Administrator before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

This amendment is proposed under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, it is proposed to amend § 39.13 of Part 39 of the Federal Aviation Regulations by adding the following new airworthiness directive:

HAWKER SIDDELEY AVIATION, LTD. Applies to DH-114 airplanes, certificated in all categories, that are not equipped with engine mount stay struts marked as Issue 2 or subsequent or marked "DOI No. 68640"

Compliance is required within the next 50 hours time in service after the effective date of this AD, unless already accomplished.

To detect internal corrosion of the engine mount stay strut, P/N 14 EM.337A, accomplish the following:

(a) Remove the stay strut from the aircraft and inspect in accordance with the X-ray procedure of Appendix I of Hawker Siddeley Technical News Sheet No. E.8, dated March 19, 1973, or an FAA-approved equivalent.

(b) Replace any strut for which internal corrosion is detected by the inspection required by paragraph (a) of this AD with a new part or otherwise serviceable spare part of the same part number determined to be free of internal corrosion by the inspection required by paragraph (a) of this AD or an FAA-approved equivalent.

(c) It is requested that copies of the X-rays, or results of an FAA-approved equivalent inspection, be forwarded to the Chief, Aircraft Certification Staff, FAA, Europe, Africa, and Middle East Region, c/o American Embassy, APO New York, N.Y. 09667. (Reporting approved by the Bureau of Budget under BOB No. 04-RO 174).

Issued in Washington, D.C., on September 29, 1975.

R. P. SKULLY,
Director,
Flight Standards Service.

[14 CFR Part 71]

[Airspace Docket No. 75-WE-26]

CONTROL ZONE

Proposed Designation

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would establish a new control zone at the Deer Valley Airport, Phoenix, Arizona.

A new Air Traffic Control Tower will be commissioned at Deer Valley Airport on or about October 14, 1975. The new control zone is required to provide the necessary controlled airspace protection for the provision of air traffic control service.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Airspace and Procedures Branch, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, California 90261. All communications received on or before November 6, 1975, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, California 90261.

In consideration of the foregoing, the FAA proposes the following airspace action.

In § 71.171 (40 FR 354) the following control zone is added:

PHOENIX, ARIZONA (DEER VALLEY)

Within a 3-mile radius of Deer Valley Airport (latitude 33°41'13" N., longitude 112° 04'57" W.). This control zone will be effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously established as published in the Airman's Information Manual.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958, as amended, (49 U.S.C. 1348(a)), and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Los Angeles, Calif., on September 25, 1975.

LYNN L. HINK,
Acting Director,
Western Region.

[EDR 287; Docket No. 28321]

CIVIL AIRCRAFT CHARTERS PERFORMED BY FOREIGN AIR CARRIERS; UNIFORM SYSTEM OF ACCOUNTS AND REPORTS FOR CERTIFICATED AIR CARRIERS

Reporting of Charter Transportation

Correction

In FR Doc. 75-25442 appearing at page 43920 in the issue of Wednesday, September 24, 1975, make the following changes:

1. The bracketed material in the heading should read as above.

2. On page 43922 between paragraphs 3. and 4. at the top of the first column insert the heading:

PART 241

3. On page 43922 in the chart in the first column the line of figures directly above the entry for May 30 should read:

May 20..... P-12, P-12(a)

4. On page 43922 in the second line of paragraph 5. at the bottom of the first column "Section 255" should read "Section 25."

5. On page 43922 paragraph (o) in the third column should read:

SCHEDULE T-6—REPORT OF CIVIL AIRCRAFT CHARTERS

* * * * *

(o) Column (14) shall reflect the entire capacity of the aircraft and shall be completed for Entity—Cargo charters only.

6. On page 43923 in paragraph (k) in the third column the word "charter" in the next to the last line of the paragraph should read "charterer", so that the corrected line reads "portation by the charterer, not the char-".

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 52]

[FRL 440-4]

APPROVAL AND PROMULGATION OF IMPLEMENTATION STATE PLANS, MASSACHUSETTS

Proposed Change in Sulfur Content of Fuel Burned in Metropolitan Boston Air Quality Control Region

On May 31, 1972 (37 FR 10842), pursuant to section 110 of the Clean Air Act and 40 CFR Part 51, the Administrator approved with exceptions the Massachusetts Implementation Plan for the attainment of national ambient air quality standards.

On July 11, 1975 the Massachusetts Secretary of Environmental Affairs informally submitted a proposed revision pursuant to recently adopted Chapter 494, Commonwealth of Massachusetts' "An Act Relative to Periodic Review of Ambient Air Quality Standards" to be included in the implementation plan. The secretary completed formal submittal of the revision on September 16, 1975. This revision would make less stringent the regulations governing sulfur content of fuels burned in the Boston core area by allowing electric generating facilities having an energy input capacity of two and one half billion (2.5 billion) or greater BTU per hour to burn fossil fuel with a sulfur content not to exceed 0.55 pounds per million BTU heat release potential (approximately equivalent to 1% sulfur content fuel oil). Also, those facilities located in the Metropolitan Boston Air Quality Control Region but not in the Boston core having an energy input capacity of one hundred million (100,000,000) or greater BTU per hour may burn fossil fuel with sulfur content not in excess of 1.21 pounds per million BTU heat release potential (approximate equivalent to 2.2 percent sulfur content fuel oil). These changes would be effective from July 1, 1975 to July 1, 1977. The proposed revision requires that each source be reviewed by the Department of Environmental Quality Engineering in order to insure that ambient air quality standards will not be exceeded. The proposed revision also requires that the use of such fuel must be approved in writing by the Department.

In certain cases the establishment of a network of continuous ambient air sulfur dioxide monitors will be required in the vicinity of a facility or combination of facilities eligible to burn fuel of the revised higher sulfur content. As a minimum, additional monitors will be required whenever the annual usage of the higher sulfur fuel would exceed ten (10) million oil-equivalent gallons in any one city or town. Exceedence of ambient air quality standards for sulfur dioxide recorded by such monitoring systems would be grounds for requiring an immediate and permanent return to the use of lower sulfur fuel for the sources involved.

During its initial review of this proposed revision, the Agency has found that under certain unusual combinations of meteorology and emission rates there is a possibility that certain sources could result in ambient levels of sulfur oxide closely approaching ambient air quality standards. However, the Agency also recognizes that, unlike the more usual revision where the Administrator must make a specific determination of each affected source, this proposed revision does require a source to demonstrate to the Commonwealth that no standards violation could occur before that source receives approval to burn the higher sulfur content fuel.

On September 23, 1975, the Administrator announced an Agency policy on the question of sulfates, which noted that the high levels of sulfates found in the Northeastern United States, including Massachusetts, is a source of concern and does constitute a potential hazard to health. Increased emissions of sulfur dioxide, as would be allowed under the proposed revision, could aggravate this problem.

Because of the complexity of issues raised by this proposed revision, the Administrator faces three possible options in making his final decision. These options are:

1. Approval of the proposed revision as submitted by the Commonwealth;

2. Approval, with the removal of certain sources designated by the Administrator as having the potential for violating air quality standards; and

3. Disapproval, with a request that the Commonwealth submit proposed revisions on a source by source basis.

Copies of the Massachusetts submission are available for public inspection during normal business hours at the Environmental Protection Agency, Region I, JFK Federal Building, Room 2113, Boston, Massachusetts 02203; Department of Environmental Quality Engineering, Bureau of Air Quality Control, Room 320, 600 Washington Street, Boston, Massachusetts 02111; and the Freedom of Information Center, Environmental Protection Agency, 401 M Street, SW., Washington, D.C. 20460.

The Regional Administrator hereby issues this notice setting for the Massachusetts revision as proposed rulemaking and advises the public that interested persons may participate in this rulemaking by submitting written comments on the three options noted above, preferably in triplicate, to the address below. Relevant comments received by October 31, 1975, will be considered and acknowledged. Comments received will be available for public inspection during normal working hours at the Region I office. All comments should be addressed to: Regional Administrator, Region I, Environmental Protection Agency, Room 2203, JFK Federal Building, Boston, Massachusetts 02203.

The Administrator's decision to approve or disapprove the plan revision will be based on whether it meets the requirements of sections 110(a)(2)(A)-(h) and 110(a)(3) of the Clean Air Act and EPA regulations in 40 CFR Part 51. The Agency will incorporate in the rules adopted a concise general statement of their basis and purpose. This revision is being proposed pursuant to sections 110 (a) and 301 of the Clean Air Act, as amended (42 U.S.C. 1857c-(5)(a) and 1857(g).

Dated: October 1, 1975.

JOHN A. S. MCGLENNON,
Regional Administrator.

[40 CFR Part 180]

[FRL 440-8; PP5E1551/P10]

TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Zinc Phosphide; Proposed Tolerance

Dr. C. C. Compton, Coordinator, Interregional Research Project No. 4, State Agricultural Experiment Station, Rutgers University, New Brunswick NJ 08903, has submitted a petition (PP 5E1551) requesting the Administrator propose to amend 40 CFR 180.284 to establish a tolerance for residues of phosphine from use of the rodenticide zinc phosphide in or on the raw agricultural commodity grapes at 0.01 part per million.

The data submitted in the petition and other relevant material have been evaluated, and it is concluded that the tolerance should be established. There is no reasonable expectation of residues in eggs, meat, milk, or poultry, and § 180.6 (a)(3) applies. The tolerance established by amending § 180.284 will protect the public health, and it is therefore proposed as set forth below.

Any person who has registered or submitted an application for the registration of a pesticide under the Federal, Insecticide, Fungicide, and Rodenticide Act which contains any of the ingredients listed herein may request, on or before November 6, 1975, that the proposal be referred to an advisory committee in accordance with section 408(e) of the Federal Food, Drug, and Cosmetic Act.

Interested persons are invited to submit written comments on this proposal to the FEDERAL REGISTER Section, Technical Services Division (WH-569), Office of Pesticide Programs, Environmental Protection Agency, Room 423, East Tower, 401 M St., SW, Washington, DC 20460. Three copies of the comments should be

submitted to facilitate the work of the Agency and others interested in reviewing them. The comments must be received on or before November 6, 1975 and should bear a notation indicating the subject (PP 5E1551/P10). All written comments filed pursuant to this notice will be available for public inspection in the Office of the Federal Register Section from 8:30 a.m. to 4:00 p.m. Monday through Friday.

(Sec. 408(e), Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a(e)))

Dated: October 1, 1975.

DOUGLAS D. CAMP,
Acting Director,
Registration Division.

It is proposed that § 180.284, Subpart C, Part 180, be amended by including a tolerance for grapes in the paragraph "0.01 part per million * * *."

§ 180.284 Zinc Phosphide, tolerances for residues.

* * * * *

0.01 part per million in or on grapes and sugarcane.

SHIPPING COORDINATING COMMITTEE, UNITED STATES NATIONAL COMMITTEE FOR THE PREVENTION OF MARINE POLLUTION

Meeting

The working group on oil content meters of the United States National Committee for the Prevention of Marine Pollution, a subcommittee of the Shipping Coordinating Committee, will hold an open meeting at 9:30 a.m. on Thursday, November 6, 1975, in Room 8207 of the Department of Transportation, 400 Seventh Street, SW., Washington, D.C.

The purpose of the meeting will be to discuss and review the work accomplished at the Fourth Session of the Marine Environmental Protection Committee, a committee of the Intergovernmental Maritime Consultative Organization (IMCO), with respect to finalization of performance and testing specifications for oil/water separators and oil content meters. Also to be covered will be a status report on the development of a national test facility for these devices and preliminary problem resolution and definition of national specifications for these devices.

Requests for further information on the meeting should be directed to Cdr. R. A. Sutherland, United States Coast Guard. He may be reached by telephone on (area code 202) 426-4431.

The Chairman will entertain comments from the public as time permits.

Dated: September 24, 1975.

The Gillette Company, were received by the Department of Justice and are published herewith, together with Justice's response to the comments.

Dated: September 26, 1975.

THOMAS E. KAUPER,
Assistant Attorney General,
Antitrust Division.

UNITED STATES DEPARTMENT OF JUSTICE

Re: *United States* v. *The Gillette Company*

MR. TOM MCKIE
1411 Ranch Road
Boise, Idaho 83702

SEPTEMBER 26, 1975.

DEAR MR. MCKIE, This letter is written in response to your letter mailed July 9, 1975, commenting upon the Proposed Final Judgment for settling the above-captioned case.

You have stated that the Proposed Final Judgment will do nothing for the American taxpayers.

It is the belief of the Department of Justice that the Proposed Final Judgment will act to foster and protect free competition in the electric shaving instrument industry in the United States by providing for the creation of an actual new entrant into this industry.

The Department of Justice appreciates receiving your comments. Your letter and this answer will be brought to the attention of the Court and published in the FEDERAL REGISTER.

Sincerely yours,

THOMAS E. KAUPER,
Assistant Attorney General,
Antitrust Division.
DAVID N. GOLDSWEIG,
JULIE BROOKS MURRAY,
Attorneys,
Department of Justice.

MR. JOEL DAVIDOW
Chief Foreign Commerce Section, Antitrust Division, Washington D.C.

Greetings,

I find your work in the matter of the USA vs. Gillette to be sick! The proposed judgment is lunacy and I'm not so sure you and your associates are aware that you are working for us tax payers.

Fine them, stop the purchase or leave them alone. The procedure you propose does nothing for us taxpayers but will keep a lot of morally fuzzy lawyers trotting back and forth on the public dole.

Yours for better Gov't

TOM MCKIE,
1411 Ranch Rd.,
Cosie, Idaho 83702.

UNITED STATES DISTRICT COURT
DISTRICT OF MASSACHUSETTS

Civil Action No. 68-141-G

UNITED STATES OF AMERICA, PLAINTIFF, *v.* THE GILLETTE COMPANY, DEFENDANT.

PLAINTIFF'S RESPONSE TO THE POINTS RAISED IN COMMENTS BY SPERRY RAND CORPORATION (HEREINAFTER, "REMINGTON") AND ON BEHALF OF RONSON CORPORATION (HEREINAFTER, "RONSON") REGARDING THE PROPOSED FINAL JUDGMENT AGAINST THE GILLETTE COMPANY (HEREINAFTER, "GILLETTE").

This response to comments made on the Proposed Final Judgment is made and filed in accordance with the provisions of the Antitrust Procedures and Penalties Act (15 U.S.C. 16(b) and (d)).

I.

Remington and Ronson have expressed concern that the Proposed Final Judgment will not ensure the economic viability of New Company.

The Proposed Final Judgment does provide for the viability of New Company. We recognize that $2,500,000 is insufficient to build United States manufacturing facilities or to mount an elaborate national advertising campaign at the time of inception of the New Company, but it appears to be an appropriate amount to meet the needs of New Company during the short period prior to its divestiture. A massive capital contribution would impede the sale of New Company by increasing the cost to the purchaser and could hamper the purchaser's flexibility in planning its own manufacturing facilities and promotion. It is impossible to say with certainty what is the optimum capital investment for such a start-up period. $2,500,000, however, does represent a substantial capital contribution by Gillette to New Company; further, Gillette must assure the solvency of New Company until divestiture. In addition, it must provide New Company with personnel, services, and facilities. Gillette is further obligated to give to New Company a collection of rights to highly successful electric shaver technology, as well as to provide it with newly developed and to be developed electric shaver technology, enabling New Company to manufacture electric shavers. Provision is made for an assured supply to New Company of electric shavers and spare parts, manufactured by Braun Aktiengesellschaft (hereinafter, "Braun"), for a period of up to five years from the date of the divestiture of New Company by Gillette, thus making it possible for New Company to concentrate its capital on its marketing efforts by delaying commencement of its own manufacturing operations until after the divestiture.

II.

Remington and Ronson have expressed concern that the product to be sold by New Company will bear neither the Gillette nor Braun name.

The plaintiff believes it would be inadvisable to attach the Gillette or Braun name to the product to be sold by New Company. To do so would create an obstacle to the sale of New Company, if, upon divestiture, the buyer were obligated to adopt a new name for the shaver, thereby vitiating the name recognition and goodwill that attached to the product during the period prior to divestiture. Also, if the shaver were to bear the name of Gillette and/or Braun, product confusion would result.

III.

Remington has expressed concern that an attempt to undercut New Company's establishment of an economic base might be made by Gillette and/or Braun by granting distribution rights for the Braun electric shaver to other parties in addition to New Company, thereby lessening the economic viability of New Company.

In response, the New Company will have exclusive patent rights in the United States on the present Braun shavers, and thus, until these patents expire, New Company will be the only distributor of these shavers in the United States. Once these patents expire Gillette and Braun will be free to distribute these shavers themselves or to authorize other firms to import these products into the United States. We feel it is appropriate for New Company to have this exclusive right for a limited period to enable it to establish itself as a viable company. However, after this period, entry into the United States market should be unrestricted.

IV.

Remington has suggested that New Company should be prohibited from licensing to Gillette and/or Braun the electric shaver rights it will receive from them.

Section IV(D) of the Final Judgment would prohibit New Company and Buyer from assigning, sublicensing or conveying the rights transferred to New Company by Gillette and Braun other than in connection with the sale of substantially all the assets of the electric shaver business of New Company or Buyer. Section X would enjoin Gillette and Braun from acquiring such assets for a period of 10 years except with the consent of plaintiff or the approval of the Court. The Final Judgment would also prohibit New Company and Buyer, for a period of 5 years, from assigning or exclusively licensing rights apart from such a sale, except with the consent of plaintiff or with the approval of the Court.

It is plaintiff's belief that the Proposed Final Judgment, as drafted, accomplishes the results suggested by Remington albeit for a limited period of time. This is consistent with the concept that New Company should remain separate from Gillette and Braun and be allowed to develop as an independent firm. However, after an appropriate period it should be as free as any other firm to market its property as it sees fit.

V.

Ronson and Remington object to the fact that the Proposed Final Judgment does not prohibit future entry into the United States electric shaving instrument industry by Gillette and/or Braun.

The Proposed Final Judgment provides for the actual entry into the United States electric shaver market of the potential market entrant eliminated by Gillette's acquisition of Braun, effectuated by carving out of Braun all United States rights to manufacture and market the Braun electric shaver and giving these rights to New Company. The Proposed Final Judgment does not prohibit Gillette and/or Braun from developing a new electric shaver not incorporating the technology granted to New Company or from manufacturing and/or marketing that new product in the United States. Such future entry can reasonably be expected to be facilitated by Braun's past experience in developing and exploiting the technology being given to New Company.

Such future entry by Gillette and/or Braun would serve to deconcentrate further the industry. Moreover, these objections of Ronson and Remington seem to be more directed at protecting their own market position than at protecting competition. We look upon such entry as being beneficial due to the resultant competition in the United States electric shaver market even though that entry is facilitated by the residual knowledge derived from its past experience.

VI.

Ronson has questioned why the Competitive Impact Statement has not mentioned other alternative elements of relief considered during the 7-year pendency of this action.

It is the Department's construction of the Antitrust Procedures and Penalties Act that only substantially different relief proposals are required to be mentioned as alternative relief. We do not construe the Act as requiring us to mention all variations on what is essentially the same relief proposal. The Competitive Statement accurately describes the alternative relief proposals considered by plaintiff.

CONCLUSION

For the reasons stated above, and for the reasons stated in the Competitive Impact Statement, published in 40 FR 27265 (June 27, 1975), the Government submits that the entry of this Proposed Final Judgment is in the public interest, and respectfully requests the Court to make such a finding.

Dated: October 1, 1975.

Respectfully submitted,

DAVID N. GOLDSWEIG,
JULIE BROOKS MURRAY,
Attorneys, Antitrust Division,
Department of Justice.

UNITED STATES DISTRICT COURT

DISTRICT OF MASSACHUSETTS

[Civil No. 68-141-G]

United States of America, plaintiff, v. The Gillette Company, defendant.

COMMENTS OF SPERRY RAND CORPORATION REGARDING PROPOSED CONSENT JUDGMENT

These comments are submitted to the United States (United States Department of Justice, Attention Joel Davidow, Chief Foreign Commerce Section, Antitrust Division, Washington, D.C. 20530) by Sperry Rand Corporation pursuant to the provisions of Section 5 of the Clayton Act, as amended by the Act of Congress of December 21, 1974, Pub. L. 93-528, commonly known as The Antitrust Procedures and Penalties Act (15 U.S. Code, Section 16). Sperry Remington Consumer Products Division of Sperry Rand Corporation is engaged in the production and marketing of electric shavers.

I. NATURE AND PURPOSE OF THE PROCEEDING

This civil action was brought by the U.S. Justice Department Antitrust Division on the grounds that the acquisition by The Gillette Company, a Delaware Corporation ("Gillette") in 1967 of 100 percent of the common stock and 37.5 percent of the preferred stock of Braun Aktiengesellshaft, a West German Republic Corporation ("Braun") might have the effect of substantially lessening competition or tending to create a monopoly in violation of Section 7 of the Clayton Act, as amended (15 U.S. Code, Section 18).

It was stated in the Government's Competitive Impact Statement that: "The gravamen of the allegations is that: (a) Braun would be eliminated as a potential independent competitor in the domestic shaving instrument industry; and (b) Gillette's dominant position in the domestic shaving instrument industry would be enhanced."

II. FACTUAL BACKGROUND

Braun manufactures electric shaving instruments. Between 1955 and 1975 the Braun shavers were marketed in the United States by an exclusive United States distributor, Ronson Corporation. Braun held approximately 5 percent of the United States market for electric shavers. In Europe it was the third largest producer. Gillette was and is the largest United States manufacturer and seller of wet shaving equipment. In 1966 it had over 50 percent of the United States market for wet shaving equipment. Published industry statistics for 1974 show that Gillette, in the interviewing eight years, had increased its share of the wet shaving market to 60 percent.

III. STATE OF THE ELECTRIC SHAVER INDUSTRY

The Consent Judgment would require Gillette to establish a new company ("New Company"), make it viable, and then sell the New Company to an unrelated party.

Making the New Company viable in the electric shaver industry will be a difficult undertaking in the current economic environment. Industry unit sales of men's electric shavers in the United States dropped by about 11 percent between calendar 1973 and calendar 1974.

Sperry Rand's Remington Consumer Products Division, the second largest United States seller (North American Philips Corporation is first), recorded operating losses in both its 1974 and 1975 Fiscal Years (years ended March 31). These losses could be borne because other Sperry Rand divisions have been profitable.

Schick, Inc., the third largest United States seller, is in serious financial difficulty. According to its financial statements filed on Form 10-Q with the Securities and Exchange Commission, its gross income from sales of all products (including other personal care products as well as electric shavers) dropped by over 50 percent for the first three months of its current Fiscal Year, March through May, 1975, compared with the corresponding period last year: $7,575,000 for the quarter ended May 31, 1975 compared with $15,565,000 for the quarter ended May 31, 1974.

Schick reported a loss of $2,295,000 for the quarter ended May 31, 1975, compared with a loss of $1,957,000 for the corresponding period last year. It reported losses for each of Fiscal 1974 and 1975.

Schick's liabilities as of May 31, 1975, exceeded its assets by $5,919,000.

It might also be a matter of interest that both the Norelco shavers (North American Philips Corporation) and the Schick shavers are imported products.

In view of the generally bleak outlook in the electric shaver industry it may be a difficult undertaking to make the New Company a viable concern. The Government would be well advised to review the proposed consent decree to make sure that it will establish the conditions that will be necessary to give the new Company a reasonable chance for success.

IV. PROPOSED JUDGMENT

1. *Viability.*

In order to maximize the New Company's potential for economic survival, it would seem essential that the consent judgment require Gillette and Braun to grant to the New Company exclusive distribution rights for electric shavers manufactured or marketed by Braun or Gillette until the expiration of the key period provided in paragraph IV(A)(9) of the proposed consent judgment: the later of May 16, 1984 or five years after the sale of New Company. If, as is proposed, the grant of distribution rights is non-exclusive, there exist two possible developments that would be seriously prejudicial to the viability of the New Company.

First, Braun or Gillette may undertake at any time to market electric shavers in direct competition with the New Company. It may be assumed that the sales efforts of the New Company would be badly hampered by such competition. Gillette's obligation to ensure the solvency of the New Company applies only until the earlier of five years from the entry of the decree or Gillette's sale of the New Company.

A second possibility is that Gillette or Braun might undercut any attempt by the New Company to establish an independent economic base by granting distribution rights to other parties. Such a tactic would effectively prevent the New Company from establishing the customer base, marketing capabilities and consumer identification which would enable it to consider entering the market as a manufacturer of shaving instruments. Moreover, even if the New Company desired only to continue as a distributor of Braun-manufactured shavers at the expiration of the period provided in paragraph IV(A)(9), its economic leverage vis-a-vis Gillette and Braun would be substantially reduced in these circumstances. However, if the New Company has operated as the sole United States distributor for Braun for five years after Gillette sells the New Company and at least until May 16, 1984, and has, as suggested below, marketed the Braun products throughout this period under its own trade name, trademark and trade dress, it is much more likely to have reached the point where it could realistically consider manufacturing or where it would have substantial leverage in negotiating for a continuation of the distributor arrangement.

Since the New Company is not to be granted a license to the trade names or trademarks of Braun or Gillette, it also seems essential that the consent judgment specifically require that the New Company be caused to market shavers purchased from Braun or Gillette under its own trademark, trade name and trade dress. In this way the New Company can expect to develop the consumer good will and product identification which would enable it to survive in the marketplace whether it continues to distribute the Braun product, initiates manufacture itself or purchases from sources other than Braun or Gillette.

2. *Protection of Technology.*

The New Company should be prohibited from licensing its trademarks, trade name, technology or patent rights to Braun or Gillette. The transfer to the New Company of ownership of certain patents and of exclusive licenses to other patents will be a meaningless gesture unless the New Company is prohibited from assigning or licensing these rights back to Braun or Gillette, or to any subsidiary or other entity controlled by either of them.

SPERRY RAND CORPORATION,
FREDERICK M. PISTILLI,
President, Sperry Remington, Consumer Products Division.

AUGUST 18, 1975.

SEPTEMBER 8, 1975.
(Revised, September 25, 1975)

U.S. Department of Justice,
Antitrust Division, Washington, D.C. 20530.

Attention: Joel Davidow, Esquire, Chief, Foreign Commerce Section.

Re: *U.S.* v. *The Gillette Company,* Civil Action No. 68-141-G, D. Mass.

DEAR SIRS: We are writing on behalf of Ronson Corporation (Ronson), Woodbridge, New Jersey, pursuant to Section 5 of the Clayton Act, as amended by the Antitrust Procedures and Penalties Act (15 U.S.C. 16), to provide Ronson's assessment of the proposed consent judgment and competitive impact statement (CIS) in the above case. The proposed judgment would terminate the Justice Department's pending suit challenging the Gillette Company's ("Gillette") 1967 acquisition of Braun Aktiengesellschaft of West Germany. The Government's complaint alleged that the acquisition was illegal under Section 7 of the Clayton Act principally upon the grounds (1) that it was likely further to entrench Gillette as the dominant firm in the highly concentrated United States shaving instrument market and (2) that it foreclosed the potential entry of the highly successful Braun Company into the U.S. shaver market.

As the competitor most directly affected by Gillette's 1967 acquisition of Braun (see Complaint ¶¶ 10, 11, 14), Ronson is vitally concerned that the probable adverse competitive effects inherent in Gillette's acquisition of Braun be surely eliminated.

Ronson believes that the proposed consent judgment is *not* in the "public interest" (15 U.S.C. 16(c)) and must therefore be modified or withdrawn. In Ronson's view the proposed judgment fails to prevent Gillette from exploiting its illegal acquisition of Braun to enter (or cause Braun to enter) the United States electric shaver market. The proposed judgment also fails, in Ronson's view, to establish a sufficiently potent new competitor in the United States electric shaver market to compensate for loss of the potential entry into the U.S. market of a vigorous, independent Braun company.

Before reviewing the factual bases for Ronson's conclusion that entry of the proposed judgment is not in the public interest, we briefly review the factors which led the Justice Department in 1968 to challenge Gillette's acquisition of Braun. We note that the Justice Department has not suggested in its CIS that the structure of the nation's highly-concentrated shaving instrument market has materially changed since 1968 so as to justify a form of relief more generous to Gillette/Braun than that sought in the original complaint. In fact, Gillette still dominates the market, and the level of concentration has not decreased.

I. BACKGROUND

A. *The Complaint.*

On February 14, 1968, the Justice Department filed its complaint against Gillette, alleging that Gillette's 1967 stock acquisition of Braun violated Section 7 of the Clayton Act and asking that Gillette be required to divest its ownership of Braun. By stipulation dated February 16, 1968, Gillette agreed that, during the course of the litigation, it would hold and operate Braun's electric shaver business distinct and separate from Gillette. Nothing in the stipulation, however, barred Gillette from free access to Braun's patents, technology or know-how; and Ronson believes—and indeed the Department must assume—that Gillette has taken advantage of that seven-year opportunity fully to acquaint itself with Braun's highly developed technology and know-how.

In its 1968 complaint, Justice alleged that the shaving instrument industry in the United States was highly concentrated, that wet shavers and electric shavers were in direct competition and that Gillette was, by a wide margin, the largest U.S. producer (par. 6). Specifically, the complaint alleged that Gillette, although not then producing electric shaving instruments, accounted for 54 percent of the wet shaver portion of the market (par. 6). Current economic evidence suggests that Gillette's market dominance is even greater in 1975 than in 1968. Braun, in turn, was alleged to be Europe's third largest producer of electric shavers and a prime potential entrant into the U.S. market. At the time, under a licensing agreement with Ronson then in effect, Braun did not market electric shavers in the United States (pars. 9-10). That agreement was terminated in December 1974.

The complaint further alleged that Gillette's acquisition of Braun would have a number of likely adverse competitive effects, principally that

(a) Braun would be eliminated as a potential substantial independent competitive entity in the domestic shaving instrument industry; (Complaint, par. 15(a)); and

(b) Gillette's dominant competitive position in the domestic shaving industry would be further enhanced to the detriment of actual and potential competition. (Complaint, par. 15(c))

In Ronson's view, the proposed judgment in its present form will not eliminate these serious anticompetitive effects. Indeed if the judgment as now proposed becomes final, Gillette will, as a result of the Braun acquisition (and in spite of the putative relief provided in the proposed consent judgment), be able further to entrench itself as the dominant force in the U.S. shaving market, the very result the 1968 complaint was designed to bar. Moreover, the salutary competitive presence of Braun, poised as a potential entrant on the border of the U.S. market, will be removed. Finally, Gillette's success in retaining control of Braun and preserving its option to enter the U.S. market may well foster other acquisitions in the market to the detriment of actual and potential competition. (See Complaint, par. 15(f))

B. THE PROPOSED CONSENT JUDGMENT

The proposed judgment in its present form orders "the creation of a new company ("New Company") in the United States to carry on the domestic shaving instrument business that Braun might have carried on" (CIS, p. 10). To accomplish this expansive aim, the decree requires Gillette to invest $2.5 million in working capital in New Company over its first three years and to underwrite New Company solvency for its first five years. After two years, though, Gillette must divest its entire interest in New Company. In addition, in an attempt to insure that New Company has sufficient product to penetrate the highly concentrated United States shaver market, the decree requires Braun for five years to supply New Company at a reasonable cost (as defined) with as many electric shavers and parts as it orders.

The proposed consent judgment requires that Braun assign or exclusively license to New Company all U.S. electric shaver patents and patent applications owned on the date of final judgment and patents issued prior to divestiture of New Company. Braun must also license certain future patent rights on a nonexclusive basis. However, in light of the very limited investment which Gillette is required to make in New Company, it is almost certain that for the first few years of its life, New Company will simply be a distributor, under its own yet-unidentified trade name, of Braun shavers made in Europe. Thus the patent assignments and licenses are, in Ronson's view, of little, if any, practical worth to New Company.

Ronson believes the minimum $2.5 million which Gillette has agreed to invest in New Company is grossly inadequate to set up a viable manufacturing operation particularly when it will also have to make heavy expenditures to establish market identity for its own trade name. At such a level of expenditures, it is almost certain, in Ronson's view, that New Company will operate at or near a loss for the entire five-year period.

It is critical to an understanding of the substantial defects in the proposed judgment to review what it *fails* to provide. The proposed judgment does not enable New Company to use the highly valuable Braun or Gillette trade names for use on its electric shavers; neither is there any indication that Gillette is willing to license the Braun or Gillette names for use on electric shavers to New Company at any cost, and every competitive reality argues that it is not. The proposed judgment does *not* prevent Gillette/Braun, even for a limited period, from manufacturing or selling in the United States an

electric shaver under the Braun or Gillette name so long as it does not infringe the patents assigned or exclusively licensed to New Company. This is a vital point and one which is not addressed in the CIS. Gillette is merely prohibited for ten years from acquiring more than a one percent interest of an electric shaver firm without the prior approval of the Justice Department. There is not any real restraint, however, upon what Gillette/Braun itself can do in the U.S. market.

It would appear from the proposed judgment and the CIS that the Justice Department did not view any curbs on the timing or manner of Gillette/Braun's entry into the domestic electric shaver market as necessary because the Department believed that the provisions establishing New Company effectively barred Gillette from using the fruits of its illegal acquisition of Braun to enter the U.S. electric shaver market. In Ronson's view, that belief is misplaced. In fact, the CIS does not reveal whether the Justice Department at any time considered a curb on Gillette's entry.

Section 5 of the Clayton Act, as amended by the Antitrust Procedures and Penalties Act, requires every CIS to contain "a description and evaluation of alternatives to such proposal actually considered by the United States" (15 U.S.C. 16(b)(6)). In this case, the only alternative that the Government disclosed was taking the case to trial on the merits to obtain full divestiture of Braun (CIS, Section VI). Plainly, there were other realistic alternatives, but the CIS does not reveal whether they were "actually considered." Examples include requiring Gillette to divest Braun's shaver operations and barring Gillette for a period of time thereafter from using Braun technology and know-how as a means to enter the U.S. electric shaver market; or barring Gillette/Braun from entering the U.S. electric shaver market for a reasonable period of time (*e.g.*, ten years) after establishment of New Company.

It has always been Ronson's view that Gillette's entry into the electric shaver market is inevitable. Indeed, Gillette attempted in the 1930's to market an electric shaver in the U.S., but ultimately withdrew the product from the market, we understand, because of the poor quality of its product. Given the proven quality of the Braun shaver and Gillette/Braun's great resources, it is unlikely that Gillette would again experience such a product failure.

Moreover, if the Justice Department's prognosis proves incorrect, and Gillette does enter the electric shaver market with or through Braun, the decree effectively prevents the Justice Department from challenging this exploitation of its market dominance, and substantially undermines the practicality of a private party doing so.

II. Defects in the Proposed Consent Judgment

Ronson has concluded that there are defects in the proposed consent judgment so substantial as to render it ineffectual to nullify the actual and potential anti-competitive effects of the Gillette-Braun merger which gave rise to the Department's complaint in 1968. Unless corrected, the Department's case will, in a real sense, have proved meaningless and the jeopardy to Ronson and indeed to other competitors posed by the merger will have been substantially heightened. *First*, Gillette is not prevented from using its illegal acquisition of Braun as the means to penetrate the domestic electric shaver market. *Second*, despite the promise of the CIS, the consent decree will not invigorate existing competition by creating a truly viable new market entry.

A. The proposed judgment fails to prevent Gillette from using its illegal acquisition of Braun as a means to penetrate the United States electric shaver market.

As noted above, the decree merely requires Braun to assign or exclusively license to New Company electric shaver patents and patent applications owned on the date of final judgment and patents issued prior to the date of divestiture of New Company. Braun must also license certain future patent rights on a nonexclusive basis. If notified by New Company that it intends to produce electric shavers in the U.S. (which Ronson considers most unlikely), Braun must make available to New Company, on a nonexclusive basis, all of Braun's electric shaver technical information and manufacturing know-how existing on the date of divestiture of New Company. The decree, however, does not place any limit on Gillette's own use of Braun's know-how or technology to which Gillette has had access since 1967. As a result, there is nothing in the decree to prevent Gillette from using Braun's vast store of technology to design around the patents assigned or exclusively licensed to New Company and manufacture an electric shaver for sale in the U.S., under either the Braun or Gillette mark, that is of equal quality to current Braun shavers. The sale of such shavers, through Gillette's already overpowering distributor channels, backed by the kind of saturation promotional and advertising expenditures Gillette now applies to wet shavers,[1] could have a devastating effect upon existing competition in the U.S.

The only possible rationale that Ronson sees for the proposed consent decree is that the Department is relying upon the transfer of U.S. patent rights from Braun to New Company as a bar to Gillette/Braun's entry into the U.S. market until New Company is established and can effectively compete with Gillette/Braun when it *does* enter. However, although patents and know-how are of obvious importance, they are not the *sine qua non* of a successful shaver in the world market at the present time.

The foil shaver was popularized by Braun and Ronson in the fifties and sixties and much of its basic design is now within the public domain. Certain specific areas of know-how have remained exclusive to Braun and Ronson and certain specialized features of their shavers are patented; but these areas of exclusivity have not prevented other companies from designing and manufacturing competitive foil shavers of excellent quality, *e.g.*, the Phillips (Norelco) STR7, the Payer Lux, and most notably—in the U.S. market—the Schick Flexamatic, manufactured for Schick by the Krups Company of West Germany. These competing manufacturers have used their own technology and know-how effectively to circumvent existing Braun and Ronson patents.

In short, the transfer of Braun's patents and technology to the New Company would not give New Company any substantial advantages over existing competition or, more critically, any real insulation against possible competition from Gillette/Braun. As far as Braun's patents are concerned, these already have been largely circumvented by the competition; it would now certainly be well within Gillette/Braun's resources to circumvent them at any time. And since the know-how transfer is on a nonexclusive basis (see Section IV(A)(8)), Gillette/Braun is free to do so.

[1] According to the August 18, 1975, issue of *Advertising Age*, in 1974 Gillette spent $75 million for advertising in the United States alone; for a single new product, its Trac II shaver, Gillette spent $6 million on television advertising.

Moreover, we believe that the Department has failed to consider the relationship between technology and brand reputation. Any sophisticated company can have a technically superb and patented product which fails commercially because of its lack of a well-known brand name and/or substantial marketing resources. This is particularly so in the sale of electric shavers in the U.S. where such names as Norelco (Philips), Remington and Sunbeam dominate.

It seems likely that New Company will use a trademark of its own, but it is most unlikely that this mark will gain it prompt acceptance, especially in view of its meager $2.5 million capitalization. The trade and consumers will know that, whatever its mark, New Company is selling Braun-made shavers; almost surely New Company will be regarded merely as Braun's distributor in the U.S. New Company will *not* compensate for the elimination of an independent Braun; any reputation built up by the New Company will be vicarious only, based on Braun's reputation. Thus when Gillette/Braun does enter the market (as we believe it will), New Company's reputation, and therefore its chances of successfully competing, will dissolve.

The assignment of patents by Braun to New Company will not block Gillette/Braun's entry into the U.S. market. And once in the market, the fact that it can use the Braun or Gillette trademark (and New Company cannot) will effectively destroy any chances New Company has of becoming a significant competitor. In a real sense, New Company will merely have acted as a "stalking horse" for Gillette/Braun in antipication of its entry into the U.S. market.

Ronson believes that Gillette/Braun has the interest and incentive to market an electric shaver in the United States using either the valued Braun trade name (or Gillette's own name) and the marketing capability and distribution channels which have established it as the dominant U.S. seller of wet shavers and blades. Indeed, in Ronson's view, Gillette's acquisition of Braun affirmed Gillette's commitment to entering that market. Unless modified, the proposed judgment will freely provide Gillette/Braun that opportunity.

Moreover, the proposed decree itself, which requires only that Gillette grant New Company *non-exclusive* licenses on patents filed after the date of the decree and pending at the date of the sale, constitutes implicit recognition of the probability that Gillette will reenter the U.S. electric shaver market.

Thus the proposed judgment, while it does mandate the creation of a minimal new entrant into the United States shaving market (which Justice apparently conceives to be "preferable" to an independent Braun poised as a potential entrant at the edge of the market) (CIS, p. 10), nevertheless wholly fails to foreclose Gillette's singular opportunity—through Braun itself or through its access since 1968 to Braun's technology and know-how—to enter the United States electric shaver market. Because Gillette/Braun can simply ignore New Company and enter the United States electric shaver market at will, the decree cannot realistically be viewed as nullifying the probability that the Braun acquisition will simply serve to enhance Gillette's dominant competitive position in the domestic shaving industry (Complaint, par 15(e)).

B. The decree fails to provide adequate assets to insure New Company's continuing ability to establish a foothold in the highly-concentrated United States shaver market.

The proposed decree requires only that Gillette provide New Company with $2.5 million in equity and assure New Company's solvency during its first five years. (Par. IV

(a)(4)) The decree does not grant New Company use of the valuable Braun or Gillette trade names, and the ostensible patent protection afforded New Company by the assignments and exclusive licenses is more illusory than real.

In Ronson's view, Gillette's commitment of $2.5 million capitalization is inadequate to create a competitive entity which must purchase, promote and distribute a consumer item such as electric shavers heavily advertised at all times in television and print, with seasonal peaks at Christmas, Father's Day, etc. Not only is the amount of capitalization insufficient, but no guidelines or minimum requirements have been set to insure that the $2.5 million will be used in a manner to make the New Company a successful commercial operation.

The proposed judgment's only requirement is that Gillette underwrite New Company's solvency for a period of five years. There is *no* requirement that the operation be *viable* or even *competitive*. For example, there are no requirements during the period of Gillette's ownership that New Company have a minimum working capital after initial expenditures have been made for start-up operations. No guidelines have been set for advertising expenditures to insure a reasonably healthy launch into the U.S. electric shaver market. No requirements have been set as to expenditures for manufacturing facilities and tooling (and plainly the minimum capitalization provided in the proposed judgment is inadequate to establish a manufacturing entity).

At the very most, in Ronson's view, New Company may hope to secure a brief future as a supplier to private label power-buyers such as Sears or Montgomery Ward (which might in itself injure existing U.S. competition through displacement of present U.S. suppliers to such companies). Given those uncertainties, the inadequate financing, lack of effective patent protection, and absence of restraints on Gillette/Braun, Ronson firmly predicts and fully believes that New Company will not even be an attractive acquisition candidate.

Finally, we submit that it is enormously difficult to establish, from the ground up, a competitively viable concern, and we know of no other antitrust decree that has ever previously sought to do so. At many points, the decree implicitly recognizes this by relying on Braun to provide resources and technology for New Company, subject to arbitration claims by New Company if it feels deprived (par. 4(c)). We can be certain that Gillette/Braun will not transfer its best or most imaginative people to New Company, even if these people are willing to place their futures in an untried venture. At best, New Company's management will have to strain against Gillette/Braun for the essentials of its existence and may well spend most of its energy in internal disputes or arbitration proceedings. Indeed, the need for arbitral provisions itself demonstrates the difficulty of attempting to create, by fiat, a new commercial entity out of the financial, technical and human assets of an overwhelming, potential competitor that already dominates the market.

Moreover, since Gillette/Braun may enter the United States market at any time under the Braun or Gillette names, merely by avoiding the patents assigned or exclusively licensed to New Company, neither the public, the trade or the investment and banking community are likely to consider New Company as seriously impacting the highly-concentrated shaver market, dominated by Gillette. So long as Gillette is free, through Braun, or through the technology and know-how it has acquired from Braun, to enter the U.S. electric shaver market, its dominance will inevitably grow.

Ronson believes that the Department has failed to deal with this likelihood. The proposed judgment does not satisfy the pro-competitive objectives that seven years of litigation have sought; it must be substantially modified or withdrawn.

Respectfully submitted,

WALD, HARKRADER & ROSS

By: ROBERT L. WALD

ALEXANDER W. SIERCK,
Counsel for Ronson Corporation.

Manufacture of Controlled Substances; Application

Correction

In FR Doc. 75-25920 appearing at page 44588 in the issue of Monday, September 29, 1975, the heading should read as set forth above.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Colorado 20275]

COLORADO

Pipeline Application

SEPTEMBER 29, 1975.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920 (41 Stat. 449), as amended (30 U.S.C. 185), Western Slope Gas Company, P.O. Box 840, Denver, Colorado 80201, has applied for a right-of-way for a four-inch (4") natural gas gathering pipeline crossing approximately 300 feet of the crossing approximately 300 feet in Rio Blanco County, Colorado.

SIXTH PRINCIPAL MERIDIAN, COLORADO

T. 3 S., R. 101 W.,
Sec. 1

The facility will enable the applicant to construct, operate, and maintain a 4-inch natural gas gathering pipeline to connect an additional natural gas well to applicant's West Douglas-Black Sulphur Natural Gas Transmission Line. The public purpose served by the proposed line is to enable applicant to meet the increasing demands for adequate supplies of natural gas in the Craig and Steamboat Springs, Colorado market area for residential, commercial, and industrial uses.

The purposes of this notice are: to inform the public that the Bureau of Land Management will be proceeding with the preparation of environmental and other analyses necessary for determining whether the application should be approved and, if so, under what terms and conditions; to allow interested parties to comment on the application, and to allow any persons asserting a claim to the lands or having bona fide objections to the proposed natural gas gathering pipeline right-of-way to file their objections in this office. Any person asserting a claim to the lands or having bona fide objections must include evidence that a copy thereof has been served on the applicant.

Any comment, claim, or objections must be filed with the Chief, Branch of Land Operations, Bureau of Land Management, Colorado State Office, Room 700, Colorado State Bank Building, 1600 Broadway, Denver, Colorado 80202, as promptly as possible after publication of this notice.

EVERETT K. WEEDIN,
Chief, Branch of Land Operations.

[Wyoming 52492]

WYOMING

Application

SEPTEMBER 29, 1975.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), Mountain Fuel Supply Company has applied for a natural gas pipeline right-of-way across the following lands:

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 22 N., R. 103 W.,
Sec. 20.

The pipeline will convey natural gas from the Ken Luff 1-17-Champlin well in Sec. 17 to an existing pipeline in Sec. 20, all in T. 22 N., R. 103 W., in Sweetwater County, Wyoming.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved and, if so, under what terms and conditions.

Interested persons desiring to express their views should send their name and address to the District Manager, Bureau of Land Management, P.O. Box 1869, Rock Springs, WY 82901.

PHILIP C. HAMILTON,
Chief, Branch of Lands and Minerals Operations.

[Wyoming 52493]

WYOMING

Application

SEPTEMBER 30, 1975.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), Northwest Pipeline Corporation has applied for a natural gas pipeline right-of-way across the following lands:

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 28 N., R. 113 W.,
Sec. 29;
Sec. 33.

The pipeline will convey natural gas from the Tip Top F-21X-336 well in Sec. 33 to an existing pipeline in Sec. 28, all in T. 28 N., R. 113 W., in Sublette County, Wyoming.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved and, if so, under what terms and conditions.

Interested persons desiring to express their views should send their name and address to the District Manager, Bureau of Land Management, P.O. Box 1869, Rock Springs, WY 82901.

PHILIP C. HAMILTON,
Chief, Branch of Lands and Minerals Operations.

Proposed Reclassification

SEPTEMBER 29, 1975.

Notice of Classification Wyoming 6227 which published in the FEDERAL REGISTER on November 8, 1967 (32 FR 15551, 15552), classified the following described land, totalling 40 acres in Carbon County, Wyoming, for multiple-use management under the Act of September 19, 1964, 43 U.S.C. 1411–18 (1970). The land was segregated from sales under section 2455 of the Revised Statutes, 43 U.S.C. 1171. It has been determined that the classification is no longer appropriate. Accordingly, pursuant to 43 CFR 2400, notice is hereby given that reclassification of the land for sale under the provisions of section 2455 of the Revised Statutes, 43 U.S.C. 1171 (1970) is proposed:

SIXTH PRINCIPAL MERIDIAN

T. 26 N., R. 81 W.,
sec. 25, NE¼NW¼

Interested parties may submit their comments in writing no later than November 10, 1975, to the undersigned official of the Bureau of Land Management, Department of the Interior, P.O. Box 1828, Cheyenne, Wyoming 82001.

JESSE R. LOWE,
Acting State Director.

National Park Service

NATIONAL REGISTER OF HISTORIC PLACES

Additions, Deletions, and Corrections

By notice of the FEDERAL REGISTER of February 4, 1975, Part II, there was published a list of the properties included in the National Register of Historic Places. Further notice is hereby given that certain amendments or revisions in the nature of additions, deletions, or corrections to the previously published list are adopted as set out below.

It is the responsibility of all Federal agencies to take cognizance of the properties included in the National Register as herein amended and revised in accordance with section 106 of the National Historic Preservation Act of 1966, 80 Stat. 915, 16 U.S.C. 470 et seq. (1970 ed.), and the procedures of the Advisory Council on Historic Preservation, 36 CFR Part 800.

The following properties have been added to the National Register since September 2, 1975. National Historic Landmarks are designated by NHL; properties recorded by Historic American Buildings Survey are designated by HABS; properties recorded by Historic American Engineering Record are designated by HAER:

ALABAMA

Mobile County

Mobile, *Battle House Royale*, 26 N. Royal St. (8-19-75)
Mobile, *Gulf, Mobile, and Ohio Passenger Terminal*, Beauregard and St. Joseph Sts. (8-15-75) HABS

ARIZONA

Graham County

Willcox vicinity, *Power's Cabin*, NW of Willcox in Coronado National Forest (8-13-75)

Pinal County

Sacaton, *C. H. Cook Memorial Church*, Church St. (8-28-75)

Yavapai County

Camp Verde vicinity, *Clear Creek Church*, 3.5 mi. SE of Camp Verde (8-6-75)

ARKANSAS

Bradley County

Warren, *Bailey House*, 302 Chestnut St. (8-28-75)

Clay County

Corning, *Sheeks House*, 503 Market St., (8-22-75)

Conway County

Plumerville, *Sims Hotel*, center of Plumerville (8-28-75)
Plummerville vicinity, *Plummer's Station*, S of Plummerville on Gap Creek (8-11-75)

Phillips County

Helena, *Nash-Barlow-Coolidge House*, 917 Ohio St. (8-19-75)

Pulaski County

Little Rock, *Fones House*, 902 W. 2nd St. (8-19-75)
Little Rock, *Fordyce House*, 2115 S. Broadway (8-6-75)

* * * * *

The following property has been removed from the National Register of Historic Places:

MASSACHUSETTS

Middlesex County

Wayland vicinity, *Old Town Bridge*

* * * * *

The following properties have been determined to be eligible for inclusion in the National Register. All determinations of eligibility are made at the request of the concerned Federal Agency under the authorities in section 2(b) and 1(3) of Executive Order 11593 as implemented by the Advisory Council on Historic Preservation, 36 CFR Part 800. This listing is not complete. Pursuant to the authorities discussed herein, an Agency Official shall refer any questionable actions to the Director, Office of Archeology and Historic Preservation, National Park Service, Department of the Interior, for an opinion respecting a property's eligibility for inclusion in the National Register.

Historical properties which are determined to be eligible for inclusion in the National Register of Historic Places are entitled to protection pursuant to the procedures of the Advisory Council on Historic Preservation, 36 CFR Part 800. Agencies are advised that in accord with the procedures of the Advisory Council on Historic Preservation, before an agency of the Federal Government may undertake any project which may have an effect on such a property, the Advisory Council on Historic Preservation shall be given an opportunity to comment on the proposal.

GASCONADE WILD AND SCENIC RIVER STUDY

Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a draft environmental statement regarding the wild and scenic river study of the Gasconade River, Missouri, and invites written comments within forty-five (45) days of this notice. Comments from interested members of the public should be addressed to the Regional Director, Lake Central Region, Bureau of Outdoor Recreation, 3853 Research Park Drive, Ann Arbor, Michigan 48104.

The environmental statement considers the probable impact of establishing 66 miles of the Gasconade River and 52 miles of the Big Piney River as components of the National Wild and Scenic River System. These areas meet the prescribed criteria for "scenic" classification and are recommended for Federal administration by the Forest Service, U.S. Department of Agriculture.

Copies of the draft statement are available for inspection at the following locations:

Office of Information, Bureau of Outdoor Recreation, Room 4427, Department of the Interior, Washington, D.C. 20240. Telephone: (202) 343-5726.
National Forests of Missouri, U.S. Forest Service, Rolla, Missouri 65401.
Maries County Service Center, Belle, Missouri 65013.
Main Library, 311 East 12th Street, Kansas City, Missouri 64152.
Texas County Library, Houston, Missouri 65483.
Kinderhook Regional Library, 105 East Commercial, Lebanon, Missouri 65536.
Office of Regional Director, Bureau of Outdoor Recreation, Lake Central Region, 3853 Research Park Drive, Ann Arbor, Michigan 48104.
Missouri State Park Board, Jefferson Building, Jefferson City, Missouri 65101.
Rolla Public Library, 900 Pine Street, Rolla, Missouri 65401.
Main Library, 1301 Olive Street, St. Louis, Missouri 63103.
Pulaski County Service Center, Waynesville, Missouri 65583.

Single copies are available to the public and may be obtained by writing to the Regional Director, Bureau of Outdoor Recreation, Lake Central Region, 3853 Research Park Drive, Ann Arbor, Michigan 48104. Please refer to the statement number shown above.

Dated: October 1, 1975.

STANEY D. DOREMUS,
Deputy Assistant Secretary of the Interior.

ADVISORY COMMITTEE ON GRAINS—WHEAT, FEED GRAINS AND SOYBEANS

Public Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Advisory Committee on Grains—Wheat, Feed Grains and Soybeans. This meeting will be held on October 22-23, 1975, starting in Room 218-A of the Administration Building, U.S. Department of Agriculture, beginning at 9 a.m. The Grains Committee will meet jointly with the National Cotton Advisory Committee.

This meeting will be to discuss the current domestic and foreign supply-demand situation and the 1976 program outlook. The meeting will be open to the public. Any member of the public may file a written statement with the committee before or within one week following the meeting.

The names of the members of the committee, agenda, summary of the meeting and other information pertaining to the meeting may be obtained from Kenneth T. Benjamin, Director, Grains, Oilseeds and Cotton Division, ASCS, U.S. Department of Agriculture, Room 5741-S, Washington, D.C. 20250.

KENNETH T. BENJAMIN,
Signed at Washington, D.C., on October 1, 1975.

Executive Secretary, Advisory Committee on Grains—Wheat, Feed Grains & Soybeans.

Farmers Home Administration

[Designation Number A124, Amdt. 1]

LOUISIANA

Designation of Emergency Areas

The Secretary of Agriculture has found that a general need for agricultural credit exists in the following parishes in Louisiana:

Bossier Caddo

The Secretary has found that this need exists as a result of a natural disaster consisting of the following:

Bossier—Excessive rainfall November 20, 1974, through April 23, 1975.
Caddo—Excessive rainfall November 20, 1974, through May 15, 1975.

Therefore, the Secretary has designated these areas as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 94-68, and the provisions of 7 CFR 1832.-3(b) including the recommendation of Governor Edwin Edwards that such designation be made.

Applications for Emergency loans must be received by this Department no later than October 20, 1975, for physical losses and May 21, 1976, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 26th day of September, 1975.

FRANK B. ELLIOTT,
Administrator, Farmers Home Administration.

[Docket No. S-467]

PACIFIC FAR EAST LINE, INC.

Application for Approval of Certain Cruises

Notice is hereby given that Pacific Far East Line, Inc., has applied for approval, pursuant to section 613 of the Merchant Marine Act, 1936, as amended, of the following cruises for the carriage of passengers and cargo not in direct competition with other United States flag operators:

Ship	Approximate cruise dates 1976	Area of cruise (all cruises commence and terminate at California)
SS Mariposa..	Feb. 16 to Mar. 5, May 2 to 20, May 21 to June 9, June 10 to 29.	Each cruise, Hawaiian Islands.
	June 30 to July 13, June 14 to July 26, July 27 to Aug. 9.	Each cruise, Alaska and British Columbia.
	Aug. 10 to 28, Oct. 12 to 30, Dec. 14 to Jan. 1 (1977).	Each cruise, Hawaiian Islands.
SS Monterey.	Jan. 22 to Feb. 9, Mar. 24 to Apr. 19, Apr. 20 to May 8, May 9 to 28, May 29 to June 16, June 17 to July 5, July 6 to 24, July 25 to Aug. 12.	Do.
	ug. 13 to 26, Aug. 27 to Sept. 9.	Each cruise, Alaska and British Columbia.
	Sept. 10 to 28, Nov. 18 to Dec. 6.	Each cruise, Hawaiian Islands.

Any person, firm or corporation having any interest in the foregoing, within the meaning of section 613 of the Merchant Marine Act, 1936, as amended, who desires to offer data, views, or arguments should submit the same in writing, in triplicate, to the Secretary, Maritime Subsidy Board, Washington, DC 20230, by the close of business on October 15, 1975.

In the event an opportunity to present oral argument is also desired, specific reason for such request should be included. The Maritime Subsidy Board will consider these comments and views and take such action with respect thereto as in its discretion it deems warranted.

(Catalog of Federal Domestic Assistance Program No. 11.504, Operating-Differential Subsidies (ODS))

Dated: October 2, 1975.

By order of the Maritime Subsidy Board.

Office of the Secretary

REFRIGERATORS, COMBINATION REFRIGERATOR-FREEZERS, AND FREEZERS

Proposed Amendments to Labeling Specifications

Notice is hereby given that the Department of Commerce proposes to amend Voluntary Energy Conservation Specifications Nos. 2-75, 3-75, and 4-75, for refrigerators, combination refrigerator-freezers, and freezers, respectively, which were published in the FEDERAL REGISTER of August 1, 1975 (40 FR 32415), in accordance with the Procedures for a Voluntary Labeling Program for Household Appliances and Equipment to Effect Energy Conservation, 15 CFR Part 9. The three labeling Specifications are to be amended in accordance with Section 10.0 of each Specification.

The proposed amendments consist of minor changes to the figures and modifications to sections 5.1.6 and 5.2.2 in each of the three Specifications. The first amendment is a change in the design of labels for refrigerators, combination refrigerator-freezers, and freezers having anti-sweat heater switches and is intended to produce improved label clarity and readability by making the effect of anti-sweat heater switches more evident and by clarifying the use of the terms "on" and "off." The second amendment is a corresponding change in section 5.1.6 intended to clarify the use of the words "on" and "off" for the anti-sweat heater switches. The third amendment is the addition of several notes to the label drawings and is intended to clarify the printing instructions. The fourth amendment is a change in section 5.2.2 providing manufacturers with the option of attaching labels to the outside of units. The specific changes are:

1. On the label designs shown in Figures 3, 5, and 7 of each of the three Specifications:

a. The phrase "with the Power Saver switch off" is changed to "with Power Saver switch on" and relocated, its type made heavier and changed to capital letters, and its color changed to Pantone Super Warm Red.

b. For the word "NOTE" and the cost of energy value in the note, the type size is increased.

c. For the value of the energy consumption with the Power Saver switch on, the color is changed to Pantone Super Warm Red.

d. In the second sentence of the note, in the column headings in the cost table, and in the energy consumption section, the term "off" is substituted for "on" and the term "on" substituted for "off," so that the terms are employed to indicate that the anti-sweat heater is activated with the Power Saver switch in the "off" position.

2. In section 5.1.6 of each of the three Specifications, the first sentence is revised to read:

In cases where a manufacturer labels his anti-sweat heater switch with nomenclature such as "Economizer" or "Power Economizer," this nomenclature may be substituted for the term "Power Saver" in the note on the label, in the column heading in the cost table, in the line reading "WITH POWER SAVER SWITCH ON," and in the explanations of energy consumption and cost of energy.

The third sentence of Section 5.1.6 is deleted.

3. On Figures 1, 3, 4, 5, 6, and 7 of each of the three Specifications, additional notes describing type sizes and directions regarding color have been placed around the label drawing. These notes and directions are not part of the label design.

4. Section 5.2.2 of each of the three Specifications is revised to read as follows:

a. For Specification 2–75:

The labels specified in 5.1.4 and 5.1.5 shall be attached either to the inside of the refrigerator compartment door or to the outside of the refrigerator. If attached to the inside of the refrigerator compartment door, the labels shall not be obscured by overhanging shelves or protrusions when viewed from a standing position. If attached to the outside of the refrigerator, the labels shall be positioned on the front near the top of the unit, except that for units less than four feet high the labels may as an option be positioned on the top near the front of the unit.

b. For Specification 3–75:

The labels specified in 5.1.4 and 5.1.5 shall be attached either to the inside of the refrigerator compartment door or to the outside of the combination refrigerator-freezer. If attached to the inside of the refrigerator compartment door, the labels shall not be obscured by overhanging shelves or protrusions when viewed from a standing position. If attached to the outside of the combination refrigerator-freezer, the labels shall be positioned on the front near the top of the unit, except that for units less than four feet high the labels may as an option be positioned on the top near the front of the unit.

c. For Specification 4–75:

The labels specified in 5.1.4 and 5.1.5 shall for upright freezers be attached either to the inside of the freezer compartment door or to the outside of the upright freezer. If attached to the inside of the freezer compartment door, the labels shall not be obscured by overhanging shelves or protrusions when viewed from a standing position. If attached to the outside of the upright freezer, the labels shall be positioned on the front near the top of the unit, except that for units less than four feet high the labels may as an option be placed on the top near the front of the unit. The labels specified in 5.1.4 and 5.1.5 shall for chest-type freezers be attached either to the inside of the freezer compartment lid, provided that the lid opens 75° or more, or to the outside of the chest-type freezer. If attached to the outside of the chest-type freezer, the labels shall be positioned either on the top near the front of the unit or on the front near the top of the unit.

The effect of the label design changes, Items 1 and 3 above, is shown in the amended Figure 3 of Energy Conservation Specification No. 3–75; for Combination Refrigerator-Freezers. Because the changes proposed for the other figures referred to are essentially identical to the changes shown, good cause is found that publication of the other amended figures is unnecessary.

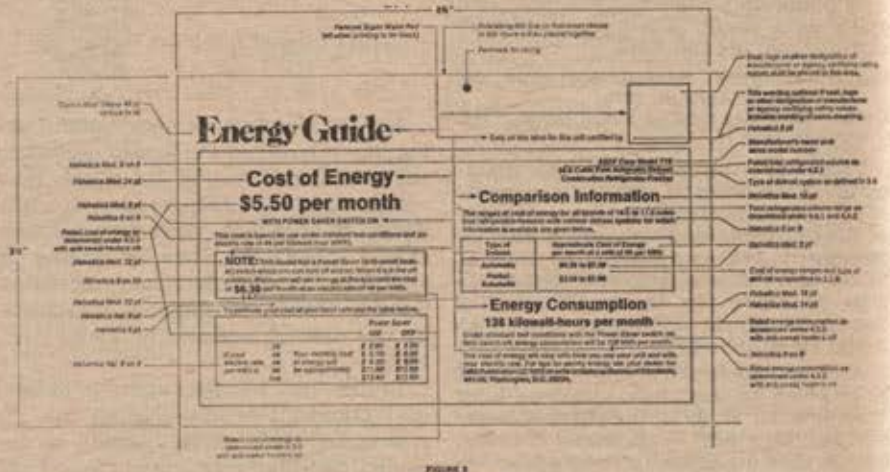

Camera-ready art for the Energy Guide Labels for refrigerators, combination refrigerator-freezers, and freezers will be distributed to interested manufacturers only after the proposed amendments described above have been considered and commented upon by the public and final amendments have been issued. The camera-ready art distributed will reflect the appropriate changes.

Interested persons are invited to comment on the proposed amendments to the Specifications by submitting written comments or suggestions in four copies to the Assistant Secretary for Science and Technology, Room 3862, U.S. Department of Commerce, Washington, D.C. 20230, on or before November 6, 1975.

Suggestions and comments received will be placed in a public document available for examination by interested persons at the Central Reference and Records Inspection Facility of the Department of Commerce, Room 7043, Main Commerce Building, 14th Street between E Street and Constitution Avenue NW., Washington, D.C. 20230.

Issued: October 1, 1975.

BETSY ANCKER-JOHNSON,
Assistant Secretary for Science and Technology.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Center for Disease Control

MEDICAL LABORATORY SERVICES ADVISORY COMMITTEE

Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), the Center for Disease Control announces the following Committee meeting:

Name. Medical Laboratory Services Advisory Committee.

Date. October 16–17, 1975.

Place. Room 207, Building 1, Center for Disease Control, 1600 Clifton Road, N.E., Atlanta, Georgia 30333.

Time. 9 a.m.

Type of meeting. Open: 9 a.m. to 1:30 p.m.—October 16, 1975. Closed: 1:30 p.m.—October 16, 1975, through adjournment, October 17, 1975.

Contact person. Roslyn Q. Robinson, Ph. D., Executive Secretary, Building 1, Room 1007, Center for Disease Control, 1600 Clifton Road, N.E., Atlanta, Georgia 30333. Phone: AC/404 633-3311, Extension 3262.

Purpose. The Committee is charged with advising the Director, Center for Disease Control, on various laboratory matters and proposed regulations, and evaluates the approaches of the Bureau of Laboratories, Center for Disease Control, and recommends revisions or additions.

Agenda. Agenda items for the open portion of the meeting will include announcements, consideration of minutes of previous meeting, and a review of quality control standards for clinical laboratories. During the closed session, beginning at 1:30 p.m. October 16, 1975, through adjournment on October 17, 1975, the Committee will discuss the goals for quality assurance in health laboratories in preparation of Departmental guidelines for a National Health Planning Policy, and will not be open to the public, in accordance with the provisions set forth in Section 552(b)(5), Title 5, U.S. Code, and the Determination by the Director, Center for Disease Control, pursuant to Public Law 92–463.

Agenda items are subject to change as priorities dictate.

The portion of the meeting so indicated is open to the public for observation and participation. A roster of members and other relevant information regarding

the meeting may be obtained from the contact person listed above.

Dated: September 25, 1975.

DAVID J. SENCER,
Director, Center for Disease Control.

National Institutes of Health

ARTERIOSCLEROSIS SPECIALIZED CENTERS OF RESEARCH (SCOR) AD HOC REVIEW COMMITTEE

Establishment

The National Institutes of Health announces the establishment on September 17, 1975, of the public advisory committee, Arteriosclerosis Specialized Centers of Research (SCOR) ad hoc Review Committee, under the authority of section 222 of the Public Health Service Act (42 U.S.C. 217a). This advisory committee shall be governed by the provisions of the Federal Advisory Committee Act (Pub. L. 92-463) setting forth standards governing the establishment and use of advisory committees.

This committee shall advise the Secretary, the Assistant Secretary for Health, and the Director, National Institutes of Health, concerning scientific merit review of competing grant applications and provide technical advice to the National Heart and Lung Advisory Council and to the Director, National Heart and Lung Institute.

Authority for this committee will expire September 30, 1976, unless the Secretary, DHEW, formally determines that continuance is in the public interest.

(Catalog of Federal Domestic Assistance Program No. 13.837, National Institutes of Health)

Dated: September 30, 1975.

DONALD S. FREDRICKSON,
Director,
National Institutes of Health.

CARDIOLOGY ADVISORY COMMITTEE

Meeting

Pursuant to P.L. 92-463, notice is hereby given of the meeting of the Cardiology Advisory Committee, National Heart and Lung Institute, December 2, 1975, National Institutes of Health, Building 31, Conference Room 8.

The entire meeting will be open to the public from 8:30 a.m. to 5 p.m. Topics of discussion will include possible initiatives in the Cardiology programs, recommendations regarding the Report of the Task Force on Cardiovascular Rehabilitation, "Needs and Opportunities for Rehabilitating the Coronary Heart Disease Patient" (DHEW Publication No. NIH 75-750), and plans for Committee advice to the Director, National Heart and Lung Institute, for his annual report. Attendance by the public will be limited to space available.

Mr. York Onnen, Chief, Public Inquiries and Reports Branch, National Heart and Lung Institute, Building 31, Room 5A03, National Institutes of Health, Bethesda, Maryland 20014, phone (301) 496-4236, will provide summaries of the meeting and rosters of the committee members.

Peter L. Frommer, M.D., Associate Director for Cardiology, Division of Heart and Vascular Diseases, National Heart and Lung Institute, Landow Building, Room A922, Bethesda, Maryland 20014, Phone (301) 496-5421, will furnish substantive program information.

Dated: October 1, 1975.

SUZANNE L. FREMEAU,
Committee Management Officer,
National Institutes of Health.

NATIONAL ADVISORY ALLERGY AND INFECTIOUS DISEASES COUNCIL

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the National Advisory Allergy and Infectious Diseases Council, National Institute of Allergy and Infectious Diseases, November 20 and 21, 1975, in Building 31, Conference Room 7, Bethesda, Maryland. This meeting will be open to the public from 9 a.m. to 10:30 a.m. and from 1:30 p.m. to 5 p.m. on November 20, 1975, to discuss administrative reports. Attendance by the public will be limited to space available.

In accordance with the provisions set forth in sections 552(b)(4), 552(b)(5) and 552(b)(6), Title 5, U.S. Code and section 10(d) of Pub. L. 92-463, the meeting of the Council will be closed to the public on November 20 from 10:30 a.m. to 1:30 p.m., and on November 21, from 9 a.m. to adjournment, for the review, discussion, and evaluation of individual initial pending supplemental and renewal grant applications, and applications for National Research Service Awards. The closed portions of the meetings involve solely the internal expression of views and judgments of Council members on individual grant applications containing detailed research protocols, designs, and other technical information; financial data, such as salaries; and personal information concerning individuals associated with the applications.

Mr. Robert L. Schreiber, Chief, Office of Research Reporting and Public Response, National Institute of Allergy and Infectious Diseases, Building 31, Room 7A32, Bethesda, Maryland, telephone (301) 496-5717, will furnish rosters of Council members, a summary of the meeting, and other information pertaining to the meeting.

(Catalog of Federal Domestic Assistance Program Nos. 13.855, 13.856, 13.857, and 13.858, National Institutes of Health)

Dated: October 1, 1975.

SUZANNE L. FREMEAU,
Committee Manager Officer,
National Institutes of Health.

NATIONAL CANCER ADVISORY BOARD AND COMBINED MODALITY COMMITTEE

Meetings

Pursuant to Pub. L. 92–463, notice is hereby given of the meetings of committees advisory to the National Cancer Institute.

These meetings will be open to the public to discuss administrative details or other issues relating to committee business as indicated in the notice. Attendance by the public will be limited to space available. Some of these meetings will be closed as indicated below in accordance with the provisions set forth in sections 552(b)(4) and 552(b)(6) of Title 5, U.S. Code and section 10(d) of Pub. L. 92–463 for the review, discussion and evaluation of individual research contract proposals as indicated. The proposals contain information of a proprietary or confidential nature, including detailed research protocols, designs, and other technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals.

Mrs. Marjorie F. Early, Committee Management Officer, NCI, Building 31, Room 3A16, National Institutes of Health, Bethesda, Maryland 20014 (301/496–5708) will furnish summaries of the meetings and rosters of committee members upon request. Other information pertaining to the meeting can be obtained from the Executive Secretary indicated. Meetings are at the National Institutes of Health, 9000 Rockville Pike, Bethesda, Maryland 20014.

Name of committee. National Cancer Advisory Board Subcommittee on Environmental Carcinogenesis.

Date. November 10–11, 1975.

Place. November 10, Building 37 *Room:* Conference Room 1B04. November 11, Building 31C *Room:* Conference Room 7. National Institutes of Health.

Times. Open for the entire meeting.

Agenda. To consider functional definitions for chemical carcinogens and principles and guidelines for interpreting carcinogenicity data.

Executive Secretary. Dr. W. Gary Flamm.

Address. Building 31 *Room:* 11A05, National Institutes of Health.

Phone. 301/496–5946.

Name of Committee. Combined Modality Committee.

Dates. November 25, 1975, 8:30 a.m.

Place. Building 31C. Room: Conference Room 10, National Institutes of Health.

Times.

Open. November 25, 8:30–9 a.m.

Closed. November 25, 9 a.m.—Adjournment.

Closure reason. To review research contract proposals.

Executive Secretary. Dr. Harry Handelsman.

Address. Building 31, Room 6D28, National Institutes of Health.

Phone. 301/496-1774.

(Catalog of Federal Domestic Assistance Number: 13.825)

Dated: October 1, 1975.

NATIONAL INSTITUTE OF DENTAL RESEARCH; BOARD OF SCIENTIFIC COUNSELORS

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Board of Scientific Counselors, National Institute of Dental Research, National Institutes of Health, Bethesda, Maryland, on October 31, 1975, in Building 30, Conference Room 117.

The entire meeting will be open to the public from 9 a.m. to adjournment, to discuss the research direction and activities of the laboratories of the National Institute of Dental Research. Attendance by the public will be limited to space available.

Dr. Wallace D. Armstrong, Acting Director of Intramural Research, National Institute of Dental Research, National Institutes of Health, Building 30, Room 132, Bethesda, Maryland 20014 (telephone 301-496-1483) will provide summaries of meetings, rosters of committee members, and substantive program information.

Dated: October 1, 1975.

SUZANNE L. FREMEAU,
Committee Management Officer, National Institutes of Health.

[FR Doc.75-26839 Filed 10-6-75;8:45 am]

NATIONAL LIBRARY OF MEDICINE; BOARD OF REGENTS

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Board of Regents of the National Library of Medicine on November 25-26, 1975, in the Board Room of the National Library of Medicine, 8600 Rockville Pike, Bethesda, Maryland, and the meeting of the Extramural Programs Subcommittee of the Board of Regents of the National Library of Medicine on the preceding day, November 24, 1975, from 2 to 5 p.m., in Conference Room "B" of the Library.

The meeting of the Board will be open to the public all day on November 25 and from 9 to 10:30 a.m. on November 26 for administrative reports and program and operation discussions. Attendance by the public will be limited to space available. In accordance with provisions set forth in sections 552(b)(4), 552(b)(5), and 552(b)(6), Title 5, U.S. Code and section 10(d) of Pub. L. 92-463, the entire meeting of the Subcommittee on November 24 will be closed to the public, and the regular Board meeting on November 26 will be closed from 10:30 a.m. to adjournment, for the review, discussion and evaluation of individual initial pending and renewal grant applications. The closed portions of the meetings involve solely the internal expression of views and judgments of committee members on individual grant applications containing detailed research protocols, designs, and other technical information; financial data, such as salaries; and personal information concerning individuals associated with the applications.

Mr. Robert B. Mehnert, Chief, Office of Inquiries and Publications Management, National Library of Medicine, 8600 Rockville Pike, Bethesda, Maryland 20014, Telephone Number: 301-496-6308, will furnish a summary of the meeting, rosters of Board members, and other information pertaining to the meeting.

(Catalog of Federal Domestic Assistance Program Nos. 13.348, 13.349, 13.351, 13.352, 13.353—National Institutes of Health)

Dated: October 1, 1975.

SUZANNE L. FREMEAU,
Committee Management Officer, National Institutes of Health.

PERIODONTAL DISEASES ADVISORY COMMITTEE

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Periodontal Diseases Advisory Committee, National Institute of Dental Research, National Institutes of Health, Bethesda, MD, on November 7, 1975, in Building 31-C, Conference Room 8.

The entire meeting will be open to the public from 9 a.m. to adjournment, for discussions of ongoing and future programs related to periodontal disease. The current status of the project to evaluate NIDR supported periodontal research will be reviewed, and plans for developing new methods of measuring periodontal disease will be resumed. Attendance by the public will be limited to space available.

Dr. Anthony A. Rizzo, Special Assistant to the Associate Director, Extramural Programs, National Institute of Dental Research, National Institutes of Health, Westwood Building, Room 521, Bethesda, MD, 20014 (phone number 301-496-7784) will furnish rosters of committee members, a summary of the meeting, and other information pertaining to the meeting.

PHARMACOLOGY-TOXICOLOGY PROGRAM SYMPOSIUM

Meeting

The Pharmacology-Toxicology Research Program of the National Institute of General Medical Sciences will convene the Fourth Biennial Pharmacology-Toxicology Program Symposium on November 13-14, 1975. The Symposium will provide an opportunity for directors and investigators who are supported by the Pharmacology-Toxicology Program to review and discuss current progress in their research and to exchange information with others in the field. The Symposium will include lectures and workshops in the areas of (1) Covalent Binding and Reactive Metabolites, (2) Drug Levels in Biological Fluids, (3) New Approaches to Toxicology, (4) Perspectives in Developmental Pharmacology, (5) New Methodology and Techniques, (6) Mechanisms of Enzyme Action, and (7) Ethical Considerations in the Use of Human Subjects. In addition, poster paper sessions will be scheduled to encourage an informal exchange of information.

The Symposium will be held at the Statler Hilton Hotel, 16th & K Streets, NW., Washington, D.C., starting at 9 a.m. Attendance by the public will be limited to space available.

For further information please contact Dr. Raymond E. Bahor, NIGMS, Westwood Building, Room 9A03, telephone (301) 496-7707.

PHARMACOLOGY-TOXICOLOGY RESEARCH PROGRAM COMMITTEE

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Pharmacology-Toxicology Research Program Committee, National Institute of General Medical Sciences at 1:30 p.m. on November 12, 1975, at the Statler Hilton Hotel, 16th & K Streets, NW., Washington, D.C.

This meeting will be open to the public for discussion of new perspectives in Pharmacology and Toxicology, and of the Committee report "Accomplishments of the Pharmacology-Toxicology Program," and for the discussion of an administrative site visit of an active research grant.

Mr. Paul Deming, Research Reports Officer, NIGMS, Westwood Building, Room 909, Bethesda, Maryland 20014, Telephone: 301, 496-7301, will provide a summary of the meeting and a roster of committee members.

Substantive program information may be obtained from Dr. Raymond E. Bahor, Executive Secretary, Westwood Building, Room 9A03, Bethesda, Maryland 20014, Telephone: 301, 496–7707.

(Catalog of Federal Domestic Assistance Program 13–859, Pharmacology-Toxicology Program, National Institute of General Medical Sciences, National Institutes of Health)

RECOMBINANT DNA MOLECULE PROGRAM ADVISORY COMMITTEE

Meeting

Pursuant to Pub. L. 92–463, notice is hereby given of the meeting of the Recombinant DNA Molecule Program Advisory Committee on December 4–5, 1975, Calypso Room, La Valencia Hotel, La Jolla, California 92037.

The entire meeting will be open to the public each day from 9 a.m. to adjournment to discuss: guidelines for research involving recombinant DNA molecules, the status of research in the field, research studies required, the mechanisms by which such studies should be supported, and the identification of facilities and resources needed in their performance. Attendance by the public will be limited to space available.

Dr. William J. Gartland, Executive Secretary, National Institutes of Health, Westwood Building, Room 920, Bethesda, Maryland 20014, telephone (301) 496–7714, will provide summaries of the meeting, rosters of committee members and substantive program information.

Dated: October 1, 1975.

VIRUS CANCER PROGRAM SCIENTIFIC REVIEW COMMITTEE A, ET AL.

Meeting

Pursuant to Pub. L. 92–463, notice is hereby given of the meetings of committees advisory to the National Cancer Institute.

These meetings will be open to the public to discuss administrative details or other issues relating to committee business as indicated in the notice. Attendance by the public will be limited to space available: Some of these meetings will be closed as indicated below in accordance with the provisions set forth in sections 552(b)(4) and 552(b)(6) of Title 5, U.S. Code and section 10(d) of Pub. L. 92–463 for the review, discussion and evaluation of individual research contract proposals as indicated. The proposals contain information of a proprietary or confidential nature, including detailed research protocols, designs, and other technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals.

Mrs. Marjorie F. Early, Committee Management Officer, NCI, Building 31, Room 3A16, National Institutes of Health, Bethesda, Maryland 20014 (301/496–5708) will furnish summaries of the meetings and rosters of committee members upon request. Other information pertaining to the meeting can be obtained from the Executive Secretary indicated. Meetings are at the National Institutes of Health, 9000 Rockville Pike, Bethesda, Maryland 20014 unless otherwise stated.

Name of Committee. Virus Cancer Program Scientific Review Committee A.
Dates. November 2, 1975, 2:00 p.m.
Place. Hershey Motor Lodge, Hershey, Pennsylvania.

ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

[ERDA-PR Temporary Regulation No. 12]

INTERIM SOURCE EVALUATION AND SELECTION HANDBOOK

Temporary Regulation

AUGUST 28, 1975.

NOTE.—At the request of the Energy Research and Development Administration, ERDA-PR Temporary Regulation No. 12, originally published September 12, 1975 (40 FR 42393), is republished. Temporary regulation No. 12 was issued too late to be included with the republication of the ERDA Procurement Regulations, Part II of this issue, beginning on page ___. Since ERDA-PR Temporary Regulation is still in full force and effect, it is republished to read as set forth below.

1. *Purpose:* A draft handbook on evaluation and selection of sources is to be used in selected situations so that the final handbook, when issued, will have the benefit of lessons learned from that use. The following instructions describes how this interim draft is to be used and how it relates to present coverage of evaluation boards in the ERDA-PR.

2. *Effective date:* This regulation becomes effective September 12, 1975.

3. *Expiration date:* This regulation will remain in effect until cancelled or until its provisions are incorporated into a permanent ERDA-PR. The Interim Handbook will be revised in October based on experience to that time, and reissued as a numbered publication. Appropriate changes in the ERDA-PR also will be published concurrently.

4. *Explanation of change:*

a. The procedures in the Interim ERDA Handbook on Source Evaluation and Selection (April 23, 1975), as amended, will be followed in making selections in competitively negotiated procurements expected to exceed $5,000,000. The policy on use is stated in paragraph 803 of the Handbook.

b. Use of procedures of ERDA-PR9-56 for procurements over $5,000,000 is suspended as of this date.

5. *Authority:* Sec. 105 of the Energy Reorganization Act of 1974 (P.L. 93-438).

[SEAL] JOSEPH L. SMITH,
Director of Procurement.

ROCKY FLATS PLANT SITE Trespassing on Administration Property; Correction

In FR Doc. 75-22677 appearing at page 38187 in the FEDERAL REGISTER of Wednesday, August 27, 1975, the second paragraph beginning after "as follows:" is corrected to read as follows:

Notice is hereby given that the Energy Research and Development Administration, pursuant to section 229 of the Atomic Energy Act of 1954, as amended, and section 104 of the Energy Reorganization Act of 1974, as implemented by 10 CFR Part 860 published in the FEDERAL REGISTER on July 9, 1975 (40 FR 28789, 28790) prohibits the unauthorized entry, as provided in 10 CFR 860.3, and the unauthorized introduction of weapons or dangerous materials, as provided in 10 CFR 860.4, into and upon the Rocky Flats Plant Site of the Energy Research and Development Administration, said site being a tract of land located in Jefferson County, Colorado, the aforesaid tract being more particularly described as follows:

Dated: September 30, 1975.

A. D. STARBIRD,
Assistant Administrator for National Security.

FISONS CORP.

Issuance of Experimental Use Permit; Correction

In FR Doc. 75-24231 appearing at page 42395 in the issue of September 12, 1975, the following change should be made.

In the first sentence of the second paragraph, the chemical name should be "2-ethoxy-2,3-dihydro-3,3-dimethyl-5-benzofuranyl methanesulfonate" instead of "2 - ethoxy-2,3-dihydro-3,3-dimethyl-5-benzofuranyl".

Dated: October 1, 1975.

[FRL 440-5; OPP—180054]

OKLAHOMA STATE DEPARTMENT OF AGRICULTURE

Specific Exemption To Use Sodium Chlorate for Desiccation of Mung Beans

Pursuant to the provisions of section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136), notice is hereby given that the Environmental Protection Agency (EPA) has granted a specific exemption to the Oklahoma State Department of Agriculture (hereafter referred to as the "Applicant") to use a sodium chlorate formulation as a harvest aid for desiccation of mung beans in twenty counties in western Oklahoma. This exemption was granted in accordance with, and is subject to, the provisions of 40 CFR Part 166, issued December 3, 1973 (38 FR 33303), which prescribes requirements for exemption of Federal and State agencies for use of pesticides under emergency conditions.

This notice contains a summary of certain information set forth in the application. For more detailed information, interested parties are referred to the application on file with the Registration Division (WH-569), Office of Pesticide Programs, EPA, 401 M St., SW., Room E-315, Washington, D.C. 20460.

Some 30,000 acres of mung beans (*Phaseolus aureus*) were planted in western Oklahoma on wheat land immediately after wheat harvest; excessive rainfall in 1975 after the planting of the mung beans brought on an abundance of vegetative growth on the beans themselves, as well as a heavy growth of weeds and grasses. Mung beans are usually planted in wheat stubble without additional seed bed preparation, because in the process of disking or plowing, a great deal of necessary soil moisture is lost. To conserve soil moisture, the farmers delete tillage practices which in effect ruled out

the use of pre-emergence herbicides which must be disked into the soil. Mechanical tillage could not be used in this case because of the excessive soil moisture and the inability of the farmers to get into the wet fields. There appeared to be no viable alternative efficacious registered pesticides nor alternative methods of control available.

Therefore, the Applicant requested permission to use approximately 120,000 pounds of actual sodium chlorate to desiccate 20,000 acres of growing mung beans and any grasses and weeds present in the bean field. This treatment will prevent formation of a very destructive mold on the stored beans which would occur if green foliage were harvested with the mung beans. The pesticide will be applied aerially at the rate of 6.0 pounds of dry chemical mixed with water per acre. The Applicant will supervise all treatment and will maintain records on the locations where treatments were applied, pesticide quantity used, and other pertinent information. The counties listed for possible treatment are: Alfalfa, Beckham, Blaine, Caddo, Canadian, Custer, Dewey, Ellis, Garfield, Grant, Greer, Harmon, Jackson, Kingfisher, Kiowa, Major, Roger Mills, Washita, Woods, and Woodward.

Oklahoma produces three-quarters (¾) of the national mung bean crop. The current bean crop is worth approximately $3,750,000 to the growers. If the sodium chlorate harvest aid is not used, the quality of the crop will be reduced by one-third (⅓), resulting in a loss of approximately $1,250,000. Since the pesticide oxidizes rapidly into sodium chloride, a harmless salt, no adverse effects on man are anticipated. The Fish and Wildlife Service of the U.S. Department of the Interior reports that no adverse effects on fish and wildlife populations should occur from the application of the sodium chlorate formulation to mung beans.

After reviewing the application and other relevant information, EPA has determined that (a) there is no pesticide presently registered and available for use to control the mung bean situation in western Oklahoma; (b) there are no alternative means of control, taking into account the efficacy and hazard; (c) significant economic problems may result if the situation is not controlled; and (d) the time available for action to mitigate the problems posed is insufficient for a pesticide to be registered for this use. Accordingly, the Applicant has been granted a specific exemption to use the pesticide noted above until November 30, 1975, to the extent and in the manner set forth in the application. The specific exemption is also subject to the following restrictions:

(1) The dosage rate shall not exceed 6.0 pounds per acre of actual sodium chlorate;

(2) The total actual sodium chlorate used shall not exceed 120,000 pounds;

(3) The treated acreage shall not exceed 20,000 acres;

(4) The counties to be treated are limited to those listed in this notice;

(5) Treated fields are not to be grazed within 14 days after application;

(6) Treated forage, fodder, or residual seeds are not to be used for livestock feed within 14 days after application;

(7) The Applicant must supervise aerial applications to avoid or minimize drift to non-target areas;

(8) The Applicant is responsible for collecting data on this program and working with a manufacturer to obtain EPA registration of a suitable product;

(9) Personnel of EPA Region VI shall be informed of the times and places of sodium chlorate applications;

(10) Use must be limited to sodium chlorate formulations without fire-retardants or with only urea as the fire-retardant; and

(11) It has been determined that residues resulting from use of sodium chlorate on mung beans will be adequate to protect the public health. The Food and Drug Administration, Department of Health, Education, and Welfare, has been advised of the action, since there is no formal exemption from tolerances for residues of this pesticide in or on mung beans. Mung beans treated in accordance with this accepted program may be entered in interstate commerce.

It should be noted that if the Administrator determines that the Applicant is not complying with the requirements set forth or if such action is necessary to protect man or the environment, the exemption shall be immediately withdrawn.

Dated: October 1, 1975.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

SHELL CHEMICAL CO.

Filing of Pesticide Petitions

Shell Chemical Co., Suite 200, 1025 Connecticut Ave. NW, Washington DC 20036, has submitted a petition (PP6F1675) to the Environmental Protection Agency (EPA) which proposes that 40 CFR 180.299 be amended to establish a tolerance for residues of the insecticide dimethyl phosphate of 3-hydroxy-N,N-dimethyl - cis - crotonamide in or on the raw agricultural commodities wheat and sorghum grain at 0.05 part per million. The proposed analytical method for determining residues is an infrared spectrophotometric procedure.

Notice of this submission is given pursuant to the provisions of section 408(d)(1) of the Federal Food, Drug, and Cosmetic Act. Interested persons are invited to submit written comments on the petition referred to in this notice to the Federal Register Section, Technical Services Division (WH-569), Office of Pesticide Programs, Environmental Protection Agency, 401 M Street SW, Washington DC 20460. Three copies of the comments should be submitted as soon as possible and should bear a notation indicating the petition number "PP 6F1675". Comments may be made at any time while a petition is pending before the Agency. All written comments filed pursuant to this notice will be available for public inspection in the office of the Federal Register Section from 8:30 a.m. to 4:00 p.m. Monday through Friday.

Dated: October 1, 1975.

DOUGLAS D. CAMPT,

FEDERAL ENERGY ADMINISTRATION

COAL INDUSTRY ADVISORY COMMITTEE

Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770), notice is hereby given that the Coal Industry Advisory Committee will meet Wednesday, October 29, 1975 at 10 a.m., Conference Room B, Departmental Auditorium, Constitution Avenue between 12th & 14th Streets NW., Washington, D.C.

The Committee was established to assist the Administrator, FEA, in encouraging the expansion of a readily-usable energy source—coal—and maintaining a fair and reasonable consumer price for such supplies subject to the Federal Energy Administration Act of 1974. The Committee shall also advise on technical and economic factors affecting the coal industry.

The agenda for the meeting is as follows:

1. Status of Energy Independence Authority (EIA) and other Federal Policies.
2. Substituting Coal for Natural Gas in Small Industries.
3. ESECA Progress Report.
4. Western Coal Development Review.
5. Problems in Anthracite Mining.

The meeting is open to the public. The Chairman of the Committee is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the Committee will be permitted to do so, either before or after the meeting. Members of the public who wish to make oral statements should inform Lois Weeks, Advisory Committee Management Officer, (202) 961-7022 at least five days before the meeting and reasonable provision will be made for their appearance on the agenda.

Further information concerning this meeting may be obtained from the Advisory Committee Management Office.

Minutes of the meeting will be made available for public inspection at the Federal Energy Administration, Washington, D.C.

Issued at Washington, D.C., on October 1, 1975.

ROBERT E. MONTGOMERY, Jr.,
General Counsel.

[FR Doc.75-26849 Filed 10-2-75;8:45 am]

RETAIL DEALERS ADVISORY COMMITTEE

Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Public Law 92-463, 86 Stat. 770), notice is hereby given that the Retail Dealers Advisory Committee will meet Tuesday, October 28, 1975, at 9:30 a.m., Federal Building, Auditorium—4th floor, 915 2nd Avenue, Seattle, Washington.

The Committee was established to provide the Administrator, FEA, with technical and timely information on a wide range of activities associated with the retail sale of gasoline/diesel fuel.

The agenda for the meeting is as follows:

1. Discussion of the Extension of the Emergency Petroleum Allocation Act
2. Discussion of Dealers' Day in Court
3. Discussion of Rents and Leases
4. Remarks from the Floor (10 Minute Rule)

The meeting is open to the public. The Chairman of the Committee is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the Committee will be permitted to do so, either before or after the meeting. Members of the public who wish to make oral statements should inform Lois Weeks, Director, Advisory Committee Management at (202) 961-7022 at least five days before the meeting and reasonable provision will be made for their appearance on the agenda.

Further information concerning this meeting may be obtained from the Advisory Committee Management Office.

Minutes of the meeting will be made available for public inspection at the Federal Energy Administration, Washington, D.C.

Issued at Washington, D.C. on October 1, 1975.

ROBERT E. MONTGOMERY, Jr.,
General Counsel.

[Independent Ocean Freight Forwarder License No. 1130]

HEMISPHERE AIR FREIGHT, INC.

Order of Revocation

On September 26, 1975, Hemisphere Air Freight, Inc., P.O. Box 666, Jamaica, New York 11430 voluntarily surrendered its Independent Ocean Freight Forwarder License No. 1130 for revocation.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 201.1 (Revised) § 5.01(b) (dated June 30, 1975);

It is ordered, That Independent Ocean Freight Forwarder License No. 1130 issued to Hemisphere Air Freight, Inc. be and is hereby revoked effective September 26, 1975, without prejudice to reapply for a license at a later date.

It is further ordered, That a copy of this Order be published in the FEDERAL REGISTER and served upon Hemisphere Air Freight, Inc.

LEROY F. FULLER,
Director, Bureau of Certification & Licensing.

FEDERAL POWER COMMISSION

[Docket No. E-7440; Project Nos. 2165, 2203]

ALABAMA WATER IMPROVEMENT COMMISSION AND ALABAMA POWER CO.

Extension of Time

SEPTEMBER 29, 1975.

On September 22, 1975, Alabama Water Improvement Commission and Alabama Power Company filed motions to extend the time for filing comments on the Draft Environmental Impact Statement (DEIS) issued on August 15, 1975, in the above-designated proceeding.

Notice is hereby given that the time for filing comments on the DEIS in the above proceeding is extended for all parties to and including October 31, 1975.

MARY KIDD PEAK,
Acting Secretary.

[FR Doc.75-26814 Filed 10-6-75;8:45 am]

[Docket No. CP76-85]

ALGONQUIN GAS TRANSMISSION CO. AND TEXAS EASTERN TRANSMISSION CORP.

Application

SEPTEMBER 29, 1975.

Take notice that on September 12, 1975, Algonquin Gas Transmission Company (Algonquin), 1284 Soldiers Field Road, Boston, Massachusetts 02135, and Texas Eastern Transmission Corporation (Texas Eastern), P.O. Box 2521, Houston, Texas 77001, jointly Applicants, filed in Docket No. CP76-85 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation and exchange of natural gas by displacement for The Brooklyn Union Gas Company (Brooklyn Union), all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicants request authorization to exchange and transport natural gas from November 1, 1975, through April 30, 1976. It is stated that under the proposed service, Boston Gas Company (Boston) would release volumes of gas to Algonquin at Boston, Massachusetts; Algonquin would, by displacement, transport and deliver equivalent volumes of gas to Texas Eastern at their Hanover, New Jersey, delivery point; and Texas Eastern would by displacement transport and deliver equivalent volumes of gas to Brooklyn Union. The proposed service would be for the accommodation of deliveries of vaporized liquefied natural gas (LNG) to Brooklyn Union purchased from Distrigas of Massachusetts Corporation. The stated cost of the proposed service to Brooklyn Union is 15.0 cents per million Btu of gas delivered by Algonquin. Deliveries are anticipated not to exceed 35 billion Btu per day in November and December and 15 billion Btu per day thereafter, with total deliveries estimated at 2.4 trillion Btu.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 14, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition

for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

MARY KIDD PEAK,
Acting Secretary.

[FR Doc.75-26815 Filed 10-6-75;8:45 am]

[Docket No. RI76-28]

ARKANSAS LOUISIANA GAS CO. AND FRANK J. HALL, ET AL.

Petition for Declaratory Order

SEPTEMBER 26, 1975.

Take notice that on September 11, 1975, Arkansas Louisiana Gas Company (Arkla), Post Office Box 1734, 321 Slattery Building, Shreveport, Louisiana 71151, filed a petition for a declaratory order under the Natural Gas Act in Docket No. RI76-28. Arkla states that Respondents sell natural gas to it from the Sligo Gas Field, Bossier Parish, Louisiana under a written agreement dated January 11, 1952, which is on file with the Commission as Respondents' FPC Gas Rate Schedule No. 4.

Arkla is seeking a declaratory order that the "favored-nations" clause in the January 11, 1952 contract was not triggered by certain royalty payments made to the United States of America by Arkla with respect to natural gas production in which Arkla has an interest in the Sligo Gas Field. Arkla contends that such royalty payments did not and will not constitute a "purchase from another party seller [of] gas produced from a well or wells located in the Sligo Gas Field."

Arkla states that the Respondents have brought suit against it in the First Judicial District Court, Caddo Parish, Louisiana, claiming that because of the royalty payments at a rate higher than they are collecting under FPC Gas Rate Schedule No. 4, Arkla has triggered the favored-nations provision in their FPC Gas Rate Schedule No. 4 and has incurred substantial liabilities to them at a higher rate for the gas purchased from them under that rate schedule.

Any person desiring to be heard or to make any protest with reference to said petition should on or before October 20, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's rules.

MARY KIDD PEAK,
Acting Secretary.

[Docket No. RI74-144]

AZTEC OIL AND GAS CO.

Further Extension of Procedural Dates

SEPTEMBER 29, 1975.

On September 19, 1975, Aztec Oil and Gas Company filed a motion to extend the procedural dates set by order issued January 27, 1975, as most recently modified by order issued September 9, 1975.

Notice is hereby given that the procedural dates in the above proceeding are modified as follows:

Service of Company Testimony, October 14, 1975.
Service of Staff Testimony, November 11, 1975.
Service of Intervenor Testimony, November 25, 1975.
Service of Company Rebuttal, December 9, 1975.
Hearing, December 16, 1975 (10 a.m., e.s.t.).

By direction of the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-26816 Filed 10-6-75;8:45 am]

[Docket No. CP76-93]

CENTRAL ILLINOIS LIGHT CO.

Application

SEPTEMBER 30, 1975.

Take notice that on September 18, 1975, Central Illinois Light Company (Applicant), 300 Liberty Street, Peoria, Illinois 61602, filed in Docket No. CP76-93 an application pursuant to section 1(c) of the Natural Gas Act for a declaration that Applicant is exempt from the provisions of the Natural Gas Act, all as more fully set forth in the application of file with the Commission and open to public inspection.

The application states that Applicant purchases natural gas from Panhandle Eastern Pipe Line Company, Trunkline Gas Company, Midwestern Gas Transmission Company, and Natural Gas Pipeline Company of America and that Panhandle Eastern Pipe Line Company supplies approximately 97 percent of Applicant's contract requirements. Applicant further states that all gas sold by it is received and consumed within the State of Illinois and that the rates, service and facilities of Applicant are subject to regulation by and are regulated by the Illinois Commerce Commission.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 23, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-26804 Filed 10-6-75;8:45 am]

[Docket No. RP76-13]

CITIES SERVICE GAS CO.

Proposed Changes in Gas Tariff

SEPTEMBER 29, 1975.

Take notice that Cities Service Gas Company (Cities Service) on September 22, 1975, tendered for filing proposed changes in its FPC Gas Tariff, Second Revised Volume No. 1, consisting of the following tariff sheets:

Thirteenth Revised Sheet PGA-1
Original Sheet Nos. 37H, 37I, 37J, 37K, 37L, and 37M

Cities Service states that the filing proposes an increase above its presently effective rates which would increase revenues from jurisdictional sales by $20,175,304, based on the test period (the twelve months ended May 31, 1975, adjusted for known changes through February 29, 1976).

Cities Service state that the increased rates are required to reflect a rate of return of 12 percent, an increase in its composite book depreciation rate to 4.45 percent, additional advance payments to producers for natural gas supplies, increases in plant and related cost of service items, increases in the cost of materials, supplies, wages and services, increases in ad valorem, payroll, franchise and state income taxes, and a reduction in gas purchase and sales volumes.

Cities Service's filing also includes in its General Terms and Conditions a new Article 22 and a new Article 23 containing, respectively, a research and development rate adjustment provision and an advance payments rate adjustment provision.

Cities Service proposes an effective date of October 23, 1975, and states that copies of this filing were served on each of its customers and affected state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 10, 1975. Protests will be

considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

MARY KIDD PEAK,
Acting Secretary.

[Projetc No. 796; Docket No. E-9305]

CITY OF PHOENIX, ARIZONA ET AL.

Postponement of Prehearing Conference

SEPTEMBER 26, 1975.

On September 23, 1975, the City of Phoenix and Salt River Project Agricultural Improvement and Power District filed a motion to postpone the date of the prehearing conference set by order issued June 17, 1975, as most recently modified by notice issued August 14, 1975, in the above-designated proceeding.

Notice is hereby given that the prehearing conference in the above proceeding is postponed from September 30, 1975, to October 29, 1975.

MARY KIDD PEAK,
Acting Secretary.

[FR Doc.75-26812 Filed 10-6-75;8:45 am]

[Docket Nos. RP72-122 (PGA76-1), RP75-86]

COLORADO INTERSTATE GAS CO.

Order Accepting for Filing and Suspending Proposed Rates, Subject to Conditions, Granting Interventions, Establishing Hearing Procedures, Instituting Investigation Under Natural Gas Act and Consolidating Proceedings

SEPTEMBER 29, 1975.

Colorado Interstate Gas Company (CIG) filed alternate rates in substitution for rates suspended until October 1, 1975, in Docket No. RP75-86 and a modification of its PGA clause (PGAC). The filing contains suspended rates, as adjusted to include PGA rate adjustments made effective subsequent to the filing of the general increase in RP75-86, plus a semi-annual rate adjustment to be effective October 1, 1975.[1] The lower alternate rates[2] were filed in the event of a one-day suspension of the higher rates due to small producer purchases in excess of the national rate in Opinion No. 699-H. The revision of the PGAC modifies the manner in which the average gas cost thereunder is computed by eliminating certain purchases used in such computation.

CIG's filing was noticed on August 21, 1975, with comments due on or before September 9, 1975. Petitions to intervene were received from Natural Gas Pipeline Company of America (Natural) and the City of Colorado Springs, Colorado (Colorado Springs).

The proposed modification of the PGAC changes the method for computing changes in cost of gas. At present changes are computed on the basis of a pooled gas supply. The adjustment would exclude from the pooled supply any purchases that "* * * are to be resold pursuant to gas purchase and exchange agreements, the intent of which is to make gas supply volumes available to CIG that are not readily adjacent to CIG's present pipeline system; such sales shall hereafter be referred to as 'Special Off-System'." The purchases excluded are volumes sold at CIG's purchase price to the gatherer or transporter as partial consideration for the gathering and transportation service rendered CIG. Our review of CIG's proposed modification indicates that it is reasonable and appropriate and within the intent of Order No. 452, as amended. Accordingly we shall accept the proposed modification to become effective October 1, 1975, as proposed.

Our review of CIG's proposed rates indicates that they reflect (1) approximately 3,629,000 Mcf of new gas supplies that are pending Commission certification; (2) the base rates include costs related to non-certificated facilities which were required to be removed by the Commission's suspension order issued on April 30, 1975, in Docket No. RP75-86 if such facilities were not certified and in service by October 1, 1975; (3) small producer rates in excess of the rate levels resulting from the "130% formula" prescribed by Opinion No. 742; and (4) certain Colorado producer purchases alleged to be "intrastate" and whose jurisdictionality is currently pending in the show cause proceedings in Docket Nos. CP75-323 and CP75-300. Accordingly, CIG's proposed rates have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, preferential, or otherwise unlawful. Therefore, we shall suspend CIG's proposed rates for one day until October 2, 1975, when they shall become effective, subject to refund, as hereinafter ordered and conditioned.

CIG, in computing its October 1 rate adjustment, included approximately 3,629,000 Mcf of new gas supplies which are still pending Commission certification, and has requested waiver of its PGAC (§ 21.31(a)).[3] In regards to said gas, CIG has submitted the following statement:

"CIG did not exclude these new supplies from the calculations contained herein because alternate sources of supply of such nominal amount are available to CIG's system. In any event, had the new supplies been excluded without replacement, the revenue increase sought herein would have been increased by $167,000." The increase occurs because CIG did not replace such volumes and assumed reduced non-jurisdictional sales with a corresponding increase in CIG's jurisdictional percent from 84.96 percent to 85.61 percent.

Our review of CIG's requested waiver indicates good cause has been shown for waiver of § 21.31(a) of their PGA clause. Accordingly, we shall grant CIG's request for waiver of their PGA clause and permit them to collect costs associated with these supplies, subject to refund, as hereinafter provided.

With regard to the costs associated with facilities which have not been certificated and in service by October 1, 1975, CIG shall file revised rates reflecting elimination of costs associated with such facilities.

With regard to the issue of small producers, we shall establish hearing procedures to determine the just and reasonable rate levels of those small producer purchases to be included in CIG's filing in excess of the rate levels resulting from use of the "130 percent formula" prescribed in Opinion No. 742.[4] In this connection, we believe it appropriate to make the small producers involved respondents so that they may present evidence to show that the rates charged by him to CIG are just and reasonable. Although, the small producers are not required to make refunds, we believe it appropriate to institute a section 5 investigation against the small producers involved so that the just and reasonable small producer rate determined in this proceeding can be applied prospectively to the small producer involved.

Within 15 days of the date of this order, CIG shall file a list of the small producers making sales reflected in the instant filing in excess of the "130% formula" rates in order that they may be made respondents to this proceeding.

Cost evidence relating to the small producer sales which are the subject of the hearing ordered herein can clearly provide the basis for "just and reasonable" rate findings. "F.P.C. v. Texaco, Inc.," 417 U.S. 380 (1974). Accordingly, we shall require the small producer respondents to submit cost evidence in order that we may determine the justness and reasonableness of CIG's rates and make appropriate prospective adjustments, if found necessary, to the small producer rates pursuant to our authority under Section 5 of the Natural Gas Act.

CIG must show that the rate paid by CIG to the small producer is just and reasonable by presenting evidence considering all relevant factors including, inter alia, (1) the pipeline's need for gas,

[1] Substitute Thirteenth Revised Sheet Nos. 5 and 6, First Revised Sheet Nos. 64, 65, 67 and 67A, Original Sheet No. 67B and Eleventh Revised Sheet No. 66 to Second Revised Volume No. 1.

[2] Substitute Thirteenth Revised Sheet Nos. 5 and 6, and Fourteenth Revised Sheet Nos. 5 and 6 to Second Revised Volume No. 1.

[3] Section 21.31(a) allows CIG to use estimated volumes and prices for new gas supplies which have been certified by the Commission and are expected to be connected during the year.

[4] —— FPC —— issued August 28, 1975, in Docket No. R-393.

(2) the availability of other gas suppliers, (3) the amount of gas dedicated under the contract, (4) the rates of other recent small producer sales previously approved for flow through and (5) comparison with appropriate market prices.[5]

Finally, the parties may submit any other evidence relevant to the Commission's determination of whether the rates paid by the pipeline with respect to sales under Opinion No. 742 are just and reasonable.

Our review of those claimed increased purchased gas costs contained in CIG's filing, other than those claimed increased costs associated with that portion of small producer purchases in excess of the rate levels prescribed by the "130% formula" prescribed in Opinion No. 742, indicates that they should be approved as being in compliance with the standards set forth in Docket No. R-406. Accordingly, we shall permit CIG to file revised tariff sheets to become effective October 1, 1975, reflecting the costs in CIG's filing which are in conformance with Docket No. R-406, as indicated above.[6]

With regard to certain Colorado producer purchases alleged to be "intrastate" and whose jurisdictionality is currently pending in the show cause proceedings in Docket Nos. CP75-323 and CP75-300, we shall permit CIG to collect these costs, subject to refund, pending the outcome of the proceedings in Docket Nos. CP75-300 and CP75-323.

We grant intervention in these proceedings to Natural Gas Pipeline Company of America and the City of Colorado Springs, Colorado.

The Commission finds. (1) It is necessary and appropriate to aid in the enforcement of the Natural Gas Act that hearing procedures be established, as hereinafter ordered and conditioned, and that CIG's higher alternate rates be accepted for filing and suspended for one day until October 2, 1975, when they shall become effective, subject to refund, as hereinafter conditioned.

(2) The claimed increased purchased gas costs in CIG's higher alternate rate filing, other than those claimed increased costs associated with that portion of small producer purchases in excess of the "130 percent formula" prescribed in Opinion No. 742, are in compliance with the standards set forth in Docket No. R-406, except as noted below.

(3) Good cause exists to grant waiver of CIG's PGAC to allow collection in the proposed rates of the costs associated with the 3,629,000 Mcf of new gas supplies, which are still pending Commission certification, subject to refund, as hereinafter provided.

(4) The costs associated with facilities not certificated and in service by October 1, 1975, shall be eliminated from the proposed base rates as directed by the Commission's suspension order in Docket No. RP75-86, issued April 30, 1975.

(5) CIG's proposed modification of its PGAC is reasonable, appropriate, and within the intent of Order No. 452 as amended; and the proposed modification should be accepted for filing, to become effective October 1, 1975.

(6) Good cause exists to grant the intervention of the above-named petitioners.

The Commission orders. (A) CIG's revised higher alternate tariff sheets are accepted for filing and suspended for one day to become effective October 2, 1975: *Provided,* That CIG, within 15 days, files revised tariff sheets reflecting elimination of the costs in the base rate related to non-certificated facilities that are not certified and in service by October 1, 1975. Any moneys collected between the effective date of October 2, 1975, and the date of filing of these eliminations shall be refunded by CIG at 9% interest.

(B) Pursuant to the authority of the Natural Gas Act, particularly Sections 4, 5, 7, 14 and 16 thereof, a public hearing shall be held on January 13, 1976 at 10:00 a.m., in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, to determine the lawfulness of CIG's proposed higher alternate PGA rates insofar as those proposed rates reflect small producer purchases in excess of the "130 percent formula" prescribed in Opinion No. 742.

(C) Within 15 days of the date of this order, CIG shall file with the Commission a list, including addresses, of the parties from whom CIG purchases gas involved in the small producer sales set for hearing above. Following receipt of this list, we shall make these parties respondents to this investigation for the purposes discussed in the body of this order.

(D) Pursuant to Section 5 of the Natural Gas Act, we hereby institute an investigation into the just and reasonable rate to be charged by the small producer making sales to CIG in excess of the rates resulting from the "130 percent formula" prescribed in Opinion No. 742 and consolidate this investigation with the hearing ordered in Ordering Paragraph (B) above for the purposes of hearing and decision.

(E) CIG, and the parties from whom CIG makes the subject small producer purchases, shall file their direct testimony and evidence on or before November 4, 1975. Any evidence by the Commission Staff or any intervenor shall be filed on or before December 2, 1975. Any rebuttal evidence by CIG, and the parties from whom CIG makes the subject small producer purchases, shall be filed on or before December 16, 1975.

(F) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5(d)) shall preside at the hearing in this proceeding pursuant to the Commission's rules of practice and procedure.

(G) Within 15 days of the date of issuance of this order, CIG may file revised tariff sheets to become effective October 1, 1975, which reflect those claimed increased purchased gas costs contained in CIG's higher alternate rate other than those claimed increased costs associated with (1) that portion of small producer purchases in excess of the rate levels resulting from the "130 percent formula" prescribed by Opinion Nos. 742, (2) the producer purchases at issue in Docket Nos. CP75-323 and CP75-300, (3) the 3,629,000 Mcf of new gas supplies, (4) facilities not certificated and in service by October 1, 1975.

(H) Waiver is granted of § 21.31(a) or CIG's PGAC and thus CIG is allowed to collect in the proposed rate costs associated with the 3,629,000 Mcf of new gas supplies which are still pending Commission certification, after a one-day suspension, effective October 2, 1975, subject to refund.

(I) CIG's proposed modification of its PGAC is accepted for filing to become effective October 1, 1975.

(J) The above-named petitioners are hereby permitted to intervene in these proceedings, subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such intervenors shall be limited to matters which affect their rights and interests as specifically set forth in their petition to intervene: *And provided, further,* That the admission of such intervenors shall not be considered as recognition by the Commission that they might be aggrieved because of any order or orders issued by the Commission in this proceeding.

(K) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

[SEAL] KENNETH F. PLUMB,[1]
Secretary.

[FR Doc.75-26818 Filed 10-6-75;8:45 am]

[5] Opinion No. 742 (mimeo, p. 13, paragraph (l)).

[6] In light of this, we need take no action with respect to CIG's "lower alternate" tariff sheets.

[Docket No. E-8952]

CONNECTICUT LIGHT AND POWER CO.

Extension of Procedural Dates

SEPTEMBER 29, 1975.

On September 24, 1975, Connecticut Municipal Intervenors filed a motion to extend the procedural dates fixed by order issued July 21, 1975, in the above-designated proceeding.

Upon consideration, notice is hereby given that the procedural dates in the above proceeding are modified as follows:

Service of Intervenor Testimony, October 24, 1975.

Service of Company Rebuttal, November 13, 1975.

Hearing, November 18, 1975 (10:00 a.m., e.s.t.).

MARY KIDD PEAK,
Acting Secretary.

[FR Doc.75-26819 Filed 10-6-75;8:45 am]

[1] Chairman Nassikas, dissenting, filed a separate statement which is filed as part of the original document.

[Docket No. ER76-142]

CONSUMERS POWER CO.

Termination

SEPTEMBER 30, 1975.

Take notice that on September 17, 1975 Consumers Power Company (Company) tendered for filing copies of its notices of intent to terminate its existing contracts for electric service with the following customers:

Village of Chelsea (Chelsea). Contract dated September 17, 1965. Rate Schedule FPC No. 9.
City of Hillsdale (Hillsdale). Contract dated September 18, 1967. Rate Schedule FPC No. 6.
City of Harbor Springs (Harbor Springs). Contract dated September 22, 1965. Rate Schedule FPC No. 5.

The proposed termination dates are September 17, 1976 for Chelsea; September 20, 1977 for Hillsdale; and September 22, 1976 for Harbor Springs.

Company states that these termination notices were sent in accordance with contract provisions, the commitment of Company to place its wholesale for resale customers on a schedule of Rates Governing Wholesale For Resale Electric Service, and consistent with the order of the Federal Power Commission in Docket No. ER76-45 dated August 29, 1975. The Company intends to submit the Standard Service Agreement for the supply of wholesale energy to these customers at an early date for consideration.

Company states that the contract termination is caused only by Company's desire to have one standard Rate Schedule for wholesale service.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protest should be filed on or before October 10, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-26805 Filed 10-6-75;8:45 am]

[Docket No. RI76-34]

CONTINENTAL OIL CO.

Order Setting Matter for Hearing

SEPTEMBER 30, 1975.

On January 20 and 29, 1975, Continental Oil Company (Continental) filed three rate increases designated as supplements Nos. 2, 3, and 4 to its FPC Gas Rate Schedule No. 376, pursuant to Opinion No. 699-H (Docket No. R-389-B, issued December 4, 1974) for sales from the Rocky Mountain Area to Cascade Natural Gas Corporation (Cascade) wherein Continental proposed a 1.0 cent gathering allowance for central point delivery. On February 3, 1975, Cascade protested the gathering allowance on the basis that the contract called for delivery at or near the wellhead. By letter-order of February 19, 1975, the Commission, *inter alia*, disallowed Continental's claim for the gathering allowance.

By a filing of February 18, 1975, Continental alleged that the contract provision for a rate 3.75 cents less than the applicable just and reasonable rate was intended as compensation to Cascade for installation and operation by Cascade of some 30,750 feet of gathering lines to Continental's wells. On February 27, 1975, Continental applied for reconsideration of the Commission's denial of its claimed gathering allowance; and by further order of March 31, 1975, the Commission granted Continental's application to the extent of providing for further consideration of the gathering issue, including submission of briefs by Continental and Cascade.

On April 18, 1975, Cascade filed its brief which argued that the contract did not support Continental's claim that the 3.75 cents price differential was intended to be in consideration of Cascade's construction and operation of gathering facilities. Cascade further argued that even if Continental's allegation were true, Continental has not offered to continue the 3.75 cents compensation in exchange for the 1.0 cent gathering allowance.

In its reply brief filed May 5, 1975, Continental countered that its rate filings did, in fact, reflect the 3.75 cents downward adjustment and, therefore, it should be entitled to the 1.0 cent upward adjustment as a gathering allowance. Continental's claim appears to be that the difference between the prevailing national rate and the contract rate is, in effect, a payment from it to Cascade for Cascade's performing the gathering function for and on behalf of Continental (like a third-party contractor).

In light of the above, we find that a sufficient question has been raised concerning the proper interpretation of the differential provision in their original contract to warrant a formal public hearing. Accordingly, we shall set this case for formal hearing on the limited issues: (1) Whether the 3.75 cents price differential was intended to be compensation for gathering under the contract; (2) if so, whether Continental is entitled to the 1.0 cent gathering allowance established under Opinion No. 699-H.

Continental shall bear the burden of proof with respect to its claim that the 3.75 cents price differential was intended as compensation for gathering.

The Commission finds. (1) Good cause exists to set for formal hearing the issues set forth in the body of this order.

(2) Good cause exists to allow a period for intervention.

The Commission orders. (A) Pursuant to the authority of the Natural Gas Act, particularly sections 4, 5, 7, 14 and 16 thereof, the Commission's rules of practice and procedure, and the Regulations under the Natural Gas Act (18 CFR Ch. I) Docket No. RI76-34 is set for the purpose of hearing and disposition.

(B) A public hearing on the issues set forth in the body of this order shall be held commencing on November 18, 1975, 10:00 a.m., (e.s.t.) in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426.

(C) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5(d)), shall preside at the hearing in this proceeding pursuant to the Commission's rules of practice and procedure.

(D) Applicant and any intervenor supporting the application shall file their direct testimony and evidence on or before October 17, 1975. All testimony and evidence shall be served upon the Presiding Administrative Law Judge, the Commission Staff, and all parties to this proceeding.

(E) The Commission Staff, and any intervenor opposing the application, shall file their direct testimony and evidence on or before October 31, 1975. All testimony and evidence shall be served upon the Presiding Administrative Law Judge, and all other parties to this proceeding.

(F) All rebuttal testimony and evidence shall be served on or before November 7, 1975. All parties submitting rebuttal testimony and evidence shall serve such testimony upon the Presiding Administrative Law Judge, the Commission Staff, and all other parties to the proceeding.

(G) Notice of intervention or petitions seeking leave to intervene in this proceeding shall be filed with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with the rules of practice and procedure, 18 CFR 1.8 and 1.37(f), on or before October 10, 1975.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.75-26806 Filed 10-6-75;8:45 am]

[Rate Schedule Nos. 107, etc.]

CONTINENTAL OIL CO., ET AL.

Rate Change Filings

SEPTEMBER 29, 1975.

Take notice that the producers listed in the Appendix attached hereto have filed proposed increased rates to the applicable new gas national ceiling based on the interpretation of vintaging concepts set forth by the Commission in its Opinion No. 699-H, issued December 4, 1974. Pursuant to Opinion No. 699-H the rates, if accepted, will become effective as of the date of filing.

The information relevant to each of these sales is listed in the Appendix below.

Any person desiring to be heard or to make any protest with reference to said

filings should on or before October 20, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). A protest will not serve to make the protestant a party to the proceeding. Any party wishing to become a party to a proceeding must file a petition to intervene in accordance with the Commission's rules.

MARY KIDD PEAK,
Acting Secretary.

CONTINENTAL OIL CO., ET AL.

Applications for Certificates, Abandonment of Service and Petitions To Amend Certificates [1]

SEPTEMBER 18, 1975.

Take notice that each of the Applicants listed herein has filed an application or petition pursuant to section 7 of the Natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before October 15, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates or the authorization for the proposed abandonment is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[1] This notice does not provide for consolidation for hearing of the several matters covered herein.

EAST TENNESSEE NATURAL GAS CO.

Availability of Draft Environmental Impact Statement

SEPTEMBER 30, 1975.

Notice is hereby given in the above Docket, that on September 30, 1975, a Draft Environmental Impact Statement prepared by the staff of the Federal Power Commission was made available. This draft statement deals with the environmental impact of alternative permanent curtailment plans proposed in Docket No. RP75-28 across the East Tennessee Natural Gas Company system.

This draft statement has been circulated to Federal, State and Local agencies, and has been placed in the public files of the Commission, and is available for public inspection both in the Commission Office of Public Information Room 1000, 825 North Capitol Street, NE., Washington, D.C. 20426 and in its Regional Office located at 730 Peachtree Building, Room 500, Atlanta, Georgia 30308. Copies are also available in limited quantities from the Federal Power Commission's Office of Public Information, Washington, D.C. 20426.

[Docket No. RP76-9]

EASTERN SHORE NATURAL GAS CO.

Order Rejecting Tariff Sheets

SEPTEMBER 30, 1975.

On September 9, 1975, the Eastern Shore Natural Gas Company (Eastern Shore) tendered for filing tariff sheet revisions to its FPC Gas Tariff, Original Volume No. 1, which provided for an excess and emergency gas service to Eastern Shore's existing customers under Rate Schedule E-1.[1] Eastern Shore proposes to render service under the E-1 rate schedule in the following order:

(1) Emergency deliveries at any time of the year.

(2) Excess gas available after emergency deliveries during the months of November through April would first be offered to Eastern Shore's firm service customers except that such excess gas would not be sold to any customer who is utilizing or reselling natural gas for boiler fuel in electric generating stations when and to the extent that Eastern Shore has a request to deliver gas for underground storage.

(3) Excess gas available after emergency deliveries during the months of May through October would first be offered for underground storage and any additional gas would then be offered to Eastern Shore's firm service customers.

The rate to be charged under the proposed E-1 rate schedule would be 20¢ per Mcf plus the cost of gas purchased to provide the service. Eastern Shore has requested a waiver of the notice requirements contained in the Commission's regulations to allow the submitted tariff sheets to become effective on October 1, 1975.

We noted in Opinion 699-B[2] that a pipeline would be entitled to pay for emergency purchases, and thereby to include in its purchased gas costs, a rate for such purchases "which a reasonably prudent pipeline purchaser would pay for gas under the same or similar circumstances" (mimeo, at p. 4). We have already determined, in Opinion 699-H,[3] a national rate which we believe to be just and reasonable. Eastern Shore's proposal, however, is designed in such a way so as to permit the automatic flow-through of all costs of purchased gas, even that gas purchased at levels above the national rate. Therefore, insofar as the gas to be sold under the proposed E-1 rate schedule is obtained through emergency purchases, sixty day or otherwise (and apparently all of gas to be sold will be obtained in this manner), at rates which exceed the national rate, the tendered proposal would preclude us from making a determination of the justness and reasonableness of those purchases. The Natural Gas Act will not allow us to abrogate our duty and authority in such a manner, and we have not done so.[4] Moreover, Eastern Shore's proposal should be rejected in any event inasmuch as the company has provided no cost support regarding transportation cost, has made no estimate of purchased gas costs to be incurred, and has no certificate authorization under section 7(c) of the Natural Gas Act to render service under its Rate Schedule E-1 under the circumstances set forth in the revised tariff sheets.

In light of our disposition of the proposal tendered herein, Eastern Shore's request for a waiver of our notice requirements has been rendered moot.

The Commission finds. Good cause exists to reject Eastern Shore's filing of September 9, 1975 in the above-referenced docket.

The Commission orders. (A) Eastern Shore's filing of September 9, 1975 in the above-referenced docket is hereby rejected.

[1] Thirteenth Revised Sheet No. 3A Superseding Third Substitute Twelfth Revised Sheet No. 3A.
Eighteenth Revised Sheet No. 18A Superseding Seventeenth Revised Sheet No. 18A.
Second Revised Sheet No. 18B Superseding First Sheet No. 18B.

[Docket No. CP76-90]

EL PASO NATURAL GAS CO.

Application

SEPTEMBER 29, 1975.

Take notice that on September 17, 1975, El Paso Natural Gas Company (Applicant), PO Box 1492, El Paso, Texas 79978, filed in Docket No. CP76-90 an application pursuant to section 7(c) of the Natural Gas Act, as implemented by § 157.7(b) of the regulations thereunder (18 CFR 157.7(b)), for a certificate of public convenience and necessity authorizing the construction, during the calendar year 1976, and operation of certain natural gas purchase facilities, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant states that the purpose of this budget-type application is to augment its ability to act with reasonable dispatch in contracting for and connecting to its pipeline system supplies of natural gas which may become available from various producing areas generally coextensive with its pipeline system or other pipelines authorized to transport gas for or exchange gas with Applicant.

The total cost of the proposed facilities would not exceed $5,000,000, and the total cost of a single onshore project would not exceed $1,250,000, which cost Applicant states would be financed initially with working funds supplemented, as necessary, by short-term borrowings.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 17, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

MARY KIDD PEAK, *Acting Secretary.*

[FR Doc.75-26820 Filed 10-6-75;8:45 am]

[Docket No. CP76-92]

EL PASO NATURAL GAS CO.

Application

SEPTEMBER 29, 1975.

Take notice that on September 18, 1975, El Paso Natural Gas Company (Applicant), P.O. Box 1492, El Paso, Texas 79978, filed in Docket No. CP76-92 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon two right-of-way grantor taps and the service rendered therefrom to Pioneer Natural Gas Company (Pioneer) for resale, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant states that by order of the Commission of August 21, 1969 (42 FPC 562), it was authorized to continue sales and operation of certain tap facilities including the Leo Witkowski and the Emmet Fuqua No. 2 taps in Castro and Potter Counties, Texas, respectively. The landowners are said not to have received gas by means of the facilities in question for an extended period of time, March 1972 and September 1973 for Leo Witkowski and Emmet Fuqua, respectively.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 20, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

MARY KIDD PEAK, *Acting Secretary.*

[Docket No. RP75-94]

GREAT LAKES GAS TRANSMISSION CO.

Extension of Procedural Dates

SEPTEMBER 29, 1975.

On September 8, 1975, Staff Counsel filed a motion to extend the procedural dates fixed by order issued June 13, 1975, in the above-designated proceeding.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Staff Testimony, January 9, 1976.
Service of Intervenor Testimony, January 23, 1976.
Service of Company Rebuttal, February 6, 1976.
Hearing, February 24, 1976 (10:00 a.m., e.s.t.).

KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-26822 Filed 10-6-75;8:45 am]

[Docket Nos. CP75-81, CP75-104]

HIGH ISLAND OFFSHORE SYSTEM ET AL.

Amendment to Applications

SEPTEMBER 29, 1975.

Take notice that on September 8, 1975, High Island Offshore System (Applicant), One Woodward Avenue, Detroit, Michigan 48226, filed in Docket Nos. CP75-81 and CP75-104 an amendment to the applications for certificates of public convenience and necessity filed in said dockets pursuant to section 7(c) of the Natural Gas Act by Texas Offshore Pipeline System, Inc. (TOPSI) and Amtex Offshore Pipe Line Company, respectively, by which amendment Applicant seeks authorization for the construction and operation of pipeline and related facilities offshore Louisiana and Texas to transport natural gas for Michigan Wisconsin Pipe Line Company (Mich Wis), Texas Gas Transmission Corporation (Texas Gas), Transcontinental Gas Pipe Line Corporation (Transco) and United Gas Pipe Line Company (United), all as more fully set forth in the amendment on file with the Commission and open to public inspection.

It is stated in the amendment to applications that Applicant is a general partnership formed by ANG Offshore Company, Texam Offshore Gas Transmission, Inc., Transco Offshore Pipeline Company and TOPSI, who are stated to be affiliated with Mich Wis, Texas Gas, Transco and United, jointly HIOS group, respectively. It is indicated that Applicant has succeeded to all the rights of TOPSI and Amtex as applicants with respect to pending applications in Docket No. CP75–81 and CP75–104. The project proposed in the instant amendment is said to be the construction and operation of a pipeline system to transport gas reserves which will be purchased by the HIOS group in the High Island Area, offshore Texas, and is said to be in lieu of the projects proposed in the initial applications in the instant dockets.

Applicant proposes to construct and operate the following facilities:

67.0 Mile 42-inch pipeline-Block 264, High Island Area, to Block 167, West Cameron Area.

26.0 Mile 36-inch pipeline-Block 264 to Block 343, High Island Area.

15.0 Mile 30-inch pipeline-Block 343 to Block 330, High Island Area.

41.0 Mile 30-inch pipeline-Block 264 to Block 573 High Island Area.

54.5 Mile 30-inch pipeline-Block 264 to Block 582, High Island Area Block 264, High Island Area compressor complex and offshore manifold platforms at Blocks 330, 343, 573 and 582, High Island Area, and Block 167, West Cameron Area.

The proposed facilities would be operated by Mich Wis under the direction of management committee comprised of representatives of the partners.

Applicant has included in the amendment two estimates by independent geologists, Ryder Scott Company Petroleum Engineers and Ralph E. Davis Associates, Inc., that the total natural gas reserves in the High Island Area are 8,640 and 8,500 million Mcf, respectively, and states that the system has been developed to transport all of the reserves that are expected to be developed. Applicant states that the Davis report indicates that some gas can be available in early 1977 and substantial volumes will be available in late 1977, with average daily deliveries increasing to approximately 1.2 million Mcf by the latter part of 1978 or the forepart of 1979 and thereafter increasing to approximately 1.9 million Mcf by 1985. Applicant estimates that based on data received from producers operating in the High Island Area, 17 of the 19 platforms scheduled for construction will have the capability of delivering 1,290,000 Mcf per day in 1978, of which 645,000 Mcf per day would be available to HIOS group and the remainder is committed to others or uncommitted. The proposed pipeline facilities are said to be available to serve as a transportation vehicle for others who may desire the transportation of reserves available in the vicinity of the system, although substantial utilization of the proposed facilities would be assured by the HIOS group for the transportation of their natural gas reserves. The volumes of gas committed and uncommitted are:

	Mcf per day
HIOS group	645,000
Others	268,000
Uncommitted	377,000
Total	1,290,000

The proposed facilities would not extend to all High Island Blocks in which reserves have been committed to the individual companies. To the extent required, these connecting facilities would be the subject of other applications to be filed with the Commission from time to time.

The amendment shows that the total estimated cost of the proposed facilities is approximately $353,414,000. Applicant states that this cost would be financed initially out of $89,000,000 of equity contributed in equal shares by Applicant's partners and short-term bank loans which would be retired with proceeds from the sale of $265,000,000 of long-term debt securities subsequently to be issued by Applicant.

Applicant states that the proposed pipeline facilities have been designed to transport and deliver to Block 157, West Cameron Area, offshore Louisiana, 988,000 Mcf of gas per day (less fuel) and would include an interconnection with Stingray Pipeline Company (Stingray) at Block 330, High Island Area, where Stingray have the ability to receive 230,000 Mcf of gas per day. Applicant further alleges that, at an incremental cost of approximately $14,231,000 the capacity of the system can be increased to approximately 2 million Mcf per day by the addition of compression at the Block 264 compressor platform.

Applicant has entered into transportation agreements with the HIOS group specifying for each a contract demand of 247,000 Mcf of gas per day. Each of the HIOS group would pay an indicated initial demand charge of $7.94 per Mcf per month.

Any person desiring to be heard or to make any protest with reference to said amendment to the application should on or before October 20, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

MARY KIDD PEAK,
Acting Secretary.

[Docket No. RP75-98]

McCULLOCH INTERSTATE GAS CORP.

Settlement Conference on Rates and Charges

SEPTEMBER 29, 1975.

Take notice that on October 8, 1975, a conference of all parties to intervene in these proceedings, the Applicant McCulloch Interstate Gas Corporation and the Commission Staff will be held in the Commission's Conference Room No. 8402, at 825 North Capitol Street, NE., Washington, D.C., at 10:00 a.m.

Customers and other interested persons will be permitted to attend, but if such persons have not previously been permitted to intervene by order of the Commission, attendance at the conference will not be deemed to authorize intervention as a party in the proceedings.

All parties will be expected to come fully prepared to discuss the merits of all issues concerning the lawfulness of the proposed rate increase and any procedural matters preparatory to a full evidentiary hearing and any offers of settlement or stipulations discussed at the conference.

Letters concerning this conference are being mailed this date to all parties to the proceeding, all of the jurisdictional customers, and all affected state commissions.

MARY KIDD PEAK,
Acting Secretary.

[FR Doc.75-26824 Filed 10-6-75;8:45 am]

[Docket No. CP73-147]

MICHIGAN WISCONSIN PIPE LINE CO.

Tariff Filing Pursuant to Amending Order Issuing Certificate of Public Convenience and Necessity

SEPTEMBER 29, 1975.

Take notice that on September 2, 1975, Michigan Wisconsin Pipe Line Company (Michigan Wisconsin) tendered for filing revised tariff sheets to its F.P.C. Gas Tariff, First Revised Volume No. 2 to be effective October 1, 1975 as follows:

Fourth Revised Sheet No. 317
Third Revised Sheet No. 319
Second Revised Sheet No. 320
Second Revised Sheet No. 321
First Revised Sheet No. 322

Michigan Wisconsin states that this filing reflects amendments to Rate Schedule X-34, a transportation and deferred exchange agreement between Michigan Wisconsin, Trunkline Gas Company and Panhandle Eastern Pipe Line Company that were approved by Commission amending order issued August 6, 1975, in Docket No. CP73-147.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or

before October 10, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

MARY KIDD PEAK,
Acting Secretary.

[FR Doc.75-26798 Filed 10-6-75;8:45 am]

[Docket No. RP71-16; PGA No. 76-1]

MIDWESTERN GAS TRANSMISSION CO.

Proposed Northern System PGA Rate Adjustment

SEPTEMBER 30, 1975.

Take notice that on September 12, 1975, Midwestern Gas Transmission Company (Midwestern) tendered for filing Eleventh Revised Sheet No. 5 in Third Revised Volume No. 1 of its FPC Gas Tariff, to be effective on November 1, 1975.

Midwestern states that the sole purpose of the revised tariff sheet is to reflect a PGA rate adjustment for its Northern System. Midwestern states that the PGA rate increase reflected on Eleventh Revised Sheet No. 5 is based upon an increase in that price effective November 1, 1975, which Midwestern pays for gas to its Northern System supplier, TransCanada Pipelines, Limited (TransCanada) as approved by the Commission in an order of July 29, 1975, in Docket Nos. G-18314, et al.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 10, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-9046]

MONTAUP ELECTRIC CO.

Further Extension of Procedural Dates

SEPTEMBER 29, 1975.

On September 19, 1975, Staff Counsel filed a motion to extend the procedural dates fixed by order issued December 18, 1974, as most recently modified by notice issued August 8, 1975, in the above-designated proceeding.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Staff Testimony, October 1, 1975.
Service of Intervenor Testimony, October 15, 1975.
Service of Company Rebuttal, October 29, 1975.
Hearing, November 11, 1975 (10:00 a.m., e.s.t.).

By direction of the Commission.

MARY KIDD PEAK,
Acting Secretary.

[FR Doc.75-26799 Filed 10-6-75;8:45 am]

[Docket No. CP74-64]

MOUNTAIN FUEL SUPPLY CO.

Amendment to Application

SEPTEMBER 29, 1975.

Take notice that on September 16, 1975, Mountain Fuel Supply Company (Applicant), P.O. Box 1368, Salt Lake City, Utah 84139, filed in Docket No. CP74-64 an amendment to its application filed in said docket for a certificate of public convenience and necessity pursuant to section 7(c) of the Natural Gas Act by which amendment Applicant requests authorization to install and operate a 600 horsepower compressor unit at the inlet of the previously authorized 10-inch pipeline from the Spearhead Ranch Field to McCulloch Interstate Gas Corporation's (McCulloch) 16-inch pipeline, all in Converse County, Wyoming, all as more fully set forth in the amendment to application on file with the Commission and open to public inspection.

Applicant proposes to construct, operate and install a 600 h.p. compressor unit at the terminus of the 10-inch pipeline in the Spearhead Ranch Field at the estimated cost of approximately $366,000. The stated reason for the installation of the compressor unit is that the delivery pressures to McCulloch's line are required to be up to 1,000 psig but that deliveries now are made near the level of 812 psig. Further, Applicant alleges, it has contracted Quasar Energy Inc. to construct and operate a gas processing plant on Applicant's gathering system to extract liquefiable hydrocarbons which may create an additional pressure drop of 25 psig. The compressor facilities proposed in the instant filing are said to obviate the need for looping of the existing pipeline and would facilitate Applicant's and Colorado Interstate Gas Company, a division of Colorado Interstate Corporation's, plans for meeting their gas system requirements.[1]

Any person desiring to be heard or to make any protest with reference to said amendment should on or before October 20, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

[1] CIG is said to have the right to purchase up to 25 percent of the Spearhead Ranch Field gas produced by Applicant.

MARY KIDD PEAK,
Acting Secretary.

[FR Doc. 75-26800 Filed 10-6-75;8:45 am]

[Docket No. CP75-134]

NATURAL GAS PIPELINE COMPANY OF AMERICA

Petition To Amend

SEPTEMBER 29, 1975.

Take notice that on September 15, 1975, Natural Gas Pipeline Company of America (Petitioner), 122 South Michigan Avenue, Chicago, Illinois 60603, filed in Docket No. CP75-134 a petition to amend the order of the Commission of January 28, 1975, issued in said docket pursuant to section 7(c) of the Natural Gas Act to include authorization to exchange gas with Trunkline Gas Company (Trunkline) at an additional point, all as more fully set forth in the petition to amend on file with the Commission and open to public inspection.

Petitioner states that pursuant to an amendment dated July 30, 1974, to the gas exchange agreement between itself and Trunkline they have agreed to provide for an additional exchange point at an existing interconnection of the systems of Petitioner and Trunkline in Cameron Parish, Louisiana. It is stated that the proposed exchange point and four others authorized would be used to assist the other party when emergency conditions exist on the pipeline system of either party.

Petitioner states that it currently delivers gas, at the proposed exchange point, which gas Petitioner receives from Stingray Pipeline Company for Trunkline's account and transports for Trunkline. It is stated that Petitioner and Trunkline will maintain the Cameron delivery point in the event the transportation agreement should expire or be cancelled before the exchange agreement expires or is cancelled and that charges for gas transported and delivered under the transportation agreement will not be applicable to gas delivered under the exchange agreement.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before October 17, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and

procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

MARY KIDD PEAK,
Acting Secretary.

[FR Doc.75-26801 Filed 10-6-75;8:45 am]

[Docket No. CP76-86]

NATURAL GAS PIPELINE COMPANY OF AMERICA

Application

SEPTEMBER 26, 1975.

Take notice that on September 16, 1975, Natural Gas Pipeline Company of America (Applicant), 122 South Michigan Avenue, Chicago, Illinois 60603, filed in Docket No. CP76-86 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation and delivery of gas for El Paso Natural Gas Company (El Paso), and the construction and operation of facilities required to effectuate such service, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant states that pursuant to a gas transportation agreement between itself and El Paso dated August 25, 1975, Applicant has agreed to transport up to 10,000 Mcf of natural gas per day for El Paso. El Paso would deliver or cause to be delivered gas to Applicant at the outlet of the Cities Service Gas Company's Bluitt Gasoline Plant, Roosevelt County, New Mexico. Applicant would transport and redeliver equivalent volumes less gas used as fuel to El Paso at a point of interconnection in Parmer County, Texas. For the proposed transportation service Applicant would charge El Paso 2.21 cents per Mcf of gas transported and would reduce the volumes redelivered by 0.3 percent used as compressor fuel.

Applicant would construct a 4-inch tap connection at the Parmer County Redelivery Point at an estimated cost of approximately $5,600, which cost would be reimbursed to Applicant by El Paso.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 17, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

MARY KIDD PEAK,
Acting Secretary.

[FR Doc.75-26813 Filed 10-6-75;8:45 am]

[Project No. 2266]

NEVADA IRRIGATION DISTRICT

Application for Authorization To Convey Project Lands and Recreation Facilities; Correction

SEPTEMBER 26, 1975.

Public notice is hereby given of a correction in a description of lands set forth in the above-designated notice. Issued by the Federal Power Commission on August 18, 1975, it gave public notice that application was filed April 28, 1975, superseding an application filed February 27, 1975, and amended April 14, 1975, under the Federal Power Act (16 U.S.C. 791a-825r) by Nevada Irrigation District (N.I.D.) (Correspondence to: Nevada Irrigation District, P.O. Box 1019, Grass Valley, California 95945) for authorization to enter into an agreement with the United States Forest Service whereby certain lands in the Tahoe National Forest would be exchanged for lands and other interests in N.I.D.'s Yuba-Bear Project No. 2266, located on Middle and South Yuba Rivers, Bear River, and Jackson and Canyon Creeks, in Yuba, Nevada, Placer, and Sierra Counties, California.

Under this agreement, Nevada Irrigation District would transfer to the Forest Service its mountain holdings located upstream from Lake Spaulding of Pacific Gas and Electric Company's Project No. 2310, including 2,764.1 acres of N.I.D.-owned land within the boundary of its Yuba-Bear Hydroelectric Project. No. 2266 which is under license issued by the Federal Power Commision (FPC).

In exchange, N.I.D. would gain title to about 584 acres of Tahoe National Forest lands located on Deer Creek in Nevada County, California, approximately 11 miles east of Nevada City and three miles upstream from Scotts Flat Reservoir of Pacific Gas & Electric Company's (P.G.&E.) Project No. 2310. Under the agreement, the 584 acres would not be included within the boundary of Project No. 2266. Part of this land is within the boundary of Project No. 2310.

In addition, title to those N.I.D.-owned recreation facilities located on the project lands to be conveyed to the Forest Service would be transferred and the recreation facilities would be maintained and operated by the Forest Service as contemplated in a June 24, 1966 agreement, as amended, between N.I.D. and the Forest Service for "Administration, Operation, and Maintenance of Recreation Facilities on the Yuba-Bear [River] Project in the Tahoe National Forest". However, N.I.D. would retain title to all facilities of the Yuba-Bear Hydroelectric Project and all rights necessary for its continued operation and maintenance under its FPC license, and would retain all privileges and interests in real property, without charge or duty, required to fulfill certain existing contractual arrangements between N.I.D. and P.G.&E., the California Department of Fish and Game, and the Department of Water Resources of the State of California.

On page two of the notice issued August 18, 1975, the following description of the Tahoe National Forest Lands which, would be conveyed to N.I.D. under this agreement was given:

MOUNT DIABLO MERIDIAN—CALIFORNIA
(NEVADA COUNTY)

T. 17 N., R. 10 E.
Sec. 27, lots 2 and 3, N½SE¼SW¼;
Sec. 34, lots 1 and 2, SE¼NE¼, SW¼NW¼;
N½N½SE¼NW¼, N½SE¼;
Sec. 35, N½.

This description should be modified to read:

MOUNT DIABLO MERIDIAN—CALIFORNIA
(NEVADA COUNTY)

T. 17 N., R. 10 E.
Sec. 27, lots 2 and 3, N½SE¼SW¼;
Sec. 34, lots 1 and 2, SE¼NE¼SW¼NW¼;
N½N½SE¼NW¼, N½SE¼;
Sec. 35, N½.

All other land descriptions contained in the notice issued August 18, 1975, are correct.

The announced purposes of this exchange would be to allow the Forest Service to consolidate its holdings within the Tahoe National Forest and to relieve N.I.D. of the cost of maintaining the recreation facilities. Forest Service lands to be conveyed to N.I.D. would be held by N.I.D. or sold for timber-cropping.

Any person desiring to be heard or to make protest with reference to said application should on or before November 10, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered

by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules. The application is on file with the Commission and available for public inspection.

Take further notice that, pursuant to the authority contained in and conferred upon the Federal Power Commission by sections 308 and 309 of the Federal Power Act (16 U.S.C. 825g, 825h) and the Commission's Rules of Practice and Procedure, specifically § 1.32(b) (18 CFR 1.32 (b)), as amended by Order No. 518, a hearing may be held without further notice before the Commission on this application if no issue of substance is raised by any request to be heard, protest or petition filed subsequent to this notice within the time required herein and if the applicant or initial pleader requests that the shortened procedure of § 1.32(b) be used. If an issue of substance is so raised or applicant or initial pleader fails to request the shortened procedure, further notice of hearing will be given.

Under the shortened procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant or initial pleader to appear or be represented at the hearing before the Commission.

MARY KIDD PEAK,
Acting Secretary.

[Docket No. ER76-50]

NORTHERN INDIANA PUBLIC SERVICE

Supplemental Data to Proposed Change in Rates and Charges

SEPTEMBER 30, 1975.

Take notice that on September 18, 1975, Northern Indiana Public Service Company (NIPSCO) tendered for filing additional data to supplement its proposed FPC electric service tariff (Second Revised Volume No. 1), tendered for filing on August 1, 1975.

NIPSCO states that the purpose of this additional data is to comply with the Commission Secretary's letter of August 29, 1975, to NIPSCO informing the company that its original filing was assessed as deficient and requesting NIPSCO to submit the required data in accordance with the Commission's Regulations under the Federal Power Act.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 9, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-26809 Filed 10-6-75;8:45 am]

[Docket Nos. RP72-154 and RP74-72 (PGA No. 76-1 and 76-2) (DCA No. 76-1)]

NORTHWEST PIPELINE CORP.

Order Accepting for Filing and Suspending Proposed PGA, DCA, and Surcharge Adjustment for Storage Customers, Granting Waiver, Establishing Hearing Procedures, Instituting Investigation, Consolidating Proceedings, and Granting Interventions

SEPTEMBER 29, 1975.

On August 15, 1975, Northwest Pipeline Corporation (Northwest) filed a revised tariff sheet[1] containing a net annual decrease in rates totaling $12,761,002 and requests a proposed effective date of October 1, 1975.[2]

On August 15, 1975, Northwest also filed a revised tariff sheet[3] consisting of a PGA rate increase totaling $53,891,596 to track increases in purchased gas costs from a Canadian supplier to be effective November 1, 1975.[4] Based on the magnitude of the increase and the fact that approximately two-thirds of its total gas supply is obtained from Westcoast, Northwest requests waiver of its purchased gas adjustment clause (PGAC), which only permits the filing of semi-annual adjustments to be effective April 1 and October 1, annually, to permit the tracking of such costs effective November 1, 1975.

Northwest's submittals were noticed on August 20, 1975, and August 21, 1975, with comments, protests, and petitions to intervene due on or before September 9, 1975. Northwest Natural Gas Company and Cascade Natural Gas Corporation filed petitions to intervene in these proceedings.

Northwest utilizes storage for the sole purpose of rendering peaking service under Rate Schedule SGS-1. Due to the substantial increase in the cost of Canadian gas to $1.60 per Mcf, the cost of gas to be purchased is considerably higher than the cost of gas now in storage. Northwest states that the average cost of storage gas injections for volumes in the Jackson Prairie storage field is estimated to be $.866000 as of October 1, 1975. Northwest states that these storage volumes will be withdrawn during the period October 16, 1975, through April 15, 1976. Northwest states that its base average cost of purchased gas in its tariff rates as of November 1, 1975, is $1.231717, reflecting the Canadian increase. Therefore, Northwest's revenue collections for the cost of purchased gas from storage gas customers would exceed the average cost of the gas to be withdrawn from storage during the 1975-1976 heating season by $3,401,168. Under Northwest's PGAC, this difference would flow through Northwest's Unrecovered Purchased Gas Cost account and would benefit Northwest's customers under all rate schedules, not just the SGS-1 customers. The proposed special one-time surcharge credit will ensure that the SGS-1 customers will be charged for the gas volumes received only at the average cost of gas placed into storage. We believe that this special one-time surcharge under Rate Schedule SGS-1 is proper and we will grant waiver of Northwest's PGAC to allow it.

Our review of Northwest's proposed rates included in its revised tariff sheet with a proposed effective date of October 1, 1975, indicates that the average cost of purchased gas contains small producer purchases in excess of the rate levels prescribed in Opinion No. 742. Therefore, the proposed rates have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, or otherwise unlawful. Accordingly, we shall accept this revised tariff sheet for filing and suspend it for one day until October 2, 1975, when it shall become effective, subject to refund.

With regard to the issue of small producers, we shall establish hearing procedures to determine the just and reasonable rate levels of those small producer purchases to be included in Northwest's filing in excess of the rate levels resulting from use of the "130 percent formula" prescribed in Opinion No. 742.[5] In this connection, we believe it appropriate to make the small producers involved respondents so that they may present evidence to show that the rates charged by them to Northwest are

---

[1] Substitute Ninth Revised Sheet No. 10 to Original Volume No. 1.

[2] This revised sheet reflects a PGA rate decrease under all Rate Schedules of .437¢ per therm consisting of a .044¢ per therm decrease in purchased gas costs ($1,920,783 per year) and a .393¢ per therm reduction in the surcharge (from .405¢ to .012¢, the .012¢ surcharge is to recoup $250,980 in the deferred account) to recover the balance of unrecovered purchased gas costs. Northwest further proposes to reduce the rate under its Rate Schedule SGS-1 by 3.483¢ per therm to reflect its proposal to credit $3,401,768 to its storage gas customers through a special one-time surcharge. Northwest proposes to increase by 0.141¢ per therm the rates in Rate Schedules ODL-1, DS-1, PL-1 and PL-4 to reflect a .141¢ per therm increase (from .056¢ to .197¢) in the balance for demand credits. (DCA) The amount to be recouped under the proposed surcharge is $4,058,581.

[3] Tenth Revised Sheet No. 10 to Original Volume No. 1.

[4] This proposed PGA rate increase amounts to 1.267¢ per therm (or $53,891,596 annually) and would track an increase from Northwest's Canadian pipeline supplier, Westcoast Transmission Company, Limited (Westcoast), as a result of an increase in the border export price to $1.60 per MMBTU (Canadian), effective November 1, 1975. By Commission order issued July 28, 1975, in Docket Nos. CP75-340, et al., Northwest's import authorization was amended to permit Northwest to continue to mport gas at such price effective November 1, 1975.

[5] —— FPC —— issued August 28, 1975, in Docket No. R-393.

just and reasonable. Although, the small producers are not required to make refunds, we believe it appropriate to institute a Section 5 investigation against the small producers involved so that the just and reasonable small producer rate determined in this proceeding can be applied prospectively to the small producer involved.

Within 15 days of the date of this order, Northwest shall file a list of the small producers making sales reflected in the instant filing in excess of the "130 percent formula" rates in order that they may be made respondents to this proceeding.

Cost evidence relating to the small producer sales which are the subject of the hearing ordered herein can clearly provide the basis for "just and reasonable" rate findings. "F.P.C. v. Texaco Inc.", 417 U.S. 380 (1974). Accordingly, we shall require the small producer respondents to submit cost evidence in order that we may determine the justness and reasonableness of Northwest's rates and make appropriate adjustments, if found necessary, to the small producer rates pursuant to our authority under section 5 of the Natural Gas Act.

Northwest must show that the rate paid by Northwest to the small producer is just and reasonable by presenting evidence considering all relevant factors including, *inter alia*, (1) the pipeline's need for gas, (2) the availability of other gas suppliers, (3) the amount of gas dedicated under the contract, (4) the rates of other recent small producer sales previously approved for flow through, and (5) comparison with appropriate market prices.*

Finally, the parties may submit any other evidence relevant to the Commission's determination of whether the rates paid by the pipeline with respect to sales under Opinion 742 are just and reasonable.

Our review of Northwest's revised tariff sheet with an October 1, 1975, proposed effective date, indicates that the purchased gas costs contained in Northwest's submittal, other than those claimed costs associated with that portion of small producer purchases in excess of the rate levels prescribed by the "130 percent formula" prescribed in Opinion 742, should be approved as being in compliance with the standards set forth in Docket No. R-406. Accordingly, we shall permit Northwest to file revised tariff sheets to become effective on October 1, 1975, that include costs, including the demand credit adjustment and the special one-time surcharge to storage gas customers, other than those associated with that portion of small producer purchases in excess of the level established in Opinion 742.

With respect to Northwest's revised tariff sheet with a proposed effective date of November 1, 1975, reflecting a PGA rate increase to track an increase in the costs of its purchased Canadian gas from Westcoast, we will accept this revised sheet for filing; and we will grant waiver of Northwest's PGAC to permit Northwest to track this Canadian increase and to allow an effective date of November 1, 1975.

We grant Northwest Natural Gas Company and Cascade Natural Gas Corporation's petitions to intervene in these proceedings.

The Commission finds. (1) It is necessary and appropriate to aid in the enforcement of the Natural Gas Act that hearing procedures be established, as hereinafter ordered and conditioned, and that Northwest's revised tariff sheet reflecting the PGA and demand credit adjustments, and special one-time surcharge to storage customers, be accepted for filing and suspended for one day until October 2, 1975, when it shall become effective, subject to refund.

(2) The claimed purchased gas costs in Northwest's revised tariff sheet reflecting the PGA and demand credit adjustments, and special one-time surcharge to storage customers, other than that portion of small producer purchases in excess of "130% formula" prescribed in Opinion 742, are in compliance with the standards set forth in Docket No. R-406.

(3) Good cause exists to grant Northwest's proposed special one-time surcharge to storage customers and to grant waiver of Northwest's PGAC to allow it.

(4) Good cause exists to grant Northwest's proposed PGA increase to track increases in its costs of Canadian purchased gas costs from Westcoast and to grant waiver of Northwest's PGAC to permit tracking of this increase to become effective November 1, 1975.

(5) Good cause exists to grant the intervention of the above named petitioners in these proceedings.

The Commission orders. (A) Northwest's revised tariff sheet which reflects the PGA and demand credit adjustments, and the special one-time surcharge to storage customers, is accepted for filing and suspended for one day, to become effective October 2, 1975.

(B) Pursuant to the authority of the Natural Gas Act, particularly sections 4, 5, 7, 14, and 16 thereof, a public hearing shall be held on January 13, 1976 at 10 a.m., in a hearing room of the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, to determine the lawfulness of Northwest's proposed PGA rates filed on August 15, 1975, with a proposed effective date of October 1, 1975, insofar as those proposed rates reflect small producer purchases in excess of the "130 percent formula" prescribed in Opinion 742.

(C) Within 15 days of the date of this order, Northwest shall file with the Commission a list, including addresses, of the parties from whom Northwest purchases gas involved in the small producer sales set for hearing above. Following receipt of this list, we shall make these parties respondents to this investigation for the purposes discussed in the body of this order.

(D) Pursuant to section 5 of the Natural Gas Act, we hereby institute an investigation into the just and reasonable rate to be charged by the small producers making sales to Northwest in excess of the rates resulting from the "130 percent formula" prescribed in Opinion 742 and consolidate this investigation with the hearing ordered in Ordering Paragraph (B) above for purposes of hearing and decision.

(E) Northwest, and the parties from whom Northwest makes the subject small producer purchases, shall file direct testimony and evidence on or before November 4, 1975. Any evidence by the Commission Staff or any intervenor shall be filed on or before December 2, 1975. Any rebuttal evidence by Northwest, and the parties from whom Northwest makes the subject small producer purchases, shall be filed on or before December 16, 1975.

(F) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5(d)) shall preside at the hearing in this proceeding pursuant to the Commission's Rules of Practice and Procedure.

(G) Within 15 days of the date of issuance of this order, Northwest may file revised tariff sheets to become effective October 1, 1975, which reflect those claimed purchased gas costs, demand credit adjustment, and special one-time surcharge to storage customers, contained in Northwest's proposed rate change other than those claimed purchased gas costs associated with that portion of small producer purchases in excess of the rate levels resulting from the "130 percent formula" prescribed by Opinion 742.

(H) Northwest is granted permission to charge its storage customers the special one-time surcharge and waiver is granted of Northwest's PGAC to allow it.

(I) Northwest's revised tariff sheet that reflects a PGA rate increase to track the increased costs in Canadian purchased gas is accepted for filing with an effective date of November 1, 1975, and waiver is granted of Northwest's PGAC to allow this.

(J) The above-named petitioners are hereby permitted to intervene in these proceedings, subject to the rules and regulations of the Commission: *Provided, however*, That the participation of such intervenors shall be limited to matters which affect the rights and interests specifically set forth in their petitions to intervene: *And provided, further*, That the admission of such intervenors shall not be considered as recognition by the Commission that they might be aggrieved because of any order or orders issued by the Commission in this proceeding.

(K) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

[SEAL] KENNETH F. PLUMB,† *Secretary.*

[FR Doc.75-26802 Filed 10-6-75;8:45 am]

* Opinion 742 (mimeo, p. 13, paragraph (1)).

† Chairman Nassikas, dissenting, filed a separate statement which is filed as part of the original document.

[Docket No. RM76-1]

SPECIFIED REASONABLE RATE OF RETURN AS PROVIDED IN HYDROELECTRIC PROJECT LICENSES

Extension of Time

SEPTEMBER 29, 1975.

On September 12, 1975, the law firm of Debevoise & Liberman filed a motion on behalf of a number of companies to extend the date for filing comments in the above-entitled matter, as fixed by notice issued July 7, 1975, as most recently extended on July 28, 1975. On September 22, 1975, Pacific Gas and Electric Company filed a response in support of the above motion.

Notice is hereby given that the date for filing comments on the above matter is extended to and including November 17, 1975.

MARY KIDD PEAK,
Acting Secretary.

[FR Doc.75-26827 Filed 10-6-75;8:45 am]

[Docket No. RI76-30]

TEXACO INC.

Order Providing for Hearing on and Suspension of Proposed Changes in Rates, and Allowing Rate Changes To Become Effective Subject to Refund [1]

SEPTEMBER 26, 1975.

Respondents have filed proposed changes in rates and charges for jurisdictional sales of natural gas, as set forth in Appendix A hereof.

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds. It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon hearings regarding the lawfulness of the proposed changes, and that the supplements herein be suspended and their use be deferred as ordered below.

The Commission orders. (A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto (18 CFR Ch. I), and the Commission's rules of practice and procedure, public hearings shall be held concerning the lawfulness of the proposed changes.

(B) Pending hearings and decisions thereon, the rate supplements herein are suspended and their use deferred until date shown in the "Date Suspended Until" column. Each of these supplements shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the Respondent or by the Commission. Each Respondent shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplements, nor the rate schedules sought to be altered, shall be changed until disposition of these proceedings or expiration of the suspension period, whichever is earlier.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[1] Does not consolidate for hearing or dispose of the several matters herein.

APPENDIX A

Docket No.	Respondent	Rate schedule No.	Supplement No.	Purchaser and producing area	Amount of annual increase	Date filing tendered	Effective date unless suspended	Date suspended until—	Cents per Mcf*		Rate in effect subject to refund in docket Nos.
									Rate in effect	Proposed increased rate [1]	
RI76-30	Texaco, Inc.	183	22	El Paso Natural Gas Co. (Colorado) (Rocky Mountain).	$100	8-29-75		4-1-76	32.0216	32.9578	RI75-38.

[Docket No. CP73-306]

TEXAS GAS TRANSMISSION CORP. AND FLORIDA GAS TRANSMISSION CO.

Petition To Amend

SEPTEMBER 29, 1975.

Take notice that on September 12, 1975, Texas Gas Transmission Corporation (Texas Gas), 3800 Frederica Street, Owensboro, Kentucky 42301, and Florida Gas Transmission Company (Florida Gas), P.O. Box 44, Winter Park, Florida 32789, jointly Petitioners, filed in Docket No. CP73-306 a petition to amend the order of the Commission of August 29, 1973 (50 FPC 616), issuing a certificate of public convenience and necessity pursuant to section 7(c) of the Natural Gas Act to authorize two additional points of exchange of natural gas between Petitioners, all as more fully set forth in the petition to amend on file with the Commission and open to public inspection.

Petitioners state that pursuant to an amendment dated July 3, 1975, to their gas exchange agreement they have agreed to exchange gas near East Bayou in Iberia Parish, Louisiana, and at the Chacoula Field, in La Fourche Parish, Louisiana. It is stated that the proposed delivery points would provide added flexibility in Petitioners' systems and would be utilized when deliveries would assist the other in the operation of its system. Petitioners state that no new facilities are required to exchange gas at these points.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before October 17, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

MARY KIDD PEAK,
Acting Secretary.

[Project No. 696]

UTAH POWER & LIGHT CO.

Availability of Environmental Impact Statement for Inspection

Notice is hereby given that on or about September 22, 1975, as required by the Commission rules and regulations

under Order 415–C, issued December 18, 1972, a final environmental impact statement prepared by the Commission's staff pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969 (Pub. L. 91–100) was placed in the public files of the Federal Power Commission. This statement deals with an application for a new license filed pursuant to the Federal Power Act for the existing American Fork Creek Project No. 696, located on American Fork Creek in Utah County, Utah. The American Fork Project consists of (1) a concrete overflow type diversion dam; (2) an intake structure with tainter gate; (3) a steel pipe conduit extending from the intake structure to the powerhouse; (4) a powerhouse with a 950 kW generating unit; (5) a 12.5 kV transmission line to the Applicant's distribution system and a 110 volt control line from the plant to the intake for automatic operation; and; (6) appurtenant facilities.

This statement is available for public inspection in the Commission's Office of Public Information, Room 1000, 825 North Capitol Street, NE., Washington, D.C. 20426 and its San Francisco Regional Office located at 555 Battery Street, San Francisco, California 94111. Copies may be ordered from the Commission's Office of Public Information, Washington, D.C. 20426.

KENNETH F. PLUMB,
Secretary.

FEDERAL RESERVE SYSTEM

INSURED BANKS

Joint Proposal for Revision of Report of Condition

CROSS REFERENCE: For a document concerning the joint proposal for revision of report of condition of insured banks, issued jointly by the Federal Deposit Insurance Corporation, Treasury/Comptroller of the Currency, and the Federal Reserve System, see FR Doc. 75–26762, *supra*.

OLD KENT FINANCIAL CORP.

Order Approving Acquisition of Banks

Old Kent Financial Corporation, Grand Rapids, Michigan ("Applicant"), a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 100 per cent of the voting shares of both Old Kent Bank of Grandville, Grandville, Michigan ("Grandville Bank"), and Old Kent Bank of Wyoming, Wyoming, Michigan ("Wyoming Bank"), both proposed new banks.

Notice of the applications, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the applications and all comments received in light of the factors set forth in § 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the seventh largest banking organization in Michigan, controls four banks with aggregate deposits of approximately $851 million, representing about 3 per cent of the total commercial bank deposits in the State.[1] Since the applications involve the establishment of *de novo* banks, no existing competition between any of applicant's present subsidiaries and Grandville Bank or Wyoming Bank would be eliminated by the proposals, nor would concentration be increased in any relevant area.

Both Grandville Bank and Wyoming Bank are to be located in the Grand Rapids banking market.[2] Applicant's lead bank, Old Kent Bank & Trust Company ("Old Kent Bank"), which is also located in the Grand Rapids market, controls $764 million in deposits, representing 49 percent of market deposits, and Applicant ranks thereby as the largest banking organization in the market.[3] The second largest banking organization in the market, which ranks as the eleventh largest in the State, controls 22.8 percent of market deposits, and the market's third largest banking organization, which ranks second in the State, controls 20.3 percent of such deposits. In addition to the market's three largest banking organizations, 13 other banking organizations, including the first, fifth, and tenth largest banking organizations in the State, are also represented in the market. Although Applicant is the largest banking organization in the market, it does not appear that consummation of the subject proposal would significantly alter the structure of banking in the market.

As indicated above, both Grandville Bank and Wyoming Bank will be located in the Grand Rapids banking market. The city of Grandville, with a population of 12,000, is located about six miles southwest of Grand Rapids, and the Grandville Bank will primarily serve the southern portion of that city as well as the southwestern portion of the city of Wyoming. Applicant's lead bank operates one branch office in Grandville, and the only other banking office in the city proper, which is also the only organization legally capable of branching in Grandville, is the main office of a subsidiary bank of the State's largest banking organization. It is noted that no new banking office has been established in Grandville within the past few years although the population grew some 35 percent during the period 1960–1970, which is more than three times the population growth experienced by the overall Grand Rapids market as well as the State as a whole. Based on the past and projected population growth of Grandville, it appears that the area should be able to support an additional banking office without having undue adverse effects on any competing banks.

[1] All banking data, unless otherwise indicated, are as of December 31, 1974, and reflect bank holding company formations and acquisitions approved through July 31, 1975.

[2] The Grand Rapids banking market is approximated by the Grand Rapids RMA.

[3] All market data are as of June 30, 1974.

The city of Wyoming, with a population of 62,000, is located just south of Grand Rapids, and Wyoming Bank will primarily serve the south-central portion of Wyoming. In addition to a branch office of Applicant's lead bank, Wyoming also contains four branch offices of the market's second largest banking organization and four offices of a subsidiary bank of the third largest banking organization in the market, the latter being the only bank that may presently open additional branches in Wyoming under Michigan law. The Wyoming area has also experienced significant population growth in the past, as evidenced by a population growth of about 23 percent during the period from 1960–1970 (which is approximately twice that for the Grand Rapids market and for the State), and the prospects for continued growth in the area appear favorable. In view of the increasing demand for banking services resulting from such growth, it appears that the establishment of a bank by Applicant in Wyoming would not have any undue adverse effect on any competing banks.

The Board has previously expressed some concern about the competitive effects of expansion within a market by a market's largest banking organization, even where such expansion was through the establishment of a new bank. However, with respect to each of the proposals under consideration, it appears that Applicant is not seeking to preempt a banking site before there is a need for a bank. Moreover, consummation of neither of the proposals should raise significant barriers to entry from organizations without the Grand Rapids market. The Grand Rapids market in general, and the communities of Grandville and Wyoming in particular, should remain attractive for *de novo* entry by others. Accordingly, having considered all the facts of record in connection with each of Applicant's proposals, the Board concludes that the overall effects on competition will be no more than slightly adverse.

The financial condition, managerial resources and prospects of Applicant and its subsidiary banks are satisfactory. Grandville Bank and Wyoming Bank, as proposed new banks, have no operating history, but projected earnings and growth for each of the new banks appear favorable. Thus, banking factors are consistent with approval of the applications.

As indicated above, both Grandville and Wyoming have experienced significant population growth, with an accompanying increased demand for additional banking services. In addition to providing an additional banking office to each of their respective communities, Grandville Bank and Wyoming Bank will each offer a full range of banking services, some of which are not presently available from the banking offices now in Grandville and Wyoming. Some of the services to be offered by each of the proposed banks include special checking, longer banking hours, reduced loan rates, and

lower minimum deposits on 90-day certificates of deposits. In the Board's view, these considerations relating to convenience and needs of the communities to be served are consistent with approval of each of the applications and, moreover, outweigh any slightly adverse effects that might result therefrom. It is the Board's judgment that the proposed acquisitions would be in the public interest and that the applications should be approved.

On the basis of the record,[3a] the applications are approved for the reasons summarized above. The transactions shall not be made (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after that date, and (c) Old Kent Bank of Grandville, Grandville, Michigan, and Old Kent Bank of Wyoming, Wyoming, Michigan, shall be opened for business not later than six months after the effective date of this Order. Each of the periods described in (b) and (c) may be extended for good cause by the Board, or by the Federal Reserve Bank of Chicago pursuant to delegated authority.

By order of the Board of Governors,[4] effective October 2, 1975.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

[FR Doc.75-26875 Filed 10-6-75;8:45 am]

FEDERAL TRADE COMMISSION

STATEMENT OF ORGANIZATION

Regional Office Reorganization

The Federal Trade Commission announces a reorganization of its regional office structure. The most significant changes include a new regional office in Denver, transferring the New Orleans Regional Office to Dallas, and converting the Kansas City Regional Office into a field station of the Chicago Regional Office. In addition, the Commission has closed five field stations located in Philadelphia, Pennsylvania; Oak Ridge, Tennessee; Charlotte, North Carolina; Miami, Florida; and San Antonio, Texas; and has reactivated a field station in Honolulu, Hawaii.

Notice is hereby given that paragraph (b) of section 18 of the Statement of Organization, published May 18, 1971 (36 FR 9044), as amended August 3, 1971 (36 FR 14286), August 18, 1971 (36 FR 15768) and January 24, 1973 (38 FR 23355) is amended to read as follows:

SEC. 18. *The Regional Offices.* * * *

(b) The addresses of the respective regional offices, and of the field stations located in the area of each are as follows:

(1) *Atlanta Regional Office.* Federal Trade Commission, Room 800, 730 Peachtree Street NE., Atlanta, GA 30308.

(2) *Boston Regional Office.* Federal Trade Commission, Room 1301, 150 Causeway St., Boston, MA 02114.

(3) *Chicago Regional Office.* Federal Trade Commission, Suite 1437, 55 East Monroe Street, Chicago, IL 60603. Field Station: Federal Trade Commission, Room 2806, Federal Office Building, 911 Walnut Street, Kansas City, MO 64106.

(4) *Cleveland Regional Office.* Federal Trade Commission, Room 1339, Anthony J. Celebrezze Federal Office Building, 1240 East 9th Street, Cleveland, OH 44199.

(5) *Dallas Regional Office.* Federal Trade Commission, Room 452-b, 500 South Ervay Street, Dallas, TX 75201.

(6) *Denver Regional Office.* (To be established).

(7) *Los Angeles Regional Office.* Federal Trade Commission, Room 13209, Federal Building, 11000 Wilshire Boulevard, Los Angeles, CA 90024.

(8) *New York Regional Office.* Federal Trade Commission, 2243-EB, Federal Building, 26 Federal Plaza, New York, NY 10007.

(9) *San Francisco Regional Office.* Federal Trade Commission, 450 Golden Gate Avenue, Box 36005, San Francisco, CA 94102. Field Station: Federal Trade Commission, Room 605, Melim Building, 333 Queen Street, Honolulu, HI 96813.

(10) *Seattle Regional Office.* Federal Trade Commission, 28th Floor, Federal Building, 915 Second Avenue, Seattle, WA 98174.

(11) *Washington, D.C. Regional Office.* Federal Trade Commission, 6th Floor, Gelman Building, 2120 L Street, NW., Washington, DC 20037.

By direction of the Commission dated September 25, 1975.

CHARLES A. TOBIN,
Secretary.

[FR Doc.75-26829 Filed 10-6-75;8:45 am]

GENERAL ACCOUNTING OFFICE

REGULATORY REPORTS REVIEW

Receipt of Report Proposal

The following request for clearance of a report intended for use in collecting information from the public was received by the Regulatory Reports Review Staff, GAO, on October 1, 1975. See 44 U.S.C. 3512 (c) & (d). The purpose of publishing this notice in the FEDERAL REGISTER is to inform the public of such receipt.

The notice includes the title of the request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Written comments on the proposed FPC form are invited from all interested persons, organizations, public interest groups, and affected businesses. Because of the limited amount of time GAO has to review the proposed form, comments (in triplicate) must be received on or before October 28, 1975, and should be addressed to Mr. Carl F. Bogar, Assistant Director, Office of Special Programs, United States General Accounting Office, Room 5216, 425 I Street NW., Washington, D.C. 20548.

Further information may be obtained from Patsy J. Stuart of the Regulatory Reports Review Staff, 202-376-5425.

FEDERAL POWER COMMISSION

The Federal Power Commission (FPC) requests clearance for new rules and regulations providing for the systematic collection of data and information concerning producer and producer-affiliate expenditures, exploration and development activities, reserve additions, production and revenue. This information is to be collected in a new FPC Form No. 64, entitled Annual Report of Producer Expenditures, Exploration and Development Activity, Production, Reserve Additions and Revenues, and is to be filed by each person found by the Commission to be a "natural-gas company" within the meaning of the Natural Gas Act. The information is needed by the Commission in order to determine all facts and circumstances underlying the deepening national energy crisis and shortage of alternate domestic energy sources. FPC Form No. 64 is to be filed annually by 3500 respondents and it is estimated that an average of 200 hours will be required per response.

NORMAN F. HEYL,
Regulatory Reports Review Officer.

[FR Doc.75-26938 Filed 10-6-75;8:45 am]

GENERAL SERVICES ADMINISTRATION

[Federal Property Management Regs.; Temporary Reg. F-357]

ADMINISTRATOR, ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

Delegation of Authority

1. *Purpose.* This regulation delegates to the Administrator, Energy Research and Development Administration (ERDA), authority to enter into long term contracts for the purchase of gas and electric utility services.

2. *Effective date.* This regulation is effective on October 7, 1975.

3. *Delegation.* a. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, authority is delegated to the Administrator, Energy Research and Development Administration, to enter into contracts in accordance with section 201(a)(3) thereof, for a period not exceeding 10 years for the purchase of gas and electric utility services for the authorized programs of ERDA, under one or more of the following circumstances:

(1) Where there are obtained lower rates, larger discounts, or more favorable conditions of service than those available

[3a] Dissenting Statement of Governors Holland and Coldwell filed as part of the original document. Copies available upon request to the Board of Governors of the Federal Reserve System, Washington, D.C. 20551, or to the Federal Reserve Bank of Chicago.

[4] Voting for this action: Vice Chairman Mitchell and Governors Bucher, Wallich, and Jackson. Voting against this action: Governors Holland and Coldwell. Absent and not voting: Chairman Burns.

under contracts the firm term of which would not extend beyond a current fiscal year;

(2) Where connection or special facility charges payable under contracts the firm term of which would not extend beyond a current fiscal year are eliminated or reduced; or

(3) Where the utility refuses to render the desired service except under a contract the firm term of which extends beyond a current fiscal year.

b. This delegation of authority shall be subject to all provisions of Title III of said act with respect to such contracts, and to all other applicable provisions of law.

c. The authority delegated herein may be redelegated to any official or contracting officer of ERDA.

d. ERDA shall file with the General Services Administration as soon as practicable after the execution thereof a copy of each contract, any amendments thereto which it may execute pursuant to the authority granted by this delegation, and other pertinent data and information with respect to such contracts.

e. This authority shall be exercised in accordance with the polices, procedures, accordance prescribed by the General Services Administration, and shall be exercised in cooperation with the responsible officers, officials, and employees thereof.

4. *Effect on other issuances.* This regulation cancels FPMR Temporary Regulation F–10, June 13, 1967.

Dated: September 26, 1975.

ARTHUR F. SAMPSON,
Administrator of General Services.

[FR Doc.75-26863 Filed 10-6-75;8:45 am]

REGIONAL PUBLIC ADVISORY PANEL ON ARCHITECTURAL AND ENGINEERING SERVICES

Meeting

Pursuant to Pub. L. 92–463, notice is hereby given of a meeting of the Regional Public Advisory Panel on Architectural and Engineering Services, Region 9, October 22, from 10:00 a.m. to 4:00 p.m., California Room, 28th Floor, 525 Market Street, San Francisco, California. The meeting will be concerned with the review of the conceptual design for the Exterior Remodeling, Appraiser's Building, 630 Sansome Street, San Francisco, California. Frank and open critical analysis of the proposed design is essential to insure that the design approach produces the best possible design solution. Accordingly, pursuant to a determination that it will be concerned with a matter listed in 5 U.S.C. 552(b) (5) the meeting will not be open to the public.

Dated: September 25, 1975.

ROSS A. BIATEK,
Acting Regional Administrator.

NUCLEAR REGULATORY COMMISSION

[Docket No. 70–1729]

ALLIED-GENERAL NUCLEAR SERVICES, ET AL.

Special Prehearing Conference

In the matter of Allied-General Nuclear Services; Allied Chemical Nuclear Products, Inc.; General Atomic Company (Barnwell Fuel Receiving and Storage Station).

Please take notice that the Atomic Safety and Licensing Board will hold a special prehearing conference of the parties, petitioners and other participants in the captioned proceeding commencing at 10 a.m., local time, on Thursday, October 16, 1975, at the following location in Columbia, South Carolina: Town House Motor Inn, 1615 Gervais Street, Columbia, South Carolina 29201.

The conference will deal with the following matters:

(1) Identification of the key issues in the proceeding;

(2) Consideration of all intervention petitions to allow the Board to make such determination as to the parties to the proceeding, as may be appropriate,[1] and

(3) Establish a schedule for further actions in the proceeding.

Dated at Bethesda, Md., this 1st day of October 1975.

It is so ordered.

For the Atomic Safety and Licensing Board.

ROBERT M. LAZO,
Chairman.

[FR Doc.75-26954 Filed 10-6-75;8:45 am]

[Docket No. 70–1729]

ALLIED-GENERAL NUCLEAR SERVICES, ET AL. (BARNWELL FUEL RECEIVING AND STORAGE STATION)

Hearing on Application for Materials License

Pursuant to the Atomic Energy Act of 1954, as amended (the Act), the National Environmental Policy Act of 1969 (NEPA), and the regulations in Title 10, Code of Federal Regulations, Part 70, "Special Nuclear Material", Part 30, "Rules of General Applicability to Licensing of Byproduct Material", Part 40, "Licensing of Source Material", Part 51, "Licensing and Regulatory Policy and Procedures for Environmental Protection," and Part 2, "Rules of Practice," notice is hereby given that in accordance with the Memorandum and Order of the Atomic Safety and Licensing Board designated to rule on petitions, dated October 1, 1975, a hearing will be held before an Atomic Safety and Licensing Board (Board) to consider the application filed by Allied-General Nuclear Services, Allied Chemical Nuclear Products, Inc., and General Atomic Company (Applicants) for a materials license which would authorize the Applicants to receive and possess irradiated fuel assemblies (byproduct material, source material and special nuclear material) at the Barnwell Fuel Receiving and Storage Station (BFRSS) of the Barnwell Nuclear Fuel Plant (BNFP) located on the Applicants' site six miles west of the town of Barnwell, Barnwell County, South Carolina. The hearing will be held at a time and place to be set by the Board.

The BNFP Separations Facility which is being constructed pursuant to Construction Permit No. CPCSF–4 issued by the Commission on December 18, 1970, is the subject of a separate ongoing hearing before an Atomic Safety and Licensing Board. The proceeding on the BNFP Separations Facility is a consolidation of the hearing pursuant to 10 CFR Part 50, Appendix D, Section B, on environmental issues relating to the Construction Permit and the hearing concerning the application for a facility operating license pursuant to 10 CFR Part 50 to operate BNFP Separations Facility.

The Board, designated by the Chairman of the Atomic Safety and Licensing Board Panel to preside over the materials license proceeding will consist of Dr. A. Dixon Callihan, Dr. Richard F. Cole and Robert M. Lazo, Esquire, Chairman.

A "Notice of Receipt of Application for Materials License; Notice of Consideration of Issuance of Materials License and Notice of Opportunity for Hearing" was published in the FEDERAL REGISTER on July 7, 1975 (40 FR 28506). The Notice provided that by August 6, 1975 (30 days from date of publication), any person whose interest may be affected by this proceeding may, in accordance with the provisions of the Commission's "Rules of Practice" in 10 CFR Part 2, file a petition for leave to intervene with respect to the issuance of the materials license.

A petition satisfying the basic requirements of the Commission's rules of practice was filed by Ms. Ruth S. Thomas, on behalf of the joint petitioners Environmentalists, Inc., South Carolina Environmental Action, Inc., and Piedmont Organic Movement. This petition to intervene has been granted[1] and the joint petitioners will be admitted as a party to the proceeding (Joint Intervenors).

A prehearing conference or conferences will be held by the Board, at a date and place to be set by it, to consider pertinent matters in accordance with the Commission's "Rules of Practice". The date and place of the evidentiary hearing will be set by the Board at or after

[1] See Board's Memorandum and Order, Allied-General Nuclear Services, et al., Barnwell Fuel Receiving and Storage Station, Docket No. 70–1729, October 1, 1975.

[1] See Memorandum and Order of Atomic Safety and Licensing Board designated to rule on petitions, October 1, 1975.

the prehearing conference. Notices as to the dates and places of the prehearing conference and the evidentiary hearing will be served on each of the participating parties and will be published in the FEDERAL REGISTER. The specific issues to be considered at the hearing will be determined by the Board.

For further details, pertinent to the matters under consideration, see the application for the license dated July 3, 1974, the Applicants' environmental report for the Separations Facility containing information necessary for the Commission's environmental review of the BFRSS, and the Commission's draft environmental statement identified as NUREG–75/026 and dated May, 1975, which are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Local Public Document Room, Barnwell County Courthouse, c/o T. E. Richardson, Chairman, Board of Commissioners, P.O. Box 443, Barnwell, S.C. 29812. As they become available, the following documents may also be inspected at the above locations: (1) the Safety Evaluation Report prepared by the Office of Nuclear Material Safety and Safeguards; (2) the Commission's Final Environmental Statement; (3) the proposed license; and other relevant documents. Copies of the Safety Evaluation Report and the Final Environmental Statement may be purchased, when available, from the National Technical Information Service, Springfield, Virginia 22161.

The Draft Environmental Statement, the proposed license when available, and other relevant documents when available, may be obtained by request to the Director, Division of Materials and Fuel Cycle Facility Licensing, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

Any person who wishes to make an oral or written statement in this proceeding, but who has not filed a petition for leave to intervene, as noted above, may request permission to make a limited appearance pursuant to the provisions of 10 CFR 2.715 of the Commission's "rules of practice". Limited appearances will be permitted at the time of the hearing in the discretion of the Board, within such limits and on such conditions as may be determined by it. Persons desiring to make a limited appearance are requested to inform the Secretary of the Commission, United States Nuclear Regulatory Commission, Washington, D.C. 20555, on or before November 6, 1975. A person permitted to make a limited appearance does not become a party, but may state his position and raise questions which he would like to have answered to the extent that the questions are within the scope of the hearing as specified above. A member of the public does not have the right to participate unless he has been granted the right to intervene as a party or the right of limited appearance.

An answer to this notice, pursuant to the provisions of 10 CFR 2.705 of the Commission's "rules of practice", may be filed by the parties to this proceeding on or before October 28, 1975.

Papers required to be filed in this proceeding may be filed by mail or telegram addressed to the Secretary of the Commission, United States Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, or may be filed by delivery to the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C.

Pending further order of the Hearing Board designated for this proceeding, parties are required to file, pursuant to the provisions of 10 CFR 2.708 of the Commission's "rules of practice", an original and twenty (20) conformed copies of each such paper with the Commission.

Dated at Bethesda, Md., this 1st day of October, 1975.

It is so ordered.

For the Atomic Safety and Licensing Board (designated to rule on petitions for leave to intervene).

ROBERT M. LAZO,
Chairman.

[FR Doc.75-26955 Filed 10-6-75;8:45 am]

[Docket No. 50-332]

ALLIED-GENERAL NUCLEAR SERVICES, ET AL.

BARNWELL NUCLEAR FUEL PLANT SEPARATIONS FACILITY

Resumption of Hearing

Please take notice that the evidentiary hearing being held before an Atomic Safety and Licensing Board to consider environmental matters related to the construction of the Barnwell Nuclear Fuel Plant Separations Facility, and to consider the application for issuance of an operating license for such Facility, will resume on Tuesday, October 14, 1975, at 11 a.m., local time in: Town House Motor Inn, 1615 Gervais Street, Columbia, South Carolina 29201.

The Board anticipates that this forthcoming session of the evidentiary hearing will be completed by Wednesday afternoon, October 15, 1975, at which time the hearing will be continued until a later date to be agreed upon by the parties.

A special prehearing conference in the related proceeding (Docket No. 70–1729) concerning the issuance of a Materials License for the Barnwell Fuel Receiving and Storage Station, has been scheduled to convene at 10 a.m., Thursday, October, 16, 1975 at the same location.

Members of the public are welcome to attend.

Dated at Bethesda, Md., this 1st day of October 1975.

It is so ordered.

For the Atomic Safety and Licensing Board.

ROBERT M. LAZO,
Chairman.

DUKE POWER CO.

Availability of Final Environmental Statement for Cherokee Nuclear Station, Units 1, 2, and 3

Pursuant to the National Environmental Policy Act of 1969 and the United States Nuclear Regulatory Commission's regulations in 10 CFR Part 51, notice is hereby given that the Final Environmental Statement prepared by the Commission's Office of Nuclear Reactor Regulation, related to the proposed Cherokee Nuclear Station, Units 1, 2, and 3 to be constructed in Cherokee County, South Carolina, is available for inspection by the public in the Commission's Public Document Room at 1717 H Street, NW., Washington, D.C. and in the Cherokee County Library, 300 E. Rutledge Avenue, Gaffney, South Carolina. The final Environmental Statement is also being made available at the State Clearinghouse, Division of Administration, 1205 Pendleton Street, 4th floor, Columbia, South Carolina, and at the South Carolina Appalachian Council of Governments, Drawer 6668, 211 Century Drive, Greenville, South Carolina.

The notice of availability of the Draft Environmental Statement for the Cherokee Nuclear Station, Units 1, 2, and 3 and requests for comments from interested persons was published in the FEDERAL REGISTER on April 4, 1975 (40 FR 15138). The comments received from Federal, State, local and interested members of the public have been included as appendices to the Final Environmental Statement.

Copies of the Final Environmental Statement (Document No. NUREG–75/089) may be purchased, at $7.25 for printed copies and $2.25 for microfiche, from the National Technical Information Service, Springfield, Va. 22161.

Dated at Rockville, Md., this 29th day of September, 1975.

For the Nuclear Regulatory Commission.

WM. H. REGAN, Jr.,
Chief, Environmental Projects Branch 4, Division of Reactor Licensing.

[FR Doc.75-26828 Filed 10-6-75;8:45 am]

[Docket No. 50-331]

IOWA ELECTRIC LIGHT AND POWER CO., ET AL.

Issuance of Amendment to Facility Operating License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 11 to Facility Operating License No. DPR–49 issued to Iowa Electric Light and Power Company, Central Iowa Power Company, and Corn Belt Power Cooperative, which revised Technical Specifications for operation of the Duane Arnold Energy Center, located in Linn County, Iowa. The amendment is effective as of its date of issuance.

The amendment revises the provisions in the Technical Specifications relating to the temperature limits for the pressure suppression pool water, in accordance with the licensee's application for amendment dated March 27, 1975.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Ch. I, which are set forth in the license amendment. Notice of Proposed Issuance of Amendment to Facility Operating License in connection with this action was published in the FEDERAL REGISTER on July 24, 1975 (40 FR 31045). No request for a hearing or petition for leave to intervene was filed following notice of the proposed action.

For further details with respect to this action, see (1) the application for amendment dated March 27, 1975, (2) Amendment No. 11 to License No. DPR-49, with Change No. 12, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Cedar Rapids Public Library, 426 Third Avenue, SE., Cedar Rapid, Iowa 52401.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Md., this 29th day of September, 1975.

For the Nuclear Regulatory Commission.

GEORGE LEAR,
Chief Operating Reactors Branch #3, Division of Reactor Licensing.

[FR Doc.75-26787 Filed 10-6-75;8:45 am]

[Docket No. STN 50-437]

OFFSHORE POWER SYSTEMS, (FLOATING NUCLEAR POWER PLANTS)

Availability of NRC Final Environmental Statement for Manufacturing License

Pursuant to the National Environmental Policy Act of 1969 and the United States Nuclear Regulatory Commission's regulations in Appendix M to 10 CFR Part 50 and 10 CFR Part 51, notice is hereby given that Part I of the Final Environmental Statement prepared by the Commission's Office of Nuclear Reactor Regulation related to the proposed manufacture of eight floating nuclear power plants in Jacksonville, Florida, by Offshore Power Systems (a joint venture of Westinghouse Electric Corporation and Westinghouse International Power Systems Company, Incorporated), is available for inspection by the public in the Commission's Public Document Room at 1717 H Street, NW., Washington, D.C., the Jacksonville Public Library, 122 North Ocean Street, Jacksonville, Florida; the Stockton State College Library, Pomona, New Jersey; and the New Orleans Public Library, Business and Science Division, 219 Loyola Avenue, New Orleans, Louisiana. This Final Statement is also being made available at the Bureau of Intergovernmental Relations, State Planning and Development Clearinghouse, 725 South Bronough Street, Tallahassee, Florida, and at the Jacksonville Area Planning Board, 330 E. Bay Street, Jacksonville, Florida.

The notice of availability of this portion of the Draft Environmental Statement for Offshore Power Systems' application for a manufacturing license and request for comments from interested persons was published in the FEDERAL REGISTER on July 30, 1974 (39 FR 27601). The comments received from Federal, State, and local agencies and interested members of the public have been included as an appendix to the Final Environmental Statement.

Copies of the Final Statement (Document No. NUREG 75/091) may be purchased from the National Technical Information Service, Springfield, Virginia 22161, at a cost of $6.25 for printed copies and $2.25 for microfiche.

This portion of the Final Environmental Statement focuses on the conduct of manufacturing activities in Jacksonville, Florida. Also pursuant to the National Environmental Policy Act and the Commission's regulations cited above, the Office of Nuclear Reactor Regulation will prepare Part II of the Draft Environmental Statement covering the siting and operation of floating nuclear power plants in typical areas in the coastal waters of the Atlantic Ocean and the Gulf of Mexico, as well as certain estuarine locations. Notice of availability of the Draft Environmental Statement—Part II—will be published in the FEDERAL REGISTER with opportunity for comments from interested persons. Upon consideration of comments submitted with respect to the second Draft Environmental Statement, the Commission will prepare a final environmental statement, the availability of which will be published in the FEDERAL REGISTER.

Dated at Rockville, Md., this 1st day of October 1975.

For the Nuclear Regulatory Commission.

GORDON K. DICKER,
Chief, Environmental Projects Branch 2, Division of Reactor Licensing.

[License No. 12-15023-02E]

PITTWAY CORP.

Issuance of Byproduct Material License

Please take notice that the Nuclear Regulatory Commission (NRC) has, pursuant to § 32.26 of 10 CFR Part 32, issued an amendment to License No. 12-15023-02E for Pittway Corporation (BRK Electronics), 525 Rathbone Avenue, Aurora, Illinois 60538, which authorizes the distribution of Models 2500A and 5000B smoke detectors to persons exempt from the requirements for a license pursuant to § 30.20 of 10 CFR Part 30.

1. The devices are designed to detect incipient fires by responding to the products of combustion produced by thermal decomposition of building materials or contents prior to the appearance of visible smoke, flame, or appreciable heat. The sensitive element of the detector is an ionization chamber in which air flowing into the chamber is made conductive by alpha particles emitted by americium-241. Distribution of detector Model 2500A containing a single ionization chamber was authorized under the original license (as amended). Distribution of detector Model 5000B containing an active and a reference ionization chamber is authorized by this amendment (No. 3).

2. The byproduct material incorporated in the detector is americium in oxide form contained in foils manufactured by Nuclear Radiation Developments (Model A-001) or Amersham Searle (Model AMM1000). The nominal activity contained in each ionization chamber is 2.5 microcuries.

3. Each exempt unit will have a label identifying the manufacturer (BRK Electronics) and the byproduct material (americium-241) contained in the unit and recommending that the unit be returned to BRK Electronics for repair or disposal.

A copy of the license and a safety evaluation containing additional information, perpared by the Division of Materials, are available for public inspection at the Commission's Public Document Room at 1717 H Street, NW., Washington, D.C.

Dated at Bethesda, Md., September 24, 1975.

For the Nuclear Regulatory Commission.

BERNARD SINGER,
Chief, Materials Branch, Division of Materials and Fuel Cycle Facility Licensing.

[FR Doc.75-26789 Filed 10-6-75;8:45 am]

REGULATORY GUIDE

Issuance and Availability

The Nuclear Regulatory Commission has issued a new guide in its Regulatory Guide Series. This series has been developed to describe and make available to the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

Regulatory Guide 3.37, "Guidance for Avoiding Intergranular Corrosion and Stress Corrosion in Austenitic Stainless Steel Components of Fuel Reprocessing Plants," specifies procedures acceptable to the NRC staff for controlling the use

and testing of austenitic stainless steels to avoid intergranular corrosion and stress corrosion.

Comments and suggestions in connection with (1) items for inclusion in guides currently being developed (listed below) or (2) improvements in all published guides are encouraged at any time. Public comments on Regulatory Guide 3.37 will, however, be particularly useful in evaluating the need for an early revision if received by December 3, 1975.

Comments should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section.

Regulatory Guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Requests for single copies of issued guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future guides should be made in writing to the Director, Office of Standards Development, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Telephone requests cannot be accommodated. Regulatory Guides are not copyrighted and Commission approval is not required to reproduce them.

Other Division 3 Regulatory Guides currently being developed include the following:

Control of Stainless Steel Welding for Safety-Related Components of Fuel Reprocessing Plants.
Corrosion Testing and Evaluation of Metals for Application in Fuel Reprocessing Plants.
General Fire Protection Guide for Fuel Reprocessing Plants.
Standard Format and Content of License Applications for Plutonium Processing and Fuel Fabrication Plants.
Standard Format and Content of License Applications for Commercial Waste Burial Facilities.
Quality Assurance for the Design, Construction, and Operation of Fuel Reprocessing Plants.
Guide for Design, Construction, and Operation of Ventilation Systems for Plutonium Fuel Manufacturing Plants.
Design Criteria for Plutonium Processing and Fuel Fabrication Plants.
Guide to the Preparation of Emergency Plans for Uranium and Plutonium Processing and Fuel Fabrication Plants.
Design Criteria for Spent Fuel Storage Facilities at HTGR Sites.
Guide for Design of Irradiated Fuel Receiving and Storage Facilities.
Assumptions Used for Evaluating the Consequences of a Criticality Accident in LWR Fuel Fabrication Plants.
Selection, Training, and Qualification of Personnel for Fuel Reprocessing Plants.
Temporary Storage of High-Level Liquid Waste at Fuel Reprocessing Plants.
Assumptions Used for Evaluating the Consequences of a Criticality Accident in Fuel Reprocessing Plants.
Emergency Water Supply Systems for Fuel Reprocessing Plants.
General Design Guide for Ventilation Systems for Fuel Reprocessing Plants.
Assumptions Used for Evaluating the Consequences of a Criticality Accident in Plutonium Processing and Fuel Fabrication Plants.
Confinement Structures and Systems for Plutonium Processing and Fuel Fabrication Plants.
Protection Systems for Fuel Reprocessing Plants and for Plutonium Processing and Fuel Fabrication Plants.
Design Basis Floods for Fuel Reprocessing Plants.
Criteria for Gaseous Radioactive Effluent Systems at Fuel Reprocessing Plants.
Design Criteria for Decommissioning of Nuclear Fuel Reprocessing Plants.
Definition of Radioactive Waste Categories.
Codes Applicable to Quality Control and Fabrication of Metallic Structures, Systems, and Components for Fuel Reprocessing Plants.
Administrative Controls for Nuclear Fuel Reprocessing Plants.
Identification of Accidents To Be Considered in Safety Analysis Reports for Enrichment Facilities.

(5 U.S.C. 552(a))

Dated at Rockville, Md., this 29th day of September 1975.

For the Nuclear Regulatory Commission.

[Docket No. 50-206]

SOUTHERN CALIFORNA EDISON CO. AND SAN DIEGO GAS AND ELECTRIC CO.

Issuance of Amendment to Provisional Operating License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 15 to Provisional Operating License No. DPR-13 issued to Southern California Edison Company and San Diego Gas and Electric Company (the licensee) which revised Technical Specifications for operation of the San Onofre Nuclear Generating Station, Unit 1, located in San Diego County, California. The amendment is effective as of its date of issuance.

The amendment changes the license and Technical Specifications to add standard provisions for special nuclear, source, and byproduct materials.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Ch. I, which are set forth in the license amendment. Prior public notice of this amendment is not required since the amendment does not involve a significant hazards consideration.

For further details with respect to this action, see (1) the application for amendment dated April 17, 1975, (2) Amendment No. 15 to License No. DPR-13, with Change No. 25, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., and at the San Clemente Public Library, 233 Granada Street, San Clemente, California 92672.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Md., this 29th day of September, 1975.

For the Nuclear Regulatory Commission.

ROBERT A. PURPLE,
Chief, Operating Reactors Branch #1, Division of Reactor Licensing.

[FR Doc.75-26790 Filed 10-6-75;8:45 am]

[Docket Nos. 50-259, 50-260]

TENNESSEE VALLEY AUTHORITY

Proposed Issuance of Amendments to Facility Operating Licenses

The Nuclear Regulatory Commission (the Commission) is considering issuance of amendments to Facility Operating Licenses Nos. DPR-33 and DPR-52 issued to Tennessee Valley Authority (the licensee), for operation of the Browns Ferry Nuclear Plant, Units 1 and 2, located in Limestone County, Alabama.

The amendments would modify in a number of details and would reinstate the Technical Specifications authorizing operation of Browns Ferry Nuclear Plant, Units 1 and 2, upon satisfactory completion of the work required to restore the plant following the March 22, 1975 fire. This work includes design modifications to provide additional protection against the damage of both redundant components of engineered safeguards equipment from postulated future fires.

The amendments would also revise the provisions in the Technical Specifications to permit operation of the facilities using operating limits based on the General Electric Thermal Analysis Basis (GETAB) and using modified operating limits based upon an evaluation of ECCS performance calculated in accordance with an acceptable evaluation model that conforms to the requirements of the Commission's regulations in 10 CFR 50.46. The amendments would modify various limits established in accordance with the Commission's Interim Acceptance Criteria and would terminate the further restrictions imposed by the Commission's December 27, 1974 Order for Modification of License and would impose instead, limitations established in accordance with the Commission's Acceptance Criteria for Emergency Core Cooling Systems for Light Water Nuclear Power Reactors, 10 CFR 50.46.

The amendments would also revise the provisions in the Technical Specifications to modify the flow-biased APRM neutron flux scram and rod block set points in accordance with the licensee's application dated July 16, 1975.

The amendments would also revise the provisions in the Technical Specifications relating to the temperature limits for

the pressure suppression pool water in accordance with the licensee's application dated April 21, 1975.

Prior to issuance of the proposed license amendments, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations.

By November 6, 1975 the licensee may file a request for a hearing and any person whose interest may be affected by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of the amendments to the subject facility operating licenses. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of § 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER notice and § 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, by the above date. A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555 and to Mr. Robert H. Marquis, General Counsel, 629 New Sprankle Building, Knoxville, Tennessee 37919, the attorney for the licensee.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both this interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see (1) the application for amendment dated August 13, 1975, (2) the application for amendment dated August 29, 1975, (3) the Commission's Order for Modification to License and the documents referred to in the Order dated December 27, 1974 (published in the FEDERAL REGISTER on January 9, 1975 (40 FR 1777), (4) the application for amendment dated July 16, 1975, (5) the application for amendment dated April 21, 1975, (6) the "Plan for Evaluation, Repair, and Return to Service of Browns Ferry Units 1 and 2 (March 22, 1975 Fire)" dated April 13, 1975 and revisions thereto, and (7) Amendments No. 14 and 11 to Licenses No. DPR–33 and DPR–52, respectively, with the related Safety Evaluation dated September 2, 1975, which are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington D.C. and at the Athens Public Library, South and Forrest, Athens, Alabama 35611. The license amendments and the Safety Evaluation, when issued, may be inspected at the above locations and a copy may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Md., this 30th day of September 1975.

For the Nuclear Regulatory Commission.

ROBERT A. PURPLE,
Chief, Operating Reactors Branch, #1, Division of Reactor Licensing.

[Docket Nos. STN–50–518–STN 50–521]

TENNESSEE VALLEY AUTHORITY (HARTSVILLE NUCLEAR PLANTS, UNITS 1A, 2A, 1B AND 2B)

Prehearing Conference

Pursuant to the schedule for further actions in these proceedings, contained in Special Prehearing Conference Order #2, dated August 8, 1975, there will be a prehearing conference beginning at 10:00 AM on October 14, 1975 in the United States Court House, Court Room #1, 8th Avenue and Broad Street, Nashville, Tennessee 37203.

The conference will consider any steps necessary for the further identification of the issues. The Board will discuss further the areas of its special interests and will review with the parties their efforts to stipulate and obtain admissions of fact. It will also review the contents and authenticity of documents to be offered in evidence in order to avoid unnecessary proof. It will discuss the identity of witnesses, the number of expert witnesses which the parties will sponsor, and steps to expedite the presentation of evidence.

The Staff's analysis of the agreement entered into between the Town of Hartsville, Tennessee and the Tennessee Valley Authority will be received and discussed (See Special Prehearing Conference Order #2, p. 17).

A report on areas of possible disagreements in the Nuclear Regulatory Commission's Final Environmental Statement will be made by the Applicant, TVA (See Special Prehearing Conference Order #2, p. 17).

The Public is invited to attend this prehearing conference.

Dated at Bethesda, Md., this 1st day of October 1975.

It is so ordered.

For the Atomic Safety and Licensing Board.

JOHN F. WOLF,
Chairman.

[Docket No. 50–407]

UNIVERSITY OF UTAH

Issuance of a Facility Operating License

Notice is hereby given that the Nuclear Regulatory Commission (the Commission) has issued Facility Operating License No. DPR–126 to the University of Utah (the licensee) authorizing operation of the TRIGA Mark 1 nuclear reactor (the facility) located on the licensee's campus at Salt Lake City, Utah at steady state reactor core power levels not in excess of 100 kilowatts thermal, in accordance with the provisions of the license and the Technical Specifications.

The Commission has made appropriate findings as required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations in 10 CFR Ch. I, which are set forth in the license. The application for the license complies with the standards and requirements of the Act and the Commission's rules and regulations. Notice of Proposed Issuance of Construction Permit and Facility License was published in the FEDERAL REGISTER on March 12, 1973 (38 FR 6713). No request for a hearing or petition for leave to intervene was filed following notice of the proposed action.

The license is effective as of its date of issuance and shall expire on April 24, 1983.

A copy of Facility Operating License No. DPR–126, complete with Technical Specifications (Appendix A) the Safety Evaluation dated March 2, 1973, Supplement 1 to the Safety Evaluation, Negative Declaration and Environmental Impact Appraisal, issued concurrently with this notice are available for public inspection at the Commission's Public Document Room at 1717 H Street NW., Washington, D.C. A copy of the license may be obtained upon request addressed to the United States Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Md., this 30th day of September 1975.

For the Nuclear Regulatory Commission.

ROBERT A. PURPLE,
Chief, Operating Reactors Branch No. 1, Division of Reactor Licensing.

[FR Doc.75–26792 Filed 10–6–75;8:45 am]

[Docket No. 50-407]

UNIVERSITY OF UTAH RESEARCH REACTOR

Negative Declaration Regarding a Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has considered the issuance of a Facility Operating License for the University of Utah (UU). The license would authorize UU to operate a research reactor at power levels up to 100 kilowatts (thermal).

The U.S Nuclear Regulatory Commission, Division of Reactor Licensing, has prepared an environmental impact appraisal for this research reactor. On the basis of this appraisal, we have concluded that an environmental impact statement for this particular action is not warranted because there will be no significant environmental impact attributable to the proposed action. The environmental impact appraisal is available for public inspection at the Commission's Public Document Room at 1717 H Street, NW, Washington, D.C., and a copy may be obtained upon request addressed to the United States Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Md., this 4th day of September, 1975.

For the Nuclear Regulatory Commission.

JAN A. NORRIS,
Acting Chief, Environmental Projects Branch 4, Division of Reactor Licensing.

NATIONAL SCIENCE FOUNDATION

ADVISORY PANEL FOR SYSTEMATIC BIOLOGY

Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, the National Science Foundation announces the following meeting:

1. Name: Advisory Panel for Systematic Biology.
2. Date: October 30 and 31, 1975.
3. Time: 9 a.m. each day.
4. Place: Rm. 543, National Science Foundation, 1800 G Street NW., Washington, D.C.
5. Type of meeting: Closed.
6. Contact Person: Dr. William B. Heed, Program Director for Systematic Biology, Rm. 336, National Science Foundation, Washington, D.C., 20550, telephone 202/632-5846.
7. Purpose of Advisory Panel: To provide advice and recommendations concerning support for research in systematic biology.
8. Agenda: To review and evaluate individual research proposals.
9. Reason for closing: The proposals being reviewed contain information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals.
10. Authority to close meeting: These matters are within the exemptions of 5 U.S.C. 552(b), (4), (5), and (6). The closing of this meeting is in accordance with the determination by the Director of the National Science Foundation, dated February 21, 1975, pursuant to the provisions of section 10(d) of Pub. L. 92-463.

M. R. WINKLER,
Acting Committee Management Officer.

SECURITIES AND EXCHANGE COMMISSION

[File No. 500-1]

AMERICAN HOME SHIELD CORP.

Suspension of Trading

SEPTEMBER 29, 1975.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock of American Home Shield Corporation being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

Therefore, pursuant to section 12(k) of the Securities Exchange Act of 1934, trading in such securities otherwise than on a national securities exchange is suspended, for the period from 10:30 a.m. (e.d.t.) on September 29, 1975 through midnight (e.d.t.) on October 8, 1975.

By the Commission.

SHIRLEY E. HOLLIS,
Assistant Secretary.

[Release No. 34-11696; File No. SR-CSE-75-1]

CINCINNATI STOCK EXCHANGE

Proposed Initiation and Transfer Fees Amendment

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on September 22, 1975, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

DELETION SECTION 26(c)—RULES

Section 26 ((c) Initiation and transfer fees paid by applicants for membership as provided in subparagraphs (a) and (b) of this section shall be added to and become a part of the capital of the Exchange, and the Board of Trustees shall have power to invest the same in the manner provided in Section 7.)

STATEMENT OF BASIS AND PURPOSE

The basis and purpose of the foregoing proposed rule change is as follows:

The Board of Trustees of The Cincinnati Stock Exchange, by resolution of June 19, 1975, defined income of the Exchange as all income excluding interest and dividends from investments which are included in the assets of the Exchange; and further defined expenses as all operating expenses excluding pension payments paid employees. Since, by resolution, all income from interest and dividends received from investments included in the assets of the Exchange are to be excluded from normal operating income and pension payments are not to be included in normal operating expenses, the Board of Trustees proposed that section 26(c) of the Rules of the Exchange be deleted in its entirety. Upon approval of the deletion of this section of the Rules, the Board adopted a resolution whereby all dividend and interest monies received from investments which are retained as assets of The Cincinnati Stock Exchange in the investment accounts, shall be deposited in the Investment Account of the current depository and that all payments of pensions to qualified employees shall be charged to this account.

No comments on the proposed rule change were received by the Cincinnati Stock Exchange from its members or from others. In addition, the Exchange states that the rule imposes no burden on competition.

The foregoing rule change has become effective, pursuant to section 19(b)(3) of the Securities Exchange Act of 1934. At any time within sixty days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Securities Exchange Act of 1934.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street, NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before November 6, 1975.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

[SEAL] SHIRLEY E. HOLLIS,
Assistant Secretary.

SEPTEMBER 30, 1975.

NATIONAL MARKET ADVISORY BOARD

Meeting

This is to give notice pursuant to section 10(a) of the Federal Advisory Committee Act, 5 U.S.C. App. I 10(a), that the National Market Advisory Board will conduct open meetings on October 27 and 28, November 17 and 18, and December 15 and 16, 1975 at 500 North Capitol Street, Washington, D.C. 20549, Room 776, beginning at 9:30 A.M.

The summarized agenda for the October meeting is as follows:

(1) Discuss the Board's mandate,
(2) Discuss a series of questions to be addressed,
(3) Discuss Board procedures,
(4) Discuss appropriate staff support, and
(5) Discuss such other matters as may be properly brought before the Board.

Further information may be obtained by writing Andrew P. Steffan, Director of Economic and Policy Research, Securities and Exchange Commission, Washington, D.C. 20549.

Dated: September 25, 1975.

[70-5698]

NATIONAL FUEL GAS CO. AND NATIONAL FUEL GAS SUPPLY CORP.

Proposed $8,000,000 Increase in Amount of Short-Term Notes to Banks by Holding Company and Corresponding Increase in Short-Term Notes to Holding Company by Subsidiary Company

Notice is hereby given that National Fuel Gas Company ("National"), 30 Rockefeller Plaza, New York, New York 10020, a registered holding company, and one of its subsidiary companies, National Fuel Gas Supply Corporation ("Supply Corporation"), 308 Seneca Street, Oil City, Pennsylvania 16301, have filed with this Commission, a post-effective amendment to the application-declaration in this proceeding pursuant to sections 6(a), 7, 9(a), and 10 of the Public Utility Holding Company Act of 1935 ("Act") regarding the following proposed transactions. All interested persons are referred to the amended application-declaration, which is summarized below, for a complete statement of the proposed transactions.

By order in this proceeding dated July 15, 1975 (HCAR No. 19087), the Commission, among other things, authorized National (1) to issue and sell, from time to time through December 31, 1975, its unsecured notes to a group of banks in an amount not to exceed $30,000,000 outstanding at any one time and (2) to acquire for cash with the proceeds of said bank notes up to $30,000,000 principal amount of short-term notes to be issued and sold by Supply Corporation. Both the notes of National and Supply Corporation were to mature within nine months of issuance.

By post-effective amendment, it is now proposed that National's notes to banks be increased to not in excess of $38,000,000 outstanding at any one time and that the notes to be acquired from Supply Corporation likewise be increased to $38,000,000. The additional $8,000,000 is to be borrowed by National from Marine Midland Bank-Western, Buffalo, New York. In all other respects the proposed transactions remain unchanged.

It is stated that the amount of funds, over and above internally generated funds, required by Supply Corporation for 1975 purchases of gas for underground storage purposes and/or working capital has been increased from $30,000,000 to $38,000,000.

No State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than October 20, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said post-effective amendment to the application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated addresses, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as amended, or as it may be further amended, may be granted and permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.75-26915 Filed 10-6-75;8:45 am]

[File No. 500-1]

W. T. GRANT CO.

Suspension of Trading

The common stock of W. T. Grant Company being traded on the New York Stock Exchange, the Boston Stock Exchange and the Midwest Stock Exchange, the 4¾ percent sinking fund debentures due 1987, the 4 percent convertible subordinated debentures due 1990, and the 4¾ percent convertible subordinated debentures due 1996 listed on the New York Stock Exchange pursuant to provisions of the Securities Exchange Act of 1934 and all other securities of W. T. Grant Company being traded otherwise than on a national securities exchange; and

It appearing to the Securities and Exchange Commission that the summary suspension of trading in such securities on such exchanges and otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

Therefore, pursuant to section 12(k) of the Securities Exchange Act of 1934, trading in such securities on the above mentioned exchanges and otherwise than on a national securities exchange is suspended, for the period from 9:30 a.m. (e.d.t.) on September 29, 1975 through midnight (e.d.t.) on October 8, 1975.

By the Commission.

[SEAL] SHIRLEY E. HOLLIS,
Assistant Secretary.

DEPARTMENT OF LABOR

Office of the Secretary

[TA-W-183]

AL-BERTO, INC.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On September 26, 1975 the Department of Labor received a petition filed under section 221(a) of the Trade Act of 1974 ("the Act") by the Amalgamated Clothing Workers of America, on behalf of the workers and former workers of Al-Berto, Incorporated, Baltimore, Maryland (TA-W-183).

Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with men's clothing produced by Al-Berto, Incorporated, or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public

hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than October 17, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., NW., Washington, D.C. 20210.

Signed at Washington, D.C. this 26th day of September 1975.

MARVIN M. FOOKS,
Acting Director, Office of Trade Adjustment Assistance.

[FR Doc.75-26888 Filed 10-6-75;8:45 am]

[TA-W-176]

AMERICAN COAT PAD CO.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On September 26, 1975 the Department of Labor received a petition filed under section 221(a) of the Trade Act of 1974 ("the Act") by the Amalgamated Clothing Workers of America, on behalf of the workers and former workers of The American Coat Pad Company, Baltimore, Maryland (TA-W-176).

Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with coat pads for coats, shoulder padding and sleeve heads (cotton padding) produced by The American Coat Pad Company, or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject mater of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than October 17, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., NW., Washington, D.C. 20210.

Signed at Washington, D.C. this 26th day of September 1975.

MARVIN M. FOOKS,
Acting Director, Office of Trade Adjustment Assistance.

[TA-W-191]

CAMBRIDGE TAILORING CO., INC.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On September 26, 1975 the Department of Labor received a petition filed under section 221(a) of the Trade Act of 1974 ("the Act") by the Amalgamated Clothing Workers of America, on behalf of the workers and former workers of Cambridge Tailoring Company, Baltimore, Maryland (TA-W-191).

Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with men's suits and sport coats, slacks and top coats produced by Cambridge Tailoring Company, Inc., or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than October 17, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., N.W., Washington, D.C. 20210.

Signed at Washington, D.C., this 26th day of September 1975.

MARVIN M. FOOKS,
Acting Director, Office of Trade Adjustment Assistance.

[TA-W-98]

CARLISLE TIRE AND RUBBER CO., CARLISLE, PA.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-98; investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on July 30, 1975 in response to a worker petition received on July 30, 1975 which was filed by workers formerly producing bicycle tires and tubes at the Carlisle Tire and Rubber Company, Carlisle, Pennsylvania.

The notice of investigation was published in the FEDERAL REGISTER (40 FR 33084) on August 6, 1975. No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Carlisle Tire and Rubber Company, its customers, U.S. Department of Commerce, U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated,

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely, and

(3) That increases of imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof contributed importantly to such total or partial separation, or threat thereof, and to such decline in sales or production.

For purposes of paragraph (3), the term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Significant total or partial separations. The average number of production workers declined 28 percent in the first half of 1975 compared to the like period in 1974. Average weekly hours declined 12 percent in the first half of 1975 compared to the like period in 1974.

Sales or production, or both, have decreased absolutely. Production of tires at Carlisle Tire and Rubber Company declined 58 percent in the first half of 1975 compared to the first half of 1974. Pro-

duction of tubes declined 61 percent in the first half of 1975 compared to the first half of 1974.

Sales of tires declined 57 percent in the first half of 1975 compared to the first half of 1974. Sales of tubes declined 56 percent in the first half of 1975 compared to the first half of 1974.

Increased imports contributed importantly. Imports of articles like directly competitive with tires produced at Carlisle Tire and Rubber Company increased from 10.6 million units in 1970 to 21.2 million units valued at $21,345,000 in 1974. The ratios of imports to domestic consumption and production increased from 57.5 percent and 135.2 percent, respectively in the first half of 1974 to 68.8 percent and 220.8 percent in the first half of 1975.

Imports of articles like or directly competitive with tubes produced at Carlisle increased from 12.8 million units in 1970 to 29.2 million units valued at $14,143,000 in 1974. The ratios of imports to domestic consumption and production increased from 57.9 percent and 137.3 percent, respectively in the first half of 1974 to 69.9 percent and 232.0 percent in the first half of 1975.

The evidence developed by the Department's investigation indicates that the separation of workers engaged in employment related to the production of bicycle tires and tubes at Carlisle Tire and Rubber Company was caused by the increase of competitive imports.

Customers favored imports which were of comparable quality but less expensive than domestically produced bicycle tires and tubes. Reduced sales led to production cutbacks and, in turn, separations of employees.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with bicycle tires and tubes produced at Carlisle Tire and Rubber Company contributed importantly to the total or partial separation of the workers of that plant. In accordance with the provisions of the Act, I make the following certification:

All hourly, piecework, and salaried workers engaged in employment related to the production of bicycle tires and tubes at Carlisle Tire and Rubber Company, Carlisle, Pennsylvania who became totally or partially separated from employment on or after October 3, 1974 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 30th day of September 1975.

HERBERT N. BLACKMAN,
Associate Deputy Under Secretary for Trade and Adjustment Policy.

[TA-W-184]

CROSS COUNTRY CLOTHES

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On September 26, 1975 the Department of Labor received a petition filed under section 221(a) of the Trade Act of 1974 ("the Act") by the Amalgamated Clothing Workers of America, on behalf of the workers and former workers of Cross Country Clothes, Northampton, Pennsylvania (TA-W-184).

Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with the manufacture of men's suits and sport coats produced by Cross Country Clothes, or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than October 17, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave. NW., Washington, D.C. 20210.

Signed at Washington, D.C., this 26th day of September 1975.

MARVIN M. FOOKS,
Acting Director, Office of Trade Adjustment Assistance.

[TA-W-193]

DEANSGATE, INC.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On September 26, 1975 the Department of Labor received a petition filed under section 221(a) of the Trade Act of 1974 ("the Act") by the Amalgamated Clothing Workers of America, on behalf of the workers and former workers of Deansgate, Incorporated, New Orleans, Louisiana (TA-W-193).

Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with men's suits, sport coats and trousers produced by Deansgate, Incorporated, or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than October 17, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., NW., Washington, D.C. 20210.

Signed at Washington, D.C., this 26th day of September 1975.

MARVIN M. FOOKS,
Acting Director, Office of Trade Adjustment Assistance.

[TA-W-182]

FRIEDMAN-MARKS CLOTHING CO.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On September 26, 1975 the Department of Labor received a petition filed under section 221(a) of the Trade Act of 1974 ("the Act") by the Amalgamated Clothing Workers of America, on behalf of the workers and former workers of Friedman-Marks Clothing Company, Richmond, Virginia (TA-W-182).

Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with men's suits produced by Friedman-Marks Clothing

Company, or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than October 17, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., NW., Washington, D.C. 20210.

Signed at Washington, D.C., this 26th day of September 1975.

MARVIN M. FOOKS,
Acting Director, Office of Trade Adjustment Assistance.

[TA-W-100]

GENERAL MOTORS CORP., DAYTON, OHIO

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-100: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on July 30, 1975 in response to a worker petition received on July 30, 1975 which was filed by the International Union of Electrical Radio and Machine Workers on behalf of workers formerly producing shock absorbers, energy absorbing bumper devices, fan clutches, grinders, hermetic motors and industrial motors and generators of the Delco Products Division of General Motors Corporation.

The notice of investigation was published in the FEDERAL REGISTER (40 FR 33714) on August 11, 1975. No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Delco Products, its customers, U.S. International Trade Commission, U.S. Department of Commerce, U.S. Department of Transportation, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated,

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely, and

(3) That increases of imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof contributed importantly to such total or partial separation, or threat thereof, and to such decline in sales or production.

For purposes of paragraph (3), the term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Significant total or partial separations. The average number of production workers declined 20 percent in the first quarter of 1975 compared to the fourth quarter in 1974.

Sales or production, or both, have decreased absolutely. Sales of automotive related products at the Dayton, Ohio plant declined 5 percent in the first half of 1975 compared to the first half of 1974.

Sales of small hermetics at the Dayton, Ohio plant declined 14 percent in the first half of 1975 compared to the first half of 1974.

Sales of industrial motors and generators at the Dayton, Ohio plant declined 35 percent in the first half of 1975 compared to the first half of 1974.

Sales of grinders at the Dayton, Ohio plant declined 40 percent in the first half of 1975 compared to the first half of 1974.

Increased imports contributed importantly. Automotive related products, small hermetics and grinders like or directly competitive with those produced at the Dayton, Ohio plant are not separately identified in the Tariff Schedules of the United States. Consequently, specific import data on these products is not available.

While imports of industrial motors and generators like or directly competitive with those produced at the Dayton, Ohio plant increased in the first half of 1975 compared to the first half of 1974, such products represent less than 2 percent of the Dayton operation's output.

The evidence developed in the Department's investigation indicates that the separation of workers engaged in the production of goods at the Dayton plant of Delco Products was not caused by the increase of competitive imports. In its automotive-related business Delco is a captive supplier of General Motors Corporation, with over 90 percent of its sales going to various divisions of General Motors. Those divisions have reduced purchases of the automotive products manufactured by Delco because of the effect of prevailing economic conditions in the United States on consumer demand for domestically produced autos. In all cases, Delco has either maintained or increased its relative share of the domestic market for automotive-related products.

Major customers of non-automotive products also reduced purchases of some goods from Delco Products recently. Although the industries and products involved were quite different, Delco customers agreed that reductions of purchases were related to decreased demand for their products as a result of economic conditions in the United States. No customers reported replacing Delco products from either domestic or foreign sources.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with automotive and non-automotive goods produced at the Dayton, Ohio plant of Delco Products Division of General Motors Corporation did not contribute importantly to the total or partial separations of the workers at such plant.

Signed at Washington, D.C., this 30th day of September 1975.

JAMES F. TAYLOR,
Director, Planning and Evaluation.

[TA-W-175]

HAAS TAILORING CO., INC.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On September 26, 1975 the Department of Labor received a petition filed under section 221(a) of the Trade Act of 1974 ("the Act") by the Amalgamated Clothing Workers of America, on behalf of the workers and former workers of The Haas Tailoring Company, Inc., Baltimore, Maryland (TA-W-175).

Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with men's suits and sport coats produced by The Hass Tailoring Company, Inc. or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partical separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group

meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than October 17, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., NW., Washington, D.C. 20210.

Signed at Washington, D.C., this 26th day of September 1975.

H. FREEMAN AND SON, INC.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On September 26, 1975, the Department of Labor received a petition filed under section 221(a) of the Trade Act of 1974 ("the Act") by the Amalgamated Clothing Workers of America on behalf of the workers and former workers of Norristown, Pennsylvania plant of H. Freeman and Son, Incorporated, Philadelphia, Pennsylvania (TA-W-197).

Accordingly, the Acting Director, Office of Trade Adustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with suiting trousers produced by H. Freeman and Son, Incorporated or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than October 17, 1975.

KNICKERBOCKER CLOTHING CO.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On September 26, 1975 the Department of Labor received a petition filed under section 221(a) of the Trade Act of 1974 ("the Act") by the Amalgamated Clothing Workers of America, on behalf of the workers and former workers of Knickerbocker Clothing Company, St. Louis, Missouri (TA-W-190).

Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with men's clothing—sport coats and suits produced by Knickerbocker Clothing Company, or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, of both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than October 17, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., NW., Washington, D.C. 20210.

Signed at Washington, D.C., this 26th day of September 1975.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On September 26, 1975 the Department of Labor received a petition filed under section 221(a) of the Trade Act of 1974 ("the Act") by the Amalgamated Clothing Workers of America, on behalf of the workers and former workers of Maryland Clothing Company, Inc., Baltimore, Maryland (TA-W-177).

Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with uniforms (military), men's suits and sport coats produced by Maryland Clothing Company, Inc., or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than October 17, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., NW., Washington, D.C. 20210.

Signed at Washington, D.C., this 26th day of September 1975.

MARVIN M. FOOKS,
Acting Director, Office of Trade Adjustment Assistance.

MERIT CLOTHING CO.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On September 26, 1975 the Department of Labor received a petition filed under section 221(a) of the Trade Act of 1974 ("the Act") by the Amalgamated Clothing Workers of America, on behalf of the workers and former workers of Merit Clothing Company, Martin, Tennessee (TA-W-186).

Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with men's tailored suits, sport coats, and slacks produced by Merit Clothing Company, or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than October 17, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., NW., Washington, D.C. 20210.

Signed at Washington, D.C., this 26th day of September 1975.

MARVIN M. FOOKS,
Acting Director, Office of Trade Adjustment Assistance.

[TA-W-180]

MODERN MANUFACTURING CO., INC.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On September 26, 1975 the Department of Labor received a petition filed under section 221(a) of the Trade Act of 1974 ("the Act") by the Amalgamated Clothing Workers of America, on behalf of the workers and former workers of Modern Manufacturing Company, Inc., Timonium, Maryland (TA-W-180).

Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in sec-

tion 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with men's sport coats produced by Modern Manufacturing Company, Inc., or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than October 17, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave. NW., Washington, D.C. 20210.

Signed at Washington, D.C., this 26th day of September 1975.

OAKLOOM CLOTHES, INC.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On September 26, 1975 the Department of Labor received a petition filed under section 221(a) of the Trade Act of 1974 ("the Act") by the Amalgamated Clothing Workers of America, on behalf of the workers and former workers of Oakloom Clothes, Inc., Baltimore, Maryland (TA-W-181).

Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with men's suits and sport coats produced by Oakloom Clothes, Inc., or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than October 17, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., N.W., Washington, D.C. 20210.

Signed at Washington, D.C., this 26th day of September 1975.

ROCKWELL INTERNATIONAL

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On September 29, 1975, the Department of Labor received a petition filed under section 221(a) of the Trade Act of 1974 ("the Act") on behalf of the workers and former workers of Reading, Pennsylvania, Knitting Machinery Division of Rockwell International, Pittsburgh, Pennsylvania (TA-W-199).

Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with knitting machinery produced by Rockwell International or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title

II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than October 17, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., NW., Washington, D.C. 20210.

Signed at Washington, D.C., this 29th day of September 1975.

[FR Doc.75-26905 Filed 10-6-75;8:45 am]

[TA-W-101]

STERLING ELECTRONICS CO., EASTON, PENNSYLVANIA

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-101: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on July 31, 1975 in response to a worker petition received on that date which was filed by the International Union of Electrical, Radio and Machine Workers on behalf of workers formerly producing transformers at the Easton, Pennsylvania plant of the Magnetic Windings Division of the Sterling Electronics Company.

The notice of investigation was published in the FEDERAL REGISTER (40 FR 33715) on August 11, 1975. No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Magnetic Windings Division, its customers, the U.S. Department of Commerce, U.S. International Trade Commission, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated,

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely, and

(3) That increases of imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof contributed importantly to such total or partial separation, or threat thereof, and to such decline in sales or production.

For purposes of paragraph (3), the term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Significant total or partial separations. The average number of production workers declined 53 percent in the first half of 1975 compared to the like period in 1974. Average weekly hours declined 12 percent in the first half of 1975 compared to the same period in 1974.

Sales or production, or both, have decreased absolutely. Production at the Easton, Pennsylvania plant declined 65 percent in the first half of 1975 compared to the first half of 1974.

Increased imports contributed importantly. Imports of transformers like or directly competitive with those produced by Magnetic Windings Division, although increasing in 1974, have been virtually negligible in recent years. The ratios of imports of transformers to domestic consumption and production increased from .66 percent and .64 percent respectivley in 1973, to .79 percent and .76 percent respectively in 1974.

The evidence developed in the Department's investigation indicates that the separation of workers engaged in the production of transformers at the Easton, Pennsylvania plant of the Magnetic Windings Division was not caused by the increase of competitive imports. The Magnetic Windings Division only produces transformers to customer specifications. The firm's customers indicated that they do not import customized transformers. Reductions in purchases of these transformers were related to the impact of the economic conditions in the United States.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with transformers produced at the Easton, Pennsylvania plant of the Magnetic Windings Division of the Sterling Electronics Company did not contribute importantly to the total or partial separations of the workers at such plant.

Signed at Washington, D.C. this 30th day of September 1975.

HERBERT N. BLACKMAN,
Associate Deputy Under Secretary for Trade and Adjustment Policy.

[TA-W-179]

T. I. SWARTZ AND SONS, INC.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On September 26, 1975 the Department of Labor received a petition filed under section 221(a) of the Trade Act of 1974 ("the Act") by the Amalgamated Clothing Workers of America, on behalf of the workers and former workers of T. I. Swartz and Sons, Inc., Baltimore, Maryland (TA-W-179).

Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with men's suits and sport coats produced by T. I. Swartz and Sons, Inc., or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than October 17, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., NW., Washington, D.C. 20210.

Signed at Washington, D.C., this 26th day of September 1975.

[TA-W-187]

TOM JAMES OF AMERICA, INC.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On September 26, 1975 the Department of Labor received a petition filed under

section 221(a) of the Trade Act of 1974 ("the Act") by the Amalgamated Clothing Workers of America, on behalf of the workers and former workers of English American Tailoring Co., East Baltimore, Md., and Carroll Mfg. Co., Westminister, Md., divisions of Tom James of America, Inc., Nashville, Tennessee (TA-W-187).

Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or diectly competitive with men's made to measure clothing produced by Tom James of America, Inc., or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than October 17, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., NW., Washington, D.C. 20210.

Signed at Washington, D.C., this 26th day of September 1975.

WEBSTER CLOTHES, INC.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On September 26, 1975 the Department of Labor received a petition filed under section 221(a) of the Trade Act of 1974 ("the Act") by the Amalgamated Clothing Workers of America, on behalf of the workers and former workers of Westminster Mfg. Plant of Webster Clothes, Inc., Westminster, Maryland (TA-W-188).

Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with men's clothing and furnishings produced by Webster Clothes, Inc., or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than October 17, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., NW., Washington, D.C. 20210.

WESTERN ELECTRIC CO., INC.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On September 29, 1975, the Department of Labor received a petition filed under section 221(a) of the Trade Act of 1974 ("the Act") by the Communication Workers of America on behalf of the workers and former workers of Western Electric Company, Inc., Kansas City Works, Lee's Summit, Missouri, a wholly owned subsidiary of American Telephone and Telegraph, New York, New York (TA-W-198). Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with micro wave & cable transmission systems, transistors, diodes, electron tubes, dry reed & mercury switches, telephone repeaters and sealed contacts produced by Western Electric Company, Incorporated, or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than October 17, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., N.W., Washington, D.C. 20210.

Signed at Washington, D.C., this 29th day of September 1975.

[TA-W-105]

WESTINGHOUSE ELECTRIC CORP., EAST PITTSBURGH, PENNSYLVANIA

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-105: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on July 31, 1975 in response to a worker petition received on July 31, 1975 which was filed by the International Union of Electrical, Radio and Machine Workers on behalf of workers formerly producing turbo generators and motors, water wheel generators and pumps, power circuit breakers and switchgear apparatus at the East Pittsburgh, Pennsylvania plant of Westinghouse Electric Corporation, Pittsburgh, Pennsylvania.

The notice of investigation was published in the FEDERAL REGISTER (40 FR

34493) on August 15, 1975. No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Westinghouse Electric Corporation, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated,

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely, and

(3) That increases of imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof contributed importantly to such total or partial separation, or threat thereof, and to such decline in sales or production.

For purposes of paragraph (3), the term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Significant total or partial separations. The average number of hourly and salaried workers employed in the three divisions of the East Pittsburgh plant of Westinghouse Electric decreased in the first seven months of 1975 compared to the like period of 1974. During that period employment of hourly and salaried workers respectively declined 16 percent and 3 percent in the Large Rotating Apparatus Division, declined 13 percent and 1 percent in the Switchgear Division and declined 8 percent in the Power Circuit Breaker Division.

Sales or production, or both, have decreased absolutely. Sales and production increased in value at each division of the East Pittsburgh plant from 1973 to 1974. In the first seven months of 1975, sales and production respectively decreased 3 percent and increased 4 percent in value in the Large Rotating Apparatus Division, rose 23 percent and 10 percent in value in the Switchgear Division and increased 37 percent and decreased 3 percent in value in the Power Circuit Breaker Division.

Increased imports contributed importantly. Imports of power generating equipment, like or directly competitive with that produced in the Large Rotating Apparatus Division, maintained a ratio to domestic production and consumption of 3 to 4 percent from 1970 through the first half of 1975. Imports of all types of switchgear apparatus increased as a ratio to domestic production and consumption from 5 percent in 1971 to 10 percent in 1974 and then declined to 8 percent in the first half of 1975. Imports of power circuit breakers, a type of switchgear apparatus, decreased as a ratio to domestic production and compensation from 19 percent and 20 percent respectively in 1973 to 7 percent and 8 percent respectively in 1974.

Layoffs in the three divisions of the East Pittsburgh plant were the direct result of extensive cancellations and deferrals of orders by electric utility companies that were forced to cut back power production because of the general decline in business activity. Major customers of the East Pittsburgh plant did not increase orders from foreign producers in 1974 or the first half of 1975.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with turbo generators and motors, water wheel generators and pumps, power circuit breakers and switchgear apparatus produced at the East Pittsburgh, Pennsylvania plant of Westinghouse Electric Corporation did not contribute importantly to the total or partial separations of the workers at such plant.

Signed at Washington, D.C., this 29th day of September, 1975.

GLORIA G. PRATT,
Director, Office of Foreign Economic Policy.

[TA-W-200]

WOLFF SHOE MANUFACTURING CO.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On September 29, 1975, the Department of Labor received a petition filed under section 221(a) of the Trade Act of 1974 ("the Act") on behalf of the workers and former workers of Wolff Shoe Manufacturing Company, Union, Missouri (TA-W-200).

Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with women's footwear produced by Wolff Shoe Manufacturing Company or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than October 17, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., NW., Washington, D.C. 20210.

Signed at Washington, D.C., this 29th day of September 1975.

MARVIN M. FOOKS,
Acting Director, Office of Trade Adjustment Assistance.

[Fifth Rev. Exemption No. 89; Rule 19; Ex Parte No. 241]

BURLINGTON NORTHERN INC., ET AL.

Exemption Under Provision of Mandatory Car Service Rules

It appearing, That the U.S. railroads own numerous 40-ft. plain boxcars; that under present conditions, there are substantial surpluses of these cars on the lines of the car owners; that return of these cars to the car owners would result in their being stored idle on these lines; that such cars can be used by other carriers for transporting traffic offered for shipments to points remote from the car owners; and that compliance with Car Service Rules 1 and 2 prevents such use of plain boxcars, resulting in unnecessary loss of utilization of such cars.

It is ordered, That pursuant to the authority vested in me by Car Service Rule 19, plain boxcars of railroad ownership described in the Official Railway Equipment Register, I.C.C. R.E.R. No. 396, issued by W. J. Treasize, or successive issues thereof, as having mechanical designation "XM," with inside length 44 ft. 6 in. or less, and which bear the reporting marks assigned to United States railroads, shall be exempt from the provisions of Car Service Rules 1(a), 2(a), and 2(b). (See Exceptions 1, 2, and 3.)

Exception No. 1.—This exemption does not supersede United States customs regulations applicable to cars owned by Canadian or Mexican railroads.

Exception No. 2.—This exemption shall not apply to cars subject to service orders issued by the Interstate Commerce Commission or to Directives issued by the Car Service Division of the Association of American Railroads, restricting the use of designated cars.

Exception No. 3.—This exemption shall not apply to 40-ft. boxcars owned by the railroads named below:

Burlington Northern Inc. Reporting Marks: BN, CBQ, GN, NP, SPS.

Chicago, Milwaukee, St. Paul and Pacific Railroad Company. Reporting Marks: MILW.

Illinois Central Gulf Railroad Company. Reporting Marks: CLG-GM&O-IC-ICG.[1]

The Kansas City Southern Railway Company. Reporting Marks: KCS.

Louisiana & Arkansas Railway Company. Reporting Marks: LA.

Maine Central Railroad Company. Reporting Marks: MEC.[1]

SOO Line Railroad Company. Reporting Marks: SOO.

Effective: September 26, 1975.

Expires: October 31, 1975.

Issued at Washington, D.C., September 19, 1975.

INTERSTATE COMMERCE COMMISSION,
[SEAL] R. D. PFAHLER,
Agent.

[FR Doc.75-26934 Filed 10-6-75;8:45 am]

[Exemption No. 85, Amdt. 4; Rule 19; Ex Parte No. 241]

EXEMPTION UNDER PROVISION OF THE MANDATORY CAR SERVICE RULES

Chicago, Milwaukee, St. Paul and Pacific Railroad Co. et al.

Upon further consideration of Exemption No. 85 issued September 11, 1974.

It is ordered, That, under the authority vested in me by Car Service Rule 19, Exemption No. 85 to the Mandatory Car Service Rules ordered in Ex Parte No. 241, be, and it is hereby amended to expire December 31, 1975.

This amendment shall become effective September 30, 1975.

Issued at Washington, D.C., September 25, 1975.

INTERSTATE COMMERCE COMMISSION,
[SEAL] LEWIS R. TEEPLE,
Agent.

FOURTH SECTION APPLICATIONS FOR RELIEF

OCTOBER 2, 1975.

An application, as summarized below, has been filed requesting relief from the requirements of Section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1100.40) and filed on or before October 22, 1975.

FSA No. 43052—*Ethylene Glycol to Penrose, N.C.* Filed by Southwestern Freight Bureau, Agent (No. B-565), for interested rail carriers. Rates on ethylene glycol, in tank-car loads, as described in the application, from points in Louisiana and Texas, to Penrose, N.C.

Grounds for relief—Market competition.

Tariff—Supplement 38 to Southwestern Freight Bureau, Agent, tariff 11-F, I.C.C. No. 5082. Rates are published to become effective on October 29, 1975.

FSA No. 43053—*Joint Water-Rail Container Rates—American President Lines, Ltd.* Filed by American President Lines, Ltd. (No. 19), for itself and interested rail carriers. Rates on general commodities, between ports in: (1) France, Italy, and Spain; (2) Sri Lanka, The Federation of Malaysia, Republic of Singapore, India, Indonesia, and Pakistan, and rail stations in the U.S.

Grounds for relief—Water competition.

FSA No. 43054—*Beet or Cane Sugar from Renville, Minnesota.* Filed by Southwestern Freight Bureau, Agent (No. B-558), for interested rail carriers. Rates on sugar, beet or cane, in carloads, as described in the application, from Renville, Minnesota, to Oklahoma City, Oklahoma.

Grounds for relief—Market competition.

Tariff—Supplement 321 to Southwestern Freight Bureau, Agent, tariff 3-G, I.C.C. No. 4685. Rates are published to become effective on November 13, 1975.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

Elimination of Gateway Letter Notices

OCTOBER 2, 1975.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's *Gateway Elimination* Rules (49 CFR Part 1065), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission by October 17, 1975. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will *not* operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 61825 (Sub-No. E185), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel products*, between points in Wetzel

[1] Addition.

County, W. Va., within 50 miles of Steubenville, Ohio, on the one hand, and, on the other, points in New York. The purpose of this filing is to eliminate the gateway of Weirton, W. Va.

No. MC 61825 (Sub-No. E186), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel products*, between points in Brooke County, W. Va., on the one hand, and, on the other, points in New York. The purpose of this filing is to eliminate the gateway of Weirton, W. Va.

No. MC 61825 (Sub-No. E187), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel products*, between points in Wetzel County, W. Va., within 50 miles of Steubenville, Ohio, on the one hand, and, on the other, points in Ashtabula, Carroll, Columbiana, Cuyahoga, Defiance, Erie, Fulton, Geauga, Hancock, Henry, Holmes, Huntingdon, Huron, Lake, Lorain, Lucas, Mahoning, Medina, Ottawa, Paulding, Portage, Putnam, Seneca, Stark, Summit, Trumbull, Van Wert, Wayne, Williams, and Wood. The purpose of this filing is to eliminate the gateway of Weirton, W. Va.

No. MC 61825 (Sub-No. E324), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, from points in Florida to Martinsville, Va. The purpose of this filing is to eliminate the gateway of Pulaski, Va.

No. MC 61825 (Sub-No. E325), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel products*, between points in Carroll County, Ohio, on the one hand, and, on the other, points in New York. The purpose of this filing is to eliminate the gateway of Weirton, W. Va.

No. MC 61825 (Sub-No. E326), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel products*, between points in Columbiana County, Ohio, on the one hand, and, on the other, points in New York (except points in Allegany, Cattaraugus, Chautauqua, Chemung, Erie, Genesee, Livingston, Monroe, Niagara, Ontario, Orleans, Schuyler, Seneca, Steuben, Wayne, Wyoming, and Yates Counties). The purpose of this filing is to eliminate the gateway of Weirton, W. Va.

No. MC 61825 (Sub-No. E327), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel products*, between points in Guernsey County, Ohio, within 50 miles of Steubenville, Ohio, on the one hand, and, on the other, points in New York. The purpose of this filing is to eliminate the gateway of Weirton, W. Va.

No. MC 61825 (Sub-No. E328), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel products*, between points in Harrison County, Ohio, on the one hand, and, on the other, points in New York. The purpose of this filing is to eliminate the gateway of Weirton, W. Va.

No. MC 61825 (Sub-No. E329), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel products*, between points in Jefferson County, Ohio, on the one hand, and, on the other, points in New York. The purpose of this filing is to eliminate the gateway of Weirton, W. Va.

No. MC 61825 (Sub-No. E330), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel products*, between points in Mahoning County, Ohio, within 50 miles of Steubenville, Ohio, on the one hand, and, on the other, Albany, Bronx, Clinton, Columbia, Delaware, Dutchess, Essex, Franklin, Fulton, Greene, Hamilton, Kings, Montgomery, Nassau, New York, Orange, Otsego, Putnam, Queens, Rensselaer, Richmond, Rockland, St. Lawrence, Saratoga, Schnectady, Schoharie, Suffolk, Sullivan, Ulster, Warren, Washington, and Westchester Counties, N.Y. The purpose of this filing is to eliminate the gateway of Weirton, W. Va.

No. MC 61825 (Sub-No. E331), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel products*, between points in Monroe County, Ohio, within 50 miles of Steubenville, Ohio, on the one hand, and, on the other, points in New York. The purpose of this filing is to eliminate the gateway of Weirton, W. Va.

No. MC 61825 (Sub-No. E333), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel products*, between points in Tuscarawas County, Ohio, within 50 miles of Steubenville, Ohio, on the one hand, and, on the other, points in New York. The purpose of this filing is to eliminate the gateway of Weirton, W. Va.

No. MC 61825 (Sub-No. E334), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel products*, between points in Belmont County, Ohio, on the one hand, and, on the other, points in Pennsylvania (except points in Beaver County, Pa.). The purpose of this filing is to eliminate the gateway of Weirton, W. Va.

No. MC 61825 (Sub-No. E335), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel products*, between points in Guernsey County, Ohio, within 50 miles of Steubenville, Ohio, on the one hand, and, on the other, points in Pennsylvania. The purpose of this filing is to eliminate the gateway of Weirton, W. Va.

No. MC 61825 (Sub-No. E336), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel products*, between points in Mahoning County, Ohio, within 50 miles of Steubenville, Ohio, on the one hand, and, on the other, points in Adams, Bedford, Berks, Bradford, Bucks, Carbon, Chester, Columbia, Cumberland, Dauphin, Franklin, Delaware, Fulton, Juniata, Lackawanna, Lancaster, Lebanon, Lehigh, Luzerne, Mifflin, Monroe, Montgomery, Northampton, Northumberland, Perry, Philadelphia, Pike, Schuylkill, Snyder, Somerset, Sullivan, Susquehanna, Wayne, Wyoming, and York Counties, Pa. The purpose of this filing is to eliminate the gateway of Weirton, W. Va.

No. MC 61825 (Sub-No. E337), filed May 13, 1974. Applicant: ROY STONE

TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, between points in Virginia on and bounded by a line beginning at Lexington, Va., and extending along U.S. Highway 11 to junction Virginia Highway 43, thence along Virginia Highway 43 to junction U.S. Highway 29, thence along U.S. Highway 29 to junction U.S. Highway 60, thence along U.S. Highway 60 to point of beginning, on the one hand, and, on the other, points in Illinois, and those points in Indiana and Michigan on, west, and north of a line beginning at Dexter, Ind., and extending along Indiana Highway 66 to junction Indiana Highway 37, thence along Indiana Highway 37 to junction Indiana Highway 46, thence along Indiana Highway 46 to junction Indiana Highway 59, thence along Indiana Highway 59 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction U.S. Highway 41, thence along U.S. Highway 41 to junction Indiana Highway 28, thence along Indiana Highway 28 to junction Indiana Highway 25, thence along Indiana Highway 25 to junction Indiana Highway 19, thence along Indiana Highway 19 to junction Michigan Highway 205, thence along Michigan Highway 205 to junction U.S. Highway 12, thence along U.S. Highway 12 to junction Interstate Highway 69, thence along Interstate Highway 69 to junction Michigan Highway 21, thence along Michigan Highway 21 to Port Huron and thence to Lake Huron. The purpose of this filing is to eliminate the gateways of Lynchburg and Pulaski, Va.

No. MC 61825 (Sub-No. E381), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, between points in Georgia on and southeast of a line beginning at the North Carolina-Georgia State line and extending along Lake Chatuge to U.S. Highway 76, thence along U.S. Highway 76 to junction U.S. Highway 19, thence along U.S. Highway 19 to junction U.S. Highway 19, thence along U.S. Highway 29 to the Georgia-Alabama State line, on the one hand, and, on the other, points in Ohio on and bounded by a line beginning at Gallipolis, Ohio, and extending along Ohio Highway 160 to junction Ohio Highway 346, thence along Ohio Highway 346 to junction Ohio Highway 681, thence along Ohio Highway 681 to junction Ohio Highway 356, thence along Ohio Highway 356 to junction Ohio Highway 56, thence along Ohio Highway 56 to junction Ohio Highway 278, thence along Ohio Highway 278 to junction Ohio Highway 595, thence along Ohio Highway 595 to junction Ohio Highway 93, thence along Ohio Highway 93 to junction Ohio Highway 37, thence along Ohio Highway 37 to junction Ohio Highway 345, thence along Ohio Highway 345 to junction U.S. Highway 22, thence along U.S. Highway 22 to junction Ohio Highway 60, thence along Ohio Highway 60 to junction Ohio Highway 179, thence along Ohio Highway 179 to junction Ohio Highway 95, thence along Ohio Highway 95 to junction Ohio Highway 89, thence along Ohio Highway 89 to junction Ohio Highway 58, thence along Ohio Highway 58 to Lorain, Ohio, thence along the shore of Lake Erie to the Ohio-Michigan State line, thence along the Ohio-Michigan State line to junction U.S. Highway 23, thence along U.S. Highway 23 to junction Ohio Highway 199, thence along Ohio Highway 199 to junction U.S. Highway 23, thence along U.S. Highway 23 to junction U.S. Highway 35, thence along U.S. Highway 35 to junction Ohio Highway 93, thence along Ohio Highway 93 to Ironton, Ohio, thence along the Ohio River to point of beginning, and, points in Michigan on and northeast of a line beginning at the Ohio-Michigan State line and extending along U.S. Highway 23 to junction Interstate Highway 96, thence along Interstate Highway 96 to junction U.S. Highway 27, thence along U.S. Highway 27 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction Michigan Highway 115, thence along Michigan Highway 115 to Frankfort, thence across Lake Michigan to Escanaba, Mich., thence along U.S. Highway 41 to junction U.S. Highway 2, thence along U.S. Highway 2 to the Michigan-Wisconsin State line, and thence along the Michigan-Wisconsin State line to Lake Superior. The purpose of this filing is to eliminate the gateway of Lynchburg, Ky.

No. MC 61825 (Sub-No. E382), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, between points in Georgia on and southeast of a line beginning at the South Carolina-Georgia State line and extending along U.S. Highway 29 to junction U.S. Highway 129, thence along U.S. Highway 129 to Macon, thence along U.S. Highway 41 to junction Georgia Highway 257, thence along Georgia Highway 257 to Albany, thence along Georgia Highway 91 to junction Georgia Highway 253, thence along Georgia Highway 253 to the Georgia-Florida State line, on the one hand, and, on the other, those points in Indiana, Iowa, Ohio, Michigan, and Wisconsin on and bounded by a line beginning at Ironton, Ohio, and extending along Ohio Highway 93 to junction U.S. Highway 35, thence along U.S. Highway 35 to junction U.S. Highway 23, thence along U.S. Highway 23 to junction Ohio Highway 199, thence along Ohio Highway 199 to junction U.S. Highway 23, thence along U.S. Highway 23 to junction Ohio Highway 199, thence along Ohio Highway 199 to junction U.S. Highway 23, thence along U.S. Highway 23 to junction Interstate Highway 96, thence along Interstate Highway 96 to junction U.S. Highway 27, thence along U.S. Highway 27 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction Michigan Highway 115, thence along Michigan Highway 115, thence along Michigan Highway 115 to Frankfort, thence across Lake Michigan to Escanaba, thence along U.S. Highway 41 to junction U.S. Highway 2, thence along U.S. Highway 2 to the Michigan-Wisconsin State line, thence along the Michigan-Wisconsin State line to Lake Superior.

Thence along the Northern Wisconsin coast to the Wisconsin-Minnesota State line, thence along the Wisconsin-Minnesota State line to the Minnesota-Iowa State line, thence along the Minnesota-Iowa State line to junction, U.S. Highway 18, thence along Iowa Highway 9 to junction U.S. Highway 52, thence along U.S. Highway 52 to juinction U.S. Highway 18, thence along U.S. Highway 18 to junction Wisconsin Highway 39, thence along Wisconsin Highway 39 to junction Wisconsin Highway 59, thence along Wisconsin Highway 59 to junction Wisconsin Highway 213, thence along Wisconsin Highway 213 to junction Wisconsin Highway 11, thence along Wisconsin Highway 11 to junction Wisconsin Highway 50, thence along Wisconsin Highway 50 to Kenosha, thence to Lake Michigan, thence across Lake Michigan to Lake Macatawa, thence along the shore of Lake Macatawa to Holland, Mich., thence along Michigan Highway 40 to junction Michigan Highway 119, thence along Michigan Highway 119 to junction Michigan Highway 216, thence along Michigan Highway 216 to junction U.S. Highway 131, thence along U.S. Highway 131 to junction Indiana Highway 13, thence along Indiana Highway 13 to junction U.S. Highway 33, thence along U.S. Highway 33 to junction Ohio Highway 66, thence along Ohio Highway 66 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction Ohio Highway 235, thence along Ohio Highway 235 to junction U.S. Highway 68, thence along U.S. Highway 68 to junction Ohio Highway 73, thence along Ohio Highway 73 to junction U.S. Highway 52, thence along U.S. Highway 52 to Portsmouth, Ohio, and thence along the Ohio River to the point of beginning. The purpose of this filing is to eliminate the gateway of Smythe County, Va.

No. MC 61825 (Sub-No. E383), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, between points in Tennessee, on the one hand, and, on the other, points in the District of Columbia and those points in Maryland and West Virginia on and east of U.S. Highway 220. The purpose of this filing is to eliminate the gateways of Smythe County and Lynchburg, Va.

No. MC 61825 (Sub-No. E384), filed May 13, 1974. Applicant: ROY STONE

TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, from points in Tennessee on and east of a line beginning at the Virginia-Tennessee State line and extending along U.S. Highway 23 to Junction U.S. Highway 11W, thence along U.S. Highway 11W to junction U.S. Highway 11, thence along U.S. Highway 11 to the Tennessee-Georgia State line, to points in Delaware and New Jersey and those points in New York and Pennsylvania on and east of a line beginning at the Maryland-Pennsylvania State line and extending along U.S. Highway 219 to junction Interstate Highway 70, thence along Interstate Highway 70 to junction Pennsylvania Highway 381, thence along Pennsylvania Highway 381 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Pennsylvania Highway 981, thence along Pennsylvania Highway 981 to junction Pennsylvania Highway 156, thence along Pennsylvania Highway 156 to junction Pennsylvania Highway 56, thence along Pennsylvania Highway 56 to junction Pennsylvania Highway 359, thence along Pennsylvania Highway 359 to junction Pennsylvania Highway 66, thence along Pennsylvania Highway 66 to junction Pennsylvania Highway 36, thence along Pennsylvania Highway 36 to junction U.S. Highway 62, thence along U.S. Highway 62 to junction New York Highway 60, thence along New York Highway 60 to junction New York Highway 17, thence along New York Highway 17 to junction U.S. Highway 62, thence along U.S. Highway 62 to Buffalo, thence along the United States-Canada International Boundary line to Lake Ontario. The purpose of this filing is to eliminate the gateways of Smyth County and Martinsville, Va.

No. MC 61825 (Sub-No. 385), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, from points in Tennessee on and bounded by a line beginning at the Virginia-Tennessee State line and extending along U.S. Highway 23 to junction U.S. Highway 11W, thence along U.S. Highway 11W to junction U.S. Highway 11, thence along U.S. Highway 11 to the Tennessee-Georgia State line, thence along the Tennessee-Georgia State line to the Tennessee-Alabama State line, thence along the Tennessee-Alabama State line to the Tennessee-Mississippi State line, thence along the Tennessee-Mississippi State line to the Tennessee-Arkansas State line, thence along the Tennessee-Arkansas State line to junction Tennessee Highway 59, thence along Tennessee Highway 59 to junction Tennessee Highway 54, thence along Tennessee Highway 54 to junction U.S. Highway 70, thence along U.S. Highway 70 to junction Tennessee Highway 20, thence along Tennessee Highway 20 to junction Tennessee Highway 99, thence along Tennessee Highway 99 to junction U.S. Highway 70S, thence along U.S. Highway 70S to junction Tennessee Highway 53, thence along Tennessee Highway 53 to junction U.S. Highway 70, thence along U.S. Highway 70 to junction Tennessee Highway 56, thence along Tennessee Highway 56 to junction Interstate Highway 40, thence along Interstate Highway 40 to junction Tennessee Highway 84, thence along Tennessee Highway 84 to junction Tennessee Highway 62.

Thence along Tennessee Highway 62 to junction U.S. Highway 27, thence along U.S. Highway 27 to the Tennessee-Kentucky State line, thence along the Tennessee-Kentucky State line to the Tennessee-Virginia State line, thence along the Tennessee-Virginia State line to the point of beginning to points in Delaware and New Jersey and in New York and Pennsylvania on and east of a line beginning at the Maryland-Pennsylvania State line and extending along U.S. Highway 219 to junction Pennsylvania Highway 160, thence along Pennsylvania Highway 160 to junction Interstate Highway 70, thence along Interstate Highway 70 to junction U.S. Highway 220, thence along U.S. Highway 220 to junction Pennsylvania Highway 350, thence along Pennsylvania Highway 350 to junction Pennsylvania Highway 53, thence along Pennsylvania Highway 53 to junction Pennsylavinia Highway 144, thence along Pennsylvania Highway 144 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction Pennsylvania Highway 349, thence along Pennsylvania Highway 349 to junction Pennsylvania Highway 49, thence along Pennsylvania Highway 49 to junction U.S. Highway 15, thence along U.S. Highway 15 to junction New York Highway 226, thence along New York Highway 226 to junction New York Highway 14A, thence along New York Highway 14A to junction New York Highway 14, thence along New York Highway 14 to junction Interstate Highway 90, thence along Interstate Highway 90 to junction New York Highway 38, thence along New York Highway 38 to junction U.S. Highway 104, thence along U.S. Highway 104 to Oswego and thence to Lake Ontario. The purpose of this filing is to eliminate the gateways of points in Smythe County and Martinsville, Va.

No. MC 61825 (Sub-No. E386), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, from points in Tennessee on, north, and west of a line beginning at the Arkansas-Tennessee State line and extending along Tennessee Highway 59 to junction Tennessee Highway 54, thence along Tennessee Highway 54 to junction U.S. Highway 70, thence along U.S. Highway 70 to junction Tennessee Highway 20, thence along Tennessee Highway 20 to junction Tennessee Highway 99, thence along Tennessee Highway 99 to junction U.S. Highway 70S, thence along U.S. Highway 70S to junction Tennessee Highway 53, thence along Tennessee Highway 53 to junction U.S. Highway 70, thence along U.S. Highway 70 to junction Tennessee Highway 56, thence along Tennessee Highway 56 to junction Interstate Highway 40, thence along Interstate Highway 40 to junction Tennessee Highway 84, thence along Tennessee Highway 84 to junction Tennessee Highway 62, thence along Tennessee Highway 62 to junction U.S. Highway 27, thence along U.S. Highway 27 to the Tennessee-Kentucky State line to points in Delaware and New Jersey and those points in New York and Pennsylvania on and east of a line beginning at the Maryland-Pennsylvania State line and extending along Interstate Highway 70 to junction Interstate Highway 76, thence along Interstate Highway 76 to junction Pennsylvania Highway 655, thence along Pennsylvania Highway 655 to junction U.S. Highway 322, thence along U.S. Highway 322 to junction Pennsylvania Highway 144, thence along Pennsylvania Highway 144 to junction Pennsylvania Highway 192, thence along Pennsylvania Highway 192 to junction Pennsylvania Highway 880, thence along Pennsylvania Highway 880 to junction Pennsylvania Highway 44, thence along Pennsylvania Highway 44 to junction Pennsylvania Highway 654, thence along Pennsylvania Highway 654 to Williamsport, thence along U.S. Highway 15 to junction Pennsylvania Highway 14, thence along Pennsylvania Highway 14 to junction New York Highway 17, thence along New York Highway 17 to junction New York Highway 13, thence along New York Highway 13 to junction New York Highway 80, thence along New York Highway 80 to junction New York Highway 12, thence along New York Highway 12 to junction New York Highway 28, thence along New York Highway 28 to junction New York Highway 30, thence along New York Highway 30 to the United States-Canada International Boundary line. The purpose of this filing is to eliminate the gateways of Smyth County and Martinsville, Va.

No. MC 61825 (Sub-No. E387), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, from points in Alabama on, north, and west of U.S. Highway 11, to points in Delaware, District of Columbia, Maryland, and New Jersey, and those points in New York, Pennsylvania, and West Virginia on and east of a line beginning at the Virginia-West Virginia State line and extending along West Virginia Highway 39 to junction U.S. Highway 219, thence along U.S. Highway 219 to the

West Virginia-Maryland State line, thence along the West Virginia-Maryland State line to junction Pennsylvania Highway 281, thence along Pennsylvania Highway 281 to junction U.S. Highway 40, thence along U.S. Highway 40 to junction Pennsylvania Highway 381, thence along Pennsylvania Highway 381 to junction Pennsylvania Highway 711, thence along Pennsylvania Highway 711 to junction Pennsylvania Highway 271, thence along Pennsylvania Highway 271 to junction U.S. Highway 219, thence along U.S. Highway 219 to junction Pennsylvania Highway 255, thence along Pennsylvania Highway 255 to junction Pennsylvania Highway 120, thence along Pennsylvania Highway 120 to junction Pennsylvania Highway 155, thence along Pennsylvania Highway 155 to junction Pennsylvania Highway 607, thence along Pennsylvania Highway 607 to junction Pennsylvania Highway 872, thence along Pennsylvania Highway 872 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction Pennsylvania Highway 44, thence along Pennsylvania Highway 44 to junction Pennsylvania Highway 49, thence along Pennsylvania Highway 49 to junction Pennsylvania Highway 449, thence along Pennsylvania Highway 449 to junction New York Highway 19, thence along New York Highway 19 to junction New York Highway 17, thence along New York Highway 17 to junction New York Highway 21, thence along New York Highway 21 to Pulteneyville and thence to Lake Ontario. The purpose of this filing is to eliminate the gateways of points in Smyth County and Martinsville, Va.

No. MC 61825 (Sub-No. E388), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, from points in Alabama on and bounded by a line beginning at the Georgia-Alabama State line and extending along U.S. Highway 29 to junction U.S. Highway 80, thence along U.S. Highway 80 to junction Alabama Highway 21, thence along Alabama Highway 21 to junction Alabama Highway 28, thence along Alabama Highway 28 to junction Alabama Highway 10, thence along Alabama Highway 10 to junction Alabama Highway 5, thence along Alabama Highway 5 to junction U.S. Highway 43, thence along U.S. Highway 43 to junction Alabama Highway 56, thence along Alabama Highway 56 to the Alabama-Mississippi State line, thence along the Alabama-Mississippi State line to junction U.S. Highway 11, thence along U.S. Highway 11 to the Alabama-Georgia State line, thence along the Alabama-Georgia State line to the point of beginning, to points in Delaware, District of Columbia, Maryland, and New Jersey, and those points in New York, Pennsylvania, and West Virginia on and east of a line beginning at the Virginia-West Virginia State line and extending along West Virginia Highway 39 to junction U.S. Highway 219, thence along U.S. Highway 219 to junction U.S. Highway 250, thence along U.S. Highway 250 to junction U.S. Highway 19, thence along U.S. Highway 19 to junction Pennsylvania Highway 8, thence along Pennsylvania Highway 8 to junction Pennsylvania Highway 308, thence along Pennsylvania Highway 308 to junction Pennsylvania Highway 8, thence along Pennsylvania Highway 8 to junction Pennsylvania Highway 227, thence along Pennsylvania Highway 227 to junction Pennsylvania Highway 27, thence along Pennsylvania Highway 27 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction U.S. Highway 62, thence along U.S. Highway 62 to junction New York Highway 60, thence along New York Highway 60 to Dunkirk, thence to Lake Erie, thence along the shore of Lake Erie to the United States-Canada International Boundary line, and thence along the United States-Canada International Boundary line to Lake Ontario. The purpose of this filing is to eliminate the gateways of Smyth County and Martinsville, Va.

No. MC 61825 (Sub-No. E389), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, from points in Alabama on and south of a line beginning at the Georgia-Alabama State line and extending along U.S. Highway 29 to junction U.S. Highway 80, thence along U.S. Highway 80 to junction Alabama Highway 21, thence along Alabama Highway 21 to junction Alabama Highway 28, thence along Alabama Highway 28 to junction Alabama Highway 10, thence along Alabama Highway 10 to junction Alabama Highway 5, thence along Alabama Highway 5 to junction U.S. Highway 43, thence along U.S. Highway 43 to junction Alabama Highway 56, thence along Alabama Highway 56 to the Alabama-Mississippi State line to points in Delaware, District of Columbia, Maryland, New Jersey, New York, and Pennsylvania, and those points in Ohio and West Virginia on and east of a line beginning at the Virginia-West Virginia State line and extending along U.S. Highway 60 to junction U.S. Highway 219, thence along U.S. Highway 219 to junction U.S. Highway 33, thence along U.S. Highway 33 to junction U.S. Highway 19, thence along U.S. Highway 19 to junction U.S. Highway 250, thence along U.S. Highway 250 to junction West Virginia Highway 88, thence along West Virginia Highway 88 to Wheeling, W. Va., thence along West Virginia Highway 2 to junction U.S. Highway 22, thence along U.S. Highway 22 to junction Ohio Highway 7, thence along Ohio Highway 7 to junction U.S. Highway 322, thence along U.S. Highway 322 to the Ohio-Pennsylvania State line, thence along the Ohio-Pennsylvania State line to Lake Erie. The purpose of this filing is to eliminate the gateways of points in Smyth County and Martinsville, Va.

No. MC 61825 (Sub-No. E390), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, from points in Mississippi on and north of U.S. Highway 82 to points in Delaware, District of Columbia, New Jersey, and those points in Maryland, New York, Pennsylvania, and West Virginia on and east of a line beginning at the Virginia-West Virginia State line and extending along U.S. Highway 60 to junction U.S. Highway 219, thence along U.S. Highway 219 to junction Pennsylvania Highway 403, thence along Pennsylvania Highway 403 to junction Pennsylvania Highway 580, thence along Pennsylvania Highway 580 to junction U.S. Highway 219, thence along U.S. Highway 219 to junction Pennsylvania Highway 120, thence along Pennsylvania Highway 120 to junction Pennsylvania Highway 155, thence along Pennsylvania Highway 155 to junction Pennsylvania Highway 607, thence along Pennsylvania Highway 607 to junction Pennsylvania Highway 872, thence along Pennsylvania Highway 872 to junction Pennsylvania Highway 44, thence along Pennsylvania Highway 44 to junction Pennsylvania Highway 49, thence along Pennsylvania Highway 49 to junction Pennsylvania Highway 449, thence along Pennsylvania Highway 449 to junction New York Highway 19, thence along New York Highway 19 to junction New York Highway 17, thence along New York Highway 17 to junction New York Highway 21, thence along New York Highway 21 to junction New York Highway 70, thence along New York Highway 70 to junction U.S. Highway 15, thence along U.S. Highway 15 to junction New York Highway 54, thence along New York Highway 54 to junction New York Highway 14, thence along New York Highway 14 to Lake Ontario. The purpose of this filing is to eliminate the gateway of points in Smyth County and Martinsville, Va.

No. MC 61825 (Sub-No. E391), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, from points in Mississippi on and bounded by a line beginning at the Alabama-Mississippi State line and extending along U.S. Highway 80 to the Mississippi-Louisiana State line, thence along the Mississippi-Louisiana State line to the Mississippi-Arkansas State line, thence along the Mississippi-Arkansas State line to junction U.S. Highway 82, thence along U.S. Highway 82 to the Mississippi-Alabama State line, thence along the Mississippi-Alabama State line to point of beginning, to all

points in Delaware, District of Columbia, Maryland, New Jersey, and those points in New York, Pennsylvania, and West Virginia on and east of a line beginning at the Virginia-West Virginia State line and extending along the U.S. Highway 60 to junction U.S. Highway 219, thence along U.S. Highway 219 to junction U.S. Highway 250, thence along U.S. Highway 250 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction U.S. Highway 19, thence along U.S. Highway 19 to junction U.S. Highway 119, thence along U.S. Highway 119 to junction Pennsylvania Highway 36, thence along Pennsylvania Highway 36 to junction Pennsylvania Highway 968, thence along Pennsylvania Highway 968 to junction Pennsylvania Highway 949, thence along Pennsylvania 949 to junction U.S. Highway 219, thence along U.S. Highway 219 to junction New York Highway 17, thence along New York Highway 17 to junction New York Highway 16, thence along New York Highway 16 to junction New York Highway 408, thence along New York Highway 408 to junction New York Highway 70, thence along New York Highway 70 to junction New York Highway 70A, thence along New York Highway 70A to junction New York Highway 36, thence along New York Highway 36 to Dansville, thence along New York Highway 256 to junction U.S. Highway 15, thence along U.S. Highway 15 to Rochester, thence along the Genesee River to Lake Ontario. The purpose of this filing is to eliminate the gateways of points in Smyth County and Martinsville, Va.

No. MC 61825 (Sub-No. E392), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, from points in Mississippi on and south of U.S. Highway 80, to points in Delaware, District of Columbia, Maryland, New Jersey, and points in New York, Pennsylvania, and West Virginia on and east of a line beginning at the Virginia-West Virginia State line and extending along West Virginia Highway 12 to junction West Virginia Highway 20, thence along West Virginia Highway 20 to junction West Virginia Highway 39, thence along West Virginia Highway 39 to junction U.S. Highway 19, thence along U.S. Highway 19 to junction U.S. Highway 250, thence along U.S. Highway 250 to junction West Virginia Highway 89, thence along West Virginia Highway 89 to the West Virginia-Pennsylvania State line, thence along the West Virginia-Pennsylvania State line to junction Interstate Highway 70, thence along Interstate Highway 70 to junction Interstate Highway 79, thence along Interstate Highway 79 to junction Pennsylvania Highway 528, thence along Pennsylvania Highway 528 to junction Pennsylvania Highway 8, thence along Pennsylvania Highway 8 to junction Pennsylvania Highway 27, thence along Pennsylvania Highway 27 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction U.S. Highway 62, thence along U.S. Highway 62 to junction New York Highway 60, thence along New York Highway 60 to junction New York Highway 17, thence along New York Highway 17 to junction U.S. Highway 62, thence along U.S. Highway 62 to junction New York Highway 39, thence along New York Highway 39 to junction New York Highway 428, thence along New York Highway 428 to Silver Creek, thence along the New York line to Lake Ontario. The purpose of this filing is to eliminate the gateways of Smyth County and Martinsville, Va.

No. MC 61825 (Sub-No. E393), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, from points in Florida on and west of a line beginning at the Georgia-Florida State line and extending along U.S. Highway 319 to the Gulf of Mexico to points in Delaware, District of Columbia, Maryland, New Jersey, New York, Pennsylvania, and points in Ohio and West Virginia on and east of a line beginning at the Virginia-West Virginia State line and extending along U.S. Highway 219 to junction West Virginia Highway 12, thence along West Virginia Highway 12 to junction West Virginia Highway 3, thence along West Virginia Highway 3 to junction Interstate Highway 77, thence along Interstate Highway 77 to Charleston, thence along West Virginia Highway 4 to junction West Virginia Highway 16, thence along West Virginia Highway 16 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction West Virginia Highway 74, thence along Virginia Highway 74 to junction West Virginia Highway 18, thence along West Virginia Highway 18 to junction West Virginia Highway 18A, thence along Virginia Highway 18A to junction West Virginia Highway 2, thence along West Virginia Highway 2 to junction West Virginia Highway 7, thence along West Virginia Highway 7 to junction Ohio Highway 7, thence along Ohio Highway 7 to junction Ohio Highway 148, thence along Ohio Highway 148 to junction Ohio Highway 9, thence along Ohio Highway 9 to junction Ohio Highway 43, thence along Ohio Highway 43 to junction Ohio Highway 183, thence along Ohio Highway 183 to junction Ohio Highway 225, thence along Ohio Highway 225 to junction Ohio Highway 5, thence along Ohio Highway 5 to junction Ohio Highway 534, thence along Ohio Highway 534 to junction U.S. Highway 422, thence along U.S. Highway 422 to junction Ohio Highway 528, thence along Ohio Highway 528 to Lake Erie. The purpose of this filing is to eliminate the gateways of Martinsville and points in Smyth County, Va.

No. MC 61825 (Sub-No. E394), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, from points in Florida on and bounded by a line beginning at the Georgia-Florida State line and extending along U.S. Highway 319 to the Gulf of Mexico, thence along the eastern shore of the Gulf of Mexico to Sarasota, Fla., thence along U.S. Highway 41 to junction Interstate Highway 4, thence along Interstate Highway 4 to Daytona Beach, thence along the Atlantic shore to the Florida-Georgia State line, thence along the Florida-Georgia State line to the point of beginning to points in District of Columbia, New Jersey, New York, Pennsylvania, and those points in Ohio and West Virginia on and east of a line beginning at the Virginia-West Virginia State line and extending along U.S. Highway 60 to junction U.S. Highway 19, thence along U.S. Highway 19 to junction West Virginia Highway 4, thence along West Virginia Highway 4 to junction West Virginia Highway 16, thence along West Virginia Highway 16 to junction U.S. Highway 33, thence along U.S. Highway 33 to junction West Virginia Highway 14, thence along West Virginia Highway 14 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction Ohio Highway 76, thence along Ohio Highway 76 to junction Ohio Highway 57, thence along Ohio Highway 57 to Lorain, Ohio, and thence to Lake Erie and those points in Delaware and Maryland except points southeast of a line beginning at the Chesapeake Bay and extending along Maryland Highway 336 to junction Maryland Highway 335, thence along Maryland Highway 335 to junction Maryland Highway 16, thence along Maryland Highway 16 to junction Maryland Highway 318, thence along Maryland Highway 318 to junction Delaware Highway 18, thence along Delaware Highway 18 to Lewes, Del., thence to the Delware Bay. The purpose of this filing is to eliminate the gateways of Martinsville and points in Smyth County, Va.

No. MC 61825 (Sub-No. E395), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, from points in Florida on and bounded by a line beginning at Sarasota, Fla., and extending along the Florida coast to junction U.S. Highway 1, thence along U.S. Highway 1 to junction Florida Highway 27, thence along Florida Highway 27 to junction U.S. Highway 27, thence along U.S. Highway 27 to junction Florida Highway 820, thence along Florida Highway 820 to junction U.S. Highway 441, thence along U.S. Highway 441 to junction Florida Highway 7, thence along Florida Highway 7 to junction Florida Highway 704, thence along

Florida Highway 704 to junction U.S. Highway 1, thence along U.S. Highway 1 to West Palm Beach, Fla., thence to the Atlantic Ocean, thence along the Atlantic coast to Daytona Beach, thence along U.S. Highway 92 to junction Interstate Highway 95, thence along Interstate Highway 95 to junction Interstate Highway 4, thence along Interstate Highway 4 to Tampa, and thence along U.S. Highway 41 to point of beginning, to points in District of Columbia, New Jersey, New York, Pennsylvania, and those points in Indiana, Michigan, Ohio, West Virginia, and Wisconsin on, north, and east of a line beginning at the Virginia-West Virginia State line and extending along U.S. Highway 60 to junction West Virginia Highway 63, thence along West Virginia Highway 63 to junction West Virginia Highway 12, thence along West Virginia Highway 12 to junction West Virginia Highway 3, thence along West Virginia Highway 3 to junction West Virginia Highway 99, thence along West Virginia Highway 99 to junction West Virginia Highway 85, thence along West Virginia Highway 85 to junction West Virginia Highway 10, thence along West Virginia Highway 10 to Huntington, W. Va., thence across the Ohio River to Chesapeake, Ohio, thence along Ohio Highway 7 to junction Ohio Highway 775, thence along Ohio Highway 775 to junction Ohio Highway 141, thence along Ohio Highway 141 to junction Ohio Highway 233.

Thence along Ohio Highway 233 to junction Ohio Highway 93, thence along Ohio Highway 93 to junction U.S. Highway 35, thence along U.S. Highway 35 to junction Ohio Highway 41, thence along Ohio Highway 41 to junction U.S. Highway 68, thence along U.S. Highway 68 to junction U.S. Highway 33, thence along U.S. Highway 33 to junction Ohio Highway 196, thence along Ohio Highway 196 to junction Ohio Highway 117, thence along Ohio Highway 117 to junction U.S. Highway 30S, thence along U.S. Highway 30S to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Ohio Highway 66, thence along Ohio Highway 66 to junction Ohio Highway 15, thence along Ohio Highway 15 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction U.S. Highway 27, thence along U.S. Highway 27 to junction Michigan Highway 60, thence along Michigan Highway 60 to junction Michigan Highway 66, thence along Michigan Highway 66 to junction Michigan Highway 89, thence along Michigan Highway 89 to junction Michigan Highway 37, thence along Michigan Highway 37 to junction Interstate Highway 96, thence along Interstate Highway 96 to Muskegon, Mich., thence along Muskegon Lake to Lake Michigan, thence across Lake Michigan to Lake Green Bay, thence along Lake Green Bay to Marinette, Wis., thence along Wisconsin Highway 64 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction Wisconsin Highway 29, thence along Wisconsin Highway 29 to junction U.S. Highway 53, thence along U.S. Highway 53 to junction U.S. Highway 12, thence along U.S. Highway 12 to junction Wisconsin Highway 85, thence along Wisconsin Highway 85 to junction Wisconsin Highway 25, thence along Wisconsin Highway 25 to the Wisconsin-Minnesota State line, and those points in Delaware and Maryland, except points southeast of a line beginning at the Chesapeake Bay and extending along the Nanticoke River to junction Maryland Highway 313, thence along Maryland Highway 313 to junction Maryland Highway 348, thence along Maryland Highway 348 to junction Delaware Highway 24, thence along Delaware Highway 24 to junction unnumbered highway three miles east of Lowes Crossroads, Del., thence along unnumbered highway to junction Delaware Highway 26, thence along Delaware Highway 26 to Bethany Beach, Del., and thence to the Atlantic Ocean. The purpose of this filing is to eliminate the gateways of points in Smyth County and Martinsville, Va.

No. MC 61825 (Sub-No. E396), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Pa. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, from points in Florida on and southeast of a line beginning at West Palm Beach, Fla., and extending along U.S. Highway 1 to junction Florida Highway 704, thence along Florida Highway 704 to junction Florida Highway 7, thence along Florida Highway 7 to junction U.S. Highway 441, thence along U.S. Highway 441 to junction Florida Highway 820, thence along Florida Highway 820 to junction U.S. Highway 27, thence along U.S. Highway 27 to junction U.S. Highway 1, thence along U.S. Highway 1 to the Barnes Sound, thence through the Barnes Sound and the Cards Sound to the Atlantic Ocean, and thence along the Atlantic Coast and the Florida Keys, to points in Delaware, District of Columbia, Maryland, New Jersey, New York, Pennsylvania, West Virginia, and those points in Illinois, Indiana, Iowa, Michigan, Ohio, and Wisconsin, on and northeast of a line beginning at the Kentucky-Ohio State line and extending along Ohio Highway 247 through West Union, Ohio, to junction U.S. Highway 50, thence along U.S. Highway 50 to junction U.S. Highway 68, thence along U.S. Highway 68 to junction Ohio Highway 123, thence along Ohio Highway 122 to junction U.S. Highway 35, thence along U.S. Highway 35 to junction Indiana Highway 1, thence along Indiana Highway 1 to junction U.S. Highway 224, thence along U.S. Highway 224 to junction Indiana Highway 5, thence along Indiana Highway 5 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 31, thence along U.S. Highway 31 to junction Indiana Highway 4.

Thence along Indiana Highway 4 to junction Indiana Highway 104, thence along Indiana Highway 104 to junction U.S. Highway 35, thence along U.S. Highway 35 to junction U.S. Highway 20, thence along U.S. Highway 20 to Michigan City, Ind., thence to Lake Michigan, thence northwest across Lake Michigan to Chicago, Ill., thence along Illinois Highway 38 to junction Illinois Highway 59, thence along Illinois Highway 59 to junction to U.S. Highway 20, thence along U.S. Highway 20 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction Wisconsin Highway 81, thence along Wisconsin Highway 81 to junction Wisconsin Highway 78, thence along Wisconsin Highway 78 to junction Wisconsin Highway 39, thence along Wisconsin Highway 39 to junction U.S. Highway 18, thence along U.S. Highway 18 to junction Iowa Highway 346, thence along Iowa Highway 346 to junction U.S. Highway 218, thence along U.S. Highway 218 to junction Iowa Highway 188, thence along Iowa Highway 188 to junction Iowa Highway 3, thence along Iowa Highway 3 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Missouri River. The purpose of this filing is to eliminate the gateways of points in Smyth County and Martinsville, Va.

No. MC 61825 (Sub-No. E521), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, from points in South Carolina on and bounded by a line beginning at the Atlantic Ocean and extending along Interstate Highway 26 to junction Interstate Highway 20, thence southwest along Interstate Highway 20 to the South Carolina-Georgia State line, thence southeast along South Carolina-Georgia State line to the Atlantic Ocean, thence northeast on the Atlantic Shore to the point of beginning to points in California, Colorado, Idaho, Montana, Nebraska, Nevada, North Dakota, Oregon, South Dakota, Utah, Wyoming and Washington on and west of a line beginning at the United States-Canada International Boundary line at the North Dakota-Minnesota State line and extending south along the North Dakota-Minnesota State line to the Minnesota-South Dakota State line, thence south along the Minnesota-South Dakota State line to junction U.S. Highway 212, thence west along U.S. Highway 212 to junction South Dakota Highway 63, thence south along South Dakota Highway 63 to junction Interstate Highway 90, thence west along Interstate Highway 90 to junction South Dakota Highway 79, thence south along South Dakota Highway 79 to junction U.S. Highway 385, thence south along U.S. Highway 385 to the South Dakota-Nebraska State line, thence south along U.S. Highway 385 to junction U.S. Highway 20, thence west along U.S. Highway 20 to the Nebraska-Wyoming State line, thence west along U.S. Highway 20 to junction Wyoming Highway 220.

Thence southwest along Wyoming Highway 220 to junction Wyoming Highway 789, thence south along Wyoming Highway 789 to junction Colorado Highway 64, thence west along Colorado Highway 64 to junction Colorado Highway 139, thence south along Colorado Highway 139 to junction U.S. Highway 6, thence west along U.S. Highway 6 to junction unnumbered highway near Harley Dome, Utah, thence south along unnumbered Highway to junction Utah Highway 128, thence south along Utah Highway 128 to junction U.S. Highway 163, thence north along U.S. Highway 163 to junction Interstate Highway 70, thence west along Interstate Highway 70 to junction U.S. Highway 89, thence south along U.S. Highway 89 to junction Utah Highway 14, thence west along Utah Highway 14 to junction Utah Highway 56, thence west along Utah Highway 56 to the Utah-Nevada State line, thence along Nevada Highway 25 to junction U.S. Highway 93, thence south along U.S. Highway 93 to junction Nevada Highway 25, thence along Nevada Highway 25 to junction U.S. Highway 6, thence west along U.S. Highway 6 to junction U.S. Highway 95, thence south along U.S. Highway 95 to junction Nevada Highway 29, thence south along Nevada Highway 29 to the Nevada-California State line, thence south along California Highway 127 to junction Interstate Highway 15, thence south along Interstate Highway 15 to junction unnumbered highway near Barstow, Calif., thence south along unnumbered highway to junction California Highway 18, thence south along California Highway 18 to junction unnumbered Highway near Baldwin Lake, Calif., thence southeast along unnumbered Highway to junction California Highway 62, thence south along California Highway 62 to junction Interstate Highway 10, thence west along Interstate Highway 10 to junction California Highway 111, thence south along California Highway 111 to junction California Highway 74, thence west along California Highway 74 to junction California Highway 71, thence west along California Highway 71 to junction California Highway 79, thence south along California Highway 79 to junction Interstate Highway 8, thence west along Interstate Highway 8 to junction Interstate Highway 5, thence south along Interstate Highway 5 to California-Mexico International Boundary line. The purpose of this filing is to eliminate the gateways of Lynchburg and Smyth County, Va.

No. MC 61825 (Sub-No. E522), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New Furniture*, from Sumter, S.C., to points in Delaware, District of Columbia, Iowa, Maryland, Michigan, New Jersey, New York, Ohio, Pennsylvania, West Virginia, and Wisconsin, and those points in Illinois, Indiana, and Missouri on and north of a line beginning at the Arkansas-Missouri State line and extending north along Missouri Highway 37 to junction Missouri Highway 112, thence north along Missouri Highway 112 to junction Missouri Highway 248, thence east along Missouri Highway 248 to junction Missouri Highway 176, thence east along Missouri Highway 176 to junction U.S. Highway 160, thence north along U.S. Highway 160 to junction Missouri Highway 14, thence east along Missouri Highway 14 to junction U.S. Highway 65, thence north along U.S. Highway 65 to junction U.S. Highway 60, thence east along U.S. Highway 60 to junction U.S. Highway 63, thence north along U.S. Highway 63 to junction Missouri Highway 32, thence northeast along Missouri Highway 32 to junction Missouri Highway 19, thence north along Missouri Highway 19 to junction Missouri Highway 8, thence east along Missouri Highway 8 to junction Missouri Highway 21, thence north along Missouri Highway 21 to junction Missouri Highway 47, thence east along Missouri Highway 47 to junction Missouri Highway K, thence east along Missouri Highway K to junction Missouri Highway D, thence north along Missouri Highway D to junction Missouri Highway E, thence east along Missouri Highway E to junction U.S. Highway 61, thence southeast along U.S. Highway 61 to junction Missouri Highway H, thence east along Missouri Highway H to junction Missouri Highway 51, thence north along Missouri Highway 51 to junction Illinois Highway 150, thence northeast along Illinois Highway 150 to junction Illinois Highway 154, thence east along Illinois Highway 154 to junction U.S. Highway 51, thence south along U.S. Highway 51 to junction Illinois Highway 14, thence east along Illinois Highway 14 to junction Illinois Highway 142, thence north along Illinois Highway 142 to junction Illinois Highway 15, thence east along Illinois Highway 15 to junction Indiana Highway 64, thence east along Indiana Highway 64 to junction Indiana Highway 66, thence north along Indiana Highway 66 to junction U.S. Highway 150, thence east along U.S. Highway 150 to junction Indiana Highway 135, thence north along Indiana Highway 135 to junction Indiana Highway 56, thence east along Indiana Highway 56 to Madison, Indiana, thence to the Indiana-Kentucky State line to the Indiana-Ohio State line. The purpose of this filing is to eliminate the gateway of Martinsville, Va.

No. MC 61825 (Sub-No. E523), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, from points in South Carolina on and east of a line beginning at the North Carolina-South Carolina State line and extending south along U.S. Highway 21 to junction South Carolina Highway 97, thence southeast along South Carolina Highway 97 to junction U.S. Highway 521, thence southeast along U.S. Highway 521 to junction U.S. Highway 52, thence south along U.S. Highway 52 to junction South Carolina Highway 7, thence south along South Carolina Highway 7 to junction South Carolina Highway 171, thence south along South Carolina Highway 171 to Folly Beach, South Carolina, and to the Atlantic Ocean, to points in District of Columbia, Iowa, Michigan, New Jersey, New York, Pennsylvania, and Wisconsin and points in Delaware, Illinois, Indiana, Maryland, Missouri, Ohio, and West Virginia on and north of a line beginning at the Kansas-Missouri State line and extending east along U.S. Highway 54 to junction Missouri Highway 42, thence east along Missouri Highway 42 to junction Missouri Highway 28, thence northeast along Missouri Highway 28 to junction U.S. Highway 50, thence east along U.S. Highway 50 to junction Interstate Highway 57, thence northeast along Interstate Highway 57 to junction Interstate Highway 70, thence northeast along Interstate Highway 70 to junction U.S. Highway 231, thence south along U.S. Highway 231 to junction Indiana Highway 42, thence northeast along Indiana Highway 42 to junction Indiana Highway 144, thence southeast along Indiana Highway 144 to junction Indiana Highway 44, thence east along Indiana Highway 44 to junction Interstate Highway 74, thence southeast along Interstate Highway 74 to junction Ohio Highway 128, thence north along Ohio Highway 128 to junction Ohio Highway 126, thence east along Ohio Highway 126 to junction Interstate Highway 275.

Thence southeast along Interstate Highway 275 to junction Ohio Highway 131, thence east along Ohio Highway 131 to junction Ohio Highway 132, thence south along Ohio Highway 132 to junction U.S. Highway 52, thence southeast along U.S. Highway 52 to Point Pleasant, Ohio, thence to the Ohio-Kentucky State line, thence east along the Ohio-Kentucky State line to the West Virginia-Kentucky State line, thence southeast along the West Virginia-Kentucky State line to junction U.S. Highway 52, at Williamson, W. Va., thence east along U.S. Highway 52 to junction West Virginia Highway 80, thence north along West Virginia Highway 80 to junction West Virginia Highway 10, thence east along West Virginia Highway 10 to junction West Virginia Highway 85, thence north along West Virginia Highway 85 to junction West Virginia Highway 99, thence east along West Virginia Highway 99 to junction West Virginia Highway 3, thence east along West Virginia Highway 3 to junction U.S. Highway 219, thence north along U.S. Highway 219 to the Monroe-Greenbriar County line, thence east along the Monroe-Greenbriar County line to the West Virginia-Virginia State line to the Maryland-Vir-

ginia State line, thence along the Maryland-Virginia State line to Washington, D.C., thence southeast along Maryland Highway 4 to junction Maryland Highway 260, thence southeast along Maryland Highway 260 to the Chesapeake Bay, thence east across the Chesapeake Bay to Tilghman, Maryland, thence northeast along Maryland Highway 33 to junction U.S. Highway 50, thence north along U.S. Highway 50 to junction Maryland Highway 404, thence east along Maryland Highway 404 to junction Maryland Highway 313, thence north along Maryland Highway 313 to junction Maryland Highway 317, thence east along Maryland Highway 317 to junction Delaware Highway 14, thence east along Delaware Highway 14 to junction Delaware Highway 36, thence east along Delaware Highway 36 to Slaughter Beach, Delaware, thence to the Delaware Bay, and thence along the Delaware Bay to the Atlantic Ocean. The purpose of this filing is to eliminate the gateway of Martinsville, Va.

No. MC 61825 (Sub-No. E524), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New Furniture*, from points in South Carolina on and south of a line beginning at the Georgia-South Carolina State line and extending northeast along Interstate Highway 20 to junction U.S. Highway 521, thence southeast along U.S. Highway 521 to junction U.S. Highway 52, thence south along U.S. Highway 52 to junction South Carolina Highway 7, thence south along South Carolina Highway 7 to junction South Carolina Highway 171, thence south along South Carolina Highway 171 to Folly Beach, S.C., thence to the Atlantic Ocean, to points in Delaware, District of Columbia, Maryland, Michigan, New Jersey, New York, Pennsylvania, and Wisconsin, and those points in Illinois, Indiana, Iowa, Ohio, and West Virginia on, north and east of a line beginning at the Nebraska-Iowa State line and extending northeast along Interstate Highway 80 to junction U.S. Highway 59, thence north along U.S. Highway 59 to junction Iowa Highway 44, thence east along Iowa Highway 44 to junction Iowa Highway 25, thence north along Iowa Highway 25 to junction Iowa Highway 141, thence east along Iowa Highway 141 to junction Iowa Highway 210, thence east along Iowa Highway 210 to junction Interstate Highway 35, thence north along Interstate Highway 35 to junction U.S. Highway 30, thence east along U.S. Highway 30 to junction Iowa Highway 212, thence southeast along Iowa Highway 212 to junction U.S. Highway 6, thence southeast along U.S. Highway 6 to junction Interstate Highway 80, thence east along Interstate Highway 80 to junction Iowa Highway 38.

Thence north along Iowa Highway 38 to junction U.S. Highway 30, thence east along U.S. Highway 30 to junction Illinois Highway 88, thence south along Illinois Highway 88 to junction Illinois Highway 92, thence east along Illinois Highway 92 to junction U.S. Highway 34, thence east along U.S. Highway 34 to junction Illinois Highway 47, thence south along Illinois Highway 47 to junction Illinois Highway 126, thence east along Illinois Highway 126 to junction U.S. Highway 30, thence southeast along U.S. Highway 30 to junction U.S. Highway 421, thence south along U.S. Highway 421 to junction Indiana Highway 10, thence east along Indiana Highway 10 to junction U.S. Highway 35, thence south along U.S. Highway 35 to junction Indiana Highway 14, thence east along Indiana Highway 14 to junction Indiana Highway 114, thence east along Indiana Highway 114 to junction Indiana Highway 5, thence south along Indiana Highway 5 to junction U.S. Highway 224, thence east along U.S. Highway 224 to junction U.S. Highway 33, thence southeast along U.S. Highway 33 to junction Ohio Highway 29, thence southeast along Ohio Highway 29 to junction Interstate Highway 75, thence south along Interstate Highway 75 to junction U.S. Highway 35, thence southeast along U.S. Highway 35 to junction U.S. Highway 68, thence south along U.S. Highway 68 to junction Ohio Highway 73, thence southeast along Ohio Highway 73 to junction Ohio Highway 124, thence east along Ohio Highway 124 to junction Ohio Highway 335, thence south along Ohio Highway 335 to junction Ohio Highway 139, thence east along Ohio Highway 139 to junction Ohio Highway 279, thence east along Ohio Highway 279 to junction Ohio Highway 93, thence south along Ohio Highway 93 to Ironton, Ohio, thence to the Ohio-Kentucky State line, thence southeast along the Ohio-Kentucky State line to the West Virginia-Kentucky State line, thence southeast along the West Virginia-Kentucky State line to Fort Gay, West Virginia, thence northeast along West Virginia Highway 37 to junction West Virginia Highway 10, thence southeast along West Virginia Highway 10 to junction West Virginia Highway 80, thence south along West Virginia Highway 80 to junction U.S. Highway 52, thence southeast along U.S. Highway 52 to Bluefield, W. Va., and thence to the West Virginia-Virginia State line. The purpose of this filing is to eliminate the gateway of Martinsville, Va.

No. MC 61825 (Sub-No. E525), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New Furniture*, from points in South Carolina on and bounded by a line beginning at the North Carolina-South Carolina State line and extending south along U.S. Highway 21 to junction South Carolina Highway 97, thence southeast along South Carolina Highway 97 to junction U.S. Highway 521, thence south along U.S. Highway 521 to junction Interstate Highway 20, thence southwest along Interstate Highway 20 to the South Carolina-Georgia State line, thence northwest along the South Carolina-Georgia State line to the South Carolina-North Carolina State line, thence east along the South Carolina-North Carolina State line to point of beginning, to points in Delaware, District of Columbia, Maryland, New Jersey, New York, and Pennsylvania and points in Michigan, Ohio, and West Virginia, on and northeast of a line beginning at the Virginia-West Virginia State line and extending along West Virginia Highway 12 to junction West Virginia Highway 3, thence west along West Virginia Highway 3 to junction West Virginia Highway 20, thence north along West Virginia Highway 20 to junction West Virginia Highway 39, thence west along West Virginia Highway 39 to junction U.S. Highway 19, thence north along U.S. Highway 19 to junction Interstate Highway 79, thence southwest along Interstate Highway 79 to junction U.S. Highway 119, thence north along U.S. Highway 119 to junction U.S. Highway 33, thence northwest along U.S. Highway 33 to junction Ohio Highway 13, thence north along Ohio Highway 13 to junction Ohio Highway 93.

Thence north along Ohio Highway 93 to junction Ohio Highway 60, thence north along Ohio Highway 60 to junction U.S. Highway 36, thence west along U.S. Highway 36 to junction U.S. Highway 62, thence north along U.S. Highway 62 to junction Ohio Highway 205, thence north along Ohio Highway 205 to junction Ohio Highway 3, thence north along Ohio Highway 3 to junction Ohio Highway 39, thence northwest along Ohio Highway 39 to junction Ohio Highway 61, thence north along Ohio Highway 61 to junction U.S. Highway 250, thence north along U.S. Highway 250 to Sandusky, Ohio, thence to Lake Erie to the Detroit River, thence along the Detroit River to Detroit, Mich., thence northwest along U.S. Highway 10 to junction Michigan Highway 30, thence north along Michigan Highway 30 to junction Michigan Highway 61, thence west along Michigan Highway 61 to junction Michigan Highway 18, thence north along Michigan Highway 18 to junction Michigan Highway 55, thence west along Michigan Highway 55 to junction Michigan Highway 115, thence northwest along Michigan Highway 115 to Frankfort, Mich., thence to Lake Michigan, thence north across Lake Michigan to Thompson, Mich., thence west along U.S. Highway 2 to the Schoolcraft-Delta County line, thence north along the Schoolcraft-Delta County line to the Alger-Delta County line, thence west along the Alger-Delta County line to the Marquette-Delta County line, thence southwest along the Marquette-Delta County line to the Marquette-Menominee County line, thence west along the Marquette-Menominee County line to the Marquette-Dickinson County line, thence northwest along the Marquette-Dickinson County line to the Marquette-Iron County line, thence north along the Mar-

quette-Iron County line to the Baraga-Iron County line, thence west along the Baraga-Iron County line to the Houghton-Iron County line, thence west along the Houghton-Iron County line to the Ontonagon-Iron County line, thence south along the Ontonagon-Iron County line to the Gogebic-Iron County line.

Thence south along the Gogebic-Iron County line to the Michigan-Wisconsin State line, and thence west along the Michigan-Wisconsin State line to Lake Superior, and points in Iowa and Wisconsin on and northwest of a line beginning at the Michigan-Wisconsin State line and extending southwest along Wisconsin Highway 17 to junction Wisconsin Highway 70, thence west along Wisconsin Highway 70 to junction Wisconsin Highway 13, thence south along Wisconsin Highway 13 to junction U.S. Highway 8, thence west along U.S. Highway 8 to junction Wisconsin Highway 25, thence south along Wisconsin Highway 25 to junction U.S. Highway 10, thence west along U.S. Highway 10 to junction Wisconsin Highway 183, thence south along Wisconsin Highway 183 to Pepin, Wis., thence to the Wisconsin-Minnesota State line, thence southeast along the Wisconsin-Minnesota State line to the Minnesota-Iowa State line, thence west along the Minnesota-Iowa State line to junction Iowa Highway 4, thence south along Iowa Highway 4 to junction Iowa Highway 9, thence west along Iowa Highway 9 to junction U.S. Highway 71, thence south along U.S. Highway 71 to junction U.S. Highway 18, thence west along U.S. Highway 18 to junction U.S. Highway 59, thence south along U.S. Highway 59 to junction Iowa Highway 10, thence west along Iowa Highway 10 to junction Iowa Highway 60, thence southwest along Iowa Highway 60 to junction Iowa Highway 3, thence west along Iowa Highway 3 to the Iowa-South Dakota State line. The purpose of this filing is to eliminate the gateway of Martinsville, Va.

No. MC 61825 (Sub-No. E526), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel products*, between points in Belmont County, Ohio, on the one hand, and, on the other, points in New York. The purpose of this filing is to eliminate the gateway of Weirton, W. Va.

No. MC 61825 (Sub-No. E541), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Materials used in the manufacture of furniture, from points in New Jersey on, east and south of a line beginning at the Hudson River near Fort Lee, N.J., thence west along Interstate Highway 95 to junction New Jersey Highway 3, thence west along New Jersey Highway 3 to junction New Jersey Highway 17, thence south along New Jersey Highway 17 to junction New Jersey Highway 7, thence west along New Jersey Highway 7 to junction New Jersey Highway 21, thence south along New Jersey Highway 21 to junction New Jersey Highway 506 Spur, thence west along State Highway 506 Spur to junction Garden State Parkway, thence south along the Garden State Parkway to junction New Jersey Highway 27, thence south along New Jersey Highway 27 to junction New Jersey Highway 91, thence south along New Jersey Highway 91 to junction U.S. Highway 1, thence south along U.S. Highway 1 to the Delaware River to points in Kentucky on and south of a line beginning at the West Virginia-Kentucky State line near Louisa, Ky., thence west along Kentucky Highway 32 to junction Kentucky Highway 7, thence south along Kentucky Highway 7 to junction U.S. Highway 460, thence west along U.S. Highway 460 to junction U.S. Highway 60, thence west along U.S. Highway 60 to the Ohio River. The purpose of this filing is to eliminate the gateway of Martinsville, Va.

No. MC 61825 (Sub-No. E542), filed May 13 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Materials used in the manufacture of furniture* from points in New Jersey to points in Alabama, Florida, Georgia, Louisiana, Mississippi, South Carolina, and Tennessee. The purpose of this filing is to eliminate the gateway of Martinsville, Va.

No. MC 61825 (Sub-No. E543), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Materials used in the manufacture of furniture*, from points in New Jersey south and west of a line beginning at the Delaware River near Trenton, thence east along the Mercer-Burlington County line to U.S. Highway 206, thence south along U.S. Highway 206 to junction New Jersey Highway 68, thence south along New Jersey Highway 68 to junction New Jersey Highway 528 Spur, thence east along New Jersey Highway 528 Spur to the Burlington-Ocean County line, thence south along the Burlington-Ocean County line to the Garden State Parkway, thence south along the Garden State Parkway to junction New Jersey Highway 585, thence west along New Jersey Highway 585 to junction New Jersey Highway 47, thence south along New Jersey Highway 47 to Dennis Creek, thence west along Dennis Creek to the Delaware Bay to points in Virginia on, west and south of a line beginning on the North Carolina-Virginia State line near Danville, thence north along the Pittsylvania-Halifax County line to U.S. Highway 360, thence west along U.S. Highway 360 to junction Virginia Highway 726, thence west along Virginia Highway 726 to junction U.S. Highway 29, thence north along U.S. Highway 29 to junction Virginia Highway 57, thence west along Virginia Highway 57 to junction Virginia Highway 626, thence north along Virginia Highway 626 to junction Virginia Highway 40, thence west along Virginia Highway 20 to junction Virginia Highway 122, thence north along Virginia Highway 122 to junction Virginia Highway 116, thence north along Virginia Highway 116 to junction U.S. Highway 220, thence north along U.S. Highway 220 to junction U.S. Highway 460, thence west along U.S. Highway 460 to the Virginia-West Virginia State line. The purpose of this filing is to eliminate the gateway of Martinsville, Va.

No. MC 61825 (Sub-No. E544), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Materials used in the manufacture of furniture*, from points in New Jersey on and east of a line beginning at the Pennsylvania-New Jersey State line near Milford, thence south along U.S. Highway 206 to the Delaware River, thence south along the Delaware River to the Mercer-Burlington County line, thence east along the Mercer-Burlington County line to U.S. Highway 206, thence south along U.S. Highway 206 to junction New Jersey Highway 68, thence south along New Jersey Highway 68 to junction New Jersey Highway 528 Spur, thence east along New Jersey Highway 528 Spur to the Burlington-Ocean County line, thence south along the Burlington-Ocean County line to the Garden State Parkway, thence south along the Garden State Parkway ot junction New Jersey Highway 585, thence west along New Jersey Highway 585 to junction New Jersey Highway 47, thence south along New Jersey Highway 47 to Dennis Creek, thence west along Dennis Creek to the Delaware Bay to points in Virginia on, west, and south of a line beginning on the North Carolina-Virginia State line near South Boston, and extending along U.S. Highway 501 to junction U.S. Highway 360, thence west on U.S. Highway 360 to junction Virginia Highway 832, thence west along Virginia Highway 832 to junction Virginia Highway 640, thence north along Virginia Highway 640 to junction Virginia Highway 40, thence west on Virginia Highway 40 to junction Virginia Highway 122, thence north along Virginia Highway 122 to junction Virginia Highway 116, thence north along Virginia Highway 116 to junction U.S. Highway 220, thence north along U.S. Highway 220 to junction U.S. Highway 460, thence west along U.S. Highway 460 to junction U.S. Highway 11, thence west along U.S. Highway 11 to junction State

Highway 100, thence north along Virginia Highway 100 to junction U.S. Highway 460, thence west along U.S. Highway 460 to the Virginia-West Virginia State line. The purpose of this filing is to eliminate the gateway of Martinsville, Va.

No. MC 61825 (Sub-No. E545), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Materials used in the manufacture of furniture*, from points in New Jersey west of a line beginning on the Pennsylvania-New Jersey State line near Milford, thence south along U.S. Highway 206 to the Delaware River to points in Virginia on, south, and west of a line beginning on the North Carolina-Virginia State line near South Boston, thence north along U.S. Highway 501 to junction U.S. Highway 360, thence west along U.S. Highway 360 to junction Virginia Highway 832, thence west along Virginia Highway 832 to junction Virginia Highway 640, thence north along Virginia Highway 640 to junction Virginia Highway 40, thence west along Virginia Highway 40 to junction Virginia Highway 640, thence west along Virginia Highway 640 to junction Virginia Highway 602, thence north along Virginia Highway 602 to the Roanoke-Floyd County line, thence west along the Roanoke-Floyd County line to the Montgomery-Floyd County line to Virginia Highway 615, thence north along Virginia Highway 615 to junction U.S. Highway 11, thence west along U.S. Highway 11 to junction Virginia Highway 100, thence north along Virginia Highway 100 to junction Virginia Highway 42, thence south along Virginia Highway 42 to junction Virginia Highway 606, thence west along Virginia Highway 606 to junction U.S. Highway 21, thence west along U.S. Highway 21 to the Virginia-West Virginia State line. The purpose of this filing is to eliminate the gateway of Martinsville, Va.

No. MC 61825 (Sub-No. E546), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Materials used in the manufacture of furniture*, from points in New Jersey on, east, and north of a line beginning at the Delaware River and extending along U.S. Highway 1 to junction U.S. Highway 206, thence south along U.S. Highway 206 to junction New Jersey Highway 68, thence south along New Jersey Highway 68 to junction New Jersey Highway 528 Spur, thence east along New Jersey Highway 528 Spur to the Burlington-Ocean County line, thence south along the Burlington-Ocean County line to the Garden State Parkway, thence south along the Garden State Parkway to junction New Jersey Highway 528, thence west on New Jersey Highway 528 to junction New Jersey Highway 47, thence south along New Jersey Highway 47 to Dennis Creek, thence west along Dennis Creek to the Delaware Bay, to points in North Carolina on and west of a line beginning on the Atlantic Ocean near Carolina Beach, thence north along U.S. Highway 421 to junction North Carolina Highway 242, thence north along North Carolina Highway 242 to junction North Carolina Highway 50, thence north along North Carolina Highway 50 to junction U.S. Highway 70, thence north along U.S. Highway 70 to junction U.S. Highway 501, thence north along U.S. Highway 501 to the North Carolina-Virginia State line. The purpose of this filing is to eliminate the gateway of Martinsville, Va.

No. MC 61825 (Sub-No. E547), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Materials used in the manufacture of furniture*, from points in New Jersey west and south of a line beginning on the Delaware River near Trenton, thence east along U.S. Highway 1 to junction U.S. Highway 206, thence south along U.S. Highway 206 to junction New Jersey Highway 68, thence south along New Jersey Highway 68 to junction New Jersey Highway 528 Spur, thence east along New Jersey Highway 528 Spur to the Burlington-Ocean County line, thence south along the Burlington-Ocean County line to the Garden State Parkway, thence south along the Garden State Parkway to junction New Jersey Highway 585, thence west along New Jersey Highway 585 to junction New Jersey Highway 47, thence south along New Jersey Highway 47 to Dennis Creek, thence west along Dennis Creek to the Delaware Bay to points in North Carolina on and west of a line beginning at the Atlantic Ocean and extending along North Carolina Highway 133, to junction North Carolina Highway 87, thence north along North Carolina Highway 87 to junction North Carolina Highway 141, thence north along North Carolina Highway 141 to junction North Carolina Highway 210, thence north along North Carolina Highway 210 to junction North Carolina Highway 242, thence north along North Carolina Highway 242 to junction North Carolina Highway 24, thence west along North Carolina Highway 24 to junction North Carolina Highway 82, thence north along North Carolina Highway 82 to junction North Carolina Highway 55, thence north on North Carolina Highway 55 to junction U.S. Highway 70, thence west on U.S. Highway 70 to junction North Carolina Highway 119, thence north along North Carolina Highway 119 to the North Carolina-Virginia State line. The purpose of this filing is to eliminate the gateway of Martinsville, Va.

No. MC 61825 (Sub-No. E548), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Materials used in the manufacture of furniture* from points in Indiana on and north of a line beginning at the Indiana-Ohio State line and extending along U.S. Highway 33 to junction Indiana Highway 19, to the Indiana-Michigan State line to points in North Carolina on and east of a line beginning at the South Carolina-North Carolina State line and extending along North Carolina Highway 18 to junction the Blue Ridge Parkway, thence north along the Blue Ridge Parkway to the North Carolina-Virginia State line. The purpose of this filing is to eliminate the gateway of Martinsville, Va.

No. MC 61825 (Sub-No. E549), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Materials used in the manufacture of furniture*, from those points in Indiana on and north of a line beginning at the Indiana-Ohio State line, thence along U.S. Highway 40 to junction U.S. Highway 27, thence along U.S. Highway 27 to junction Interstate Highway 70, thence along Interstate Highway 70 to junction Indiana Highway 38, thence along Indiana Highway 38 to junction Indiana Highway 32, thence along Indiana Highway 32 to junction U.S. Highway 136, thence along U.S. Highway 136 to the Indiana-Illinois State line and south of a line beginning on the Ohio-Indiana State line and extending along U.S. Highway 33 to junction Indiana Highway 19, thence north on Indiana Highway 19 to the Indiana-Michigan State line to points in North Carolina on and east of a line beginning at the South Carolina-North Carolina State line and extending along U.S. Highway 321 to junction U.S. Highway 64, thence west on U.S. Highway 64 to junction North Carolina Highway 127, thence north on North Carolina Highway 127 to junction North Carolina Highway 90, thence east on North Carolina Highway 90 to junction North Carolina Highway 16, thence north on North Carolina Highway 16 to junction North Carolina Highway 18, thence north on North Carolina Highway 18 to junction North Carolina Highway 268, thence east on North Carolina Highway 268 to junction U.S. Highway 601, thence north on U.S. Highway 601 to junction North Carolina Highway 103, thence north on North Carolina Highway 103 to the North Carolina-Virginia State line. The purpose of this filing is to eliminate the gateway of Martinsville, Va.

No. MC 61825 (Sub-No. E550), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate

as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Materials used in the manufacture of furniture*, from points in Indiana south of a line beginning at the Indiana-Ohio State line and extending along U.S. Highway 40 to junction U.S. Highway 27, thence north on U.S. Highway 27 to junction Interstate Highway 70, thence west on Interstate Highway 70 to junction Indiana Highway 38, thence west on Indiana Highway 38 to junction Indiana Highway 32, thence west on Indiana Highway 32 to junction U.S. Highway 136, thence west on U.S. Highway 136 to the Indiana-Illinois State line to points in North Carolina on and east of a line beginning at the South Carolina-North Carolina State line and extending along U.S. Highway 601 to junction North Carolina Highway 103, thence north along North Carolina Highway 103 to the North Carolina-Virginia State line. The purpose of this filing is to eliminate the gateway of Martinsville, Va.

No. MC 61825 (Sub-No. E551), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Materials used in the manufacture of furniture*, from those points in Indiana on and north of a line beginning at the Indiana-Ohio State line, and extending along U.S. Highway 40 to junction U.S. Highway 27, thence north on U.S. Highway 27 to junction Interstate Highway 70, thence west on Interstate Highway 70 to junction Indiana Highway 38, thence west on Indiana Highway 38 to junction Indiana Highway 32, thence west on Indiana Highway 32 to junction U.S. Highway 136, thence west on U.S. Highway 136 to the Indiana-Illinois State line and south of a line beginning on the Ohio-Indiana State line near Decatur, Indiana, thence north on U.S. Highway 33 to junction Indiana Highway 19, to the Indiana-Michigan State line to points in South Carolina on and east of a line beginning at the Georgia-South Carolina State line and extending along on U.S. Highway 17 to junction U.S. Highway 278, thence north on U.S. Highway 278 to junction U.S. Highway 601, thence north on U.S. Highway 601 to junction U.S. Highway 21, thence north on U.S. Highway 21 to junction U.S. Highway 321, thence north on U.S. Highway 321 to the South Carolina-North Carolina State line. The purpose of this filing is to eliminate the gateway of Martinsville, Va.

No. MC 61825 (Sub-No. E552), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Materials used in the manufacture of furniture*, from those points in Indiana on and north of a line beginning on the Indiana-Kentucky State line and extending along Indiana Highway 256 to junction U.S. Highway 31, thence north on U.S. Highway 31 to junction Indiana Highway 250, thence west on Indiana Highway 250 to junction Indiana Highway 39, thence west on Indiana Highway 39 to junction U.S. Highway 50, thence west on U.S. Highway 50 to junction Indiana Highway 37, thence north on Indiana Highway 37 to junction Indiana Highway 46, thence west on Indiana Highway 46 to junction Interstate Highway 70, thence west on Interstate Highway 70 to the Indiana-Illinois State line and south of a line beginning at the Indiana-Ohio State line and extending along U.S. Highway 40 to junction U.S. Highway 27, thence north on U.S. Highway 27 to junction Interstate Highway 70, thence west on Interstate Highway 70 to junction Indiana Highway 38, thence west on Indiana Highway 38 to junction Indiana Highway 32, thence west on Indiana Highway 32 to junction U.S. Highway 136, thence west on U.S. Highway 136 to the Indiana-Illinois State line to points in South Carolina on and east of a line beginning at the Atlantic Ocean and extending along South Carolina Highway 171 to junction U.S. Highway 17, thence east on U.S. Highway 17 to junction U.S. Highway 52, thence north on U.S. Highway 52 to junction U.S. Highway 521, thence west on U.S. Highway 521 to junction U.S. Highway 15, thence north on U.S. Highway 15 to junction South Carolina Highway 341, thence north on South Carolina Highway 341 to junction U.S. Highway 1, thence north on U.S. Highway 1 to junction South Carolina Highway 151, thence north on South Carolina Highway 151 to junction U.S. Highway 601, thence north on U.S. Highway 601 to the South Carolina-North Carolina State line. The purpose of this filing is to eliminate the gateway of Martinsville, Va.

No. MC 61825 (Sub-No. E553), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Materials used in the manufacture of furniture*, from points in Indiana on and north of a line beginning on the Indiana-Ohio State line and extending along U.S. Highway 33 to junction Indiana Highway 19, to the Indiana-Michigan State line, to points in South Carolina on and east of a line beginning on the Georgia-South Carolina State line, thence north on U.S. Highway 221 to junction South Carolina Highway 72, thence north on South Carolina Highway 72 to junction South Carolina Highway 56, thence north on South Carolina Highway 56 to junction South Carolina Highway 150, thence north on South Carolina Highway 150 to junction South Carolina Highway 18, thence north on South Carolina Highway 18 to the South Carolina-North Carolina State line. The purpose of this filing is to eliminate the gateway of Martinsville, Va.

No. MC 61825 (Sub-No. E554), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Materials used in the manufacture of furniture*, from points in Indiana south of a line beginning at the Indiana-Kentucky State line and extending along Indiana Highway 256, to junction U.S. Highway 31, thence north on U.S. Highway 31 to junction Indiana Highway 250, thence west on Indiana Highway 250 to junction Indiana Highway 39, thence west on Indiana Highway 39 to junction U.S. Highway 50, thence west on U.S. Highway 50 to junction Indiana Highway 37, thence north on Indiana Highway 37 to junction Indiana Highway 46, thence west on Indiana Highway 46 to junction Interstate Highway 70, thence west on Interstate Highway 70 to the Indiana-Illinois State line, to points in South Carolina on and east of a line beginning on the Atlantic Ocean and extending along Winyah Bay to Georgetown, thence west on U.S. Highway 521 to junction South Carolina Highway 377, thence north on South Carolina Highway 377 to junction South Carolina Highway 527, thence north on South Carolina Highway 527 to junction U.S. Highway 52, thence north on U.S. Highway 52 to junction U.S. Highway 1, thence north on U.S. Highway 1 to the South Carolina-North Carolina State line. The purpose of this filing is to eliminate the gateway of Martinsville, Va.

No. MC 61825 (Sub-No. E555), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Materials used in the manufacture of furniture*, from points in Indiana on and north of a line beginning on the Indiana-Ohio State line and extending along U.S. Highway 33 to junction Indiana Highway 19, thence north on Indiana Highway 19 to the Indiana-Michigan State line to points in Virginia on, east and south of a line beginning on the North Carolina-Virginia State line and extending along the Blue Ridge Parkway to junction Virginia Highway 8, thence north along Virginia Highway 8 to junction U.S. Highway 221, thence north along U.S. Highway 221 to junction U.S. Highway 460, thence north along U.S. Highway 460 to junction the Blue Ridge Parkway, thence north along the Blue Ridge Parkway to junction Virginia Highway 130, thence east on Virginia Highway 130 to junction U.S. Highway 29, thence north on U.S. Highway 29 to junction Virginia Highway 6, thence east along Virginia Highway 6 to junction Virginia Highway 33, thence east along Virginia Highway 33 to the Chesapeake Bay, thence south along the Chesapeake Bay to the Atlantic Ocean. The purpose

of this filing is to eliminate the gateway of Martinsville, Va.

No. MC 61825 (Sub-No. E556), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Joe Clyde Wilson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Materials used in the manufacture of furniture*, from those points in Indiana on and north of a line beginning on the Indiana-Kentucky State line and extending along Indiana Highway 256 to junction U.S. Highway 31, thence north on U.S. Highway 31 to junction Indiana Highway 250, thence west on Indiana Highway 250 to junction Indiana Highway 39, thence west on Indiana Highway 39 to junction U.S. Highway 50, thence west on U.S. Highway 50 to junction Indiana Highway 37, thence north on Indiana Highway 37 to junction Indiana Highway 46, thence west on Indiana Highway 46 to junction Interstate Highway 70, thence west on Interstate Highway 70 to the Indiana-Illinois State line and south of a line beginning on the Indiana-Ohio State line and extending along U.S. Highway 33 to junction Indiana Highway 19, thence north on Indiana Highway 19 to the Indiana-Michigan State line to points in Virginia located on, east and south of a line beginning on the North Carolina-Virginia State line and extending along the Carroll-Patrick County line to the Blue Ridge Parkway, thence north along the Blue Ridge Parkway to junction Virginia Highway 8, thence north along Virginia Highway 8 to junction U.S. Highway 221, thence north along U.S. Highway 221 to junction U.S. Highway 460, thence north along U.S. Highway 460 to the Blue Ridge Parkway, thence north along the Blue Ridge Parkway to junction Virginia Highway 130, thence east along Virginia Highway 130 to junction U.S. Highway 29, thence north along U.S. Highway 29 to junction Virginia Highway 6, thence east along Virginia Highway 6 to junction U.S. Highway 522, thence north along U.S. Highway 522 to junction Virginia Highway 632, thence east along Virginia Highway 632 to junction U.S. Highway 250, thence east along U.S. Highway 250 to junction Virginia Highway 623, thence north along Virginia Highway 623 to junction Virginia Highway 666, thence east along Virginia Highway 666 to junction Virginia Highway 657, thence east along Virginia Highway 657 to junction Virginia Highway 54, thence east along Virginia Highway 54 to junction Virginia Highway 2, thence south along Virginia Highway 2 to junction Virginia Highway 605, thence east along Virginia Highway 605 to junction U.S. Highway 360, thence east along U.S. Highway 360 to Reedville, thence east across the Chesapeake Bay to the Northampton-Accomack County line, thence east along the Northampton-Accomack County line to the Atlantic Ocean. The purpose of this filing is to eliminate the gateway of Martinsville, Va.

No. MC 65941 (Sub-E17), filed May 13, 1974. Applicant: TOWER LINES, INC., P.O. Box 6010, Wheeling, W. Va. 26003. Applicant's representative: Geo. V. Thieroff (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *commodities*, which because of size or weight require the use of special equipment (except knitting machines and explosives), between points in North Carolina (except points east of a line beginning at the Atlantic Ocean and extending along U.S. Highway 70 to junction U.S. Highway 17, to junction U.S. Highway 13, to the North Carolina-Virginia State line), South Carolina, Tennessee, Kentucky (except points west and north of a line beginning at the Kentucky-Tennessee State line and extending along Interstate Highway 80, to junction Kentucky Highway 80, to junction U.S. Highway 23, to the Kentucky-West Virginia State line), Virginia (except points east of a line beginning at the Virginia-North Carolina State line and extending along U.S. Highway 220 to junction Virginia Highway 311 to the Virginia-West Virginia State line), and West Virginia, on the one hand, and, on the other, points in Pennsylvania on, south, and west of a line beginning at the Ohio-Pennsylvania State line and extending along U.S. Highway 422 to junction Pennsylvania Highway 66, to junction U.S. Highway 119, to the Pennsylvania-West Virginia State line. The purpose of this filing is to eliminate the gateways of points in West Virginia on U.S. Highway 60 and points in Tazewell, Bland, or Giles Counties, W. Va.

No. MC 66886 (Sub-No. E37), filed July 28, 1975. Applicant: BELGER CARTAGE SERVICE, INC., 2100 Walnut St., Kansas City, Mo. 64108. Applicant's representative: Frank W. Taylor, Jr., 1221 Baltimore Ave., Kansas City, Mo. 64105. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Printing and publishing equipment*, which because of size or weight requires the use of special equipment, between those points in Nebraska on and south of a line beginning at the Colorado-Nebraska State line and extending along U.S. Highway 26 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 281, thence along U.S. Highway 281 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction U.S. Highway 77, thence along U.S. Highway 77 to junction Nebraska Highway 4, thence along Nebraska Highway 4 to junction U.S. Highway 75, thence along U.S. Highway 75 to the Kansas-Nebraska State line, on the one hand, and, on the other, those points in Wisconsin on and east of a line beginning at the Wisconsin-Iowa State line and extending along U.S. Highway 151 to junction U.S. Highway 26, thence along U.S. Highway 26 to junction U.S. Highway 41, thence along U.S. Highway 41 to Green Bay. The purpose of this filing is to eliminate the gateway of Kansas.

No. MC 66886 (Sub-No. E40), filed July 28, 1975. Applicant: BELGER CARTAGE SERVICE, INC., 2100 Walnut St., Kansas City, Mo. 64108. Applicant's representative: Frank W. Taylor, Jr., 1221 Baltimore Ave., Kansas City, Mo. 64105. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Printing and publishing equipment*, which because of size or weight requires the use of special equipment, between those points in Nebraska on and south of a line beginning at the Nebraska-Wyoming State line and extending along U.S. Highway 26 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 281, thence along U.S. Highway 281 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction U.S. Highway 77, thence along U.S. Highway 77 to junction Nebraska Highway 4, thence along Nebraska Highway 4 to junction U.S. Highway 75, thence along U.S. Highway 75 to the Kansas-Nebraska State line, on the one hand, and, on the other, those points in the Lower Peninsula of Michigan on and east of a line beginning at the Michigan-Indiana State line and extending along U.S. Highway 13 to junction Interstate Highway 94, thence along Interstate Highway 94 to junction U.S. Highway 27, thence along U.S. Highway 27 to Lake Michigan. The purpose of this filing is to eliminate the gateway of Kansas.

No. MC 66886 (Sub-No. E45), filed July 28, 1975. Applicant: BELGER CARTAGE SERVICE, INC., 2100 Walnut St., Kansas City, Mo. 64108. Applicant's representative: Frank W. Taylor, Jr., 1221 Baltimore Ave., Kansas City, Mo. 64105. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Printing and publishing equipment*, which because of size or weight requires the use of special equipment, between those points in Nebraska on and south of a line beginning at the Colorado-Nebraska State line and extending along Interstate Highway 80 to junction Nebraska Highway 61, thence along Nebraska Highway 61 to junction U.S. Highway 30, thence along U.S. Highway 30 to the Nebraska-Iowa State line, on the one hand, and, on the other, those points in Montana on, west, and north of a line beginning at the Montana-Wyoming State line and extending along U.S. Highway 310 to junction U.S. Highway 87, thence along U.S. Highway 87 to junction Montana Highway 200, thence along Montana Highway 200 to junction Montana Highway 13, thence along Montana Highway 13 to the United States-Canada International Boundary line. The purpose of this filing is to eliminate the gateway of Kansas.

No. MC 92983 (Sub-No. E18), filed June 4, 1974. Applicant: AMERICAN BULK TRANSPORT CO., 818 Grand Ave., P.O. Box 2508, Kansas City, Mo. 64142. Applicant's representative: H. B. Foster (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) *Vegetable oils* and *vegetable oil products* (except soap products and

paint), in bulk, in tank vehicles; (1) from points in Florida located in and east and south of Levy, Gilchrist, and Columbia Counties to points in Mississippi located in Washington, Sunflower, Tallahatche, Panola, Lafayette, Marshall, Benton, DeSoto, Tate, Tunica, Quitman, Coahoma, and Bolivar Counties; (2) from points in Florida located in Broward, Dade, and Monroe Counties to points in Louisiana located in, north, and west of Winn, Jackson, Quachita, and Morehouse Parishes and points in Sabine and Natchitoches Parishes located north of Louisiana Highway 6 (excluding the many commercial zone); (3) from points in Florida located in, south, and east of Nassau, Duval, St. Johns, Flagler, Volusia, Lake, Polk, Hillsborough, and Pinellas Counties to points in Louisiana located in Caddo and Bossier Parishes; (4) from points in Florida to points in Michigan located in the Upper Peninsula of Michigan; (5) from points in Florida located in, south, and west of Volusia, Marion, Aluchua, Gilchrist, LaFayette, and Madison Counties to points in Michigan located in, north, and west of Muskegon, Newaygo, Lake, Wexford, Kalkaski, Ostego, and Cheboygan Counties; and (6) from points in Florida located in and west of Leon and Wakulla Counties to points in Michigan located in, north, and west of Cass, Barry, Ionia, Gratiot, Midland, Gladwin, and Arenal Counties and points in Kalamazoo County located on and west of a line extending from the southern border of Kalamazoo County along U.S. Highway 131 to junction Michigan Highway 43, thence along Michigan Highway 43 to the southern border of Barry County, including the Kalamazoo commercial zone.

(B) *Fats and oils* intended for use as animal and poultry feed or feed ingredients, in bulk, in tank vehicles; (1) from points in Florida located west of Columbia, Gilchrist, and Levy Counties to points in Arkansas located in and north of Sevier, Howard, Pike, Clark, Hot Spring, Grant, Jefferson, Arkansas, and Phillips Counties; and (2) from points in Florida located in, south, and east of Columbia, Gilchrist, and Levy Counties to points in Arkansas located south of Little River, Hempstead, Nevada, Quachita, Dallas, Cleveland, Lincoln, and Desha Counties. (C) *Acids* and *chemicals* (except petroleum and petroleum products), in bulk, from Panama City, Fla., and points within five miles thereof to points in Minnesota. (D) *Dry chemicals*, in bulk, and *liquid chemicals*, in bulk, in tank vehicles, from Panama City, Fla., to points in Wisconsin (except Kenosha County). (E) *Acids* and *chemicals*, in bulk; (1) from Panama City, Fla., and points within five miles thereof to Kansas City, Mo.; (2) from Panama City, Fla., and points within five miles thereof to points in Idaho, Montana, North Dakota, South Dakota, and Wyoming; (3) from Panama City, Fla., to points in Arizona in and north of Apache, Navajo, Gila, Maricopa, and Yuma Counties and points in New Mexico located in, north, and west of Taos, Rio Arriba, Santa Fe, Bernallilo, and McKinley Counties; and (4) from Panama City, Fla., and points within five miles thereof, to points in California, Nevada, Oregon, and Utah. (F) *Acids* and *chemicals*, in bulk, in tank or hopper vehicles, from Panama City, Fla., and points within five miles thereof to points in Colorado, points in Iowa located in and west of Allamakee, Fayette, Buchanan, Benton, Iowa, Keokuk, and Davis Counties, points in Kansas, points in Missouri located in, north, and west of Bernon, St. Clair, Henry, Pettis, Saline, Chariton, Linn, Adair, and Schuyler Counties and to points in Oklahoma within Ottawa, Craig, Nowata, Washington, Osage, Kay, Grant, Alfalfa, Woods, Harper, Beaver, Texas, and Cimarron Counties.

(G) *Acids* and *chemicals* (except cryogenic liquids), in bulk, in tank or hopper vehicles, from Panama City, Fla., and points within five miles thereof to points in Minnesota located in and north and west of Washington, Ramsey, Hennepin, Scott, Rice, Steele, and Freeborn Counties. (H) *Acids* and *chemicals*, in bulk, from Panama City, Fla., and five miles thereof to points in Washington. (I) *Acids* and *chemicals* (except derivatives of petroleum or petroleum products), in bulk, in tank or hopper vehicles; (1) from points in Florida to points in Kansas (except Cherokee and Labette Counties); (2) from points in Florida located in, east, and south of Leon and Wakulla Counties to points in Kansas; (3) from points in Florida to points in Iowa located in and west of Davis, Wapello, Keokuk, Iowa, Benton, Buchanan, Fayette, and Allamakee Counties and points in Minnesota; (4) from points in Florida located in and west of Baker, Columbia, Suwannee, Lafayette, and Dixie Counties to points in Missouri located in, north, and west of Vernon, St. Clair, Benton, Morgan, Moniteau, Boone, Randolph, Macon, Adair, and Schuyler Counties; (5) from points in Florida located in, south, and east of Levy, Gilchrist, Alacua, Union, Bradford, Clay, Duval, and Nassau Counties, Fla., to points in Missouri located in Newton, Lawrence, Dade, Polk, Dallas, Camden, Miller, Cole, Jasper, Barton, Cedar, and Hickory Counties; (6) from points in Florida located in and east of Leon and Wakulla Counties to points in Oklahoma located in, north, and west of Ellis, Woodward, Major, Garfield, Noble, Pawnee, Osage, Washington, Nowata, Craig, and Ottawa Counties; (7) from points in Florida located in and west of Leon and Wakulla Counties to points in Wisconsin located in LaCrosse, Trempealeau, Buffalo, Pepin, Pierce, Dunn, St. Croix, Polk, Barron, Burnett, Washburn, and Douglas Counties and points in Sawyer and Bayfield Counties located on and west of a line extending from the southern border of Sawyer County along Wisconsin Highway 27 to junction U.S. Highway 63, including the Hayward commercial zone, thence along U.S. Highway 63 to junction U.S. Highway 2, thence along U.S. Highway 2 to Lake Superior, two miles south of Barksdale, Wis.; restricted in (I) (1)–(7) against the transportation of liquid chemical from Escambia and Santa Rose Counties, Fla., and against the transportation of such rosins and tall oil products as are classified as chemicals from Port St. Joe, Fla.

(J) *Acids* and *chemicals*, in bulk; (1) from points in Florida to points in Idaho, Montana, North Dakota, South Dakota, and Wyoming; (2) from points in Florida to points in California, Nevada, Oregon, and Utah; (3) from points in Florida located west of Leon and Wakulla Counties to points in New Mexico located in McKinley, Sandoval, Santa Fe, Mora, Colfas, Union, Taos, Los Alamos, Rio Arriba, and San Juan Counties and points in Arizona located in and north of Apache, Navajo, Gilen, Maricopa, and Yuma Counties, Ariz.; (4) from points in Florida located in and east of Leon and Wakulla Counties to points in New Mexico located in, north, and west of Quay, DeBaca, Lincoln, Sierra, Grant, and Hidalgo Counties and points in Arizona; (5) from points in Florida to points in Colorado and Nebraska; (6) from points in Florida to points in Missouri located in, north, and west of Schuyler, Adair, Macon, Chariton, Saline, Pettis, Henry, Bates, and Vernon Counties; (7) from points in Florida located in and east of Gadsden, Leon, and Wakulla Counties to points in Missouri located in Randolph, Howard, Cooper, Morgan, Benton, St. Clair, Cedar, and Barton Counties; (8) from points in Florida to points in Colorado, points in Iowa located in and west of Winneshiek, Fayette, Buchanan, Benton, Iowa Keokuk, Wapello, and Davis Counties, points in Kansas (except Labette and Cherokee Counties), points in Nebraska and points in Oklahoma located in Cimarron, Texas, Beaver, Harper, Woods, Alfalfa, and Grant Counties; (9) from points in Florida located in and east of Gadsden, Leon, and Wakulla Counties to points in Kansas and points in Oklahoma located in, north, and west of Rodger Mills, Dewey, Major, Garfield, Noble, Pawnee, Osage, Washington, and Nowata Counties; (10) from points in Florida located in and west of Leon and Wakulla Counties to points in Wisconsin located in and west of Douglas, Washington, Barron, Dunn, Eau Claire, Trempealeau and LaCrosse Counties; and (11) from points in Florida to points in Washington; restricted in (J) (1) through (11) against the transportation of liquid chemicals; from Escambia and Santa Rose Counties, Fla., and such rosins and tall oil products as are classified as chemicals from Port St. Joe, Fla. (K) *Cottonseed meal*, *fish meal*, and *peanut meal*, used as feed, in bulk, in tank vehicles; (1) from points in Florida to points in Illinois located in and north and west of Hancock, Henderson, Warren, Knox, Stark, Bureau, Lee, DeKalb, and Boone Counties; and (2) from points in Florida to points in Minnesota and South Dakota.

(L) *Phosphates* used as fertilizer, in bulk, in tank vehicles; (1) from points in Florida (except Bonney and Tampa), to points in North Dakota; (2) from points in Florida (except Bonney and Tampa), to points in Minnesota and South Dakota; (3) from points in Florida (except

Bonney and Tampa), to points in Illinois located in, north, and east of Randolph, Washington, Marion, Fayette, Effingham, Cumberland, Coles, Douglas, Champaign, Ford, and Iroquois Counties; and (4) from points in Florida (except Bonney and Tampa), to points in Indiana located in Newton and Lake Counties, and points in Wisconsin. The purpose of this filing is to eliminate the gateways of: in (A) above, Memphis, Tenn.; in (B) above, points in Arkansas within the Memphis, Tenn., commercial zone; in (C) above, points in Arkansas within the Memphis, Tenn., commercial zone and Iowa City, Iowa, and points within five miles thereof (within 15 miles of Windham, Iowa); in (D) above, points in Arkansas within the Memphis, Tenn., commercial zone and Burlington, Iowa, and points within ten miles thereof; in (E)(1) above, points in Arkansas within the Memphis, Tenn., commercial zone; in (E)(2) above, points in Arkansas within the Memphis, Tenn., commercial zone, and Kansas City, Kans.; in (E)(3) and (E)(4) above, points in Arkansas within the Memphis, Tenn., commercial zone, and Kansas City, Mo.; in (F) above, points in Arkansas within the Memphis, Tenn., commercial zone, and Olathe, Kans. (point in the Kansas City, Mo., commercial zone); in (G) above, points in Arkansas within the Memphis, Tenn., commercial zone, those points that are within both the Olathe, Kans., and Kansas City, Mo., commercial zone, and Fremont, Nebr.; in (H) above, points in Arkansas within the Memphis, Tenn., commercial zone, and Kansas City, Mo.; in (I)(1)–(6) above, Kansas City, Mo.; in (I)(7) above, Kansas City, Mo., and plant site of Iowa-Guttenberg Terminal, Inc., located approximately two miles south of Guttenberg, Iowa; in (J)(1) above, points that are within both the Kansas City, Kans.-Kansas City, Mo., commercial zone; in (J)(2)–(4) above, Kansas City, Mo.; in (J)(5)–(9) above, Olathe, Kans. (a point in the Kansas City, Mo., commercial zone); in (J)(10) above, Olathe, Kans. (a point in the Kansas City, Mo., commercial zone), and the plant site of the Iowa-Guttenberg Terminal, Inc., located approximately two miles south of Guttenberg, Iowa; in (J)(11) above, Kansas City, Mo.; in (K) above, the plant site of the Protein Blenders, Inc., near Iowa City, Iowa; in (L)(1) above, Mason City, Iowa; in (L)(2) above, Des Moines, Iowa; and in (L)(3) and (L)(4) above, Selma, Mo., and points within five miles thereof.

No. MC 106497 (Sub-No. E1) (Correction), filed May 14, 1974, published in the FEDERAL REGISTER July 1, 1975. Applicant: PARKHILL TRUCK CO., INC., P.O. Box 912, Joplin, Mo. 64801. Applicant's representative: T. M. Tallon (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (3) *Self-propelled articles*, each weighing 15,000 pounds or more, and related machinery, tools, parts, and supplies moving in connection therewith (restricted to self-propelled articles which are transported on trailers), between points in Arkansas, Missouri, Colorado, Illinois, Indiana, Iowa, Kansas, Louisiana, Oklahoma, those in New Mexico on and east of U.S. Highway 85, . . . The purpose of this filing is to eliminate the gateway of Wyoming. The purpose of this partial correction is to correct the origin points. The remainder of this letter-notice remains as previously published.

No. MC 106603 (Sub-No. E31), filed May 10, 1974. Applicant: DIRECT TRANSIT LINES, INC., P.O. Box 8008, Grand Rapids, Mich. 49508. Applicant's representative: Martin J. Leavitt, P.O. Box 400, Northville, Mich. 48167. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Roofing* and *roofing materials* and *insulated brick siding*, which are building contractors' materials and supplies, from points in Ohio to points in Illinois north of Illinois north of Illinois Highway 17. The purpose of this filing is to eliminate the gateway of Whiting or Lowell, Ind.

No. MC 107002 (Sub-No. E10), filed May 13, 1974. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: John J. Borth (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, from Mobile, Ala., to points in Arkansas (points in Mississippi on and south of U.S. Highway 80, and Crupp or Rogerslacy, Miss.)*, Mississippi (points in Mississippi on and south of U.S. Highway 80)*, Illinois, Indiana, Ohio, Oklahoma (Mississippi on and south of U.S. Highway 80 and Washington County, Miss.)*, Kentucky (Lynn Park, Ala.)*, Louisiana (Vicksburg or Lumberton, Miss.)*, Texas (Harrison County, Miss.)*, North Carolina, South Carolina, and Tennessee (Tuscaloosa, Ala.)*, restricted to the transportation of petroleum products, as defined by the Commission to points in Arkansas, Mississippi, Illinois, Indiana, Ohio, and Oklahoma, and restricted against the transportation of asphalt to points in Illinois, Indiana, Ohio, and Oklahoma, and liquefied petroleum gas, to points in Arkansas, Illinois, Indiana, Ohio, Oklahoma, and Texas. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 113843 (Sub-No. E149) (Correction) filed May 12, 1974, published in the FEDERAL REGISTER September 4, 1975. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer St., Boston, Mass. 02210. Applicant's representative: Lawrence T. Sheils (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dairy products*, as defined by the Commission, . . . The purpose of this partial correction is to reflect the correct "E" number—previously published as E14. The remainder of the letter-notice remains as previously published.

No. MC 115841 (Sub-No. E152) (Correction), filed May 22, 1975, published in the FEDERAL REGISTER August 14, 1975. Applicant: COLONIAL REFRIGERATED TRANSPORTATION INCORPORATED, P.O. Box 10327, Birmingham, Ala. 35201. Applicant's representative: Roger M. Shaner (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, in vehicles equipped with mechanical refrigeration, from Atlanta, Ga., to points in Indiana on and north of U.S. Highway 50, points in Ballard and McCracken Counties, Ky., points in New York on and west of Interstate Highway 87, points in Erie County, Pa., points in Tennessee on and west of U.S. Highways 45 and 45E, and points in Illinois, Maine, Michigan, and Wisconsin. The purpose of this filing is to eliminate the gateway of Birmingham, Ala. The purpose of this correction is to clarify the territorial descriptions.

No. MC 115841 (Sub-No. E201) (Correction), filed May 22, 1974, published in the FEDERAL REGISTER August 28, 1975. Applicant: COLONIAL REFRIGERATED TRANSPORTATION, INCORP., P.O. Box 10327, Birmingham, Ala. 35201. Applicant's representative: Roger M. Shaner (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen edible meats, frozen edible meat products, frozen edible meat by-products*, and *frozen edible articles* distributed by meat packinghouses, as defined by the Commission (except in bulk, in tank vehicles), in vehicles equipped with mechanical refrigeration, from the plant site of Missouri Beef Packers, Inc., at or near Phelps, Mo., to (a) points in Florida, North Carolina, South Carolina (except Chesterfield and Marlboro Counties), and points in Alabama on and east of U.S. Highway 31 (except Montgomery) (Nashville, Tenn., and Atlanta, Ga.)*; and (b) Atlanta, Ga. (Nashville, Tenn.)*, restricted to traffic originating at the above-named plant site. The purpose of this filing is to eliminate the gateways indicated by asterisks above. The purpose of this correction is to various errors above in (a) and (b).

No. MC 115841 (Sub-No. E275) (Correction), filed May 22, 1974, published in the FEDERAL REGISTER August 14, 1975. Applicant: COLONIAL REFRIGERATED TRANSPORTATION CORP., P.O. Box 10327, Birmingham, Ala. 35201. Applicant's representative: Roger M. Shaner (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods* (except frozen fruits, berries, and vegetables), and *frozen fruits, berries, and vegetables* when moving in mixed loads with frozen foods, in vehicles equipped with mechanical refrigeration, from Boston, Mass., to points in Texas (except Dallas, Fort Worth, Houston, and San Antonio), and points in Oklahoma (except Tulsa and Oklahoma City) on and south of U.S. Highway 70. The purpose of this filing is to eliminate the gateways of Chattanooga, Tenn., Atlanta, Ga., Birmingham, Ala., and points in Tennessee west

of the Tennessee River. The purpose of this correction is to include the destination point.

No. MC 115841 (Sub-No. E276) (Correction), filed May 22, 1975, published in the FEDERAL REGISTER August 14, 1975. Applicant: COLONIAL REFRIGERATED TRANSPORTATION CORP., P.O. Box 10327, Birmingham, Ala. 35201. Applicant's representative: Roger M. Shaner (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, in vehicles equipped with mechanical refrigeration, from Boston, Mass., to points in California and points in Oregon and west of a line beginning at the Oregon-California State line and extending along Interstate Highway 5 to junction Oregon Highway 22, thence along Oregon Highway 22 to junction U.S. Highway 101, thence along U.S. Highway 101 to the Oregon-Washington State line. The purpose of this filing is to eliminate the gateways of Chattanooga, Tenn., Atlanta, Ga., and Birmingham, Ala. The purpose of this correction is to correct the territorial description above.

No. MC 115841 (Sub-No. E359) (Correction), filed May 22, 1975, published in the FEDERAL REGISTER August 28, 1975. Applicant: COLONIAL REFRIGERATED TRANSPORTATION INCORPORATED, P.O. Box 10327, Birmingham, Ala. 35201. Applicant's representative: Roger M. Shaner (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods* and *frozen edible food preparations* (except bananas and commodities in bulk), in vehicles equipped with mechanical refrigeration, from New York, N.Y., points in Rockland County, N.Y., east of the Garden State Parkway and south of Interstate Highway 287, points in Westchester County, south of Interstate Highway 287, points in Nassau County, N.Y., west of Nassau County Highway 1, and points in Bergen, Essex, Hudson, Passaic, and Union Counties, N.J., to points in Alabama on and north of U.S. Highway 80. The purpose of this filing is to eliminate the gateways of the facilities of Pet Milk Company at Chambersburg, Pa., Chattanooga, Tenn., Atlanta, Ga., and points in Alabama on and east of U.S. Highway 31 and on and north of U.S. Highway 80. The purpose of this correction is to correct the territorial description.

No. MC 119777 (Sub-No. E6), filed April 9, 1974. Applicant: LIGON SPECIALIZED HAULER, INC., P.O. Drawer L, Madisonville, Ky. 42431. Applicant's representative: Jean Holmes (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel*, and *iron and steel articles*, which require special handling, because of size and weight (except machinery, materials, supplies, and equipment incidental to or used in the construction, development, operation, and maintenance of facilities for the discovery, development, and production of natural gas and petroleum, and incidental to, or used in connection with (a) the discovery, development, production, and preservation of natural gas and petroleum, (b) the construction operation, repairs, servicing, dismantling, and maintenance of pipe lines and facilities for the storage of natural gas, gasoline, and petroleum, and (c) the dismantling and maintenance of plants and facilities for refining, recycling, processing, repressuring, and blending gasoline, natural gas and petroleum); (1) from points in Illinois on, north, and east of a line beginning at the Illinois-Iowa State line extending along U.S. Highway 30 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction Illinois Highway 23, thence along Illinois Highway 23 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction Illinois Highway 47, thence along Illinois Highway 47 to junction U.S. Highway 24, thence along U.S. Highway 24 to the Illinois-Indiana State line to points in Alabama except those within a 65 mile radius of Birmingham, Ala.

(2) From points in Illinois on and north of a line beginning at the Illinois-Iowa State line extending along Illinois Highway 9 to junction Illinois Highway 97, thence along Illinois Highway 97 to junction U.S. Highway 136, thence along U.S. Highway 136 to junction U.S. Highway 150, thence along U.S. Highway 150 to junction Interstate Highway 74, thence along Interstate Highway 74 to the Illinois-Indiana State line to points in Alabama on, south, and east of a line beginning at the Alabama-Florida State line extending along Alabama Highway 137 to junction U.S. Highway 29, thence along U.S. Highway 29 to junction U.S. Highway 331, thence along U.S. Highway 331 to junction U.S. Highway 231, thence along U.S. Highway 231 to junction Alabama Highway 9, thence along Alabama Highway 9 to junction U.S. Highway 78, thence along U.S. Highway 78 to junction Alabama Highway 46, thence along Alabama Highway 46 to the terminus of Alabama Highway 46 at the Alabama-Georgia State line; (3) from points in Illinois on and east of a line beginning at Chicago, Ill., thence along Interstate Highway 94 to junction Illinois Highway 43, thence along Illinois Highway 43 to junction Illinois Highway 60, thence along Illinois Highway 60 to junction U.S. Highway 41, thence along U.S. Highway 41 to junction Illinois Highway 176, thence along Illinois Highway 176 to junction Illinois Highway 131, thence along Illinois Highway 131 to junction Illinois Highway 120, thence along Illinois Highway 120 to Waukegan, Ill., to points in Arkansas on and south of a line beginning at the Arkansas-Oklahoma State line extending along U.S. Highway 62 to junction Arkansas Highway 16, thence along Arkansas Highway 16 to junction Arkansas Highway 9, thence along Arkansas Highway 9 to junction Arkansas Highway 14, thence along Arkansas Highway 14 to junction U.S. Highway 167, thence along U.S. Highway 167 to junction Arkansas Highway 69, thence along Arkansas Highway 69 to junction Arkansas Highway 233, thence along Arkansas Highway 233 to junction Arkansas Highway 25, thence along Arkansas Highway 25 to junction U.S. Highway 63, thence along U.S. Highway 63 (through Jonesboro, Ark.), to junction Arkansas Highway 18, thence along Arkansas Highway 18 to junction Arkansas Highway 135, thence along Arkansas Highway 135 to junction Arkansas Highway 14, thence along Arkansas Highway 14 to its terminus at Wilson, Ark.; (4) from Waukegan, Ill., to Blytheville, Ark.

(5) from points in Illinois on and north of a line beginning at the Illinois-Indiana State line extending along U.S. Highway 30 to junction Interstate Highway 57, thence along Interstate Highway 57 to junction Interstate Highway 294, thence along Interstate Highway 294 to junction U.S. Highway 14, thence along U.S. Highway 14 to junction Illinois Highway 47, thence along Illinois Highway 47 to the Illinois-Wisconsin State line to points in Arkansas on and south of a line beginning at the Arkansas-Tennessee State line extending along Interstate Highway 40 to junction U.S. Highway 67, thence along U.S. Highway 67 to junction U.S. Highway 70, thence along U.S. Highway 70 to junction U.S. Highway 270, thence along U.S. Highway 270 to junction Arkansas Highway 88, thence along Arkansas Highway 88 to junction Arkansas Highway 8, thence along Arkansas Highway 8 to the Arkansas-Oklahoma State line; (6) from points in Illinois on and northeast of a line beginning at the Indiana-Illinois State line extending along U.S. Highway 52 to junction Illinois Highway 102, thence along Illinois Highway 102 to junction Illinois Highway 53, thence along Illinois Highway 53 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Illinois Highway 47, thence along Illinois Highway 47 to junction Interstate Highway 90, thence along Interstate Highway 90 to the Wisconsin-Illinois State line to Texarkana, Ark.; (7) from points in Illinois on and north of a line beginning at the Illinois-Iowa State line extending along U.S. Highway 136 to junction U.S. Highway 150, thence along U.S. Highway 150 to junction U.S. Highway 136, thence along U.S. Highway 136 to the Illinois-Indiana State line to Rossville, Ga., and points in Georgia on, east, and south of a line beginning at the Georgia-Tennessee State line extending along U.S. Highway 411 to junction Georgia Highway 20, thence along Georgia Highway 20 to junction U.S. Highway 27, thence along U.S. Highway 27 to junction Georgia Highway 6, thence along Georgia Highway 6 to the Alabama-Georgia State line (except Augusta, Columbus, Macon, and Savannah, Ga.).

(8) From points in Illinois on and north of a line beginning at the Illinois-Missouri State line extending along U.S. Highway 24 to junction Illinois Highway 99, thence along Illinois Highway 99 to junction Illinois Highway 104, thence

along Illinois Highway 104 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction Illinois Highway 32, thence along Illinois Highway 32 to junction Illinois Highway 133, thence along Illinois Highway 133 to junction U.S. Highway 150, thence along U.S. Highway 150 to the Illinois-Indiana State line to points in Georgia on, south, and east of a line beginning at the Georgia-Florida State line extending along Georgia Highway 133 to junction U.S. Highway 319, thence along U.S. Highway 319 to junction U.S. Highway 280, thence along U.S. Highway 280 to junction U.S. Highway 1, thence along U.S. Highway 1 to junction Georgia Highway 56, thence along Georgia Highway 56 to junction U.S. Highway 25, thence along U.S. Highway 25 to the Georgia-South Carolina State line (except Augusta and Savannah, Ga.); (9) from points in Illinois on, north, and east of a line beginning at the Illinois-Wisconsin State line extending along U.S. Highway 12 to junction Illinois Highway 53, thence along Illinois Highway 53 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction Illinois Highway 1, thence along Illinois Highway 1 to junction Interstate Highway 74, thence along Interstate Highway 74 to the Illinois-Indiana State line to Elkhart, Kans.; (10) from Chicago, Ill., to points in Kansas on, south, and west of a line beginning at the Colorado-Kansas State line extending along Kansas Highway 96 to junction Interstate Highway 35, thence along Interstate Highway 35 to junction U.S. Highway 160, thence along U.S. Highway 160 to junction U.S. Highway 169, thence along U.S. Highway 169 to the Kansas-Oklahoma State line.

(11) From points in Illinois on, north, and east of a line beginning at the Illinois-Indiana State line extending along Illinois Highway 114 to junction Illinois Highway 17, thence along Illinois Highway 17 to junction Illinois Highway 50, thence along Illinois Highway 50 to junction Illinois Highway 19, thence along Illinois Highway 19 to junction U.S. Highway 41, thence along U.S. Highway 41 to the Illinois-Wisconsin State line to points in Kansas on, south, and west of a line beginning at the Colorado-Kansas State line extending along Kansas Highway 96 to junction Kansas Highway 27, thence along Kansas Highway 27 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction U.S. Highway 83, thence along U.S. Highway 83 to the Kansas-Oklahoma State line; (12) from points in Illinois on, north, and east of a line beginning at the Illinois-Wisconsin State line extending along U.S. Highway 51 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction Illinois Highway 23, thence along Illinois Highway 23 to junction Illinois Highway 38, thence along Illinois Highway 38 to junction Illinois Highway 47, thence along Illinois Highway 47 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction Interstate Highway 294, thence along Interstate Highway 294 to junction Interstate Highway 80, thence along Interstate Highway 80 to the Illinois-Indiana State line to points in Louisiana; (13) from points in Illinois on, north, and east of a line beginning at the Illinois-Iowa State line extending along U.S. Highway 30 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction Illinois Highway 17, thence along Illinois Highway 17 to junction Illinois Highway 1, thence along Illinois Highway 1 to junction U.S. Highway 136, thence along U.S. Highway 136 to the Illinois-Indiana State line to New Orleans, La.; (14) from points in Illinois on, north, and east of a line beginning at the Illinois-Wisconsin State line extending along Illinois Highway 47 to junction U.S. Highway 14, thence along U.S. Highway 14 to junction Illinois Highway 31, thence along Illinois Highway 31 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction of Illinois Highway 53, thence along Illinois Highway 53 to junction Illinois Highway 38, thence along Illinois Highway 38 to junction Illinois Highway 56, thence along Illinois Highway 56 to junction Interstate Highway 90, thence along Interstate Highway 90 to Chicago, Ill., to points in Mississippi.

(15) From points in Illinois on, north, and east of a line beginning at the Indiana-Illinois State line extending along U.S. Highway 136 to junction Illinois Highway 1, thence along Illinois Highway 1 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction U.S. Highway 30, thence along U.S. Highway 30 to the Illinois-Iowa State line to points in Mississippi on and south of a line beginning at Gulfport, Miss., extending along U.S. Highway 90 to the Mississippi-Alabama State line; (16) from points in Illinois on, north, and east of a line beginning at the Wisconsin-Illinois State line extending along U.S. Highway 51 to junction Illinois Highway 38, thence along Illinois Highway 38 to junction Illinois Highway 47, thence along Illinois Highway 47 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Illinois Highway 53, thence along U.S. Highway 53 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction Illinois Highway 17, thence along Illinois Highway 17 to junction Illinois Highway 114, thence along Illinois Highway 114 to the Illinois-Indiana State line to points in Mississippi on, south, and east of a line beginning at the Louisiana-Mississippi State line extending along U.S. Highway 80 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction Mississippi Highway 12, thence along Mississippi Highway 12 to junction U.S. Highway 82, thence along U.S. Highway 82 to junction Mississippi Highway 50, thence along Mississippi Highway 50 to the Mississippi-Alabama State line; (17) from Danville, Ill., to points in Nebraska on and west of a line beginning at the Nebraska-South Dakota State line extending along U.S. Highway 83 to the Nebraska-Kansas State line.

(18) From points in Illinois on and east of a line beginning at the Illinois-Indiana State line extending along U.S. Highway 24 to junction Illinois Highway 49, thence along Illinois Highway 49 to junction Illinois Highway 133, thence along Illinois Highway 133 to junction Illinois Highway 1, thence along Illinois Highway 1 to junction Illinois Highway 250, thence along Illinois Highway 250 to junction Illinois Highway 130, thence along Illinois Highway 130 to junction Illinois Highway 1, thence along Illinois Highway 1 to junction Illinois Highway 13, thence along Illinois Highway 13 to the Illinois-Kentucky State line to Harrison, Nebr.; (19) from points in Illinois on and east of a line beginning at Chicago, Ill., thence along Interstate Highway 94 to junction Illinois Highway 43, thence along Illinois Highway 43 to junction Illinois Highway 120, thence along Illinois Highway 120 to the terminus at Waukegan, Ill., to points in Oklahoma, on and west of a line beginning at the Kansas-Oklahoma State line extending along Oklahoma Highway 99 to junction U.S. Highway 60, thence along U.S. Highway 60 to junctien U.S. Highway 75, thence along U.S. Highway 75 to junction Oklahoma Highway 51, thence along Oklahoma Highway 51 to junction Muskogee Turnpike, thence along Muskogee Turnpike to junction Interstate Highway 40, thence along Interstate Highway 40 to the Arkansas-Oklahoma State line; (20) from points in Illinois on and east of a line beginning at the Illinois-Wisconsin State line extending along Illinois Highway 47 to junction U.S. Highway 14, thence along U.S. Highway 14 to junction Illinois Highway 31, thence along Illinois Highway 31 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction Illinois Highway 53, thence along Illinois Highway 53 to junction Illinois Highway 38, thence along Illinois Highway 38 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction U.S. Highway 12, thence along U.S. Highway 12 to the Illinois-Indiana State line to points in Oklahoma on and south of a line beginning at the Oklahoma-Texas State line extending along U.S. Highway 66 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction Interstate Highway 40, thence along Interstate Highway 40 to junction Interstate Highway 35, thence along Interstate Highway 35 to junction Oklahoma Highway 19, thence along Oklahoma Highway 19 to junction Oklahoma Highway 3, thence along Oklahoma Highway 3 to junction U.S. Highway 70, thence along U.S. Highway 70 to the Arkansas-Oklahoma State line;

(21) From points in Illinois on, north, and east of a line beginning at the Illinois-Wisconsin State line extending along Illinois Highway 2 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Illinois Highway 47, thence along Illinois Highway 47 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction Illinois Highway 1, thence along Illinois Highway 1 to junction Interstate

Highway 74, thence along Interstate Highway 74 to the Illinois-Indiana State line to Hugo, Okla.; (22) from points in Illinois on and east of a line beginning at the Illinois-Wisconsin State line extending along U.S. Highway 45 to junction Interstate Highway 294, thence along Interstate Highway 294 to junction Interstate Highway 94, thence along Interstate Highway 94 to the Illinois-Indiana State line to points in Texas; (23) from points in Illinois on and east of a line beginning at the Illinois-Wisconsin State line extending along Illinois Highway 47 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Illinois Highway 53, thence along Illinois Highway 53 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction Illinois Highway 1, thence along Illinois Highway 1 to junction U.S. Highway 136, thence along U.S. Highway 136 to the Illinois-Indiana State line to points in Texas on, south, and west of a line beginning at the Texas-New Mexico State line extending along U.S. Highway 87 to junction U.S. Highway 385, thence along U.S. Highway 385 to junction Texas Highway 1061, thence along Texas Highway 1061 to Amarillo, Tex., thence along U.S. Highway 287 to junction U.S. Highway 80, thence along U.S. Highway 80 to junction U.S. Highway 175, thence along U.S. Highway 175 to junction U.S. Highway 69, thence along U.S. Highway 69 to junction Texas Highway 103, thence along Texas Highway 103 to junction Texas Highway 21, thence along Texas Highway 21 to the Texas-Louisiana State line.

(24) From points in Illinois on, east, and north of a line beginning at the Wisconsin-Illinois State line extending along Illinois Highway 26 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction Illinois Highway 23, thence along Illinois Highway 23 to junction Illinois Highway 116, thence along Illinois Highway 116 to junction Illinois Highway 47, thence along Illinois Highway 47 to junction Illinois Highway 9, thence along Illinois Highway 9 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction U.S. Highway 136, thence along U.S. Highway 136 to junction Illinois Highway 49, thence along Illinois Highway 49 to junction U.S. Highway 36, thence along U.S. Highway 36 to the Illinois-Indiana State line, to points in Texas on and south of a line beginning at the Texas-Louisiana State line extending along U.S. Highway 90 to junction U.S. Highway 290, thence along U.S. Highway 290 to junction U.S. Highway 67, thence along U.S. Highway 67 to the United States-Mexico International Boundary line; (25) from points in Indiana on and north of a line beginning at the Illinois-Indiana State line extending along U.S. Highway 136 to junction U.S. Highway 40, thence along U.S. Highway 40 to the Indiana-Ohio State line to points in Alabama on and south of a line beginning at the Alabama-Mississippi State line extending along U.S. Highway 82 to junction Alabama Highway 26, thence along Alabama Highway 26 to junction U.S. Highway 431, thence along U.S. Highway 431 to Phenix City, Ala. (except points within a 65 mile radius of Birmingham, Ala.); (26) from points in Indiana on and north of a line beginning at the Illinois-Indiana State line extending along Indiana Highway 28 to junction U.S. Highway 421, thence along U.S. Highway 421 to junction Indiana Highway 32, thence along Indiana Highway 32 to junction Indiana Highway 67, thence along Indiana Highway 67 to the Indiana-Ohio State line to points in Alabama (except points within a 65 mile radius of Birmingham, Ala.).

(27) From points in Indiana on and northeast of a line beginning at the Ohio-Indiana State line extending along U.S. Highway 40 to junction U.S. Highway 27, thence along U.S. Highway 27 to junction Interstate Highway 70, thence along Interstate Highway 70 to junction U.S. Highway 35, thence along U.S. Highway 35 to junction Indiana Highway 38, thence along Indiana Highway 38 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction Indiana Highway 26, thence along Indiana Highway 26 to junction Indiana Highway 43, thence along Indiana Highway 43 to junction Interstate Highway 65, thence along Interstate Highway 65 to Gary, Ind., to points in Arkansas; (28) from Lafayette, Ind., and points in Indiana on and northeast of a line beginning at the Ohio-Indiana State line extending along U.S. Highway 40 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction U.S. Highway 41, thence along U.S. Highway 41 to junction U.S. Highway 30, thence along U.S. Highway 30 to the Indiana-Illinois State line to points in Arkansas on and southwest of a line beginning at the Tennessee-Arkansas State line extending along Interstate Highway 40 to junction Arkansas Highway 7, thence along Arkansas Highway 7 to junction Arkansas Highway 16, thence along Arkansas Highway 16 to junction Arkansas Highway 59, thence along Arkansas Highway 59 to the Missouri-Arkansas State line; (29) from Columbus, Ind., and points in Indiana on and northeast of a line beginning at Aurora, Ind., thence along U.S. Highway 50 to junction U.S. Highway 421, thence along U.S. Highway 421 to junction Indiana Highway 46, thence along Indiana Highway 46 to junction U.S. Highway 31, thence along U.S. Highway 31 to junction Interstate Highway 465, thence along Interstate Highway 465 to junction U.S. Highway 136, thence along U.S. Highway 136 to junction U.S. Highway 41, thence along U.S. Highway 41 to junction Indiana Highway 26, thence along Indiana Highway 26 to the Indiana-Illinois State line to points in Texarkana, Ark.

(30) From points in Indiana on and north of a line beginning at the Illinois-Indiana State line extending along U.S. Highway 36 to junction Interstate Highway 465, thence along Interstate Highway 465 to junction U.S. Highway 40, thence along U.S. Highway 40 to the Indiana-Ohio State line to points in Georgia on, south, and west of a line beginning at the Alabama-Georgia State line extending along U.S. Highway 280 to junction U.S. Highway 341, thence along U.S. Highway 341 to its terminus at Brunswick, Ga. (except Columbus, Ga.); (31) from points in Indiana on and north of a line beginning at the Illinois-Indiana State line extending along U.S. Highway 136 to junction Indiana Highway 32, thence along Indiana Highway 32 to junction Interstate Highway 65, thence along Interstate Highway 65 to junction Interstate Highway 465, thence along Interstate Highway 465 to junction Interstate Highway 69, thence along Interstate Highway 69 to junction Indiana Highway 67, thence along Indiana Highway 67 to junction U.S. Highway 27, thence along U.S. Highway 27 to junction Indiana Highway 26, thence along Indiana Highway 26 to the Indiana-Ohio State line, to points in Georgia (except Augusta, Columbus, Macon, and Savannah, Ga.); (32) from points in Indiana on, north, and east of a line beginning at the Indiana-Ohio State line extending along Interstate Highway 74 to junction Indiana Highway 46, thence along Indiana Highway 46 to junction Interstate Highway 65, thence along Interstate Highway 65 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction Indiana Highway 43, thence along Indiana Highway 43 to junction U.S. Highway 421, thence along U.S. Highway 421 to Junction U.S. Highway 30, thence along U.S. Highway 30 to junction Indiana Highway 49, thence along Indiana Highway 49 to the terminus at Indiana Dunes State Park, Ind., to points in Kansas.

(33) From points in Indiana on, north, and west of a line beginning at the Illinois-Indiana State line extending along Interstate Highway 74 to junction U.S. Highway 41, thence along U.S. Highway 41 to junction Interstate Highway 70, thence along Interstate Highway 70 to junction Indiana Highway 46, thence along Indiana Highway 46 to junction Indiana Highway 59, thence along Indiana Highway 59 to junction Indiana Highway 54, thence along Indiana Highway 54 to junction Indiana Highway 57, thence along Indiana Highway 57 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction U.S. Highway 231, thence along U.S. Highway 231 to junction Indiana Highway 162, thence along Indiana Highway 162 to junction U.S. Highway 460, thence along U.S. Highway 460 to junction Indiana Highway 545, thence along Indiana Highway 545 to junction Indiana Highway 66, thence along Indiana Highway 66 to Cannelton, Ind., to St. Francis, Kans.; (34) from points in Indiana on, north, and east of a line beginning at the Illinois-Indiana State line extending along U.S. Highway 52 to junction U.S. Highway 231, thence along U.S. Highway 231 to junction U.S. Highway 136, thence along U.S. Highway 136 to junction Indiana Highway 39, thence along Indiana Highway 39 to junction Indiana Highway 37, thence along Indiana Highway 37 to

junction Indiana Highway 46, thence along Indiana Highway 46 to junction Interstate Highway 65, thence along Interstate Highway 65 to the Kentucky-Indiana State line to points in Kansas on and west of a line beginning at the Kansas-Nebraska State line extending along Kansas Highway 28 to junction Kansas Highway 9, thence along Kansas Highway 9 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction U.S. Highway 54, thence along U.S. Highway 54 to junction U.S. Highway 281, thence along U.S. Highway 281 to the Kansas-Oklahoma State line.

(35) From points in Indiana on and north of a line beginning at the Indiana-Illinois State line extending along U.S. Highway 136 to junction U.S. Highway 421, thence along U.S. Highway 421 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction Indiana Highway 44, thence along Indiana Highway 44 to the Indiana-Ohio State line to points in Louisiana; (36) from points in Indiana on and north of a line beginning at the Indiana-Illinois State line extending along Indiana Highway 234 to junction U.S. Highway 41, thence along U.S. Highway 41 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction U.S. Highway 231, thence along U.S. Highway 231 to junction Indiana Highway 46, thence along Indiana Highway 46 to junction Indiana Highway 7, thence along Indiana Highway 7 to junction U.S. Highway 50, thence along U.S. Highway 50 to the Indiana-Ohio State line to Lake Charles, La.; (37) from points in Indiana on, north, and east of a line beginning at the Illinois-Indiana State line extending along U.S. Highway 52 to junction Interstate Highway 465, thence along Interstate Highway 465 to junction U.S. Highway 40, thence along U.S. Highway 40 to the Indiana-Ohio State line to points in Mississippi; (38) from Indianapolis, Ind., to points in Mississippi on and southwest of a line beginning at the Tennessee-Mississippi State line extending along U.S. Highway 78 to the Mississippi-Alabama State line; (39) from points in Indiana on, north, and east of a line beginning at the Illinois-Indiana State line extending along U.S. Highway 136 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction Indiana Highway 252, thence along Indiana Highway 252 to the Indiana-Ohio State line to points in Mississippi on, south, and west of a line beginning at Gulfport, Miss., thence north and northwest on U.S. Highway 49 to junction U.S. Highway 80, thence along U.S. Highway 80 to the Mississippi-Louisiana State line.

(40) From points in Indiana on, north, and east of a line beginning at the Indiana-Michigan State line extending along U.S. Highway 31 to junction Indiana Highway 25, thence along Indiana Highway 25 to junction U.S. Highway 421, thence along U.S. Highway 421 to junction Indiana Highway 38, thence along Indiana Highway 38 to junction Indiana Highway 32, thence along Indiana Highway 32 to junction Indiana Highway 67, thence along Indiana Highway 67 to junction Indiana Highway 32, thence along Indiana Highway 32 to the Indiana-Ohio State line to points in Missouri; (41) from points in Indiana on, north, and east of a line beginning at the Illinois-Indiana State line extending along U.S. Highway 12 to junction Indiana Highway 53, thence along Indiana Highway 53 to junction U.S. Highway 231, thence along U.S. Highway 231 to junction Interstate Highway 65, thence along Interstate Highway 65 to junction U.S. Highway 231, thence along U.S. Highway 231 to junction Indiana Highway 46, thence along Indiana Highway 46 to junction Indiana Highway 57, thence along Indiana Highway 57 to junction U.S. Highway 460, thence along U.S. Highway 460 to junction Indiana Highway 135, thence along Indiana Highway 135 to the Indiana-Kentucky State line to points in Missouri on, north, and west of a line beginning at the Nebraska-Missouri State line extending along U.S. Highway 136 to junction U.S. Highway 59, thence along U.S. Highway 59 to the Iowa-Missouri State line.

(42) From points in Indiana on, north, and east of a line beginning at the Indiana-Michigan State line extending along Indiana Highway 39 to junction U.S. Highway 35, thence along U.S. Highway 35 to junction Indiana Highway 25, thence along Indiana Highway 25 to junction U.S. Highway 421, thence along U.S. Highway 421 to junction U.S. Highway 40, thence along U.S. Highway 40 to junction Interstate Highway 465, thence along Interstate Highway 465 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction Interstate Highway 74, thence along Interstate Highway 74 to the Indiana-Ohio State line to points in Missouri on and west of a line beginning at the Iowa-Missouri State line extending along U.S. Highway 65 to junction Missouri Highway 6, thence along Missouri Highway 6 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction U.S. Highway 36, thence along U.S. Highway 36 to Hannibal, Mo., thence along U.S. Highway 36 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction Missouri Highway 41, thence along Missouri Highway 41 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction Missouri Highway 83, thence along Missouri Highway 83 to junction U.S. Highway 54, thence along U.S. Highway 54 to junction Missouri Highway 123, thence along Missouri Highway 123 to junction Missouri Highway 13, thence along Missouri Highway 13 to junction Interstate Highway 44, thence along Interstate Highway 44 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction Missouri Highway 14, thence along Missouri Highway 14 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction Missouri Highway 17, thence along Missouri Highway 17 to the Arkansas-Missouri State line.

(43) From points in Indiana on and east of a line beginning at the Kentucky-Indiana State line extending along Interstate Highway 65 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction Indiana Highway 37, thence along Indiana Highway 37 to junction Indiana Highway 39, thence along Indiana Highway 39 to junction U.S. Highway 136, thence along U.S. Highway 136 to junction U.S. Highway 231, thence along U.S. Highway 231 to junction Indiana Highway 25, thence along Indiana Highway 25 to junction Indiana Highway 16, thence along Indiana Highway 16 to junction Indiana Highway 15, thence along Indiana Highway 15 to the Indiana-Michigan State line to points in Nebraska; (44) from points in Indiana on, south, and east of a line beginning at the Illinois-Indiana State line extending along Indiana Highway 10 to junction Interstate Highway 65, thence along Interstate Highway 65 to the terminus at Gary, Ind., to Scottsburg, Nebr.; (45) from points in Indiana on, south, and east of a line beginning at the Indiana-Kentucky State line extending along U.S. Highway 41 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction Indiana Highway 25, thence along Indiana Highway 25 to junction U.S. Highway 31, thence along U.S. Highway 31 to the Indiana-Michigan State line to points in Nebraska on, north, and west of a line beginning at the Nebraska-South Dakota State line extending along U.S. Highway 83 to junction Nebraska Highway 2, thence along Nebraska Highway 2 to junction Nebraska Highway 70, thence along Nebraska Highway 70 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 385, thence along U.S. Highway 385 to the Colorado-Nebraska State line; (46) from points in Indiana on, north, and east of a line beginning at the Indiana-Illinois State line extending along U.S. Highway 30 to junction Interstate Highway 65, thence along Interstate Highway 65 to junction U.S. Highway 231, thence along U.S. Highway 231 to junction U.S. Highway 52, thence along U.S. Highway 52, through and including Lafayette, Ind., to junction Interstate Highway 465, thence along Interstate Highway 465 to junction U.S. Highway 31, thence along U.S. Highway 31 to junction U.S. Highway Alternate 31, thence along U.S. Highway Alternate 31 to junction Indiana Highway 46, thence along Indiana Highway 46 to junction Interstate Highway 74, thence along Interstate Highway 74 to the Indiana-Ohio State line to points in Oklahoma.

(47) From points in Indiana on and east of a line beginning at the Illinois-Indiana State line extending along U.S. Highway 52 to junction U.S. Highway 41, thence along U.S. Highway 41 to junction U.S. Highway 136, thence along U.S. Highway 136 to junction Indiana Highway 39, thence along Indiana Highway 39 to junction Indiana Highway 37, thence along Indiana Highway 37 to junction Indiana Highway 46, thence along Indiana Highway 46, through and including Bloomington, Ind., to junc-

tion Indiana Highway 135, thence along Indiana Highway 135 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction Indiana Highway 39, thence along Indiana Highway 39 to junction Indiana Highway 56, thence along Indiana Highway 56 to junction Interstate Highway 65, thence along Interstate Highway 65 to junction Indiana Highway 62, thence along Indiana Highway 62 to the terminus at Jeffersonville, Ind., to points in Oklahoma on and west of a line beginning at the Oklahoma-Kansas State line extending along U.S. Highway 281 to junction U.S. Highway 60, thence along U.S. Highway 60 to junction U.S. Highway 183, thence along U.S. Highway 183 to junction Interstate Highway 40, thence along Interstate Highway 40 to junction U.S. Highway 77 (at, and including Oklahoma City, Okla.), thence along U.S. Highway 77 to the Oklahoma-Texas State line; (48) from points in Indiana on and north of a line beginning at the Illinois-Indiana State line extending along U.S. Highway 30 to junction U.S. Highway 41, thence along U.S. Highway 41 to junction Indiana Highway 55, thence along Indiana Highway 55 to junction U.S. Highway 136, thence along U.S. Highway 136 to junction Indiana Highway 32, thence along Indiana Highway 32 to junction Interstate Highway 74, thence along Interstate Highway 74 to junction Interstate Highway 465, thence along Interstate Highway 465 to junction U.S. Highway 31, thence along U.S. Highway 31 to junction Indiana Highway 46, thence along Indiana Highway 46 to junction Interstate Highway 74, thence along Interstate Highway 74 to the Indiana-Ohio State line, to points in Texas;

(49) From points in Indiana on, north, and east of a line beginning at the Illinois-Indiana State line extending along U.S. Highway 136 to junction U.S. Highway 231, thence along U.S. Highway 231 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction Indiana Highway 39, thence along Indiana Highway 39 to junction Indiana Highway 37, thence along Indiana Highway 37 to junction Indiana Highway 46, thence along Indiana Highway 46 to junction Indiana Highway 7, thence along Indiana Highway 7 to junction U.S. Highway 421, thence along U.S. Highway 421 to the Indiana-Kentucky State line to points in Texas on, west and south of a line beginning at the Oklahoma-Texas State line extending along U.S. Highway 77 to junction U.S. Highway 75, thence along U.S. Highway 75 to junction U.S. Highway 90, thence along U.S. Highway 90 to a terminus at Orange, Tex.; (50) from Jeffersonville, Clarksville, and New Albany, Ind., to points in Texas on, west, and south of a line beginning at the Oklahoma-Texas State line extending along U.S. Highway 277 to junction U.S. Highway 83, thence along U.S. Highway 83 to junction Texas Highway 44, thence along Texas Highway 44 to its terminus at Corpus Christi, Tex.; (51) from Terre Haute, Ind., to points in Texas on, west, and south of a line beginning at the Texas-New Mexico State line extending along U.S. Highway 84 to junction U.S. Highway 87, thence along U.S. Highway 87 to junction U.S. Highway 83, thence along U.S. Highway 83 to junction U.S. Highway 290, thence along U.S. Highway 290 to junction U.S. Highway 183, thence along U.S. Highway 183 to junction U.S. Highway 87, thence along U.S. Highway 87 to its terminus at Port Lauaca, Tex.; (52) from points in Indiana on, east, and north of a line beginning at Evansville, Ind., thence along U.S. Highway 41 to junction U.S. Highway 50, thence along U.S. Highway 50 to the Illinois-Indiana State line to El Paso, Tex.

(53) From points in Kentucky on and east of a line beginning at Covington, Ky., thence along Interstate Highway 75 to junction Kentucky Highway 32, thence along Kentucky Highway 32 to junction Kentucky Highway 173, thence along Kentucky Highway 173 to junction Kentucky Highway 7, thence along Kentucky Highway 7 to junction U.S. Highway 460, thence along U.S. Highway 460 to junction Kentucky Highway 203, thence along Kentucky Highway 203 to junction Kentucky Highway 191, thence along Kentucky Highway 191 to junction Mountain Parkway, thence along Mountain Parkway to junction Kentucky Highway 15, thence along Kentucky Highway 15 to junction Kentucky Highway 30, thence along Kentucky Highway 30 to Jackson, Ky., thence along Kentucky Highway 30 to junction Kentucky Highway 542, thence along Kentucky Highway 542 to junction Kentucky Highway 7, thence along Kentucky Highway 7 to junction Kentucky Highway 317, thence along Kentucky Highway 317 to junction U.S. Highway 119, thence along U.S. Highway 119 to junction U.S. Highway 23, thence along U.S. Highway 23 to the Kentucky-Virginia State line to Sulphur Springs, Ark.; (54) from Covington and Newport, Ky., to points in Arkansas on and west of a line beginning at the Arkansas-Missouri State line extending along Arkansas Highway 5 to junction U.S. Highway 62, thence along U.S. Highway 62 to junction Arkansas Highway 7, thence along Arkansas Highway 7 to junction Arkansas Highway 28, thence along Arkansas Highway 28 to junction Arkansas Highway 27, thence along Arkansas Highway 27 to junction Arkansas Highway 355, thence along Arkansas Highway 355 to junction U.S. Highway 67, thence along U.S. Highway 67 to junction U.S. Highway 71, thence along U.S. Highway 71 to the Arkansas-Louisiana State line; (55) from points in Kentucky on, north, and east of a line beginning at the Kentucky-West Virginia State line extending along U.S. Highway 23 to junction Kentucky Highway 201, thence along Kentucky Highway 201 to junction Kentucky Highway 32, thence along Kentucky Highway 32 to junction U.S. Highway 27, thence along U.S. Highway 27 to the Ohio-Kentucky State line to points in Kansas; (56) from points in Kentucky on and east of a line beginning at the Kentucky-Tennessee State line extending along U.S. Highway 127 to junction Kentucky Highway 80, thence along Kentucky Highway 80 to junction Kentucky Highway 61, thence along Kentucky Highway 61 to junction Interstate Highway 65, thence along Interstate Highway 65 to the Indiana-Kentucky State line to points in Kansas on, north, and west of a line beginning at the Kansas-Oklahoma State line extending along U.S. Highway 83 to junction U.S. Highway 56, thence along U.S. Highway 56 to junction U.S. Highway 281, thence along U.S. Highway 281 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction Kansas Highway 9, thence along Kansas Highway 9 to junction U.S. Highway 81, thence along U.S. Highway 81 to the Kansas-Nebraska State line.

(57) From points in Kentucky on, north, and east of a line beginning at the Kentucky-Tennessee State line extending along Interstate Highway 75 to junction Kentucky Highway 80, thence along Kentucky Highway 80 to junction U.S. Highway 27, thence along U.S. Highway 27 to junction Interstate Highway 75, thence along Interstate Highway 75 to junction Kentucky Highway 36, thence along Kentucky Highway 36 to its terminus at Milton, Ky., to points in Kansas on, north, and west of a line beginning at the Kansas-Oklahoma State line extending along U.S. Highway 183 to junction U.S. Highway 54, thence along U.S. Highway 54 to junction U.S. Highway 281, thence along U.S. Highway 281 to junction U.S. Highway 156, thence along U.S. Highway 156 to junction Interstate Highway 70, thence along Interstate Highway 70 to junction U.S. Highway 75, thence along U.S. Highway 75 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction Kansas Highway 4, thence along Kansas Highway 4 to junction U.S. Highway 59, thence along U.S. Highway 59 to the Kansas-Missouri State line; (58) from Covington, Ky., to points in Louisiana on and west of a line beginning at the Arkansas-Louisiana State line extending along U.S. Highway 71 to junction Louisiana Highway 4, thence along Louisiana Highway 4 to junction U.S. Highway 167, thence along U.S. Highway 167 to junction Louisiana Highway 182, thence along Louisiana Highway 182 to junction Louisiana Highway 329, thence along Louisiana Highway 329 to its terminus at Avery Island, La.; (59) from points in Kentucky on and east of a line beginning at Louisville, Ky., thence along U.S. Highway 60 to junction Kentucky Highway 55, thence along Kentucky Highway 55 to junction Kentucky Highway 49, thence along Kentucky Highway 49 to junction U.S. Highway 127, thence along U.S. Highway 127 to the Kentucky-Tennessee State line to points in Missouri on and north of a line beginning at St. Joseph, Mo., thence along Missouri Highway 6 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction U.S. Highway 136, thence along U.S. Highway 136 to the Missouri-Iowa State line;

(60) From points in Kentucky on and east of a line beginning at Covington, Ky., thence along U.S. Highway 27 to junction U.S. Highway 460, thence along U.S. Highway 460 to junction Kentucky Highway 460 to junction Kentucky Highway 11, thence along Kentucky Highway 11 to junction Kentucky Highway 30, thence along Kentucky Highway 30 to junction U.S. Highway 25, thence along U.S. Highway 25 to junction U.S. Highway 25E, thence along U.S. Highway 25E to the Kentucky-Tennessee State line to points in Missouri on and north of a line beginning at the Missouri-Illinois State line extending along U.S. Highway 36 to junction U.S. Highway 24, thence along U.S. Highway 24 to the Missouri-Kansas State line; (61) from points in Kentucky on and north of a line beginning at Covington, Ky., thence along Kentucky Highway 8 to Maysville, Ky., thence along Kentucky Highway 10 to junction U.S. Highway 23, thence along U.S. Highway 23 to a terminus at Ashland, Ky., to points in Missouri on and north and west of a line beginning at the Missouri-Illinois State line extending along U.S. Highway 36 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction U.S. Highway 54, thence along U.S. Highway 54 to junction Missouri Highway 5, thence along Missouri Highway 5 to junction U.S. Highway 66, thence along U.S. Highway 66 to junction U.S. Highway 65, thence along U.S. Highway 65 to the Missouri-Arkansas State line; (62) from points in Kentucky on and east of a line beginning at Brandenburg, Ky., thence along Kentucky Highway 1638 to junction U.S. Highway 31W, thence along U.S. Highway 31W to junction Kentucky Highway 61, thence along Kentucky Highway 61 to junction U.S. Highway 31E, thence along U.S. Highway 31E to junction Kentucky Highway 90, thence along Kentucky Highway 90 to junction Kentucky Highway 163, thence along Kentucky Highway 163 to the Kentucky-Tennessee State line to points in Nebraska;

(63) From points in Kentucky on and east of a line beginning at the Indiana-Kentucky State line extending along U.S. Highway 231 to junction U.S. Highway 431, thence along U.S. Highway 431 to junction U.S. Highway 62, thence along U.S. Highway 62 to junction Kentucky Highway 171, thence along Kentucky Highway 171, to junction Kentucky Highway 107, thence along Kentucky Highway 107 to junction U.S. Highway 41, thence along U.S. Highway 41 to the Kentucky-Tennessee State line, to points in Nebraska on, north, and west of a line beginning at the Colorado-Nebraska State line extending along Interstate Highway 80S to junction Interstate Highway 80, thence along Interstate Highway 80 to junction Nebraska Highway 61, thence along Nebraska Highway 61 to junction Nebraska Highway 2, thence along Nebraska Highway 2 to junction U.S. Highway 83, thence along U.S. Highway 83 to the Nebraska-South Dakota State line; (64) from points in Kentucky on, north, and east of a line beginning at the Indiana-Kentucky State line extending along Kentucky Highway 1638 to junction U.S. Highway 31W, thence along U.S. Highway 31W to junction Kentucky Highway 61, thence along Kentucky Highway 61 to junction Kentucky Highway 80, thence along Kentucky Highway 80 to junction U.S. Highway 127, thence along U.S. Highway 127 to the Kentucky-Tennessee State line to points in Oklahoma on and west of a line beginning at the Kansas-Oklahoma State line extending along U.S. Highway 54 to the Oklahoma-Texas State line; (65) from Covington and Newport, Ky., to points in Oklahoma; (66) from points in Kentucky on, north, and east of a line beginning at the Indiana-Kentucky State line extending along U.S. Highway 421 to junction U.S. Highway 60, thence along U.S. Highway 60 to junction Kentucky Highway 15, thence along Kentucky Highway 15 to junction Kentucky Highway 30, thence along Kentucky Highway 30 to junction Kentucky Highway 114, thence along Kentucky Highway 114 to junction U.S. Highway 460, thence along U.S. Highway 460 to junction U.S. Highway 119, thence along U.S. Highway 119 to the Kentucky-West Virginia State line to points in Oklahoma on and west of a line beginning at the Kansas-Oklahoma State line extending along U.S. Highway 177 to junction Oklahoma Highway 51, thence along Oklahoma Highway 51 to junction Interstate Highway 35, thence along Interstate Highway 35 to junction U.S. Highway 62, thence along U.S. Highway 62 to junction Oklahoma Highway 76, thence along Oklahoma Highway 76 to the terminus at Leon, Okla.;

(67) From points in Kentucky on and north of a line beginning at Ashland, Ky., thence along U.S. Highway 23 to junction Kentucky Highway 10, thence along Kentucky Highway 10 to junction U.S. Highway 27, thence along U.S. Highway 27 to junction Kentucky Highway 8, thence along Kentucky Highway 8 to junction Kentucky Highway 177, thence along Kentucky Highway 177 to the terminus of Kentucky Highway 177 at the Kentucky-Ohio State line to points in Oklahoma on, north, and west of a line beginning at the Arkansas-Oklahoma State line extending along Oklahoma Highway 83 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction U.S. Highway 271, thence along U.S. Highway 271 to the Oklahoma-Texas State line; (68) from points in Kentucky on, north, and east of a line beginning at the Kentucky-Indiana State line extending along U.S. Highway 150 to junction Kentucky Highway 55, thence along Kentucky Highway 55 to junction U.S. Highway 68, thence along U.S. Highway 68 to junction U.S. Highway 150, thence along U.S. Highway 150 to junction U.S. Highway 25, thence along U.S. Highway 25 to junction Kentucky Highway 80, thence along Kentucky Highway 80 to junction U.S. Highway 421, thence along U.S. Highway 421 to the Kentucky-Virginia State line, to points in Texas on, north, and west of a line beginning at the Texas-New Mexico State line extending along U.S. Highway 82 to junction U.S. Highway 87, thence along U.S. Highway 87 to junction Texas Highway 86, thence along Texas Highway 86 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 62, thence along U.S. Highway 62 to the Texas-Oklahoma State line; and points in Texas on and west of a line beginning at the Texas-New Mexico State line extending along U.S. Highway 285 to junction U.S. Highway 80, thence along U.S. Highway 80 to junction Texas Highway 17, thence along Texas Highway 17 to junction U.S. Highway 67, thence along U.S. Highway 67 to its terminus at Presido, Tex.; (69) from Covington and Newport, Ky., to points in Texas; (70) from points in Kentucky on and north of a line beginning at Louisville, Ky., thence along U.S. Highway 460 to junction U.S. Highway 25, thence along U.S. Highway 25 to junction U.S. Highway 60, thence along U.S. Highway 60 to junction U.S. Highway 460, thence along U.S. Highway 460 to junction Kentucky Highway 40, thence along Kentucky Highway 40 to junction Kentucky Highway 292, thence along Kentucky Highway 292 to the terminus at South Williamson, Ky., to points in Texas on, west, and south of a line beginning at the Texas-Oklahoma State line extending along U.S. Highway 277 to junction U.S. Highway 83, thence along U.S. Highway 83 to junction Texas Highway 44, thence along Texas Highway 44 to its terminus at Corpus Christi, Tex. The purpose of this filing is to eliminate the gateway of Kokomo, Ind.

By the Commission.

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

OCTOBER 7, 1975.

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before October 28, 1975. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-75855. By order of October 1, 1975, the Motor Carrier Board on reconsideration approved the acquisition by Kay Wolfson and Ray E. Hassan, of Rego Park and Corona, N.Y., respectively, of control of Ski Action, Inc., Great Neck, N.Y., which holds License No. MC 130096 issued June 23, 1971, authorizing it to engage in operations as a broker at Great Neck, N.Y., in connection with the transportation by motor vehicle of passengers and their baggage, in round-trip all-expense tours, in special and charter operations, beginning and ending at points in Queens, Nassau, and Suffolk Counties, N.Y., and extending to points in Connecticut, Delaware, Indiana, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, Wisconsin, and the District of Columbia. Sidney J. Leshin, 575 Madison Avenue, New York, N.Y. 10022, attorney for applicants.

No. MC-FC-76101. By order of October 1, 1975, the Motor Carrier Board approved the transfer to Tri-State Motor Express, Inc., Chicago, Ill., of the operating rights evidenced by Certificate of Registration No. MC 99091 (Sub-No. 1) issued March 23, 1965, to Robert P. Frawley and Louise C. Frawley, a partnership, doing business as Tri-State Motor Express, Chicago, Ill., authorizing transportation as a motor carrier in interstate or foreign commerce corresponding to the intrastate transportation authorized by certificate No. 112401 MC issued February 19, 1957, by the Illinois Commerce Commission. Irwin D. Rozner, 134 N. LaSalle Street, Chicago, Ill. 60602, attorney for applicants.

DEPARTMENT OF THE TREASURY

Comptroller of the Currency

INSURED BANKS

Joint Proposal for Revision of Report of Condition and Report of Income

The Board of Governors of the Federal Reserve System, the Comptroller of the Currency and the Federal Deposit Insurance Corporation have proposed a revision of the Report of Condition and the Report of Income which banks and their respective jurisdictions are required to make and have transmitted the proposal to the banks for comment.

The proposal and the transmittal letter are published here as an invitation for public comment.

Comments should be submitted to either of the three agencies in time to be received by November 1, 1975. Their addresses are as follows:

Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551.
Comptroller of the Currency, Washington, D.C. 20219.
Executive Secretary, Federal Deposit Insurance Corporation, Washington, D.C. 20429.

Dated: October 1, 1975.

BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM OFFICE OF THE COMPTROLLER OF THE CURRENCY FEDERAL DEPOSIT INSURANCE CORPORATION

OCTOBER 1, 1975.

To the Chief Executive Officer,

A proposed revision of the Report of Condition and the Report of Income has been designed by the three Federal banking supervisory agencies to provide more meaningful and timely information to bank supervisors, shareholders, and depositors. Discussions with the Securities and Exchange Commission concerning appropriate disclosure for bank holding companies and for commercial banks played a role in the review process leading to the proposed changes in and additions to the reports.

Those proposals are now being published in the Federal Register and released for public comment. Copies of the proposed reporting forms are enclosed with this letter. It will be especially helpful in achieving our objectives to know the views of the banks that will be submitting these reports, and therefore the regulatory agencies will appreciate receiving your comments.

There are two parts to the proposed revisions. First, there is a revision of the Report of Condition and the Report of Income that would be submitted by all insured commercial banks; these are referred to as the "universal" reports. The second part is a set of quarterly *supplemental* schedules labeled "Large Bank Supplements to Report of Condition and Report of Income" that would be required only of larger banks. For National banks reporting to the Comptroller of the Currency and State member banks reporting to the Federal Reserve, it is tentatively proposed that these large bank supplements be required of banks with total assets of over $300 million on their fully consolidated condition statement (both domestic and foreign offices); for insured nonmember banks reporting to the Federal Deposit Insurance Corporation, banks of over $100 million in assets would submit the large bank supplements. The size cut-offs for large banks that will be finally adopted will depend on agency evaluation of disclosure and information needs; however, they will not be less than $100 million for any agency.

In this mailing for information and comment, all insured commercial banks of over $100 million in total assets are being sent copies of both the "universal" reports and the large bank supplements. Banks of less than $100 million in total assets are being sent only the "universal" reports, but copies of the large bank supplements are available upon request. For nonmember banks an additional schedule of selected deposit items is also enclosed for the purpose of measuring the nonmember banks' component of the money supply. Member banks already provide such information to their Federal Reserve Banks.

Both the "universal" Reports of Condition and Income, with all their schedules, and the supplemental "large bank" schedules finally adopted will be subject to public disclosure.

The proposals envisage changing the income report from an annual to a semi-annual basis for the smaller banks and to a quarterly basis for the larger banks. All four quarterly condition statements would be reported as of the last day of the quarter.

With respect to the "universal" reports, many of the changes are in format, but there are also changes in accounting treatment of loan reserves, unearned income on loans, and taxes and net income after taxes. In addition, there are some added details required to be reported in the loan and deposit schedules, in the security maturity schedule, in the 15-day average memorandum items on the face of the call, and in income and expense items.

The large bank supplements, to some extent, reflect reporting requirements already being met in some form by many banks, but there are also several new reporting requirements. The information required in the supplements relates to maturity breakdowns of loans and deposits, loan commitments, location of borrower and depositor by broad geographical breakdown, interest rates on securities, non-current loans, and loan loss experience. The large banks will also be required to report consolidated condition and income statements for their foreign branches and subsidiaries and Edge Act and Agreement subsidiaries.

More detailed descriptions of the agency proposals, both for the "universal" reports and for the "large bank" supplements, are contained in the accompanying statement.

Not included in the proposals submitted here but under agency consideration for some future time is the need to have some set of bank balance sheet items reported on a daily average basis for the reporting period in addition to an amounts outstanding basis for the last day of the reporting period. The agencies would appreciate comments on this matter in addition to those on the present proposals.

The current intention of the agencies is to put the proposed revisions and supplements, as modified by consideration of comments, into effect for the December 1975 reports. Banks required to submit the "large bank" supplementary reports for December 1975 will be determined on the basis of their size as of June 30, 1975.

The comment period for the contents of the "universal" reports and the "large bank" supplements, and for the large bank size cut-off will extend to November 1. Comments should be sent to the respective agencies, which will give careful consideration to all comments received.

Sincerely yours,

JAMES E. SMITH,
Comptroller of the Currency.
FRANK WILLE,
Chairman, Federal Deposit Insurance Corporation.
ARTHUR F. BURNS,
Chairman, Board of Governors of the Federal Reserve System.

BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM OFFICE OF THE COMPTROLLER OF THE CURRENCY FEDERAL DEPOSIT INSURANCE CORPORATION

PROPOSED REVISIONS IN THE REPORT OF CONDITION AND THE REPORT OF INCOME

Proposed changes in the Report of Condition. The proposed changes affecting the face and schedules of the Report of Condition reported by all insured banks relate to the following:

(a) Frequency and date of reporting;
(b) Treatment of bad debt reserves;
(c) Unearned income on loans;
(d) "Capital notes and debentures";
(e) Detail required in the loan schedule;
(f) Reorganization of the Deposit schedules;
(g) Additional information on positions vis-a-vis foreign branches; and
(h) A number of other changes.

These are described in the following paragraphs.

(a) *Frequency and date of reporting.* In recent years, a full set of supporting schedules for the Report of Condition has been required only for the June and December calls. In the proposed revision, a full set of all supporting schedules would be required with each call, i.e., four times per year. All reports, including the Spring and Fall calls, would normally be as of the last day of the quarter.

(b) *Bad debt reserves.* The bad debt reserve set up pursuant to IRS rulings would be broken into three parts, in line with what has become a "generally accepted accounting principle." The "valuation" portion of the reserve, i.e., the portion that has been reflected in past statements as a charge against income, would appear on the face of the Report of Condition as a deduction from total loans. (See line 9b on the face of the Report.) The deferred income tax portion of the IRS reserve would be reflected in the "other liabilities" schedule (see line 7 of Schedule H). The capital reserve portion of the IRS reserve portion of the IRS reserve would be included in the "undivided profits" account. "Reserves for securities" would also be included in undivided profits.

(c) *Unearned income on loans.* Any unearned income on loans that was included in the figures entered for individual loan categories in Schedule A would be netted against total gross loans in the loan schedule (see line 9 of Schedule A). Thus, the "total loan" figure carried from Schedule A (line 10) to the face of the Report of Condition (line 9a) would exclude unearned income.

(d) *"Capital notes and debentures."* The account referred to on the current Report of Condition as "capital notes and debentures" would be re-labeled "Subordinated notes and debentures" and shown between "total liabilities" and "equity capital." (See line 31 of the proposed revision of the face of the Call.) This change accords with accepted accounting terminology and does not necessarily imply any supervisory change in the treatment of these notes by the banking agencies.

(e) *Detail in the Schedule of Loans (Schedule A).* Some additional detail would be secured in the loan schedule under the proposed revision. Under "real estate loans", "construction and land development" loans that are secured primarily by real estate would be broken out from all the other types of real estate loans and shown separately (see line 1a of Schedule A). Other construction loans would continue to be reported under "commercial and industrial loans" (line 5 of Schedule A).

Under "loans to financial institutions", more detail would be called for, as follows: (a) Real estate investment trusts and mortgage companies; (b) domestic commercial banks; (c) foreign banks; (d) other depository institutions; and (e) other financial institutions.

(f) *Reorganization of the Deposit Schedules.* In the current format, detail on Demand Deposits and on Time and Savings Deposits are shown in two separate schedules. In the proposed format, these would be combined in a single Schedule F. The new format would provide for the separate reporting for savings deposits held by individuals, businesses, and other holders. (See column b.) This has been provided to reflect a proposed change in regulation, now under consideration, that would permit commercial banks to receive corporate savings deposits. Aside from this new detail on savings deposits, the new Schedule F format does not ask for any information not now contained in the current deposit schedules.

(g) *Position with own foreign branches.* Net due from or net due to own foreign branches, which are currently interlined as appropriate in the Schedules of other assets and other liabilities, would be given explicit entries in these schedules. (See line 2 of Schedule G and line 2 of Schedule H.) In addition, two memoranda lines would be added to these schedules to show the gross due from and gross due to foreign branches. Revised instructions would provide definitions of these gross measures.

(h) *Other changes.* Separate lines for "corporate stock" and "direct lease financing" would be required on the face of the Report of Condition; the former is currently an inset item and the latter is currently an item under other assets. The following changes in the memoranda items on the face of the Report of Condition are proposed: there would be a 15-day average figure for "Federal funds sold and securities purchased under agreements to resell" (corresponding to line 8), a similar average for loans (corresponding to line 9a), and an item for "Time deposits in denominations of $100,000 or more." Maturity information on corporate bonds, notes, and debentures would be added to Schedule B. Minority interest in consolidated subsidiaries, which is usually of small magnitude, would be shifted from a specific line on the face of the Condition Statement and included with other liabilities (line 29) on the face and would be shown as a specific item in the Schedule of Other Liabilities. It should also be noted that various schedules have been renumbered and their contents rearranged.

Proposed changes in the Report of Income. The proposed changes in the Report of Income submitted by all insured banks relate to:

(a) Frequency of reporting;
(b) Applicable income taxes;
(c) Reserves for loan losses; and
(d) Other changes.

(a) *Frequency of reporting.* The Report of Income would be reported semi-annually for all insured banks not classified as "large" banks and quarterly for "large" banks.

(b) *Taxes.* The revised Report of Income would simplify the reporting of applicable income taxes. Apart from the treatment for "extraordinary items", the revised format would have a single "applicable income tax" item—divided between Federal income taxes and state and local income taxes—which would be applied after securities gains and losses. This treatment contrasts with that in the current Report of Income where taxes applicable to operating earnings are deducted before security gains and losses. No detail is lost, however; a memorandum item on the

face of the Report would show operating earnings before securities transactions but after applicable income taxes.

(c) *Reserves for loan losses.* The schedule for "reserve for loan losses" (Section C) would relate only to "valuation" reserves, in line with the changes in accounting for loan loss reserves discussed above in connection with the Report of Condition.

(d) *Other changes.* The proposed form would require a breakdown of interest expenses on time deposits between those on time deposits in denominations of $100,000 or more and those on all other deposits (lines 2b and 2c). The comparable balance sheet breakdown would be also available on the Report of Condition. A separate item for "income from direct lease financing" (line 1f) would be added, paralleling the separate reporting of such financing on the Report of Condition. Salaries and other employee benefits would be lumped into a single item (line 2a). The recording of "extraordinary items" would be changed—a bank having such items would use the box found at the bottom of the face of the Report of Income and would provide detail in a memorandum item in Section E. Section B, dealing with changes in capital, would have a restructured format and a separate Section D would be provided for specific itemization of selected "other income" and "other expenses" items now required to be interlined on the face of the Report.

PROPOSED "LARGE-BANK" SUPPLEMENTS TO REPORT OF CONDITION AND REPORT OF INCOME

It is proposed that a set of supplementary schedules on the Report of Condition and the Report of Income, as appropriately modified by consideration of comments received, will be required by the banking agencies from all banks above a certain size. The tentative proposal for the size cut-off is $300 million in assets on their fully consolidated condition statement (both domestic and foreign offices) for banks reporting to the Comptroller and the Federal Reserve and $100 million for banks reporting to the FDIC.

Supplements to Report of Condition. The proposed supplements to the Report of Condition are:

A. A maturity breakdown for types of loans at domestic offices;

B. Loan commitments at domestic offices;

C. A maturity breakdown of large time deposits at domestic offices;

D. A consolidated report of condition for foreign branches and subsidiaries and Edge Act corporations;

E. A maturity breakdown for selected items at foreign offices;

F. A geographical breakdown by location of customer for assets and liabilities of foreign offices;

G. A geographical breakdown by location of customer for assets and liabilities of domestic offices; and

H. Average interest rates for security holdings broken down by type of security and by maturity.

A. *Loan maturity.* Table A would require a three-period loan maturity breakdown—one year or less, over one through five years, and over five years—for (1) construction and land development loans secured primarily by real estate; (2) other loans secured primarily by real estate, excluding loans secured by one-to-four family residential mortgages; (3) commercial and industrial loans; and (4) other loans except loans to individuals and loan secured by one-to-four family residential properties. Reporting would be on a "remaining maturity" basis. (See footnote 1 of Table A.) In addition, those reportable loans with remaining maturity of one year or more would be subdivided between those with fixed interest rates and those with floating interest rates. The latter category would, in turn, be subdivided between those loans whose rate is tied to the domestic prime rate and all other such loans. The table would cover only loans at domestic offices.

B. *Loan commitments.* Table B would secure data on loan commitments at domestic offices of the reporting bank. The commitments to be reported here would cover all official promises to lend that are expressly conveyed orally or in writing to the bank's customers, whether or not a specific fee has been paid. Except for the addition of some detail, the definitions and format of the proposed table would be identical to those that have been used for some time by the Comptroller and the Federal Reserve for a required supplement to the call report for larger banks. Loan commitments at foreign offices would be covered in a memorandum line on supplementary Table D.

C. *Time deposit maturities.* Table C would secure a four-part maturity distribution, concentrating in the range under one year, of all time deposits in denominations of $100,000 and over issued by domestic offices of the reporting bank.

D. *Balance sheet for foreign offices.* Table D would request a consolidated balance sheet covering the foreign branches and subsidiaries and the Edge Act and Agreement subsidiaries of reporting banks. The format was adapted from the condition statement now required for each foreign branch, but would provide more detail on loans and deposits.

E. *Maturity distributions at foreign offices.* Table E would require a maturity distribution of assets and liabilities of foreign branches and subsidiaries. It would be a counterpart to Table A, which would be for domestic offices, but would provide less detail by type of loan and would add maturity distributions for "due from banks" (with some detail by type of bank) and "total deposits". For loans having a remaining maturity of one year or more, information would also be required on those with a fixed interest rate and those with a floating interest rate.

F. and G. *Geographical location of Customer.* Table F would ask for a presentation of total assets, selected assets, total liabilities, and selected liabilities carried on the books of foreign branches and subsidiaries, by geographical location of customer. Seven major geographic areas of the world would be included, plus an eigth category relating to "international and regional organizations", and an "unallocated" residual. The geographic areas used are the major geographic headings used for the Treasury Foreign Exchange Reports, though the terminology differs in a few cases. Table G would ask for similar information on the assets and liabilities of domestic offices.

H. *Interest rates on securities.* Table H would require the weighted average interest rates on investment securities cross-classified by type of security and by maturity. The breakdowns by type of security and by maturity periods would be identical to those in the Schedule B of the Report of Condition.

Supplements to the Report of Income. The proposed Supplements to the Report of Income would require reporting on:

A. The income effects of "non-current" loans;

B. Loan loss experience; and

C. An income statement for foreign branches and subsidiaries and Edge Act subsidiaries.

A. *"Non-current" loans.* Table A would call for the reporting of the interest income reduction that occurred during the report period due to each of two classes of "non-current loans" at domestic offices—(1) loans past due 60 days with respect to interest or principal; and (2) loans renegotiated as to reduced or deferred principal or interest terms resulting from payment difficulties of borrower. The amount of interest income reduction would be the difference between the reported amount for "originally contracted interest income" and "current recognized interest income." The amount of interest income reduction would also be shown as a percentage of reported operating earnings.

B. *Loan loss experience.* Table B calls for a summary of loan loss experience and for a reconciliation of valuation reserves. The data would relate to domestic offices only but summary information for foreign offices would be provided in Table C. Loan charge-offs and loan recoveries during the report period would be broken down by type of loan, but provision for loan losses would be by total loans only.

C. *Income report for foreign offices.* Table C would call for an abbreviated income and expense statement for foreign branches and subsidiaries and Edge Act and Agreement subsidiaries for the report period. At the present time, such foreign office operations enter the Report of Income in a single line only—net remittable income. This table is designed to provide information on foreign offices similar to what is now available for domestic offices.

(ii) Other ..... _____

1/ Scheduled repayments of principal should be reported in the appropriate maturity period or periods. Loans having no stated schedule of repayments and no stated maturity, past due loans, and overdrafts should be reported as maturing in one year and less.

Large Bank Supplement to Report of Condition

Table B - Loan Commitments at Domestic Offices

Commitments are official promises to lend that are expressly conveyed, orally or in writing, to the bank's customers. Such commitments are usually in the form of a formally executed agreement or a letter signed by one of the bank's officers. Oral commitments made by bank officers to customers are usually accompanied by some documentation for the bank's own records such as a notation in the customer's credit file. Do not omit commitments merely because they are not legally binding or require no commitment fee. Authorizations (internal guidance lines) where the customer is not informed of the amount, however, should be excluded. Each bank has the option of reporting either every commitment without any limitation as to individual size or every commitment that is $100,000 or above. Please indicate which alternative is used.

(Check one)

(a) No size cut-off ☐

(b) $100,000 size cut-off ☐

DOMESTIC OFFICES OF BANK ONLY	COMMITMENTS, INCLUDING CONFIRMED LINES					
	UNUSED		USED		TOTAL	
	Mils.	Thous.	Mils.	Thous.	Mils.	Thous.
1. FOR COMMERCIAL AND INDUSTRIAL LOANS (Corresponds to Schedule A, line 5)						
a) Commitments for term loans						
b) Commitments for revolving credits .						
c) Confirmed lines of credit						
d) Other commitments for commercial and industrial loans						
e) TOTAL						
2. FOR LOANS TO FINANCIAL INSTITUTIONS						
a) To banks (corresponds to Schedule A, lines 2b + 2c)						
b) To bank holding companies 1/						
c) To other financial institutions 2/.						
d) TOTAL						
3. FOR MORTGAGE LOANS (Corresponds to Schedule A, line 1) ..						

1/ Includes commitments for loans (not primarily secured by real estate) to all bank holding companies, including own parent company if your bank is owned by a holding company. Include commitments only to the holding company itself; commitments for loans to subsidiaries of the holding company are covered in other lines as appropriate. In Schedule A, the corresponding loans are part of line 2e.

2/ In Schedule A, the corresponding loans are lines 2a, 2d, and that part of 2e other than loans to bank holding companies.

Internal Revenue Service

ART ADVISORY PANEL

Closed Meeting

Notice is hereby given pursuant to section 10(a)(2) of the Federal Advisory Committee Act, Pub. L. 92-463, that a closed meeting of the Art Advisory Panel will be held on November 12 and 13, 1975, beginning at 9:30 a.m. in Room 3313, Internal Revenue Building, 1111 Constitution Avenue NW., Washington, D.C. 20224.

The agenda will consist of the review and evaluation of the acceptability of market value appraisals of works of art involved in Federal income, estate, or gift tax returns. This involves the discussion of material in individual tax returns made confidential by the provisions of sections 6103 and 7213 of Title 26 of the United States Code and the regulations issued thereunder, and section 1905 of Title 18 of the Code.

A determination as required by section 10(d) of the Federal Advisory Committee Act has been made that these meetings are concerned with matters listed in section 552(b) (3), (4), (5), (6), and (7) of Title 5 of the United Stats Code, and that the meetings will not be open to the public.

DONALD C. ALEXANDER,
Commissioner.

[FR Doc.75-26764 Filed 10-6-75;8:45 am]

[Order No. 125 (Rev. 1)]

FISCAL MANAGEMENT OFFICER

Administrative Resolution of Irregularities in Imprest Funds for Small Purchases, Imprest Funds for Investigative Purposes, and Imprest Funds for Change Making Purposes

Pursuant to authority vested in the Commissioner of Internal Revenue by Treasury Department, Fiscal Service Regulations No. 2 (Revised), dated July 23, 1971, there is hereby delegated to the Fiscal Management Officer the authority to resolve, by administrative action appropriate to the circumstances, irregularities in imprest funds for small purchasers, imprest funds for investigative purposes, and imprest funds for change making purposes, arising from a single incident or series of similar incidents occurring about the same time, amounting to less than $150 (except those involving fraud in any amount and those involving exceptions or charges raised by the General Accounting Office).

The authority delegated herein may not be redelegated.

This order supersedes Delegation Order No. 125, dated August 29, 1972.

Date of issue: September 25, 1975.

Effective date: September 25, 1975.

DONALD C. ALEXANDER,
Commissioner.

[FR Doc.75-26943 Filed 10-6-75;8:45 am]

Office of the Secretary

AC ADAPTERS FROM JAPAN

Antidumping Proceeding Notice

On September 19, 1975, information was received in proper form pursuant to §§ 153.26 and 153.27, Customs Regulations (19 CFR 153.26, 153.27), indicating the possibility that AC adapters from Japan are being, or are likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.).

For the purposes of this notice, the term "AC adapter" means a rectifying apparatus incorporating a transformer rated at less than one KVA and possessing on or more semi-conductor diodes.

There is evidence on record concerning injury or likelihood of injury to or prevention of establishment of an industry in the United States. This evidence indicates that substantial reductions in production, sales, employment and capacity utilization have occurred in the United States industry during the last year. During the period 1973-1974, the value of AC adapters imported from Japan have increased substantially. On the basis of such evidence, it is not deemed necessary to refer the case to the International Trade Commission pursuant to section 201(c)(2) of the Act (19 U.S.C. 160(c)(2)).

Having conducted a summary investigation as required by § 153.29 of the Customs Regulations (19 CFR 153.29) and having determined as a result thereof that there are grounds for so doing, the United States Customs Service is instituting an inquiry to verify the information submitted and to obtain the facts necessary to enable the Secretary of the Treasury to reach a determination as to the fact or likelihood of sales at less than fair value.

The information received tends to indicate that the prices of the merchandise sold for exportation to the United States are less than the prices for home consumption.

This notice is published pursuant to § 153.30 of the Customs Regulations (19 CFR 153.30).

DAVID R. MACDONALD,
Assistant Secretary of The Treasury.

OCTOBER 2, 1975.

[FR Doc.75-26911 Filed 10-6-75;8:45 am]

TREASURY ADVISORY COMMITTEES

Availability of Reports on Closed Meeting Activity

Pursuant to the provisions of the Federal Advisory Committee Act, 5 U.S.C. App. I (Pub. L. 92-463), and OMB Circular A-63 of March 27, 1974, reports on the closed meetings of the following committees which are utilized by the Department of the Treasury have been filed with the Secretary and furnished to the Library of Congress:

American Bankers Association Government Borrowing Committee
Securities Industry Association Government Securities and Federal Agencies Committee

Copies of the reports are available for public inspection at the following locations:

The Library of Congress, Room 256, Main Building, 10 First Street SE., Washington, D.C.
The Department of the Treasury, Committee Manager, Room 3124, Main Treasury, 15th and Pennsylvania Avenue NW., Washington, D.C.

[SEAL] WARREN F. BRECHT,
Assistant Secretary (Administration).

GENERAL SERVICES ADMINISTRATION

PRIVACY ACT OF 1974

Notice of Systems of Records; Correction

In FR Doc. 75-22666 published in the FEDERAL REGISTER (40 FR 39137) of August 27, 1975, setting forth the systems of records prescribed by the Privacy Act of 1974 within the General Services Administration (GSA), the following systems of records were omitted due to oversight.

Included also in this notice are corrections to several systems of records that were described in the original GSA notice in the FEDERAL REGISTER (40 FR 39137) on August 27, 1975, and FEDERAL REGISTER (40 FR 43860) of September 23, 1975.

Any public comments, including written data, views or arguments concerning the following systems of records should be submitted to General Services Administration (CA), Washington, D.C. 20405. Comments must be submitted on or before October 15, 1975.

GSA/ADTS—8

System name: Key Personnel and Essential Residence Telephone Directory

System location: GSA-operated switchboards within the 10 GSA Regions: See Appendix GSA/ADTS Address of Locations following GSA/ADTS-7 (40 FR 39187) of August 27, 1975.

Categories of individuals covered by the system: Federal Agency personnel as designated in the specified regions.

Categories of records in the system: Contains the name, position, office telephone, office and home address and home telephone number of the individual. The purpose of this system is to provide contact points for day-to-day operations and emergencies.

Authority for maintenance of the system: The Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses of these records, as defined in 5 USC 552a(a)(7) and provided for in 5 USC 552a(b)(3), are described in the Appendix following the GSA notices.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper and/or cards.

Retrievability: Indexed by name and/or agency.

Safeguards: Limited access area and records are accessible only to authorized personnel of GSA.

Retention and disposal: Maintain until rescinded by authorizing agency.

System manager(s) and address: The official responsible for the system of records is the Regional Director, Telecommunications Division, ADTS, at the addresses listed in the Appendix GSA/ADTS Address of Locations following GSA/ADTS—7 (40 FR 39187) of August 27, 1975.

Notification procedure: Information may be obtained from the officials listed above.

Record access procedures: An individual can obtain information on the procedures for gaining access to and contesting records from the officials cited above.

Contesting record procedures: GSA rules for access to system of records, contesting the contents of a system of record, and appealing initial determinations are promulgated in 41 CFR 105-64, published in the Federal Register.

Record source categories: Information Provided by Federal Agencies.

In FR Doc. 75-22666 published in the FEDERAL REGISTER (40 FR 39137) of August 27, 1975, setting forth the systems of records prescribed by the Privacy Act of 1974 within General Services Administration (GSA), the following corrections to GSA systems of records GSA/PBS 1 and GSA/Regional Administrators 2 are submitted.

In GSA/PBS 1 change "Categories of individuals covered by the system" to read:

PBS Central Office, other Central Office employee files as necessary, and Regional employee files that are kept on employees in their respective offices.

GSA/Regional Administrators 2

Change system location to read:

The system is located in the Office of the Regional Administrator—Philadelphia, the Office of Business Affairs, Region 3; and the Office of Operating Programs, Region 3, at the addresses listed below:

GSA Region 3, Office of the Regional Administrator (3A), 7th and D Streets, SW, Washington, D.C. 20407.

GSA Region 3, Office of the Assistant Regional Administrator (3AT), Wm. J. Green, Jr. Federal Building, 600 Arch Street, Philadelphia, PA 19106.

GSA Region 3, Office of Business Affairs (3AB), 7th and D Streets, SW, Washington, D.C. 20407.

GSA Region 3, Office of Operating Programs (3M), 7th and D Streets, SW, Washington, D.C. 20407.

GSA Region 3, Office of Operating Programs (3MP), 18th and F Streets, NW, Washington, D.C. 20405.

GSA Region 3, Office of Operating Programs (3MC), Winder Building, Washington, D.C. 20405.

GSA Region 3, Office of Operating Programs (3MC-P, 3 MR-P), Wm. J. Green, Jr. Federal Building, 600 Arch Street, Philadelphia, PA 19106.

Change categories of individuals covered by the system to read:

Individuals include employees in the office of the Regional Administrator, Region 3, the Office of the Assistant Regional Administrator—Philadelphia, the Office of Business Affairs, Region 3, and the Office of Operating Programs, Region 3.

Change categories of records in the system to read:

Records consist of documents accumulated by operating officials in administering personnel matters for or about employees, which may include but are not limited to names, home addresses, home phones, grades, salaries, job titles, personnel evaluations, performance appraisals, correspondence regarding promotions and work assignments, accident reports of lost time, reports of extended details, duty rosters, fitness for duty, training records, military service separation and training records, manpower reports, adverse action documents, personal qualification and data statements, employee record cards, position description and related information, professional registration information, equal employment opportunity records, time and attendance, payroll documents, merit promotion and related documents, use of government-owned vehicles and related information, designation of authorized representatives, security clearances and related information, personnel tickle lists, staffing data, carpool rosters, campaigns, budget, health benefits, travel data, credential data, work measurement records, record of personnel actions and other general correspondence relating to an employee. These records are used to monitor and document personnel actions, determine eligibility for promotion, and work assignment; for the convenience of supervisors in overseeing employee activities; to evaluate performance; document disciplinary action; monitor grievance proceedings and complaints; provide reference to other agencies when seeking employment elsewhere; and as a general management tool to oversee personnel administration of the organization.

Change notification procedure to read:

Information may be obtained from the Regional Administrator, Region 3, the Assistant Regional Administrator—Philadelphia, the Regional Director of Business Affairs, and the Assistant Commissioner for Operating Programs, Region 3, at the addresses listed below:

GSA Region 3, Office of the Regional Administrator (3A), 7th and D Streets, SW, Washington, D.C. 20407.

GSA Region 3, Office of the Assistant Regional Administrator—Philadelphia (3AT), Wm. J. Green, Jr. Federal Building, 600 Arch Street, Philadelphia, PA 19106.

GSA Region 3, Office of Business Affairs (3AB), 7th and D Streets, SW, Washington, D.C. 20407.

GSA Region 3, Office of Operating Programs (3MO), 7th and D Streets, SW, Washington, D.C. 20407.

Change record access procedures to read:

Requests to access records may be directed to the Regional Administrator, Region 3, the Assistant Regional Administrator—Philadelphia, the Regional Director of Business Affairs, Region 3, and the Assistant Commissioner for Operating Programs, Region 3, at the addresses listed above in accordance with the GSA rules as promulgated in 41 CFR 105-64, published in the Federal Register.

In FR 75-22666 published in the Federal Register (40 FR 39137) of August 27, 1975, setting forth the systems of records prescribed by the Privacy Act of 1974 within the General Services Administration (GSA), the following corrections to GSA/OAD systems are submitted.

The notices, GSA/OAD 15 (p. 39144), GSA/OAD 16 (p. 39145) and GSA/OAD 19 (p. 39146) each have had a new category of records added, while the notice GSA/OAD 27 (p. 39150) has been rewritten to include a couple of related records and to place the responsibility for the system on the Office of Personnel rather than the Office of Management Services. To make the required changes, merely remove the sections which had to be rewritten and insert the new material which we have prepared. Those sections of the notices which require change are as follows:

GSA/OAD—15

System location: The Personnel Data Statement Notebook, Key GSA Official Book, and Schedule C and Non-career executive listing are maintained in the GSA Central Office, Office of Personnel, 18th and F Streets, NW, Washington, D.C. 20405. The General Personnel Staffing Information and Changes to the Personnel Roster records are maintained in the personnel offices of GSA at the locations listed in the Appendix for the Office of Personnel following the notice GSA/OAD 22.

Categories of individuals covered by the system: The Key GSA Official Book contains information on current key officials throughout GSA. The Schedule C and Non-career executive listing contains information on people under those type of appointments. The other records concern personnel employees in the personnel offices of GSA as listed in the Appendix for the Office of Personnel following the GSA/OAD notices.

Categories of records in the system: 1. General Personnel Staffing Information

2. Changes to the Personnel Roster
3. Key GSA Official Book
4. Personnel Data Statement Notebook
5. Schedule C and Non-career executive listing

The above records are maintained for the purpose of monitoring the staffing situation within particular organizational units.

Authority for maintenance of the system: 5 U.S.C. 301-302

Record source categories: 1. General personnel staffing information—information for this record is generated internally within the personnel office.

2. Changes to the personnel roster—the information for this record is drawn from service record cards and various files maintained in the processing and records function of the personnel offices.

3. Key GSA Official Book—the information is provided to the Director of Personnel by the various personnel offices throughout GSA.

4. Personal Data Statement Notebook—information for this record is obtained directly from the individual.

5. Schedule C and Non-career executive listing—the information is provided to the Director of Personnel by the various personnel offices throughout GSA.

GSA/OAD—16

System location: This system is maintained in the personnel offices of GSA at the locations listed in the Appendix for the Office of Personnel following the notice GSA/OAD 22 and in the GSA Central Office, Office of Personnel and Office of the Deputy Administrator, 18th and F Streets, NW, Washington, D.C. 20405. Personnel management evaluation interview notes may also be maintained by survey team members who are not employees of the Office of Personnel.

Categories of records in the system: 1. Annotated Performance Analysis Reports

2. Records relating to the Processing Control Record Report (PCR)
3. Executive Salary Ceiling Impact Report backup files
4. Personnel Management Evaluation reports and case listings
5. Personnel Management Evaluation interview notes
6. Allegations of merit system violations

The above records are maintained for the purpose of conducting and/or preparing special personnel studies and reports.

Authority for maintenance of the system: 1. Annotated Performance Analysis Reports: 5 U.S.C. 301; FPM 250-3.

2. Records relating to the Processing Control Record Report (PCR) 5 U.S.C. 301.

3. Executive Salary Ceiling Impact Report Backup Files: 5 U.S.C. 5307.

4. Personnel Management Evaluation reports and case listings E.O. 9830.

5. Personnel Management Evaluation interview notes E.O. 9830

6. Allegations of merit system violations: E.O. 9830.

Record source categories: 1. Annotated Performance Analysis Reports-information is provided in general by the affected individuals.

2. Records relating to the Processing Control Record Report—information is drawn from SF 52, Request for Personnel Action.

3. Executive Salary Ceiling Impact Report backup files—this information is generally obtained from the Processing and Records function and the files which they maintain within each Personnel Office or Division.

4. Personnel Management Evaluation Reports, Case Listings and Interview notes—Information in these records is drawn from supervisors and employees as well as personnel and administrative files.

5. Allegations of merit system violations—information is provided by concerned individuals.

GSA/OAD—19

Categories of records in the system: Add the following item after No. 20

21. Employee parking permit applications and related information

GSA/OAD—27

System name: Application and physical fitness evaluation for motor vehicle operators.

System location: This system of records is maintained in the personnel offices of GSA at the addresses listed in the Appendix for the Office of Personnel following the notice GSA/OAD 22 and in the offices of all designated officials who require such forms prior to issuing a U.S. Government Motor Vehicle Operator's Identification Card.

Categories of individuals covered by the system: All employees who require the issuance of a motor vehicle operator's license.

Categories of records in the system: The purpose of this system is to assess the ability of an employee to safely operate a government motor vehicle and to determine the issuance of a government drivers license (SF 46).

Records in this system include:

1. SF 47, Physical Fitness Inquiry for Motor Vehicle Operators
2. SF 78, Certificate of Medical Examination
3. GSA 1293, Application for Motor Vehicle Operator's Identification Card (SF 46)

Authority for maintenance of the system: 40 U.S.C. 491

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses of these records, as defined in 5 U.S.C. 522a(a)(7) and provided for in 5 U.S.C. 552a(b)(3), are described in the Appendix following the GSA Notices.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper.

Retrievability: Name.

Safeguards: When not in use by an authorized person, these records are stored in lockable metal file cabinets or in secured rooms.

Retention and disposal: Disposition of records shall be in accordance with the HB, GSA Records Maintenance and Disposition System (OAD P 1820.2).

System manager(s) and address: The Director of Personnel at 18th and F Streets, NW., Washington, D.C. 20405

Notification procedure: Current employees may obtain information about whether they are a part of this system of records from the designated official or from their personnel officer at the appropriate address listed in the Appendix for the Office of Personnel following the notice GSA/OAD 22 or from the Director of Personnel at the address noted above, whichever applicable. Former employees may obtain ormation from the personnel officers at the addresses listed in the appendix.

Record access procedures: Requests from current employees to gain access to information pertaining to them should be directed to the designated official or to their personnel officer at the appropriate address listed in the Appendix for the Office of Personnel following the notice GSA/OAD 22 or to the Director of Personnel at the address noted above, whichever applicable. Former employees should direct requests to the appropriate personnel officer at the address listed in the Appendix. For identification requirements refer to the agency regulations as outlined in 41 CFR 105-64.

PART II:

ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

■

PROCUREMENT REGULATIONS

Title 41—Public Contracts and Property Management

CHAPTER 9—ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

REVISION OF CHAPTER 9 TO REFLECT THE ENERGY REORGANIZATION ACT OF 1974

The following procurement regulations are based upon the procurement regulations which were promulgated by the Atomic Energy Commission (AEC) which was abolished, and its operational functions transferred to ERDA on January 19, 1975, pursuant to the Energy Reorganization Act of 1974 (P.L. 93-438). In addition to the functions transferred from AEC, ERDA will perform energy, research and development functions transferred from the Department of the Interior, the National Science Foundation and the Environmental Protection Agency. The revised procurement regulations shall also apply to all of these activities, except that, until further notice, the Assistant Administrators for Fossil Energy; Solar, Geothermal and Advanced Energy Systems; and Conservation will apply FPR 1-15, Cost Principles and Procedures, as modified by ERDA PR Temporary Regulation No. 11, to nonnuclear activities conducted in commercial facilities.

The changes which have been made from the former AEC Procurement Regulations, which were redesignated the ERDA Procurement Regulations in the Federal Register of February 5, 1975, (Volume 40, Number 25) on page 5364, are primarily technical revisions to reflect the application of these procurement regulations to a new agency with a new organizational structure (e.g., changes in organizational entities, titles and certain delegation of authority). These procurement regulations will be undergoing further review in the future so as to better reflect ERDA's general energy, research, development and other responsibilities.

Since the creation of ERDA on January 19, 1975, a number of revisions have been made to the ERDA-PRs; they are as follows:

1. Revision to ERDA-PR Part 9-5, § 9-5.5206-3, ERDA forms, published in the FEDERAL REGISTER on January 21, 1975 and effective on that same date.

2. Revisions to ERDA-PR Part 9-7 and Part 9-16, pertaining to the new Safety and Health Clause, published in the FEDERAL REGISTER on January 28, 1975 under Nuclear Regulatory Commission (with a final correction republished on March 6, 1975) and effective on January 28, 1975.

3. Revision to ERDA-PR Part 9-54, Contract Reporting, published in the FEDERAL REGISTER on May 2, 1975, and effective on July 1, 1975.

4. Revision to ERDA-PR Part 9-7,§ 9-7.5006-25, Payments (cost-type contracts where funds are not advanced), published in the FEDERAL REGISTER on May 22, 1975, and effective on that same date.

In addition to these revised ERDA Procurement Regulations, the following ERDA-PR Temporary Regulations No. 1, 3, 5, 6, 8, 9, and 10 are still in full force and effect.

AUTHORITY: Section 105 of the Energy Reorganization Act of 1974 (P.L. 93-438).

Effective date: These procurement regulations are effective October 15, 1975.

Dated at Germantown, Maryland, this 15th day of July, 1975.

JOSEPH L. SMITH,
Director of Procurement.

Sec.

9-1.101 Scope of subpart.
9-1.102 Establishment of the ERDA Procurement Regulations and the ERDA-PR Temporary Regulations.
9-1.102-1 ERDA Procurement Regulations.
9-1.102-2 ERDA-PR Temporary Regulations.
9-1.103 Authority.
9-1.104 Applicability.
9-1.105 Issuances.
9-1.105-1 Publication.
9-1.105-2 Copies.
9-1.106 Arrangement.
9-1.106-1 General plan.
9-1.106-2 Numbering.
9-1.106-3 Citation.
9-1.107 Implementation and supplementation of FPR.
9-1.107-1 Description.
9-1.108 Exclusions.
9-1.109 Deviation.
9-1.109-1 Description.
9-1.109-2 Procedure.
9-1.110 Exemptions.

Subpart 9-1.2—Definition of Terms

9-1.201 Definitions.
9-1.250 [Reserved]
9-1.251 Division Director.
9-1.252 Subcontract.
9-1.253 Contractor.
9-1.254 Subcontractor.
9-1.255 Cost-type contractor and cost-type subcontractor.
9-1.256 [Reserved]
9-1.257 [Reserved]
9-1.258 Supplier.
9-1.259 Supplies.
9-1.260 Services.

Subpart 9-1.3—General Policies

9-1.301 Methods of procurement.
9-1.302 Procurement sources.
9-1.302-1 General.
9-1.305-1 Mandatory use of Federal Specifications.
9-1.305-3 Deviations from Federal Specifications.
9-1.305-5 Use of Federal and interim Federal Specifications in construction contracts.
9-1.306-1 Mandatory use and applications of Federal Standards.
9-1.307 Purchase descriptions.
9-1.310 [Reserved]
9-1.314 Solicitations for information or planning purposes.
9-1.318 Disputes clause.
9-1.318-1 Contracting officer's decision under a Disputes clause.
9-1.350 ERDA Specifications and standards.
9-1.350-1 Special specifications and standards.
9-1.351 Distribution of Federal Specifications and Standards.
9-1.352 Department of Defense Index of Specifications and Standards.
9-1.353 [Reserved]
9-1.354 Prebidding and preproposal conferences.

Subpart 9-1.4—Procurement Authority and Responsibility

9-1.450 General responsibility of contracting officers.
9-1.451 Standards of conduct.
9-1.452 Disputes provisions in subcontracts under fixed-price prime contracts.

Subpart 9-1.5—Contingent Fees

9-1.500 Scope of subpart.
9-1.501 Applicability.
9-1.507 Use of Standard Form 119.
9-1.507-1 Form prescribed.

Subpart 9-1.6—Debarred, Suspended, and Ineligible Bidders

9-1.600 Scope of subpart.
9-1.602 Establishment and maintenance of a list of concerns or individuals debarred, suspended, or declared ineligible.
9-1.602-1 Bases for entry on debarred, suspended, or ineligible list.
9-1.603 Treatment to be accorded firms or individuals in debarred, suspended, or ineligible status.
9-1.606 Agency procedure.
9-1.606-1 ERDA procedural requirements.
9-1.606-50 Reporting procedures.
9-1.606-51 Collection of information and investigation.
9-1.606-52 Initiation of action.
9-1.606-53 Notice of proposed debarment.
9-1.606-54 Hearing.
9-1.606-55 [Reserved]

TABLE OF CONTENTS

Sec.
9-1.606-56 [Reserved]
9-1.606-57 Final debarment determination after the forfeiture of the right to be heard.
9-1.606-58 Notice of final debarment determination.

Subpart 9-1.7—Small Business Concerns

9-1.700 General.
9-1.702 Small business policies.
9-1.703-2 Protest regarding small business status.
9-1.705-3 Screening of procurements.

9-1.706-1 General.
9-1.706-5 Total set-asides.
9-1.708-3 Conclusiveness of certificate of competency.
9-1.709 Records and reports.
9-1.710-4 Review of subcontracting program.
9-1.713 Contracts with Small Business Administration.
9-1.713-1 Authority.
9-1.751 AEC-SBA Agreement.

Subpart 9-1.8—Labor Surplus Area Concerns

9-1.809 Report on preference and nonpreference procurement in labor surplus areas.

Subpart 9-1.9—Reporting Possible Antitrust Violations

9-1.901 General.
9-1.902 Documents to be transmitted.

Subpart 9-1.11—Qualified Products

9-1.1101 Procurement of qualified products.
9-1.1150 Distribution of qualified products lists.

Subpart 9-1.12—Responsible Prospective Contractors

9-1.1200 Scope.
9-1.1203-2 Additional standards.
9-1.1204 Determination of responsibility or nonresponsibility.

Subpart 9-1.13—Minority Business Enterprises

9-1.1300 Scope of subpart.
9-1.1310 Policy.

Subpart 9-1.16—Reports of Identical Bids

Sec.
9-1.1603-1 Cases to be reported.
9-1.1603-3 Submission of reports.

Subpart 9-1.50—Change Orders, Equitable Adjustments, and Supplemental Agreements for Fixed-Price Contracts

9-1.5000 Scope of subpart.
9-1.5001 General policy.
9-1.5002 Applicability.
9-1.5003 Definitions.
9-1.5004 Change orders and other unilateral-type modifications within the general contract scope.
9-1.5004-1 Change orders.
9-1.5004-2 Unilateral-type contract modifications other than change orders.
9-1.5005 Changes outside the general contract scope.
9-1.5006 Preparation of change orders, other unilateral contract modifications, and supplemental agreements.
9-1.5007 Surety bonds.

Subpart 9-1.51 [Reserved]

Subpart 9-1.52—[Reserved]

Subpart 9-1.53—Novation Agreements and Change of Name Agreements

9-1.5300 Scope of subpart.
9-1.5301 Agreement to recognize a successor in interest.
9-1.5302 Agreement to recognize change of name of contractor.
9-1.5303 Procedures.

Subpart 9-1.54—General Policy for the Avoidance of Organizational Conflicts of Interest

9-1.5401 Purpose.
9-1.5402 Scope and applicability.
9-1.5403 Applicability to cost-type contractor procurement.
9-1.5404 Waiver.
9-1.5405 Definition.
9-1.5406 General policy.
9-1.5407 Guides applicable prior to selection of contractor and execution of contract.
9-1.5408 Commercial or other use of information and data obtained under ERDA cost-type contracts.

PART 9-1—GENERAL

Subpart 9-1.1 Procurement Regulations

§9-1.101 Scope of subpart.

This subpart describes the Energy Research and Development Administration Procurement Regulations and the ERDA-PR Temporary Regulations. It also describes exclusions from the ERDA-PR as contained in the ERDA Procurement Instructions.

§9-1.102 Establishment of the ERDA Procurement Regulations and the ERDA-PR Temporary Regulations.

§9-1.102-1 ERDA Procurement Regulations.

(a) The ERDA Procurement Regulations (ERDA-PR) are hereby established.

(b) These regulations implement and supplement the Federal Procurement Regulations (FPR) and are a part of the Federal Procurement Regulations System.

(c) The effective date of FPR issuances throughout ERDA will be the date indicated in the respective issuances unless otherwise provided in the ERDA Procurement Regulations.

(d) The effective date of ERDA-PR issuances throughout ERDA will be the date indicated in the respective issuances.

§9-1.102-2 ERDA-PR Temporary Regulations.

(a) The ERDA-PR Temporary Regulations are hereby established.

(b) These regulations implement and supplement the Federal Procurement Regulations Temporary Regulations. They also contain policies and procedures initiated by the ERDA which are expected to be effective for a period of 6 months or less.

(c) The effective date of the FPR Temporary Regulations issuances throughout ERDA will be the date indicated in the respective issuances unless otherwise provided in the ERDA-PR Temporary Regulations.

(d) The effective date of the ERDA-PR Temporary Regulations issuances throughout ERDA will be the date indicated in the respective issuances.

(e) The ERDA-PR Temporary Regulations are a part of the ERDA Procurement Regulations and the Federal Procurement Regulations System. All references to the ERDA Procurement Regulations or ERDA-PR in §§9-1.103 through 9-1.109 of this subpart shall be deemed to include the ERDA-PR temporary regulations.

§9-1.103 Authority.

The ERDA Procurement Regulations are prescribed by the Director of Procurement of the ERDA, pursuant to the authority of Section 105 of the Energy Reorganization Act of 1974 (P.L. 93-438), the Federal Property and Administrative Services Act of 1949, and other applicable law.

§9-1.104 Applicability.

(a) The ERDA Procurement Regulations and the Federal Procurement Regulations, which together form that part of the Federal Procurement Regulations System which governs ERDA procurement, apply to all procurement of personal property and nonpersonal services (including construction).

(b) The ERDA-PR and FPR also contain provisions which pertain to procurements by ERDA cost-type contractors. (See Part 9-59, Administration of Cost-Type Contractor Procurement Activities.)

§9-1.105 Issuances.

§9-1.105-1 Publication.

The ERDA Procurement Regulations appear in the Code of Federal Regulations as Chapter 9 of Title 41, Public Contracts and Property Management, and are published in the daily issues of the Federal Register, in cumulative form in the Code of Federal Regulations, and in separate looseleaf volume form.

§9-1.105-2 Copies.

Copies of the ERDA Procurement Regulations in the Federal Register and the Code of Federal Regulations form may be purchased by Federal agencies and the public, at nominal cost, from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402.

§9-1.106 Arrangement.

§9-1.106-1 General plan.

The ERDA Procurement Regulations employ the same numbering system and nomenclature used in the Federal Procurement Regulations and conform with Federal Register standards approved for the FPR.

§9-1.106-2 Numbering.

(a) The numbering system permits identification of every unit. The first digit, followed by a dash, represents the chapter number (ERDA has been assigned Chapter 9). The dash is followed by the part number which may be one or more digits followed by a decimal point. The numbers after the decimal point represent, respectively, the subpart, section (in two digits) and, after a second dash, subsection, paragraph, subparagraph, and additional subdivisions. For example, this division is called "§9-1.106-2," in which the first digit denotes the chapter, the second the part, the third the subpart, the fourth and fifth the section, and the sixth the subsection.

(b) Where the ERDA-PR implements a part, subpart, section, or subsection of the FPR, the implementing part, subpart, section, or subsection of the ERDA-PR will be numbered (and captioned) to correspond to the FPR part, subpart, section, or subsection.

(c) Where the ERDA-PR supplements the FPR, the numbers 50 and up will be assigned to the parts, subparts, or sections involved.

(d) Where the subject matter contained in a part, subpart, section, or subsection of the FPR requires no implementation, the ERDA-PR will contain no corresponding part, subpart, section, or subsection number.

§9-1.106-3 Citation.

ERDA Procurement Regulations will be cited in accordance with Federal Register standards approved for the FPR. Thus, this section, when referred to in divisions of the ERDA Procurement Regulations, should be cited as "§9-1.106-3 of this chapter." When this section is referred to formally in official documents, such as legal briefs, it should be cited as "41 CFR 9-1.106-3." Any section of the ERDA Procurement Regulations may be informally identified, for purposes of brevity, as ERDA-PR followed by the section number, i.e., "ERDA-PR 9-1.106-3."

§9-1.107 Implementation and supplementation of FPR.

§9-1.107-1 Description.

The ERDA Procurement Regulations "implement" and "supplement" the FPR. The meaning of these terms includes the following:

(a) Implementation may have either of the following meanings:

(1) A part, subpart, section, etc., which treats a similarly numbered portion of the FPR in greater detail or indicates the manner of compliance, including any deviations.

(2) The absence of a corresponding part, subpart, section, etc., in the ERDA-PR indicates that the FPR is applicable as written. Policies and procedures in the FPR are not repeated in the ERDA-PR.

(b) Supplementation means ERDA-PR coverage of matters which have no counterpart in the FPR.

§9-1.108 Exclusions.

Certain policies and procedures which come within the scope of this chapter nevertheless may be excluded from ERDA-PR. These exclusions are contained in the ERDA Procurement Instructions (ERDA-PI) and include the following categories:

(a) Classified subject matter.

(b) Subject matter which is "Official Use Only" or is of a purely internal nature.

(c) Instructional material that explains more fully and in discursive fashion matters covered in FPR's and ERDA-PR's.

§9-1.109 Deviation.

§9-1.109-1 Description.

The term "deviation" includes any of the following actions:

(a) When a prescribed contract clause is set forth verbatim, use of a contract clause covering the same subject matter which varies from that set forth.

(b) When a standard or other form is prescribed, use of any other form for the same purpose.

(c) Alteration of a prescribed standard or other form except as may be authorized in the regulations.

(d) The imposition of lesser or, where the regulation expressly prohibits, greater limitations than are imposed upon the use of a contract clause, form, procedure, type of contract, or upon any other procurement action, including but not limited to, the making or amendment of a contract, or actions taken in connection with the solicitation of bids or proposals, award, administration, or settlement of contracts.

(e) When a policy or procedure is prescribed, use of any inconsistent policy or procedure.

§9-1.109-2 Procedure.

In the interest of establishing and maintaining uniformity to the greatest extent feasible, deviations from the Federal Procurement Regulations System shall be kept to a minimum and controlled as follows:

(a) In individual cases, deviations from the FPR and ERDA-PR may be authorized by Division Directors, Headquarters (having contracting authority) and Managers of Field Offices, unless otherwise provided. This authority may not be redelegated.

(1) A supporting statement for each individual deviation, which indicates briefly the nature of the deviation and the reasons for such special action shall be included in the contract file.

(2) A copy of the supporting statement for each individual deviation shall be forwarded to the Director of Procurement.

(b) In classes of cases, requests for deviations from the FPR and the ERDA-PR shall be forwarded in triplicate through the appropriate Division Director, Headquarters, to the Director of Procurement, and shall be accompanied by an appropriate supporting statement. Requests will be considered on an expedited basis and appropriate coordination with Headquarters staff and program divisions will be obtained by the Director of Procurement. Requests involving the FPR will be considered jointly by ERDA and the General Services Administration, unless, in the judgment of the Director of Procurement, after due consideration of the objective of uniformity and the program responsibilities of ERDA, circumstances preclude such joint effort. In such case, the Director of Procure-

ment will approve such class deviations as he determines necessary and will appropriately notify the General Services Administration.

§9–1.110 Exemptions.

(a) Section 602(d)(13) of the Federal Property and Administrative Services Act of 1949, as amended, provides that nothing in that Act shall impair or affect any authority of the Atomic Energy Commission (now ERDA). This includes the authority of ERDA under the Atomic Energy Act of 1954, as amended, Public Law 85–804, and any other law.

(b) This exemption authority is to be exercised only to the extent that compliance with the requirements of the Federal Property and Administrative Services Act of 1949, as amended, would impair or affect the carrying out of ERDA's programs. Except as otherwise expressly provided in these regulations, requests for exemptions from the requirements of Title III of the Federal Property and Administrative Services Act of 1949, as amended, shall be submitted to the Director of Procurement. Such requests will be accompanied by an appropriate explanation and justification for the exemption, which sets forth the grounds on which compliance with the particular requirements of Title III of the Federal Property and Administrative Services Act of 1949, as amended, would impair or affect ERDA programs.

Subpart 9–1.2—Definition of Terms

§9–1.201 Definitions.

This subpart contains definitions of terms used generally throughout the ERDA–PR, in addition to those set forth in FPR Subpart 1–1.2. Additional definitions will be found in individual parts of FPR and ERDA–PR covering terms used in those parts only.

§9–1.250 [Reserved]

§9–1.251 Division Director.

As used in ERDA–PR, the term "Division Director" means the Director of a Division at the Headquarters level who is authorized to enter into contracts.

§9–1.252 Subcontract.

Unless otherwise provided in FPR or ERDA–PR, the term "subcontract" means any agreement with a contractor or higher-tier subcontractor for the furnishing of supplies or services required for the performance of a contract. The term includes, by way of description and without limitation, letter contracts and purchase orders, and any amendment or modification thereof or supplement thereto.

§9–1.253 Contractor.

A "contractor" is any person, firm, association, or corporation entering into a contract with the Government.

§9–1.254 Subcontractor.

A "subcontractor" is any person, firm, association, or corporation entering into a subcontract with a contractor or higher-tier subcontractor.

§9–1.255 Cost-type contractor and cost-type subcontractor.

The term "cost-type contractor" means a contractor who has a prime contract with the ERDA on a cost basis. The term "cost-type subcontractor" means a subcontractor who has a subcontract on a cost basis under a cost-type prime contract provided all the preceding subcontracts, if any, in the contractual chain are also on a cost basis.

§9–1.256 [Reserved]

§9–1.257 [Reserved]

§9–1.258 Supplier.

The term "supplier" means a manufacturer or producer, construction contractor, architect-engineer, regular dealer, or service establishment, and such other persons (or concerns) as may be found by the ERDA to be qualified and responsible as sources of supplies or services.

§9–1.259 Supplies.

The term "supplies" as used herein means all property except land or interests in land. It includes, by way of description and without limitation, materials, supplies, equipment, public works, buildings, facilities, tools, and parts and accessories for such items.

§9–1.260 Services.

The term "services" means services other than personal services including, by way of description and without limitation, nonpersonal services; educational or training services; architectural or engineering services; maintenance or repair services; transportation services; utility services; operating and management services; experimental, developmental, or research work; and construction work.

Subpart 9–1.3—General Policies

§9–1.301 Methods of procurement.

(a) *General.* In promoting the primary objective of strengthening the common defense and security rapidly and effectively, there is a great responsibility to protect and preserve competitive enterprise. All practicable steps must be taken to provide for the equitable distribution of contracts among the maximum number of competent suppliers and to avoid the concentration of contracts among a relatively few suppliers.

(b) *Procurement by formal advertising.* Supplies and services shall generally be procured by formal advertising in accordance with FPR Part 1–2 and Part 9–2.

(c) *Procurement by negotiation.* Supplies and services may be procured without formal advertising in accordance with the requirements of FPR Part 1–3 and Part 9–3.

§9–1.302 Procurement sources.

§9–1.302–1 General.

(a) *Procurement from Government sources.* Procurement of certain supplies and services may be effected by orders on Government sources referred to in FPR 1–1.302. It is the policy of the ERDA that such methods of procurement be utilized to the fullest extent practicable, in accordance with applicable laws and regulations. Procurement by the ERDA under the Economy Act of June 30, 1932, as amended (31 U.S.C. 686), shall conform to the requirements of that Act and applicable regulations of the General Accounting Office. Procedures to be followed in procuring from Government sources are set forth in Part 9–5.

(b) *Procurement from local trade area sources.* In soliciting quotations for small purchases, maximum utilization should be made of the provisions in FPR 1–3.603–1(b) with respect to sources within the trade area in which the procuring activity is located. Regardless of the size of the procurement, however, qualified sources of supply in the local trade area always should be considered.

§9–1.305–1 Mandatory use of Federal Specifications.

(a) The policies and procedures established by FPR 1–1.305 shall be complied with by ERDA for all direct procurement except as provided for in §9–1.305–5.

(b) The paper specification standards published by the Joint Committee on Printing for the purchase of paper to be used on Government-owned printing, binding, and duplicating equipment shall be applied to cost-type contractor procurement. The paper specification standards shall also be used in specifying paper requirements for "Federal printing" as defined in the Government Printing and Binding Regulations.

§9–1.305–3 Deviations from Federal Specifications.

Subject to the requirements of FPR 1–1.305–3, Managers of Field Offices, Heads of Divisions and Offices, Headquarters, or their representatives specifically designated for this purpose, may authorize deviations from Federal Specifications in connection with ERDA direct procurement. In those cases where use of Federal Specifications is required under §9–1.305–1(a), information required by FPR 1–1.305–3(b)(5) with respect to deviations shall be forwarded through channels to the Director of Procurement.

§9–1.305–5 Use of Federal and interim Federal Specifications in construction contracts.

When specifications for ERDA construction are prepared by private firms, Managers of Field Offices and Heads of Divisions or Offices, Headquarters, are responsible for obtaining compliance with the general policies of this subpart to the extent practicable and compatible with meeting program objectives.

§9–1.306–1 Mandatory use and applications of Federal Standards.

The policies and procedures established by FPR 1–1.306 for the development and use of Federal Standards shall be complied with by ERDA to the same extent as provided for Federal Specifications in §§9–1.305–1, 9–1.305–3, and 9–1.305–5.

§9–1.307 Purchase descriptions.

Specifications should be in such terms as to permit full and free competition among all potential suppliers. However, technical reasons may occasionally exist for using specifications which limit competition by requiring certain types of material or articles, such as replacement parts, auxiliary equipment and tools required for use with major equipment. Restrictive specifications may be used to meet special requirements, provided (a) ERDA needs cannot reasonably be met in any other manner, and (b) a complete justification for the restriction is reduced to writing and included in the contract file.

§9–1.310 [Reserved]

§9–1.314 Solicitations for informational or planning purposes.

The allowance for the cost of preparing quotations referred to in FPR 1–1.314 shall be determined in accordance with ERDA cost principles set forth in §9–15.5010–13, "Bidding expense and costs of proposals."

§9–1.318 Disputes clause.

§9–1.318–1 Contracting officer's decision under a Disputes clause.

(a) In addition to the information specified in FPR 1–1.318–1, a decision concerning a dispute which is or may be subject to the Disputes clause also shall include the contracting officer's written findings of fact.

(b) Such decisions shall be expeditiously prepared and transmitted to the contractor, together with a copy of 10 CFR Part 703, and a copy of any rules established by the ERDA Board of Contract Appeals pursuant to 10 CFR 703.101(b).

§9–1.350 ERDA Specifications and Standards.

§9–1.350–1 Special specifications and standards.

When special specifications or standards are used by a field office or Headquarters on a recurring basis or used by two or more field offices or contractors, consideration should be given to converting them to ERDA specifications. Accordingly, contracting officers are urged to bring to the attention of the Director of Procurement any such special specifications which they believe may be of use to more than one field office. The Director of Procurement will notify field offices of the existence of any ERDA specification.

§9–1.351 Distribution of Federal Specifications and Standards.

(a) ERDA does not maintain a central distribution point for specifications and standards. Index of Federal Specifications, Standards, and Handbooks may be obtained by submission of an order from field offices to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Copies of Federal Specifications and Standards may be obtained in the same manner. Single copies of product specifications required for bidding purposes are available without charge at the Business Service Centers of the General Services Administration Regional Offices. Nongovernment activities should obtain copies of the Index and of Federal Specifications and Standards from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

(b) Field offices and Headquarters shall maintain current copies of these indexes and supplements and shall maintain files of current copies of Federal Specifications and Standards covering all items which are purchased on a recurring basis for which specifications or standards are available. Managers of Field Offices are responsible for assuring the availability of the indexes and Federal Specifications and Standards to cost-type contractors.

§9–1.352 Department of Defense Index of Specifications and Standards.

These indexes may be obtained from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402. Copies of Specifications and Standards are ordered from the cognizant Military activity developing each particular specification or standard.

§9–1.353 [Reserved]

§9–1.354 Prebidding and preproposal conferences.

(a) Wherever considered advantageous, particularly for the more complex, unusual, or large projects, a prebidding or preproposal conference should be held with prospective contractors and their suppliers prior to receipt of bids or proposals in connection with formally advertised or negotiated procurements.

(b) The primary objectives of such conferences are to avoid production and construction problems and contingency items in bids or proposals by:

(1) Outlining principal features of the project.

(2) Answering questions and identifying any ambiguity or obscurity concerning the proposed work and the plans and specifications.

(3) Soliciting prospective contractors' opinions on matters such as feasibility of proposed production or construction techniques and tolerances.

(4) Soliciting prospective contractors' suggested changes in design or in provisions of the proposed contract which could result in more economical production or construction.

(c) Such conferences may also be held prior to the issuance of invitations for bids or requests for proposals when the main objective is to obtain the views of prospective contractors on matters such as production or construction techniques.

(d) Changes or clarifications found to be necessary as a result of a prebidding or preproposal conference shall be included in addenda to the invitation for bids or request for proposals.

§9–1.450 General responsibility of contracting officers.

Contracting officers are responsible for:

(a) Executing and administering contracts in such a manner as to safeguard the interest of the United States in contractual relationships and making determinations of fact under contracts;

(b) Advising the contractor by letter or other appropriate means:

(1) The name of any contracting officer's representative, the extent of such representative's authority and any limitations placed thereon;

(2) The name of any site representative or other technical representative designated to provide technical surveillance of the work being performed under the contract, the extent of such representative's authority and any limitations placed thereon.

(c) Using standard contract forms, as required by the FPR and ERDA–PR;

(d) Obtaining all necessary approvals and otherwise complying with applicable directives issued by the Administrator or his designee; Director of Procurement; other Division Directors; and Managers of Field Offices;

(e) Personally signing all contracts and modifications entered into by them (this authority cannot be delegated to others, nor will the signing of contractual documents be accomplished by facsimile stamps or by proxy);

(f) Exercising care, skill, and judgment in all their actions;

(g) Assuring that funds are available and that their authority to subject the Government or its property to any risk is not being exceeded;

(h) Maintaining constant cognizance with respect to contract compliance on the part of the contractor;

(i) Securing the advice of legal, technical, and administrative staffs of the ERDA as to the sufficiency of the contracts prior to their execution;

(j) Initiating any appropriate action necessary to properly assure the satisfactory performance of their contracts;

(k) Knowing and acting within the scope and limitation of their authority.

§9–1.451 Standards of conduct.

The business ethics of all persons charged with administration and expenditure of Government funds must be above reproach and suspicion in every respect at all times. It is important that all persons engaged in procurement and related duties adhere to and be guided by the ERDA's policies and instructions on personnel conduct. Detailed rules applicable to the conduct of employees are set forth in 10 CFR Part 700.

§9–1.452 Disputes provisions in subcontracts under fixed-price prime contracts.

A contracting officer shall not authorize or approve the inclusion of a provision requiring his decision of disputes and providing for an appeal therefrom to the Administrator or his designee (or any component organization or board) in subcontracts under any fixed-price prime contracts.

Subpart 9–1.5—Contingent Fees

§9–1.500 Scope of subpart.

This subpart prescribes the use by ERDA of the "covenant against contingent fees" and sets forth the policies in regard to ERDA direct procurement and cost-type contractor procurement.

§9–1.501 Applicability.

The policies and requirements of FPR Subpart 1–1.5 shall be applied to all ERDA direct and cost-type contractor procurement activities.

§9–1.507 Use of Standard Form 119.

§9–1.507–1 Form prescribed.

Each Standard Form 119 completed in connection with an ERDA direct contract, together with other relevant information shall be reviewed by the Office of the General Counsel (or the Office of the Chief Counsel in the field) prior to the initiation of appropriate action. An information copy of each such form, together with a record of action taken, shall be forwarded to the Director of Procurement.

Subpart 9–1.6—Debarred, Suspended, and Ineligible Bidders

§9–1.600 Scope of subpart.

This subpart implements and supplements the policies and procedures set forth in FPR Subpart 1–1.6 relating to the debarment, suspension, or ineligibility of bidders for any cause.

§9–1.602 Establishment and maintenance of a list of concerns or individuals debarred, suspended, or declared ineligible.

The Director of Procurement shall establish and maintain a list of firms or individuals debarred or ineligible for contracts with the ERDA and with ERDA cost-type prime contractors pursuant to FPR 1–1.602. This list shall be designated as the List of Disqualified Bidders and Ineligible Contractors, and its use by all ERDA procuring activities is mandatory. The Director of Procurement shall periodically publish this list and distribute it to ERDA contracting officers.

§9–1.602–1 Bases for entry on debarred, suspended, or ineligible list.

The Director of Procurement, shall place all firms and individuals within the categories specified in FPR 1–1.602–1 and 1–1.604 on the List of Disqualified Bidders and Ineligible Contractors as soon as determination is made of debarment or ineligibility. ERDA debarments under FPR 1–1.604 are subject to the procedural requirements in §9–1.606.

§9–1.603 Treatment to be accorded firms or individuals in debarred, suspended, or ineligible status.

The Director of Procurement, may determine, pursuant to FPR 1–1.603 (a), that an exception is essential to the public interest for a specific procurement action only. Such action shall be documented to reflect the determination and the justification therefor.

§9–1.606 Agency procedure.

§9–1.606–1 ERDA procedural requirements.

This section establishes ERDA internal procedures for giving effect to FPR Subpart 1–1.6 as required by FPR 1–1.606.

§9–1.606–50 Reporting procedures.

All Headquarters Divisions, Offices, Managers of Field Offices, and contracting officers are responsible for reporting any evidence of offenses or irregularities which may be grounds for debarment or suspension. The report shall be made to the Director of Procurement. The report shall contain a full statement of facts, and shall be supported by appropriate exhibits. If all necessary information is not readily available, a preliminary report shall be forwarded to be followed as soon as practicable by a completely documented report.

§9–1.606–51 Collection of information and investigation.

(a) The Director of Procurement, shall collect and evaluate information to determine whether an alleged offense or irregularity warrants the initiation of a debarment proceeding.

(b) The Director of Procurement may request assistance from the Division of Inspection whenever an investigation may be required. The Division of Inspection will make a thorough investigation of the circumstances as expeditiously as possible, and will report the results to the Director of Procurement.

§9–1.606–52 Initiation of action.

The Director of Procurement, with the concurrence of the Office of the General Counsel, and after consultation with the Division of Inspection, and such offices as he deems appropriate, shall determine whether causes and conditions exist to initiate a debarment action or to issue a notice of suspension.

§9–1.606–53 Notice of proposed debarment.

(a) The Director of Procurement shall initiate a debarment proceeding by sending a notice of proposed debarment by registered mail (return receipt requested) to the firm or individual proposed for debarment.

(b) A notice of proposed debarment will:

(1) Concisely state the facts on which the proposed debarment is predicated;

(2) Specify the period of the proposed debarment;

(3) Inform the firm or individual of the action which the ERDA may take in the event a low bid or proposal is received from the firm or individual before the proposed debarment is finally determined;

(4) Inform the firm or individual of its right, within twenty (20) days of the date of the notice of the proposed debarment, or such other time as may be specified in the notice, to request a hearing;

(5) Provide that the firm or individual may submit a written reply to the notice of proposed debarment within twenty (20) days of its date, or such other time as may be specified in the notice. The reply shall set forth the facts on which the firm or individual relies and request a hearing, if one is desired.

(6) Inform the firm or individual that if no reply or request for hearing is received within twenty (20) days from the date of the notice of proposed debarment or such other time as may be specified in the notice, that the debarment will become effective on a date specified in the notice.

§9–1.606–54 Hearing.

A hearing, if requested, shall be conducted before the ERDA Board of Contract Appeals. (See 10 CFR 703.210, "Conduct of hearings," and 10 CFR 703.214, "Reconsideration.") The ERDA Board of Contract Appeals has the final authority to decide debarment cases after hearings.

§9–1.606–55 [Reserved]

§9–1.606–56 [Reserved]

§9–1.606–57 Final debarment determination after the forfeiture of the right to be heard.

(a) If the Director of Procurement, on the basis of an analysis of all information submitted for his review, determines that the proposed debarment is not warranted, he shall notify, in writing, the firm or individual concerned within forty (40) days after the notice of proposed debarment.

(b) If the Director of Procurement, on the basis of an analysis of all information submitted for his review, determines that the proposed debarment is warranted, he shall transmit his recommendation for debarment, and all information on which such recommendation is based, to the Administrator or his designee. The Administrator or his designee shall determine in writing whether to debar. If the Administrator or his designee determines to debar, the Director of Procurement shall notify, in writing, the firm or individual within forty (40) days after the notice of proposed debarment. The Administrator's or his designee's determination shall accompany the notice confirming the proposed debarment. The notice confirming the proposed debarment shall state the effective date and the period of the debarment. The period of the debarment shall be no greater than that specified in the notice of proposed debarment.

§9–1.606–58 Notice of final debarment determination.

(a) The Director of Procurement shall promptly notify all Headquarters Divisions, Offices, and Managers of Field Offices of all debarment actions taken pursuant to this subpart.

(b) The Director of Procurement shall notify the General Services Administration of the names of all firms or individuals placed on or removed from the List of Disqualified Bidders and Ineligible Contractors.

Subpart 9–1.7—Small Business Concerns

§9–1.700 General.

The policies and procedures prescribed in this subpart and in FPR 1–1.7 apply to all ERDA direct procurement. The following shall be applied to cost-type contractor procurement activities.

FPR	*ERDA–PR*
1–1.703–1	9–1.702(b)(2).
1–1.703–2	9–1.703–2(a).
	9–1.705–3(a).
	9–1.706–1(d).
1–1.706–5	9–1.706–5(b).
1–1.706–6	
	9–1.709.
1–1.710–1(a) and (c)	
1–1.710–2	
	9–1.710–4(a).
	9–1.751.
1–1.712–2	

§9–1.702 Small business policies.

(a) *Specific policies.* (1) Headquarters and Field Offices shall cooperate with the SBA in implementing the policies and procedures set forth in FPR Subpart 1–1.7 and this subpart.

(2) Managers of Field Offices shall appoint persons under their jurisdiction to serve in a liaison capacity with SBA representatives. Managers of Field Offices shall request cost-type contractors to make similar appointments.

(3) The AEC-SBA Agreement set forth in §9–1.751 provides a basis for cooperation between the two agencies to further the AEC (now ERDA) small business program and the intent of Congress which is set forth in the Small Business Act. It is expected that field offices, through contracting officers, will cooperate with the SBA in establishing set-aside programs or in setting aside selected items or classes of items of procurement. Where SBA representatives are not available to screen proposed procurements and to initiate joint small business set-asides, unilateral small business set-asides shall be made by the contracting officers as appropriate.

§9–1.703–2 Protest regarding small business status.

(a) Protests received or questions raised by cost-type contractors shall be handled with the SBA regional offices through the appropriate ERDA contracting officer.

§9–1.705–3 Screening of procurements.

(a) *Class set-asides.* An agreement was reached between the AEC and the SBA that AEC (now ERDA) would accept SBA initiation of class set-asides for formally advertised construction procurements estimated to cost between $2,500 and $1 million, including new construction and repair and alteration of structures. When in the judgment of the contracting officer a particular procurement falling within these dollar limits is determined unsuitable for a set-aside for exclusive small business participation, he shall notify the appropriate SBA representative of this decision. Unless SBA appeals the decision (see FPR 1–1.706–2), the contracting officer shall proceed to process the procurement on an unrestricted basis.

Small business set-aside preferences should be considered for construction procurements in excess of $1 million on a case-by-case basis, favoring such preferential participation of small business whenever appropriate. (In the case of cost-type contractor procurements, notification to SBA shall be made through ERDA channels.)

§9–1.705–7 Performance of contract by SBA.

(a) It is the policy of the ERDA to give full consideration to contracting with SBA in order to foster or assist in the establishment or the growth of small business concerns as designated by the SBA so that these concerns may become self-sustaining, competitive entities within a reasonable period of time.

(b) The Small Business Administration has delegated to its field offices authority to handle contracts and subcontracts under section 8(a) of the Small Business Act. Managers of field offices should assure full cooperation with SBA in their efforts to place procurements with firms who are eligible for subcontract awards by SBA under section 8(a). They shall take the necessary steps to:

(1) Invite appropriate SBA field representatives to identify needs for 8(a) contracts and to provide for cooperation and assistance on the part of ERDA and cost-type contractor procurement offices in verifying the availability or nonavailability of requirements, funding, and other pertinent factors; and

(2) Propose any requirements which appear to offer potential opportunity for contracting with SBA under authority of section 8(a) of the Small Business Act, for consideration by appropriate SBA field representatives.

(c) Detailed arrangements for handling individual 8(a) contracts should be worked out between ERDA and SBA offices, consistent with FPR 1–1.713, and ERDA–PR 9–1.713–1. Any problems relating to contracting with the Small Business Administration which cannot be readily resolved between Managers of ERDA Field Offices and Regional Directors of SBA should be reported to the Director of Procurement.

§9–1.706–1 General.

Initiation of set-asides. Initiation of set-asides by cost-type contractors shall be on a unilateral basis.

§9–1.706–5 Total set-asides.

It is ERDA policy to use the method of procurement known as "Small Business Restricted Advertising" for contracts involving total set-asides unless there are circumstances which make conventional negotiation necessary.

§9–1.708–3 Conclusiveness of certificate of competency.

If the contracting officer questions the acceptability of an SBA certificate of competency based on substantial doubt as to a particular firm's ability to perform, he shall, before award, promptly refer the matter to the Director of Procurement for a final decision.

§9–1.709 Records and reports.

A semiannual report covering pertinent information concerning small business, minority business enterprises, and contracts placed with SBA for handling under authority of section 8(a) of the SBA Act shall be prepared by each field office and forwarded to the Director of Procurement, not later than the 30th day following the end of the 6-month period covered by the report. Managers of field offices shall require similar reports to be prepared by cost-type contractors to accompany the field office reports, consistent with the requirements of FPR 1–1.710–3 and FPR 1–1.1310–2. Reports shall be prepared as follows:

(a) Narrative statement regarding the operation of the programs during the 6-month period.

(b) Tabulation of the following factual information:

(1) Number of awards made to (i) small business concerns, and (ii) known minority firms during the 6-month period which have not previously received awards.

(2) Number of (i) small business concerns, and (ii) known minority firms added to bidder's mailing lists during the 6-month period.

(3) Number and dollar value of awards made to (i) small business concerns, and (ii) known minority firms as compared to the number and dollar value of awards suitable for (iii) small business concerns, and (iv) known minority firms.

(4) Number and dollar value of invitations to bid and requests for proposals referred to SBA for suggestions as to (i) small business concerns, and (ii) known minority firms.

(5) Number and dollar value of set-asides to small business concerns (distinguish between those awarded to known minority firms and those awarded to other small business firms). The number and dollar value of construction set-asides shall be reported separately, also distinguishing between those awarded to known minority firms and those awarded to other small business concerns.

(6) Awards made by Small Business Administration (SBA) under the provisions and authority of section 8(a) of the Small Business Act.

(i) Name and address (street address, city, State and zip code) of firm receiving the award.

(ii) Award number identification. Show office, area office, or contractor initiating this award.

(iii) Award date and estimated completion date.

(iv) Amount of award.

(v) Brief description of services to be rendered.

(vi) Any additional pertinent information relating to the award.

§9–1.710–4 Review of subcontracting program.

Contractor's program. SBA participation in ERDA field office reviews of cost-type contractors' small business programs shall be on the basis of special arrangements made by managers of field offices with the Directors of SBA Regional Offices. After the initial participation by SBA representatives, the scope and frequency of SBA's further participation in a particular contractor review will depend upon such factors as magnitude of the procurement activity, program accomplishments or problems, and future small business potential, as agreed upon between ERDA and SBA.

§9–1.713 Contracts with the Small Business Administration.

§9–1.713–1 Authority.

The prohibition contained in ERDA–PR 9–1.452 relative to authorizing disputes provisions in subcontracts under fixed-price prime contracts, shall not be construed to preclude the use of the prime and subcontract language regarding contracting officer decisions and appeals therefrom as prescribed by FPR 1–1.713–3 (d) and (e) and FPR 1–1.713–4(g) and (h).

§9–1.751 AEC-SBA Agreement.

A revised agreement for cooperation was signed by the Chairman of the AEC (now ERDA) and the Administrator of the SBA in October 1960 (this agreement is now applicable to ERDA). The term "Operations Office," as used in the agreement, shall also apply to field offices. The text of this agreement follows:

(a) *Introduction.* The purpose of this document is to revise and to continue an agreement between the Atomic Energy Commission (AEC) and the Small Business Administration (SBA), which has resulted in a friendly cooperative relationship since the agreement was established originally in 1953. The agreement provides a basis for cooperation between the two agencies in order to further the AEC small business program and the intent of Congress which is set forth in the Small Business Act. To the extent applicable, the agreement is supplemented by the Federal Procurement Regulations (FPR's) pertaining to Small Business, which include definitions and uniform procedures for set-asides and Certificates of Competency.

(b) *Agreement.* The AEC and SBA will continue to establish and maintain liaison between appropriate combinations of AEC Operations Offices and SBA Offices for exchanges of information regarding AEC opportunities for small businesses, additional sources of qualified small business concerns, and appropriate matters.

(c) *Liaison—(1) Establishment.* SBA Area Offices will continue to establish and maintain liaison with the AEC Operations Offices within their respective geographical regions. Such liaison may in-

clude arrangements with respect to the AEC Area Offices and cost-type contractors administered by an Operations Office.

Where an AEC Operations Office is located in one SBA area and the AEC Area Offices and cost-type operating contractors are located in other SBA areas, the SBA Area Office serving the area in which the AEC Area Office or cost-type operating contractor is located shall contact the AEC Operations Office concerned regarding the establishment of liaison procedures for such Area Office or cost-type contractor.

(2) *Procedures.* Detailed procedures for carrying out the exchanges of information by this agreement have been jointly developed and will continue to be maintained and modified, as experience suggests, by each combination of SBA Regional and AEC Operations Office maintaining liaison.

(3) It is not contemplated that SBA employees will operate in any area where security "Q" clearances are required.

(d) *Exchanges of information—(1) Procurement, research and development, and property sales. AEC Operations Offices* (including Area Offices and cost-type contractors) will provide or arrange for the provision of information to the SBA Regional Offices with which liaison has been established regarding appropriate procurement, research and development, and property sales opportunities which are suitable for small business. In turn, the SBA Regional Offices will provide information, including the names of qualified small concerns, which will further the purpose of this agreement. The interchange of information provided in this paragraph will be in such form and will be transmitted by such means and with such frequency as seems most practical to the personnel engaged in the exchange of information.

(2) *Technical information and AEC-owned patents.* AEC will assist SBA to bring unclassified AEC research reports and AEC-owned (Government) patents to the attention of interested qualified small business concerns.

(e) *Time factor.* It is anticipated that in some circumstances the time available for the submission of bids may be too short for some business concerns suggested by SBA to participate. In these circumstances, qualified small business concerns which are unable to participate will be added to bidders lists and invited to participate in subsequent procurements or sales.

(f) *Appropriate opportunities.* Appropriate opportunities, for the purpose of this agreement, will not include opportunities which must involve Government sources, those that security requirements will not permit to be publicly disclosed, and those where the urgency is too great to permit broad solicitation of bids or development of additional sources.

(g) *Review of agreement.* This agreement will be reviewed on a periodic basis to determine whether the purpose of the agreement is being achieved and whether expansion and/or modification would be appropriate.

Subpart 9–1.8—Labor Surplus Area Concerns

§9–1.807 Report on preference and nonpreference procurement in labor surplus areas.

A semiannual report containing summary data on ERDA procurement in Labor Surplus Areas as set forth in FPR 1–1.807, FPR 1–16.804–3(d)(2), and FPR 1–16.804–4, shall be forwarded by managers of field offices to the Director of Procurement, ERDA Headquarters, within 30 days after December 31 and June 30, each year. The format and content of the summary data shall be consistent with lines 10 through 14 of Standard Form 37 (see FPR 1–16.901–37).

Subpart 9-1.9—Reporting Possible Antitrust Violations

§9-1.901 General.

The procedures prescribed in FPR Subpart 1-1.9 apply to all procurement on a competitive basis and shall be applied to cost-type contractor procurement.

§9-1.902 Documents to be transmitted.

The Office of the General Counsel is responsible for reporting cases of possible antitrust violations to the Attorney General. Managers of Field Offices and Headquarters officials having contracting responsibilities shall furnish two copies of the documents referred to in FPR 1-1.902 to the Office of the General Counsel and one copy to the Director of Procurement.

Subpart 9-1.11—Qualified Products

§9-1.1101 Procurement of qualified products.

(a) This subpart prescribes policies and procedures for the procurement of qualified products established by the Government. These procedures are applicable to ERDA direct procurement. Contracting officers may authorize their use by cost-type contractors.

(b) Whenever procurement of qualified products is to be made by formal advertising, ERDA contracting officers shall insert in invitations for bids the provision contained in FPR 1-1.1101(b). This provision may be modified by ERDA contracting officers with the advice of Counsel for use in requests for proposals.

§9-1.1150 Distribution of qualified products lists.

Qualified products lists are distributed by GSA directly to Headquarters and field offices. These lists shall be redistributed by contracting officers to those persons authorized to use them, including responsible procurement personnel of cost-type contractors. ERDA contracting officers shall maintain records of distribution of the lists. Extra copies may be obtained through the Division of Procurement.

Subpart 9-1.12—Responsible Prospective Contractors

§9-1.1200 Scope.

This subpart implements and supplements the policies set forth in FPR 1-1.12 concerning the responsibility of prospective contractors, minimum standards for responsible prospective contractors, requirements and procedures for the determination of responsibility, and policies regarding the determination of subcontractor responsibility.

§9-1.1203-2 Additional standards.

In addition to the standards set forth in FPR 1-1.1203-1 and -2, a prospective contractor, in order to be determined as responsible must, in the opinion of the contracting officer, meet the following standards as they relate to the particular procurement under consideration:

(a) Have an established system of accounting and financial controls which are determined by the contracting officer to be adequate to permit the effective administration of the type of contract proposed, particularly if under its terms the costs incurred are a factor in determining the amount payable under the contract, or if advance or progress payments are requested.

(b) In determining the adequacy of a prospective contractor's financial resources for the performance of the proposed contract, as required by FPR 1-1.1203-1(a), particular attention shall be given to the ability of the contractor to discharge his full financial responsibility for charges and losses of Government-furnished material, such as special nuclear materials, when the contractor has responsibility for such material.

§9-1.1204 Determination of responsibility or nonresponsibility.

(a) The signing of the contract shall be deemed to be evidence of the contracting officer's affirmative determination that a contractor is responsible within the meaning of FPR 1-1.1202.

(b) In the event that a contracting officer determines a prospective contractor to be nonresponsible within the meaning of FPR 1-1.1202, a written determination to this effect shall be made by the contracting officer and placed in the contract file. (See FPR 1-1.708 and ERDA-PR 9-1.708-3 if a small business concern is involved.)

Subpart 9-1.13—Minority Business Enterprises

§9-1.1300 Scope of subpart.

This subpart implements and supplements the policies, procedures, and contract clauses applicable to the participation of minority business enterprises in Government procurement, at the prime and subcontract level, as set forth in FPR Subpart 1-1.13.

§9-1.1310 Policy.

(a) It is the policy of the ERDA to afford minority business enterprises the maximum practicable opportunity to participate in the performance of its contracts and subcontracts. This policy shall be applied to cost-type contractor procurement.

(b) Managers of field offices shall appoint persons under their jurisdiction to serve as liaison officers who will administer the minority business enterprises program. Managers of field offices shall request cost-type contractors to make similar appointments.

(c) See §9-1.709, *Reports and Records*, for reporting requirements.

Subpart 9–1.16—Reports of Identical Bids

§9–1.1603–1 Cases to be reported.

Contracting officers shall require reports from cost-type contractors on identical bids or quotations received in connection with procurement under ERDA contracts. The provisions of FPR 1–1.1602, 1–1.1603–1, 1–1.603–2, and 1–1.1605–2 shall be applied in connection with such reports.

§9–1.1603–3 Submission of reports.

Directors, Headquarters Divisions and Offices, and Managers of Field Offices are responsible for submitting to the Office of the General Counsel two copies of identical bid reports for both ERDA direct procurement and cost-type contractor procurement, with a copy to the Director of Procurement.

Subpart 9–1.50—Change Orders, Equitable Adjustments, and Supplemental Agreements for Fixed-Price Contracts

§9–1.5000 Scope of subpart.

This subpart sets forth the circumstances under which change orders, other unilateral-type contract modifications, and supplemental agreements are to be used in connection with ERDA fixed-price prime contracts, and outlines general procedures to be followed in the preparation and negotiation of such modifications, including determination of necessary equitable adjustments in price or performance time.

§9–1.5001 General policy.

It is the policy of ERDA to handle change orders and supplemental agreements to fixed-price contracts expeditiously and economically without sacrificing sound contract administration or lessening the opportunity for proper consideration of all pertinent factors in effecting equitable adjustments and settlements. Conscientious observance of this policy should reduce to a minimum formal disputes and litigation with resulting expense and delays which are harmful to all concerned.

§9–1.5002 Applicability.

The policies and procedures set forth in this subpart apply to all ERDA fixed-price prime contracts.

§9–1.5003 Definitions.

For the purpose of this subpart, the following terms have the meanings set forth in this section:

(a) *Article.* "Article" means an article or clause as these terms are used in the various standard contract forms used by the ERDA to designate separate and distinct contract provisions.

(b) *Change order.* "Change order" means a written directive to the contractor (1) to add, vary, or omit work within the general scope of the contract under provisions permitting or requiring such changes without the consent of the contractor, and (2) effecting, either with or without prior agreement of the contractor according to the circumstances, an equitable adjustment in the contract price or performance time, or both.

(c) *Contract modification.* The meaning of "contract modification" is as defined in FPR 1–1.219.

(d) *Equitable adjustment or adjustment.* "Equitable adjustment" or "adjustment" means a determination or agreement that no change in contract price or performance time is to be made as well as that an increase or decrease is made in one or both of these factors.

(e) *Supplemental agreement.* "Supplemental agreement" means a negotiated, bilateral modification of a contract effecting changes in the general scope of work or other contract terms and conditions.

§9–1.5004 Change orders and other unilateral-type modifications within the general contract scope.

§9–1.5004–1 Change orders.

(a) *Use of change orders.* (1) A change order shall be used to direct an addition to or variation or omission from the work within the general scope of a contract in accordance with the contract provisions and to effect an equitable adjustment in contract price and performance time.

(2) A change order shall not be used to effect additions, alterations, or deletions of work which involve a change in the general scope of a contract or to change any of the substantive provisions of a contract, such as time of commencement, methods of payment, and refund of retained percentages.

(b) *Obligation of contractor.* Under the terms of standard fixed-price contract forms the contractor agrees in advance to perform such changes in the work as are within the general scope of the contract. A written order to the contractor making such a change is binding upon him whether or not the order contains adjustments of price and time, and he is obligated to proceed with the work as changed pending determination of equitable adjustments. If the order contains unilateral adjustments of price and time with which the contractor cannot agree, he has the right to protest or appeal from such determination in accordance with the language of the particular contract article under which the order was issued, but he must comply with the requirements of such article in order for his protest or appeal to be effective.

(c) *Method of issuance.* (1) Whenever possible, prior agreement should be reached with the contractor regarding any price and time adjustments and a complete one-part change order should be issued prior to commencement of the changed work. If agreement cannot be reached within available time, the directive portion of the change order should be issued in any case prior to commencement of the changed work.

(2) When failure to reach mutual agreement on equitable adjustments prior to issuance of a change order is due to inability to obtain adequate proposals from the contractor or to reaching an impasse in negotiations, rather than to lack of available time, a complete one-part change order should be issued as a unilateral action with price and time adjustments based on the Government estimate.

(3) A two-part change order should be used when a complete one-part change order has not been issued under either subparagraph (1) or (2) above. The first part should set forth the details of the change and contain a statement that price and time adjustments will be settled by the parties at an early date. The second part should contain the adjustments in price and time. Where appropriate, the first part of a two-part change order may establish an interim price as a basis for such partial payments as can be thoroughly substantiated by cost estimates; the interim price should not include profit or items which might be controversial. Every effort should be made by the parties to reach agreement on part two of the two-part change order as expeditiously as possible. When the parties fail to reach agreement as to equitable adjustments due to inability to obtain adequate proposals from the contractor, the reaching of an impasse in negotiations, or for any other proper reason, the second part of a two-part change order should be issued as a unilateral action with price and time adjustments based on the Government estimate.

(4) In all cases where agreement is reached with the contractor on equitable price and time adjustments, the contractor's acceptance shall be indicated by his signature on the change order to establish that mutual agreement has been reached.

(5) According to the circumstances of the particular case, the contractor's protest or "appeal" from unilateral adjustments of price and time in a change order should be treated (i) as a claim for consideration and decision, based on findings of fact by the contracting officer, subject to further appeal, or (ii) as an appeal from the contracting officer's decision. The latter alternative should apply only when the unilateral adjustments were preceded by a full consideration of the details of the contractor's claim, a thorough effort to resolve differences by negotiation, and a decision by the contracting officer based upon formal findings of fact. See "Rules of Procedures in Contract Appeals," 10 CFR Part 703.

(d) *Adjustment of price or time.* Any equitable adjustment in price or time must be determined as of the date the change is directed. Estimated increased costs of performing the contract as changed, which are a direct result of the change order, are proper for consideration in an equitable adjustment in price. Ascertainment of costs which may be properly included in any equitable adjustment depends upon all of the facts surrounding a particular change. The following procedures shall be followed in establishing price and time adjustments for change orders:

(1) *Contractor's proposal.* The contractor shall be furnished details of the change and be requested to submit a statement that the directed change will not require a change in contract price or time or, if an increase or decrease in contract price or time will result, an estimate of cost, broken down as appropriate between features of work and into costs of labor, materials, equipment, construction equipment, taxes, bonds, insurance, overhead and profit, and the change in time for completion, if any.

(2) *Government estimate.* An independent Government estimate of the cost of the changed work shall be prepared on the basis, as applicable, of the costs of labor, materials, equipment, construction equipment, taxes, bonds, and insurance (direct costs) on which appropriate allowances for profit and overhead should be made. The change in the time of performance, if any, should also be estimated.

(3) *Use of actual costs.* Costs actually incurred may be considered, to the extent that they are determined to be both necessary and reasonable, in determining price adjustments for changes that have been completed, but they are not to be used as the basis for price adjustments since the price adjustment must be determined as of the date the change was directed.

§9-1.5004-2 Unilateral-type contract modifications other than change orders.

Fixed-price contracts often include provisions other than Changes articles which contemplate, as a result of specified happenings or actions, unilateral equitable adjustments in the contract price or performance time in the event of failure to reach mutual agreement. To the extent applicable, the procedures for the handling of change order equitable adjustments specified in §9-1.5004-1 shall be followed in the treatment of such other equitable adjustments. Such other adjustments include:

(a) Adjustments in price and time resulting from differences in physical conditions as described in the "Changed Conditions" article which appears in Standard Form 23-A, General Provisions (Construction Contract) and other contracts.

(b) Certain time extensions as covered by provisions of contract articles dealing with default terminations, delays, and time extensions.

(c) Time or price adjustments resulting from suspension, delay, or interruption of work covered by applicable contract articles.

(d) Adjustments in price and time resulting from removing or tearing out of construction work which subsequently is found to meet contract requirements as covered by inspection articles.

§9-1.5005 Changes outside the general contract scope.

(a) *Use of supplemental agreements.*

(1) A supplemental agreement is used to modify a contract when a substantive change is necessary, such as a change in the general scope of the contract, changes in basic contract articles, or a deletion or addition of contract articles.

(2) A supplemental agreement shall not be used for work additions unless the added work is so closely related to work under the existing contract, or for other reasons, that it is impracticable to accomplish the new work under a separate fixed-price contract awarded as a result of formal advertising or invited proposal procedures. The use of a supplemental agreement for additional work shall be fully justified as being in the best interest of the Government and shall satisfy ERDA requirements for procurement by negotiation.

(3) Whenever time will permit, a supplemental agreement shall be issued and signed by both parties prior to the commencement of any work covered by the modification. When construction must be started before a supplemental agreement can be completed, prior agreement shall be confirmed by letter or a letter-type supplemental agreement should be issued to authorize the start of work.

(b) *Negotiation.* Since a supplemental agreement concerns a change in contract terms or in work which is not within the general scope of the contract, any price and time adjustment must be acceptable to the contractor and the supplemental agreement must be effected by negotiation with the contractor. The following procedures shall be used:

(1) *Contractor's proposal.* The contractor shall be furnished a description of the change, together with any applicable revised plans and specifications, and be requested to submit a proposal for the changed work, including a detailed estimate of any change in price or time involved in the performance of the work.

(2) *Government estimate.* An independent Government estimate shall be prepared in accordance with applicable provisions of §9-1.5004-1(d)(2).

(3) *Agreement on price or time adjustment.* In the event negotiation with the contractor does not result in reasonable reconciliation between the contractor's estimate and the Government estimate, the contracting officer must determine whether, under the circumstances, contracting with others for the work involved would better serve the interest of the Government.

§9–1.5006 Preparation of change orders, other unilateral contract modifications, and supplemental agreements.

(a) Suggested outlines that may be used as guides in preparing change orders and supplemental agreements to fixed-price construction contracts are set forth in §§9–16.5002–10 and 9–16.5002–11, respectively.

(b) See Part 9–53 for numbering and distribution of contract modifications.

(c) See Part 9–55 for required justification and documentation.

§9–1.5007 Surety bonds.

Additional performance bond protection in connection with and consent of surety to change orders and supplemental agreements to fixed-price contracts shall be obtained when they are determined to be appropriate on the basis of Part 9–10.

Subpart 9–1.51—[Reserved]

Subpart 9-1.52—[Reserved]

1-41

Subpart 9–1.53—Novation Agreements and Change of Name Agreements

§9–1.5300 Scope of subpart.

This subpart prescribes the policy and procedures for (a) recognition of a successor in interest to contracts when such interests are required incidental to transfer of all the assets of a contractor or such part of his assets as is involved in the performance of the contract, and (b) a change of name of a contractor.

§9–1.5301 Agreement to recognize a successor in interest.

(a) The transfer of a Government contract by a contractor is prohibited by law (41 U.S.C. 15). However, the Government may recognize a third party as the successor in interest to a Government contract where the third party's interest is incidental to the transfer of all the assets of the contractor, or all that part of the contractor's assets involved in the performance of the contract. Examples include, but are not limited to:

(1) Sale of such assets;

(2) Transfer of such assets pursuant to merger or consolidation of corporation; and

(3) Incorporation of a proprietorship or partnership.

(b) A contractor who requests that a successor in interest be recognized shall be required to furnish the ERDA office concerned (see §9–1.5303(a)) one copy of each of the following documents as appropriate:

(1) A properly authenticated copy of the instrument by which the transfer of assets is to be effected, as, for example, a bill of sale, certificate of merger, indenture of transfer, or decree of court;

(2) A list of all contracts and purchase orders which have not been finally settled between the Energy Research and Development Administration and the transferor, showing the contract number, the name and address of the purchasing office involved, the total dollar value of each contract as amended, the type of contract involved, and the balance remaining unpaid;

(3) A certified copy of the resolutions of the Board of Directors of the corporate parties authorizing the transfer of assets;

(4) A certified copy of the minutes of any stockholders' meetings of the corporate parties necessary to approve the transfer of assets;

(5) A properly authenticated copy of the certificate and articles of incorporation of the transferee if such corporation was formed for the purpose of receiving the assets involved in the performance of the Government contracts;

(6) Opinion of counsel for the transferor and transferee that the transfer is in accordance with applicable law and the effective date of transfer;

(7) Evidence of the capability of the transferee to perform the contracts;

(8) Balance sheets of the transferor and the transferee as of dates immediately prior to and after the transfer of assets;

(9) Evidence of security clearance requirements; and

(10) Consent of sureties on all contracts listed under subparagraph (2) of this paragraph where bonds are required.

(c) If it is consistent with the Government's interest to recognize a successor in interest to a contract, an agreement will be executed with the transferor and the transferee, which shall ordinarily provide in part that:

(1) The transferee assumes all the transferor's obligations and liabilities under the contract;

(2) The transferor waives all rights under the contract as against the Government;

(3) The transferor guarantees performance of the contract by the transferee (a satisfactory performance bond may be accepted in lieu of such guarantee); and

(4) Nothing in the agreement shall relieve the transferor or the transferee from compliance with any Federal, State, or local law. All agreements, prior to execution, shall be reviewed by the Office of the General Counsel or the Office of the Chief Counsel, as the case may be, for legal sufficiency. A sample form for such an agreement for use when the transferor and transferee are corporations, and all the assets of the transferor are

transferred, is set forth herein. This sample form may be adapted to fit specific cases and may be used as a guide in preparing similar agreements for use in other situations.

AGREEMENT

This Agreement, entered into as of (date upon which the transfer of assets became effective pursuant to applicable State law) 19——, by and between ABC Corp., a corporation duly organized and existing under the laws of the State of ————————with its principal office in the city of ———————— (hereinafter referred to as the "Transferor"); the XYZ Corp., a corporation duly organized and existing under the laws of the State of————————with its principal office in the city of————————(hereinafter referred to as the "Transferee"); and the United States of America (hereinafter referred to as the "Government"), represented by the Energy Research and Development Administration (hereinafter referred to as the "ERDA").

WITNESSETH

1. Whereas, the ERDA has entered into the following contracts and purchase orders with the Transferor:————————————————

2. Whereas, as of ————————, 19——, the Transferor assigned, conveyed, and transferred to the Transferee all the assets of the Transferor by virtue of a (term descriptive of the legal transaction involved) between the Transferor and the Transferee;

3. Whereas, the Transferee, by virtue of said assignment, conveyance, and transfer, has acquired all the assets of the Transferor;

4. Whereas by virtue of said assignment, conveyance, and transfer, the Transferee has assumed all the duties, obligations, and liabilities of the Transferor under the contracts;

5. Whereas, the Transferee is in a position fully to perform the contracts, and such duties and obligations as may exist under the contracts;

6. Whereas, it is consistent with the Government's interest to recognize the Transferee as the successor party to the contracts;

7. Whereas, there has been filed with the ERDA evidence of said assignment, conveyance, or transfer, as required by ERDA-PR 9-1.5301(b); (Where a change of name is also involved, such as prior or concurrent change of name of the transferee, an appropriate recital shall be used; for example:)

8. Whereas, there has been filed with the ERDA a certificate dated————————, 19——, signed by the Secretary of the State of————————, to the effect that the corporate name of LMN Corp. was changed to XYZ Corp. on ————————, 19——;

Now, therefore, in consideration of the premises, the parties hereto agree as follows:

9. The Transferor hereby confirms said assignment, conveyance, and transfer to the Transferee, and does hereby release and discharge the Government from, and does hereby waive, any and all claims, demands, and rights against the Government which it now has or may hereafter have in connection with the contracts.

10. The Transferee hereby assumes, agrees to be bound by, and undertakes to perform each and every one of the terms, covenants, and conditions contained in the contracts. The Transferee further assumes all obligations and liabilities of, and all claims and demands against, the Transferor under the contracts, in all respects as if the Transferee were the original party to the contracts.

11. The Transferee hereby ratifies and confirms all actions heretofore taken by the Transferor with respect to the contracts with the same force and effect as if the action had been taken by the Transferee.

12. The ERDA hereby recognizes the Transferee as the Transferor's successor in interest in and to the contracts. The Transferee hereby becomes entitled to all right, title, and interest of the Transferor in and to the contracts in all respects as if the Transferee were the original party to the contracts. The term "Contractor" as used in the contracts shall be deemed to refer to the Transferee rather than to the Transferor.

13. Except as expressly provided herein, nothing in this Agreement shall be construed as a waiver of any rights of the Government against the Transferor.

14. Notwithstanding the foregoing provisions, all payments and reimbursements heretofore made by the ERDA to the Transferor and all other action heretofore taken by the ERDA, pursuant to its obligations under any of the contracts, shall be deemed to have discharged protanto the Government's obligations under the contracts. All payments and reimbursements made by the ERDA after the date of this Agreement in the name of or to the Transferor shall have the same force and effect as if made to said Transferee and shall constitute a complete discharge of the Government's obligations under the contracts, to the extent of the amounts so paid or reimbursed.

15. The Transferor and the Transferee hereby agree that the Government shall not be obligated to pay or reimburse either of them for, or otherwise give effect to, any costs, taxes, or other expenses, or any increases therein, directly or indirectly arising out of or resulting from (i) said assignment, conveyance, and transfer, or (ii) this Agreement, other than those which the Government, in the absence of said assignment, conveyance, and transfer or this Agreement, would have been obligated to pay or reimburse under the terms of the contracts.

16. The Transferor hereby guarantees payment of all liabilities and the performance of all obligations which the Transferee (i) assumes under this Agreement, or (ii) may hereafter undertake under the contracts as they may hereafter be amended or modified in accordance with the terms and conditions thereof; and the Transferor hereby waives notice of and consents to any such amendment or modification.

17. Except as herein modified, the contracts shall remain in full force and effect.

18. The term "the contracts" as used in this agreement means the contracts and purchase orders listed above [or in an attached exhibit]; and all other contracts and purchase orders, including modifications thereto, heretofore made between the ERDA and the Transferor (whether or not performance and payments have been completed and releases executed, if the Government or the Transferor has any remaining rights, duties, or obligations thereunder), and modifications to such contracts and purchase orders hereafter made in accordance with their terms and conditions.

In witness whereof, each of the parties hereto has executed this Agreement as of the day and year first above written.

§9-1.5302 Agreement to recognize change of name of contractor.

(a) A contractor who requests only that a change of name be recognized and states that the rights and obligations of the parties remain unaffected shall be required to furnish the ERDA office (see §9-1.5303(a)) concerned one copy of each of the following:

(1) A copy of the instrument by which the change of name was effected, authenticated by a proper official of the State having jurisdiction;

(2) Opinion of counsel for the contractor as to the effective date of the change of name and that it was properly effected in accordance with applicable law; and

(3) A list of all contracts and purchase orders which have not been finally settled between the Energy Research and Development Administration and the transferor, showing the contract number, the name and address of the procuring activity involved, the total dollar value of each contract as amended, and the balance remaining unpaid.

(b) A format for such an agreement which shall be adapted for specific cases is set forth below.

AGREEMENT

This Agreement, entered into as of ———— ————————, 19——, by and between the ABC Corp. (formerly the XYZ Corp., and hereinafter sometimes referred to as the "contractor"), a corporation duly organized and existing under the laws of the State of ————————————, and the United States of America (hereinafter referred to as the "Government"), represented by the Energy Research and Development Administration (hereinafter referred to as the "ERDA").

WITNESSETH

1. Whereas, the ERDA has entered into the following contracts and purchase orders with the XYZ Corp.: ————————————;

2. Whereas, the XYZ Corp., by an amendment to its certificate of incorporation, dated ————————, ————has changed its corporate name to ABC Corp.;

3. Whereas, a change of corporate name only is accomplished by said amendment, so that rights and obligations of the Government and of the contractor under the contracts are unaffected by said change; and

4. Whereas, there has been filed with the ERDA documentary evidence of said change in corporate name;

Now, therefore, in consideration of the foregoing, the parties hereto agree, that the contracts covered by this agreement are hereby amended by deleting therefrom the name "XYZ Corporation" wherever it appears in the contracts and substituting therefor the name "ABC Corporation."

The term "the contracts" as used in this agreement means the contracts and purchase orders listed in clause 1 above, and all other contracts and purchase orders, including modification thereto, entered into between the ERDA and the contractor (whether or not performance and payment have been completed and releases executed, if the Government or the contractor has any remaining rights, duties, or obligations thereunder).

In witness whereof, each of the parties hereto has executed this Agreement as of the day and year first above written.

§9–1.5303 Procedures.

(a) A contractor who wishes recognition of a successor in interest or of a change in name shall notify the ERDA office with which it has the largest dollar amount of unliquidated obligations, and shall furnish that office with the pertinent documentation enumerated in §§9–1.5301 and 9–1.5302, as required.

(b) The ERDA office (see par. (a) of this section) will take all necessary and appropriate action with respect to either recognizing or not recognizing a successor in interest or recognizing a change of name, including without limitation the following:

(1) Obtaining from the contractor a list of the affected contracts, the names and addresses of the procuring activities responsible for those contracts, and the required documentary evidence;

(2) Contacting other ERDA offices concerned to determine whether there is any objection to recognizing a successor in interest;

(3) Drafting and executing a supplemental agreement to one of that office's contracts affected but covering all applicable outstanding and incomplete contracts affected by the transfer of assets or change of name; and

(4) Instituting and monitoring procedures for security clearance.

The supplemental agreement will contain a list of the contracts affected and, for distribution purposes, the names and addresses of the procuring activities having contracts subject to the supplemental agreement.

(c) The agreement and supporting documents will be reviewed for legal sufficiency by the Office of the General Counsel or the Office of the Chief Counsel, as the case may be.

(d) After execution of the supplemental agreement, the ERDA office shall:

(1) Forward an authenticated copy of the supplemental agreement to the Director of Procurement; and

(2) The Director of Procurement will advise each of the ERDA offices of the consummation of the supplemental agreement and request a letter referring to such supplemental agreement to be included in each affected contract.

(e) The contracting officer for each such affected contract shall prepare a letter which references the supplemental agreement (and cite the number of the contract with which the original relevant documents and supplemental agreement are filed) and acknowledges the change in name or successor in interest. Such letter will be given the same distribution as the affected contract.

Subpart 9–1.54—General Policy for the Avoidance of Organizational Conflicts of Interest

§9–1.5401 Purpose.

This subpart sets forth ERDA general policy with respect to the avoidance of organizational conflicts of interest. This subpart is in addition to and not in lieu of other requirements in the ERDA–PR concerning ERDA policies for avoiding conflicts of interest. (See §9–59.006 and 9–12.54.) The Report to the President on Government Contracting for Research and Development (generally known as the Bell Report) proposed that each department and agency head develop a "Code of Conduct" for organizations in the research and development field. This subpart has been developed in accordance with that instruction.

§9–1.5402 Scope and applicability.

(a)(1) This subpart identifies various organizational conflicts of interest which might come into being and methods for avoidance of such conflicts. It provides that action must be taken to avoid placing a contractor in a position where his judgment might be biased or where he would have an unfair competitive advantage within the scope and intent of this subpart.

(2) If a contracting officer determines that a proposed procurement does involve a situation covered in §9–1.5407, all prospective contractors shall be advised of the extent of restrictions on follow-on or other work by notice in solicitations and by a clause in resulting contracts. Such notice and contract clause shall spell out the specific extent of any future restrictions on the contractor which are imposed by the contract. This, of course, does not require contract awards in circumstances that demonstrate a clear conflict of interest of a kind not specifically enumerated herein. Section 9–1.5408 shall be implemented by including in cost-type contracts, where appropriate, a provision requiring the approval of the contracting officer for the private use of information or data developed or obtained by employees of such contractor in the performance of cost-type contracts. A standard form of notice for use in solicitations or contract clause is not prescribed in this subpart since such notices and clauses must be especially adapted to apply the principle of these rules to the specific facts of each contractual situation.

(b) Except in unusual or specific situations identified by contracting officers, those parts of the rules which pertain to unfair competitive advantage are not applicable to contracts with educational institutions, or with not-for-profit organizations which conduct education and training activities, or whose facilities are used in joint programs with educational institutions for such purpose.

§9–1.5403 Applicability to cost-type contractor procurement.

This subpart shall be applied to procurement by cost-type contractors that construct or operate ERDA plants and laboratories or perform research and development services for ERDA.

§9–1.5404 Waiver.

A Manager of a Field Office, or Headquarters Division Director, may waive the applicability of this subpart in specific cases if he determines that such waiver will not be prejudicial to the best interests of the Government.

§9–1.5405 Definition.

The term "organizational conflict of interest" means a situation where a contractor, normally a corporation, has interests, either due to its other activities or its relationships with other organizations, which place it in a position that may be unsatisfactory or unfavorable (a) from the Government's standpoint in being able to secure impartial, technically sound, objective assistance and advice from the contractor, or in securing the advantages of adequate competition in its procurement; or (b) from industry's standpoint in that unfair competitive advantage may accrue to the contractor in question.

§9–1.5406 General policy.

(a) In order to assist in deciding what, if any, steps should be applied to avoid organizational conflicts of interest, there are two paramount principles to be considered. These are: (1) Preventing conflicting roles which might bias a contractor's judgment in relation to its work for ERDA, and (2) preventing unfair competitive advantage. The ultimate test should always be: Is the contractor placed in a position where his judgment may be biased, or where he has an unfair competitive advantage?

(b) Final program decisions, such as the determination of projects or programs and their scope, which are required to meet ERDA missions and objectives, are of course the responsibility of Government personnel and cannot therefore be delegated to contractor personnel. Program decisions must be based on impartial, disinterested, and the best available technical and other judgments. The effective and formal power to make such decisions must remain in the hands of full-time ERDA officials. Outside technical and other advice may be weighed and used selectively to assist in developing the bases on which program decisions will be made.

(c) It is difficult to identify, and to prescribe in advance, a specific method for avoiding all of the various situations which might involve potential organizational conflicts of interest. Basically, potential conflicts of interest become acute when ERDA's quest for objectivity is paramount, such as for advice, evaluations, technical and analytical services and similar assistance that lay direct groundwork for program decisions on large future procurements, research and development programs, and production. The general policy in paragraph (a) of this section cannot be automatically or routinely implemented; the application of considered judgment is necessary if that policy is to be applied in an effective, workable manner. The following sections provide guides for the application of the general policy in specific situations. However, contracting and program officials should be alert to other situations which may warrant application of the general policy.

§9–1.5407 Guides applicable prior to selection of contractor and execution of contract.

(a) A contractor who in connection with the performance of a study contract will be given information by ERDA regarding ERDA's plans or programs which is not available to interested industrial firms, should not be permitted to compete with such firms for work relating to such plans or programs.

(b) Development contractors generally should not be prohibited from consideration as a supplier for a product which they develop and design. In development work it is normal to select firms which have done the most advanced work and which are the most experienced in the field. It is to be expected that these firms will develop and design around their own prior knowledge. Also, a contractor who participates in an early stage of development is not precluded from getting a contract for a later stage of development or production. As part of ERDA's overall planning for the development, design, and the production stages, consideration should be given to the likelihood of competitive solicitations for procuring parts of the design or product effort. The arrangement for such procurement should provide for the maximum competition consistent with satisfying ERDA requirements. Where the designer and developer is permitted to compete with others for the furnishing of the final product, Managers of Field Offices should take appropriate steps to see that the information furnished ERDA under the design and development contract is available to other potential bidders, on a timely basis.

(c) If a single contractor, other than a company which has participated in the development referred to in paragraph (b) of this section undertakes a contract which essentially is to assist the ERDA or a contractor of ERDA in preparation of a statement of work, or to provide material leading directly and predictably to a statement of work, to be used in the competitive procurement of a product or service, that contractor should not be allowed to supply the service, or the product or major components thereof either as a prime or subcontractor or vendor, except when it is determined and justified in accordance with established criteria that such contractor is a sole source for the required product or service. The content of a statement of work is not considered predictable if

two or more contractors, unaffiliated with each other, are involved substantially in the preparation of material leading to it. Generally, feasibility studies which do not propose in detail the characteristics of a possible final product, are not work statements and a company should not be barred from bidding subsequently on the product.

(d) If a contractor agrees to prepare and furnish essentially complete specifications to be used in competitive procurement, that contractor should not be allowed to compete either as a prime or subcontractor or vendor, for a reasonable period including, at least, the initial procurement. This prohibition should not be applied to:

(1) Contractors who have furnished at ERDA request specifications or data with respect to a product sold to ERDA, even though the specifications or data may have been paid for separately or in the price of the product.

(2) Contractors acting as industry representatives who assist ERDA in preparing, refining, or coordinating specifications, if such assistance is supervised and controlled by ERDA representatives.

(3) Contracts for a developmental or prototype item. However, the principle in the concluding sentence of paragraph (b) of this section should be applied.

(4) Purchases from divisions of or companies affiliated with the performing contractor, provided such purchases are supervised and controlled by ERDA representatives.

(e) A contractor performing evaluation or consulting services for ERDA in connection with a competitive procurement should not be allowed to evaluate or give other consulting services: (1) On a product or service which the contractor provides; (2) on the product or services of any company with which the contractor has a consulting relationship; or (3) on his own product or on similar services which he has performed for others. Such a contractor should not be allowed to give consulting services to prospective bidders on a procurement item for which he has performed or will perform evaluation services for ERDA. It is recognized that under ERDA management contracts for the operation of ERDA facilities and certain research and development contracts, the performing contractor may solicit proposals and advise ERDA concerning proposed purchases from competitors as well as from its own affiliated divisions or companies not directly engaged in the performance of the ERDA management contract. In such cases the contracting officer should assure by appropriate review and supervision that the action taken is sound.

(f) A contractor's judgment may be biased because of past or present relationships of its officers or employees with other organizations and because of organizational relationships (e.g., interlocking directorships). In selecting a contractor to develop technical specifications in connection with competitive procurement or to perform evaluation services on technical proposals, consideration should be given to present and past relationships of the contractor's organization and personnel to the companies whose proposals are to be evaluated. In order to avoid or minimize organizational conflicts of interest and to avoid assignments of work which would create unavoidable conflicts of interest, these relationships may require that an organization be eliminated from consideration for selection, or that a reasonable period of restraint, for example, 1 year, be imposed on the organization or on the use of certain employees in the performance of contract work.

(g) Combinations of contracts for architect-engineering and construction services, which may result in self-inspection of construction work, tend to prevent a contractor from rendering unbiased decisions, or create difficulties in segregating costs between contracts, and should be avoided. However, it is recognized that sometimes it is advantageous under carefully circumscribed conditions for ERDA to obligate a single firm to perform both architect-engineer and construction work, or for ERDA to enter into a contract for architect-engineer and construction management services which may include performance of a segment of the construction work with the contractor's own forces. Unless otherwise authorized by the Director of Procurement, the following combinations of contracts shall not be awarded to the same firm or to affiliated companies:

(1) CPFF and fixed-price contracts for construction services, for on-site architect-engineer services, or for construction and on-site architect-engineer services on different construction projects, if the performance of any portion of the work under each contract is to be concurrent and in the same general location.

(2) A fixed-price contract or contracts, for both architect-engineer and construction services on the same construction project, or a CPFF contract for architect-engineer services and a fixed-price contract for construction services on the same construction project. If a firm is to be responsible under such contractual arrangements for both design and construction services, title III architect-engineer services shall be performed by another organization selected by the ERDA.

(3) A CPFF contract for both architect-engineer and construction services on the same construction project (engineer-constructor contract). If this contractual arrangement is used, the contract shall provide for performance of the title III architect-engineer services by contractor's engineering personnel who are not responsible to the contractor's construction personnel, or the title III services shall be performed by another organization selected by the ERDA.

§9–1.5408 Commercial or other use of information and data obtained under ERDA cost-type contracts.

(a) Cost-type contractors may be permitted to use, in their private activities, information and data developed or obtained in the performance of such contracts as provided in this section.

(b) The contractor shall be required to inform the contracting officer of all situations in which such information or data is proposed to be used. To assure that no unfair competitive advantage results to the contractor, the contracting officer shall be guided by the following principles in permitting the use of such information or data for private purposes:

(1) No part of the plans, specifications, cost estimates, technical information, or other data which are developed or acquired in the performance of the contract and which are required by the terms of the contract to be reported to ERDA shall be used in the contractor's private activities, unless such information has been reported to ERDA. Where ERDA furnishes such information to the contractor for the performance of contract work, it shall not be used in the contractor's private activities, unless such information is generally available to others.

(2) Information which is reported to ERDA by ERDA contractors will normally be disseminated by ERDA to others.

(3) Employees of management contractors operating ERDA facilities may not be used to assist in the preparation of a proposal or bid for the performance of private commercial services similar or related to those being performed under the ERDA contract unless such employee has been separated, with ERDA approval, from performance of work under the ERDA contract for such period as the contracting officer shall direct consistent with the purpose of this section.

(4) ERDA management contractors operating ERDA facilities, and performing services, as a part of their contract work, for other Government agencies or private organizations, should not be permitted to utilize information which is furnished by such customers, for their own private activities, unless it is generally available to others, or unless the customer authorizes such use.

(c) As used in this section, the term "cost-type contractor" shall include affiliated companies, parent organizations, or wholly owned subsidiaries.

TABLE OF CONTENTS

PART 9-2—PROCUREMENT BY FORMAL ADVERTISING

Sec.
9-2.000 Scope of part.

Subpart 9-2.1—Use of Formal Advertising

9-2.102 Policy.
9-2.105-50 Prebidding conferences.

Subpart 9-2.2—Solicitation of Bids

9-2.201 Preparation of invitations for bids.
9-2.202-50 Postponement of bid openings.
9-2.203-3(b) Paid advertisements.

Subpart 9-2.4—Opening of Bids and Award of Contract

Sec.
9-2.401 Receipt and safeguarding of bids
9-2.402 Opening of bids.
9-2.403 [Reserved]
9-2.406 Mistakes in bids.
9-2.406-3 Other mistakes disclosed before award.
9-2.406-4 Disclosure of mistakes after award.
9-2.407 Award.
9-2.407-1 [Reserved]
9-2.407-8 Protests against award.

§9-2.000 Scope of part.

This part implements and supplements the requirements for procurement of personal property and nonpersonal services (including construction) by formal advertising set forth in FPR Part 1-2.

Subpart 9-2.1—Use of Formal Advertising

§9-2.102 Policy.

Procurement by formal advertising for ERDA direct procurement shall be followed, except where negotiation is authorized by the Federal Property and Administrative Services Act of 1949, as amended. Section 302(c)(15) of that Act authorizes negotiation when "otherwise authorized by law" (see §9-3.200). Direct ERDA procurement of supplies and services by formal advertising shall comply with the requirements of this part and FPR Part 1-2.

§9-2.105-50 Prebidding conferences.

See §9-1.354.

Subpart 9–2.2—Solicitation of Bids

§9–2.201 Preparation of invitations for bids.

When an option to increase or decrease the quantities specified is employed, the percentage inserted in the option should not normally exceed 25 percent and in no event shall it exceed 50 percent without prior authorization of the Director of the Headquarters division or office concerned. The following language is suggested for incorporation in invitations for bids:

"The Government reserves the right to increase or decrease the quantity specified in any item of the schedule by ——percent without change in the unit price, if at any time during the life of the contract such an increase or decrease shall be determined to be in the interests of the Government."

When the contract contains a provision for termination for convenience of the Government, the words "or decrease" in the option may be deleted.

§9–2.202–50 Postponement of bid openings.

(a) Whenever such action is determined by the contracting officer to be in the best interest of the Government, bid openings may be postponed by issuance and distribution to all prospective bidders of an amendment (see FPR 1–2.207) to the invitation for bids. Notices of postponement shall be issued by mail or telegraph as early as possible, but in any event prior to the time specified for the opening of bids.

(b) Bid openings shall be postponed when an important segment of prospective bidders requests additional time for filing their bids, or the contracting officer is on notice, or has reason to believe, that the specified opening date is not appropriate or is not conducive to the maximum practicable competition.

(c) Bid openings may be postponed, if determined by the contracting officer to be practicable and in the best interests of the Government, when the contracting officer has reason to believe that the bids of an important segment of bidders have been delayed in the mails for causes beyond their control, and without fault or negligence of the bidders concerned, such as, but not limited to, flood, fire, accident, heavy snow, or strikes.

§9–2.203–3(b) Paid advertisements.

When it is deemed necessary to use paid advertisements in newspapers, written authority for such publication shall be obtained from the Manager of a Field Office or the Director of the Headquarters division or office concerned.

Subpart 9–2.4—Opening of Bids and Award of Contract

§9–2.401 Receipt and safeguarding of bids.

Envelopes, or other outer covering, containing identified bids shall be time-stamped (indicating the place, date, and time of receipt) upon receipt, either in a mail room or other receiving point at the address specified in the invitation.

§9–2.402 Opening of bids.

At the bid opening, the relative merits of any bids shall not be discussed by the person opening the bids, or the contracting officer, with the bidders, their representatives, or with casual observers. No statements shall be issued by the bid opener or the contracting officer at a bid opening bearing on the award, the possibility of a readvertisement, mistakes in bids, etc. No oral instructions shall be given to bidders at any time during the opening. Protests of bidders and inquiries regarding the award of contract shall be referred to the contracting officer after the completion of the bid opening procedure.

§9–2.403 [Reserved]

§9–2.406 Mistakes in bids.

§9–2.406–3 Other mistakes disclosed before award.

Pursuant to FPR 1–2.406–3(b), the Director of Procurement, is delegated authority to make the determinations under FPR 1–2.406–3. Mistakes in bids prior to award (other than obvious clerical errors) shall be submitted to the Director of Procurement, accompanied by the data set forth in FPR 1–2.406–3(d)(3). The Director of Procurement, will promptly notify the contracting officer of the course of action to be taken.

§9–2.406–4 Disclosure of mistakes after award.

Pursuant to FPR 1–2.406–4(d), the Director of Procurement, has been delegated authority to make the determinations under FPR 1–2.406–4. Mistakes in bids after award shall be submitted to the Director of Procurement, accompanied by the data set forth in FPR 1–2.406–4(f).

§9–2.407 Award.

§9–2.407–1 [Reserved]

§9–2.407–8 Protests against award.

After providing the Comptroller General with a notice of intent to make an award, and formal or informal advice is obtained concerning the current status of the case (see FPR 1–2.407–8(b)(3)), the contracting officer shall obtain approval of his superior officer to make an award where a protest has been submitted to the Comptroller General and it is necessary to make an award before the matter is resolved.

TABLE OF CONTENTS

PART 9–3—PROCUREMENT BY NEGOTIATION

Sec.
9–3.000 Scope of part.

Subpart 9–3.1—Use of Negotiation

9–3.103 Dissemination of procurement information.
9–3.150 Treatment of proposal information.
9–3.150–1 General.
9–3.150–2 Proprietary data.
9–3.150–3 Privileged business information.
9–3.150–4 Handling notice.
9–3.150–5 Disclosure outside Government.

Subpart 9–3.2—Circumstances Permitting Negotiation

9–3.200 Scope of subpart.
9–3.202 [Reserved]
9–3.204 Personal or professional services.
9–3.211 [Reserved]
9–3.213 Technical equipment requiring standardization and interchangeability of parts.
9–3.215 Otherwise authorized by law.

Subpart 9–3.3—Determinations, Findings, and Authorities

9–3.301 General.
9–3.302 Determinations and findings required.
9–3.303 Determinations and findings by the Head of the Agency.

Subpart 9–3.4—Types of Contracts

9–3.404–3 Fixed-price contract with escalation.
9–3.404–5 Prospective price redetermination at a stated time or times during performance.
9–3.404–7 Retroactive price redetermination after completion.
9–3.404–50 Lump-sum contract for architect-engineer services with reimbursement for certain costs.
Sec.
9–3.404–51 Fixed-price contracts with provision for redetermination.
9–3.405–5 Cost-plus-a-fixed-fee contract.
9–3.406–1 Time and materials contract.
9–3.408 Letter contract.

Subpart 9–3.6—Small Purchases

9–3.600 Scope of subpart.
9–3.603–1 Solicitation.
9–3.603–2 Data to support small purchases.
9–3.604 [Reserved]
9–3.605–1 Standard Form 44.
9–3.605–2 Standard Form 147 and 148.

Subpart 9–3.8—Price Negotiation Policies and Techniques

9–3.800 Scope.
9–3.801 Basic policy.
9–3.802 Preparation for negotiation.
9–3.802–1 Consideration of late proposals.
§9–3.814–52 Approvals and waiver.
9–3.804 Conduct of negotiations.
9–3.805 Selection of offerors for negotiation and award.
9–3.805–50 Negotiation of architect-engineer and cost-plus-a-fixed-fee contracts.
9–3.807–1 [Reserved]
9–3.807–3 Requirements for cost or pricing data.
9–3.807–11 Overhead rate considerations.
9–3.807–12 Sole-source items.
9–3.807–52 Approvals and waiver.
9–3.807–53 Development of special items.
9–3.807–54 Price warranties.
9–3.808 Pricing techniques.
9–3.808–50 Negotiating profit and fees.
9–3.808–51 Limitation on profits and fees.
9–3.809 Contract audit as a pricing aid.
9–3.814–2 Audit and records.
9–3.814–50 Subcontractor cost or pricing data clause.

Subpart 9–3.9—Subcontracting Policies and Procedures

9–3.901 General.

§9–3.000 Scope of part.

This part implements and supplements the policies and procedures governing procurement by negotiation set forth in FPR Part 1–3.

Subpart 9–3.1—Use of Negotiation

§9–3.103 Dissemination of procurement information.

See 10 CFR Part 709, Public Records, for regulations relating to the availability of ERDA records to the public.

§9–3.150 Treatment of proposal information.

§9–3.150–1 General.

It is the general policy of ERDA to use information contained in proposals only for evaluation purposes except to the extent such information is generally available to the public, is already the property of the Government or the Government already has unrestricted use rights, or is or has been made available to the Government from other sources, including the proposer, without restriction. As a practical matter, ERDA cannot assume any responsibility for disclosure or use of any such information unless it is identified by the proposer in accordance with this section. ERDA will not refuse to consider an unsolicited proposal, or a solicited proposal unless the solicitation specifies otherwise, merely because the proposal is restrictively marked. (See also Subparts 9–4.51 and 9–4.52, and 10 CFR Part 709.)

§9–3.150–2 Proprietary data.

A proposal may, unless the solicitation specifies otherwise in the case of a solicited proposal, include proprietary data which the proposer does not want disclosed to the public or used by the Government for any purpose other than proposal evaluation. Such proprietary data must be specifically identified and marked as such on every page where it may be contained, in which event it will be used only for proposal evaluation purposes unless it is within the exception set forth in §9–3.150–1. In such cases, the data so identified and marked will not be otherwise used or disclosed without the proposer's written permission, except to the extent it is within the exception in §9–3.150–1 or as provided in any resulting contract.

§9–3.150–3 Privileged business information.

A proposal may contain business information which the proposer does not want disclosed outside the Government except for proposal evaluation purposes. Such privileged business information must be specifically identified and marked as such on every page where it may be contained, in which event it will be disclosed outside the Government only for proposal evaluation purposes unless the information is excepted information as set forth in §9–3.150–1. Regarding disclosure to other offerors, see FPR 1–3.103(b).

§9–3.150–4 Handling notice.

In order that restrictively marked proposals may be handled consistently with the policies set forth in this section, the following notice shall be affixed to each such proposal upon receipt by ERDA. Use of the following notice neither alters any obligation of the Government, nor diminishes any rights in the Government to use or disclose data or information.

NOTICE FOR HANDLING RESTRICTIVELY MARKED PROPOSALS

This proposal shall be used, or duplicated, only for ERDA evaluation purposes and this notice shall be applied to any reproduction or abstract thereof. Disclosure of this proposal outside the Government for ERDA evaluation purposes shall not be made unless the provisions of ERDA

Procurement Regulation 9-3.150-5 are followed. The restrictions contained in this notice do not apply to any data or business information contained in this proposal if it is already generally available to the public, is already available to the Government on an unrestricted basis or is the property of the Government, or is or becomes available from another source, including the proposer, without restriction.

§9-3.150-5 Disclosure outside Government.

(a) *Policy.* It is the policy of ERDA to have proposals evaluated by the most competent persons available in Government and contractor organizations operating and managing ERDA facilities. In addition, ERDA frequently meets its evaluation needs by having proposals reviewed by evaluators outside the Government (or contractor organizations operating and managing ERDA facilities). Such latter outside evaluations may be made:

(1) Of research proposals from educational and other appropriate not-for-profit institutions pursuant to §9-4.5106-3, provided any proposal which expressly indicates that only Government evaluation is authorized shall not be disclosed without the proposer's written consent.

(2) Of other proposals, provided the requirements in (b) and (c) below are met.

(b) *Approval.* Decisions in ERDA Headquarters to evaluate proposals covered by §9-3.150-5(a)(2) outside the Government (or contractor organizations operating and managing ERDA facilities) for ERDA evaluation purposes shall be made by the responsible program Division Director, and in ERDA field offices by the Field Office Manager. Such decisions shall take into consideration ERDA requirements for avoidance of organizational conflicts of interest set forth in Subpart 9-1.54 and the competitive relationship, if any, between the proposer and the prospective outside evaluator. In addition, if the proposal under consideration expressly indicates that only Government evaluation is authorized and evaluation outside the Government is nevertheless desired, the proposer should be advised that ERDA may be unable to give full consideration to the proposal unless the proposer consents in writing to having the proposal evaluated outside the Government.

(c) *Agreement with evaluator.* Where it is determined pursuant to §9-3.150-5(b) to evaluate a proposal outside the Government (or contractor organizations operating and managing ERDA facilities) the following agreement, or an equivalent arrangement for the treatment of the proposal, shall be obtained from the outside evaluator before ERDA furnishes a copy of the proposal to such person. In addition, care should be taken that the note required by §9-3.150-4 is affixed to the proposal before it is disclosed to the evaluator.

CONDITIONS FOR EVALUATING PROPOSALS

Whenever ERDA furnishes a proposal for evaluation, the recipient agrees to use the information contained in the proposal only for ERDA evaluation purposes. This requirement does not apply to information obtainable from another source, including the proposer, without restriction. Any notice or restriction placed on the proposal by either ERDA or the originator of the proposal shall be conspicuously affixed to any reproduction or abstract thereof. Upon completion of the evaluation, the recipient shall return all copies of the proposal and abstracts, if any, to the ERDA office which initially furnished the proposal for evaluation. Unless authorized by the ERDA initiating office, the recipient shall not contact the originator of the proposal concerning any aspect of its contents.

Subpart 9-3.2—Circumstances Permitting Negotiation

§9-3.200 Scope of subpart.

Section 302(c) of the Federal Property and Administrative Services Act of 1949, as amended, authorizes the negotiation of contracts, and is applicable to AEC (now ERDA) procurement. Section 302(c)(15) of the Federal Property and Administrative Services Act of 1949, as amended, permits negotiation when otherwise authorized by law, provided that in such event the requirements of that Act shall apply. Accordingly when the Federal Property and Administrative Services Act of 1949, as amended, or the Atomic Energy Act of 1954, as amended, or other law is used as the basis for negotiation, the requirements of section 304 of the Federal Property and Administrative Services Act of 1949, as amended, are applicable, except as provided in these regulations.

§9-3.202 [Reserved]

§9-3.204 Personal or professional services.

Formal advertising procedures shall not be used for contracts for architect-engineer or other professional engineering services. Such contracts may be negotiated under section 302(c)(4) of the Federal Property and Administrative Services Act of 1949, as amended, or section 302(c)(15) of that Act and the Atomic Energy Act of 1954, as amended. However, the exemption provided for in §9-3.405-5(c) does not apply to contracts negotiated under section 302(c)(4) of the Federal Property and Administrative Services Act of 1949, as amended.

§9-3.211 [Reserved]

§9-3.213 Technical equipment requiring standardization and interchangeability of parts.

If section 302(c)(15) of the Federal Property and Administrative Services Act of 1949, as amended, and the Atomic Energy Act of 1954, as amended, are used as the bases for negotiation, the example of findings and determinations set forth in FPR 1-3.213(e)(2) shall be appropriately modified to state the authority for negotiation.

§9-3.215 Otherwise authorized by law.

(a) The Atomic Energy Act of 1954, as amended, and the Atomic Energy Community Act of 1955, as amended, contain various exemptions from section 3709 of the Revised Statutes, as amended. Pursuant to section 310 of the Federal Property and Administrative Services Act of 1949, as amended, these references to section 3709 shall be construed to authorize procurement pursuant to section 302(c)(15) of the Federal Property and Administrative Services Act of 1949, as amended, without regard to the advertising requirements of sections 302(c) and 303 of that Act.

(b) The Atomic Energy Act of 1954, as amended, also provides in section 162 that the President may, in advance, exempt any specific action of the Commission (now ERDA) in a particular matter from the provisions of law relating to contracts whenever he determines that such action is essential in the interest of the common defense and security.

(c) Every contract negotiated under the authority of section 302(c)(15) of the Federal Property and Administrative Services Act of 1949, as amended, and the Atomic Energy Act of 1954, as amended, shall be supported by a determination and findings justifying use of such authority.

Subpart 9–3.3—Determinations, Findings, and Authorities

§9–3.301 General.

Except as otherwise provided in §9–3.302, the determinations and findings required by FPR Subpart 1–3.3 shall be made. Except as otherwise provided in §9–3.303, the determinations and findings required by FPR Subpart 1–3.3 may be made and executed by contracting officers, or by Directors of ERDA Headquarters Divisions that have been delegated authority to select contractors.

§9–3.302 Determinations and findings required.

The determination and finding required by FPR 1–3.302(d) is not required when the contract is negotiated under the Atomic Energy Act of 1954, as amended.

§9–3.303 Determinations and findings by the Head of the Agency.

Findings and determinations supporting negotiation under the authority of the Federal Property and Administrative Services Act of 1949, section 302(c)(11) (FPR 1–3.211), with respect to contracts which will not require the expenditure of more than $25,000 may be executed by Managers of Field Offices and appropriate Headquarters Division Directors. Findings and determinations for such contracts in excess of $25,000 and in support of contracts negotiated pursuant to sections 302(c)(12) and 302(c)(13) of the Federal Property and Administrative Services Act of 1949 (FPR 1–3.212 and 1–3.213) shall be executed by the Administrator or his designee.

Subpart 9–3.4—Types of Contracts

§9–3.404–3 Fixed-price contract with escalation.

(a) Upward price escalation should generally be limited to 10 percent of original contract unit prices. In cases where such a limitation would not be equitable either to the contractor or the Government, appropriate higher or lower percentages may be substituted. However, in a negotiated contract, when considering a higher limitation on escalation, the profit allowed should be considered in light of the risk assumed and, therefore, lower profit factors should be sought to offset decreased risks.

(b) The escalation articles in Subpart 9–7.50 do not provide for contract price modifications being tied to general or industry-wide indexes of material prices and wage rates, because:

(1) Such price indexes reflect average increases or decreases in material prices and wage rates and, therefore, generally, do not accurately reflect increases or decreases in a particular contractor's actual payments for material and labor. Contract price changes made on this basis are likely to be unfair, either to the contractor or the Government.

(2) Statistics included either in general or industry-wide price indexes are accumulated on broad, overall coverage basis and do not accurately reflect increases or decreases in material prices or wage rates as applied to the equipment or material being purchased under a particular contract.

For the foregoing reasons, it is preferable to use price escalation articles which provide for contract price modifications based on increases or decreases in the contractor's actual payments for material and labor. When it is determined, for cogent reasons, that a price escalation article based on increases or decreases in a general or industry-wide price index must be used, every effort should be made to select an index which a study of past experience for a representative period indicates most nearly conforms to the contractor's actual experience for the same period. The contract file will set forth the reasons for using an escalation article based on a general or industry-wide price index and also why the particular index used was selected.

§9–3.404–5 Prospective price redetermination at a stated time or times during performance.

See contract article set forth in §9–7.5007–5 and general discussion in §9–3.404–51.

§9–3.404–7 Retroactive price redetermination after completion.

See contract article set forth in §9–7.5007–5 and general discussion in §9–3.404–51.

§9–3.404–50 Lump-sum contract for architect-engineer services with reimbursement for certain costs.

(a) Description: This type of contract normally provides for a fixed amount or lump sum for the A-E services (see §9–18.306–50(b)(1) of this chapter for definition of these services) plus reimbursement of, or payment of an additional lump sum for certain costs listed in §9–16.703–50 of this chapter, Clause 15, paragraph (b) to the extent they are incurred in connection with the work and approved by the contracting officer. These costs generally are not susceptible of reasonable estimation in advance due to a wide variation in the extent the related services are required for various projects, or they are for services not normally a part of titles I, II, and III.

(b) Compensation is included in the lump sum derived from the fee schedule for all drawings, plans, and documents prepared and reproduced under title I, except those which are reimbursable in conjunction with field surveys and sub-surface investigations; for all drawings, specifications, invitations for bid, and other related documents prepared and reproduced under title II, prior to approval of title II design by the ERDA, and for preparation of reproducible copies and furnishing 20 copies of such drawings and documents after approval by the ERDA; and for reproducible "as-built" record drawings and marked-up "as-built" specifications prepared under title III (including updated master linen tracings, or reproducible linen tracings from the master set, if so specified in the

contract). The provisions of the applicable Government Printing and Binding Regulations must also be observed.

(c) Where the contractor's responsible supervising representative, or an officer, proprietor, executive, or administrative head of the contractor participates directly in the performance of any of the services listed in paragraph (b)(1) through (3) of §9–16.703–50 of this chapter, Clause 15, he may be compensated for the time actually so engaged. The rate of compensation, including the allocation of home office expenses, if any, shall be subject to approval by the contracting officer and commensurate with the cost of employing another qualified person to do such work, but the salary portion should not exceed the actual salary rate of the individual concerned.

(d) The costs listed in paragraphs (a) and (c) of this section cover services that are normal to complete titles I, II, and III services. No profit should be included in the additional compensation for those services because the architect-engineer's profit for the service is included in the lump-sum amount determined from the fee schedule. In order to ensure adequate technical services, they may be paid for on an actual cost basis. However, if it is considered to be more advantageous to the Government, an additional lump sum should be negotiated to cover the costs. In the case of personal services such as inspectors, a daily rate may be negotiated. The calculation of the additional lump sum, or daily rate, should show clearly the amount allowed for each of the services or elements of cost.

(e) The services covered in paragraph (b)(4), (8), and (10) of §9–16.703–50 of this chapter, Clause 15, may be furnished by the ERDA instead of reimbursing the contractor for the expenses. The type of services that will be furnished should be stated in the contract.

(f) If services are furnished that are beyond titles I, II, and III, such as developmental work, special engineering studies, and the preparation of special documents such as operating and maintenance manuals, additional compensation, including profit, should be paid for such services. Note that preliminary proposals and construction completion reports normally are considered a part of titles I and III.

(g) Use of lump-sum contract:

(1) A lump-sum contract for architect-engineer services should be used wherever it is practicable to compile, in advance of the preparation of plans and specifications, adequate information specifically describing the character and extent of services required.

(2) When there is insufficient scope information available to permit contracting for complete services (titles I, II, and III) on a lump-sum basis, and when it may be to the advantage of the Government to do so, consideration should be given to contracting only for a study contract or for the preliminary engineering (title I), on either a reimbursable or lump-sum basis, in order to permit entering into a lump-sum contract for the remaining portion of architect-engineer services (titles II and III), based upon information developed in the first phase.

§9–3.404–51 Fixed-price contracts with provision for redetermination.

(a) This type of contract is a fixed-price contract with a special provision for redetermining the contract price upward or downward. It is used to obtain reasonable prices when substantial contingency charges otherwise would be included in a contract price due to such factors as prolonged delivery schedules, unstable market conditions for material or labor, lack of fully developed specifications, or uncertainty of cost of performance. Under this type of contract, the Government assumes the risk of certain contingencies which the contractor would otherwise include in its contract price, and the contract price is ultimately redetermined only to the extent that such contingencies actually occur. The assumption of a portion of the contract risk by the Government requires the negotiation of a lower rate of profit than would be the case when all risk was assumed by the contractor. An appropriate price redetermination article shall be used in fixed-price contracts in those instances where: (1) There are insufficient data to indicate reasonableness of price; (2) the estimate of the low offeror, or the only offeror, exceeds the independent Government estimate by an unreasonable amount; (3) it is necessary or

desirable to eliminate charges for contingencies from the price offered; or (4) there are other circumstances which require protection of the interests of the Government by use of a price redetermination provision. The length of the contract period is an important factor to be considered in determining whether to provide for price redetermination. As a general rule, the longer the contract period, the greater may be the need for price redetermination. Thus, in contracts running for a year or more, a price redetermination article may well be the most appropriate means of properly protecting the Government's interest. In instances where deliveries will be made over a period of 2 or more years, it is generally desirable to provide for price redetermination on an annual basis as a minimum requirement.

(b) The price redetermination article set forth in §9–7.5007–5 permits upward as well as downward redetermination. Under such circumstances, provision is made for setting a limit on the amount of any upward price revision by fixing a ceiling price for the contract. Where upward price redetermination is allowed, a ceiling price should be set in order to encourage the contractor to perform efficiently. The range of allowable upward price revisions from the contract or target price (which should contain substantially no allowance for contingencies) to the ceiling price should be a reasonable measure of the contingencies against which the contractor is being protected. Any costs allowed the contractor in price redetermination above the contract or target price should be without profit. An upward price revision of 10 percent of the target price is generally regarded as a reasonable limit and, except for unusual circumstances, 20 percent should be considered the maximum allowable limit.

(c) The profit margin included in the original contract price should be a reasonable measure of the risk being assumed by the contractor. Thus, where there is evidence of close pricing in the original contract price, subject to downward redetermination only, the contractor is deserving of a larger profit margin than would be the case where such contract price is known to include a substantial contingency allowance. Similarly, the greater the spread between the contract or target price and the ceiling price, the greater the extent to which, as a general rule, the Government is assuming contingent risks, and the lower the profit margin should be. Again, in a case where provision is made for a single price redetermination during the contract period, the later such redetermination is effected, the greater usually is the percentage that actual costs constitute of total costs, as redetermined, and consequently the lower the profit margin should be. Normally, the profit included in the original contract price is carried through price redetermination. However, if the contractor has performed an especially efficient and economical job, he should be rewarded with an increased profit margin, and, conversely, when this performance has been below reasonable standards, his profit margin should be reduced.

(d) Before agreeing to the use of a specific price redetermination article, the fact that the contractor has a cost accounting system of sufficient accuracy and reliability to allow the development of the cost information required by the provision of such article should be established. The price redetermination article provides for such examination and audit of the books, records, and accounts of the contractor as the contracting officer may deem necessary. The need and extent of such review of a contractor's accounting records is a matter of judgment to be determined in the light of such relevant factors as: (1) The nature and acceptability of cost and other data submitted by the contractor, (2) knowledge of the contractor's accounting policies and cost system, (3) reliability of the contractor's data on the basis of previous experience with the contractor, (4) any unusual circumstances which might affect the Government's interests, and (5) dollar amount of the contract.

(e) Ceiling or maximum prices must be established at figures which will provide an effective incentive for economical performance. Accordingly, the need for close estimating in establishing maximum prices cannot be overemphasized. Abnormally high "ceilings," "maximum prices" or "upset prices" have the potential disadvantages of cost-plus-a-percentage-of-cost contracting which must be avoided.

(f) In order to keep the maximum price closely related to the cost of work currently required under the contract, provision should be made for adjusting the initial maximum price in the event of subsequent changes in quantity, plans or specifications, delivery schedule, or other elements of the scope of the work.

(g) At the point agreed upon for redetermining the price, the firm price to be agreed upon may include an adjustment of the original profit. Such adjustment of profit is not to be based on a percentage of cost contractually established in advance, but should reflect a fair return to the contractor which takes into account his performance, cost reductions, degree of risk, or other incentive factors.

(h)(1) Multiple price redetermination, upward or downward, is accomplished by use of the article set forth in §9–7.5007–5 with both subparagraphs (1) and (2) of paragraph (a) of such article included. Subparagraph (1) provides for a negotiated upward or downward redetermination of unit prices upon completion of delivery of a specified percentage of the principal items called for by the contract. Thereafter, under subparagraph (2), there may be upward or downward revision of prices upon the written demand of either party, subject to specified limitations on the frequency of such demands. The initial (mandatory) price redetermination is retroactive to the start of the contract period as well as prospective in its application; any subsequent redeterminations have a prospective effect only. This form of price redetermination is especially suitable for a supply contract where the quantity under procurement is large, the delivery schedule calls for deliveries over a prolonged period (usually over a year), and an accurate forecast of production costs is not feasible.

(2) This article readily lends itself to modifications to meet the special needs of different situations where price redetermination, wholly or partly prospective in effect, is desirable. Thus, it might be considered desirable (or the contractor might insist) that price redeterminations be made at specified regular intervals, rather than at irregular intervals upon the demand of either party, after the initial price revision (in which event, subparagraph (2) of paragraph (a) should be reworded to specify the redetermination or target dates after the initial price redetermination); or that only one price redetermination upward or downward be made at a specified point in the contract period (in which event, subparagraph (2) of paragraph (a) should be omitted); or, further, that only one price redetermination downward only be made at a specified point in the contract period (in which event, subparagraph (2) of paragraph (a) should be omitted and the change noted in footnote 1 to the article should be made). Where provision is made for only one price revision during the contract period, such revision should be both retroactive and prospective in effect. In a case where only one or a limited number of price redeterminations will be allowed, care should be taken in setting the points of redetermination or target dates so that the contractor will have had sufficient production experience by each target date to develop actual cost information on the basis of which reasonable prices can be set for the next prospective period. For example, where provision is made for a single price redetermination, the target date should be so set that the contractor will be able to get through the starting-up period, when costs are usually high, and be able to operate for a few months at the maximum capacity called for by the delivery requirements of the contract, when costs should be typical of expected experience for the balance of the contract, before he will have to draw off his actual cost experience for price revision. A target date set at 40 to 50 percent of completion of deliveries is usually considered desirable under such circumstances.

(i) Single price redetermination downward only, wholly retroactive. This form of price redetermination is accomplished by omitting subparagraph (2) of paragraph (a) and making the changes noted in footnotes 2 and 5 to the article, thereby providing for a single, negotiated, downward redetermination, wholly retroactive, after completion or termination of the contract. The price redetermination article, so modified, is designed primarily for use in small to moderate-sized contracts (approximately $100,000 or less) for experimental or developmental items or services. However, it may also be used in contracts of similar size for the procurement of any item or service when it is not possible to determine reasonableness of price at the time of negotiation.

(j) Single price redetermination upward or downward, wholly retroactive. This form of price redetermination is accomplished by omitting subparagraph (2) of paragraph (a) and making the change noted in footnote 5 to the article, thereby providing for a single, negotiated, upward or downward redetermination, wholly retroactive, after completion or termination of the contract. The price redetermination article, so modified, is designed

for use in negotiated contracts for supplies or services, where the quantity under procurement may be either moderate or large, and where the contract period is not extended (usually less than a year) so that it is not feasible to attempt to redetermine the contract price during the period of the contract. Care should be taken to agree upon a contract or target price that will require the contractor to do an efficient job, and, since redetermination is wholly retroactive, it is essential that a limit be placed on any upward price revisions (normally an amount not in excess of 10 percent of the contract or target price).

§9–3.405–5 Cost-plus-a-fixed-fee contract.

(a) Applicability:

(1) General: While it is fundamental ERDA policy to use fixed-price contracts wherever feasible, it would generally be more appropriate to use a cost-plus-a-fixed-fee contract in the following circumstances:

(i) There is inadequate time to prepare, or other circumstances prevent the preparation of, plans and specifications that are sufficiently firm to provide assurance against an excessive number of change orders due to errors, discrepancies, omissions, and inadequate details. When the number of change orders increases, the advantages inherent in the fixed-price form of contracting tend to disappear.

(ii) The work involves developmental or experimental services of such a scope or duration as to make likely an excessive number of change orders or developmental or experimental services related to the work under the contract are being performed by another contractor at the same time.

(iii) The standards of performance (e.g., extremely high standards of cleanliness, purity, or quality control) are so much higher than normal industrial standards as to make it impracticable to prepare appropriate specifications clearly describing the standards required.

(b) The authority to determine under FPR 1–3.405–5(d)(1)(ix) that the application of the policy of limiting interim payments on cost reimbursement type contracts to 80 percent of costs incurred would impose undue hardship on the contractor or adversely affect the interests of the Government is delegated to Managers of Field Offices.

(c) Pursuant to section 602(d)(13) of the Federal Property and Administrative Services Act of 1949, as amended, the 10 and 6 per centum cost and fee restrictions on contracts for architect-engineer services are not applicable.

§9–3.406–1 Time and materials contract.

Particular care should be taken to apply material handling cost, if any, to the direct material cost and to exclude material handling costs from the overhead rate applied to direct labor. Although this type of contract provides for payment of a fixed price on a unit of time basis, it is evident that the total amount of profit under the contract is increased proportionately as the number of hours worked is increased. Therefore, it is desirable to limit the number of hours to which the rate including profit will be applicable and to reimburse the contractor at a rate which does not include profit for all hours worked in excess of such limit.

§9–3.408 Letter contract.

Letter contracts shall contain a provision obligating the parties to enter into a definitive contract within a specified time (preferably within 120 days) or, upon failure to do so, the Government's obligation shall be limited to reimbursement of the contractor's costs incurred under the terms of the letter contract through the termination date.

Subpart 9–3.6—Small Purchases

§9–3.600 Scope of subpart.

The policies and procedures for the purchase of supplies and nonpersonal services from commercial sources when the aggregate amount involved in any one transaction does not exceed $2,500 shall be those prescribed in FPR Sub-part 1–3.6. They are applicable only to ERDA direct procurement.

§9–3.603–1 Solicitation.

(a) [Reserved]

(b) Names of, and information pertaining to, small businesses and minority business enterprises furnished by bidders and Small Business Administration representatives, and obtained from Government-industry meetings and seminars, and company brochures, letters, and other data, shall be included in small purchase source lists or files, and used to insure that such firms are given opportunities to quote on ERDA's small purchases.

§9–3.603–2 Data to support small purchases.

The manner of securing quotations and the nature and extent of documentation to be required for small purchases are for determination by Heads of Divisions and Offices, Headquarters, and Managers of Field Offices, but should be limited to a minimum consistent with the objective of reducing the cost of handling small purchases. Normally, confirmation of purchase orders issued after the material has been received should not be required unless such confirmation is requested by the supplier. Documentation can be accomplished by the purchaser and receiver endorsing the invoice.

§9–3.604 [Reserved]

§9–3.605–1 Standard Form 44.

The use of Standard Form 44 is optional within the ERDA. Contracting and procurement officers shall be held accountable for books of Standard Form 44 issued to them. Heads of Divisions and Offices, Headquarters, and Managers of Field Offices shall issue detailed instructions, consistent with the provisions in Standard Form 44 and FPR 1–3.606–1, providing for accountability and safeguarding of the forms when used. Contracting and procurement officers, when using this form, will obtain any necessary obligation of funds and will limit procurement actions to items not otherwise restricted by law or regulation.

§9–3.605–2 Standard Forms 147 and 148.

The use of Standard Forms 147 and 148 is optional within the ERDA. When in the judgment of the Director, Division of Headquarters Services, or Managers of Field Offices the use of the forms will simplify the procurement process, they may authorize the use of the forms.

Subpart 9–3.8—Price Negotiation Policies and Techniques

§9–3.800 Scope.

(a) This subpart implements and supplements the price negotiation policies and techniques set forth in FPR Subpart 1–3.8.

(b) The policies and requirements for cost-type contractor procurement with respect to price negotiation policies and techniques covered by FPR 1–3.801 through .804 and .808 are set forth in Part 9–59 and §§9–3.808–50 and –51. These ERDA–PR provisions are consistent with the referenced FPR provisions and shall be applied to cost-type contractor procurement in lieu of such FPR provisions.

(c) The FPR provisions in 1–3.800, .805, .806, .807, and .809 through .814 contain requirements which apply to cost-type contractor procurement. These provisions, and the corresponding ERDA–PR's, apply to cost-type contractor procurement. For ERDA contracts covered by §9–3.807–3, the requirements of that section and of §9–3.814–50 shall be followed in lieu of FPR 1–3.807–3(a) and 1–3.814.

§9–3.801 Basic policy.

(a) Procurement by negotiation is less automatic and does not have the rigid limitation of formal advertising bid and award procedure; it requires, to a greater extent than formal advertising, the exercise of sound business judgment and increases the responsibility of the contracting officer for properly protecting the interests of the Government.

(b) The use of negotiation, as a method of procurement, does not relax the requirements for competition. Access authorizations shall not be a limiting factor in obtaining full and free competition except where time will not permit securing additional clearances. If access to classified information is required either (1) to submit proposals in response to ERDA requests for such proposals, (2) to respond to requests by ERDA for expressions of interest, (3) to inspect facilities in connection with subparagraph (1) or (2) of this paragraph, or (4) to attend preproposal or information conferences in connection with subparagraph (1) or (2) of this paragraph, a reasonable number of access authorizations will be furnished without charge.

(c) Renegotiation, as distinguished from original negotiation or price redetermination of a contract, is a statutory method for the elimination of excessive profits arising from contracts executed by certain designated agencies of the United States, and related subcontracts in connection with the national defense. Statutory renegotiation contemplates a review of all renegotiable income on the basis of the contractor's entire fiscal year rather than on a contract-by-contract basis. Thus, losses on some renegotiable contracts and subcontracts are offset against profits on other renegotiable business in arriving at net income subject to renegotiation. The existence of statutory renegotiation does not lessen the importance of negotiating contracts at fair prices. Renegotiation is not a substitute for careful pricing of a contract.

§9–3.802 Preparation for negotiation.

The contracting officer or his designee shall have sole responsibility for disseminating any additional information with respect to or clarification of requests for proposals. Such information or clarification shall be in writing, usually in the form of an amendment to the request for proposals and shall be furnished to all concerns to whom the original request was sent. Administrative and technical personnel shall not furnish any information to prospective contractors regarding any proposed procurement except through the contracting officer or his designee.

§9–3.802–1 Consideration of late proposals.

Pursuant to FPR 1–3.802–2, the procedures contained in FPR 1–3.802–1 for the consideration of late proposals and modifications are not applicable to negotiated procurements conducted by the ERDA. Instead, the alternative procedures contained in FPR 1–3.802–2 shall be applicable to all ERDA negotiated procurements, except procurements of general purpose automated data processing equipment (ADPE). Use of

the procedures set forth in FPR 1-3.802-2 for ADPE procurement must be expressly authorized by the Commissioner, Automated Data and Telecommunications Service, General Services Administration. Requests for such authorization should be sent to the Director of Procurement, ERDA Headquarters for necessary action.

§9-3.804 Conduct of negotiations.

(a) Contracting officers, to the extent considered practicable, should coordinate negotiations with other ERDA offices, which are negotiating or have negotiated recently with the same contractor at either the prime or subcontract level. Facts thus developed with respect to costs, technical know-how and other information can be of material value in consideration of the proposed transaction.

(b) Preliminary information as to prior contract actions, if any, and ERDA offices involved can generally be obtained from Headquarters. Inquiries in this regard should be addressed to the Director of Procurement, Energy Research and Development Administration, Washington, D.C. 20545.

§9-3.805 Selection of offerors for negotiation and award.

As indicated in FPR 1-3.805-1, the procedures set forth in paragraphs (a), (b), (c), and (d) of FPR 1-3.805-1 may not be applicable in certain cases. See Part 9-56 for specific instructions to be followed for selection of contractors by board process.

§9-3.805-50 Negotiation of architect-engineer and cost-plus-a-fixed-fee contracts.

(a) *Exchange of information.* Prior to entering into negotiations for a CPFF contract or a lump-sum contract for architect-engineer services, essential information should be exchanged between the ERDA and the contractor. The contractor should be given an opportunity to acquaint himself, if he has not already done so during the selection process, with the details of the proposed project, including the following to the extent possible: location, type of construction, numbers and classes of structures, functional purpose of structures, extent and character of services involved, time allowed for design and construction, and the estimate of cost of the project. He should also be given an opportunity to review the form of contract, to learn the security requirements under which he will be operating, and to familiarize himself with the practices and procedures followed by the ERDA in administering contracts. Any ERDA contract forms to be used by the contractor should be furnished to him. The ERDA's policy and practices on wage and salary administration should also be explained. In turn, the contractor should furnish information to the ERDA's representatives as to the organization to be used on the work; present and proposed salaries and other items necessary for the preparation of the personnel appendix to the contract; information as to contractor-owned construction plant to be utilized on the work, showing its purchase price and present value; work to be subcontracted; work to be performed in the central or branch offices (if any); and other similar information in order that the contract may be properly prepared and administered. If a discussion between the ERDA and a prospective contractor involves classified information, care shall be taken to assure that the contractor's representatives have appropriate security clearances.

(b) *Conclusion of negotiations.* Negotiations relative to contract and fee shall be concluded as early as possible. When the information required by paragraph (a) of this section has been obtained, reviewed, and revised to the extent necessary, and mutually acceptable terms of contract, estimate of cost, and estimate of time of performance have been agreed to, the fixed fee should be negotiated. Except as indicated in §9-3.408(b), negotiations relative to the fee shall be successfully concluded prior to making commitment on final selection. A complete record shall be maintained of all matters agreed to during negotiations. Should it be evident in the course of negotiations that no hope exists for a meeting of the minds within the previously determined maximum allowable (ceiling) fee, then consideration should be given to terminating negotiations and entering into a similar action with the next best qualified contractor. On conclusion of the foregoing steps, the formal contract should be prepared and executed by the parties, subject to

the limitations in delegated authority and ERDA requirements for Headquarters consideration of contract actions.

§9-3.807-1 [Reserved]

§9-3.807-3 Requirements for cost or pricing data.

(a) The requirements of FPR 1-3.807-3(a) need not be applied to cost-type operating contracts; onsite service contracts of a continuing nature; cost and cost-sharing contracts under which the contractor receives no fee; contracts with educational institutions; or architect-engineer contracts where lump-sum or CPFF fees are based on estimates of construction costs. They are applicable when the architect-engineer fee is based on the estimated cost of the architect-engineer's services.

(b) Managers of Field Offices shall take the necessary steps to assure Subpart 9-3.8 and FPR Subpart 1-3.8 are followed with respect to procurements under (1) cost and cost-sharing contracts under which the contractor receives no fee, cost-type contracts with educational institutions, and cost-type architect-engineer and construction contracts, where the estimated cost of procurement activities under such contracts exceeds $100,000 annually; and (2) to cost-type operating contracts and onsite service contracts of a continuing nature. Contracts subject to this paragraph shall include paragraph (a) (or equivalent language) and paragraph (b) of the "Contractor procurement" clause in §9-7.5006-29 with respect to the contractor's obligation for requiring subcontractoes to furnish cost or pricing data, and for including the article in §9-3.814-50 in subcontracts as required by that ERDA-PR.

§9-3.807-11 Overhead rate considerations.

Part 9-15 shall be applied in overhead rate considerations.

§9-3.807-12 Sole source items.

See §9-3.807-54, *Price warranties.*

§9-3.807-52 Approvals and waiver.

(a) Managers of Field Offices, for contracts estimated to be within the limits of their delegation of authority, may, without power of redelegation, approve the findings required by FPR 1-3.807-1(b)(1)(ii)(C) and 1-3.807-3(f)(1).

(b) Managers of Field Offices, for contracts estimated to be within the limits of their delegation of authority, may, without power of redelegation, waive the requirements for cost or pricing data under the circumstances set forth in FPR 1-3.807-3(b), 1-3.807-3(d)(2) and 1-3.807-6 provided that any such waivers are promptly reported to the Headquarters Division of Procurement for its information and coordination with the Office of the Controller and other Headquarters staff.

§9-3.807-53 Development of special items.

If a negotiated fixed-price or cost-type contract or subcontract involves the development of special items and may reasonably be expected to lead to subsequent production orders, the initial contract or subcontract shall include a provision whereby the vendor agrees to accept, when requested, subsequent production orders under either a cost-plus-a-fixed-fee contract or subcontract with ERDA cost-reimbursement principles and fee limitations or a fixed-price contract providing for price redetermination. In addition, the initial contract or subcontract shall include a provision whereby the ERDA shall have access to and the right to examine any directly pertinent books, documents, papers, and records related to the contract or subcontract for the purpose of determining actual cost experience under the initial contract or subcontract.

§9-3.807-54 Price warranties.

(a) Price warranty provisions, such as "best user," "most favored customer," or similar provisions, should not be used when the contracting officer can satisfy himself through the normal process of competition or cost and price analysis that a proposed contract price is reasonable. Such price warranty provisions shall not be used as a substitute for obtaining adequate competition or for performing price or cost analysis. Ordinarily, the most likely circumstances where it would be in the ERDA's interest to require price warranties would be similar to those currently set forth in FPR 1-3.807-12, *Sole-source items.*

(b) Where price warranties are used, an appropriate price warranty provision should be included in the terms and conditions of the contract. Additionally, the contract should include the following clause with respect to the ERDA's right to examine the record of the contractor:

The contracting officer or his authorized representative shall have the right to examine the records of the contractor as necessary to assure that the prices charged the Government for the items under this contract do not exceed those charged by the contractor to any other customer purchasing the same items in like or comparable quantities.

§9-3.808 Pricing techniques.

§9-3.808-50 Negotiating profit and fees.

(a) There are no precise or conclusive rules for determining the amount of profit or fixed fee allowable. Cost alone is not a true measure in the determination of a reasonable profit or fixed fee. Generally, profit or fixed fee is strongly influenced by the amount of risk involved. Determination of a fair and reasonable profit or fee, however, is a matter of judgment, based on consideration of all factors which affect performance of the contract. Among these factors for furnishing supplies or services are (1) the degree of skill required; (2) the length of contract performance; (3) the reliability, competence, and cooperation of the contractor; (4) the extent to which the contractor will benefit as a result of experience gained in the performance of the contract; (5) the degree of close pricing; (6) the amount of contractor capital to be employed; (7) the extent to which facilities or financial assistance are to be furnished by the Government; (8) complexity of the supplies or services to be furnished and the extent of subcontracting; (9) current market conditions affecting contract costs; and (10) the amount of profit which the contractor normally earns on similar items or services.

(b) Profit or fee allowances shall be determined separately for each contract. "Across-the-board" agreements with contractors as to rates of profits or fees shall not be made. The determination of a fair and reasonable profit or fee is a matter of sound business judgment.

§9-3.808-51 Limitation on profits and fees.

(a) Fee negotiation for cost-plus-a-fixed-fee contracts and lump-sum architect-engineer contracts shall be based upon the scope and character of the work to be performed by the contractor, shall be fair and reasonable, and shall not exceed amounts prescribed by law or direction of the Administrator or his designee.

(b) Fixed fees for cost-type contracts for community management and for transportation system operation have been subject to statutory limitations contained in past appropriation acts. The maximum fees for contracts in these categories in future fiscal years shall conform to the applicable statutory limitations.

(c) The profit included in hourly rates for time and material contracts should be held to a reasonable level. Except as provided in FPR 1-3.406-1(d), no profit shall be allowed on materials. Time and material contracts providing for a profit in excess of 10 percent of the estimated cost exclusive of material cost shall be submitted to Managers of Field Offices concerned for approval. These limitations are consistent with the normal risk attached to this method of contracting.

§9-3.809 Contract audit as a pricing aid.

The waiver of preaward audit review provided for in FPR 1-3.809 may be made only by the Manager of the Field Office.

§9-3.814-2 Audit and records.

The clause in §9-7.5006-1 shall be used for any negotiated contract which includes a "defective cost or pricing data" clause, except for a firm fixed-price contract or a fixed-price contract with escalation.

§9-3.814-50 Subcontractor cost or pricing data clause.

(a) The following clause shall be inserted in all subcontracts under the prime contracts referred to in §9-3.807-3 (b), where such subcontracts are over $100,000, and in all modifications over $100,000 to such subcontracts even though the original amount of the subcontract is $100,000 or less:

CERTIFIED COST OR PRICING DATA

(a) (1) The subcontractor shall require under the situations described in (2) below, unless exempted under the exceptions set forth in (3) below, each sub-subcontractor under this subcontract to submit cost or pricing data and to certify that, to the best of his knowledge and belief, such cost or pricing data are accurate, complete, and current.

(2) Except as provided in (3) below, certified cost or pricing data shall be submitted prior to (i) the award of each sub-subcontract, the price of which is expected to exceed $100,000, and (ii) the negotiation of the price of each change or modification to a sub-subcontract under this subcontract for which the price adjustment is expected to exceed $100,000.

(3) Certified cost or pricing data need not be furnished pursuant to this paragraph (a) where (i) the subcontractor has not been required to furnish cost or pricing data; or (ii) the price or price adjustment is based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or the prices are set by law or regulation; and the subcontractor states in writing the basis for applying this exception.

(4) In submitting the cost or pricing data, the sub-subcontractor shall use the form of certificate set forth in paragraph (b) below and shall certify that the data are accurate, complete, and current. Such certificate and data (actual or identified, as provided in the certificate prescribed below) shall be submitted by sub-subcontractors to the next higher-tier sub-subcontractor, or the subcontractor, as applicable, for retention.

(b) The certificates required by this clause shall be in the form set forth below.

SUBCONTRACTOR'S CERTIFICATE OF CURRENT COST OR PRICING DATA

This is to certify that, to the best of my knowledge and belief, cost or pricing data[1] submitted in writing, or specifically identified in writing if actual submission of the data is impracticable (see FPR 1-3.807-3(b) (2)), to the prime contractor in support of ——————————[2] are accurate, complete, and current as of ——————————[3]

(Date)

Firm ——————————

Name ——————————

Title ——————————

——————————[4]

(Date of execution)

[1]For definition of "cost or pricing data," see FPR 1-3.807-3.

[2]Describe the proposal, quotation, request for price adjustments, or other submission involved, giving appropriate identifying number (e.g., RFP No. ——————).

[3]This date shall be the date when the price negotiations were concluded and the subcontract price was agreed to. The responsibility of the subcontractor is not limited by the personal knowledge of the subcontractor's negotiator if the subcontractor had information reasonably available (see FPR 1-3.807-5(a)) at the time of agreement, showing that the negotiated price is not based on accurate, complete, and current data.

[4]This date should be as close as practicable to the date when the price negotiations were concluded and the subcontract price was agreed upon.

(c) For purposes of verifying that certified cost or pricing data submitted in conjunction with the negotiation of this subcontract or any subcontract change or other modification involving an amount in excess of $100,000 were accurate, complete, and current, the ERDA shall, until the expiration of 3 years from the date of final payment under this subcontract, have the right to examine those books, records, documents, papers, and other supporting data which involve transactions re-

lated to this subcontract or which will permit adequate evaluation of the cost or pricing data submitted, along with the computations and projections used therein.

(d) Whenever the price of any change or other modification to this subcontract is expected to exceed $100,000, the subcontractor agrees to furnish the Contractor certified cost or pricing data, using the certificate set forth in paragraph (b) above, unless the price is based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation.

(e) The requirement for submission of certified cost or pricing data with respect to any change or other modification does not apply to any sub-subcontract change or other modification, at any tier, where the subcontract is firm fixed-price or fixed-price with escalation unless such change or other modification results from a change or other modification to the subcontract, nor does it apply to a sub-subcontract change or modification, at any tier, where the subcontract is not firm fixed-price or fixed-price with escalation, unless the price for such change or other modification becomes reimbursable under the subcontract.

(f) The subcontractor agrees to insert paragraph (c) without change[3] and the substance of paragraphs (a), (b), (d), (e), and (f) of this clause in each sub-subcontract hereunder in excess of $100,000 and in each sub-subcontract of $100,000 or less at the time of making a change or other modification thereto in excess of $100,000.

(g) If the prime contractor determines that any price, including profit or fee, negotiated in connection with this subcontract or any cost reimbursable under this subcontract was increased by any significant sums because the subcontractor, or any sub-subcontractor pursuant to this clause or any sub-subcontract clause herein required, furnished incomplete or inaccurate cost or pricing data or data not current as certified in the subcontractor's certificate of current cost or pricing data, then such price or cost shall be reduced accordingly and the contract shall be modified in writing to reflect such reduction.

(h) Failure of the contractor and the subcontractor to agree on any of the matters in paragraph (g) above shall be a dispute concerning a question of fact within the meaning of the disputes clause of this subcontract.

NOTE: Since the subcontract is subject to reduction under this clause by reason of defective cost or pricing data submitted in connection with certain sub-subcontracts, it is expected that the subcontractor may wish to include a clause in each such sub-subcontract requiring the sub-subcontractor to appropriately indemnify the subcontractor. It is also expected that any sub-subcontractor subject to such indemnification will generally require substantially similar indemnification for defective cost or pricing data required to be submitted by his lower-tier sub-subcontractors.

(b) This clause may also be used for subcontracts of $100,000 or less for which a certificate of cost or pricing data is obtained in accordance with FPR 1-3.807-3(g); and, if so used, the $100,000 amount stated in the clause should be appropriately modified.

§9-3.814-52 Approvals and waiver.

Managers of Field Offices, for contracts estimated to be within the limits of their delegation of authority, may, without the power of redelegation, approve the waivers cited in FPR 1-3.814-1 (c) and 1-3.814-3(c) provided that any such waivers are promptly reported to the Headquarters Division of Procurement for its information and coordination with the Office of the Controller and other Headquarters staff.

[3]The words "subcontractor" and "sub-subcontractor" may, however, be changed to describe the contractual relationship in lower-tier subcontracts.

Subpart 9-3.9—Subcontracting Policies and Procedures

§9-3.901 General.

(a) ERDA policies and requirements for review and approval of cost-type contractor procurement are set forth or are listed in Part 9-59. The policies and requirements of that part are consistent with FPR 1-3.902 and 1-3.903 and shall be applied in the review and approval of cost-type contractor procurement systems and subcontracts for supplies and services in lieu of such FPR's, except that 1-3.902, "Make-or-buy" programs, applies where the contract clause in 1-3.902-3 is incorporated in the prime contract.

(b) Pursuant to section 602(d)(13) of the Federal Property and Administrative Services Act of 1949, as amended, the limitations in section 304(b) of that Act concerning advance notification of cost-plus-a-fixed-fee subcontracts (provided such subcontracts do not exceed an estimated cost of $500) and fixed-price subcontracts over $25,000 or 5 per centum of the total estimated cost of the prime contracts are not applicable, provided the prime contractor's procurement methods and system have been reviewed and approved in accordance with Part 9-59. See Subpart 9-51.2 for policy on subcontracts which require prior approval by ERDA.

9–4.5301 Contract, lease or agreement.

Subpart 9–4.54—Contracts and Subcontracts Utilizing Special Nuclear Material

9–4.5400 Scope of subpart.
9–4.5401 Use of lease agreement.
9–4.5402 Contract article covering special nuclear material.

Sec.
9–4.5403 Invitations for bids and requests for proposals.
9–4.5404 Contracts and subcontracts for fabrication, conversion, and scrap recovery.

Subpart 9–4.55—Multiyear Procurement

9–4.5500 Scope of subpart.
9–4.5501 Policy.
9–4.5502 Criteria for use in multiyear procurement.
9–4.5503 Exceptions.
9–4.5504 Procedure to be followed in multiyear procurements.
9–4.5505 Special clauses for use in multiyear contracts.

Subpart 9–4.56—Cost Sharing

9–4.5600 Scope of subpart.
9–4.5601 Policy.
9–4.5602 Application.
9–4.5603 Amount of cost sharing.
9–4.5604 Records.

§9–4.000 Scope of part.

This part implements and supplements the policies and procedures set forth in FPR Part 1–4.

Subpart 9–4.4—Public Utilities

§9–4.400 Scope of subpart.

This subpart implements and supplements FPR Subpart 1–4.4, Public Utilities, which prescribes policies and procedures for the economic and efficient procurement of public utility services by executive agencies.

§9–4.401 Definitions.

As used in this Subpart 9–4.4, "utility services" include all utility services (except telecommunications services), such as electricity, gas, steam, water, and sewerage, including facilities on both sides of the delivery point for the supply of such services.

§9–4.402 Applicability.

(a) The provisions of this subpart apply to the procurement by the ERDA of utility services, including the modification and extension of existing utility contracts.

(b) The requirements of FPR 1–4.4 and this subpart shall be applied to cost-type contractors that manage and operate Government-owned facilities for ERDA when such contractors are authorized pursuant to §9–4.406(b) to procure utility services.

§9–4.406 Policy.

(a) All utility services that are required for Government-owned and contractor-operated facilities shall be procured directly by the ERDA and not by the cost-type contractors that manage and operate these facilities for the ERDA.

(b) However, when it is economically advantageous or otherwise in the best interest of the Government, and subject to the provisions of §9–4.411(b), Managers of Field Offices may authorize a cost-type contractor that manages and operates an ERDA facility to procure utility services on a subcontract basis. When a manager does authorize an operating contractor to subcontract for utility services, under the authority of this paragraph (b), a copy of the authorization, together with a statement of justification, should be sent to the Director, Division of Construction, Headquarters, for informational purposes. Managers of Field Offices shall require cost-type contractors which they authorize to subcontract for utility services to comply with the requirements of §9–4.411, dealing with the prior review of certain proposed procurements.

§9–4.411 Prior review of certain proposed procurements.

(a) In accordance with the provisions of FPR 1–4.411–3, GSA has authorized ERDA to accomplish its own prior review of the proposed utility procurements specified in FPR 1–4.411–1(a). FPR 1–4.411–4 requires that this prior review be conducted in accordance with the guidelines set forth therein.

(b) Managers of Field Offices shall submit for headquarters review and approval, proposed contracts for utility services, including proposed authorizations under applicable GSA area-wide contracts, and proposed memorandums of understanding for consolidated purchase, joint use, or cross-service by the ERDA with other government agencies, when one or more of the following circumstances applies:

(1) The annual cost of the service to be procured is estimated to exceed $50,000;

(2) A proposed connection charge, termination liability, or any other facilities charge (whether or not refundable) is estimated to exceed a total of $5,000; or

(3) The proposed term of the contract or agreement is in excess of 1 year.

Subpart 9–4.6—Livestock Products

§9–4.601 General.

The requirements of FPR Subpart 1–4.6 apply to cost-type contractor procurement.

Subpart 9-4.50—Indemnification of ERDA Contractors

§9-4.5000 Scope of subpart.

This subpart describes the established policies of the Energy Research and Development Administration concerning (a) indemnification of ERDA contractors against public liability for a nuclear incident arising out of or in connection with the contract activity and (b) indemnification of ERDA contractors against liability for nonnuclear risks arising out of or in connection with the contract activity.

§9-4.5001 Applicability.

(a) With respect to indemnification against public liability for a nuclear incident the pertinent policies and procedures set forth in this subpart shall be applicable in entering into indemnity agreements with:

(1) ERDA contractors engaged in the operation of production or utilization facilities,

(2) ERDA contractors whose work entails the risk of public liability for a substantial nuclear incident.

(b) With respect to indemnification against liability for nonnuclear risks, the pertinent policies and procedures set forth in this subpart shall be applicable in entering into indemnity agreements with any ERDA contractors.

§9-4.5002 Definitions.

(a) The term "ERDA contractor" means any ERDA prime contractor, including any agency of the Federal Government with which ERDA has entered into an inter-agency agreement.

(b) The term "construction contractor" means an ERDA contractor who is constructing an installation for ERDA which, when completed, will be a production or utilization facility.

(c) The term "nuclear incident" means (1) any occurrence within the United States causing, within or outside the United States, bodily injury, sickness, disease, or death, or loss of or damage to property, or loss of use of property, arising out of or resulting from the radioactive, toxic, explosive, or other hazardous properties of source, special nuclear, or byproduct material, and (2) any such occurrence outside the United States if such occurrence involves a facility or device owned by, and used by or under contract with, the United States.

(d) The term "person indemnified" means (1) with respect to a nuclear incident occurring within the United States, the person with whom an indemnity agreement is executed and any other person who may be liable for public liability; or (2) with respect to any nuclear incident occurring outside the United States, the person with whom an indemnity agreement is executed and any other person who may be liable for public liability by reason of his activities under any contract with the ERDA or any project to which indemnification under the provisions of section 170d. of the Atomic Energy Act of 1954, as amended, has been extended or under any subcontract, purchase order or other agreement, of any tier, under any such contract or project.

(e) The term "production facility" means:

(1) Any nuclear reactor designed or used primarily for the formation of plutonium or uranium 233; or

(2) Any facility designed or used for the separation of the isotopes of uranium or the isotopes of plutonium, except laboratory scale facilities designed or used for experimental or analytical purposes only; or

(3) Any facility designed or used for the processing of irradiated materials containing special nuclear material, except laboratory scale facilities designed or used for experimental or analytical purposes only.

(f) The term "public liability" means any legal liability (including liability for loss of, or damage to, or loss of use of property which is located at the site of and used in connection with the contract activity) arising out of or resulting from a nuclear incident, ex-

cept: (1) Claims under State or Federal workmen's compensation acts of employees of persons indemnified who are employed at the site of and in connection with the activity where the nuclear incident occurs and (2) claims arising out of an act of war. "Public liability" also includes damage to property of persons indemnified: Provided, That such property is covered under the terms of any financial protection that may be required, except property which is located at the site of and used in connection with the activity where the nuclear incident occurs.

(g) The term "substantial nuclear incident"—see §9–4.5005.

(h) The term "utilization facility" means any nuclear reactor other than one designed or used primarily for the formation of plutonium or U^{233}.

(i) The term "nuclear reactor" means an apparatus, other than an atomic weapon, designed or used to sustain nuclear fission in a self-supporting chain reaction.

§9–4.5003 Statutory indemnity—section 170d of the Atomic Energy Act of 1954, as amended.

Section 170d of the Atomic Energy Act of 1954, as amended, authorizes the AEC (now ERDA) "to enter into agreements of indemnification with its contractors for the construction or operation of production or utilization facilities or other activities under contracts for the benefit of the United States involving activities under the risk of public liability for a substantial nuclear incident." Contractors identified in §9–4.5001(a) are eligible for such statutory indemnity.

§9–4.5004 Authority of Managers of Field Offices to negotiate statutory indemnity agreements.

(a) Managers of Field Offices are authorized to negotiate statutory indemnity agreements with contractors identified in §9–4.5001(a)(1).

(b) Pursuant to §9–4.5005, Managers of Field Offices are authorized to enter into a statutory indemnity agreement whenever it has been determined that a contractor in subparagraph (2) of §9–4.5001(a) is engaged in activities involving the risk of public liability for a substantial nuclear incident. Such a determination may be based upon either the risk of liability for the occurrence of a substantial nuclear incident in the course of performance of the contract work or the risk of liability for a substantial nuclear incident caused by a product delivered to or for ERDA under the contract where such product is expected to be used in connection with a facility or device not covered by a statutory indemnity agreement. If, pursuant to §9–4.5005, a Manager of a Field Office determines that the maximum conceivable damage which could result from a nuclear incident arising in the course of a contractor's activities falls between $1 million and $60 million, he shall submit the proposed indemnification with a recommendation, and all supporting data, to the Administrator or his designee for appropriate action.

§9–4.5005 Substantial nuclear incident.

With respect to subparagraph (2) of §9–4.5001(a), and pursuant to the provisions of §9–4.5004, a Manager of a Field Office may be required to determine whether a contractor's activities involve the risk of public liability for a substantial nuclear incident and thus make the contractor eligible to obtain a statutory indemnity agreement from the ERDA. The determination by a Manager of a Field Office shall be based on the following criteria:

If, after a study of the maximum conceivable damage which can result from an incident arising out of or in connection with the contractor's activities, the Manager of a Field Office concludes that the maximum conceivable damage per incident to property and persons is $60 million or more; then the contractor may be found to be under a risk of public liability for a substantial nuclear incident and the Manager of a Field Office is authorized to execute a statutory indemnity agreement under such a contract. If such a study of the maximum conceivable damage indicates a figure of $1 million or less, the contractor should not be considered to have a risk of public liability for a substantial nuclear incident and, therefore, should not be made a party to a statutory indemnity agreement. If the study indicates that the maximum conceivable damage falls between $1 million and $60 million, the Manager of a Field Office will submit the proposed indemnification of such contractor to the Administrator or his designee with a recommendation and all supporting data.

The Administrator or his designee on such a recommendation, may take one of the following actions:

(a) Determine that the contractor is under risk of public liability for a substantial nuclear incident and that the contractor should be extended a statutory indemnity agreement.

(b) Determine that the contractor should not be extended a statutory indemnity. In this case the Administrator or his designee may authorize the Manager of a Field Office to authorize the contractor to purchase nuclear liability insurance or to offer the contractor a general authority indemnity agreement.

§9–4.5006 Statutory indemnity contract article.

The contract article contained in §9–7.5004–24 shall be incorporated in all contracts in which a statutory indemnity agreement is to be included upon a determination that the contractor is under risk of public liability for the occurrence of a substantial nuclear incident in the course of performance of the contract work. The contract article contained in §9–7.5004–25 shall be incorporated in all contracts in which a statutory indemnity agreement is to be included upon a determination that the contractor is under risk of public liability only for a substantial nuclear incident caused by a product delivered to or for ERDA under the contract where such product is expected to be used in connection with a facility or device not covered by a statutory indemnity agreement.

§9–4.5007 Contractual assurance.

Managers of Field Offices are authorized to include in all contracts for:

(a) Architect-engineer services in connection with the construction of a production or utilization facility;

(b) The supply of component parts (including construction contracts where the work does not entail the risk of occurrence of a substantial nuclear incident) for a production or utilization facility; and

(c) The supply of equipment or services which would be a part of, or contribute to, or be used in connection with the construction or operation of a production or utilization facility, assurances that the ERDA will enter into a statutory indemnity agreement with the contractor who will operate a facility on its completion. Assurances will be given, however, only to those contractors and suppliers who might be held liable in connection with a substantial nuclear incident occurring after completion of the facility. The form of contractual assurance which shall be utilized is contained in §9–7.5004–26.

§9–4.5008 "Representation" for use in subcontracts and purchase orders of prime contractor holding statutory indemnity agreement.

An ERDA contractor with whom a statutory indemnity agreement has been executed in the form contained in §9–7.5004–24 may include in any of its subcontracts and purchase orders a representation that the work under the prime contract is covered by a statutory indemnity agreement with the ERDA and that this indemnity covers all persons who may be liable for public liability for any nuclear incident arising out of or in connection with the activity under the prime contract. A suggested form of "representation" follows:

The Contractor represents that there is included in its prime contract with the ERDA an indemnity agreement, entered into by the ERDA under the authority of Section 170 of the Atomic Energy Act of 1954, as amended by Public Law 85–256 (the "Price-Anderson Act"), a copy of which may be obtained from the Contractor [is attached hereto]; that, under said agreement, the ERDA has agreed to indemnify the Contractor and other persons indemnified, including the subcontractor, against claims for public liability (as defined in said Act) arising out of or in connection with the contractual activity; that the indemnity applies to covered nuclear incidents which (i) take place at a "contract location" (which term, as defined in the indemnity agreement, does not include the location of the subcontractor's plant and facilities); or (ii) arise out of or in the course of transportation of source, special nuclear or by-product material to or from a "contract location"; or (iii) involve items produced or delivered under the prime contract. The obligation of the ERDA to indemnify is subject to the conditions stated in the indemnity agreement.

The ERDA will not approve the inclusion, in the subcontracts and purchase orders of an indemnified prime contractor, of any provision whereby the prime contractor indemnifies

the subcontractor or supplier against public liability for a nuclear incident since any such liability will be covered by the statutory indemnity agreement of the prime contractor.

§9-4.5009 Fees.

No fee will be charged an ERDA contractor for a statutory indemnity agreement.

§9-4.5010 Financial protection requirements.

(a) ERDA contractors with whom statutory indemnity agreements under the authority of section 170d of the Act are executed will not normally be required or permitted to furnish financial protection by purchase of insurance to cover public liability for nuclear incidents, except (1) that ERDA contractors now covered by insurance against such liability, with the approval of the ERDA may continue to carry such insurance, and (2) with the approval of the Controller, contractors engaged in the operation of ERDA facilities may be required or permitted to furnish financial protection in an amount not to exceed $1 million.

(b) If nuclear liability insurance is carried by a contractor who is an ERDA licensee, the ERDA will pay an equitable portion of the insurance premium under its contract (or would include such an item in the calculation of a fixed price), but normally a statutory indemnity agreement would not be granted under the contract.

§9-4.5011 General contract authority indemnity.

(a) The ERDA has general contract authority to enter into indemnity agreements with its contractors. Under such authority a certain measure of protection is extended to the ERDA contractor against risk of liability, but the assumption of liability by the ERDA will be expressly subject to the availability of appropriated funds. Prior to enactment of section 170 of the Atomic Energy Act of 1954, as amended, this authority was exercised in a number of AEC contracts and this type of indemnification remains in some AEC (now ERDA) contracts.

(b) It is the policy of the ERDA, subsequent to the enactment of section 170, to restrict indemnity agreements with ERDA contractors, with respect to protection against public liability for a nuclear incident, to the statutory indemnity provided under section 170. However, it is recognized that circumstances may exist under which an ERDA contractor may be exposed to a risk of public liability for a nuclear occurrence which would not be covered by the statutory indemnity.

(c) While it is normally ERDA policy to require its contractors to obtain insurance coverage against public liability for nonnuclear risks, there may be circumstances in which a contractual indemnity may be warranted to protect an ERDA contractor against liability for uninsured nonnuclear risks.

(d) If circumstances as mentioned in paragraph (b) or (c) of this section do arise, it shall be the responsibility of the Managers of a Field Office to submit to the Administrator or his designee for his review and decision all pertinent information concerning the need for or desirability of providing a general authority indemnity to an ERDA contractor.

(e) Where the indemnified risk is nonnuclear, the amount of general authority indemnity extended to a fixed-price contractor should normally have a maximum obligation equivalent to the amount of insurance that the contractor usually carries to cover such risks in his other commercial operations or, if the risk involved is dissimilar to those normally encountered by the contractor, the amount that he otherwise would have reasonably procured to insure this contract risk.

(f) In the event that an ERDA contractor has been extended both a statutory indemnity and a general authority indemnity, the general authority indemnity will not apply to the extent that the statutory indemnity applies.

(g) The provisions of this subsection do not restrict or affect the policy of the ERDA to reimburse its cost-type contractors for the allowable cost of losses and expenses incurred in the performance of the contract work, within the maximum amount of the contract obligation. See §§9-7.5006-9, 9-7.5006-10, and 9-7.5006-12.

Subpart 9-4.51—Research Agreements and Contracts With Educational Institutions

§9-4.5100 Scope of subpart.

This subpart sets forth policies and procedures applicable to the negotiation and administration of Washington-designated special research support agreements and cost-type contracts for off-site basic research with educational institutions. To the extent applicable, these policies and procedures should also be followed for Washington-designated contracts for off-site applied research with educational institutions, for Field Office contracts for off-site research with educational institutions, for basic or applied research with other "not-for-profit" institutions, and for educational and training activities with educational or other "not-for-profit" institutions. The policy of ERDA reimbursing only ERDA's share of actual costs up to a ceiling should be reflected in all ERDA contracts with educational institutions.

§9-4.5101 Definitions.

(a) The term "Washington-designated contract" as used hereafter in this subpart means a special research support agreement or a cost-type contract which results from an authorization to an ERDA field office from an ERDA headquarters division or office to enter into or continue such a contract on the basis of an approved research proposal.

(b) The term "contractor" means the educational or not-for-profit institution which enters into an agreement or contract with the Energy Research and Development Administration for the performance of specified research.

(c) The term "research proposal" means a request by an institution for ERDA support of a research project, together with a detailed description of the project and its relationship to the ERDA's program, and detailed information as to background and experience of principal investigators, facilities, and environment of the institution, and cost and cost-sharing arrangements, if any.

§9-4.5102 General.

The Energy Research and Development Administration by statute is permitted to participate in research programs that are related to atomic energy and in programs related to other forms of energy.

§9-4.5103 Research program objectives.

(a) Under section 31a of the Atomic Energy Act of 1954, the AEC (now ERDA) is directed to exercise its powers in such manner as to insure the continued conduct of research and training activities and to assist in the acquisition of an ever-expanding fund of theoretical and practical knowledge in the following fields:

(1) Nuclear processes;

(2) The theory and production of atomic energy, including processes, materials, and devices related to such production;

(3) Utilization of special nuclear material and radioactive material for medical, biological, agricultural, health, or military purposes;

(4) Utilization of special nuclear materials, atomic energy, and radioactive material, and processes entailed in the utilization or production of atomic energy or such material for all other purposes, including industrial and commercial uses, the generation of usable energy and the demonstration of advances in the commercial or industrial application of atomic energy;

(5) The protection of health and the promotion of safety during research and production activities;

(6) The preservation and enhancement of a viable environment by developing more efficient methods to meet the nation's energy needs.

§9–4.5104 Contract objectives.

(a) Washington-designated research contracts are entered into by negotiation (as distinguished from formal advertising) under the authority of section 31c of the Atomic Energy Act of 1954 and section 302(c)(5) of the Federal Property and Administrative Services Act of 1949. In planning, negotiating, and administering such contracts, the objectives of ERDA are to:

(1) Assure a continuing flow of new knowledge in fields related to the responsibilities of the ERDA;

(2) Respect the traditions of the contracting institution and encourage the quest for new knowledge without restrictions on scientific initiative, to the extent compatible with the laws and the protection of the public interest;

(3) Provide reasonable levels of support which will increase the national capability in energy fields and enable the contracting institution to strengthen its research programs in areas of interest to ERDA;

(4) Maintain effective contact with the scientific community so that:

(i) Scientists and students will be encouraged to expand their interests in fields of importance to the ERDA program;

(ii) The scientific strength of the country can be brought to bear more effectively on ERDA problems;

(iii) The ERDA will be continuously aware of developments of value to its activities in the academic communities; and

(iv) An adequate supply of suitably trained scientists will be available for employment within the atomic energy program.

(b) The contractor is responsible for conducting the research and is expected to carry out the project or projects in a manner consistent with agreed-upon contract objectives and requirements; these include the obligation to comply with applicable laws and regulations, including the ERDA's regulatory requirements. The contractor is generally expected to follow its normal business practices and to utilize its existing accounting system.

§9–4.5105 Submission of research proposals.

(a) Proposals for ERDA assistance are usually initiated by scientists interested in doing the research. In some cases, however, the ERDA may request investigators to undertake research of particular interest to the ERDA. Prior to submitting a proposal, the interested scientist may discuss the project informally, either by letter, telephone, or personal visit with a member of the ERDA Headquarters Program Division that has the greatest interest in the work. Also, following an informal discussion, a formal proposal may be requested. The proposal should be submitted to the appropriate ERDA Headquarters Program Division and should indicate:

(1) Identity and background of the project;

(2) Objective of the investigation;

(3) Approximate types and number of personnel who would be utilized, and an approximation of the time to be devoted to the project work;

(4) Facilities, equipment, and other wherewithal to be used;

(5) Amount of money sought from ERDA which, together with the institution's contributions (if any), would enable the work to be performed; (see ERDA–PR 9–4.56 for policy on cost sharing) and

(6) Whether the institution wishes to establish stipulated salary support amounts as the bases for charges for personal services of any professorial staff members to be utilized on the project. If the institution wishes to establish such stipulated salary support amounts, the proposal should include the following information for each professorial staff member involved:

(i) Academic year salary;

(ii) Other research projects or proposals for which salary is allocated; and

(iii) Any other duties, such as teaching assignments, administrative assignments, supervision of graduate students, or other institutional activities.

(b) Each formal proposal shall be prepared in the manner and form outlined in the "Guide for the Submission of Research Proposals," copies of which may be obtained from the Energy Research and Development Administration, Washington, D.C. 20545. Preliminary inquiries regarding support should be referred to the appropriate ERDA Headquarters Division. (See §9–4.5101(a).)

§9–4.5106 Selection, preparation, and award of research contracts.

§9–4.5106–1 General.

In order to maintain a comprehensive and well-integrated research program, ERDA evaluation of research proposals and selection of educational institutions to conduct scientific research is centralized in ERDA Headquarters. However, ERDA field offices in close proximity to the contractor are assigned responsibility for handling the final contract arrangements and nontechnical administration of such contracts. See §9–3.150 for policies and procedures relating to the treatment of proposal information.

§9–4.5106–2 Responsibilities.

(a) *Headquarters Program Divisions.* The ERDA Headquarters Program Divisions interested in the particular research are responsible for evaluating the technical aspects of proposals and the amount of requested support. Such divisions also review the prospective contractor's cost and other estimates to determine the reasonableness, the propriety, and the advisability of proceeding with the project, as proposed or as the proposal may in effect be amended. Specifically, Directors of ERDA headquarters divisions are responsible for:

(1) Selecting and approving research proposals and determining the amount of ERDA support;

(2) Reviewing the items in the proposal budget or itemized account of the proposed work, and, if necessary, the assistance of the appropriate ERDA field office may be requested;

(3) Determining the ownership of property;

(4) Reviewing and following the technical progress of the work;

(5) Providing contractors with the technical guidance and direction as may be required to meet broad program objectives; and

(6) Keeping the ERDA field offices fully informed of technical correspondence and discussions with contractors that may have contractual or nontechnical administrative implications.

(b) *Field Offices.* ERDA field offices are responsible for the consumation of contracts with the specified institution in accordance with directives from ERDA Headquarters Program Divisions, and administering and making payments under such contracts. Specifically, Managers of ERDA field offices are responsible for:

(1) Finalizing and executing the contract (where necessary, obtaining further instructions from the ERDA Headquarters Program Division);

(2) Administering the contracts in accordance with their terms and conditions and making payments thereunder;

(3) Providing technical and administrative assistance requested by ERDA headquarters division directors.

§9–4.5106–3 Review of research proposals.

(a) *Use of consultants.* If, in the judgment of the ERDA Headquarters Program Division, an appraisal from representatives of the scientific community is required, reviewers may be selected on the basis of their familiarity with either the field of research or the competence of the investigator.

(b) *Field participation in proposal evaluation.* Occasionally, the ERDA Headquarters Program Division may find it necessary in considering research proposals to obtain additional information from the research institution or to visit the site. In some cases, the comments, assistance, or participation of staff members of the appropriate ERDA field office will be requested.

(c) *Review of major elements.* At the time it reviews a research proposal, the sponsoring ERDA Headquarters Program Division shall review the prospective contractor's budget or itemized account of the proposed work and activities and the materials, equipment, and facilities involved, for the purpose of reaching mutual understanding of the estimated cost of the research to be contracted for and the other major aspects of the contract in contemplation. Questions about the cost elements that require further investigation may be referred to the appropriate ERDA field office when the contract is authorized.

§9–4.5106–3a Compensation for personal services of professional staff.

(a) In accordance with section B.7 and section J.7 of Federal Management Circular (FMC) 73–8, the proposing institution and the ERDA must reach an understanding regarding the basis for charges to the ERDA under the contract for personal services of professorial staff members. It is ERDA policy to use the payroll distribution procedure of section J.7.b., as the basis for charges for personal services of all nonprofessorial professional staff, and also for professorial staff in those cases in which it is not feasible to establish a stipulated salary support amount during the proposal and award process because detailed plans or knowledge of specific positions or individuals are not available.

(b) In those cases in which the proposing institution and the ERDA agree to use a stipulated salary support amount as the basis for charges for personal services of a specified professorial staff member, the sponsoring ERDA Headquarters Division shall either:

(1) Establish an appropriate stipulated salary support amount in accordance with the guidelines of FMC 73–8 and provide guidance to the field office regarding the amount of such individual stipulated salary support, or

(2) Request the field office to establish an appropriate stipulated salary support amount in accordance with the guidelines of FMC 73–8, and within any limitations established by the sponsoring headquarters division. In establishing appropriate stipulated salary support amounts, it will be necessary for the ERDA headquarters division or field office to obtain information on the academic year salary of the faculty members involved; the other research projects or proposals for which salary is allocated; and any other duties they may have, such as teaching assignments, administrative assignments, supervision of graduate students, or other institutional activities.

(c) The established stipulated salary support amount shall be provided for in the contracts and shall be the basis for charges for personal services of the specified staff member unless there is a significant change in performance by the staff member (see section J.7.e. of FMC 73–8 for examples of a "significant change"); if a significant change in performance occurs, the institution has the responsibility under FMC 73–8 to either: (1) Reduce the charges to the contract proportionately, or (2) Request an appropriate amendment of the contract to reflect the change in performance. The contract should provide that if the alternative in paragraph (c)(1) of this section is followed, the contractor shall notify the ERDA of such reduction, with an explanation of the basis of such reduction. In accordance with section J.7.e. of FMC 73–8, special provision must be made in the contract if summer salaries are to be paid under the stipulated salary support procedure; the contract should provide specifically for any stipulated salary support amount for summer salaries and provide that any research covered by stipulated summer salary support must be carried out during the summer, not during the academic year, and at locations approved in advance by the ERDA.

(d) If after the award of a contract the contractor wishes to charge the ERDA for the personal services of a professorial staff member for whom a stipulated salary support amount has not been established in the contract, the contractor shall use the payroll distribution procedure of section J.7.b. of FMC 73–8 as the basis for such charges, except as the parties may otherwise mutually agree in writing.

(e) The stipulated salary support procedure shall not be used as a basis for establishing the amount of a contractor's contribution to the research work. In those cases in which the contractor is required to maintain records in support of a contribution of the cost of professorial staff, the payroll distribution procedure of section J.7.b. of FMC 73–8 should be used.

(f) The certification required by Appendix C of §9–16.5002–8 fulfills the certification requirement of section K of FMC 73–8 for the special research support agreement. In cost-type contracts (§9–16.5002–9) the payments article should provide for appropriate certification by the contractor, on payment invoices or vouchers, to meet the requirements of section K.

§9–4.5106–4 Notice of selection or rejection.

The proposer shall be notified by the ERDA Headquarters Program Division of the decision to support or reject the proposal. In the event of approval, this notification shall advise: (a) That the proposal has been selected for support subject to completion of a satisfactory contract; (b) which ERDA field office will negotiate and execute the contract; and (c) that the ERDA assumes no obligation until a contract has been executed. A copy of the notice of approval or rejection shall be sent to the ERDA field office concerned.

§9–4.5106–5 Selection of ERDA field office.

When the ERDA Headquarters Program Division has determined that a proposal will receive ERDA support, an appropriate ERDA field office will be requested to make the final contract arrangements with the institution concerned. Usually the ERDA field office geographically nearest to the research institution will be selected, but occasionally other factors such as existing contractual relationships, will make the selection of some other ERDA field office desirable.

§9–4.5106–6 Information to be furnished to Managers of ERDA field offices.

The sponsoring ERDA Headquarters Program Division shall provide the appropriate ERDA field office with an authorizing directive early enough (usually 4 weeks) to permit timely consummation of the contract before the work is scheduled to start. The following shall be furnished:

(a) A copy of the detailed proposal and any modifications;

(b) Copies of correspondence with the research institution that are pertinent to the completion of the contract negotiation or that have some specific significance as to the preliminary review or arrangements made with the institution; and

(c) An authorizing directive (generally Form ERDA–481, "Contract Authorization") which:

(1) Authorizes the execution of a specific type of contract for a specified term, with ERDA support limited to a specified amount or a specified percentage of costs up to a specified support ceiling;

(2) Summarizes the background of the proposal and any pertinent discussion not reflected in the papers attached to the memorandum;

(3) Indicates the extent to which the scope of the work proposed has been approved;

(4) Indicates the principal investigator and other necessary details;

(5) Indicates the total estimated cost of the research and other major aspects of the contract, by reference to the proposal or otherwise;

(6) Indicates whether title to property to be acquired under the contract is to be vested in the ERDA or the contractor;

(7) Indicates whether Restricted Data or other classified information is likely to be used or developed in the course of the work and such classification and security determination as may be appropriate;

(8) Indicates directions for special reports, if any;

(9) Gives such additional information as may assist the Field Office in the finalization of the contract; and

(10) Designates the appropriate organizational unit of ERDA Headquarters Program Division and individual that will have technical cognizance over the work under the contract.

§9–4.5106–7 Changes in scope and level.

After a contract has been authorized by the ERDA Headquarters Program Division, and prior to execution of a contract, the field office shall not approve any significant change in technical scope, funding, specified result, performance, principal investigator, or other major aspect of the work without ERDA Headquarters Program Division prior approval.

§9–4.5106–8 Notification of contract execution.

Promptly after execution of a contract, the appropriate ERDA Headquarters Program Division should be notified of such action.

§9–4.5107 Standard contract forms.

§9–4.5107–1 General.

Outlines of standard contract forms for special research support agreements and cost-type contracts with educational institutions, for research performed in facilities owned or controlled by the contractor (as distinguished from Government-owned or Government-controlled facilities), are set forth in §§9–16.5002–8 and 9–16.5002–9, respectively. It is intended to provide through these documents a vehicle by which research tasks can be accomplished with a minimum of administrative effort. It is therefore important that such contracts be written in such a manner as to assure the complete understanding of the parties as to the job to be performed and the financial and administrative details connected therewith. Of special consideration is the nature of research contracting in contrast to the procurement of supplies or activities of a production nature. It is recognized that wide latitude in the conduct of research by the institutions is generally desirable and the standard contract forms are designed to permit such latitude in the overall establishment of the rights and obligations of the parties.

§9–4.5107–2 Special research support agreements.

(a) The special research support agreement outlined in §9–16.5002–8, is generally used for basic research with educational institutions when the annual ERDA support under the agreement does not exceed $500,000. It provides that ERDA's monetary obligation will be a specified amount, which is referred to as the support ceiling, or a lower adjusted amount (referred to as the cumulative support cost) if actual costs chargeable to the ERDA during the total period of the contract are less than expected. The ceiling on ERDA's monetary support will be determined and established as a support ceiling at the outset of the initial contract period, generally an annual period; the initial support ceiling will be the amount of ERDA support made available in connection with the initial contract period. In the event the ERDA and the Contractor agree to extend the contract for an additional period or periods of performance, the ceiling on ERDA's monetary support (support ceiling) would be increased to reflect any increased support by reason of the extended period or periods. The costs chargeable to the ERDA (support cost) will be reported for each pertinent period of the contract specified in Appendix A (generally an annual period) in accordance with paragraphs (b) and (c) of this section, and the support cost determined for each such contract period will be accumulated for all periods of contract performance, as will the support ceiling. The monetary obligation of the ERDA to the Contractor will not exceed the cumulative support cost or the accumulated support ceiling, whichever is less. Upon termination, or expiration of the total period of performance, the Contractor will refund to the ERDA, or make such other disposition as the ERDA may direct, any funds advanced by the ERDA to the Contractor in excess of the cumulative support cost incurred under the contract. Payment shall be made in consideration for the Contractor's performance of research activities described in the contract and in accordance with the provisions of the contract. The Contractor shall have the right to discontinue performance of research under the contract, upon written notice to the ERDA, at any time when or after the total costs chargeable to the ERDA equal or exceed the support ceiling. Certain deviations in performance and other

actions require ERDA approval as stated in §9–4.5112–5; among other approval requirements, the Contractor must obtain ERDA's approval to incur costs for items set forth in Article A–II(a), during the pertinent contract period stated in Appendix A, in excess of 110 percent of the total estimated cost specified in Article A–III for the specified contract period. In those cases in which there is to be proportionate sharing of costs, the percent of the costs to be borne by the ERDA will be set forth in Article A–III of the contract (see paragraph (c) of this section).

(b) The Contractor will be required to furnish a certified statement (within 3 months after the expiration of the pertinent contract period set forth in Appendix A—and at the termination or expiration of the contract) signed by an authorized official showing the total cost, support cost, and contractor contribution, if any, for the prior contract period. The format for this report is found in §9–16.5002–8, Appendix C.

(c) It is expected that in many cases the Contractor will propose to contribute to the cost of the research work (see §9–4.56 for policy on cost sharing). Such proposed contribution shall be set forth in Appendix A of the contract, either (1) as items under (b) or (c) of Article A–II which will be contributed solely by the Contractor without charge to the ERDA, or (2) as a proportionate cost-sharing agreement in Article A–III which will provide that the Contractor will charge ERDA only a specified percentage of the actual cost incurred for items under (a) of Article A–II. Proposed Contractor contributions should ordinarily be listed under (b)(1) of Article A–II when (1) the contribution is the principal investigator or other senior personnel who are likely to be involved in the research work to the same extent whether their cost is included in or excluded from proportionate cost sharing, (2) the proposed contribution to the work is being paid for by a third party, e.g., personnel or equipment the cost of which is being reimbursed under another contract or grant from public or private sources, and (3) the proposed contribution does not involve any cash expenditure by the Contractor. Only those items, the cost of which are to be charged to the ERDA or proportionately shared by the parties, should be listed under Article A-II(a). Proportionate sharing of the cost of items under Article A-II(a) should be provided for only when the Contractor agrees to pay a specified percentage of the cost of all such items, and when such sharing is expected to be of financial benefit to the ERDA. In those cases in which there is to be proportionate cost sharing, the Contractor should generally be encouraged to continue the same sharing ratio throughout the life of the contract so as to provide for ease of administration and to avoid difficulties in determining proper charges to the ERDA. When the contract provides for proportionate cost sharing, it should be understood that the ERDA will pay only the specified percentage of the actual cost of items under Article A-II(a) incurred during the pertinent contract period specified in Appendix A, up to a maximum of 110 percent of the estimated support cost set forth in Article A-III for the pertinent contract period unless otherwise specifically approved by the ERDA, and subject to the support ceiling set forth in Article III.

(d) If the Contractor proposes to contribute the cost of the principal investigator(s) on the project and requests that the contribution be excluded from A-II (b), the contributed time or effort should be shown in A-II(c). In any event, Article A-I should include a statement regarding the approximate percentage of time or effort that the principal investigator(s) expects to devote to the contract work. If the principal investigator(s) is included under A-II(c), the Contractor would not be required to maintain records regarding the amount of effort contributed by the principal investigator, and the Contractor would not be required to certify in accordance with Appendix C of the contract regarding the amount of effort contributed by the principal investigator. The principal investigator may be included in Article A-II(a) for purposes of obtaining ERDA reimbursement of his costs during the summer months, and excluded from Article A-II(a) for the academic year if the Contractor proposes to contribute the costs for that period. The contract generally will not require the Contractor's commitment that any particular amount of time or effort by the principal investigator(s) or other personnel will be devoted to the work under the contract. In the event a proposed Contractor contribution is included in Article A-II (b)(1), the contract should reflect the nature and extent of the Contractor's intent to contribute the item, and the Contractor shall maintain records

adequate to permit the ERDA to determine the extent of the contribution. The Contractor shall certify, in accordance with Appendix C of the contract, the extent to which the item or items under Article A-II(b)(1) have been contributed. Government-owned property to be procured, fabricated, or furnished under Article IV or Article B-IX of the contract and other Government-furnished equipment, supplies, materials, or services should be excluded from Article A-II(a) and listed under Article A-II(b)(2).

(e) If the special research support agreement outlined in §9–16.5002–8 is to be used for not-for-profit organizations other than educational institutions, Article B-XXIX, Determination of Support Cost, should be revised to provide that the ERDA's commercial cost principles (ERDA–PR 9–15) will be used in determining actual cost, or the contract provisions may be revised at the direction of the cognizant ERDA headquarters division or office to provide for a lump-sum payment to the Contractor in consideration for its performance of particular research at a specified level of effort. The special research support agreement outlined in §9–16.5002–8 may also be used for supporting research at educational institutions in foreign countries; however, at the discretion of the cognizant ERDA headquarters division or field office, the outline of §9–16.5002–8 may be revised to provide for a lump-sum payment to the foreign institution in consideration for its performance of particular research at a specified level of effort, and to limit approval requirements to those considered consistent with the nature of the support to the foreign institution. All such agreements with foreign institutions should provide that any unused ERDA funds available to the foreign institution at the end of the contract term shall be used in a renewal period of the contract, returned to the ERDA, or otherwise disposed of, in accordance with ERDA instructions.

§9–4.5107–3 Cost-type contract.

The cost-type contract for research by educational institutions, outlined in §9–16.5002–9, is generally used when the annual ERDA support under a contract exceeds $500,000, or when the cost of the project cannot be estimated in advance with reasonable accuracy. In many cases the contractor shares in the cost of the work conducted under the contract, although this is not a prerequisite for ERDA support (see §9–4.56 for policy on cost sharing and Article III of §9–16.5002–9). The contract provides for reimbursement to the contractor of allowable costs incurred, within a specified ceiling, for performance of the research in accordance with the provisions of the contract. Allowable costs are determined in accordance with Federal Management Circular (FMC) 73–8, FPR Subpart 1–15.3, and §9–15.103. (For cost-type contracts with not-for-profit institutions other than educational institutions or research foundations established by educational institutions, reimbursement of costs is in accordance with the applicable ERDA commercial cost principles.) Certain deviations in performance and other actions under the contract require ERDA approval as specified in the contract. Such approval requirements will be in accordance with §9–4.5112–5, to the extent necessary and appropriate.

§9–4.5108 Personal property.

§9–4.5108–1 Ownership of property.

(a) Pursuant to Public Law 85–934, title to equipment purchased or fabricated with funds provided by ERDA under contracts for the conduct of basic or applied scientific research at nonprofit institutions of higher education or at nonprofit organizations whose primary purpose is the conduct of scientific research, where it is determined to be in furtherance of the objectives of the ERDA, may be vested in the contractor.

(b) In addition to the authority referred to in paragraph (a) of this subsection, the Atomic Energy Act authorizes the Commission (now ERDA) to vest title to items of equipment and other personal property in a contractor when the transfer serves a programmatic purpose.

(c) A programmatic determination as to vesting title to property shall be obtained from the cognirant program division.

(1) For property to be purchased or fabricated under the contract the programmatic determination will be shown on the pertinent Contract Authorization Form ERDA—481 or other appropriate document.

(2) For ERDA-held property whether purchased or fabricated under the contract, and for GSA-held property, as outlined in §9–4.5108–2, the ERDA field office will request (in any manner considered appropriate) a programmatic determination of the cognizant Headquarters Program Division.

§9–4.5108–2 Acquisition of excess Government personal property.

(a) The utilization of certain items of excess Government personal property by educational institutions is encouraged in the interest of conserving funds otherwise designated for similar items of property in existing research contracts or agreements with such institutions. Excess Government personal property includes all types of equipment and materials, used or new, which are owned by the Federal Government and are no longer needed by the holding Federal agency, but have additional useful life (for policy on ADP equipment, see FPMR 101–32.3). Consistent with GSA regulations (FPMR 101–43.320) excess personal property may be furnished to a contractor (with or without transfer of title) upon authorization by ERDA provided a determination is made that the acquisition will result in a reduction in the cost to the Government of the contract or will result in an enhancement in the product or the benefit from the contract. This procedure will not normally be used for the acquisition of general purpose equipment (e.g., desks, typewriters, air conditioners).

(b) Contractors may obtain information concerning the availability of certain kinds of equipment or materials by requesting the cognizant ERDA office to have them placed on the GSA mailing list. When an item of equipment or material is selected, the contractor should reserve it by notifying the cognizant GSA office and confirm the reservation in writing. Availability is usually on a first-come, first-served basis, but GSA will give preference in a competing situation to those agencies which do not vest title to property in the contractor. The contractor should then submit a Standard Form 122, Transfer Order Excess Personal Property, to the cognizant ERDA office, accompanied by a written justification of need, including the estimated cost of acquisition (e.g., packing, shipping, installation, rehabilitation, etc.), signed by the principal investigator and an authorized administration official. The written justification shall contain a statement as to whether or not the contractor desires title to the property. If the acquisition is approved, in accordance with §9–4.5108–1 (c)(2), the ERDA office shall forward the SF—122 to the appropriate GSA office with a notation as to whether or not the ERDA intends to vest title to the property in the contractor. A copy of the approved SF—122 with the notation regarding the vesting of title shall be returned to the contractor. When the property is received, the contractor shall forward to the ERDA office a receipted copy of the SF—122 which lists the items of property.

(c) In those instances where the contractor's acquisition of title has been approved by the ERDA, title to the property shall pass to the contractor when the receipted SF—122 is received by the ERDA office, pursuant to Article B-IX(b), property items, of §9–16.5002–8 or Article II, Appendix A of §9–16.5002–9, as appropriate. Contract funds may be used to pay for all costs of packing, transportation, installation, rehabilitation and/or maintenance, if required.

(d) In those instances where the contractor did not desire title or where the cognizant ERDA office has determined that title to the excess property should remain in the Government, the property will be handled as Government property in accordance with Article B-IX of §9–16.5002–8 or Article B-26 of §9–16.5002–9, as appropriate.

§9–4.5109 Reporting requirements.

§9–4.5109–1 Purpose of reports.

Research reports from contractors are necessary to provide ERDA, and, where appropriate, the public, with a record showing the progress achieved under projects receiving ERDA support. In many instances, the research reports are of value in making information available to scientists working on closely allied problems.

§9–4.5109–2 Summary—200 words.

Immediately after a contract is negotiated, a summary of approximately 200 words (SIE form) covering the purpose and scope of the project should be sent by the contractor to the appropriate ERDA field office. In connection with each renewal proposal, the 200-word summary should be revised to include the significant results and conclusions of the former years' work and a statement of the scope and objectives of the following year.

§9–4.5109–3 Progress reports.

Progress reports should briefly describe the scope of the investigations undertaken and the significant results obtained. They should also explain any significant differences between the actual level of activity (expressed in the various categories of man months, facilities procured, travel performed, etc.) and that contemplated in the contract.

§9–4.5109–4 Technical reports.

Technical reports, preprints, and articles prepared for publication during the period covered should be listed with bibliographic references. Reprints of all such material not previously submitted should be appended and material contained in them need not be duplicated in the report.

§9–4.5109–5 Special reports.

Special reports or additional progress, status, or topical reports may be requested when needed by the appropriate ERDA Headquarters Program Division or ERDA field office or may be submitted as deemed necessary by the contractor. For example, brief status reports may be requested when developments are of immediate interest or when a significant point in the investigation has been reached.

§9–4.5109–6 Final report.

A final report summarizing the entire investigation shall be required from the contractor upon expiration of each contract. Satisfactory completion of a contract will be contingent upon the receipt of this report. The final report should follow the outline agreed upon for progress reports or, when a project has extended over a long period of time, the final report may refer to previously submitted technical reports for details and may be a synopsis of the entire project. Manuscripts prepared for publication should be appended.

§9–4.5109–7 Equipment report.

(a) An equipment report itemizing equipment having an anticipated service life of 1 year or more and an acquisition cost in excess of $200 for special research support agreements and $300 ($200 if the contractor prefers) for cost-type contractors either purchased or fabricated, when title to such equipment is vested in the contractor, shall be furnished by the contractor immediately following the expiration of the contract year, in accordance with Article B-XXI of the special research support agreement set forth in §9–16.5002–8 (omit any item covered by Article V, Government Property, of this contract), and in accordance with the requirements of Appendix A-III of the cost-type contract set forth in §9–16.5002–9. Where the cost of individual pieces of equipment exceeds $1,000, they shall be listed individually. Where individual items cost between $200 and $1,000 for special research support agreements or $300 ($200 if the contractor prefers) and $1,000 for cost-type contracts, they shall also be listed individually to the extent practicable, or grouped in general categories, such as "electronics equipment" or "six motors," with the total dollar amount of such category. The cost of purchased items shall be determined by the actual invoice cost of such items, but the cost of fabricated items may be established by engineering estimates.

(b) In order to satisfy the requirements of the Grant Act (Public Law 85–934), Managers of Field Offices shall forward to the Director of Procurement, not later than March 15 of each year, the original and one copy of each equipment report referred to in paragraph (a) of this section, identifying each item purchased with ERDA funds and titled in the contractor under the Grant Act, submitted by contractors for the preceding calendar year.

§9–4.5109–8 Summary and distribution of reports.

A table summarizing the various types of reports, time for submission, number of copies and distribution is set forth below. The distribution and schedule of reports shall be as prescribed in this table, unless the authorizing program division specifies otherwise. Frequently, an annual progress report and a 200-word summary are sufficient for fundamental research, but additional reporting may be required in many cases. These reports are prepared by the contractor and submitted to the appropriate ERDA field office for distribution. The ERDA field office shall transmit these reports with a covering memorandum indicating: (a) The other ERDA offices receiving the documents, (b) the name of the contractor, and (c) the contract number. Each copy of the documents should bear the contract number.

DISTRIBUTION AND SCHEDULE OF DOCUMENTS

Type	When due	Number of copies for: Field office	Hq program division	DTI ctr. Oak Ridge [a]	Hq patents OGC
1. Summary, 200 words on scope and purpose (S.I.E. Form)	At start of initial contract and each renewal period	1	3		
2. Renewal proposal	Not later than 3 months nor earlier than 6 month before contract expires	2	4		
3. Annual progress reports [b] [c]	With renewal proposal, but bound separately	2	4	* 1	
4. Other progress reports, brief topical reports, etc. (Desired when significant result, develop or when work has direct programmatic impact.) [b] [c]	As deemed necessary by investigator or as specifically requested by appropriate Hq Division	2	4	* 1	
5. Conference papers [c]	Same as 4 above	2	4	* 1	
6. Final report [b] [c]	When contract is completed	2	2	* 1	1

a ERDA contract administrator informs contractor which types of documents are to be transmitted to DTIE. For each document so identified, contractor sends the additional copy to the contract administrator for transmittal to DTIE, accompanied by one copy of ERDA Form 427.

b Report shall be prefaced by an informative abstract of no more than 200 words.

c §–4.5109–4 requires the listing of technical reports, articles, and preprints and the appendage of reprints not previously submitted.

§9–4.5110 Dissemination of results.

§9–4.5110–1 Prompt dissemination.

Prompt dissemination of research results to the scientific community is encouraged. Publication in open literature is recognized as the normal and most desirable means for reporting the finding of unclassified fundamental research. Although the ERDA reserves the right to utilize, and have others utilize, to the extent it deems appropriate, the reports resulting from research contracts, the ERDA will attempt, to the maximum extent reasonably practicable and consistent with the Government's best interest, to permit the institutions and the authors to effect their own publication in established technical journals. (See Part 9–9 for copyright requirements which must be observed.)

§9–4.5110–2 Publication.

(a) Contractors are urged to publish results through normal publication channels. As a further inducement, page charges or other printing assessments for publishing articles in recognized scientific journals or any additional costs incurred in obtaining a limited supply of reprints of articles will be considered an appropriate budget item under contracts receiving ERDA support where:

(1) The document reports work supported by the Government;

(2) The charges are levied impartially on all research papers published by the journal, whether by non-Government or by Government authors;

(3) Payment of such charges is in no sense a condition for acceptance of manuscripts by the journal;

(4) The journals involved are not operated for profit;

(5) The author does not receive an emolument for the research paper.

(b) A credit line should be included in any such publication to indicate that the research has been supported, in whole or in part, by the ERDA. A patent check shall be made in advance of release to the public of any material prepared for publication. Generally, however, in the case of most basic research projects, the principal investigator may publish without prior ERDA approval, unless he determines that the material being released may disclose an invention. (See paragraph (b) in Appendix B-III of §9–16.5002–8 and Appendix B–6 of §9–16.5002–9.)

§9–4.5111 Extension of contracts.

§9–4.5111–1 Renewal proposals.

(a) Where additional time, beyond the current expiration period, is required to continue or complete the work, the Contractor should submit six copies of a renewal proposal to the ERDA field office that has administrative jurisdiction of the existing contract, not later than 3 months nor earlier than 6 months before the date of expiration of the contract.

(b) The renewal proposal should outline and justify a proposed program and budget for the succeeding year, showing in detail the estimated cost of the project, together with an indication of the items for which the Contractor is requesting ERDA reimbursement or proportionate cost sharing, the percentage of any such costs to be shared by the Contractor, and any items to be contributed solely by the Contractor (see §9–4.56 for policy on cost sharing). It should include the same type of information as that required for initial proposals or reference this information to the extent contained in earlier proposals. Any contemplated change in program or scope for the ensuing period should be justified and explained clearly, and the cost estimates and other items should be based upon past experience. Any deviation from the contract during the current period requiring ERDA approval as provided for in the contract, which has not received such ERDA approval, should be explained in detail, and the ERDA's right to approve or disapprove shall be the same as for a request timely made by the Contractor.

(c) The renewal proposal should include a financial statement of the work under the current contract, including:

(1) Total project costs for the current period to date, indicating the amount chargeable to the ERDA;

(2) An estimate of the total costs to be incurred during the remainder of the current contract period, indicating the amount chargeable to the ERDA;

(3) Under special research support agreements, the anticipated difference, if any, between the accumulated support cost at the end of the current contract period and the cumulative ERDA support ceiling; and

(4) A footnote to show the estimated amount of outstanding commitments for property at the end of the current contract period.

§9–4.5111–2 Evaluation of requests for renewals.

(a) Requests for renewals are evaluated by the appropriate ERDA Headquarters Program Division in the light of:

(1) Progress report submitted by the Contractor;

(2) Research results published in scientific media;

(3) Field visits to the research site by technical personnel;

(4) Contractor's performance; and

(5) Availability of funds and relative importance of projects in relation to other proposed research.

(b) Requests for renewals generally follow the same process of review and evaluation of technical aspects and funding, preparation, and execution of the contract, and administration as a new project, although less use would normally be made of outside consultants. Contracts authorized by ERDA Headquarters Program Divisions shall not be extended for a new term or on an interim basis or modified in scope without specific prior authorization from the appropriate ERDA Headquarters Program Division, except as provided in §9–4.5111–3.

§9–4.5111–3 Authorization to renew.

(a) When a determination has been made to extend a contract, the sponsoring ERDA Headquarters Program Division shall provide the appropriate ERDA field office with an authorizing directive early enough (usually about 4 weeks in advance of expiration) to permit an orderly completion of the extension agreement before the expiration date. The authorizing directive should include generally the same type of information provided in the authorization of a new contract, including pertineent information concerning any changes in scope of work, level of funding, scheduled dates for completion of certain phases of work, target dates for submission of reports, etc.

(b) An authorization to renew a special research support agreement shall also state the estimated total cost of items to be included under Article A-II (a) of Appendix A for the renewal period, the percentage of such costs to be reimbursed by the ERDA, and the amount of new funds authorized to increase the ERDA support ceiling.

(c) The ERDA field office that has administrative jurisdiction of an existing contract, may extend the term of an existing contract without authorization from the cognizant Headquarters Program Division, provided that:

(1) Any such extension does not provide for an increase in the ERDA's monetary obligation under the contract;

(2) That the scope of work is not revised by such extension;

(3) That such extension is necessary to permit completion of the scope of work authorized by Headquarters, including preparation of required reports; and

(4) That any such extension will not be for a period in excess of 90 days.

§9–4.5112 Administration.

§9–4.5112–1 Responsibilities of ERDA Headquarters Program Divisions.

(a) Technical representatives of ERDA Headquarters Program Divisions will make, to the extent practicable, periodic site visits, at least once each year on larger projects, and no less than once every 3 years on smaller projects. A written summary of the results of all visits will be prepared and filed promptly upon return to ERDA Headquarters. Copies of such reports shall be forwarded to the appropriate ERDA field office whenever they contain information of administrative interest or other information that the ERDA Headquarters Program Division determines is pertinent to the assigned responsibilities of the field office. These visits are for the purpose of:

(1) Determining that the research is being performed in accordance with the contract.

(2) Ascertaining that schedules are being met to insure timely submission of interim and final reports.

(3) Determining whether the project has adequate facilities, equipment, and scientific, technical, and other personnel for the specified research.

(4) Ascertaining that any equipment requested for purchase is not reasonably available within the institution.

(5) Assisting the principal investigator to clarify specific technical aspects as work progresses.

(6) Exploring future budget requirements, but without making any commitments either personal or on behalf of the ERDA as to future funding level.

(7) Obtaining information regarding the status of work for administrative and technical purposes of the Program Division sponsor.

(b) ERDA Headquarters Program Divisions will provide guidance to the ERDA field offices in connection with:

(1) Any contractor requests for approval of proposed deviations or other actions requiring ERDA approval which are brought to their attention by ERDA field offices, or which have been brought to their attention through site visits, progress reports, or other contacts with the contractor;

(2) Increasing the obligational authority under any special research support agreement or cost-type contract;

(3) [Reserved]

(4) Whether or not required contractor reports are satisfactory; and

(5) The renewal or closeout of contracts; instructions in this regard should be provided at least 4 weeks prior to the expiration date of a contract.

§9–4.5112–2 Responsibilities of ERDA Field Offices.

ERDA Field Offices are responsible for the following:

(a) Assisting ERDA Headquarters Program Divisions, as requested, in carrying out the functions set forth in §9–4.5112–1.

(b) Performing the necessary administrative functions required by the terms of the contract, and making payments in accordance with the contract.

(c) [Reserved]

(d) Bringing to the attention of the appropriate ERDA Headquarters Divisions:

(1) Any contractor requests for approval which are required by the contract;

(2) [Reserved]

(3) [Reserved]

(4) The upcoming expiration date of a contract whenever required instructions on renewal or closeout have not been received on a timely basis; and

(5) Any request by a contractor to revise an established stipulated salary support amount, and any notification by a contractor that it is reducing the charges to the ERDA under the stipulated salary support procedure (see §9–4.5106–3a (c)).

(e) Determining whether to use the Grant Act (Public Law 85–934) or the Atomic Energy Act of 1954, as amended, as the authority for vesting title to personal property in the contractor when authorized to do so pursuant to §9–4.5106–6(c)(6). The Grant Act shall be used to the maximum extent consistent with the authority contained therein.

§9–4.5112–3 Payments under special research support agreements.

(a) Payments will be made to contractors under a special research support agreement in accordance with the contract provisions (see Article B-XI of §9–16.5002–8). The letter of credit procedures, as provided for in Treasury Fiscal Requirements Manual, Part VI, Section 1020, shall be used to the maximum extent feasible when the total of ERDA contracts with advance financing at an institution provides for a continuing annual level of support of $250,000 or more. When the total ERDA contracts with advance financing provides for an annual level of ERDA support of less than $250,000, ERDA shall make advance payments covering the first 90 percent of the amount of the new funds as set forth in Article A-III(b) of the contract. The field office may revise Article B-XI of §9–16.5002–8, regarding the timing and amounts of advance payments, in accordance with the following provisions. The advance payments may be made at times and in amounts determined by the field office, provided that no single payment will exceed 45 percent of the new funds as set forth in Article A-III(b) of the contract for the pertinent contract period except on the basis of a request from the Contractor evidencing that a specified amount is required in connection with expenditures or commitments made under the contract. The timing and amounts of payments should be determined on the basis of limiting the amount of advances to the extent feasible consistent with effective and efficient contract administration and performance of the research, for the purpose of slowing the rate of cash withdrawals from the Treasury and thereby decreasing the financing costs to the Federal Government. In determining the timing and amounts of payments, consideration should be given to funds already available to the Contractor, the expected expenditures under the contract, any information from the Contractor regarding the need for funds, and the administrative cost of additional payments.

(b) If the contract is to be extended for an additional period of performance with additional funding, there may be paid at the time of execution of the extension the amount withheld from the expiring period which when added to the payments already made does not exceed the new funds set forth in A-III(b) for the expiring period. The final payment under both of the procedures referred to in paragraph (a) of this section shall be made on the basis of determinations by the contracting officer that: (1) The required reports are satisfactory; (2) that the research was performed in accordance with the provisions of the contract; (3) that an additional payment is required to reimburse for all costs chargeable to the ERDA; and (4) that an appropriate patent clearance has been obtained. If necessary in making the determinations, the contracting officer should obtain advice from the technical personnel of the ERDA Headquarters Program Division based upon their visits to and other contacts with the research project during the contract period as well as their technical review of the report. It is expected that the annual progress and final reports and the Contractor's certified cost statements will provide an adequate basis for making the determinations required by subparagraphs (2) and (3) of this paragraph. If the determinations cannot be made on the basis of a consideration of the reports, visits to and other contacts with the research project during the contract period, and the Contractor's certified statements, the contracting officer may invoke the audit provision of the contract. In the event the contracting officer determines that the Contractor has not satisfied the contractual undertakings, appropriate steps shall be taken to protect the Government's interests.

§9–4.5112–4 Payments under cost-type contracts.

Payments for allowable costs incurred under cost-type contracts will be made in accordance with the provisions of the contract. Payments will generally be made on the basis of after-the-fact reimbursement of contractor costs upon submission by the contractor of an appropriate monthly invoice or voucher. However, when the total of ERDA contracts at an institution provide for a continuing annual level of support of $250,000 or more, the letter of credit procedure, as provided for in Treasury Fiscal Requirements Manual, Part IV, section 1020, shall be used to the maximum extent feasible.

§9–4.5112–5 ERDA approval of deviations in performance and other specified actions.

(a) Contractors should inform the cognizant ERDA field office as soon as possible of contemplated deviations and other proposed actions which require ERDA approval. Specific deviations and actions under special research support agreements which require ERDA approval include the following:

(1) A change of the principal investigator, co-investigator, or other key people as might be named in the contract or continuation of the research work for any one period in excess of 3 months without direction by an approved principal investigator. The principal investigator may increase or decrease the amount of effort which he devotes to the project without obtaining ERDA approval; however, a representative of the institution shall consult with the appropriate ERDA Headquarters program representative if the principal investigator plans to, or becomes aware that he will, devote substantially less effort to the work than anticipated in Article A–I. The purpose of such consultation will be to determine what effect, if any, the anticipated change will have on the research work and what modification to the contract, if any, may be appropriate.

(2) A change in the phenomenon or phenomena under study, i.e., broad category of the research under the contract, requires the specific written approval of the ERDA; ordinarily, such changes, if approved by the ERDA, will be accomplished through a new contract or a mutually agreed to modification. The contractor may change the specific objectives in the research work described in the contract, provided it gives the ERDA prompt notification of such changes; and the contractor may continue to follow the new

objectives while the ERDA determines whether it wishes to continue the program under the changed approach. Significant changes in methods or procedures employed in performing the research should be reported in the first technical progress report issued subsequent to the changes.

(3) Acquisition of:

(i) An item of equipment not itemized in the contract, the cost of which is $1,000 or more. Approval is not required if the equipment is merely a different model of an item listed in the contract; or

(ii) An item or items of equipment the cost of which will cause the total equipment dollar level shown in Article A–II(a) of the contract to be in excess of 125 percent thereof. (If plant and capital equipment funds are provided for the acquisition of equipment, with title to be vested in the Government, the total cost of such shall not exceed the amount provided for such equipment unless prior ERDA approval has been obtained.)

(4) Purchase of any general-purpose equipment, such as office furniture, air conditioning, etc., not specifically provided for in Appendix A of the contract.

(5) Incurring costs for items set forth in Article A–II(a), during the pertinent contract period stated in Appendix A, in excess of 110 percent of the total estimated cost specified in Article A–III. Charges to the ERDA for any such costs incurred with approval of the ERDA shall also be subject to the limitations of Article III.

(6) Any proposed foreign travel (defined as any travel outside of Canada and the United States and its territories and possessions).

(7) Expenditures for domestic travel in excess of $500, or 125 percent of the amount shown in Article A–II(a) for such travel, whichever is greater.

(8) Acquisition of excess personal property.

(9) Such other items as in the judgment of the Program Division or the field office, in specific cases need to be separately identified in the contract. (When plant and capital equipment funds are provided for the acquisition of Government property, the Headquarters Program Divisions may require, in specific cases, that such funds shall be used only for acquiring the equipment designated in the contract unless prior ERDA approval has been obtained.)

(b) The ERDA field office will present (in any manner considered appropriate) all such requests for approval to the cognizant ERDA Headquarters Division for consideration, and will issue such authorizations and modifications under the contract as are necessary and appropriate.

(c) Contractors may be requested by the ERDA field office to provide such statements of the project's financial and program status as are believed necessary for considering requests for approval.

(d) The above approval requirements and procedures shall apply to all special research support agreements for basic research with educational institutions.

The Program Division or the field office may include these specific approval requirements in cost-type contracts with educational institutions (§9–16.5002–9) to the extent necessary and appropriate. These approval requirements and procedures may also be included in contracts for applied research with educational institutions and for research with other not-for-profit organizations to the extent deemed appropriate by the cognizant ERDA Headquarters Division and the ERDA field office. In contracts for applied research, paragraph (b) of this section will generally be revised to require ERDA prior approval of any change in the specific objectives of the research work.

§9–4.5112–6 Auditing.

(a) As a part of the ERDA-wide management of the research program accomplished through these contracts, auditing of participating contractors should be carried out by the ERDA field office administering the contract. The purpose of this program of audit, provision for which is contained in the contracts is to corroborate that the participating institutions are properly using the funds and personal property provided by the contracts and to point up any changes needed in the contractual arrangements or in related administrative requirements in order to further the effectiveness of the contracts in accomplishing their intended programmatic research purposes. In addition to the general objectives stated above, the principal specific objectives in the audits of special research support agreements should be to determine: (1) That the amounts as submitted in the contractor's certified statement are accurate and were incurred in connection with the contract work; (2) that satisfactory documentary evidence is available in support of the costs incurred; (3) that ERDA approval was obtained where required; and (4) that the proportion of total cost charged to ERDA is in accordance with the percentage stipulated in the contract. For cost-type contracts, on the other hand, the audit should include a verification by acceptable audit techniques, of the allowability, applicability, and reasonableness of the costs charged to the contract work.

(b) The review of special research support agreements will be made on a selective basis with the selected sample including all special research support agreements where the contracting officer requested that an audit be performed pursuant to the provisions of §9–4.5112–3(b). The audit of cost-type contracts will be in accordance with the criteria set forth is section 2.024 of the ERDA Audit Handbook.

(c) In the event of termination prior to the expiration date of a cost-type contract or special research support agreement unless the costs incurred by the contractor are relatively small or can be otherwise adequately corroborated, an audit should be made to determine the nature of the costs and other relevant data for use in arriving at a termination settlement.

(d) While audit is not a prerequisite to ERDA's making payments under a contract, audit is necessary prior to making final payment under cost-type contracts and under any special research support agreement when the contracting officer specifically requests an audit to determine whether the charges to the contract are proper or when other conditions indicate that such an audit is warranted. If any such audits result in findings which may be of value to Headquarters Divisions in their determinations regarding selection and renewal of research projects, such findings should be made available to the cognizant Headquarters Division.

§9–4.5112–7 Security.

As a general rule, it is not anticipated that investigators will need access to classified information in the conduct of basic research supported or sponsored by the ERDA. When, in the judgment of the principal investigator, information is developed which should be classified, he or the contracting institution will notify the appropriate ERDA field office immediately. When in the opinion of the cognizant ERDA Headquarters Program Division, the work moves into a classified area, prompt steps should be taken to notify the contractor and the appropriate ERDA field office.

§9–4.5112–8 Patents.

Article B-VIII(d) of the special research support agreement set forth in §9–16.5002–8 and Article B-7(d) of the cost-type contract set forth in § 9–16.5002–9 provide for exceptions to the requirement for inclusion of this article in subcontracts, if authorized by the ERDA in writing. A letter of exception may be issued, upon request with respect to purchase orders for standard or normal facilities, equipment, materials, and supplies, and other purchase orders for products where the consideration does not include compensation or other allowance for research.

Subpart 9–4.52—Unsolicited Proposals for Research & Development Contracts Submitted by Individuals & Commercial & Not-For-Profit Organizations Other Than Educational Institutions

§9–4.5201 Definitions.

(a) An "unsolicited proposal" is a written offer to perform research and development work (including feasibility studies) submitted by an organization or individual solely on its own initiative and not in response to a specific request made by ERDA solely to the proposer.

(b) The "responsible program official" is the Headquarters Director of the Program Division of ERDA within whose area of programmatic responsibility falls the research and development work contemplated by the unsolicited proposal.

§9–4.5202 Policy.

(a) It is the policy of ERDA to encourage organizations and individuals to originate valuable ideas for research and development work that is in furtherance of ERDA's mission, and to submit such ideas in unsolicited proposals.

(b) An unsolicited proposal may be accepted upon a determination by the responsible program official or his designee that award of a contract to the proposer without going through procedures for further competition is justified on the ground that (1) the purpose of the contract is to explore an idea or carry out an initial development which (i) is submitted by the proposer on his own initiative, (ii) does not unnecessarily duplicate research work already under way or contemplated by ERDA, and (iii) is not already known by ERDA or has previously unrecognized merit or value; or (2) there is no substantial question as to the choice of the source (for example, where only the proposer is found fully qualified as a result of thorough technical evaluation); or (3) acceptance is otherwise specially authorized by statute.

(c) The responsible program official or his designee shall appoint a panel which shall evaluate and make a recommendation on each unsolicited proposal with respect to the criteria in paragraph (b) of this section.

(d) Information contained in unsolicited proposals shall be treated in accordance with the policies and procedures set forth in §9–3.150.

(e) It is the policy of ERDA to encourage cost sharing by organizations which submit unsolicited proposals. (See Subpart 9–4.56.)

§9–4.5203 Procedure.

Prior to negotiating a contract on the basis of an unsolicited proposal, the responsible program official or his designee shall:

(a) Determine that the work proposed is expected to be of benefit to ERDA programs and the proposer is considered to be technically well-qualified to undertake the work;

(b) Make the findings and determination required to support the procurement by negotiation (see §9–3.301); and

(c) Determine that the selection of the particular organization or individual for award of the contract without competition meets the criteria in §9–4.5202.

Subpart 9–4.53—Resolution of Measurement Differences Concerning Source and Special Nuclear Material Transfers

§9–4.5300 Source and special nuclear material transfers.

This subpart describes those principles regarding the resolution of measurement differences which should be used as guides in the preparation of contracts, leases, or other agreements by ERDA or cost-type contractors in which monetary payments or credits depend on the quantity and quality of source and special nuclear material.

§9–4.5301 Contract, lease or agreement.

(a) Every such contract, lease or agreement should contain:

(1) A description of the material to be transferred;

(2) A provision specifying the method by which the quantity and quality are to be measured and reported;

(3) A provision specifying the procedures to be used in resolving any differences arising as a result of such measurements;

(4) A provision providing for the use of an umpire to settle unresolved differences in the analytical samples; and

(5) A provision specifying in detail which party shall bear the costs of resolving a difference and what constitutes such costs.

(b) The provisions providing for resolution of measurement differences must be such that resolution is always accomplished while at the same time minimizing any advantage one party may have over the other.

Subpart 9–4.54—Contracts and Subcontracts Utilizing Special Nuclear Material

§9–4.5400 Scope of subpart.

This subpart sets forth the policies and procedures of the Energy Research and Development Administration for furnishing special nuclear material (which term for the purpose of this subpart only means "uranium enriched in the isotope U^{233} and plutonium other than Pu^{238}") under a lease agreement for use under ERDA fixed-price contracts or subcontracts in any tier (when the contractor or subcontractor is licensed by ERDA to possess and use the special nuclear material), which call for the production of special nuclear products, including fabrication and conversion, for Government use. This subpart also sets forth policies limiting the use of cost-type contracts and subcontracts (where all higher-tier arrangements are cost-type) for such purposes, as well as for scrap recovery services.

§9–4.5401 Use of lease agreement.

(a) Special nuclear material shall be furnished under ERDA fixed-price contracts and subcontracts subject to this subpart only pursuant to a standard form lease agreement. Lease agreements for uranium will be executed and administered by the ERDA Oak Ridge Operations Office, Post Office Box E, Oak Ridge, Tenn. 37830. Lease agreements for plutonium except Pu^{238} will be executed and administered by ERDA Richland Operations Office, Post Office Box 550, Richland, Wash. 99352.

(b) Any exception to the financial responsibility of contractors and subcontractors for Government-furnished special nuclear material provided for in the standard contract article §9–4.5402 and in the standard form lease agreement shall be made only with the approval of the Director of Procurement.

§9–4.5402 Contract article covering special nuclear material.

Contracts and subcontracts involving special nuclear material to be furnished to the contractor or subcontractor pursuant to the lease agreement referred to in §9–4.5401 shall include an article substantially as follows:

STANDARD CONTRACT ARTICLE COVERING SPECIAL NUCLEAR MATERIAL

(a) Except as otherwise agreed, all special nuclear material used in the performance of this contract shall be material owned by the ERDA which is obtained under a standard form ERDA Lease Agreement (hereinafter referred to as the "Lease Agreement").

(b) The contractor shall be responsible for obtaining the special nuclear material required in the performance of this contract, including making arrangements for and/or execution of a Lease Agreement to enable the contractor and all subcontractors to order and possess special nuclear material for the purposes of this contract. Except as otherwise provided in this contract, the terms and conditions of the Lease Agreement shall govern with respect to all special nuclear material utilized, or to be utilized, in the performance of this contract. The Government shall not be responsible for any delays or liable for any damages resulting from the contractor's failure or inability to obtain such material; or resulting from cancellation of said Lease Agreement. If special nuclear material required in the performance of this contract is furnished by the ERDA under the Lease Agreement, and if the term of such Lease Agreement would otherwise expire during the period of performance of this contract, the ERDA may extend the term of the Lease Agreement to permit use of such material for completion of performance of work under this contract, or will make other arrangements to furnish such material pursuant to this contract.

(c) Nothing herein shall require the contractor to assume lease responsibility for any special nuclear material which is otherwise subject to and covered by a Lease Agreement.

(d) The Contracting Officer will furnish to the contractor and/or subcontractors, upon compliance with (e)(1) below, credit memoranda equal to the total amount of use charge credits provided for in this contract, which, subject to the conditions hereinafter provided, may be utilized in payment of use charges due or which may become due for special nuclear material pursuant to a Lease Agreement.

(e) The conditions applicable to the issuance and redemption of use charge credit memoranda are:

(1) The contractor shall submit applications for all use charge credits for the performance of work under this contract, and each such application shall specify the Lease Agreement number to

which the credit is to be issued. The contractor shall certify in each such application that it pertains to work under this contract and is true and correct to the best of his knowledge and belief. If such credit or a portion thereof is to be issued to a subcontractor under this contract, the contractor shall specify in his application the amount of such credit and the Lease Agreement number and subcontractor to which the credit is to be issued.

(2) Except as provided in this paragraph, credit memoranda will be issued upon completion of the contract work. Where the contract includes a partial or progress payments clause, a credit memorandum will be given, if proper application is made, for use charges incurred with respect to material used under this contract for the period covered by such partial or progress payment. Where billings are made for use charges on material used in the performance of work under this contract prior to completion of the contract or before partial or progress payments are due, a credit memorandum for the amount of use charge incurred with respect to material used under this contract will be given if proper application is made.

(3) The amount of use charge credit provided for in this contract will be adjusted to reflect any change in the ERDA's published base charges and use charge rates for special nuclear material during the performance of this contract.

(4) The credit memoranda provided for in this article may be used only by the person to whom issued in payment of use charges due from such person under a Lease Agreement. Credit memoranda issued for uranium may be applied only against use charges incurred under a lease for uranium, and credit memoranda issued for plutonium may be applied only against use charges incurred for plutonium under a lease for plutonium. It is expressly understood and agreed that such credit memoranda are not negotiable; may not be transferred to or utilized by any other person; and are not redeemable in cash. They may not be used in payment of any charges due under any other agreement for special nuclear material; nor in payment of any other obligation to the Government.

(5) The amount of use charge credit provided for in this contract shall be subject to equitable adjustment under the "Changes" article of this contract.

(6) Within a reasonable time after the execution of the contract, the contractor will provide to the contracting officer on a continuing basis a forecast showing by month the use charge credit memorandums to be earned under the contract.[1]

§9–4.5403 Invitations for bids and requests for proposals.

Invitations for bids or requests for proposals which will result in a contract or subcontract involving special nuclear material to be furnished under the Lease Agreement referred to in §9–4.5401 shall contain as a term or condition of such invitation to bid or request for proposals the following paragraph:

Bidders (proposers) shall be responsible for obtaining under the terms and conditions of a standard lease agreement special nuclear material necessary for the performance of any resulting contract (or subcontract). The lease agreement requires the payment of a use charge for the special nuclear material subject to the agreement. However, Article ——————————of the proposed contract, attached hereto, provides for the issuance by the contracting officers of a use charge credit applicable to work under the proposed contract. Bids (proposals) shall separately state, based on the quantity of material and the time (including the time necessary for recovery of scrap) required for the performance of the contract (or subcontract): (1) the total dollar amount of use charge credit, such total to include all use charge credits, if any, to lower-tier subcontractors; and (2) the total dollar amount of cash bids (quotation) price (the difference between the total bid and the total dollar amount of use charge credit) to be paid to the contractor (subcontractor). Bids (proposals) will be evaluated on the basis of the total sum of the total dollar amount of use charge credit (including all use charge credits to lower-tier subcontractors) specified by the bidder (proposer) and the cash bid (quotation) price. In addition to any other right of rejection of bids (proposals) provided for herein, the Government (contractor) specifically reserves the right to reject any bid (proposal) if, in the judgment of the contracting officer (representative of the contractor), the total bid (proposal) is excessive or the amount of the use charge credit specified is either unreasonably high or low in relation to the quantity of special nuclear material required and the time required for performance of the proposed contract.

§9–4.5404 Contracts and subcontracts for fabrication, conversion, and scrap recovery.

(a) Contracts and subcontracts for fabrication of end items using special nuclear material generally shall be of the fixed-price type. Cost-type contracts or subcontracts for fabrication shall be used only with the approval of the Manager of the Field Office, and this approval authority shall not be redelegated.

[1]This information is needed for ERDA accounting and budgeting purposes only. Contracting Officers shall furnish copies of forecasts covering uranium to the Manager, OR, and forecasts covering plutonium to the Manager, RL.

(b) Contracts and subcontracts for conversion or scrap recovery of special nuclear material shall be of a fixed-price type except as otherwise approved by the Director of Procurement.

Subpart 9–4.55—Multiyear Procurement

§9–4.5500 Scope of subpart.

(a) This subpart sets forth policies and procedures applicable to competitive procurements on a fixed-price or unit-price basis for known requirements of supplies or services over a multiyear period when the total funds required are not available for the entire procurement at the time the procurement contract is executed. This subpart does not apply to long-term contracts which are fully obligated at the time of execution, or which are otherwise specifically authorized by law (e.g., section 161u. of the Atomic Energy Act of 1954, as amended).

(b) The policy in §9–4.5501 shall be applied to cost-type contractor procurement.

§9–4.5501 Policy.

(a) It is ERDA policy to use the multiyear procurement method to the maximum extent consistent with the requirements of this subpart in order to: (1) Stimulate maximum realistic competition by minimizing competitive disadvantage or disinterest in procurements involving, at least initially, substantial capital or noncapital startup costs or make-ready expense; or (2) obtain lower prices in those procurements which provide opportunity for substantial cost savings and other advantages through assurance of continuity of production or service over longer periods of time.

(b) The multiyear procurement method shall not be used:

(1) If funds covering the procurement are limited by statute for obligation during the fiscal year in which the procurement contract is executed;

(2) When the supply or service being procured in regularly produced or provided and offered for sale in substantial quantities in a commercial market reasonably available;

(3) For quantities in excess of the planned requirements set forth in, or in support of, current approved ERDA Program and Financial Plans or for periods in excess of 3 years; or

(4) When any one of the criteria set forth in §9–4.5502 is not present.

(c) In any multiyear procurement, it is ERDA policy to consider the desirability of obtaining options to renew the contract for reasonable periods at prices not to include any nonrecurring costs such as charges for plant and equipment already amortized. In addition, where a multiyear procurement involves an initial investment in plant and equipment which will constitute an appreciable portion of the cost of contract performance, it is ERDA policy to consider the desirability of reserving the right, upon payment of the unamortized portion of the plant or equipment, to take title thereto under appropriate circumstances.

§9–4.5502 Criteria for use of multiyear procurement.

All of the following criteria must be met in order to procure on a multiyear basis:

(a) Significantly reduced unit prices can be reasonably anticipated over successive annual procurements by reason of continuity of production or service or by reason of elimination or reduction of repetitive substantial startup costs or substantial contingent expense, including such costs or expenses as preproduction engineering, special equipment or tooling, plant rearrangement, and assembly, training, or transportation of a specialized work force;

(b) There is reasonable expectation that effective competition can be obtained;

(c) There are known requirements for the supplies or services to be procured, and relatively stable production or service can be reasonably anticipated throughout the multiyear period; and

(d) The design and specifications of the item or the character of the service are expected to remain relatively stable for the multiyear period.

§9–4.5503 Exceptions.

Exception by reason of some overriding programmatic consideration from any limitation set forth in §9–4.5501 or from any of the criteria set forth in §9–4.5502 shall not be made unless approved by the Director of Procurement.

§9–4.5504 Procedure to be followed in multiyear procurements.

(a) Formal advertising is the preferred method for use in multiyear procurement. Normally, the solicitations shall request bids or proposals on both the first year and the multiyear basis. The solicitations should also require that the unit price for each item in the multiyear requirement be the same for all years included therein, and that the portion of the cost of any plant and equipment amortized as a cost of contract performance should not exceed the ratio between the period of contract performance and the anticipated useful commercial life of such plant or equipment. If competition for future procurements of the supplies or services would be impracticable after award of a contract for the first year only, the solicitation should ask for bids only for the total multiyear requirements. Any requirements with respect to options and title to plant or equipment resulting from the policy considerations in §9–4.5501(c) should also be set forth in the solicitation.

(b) If award is made on a multiyear basis, funds are obligated only for the first year's procurement (including any agreed-to cancellation charges), with succeeding years funded annually thereafter.

(c) Cancellation results from notification from the contracting officer (pursuant to a cancellation provision in the multiyear contract) to the contractor of nonavailability of funds for contract performance for any subsequent year or failure of the contracting officer to notify the contractor that funds have been made available for the succeeding year. A cancellation charge may be provided for where substantial startup costs or substantial contingent expenses are involved. In such cases, the contracting officer shall, for each year except the last, establish cancellation ceilings applicable to the remaining years subject to cancellation. Requirements with respect to cancellation and cancellation charges, if any, shall be set forth in the solicitation.

(d) Evaluation of offers in a multiyear procurement involves not only the determination of the lowest overall evaluated cost to the Government for both alternatives (the multiyear and the first-year alternatives), but also the comparison of the cost of buying the total requirement under a multiyear procurement with the estimated cost of buying the total requirement in successive independent procurements. All the factors to be considered for the various evaluations involved shall be set forth in the soliciation. The cancellation ceilings, if any, shall not be factors for evaluation.

(e) Award shall be made to that responsible offeror whose offer, conforming to the solicitation, will be most advantageous to the Government, price and other factors considered. In no event shall award be made at an unreasonable price.

(f) Cancellation effected pursuant to the "Cancellation" clause shall not be construed to terminate the contract pursuant to the "Termination" clause. If the contract is terminated for the convenience of the Government, the Government's liability shall not exceed the amount then obligated for contract performance (including any agreed-to cancellation ceiling).

§9–4.5505 Special clauses for use in multiyear contracts.

All multiyear awards made under the multiyear procurement method described herein shall contain the clauses set forth in §§9–7.5006–57 and 9–7.5006–58.

Subpart 9–4.56—Cost Sharing

§9–4.5600 Scope of subpart.

This subpart sets forth the policy of the Energy Research and Development Administration on cost sharing by organizations performing basic and applied research under ERDA prime contracts and agreements.

§9–4.5601 Policy.

It is the policy of the ERDA to encourage, when appropriate, participation by the performing organization in the cost of research effort. While not required of the ERDA by statute, cost sharing is encouraged to obtain a larger national effort in the nuclear energy field and to recognize that the research is also normally of benefit to the performing organization.

§9–4.5602 Application.

(a) This policy applies to research contracts and agreements with educational institutions, other not-for-profit or nonprofit organizations and commercial or industrial organizations, or other organizations except other Federal agencies. This policy ordinarily will not be applied in the following cases:

(1) Contracts for the operation of Government-owned or leased, contractor-operated facilities;

(2) Continuing cost reimbursement contracts for mission-oriented, large-scale research programs performed in research centers using equipment or facilities which are usually either partially or wholly Government owned.

(b) This policy need not be applied where deemed inappropriate by the cognizant Headquarters Division Director or Field Office Manager (whoever selects the contractor) or their designees for any of the following reasons:

(1) It is a development effort the principal purpose of which is the production of, or the design, testing or improvement of, products, materials, devices, systems, or methods such as projects connected with the LMFBR program, the Naval Reactors program or the ROVER program;

(2) The research effort has only minor relevance to the performing organization's non-Federal activities;

(3) The performing organization has little or no non-Federal sources of funds from which to make a cost contribution;

(4) The performing organization is predominantly engaged in research and development and has little or no production or other service activities to which knowledge obtained from the research effort may be gainfully applied;

(5) The research objective or scope of the effort is specified by the ERDA rather than proposed by the performing organization (e.g., a contract resulting from a request for proposal);

(6) It is concluded that payment of the full cost of the research effort is necessary in order to obtain the services of a particular organization.

§9–4.5603 Amount of cost sharing.

The extent and type of cost sharing will be established by mutual agreement of the parties with consideration given to the research effort and the organization performing it. When an amount is determined for a contract or agreement, the organization's participation over the total term of the project may be considered so that a relatively high contribution in one year may be offset by a relatively low contribution in another. Cost participation may be accomplished by a contribution to any of the cost elements under a research contract or agreement, either direct or indirect costs, provided that such costs would otherwise be allowable and are not charged to the Federal Government under any other contract, agreement, or grant.

(a) Cost participation by educational institutions and other not-for-profit or nonprofit organizations should normally be more than on a token basis; however, cost shar-

ing of less than 5 percent of total project cost may be appropriate in view of these organizations' nonprofit status and their normally limited ability to recover the cost of such participation from non-Federal sources. Educational institutions will normally be expected to provide a higher degree of cost sharing when, for example:

(1) The cost of the research consists primarily of the academic year salary of faculty members;

(2) Equipment acquired by the institution for the project will be of significant value to the institution in its educational activities; or

(3) The institution has demonstrated a substantial interest in a particular agea of research as evidenced by the establishment of a higher degree of cost sharing under prior contracts or agreements.

(b) Commercial or industrial organizations might contribute amounts ranging up to 50 percent or more of the total project cost. The amount of their cost sharing participation should depend principally on whether, and to what degree, the results of the research are likely to enhance their capability, expertise, or competitive posture. However, these potential benefits would be lessened if the performing organization lacks production or other service activities to which the research results might be commercially applied, as is likely to be the case with a predominantly research and development organization.

(c) The level at which a performing organization cost shares may depend to some degree upon the extent to which the organization will receive or be expected to receive rights in and to any inventions, patents, or technical information that may result from the research effort and the degree to which the organization is likely to benefit thereby.

(d) A relatively low degree of cost sharing may be appropriate if a particular area of research requires special stimulus in the national interest.

(e) A fee, profit, or an amount otherwise accepted as allowable for independent research, if any (see ERDA-PR 9-15.5010-12 for policy on independent research and development), will usually not be paid if the performing organization is to contribute to the cost of the research effort, but the amount of cost sharing may be reduced if the performing organization is foregoing its normal fee or profit or an otherwise acceptable amount for independent research. Alternatively, the contribution may take the form of reduced fee or profit or a reduced amount otherwise accepted as allowable for independent research, particularly if the research contracted for is expected to be of relatively minor value to the performing organization.

§9-4.5604 Records.

Recipients of contracts or agreements which provide for cost sharing shall be required to maintain records adequate to reflect the nature and extent of their cost contribution as well as those costs charged to the ERDA. Such records shall by subject to audit by the ERDA. This requirement does not apply to contributions of effort made by principal investigators as provided in ERDA-PR 9-4.5107-2(d).

TABLE OF CONTENTS

PART 9-5—SPECIAL AND DIRECTED SOURCES OF SUPPLY

9–5.5206–13 Gasoline, fuel oil (diesel and burner), kerosene and solvents.
9–5.5206–14 Gold.
9–5.5206–15 Purchase of sundry items from Government Printing Office.
9–5.5206–16 [Reserved]
9–5.5206–17 Mandatory items—prison-made and blind-made products.
9–5.5206–18 [Reserved]
9–5.5206–19 [Reserved]
9–5.5206–20 Materials handling equipment replacement standards.
9–5.5206–21 Calibration services.
9–5.5206–22 U.S. Code Annotated and Lifetime Federal Digest.
9–5.5206–23 Wiretapping and eavesdropping equipment.
9–5.5206–24 Coal.
9–5.5206–25 Procurement of gas masks and canisters.
9–5.5206–26 Procurement of electronic data processing tape.
9–5.5206–27 Procurement of masking devices.
9–5.5207 Special materials.
9–5.5207–1 [Reserved]
9–5.5207–2 Heavy water.
9–5.5207–3 Platinum.
9–5.5207–4 [Reserved]
9–5.5207–5 Jewel bearings.

Subpart 9–5.53—Procurement of General Purpose Automatic Data Processing Equipment and Related Items

Sec.
9–5.5300 Scope of subpart.
9–5.5301 Definition of ADPE.
9–5.5302 Authority to procure general purpose ADPE.
9–5.5303 Submission of procurement documents and Agency Procurement Requests (APR) to GSA.
9–5.5304 Automatic Data Processing Fund.

Subpart 9–5.54—Use of Procurement and Supply Management Support Services at the Nevada Test Site and the Nuclear Rocket Development Station

9–5.5400 Scope of subpart.
9–5.5401 Policy.

Subpart 9–5.55—Purchase or Lease Determinations

9–5.5500 Scope of subpart.
9–5.5501 Policy.
9–5.5502 Utilization of excess equipment or interests in equipment.
9–5.5503 Maintenance of records.
9–5.5504 Funding considerations.
9–5.5505 Leasing of equipment.

PART 9–5—SPECIAL AND DIRECTED SOURCES OF SUPPLY

§9–5.000 Scope.

(a) This part implements and supplements FPR Part 1–5, Special and Directed Sources of Supply.

(b) The ERDA–PR provisions referenced below pertain to cost-type contractor procurement: §§9–5.300, 9–5.500, 9–5.901, 9–5.1001, 9–5.5001, 9–5.5101, 9–5.5200, 9–5.5400, and 9–5.5500.

Subpart 9–5.3—Excess Personal Property

§9–5.300 Scope of subpart.

(a) This subpart implements and supplements the policies, procedures, and requirements in FPR Subpart 1–5.3 concerning the use of excess personal property as a source of supply.

(b) The policies, procedures, and requirements of FPR Subpart 1–5.3 shall be applied to cost-type contractors.

Subpart 9–5.5—Interagency Motor Pool Vehicles and Related Services Available to Government Contractors

§9–5.500 Scope of subpart.

(a) This subpart implements and supplements the policies and procedures in FPR Subpart 1–5.5 that govern Federal agencies in authorizing their prime cost-type contractors and cost-type subcontractors thereunder to obtain interagency motor pool vehicles and related services.

(b) The provisions of FPR Subpart 1–5.5 shall be followed in authorizing cost-type contractors and cost-type subcontractors to utilize interagency motor pool vehicles and related services.

(c) Authorized cost-type contractors and cost-type subcontractors shall be required to submit their requests for service in accordance with the provisions of FPR 1–5.503.

Subpart 9–5.9—Use of GSA Supply Sources by Contractors Performing Cost-Reimbursement Type Contracts

§9–5.900 Scope of subpart.

This subpart prescribes policies and procedures to be followed by ERDA offices regarding the use of GSA supply sources by cost-type contractors.

§9–5.901 Policy.

It is ERDA policy that cost-type contractors should meet their requirements from GSA sources of supply if these sources are made available to them, and if it is economically advantageous or otherwise in the best interest of the Government.

§9–5.902 Use of GSA supply sources by ERDA cost-type contractors.

(a) Managers of Field Offices may authorize cost-type contractors and cost-type subcontractors where all higher tier contracts and subcontracts are of cost type, to use General Services Administration (GSA) supply sources (i.e., items available through Federal Supply Schedule contracts and other GSA contracts and from GSA stores stock) in accordance with the requirements and procedures in FPR Subpart 1–5.9.

(b) Direct procurement by ERDA, rather than by a cost-type contractor, shall be required where deemed necessary by the Managers of Field Offices in order to carry out special requirements of appropriation acts or other applicable laws relating to particular items.

(c) Contracting officers, when reviewing the procurement systems and methods of those cost-type contractors that have been authorized to use GSA sources of supply, shall assume that provision is made for documenting the justification of procurements from commercial sources of items available from GSA sources of supply. The Director of Procurement shall be informed of instances in which GSA sources of supply are not used because of the quality of the item available from GSA.

Subpart 9–5.10 [Reserved]

Subpart 9–5.50 Use of Excess Materials From GSA Inventories

§9–5.5001 Use of excess materials from General Services Administration inventories.

(a) It is the policy of the ERDA to comply with the provisions of the Federal Property Management Regulations Part 101–14, Strategic Critical and Other Material, as supplemented from time to time by FPMR Bulletins.

(b) Section 3.0 of Defense Mobilization Order 8600.1B, dated April 11, 1973, provides that "Under such policies and procedures as the Administrator of General Services may prescribe, Government agencies which directly or indirectly use strategic and critical materials shall fulfill their requirements through the use of materials in Government inventories that are excess to the needs thereof."

(c) ERDA offices shall fulfill their requirements for strategic and critical materials through use of the excess strategic and critical materials in the GSA inventories.

(d) Contracting officers shall require their cost-type contractors, which use strategic and critical materials, to fulfill their requirements through the use of the excess strategic and critical materials in the GSA inventories.

(e) General Services Administration (ANSD), Washington, D.C. 20405, should be contacted directly for any detailed information concerning specifications, prices, and method of placing the order.

Subpart 9–5.51—Use of Government Sources of Supply

§9–5.5100 Scope of subpart.

This subpart sets forth procedures to be followed in making purchases from Government sources. (For the purchase of specific items, see Subpart 9–5.52, Procurement of Special Items.)

§9–5.5101 Policy.

It is ERDA policy to use Government sources of supply to the fullest extent practicable, and that cost-type contractors should meet their requirements from Government sources of supply, if these sources are made available to them and if it is economically advantageous or otherwise in the best interest of the Government.

§9–5.5102 Use of GSA supply sources for ERDA direct procurements.

(For the use of GSA supply sources by cost-type contractors, see Subpart 9–5.9.)

Items listed in Federal Supply Schedules and in Federal Supply Service stores catalogs shall be procured in accordance with FPMR 101–26.3 and 101–26.4.

§9–5.5103 Use of Government sources of supply other than GSA.

(a) Managers of Field Offices may authorize cost-type contractors to acquire materials and services directly from such Government sources of supply in accordance with the requirements of this subpart or the consent of agencies involved.

(b) Direct procurement by ERDA, rather than by a cost-type contractor, shall be required where deemed necessary by the Managers of Field Offices in order to carry out special requirements of appropriation acts or other applicable laws relating to particular items.

§9–5.5104 Exclusive use on Government work.

Materials, supplies, and equipment procured from Government sources of supply under the procedures described herein must be used exclusively in connection with Government work except as otherwise authorized by Managers of Field Offices.

§9–5.5105 Department of Defense.

§9–5.5105–1 Source.

Many supply facilities and contracts of the Department of Defense are made available to ERDA and its cost-type contractors. Field Offices will be notified by the Division of Procurement when such contracts and facilities are made available. Inquiries in connection with these sources may be directed to the Director of Procurement. Requisitions or purchase orders shall be submitted directly to these sources, unless otherwise specified.

§9–5.5105–2 Requisitions.

Contractors' requisitions submitted to Defense Supply centers should include the following statement on the requisition: "The consignee of the supplies and materials requisitioned herein is acting in behalf of and as agent for the Energy Research and Development Administration with respect to the expenditure of Government funds." Orders submitted directly to DoD contractors shall be accompanied by an authorization substantially similar to that in FPR 1–5.903–2.

§9-5.5106 Procurement under the Economy Act from or through another Federal agency.

§9-5.5106-1 Scope.

This section deals with orders for supplies or services placed with another Government department or agency pursuant to the authority of the Economy Act of June 30, 1932, as amended (31 U.S.C. 686), except that it does not apply to any procurement covered by the other sections or subparts of ERDA-PR 9-5.

§9-5.5106-2 Authorization and policy relating to placing and filling orders.

(a) It is the policy of the Energy Research and Development Administration not to place Government agencies in direct competition with commercial sources. Accordingly, prior to soliciting bids or proposals from commercial sources, it shall be decided whether to obtain supplies or services from Government agencies. Invitations for bids and requests for proposals shall not be sent to Government agencies. Current market prices, recent procurement prices, or prices obtained by informational bids as provided in FPR 1-1.314 may be used to ascertain whether procurement can be effected more cheaply from commercial sources.

(b) Each procuring activity, when it is in the interest of the Government to do so, may place delivery orders with any other Government department or agency for supplies or services that any such requisitioned department or agency may be in a position and willing to furnish or perform.

§9-5.5106-3 Form of interagency agreement.

Interagency agreements may take any form which will adequately reflect the interest of the parties. The following provisions provide guidelines for the preparation of such agreements.

(a) The parties to the interagency agreement.

(b) Contract number, and modification number, if any.

(c) Scope of work.

NOTE: This may be identified by reference to the specific proposal.

(d) Period of interagency agreement and/or duration of the work.

(e) Cost estimate of the project and the amount of funds to be provided by the ERDA. Include (1) the total estimated cost of the work for the period of time specified in the agreement; (2) the capital equipment, if any, approved for acquisition under the agreement; and (3) limitations, if any, on the reimbursement of costs by the ERDA which are not set forth in the agreement. If the ERDA participates with another agency or agencies in sponsoring a work project, the amount of the contribution to be made by each agency and the basis for distributing the costs incurred shall be specified.

(f) Method of financing to be used.

(g) Standard clauses should be used as appropriate.

§9-5.5106-4 Methods of financing employed by ERDA.

(a) *Reimbursement basis.* ERDA requires except as specified in paragraphs (b) and (c) of this section, that work to be done by other agencies shall be financed by reimbursement on the basis of current billings or progress payments. This approach avoids much of the accounting and reporting work required when other methods of financing are used.

(b) *Consolidated working fund advance.* A consolidated working fund advance shall be used to finance construction projects or the acquisition of goods or services to be furnished by the servicing agency within the same fiscal year in which the advance is made, only after a determination has been made in accordance with paragraph (a) of this section that the reimbursement basis is not to be used.

(c) *Appropriation transfer.* An appropriation transfer shall be used to finance larger construction projects or the acquisition of significant goods or services to be furnished by the servicing agency where the work will extend beyond the fiscal year in which the transfer is made, only after a determination has been made in accordance with paragraph (a) of this section that the reimbursement basis is not to be used.

§9-5.5106-5 Cost reimbursement standards.

Costs actually incurred which are necessary or incident to the performance of the work are to be considered allowable for cost-reimbursement purposes. Such costs include direct and, where applicable, a properly allocable portion of indirect costs, as follows:

(a) Direct costs are the costs that can be directly identified with and charged to the work under the agreement. Examples of such costs are salaries and wages, technical services, materials, travel and transportation, communications, and any facilities and equipment expressly approved for purchase under the interagency agreement.

(b) Indirect costs shall be limited to the properly allocable portion of costs that cannot be charged directly to the work but that can be shown as mutually benefiting the work covered by the interagency agreement as well as other work of the servicing agency. Justification for any such charges shall be required, and the basis of allocation must be reasonable. The servicing agency's charge for any indirect costs shall not include any charges for "general administration" or "central agency overhead," since this activity and expense ordinarily is covered by the agency's appropriations.

Subpart 9-5.52—Procurement of Special Items

§9-5.5200 Scope of subpart.

This subpart sets forth requirements and procedures for the acquisition of special items by ERDA and cost-type contractors to the extent indicated herein.

§9-5.5201 Motor vehicles.

§9-5.5201-1 Scope of section.

This section covers the acquisition of motor vehicles including new, used, forfeited, and abandoned vehicles for use by either the ERDA or cost-type contractors.

§9-5.5201-2 [Reserved]

§9-5.5201-3 Consolidated purchase of new vehicles by General Services Administration.

(a) *Vehicles for use by ERDA or ERDA cost-type contractors.* New vehicles for use by ERDA and ERDA cost-type contractors shall be procured in accordance with FPMR 101-26.501.

(b) *Submission of purchase orders.* Except as determined necessary for internal accounting needs or purchasing records, orders should be made using GSA Form 1781 for vehicles covered by Federal Standard No. 122, Federal Standard No. 292, or Federal Standard No. 307. ERDA Form 103 or contractors' purchase order forms should be used for vehicles not covered by Federal Standard No. 122, No. 292, or No. 307.

(c) *Schedule of dates for submission or orders.* Generally, Managers of Field Offices shall consolidate and submit directly to GSA their requirements for vehicles not included in volume procurements.

(d) *Replacement of used vehicles.* Managers of Field Offices and the Director, Division of Headquarters Services may arrange to sell used motor vehicles being replaced and to apply the proceeds on the purchase of similar new vehicles. However, in the event personnel are not available to make such sales, or it is in the best interest of a particular office, GSA may be requested to sell the used vehicles.

§9-5.5201-4 Direct purchase.

Vehicles may be procured by field offices from other sources where specific clearance has been granted by GSA. A copy of the field office request to GSA for clearance shall be forwarded to the Director of Procurement for information. In those cases where a clearance has not been granted by GSA and where it is believed that procurement through GSA would impair or adversely affect the program, clearance for direct procurement shall be obtained from the Director of Procurement, prior to the procurement. The purchase price shall not exceed any statutory limitation in effect at the time the procurement is made.

§9-5.5201-5 Used vehicles.

Normally ERDA does not purchase or authorize cost-type contractors to purchase used vehicles. However, Managers of Field Offices may authorize the purchase of used vehicles where justified by special circumstances, e.g., when new vehicles are in short supply or the vehicles are to be used for experimental or test purposes. (The passenger vehicle allocation requirements for ERDA shall apply to any purchase of used vehicles except in the case of those to be used exclusively for experimental or test purposes.)

§9-5.5201-6 Forfeited or abandoned vehicles.

Vehicles which have been abandoned to, or seized by and forfeited to, the Government are available for transfer to Federal agencies by the Federal Supply Service, GSA, in accordance with the provisions of the Act of August 27, 1935 (40 U.S.C. sections 304f-304m). Whenever forfeited or abandoned vehicles are available for transfer to

ERDA, the Utilization and Disposal Service, Personal Property Division, Region 3, GSA, Washington, D.C. 20407, will notify the Division of Procurement, Headquarters, of such availability and allow ERDA approximately 3 days to determine whether the vehicles can be utilized. Within that time, the Division of Procurement will make the necessary arrangements with GSA for the release of any required vehicles. (See FPMR 101–43.4.)

§9–5.5202 Typewriters.

§9–5.5202–1 Scope.

This section covers the purchase, for use by either ERDA or cost-type contractors, of (a) typewriters whether to fill initial requirements or for replacement purposes and (b) typewriter repair and reconditioning services.

§9–5.5202–2 Definition.

"Typewriters" are manually and electrically operated machines having standard or special keyboards, designed to produce printed characters by impression of type upon paper through the medium of an inked ribbon. The term includes the varityper, hektowriter, proportional spacer, flexowriter, justowriter, and portable typewriting machines but does not include bookkeeping, billing, or teletypewriting machines.

§9–5.5202–3 Replacement standards.

Typewriters shall be purchased for replacement purposes in accordance with the standards established by GSA.

§9–5.5202–4 Procedures and requirements for purchase, rental, repair, and maintenance.

(a) *Orders.* Purchase orders for typewriters, whether for replacement or otherwise and for rental, repair or maintenance of typewriters, shall be prepared and transmitted to the appropriate Federal Supply Schedule Contractor. ERDA contracting officers shall use Form ERDA–103 for such purpose. When cost-type contractors are authorized to make purchases under Federal Supply Schedules, Managers of Field Offices may authorize them to use their own purchase order forms properly identified according to FPR Subpart 1–5.9.

§9–5.5202–5 Justifications.

(a) The justification which is required for ERDA direct procurements of typewriters made at price other than the lowest delivered price available is set forth in FPMR 101–26.408–3.

(b) *Electric typewriters.* Electric typewriters for use by ERDA and its cost-type contractors may be purchased only when the ERDA standards are met.

(c) *Regulations.* The procurement of typewriters that will be used for printing shall comply with the approval requirements of the Joint Committee on Printing.

§9–5.5203 Printing equipment and printing services.

§9–5.5203–1 Regulations.

The Joint Committee on Printing, Congress of the United States, periodically publishes "Government Printing and Binding Regulations." These regulations govern the acquisition, use, and disposal of printing equipment and the procurement of printing services. When cost-type contractors operate printing plants, Managers of Field Offices shall require such contractors to comply with those portions of the regulations covering the operation of printing plants.

§9–5.5203–2 Purchase, exchange, or transfer of printing equipment.

All purchases of new printing equipment (including replacements for existing equipment), transfers of equipment from one printing plant to another, or disposals of equipment as excess property must be approved by the Joint Committee on Printing, whether such actions are to be taken by ERDA or by cost-type contractors. Requests for approval shall be submitted through the Publications and Visual Aids Branch, Division of Headquarters Services. When approval to purchase is granted, printing equipment should be purchased either by ERDA or cost-type contractors in accordance with regular procurement procedures.

§9–5.5204 Alcohol.

§9–5.5204–1 Scope.

This section covers (a) Bureau of Alcohol, Tobacco and Firearms, Treasury Department, alcohol regulations applicable to ERDA, (b) delegations of authority to submit applications to purchase tax-free alcohol or specially denatured alcohol, and (c) purchases of alcohol by ERDA or cost-type contractors. To the fullest extent practicable, alcohol for use by ERDA or its cost-type contractors shall be procured on a tax-free basis.

§9–5.5204–2 Regulations.

Bureau of Alcohol, Tobacco and Firearms regulations relating to the procurement and use of alcohol free of tax, by Government agencies, are set forth in 26 CFR 213.141–213.146. Copies of excerpts from these regulations may be secured from the Bureau of Alcohol, Tobacco and Firearms, Washington, D.C. 20226. These regulations will be followed in the procurement of alcohol.

§9–5.5204–3 Application forms and permits.

ATF Form 1486, "Specially Denatured Spirits for Use of United States," and ATF Form 1444, "Tax Free Spirits for Use of United States," shall be used for procurements of specially denatured alcohol and ethyl alcohol, respectively. Part I of each form is the application for permission to procure and Part II is the permit. If procurement from more than one warehouse is desirable, separate applications must be made for withdrawals from each warehouse. When permits are no longer required, they should be forwarded to the Bureau of Alcohol, Tobacco and Firearms for cancellation. Alcohol procured by use of the ATF forms referred to in this subsection shall be used exclusively on ERDA work.

§9–5.5204–4 Authority to sign applications.

Specific ERDA personnel have been authorized to execute Part I of Forms 1444 and 1486 by letters to the Director, Bureau of Alcohol, Tobacco and Firearms without power of redelegation. Copies of such letters have been furnished to field offices. In addition, the Director of Procurement has been authorized to sign and delegate to others authority to sign applications under Bureau of Alcohol, Tobacco and Firearms regulations relating to the procurement and use of alcohol free of tax. Only the individuals so authorized shall execute Part I of these forms. Requests by field offices for new authorizations or discontinuance of existing authorizations shall be submitted by letter to the Division of Procurement, Headquarters. Requests for new authorizations shall be accompanied in each case by a 30 by 50 plain card with the following information typed thereon:

_____, whose signature appears below, is authorized to sign application Forms 1444 and 1486, on behalf of the Energy Research and Development Administration

_____
(Signature)

_____
(Title)

§9-5.5204-5 Filing applications.

Applications shall be executed in duplicate by the authorized ERDA official and mailed directly to the Director, Bureau of Alcohol, Tobacco and Firearms, Washington, D.C. 20226. No transmittal letter is required. Where alcohol or specially denatured alcohol is for use directly by ERDA, the form shall indicate that shipment shall be made to the appropriate ERDA field office. Where a cost-type contractor will be the user, the form shall indicate that shipment shall be made to the Energy Research and Development Administration in care of the cost-type contractor.

§9-5.5204-6 Forms and authorized plants.

Annually, the Bureau of Alcohol, Tobacco and Firearms publishes printed lists of Distilled Spirits Plants, Bonded Warehouses and Denaturing Plants Authorized to Operate. Copies of these lists and supplies of Forms 1444 and 1486 may be secured by written request to the Director, Bureau of Alcohol, Tobacco and Firearms, Washington, D.C. 20226.

§9-5.5204-7 Placing the order.

A signed copy of the permit shall accompany the original purchase order issued to the plant or warehouse, where it will be retained. Subsequent orders shall refer to the permit on file in the plant or warehouse. Order Form ERDA-103 shall be issued by ERDA for cost-type contractors' requirements, except as provided in §9-5.5204-9.

§9-5.5204-8 Notice of shipment.

When alcohol is shipped, the shipper prepares the required forms as specified by Bureau of Alcohol, Tobacco and Firearms regulations and forwards them to the consignee. Upon receipt of the receiving report covering the shipment, the officer who signed the purchase order shall execute the certificate of receipt and forward it to the appropriate Regional Director, Bureau of Alcohol, Tobacco and Firearms. The carrier transporting the alcohol shall also be given a receipt as specified by Bureau of Alcohol, Tobacco and Firearms regulations.

§9-5.5204-9 Orders placed by cost-type contractors.

(a) *Specially denatured alcohol.* Managers of Field Offices may authorize cost-type contractors to apply for permits to purchase specially denatured alcohol, subject to restrictions of the Bureau of Alcohol, Tobacco and Firearms as to end use. In order to qualify, cost-type contractors must be bonded, must submit reports, and are subject to inspection by the Bureau of Alcohol, Tobacco and Firearms.

(b) *Tax-free alcohol.* Under Bureau of Alcohol, Tobacco and Firearms regulations, cost-type contractors performing scientific or research work or operating hospitals are permitted to procure alcohol tax free. These regulations require bonding under certain circumstances, submission of reports, and inspection by the Bureau of Alcohol, Tobacco and Firearms.

(c) ERDA *versus cost-type contractor alcohol procurement.* Purchase may be made by either ERDA or cost-type contractor, whichever is in the best interests of the Government, taking into consideration administrative costs and any other pertinent factors that may be applicable to individual situations. On purchases for recurring requirements, one of the factors to consider is that for purchases by ERDA, the bonding, reporting, and inspection requirements do not apply.

§9-5.5204-10 Abandoned and forfeited alcohol.

Abandoned and forfeited alcohol which has come into the custody or control of any Federal agency may be obtained by following the procedure set forth in FPMR 101-43.4.

§9-5.5205 Helium.

§9-5.5205-1 Scope.

This section covers acquisition of helium for use by either ERDA or cost-type contractors.

§9-5.5205-2 Basic source of supply.

(a) *Statutory requirements.* The Helium Act (Public Law 86-777, as amended (50 U.S.C. 167(d)) provides that, to the extent that supplies are readily available, the Energy Research and Development Administration shall purchase all major requirements of helium from the Secretary of the Interior.

(b) ERDA *policy.* It is the policy of the ERDA to obtain its major requirements of helium, whether in gaseous or liquid form, from the Department of Interior (Bureau of Mines) either directly or from suppliers who have purchased or will purchase an equivalent amount of Bureau of Mines helium in accordance with 30 CFR Part 2.

§9-5.5205-3 [Reserved]

§9-5.5205-4 [Reserved]

§9-5.5205-5 Methods of purchase.

(a) Purchases may be made from the Secretary of the Interior for either ERDA or cost-type contractors' requirements for helium by forwarding a purchase order in duplicate (Form ERDA-103 or the cost-type contractor's purchase order properly identified as in the use of Government Sources of Supply) to: Bureau of Mines, Helium Operations, Box H 4372, Herring Plaza, Amarillo, Texas 79101.

(b) Purchases may be made from commercial firms as indicated in subparagraphs (1) and (2) of this paragraph: *Provided*, That the vendor is required to furnish Bureau of Mines helium or buy the equivalent from the Bureau of Mines.

(1) Commercial firms under GSA Schedule Contracts.

(2) Commercial firms, including private distributors listed by the Bureau of Mines as eligible to sell helium to Federal agencies (30 CFR Part 2), pursuant to usual procurement and contracting procedures.

(c) In all cases, except where purchase is made from the Bureau of Mines directly, the purchase orders shall contain the following statement:

Helium furnished under this contract shall be Bureau of Mines helium pursuant to Parts 1 and 2, Subchapter A, Chapter 1, Title 30, Code of Federal Regulations.

(d) One (1) copy of each procurement document issued pursuant to paragraph (b)(2) of this section shall be furnished to the address in paragraph (a) of this section.

§9-5.5206 Miscellaneous items.

§9-5.5206-1 Scope.

This section sets forth the procedures and requirements for the purchase of various miscellaneous items. These procedures and requirements shall be applied to cost-type contractors to the extent indicated in each subsection of this section.

§9-5.5206-2 Aircraft.

All acquisitions of aircraft by either ERDA or cost-type contractors (except for temporary (30 days or less) rentals or loans) shall be approved in advance by the Director of Procurement.

§9-5.5206-3 ERDA forms.

(a) *Definition.* ERDA forms are those approved by the Office of the Controller, Headquarters, for use throughout ERDA.

(b) Cost-type contractors shall obtain their requirements for ERDA forms through the ERDA.

§9-5.5206-4 Standard, optional and other agency forms.

(a) *Source of supply.* The General Services Administration stocks for issue to agencies standard forms approved by the Bureau of the Budget or the General Accounting Office and other common-use forms, such as Treasury forms, Civil Service forms, and optional forms. The Federal Supply Stores Catalog lists forms carried in stock.

(b) *Ordering forms from Federal Supply Service.* ERDA offices shall submit purchase orders for standard forms, except as specified in paragraph (c) of this section, directly to the appropriate Federal Supply Stores Depot. Orders for forms may include requests for other items normally carried in stock. Orders for quantities of forms in excess of quantities normally furnished from stock will be extracted by the stores depot and sent to GSA Region 3, Washington, D.C. 20407, to be filled either by GSA Region 3 or by the Government Printing Office.

(c) *Overprinted or altered forms.* Forms that require overprinting, serial numbering, or different grade, weight, or color of paper, or a major alteration in construction shall be requisitioned from the publications and Visual Aids Branch, Division of Headquarters Services.

(d) Cost-type contractors shall obtain their requirements for standard, optional, and other agency forms through the ERDA.

§9-5.5206-5 Steel filing cabinets.

(a) Procurement of steel filing cabinets, by either ERDA or cost-type contractors, is subject to ERDA utilization requirements.

(b) Direct ERDA procurements of steel filing cabinets are subject to the requirements of FPMR 101-26.308. These requirements do not apply to grantees or contractors authorized to use GSA supply sources. However, such filing cabinets shall not be procured by ERDA cost-type contractors unless approved by the Manager of the cognizant Field Office, on the bases that ERDA utilization requirements have been met and the actions prescribed by FPMR 101-25.302-2 have been taken. A copy of the Field Office approval shall be retained in the appropriate purchasing office files.

§9-5.5206-5a Security cabinets.

(a) FPMR 101-25.104-2 states that the moratorium on the purchase of filing cabinets does not apply to fire-resistant insulated file cabinets and those required for storage of classified records designated as security file cabinets by GSA. However, for ERDA purposes, such cabinets shall not be procured by ERDA or cost-type contractors unless approved by the Manager of a Field Office on the basis that ERDA utilization requirements and the "prerequisites to ordering" criteria outlined in FPMR 101-26.308-1 have been met (GSA approval not required).

(b) In the event any security cabinets are approved for purchase, the procedures established in FPMR 101-26.507 for consolidated procurement of security cabinets shall be followed.

§9-5.5206-6 Appliances.

ERDA offices shall procure new refrigerators, freezers, ranges, washers, dryers, water heaters, and garbage disposals in accordance with FPMR 101-26.503. When cost-type contractors, consistent with the policy set forth in §9-5.901, procure these items from GSA supply sources, they shall be procured in accordance with FPMR 101-26.503.

§9-5.5206-7 New electric water coolers.

ERDA offices shall procure new electric water coolers in accordance with FPMR 101-26.502. When cost-type contractors, consistent with the policy set forth in §9-5.901, procure new electric water coolers from GSA supply sources, they shall procure in accordance with FPMR 101-26.502.

§9-5.5206-8 Rental of post office boxes.

ERDA offices and cost-type contractors may rent post office boxes on an annual basis, or for shorter periods by quarters where necessary. Payments for annual rentals are to be made in advance at the beginning of the fiscal year, and for periods of less than a year either in advance for the whole period, or at the beginning of each quarter in which the box is to be used.

§9-5.5206-9 Government license tags.

(a) *In the District of Columbia.* Official Government tags shall be procured (without charge) by the Procurement, Supply and Transportation Branch, Division of Headquarters Services, from the Department of Vehicles and Traffic, District of Columbia, for all motor vehicles (except vehicles exempt for security purposes) operated principally in the Metropolitan Area of Washington, D.C.

(b) *Outside the District of Columbia.* ERDA offices operating Government-owned motor vehicles for official purposes (including Government vehicles operated by cost-type contractors), principally outside the Metropolitan Area of Washington, D.C., shall (except for vehicles exempt for security purposes) procure official U.S. Government tags from the Superintendent of Industries, District of Columbia, Department of Correction, Lorton, Va., in accordance with the following instructions:

(1) Orders (Form ERDA-103) shall include code letter "E" and tag numbers, delivery dates, consignment and shipping instructions, symbol of the appropriation to be charged, amount of obligation which has been established on the books of the ERDA Field Office, and the signature of an officer authorized to obligate the appropriation to be charged.

(2) See FPMR 101-38.3 concerning prices to be used for obligation purposes when ordering tags.

(3) Where the size of the shipment requires use of a Government bill of lading, that document shall accompany the purchase order. Where quantities are mailable, the District of Columbia, Department of Correction, will supply the necessary postage and add the cost to the invoice. (A pair of tags weighs approximately 1 pound, 1 ounce.)

(4) The letter "E" is the prefix symbol for ERDA official license tags. Block numbers have been assigned to field offices. Additional numbers will be assigned by the Division of Procurement, Headquarters, when requested.

(c) *Special plates.* Special plates for security purposes shall be purchased by ERDA offices for ERDA and cost-type contractors in accordance with local laws, regulations and instructions.

§9-5.5206-10 Fuels and packaged petroleum products.

ERDA offices shall procure fuels and packaged petroleum products (e.g., lubricating oil, gasoline, fuel oil, kerosene, and solvents) in accordance with FPMR 101-26.602. When cost-type contractors, consistent with 9-5.51, procure such products from Defense Supply Agency sources, they shall do so in accordance with FPMR 101-26.602.

§9-5.5206-11 Arms and ammunition.

Pursuant to 10 U.S.C. 4655, the Secretary of the Army is authorized to furnish arms, suitable accouterments for use therewith, and ammunition for the protection of public money and property.

(a) The Department of the Army has granted a general clearance for Federal agencies to procure, without further reference to or clearance from that Department, all arms and ammunition of types which are not peculiar to the military services, and which are readily procurable in the civilian market.

(b) Procurement of arms and ammunition readily procurable in the civilian market shall be made in accordance with regular procurement procedure by either ERDA or cost-type contractors.

(c) Procurement of arms and ammunitions for ERDA or cost-type contractors which are peculiar to the military services shall be made by the ERDA by submission of order

Form ERDA-103 to the Commanding General, U.S. Army Materiel Command, Washington, D.C. 20315.

§9-5.5206-12 Furniture.

ERDA offices and cost-type contractors shall procure furniture in accordance with FPMR 101-26.505.

§9-5.5206-13 [Reserved]

§9-5.5206-14 Gold.

Purchase of gold or gold scrap by the ERDA or its cost-type contractors does not require licensing as long as title to the gold is vested in the Government. All such purchases, however, unless made from another Government agency shall be made from a commercial firm holding a U.S. Treasury Department gold license authorizing such transactions.

§9-5.5206-15 Purchases of sundry items from Government Printing Office.

ERDA offices shall purchase from the Government Printing Office, Washington, D.C. 20401, paper, envelopes, inks, glues, and other supplies, as listed in the current GPO Catalog and Price List for such items; except that ERDA offices may purchase such items from other sources when it is more economical to do so, taking into consideration the cost of packing and transportation.

§9-5.5206-16 [Reserved]

§9-5.5206-17 Mandatory items—prison-made and blind-made products.

ERDA offices and cost-type contractors shall procure items listed in the Schedule of Products made in Federal penal and correctional institutions and in the Schedule of Blind-made Products in accordance with FPMR 101-26.601.

§9-5.5206-18 [Reserved]

§9-5.5206-19 [Reserved]

§9-5.5206-20 Materials handling equipment replacement standards.

Materials handling equipment shall be purchased for replacement purposes by ERDA offices and cost-type contractors in accordance with the standards in FPMR 101-25.405. Managers of Field Offices are authorized to replace an item earlier than the date specified in such standards under unusual circumstances. A written justification shall be placed in the purchase file.

§9-5.5206-21 Calibration services.

Orders for calibration service may be placed with the National Bureau of Standards, Washington, D.C. 20234, by either ERDA procurement offices or cost-type contractors. Copies of the letters authorizing cost-type contractors to order calibration services on behalf of ERDA should be sent to the Bureau of Standards, Attention: "Administrative Service Division."

§9-5.5206-22 U.S. Code Annotated and Lifetime Federal Digest.

Appropriation Acts may provide that no part of the appropriation shall be used to pay: in excess of $4 per volume for the current and future volumes of the United States Code Annotated, and such volumes shall be purchased on condition and with the understanding that latest published cumulative annual pocket parts issued prior to the date of purchase shall be furnished free of charge; or in excess of $4.25 per volume for the current or future volumes of the Lifetime Federal Digest; or in excess of $6.50 per

volume for the current or future volumes of the Modern Federal Practice Digest. When such a general limitation appears in appropriation legislation, it is applicable to both ERDA and cost-type contractor procurement.

§9-5.5206-23 Wiretapping and eavesdropping equipment.

All procurement by ERDA offices and cost-type contractors of devices primarily designed to be used surreptitiously to overhear or record conversations is prohibited.

§9-5.5206-24 Coal.

ERDA offices and cost-type contractors may participate in the Defense Fuel Supply Center coal contracting program for carload or larger lots. If participation is desired, estimates shall be submitted to DFSC in accordance with FPMR 101-26.602.

§9-5.5206-25 Procurement of gas masks and canisters.

M9 Army assault mask and M11 and M14 canisters: Supplies of the M9 Series Protective Field Mask (Army assault mask) and M11 and M14 canisters are being maintained at Oak Ridge, Tenn., and Richland, Wash., for requisition by ERDA offices and cost-type contractors.

(a) The masks supplied by Oak Ridge and Richland are refurbished to serviceable condition and tested for reliability before they are placed in stock. Each mask has been equipped with an M11 canister and is packaged in a transparent film bag.

(b) For requisition of masks, purchasers should state, in addition to information for shipment, the quantity of masks required in large or medium size and whether a carrier for each mask is required. Price of each mask, with or without carrier, is $13.50, f.o.b. Oak Ridge, Tenn., or Richland, Wash.

(c) For requisition of canisters for the M9 mask, purchasers should state, in addition to information for shipment, the type and quantity required at respective unit prices, f.o.b. Oak Ridge, Tenn., or Richland, Wash.:

Canister, M11, FSN 4240-112-9365 (filter paper and Whetlerized carbon)——$2.25
Canister, M14, FSN 4240-203-3733 (double thickness of filter paper)——8.40

(d) ERDA or cost-type contractor purchase orders for masks and canisters should be addressed to:

(1) For delivery east of the Mississippi River:
Union Carbide Corp., Nuclear Division, Oak Ridge Gaseous Diffusion Plant, Post Office Box P, Oak Ridge, TN 37830.

(2) For delivery west of the Mississippi River:
Atlantic Richfield Hanford Co., Post Office Box 250, Richland, WA 99352.

§9-5.5206-26 Procurement of electronic data processing tape.

(a) All ERDA direct procurement of electronic data processing tape shall be made in accordance with the provisions of FPMR 101-26.508.

(b) ERDA offices having requirements in excess of the maximum order limitation of the Federal Supply Schedule should contact GSA directly to make arrangements for obtaining the quantities needed, in accordance with the provisions of FPMR 101-26.508-1(b).

(c) ERDA offices having requirements for types of electronic data processing tape other than those covered by Interim Federal Specification W-T-0051a (GSA-FSS) or current Federal Supply Schedules shall submit their requirements directly to GSA in accordance with the provisions of FPMR 101-26.508-2.

(d) Managers of Field Offices shall require all their cost-type contractors who come within the scope of §9-59.002(b) to obtain their requirements for electronic data processing tape in accordance with the provisions of FPMR 101-26.508-1. However, when adequate justification exists, Managers of Field Offices may authorize these cost-type contractors to obtain their tape from other sources. For example, if the 800 BPI, ½-inch tape (Interim Federal Specification W-T-0051a (GSA-FSS)) will not adequately meet a contractor's technical requirements, the Manager may authorize the contractor to

obtain its requirements from other sources. When a Manager does authorize a contractor to obtain its requirements from other sources, a copy of the authorization, together with a brief statement of the justification, should be sent to the Division of Procurement, Headquarters, for informational purposes.

(e) ERDA offices should consolidate their requirements and the requirements of their cost-type contractors for electronic data processing tape when it appears that such action would be practical and would result in significant price advantages to the Government.

§9-5.5206-27 Procurement of masking devices.

Masking devices are assembled in the ERDA plant at Paducah, Ky., and may be requisitioned by ERDA offices and cost-type contractors at cost (currently about $275) from:

Mr. Bernard Stiller, Area Manager,
Energy Research and Development Administration, Paducah Area Office, Post Office Box 1213, Paducah, KY 42001.

§9-5.5207 Special materials.

This section covers the purchase of materials peculiar to the ERDA program. While purchases of these materials are unclassified, quantities, destination or use may be classified. See appropriate sections of the Classification Guide. Managers of Field Offices shall require cost-type contractors to obtain the special materials identified in the following subsections in accordance with the procedures stated therein.

§9-5.5207-1 [Reserved]

§9-5.5207-2 Heavy water.

The Division of Production controls the procurement and production of heavy water. ERDA offices and cost-type contractors shall place orders directly with the Division of Production, Headquarters.

§9-5.5207-3 Platinum.

The Chicago Operations Office is responsible for maintaining the ERDA platinum supply. ERDA offices and cost-type contractors shall clear with the Chicago Operations Office as to the availability of ERDA platinum prior to the purchase of platinum on the open market.

§9-5.5207-4 [Reserved]

§9-5.5207-5 Jewel bearings.

See FPR 1-1.319.

Subpart 9-5.53—Procurement of General Purpose Automatic Data Processing Equipment and Related Items

§9-5.5300 Scope of subpart.

(a) This subpart implements and supplements FPMR 101-32.4, except for the requirements in subsections 101-32.408-1 and 101-32.408-2.

(b) The procurement of ADPE, software, maintenance services, and supplies by ERDA contractors is not subject to the requirements of this subpart.

(c) The policies and procedures covering the procurement of electronic data processing tape are contained in FPRM 101-26.508 and ERDA-PR 9-5.5206-26.

§9-5.5301 Definition of ADPE.

(a) The term "general purpose" which appears in the definition of ADPE in FPMR 101-32.402-1, applies to the nature of the equipment and not to the manner in which the equipment is to be used. The fact that an item of general purpose ADPE will be used in a unique or highly specialized application does not exempt such equipment from the requirements of this subpart. Furthermore, when general purpose components are configured into a computer system that will be used in a unique manner to meet a special need, the entire system is considered general purpose and is subject to the requirements of this subpart.

(b) "First-of-a-kind" ADPE which has not been announced by the manufacturer as being commercially available is not considered to be general purpose ADPE within the meaning of the definition in FPMR 101-32.402.1, since it is not mass-produced, commercially available equipment.

(c) ADPE components that are specifically designed or built to the special requirements of the ERDA are not general purpose ADPE.

§9-5.5302 Authority to procure general purpose ADPE.

In accordance with the provisions of FPMR 101-32.403-1(c), GSA issued Bulletin FPMR E-72, dated May 29, 1969, which provided Federal agencies with a blanket delegation of authority to procure ADPE without prior GSA approval provided the procurement does not exceed $50,000. The delegation of authority does not include attendant maintenance costs if purchase is the method of acquisition. If the equipment is to be leased, the annual basic rental costs will be used to determine the dollar limitation set forth. The delegation of authority applies only to ADP equipment and does not apply to the separate procurement of software, maintenance services, and supplies.

§9-5.5303 Submission of procurement documents and Agency Procurement Requests (APR) to GSA.

(a) FPMR 101-32.403 requires that in instances where agencies have been delegated authority under the provisions of FPMR 101-32.403 to procure ADPE, such agencies must send copies of the solicitation documents (RFP, IFB, or RFQ) and any subsequent amendments thereto, to GSA, as soon as available, but in no event later than the date issued to industry. In addition, FPMR 101-32.403 also requires that copies of resulting purchase/delivery orders or contracts shall be forwarded to GSA upon issuance.

(1) All solicitation documents which are required to be submitted to GSA should be sent, in quadruplicate, to the Division of Procurement, Headquarters. The Division of Procurement will transmit two copies to GSA.

(2) All contract documents which are required to be sent to GSA should be sent, in triplicate, to the Division of Procurement, Headquarters. The Division of Procurement will transmit one copy to GSA.

(b) FPMR 101-32.404 requires that agencies submit Agency Procurement Requests (APR) to GSA immediately upon determination that a procurement action is not covered by the delegation of procurement authority provided in FPMR 101-32.403, or where the conditions of the contemplated procurement change at any time during the procurement

cycle in such a manner as to remove it from the delegation of authority provided in FPMR 101-32.403.

(1) All Agency Procurement Requests which are required to be submitted to GSA should be sent, in quadruplicate, to the Division of Procurement, Headquarters. The Division of Procurement will transmit two copies to GSA.

§9-5.5304 Automatic Data Processing Fund.

(a) The provisions of ERDA-PR 9-5.55, Purchase or Lease Determinations, shall be complied with prior to the submission of an inquiry to GSA concerning the possible use of the Automatic Data Processing Fund.

(b) The Office of the Controller will make the determination, referred to in FPMR 101-32.403-4(a), that funds are not readily available within the agency, e.g., when there is insufficient time to secure the necessary funds under normal budgetary procedures or to reprogram for the required funds.

(c) The Division of Procurement, after consultation with the Office of the Controller and other appropriate Headquarters offices as may be necessary, shall submit an inquiry to GSA for its determination in accordance with the provisions of FPMR 101-32.403-4 after (1) the procuring office has complied with the provisions of ERDA-PR 9-5.55, and the cognizant Headquarters program division approves the need for the equipment but determines that it cannot provide the necessary funds; and (2) the Office of the Controller has determined that the procuring office has complied with the internal ERDA management directives dealing with data processing equipment matters in the areas of the Controller's responsibilities and that funds are not available within the ERDA.

(d) In those cases where GSA makes the determination that the ADP Fund will be used, the Division of Procurement, after consultation with the Office of the Controller and other appropriate Headquarters offices as may be considered necessary, will negotiate the necessary arrangements with GSA concerning such matters as the reimbursement of the Fund and the lease of the equipment from GSA.

Subpart 9-5.54—Use of Procurement and Supply Management Support Services at the Nevada Test Site and the Nuclear Rocket Development Station

§9-5.5400 Scope of subpart.

(a) This subpart sets forth ERDA policy for the use of the procurement and supply management support services at the Nevada Test Site and the Nuclear Rocket Development Station.

(b) The provisions of this subsection shall be applied to cost-type contractors carrying out projects at the NTS and the NRDS.

§9-5.5401 Policy.

As an integral part of their responsibility for furnishing project-related materials, equipment, and technical services, the Nevada Operations Office and the Space Nuclear Propulsion Office—Nevada will, except in special cases, provide to the fullest practicable extent the necessary procurement and supply management support services required to support the technical efforts of all organizations sponsoring experiments or participating in the scientific aspects of experiments conducted at the NTS and the NRDS. Furthermore, all organizations that are carrying out projects or performing work at the NTS and the NRDS will make the fullest practicable use of these facilities and services to prevent unnecessary duplication to assure maximum efficiency and economy.

Subpart 9–5.55—Purchase or Lease Determinations

§9–5.5500 Scope of subpart.

(a) This subpart implements and supplements FPMR 101–25.5 which prescribes guidelines to be used in determining whether acquisition of particular types of equipment should be by purchase or lease.

(b) The requirements of this subpart shall be applied to cost-type contractors.

§9–5.5501 Policy.

(a) The guidelines prescribed in FPMR 101–25.5 for making purchase or lease determinations shall be applied to the acquisition of all types of equipment. These guidelines shall be used in making lease-versus-purchase determinations at time of original acquisition, when lease renewals are being considered, or at other times as circumstances warrant.

(b) Contracting officers shall assure the use of applicable lease-versus-purchase guidelines in all procurement and supply operations under their jurisdiction.

§9–5.5502 Utilization of excess equipment or interests in equipment.

Excess lists shall be consulted prior to leasing equipment in both original and renewal leasing actions. Also, leased equipment shall be offered for utilization by other ERDA offices and ERDA contractors prior to release whenever an accumulated credit toward purchase of the equipment will be lost.

§9–5.5503 Maintenance of records.

Appropriate records shall be maintained of all lease-purchase studies and other pertinent data used to support administrative actions taken.

§9–5.5504 Funding considerations.

Unavailability of funds is generally not adequate justification for a decision to lease when purchase is indicated by the lease-purchase study to be the more economical course of action. In such circumstances it is essential that every effort be made to follow the purchase course of action. This is true both with respect to the initial study and with respect to those studies made at the times leases are renewed or when other circumstances warrant.

§9–5.5505 Leasing of equipment.

If leasing of equipment is necessary, and a lease with purchase option executed, the purchase option shall be exercised at the earliest possible date, provided the lease-purchase study at that date indicates that purchase is still the more economical course of action.

9–6.150 Duties and customs.
9–6.151 ERDA list of supplies excepted from Buy American Act (supplies to be procured for public use).

Subpart 9–6.8—Balance of Payments Program

9–6.800 Scope.

PART 9–6—FOREIGN PURCHASES

Subpart 9–6.1—Buy American Act—Supply and Service Contracts

§9–6.100 Scope.

(a) This subpart implements FPR Subpart 1–6.1.

(b) The requirements of FPR Subpart 1–6.1 and this subpart apply to cost-type contractor procurement.

§9–6.103 Exceptions.

§9–6.103–2 Nonavailability in the United States.

Contracting officers may make the determinations required by FPR 1–6.103–2, provided such determination is factually supported in writing.

§9–6.103–3 Unreasonable cost or inconsistency with the public interest.

Except as provided in §9–6.104–4(a), the Administrator or his designee shall make the determination required by FPR 1–6.103–3.

§9–6.104–4 Evaluation of bids and proposals.

(a) If an award for more than $100,000 would be made to a domestic concern if the 12-percent factor is applied, but would not be made if the 6-percent factor is applied, Managers of Field Offices without power of redelegation may make the determination as to whether the award to the small business concern or labor surplus area concern would involve unreasonable cost or inconsistency with the public interest (see FPR 1–6.103–3).

(b) Managers of Field Offices shall submit proposed awards (in triplicate) to the Division of Procurement where:

(1) Rejection of an acceptable low foreign bid is considered necessary to protect essential national security interests such as maintenance of a mobilization base; and

(2) Rejection of any bid or proposal for other reasons of the national interest when it is considered necessary.

§9–6.150 Duties and customs.

Whenever any procurement office purchases supplies with respect to which there might arise a claim to a refund or drawback of customs duties paid thereon (to the extent such drawback is authorized pursuant to the Tariff Act of 1930, 19 United States Code, Chapter 4), the price paid shall ordinarily include the customs duties, and accordingly the supplier will have no claim to a drawback. On the other hand, when the price to be paid for any such purpose does not include the customs duties, then the supplier will have the right to claim any drawback with respect thereto provided (a) he has reserved such right in connection with such sale or consignment, and (b) he produces evidence that such reservation was made with the knowledge and consent of the exporter.

§9–6.151 ERDA list of supplies excepted from Buy American Act (supplies to be procured for public use).

Antimony.
Asbestos.
Bauxite.
Bismuth.
Books, trade, text, technical, or scientific; newspapers, magazines, periodicals; printed briefs, and films; not printed in the United States, and for which domestic editions are not available.
Cadmium.
Calcium Cyanamide.
Castor oil.

Chrome ore or chromite.
Cobalt (ore and metals).
Cork.
Cryolite, natural.
Diamonds, industrial and abrasive.
Graphite, natural.
Iodine.
Jute and jute burlaps.
Logs, veneer, and lumber from balsa, greenheart, lignum vitae, mahogany, and teak.
Mica.
Nickel.
Crude petroleum, petroleum fuels, and petroleum lubricants.
Platinum and related group metals.
Radium salts, source and special nuclear materials.
Rubber, crude, and latex.
Rutile.
Shellac.
Spare parts for equipment of foreign manufacture, and for which domestic parts are not available.
Sperm oil.
Tartaric acid.
Tin.

Suggestions for changes in and additions to the above list, with appropriate justifications, shall be submitted to the Director of Procurement.

Subpart 9-6.8—Balance of Payments Program

§9-6.800 Scope.

The policies and procedures of FPR Subpart 1-6.8 shall be applied to cost-type contractor procurement for use outside the United States.

9-7.5007-6 Established price article for standard off-the-shelf items (escalation).
9-7.5007-7 Established Price article for semi-standard items (escalation).
9-7.5007-8 General price escalation article involving cost breakdowns.
9-7.5007-9 General price escalation article (no cost breakdowns).
9-7.5007-10 Escalation article for nonstandard steel items.
9-7.5007-11 Price escalation article for standard steel items.
9-7.5007-12 Price escalation article for standard steel items (nonproducer).
9-7.5007-13 Price escalation article for standard aluminum items.
9-7.5007-14 [Reserved]
9-7.5007-15 Termination article for cost-plus-a-fixed-fee architect-engineer contracts.
9-7.5007-16 [Reserved]
9-7.5007-17 Termination article for operating contracts.

PART 9-7—CONTRACT CLAUSES

§9-7.000 Scope of part.

Since FPR Part 1-7 employs a different system of grouping contract clauses in its various subparts; e.g., by types of contracts such as fixed-price supply, the ERDA use of standard clauses has been treated in a separate Subpart 9-7.50. Where appropriate, however, the individual clauses in FPR Part 1-7 are referred to, rather than repeated in Subpart 9-7.50.

§9-7.000-50 Policy, cost-type contractor procurement.

Contracting officers shall require cost-type contractors to use terms and conditions in connection with procurement under their ERDA contracts which are adequate to protect the Government's interests consistent with their contractual obligations. In addition to the prime contract flowdown provisions, the instructions and notes in §§9-7.5004-3, 9-7.5004-7, 9-7.5004-10, 9-7.5004-11, and 9-7.5004-47 are to be applied to cost-type contractor procurement. Other terms and conditions shall be included as may be required as a matter of law (e.g., Contract Work Hours and Safety Standards Act—Overtime Compensation, Davis-Bacon Act, etc.) or as appropriate under the circumstances.

Subpart 9-7.50—Use of Standard Clauses

§9-7.5000 Scope of subpart.

This subpart sets forth (a) the general policy covering the use of standard contract clauses prescribed by the FPR and by the ERDA-PR; (b) the applicability of policies, procedures, and standard clauses; (c) the procedures to be followed for deviating from the standard clauses; (d) the policy covering and standard form of clauses to be used in connection with price redetermination; and (e) the use of price escalation clauses.

§9-7.5001 General policy.

It is the policy of ERDA to use standard contract clauses wherever practicable. Uniformity in form and substance of contract clauses tends to assure impartial treatment of all contractors, expedites negotiation and contract review, and facilitates contract administration.

§9-7.5002 [Reserved]

§9-7.5003 Deviations.

The standard clauses set forth or referred to in this subpart are arranged in three groups. The deviation procedures which are applicable to each group of clauses are as follows:

(a) *Standard ERDA clauses which are mandatory as to text.* These clauses are set forth or are referred to in §9-7.5004 and, where they are appropriate for use in a contract, deviations from these clauses shall not be made unless approved by the Director of Procurement, after coordination with the Controller, General Counsel, and any other appropriate Headquarters office. Requests for Headquarters approval shall be submitted in triplicate and shall be accompanied by a detailed supporting statement and a draft of the proposed clause, as amended. If Headquarters approval of the contract is required, requests for approval of deviations and approval of the contract may be combined. (Minor changes in wording which may become necessary in negotiations are not considered deviations: *Provided*, Counsel determines that the change is not prohibited by statute, executive order, or administrative regulation and does not alter the meaning, intent, or basic principles expressed in these clauses.)

(b) *Standard FPR clauses not included in paragraph (a) of this section.* These clauses are referred to in §9-7.5005. While these are not ERDA mandatory-as-to-text clauses, they are standard FPR clauses and deviations from these clauses may be made only in accordance with the deviation procedures set forth in §9-1.109.

(c) *Standard ERDA clauses not included in paragraph (a) or (b) of this section.* These clauses are set forth in §9–7.5006 and, in addition to those referred to in paragraphs (a) and (b) of this section, constitute standard provisions for use in ERDA contracts. Deviations shall not be made merely because of personal preferences. Except as provided in other subparts of the ERDA–PR, deviations, in addition to those specifically authorized by this subpart, may be made only with the approval of the Manager of a Field Office, after consultation with counsel; except that deviations which make allowable any of the costs specifically listed as unallowable in the cost clauses set forth in §9–7.5006, or which would conflict with the policy and principles expressed in Subpart 9–15.50 or Part 9–15 of the ERDA–PR or other applicable directives, shall be made in prime contracts or in subcontracts only with the approval of the Director of Procurement, after consultation with the Controller, General Counsel, and any other appropriate Headquarters office. The contract file shall contain a statement explaining any substantial deviation unless the reason for such deviation is obvious because of the unusual nature of the contract. Changes which become necessary as a matter of standard practice shall be reported to the Director of Procurement, with a recommendation, in triplicate, as to the need for modifying the text of the standard clause.

(d) *Suggested ERDA clauses.* These clauses, set forth in §9–7.5007, constitute suggested provisions for use in ERDA contracts. They may be modified in the light of specific contracting situations. No deviation procedure is required except as may be prescribed by individual field offices.

§9–7.5004 Standard ERDA clauses which are mandatory as to text.

This section sets forth standard ERDA contract clauses and refers to FPR standard clauses, both of which are mandatory as to text when used in ERDA prime contracts.

§9–7.5004–1 Convict labor.

See FPR 1–12.204.

§9–7.5004–2 Convenant against contingent fees.

See FPR 1–1.503.

NOTE A: This article is required in all contracts.

NOTE B: In cost-type contracts, modify this article by adding before the initial paragraph thereof "(a) *Warranty—Termination or deduction for breach*"—and adding the following paragraph:

"(b) *Subcontracts and purchase orders.* Unless otherwise authorized by the Contracting Officer in writing, the contractor shall cause provisions similar to the foregoing to be inserted in all subcontracts and purchase orders entered into under this contract."

§9–7.5004–3 Disputes.

(a) See FPR 1–7.102–12.

(b) Subcontracts: The following clause implements §9–59.003(j) with respect to disputes provisions in cost-type contractor procurement documents:

DISPUTES CLAUSE

(1) Except as otherwise provided in this ————————————————,[1] any dispute concerning a question of fact arising under ————————————————[2] which is not disposed of by agreement shall be decided by the ERDA Contracting Officer for the prime contractor's Contract No. ————————, who shall reduce his decision to writing and mail or otherwise furnish a copy thereof to the prime contractor and the————————————,[3] The decision of the Contracting Officer shall be final and conclusive unless within 30 days from the date of receipt of such copy the ————————————————————[3] mails or otherwise furnishes to the Contracting Officer a written appeal addressed to the Administrator or his designee. The decision of the Administrator or his designee for the determination of such appeals shall be final and conclusive unless determined by a court of competent jurisdiction to have been fraudulent, or capricious, or arbitrary, or so grossly erroneous as necessarily to imply bad faith, or not supported by substantial evidence. In connection with any appeal proceeding under this clause, the ————————————————[3] shall be afforded an opportunity to be heard and to offer evidence in support of its appeal. Pending final decision of a dispute hereunder, the ————————————————[3] shall proceed diligently with the performance of the ————————————————[3] and in accordance with the Contracting Officer's decision.

(2) This disputes clause does not preclude consideration of law questions in connection with decisions provided for in paragraph (1) above: *Provided*, That nothing in this ————————[3] shall be construed as making final the decision of any administrative official, representative, or board on a question of law.

[1]Insert subcontract, purchase order, etc., as appropriate.
[2]Insert subcontract, purchase order, etc., as appropriate.
[3]Insert subcontractor, seller, etc., as appropriate.

(c) The authority of the Administrator or his designee to decide appeals under the disputes clause in paragraphs (a) and (b) of this section is presently delegated to the ERDA Board of Contract Appeals. See 10 CFR Part 703.

§9–7.5004–4 Equal opportunity.

See FPR 1–12.803–2.

§9–7.5004–5 Officials not to benefit.

See FPR 1–7.102–17.

§9–7.5004–6 Assignment of claims.

See FPR 1–30.703.

§9–7.5004–7 Payment of interest on contractors' claims.

(a) See FPR 1–1.322(b).

(b) The clause referenced in paragraph (a) of this section applies to subcontracts under cost-type contracts in the manner the Disputes clause applies to such subcontracts pursuant to § 9–59.003(j).

§9–7.5004–8 [Reserved]

§9–7.5004–9 [Reserved]

§9–7.5004–10 Examination of records.

See FPR 1–7.103–3. See Notes A and B below for required addition and modification of the clause set forth in FPR 1–7.103–3.

NOTE A: The following paragraph (e) should be added, whenever possible in prime contracts, both for the protection of the Government and the Contractor. It may be omitted only with the approval of the Director of Procurement, Headquarters, upon a specific determination, based on consultation with the Office of the Controller and the Office of the General Counsel, that nothing in the contract purports to preclude an audit by the General Accounting Office of any transaction thereunder.

Nothing in this contract shall be deemed to preclude an audit by the General Accounting Office of any transaction under this contract.

NOTE B: In cost-type prime and cost-type subcontracts substitute the words "unless the ERDA authorizes their prior disposition" for the words "for such lesser time specified in either Appendix M of the Armed Services Procurement Regulation or the Federal Procurement Regulations Part 120 as appropriate."

NOTE C: Contracts exempt from audit rider. The examination of records clause is not required in contracts with any foreign government or agency thereof or in contracts with foreign producers.

§9–7.5004–11 Security.

(a) *Contractor's duty to safeguard Restricted Data, Formerly Restricted Data, and other classified information.* The contractor shall, in accordance with the Energy Research

and Development Administration's security regulations and requirements, be responsible for safeguarding Restricted Data, Formerly Restricted Data, and other classified information and protecting against sabotage, espionage, loss and theft, the classified documents and material in the contractor's possession in connection with the performance of work under this contract. Except as otherwise expressly provided in this contract, the contractor shall, upon completion or termination of this contract, transmit to the ERDA any classified matter in the possession of the contractor or any person under the contractor's control in connection with performance of this contract. If retention by the contractor of any classified matter is required after the completion or termination of the contract and such retention is approved by the Contracting Officer the contractor will complete a certificate of possession to be furnished to the Energy Research and Development Administration specifying the classified matter to be retained. The certification shall identify the items and types or categories of matter retained, the conditions governing the retention of the matter and the period of retention, if known. If the retention is approved by the Contracting Officer, the security provisions of the contract will continue to be applicable to the matter retained.

(b) *Regulations.* The contractor agrees to conform to all security regulations and requirements of the ERDA.

(c) *Definition of Restricted Data.* The term "Restricted Data," as used in this clause, means all data concerning (1) design, manufacture, or utilization of atomic weapons; (2) the production of special nuclear material; or (3) the use of special nuclear material in the production of energy, but shall not include data declassified or removed from the Restricted Data category pursuant to section 142 of the Atomic Energy Act of 1954.

(d) *Definition of Formerly Restricted Data.* The term "Formerly Restricted Data," as used in this clause, means all data removed from the Restricted Data category under section 142 d. of the Atomic Energy Act of 1954, as amended.

(e) *Security clearance of personnel.* The contractor shall not permit any individual to have access to Restricted Data, Formerly Restricted Data, or other classified information, except in accordance with the Atomic Energy Act of 1954, as amended, and the ERDA's regulations or requirements applicable to the particular type or category of classified information to which access is required.

(f) *Criminal liability.*—It is understood that disclosure of Restricted Data, Formerly Restricted Data, or other classified information relating to the work or services ordered hereunder to any person not entitled to receive it, or failure to safeguard any Restricted Data, Formerly Restricted Data, or any other classified matter that may come to the contractor or any person under the contractor's control in connection with work under this contract, may subject the contractor, its agents, employees, or subcontractors to criminal liability under the laws of the United States. (See the Atomic Energy Act of 1954, as amended, 42 U.S.C. 2011 et seq.; 18 U.S.C. 793 and 794; and Executive Order 11652.)

(g) *Subcontracts and purchase orders.* Except as otherwise authorized in writing by the Contracting Officer, the contractor shall insert provisions similar to the foregoing in all subcontracts and purchase orders under this contract.

NOTE A: Except as provided in Note A to §9-7.5004-22, this clause is required in contracts entered into under sections 31 or 41 of the Atomic Energy Act of 1954, as amended, and in other contracts, subcontracts, and purchase orders the performance of which involves or is likely to involve Restricted Data, Formerly Restricted Data or other classified information.

§9-7.5004-12 Safety and health.

(a) The clause set forth herein shall be included in all contracts and subcontracts for, and be made applicable to, work to be performed at a government-owned contractor-operated (GOCO) facility where ERDA has elected to assert its statutory authority to enforce occupational safety and health standards applicable to the working conditions of contractor and subcontractor employees.

SAFETY AND HEALTH

The contractor shall take all reasonable precautions in the performance of the work under this contract to protect the safety and health of employees and of members of the public and shall comply with all applicable safety and health regulations and requirements (including reporting requirements) of ERDA. In the event that the contractor fails to comply with said regulations or requirements of ERDA, the Contracting Officer may, without prejudice to any other legal or contractual rights of ERDA, issue an order stopping all or any part of the work; thereafter a start order for resumption of the work may be issued at the discretion of the Contracting Officer. The contractor shall make no claim for an extension of time or for compensation or damages by reason of or in connection with such work stoppage.

(b) The clause set forth herein shall be included in those contracts or subcontracts for, and be made applicable to, work to be performed *at a facility* where ERDA does not elect to assert its statutory authority to enforce occupational safety and health standards applicable to the working conditions of contractor and subcontractor employees, but does need to enforce radiological safety and health standards pursuant to provisions of the contract or subcontract rather than by reliance upon Nuclear Regulatory Commission licensing requirements (including agreements with states under section 274 of the Atomic Energy Act).

RADIATION PROTECTION AND NUCLEAR CRITICALITY

The contractor shall take all reasonable precautions in the performance of work under this contract to protect the safety and health of employees and of members of the public against the hazards of ionizing radiation and radioactive materials and shall comply with all applicable radiation protection and nuclear criticality safety standards and requirements (including reporting requirements) of ERDA. In the event that the contractor fails to comply with said standards and requirements of ERDA, the Contracting Officer may, without prejudice to any other legal or contractual rights of ERDA, issue an order stopping all or any part of the work; thereafter a start order for resumption of the work may be issued at the discretion of the Contracting Officer. The contractor shall make no claim for an extension of time or for compensation or damages by reason of or in connection with such work stoppage.

§9-7.5004-13 Contract Work Hours Standards Act—Overtime Compensation.

See FPR 1-12.303 and §9-12.103-51.

§9-7.5004-14 Walsh-Healey Public Contracts Act.

See FPR 1-12.605.

§9-7.5004-15 Labor (construction contracts).

See FPR 1-16.901-19A and §9-12.103-51.

§9-7.5004-16 Buy American Act.

Supply and operating contracts—see FPR 1-6.104-5.

NOTE A: Modify FPR 1-6.104-5 as follows:

(1) In both supply and operating contracts, substitute "Administrator or his designee" for "Secretary" in paragraphs (b)(iii) and (iv).

(2) In operating contracts,

(a) Substitute "used" for "delivered" in paragraph (b), and

(b) Insert a parenthetical, "(by the contractor, subcontractors, materialmen, and suppliers)," after the word "contract" in the second line of (b).

§9-7.5004-17 Buy American Act (construction).

Fixed-price construction contracts—see FPR 1-18.605. CPFF construction contracts—use the following clause:

(a) In acquiring construction materials, the Buy American Act (41 U.S.C. 10 a-d) provides that the Government give preference to domestic construction material. For the purpose of this clause:

(1) "Construction" means construction, alteration, or repair of any public building or public work;

(2) "Components" means those articles, materials, and supplies, which are directly incorporated in the construction material;

(3) "Construction material" means those articles, materials, and supplies, which are brought to the construction site for incorporation in the building or work; and

(4) A "domestic construction material" means (A) an unmanufactured construction material which has been mined or produced in the United States; or (B) a manufactured construction material which has been manufactured in the United States if the cost of its components which are mined, produced, or manufactured in the United States exceeds 50 percent of the cost of all its components. For the purposes of this (a)(4)(B), components of foreign origin of the same type or kind as the products referred to in (b)(2) or (3) of this clause shall be treated as components mined, produced, or manufactured in the United States.

(b) The contractor agrees that there will be used under this contract (by the contractor, subcontractor, materialmen, and suppliers) only domestic construction materials, except construction materials:

(1) Which are for use outside the United States;

(2) Which the Government determines are not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities and of a satisfactory quality;

(3) As to which the Administrator or his designee determines the domestic preference to be inconsistent with the public interest; or

(4) As to which the Administrator or his designee determines the cost to the Government to be unreasonable.

The foregoing requirements are administered in accordance with Executive Order No. 10582, dated December 17, 1954.

§9-7.5004-18 [Reserved]

§9-7.5004-19 [Reserved]

§9-7.5004-20 Renegotiation.

If this contract is subject to the Renegotiation Act of 1951, as amended, the following provisions shall apply:

(a) This contract is subject to the Renegotiation Act of 1951 (50 U.S.C. App. 1211, et seq.), as amended, and to any subsequent act of Congress providing for the renegotiation of contracts. Nothing contained in this clause shall impose any renegotiation obligation with respect to this contract or any subcontract hereunder which is not imposed by an act of Congress heretofore or hereafter enacted. Subject to the foregoing, this contract shall be deemed to contain all the provisions required by section 104 of the Renegotiation Act of 1951, and by any such other act, without subsequent contract amendment specifically incorporating such provisions.

(b) The contractor agrees to insert the provisions of this clause, including this paragraph (b), in all subcontracts, as that term is defined in section 103 g. of the Renegotiation Act of 1951, as amended.

§9-7.5004-21 Classification.

In the performance of the work under this contract, the contractor shall assign classifications to all documents, material, and equipment originated or generated by the contractor in accordance with classification guidance furnished to the contractor by the ERDA. Every subcontract and purchase order issued hereunder involving the origination or generation of classified documents, material, or equipment, shall include a provision to the effect that in the performance of such subcontract or purchase order the subcontractor or supplier shall assign classifications to all such documents, material, and equipment in accordance with classification guidance furnished to such subcontractor or supplier by the contractor.

NOTE A: This clause is required in all contracts involving classified information.

§9-7.5004-22 Disclosure of information.

(a) It is mutually expected that the activities under this contract will not involve Restricted Data or other classified information or material. It is understood, however, that if in the opinion of either party this expectation changes prior to the expiration or termination of all activities under this contract, said party shall notify the other party accordingly in writing without delay. In any event, the contractor shall classify, safeguard, and otherwise act with respect to all Restricted Data and other classified information and material, in accordance with applicable law and the requirements of the ERDA, and shall promptly inform the ERDA in writing if and when Restricted Data or other classified information or material becomes involved. If and when Restricted Data or other classified information or material becomes involved, or in the mutual judgment of the parties it appears likely that Restricted Data or other classified information or material may become involved, the contractor shall have the right to terminate performance of the work under this contract and in such event the provisions of this contract respecting termination for the convenience of the Government shall apply.

(b) The contractor shall not permit any individual to have access to Restricted Data, or other classified information, except in accordance with the Atomic Energy Act of 1954, as amended, and the ERDA's regulations or requirements.

(c) The term "Restricted Data" as used in this article means all data concerning the design, manufacture, or utilization of atomic weapons, the production of special nuclear material or the use of special nuclear material in the production of energy, but shall not include data declassified or removed from the Restricted Data category pursuant to section 142 of the Atomic Energy Act of 1954, as amended.

NOTE A: This clause should be used in place of the clauses entitled "Security," §9-7.5004-11, and "Classification," §9-7.5004-21, in contracts with educational institutions for offsite research that are not likely to produce Restricted Data or classified information.

§9-7.5004-23 [Reserved]

§9-7.5004-24 Nuclear hazards indemnity.

(a) This article is incorporated into this contract pursuant to the authority contained in subsection 170(d) of the Atomic Energy Act of 1954, as amended (hereinafter called the Act).

(1) The definitions set out in the Act shall apply to this article.

(2) The term "contract location" means any ERDA facility, installation, or site at which contractual activity under this contract is being carried on, and any contractor-owned or -controlled facility, installation, or site at which the contractor is engaged in the performance of contractual activity under this contract.

(3) The term "extraordinary nuclear occurrence" means an event which the ERDA has determined to be an extraordinary nuclear occurrence as defined in the Act. A determination of whether or not there has been an extraordinary nuclear occurrence will be made in accordance with the procedures in Subpart E of 10 CFR 840.

(b) Except as hereafter permitted or required in writing by the ERDA, the Contractor will not be required to provide or maintain, and will not provide or maintain at Government expense, any form of financial protection to cover public liability. The ERDA may at any time require in writing that the Contractor provide and maintain financial protection of such a type and in such amount as the ERDA shall determine to be appropriate to cover public liability arising out of or in connection with the contractual activity, provided that the costs of such financial protection will be reimbursed to the Contractor by the ERDA.

(c) (1) To the extent that the Contractor and other persons indemnified are not compensated by any financial protection permitted or required by the ERDA, the ERDA will indemnify the Contractor, and other persons indemnified, against (i) claims for public liability as described in subparagraph (2) of this paragraph (c); and (ii) the reasonable costs of investigating and settling claims, and defending suits for damage for such public liability, provided that the ERDA's liability, including such reasonable costs, under all indemnity agreements entered into by the ERDA under section 170 of the Act, including this contract, shall not exceed $500 million in the aggregate for each nuclear incident occurring within the United States or $100 million in the aggregate for each nuclear incident occurring outside the United States, irrespective of the number of persons indemnified in connection with this contract.

(2) The public liability referred to in paragraph (c)(1) of this section is public liability which (i) arises out of or in connection with the contractual activity; and (ii) arises out of or results from:

(A) A nuclear incident which takes place at a contract location;

(B) A nuclear incident which takes place at any other location and arises out of or in the course of the performance of contractual activity under this contract by the Contractor's employees, individual consultants, borrowed personnel or other persons for the consequences of whose acts or omissions the Contractor is liable, provided that such incident is not covered by any other indemnity agreement entered into by the ERDA pursuant to section 170 of the Act; or

(C) A nuclear incident which arises out of or in the course of transportation of source, special nuclear, or byproduct materials to or from a contract location; provided such incident is not covered by any indemnity agreement entered into by the ERDA with the transporting carrier, or with a carrier's organization acting for the benefit of the transporting carrier, or with a licensee of the ERDA, pursuant to section 170 of the Act; or

(D) A nuclear incident which involves items (such as equipment, material, facilities, or design or other data) produced or delivered under this contract, provided such incident is not covered by any other indemnity agreement entered into by the ERDA pursuant to section 170 of the Act.

(d) In the event of an extraordinary nuclear occurrence which:

(1) Arises out of or results from or occurs in the course of the construction, possession, or operation of a production or utilization facility, or

(2) Arises out of or results from or occurs in the course of transportation of source material, byproduct material, or special nuclear material to or from a production or utilization facility, or

(3) During the course of the contract activity arises out of or results from the possession, operation, or use by the Contractor or a subcontractor of a device utilizing special nuclear material or byproduct material, the ERDA, and the Contractor on behalf of itself and other persons indemnified, insofar as their interests appear, each agree to waive:

(A) Any issue or defense as to the conduct of the claimant or fault of persons indemnified, including, but not limited to:

1. Negligence;

2. Contributory negligence;

3. Assumption of the risk;

4. Unforeseeable intervening causes, whether involving the conduct of a third person or an act of God.

As used herein, "conduct of the claimant" includes conduct of persons through whom the claimant derives his cause of action;

(B) Any issue or defense as to charitable or governmental immunity;

(C) Any issue or defense based on any statute of limitations if suit is instituted within 3 years from the date on which the claimant first knew, or reasonably could have known, of his injury or damage and the cause thereof, but in no event more than 10 years after the date of the nuclear incident. The waiver of any such issue or defense shall be effective regardless of whether such issue or defense may otherwise be deemed jurisdictional or relating to an element in the cause of action. The waivers shall be judicially enforceable in accordance with their terms by the claimant against the person indemnified.

(e) The waivers set forth in paragraph (d) of this article:

(1) Shall not preclude a defense based upon a failure to take reasonable steps to mitigate damages;

(2) Shall not apply to injury or damage to a claimant or to a claimant's property which is intentionally sustained by the claimant or which results from a nuclear incident intentionally and wrongfully caused by the claimant;

(3) Shall not apply to injury to a claimant who is employed at the site of and in connection with the activity where the extraordinary nuclear occurrence takes place if benefits therefor are either payable or required to be provided under any workmen's compensation or occupational disease law;

(4) Shall not apply to any claim for punitive or exemplary damages, provided, with respect to any claim for wrongful death under any State law which provides for damages only punitive in nature, this exclusion does not apply to the extent that the claimant has sustained actual damages, measured by the pecuniary injuries resulting from such death but not to exceed the maximum amount otherwise recoverable under such law;

(5) Shall not apply to any claim resulting from a nuclear incident occurring outside the United States;

(6) Shall be effective only with respect to those obligations set forth in this agreement and in insurance policies, contracts, or other proof of financial protection;

(7) Shall not apply to, or prejudice the prosecution or defense of, any claim or portion of claim which is not within the protection afforded under (i) the limit of liability provisions under subsection 170e of the Atomic Energy Act of 1954, as amended, and (ii) the terms of this agreement and the terms of insurance policies, contracts, or other proof of financial protection.

(f) The Contractor shall give immediate written notice to the ERDA of any known action or claim filed or made against the Contractor or other person indemnified for public liability as defined in paragraph (2) of section (c). Except as otherwise directed by the ERDA, the Contractor shall furnish promptly to the ERDA copies of all pertinent papers received by the Contractor or filed with respect to such actions or claims. When the ERDA shall determine that the Government will probably be required to make indemnity payments under the provisions of section (c) above, the ERDA shall have the right to, and shall, collaborate with the Contractor and any other person indemnified in the settlement or defense of any action or claim and shall have the right (1) to require the prior approval of the ERDA for the payment of any claim that the ERDA may be required to indemnify hereunder, and (2) to appear through the Attorney General on behalf of the Contractor or other person indemnified in any action brought upon any claim that the ERDA may be required to indemnify hereunder, take charge of such action, and settle or defend any such action. If the settlement or defense of any such action or claim is undertaken by the ERDA, the Contractor or other person indemnified shall furnish all reasonable assistance in effecting a settlement or asserting a defense.

(g) The indemnity provided by this article shall not apply to public liability arising out of or in connection with any activity that is performed at a licensed facility, and that is covered by an ERDA indemnity agreement authorized by section 170 of the Act.

(h) The obligations of the ERDA under this article shall not be affected by any failure on the part of the Contractor to fulfill its obligation under this contract, and shall be unaffected by the death, disability, or termination of existence of the Contractor or by the completion, termination or expiration of this contract.

(i) The parties to this contract enter into this article upon the condition that this article may be amended at any time by the mutual written agreement of the ERDA and the Contractor and that such amendment may, by its express terms, provide that it will apply to any nuclear incidents which occur thereafter.

(j) The provisions of this article shall not be limited in any way by, and shall be interpreted without reference to, any other article of this contract [, including Article – – –, Disputes]: *Provided, however*, That the following provisions of this contract: Arti-

cle ————, Covenant Against Contingent Fees; Article ————, Officials Not to Benefit; Article ————, Assignment; and Article————, Examination of Records; and any provisions later added to this contract which, under applicable Federal law, including statutes, executive orders and regulations, are required to be included in agreements of the type contained in this article, shall apply to this article.

(k) [The following section will be included in those contracts containing indemnity agreements executed under the general contract authority of the ERDA.]

To the extent that the Contractor is compensated by any financial protection, or is indemnified pursuant to this article, or is effectively relieved of public liability by an order or orders limiting same pursuant to section 170e. of the Atomic Energy Act of 1954 as amended, the provisions of Article ————(General Authority Indemnity) shall not apply.

§9-7.5004-25 Nuclear hazards indemnity—product liability.

(a) This article is incorporated into this contract pursuant to the authority contained in section 170d of the Atomic Energy Act of 1954, as amended (hereinafter called the Act).

(1) The definitions set out in the Act shall apply to this article.

(2) The term "product delivered under the contract" means any material; equipment; device; drawing; specification or technical data made, proposed, or acquired by the contractor in the course of performance of the contract and delivered to the ERDA or to any other person as directed or approved by the ERDA.

(b) Except as hereafter permitted or required in writing by the ERDA, the contractor will not be required to provide or maintain, and will not provide or maintain at Government expense, any form of financial protection to cover public liability. The ERDA may at any time require in writing that the contractor provide and maintain financial protection of such a type and in such amount as the ERDA shall determine to be appropriate to cover public liability against which the contractor is indemnified hereunder: *Provided*, That the costs of such financial protection will be reimbursed to the contractor by the ERDA.

(c)(1) To the extent that the contractor and other persons indemnified are not compensated by any financial protection permitted or required by the ERDA, the ERDA will indemnify the contractor, and other persons indemnified, against (i) claims for public liability as described in subparagraph (2) of this paragraph (c); and (ii) the reasonable costs of investigating and settling claims, and defending suits for damages for such public liability, provided that the ERDA's liability, including such reasonable costs, under all indemnity agreements entered into by the ERDA under section 170 of the Act, including this contract, shall not exceed $500 million in the aggregate for each nuclear incident occurring within the United States or $100 million in the aggregate for each nuclear incident occurring outside the United States, irrespective of the number of persons indemnified in connection with this contract.

(2) The public liability referred to in subparagraph (1) of this section is public liability which (i) arises out of or in connection with the contractual activity, and (ii) arises out of or results from a product delivered under the contract; but does not include liability for a nuclear incident which is covered by any other indemnity agreement entered into by the ERDA pursuant to section 170 of the Act.

(d) The Contractor shall give immediate written notice to the ERDA of any known action or claim filed or made against the Contractor or other person indemnified for public liability as defined in paragraph (2) of section (c). Except as otherwise directed by the ERDA, the Contractor shall furnish promptly to the ERDA copies of all pertinent papers received by the Contractor or filed with respect to such actions or claims. When the ERDA shall determine that the Government will probably be required to make indemnity payments under the provisions of section (c) above, the ERDA shall have the right to, and shall, collaborate with the Contractor and any other person indemnified in the settlement or defense of any action or claim and shall have the right (1) to require the prior approval of the ERDA for the payment of any claim that the ERDA may be required to indemnify hereunder, and (2) to appear through the Attorney General on behalf of the Contractor or other person indemnified in any action brought upon any claim that the ERDA may be required to indemnify hereunder, take charge of such action, and settle or defend any such action. If the settlement or defense of any such action or claim is undertaken by the ERDA, the Contractor or other person indemnified shall furnish all reasonable assistance in effecting a settlement or asserting a defense.

(e) The obligations of the ERDA under this article shall not be affected by any failure on the part of the contractor to fulfill its obligation under this contract, and shall be unaffected by the death, disability or termination of existence of the contractor or by the completion, termination, or expiration of this contract.

(f) The parties to this contract enter into this article upon the condition that this article may be amended at any time by the mutual written agreement of the ERDA and the contractor and that such amendment may, by its express terms, provide that it will apply to any nuclear incidents which occur thereafter.

(g) The provisions of this article shall not be limited in any way by, and shall be interpreted without reference to, any other article of this contract [, including Article ———, Disputes]: *Provided, however*, That the following provisions of this contract: Article ————, Covenant Against Contingent Fees; Article————, Officials Not to Benefit; Article ————, Assignment; and Article————, Examination of Records; and any provisions later added to this contract which, under applicable Federal law, including statutes, executive orders, and regulations, are required to be included in agreements of this type contained in this article, shall apply to this article.

(h) [The following section will be included in those contracts containing indemnity agreements executed under the general contract authority of the ERDA.]

To the extent that the contractor is compensated by any financial protection, or is indemnified pursuant to this article, or is effectively relieved of public liability by an order or orders limiting same pursuant to section 170e of the Atomic Energy Act of 1954, as amended, the provisions of Article ————(General Authority Indemnity) shall not apply.

§9-7.5004-26 Indemnity assurance to architect-engineer or supplier prior to operation of a production or utilization facility.

(a)(1) The definitions set out in the Atomic Energy Act of 1954, as amended (hereinafter called the Act), shall apply to this article.

(2) The services or supplies furnished under this agreement are intended to be used in connection with the construction and/or operation of a production or utilization facility.

(3) The ERDA will use its best efforts to include in any contract for the operation of such facility, an agreement based on the then current approved form of indemnity agreement under section 170d of the Atomic Energy Act of 1954, as amended, whereby the ERDA will indemnify all persons indemnified, including the contractor, against public liability for nuclear incidents arising out of or in connection with contractual activities under the contract for the operation of said facility, in accordance with the authority provided in subsection 170d of the Act.

(4)(i) The ERDA will enter into an indemnity agreement, in accordance with the authority provided in subsection 170d of the Act, with the contractor, without further consideration from the contractor, at any time when all of the following circumstances are present:

(A) The services or supplies furnished under this contract are being used in connection with any activity or situation which involves a risk of substantial nuclear incident; and

(B) There is not in effect an indemnity agreement as described in subparagraph (3) of this clause, and

(C) The ERDA's authority to enter into agreements of indemnification under section 170(d) of the Act has not expired or been so amended as to deprive the ERDA of authority to enter into such an agreement.

(b) In that agreement the ERDA will indemnify the contractor and other persons indemnified against public liability arising out of or in connection with the contractual activity of this contract.

(c) Such agreement will be based on the then current approved form of section 170d indemnity agreement used in contracts between the ERDA and its contractors, and shall further include an obligation to indemnify the contractor, and persons indemnified, out of or resulting from nuclear incidents for such public liability arising occurring between the time when the services or supplies furnished under this contract are first used in connection with any activity or situation which involves risk of a substantial nuclear incident and the time when such agreement is executed.

(d) The indemnity provided by the ERDA under all indemnity agreements entered into by the ERDA under section 170 of the Act, including this agreement, shall not exceed $500 million in the aggregate for each nuclear incident, without regard to the number of persons indemnified, including the reasonable costs of investigating and settling claims and defending suits for damages: *Provided, however,* That with respect to incidents occurring outside the United States such aggregate indemnity shall not exceed $100 million, including such reasonable costs.

§9-7.5005 Standard FPR clauses not included in §9-7.5004.

This section sets forth clauses which are not ERDA mandatory-as-to-text clauses. However, these clauses are standard FPR clauses and should be used in accordance with §9-1.109.

§9-7.5005-1 Additional bond security.

See FPR 1-7.103-2.

§9-7.5005-2 Changes (fixed-price supply contracts).

See FPR 1-7.102-2.

§9-7.5005-3 Default (fixed-price supply contracts).

See FPR 1-8.707.

§9-7.5005-4 Definitions.

See FPR 1-7.102-1. In addition, use the following where appropriate.

(a) The term "ERDA" means the Energy Research and Development Administration or any duly authorized representative thereof, including the Contracting Officer except for the purpose of deciding an appeal under the article entitled "Disputes."

(b) Additional definitions may be included as are appropriate.

§9-7.5005-5 Extras.

See FPR 1-7.102-3.

§9-7.5005-6 Inspection (fixed-price supply).

See FPR 1-7.102-5.

§9-7.5005-7 Payments.

See FPR 1-7.102-7.

§9-7.5005-8 Variation in quantity.

See FPR 1-7.102-4.

§9-7.5005-9 Utilization of small business concerns.

See FPR 1-1.710-3(a).

§9-7.5005-10 Liquidated damages.

See FPR 1-1.315-3.

§9-7.5005-11 Federal, State, and local taxes.

§9-7.5006 Standard ERDA clauses not included in §9-7.5004 or §9-7.5005.

This section sets forth standard ERDA clauses which are in addition to those referred to in §§9-7.5004 and 9-7.5005 and which constitute standard provisions for use in ERDA contracts.

§9-7.5006-1 Accounts, records, and inspection (CPFF).

(a) *Accounts.* The contractor shall maintain a separate and distinct set of accounts, records, documents, and other evidence showing and supporting all allowable costs incurred, revenues or other applicable credits, fixed-fee accruals, and the receipt, use, and

disposition of all Government property coming into the possession of the contractor under this contract. The system of accounts employed by the contractor shall be satisfactory to the ERDA and in accordance with generally accepted accounting principles consistently applied.

NOTE A: Delete "a separate and distinct set of" from the first sentence of paragraph (a) if the contract is with a cost-type contractor using privately owned facilities whose accounts are not integrated with those of ERDA.

NOTE B: If the contract includes the clause for "price reduction for defective cost or pricing data" required by FPR 1-3.814-1, paragraph (a) above should be modified by adding the words "or anticipated to be incurred" after the words "allowable costs incurred."

(b) *Inspection and audit of accounts and records.* All books of account and records relating to this contract shall be subject to inspection and audit by the ERDA at all reasonable times, before and during the period of retention provided for in (d) below and the contractor shall afford the ERDA proper facilities for such inspection and audit.

(c) *Audit of subcontractors' records.* The contractor also agrees, with respect to any subcontracts (including lump-sum or unit-price subcontracts or purchase orders) where, under the terms of the subcontract, costs incurred are a factor in determining the amount payable to the subcontractor of any tier, to conduct an audit of the costs of the subcontractor in a manner satisfactory to the ERDA or to have the audit conducted by the next higher tier subcontractor in a manner satisfactory to the contractor and the ERDA, except when the ERDA elects to waive such audit or approves other arrangements for the conduct of the audit.

(d) *Disposition of records.* Except as agreed upon by the Government and the contractor, all financial and cost reports, books of account and supporting documents, and other data evidencing costs allowable and revenues and other applicable credits under this contract, shall be the property of the Government, and shall be delivered to the Government or otherwise disposed of by the contractor either as the Contracting Officer may from time to time direct during the progress of the work or, in any event, as the Contracting Officer shall direct upon completion or termination of this contract and final audit of all accounts hereunder. Except as provided in this contract, all other records in the possession of the contractor relating to this contract shall be preserved by the contractor for a period of three (3) years after final payment under this contract or otherwise disposed of in such manner as may be agreed upon by the Government and the contractor.

NOTE: Delete paragraph (d) and substitute the following if the contract is with a cost-type contractor using privately owned facilities whose accounts are not integrated with those of ERDA:

> (d) *Disposition of records.* Except as agreed upon by the Government and the contractor, all financial and cost reports, books of account and supporting documents and other data evidencing costs allowable and revenues and other applicable credits under this contract in the possession of the contractor relating to this contract shall be preserved by the contractor for a period of three (3) years after final payment under this contract or otherwise disposed of in such manner as may be agreed upon by the Government and the contractor.

(e) *Reports.* The contractor shall furnish such progress reports and schedules, financial and cost reports, and other reports concerning the work under this contract as the Contracting Officer may from time to time require.

(f) *Inspections.* The ERDA shall have the right to inspect the work and activities of the contractor under this contract at such time and in such manner as it shall deem appropriate.

(g) *Subcontracts.* The contractor further agrees to require the inclusion of provisions similar to those in paragraphs (a) through this paragraph (g) of this clause in all subcontracts (including lump-sum or unit-price subcontracts or purchase orders) of any tier entered into hereunder where, under the terms of the subcontract, costs incurred are a factor in determining the amount payable to the subcontractor.

NOTE: If the prime contract contains a "defective cost or pricing data" clause, this paragraph (g) shall be modified by adding the following:

The contractor further agrees to include an audit clause, the substance of which is the "audit" clause in FPR 1-3.814-2, in each subcontract which does not include provisions similar to those in paragraphs (a) through this paragraph (g) of this clause but which contains a "defective cost or pricing data" clause.

(h) *Internal audit.* The contractor agrees to conduct an internal audit and examination satisfactory to the ERDA of the records, operations, expenses, and the transactions with respect to costs claimed to be allowable under this contract annually and at such other times as may be mutually agreed upon. The results of such audit, including the working papers, shall be submitted or made available to the Contracting Officer.

NOTE: This provision shall be included in (a) all cost-type contracts (or subcontracts) involving an estimated cost exceeding $5 million and expected to run more than 2 years, and (b) any other cost-type contract (or subcontract) where deemed advisable by the Manager of the Field Office and when the contractor (or subcontractor) already has an established internal audit organization.

§9-7.5006-2 Alterations and additions.

The following alterations in or additions to the provisions of this form of contract were made prior to execution of the contract by the parties.

§9-7.5006-3 [Reserved]

§9-7.5006-4 Changes (CPFF).

(a) *Changes and adjustment of fee.* The Contracting Officer may at any time and without notice to the sureties, if any, issue written directions within the general scope of this contract requiring additional work or directing the omission of or variation in work covered by this contract. If any such direction results in a material change in the amount or character of the work described in the clause entitled "Statement of work," an equitable adjustment of the fixed fee shall be made in accordance with the agreement of the parties and the contract shall be modified in writing accordingly. Any claim by the contractor for an adjustment under this clause must be asserted in writing within 30 days from the date of receipt by the contractor of the notification of change; provided, however, that the Contracting Officer, if he decides that the facts justify such action, may receive and act upon any such claim asserted at any time prior to final payment under this contract. A failure to agree on an equitable adjustment under this clause shall be deemed to be a dispute within the meaning of the clause entitled "Disputes."

(b) *Work to continue.* Nothing contained in this clause shall excuse the contractor from proceeding with the prosecution of the work in accordance with the requirements of any direction hereunder.

§9-7.5006-5 [Reserved]

§9-7.5006-6 Contractor's organization.

(a) *Organization chart.* As promptly as possible after the execution of this contract, the contractor shall furnish to the Contracting Officer a chart showing the names, duties, and organization of key personnel to be employed in connection with the work, and shall furnish from time to time supplementary information reflecting changes therein.

(b) *Supervising representative of contractor.* Unless otherwise directed by the Contracting Officer, a competent full-time resident supervising representative of the contractor satisfactory to the Contracting Officer shall be in charge of the work at the site at all times.

(c) *Control of employees.* The contractor shall be responsible for maintaining satisfactory standards of employee competency, conduct, and integrity and shall be responsible for taking such disciplinary action with respect to his employees as may be necessary. In the event the contractor fails to remove any employee from the contract work whom the ERDA deems incompetent, careless, or insubordinate, or whose continued employment on the work is deemed by the ERDA to be contrary to the public in-

terest, the Government reserves the right to require the contractor to remove the employee.

NOTE: In contracts identified in § 9–12.5401(b), the following paragraph shall be substituted for (c) above:

> (c) The contractor shall be responsible for maintaining satisfactory standards of employee competency, conduct, and integrity and shall be responsible for taking such disciplinary action with respect to his employees as may be necessary. The contractor shall establish such standards and procedures as are necessary to implement effectively the provisions set forth in Energy Research and Development Administration Procurement Regulations 9–12.54, and such standards and procedures shall be subject to the approval of the Contracting Officer.

§9–7.5006–7 Copyright (General).

See §9–9.5103.

§9–7.5006–8 Copyright (Motion Pictures).

See §9–9.5106.

§9–7.5006–9 Allowable costs and fixed fee (CPFF operating and construction contracts).

(a) *Compensation for contractor's services.* Payment for the allowable cost as hereinafter defined, and of the fixed fee, if any, as hereinafter provided, shall constitute full and complete compensation for the performance of the work under this contract.

(b) *Fixed fee.* The fixed fee payable to the contractor for the performance of the work under this contract is $————. There shall be no adjustment in the amount of the contractor's fixed fee by reason of differences between any estimate of cost for performance of the work under this contract and the actual cost for performance of that work. Note: This provision may be appropriately changed to cover situations where the fee is for a period of time or different fees are allowed for various phases of the work.

(c) *Allowable cost.* The allowable cost of performing the work under this contract shall be the costs and expenses that are actually incurred by the contractor in the performance of the contract work in accordance with its terms, that are necessary or incident thereto, and are determined to be allowable pursuant to this paragraph (c). The determination of the allowability of cost hereunder shall be based on: (1) Reasonableness, including the exercise of prudent business judgment, (2) consistent application of generally accepted accounting principles and practices that result in equitable charges to the contract work, and (3) recognition of all exclusions and limitations set forth in this clause or elsewhere in this contract as to types or amounts of items of cost. Allowable cost shall not include cost of any item described as unallowable in paragraph (e) of this clause, except as indicated therein. Failure to mention an item of cost specifically in paragraph (d) or paragraph (e) shall not imply either that it is allowable or that it is unallowable.

(d) *Examples of items of allowable cost.* Subject to the other provisions of this clause, the following examples of items of cost of work done under this contract shall be allowable to the extent indicated:

(1) *Bonds and insurance*, including self-insurance, as provided in the clause entitled "Required bonds and insurance—exclusive of Government property."

(2) *Communication costs*, including telephone services, local and long-distance calls, telegrams, cablegrams, radiograms, postage, and similar items.

(3) *Consulting services* (including legal and accounting), and related expenses, as approved by the Contracting Officer, except as made unallowable by paragraph (e)(26).

(4) *Litigation expenses*, including reasonable counsel fees, incurred in accordance with the clause of this contract entitled "Litigation and claims."

(5) *Losses and expenses* (including settlements made with the consent of the Contracting Officer) sustained by the contractor in the performance of this contract and certified in writing by the Contracting Officer to be just and reasonable, except the losses and expenses expressly made unallowable under other provisions of this contract.

(6) *Materials, supplies, and equipment*, including freight, transportation, material handling, inspection, storage, salvage, and other usual expenses incident to the procurement, use, and disposition thereof, subject to approvals required under other provisions of this contract.

(7) *Patents, purchased design, and royalty payments* to the extent expressly provided for under other provisions in this contract or as approved by the Contracting Officer; and preparation of invention disclosures, reports and related documents, and searching the art to the extent necessary to make such invention disclosures in accordance with the Patent clause of this contract.

(8) *Personnel costs and related expenses* incurred in accordance with Appendix A, or amendments thereto, such as:

(i) *Salaries and wages*; bonuses and incentive compensation; overtime, shift differential, holiday, and other premium pay for time worked; nonwork time, including vacations, holidays, sick, funeral, military, jury, witness, and voting leave; salaries and wages to employees in their capacity as union stewards and committeemen for time spent in handling grievances, or serving on labor management (contractor) committees: *Provided, however*, That the Contracting Officer's approval is required in each instance of total compensation to an individual employee at an annual rate of $————[1] or more, when it is proposed that a total of 50 percent or more of such compensation be reimbursed under ERDA cost-type contracts. Total compensation, as used here, includes only the employee's base salary and bonus and incentive compensation payments;

(ii) *Legally required contributions* to old-age and survivors' insurance, unemployment compensation plans, and workmen's compensation plans (whether or not covered by insurance); voluntary or agreed-upon plans providing benefits for retirement, separation, life insurance, hospitalization, medical-surgical and unemployment (whether or not such plans are covered by insurance);

(iii) *Travel* (except foreign travel, which requires specific approval by the Contracting Officer on a case-by-case basis); incidental subsistence and other allowances of contractor employees, in connection with performance of work under this contract (including new employees reporting for work and transfer of employees, the transfer of their household goods and effects and the travel and subsistence of their dependents);

(iv) *Employee relations, welfare, morale, etc., programs*, including incentive or suggestion awards, employee counseling services, health or first-aid clinics, and house or employee publications;

(v) *Personnel training* (except special education and training courses and research assignments calling for attendance at educational institutions which require specific approval by the Contracting Officer on a case-by-case basis), including apprenticeship training programs designed to improve efficiency and productivity of contract operations, to develop needed skills, and to develop scientific and technical personnel in specialized fields required in the contract work;

(vi) *Recruitment of personnel* (including help-wanted advertisement), including services of employment agencies at rates not in excess of standard commercial rates, employment office, travel of prospective employees at the request of the contractor for employment interviews; and

(vii) *Net cost of operating plantsite cafeterias*, dining rooms, and canteens attributable to the performance of the contract.

Appendix A may be modified from time to time, in writing, without execution of an amendment to this contract, for the purposes of effecting any changes in or additions to Appendix A as may be agreed upon by the parties.

NOTE: In appropriate circumstances, the lead sentence in subparagraph (8) may be changed to read as follows: Personnel costs and related expenses incurred in accordance with established policies, programs, and schedules, and any changes thereto during the contract term, applicable to the contractor's private operations and consistently followed throughout his organization, as approved by the Contracting Officer, such as:

Also, delete last paragraph of text which refers to modifying Appendix A.

[1] The specific dollar amount to be inserted here is subject to determination by the contracting officer, taking into account the cost principles and procedures set forth in Part 9–15, with specific reference to §9–15.5010–14(d). In no event should the dollar amount be more than $25,000.

(9) *Repairs, maintenance, inspection,* replacement and disposal of Government-owned property and the restoration or clean-up of site and facilities to the extent directed or approved by the Contracting Officer.

(10) *Subcontracts and purchase orders,* including procurements from contractor-controlled sources, subject to approvals required by other provisions of this contract.

(11) *Subscriptions* to trade, business, technical, and professional periodicals, as approved by the Contracting Officer.

(12) *Taxes, fees, and charges* levied by public agencies which the contractor is required by law to pay, *except* those which are expressly made unallowable under other provisions of this contract.

(13) *Utility services,* including electricity, gas, water, steam, and sewerage.

The following additional example of items is for use in contracts for the operation of ERDA-owned facilities. Additional items for construction contracts are included under items (15), (16), and (17) below.

(14) *Establishment and maintenance of bank accounts* in connection with the work hereunder, including, but not limited to, service charges, the cost of disbursing cash, necessary guards, cashiers, and paymasters. If payments to employees are made by check, facilities and arrangements for cashing checks may be provided without expense to the employees, subject to the approval of the Contracting Officer.

The following additional examples of items are for use in construction contracts:

(15) *Camp operations,* to the extent approved by the Contracting Officer.

(16) *Maintenance, inspection,* repair, replacement, and transportation of construction plant and equipment, to the extent not covered by rentals or insurance and as provided in rental agreements approved by the Contracting Officer or in Appendix B.

(17) *Rental* for (i) construction plant and equipment rented by the contractor from others at rates and under written agreements approved by the Contracting Officer, and (ii) construction plant and equipment owned and furnished by the contractor under Appendix B to this contract.

(c) *Examples of items of unallowable costs.* The following examples of items of costs are unallowable under this contract to the extent indicated:

(1) *Advertising,* except (i) help-wanted advertising, and (ii) other advertising (such as costs of participation in exhibits) approved by the Contracting Officer as clearly in furtherance of work performed under the contract.

(2) *Bad debts* (including expenses of collection) and provisions for bad debts arising out of other business of the contractor.

(3) *Bidding expenses and costs of proposals.*

(4) *Bonuses* and similar compensation under any other name, which (i) are not pursuant to an agreement between the contractor and employee prior to the rendering of the services or an established plan consistently followed by the contractor, (ii) are in excess of those costs which are allowable by the Internal Revenue Code and regulations thereunder, or (iii) provide total compensation to an employee in excess of reasonable compensation for the services rendered.

(5) *Central and branch office expenses* of the contractor, except as specifically set forth in the contract.

(6) *Commissions, bonuses, and fees* (under whatever name) in connection with obtaining or negotiating for a Government contract or a modification thereto, except when paid to bona fide employees or bona fide established selling organizations maintained by the contractor for the purpose of obtaining Government business.

(7) *Contingency reserves,* provisions for.

(8) *Contributions and donations.*

(9) *Depreciation* in excess of that calculated by application of methods approved for use by the Internal Revenue Service under the Internal Revenue Code of 1954, as amended, including the straight-line, declining balance (using a rate not exceeding twice the rate which would have been used had the depreciation been computed under the straight-line method), or sum-of-the-years digits method, on the basis of expected useful life, to the cost of acquisition of the related fixed assets less estimated salvage or residual value at the end of the expected useful life.

(10) *Dividend provisions or payments* and, in the case of sole proprietors and partners, distributions of profit.

(11) *Entertainment costs,* except the costs of such recreational activities for onsite employees as may be approved by the Contracting Officer or provided for elsewhere in this contract.

(12) *Fines and penalties,* including assessed interest, resulting from violations of, or failure of the contractor to comply with, Federal, State, or local laws or regulations, except when incurred in accordance with the written approval of the Contracting Officer or as a result of compliance with the provisions of this contract.

(13) *Government-furnished property,* except to the extent that cash payment therefor is required pursuant to procedures of the ERDA applicable to transfers of such property to the contractor from others.

(14) *Insurance* (including any provision of a self-insurance reserve) on any person where the contractor under the insurance policy is the beneficiary, directly or indirectly, and insurance against loss of or damage to Government property as defined in Clause ————.

(15) *Interest,* however represented (except interest incurred in compliance with the clause entitled "State and local taxes"), bond discounts and expenses, and costs of financing and refinancing operations.

(16) *Legal, accounting, and consulting services* and related costs incurred in connection with the preparation of prospectuses, preparation and issuance of stock rights, organization or reorganization, prosecution or defense of antitrust suits, prosecution of claims against the United States, contesting actions or proposed actions of the United States, and prosecution or defense of patent infringement litigation.

(17) *Losses* (including litigation expenses, counsel fees, and settlements) on, or arising from the sale, exchange, or abandonment of capital assets, including investments; losses on other contracts, including the contractor's contributed portion under cost-sharing contracts; losses in connection with price reductions to and discount purchases by employees and others from any source; and losses where such losses or expenses—

(i) Are compensated for by insurance or otherwise or which would have been compensated by insurance required by law or by written direction of the Contracting Officer but which the contractor failed to procure or maintain through its own fault or negligence;

(ii) Result from willful misconduct or lack of good faith on the part of any of the contractor's directors, corporate officers, or a supervising representative of the contractor, as defined in Clause ————of this contract;

(iii) Represent liabilities to third persons for which the contractor has expressly accepted responsibility under other terms of this contract.

(18) *Maintenance, depreciation, and other costs* incidental to the contractor's idle or excess facilities (including machinery and equipment) other than reasonable standby facilities.

[NOTE: May be omitted when no contractor-owned equipment is being utilized in the performance of the contract.]

(19) *Membership* in trade, business, and professional organizations except as approved by the Contracting Officer.

(20) *Precontract costs,* except as expressly made allowable under other provisions in this contract.

(21) *Research and development costs,* unless specifically provided for elsewhere in this contract.

(22) *Selling costs,* except to the extent they are determined to be reasonable and to be allocable to the contract. Allocability of selling costs to the contract will be determined in the light of reasonable benefit to the agency program arising from such activities as technical, consulting, demonstration, and other services performed for such purposes as applying or adapting the contractor's product for agency use.

(23) *Storage of records* pertaining to this contract after completion of operations under this contract, irrespective of contractual or statutory requirement of the preservation of records.

(24) *Taxes, fees, and charges* in connection with financing, refinancing, or refunding operations, including the listing of securities on exchanges; taxes which are paid contrary to the clause entitled "State and local taxes"; taxes on net income and excess profits; and special assessments on land which represent capital improvement.

(25) *Travel expenses* of the officers, proprietors, executives, administrative heads and other employees of the contractor's central office or branch office organizations concerned with the general management, supervision and conduct of the contractor's business as a whole, except to the extent that particular travel is in connection with the contract and approved by the Contracting Officer.

(26) *Salary or other compensation* (and expenses related thereto) of any individual employed under this contract as a consultant or in another comparable employment capacity who is an employee of another organization and concurrently performing work on a full-time annual basis for that organization under a cost-type contract with the ERDA, except to the extent that cash payment therefor is required pursuant to the provisions of this contract or procedure of the ERDA applicable to the borrowing of such an individual from another cost-type contractor.

(27) *First-class air travel in excess of the cost of less than first-class air accomodations*, except when less than first-class accommodations are not reasonably available to meet necessary mission requirements, such as where less than first-class accommodations would:

(i) Require circuitous routing,

(ii) Require travel during unreasonable hours,

(iii) Greatly increase the duration of the flight,

(iv) Result in additional costs which would offset the transportation savings,

(v) Offer accommodations which are not reasonably adequate for the medical needs of the traveler.

(28) *Special construction industry "funds"* financed by employer contributions for such purposes as methods and materials research, public and industry relations, market development, and disaster relief, except as specifically provided elsewhere in this contract.

§9-7.5006-10 Allowable costs and fixed fee (supply contracts and research and development contracts with concerns other than educational institutions).

(a) *Compensation for contractor's services.* Payment for the allowable cost as hereinafter defined, and of the fixed fee, if any, as hereinafter provided shall constitute full and complete compensation for the performance of the work under this contract.

(b) *Fixed fee.* The fixed fee payable to the contractor for the performance of the work under this contract is $————. There shall be no adjustment in the amount of the contractor's fixed fee by reason of differences between any estimate of cost for performance of the work under this contract and the actual cost for performance of that work.

NOTE: This provision may appropriately be changed to cover situations where the fee is for a period of time, or different fees are allowed for various phases of the work.

(c) *Allowable cost.* The allowable cost of performing the work under this contract shall be the costs and expenses that are actually incurred by the contractor, are applicable and properly chargeable, either as directly incident or as allocable through appropriate distribution or apportionment, to the performance of the contract work in accordance with its terms and are determined to be allowable pursuant to this paragraph (c). The determination of the allowability of cost hereunder shall be based on: (1) Reasonableness, including the exercise of prudent business judgment, (2) consistent application of generally accepted accounting principles and practices that result in equitable charges to the contract work, and (3) recognition of all exclusions and limitations set forth in this clause or elsewhere in this contract as to types or amounts of items of cost. Allowable cost shall not include cost of any item described as unallowable in paragraph (e) of this clause, except as indicated therein. Failure to mention an item of cost specifically in paragraph (d) or paragraph (e) shall not imply either that it is allowable or that it is unallowable.

(d) *Examples of items of allowable cost.* Subject to the other provisions of this clause, the following examples of items of cost of work under this contract shall be allowable to the extent indicated:

(1) *Bonds and insurance* (including self-insurance) as provided in the clause entitled "Required bonds and insurance—exclusive of Government property."

(2) *Communication costs*, including telephone services, local and long-distance telephone calls, telegrams, cablegrams, radiograms, postage, and similar items.

(3) *Consulting services* (including legal and accounting) and related expenses, as approved by the Contracting Officer, except as made unallowable by paragraph (e)(24).

(4) *Litigation expenses*, including reasonable counsel fees, incurred in accordance with the clause of this contract entitled "Litigation and claims."

(5) *Losses and expenses* (including settlements made with the consent of the Contracting Officer) sustained by the contractor in the performance of this contract and certified in writing by the Contracting Officer to be just and reasonable, except the losses and expenses expressly made unallowable under other provisions of this contract.

(6) *Materials and supplies* (including those withdrawn from common stores costed in accordance with any generally recognized method that is consistently applied by the contractor and productive of equitable results).

(7) *Patents, purchased design, and royalty payments* to the extent expressly provided for under other provisions in this contract or as approved by the Contracting Officer; and preparation of invention disclosures, reports, and related documents, and searching the art to the extent necessary to make such invention disclosures in accordance with the Patent clause of this contract.

(8) *Personnel costs and related expenses* incurred in accordance with Appendix A, or amendments thereto, such as:

(i) *Salaries and wages;* bonuses and incentive compensation; overtime, shift differential, holiday, and other premium pay for time worked; nonwork time including vacations, holidays, sick, funeral, military, jury, witness, and voting leave; salaries and wages to employees in their capacity as union stewards and committeemen for time spent in handling grievances, or serving on labor management (contractor) committees: *Provided, however,* That the Contracting Officer's approval is required in each instance of total compensation to an individual employee at an annual rate of $————[2] or more, when it is proposed that a total of 50 percent or more of such compensation be reimbursed under ERDA cost-type contracts. Total compensation, as used here, includes only the employee's base salary and bonus and incentive compensation payments.

(ii) *Legally required contributions* to old-age and survivors' insurance, unemployment, compensation plans, and workmen's compensation plans (whether or not covered by insurance); voluntary or agreed-upon plans providing benefits for retirement, separation, life insurance, hospitalization, medical-surgical and unemployment (whether or not such plans are covered by insurance);

(iii) *Travel* (except foreign travel, which requires specific approval by the Contracting Officer on a case-by-case basis); incidental subsistence and other allowances of contractor employees, in connection with performance of work under this contract (including new employees reporting for work and transfer of employees, the transfer of their household goods and effects, and the travel and subsistence of their dependents);

(iv) *Employee relations, welfare, morale, etc., programs*, including incentive or suggestion awards, employee counseling services, health or first-aid clinics, and house or employee publications;

(v) *Personnel training* (except special education and training courses and research assignments calling for attendance at educational institutions which require specific approval by the Contracting Officer on a case-by-case basis) including apprenticeship training programs designed to improve efficiency and productivity of contract operations, to develop needed skills and to develop scientific and technical personnel in specialized fields required in the contract work;

[2]The specific dollar amount to be inserted here is subject to determination by the contracting officer, taking into account the cost principles and procedures set forth in Part 9-15, with specific reference to §9-15.5010-14(d). In no event should the dollar amount be more than $25,000.

(vi) *Recruitment of personnel* (including help-wanted advertisement) including services of employment agencies at rates not in excess of standard commercial rates, employment office, travel of prospective employees at the request of the contractor for employment interviews; and

(vii) *Net cost of operating plant-site cafeterias*, dining rooms, and canteens attributable to the performance of the contract.

Appendix A may be modified from time to time, in writing, without execution of an amendment to this contract for the purposes of effecting any changes in or additions to Appendix A as may be agreed upon by the parties.

NOTE: In appropriate circumstances, the lead sentence in subparagraph (8) may be changed to read as follows: "Personnel costs and related expenses incurred in accordance with established policies, programs, and schedules, and any changes thereto during the contract term, applicable to the contractor's private operations and consistently followed throughout his organization, as approved by the Contracting Officer, such as:"

Also, delete last paragraph of text which refers to modifying Appendix A.

(9) *Rentals and leases* of land, buildings, and equipment owned by third parties where such items are used in the performance of the contract, except that such rentals and leases directly chargeable to the contract shall be subject to approval by the Contracting Officer.

(10) *Repairs, maintenance, inspection*, replacement, and disposal of Government-owned property to the extent directed or approved by the Contracting Officer.

(11) *Repairs, maintenance and inspection* of contractor-owned property used in connection with the performance of this contract, including reasonable standby facilities, which are due to ordinary wear and tear from use and the action of the elements, provided such maintenance and repairs keep the property in efficient operating condition and do not add to its permanent value or appreciably prolong its intended useful life; and major repairs (including replacement) to such property, as directed or approved by the Contracting Officer when charged directly to the contract.

(12) *Special tooling*, including jigs, dies, fixtures, molds, patterns, designs and drawings, tools, and equipment of a specialized nature generally useful to the contractor only in the performance of this contract.

NOTE: Itemize any additional special equipment which may be appropriate, such as loops, mockups, experimental setups, etc.

(13) *Subcontracts, purchase orders*, and procurements from contractor-controlled sources, subject to approvals required by other provisions of this contract.

(14) *Subscriptions* to trade, business, technical, and professional periodicals, as approved by the Contracting Officer when charged directly to the contract.

(15) *Taxes, fees, and charges* levied by public agencies which the contractor is required by law to pay, *except* those which are expressly made unallowable under other provisions of this contract.

(16) *Utility services*, including electricity, gas, water, steam, and sewerage.

(17) *The costs of preparing bids and proposals*, to the extent approved by the Contracting Officer, but not to exceed 1 percent of the direct material and direct labor costs of the contract work.

(e) *Examples of items of unallowable costs.* The following examples of items of costs are unallowable under this contract to the extent indicated:

(1) *Advertising*, except (i) help-wanted advertising, and (ii) other advertising (such as costs of participation in exhibits) approved by the Contracting Officer as clearly in furtherance of work performed under the contract.

(2) *Bad debts* (including expenses of collection) and provisions for bad debts not arising out of the performance of this contract.

(3) *Bonuses* and similar compensation under any other name, which (i) are not pursuant to an agreement between the contractor and employee prior to the rendering of the services or an established plan consistently followed by the contractor, (ii) are in excess of those costs which are allowable by the Internal Revenue Code and regulations thereunder, or (iii) provide total compensation to an employee in excess of reasonable compensation for the services rendered.

(4) *Commissions, bonuses, and fees* (under whatever name) in connection with obtaining or negotiating for a Government contract or a modification thereto, except when paid to bona fide employees or bona fide established selling organizations maintained by the contractor for the purpose of obtaining Government business.

(5) *Contingency reserves*, provisions for (except provisions for reserves under a self-insurance program to the extent that the type, coverage, rates, and premiums would be allowable if commercial insurance were purchased to cover the same risk, as approved by the Contracting Officer).

(6) *Contributions and donations.*

(7) *Depreciation* in excess of that calculated by application of methods approved for use by the Internal Revenue Service under the Internal Revenue Code of 1954, as amended, including the straight-line, declining balance (using a rate not exceeding twice the rate which would have been used had the depreciation been computed under the straight-line method) or sum-of-the-years digits method, on the basis of expected useful life, to the cost of acquisition of the related fixed assets less estimated salvage or residual value at the end of the expected useful life. Amortization or depreciation of unrealized appreciation of values of assets or of assets fully amortized or depreciated on the contractor's books of account is unallowable.

(8) *Dividend provisions or payments* and, in the case of sole proprietors and partners, distributions of profits.

(9) *Entertainment costs*, except the costs of such recreational activities for on-site employees as may be approved by the Contracting Officer or provided for elsewhere in this contract.

(10) *Fines and penalties*, including assessed interest, resulting from violations of, or failure of the contractor to comply with, Federal, State, or local laws, or regulations, except when incurred in accordance with written approval of the Contracting Officer or as a result of compliance with the provisions of this contract.

(11) *Government-furnished property*, except to the extent that cash payment therefor is required pursuant to procedures of the ERDA applicable to transfers of such property to the contractor from others.

(12) *Insurance* (including any provision of a self-insurance reserve) on any person where the contractor under the insurance policy is the beneficiary, directly or indirectly, and insurance against loss of or damage to Government property as defined in Clause ————.

(13) *Interest*, however represented (except interest incurred in compliance with the clause entitled "State and local taxes"), bond discounts and expenses, and costs of financing and refinancing operations.

(14) *Legal, accounting, and consulting services*, and related costs incurred in connection with the preparation of prospectuses, preparation and issuance of stock rights, organization or reorganization, prosecution or defense of antitrust suits, prosecution of claims against the United States, contesting actions or proposed actions of the United States, and prosecution or defense of patent infringement litigation.

(15) *Losses* (including litigation expenses, counsel fees, and settlement) on, or arising from the sale, exchange, or abandonment of capital assets, including investments; losses on other contracts, including the contractor's contributed portion under cost-sharing contracts; losses in connection with price reduction to and discount purchases by employees and others from any source; and losses where such losses or expenses—

(i) Are compensated for by insurance or otherwise, or which would have been compensated by insurance required by law or by written direction of the Contracting Officer but which the contractor failed to procure or maintain through its own fault or negligence, or which could have been covered by permissible insurance in keeping with ordinary business practice but which the contractor failed to secure or maintain;

(ii) Result from willful misconduct or lack of good faith on the part of any of the contractor's directors, corporate officers, or a supervising representative of the contractor, as defined in Clause ————of this contract;

(iii) Represent liabilities to third persons for which the contractor has expressly accepted responsibility under other terms of this contract.

(16) *Maintenance, depreciation, and other costs* incidental to the contractor's idle or excess facilities (including machinery and equipment) other than reasonable standby facilities.

(17) *Membership* in trade, business, and professional organizations except as approved by the Contracting Officer.

(18) *Precontract costs*, except as expressly made allowable under other provisions in this contract.

(19) *Reconversion, alteration, restoration, or rehabilitation* of the contractor's facilities, except as expressly provided elsewhere in this contract.

(20) *Research and development costs*, unless specifically provided for elsewhere in this contract.

(21) *Selling costs*, except to the extent they are determined to be reasonable and to be allocable to the contract. Allocability of selling costs to the contract will be determined in the light of reasonable benefit to the agency program arising from such activities as technical, consulting, demonstration, and other services performed for such purposes as applying or adapting the contractor's product for agency use.

(22) *Storage of records* pertaining to this contract after completion of operations under this contract irrespective of contractual or statutory requirement of the preservation of records.

(23) *Taxes, fees, and charges* in connection with financing, refinancing, or refunding operations, including the listing of securities on exchanges; taxes which are paid contrary to the clause entitled "State and local taxes"; Federal taxes on net income and excess profits; and special assessments on land which represent capital improvement.

(24) *Salary or other compensation* (and expenses related thereto) of any individual employed under this contract as a consultant or in another comparable employment capacity who is an employee of another organization and concurrently performing work on a full-time annual basis for that organization under a cost-type contract with the ERDA, except to the extent that cash payment therefor is required pursuant to the provisions of this contract or procedures of the ERDA applicable to the borrowing of such an individual from another cost-type contractor.

(25) *First-class air travel in excess of the cost of less than first-class air accommodations*, except when less than first-class accommodations are not reasonably available to meet necessary mission requirements, such as, where less than first-class accommodations would:

(i) Require circuitous routing,

(ii) Require travel during unreasonable hours,

(iii) Greatly increase the duration of the flight,

(iv) Result in additional costs which would offset the transportation savings,

(v) Offer accommodations which are not reasonably adequate for the medical needs of the traveler.

§9-7.5006-11 Allowable costs (research and development contracts with educational institutions).

(a) The ERDA shall pay to the contractor for performance of this contract the allowable direct costs incident to its performance plus the allocable portion of the allowable indirect costs of the contractor, as determined in accordance with:

(1) Subpart 1-15.3 of the Federal Procurement Regulations, as that text is amended by the amendments to Bureau of the Budget Circular No. A-21 as of the date of commencement of the pertinent contract period set forth in Appendix A; and

NOTE: Subpart 1-15.3 of the FPR, along with the latest amendments to Bureau of the Budget Circular No. A-21, as of the date of execution of the contract, may be appended to the contract.

(2) The terms of this contract.

(b) In addition to other costs declared to be unallowable, the salary or other compensation (and expenses related thereto) of any individual employed under the contract as a consultant or in another comparable employment capacity who is an employee of another organization and concurrently performing work on a full-time annual basis for

that organization under a cost-type contract with the ERDA shall be unallowable, except to the extent that cash payment therefor is required pursuant to the provisions of the contract or procedures of the ERDA applicable to the borrowing of such an individual from another cost-type contractor.

NOTE: When predetermined overhead rates are to be used, the following shall be added to the above clause (see §9-15.103(c)):

(c) *Predetermined overhead rates.* Notwithstanding (a) above, the allowable indirect costs under this contract shall be obtained by applying predetermined overhead rates to bases agreed upon by the parties, as specified below:

(1) The contractor, as soon as possible, but not later than three (3) months after the expiration of each fiscal year, shall submit to the Contracting Officer, a proposed predetermined overhead rate or rates for use during the contract year based on the contractor's actual cost experience during the immediately preceding fiscal year, together with supporting cost data. Negotiation of predetermined overhead rates by the contractor and the Contracting Officer shall be undertaken as promptly as practicable after receipt of the contractor's proposal.

(2) Allowability of costs and acceptability of cost allocation methods shall be determined in accordance with the appended cost principles for research contracts with educational institutions.

(3) The results of each negotiation shall be set forth in an amendment to this contract and shall specify (i) the agreed predetermined overhead rates, (ii) the bases to which the rates apply, (iii) the fiscal year, unless the parties agree to a different period for which the rates apply, and (iv) the specific items treated as direct costs or any changes in the items previously agreed to be direct costs.

(4) Pending establishment of predetermined overhead rates for any fiscal year or different period agreed to by the parties, the contractor shall be reimbursed either at the rates fixed for the previous fiscal year or other period or at billing rates acceptable to the Contracting Officer subject to appropriate adjustment when the final rates for that fiscal year or other period are established.

(5) Any failure by the parties to agree on any predetermined overhead rate or rates under this clause shall not be considered a dispute concerning a question of fact for decision by the Contracting Officer within the meaning of the "Disputes" clause of this contract. If for any fiscal year or other period specified in this contract, the parties fail to agree to a predetermined overhead rate or rates prior to the close of the fiscal year for which they are being negotiated, it is agreed that the allowable indirect costs under this contract shall be determined by after-the-fact audit.

(6) Allowable indirect costs for the period until the end of the contractor's fiscal year during which performance begins shall be obtained by applying the predetermined overhead rate set forth in the contract to the bases set forth therein.

§9-7.5006-12 Allowable costs and fixed fee (architect-engineer contracts).

(a) *Compensation for contractor's services.* Payment for the allowable cost as hereinafter defined, and of the fixed fee, if any, as hereinafter provided shall constitute full and complete compensation for the performance of the work under this contract.

(b) *Fixed fee.* The fixed fee payable to the contractor for the performance of the work under this contract is $————. There shall be no adjustment in the amount of the contractor's fixed fee by reason of differences between any estimate of cost for performance of the work under this contract and the actual cost for performance of that work.

NOTE: This provision may appropriately be changed to cover situations where the fee is for a period of time, or different fees are allowed for various phases of the work.

(c) *Allowable cost.* The allowable cost of performing the work under this contract shall be the costs and expenses that are actually incurred by the contractor, are applicable and properly chargeable, either as directly incident or as allocable through appropriate distribution or apportionment, to the performance of the contract work in accordance with its terms and are determined to be allowable pursuant to this paragraph (c). The determination of the allowability of cost hereunder shall be based on: (1)

reasonableness, including the exercise of prudent business judgment, (2) consistent application of generally accepted accounting principles and practices that result in equitable charges to the contract work, and (3) recognition of all exclusions and limitations set forth in this clause or elsewhere in this contract as to types or amounts of items of cost. Allowable cost shall not include cost of any item described as unallowable in paragraph (e) of this clause, except as indicated therein. Failure to mention an item of cost specifically in paragraph (d) or paragraph (e) shall not imply either that it is allowable or that it is unallowable.

NOTE: This paragraph should be deleted and paragraph (c) of §9-7.5006-9 inserted in lieu thereof for onsite architect-engineer contracts.

(d) *Examples of items of allowable cost.* Subject to the other provisions of this clause, the following examples of items of cost of work under this contract shall be allowable to the extent indicated:

(1) *Bonds and insurance* (including self-insurance) as provided in the clause entitled "Required bonds and insurance—exclusive of Government property."

(2) *Communication costs*, including telephone services, local, and long-distance telephone calls, telegrams, cablegrams, radiograms, postage, and similar items.

(3) *Consulting services* (including legal and accounting) and related expenses, as approved by the Contracting Officer, except as made unallowable by paragraph (e)(22).

(4) *Litigation expenses*, including reasonable counsel fees, incurred in accordance with the clause of this contract entitled "Litigation and claims."

(5) *Losses and expenses* (including settlements made with the consent of the Contracting Officer) sustained by the contractor in the performance of this contract and certified in writing by the Contracting Officer to be just and reasonable, except the losses and expenses expressly made unallowable under other provisions of this contract.

(6) *Materials, supplies, and equipment*, including freight, transportation, material handling, inspection, storage, salvage, and other usual expenses incident to the procurement, use, and disposition thereof, subject to approvals required under other provisions of this contract.

(7) *Patents, purchased design, and royalty payments* to the extent expressly provided for under other provisions in this contract or as approved by the Contracting Officer; and preparation of invention disclosures, reports, and related documents, and searching the art to the extent necessary to make such invention disclosures in accordance with the Patent clause of this contract.

(8) *Personnel costs* and related expenses incurred in accordance with appendix A, or amendments thereto, such as:

(i) *Salaries and wages;* bonuses and incentive compensation; overtime, shift differential, holiday, and other premium pay for time worked; nonwork time, including vacations, holidays, sick, funeral, military, jury, witness, and voting leave; salaries and wages to employees in their capacity as union stewards and committeemen for time spent in handling grievances, or serving on labor management (contractor) committees: *Provided, however,* That the Contracting Officer's approval is required in each instance of total compensation to an individual employee at an annual rate of $————[3] or more, when it is proposed that a total of 50 percent or more of such compensation be reimbursed under ERDA cost-type contracts. Total compensation, as used here, includes only the employee's base salary and bonus and incentive compensation payments.

(ii) *Legally required contributions* to old-age and survivors' insurance, unemployment compensation plans and workmen's compensation plans (whether or not covered by insurance); voluntary or agreed-upon plans providing benefits for retirement, separation, life insurance, hospitalization, medical-surgical and unemployment (whether or not such plans are covered by insurance);

(iii) *Travel* (except foreign travel, which requires specific approval by the Contracting Officer on a case-by-case basis); incidental subsistence and other allowances of contractor employees, in connection with performance of work under this contract (including new employees reporting for work and transfer of employees, the transfer of their household goods and effects, and the travel and subsistence of their dependents);

[3]The specific dollar amount to be inserted here is subject to determination by the Contracting Officer, taking into account the cost principles and procedures set forth in Part 9-15, with specific reference to §9-15.10-14 (d). In no event should the dollar amount be more than $25,000.

(iv) *Employee relations, welfare, morale, etc., programs*, including incentive or suggestion awards, employee counseling services, health or first-aid clinics, and house or employee publications;

(v) *Personnel training* (except special education and training courses and research assignments calling for attendance at educational institutions which require specific approval by the Contracting Officer on a case-by-case basis) including apprenticeship training programs designed to improve efficiency and productivity of contract operations, to develop needed skills, and to develop scientific and technical personnel in specialized fields required in the contract work; and

(vi) *Recruitment of personnel* (including help-wanted advertisement) including services of employment agencies at rates not in excess of standard commercial rates, employment office, travel of prospective employees at the request of the contractor for employment interviews.

Appendix A may be modified from time to time, in writing, without execution of an amendment to this contract for the purposes of effecting any changes in or additions to appendix A as may be agreed upon by the parties.

NOTE: In appropriate circumstances, the lead sentence in subparagraph (8) may be changed to read as follows: "*Personnel costs* and related expenses incurred in accordance with established policies, programs, and schedules, and any changes thereto during the contract term, applicable to the contractor's private operations and consistently followed throughout his organization, as approved by the Contracting Officer, such as:"
Also, delete last paragraph of text which refers to modifying appendix A.

(9) *Rentals and leases of land*, buildings, and equipment owned by third parties where such items are used in the performance of the contract, except that such rentals and leases when directly chargeable to the contract shall be subject to approval by the Contracting Officer.

(10) *Repairs, maintenance, inspection*, replacement, and disposal of Government-owned property to the extent directed or approved by the Contracting Officer.

(11) *Repairs, maintenance, and inspection* of contractor-owned property used in connection with the performance of this contract, including reasonable standby facilities, which are due to ordinary wear and tear from use and the action of the elements, provided such maintenance and repairs keep the property in efficient operating condition and do not add to its permanent value or appreciably prolong its intended useful life; and major repairs (including replacement) to such property, except that such major repairs when directly chargeable to the contract shall be subject to approval by the Contracting Officer.

(12) *Reproduction and art work*, including such models and mockups as may be approved by the Contracting Officer.

(13) *Structures and facilities* of a temporary nature as approved by the Contracting Officer.

(14) *Membership* in trade, business, and professional organizations, except that such memberships when directly chargeable to the contract shall be subject to approval by the Contracting Officer.

(15) *Subcontracts, purchase orders*, and procurements from contractor-controlled sources, subject to approvals required by other provisions of this contract.

(16) *Subscriptions* to trade, business, technical, and professional periodicals, except that such subscriptions when directly chargeable to the contract shall be subject to approval by the Contracting Officer.

(17) *Taxes, fees, and charges* levied by public agencies which the contractor is required by law to pay, except those which are expressly made unallowable under other provisions of this contract.

(18) *Utility services*, including electricity, gas, water, steam, and sewerage.

(19) *The costs of preparing proposals* to the extent approved by the Contracting Officer, but not to exceed 1 percent of the direct material and direct labor costs of the contract work.

NOTE: This paragraph should be deleted for on-site architect-engineer contracts.

(e) *Examples of items of unallowable costs.* The following examples of items of costs are unallowable under this contract to the extent indicated:

(1) *Advertising*, except (i) help-wanted advertising, and (ii) other advertising (such as costs of participation in exhibits) approved by the Contracting Officer as clearly in furtherance of work performed under the contract.

(2) *Bad debts* (including expenses of collection) and provisions for bad debts not arising out of the performance of this contract.

(3) *Bonuses* and similar compensation under any other name, which (i) are not pursuant to an agreement between the contractor and employee prior to the rendering of the services or an established plan consistently followed by the contractor, (ii) are in excess of those costs which are allowable by the Internal Revenue Code and regulations thereunder, or (iii) provide total compensation to an employee in excess of reasonable compensation for the services rendered.

(4) *Commissions, bonuses, and fees* (under whatever name) in connection with obtaining or negotiating for a Government contract or a modification thereto, except when paid to bona fide employees or bona fide established selling organizations maintained by the contractor for the purpose of obtaining Government business.

(5) *Contingency reserves*, provisions for (except provisions for reserves under a self-insurance program to the extent that the type, coverage, rates, and premiums would be allowable if commercial insurance were purchased to cover the same risk, as approved by the Contracting Officer).

(6) *Contributions and donations*.

(7) *Depreciation* in excess of that calculated by application of methods approved for use by the Internal Revenue Services under the Internal Revenue Code of 1954, as amended, including the straight-line, declining balance (using a rate not exceeding twice the rate which would have been used had the depreciation been computed under the straight-line method) or sum-of-the-years digits method, on the basis of expected useful life, to the cost of acquisition of the related fixed assets less estimated salvage or residual value at the end of the expected useful life. Amortization or depreciation of unrealized appreciation of values of assets or of assets fully amortized or depreciated on the contractor's books of account is unallowable.

(8) *Dividend provisions or payments* and, in the case of sole proprietors and partners, distributions of profits.

(9) *Entertainment costs*, except the costs of such recreational activities for on-site employees as may be approved by the Contracting Officer or provided for elsewhere in this contract.

(10) *Fines and penalties*, including assessed interest, resulting from violations of, or failure of the contractor to comply with, Federal, State, or local laws, or regulations, except when incurred in accordance with written approval of the Contracting Officer or as a result of compliance with the provisions of this contract.

(11) *Government-furnished property*, except to the extent that cash payment therefor is required pursuant to procedures of the ERDA applicable to transfers of such property to the contractor from others.

(12) *Insurance* (including any provision of a self-insurance reserve) on any person where the contractor under the insurance policy is the beneficiary directly or indirectly, and insurance against loss of or damage to Government property as defined in Clause ————.

(13) *Interest*, however represented (except interest incurred in compliance with the clause entitled "State and local taxes"), bond discounts and expenses, and costs of financing and refinancing operations.

(14) *Legal, accounting, and consulting services* and related costs incurred in connection with the preparation of prospectuses, preparation and issuance of stock rights, organization or reorganization, prosecution or defense of antitrust suits, prosecution of claims against the United States, contesting actions or proposed actions of the United States, and prosecution or defense of patent infringement litigation.

(15) *Losses* (including litigation expenses, counsel fees, and settlements) on, or arising from the sale, exchange, or abandonment of capital assets, including investments; losses on other contracts, including the contractor's contributed portion under cost-sharing contracts; losses in connection with price reduction to and discount purchases by employees and others from any source; and losses where such losses or expenses:

(i) Are compensated for by insurance or otherwise, or which would have been compensated by insurance required by law or by written direction of the Contracting Officer but which the contractor failed to procure or maintain through its own fault or negligence, or which could have been covered by permissible insurance in keeping with ordinary business practice but which the contractor failed to secure or maintain;

(ii) Result from willful misconduct or lack of good faith on the part of any of the contractor's directors, corporate officers, or a supervising representative of the contractor, as defined in Clause ————of this contract;

(iii) Represent liabilities to third persons for which the contractor has expressly accepted responsibility under other terms of this contract.

(16) *Precontract costs*, except as expressly made allowable under other provisions in this contract.

(17) *Reconversion, alteration, restoration, or rehabilitation* of the contractor's facilities, except as expressly provided elsewhere in this contract.

(18) *Research and development costs*, unless specifically provided for elsewhere in this contract.

(19) *Selling costs*, except to the extent they are determined to be reasonable and to be allocable to the contract. Allocability of selling costs to the contract will be determined in the light of reasonable benefit to the agency program arising from such activities as technical, consulting, demonstration, and other services performed for such purposes as applying or adapting the contractor's product for agency use.

(20) *Storage of records* pertaining to this contract after completion of operations under this contract irrespective of contractual or statutory requirement of the preservation of records.

(21) *Taxes, fees, and charges* in connection with financing, refinancing, or refunding operations, including the listing of securities on exchanges; taxes which are paid contrary to the clause entitled "State and local taxes"; Federal taxes on net income and excess profits; and special assessments on land which represent capital improvement.

(22) *Salary or other compensation* (and expenses related thereto) of any individual employed under this contract as a consultant or in another comparable employment capacity who is an employee of another organization and concurrently performing work on a full-time annual basis for that organization under a cost-type contract with the ERDA, except to the extent that cash payment therefor is required pursuant to the provisions of this contract or procedures of the ERDA applicable to the borrowing of such an individual from another cost-type contractor.

(23) *First-class air travel in excess of the cost of less than first-class air accommodations*, except when less than first-class accommodations are not reasonably available to meet necessary mission requirements, such as, where less than first-class accommodations would:

(i) Require circuitous routing,

(ii) Require travel during unreasonable hours,

(iii) Greatly increase the duration of the flight,

(iv) Result in additional costs which would offset the transportation savings,

(v) Offer accommodations which are not reasonably adequate for the medical needs of the traveler.

NOTE: The following additional examples of items of unallowable costs are to be used in on-site architect-engineer contracts:

(24) *Costs of preparing proposals*.

(25) *Central and branch office expenses* of the contractor, except as specifically set forth in the contract.

(26) *Travel expenses* of officers, partners, proprietors, executives, administrative heads, and other employees of the contractor's central office or branch office organization concerned with the general management, supervision, and conduct of the contractor's business as a whole, except to the extent that particular travel is in connection with the contract and approved by the Contracting Officer.

§9-7.5006-13 Drawings, designs, specifications.

All drawings, sketches, designs, design data, specifications, notebooks, technical and scientific data, and all photographs, negatives, reports, findings, recommendations, data and memoranda of every description relating thereto, as well as all copies of the foregoing relating to the work or any part thereof, shall be subject to inspection by the ERDA at all reasonable times (for which inspection the proper facilities shall be afforded the ERDA by the contractor and its subcontractors), shall be the property of the Government and may be used by the Government for any purpose whatsoever without any claim on the part of the contractor and its subcontractors and vendors for additional compensation and shall, subject to the right of the contractor to retain a copy of said material for its own use, be delivered to the Government, or otherwise disposed of by the contractor either as the Contracting Officer may from time to time direct during the progress of the work or in any event as the Contracting Officer shall direct upon completion or termination of this contract. The contractor's right of retention and use shall be subject to the security, patent, and use of information provisions, if any, of this contract.

§9-7.5006-14 Obligation of funds, estimates of cost (other than operating contracts).

(a) *Obligation of funds.* The amount presently obligated by the Government with respect to the contract is ————dollars ($————). Such amount may be increased unilaterally by the ERDA by written notice to the contractor and may be increased or decreased by written agreement of the parties (whether or not by formal modification of this contract). Payments by the Government under this contract on account of allowable costs shall not in the aggregate exceed the amount obligated with respect to this contract, less the contractor's fixed fee.

(b) *Notices—Contractor excused pending increase when obligation is reached.* Whenever the contractor has reason to believe that the total cost of the work under this contract (exclusive of the contractor's fixed fee) will be greater or substantially less than the presently estimated cost of the work, the contractor shall promptly notify the Contracting Officer in writing. [In contracts which are fully obligated, substitute the words "amount obligated with respect to this contract less the contractor's fixed fee" for the words "presently estimated cost of the work."] The contractor shall also notify the Contracting Officer in writing when the aggregate of expenditures plus outstanding commitments and liabilities allowable under this contract, including the contractor's fixed fee, is equal to ninety percent (90%) (or such other percentage as the Contracting Officer may from time to time establish by notice to the contractor) of the amount then obligated with respect to this contract. When such expenditures and outstanding commitments and liabilities, including the contractor's fixed fee, equal one hundred percent (100%) of such amount, the contractor shall immediately notify the Contracting Officer and shall make no further commitments or expenditures (except to meet existing commitments and liabilities) and shall be excused from further performance of the work unless and until the Contracting Officer thereafter shall increase the amount obligated with respect to this contract.

(c) *Government's right to terminate not affected.* The giving of any notice by either party under this article shall not be construed to waive or impair any right of the Government to terminate the contract under the provisions of the article entitled "Termination."

(d) *Estimates of cost.* The presently estimated cost of the work under this contract is ————dollars ($————) exclusive of the contractor's fixed fee.

NOTE A: The following sentence may be substituted for the second sentence of paragraph (b) above: "The contractor shall also notify the Contracting Officer in writing when the aggregate of expenditures plus outstanding commitments and liabilities allowable under this contract, including the contractor's fixed fee, leaves available funds sufficient to continue contract performance for only ————days (or such other period as the Contracting Officer may from time to time establish by notice to the contractor)."

NOTE B: In contracts where revenues and receipts are anticipated and such revenues and receipts are to be available and used for payment of allowable costs, paragraphs (a) and (b) above should be changed with the approval of counsel to provide for such revenues and receipts in a manner similar to paragraphs (a) and (c), respectively, of §9-7.5006-15.

NOTE C: In certain types of contractual situations (e.g., multiperiod of multiphase contracts), it may be necessary to identify a controlling feature (e.g., period or phase) with its related estimated cost; in such event, changes may be made in paragraph (d) above to appropriately identify the controlling feature.

§9-7.5006-15 Obligation of funds (operating contracts).

(a) *Obligation of funds.* The amount presently obligated by the Government with respect to this contract is ————dollars ($————). Such amount may be increased unilaterally by the ERDA by written notice to the Contractor and may be increased or decreased by written agreement of the parties (whether or not by formal modification of this contract). Estimated revenues and receipts from others for work and services to be performed under this contract are not included in the amount obligated with respect to this contract. Such revenues and receipts, to the extent actually received by the Contractor, shall be available and used for the payment of allowable costs as provided in the article entitled "Payments and advances." Nothing in this paragraph (a) is to be construed as authorizing the Contractor to exceed limitations stated in financial plans established by the ERDA and furnished to the Contractor from time to time under this contract.

(b) *Limitation on payment by the Government.* Except as otherwise provided in this contract and except for costs which may be incurred by the Contractor pursuant to the article entitled "Termination" or costs of claims allowable under the contract accruing after completion or termination and not released by the Contractor at the time of financial settlement of the contract in accordance with the article entitled "Payments and advances," payment by the Government under this contract on account of allowable costs shall not in the aggregate exceed the amount obligated with respect to this contract, less the Contractor's fixed fee. Unless expressly negated in this contract, payment on account of those costs excepted in the preceding sentence which are in excess of the amount obligated with respect to this contract shall be subject to the availability of (1) revenues and receipts deposited to the Government's account as provided in the article entitled "Payments and advances," and (2) other funds which the ERDA may legally use for such purpose: *Provided*, The ERDA will use its best efforts to obtain the appropriation of funds for this purpose if not otherwise available.

(c) *Notices—Contractor excused from further performance.* The Contractor shall notify the ERDA in writing whenever the unexpended balance of funds (including revenues and receipts) available under paragraph (a) above, plus the Contractor's best estimate of revenues and receipts to be received during the ————day period hereinafter specified, is in the Contractor's best judgment sufficient to continue contract operations at the programed rate for only ————days and to cover the Contractor's unpaid fixed fee, and outstanding commitments and liabilities on account of costs allowable under the contract at the end of such period. Whenever the unexpended balance of funds (including revenues and receipts) available under paragraph (a) above, less the amount of the Contractor's fixed fee then earned but not paid, is in the Contractor's best judgment either sufficient only to liquidate outstanding commitments and liabilities on account of costs allowable under this contract or is equal to zero, the Contractor shall immediately notify the ERDA and shall make no further commitments or expenditures (except to liquidate existing commitments and liabilities), and, unless the parties otherwise agree, the Contractor shall be excused from further performance (except such performance as may become necessary in connection with termination by the Government) and the performance of all work hereunder will be deemed to have been terminated for the convenience of the Government in accordance with the provisions of the article entitled "Termination."

(d) *Financial plans; cost and commitment limitations.* In addition to the limitations provided for elsewhere in this contract, the ERDA may, through Financial Plans or other directives issued to the Contractor, establish controls on the costs to be incurred and commitments to be made in the performance of the contract work. Such plans and in-

structions may be amended or supplemented from time to time by the ERDA. The Contractor hereby agrees to comply with the specific limitations (ceilings) on costs and commitments set forth in such plans and directives, to use its best efforts to comply with the other requirements of such plans and directives, and to promptly notify the ERDA in writing whenever it has reason to believe the authorized financial levels of costs and commitments will be exceeded or substantially underrun.

NOTE: This paragraph (d) may be omitted in contracts which expressly or otherwise provide a contractual basis for equivalent controls in a separate article.

(e) *Government's right to terminate not affected.* The giving of any notice under this article shall not be construed to waive or impair any right of the Government to terminate the contract under the provisions of the article entitled "Termination."

§9-7.5006-23 Payments and advances (cost-type contracts where funds are advanced by ERDA).

(a) *Installments of fixed fee.* Ninety percent (90%) of the fixed fee shall become due and payable in periodic installments in amounts based on the proportion of the work then completed, as determined by the Contracting Officer, and the balance upon completion and acceptance of all work under this contract.

NOTE A: For operating contracts use: "The fixed fee provided for in Clause ——— shall be paid in equal monthly installments as it accrues."

NOTE B: Where a separate fixed fee is provided for a separate item of work, this subparagraph should be modified to permit payment of the entire fixed fee upon completion of that item.

(b) *Payments on Account of Allowable Costs.* The Contracting Officer and the contractor shall agree as to the extent to which payment for allowable costs or payments for other items specifically approved in writing by the Contracting Officer shall be made from advances of Government funds.

(c) *Special Bank Account—Use.* All advances of Government funds shall be withdrawn pursuant to a letter of credit in favor of the contractor or, in the option of the Government, shall be made by check payable to the contractor, and shall be deposited only in the Special Bank Account referred to in the Agreement for Special Bank Account, which is attached hereto and incorporated into this contract as an appendix. The contractor shall likewise deposit in the Special Bank Account any other revenues

received by the contractor in connection with the work under this contract. No part of the funds in the Special Bank Account shall be (1) mingled with any funds of the contractor or (2) used for a purpose other than that of making payments for costs allowable under this contract or payments for other items specifically approved in writing by the Contracting Officer. If the Contracting Officer shall at any time determine that the balance on such bank account exceeds the contractor's current needs, the contractor shall promptly make such disposition of the excess as the Contracting Officer may direct.

NOTE: For Special Bank Account Agreement, see §9-7.5006-24.

(d) *Title to funds advanced.* Title to the unexpended balance of any funds advanced and of any bank account established pursuant to this clause shall remain in the Government and be superior to any claim or lien of the bank of deposit or others. It is understood that an advance to the contractor hereunder is not a loan to the contractor, and will not require the payment of interest by the contractor, and that the contractor acquires no right, title or interest in or to such advance other than the right to make expenditures therefrom as provided in this clause.

(e) *Review and approval of costs incurred.* The contractor shall prepare and submit annually as of June 30 a voucher, for the total of net expenditures accrued (i.e., net costs incurred) for the period covered by the voucher, and the ERDA, after audit and appropriate adjustment, will approve such voucher. This approval by the ERDA will constitute an acknowledgment by the ERDA that the net costs incurred are allowable under the contract and that they have been recorded in the accounts maintained by the contractor in accordance with the ERDA accounting policies, but will not relieve the contractor of responsibility for the ERDA's assets in its care, for appropriate subsequent adjustments, or for errors later becoming known to the ERDA.

NOTE: This paragraph (e) should be omitted in contracts with nonintegrated contractors.

(f) *Financial settlement.* The Government shall promptly pay to the contractor the unpaid balance of allowable costs and fixed fee upon termination of the work, expiration of the term of the contract, or completion of the work and its acceptance by the Government after (1) compliance by the contractor with the ERDA's patent clearance requirements, and (2) the furnishing by the contractor of:

(1) An assignment of the contractor's rights to any refunds, rebates, allowances, accounts receivable, or other credits applicable to allowable costs under the contract;

(2) A closing financial statement; and

(3) The accounting for Government-owned property required by the clause entitled "Property."

(4) A release discharging the Government, its officers, agents, and employees from all liabilities, obligations, and claims arising out of or under this contract, subject only to the following exceptions:

(i) Specified claims in stated amounts or in estimated amounts where the amounts are not susceptible of exact statement by the contractor;

(ii) Claims, together with reasonable expenses incidental thereto, based upon liabilities of the contractor to third parties arising out of the performance of this contract; provided that such claims are not known to the contractor on the date of the execution of the release; and provided further that the contractor gives notice of such claims in writing to the Contracting Officer not more than six (6) years after the date of the release or the date of any notice to the contractor that the Government is prepared to make final payment, whichever is earlier; and

(iii) Claims for reimbursement of costs (other than expenses of the contractor by reason of any indemnification of the Government against patent liability), including reasonable expenses incidental thereto, incurred by the contractor under the provisions of this contract relating to patents.

In arriving at the amount due the contractor under this clause, there shall be deducted (1) any claim which the Government may have against the contractor in connection with this contract, and (2) deductions due under the terms of this contract, and not otherwise recovered by or credited to the Government. The unliquidated balance of the Special Bank Account may be applied to the amount due and any balance shall be returned to the Government forthwith.

(g) *Claims.* Claims for credit against funds advanced or for payment shall be accompanied by such supporting documents and justification as the Contracting Officer shall prescribe.

(h) *Discounts.* The contractor shall take and afford the Government the advantage of all known and available cash and trade discounts, rebates, allowances, credits, salvage, and commissions unless the Contracting Officer finds that such action is not in the best interest of the Government.

(i) *Revenues.* All revenues other than the contractor's fixed fee or fees, if any, accruing to the contractor in connection with the work under this contract shall be Government property and shall be deposited in the Special Bank Account to be available for payment of allowable cost under this contract.

(j) *Direct payment of charges—deductions.* The Government reserves the right, upon ten days' written notice from the Contracting Officer to the contractor, to pay directly to the persons concerned all amounts due which otherwise would be allowable under this contract. Any payment so made shall discharge the Government of all liability to the contractor therefor.

§9-7.5006-24 Special bank account agreement.

Agreement entered into this ——day of ——, 197—, between the United States of America (hereinafter called the Government), represented herein by the Energy Research and Development Administration (hereinafter called the "ERDA"), ——, hereinafter called the "Contractor," a corporation under the laws of the State of ——, and ——, hereinafter called the Bank, a banking corporation under the laws of ——, located at ——.

RECITALS

(a) Under date of ——, 197—, the ERDA and the Contractor entered into Contract(s) No. ——, or a Supplemental Agreement thereto, providing for the making of advances of Government funds to the Contractor. Copy of such advance provisions has been furnished to the Bank.

(b) The ERDA requires that amounts advanced to the Contractor under said contract or Supplemental Agreement be deposited in a Special Bank Account or accounts with a bank designated by the Treasury Department as a depositary and financial agent of the Government (Section 10 of the Act of June 11, 1942, 56 Stat. 356; 12 U.S.C. 265), separate from any of the Contractor's general or other funds; and, the Bank being such a bank, the parties are agreeable to so depositing said amounts with the Bank.

(c) This Special Bank Account shall be designated "——, (Name of Contractor) —— Energy Research and Development Administration (Contract No.) Special Bank Account."

COVENANTS

In consideration of the foregoing, and for other good and valuable considerations, it is agreed that:

(1) The Government shall have title to the credit balance in said account to secure the return of all advances made to the Contractor, which title shall be superior to any lien or claim of the Bank or others with respect to such account.

(2) The Bank will be bound by the provisions of said contract or contracts relating to the deposit and withdrawal of funds in the above Special Bank Account, but shall not be responsible for the application of funds properly withdrawn from said account. After receipt by the Bank of written directions from the Contracting Officer, or from the duly authorized representative of the Contracting Officer or the Manager of the ——Operations Office of the ERDA, the Bank shall act thereon and shall be under no liability to any party hereto for any action taken in accordance with the said written directions.

(3) The Government, or its authorized representatives, shall have access to the books and records maintained by the Bank with respect to such Special Bank Account at all reasonable times and for all reasonable purposes, including, without limitation, the inspection or copying of such books and records and any and all memoranda, checks, correspondence, or documents appertaining thereto. Except as agreed upon by the Government and the Bank, all books and records pertaining to the Special Bank Account in the possession of the Bank relating to the Special Bank Account agreement shall be preserved by the Bank for a period of three (3) years after final payment under the contract to which the Special Bank Account agreement pertains or otherwise disposed of in such manner as may be agreed upon by the Government and the Bank.

(4) In the event of the service of any writ of attachment, levy of execution, or commencement of garnishment proceedings with respect to the Special Bank Account, the Bank will promptly notify the Manager, ——Operations Office, Energy Research and Development Administration. In witness whereof the parties hereto have caused this Agreement to be executed as of the day and year first above written.

——
(Signatures and official titles)

§9-7.5006-25 Payments (cost-type contracts where funds are not advanced).

(a) *Payments on account of allowable costs.* Once each month (or at more frequent intervals, if approved by the Contracting Officer) the contractor may submit to the Contracting Officer, in such form and reasonable detail as he may require, an invoice or voucher supported by a statement of cost incurred by the contractor in the performance of this contract and claimed to constitute allowable costs. When pension contributions are paid by the Contractor to the retirement fund less frequently than quarterly, accrued costs therefor shall be excluded from indirect costs for payment purposes until such costs are paid. If pension contributions are paid on a quarterly or more frequent basis, accruals therefor may be included in indirect costs for payment purposes provided that they are paid to the fund within 30 days after the close of the period covered. If payments are not made to the fund within such 30-day period, pension contribution costs shall be excluded from indirect cost for payment purposes until payment has been made. Promptly after receipt of each invoice or voucher the Government shall, subject to the provisions of (c) below, make payment thereon as approved by the Contracting Officer.

Note: For supply-type contracts make last sentence read "make payment to the extent of 90% thereon."

(b) *Payments on account of fixed fee.* The fixed fee shall become due and payable in periodic installments in amounts based on the proportion of the work then completed as determined by the Contracting Officer. In making such periodic payments there shall be retained (10 or 15) percent from each payment which retained amounts shall be paid upon completion and acceptance of all work under this contract; provided, however, that the Contracting Officer may at any time the amount of the retained fixed fee equals One Hundred Thousand Dollars ($100,000) make payments of any of the remaining periodic installments of the fixed fee in full.

(c) *Audit adjustments.* At any time or times prior to settlement under this contract the Contracting Officer may have invoices or vouchers and statements of cost audited. Each payment theretofore made shall be subject to reduction for amounts included in the related invoice or voucher which are found by the Contracting Officer, on the basis of such audit, not to constitute allowable cost. Any payment may be reduced for overpayments, or increased for underpayments, on preceding invoices or vouchers.

(d) *Completion voucher.* On receipt and approval of the invoice or voucher designated by the contractor as the "completion invoice" or "completion voucher" and upon compliance by the contractor with all the provisions of this contract (including, without limitation, the provisions relating to patents and provisions of (f) below) the Government shall promptly pay to the contractor any balance of allowable cost, and any part of the fixed fee which has been withheld pursuant to (b) above or otherwise not paid to the contractor. The completion invoice or voucher shall be submitted by the contractor promptly following completion of the work under this contract but in no event later than one (1) year (unless within the year the Contracting Officer grants a further specific period of time) from the date of such completion.

(e) *Applicable credits.* The contractor agrees that any refunds, rebates, credits, or other amounts (including any interest thereon) accruing to or received by the contractor or any assignee under this contract shall be paid by the contractor to the Government, to the extent that they are properly allocable to costs for which the contractor has been reimbursed by the Government under this contract. Reasonable expenses incurred by the contractor for the purpose of securing such refunds, rebates, credits, or other amounts shall be allowable costs hereunder when approved by the Contracting Officer.

(f) *Financial settlement.* Prior to final payment under this contract, the contractor and each assignee under this contract whose assignment is in effect at the time of final payment under this contract shall execute and deliver:

(1) An assignment to the Government in form and substance satisfactory to the Contracting Officer of refunds, rebates, credits, or other amounts (including any interest thereon) properly allocable to costs for which the Contractor has been reimbursed by the Government under this contract; and

(2) A release discharging the Government, its officers, agents, and employees from all liabilities, obligations, and claims arising out of or under this contract, subject only to the following exceptions:

(i) Specified claims in stated amounts or in estimated amounts where the amounts are not susceptible of exact statement by the contractor;

(ii) Claims, together with reasonable expenses incidental thereto, based upon liabilities of the contractor to third parties arising out of performance of this contract: *Provided*, That such claims are not known to the contractor on the date of the execution of the release: *And provided further*, That the contractor gives notice of such claims in writing to the Contracting Officer not more than six (6) years after the date of the release or the date of any notice to the contractor that the Government is prepared to make final payment, whichever is earlier; and

(iii) Claims for reimbursement of costs (other than expenses of the contractor by reason of any indemnification of the Government against patent liability), including reasonable expenses incidental thereto, incurred by the contractor under the provisions of this contract relating to patents.

§9-7.5006-26 Property (CPFF).

(a) *Furnishing of Government property.* The Government reserves the right to furnish any property or services required for the performance of the work under this contract.

(b) *Title to property.* Title to all property furnished by the Government shall remain in the Government except as otherwise provided in this article. Except as otherwise provided by the Contracting Officer, title to all materials, equipment, supplies, and tangible personal property of every kind and description purchased by the Contractor, for the cost of which the Contractor is entitled to be reimbursed as a direct item of cost under this contract, shall pass directly from the vendor to the Government. The Government reserves the right to inspect, and to accept or reject, any item of such property. The Contractor shall make such disposition of rejected items as the Contracting Officer shall direct. Title to other property, the cost of which is reimbursable to the Contractor under this contract, shall pass to and vest in the Government upon (i) issuance for use of such property in the perfoemance of this contract, or (ii) commencement of processing or use of such property in the performance of this contract, or (iii) reimbursement of the cost thereof by the Government, whichever first occurs. Property furnished by the Government and property purchased or furnished by the Contractor, title to which vests in the Government, under this paragraph are hereinafter referred to as Government Property. Title to Government Property shall not be affected by the incorporation of the property into or the attachment of it to any property not owned by the Government, nor shall such Government Property or any part thereof, be or become a fixture or lose its identity as personalty by reason of affixation to any realty.

(c) *Identification.* To the extent directed by the Contracting Officer, the Contractor shall identify Government Property coming into the Contractor's possession or custody by marking or segregating in such a way, satisfactory to the Contracting Officer, as shall indicate its ownership by the Government.

(d) *Disposition.* The Contractor shall make such disposition of Government Property which has come into the possession or custody of the Contractor under this contract as the Contracting Officer shall direct. When authorized in writing by the Contracting Officer during the progress of the work or upon completion or termination of this contract, the Contractor may, upon such terms and conditions as the Contracting Officer may approve, sell or exchange such property, or acquire such property at a price agreed upon by the Contracting Officer and the Contractor as the fair value thereof. The amount

received by the Contractor as the result of any disposition, or the amount of the agreed fair value of any such property acquired by the Contractor, shall be applied in reduction of cost allowable under this contract or shall be otherwise credited to account of the Government, as the Contracting Officer may direct. Upon completion of the work or the termination of this contract, the Contractor shall render an accounting, as prescribed by the Contracting Officer, of all Government Property which had come into the possession or custody of the Contractor under this contract.

(e) *Protection of Government Property—Classified Materials.* The Contractor shall take all reasonable precautions, as directed by the Contracting Officer, or in the absence of such directions in accordance with sound industrial practice, to safeguard and protect Government Property in the Contractor's possession or custody. Special measures shall be taken by the Contractor in the protection of and accounting for any classified or special materials involved in the performance of this contract, in accordance with the regulations and requirements of the ERDA.

(f) *Risk of loss of Government property.* The Contractor shall not be liable for loss or destruction of or damage to Government Property in the Contractor's possession unless such loss, destruction or damage results from willful misconduct or lack of good faith on the part of the Contractor's managerial personnel, or unless such loss, destruction or damage results from a failure on the part of the Contractor's managerial personnel, to take all reasonable steps to comply with any appropriate written directives of the Contracting Officer to safeguard such property under paragraph (e) hereof. The term "Contractor's managerial personnel" as used herein means the Contractor's directors, officers and any of its managers, superintendents, or other equivalent representatives who have supervision or direction of (1) all or substantially all of the Contractor's business; or (2) all or substantially all of the Contractor's operation at any one plant or separate location at which this contract is being performed; or (3) a separate and complete major industrial operation in connection with the performance of this contract; or (4) a separate and complete major construction, alteration or repair operation in connection with performance of this contract.

(g) *Steps to be taken in event of loss.* Upon the happening of any loss or destruction of or damage to Government Property in the possession or custody of the Contractor, the Contractor shall immediately inform the Contracting Officer of the occasion and extent thereof, shall take all reasonable steps to protect the property remaining, and shall repair or replace the lost, destroyed, or damaged property, if and as directed by the Contracting Officer, but shall take no action prejudicial to the right of the Government to recover therefor and shall furnish to the Government, on request, all reasonable assistance in obtaining recovery.

(h) *Government property for Government use only.* Government Property shall be used only for the performance of this contract.

§9-7.5006-27 Property (fixed price).

(a)(1)(For use in contracts involving Government-furnished property.) The delivery (construction) schedules set forth in this contract are based upon the expectation that the Government-furnished property referred to in Schedule ————of this contract will be delivered on or before ————————————. In the event that such Government-furnished property is not delivered to the Contractor by such time, the Contracting Officer shall, if requested by the Contractor, determine if any delay has been occasioned the Contractor thereby, and if so shall grant a reasonable extension of the time for completion of performance. The Government shall not be liable to the Contractor for damages or loss of profit by reason of any delay in delivery of said Government-furnished property, except that in case of such delay, upon written request of the Contractor, an equitable adjustment shall be made in the delivery (construction) schedule of this contract, or price, or both, and in other contractual provisions affected thereby, in accordance with the procedures provided for in the article entitled "Changes."

(2) (For use in contracts involving Contractor-acquired property.) In connection with its work under this contract, the Contractor shall, within ————————————— acquire or manufacture for the Government's account the property listed in

Schedule ————— attached hereto (hereinafter referred to as Contractor-acquired property). Such property shall be installed by the Contractor in ————————————, or if approved in writing by the Contracting Officer, in the plants of subcontractors. The Contractor shall insert provisions in all subcontracts under which such property is furnished to the subcontractors whereby there will be made applicable to the Government and the subcontractors substantially the same rights and obligations in respect to such property as are made applicable to the Government and the Contractor under this article.

(b) Title to all Government-furnished or Contractor-acquired property shall remain in the Government. Title thereto shall not be affected by the incorporation or attachment thereof to any property not owned by the Government, nor shall any such property, or any part thereof, be or become a fixture or lose its identity as personalty by reason of affixation to any realty. The Contractor shall maintain adequate property control records of such property consistent with good business practice and as may be prescribed by the Contracting Officer, and shall cause all such property to be clearly marked (if not so marked) to show that it is property of the Government.

(c) Government-furnished or Contractor-acquired property shall be used only for the performance of this contract.

(d) The Contractor shall, in accordance with sound industrial practice and without additional cost to the Government, maintain in operating condition, repair, protect, and preserve such Government-furnished or Contractor-acquired property until disposed of by the Contractor in accordance with this article. Should any replacement of any such property become necessary during the term of this contract other than by reason of the negligence or fault of the Contractor, the same shall be made by the Contractor at the direction of and for the account of the ERDA and the title thereto shall vest in the Government and any delay occasioned thereby shall be considered an excusable delay under this contract.

(e)(1) Except for loss or destruction of, or damage to, Government-furnished or Contractor-acquired property resulting from a failure of the Contractor, due to wilful misconduct or lack of good faith of the Contractor's managerial personnel to maintain in operating condition, repair, protect, and preserve such property as required by subparagraph (d) hereof, the Contractor shall not be liable for loss or destruction of, or damage to, such property (i) caused by any peril while the property is in transit off the Contractor's premises, or (ii) caused by any of the following perils while the property is on the Contractor's premises, or on any other premises where such property may properly be located, or by removal therefrom because of any of the following perils:

"Fire; lightning; windstorm; cyclone; tornado; hail; explosion; riot attending a strike; civil commotion; vandalism and malicious mischief; aircraft or objects falling therefrom; vehicles running on land or tracks (excluding vehicles owned or operated by the Contractor or any agent or employee of the Contractor); smoke; sprinkler leakage; earthquake or volcanic eruption; flood, meaning thereby rising of rivers or streams; enemy attack or any action by the military, navy, or air forces of the United States in resisting enemy attack."

The perils as set forth above are hereinafter called "excepted perils."

The term "Contractor's managerial personnel," as used in this article, means the Contractor's directors, officers, and such of its managers, superintendents, or other equivalent representatives who have supervision or direction of (1) all of or substantially all of the Contractor's business; or (2) all or substantially all of the Contractor's operation at any one plant or separate location at which the work is being performed; or (3) a separate or complete major industrial operation in connection with performance of the contract; or (4) a separate and complete major construction, alteration, or repair operation in connection with performance of the contract.

(2) Upon the happening of loss or destruction of, or damage to, Government-furnished or Contractor-acquired property, the Contractor shall communicate with the Contracting Office and shall take all reasonable steps to protect such property, put all such property in the best possible order, and furnish to the Contracting Officer a statement of (i) the lost, destroyed, and damaged Government-furnished or Contractor-acquired property, (ii) the time and origin of the loss, destruction, or damage, (iii) all known interests in the commingled property of which such is a part, and (iv) the insurance, if any, covering any part of or interest in such commingled property.

(3) With the approval of the Contracting Officer after loss or destruction of, or damage to, the Government-furnished or Contractor-acquired property, and subject to such conditions and limitations as may be imposed by the Contracting Officer, the Contractor shall, in order to minimize the loss to the Government or in order to permit resumption of business or the like, sell for the account of the Government, any item of such property which has been damaged beyond practicable repair, or which is so commingled or combined with property of others, including the Contractor, that separation is impracticable.

(4) Except to the extent of any loss or destruction, or damage to, Government-furnished or Contractor-acquired property for which the Contractor is relieved of liability under the foregoing provisions of this paragraph, and except for reasonable wear and tear or depreciation, or the utilization or disposition of such property in accordance with the provisions of this contract, the property shall be returned to the Government in as good condition as when received by the Contractor.

(5) In the event the Contractor is indemnified, reimbursed, or compensated for any loss or destruction of, or damage to Government-furnished or Contractor-acquired property caused by an excepted peril, it shall equitably reimburse the Government. The Contractor shall do nothing to prejudice the Government's rights to recover against third parties for any such loss, destruction or damage and upon the request of the Contracting Officer shall, at the Government's expense, furnish to the Government all reasonable assistance and cooperation (including the prosecution of suits, and the execution of instructions of assignment in favor of the Government) in obtaining recovery (note A).

(f) The Government shall at all times have access to the premises wherein any Government-furnished or Contractor-acquired property is located.

(g) Upon the completion of this contract, the Contractor shall submit, in a form acceptable to the Contracting Officer, inventory schedules covering all items of Government-furnished or Contractor-acquired property not consumed in the performance of this contract (including any resulting scrap), or not theretofore delivered to the Government, and shall hold the same at no charge to the ERDA for a period of 60 days, unless the period of time is extended by mutual agreement. At the expiration of such period or upon the Contracting Officer's earlier order the Contractor shall dismantle, prepare for shipment and shall store or deliver said property to the ERDA on cars or trucks at Contractor's plant at the expense of the ERDA, or make such other disposal of said property as may be directed by the Contracting Officer. The net proceeds of any such disposal shall be credited to the contract price or shall be paid over as the Contracting Officer may direct.

NOTE A: Paragraph (e) as set forth above should be used in negotiated fixed-price contracts and subcontracts where it can be determined and the Contractor or subcontractor represents that the contract price includes no charge or reserve for insurance (including self-insurance) covering damage to Government property (a) caused by any peril while the property is in transit off the Contractor's premises or (b) caused by any of the excepted perils enumerated in the contract. In all other negotiated fixed-price contracts and in formally advertised contracts, the following paragraph should be substituted for paragraph (e): "Unless otherwise provided in this contract, the Contractor assumes the risk of and shall be responsible for any loss of or damage to Government-furnished property or Contractor-acquired property in its possession, except for reasonable wear and tear and except to the extent that such property is consumed in the performance of this contract."

§9-7.5006-28 [Reserved]

§9-7.5006-29 Contractor procurement.

(a) The ERDA reserves the right at any time to require that the contractor submit for approval any or all procurements under this contract. The contractor shall not

procure any item whose purchase is expressly prohibited by the written direction of the ERDA and shall use such special and directed procurement sources as may be expressly required by the ERDA. The contractor shall (note A) provide information concerning procurement methods, practices, and procedures used or proposed to be used and shall use methods, practices, and procedures which are acceptable to the ERDA. Procurement arrangements under this contract (note B) shall not relieve the contractor of any obligation under this contract (including, among other things, the obligation properly to supervise, administer, and coordinate the work of subcontractors) and shall be in such form and contain such provisions as are required by this contract or as the ERDA may prescribe.

(b) In addition to, and without derogation of any rights under paragraph (a) of this section and any other provision in this contract, the contractor shall require subcontractors to furnish cost or pricing data, and shall include in such subcontracts the clause set forth in §9-3.814-50, except as otherwise directed or approved by the ERDA (note C).

(c) Procurement or transfer of equipment, materials, supplies, or services from a contractor-controlled source (any division or other organizational component of the prime contractor (exclusive of the contracting component) and any subsidiary or affiliate of the contractor under a common control) shall be considered a procurement for the purposes of this article (note D).

NOTE A: See also §9-59.002. When appropriate, the words, "if requested by the Contracting Officer," may be inserted here.

NOTE B: When appropriate, the words "shall be made in the name of the contractor, shall not bind nor purport to bind the Government" may be inserted here.

NOTE C: Paragraph (b) above is to be used only when the contract is subject to the provisions of §9-3.807-3(b).

NOTE D: See also §§9-59.006 and 9-15.5010-19.

§9-7.5006-30 Taxes (CPFF).

See §9-11.452.

§9-7.5006-31 Taxes (fixed-price contracts).

See FPR 1-11.401.

§9-7.5006-32 Workmanship and materials.

(a) *Grade of workmanship and materials.* Unless otherwise directed by the Contracting Officer or expressly provided for by specifications issued under this contract:

(1) All workmanship shall be first class; and

(2) All articles, equipment and materials incorporated in the work are to be:

(i) New and of the most suitable grade of their respective kinds for the purpose;

(ii) In accordance with any applicable drawings and specifications; and

(iii) Installed to the satisfaction and with the approval of the Contracting Officer.

Where equipment, materials, or articles are referred to in the specifications as "equal to" any particular standard, the Contracting Officer shall decide the question of equality.

(b) *Samples and test results.* If the Contracting Officer so requires, the contractor shall submit for approval samples of or test results on any materials proposed to be incorporated in the work before making any commitment for the purchase of such materials.

§9-7.5006-33 [Reserved]

§9-7.5006-34 [Reserved]

§9-7.5006-35 [Reserved]

§9-7.5006-36 Nuclear reactor safety.

(a) The contractor recognizes that the activities under this contract involve the risk of a nuclear incident which, while the changes are remote, could adversely affect the public health and safety. In the conduct of its activities hereunder, the contractor will exercise a degree of care commensurate with the risk involved.

NOTE: In contracts including activities in addition to reactor operations, this paragraph should be revised as follows:

(a) The activities under this contract include the operation of a nuclear reactor and the contractor recognizes that such operation involves the risk of a nuclear incident which, while the chances are remote, could adversely affect the public health and safety. In the operation of the nuclear reactor, the Contractor will exercise a degree of care commensurate with the risk involved.

(b) The contractor shall comply with all applicable regulations of the ERDA concerning nuclear reactor safety and with those requirements (including reporting requirements and instructions) of the ERDA concerning nuclear reactor safety of which it is notified in writing by the Contracting Officer.

(c) Prior to the initial startup of any nuclear reactor under this contract and prior to any subsequent startup following a change which represents a significant deviation from the procedures, equipment, or analyses described in the hazards summary report for that reactor, the contractor shall:

(1) Prepare a safety analysis report and detailed plans and procedures designed to assure the safe operation and maintenance of the reactor. These will generally cover, but not be limited to: Prestartup checklists; normal operation of the reactor and supporting auxiliaries; maintenance operation; emergency situations; and technical standards for equipment and systems.

(2) Establish nuclear safety control procedures to be used within the contractor's organization to insure appropriate review and internal approval of the detailed plans and procedures specified in (1) above.

(3) Submit to the Contracting Officer for his approval such procedures relating to nuclear safety as may be designated by him.

(4) Carry out a training program designed to assure that all personnel who will be engaged in the operations or maintenance of a nuclear reactor understand the approved plans and procedures for nuclear safety pertinent to their assignments.

(5) Obtain the approval of the Contracting Officer prior to such startup of the reactor.

(d) In the operation and maintenance of any nuclear reactor under this contract, the contractor shall:

(1) Use all reasonable efforts to assure that all operational and maintenance activities are performed by qualified and adequately trained personnel and, except as otherwise agreed in writing, are conducted under the supervision of personnel who are qualified to appraise any emergency condition and take prompt effective action with respect thereto.

(2) Operate the reactors within the operating limits which may be prescribed by the Contracting Officer. The Contracting Officer will consult with the contractor in formulating and revising such operating limits.

(3) Follow strictly the procedures relating to nuclear safety approved by the Contracting Officer as specified in (c)(3) above and submit to the Contracting Officer for his approval any proposed changes in such procedures.

(4) Establish a system of inspection approved by the Contracting Officer (including review of inspection reports by competent technical personnel) that will (i) provide frequent and periodic checks of reactor performance and of the qualifications and training of operating and maintenance personnel and (ii) provide for investigation of any

unusual or unpredicted reactor conditions that might affect the safe operation of the reactor.

(5) Report promptly to the Contracting Officer any change in the physical condition of the reactor or its operating characteristics that might in the judgment of the contractor affect the safe operation of the reactor.

(6) Shut down the reactor immediately whenever so instructed by the Contracting Officer, or whenever, in the judgment of the contractor, the risk of a nuclear incident endangering persons or property warrants such action.

(7) Prepare, in cooperation with other services and facilities available at the site and with the approval of the Contracting Officer, a plan for minimizing the effects of a nuclear incident upon the health and safety of all persons on the site; cooperates with the Contracting Officer in his preparation of a plan to protect the public off the site; instruct its personnel as to their participation in such plans and any personal risk to such personnel that may be involved; and participate in such practice exercises as may be desirable to assure the effectiveness of such plans.

NOTE: The foregoing clause shall be incorporated in all contracts involving the start-up and/or operation of ERDA-owned, non-licensed reactors including critical facilities. Any deviation in substance affecting the meaning, intent, or basic principles of this clause must be referred, to the Director of Procurement for approval. Minor changes in wording which may become necessary in negotiations may be approved by the Manager of the Field Office after consultation with counsel.

§9-7.5006-37 [Reserved]

§9-7.5006-38 [Reserved]

§9-7.5006-39 [Reserved]

§9-7.5006-40 [Reserved]

§9-7.5006-41 [Reserved]

§9-7.5006-42 [Reserved]

§9-7.5006-43 [Reserved]

§9-7.5006-44 [Reserved]

§9-7.5006-45 Consultant or other comparable employment services of contractor employees.

(a) The following clause shall be included in all cost-type contracts identified in §9-12.5401(c):

The contractor shall require all employees who are employed full-time (an individual who performs work under the cost-type contract on a full-time annual basis) or part-time (50 percent or more of regular annual compensation received under terms of a contract with the ERDA) on the contract work to disclose to the contractor all consultant or other comparable employment services which the employees propose to undertake for others. The contractor shall transmit to the Contracting Officer all information obtained from such disclosures. The contractor will require any employee who will be employed full-time on the contract to agree, as a condition of his participation in such work, that he will not perform consultant or other comparable employment services for another ERDA cost-type contractor under its contract with the ERDA except with the prior approval of the contractor.

(b) The following clause shall be included in all cost-type contracts identified in §9-12.5401(d):

The contractor shall require all employees who are employed full-time (an individual who performs work under the cost-type contract on a full-time annual basis) or part-time (50 percent or more of regular annual compensation received under terms of a contract with the ERDA) on the contract work to disclose to the contractor all consultant or other comparable employment services which the employees propose to undertake for others. The contractor shall transmit to the Contracting Officer all information obtained from such disclosures. The contractor will require any employee who will be employed full-time on the contract work to agree, as a condition of his participation in such work, that he will not perform consultant or other comparable employment services for another ERDA cost-type contractor or in the atomic energy field for another organization except with the prior approval of the contractor. If the contractor believes, with respect to any employee who is employed full-time on the contract work, that any proposed consultant or other comparable employment service for an organization in the atomic energy field other than an ERDA cost-type contractor may involve: (1) A rate of remuneration significantly in excess of the employee's regular rate of remuneration; (2) a significant question concerning possible conflict with the ERDA's policies regarding conduct of employees of the ERDA's contractors; (3) the contractor's responsibility to report fully and promptly to the ERDA all significant research and development information; or (4) the patent provisions of the contractor's contract with the ERDA, the contractor shall obtain the prior approval of the Contracting Officer for such consultant or other comparable employment service.

§9-7.5006-46 Assignment.

Neither this contract nor any interest therein nor claim thereunder shall be assigned or transferred by the contractor except as expressly authorized in writing by the Contracting Officer.

§9-7.5006-47 [Reserved]

§9-7.5006-48 Permits.

Except as otherwise directed by the Contracting Officer, the contractor shall procure all necessary permits or licenses and abide by all applicable laws, regulations, and ordinances of the United States and of the State, territory, and political subdivision in which the work under this contract is performed.

§9-7.5006-49 Notice of labor disputes.

Whenever an actual or potential labor dispute is delaying or threatens to delay the performance of the work, the contractor shall immediately notify the Contracting Officer in writing. Such notice shall include all relevant information concerning the dispute and its background.

§9-7.5006-50 Litigation and claims.

(a) *Initiation of litigation.* The contractor may, with the prior written authorization of the Contracting Officer, and shall, upon the request of the Government initiate litigation against third parties, including proceedings before administrative agencies, in connection with this contract. The contractor shall proceed with such litigation in good faith and as directed from time to time by the Contracting Officer.

(b) *Defense and settlement of claims.* The contractor shall give the Contracting Officer immediate notice in writing (1) of any action, including any proceeding before an administrative agency, filed against the contractor arising out of the performance of this contract, and (2) of any claim against the contractor, the cost and expense of which is allowable under the clause entitled "Allowable costs." Except as otherwise directed by the Contracting Officer, in writing, the contractor shall furnish immediately to the Contracting Officer copies of all pertinent papers received by the contractor with respect to such action or claim. To the extent not in conflict with any applicable policy of insurance, the contractor may with the Contracting Officer's approval settle any such action or claim, shall effect at the Contracting Officer's request an assignment and subrogation in favor of the Government of all the contractor's rights and claims (except those against the Government) arising out of any such action or claim against the contractor, and, if required by the Contracting Officer, shall authorize representatives of the Government to settle or defend any such action or claim and to represent the contractor in, or to take charge of, any action. If the settlement or defense of an action or claim against the contractor is undertaken by the Government, the contractor shall furnish all reasonable assistance in effecting a settlement or asserting a defense. Where an action against

the contractor is not covered by a policy of insurance, the contractor shall, with the approval of the Contracting Officer, proceed with the defense of the action in good faith; and in such event the defense of the action shall be at the expense of the Government: *Provided, however*, That the Government shall not be liable for such expense to the extent that it would have been compensated for by insurance which was required by law or by the written direction of the Contracting Officer, but which the contractor failed to secure through its own fault or negligence.

§9-7.5006-51 Required bonds and insurance—exclusive of Government property (cost-type contracts).

The contractor shall procure and maintain such bonds and insurance as are required by law or by the written direction of the Contracting Officer. The terms of any such bond or insurance policy shall be submitted to the Contracting Officer for approval upon request. In view of the provisions of the article entitled "Property," the contractor shall not procure or maintain for its own protection any insurance covering loss or destruction of or damage to Government-owned property.

§9-7.5006-52 Priorities, allocations, and allotments.

The contractor shall follow the provisions of DMS Regulation 1 and all other applicable regulations and orders of the Domestic and International Business Administration, Department of Commerce in obtaining controlled materials and other products and materials needed to fill this order.

§9-7.5006-53 Soviet-Bloc controls (unclassified research contracts with educational institutions).

In connection with the contract activities, the Contractor agrees to comply with the requirements set forth in Attachment ———— of this contract relating to the countries listed therein. From time to time, by written notice to the Contractor, the ERDA shall have the right to change the listing of countries in Attachment ————upon a determination by the ERDA that such change is in conformance with national policy. The Contractor shall have the right to terminate its performance under this contract upon at least sixty (60) days' prior written notice to the ERDA if the Contractor determines that it is unable, without substantially interfering with its policies as an educational institution or without adversely affecting its performance, to continue performance of the work under this contract as a result of a change in Attachment ———— made by the ERDA pursuant to the preceding sentence. If the Contractor elects to terminate performance, the provisions of this contract respecting termination for the convenience of the Government shall apply.

§9-7.5006-54 Controls in the national interest (unclassified research contracts with educational institutions).

The Contractor agrees to comply with the requirements of the ERDA specified in Attachment ————to this contract, and to such other ERDA requirements of the same general nature as the parties may agree to from time to time; these requirements relate to unclassified work, and they shall not be construed to limit or affect in any way the Contractor's obligation to conform to all security regulations and requirements of the ERDA pertaining to classified work.

§9-7.5006-55 Avoidance of conflicts of interest (contracts with universities where ERDA has major investments in facilities but does not own or lease the land).

The parties agree that the university has adopted policies and procedures, designed to avoid conflict-of-interest situations, which are in substantial conformance with the Joint Statement of the Council of American Association of University Professors and the American Council on Education of December 1964, entitled "On Preventing Conflicts of Interest in Government-Sponsored Research at Universities," which policies and procedures will be applied in connection with this contract.

§9-7.5006-56 Statement of Work (cost-type contracts).

NOTE: (a) While it is not feasible to set forth standard language which would fit every cost-type contract situation, language for this clause must be designed to describe clearly the work being undertaken; the controls, as appropriate, to be exercised by ERDA over the performance of that work; and the relationship contemplated between the parties.

(b) This clause shall also include the following language with respect to subcontracting performance of the work described pursuant to (a) above. The contractor shall, when directed by the ERDA, and may, but only when authorized by the ERDA, enter into subcontracts for the performance of any part of the work under this article.

The foregoing language will satisfy the requirements of §9-51.201(a), as well as any programmatic requirements which may not be anticipated or present when entering into the contract.

(c) In operating-type contracts when the contractor is expected to perform no Davis-Bacon work with his own forces, the special clause in §9-18.703-50 shall be included in this clause.

§9-7.5006-57 Limitation of price and contractor performance (multiyear contracts).

(a) Funds are obligated for performance of this contract in the amount of $————. This obligated amount is not considered sufficient for the contract performance required by and described herein for any year other than the first year. Upon availability of additional funds sufficient for performance of the full requirement for the next succeeding year, the Contracting Officer shall, not later than a date agreed to by the parties, so notify the contractor in writing and the amount of funds obligated herein for contract performance shall be increased accordingly. This procedure shall apply for each successive year in which this contract is to be performed.

(b) The Government is not obligated to the contractor for contract performance in any monetary amount in excess of the amount obligated herein.

(c) The contractor shall not incur costs for the performance required for any year after the first year unless and until he has been notified in writing by the Contracting Officer of an increase in the obligated amount in accordance with paragraph (a) of this clause. If so notified, the contractor's performance shall be increased only to the extent required for the additional year for which funds have been obligated.

(d) In the event of termination pursuant to the clause entitled "Termination for convenience of the Government," the terms "total contract price" and "work under the contract" as used in that clause refer to the amount obligated for performance of this contract as provided in this clause plus the applicable amount, if any, established as the cancellation ceiling, and to the work under the year for which funds have been obligated. In the event of termination for default, the Government's right under this contract shall apply to the entire multiyear requirements.

(e) Notification to the contractor of an increase or decrease in the funds obligated for performance of this contract as a result of a clause other than this clause shall not constitute the notification contemplated by paragraph (a) of this clause.

§9-7.5006-58 Cancellation (multiyear contracts).

(a) As used herein, the term "cancellation" means that the Government is canceling, pursuant to this clause, its requirements as set forth in this contract for all years subsequent to that in which notice of cancellation is provided. Such cancellation shall occur only, if by the date or within the time period specified in this contract, or such further time as may be agreed to, the Contracting Officer (1) notifies the contractor that funds will not be available for contract performance for any subsequent year; or (2) fails to notify the contractor that funds have been made available for performance of the requirement for the succeeding year.

(b) Except for cancellation pursuant to this clause or for termination pursuant to the clause entitled "Default," any reduction by the Contracting Officer in the work called for under this contract shall be considered a termination in accordance with the clause enti-

tled "Termination for convenience of the Government." Cancellation pursuant to this clause shall not be construed a termination in accordance with the clause entitled "Termination for convenience of the Government."

(c) In the event of cancellation pursuant to this clause, the contractor shall not, as consideration therefor, be entitled to any cancellation charge (Note A).

NOTE A: In the event that cancellation charges are appropriate in a particular multiyear award, the following should be substituted for paragraph (c) above:

(c) In the event of cancellation pursuant to this clause, the contractor shall be paid, as consideration therefor, a cancellation charge not to exceed the cancellation ceiling described and separately set forth in this contract as being applicable at the time of cancellation.

(d) The cancellation charge is intended to cover only expenses reasonably necessary for performance which would have been recovered over the multiyear period, but which, because of the cancellation, are therefore not so recovered. The cancellation charge shall be computed and claim therefor made as would be applicable under the clause entitled "Termination for convenience of the Government," except that the cancellation charge shall not include any amount for:

(1) Labor, materials, or other expenses incurred for performance of the canceled work: *Provided*, That initial costs, preparatory expenses and other nonrecurring costs reasonably and necessarily incurred by the contractor and its subcontractors, but exclusive of any costs allocable to the completed work paid or to be paid for, may be included in such charge;

(2) Which payment has already been made to the contractor; or

(3) Anticipated profit on the canceled items, or on the costs included in the cancellation charge.

§9-7.5006-59 Private use of contract information and data.

Except as specifically authorized by this contract, or as otherwise approved by the Contracting Officer, information and other data developed or acquired by or furnished the contractor in the performance of this contract, shall be used only in connection with the work under this contract.

§9-7.5006-60 Preservation of individual occupational radiation exposure records.

Individual occupational radiation exposure records generated in the performance of work under this contract shall be subject to inspection by the ERDA and shall be preserved by the contractor until disposal is authorized by the ERDA, or at the option of the contractor delivered to the ERDA upon completion or termination of the contract. If the contractor exercises the foregoing option, title to such records shall vest in the ERDA upon delivery.

NOTE A: The foregoing clause shall be included in all contracts containing ERDA standard clause §9-7.5004-12.

§9-7.5007 Suggested ERDA clauses.

This section sets forth suggested clauses for use in ERDA contracts. The clauses may be modified in the light of specific contracting situations.

§9-7.5007-1 [Reserved]

§9-7.5007-2 Key personnel.

It having been determined that the employees whose names appear (below) (in Appendix ————, or persons approved by the Contracting Officer as persons of substantially equal abilities and qualifications, are necessary for the successful performance of this contract, the contractor agrees to assign such employees or persons to the performance of the work under this contract and shall not reassign or remove any of them without the consent of the Contracting Officer. Whenever, for any reason, one or more of the aforementioned employees is unavailable for assignment for work under the contract, the contractor shall, with the approval of the Contracting Officer, replace such employee with an employee of substantially equal abilities and qualifications.

§9-7.5007-3 Other contracts.

The Government may undertake or award other contracts for additional work, and the contractor shall fully cooperate with such other contractors and Government employees and carefully fit his own work to such additional work as may be directed by the Contracting Officer. The contractor shall not commit or permit any act which will interfere with the performance of work by any other contractor or by Government employees.

§9-7.5007-4 [Reserved]

§9-7.5007-5 Price redetermination.

The price or prices stated in this contract shall be subject to redetermination in accordance with the provisions of this article. In no event shall the total contract price, as revised hereunder, exceed $————.[4] [5]

(a) *Time for redetermination.*[6]

(1) Upon delivery of ————percent of the total number of articles specified to be furnished[7] under this contract, or at such earlier time as the Contracting Officer may direct in the event of any termination by the Government of work under this contract,[8] the Contractor shall submit to the Contracting Officer the data specified in paragraph (c) of this article. On the basis of such information, and of any other relevant information which may be available to the Contracting Officer, the price or prices set forth in this contract shall be redetermined by agreement of the Contracting Officer and the Contractor. Any redetermined price or prices established under this subparagraph shall be effective as of the date of this contract and shall apply to all articles covered by the contract, whether already delivered or yet to be delivered.

(2) Prior to expiration or termination of this contract, but not sooner than ninety (90) days after the effective date of any price redetermination under subparagraph (1), either party to the contract may at its option by written notice addressed to the other require that the parties negotiate a further redetermination of such redetermined price or prices to become effective as of the date of the notice or some later date specified therein, and thereafter from time to time by similar notices may require that the parties again negotiate further price redeterminations to become effective as of dates not earlier than ninety (90) days after the effective date of the redetermined price or prices then in effect. The data specified in paragraph (c) shall accompany any notice by the Contractor under this subparagraph, and shall be submitted by the Contractor to the Contracting Officer within thirty (30) days after receipt of any notice hereunder from the Government. Any redetermined price or prices established under this subparagraph shall apply only to articles yet to be delivered.

(b) *Principles Governing Negotiation, Additional General Limitations and Procedures Relating to Redetermined Prices.* Any redetermined price or prices under this article shall be fair and reasonable under all the circumstances to the Contractor and to the Government. In the negotiation of such fair and reasonable redetermined price or prices, the Contracting Officer may take into account, as a factor in determining a reasonable profit allowance, any unwarranted delay on the part of the Contractor in submitting the data specified in paragraph (c) at a time required by this article. Any redetermined price or prices under this article shall not exceed any applicable ceiling price or prices established

[4] Whenever changes are made in the contract pursuant to the changes article, the total contract price shall be adjusted, where necessary, in accordance with such changes.

[5] If redetermination downward only is to be provided for, the following sentence should be substituted for this sentence: "The total of such redetermined prices as established pursuant to any redetermination shall in no event exceed the total contract price as set forth in this contract prior to redetermination, less any part thereof applicable to any terminated portion of the work."

[6] Where multiple redeterminations, upward or downward, are to be provided for, subparagraphs (1) and (2) should both be included in paragraph (a). Where a single redetermination only, whether upward or downward or downward only, is to be provided for, subparagraph (2) should be entirely omitted.

[7] In lieu of "Upon delivery of ————percent of the articles specified to be furnished," any one of the following substitutes may be used: "Upon delivery of ————units of the articles to be furnished." "Upon performance of (a specified portion of the work)." "Upon delivery of articles representing ————percent of the total contract price."

[8] In the event wholly retroactive redetermination is to be provided for, the preceding language should be revised to read: "Within ————days after completion or termination of this contract."

pursuant to applicable law and regulations. Any redetermined price or prices and the manner of making necessary adjustments with respect to payments previously made by the Government shall be set forth in an amendment or amendments which shall be signed by the Contracting Officer and the Contractor. Where negotiation is required under this article, failure to agree upon any redetermined price or prices shall be deemed a dispute concerning a question of fact within the meaning of the article of this contract entitled "Disputes." Any redetermination of prices under this article shall be without prejudice to the rights of the Government under any statute or order now in effect, or under any other article of this contract. In connection with any price redetermination hereunder, the Government may make such examination of the Contractor's accounts, records and books as the Contracting Officer may require and may make such audit thereof as the Contracting Officer may deem necessary.

(c) *Data to be submitted by the Contractor.* The data to be submitted by the Contractor under this article, itemized in such detail as the Contracting Officer may prescribe, shall consist of:

(1) A new estimate and breakdown of the unit cost and the proposed prices of the items remaining under this contract after the effective date of the price redetermination;

(2) An explanation of any differences between the last preceding estimate and the current estimate of costs;

(3) Such relevant shop and engineering data, cost records, overhead experience reports, and accounting statements as may be of assistance in determining the accuracy and reliability of the current estimate of costs;

(4) A statement of experienced costs of production hereunder at the time or times of the negotiation of the revision of prices hereunder; and

(5) Any other relevant data usually furnished in the case of negotiation of prices under a new contract.

§9-7.5007-6 Established price article for standard off-the-shelf items (Escalation).

This article should not be used unless a substantial portion of the contractor's business is with purchasers other than the Government. The articles can be used in open-end or indefinite quantity contracts, but its use is not limited to such contracts.

ESTABLISHED PRICE ARTICLE FOR STANDARD OFF-THE-SHELF ITEMS (ESCALATION)

(a) The Contractor hereby warrants that the unit prices stated herein at the effective date hereof are not in excess of the Contractor's applicable established prices for like quantities of the supplies covered by this contract. The Contractor shall notify the Contracting Officer of each decrease in any such established prices and each applicable contract unit price shall be decreased accordingly. Any decrease in a unit price shall become effective concurrently with the effective date of each applicable decrease in Contractor's established price and the contract shall be amended accordingly.

(b) The Contractor may at any time, or from time to time, during the performance of the contract request in writing an upward adjustment in any of the contract unit prices to be effective as from a date to be specified by the Contractor, subject to the following conditions:

(1) No unit price shall be increased in accordance with such request by a greater percentage than the applicable established price is increased.

(2) The aggregate of the increases in any unit price made under this paragraph shall not exceed 10 percent of the original applicable contract unit price.

(3) No adjusted unit price shall be effective earlier than the effective date of any increase in the applicable established price.

(c) In the event the requested adjustment in any contract unit price is acceptable to the Contracting Officer, he shall, not later than 20 days after the date of receipt by him of the request, so notify the Contractor and the contract shall be modified accordingly. If any such requested adjustment in a unit price is not acceptable to the Contracting Officer, he shall so notify the Contractor in writing within 20 days from the date of receipt by him of the Contractor's said notice; and unless an agreement can be reached as to the amount of increase, the Government may cancel without liability to either party the Contractor's right to proceed with performance of the portion of the contract which is undelivered at the time of such cancellation.

(d) If notice of cancellation is not sent to the Contractor within 30 days after receipt by the Contracting Officer of the Contractor's request, supplies delivered subsequent to the date specified in such request, and prior to the effective date of any subsequent increase or decrease in Contractor's applicable established prices, shall be paid for at the applicable increased unit prices so requested, provided such requested increases satisfy all of the conditions and do not exceed the limitations of paragraph (b).

(e) The Contractor also agrees to give the Government any and all discount benefits extended to any company, agency, organization, or individual purchasing or handling like quantities of the supplies covered by this contract.

§9-7.5007-7 Established price article for semistandard items (Escalation).

This article pegs the price of a semistandard item to the "nearest commercial equivalent" for which there is an established price. The article should not be used if the Contractor does not customarily deal in standard items and if the standard items or "nearest commercial equivalents" to which the contract unit prices are pegged are not items for which the Contractor has an active commercial market. As required by the provisions of paragraph (c) of the article, agreement must be reached as to the "nearest commercial equivalent" for each contract item and its established price at the date of the contract must be set forth in that paragraph. This article should not be used unless a substantial portion of the Contractor's business is with purchasers other than the Government, nor should it be used if the Contractor will accept some other more suitable article (for example, the articles suggested in §§9-7.5007-8 and 9-7.5007(9).

ESTABLISHED PRICE ARTICLE FOR SEMISTANDARD ITEMS (ESCALATION)

(a) The Contractor warrants that the materials covered by this contract are materials which the Contractor customarily offers for sale commercially, modified in accordance with the specifications of this contract, and that any differences between the prices provided herein at the effective date hereof and its established or published prices for like quantities of the materials which are the nearest commercial equivalents of the materials covered by this contract (hereinafter referred to as "the established prices") are due to differences in costs resulting from compliance with such specifications. If at any time during the performance of this contract any of the established prices are reduced, each applicable price set forth herein (which, as changed at any time or from time to time in accordance with the provisions of the article hereof entitled "Changes," are hereinafter referred to as "the contract prices") shall be reduced by the same percentage that such established price is reduced. Upon such a reduction in any of the established prices, the Contractor shall advise the Contracting Officer of the reduction to be made in any of the contract prices and the effective date of the reduction in the applicable established price. Any such reduced price shall be effective as to deliveries made on and after the effective date of the reduction in the applicable established price and the contract shall be modified accordingly.

(b) If at any time during the performance of the contract any of the established prices are increased, the Contractor may request in writing the same percentage increase in the applicable contract price of the material to be delivered after a date not earlier than the date the request is mailed to the Contracting Officer, provided, that the Contractor may not request under this article a unit price for any item which will exceed by more than 10 percent the original contract unit price. In the event the requested adjustment in any contract unit price is acceptable to the Contracting Officer, he shall not later than twenty (20) days after the receipt of the request so notify the Contractor and the contract shall be modified accordingly. If the requested upward adjustment in price is not acceptable to the Contracting Officer and he shall so indicate by withholding approval of it for a period of twenty (20) days from the date of delivery to him of the Contractor's written request, and if within a succeeding 10-day period the contractor shall not elect to continue deliveries at the prices in effect immediately prior to his request, then the contract shall be deemed to have been terminated for the convenience of the Government pursuant to the article hereof entitled "Terminations," only with respect to the item or items for which the Contracting Officer has so withheld approval of the requested upward adjustment.

(c) For the purposes of this section, it is agreed by the Contractor and the Government that the nearest commercial equivalent of the material covered by this contract is ——————————and that the established price therefor, at the effective date hereof, is $————.

§9-7.5007-8 General price escalation article involving cost breakdowns.

This article can be used in fixed-price contracts for standard, semistandard, or nonstandard items. The provision in paragraph (b) of the article limiting adjustments to amounts equivalent to at least 3 percent of the then aggregate contract price should not be considered inflexible. In the case of a large contract, the Contractor might insist on

the use of a lower percentage figure. In the case of a small contract, it might be in the interest of the Government to use a higher percentage figure. There does not appear to be any objection to the use of a reasonable dollar amount in lieu of a percentage figure.

GENERAL PRICE ESCALATION ARTICLE INVOLVING COST BREAKDOWNS

(a) The Contractor represents and warrants that the prices set forth in this contract do not include any contingency allowance to cover the possibility of increased costs of performance resulting from increases in either (1) the Contractor's rates of pay for labor employed by him, or (2) the prices which the Contractor is required to pay for material. The Contractor further represents and warrants that the net price or prices paid or to be paid by the Government under this contract do not and shall not exceed those paid by any other purchaser or consignee for like quantities of the same or similar supplies. The Contractor also agrees to give the Government any and all discount benefits extended by it to any other purchaser or consignee purchasing or handling like quantities of the same or similar supplies covered by this contract.

(b) In the event that, at any time during the performance of this contract, the Contractor shall pay rates of pay for direct labor employed by him or prices for direct material in excess of or less than those current as of the date of this contract, provided that any such change would result in an increase or decrease of at least three percent (3%) of the then aggregate contract price of the uncompleted units of the contract, then in either such event the unit prices set forth in this contract may be revised upward or downward in accordance with the provisions of paragraph (c) hereof, with respect to the units completed subsequent to the effective date of any such increase or decrease by an amount equivalent to the increase or decrease in cost per uncompleted unit occasioned by the increase or decrease in direct labor wage rates or in prices for direct material or in both.

(c) Not later than twenty (20) days after the effective date of any increase or decrease as referred to in paragraph (b) hereof, the Contractor may notify the Contracting Officer of any such increase, and shall notify the Contracting Officer of any such decrease, and with such notification shall submit a supporting cost breakdown. Such cost breakdown will:

(1) Be prepared in accordance with recognized commercial accounting principles.

(2) Indicate changes in estimated direct labor and direct material costs resulting from any increase or decrease as referred to in paragraph (b) hereof.

(3) Be signed by a responsible official of the Contractor. Upon the basis of such notification and cost breakdown, and such other data as may be available to the Contracting Officer or as shall be furnished to him upon request to the Contractor, a price adjustment to reflect the increase or decrease in costs as referred to in paragraph (b) hereof shall be determined by mutual agreement between the Contractor and the Contracting Officer, and shall be set forth in an amendment to this contract. In the event that the Contractor fails to give notice of any decrease as required herein, a downward adjustment shall be later effected with respect to units completed subsequent to the effective date of any such decrease.

(d) Price adjustments may be agreed upon, at any time and from time to time during the performance of this contract, in accordance with the provisions of this article. In no event, however, shall any price adjustments be made:

(1) For increased or decreased costs resulting from an increase or decrease as related to the original contract estimates, in number of hours of labor, in amounts of material purchased, or in overhead charges; or

(2) Which would increase or decrease the estimated dollar amount of profit per unit originally included in the contract price.

(e) The increase or accumulated increases in unit prices made under this article shall not exceed ten percent (10%) of the original contract unit price.

(f) Pending a determination of any price adjustment under this article, the Contractor shall continue deliveries hereunder. Failure of the parties to agree upon a price adjustment pursuant to the provisions of this article shall be deemed to be a dispute as to a question of fact within the meaning of the article of this contract entitled "Disputes."

§9-7.5007-9 General price escalation article (no cost breakdowns).

This article may be used in lieu of the article described in §9-7.5007-8 in instances where the Contractor is either unable or unwilling to furnish a cost breakdown. In such instances, prices should be otherwise adequately justified and the contract should normally be for less than $100,000.

GENERAL PRICE ESCALATION ARTICLE (NO COST BREAKDOWNS)

(a) The Contractor represents and warrants that the prices set forth in this contract do not include any contingency allowance to cover the possibility of increased costs of performance resulting from increases in either (1) the Contractor's rates of pay for labor employed by him or (2) the prices which the Contractor is required to pay for material. The Contractor further represents and warrants that the net price or prices paid or to be paid by the Government under this contract do not and shall not exceed those paid by any other purchaser or consignee for like quantities of the same or similar supplies. The Contractor also agrees to give the Government any and all discount benefits extended by it to any other purchaser or consignee purchasing or handling like quantities of the same or similar supplies covered by this contract.

(b) In the event that, at any time during the performance of this contract, the Contractor shall pay rates of pay for direct labor employed by him or prices for direct material in excess of or less than those current as of the date of this contract, provided that any such change would result in an increase or decrease of at least 3 percent of the then aggregate contract price of the uncompleted units of the contract, then in either such event the unit prices set forth in this contract may be revised upward or downward in accordance with the provisions of paragraph (c) hereof, with respect to units completed subsequent to the effective date of any such increase or decrease by an amount equivalent to the increase or decrease in cost per uncompleted unit occasioned by the increase or decrease in direct labor wage rates or in prices for direct material or in both.

(c) Not later than twenty (20) days after the effective date of any increase or decrease as referred to in paragraph (b) hereof, the Contractor may notify the Contracting Officer of any such increase, and shall notify the Contracting Officer of any such decrease, and with such notification shall submit evidence of costs satisfactory to the Contracting Officer. Such evidence of costs (1) shall be prepared in accordance with recognized commercial accounting principles, and (2) shall be signed by a responsible official of the Contractor. Upon the basis of such notification and evidence of costs, and such other data as may be available to the Contracting Officer or as shall be furnished to him upon request to the Contractor, a price adjustment to reflect the increase or decrease in costs as referred to in paragraph (b) hereof shall be determined by mutual agreement between the Contractor and the Contracting Officer, and shall be set forth in an amendment to this contract. In the event the Contractor fails to give notice of any decrease as required herein, a downward adjustment shall be later effected with respect to units completed subsequent to the effective date of any such decrease.

(d) Price adjustments may be agreed upon, at any time and from time to time during the performance of this contract, in accordance with the provisions of this clause. In no event, however, shall any price adjustment be made for increased or decreased costs resulting from an increase or decrease as related to the original contract estimates, in number of hours of labor, in amounts of material purchased, or in overhead charges; or which would increase or decrease the estimated dollar amount of profit per unit originally included in the contract price. The increase or accumulated increases in unit prices made under this article shall not exceed 10 percent of the original contract unit price.

(e) Pending a determination of any price adjustment under this article, the Contractor shall continue deliveries hereunder. Failure of the parties to agree upon a price adjustment pursuant to the provisions of this article shall be deemed to be a dispute as to a question of fact within the meaning of the article of this contract entitled "Disputes."

§9-7.5007-10 Escalation article for nonstandard steel items.

This article is intended for use in those cases where the items being procured are nonstandard steel items made wholly or in major part of steel, and where the Contractor is a steel producer and actually manufactures the basic steel items, referenced in paragraph (d) of article, from which the nonstandard item is fabricated.

ESCALATION ARTICLE FOR NONSTANDARD STEEL ITEMS

(a) The Contractor represents that the prices set forth in this contract do not include any contingency allowance to cover the possibility of increased costs of performance resulting from increases in either (1) the Contractor's rates of pay for labor employed by it, or (2) the prices which the Contractor charges its manufacturing shops for the steel required in the performance of this contract.

(b) Each contract unit price shall be subject to revision, pursuant to the provisions of this article, to reflect changes in the costs of labor and steel. For the purpose of any such price revision, the proportion of the contract unit price attributable to costs of labor not otherwise included in the price of the steel item identified in paragraph (d) below, shall be ————percent, and the proportion of the contract unit price attributable to the cost of steel shall be ————percent.

(c) For the purposes of this clause, the term "Labor Index" shall mean the average straight time hourly earnings of the contractor's employees in the ———— (Note A) shop of the Contractor's ———— plant for any particular month. (The word "month" as used herein means "calendar month.") Unless otherwise specified in this contract, the labor index shall be computed by dividing the total straight time payroll of the Contractor's employees in the particular shop identified above for any given month by the total number of straight time hours worked by such employees in that month. Any revision in a contract unit price to reflect changes in the cost of labor shall be computed solely by reference to the "base labor index" which shall be the average of the labor indices for the 3 months consisting of the month of ———— 19——, (Note A) the month immediately preceding and the month immediately following, and to the "current labor index" which shall be the average of the labor indices for the month in which delivery of supplies is required to be made in accordance with the terms of this contract, and the month preceding.

(d) Any revision in a contract unit price to reflect changes in the cost of steel shall be computed solely by reference to the "base steel index," which shall be the Contractor's established or published price to the public, including all applicable extras of $———— (Note B) per ———— unit for ———— (Note B) (description of steel item) on ————, 19——, and the "current steel index" which shall be the Contractor's established or published price to the public of said item, including all applicable extras in effect ————(Note B) days prior to the first day of the month in which delivery of supplies is required to be made in accordance with the terms of the contract.

(e) Each contract unit price shall be revised for each month in which, by the terms of this contract, delivery of supplies is required to be made, and such revised contract unit price(s) shall apply to the deliveries of those quantities of supplies required to be made in that month regardless of when actual delivery be made of said quantities of supplies. Each revised contract unit price for any month shall be computed by adding together the following three amounts:

(1) The amount (representing the adjusted cost of labor) obtained by multiplying ———— percent of the contract unit price by a fraction, the numerator of which shall be the current labor index and the denominator of which shall be the base labor index,

(2) The amount (representing the adjusted cost of steel) obtained by multiplying ———— percent of the contract unit price by a fraction, the numerator of which shall be the current steel index and the denominator of which shall be the base steel index, and

(3) The amount equal to ————percent of the original contract unit price (representing that portion of such unit price which relates neither to the cost of labor nor to the cost of steel and which is therefore not subject to revision): *Provided, however,* That any revised contract unit price made pursuant to the provisions of this article shall in no event exceed 110 percent of the original contract unit price. All computations shall be made to the nearest one-hundredth of 1 cent.

(f) Pending revisions of the contract unit price(s), if any to be made pursuant to this article, the Contractor shall be paid the contract unit price(s) for deliveries made. Within thirty (30) days after the final delivery of supplies, or within such further period of time as may be authorized by the Contracting Officer, the Contractor shall furnish a statement or statements signed by the official supervising accounting with respect to this contract setting forth and certifying the correctness of (1) the average straight time hourly earnings of the Contractor's employees in the ———— shop of the Contractor which are relevant to the computations of the "base labor index" and the "current labor index," and (2) the Contractor's established or published prices to the public including all applicable extras, for like quantities of ————which are relevant to the computation of the "base steel index" and the "current steel index." Upon request of the Contracting Officer or his duly authorized representative the Contractor shall make available its records used in the computation of the labor indices. After the receipt of such certificate by the Contracting Officer, the revised contract unit price(s) shall be computed in accordance with the provisions of this article and this contract shall be amended accordingly.

(g) In the event of any total or partial termination of any item of this contract for the convenience of the Government, the month in which notice of such termination is received by the Contractor, if prior to the month in which delivery is required by this contract, shall be considered the month in which delivery of such terminated or partially terminated item is required for the purpose of determining the current labor and materials indices under paragraph (c) and (d) hereof; provided, however, that as to the quantity of such item which is not terminated for convenience, the month in which delivery is required by this contract shall continue to apply for determining said indices. In the case of termination of any item for default on the part of the Contractor, any price revision shall be limited to the quantity of each item which has been delivered by the contractor and accepted by the Government prior to receipt by the Contractor of notice of termination for default.

(h) As used in this article, the phrase "the month in which the delivery of supplies is required to be made in accordance with the terms of this contract" shall mean any month in which under the terms of this contract a specific quantity of units of the supplies called for by this contract is

required to be delivered: *Provided, however,* That in case the failure of the Contractor to make delivery of such quantity shall have arisen out of causes beyond the control and without the fault or negligence of the Contractor, the quantity not delivered shall be required to be delivered as promptly as possible after the cessation of the cause of such failure, and the delivery schedule set forth in this contract shall be amended accordingly. Such causes of failure include, but are not restricted to, acts of God or of the public enemy, acts of the Government, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, unusually severe weather, and defaults of subcontractors due to any of such causes unless the Contracting Officer shall determine that the supplies or services to be furnished by the subcontractor were obtainable from other sources in sufficient time to permit the Contractor to meet the required delivery schedule.

(i) Failure to agree upon any determination to be made under this article shall be a dispute concerning a question of fact within the meaning of the article of this contract entitled "disputes."

NOTE A: In the first blank in paragraph (c), there would be inserted the actual shop in which the basic steel item, identified in paragraph (d), would be finally fabricated or processed into the actual contract item. In the third blank of paragraph (c), there would be inserted the month in which the Contractor submitted its quotation.

NOTE B: In the third blank in paragraph (d), there would be inserted the actual standard steel mill item used by the Contractor in the manufacture of the contract item. The price which is to be inserted in the first blank in paragraph (d) is the actual price of such item, including the base price of the material and all applicable extras in effect on the date of quotation. In the fifth blank in paragraph (d), there would be inserted the number of days which represents the contractor's best estimate of the period of time required for processing said standard steel mill item in the shop identified in paragraph (c).

§9–7.5007–11 Price escalation article for standard steel items.

This article for the procurement of standard steel items from manufacturers is applicable to both advertised and negotiated procurement.

PRICE ESCALATION ARTICLE FOR STANDARD STEEL ITEMS

(a) The Contractor hereby warrants that the unit prices stated herein on the date set for opening of bids (or the contract date if this is a negotiated contract rather than one entered into by means of formal advertising) are not in excess of the Contractor's applicable established prices for like quantities of the supplies covered by this contract. The Contractor shall notify the Contracting Officer of each decrease in any of such established prices and each applicable contract unit price shall be decreased accordingly. Any decrease in a unit price shall become effective concurrently with the effective date of each applicable decrease in Contractor's established price and the contract shall be amended accordingly.

(b) The Contractor may at any time, or from time to time, after the date set for opening of bids (or the contract date if this is a negotiated contract rather than one entered into by means of formal advertising) and during the performance of the contract request in writing an upward adjustment in any of the contract unit prices to be effective as from a date to be specified by the Contractor, subject to the following conditions:

(1) No unit price as adjusted shall exceed the Contractor's applicable established price.

(2) The aggregate of the increases in any unit price made under this paragraph shall not exceed 10 percent (10%) of the original applicable contract unit price.

(3) No adjusted unit price shall be effective earlier than the effective date of any increase in the applicable established price and no increase shall be granted unless the Contractor's applicable established price has increased subsequent to the date set for opening of bids (or the contract date if this is a negotiated contract rather than one entered into by means of formal advertising).

(c) In the event the requested adjustment in any contract unit price is acceptable to the Contracting Officer, he shall not later than twenty (20) days after the date of receipt by him of the request so notify the Contractor and the contract shall be modified accordingly. If any such requested adjustment in a unit price is not acceptable to the Contracting Officer, he shall so notify the Contractor in writing within twenty (20) days from the date of receipt by him of the Contractor's said notice; and unless an agreement can be reached as to the amount of increase, the Government may cancel without liability to either party the contractor's right to proceed with performance of the portion of the contract which is undelivered at the time of such cancellation, except that the Contractor may make delivery of all or any of the supplies which a duly authorized officer of the company shall certify where completed or in the process of manufacture at the time of receipt of notice of such cancellation, and the Government shall pay for all supplies so delivered at the applicable unit price contained in the Contractor's said request and the contract shall be modified accordingly: *Provided,* That such certification is made within 10 days after receipt of notice of such cancellation and such requested increase satisfies all of the conditions and does not exceed the

limitations of paragraph (b). Supplies shall be deemed to be in the process of manufacture when the steel therefor is in any state of processing after the beginning of the furnace melt.

(d) During the period to such cancellation, the Contractor shall continue deliveries according to the terms of the contract and shall be paid therefor at the applicable increased unit prices so requested: *Provided*, Such requested increases satisfy all of the conditions and do not exceed the limitations of paragraph (b).

(e) If notice of cancellation is not sent to the Contractor within thirty (30) days after receipt by the Contracting Officer of the Contractor's request, supplies delivered subsequent to the date specified in such request, and prior to the effective date of any subsequent increase or decrease in Contractor's applicable established prices, shall be paid for at the applicable increased unit prices so requested, provided such requested increases satisfy all of the conditions and do not exceed the limitations of paragraph (b).

NOTE: By the deletion of the last sentence of paragraph (c) above, this clause is made suitable for use in contracts covering standard aluminum items.

§9-7.5007-12 Price escalation article for standard steel items (Nonproducer).

This article is intended for use in contracts with suppliers (who are not the manufacturers) of standard steel items, and ties adjustments in the contract prices to fluctuations in the manufacturer's prices to the contractor for those items.

PRICE ESCALATION ARTICLE FOR STANDARD STEEL ITEMS (NONPRODUCER)

(a) The parties agree that if, subsequent to the date set for opening of bids (or the contract date if this is a negotiated contract rather than one entered into by means of formal advertising), the manufacturer of the supplies covered by this contract reduces his price to the Contractor for such supplies, the unit price to be paid hereunder to the Contractor shall be reduced for those supplies delivered by the Contractor after the effective date of the reduction in the manufacturer's price. In each such instance, the applicable contract unit price shall be reduced by the same amount that the manufacturer's price to the Contractor is reduced. The Contractor will notify the Contracting Officer of such reductions and the contract will be modified accordingly.

(b) The Contractor may at any time, or from time to time, after the date set for opening of bids (or the contract date if this is a negotiated contract rather than one entered into by means of formal advertising), request in writing an upward adjustment in any of the contract unit prices, subject to the following conditions:

(1) No unit price shall be increased in accordance with such request unless the manufacturer of the supplies to be delivered under this contract increases his price to the Contractor for such supplies and no increase shall be granted unless the manufacturer's applicable price has increased subsequent to the date set for opening of bids (or the contract date if this is a negotiated contract rather than one entered into by means of formal advertising).

(2) No unit price shall be increased in accordance with such request except as to those supplies delivered pursuant to the terms of this contract and for which the Contractor is required to pay to the manufacturer an increased price.

(3) No unit price shall be increased by an amount greater than the amount the manufacturer's price to the Contractor is increased.

(4) The aggregate of the increases in any unit price made under this section shall not exceed 10 percent of the original applicable contract unit price.

(c) In the event the requested adjustment in any contract unit price is acceptable to the Contracting Officer, he shall not later than twenty (20) days after the date of receipt by him of the request so notify the Contractor, and the contract shall be modified accordingly. If any such requested adjustment in a unit price is not acceptable to the Contracting Officer, he shall so notify the Contractor in writing within twenty (20) days from the date of receipt by him of the Contractor's said notice; and unless an agreement can be reached as to amount of increase, the Government may cancel without liability to either party the Contractor's right to proceed with performance of the portion of the contract which is undelivered at the time of such cancellation.

(d) During the period prior to such cancellation, the Contractor shall continue deliveries according to the terms of the contract and shall be paid therefor at the applicable increased unit price so requested: Provided, Such requested increase satisfies all of the conditions and does not exceed the limitations of paragraph (b).

(e) If notice of cancellation is not sent to the Contractor within thirty (30) days after receipt by the Contracting Officer of the Contractor's request, supplies delivered subsequent to the date specified in such request, and prior to the effective date of any

subsequent increase or decrease in Contractor's applicable price, shall be paid for at the applicable increased unit price so requested, provided such requested increase satisfies all of the conditions and does not exceed the limitations of paragraph (b).

(f) Upon the written request of the Contracting Officer, the Contractor shall furnish to the Contracting Officer the manufacturer's prices (to the Contractor) for the supplies covered by this contract that were in effect on the date set for the opening of the bids (or the contract date if this is a negotiated contract rather than one entered into by means of formal advertising).

§9-7.5007-13 Price escalation article for standard aluminum items.

The article for standard steel items, §9-7.5007-11, can be made suitable for use in contracts covering standard aluminum items by deleting the last sentence of paragraph (c) of the article.

§9-7.5007-14 [Reserved]

PART 9–8—TERMINATION OF CONTRACTS

§9–8.000 Scope and applicability of part.

(a) This part implements and supplements the policies, procedures, and other requirements of FPR Part 1–8.

(b) The provisions of FPR Part 1–8 and this part may be utilized when authorized by Managers of Field Offices or, in the case of Headquarters contracts, by the appropriate Division Director, in accordance with FPR 1–8.000(d) in the situations enumerated in FPR 1–8.000(d) (1) and (2).

(c) The policies and requirements of FPR Part 1–8 and this part shall be applied to the termination and settlement of subcontracts by cost-type contractors.

Subpart 9–8.2—General Principles Applicable to the Termination for Convenience and Settlement of Fixed-Price Type and Cost-Reimbursement Type Contracts

§9–8.201 General.

(a) Subject to the requirements of paragraph (b) of this section, the contracting officer may terminate a contract for the convenience of the Government and enter into a settlement agreement in accordance with FPR 1–8.2. Claims arising out of a partial termination of a contract should be processed and settled in the same manner as claims arising out of a complete termination.

(b) The Administrator or his designee shall be notified prior to taking any action to terminate (1) contracts for the operation of Government-owned facilities, (2) any prime contract or subcontract in excess of $10 million, and (3) any contract the termination of which is likely to provoke unusual interest.

§9–8.208–4 Authorization for subcontract settlements without approval or ratification.

The power to authorize a contractor to conclude settlements of his terminated subcontracts without approval or ratification of the contracting officer when the amount of settlement is more than $10,000, but not more than $25,000, shall be exercised by contracting officers only with the approval of the Managers of Field Offices or, in the case of Headquarters contracts, the appropriate Division Director.

§9–8.208–8 Assignment of rights under subcontracts.

The contracting officer's determination under FPR 1–8.208–8(b) that it is in the best interest of the Government to settle and pay direct a subcontractor's termination claim is subject to the approval of the Manager of the Field Office or, in the case of Headquarters contracts, the appropriate Division Director.

§9–8.211–1 Settlement review boards.

FPR 1–8.211–2(b) will not apply to proposed settlements under ERDA contracts. The review of all proposed settlements under circumstances specified in FPR 1–8.211–2(a) will be by Field Office settlement review boards established by Managers of Field Offices.

§9–8.211–2 Required review and approval.

(a) Proposed settlement agreements or determinations in excess of contractual authority of Managers of Field Offices will be transmitted to the Director of Procurement, for review and approval.

(b) Contracting officers shall not conclude proposed settlements or determinations until the approvals required by FPR 1–8.211 and this section have been obtained.

§9–8.212–1 Partial payments upon termination.

Protection of the Government's interest in partial payments, by means other than those specified in FPR 1–8.212–1 (d), shall be subject to approval of the Manager of the Field Office or, in the case of Headquarters contracts, the appropriate Division Director.

Subpart 9-8.3—Additional Principles Applicable to the Settlement of Fixed-Price Type Contracts Terminated for Convenience

§9-8.307-1 Submission of settlement proposals.

Contracting officers shall encourage contractors to use the suggested forms set forth in FPR 1-8.802, 1-8.803, and 1-8.804 in the submission of settlement proposals, inventory schedules, accounting information, and applications for partial payments. The form entitled "Schedule of Accounting Information" (FPR 1-8.804-1) need be filed only once with respect to any termination. When the standard forms are not appropriate for a particular contract, Managers of Field Offices, or, in the case of Headquarters contracts, the appropriate Division Director may authorize modifications thereof. However, the certificate shall be substantially as set forth in the form.

§9-8.307-2 Bases for settlement proposals.

Termination claims shall not be submitted on any basis other than the inventory or total cost basis without the prior approval of the Managers of Field Offices or, in the case of Headquarters contracts, the appropriate Division Director.

Subpart 9–8.4—Additional Principles Applicable to the Settlement of Cost-Reimbursement Type Contracts Terminated for Convenience

§9–8.404–1 Submission of settlement proposal.

Contracting officers should encourage contractors to submit settlement proposals in the form set forth in FPR 1–8.802–4. When necessary, Managers of Field Offices or, in the case of Headquarters contracts, the appropriate Division Director, may authorize modification of this form. However, the certificate shall be substantially as set forth in the form.

Subpart 9-8.5—Disposition of Termination Inventory

§9-8.501-2 General restrictions on contractor's authority.

Contracting officers may authorize contractors to sell termination inventory to ERDA and other employees of the Federal Government and employees of ERDA contractors on the same basis afforded the general public, provided the employees warrant in writing that they have not:

(a) Participated in the determination to dispose of the property;

(b) Participated in preparation of the property for sale;

(c) Participated in determining the method of sale; or

(d) Acquired information not otherwise available to the general public regarding usage, conditions, quality, or value of the property. The required warranty signed by the employee concerned shall be obtained prior to making award.

§9-8.503-1 Submission of inventory schedules.

Contracting officers should encourage contractors to submit inventory schedules in the forms set forth in FPR 1-8.803. When necessary, Managers of Field Offices or, in the case of Headquarters contracts, the appropriate Division Director, may authorize modification of these forms. However, the certificate shall be substantially as set forth in the forms.

§9-8.504-1 General.

Scrap determinations shall be reviewed in accordance with §9-8.512(a).

§9-8.504-2 Scrap warranty.

Release from liability under scrap warranties shall be reviewed in accordance with §9-8.512(b).

§9-8.505 Screening of serviceable and usable property.

(a) When the contracting officer determines that application of ERDA circularization requirements would result in an appreciable increase in disposal costs involving retention of personnel after the contract has been terminated, rental of storage space, or other factors, arrangements should be made locally with GSA to screen inventory schedules on an accelerated basis.

(b) Priority in the acquisition of serviceable or usable property included in contractor's inventory shall be as follows:

(1) The ERDA office administering the contract,

(2) Other activities of the ERDA,

(3) Other agencies of the Government.

§9-8.507 Sale or other disposition of termination inventory.

§9-8.507-1 General.

(a) Any property which is included in the contractor's inventory schedules, which has not been acquired by the Government under §9-8.505 or donated under §9-8.508, may be acquired by the contractor or sold by the contractor to a third party, at any time after notification by the contracting officer that screening has been accomplished or will not be required. Generally, any such acquisition by the contractor or sale to a third party shall be on a competitive basis. Any acquisition or sale shall be in accordance with applicable laws and regulations. Any such acquisition or sale shall be subject to the approval of the contracting officer, as part of or prior to the final settlement.

§9-8.507-5 Applicability of antitrust laws.

Managers of Field Offices and Headquarters officials having the contracting responsibility shall furnish two copies of the notification referred to in FPR 1-8.507-5 to the Office of the General Counsel and one copy to the Director of Procurement.

§9-8.507-50 Sales without competition.

(a) Sales or acquisitions by the contractor without competitive bids may be authorized by the contracting officer only in exceptional or unusual cases. Subject to the terms of the contract, such sales or acquisitions without competitive bids may be negotiated at prices that are fair and reasonable and not less than the proceeds that could reasonably be expected to be obtained if the property were offered for competitive sale at that time.

(b) Any sales made under paragraph (a) of this section shall be reviewed to the extent required by §9-8.512.

§9-8.507-51 Extension of credit.

Contractors shall not be required to extend credit to purchasers, and any sales made by contractors on credit shall be at their own risk.

§9-8.508 Donations.

It is ERDA policy to utilize the established donation procedure in the disposal of termination inventory.

§9-8.512 Review of property disposal.

The following property disposal actions shall be reviewed by ERDA employees designated to act as property disposal reviewing authorities:

(a) Determinations that termination inventory is scrap or salvage (the nature of the review of such determinations shall depend upon the acquisition cost and location of the property involved and such other considerations as the contracting officer determines to be pertinent);

(b) Release from liability under a scrap warranty, if the original acquisition cost of the material is $10,000 or more;

(c) Sales;

(d) Proposals to destroy, abandon, or donate to a public body; and

(e) Such other actions as the contracting officer deems appropriate.

Subpart 9-8.6—Termination for Default

§9-8.601 General.

See also §9-8.201(b).

Subpart 9–8.7—Clauses

§9–8.700–2 Applicability.

The standard clauses set forth in FPR 1–8.701 through 1–8.710 are applicable as prescribed in FPR 1–8.700–2, subject to the following:

(a) The clause set forth in FPR 1–8.702 is not required to be used in operating contracts. However, all operating contracts, regardless of whether they are for production or research and development, should contain an appropriate termination clause approved by counsel.

(b) Architect-engineer contracts should also contain an appropriate termination clause approved by counsel.

(c) Cost principles referenced in the various termination articles shall be in accordance with Part 9–15.

§9–8.750 [Reserved]

§9–8.751 Termination article for cost-plus-a-fixed-fee architect-engineer contracts.

The following article is suggested for use in cost-plus-a-fixed-fee architect-engineer contracts:

Termination—(a) *Notice of termination for default or convenience.* The Contracting Officer may at any time terminate performance of the work under this contract in whole or from time to time in part for the default of the contractor or for the convenience of the Government by written notice to the contractor stating the ground for termination. Such termination shall be effective in the manner and upon the date specified in said notice and shall be without prejudice to any claims which the Government may have against the contractor. Upon receipt of such notice and except as otherwise directed by the Contracting Officer, the contractor shall:

(1) Stop work under the contract on the date and to the extent specified in the notice of termination;

(2) Place no further orders or subcontracts for materials, services, or facilities, except as may be necessary for completion of such portion of the work under the contract as is not terminated; and

(3) Terminate all orders and subcontracts to the extent they relate to the performance of work terminated by the notice of termination.

(b) *Termination for default.* (1) If the contractor refuses or fails to prosecute the work, or any separable part thereof, with such diligence as will insure its completion within the time specified in this contract, or any extension thereof, or fails to complete said work within such time, or if the contractor fails to perform any of the other provisions of this contract, the Contracting Officer may terminate for default the contractor's right to proceed with the work or such part of the work as to which there has been delay: *Provided*, That the performance of the work shall not be terminated for default because of any delays in the completion of work due to unforeseeable causes beyond the control and without the fault or negligence of the contractor, including, but not restricted to, acts of God, or the public enemy, acts of the Government in either its sovereign or contractual capacity, acts of another contractor in the performance of a contract with the Government, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, and unusually severe weather or delays of subcontractors or suppliers arising from unforeseeable causes beyond the control and without the fault or negligence of both the contractor and subcontractors or suppliers, and if the contractor within ten (10) days from the beginning of any such delay (unless the Contracting Officer grants a further period of time prior to the date of final settlement of the contract) notifies the Contracting Officer in writing of the causes of delay. The Contracting Officer shall ascertain the facts and the extent of the delay and extend the time for completing the work when in his judgment the findings of fact justify such an extension, and his findings of fact thereon shall be final and conclusive on the parties hereto, subject only to appeal by the contractor to the Administrator or his designee in accordance with Article ————hereof entitled "Disputes."

(2) If, after notice of termination of this contract for default under (1) above, it is determined for any reason that the contractor was not in default pursuant to (1), or that the contractor's failure to perform or to make progress in performance is due to causes beyond the control and without the fault or negligence of the contractor pursuant to the provisions of this clause relating to excusable delays, the notice of termination shall be deemed to have been issued for the convenience of the Government under this clause, and the rights and obligations of the parties hereto shall in such event be governed accordingly.

(.) *Liability for costs on default.* If performance of the work under this contract is terminated for the default of the contractor, the Government may complete or employ any other person or persons to complete the work, and the contractor shall be liable to the Government for increased costs occasioned the Government by the default.

(d) *Terms of settlement.* Upon the termination of performance of work under this contract, full and complete settlement of all claims of the contractor with respect to the terminated work shall be made as follows:

(1) *Assumption of contractor's obligations.* The Government shall have the right in its discretion to assume all obligations, commitments, and claims that the contractor may have theretofore in good faith undertaken or incurred in connection with the terminated work, the cost of which would be allowable in accordance with the provisions of this contract; and the contractor shall, as a condition of receiving the payments mentioned in this article, execute and deliver all such papers and take all such steps as the Contracting Officer may require for the purpose of fully vesting in the Government all the rights and benefits of the contractor, related to such obligations, commitments, and claims.

(2) *Payment for allowable costs.* The Government shall treat as allowable costs all expenditures made in accordance with Article ————hereof entitled "Allowance costs and fixed fee" not previously so allowed or otherwise credited.

(3) *Payment for termination expense.* If performance of work under the contract is terminated for the convenience of the Government, the Government shall reimburse the contractor for such further expenditures made after the date of termination for the protection of Government property and for such legal and accounting services in connection with settlement as are required or approved by the Contracting Officer.

(4) *Payments on account of fixed fee.* If performance of work under the contract is terminated for the convenience of the Government, the contractor shall be paid that portion of the fixed fee which the work actually completed so determined by the Contracting Officer, bears to the entire work under this contract less payments previously made on account of the fee. If performance of the work under the contract is terminated for the default of the contractor, no further payment on account of the fixed fee shall accrue.

(5) *Computation of amount due.* In arriving at the amount, if any, due the contractor under this clause, there shall be deducted from what would otherwise be due (i) all unliquidated advances and all other unliquidated payments on account theretofore made to the contractor, (ii) any claims of the Government against the contractor in connection with this contract, and (iii) all deductions due under the terms of this contract and not otherwise recovered by or credited to the Government.

(6) *Disposition of advances.* Upon termination of the work under this contract, any advance under this contract shall be handled as required by Article ————, "Payments and Advances."

(7) *Property accounting and release.* The contractor shall furnish the accounting for Government-owned property required by the clause entitled "Property" and the assignment, closing financial statement, and release required by the clause entitled "Payments and Advances."

(e) *Rights and remedies of the Government.* The rights and remedies of the Government provided in this clause are in addition to any other rights and remedies provided by law or under this contract.

NOTE: Paragraph (d)(7) as set forth above should be used in contracts where funds are advanced by the ERDA. For contracts where funds are not advanced, delete the requirements for a closing financial statement and change the article reference from "Payments and Advances" to "Payments" and omit paragraph (d)(6) as set forth above.

§9-8.752 [Reserved]

§9-8.753 Termination article for operating contracts.

The following article is suggested for use in operating contracts:

(a) This contract shall continue until ———— unless sooner terminated in accordance with the provisions which follow:

(1) The performance of work under this contract may be terminated by the ERDA in whole, or from time to time in part, (i) whenever the contractor shall default in performance, and shall fail to cure the fault or failure within such period as the ERDA may allow after receipt from the ERDA of a notice specifying the fault or failure, or (ii) whenever for any reason the ERDA shall determine any such termination is for the best interest of the Government. Termination of the work hereunder shall be effected by delivery of a notice of termination specifying whether termination is for default of the contractor or for the convenience of the Government, the extent to which performance of work under the contract shall be terminated, and the date upon which such termination shall become effective. Any such termination shall be without prejudice to any claim which either party may have against the other. If, after notice of termination under the provisions of paragraph (a)(1)(i) above, it is determined for any reason that the contractor was not in default, such notice of default shall be deemed to have been issued pursuant to paragraph (a)(1)(ii) above, and the rights and obligations of the parties hereto shall in such event be governed accordingly.

(2) Upon receipt of notice of termination, in accordance with paragraph (1) above, the contractor shall, to the extent directed in writing by the ERDA, discontinue the terminated work and the placing of orders for materials, facilities, supplies, and services in connection therewith, and shall proceed, if, and to the extent required by the ERDA, to cancel promptly, and settle with the approval of the ERDA, existing orders, subcontracts, and commitments insofar as such orders, subcontracts, and commitments pertain to this contract.

(b) Upon the termination of this contract, full and complete settlement of all claims of the contractor and of the ERDA arising out of this contract shall be made as follows:

(1) The Government shall have the right in its discretion to assume sole responsibility for any or all obligations, commitments, and claims that the contractor may have undertaken or incurred, the cost of which are allowable in accordance with the provisions of this contract; and the contractor shall, as a condition of receiving the payments mentioned in this article, execute and deliver all such papers and take all such steps as the ERDA may require for the purpose of fully vesting in the Government any rights and benefits the contractor may have under or in connection with such obligations, commitments, or claims.

(2) The Government shall treat as allowable costs all expenditures made in accordance with and allowable under the article entitled "Allowable Costs and Fixed Fee," not previously so allowed or otherwise credited for work performed prior to the effective date of termination, together with expenditures as may be incurred for a reasonable time thereafter with the approval of, or as directed by, the Contracting Officer.

(3) The Government shall treat as allowable costs, to the extent not included in (b)(2) above, the costs of settling and paying claims arising out of the termination of work under orders, subcontracts, and commitments as provided in paragraph (a)(2) above.

(4) The Government shall treat as allowable costs the reasonable costs of settlement, including accounting, legal, clerical, and other expenses reasonably necessary for the preparation of settlement claims and supporting data with respect to the termination of the contract and for the termination and settlement of orders and subcontracts thereunder, together with such further expenditures made by the contractor after the date of termination for the protection or disposition of Government property as are approved or required by the ERDA: *Provided, however,* That if the termination is for default of the contractor, there shall not be included any amount for preparation of the contractor's settlement proposal.

(5) If performance of work under this contract is terminated in whole by the Government, the fixed fee of the contractor shall be prorated to and including the effective date of such termination. In addition, if the termination is for the convenience of the Government, the contractor shall be paid a fixed fee in an amount to be agreed upon as compensation for its services in closing out the work under this contract after the effective date of such termination.

The additional fixed fee is to be negotiated as soon as practicable after service of notice of termination, shall take into account the estimate of the cost of the services and managerial effort to be rendered under this article after the effective date of termination, and shall be provided for in a supplement or amendment to this contract prior to final settlement hereunder. Pending agreement as to the amount of such fee, the contractor shall diligently proceed with the performance of the services required under this article. No additional fee will be paid if the contract is terminated due to the default of the contractor. In the event of a partial termination by the Government, an equitable adjustment shall be made in the fixed fee if such termination results in a material decrease in the level of the contractor's management effort. Any failure to agree on the right to or the amount of any adjustment shall be deemed a dispute within the purview of the article hereof entitled "Disputes."

(b) The obligation of the Government to make any of the payments required by this article or any other provisions of this contract shall be subject to any unsettled claims in connection with this contract which the Government may have against the contractor.

(c) Prior to final settlement, the contractor shall furnish a release as required in the article entitled "Payments and Advances" hereof and such accounting for Government-owned property as may be required by the ERDA: *Provided, However*, That unless the ERDA requires an inventory, the maintenance and disposition of records of Government-owned property in accordance with the article entitled "Accounts, Records and Inspection" hereof shall be accepted by the ERDA as full compliance with all requirements of this contract pertaining to an accounting for such property.

TABLE OF CONTENTS

PART 9-9—PATENTS AND COPYRIGHTS

Subpart 9-9.50—Patents, Inventions, Technical Data

Sec.

9-9.5000 Patents, inventions, technical data and copyrights.
9-9.5001 Purpose and scope of subpart.
9-9.5002 Rights in inventions, technical data, and copyrights under contracts.
9-9.5003 Type A patent provisions.
9-9.5004 Type B patent provisions.
9-9.5005 Type C patent provisions.
9-9.5005-1 Administrative allocation of patent rights.
9-9.5006 Right to file United States and foreign patent applications.
9-9.5007 [Reserved]
9-9.5008 Background patent rights and background technical data.
9-9.5008-1 Introduction and definitions.
9-9.5008-2 Contracts in which "background patents" provisions are deemed appropriate.
9-9.5008-3 The need for the "background patents" rights.
9-9.5008-4 The scope of the "background patents" rights.
9-9.5008-5 The consideration for "background patents" rights.
9-9.5008-6 Types of suggested background patents provisions.
9-9.5008-7 Background technical data.
9-9.5009 Patent indemnification of Government by contractor.
9-9.5010 Contractor held harmless by Government.
9-9.5011 Reporting of royalties.
9-9.5012 Classified contracts.
9-9.5013 Foreign patent rights.
9-9.5014 Procedure in administration of patent provisions.
9-9.5015 Acquisition of patent rights.
9-9.5016 Claims for patent infringement.
9-9.5017 Claims under the Atomic Energy Acts of 1946 and 1954.
9-9.5018 Definitions.
9-9.5019 Rights in inventions and technical data in ERDA-supported contractor independent research and development projects.

Subpart 9-9.51—Copyrights

9-9.5100 Copyrights.
9-9.5101 Purpose and scope of subpart.
9-9.5102 ERDA use of copyrighted material.
9-9.5103 Rights in copyrightable material under contracts.
9-9.5104 Copyright indemnification of Government.
9-9.5105 Government authorization and consent.
9-9.5106 Copyrights in motion pictures.

PART 9–9—PATENTS AND COPYRIGHTS

Subpart 9–9.50—Patents, Inventions, Technical Data

§9–9.5000 Patents, inventions, technical data, and copyrights.

§9–9.5001 Purpose and scope of subpart.

(a) This subpart sets forth the policies and practices of the ERDA in connection with patents and related matters based on the Atomic Energy Act of 1954, as amended, and the Presidential Statement on Government patent policy of October 10, 1963, and prescribes contract articles for the purpose of protecting the Government's interest by securing to the Government (1) patent rights in research and development contracts, operating and service contracts, architect-engineer contracts, special contracts and subcontracts and purchase orders thereunder, and (2) protection against patent risks in architect-engineer, construction, and supply contracts and purchase orders.

(b) The provisions of this subpart shall be followed in authorizing (1) the use of patent provisions in cost-type contractor procurement, and (2) deviations from the flow-down requirements of patent provisions in ERDA and cost-type contractor contracts. The provisions of §§9–9.5008–7 and 9–9.5011 also shall be applied to cost-type contractor procurement. The determinations of need for background patent rights under §9–9.5008–3 and the use of the hold-harmless article in §9–9.5010 shall be made by Managers of Field Offices. The allocation of greater patent rights under §9–9.5005–1 shall be made by the Assistant General Counsel for Patents.

§9–9.5002 Rights in inventions, technical data, and copyrights under contracts.

(a) The current practice of the ERDA as to provisions relating to inventions or discoveries, technical data and copyrights to be inserted in contracts, subcontracts, purchase orders, and other arrangements entered into with or for the benefit of the ERDA is determined primarily by:

(1) The character of the work to be performed under the contract; such as research or development; routine development; construction; supply; quantity production; and

(2) The industrial and patent position of the contractor in the field of work of the contract.

Where provisions relating to inventions are appropriate, a provision concerning waiver of claims for pecuniary awards or just compensation under the Atomic Energy Act of 1954, as amended, shall be included. A similar provision shall be included in employee agreements. No provision pertaining to inventions need be used where ordinary commercial materials or equipment are to be furnished "off the shelf" or in ordinary construction contracts not involving special buildings or equipment. In such instances, however, an indemnity provision as set forth in §9–9.5009 in favor of the Government shall be obtained.

(b) Any question as to modification, interpretation, or application of the appropriate patent, inventions, technical data and copyright provisions shall be referred to the local ERDA counsel for action in collaboration with the local Patent Group, or where no local Patent Group exists, with the Assistant General Counsel for Patents.

9–9.5003

§9–9.5003 Type A patent provisions.

The following patent article shall be used where the principal purpose of the contract is:

(a) To conduct research or development work in the field of atomic energy at ERDA expense; or

(b) For the operation of a Government-owned atomic energy research or production facility; or

(c) To conduct research or development for ERDA where a major part of the equipment employed in the research and development is furnished at Government expense.

TYPE A PATENT PROVISIONS

(a) Whenever any invention or discovery is made or conceived by the contractor or its employees in the course of or under this contract, the contractor shall promptly furnish the ERDA with complete information thereon, and the ERDA shall have the sole power to determine whether or not and where a patent application shall be filed, and to determine the disposition of the title to and rights in and to any invention or discovery and any patent application or patent that may result. The judgment of the ERDA on these matters shall be accepted as final, and the Contractor, for itself and for its employees, agrees that the inventor or inventors will execute all documents and do all things necessary or proper to carry out the judgment of the ERDA.

(b) No claim for pecuniary award or compensation under the provisions of the Atomic Energy Act of 1954, as amended, shall be asserted by the contractor or its employees with respect to any invention or discovery made or conceived in the course of or under this contract.

(c) Except as otherwise authorized in writing by the ERDA, the contractor will obtain patent agreements to effectuate the purposes of paragraphs (a) and (b) of this article from all person's who perform any part of the work under this contract, except such clerical and manual labor personnel as will not have access to technical data.

(d) Except as otherwise authorized in writing by the ERDA, the contractor will insert in all subcontracts provisions making this article applicable to the subcontractor and its employees.[1]

(e) It is recognized that during the course of the work under this contract, the contractor or its employees may from time to time desire to publish, within the limits of security requirements, information regarding scientific or technical developments made or conceived in the course of or under this contract. In order that public disclosure of such information will not adversely affect the patent interests of the ERDA or the contractor, patent approval for release and publication shall be secured from the ERDA prior to any such release or publication.[1]

(f) With respect to any U.S. Patent Application filed by the Contractor on any contract invention or discovery made or conceived in the course of the contract, the Contractor will incorporate in the first paragraph of the U.S. Patent Application the following statement:

"The invention described herein was made in the course of, or under, a contract (if desired, may substitute contract with identifying number) with the Energy Research and Development Administration."

§9–9.5004 Type B patent provisions.

The following patent article shall be used where the criteria set forth in §9–9.5003 are inapplicable and where:

(a) A principal purpose of the contract is to create, develop or improve products, processes, or methods which are intended for commercial use (or which are otherwise intended to be made available for use) by the general public at home or abroad, or which will be required for such use by governmental regulations; or

(b) A principal purpose of the contract is for exploration into fields which directly concern the public health or public welfare; or

(c) The contract is in a field of science or technology in which there has been little significant experience outside of work funded by the Government, or where the Government has been the principal developer of the field, and the acquisition of exclusive rights at the time of contracting might confer on the contractor a preferred or dominant position; or

(d) The services of the contractor are:

(1) For the operation of a Government-owned, nonatomic energy research or production facility; or

(2) For coordinating and directing the work of others.

TYPE B PATENT PROVISIONS

(a) Whenever any invention or discovery is made or conceived by the contractor or its employees in the course of or under this contract, the contractor shall promptly furnish the ERDA with complete information thereon; and the ERDA shall have the sole power to determine whether or not and where a patent application shall be filed, and to determine the disposition of the title to and the rights in and to any invention or discovery and any patent application or patent that may result: *Provided, however,* That the contractor, in any event, shall retain at least a non-exclusive, irrevocable, royalty-free license under said invention, discovery, patent application, or patent. Subject to the license retained by the contractor, as provided in this paragraph, the judgment of the ERDA on these matters shall be accepted as final; and the contractor, for itself and for its employees, agrees that the inventor or inventors will execute all documents and do all things necessary or proper to carry out the judgment of the ERDA.

(b) No claim for pecuniary award or compensation under the provisions of the Atomic Energy Act of 1954, as amended, shall be asserted by the contractor or its employees with respect to any invention or discovery made or conceived in the course of or under this contract.

(c) Except as otherwise authorized in writing by the ERDA, the contractor will obtain patent agreements to effectuate the purposes of paragraphs (a) and (b) of this article from all persons who perform any part of the work under this contract, except such clerical and manual labor personnel as will not have access to technical data.

(d) Except as otherwise authorized in writing by the ERDA, the contractor will insert in all subcontracts provisions making this article applicable to the subcontractor and its employees.

(e) It is recognized that during the course of the work under this contract, the contractor or its employees may from time to time desire to publish within the limits of security requirements, information regarding scientific or technical developments made or conceived in the course of or under this contract. In order that public disclosure of such information will not adversely affect the patent interests of the ERDA or the contractor, patent approval for release and publication shall be secured from the ERDA prior to any such release or publication.

(f) With respect to any U.S. Patent Application filed by the Contractor on any contract invention or discovery made or conceived in the course of the contract, the Contractor will incorporate in the first paragraph of the U.S. Patent Application the following statement:

"The invention described herein was made in the course of, or under, a contract (if desired, may substitute contract with identifying number) with the Energy Research and Development Administration."

§9–9.5005 Type C patent provisions.

The following patent article shall be used where the criteria set forth in §§9–9.5003 and 9–9.5004 are inapplicable and where:

(a) The principal purpose of the contract is to build upon existing knowledge or technology to develop information, products, processes, or methods for use by the Government, and the work called for by the contract is (1) in a field of technology other than atomic energy in which the contractor has acquired technical competence (demonstrated by factors such as know-how, experience, and patent position), and (2) directly related to a area in which the contractor has an established nongovernmental commercial position; or

(b) The work to be performed or the material or equipment to be furnished by the contractor is of such character that any inventions or discoveries that may be made will probably: (1) Relate only incidentally (and not directly) to some phase of atomic energy, (2) relate to a field of work in which the contractor has an established industrial and patent position, and (3) result from routine development or production work by the contractor.

TYPE C PATENT PROVISIONS

(a) Whenever any invention or discovery is made or conceived by the contractor or its employees in the course of or under this contract, the contractor shall promptly furnish the ERDA with complete information thereon; and the ERDA shall have the sole power to determine whether or not and where a patent application shall be filed, and to determine the disposition of the title to and rights in and to any invention or discovery and any patent application or patent that may result; provided, however, that the contractor in any event shall retain at least a sole (except as against the Government or its account), irrevocable, royalty-free license with the sole right to grant sublicenses, under said invention, discovery, patent application or patent, such license and sublicensing rights being limited to the manufacture, use and sale for purposes other than use in the production or utilization of special nuclear material or atomic energy. Subject to the license retained by the contractor, as provided in this paragraph, the judgment of the ERDA on these matters shall be accepted as final, and the contractor, for itself and for its employees, agrees that the inventor or inventors will execute all documents and do all things necessary or proper to carry out the judgment of the ERDA.

(b) No claim for pecuniary award or compensation under the provisions of the Atomic Energy Act of 1954, as amended, shall be asserted by the contractor or its employees, with respect to any invention or discovery made or conceived in the course of or under this contract.

[1]For publication and indemnity clauses for use in research and development contracts with educational institutions, see §9–16.5002–8, Articles B-III and B-VIII, for special research support agreements; and see §9–16.5002–9, Articles B–6 and B–7, for cost-type contracts.

(c) Except as otherwise authorized in writing by the ERDA, the contractor will obtain patent agreements to effectuate the purposes of paragraphs (a) and (b) of this article from all persons who perform any part of the work under this contract, except such clerical and manual labor personnel as will not have access to technical data.

(d) Except as otherwise authorized in writing by the ERDA, the contractor will insert in all subcontracts provisions making this article applicable to the subcontractor and its employees.

(e) It is recognized that during the course of the work under this contract, the contractor or its employees may from time to time desire to publish, within the limits of security requirements, information regarding scientific or technical developments made or conceived in the course of or under this contract. In order that public disclosure of such information will not adversely affect the patent interests of the ERDA or the contractor, patent approval for release and publication shall be secured from the ERDA prior to any such release or publication.

(f) With respect to each invention or discovery in which the contractor is granted the principal or any exclusive rights under clause (a), the contractor agrees to provide written reports at reasonable intervals when requested by ERDA as to:

(1) The commercial use that is being made or is intended to be made of such invention or discovery; and

(2) The steps taken by the contractor to bring the invention to a point of practical application or to make the invention or discovery available for licensing.

(g) With respect to each invention or discovery in which the contractor is granted the principal or any exclusive rights under clause (a), the contractor agrees to and does hereby grant the ERDA:

(1) The right to require the granting of nonexclusive, royalty-free licenses to applicants on any such invention or discovery unless the contractor, its transferees, or assignees demonstrate to the ERDA, on request, that the contractor, its transferees, or assignees have taken effective steps within three (3) years after a patent issues on such invention or discovery to bring the invention or discovery to a point of practical application, or have granted licenses thereon free or on reasonable terms, or can show cause why he, his transferees, or assignees should retain the principal or exclusive rights for a further period of time, and

(2) The right to grant licenses royalty-free or on reasonable terms to the extent that the invention or discovery is required for public use by governmental regulation, or as may be necessary to fulfill health needs, or for other public purposes stipulated in this contract.

(h) With respect to any U.S. Patent Application filed by the Contractor on any contract invention or discovery made or conceived in the course of the contract, the Contractor will incorporate in the first paragraph of the U.S. Patent Application the following statement:

"The invention described herein was made in the course of, or under, a contract (if desired, may substitute contract with identifying number) with the Energy Research and Development Administration."

§9-9.5005-1 Administrative allocation of patent rights.

(a) The ERDA may administratively accord a contractor or inventor rights under §9-9.5003 and greater rights than the minimum rights specified in §9-9.5004 or §9-9.5005 in an invention or discovery made or conceived in the course of or under a contract after the invention or discovery has been identified and reported, provided (1) the ERDA determines that the allocation of greater rights is consistent with the criteria set forth in said sections or (2) the accord of greater rights is a necessary incentive to call forth private risk capital and expense to bring the invention to the point of practical application or where the equities warrant such action.

(b) The according of greater rights shall be subject to:

(1) The contractor or inventor agreeing to furnish ERDA with a written report, upon request, setting forth (i) the commercial use that is being made or is intended to be made of said invention or discovery, and (ii) the steps taken to bring the invention or discovery to a point of practical application, or to make the invention or discovery available for licensing (irrespective of any report under §9-9.5005(f)).

(2) The contractor or inventor agreeing that unless effective steps have been taken to bring the invention to a point of practical application within three (3) years after the issuance of a U.S. patent therefor or unless the contractor has granted licenses on reasonable terms within three (3) years after the issuance of a U.S. patent therefor, the ERDA may grant licenses royalty-free to applicants on the patents issued thereon unless the contractor, the inventor, or a transferee or assignee, if any, can show cause why the said greater rights should be continued for a further period.

(3) The retention by the Government of the right to grant licenses royalty-free or on reasonable terms to the extent that the invention or discovery is required for public use by governmental regulation, or as may be necessary to fulfill health needs, or for other public purposes stipulated in the contract.

(4) The retention by the Government in all cases of at least an irrevocable, nonexclusive, royalty-free license throughout the world for governmental purposes.

§9-9.5006 Right to file U.S. and foreign patent applications.

(a) In instances where a contractor desires assurance as to the right to file U.S. patent applications, the following provision (as well as such formal changes in the provisions following the inserted provisions as may be necessary) may be inserted after the word "result" in paragraph (a) of Patent Article under §§9-9.5003, 9-9.5004, and 9-9.5005:

Provided, however, That if the ERDA determines not to file, the contractor may file any U.S. patent application subject to ERDA security requirements and regulations.

(b) If the contract work is to be performed at contractor's own facilities (not Government or ERDA owned or Government or ERDA contractor operated facilities, or not at contractor's facilities where a major part of the equipment employed in the research and development is Government or ERDA furnished) and the contractor, when reporting an invention desires to undertake U.S. and foreign filings so as to acquire irrevocable, nonexclusive license for all purposes in any U.S. patent resulting therefrom and the title and rights in any resulting foreign patents, subject to the terms and conditions hereinafter provided, the following provisions may be inserted after the word "result" in paragraph (a) of Patent Article under §§9-9.5003, 9-9.5004, and 9-9.5005:

Provided, however, That if the contractor, when furnishing the complete information as to any invention or discovery advises the ERDA that the contractor will file at its own expense, subject to security requirements and regulations, a U.S. patent application within six (6) months of reporting, and designated foreign patent applications on such invention or discovery, subject to security requirements and regulations, the contractor shall retain:

(1) A nonexclusive, irrevocable, paid-up license for all purposes in any such U.S. patent application filed by the contractor and any U.S. patent issued thereon, and

(2) The title and rights in any such foreign patent applications or foreign patents secured by the contractor, subject to:

(i) A nonexclusive, irrevocable, paid-up license to the U.S. Government for U.S. governmental purposes and with the right of the U.S. Government to grant licenses to foreign governments for purposes of governmental use by such foreign governments pursuant to a treaty or agreement with the U.S. Government or an agency thereof.

(ii) Granting, upon request, nonexclusive royalty-free licenses to U.S. citizens, and to U.S. corporations when 75 percent or more of the voting interest is owned by U.S. citizens, for use in the production or utilization of special nuclear material or atomic energy, and agreeing to grant to foreign users and purchasers of the product of such a U.S. licensee a license, to use or sell such product to an assignee of the business or plant or as surplus, at a reasonable, nondiscriminatory royalty ordinarily to be at no greater royalty than contractor has charged its other foreign licensees.

(iii) The right of the contractor to grant such other licenses in accordance with applicable statutes and regulations.

(*a*) *Provided,* That if the contractor grants any licenses other than as provided in (ii) above, the same shall be for reasonable royalties or compensation, and

(*b*) *Provided, further,* That if, after 3 years of the issuance of a particular foreign patent, contractor, its assignee or its licensees cannot demonstrate, upon ERDA request, the practical application of the subject matter covered by such foreign patent, the contractor or its assignee shall, at the ERDA's request, grant licenses on any such foreign patent to others at reasonable royalties.

(3) If the contractor does not desire to prosecute the U.S. patent application or any foreign application or maintain any foreign patent, the contractor, prior to abandonment, shall afford the ERDA an opportunity to take over prosecution of any such patent application or maintain any patent.

§9-9.5007 [Reserved]

§9-9.5008 Background patent rights and background technical data.

§9-9.5008-1 Introduction and definitions.

(a) The Foreground Invention Rights Provisions of ERDA contracts, subcontracts, and other arrangements entered into with or for the benefit of the ERDA (hereafter "contracts") are not intended to give ERDA any rights to practice inventions covered by "background patents" of the contractor or subcontractor (hereafter "contractor").

(b) For the purpose of this subpart "background patents" means:

(1) Inventions or discoveries actually reduced to practice before the effective date of the contract, which the contractor owns or may license without incurring liability to others other than to pay royalties.

(2) Inventions or discoveries actually reduced to practice or acquired during the contract period but not in the course of or under the contract, which the contractor owns or may license without incurring liability to others other than to pay royalties.

(3) Inventions or discoveries on which substantial work has been performed prior to the effective date of the contract although not actually reduced to practice, provided any such invention or discovery is, at the time of execution of the contract, the subject of a patent application filed by or a patent issued to the contractor and is specifically identified as a background patent by agreement of the parties of the contract. As used in this paragraph, the performance of "substantial work" does not necessarily require that, in cases where a working model would ordinarily be constructed, such a working model of the invention be constructed prior to the effective date of the contract. To the extent that the ERDA may have rights in and to any such inventions or discovery under section 152 of the Atomic Energy Act of 1954, as amended, the inclusion of the background patent provision will constitute a waiver of such rights.

§9-9.5008-2 Contracts in which "background patents" provisions are deemed appropriate.

The contracting officer must inquire of and secure complete information from the prospective contractor as to background patent applications and patents in order that a determination regarding need for a "background patents" provision be made in accordance with §9-9.5008-3.

(a) A "background patents" provision should be incorporated in an ERDA contract when there is a need therefor in accordance with the policy stated in §9-9.5008-3.

(b) The inclusion of a "background patents" provision is deemed appropriate in any contract, regardless of the type or tier, if it involves research, development, or experimental work or the design, construction or operation of an ERDA facility where there is a need therefor in accordance with the policy stated in §9-9.5008-3.

(c) "Background patents" provisions should not be included in (1) purchase orders or supply contracts for items customarily offered for sale including items involving noninventive modifications, or (2) personal service contracts for performance of standard or ordinary, nontechnical services, or (3) contracts that do not involve research, development, or experimental work or operation of an ERDA facility. (See §9-9.5009 for inclusion of indemnity provisions.)

§9-9.5008-3 The need for the "background patents" rights.

(a) It is the policy of ERDA to include a "background patents" provision in any contract of the type described in §9-9.5008-2(b) where:

(1) ERDA pays for any research and development or experimental work aimed toward the practical or specific application of a "background patented" process or article, or directed to any program of improvement of a "background patented" process or article where such research or development would significantly enhance the value of the "background patent" and it is determined that the contemplated utilization by the Government of the results of the sponsored research and development will involve the use or infringement of the "background patents," or

(2) The contractor is designing, constructing or operating an ERDA facility and background patents of the contractor will probably be incorporated in, or used in the operation of that facility; or

(3) The technology is to be communicated abroad in support of specific nuclear projects and it is desired to assure those receiving the technology of their right to its use; or

(4) An ERDA program requires the acquisition of "background patent" rights for private parties in the United States in order to further the development and use of atomic energy.

(b) The foregoing enumeration of circumstances deemed appropriate for incorporation of a "background patents" provision shall not be deemed all inclusive, since there may be other special circumstances where there is a need for the acquisition of such rights.

(c) Determination of need will be made by the contracting officer. Upon written request of the contractor, made within ten (10) days after the contracting officer's determination, the contracting officer's determination will be reviewed by the Administrator or his designee, who may approve or modify the determination of the contracting officer.

§9-9.5008-4 The scope of the "background patents" rights.

(a) When "background patent" rights are to be acquired under the preceding paragraphs, the particular scope is a matter of negotiation in each case, but shall not be broader than the foreseeable need indicated by the facts in the particular case.

(b) Ordinarily the license should be at least an irrevocable, nonexclusive license to the U.S. Government and others acting in its behalf for U.S. governmental purposes with the right of the U.S. Government to grant licenses to foreign governments generally or for use by such foreign governments pursuant to a treaty or agreement with the U.S. Government.

(c) Where "background patents" rights are acquired for third parties in accordance with §9-9.5008-3(a)(4), it will ordinarily be sufficient for the contractor to agree to grant specific licenses to such persons as may subsequently be designated by the ERDA at reasonable royalties or other reasonable compensation. Other terms and conditions delineating the scope may be specified by the Administrator or his designee, in specific cases.

§9-9.5008-5 The consideration for "background patents" rights.

(a) The acquisition of license rights to "background patents," whether the contract be fixed price, cost, cost plus, or other consideration, is a matter to be negotiated. Considerations such as the following should be evaluated in determining to what extent, if any, additional consideration should be paid for "background patents" rights. In many situations an evaluation of the following factors will lead to the conclusion that the contract price should not be increased to reflect the acquisition of "background patents" rights:

(1) The value of such "background patents";

(2) The extent of the contractor's prior independent work and expenditures and the amount of the Government's expenditures under the contract;

(3) The increase in value of the "background patents" to the contractor by reason of the contract work;

(4) The nature and scope of the license to be acquired and the extent of anticipated use;

(5) Whether under the foreground patent provision the contractor is accorded the exclusive rights for purposes other than use in the production or utilization of special nuclear materials or atomic energy;

(6) The measure of the contractor's legal right to collect reasonable and entire compensation if a license is not secured; and

(7) The obligation of the contractor to pay royalties to others with respect to the "background patents."

(b) Any agreement for the payment of additional compensation for background patent rights will be made only upon the approval of the Administrator or his designee.

§9-9.5008-6 Types of suggested background patents provisions.

Where it is determined that a background rights provision is necessary, the particular wording of a provision granting a license and rights to the Government may be a matter of negotiation. However, the following paragraphs are suggested for addition to the appropriate invention rights provisions as set forth in §§9-9.5003 through 9-9.5005:

(a) With respect to (1) research, development or experimental contracts involving process or product development; (2) design, construction, production or manufacturing contracts where research and development of process, equipment, materials, or other items of the contractor are involved; and (3) other research, development and experimental contracts, the following paragraph is suggested for addition:

In addition to the rights of the parties under the foregoing paragraphs in and to inventions or discoveries made or conceived in the course of or under this contract, the contractor agrees, and does hereby grant to the Government an irrevocable, nonexclusive, paid-up license in and to any inventions or discoveries actually reduced to practice before the effective date of the contract owned or controlled by the contractor and in and to any inventions or discoveries actually reduced to practice or acquired during the contract period but not subject to the foregoing foreground invention rights provision, which shall be utilized or embodied in the work under this contract: (If the contract is for research, development or experimental work on design, the phrase should read—"which are incorporated in the conceptual design or prototype furnished under this contract"—) (1) To make, use and to have made and used throughout the world for U.S. Government purposes, and (2) to sell and have sold such articles, material or product embodying said invention or discovery as surplus or condemned public property as provided by law. The acceptance or exercise by the Government of the aforesaid rights and license shall not prevent the Government at any time from contesting the enforceability, validity or scope of, or the title to, any rights or patents herein licensed.

(b) In facility operation contracts, the following paragraph is suggested for addition:

In addition to the rights of the parties under the foregoing paragraphs in and to inventions or discoveries made or conceived in the course of or under this contract, the contractor agrees to and does hereby grant to the Government an irrevocable, nonexclusive, paid-up license in and to any inventions or discoveries actually reduced to practice before the effective date of this contract owned or controlled by the Contractor and in and to any inventions or discoveries actually reduced to practice or acquired during the contract period but not subject to the foregoing foreground invention rights provision, which shall be incorporated in the construction of or involved in the utilization of the facility by the contractor (1) to practice or to have practiced for the Government at the facility, (2) to practice and to have practiced in similar U.S. Government facilities, and (3) to sell or dispose of such facility or facilities, or any portion thereof, as provided by law. The acceptance or exercise by the Government of the aforesaid rights and license shall not prevent the Government at any time from contesting the enforceability, validity or scope of, or the title to, any rights or patents herein licensed.

(c) In contracts for design, construction or operation of nuclear reactor power facilities involving research, development or experimental work, the following paragraph is suggested for addition:

In addition to the rights of the parties under the foregoing paragraphs in and to inventions or discoveries made or conceived in the course of or under this contract, the contractor agrees to and does hereby grant to the Government an irrevocable, nonexclusive paid-up license in and to any inventions or discoveries actually reduce to practice before the effective date of the contract owned or controlled by the contractor and in and to any inventions or discoveries actually reduced to practice or acquired during the contract period but not subject to the foregoing foreground invention rights provision, which are incorporated or embodied during the term of this contract in the nuclear power plant: (If the contract is for research, development or experimental work on design of a reactor, the phrase should read—"which are incorporated in conceptual designs or prototypes furnished under this contract"—) (1) To make, use and to have made and used, throughout the world for U.S. governmental purposes in the manufacture and use of U.S. Government-owned or Government-operated reactor facilities, (2) to transfer such license with transfer of such Government-owned or Government-operated reactor facility, and (3) to sell and have sold such article, material or product, embodying such inventions or discoveries, as surplus or condemned public property as provided by law. The acceptance or exercise by the Government of the aforesaid rights and license shall not prevent the Government at any time from contesting the enforceability, validity or scope of, or title to, any rights or patents herein licensed.

(d) Where specific Headquarters instructions are issued as to the necessity for third party licenses, the following is a suggested addition to the governmental license clause:

With respect to those inventions or discoveries licensed herein, the contractor agrees to grant nonexclusive licenses for use in connection with reactor facilities (or equipment—if only equipment

is involved) of a type similar to that provided for under this contract at reasonable terms to responsible private parties upon the request of the ERDA. The ERDA shall make such request only when such inventions or discoveries are considered by the ERDA to be necessary. In the event that the contractor and prospective licensees cannot agree upon a reasonable royalty, the contractor agrees that the royalties may be fixed pursuant to the procedure set forth in section 157(c) of the Atomic Energy Act of 1954, as amended.

(e) Where the nuclear reactor facility or equipment incorporated standard commercial components or parts readily available in the open market from other sources, there may be added to the proposed contract clause, before the last sentence thereof, the following suggested provision:

Provided, however, That no license is granted herein as respects nonnuclear commercial items, components or materials incorporated, to the extent that such nonnuclear items, components, or materials are available in the open market from other commercial sources.

§9-9.5008-7 Background technical data.

The foregoing "Background Patents" rights provisions are limited to define patents and inventions and do not cover "background secret processes, technical information, and know-how." While Technical Data generally is covered by §9-7.5006-13, the same does not specifically give the Government rights in earlier identified secret processes, technical data or know-how, and it is recognized that there may be cases where the acquisition of rights in such earlier material is necessary. While the particular wording of a provision granting rights to the Government is a matter of negotiation, the following paragraph is suggested for addition to the Drawings, Designs and Specification Provisions as set forth in §9-7.5006-13 of this chapter:

In addition to the rights of the parties in technical data set forth above (§9-7.5006-13) the contractor agrees to and does hereby grant to the Government an irrevocable license and right to use any secret process, technical information, or know-how of the contractor, made, developed, or acquired prior to or on the effective date of expiration or completion of this contract, which shall be or is utilized, tested, or embodied in the work under this contract, or which shall be or is specifically incorporated in any scientific or technical report rendered under this contract.

It may be appropriate when it is necessary to acquire the right to use such background "secret processes, technical information and know-how" to include provisions limiting the right of the Government to disseminate and publish the same. In such event, a proviso along the following lines may be appropriate:

Provided, however, That to the extent that any such background "secret processes, technical information or know-how" when furnished or delivered is specifically identified by the contractor at the time of delivery to the ERDA, the same shall not be used by the Government except in the performance of other contracts or subcontracts with or for the benefit of the Government, unless such material and information is generally available to the public or has been made available to the Government from other sources or previously by the contractor without limitation as to use.

§9-9.5009 Patent indemnification of Government by contractor.

(a) Under the Act of June 25, 1948 (28 U.S.C. 1498), any suit for infringement of patent by a contractor or a lower tier subcontractor in performance of a Government contract must be brought against the Government in the Court of Claims and not against the contractor where the subject matter was for the use or manufacture by or for the Government of the United States. The Atomic Energy Acts of 1946 and 1954 substitute a cause of action before the ERDA Patent Compensation Board for certain types of claims, discussed in §9-9.5017. Therefore, provision is made in §§9-9.5003 through 9-9.5005 for waivers of such claims as to inventions and discoveries made or conceived in the course of work under the contract. A large part of the activities of ERDA are still subject to suit under the Act of June 25, 1948 (28 U.S.C. 1498), and in order that the Government may be protected from liability for any such patent infringement where ordinary commercial materials or equipment are to be furnished "off the shelf" or furnished with only minor modifications not generally involving the making of any inventions or discoveries pursuant to a construction or supply contract or a purchase order, the same should contain appropriate indemnification provisions in favor of the Government.

(b) The Patent Indemnity Article (Clause 15 of GSA Standard Form 23A, revised), which follows, may be employed in the purchase of supplies for construction work where Form ERDA-103, "Order," is used and in lump-sum or cost-type construction contracts:

PATENT INDEMNITY

Except as otherwise provided, the contractor agrees to indemnify the Government and its officers, agents and employees against liability, including costs and expenses, for infringement upon any Letters Patent of the United States (except Letters Patent issued upon an application which is now or may hereafter be, for reasons of national security, ordered by the Government to be kept secret or otherwise withheld from issue) arising out of the performance of this contract or out of the use or disposal by or for the account of the Government of supplies furnished or construction work performed hereunder.

(c) In other instances where an indemnity provision is deemed appropriate, the following article should be employed:

PATENT INDEMNITY

The contractor agrees to indemnify the Government, its officers, agents, servants, and employees against liability of any kind (including costs and expenses incurred) for the use of any invention or discovery and for the infringement of any Letters Patent (not including liability, arising pursuant to sec. 183, Title 35 (1952), U.S.C., prior to the issuance of Letters Patent) occurring in the performance of this contract or arising by reason of the use or disposal by or for the account of the Government of items manufactured or supplied under this contract.

(d) The term "seller" or "vendor" should be substituted for the term "contractor" in purchase orders and the term "buyer and" may be added before the term "Government" wherever it appears, in the event a contractor-buyer issues a subcontract or purchase order and desires to obtain from the seller the same protection as the Government obtains.

(e) Certain construction or supply contracts may call for items or parts thereof which are standard commercial supplies and also for items which require modifications in the course of the performance of the work. In such event the patent indemnity articles set forth above may be appropriately modified. To cover such circumstances, the following modification should be added at the end of the patent indemnity article:

except, however, infringement necessarily resulting from the contractor's compliance with written specifications or provisions for other than standard parts or components manufactured or supplied by the contractor or resulting from specific written instructions given by the ERDA for the purpose of directing a manner of performance of the contract not normally utilized by the contractor.

(f) In some instances certain specific items should be excluded from the indemnification, and where such items or parts can be identified as nonstandard commercial components or parts the following provision may be added at the end of the patent indemnity article:

except that this indemnity shall not apply to the following items or parts (specifically identifying and listing the items or parts to be excluded):

§9-9.5010 Contractor held harmless by Government.

(a) As indicated in connection with the patent indemnity provisions, under the Act of June 25, 1948 (28 U.S.C. 1498) any action for patent infringement by a contractor or subcontractor in the performance of work by or for the Government is subject to suit against the Government in the Court of Claims, except in the special circumstances provided for in the Atomic Energy Acts of 1946 and 1954. While the contractor is protected from injunctive action in the performance of a Government contract, there may be special circumstances, particularly in the case of research or development work, where the contractor has not made any investigation as to the possibility of infringement in the performance of the contract and the contract price does not include any provision for the settlement of possible patent claims. In such circumstances, the following "hold harmless" article in favor of the contractor may be used in the event that the contractor specifically requests it and the facts as to the particular research or development work are as stated in the article:

It is agreed that the Government shall hold the contractor harmless from liability of any kind arising from infringement of patent rights in the course of the work performed by the contractor

under this contract, in view of the following facts: (a) The contractor has not made an investigation as to the possibility of patent infringement, (b) the Government and the contractor desire to avoid the delay incident to a patent investigation, and (c) the contractor has not included in its price or fee any provision for the settlement of possible patent claims. The Contractor shall give prompt notice in writing to the ERDA of any action filed of claim against the contractor for infringement of patent rights in the course of the work performed by the contractor under this contract. Except as otherwise directed by the ERDA in writing, the contractor shall furnish promptly to the ERDA copies of all pertinent papers received by the contractor with respect to any such action or claim. If required by the ERDA, the contractor (at the Government's expense, by proper arrangement) shall assist the Government in the settlement or defense of such action or claim and shall furnish such evidence in its possession as may be required by the Government in the settlement or defense of such action or claim.

Such provision shall not be employed in a supply contract or purchase order for ordinary commercial materials or equipment.

(b) In research and development contracts if standard commercial parts or components are to be furnished, the standard commercial parts or components are to be excepted from the above article by deleting the period after the word "claims" at the end of the first sentence of the article and inserting the following exception:

excepting, however, any liability arising from the infringement of Letters Patent resulting from the contractor's furnishing or supplying standard parts or components or utilizing its normal practices or methods in the performance of the contract or to any parts, components, practices or methods as to which the contractor has secured indemnification from liability and with respect to which the contractor agrees to indemnify the Government, its officers, agents, servants and employees against liability of any kind for the use of any invention or discovery and for the infringement of any Letters Patent (not including any liability arising from section 183, Title 35 (1952), U.S.C. prior to the issuance of Letters Patent.

§9-9.5011 Reporting of royalties.

The Government has acquired patent rights under a large number of inventions as a result of research and development sponsored by ERDA as well as by other Government agencies and as a result of purchase and other means. In instances where the Government has acquired patent rights, it is not equitable that the Government be charged royalties in connection with ERDA procurement, construction, or operation. In order that ERDA may be informed regarding royalty payments to be made by a contractor or subcontractor in connection with any procurement, construction, or operation where the amount of the royalty payments is reflected in the contract price, or is to be reimbursed by the Government, the negotiator shall (a) obtain from the contractor information concerning the royalty payments expected to be made in connection with the proposed procurement, construction, or operation, together with the names of the licensors and either the patent numbers involved or such other information as will permit identification of the patents and patent applications as well as the basis on which the royalties are to be paid, or (b) obtain from the contractor a certificate that the contract price includes no amount representing the payment of any royalty by the contractor directly to others in connection with the performance of the contract, or (c) insert in the contract the article set forth below:

REPORTING OF ROYALTIES

If this contract involves any royalty payments or if the amount of any royalty payments is reflected in the contract price of the contract to the Government, the contractor agrees to report in writing to the ERDA (Assistant General Counsel for Patents) during the performance of this contract and prior to its completion or final settlement the amount of any royalties or other payments paid or to be paid by it directly to others in connection with the performance of this contract together with the names and addresses of licensors to whom such payments are made and either the patent numbers involved or such other information as will permit identification of the patents or other basis on which the royalties are to be paid. The approval of the ERDA of any individual payments or royalties shall not estop the Government at any time from contesting the enforceability, validity or scope of, or title to, any patent under which a royalty or payments are made.

With respect to any advertised contract which may involve the payment of royalties by the contractor in performance thereof the "Reporting of Royalties" article shall be included in the invitation for bids as one of the general contract provisions. At the option of the contracting officer the following provision may be added to the above article:

If no royalties or other payments are paid directly to others, the contractor agrees so to report to in writing to the ERDA (Assistant General Counsel for Patents) prior to the completion of final settlement of the contract.

§9-9.5012 Classified contracts.

Unauthorized disclosure of classified subject matter in any manner whatsoever may be a violation not only of the Atomic Energy Acts of 1946 and 1954 but also of the Espionage Act (18 U.S.C. 37) as well as of the provisions pertaining to disclosure of information incorporated in the contract. (See Part 9-7 of this chapter.) Furthermore where a patent application is filed and the disclosure thereof and issuance of a patent would be detrimental to the national security a Secrecy Order under the provisions of section 181, title 35, United States Code will be issued by the U.S. Commissioner of Patents. Violation of the provisions of the Secrecy Order subjects the violator to the separate penalties imposed by sections 182, 186, and any rules promulgated pursuant to section 188 of title 35, United States Code.

§9-9.5013 Foreign patent rights.

Under the contract articles set forth in §§9-9.5003 through 9-9.5005, ERDA has the right to determine whether and where a patent application shall be filed. ERDA thereby is in a position subject to §9-9.5006(b) to comply with Executive Order 9865 of June 14, 1947, which requires all Government agencies, wherever practicable, to acquire the right to file foreign patent applications or inventions resulting from research conducted by the Government.

§9-9.5014 Procedure in administration of patent provisions.

(a) With respect to each contract, subcontract, and purchase order under his jurisdiction, each Manager of a Field Office is responsible:

(1) For assuring that contracting officers comply with the provisions of this chapter in executing and approving any contract, subcontract, or purchase order, or any supplement thereto modifying the patent provisions;

(2) For transmitting the information requested on the Patent Information Sheet, Form ERDA-242, to the Assistant General Counsel for Patents;

(3) For reviewing, in consultation with the contractor, subcontractor, or vendor, arrangements for obtaining adequate patent agreements from employees and others performing work under any contract, subcontract, or purchase order containing patent provisions in favor of the Government; (The form of such patent agreement actually in use or proposed for use shall be forwarded for approval to the local Patent Group or, where no local Patent Group exists, to the Assistant General Counsel for Patents.)

(4) For forwarding a notice of completion or termination of the work and a request for patent clearance to the Assistant General Counsel for Patents for each contract, subcontract, and purchase order containing patent provisions giving rise to rights in the Government; and

(5) For withholding reimbursement of the voucher covering final payment pending receipt of the written notice of the patent clearance from the Assistant General Counsel for Patents for each such contract, subcontract, and purchase order.

(b) The Assistant General Counsel for Patents upon receipt of notification on Patent Information Sheet, Form ERDA-242, will notify the person who transmits the information sheet of the Patent Group or Patent Attorney assigned to conduct the patent investigation of the reported contract, subcontract, or purchase order. Upon receipt of the notice of completion or termination as provided in paragraph (a)(4) of this section, a notice of patent clearance will be issued by the Assistant General Counsel for Patents when there has been to his best knowledge and belief compliance with the patent provisions. The patent provisions normally require that a qualified representative of the contractor or vendor furnish to the ERDA:

(1) A list and identification of the notebooks kept during the course of the work;

(2) A certification that such notebooks have been examined and that, to the best of his knowledge, they contain no inventions or discoveries other than those set forth in the certification (inventions and discoveries are to be reported by case number, name of inventor, and short title);

(3) A list and identification of the technical reports rendered during the course of the work;

(4) A certification that such reports have been examined and that, to the best of his knowledge, they contain no inventions or discoveries other than those reported in subparagraph (2) of this paragraph (the certificate should include a statement that any such technical reports not yet transmitted to ERDA will be so transmitted upon request);

(5) A statement that (i) the notebooks kept during the course of the work either have been turned over to ERDA or are held in custody for ERDA use by a designated person, and (ii) such notebooks will be submitted to ERDA, Assistant General Counsel for Patents, for examination upon request. (ERDA may authorize, upon request, continued use of such notebooks in additional research work under other ERDA contracts.)

(c) Ordinarily, inventions and discoveries will be reported on Form ERDA-213, copies of which are available at various Field and Area Offices. Reporting of inventions promptly and in advance of the completion of the work under the respective contracts will aid patent clearance. Submission of interim reports, where contracts cover an extended period, will also facilitate the disposition of patent matters and expedite the issuance of final patent clearance. The total ERDA counsel, in collaboration with the local Patent Group or Patent Attorney in a Field or Area Office will assist negotiators in negotiating patent provisions. The local Patent Group or Patent Attorney will generally submit Patent Information sheets and otherwise assist Managers of Field Offices and Area Managers, contractors, subcontractors and vendors in the reporting of inventions and discoveries, the handling of patent matters and the preparation of certifications to initiate patent clearance.

§9-9.5015 Acquisition of patent rights.

In accordance with general Government practices, ERDA may acquire rights in patents and is authorized, pursuant to section 153 of the Atomic Energy Act of 1954, after a hearing and under specified circumstances, to declare certain patents affected with the public interest.

§9-9.5016 Claims for patent infringement.

Any claims for alleged unauthorized use of inventions or infringement of patents should be promptly reported to the Assistant General Counsel for Patents for processing.

§9-9.5017 Claims under the Atomic Energy Acts of 1946 and 1954.

Under section 11 of the Atomic Energy Act of 1946 patents could not be secured on certain inventions or discoveries, and patents issued after August 1, 1946 conferred no rights to the extent that inventions or discoveries were used for certain specialized purposes. In lieu thereof provision was made in section 11 for application for an award in a proceeding before the AEC (now ERDA) Patent Compensation Board. Under section 151a of the Atomic Energy Act of 1954, no patent shall be issued for any invention or discovery which is useful solely in the utilization of special nuclear material or atomic energy in an atomic weapon. Section 151b provides that patents issued thereafter confer no rights to the extent that such invention or discovery "is used" in atomic weapons. Section 157 provides for reasonable royalty determination in the case of the owner of a patent licensed under section 158 or subsection 153b or 153e, or any patent licensee thereunder; the grant of just compensation for the revocation of patents and patent rights pursuant to section 151; and for the grant of awards to persons making any invention or discovery useful in the production or utilization of special nuclear material or atomic energy who are not entitled to reasonable royalty or compensation therefor under the Act and who have complied with the provisions of section 151c. The ERDA may also, upon the recommendation of the General Advisory Committee, and with the approval of

the President, grant an award for any especially meritorious contribution to the development, use or control of atomic energy.

§9-9.5018 Definitions.

As used in the regulations of this part, the stated terms in singular and plural are defined as follows for the purposes hereof:

(a) "Government agency" includes any Executive department independent commission, board, office, agency, administration, authority, or other Government establishment of the Executive Branch of the Government of the United States of America.

(b) "Invention", "Invention or discovery" includes any art, machine, manufacture, design, or composition of matter, or any new and useful improvement thereof, or any variety of plant, which is or may be patentable under the Patent Laws of the United States of America or any foreign country.

(c) "Contractor" means any individual, partnership, public or private corporation, association, institution, or other entity which is a party to the contract.

(d) "Contract" means any actual or proposed contract, agreement, grant, or other arrangement, or subcontract entered into with or for the benefit of the Government.

(e) "Made", "made or conceived" when used in relation to any invention or discovery means the conception or the first actual reduction to practice of such invention or discovery in the course of or under the contract.

(f) "License for governmental purpose" means the right of the Government of the United States (including any agency thereof, State, or domestic municipal government) to practice and have practiced (made or have made, used or have used, sold or have sold) throughout the world by or on behalf of the Government of the United States.

(g) "To the point of practical application" means to manufacture in the case of a composition or product, to practice in the case of a process, or to operate in the case of a machine, and under such conditions as to establish that the invention is being worked and that its benefits are reasonably accessible to the public.

§9-9.5019 Rights in inventions and technical data in ERDA-supported contractor independent research and development projects.

(a) Where ERDA accepts a share of the cost of an independent research and development project of a contractor or subcontractor and its share of the cost bears the percentage relationships indicated in §9-15.5010-12(h) to the total cost incurred or to be incurred for such projects during the contractor's or subcontractor's annual accounting period, the rights to be obtained in and to technical data developed and inventions or discoveries made or conceived in the course of or under such independent research and development projects shall be as set forth in §9-15.5010-12(h).

(b) If the share of the cost provided by all of ERDA's contracts and subcontracts, pursuant to the evaluation under §9-15.5010-12(h), is expected to be less than 20 percent of the cost of any individual IR&D project of the contractor or subcontractor, a provision should be added to the contract requiring the contractor to furnish summary reports to the ERDA upon request for evaluation purposes.

(c) If the share of the cost provided by all of ERDA's contracts and subcontracts is expected to be 20 percent or more of the cost of any individual IR&D project of the contractor or subcontractor but less than 75 percent, then a summary report shall be furnished without a specific ERDA request and a provision should be added to the contract requiring the contractor (1) to promptly report any invention or discovery made or conceived in the course of or under any such IR&D project for which support is 20 percent or more but less than 75 percent and, if requested by ERDA, to submit a complete and detailed technical report, (2) to grant a nonexclusive, irrevocable, paid-up license to the ERDA for ERDA purposes to any resulting patent application or patent, and (3) to accord the ERDA the right to use and have used for all ERDA purposes the reports submitted under this provision. If the contractor includes proprietary information, the same shall be specifically identified in writing at the time of submission. If so identified, it will be treated as confidential, provided any such information is not the property of the Government, has not otherwise been made available to the Government independently of the contractor's submittal, and is information which the contractor has protected from unrestricted use by others.

(d) If the share of the cost provided by all ERDA contracts and subcontracts is expected to be 75 percent or more of the cost of any individual IR&D project of the contractor or subcontractor, provisions shall be included in the contract requiring the contractor to:

(1) Furnish to ERDA all technical information and data on the supported projects for unlimited dissemination and use, but insofar as such technical information and data disclose patentable subject matter, the same will not be disseminated until patenting action has been taken.

(2) Promptly report any invention or discovery made in the course of or under any such IR&D projects, and to grant a nonexclusive, irrevocable, paidup license to the Government for all purposes, with the right to grant sublicenses for all purposes in and to any such invention or discovery and to any patent application or patent thereon.

(e) (1) As a general rule, for the purpose of determining ERDA technical data and patent rights as provided in paragraphs (b), (c), and (d) of this section when the share of the cost provided by all of ERDA's contracts and subcontracts is expected to be close to 20 percent, or greater than 20 percent, of the cost of any individual IR&D project of the contractor or subcontractor, there should be negotiated an advance agreement on the estimated ERDA share of the cost of any such project and ERDA's rights would be determined on the basis of such estimates. Such rights would not change if the ERDA share of the actual costs incurred is different from that previously estimated in advance. Such advance agreements should provide for amendment in case ERDA contracts and subcontracts subsequently entered into significantly change the previously estimated ERDA share of the cost agreed upon for any IR&D project during the pertinent period.

(2) The contracting officer and the contractor may agree in writing in certain instances that the ERDA rights in technical data and patents shall be determined and established after the fact in accordance with paragraphs (a), (b), (c), and (d) of this section on the basis of the actual ERDA share in the cost of any such IR&D project.

Subpart 9–9.51—Copyrights

§9–9.5100 Copyrights.

§9–9.5101 Purpose and scope of subpart.

(a) This subpart sets forth the policy and practices of the ERDA as to use and publication of copyrightable materials, and contract provisions in connection with the procurement of material subject to copyright. The copyright provision to be incorporated in subcontracts shall be determined by the principles applicable to contracts.

(b) The policies and requirements of this subpart shall be applied to cost-type contractor procurement. The authorization and consent clause in §9–9.5105 may be used only with the approval of Managers of Field Offices.

§9–9.5102 ERDA use of copyrighted material.

ERDA recognizes that the owner of copyrighted material has property rights in such material and it is the policy of ERDA that it will not knowingly incorporate such copyrighted material into publications prepared by or for ERDA except with the written consent of the copyright owner. The attention of copyright owners should be invited in appropriate instances to the Act of July 30, 1947 (title 17, U.S.C. sec. 8) providing that "the publication or republication by the Government either separately or in a public document, of any material in which a copyright is subsisting shall not be taken to cause any abridgement or annulment of the copyright or to authorize any use or appropriation of such copyrighted material without the consent of the copyright proprietor."

§9–9.5103 Rights in copyrightable material under contracts.

(a) In research and development and other contracts (including contracts for translations, or for the preparation of articles, books or other publications) under which material subject to copyright may be furnished in the form of technical or progress reports, memoranda, papers or articles prepared as to the work ERDA has employed a provision under which all scientific and technical data, specifications, reports, papers, articles and other memoranda "shall be and remain the property of the Government, and the Government shall have the right to use such scientific and technical data, specifications, reports and memoranda in any manner without claim for additional compensation. (See §9–7.5006–13.) Although the foregoing provision or a similar provision is incorporated and such reports and papers are the property of the Government and any report, memoranda, paper or article composed may be considered a Government publication for which copyrights are specifically excluded in accordance with the provisions of section 8, title 17, United States Code, it is desirable to provide specifically for the disposition of any copyrightable material not comprehended by such provision.

(b) In the event that a contract does not contain a provision under which the material, reports, papers, etc., produced, composed or furnished under a contract become the property of the Government, a provision should be incorporated in the contract that the Government acquires the right to determine the disposition of copyrightable material or receives at least a royalty-free, nonexclusive and irrevocable license to such material first produced, composed or furnished under the contract, with a right to authorize others to reproduce, publish and use the same, leaving the contractor free to take out a copyright in his own name if he so desires.

(c) In the event that a contractor incorporates copyrighted material already owned by it or others in the material furnished to the Government, a provision for a license to the Government in such material should be secured whenever appropriate.

(d) Appropriate provisions as to copyrightable material should be included in contracts whether the material subject to copyright is the main item of the contract or is merely incidental. In instances, where the translation or the preparation of articles, books, or other copyrightable material is the principal subject matter of the contract, the following article should be incorporated:

COPYRIGHT

(1) The contractor (i) agrees that the ERDA shall determine the disposition of the title to and the rights under any copyright secured by the contractor or its employees on copyrightable material first produced or composed under this contract and (ii) hereby grants to the Government a royalty-free, nonexclusive, irrevocable license to reproduce, translate, publish, use and dispose of, and to authorize others so to do, all copyrighted or copyrightable work not first produced or composed by the contractor in the performance of this contract but which is incorporated in the material furnished under the contract, provided that such license shall be only to the extent the contractor now has, or prior to the completion or final settlement of the contract may acquire, the right to grant such license without becoming liable to pay compensation to others solely because of such grant.

(2) The contractor agrees that it will not include any copyrighted material in any written or copyrightable material furnished or delivered under this contract, without a license as provided for in paragraph (1)(ii) hereof, or without the consent of the copyright owner, unless specific written approval of the Contracting Officer to the inclusion of such copyrighted material is secured.

(3) The contractor agrees to report in writing to the ERDA, promptly and in reasonable detail, any notice or claim of copyright infringement received by the contractor with respect to any material delivered under this contract.

(e) The foregoing provision is preferred for contracts where the reports, papers or other copyrightable material become the property of the Government. Nevertheless, in such contracts as well as in other contracts where the incorporation of a provision as to copyrightable material is appropriate the following provision may be used:

COPYRIGHT

(1) The contractor agrees to and does hereby grant to the Government, and to its officers, agents, servants and employees acting within the scope of their official duties, (i) a royalty-free nonexclusive and irrevocable license to reproduce, translate, publish, use, and dispose of, and to authorize others so to do, all copyrightable material first produced or composer under this contract by the contractor, its employees or any individual or concern specifically employed or assigned to originate and prepare such material; and (ii) a license as aforesaid under any and all copyrighted or copyrightable work not first produced or composed by the contractor in the performance of this contract but which is incorporated in the material furnished under the contract, provided that such license shall be only to the extent the contractor now has, or prior to completion or final settlement of the contract may acquire the right to grant such license without becoming liable to pay compensation to others solely because of such grant.

(2) The contractor agrees that it will not include any copyrighted material in any written or copyrightable material furnished or delivered under this contract, without a license as provided for in paragraph (1)(ii) hereof, or without the consent of the copyright owner, unless specific written approval of the Contracting Officer to the inclusion of such copyrighted material is secured.

(3) The contractor agrees to report to the ERDA, promptly and in reasonable written detail, any notice or claim of copyright infringement received by the contractor with respect to any material delivered under this contract.

(f) If the circumstances warrant special arrangements, such arrangements should be reviewed at the time of negotiation, or if proposed during the course of the contract, at the time of proposal with the Managers of Field Offices and with the Assistant General Counsel for Patents.

§9-9.5104 Copyright indemnification of Government.

There may be certain circumstances under which it is appropriate for the contractor to indemnify the Government as respects any copyright infringement. This would be particularly true in connection with contracts where translation or preparation of articles, books or other copyrighted material is one of the important aspects of the contract. In such event the following provision is suggested for incorporation:

Except as otherwise provided, the contractor agrees to indemnify the Government, its officers, agents, servants, and employees against liability, including costs and expenses, for the infringement of any copyright in any work protected under the copyright laws of the United States arising out of the performance of this contract, including the reproduction, translation, publication or use of any such copyrighted material.

§9-9.5105 Government authorization and consent.

There may be special situations where the Government specifically directs a contractor to perform certain work which might constitute infringement of copyrights. If, for example, the Government requests a specific reproduction of a foreign work when it cannot be ascertained that there is a valid copyright, and the Government desires to avoid delay that would be caused by making sure, the Government would authorize and consent to the use of such possibly copyrighted material. However, it is felt that the matter of such authorization or consent by the Government should arise only in unusual cases. In such circumstances the following authorization and consent article is suggested for use:

The Government hereby grants its authorization and consent to use (specifically identified subject matter) in the course of the work to be performed by the contractor under this contract.

As the exclusive remedy for the use by the contractor under the foregoing authorization and consent is against the Government, it should be accorded only insofar as it is necessary for the contractor to perform the contract. It is not deemed an authorization and consent to the contractor to use for purposes other than fulfillment of the contract. In such instances, to assure that the contractor appreciates the limits of the authorization, the following may be added at the end:

Except for the foregoing authorization and consent, any liability arising from infringement of any copyrighted work protected under the copyright laws of the United States resulting from contractor's performance of the contract, the contractor agrees to indemnify the Government, its officers, agents, servants and employees against liability for infringement of any such copyright.

§9-9.5106 Copyrights in motion pictures.

In all contracts for motion pictures or for the production of motion pictures or the preparation of motion picture scripts, translations, adaptations, and the like, the following article shall be included:

COPYRIGHTS

(a) The Contractor agrees that all material forming the subject matter of this contract and first produced in the performance of this contract shall be the sole property of the Government, and may not be published or reproduced, in whole or in part, or in any manner or form, other than by the Government or with its express consent. The contractor further agrees that no right at common law or in equity shall be asserted and no claim to copyright by statute shall be established by the contractor in any material first produced in the performance of this contract.

(b) The contractor agrees to grant and does hereby grant to the Government a royalty-free, nonexclusive and irrevocable license (1) to publish, translate, reproduce, use, and dispose of, in any manner, any and all copyrighted or copyrightable material not first produced or composed in the performance of this contract but which is incorporated in the material furnished under the contract, and (2) to authorize others so to do.

(c) The contractor agrees to indemnify and save and hold harmless the Government, its officers, agents and employees acting within the scope of their official duties against any liability, including costs and expenses, (1) for violation of copyright or any other proprietary rights, arising out of the reproduction, use or disposition of any copyrighted or copyrightable material furnished under this contract, or (2) based upon any libelous or other unlawful matter contained in said material.

PART 9-10—BONDS AND INSURANCE

§9-10.000 Scope of part.

(a) This part implements and supplements the requirements on bonds and insurance set forth in FPR Part 1-10.

(b) The provisions of FPR 1-10.104-1 and 1-10.105-1, and the corresponding ERDA-PR's, apply to construction subcontracts in excess of $2,000 awarded by cost-type contractors.

(c) The other policies and procedures of FPR Part 1-10 and Part 9-10 shall be applied to other types of procurement by cost-type contractors.

Subpart 9-10.1—Bonds

§9-10.102 Definitions.

§9-10.102-50 Fidelity bonds.

A blanket fidelity bond is a bond under which the obligor agrees to indemnify an employer up to an amount stated in the bond for losses caused by dishonesty on the part of all employees except those expressly excluded by written endorsement on the bond. A blanket position fidelity bond affords the employer such protection with respect to all positions except those expressly excluded by written endorsement on the bond. An individual fidelity bond affords the employer such protection with respect to a named individual, and a schedule fidelity bond protects the employer against the dishonesty of any employee or employees included in a schedule of named individuals.

§9-10.103 Bid guarantees.

§9-10.103-1 Policy on use.

(a) In addition to the restrictions on use of bid guarantees in FPR 1-10.103-1 (a), a bid guarantee may be required only for lump-sum or unit-price contracts entered into as a result of formal advertising, and may not be required for negotiated contracts. However, a bid guarantee may be required for a lump-sum or a unit-price construction subcontract under a prime cost-type contract when the subcontract is entered into under procedures similar to formal advertising.

§9-10.104 Performance bonds.

Performance bonds shall not be furnished at Government expense in connection with ERDA cost-type contracts and cost-type subcontracts.

§9-10.104-1 Construction contracts.

A performance bond on Standard Form 25 (modified to name the ERDA prime cost-type contractor as well as the United States of America as obligees) shall be required for all lump-sum and unit-price construction subcontracts in excess of $2,000 where the subcontracts are under cost-type prime contracts (or under cost-type subcontracts under cost-type prime contracts). The penal amounts should be as set forth in FPR 1-10.104-1(b).

§9-10.104-2 Other than construction contracts.

Situations in addition to those listed in FPR 1-10.104-2(b) which may warrant requiring a performance bond are:

(a) Where doubt exists as to the financial or technical ability of all possible suppliers.

(b) Where the contractor's talent is overly concentrated in a few key personnel whose illness or departure could seriously impair the contractor's ability to perform the proposed work.

(c) Where other commitments of the contractor might delay performance.

(d) Where performance of the proposed work might disrupt other operations of the contractor and impair its overall efficiency.

(e) Where the item being manufactured is a component for another article and is required by a particular date in order to avoid delay in delivery of the end product.

§9-10.105 Payment bonds.

Payment bonds shall not be furnished at Government expense in connection with cost-type contracts and cost-type subcontracts.

§9-10.105-1 Construction contracts.

A payment bond on Standard Form 25A (modified to name the ERDA prime cost-type contractor as well as the United States of America as obligees) shall be required for all lump-sum and unit-price construction subcontracts in excess of $2,000 where the subcontracts are under cost-type prime contracts (or under cost-type subcontracts under cost-type prime contracts). The penal amounts should be as set forth in FPR 1-10.105-1(b).

§9-10.105-2 Other than construction contracts.

Determinations that it is in the best interest of the Government to require payment bonds in connection with other than construction contracts may be made by the contracting officer on individual procurements. In the case of either advertised or negotiated procurements, whenever the contracting officer has reason to believe that work under a proposed contract might be delayed because of the concern of subcontractors or suppliers over the credit standing of a potential prime contractor, he should consider the advisability of requiring a payment bond.

§9-10.150 Fidelity bonds.

Basic policy. Fidelity bonds shall not be required in connection with fixed-price contracts. Under cost-type contracts as a general rule, fidelity bonds should not be recommended by contracting officers for approval even though under the terms of a particular contract or subcontract losses normally covered by such bonds might fall upon the Government.

§9-10.151 Execution and administration of bonds.

(a) *Bid bonds.* In the case of prime actions, prior to award of a contract the contracting officer shall obtain review of the bid bond furnished with the successful bid (1) as to legal form and sufficiency by counsel, and (2) as to acceptability of the surety by the local ERDA insurance representative. In the case of construction subcontract actions, prior to award of a subcontract the contracting officer or, with his approval, the cost-type contractor shall obtain review of the bid bond furnished with the successful bid, (3) as to legal form and sufficiency, and (4) as to acceptability of the surety and adequacy of the bond.

(b) *Performance and payment bonds.* In the case of prime actions, the contracting officer shall obtain review of such bonds (1) as to legal form and sufficiency, and (2) as to adequacy. In the case of construction subcontract actions, the contracting officer or, with his approval, the cost-type contractor (or cost-type subcontractor under a cost-type prime contractor), shall obtain review of such bonds (3) as to legal form and sufficiency, and (4) as to acceptability of the surety and adequacy of the bond.

§9-10.152 Contract articles.

Standard contract articles pertaining to bonds are set forth in FPR 1-7.101-9 and §9-7.5006-51.

Subpart 9-10.2—Sureties on Bonds

§9-10.250 Corporate co-sureties.

More than one corporate surety may be accepted as surety upon any recognizance, stipulation, bond or undertaking in connection with either construction contracts or contracts other than construction contracts, provided that in no case will the liability of any such cosurety exceed the maximum penal sum in which the corporate surety is qualified to underwrite any one obligation. On bonds covering contracts other than construction contracts, where the amount of the bond is greater than the underwriting limitation of the corporate surety, the latter may reinsure with a corporation on the acceptable list of corporate sureties having the required underwriting capacity. Reinsurance agreements are not acceptable in connection with construction contracts. Corporate cosureties need not obligate themselves for the full amount of the bond. Each corporate surety may, by setting forth the limit of its liability in the bond as a definite and specified sum, limit such liability. The co-sureties must, however, bind themselves "jointly and severally" for the purpose of allowing a joint action or actions against any or all of them.

§9-10.251 Partnerships as sureties.

A partnership or other unincorporated association, as such, shall not be accepted as a surety. The individual members of the partnership or association may, of course, qualify as sureties, provided they meet the requirements set forth in FPR 1-10.203. Individual members of a partnership or association shall not, however, be acceptable as sureties on bonds under which the partnership or association, or any co-partner or member thereof, is the principal obligor.

§9-10.252 Substitution or replacement of a surety.

In case of financial embarrassment, failure or other disqualifying cause on the part of a surety under a bond, the contracting officer shall require the substitution of a new surety satisfactory to him.

Subpart 9–10.3—Insurance

§9–10.350 [Reserved]

§9–10.351 Contract article.

The contract article pertaining to insurance is set forth in §9–7.5006–51.

9-11.452 Cost-type contract clause.

PART 9–11—FEDERAL, STATE, AND LOCAL TAXES

Subpart 9–11.2—Exemptions From Federal Excise Taxes

§9–11.203 Subpart 9–11.2—Exemptions From Federal Excise Taxes

(a) The exemption respecting taxes on communication services or facilities has been held to extend to such services when furnished to ERDA cost-type contractors who pay for such services or facilities from advances made to them by the ERDA under their contracts.

(b) Additional exemptions: Where it is considered that a request for an additional exemption would be justified, a recommendation that such a request be made should be forwarded to the Controller.

(c) Exemption certificates: Where tax exemption certificates are required in connection with the foregoing taxes, the Manager of the Field Office will supply standard Government forms on request.

Subpart 9-11.3—State and Local Taxes

§9-11.350 Policy.

It is the policy of ERDA to secure those immunities or exemptions from State and local taxes to which it is entitled under the Federal Constitution or State laws. In carrying out this policy, Managers of Field Offices shall:

(a) Take all necessary steps to preclude payment of any taxes as to which any of the foregoing immunities or exemptions are available. Advice of counsel should be sought as to the availability of such immunities or exemptions.

(b) Procure directly and furnish to contractors as Government-furnished property, equipment, material, or services when, in the opinion of the Managers of Field Offices:

(1) Such direct procurement will result in substantial savings to the Government, taking into consideration any additional administrative costs that may be involved, and

(2) Such direct procurement will not have a substantial adverse effect on the relationship between ERDA and its contractor, and

(3) Such direct procurement will not have a substantial adverse effect on the ERDA program or schedules.

Subpart 9–11.4—Contract Clauses

§9–11.450 Cost-type contracts.

Contracting officers should include an appropriate contract clause in ERDA cost-type contracts (and cost-type subcontracts where the higher-tier contracts and subcontracts are cost-type) which would require that the contractor take certain actions with regard to nonpayment, payment, protest, or other treatment of specific taxes.

§9–11.451 Purchase orders and subcontracts under cost-type contracts.

(a) Contracting officers should assure that tax matters are appropriately treated in their review and approval of a cost-type contractor's procurement methods and system and in their review and approval of purchase order and subcontract forms as well as individual procurements by such contractor. An appropriate tax article should be included in all fixed-price purchase orders and subcontracts under cost-type contracts. Examples are set forth in FPR 1–11.401–1 and 1–11.401–2. For cost-type subcontracts, the clause in §9–11.452 should be utilized (with appropriate adaptations).

(b) Contracting officers should also assure that fixed-price subcontracts and purchase orders of cost-type contractors contain provisions covering all tax matters which may require special consideration (see FPR 1–11.401–4).

§9–11.452 Cost-type contract clause.

The following clause is suggested for use in cost-type contracts:

STATE AND LOCAL TAXES

(a) The Contractor agrees to notify the ERDA of any State or local tax, fee, or charge levied or purported to be levied on or collected from the Contractor with respect to the contract work, any transaction thereunder, or property in the custody or control of the Contractor and constituting an allowable item of cost if due and payable, but which the Contractor has reason to believe, or the ERDA has advised the Contractor, is or may be inapplicable or invalid;[1] and the Contractor further agrees to refrain from paying any such tax, fee, or charge unless authorized in writing by the ERDA. Any State or local tax, fee, or charge paid with the approval of the ERDA or on the basis of advice from the ERDA that such tax, fee, or charge is applicable and valid, and which would otherwise be an allowable item of cost, shall not be disallowed as an item of cost by reason of any subsequent ruling or determination that such tax, fee, or charge was in fact inapplicable or invalid.

(b) The Contractor agrees to take such action as may be required or approved by the ERDA to cause any State or local tax, fee, or charge which would be an allowable cost to be paid under protest; and to take such action as may be required or approved by the ERDA to seek recovery of any payments made, including assignment to the Government or its designee of all rights to an abatement or refund thereof, and granting permission for the Government to join with the Contractor in any proceedings for the recovery thereof or to sue for recovery in the name of the Contractor. If the ERDA directs the Contractor to institute litigation to enjoin the collection of or to recover payment of any such tax, fee, or charge referred to above, or if a claim or suit is filed against the Contractor for a tax, fee, or charge it has refrained from paying in accordance with this article, the procedures and requirements of the article entitled "Litigation and Claims" shall apply and the costs and expenses incurred by the Contractor shall be allowable items of cost, as provided in this contract, together with the amount of any judgment rendered against the Contractor.

(c) The Government shall save the Contractor harmless from penalties and interest incurred through compliance with this article. All recoveries or credits in respect of the foregoing taxes, fees, and charges (including interest) shall inure to and be for the sole benefit of the Government.

---

[1] Requirement for notice may be broadened to include all State and local taxes which may be claimed as allowable costs when considered to be appropriate.

9–12.5302–3 Responsibilities of the Director, Division of Labor Relations and Controller, Headquarters.

TABLE OF CONTENTS

Subpart 9-12.54—Conduct of Employees and Consultants of ERDA Cost-Type Contractors and Certain Other Contractors

Sec.
9-12.5400 Scope of subpart.
9-12.5401 Applicability.
9-12.5402 Gratuities.
9-12.5403 Use of privileged information.
9-12.5404 Outside employment of contractor employees.
9-12.5405 Information statement concerning consultant or other employment service.
9-12.5406 Allowable and unallowable costs.
9-12.5407 Incompatibility between regular duties and private interests.

PART 9-12—LABOR

§9-12.000 Scope of part.

(a) This part implements and supplements FPR Part 1-12.

(b) The ERDA-PR provisions referenced below pertain to cost-type contractor procurement: 9-12.102, 9-12.202, 9-12.302, 9-12.602, 9-12.800, 9-12.902, and 9-12.1200.

Subpart 9-12.1—Basic Labor Policies

§9-12.100 General.

(a) The policies and procedures stated in FPR Subpart 1-12.1 are recommendatory and for guidance of Federal agencies and provide that problems arising out of contractor labor relations shall be handled in accordance with agency procedures. Except as provided herein, contracting officers shall, in appropriate circumstances, follow the guidance in FPR Subpart 1-12.1.

(b) Contracting officers shall apply the principles and policies set forth in §9-12.101 and Subpart 9-12.51 in lieu of or in modification of FPR 1-12.101 to cost-type contractors responsible for the management/operation of Government-owned and/or controlled sites and facilities; certain cost-type construction and architect-engineer contracts; and such other contracts to which these principles and policies are deemed appropriate by the ERDA and which may be applied pursuant to the contractual conditions of such contract.

§9-12.101 Labor relations (contractor personnel management and labor relations).

The extent of Government ownership of the nation's atomic energy plant and materials, and the overriding concerns of national defense and security, impose special conditions on personnel and labor relations in the atomic energy program; namely, continuity of vital operations at ERDA installations must be assured; the ERDA must retain absolute authority on all questions of security; the ERDA reviews labor expenses under cost-type contracts as a part of its responsibility for assuring judicious expenditure of public funds. It is the intent of ERDA, despite these limitations, that personnel and labor policies throughout the atomic energy program should reflect the best experience of American industry in aiming to achieve the type of stable, democratic labor-management relationships which the ERDA considers are essential to the proper development of the atomic energy program in the national interest. The ERDA believes that this purpose will be served best by making broad assignments of authority and responsibility in the field of personnel management to its contractors, enabling contractors and their employees to conduct their employment relationships with maximum freedom from interference by the Government. It looks forward to the cooperation and understanding of contractor managements and labor unions in making good the spirit and goals of this policy statement in their relationships with each other and with the ERDA on the contract work. The following is intended as an enunciation of the basic principles upon which ERDA policy is founded:

(a) *Employment standards.* (1) Contractors are expected to bring experienced, proven personnel from their private operations to staff key positions on the contract work and to recruit other well-qualified personnel as needed, and such personnel should be employed and treated during employment without discrimination by reason of sex, age, or handicap. Contractors shall take affirmative action to insure that applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, sex, or national origin.

(2) The job qualifications and suitability of prospective employees should be established by the contractor prior to employment by careful personnel investigations. Where a security clearance will be required, the applicant's suitability must be established before a request is made to the ERDA for his security clearance.

(3) The contractor is responsible for maintaining satisfactory standards of employee qualifications, performance, conduct, and business ethics under his own personnel policies.

(b) *Security.* (1) The Energy Research and Development Administration's responsibilities for the security of the atomic energy program will be carried out in a manner consistent with traditional American concepts of justice.

(2) On all matters of security at its installations the ERDA retains absolute authority and neither the security rules nor their administration are matters for collective bargaining between management and labor. Insofar as ERDA security regulations affect the collective bargaining process, the security policies and regulations will be made known to both parties. To the fullest extent feasible, the ERDA will consult with representatives of management and labor in formulating security rules and regulations that affect the collective bargaining process.

(3) Loyalty to the United States is required of all participants in the atomic energy program, including those members and representatives of labor organizations who exercise authority over bargaining units of employees engaged on classified work.

(c) *Wages, salaries, and employee benefits.* (1) Wages, salaries, and employee benefits on cost-type contracts shall be administered in a manner designed to adapt normal industry or university practices and conditions to the contract work and to provide for appropriate review by ERDA. Area practices, valid patterns, and well-established commercial or academic practices of the contractors, as appropriate, form the criteria for the establishment and adjustment of compensation schedules.

(2) It is recognized that these criteria may permit a range of reasonable positions in any given collective bargaining situation. However, the aspects of wages, hours, and working conditions which are the substance of collective bargaining in normal organized industries will be left to the orderly and peaceful processes of negotiation and agreement between ERDA contractor managements and employee representatives with maximum possible freedom from Government interference.

(d) *Employee relations.* (1) The handling of employee relations on contract work, including such matters as the conduct and discipline of the work force and the handling of employee grievances, is part of the normal management responsibility of the contractor.

(2) The ERDA looks to contractors, in their personnel policies, to provide employees basic guarantees of fair treatment in their relationships with project management.

(e) *Collective bargaining.* (1) The ERDA desires that collective bargaining in the atomic energy program be carried on insofar as possible under the arrangements normally found in American industry. Management and labor in all Government-owned, privately operated atomic energy installations are expected wholeheartedly to accept a special responsibility to seek in every way by voluntary procedures and mutual agreement the peaceful and orderly settlement of all disputes.

(2) ERDA review of collective bargaining practices will be premised on the view that management's trusteeship for the operation of the Government facilities includes the duty to adopt practices which are fundamental to the friendly adjustment of disputes, and which experience has shown promote orderly collective bargaining relationships. Practices inconsistent with this view may be objected to if not found to be otherwise clearly warranted.

(3) In line with the policy of assuring continuity of operation of vital facilities, all collective bargaining agreements at Government-owned atomic energy installations should provide that grievances and disputes involving the interpretation or application of the agreement will be settled without resort to strike, lockout, or other interruption to normal operations. For this purpose each collective bargaining agreement should provide an effective grievance procedure with arbitration as its final step, unless the parties mutually agree upon some other method of assuring continuity of operations for the term of the agreement.

(4) The ERDA expects its contractors and the unions representing contractor employees to cooperate fully with the Federal Mediation and Conciliation Service and the Atomic Energy Labor-Management Relations Panel which has been established by the President, and which, in the event of failure of the parties to resolve their differences by

negotiation, may intervene in the interest of furthering the peaceful processes of collective bargaining and of assuring essential continuity of operations.

(f) *Personnel training.* The ERDA encourages and supports personnel training programs aimed at improving work efficiency or developing needed skills which are not otherwise obtainable. ERDA also encourages participation by its construction contractors in building trades apprenticeship programs under Federal, State and local apprenticeship standards.

(g) *Working conditions.* Accident, fire, health and occupational hazards associated with ERDA activities will be held to a practical minimum level and controlled in the interest of maintenance of health and prevention of accidents. To this end, contractors are required to maintain comprehensive continuous preventive and protective programs appropriate to the particular activities throughout all operations subject to ERDA control. Appropriate financial protection in case of occupational disability will be provided employees on ERDA projects.

§9-12.102 Overtime, extra-pay shifts, and multishift work.

The provisions of FPR 1-12.102 and this section shall be applied to cost-type contractor procurement.

§9-12.102-4 Approvals.

(a) Where the cost to the Government may be affected, approval of hours of work in excess of the normal workweek is justified only in those instances and for those employees when it can be shown that overtime would provide needed and demonstrable impetus to the accomplishment of ERDA objectives and that all other means of meeting these needs have been considered and found inadequate or not feasible. Accordingly, in connection with cost-type contracts, Managers of Field Offices shall:

(1) Establish controls to prevent excessive casual overtime and to assure that such overtime work is in the best interests of the Government. By casual overtime is meant (i) work in excess of the normal workweek (or in excess of an authorized extended workweek) which cannot be regularly scheduled in advance, or (ii) regularly scheduled work in excess of the normal workweek for a period of 4 consecutive weeks or less.

(2) Also establish controls to assure that any use of an extended workweek schedule is in the best interest of the Government. Extended workweek means a workweek regularly scheduled and established in excess of the normal workweek for a period in excess of 4 consecutive weeks.

§9-12.103 Federal and State labor requirements.

§9-12.103-50 Applicability.

The labor requirements referred to in FPR 1-12.103 specifically include Federal and State programs consistent with the ERDA policy of nondiscrimination in employment set forth in §9-12.101.

§9-12.103-51 Retention of payroll and associated records.

Under certain cost-type contracts for the management and operation of ERDA facilities, for the construction of major facilities, and for necessary miscellaneous construction incidental to the function of these facilities, the title to payroll and associated records is in the Government and such records are disposed of in accordance with ERDA directions. For such contracts, the Solicitor of Labor has granted a tolerance from the Department of Labor Regulations to omit from the prescribed labor clauses the requirement for the retention of payrolls and associated records for a period of 3 years after completion of the contract. Under this tolerance, the records retention requirements for all labor clauses in the contract and the Fair Labor Standards Act is satisfied by disposal of such records in accordance with ERDA directives.

Subpart 9-12.2—Convict Labor

§9-12.202 Applicability.

The provisions of FPR Subpart 1-12.2 apply to cost-type contractor procurement.

Subpart 9–12.3—Contract Work Hours and Safety Standards Act (Other Than Construction Contracts) [Amended]

§9–12.302 Applicability.

The requirements of FPR Subpart 1-12.3 apply to cost-type contractor procurement to the same extent and under the same conditions such requirements apply to direct procurement. Paragraph (c) of the clause in FPR 1–12.303 should be revised to provide for the withholding of moneys from the subcontractor by the prime contractor as directed by the contracting officer.

Subpart 9–12.4—[Reserved]

Subpart 9–12.6—Walsh-Healey Public Contracts Act

§9–12.602 Applicability.

§9–12.602–3 Department of Labor regulations and interpretations.

The requirements of FPR Subpart 1–12.6 and this subpart apply to procurement by cost-type contractors operating and managing ERDA-owned facilities to the same extent and under the same conditions such requirements apply to direct procurement (Department of Labor Circular Letter No. 4–62, dated July 16, 1962).

§9–12.650 Safety and health standards.

Since ERDA has safety and health standards compatible with those of 41 CFR 50–204, the Labor Department has agreed to accept ERDA's program for inspection and evaluation of compliance in lieu of establishing its own program of inspection and evaluation to the extent the Walsh-Healey safety and health standards are applicable to operations conducted for ERDA at ERDA-owned and/or controlled sites or facilities.

Subpart 9–12.7—[Reserved]

Subpart 9–12.8—Equal Opportunity in Employment

§9–12.800 Scope of subpart.

(a) This subpart implements FPR Subpart 1–12.8, Equal Opportunity in Employment, as amended by FPR Temporary Regulation 19.

(b) The provisions of FPR Subpart 1–12.8, as amended by FPR Temporary Regulation 19, and this subpart apply to cost-type contractor procurement.

§9–12.805 Administration.

§9–12.805–1 Duties of agencies.

(a) The Director, Office of Equal Opportunity, is the ERDA Contract Compliance Officer. The Contract Compliance Officer has designated certain Deputy Contract Compliance Officers who have responsibilities, under the Contract Compliance Officer, and within designated geographic areas, for privately owned facilities of Federal contractors assigned to ERDA and for privately financed construction projects subject to the Equal Opportunity clause.

(b) Heads of Divisions and Offices, Headquarters, having contract authority, and Managers of Field Offices are Deputy Contract Compliance Officers for all existing and prospective ERDA contractors, including construction contractors, performing work at Government-owned facilities and sites.

§9–12.805–50 Requirements for bidders and proposers.

FPR 1–12.805–4(b)(1) as amended by FPR Temporary Regulation 19, sets forth the representations required of bidders and proposers. In invitation for bids and requests for proposals for construction contracts, the reference to Part 60–2 of this title shall be deleted from these representations.

§9–12.805–51 Preaward contract actions—nonexempt contracts.

(a) *Nonconstruction contracts of $1 million or more.* Before the award of a nonconstruction contract of $1 million or more, the Contracting Officer shall determine by means of a preaward compliance review, under procedures and requirements set forth in FPR 1–12.805–5(d), as amended by FPR Temporary Regulation 19, that the prospective contractor and each of his known first-tier subcontractors who will be awarded subcontracts of $1 million or more, are in compliance with the Equal Opportunity clause pursuant to Parts 60–1 and 60–2 of the rules and regulations of the Secretary of Labor in this title. In the event that the prospective contractor has not held a previous contract containing the Equal Opportunity clause, the Contracting Officer shall determine, prior to and as a condition of award, that the prospective contractor appears to be able to conform to the Equal Opportunity clause. In the event that the prospective contractor has not held a previous contract to which Part 60–2 of this title applied, his compliance status will be determined without regard to that part.

(b) *Construction contracts—(1) Construction contracts subject to OFCC orders applicable in particular areas.* Where the Director, OFCC, has designated specific affirmative action requirements for construction contracts over a stated dollar amount in a particular area, the invitation for bid or request for proposal for such construction contracts in the area shall include such affirmative action requirements.

(2) *Other nonexempt construction contracts.* (i) Prior to the award, of construction contracts covered in this paragraph, the Contracting Officer shall determine, in accordance with FPR 1–1.1203–1(e), that the prospective contractor appears to be able to conform to the requirements of the Equal Opportunity clause.

(ii) Contracting Officers shall incorporate in requests for proposals for cost-type prime contracts and cost-type subcontracts covering construction work to be performed at ERDA sites a requirement that the affirmative action plan to be submitted within 120 days after contract commencement shall conform in content with Subpart B of Part 60–2 of this title.

(iii) Except as provided in subdivision (ii) of this subparagraph, Contracting Officers are authorized, at their discretion, to incorporate in invitation for bids or requests for proposals for construction contracts the following provisions:

(*a*) A provision that the bidder or proposer agrees that he will make good faith efforts to adhere to the affirmative action plan set forth in the invitation for bid or request for proposal.

(*b*) A provision that the apparent successful bidder, prior to award of the contract, will furnish to the Contracting Officer estimates of the approximate numbers and crafts of minority group persons expected to be employed in carrying out the contract and that he will make good faith efforts to employ minority persons consistent with those estimates. It should be noted that (*a*) of this subdivision and this (*b*) may be used separately or may be used in combination.

(3) *Failure to submit an unqualified bid or proposal.* Qualification in any major respect of the provisions of the affirmative action requirements included in an invitation for bid or request for proposal for a construction contract in accordance with subparagraph (1) or subparagraph (2)(ii) and (iii) of this paragraph, or inability of the Contracting Officer to make the determination in subparagraph (2)(i) of this paragraph, shall constitute grounds for determination that the bidder or proposer does not qualify as a responsible bidder and for rejection of his bid or proposal. In the case of procurement actions by ERDA prime cost-type contractors, this determination shall be made only with the approval of the Contracting Officer.

(c) *Cost-type contractor procurements.* The requirements of paragraph (a) and (b) of §9–12.805–51 shall be applied to procurement actions of cost-type contractors whose contracts involve the operation, maintenance, servicing, management, or construction of ERDA facilities.

§9–12.810 Affirmative action compliance programs.

§9–12.810–50 Definitions.

As used in FPR 1–12.810—

(a) The term "employee" means any individual on the payroll of an employer who is an employee for purposes of the employer's withholding of Social Security taxes, except that such term shall not include persons who are hired on a casual or temporary basis for a specified period of time or for the duration of a specified job; and

(b) The term "establishment" means an economic unit which produces goods or services such as a factory, office, store, or mine and, in most instances, the establishment is at a single physical location and is engaged in one, or predominantly one, type of economic activity.

Subpart 9–12.9—Service Contract Act of 1965

§9–12.902 Applicability.

The Service Contract Act of 1965 is not applicable to contracts for the operation and management of ERDA facilities. However, subcontracts awarded by contractors operating and managing ERDA facilities are subject to the Act to the same extent and under the same conditions as contracts made directly by ERDA.

§9–12.904 Contract clauses.

Subcontracts awarded by contractors operating and managing ERDA facilities shall include the applicable clause in FPR 1–12.904 with such modifications as would otherwise be appropriate had this clause been included in the prime contract, including the modification necessary if §9–12.103–51 applies.

Subpart 9–12.11—Listing of Employment Openings

§9–12.1150 Applicability.

The provisions of FPR Subpart 1–12.11 apply to cost-type contractor procurement.

Subpart 9-12.12—Williams Steiger Occupational Safety and Health Act of 1970

§9-12.1200 Applicability.

The requirements of FPR subpart 1-12.12 apply to cost-type contractor procurement.

Subpart 9–12.50—[Reserved]

Subpart 9–12.51—Special Considerations

§9–12.5100 Scope of subpart.

This subpart deals with special considerations affecting construction laborers and mechanics.

§9–12.5101 General.

(a) As collective bargaining arrangements exist generally throughout the construction industry, the wages, hours and working conditions followed for construction laborers and mechanics normally will result from collective bargaining between management and labor. It is important that practices contributing to harmonious labor-management relations prevail throughout the ERDA program. All participants in the ERDA program, including employees and their unions, have a special and continuing obligation to do their part in accomplishing a stable, efficient construction operation under adequate and reasonable conditions.

(b) In some areas, ERDA construction is a minor part of local construction activity, while in other areas ERDA construction may at times overshadow local construction. Normally, there will be a number of contractors and subcontractors, both cost-type and lump-sum, engaged simultaneously on a single large ERDA project. It is important that adequate coordination exist among all such contractors in order that similar conditions are provided for all construction employees in a given classification at a particular location.

(c) The problem of establishing appropriate conditions for the large projects is complicated by the essential requirement that initial conditions be clearly identified and fixed prior to recruitment of the work force. This factor involves applicability of all pertinent Federal statutes, including the Davis-Bacon Act and the Labor-Management Relations Act of 1947, as amended (29 U.S.C. 141 et seq.).

§9–12.5102 Steps preliminary to the staffing of new cost-type projects.

Preliminary to the actual recruitment of workers, it is important that sufficient data be accumulated by the Field Office concerned to reflect area practices accurately. These data should cover in detail the pattern of bargaining in the area; the proportion of the work force employed by employer parties to collective bargaining agreements in relation to the total construction work force; the terms of local area agreements; the extent of conformance with such agreements and any accepted interpretations of them; and a description of practices which may have developed outside of the local agreements. These data will furnish the basis for decision contemplated in §9–12.5103 and §9–12.5104. Where the data indicate local agreements are adequate for the contemplated work, there may still be gaps that need to be filled in by additional understandings to attain the desired stability of conditions. The data obtained in the initial survey will also be used in connection with the original Davis-Bacon predetermination.

§9–12.5103 Role of project contractor management in collective bargaining.

ERDA expects contractor management engaged in the negotiation and/or administration of collective bargaining agreements to assume responsibility for assuring conditions which are consistent with the judicious expenditure of public funds, will attract and retain the skills needed, and will give due consideration to the community's interests and established standards. To meet these responsibilities, it is important that the collective bargaining role to be played by project contractor management be clearly determined in the light of project requirements and local conditions. Prerequisite to determination of this role is a careful analysis of all relevant circumstances.

(a) *Where ERDA work does not predominate.* In an area where ERDA construction does not overshadow total local construction activity, and the majority of construction is performed by members of local contractor associations, ERDA expects that basic conditions for labor on ERDA projects will be those negotiated between the local contractor associations and local unions and generally adhered to on construction work in the area.

In such situations, ERDA cost-type contractors will provide for clear identification and application to the ERDA work of these local agreements. In such application, the conditions to be followed on ERDA work will be those which obtain in actual practice in the area covered by the agreement and are consistent with applicable laws, rather than those appearing from a literal interpretation of the language of the agreement. Conditions not covered by local agreements may be provided for by such arrangements as are necessary to meet project goals.

(b) *Where local agreements are nonexistent or inadequate.* In some areas, local agreements may be nonexintent, or inadequate, or the employer parties may not be representative of the employers of the bulk of the labor force in the area. In such event, ERDA contractors are expected to carry their share of the responsibility for negotiations and to negotiate directly or in cooperation with others to establish appropriate conditions.

(c) *Where ERDA work predominates.* In an area where ERDA construction work is of such magnitude as to overshadow local construction, it may be desirable for ERDA contractors to negotiate special project conditions (on either a craft or a multi-craft basis) as the best way to meet their obligations to ERDA. Such agreements usually involve the establishment of new bargaining units and are therefore dependent upon the voluntary cooperation of the building trades unions. Normally, both the Building Trades Department (AFL-CIO) and the Division of Labor Relations, ERDA, should be consulted in respect to any such proposed course of action.

§9-12.5104 Role of the ERDA in construction labor relations.

The role of ERDA in construction labor relations is a constructive role of overall cognizance consistent with ERDA's ultimate responsibilities. The scope of the construction program, the complexity of the problems which may arise, and the need for coordination among contractors at the same site are factors which affect the degree of influence exercised by ERDA in carrying out the following responsibilities:

(a) To assure that a careful advance survey and analysis is made of each contract situation and that the role of the contractor management is in accordance with the considerations in §9-12.5103.

(b) To establish effective machinery for coordination among project contractor management, both cost reimbursement and lump sum.

(c) With respect to ERDA contracts carried out under area practices, to assure that conditions proposed for ERDA cost-reimbursement contracts are actually prevalent in the area or have other substantial foundation and that, to the extent consistent with the terms of lump-sum contracts, practices established by lump-sum contractors are not of a character that will unstabilize other ERDA work.

(d) With respect to ERDA contracts carried out under project agreements, as distinguished from area practices, to assure that the negotiators of project agreements, both union and management, are fully informed and take into account all relevant factors pertaining to the particular circumstances, requirements and schedules of the project, e.g., any conditions peculiar to the project, duration of project, tenure of employment, housing and travel accommodations, length of regular workweek, uniformity of shift, special subsidies, etc.

(e) To encourage contractor officials and representatives of employees to establish similar conditions among all construction employers for each class or classification of employees at a particular location.

(f) To encourage contractor officials and representatives of employees to exert every reasonable effort either to provide clear identification and application of practices under local agreements or to make and maintain project agreements on ERDA construction projects.

(g) To encourage contractor officials and representatives of employees to establish reliable working contact between the ERDA project contractors and any unions that are cooperating in staffing the job.

§9-12.5105 Initial wage rates.

The wage rates initially established under both cost-type and lump-sum contracts will not be less than, and will normally conform to, those determined by the Secretary of Labor pursuant to the requirements of the Davis-Bacon Act. On cost reimbursement work the total compensation on the ERDA project will be comparable with the total compensation allowed similar workers in an appropriate area of comparison. Where the ERDA project is applying the practices under local agreements, the area of comparison normally will be the geographic area within the jurisdiction of each local union cooperating in staffing the project. In this type of situation, the application of local practices and agreements will usually be carried out on an item-by-item basis. Where a project agreement has been agreed on as the foundation for project conditions, the area of comparison for each craft should be large enough to provide a sound base which will result in realistic wage rates. In the development of a project agreement, the Division of Labor Relations should be consulted.

§9-12.5106 Adjustments in compensation cost-type contracts.

Subject to any limitation imposed by any applicable labor laws, changes in established wage rates and working conditions under cost-type contracts may be effected as follows:

(a) *Project agreements.* Adjustments in wage rates and other job conditions established in project collective bargaining agreements may be effected by the renegotiation or modification of the agreements at appropriate times, and by the reopening of existing agreements as provided therein. The Division of Labor Relations should be consulted as to appropriate criteria to follow in review of such reopenings.

(b) *In the absence of project agreements.* In situations where ERDA cost-type contractors apply local established job conditions included in applicable bargaining agreements, adjustments in wages and job conditions may coincide with changes within the locality. Wage rates may be adjusted to bring rates into conformity with new rates which are verified as established in the area at the time of their acceptance for ERDA work.

§9-12.5107 National Joint Board for the Settlement of Jurisdictional Disputes in the Building and Construction Industry.

Construction contractors and representatives of employees are encouraged to settle craft jurisdiction disputes in accordance with the "Procedural Rules and Regulations" of the National Joint Board.

§9-12.5108 Specific responsibilities.

In discharging their assigned responsibilities, Directors, Headquarters Divisions and Offices, and Managers of Field Offices shall take such action as is required to accomplish the ERDA role described in §9-12.5104.

§9-12.5109 Responsibility of the Director, Division of Labor Relations.

The Director, Division of Labor Relations, is responsible for coordinating all activities arising under this subpart, and for maintaining liaison with the Department of Labor, the Building Trades Department (AFL-CIO) and other construction labor and employer organizations.

Subpart 9-12.52—Unemployment Compensation

§9-12.5200 Scope of subpart.

This subpart establishes policies and requirements concerning provision for unemployment compensation by ERDA cost-type contractors.

§9-12.5201 Policies and requirements.

§9-12.5201-1 General.

Each State has its own unemployment compensation system to provide payments to workers who become unemployed involuntarily and through no fault of their own. Funds are provided for unemployment compensation benefits through a payroll tax on employers. Most ERDA contractors are subject to the unemployment compensation tax laws of the States in which they are located. It is the policy of ERDA to assure, both in the negotiation and administration of cost-type contracts, that economical and practical arrangements are made and practiced with respect to unemployment compensation.

§9-12.5201-2 Contractors exempt from State laws.

(a) Some contractors are exempt from State unemployment compensation laws, usually on grounds that they are non-profit organizations or subdivisions of State governments. Most States, however, permit such employers to elect unemployment compensation coverage on a voluntary basis. Under such circumstances, it is ERDA policy that all existing or prospective cost-type contractors shall be encouraged to provide unemployment compensation coverage or equivalent substitutes.

(b) It is also ERDA policy that, prior to the award or extension of a cost-type contract for the operation of a Government-owned facility, exempt contractors or prospective contractors shall be required to submit to ERDA a statement that they will either elect coverage or provide equivalent substitutes for unemployment compensation or, in the alternative, submit evidence that it is impractical to do so. In all cases where an exempt contractor or prospective contractor submits evidence that it is impractical to elect coverage or to provide an equivalent substitute, appropriate Headquarters staff shall review the position of the contractor prior to recommending an award or extension of the contract. If it is found that there are substantial reasons for not electing coverage or for not providing for not electing coverage or for not providing equivalent substitutes, a contract may be awarded or extended. Headquarters staff review and recommendation shall be based on such factors as:

(1) The specific provisions of the unemployment compensation law of the State.

(2) The extent to which the establishment of special conditions on ERDA work may have an adverse effect on the contractor's general policies and operating costs in his private operations.

(3) The numerical relationship between the contractor's private work force and his employees performing only ERDA work.

(4) The contractor's record with respect to work force stability and the general outlook with respect to future work force stability.

(5) In a replacement contractor situation, whether or not the prior contractor had coverage or suitable substitutes.

(6) The particular labor relations implications involved.

Subpart 9–12.53—Workmen's Compensation Insurance

§9–12.5300 Scope of subpart.

This subpart establishes the policies and requirements applicable to ERDA cost-type contractors managing, operating, maintaining, or constructing Government-owned facilities for insurance covering workmen's compensation and employer's liability. This subpart does not apply to supply contracts for materials, equipment, services, etc., which are to be performed in the contractor's own facilities, even though such contracts may provide for reimbursement of certain costs.

§9–12.5301 Policies and requirements.

§9–12.5301–1 General.

Workmen's compensation insurance protects employers against liability imposed by workmen's compensation laws for injury or death to employees arising out of or in the course of their employment. This type of insurance is required by State laws unless employers have acceptable programs of self-insurance.

§9–12.5301–2 Special requirements.

Certain workmen's compensation laws contain provisions which result in limiting the protection afforded persons subject to such laws. The policy of the ERDA with respect to these limitations as they affect persons employed by cost-type contractors falling within the scope of this subpart is set forth below:

(a) *Elective provisions.* Some workmen's compensation laws permit an employer to elect not to be subject to its provisions. It is the policy of ERDA to require cost-type contractors to be subject to workmen's compensation provisions in jurisdictions permitting election.

(b) *Statutory immunity.* Under the provisions of some workmen's compensation laws, certain types of employers, e.g., nonprofit educational institutions, are relieved from liability. If a contractor falling within any of these categories has a statutory option to accept liability, it is the policy of ERDA to require him to do so.

(c) *Limited medical benefits.* Some workmen's compensation laws limit the liability of the employer for medical care to a maximum dollar amount or to a specified period of time. In such cases, a cost-type contractor's workmen's compensation insurance policy should contain a standard extrastatutory medical coverage endorsement.

(d) *Limits on occupational disease coverage; employer's liability.* Some workmen's compensation laws do not provide coverage for all occupational diseases. In such situations, a contractor's workmen's compensation insurance policy should contain voluntary coverage for all occupational diseases.

§9–12.5301–3 Contractor employees' benefit plan—self-insurers.

The policies and requirements set forth in §9–12.5301–2 apply in situations where cost-type contractors at Government-owned atomic energy installations purchase workmen's compensation insurance. With respect to self-insured contractors, the objectives specified in that subsection shall also be met. Inasmuch as self-insurers cannot comply with the technical requirements or paragraphs (c) and (d) of §9–12.5301–2, the ERDA encourages the use of a contract supplement providing for a Contractor Employees' Benefit Plan. Under unusual or unique circumstances, where adequately justified, certain contractors who are not self-insurers may also be considered eligible for a Contractor Employees' Benefit Plan.

§9-12.5302 Assignment of responsibilities.

§9-12.5302-1 General.

Directors, Headquarters Divisions and Offices, and Managers of Field Offices, consistent with their delegations of responsibilities, shall assure that ERDA cost-type contract operations at Government-owned atomic energy installations are implemented consistent with the policies and requirements of §9-12.5301.

§9-12.5302-2 Responsibility of Managers of Field Offices.

In discharging their assigned responsibilities Managers of Field Offices shall:

(a) Review periodically the workmen's compensation insurance programs of cost-type contractors to whom this subpart applies in the light of applicable workmen's compensation statutes to assure conformance with the requirements of §9-12.5301.

(b) Evaluate the adequacy of coverage of "self-insured" workmen's compensation programs to determine the need for a Contractor Employees' Benefit Plan.

(c) Arrange for the establishment of procedures for both new and existing Contractor Employees' Benefit Plans which will:

(1) Permit informal agreement whenever possible between the contractor and an employee as to the origin and extent of disabilities and the amount of payments which will be made under the Benefit Plan, and

(2) Provide, in the case of failure of more informal methods, for an impartial determination of the origin and extent of disabilities and the appropriate payments to be made under a benefit plan.

(d) Submit to the Director, Division of Labor Relations, all proposals for the establishment of new Contractor Employees' Benefit Plans or the modification of existing Plans.

§9-12.5302-3 Responsibilities of the Director, Division of Labor Relations, and Controller, Headquarters.

The Director, Division of Labor Relations, and the Controller are responsible jointly for approving Contractor Employees' Benefit Plans.

Subpart 9-12.54—Conduct of Employees and Consultants of ERDA Cost-Type Contractors and Certain Other Contractors

§9-12.5400 Scope of subpart.

This subpart establishes the policies of the Energy Research and Development Administration concerned with maintaining satisfactory standards of conduct on the part of employees and consultants employed on ERDA contract work by its cost-type contractors and certain other contractors specified in §9-12.5401. Contracts with colleges and universities, which have adopted conflict-of-interest policies consistent with ACE-AAUP standards and which do not involve the operation of Government-owned facilities on Government-owned or Government-leased land, are governed by the "Policy of the Federal Council for Science and Technology Relating to Conflicts of Interest by Staff Members of Colleges and Universities" (adopted Mar. 29, 1966) and are not subject to this subpart.

§9-12.5401 Applicability.

(a) The policies set forth in this subpart are applicable to ERDA contractors to the extent that (1) their contracts with the Energy Research and Development Administration contain provisions making this subpart applicable; or (2) instructions have been issued under appropriate provisions of their contracts with the Energy Research and Development Administration by duly authorized ERDA representatives directing compliances with this subpart.

(b) The contract clause contained in the note to §9-7.5006-6(c) requiring the contractor to establish such procedures as are necessary to implement effectively the provisions of this subpart, subject to the approval of the contracting officer, shall be included in:

(1) All new ERDA cost-type contracts, and

(2) Other ERDA contracts (including time and materials contracts) with respect to which the Administrator or his designee or a manager of a Field Office, as appropriate, determines that the nature of the work to be performed and the duration of the contract make the application of the policies set forth in this subpart necessary in the public interest, and

(3) Major modifications (involving change in scope or other significant substantive changes) or extensions of existing contracts within the foregoing categories, except that such contract clause will be excluded from all contracts of less than $250,000.

(c) The contract clause contained in §9-7.5006-45(a) concerning necessary approvals to be obtained by contractor employees before performing consultant or similar services for another ERDA cost-type contractor, shall be included in:

(1) All new ERDA cost-type contracts except those identified in paragraph (d) below, and

(2) Major modifications (involving change in scope or other significant substantive changes) or extensions of existing contracts within the foregoing category.

(d) The contract clause contained in §9-7.5006-45(b) concerning necessary approvals to be obtained by contractor employees before performing consultant or similar services for another ERDA cost-type contractor, or in the atomic energy field for another organization, shall be included in:

(1) All new ERDA cost-type contracts for the design or construction of Government-owned facilities or for research or operations where a substantial portion of the land or buildings used for such research or in such operations is owned or controlled by the Government, and

(2) Major modifications (involving change in scope or other significant substantive changes) or extensions of existing contracts within the foregoing category.

(e) Exceptions to the requirements of paragraphs (b), (c), and (d) of this section will be permitted only with the approval of the Administrator or his designee.

§9–12.5402 Gratuities.

A contractor or his employees or consultants shall not, under circumstances which might reasonably be interpreted as an attempt to influence the recipients in the conduct of their duties, accept any gratuity or special favor from individuals or organizations with whom the contractor is doing business, or proposing to do business, in accomplishing the work under the contract. Reference should be made to the provisions of 41 U.S.C. 51–54.

§9–12.5403 Use of privileged information.

Employees and consultants of a contractor shall not use for personal gain or make other improper use of privileged information which is acquired in connection with their employment on the contract work. In this connection, the term "privileged information" includes, but is not limited to, unpublished information relating to technological and scientific developments; medical, personnel or security records of individuals; anticipated materials requirements or pricing actions; possible new sites for ERDA program operations; and knowledge of selections of contractors or subcontractors in advance of official announcement.

§9–12.5404 Outside employment of contractor employees.

Employees of a contractor are entitled to the same rights and privileges with respect to outside employment as other citizens. Therefore, there is no general prohibition against employees having outside employment. However, no employee of a contractor performing work on a full-time basis under an ERDA contract shall engage in employment outside his official hours of duty or while on leave if such employment will:

(a) In any manner interfere with the proper and effective performance of the duties of his position,

(b) Appear to create a conflict-of-interest situation, or

(c) Appear to subject the ERDA or the contractor to public criticism or embarrassment.

§9–12.5405 Information statement concerning consultant or other employment service.

If the consultant or other outside employment service of the employee involves the use of information in the area of the employee's contract employment, the contractor will be responsible for requiring that the employee file with the contractor an information statement containing such information concerning the outside employment as the contractor may prescribe. As a minimum, the information statement shall include a description of any patent agreements that may be involved and the following certificate:

I acknowledge that I have read and am familiar with the published policy of the Energy Research and Development Administration contained in:

(a) ERDA–PR 9–12.54, "Conduct of Employees and Consultants of ERDA Cost-Type Contractors and Certain Other Contractors," and

(b) ERDA Manual Chapter 3201, "Reporting Results of Scientific and Technical Work Funded by ERDA," which states in part that significant new results produced in ERDA-funded scientific and technical work shall be reported to the ERDA. In accordance with this policy, I agree not to withhold, or delay reporting, information acquired through my employment with ———— in favor of ———— with whom I have made or am contemplating making a consulting agreement. I have also read and am familiar with the requirements of my employer's contract with the ERDA relating to patents. To the best of my knowledge or belief, the activities to be performed under this consulting agreement will not conflict with the policy set forth in ERDA–PR 9–12.54, the patent provisions of my employer's contract with the ERDA or with the responsibility of my employer to report fully and promptly to the ERDA all significant research and development information. If in the course of my activities under this consulting arrangement it appears that such a conflict may arise, I will promptly notify and consult with my primary employer ————concerning such possible conflict.

§9–12.5406 Allowable and unallowable costs.

Reference should be made to §§9–7.5006–9(d)(3) and (e)(26), 9–7.5006–10(d)(3) and (e)(24), 9–7.5006–11 and 9–7–5006–12(d)(3) and (e)(22) for additional contract provisions concerning allowable and unallowable costs in connection with obtaining consultant services.

§9–12.5407 Incompatibility between regular duties and private interests.

Employees and consultants of a contractor shall not be permitted to make or influence any decisions on behalf of the contractor which directly or indirectly affect the interest of the Government if the employees' or consultants' personal concern in the matter may be incompatible with the interest of the Government. For example, (a) an employee or consultant of a contractor will not negotiate, or influence the letting of, a subcontract with a company in which he has an employment relationship or significant financial interest; and (b) an employee or consultant of a contractor will not be assigned the preparation of an evaluation for the ERDA or for an ERDA contractor of some technical aspect of the work of another organization with which he has an employment relationship or significant financial interest or which is a competitor of an organization (other than the contractor who is his regular employer) in which he has an employment relationship or significant financial interest. The contractor shall be responsible for informing employees and consultants that they are expected to disclose any incompatibilities between duties performed for the contractor and their private interests and to refer doubtful questions to the contractor.

9-14.000 Scope of part.
9-14.105 Places of inspection.
9-14.108 Government inspection of supplies under subcontracts.

Sec.

9-14.5001 Inspection and acceptance requirements.
9-14.5002 Contract articles relating to inspection and acceptance.
9-14.5003 Construction contracts.

PART 9–14—INSPECTION AND ACCEPTANCE

§9–14.000 Scope of part.

This part implements and supplements FPR Part 1–14 by prescribing the policies and requirements for inspection and acceptance under contracts for supplies and services, including construction contracts.

§9–14.105 Places of inspection.

Where a contract provides for delivery and acceptance at destination (see FPR 1–14.203) and the Government inspects the supplies at a place other than destination, the supplies may be reinspected at destination for conformance with contract specifications.

§9–14.108 Government inspection of supplies under subcontracts.

The limitations in FPR 1–14.108 do not apply to procurements by cost-type contractors for the account of ERDA.

§9–14.5001 Inspection and acceptance requirements.

(a) Inspection and acceptance shall be conducted in accordance with:
(1) Provisions of the contract;
(2) This part;
(3) Instructions issued by Headquarters divisions, offices or Managers of Field Offices.
(b) The instructions referred to in subparagraph (3) of paragraph (a) of this section shall not be inconsistent with the contract or this part.

§9–14.5002 Contract articles relating to inspection and acceptance.

The fixed-price supply contract article covering inspection and acceptance for use by ERDA is referenced in §9–7.5005–6. The construction contract article covering inspection and acceptance for use by ERDA is the "Inspection and Acceptance" article in Standard Form 23A: General Provisions (Construction Contract). Contract articles relating to inspection and acceptance, which are used by ERDA cost-type contractors, should provide no less a degree of protection for the Government than are provided by the contract articles used by ERDA.

§9–14.5003 Construction contracts.

(a) Inspection services may be performed by the architect-engineer responsible for the design. Inspection services may not be procured from a fixed-price construction contractor with respect to its own work since this would repeesent self-inspection. Under cost-type contracts where the construction contractor and architect-engineer are the same, some degree of self-inspection may be permitted but shall not constitute final inspection and acceptance by the Government. (See §9–1.5407(g).)
(b) [Reserved]
(c) When one contractor is to inspect the work of another, written instructions should be furnished the inspecting contractor defining his responsibilities and stating that he is not authorized to modify the terms and conditions of the contract, nor to direct additional work, nor to waive any requirements of the contract, nor to settle any claim or dispute. Copies of these instructions should be furnished the contractor who is to be inspected, with a request that he acknowledge receipt on a copy to be returned to the contracting officer. In this manner, both contractors are on express notice of the authority, and limitations on the authority, of the inspecting contractor.

9–15.5010–17 Special funds in the construction industry.
9–15.5010–18 Employee morale, health, welfare, and food service and dormitory costs.
9–15.5010–19 Procurements or transfers from contractor-controlled sources by certain cost-type contractors (See §9–59.006 (b)).
9–15.5010–20 Relocation costs.

PART 9–15—CONTRACT COST PRINCIPLES AND PROCEDURES

§9–15.000 Scope of part.

The cost principles and the procedures for the determination and allowance of costs in connection with the negotiation and administration of ERDA cost-reimbursement type contracts, except for research contracts with educational institutions which are treated in FPR Subpart 1–15.3, are set forth in Subpart 9–15.50. Standard cost articles setting forth examples of allowable and unallowable costs are included in Subpart 9–7.50. Subpart 9–15.50 also contains guidelines for use, where appropriate, in the evaluation of costs in connection with certain negotiated fixed-price type contracts.

Subpart 9–15.1—Applicability

§9–15.103 Cost-reimbursement research contracts with educational institutions.

(a) The cost principles in FPR Subpart 1–15.3 shall be incorporated by reference or attachment in cost-reimbursement research contracts with educational institutions to which they are applicable. However, contracts with educational institutions for the operation of ERDA-owned contractor-operated research laboratories are governed by the principles in Subpart 9–15.50 and §9–7.5006–9.

(b) Overhead rates shall be determined by after-the-fact audit, except as provided in paragraph (c) of this section.

(c) Predetermined fixed overhead rates may be used in cost-type research and development contracts with educational institutions (Public Law 87–638). The use of such rates is permissive and not mandatory. In determining whether or not predetermined fixed overhead rates should be used in a particular contract, consideration should be given to the degree of stability shown in overhead rates and their bases over a period of years. All anticipated changes in the contractor's volume and overhead shall be taken into consideration. In establishing such predetermined overhead rates the following guidelines shall be used:

(1) The contractor, as soon as possible, but not later than three (3) months after the expiration of each fiscal year, shall submit to the contracting officer, a proposed predetermined overhead rate or rates for use during the contract year based on the contractor's actual cost experience during the immediately preceding fiscal year, together with supporting cost data.

(2) Negotiation of predetermined fixed overhead rates shall be for a period of 1 year only and should generally be based on an audit of the institution's costs for the year immediately preceding the year in which the rate is being negotiated. If this is not possible, an earlier audit may be used, but appropriate steps should be taken to identify and evaluate significant variations in costs incurred or bases used which may have a bearing on the reasonableness of the rate proposed by the contractor. (Audits by other Government agencies may be utilized.) In the case of smaller contracts ($100,000 or less), an audit made at an earlier date is acceptable provided (i) there have been no significant changes in the contractor's organization, and (ii) it is reasonably apparent that having another audit made would result in little effect on the rate to be finally agreed upon.

(3) Predetermined overhead rates shall not be used for operating contracts (see Subpart 9–15.50).

(4) The use of predetermined fixed overhead rates in the following circumstances must have the approval of the Manager of the Field Office:

(i) Where ERDA-owned facilities and equipment exceed $1,000,000;

(ii) Where estimated reimbursable costs for the contract are expected to exceed $1 million annually;

(iii) Where there has been no recent audit of the overhead; or

(iv) Where there have been frequent or wide fluctuations in overhead rates and their bases over a period of years.

Subpart 9–15.50—Cost Principles and Procedures

§9–15.5000 Scope of subpart.

(a) This subpart sets forth the general policy and principles for the determination of allowable costs which are applicable to the negotiation and administration of cost-type contracts. Contracting officers shall take action to make this subpart applicable to cost-type subcontracts by: (1) Directing compliance by the prime contractor if consistent with his currently existing contract; or (2) conditioning future contracting approval of subcontracting procedures or subcontracts upon such compliance.

(b) This subpart also provides guidance for the evaluation of costs in negotiated fixed-price contracts and subcontracts where costs incurred are a factor in determining the amount payable. In determining the allowable costs of research and development performed by educational institutions under cost-type contracts and cost-type subcontracts the provisions of FPR Subpart 1–15.3 adapted from BoB Bulletin No. A–21 for common use by Federal agencies, will control. Research-type operating contracts will be governed by the provisions of §§9–15.5005 and 9–7.5006–9.

(c) The terms "reimbursement" and "reimbursable" are used interchangeably in this subpart in relation to "allowable costs" as a matter of editorial convenience. No "reimbursement" is actually involved in those situations where the cost-type contractor makes payments for "allowable costs" from Government funds advanced to him by the ERDA.

(d) Standard cost articles setting forth examples of allowable and unallowable costs are included in §§9–7.5006–9 through 9–7.5006–12.

§9–15.5001 Definitions.

(a) "Cost-type contract" includes cost, cost sharing, and cost-plus-a-fixed-fee contracts.

(b) "Cost-type subcontract" is a cost-type arrangement in any tier under a cost-type prime contract where all higher-tier arrangements are on a cost basis.

(c) "Operating contract" is a cost-type contract for the operation of a Government-owned facility, such as a production facility or a research and development facility.

(d) "Construction contract" is a contract for the construction, alteration, or repair of public buildings and public works.

(e) "Architect-engineer contract" is a contract for architect-engineer services related to the construction, alteration, or repair of public buildings and public works.

(1) "Off-site architect-engineer contract" is a contract where the design work is performed in the contractor's central or branch office.

(2) "On-site architect-engineer contract" is a contract where relatively complete staffing is required for the design work at an office other than a central or branch office of the contractor, and where a minimum of support is required from the contractor's central or branch office staff. The office where the design work is performed may be at the construction site or any other location.

(f) "Supply contract" is a contract for supplies and services, other than operating, construction, architect-engineer, experimental, developmental, or research work and personal services.

(g) "Research and development contract" is a contract for basic research (directed toward the increase of knowledge in science), applied research (involving the determination and expansion of the potentialities of new scientific discoveries or improvement in technology, materials, processes, methods, devices, and techniques including attempts to "advance the state of the art") or development (the systematic use of scientific knowledge which is directed toward the production of, or improvements in, useful products to meet specific performance requirements, but exclusive of manufacturing and production engineering).

§9-15.5002 Responsibilities.

(a) The Controller is responsible for developing and revising the policy and procedures for the determination of allowable costs, and for seing that they are properly coordinated with the General Counsel, the Director of Procurement, and with other Divisions and Offices having joint interests.

(b) Directors of Headquarters Divisions and Offices negotiating contracts, and Managers of Field Offices are responsible for following the policy, principles and standards set forth herein in establishing the compensation provisions of contracts and subcontracts and for submission of deviations for Headquarters consideration.

(c) The General Counsel is responsible for the preparation and interpretation of contracts.

§9-15.5003 Deviation.

Deviations from the policy and principles set forth in this subpart shall not be made unless such action is authorized by the Director of Procurement, after consultation with the Controller, General Counsel, and any other appropriate Headquarters office, on the basis of a written justification stating clearly the special circumstances involved. Where appropriate, any approved deviation shall be reflected in the compensation provisions of the contract.

§9-15.5004 [Reserved]

§9-15.5005 General policy.

The general policy of the ERDA in connection with cost-type contracts and with cost-type subcontracts is as follows:

§9-15.5005-1 Actual cost basis.

(a) ERDA reimburses its contractors for allowable costs actually incurred in the performance of their contracts in accordance with their terms. Such allowable costs are those provided for in the contract to the extent that they are necessary or incident and either directly attributable or equitably allocable to the work under the contract. This broad expression of the ERDA's reimbursement policy is further developed and elaborated upon throughout this subpart.

(b)(1) ERDA uses retrospective or after-the-fact determination, usually called the "actual cost basis," to establish the amount reimbursable to its contractors for their allowable costs. This general policy precludes the use of predetermined fixed-overhead percentage rates except for provisional payment under paragraph (d) of this section.

(2) It is recognized, however, that the total volume of work with a particular contractor in some cases may be so small that computation of the actual indirect costs may not be justified. In such cases it may be administratively desirable to adopt some alternative, such as a predetermined amount for indirect costs. However, a departure from the actual cost basis under a cost-type contract is considered administratively undesirable if the amounts involved are significant, and the use of either a predetermined amount for indirect costs, except under the circumstances noted above, or other alternatives (such as a fixed billing rate for labor and overhead per direct labor hour) shall be submitted to Headquarters for approval. Any firm amount established for indirect costs, whether small or significant, and any other alternative, shall be supported by a well-considered conclusion that the firm amount or other alternative will result in approximately the same compensation for the costs concerned as would likely result from determination on the actual cost basis. The negotiation of predetermined fixed amounts, fixed billing rates, etc., shall be made on the basis of actual cost experience and satisfactory cost projections, and in accordance with the principles and standards set forth in this subpart. Such amounts, rates, etc., will cover allowances only for allowable costs.

(c) When firm compensation for any otherwise allowable cost is negotiated, the items of such cost covered by the fixed amount shall be set forth in the contract or appropriate appendices as unallowable with maximum clarity in order to distinguish between allowable costs subject to reimbursement and costs which are covered by the negotiated fixed amount, and hence excluded from allowable cost in the case of the particular contract.

(d) Provisional payments on account of indirect costs incurred under the contract shall be provided for only after review of the contractor's system of accounting, including system of accounting, including items treated as indirect costs and methods of distributing them or on the basis of previous audits or past experience with the particular contractor. Based on such a review, a provisional overhead rate or rates shall be established taking into consideration the prior year's experience adjusted to eliminate nonrecurring costs and to any new conditions which may be applicable to the future. Such rate or rates shall be applied to an appropriate base or bases for computation of the provisional payments. The elements of indirect cost and the base or bases used in computing provisional payments, shall not be construed as indicating the elements of expense to be distributed or the base or bases of distribution to be employed in the periodic determination of actual overhead. The actual overhead shall be determined not less often than annually and the provisional payments made shall be adjusted accordingly. Prior to final settlement of the entire contract the actual overhead so determined periodically shall be subject to appropriate subsequent adjustment including errors subsequently becoming known. The amount of any adjustment shall promptly be paid or credited by the ERDA to the contractor or by the contractor to the ERDA as the review has determined.

§9-15.5005-2 Compensation through fee.

(a) ERDA compensates operating, construction and on-site architect-engineer contractors through the fixed fee for general and administrative expenses incurred in the general management and administration of the contractor's business as a whole by the contractor's home, divisional or branch offices.

(b) In a particular case, the contractor may be compensated on the basis of allowable cost, rather than through the fixed fee for some or all of the expenses described in paragraph (a) of this section if the Director of Procurement, the Manager of the Field Office, or a representative having the authority to approve the contract, authorizes use of this alternative approach and determines that the negotiated fixed fee reflects proper downward adjustment from that which would otherwise have been established. In the case of no-fee contracts (including contracts providing for nominal or token fees), this category of expense may be either reimbursed on the basis of actual costs or compensated through a predetermined fixed amount.

(c) The above-stated policy does not preclude the payment of expenses merely because they are incurred or accounted for at or by the contractor's home, divisional or branch offices; where expenses of a type typically incurred at construction or operation sites in support of the contract work, are, by reason of a particular contractor's greater centralization, incurred at such offices, rather than at the operation site, such expenses may be reimbursed.

(d) In the case of on-site architect-engineer contracts, the contracting officer may approve performance of some of the work in the contractor's central or branch office location. The direct costs of such work and an equitable portion of such indirect costs at the central office or branch office location as are properly applicable and apportionable to such work are allowable. In such cases, the indirect costs attributable to the performance at a central office or branch office location of work related directly and solely to individual contracts shall be distinguished with care from general and administrative expenses incurred by the contractor's home or branch offices in the general management, supervision, and conduct of its business, since these general administrative expenses are usually compensated for through fee and, in any event, where allowable, are related to and apportionable over all work under the supervision of the office concerned.

(e) As to work performed by an operating contractor in its own facilities, see §9-15.5007-3.

§9-15.5005-3 General basis for determination of costs.

The total reimbursable cost of an ERDA cost-type contract is the sum of the allowable direct costs necessary or incident to the performance of the contract, plus the properly allocable portion of the allowable indirect costs, less applicable income and other credits. In determining allowability and reimbursability of costs, there shall be considered also:

(a) Reasonableness, including the exercise of prudent business judgment;

(b) Application of generally accepted accounting principles and practices appropriate to identify and measure costs of performing the contract in accordance with this subpart;

(c) All exclusions of and limitations on types and amounts of items of cost set forth in the contract; and

(d) Approvals by the contracting officer required under the contract terms. (For examples of allowable and unallowable costs see §§9-7.5006-9 through 9-7.5006-12.)

§9-15.5005-4 Cost determination based on audit.

(a) The amount reimbursable under cost-type contracts shall be determined in accordance with the terms of the respective contracts on the basis of audit. In the event that the contractual terms differ or are inconsistent (see §9-15.5003 for approval of deviations) with the principles stated herein the contractual terms control. The audit is performed directly by ERDA (or by the cognizant Federal agency pursuant to arrangements made by the ERDA) in the case of cost-type contracts. Contracting officers shall assure that cost-type prime contractors assume the responsibility for audit of subcontractors (and provide for the audit of lower tier subcontractors by the subcontractor immediately preceding in the contractual chain) except as noted in this paragraph. Exceptions may be made to this general principle of subcontractors being audited by the next higher-tier contractor, where the latter is interrelated with the subcontractor involved, does not have the necessary audit facilities or for other reasons is not in a position to perform the subcontract audit in a manner satisfactory to the ERDA. In the event of such exception, the subcontract audit responsibility shall rest with the successively higher-tier contractor (or ultimately ERDA), but responsibility for determining the costs reimbursable to the subcontractor remains with the next higher-tier contractor on the basis of such audit.

(b) *Audit by other Federal agencies:* Where the amount of cost-type work to be performed for ERDA in a particular facility is less than that being performed at the same facility for other Federal agencies, arrangements may be made to have the cognizant agency perform the audit of the ERDA contract or subcontract. These arrangements shall be made administratively between ERDA and the other agency involved, and wherever possible shall provide for the cognizant agency to audit against the ERDA cost principles. In no case, however, shall the arrangements preclude determination by the ERDA contracting officer of the allowable and unallowable costs in accordance with ERDA cost principles set forth in §§9-7.5006-9 through 9-7.5006-12. Steps appropriate in the light of the magnitude and nature of the costs shall be taken by the contracting officer to ascertain that the audit results properly reflect the application of ERDA cost principles (particularly as to types and amounts of items of cost including incidence, allocability, and equitable distribution thereof).

§9-15.5005-5 Contractor's system of accounting.

(a)(1) Careful ERDA study of the contractor's usual accounting procedures shall be made prior to arriving at an understanding with the contractor as to the accounting system to be employed by the contractor during the period of contract performance.

(2) The contractor's customary accounting practices are usually accepted if they conform to generally accepted accounting principles, produce equitable results, are consistently applied, are not in conflict with the provisions of this subpart, are conducive to accurate costing of the contract work, and produce reports required by the ERDA.

(b) It is the ERDA's policy to discourage firm contractual provisions relating to the contractor's accounting system (including methods for computing indirect costs) which preclude appropriate retrospective modification. No firm contractual provision shall be included in the contract where there is no previous Government contracting experience with the contractor's methods of operation and accounting. Contracting officers may, however, include firm contractual provisions when there is a comprehensive understanding of the contractor's methods of operation and accounting as a result of Government contracting experience in dealing with the contractor and the contracting officer makes a determination, based on an ERDA study thereof, that the contractor's accounting procedures are likely to produce equitable results in the future as in the past. Such firm contractual provisions shall be subject to adjustment retroactively at the request of either party to the contract when the method of overhead determination has become inequitable as a result of

(1) Any substantial difference accruing between the cost patterns of work under the contract and other work of the contractor; or

(2) Any significant change occurring in the nature of the business, the extent of subcontracting, fixed asset improvement program, the inventories, the volume of sales and production, manufacturing of sales and production, manufacturing processes, the contractor's products, or other relevant circumstances.

§9-15.5006 Advance understandings on particular cost items.

It is important that agreement between ERDA and its contractors be reached in advance of the incurrence of costs in categories where reasonableness or allocability are difficult to determine in order to avoid possible subsequent disallowance or dispute. Any such agreement should be incorporated in cost-type contracts and should govern the cost treatment covered thereby. But the absence of such agreement on any element of cost will not, in itself, serve to make that element either allowable or unallowable. Examples of costs on which advance agreements may be particularly important are:

(a) Deferred maintenance costs;
(b) Precontract costs;
(c) Professional or technical consulting services;
(d) Reconversion costs;
(e) Research and development costs;
(f) Royalties;
(g) Selling and distribution costs;
(h) Unemployment insurance experience ratings;
(i) Employee compensation, travel including relocation costs, and other personnel costs. ERDA utilizes two basic methods of achieving and recording understandings with contractors as to the allowability of employee compensation, travel, and other personnel costs: Negotiation of a personnel appendix to the contract which sets forth the policies, programs, and schedules which are accepted as the basis for determining the allowability of costs; or reviewing and reaching agreement on established policies, programs, and schedules (and any changes thereto during the contract term) applicable to the contractor's private operations which are acceptable for contract work and which will be consistently followed throughout the contractor's organization. Generally, a personnel appendix to the contract is utilized in contracts for work in Government-owned facilities, and in other contract situations when one or more of the following circumstances exist: When policies, programs, and schedules are established specifically for contract work; when the contractor's work is predominantly or exclusively made up of negotiated Government contract work; when contract work is so different from the organization's private work that existing established policies, programs, and schedules cannot reasonably be extended to and consistently applied on contract work; or, when established policies, programs, and schedules proposed for contract work are not sufficiently definitive to permit a clear advance mutual understanding of allowable costs and to provide a basis for audit. Managers of Field Offices are authorized to select the alternative method of achieving and recording advance understanding that they find most appropriate after considering the facts of the particular contract situation. In the case of contracts with an estimated

annual expenditure of less than $250,000 for performance of work not located at Government-owned facilities, Managers of Field Offices may waive advance understandings in the area of compensation, travel, and other personnel costs where they believe that the circumstance does not warrant their use. Employee compensation, travel, and other personnel costs as used in this paragraph include:

(1) Compensation for personal services, including wages and salaries, bonuses and incentives, premium payments, pay for time not worked, and supplementary compensation and benefits, such as pension and retirement, group insurance, severance pay plans, and other forms of compensation covered by §9–15.5010–14;

(2) Morale, health, welfare, and food service and dormitory costs;

(3) Training and education costs; and

(4) Employee travel costs, including travel on official business, relocation of employees, foreign travel, travel of executive officers, and special or mass personnel movement.

§9–15.5007 Direct and indirect costs.

§9–15.5007–1 Explanation of direct costs and indirect costs.

(a) The classification of an item of cost as a direct cost or as an indirect cost has reference to the manner in which the particular cost is charged to or lodged against the products manufactured, work done, or services performed. In general, direct costs are those which are identified as having been incurred specifically for or on account of a particular product (or lots of similar products), work order, job, or contract. Materials, labor, or expenses which relate specifically and solely to the manufacture of a particular product or to the performance of a distinct job or work are broad examples of direct costs.

(b) Indirect costs are comprised of items of material, labor, and expenses which benefit not only a particular product or a specific unit of work but also other production or work and are so related to the particular product or specific task that the amount of the cost which should properly be lodged against it cannot be precisely determined, at least without effort entirely disproportionate to the increased accuracy achieved. There is no universal rule that under every accounting system certain items of cost shall be treated as direct or as indirect costs. It is essential, however, that within the accounting system of any given organization each item of cost be consistently treated in the same manner. Also, since indirect costs must ultimately be lodged against the various products, work orders, jobs or contract which benefit from their incurrence, it is necessary to establish ways or means of apportioning or distributing these indirect costs equitably to all work concerned. Since the means of accomplishing this distribution of indirect costs are necessarily somewhat arbitrary and not precisely correct, accuracy is best attained by treating as direct costs all items of cost which are susceptible of such handling and by limiting to the greatest practical extent the number of items of cost which are treated as indirect costs. The contractor's accounting system should be examined and modified so that such results are achieved. (See §9–15.5005–5.)

§9–15.5007–2 Treatment of indirect costs.

(a) The contractor's indirect costs, which must be appropriately identified and supported by adequate documentation, must be carefully examined with the objective of excluding for reimbursement purposes all types of indirect costs that are either unallowable in nature (see list of examples in standard cost articles §§9–7.5006–9 through 9–7.5006–12) or not properly allocable to performance of work under the ERDA contract. It may be that only a portion of a given pool of indirect costs will fail to meet these tests and require such exclusion. After excluding all such expenses, the remaining indirect costs require allocation by an acceptable method or methods that result in equitable charges to the ERDA contract. Any item or items of indirect cost that are so excluded in whole or in part shall include an amount for absorption of their appropriate share of other related indirect and administrative expenses. Some examples of indirect costs that should include a fair share of other indirect and administrative expenses are: research and development costs, selling expenses, and bidding and proposal costs.

(b) The methods of allocation of indirect costs shall be determined in accordance with the policy and procedure outlined in §9–15.5005–5(b). Careful reviews shall be made from time to time as appropriate, particularly where there is a significant change in the nature or volume of activity, to determine whether the method or methods of allocation previously used continue to be equitable. The ultimate objective in allocating indirect costs is to charge fair shares of the various expenses concerned to the ERDA contract work. The appropriate method or methods of allocation are dependent upon the particular circumstances and conditions; hence, no general rules can be stated as to particular methods or bases of allocating indirect costs applicable and appropriate in all cases. One method may be determined to be appropriate for allocating certain indirect costs but not others, in which case a different method or methods must be established which will equitably allocate the other indirect costs. This means that it may be necessary to establish separate pools of indirect costs for particular items of expense and to use separate methods of allocation for each pool in order to establish equitable results.

§9–15.5007–3 Company general and administrative expenses.

Although the ERDA generally compensates operating, construction and on-site architect-engineer contractors through fee for company general and administrative expenses (see §9–15.5005–2), it allows such company general and administrative expenses under off-site architect-engineer, supply, and research contracts with commercial contractors performing the work in their own facilities. Contractor's general and administrative expenses may, however, be included for reimbursement under ERDA off-site architect-engineer, supply, and research contracts only to the extent that they are established, after careful examination, to be allowable in nature and properly allocable to the work. Work performed in a contractor's own facilities under an operating or construction contract may likewise be allowed to bear the properly allocable portion of allowable company general and administrative expense.

§9–15.5008 Negotiated fixed-price contracts where costs incurred are a factor in determining the amount payable.

§9–15.5008–1 General policy.

See §9–3.807 and FPR 1–3.807.

§9–15.5008–2 [Reserved]

§9–15.5008–3 Contractor's cost accounting system.

Where a fixed price contract with price redetermination provisions (including the incentive type) is involved, it should be determined at the inception of the contract that the contractor's accounting system is maintained in accordance with generally accepted accounting principles and practices and will equitably reflect the costs of contract performance. This may be done either on the basis of a survey of the accounting system, previous experience with the contractor, or by such other means as may be considered satisfactory to the contracting officer.

§9–15.5009 Treatment of indirect costs.

For purposes of allowability, indirect costs, like direct costs, are subject to the requirements of §9–15.5005–3 with respect to the general basis for determination of costs.

§9–15.5009–1 Direct charging of costs.

The nature of some types of cost, possibly significant in amount, and their relationship to the contractor's work may be such as to necessitate their treatment as indirect costs. However, in order to secure the most accurate and equitable results, the various types of cost normally treated as indirect costs by the contractor under its regular accounting procedures should be examined to determine which types should, for purposes

of reimbursement under the ERDA contract, be treated as direct costs. Such action should be taken whenever the increased accuracy that results is sufficiently material to justify the expenditure of the additional time, effort, and expense entailed. Where a type of cost is charged direct to the ERDA contract, no item of a similar character which on the same basis is properly chargeable only to other work should be included in indirect costs apportioned to the ERDA contract. Treatment of items of cost as direct charges, consistently as to both the ERDA contract and the contractor's other work, should be employed to the fullest extent practicable, correspondingly reducing the volume of costs to be treated as indirect costs that require distribution by arbitrary methods which are not precise and accurate and therefore, at best, produce only approximate results.

§9-15.5009-2 Appropriate departmentization.

Appropriate departmentization for cost-reimbursement purposes should be effected between different kinds of productive activity, such as:

(a) Between manufacturing involving substantial expenses of machinery depreciation, machinery operation and maintenance, space, electric energy, tools, etc., and research generating relatively small overhead costs;

(b) Between heavy manufacturing requiring expensive equipment and power machinery, and light manufacturing which by comparison is practically a hand operation;

(c) Between research work requiring an elaborate layout of laboratory facilities and equipment, and research involving primarily the application of mental effort and requiring little or no equipment.

The objective and result should be to burden manufacturing work, or different kinds of manufacturing work, and research work, or different kinds of research work, each with the indirect costs properly applicable to the respective kind of work. If a nondepartmentized plant or individual department is so constituted that the indirect costs, rather than relating fairly proportionately to all work in the plant or department, particularly to the work under the ERDA contract, relate more to some work than to other work, consideration should be given to further departmentization. The costing refinement may be made on a quasi-department basis from data furnished by the existing accounting system or developed on as reasonable an analysis as the facts and circumstances permit. The further departmentization should preferably be incorporated into the contractor's own accounting system.

§9-15.5009-3 Distribution of service department costs to production departments.

The total indirect costs of each productive department include an appropriate share of the costs incurred by the nonproductive or so-called service departments, such as the maintenance department, the power plant department, stores handling department, and tool room department. The basis used to distribute the costs of each individual service department should result in equitable allocation of the service department costs to the productive departments, particularly those productive departments in which work under the ERDA contract is performed. In the case of each service department the distribution method used should be appropriate in the circumstances, whether it be based on number of workers, floor space occupied, measurable services, total labor costs, total labor hours, some other basis, or a combination of methods.

§9-15.5009-4 Distribution of indirect costs of productive departments to work done.

In order to distribute the indirect costs of a productive department to the work done in the particular department, it is necessary that the apportionment be based on a factor which is common to all work performed in the particular department and which closely approximates the extent to which the services represented by the indirect costs of the department are utilized in performing the work done on the individual contracts and work orders. The variety and complexity of production work makes it difficult to determine the most appropriate and equitable common denominator for distributing a department's indirect costs to the department's work. Since, insofar as the use made of services represented by a productive department's indirect costs is concerned, the major factor

common to all work of the department is either direct labor cost or the time required for performance, the methods commonly used for distributing a departmen's indirect costs, each of which is based on one of these two factors, are:

(a) The direct labor cost method.

(b) The direct labor hour method.

(c) The departmental hourly rate method.

(d) The machine hours method. Which of these methods is most appropriate for a particular department depends on whether distribution of the department's indirect costs equitably should be proportionate to the department's costs of direct labor, hours of direct labor, or hours of machine use. If the contractor's departmentization follows sound and recognized lines of organizational subdivision, one of these methods usually will be found sufficiently accurate and equitable to be accepted. If not, departmental refinement or quasi-departmentization may be required, or combinations of the above methods or the development of other methods equitable in the particular circumstances may be necessary.

§9-15.5009-5 General and administrative expenses.

(a) *Allowability.* As indicated in §9-15.5005-3, a contractor's general and administrative expenses may be accepted for apportionment to work under an ERDA off-site architect-engineer (see also §9-3.404-50(f)(1)(iii)), supply, or research contract only to the extent that they are established, after careful examination, to be allowable in nature and, on the basis of incidence to its performance, properly allocable to the work. The following are a few examples of expenses which, although not unallowable because of their basic nature, are not incident to the performance of an ERDA contract:

(1) The salaries and expenses of corporate officers, and their staffs, whose services do not apply to the performance of the ERDA contract work, e.g., those whose services are devoted to sales activities promoting the marketing of the contractor's manufactured products; or to matters completely separate from the contractor's manufactured products, such as the merchandising of products made by others; or to the handling of investments so substantial as to constitute in effect a separate business.

(2) Legal and other expenses in connection with applications for patents for the contractor's account.

(3) Outgoing freight costs, inapplicable to the ERDA contract products because delivery of such products is taken f.o.b. contractor's plant.

(4) Expenses (depreciation, operation, and maintenance of buildings and equipment, labor, and other costs) applicable to warehousing and storage of the contractor's products but not incident to the products under the ERDA contract because they are delivered upon completion.

(5) Expenses of maintenance and repairs which would normally have been performed in an accounting period prior to the period of performance of the ERDA contract but which for some reason—possibly abnormal operating conditions, shortages or high costs of material or labor, or lack of funds—have been deferred.

(b) *Allocation.* No one method of distribution can be stated to be always most equitable and best for purposes of distributing a contractor's allowable and properly allocable general and administrative expenses to individual jobs and, specifically, to work for ERDA. Careful consideration of the expenses themselves, of differences in work performed, and of the relationship of the expenses to the different kinds of productive activity is necessary in each case to assure that the method used produces fair and equitable results in the particular circumstances. Several of the methods frequently employed are briefly discussed below.

(1) Total manufacturing costs (including material) may in many cases be an appropriate basis for distributing general and administrative expenses to jobs in connection with which the relation to one another of the component cost elements is substantially the same as the cost pattern of the contractor's work generally. However, they would be an inappropriate basis in the case of a job whose material cost component, due to heavy material purchases and subcontracting, is abnormally high by comparison with the general cost pattern of the contractor's total work. In such a case the normal general and

administrative expense rate applicable to total manufacturing cost, arrived at on the basis of the general cost pattern of the contractor's work, should be appropriately adjusted because of the special circumstances pertaining to the particular job, or a different basis of allocation should be used to distribute general and administrative expenses to the job. For cost reimbursement purposes, total manufacturing costs generally constitute a more appropriate base for the distribution of general and administrative expenses than does either the total cost of goods sold or total sales. Each of these latter bases may be deficient and inequitable in that it distributes general and administrative expenses to work sold rather than to work performed during the period concerned.

(2) Processing costs are used in many cases as the basis for allocating general and administrative expense. If the major indirect costs attributable to material—such as purchasing, receiving, inspecting or testing, internal handling (to stockrooms and to jobs directly and from stockrooms), storing, inventorying, controlling, and issuing materials—are either included in indirect manufacturing costs or segregated and treated separately as material burden or material-handling expense, it will probably be more equitable to exclude material cost from, than to include it in, the base for allocating general and administrative expense. However, exclusion of material cost from the base for allocation of general and administrative expense where the administrative costs attributable to materials are accounted for as general and administrative expenses might well be subject to the criticism that costs which contribute to the generation of general and administrative expenses are not included in the base for their allocation.

(3) Direct labor cost alone is sometimes used as the basis for allocating general and administrative expenses. However, in many cases use of this method would be inappropriate since it fails to recognize that processing costs other than direct labor and also, to some extent at least, material costs serve to generate and to benefit from the incurrence of general and administrative expense. The propriety of this method would be subject to serious questions in a situation where the cost pattern of a particular job (i.e., the portion of the cost representing labor, other processing costs, and material) differs significantly from the normal cost pattern of the contractor's total work.

(c) *Allocation of home office expenses of multiplant organizations.* In the case of a multiplant organization there will be, in addition to the general and administrative expenses of the individual plants, overall company general and administrative expenses. These latter expenses require distribution or apportionment to all of the company's plants and other activities on an equitable basis or bases. Generally, these overall company expenses are not distributed to the company's various activities as a single pool of expense. Rather, individual classifications of expense or categories of similar types of expenses are spread separately on varied bases—such as number of employees, total payrolls, total manufacturing costs, services rendered, time devoted, and allocations based on the results of detailed studies and analyses in prior years. The total activities of an organization may include, in addition to manufacturing, separate and distinct operations (such as sale and distribution of standard commercial products of the company's own manufacture, merchandising of products made by and purchased from other manufacturers, and investment activities) so varied and dissimilar as to render extremely difficult the problem of determining the proper factors to serve as common denominators for the fair and equitable allocation of the overall company expenses. Moreover, each expenditure within a given expense classification probably does not benefit all activities in the same way and to the same extent as does any other expenditure in the same expense classification. The foregoing serves to emphasize that the relationship of company general and administrative expenses to individual plants and other activities is not susceptible of precise evaluation. The objective must be, as to the particular classification or categories of such expense, a basis of apportionment which accomplishes its reasonable and equitable, though admittedly only approximately correct, distribution to the company's various activities, particularly those in which work for ERDA is performed.

§9-15.5010 Application of basic principles to particular situations.

This guide contains examples of the application of the policy and principles outlined in Subpart 9-15.50 to particular situations.

§9-15.5010-1 Consideration of costs confined to locations involved.

If a contractor does work for ERDA at two or more plants, offices, or departments, the indirect costs of each plant, office, or department will be applied only to the work of the particular plant, office, or department. Separate treatment of plants, offices, and departments for accounting purposes is always important; this importance is further accentuated if one of them is furnished with ERDA equipment. Similarly, where a contractor that operates more than one plant, office, or department does work for ERDA at only one particular location, only the costs applicable to the particular location involved should be considered in costing the ERDA work. The costs related to the other plants, offices, or departments which do not perform services in connection with the ERDA contract, are inapplicable to the work under the ERDA contract.

§9-15.5010-2 Field work.

Where a contractor conducts operational activities both at its plant and at field locations, the apportionment to the field work of indirect operating costs incurred at the plant should be confined to only those expenses which are actually applicable to the field work. For example, indirect labor, idle time of direct labor, and other indirect costs applicable only to the contractor's operational activities at the plant location should not be apportioned to field work. Moreover, if the indirect operating expenses applicable to field work as well as work at the plant are apportioned on the basis of direct labor, direct labor at the field location should, for purposes of the apportionment at least, be distinguished from indirect labor at that location on a basis paralleling the classification of labor as between direct labor and indirect labor at the plant location. Similarly, if idle time of personnel normally treated as direct labor is involved at the field location, such idle time should be excluded from direct labor for purposes of distributing indirect operating costs incurred at the plant that are applicable to the field work. Also, if the field operation's direct labor cost involves wage or salary increments for services abroad or in isolated areas, such increments should be excluded from the direct labor cost base for purposes of distributing applicable indirect operating costs.

§9-15.5010-3 Use of Government-owned facilities.

If the Government furnishes the contractor, or the contractor acquires at Government expense, Government-owned equipment with which to do all or a significant amount of the work under the ERDA contract, on which equipment the Government is bearing the expenses of depreciation, maintenance, insurance, and taxes, appropriate procedures must be established to avoid apportioning to ERDA work performed with ERDA-owned equipment a share of the expenses of depreciation, maintenance, insurance, and taxes on the contractor's equipment not used to perform such work. If the Government-owned equipment is placed in a segregated area, that area should be accounted for as a separate department. If the Government-owned equipment is not placed in a separate area, other steps must be taken to avoid what would amount to a double equipment burden on work performed with the Government-owned facilities. Such work should be so accounted for as to be relieved of charges for expenses related to contractor's equipment not used in its performance.

§9-15.5010-4 Contractor's costs covering plant and equipment.

Charges relating to contractor-owned plant and equipment should be restricted to the applicable costs, such as depreciation, maintenance, insurance, and taxes, and should not be on a rental basis. (Compensation in excess of cost is covered by the fixed fee.) Rentals of plant and equipment owned by third parties are normally allowable if the rates are reasonable in the light of the type, value, and condition of the property involved and option and other provisions of the lease agreement. However, where the plant and equipment used by the contractor is rented by the contractor under a sale and lease-back agreement, only the normal costs (such as depreciation, maintenance, insurance, and taxes) that would have been incurred if the contractor had retained legal title to the facilities should be allowed. Allowances for plant and equipment rented under agreements that are not arms-length transactions should be similarly restrictive.

§9-15.5010-5 Overtime, shift, and holiday premiums.

(a) Overtime, shift, and holiday premiums are allowable only to the extent provided in the contract or approved by the contracting officer. The amount of such premiums charged to an ERDA contract shall be equitable in relation to the amount of such costs charged to other work currently performed in the contractor's plant and the factors which necessitate this incurrence of the cost. When the necessity for overtime, shift, and holiday work arises from inadequacy of the contractor's plant or department to perform its total workload on a purely straight-time basis, inclusions in overhead for apportionment to all work of the plant or department, as the case may be, appears appropriate. When particular work, ERDA or other, is being specially expedited to a point that its fair share of the contractor's purely straight-time efforts on a single-shift basis will not get the particular job completed within the time desired, direct charging of the related premiums appears appropriate.

(b) When premiums for overtime, shift, and holiday work are charged direct to the work concerned, if the operating overhead of the plant or related department is distributed on the basis of direct labor (cost or hours), the premiums should be excluded from the direct labor base for purposes of the overhead distribution. That is, the direct labor base should be, as appropriate, direct labor straight-time costs or direct labor hours actually worked. While the premiums for authorized overtime, shift, and holiday work are acceptable as reimbursable costs, it is generally recognized that direct labor hours worked on an overtime, shift, or holiday basis should participate in indirect costs to the same extent as hours worked on a straight-time basis.

§9-15.5010-6 Outside technical and professional consultants.

Technical and professional consultants, as used here, refers to private individuals acting in their own behalf who make their services available on a fee or per diem basis. It does not refer to employees of firms acting in the firm's behalf whose services may be made available by the firm on, for example, a fixed rate basis. Consultant arrangements may permit bringing to contract work the services of outstanding specialists who would not be available on a full-time basis, or whose employment on a full-time basis would not be economically feasible. Costs of such outside consultant services are normally allowable (however, see §§9-7.5006-9(e)(26); 9-7.5006-10(e)(24); 9-7.5006-11(b); and 9-7.5006-12(e)(22) of this chapter regarding compensation of an individual who is employed by another contractor and concurrently performing work on a full-time annual basis under an ERDA cost-type contract): *Provided*, That, the services are essential to and will make a material contribution to the performance of contract work; the services may be performed more economically or more successfully by a consultant than by the contractor's regular personnel; the fee or per diem charged is reasonable; and when approved by the contracting officer. If the cost of such services is charged directly to the ERDA contract, the cost of like items properly chargeable only to other work of the contractor must be eliminated from indirect costs allocable to the ERDA contract (see §9-15.5009-1).

§9-15.5010-7 Preparatory and make-ready costs.

Since indirect costs are usually apportioned to individual jobs wholly or substantially on the basis of the direct labor applied to the particular job, a contract will absorb no overhead by apportionment prior to the inception of the actual performance of direct work on the contract. The effort of the contractor's overhead organization in preparing for one job and in getting it underway will thus be absorbed by jobs previously commenced and still being performed; later the job which in its initial stages of preparation and make-ready was relieved of expenses that were actually applicable to it will partially absorb, through their apportionment as overhead, similar costs equally applicable in fact to other, subsequently undertaken jobs. This procedure is in accordance with generally accepted accounting practices and normally is reasonably equitable in its results. The initial advantages and subsequent disadvantages to the individual contract that result from consistent application of the procedure tend to offset each other and balance out. It is

quite appropriate, however, to employ the direct charge method in connection with overhead costs in preparing for actual performance by segregating such preparatory and make-ready costs and identifying them specifically with the contract to which the effort actually pertains. However, if preparatory and make-ready costs are charged direct to an ERDA contract, care must be taken, as performance of the ERDA contract work proceeds toward completion, to segregate subsequent indirect expenses similarly applicable to the preparation for and commencement of other jobs and to account for them as direct charges to these other jobs.

§9-15.5010-8 Severance pay.

(a) Severance pay is a payment, in addition to regular salaries and wages but exclusive of payments for vested rights under pension plans, by an organization to personnel whose employment is terminated. Severance pay is allowable as a cost only to the extent that it is required by law, employer-employee agreement, or established policy that constitutes in effect an implied agreement on the contractor's part.

(b) Severance payments are divided into two categories as follows:

(1) Those due to normal, recurring turnover. The actual costs of such payments shall be regarded as expense applicable to the current fiscal year and equitably apportioned to the contractor's activities during that period. Accruals of such normal severance pay will be acceptable in lieu of actual severance pay if the accruals are reasonable in the light of payments actually made due to normal severance over a representative past period.

(2) Those due to abnormal or mass terminations resulting from abrupt cessation of substantial work and inability of remaining work to afford continuing employment at the same level. The actual costs of such severance payments shall be regarded as expense applicable to the approximate average of the entire periods of employment of the terminated employees and equitably apportioned to the contractor's activities during such average period. (Accruals of such abnormal or mass severance pay are not allowable in view of its conjectural nature.)

(c) It will usually be acceptable to apportion severance payments on the basis of the ratio of total severance payments to a suitable base for the period established pursuant to paragraph (b) (1) or (2) of this section, such as payrolls of all employees, direct salaries and wages, etc. The rate so determined shall be applied to the corresponding element of cost on the individual contracts. The rate should be determined on the basis of the operations of individual activities or other organizational units, such as departments, where such separate computations effect more accurate and equitable results. Severance pay should ordinarily not be considered as directly applicable to any particular contract or contracts. The foregoing applies to cost-type supply and research contracts with commercial organizations.

(d) Subject to paragraph (a) of this section, the following standards apply in determining allowability of costs for severance pay plans of operating contractors.

(1) Payments should be made only upon involuntary termination by reduction in force (RIF) of an employee which results in a permanent separation from the employment of the contractor. However, payments may also be made upon voluntary separation of an employee within a RIF grouping but not otherwise scheduled for termination which thereby eliminates the need for terminating another employee involuntarily.

(2) Payments should not be provided for in the event of (i) temporary layoffs, (ii) employment with a replacement contractor (employer) where continuity of employment with credit for prior length of service is preserved under substantially equal conditions of employment, (iii) early or normal retirement, or (iv) continued employment by the contractor at another facility, subsidiary, affiliate, or parent company of the contractor.

(e) The subject of severance pay with reference to educational institutions is discussed in FPR 1-15.309-36.

§9-15.5010-9 Precontract costs.

Precontract costs are those incurred prior to the effective date of the contract directly pursuant to the negotiation and in anticipation of the award of the contract

where such incurrence is necessary to comply with the proposed contract delivery schedule. Such costs are allowable to the extent that they would have been allowable if incurred after the date of the contract. They do not include costs of preparing bids or of participation in the negotiation. The allowability of precontract costs is dependent upon appropriate coverage in the contract.

§9-15.5010-10 Plant reconversion costs.

Plant reconversion costs are those incurred in the restoration or rehabilitation of the contractor's facilities to approximately the same condition existing immediately prior to the commencement of the contract work, fair wear and tear excepted.

§9-15.5010-11 Depreciation.

(a) Depreciation is allowable subject to the following:

(1) The charge represents normal depreciation on a contractor's plant, and equipment.

(2) The charge to current operations is a distribution of the cost of acquisition of a tangible capital asset, less estimated residual value, over the estimated useful life of the asset in a systematic and logical manner.

(3) Any generally accepted accounting method consistently applied to the assets concerned having the approval of the Internal Revenue Service for Federal income tax purposes, if subject to the Internal Revenue Code of 1954, as amended, may be used including:

(i) The straight-line method;

(ii) The declining balance method, using a rate not exceeding twice the rate which would have been used had the annual allowance been computed under the method described in subdivision (i) of this subparagraph;

(iii) The sum of the years-digits method;

(iv) Any other consistent method productive of an annual allowance which, when added to all allowances for the period commencing with the use of the property and including the current year, does not, during the first two-thirds of the useful life of the property, exceed the total of such allowances which would have been used had such allowances been computed under the method described in subdivision (ii) of this subparagraph.

(4) If a nonprofit or tax exempt organization, the method shall be such that it could have had the approval of the Internal Revenue Service had the organization been subject to the Internal Revenue Code of 1954, as amended.

(5) The contractor must use the same approved method of depreciation for costing his contract work as for costing his other work at the same facility.

(6) The method of depreciation shall produce equitable and reasonable results.

(b) Depreciation of the following is unallowable:

(1) Idle or excess facilities (machinery and equipment) other than reasonable standby facilities;

(2) Assets fully amortized or depreciated on the contractor's books;

(3) Unrealized appreciation of values of assets;

(4) Accelerated amortization under Certificates of Necessity or other system in excess of normal depreciation as computed under paragraph (a) of this section.

(c) In entering into contracts involving the use of "special facilities" under section 161 of the Atomic Energy Act of 1954 as amended (section 7 of Public Law 85-681 approved Aug. 19, 1958), the percentage of the total cost of such special facilities devoted to contract performance and chargeable to the ERDA should not exceed the ratio between the period of contract deliveries and the anticipated useful life of such facilities.

§9-15.5010-12 Research and development.

(a) ERDA does not accept a general allocation of independent research and development costs. Such costs are considered unallowable except to the extent specifically set forth in the contract. Research and development costs may be made allowable only to the extent to which they provide a direct or indirect benefit to the contract work.

(b) Independent research and development may be determined to be of benefit to the contract work when it is in the general field of the contract work and where the results may well have some future bearing on the contract work. The words "direct or indirect benefit" are used to allow some flexibility and to permit some basic research in the general field of the contract work.

(c) The determination that an independent research and development project is of benefit to the contract requires the exercise of technical judgment. It is not sufficient that the project relate to the field of atomic energy; technical staff must find that it is related to the contract work. Areas of interest which may relate to the contract work include: Technological methods or processes, materials research, work in the same technical field, etc. For example, independent materials research on aluminum alloy properties might be related to the contract work if a contract concerns the manufacture of fuel elements using aluminum alloy. Beryllium research, on the other hand, would not be relevant in this case. Such research might, however, relate to other ERDA contracts. In master contracts or in contracts where several tasks are involved, to be of benefit the independent research and development project must relate to one or more of the tasks.

(d) A technical appraisal of each of the projects included in the contractor's independent research and development program is necessary to identify any that may be acceptable under the above principle for allocation to the ERDA contract work. In addition to excluding any projects which do not provide a direct or indirect benefit to the ERDA contract work, the following shall also be excluded: (1) Any research and development projects primarily of a promotional nature, such as projects directed toward the development of new business or projects connected with proposals for new business (e.g., a new reactor concept the contractor wants to sell), (2) any studies or projects which are in fact undertaken in whole or in part for other sources, and (3) any such otherwise acceptable project which duplicates research and development work sponsored by ERDA. The cost of research and development which has not met the test of benefit to the contract work should be excluded from any distribution or allocation of overhead to the contract.

(e) Where technical staff or proper skill and qualification is not available or the questions cannot be easily resolved by Field Offices, Headquarters staff should be called into consultation.

(f) After segregating the research and development which has been determined to be of benefit to the ERDA contract work, the cost thereof shall be allocated to the contract work using the method approved by ERDA for the distribution of other overhead expenses.

(g) When ERDA is the predominant customer, special consideration must be given to whether the independent research and development of benefit to the contract work should be performed as part of the contract work. This is necessary to avoid the apportionment to the ERDA of most, if not all, of independent research and development costs over which the ERDA would have no direct control. Only an amount which is reasonable under the circumstances should be allowed. Contracting officers may find it desirable to:

(1) Specify a maximum dollar limitation of independent research and development costs, an allocable portion of which will be accepted by ERDA, or an allocable share of a percentage of the contractor's independent research and development program which will be accepted by ERDA.

(2) Obligate the contractor to give the contracting officer advance notice of any termination of an accepted project or changes which require the contracting officer's approval.

(h) Where ERDA shares in the cost of an independent research and development[1] project of a contractor or subcontractor and its share of the cost (predetermined or actual) bears the percentage relationship indicated below to the total cost for such project during the contractor's or subcontractor's annual accounting period, the following rights shall be obtained in and to technical data and inventions or discoveries made or conceived in the course of or under such project during the contractor's or subcontractor's accounting period:

[1] The term "independent research and development" means either research or development or both. Because of the insignificant amount involved, the situation covered by §9-15.5010-12(k) does not involve a contribution to a contractor's independent research and development project within the meaning of this section.

ERDA's Share	Technical data acquired	Patent rights acquired
Less than 20 percent.	Summary reports, to the extent requested by ERDA, will be furnished on specific independent research and development projects.	None.
20 percent or more, but less than 75 percent.	Summary reports shall be furnished of the pertinent IR&D project indicating the progress and specifying whether any inventions or discoveries were made or conceived during the pertinent accounting period and, if requested by ERDA, a complete and detailed technical report shall also be furnished.	Nonexclusive, irrevocable, paid-up license to ERDA for ERDA purposes.
75 percent or more.	All technical information and data on IR&D projects will be furnished ERDA for dissemination and use as ERDA sees fit, but insofar as such technical information and data disclose patentable subject matter, the same will not be disseminated until patenting action has been taken.	Nonexclusive, irrevocable, paid-up license to the Government for all purposes, with the right to grant sub-licenses for all purposes.

Upon a determination of the percentages as hereinabove provided, the appropriate patent and technical data provision shall be incorporated in the contract in accordance with §9-9.5019.

(i) Determination of the percentage of ERDA's share of the cost of a contractor's independent R&D project shall be made on the basis of the share of such cost provided by all ERDA contracts and subcontracts during the contractor's or subcontractor's annual accounting period.

(j) The field office with the predominant contract interest will be responsible for determining the percentage of the total support provided or to be provided by ERDA when ERDA shares in the costs of an independent research and development project and for including the appropriate contract provisions required.

(k) When the cost of the work involved in segregating the independent research and development which benefits the contract work is disproportionate to the amounts involved, a flat amount not exceeding either (1) 5 percent of the contractor's total estimated cost of independent research and development, or (2) 5 percent of the total estimated cost of direct labor and material under the contract, whichever is less, may be negotiated.

(l) The costs of independent research and development, whether or not accepted as allowable cost, shall include an amount for absortpion of their appropriate share of related indirect and administrative costs.

(m) As in any overhead determination, there shall be proper coordination among field offices (and Headquarters, where desirable) in determining the amount of independent research and development which is allowable where more than one office has a contract or contracts with the same contractor. Where the amount is significant and more than one office is involved, the guidance of Headquarters should be sought.

(n) Any limitation on the reimbursement of independent research and development is not to be used to justify an increase in the fee.

§9-15.5010-13 Bidding expense and costs of proposals.

(a) The costs of preparing bids or proposals (successful or unsuccessful), which are incurred at or properly chargeable to the division, plant, or other principal organization component at which the contract work is being performed, will be allowable if the subject matter of the bids and proposals is applicable to the ERDA program. The subject matter is assumed to be applicable to the ERDA program if the bid or proposal is made either (1) to the ERDA or to an ERDA contractor for work to be performed under an ERDA contract, or (2) to others for the performance of work determined by the contracting officer to be of benefit to the ERDA program.

(b) The costs of preparing bids or proposals shall be allocated only as indirect costs. Bidding costs of the current accounting period of both successful and unsuccessful bids and proposals normally will be treated as allowable indirect costs in which event no bidding costs of past accounting periods shall be allowable in the current period to the ERDA contract.

(c) The costs of preparing bids or proposals shall include an amount for absorption of their appropriate share of related indirect and administrative costs.

(d) The share of bidding expenses and costs of proposals shall not exceed 1 percent of the direct material (exclusive of capital equipment) and the direct labor costs of the contract work. The expense pools should exclude negotiating and promotional expense,

expense properly allocable to research and development, and the expense of salesmen, representatives, or agents who do not provide technical services in connection with the bid or proposal. When the specific expense of bids and proposals allocable to the ERDA program cannot readily be determined, a statistical proportion of the number of proposals applicable to the ERDA program to the total number of peoposals may be used unless such a proportion would produce unreasonable results.

§9-15.5010-14 Compensation for personal services.

(a) *Definition.* Compensation for personal services includes all remuneration paid currently or accrued, in whatever form and whether paid immediately or deferred, for services rendered by employees of the contractor during the period of contract performance. It includes, but is not limited to, salaries, wages, directors' and executive committee members' fees, bonuses (including stock bonuses), incentive awards, employee stock options, employee insurance, fringe benefits, and contributions to pension, annuity, and management employee incentive compensation plans.

(b) *Allowability.* Except as otherwise specifically provided in this §9-15.5010-14, costs of compensation for personal services are to be treated as allowable to the extent that:

(1) Compensation is paid in accordance with policies, programs, and procedures that effectively relate individual compensation to the individual's contribution to the performance of contract work, result in internally consistent treatment of employees in like situations, and effectively relate compensation paid within the organization to that paid for similar services outside the organization;

(2) Total compensation of individual employees is reasonable for the services rendered; and

(3) Costs are not in excess of those costs which are allowable by the Internal Revenue Code and regulations thereunder.

(c) *Reasonableness.* Compensation is reasonable to the extent that the total amount paid or accrued is comparable to compensation paid for similar work in the private competitive economy in the labor market in which the contractor competes. The application of this basic standard of reasonableness may vary according to the contract situation.

(1) When the contractor is substantially engaged in private competitive business, compensation paid employees on private work will usually be an acceptable standard of comparison for evaluating the reasonableness of compensation paid employees performing similar work under ERDA contracts provided that sufficient information is available to the ERDA to permit a determination that compensation is, in fact, consistent.

(2) In other contract situations, information on compensation paid elsewhere in the labor market(s) for similar work, usually as measured by compensation surveys found acceptable by the ERDA, will be the standard of comparison for evaluating the reasonableness of compensation paid employees engaged in work under ERDA contracts.

(3) The standard of comparison (i.e., subparagraph (1) or (2) of this paragraph) for a particular contract situation is determined by the contracting officer after consideration of such factors as the extent and nature of the organization's private competitive business; extent to which contract work would be physically and organizationally integrated with private work; and the contractor's systems for determining, evaluating, and controlling compensation levels.

(4) It is ERDA policy that contractors justify the reasonableness of proposed compensation costs and provide to the contracting officer any supporting information he deems necessary to his evaluation of reasonableness.

(d) *Review and approval of compensation paid individual employees.* In determining the reasonableness of compensation, the compensation of each individual contractor employee normally need not be subjected to review and approval. Generally, the compensation paid individual employees should be left to the judgment of contractors subject to the limitations of ERDA-appeoved compensation policies, programs, classification systems, and schedules; and amounts of money authorized for wage and salary increases for groups of employees. However, all cases of individual total compensation of $25,000 or more shall require review and approval on an individual basis. In addition, it will often

be necessary that employee compensation be subjected to review and approval on an individual basis at a level below $25,000 when the contracting officer finds it appropriate for the particular situation. The contract shall specifically provide for the approval by the contracting officer of the cost of compensating an individual contractor employee above the level determined by the contracting officer (or $25,000) if a total of 50 percent or more of such compensation is reimbursed under ERDA cost-type contracts. For purposes of determining the level for individual review and approval, total compensation as used in this paragraph includes only the employee's base salary and bonus or incentive compensation. As in the case of other personnel and compensation costs, it is intended that contracting officer review and approval of individual compensation normally will be prior to incurrence of costs.

(e) *Special considerations in determining allowability.* Certain conditions require special consideration and possible limitation as to allowability for contract cost purposes where amounts appear excessive. Among such conditions are the following:

(1) Compensation to owners of closely held corporations, partners, sole proprietors, or members of the immediate families thereof, or to persons who are contractually committed to acquire a substantial financial interest in the contractor's enterprise. Determination should be made that such compensation is reasonable for the actual personal services rendered rather than a distribution of profits.

(2) Any change in a contractor's compensation policy resulting in a substantial increase in the contractor's level of compensation, particularly when it is concurrent with an increase in the ratio of Government contracts to other business, or any change in the treatment of allowability of specific types of compensation due to changes in Government policy.

(3) Compensation in lieu of salary for services rendered by partners and sole proprietors will be allowed to the extent that it is reasonable and does not constitute a distribution of profits.

(f) *Limitations on certain forms of compensation.* In addition to the general requirements in paragraphs (a) through (e) of this section, certain forms of compensation are subject to further requirements as specified in paragraphs (g) through (o) of this section.

(g) *Salaries and wages.* Salaries and wages for current services include gross compensation paid to employees in the form of cash, products, or services, and are to be treated as allowable. However, premiums for overtime in excess of statutory requirements, extra-pay shifts, and multishift work are to be treated as allowable to the extent approved by the contracting officer.

(h) *Bonuses and incentive compensation.* Incentive compensation and cash bonuses based on production, cost reduction or efficient performance, suggestion awards, and safety awards are to be treated as allowable to the extent that the contractor's overall compensation plan is determined to be reasonable and such costs are paid or accrued pursuant to an agreement entered into in good faith between the contractor and the employees before the services were rendered, or pursuant to an established plan followed by the contractor so consistently as to imply, in effect, an agreement to make such payment (but see §9-15.5006). In determining reasonableness, it will be necessary to take into account not only bonuses and incentive compensation payments charged directly to the contract but also payments charged indirectly to the contract through overhead. Bonuses, awards, and incentive compensation, when any of them are deferred, are to be treated as allowable to the extent provided in paragraph (k) of this section.

(1) Bonuses and incentive compensation paid to employees other than those whose pay is directly reimbursed will not be made allowable in onsite construction, architect-engineer, and operating contracts where home office general and administrative expense is unallowable.

(2) Employer contributions to incentive compensation plans for the purpose of establishing a reserve for the payment of incentive compensation for services performed in the future are unallowable.

(i) *Bonuses and incentive compensation paid in stock.* Costs of bonuses and incentive compensation paid in the stock of the contractor or of an affiliate are to be treated as allowable to the extent set forth in paragraph (h) of this section (including the incorporation of the principles of paragraph (k) of this section for deferred bonuses and incentive compensation), subject to the following additional requirements:

(1) Valuation placed on the stock transferred shall be the fair market value at the time of transfer, determined upon the most objective basis available; and

(2) Accruals for the cost of stock prior to the issuance of such stock to the employees shall be subject to adjustment according to the possibilities that the employees will not receive such stock and their interest in the accruals will be forfeited.

Such costs otherwise allowable are to be made subject to adjustment according to the principles set forth in paragraph (k) (3) of this section. (But see §9-15.5006.)

(j) *Stock options.* The cost of options to employees to purchase stock of the contractor or of an affiliate is to be made unallowable.

(k) *Deferred compensation.* (1) As used herein, deferred compensation includes all remuneration, in whatever form, for which the employee is not paid until after the lapse of a stated period of years or the occurrence of other events as provided in the plans, except that it does not include normal end of accounting period accruals. It includes (i) contributions to pension, annuity, stock bonuses, and profit-sharing plans, (ii) contributions to disability, withdrawal, insurance, survivorship, and similar benefit plans, and (iii) other deferred compensation, whether paid in cash or in stock.

(2) Deferred compensation is to be treated as allowable to the extent that (i) except for past service pension and retirements costs, it is for services rendered during the contract period; (ii) it represents, together with all other compensation, a reasonable overall compensation plan; (iii) it is paid pursuant to an agreement entered into in good faith between the contractor and employees before the services are rendered, or pursuant to an established plan followed by the contractor so consistently as to imply, in effect, an agreement to make such payments; and (iv) for a plan which is subject to approval by the Internal Revenue Service, it falls within the criteria and standards of the Internal Revenue Code and the regulations of the Internal Revenue Service. (But see §9-15.5006.)

(3) For determining the allowable cost of deferred compensation, contractual provision shall be made for appropriate adjustments for credits or gains, including those arising out of both normal and abnormal employee turnover, or any other contingencies that can result in a forfeiture by employees of such deferred compensation. Adjustments shall be made only for forfeitures which directly or indirectly inure to the benefit of the contractor; forfeitures which inure to the benefit of other employees covered by a deferred compensation plan with no reduction in the contractor's costs will not normally give rise to adjustment in contract costs. Adjustments for normal employee turnover shall be based on the contractor's experience and on foreseeable prospects, and shall be reflected in the amount of cost currently allowable. Such adjustments will be unnecessary to the extent that the contractor can demonstrate that his contributions take into account normal forfeitures. Adjustments for possible future abnormal forfeitures shall be effected according to the following rules:

(i) Abnormal forfeitures that are foreseeable and which can be currently evaluated with reasonable accuracy, by actuarial or other sound computation, shall be reflected by an adjustment of current costs otherwise allowable; and

(ii) Abnormal forfeitures, not within subdivision (i) of this subparagraph may be made the subject of agreement between the Government and the contractor either as to an equitable adjustment or a method of determining such adjustment.

(4) In determining whether deferred compensation is for services rendered during the contract period or is for future services, consideration shall be given to conditions imposed upon eventual payment, such as, requirements of continued employment, consultation after retirement, and covenants not to compete.

(l) *Fringe benefits.* Fringe benefits are allowances and services provided by the contractor to his employees as compensation in addition to regular wages and salaries. Subject to the determination that total compensation is reasonable (see §9-15.5010-14(c)), costs of fringe benefits such as pay for vacations, holidays, sick leave, military leave, employee insurance, pension, and retirement plans, and supplemental unemployment benefit plans are to be treated as allowable, provided such fringe benefits meet the following conditions:

(1) The benefits contribute to the performance of contract work and are appropriate for reimbursement from public funds;

(2) Such benefit plans as exist in the contractor's private operations that are inconsistent with ERDA published requirements are appropriately modified or disallowed;

(3) Employee benefit plans especially established to meet the particular needs of the contract are in conformity with published ERDA policy and standards;

(4) Appropriate controls under the contract are established to assure that employees on contract work are treated no more or no less favorably than employees in the contractor's private operation except to the extent that subparagraphs (2) and (3) of this paragraph apply;

(5) To the fullest extent possible, definite limitations or terminal points are established for each of the various benefit plans, so that ERDA's full liability with respect thereto is established under the contract; and

(6) ERDA has access to all information necessary to complete understanding of the means of computing or determining the extent of the benefits afforded under the various benefit plans.

(m) *Severance pay.* See §9–15.5010–8.

(n) *Training and education expenses.* See §§9–7.5006–9, 9–7.5006–10, and 9–7.5006–12 (d)(8)(v).

(o) *Location allowances.* See FPR 1–12.105.

§9–15.5010–15 Air travel.

It is the policy of the ERDA to require the use of less than first-class air accommodations for all cost-reimbursed travel, except when less than first-class accommodations are not reasonably available to meet necessary mission requirements. For example, less than first-class accommodations are considered not reasonably available where less than first-class accommodations would:

(a) Require circuitous routing,

(b) Require travel during unreasonable hours,

(c) Greatly increase the duration of the flight,

(d) Result in additional costs which would offset the transportation savings,

(e) Offer accommodations which are not reasonably adequate for the medical needs of the traveler.

The difference in cost between first-class air accommodations and less than first-class accommodations is an unallowable cost except as provided for in this section.

§9–15.5010–16 Page charges in scientific journals.

It is a policy of the ERDA to permit ERDA contractors to budget for and pay page charges for scientific journal publication as a necessary part of research costs, in all cases where:

(a) The research papers report work supported by the Government.

(b) The charges are levied impartially on all research papers published by the journal, whether by non-Government or by Government authors.

(c) Payment of such charges is in no sense a condition for acceptance of manuscripts by the journal.

(d) The journals involved are not operated for profit.

(e) The author does not receive an emolument from the journal for the research paper.

§9–15.5010–17 Special funds in the construction industry.

Costs of special "funds," financed by employer contributions, in the construction industry for such purposes as methods and materials research, public and industry relations, market development, disaster relief, etc., are unallowable except as specifically provided in the contract.

§9–15.5010–18 Employee morale, health, welfare, and food service and dormitory costs.

(a) Employee morale, health, and welfare activities are those services or benefits provided by the contractor to its employees to improve working conditions, employer-employee relations, employee morale, and employee performance. These activities include such items as house or employee publications, health or first-aid clinics, recreation, employee counseling services and, for the purpose of this section, food service and dormitory costs. However, these activities do not include and should be differentiated from compensation for personal services as defined in §9–15.5010–14. Food and dormitory services include operating or furnishing facilities for cafeterias, dining rooms, canteens, lunch wagons, vending machines, living accommodations, or similar types of services for the contractor's employees at or near the contractor's facilities or site of the contract work.

(b) Except as limited by paragraph (c) of this section, the aggregate of costs incurred on account of all activities mentioned in paragraph (a) of this section, less income generated by all such activities is allowable to the extent that the net aggregate cost of all such activities as well as the net cost of each individual activity is reasonable and allocable to the contract work. Additionally, advance understandings with respect to the costs mentioned in paragraph (a) of this section are to be reached prior to the incurrence of these costs as required in §9–15.5006.

(c) Losses from the operation of food and dormitory services may be included as costs incurred under paragraph (b) of this section, only if the contractor's objective is to operate such services at least on a break-even basis. Losses sustained because food services or lodging accommodations are furnished without charge or at prices or rates which obviously would not be conducive to accomplishment of the above objective, are not allowable except in those instances where the contractor can demonstrate that unusual circumstances exist, such that, even with efficient management, operation of the services on a break-even basis would require charging inordinately high prices, or prices or rates higher than those charged by commercial establishments offering the same services in the same geographical areas. Typical examples of such unusual circumstances are: (1) Where the contractor must provide food or dormitory services at remote locations where adequate commercial facilities are not reasonably available, or (2) where it is necessary to operate a facility at a lower volume than the facility could economically support. Cost of food and dormitory services shall include an allocable share of indirect expenses pertaining to these activities.

(d) In those situations where the contractor has an arrangement authorizing an employee association to provide or operate a service such as vending machines in the contractor's plant, and retain the profits derived therefrom, such profits shall be treated in the same manner as if the contractor were providing the service (but see par. (e) of this section).

(e) Contributions by the contractor to an employee organization, including funds set over from vending machine receipts or similar sources, may be included as cost incurred under paragraph (b) of this section only to the extent that the contractor demonstrates that an equivalent amount of the costs incurred by the employee organization would be allowable if incurred by the contractor directly.

§9–15.5010–19 Procurements or transfers from contractor-controlled sources by certain cost-type contractors (See §9–59.006(b)).

Allowance for all equipment, materials, supplies, and services which are sold or transferred between any division, subsidiary, or affiliate of the contractor under a common control shall be on the basis of cost incurred in accordance with the terms of the contract, except that when it is the established practice of the transferring organization to price inter-organization transfers of equipment, materials, supplies, and services at other than cost for commercial work of the contractor or any division, subsidiary, or affiliate of the contractor under a common control, allowance may be at a price when:

(a) It is or is based on an "established catalog or market price of commercial items sold in substantial quantities to the general public" in accordance with FPR 1–3.807–1(b)(2); or

(b) It is the result of "adequate price competition" in accordance with FPR 1-3.807-1(b)(1) (i) and (ii), and is the price at which an award was made to the affiliated organization after obtaining quotations on an equal basis from such organization and one or more outside sources which normally produce the item or its equivalent in significant quantity: *Provided*, That in either case:

(1) The price is not in excess of the transferor's current sales price to his most favored customer (including any division, subsidiary, or affiliate of the contractor under a common control) for a like quantity under comparable conditions, and

(2) The price is not determined to be unreasonable by the contracting officer: *Provided, however*, That if the price is determined unreasonable, such determination must be supported by an enumeration of facts on which it is based and approved at a level above the contracting officer.

The price determined in accordance with paragraph (a) of this section should be adjusted, when appropriate, to reflect the quantities being procured and may be adjusted upward or downward to reflect the actual cost of any modifications necessary because of contract requirements.

§9-15.5010-20 Relocation costs.

(a) Relocation costs, for the purpose of this Subpart 9-15.50, are costs incident to the permanent change of duty assignment of an existing employee for a period of no less than 12 months or upon recruitment of a new employee.

(b) Relocation costs may include, but are not limited to, the type of costs covered in paragraphs (c) and (d) of this section and are allowable to the extent therein set forth: *Provided*—

(1) The move is for the benefit of the employer;

(2) Reimbursement is in accordance with an established policy or practice consistently followed by the employer in connection with his private operations, and such policy or practice is designed to motivate employees to relocate promptly and economically;

(3) The costs are not otherwise unallowable under the provisions of the contract or any other paragraph of this Subpart 9-15.50; and,

(4) The amounts to be reimbursed shall not exceed the actual (or reasonably estimated) expenses.

(c) Allowable relocation costs include the following types of expenses:

(1) Travel expenses, including costs of transportation, lodging, subsistence, and reasonable incidental expenses of the employee and members of his immediate family and transportation of his household and personal effects to the new location;

(2) Expenses incurred incident to locating a new home, such as advance trips by employees and spouses to locate living quarters, and temporary lodging and subsistence;

(i) The period for incurrence of costs of the type covered in this subparagraph (2) shall be kept to the minimum number of days necessary under the circumstances but shall not, in any event exceed a cumulative total of 30 days including advance trip and travel time.

(3) Other necessary and reasonable expenses normally incident to relocation, such as costs of canceling an unexpired lease, disconnecting and reinstalling household appliances, and purchase of insurance against damages to or loss of personal property.

(i) Costs of canceling an unexpired lease under this subparagraph (3) shall not exceed three times the monthly rental.

(d) The following types of relocation expenses are allowable but the combined total of costs covered in subparagraphs (1) and (2) of this paragraph shall not exceed 8 percent of the sales price of the property sold:

(1) Closing costs (i.e., brokerage fees, legal fees, appraisal fees, etc.) incident to the sale of the actual residence owned at old location by the employee when notified of the transfer;

(2) Continuing costs of ownership of the vacant former actual residence being sold, such as maintenance of building and grounds (exclusive of fixing-up expenses), utilities, taxes, property insurance, etc., after settlement date or lease date of new permanent residence.

(e) Relocation costs incurred incident to recruitment of new employees are subject to this §9-15.5010-20 except that expenses of the type covered in paragraphs (c)(3) and (d) (1) and (2) of this section are allowable only in connection with the relocation of existing employees and are not allowable for newly recruited employees. Where relocation costs incurred incident to recruitment of a new employee have been allowed either as an allowable direct or indirect cost and the newly hired employee resigns for reasons within his control within 12 months after hire, the contractor shall be required to refund or credit such relocation costs to the Government.

(f) Relocation costs of the following types are unallowable whether incurred by the employee or by the employer:

(1) Loss on sale of home;

(2) Acquisition of a home in a new location (i.e., brokerage fees, legal fees, appraisal fees, etc.);

(3) Continuing mortgage principal and interest payments on residence being sold;

(4) Payments for employee income taxes incident to reimbursed relocation costs.

Subpart 9–16.3—Purchase and Delivery Order Forms

9–16.300 Scope of subpart.
9–16.350 Applicability.
9–16.351 ERDA Standard Order Form 103 (February 1963) Instructions for Use.
9–16.352 [Reserved]
9–16.353 Numbering ERDA Standard Order Form 103.

Subpart 9–16.4—Forms for Advertised Construction Contracts

9–16.400 Scope of subpart.
9–16.404 Terms, conditions, and provisions.
9–16.404–50 ERDA authorized additions to Standard Form 19.
9–16.404–51 ERDA additions to Standard Form 20.
9–16.404–52 ERDA additions to Standard Form 23A, General Provisions (Construction Contract) (October 1969 edition).

Subpart 9–16.7—Forms for Negotiated Architect-Engineer Contracts

9–16.700 Scope of subpart.
9–16.701–50 Forms prescribed.
9–16.703–50 Terms, conditions, and provisions.

Subpart 9–16.8—Miscellaneous Forms

Sec.
9–16.804 Report on procurement.
9–16.804–1 General.

Subpart 9–16.9—Illustration of Forms

9–16.950 Scope of subpart.
9–16.951 ERDA Forms.
9–16.951–1 (ERDA 103) Order.
9–16.951–2 (ERDA 103a) Purchase Order Terms.

Subpart 9–16.50—Contract Outlines

9–16.5000 Scope of subpart.
9–16.5001 Applicability.
9–16.5002 Contract outlines.
9–16.5002–1 Outline of a negotiated fixed-price supply contract.
9–16.5002–2 Outline of a cost-plus-a-fixed-fee-supply contract (performed by commercial concerns in contractor's facilities).
9–16.5002–3 Outline of negotiated-fixed-price-construction contract.
9–16.5002–4 Outline of a cost-plus-a-fixed-fee-construction contract.
9–16.5002–5 Outline of a cost-plus-a-fixed-fee-architect-engineer contract.
9–16.5002–7 Outline of a letter contract.
9–16.5002–8 Outline of special research support agreement with educational institutions.
9–16.5002–9 Outline of cost-type contract for research and development with educational institutions.
9–16.5002–10 Outline of a change order for fixed-price construction contracts.
9–16.5002–11 Outline of a supplemental agreement for fixed-price construction contracts.
9–16.5002–12 Outline of agreement for rental of contractor-owned construction equipment.
9–16.5002–13 Outline of agreement for rental of third party-owned construction equipment.
9–16.5002–14 Outline of inspection report of equipment.

PART 9–16—PROCUREMENT FORMS

§9–16.000 Scope of part.

This part implements FPR Part 1–16 which prescribes the standard forms for use in connection with the procurement of supplies, nonpersonal services, and construction and supplements FPR Part 1–16 by prescribing certain ERDA additions to the standard forms which are used for such procurements and by setting forth ERDA contract outlines for various categories of contracts.

§9–16.050 General policy.

It is the policy of ERDA to use standard forms prescribed by FPR Part 1–16 wherever practicable. Uniformity in form and substance tends to insure impartial treatment of all contractors, expedites negotiation and contract review, and facilitates contract administration.

§9–16.051 Applicability.

This part and FPR Part 1–16 are applicable to direct procurements of supplies, nonpersonal services, and construction.

§9–16.052 Deviations.

Deviations in the standard forms set forth in FPR Part 1–16 shall be made only in accordance with FPR 1–1.009 and §9–1.109. Deviations in the ERDA additions to the standard forms prescribed by this part may be made if necessary in individual cases, if approved by Counsel. A notation of the reasons for deviating from the ERDA additions to the standard forms shall be included in the justification in support of the contract. Deviations in the text of articles may be made in accordance with §§9–1.109 and 9–7.5003. If it becomes necessary to deviate as a matter of standard practice from the ERDA additions to the standard forms prescribed by this part such changes shall be reported to the Director of Procurement, so that consideration can be given to modification of the ERDA additions to the standard forms. The ERDA contract outlines set forth in this part are suggested as models for certain categories of contracts with a view to standardization, to the extent practicable, of contracts in general use. If it becomes necessary to depart as a matter of standard practice from these suggested contract outlines, suggested revisions shall be reported to the Director of Procurement in order that appropriate changes in the outlines may be made from time to time.

Subpart 9–16.1—Forms for Advertised Supply Contracts

§9–16.100 Scope of subpart.

This subpart prescribes the ERDA additions to the standard forms prescribed by FPR Subpart 1–16.1 for use in procuring supplies by formal advertising.

§9–16.104–50 ERDA additions to Standard Form 32, General Provisions (Supply Contract) (November 1969 edition).

(a) The following additional articles and provisions shall be added to Standard Form 32:

23. Alterations and additions.

The following alterations in or additions to the provisions of Standard Form 32, General Provisions, of this contract were made prior to execution of the contract by the parties:

1. Definitions.

(i) The following new paragraph (b) is substituted for paragraph (b) of this clause:

"(b) The term 'contracting officer' means the person executing this contract on behalf of the Government and includes his successor or any duly authorized representative of any such person."

(ii) The following paragraph (d) is added to this clause:

"(d) The term 'ERDA' means the Energy Research and Development Administration or any duly authorized representative thereof, including the Contracting Officer except for the purpose of deciding an appeal under the article entitled 'Disputes'."

24. Patent Indemnity.

The Contractor agrees to indemnify the Government, its officers, agents, servants and employees against liability of any kind (including costs and expenses incurred) for the use of any invention or discovery and for the infringement of any Letters Patent (not including liability, arising pursuant to section 183, title 35 (1952, United States Code, prior to the issuance of Letters Patent) occurring in the performance of this contract or arising by reason of the use or disposal by or for the account of the Government of items manufactured or supplied under this contract.

25. Reporting of Royalties.

If this contract is in an amount which exceeds $10,000 and if any royalty payments are directly involved in the contract or are reflected in the contract price to the Government, the contractor agrees to report in writing to the ERDA (Assistant General Counsel for Patents) during the performance of this contract and prior to its completion or final settlement the amount of any royalties or other payments paid or to be paid by it directly to others in connection with the performance of this contract together with the names and addresses of licensors to whom such payments are made and either the patent numbers involved or such other information as will permit identification of the patents or other basis on which the royalties are to be paid. The approval of the ERDA of any individual payments or royalties shall not estop the Government at any time from contesting the enforceability, validity or scope of, or title, to, any patent under which a royalty or payments are made.

26. Renegotiation (§9-7.5004-20).

27. Federal, State, and local taxes (FPR 1-11.401-1).

Consistent with the language of this article, a provision may be added on advice of Counsel specifically excluding from the contract price designated State and local taxes. Such added provision will not be regarded as a deviation.

28. Notice of labor disputes (§9-7.5006-49).

29. Termination for the convenience of the Government (FPR 1-8.701 or 1-8.705-1, as appropriate).

30. Permits (§9-7.5006-48).

31. Priorities, allocations, and allotments (§9-7.5006-52).

(b) Such of the following clauses as are appropriate shall also be added to Standard Form 32 and numbered in the proper sequence:

1. Special clauses not inconsistent include:

(i) Security (§9-7.5004-11). Specific security requirements not disclosed in this clause, such as physical security requirements shall be included or incorporated by reference to the maximum extent feasible and made readily available to prospective bidders.

(ii) Small business subcontracting program (FPR 1-1.710-3(b), under the circumstances set forth in that section).

(iii) Labor surplus area subcontracting program (FPR 1-1.805-3(b), under the circumstances set forth in that section).

(iv) Classification (§9-7.5004-21).

(v) Utilization of minority business enterprises (FPR 1-1.1310-2(a), under the circumstances set forth in that section)."

(vi) Minority business enterprises subcontracting program (FPR 1-1.1310-2(b), under the circumstances set forth in that section).

(c) Additional special clauses not inconsistent with the above may be added with the approval of Counsel.

Subpart 9-16.3—Purchase and Delivery Order Forms

§9-16.300 Scope of subpart.

This subpart supplements FPR Subpart 1-16.3 by prescribing the administrative requirements for the use of ERDA Standard Order Form 103 (February 1963). Illustration of this form is contained in §9-16.951.

§9-16.350 Applicability.

ERDA Standard Order Form 103 (February 1963) shall be used only for direct ERDA procurement.

§9-16.351 ERDA Standard Order Form 103 (February 1963)—Instructions for Use.

ERDA Standard Order Form 103 (February 1963) is a combination purchase order-delivery order and is designed for the following uses incident to direct ERDA procurement actions:

(a) As a delivery order, regardless of amount, for ordering supplies or services:

(1) Under existing contracts, including contracts or agreements made by other Government agencies, provided the order is issued in accordance with and subject to the terms and conditions of the basic contract or agreement to which specific reference is made on the form;

(2) From other Government agencies.

(b) As a purchase order for open market or negotiated purchases when the amount is not in excess of $2,500 and when use of GSA Standard Form 44 (Purchase Order—Invoice—Voucher), or Standard Form 147 (Order, Invoice, Voucher) is not practicable.

(c) As a purchase order for negotiated purchases when the amount exceeds $2,500. When so used, the terms and conditions of the forms should be supplemented by the applicable requirements of a negotiated fixed-price supply contract set forth in the outline of a negotiated fixed-price supply contract, §9-16.5002-1. Contracting officers should satisfy themselves that the Government's interests are adequately protected through use of the ERDA Standard Order Form 103 rather than a more formal contractual document.

(d) GSA Standard Form 36 (Continuation Sheet, Supply Contract) shall be used as a continuation sheet when required.

§9-16.352 [Reserved]

§9-16.353 Numbering ERDA Standard Order Form 103.

ERDA Standard Order Form 103 shall be numbered in accordance with the instructions in Part 9-53 "Numbering and Distribution of Contracts and Orders."

Subpart 9–16.4—Forms for Advertised Construction Contracts

§9–16.400 Scope of subpart.

This subpart prescribes the ERDA additions to the standard forms prescribed by FPR Subpart 1–16.4 for use in procuring construction by formal advertising.

§9–16.404 Terms, conditions, and provisions.

The deletion of the words in clause 5 of Standard Form 23A authorized by FPR 1–16.404(e) shall not be made without the prior approval of the Director of Procurement.

§9–16.404–50 ERDA authorized additions to Standard Form 19.

(a) Although certain additions to Standard Form 19 are authorized by this section, employing them tends to defeat the purpose of the short form, and careful consideration should be given to the need for any addition before it is included.

(b) The following additional clauses in Standard Form 19 are authorized, if required or deemed appropriate under certain circumstances:

(1) Safety and health (§9–7.5004–12).

(2) Security (§9–5004–11).

(3) Assignment (§9–7.5006–46).

(4) Renegotiation (§9–7.5004–20).

(5) Suspension of work (FPR 1–7.601–4).

(6) The following wage determination clause:

The wage rates set forth are the minimum rates which may be paid to the classifications of laborers and mechanics designated therein pursuant to the Davis-Bacon Act (Act of Mar. 3, 1931, as amended; 40 U.S.C. 276a et seq.). The ERDA does not represent that said minimum wage rates do now, nor that they will at any time in the future, prevail in the locality of the work for such laborers or mechanics; nor that such mechanics or laborers are or will be obtainable at said rates for work under this contract; nor that said rates represent the most recent wage determination by the Secretary of Labor with respect to such classifications of laborers or mechanics in the locality of the work.

(7) Priorities, allocations, and allotments (§9–7.5006–52).

§9–16.404–51 ERDA addition to Standard Form 20.

The following addition shall be made to Standard Form 20:

Wage determination. The wage rates set forth are the minimum rates which may be paid to the classifications of laborers and mechanics designated therein pursuant to the Davis-Bacon Act (Act of Mar. 3, 1931, as amended; 40 U.S.C. 276a et seq.). The ERDA does not represent that said minimum rates do now, nor that they will at any time in the future, prevail in the locality of the work for such laborers or mechanics; nor that such mechanics or laborers are or will be obtainable at said rates for work under this contract; nor that said rates represent the most recent wage determination by the Secretary of Labor with respect to such classifications of laborers or mechanics in the locality of the work.

§9–16.404–52 ERDA additions to Standard Form 23A, General Provisions (Construction Contract) (October 1969 edition).

(a) The following additional articles and provisions shall be added to Standard Form 23A:

22. Alterations and additions.

The following alterations in or additions to the provisions of Standard Form 23A, General Provisions, of this contract were made prior to execution of the contract by the parties:

1. Definitions. The following paragraph (c) is added to this clause:

"(c) The term 'ERDA' means the Energy Research and Development Administration or any duly authorized representative thereof, including the Contracting Officer except for the purpose of deciding an appeal under the article entitled 'Disputes.' "

23. Safety and health (§9–7.5004–12).

24. Termination for convenience of the Government (FPR 1–8.703).

25. Federal, State, and local taxes (FPR 1–11.401–1).

Consistent with the language of this clause, a provision may be added on advice of Counsel specifically excluding from the contract price designated State and local taxes. Such added provision will not be regarded as a deviation.

26. Renegotiation (§9-7.5004-20).

27. Notice of labor disputes (§9-7.5006-49).

28. Priorities, allocations, and allotments (§9-7.5006-52).

(b) Such of the following clauses as are appropriate shall also be added to Standard Form 23A and numbered in proper sequence:

(1) Security (§9-7.5004-11). Specific security requirements not disclosed in this clause, such as physical security requirements, shall be included or incorporated by reference to the maximum extent feasible and made readily available to prospective bidders.

(2) [Reserved]

(3) Classification (§9-7.5004-21).

(4) Small business subcontracting

(5) Utilization of minority business enterprises (FPR 1-1.1310-2(a)).

(6) Minority business enterprises subcontracting program (FPR 1-1.1310-2(b)).

(c) Additional special clauses not inconsistent with the above may be added with the approval of Counsel.

Subpart 9-16.7—Forms for Negotiated Architect-Engineer Contracts

§9-16.700 Scope of subpart.

This subpart prescribes the ERDA additions to the standard forms prescribed by FPR Subpart 1-16.7 for use in procuring architect-engineer services under negotiated fixed-price contracts.

§9-16.701-50 Forms prescribed.

The following provisions shall be included in Standard Form 252 (FPR 1-16.901-252): Architect-Engineer Fixed-Price Contract, Item 6:

(a) *Description of project.*

NOTE: As full a description as is feasible should be inserted. If the architect-engineer services are to be furnished for a construction project, describe the facilities involved, including any auxiliary facilities that may be required.

(b) *Statement of architect-engineer services.* The Contractor shall, within the shortest reasonable time, furnish for the construction project the architect-engineer services described below, subject to such further detailed requirements as may be appended to this Contract by agreement of the parties.

NOTE A: This form of contract provides for completion of the architect-engineer services "within the shortest reasonable time." The form may be modified to provide for completion of separable parts of the work at different times.

NOTE B: When title I, II, or III services are to be furnished, the following language may be used to describe such services. Modifications in the text of this language may be made to omit inappropriate items or, where necessary, to meet particular circumstances.

TITLE I—PRELIMINARY SERVICES

(1) Conduct or arrange for, by subcontract or otherwise as approved by the Contracting Officer, and supervise all necessary topographical and other filed surveys, the preparation of maps, and necessary test borings and other subsurface investigations.

(2) Consult and collaborate with the ERDA to determine the requirements which will govern the design of the project and to establish architectural and engineering criteria for such design.

(3) Conduct preliminary studies, and prepare preliminary sketches, drawings, layout plans, outline specifications and reports, showings features and characteristics of the design proposed to meet the ERDA's requirements. If more than three studies, including sketches, drawings, plans, outline specifications, or documents are required because of changes initiated by the ERDA, an equitable adjustment in the lump-sum compensation will be made in accordance with provisions of the changes article.

(4) The drawings, plans, and outline specifications and documents shall be prepared in such form and furnished in such quantity as directed by the ERDA.

NOTE: Specific quantities of the drawings, plans, outline specifications, and documents should be indicated here or elsewhere in the contract.

(5) Prepare preliminary estimates of cost and time schedules for (i) completion of the design and working drawings and specifications, and (ii) construction.

(6) Prepare preliminary estimates of material quantities required for construction.

TITLE II—DESIGN SERVICES

(1) Upon approval by the ERDA of preliminary plans and estimates, undertake the design of the construction project.

(2) Undertake restudy and redesign work due to minor deviations from the approved preliminary work as may be required by the ERDA.

(3) Prepare and revise, for the approval of the ERDA, and furnish complete sets of contract bidding documents, including working drawings, details and specifications for construction, in such form and quantity and including such provisions as may be required by law or the directions of the ERDA.

NOTE: Specific quantities of drawings and specifications should be indicated here, or elsewhere in the contract.

(4) Prepare, or when directed by the ERDA participate with others in the preparation of, a detailed estimate of the cost of a construction based on the approved design and working drawings and specifications.

(5) Assist the ERDA in securing, analyzing, and evaluating construction bids or proposals.

(6) When requested, consult with and advise the ERDA on any questions which may arise in connection with the architect-engineer services described in this contract.

TITLE III—SUPERVISION OF CONSTRUCTION

(1) Furnish and maintain governing lines and bench marks to provide horizontal and vertical controls to which construction may be referred.

(2) Check and approve, or require revision of, all vendors' shop drawings to assure conformity with the approved design and working drawings and specifications.

(3) Inspect the execution of construction so as to assure adherence to approved working drawings and specifications.

(4) Inspect construction workmanship and materials, and equipment, and report to the ERDA as to their conformity or nonconformity to the approved working drawings and specifications.

(5) Make or procure such field or laboratory tests of construction workmanship and materials, and equipment, as the ERDA may require or approve.

(6) Prepare estimates of reasonable amounts of increase or decrease in Contract price and/or contract completion time for contract modifications, evaluate proposals submitted by the constructor for such contract adjustments and make recommendations to the Contracting Officer for use in negotiating.

(7) Prepare reports and make recommendations on status of deliveries of materials and equipment as the ERDA may require or approve.

(8) Prepare monthly and other reports of the progress of construction, as may be required, and partial, interim and final estimates and reports of quantities and values of construction work performed, for payment or other purposes.

(9) Furnish ——————————set(s) of reproducible "as-built" record drawings of the type specified by the ERDA and ——————————set(s) of mark-up specifications, showing construction as actually accomplished.

§9-16.703-50 Terms, conditions, and provisions.

The additional clauses and provisions listed below shall be added to Standard Form 253: (FPR 1-16.901-253) General Provisions (Architect-Engineer Contract), August 1970 edition, as required. Clauses may be omitted or added with the approval of Counsel.

14. *Alterations and additions*

The following alterations in or additions to the provisions of Standard Form 253, General Provisions, of this contract were made prior to execution of the contract by the parties:

1. Definitions. The following paragraph (c) is added to this clause:

"(c) The term 'ERDA' means the Energy Research and Development Administration or any duly authorized representative thereof, including the Contracting Officer except for the purpose of deciding an appeal under the clause entitled 'Dispute'."

15. *Payment*

(a) *Lump-sum compensation.* The Contractor shall be paid the lump-sum of $—————— which shall constitute full compensation for all services and materials furnished under this Contract except for the costs hereinafter specified in the paragraph entitled "Reimbursement for Certain Costs."

(b) *Reimbursement for certain costs.* The Contractor shall be entitled, in addition to payment of the lump sum hereinbefore provided for, to reimbursement for the following costs to the extent approved by the Contracting Officer, but not to exceed a total of $——————.

(1) The actual costs of labor, materials, and equipment use, and traveling expenses, and approved subcontracts and transportation of things, required for topographical and other field surveys, the preparation of maps, and test borings and other subsurface investigations under this Contract.

(2) The actual costs of labor, materials and equipment use, and traveling expenses for the resident engineer in charge, field engineers, and inspectors, part-time inspectors from the home or branch office, and the supporting field office force as required at the site of the construction project for inspection of construction.

(3) The actual costs of labor and materials and traveling expenses for expediting or inspecting material and equipment, and checking or expediting shop drawings at vendors' plants.

(4) The actual cost of on-site transportation for services listed in (1) through (3) above.

NOTE: This may also be the cost based on a rate or rates approved in advance by the Contracting Officer.

(5) Compensation paid for such outside expert technical assistance, including the services of materials testing laboratories, as is approved in writing by the Contracting Officer in connection with the performance of any of the work under this contract.

(6) The actual costs of labor, materials, and equipment use, or an allowance in lieu of such actual cost at a rate or rates approved in advance by the Contracting Officer, for copies in excess of 20 prints of drawings, specifications, invitations for bid, or other related documents, and revisions

thereto, which are reproduced after title II design is approved by the ERDA and which are for use by the ERDA and its construction contractors. (This does not include "as-built" record drawings and specifications as required under title III services.)

(7) The actual costs of labor, materials, and equipment use for copies of special documents, such as completion reports, that have been prepared in accordance with instructions of the ERDA.

(8) The cost of telegraph and long-distance telephone services required at the construction site for performance of the field engineering services.

(9) Expenses of such travel of the Contractor's responsible supervising representative that might be required in addition to the normal supervision furnished under the fee or specified in the contract.

(10) The actual costs of furniture and equipment (rental or purchase as approved in advance by the Contracting Officer), field office space, utilities, janitorial service, and similar items for use in performing titles I and III field work.

NOTE A: Include only the costs from those listed in this clause that are applicable to the services required under the contract.

NOTE B: This clause provides for lump-sum compensation for certain services and cost reimbursement for other services. If it is desired that the cost reimbursement portion be made on a lump-sum basis or on the basis of negotiated rates (e.g., a fixed amount per day) appropriate revisions in the clause will be required.

NOTE C: If some payments are to be made either on the basis of actual costs or negotiated rates, a limit to the total amount that may be so paid without a modification to the contract should be provided in the payment article for control purposes.

NOTE D: Include the following definitions:

(1) "Labor costs" include:

(i) Wages and salaries.

(ii) Directly related payroll costs (social security and unemployment insurance taxes, workmen's compensation insurance premiums, vacation, sick leave, benefit and welfare plans, etc., required by law, employer-employee agreement, or an established policy of the contractor).

(iii) Home or branch office overhead expenses which are applicable and properly chargeable to the work. The full overhead rate should not be applied to salaries of personnel assigned to continuous field duty. For such personnel, reimbursement should be made at a rate to cover only the cost of specific essential services and supplies furnished by the home or branch office to the field staff and which otherwise would have to be procured in the field. Where it is feasible or practical with respect to particular services or supplies, reimbursement may be made on the basis of actual costs.

(2) Labor costs do not include any of the above costs and expenses applicable to the Contractor's responsible supervising representative, or to an officer, proprietor, executive, or administrative head of the Contractor, except where he participates directly in the performance of any of the services listed in paragraphs (b)(1) through (3) of this clause.

(3) Traveling expenses include the actual cost of travel of persons (employees and, if authorized, their dependents) and subsistence incident to such travel, and transportation of personal household goods and effects, in amounts not exceeding such limits as may be prescribed by the Contracting Officer, or allowances in lieu of such actual cost at rates approved by the Contracting Officer. The cost of transportation between living quarters and the site of the construction project of persons employed at such site is not included unless specifically approved by the Contracting Officer.

(c) *Partial payments on account of lump-sum compensation.* Ninety (90) percent of the lump-sum compensation shall become due and payable in monthly installments in amounts based on the proportion of the work then completed, as determined by the Contracting Officer, and the balance upon completion and acceptance of all work under this contract.

(d) *Reimbursement payments.* (1) Payments for costs which are reimbursable under the provisions of the paragraph entitled "Reimbursement for certain costs" shall be made to the Contractor at intervals stipulated by the Contractor and the Contracting Officer and upon completion and acceptance of the work under this contract.

(2) Notwithstanding any other provision of this contract, when the amount for which the Contractor shall be entitled to reimbursement equals the maximum amount the Government has agreed to reimburse the Contractor under this contract and any modification thereto, the Contractor shall not be expected or required to incur further expenses or obligations under paragraph (b) of this Clause unless and until the Government first increases the maximum amount stipulated in paragraph (b) by appropriate modification thereof, nor shall the Government be obligated to reimburse the Contractor for expenses beyond that amount.

(e) *Final payment.* Upon completion of the work and its acceptance by the Government, and upon the furnishing by the Contractor of a release, in such form and with such exceptions as may be approved by the Contracting Officer, of all claims against the Government under or arising out of this contract, the Government shall promptly pay to the Contractor the unpaid balance of the lump-

sum compensation and reimbursable costs less (i) deductions due under the terms of this contract, and (ii) any sum required to settle any unsettled claim which the Government may have against the Contractor in connection with this contract.

(f) *Supporting documents.* Claims for payment shall be accompanied by such supporting documents and justifications as the Contracting Officer shall prescribe.

(g) *Records and accounts relating to reimbursable costs—Inspection and audit.* The Contractor agrees to keep books of account, records, documents, and other evidence bearing on costs which are reimbursable under the provisions of the paragraph entitled "Reimbursement for certain costs." The method of accounting employed by the Contractor with reference to such costs shall be subject to the approval of the ERDA, but no material change shall be required therein if it conforms to generally accepted accounting practice. All such books of account, records, documents, and other evidence relating to such reimbursable costs shall be subject to inspection and audit by the ERDA at all reasonable times, and the Contractor shall afford the ERDA proper facilities for such inspection and audit. Subject to such other disposition as may be agreed upon by the Contractor and the ERDA, the Contractor shall, for a period of three (3) years after final payment under this contract, or of the time periods for the particular records specified in Part 1-20 of the Federal Procurement Regulations (41 CFR Part 1-20), whichever expires earlier, preserve such of the books of account, records, documents, and other evidence relating to reimbursable costs as are not furnished by the Contractor to the Government in support of payments under the contract.

16. *State and local taxes (FPR 1-11.401-1).*

17. *Subcontracts.*

The Contractor shall not enter into any contractual commitment to a third party which involves the performance in whole or in part of a specific part of the work described in Standard Form 252 under "Statement of Architect-Engineer Services" without the written approval of the Contracting Officer. However, this article is not applicable to a contract of employment.

NOTE: Paragraph (c) of §9-7.5006-29 should be included in the contract if deemed necessary.

18. *Contractor's organization (§9-7.5006-6).*

NOTE: For off-site architect-engineer contracts, substitute the following for paragraph (b):

"A competent supervising representative of the Contractor satisfactory to the Contracting Officer shall be in charge of the work at all times."

19. *Key personnel (§9-7.5007-2).*

20. *Patents (§9-9.5003).*

NOTE: The patent clause should not be departed from except on the advice of the Field Patent Group, or in the absence of such group, on the advice of the Office of the Assistant General Counsel for Patents. In each case it will be necessary to determine whether or not it would be appropriate to add the indemnity clause, with or without modifications.

NOTE: The patent indemnity clause is Clause 15 of Standard Form 23A. For modifications to this indemnity clause, see Note "A" under Article XIX, Patent indemnity, §9-16.5002-4.

21. *Security (§9-7.5004-11).*

NOTE: The security clause includes a paragraph to the effect that the Contractor agrees to conform to all security regulations and requirements of the ERDA. To the maximum extent feasible, specific security regulations and requirements, which are not expressly set forth in the security clause but to which the Contractor may become subject under the paragraph referred to above, shall either be set forth or incorporated by reference in an appendix to the contact.

22. *Safety and health (§9-7.5004-12).*

23. *Permits (§9-7.5006-48).*

24. *Renegotiation (§9-7.5004-20).*

25. *Classification (§9-7.5004-21).*

26. *Utilization of small business concerns (FPR 1-1.710-3(a)).*

27. *Utilization of concerns in labor surplus areas (FPR 1-1.805-3(a)).*

28. *Utilization of minority business enterprises (FPR 1-1.1310-2(a)).*

29. *Property (§9-7.5006-27).*

30. *Reports.*

(The nature and quantity of any reports, such as reports of the progress of the architect-engineer work, which will be required of the contractor shall be set forth in this clause or incorporated by reference in this clause and in an appendix to be attached to the contract. Contracting officers will be expected to require in most cases that reports be furnished at intervals disclosing the progress of the architect-engineer work.)

31. *Suspension of work (FPR 1-7.601-4).*

NOTE: The use of this clause is optional.

Subpart 9-16.8—Miscellaneous Forms

§9-16.804 Report on procurement.

§9-16.804-1 General.

The report on procurement required by and described in FPR 1-16.804, is prepared for the Energy Research and Development Administration by the Division of Procurement, ERDA Headquarters, on the basis of internal reports submitted pursuant to ERDA-PR 9-54, ERDA-PR 9-1.709, and ERDA-PR 9-1.807.

Subpart 9–16.9—Illustration of Forms

§9–16.950 Scope of subpart.

This subpart contains illustrations of ERDA forms used in the procurement and contracting function.

§9–16.951 ERDA Forms.

ERDA forms are illustrated in this section to show their text, format, and arrangement and to provide a ready source of reference. The ERDA forms set forth in the following subsections also show the ERDA form numbers in parenthesis.[1]

§9–16.951–1 (ERDA 103) Order.

§9–16.951–2 (ERDA 103a) Purchase Order Terms.

1. *Definitions.* As used throughout this contract, the following terms shall have the meaning set forth below:

(a) The term "ERDA" means the Energy Research and Development Administration or any duly authorized representative thereof, including the Contracting Officer except for the purpose of deciding an appeal under the clause entitled "Disputes."

(b) The term "Contracting Officer" means the person executing this contract on behalf of the Government, andincludes his successors or any duly authorized representatives of any such person.

2. *Vendor's billing instructions.* Vendor's invoices shall contain the following information: Contract or proposal number (if any), order number, and item number, description of supplies or services, sizes, quantities, unit prices, and extended totals. Bill of lading number and weight of shipment will be shown for shipments made on Government bills of lading. If prepaid parcel-post charges are billed, the gross weight and shipping point must be shown on the invoice.

3. *Convenant against contingent fees.* The Contractor warrants that no person or selling agency has been employed or retained to solicit or secure this contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by the Contractor for the purpose of securing business. For breach or violation of this warranty the Government shall have the right to annul this contract without liability, or in its discretion to deduct from the contract price or consideration, or otherwise recover, the full amount of such commission, percentage, brokerage, or contingent fee.

4. *Officials not to benefit.* No member of or delegate to Congress or resident commissioner shall be admitted to any share or part of this contract or to any benefit that may arise therefrom but this provision shall not be construed to extend to this contract if made with a corporation for its general benefit.

5. *Equal opportunity in employment.* The Equal Opportunity clause in FPR 1–12.803–2 is incorporated herein by reference and is applicable unless this contract is exempt under the rules and regulations of the Secretary of Labor issued pursuant to Executive Order No. 11246 of September 24, 1965 (30 F.R. 12319, Sept. 28, 1965).

6. *Convict Labor.* In connection with the performance of work under this contract, the Contractor agrees not to employ any person undergoing sentence of imprisonment except as provided by Public Law 89–176, September 10, 1965 (18 U.S.C. 4082(c)(2)) and Executive Order 11755, December 29, 1973.

7. *Buy American Act.* (a) In acquiring end products, the Buy American Act (41 U.S.C. 10a–d) provides that the Government give preference to domestic source end products. For the purpose of this clause:

(i) "Components" means those articles, materials, and supplies, which are directly incorporated in the end products;

(ii) "End products" means those articles, materials, and supplies, which are to be acquired under this contract for public use; and

[1] Form ERDA 103 can be obtained from ERDA Headquarters.

(iii) A "domestic source end product" means (A) an unmanufactured end product which has been mined or produced in the United States, and (B) an end product manufactured in the United States if the cost of the components thereof which are mined, produced, or manufactured in the United States exceeds 50 percent of the cost of all its components. For the purposes of this (a)(iii)(B), components of foreign origin of the same type or kind as the products referred to in (b) (ii) or (iii) of this clause shall be treated as components mined, produced or manufactured in the United States.

(b) The Contractor agrees that there will be delivered under this contract only domestic source end products, except end products:

(i) Which are for use outside the United States;

(ii) Which the Government determines are not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities and of a satisfactory quality;

(iii) As to which the Administrator or his designee determines the domestic preference to be inconsistent with the public interest; or

(iv) As to which the Administrator or his designee determines the cost to the Government to be unreasonable.

(The foregoing requirements are administered in accordance with Executive Order No. 10582, dated Dec. 17, 1954.)

8. *Discounts.* In connection with any discount offered, time will be computed from date of delivery of the supplies to carrier when delivery and acceptance are at point of origin, or from date of delivery at destination or port of embarkation when delivery and acceptance are at either of these points, or from date correct invoice or voucher is received in the office specified by the Government if the latter date is later than the date of delivery. Payment is deemed to be made for the purpose of earning the discount, on the date of mailing of the Government check.

9. *Inspection.* Except as may be otherwise provided in this contract, final inspection and acceptance will be made at destination. Supplies rejected at destination for nonconformance with specifications shall be removed by the Contractor at his expense promptly after notice of rejection.

10. *Contract Work Hours and Safety Standards Act—Overtime Compensation.* See the clause set forth in FPR 1-12.303, including the revision to paragraph (c) thereof as required by ERDA-PR 9-12.302.

11. *Federal, State, and local taxes.* Except as may be otherwise provided in this contract, the contract price includes all applicable Federal taxes in effect on the date of this contract but does not include any State or local sales, use, or other tax directly applicable to the completed supplies or services covered by this contract nor any other tax from which the Contractor or this transaction is exempt. Upon request of the Contractor, the Government shall furnish a tax exemption certificate or similar evidence of exemption with respect to any such tax not included in the contract price pursuant to this clause. For the purpose of this clause, the term "date of this contract" means the date of the Contractor's quotation or, if no quotation, the date of this purchase order.

12. *Renegotiation.* If this contract is subject to the Renegotiation Act of 1951, as amended, the contract shall be deemed to contain all the provisions required by section 104 of said Act.

13. *Priorities, Allocations, and Allotments.* The contractor shall follow the provisions of DMS Regulation 1 and all other applicable regulations and orders of the Domestic and International Business Administration, Department of Commerce in obtaining controlled materials and other products and materials needed to fill this order.

Subpart 9-16.50—Contract Outlines

§9-16.5000 Scope of subpart.

This subpart contains ERDA contract outlines for certain categories of contracts.

§9-16.5001 Applicability.

The ERDA contract outlines set forth herein are applicable to all ERDA direct procurement which is within the scope of the various categories covered by the outlines.

§9-16.5002 Contract outlines.

The ERDA contract outlines are set forth in this section to show their format, text, and arrangement and to provide a ready source of reference. Clauses may be omitted or added with the approval of Counsel. The Director of Procurement, may from time to time amend this section to provide contract outlines for additional categories of contracts.

§9-16.5002-1 Outline of a negotiated fixed-price supply contract.

(1) Appropriate provisions setting forth description of supplies, delivery requirements, shipping instructions, and price.
(2) Standard Form 32: General Provisions (Supply Contract).
(3) ERDA additions to Standard Form 32, General Provisions—§9-16.104-50.
(4) Examination of records—§9-7.5004-10.
(5) Priorities, allocations, and allotments §9-7.5006-52.

§9-16.5002-2 Outline of a cost-plus-a-fixed-fee supply contract (performed by commercial concerns in contractor's facilities).

(1) Definitions—§9-7.5005-4.
(2) Statement of work—§9-7.5006-56.
(3) Changes—§9-7.5006-4.
(4) Obligation of funds, estimates of cost (other than operating contracts)—§9-1.5006-14.
(5) Allowable costs and fixed fee—§9-7.5006-10.
(6) Payments—§9-7.5006-25; or, if appropriate, Payments and advances—§9-7.5006-23.
(7) Accounts, records, and inspection—§9-7.5006-1.
(8) Drawings, designs, specifications—§9-7.5006-13.
(9) Examination of records—§9-7.5004-10.
(10) Required bonds and insurance—Exclusive of Government property—§9-7.5006-51.
(11) Property—§9-7.5006-26.
(12) Taxes—§9-11.452.
(13) Contractor procurement—§9-7.5006-29.
(14) Patents—Appropriate patent article or articles in accordance with Part 9-9.
(15) Security—§9-7.5004-11, when required.
(16) Contract Work Hours Standards Act—Overtime Compensation—FPR 1-12.303 with the modification necessary if §9-12.103-51 applies; or Walsh-Healey Public Contracts Act, FPR 1-12.605, if the contract exceeds $10,000.
(17) Notice of labor disputes—§9-7.5006-49.
(18) Buy American Act—§9-7.5004-16.
(19) Termination for default or for convenience of the Government—FPR 1-8.702.
(20) Litigation and claims—§9-7.5006-50.
(21) Renegotiation—§9-7.5004-20.
(22) Classification—§9-7.5004-21, in all contracts involving classified information.
(23) Disputes—FPR 1-7.101-12, modified by substituting "Administrator or his designee" for "Secretary." (See §9-7.5004-3.)
(24) Utilization of small business concerns—FPR 1-1.710-3(a), as required by that section.
(25) Small business subcontracting program—FPR 1-1.710-3(b), as required by that section.
(26) Utilization of concerns in labor surplus areas—FPR 1-1.805-3(a), as required by that section.
(27) Labor surplus area subcontracting program—FPR 1-1.805-3(b), as required by that section.
(28) Changes to make-or-buy program—FPR 1-3.902-3, as required by that section.
(29) Covenant against contingent fees—§9-7.5004-2.

(30) Officials not to benefit—FPR 1-7.102-17.
(31) Equal opportunity—FPR 1-7.102-16.
(32) Convict labor—FPR 1-12.204.
(33) Assignment—FPR 1-7.102-8 or §9-7.5006-46 as appropriate.
(34) Priorities, allocations and allotments—§9-7.5006-52.
(35) Excusable delays—FPR 1-8.708.
(36) [Reserved]
(37) Permits—§9-7.5006-48.
(38) Price reduction for defective cost or pricing data—FPR 1-3.814-1(a), as required by that section.
(39) Subcontractor cost and pricing data—FPR 1-3.814-3(a), as required by that section.
(40) Consultant or comparable employment services of contractor employees—§9-7.5006-45(a).
(41) Utilization of minority business enterprises—FPR 1-1.1310-2(a), as required by that section.
(42) Minority business enterprise subcontracting program—FPR 1-1.1310-2(b), as required by that section.
(43) Listing of employment openings—FPR 1-12.1102-2.
(44) Payment of interest on contractors' claims—FPR 1-1.322(b).

§9-16.5002-3 Outline of negotiated fixed-price construction contract.

1. Standard Forms 19, "Invitation, Bid and Award;" 19-A., "Labor Standards Provisions;" 23, "Construction Contract," and 23-A., "General Provisions (Construction Contract)" and any ERDA additions thereto which are authorized by this part may be used when the ERDA enters directly into a fixed-price construction contract, by competitive proposals or by other means of negotiation.

2. The Standard Forms should be modified in the following respects:

a. Delete the word "publicly" before the word "opened" wherever it appears.

b. Delete the word "bid" or "bids" wherever used and insert the word "proposed" or "proposals."

c. Delete the word "bidder" and insert the word "offeror" wherever it appears.

d. Delete the word "bidding" wherever it appears and insert the word "proposal."

3. Add the following clauses to the Standard forms:

a. Examination of records—§9-7.5004-10.

b. Priorities, allocations, and allotments—§9-7.5006-52.

§9-16.5002-4 Outline of a cost-plus-a-fixed-fee-construction contract.

This contract, entered into the ————day of ————————, 19——, effective as of the ———— day of ————————, 19——, between the United States of America (herinafter called the "Government"), acting through the Energy Research and Development Administration (hereinafter called the "ERDA"), and ———— (hereinafter called the "Contractor").

Witnesseth that:

Whereas, the ERDA finds that the common defense and security require that construction of certain facilities, hereinafter more particularly described, that ————————; and

(A statement of grounds which permit contracting without formal advertising and render a contract on a lump sum or unit price basis impracticable, should be inserted in this recital.)

Whereas, the Contractor is willing to undertake the performance of such construction work on a cost-plus-a-fixed-fee basis; and

Whereas, the ERDA finds that the Contractor is best qualified to perform the work, all relevant factors considered; and

Whereas, the ERDA certifies that this negotiated contract is authorized by and executed under the Energy Reorganization Act of 1974 and other applicable law, including the Atomic Energy Act of 1954, in the interest of the common defense and security.

Now therefore, the parties hereto agree as follows:

Article I—Definitions. Insert contract clause as set forth in §9-7.5005-4.

Article II—Statement of work. Insert contract clause set forth in §9-7.5006-56.

Article III—Changes. Insert contract clause set forth in §9-7.5006-4.

Article IV—Obligation of funds, estimates of cost (other than operating contracts). Insert contract clause set forth in §9-7.5006-14.

Article V—Allowable costs and fixed fee. Insert contract clause set forth in §9-7.5006-9.

(Payments for the use of the contractor's own construction plant and equipment are made subject to an appendix to be attached at the time of execution of the construction contract or subsequently added by agreement of the parties. Payment for rental by the prime contractor of construction plant and equipment from third parties is made subject to rental agreements to be approved by the contracting officer. If such rental agreements are modified to include the services of operators, adjustments may be required to avoid conflicts with the labor provisions of the construction contract. See Subpart 9-18.50.)

Article VI—Payments. Insert contract clause set forth in §9-7.5006-25 using 10 percent in the second sentence of subparagraph (b).

NOTE A. An election is permitted between straight reimbursement for allowable costs incurred and claimed by the Contractor and the system approved by the ERDA of advances to the Contractor. A firm agreement should be reached at the outset as to one or the other of these methods of making payment for allowable costs and the appropriate article included in the contract. Payments on account of the fixed fee will in any case be made only as earned and claimed in accordance with contract provisions. (See Part. 9-30.)

NOTE B. If it is contemplated that advances will be made to the Contractor, substitute the clause set forth in §9-7.5006-23 and require special bank account agreement as set forth in §9-7.5006-24.

Article VII—Assignment. Insert contract clause set forth in §9-7.5006-46.

Article VIII—Accounts, records, and inspection. Insert contract clause set forth in §9-7.5006-1.

NOTE: The provisions in this clause relating to records and accounts are designed to permit the use of ERDA's integrated accounting system whether the reimbursement method or the advances method of payment is employed.

Article IX—Examination of records. Insert contract clause set forth in §9-7.5004-10.

Article X—Workmanship and materials. Insert contract clause as set forth in §9-7.5006-32.

Article XI—Property. Insert contract clause set forth in §9-7.5006-26.

Article XII—Required bonds and insurance-exclusive of Government property. Insert contract clause set forth in §9-7.5006-51.

Article XIII—State and local taxes. The Contractor agrees to notify the Contracting Officer of any tax, fee, or charge:

(a) From which exemption is granted by State or local law, or

(b) Which is invalid under any provision of the Constitution of the United States levied or purported to be levied on the Contractor in respect of this Contract and to refrain from paying any such tax, fee, or charge unless otherwise authorized by the Contracting Officer. The Contractor further agrees to take such steps as may be required by the Contracting Officer to cause any such tax, fee, or charge to be paid under protest and, if so directed by the Contracting Officer, to cause to be assigned to the Government or its designee any and all rights to the abatement or refund of any such tax, fee, or charge, or to permit the Government to join with the Contractor in any proceedings for the recovery thereof or to sue for recovery in the Contractor's name.

The Government shall save the Contractor harmless from penalties and interest incurred through compliance with this article.

Article XIV—Litigation and claims. Insert contract clause set forth in §9-7.5006-50.

Article XV—Contractor procurement. Insert contract clause set forth in §9-7.5006-29.

Article XVI—Safety and health. Insert contract clause set forth in §9-7.5004-12.

Article XVII—Contractor's organization. Insert contract clause set forth in §9-7.5006-6.

Article XVIII—Key personnel. Insert contract clause set forth in §9-7.5007-2.

Article XIX—Patent indemnity. Insert General Provision "15" of Standard Form 23A.

NOTE A: Basically, no patent provisions beyond the usual indemnity clause should be included. Alteration of this clause as to specified items is a matter to be dealt with by negotiation, if the question is raised by a prospective contractor. In particular cases involving technical facilities, the inclusion of additional provisions relating to title and rights in inventions and discoveries, with appropriate alteration of the indemnity clause, will be required in the interest of the Government. The patent indemnity clause may be modified by deleting the opening words, "Except as otherwise provided," and by adding at the end of the article an exception set forth in (1) or (2) below under circumstances therein.

(1) Certain construction contracts may call for items or parts thereof which are standard commercial supplies and also for items which require modifications in the course of the performance of the work. In such event the patent idemnity article set forth above may be appropriately modified. To cover such circumstances, the following modification should be added at the end of the patent indemnity article:

", except, however, infringement necessarily resulting from the contractor's compliance with written specifications or provisions for other than standard parts or components manufactured or supplied by the contractor or resulting from specific written instructions given by the ERDA for the purpose of directing a manner of performance of the contract not normally utilized by the contractor."

(2) In some instances certain specific items should be excluded from the indemnification, and where such items or parts can be identified as nonstandard commercial components or parts, the following provision may be added at the end of the patent indemnity article:

"except that this indemnity shall not apply to the following items or parts (specifically identifying and listing the items or parts to be excluded)."

NOTE B: The alterations of the indemnity clause should be made upon the advice of the Field Patent Group or, in the absence of such group, on the advice of the Office of the Assistant General Counsel for Patents.

Article XX—Security. Insert contract clause set forth in §9–7.5004–11.

NOTE: The security clause includes a provision under which the contractor agrees to conform to all security regulations and requirements of the ERDA. This provision will support security actions which are not expressly mentioned in the security article but are required by the ERDA, whether in the form of general rules or "one-time" requirements. Examples are actions to promote physical security and control of classified matter.

Article XXI—Disputes. Insert contract clause as set forth in §9–7.5004–3.

Article XXII—Labor.

(a) *Davis-Bacon Act (Act of Mar. 3, 1931, as amended; 40 U.S.C. 276a and following)*— Insert contract clause set forth in Standard Form 19A with the modification necessary if §9–12.103–51 applies.

NOTE: This clause includes provisions required by regulations of the Department of Labor. Part 3, Title 29, Subtitle A, Code of Federal Regulations (7 F.R. 687 as amended) and Part 5, Title 29, Subtitle A, Code of Federal Regulations (16 F.R. 4430) as amended.

(b) *Contract Work Hours Standards Act—Overtime Compensation.* Insert contract clause set forth in Standard Form 19A with the modification necessary if §9–12.103–51 applies.

(c) *Apprentices*—Insert contract clause set forth in Standard Form 19A.

(d) *Payrolls and payroll records.* Insert contract clause set forth in Standard Form 19A.

(e) *Compliance with Copeland Regulations.* Insert contract clause set forth in Standard Form 19A.

(f) *Withholding of funds.* Insert contract clause set forth in standard Form 19A.

(g) *Subcontracts.* Insert contract clause set forth in Standard Form 19A.

(h) *Equal opportunity.* Insert contract clause set forth in FPR 1–7.102–16.

(i) *Convict labor.* Insert contract clause set forth in FPR 1–12.204.

(j) *Contract termination—Debarment.* Insert contract clause set forth in Standard Form 19A.

Article XXIII—Notice of labor disputes. Insert contract clause set forth in §9–7.5006–49.

Article XXIV—Covenant against contingent fees. Insert contract clause as set forth in §9–7.5004–2.

NOTE: In the event a contractor is unwilling to include a covenant against contingent fees in subcontracts and purchase orders, or if the contracting officer deems such inclusion inadvisable, the matter shall be brought to the attention of the Director of Procurement with a statement of the reasons.

Article XXV—Officials not to benefit. Insert contract clause as set forth in §9–7.5004–5.

Article XXVI—Buy American Act. Insert contract clause as set forth in §9–7.5004–17.

Article XXVII—Termination for default or for convenience of the Government. Insert contract clause set forth in FPR 1–8.702 with the modification required by FPR 1–8.700–2(a)(3).

Article XXVII—Drawing, designs, specifications. Insert contract clause set forth in §9–7.5006–13.

Article XXIX—Permits. Insert contract clause set forth in §9–7.5006–48.

Article XXX—Renegotiation. Insert contract clause set forth in §9–7.5004–20, if the contract is subject to the Renegotiation Act of 1951, as amended.

Article XXXI—Alterations and additions. Insert contract clause set forth in §9–7.5006–2.

Article XXXII—Utilization of small business concerns. Insert contract clause set forth in FPR 1–1.710–3(a) under the conditions and in the manner prescribed in that section.

Article XXXIII—Small business subcontracting program. Insert the clause set forth in FPR 1–1.710–3(b) under the conditions and in the manner prescribed in that section.

Article XXXIV—Utilization of minority business enterprises. Insert the clause set forth in FPR 1–1.1310–2(a) under the conditions and in the manner prescribed in that section.

Article XXXV—Minority business enterprises subcontracting program. Insert the clause set forth in FPR 1–1310–2(b) under the conditions and in the manner prescribed in that section.

Article XXXVI—Priorities, allocations, and allotments. Insert contract clause set forth in §9–7.5006–52.

Article XXXVII—Listing of Employment openings. Insert contract clause set forth in FPR 1–12.1102–2

Article XXXVIII—Payment of Interest on Contractors' Claims. Insert contract clause set forth in FPR 1–1.322(b).

In witness whereof, the parties hereto have executed this contract as of the day and year above written.

I, ———————, (Attorney) certify that I am the ——————— (Title) of the Contractor named in this contract; that ——————— (Signatory) who signed this contract on behalf of said Contractor was then ——————— (Title) of said Contractor; that this contract was duly signed for and on behalf of said Contractor by authority of its governing body and is within the scope of its legal powers.

In witness whereof, I have hereunto affixed my hand and the seal of said Contractor.

[SEAL] ———————————————

§9–16.5002–5 Outline of a cost-plus-a-fixed-fee architect-engineer contract.

This contract, entered into the ————day of ————————, 19——, effective as of the ———— day of ————————, 19——, between the United States of America (hereinafter called the "Government"), acting through the Energy Research and Development Administration (hereinafter called the "ERDA"), and ———————————— (hereinafter called the "Contractor").

Witnesseth that:

Whereas, the ERDA finds that the common defense and security require the furnishing of architect-engineer services for a construction project, hereinafter more particularly described, that ———————————— and

A statement of grounds which render a contract on a lump-sum basis impracticable, should be inserted in this recital.

Whereas, the Contractor is willing to undertake the performance of such architect-engineer services on a cost-plus-a-fixed-fee basis; and

Whereas, the ERDA, finds that the Contractor is best qualified to perform such services, all relevant factors considered; and

Whereas the ERDA certifies that this negotiated contract is authorized by and executed under the Atomic Energy Act of 1954, as amended, in the interest of the common defense and security;

NOTE: The appropriate authority under the Federal Property and Administrative Services Act of 1949, as amended, should also be cited.

Now therefore, the parties hereto agree as follows.

Article I—Definitions. Insert contract clause as set forth in §9–7.5005–4.

Article II—Statement of work.

(a) *Description of construction project.* The construction project for which architect-engineer services are to be furnished comprises ———————————— ————————————————————————————————————

NOTE: As full as description as is feasible of the construction project should be inserted. If the architect-engineer work is to cover auxiliary facilities required for construction, this paragraph should include a reference to such facilities. ———————————— The construction project will be located at ———————— on a site ————————.

(b) *Statement of architect-engineer services.* The Contractor shall furnish for the construction project the architect-engineer services described in Title ————, below, subject to such further detailed requirements as may be appended to this Contract by agreement of the parties.

NOTE: This paragraph shall be modified if necessary to omit inappropriate matter or to adapt it to particular circumstances. More detailed requirements, applying security, safety and other policy standards to the preparation of drawings and specifications may be incorporated in an appendix to the contract.

TITLE I—PRELIMINARY SERVICES

(1) Conduct or arrange for, by subcontract or otherwise as approved by the Contracting Officer, and supervise all necessary topographical and other field surveys, the preparation of maps, and necessary test borings and other subsurface investigations.

(2) Consult and collaborate with the ERDA or its designees to determine the requirements which will govern design of the project and to establish architectural and engineering criteria for such design.

(3) Conduct preliminary studies, and prepare preliminary sketches, drawings, layout plans, outline specifications and reports showing features and characteristics of the design proposed to meet the ERDA's requirements.

(4) Prepare preliminary estimates of cost and time schedules for (i) completion of the design and working drawings and specifications, and (ii) construction.

(5) Prepare preliminary estimates of material quantities required for construction.

TITLE II—DESIGN SERVICES

(1) Upon approval by the ERDA of preliminary plans and estimates, undertake the design of the construction project.

(2) Undertake restudy and redesign work due to such changes and deviations within the scope of the construction project from approved preliminary work as may be required by the ERDA.

(3) Prepare and revise, for the approval of the ERDA, and furnish working drawings, details and specifications for construction, and contract bidding documents in such form and quantity and including such provisions as may be required by law or the directions of the ERDA.

(4) Prepare, or when directed by the ERDA, participate with others in the preparation of, a detailed estimate of the cost of construction based on the approved design and working drawings and specifications.

(5) Assist the ERDA in securing, analyzing, and evaluating proposals and bids for materials, equipment, and services required for construction.

(6) When requested, consult with and advise the ERDA on any questions which may arise in connection with the architect-engineer services described in this contract.

TITLE III—SUPERVISION OF CONSTRUCTION

(1) Furnish and maintain governing lines and benchmarks to provide horizontal and vertical controls to which construction may be referred.

(2) Check and approve, or require revision of, all vendors' shop drawings to assure conformity with the approved design and working drawings and specifications.

(3) Inspect the execution of construction so as to assure adherence to approved drawings and specifications.

(4) Inspect construction workmanship and materials, and equipment, and report to the ERDA as to their conformity or nonconformity to the approved drawings and specifications.

(5) Make or procure such field or laboratory tests of construction workmanship and materials, and equipment, as the ERDA may require or approve.

(6) Prepare estimates of reasonable amounts of increase or decrease in contract price and/or contract completion term for contract modifications, evaluate proposals submitted by the constructor for such contract adjustments and make recommendations to the Contracting Officer for use in negotiating.

(7) Prepare reports and make recommendations on status of deliveries of materials and equipment as the ERDA may require or approve.

(8) Prepare monthly and other reports of the progress of construction, as may be required and partial, interim and final estimates and reports of quantities and values of construction work performed, for payment or other purposes.

(9) Furnish ————set(s) of reproducible "as built" record drawings of the type specified by the ERDA and ————set(s) of marked-up specifications showing construction as actually accomplished.

Article III—Changes. Insert contract clause set forth in §9-7.5006-4.

Article IV—Obligation of funds, estimates of cost (other than operating contracts). Insert contract clause set forth in §9-7.5006-14.

Article V—Allowable costs and fixed fee. Insert contract clause set forth in §9-7.5006-12.

NOTE: For onsite architect-engineer contracts central and branch office expenses may be included in allowable costs only if expressly authorized by the Contracting Officer.

Article VI—Payments. Insert clause set forth in §9-7.5006-25 using 10 percent in the second sentence of subparagraph (b).

NOTE A: Normally, payment for architect-engineer allowable costs incurred and claimed is made on the basis of straight reimbursement. Provision is made, however, for advancing funds to the

contractor should that be deemed advisable. Payments on account of the fixed fee shall in any case be made only as earned and claimed in accordance with contract provisions. See Part 9-30.

NOTE B: If it is contemplated that advances will be made to the contractor, substitute the clause set forth in §9-7.5006-23 and require special bank agreement set forth in §9-7.5006-24.

Article VII—Assignment. Insert contract clause set forth in §9-7.5006-46.

Article VIII—Accounts, records, and inspection. Insert contract clause set forth in §9-7.5006-1.

NOTE: The provisions relating to records and accounts are designed to permit the use of ERDA's integrated accounting system whether the reimbursement method or the advance method of payment is employed.

Article IX—Examination of records. Insert contract clause as set forth in §9-7.5004-10.

Article X—Responsibility for design and working drawings and specifications. The granting of approvals by the ERDA under the paragraph entitled "Statement of Architect-Engineer Services" of the article entitled "Statement of Work" shall not affect the responsibility of the Contractor for the design, nor for the correctness of working drawings and specifications.

Article XI—Property. Insert contract clause set forth in §9-7.5006-26.

Article XII—Drawings, designs, specifications. Insert contract clause set forth in §9-7.5006-13.

Article XIII—Required bonds and insurance—exclusive of Government property. Insert contract clause set forth in §9-7.5006-51.

Article XIV—State and local taxes. The Contractor agrees to notify the Contracting Officer of any tax, fee, or charge (a) from which exemption is granted by State or local law, or (b) which is invalid under any provision of the Constitution of the United States levied or purported to be levied on the Contractor in respect of this Contract and to refrain from paying any such tax, fee, or charge unless otherwise authorized by the Contracting Officer. The Contractor further agrees to take such steps as may be required by the Contracting Officer to cause any such tax, fee, or charge to be paid under protest and, if so directed by the Contracting Officer, to cause to be assigned to the Government or its designee any and all rights to the abatement or refund of any such tax, fee, or charge, or to permit the Government to join with the Contractor in any proceedings for the recovery thereof or to sue for recovery in the Contractor's name. The Government shall save the Contractor harmless from penalties and interest incurred through compliance with this article.

Article XV—Litigation and claims. Insert contract clause set forth in §9-7.5006-50.

Article XVI—Subcontracts and purchase orders—When subcontracts authorized—Requirements applicable to subcontracts and purchase orders. The Contractor shall, when ordered by the Contracting Officer, and may, but only when authorized by the Contracting Officer, enter into subcontracts in writing for the performance in whole or in part of the work described in paragraph entitled "Statement of Architect-Engineer Services" of the article entitled "Statement of Work." Purchase orders shall not be entered into by the Contractor for items whose purchase is expressly prohibited by the written directions of the Contracting Officer. All subcontracts for the performance in whole or in part of the work described in paragraph entitled "Statement of Architect-Engineer Services" of the article entitled "Statement of Work" shall be submitted to the Contracting Officer for approval. The Government reserves the right at any time to require that the Contractor submit any or all other contractual arrangements, including but not limited to purchase orders or classes of purchase orders, for approval, and provide information concerning methods, practices, and procedures used or proposed to be used in subcontracting and purchasing. The Contractor shall use methods, practices, or procedures in subcontracting or purchasing which are acceptable to the ERDA. Subcontracts and purchase orders (note A) shall be made in the name of the Contractor, shall not bind or purport to bind the Government, shall not relieve the Contractor of any obligation under this Contract (including among other things, the obligation properly to supervise and coordinate the work of subcontractors), and shall be in such form and contain such provisions as are required by this Contract or as the Contracting Officer may prescribe.

NOTE A: The words "shall be made in the name of the Contractor, shall not bind nor purport to bind the Government" are optional and may be used or omitted, as appropriate.

NOTE B: Paragraph (c) of §9-7.5006-29 shall be included in the contract if it is contemplated that the contractor will be required to procure any equipment, materials, supplies, or services of the kind and character manufactured or sold by contractor-controlled sources.

Article XVII—Safety and health. Insert contract clause set forth in §9-7.5004-12.

Article XVIII—Contractor's organization. Insert contract clause set forth in §9-7.5006-6.

NOTE: For offsite architect-engineer contracts, substitute the following for paragraph (b):

"A competent supervising representative of the Contractor satisfactory to the Contracting Officer shall be in charge of the work at all times."

Article XIX—Key personnel. Insert contract clause set forth in §9-7.5007-2.

Article XX—Patents. Insert contract clause set forth in §9-9.5003.

NOTE: The patent clause should not be departed from except upon the advice of the Field Patent Group or in the absence of such group on the advice of the Office of the Assistant General Counsel for Patents. In each case it will be necessary to determine whether or not it will be ap-

propriate to add the indemnity clause with or without modifications. The patent indemnity clause is Clause 15 of Standard Form 23A. For modifications to indemnity clause see note "A" under Article XIX, Patent Indemnity, §9-16.5002-4.

Article XXI—Security. Insert contract clause set forth in §9-7.5004-11.

NOTE: The security clause includes a provision under which the contractor agrees to conform to all security regulations and requirements of the ERDA. This provision will support security actions which are not expressly mentioned in the security clause but are required by the ERDA, whether in the form of general rules or "one-time" requirements. Examples are actions to promote physical security and control of classified matter.

Article XXII—Disputes. Insert contract clause as set forth in §9-7.5004-3.

Article XXIII—Labor.

(a) *Contract Work Hours Standards Act—Overtime Compensation.* Insert contract clause set forth in FPR 1-12.303 with the modification necessary if §9-12.103-51 applies.

(b) *Equal opportunity.* Insert contract clause set forth in FPR 1-7.101-18.

(c) *Convict labor.* Insert contract clause set forth in FPR 1-12.204.

Article XXIV—Covenant against contingent fees. Insert contract clause as set forth in §9-7.5004-2.

Article XXV—Officials not to benefit. Insert contract clause as set forth in §9-7.5004-5.

Article XXVI—Buy American Act. Insert contract clause as set forth in §9-7.5004-17.

Article XXVII—Termination. Insert contract clause set forth in §9-8.751.

Article XXVIII—Permits. Insert contract clause set forth in §9-7.5006-48.

Article XXIX—Renegotiation. Insert contract clause set forth in §9-7.5004-20, if the contract is subject to the Renegotiation Act of 1951, as amended.

Article XXX—Classification. Insert contract clause set forth in §9-7.5004-21 when required.

Article XXXI—[Reserved]

Article XXXII—Alterations and additions. Insert contract clause set forth in §9-7.5006-2.

In the event the contractor will be required to perform procurement activities, the following articles shall be included in the contract as appropriate.

Article XXXIII—Utilization of small business concerns. Insert contract clause set forth in FPR 1-1.710-3(a) under the conditions and in the manner prescribed in that section.

Article XXXIV—Small business subcontracting program. Insert contract clause set forth in FPR 1-1.710-3(b) under the conditions and in the manner prescribed in that section.

Article XXXV—Utilization of concerns in labor surplus areas. Insert contract clause set forth in FPR 1-1.805-3(a) under the conditions and in the manner prescribed in that section.

Article XXXVI—Labor surplus area subcontracting program. Insert contract clause set forth in FPR 1-1.805-3(b) under the conditions and in the manner prescribed in that section.

Article XXXVII—Utilization of minority business enterprises. Insert the clause set forth in FPR 1-1.1310-2(a) under the conditions and in the manner prescribed in that section.

Article XXXVIII—Minority business enterprises subcontracting program. Insert the clause set forth in FPR 1-1.1310-2(b) under the conditions and in the manner prescribed in that section.

Article XXXVIX—Priorities, allocations, and allotments. Insert contract clause set forth in §9-7.5006-52.

Article XL—Listing of employment openings. Insert contract clause set forth in FPR 1-12.1102-2.

Article XLI—Payment of Interest on Contractors' Claims. Insert contract clause set forth in FPR 1-1.322(b).

In witness whereof, the parties hereto have executed this Contract as of the day and year above written:

_____

(Title)

I, ------ (Affiant) ------, certify that I am the ------ (Title) ------ of the Contractor named under this contract; that ------ (Signatory) ------ who signed this contract on behalf of said Contractor was then ------ (Title) ------ of said Contractor; that this contract was duly signed for and on behalf of said Contractor by authority of its governing body and is within the scope of its legal powers.

In witness whereof, I have hereunto affixed my hand and the seal of said Contractor.

[SEAL] _____

§9-16.5002-7 Outline of a letter contract.

1. Contract number, date, name, and address of Contractor.

2. Direction to Contractor to proceed immediately to furnish the supplies or to perform the work specified, followed by as detailed description of the supplies to be furnished or work to be performed as is practicable, together with desired delivery date or date of completion.

3. Provision that letter contract contains and resulting definitive contract will contain all applicable provisions required by Federal Law, Executive Order, or regulations.

4. Provision for (a) submission by the Contractor of a quotation and/or estimate supported by a cost breakdown and agreement to enter into negotiation of a definitive contract immediately and (b) type of definitive contract to be used.

5. Provision for (a) approval by the Contracting Officer of subcontracts and purchase orders of spetified types and dollar limits as required by Subpart 9-51.2 and (b) dollar limitation on total amount the Contractor may expend or obligate pending execution of the definitive contract.

6. Time limit within which letter contract will be superseded by definitive contract (normally within 120 days). Provision for termination either (a) at any time for the convenience of the Government, or (b) in event the parties fail to agree upon the terms of, and to execute, a definitive contract within the time specified on any extension.

7. Provision for the reimbursement of the Contractor for all reasonable and necessary costs for work performed when the termination is for the convenience of the Government or in the event the parties fail to agree upon the terms of a definitive contract within the time specified, or any extension thereof. In the latter case the provision should exclude the payment of profit or fee.

8. The total payments under paragraph 7 above shall be limited to the total dollar amount authorized to be expended by the letter contract and shall be contingent upon transfer of title to the Government of all material (including specifications and drawings), tools, machinery, and work in process for which the Contractor is receiving reimbursement or the obtaining of an appropriate disposal credit to the Government for them.

9. Appropriate security provisions.

10. Appropriate tax provisions.

11. Appropriate disputes provisions.

12. Appropriate examination of records provisions.

13. Provision against assignment without prior approval in writing of the Contracting Officer.

NOTE: Ordinarily, letter contracts will not contain any provision for payments to the Contractor, except in the event of its termination, since it is contemplated that a definitive contract will be executed within a short period of time. If it becomes necessary to provide for such payments in the letter contract, such additional provisions as are necessary for the protection of the Government's interest shall be included.

§9-16.5002-8 Outline of special research support agreement with educational institutions.

Contract No. ————

This agreement is effective as of the ————, 19——, between the United States of America (hereinafter referred to as the "Government"), acting through the Energy Research and Development Administration (hereinafter referred to as the "ERDA"), and ---------- (hereinafter referred to as the "Contractor").

RECITALS

The ERDA wishes to have the Contractor perform certain research. This agreement states the terms and conditions under which the Contractor agrees to perform the work.

This agreement is authorized by the Energy Reorganization Act of 1974 and other applicable law.

AGREEMENT

Now therefore, the parties hereto agree as follows:

ARTICLE I—THE RESEARCH TO BE PERFORMED

(a) The Contractor shall, to the best of its ability, furnish personnel, facilities, equipment, materials, supplies, and services, except such as are furnished by the Government, necessary for the performance of the research provided for in Appendix A and shall perform the research and report thereon pursuant to the provisions of this contract. It is understood that Appendix A, a guide to the performance of this contract, may be deviated from by the Contractor subject to the specific requirements of this contract.

(b) This work shall be conducted under the direction of ———————————— or such other member of the Contractor's staff as may be mutually satisfactory to the parties.

NOTE A.—The description of the research in Appendix A may be omitted and Appendix A appropriately modified to incorporate, by pertinent references to the proposal or other documents, the type of data necessary to describe the research as called for by Appendix A; and where there is no cost sharing, other features may be referenced in lieu of insertion in Appendix A. In such cases, the referenced material will be retained as part of the permanent contract file.

ARTICLE II—THE PERIOD FOR PERFORMANCE

The period of performance under this contract shall commence on ————19——and expire on ————19——. Performance may be extended for additional periods by the mutual written agreement of the parties. It is presently expected that this contract will be extended by mutual agreement until ————19——.[1]

ARTICLE III—CONSIDERATION

(a) In full consideration of the Contractor's performance hereunder, the ERDA shall furnish the equipment, supplies, materials, and services, if any, listed in Article A-II(b)(2) and pay the Contractor the sum of $————————, hereinafter called the "Support Ceiling" which sum shall be subject to adjustment as hereinafter provided.

(b) Payments to the Contractor shall equal the "Cumulative Support Cost" of performance of this contract, as the term "Cumulative Support Cost" is defined in Article B-XXIX.[2] *Provided, however,* And notwithstanding any other provision of this contract, that the Government's monetary liability under this contract shall not exceed the support ceiling specified in (a) above. The ERDA shall not pay more than the support ceiling or an amount equal to the cumulative support cost, whichever is less. The Contractor shall be obligated to perform under this contract throughout the agreed-upon period of performance, and to bear all costs which the ERDA has not agreed to pay: *Provided, however,* That the Contractor shall have the right to cease to perform the research provided for in this contract, upon written notice to the ERDA to that effect, at any time, when or after the cumulative support cost equals or exceeds the support ceiling.

(c) The support ceiling specified in (a) above may be increased unilaterally by the ERDA by written notice to the Contractor and may be increased or decreased by written agreement of the parties (whether or not by formal modification to this contract). In the event the stated period of contract performance is extended, the support ceiling will be revised to reflect any increased ERDA support for the extended period or periods.

(d) Upon termination, or expiration of the total period of performance, the Contractor shall promptly refund to the ERDA (or make such disposition as the ERDA may in writing direct) any

[1] This sentence is optional and may be omitted.

[2] The term cumulative support cost refers to the cost of items under A-II(a) of Appendix A, for the initial contract period plus any extension periods, that may be properly chargeable to the ERDA. If proportionate cost sharing is involved, the support cost is the ERDA's share of such costs, and it does not include the cost of items excluded from Article A-II(a), such as items to be contributed solely by the Contractor or property to be furnished by the Government. Charges to the ERDA will be reported after the conclusion of each contract period set forth in Appendix A (generally an annual period); in addition to the limitations on charges to the ERDA provided for by this Article III, charges to the ERDA for a specified contract period may not exceed 110 percent of the estimated support cost for that contract period except as approved by the ERDA (see Article B-XXX). The estimated support cost for each pertinent period of contract performance will be set forth in Article A-III. If Article A-III of Appendix A provides that the cost of the items listed under Article A-II(a) is to be proportionately shared by the parties, the charges to the ERDA shall be determined by applying the ERDA's sharing percentage set forth in Article A-III to the cost for items under Article A-II(a) incurred during the specified contract period; such charges to the ERDA shall also be subject to the 110 percent limitation mentioned above as well as to the provisions of this Article III.

sums paid by the ERDA to the Contractor under this contract, through direct payment or under letter of credit, in excess of the cumulative support cost incurred in performance under the contract.

ARTICLE IV—GOVERNMENT PROPERTY

The following items of property procured or fabricated by the Contractor are hereby listed as "Government Property." [List all property and equipment, title to which is to remain in the Government. Insert the word "none" if title to all of the property is to be vested in the Contractor: If title to property procured or fabricated by the Contractor is to remain in the Government, add appropriate provisions for payment for such property from plant and equipment funds. Such funds should be in addition to, and not a part of, the "Support Ceiling" funds provided under Article III.]

ARTICLE V—APPENDICES

Appendix A, Appendix B—General Provisions and Appendix C—Statement of Costs, are hereby attached to and made a part of this contract.

In witness whereof, the parties have executed this contract.

[SEAL]————————————————————————————

Contractor ————————————

Contract No.————————

APPENDIX A

Contractor ————————————

Contract Number ————————
For the contract period ———————— through ————————.

Article A-I. *Research to be performed by Contractor.* [Insert description of research activity and state the approximate percentage of time or effort which the principal investigator(s) expects to devote to the work.]

Article A-II. *Ways and means of performance.* [The listing under (a), (b), and (c) below should be in a form to permit determination of which items of cost are to be chargeable to ERDA or proportionately shared, and which items are to be contributed solely by the contractor or solely by the ERDA; the listing should also permit application of the approval requirements of the contract. Excessive detail in listing should be avoided.]

(a) Items for which support will be provided as indicated in A-III, below. [Do not include in this paragraph (a) any items which are to be contributed solely by the Contractor, see §9-4.5107-2(c).]

(1) *Salaries and wages.* [State total dollar amount. If any stipulated salary support amounts for professional staff members are established in accordance with §9-4.5106-3a, the stipulated amounts, along with any limitations or requirements on the use of such stipulated amounts (see §9-4.5106-3a(c)) should be provided for in the contract.]

(2) *Equipment to be purchased or fabricated by the Contractor.* [List equipment to be purchased or fabricated by the Contractor and for which title is to remain in the Contractor and state the total dollar amount budgeted for such equipment. Such equipment may be set forth in general classifications as specifically as possible if it is not feasible to list them individually. However, any individual piece of equipment, the estimated cost of which is over $1,000 will be separately identified. Except where the contract may otherwise specifically provide, equipment for the purpose of this paragraph A–II shall mean an item of personal property having a useful life expectancy in excess of 1 year and an acquisition cost in excess of $200.]

(3) Travel. (Show amounts for both foreign and domestic. If none, state none.)

Domestic———————

Foreign———————

(4) Other direct costs.

(5) Indirect costs based on a predetermined rate of———percent. [Show factor or factors of cost to which rate applies—generally direct salaries and wages.]

(b) Items, if any, significant to the performance of this contract, but excluded from computation of Support Cost and from consideration in proportioning costs. (See §9–4.5107–2(c).)

(1) *Items to be contributed by the Contractor.* In accordance with Article B–II(c), if a proposed Contractor contribution is included in this paragraph (b)(1), the Contractor shall maintain records adequate to permit the ERDA to determine the extent of the contribution. If the time or effort of the principal investigator(s) is to be contributed by the Contractor and excluded from A-II(a) and A-II(b), the contributed time or effort should be listed under A-II(c).

(2) *Items to be contributed by the Government.*

(c) Time or effort of principal investigator(s) contributed by Contractor but excluded from computation of Support Cost and from consideration in proportioning costs. [Where covered under A–II(a) or A–II (b)(1) above, state: "None." See §9–4.5107–2(d).]

Article A–III. The total estimated cost of items under A-II(a) above for the contract period stated in this Appendix A is $———; the ERDA will pay———percent of the actual costs of these items incurred during the contract period stated in this Appendix A, subject to the provisions of Article III and Article B-XXIX. The estimated ERDA support cost for the contract period stated in this Appendix A is $———.

The estimated ERDA Support Cost is funded as follows:

(a) Estimated unexpended balance from the prior period(s) $———

(b) New funds for the current period ———$———

The new funds being added in A-III(b) constitute the basis for advance payments provided under Article B-XI.

APPENDIX B—GENERAL PROVISIONS

For the contract period ——— through———.

ARTICLE B-I—DEFINITIONS

(a) The term "ERDA" means the Energy Research and Development Administration or any duly authorized representative thereof, including the Contracting Officer except for the purpose of deciding an appeal under the article entitled "Disputes."

(b) The term "Contracting Officer" means the person executing this contract on behalf of the Government and includes his successors or any duly authorized representative of any such person.

(c) Except as otherwise provided in this contract, the term "subcontracts" includes purchase orders under this contract.

ARTICLE B-II—INSPECTION, REPORTS, RECORDS AND ACCOUNTS[1]

(a) The ERDA shall have the right to inspect, in such manner and at all reasonable times as it deems appropriate, all activities of the Contractor arising in the course of its undertakings under this contract.

(b) The Contractor shall make progress and other reports in such manner and at such times as specified in Article B-XXI. The Contractor shall also make such other reports to the ERDA, with respect to its activities under this contract, as the ERDA may reasonably require from time to time.

(c) The Contractor agrees to keep records and books of account, in accordance with generally accepted accounting principles and practices, and consistent with the requirements of Federal Management Circular (FMC) 73–8, as constituted on the effective commencement date of the contract period, covering its costs and expenditures for items included under Article A-II(a) of Appendix A and which are in furtherance of the research work under this contract. In the event a Contractor contribution is listed in Article A-II(b), the Contractor shall maintain records adequate to permit

[1] If the contract is for a not-for-profit organization other than an educational institution or a research foundation established by an educational institution, this article should be revised to provide that ERDA's commercial cost principles (ERDA–PR Part 9–15) will be used in determining actual cost.

the ERDA to determine the extent of the contribution. If professional staff members are included under Article A-II(b), the Contractor shall maintain records on such personnel in accordance with the payroll distribution procedure of section 3.7.b. of FMC 73–8.

(d) The ERDA shall at all reasonable times be afforded access to the premises and to these books and records and to related correspondence, receipts, vouchers, memoranda, and other data of the Contractor; and the Contractor shall preserve such books and papers, without additional compensation therefor, in accordance with the retention requirements referenced in Article B-XVIII, Examination of Records of this Contract.

ARTICLE B-III—PUBLICATION OF RESULTS

(a) Research results obtained under this contract shall be made available to all through normal and accepted channels without restriction except that no restricted data as defined in the Atomic Energy Act of 1954, as amended, or other classified information shall be disclosed to unauthorized persons. Published results shall indicate that the research was supported by the ERDA. A copy of each article submitted by the Contractor for publication shall be promptly sent to the ERDA. The Contractor shall also inform the ERDA when the article is published and furnish———copies of the article as finally published.

NOTE: In determining the numbers of copies to be required, reference should be made to §9–4.5109–8.

(b) It is recognized that during the course of the work hereunder or subsequent thereto, the Contractor, its employees, or its subcontractors, may from time to time desire to publish, within the limit of security requirements, information regarding technical or scientific developments arising in the course of the contract. In order that public disclosure of such information will not adversely affect the patent interest of the ERDA, patent approval for release shall be secured from the ERDA prior to any such publication.

(In contracts for Theoretical Physics, High Energy Physics, Medium Energy and Neutron Physics, Mathematics, Computer Techniques and Programing, Medical Studies, Biological Studies, Ecological Studies, Meteorology, Solid-State Physcis, Geology, Radiation Effects, Theoretical Chemistry, Analytical Chemistry, Crystal Structure, Spectroscopy, Thermodynamics, Chemical Kinetics, Hazards Evaluation, Liquid-State Studies, Cryogenics, Environmental Stream Pollution, and Site Selection, the following provision may be substituted for the last sentence of Article B-III.)

"In order that public disclosure of such information will not adversely affect the patent interest of the ERDA, such information shall be withheld from public disclosure if it discloses an invention or discovery; such invention or discovery shall be promptly reported to the ERDA for patent review and possible filing of a patent application, and such information shall thereafter be withheld from public disclosure for a period of 4 months unless the ERDA approves earlier release."

ARTICLE B-IV—DISCLOSURE OF INFORMATION

Insert §9–7.5004–22.

ARTICLE B-V—RESPONSIBILITY FOR THE WORK

(a) The Contractor is solely responsible for the conduct of the work.

(b) In instances where the carrying out of the contract work involves an ERDA license, the provisions of the pertinent license shall prevail over any inconsistent provisions of this contract.

ARTICLE B-VI [Reserved]

ARTICLE B-VII—WRITTEN MATERIAL

(a) The Contractor hereby grants to the Government a royalty-free, nonexclusive, irrevocable license to reproduce, translate, publish, use and dispose of, and to authorize others to do so, all copyrightable material produced or composed or delivered to the Government or its designees under this contract, including work not first produced or composed by the Contractor in the course of performance under this contract but incorporated in the material produced or composed or delivered under this contract (but only to the extent that the Contractor now has, or prior to final settlement of the contract may have, the right to grant such license to such previously produced or composed work without becoming liable to pay compensation to others solely because of such grant).

(b) The Contractor agrees that except as the ERDA may otherwise specifically authorize in writing, the Contractor will not include in any report or other material delivered under this contract, or in any published material relating to the work under this contract, any copyrighted material owned by others which such owners have not consented to have so included.

(c) The ERDA will not publish in advance of the Contractor's publication without prior consultation with the Contractor.

ARTICLE B-VIII—PATENTS

Insert §9-9.5003 modified by deleting paragraphs (d) and (e) and substituting therefor the following paragraph (d):

"(d) Except as otherwise authorized in writing by the ERDA, the Contractor will insert in all subcontracts and purchase orders other than purchase orders for standard commercial items, provisions making this article applicable to the subcontract or purchase order. Except as otherwise authorized in writing by the ERDA, the Contractor will insert in purchase orders for standard commercial items a provision indemnifying the Government against liability for use of any invention or discovery and for the infringement of any Letters Patent arising by reason of the purchase, use, or disposal by or for the account of the Government of items manufactured or supplied under the purchase order."

ARTICLE B-IX—PROPERTY ITEMS

(a) Except as otherwise provided in this paragraph (a) and paragraph (b) of this Article B-IX, title to all material, supplies, and equipment purchased or otherwise acquired by the Contractor in the performance of its research activities shall be and remain in the Contractor. Said materials, supplies, and equipment shall be used for the benefit of research under this contract and any extensions or successor contracts hereto: *And provided*, There is no interference with said research, shall be made available for use by investigators working on any Federal research agreement at the same location. Subject to these priorities, the materials, supplies, and equipment may be used as the Contractor wishes. Except as otherwise agreed in writing, title to any items of property listed as "Government property" shall pass directly to the Government; such property shall be subject to paragraphs (b), (c), (d), (e), and (f) of this Article B-IX.

(b) Subject to the mutual agreement of the ERDA and the Contractor, the Government may furnish the Contractor items of equipment, materials, supplies, or facilities for use by the Contractor in the performance of the contract work; title to these items shall remain in the Government unless otherwise agreed in writing. Such items of property and the items of property listed elsewhere in this contract as Government property, are hereinafter referred to as "Government property." Title to Government property shall not be affected by the incorporation or attachment thereof to any property not owned by the Government nor shall any such property, or any part thereof, be or become a fixture or lose its identity as personality by reason of affixation to any realty.

(c) To the extent practicable, the Contractor shall cause all items of Government property to be suitably marked with an identifying mark or symbol indicating that the items are the property of the Government. The Contractor shall maintain, at all times and in a manner satisfactory to the ERDA, records showing the use and disposition of Government property. Such records shall be subject to ERDA inspection at all reasonable times and the ERDA shall at all reasonable times have access to the premises wherein any items of Government property are located. Unless otherwise authorized in writing by the ERDA, the Contractor shall use Government property only for the purposes of this contract: *Provided, however*, That the Contractor is hereby authorized to use items of equipment constituting Government property for other Federal research agreements to the extent such use: (1) Does not interfere with its work under this contract; (2) is not prohibited by provisions of the other Federal agreements; and (3) is promptly reported by the Contractor to the ERDA under this contract.

(d) The Contractor shall promptly notify the ERDA of any loss or destruction of or damage to Government property. It is understood that the Contractor shall not be liable for any such loss, destruction, or damage, unless same results from willful misconduct or lack of good faith on the part of any corporate officer of the Contractor, or of one or more of the Contractor's representatives having supervision or direction of all or substantially all of the activities under this contract. If the Contractor is liable for any such loss, destruction, or damage, it shall promptly account therefor to the satisfaction of the ERDA; if the Contractor is not liable therefor, and is indemnified, reimbursed, or otherwise compensated for such loss, destruction, or damage, it shall promptly account therefor to the satisfaction of the ERDA.

(e) With the written approval of the ERDA, the Contractor may sell, transfer, or otherwise dispose of items of Government property to such parties and upon such terms as so approved, or itself acquire title to items of Government property upon such terms as may mutually be agreed upon in writing by the Contractor and the ERDA. The proceeds of any such disposition, and any agreed price of any such Contractor acquisition, shall be paid by the Contractor to the Government, or credited on account of ERDA payments to be made under this contract, as the ERDA may direct. Subject to the other provisions of this contract, the Contractor shall deliver Government property to the ERDA upon request (suitably packed and shipped at the Government's expense).

(f) The Contractor shall utilize for the benefit of the work under this contract such items of property available to the Contractor by reason of its activities under other Federal research agreements as are appropriate for utilization under this contract pursuant to the provisions of the pertinent Federal agreements.

ARTICLE B-X—TERMINATION FOR CONVENIENCE OF THE GOVERNMENT

Insert FPR 1-8.704-1.

ARTICLE B-XI—PAYMENTS

(a) The ERDA shall make payments to the Contractor with respect to the amount of consideration prescribed in Article III of this contract as follows:

(1) A maximum of 45 percent of the new funds as set forth in Article A-III(b) of this contract following execution of this contract (and following the effectuation of each extended period).

(2) A maximum of an additional 45 percent of the new funds as set forth in Article A-III(b) of this contract upon receipt of a request or requests from the Contractor evidencing that the amount requested is then required in connection with the work under the contract.

NOTE: Subparagraphs (1) and (2) of this paragraph (a) may be revised, as deemed appropriate by the field office, in accordance with §9-4.5112-3(a).

(3) If, following submission of an annual progress report, the contract is to be extended for an additional period of performance, an additional payment may be made at the time of execution of the extension which, when added to the payments already made under (1) and (2) above for the expiring period, will not exceed the new funds set forth in Article A-III(b) for the expiring period; a concluding payment for the pertinent period, if appropriate, may be made following submission of a certified statement showing the ERDA support cost and evidencing the Contractor's performance under the contract.

(4) If the contract is not to be extended, the final payment of the consideration provided for in Article III of this contract shall be made following submission by the Contractor of a final report required by Article B-XXI, in form and content satisfactory to the ERDA and submission of a certified statement showing the ERDA support cost and evidencing the Contractor's performance under the contract and compliance by the Contractor with the patent provisions of this contract.

(b) The payments made pursuant to paragraph (a) above shall not prejudice or otherwise affect adversely any of the Government's rights under the contract. For purposes of settlement in the event of termination pursuant to Article B-X hereof, these payments shall not be construed as evidentiary, and any excess payment in the light of Article B-X shall be promptly returned to the ERDA.

(c) The ERDA, at its option, may invoke the following with respect to any amount of the contract consideration remaining to be paid at any given time:

(1) The ERDA shall issue a letter of credit as provided for by Treasury Fiscal Requirements Manual, Part VI, section 1020, under which payments to the Contractor with respect to the amount of consideration provided for in Article III of this contract will be made. The Contractor agrees that the first ninety (90) percent of the new funds as set forth in Article A-III(b) of the contract will be under the letter of credit and will be subject to the submission by the Contractor of a Payment Voucher on Letter of Credit (TUS 5401), in accordance with procedures based upon Treasury Fiscal Requirements Manual, Part VI, section 1020, which are agreed to by the parties. Following submission by the Contractor of a final report provided for in Article B-XXI, in form and content satisfactory to the ERDA, and submission of a certified statement showing the total expenditures and evidencing the Contractor's performance under the contract, and upon submission by the Contractor to the ERDA of such invoices or vouchers as are satisfactory to the ERDA, the ERDA shall pay the Contractor the concluding payment of the consideration provided for in Article III of this contract, or said concluding payment will be included under the letter of credit and will be subject to submission by the Contractor of a payment voucher on letter of credit, in accordance with the procedure described above. If, following submission of an annual report, the contract is extended for an additional period of performance, and additional payment may similarly be made at the time of execution of the extension which, when added to the payments already made for the expiring period, will not exceed the new funds as set forth in Article A-III(b) for the expiring period; a concluding payment for the pertinent period, if appropriate, may be made following submission of a certified statement showing the ERDA support cost for the pertinent period and evidencing the Contractor's performance under the contract.

(2) The ERDA reserves the right to increase, decrease, or cancel the amount covered by the letter of credit, provided that such action is required because of a change in the amount of consideration provided for in Article III or is taken pursuant to paragraph (c)(1) of this article. The issuance and use of a letter of credit and receipt of funds pursuant thereto shall not prejudice or otherwise adversely affect any of the Government's rights under the contract.

ARTICLE B-XII—EQUAL OPPORTUNITY

Insert FPR 1-12.803-2.

ARTICLE B-XIII—CONVICT LABOR

Insert FPR 1-12.204.

ARTICLE B-XIV—CONTRACT WORK HOURS STANDARDS ACT—OVERTIME COMPENSATION.

Insert Article set forth in FPR 1-12.303.

ARTICLE B-XV—DISPUTES

Insert FPR 1-7.102-12, modified by substituting "the Administrator or his designee" for "Secretary." (See §9-7.5004-3.)

ARTICLE B-XVI—OFFICIALS NOT TO BENEFIT

Insert FPR 1-7.102-17.

ARTICLE B-XVII—COVENANT AGAINST CONTINGENT FEES

Insert FPR 1-1.503.

ARTICLE B-XVIII—EXAMINATION OF RECORDS

Insert §9-7.5004-10.

ARTICLE XIX—BUY AMERICAN ACT

Insert FPR 1-7.102-14, modified in accordance with §9-7.5004-16.

ARTICLE B-XX—ASSIGNMENT: SUBCONTRACTING

Neither this contract nor any interest therein nor claim thereunder shall be assigned or transferred by the Contractor, except as expressly authorized in writing by the ERDA. The Contractor shall not subcontract any research or development work under this contract, except as expressly authorized in writing by the ERDA.

ARTICLE B-XXI—REPORTS AND RENEWAL PROPOSALS

The Contractor shall furnish six (6) copies of the following reports and renewal proposals, if any, addressed to appropriate field office.

(a) *Progress report.* The progress report shall briefly describe the scope of investigations undertaken and the significant results obtained. It shall also indicate compliance with the contract requirements and any failures to comply. The report shall indicate the approximate percentage of time or effort which the principal investigator(s) has devoted to the project since the beginning of the current term of the agreement and indicate the amount of effort which is expected to be devoted during the remainder of the current term. Technical reports, preprints, and articles prepared for publication shall be listed with bibliographic references. Reprints of all such material not previously submitted shall be appended and material contained therein need not be duplicated in the report. Progress reports shall be submitted approximately 3 months in advance of the expiration of the current contract term and shall give the Contractor's best estimate of the probable events and occurrences in regard to the remainder of the current contract term. Except as the ERDA may otherwise request, no further progress report will be required for any contract year unless there has been a significant change in scientific results or contract compliance between the latest progress report by the Contractor and its actual experience; this shall be reported promptly.

(b) *Final report.* Upon termination or expiration of the total period of performance, the contractor shall submit, promptly, a summary of its activities for the entire period, including a list of publications issued during the total term of the contract and copies of any reprints not previously submitted, as well as a comprehensive evaluation of progress in the area of research supported by the contract.

(c) *Renewal proposals.* A renewal proposal, if any, shall be submitted along with the technical progress report, and each of the two documents shall be separately bound.

(d) *Report of equipment purchased or fabricated.* The Contractor shall itemize equipment having a useful life expectancy in excess of 1 year and an acquisition cost in excess of $200 purchased or fabricated by the Contractor when title to such equipment is vested in the Contractor pursuant to the Grant Act (Public Law 85-934)— omit any items appearing in Article IV and submit a report thereof within 3 months after the expiration of the contract year specified in Article II. Where the cost of individual pieces of equipment exceeds $1,000, they will be listed individually. Where individual items cost $200 to $1,000, they will also be individually listed to the extent practical or grouped in general categories, such as "electronic equipment" or "six motors," with the total dollar amount of such category. The cost of purchased items shall be determined by the actual invoice cost of such items, but the cost of fabricated items may be established by engineering estimates. This report may be submitted in conjunction with the certified statement required by Article B-XXIX of this contract.

ARTICLE B-XXII—FOREIGN TRAVEL

Foreign travel shall be subject to the prior approval of the contracting officer for each separate trip regardless of whether funds for such travel are contained in an approved budget. Foreign travel is defined as any travel outside of Canada and the United States and its territories and possessions.

ARTICLE B—XXIII—PRIORITIES, ALLOCATIONS, AND ALLOTMENTS

Insert §9-7.5006-52.

ARTICLE B—XXIV—UTILIZATION OF CONCERNS IN LABOR SURPLUS AREAS

Insert the clause set forth in FPR 1-1.805-3(a) under the conditions and in the manner prescribed in that section.

ARTICLE B—XXV—UTILIZATION OF SMALL BUSINESS CONCERNS

Insert the clause set forth in FPR 1-1.710-3(a) under the conditions and in the manner prescribed in that section.

ARTICLE B—XXVI—UTILIZATION OF MINORITY BUSINESS ENTERPRISES

Insert the clause set forth in FPR 1-1.1310-2(a) under the conditions and in the manner prescribed in that section.

ARTICLE B—XXVII—SOVIET-BLOC CONTROLS

Insert the clause set forth in §9-7.5006-53.

ARTICLE B—XXVIII—LISTING OF EMPLOYMENT OPENINGS

Insert the clause set forth in FPR 1- 12.1102-2.

ARTICLE B—XXIX—DETERMINATION OF SUPPORT COSTS[1]

*(a) The term "support cost" as used in this contract means the ERDA's share[2] of the sum of costs incurred by the Contractor for items included under Article A-III(a) of Appendix A which are in furtherance of the work hereunder, which are incurred in accordance with the provisions of this contract, and which are reported to the ERDA in accordance with (b) below. The term "cumulative support cost" as used in this contract means the total of the support cost incurred during the initial contract period plus any extension periods of the contract.

(b) Within 3 months after the end of each contract period set forth in Appendix A, and within 3 months after the termination or expiration of the total period of performance, the Contractor shall furnish a certified statement, executed by an official of the Contractor showing the Contractor's cost, and evidencing its performance under the contract, during the contract term just completed. The statement shall show all costs incurred during the pertinent contract term set forth in Appendix A for items under Article A-II (a) of Appendix A, including the Contractor's share, if any, of such costs, and show the extent of the Contractor's contribution of items listed under Article A-III(b)(1) of Appendix A. Costs included in the certified statement may include the following: Expenditures of cash; the cost of material and supplies transferred from stores inventory; and the amount due the Contractor for indirect costs in accordance with the rate and factor or factors shown in Appendix A of the contract for the pertinent contract period. The costs for the pertinent contract period shall be consistent with the principles of FMC 73-8 as constituted of the effective commencement date of said period. The certified statement shall be in the form set forth in Appendix C.

(c) The certified statement should be in agreement with the institution's financial records and shall reflect only expenditures actually made during the period covered, including transfers from inventory. It shall not include commitments, as a part of such expenditures, for goods or services on order, but not received or those received but not paid for unless the Contractor is operating under an established and consistently applied system of accrual accounting. If this is the case, the certified statement shall be so footnoted. A combination of accrual and cash accounting for cost accumula-

[1] If the contract is for a not-for-profit organization other than an educational institution or a research foundation established by an educational institution, this article should be revised to provide that the ERDA's commercial cost principles (ERDA-PR Part 9-15) will be used in determining actual cost.

[2] In those cases in which there is no proportionate sharing of costs, the ERDA's "share" will be 100 percent. With respect to any period in which proportionate cost sharing is applicable pursuant to Article A-III, it is understood that the support cost for that specified period will equal the stipulated percent of the sum of costs incurred by the Contractor during the stated period for items under A-II(a) of Appendix A, not shown in Appendix A of the contract for the pertinent contract period. The costs for the pertinent contract period shall be consistent with the principles of FMC 73-8 as constituted on the effective commencement date of said period. The certified statement shall be in the form set forth in Appendix C.

tion and reporting purposes shall not be used. The renewal proposal budget should be footnoted to show the estimated amount of outstanding commitments for property at the end of the current contract period. The certified statement contains a space in which should be inserted the actual amount of outstanding commitments for property at the end of the period covered by the statement. This commitment amount is for information only and is not a part of the expenditure calculation. The Contractor understands that the ERDA expects to rely on this certified statement for determining the support cost for the pertinent contract period. With respect to any period in which proportionate cost sharing is applicable, the support cost for the pertinent period will be determined by applying the percentage figure included in Article A–III for the pertinent period, to the certified cost of items included under Article A–II(a) incurred during the pertinent contract period. All charges to the ERDA shall be subject to the approval requirements of this contract. The Contractor is expected to maintain auditable records as contemplated by Article B–II(c) to substantiate the costs incurred for items under Article A–II(a) and to show the extent of the Contractor's contribution of items listed under Article A–II(b)(i).

ARTICLE B–XXX—ADDITIONAL APPROVALS

(a) In addition to such approvals as are specifically required by other provisions of this contract, the Contractor shall obtain the ERDA's approval for:

(1) A change of the principal investigator, co-investigator, or other key people as might be named in this contract or continuation of the research work for any one period in excess of 3 months without direction by an approved principal investigator. The principal investigator may increase or decrease the amount of effort which he devotes to the project without obtaining ERDA approval; however, a representative of the institution shall consult with the appropriate ERDA Headquarters program representative if the principal investigator plans to, or becomes aware that he will devote substantially less effort to the work than anticipated in Article A–I. The purpose of such consultation will be to determine what effect, if any, the anticipated change will have on the research work and what modification to the contract, if any, may be appropriate.

(2) No change in the phenomenon or phenomena under study; i.e., broad category of the research under the contract shall be made without the specific written approval of the ERDA; ordinarily, such changes, if approved by the ERDA, will be accomplished through a new contract or a mutually agreed to modification. The Contractor may change the specific objectives in the research work described in the contract: *Provided*, It gives the ERDA prompt notification of such changes; and the Contractor may continue to follow the new objectives while the ERDA determines whether it wishes to continue the program under the changed approach. Significant changes in methods or procedures employed in performing the research should be reported in the first technical progress report issued subsequent to the changes.

(3) Acquisition of:

(i) An item of equipment not itemized in Appendix A, the cost of which is $1,000 or more. Approval is not required if the equipment is merely a different model of an item listed in Appendix A; or

(ii) An item or items of equipment the cost of which will cause the total equipment dollar level shown in Article A–II(a) of the contract to be in excess of 125 percent thereof (if plant and capital equipment funds are provided for the acquisition of equipment with title to be vested in the Government, the total cost of such shall not exceed the amount provided for such equipment unless prior ERDA approval has been obtained).

(4) Purchase of any general-purpose equipment, such as office furniture, air conditioning, etc., not specifically provided for in Appendix A.

(5) Incurring costs for items set forth in Article A–II(a), during the pertinent contract period stated in Appendix A, in excess of 110 percent of the total estimated cost specified in Article A–III. Charges to the ERDA for any such costs incurred with the approval of the ERDA shall also be subject to the limitations of Article III.

(6) Any proposed foreign travel (see Article B–XXII).

(7) Expenditures for domestic travel in excess of $500, or 125 percent of the amount shown in Article A–II(a) for such travel, whichever is greater.

(8) Acquisition of excess personal property.

ARTICLE B—XXXI—PAYMENT OF INTEREST ON CONTRACTORS' CLAIMS

Insert the clause set forth in FPR 1–1.322(b).

APPENDIX C

ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

STATEMENT OF COSTS

1. Name and address of Contractor: _____.
2. Contract number: _____.
3. Beginning and ending date of pertinent contract period: _____.
4. Costs incurred during the pertinent contract period. [List only those costs which are to be reimbursed by the ERDA or proportionately shared by the parties in accordance with Article A–II(a) and Article A-III.]

Cost categories[1]	*Amount*
a. Salaries and wages	$
b. Equipment	
[List separately the cost of each piece of equipment separately listed in Appendix A to the contract or for which separate approval was obtained from ERDA.]	
c. Travel [show amounts for both foreign and domestic. If none, state none.]	$
Domestic	
Foreign	
d. Other direct costs	
e. Total direct expenditures	
f. Indirect charges	$
[Indicate percent and expenditures to which percent is applied.]	
5. Total costs for items under Article A–II(a) for pertinent contract period	
6. Support cost for the pertinent contract period set forth in Appendix A, as defined in Article B-XXIX of the contract, chargeable to ERDA for the pertinent contract period (percent of total costs using percent shown in Article A-III of Appendix A for pertinent period of contract	
7. Cumulative support cost (support cost under this statement plus support cost for previous periods of the contract)	
8. Accumulated support ceiling in Article III of the contract	$
9. The difference between lines 7 and 8	
10. Provide information regarding contributions by the Contractor of items listed in Article A-II(b) of Appendix A during pertinent contract period. State the extent of the Contractor's actual contribution, the measure of such contributions should be in the same terms as the Contractor's commitment under Article A-II(b), e.g., time, dollar, etc	
11. Actual outstanding commitments for property at the end of the period covered by this statement	

I hereby certify that this report is true and correct to the best of my knowledge and belief and that the costs listed herein were incurred in connection with the performance of the research provided for under this contract and in accordance with the terms and conditions set forth therein.

[1]The listing of categories should be consistent with the itemization in Appendix A.

§9–16.5002–9 Outline of cost-type contract for research and development with educational institutions.

Contract No. ————

This contract is effective as of the ———— day of ————, 19——, by and between the United States of America (hereinafter referred to as the "Government") as represented by the Energy Research and Development Administration (hereinafter referred to as the "ERDA"), and ————, hereinafter referred to as the "Contractor".

RECITALS

The ERDA wishes to have the Contractor perform certain research. This contract states the terms and conditions under which the Contractor agrees to perform the work.

This contract is authorized by the Energy Reorganization Act of 1974 and other applicable law. [Additional recitals may be added as appropriate.]

AGREEMENT

Now, therefore, the parties hereto agree as follows:

ARTICLE I—THE RESEARCH TO BE PERFORMED

The Contractor shall to the best of its ability furnish personnel, facilities, equipment, materials, supplies, and services (except such as are furnished by the Government) necessary for the performance of the research provided for in Appendix "A" attached hereto and made a part hereof and shall perform the research and report thereon pursuant to the provisions of this contract.

ARTICLE II—THE PERIOD OF PERFORMANCE

The period for performance under this contract shall commence on ————————, 19——, and expire on ————————: *Provided, however*, That this period may be extended for additional periods by written agreement of the parties.

When authorized or directed by the appropriate Headquarters Program Division, one of the following alternative Articles II may be substituted for the above:

ARTICLE II—THE PERIOD OF PERFORMANCE

ALTERNATE A

It is presently estimated that the term of the contract (as modified by Modification No. ———, will run through ————————, 19——, and the Contractor agrees based on this estimate to submit its recommendations each year respecting the work program for the subsequent year, as elsewhere in this contract provided for. Neither party guarantees the correctness of this estimate, and, in any event, it is agreed that the period of performance will expire at the end of ————————, 19—— (note that this will be a yearly period), or on any anniversary of said date during the said estimated term, if the parties do not mutually agree in writing to extend the period of performance for an additional yearly period.

ALTERNATE B

It is presently estimated that the term of the contract (as modified by Modification No. ————) will run through ————————————————————, 19——, and the Contractor agrees based on this estimate to submit its recommendations each year respecting the work program for the subsequent year, as elsewhere in this contract provided for. Neither party guarantees the correctness of this estimate, and, in any event, it is agreed that the period of performance will expire at the end of ————————————————, 19——(note that this will be a yearly period), or on any anniversary of said date during the said estimated term, unless the ERDA, at its option, by written notice to the Contractor prior to the expiration of the pertinent period, extends the period of performance for an additional yearly period.

ARTICLE III—CONSIDERATION

Payment for allowable costs, as hereinafter provided, shall constitute complete compensation to the Contractor for the performance of the research described in Article I (Note A).

NOTE A: If and as an individual transaction requires, either or both of the following features will be incorporated in the contract:

a. Specific mention of the contributions to be made by the Contractor, with the contract provisions indicating that the contributions are to be measured aginst the allowable cost system or otherwise pursuant to a defined yardstick.

b. Specific exclusion from allowable costs of the particular items that the parties agree shall not be reimbursable to the Contractor.

ARTICLE IV—OBLIGATION OF FUNDS, ESTIMATES OF COST

Insert §9–7.5006–14, appropriately revised to reflect the no-fee position of educational institutions.

ARTICLE V—KEY PERSONNEL

The key personnel referred to in Article ——, Appendix "B" are as follows: ————————

ARTICLE VI—GENERAL CONTRACT PROVISIONS

Appendix "B," attached hereto and made a part hereof, sets forth additional general contract provisions of this contract.

In witness whereof, the parties have executed this contract.

UNITED STATES OF AMERICA

————————————
(Title)

I, ————————————(Name)————————————, certify that I am the ————————————(Title)————————————, of the Contractor named under this contract; that ————————————(Signatory)———————— who signed this contract on behalf of said Contractor who was then ————————————(Title)———————— of said Contractor; that this contract was duly signed for and on behalf of said Contractor by authority of its governing body and is within the scope of its legal powers.

In witness whereof, I have hereunto affixed my hand and the seal of said Contractor.

[SEAL] ————————————

APPENDIX A

Contractor: ————————————

Contract No. ————————————

I. *Research to be performed*: Insert description of research activity.

II. *Equipment*, title to which is to be vested in the Contractor. Title to the following equipment shall vest and remain in the Contractor. Title to additional items of equipment may be vested in the Contractor if approved in writing by the Contracting Officer. (List all equipment to be purchased or fabricated by the Contractor, where it is known at the time the contract is executed that title to such equipment will vest in and remain in the Contractor. Where the estimated cost of individual pieces of equipment exceeds $1,000, they will be listed individually. Where individual pieces cost between $300 ($200 if the Contractor prefers) and $1,000, they shall also be listed individually to the extent practicable, or grouped in general categories, such as "electronic equipment" or "six motors," with the total dollar amount of such category. Insert the word "none" if title to all property is to be vested in the Government.)

III. *Reports.* Set forth reporting and report distribution requirements, including reports of equipment having a useful life expectancy in excess of 1 year and an acquisition cost in excess of $300 ($200 if the Contractor prefers) purchased or fabricated by the Contractor where title is to be vested in the Contractor. Where the cost of individual pieces of equipment exceeds $1,000 they will be listed individually. Where individual items cost $300 ($200 if the Contractor prefers) to $1,000, they will also be individually listed to the extent practicable, or grouped in general categories, such as "electronic equipment" or "six motors," with the total dollar amount of such category. The cost of purchased items shall be determined by the actual invoice cost of such items, but the cost of fabricated items may be established by engineering estimates.

Reproduction of final reports shall be performed consistent with Government printing and binding regulations.

APPENDIX B

Contractor: ———————————————.

Contract No. ———————————————.

General Contract Provisions

ARTICLE B–1—DEFINITIONS

Insert §9–7.5005–4.

ARTICLE B–2—ALLOWABLE COSTS

(a) The ERDA shall pay to the Contractor for performance of this contract the allowable direct costs incident to its performance plus the allocable portion of the allowable indirect costs of the Contractor as determined in accordance with:

(1) Subpart 1–15.3 of the Federal Procurement Regulations (41 CFR 1–15.3) as that text is amended by Federal Management Circular (FMC) 73–8 as of the date of commencement of the contract period or, with respect to periods of extension of contract performance, as of the date of commencement of the pertinent extension period;

(2) FMC 73–6 as it may be amended from time to time; and

(3) The terms of this contract.

(b) In addition to other costs declared to be unallowable, the salary or other compensation (and expenses related thereto) of any individual employed under the contract as a consultant or in another comparable employment capacity who is an employee of another organization and concurrently performing work on a full-time annual basis for that organization under a cost-type contract with the ERDA shall be unallowable, except to the extent that cash payment therefor is required pursuant to the provisions of the contract or procedures of the ERDA applicable to the borrowing of such an individual from another cost-type contractor.

ARTICLE B–3 [RESERVED]

ARTICLE B–4—ACCOUNTS, RECORDS, INSPECTION AND REPORTS[1]

(a) *Accounts.* The Contractor shall maintain accounts, records, documents, and other evidence showing and supporting all allowable costs, including the Contractor's contribution, if any, incurred, revenues or other applicable credits, and the receipt, use, and disposition of all Government property coming into the possession of the Contractor under this contract. The system of accounts employed by the Contractor shall be satisfactory to the ERDA and in accordance with generally accepted accounting principles consistently applied and consistent with the requirements of OMB Circular No. A–21, revised, as constituted on the effective commencement date of the contract period.

(b) *Inspection and audit of accounts and records.* All books of account and records relating to this contract shall be subject to inspection and audit by the ERDA at all reasonable times, before and during the period of retention provided for in (d) below, and the Contractor shall afford the ERDA proper facilities for such inspection and audit.

(c) *Audit of subcontractors' records.* The Contractor also agrees with respect to any subcontracts (including lump-sum or unit-price subcontracts or purchase orders) where, under the terms of the subcontract, costs incurred are a factor in determining the amount payable to the subcontractor or vendor of any tier, that such subcontracts will permit the conduct of an audit by the Government and by the Contractor of the cost of the subcontract in a manner satisfactory to the Contracting Officer, or in the case of lower tier subcontracts have the audit conducted by the next higher tier subcontractor or vendor in a manner satisfactory to the Contractor and the Contracting Officer, except where the Contracting Officer elects to waive such audit or to approve other arrangements for the conduct of the audit. The Government agrees to perform such audits, to the extent it deems audit necessary, provided the Contractor gives the Contracting Officer timely notice in writing of the fact that it is unable to perform such audit with its own forces.

(d) *Disposition of records.* Except as agreed upon by the Government, and the Contractor, all financial and cost reports, books of account and supporting documents, and other data evidencing cost allowable and revenues and other applicable credits under this contract in the possession of the Contractor relating to this contract shall be preserved by the Contractor for a period of three (3) years after final payment under this contract or otherwise disposed of in such manner as may be agreed upon by the Government and the Contractor.

(e) *Reports.* The Contractor shall make progress and other reports in such manner and at such times as specified in Appendix A. In addition, the Contractor shall furnish such other progress reports and schedules, financial and cost reports, and other reports concerning the work under this contract as the Contracting Officer may from time to time require.

(f) *Inspections.* The ERDA shall have the right to inspect the work and activities of the Contractor under this contract, in such manner and at all reasonable times as it shall deem appropriate.

(g) *Subcontracts.* The Contractor further agrees to require the inclusion of provisions similar to those in paragraphs (a) through this paragraph (g) of this clause in all subcontracts (including lump-sum or unit-price subcontracts or purchase orders) of any tier entered into hereunder where, under the terms of the subcontract, costs incurred are a factor in determining the amount payable to the subcontractor.

(h) *Conferences.* The Contractor shall confer with the ERDA at mutually agreeable times and places in regard to the Contractor's activities under the contract.

ARTICLE B–5—DISCLOSURE OF INFORMATION

Insert §9–7.5004–22.

ARTICLE B–6—PUBLICATION OF RESULTS

(a) Research results obtained under this contract shall be made available to all through normal and accepted channels without restriction except that no restricted data as defined in the Atomic Energy Act of 1954 or other classified information shall be disclosed to unauthorized persons. Such publication shall indicate that the research was supported by the ERDA. A copy of each article submitted by the Contractor for publication shall be promptly sent to the ERDA. The Contractor shall also inform the ERDA when the article is published and furnish a copy of the article as finally published.

(b) It is recognized that during the course of the work hereunder or subsequent thereto, the Contractor, its employees, or its subcontractors may from time to time, desire to publish, within the limit of security requirements, information regarding technical or scientific developements arising in the course of the contracts. In order that public disclosure of such information will not adversely affect the patent interest of the ERDA, patent approval for release shall be secured from the ERDA prior to any such publication. Note A.

NOTE A.—In contracts for theoretical physics, high energy physics, medium energy and neutron physics, mathematics, computer techniques and programing, medical studies, biological studies, ecological studies, meteorology, solid state physics, geology, radiation effect, theoretical chemistry, analytical chemistry, crystal structure, spectroscopy, thermodynamics, chemical kinetics, hazards evaluation, liquid state studies, cryogenics, environmental stream pollution, and site selection the following provision may be substituted for last sentence of Article B–6 above:

"In order that public disclosure of such information will not adversely affect the patent interest of the ERDA, such information shall be withheld from public disclosure if it discloses an invention or discovery; such invention or discovery shall be promptly reported to the ERDA for patent review and possible filing of a patent application, and such information shall thereafter be withheld from public disclosure for a period of 4 months unless the ERDA approves earlier release.

ARTICLE B–7—PATENTS

Insert §9–9.5003 modified by deleting paragraphs (*d*) and (e) and substituting therefor the following paragraph:

(*d*) Except as otherwise authorized in writing by the ERDA, the Contractor will insert in all subcontracts and purchase orders, other than purchase orders for standard commercial supplies, provisions making this article applicable to the subcontract or the purchase order. Except as otherwise authorized in writing by the ERDA, the Contractor will insert in purchase orders for standard

[1] If the contract is for a non-for-profit organization other than a research foundation established by an educational institution, this Article should be revised to provide that ERDA's commercial cost principles (ERDA–PR Part 9–15) will be used in determining actual cost.

commercial supplies a provision indemnifying the Government against liability for the use of any invention or discovery and for the infringement of any Letters Patent arising by reason of the purchase, use, or disposal by or for the account of the Government of items manufactured or supplied under the purchase order.

ARTICLE B–8—WRITTEN MATERIAL

(a) The Contractor hereby grants to the Government a royalty-free, nonexclusive, irrevocable license to reproduce, translate, publish, use and dispose of, and to authorize others to do so, all copyrightable material produced or composed or delivered to the Government or its designees under this contract, including work not first produced or composed by the Contractor in the course of performance under this contract but incorporated in the material produced or composed or delivered under this contract (but only to the extent that the Contractor now has, or prior to final settlement of the contract may have, the right to grant such license to such previously produced or composed work without becoming liable to pay compensation to others solely because of such grant).

(b) The Contractor agrees that, except as the ERDA may otherwise specifically authorize in writing, the Contractor will not include in any report or other material delivered under this contract, or in any published material relating to the work under this contract, any copyrighted material owned by others which such owners have not consented to have so included.

(c) The ERDA will not publish in advance of the Contractor's publication without prior consultation with the Contractor.

ARTICLE B–9—ASSIGNMENT

Neither this contract nor any interest therein nor claim thereunder shall be assigned or transferred by the Contractor, except as expressly authorized in writing by the ERDA.

ARTICLE B–10—TERMINATION FOR THE CONVENIENCE OF THE GOVERNMENT

Insert FPR 1–8.704–1.

ARTICLE B–11—FOREIGN TRAVEL

Foreign travel shall be subject to the prior approval of the Contracting Officer for each separate trip regardless of whether funds for such travel are contained in an approved budget. Foreign travel is defined as any travel outside of Canada and the United States and its territories and possessions.

ARTICLE B–12—CONVICT LABOR

Insert FPR 1–12.204.

ARTICLE B–13—COVENANT AGAINST CONTINGENT FEES

Insert §9–7.5004–2.

ARTICLE B–14—DISPUTES

Insert FPR 1–7.102–12, modified by substituting "the Administrator or his designee" for "Secretary."

(See §9–7.5004–3.)

ARTICLE B–15—EQUAL OPPORTUNITY

Insert FPR 1–7.102–16.

ARTICLE B–16—OFFICIAL NOT TO BENEFIT

Insert FPR 1–7.102–17.

ARTICLE B–17—SAFETY AND HEALTH

If applicable, include one or both of the clauses set forth in §9–7.5004–12.

ARTICLE B–18—PERMITS

Insert §9–7.5006–48 modified by substituting "Except as the parties hereto may otherwise mutually agree" for "Except as otherwise directed by the Contracting Officer."

ARTICLE B–19—EXAMINATION OF RECORDS

Insert §9–7.5004–10.

ARTICLE B–20—CONTRACT WORK HOURS STANDARDS ACT—OVERTIME COMPENSATION

Insert article in FPR 1–12.303 with the modification necessary if §9–12.103–51 applies.

ARTICLE B–21—BUY AMERICAN ACT

Insert FPR 1–7.102–14, modified in accordance with §9–7.5004–16.

ARTICLE B–22—LITIGATION AND CLAIMS

(a) *Initiation of litigation.* If the Government requires the Contractor to initiate litigation, including proceedings before administrative agencies, in connection with this contract, the Contractor shall proceed with the litigation in good faith as directed from time to time by the Contracting Officer: *Provided, however,* That in those instances in which such an assignment would be legally effective and enable the litigation or proceeding to be instituted and carried on for the Government's purposes the Contractor shall have the right to assign the cause to the Government for the latter's initiation or prosecution. In the latter case, the Contractor shall cooperate fully with the Government and provide such assistance as the Government shall request in the prosecution of the litigation.

(b) *Defense and settlement of claims.* The Contractor shall give the Contracting Officer immediate notice in writing (1) of any action, including any proceeding before an administrative agency, filed against the Contractor, arising out of the performance of this contract and which would, if successful, constitute a directly allowable cost and (2) of any claim against the Contractor the cost and expense of which is an allowable cost under the article entitled "Allowable Costs." Except as otherwise directed by the Contracting Officer, in writing, the Contractor shall furnish immediately to the Contracting Officer copies of all pertinent papers received by the Contractor with respect to such action or claims. To the extent not in conflict with any applicable policy of insurance, the Contractor may, with the Contracting Officer's approval, settle any such action or claim, shall effect at the Contracting Officer's request an assignment and subrogation in favor of the Government of all the Contractor's rights and claims (except those against the Government) arising out of any such action or claims against the Contractor, and, if required by the Contracting Officer, shall authorize representatives of the Government to settle or defend any such action or claim and to represent the Contractor in, or to take charge of, any action: *Provided, however,* To the extent not inconsistent with the Government's interests, the Contractor may, at his own expense, be associated with the representatives of the Government in settlement or defense of any such claim or action. If the settlement or defense of an action or claim against the Contractor is undertaken by the Government, the Contractor shall furnish all reasonable assistance in effecting a settlement or asserting a defense. Where an action against the Contractor is not covered by a policy of insurance, the Contractor shall, with the approval of the Contracting Officer, proceed with the defense of the action in good faith; and in such event the defense of the action shall be at the expense of the Government: *Provided, however,* That the Government shall not be liable for such expense to the extent that it would have been compensated for by insurance which was required by law or by the written direction of the Contracting Officer, but which the Contractor failed to secure through its own fault or negligence. The Contractor's "charitable defense" (i.e., such defense as is available to the Contractor as a matter of law because of the Contractor's eleemosynary character) shall not be asserted if the assertion of such a defense contravenes the Contractor's established policy.

ARTICLE B–23—BONDS AND INSURANCE

Insert §9–7.5006–51 modified by adding the following sentence: "Nothing herein shall preclude the Contractor from obtaining or maintaining insurance at its own cost and expense to cover any insurable interest it may have in such 'Government-owned property.' "

ARTICLE B–24—DRAWINGS, DESIGNS, SPECIFICATIONS

Insert §9–7.5006–13 modified by adding the following sentence: "These are excepted from the purview of this Article."

ARTICLE B–25—KEY PERSONNEL

It having been determined that the individuals, if any, whose names appear elsewhere in this contract as "key personnel," or other persons mutually acceptable as persons of substantially equal abilities and qualifications are necessary for the successful performance of this contract, the Contractor agrees, insofar as it is able, to make available such employees or persons for the performance of the work under this contract. Whenever for any reason, one or more of the aforementioned employees is unavailable for performance of the work under the contract, the Contractor shall use its best efforts to replace such employee with an employee of substantially equal abilities and qualifications who is satisfactory to the Contracting Officer.

ARTICLE B–26—PROPERTY

(a) *Furnishing of Government property.* The Government reserves the right to furnish any property, and such services as may be mutually agreed upon, for the performance of the work.

(b) *Title to property.* Title to all property furnished by the Government shall remain in the Government except as otherwise provided in this article. Except as otherwise provided by the Contracting Officer, title to all materials, equipment, supplies, and tangible personal property of every kind and description purchased by the Contractor, the cost of which is allowable as a direct item of cost under this contract, shall pass directly from the vendor to the Government. The Government reserves the right to inspect and in lieu of and prior to the Contractor's inspection and acceptance or rejection to accept or reject any item of such property. The Contractor shall make such disposition of rejected items as the Contracting Officer shall direct. Title to other property, the cost of which is reimbursable to the Contractor under this contract, shall pass to and vest in the Government upon: (i) Issuance for use of such property in the performance of this contract, or (ii) commencement of processing or use of such property in the performance of this contract, or (iii) reimbursement of the cost thereof by the Government, whichever first occurs. Property furnished by the Government and property purchased or furnished by the Contractor, title to which vests in the Government under this paragraph, is hereinafter referred to as Government property. Title to Government property shall not be affected by the incorporation of the property into or the attachment of it to any property not owned by the Government, nor shall such Government property, or any part thereof, be or become a fixture or lose its identity as personalty by reason of affixation to any realty.

(c) *Identification.* To the extend directed by the Contracting Officer, the Contractor shall identify Government property coming into the Contractor's possession or custody by making or segregating in such a way, satisfactory to the Contracting Officer, as shall indicate its ownership by the Government.

(d) *Disposition.* The Contractor shall make such disposition of Government property which has come into the possession or custody of the Contractor under this contract as the Contracting Officer shall direct. When authorized in writing by the Contracting Officer during the progress of the work or upon completion or termination of this contract, the Contractor may, upon such terms and conditions as the Contracting Officer may approve, sell or exchange such property, or acquire such property at a price agreed upon by the Contracting Officer and the Contractor as the fair value thereof. The amount received by the Contractor as the result of any disposition, or the amount of the agreed fair value of any such property acquired by the Contractor, shall be applied in reduction of costs allowable under this contract, or shall be otherwise credited to account of the Government, as the Contracting Officer may direct. Upon completion of the work or the termination of this contract the Contractor shall render an accounting, as prescribed by the Contracting Officer, of all Government property which has come into the possession or custody of the Contractor under this contract.

(e) *Protection of Government property—classified materials.* The Contractor shall take all reasonable precautions, as directed by the Contracting Officer, or in the absence of such directions in accordance with sound practice, to safeguard and protect Government property in the Contractor's possession or custody. Special measures shall be taken by the Contractor in the protection of and accounting for any classified or special materials involved in the performance of this contract, in accordance with the regulations and requirements of the ERDA.

(f) *Risk of loss of Government property.* The Contractor shall not be liable for loss or destruction of or damage to Government property in the Contractor's possession unless such loss, destruction, or damage results from willful misconduct or lack of good faith on the part of the Contractor's managerial personnel, or unless such loss, destruction, or damage results from a failure on the part of the Contractor's managerial personnel, to take all reasonable steps to comply with any appropriate written directives of the Contracting Officer to safeguard such property under paragraph (e) hereof. The term "Contractor's managerial personnel" as used herein means [insert appropriate definition].

(g) *Steps to be taken in event of loss.* Upon the happening of any loss or destruction of or damage to Government property in the possession or custody of the Contractor, the Contractor shall immediately inform the Contracting Officer of the occasion and extent thereof, shall take all reasonable steps to protect the property remaining, and shall repair or replace the lost, destroyed, or damaged property if and as directed by the Contracting Officer, but shall take no action prejudicial to the right of the Government to recover therefor and shall furnish to the Government, on request, all reasonable assistance in obtaining recovery.

(h) *Government property for Government use only.* Government property shall be used only for the performance of this contract, except as otherwise approved by the Contracting Officer.

ARTICLE B–27—SUBCONTRACTS AND PURCHASE ORDERS

The Contractor shall not subcontract any part of the research and development effort without the written approval of the Contracting Officer. Purchase orders shall not be entered into by the Contractor for items whose purchase is expressly prohibited by the written direction of the Contracting Officer. The Government reserves the right, at any time, to require that the Contractor submit any or all other contractual arrangements, including, but not limited to, subcontracts, purchase orders or classes of purchase orders, for approval, and provide information concerning methods, practices, and procedures used or proposed to be used in subcontracting and purchasing. The Contractor shall use methods, practices, or procedures in subcontracting and purchasing which are acceptable to the Contracting Officer. Subcontracts and purchase orders shall be made in the name of the Contractor, shall not bind nor purport to bind the Government, shall not relieve the Contractor of any obligation under this contract (including, among other things, the obligation properly to supervise and coordinate the work of subcontractors) and shall be in such form and contain such provisions as are required by this contract or as the Contracting Officer may prescribe.

ARTICLE B–28—UTILIZATION OF CONCERNS IN LABOR SURPLUS AREAS

Insert the clause set forth in FPR 1–1.805–3(a) under the conditions and in the manner prescribed in that section.

ARTICLE B–29—LABOR SURPLUS AREA SUBCONTRACTING PROGRAM

Insert the clause set forth in FPR 1–1.805–3(b) under the conditions and in the manner prescribed in that section.

ARTICLE B–30—UTILIZATION OF SMALL BUSINESS CONCERNS

Insert the clause set forth in FPR 1–1.710–3(a) under the conditions and in the manner prescribed in that section.

ARTICLE B–31—SMALL BUSINESS SUBCONTRACTING PROGRAM

Insert the clause set forth in FPR 1–1.710–3(b) under the conditions and in the manner prescribed in that section.

ARTICLE B–32—ERDA LICENSE

In instances where the carrying out of the contract work involves an ERDA license, the provisions of the pertinent license shall prevail over any inconsistent provisions of this contract.

ARTICLE B–33—PAYMENTS

Insert §9–7.5006–23 or §9–5.7006–25, as appropriate, modified to reflect the no-fee position of educational institutions. An additional paragraph should be added to provide for appropriate certification by the Contractor, on payment invoices of vouchers, to meet the requirements of section K of FMC 73–8. If advance payments are to be made, the letter of credit procedure as provided for in Treasury Fiscal Requirements Manual, Part VI, Section 1020, will be used to the maximum extent feasible.

ARTICLE B–34—PRIORITIES, ALLOCATIONS, AND ALLOTMENTS

Insert §9–7.5006–52.

ARTICLE B–35—TAXES

(a) The Contractor agrees to notify the ERDA of any State or local tax, fee, or charge levied or purported to be levied on or collected from the Contractor with respect to the contract work or any transaction thereunder and constituting an allowable item of cost if due and payable, but which, in the opinion of the Contractor or under the position of the ERDA as communicated to the Contractor, is inapplicable or invalid; and the Contractor further agrees to refrain from paying any such tax, fee, or charge unless authorized by the ERDA. Any State or local tax, fee, or charge paid with the approval of the ERDA or on the basis of advice from the ERDA that such tax, fee, or charge is applicable and valid, and which would otherwise be an allowable item of cost, shall not be disallowed as an item of cost by reason of any subsequent ruling or determination that such tax, fee, or charge was in fact inapplicable or invalid.

(b) The Contractor agrees to take such action as may be required or approved by the ERDA to cause any such tax, fee, or charge referred to above to be paid under protest and to take such actions as may be required or approved by the ERDA to seek recovery of any payment made, including assignment to the Government or its designee of all rights to an abatement or refund thereof,

and granting permission for the Government to join with the Contractor in any proceeding for the recovery thereof or to sue for recovery in the name of the Contractor. If the ERDA directs the Contractor to institute litigation to enjoin the collection of or to recover payment of any such tax, fee, or charge referred to above, or if a claim or suit is filed against the Contractor for a tax, fee, or charge he has refrained from paying in accordance with this Article, [the procedures and requirements of Article ————. "Litigation and Claims," shall apply][1] and the cost and expenses incurred by the Contractor shall be allowable items of cost, as provided in this contract, together with the amount of any judgment rendered against the Contractor.

(c) The Government shall save the Contractor harmless from penalties and interest incurred through compliance with this article.

ARTICLE B–36—SOVIET-BLOC CONTROLS

Insert the clause set forth in §9–7.5006–53.

ARTICLE B–37—CONSULTANT OR OTHER COMPARABLE EMPLOYMENT SERVICES OF CONTRACTOR EMPLOYEES

Insert clause set forth in either paragraph (a) or (b) of §9–7.5006–45 as appropriate.

ARTICLE B–38—SOURCE AND SPECIAL NUCLEAR MATERIALS

Source and special nuclear material involved in the performance of the work under this contract shall be obtained and handled in accordance with the ERDA's requirements and procedures.

ARTICLE B–39—NUCLEAR REACTOR SAFETY

Insert clause set forth in §9–7.5006–36 when required by that section.

When the estimated cost of the contract is $250,000 or more add the following article.

ARTICLE B–40—CONDUCT OF EMPLOYEES[2]

[2]This article is included only in contracts within the scope of Subpart 9–12.54. In the case of contracts not within the scope of Subpart 9–12.54 but where ERDA has major investments in facilities, see the clause set forth in §9–7.5006–55.

The Contractor shall be responsible for maintaining satisfactory standards of employee competency, conduct, and integrity and shall be responsible for taking such disciplinary action with respect to his employees as may be necessary. The Contractor shall establish such standards and procedures as are necessary to implement effectively the provisions set forth in Energy Research and Development Administration Procurement Regulation §9–12.54 and such standards and procedures shall be subject to the approval of the Contracting Officer.

ARTICLE B–41—ADDITIONAL APPROVALS

In addition to such approvals as are specifically required by other provisions of this contract, the Contractor shall obtain the ERDA's approval for:

(Insert appropriate additional approval requirements in accordance with §9–4.5112–5.)

ARTICLE B–42—UTILIZATION OF MINORITY BUSINESS ENTERPRISES

Insert the clause set forth in FPR 1–1.1310–2(a) under the conditions and in the manner prescribed in that section.

ARTICLE B–43—MINORITY BUSINESS ENTERPRISES SUBCONTRACTING PROGRAM

Insert the clause set forth in FPR 1–1.1310–2(b) under the conditions and in the manner prescribed in that section.

ARTICLE B–44—LISTING OF EMPLOYMENT OPENINGS

Insert the clause set forth in FPR 1–12.1102–2.

ARTICLE B–45—PAYMENT OF INTEREST ON CONTRACTORS' CLAIMS

Insert the clause set forth in FPR 1–1.322(b).

[1]When the contract does not include a Litigation and Claims article, substitute the following for the phrase enclosed by brackets: "The Contractor shall comply with the procedures and requirements of the ERDA."

§9–16.5002–10 Outline of a change order for fixed-price construction contracts.

ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

(Insert Office and Location)

Modification No. ————.

Change Order to Contract No. ————.

Date: ————.

Name of Contractor: ————

Address: ————

GENTLEMEN:

(1) Reference is made to Clause(s) ———— of the General Provisions to your Contract No. ————, dated ————, for the construction of ————, located at ————.

(2) It has been determined that in view of (insert here the reasons for modification of the contract), it is necessary and in the best interest of the Government to modify said contract in certain particulars as follows:

NOTE: Insert here details of the changes, including as appropriate: reference to pertinent portions of existing or added drawings and specifications; change in quantities, together with unit prices if applicable; and the amount of the increase or decrease in contract price, a statement that there is no adjustment in price, or a statement that agreement as to price will be reached at an early date.

(3) It is understood and agreed that on account of the foregoing modification of said contract additional time will (will not) be allowed.

NOTE: If additional time is allowed or if the contract time is decreased because of the change, state definitely the change in time; if agreement as to time has been deferred, include a statement to that effect.

(4) All other terms and conditions of said contract as it heretofore may have been modified shall be and remain the same.

(5) Therefore if the foregoing modification of said contract is satisfactory, please indicate your acceptance in the space provided below and return ————copies to this office. The extra copy of the modification is your record.

THE UNITED STATES OF AMERICA

By: ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

By ————

(Contracting Officer)

(or Authorized Representative of Contracting Officer)

The foregoing modification of said contract is hereby accepted.

By ————

(Name of company)

Title ————

§9–16.5002–11 Outline of a supplemental agreement for fixed-price construction contracts.

(a) A description of the nature and scope of the changes in the work.

(b) A description of the manner in which the terms or conditions of the contract are being modified or the circumstances that qualify the action as a change in the general scope of the contract.

(c) The amount the contract price is increased or decreased.

(d) The adjustment in time for completion, or a statement that there is no such adjustment.

(e) A statement that, except as modified by the supplemental agreement, the provisions of the contract shall remain in full force and effect.

§9–16.5002–12 Outline of agreement for rental of contractor-owned construction equipment.

NOTE: This form of agreement is for use where ERDA rents construction equipment from a prime cost-type construction contractor, and is designed for use as an appendix to a prime cost-type construction contract.

Attached to and made a part of Contract No. ————.

Contractor: ——————————————————.

The following provisions shall govern the use and rental of the contractor's construction plant and equipment (hereinafter called the "equipment") under the contract:

1. *Equipment rented.* The contractor agrees to furnish for his own use in the performance of the contract the equipment itemized in Schedule 1 (attached to and made part of this agreement). Each item of the equipment shall be clearly marked with the identification number assigned to it on Schedule 1. The contractor and the ERDA may from time to time amend Schedule 1 by deleting items or adding items.

2. *Payments.* As provided in the article of the contract entitled "Allowable Costs and Fixed Fee," the allowable costs of the performance of the contract shall include:

(a) *Rental.* Rental of equipment, for rental periods determined in accordance with paragraph 4 and at the rates set forth in Schedule 1 applied in accordance with paragraph 3.

(b) *Transportation.* Transportation of equipment in accordance with paragraph 5.

(c) *Repair.* Maintenance, repair, and replacement of equipment to the extent provided in paragraphs 6 and 7.

Payment shall be made in accordance with procedures set forth in the article of the contract entitled "Payments."

3. *Application of rates.* The rates set forth in Schedule 1 shall be applied in accordance with the following rules:

(a) *Basis of rates.* Rates are based upon one shift of 8 hours per day, 40 hours per week, or 176 hours per month (of 30 consecutive days).

(b) *Apportionment of rates.* The monthly rate and its pro rata shall apply to all rental periods of 1 month or more. The weekly rate and its pro rata shall apply to all rental periods of 1 week or more up to 1 month. The daily rate and its pro rata shall apply to all rental periods up to 1 week.

(c) *Overtime.* If the equipment is rented by the day, the rate for overtime is one-sixteenth (1/16) of the daily rate for each hour of use in any day in excess of 8 hours; if it is rented by the week, the rate for overtime is one-eightieth (1/80) of the weekly rate for each hour of use in any week in excess of 40 hours; and if it is rented by the month, the overtime rate is one-three hundred and fifty-second (1/352) of the monthly rate for each hour of use in excess of 176 hours in any one 30 consecutive day period.

(d) *Insurance.* Rental rates include the cost of insurance or self-insurance covering loss of or damage to the equipment during rental periods, as indicated in Schedule 1 and copy of policy attached. The Contractor agrees to maintain this insurance coverage for loss of or damage to the equipment during the entire term of this agreement.

NOTE: When rental rates do not include the cost of insurance or self-insurance, substitute the following paragraph:

"Rental rates do not include any factor representing the cost of insurance or self-insurance covering loss of or damage to the equipment during rental periods."

4. *Rental period.* The rental period for which rental is payable for an item or equipment shall consist of a base period, beginning upon the date stipulated in a written notice from the Contracting Officer to the contractor that the ERDA has accepted the item of equipment at the jobsite, and ending upon the date stipulated in a written notice from the Contracting Officer to the contractor that use of the item of equipment is terminated, subject to the following additions, deductions, and conditions:

(a) *In-transit time.* There shall be added to the base period (1) the actual in-transit time of inbound transportation from one point of shipment to the jobsite, not exceeding the time required for such transportation by commercial carrier via the most expeditious routing available, of any item of equipment subsequently accepted by the ERDA, and (2) the actual in-transit time of outbound return transportation from the jobsite, to the original point of inbound shipment, or other destination at equal or less distance from the jobsite, not exceeding the time required for such transportation by commercial carrier vai the most expeditious routing available, of any item of equipment whose use has been terminated by the ERDA.

(b) *Delay due to repairs.* (1) The time required for repair of equipment shall be deducted from the base period if such repair is necessitated by willful misconduct or lack of good faith on the part of the contractor's managerial personnel,[1] or made necessary by defects not reasonably ascertainable on initial inspection by the ERDA.

(2) If an item of equipment has been accepted by the ERDA, the subsequent withdrawal by the contractor of such item from the work for necessary repairs (due to causes other than those mentioned in the preceding paragraph) shall not interrupt the running of the base period unless the Contracting Officer finds that the contractor has not exercised due diligence in effecting the repairs or in returning the item to use and in such event the time which the Contracting Officer finds to have been excessive shall be deducted from the base period.

(c) *Time for repairs on termination.* In the event the ERDA in accordance with paragraph 6(c) elects to effect repair or replacement of an item of equipment prior to scheduled return shipment, the time required for such repair or replacement shall be added to the base period.

(d) *Trial period.* If initial inspection by the ERDA discloses that the condition of an item of equipment is doubtful, if will not be accepted by the ERDA without a trial period of operation to prove such item upon terms and conditions agreed upon by the contractor and the ERDA. If the equipment is found unacceptable in the trial period, no rental, transportation, or other expenses will be due the contractor.

(e) *Rental limitation.* When the aggregate of rental paid for an item of equipment equals 75 percent of its appraised value, as agreed upon by the contractor and the Contracting Officer at or prior to the time of acceptance by the ERDA and set forth in the initial inspection report, the rental period shall cease as to such item for purposes of rental payment. Such item shall thereafter remain available for use under the contract without further rental payments but otherwise in accordance with the terms and conditions of this agreement, until the contractor receives written notice from the Contracting Officer that use of the item is terminated. The limitation of rental to 75 percent of the agreed value shall apply to the total of all rental due under this paragraph 4. A failure to agree as to the value of an item of equipment shall be deemed to be a dispute within the meaning of the article of the contract entitled "Disputes."

5. *Transportation.* Inbound transportation of equipment, f.o.b. cars from the original point of shipment to the jobsite, and outbound return transportation of shipment f.o.b. cars to the original point of shipment or to another destination selected by the contractor at equal or less distance from the jobsite, shall be at the expense of the Government, subject to the following conditions:

(a) *Limitation on return transportation.* The Government shall not bear any expense for outbound return transportation in excess of the amount paid for inbound transportation to the jobsite, except additional amounts representing or equivalent to increases in freight rates applicable to the route to the original point of shipment.

(b) *Limitation on long distance transportation.* Transportation over a distance in excess of 500 miles shall be subject to the approval of the Contracting Officer.

(c) *Transportation by other than common carrier.* The expense borne by the Government hereunder for transportation by a method other than common carrier shall be the actual expense of such transportation as shown by evidence satisfactory to the Contracting Officer, but shall in no case exceed the amount which would be paid for such transportation by a suitable and available common carrier unless otherwise authorized by the Contracting Officer.

(d) *Loading and unloading.* Only such costs of loading and unloading equipment as are incurred at the jobsite shall be borne by the Government.

(e) *Equipment not in required condition.* The Government shall not bear the expense of transportation of any item of equipment which arrives at the job in a condition which does not fulfill the requirements of paragraph 6(a) and which is not placed in the condition required under paragraph 6(a) by the contractor at the contractor's expense within a reasonable time.

6. *Condition of equipment—(a) Condition on delivery.* The equipment shall, on delivery at the jobsite, be in good operating condition to render efficient, economical, and continuous service, and shall be equipped with necessary and required safety devices

[1] The term "managerial personnel" as used in this agreement is as defined in the article of the contract entitled "Property."

according to ICC regulations and other applicable Federal and State laws. Each item of the equipment shall have been registered by the contractor at the contractor's own expense with all Federal, State, and local authorities requiring registration, and registration plates or other evidence of registration shall be displayed in accordance with the requirements of the registering authority; the cost of subsequent registration shall also be borne by the contractor. If any item of equipment on arrival at the jobsite is not in the condition required by this paragraph, its use on the work shall not be permitted unless and until it is placed in the condition required by this paragraph at the contractor's expense and within a reasonable time. If any such item is not placed in the condition required by this paragraph within a reasonable time, the Contracting Officer may reject the item and require its removal from the jobsite, and in that event the Government shall not be liable for rental, transportation, or any other expense in connection with such item.

(b) *Condition on the job.* Equipment accepted by the ERDA shall be maintained by the contractor in the condition required for its operation until use of the equipment is terminated by the Contracting Officer. Maintenance and repair required to keep accepted equipment in such condition during such time and replacement (at the agreed value set forth in the initial inspection report, less depreciation) of accepted equipment lost or destroyed during such time, shall be at the expense of the Government unless such maintenance, repair, or replacement is made necessary by loss or damage covered by any policy of insurance (or self-insurance), or caused by wilful misconduct or lack of good faith on the part of the contractor's managerial personnel, or is made necessary by defects not reasonably ascertainable on initial inspection by the ERDA.

(c) *Condition on termination.* Upon termination by the ERDA of the use of any item of equipment, the item shall be returned by the ERDA to the contractor at the job site in as good condition as when received by the ERDA (as shown by the initial inspection report) less normal wear and tear, except for any loss or damage which is due to willful misconduct or lack of good faith on the part of the contractor's managerial personnel, or defects not reasonably ascertainable on initial inspection by the ERDA, or which is covered by any policy of insurance (or self-insurance). If the inspection report to be made immediately prior to the scheduled return shipment of an item of equipment discloses the necessity for repairs or replacement the cost of which is the responsibility of the Government under this paragraph, the ERDA may at its election either (1) effect such repairs or replacements or (2) allow the contractor the agreed estimated reasonable cost of such repairs (or the agreed value set forth in the initial inspection report, less depreciation, if replacement is required), and a sum in lieu of rental for the time estimated by the Contracting Officer to be necessary for such repairs. Failure to agree as to the estimated reasonable cost of affecting such repairs or replacement under (2) above, shall be deemed to be a dispute within the meaning of the article of the contract entitled "Disputes."

(d) *Inspection.* For the purpose of establishing the condition of the equipment, each item of equipment shall be inspected, tested and inventoried by representatives of the ERDA, and at the contractor's option, together with representatives of the contractor, prior to its acceptance by the ERDA and also immediately prior to scheduled return shipment. The results of such inspections and tests, and the inventories compiled, shall be incorporated in reports submitted to the contractor and to the Contracting Officer. For any item of equipment which the contractor has failed to inspect, test, and inventory, or has failed to report as provided herein, the contractor agrees that the report submitted hereunder by a representative of the ERDA shall be conclusive evidence of the condition as of the date of inspection.

(e) *Excessive repairs.* The Contracting Officer may deduct from payments otherwise due the contractor any amounts previously allowed the contractor under this agreement for repairs made at the Government's expense which the Contracting Officer finds to have been in excess of the requirements of this agreement.

7. *Protection of equipment—steps to be taken in event of loss.* (a) The contractor shall take all reasonable and necessary precautions to safeguard and protect the equipment. Any loss of or damage to the equipment will be at the contractor's risk to the extent that such loss or damage is required to be covered by insurance under paragraph 3(d) of this agreement.

NOTE: When paragraph 3(d) of the agreement provides that rental rates do not include any factor representing the cost of insurance or self-insurance covering loss of or damage to the equipment during rental periods, the following paragraph (a) shall be used:

"(a) The contractor shall take all reasonable and necessary precautions to safeguard and protect the equipment. Any loss of or damage to the equipment will be at the contractor's risk to the extent that such loss or damage is covered by any policy of insurance (or self-insurance)."

(b) Upon the happening of any loss or damage which is at the risk of the Government under this agreement, the contractor shall immediately notify the Contracting Officer of the occasion and extent thereof, shall at the Contracting Officer's request effect an assignment and subrogation in favor of the Government of all the contractor's rights and claims (except those against the Government) arising out of any such loss or damage, shall, if required by the Contracting Officer, authorize representatives of the Government to settle or prosecute to final judgment any such claims, and shall furnish to the Government on request all reasonable assistance in obtaining recovery.

8. *Liquidation of indebtedness.* The contractor warrants full and complete title and right to possession of all the equipment, subject only to those liens, encumbrances or claims to title or possession securing the indebtedness detailed on Schedule 1, Part 2. The contractor agrees to apply such portion of the rental payment hereunder as may be necessary for the prompt discharge of such indebtedness. If at any time any person holding a lien, encumbrance, or claim against any item of equipment shall submit to the ERDA evidence that the contractor is not discharging the indebtedness secured thereby in accordance with the terms under which the indebtedness is payable or dischargeable, the ERDA shall have the right upon three (3) days' written notice to the contractor to impound such part of the unpaid rental hereunder, as the ERDA in its sole discretion deems necessary, until the rights of the contractor and any such person are determined and all just and proper claims of such person are satisfied: *Provided*, That nothing contained in this paragraph shall be construed to require the contractor to pay to such person any sum not required to be paid by the terms under which the indebtedness was incurred or to pay any sum prior to the time it becomes due.

9. *Taxes.* Unless otherwise directed by the Contracting Officer under the article of the contract entitled "State and Local Taxes," the contractor shall at the contractor's own expense pay and discharge any and all taxes levied upon any item of the equipment.

SCHEDULE 1

PART 1—ITEMS AND RENTAL RATES

Item No.	*Item description (equipment No.; type of equipment; serial No., manufacturer; year of model; original point of shipment; etc.)*

Description of any insurance coverage for loss or damage to equipment[1]	*Item Rental Rates*

(Continue, if necessary, on reverse side or on separate sheets.)

PART 2—LIENS, ENCUMBRANCES AND CLAIMS

The following is a complete and correct statement of the amount or amounts of any and all indebtedness secured by liens or other encumbrances of any nature, legal or equitable, which are held any person, firm or corporation against the equipment, items Nos. 1 through ————.

§9-16.5002-13 Outline of agreement for rental of third party owned construction equipment.

NOTE: This form of agreement is for use where an ERDA prime cost-type construction contractor rents construction equipment (without operator) from a third party.

This agreement, made and entered into this ——————day of ——————————, 19——, by and between ————————————————————————————
(hereinafter called the "lessor")
and ————————————————————————————
(hereinafter called the "lessee")

Witnesseth:

Whereas, the lessee has entered into a contract, dated ——————————, ——————, (hereinafter called the "construction contract"), with the United States of America (hereinafter called the "Government"), represented by the Energy Research and Development Administration (hereinafter called the "ERDA"), for the performance of certain construction work in connection with the construction ——————————— at ——————————; and

Whereas, the lessor is the owner of certain construction plant and equipment (hereinafter called the "equipment"), listed on the attached Schedule 1 attached to and made a part of this agreement; and

Whereas, the lessee desires to rent the equipment for use in performing the construction contract:

Now, therefore, in consideration of the mutual covenants and conditions herein set forth, it is agreed as follows:

Article I—Equipment rented. The lessor agrees to furnish for use by the lessee in the performance of the construction contract the equipment itemized in Schedule 1 at time specified as follows:

Each item of the equipment shall be clearly marked with the identification number assigned to it on Schedule 1. The lessor and the lessee may from time to time amend Schedule 1 by deleting or adding items.

Article II—Payments. Payments shall be made by the lessee to the lessor at monthly intervals on invoices rendered by the lessor for:

(a) *Rental.* Rental of equipment, for rental periods determined in accordance with the article entitled "Rental Period" and at the rates set forth in Schedule 1 applied in accordance with the article entitled "Application of Rates."

(b) *Transportation.* Transportation of equipment in accordance with the article entitled "Transportation."

(c) *Repair.* Maintenance, repair, and replacement of equipment to the extent provided in the articles entitled "Conditions of Equipment" and "Protection of Equipment—Steps to be Taken in Event of Loss."

Article III—Application of rates. The rates set forth in Schedule 1 shall be applied in accordance with the following rules:

(a) *Basis of rates.* Rates are based upon one shift of 8 hours per day, 40 hours per week, or 176 hours per month (of 30 consecutive days).

(b) *Apportionment of rates.* The monthly rate and its pro rata shall apply to all rental periods of 1 month or more. The weekly rate and its pro rata shall apply to all rental periods of 1 week or more up to 1 month. The daily rate and its pro rata shall apply to all rental periods up to 1 week.

(c) *Overtime.* If the equipment is rented by the day, the rate for overtime is one-sixteenth (1/16) of the daily rate for each hour of use in any day in excess of 8 hours; if it is rented by the week, the rate for overtime is one-eightieth (1/80) of the weekly rate for each hour of use in any week in excess of 40 hours; and if it is rented by the month, the overtime rate is one-three hundred and fifty-second (1/352) of the monthly rate for each hour of use in excess of 176 hours in any one 30-consecutive-day period.

(d) *Insurance.* Rental rates include the cost of insurance or self-insurance covering loss of or damage to the equipment during rental periods as indicated in Schedule 1 and copy of policy attached. The lessor agrees to maintain this insurance coverage for loss of or damage to the equipment during the entire term of this agreement.

NOTE: When rental rates do not include the cost of insurance or self-insurance, substitute the following paragraph:

"Rental rates do not include any factor representing the cost of insurance or self-insurance covering loss of or damage to the equipment during rental periods."

Article IV—Rental period. The rental period for which rental is payable for an item of equipment shall consist of a base period, beginning upon the date stipulated in a written notice from the lessee to the lessor that the lessee has accepted the item of equipment at the jobsite, and ending upon the date stipulated in a written notice from the lessee to the lessor that use of the item of equipment is terminated, subject to the following additions, deductions, and conditions.

(a) *In-transit time.* There shall be added to the base period (1) the actual in-transit time of inbound transportation from the point of shipment to the jobsite, not exceeding the time required for such transportation by commercial carrier via the most expeditious routing available, of any item of equipment subsequently accepted by the lessee, and (2) the actual in-transit time of outbound return transportation from the jobsite to the original point of inbound shipment, or other destination at equal or less distance from the jobsite, not exceeding the time required for such transportation by commercial carrier via the most expeditious routing available, of any item of equipment whose use has been terminated by the lessee.

(b) *Trial period.* If initial inspection by the lessee discloses that the condition of an item of equipment is doubtful, it will not be accepted by the lessee without a trial period of operation to prove such item upon terms and conditions agreed upon by the lessor and the lessee and approved by the ERDA. If the equipment is found unacceptable in the trial period, no rental, transportation, or other expenses will be due the lessor.

(c) *Delay due to repairs.* (1) The time required for repair of equipment shall be deducted from the base period if such repair is necessitated by wilful misconduct or lack of good faith on the part of the lessor, if an individual, or the partners or corporate officers of the lessor, or a supervising representative of the lessor, or made necessary by defects not reasonably ascertainable on initial inspection by the lessee.

(2) If arrangements are made for the lessor to repair an item of equipment, the withdrawal of such item from work for necessary repairs (due to causes other than those mentioned in the preceding paragraph) subsequent to acceptance of the item by the lessee shall not interrupt the running of the base period unless the lessee or the ERDA finds that due diligence in effecting the repairs or in returning the item to use has not been exercised. In the latter event the time found to have been excessive shall be deducted from the base period.

(d) *Time for repairs on termination.* In the event the lessee in accordance with the article entitled "Condition of Equipment" elects to effect repair or replacement of an item of equipment prior to scheduled return shipment of the item, the time required for such repair or replacement shall be added to the base period.

Article V—Transportation. Inbound transportation of equipment, f.o.b. cars from the original point of shipment to the jobsite, and outbound return transportation of equipment f.o.b. cars to the original point of shipment or to another destination selected by the lessor at equal or less distance from the jobsite, shall be at the expense of the lessee, subject to the following conditions:

(a) *Limitation on return transportation.* The lessee shall not bear any expense for outbound return transportation in excess of the amount paid for inbound transportation to the jobsite, except additional amounts approved by the ERDA representing or equivalent to increases in freight rates applicable to the route to the original point of shipment.

(b) *Limitation on long distance transportation.* Transportation over a distance in excess of 500 miles shall be subject to the approval of the lessee and the ERDA.

(c) *Transportation by other than common carrier.* The expense borne by the lessee hereunder for transportation by a method other than common carrier shall be the actual expense of such transportation as shown by evidence satisfactory to the lessee and the ERDA, but shall in no case exceed the amount which would be paid for such transportation by a suitable and available common carrier unless otherwise authorized by the lessee and the ERDA.

(d) *Loading and unloading.* Only such costs of loading and unloading equipment as are incurred at the job site shall be borne by the lessee.

(e) *Equipment not in required condition.* The lessee shall not bear the expense of transportation of any item of equipment which arrives at the job site in a condition which does not fulfill the requirements of the article entitled "Condition of equipment" and which is not placed in the condition required under that article by the lessor at the lessor's expense within a reasonable time.

Article VI—Condition of equipment—(a) Condition on delivery. The equipment shall, on delivery at the job site, be in good operating condition to render efficient, economical and continuous service, and shall be equipped with necessary and required safety devices according to ICC regulations and other applicable Federal and State laws. Each item of the equipment shall have been registered by the lessor at the lessor's own expense with all Federal, State, and local authorities requiring registration, and registration plates or other evidence of registration shall be displayed in accordance

with the requirements of the registering authority. The cost of subsequent registration shall also be borne by the lessor. If any item of equipment on arrival at the job site is not in the condition required by this paragraph, its use on the work shall not be permitted unless and until it is placed in the condition required by this paragraph at the lessor's expense and within a reasonable time. If any such item is not placed in the condition required by this paragraph within a reasonable time the lessee may reject the item and require its removal from the job site, and in that event the lessee shall not be liable for rental, transportation, or any other expense in connection with such item.

(b) *Condition on the job.* Maintenance and repair necessary to keep accepted equipment in the condition required for its operation until use of the equipment is terminated by the lessee, and replacement (at the value agreed upon by the lessor and the lessee with the approval of the ERDA at or prior to the time of acceptance by the lessee and set forth in the initial inspection report, less depreciation) of accepted equipment lost or destroyed during such time, shall be at the expense of the lessee. Except, however, such maintenance, repair, or replacement will not be at the expense of the lessee if it is made necessary by loss or damage covered by any policy of insurance (or self-insurance), or caused by willful misconduct or lack of good faith on the part of the lessor, if an individual, or the partners or corporate officers of the lessor, of a supervising representative of the lessor, or is made necessary by defects not reasonably ascertainable on initial inspection by the lessee.

(c) *Condition on termination.* Upon termination by the lessee of the use of any item of equipment, the item shall be returned by the lessee to the lessor at the jobsite in as good condition as when received by the lessee (as shown by the initial inspection report), less normal wear and tear, except for any loss or damage which is due to wilful misconduct or lack of good faith on the part of the lessor, if an individual, or the partners or corporate officers of the lessor or a supervising representative of the lessor, or defects not reasonably ascertainable on initial inspection by the lessee, or which is covered by any policy of insurance (or self-insurance). If the inspection report to be made immediately prior to the scheduled return shipment of an item of equipment discloses the necessity for repairs or replacements the cost of which is the responsibility of the lessee under this paragraph, the lessee may, at its election, either (1) effect such repairs or replacements, or (2) with the approval of the ERDA, allow the lessor the agreed estimated reasonable cost of such repairs (or the agreed value less depreciation, if replacement is required), and a sum in lieu of rental for the time estimated by the lessee to be necessary for such repairs.

(d) *Inspection.* For the purpose of establishing the condition of the equipment, each item of equipment shall be inspected, tested, and inventoried by representatives of the lessee and, at the lessor's option, together with representatives of the lessor (and of the ERDA, if the ERDA so elects), prior to its acceptance by the lessee and immediately prior to scheduled return shipment. The results of such inspections and tests, and the inventories compiled, shall be incorporated in reports submitted to the lessor and to the lessee (and to the ERDA if the ERDA so requires). For any item of equipment which the lessor has failed to inspect, test, and inventory, or has failed to report as provided herein, the lessor agrees that the report submitted hereunder by a representative of the lessee shall be conclusive evidence of the condition as of the date of inspection.

(e) *Excessive repairs.* The ERDA may require the lessee to deduct from payments otherwise due the lessor any amounts previously allowed the lessor under this agreement for repairs made at the lessee's expense which the ERDA finds to have been in excess of the requirements of this agreement.

Article VII—Protection of equipment—Steps to be taken in event of loss. (a) The lessee shall take all reasonable and necessary precautions to safeguard and protect the equipment. Any loss of or damage to the equipment will be at the lessor's risk to the extent that such loss or damage is required to be covered by insurance under Article III(d) of this agreement.

NOTE: When Article III(d) of the agreement provides that rental rates do not include any factor representing the cost of insurance or self-insurance covering loss of or damage to the equipment during rental periods, the following paragraph (a) shall be used:

"(a) The lessee shall take all reasonable and necessary precautions to safeguard and protect the equipment. Any loss of or damage to the equipment will be at the lessor's risk to the extent that such loss or damage is covered by any policy of insurance (or self-insurance)."

(b) Upon the happening of any loss or damage which is at the risk of the lessee under this agreement, the lessee shall immediately notify the lessor of the occasion and extent thereof, and the lessor shall thereupon, at the lessee's request effect an assignment and subrogation in favor of the lessee or the Government of all the lessor's rights and claims (except those against the lessee or the Government) arising out of any such loss or damage, shall, if required by the lessee or the Government, authorize representatives of the lessee or the Government to settle or prosecute to final judgment any such claims, and shall furnish to the lessee or the Government on request all reasonable assistance in obtaining recovery.

Article VIII—Liquidation of indebtedness. The lessor warrants full and complete title and right to possession of all the equipment, subject only to those liens, encumbrances or claims to title or possession securing the indebtedness detailed on Schedule 1, Part 2. The lessor agrees to apply such portion of the rental payable hereunder as may be necessary for the prompt discharge of such indebtedness. If at any time any person holding a lien, encumbrance, or claim against any item of the equipment shall submit to the lessee evidence that the lessor is not discharging the indebtedness secured thereby in accordance with the terms under which the indebtedness is payable or dischargeable, the lessee shall have the right upon three (3) days' written notice to the lessor to impound such part of the unpaid rental hereunder as the lessee, with the approval of the ERDA, deems necessary until the rights of the lessor and any such person are determined and all just and proper claims of such person are satisfied: *Provided*, That nothing contained in this paragraph shall be construed to require the lessor to pay to such person any sum not required to be paid by the terms under which the indebtedness was incurred or to pay any sum prior to the time it becomes due.

Article IX—Taxes. Unless otherwise directed by the ERDA, the lessor shall at the lessor's own expense pay and discharge any and all taxes levied upon any item of equipment.

Article X—Examination of records. Insert article in accordance with §9-7.5004-10.

Article XI—Covenant against contingent fees. Insert article in accordance with §9-7.5004-2.

Article XII—Renegotiation. Insert contract article set forth in §9-7.5004-20 if the agreement is subject to the Renegotiation Act of 1951, as amended.

Article XIII—Definition. As used herein the term "ERDA" means the Energy Research and Development Administration or any duly authorized representative thereof, including the Contracting Officer under the construction contract.

In witness whereof, the lessor and the lessee have executed this agreement as of the day and year above written.

PART 9–17—EXTRAORDINARY CONTRACTUAL ACTIONS TO FACILITATE THE NATIONAL DEFENSE

§9–17.000 Scope of part.

This part establishes procedures to implement and supplement FPR Part 1–17.

Subpart 9–17.1—General

§9–17.101 Authority.

(a) Pursuant to Public Law 85–804, the President by Executive Order No. 10789, authorized the Atomic Energy Commission (now the Energy Research and Development Administration) to exercise the authority provided for in the Act. This authority, which expands the ERDA's ordinary contracting authority, enables it to achieve procurement objectives and pursue policy goals which otherwise might be unattained. The authority of the Act, the Executive order, and these regulations establish no rights in any party outside the ERDA and the exercise of authority is wholly discretionary with the ERDA.

(b) The authority vested in the Energy Research and Development Administration by the Act and the Executive order, as amended, is delegated to:

(1) the Administrator or his designee: *Provided*, That such delegation does not include authority to deny relief in contractual fairness cases as defined in §9–17.204–52.

(2) Field Managers with respect to contractual fairness cases only, as defined in §9–17.204–52, provided that such delegation does not include authority to deny relief.

(3) The Board of Contract Appeals (which for the purpose of this part is designated as a Contract Adjustment Board) with respect to contractual fairness cases as defined in §9–17.204–52, and such other matters as may be referred to the Board by the Administrator or his designee.

(c) The delegations of authority in paragraph (b) of this section are subject to the limitations in FPR 1–17.205–1 and, in the case of paragraph (b)(2) of this section also of FPR 1–17.205–2. The delegation of authority in paragraph (b)(2) of this section may not be redelegated.

§9–17.102 General policy.

(a) The authority may be used only when there exist the following two conditions pertaining directly to the interests of national defense:

(1) The ERDA is exercising a function in connection with the national defense, and

(2) The ERDA finds that the use of the authority will facilitate the national defense.

(b) All ERDA contracts and subcontracts are sufficiently connected with the national defense to provide a basis for satisfying condition in paragraph (a)(1) of this section.

(c) The basis for satisfying condition in paragraph (a)(2) of this section is a determination that the use of the authority under the Act will:

(1) Effect the accomplishment or implementation of an important procurement objective or policy goal of the ERDA, or

(2) Provide fair and equitable treatment by the ERDA to persons directly or indirectly involved in procurement or other contract activities by the ERDA.

(d) If a determination is made pursuant to §9–17.102(c), the required statutory finding that the use of the authority will facilitate the national defense is conclusively established without need for further consideration.

§9–17.103 Types of action.

The three types of actions under FPR 1–17.103 are classified as follows for ERDA purposes:

(a) Cases of special management consideration, and

(b) Cases of contractual fairness.

EXTRAORDINARY CONTRACTUAL ACTIONS TO FACILITATE THE NATIONAL DEFENSE

§9-17.105 Reports.

The Director of Procurement, Headquarters, is responsible for preparing the annual report to the Congress required by FPR 1-17.105.

Subpart 9-17.2—Requests for Contractual Adjustment

§9-17.204 Standards for deciding cases.

§9-17.204-50 General.

(a) The types of situations identified in FPR 1-17.204 are divided into cases requiring special management consideration and cases giving rise to questions of contractual fairness.

(b) The authority under the Act may be exercised to accomplish or implement important procurement objectives or policy goals of the ERDA when ordinary means are deemed to be lacking or inadequate. In cases of special management consideration, the authority is a management tool available for use as the need requires.

(c) The procurement mission of the ERDA requires a firm policy of fair and equitable treatment by the ERDA of contractors, subcontractors, vendors, suppliers, consultants, and all others who, directly or indirectly, perform services for or furnish material or capacity to the ERDA. In contractual fairness cases, exercise of the authority under the Act is proper when the normal administrative means for the ERDA to assure fair and equitable treatment to those involved in its procurement or other contract activities are inadequate.

(d) All requests for use of authority under the Act shall be decided as expeditiously as possible and in accordance with applicable policy and procedural standards in this part.

§9-17.204-51 Cases of special management consideration.

(a) These are cases concerned with facilitating the national defense through the accomplishment of an important procurement objective or policy goal of the ERDA. Such cases include the amendment of contracts under FPR 1-17.204-2(a), advance payments, and the exercise of residual powers under FPR 1-17.3. In addition to amendments without consideration in essentiality cases, examples of cases for special management consideration are:

(1) Transfer of ERDA property,

(2) Special terms and conditions such as indemnification or wage stabilization agreements in contracts, and

(3) Resolution of problems arising out of relationships between a prime contractor and its subcontractors, vendors, suppliers, or consultants.

(b) The exercise of the authority in cases of special management consideration may immediately concern anyone directly or indirectly involved in procurement or other contract activities of the ERDA, including prime contractors, subcontractors, vendors, suppliers, and consultants.

§9-17.204-52 Cases of contractual fairness.

These are cases concerned with facilitating the national defense through fair and equitable treatment by the ERDA of its prime contractors and of its subcontractors, vendors, suppliers, consultants, and other persons directly or indirectly involved in procurement or other contract activities of the ERDA Such cases include:

(a) Correction or mitigation of the effects of a mistake in a prime contract of the ERDA (FPR 1-17.204-3),

(b) Formalizing informal commitments (FPR 1-17.204-4), and

(c) Adjustments in contracts based on ERDA action (FPR 1-17.204-2(b)).

§9-17.207 Requests by contractors.

§9-17.207-1 Filing requests.

A request for use of the authority may be made by any party who performs services for or furnishes material or facilities to the ERDA, either directly or indirectly. The request shall be filed in quintuplicate with the cognizant contracting officer or his duly

authorized representative. If such filing is impractical, requests will be deemed to be properly filed if filed with the Administrator or his designee.

§9–17.207–2 Form of requests.

In addition to the requirements of FPR 1–17.207–2, if the request is by a subcontractor, vendor, supplier, or consultant under an ERDA prime contract, a copy of the request by the requesting party to the prime contractor for a statement of his position with respect to the proposed use of authority under the Act and a copy of his reply, if available, shall also be filed. All possibilities for disposition of any claim between the prime contractor and the party requesting relief should be exhausted prior to requesting the use of the authority under the Act. In instances where the possibilities for disposition have not been exhausted, the matter will be referred to the prime contractor for consideration.

§9–17.207–50 Procedure for handling cases.

(a) Special management consideration cases:

(1) All requests for the exercise of authority under the Act in cases of special management consideration shall be referred to the Administrator or his designee for consideration, provided that requests under $50,000 may be referred by the Administrator or his designee to the cognizant Field Office Manager for disposition.

(b) Cases of contractual fairness:

(1) Requests for use of the authority under the Act in cases of contractual fairness shall be referred to the Manager of the Field Office having cognizance over the contract or subcontract involved, or in the case of Headquarters contracts, the Administrator or his designee.

(2) Thereupon, steps shall be taken to ascertain promptly whether or not the request contains the information called for under §9–17.207–2 and if it does not, additional information needed to cure the deficiency shall be requested from the person requesting relief. With respect to each request, which meets the standards of §9–17.207–2, an investigation sufficient to ascertain all relevant facts and issues shall be conducted as soon as possible.

(3) Where a request cannot be resolved by the Manager of the Field Office solely because the request for relief is in excess of $50,000, he shall forward the request to the Administrator or his designee with his recommendation.

(4) In the event the resolution proposed by the Manager of the Field Office or the Administrator or his designee is unacceptable to the person making the request, it shall be referred to the Board of Contract Appeals (acting in its capacity as a Contract Adjustment Board) for disposition in accordance with this part.

(c) The Administrator or his designee or Managers of Field Offices may, in their discretion, refer requests at any time to the Board of Contract Appeals (acting in its capacity as a Contract Adjustment Board) for disposition. In such instances, the Administrator or cognizant Manager, or their designees shall represent the interests of the ERDA before the Board of Contract Appeals (acting in its capacity as a Contract Adjustment Board).

§9–17.208 Processing cases.

(a) When submitting cases for consideration by the Administrator or his designee, Managers of Field Offices and Directors of Headquarters Divisions shall submit to the Director of Procurement, Headquarters, four copies of the following:

(1) The contractor's request in the form described in FPR 1–17.207–2,

(2) The preliminary record required by FPR 1–17.207–3,

(3) The facts and evidence described in FPR 1–17.207–4, unless the Director of Procurement, Headquarters, shall approve their omission, and

(4) The recommended course of action.

(b) Cases within the jurisdiction of the Board of Contract Appeals (acting in its capacity as a Contract Adjustment Board) shall be submitted directly to the Board, and the submission shall include the data described in paragraph (a) of this section.

§9–17.208–3 Disposition.

Subject to FPR 1–17.208–3(b) and applicable security regulations, in cases of special management considerations where the authority is used and in all cases of contractual fairness, Memoranda of Decision shall be available for public inspection.

§9–17.208–4 Records.

Managers of Field Offices, the Director of Procurement, Headquarters (for the Administrator or his designee), and the Chairman of the Board of Contract Appeals (acting in its capacity as a Contract Adjustment Board) shall maintain the records required by FPR 1–17.208–4 for each case handled within their respective areas of authority.

§9–17.208–50 Proceedings before the Contract Adjustment Board.

(a) When a case is to be decided by the Contract Adjustment Board, the CAB shall proceed in the same general manner as when it presides as the Board of Contract Appeals with respect to cases before it under the authority of 10 CFR Part 703. Any party directly affected by a request for the exercise of authority under the Act shall be entitled to a hearing by the CAB of the same general character as the Board of Contract Appeals provides parties in a 10 CFR Part 703 proceeding. The CAB shall make its decision on the record, prepare a Memorandum of Decision as provided in FPR 1–17.208–3, and thereupon transmit it to all parties to the proceeding.

(b) Whenever a case is before the Board of Contract Appeals under the authority of 10 CFR Part 703 and it appears that the case is one of contractual fairness under §9–17.204–52, the Board may continue to hear and decide the case as a Contract Adjustment Board with or without sending it to the Manager of the appropriate Field Office for consideration, depending on the particular circumstances and the requirement of fair and equitable treatment of all parties concerned: *Provided*, That whenever a case is based on a request for use of the authority under the Act, it shall be placed on the CAB's docket for such cases.

§9–17.208–51 Intra-agency coordination.

When a request for use of authority under the Act involves issues relating to both special management consideration and contractual fairness, the handling of the request shall be coordinated by the Administrator or his designee and the Chairman, Board of Contract Appeals and Adjustments, provided that the Administrator or his designee shall have the option of acting first on the request. After the Administrator or his designee acts upon the request, the request may still be regarded as a case of contractual fairness and handled accordingly.

Subpart 9-17.3—Residual Powers

§9-17.304 Records.

The Director of Procurement (for the Administrator or his designee) shall retain a copy of the memorandum required by FPR 1-17.303(a).

Subpart 9–17.4—Records of Requests and Dispositions

§ 9–17.402 Final records.

Managers of Field Offices, the Director of Procurement, Headquarters (for the Administrator or his designee) and the Chairman, Board of Contract Appeals (acting in its capacity as a Contract Adjustment Board) shall prepare the final record described in FPR 1–17.402 for each case handled within their respective areas of authority.

TABLE OF CONTENTS

PART 9-18—PROCUREMENT OF CONSTRUCTION AND CONTRACTING FOR ARCHITECT-ENGINEER SERVICES

Sec.

9-18.000 Scope of part.

Subpart 9-18.1—General Provisions

9-18.102-1 General.
9-18.108 Government estimates.
9-18.111 Concurrent firm fixed-price and cost-type construction contracts.
9-18.112 Construction contracts with design architect-engineers.
9-18.150 Abstracts of construction bids and proposals.

Subpart 9-18.2—Formal Advertising

9-18.203-1 Preparation of invitations for bids.
9-18.205 Prebid conferences.

Subpart 9-18.3—Negotiations

9-18.303 Price negotiation policies and procedures.
9-18.305 Subcontracting policies and procedures.
9-18.306-2 Cost-reimbursement type contracts.
9-18.306-3 Selection of a cost-reimbursement type contractor.
9-18.306-50 Preparation for negotiation—architect-engineer and cost-plus-a-fixed-fee construction contracts.
9-18.307 Negotiations.

Subpart 9-18.6—Buy American Act

9-18.600 Scope.
9-18.602-1 General.
9-18.606 Violations of Buy American Act provisions in construction contracts.
9-18.650 Excepted supplies to be used in the construction, alteration, or repair of any public work.

Subpart 9-18.7—Labor Standards for Contracts Involving Construction

Sec.

9-18.700 Scope of subpart.
9-18.701 Applicability.
9-19.701-50 General.
9-18.701-51 Noncoverage (Davis-Bacon and Copeland Acts)
9-18.701-52 Administrative controls and criteria for application of the Davis-Bacon Act in operational or maintenance activities.
9-18.702 Statutory and regulatory requirements
9-18.702-50 Department of Labor approval.
9-18.703 Contract clauses.
9-18.703-50 Special clause of "operating-type" contracts.
9-18.704 Wage determinations.
9-18.704-50 Use and duration of wage determinations.
9-18.705 Administration and enforcement.
9-18.705-50 Responsibilities.
9-18.750 Decisions and other guides in
9-18.750 Decisions and other guides in difficult areas.
9-18.750-1 General.
9-18.750-2 Specific examples.

Subpart 9-18.50—Rental of Construction Equipment

9-18.5000 Scope of subpart.
9-18.5001 General policy.
9-18.5002 Rental of contractor-owned equipment.
9-18.5002-1 Rental agreement.
9-18.5002-2 Rental period.
9-18.5002-3 Rental rates.
9-18.5002-4 Application of rates.
9-18.5002-5 Insurance.
9-18.5002-6 Rental limitation.
9-18.5002-7 Record of negotiation.
9-18.5002-8 Responsibility for repair and replacement.
9-18.5002-9 Equipment condition and inspection.
9-18.5003 Rental of third-party-owned equipment.
9-18.5003-1 Rental agreement.
9-18.5003-2 Rental rates.
9-18.5003-3 Insurance.
9-18.5003-4 Option to purchase equipment.

PART 9–18—PROCUREMENT OF CONSTRUCTION AND CONTRACTING FOR ARCHITECT-ENGINEER SERVICES

§9–18.000 Scope of part.

This part implements and supplements the contracting procedures peculiar to construction contracts set forth in FPR Part 1–18 and also sets forth related ERDA requirements for architect-engineer service contracts.

Subpart 9–18.1—General Provisions

§9–18.102–1 General.

See also §9–1.705–3.

§9–18.108 Government estimates.

A Government estimate of costs shall also be prepared for construction subcontracts under cost-type contracts. The services of the architect-engineer, operating contractor, or construction contractor will be used as appropriate in the preparation of Government estimates.

§9–18.111 Concurrent firm fixed-price and cost-type construction contracts.

See §9–1.5407(g).

§9–18.112 Construction contracts with design architect-engineers.

See §9–1.5407(g).

§9–18.150 Abstracts of construction bids and proposals.

Managers of Field Offices shall submit a copy of the certified abstract of bids or a certified copy of the abstract of proposals to the Director, Division of Construction for each fixed-price contract and subcontract to be entered into by ERDA and its cost-type contractors for construction projects on a formal advertising or an invited proposal basis which is estimated to equal or exceed $250,000 and which will require on-site labor. Each abstract shall be submitted promptly and shall include the Government estimate.

Subpart 9–18.2—Formal Advertising

§9–18.203–1 Preparation of invitations for bids.

(a) The following procedure shall be followed in furnishing copies of constructions plans and specifications:

(1) On all invitations, plans and specifications will be available on request to all prospective bidders, including general contractors, subcontractors, and material and equipment suppliers. Where the cost of reproduction is $10 or more, the charge shall be a minimum of $10 and subject to a maximum of $25, depending upon the size of the project and the number of drawings and the volume of specifications involved. Where the cost of reproduction is less than $10, the Field Office Manager has authority to make distribution at cost of reproduction, or free of charge, as a particular situation dictates.

(2) No refund for the return of plans and specifications will be made except when the invitation is canceled or no award is made under the invitation. Under such circumstances, refund of payments will be made upon return of the plans and specifications in good condition to the issuing office.

(3) Plans and specifications will be issued without charge to such organizations as The Associated General Contractors of America, American Road Builders' Association, Dodge Reports, Blue Reports, Brown's Letters, Inc., and others that maintain public plan display rooms.

§9–18.205 Prebid conferences.

See also §9–1.354.

Subpart 9–18.3—Negotiations

§9–18.303 Price negotiation policies and procedures.

See also Subpart 9–1.50 and §9–3.405–5.

§9–18.305 Subcontracting policies and procedures.

The provisions of FPR 1–18.305(b) and Part 9–59 apply to the procurement of construction services by ERDA cost-type contractors.

§9–18.306–2 Cost-reimbursement type contracts.

(c) *Conclusion of negotiations.* Architect-engineer letter contracts should also include the basis for determining the fee, which establishes the possible range of fees for the work.

§9–18.306–3 Selection of a cost-reimbursement type contractor.

See Part 9–56.

§9–18.306–50 Preparation for negotiation—architect-engineer and cost-plus-a-fixed-fee construction contracts.

(a) *General.* Before attempting to negotiate a contract, the following information should be prepared:

(1) *Description of the work.* A sufficiently detailed description and cost estimate of the work should be provided to permit an evaluation of services to be performed by the various participants and the degree of complexity of its principal components. For lump-sum A-E contracts, the information as to the work should be in more detail and on a firmer basis, particularly as to estimated costs, than for a CPFF contract. The estimated cost of the component items (including the costs of material and equipment furnished by ERDA) and their descriptions, insofar as available, should be included as follows:

(i) Major buildings and other structures for which complete designs and specifications are to be prepared by the architect-engineer, including number and cost of each type, with as much information as is available (within security requirements) as to the functional requirements for such structures.

(ii) Major utilities, including classifications and costs in as much detail as practicable.

(iii) Special equipment to be procured by the operating contractor, construction contractor, or architect-engineer, or furnished by the ERDA.

(iv) Special equipment to be designed by the architect-engineer.

(v) Special equipment to be installed by the construction contractor.

(2) *Estimated cost and time for completion.* A statement should be provided indicating total estimated cost of the work exclusive of the construction contractor's fee, and to the extent available, identifying labor, material, and indirect costs, and any amount included for contingencies; estimated cost of architect-engineer services; and estimated time of completion of design or construction work, with an explanation of the basis for establishing the completion schedules.

(b) *Extent of services.*—(1) *Architect-engineer contracts.* A written statement should be prepared which gives the extent to which the services of the architect-engineer include any of the services set forth below.

(i) Title I.—Provide the necessary topographical and other field surveys, test borings, and other subsurface investigations; prepare preliminary studies, sketches, layout plans, and outline specifications; and prepare reports including estimates of cost of the proposed project and of all structures, utilities, and appurtenances thereto.

(ii) Title II.—Provide complete design of the work including preparation of all required preliminary and final working drawings, specifications, estimates, and contract documents; assist in securing, analyzing and evaluating bids or proposals for construction; and consult with the ERDA on all questions arising in connection with the services performed by the architect-engineer.

(iii) Title III—Provide complete architect-engineer supervision and inspection of construction under the direction of a responsible representative, check shop drawings, and furnish record drawings to show construction has actually accomplished.

(iv) Process design. Process design normally requires the preparation of flow diagrams showing each operating step to perform the process; material and heat balances where required; determination of the nature, capacity and design characteristics of production equipment; the general design of connecting flow lines to handle the calculated rates of product and byproduct flow; and schematic layouts.

(v) Procurement of materials and equipment. (Describe fully.)

(vi) Other special services. (Describe fully.)

(2) *Cost-plus-a-fixed-fee construction contracts.* See also FPR 1-18.306.2.

(3) *Cost-plus-a-fixed-fee engineer-constructor contracts.* A written statement should be prepared which gives the extent to which the services of the contractor cover the services set forth in subparagraphs (1) and (2) of this paragraph.

(4) *Procurement of special equipment.* Contracts for procurement services only are rarely used. Procurement of special equipment is generally contracted for in conjunction with CPFF contracts for construction, operating, or architect-engineer services. In special situations, procurement of other equipment and construction materials is also contracted for in conjunction with CPFF contracts for operating or architect-engineer services. The description of procurement services in subdivision (ii) of this subparagraph is applicable to all of these cases.

(i) Special equipment is equipment for which the purchase price is of such a magnitude compared to the cost of installation as to improperly reflect the amount of technical direction and management effort required of the contractor. The determination of the specific items of equipment in this category requires application of judgment and careful study of the circumstances involved for each project. This category of equipment would generally include items such as:

(a) Major items of prefabricated process or research equipment.

(b) Major items of preassembled equipment such as packaged boilers, generators, machine tools, and large electrical equipment.

In some cases it would also include special apparatus or devices such as reactor vessels and reactor charging machines.

(ii) Description of procurement services: Procurement as herein considered is an activity involving judgment, knowledge, and experience relating to the manufacture, use or application of the article or process to be purchased. It may include the development or location of sources of supply, and generally includes preparation of bidding documents, solicitation of proposals, analysis of proposals received (including where necessary technical and sometimes complicated evaluation of performance characteristics of the equipment of different manufacturers), inspection at manufacturer's plant as distinguished from inspection supplied under title III services of an architect-engineer contract, and evaluation of production capacities to meet required delivery. Procurement includes necessary coordination with participating contractors and the ERDA for especially designed equipment, general and specific expediting, and special assistance to the manufacturers in helping to locate scarce materials and machine tools and in supporting allocations for critical materials where this is a necessary function. Procurement normally includes inspection and receiving upon delivery at the site (this may be a joint activity where the procuring agent is not the constructor) and payment. All onsite physical activities after delivery, including unloading, warehousing, hauling, and installation, are considered a construction activity and not procurement.

(iii) Selection of procuring agent: Coordination, timing, and technical know-how are important factors to be considered in the selection of a procuring agent. The advantages and disadvantages of placing full responsibility in one contractor for construction and procurement, or split responsibility where the procurement is placed under a contract with the architect-engineer or operating contractor, should be evaluated in the light of the above factors.

§9-18.307 Negotiations.

See also §9-3.805-50.

Subpart 9-18.6—Buy American Act

§9-18.600 Scope.

(a) This subpart implements FPR Subpart 1-18.6.

(b) The requirements of FPR Subpart 1-18.6 and this subpart apply to cost-type contractor procurement.

§9-18.602-1 General.

(a) Contracting officers may make the determinations required by FPR 1-18.602-1(b) and (c).

(b) The Administrator or his designee only may make the determination required by FPR 1-18.602-1(a) and may authorize deviations described in FPR 1-18.603-3.

§9-18.606 Violations of Buy American Act provisions in construction contracts.

Contracting officers shall make a complete written report (in triplicate) to the Administrator or his designee, through the Director of Procurement, of each violation of the Buy American Act provisions in contracts for construction. See FPR 1-18.606 and Subpart 9-1.6.

§9-18.650 Excepted supplies to be used in the construction, alteration, or repair of any public work.

The following list shall be noted in the specifications:

Antimony.
Asbestos.
Bauxite.
Chrome ore or chromite.
Cobalt.
Cork.
Graphite.
Jute and jute burlaps.
Logs, veneer, and lumber from balsa, greenheart, lignum vitae, mahogany, and teak.
Mica.
Nickel.
Rubber, crude and latex.
Shellac.
Tin.

Subpart 9–18.7—Labor Standards for Contracts Involving Construction

§9–18.700 Scope of subpart.

(a) This subpart 9–18.7 serves to implement and supplement FPR subpart 1–18.7, Labor Standards for Contracts Involving Construction.

(b) The provisions of FPR subpart 1–18.7 and this subpart shall be followed in determining whether cost-type contractor procurement actions involve covered work under the Davis-Bacon Act and such provisions apply to those procurement transactions which are determined by the contracting officer to be subject to that Act.

§9–18.701 Applicability.

§9–18.701–50 General.

The requirements set forth in FPR 1–18.702 apply to construction contracts. Although the statutes therein referenced do not contain definitions, the Secretary of Labor's regulations in 29 CFR 5.2 include definitions of "contract," "building," "work," "construction," "prosecution," "completion," "repair," "public building," and "public work." In general, contracts are classifiable as being covered by the statutes when performance by the contractor consists substantially of the erection or assembly of new plants (including laboratory or other buildings or works), or the alteration and/or repair including painting and decorating, of new or existing plants. The fact that certain contracts may be entered into without regard to general statutory requirements as to advertising for bids or proposals, or upon a cost-type basis or otherwise, is not determinative in the classification of such contracts, activities, construction projects, or other work or services performed thereunder.

§9–18.701–51 Noncoverage (Davis-Bacon and Copeland Acts).

(a) The requirements set forth in FPR subpart 1–18.7 in respect to the Davis-Bacon and Copeland Acts do not apply to the following:

(1) Contracts, regardless of their nature, not in excess of $2,000. (Does not apply to the Copeland Act.) However, no item of work the cost of which is estimated to be in excess of $2,000 shall be artificially divided into portions less than $2,000 for the purpose of avoiding the applicability of the Davis-Bacon Act.

(2) Contracts for furnishing supplies and equipment, including installation, where the installation requires only an incidental amount of work (as defined in paragraph (c) of this section) that would otherwise be considered construction alteration and/or repair of a public building or work (see §9–18.750–2(g)).

(3) Contracts for servicing or maintenance work in an existing plant, including installation or movement of machinery or other equipment, and plant rearrangement, which involve only an incidental amount of work (as defined in paragraph (c) of this section) that would otherwise be considered construction, alteration and/or repair (see §9–18.750–2(g)).

(4) Contracts for operational or maintenance activities (e.g., production, research and development, or community services, as distinguished from contracts for construction). In general, these are contracts where performance by the contractor consists primarily of the utilization of existing facilities and the services of personnel to produce materials, conduct research and development, or provide community-type services, and of the use of or maintenance of plant. However, the classification of a contract as a contract for operational or maintenance activities does not necessarily mean that all work and activities at the contract location are not covered, since it may be necessary to separate out work which should be classified as covered. (See §9–18.701–52.) As used in connection with "operational activities," the term "produce" means to manufacture, make, or refine special nuclear or other material; to separate material from other substances in which it is contained; or to make new material. The term "materials" includes supplies, articles, or equipment; the term "research and development" means the same as defined in the Atomic Energy Act of 1954, as amended.

(5) Contracts to be performed outside the States and the District of Columbia. (Does not apply to the Copeland Act.)

(6) Contracts for demolition, except when indispensable and preliminary to scheduled new construction.

(7) Contracts with a State or political subdivision thereof (although the requirements do apply, and the contract must so provide, to a subcontract thereunder with a private person or firm which involves the construction, alteration, and/or repair of public buildings or public works).

(8) Contracts with railroads for construction services to the extent that the services are performed by railroad employees covered by the Railway Labor Act.

(b) It should be noted, however, that the requirements do apply to work performed by laborers and mechanics employed by a construction contractor or subcontractor at the site of the work under a contract for the construction, alteration and/or repair, including painting and decorating of public buildings or public works, which is otherwise subject to these Acts whether or not such work would be covered if it were a separate contract.

(c) As used in paragraph (a)(2) and (3) of this section, "an incidental amount of work" is defined to mean work directly related to the installation, movement or rearrangement of equipment or machinery, relatively small in amount, and which does not include changes in a facility affecting its architectural or structural strength, stability, safety, size, or function as a public work. (See §9-18.750-2(g)(3).)

§9-18.701-52 Administrative controls and criteria for application of the Davis-Bacon Act in operational or maintenance activities.

(a) Particular contracts or work items falling within one or more of the following criteria normally will be classified as noncovered.

(1) Individual work items estimated to cost $2,000 or less. The total dollar amount of the operating contract is not a factor to be considered and bears no relation to individual work items classified as construction, alteration and/or repair, including painting and decorating. However, no item of work, the cost of which is estimated to be in excess of $2,000, shall be artificially divided into portions less than $2,000 for the purpose of avoiding the application of the Act.

(2) Work and services that are a part of operational and maintenance activities or which, being very closely and directly involved therewith, are more in the nature of operational activities than construction, alteration, and/or repair work. This includes work and services which would involve a material risk to continuity of operations, to life or property, or to ERDA operating requirements, if performed by persons other than the operating contractor's regular production and maintenance forces. *Provided, however,* That any decision that contracts or work items are noncovered for these reasons must be made by the Manager of respective Field Office and the authority to make such a decision cannot be redelegated.

(3) Work and services, typically of a routine or recurring nature, the purpose of which is to keep facilities in a state of functional usefulness.

(4) Assembly, modification, setup, installation, replacement, removal, rearrangement, connection, testing, adjustment, and calibration of machinery and equipment. It should be noted, however, that these activities are covered if they are part of or would be a logical part of a contract for the construction of a facility, or if construction-type work, other than defined in "incidental" in §9-18.701-51(c) is involved. (Also see §9-18.750-2(g).)

(5) Experimental development of equipment, processes and devices, including assembly, fitting, installation, testing, reworking, and disassembly. This refers to equipment, processes and devices which are assembled for the purpose of conducting a test or experiment. The design may be only conceptual in character, and professional personnel responsible for the experiment participate in the assembly. Specifically excluded from the category of experimental development are buildings, building utility services, structural changes, and modifications to building utility services—as distinguished from temporary connections thereto. Also specifically excluded from this category is equipment to be

used for continuous testing, e.g., a machine to be continuously used for testing the tensile strength of structural members. (Also see §9-18.750-(2)(a) and §9-18.750-2(h)).

(6) Experimental work in connection with peaceful uses of nuclear energy. This refers to equipment, processes and devices which are assembled and/or set in place and interconnected for the purpose of conducting a test or experiment. The nature of the test or experiment is such that professional personnel responsible for the test or experiment and/or the data to be derived therefrom necessarily must participate in the assembly and interconnections. Specifically excluded from experimental work are buildings, building utility services, structural changes, drilling, tunneling, excavation, and backfilling work which can be performed according to customary drawings and specifications, and utility services or modification to utility services—as distinguished from temporary connections thereto. Work in this category may be performed in mines or in other locations specifically constructed for test or experiments. (See also §9-18.750-2(h).)

(7) Emergency work to combat the effects of fire, flood, earthquake, equipment failure, accident or other casualties, and to restart the operational activity following the casualty. Work which is not directly related to restarting the activity and which involves rebuilding or replacement of structure or structural components or equipment is excluded from this category. (See §9-18.750-2(d).)

(8) Decontamination, including washing, scrubbing, and scraping to remove contamination; removal of contaminated soil or other material; and painting or other resurfacing: *Provided,* That such painting or resurfacing is an integral part of the decontamination activity and does not include complete replacement of large sections of paved areas or roadways.

(9) Burial of contaminated solid waste or contained liquid; however, initial preparatory work readying the burial ground for use (for example, any grading or excavating that is a part of initial site preparation, fencing, drilling wells for continued monitoring of contamination, construction of guard or other office space) is covered. Likewise, work subsequent to burial which involves the placement of concrete or other like activity is covered.

(b) The classification of a contract as a contract for operational or maintenance activities does not necessarily mean that all work and activities at the contract location are classifiable as outside of Davis-Bacon Act coverage, since it may be necessary to separate out work which should be classified as covered. Therefore, Managers of Field Offices shall establish and maintain controls for the careful scrutiny of proposed work assignments under such a contract to assure that:

(1) Contractors whose contracts do not contemplate the performance of covered work with the contractor's own forces are neither asked nor authorized to perform work within the scope of the Davis-Bacon Act.

(2) Where covered work is performed by a contractor whose contract contains provisions required by the Davis-Bacon Act, such work is performed as required by law and the contract. After such contractor has been informed, as provided in paragraph (b)(3) of this section, that certain work is covered work, the Manager's responsibility to assure compliance is the same as it would be if the work were being performed under a separate construction contract.

(3) Controls provided for above include consideration by the Manager and the contractor, before work is begun or contracted out, of the relation of the Davis-Bacon Act to (i) the annual programing of work, (ii) the contractor's work orders, and (iii) work contracted out in excess of $2,000. The Manager may, if he concludes that it is consistent with ERDA's responsibilities as described in this section, prescribe from time to time classes of work as to which applicability or nonapplicability of the Davis-Bacon Act is clear, for which he will require no further ERDA determination on coverage in advance of the work. For all work the controls to be established by the Manager should provide for notification to the operating contractor before work is begun as to whether such work is covered.

§9-18.702 Statutory and regulatory requirements.

§9-18.702-50 Department of Labor approval.

The Department of Labor has previously reviewed and approved the criteria, standards, and guides set forth in §9-18.701, §9-18.704, and §9-18.750, and the contract clause in §9-18.703-50.

§9-18.703 Contract clauses.

Subcontracts subject to the Davis-Bacon Act under "operating type" contracts (see §9-18.703-50 below) shall include the applicable clauses in FPR 1-18.703 with such modifications as appropriate to reflect the prime-subcontract relationship. Paragraph (f) of the clause in FPR 1-18.703-1(a) shall be modified to delete reference to a prime contract subject to the Davis-Bacon Act.

§9-18.703-50 Special clause for "operating type" contracts.

The following article is for use in prime contracts when the prime contractor is to perform no covered work with his own forces but may procure construction by subcontract:

"Upon request of the ERDA and acceptance thereof by the contractor, the contractor shall procure by subcontract the construction of new facilities or the alteration or repair of Government-owned facilities at the plant. Any subcontract entered into under this paragraph shall be subject to the written approval of the ERDA and shall contain the provisions relative to labor and wages required by law to be included in contracts for the construction, alteration, and/or repair, including painting and decorating, of a public building or public work."

§9-18.704 Wage determinations.

§9-18.704-50 Use and duration of wage determinations.

In general, the Davis-Bacon Act rates applicable to a contract at the time it is awarded continue in effect during its term regardless of whether it is a fixed-price or cost-type contract. However, in the event of a substantial addition to the scope of a contract containing a "general or area wage determination," the current "general or area wage determination," including modifications thereto, shall be made applicable to the additional work. If the contract contains a "project area or installation (54A) determination," or an "individual determination," and a substantial addition to the scope of the contract is made more than 120 days from the date of the determination, a new determination is required for the substantial addition. However, it should be noted that:

(a) The minimum wage rates that will be paid to laborers and/or mechanics engaged on jobs which are programed on a fiscal year or shorter basis are those predetermined by the Secretary of Labor to be prevailing as of the date the program is approved by the ERDA for performance by the contractor. However, in the event of a substantial addition to the scope of a contract containing a "general or area wage determination," the current "general or area wage determination," including modifications thereto, shall be made applicable to the additional work. If the contract contains a "project area or installation (54A) determination," or an "individual determination," and a substantial addition to the scope of the contract is made during the fiscal year or shorter basis but more than 120 days from the date of the determination, a new determination is required for the substantial addition. Programed work will be performed by the contractor under the following conditions:

(1) Continuing contracts for minor or miscellaneous construction, alteration and/or repair, including painting and decorating;

(2) Operating contracts under which the operating contractor will perform miscellaneous covered work with his own forces.

(b) The minimum wage rates that will be paid to laborers and/or mechanics engaged on subcontracts let by an operating contractor under §9-18.703-50 will be those in the

wage determination decision of the Secretary of Labor which is current as of the date the operating contractor enters into such subcontract. (Note that a determination is not required for insertion in a prime contract for the performance of operational and maintenance activities which contains a clause such as set forth in §9-18.703-50.)

(c) See FPR 1-18.704 for types of wage determinations procedures for requesting same, and FEDERAL REGISTER review on general or area wage determinations.

§9-18.705 Administration and enforcement.

§9-18.705-50 Responsibilities.

The statutes and regulations cited and summarized in FPR 1-18.702 and the requirements in FPR 1-18.705 impose direct responsibilities for administration and enforcement upon the Energy Research and Development Administration. Therefore, Directors, Headquarters Divisions and Offices, and Managers of Field Offices, consistent with their assignments of responsibilities and delegations of authority, shall assure that ERDA contract activities are carried out consistent with these laws and regulations.

§9-18.750 Decisions and other guides in difficult areas.

§9-18.750-1 General.

Section 9-18.701-52 necessarily uses general language, and in some cases the application of the criteria discussed therein to particular situations may not be clear. Therefore, this subsection covers more specifically some of the areas of particular concern to ERDA and is promulgated to clarify the application of the criteria.

§9-18.750-2 Specific examples.

The following are applications of the regulations to particular situations. Additional narrative statements describing items of work and applicability of the Davis-Bacon Act will be developed from time to time and added to this subsection.

(a) *Land-based prototypes.* The Labor Department has held that the construction of a full-scale operating prototype of one reactor compartment and of all necessary nuclear power components and systems and propulsion equipment for a submarine is covered. (See letters of Mar. 14, and July 5, 1957, from Acting Solicitor of Labor to Director of Organization and Personnel, AEC (now ERDA) regarding TRITON prototype.) In another ship prototype situation, the Department has held that assembling and fitting the components of nuclear steam propulsion units into the hull sections, including installation of the pressure vessels, turbo-generator sets, heat exchangers, control wiring, etc., is covered. (See letter of Oct. 22, 1956, from Solicitor of Labor to General Manager, AEC (now ERDA), regarding large ship reactor land prototype.) A later decision involving the same prototype indicates that the earlier rulings should not be construed as intended to cover all equipment assemblies irrespective of the status of construction and other pertinent factors.

(b) *Paving.* The construction of roads, including grading, and their repair—where such repair includes work on roadbeds before resurfacing, building up shoulders, forming ditches, culverts and bridges, and on the actual resurfacing of roads—is covered. However, recurring-type maintenance work, such as patching surface, filling chuck holes, patching shoulders, and resurfacing railroad crossings is noncovered. Similarly, patch and maintenance work on a parking lot, the replacement of bumper stops, and the repainting of parking dividers is noncovered.

(c) *Stationary boilers.* The construction, alteration and/or repair, including installation and rebuilding, of stationary boilers costing in excess of $2,000 for labor and materials is covered. In contrast, inspection may reveal need for replacement of pieces of insulation, individual tubes, or other defective parts. Such maintenance, necessary to keep the boiler in safe operating conduction, is non-covered.

(d) *Startup of operating activity after fire or other catastrophe.* Rebuilding of plant following a catastrophe, such as replacement of structural members, roof trusses, walls,

roof, utility services, and process piping is covered. However, where process equipment can be restarted and/or operational activities resumed prior to such rebuilding, the actual work of startup, including preliminary activity, e.g., cleaning, drying, checking, adjustment, temporary services, and temporary weather protection of equipment, essential to such resumption of operational activity, is noncovered.

(e) *Rehabilitation of facilities.* By contrast with emergency services needed to restore or maintain functional usefulness, as above described, rehabilitation (e.g., painting, change-out, rearrangement and installation of equipment, replacement or repair of damaged parts of a structure or of building services or equipment) of a nonoperable facility or of significant nonoperable portions of a facility is covered. In such rehabilitation, the startup of equipment by operating employee is noncovered.

(f) *Painting.* Although painting and decorating are specifically mentioned in the Act, painting which is closely integrated within operational and maintenance activities, and such repainting as color coding of process lines and service piping (including valves and directional arrows), is noncovered; likewise, application of various materials for localizing contamination, painting of machine tools to identify degree of contamination, preventive maintenance, repainting of machine tools, equipment and plant structures is noncovered when performed with a stable work force employed by the operating contractor.

(g) *Installation, rearrangement or adjustment of equipment. (See also paragraph (h), Experimental installations, of this section.)*

(1) *During construction.* In the construction of a new facility—whether it is a production plant, a laboratory, or supporting facilities, such as shops and warehouses—an integral part of a construction project is the installation of equipment (including mechanical equipment, building services, instruments, etc.), which permits the facility to be utilized for the purpose for which it was intended. Normally, the initial installation, arrangement, adjustment, balancing, calibration, and checking of such equipment is a logical part of the construction contract(s) for completion of the facility and, whether or not included within the scope of such contract(s), is covered.

(2) *Plant startup.* At the time of the turnover of an ERDA facility (which frequently differs in many respects from other facilities), from construction to operation activities, if the facility is turned over a section at a time, some problems of coverage may arise. It is extremely difficult, if not impossible, to write rules or criteria that can be practically applied in all situations. Usually, it is essential that final checkout of a plant prior to the startup of plant operations be performed by personnel of the operating contractor and, as such, is not covered. The important thing is to work out a practical plan that will assure: (i) Safe and effective startup of the facility, (ii) the fulfillment of obligations under applicable statutes, and (iii) continuing construction at the facility.

(3) *Equipment and equipment assemblies.* While the current construction status of a public building or public work is not controlling as to coverage of supply-installation-type contracts, this is a factor to be considered in judging the applicability of the Davis-Bacon Act. The Labor Department has ruled (Walsh-Healey Rulings and Interpretations No. 3, section 6(b)) that while contracts in excess of $10,000 for equipment, including erection or installation are subject to the Walsh-Healey Act, they may be also covered under the Davis-Bacon Act where more than an incidental amount (see §§9-18.701-51(c)) of work is involved. Examples given in this ruling include furnishing and installation of mechanical equipment such as elevators or of generators requiring prepared foundations or housing. In a specific situation, the Department has indicated that a contract for furnishing the initial installation of piping, wiring, gas exhaust fans, plumbing, sheet metal work, and related activities to install kitchen and baking equipment was comparable to the basic plumbing, wiring, and heating contracts and was covered (see letter of Aug. 12, 1958, from Acting Assistant Solicitor of Labor to the Director, AFMPP-PR-3, Procurement and Production, the Air Force (Attention: Col. Treacy), regarding the Air Force Academy). While this situation involves an initial installation, alteration or rearrangement of existing facilities involving such work to accommodate new or different equipment is also covered. Conversely, it follows that where the tect of more than an incidental amount of construction is not met, and where the installation, rearrangement or adjustment of equipment is not a logical part of any current related construction project, it is noncovered.

(4) *Special leased systems.* Most, but not all, contracts involving the installation of telephone, detective and other leased systems are not covered when the work is performed by employees of the companies supplying the services and the material and equipment installed is owned by such companies. (See discussion in letter of Aug. 12, 1958, from Acting Assistant Solicitor of Labor to the Director, AFMPP-PR-3, Procurement and Production, the Air Force (Attention: Col. Treacy), regarding the Air Force Academy, of one situation in which an extension of the distribution system of the telephone company to supply service to the Air Force was held to be noncovered and of another situation in which the movement of telephone company lines by the telephone company to a location more convenient to the Air Force was held to be covered.) A contract for a telephone central system to be installed by the manufacturer and owned by the United States has been held to be covered. (See letter of Oct. 22, 1958, from the Solicitor of Labor to the Director, AFMPP-PR-3, Procurement and Production, the Air Force (Attention: Col. Treacy), regarding Patrick Air Force Base.)

(h) *Experimental installations.* Within ERDA programs, a variety of experiments are conducted involving materials, fuels, coolants, processes, equipment, etc. Certain types of situations where tests and experiments have sometimes presented coverage questions are described below.

(1) *Set-ups of devices and/or processes.* The proving out of investigative findings and theories of a scientific and technical nature for extension into practical application may require the set-up of various devices and/or processes at an early or preprototype stage of development. These may vary from laboratory bench size upwards. As a rule, these set-ups are made within established facilities (normally laboratories); required utility connections are made to services provided as a part of the basic facilities; and the activity as a whole falls within the functional purpose of the facility. Such set-ups may be for exploring mechanical or electrical design suitability, physical or chemical properties, or for collecting data to verify or reject scientific hypotheses. Such set-ups are noncovered. Preparatory work for the set-up requiring structural changes or modifications of basic utility services—as distinguished from connections thereto—is covered. Illustrative of noncovered set-ups of devices and/or processes are the following:

(i) Assembly of piping and equipment within existing "hot cell" facilities for proving out a conceptual design of a chemical processing unit;

(ii) Assembly of equipment, including adaptation and modification thereof, in existing "hot cell" facilities to prove out a conceptual design for remotely controlled machining equipment;

(iii) Assembly of the first graphite pile in a stadium at Stagg Field in Chicago;

(iv) Assembly of materials and equipment for particular aspects of the direct current thermonuclear experiments to explore feasibility and to study other ramifications of the concept of high energy injection and to collect data thereon.

(2) *Loops.* Many experiments are carried on in equipment assemblies called loops in which liquids or gases are circulated under monitored and controlled conditions. For purposes of determining Davis-Bacon coverage, loops may be classed as loop facilities or as loop set-ups. Both of these classes of loops can include in-reactor loops and out-of-reactor loops. In differentiating between clearly identified loop set-ups and loop facilities, an area exists in which there have been some questions of coverage, such as certain loops at the Material Test Reactor and Engineering Test Reactor at the National Reactor Test Site. Upon clarification of this area, further illustrations will be added. In the meantime, the differentiation between loop set-ups and loop facilities must be made on a case-by-case basis, taking into account the total criteria set forth in this subpart.

(i) *Loop set-ups.* The assembly, erection, modification and disassembly of a loop set-up is noncovered. A noncontroversial example of a loop set-up is one which is assembled in a laboratory, e.g., Oak Ridge National Laboratory, Argonne National Laboratory, and Lawrence Radiation Laboratory, for a particular test and thereafter disassembled. However, preparatory work for a loop set-up requiring structural changes or modifications of basic utility services—as distinguished from connections thereto—is covered as is material and equipment that is installed for a loop set-up which is a permanent part of the facility or which is used for a succession of experimental programs.

(ii) *Loop facilities.* A loop facility differs from a loop set-up in that it is of a more permanent character; usually, but not always, of greater size; normally involves the building or modification of a structure; sometimes is installed as a part of construction of the facility; and may be designed for use in a succession of experimental programs over a longer period of time. Examples of loop facilities are the in-reactor "K" loops at Hanford and the large Aircraft Nuclear Propulsion loop at National Reactor Test Site. The on-site assembly and erection of such loop facilities are covered. However, once a loop facility is completed and becomes operational, the criteria set forth above for operational and maintenance activities apply.

(3) *Reactor component experiments.* Other experiments are carried on by insertion of experimental components within reactor systems without the use of a loop assembly. Illustrative of reactor facilities erected for such experimental purposes are the special power excursion test reactors (SPERT) at the National Reactor Test Site, which are designed for studying reactor behavior and performance characteristics of certain reactor components. Such a facility may consist of a reactor vessel, pressurizing tank, coolant loops, pumps, heat exchangers, and other auxiliary equipment as needed. The facility also may include sufficient shielding to permit work on the reactor to proceed following a short period of power operation and buildings as needed to house the reactor and its auxiliary equipment. The erection and on-site assembly of such a reactor facility is covered work but the components whose characteristics are under study are excluded from coverage. To illustrate, one of the SPERTs planned for studies of nuclear reactor safety is designed to accommodate various internal fuel and control assemblies as required to conduct a particular test. Accordingly, the internal structure of the pressure vessel is so designed that cores of different shapes and sizes may be placed in the vessel for investigation, or the entire internal structure may be easily removed and replaced by a structure which will accept a different core design. Similarly, the control rod assembly is arranged to provide for flexibility in the removal of instrument leads and experimental assemblies from within the core.

(4) *Tests or experiments in peaceful uses of nuclear energy.* These tests or experiments are varied in nature and some are only in a planning state. These tests or experiments consist of a single or series of nuclear or nonnuclear detonations for the purposes of acquiring data. The data can include seismic effects, radiation effects, amount of heat generated, amount of material moved and so forth. Some of these tests are conducted in existing mines while others are conducted in locations specifically constructed for the tests or experiments. In general, all work which can be performed in accordance with customary drawings and specifications as well as other work in connection with preparation of facilities is treated as covered work. Such work includes tunneling, drilling, excavation and backfilling, erection of buildings or other structures, and installation of utilities. The installation of the nonnuclear material or nuclear device to be detonated, the instrumentation, and connections between such material or device and the instrumentation are treated as noncovered work.

(5) *Tests or experiments in military uses of nuclear energy.* As in the case in §9-18.750-2(h)(4), these tests or experiments can be varied in nature. However, under this category it is intended to include only detonations of nonnuclear material or nuclear devices. The material or devices can be detonated either underground, at ground level or above the ground. These tests or experiments have been conducted in, on, or in connection with facilities specifically constructed for such tests or experiments. As is the case with respect to tests or experiments in peaceful uses of nuclear energy, all work which can be performed in accord with customary drawings and specifications as well as other work in connection with preparation of facilities are treated as covered work. Such work includes building towers or similar structures, tunneling, drilling, excavation and backfilling, erection of buildings or other structures, and installation of utilities. The installation of the nonnuclear material or nuclear device to be detonated, the instrumentation, and connections between such material or device and instrumentation are treated as noncovered work.

(i) *Construction site contiguous to an established manufacturing facility.* As ERDA-owned property sometimes embraces several thousands of acres of real estate, a number

of separate facilities may be located in areas contiguous to each other on the same property. These facilities may be built over a period of years, and established manufacturing activities may be regularly carried on at one site on the property at the same time that construction of another facility is underway at another site. On occasion, the regular manufacturing activities of the operating contractor at the first site may include the manufacture, assembly and reconditioning of components and equipment which in other industries would normally be done in established commercial plants. While the manufacture of components and equipment in the manufacturing plant is noncovered, the installation of any such manufactured items on a construction job is covered.

Subpart 9–18.50—Rental of Construction Equipment

§9–18.5000 Scope of subpart.

This subpart sets forth general policy and instructions which shall be applied to rental of construction equipment for use by ERDA cost-type contractors.

§9–18.5001 General policy.

It is the policy of the ERDA:

(a) To use presently owned ERDA construction equipment to the fullest extent. Careful investigation shall be made of the equipment available not only at the Field Office concerned, but at other field offices, to determine whether such equipment can be economically utilized on the job. The Director of Procurement, can assist in the investigation of excess equipment available in other offices.

(b) To rent construction equipment, where available, rather than purchase it, unless, in the case of third-party-owned equipment, the Field Office determines that accrued rentals on a particular item of equipment will approximate the cost of ownership of it; except, however, that individual items of construction equipment having an original cost of less than $1,000 ordinarily should be purchased and not rented. Where it is clearly to the advantage of the Government, items having a cost of less than $1,000 may be rented with the approval of the Manager of the Field Office. Whenever it is practical, cost and other factors considered, contractor-owned equipment shall be rented in preference to renting third-party-owned equipment.

(c) To pay rental for construction equipment at rates not higher than those prevailing in the locality, except under unusual circumstances, and at as low a rate as is consistent with securing modern equipment in good operating condition. Costs of repair, job interruption due to poor equipment, transportation and in-transit rental may well offset any apparent savings in rental rates. Rental paid shall be subject to any Government price ceiling regulations that may be in effect.

§9–18.5002 Rental of contractor-owned equipment.

§9–18.5002–1 Rental agreement.

The terms and conditions governing rental by the ERDA of construction equipment from a prime cost-type construction contractor are set forth in §9–16.5002–12, Outline of agreement for rental of contractor-owned construction equipment. This form of agreement is designed for use as an appendix to an ERDA cost-type construction contract. It may be modified for rental of equipment under other contractual arrangements, such as an operating contractor renting from a cost-type construction subcontractor, and it may be modified for use as a separate contract or as an attachment to a subcontract. Some of the aspects of this agreement to which particular attention should be given are set forth in §§9–18.5002–2 through 9–18.5002–9.

§9–18.5002–2 Rental period.

The base rental period shall extend from the time the equipment is accepted at the job site until the contractor is notified in writing by the ERDA's representative that the equipment is no longer required. Subject to applicable limitations covered in the rental agreement form, the contractor shall be paid rental during the in-transit time and during the time required for equipment repair or replacement prior to return to the contractor.

§9–18.5002–3 Rental rates.

(a) Rates for rental of contractor-owned equipment shall be fair and equitable. The rental rates contemplate that the ERDA will pay incoming and outgoing transportation costs and rental during in-transit time for both inbound and outbound transportation of equipment; however, terms more favorable to the ERDA may be negotiated where appropriate. The rental rates to be paid for the use of contractor-owned equipment under

normal conditions should not exceed 65 percent of the rates quoted in the latest edition of the Associated Equipment Distributors' "Compilation of Averaged Rental Rates for Construction Equipment." However, Managers of Field Offices may approve rates in excess of 65 percent of the current A.E.D. schedule when local conditions require higher rates. When it becomes necessary as a general practice to exceed 65 percent of the current A.E.D. schedule, the Manager of the Field Office shall advise the Director of Procurement, explaining the circumstances.

(b) For items of equipment that are not covered by the A.E.D. schedule, use the latest edition of "Contractors' Equipment Ownership Expense" document published by The Associated General Contractors of America, inc., and information on prevailing local rates for developing rates that would be consistent with the 35 percent reduction in the A.E.D. rates (i.e., taking into consideration the expenses paid by the Government under the rental agreement).

§9-18.5002-4 Application of rates.

The rental rates shall be applied in accordance with the following rules:

(a) *Basis of rates.* The rates shall be based upon one shift of 8 hours per day, 40 hours per week, or 176 hours per month of a 30-consecutive-day period.

(b) *Apportionment of rates.* The monthly rate and its pro rata shall apply to all rental periods of 1 month or more. The weekly rate and its pro rata shall apply to all rental periods of 1 week or more up to 1 month. The daily rate and its pro rata shall apply to all rental periods up to 1 week.

(c) *Overtime.* Inasmuch as there are certain elements of cost to an equipment owner which do not change even though the equipment is used on more than one shift per day, it is believed equitable to pay a lower rental rate during a second and third shift than would be paid during a single shift. Therefore, the rental agreement form provides for payment for overtime at a rate equal to one-half the rate for the first shift.

§9-18.5002-5 Insurance.

(a) Generally, rental rates should include the cost of insurance or self-insurance covering loss of or damage to the equipment during rental periods. The rental agreement for contractor-owned equipment is so worded.

(b) However, if the contracting officer determines that it is not practical to include the cost of such insurance in the rental rates, paragraphs 3(d) and 7(a) shall be amended as indicated in the applicable notes following these paragraphs in §9-16.5002-12.

§9-18.5002-6 Rental limitation.

The rental agreement form provides that when the total amount of rental paid to the contractor for any one unit of equipment equals 75 percent of the mutually agreed value of that unit as set forth in the initial inspection report, the equipment is to remain available for the work under the construction contract as long as it will be required without any further rental payments to the contractor. The rental ceiling of 75 percent of the agreed-upon value of the equipment applies to all rental paid including rental paid during intransit time to and from the site of the work and down time for any operating repairs or restoration of the equipment after it is no longer needed at the site. The purpose of this provision is to prevent the Government from paying rental in excess of the contractor's investment, and it is included in lieu of an "option to purchase" clause. Once a particular piece of equipment has been released, the contractor will not be required to return it to the job under the original rental period.

§9-18.5002-7 Record of negotiation.

The record of negotiation shall set forth the information used to determine the reasonableness of the rental rates, including a breakdown of the contractor's equipment ownership expense similar to that itemized in The Associated General Contractors of America's document, "Contractors' Equipment Ownership Expense."

§9-18.5002-8 Responsibility for repair and replacement.

The rental agreement describes the responsibilities of the parties with respect to maintenance and repair necessary to the operation of the rented equipment, or replacement of such equipment. The ERDA's responsibility includes repairs resulting from normal wear and tear, provided they were necessary in order to continue the equipment in service. However, when the equipment is no longer required on the job, the extent of the ERDA's obligation is only to return the equipment to the contractor in as good operating condition as when received less normal wear and tear.

§9-18.5002-9 Equipment condition and inspection.

(a) *Inspection.* Construction equipment shall be given a rigid and detailed inspection by representatives of the ERDA and, at the contractor's option, by representatives of the contractor, before its shipment and acceptance or use on the job. Equipment shall be inspected under actual workloads insofar as practicable. In cases where it is not practical to inspect equipment prior to its shipment to the jobsite, the contractor should be informed of the extent of inspection and the expected condition of his equipment. In the event the equipment does not need required standards, the transportation, rental, or any other expenses shall be paid by the ERDA unless at contractor's expense the equipment is repaired to acceptable standards in a reasonable length of time. A similar inspection shall be made immediately prior to scheduled return shipment of an item of equipment.

(b) *Inspection report.* The detailed inspection report shall follow in general §9-16.5002-14—Outline of inspection report of equipment, and shall be signed by each representative inspecting. The initial-inspection report shall be used at the time of release as a basis for determining the repairs necessary to place the equipment in as good operating condition as when accepted, less normal wear and tear. After necessary repairs are completed, a final-inspection report shall be completed by representatives of the ERDA and, at his option, the contractor.

(c) *Trial period and defects.* If initial detailed inspection discloses that the condition of the equipment is doubtful, arrangements should be made with the contractor for a trial period of operation to prove the equipment, with provision that if equipment is found unacceptable in the trial period, no rental, transportation, or other expenses will be due the contractor. Repairs to equipment which fails in service due to defects not reasonably ascertainable on initial inspection shall be at the contractor's expense.

§9-18.5003 Rental of third-party-owned equipment.

§9-18.5003-1 Rental agreement.

The terms and conditions governing rental of construction equipment without operators from a third party are in accordance with §§9-18.5002-2, 9-18.5002-4, 9-18.5002-8, and 9-18.5002-9, and they are set forth in §9-16.5002-13—Outline of agreement for rental of third-party-owned construction equipment. Managers of Field Offices shall assure that these terms and conditions are used by ERDA cost-type construction contractors and that similar terms and conditions are used by other ERDA cost-type contractors or subcontractors in renting construction equipment from a third party. These terms and conditions may be suitably modified to provide for rental of equipment with operators. Some of the aspects of this agreement to which particular attention should be given are set forth below in this section.

§9-18.5003-2 Rental rates.

Third-party equipment shall be rented on the basis of competitive bids, rental rates, transportation costs, and other factors being considered. The rental specifications shall be based on the circumstances of a particular case, including the length of rental period, the availability of equipment in certain localities, and the work requirements.

§9–18.5003–3 Insurance.

The provisions of §9–18.5002–5(a) also apply to the rental of construction equipment from a third party. However, if the contracting officer determines that the rental rates are not to include the cost of insurance or self-insurance covering loss of or damage to the equipment, Articles III(d) and VII(a) of the rental agreement shall be amended as indicated in the applicable notes following these articles in §9–16.5002–13—Outline of agreement for rental of third-party-owned construction equipment.

§9–18.5003–4 Option to purchase equipment.

When accrued rentals on a particular item of equipment will likely approximate the appraised value of equipment and a decision has been made not to purchase in accordance with §9–18.5001(b), consideration shall be given to including in the rental agreement an option to purchase the equipment.

PART 9–30—CONTRACT FINANCING

§9–30.000 Scope of part.

This part implements and supplements FPR Part 1–30 for use in the placement and administration of contracts for the procurement of materials and services by or for the account of ERDA.

Subpart 9–30.1—Forms of Financing

§9–30.102 Guaranteed loans—description.

The following implements the FPR stating ERDA Procedure, Criteria and Policies:

(a) *Procedure.* The procedure for obtaining a guaranteed loan is essentially the same as the procedure for obtaining a conventional loan. The contractor or prospective contractor, who requires additional funds to perform the contract, applies to his bank for a loan or credit of the required amount. The amount may be such that the bank can grant the loan for its own account. However, if for any reason the bank deems it necessary to require a guarantee, the bank may apply to ERDA through the appropriate Federal Reserve Bank for the required guarantee. ERDA certification of guaranteed loan applications shall be made only by the Administrator or his designee for that purpose.

(b) *Criteria.* The following criteria apply to the approval of guaranteed loans by ERDA:

(1) The materials or services to be furnished by the contractor are necessary to the national defense.

(2) Such materials or services cannot practicably be obtained from alternate sources without delaying or impeding the national defense (see below) except that no small business concern shall be held ineligible for the issuance of such guarantee by reason of alternative sources of supply.

(3) The contractor has demonstrated his inability to obtain the necessary financing in conventional credit channels without the guarantee.

(4) There is reasonable assurance that the loan can be repaid.

(5) The contractor is competent to perform the contract.

Eligibility under subparagraphs (1), (2), and (5) of this paragraph is determined on the basis of findings by the appropriate Field Office. Eligibility under subdivisions (3) and (4) of this paragraph is determined by the Office of the Controller, based on information contained in the application, the Federal Reserve Bank's report, and information furnished by the Field Office concerned.

(c) *Policies.* The following policies governing the exercise by ERDA of its loan guarantee authority have been established by the ERDA:

(1) The use of the loan guarantee authority is not restricted to contracts or subcontracts of any particular types or classes. Each case is to be evaluated on its own merits and under the particular circumstances applicable thereto.

(2) The fact that a contract has been awarded as a result of competitive bidding should not of itself render the loan ineligible for guarantee by ERDA if the contractor is financially responsible and his need for working capital is the result of the impact of the defense program.

(3) The guarantee authority should, in general, not be used in connection with loans to contractors required to furnish performance bonds, except in those cases in which the time likely to be required for the surety or the ERDA to take over in the event of default will result in delays which cannot be tolerated by the particular program concerned. When performance bonds have been furnished, the surety shall be required to subordinate its rights in favor of the guaranteed loan.

(4) The criterion that the materials or services to be provided cannot readily be procured from alternative sources does not require the finding that the materials or services are absolutely unobtainable elsewhere. The criterion should be so applied as to permit guarantees of loans when, although the materials or services can be obtained elsewhere, such factors as the urgency of supply schedules, technical capacity of the contractor, comparative prices, and time and expense involved in refetting the contract, in-

cluding termination payments, establish that it is to the Government's advantage not to resort to alternative sources merely because the contractor or subcontractor may require a guaranteed loan.

(5) If it is known at the time the contract is to be awarded that the low offeror who is technically qualified and competent to furnish the required materials and services will require a guaranteed loan, the contracting officer should obtain appropriate staff advice and in reaching a decision should consider at least the following:

(i) The savings to be realized by awarding the contract to the low offeror;

(ii) The risk to the Government in guaranteeing a loan;

(iii) The likelihood, if award is made to the second low offeror, of his applying for a guaranteed loan at a later date.

Extreme care should be exercised in rejecting a low bid or proposal simply because the low offeror requires a guaranteed loan.

(6) The amount of the loan should bear a reasonable relationship to the value and terms of the contract, the probable investment required to be made by the contractor in payrolls and inventories, etc., the frequency with which contract payments are to be made, and the borrower's current working capital position.

(7) Borrowings for working capital purposes under guaranteed loans shall be limited to the amount necessary to perform the defense contracts for which the loan is sought. In order that the contractor will also use his own funds in the performance of the contracts, amounts outstanding under the loan or line of credit shall be limited to an amount not to exceed 90 percent of the borrower's investment in his defense contracts regardless of the total amount of the loan or line of credit authorized. The borrower's investment includes all items for which the borrower would be entitled to payment on performance or termination of defense contracts, but does not include any items for which no work has been done nor expenditures made.

(8) Unless there are exceptional circumstances, the loan should mature not later than 30 days after the estimated date of final payment under the contract.

§9-30.109 Partial payments—description.

Partial payments, as a financing device, may be used in conjunction with other methods of financing, such as guaranteed loans.

Subpart 9-30.2—Basic Policies

§9-30.209 Order of preference.

(a) With respect to cost-type procurement generally, contracting officers shall require contractors to employ private financing with or without assignment of contract payments (FPR Subpart 1-30.7). Periodic interim reimbursement on account of incurred cost and payment of fixed fee (if any) will normally be made, reducing the amount of necessary financing for working capital (§9-7.5006-25). In some instances, where no other means of adequate financing is available on reasonable terms, the ERDA may approve (in order of preference) a guaranteed loan or an advance payment for performance of the contract.

(b) Partial payments, as provided for in the standard form of supply contract (FPR 1-16.901-32), should be considered as a form of contractor financing in the second place in the order of preference.

Subpart 9–30.4—Advance Payments

§9–30.400 Scope of subpart.

This subpart does not apply to financing arrangements for contracts with ERDA prime integrated cost-type contractors who are financed through special arrangements.

§9–30.403 Interest.

(a) Interest at the rate of 5 percent will be charged on all advance payments, provided that advance payments may be made without interest:

(1) Pursuant to FPR 1–30.403,

(2) In CPFF contracts for construction or engineering services, or

(3) Where the contract provides that title to the advance has been retained by the Government (§9–7.5006–23).

§9–30.404 Standards—amounts—need.

The total advance payment shall not exceed 90 percent of the value of the uncompleted portion of the contract and shall not include any portion of the anticipated profit or the fixed fee.

§9–30.406 Responsibility—delegation of authority.

The Manager of the Field Office or his delegate shall have the responsibility and authority for making the findings and determinations referenced in FPR 1–30.406.

§9–30.414 Agreement for special bank account and contract provisions.

(See §9–7.5006–23–24 under which the Government retains title to the funds advanced.)

Subpart 9–30.5—Progress Payments Based on Costs

§9–30.517 Contract financing office clearance.

The prior approval specified here shall be obtained from the Office of the Controller.

§9–30.528 Consideration for amendments providing for progress payments.

To the extent applicable and appropriate, these provisions may also relate to a Partial Payments clause. If justified, an amendment for this purpose may be made without consideration pursuant to FPR Part 1–17 and Part 9–17. When any such amendment is made, the consent of sureties, if any, should be obtained.

Subpart 9-30.7—Assignment of Claims

§9-30.701 General.

FPR 1-30.701 is implemented as follows:

(a) In the case of prime contracts, when it has been determined that the financing of defense contracts will be facilitated in the interest of the ERDA program, it is the policy of ERDA that such contracts provide, or be amended without consideration (see Assignment of Claims Act of 1940) to provide, that payments to be made to an assignee shall not be subject to reduction or setoff:

(1) For any liability of any nature of the assignor to the United States or any department or agency thereof which arises independently of such contracts;

(2) For any liability of the assignor on account of:

(i) Renegotiation under any renegotiation statute or under any statutory renegotiation article in the contract;

(ii) Fines;

(iii) Penalties (which term does not include amounts which may be collected or withheld from the assignor in accordance with, or for failure to comply with, the terms of the contract);

(iv) Taxes, social security contributions, or the withholding or nonwithholding of taxes or social security contributions, whether arising from or independently of such contract.

(b) In the case of subcontracts, when loans are made for the purpose of financing performance of subcontracts under ERDA prime contracts, financing institutions (or the Government as guarantor in those instances in which such loans are guaranteed) should not be required to incur risks of loss by reason of possible diversion of assigned subcontract proceeds for payment of other claims of the prime contractor against the borrower otherwise unrelated to the assigned subcontracts. In the interest of national defense financing, Managers of Field Offices shall require the adoption of these policies and practices by ERDA prime contractors with respect to ERDA subcontract work. Managers should inform the Controller of each ERDA contractor who is unwilling to adopt policies consistent with this paragraph and the reasons given in support of the contractor's position.

§9-30.703 Contract clause—Assignment of Claims.

The last two sentences of paragraph (a) of the clause in FPR 1-30.703 shall also be deleted in all contracts for transportation services.

§9-30.708 Examination of assignment.

(a) In classified contracts, the assignee should ordinarily be furnished, upon request, with the following information, as applicable, in lieu of a copy of the contract:

(1) Name and address of the ERDA prime contractor;

(2) Prime contract number and date;

(3) ERDA office and address receiving the material or service;

(4) Subcontract number or purchase order number;

(5) Date of the subcontract or purchase order;

(6) Date on which prime contract, subcontract or purchase order is to be completed;

(7) Total amount of the subcontract or purchase order;

(8) Dollar amount remaining to be delivered on prime contract, subcontract or purchase order; and

(9) A statement as to the assignability of the prime contract, subcontract or purchase order.

(b) (1) It is ERDA policy that any assignment of claims shall cover all amounts payable under the contract and not already paid. Partial assignments shall not be permitted unless they are primarily for the benefit of the Government, as exampled in FPR 1-30.708(c)(1).

PART 9–51—REVIEW AND APPROVAL OF CONTRACT ACTIONS

§9–51.000 Scope of part.

This part sets forth administrative requirements for the review and approval of certain contract actions, exclusive of contractor selection (Part 9–56).

§9–51.001 Definition.

(a) For the purpose of this part, the term "contract actions" includes:

(1) Actions relating to the letting of contracts, subcontracts, agreements with other governmental agencies, and subsequent modifications, extensions and settlements of terminations thereof.

(2) Questions of contract policy or procedure which arise in the course of contract negotiation and administration.

(b) For the purpose of this part, the term "contract actions" does not include administrative functions associated with contract administration, such as the development, interpretation and modification of contract cost principles, financial plan and budget operations, labor relations, safety, security, audit, salary, and wage administration, foreign travel, programmatic matters (program scope, technical requirements or specifications, project schedules, etc.), and the administration of construction activities. Such matters are handled directly between Field Offices and the Headquarters Division or Office having cognizance over the matter involved.

(c) For the purpose of this part, the term "contract actions" does not include the act taken to terminate a contract, subcontract, or agreement with another governmental agency. See §9–8.201 for Headquarters notification requirements relating to the act of termination.

Subpart 9–51.1—Headquarters Review and Approval of Field Office Contract Actions

This subpart sets forth the administrative requirements for Headquarters review and approval of field office contract actions.

§9–51.101 General instructions regarding submissions to Headquarters.

(a) Except as provided in paragraph (b) of this section:

(1) The field offices at Chicago, Richland, Nevada, Idaho, Oak Ridge, Savannah River, San Francisco, and Albuquerque will communicate directly with the Director of Procurement on all contract actions requiring Headquarters consideration.

(2) The field offices at Schenectady and Pittsburgh will communicate directly with the Director, Division of Naval Reactors, on all contract actions requiring Headquarters consideration.

(3) The Grand Junction Office will communicate directly with the Division of Production and Materials Management on all contract actions requiring Headquarters consideration.

(b) All field offices will communicate directly with the Director, Division of Construction on all contract actions for electric power and gas utility services.

(c) Contract actions requiring Headquarters review and approval shall be submitted to Headquarters sufficiently in advance of the proposed date for final action by the field office to permit an orderly study and analysis of the proposed contract action. Requests for approval of contracts and subcontracts shall be accompanied by six copies of the proposed contract document together with the required supporting data, also in sextuplicate.

§9–51.102 Contract actions requiring Headquarters review and approval.

(a) Contract actions requiring the advance attention of the Administrator or his designee. Managers of Field Offices will submit the following contract actions for advance Headquarters approval:

(1) Contract actions involving estimated costs for the contract period in excess of $10 million shall be subject to approval by the Administrator or his designee. (A modification to an existing contract which has the effect of bringing the total amount of the contract in excess of $10 million will be brought to the attention of the Administrator or his designee, for his information, by including such action in the Pending Contractual Matters reports.)

(2) All contractual matters of a new or unusual nature, or matters likely to provoke unusual public interest, and all prime contracts with foreign parties in excess of $300,000 are brought to the Administrator's or his designee's attention prior to approval.

(b) Contract actions in excess of authority delegated to Managers of Field Offices, requiring advance Headquarters review and approval. Managers of Field Offices will submit contract actions in excess of authority delegated to them for advance Headquarters approval including:

(1) Preliminary contractual agreements when there is reason to believe that the resulting contract or subcontract may exceed delegated authority.

(2) Any proposed contract or subcontract which by the exercise of any option or options therein would exceed delegated authority.

(3) Any proposed contract or subcontract, regardless of amount, which in the opinion of the Manager of the Field Office will, as a result of extension, follow-on work, or otherwise increase the contract or subcontract, or lead to a contract or subcontract with the same contractor, in an amount in excess of his delegated authority.

(4) Extension or modification which within itself includes increases in excess of delegated authority.

(c) Other contract actions requiring advance Headquarters approval. Managers of Field Offices will submit requests for the extension of operating contracts regardless of amount and the extension of onsite service-type contracts in excess of their delegated authority, and for deviation from prescribed contract policy for advance Headquarters approval.

(d) Cost-plus-incentive-fee, fixed-price incentive contracts or other incentive arrangements in excess of $1 million require advance Headquarters approval. For such contracts and arrangements of $1 million and below, a copy of the contract and summary of the incentive arrangement should be furnished the Director of Procurement for information after execution.

(e) Modifications to contracts or subcontracts previously approved by Headquarters need not be submitted for Headquarters consideration when they involve only periodic modifications (1) to establish scope and/or estimated costs within the approved general scope and fixed fees, provided the fee negotiated is within the allowable fee limits of ERDA fee policy, or (2) to increase (or decrease) the funds obligated or the contractual limitations on expenditures, when funds for such purposes have been allotted and set forth in approved financial plans.

(f) Unless specifically requested, contract documents need not be again submitted for Headquarters review and approval prior to execution when the documents have been negotiated in accordance with guidelines established by Headquarters when approving the initiation of negotiation. However, when negotiations have been completed, the Division of Procurement should be notified at least 10 days in advance of the expected execution date. When executed, four copies of the contract should be submitted to the Division of Procurement.

(g) Contracts and subcontracts for public utility services (except telecommunication services) shall be reviewed and approved in accordance with the provisions of ERDA-PR Subpart 9-4.4, Public Utilities.

§9-51.103 Supporting data for contract actions requiring Headquarters advance approval.

§9-51.103-1 Negotiation.

Requests for approval of contracts and subcontracts to be entered into as a result of negotiation shall be accompanied by the information required by §9-55.102.

§9-51.103-2 Formal advertising.

Requests for approval of contracts and subcontracts to be entered into as a result of formal advertising shall be accompanied by:

(a) Copy of the invitation to bid and any amendments;

(b) A list of persons or firms invited to bid;

(c) Information relating to posting or publishing notices of the invitation and copies of all paid advertisements, if any were used;

(d) Copy of abstract of bids;

(e) An evaluation of the reasonableness of the low bid accepted including a comparison with the independent Government cost estimate, if applicable;

(f) Copy of bid received from contractor to whom award is proposed; and

(g) If award is proposed to be made to other than the lowest bidder, a complete statement of the reasons therefor.

§9-51.103-3 Requests for renewals and extensions.

Requests for the renewal or extension of contracts or subcontracts which require Headquarters approval shall be accompanied by:

(a) Summary description of scope of work, and brief listing of some of the important projects which have been handled under this contract. A list of any important projects planned for assignment in the future should be included.

(b) A short statement concerning adequacy of contractor performance. The most recent management appraisal should be summarized and incorporated in the submission. If not current, it should be supplemented by any data which are necessary to bring the appraisal up to date.

(c) A summary of the major contract provisions of the existing contract should be attached as an appendix with particular attention to indemnity, patents, conduct of work (control over work) and termination, as well as those which deviate from current ERDA policies.

(d) Indicate cost level and fee (or management allowance) over past term and expected cost level in the future.

(e) Include an outline of the principal issues to be negotiated with arguments pro and con, as well as the ERDA recommended position.

(f) A brief discussion of the possibilities of obtaining a suitable replacement contractor, where appropriate.

(g) A complete draft of the contract document proposed for negotiation accompanied by identification of contract provisions which deviate from standard clauses, together with full explanation of and justification for each such deviation.

(h) Other appropriate recommendations, if any, supported by adequate justification.

§9-51.103-4 Questions of contract policy and procedure.

Questions of contract policy and procedure which arise in the course of contract negotiation and administration on which Headquarters consideration is required or desired by the field office shall be accompanied by sufficient information to permit adequate review and analysis of the problem involved.

§9-51.103-5 Time of submission.

Requests for approval of contractual documents shall be submitted and approval shall be obtained prior to execution by either party.

§9-51.103-6 Determinations and findings.

All Determinations and findings required by FPR Subparts 1-3.2 and 1-3.3 and ERDA-PR Subparts 9-3.2 and 9-3.3, with the exception of FPR 1-3.303 and ERDA-PR 9-3.303 shall be executed by the Contracting Officer, and a copy of such finding shall be included in the supporting data for contract actions requiring Headquarters advance approval.

Subpart 9-51.2—Subcontracts Requiring Prior Authorization by ERDA

§9-51.200—Scope of subpart.

This subpart sets forth the requirement for ERDA approval of cost-type contractors' procurement actions.

§9-51.201 Types of actions.

Managers of Field Offices shall require cost-type contractors to obtain the approval of ERDA prior to entering into any subcontracts or purchase orders within the following categories:

(a) *Contracts entered into under section 41.* Prior approval shall be required for the subcontracting of any work a contractor is obligated to perform under a contract entered into under section 41 of the Atomic Energy Act of 1954, as amended.

(b) *Specified materials, equipment, or services.* Managers of Field Offices shall take such action as may be required to insure compliance with the procedure for purchases from contractor-controlled sources or the procurement of specific items, or classes of items which by the terms of the contract may require ERDA approval.

(c) *Specified types of procurements.* Approval shall be required prior to entering into subcontracts in excess of $500 on a cost, cost-plus-a-fixed-fee or time and material basis.

(d) *Specified dollar amounts.* Approval shall be required prior to entering into subcontracts or purchase orders above specified dollar amounts. Dollar limits will be established at the discretion of Managers of Field Offices, taking into consideration such factors as the nature of work under each contract, the estimated cost of work under the contract, the contractor's procurement organization, other controls exercised over the contractor's procurement operations, and policies with respect to approvals established by Headquarters or Field Offices. Except as provided in paragraph (e) of this section, subcontracts or purchase orders in excess of the following amounts shall require prior ERDA approval:

(1) Construction and architect engineer contracts, $10,000.

(2) Offsite research and development contracts, $5,000.

(3) All other contracts, $25,000.

(e) *Exceptions.* In the event a Manager of a Field Office determines (1) that application of any of the dollar amount limitations established in paragraph (d) of this section would impair the ERDA program of the Field Office concerned or would be impracticable of application under the circumstances, or (2) that it would be in the best interests of the Government to establish less stringent limitations, he may, upon making such determination, approve a dollar amount up to $100,000. Requests to establish dollar amount levels in excess of $100,000 shall be submitted to the Director of Procurement for approval.

(f) *Emergency approvals.* Managers of Field Offices may, in their discretion, give oral approval (or approval by telephone or teletype) to any subcontract or purchase order requiring ERDA approval under this §9-51.201 in instances of compelling or unusual urgency, such as circumstances under which an ERDA program would be seriously hampered or delayed if supplies or services are not obtained by a certain date and time does not permit the obtaining of formal approval. Such emergency approvals shall be confirmed in writing.

Subpart 9-51.3—Other Approval Requirements

§9-51.301—Other approval requirements.

Nothing in this Part 9-51 shall be construed as precluding the establishment of additional approval requirements by Headquarters or Managers of Field Offices with respect to contracts or subcontracts under their jurisdiction.

Subpart 9–51.4—Contract and Subcontract Review Requirements

§9–51.4000 Scope of subpart.

This subpart sets forth the administrative requirement for independent review of proposed contracts and subcontracts by ERDA.

§9–51.401 Applicability.

All prime contracts and subcontracts under cost-type prime contracts in excess of $100,000 shall be reviewed in conformance with this subpart. Such reviews shall be made prior to award in all cases. Managers of Field Offices may, if considered appropriate, exempt basic research lump-sum contracts with educational institutions from the independent contract review board requirements of this subpart.

§9–51.402 Responsibilities.

Each Manager of a Field Office shall establish procedures in accordance with this subpart providing for an independent review of proposed contract and subcontract actions and to review termination settlements.

§9–51.403 Assignment of review functions.

Responsibility for independent review of contract and subcontract actions shall be assigned to a Contract Review Board established under §9–51.403–1, or such independent review shall be accomplished under the alternate review procedures set forth in §9–51.403–2.

§9–51.403–1 Contract Review Boards.

(a) *Organization.* Each Contract Review Board shall consist of not less than three members with broad business and contracting experience. A majority of representatives on each Board shall be permanent board members. Other members may be drawn from panels of designated persons as may be appropriate for cases under consideration. To the extent practicable, no person shall serve as a member of a Contract Review Board in reviewing a contract action in which he has participated, or a contractor selection (Part 9–56), unless such action is subject to approval under §9–51.102, or the Manager of the Field Office shall determine that his participation in the review of the particular contract provides continuity of experience or is otherwise in the best interest of the Government. The Chairman of each Board in a Field Office shall be designated by the Manager of the Field Office concerned and each Board shall be furnished with such staff assistance as may be requested by the Board and approved by the Manager of the Field Office. Contract Review Boards may be assigned additional functions at the discretion of Managers of Field Offices provided such functions are related to procurement and are not inconsistent with the Board's responsibility as set forth in this subpart.

(b) *Purpose of review.* In negotiated procurements, the primary function of contract review is to provide an independent review and analysis of contract and subcontract actions for the purpose of determining whether the negotiations (1) were competently conducted, (2) were based on adequate information, (3) were in conformance with established policies and procedures, and (4) resulted in a contract or subcontract (i) with a responsible contractor and (ii) that adequately protects the interests of the Government, including the reasonableness of the fixed fee or profit (if any) in cost-type procurements, the reasonableness of price in fixed-price-type contracts or subcontracts including the reasonableness of intermediate or final repricing due to price redetermination, escalation, etc., with comparison of the proposed price with the independent Government cost estimate, if applicable. With respect to awards resulting from formal advertising, review will include such matters as determining the responsibility of the contractor (§9–1.12), the reasonableness of the price of the proposed award, including comparison with the independent Government cost estimate, if applicable, the adequacy of competition, the advisability of rejecting all bids and readvertising or negotiating, and, in the case of a

proposed award to other than the low bidder, whether such action is in the best interest of the Government.

(c) Method and extent of review. When a review is required by this Part 9–51 or for termination settlements, the ERDA negotiator or purchasing officer (or the contractor in the case of subcontracts) shall submit a statement justifying the proposed action with such detailed information as may be required for an adequate review. Procedures for the submission of such statements shall be issued by each field office. Contract Review Boards shall determine the overall reasonableness of proposed actions from the standpoint of protecting the interests of the Government. Such Boards may vary the scope and extent of reviews according to the size and complexity of individual cases and other relevant factors.

(d) *Results of review.* Contract Review Boards shall document the scope and extent of the review and submit written recommendations to Managers of Field Offices (or to such other approving officials as may be appropriate) on each proposed contract or subcontract action reviewed. In the event the approving official departs from the recommendation of the Review Board, the basis for such action shall be appropriately documented in the files.

§9–51.403–2 Alternate review procedures.

Where it is impracticable to establish a Contract Review Board, or where additional procedures are appropriate to supplement a Contract Review Board, the following procedures shall be followed:

(a) *For procurement effected through competition.* Contracts and subcontracts to be entered into as a result of formal advertising and subcontracts which meet the criteria established in §9–59.603(b) (1) may be reviewed by such alternate procedures as may be prescribed by Managers of Field Offices.

(b) *For procurement effected by negotiation.* Contracts and subcontracts other than those covered in paragraph (a) of this section may be reviewed by such alternate procedures as may be prescribed by Managers of Field Offices: *Provided:*

(1) In the judgment of the Manager of the Field Office concerned supplemental procedures are necessary, or it is impracticable to establish a Contract Review Board as set forth in §9–51.403–1;

(2) The alternate procedures assure an adequate independent review of contract and subcontract actions; and

(3) The following principles are observed in establishing the alternate procedures:

(i) Contract or subcontract actions requiring review under a field office (or area office with respect to contract or subcontract actions within the approval authority of an Area Manager in those instances where Area Managers have been delegated contracting or approving authority in excess of $100,000) to the fullest extent practicable shall be reviewed by the same reviewers regardless of the nature of the work under the individual contracts in order to assure continuity of experience and uniformity of treatment.

(ii) Reviewers shall have a broad background of business and contracting experience in private industry or Government.

(iii) Advice in specialized fields such as engineering, law, and accounting shall be readily available to the reviewers.

(iv) Reviewers shall not negotiate or assist in the negotiation of any contract or subcontract, including contractor selection (Part 9–56), except when the contract or subcontract shall be subject to approval under §9–51.102, or where the approving authority shall determine that the reviewer's participation provides continuity of experience or is otherwise in the best interest of the Government.

(c) The requirement of §9–51.403–1 (b), (c), and (d), with respect to Contract Review Boards shall be met.

Subpart 9–51.5—Contracts or Subcontracts Requiring Advance Notice

§9–51.500 Scope of subpart.

Notice of intent to enter into contracts or subcontracts within the categories set forth below shall be required as indicated therein. These requirements are not established for approval purposes but are for information only.

§9–51.503 Contracts let under long-term contract authority.

Managers of Field Offices shall advise the Controller, with a copy to the Director of Procurement, of any intent to utilize the long-term contract authority provided by subsection u, section 161 of the Atomic Energy Act of 1954 as amended by Public Law 85–681 (72 Stat. 633). Such advance notice should be provided at an early stage of planning on any such proposed contract action.

Subpart 9–51.6 Contracts and Subcontracts Requiring Clearance With the Office of Management and Budget

§9–51.600 Scope of subpart.

This subpart sets forth requirements for the clearance of contracts and subcontracts with the Office of Management and Budget.

§9–51.601 Actions requiring clearance.

In accordance with the Federal Reports Act of 1942 and Office of Management and Budget Circular A–40, contracts and subcontracts which will result in the collection of information on identical items at the request of or for ERDA by the contractor or subcontractor, from 10 or more respondents, require clearance from the Assistant Director of the Office of Management and Budget and inscribing thereon an approval number or notation.

§9–51.602 Procedure for obtaining clearance, extension of clearance, or exemption.

Requests for clearance of contracts and subcontracts or material revision or change in previously approved contracts or subcontracts, extension of clearance beyond scheduled expiration date, or exemption from clearance shall be submitted by Managers of Field Offices or Directors, Headquarters Divisions or Offices to the Director of Procurement for coordination with and transmittal by the Controller to the Assistant Director of the Office of Management and Budget. Such requests shall be in the form and contain all of the pertinent information required by paragraphs 4, 5, 6, and 7 of OMB Circular A–40.

PART 9–53—NUMBERING AND DISTRIBUTION OF CONTRACTS AND ORDERS

§9–53.000 Scope of part.

This part sets forth the administrative requirements and procedures for numbering, distributing, and filing of contracts (including letter contracts, all appropriation transfers, and working fund agreements), modifications thereto, and the numbering of orders (including purchase orders).

Subpart 9–53.100—Contracts

§9–53.101 Numbering of contracts.

(a) Contracts are numbered with approved letter symbols and serial numbers primarily for identification, audit, and filing purposes. Prefixes for ERDA contract numbers for prime contracts executed by each ERDA office, are set forth in §9–53.106.

(b) The letter "E" in each prefix denotes the Energy Research and Development Administration. The number before the hyphen within the parentheses designates the State or area within which the procurement office is located, and the number after the hyphen identifies the procurement office within that State or area. The States were assigned numbers in numerical sequence according to the alphabetical listing before Alaska and Hawaii were admitted to the Union. Alaska will be assigned number 52 and Hawaii assigned number 53. The Headquarters office is assigned number 49 with separate numbers assigned to each of the procurement offices, the Pacific Area is assigned number 50, and Puerto Rico is assigned number 51. The number following the hyphen outside the parentheses is the serial number assigned to the contract. The numbering of contracts shall be centrally controlled by each office for which contract prefix numbers have been designated.

(c) If a prefix is required for an office not listed in this part, it should be requested from the Director of Procurement

(d) The identification and numbering of sales contracts by contracting offices should be prefixed by the same contract symbol as prescribed for other contracts, e.g. Albuquerque Operations Office, E (29–2). The remaining part of the number should be identified in such a way as to designate it as a sales contract.

(e) A number shall be assigned to (1) all contracts, involving the payment of $20,000 or more on a single payment voucher, and (2) all multiple payment contracts regardless of amount. Contracts involving the payment of less than $20,000 on a single payment voucher may or may not be numbered, depending upon the needs of the office. However, in case of doubt as to whether the amount to be paid under a contractual document is more or less than $20,000 or whether more than one payment will be necessary, the contract shall be numbered. Numbers are to be placed in the upper right-hand corner on the original and all copies of contracts or purchase orders and amendments and supplements thereto.

(f) On a modification or extension of a contract that has been transferred from one contracting office to another, the contract should be renumbered with the prefix number of the new administering office.

§9–53.102 Numbering modifications.

All modifications of contracts including change orders and supplemental agreements, shall be numbered in one continuous series, even though the contract is modified by both supplemental agreements and change orders. In the upper right-hand corner of the supplemental agreement or change order will be inserted "Modification No. ————————," followed by the words "Supplemental Agreement" or "Change Order to." For example, if the first modification to a contract (definitive contract or letter contract) is by supplemental agreement, the heading will read:

Modification No. 1, Supplemental Agreement to Contract No. ————————.

If the modification on the same contract is by change order, the heading will read:

Modification No. 2, Change Order to Contract No. ————————.

§9-53.103 Maintenance of contract files.

Managers of Field Offices and Heads of Headquarters Divisions and Offices shall maintain a file or files of all contracts executed or administered by such office or division. The location and distribution of contract files in the various offices and of contract files in the various offices and divisions are the responsibility of the Managers or Directors concerned.

§9-53.104 Distribution of contracts.

(a) *Basic distribution.* Managers of Field Offices and Heads of Headquarters Divisions and Offices who execute or administer contracts are responsible for making the following minimum distribution of such contracts:

(1) One original signed copy to the contract files of the office administering the contract, except when such copy is required for distribution to the General Accounting Office under subparagraph (3) of this paragraph. In the latter case a duplicate signed copy will be furnished to the office administering the contract;

(2) One signed copy to the contractor. However, in the case of formally advertised supply contracts, a purchase order or Notice of Award may be furnished in lieu of a signed copy of the contract;

(3) One original signed copy to the General Accounting Office when required by GAO Manual, Title 7-4510.50. This regulation provides in part as follows:

The original of all contracts with common carriers of all types for linehaul freight or passenger transportation services, including passenger charter agreements but excluding contracts for local storage, drayage, and hauling, shall be transmitted promptly, to the General Accounting Office, Service Subdivision, Transportation Division, Washington, D.C. 20548.

(4) One signed copy to the ERDA field finance office servicing the procurement office and for Headquarters to the Central Accounts Branch, Office of the Controller.

(b) *Additional distribution of contracts.* Each Manager of a Field Office shall make the following additional distribution of conformed copies of contracts including modifications and amendments thereto within its jurisdiction:

(1) To the Office of the General Counsel, one copy of:

(i) Each contract, and each subcontract under a cost-type contract, where the proposed contract action was submitted for Headquarters approval prior to execution;

(ii) Each engineering or architect-engineering prime contract, and each engineering or architect-engineering subcontract under a cost-type prime contract, involving an expenditure (actual or estimated) of $500,000 or more.

(2) To the appropriate Headquarters division or office, one copy of each contract sponsored by such division or office.

(3) To the Division of Procurement, one copy of each contract and subcontract where the proposed action was submitted for Headquarters approval prior to execution.

§9-53.105 Responsibilities.

The Office of the General Counsel, and the divisions or offices, Headquarters, receiving a copy of contracts pursuant to §9-53.104(b), shall maintain a file of such contracts and shall be responsible for making the contract file available to Headquarters divisions and offices upon request.

§9-53.106 Assigned contract prefixes.

Prefixes for ERDA contract numbers for the various field installations and headquarters divisions are set forth below:

Subpart 9-53.200—Orders

§9-53.201 Numbering of orders (Form ERDA-103).

Procurement offices shall number all orders (Form ERDA-103), including purchase orders, with a prefix symbol to identify the issuing office, followed by a symbol consisting of the last two digits of the fiscal year of issuance. In addition, procurement offices may assign such secondary symbols and suffixes as may be required for their particular needs. This prefix shall precede the serial number assigned to the order on a chronological basis, starting with the number "1" at the beginning of each fiscal year. For example, the first order issued by Chicago Operations Office in the 19xx fiscal year would be "CH-XX-1."

§9-53.202 Procurement office symbols.

The symbols assigned for the purpose of identifying ERDA procurement offices on purchase orders issued by them are set forth as follows:

Procurement office	*Order prefix*
Albuquerque	AL-
Bartlesville Energy Research Center	BE-

TABLE OF CONTENTS

PART 9-54—CONTRACT REPORTING

Sec.	
9-54.000	Scope of part.
9-54.001	Applicability.
9-54.002	Responsibilities.
9-54.003	Definition of "procurement action."
9-54.004	Reports required.
9-54.005	Submission and frequency of reports.
9-54.006	Preparation of reports.

PART 9-54 CONTRACT REPORTING

§9-54.000 Scope of part.

This part sets forth the policies and procedures established for uniform reporting to Headquarters of essential data on procurement actions. Such data will be used for management purposes, for informational reports and to furnish procurement information required by Congressional Committees, the General Accounting Office, General Services Administration, Small Business Administration, Renegotiation Board, and the Office of Federal Contract Compliance, Department of Labor.

§9-54.001 Applicability.

(a) *Field Offices.* Managers of Field Offices shall report data for each ERDA procurement office and shall require reports from each cost-type prime contractor (except when total procurement actions under the contract are estimated at less than $250,000 on an annual basis) and each first-tier cost-type subcontractor under a cost-type prime contract (except when procurement actions under the subcontract are estimated at less than $250,000 on an annual basis).

(b) *Contractors.* If a contractor has more than one procurement office, data will be reported separately for each office. Also, if a contractor has more than one contract subject to these reporting requirements, data will be reported separately for each contract.

§9-54.002 Responsibilities.

(a) The Director of Procurement is responsible for maintaining a central file of contract data and for the issuance of all reports and analyses of procurement actions on an ERDA-wide basis.

(b) Division Directors, Heads of Offices, Headquarters, are responsible for the preparation of all reports covering direct procurement actions taken by Headquarters divisions and offices and the collection, summarization, and review of all reports required from cost-type prime and subcontractors under contracts administered by Headquarters divisions.

(c) Managers of Field Offices are responsible for the preparation of:

(1) All reports covering direct procurement actions by their offices and the collection, summarization and review of all cost-type prime and subcontractor reports under contracts administered by their offices, and

(2) Reports on Headquarters-designated contracts, and contracts directed by other offices under procurement directives; the office which executes and administers the contract (regardless of where funds are obligated) shall report that contract as one of its procurement actions.

§9-54.003 Definition of "procurement action".

(a) "Procurement action" as used in relation to the contract reporting system for prime contracts and subcontracts includes:

(1) All contracts and subcontracts (including both new contracts and contracts superseding preliminary instruments) and purchase orders;

(2) All preliminary contractual instruments such as letter contracts;

(3) All amendments, supplements, modifications, changes, cancellations, and terminations including letters changing the contract amount;

(4) Contracts which cover rental;

(5) All orders placed against other Government agencies (such as orders on Federal Supply Centers or working fund agreements covering work or services performed for ERDA by other Government agencies);

(6) All payments to utility companies. Payments against such contracts are to be reported on the basis of estimated annual expenditures, with an adjustment made semiannually (based on fiscal year) to indicate actual payments under the contract or subcontract during the fiscal year;

(7) All orders against existing open-end or indefinite quantity contracts, including contracts with any other Government agency, such as job orders, task orders, or delivery orders (orders against such contracts should be reported under the basic contract). Blanket orders or requirement orders estimated to reach or exceed $10,000 on an annual basis are to be reported, with an adjustment made semiannually (based on fiscal year) to indicate actual payments under the contract during the fiscal year.

(8) Contracts for the acquisition of uranium bearing ores, concentrates, and other source materials; and

(9) Orders placed by one ERDA integrated contractor against another ERDA integrated contractor (where the supplying contractor is furnishing central stores, shop or procurement services to other contractors onsite—the contractor requesting the goods or services will not report such transactions).

(b) The term "procurement action" excludes:

(1) Contracts for the acquisition of land;

(2) Consultant contracts;

(3) Purchases paid for in cash;

(4) Orders placed against other ERDA offices, contractors, or Government agencies involving transfers of excess equipment or surplus material;

(5) Transportation by Government bill of lading and transportation of personnel by Government travel order; and

(6) Contractual arrangements falling within object classifications 10 Personal Services and Benefits; 33 Investments and Loans; 42 Insurance Claims and Indemnities; and 44 Refunds.

§9-54.004 Reports required.

(a) "Form ERDA-328A, Contract Data Worksheet," shall be prepared by each ERDA office (including Headquarters Divisions and Headquarters Offices which execute and administer contracts) and cost-type prime contractor, and "first-tier" cost-type subcontractor, unless excepted in §9-54.001(a), for each of the following:

(1) Any procurement action;

(i) When the initial procurement action is for $10,000 or more;

(ii) When the accumulated amount of a series of procurement actions under a previously unreported contract, subcontract, or purchase order totals $10,000 or more.

(2) Letter contracts which meet reporting requirements under subparagraph (1) of this paragraph shall be reported. Conversions of letter contracts to definitive contracts shall be reported on Form ERDA-328B, ERDA-328C or ERDA-328D as appropriate.

(b) "Form ERDA-328B, Prime Contract Change Worksheet," shall be prepared by ERDA offices to report changes in ERDA prime contracts.

(c) "Form ERDA-328C, Subcontract Change Worksheet," shall be prepared by ERDA prime contractors to report changes in their procurement actions.

(d) "Form ERDA-328D, Sub-subcontract Change Worksheet," shall be prepared by ERDA "first-tier" cost-type subcontractors to report changes in their procurement actions.

(e) "Form ERDA-330A, Supplemental Report of Procurement Actions—Worksheet," shall be prepared in accordance with paragraph §9-54.005(b) by those required to submit reports under paragraph (a) of this section.

§9-54.005 Submission and frequency of reports.

(a) Field Offices and Headquarters Divisions and Offices which administer contracts shall furnish reports in the required CIS format of Forms 328A, B, C, and D by SACNET or by tabulating machine cards[1] to the Division of Management Information and Telecommunications Systems, Computer Center Branch, Data Preparation and Control Section, Headquarters, either (1) on a current basis, as soon as practicable after the date the individual procurement action is taken, or (2) monthly, in time to reach Headquarters no later than the fourth workday for ERDA actions, or the ninth workday for actions by cost-type prime contractors, and "first-tier" cost-type subcontractors, following the close of the month in which the procurement actions were taken. (Reports may be submitted weekly at the option of the reporting office.)

(b) "Semiannual Supplemental Report of Procurement Actions" (Form ERDA-330A), covering procurement actions and purchase orders not reportable under ERDA-PR 9-54.004(a), shall be furnished semiannually by ERDA offices and reporting cost-type prime contractors and "first-tier" cost-type subcontractors to the Division of Procurement, Headquarters, by January 15 (July through December) and July 15 (January through June) for actions taken or changed in the preceding 6-month period. One copy of Form ERDA-330A shall be prepared to summarize all fixed-price procurement actions by number of actions and dollar value; another copy of Form 330A shall be prepared to summarize all cost-type procurement actions by number of actions and dollar value; another copy of Form 330A shall be prepared to summarize all Special Research Support Agreement actions by number of actions and dollar value; and another copy of Form 330A shall be prepared to summarize all grant actions by number of actions and dollar value.

§9-54.006 Preparation of reports.

Detailed instructions for completion of the forms are contained in ERDA-PI 9-54.006, "Preparation of reports," and ERDA-PI Appendix 9-54, "Contract Information System (CIS) Handbook."

[1] Reporting offices without ADP facilities may furnish the completed worksheets identified above to the Division of Procurement, Headquarters, for further handling.

PART 9-55—JUSTIFICATION AND DOCUMENTATION OF PROCUREMENT ACTIONS

Sec.

9-55.000 Scope of part.

Subpart 9-55.1—Justification of Procurements

9-55.100 Scope of subpart.
9-55.101 Formal advertising.
9-55.102 Negotiated procurements.
9-55.102-1 Applicability.
9-55.102-2 Justification of ERDA direct negotiated contracts.
9-55.102-3 Procurement by cost-type contractors.

Subpart 9-55.2—Documentation

9-55.200 Scope of subpart.
9-55.201 Procurement files.
9-55.202 Documentation of ERDA direct negotiated contracts.
9-55.203 Documentation of ERDA procurement through formal advertising.
9-55.204 Documentation—cost-type contractor procurement.
9-55.205 Approval files—cost-type contractor procurement.

PART 9–55—JUSTIFICATION AND DOCUMENTATION OF PROCUREMENT ACTIONS

§9–55.000 Scope of part.

This part sets forth the administrative requirements for the justification of ERDA direct and cost-type contractor procurement actions for equipment, supplies, and services (including construction) and for the establishment and maintenance of complete files of documents in support of such procurement actions.

Subpart 9–55.1—Justification of Procurements

§9–55.100 Scope of subpart.

This subpart sets forth the type of information required for justification of ERDA direct and cost-type contractor procurements.

§9–55.101 Formal advertising.

Justification for ERDA formally advertised procurements shall consist of the information required by §9–55.203.

§9–55.102 Negotiated procurements.

Justification for ERDA direct and cost-type contractor procurements shall consist of the information required by §§9–55.102–2 and 9–55.102–3, respectively.

§9–55.102–1 Applicability.

This section is applicable to all negotiated contracts and subcontracts (including letters of intent or letter contracts) and modifications thereof involving additional supplies or services, except: (a) Contracts or subcontracts for $2,500 or less, (b) orders against Federal Supply Schedules, (c) orders placed against other Government agencies, (d) orders placed against other ERDA offices, and (e) orders placed under one ERDA management cost-type contract against another ERDA management cost-type contract.

§9–55.102–2 Justification of ERDA direct negotiated contracts.

The justification of negotiated prime contracts required for actions in excess of $100,000 shall be in the form of a narrative statement covering, to the extent applicable to the particular transaction, the general type of information as indicated in paragraphs (a) through (i) of this section. Actions under $100,000 shall be supported by files containing substantially the same information required by paragraphs (a) through (i) of this section. The scope and detail of information to be included in the contract file should generally be determined on the basis of the nature, dollar value, and complexity of the transaction involved.

(a) Name and address of proposed contractor.

(b) Location of plant- or work-site for performance of the contract.

(c) Contract number, including amendment number if applicable.

(d) Name of prime contractor.

(e) Nature of contract action (letter contract, conversion of letter contract, extension of existing contract, etc., as well as type of contract—cost, CPFF, incentive, etc.).

(f) A reference to the program basis for the contract, including scope of the work or description of supplies or services being procured, delivery or construction schedules, period of contract, quantities, unit prices, and total price or estimated cost. If the procurement action is a contract modification the relation to the program under the basic contract and the effect thereof should be shown.

(g) A statement justifying the use of negotiation in lieu of formal advertising.

(h) The methods of solicitation employed and the information requested from sources of supplies or services; the distribution and response to such solicitations or requests; and the basis upon which it is concluded that such solicitations or requests were

sufficient to assure such full and free competition as is consistent with the procurement of the required supplies or services. This shall include:

(1) A brief summary of the request for proposal used as a basis for solicitation;

(2) Number of firms invited to submit proposals and a list of firms quoting, together with their respective quotations; and

(3) The reason for selection of the proposed contractor, when award is to be made to other than the low offeror or there is a wide margin between the acceptable quotation and other quotations received.

(i) The history of negotiations with the proposed contractor, including the consideration given to appropriate factors, and the basis upon which it is concluded that the results of the negotiations are advantageous to the Government. This shall include:

(1) A brief summary or principal points involved in negotiation and the final results thereof, indicating price changes, if any, during negotiations and explanations therefor;

(2) A comparison of the proposed contract with previous procurements of the same or similar supplies or services, including dates or previous procurements, quantities, changes in specifications from last purchase, if any, and justification for changes in price;

(3) For all contracts involving construction and related engineering services, the cost breakdown resulting from contract negotiations which was used to arrive at the total price or estimated cost for fee or profit computation purposes;

(4) For all contracts for the operation or management of ERDA facilities on a cost or CPFF basis, a complete explanation of provisions agreed on for reimbursing costs generated elsewhere than at the project site, together with complete justification for fixed fee, if any;

(5) For each supply, production, and research and development contract, an appropriately detailed analysis of cost and price reflecting final negotiation, with suitable consideration of the policies and principles stated in FPR Part 1-3, Part 9-3, and §9-15.5008, including comments showing appropriate review and evaluation of major elements of cost and price by financial, technical, and other qualified personnel;

(6) Names and locations, when available, of prospective subcontractors and estimated amounts of respective subcontracts which will exceed $100,000;

(7) A statement as to whether the contract will contain any form of price redetermination or escalation, including reasons for inclusion or omission;

(8) General types and value of Government property to be furnished, or already furnished to the proposed contractor and which will be used in performance of the work;

(9) A statement as to whether the financial condition of the proposed contractor is considered satisfactory, whether the contract is to be partly or wholly financed by Government funds, whether guaranteed loans are involved, whether the contractor's accounting system is satisfactory and adequate to furnish information required by ERDA under the contract, and whether or not accounts under the contract are to be integrated with ERDA accounts (if a performance bond is to be furnished, state name of bonding company and amount of bond);

(10) A statement as to the technical ability and past performance of the proposed contractor (if the contractor is presently performing other ERDA contracts, state uncompleted contract value, status of work thereunder and the effect of proposed additional contracts or backlog on the proposed contract);

(11) The amount of funds available and encumbered for the proposed contract, including appropriation, allotment number, subprogram class and budget item;

(12) The basis for establishing delivery requirements or other performance schedules;

(13) Any other pertinent data in the form of explanations, comments, or comparisons concerning any unusual or new phases of the procurement or negotiations relating thereto (comments or report of the Division of Finance of the Field Office concerned as to the financial and pricing aspects of the proposed contract should be included under this paragraph. Recent and current contracts of the contractor with other field offices and other Government agencies with particular emphasis on a comparison of business aspects of such contracts with the proposed contract should also be commented upon); and

(14) In the case of contract actions requiring Headquarters approval, the name of the ERDA negotiator responsible for the transaction, together with his telephone number.

§9-55.102-3 Procurement by cost-type contractors.

(a) A written justification, consisting of all information and data upon which it has been determined that the procurement is in the best interests of the Government, shall be required for procurements by cost-type contractors. The scope and detail of such justification shall be consistent with the nature, dollar value, and complexity of the procurement involved.

(b) Except as may be otherwise required by FPR 1-3.811(a)(4), a written justification is not required when cost-type contractors use the competitive bid or quotation and award method of procurement, which includes the basic steps and objectives set forth in §9-59.003(b)(1), provided award is made without entering into negotiations.

Subpart 9-55.2—Documentation

§9-55.200 Scope of subpart.

This subpart sets forth the administrative requirements for the establishment and maintenance of complete files of documents in support of ERDA direct and cost-type contractor procurement actions for equipment, supplies, and services (including construction).

§9-55.201 Procurement files.

The procurement file shall include copies of all documents, certified, if necessary, that present a historical record of the fact of the transaction. Basic papers of the procurement file shall be arranged and secured in a logical order so as to facilitate review and audit. A complete file shall be maintained, and the removal of pertinent papers avoided. Bulky material, such as unsuccessful proposals, specifications, drawings, etc., need not be physically kept in the file, but may be filed elsewhere under the case reference number, cross referenced in both files.

§9-55.202 Documentation of ERDA direct negotiated contracts.

Files of essential documents for substantially all contracts and modifications made without formal advertising, except files for small purchases (less than $2,500) see Subpart 9-3.6 shall include the following:

(a) Copy of the procurement directive, requisition or other document upon which the procurement is based;

(b) Justification of negotiation required by §9-55.302.

(c) Copy of request for proposals, including drawings and specifications when applicable or references thereto;

(d) List of prospective contractors solicited;

(e) Abstract of proposals both oral and written;

(f) Copies of written proposals or confirming quotations received;

(g) "Findings and Determinations" required by Part 9-3;

(h) Basis upon which it has been determined that the contractor was financially and technically able to perform;

(i) Cost breakdown or other appropriate information used to determine reasonableness of price in making award, including a statement on the analysis of the price;

(j) Approval of appropriate reviewing authority when required;

(k) Conformed copy of contract or purchase order with specific reference to any unusual contract provisions and reasons therefor;

(l) Related correspondence; and

(m) Copies of any modifications.

§9-55.203 Documentation of ERDA procurement through formal advertising.

The file covering a procurement by formal advertising shall include the following:

(a) Copy of the procurement directive, requisition or other document upon which procurement is based;

(b) Copy of the bid invitation;

(c) List of prospective bidders solicited;

(d) Copies of addenda or supplemental notices;

(e) Abstract of bids;

(f) Copy of successful bid;

(g) Evaluation of the reasonableness of the low bid accepted, including comparison with the independent Government cost estimate, if applicable;

(h) Copy of notice of award;

(i) Conformed copy of contract;

(j) Copies of unsuccessful bids;

(k) Copies of any modifications;

(l) Justification for award to other than the low bidder and other circumstances justifying award, such as basis for making the award in case of equal low bids;

(m) If performance of payment bond requirements on lump-sum or unit-price construction contracts and subcontracts do not conform to the requirements of Part 9-10, state the reason; and

(n) Related correspondence.

§9-55.204 Documentation—cost-type contractor procurement.

Contracting officers shall assure that cost-type contractors establish and maintain procurement files which contain those documents essential to present an adequate and accurate record of the transaction.

§9-55.205 Approval files—cost-type contractor procurement.

A file shall be established in the field office which will document the review of each cost-type contractor procurement action submitted for approval to ERDA.

9-56.403 [Reserved]
9-56.404 Selection of research and development contracts for work in commercial facilities.
9-56.405 Selection of contractors for engineering and construction work.

PART 9-56—SELECTION OF CONTRACTORS BY BOARD PROCESS

§9-56.000 Scope of part.

This part sets forth ERDA policies for the use of Contract Proposal Evaluation Boards and policies governing particular types of contracts.

§9-56.001 Applicability.

(a) Contract Proposal Evaluation Boards are to be used:

(1) In selecting operating contractors and participants under the power demonstration program;

(2) If the contract is estimated to exceed $500,000, in selecting contractors for research and development, cost-type construction, and any contract effort where, in order to select the best qualified firm, it is necessary to judge the relative technical and managerial capabilities of a group of firms; and

(3) If the cost is estimated to exceed $50,000, in selecting architect-engineer contractors, including those for advance engineering.

(b) Contract Proposal Evaluation Boards shall be used for the selection of contractors referred to in paragraph (a)(2) and (3) of this section estimated to cost less than $500,000 (or less than $50,000 for A-E contracts), whenever it is likely that later phases of the same project will cause the contract to exceed those dollar thresholds.

(c) The policies and principles of this part also are applicable to the selection of contractors for procurements estimated to cost less than $500,000, or, for A-E services, less than $50,000. However, less formal procedures and practices may be followed, depending on the circumstances in each particular selection, at the discretion of the designating official.

(d) The policies and requirements of this part do not apply to the following:

(1) Extensions of contracts where it has been determined that formal selection procedures need not be followed;

(2) Formally advertised contracts or fixed-price negotiated contracts in which price is the primary consideration;

(3) Research and development contracts entered into under the criteria in Subpart 9-4.51 or 9-4.52;

(4) Determination as to whether a given scope of work should be performed in ERDA-owned or in commercial facilities; and

(5) Determination as to which existing ERDA operating contractor should perform a given scope of work.

§9-56.002 Policy, cost-type contractor procurement.

For the selection of subcontractors under ERDA cost-type contracts of the type identified in ERDA-PR 9-56.001(a)(2) and (3), evaluations normally should be made on the basis of group judgment by representatives experienced in technical and business areas appropriate to the requirement, using weighted evaluation factors established prior to receipt of proposals. Numerical ratings should be supplemented with supporting narrative explanations of the important judgments involved in arriving at such ratings.

Subpart 9-56.1—Contract Proposal Evaluation Boards

§9-56.100 Scope of subpart.

This subpart sets forth ERDA policy, concerning the use of Contract Proposal Evaluation Boards.

§9-56.101 Use of Contract Proposal Evaluation Boards.

It is the policy of ERDA to use Contract Proposal Evaluation Boards in the selection of contractors for contracts of the type referred to in §9-56.001(a) and (b).

Subpart 9-56.2 [Reserved]

§9-56.102 Purpose of Contract Proposal Evaluation Boards.

The use of Contract Proposal Evaluation Boards is designed to:

(a) Facilitate the selection of contractors;

(b) Provide for selection of the best contractor for a given job;

(c) Insure consistent treatment of firms under consideration; and

(d) Help promote mutual understanding between ERDA and its prospective contractors.

Subpart 9-56.3 [Reserved]

Subpart 9-56.4—Policy Governing Particular Types of Contracts

§9-56.401 Operating contracts and cost-type onsite service-type contracts.

(a) Unless otherwise designated by the ERDA, for purpose of this section operating contracts are those contracts for the operation of ERDA-owned plants and laboratories located at ERDA-owned sites, and cost-type onsite service contracts are those contracts for the performance of services of a continuing nature for the ERDA at ERDA-owned sites.

(b) Competition for existing operating and onsite service contracts will be sought whenever there is a reasonable expectation that a meaningful improvement can be made in the overall performance of the contract work, including management and operating costs, unless it is determined that to change a contractor would be contrary to the best interest of the Government.

§9-56.402 Selection of operating and cost-type onsite service contractors.

It is ERDA policy that operating and cost-type onsite service contracts of a continuing nature should not be concentrated among a relatively few firms. Accordingly, firms already holding contracts of these types will not be considered for selection of another such contract, unless it is determined that this is not in the best interest of the Government.

§9-56.403 [Reserved]

§9-56.404 Selection of research and development contracts for work in commercial facilities.

In selecting recipients of research and development work, it is basic ERDA policy to assign the work where it can be done most effectively and efficiently. Where it is otherwise appropriate to assign the work to a commercial concern, it is also the policy of the ERDA to make such wide distribution of contract awards as will encourage broad participation by qualified research and development contractors performing work in their own facilities in order to:

(a) Maintain a competitive industrial base; and

(b) Prevent firms from attaining a predominant position in a major segment of the atomic energy industry.

§9-56.405 Selection of contractors for engineering and construction work.

(a) It is the policy of the ERDA to encourage broad participation by qualified architect-engineers and constructors in the atomic energy programs to the fullest extent practicable in order to:

(1) Avoid undue concentration of work with any firm or group of firms in a particular field of work (architect-engineer or construction); and

(2) Develop and maintain a broad base of contractors with atomic energy experience and/or nuclear capability which may be used for ERDA or commercial requirements.

(b) A firm currently under contract to ERDA or to a cost-type ERDA contractor shall not be invited to submit a proposal for work in the same field if the proposed project would be performed concurrently with the existing contract and if the estimated cost of the new construction work exceeds $10 million or the estimated cost of the architect-engineer services exceeds $1 million. If, for cogent reasons, the designating official believes that such a firm should be invited, approval shall be obtained from the Division of Procurement. This requirement shall not apply to:

(1) Firms currently engaged only on ERDA fixed-priced construction contracts awarded as a result of formal advertising or invited bids;

(2) Any firm currently engaged on ERDA construction contracts, the total of which involves costs of less than $10 million.

(3) Any firm currently engaged on ERDA A-E contracts, the total of which involves costs of less than $1 million.

(4) Any architect-engineer firm after it has completed title II work, exclusive of checking shop drawings, even though it still has title III inspection services to perform.

(c) Normally, only those firms which are compatible with the size and complexity of the job requirements should be invited; that is, for a small relatively simple job, firms whose resources and qualifications are far in excess of the job requirements should not be solicited, and where size and simplicity of the job permit, invitees should be limited to the geographic area of the job.

9-59.006 Procurement from contractor-controlled sources.

PART 9–59—ADMINISTRATION OF COST-TYPE CONTRACTOR PROCUREMENT ACTIVITIES

§9–59.000 Scope of part.

This part establishes ERDA policy and requirements for administration of cost-type contractor procurement.

§9–59.001 General.

(a) ERDA utilizes cost-type contractors for the operation of its facilities, for the performance of research and development, and for other services. Such contractors are generally selected for technical and managerial capabilities, and are expected to make full use thereof in order to achieve the flexibility and high-quality products and services required for ERDA programs.

(b) Procurement activities of ERDA cost-type contractors are governed by the requirements of applicable contract provisions. Federal Procurement Regulations generally are not directly applicable to ERDA cost-type contractors. There are, however, requirements of certain Federal laws, executive orders, and regulations, including Federal Procurement Regulations, which pertain to procurements by cost-type contractors. These requirements, together with implementing ERDA Procurement Regulations, and certain additional ERDA-PR's which apply to contractor procurement, are listed in §9–59.004. In addition, ERDA has established certain procurement policies for its cost-type contractors. These are found in §9–59.003.

§9–59.002 Responsibility of contracting officers.

(a) Contracting officers are responsible for assuring that procurement by cost-type contractors conforms to contract requirements and provides effective and timely support to agency programs. In carrying out this responsibility, contracting officers: (1) Assure that ERDA cost-type contracts include those provisions required by law or regulations, and such other provisions as are appropriate to implement ERDA policies and requirements; (2) review contractor procurement systems (including policies) as required by this section and in accordance with the provisions of their contracts; (3) review individual procurement actions of certain types or above stated dollar levels established in accordance with Subpart 9–51.2; and (4) make periodic appraisals of the contractor's performance of the procurement function in accordance with criteria established by the Director of Procurement.

(b) Contracting officers shall require cost-type contractors to submit written descriptions of procurement systems and methods used or proposed to be used in the contract work when:

(1) The contract is for the construction, operation, or maintenance of an ERDA facility (including research and development facilities) which is segregated from the contractor's regular business; or

(2) The contract provides for substantial procurement services incident to the construction of ERDA facilities; or

(3) The contractor has set up a separate supply function under ERDA contracts; or

(4) Expected procurement is considered sufficiently significant by the contracting officer to warrant such action.

(c) In reviewing cost-type contractor descriptions of procurement systems and methods, contracting officers shall assure that such statements are not inconsistent with this part.

§9–59.003 Policies for cost-type contractor procurement.

The following policies are established for cost-type contractor procurement. Within these policies it is expected that procurement systems and methods will vary according to the types and kinds of procurement to be made, the needs of the particular programs, and the experience, methods, and practices of the particular contractor. In the development of procurement systems and methods, contractors should be encouraged to make

maximum utilization of their experience and initiative to the extent consistent with the requirements of this part.

(a) Procurement systems and methods utilized for ERDA contract work should be well defined and consistently applied and should accord with good business practices for the type and amount of procurement involved.

(b) Procurement should be effected in the manner most advantageous to the Government—price, quality, and other factors considered. In order to assure this objective and the award of business on an impartial basis, procurement (from sources other than Government sources) shall be effected by methods calculated to assure such full and free competition as is consistent with securing the required supplies and services. Generally, procurement actions are carried out through one of the following methods:

(1) *Competitive bids or quotations and award.* The competitive bid or quotation and award method of procurement, which normally assures the greatest degree of full and free competition, generally involves the following basic steps and objectives:

(i) Preparation of invitations for bids or requests for quotations setting forth the contract terms and conditions and describing the requirement clearly, accurately, and completely, but avoiding unnecessarily restrictive specifications or requirements.

(ii) Publicizing such invitations or requests by distribution to a reasonable number of prospective bidders and by such other means as may be appropriate, in sufficient time to permit the preparation and submission of bids or quotations before the time set for opening or receipt of bids or quotations.

(iii) Handling bids or quotations in a manner which provides fair and equal treatment to all prospective contractors.

(iv) Making an award to the prospective contractor whose bid or quotation, conforming to the invitation or request, will be most advantageous to the Government, price and other factors considered. However, if upon evaluation of written bids or quotations it is determined to be in the best interests of the Government to enter into negotiations with prospective contractors before award, such negotiations should be conducted in accordance with (2) below with respect to according fair and equal treatment to prospective contractors.

(2) *Negotiation.* Procurement by this method normally should be conducted by competitive negotiations through the solicitation and evaluation of proposals, from an adequate number of qualified sources to assure effective competition, consistent with securing the required supplies or services. Negotiated procurement involves advance planning, description of procurement and delivery requirements, and consideration of the effect these requirements may have on prices and competition. Requests for proposals should describe the property or services required as completely as possible; allow sufficient time for the submission of proposals; and establish a closing date for receipt of proposals. Proposals should be handled in a manner which provides fair and equal treatment to all prospective offerors. Selection of offerors for negotiation and award shall be consistent with FPR 1-3.805 and §9-3.805.

(c) Price or cost analyses shall be performed in accordance with the requirements of FPR 1-3.807 and §9-3.807, Pricing Techniques and FPR 1-3.809 and §9-3.809, Contract audit as a pricing aid. Profits and fees paid shall be consistent with limitations established in §9-3.808-51.

(d) Supplies and services normally should be procured through the use of suitable specifications, standards, and/or purchase descriptions which clearly and accurately describe the supplies or services to be procured. If such specifications, standards, and/or purchase descriptions are not available and it is impractical or uneconomical to prepare them, "brand name or equal" descriptions may be used, provided the particular physical, functional, or other characteristics of the brand name item which are deemed essential are clearly identified and described.

(e) A fair proportion of supplies and services shall be procured from small business concerns.

(f) The need for access authorizations to classified information shall not be a limiting factor in obtaining competition except where time will not permit securing additional access authorizations.

(g) Awards shall be made only to responsible prospective contractors. Awards shall not be made to firms or individuals on the ERDA List of Disqualified Bidders and Ineligible Contractors.

(h) Selection of the type of contract to be used should be based on consideration of the nature of the supplies and services required and other circumstances surrounding the procurement. The cost-plus-percentage-of-cost system of contracting shall not be used in any event.

(i) Small purchases (less than $2,500) should be made by methods designed to (1) obtain fair and reasonable prices, (2) reduce administrative costs of making such purchases to the minimum required to establish the propriety of placing the order at the price paid with the supplier concerned, and (3) improve opportunities for small business concerns within the local trade area to obtain a fair proportion of purchases.

(j)(1) First-tier subcontracts and purchase orders for supplies and services for the ERDA work normally should include provisions for resolving disputes to the same extent and in the same manner as in similar ERDA direct contracts.

(2) The disputes provision referred to in paragraph (j)(1) of this section may be applied to lower-tier subcontracts and purchase orders provided all subcontracts and purchase orders of a higher tier are cost type.

(3) A Disputes clause which can be used to carry out the policy in paragraph (j)(1) and (2) of this section is set forth in §9-7.5004-3(b).

§9-59.004 ERDA-PR/US-FPR provisions pertaining to cost-type contractor procurement.

The ERDA-PR/US-FPR provisions referenced below pertain to cost-type contractor procurements and are listed in this part to facilitate administration. Some of these provisions are implementations of statutory or other requirements and ERDA-wide policies, which provide little or no basis for the exercise of judgment. However, to the extent such provisions permit or provide for the exercise of judgment, contracting officers should be guided by good business practice and the best interests of the Government.

§9-59.005 Procedures for handling mistakes under cost-type contractor procurement.

(a) Managers of Field Offices may authorize the withdrawal of bids or the correction of mistakes in bids submitted to, and contracts awarded by, cost-type contractors in accordance with this section.

(1) Contractors may permit the withdrawal of bids upon a showing of clear and convincing evidence of the alleged mistake.

(2) Contractors may correct obvious clerical errors in bids disclosed prior to award, regardless of amount.

(3) Except as provided in paragraph (4) of this section, contractors may correct other mistakes in bids and contracts as provided in this section.

(4) Managers' of Field Offices approval shall be required for:

(i) Any corrections of mistakes which would cause the bid or contract price (*a*) to exceed that of the second low bid, or (*b*) to displace one or more lower acceptable bids;

(ii) Any corrections of mistakes in bids, other than obvious clerical errors, in procurement actions which require ERDA approval;

(iii) Any correction of mistakes in contracts disclosed after award which exceed $1,000; and

(iv) Any rescission of a contract.

(b) Corrections of mistakes are authorized under paragraph (a)(3) and (4) of this section when:

(1) There is clear and convincing evidence to support both the assertion of a mistake and the amount thereof;

(2) The mistake was made in good faith;

(3) The mistake is of such a nature that correction thereof is justified by considerations of fair dealing; and

(4) The mistake is of the type that would be corrected under the contractor's private procurement practices, or with respect to mistakes in bids in excess of $1,000, or which otherwise require approval of Managers of Field Offices, a determination is made that relief would be granted under applicable Federal law.

(c) The authority of this section may not be used to make a bid responsive.

(d) Where rescission is an appropriate remedy, the Manager may authorize a modification in a specific amount, or approve revisions in other terms and conditions, in lieu of rescission.

(e) Where a contract is executed or work is continued after assertion of a mistake, the alleged mistake may be considered on its merits as of the time it was asserted, provided the contract was executed or the work continued pursuant to an understanding that such action did not constitute a waiver of any rights.

(f) Corrections of mistakes or other remedial actions taken pursuant to this section shall be documented by a written statement setting forth the circumstances and basis for such action and shall be made a part of the procurement file.

(g) When correction of mistakes or other relief cannot be granted under the criteria of this section, Managers of Field Offices may deny the request or forward the file to the Director of Procurement, with their recommendation for action.

§9-59.006 Procurement from contractor-controlled sources.

(a) When a cost-type contractor maintains a separate procurement function for performance of work in ERDA facilities on ERDA sites, procurement from contractor-controlled sources (any division, subsidiary, or affiliate of the contractor under a common control) may be treated in the same manner as procurement from other sources provided:

(1) The procurement is made under the same terms and conditions as would apply if the purchase was from a third party;

(2) The procurement is made in accordance with policies and procedures particularly designed to permit fair and open competition which have been approved by the contracting officer; and

(3) The procurement is made in a manner which results in legally enforceable terms and conditions.

When any of the conditions above cannot be met, procurements involving contractor-controlled sources should be made directly by, or with the prior approval of, ERDA.

(b) Guidance with respect to reimbursement for procurements or transfers from contractor-controlled sources by cost-type contractors other than those identified in paragraph (a) of this section is set forth in §9-15.5010-19. In these cases adequate provisions should be made to give the Government the benefit of customary warranties and protection against patent infringement applicable under the circumstances.

(c) Subcontracts for performance of contract work itself (as distinguished from procurement of supplies and services needed in connection with the performance of work) require ERDA authorization which may involve an adjustment of the contractor's fixed fee (see, for example, §9-7.5006-56, Note (a)). If the cost-type contractor seeks authorization to have some part of the contract work performed by a contractor-controlled source, and the contractor's performance of that work was a factor in the negotiated fixed fee, ERDA approval would normally require (1) that the contractor-controlled source perform such work on a cost basis without profit or (2) an equitable downward adjustment to the contractor's (i.e., the contracting component's) fixed fee.

ADMINISTRATION OF COST-TYPE
CONTRACTOR PROCUREMENT ACTIVITIES

ERDA TEMPORARY PROCUREMENT REGULATIONS

Editorial Note: In addition to the reissuing of Chapter 9 of Title 41, the Energy Research and Development Administration is reprinting the temporary regulations that have previously appeared in the FEDERAL REGISTER. These temporary regulations, pursuant to 41 CFR 9-1.102-2 are inserted as an appendix to Chapter 9 of Title 41. Certain of the temporary regulations appear in full text. Other temporary regulations describe the necessary revisions and for the complete text the user should refer to the appropriate sections within Title 41, Chapter 9 for the complete text.

ERDA-PR TEMPORARY REGULATION NO. 1

Purpose: This regulation implements and supplements Federal Procurement Regulations Temporary Regulation No. 27, dated June 29, 1972, which prescribes interim policies and procedures to implement the Cost Accounting Standards Board (CASB) rules and regulations with respect to negotiated national defense contracts and subcontracts in excess of $100,000 in accordance with the requirements of P.L. 91-379.

§9-3.1204 Contract clause.

This section implements the Cost Accounting Standards Clause set forth in Attachment B of FPR Temporary Regulation No. 27.

(a) The clause shall be made a part of ERDA contracts as follows:

(1) As soon as practicable in contracts for the operation of ERDA-owned plants and laboratories and on-site service contracts either:

(i) by administrative agreement; or

(ii) at the time of the first modification adding funds; however,

(iii) it shall be added no later than at the annual fee and scope and/or funding modification.

(2) At the annual modification for extension and/or funding for other long-term contracts.

(3) In accordance with Cost Accounting Standards Board rules and regulations for all other covered contracts.

(b) Paragraph (d) of the Cost Accounting Standards clause is revised as follows to provide access to the contracting officer in matters of dispute by first-tier subcontractors and should be inserted in all covered cost-type prime contracts in lieu of paragraph (d) of the clause:

> "(d) The contractor shall include in all negotiated subcontracts which he enters into the substance of this clause and shall require such inclusion, except paragraph (b), in all lower-tier subcontracts, except that this requirement shall apply only to negotiated subcontracts in excess of $100,000 where the price negotiated is not based on:
>
> (i) Established catalog or market prices of commercial items sold in substantial quantities to the general public; or
>
> (ii) prices set by law or regulation."

1

§9–3.1207 Contract price adjustments.

(c) *Conduct of negotiations of defense and non-defense contracts and execution of supplemental agreements.* Managers of Field Offices and Heads of Headquarters Program Divisions and Offices shall notify the Director of Procurement, with a copy to the Controller, of all pending negotiations of adjustments expected to amount to $10,000 or more negotiated pursuant to the Cost Accounting Standards clause and effecting ERDA contracts. The notice of a negotiation to be conducted shall include the name of the contractor, the contract number, the substance of the issue or issues, the estimated amount of the adjustment involved, the cognizant Government representative, the time and place of the meeting and any other information pertinent to the negotiation.

Note: The Cost Accounting Standards Board rules and regulations set forth in 4 CFR Section 331 et seq. (37 F.R. 4139-4174, February 29, 1972) are hereby incorporated herein by reference and made a part of this ERDA-PR Temporary Regulation No. 1.

ERDA-PR TEMPORARY REGULATION NO. 3

Purpose: This regulation cancels ERDA-PR Temporary Regulation No. 2, dated September 22, 1972, dealing with Stabilization of Prices, Rents, Wages, and Salaries. FPR Temporary Regulation No. 32, dated June 19, 1973, is deemed to require no further implementation.

Purpose: This regulation implements P.L. 92-582 and FPR 1-1.1003-3, 1-1003-7, and 1-4.10 concerning the procurement of Architect-Engineer Contracts.

§9-1 General

§9-1.1003-3 Special areas of negotiation.

(a) Reserved.

(b) Reserved.

(c) Architect-engineer and related services contracts over $10,000. For each contract expected to exceed $10,000, a notice of intention to contract for architect-engineer services shall be published in the Commerce Business Daily, Synopsis of U. S. Government Proposed Procurement, Sales and Contract Awards.

(d) Architect-engineer and related services contracts of $10,000 or under. For each contract expected to cost $10,000 or less, a notice of intention to contract for architect-engineer services may be published in the Commerce Business Daily. In the alternative, the notice shall be publicly displayed at the procuring office and shall be published in at least one daily newspaper circulated in the local area. Written notification to affected professional societies in the area of project consideration should also be made.

§9-1.1003-7 Preparation and transmittal.

(a) Reserved.

(b)

(9) *Architect-engineer services project notice.* Each notice publicizing procurement of architectural and/or engineering services shall be headed "R Architect-Engineer Services." The project shall be listed with a brief statement concerning its location, scope of service required, and, where applicable, the estimated related construction cost, type of contract proposed and the estimated start and completion dates. Appropriate statements shall be made concerning any specialized qualifications, security classifications, and limitations on eligibility for consideration. Qualifications or performance data required from architect-engineer firms shall be described. This data shall be followed by statements

similar to the following: "Architect-engineer firms which meet requirements described in this announcement are invited to submit a complete Standard Form 251, U. S. Government Architect-Engineer Questionnaire, to the procurement office shown below. Firms having a current Standard Form 251 already on file with this procurement office and those responding to this announcement before ..... will be considered for selection, subject to any limitations indicated with respect to size and geographic location of firm, specialized technical expertise or other requirements. Following an initial evaluation of the qualifications and performance data described on the Standard Form 251 discussions will be held with the most highly qualified to provide the services required. The selection of the contractor for negotiation and award of this contract will be based on the evaluation criteria contained in ERDA-PR 9–4.1004–2. This is not a request for a proposal. See also Numbered Note 63 on annual statements." The name of the responsible procurement office shall then be shown complete with the full address and telephone number. The numbered note will appear in each issue of the Commerce Business Daily as follows: "63. Procurement of architectural and/or engineering services shall be made by negotiation. Selection of architect-engineer firms for negotiation shall be based on demonstrated competence, qualifications necessary for the satisfactory performance of the type of professional services required and any other requirements set forth by the individual procurement agency. Firms desiring automatic consideration for all future projects administered by the procurement office (subject to specific requirements for individual projects) are encouraged to submit annually a statement of qualifications and performance data, utilizing Standard Form 251, U. S. Government Architect-Engineer Questionnaire."

§9–4.1000 Scope of subpart.

This subpart contains the policies and procedures of the ERDA for the procurement of professional architect-engineer services, either individually or together, by contract. The requirements of this subpart do not apply to the procurement of professional architect-engineer services by ERDA contractors.

§9–4.1001 General policy.

Pursuant to Public Law 92–582 dated October 27, 1972, which amended the Federal Property and Administrative Services Act of 1949, as amended (40 U.S.C. 471, et seq.), it is the policy of the ERDA to publicly announce all requirements for architect-engineer services, and to negotiate contracts for architect-engineer services on the basis of demonstrated competence and qualification for the type of professional services required and at fair and reasonable prices.

§9–4.1002 Definitions.

(a) "Firm" means any individual, firm, partnership, corporation, association, or other legal entity permitted by law to practice the professions of architecture or engineering.

(b) "Architect-engineer services" are those professional services of an architectural or engineering nature as well as incidental services that members of these professions and those in their employ may logically or justifiably perform.

(c) The term "discussions" includes telephone conversations, exchange of correspondence, or interviews.

§9–4.1003 Public announcements.

To ensure the broadest publicity concerning the ERDA's interest in obtaining architect-engineer services, a notice of intention to contract for architect-engineer services shall be prepared and published for each procurement of architect-engineer services, in accordance with the requirements of ERDA-PR 9–1.1003(c) and (d) and 9–1.1003–7(b)(9).

§9–4.1004 Selection.

§9–4.1004–1 Establishment of architect-engineer evaluation boards.

Architect-engineer evaluation boards will be used for the selection of professional architect-engineer services when either the estimated cost of the contract is $50,000 or more, or the related construction cost for the project requiring the architect-engineer services is $500,000 or more. Except as provided by this subpart, the use of architect-engineer evaluation boards shall be governed by the general policies and procedures contained in ERDA-PR 9–56, and the internal ERDA management directives concerning the selection of contractors by board process.

§9–4.1004–2 Evaluation criteria.

Contracting officers or architect-engineer evaluation boards shall apply the following evaluation criteria contained in this subsection, and any special criteria developed for individual selections:

(a) General qualifications, including:

(1) Reputation and standing of the firm and its principal members;

(2) Experience and technical competence of the firm in comparable work;

(3) Past record in performing work for the ERDA, other Government agencies, and private industry, including performance from the standpoint of cost and the nature, extent, and effectiveness of contractor's cost reduction program; quality of work; and ability to meet schedules (where applicable);

(4) The volume of past and present workloads;

(5) Interest of company management in the project and expected participation and contribution of top officials;

(6) Adequacy of central or branch office facilities for the proposed work, including facilities for any special services that may be required;

(7) Adequacy of the firm's accounting system;

(8) Geographic location of the home office and familiarity with the locality in which the project is located; and

(9) Willingness to grant the Government principal or exclusive rights in resulting inventions.

(b) Personnel and organization.

(1) Specific experience and qualifications of personnel proposed for assignment to the project, including, as required for various phases of the work, (i) technical skills and abilities in planning, organizing, executing, and controlling; (ii) abilities in overall project coordination and management; and (iii) experience in working together as a team;

(2) Proposed project organization, delegations of responsibility, and assignments of authority;

(3) Availability of additional competent, regular employees for support of the project and the depth and size of the organization so that any necessary expansion or acceleration could be handled adequately;

(4) Experience and qualifications of proposed consultants and subcontractors; and

(5) Ability to assign an adequate number of qualified key personnel from its own organization, including a competent supervising representative.

(c) The policies contained in ERDA-PR 9–56.405 concerning distribution of work and the selection of firms which are compatible with the size and complexity of the job requirements.

3

§9–4.1004–3 Collection of data on architect-engineer firms.

ERDA offices that regularly procure architect-engineer services shall collect and maintain current qualifications and performance data files on architect-engineer firms, including information on the qualifications of their members and key employees and past experience on various types of construction projects. Normally, Standard Form 251, U. S. Government Architect-Engineer Questionnaire, supported by required photographs shall be used for this purpose. Information from other sources, such as appraisals of performance on previous projects awarded to the firm, may also be included in the files.

§9–4.1004–4 Evaluation of qualifications and performance data.

After the notice of intention to contract for architect-engineer services has been published and the date for submission of new or current Standard Form 251 has passed, the contracting officer or the evaluation board shall review and evaluate the current Standard Form 251s and other current qualifications and performance data on file, including any Standard Form 251s that were submitted in response to the public announcement. Based on this initial evaluation, no less than three firms shall be selected for the purpose of holding discussions. It is not necessary to hold discussions with any firm that submits a Standard Form 251 in direct response to the public announcement. It is only necessary to review the Standard Form 251s already on file and any new forms that are submitted, and select three or more firms for discussions. The firms selected may or may not be the firms that responded to the public announcement.

§9–4.1004–5 Conducting discussions.

After three or more firms have been selected in accordance with 9–4.1004–4, discussions shall be held with these firms regarding anticipated concepts and the relative utility of alternative methods of approach for furnishing the required services. These discussions should also be used to obtain additional qualification and performance data, and other information that may be needed to properly apply the selection criteria and to adequately evaluate the firms under consideration. For example, the present workload and availability of senior staff personnel are often decisive factors that affect the ranking of architect-engineer firms with respect to a specific project, but this information is not available from the Standard Form 251. Also in the case of the more complex and sophisticated construction projects, e.g., nuclear reactors, accelerators, and research, development and production facilities, it is necessary for the ERDA to obtain and evaluate very detailed performance data and information on the specialized capabilities of a firm which are not adequately covered on the Standard Form 251. However, firms normally should not be requested to submit preliminary designs, plans and drawings, except in unique situations involving prestige projects.

§9–4.1004–6 Use of requests for proposals.

(a) Requests for proposals may not be used as a means of obtaining an initial expression of interest in obtaining a particular contract. Firms indicate their initial interest by either submitting the Standard Form 251 on an annual basis or in response to the public announcement for a particular project. Requests for proposals may be used as a means of initiating the discussion phase of the architect-engineer selection process required by subsections 9–4.1004–4 and 9–4.1004–5. This may be particularly appropriate for the larger or more complex projects where sufficient qualification and performance data are not available from the Standard Form 251, and additional information is needed to properly apply the selection criteria and evaluate and rank the firms.

(b) Requests for proposals should not request firms to submit price proposals. Requests for proposals can only be used to obtain information that will enable the ERDA to select the best qualified contractor.

(c) When a request for proposals is used, some wording should be included to identify it with the discussion phase of the selection process, similar to the following:

"As a result of our evaluation of the current SF 251s and related material on file with this office, we have selected your firm for further consideration for selection and award of a contract to perform certain architect-engineer services which are described below. A principal purpose of this request for a proposal is to obtain additional qualification and performance data concerning your firm."

§9–4.1004–7 Selection of most highly qualified firm for negotiation.

Upon completion of discussions and evaluation of the firms that were selected for discussions, the contracting officer or other selecting official shall select, in order of preference, based upon the criteria in 9–4.1004–2 and any special criteria included in the public announcement, no less than three firms deemed to be the most highly qualified to provide the services required.

§9–4.1004–8 Late proposals.

The proposals requested and received as part of the architect-engineer selection process differ in substance from proposals received for other types of procurement. Consequently, the policies and procedures contained in FPR 1–3.802–1, FPR 1–3.802–2, and ERDA-PR 9–3.802–1 concerning the consideration of late proposals are not applicable to proposals submitted under the provisions of this subpart 9–4.10.

§9–4.1005 Negotiation procedures.

§9–4.1005–1 Conduct of negotiations.

The contracting officer shall attempt to negotiate a contract with the firm that is rated as the most highly qualified to provide the services required at a compensation which he determines is fair and reasonable to the Government. If the contracting officer is unable to negotiate a satisfactory contract with the firm considered to be the most highly qualified, at a price he considers fair and reasonable to the Government, negotiations with that firm should be formally terminated. Negotiations should then be undertaken with the second most qualified firm. Failing accord with the second firm, negotiations should be held with the subsequently listed firm in order of preference, and this procedure shall be continued until a satisfactory contract has been negotiated. If the contracting officer is unable to negotiate a contract with any of the selected firms, he shall select additional firms in accordance with 9–4.1004 and negotiations shall continue in the manner described above.

§9–4.1005–2 Independent Government estimate.

Prior to the initiation of negotiations, the procurement agency shall develop an independent Government estimate of the cost of the required architect-engineer services based on a detailed analysis of the costs expected to be generated by the work. Consideration shall be given to the estimated value of the services to be rendered, the scope, complexity, and the nature of the project. The independent Government estimate shall be revised as required during negotiations to reflect changes in or clarification of the scope of the work to be performed by the architect-engineer. On construction projects, a fee estimate based on the application of percentage factors to project cost estimates of the various segments of the work involved may be developed for comparison purposes, but such a cost estimate shall not be used as a substitute for the independent Government estimate.

§9–4.1005–3 Architect-engineer's price proposal.

The contracting officer shall request the selected architect-engineer firm to submit its price proposal with supporting cost or pricing data in accordance with §§1–3.807–3 and 1–3.807–4. Revisions of the price and supporting cost or pricing data may be made as required during negotiations to reflect changes in or clarification of the scope of the work to be performed by the architect-engineer or findings derived from preaward audits conducted pursuant to §1–3.809.

§9–4.1005–4 Contract price.

The contracting officer shall negotiate a price considered fair and reasonable based on a comparative study of the independent Government estimate and the architect-engineer's proposal. Significant differences between elements of the two figures and between the overall figures shall be discussed and the contracting officer shall ascertain the reasons therefor.

§9–4.1005–5 Record of negotiation.

Promptly at the conclusion of each negotiation, a memorandum setting forth the principal elements of the negotiations shall be prepared in accordance with the requirements of §1–3.811, for use by the reviewing authorities and for inclusion in the contract file. The memorandum shall contain sufficient detail to reflect the significant considerations controlling the establishment of the price and other terms of the contract.

§9–4.1005–6 Exemption from limitations on fee for architect-engineer services.

The ERDA has exempted itself from the 6 percent statutory limitation upon the fees (Price) of architect-engineers. See 9–3.405–5(c).

§9–4.1006 Limitation on contracting with architect-engineer firms for construction work.

See FPR 1–4.1006 and ERDA-PR 9–1.5407(g).

§9–4.1007 Small business.

See FPR 1–4.1007.

5. *Authority:* Section 161 of the Atomic Energy Act of 1954, as amended, 68 Stat. 948, 42 U. S. C. 2201; Section 205 of the Federal Property and Administrative Services Act of 1949, as amended, 63 Stat. 390, 40 U. S. C. 486.

Purpose: This regulation establishes ERDA policy and procedure concerning use of value engineering incentive techniques in the procurement of construction contracts for ERDA buildings and facilities.

§9–1.17–50 Value Engineering Incentive Programs

§9–1.17–5000 Scope of subpart.

This subpart establishes a value engineering incentive program to invite and encourage construction contractors to develop and submit suggested changes in contract requirements covering ERDA projects which will result in reduction of construction costs without impairing required functions, characteristics, and quality, and to share in such savings.

§9–1.17–5001 General policy.

It is ERDA policy to employ value engineering techniques and clauses, in appropriate circumstances, to promote cost reductions in ERDA's construction programs.

The objective of a value engineering incentive provision is to encourage the contractor to submit cost reduction proposals. To be acceptable under the value engineering incentive clause (VEIC), a value engineering change proposal must involve some change in the contract specifications, purchase description, or statement of work. This may include the elimination or modification of any requirements found to be in excess of actual needs. Furthermore, the incentive provisions encourage contractors to submit VECPs that may even increase instant contract costs when they are likely to lead to overall savings resulting from significant net reductions in collateral costs. Value engineering proposals which otherwise satisfy the requirements of the value engineering clause shall not be rejected on the ground that they also involve a termination, in whole or in part, of quantitative contract requirements; moreover, the cost savings resulting from such quantitative reductions shall be shared with the contractor pursuant to the terms of the VEIC. On the other hand, the contractor is not entitled to a share in savings under this subpart resulting solely from quantitative proposals which do not satisfy the value engineering provisions. It is recognized that a contractor may develop such non-qualifying quantitative cost reduction proposals, or even a cost reduction proposal with regard to an ERDA requirement or project for which he does not have a current contract. It is desirable that the potential cost reductions from such proposals not within the scope of value engineering clauses under current contracts be realized by the Government. Accordingly, nothing in this subpart shall be construed to preclude the purchase of such proposals on a case-by-case basis under other appropriate contractual arrangements which are necessary to induce contractors to develop such proposals and make them available to the Government.

§9-1.17-5002 Applicability.

This subpart is applicable to all fixed-price contracts in excess of $10,000, including letter contracts where it is contemplated that the definitive contract will be fixed-price (and solicitations therefor estimated to result in contracts in excess of $10,000) for construction of the type of facilities where in the judgement of the contracting officer there is a reasonable likelihood of construction contractor participation, and may in the discretion of the contracting officer be applied for such solicitations and contracts not in excess of $10,000. The contract file shall be documented to indicate the basis for the contracting officer's decision not to include the value engineering incentive clause in fixed-price construction contracts in excess of $10,000.

The requirements of this subpart, modified as required and appropriate to reflect the prime contractor-subcontractor relationship, shall be applied to procurements by ERDA cost-type contractors.

The greatest opportunity for contractor participation in ERDA's construction programs appears to be under contracts for the more conventional types of construction projects.

§9-1.17-5003 Definitions.

For the purpose of this subpart, the following terms have the meanings set forth in this section:

(a) Value Engineering (VE). Value engineering is concerned with the elimination or modification of anything that contributes to the cost of a contract item or task but is not necessary for needed performance, quality, maintainability, reliability, or interchangeability. Specifically, value engineering as contemplated by this Subpart constitutes a systematic and creative effort, not required by any other provision of the contract, directed toward analyzing each contract item or task to ensure that its essential function is provided at the lowest over-all cost. Over-all cost may include, but need not be limited to, the costs of acquiring, operating, and maintaining a structure or facility.

(b) Value Engineering Change Proposal (VECP). A VECP is a cost reduction proposal initiated and developed by the contractor, for the purpose of changing any requirement of the contract, and identified by the contractor at the time of its submission to the Government as a proposal submitted pursuant to the VEIC of the contract.

(c) Collateral Savings. Collateral savings means any ascertainable net reduction in the Government's overall projected costs including but not limited to cost of operation, maintenance,

logistic support, and Government furnished property, when such collateral savings result from the change proposal submitted by the contractor.

§9–1.17–5004 Relationships with the contractor.

The following relationships shall govern between representatives of the Contracting Office and the Contractor:

(a) Preliminary oral discussion of a Value Engineering Change Proposal (VECP) idea by the Contractor will not jeopardize the contractor's right to his fair share of the savings on the instant contract. In fact, Contractors shall be encouraged to consult with the Contracting Officer or representatives in preparing a complete submittal.

(b) The Contractor shall be encouraged to pursue his proposal in generally all cases except where there is readily apparent clear cut technical reason for disapproval. Such technical reason will be communicated to the Contractor at the time of non-receptivity. The Contractor will be advised that informal receptivity does not insure final approval but merely indicates the Government's willingness to research the proposal in greater depth. Similarily, the Contractor should be advised that non-receptivity does not preclude the Contractor's right to a formal submittal or his right to a fair review by all Government personnel.

(c) A fair review will be insured for all VECPs. Contractors will be advised that only after objective and comprehensive review will a decision be made. This will not preclude, however, obtaining reviews from all appropriate sources in order to identify reasons for rejection prior to making a final decision.

(d) In order to promote awareness of and sensitivity to a value engineering provision made applicable to a procurement, prospective bidders and contractors shall be appropriately advised thereof by such means as discussions during any pre-award and post-award conferences and mention in award notices.

§9–1.17–5005 Subcontractor participation.

The relationship between the Contracting Office and subcontractors will be as follows:

(a) The VEIC stipulates that the Government will accept 40% of the savings when a first-tier subcontractor initiates a VECP, in lieu of 50%. Before accepting a reduced share, the Government is responsible for insuring that the contractual relationship between the prime and subcontractor does in fact contain a VEIC; and, that the sharing arrangements are proper.

(b) The VEIC also stipulates that the clause be incorporated into all first-tier subcontracts in excess of $25,000. While it is not economical to audit this requirement for compliance, the Government must be responsive to complaints from subcontractors who allege improper exclusion from VE participation.

§9–1.17–5006 Evaluation and acceptance.

The evaluation and determination as to the acceptability of any value engineering change proposal shall be the responsibility of the contracting officer, whose decision shall be final and not subject to the disputes clause of the contract. To realize the maximum cost potential of value engineering, VECPs shall be processed as expeditiously as possible.

The Division of Construction, Headquarters shall be notified of all approved VECPs. This notification shall include identification of the Contractor, contract number, nature of the change, sharing details and other data considered relevant or significant by the contracting officer.

§9–1.17–5007 Contract modification.

All VECPs shall be formally approved by contract modification. Contract modifications for VECPs shall:

(a) Cite that the change is pursuant to the VEIC of the contract. If one change document is used to incorporate other change orders not relating to VE, insure that the VE change is clearly identified as to which one it is.

(b) Clearly show the net amount for each specific VECP and the Government'share or increase in cost; the computed average one years net collateral savings and the Contractor's share for each specific VECP; and the impact on contract completion time.

§9–1.17–5008 VECP disapproval.

VECP disapproval shall be by letter from the Contracting Officer to the Contractor. The manner in which a proposal is rejected is extremely important in fixing the Contractor's attitude toward future program participation. For this reason, the following requirements shall govern issuance of disapproval letters:

(a) The letter shall include sufficient specific technical reason for disapproval. Acceptable reasons must involve some specific technical, operational, or economical area.

(b) The letter should reveal all known objections to the proposal the first time so that the Contractor does not waste time satisfying those reasons only to have it disapproved a second time for different reasons.

(c) The letter should thank the Contractor for his participation, and it should inform him of the careful consideration given his proposal. To insure this, it should be personally signed and should not be a form letter.

§9–1.17–5009 Disputes and appeals.

The VEIC provides that the Contractor cannot dispute the decision to accept or reject a VECP. Also, he cannot dispute the Government's computation of collaterial cost on savings. However, he can dispute and appeal the following matters:

(a) Interpretation of the VEIC.

(b) Settlement and negotiation of cost for work under the instant contract for approved VECPs.

(c) Allowances for time for completion.

§9–1.17–5010 Contract clause.

The following clause shall be included in those contract (and solicitations therefor) where, pursuant to 9–1.17–5002, in the judgement of the contracting officer there is reasonable likelihood of contractor participation:

VALUE ENGINEERING INCENTIVE

(a) Intent and Objectives - This clause applies to any cost reduction proposal (hereinafter referred to as a Value Engineering Change Proposal or VECP) initiated and developed by the Contractor for the purpose of changing any requirement of this contract. This clause does not, however, apply to any such proposal unless it is identified by the Contractor, at the time of its submission to the Government, as a proposal submitted pursuant to this clause.

(1) VECP's contemplated are those that would result in net savings to the Government by providing either: (i) a decrease in the cost of performance of this contract, or; (ii) a reduction in the cost of ownership (hereinafter referred to as collateral costs) of the work provided by this contract, regardless of acquisition costs. VECP's must result in savings without impairing any required functions and characteristics such as service life, reliability, economy of operation, ease of maintenance, standardized features, esthetics, fire protection features and safety features presently required by this

contract. However, nothing herein precludes the submittal of VECP's where the Contractor considers that the required functions and characteristics could be combined, reduced or eliminated as being nonessential or excessive for the function served by the work involved.

(2) A VECP identical to one submitted under any other contract with the Contractor or another Contractor may also be submitted under this contract.

(3) A proposal to decrease the cost of performing the contract solely or principally by substituting another Subcontractor for one listed by the Contractor in his bid is not a VECP. In considering a VECP which, as an incident thereof, would entail substitution for a listed Subcontractor, maintaining the objective of the Subcontractor listing will be taken into account along with factors cited in paragraph (1) above.

(b) Subcontractor inclusion - The contractor shall include the provisions of this clause, with a provision for sharing arrangements that meet or exceed the minimum percentage contained herein, in all first-tier subcontracts in excess of $25,000, and in any other subcontract which, in the judgment of the Contractor, is of such nature as to offer reasonable likelihood of value engineering cost reductions. At the option of the first-tier Subcontractor, this clause may be included in lower tier subcontracts. The Contractor shall encourage submission of VECPs from Subcontractors; however, it is not mandatory that VECPs be submitted nor is it mandatory that the Contractor accept and/or transmit to the Government VECPs proposed by his Subcontractors.

(c) Data requirements - As a minimum, the following information shall be submitted by the Contractor with each VECP:

(1) A description of the difference between the existing contract requirement and the proposed change, and the comparative advantages and disadvantages of each; including justification where function or characteristic of a work item is being reduced.

(2) Separate detailed cost estimates for both the existing contract requirement and the proposed change, and an estimate of the change in contract price including consideration of the costs of development and implementation of the VECP and the sharing arrangement set forth in this clause.

(3) An estimate of the effects the VECP would have on collateral costs to the Government, including an estimate of the sharing that the Contractor requests be paid by the Government upon approval of the VECP.

(4) Architectural, engineering or other analysis in sufficient detail to identify and describe each requirement of the contract which must be changed if the VECP is accepted, with recommendation as to how to accomplish each such change and its effect on unchanged work.

(5) A statement of the time by which approval of the VECP must be issued by the Government to obtain the maximum cost reduction during the remainder of this contract, noting any effect on the contract completion time or delivery schedule.

(6) Identification of any previous submission of the VECP including the dates submitted, the agencies involved, the numbers of the Government contracts involved, and the previous actions by the Government, if known.

(d) Processing procedures - Six copies (or such other number of copies as may be specified by the contracting officer) of each VECP shall be submitted to the Contracting Officer, or his duly authorized representative. VECPs will be processed expeditiously; however, the Government will not be liable for any delay in acting upon a VECP submitted pursuant to this clause. The Contractor may withdraw, in whole or in part, any VECP at any time prior to acceptance by the Government. The Government shall not be liable for VECP development cost in the case where a VECP is rejected or withdrawn. The decision of the Contracting Officer as to the acceptance of a VECP under this contract shall be final and shall not be subject to the "Disputes" clause of this contract.

5

(1) The Contracting Officer may modify a VECP, with the concurrence of the Contractor, to make it acceptable. If any modification increases or decreases the savings resulting from the VECP, the Contractor's fair share will be determined on the basis of the VECP as modified.

(2) The Contracting Officer may accept, in whole or in part, a VECP submitted pursuant to this clause by giving the Contractor written notice thereof reciting acceptance under this clause. However, pending issuance of a formal change order or unless otherwise directed, the Contractor shall remain obligated to perform in accordance with the terms of the existing contract. Where the Contracting Officer has determined that a proposed change meets the submission requirements of this clause, he may accept the VECP and instruct the Contractor to proceed with the change even though an agreement has not been reached respecting costs savings and other results of the change.

(3) An approved VECP shall be finalized through an equitable adjustment in the contract price and time of performance by the issuance of a change order pursuant to the provisions of this clause bearing a notation so stating. Where an approved VECP also involves any other applicable clause of this contract such as "Termination for Convenience of the Government," "Suspension of Work," "Changes," or "Differing Site Conditions" then that clause shall be cited in addition to this clause.

(e) Computations for change in contract cost of performance - Separate estimates shall be prepared for both the existing contract requirement and the proposed change. Each estimate shall consist of an itemized breakdown of all costs of the Contractor and all Subcontractors' work in sufficient detail to show unit quantities and costs of labor, material, and equipment.

(1) Contractor development and implementation costs for the VECP shall be included in the estimate for the proposed change. However, these costs will not be allowable if they are otherwise reimbursable as a direct charge under this contract.

(2) Government costs of processing or implementation of a VECP shall not be included in the estimate; however, such cost will be considered in the determination as to whether a net savings accrues to the Government (reference paragraph (a)(1) above).

(3) If the difference in the estimates indicates a net reduction in contract price, no allowance will be made for overhead, profit and bond. The resultant net reduction in contract cost of performance shall be shared in accordance with the provisions of paragraphs (g)(1) or (g)(2) of this clause; and the contract price shall be reduced by the Government's share of the savings.

(4) If the difference in the estimates indicates a net increase in contract price, the contract price shall be adjusted pursuant to the "changes" clause of this contract, and the resulting contract modification shall also cite this clause, as provided by paragraph (d)(3) above.

(f) Computations for collateral costs - Separate estimates shall be prepared for collateral costs of both the existing contract requirement and the proposed change. Each estimate shall consist of an itemized breakdown of all costs and the basis for the data used in the estimate. Cost benefits to the Government include, but are not limited to: reduced costs of operation, maintenance or repair, extended useful service life, increases in useable floor space, and reduction in the requirements for Government furnished property. Increased collateral costs include the converse of such factors. Computation shall be as follows:

(1) Costs shall be calculated over a 20-year period on a uniform basis for each estimate and shall include Government costs of processing or implementing the VECP.

(2) If the difference in the estimates as approved by the Government indicate a savings, the Contractor shall divide the resultant amount by 20 to arrive at the average annual net collateral savings. The resultant savings shall be shared in accordance with the provisions of paragraph (g)(3) of the clause; and the contract price shall be increased by the Contractor's share of the savings.

(3) In the event that agreement cannot be reached on the amount of estimated collateral costs, the Contracting Officer shall determine the amount. His decision is final and is not subject to the provisions of the "Disputes" clause of this contract.

(g) Sharing arrangements - If a VECP is accepted by the Government, the Contractor is entitled to share in instant contract savings and collateral savings not as alternatives, but rather to the full extent provided for in this clause. For the purposes of sharing under this clause, the term "instant contract" shall not include any changes to or other modifications of this contract, executed subsequent to acceptance of the particular VECP, by which the Government increases the quantity of any item of work or adds any item of work. It shall, however, include any extension of the instant contract through exercise of an option (if any) provided under this contract after acceptance of the VECP.

(1) When only the prime Contractor is involved, he shall receive 50% and the Government 50% of the net reduction in the cost of performance of this contract.

(2) When a first-tier Subcontractor is involved, he shall receive a minimum of 30%, the prime Contractor a maximum of 30%, and the Government a fixed 40% of the net reduction in the cost of performance of this contract. Other Subcontractors shall receive a portion of the first-tier Subcontractor savings in accordance with the terms of their contract with the first-tier Subcontractor.

(3) When collateral savings occur the Contractor shall receive 20% of the average one year's net collateral savings. Subcontractor participation (to any tier) in such savings with the Contractor shall be as provided in the terms of the agreements of the contracting parties.

(4) The Contractor shall not receive instant savings or collateral savings shares on optional work listed in this contract, until the Government exercises its option to obtain that work.

(h) Data restriction rights - The Contractor may restrict the Government's right to use any sheet of a VECP, or of the supporting data, submitted pursuant to this clause, in accordance with the terms of the following legend if it is marked on each such sheet:

> The data furnished pursuant to the Value Engineering Incentive Clause of contract ..... shall not be disclosed outside the Government, or duplicated, used, or disclosed in whole or in part, for any purpose other than to evaluate a VECP submitted under said clause. This restriction does not limit the Government's right to use information contained in this data if it is or has been obtained, or is otherwise available, from the Contractor or from another source, without limitations. If such a proposal is accepted by the Government under said contract after the use of this data in such an evaluation, the Government shall have the right to duplicate, use, and disclose any data reasonably necessary to the full utilization of such proposal as accepted, in any manner and for any purpose whatsoever, and have others so do.

In the event of acceptance of a VECP, the Contractor hereby grants to the Government all rights to use, duplicate or disclose, in whole or in part, in any manner and for any purpose whatsoever, and to have or to permit others to do so, data reasonably necessary to fully utilize such proposal on this and any other Government contract.

Authority: Section 161 of the Atomic Energy Act of 1954, as amended, 68 Stat. 948, 42 U.S.C. 2201; Section 205 of the Federal Property and Administrative Services Act of 1949, as amended, 63 Stat. 390, 40 U.S.C. 486.

ERDA-PR TEMPORARY REGULATION NO. 8

Purpose: This regulation, which supersedes ERDA-PR Temporary Regulation No. 7, implements FPR Temporary Regulation No. 33 which amended the provisions of the Federal Procurement Regulations pertaining to small purchase negotiation authority.

Explanation of changes:

a. Section 9–3.600, Scope of subpart, is revised to show $10,000 in lieu of $2,500.

b. Section 9–16.351, ERDA Standard Order Form 103 (February 1963) - Instructions for Use, paragraphs (b) and (c) are revised to show $10,000 in lieu of $2,500.

c. Section 9–55.102–1, Applicability, is revised to show $10,000 or less in lieu of $2,500 or less.

d. Section 9–55.202, Documentation of ERDA direct negotiated contracts, is revised to show "not in excess of $10,000" in lieu of "less than $2,500."

e. Section 9–59.003, Policies for cost-type contractor procurement, paragraph (i) is revised to show "not in excess of $10,000" in lieu of "less than $2,500."

Authority: Section 161 of the Atomic Energy Act of 1954, as amended, 68 Stat. 948, 42 U.S.C. 2201; Section 205 of the Federal Property and Administrative Services Act of 1949, as amended, 63 Stat. 390, 40 U.S.C. 486.

ERDA-PR TEMPORARY REGULATION NO. 9

Purpose: This regulation modifies, in part, ERDA-PR Part 9–9, Patents and Copyrights, and provides additional temporary instructions to implement the two legislative enactments governing the patent contracting and waiver policies of the Energy Research and Development Administration (ERDA) set forth in Section 152 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2182) and in Section 9 of the Federal Nonnuclear Energy Research and Development Act of 1974 (Public Law 93–577).

Explanation of changes:

Part 9–9 of the ERDA Procurement Regulations are revised as follows:

FOREGROUND PATENT RIGHTS CLAUSES FOR NONNUCLEAR ENERGY CONTRACTS:

For contracts which include nonnuclear energy research, development, or demonstration work, contracting authorities may use appropriate clause language from:

(a) the proposed patent regulations of the Federal Procurement Regulations (Title 41, Chapter 1, FPR Part 1–9); or

(b) PART 9–9 of the ERDA Procurement Regulations; or

(c) for those contracting activities transferred to ERDA from agencies other than AEC, appropriate clause language from their former agencies,

as long as the substantive and procedural rights required by Section 9 of the Federal Nonnuclear Energy R&D Act are obtained, and the rights are not inconsistent with Section 9. Normally, such clauses should acquire title in the Government and allow the contractor to retain a non-exclusive, revocable royalty-

free license in the United States, and the right to file and retain title in any foreign country in which the Government does not elect to seek patent protection, and the contractor wishes to do so and requests such rights. Such foreign rights shall be subject to the rights in the Government called for in Subsection 9(f)(2). Permitting the contractor to retain rights greater than these shall be considered a waiver.

In view of the fact that such clauses may not be uniform throughout the ERDA, a provision may be included to permit, after adoption of the permanent revision of Part 9–9, ERDA-PR, a renegotiation of the patent clause in accordance with the revised regulations if the contractor so requests.

FOREGROUND PATENT RIGHTS CLAUSES FOR NUCLEAR ENERGY CONTRACTS:

For contracts which include nuclear energy research, development or demonstration work, contracting authorities shall use PART 9–9 of the ERDA Procurement Regulations, with the following exceptions:

(a) The B Type patent provisions of Section 9–9.5004, modified to allow the contractor to retain a *revocable* license rather than a non-exclusive *irrevocable* license, may be used in all contracts except those calling for the operation of a Government-owned facility.

(b) The C Type clause acquires title, or exclusive rights, to inventions on behalf of the Government only in the nuclear field, or in the field of production or utilization of special nuclear material or atomic energy. This clause, therefore, is not commensurate with the total mission of ERDA. Pending revised regulations, it would be preferable, in most cases, if the C Type clause specified those fields in which the contractor retains exclusive rights rather than the field in which the Government retains these rights. In any event, the Type C clause should be treated as a waiver. As stated in subparagraph (a) above, the nonexclusive license provided to the contractor should also be *revocable* rather than *irrevocable*.

(c) Language may be included to permit the contractor to retain title to inventions in foreign countries in which the Government does not elect to seek patent protection, and the contractor wishes to do so and requests such rights. Such foreign rights shall be subject to the type of conditions set forth in Section 9–9.5006.

In contracts calling for nuclear energy work, a provision may also be included to permit, after adoption of the permanent revision of Part 9–9, ERDA-PR, a renegotiation of the patent clause in accordance with the revised regulations if the contractor so requests.

PATENT RIGHTS CLAUSE FOR OPERATING CONTRACTS:

For contracts calling for the operation of a Government-owned facility, whether nuclear or nonnuclear energy research, development or demonstration work is to be undertaken, a Type A patent clause of Section 9–9.5003 of the ERDA Procurement Regulations shall be used.

BACKGROUND PATENT AND DATA RIGHTS CLAUSES:

Consideration should be given to including background patent and data rights clauses in all contracts involving nuclear or nonnuclear energy research, development, or demonstration work. Guidance primarily designed for nuclear energy R&D is provided in Section 9–9.5008 of the ERDA-PR, and this section may be used for nonnuclear energy research, development or demonstration work by applying its concepts to the field of energy in general. For those contracting activities transferred to ERDA from agencies other than AEC, the policies and clause language of their former agencies may be utilized to the extent they are not inconsistent with Section 9–9.5008.

The need for background patent and data rights and the particular rights that should be obtained for either the Government or the public will depend upon the type, purpose, and scope of the contract effort, the end use intended for the contract results, and the cost to the Government of obtaining such rights. Accordingly, these clauses, when found to be necessary, should be individually negotiated for either nuclear or nonnuclear contracts. In general, the same type of factors should be considered as those set forth for waivers in Subsection 9(d) of the Federal Nonnuclear Energy R&D Act. The need

and amount of anticipated future use by the Government and/or the public should be determining factors, and of particular concern is the need to insure reasonable public availability or accessibility of background technology necessary to practice the results of contracts for the design, development or demonstration of energy systems or processes ultimately intended for public use.

SUBCONTRACT CLAUSES:

In contracts for nonnuclear energy research, development or demonstration work, the prime contract foreground patent rights clause should not be made applicable, pro forma, to subcontracts including research, development or demonstration work unless the prime contract clause calls for title to inventions to vest in the Government with the contractor retaining a non-exclusive, revocable license. Section 9 of the Federal Nonnuclear Energy R&D Act applies to subcontracts as well as prime contracts, and a determination that a prime contractor is entitled to a waiver does not necessarily mean that the subcontractor is so entitled. A waiver for a subcontractor must be subject to a separate determination by ERDA. Background patent and data rights clauses should be applied to subcontracts including research, development, or demonstration work to the extent necessary to fulfill the purpose of the prime contract.

Similarly, subcontracts under nuclear energy prime contracts should not automatically include the prime's foreground patent rights clause unless that clause calls for title to inventions to vest in the Government with the contractor retaining a non-exclusive revocable license. A separate decision must be made regarding the applicability of a waiver to a subcontractor. As under nonnuclear subcontracts, background patent and data rights clauses should be applied to nuclear subcontracts to the extent necessary to fulfill the purpose of the prime contract.

WAIVERS:

a. *Nonnuclear Energy Contracts:* Requests for advance waiver of rights in inventions made under ERDA contracts may be received by ERDA contracting officers or by contractors for their subcontractors in the course of contract negotiations, or their review of proposals or bids. Requests may also be received for case by case waivers after inventions have been reported to the ERDA. All such waiver requests should be referred to the ERDA Patent Counsel assisting the contracting activity, together with any reference or supporting documents provided by the requestor and supporting or opposing documents provided by ERDA Staff at the activity. Field Patent Counsel will coordinate actions on advance waivers with the Chief Counsel of the Field Office concerned as required by local procedures.

The Patent Counsel will prepare a supporting Statement of Considerations which reviews the considerations listed in Subsections 9(d) and 9(e) of the Federal Nonnuclear Energy Research and Development Act of 1974 and applies them to the facts surrounding the individual waiver situation. Each of the factors listed in the appropriate section shall be considered and the Statement shall so state, but only those considerations determinative of the recommendation need be discussed in detail. Patent Counsel shall conclude the Statement with a recommendation on the waiver request, and the request and Statement will be forwarded to the Assistant General Counsel for Patents, Headquarters, to serve as a basis for the waiver decision by the Administrator or his designee. In situations where time does not permit a delay in contract negotiations for the preparation and mailing to ERDA Headquarters of full written Statements, Field Patent Counsel may submit verbal recommendations for waivers to the Assistant General Counsel for Patents and request verbal interim waiver approval from the Administrator or his designee.

b. *Nuclear Energy Contracts:* In order to achieve as much consistency as possible in the patent operations throughout ERDA, the waiver procedures discussed above will be followed for nuclear as well as nonnuclear energy contracts in any situation where the contractor or inventor retains more than: (a) a non-exclusive, revocable license in the United States; and (b) foreign rights in countries where the Government elects not to seek patent protection, or foreign rights in accordance with Section 9-9.5006

of the ERDA-PR. In addition to the considerations set forth in Subsections 9(d) and 9(e) of the Federal Nonnuclear Energy R&D Act, consideration should also be given to the extent to which the contract (or the invention) involves "... the production or utilization of special nuclear material or atomic energy" (Section 152 of the Atomic Energy Act of 1954, as amended).

c. *Irrevocable Licenses:* Although allowing the contractor to retain an irrevocable non-exclusive license is not a waiver under Section 9 of the Federal Nonnuclear Energy R&D Act, the House-Senate Conference Committee Report recognizes that such licenses will interfere with ERDA's licensing program which is intended to assist commercial utilization of inventions resulting from Government R&D. For this reason, the Conference Report stated that the Administrator should carefully exercise his discretion in granting irrevocable licenses. Accordingly, requests by a contractor for an irrevocable license should be handled in the same manner as a waiver pending issuance of revised regulations.

d. *Approval of University Technology Transfer Programs:* Paragraph (11) of Subsection 9(d) of the Federal Nonnuclear Energy R&D Act provides that in waiver determinations, consideration should be given to the extent to which universities have technology transfer capabilities and programs approved by the Administrator. Pending the development of an approval process within ERDA for university capabilities and programs, consideration may be given to the approval of such programs of a university by other Government agencies. Although approval by another agency will not meet the statutory requirement of approval by the Administrator, approval by other agencies will be relevant information to be considered by the Administrator.

e. *Waiver Approval and Documentation:* The Assistant General Counsel for Patents will advise contractors and contracting officers, through Field Patent Counsel and the Chief Counsel where appropriate, of the decision of the Administrator or his designee on the waiver request. A copy of the Statement of Considerations must be furnished with the Patent Information Sheet required by ERDA-PR 9-9.5014 for each contract where verbal approval of a waiver was obtained. Copies of all Statements of Considerations received by the Administrator or his designee will be made available to the public in accordance with Subsection 9(c) of the Federal Nonnuclear Energy R&D Act.

Authority: Section 105 of the Energy Reorganization Act of 1974 (P.L. 93-438); Section 9 of the Federal Nonnuclear Energy Research and Development Act of 1974 (P. L. 93-577); Section 205 of the Federal Property and Administrative Services Act of 1949, as amended, 63 Stat. 390, 40 U.S.C. 486.

ERDA-PR TEMPORARY REGULATION NO. 10

Purpose: This regulation establishes ERDA procedures for submission and selection of proposals to conduct commercial demonstrations of all potentially beneficial energy sources and utilization technologies.

Subpart 9–4.57 Program Opportunity Notices and Unsolicited Proposals for Commercial Demonstrations

§9–4.5700 Authority.

These regulations are promulgated pursuant to Section 8(d)(1) of the Federal Nonnuclear Energy Research and Development Act of 1974 (P.L. 93–577, 42 USC 5901–5915).

§9–4.5701 Application.

These regulations apply to demonstrations performed under this authority by educational institutions, other not-for-profit or nonprofit organizations and commercial or industrial organizations, or

other private entities, or by any public entities, including state and local governments, but not other Federal agencies.

§9–4.5702 Scope and purpose.

(a) These regulations establish procedures for the submission, evaluation and selection of (i) competitive concept proposals offered in response to Program Opportunity Notices issued by ERDA to accelerate the demonstration of the technical feasibility and commercial application of all potentially beneficial nonnuclear energy sources and utilization technologies; and (ii) unsolicited proposals for such demonstrations.

(b) These regulations apply to demonstrations conducted pursuant to the Solar Heating and Cooling Demonstration Act of 1974 (P.L. 93–409); the Geothermal Energy Research, Development, and Demonstration Act of 1974 (P.L. 93–410); the Solar Energy Research, Development, and Demonstration Act of 1974 (P.L. 93–433); the Energy Reorganization Act of 1974 (P.L. 93–438); and, the Federal Nonnuclear Energy Research and Development Act of 1974 (P.L. 93–577). ERDA policies and procedures concerning the use of formal solicited procurements for research, development and demonstrations are set forth in Subpart 9–1 through 9–3 of the ERDA Procurement Regulations. ERDA policies and procedures for the submission, evaluation and selection of unsolicited proposals from commercial and not-for-profit organizations for research and development work are set forth in Subpart 9–4.52 of the ERDA Procurement Regulations. ERDA policies and procedures applicable to the submission, evaluation and selection of research proposals from educational institutions and not-for-profit organizations are set forth in Subpart 9–4.51 of the ERDA Procurement Regulations.

§9–4.5703 Background.

The Federal Nonnuclear Energy Research and Development Act of 1974 states that it is the policy of the Congress to develop on an urgent basis the technological capabilities to support the broadest range of energy policy options through conservation and use of domestic resources by socially and environmentally acceptable means.

Accordingly, the Congress directed ERDA to establish and vigorously conduct a comprehensive, national program of basic and applied research and development, including but not limited to demonstrations of practical applications of all potentially beneficial nonnuclear energy sources and utilization technologies.

In carrying out the demonstration phase of this program, the Administrator of ERDA is authorized to (a) identify opportunities to accelerate the commercial applications of new energy technologies, and to provide Federal assistance for, or participation in, demonstration projects; and (b) enter into cooperative agreements with non-Federal entities to demonstrate the technical feasibility and economic potential of energy technologies on a prototype or full-scale basis.

§9–4.5704 Policy.

§9–4.5704–1 General.

(a) It is ERDA's policy, through the use of Program Opportunity Notices, to provide information concerning scientific and technological areas encompassed by ERDA's program. It is ERDA's intent to encourage the submission of proposals to accelerate the demonstration of the technical, operational, economic and commercial feasibility and environmental acceptability of particular energy technologies, systems, subsystems and components.

(b) ERDA shall, from time to time, issue Program Opportunity Notices for proposals for demonstrations of various forms of nonnuclear energy and technology utilization. These Notices shall be prepared by the cognizant Program Office and submitted to the Division of Procurement for concurrence and release.

§9–4.5704–2 Information to be included in Program Opportunity Notices.

Each Program Opportunity Notice shall include:

(1) the goal of the intended demonstration effort;

(2) a time schedule for submission of, and action on, proposals;

(3) information, that may be required in addition to that specified in §9–4.5704–3;

(4) evaluation criteria, that may be used in addition to those specified in §9–4.5706;

(5) such other information, terms or conditions that shall apply to the particular Program Opportunity Notices; and

(6) place for, and manner of, submission.

§9–4.5704–3 Information to be provided in proposals offered pursuant to Program Opportunity Notices.

All proposals should be specific and, as a minimum, include the information set forth below.

(1) Name and address of the entity(ies) submitting the proposal;

(2) Date of preparation of submission;

(3) Type of entity(ies) (public, including state and local governments; and private, including profit, and nonprofit organizations and educational institutions);

(4) Concise title and abstract of the proposed demonstration project for which assistance or participation is being sought;

(5) An outline and discussion of the proposed demonstration which shall, if applicable and to the extent possible, include:

(i) specification of the technology;

(ii) description of prior pilot plant operating experience with the technology;

(iii) preliminary design of the demonstration plant;

(iv) time tables containing proposed construction or fabrication and installation and operation plans;

(v) budget-type estimates of construction or fabrication and operating costs;

(vi) description and proof of title to land for proposed site, natural resources, electricity and water supply and logistical information related to access to raw materials to construct and operate the plant and to dispose of salable products produced from the plant;

(vii) assessment of the environmental impact of the proposed plant and plans for disposal of wastes resulting from the operation of the plant;

(viii) plans for commercial use of the technology if the demonstration is successful;

(ix) plans for continued use of the plant if the demonstration is successful; and

(x) plans for dismantling of the plant if the demonstration is unsuccessful or otherwise abandoned;

(xi) form and amount of assistance or participation being sought (see §9–4.5705–1); and

(xii) form and amount of funding, or other contribution to be provided by the proposer.

3

The information called for under this section relates primarily to a demonstration project involving the construction and operation of a "plant." In instances where the proposed project concerns a demonstration that does not involve a plant (for example, the demonstration of a process, apparatus, device), the individual Program Opportunity Notice shall state what additional information is to be submitted with the proposal.

(6) Names of the key personnel to be involved, brief biographical information, including relevant experience;

(7) A current financial statement;

(8) Period for which proposal is valid;

(9) Names and telephone numbers of proposer's primary business and technical personnel whom ERDA may contact during evaluation or negotiation;

(10) Each proposal containing technical data or proprietary or business confidential information, which the proposer intends to be used by ERDA for evaluation purposes only, should be marked on the cover sheet with the legend prescribed in §9–3.150–4 of the ERDA Procurement Regulations; and

(11) Signature of an official of the proposing organization authorized to contractually obligate such organization.

§9–4.5705 Assistance and participation.

§9–4.5705–1 Forms of assistance and participation.

In providing for the carrying out of demonstrations under the Federal Nonnuclear Energy Research and Development Act, ERDA may utilize various forms of Federal assistance and participation. These forms of assistance and participation include but are not limited to:

(1) Contracts;

(2) Grants;

(3) Loans;

(4) Incentives, including financial awards, to individual inventors;

(5) Joint Federal-industry demonstration corporation; and

(6) Federal purchase(s) or guaranteed price of the products of the demonstration project.

A Program Opportunity Notice may highlight a particular form(s) of assistance or participation deemed most suitable to a proposed demonstration; or, when justified, limit consideration or assistance or participation to a particular form(s).

§9–4.5705–2 Cost sharing.

The provisions contained in Subpart 9–4.56 of the ERDA Procurement Regulations outlining ERDA's cost sharing policy shall apply to proposals submitted hereunder, except as hereinafter provided.

When a proposal contemplates ERDA's direct financial support the resulting demonstration project must be conducted on a cost-shared basis. ERDA's financial support shall be only to the extent of the Federal share of the estimated total design, construction, operation and maintenance costs. Payment of fees to the non-Federal cost sharer(s) is prohibited. The non-Federal cost share may be in any form, including, but not limited to, cash, real property or interest therein, personal property or services. The value of any non-monetary, non-Federal cost share shall be determined by ERDA.

§9–4.5706 Evaluation and selection.

(a) General policy. Information contained in proposals offered in response to Program Opportunity Notices shall be treated in accordance with the policies and procedures set forth in §9–3.150 of the ERDA Procurement Regulations pertaining to the marking and handling of proprietary data and privileged business information.

(b) Preliminary review. Prior to making a comprehensive evaluation of a proposal, the receiving office shall determine that it:

(1) contains sufficient technical, cost and other information to enable comprehensive evaluation; and

(2) has been signed by a responsible official of the proposing organization or a person authorized to contractually obligate such organization.

If the proposal does not meet these requirements, a comprehensive evaluation need not be made. In such cases a prompt reply shall be sent to the proposer, indicating the reason(s) for its not being selected for support under the Program Opportunities Notice.

(c) Comprehensive evaluation. When the estimated amount of the Federal investment that would be required to support a proposal(s) offered in response to a Program Opportunity Notice will necessitate specific legislative authorization by the Congress, comprehensive evaluation shall be conducted by a specially constituted board which shall follow such policies and procedures of the ERDA formal Source Evaluation Board process as may be appropriate under the circumstances.

When the estimated amount of the Federal investment will not necessitate specific legislative authorization, comprehensive evaluation shall be conducted by a panel, which shall be appointed by the cognizant Program Office, and shall include representation from the Division of Procurement.

Every proposal that is retained for comprehensive evaluation shall have attached or imprinted a legend identifying it as proposal, and stating that it may be used only for purposes of evaluation. Both the general criteria set forth in subsections (c)(1) through (5) below and the specific criteria set forth in subsections (d)(1) through (7) below, as well as any additional special criteria which may be contained in the particular Program Opportunity Notice, shall be considered in evaluating proposals.

(1) the overall technical feasibility of the proposed effort;

(2) the potential contribution which the proposed effort is expected to have, if supported at this time, on ERDA's responsibility to carry out programs so as to assist in solving energy extraction and storage, transportation, conversion, waste utilization, conservation, and the energy utilization efficiency problems of various areas and regions, under representative geological, geographic and environmental conditions;

(3) the capabilities, related experience, facilities, instrumentation, or techniques which the proposer possesses and offers, and which are considered to be integral factors for achieving the objective(s) of the proposal;

(4) the qualifications, capabilities and experience of the proposed key personnel; and

(5) the ability of the proposer to furnish necessary financial support.

(d) Specific evaluation criteria. In evaluating proposals for a potential demonstration project, the following criteria shall be used:

(1) The anticipated objectives to be achieved by the activities or facilities proposed;

(2) The economic, environmental, and societal costs and benefits which a successful demonstration program may have for the national fuels and energy system;

(3) The availability of non-Federal participant(s) to construct and operate the facilities or experiment or perform the activities associated with the proposal and to contribute to financing the proposal;

(4) The total estimated cost including the Federal investment and the probable time schedule;

(5) The proposed participants and the proposed financial contributions of the Federal Government and of the non-Federal participants;

(6) The proposed cooperative arrangement, agreements among the participants, and form of management of the activities;

(7) The relationship of the proposal to the following priorities:

(i) The urgency of public need for the potential results of the proposed demonstration effort is high, and it is unlikely that similar results would be achieved in a timely manner in the absence of Federal assistance.

(ii) The potential opportunities for non-Federal interests to recapture the investment in the undertaking through the normal commercial utilization of proprietary knowledge appear inadequate to encourage timely results.

(iii) The extent of the problems treated and the objectives sought by the undertaking are national or widespread in their significance.

(iv) There are limited opportunities to induce non-Federal support of the undertaking through regulatory actions, end-use controls, tax and price incentives, public education, or other alternatives to direct Federal financial assistance.

(v) The degree of risk of loss of investment inherent in the demonstration is high, and the availability of risk capital to the non-Federal entities which might otherwise engage in this effort is inadequate for the timely development of the technology.

(vi) The magnitude of the investment appears to exceed the financial capabilities of potential non-Federal participants.

§9–4.5707 Unsolicited proposals for commercial demonstrations.

(a) Consistent with ERDA's policy set forth in Subpart 9–4.52 of the ERDA Procurement Regulations, when a received document otherwise qualifies as an unsolicited proposal under this Part, but its substance is generally known and may be obtained without restriction by formal competitive solicitation or Program Opportunity Notice, or its substance closely resembles that of a pending formal competitive solicitation or Program Opportunity Notice, ERDA's policy of obtaining competition applies.

(b) Unsolicited proposals for nonnuclear energy demonstration activities not covered by existing formal competitive solicitations or Program Opportunity Notices should be prepared using the information requirements of §9–4.5704–3 as a guideline; may request Federal assistance or participation pursuant to §9–4.5705–1; and shall be subject to the cost sharing provisions of §9–4.5705–2.

(c) Unsolicited proposals should be addressed to the cognizant Program Office as follows:

U. S. Energy Research and Development Administration
ATTN: (Insert appropriate Division)
Washington, DC 20545

The Program Offices and Divisions are:

Office of the Assistant Administrator for Fossil Energy*

Division of Advanced Research and Supporting Technology
Division of Coal Conversion and Utilization
Division of Petroleum, Natural Gas, and In Situ Technology

*Send all fossil energy proposals to the attention of the Evaluation and Review Staff rather than one of the Divisions.

Office of the Assistant Administrator for Solar, Geothermal, and Advanced Energy Systems

Division of Physical Research
Division of Controlled Thermonuclear Research
Division of Geothermal Energy
Division of Solar Energy

Office of the Assistant Administrator for Conservation

Division of Buildings and Industry
Division of Interprogram Applications
Division of Conservation Research and Technology
Division of Electric Energy Systems
Division of Transportation Energy Conservation*

*This Division is not located in Washington, DC. Send to:

U. S. Energy Research and Development Administration
Division of Transportation
2929 Plymouth Road
Ann Arbor, MI 48105

(d) When an unsolicited proposal is received initally by an ERDA field installation or non-cognizant Headquarters Office, it shall be forwarded to the cognizant Program Office. Information contained in unsolicited proposals shall be treated in accordance with the policies and procedures set forth in §9–3.150 of the ERDA Procurement Regulations. Unsolicited proposals shall be acknowledged as soon as possible after receipt, and the proposer shall be informed, in writing, of the ultimate disposition of the proposal.

(e) The cognizant Program Office shall appoint a panel, which shall include representation from the Division of Procurement, to evaluate each unsolicited proposal, and to recommend whether the proposal should be supported. Unsolicited proposals will be evaluated in accordance with the criteria set forth in §9–4.5706.

(f) A favorable evaluation of an unsolicited proposal is not, in and of itself, sufficient justification for negotiating on a noncompetitive basis with the proposer. When an unsolicited proposal has received a favorable evaluation and it is determined that the substance thereof is not available to ERDA without restriction from another source, or competition is otherwise precluded, the subject matter of such proposal may be procured from the proposer on a noncompetitive basis. The Program Office sponsoring the procurement shall, prior to the negotiation of a contract or other agreement, make the findings and determination required to support a negotiated procurement (§9–3.301 of the ERDA Procurement Regulations).

Authority: Section 105 of the Energy Reorganization Act of 1974 (P.L. 93–438).

ERDA-PR TEMPORARY REGULATION NO. 11

1. *Purpose:* Pending complete restructuring of Part 9–15 of the ERDA-PR, the following cost principles are issued as directly implementing the indicated subparagraphs of FPR 1–15.205. Other principles may be promulgated from time to time, if needed in the interval before the restructured Part 9–15 is issued. The following principles will apply to the negotiation and administration of contracts and subcontracts under cost-type contracts, in accordance with FPR 1–15.102. ERDA-PR §9–15.5010–13, Bidding expense and cost of proposals, and §9–15.5010–12, Research and development, are rescinded.

§9–15.205–3 Bidding costs.

The costs of preparing bids or proposals shall include an amount for absorption of their appropriate share of related indirect costs. A contractor's bidding costs are allowable in accordance with FPR 1–15.205–3 up to a ceiling amount equal to the average annual bidding costs computed from the actual costs for the contractor's three most recent years.

b. Add new section 9–15.205–35, Research and development costs.

§9–15.205–35 Research and development costs.

(d) A contractor's costs of independent research are allowable in accordance with FPR 1–15.205–35(d) provided the research also is of benefit to the ERDA program.

(e) Costs of a contractor's independent development are allowable in accordance with FPR 1–15.205–25(e) provided the development also is of benefit to the ERDA program.

(h) When the cost of the work involved in segregating the independent research and development which benefits the ERDA program is disproportionate to the amounts involved, an allocable share of those costs may be allowed up to a maximum equal to 5% of the total cost of the contract, but not in excess of $50,000.

c. Section 9–7.5006–10(d)(17) is revised to read as follows:

§9–7.5006–10

(d)

(17) *The costs of preparing bids and proposals*, in accordance with §9–15.205–3.

1

d. Add a new paragraph (18) to §9-7.5006-10(d) as follows:

(d)

(18) *Independent research and development costs* in accordance with §9-15.205-35.

e. Delete §9-7.5006-10(e)(20), *Research and development costs*, and reserve.

5. *Authority:* Section 105 of the Energy Reorganization Act of 1974 (P.L. 93-438).
