federal register

WEDNESDAY, MAY 4, 1977

highlights

"THE FEDERAL REGISTER—WHAT IT IS AND HOW TO USE IT"

Reservations for June are being accepted for the free weekly workshops on how to use the FEDERAL REGISTER. The sessions are held at 1100 L St. N.W., Washington, D.C. in Room 9409, from 9 to 11:30 a.m.

Each session includes a brief history of the FEDERAL REGISTER, the difference between legislation and regulations, the relationship of the FEDERAL REGISTER to the Code of Federal Regulations, the elements of a typical FEDERAL REGISTER document, and an introduction to the finding aids.

FOR RESERVATIONS call: Dean Smith, 202–523–5282.

OUT OF TOWN WORKSHOPS PREVIOUSLY ANNOUNCED

Denver, Colo., 5–19, 5–20.

(Details: 42 FR 20208, 4–18–77.)

For reservations call: Ida Martinez or Velita Bonney at 303–234–2216.

SUNSHINE ACT MEETINGS 22633

REHABILITATION ACT OF 1973

CONTINUED INSIDE

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The six-month trial period ended August 6. The program is being continued on a voluntary basis (see OFR notice, 41 FR 32914, August 6, 1976). The following agencies have agreed to remain in the program:

Monday	Tuesday	Wednesday	Thursday	Friday
NRC	USDA/ASCS		NRC	USDA/ASCS
DOT/COAST GUARD	USDA/APHIS		DOT/COAST GUARD	USDA/APHIS
DOT/NHTSA	USDA/FNS		DOT/NHTSA	USDA/FNS
DOT/FAA	USDA/REA		DOT/FAA	USDA/REA
DOT/OHMO	CSC		DOT/OHMO	CSC
DOT/OPSO	LABOR		DOT/OPSO	LABOR
	HEW/FDA			HEW/FDA

Documents normally scheduled on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

ATTENTION: For questions, corrections, or requests for information please see the list of telephone numbers appearing on opposite page.

federal register

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

List of Public Laws

This is a continuing numerical listing of public bills which have become law, together with the law number, the title, the date of approval, and the U.S. Statutes citation. The list is kept current in the FEDERAL REGISTER and copies of the laws may be obtained from the U.S. Government Printing Office.

PUBLIC LAW 95–23
To authorize supplemental military assistance to Portugal for the fiscal year 1977, and for other purposes. (April 30, 1977; 91 Stat. 54). Price: $.35.

PUBLIC LAW 95–24
"Supplemental Housing Authorization Act of 1977". (April 30, 1977; 91 Stat. 55). Price $.35.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 24—Housing and Urban Development

CHAPTER II—OFFICE OF ASSISTANT SECRETARY FOR HOUSING—FEDERAL HOUSING COMMISSIONER, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. R-77-420]

PART 235—MORTGAGE INSURANCE AND ASSISTANCE PAYMENTS FOR HOME OWNERSHIP AND PROJECT REHABILITATION

Reduction in Minimum Downpayment

AGENCY: Office of Assistant Secretary for Housing—Federal Housing Commissioner, HUD.

ACTION: Final rule.

SUMMARY: This rule reduces the minimum downpayment required of home purchasers under Section 235 of the National Housing Act. The result will be to make participation in the 235 program possible for eligible families which cannot meet the current downpayment requirements, and is intended to increase the availability of the program to families of more limited income.

EFFECTIVE DATE: May 4, 1977.

FOR FURTHER INFORMATION CONTACT:

William A. Rolfe, Director, Single Family Mortgage Insurance Division, Office of Insured and Direct Loan Origination, Housing, Department of Housing and Urban Development, Washington, D.C. 20410 (202-426-8914).

SUPPLEMENTARY INFORMATION: By Interim rule published September 30, 1976, (41 FR 43140) the Secretary amended Part 235 so as to reduce the minimum downpayment required of homebuyers assisted pursuant to Section 235 of the National Housing Act.

Comments were invited through November 1, 1976. None have been received, and the interim regulations are adopted without change.

A Finding of Inapplicability respecting the National Environmental Policy Act of 1969 was made in connection with the proposed rule and is applicable to this final rule. A copy of this Finding of Inapplicability will be available for public inspection during regular business hours in the Office of the Rules Docket Clerk, Office of the Secretary, Room 10141, Department of Housing and Urban Development, 451 7th Street SW., Washington, D.C.

NOTE.—It is hereby certified that the economic and inflationary effects of this final rule have been carefully evaluated in accordance with Executive Order No. 11821.

In consideration of the foregoing, 24 CFR Chapter II is amended as follows:

1. In § 235.2, paragraph (d) is revised to read as follows:

§ 235.2 Basic program outline.

* * * * *

(d) The mortgagor must have paid in cash or its equivalent at least 3 percent of the first $25,000 of acquisition cost plus 10 percent of the acquisition cost in excess of $25,000.

* * * * *

2. Section 235.35 is amended as follows: Paragraph (a) is deleted and reserved, and paragraph (b) is revised.

§ 235.35 Mortgagor's investment.

(a) [Reserved]

(b) The mortgagor shall have paid, at the time the mortgage is insured, on account of the property, in cash or its equivalent, at least 3 percent of the first $25,000 of the Secretary's estimate of the cost of acquisition plus 10 percent of such estimate in excess of $25,000.

* * * * *

(Sec. 221(a)(6), Pub. L. 93-383, 88 Stat. 633, (12 U.S.C. 1715z); sec. 101(c)(4), Pub. L. 90-448, 82 Stat. 476, 484 (12 U.S.C. 1707-1715y); sec. 7(d) Department of HUD Act (42 U.S.C. 3535(d)).)

Issued at Washington, D.C., on April 12, 1977.

MORTON A. BARUCH,
Acting Deputy Assistant Secretary for Housing—Federal Housing Commissioner.

Title 28—Judicial Administration

CHAPTER I—DEPARTMENT OF JUSTICE

[Order No. 713-77]

PART 0—ORGANIZATION OF THE DEPARTMENT OF JUSTICE

Subpart C—Office of the Deputy Attorney General

GENERAL SUPERVISION OF THE LAW ENFORCEMENT ASSISTANCE ADMINISTRATION

AGENCY: Department of Justice.

ACTION: Final rule.

SUMMARY: The Law Enforcement Assistance Administration is established in the Department of Justice "under the general authority, policy direction, and general control of the Attorney General" (42 U.S.C. 3711, as amended). This order assigns to the Deputy Attorney General the function of assisting the Attorney General in overseeing the operations of LEAA.

EFFECTIVE DATE: April 25, 1977.

FOR FURTHER INFORMATION CONTACT:

John M. Harmon, Acting Assistant Attorney General, Office of Legal Counsel, Department of Justice, Washington, D.C. 20530 (202-739-2041).

By virtue of the authority vested in me by 5 U.S.C. 301, 28 U.S.C. 510, and Section 101 of the Omnibus Crime Control and Safe Streets Act of 1968, as amended, 42 U.S.C. 3711, numbered subparagraph (5) of § 0.15(b) is redesignated subparagraph (10) and a new subparagraph (5) is inserted, to read as follows:

§ 0.15 Deputy Attorney General.

* * * * *

(b) * * *

(5) Assist the Attorney General in exercising general authority, policy direction, and general control over the Law Enforcement Assistance Administration (42 U.S.C. 3711).

* * * * *

Dated: April 25, 1977.

GRIFFIN B. BELL,
Attorney General.

Title 36—Parks, Forests, and Public Property

CHAPTER I—NATIONAL PARK SERVICE, DEPARTMENT OF THE INTERIOR

PART 7—SPECIAL REGULATIONS, AREAS OF THE NATIONAL PARK SYSTEM

Mount Rainier National Park, Wash.; Snowmobile Routes; Correction

AGENCY: National Park Service, Interior.

ACTION: Correction.

SUMMARY: This document is being published to correct a paragraph designation in a final rule published in the FEDERAL REGISTER August 9, 1976.

EFFECTIVE DATE: May 4, 1977.

FOR FURTHER INFORMATION CONTACT:

Carl Christensen (202-343-5607).

SUPPLEMENTARY INFORMATION: Paragraph (c) of § 7.5, as contained in the proposal published at page 8496 in the FEDERAL REGISTER of February 27, 1976, and in the final rule published at page 33263 in the FEDERAL REGISTER of August 9, 1976, was incorrectly identified in these notices. This paragraph, whose subject heading is *Snowmobile use*, should have been identified as

paragraph (d). The correct paragraph (c) of this section was published as a final rule at page 31938 in the FEDERAL REGISTER of July 30, 1975, and is headed *Backcountry camping.*

WILLIAM J. BRIGGLE,
Acting Director,
National Park Service.

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER N—EFFLUENT LIMITATIONS AND GUIDELINES

[FRL 723-4]

PART 435—ONSHORE SEGMENT OF THE OIL AND GAS EXTRACTION POINT SOURCE CATEGORY

Interim Final Rulemaking; Extension of Comment Period

AGENCY: Environmental Protection Agency.

ACTION: Extension of comment period.

SUMMARY: This action extends the deadline for the receipt of comments on the interim final rulemaking establishing effluent limitations and guidelines for the onshore segment of the oil and gas extraction industry, based on the use of best practicable control technology currently available. The extension is for a period of thirty days from the date of publication of this notice (June 3, 1977).

EFFECTIVE DATE: March 25, 1977.

FOR FURTHER INFORMATION CONTACT:

Harold B. Coughlin, Effluent Guidelines Division (WH-552), Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460, 202-426-2560.

SUPPLEMENTARY INFORMATION: On October 13, 1976, the Agency published a notice of interim final rulemaking (41 FR 44942) establishing effluent limitations and guidelines for the onshore segment of the oil and gas extraction point source category, based upon the use of the best practicable control technology currently available. The due date for comments provided in the notice was December 13, 1976. The due date has subsequently been extended to March 25, 1977.

The American Petroleum Institute and others have filed a petition for review of the interim final regulations in the United States Court of Appeals for the Fifth Circuit. The Agency has agreed with the litigants in a stipulation filed with the Fifth Circuit to postpone immediate action on this suit in anticipation of promulgation of final regulations shortly after the close of the comment period for the interim final regulations. The Agency also agreed to extend the comment period an additional thirty days after the March 25, 1977 deadline.

Accordingly the deadline for the submission of comments is hereby extended to June 3, 1977.

Dated: April 15, 1977.

ANDREW W. BREIDENBACH,
Assistant Administrator for
Water and Hazardous Materials.

[FR Doc.77-12718 Filed 5-3-77;8:45 am]

Title 41—Public Contracts and Property Management

CHAPTER 101—FEDERAL PROPERTY MANAGEMENT REGULATIONS

SUBCHAPTER E—SUPPLY AND PROCUREMENT

[FPMR Amendment E-207]

PART 101-25—GENERAL

Supply Activity Report

AGENCY: General Services Administration.

ACTION: Final rule.

SUMMARY: This regulation revises the reporting requirements for agencies that submit supply activity reports to GSA. Some agencies have not been submitting reports because the former regulations implied that reports were not required under certain circumstances. This regulation is intended to correct the misconception by clarifying the reporting requirements.

EFFECTIVE DATE: May 4, 1977.

FOR FURTHER INFORMATION CONTACT:

Mr. John I. Tait, Director, Regulations and Procedures Management Division, Office of Customer Service and Support, Federal Supply Service, General Services Administration, Washington, D.C. 20406. (703-557-1914).

Subpart 101-25.48—Reports

Section 101-25.4801(c) is revised as follows:

§ 101-25.4801 Supply Activity Report.

* * * * *

(c) Agencies are not required to submit the data specified in part I of GSA Form 1473 when any of the conditions listed below apply; however, the data in parts II through V shall be submitted by agencies to the extent that they are applicable to agency operations.

* * * * *

Subpart 101-25.49—Illustrations of Forms

Section 101-25.4902-1473-1(d) is revised to provide updated instructions as follows:

§ 101-25.4902-1473-1 Instructions for preparation of GSA Form 1473, Supply Activity Report.

NOTE.—The instructions in § 101-25.4902-1473-1 are filed as part of the original document and do not appear in the FEDERAL REGISTER.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c).)

The General Services Administration has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A-107.

Dated: April 11, 1977.

ROBERT T. GRIFFIN,
Acting Administrator of
General Services.

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

PART 73—RADIO BROADCAST SERVICES

PART 74—EXPERIMENTAL, AUXILIARY, AND SPECIAL BROADCAST, AND OTHER PROGRAM DISTRIBUTIONAL SERVICES

Editorial Amendments Correcting the Contact Address Concerning the Protection of the Table Mountain Receiving Zone

AGENCY: Federal Communications Commission.

ACTION: Order.

SUMMARY: These amendments are being made at the request of the Department of Commerce. They change the address and telephone number of the Radio Frequency Management Coordinator, Table Mountain Receiving Zone, as carried in the FCC Rules and Regulations for Broadcast Stations.

EFFECTIVE DATE: May 4, 1977.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

John W. Reiser, Broadcast Bureau. (202-632-9660.)

SUPPLEMENTARY INFORMATION:

Adopted: April 11, 1977.

Released: April 14, 1977.

In the matter of amendments of Parts 73 and 74 of the Commission's Rules and Regulations to correct the contact address concerning the protection of the Table Mountain Receiving Zone.

ORDER

1. In a letter to the Commission, dated March 24, 1977, the U.S. Department of Commerce requested that changes be made in the mailing address and telephone number shown in the Rules and Regulations for contacting the Department concerning protection of the Table Mountain Receiving Zone from radio frequency interference from proposed installation of certain transmitting stations. The attachment set forth below contains amendments to subparagraph (c)(2) of §§ 73.18, 73.215, 73.515, 73.624, 73.711, and 74.12 of the rules for the broadcast and broadcast auxiliary and program distribution services to modify the contact address as requested by the Department of Commerce, to read as follows:

Radio Frequency Management Coordinator, Department of Commerce, Research Support Services, NOAA/R5X3, Boulder Laboratories, Boulder, Colo. 80302. Telephone: 303-499-1000, extension 5648 or 5649.

2. Concluding that the adoption of these amendments will serve the public interest, the prior notice of rule making, effective date provisions, and public procedure are unnecessary pursuant to the Administrative Procedure and Judicial Review Act provisions of 5 U.S.C. 553(b)(3)(B), inasmuch as these amendments impose no additional burdens and raise no issue upon which comments would serve any useful purpose.

3. Therefore, *it is ordered*, That pursuant to sections 4(i), 303(r), and 5(a)(1) of the Communications Act of 1934, as amended, and § 0.231 of the Commission's Rules, Parts 73 and 74 of the Commission's Rules and Regulations are amended as set forth below, effective April 26, 1977.

(Secs. 4, 5, 303, 48 Stat., as amended, 1066, 1068, 1082; 47 U.S.C. 154, 155, 303.)

FEDERAL COMMUNICATIONS COMMISSION,
R. D. LICHTWARDT,
Executive Director.

§ 73.18 [Amended]

§ 73.215 [Amended]

§ 73.515 [Amended]

§ 73.624 [Amended]

§ 73.711 [Amended]

§ 74.12 [Amended]

In sections 73.18, 73.215, 73.515, 73.624, 73.711, and 74.12, subparagraph (c)(2) is amended to read identically as follows:

(c) * * *

(1) * * *

(2) Applicants concerned are urged to communicate with the Radio Frequency Management Coordinator, Department of Commerce, Research Support Services, NOAA/R5X3, Boulder Laboratories, Boulder, Colorado 80302, Telephone: 303-499-1000, extension 5648 or 5649, in advance of filing their applications with the Commission.

Title 50—Wildlife and Fisheries

CHAPTER VI—FISHERY CONSERVATION AND MANAGEMENT, NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, DEPARTMENT OF COMMERCE

PART 611—FOREIGN FISHING

Foreign Fishing Regulations, Correction

AGENCY: National Oceanic and Atmospheric Administration/Commerce.

ACTION: Correction.

SUMMARY: This document is being published to correct certain parts of §§ 611.90 and 611.92 (originally published at 42 FR 8813, February 11, 1977) in which conflicts with existing regulations and inconsistencies with requirements implementing an observer program have been brought to the attention of the National Marine Fisheries Service. The change in § 611.90 would allow authorized fishing vessels to engage in the crab fishery, require daily reporting by such vessels, and prohibit such vessels from departing the area until crabs onboard each vessel are checked by a U.S. observer. The change in § 611.92 corrects an error in the regulations as to the beginning date for foreign fishing in the Bering Sea and Aleutian Islands between 169° and 170° West longitude.

EFFECTIVE DATE: May 4, 1977.

FOR FURTHER INFORMATION CONTACT:

Richard Schaefer, Fishery Management Operations Division, National Marine Fisheries Service, Washington, D.C. 20235, 202-634-7454.

SUPPLEMENTARY INFORMATION: The changes in § 611.90 do not modify the tanner crab allocation of 12,500 metric tons provided to Japan for 1977. These changes authorize those Japanese vessels other than factory ships, that take and process crabs, to engage in the crab fishery. This authorization is based on implementation of an observer program, agreed to by the Japanese government, to verify the catch of crabs taken by those vessels. The changes set forth in § 611.90 involve a foreign affairs function of the United States, and are excepted from the rulemaking procedures of the Administrative Procedures Act. Formal notice of proposed rulemaking is therefore not required.

At 42 FR 8841, § 611.90(g)(2) and (4), are corrected and new (5) and (6) are added as follows:

§ 611.90 Crabs.

* * * * *

(g) * * *

(2) Process crabs except on factory ships or fishing vessels specifically authorized by permit to engage in the crab fishery.

* * * * *

(4) Take crabs aboard factory ships or off load or transfer crabs from any fishing vessel specifically authorized by permit to engage in the crab fishery in a manner in which an observer cannot verify the total weight of crabs.

(5) In the case of a vessel specifically authorized by permit to engage in the crab fishery, other than a factory ship, fail to report daily to the Regional Director its (i) position, (ii) daily catch, and (iii) cumulative catch.

(6) In the case of a vessel specifically authorized by permit to engage in the crab fishery, other than a factory ship, depart the fishing area until its catch of crabs onboard is checked by an observer.

* * * * *

At 42 FR 8843, § 611.92(c)(2)(i) should read as follows:

§ 611.92 Bering Sea and Aleutian Islands trawl and herring gillnet fishery.

* * * * *

(c) * * *

(2) * * *

(i) Between 169° and 170° West longitude, trawl fishing from June 1, 1977 to November 30, 1977, inclusive, and longline fishing from March 1, 1977 to December 31, 1977 inclusive.

* * * * *

Dated: May 2, 1977.

JACK W. GEHRINGER,
Deputy Director, National Marine Fisheries Service.

[FR Doc.77-12881 Filed 5-3-77;8:45 am]

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

FEDERAL RESERVE SYSTEM

[12 CFR Part 225]

[Reg. Y; Docket No. R-0051]

BANK HOLDING COMPANIES

Proposed Rulemaking Relating to Providing Management Consulting Advice

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Deferral of rulemaking proposal.

SUMMARY: On August 2, 1976, the Board of Governors proposed an amendment to its Regulation Y in connection with an application by a bank holding company to engage in offering management consulting advice to nonaffiliated savings banks. The proposed amendment would add the activity of providing management consulting advice to nonaffiliated savings banks and to other nonaffiliated, depository-type financial institutions to the list of activities that the Board has previously determined to be permissible for bank holding companies. In light of the fact that the application to engage in the proposed new activity has been withdrawn, the Board is deferring action on the proposed amendment.

FOR FURTHER INFORMATION CONTACT:

Robert E. Mannion, Assistant General Counsel, 202-452-3274 or Julius L. Loeser, Senior Attorney, 202-452-3236, Legal Division, Board of Governors of the Federal Reserve System, Washington, D.C. 20551.

SUPPLEMENTARY INFORMATION: The Board of Governors on August 2, 1976, proposed an amendment to its Regulation Y (12 CFR 225) that would add the activities of providing management consulting advice to nonaffiliated savings banks and possibly to other nonaffiliated, depository-type financial institutions to the list of activities that the Board has previously determined to be permissible for bank holding companies, as specified in § 225.4(a) of Regulation Y. Notice of the proposed amendment was published in the FEDERAL REGISTER on August 9, 1976 (41 FR 33306 (1976)). The amendments were proposed in connection with an application by Worcester Bancorp, Inc., Worcester, Massachusetts, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843 (c)(8)) and § 225.4 of the Board's Regulation Y (12 CFR 225.4), for prior approval to engage de novo in providing management consulting advice to nonaffiliated savings banks.

By letter of March 3, 1977, to the Federal Reserve Bank of Boston, Worcester Bancorp, Inc., has withdrawn its application to engage in providing management consulting advice to nonaffiliated savings banks. In accord with its general policy, the Board, in the absence of a specific bank holding company proposal, has determined to defer further consideration of the proposed activity, and hereby suspends the rulemaking proceeding initiated on August 2, 1976.

Board of Governors of the Federal Reserve System, effective April 27, 1977.

THEODORE E. ALLISON,
Secretary of the Board.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 435]

[FRL 723-3]

ONSHORE SEGMENT OF THE OIL AND GAS EXTRACTION POINT SOURCE CATEGORY

Effluent Limitations and Guidelines for Existing Sources and Standards of Performance and Pretreatment Standards for New Sources; Extension of Time

AGENCY: Environmental Protection Agency.

ACTION: Extension of Comment Period.

SUMMARY: This action extends the deadline for the receipt of comments on the proposed rulemaking establishing effluent limitations and guidelines and new source performance standards for the onshore segment of the oil and gas extraction point source category based upon the use of best available and best demonstrated technology. The extension is for a period of thirty days from the date of publication of this notice (June 3, 1977).

EFFECTIVE DATE: March 25, 1977.

FOR FURTHER INFORMATION CONTACT:

Harold B. Coughlin, Effluent Guidelines Division (WH-552), Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460, 202-426-2560.

SUPPLEMENTARY INFORMATION: On October 13, 1976 the Agency published a notice of proposed rulemaking (41 FR 44949) establishing effluent limitations and guidelines and new source performance standards for the onshore segment of the oil and gas extraction point source category based upon the use of best available technology economically achievable and best available demonstrated technology. The due date has subsequently been extended to March 25, 1977.

Simultaneously with this notice a notice is appearing extending for thirty days the comment period for interim final regulations for the same industry based upon best practicable control technology currently available. Because of the interrelationship between these regulations and the fact that many parties are making combined comments to these regulations it seems appropriate to also extend the comment period for the proposed regulations.

Accordingly the deadline for the submission of comments is hereby extended to June 3, 1977.

Dated: April 15, 1977.

ANDREW W. BREIDENBACH,
Assistant Administrator for Water and Hazardous Materials.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 73]

[Docket No. 21210; RM-2701]

TELEVISION STATIONS IN CHILTON AND OSHKOSH, WIS.

Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed Rule.

SUMMARY: This notice proposes to assign television Channel 22 to Chilton, Wis., and to substitute Channel 68 for existing Channel 22 assignment in Oshkosh, Wis. This action was initiated by petition for rulemaking filed by Calumet County Broadcasting Company. The proposed assignment would provide the first local television broadcast service in Calumet County, Wis.

DATES: Comments must be received on or before June 6, 1977, and reply comments on or before June 27, 1977.

ADDRESS: Send comments to: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Mr. Gordon W. Godfrey, Broadcast Bureau. (202-632-9660.)

SUPPLEMENTARY INFORMATION:

Adopted: April 21, 1977.

Released: April 28, 1977.

In the matter of amendment of § 73.606(b), Table of Assignments, Television Broadcast Stations. (Chilton and Oshkosh, Wis.), Docket No. 21210, RM-2701.

1. The Commission has under consideration a petition for rule making filed by Calumet County Broadcasting Company ("Calumet"). The petition seeks admendment of § 73.606(b) of the Commission's Rules and Regulations, the Television Table of Assignments, by the assignment of Channel 22 to Chilton, Wis., and the substitution of Channel 68 for the presently unoccupied and unapplied for Channel 22 assignment in Oshkosh, Wis.

2. Chilton (pop. 3,030), seat of Calumet County (pop. 27,604), is located in east central Wisconsin, approximately 55 kilometers (35 miles) south of Green Bay. Oshkosh (pop. 53,082), seat of Winnebago County (pop. 129,946) is located about 32 kilometers (20 miles) west of Chilton.[1]

3. Petitioner indicates that Calumet County is an agricultural area, dominated by the dairy industry. Additionally, it is stated that Calumet County is one of the fastest growing industrial areas in the State of Wisconsin. Calumet expresses its desire to utilize this channel to provide a first local broadcast service in Calumet County. Petitioner indicates that it has ready access to the equipment necessary for it to operate on Channel 22, and that it would not be economically feasible for it to operate on any other channel.

4. The proposed assignment of Channel 22 to Chilton requires the deletion of the existing Channel 22 assignment in Oshkosh, Wis. Channel 68 is available for assignment to Oshkosh. With the deletion of the Channel 22 assignment in Oshkosh, the proposed assignments of Channel 22 to Chilton and Channel 68 to Oshkosh meet the Commission's separation requirements and other technical criteria. The existing Channel 22 assignment in Oshkosh is unoccupied and unapplied for. No other changes in the Television Table of Assignments are required. Canadian concurrence must be sought, however, since the proposed location at Chilton is within 250 miles of the United States-Canadian border.

5. The Commission is persuaded that a rulemaking proceeding should be instituted to obtain comments on the Calumet proposal. Therefore, we propose to consider the following revisions in the Television Table of Assignments (§ 73.606(b) of the Commission's Rules) with respect to the cities listed below:

City	Channel No.	
	Present	Proposed
Chilton, Wis.		22+
Oshkosh, Wis.	22+	68−

6. The Commission's authority to institute rulemaking proceedings, showings required, cut-off procedures, and filing requirements are contained in the Appendix below and are incorporated by reference herein.

7. Interested parties may file comments on or before June 6, 1977, and reply comments on or before June 27, 1977.

FEDERAL COMMUNICATIONS COMMISSION,
WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's rule, It is proposed to amend the Television Table of Assignments Section 73.606(b) of the Commission's rules and regulations, as set forth in this Notice of Proposed Rulemaking.

2. *Showings required.* Comments are invited on the proposal(s) discussed in this notice of proposed rulemaking. Proponents will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build the station promptly. Failure to file may lead to denial of the request.

3. *Cut-off procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420 of Commission rules.)

(b) With respect to petitions for rulemaking which conflict with the proposal(s) in this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If filed later than that, they will not be considered in connection with the decision in this docket.

4. *Comments and reply comments; service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's rules and regulations, interested parties may file comments and reply comments on or before the dates set forth in this notice of proposed rulemaking. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b), and (c) of the Commission rules.)

5. *Number of copies.* In accordance with the provisions of § 1.420 of the Commission's rules and regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public inspection of filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

ADMINISTRATOR EMERGENCY NATURAL GAS ACT OF 1977

[Docket No. E77-99]

PENNSYLVANIA GAS & WATER CO.

Emergency Order

On April 25, 1977, Pennsylvania Gas and Water Company (PG&W) filed, pursuant to Section 6 of the Emergency Natural Gas Act of 1977 (Act), Pub. L. 95-2 (91 Stat. 4 (1977)), an application to make certain emergency purchases of natural gas from Mellon Creek Operating Company (Mellon Creek). PG&W also requests permission to have this gas transported. For the reasons set forth below, I authorize the purchase and transportation requested.

By contract dated April 20, 1977, PG&W agreed to purchase approximately 3,000 Mcf per day of natural gas from Mellon Creek at the Burke No. 1 Well, the Barkley No. 1 Well and the Barkley No. 1-B Well, Mellon Field, Matagorda County, Texas. PG&W also agreed to purchase up to 1,000 Mcf per day of natural gas from each additional well which may be developed within a radius of three miles from the existing wells. The contract between PG&W and Mellon Creek is to begin on or about May 1, 1977 and terminate on July 31, 1977.

PG&W will purchase these supplies at a price of $2.25 per MMBtu inclusive of all state and local taxes and other adjustments. I find this price to be fair and equitable in accordance with Order No. 2. All other expenses prior to delivery to Florida Gas Transmission Company (Florida) including construction of field delivery facilities will be borne by Mellon Creek.

PG&W advises that a series of arrangements have been made for the transportation of the subject gas. The subject gas to be sold will be transported from the wellhead to PG&W by means of field delivery facilities to be built by Mellon Creek which connect to the interstate pipeline facilities of Florida and Transcontinental Gas Pipe Line Corporation (Transco). Florida will charge a transportation rate of $0.03 per Mcf; Transco will charge $0.494 per dekatherm. Both rates will be increased by compression fuel and line loss requirements. This rate is to be collected subject to refund pursuant to order issued in Docket No. E77-83 (April 4, 1977).

PG&W advises and I find that the gas made available by Mellon Creek will result in a commingling of interstate natural gas with Mellon Creek's normal intrastate system gas supply and with volumes of gas owned by other parties. The contractual provisions between Mellon Creek and its producers, transporters and other suppliers of gas prohibit the sale of natural gas in interstate commerce and the commingling of their intrastate pipeline system gas supplies with gas moving in interstate commerce. The sale, transportation and delivery of gas for which PG&W seeks approval may result in some commingling of interstate natural gas with Mellon Creek's normal intrastate gas supplies and with gas owned by other third parties. This order shall be considered as applying to all such commingled gas. This order also applies to the future commingling of gas purchased from those additional wells which may be developed within a three mile radius of the existing wells.

Under the provisions of section 9(b), (c) of Pub. L. 95-2 (91 Stat. 4, 9), the suppliers of such gas, which is so commingled, may not terminate existing contracts with Mellon Creek or such other parties or require a redetermination of the prices provided in such contracts by reason of this transaction. Contractual termination, prohibition or redetermination provisions in any such contracts referred to above are not enforceable by reason of Section 9 of Public Law 95-2 since Mellon Creek is selling, delivering and transporting gas for PG&W pursuant to Section 6(a) of that Act. Mellon Creek and any third person whose gas is commingled with PG&W's gas shall refer all relevant information concerning any attempt to terminate existing contracts or require a redetermination of prices to the Administrator for appropriate action.

PG&W advises that it is not serving any uses set forth in 18 CFR 2.78(a)(1)(iv)-(ix) and that the sale complies with Order No. 6. The approval of this sale is conditioned upon the submission of a sworn statement by PG&W that the subject purchase complies with Order No. 6.

PG&W shall submit weekly reports as required by Order No. 4.

Pursuant to Section 6(a) of the Act, I hereby authorize Mellon Creek to sell to PG&W up to 3,000 Mcf per day of natural gas from the three wells located in the Mellon Field Area, Matagorda County, Texas, as well as up to 1,000 Mcf per day of natural gas from each additional well which may be developed within a three mile radius of the existing wells, on the terms and conditions set forth in PG&W's filing in this proceeding. Pursuant to Section 6(c)(1) of the Act, I hereby authorize and order Florida and Transco to transport gas for PG&W. Since the parties have agreed upon the transportation charges, I find no basis for prescribing other charges.

This order is issued pursuant to the authority delegated to me by the President in Executive Order No. 11969 (February 2, 1977), and shall be served upon PG&W, Mellon Creek, Florida and Transco. This order shall also be published in the FEDERAL REGISTER.

This order and authorization granted herein are subject to the continuing authority of the Administrator under Pub. L. 95-2 and the rules and regulations which may be issued thereunder.

RICHARD L. DUNHAM,
Administrator.

APRIL 28, 1977.

[FR Doc.77-12785 Filed 5-3-77;8:45 am]

DEPARTMENT OF AGRICULTURE

Farmers Home Administration

[Designation No. A474]

SOUTH CAROLINA

Designation of Emergency Areas

The Secretary of Agriculture has determined that farming, ranching, or aquaculture operations have been substantially affected in Lexington County, South Carolina, as a result of excessive rainfall May 8 through June 30, 1976, and November 15 through December 31, 1976; drought July 5 to August 15, 1976; early frost and/or freeze October 27 through November 3, 1976; and severe cold weather November 1, 1976, through February 8, 1977.

Therefore, the Secretary has designated this area as eligible for emergency loans pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 94-68, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor James B. Edwards that such designation be made.

Applications for emergency loans must be received by this Department no later than June 20, 1977, for physical losses and January 19, 1978, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated area makes it impracticable and contrary to the public interest to give advance notice of proposed rulemaking and invite public participation.

Done at Washington, DC, this 27th day of April, 1977.

DENTON E. SPRAGUE,
Acting Administrator,
Farmers Home Administration.

[FR Doc.77-12744 Filed 5-3-77;8:45 am]

Forest Service

FINAL ENVIRONMENTAL STATEMENT COOPERATIVE SPRUCE BUDWORM SUPPRESSION; PROJECT—MAINE 1977

Availability of Final Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service has prepared a Final Environmental Statement for the 1977 Cooperative Spruce Budworm Suppression Project in Maine, USDA-FS-NA (Adm.) NA-77-01.

The Final Statement concerns a proposed cooperative aerial spray project on a maximum of 930,000 acres of state and private woodlands in Aroostook, Franklin, Piscataquis, Penobscot, Oxford, Somerset, and Washington Counties, Maine, to protect forest resources from unacceptable damage caused by the spruce budworm. Registered dosage rates of the insecticides carbaryl (Sevin 4 Oil), trichlorfon (Dylox 4), and acephate (Orthene Forest Spray) will be applied by aircraft to reduce spruce budworm larval populations and to preserve foliage. About 817,000 acres will be sprayed with carbaryl (Sevin 4 Oil), 53,000 acres with trichlorfon (Dylox 4); and 60,000 acres with acephate (Orthene Forest Spray).

This Final Statement was filed with CEQ on April 28, 1977.

Copies of the Final Environmental Statement have been sent to various Federal, State and local agencies as outlined in the CEQ guidelines.

Dated: April 27, 1977.

WENDELL M. DOTY,
Acting Area Director, Northeastern Area, State, and Private Forestry.

[FR Doc.77-12773 Filed 5-3-77;8:45 am]

SANDY BAY AND HIDDEN FALLS LAKE AQUACULTURE FACILITIES

Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, The Forest Service, Department of Agriculture, has prepared a final environmental statement for proposed acquaculture facilities at Sandy Bay and Hidden Falls Lake, Tongass National Forest, Alaska, USDA-FS-R10-FES (Adm)-77-06.

This statement was initiated by two special use permit applications to use National Forest lands for salmon hatchery building sites. Both sites are located on Baranof Island and are within inventoried roadless areas. The hatcheries are expected to contribute to the rebuilding of Southeast Alaska salmon stocks by an increase of 5 to 10 percent in the present salmon harvest.

This final environmental statement was transmitted to CEQ on April 27, 1977.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agricultural Building, Room 3231, 12th St. and Independence Ave. SW., Washington, D.C. 20250.

U.S. Forest Service, Alaska Region, Federal Office Building, Juneau, Alaska, 99802.

Forest Supervisor, Chatham Area, Tongass National Forest, Federal Building, Sitka, Alaska 99835.

Forest Supervisor, Stikine Area, Tongass National Forest, Federal Building, Petersburg, Alaska 99833.

Forest Supervisor, Ketchikan Area, Tongass National Forest, Federal Building, Room 313, Ketchikan, Alaska 99901.

A limited number of single copies are available upon request to the Forest Supervisor, Chatham Area, Tongass National Forest, P.O. Box 1980, Sitka, Alaska 99835.

Copies of the environmental statement have been sent to various Federal, State and Local agencies as outlined in the CEQ guidelines.

CARL W. SWANSON,
Environmental Coordinator, Alaska Region.

APRIL 27, 1977.

[FR Doc.77-12772 Filed 5-3-77;8:45 am]

Soil Conservation Service

BISHOP CREEK WATERSHED PROJECT, GA.

Availability of Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the remaining measures to be installed in the Bishop Creek Watershed project, Appling and Jeff Davis Counties, Georgia.

The environmental assessment of this federal action indicates that these measures will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with this portion of the project. As a result of these findings, Mr. Dwight M. Treadway, State Conservationist, Soil Conservation Service, has determined that the preparation and review of an environmental impact statement is not needed for this portion of the project.

The project contains a plan for watershed protection and flood prevention, the planned works of improvement, as described in the negative declaration include conservation land treatment and 6.3 miles of channel work located in the northwest portion of the project on the southeast side of the town of Hazlehurst, Georgia.

The negative declaration is being filed with the Council on Environmental Quality and copies are being sent to various federal, state, and local agencies. The basic data developed during the environmental assessment is on file and may be reviewed by interested parties at the Soil Conservation Service, 206 Federal Building, 355 East Hancock Avenue, Athens, Georgia 30603. A limited number of copies is available from the same address to fill single copy requests.

No administrative action on implementation of the proposal will be taken on or before May 19, 1977.

(Catalog of Federal Domestic Assistance Program No. 10.904, Watershed Protection and Flood Prevention Program, Public Law 83-566, USC 1001-1008.)

JOSEPH W. HAAS,
Assistant Administrator for Water Resources, Soil Conservation Service, Department of Agriculture.

Dated: April 22, 1977.

CIVIL AERONAUTICS BOARD

[Order 77-4-151; Docket 30692]

AIR-INDIA

Order Dismissing Complaint

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 29th day of April 1977.

Tariff revision filed by Air-India to increase level of 14/120-day excursion fare between India and the United States.

By tariff revision[1] filed on April 1, 1977 for effectiveness May 1, 1977, Air-India has proposed, pursuant to an order of the Government of India, increases in the level of its 14/120-day excursion fare between India and the United States. The tariff filing would increase roundtrip fares from $798 to $854 (New York-Bombay/Delhi), and from $835 to $894 (New York-Calcutta/Madras).

On April 5, 1977, a complaint was filed by India Travel Service, Ltd. and William Becker Travel Bureau, Inc. (the complainants) requesting the Board to reject or suspend Air-India's tariff filing. In support of their complaint, the complainants allege that Air-India has long been in violation of certain provisions of the Act by paying excessively high commissions to select agents which in turn enables these agents to sell tickets to the public at less than published tariff fares, and that Air-India has continued this practice despite an injunction issued by the Federal District Court for the Eastern District of New York which enjoined Air-India from engaging in any activities which would enable passengers to obtain air transportation at prices other than those in tariffs on file with the Board. The complainants further state that, accordingly, Air-India cannot now claim that it needs additional revenue in the form of fare increases—all it need do for increased revenues is pay reasonable commissions and stop rebating. Board allowance of the proposed increases, they maintain, would be tantamount to rewarding Air-India for the alleged violations. The complainants therefore urge the Board to adopt a policy whereby those carriers which continue to deplete their revenues by selling air transporta-

[1] Section 63 on 1st Revised Page 285 to Passenger Fares Tariffs No. 4, C.T.C.(A) 19, C.A.B. No. 22, issued by John M. Sampson, Agent.

tion at less than fares on file with the Board, or by offering high commissions to agents who then rebate to travellers, are denied all fare increases until the rebating practices cease. The complainants state that Air-India cannot hide behind an order of the Indian Government in attempting to justify a fare increase which, if unreasonable, must be rejected or suspended to protect the integrity of the Board's tariff processes. Finally, the exhibits attached to the complaint include a copy of a resolution passed by the Society of Indian Travel Agents (S.I.T.A.) which indicates concern with the possible traffic impact of the proposed increase, and a willingness to accept lower commissions in order to keep the fare at present levels.

In its answer to the complaint, Air-India supports the proposed increase by stating that the increase is economically justified by the fare's low yield of 5.38 cents per mile over even Air-India's least circuitous route (New York-London-Bombay); that the seven-percent increase contemplated is not out-of-line with recent increases in North Atlantic fares as approved by the Board;[2] and that Pan American, Air-India's principal U.S.-flag competitor, has complained on at least two occasions that the fare in question is too low.[3] Air-India maintains that it is not engaged in rebating; that its commission structure is reasonable when compared with those of other major North Atlantic carriers since the advent of open commission rates; and that, rather than doing business with agents who sell tickets at less than published fares, it has taken various actions to bring such violations to the attention of both the Board and the U.S. Attorney's office. The carrier also points out that S.I.T.A. consists of almost exclusively non-IATA agents, with whom Air-India does not do business. Additionally, Air-India construes the complaint as the personal vendetta of Mr. Gopal Raju, owner of both complainant travel agencies. Air-India notes that it commenced litigation on October 13, 1975 against Mr. Raju individually as well as the two travel agencies, after repeated unsuccessful attempts to collect substantial sums due it, and that this litigation will shortly come to trial.

In their repy,[5] the complainants state that Air-India's answer consists of nothing more than an attack on the complainants and Mr. Raju, whose business has been ruined by the complainants' refusal to issue any tickets at less than the fare on file with the Board in spite of the pressure of competitors' violations. It is also alleged that the complainants owe Air-India no money, since the amounts due are offset by amounts owed to the complainants by the carrier as a result of a ticket rebating scheme imposed on them by the carrier. The complainants further assert that Air-India has mischaracterized the membership of S.I.T.A.; that, in fact, there is a large number of appointed agents among its members and that the S.I.T.A. statement is therefore relevant to the matter. Finally, the complainants maintain that the commission rates of other carriers cited by Air-India in its answer have no bearing on the Indian market.

Upon full consideration of the petition, the response and reply thereto, and other relevant matters, the Board has decided to dismiss the complaint.

The seven-percent increase contemplated by Air-India's tariff filing is, indeed, comparable with other increases in North Atlantic fares found to be justified and recently approved by the Board. On these grounds, the increase cannot be found to be unreasonable. Nor would we expect any significant adverse impact on traffic to result from such an increase in this low level fare. The 14/120-day excursion fare is, by a substantial margin, the lowest-priced individual fare in scheduled service between India and the United States and the proposed increase comports with the Board's long-term objective of reducing the spread between full economy fares and promotional fares. Finally, we do not regard the matters raised about tariff violations and excessive agent commissions as germane to an otherwise justified fare increase. These matters will, however, be referred to the Board's Bureau of Enforcement for such action as may be appropriate.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404, and 1002 thereof,

It is ordered, That:

1. The complaint of India Travel Service, Ltd. and William Becker Travel Bureau, Inc. in Docket 30692 is hereby dismissed; and

2. The motion by India Travel Service, Ltd. and William Becker Travel Bureau, Inc. for leave to file an otherwise unauthorized document is hereby granted.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

[Docket 30565]

DEUTSCHES REISEBURO GmbH (GERMANY)

Foreign Air Carrier Permit; Hearing

Notice is hereby given, pursuant to the provisions of the Federal Aviation Act of 1958, as amended, that a hearing in the above-entitled proceeding will be held on May 26, 1977, at 9:30 a.m. (local time), in Room 1003, Hearing Room B, Universal North Building, 1875 Connecticut Ave. NW., Washington, D.C., before the undersigned.

For information concerning the issues involved and other details in this proceeding, interested persons are referred to the prehearing conference report served on April 13, 1977, and other documents which are in the docket of this proceeding on file in the Docket Section of the Civil Aeronautics Board.

Dated at Washington, D.C., April 27, 1977.

JANET D. SAXON,
Administrative Law Judge.

[Order 77-4-153; Dockets 29952, 30067, 30068]

PAN AMERICAN WORLD AIRWAYS, INC., ET AL.

Applications for Fill-Up Authority Between Domestic Coterminals on Flights Operated in Foreign or Overseas Air Transportation

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 29th day of April 1977.

Applications have been filed by Pan American World Airways, Northwest Airlines, and Braniff Airways for authority to transport persons, property, and mail in interstate air transportation between domestic points which are served on flights operated in foreign or overseas transportation. Braniff's certificate for Route 153, Northwest's certificate for Route 129, and Pan American's certificates for Routes 130, 132, and 133 currently limit the carriers' operations to either overseas and foreign, or foreign air air transportation. While Pan American's certificate for Route 136 is not so limited by the use of the words "foreign air transportation," Condition (8) of that certificate prohibits Pan American from carrying traffic which originates at any of the domestic coterminal points and terminates at another domestic coterminal point. A similar condition applies to Segment 8 of Braniff's Route 9, prohibiting the carrier from carrying any traffic other than traffic having a point of origin, destination, stopover or transit in the State of Hawaii.

Pan American also filed a motion for hearing on its application, and Braniff and Northwest filed motions to consolidate their applications for hearing and decision with Pan American's application. Many pleadings have been filed in response to the applications and motions. We have listed all pleadings in Appendix A, attached hereto, but our discussion herein will be limited to the most significant filings and arguments.

First, United Air Lines has moved to dismiss all three applications on the grounds that the applicants have not complied with the provisions of § 201.4 (c)(3) of the Board's Regulations. This section requires that each application contain "an adequate identification of each route for which a certificate is desired." United argues, therefore, that it is impossible to determine with any degree of certainty the scope of the relief, with respect to route structure, which each applicant seeks.

---

[2] Order 77-3-54, March 9, 1977.

[3] Complaints of Pan American, Docket 25300, March 9, 1973, and Docket 26976, August 21, 1974.

[4] *Air India* v. *Wm. Becker Travel Bureau, Inc., India Travel Service, Ltd. and Gopal Raju*, No. 18160/75, Supreme Court of New York, New York County.

[5] The complainants' reply was filed with a motion for leave to file an otherwise unauthorized document, which will be granted.

In moving for a hearing on its application, Pan American argues that the prohibition against carrying local "fill-up" traffic between domestic points served on international flights is an archaic, wasteful and unnecessary restriction. The International Air Transportation Policy of the United States, authored by an interagency task force and endorsed by former President Ford, and the Board's opinion in the *Detroit-Boston Nonstop Route Proceeding*, Order 76-9-168, September 30, 1976, are cited in support of this argument. The carrier also states that domestic fill-up rights would bolster the viability of its international services, permit it to provide new services to domestic coterminals, and greatly assist its efforts to return to profitability, without diverting any significant volumes of traffic from incumbent carriers in the markets involved. Finally, Pan American asserts that each day it is denied fill-up rights results in an unjustified economic penalty, an unnecessary waste of available resources, and a denial of available capacity to the traveling and shipping public.

Pan American's motion for hearing is supported by Braniff, Seaboard World Airlines, the Departments of Commerce, Justice, and Transportation, the Council on Wage and Price Stability, the Fairfax County Economic Development Authority, the Puget Sound Traffic Association, the Commonwealth of Virginia, and civic parties from the following cities: Chicago, Dallas/Ft. Worth, Miami, New York, Philadelphia, Portland, and Tampa. These answers basically reiterate arguments previously advanced by Pan American. In addition, some answers urge that the Board consider the issue of fill-up rights for all international carriers, not just for Pan American.

Answers in opposition to Pan American's motion were filed by ten air carriers (see Appendix A), many of whom make the same basic arguments. It is argued that reliance by Pan American on the *Detroit-Boston Nonstop Route Proceeding* is misplaced, since the Board's holding there was specifically limited to the facts of that case; that the Board is governed by the Federal Aviation Act, not the statement entitled International Air Transportation Policy of the United States; that Pan American has not supplied the information required in a motion for hearing under Rule 18 (a-2) of the Board's rules of practice, and that, if it had, the information would demonstrate the lack of public need for the authority requested, the pure diversion from other carriers which would result, and the exaggeration of the alleged economies which would accrue to Pan American since it operates few flights between domestic points. It is also asserted that the processing of Pan American's application would be extremely time-consuming, requiring a substantial commitment of the Board's resources, out of proportion to the benefits which would result.

Pan American filed a consolidated reply to the opposing answers, and Braniff and Northwest responded to the reply, disputing Pan American's assertion that the *Ashbacker* doctrine does not compel consolidation of the applications of Braniff and Northwest with that of Pan American.[1]

After carefully considering the arguments in all pleadings received on the subject of "fill-up" rights, we have concluded that it would be inappropriate to institute a proceeding to consider blanket "fill-up" authority. Rather, we will examine, on an individual basis, the markets in which such authority is requested. For now, we propose, through show-cause procedures, to grant "fill-up" rights to Braniff in the New York-Washington, San Francisco-Los Angeles, and Houston-New Orleans markets, to Northwest in the San Francisco-Los Angeles market, and to Pan American in the New York-Washington/Baltimore, New York-Philadelphia, Miami-Tampa, San Francisco-Los Angeles, and Seattle-Portland markets.

As a threshold matter, we agree with United that, technically the applications of Braniff, Northwest, and Pan American may not satisfy the requirements of § 201.4(c)(3) of the Board's regulations. More important, however, are the deficiencies in Pan American's motion for hearing, as pointed out by several carriers. Rule 18(a-2) of the Board's rules of practice requires that motions for hearing include "at least the following economic and operating data on an annual basis: (i) Present and proposed scheduled by type of aircraft; (ii) Number of departures, plane-miles, passengers and passenger-miles; (iii) Estimate of self-diversion or diversion from other carriers, if applicable; (iv) Anticipated operating revenues; and (v) Estimate of impact of proposal on operating expenses * * *." Despite Pan American's assertions that the unique character of its application makes it impossible to comply with Rule 18(a-2) it is apparent that the carrier could have complied with those requirements at least with respect to the domestic flight sectors it already operates. Moreover, there is no justification for making assertions that "fill-up" authority would have no meaningful impact on other carriers without undertaking any analysis directed to that issue. Because of the important policy questions raised by the "fill-up" application, however, we will deal with the issue on a substantive basis rather than dismiss the applications or deny the motion for hearing on procedural grounds.

In order to understand our disposition of the three applications for "fill-up" authority, it is necessary to review the nature of the "restrictions" against carrying fill-up traffic. We use the latter quotation marks because the relevant prohibitions against carrying domestic traffic did not result from affirmative restrictions imposed by the Board to protect incumbent carriers or to preclude certain issues from being considered in a proceeding, as is generally the case when restrictions are imposed. Rather, domestic coterminals were added to certificates authorizing foreign air transportation in order to afford carriers the flexibility to provide alternate direct services. Some domestic coterminals have been combined on the same flights, however, so that Pan American, Braniff, and Northwest now argue that "fill-up" authority is needed to afford these carriers necessary flexibility.

Even more important to an understanding of the "fill-up" question is the fact that, contrary to the statements made by Pan American and the Department of Justice, the lack of "fill-up" authority does not force U.S.-flag carriers to operate domestic flight sectors which are uneconomic and under-utilized. Instead of operating international flights which serve more than one domestic point, the U.S.-flag carriers are free to operate nonstop international service from each domestic point.[2] The ability to combine these domestic points on one flight already provides enormous flexibility to the U.S.-flag carriers. (Note that the service obligations of a particular carrier would be satisfied even if all coterminals on one segment were served on the same flight.) Thus, to speak in terms of "restrictions" with respect to the operations of U.S.-flag carriers between domestic points clearly ignores the true nature of their authority.

We recognize that "fill-up" authority would provide U.S.-flag carriers with additional revenues. We also recognize that such domestic rights could result in harmful diversion from other carriers in some markets.

Moreover, we do not agree with Pan American that the proceeding it requests would not be complicated and time-consuming. With the already crowded condition of the Board's hearing program, we cannot afford to devote such a substantial amount of resources to a proceeding aimed primarily at benefitting one carrier. These drawbacks, along with the fact that no carrier has demonstrated any need for "fill-up" authority in domestic markets where flights are not currently scheduled, lead us to reject, at the outset, any consideration of blanket "fill-up" rights.

Looking, then, only at the domestic flights currently operated by the three applicant carriers, we will also defer any consideration of "fill-up" authority in markets where the sole operation consists of all-cargo service. The value of nonstop or one-stop service in all-cargo operations is considerably less than with passenger flights, and no showing has been made that the existing domestic all-cargo flight sectors having low load factors and not be restructured to include more domestic stops and thus improve

[1] In the interest of receiving complete information on the important question of fill-up authority, we will grant the motions for leave to file otherwise unauthorized documents of all three carriers.

[2] Although New York and Boston on Pan American's Route 133 are not coterminals but are terminal and intermediate points, respectively, this discussion also applies with respect to them.

operating results. If any urgent need for "fill-up" rights exists, we believe it is limited to the area of passenger operations. Moreover, Pan American, in particular, operates all-cargo service over several domestic flight segments where no passenger flights are scheduled. "Fill-up" rights not limited to cargo operations in such markets could encourage Pan American to institute new service unrelated to the needs of its international cargo traffic, but designed primarily for the purpose of carrying domestic traffic.

Because we believe our consideration herein of "fill-up" rights should be limited to markets where a need by the carrier has at least arguably been demonstrated, at this time we will consider only those markets in which the applicants have provided service for a sustained period of time. While we are not foreclosing consideration of "fill-up" authority for domestic flight sectors over which service may be instituted in the future, we caution the carriers that the Board will consider such authority only upon the assurance that the affected flights are operated primarily to serve the needs of international traffic.[5]

After eliminating certain markets, as discussed above, in which "fill-up" authority is sought, we are left with the following for our consideration at this time:

Pan American: Los Angeles-San Francisco; Seattle-San Francisco; Seattle-Portland; Miami-Tampa; New York-Washington/Baltimore; New York-Philadelphia.

Braniff: Los Angeles-San Francisco; Houston-New Orleans; Washington-Miami; New York-Miami; New York-Washington.

Northwest: Los Angeles-San Francisco; Chicago-Washington.

[5] We note that, while Pan American currently operates over the New York-San Francisco domestic sector, this market is under consideration in connection with another proceeding (Transcontinental Low-Fare Route Proceeding, Docket 30356) and, therefore, has not been considered herein.

A total of ten different markets are included in the above list. In six of these markets (New York-Washington/Baltimore, New York-Philadelphia, Houston-New Orleans, San Francisco-Los Angeles, Seattle-Portland and Miami-Tampa), we have tentatively concluded that the grant of "fill-up" authority cannot justifiably be challenged.[6] Pan American, Northwest, and Braniff currently operate the following round trip service over these domestic flight segments,[7] and their 1975 seat factors were as shown:

[6] We have not included Newark as a hyphenated point with New York because we are not aware of any Newark operations by Pan American or Braniff in connection with international flights. However, Pan American has operated in the New York-Baltimore market within the last 3 years, so we have included Baltimore for Pan American.

[7] May 1977, O.A.G., International Edition for all but MIA-TPA, for which the North American Edition was used.

Market	Pan American					Braniff			Northwest
	SFO-LAX	NY-WAS	NY-PHL	SEA-PDX	MIA-TPA	NY-WAS	SFO-LAX	IAH-MSY	SFO-LAX
Service (round trips)	13/week	12/week	3/week	1/d	1/d	2½/week	5/week	1/week	1/d.
1975 seat factor (percent)	14.6	25	10.9	17.8	32.8	19.5	17.41	24.4	8.13.

Moreover, there are numerous carriers providing substantial nonstop service in all six of these markets (May 1, 1977, O.A.G., North American Edition):

Market	NY-WAS/BAL	NY-PHL	SEA-PDX	MIA-TPA	IAH-MSY	LAX-SFO
Number of nonstop carriers	11	7	7	7	5	7
Daily nonstop round trips	65	21	33	16	19	92
1975 true O. & D. plus interline connecting	1,974,420	118,730	306,110	234,390	368,220	[1] 1,070,290

[1] This figure does not include traffic carried by the 2 intrastate carriers operating in the market.

We tentatively conclude that these facts require the same findings with respect to these markets as were made in the *Detroit-Boston Nonstop Route Proceeding*, i.e., that Pan American, Northwest, and Braniff are presently operating with a high percentage of their capacity unfilled over these flight sectors, and that the grant of "fill-up" authority will benefit the carriers and the public without imposing any substantial burden on the incumbents. These are short-haul markets receiving extensive service by a number of carriers, and it is evident that any operations by Pan American, Northwest, or Braniff would not be provided for the purpose of carrying local traffic.[8] The amount of diversion from other carriers as a result of "fill-up" rights is therefore likely to be small.

Consequently, we tentatively conclude that the public convenience and necessity require that Braniff, in the New York-Washington, San Francisco-Los Angeles, and Houston-New Orleans markets, Northwest, in the San Francisco-Los Angeles market, and Pan American, in the New York-Washington/Baltimore, New York-Philadelphia, Seattle-Portland, San Francisco-Los Angeles, and Miami-Tampa markets, be authorized to transport persons, property, and mail in interstate air transportation on flights operated to overseas or foreign points pursuant to currently effective certificates.[9]

With respect to the remaining four presently-operated markets set forth above (Seattle-San Francisco, Washington-Miami, New York-Miami, and Chicago-Washington), we do not have sufficient information available to us, at this time to justify proposing "fill-up" rights by show-cause procedures. We will be receptive, however, to requests for further show-cause orders or, if necessary, evidentiary hearings, to consider "fill-up" authority in specific markets or groups of markets upon a reasonable prima facie showing of a specific need for the strengthening of international services in situations where such strengthening can be achieved without serious injury to other carriers. Since we may conclude that evidentiary hearings are required, the carriers should also indicate which flight sectors should be considered first, and over which flight sectors "fill-up" authority would be of greatest benefit to them.[8] Despite our willingness to give further consideration to "fill-up" rights in specific markets upon appropriate motions for hearing or show-cause procedures as indicated above, as a matter of administrative convenience we are

[8] This is particularly true with respect to the New York-Washington and New York-Philadelphia markets, since Braniff's and Pan American's New York services are operated at Kennedy Airport and the Washington services at Dulles Airport. The amount of local traffic which will be diverted by such services will undoubtedly be very small. In the San Francisco-Los Angeles market, where the turnaround services of the intrastate carriers dominate and local fares are exceptionally low, it is doubtful that "fill-up" rights for international carriers will have any significant impact on the state of competition in the local market.

[9] We further find that Braniff, Northwest, and Pan American are citizens of the United States within the meaning of the Act, and are fit, willing, and able to properly perform the transportation proposed herein and to conform to the provisions of the Act and the Board's rules, regulations, and requirements thereunder.

[8] We recognize that some of these domestic sectors, as well as some of those we are handling through show-cause procedures, occur on more than one of Pan American's certificates, while the carrier may not operate the particular sector over each such certificate. As a result, it may or may not be appropriate to restrict the carriage of "fill-up" traffic to those flights operated pursuant to certificates currently used by Pan American to operate such domestic flight sectors. While we are expressing no view on such restrictions at this time, we would expect Pan American to address this issue in any motion for hearing it may file pursuant to this order. We have tentatively concluded that no such restrictions should be imposed with respect to the flight sectors handled herein through show-cause procedures since we do not anticipate any major impact on other carriers from the award of "fill-up" rights in those markets.

dismissing the applications of Pan American, Northwest, and Braniff to the extent they are not dealt with through the show-cause procedures employed herein.

We are directing Braniff, Northwest, and Pan American to file environmental evaluations with respect to the routes proposed herein to be handled by show-cause procedures. We recognize that the carriers are already conducting operations in these markets, and that no changes in the current operations may be proposed. If that is the case, the carriers need only respond to the requests contained in § 312.12(c) of the Board's Regulations and specify any such requests which are inapplicable. It is possible, however, that an increase in operations, change of aircraft, or modification of flight times will be contemplated, and therefore we do not consider a waiver of the requirements of Part 312 to be appropriate. Braniff, Northwest, and Pan American will be given 30 days following service of this order to file their environmental submissions.

Finally, on January 25, 1977, the Department of Justice (DOJ) filed a motion to consolidate Pan American's application for "fill-up" authority with the *Transatlantic Route Proceeding*, Docket 25908. The major portion of DOJ's motion is devoted to arguments for granting "fill-up" authority to Pan American. Relevant to the consolidation issue, however, DOJ argues that the *Transatlantic Route Proceeding* focuses on U.S. domestic and international route structure and the economic viability of U.S. international carriers, and that Pan American's "fill-up" application is merely a specialized issue within the framework of that investigation. DOJ also states that "fill-up" authority is expressly favored in the statement entitled International Air Transportation Policy of the United States, which was referred to as a guideline for the Board when the Board's Transatlantic decision was returned by the President. Finally, with no supporting explanation, DOJ asserts that the ends of justice can only be served by considering Pan American's interests in the context of the *Transatlantic Route Proceeding*, and that such consideration would not unduly delay that proceeding. The motion is opposed by American, Delta, Flying Tiger, Northwest Pan American, TWA, and United and conditionally supported by Seaboard. Braniff takes no position either for or against the motion, asking only that the question of "fill-up" rights be resolved expeditiously.

DOJ's motion must be denied. We see no necessary connection between the question of "fill-up" authority and the issues in the *Transatlantic* case. Significantly, not one of the three applicants for "fill-up" rights supports DOJ's motion. Moreover, we disagree with those arguments which require the assumption that Pan American's needs should be considered to the exclusion of all other carriers seeking similar domestic authority.

Interested persons will be given 60 days following adoption of this order to show cause why the tentative findings and conclusions set forth herein should not be made final. We expect such persons to direct their objections, if any, to specific markets, and to support such objections with detailed economic analysis. If an evidentiary hearing is requested, the objector should state, in detail, why such a hearing is necessary and what relevant and material facts he would expect to establish through such a hearing that cannot be established in written pleadings. General, vague, or unsupported objections will not be entertained.

During the same period prescribed above, we will expect Braniff, Northwest, and Pan American to file with the Board an estimate, with supporting data, of the annual gross transport revenue increase for the first full year of operations to result from the award proposed herein. This data is necessary for the purpose of computing the license fee pursuant to § 389.24(a)(2) of the Board's regulations.

Accordingly, *it is ordered*, That:

1. All interested persons be and they hereby are directed to show cause why the Board should not issue an order making final the tentative findings and conclusions stated herein and authorizing Braniff Airways, Inc., in the New York-Washington, San Francisco-Los Angeles, and Houston-New Orleans markets, Northwest Airlines, Inc., in the San Francisco-Los Angeles market, and Pan American World Airways, Inc., in the New York-Washington/Baltimore, New York - Philadelphia, Seattle - Portland, San Francisco-Los Angeles, and Miami-Tampa markets to transport persons, property, and mail in interstate air transportation on flights operated in foreign and/or overseas air transportation pursuant to currently effective certificates;

2. Any interested persons having objection to the issuance of an order making final the proposed findings, conclusions, and certificate amendments set forth herein shall, within 60 days after the date of adoption of this order, file with the Board and serve upon all persons listed in Appendix A attached hereto, a statement of objections together with a summary of testimony, statistical data, and such evidence as is expected to be relied upon to support the stated objections; answers may be filed 21 days thereafter;

3. If timely and properly supported objections are filed, full consideration will be accorded the matters or issues raised by the objections before further action is taken by the Board; [9]

4. In the event no objections are filed, all further procedural steps will be deemed to have been waived, and the case will be submitted to the Board for final action;

5. The applications of Braniff Airways, Inc., in Docket 30068, Northwest Airlines, Inc., in Docket 30067, and Pan American World Airways, Inc., in Docket 29952, to the extent not discussed in paragraph 1 above, be and they hereby are dismissed; [10]

6. The motions of Pan American World Airways, Inc., Braniff Airways, Inc., and Northwest Airlines, Inc., for leave to file otherwise unauthorized documents be and they hereby are granted;

7. The petition of the Fairfax County Economic Development Authority for leave to intervene in Docket 29952 and the petitions of Hughes Airwest for leave to intervene in Dockets 29952, 30067, and 30068 be and they hereby are dismissed as moot; [11]

8. The motions of United Air Lines, Inc., to dismiss the applications in Dockets 29952, 30067, and 30068 be and they hereby are denied;

9. To the extent not considered in paragraph 1 above, the motion of Pan American World Airways, Inc., for hearing on its application in Docket 29952 be and it hereby is denied;

10. The motions of Braniff Airways, Inc., and Northwest Airlines, Inc., to consolidate their applications in Dockets 30068 and 30067, respectively, with the application in Docket 29952, to the extent not granted in paragraph 1 above, be and they hereby are dismissed as moot;

11. The motion of the Department of Justice to consolidate the application in Docket 29952 with the *Transatlantic Route Proceeding*, Docket 25908, be and it hereby is denied;

12. Braniff Airways, Inc., Northwest Airlines, Inc., and Pan American World Airways, Inc., be and they hereby are directed to file environmental evaluations and estimates of gross transport revenue increases in accordance with this order within 30 days of the date of service of this order; and

13. A copy of this order shall be served upon all persons listed in Appendix A attached hereto as well as all other certificated air carriers.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

APPENDIX A

DOCKET 29952—APPLICATION OF PAN AMERICAN WORLD AIRWAYS

Motion of United Air Lines to dismiss.
Motion of Pan American World Airways for hearing.
Answers in support: Braniff Airways; Seaboard World Airlines; Council on Wage and

[9] All motions and/or petitions for reconsideration shall be filed within the period allowed for filing objections and no further motions, requests, or petitions for reconsideration of this order will be entertained.

[10] However, we are not dismissing that portion of Pan American's application that seeks "fill-up" authority in the New York-Dallas/Ft. Worth market. That aspect of the carrier's application will be dealt with in an order that will be issued shortly.

[11] Although we are dismissing their petitions for leave to intervene since we are not instituting an evidentiary proceeding, Fairfax and Airwest will, of course, be entitled to respond to this show-cause order.

Price Stability; United States Department of Commerce; United States Department of Justice; United States Department of Transportation; City of Dallas, City of Fort Worth, Dallas Chamber of Commerce, Fort Worth Area Chamber of Commerce, North Texas Commission; Fairfax County Economic Development Authority; Greater Miami Traffic Association; City of Philadelphia and the Greater Philadelphia Chamber of Commerce; City of Portland, Portland Chamber of Commerce, Portland Freight Traffic Association, Port of Portland; Tampa Bay Area Parties; and Commonwealth of Virginia.

[Docket No. 27573; Agreement CAB 26550; Order 77-4-136]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Specific Commodity Rates

Issued under delegated authority April 27, 1977.

An agreement has been filed with the Board pursuant to section 412 (a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations between various air carriers, foreign air carriers, and other carriers, embodied in the resolutions of Traffic Conference 3 of the International Air Transport Association (IATA). The agreement was adopted at the 17th Meeting of the TC3 Specific Commodity Rates Board held in Geneva on March 7, 1977.

The agreement would add and cancel certain specific commodity rates to/from Guam as well as make various changes to specific commodity descriptions as shown in the Attachment and establish specific commodity rates for several items to apply between various world markets outside of air transportation. We will approve the new rates to/from Guam and the descriptions which have general application within air transportation as defined by the Act but will disclaim jurisdiction with respect to the new rates which involve points solely outside of air transportation.

Pursuant to authority duly delegated by the Board in the Board's Regulations, 14 CFR 385.14:

1. It is not found that the specific commodity rates listed in the Attachment, as well as the new specific commodity descriptions incorporated in Agreement CAB 26550, which have general application in air transportation as defined by the Act, are adverse to the public interest or in violation of the Act.

2. It is not found that the specific commodity rates incorporated in Agreement CAB 26550 which involve transportation solely between foreign points affect air transportation within the meaning of the Act.

Accordingly, it is ordered, That: 1. Those portions of Agreement CAB 26550 set forth in the Attachment which have general application in air transportation as defined by the Act, be and hereby are approved, provided that (a) approval shall not constitute approval of the specific commodity descriptions contained therein for purposes of tariff publications; (b) tariff filings shall be marked to become effective on not less than 30 days' notice from the date of filing; and (c) where a specific commodity rate is published for a specified minimum weight at a level lower than the general commodity rate applicable for such weight, and where a general commodity rate is published for a greater minimum weight at a level lower than such specific commodity rate, the specific commodity rate shall be extended to all such greater minimum weights at the applicable general commodity rate level; and

2. Jurisdiction be and hereby is disclaimed with respect to that portion of Agreement CAB 26550 described in finding paragraph 2 above.

Persons entitled to petition the Board for review of this order, pursuant to the Board's Regulations, 14 CFR 385.50, may file such petitions within ten days after the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period, unless within such period a petition for review thereof is filed or the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.

PHYLLIS T. KAYLOR,
Secretary.

[Docket No. 27573; Agreement C.A.B. 26558; Order 77-4-135]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Relating to Specific Commodity Rates

Issued under delegated authority April 27, 1977.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations between various air carriers, foreign air carriers and other carriers, embodied in the resolutions of the Joint Traffic Conferences of the International Air Transport Association (IATA). The agreement was adopted at the 23d meeting of the Joint Specific Commodity Rates Board held in Geneva, Switzerland, on March 8–11, 1977, has been assigned the above C.A.B. agreement number.

With respect to air transportation as defined by the Act, the agreement proposes revisions to the specific commodity rates structures applicable on the North Atlantic, North/Central Pacific, and South Pacific market areas. These revisions are outlined in the attachments hereto, and reflect reductions from otherwise applicable general cargo rates.

Pursuant to authority duly delegated by the Board in the Board's Regulations, 14 CFR 385.14, it is not found that the subject agreement is adverse to the public interest or in violation of the Act: *Provided*, That approval is subject to the conditions hereinafter ordered.

Accordingly, it is ordered, That:

Agreement 26558 is approved: *Provided*, That: (a) Approval shall not constitute approval of the specific commodity descriptions contained therein for purposes of tariff publications; (b) tariff filings shall be marked to become effective on not less than 30 days' notice from the date of filing; and (c) where a specific commodity rate is published for a specified minimum weight at a level lower than the general commodity rate applicable for such weight, and where a general commodity rate is published for a greater minimum weight at a level lower than such specific commodity rate, the specific commodity rate shall be extended to all such greater minimum weights at the applicable general commodity rate level.

Persons entitled to petition the Board for review of this order, pursuant to the Board's regulations, 14 CFR 385.50, may file such petitions within ten days after the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board unless within such period a petition for review is filed or the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.

PHYLLIS T. KAYLOR,
Secretary.

DEPARTMENT OF COMMERCE

Domestic and International Business Administration

EMORY UNIVERSITY

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6 (c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR Part 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 77-00063. Applicant: Emory University, Chemistry Department, 1515 Pierce Ave., Atlanta, Ga. 30322. Article: NMR Coherent Pulse Spectrometer, CPS-2 Manufacturer: Spin Lock Ltd., Canada. Intended use of article: The article is intended to be used to measure water proton relaxation times (T_1, $T_{1\rho}$, and T_2) of suspensions of red and white blood cells for the purpose of more fully characterizing disease processes in blood (particularly sickle cell anemia, hereditary spherocytosis, leukemia and drug resistant cell lines). Measurements of water proton exchange across the membranes of blood cells can be made by utilizing these relaxation parameters.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, was being manufactured in the United States at the time the foreign article was ordered (October 25, 1976.

Reasons: The foreign article provides the capability to measure the parameter $T_1^{r3\omega}$ (T_1 in the rotating frame). The Department of Health, Education, and Welfare (HEW) advises in its memorandum dated March 22, 1977 that (1) the capability described above is pertinent to the purposes for which the article is intended to be used and (2) it knows of no domestic instrument of equivalent scientific value to the foreign article for the applicant's intended purposes which was available at the time the foreign article was ordered.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which was being manufactured in the United States at the time the article was ordered.

GEORGIA INSTITUTE OF TECHNOLOGY

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR Part 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 77-00051. Applicant: Georgia Institute of Technology, 225 North Avenue, NW., Atlanta, Georgia 30332. Article: One (1) each Solar Pilot Plant. Manufacturer: Societa Generale Electro Ansaldo Meccanica SPA, Italy. Intended use of article: The article is intended to be used for studies of direct solar radiation as an energy source. Experiments to be conducted are expected to include steam generation, heliostat characterization, air cycle demonstration, sodium loop application helium cycles, oil cooling, etc. Additional research areas applicable to this facility include thermal storage, high temperature metals, coatings and ceramic technology, etc. The primary objectives of investigation are in the general class of the advancement of technology in central receiver solar energy systems and high temperature materials behavior.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article provides a direct solar radiation energy source capable of generating superheated steam. The National Bureau of Standards (NBS) advises in its memorandum dated April 7, 1977 that (1) the specification of the article described above is pertinent to the applicant's intended purposes and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign article for the applicant's intended use.

(Catalog of Federal Domestic Assistance Program No. 11.105, Importation of Duty-Free Educational and Scientific Materials)

NATIONAL INSTITUTES OF HEALTH, BETHESDA

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6 (c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR Part 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 77-00096. Applicant: National Institutes of Health, National Eye Institute, Bldg. 6, Rm. 213, 9000 Rockville Pike, Bethesda, MD 20014. Article: Ultramicrotome, Model LKB 8800A and accessories. Manufacturer: LKB-Produkter AB, Sweden. Intended use of article: The article is intended to be used for studies of eye tissues of the human in both normal and pathological conditions. The experiments on the visual system under way include: (1) Fine structural study of the photosensitive lamellar membranes of the photoreceptor cells following light exposure in various conditions; (2) phagocytic activity of the pigment epthelium of the retina; (3) fine structural study of the retina and cornea of vitamin A deficient animals; (4) cytologic study of the cataractous lenses; and (5) experimentelly induced eye diseases in animals. The objectives of the research are to further basic knowledge on cell and tissue ultrastructure and to elu-

cidate pathogenesis of various eye diseases of the human.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign article provides a cutting speed range of 0.1 to 20 millimeters/second (mm/sec) and unlimited specimen orientation. The most closely comparable domestic instrument is the Model MT-2B ultramicrotome manufactured by Ivan Sorvall, Inc. (Sorvall). The Sorvall Model MT-2B ultramicrotome has a cutting speed range of 0.09 to 3.2 mm/sec. The National Bureau of Standards (NBS) advises in its memorandum of April 7, 1977 that cutting speeds in the excess of 4mm/sec. are pertinent to the applicant's research studies.

We, therefore, find that the Model MT-2B ultramicrotome is not of equivalent scientific value to the foreign article for such purposes as this article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

PURDUE UNIVERSITY

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR Part 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 77-00052. Applicant: Purdue University, ADMS Building, West Lafayette, Ind. 47907. Article: Ion Production and Delivery System, Model 30kv. Manufacturer: Danfysik A/S, Denmark. Intended use of article: The article is intended to be used in the preparation of surfaces, for use as potential catalytic analogues by deposition of ionic species on or very near the surface (e.g., 1-3 atomic layers) of catalyst support materials (e.g., silica or aluminium). The experiments will involve the production of ion beams of platinum, palladium, iridium and similar materials from Group VIII elements in the Periodic Table. Other experiments will deal with ion/surface interactions.

Specifically, the experiments will deal with (a) changes in oxidation state caused by ion interactions with surface species; (b) compositional changes caused by differential sputtering; and (c) interactions between ions and the lattice materials. Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: This application is a resubmission of Docket Number 76-00395 which was denied without prejudice to resubmission on September 1, 1976 for informational deficiencies. The foreign article provides (1) a dispersion of 5.6 millimeters at mass 100 for an ion of four kiloelectron volts (kev), (2) a sensitivity of 100 microamperes (μa) for argon, and 30 μa for gold, (3) an Ion source capable of operation to 1700 degrees centigrade, and (4) variable ion energy from 3 to 30 keV. The National Bureau of Standards (NBS) advises in its memorandum dated April 12, 1977 that (1) the specifications of the article described above are pertinent to the applicant's intended use and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign article for the applicant's intended purposes.

(Catalog of Federal Domestic Assistance Program No. 11.105, Importation of Duty-Free Educational and Scientific Materials.)

VANDERBILT UNIVERSITY

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR Part 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230

Docket Number: 77-00062. Applicant: Vanderbilt University, Department of Molecular Biology, P.O. Box 1820, Station B, Nashville, Tennessee. Article: High Vacuum Freeze Etch Unit. Manufacturer: Balzers Liechtenstein, Germany. Intended use of article: the article is intended to be used for fundamental studies on membrane arrangement by reconstituting membrane in the test tube with different proteins and lipids and looking at the freeze-fracture ultrastructures, arrangements, and density of particles in fracture faces and on freeze-etch surface. A variety of biological membranes will be studied especially from liver and muscle spermatozoans and protozoans. The article will also be used in the following courses: Molecular Biology 390, Molecular Biology 369, and Molecular Biology Ph.D. Dissertation Research.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign article is capable of yielding the best special resolution through prompt metal shadowing of the specimen's fracture with an electron beam. The article also provides temperature control of the knife (approximately 180 degrees centigrade (°C) with hot air heating when necessary) and a specimen temperature control to ±0.1° C based on the temperature controls of the specimen table. The Department of Health, Education, and Welfare (HEW) advises in its memorandum dated March 22, 1977 that the characteristics of the article described above are pertinent to the applicant's intended uses. HEW also advises that domestic instruments do not provide the pertinent features of the article.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

(Catalog of Federal Domestic Assistance Program No. 11.105, Importation of duty-free Educational and Scientific Materials.)

VANDERBILT UNIVERSITY

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR Part 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of

Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 77-00053. Applicant: Vanderbilt University, Department of Molecular Biology, P.O. Box 1820, Station B, Nashville, Tennessee 37235. Article: Rapid Pressure Filtration Apparatus with automtic electronic timing device: mechanical component and electrical component. Manufacturer: Werkstatt fur Feinmechanik und Elektronik, West Germany. Intended use of article: The article is intended to be used for rapid filtration (time in seconds) so that kinetic studies can be carried out for enzyme reactions and for biological transport studies.

The objectives of the experiments are to define the mechanism of active transport in natural biological membranes and to learn how to make membranes in the test tube with similar and new properties. The article will also be used to teach students to carry out research in molecular biology in the courses, Molecular Biology 390 (Special Topics and Advanced Techniques) and 399 (Ph. D. Dissertation Research).

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The Department of Health, Education, and Welfare (HEW) advises in its memorandum dated March 21, 1977 that the article is capable of measuring the kinetics of radioactive calcium uptake. HEW further advises that (1) this capability is pertinent to the applicant's intended use and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign article for the applicant's intended purposes.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

TAKING AND IMPORTING OF MARINE MAMMALS

Methodology for Monitoring Porpoise Mortality Quotas

AGENCY: National Marine Fisheries Service, Commerce.

ACTION: Final Notice.

SUMMARY: Adoption of revision to the methodology published at 41 FR 43726.

EFFECTIVE DATE: Immediate.

FOR FURTHER INFORMATION CONTACT:

W. P. Jensen, 202-634-7461.

SUPPLEMENTARY INFORMATION: On March 11, 1977, the National Marine Fisheries Service published in the FEDERAL REGISTER (42 FR 13574) proposed revisions to the methodology by which NMFS will determine the date for prohibiting encircling certain species/stocks of porpoises with purse seines if this becomes necessary to comply with quota limits. Comments were received from one

respondent regarding the proposed revisions which suggested several minor changes or modifications. After due consideration, the methodology has been modified where necessary and is hereby adopted by the National Marine Fisheries Service.

METHODOLOGY FOR ESTIMATION OF PORPOISE MORTALITY AND PROJECTION OF THE DATE WHEN PORPOISE STOCK QUOTAS WILL BE REACHED

1. Definitions.—The following definitions are for terminology used in the methodology.

Area Under Consideration.—The estimate is to be based on porpoise kill by stock in the course of tuna fishing only in the area bounded by 40° N latitude, 40° Slatitude, 160° W longitude and the coastline of the North and South American continents.

Days at Sea.—Days at sea are defined as the sum of the day of departure (or January 1 if departure occurred prior to that date), day of return and days in between, minus any days spent in foreign ports due to seizure by a foreign country. In the case of a vessel that is forced to spend time in a foreign port, the day the vessel was brought into port and the day that it left are counted as days at sea.

Vessel Trips.—A vessel trip is a trip by a U.S. flag purse seiner carrying a holder of a valid Certificate of Inclusion which at any time during the trip transverses the area under consideration.

Open Trip.—(1) Open season trip: A U.S. vessel is on an open season trip if it departs prior to the closure of the open season as defined by the IATTC; (2) Last free trip: A U.S. vessel is on a last free trip if it was in port prior to the closure of the open season and left port within 30 days of closure.

Regulated Trip.—(1) Regulated inside trip: A U.S. vessel is on a regulated inside trip if it is fishing inside the IATTC regulatory area (CYRA) after the closure of the open season and does not qualify for a last free trip; (2) Regulated outside trip: A U.S. vessel is on a regulated outside trip if it is fishing west of the CYRA after the closure of the open season.

Week.—A week starts on or after Monday and extends through the following Sunday.

II. Data Sources.—Data on number of trips and days at sea for the U.S. purse-seine fleet will be compiled from the records maintained by the Southwest Regional Office of the National Marine Fisheries Service.

Data on porpoise kill-per-day-at-sea will be obtained from NMFS observer reports for completed trips. Data from trips at sea will be obtained through radio reporting from vessels with observers abroad.

Porpoises of "unknown" status will be prorated on a species basis to the categories of live, dead, and injured based on the proportions of these categories among animals of known status for completed trips in 1977. For trips still at sea in 1977, only data involving known dead will be obtained by radio. A proration factor will be determined by the ratio-of-averages method from data of completed trips in 1977 and applied to data from trips at sea in 1977.

III. Allocation of the Observed Vessels.—The observer program for the 1977 yellowfin tuna fishing season requires each of the vessels (400 tons carrying capacity or greater built after 1960) to carry an observer on at least one trip. Observers will be placed less frequently abroad all other vessels. The allocation of the number of observed vessels on a monthly basis was determined based on the distribution of vessel trips and the variation of the kill through the year 1976. For each month, a predetermined number of vessels will be randomly selected from the vessels in port. A minimum of 130 observer trips are planned beginning when fishing for yellowfin tuna associated with porpoise commences under the 1977 permit.

The allocation by month may be modified as the season progresses, depending on the seasonal distribution of the fishing effort.

IV. Statistical Methodology.—The statistical methodology is used to estimate the porpoise mortality by stock on a real-time basis. The 1977 regulations require purse seiners to be equipped with 1¼" mesh porpoise safety panels. Because not all the vessels will receive the 1¼" mesh webbing in time, some vessels will still use the conventional (2" mesh) gear. The vessels with fine mesh systems are expected to have lower kill rates. Thus the whole fleet will be classified into vessels with conventional gear and fine mesh gear. In each of these two gear categories, each of the vessels will be classified in one of the vessel classes: Class I: vessels with capacity ≤400 tons, Class II: vessels with carrying capacity >400 tons built before 1961, and Class III: vessels with carrying capacity >400 tons built after 1960. The porpoise mortality rate for each of the vessel classes is different. The kill contributed by Class I has decreased from 26% in 1972 to 0.03% in 1976 of the total bill. Class II vessels are more variable with 28% in 1975 and 0.97% in 1976. Class III contributed about 99% of the total mortality in 1976.

In addition, the Class III vessel trips will be stratified according to the time of fishing and the locality of fishing (i.e., inside or outside the CYRA).

Trip 1: The trips with days at sea on or after January 1 through the end of the week containing the closure date set by IATTC.

Trip 2: The trips with days at sea on or after the first week following Trip 1 through approximately July 3.

Trip 3: Trips with days at sea on or after approximately July 4 through the rest of the year.

Within each trip type, the Class III vessels will be further stratified as open trips or regulated trips (Table 1).

Table 1

The layout of the strata for vessel trips (within gear category) for 1977

Trip 1	Trip 2	Trip 3
Jan. 1 through the end of week containing the closure date by IATTC	The first week following Trip 1 to approximately July 3rd*	From July 4th* to approximately December 31
Class I (1)		
Class II (2)		
Class III		
Open (3)	Open (4) / Regulated (5)	Open (6) / Regulated (7)

( ): Stratum Number

* Historical division date between open and regulated trips and is expected to change for 1977.

If a stratum has data missing, then strata will be pooled within vessel size class.

The mortality of each stock will be estimated by gear-type for each stratum using kill-per-day statistics from the observed vessels, multiplied by the total days at sea for all U.S. vessels with certificate holders aboard at the end of each week: For the i^{th} stratum, $i=1,\ldots,14$,

let N_i = total number of vessel trips (completed or still at sea)

n_i = number of observed trips

D_i = total number of days at sea for all U.S. vessels with certificate holders aboard

x_{ijk} = the total kill for the j^{th} stock by the k^{th} observed vessel

$d_{i\cdot k}$ = the number of days at sea for the k^{th} observed vessel $k=1,2,\ldots,n_i$.

Y_{ij} = the sample kill-per-day for the j^{th} stock

$\hat{Y}_{ij\cdot}$ = the estimated total kill for the j^{th} stock

$\hat{Y}_{\cdot j\cdot}$ = the estimated total kill for the j^{th} stock for the whole fleet.

We have:

$$Y_{ij} = \frac{\sum_{k=1}^{n_i} x_{ijk}}{\sum_{k=1}^{n_i} d_{i\cdot k}}$$

with variance

$$s^2_{Y_{ij}} = \frac{N_i - n_i}{N_i}\,\frac{s^2_{ij}}{n_i}\left(\frac{s^2_{x_{ij}}}{\bar{x}^2_{ij}} + \frac{s^2_{d_{i\cdot}}}{\bar{d}^2_{i\cdot}} - 2\,\frac{\mathrm{cov}\,(\bar{x}_{ij}, \bar{d}_{i\cdot})}{\bar{x}_{ij}\,\bar{d}_{i\cdot}}\right)$$

where

$$\bar{x}_{ij} = \frac{\sum_{k=1}^{n_i} x_{ijk}}{n_i}$$

$$\bar{d}_{i\cdot} = \frac{\sum_{k=1}^{n_i} d_{i\cdot k}}{n_i}$$

$$s^2_{x_{ij}} = \frac{\sum_k (x_{ijk} - \bar{x}_{ij})^2}{n_i - 1}$$

$$s^2_{d_{i\cdot}} = \frac{\sum_k (d_{i\cdot k} - \bar{d}_{i\cdot})^2}{n_i - 1}$$

$$\text{and cov}\,(x_{ij}, d_{i\cdot}) = \frac{\sum_k (x_{ijk} - \bar{x}_{ij})\,(d_{i\cdot k} - \bar{d}_{i\cdot})}{n_i - 1}$$

$$\hat{Y}_{ij\cdot} = D_i\, Y_{ij}$$

With variance

$$s^2_{\hat{T}_{ij\cdot}} = D^2_i \, s^2_{Y_{ij}}$$

and $$\hat{T}_{\cdot j\cdot} = \sum_{i=1}^{14} \hat{T}_{ij\cdot}$$

With variance

$$s^2_{\hat{T}_{\cdot j\cdot}} = \sum_{i=1}^{14} s^2_{\hat{T}_{ij\cdot}}$$

The total mortality will be estimated weekly or by some other period depending on the amount of fishing on porpoise or on the number of porpoise killed relative to the level of the quota. At the end of each calculation period, the date on which the quota for each species or stock will be reached will be projected.

It is intended that this methodology will be utilized to monitor the kill of porpoises for 1977. However, the methodology may be modified without further notice in whole or in part if unforeseen circumstances arise and it is deemed necessary to modify the methodology.

Results of each calculation will be available to the public in the latter part of the following week. The effective date when fishing on porpoise of certain stocks will be prohibited will be published in the FEDERAL REGISTER not less than 7 days prior to that date.

Dated: April 27, 1977.

ROBERT W. SCHONING,
Director, National Marine Fisheries Service.

[FR Doc.77-12541 Filed 5-3-77;8:45 am]

TAKING OF EASTERN SPINNER DOLPHINS IN THE COURSE OF YELLOWFIN TUNA PURSE SEINE OPERATIONS

Enforcement Policy

On March 1, 1977, National Marine Fisheries Service (NMFS) published in the FEDERAL REGISTER its final decision (42 FR 12015) and regulations (42 FR 12010) concerning the taking of marine mammals incidental to yellowfin tuna purse seine fishing in the eastern tropical Pacific Ocean. This decision and the regulations implementing it (50 CFR 216.24) authorized the issuance of a permit to allow the taking of limited numbers of certain species of porpoises in the course of tuna purse seining, and were based on evidence received at a formal hearing.

One of the decisions made by NMFS as a result of the hearing was that the population of one of the porpoise stocks encountered in the tuna purse seine fishery, that of the eastern spinner dolphin, was "depleted" within the meaning of section 3(1) of the Marine Mammal Protection Act of 1972, 16 U.S.C. 1362(1). Under the Act, there can be no taking of a depleted stock of marine mammals.

During the hearing, testimony was presented on the difficulty of identifying the different species and stocks, and on the degree of error in attempting identification. After the close of testimony both the Environmental Defense Fund and the Marine Mammal Commission recommended to the National Marine Fisheries Service that an accidental take of up to 6500 eastern spinners be permitted. This level of mortality would allow the population of this stock to increase with virtual certainty.

At the hearing it was established that there are circumstances where an unintentional and accidental mortality would occur. Moreover, there is evidence that once a set involving porpoise has begun, aborting the set is extremely difficult, if not impossible, and there may be more harm done to porpoises by attempting to abort the set than by continuing it. Accordingly, the Administrator of NOAA stated that he would follow a policy of reasonable enforcement of the regulations and not punish accidental takings of eastern spinner porpoises by those who in good faith complied with the regulations.

Based on these recommendations and considerations, and the discretion given to the Secretary of Commerce in imposing penalties for violations of the Act under section 105(a) of the MMPA, the National Marine Fisheries Service is adopting the following reasonable enforcement policy on the accidental taking of eastern spinner dolphins in the tuna purse seine fishery:

If at the time the net skiff is released from the vessel attached to the net at the start of a set, no eastern spinners are observed in the herd of porpoise upon which the set is being made, the fact that eastern spinners are subsequently encircled or killed in the course of completing that set will not be cause for issuance of a notice of violation or assessment of penalty, provided that all procedures required by the applicable regulations have been followed.

The numbers of eastern spinners encircled or killed will be recorded and this policy will be reviewed periodically in light of its effect on the eastern spinner population.

WINFRED H. MEIBOHM,
Associate Director,
National Marine Fisheries Service.

ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

ADVISORY COMMITTEE ON GEOTHERMAL ENERGY, GEOPRESSURE SUBCOMMITTEE

Meeting

APRIL 28, 1977.

In accordance with provisions of Pub. L. 92-463 (Federal Advisory Committee Act), the Geopressure Subcommittee of the Advisory Committee on Geothermal Energy will hold its first meeting on Thursday, May 19, 1977, from 10 a.m. to 3 p.m., VIP Room, Thompson Conference Center, University of Texas, Austin, Texas. This meeting will be open to the public. The purpose of this meeting is: to review plans and activities of the Division of Geothermal Energy, U.S. Energy Research and Development Administration; in particular, to discuss and to provide advice on programs and approaches to effective government-industry cooperation with respect to geothermal geopressure problems in the development of geothermal energy.

The tentative agenda for the meeting is as follows:

10 a.m.—Introductory Remarks—Mr. R. C. Repper, Chairman.
10:30 a.m.—Progress and Activities Report on the Texas Geopressure Project—Dr. M. H. Dorfman and others.
12 noon.—Lunch.
1 p.m.—Review of ERDA Geopressure Plans—J. K. Westhusing
2 p.m.—Subcommittee Discussion.
3 p.m.—Adjourn.

Practical considerations may dictate alterations in the above agenda. This will be a working meeting and the Chairman is empowered to conduct the meeting in a manner that in his judgment will facilitate the orderly conduct of business.

With respect to public participation in agenda items, scheduled above, the following requirements shall apply:

(a) Persons wishing to submit written statements on agenda items may do so by mailing 12 copies thereof, postmarked no later than May 12, 1977, to the Director, Division of Geothermal Energy U.S. Energy Research and Development Administration, 20 Massachusetts Avenue, NW., Washington, D.C. 20545. Comment shall be directly relevant to the above agenda items. Minutes of the meeting will be kept open for 30 days for the receipt of written statements for the record.

(b) Information as to whether the meeting has been rescheduled or relocated can be obtained by a prepaid telephone call on May 16, 1977, to the Division of Geothermal Energy, Energy Research and Development Administration, Helen Krupovich on 202-376-4904 between 8:30 a.m. and 5 p.m., e.s.t.

(c) Questions at the meeting may be propounded only by members of the Subcommittee and ERDA officials assigned to participate with the Subcommittee in its deliberations.

(d) Seating to the public will be made available on a first-come, first-served basis.

(e) The use of still, movie, and television cameras, the physical installation and presence of which will not interfere with the course of the meeting, will be permitted both before and after the meeting and during the recess. The use of such equipment will not, however, be allowed while the meeting is in session.

(f) Copies of minutes will be made available for copying, following their certification by the Chairman in accordance with the Federal Advisory Committee Act, at the Energy Research and Development Administration's Public Document Room, 20 Massachusetts Avenue, NW., Washington, D.C. 20545.

upon payment of all charges required by law.

HARRY L. PEEBLES,
Deputy Advisory Committee Management Officer.

GEOTHERMAL ENERGY

Request for Expression of Interest for a Geothermal Demonstration Power Plant

INTRODUCTION AND PURPOSE

The Energy Research and Development Administration (ERDA) is requesting an expression of interest (REI) from organizations desiring to participate in a demonstration project for the utilization of geothermal energy for electric power generation. The demonstration will be a commercial-size plant constructed and operated under realistic industrial conditions. The intent is to demonstrate to industry that electric energy can be generated economically from liquid-dominated geothermal resources in an environmentally and socially acceptable manner. Successful demonstration will reduce the uncertainties that attend the utilization of geothermal resources for power production and will thereby advance the realization of geothermal energy as an option for meeting national energy needs. The expression of interest is intended to obtain information about who is interested in geothermal exploitation and their capabilities for conducting a demonstration project.

INTENDED DEMONSTRATION PROJECT

ERDA plans to initiate a commercial-scale (50 megawatts electrical or greater) demonstration project in Fiscal Year 1978. Joint industry and government funding of construction and operation of the project is anticipated. The project will be located at a site where reservoir development work is already underway in order to accelerate geothermal development in the near term.

The plant is intended to demonstrate commercial generation of electric power using a high-temperature, low-to-moderate salinity resource with a binary fluid, flashed-steam or a fossil-geothermal hybrid conversion cycle. Target date for power-on-line is 1982 or earlier.

FUTURE DEMONSTRATION PROJECTS

The ultimate objective of the demonstration program is to accelerate the pace of commercial application of geothermal energy. In order to accomplish this objective, it is likely that future demonstration projects, in addition to the one mentioned above, will be considered for other resource types (e.g., geopressured) in other regions of the nation with large promise for geothermal development. The magnitude of the demonstration program that would be needed will be determined in large part by the results of several current Federal policy and planning studies. The information ERDA gathers from this request for an expression of interest is expected to exert substantial influence on these studies. Therefore, respondents are encouraged to submit any additional information that will assist ERDA in formulating Federal plans for future demonstration projects. For example, if respondents are unable to fulfill the criteria provided for the first planned demonstration plant, ERDA would like to know what additional activities are planned by the respondent which would meet the criteria by a later date.

INSTRUCTIONS

Responses to this REI are requested on or before June 20, 1977. This request for an expression of interest is not a request for proposal and does not commit the Government to contract with any party or to pay any costs incurred in connection with preparing and submitting any response.

A suggested format for an expression of interest is presented as an Appendix to this publication. Respondents that are unable to address all of the information of interest in the Appendix are nevertheless encouraged to provide that information which is readily available. Nor is it necessary to reformat information which currently exists in corporate format. Information which is not readily available is not expected to be created for this expression of interest.

Respondents may mark trade secrets and commercial or financial information "Company Confidential." Information so marked will be accorded the treatment provided in ERDA PR 9-3.150 for proprietary data and priviledged business information contained in proposals, except that information will be reviewed for planning purposes instead of evaluation purposes. Accordingly, data marked "Company Confidential" will be disclosed only to designated Government personnel and a limited number of non-Government personnel under the circumstances specified in ERDA PR 9-150-5. Submissions will be returned after review if requested.

Expressions of interest should reference this request and be submitted to:

Dr. James C. Bresee, Director, Division of Geothermal Energy, U.S. Energy Research and Development Administration, Washington, D.C. 20545.

Inquiries relative to this request for expressions of interest should be directed to A. G. Follett, Mission Team Leader, Saline Hydrothermal, telephone 202-376-1690.

GENERAL CRITERIA FOR SUCCESSFUL DEMONSTRATION

Analysis of Government involvement in past demonstrations of all kinds indicates that three general criteria must be observed to ensure success.

1. A clear rationale for Federal involvement must be presented. It must be evident that exploitation by private enterprise alone is not likely, or that it will be slow in coming. In any case, Federal involvement must materially add to the likelihood of success of the demonstration and the rate of exploitation of geothermal resources. It should be noted that ERDA cannot participate in a project which would be eligible for loan guaranty under Pub. L. 93-410.

2. A demonstration is warranted only if lesser or partial measures, such as pilot plants or test beds, will be inadequate to produce the desired results. It should be evident that other Federal activities, such as reduction of institutional roadblocks, will not in themselves adequately accelerate geothermal energy development unless accompanied by a commercial-scale demonstration.

3. The third criterion includes a number of factors that directly influence the commercialization of the project; for example,

The technology for the demonstration should already be established. It is unwise to mix R&D with a commercial demonstration.

Participants in the eventual commercial process—field developers, utilities, and the financial community—should be involved in the planning and execution of the project.

Clear arrangements must be made at the outset for commercial acquisition and Federal withdrawal at the project's conclusion.

The development schedule should be realistic in the light of construction and drilling time and technical complexity.

SPECIFIC CRITERIA FOR GEOTHERMAL DEMONSTRATION PROJECT

Beyond the general criteria discussed above, several specific criteria are essential to the success of a geothermal demonstration:

The demonstration project must offer timely acceleration of the exploitation of a specific geothermal resource type with significant national development potential.

The demonstration must be conducted under realistic conditions.

The project must exploit a reservoir of demonstrated commercial production potential beyond that represented by the demonstration plant by at least an additional 150 MW.

The project planning should include a schedule for commercial expansion.

The objectives of the demonstration must be clearly defined.

The project planning should include appropriate environmental safeguards and water resource evaluation.

State and local attitudes should be favorable to the demonstration.

Inasmuch as the intent of the demonstration program is to accelerate the pace of geothermal exploitation by U.S. industry, consideration of responses for eventual Government costsharing will be limited to U.S. participants.

The planned schedule for a Demonstration Plant would require a proven reservoir and technology that is well in hand.

DONALD A. BEATTIE,
Acting Assistant Administrator for Solar, Geothermal, and Advanced Energy System.

APPENDIX

RESPONSE FORMAT

The type of information desired, if available is outlined below. Any proprietary information submitted should be specifically identified.

SECTION I. General information concerning the following: Participating organizations; Organization and management; Experience and competence in electric power generation; Experience and competence in reservoir development and fluid production.

SECTION II. Project information relating to: Location; Geology; Reservoir type and characteristics; Reservoir reserves; Seismological stability; Accessibility; Cooling water availability and requirements; Zoning and land use restrictions; Project scale; Energy conversion process, description; Means for disposal of spent geothermal fluid; Environmental control technology.

SECTION III. Planned schedule for the following: Reservoir definition and capacity; Design; Permitting; Construction; Operation; Expansion.

SECTION IV. Business arrangements considered appropriate concerning: Cost and risk sharing, including patent arrangements; Federal Government and private sector participation.

SECTION V. Information on other factors such as: 1. Local, state, and public acceptance and participation; 2 Environmental considerations; 3. Plans for collecting, processing, and transferring to the public sector design, construction, and operation data and experience; 4. Restriction on technology transfer due to proprietary information; 5. Actual or anticipated impediments.

FEDERAL COMMUNICATIONS COMMISSION

CANADIAN FM BROADCAST STATIONS

Table of Channel Assignments and Allocations

APRIL 27, 1977.

Amendment of Table A of The Canada-U.S.A. FM Broadcasting Agreement of 1947, Supplement No. 1; (to the Table of Canadian FM broadcasting channel assignments and allocations within 250 miles of the Canada-U.S.A. border, dated April 22, 1977, as revised April 12, 1977).

Pursuant to exchange of correspondence between the Department of Communications of Canada and the Federal Communications Commission, Table A of the Canada-U.S.A. FM Broadcasting Agreement has been amended as set forth in the attached list. It is to be noted that those representing assignments will indicate call signs plus parameters.

The allocations below have been deleted from Table A.

Location	Channel No.
Amherst, Nova Scotia	244C
New Castle, New Brunswick	257C
Antigonish, Nova Scotia	256C
Dalhousie, New Brunswick	289C

Further additions, changes, and deletions will be issued as reported to the Commission by the Canadian Department of Communications.

Copies of the basic Table of Allocations may be obtained from Downtown Copy Center, 1730 K Street, NW., Washington, D.C. 20036, telephone (202) 452-1422.

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

[Docket No. 21227, File No. BPH-9711;
Docket No. 21228, File No. BPH-9839]

GILBERT LEIVAS AND O.M. BROADCASTING INC.

Construction Permit Applications

Adopted: April 26, 1977.

Released: April 29, 1977.

In re applications of Gilbert Leivas, d/b/a B.I.N.A. Broadcasting Co., Parker, Arizona, requests: 99.3 MHz, Channel No. 257; 3 kW (H), 2.950(V);-121 feet (H),-141 feet (V); and O.M. Broadcasting, Inc., Parker, Arizona, Requests: 99.3 MHz, Channel No. 257; 200 W (H&V); 960 feet (H & V).

1. The Commission, by the Chief, Broadcast Bureau, acting pursuant to delegated authority, has before it for consideration the above-captioned mutually exclusive applications of Gilbert Leivas, d/b/a B.I.N.A. Broadcasting Co. (hereinafter "Leivas"), and O.M. Broadcasting, Inc. (hereinafter "O.M."), for a new FM broadcast station at Parker, Arizona.

2. Analysis of O.M.'s financial data reveals that $60,223 will be required to construct and operate the proposed station for one year, without reliance upon revenues, itemized as follows:

Downpayment on equipment	$ 4,555
First-year payment on equipment with interest	6,104
Interest on bank loan	7,800
Miscellaneous	12,750
Working capital (first year)	29,014
Total	60,223

O.M. plans to finance construction and operation of the proposed station with existing capital and a bank loan. However, the necessary funds do not appear to be available. First, O.M.'s balance sheet, dated October 31, 1976, shows current liabilities well in excess of current liquid assets. Second, as evidence of the availability of the bank loan, O.M. has submitted a letter of commitment from The State Bank, Parker, Arizona, which states that the bank will lend $65,000 in the event it is called upon to execute the loan. However, the letter of commitment does not contain all of the information required by Section III, page 3, paragraph 4 (E) of the application (FCC Form 301. Particularly, while the letter indicates that appropriate documents, security, and signatures will be requested, it does not state what these documents, security, or signatures will be, making it impossible for O.M. to demonstrate that it will be able to meet the bank's terms and secure the necessary funds. Thus, since O.M. has not shown the availability of any existing funds to meet the $60,223 requirement, and has also not shown that it may rely upon a bank loan for the necessary amount, a financial issue will be specified.

3. Data submitted by the applicant indicates that there would be a significant difference in the size of the areas and population which would receive service from the proposals. Consequently, for the purposes of comparison, the areas and population which would receive FM service of 1 mV/m or greater intensity together with the availability of other primary aural services in such areas will be considered under the standard comparative issue, for the purposes of determining whether a comparative preference should accrue to either of the applicants.

4. Finally, Leivas has requested waiver of § 73.210(a)(2) of the Commission's Rules to permit its main studio to be located outside the city limits of Parker at a point other than its transmitter site. The proposed main studio will be located

at the Old Tribal Jail Building on the Colorado River Indian Reservation approximately one quarter mile outside the Parker municipal boundary. In support of its request for waiver, Leivas asserts that all of Parker is within the Colorado River Indian Reservation, and that it is important to the applicant's concept of providing a broadcast service to the Indian Community that the station be located on tribal land. In addition, Leivas states that its studio site is being made available by the Tribe and that its availability relieves the applicant of the financial burden of leasing another site. Finally, Leivas notes that the proposed site is easily accessible to all residents of Parker. Specifically, it states that one quarter mile is a short distance, that the proposed site is accessible to Parker by a main road, and that there exist no gates or other security measures which would limit accessibility to the proposed studio. Under these circumstances, we believe that adequate justification has been provided for waiver if the Leivas application is granted.

5. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. Because they are mutually exclusive, they must be designated for hearing in a consolidated proceeding.

6. Accordingly, *it is ordered*, That pursuant to section 309(e) of the Communications Act of 1934, as amended, the above-captioned applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

(1) To determine whether O.M. Broadcasting, Inc. has available the funds required for construction and first-year operation of its proposed station without reliance on revenues to thus demonstrate its financial qualifications to be a Commission licensee.

(2) To determine which of the proposals would, on a comparative basis, better serve the public interest.

(3) To determine, in the light of the evidence adduced pursuant to the foregoing issues, which of the applications for a construction permit should be granted.

7. *It is further ordered*, That if the Leivas application is granted, the permit shall specify that the provisions of § 73.210(a)(2) of the Commission's Rules are waived to permit the establishment of the main studio outside the city limits of Parker, Arizona.

8. *It is further ordered*, That to avail themselves of the opportunity to be heard, the applicants herein, pursuant to § 1.221(c) of the Commission's Rules, in person or by attorney shall, within twenty days of the mailing of this Order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

9. *It is further ordered*, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's Rules, give notice of the hearing either individually or, if feasible and consistent with the Rules, jointly, within the time and in the manner prescribed in such Rule, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the Rules.

FEDERAL COMMUNICATIONS COMMISSION,
WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

[FR Doc.77-12774 Filed 5-3-77;8:45 am]

[Docket No. 21185, File No. BPH-9765; Docket No. 21186, File No. BPH-9910]

BENJAMIN F. THOMAS, ET AL.

Construction Permit Applications

Adopted: April 21, 1977.

Released: April 27, 1977.

In re applications of Benjamin F. Thomas, Katherine L. Brown, and Jean Roby, d/b/a Berryville Broadcasting Co., Berryville, Virginia, Requests: 105.5 MHz, Channel 228; 3kW (H&V); 300 feet (H&V); and Joseph T. Kulpinski, Jr., Brian L. Leiter, and Kenneth F. Smith, d/b/a Berryville Media Group, Berryville Virginia, requests: 105.5 MHz, Channel 288; 3kW (H&V); 300 feet (H&V).

1. The Commission, by the Chief, Broadcast Bureau, acting pursuant to delegated authority, has before it for consideration the above-captioned mutually exclusive applications of Benjamin F. Thomas, Katherine L. Brown, and Jean Roby, d/b/a Berryville Broadcasting Co., and Joseph T. Kulpinski, Jr., Brian L. Leiter, and Kenneth F. Smith, d/b/a Berryville Media Group for a construction permit for a new FM broadcast station at Berryville, Virginia.

2. As amended February 7, 1977, Berryville Broadcasting's ascertainment of community needs and problems fails to comply with the Commission's Primer on Ascertainment of Community Problems by Broadcast Applicants, 27 FCC 2d 650 (1971), in two respects. First, the applicant interviewed no leaders of the elderly in its proposed city of license, although this group is identified as a significant one in the community. Second, though Berryville Broadcasting indicates that interviews were held with three women who represent organizations of or for women, it fails to clearly identify the leadership position that these women hold in their organizations. (See Question and Answer 20 of the Primer.) Accordingly, a limited ascertainment issue will be specified.

3. Similarly, Berryville Media has failed to identify the leadership positions held by individuals that it states represent organizations of or for labor, women, and the elderly. Accordingly, a limited ascertainment issue will be specified against it as well.

4. Data submitted by the applicants indicate that there would be a significant difference in the size of the areas and populations which would receive service from the proposals. Consequently, for the purposes of comparison, the areas and population which would receive FM service of 1 mV/m or greater intensity together with the availability of other primary aural services in such areas will be considered under the standard comparative issue, for the purpose of determining whether a comparative preference should accrue to either of the applicants.

5. Berryville Broadcasting has requested waiver of § 73.210(a)(2) of the Commission's Rules to permit the main studio to be located outside the city limits of Berryville at its proposed transmitter site. In support of its waiver request, the applicant states, first of all, that combining the studio with the transmitter at the same site will significantly lessen operating expenses. Secondly, Berryville Broadcasting explains that land for the main studio is virtually unavailable within the Berryville city limits, and even if land were available it would be unaffordable. Finally, the applicant states that the proposed site is less than three miles from Berryville and is of easy access to people from the city and the surrounding rural community. Under these circumstances, we believe that adequate justification has been provided for waiver of the main studio rule if the application of Berryville Broadcasting is granted.

6. Except as indicated above, the applicants are qualified to construct and operate as proposed. However, because the proposals are mutually exclusive, they they must be designated for hearing in a consolidated proceeding.

7. Accordingly, *it is ordered*, That pursuant to section 309(e) of the Communications Act of 1934, as amended, the above-captioned applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine with respect to the efforts of Berryville Broadcasting Co. to ascertain the community problems of Berryville, Virginia, whether the applicant consulted with leaders of women and the elderly.

2. To determine with respect to the efforts of Berryville Media Group to ascertain the community problems of Berryville, Virginia, whether the applicant consulted with leaders of labor, women and the elderly.

3. To determine which of the proposals would, on a comparative basis, better serve the public interest.

4. To determine, in light of the evidence adduced pursuant to the foregoing issues, which, if either, of the applications should be granted.

8. It is further ordered, That if the application of Berryville Broadcasting is granted, the permit shall specify that the provisions of § 73.210(a)(2) of the Commission's Rules are waived to permit the establishment of the main studio outside the city limits of Berryville, Virginia.

9. *It is further ordered*, That to avail themselves of the opportunity to be heard, the applicants, pursuant to § 1.221(c) of the Commission's Rules, in person or by attorney shall within twenty (20) days of the mailing of this Order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for hearing

and present evidence on the issues specified in this Order.

10. *It is further ordered*, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's Rules, give notice of the hearing, either individually or, if feasible and consistent with the rules, jointly, within the time and the manner prescribed in such Rules, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the Rules.

FEDERAL COMMUNICATIONS COMMISSION,
WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

[FR Doc.77-12775 Filed 5-3-77;8:45 am]

FEDERAL ENERGY ADMINISTRATION

INDUSTRIAL ENERGY CONSERVATION

Proposed Industrial Energy Efficiency Reporting Form and Public Hearing

AGENCY: Federal Energy Administration.

ACTION: Notice.

SUMMARY: To implement the direct reporting requirement in section 375(a) of the Energy Policy and Conservation Act (EPCA), Pub. L. 94-163, the Federal Energy Administration (FEA), in accordance with section 375(b) of EPCA, hereby proposes to issue Form FEA-U524-P-O, Industrial Energy Conservation and Consumption Report, and invites the oral and written presentation of data, views, and arguments thereon by interested persons. When adopted, this form will be published in the FEDERAL REGISTER and will be furnished to certain corporations identified by FEA under section 373 of EPCA to enable them to comply with the direct mandatory reporting requirement of FEA's Industrial Energy Conservation Program.

DATES: Comments by May 17, 1977, 4:30 p.m.; requests to speak by May 10, 1977, 4:30 p.m.; statements by May 16, 1977, 4:30 p.m.; hearing to be held on May 17, 1977, at 9:30 a.m. In the event that substantial interest is expressed in proposed Form FEA-U524-P-D, the written comment period will be further extended.

ADDRESSES: Comments and requests to speak at the hearing to: Executive Communications, Room 3309, Federal Energy Administration, Box MF, Washington, D.C. 20461; statements to Regulations Management, Federal Energy Administration, Room 2214, 2000 M Street, NW., Washington, D.C. 20461. Hearing held at:

Federal Energy Administration,
Room 2105,
2000 M Street, N. W.,
Washington, D.C. 20461.

FOR FURTHER INFORMATION CONTACT:

Al Hayes, Federal Energy Administration, Conservation and Environment, 12th and Pennsylvania Avenue, NW., Washington, D.C. 20461, 202-566-3563.

SUPPLEMENTARY INFORMATION:

I. THE INDUSTRIAL ENERGY CONSERVATION PROGRAM

BACKGROUND

Part D. 42 U.S.C. 6341-6346, of Title III of EPCA requires that FEA implement, in consultation with the Department of Commerce (DOC) and the Energy Research and Development Administration (ERDA), a program to promote increased energy efficiency by American industry and to set voluntary energy efficiency improvement targets for at least the 10 most energy-consumptive industries in the Nation. The program established by FEA includes the formulation of these targets and the semi-annual reporting by the chief executive officer (or other designated corporate officer) of identified energy-consumptive corporations of progress that each such corporation has made in improving its energy efficiency. This reporting must provide information to enable FEA to measure progress toward meeting the energy efficiency improvement target set for the industry of which the corporation is a part.

The mandatory reporting requirement that EPCA places on identified corporations is satisfied through one of two mechanisms: the indirect reporting to FEA of energy efficiency information through an "adequate voluntary reporting program" under the auspices, generally, of an industry trade association, or the reporting of such information directly to FEA via the form being proposed by this notice.

FEA does not require the filing of a direct report if an identified corporation participates in an adequate voluntary reporting program and applies for and is granted an exemption from the direct reporting requirement in accordance with section 376(g) of EPCA. The proposed list of corporations exempt from the direct reporting requirement was published in the FEDERAL REGISTER on March 23, 1977 (42 FR 15731). An adequate voluntary reporting program is one that provides information to measure progress toward the energy efficiency improvement target set for the industry of such program, in accordance with criteria specified in the November 24, 1976 FEDERAL REGISTER notice (41 FR 51866).

To establish the industrial energy conservation program authorized by EPCA, FEA has undertaken a number of actions. Under section 373 of EPCA, FEA is required to identify and rank in order of energy consumption each major energy-consuming industry in the United States. In a FEDERAL REGISTER notice published on March 26, 1976 (41 FR 12766), FEA ranked and identified the 10 most energy-consumptive industries (herein "identified industry" or "identified industries")[1]. These industries are defined in accordance with a two-digit classification within the manufacturing divison of economic activity set forth in the 1972 Standard Industrial Classification (SIC) Manual published by the Office of Management and Budget (OMB).

Ranking	Industry	SIC No.
1	Chemical and allied products	28
2	Primary metal industries	33
3	Petroleum and coal products	29
4	Stone, clay and glass products	32
5	Paper and allied products	26
6	Food and kindred products	20
7	Fabricated metal products	34
8	Transportation equipment	37
9	Machinery, except electrical	35
10	Textile mill products	22

Section 373 of EPCA also requires FEA to identify corporations that consume at least one trillion British thermal units (Btu's) of energy within the United States per year and are among the 50 most energy-consumptive corporations in each identified industry. To implement that requirement, FEA first requested that, at the ultimate parent level, each corporation consuming at least one trillion Btu's per year within the United States in any identified industry submit a report indicating its energy consumption in that identified industry for calendar year 1975 (41 FR 36828, September 1, 1976, clarified in 41 FR 47285, October 28, 1976). After an evaluation of the information submitted, FEA identified the 50 most energy-consumptive corporations within each of the identified industries (41 FR 54977, December 16, 1976) (herein "reporting corporation" or "reporting corporations").

Section 374 of EPCA directs FEA to establish industrial energy efficiency improvement targets for each of the identified industries. The target must represent the maximum feasible improvement in energy efficiency that each identified industry can achieve by January 1, 1980. Targets for each identified industry were proposed in the FEDERAL REGISTER on November 2, 1976 (41 FR 48169), with public hearings held during the period November 22 through December 10, 1976. As required by section 374 (a) of EPCA and after consultation with the Secretary of DOC and the Administrator of ERDA, each target, along with its basis and justification, shall be published in the FEDERAL REGISTER.

B. DIRECT REPORTING REQUIREMENT

As previously described, unless exempted from direct reporting, the chief executive officer of each reporting corporation is required to report to FEA on the progress which such corporation has made in improving its energy efficiency. Section 375(b) of EPCA requires that the form to be utilized for this purpose be "a simple form * * * designed in such a way as to avoid imposing an undue burden on any corporation * * *." The form FEA is proposing in satisfaction of section 375(b) is included in the Appendix to this notice.

[1] The ranking is based on the order of total energy consumption.

The information submitted by exempted reporting corporations participating in an adequate voluntary reporting program must, when aggregated by associations or other third persons, be compatible with the information being submitted directly to FEA by nonexempt reporting corporations. The proposed reporting form, therefore, is designed to satisfy that objective.

II. Discussion of Proposed Reporting Form

The instructions to the proposed form describe how the form would be completed and the information required by the form. The discussion that follows summarizes the information that would be entered on the form and highlights important aspects of either the reporting requirement, the form, the form's instructions, or related matters on which FEA is especially interested in receiving public comment. The discussion, except with respect to "definitions" and certain other matters, adheres to the organization of the form's proposed instructions.

A. DEFINITIONS

Terms such as "product" and "manufacturing" are defined to be consistent with the use of those terms in the 1972 SIC Manual. The term "product" as defined in the instructions refers to items described by a four-digit SIC code. This permits the utilization of commonly used designations of products or grouping of these products and should reduce the reporting burden, since the energy data reported by four-digit SIC codes for the Census of Manufactures required by DOC can be used for this report. For purposes of the form, a "product" may be an individual unit or grouping of units (commonly referred in industry as "product line"), to the extent that such grouping can be represented by a single unit of output.

"Manufacturing" energy boundaries encompass all energy directly associated with the manufacture of a specified product. The term is more fully discussed below.

B. PART I—IDENTIFICATION INFORMATION

This section of the proposed form would request the reporting company's name, address and employer identification number, specification of the reporting period, the energy contact person, and an indication whether the filing is a revised report or there has been a corporate relocation.

C. PART II—CERTIFICATION

The name and signature block must be filled in by an individual who is a corporate officer duly authorized for this purpose. A signature other than that of the chief executive officer requires a letter of authorization from the chief executive officer to be filed with FEA.

D. PART III—ACTUAL ENERGY CONSUMPTION DATA

Entries in this section of the form would require the presentation of energy consumption data in billions of Btu's per fuel type that is attributable to manufacturing in each identified industry in which a report is being submitted. Because most of the fuel used by an energy-intensive corporation is consumed by its manufacturing activity, the data in this section will enable FEA to observe energy conservation trends and usage patterns within an industry by fuel type, and will also aid in identifying potential fuel supply problems.

What constitutes energy used in the manufacturing division of industry is crucial to the determination of the energy consumption by fuel type for purposes of completing this section of the form, as well as Part IV. The determination of what energy consumption is related to the reporting company's manufacturing output would be made on the basis of manufacturing energy boundaries defined herein. FEA proposes to include or exclude in "actual energy consumption" the Btu content of all energy sources, including by-product fuels and purchased steam, consumed or present in the following activities, uses, and items:

Energy to Include

Direct manufacturing operations.

Self-generation of all electricity, both thermal and hydro.

Heating, ventilating and air conditioning of manufacturing buildings and plant offices plus maufacturing services such as shops, cafeteria, other plant personnel services, and plant chemical and analytical laboratories.

In-plant transportation, such as lift trucks, conveyors, cranes, and railroads.

Transportation on producer's property between mining operations and manufacturing facilities. (The transportation could be by conveyors, trucks or by rail. Mineral preparation such as crushing, screening and concentrating of ores is not to be included, per SIC definitions.)

Raw material storage.

By-product fuels sold and shipped or stored for sale.

Services for finished product warehouses within a plant fence if directly related to manufacturing operations.

Energy to Exclude

Feedstocks.

All uses of electricity self-generated by thermal means. (Btu content of energy sources for thermal generation of electricity is already counted, above.)

Services for corporate and divisional offices.

Services for basic research.

Services for regional distribution centers.

Fuel for corporate aircraft, salesmen's cars and over-the-highway trucks.

Transport of intermediate product to another producer for finishing within the same two-digit industry.

Fuels received for storage for later disposition.

Allocation of energy usage for captive or shared operations is based on the percentage output of the operation applied to the product being considered. This proportioning method entails (1) assigning all the energy of a captive operation to the two-digit SIC code in which the four-digit product is contained if all of the output of the operation serves as input for the manufacture of that product, or (2) assigning a percentage of the energy of a shared operation to the two-digit SIC code in which the four-digit product is contained on the basis of the percentage of the output of the operation which is applied to the manufacture of the product.

E. PART IV—ENERGY EFFICIENCY DATA

Data to be entered in Part IV of the proposed form would require computations in accordance with the form's instructions, which describe an "Energy Efficiency Algorithm." The computations required by the Energy Efficiency Algorithm must be made for each product or group of products produced by the reporting corpoation within an identified industry. The computations necessary for the Algorithm show the reporting corporation's total energy consumption within an identified industry in terms of (i) current production at 1972 energy efficiency levels, and (ii) current production at current energy efficiency levels, taking into account certain "operational changes" that will be further discussed below. By subtracting the current adjusted energy consumption from the current energy consumption adjusted to 1972 efficiency, and then dividing that result by the current consumption adjusted to 1972 efficiency, and multiplying by 100, the reporting corporation's percentage change in manufacturing energy efficiency since 1972 can be determined.

A separate entry is provided to account for operational adjustments due to nondiscretionary changes in energy consumption, such as those that may result from environmental protection and occupational safety and health regulations or fuel switches. This computation requires that the energy used for such regulated changes be expressed as a percentage of all operational changes. As proposed, column (6) of the Energy Efficiency Algorithm would provide the means by which the reporting corporation would take into account operational changes that otherwise would prevent a fair comparison between the energy consumed in current production adjusted to the 1972 energy efficiency level and the current actual energy consumption. In addition to operational adjustments that can result from Government regulations, another example would be a conversion from natural gas as an energy source to coal. With coal as the fuel, an increase in Btu's will likely be required to fuel a process previously operated using natural gas. The increase in Btu's, however, would negatively impact the reporting corporation's progress toward attainment of an energy efficiency target. Since it is in the Nation's interest to foster the conversion from natural gas and petroleum products to coal and other less scarce sources of energy, these conversions are to be encouraged. The operational change mechanism neutralizes the negative effect of any increase in energy consumption. (Under the Energy Supply and Environmental Coordination Act of 1974, FEA, after making certain findings, is authorized to order conversions from natural gas and petroleum products to coal.)

Adjustment is also allowable for a change in capacity utilization between the base year and the current reporting period. Since capacity utilization affects the efficiency of an operation, changes in this factor will distort the measurement of actual energy efficiency improvement. A method is provided to neutralize the impact of apparent efficiency variation due to capacity utilization.

Operational changes, however, are not proposed to include variations in heating and cooling degree days, operating hours, number of employees, or floor area.

F. DATA SUPPLEMENTS

Narrative addenda for specific conservation measures and operational changes are requested in order to establish a framework for energy efficiency measurement and to augment qualitatively and/or corroborate the level of real change. However, FEA recognizes that the extent to which the energy impacts of operational changes can be specifically identified and treated may be more easily achievable for some industries than others. The request for enumeration of applied specific conservation measures is considered appropriate for all industries.

G. CONVERSION FACTORS

Where the actual Btu content of a fuel is known, that content must be employed in all calculations and identified. In all other circumstances, the conversion factors listed in the instructions to the form must be used. The conversion factor used is to be entered in the appriate box on the form.

H. SPECIFIC ITEMS FOR COMMENT

FEA invites comments on all aspects of its implementation of the reporting requirements stated in section 375(a) of EPCA and the reporting form it is proposing in satisfaction of the requirements of section 375(b). With respect to the proposed form, however, the agency is specially interested in comments on the following items:

1. Format.
2. Ease of understanding the instructions, particularly the definitions and "Energy Efficiency Algorithm."
3. Administrative burden (time and resources) needed to complete form.
4. Manufacturing output or activity. As drafted, the proposed form requires that manufacturing output or activity be treated only in terms of physical units of output (tons, square feet, etc.) for a given four-digit SIC code unit.
5. Energy boundary definition.
6. Treatment and type of operational changes considered appropriate.
7. Content of the narrative supplements.
8. Handling of conversion factors.
9. Debit/credit fuel conversion. Concern was expressed during the public hearings regarding certain proposed energy efficiency targets that the industrial energy conservation program presently is not structured specifically to encourage the conservation of petroleum products and natural gas. Neither the proposed direct reporting form nor the proposed targets specifically credit the conservation of natural gas or petroleum products. The proposed targets and form only neutralize any increase in Btu's necessary to perform a particular task, which increase is associated with switching to abundant energy sources, such as coal or byproduct fuels, and thereby conserves natural gas or petroleum products. Furthermore, it is conceivable that a target could be attained by switching to the more energy efficient natural gas and petroleum products because the target credits only a reduction in total energy consumed. The direct reporting form could incorporate a mechanism that would credit progress toward a target, e.g., through a conversion from natural gas or petroleum products and, conversely, debit conversions to these fuels. FEA requests comments regarding both the need to credit or debit such fuel conversions and the procedures (formulas) by which these debits and credits could be reflected in the direct mandatory reporting form.

III. WRITTEN COMMENTS AND PUBLIC HEARINGS

A. WRITTEN COMMENT

In accordance with section 376(c), interested persons are invited to submit data, views, or arguments with respect to FEA's implementation of the direct reporting requirements of section 375 of EPCA to Executive Communications, Room 3309, Federal Energy Administration, Box MF, Washington, D.C. 20461. Comments should be identified on the outside of the envelope and on documents submitted to Executive Communications, FEA, with the designation "MIRP—Form FEA-U 524-P-O." Fifteen copies should be submitted. All comments received by 4:30 p.m., May 17, 1977, and all other relevant information will be considered by FEA prior to finalization of the direct reporting requirement.

Any information or data considered by the person furnishing it to be confidential must be so identified and submitted in writing, two copies only. FEA reserves the right to determine the confidential status of the information or data and to treat it according to its determination.

B. PUBLIC HEARING

1. *Request procedure.* Pursuant to section 376(c) of EPCA, a public hearing to receive oral presentation of data, views and arguments from interested persons regarding FEA's implementation of the reporting requirements in section 375 of EPCA and the proposed direct reporting form will be held at the time and place indicated earlier in this notice.

Any person who has an interest in the subject of the hearing, or who is a representative of a group or class of persons which has an interest in the subject of the hearing, may make a written request for an opportunity to make oral presentation. Such a request should be directed to the address indicated earlier in this notice, and must be received before 4:30 p.m., May 10, 1977. Such a request may be hand delivered to Executive Communications, Room 3309, Federal Building, 12th and Pennsylvania Avenue, N.W., Washington, D.C., between the hours of 8 a.m. and 4:30 p.m., Monday through Friday. A request should be labeled both on the document and on the envelope "MIRP-Form FEA U524-P-O."

The person making the request should briefly describe the interest concerned; if appropriate, state why he or she is a proper representative of the group or class of persons which has such an interest; and give a concise summary of the proposed oral presentation and a telephone number where he or she may be contacted through May 16, 1977.

Each person selected to be heard will be so notified by FEA before 4:30 p.m., May 11, 1977, and must submit 100 copies of his or her statement to the address and by the date given earlier in this notice. In the event any person wishing to testify cannot meet the 50 copy requirement, alternative arrangements can be made with the Office of Regulations Management in advance of the hearing by so indicating in the letter requesting an oral presentation or by calling the Office of Regulations Management at 202-254-3345.

2. *Conduct of hearings.* FEA reserves the right to select the persons to be heard at the hearing, to schedule their respective presentations and to establish the procedures governing the conduct of the hearings. Each presentation may be limited based on the number of persons requesting to be heard.

An FEA official will be designated to preside at the hearing. It will not be a judicial or evidentiary-type hearing. Questions may be asked only by those conducting the hearing, and there will be no cross-examination of persons presenting statements. Any decision made by FEA with respect to the subject matter of the hearing will be based on

all information available to FEA. At the conclusion of all initial oral statements, each person who has made an oral statement will be given the opportunity, if he or she so desires, to make a rebuttal statement. The rebuttal statements will be given in the order in which the initial statements were made and will be subject to time limitations.

Any interested person may submit questions, to be asked of any person making a statement at the hearing, to Executive Communications, Room 3309, Federal Energy Administration, Washington, D.C. 20461, before 4:30 p.m. on the day prior to the hearing. Any person who makes an oral statement and who wishes to ask a question at the hearing may submit the question, in writing, to the presiding officer. FEA or the presiding officer, if the question is submitted at the hearing, will determine whether the question is relevant, and whether time limitations permit it to be presented for answer. Any further procedural rules needed for the proper conduct of the hearing will be announced by the presiding officer.

A transcript of the hearing will be made and the entire record of the hearing, including the transcript, will be retained by FEA and made available for inspection in the FEA Freedom of Information Office, Room 2107, Federal Building, 12th and Pennsylvania Avenue, NW., Washington, D.C. 20461, between the hours of 8 a.m. and 4:30 p.m., Monday through Friday. Any person may purchase a copy of the transcript from the reporter.

(Energy Policy and Conservation Act, Pub. L. 94-163, as amended by Pub. L. 94-385; Federal Energy Administration Act of 1974, Pub. L. 93-275, as amended by Pub. L. 94-385; E.O. 11790, 39 FR 23185.)

Issued in Washington, D.C., April 26, 1977.

ERIC J. FYGI,
Acting General Counsel,
Federal Energy Administration.

APPENDIX

FEDERAL ENERGY ADMINISTRATION
CODE XX
WASHINGTON, D. C. 20461

INDUSTRIAL ENERGY CONSERVATION AND CONSUMPTION REPORT

This Report is Mandatory Under Public Laws 94-163 and 93-275

PART I--IDENTIFICATION INFORMATION

FEA Use Only

1.1 Parent Corporation Name and Address:

Zip code

1.2 EIN No.

1.3 Period covered: to

1.4 Energy Contact Person and Title

Phone No.

1.5 ☐ Check if this is a revised report

1.6 ☐ Check if the name and/or address of the corporation has changed since last report

PART II--CERTIFICATION

I certify that the information provided herein and appended hereto is true, accurate, and complete to the best of my knowledge.

NAME	TITLE
SIGNATURE	DATE

Title 18 USC 1001 makes it a criminal offense for any person knowingly and willfully to make to any Agency or Department of the United States any false, fictitious or fraudulent statements as to any matter within its jurisdiction.

22

PART III--ACTUAL ENERGY CONSUMPTION DATA-(Billion Btu)

Energy Source	Two Digit SIC Code ( ) A	( ) B	( ) C	( ) D	Conversion Factor
3.1 Coal					
3.2 Coal Coke					
3.3 Distillate Fuel Oil					
3.4 LPG					
3.5 Natural Gas					
3.6 Purchased Electricity					
3.7 Purchased Steam					
3.8 Residual Fuel Oil					
3.9 Self-generated Hydro					
3.10 Other (Specify).					
3.11 Other (Specify)					
3.12 Other (Specify)					
3.13 Other (Specify)					
3.14 Other (Specify)					
3.15 TOTAL					
PART IV--ENERGY EFFICIENCY DATA					
4.1 Current Consumption Adjusted to 1972 Energy Base (Billion Btu) Enter from Step 4					
4.2 Current Actual Consumption Adjusted to Current Operations (Billion Btu) Enter from Step 7					
4.3 Percent Operational Change Due to EPA/ OSHA					

INSTRUCTIONS

A. PURPOSE

Form FEA-U524-P-O is designed pursuant to section 375(b) of EPCA (42 U.S.C. 6345 (b)) which requires that FEA devise a simple form for energy consumption reporting by corporations specified in paragraph B, below, to measure each reporting corporation's progress in improving its energy efficiency. This information will be aggregated with data from corporations participating in adequate voluntary reporting programs to measure progress toward attainment of the energy efficiency improvement target established by FEA for each identified 2-digit Standard Industrial Classification code industry.

B. WHO MUST SUBMIT

Any corporation which has been identified by FEA under section 373 of EPCA (42 U.S.C. 6343) and which is in an identified industry for which FEA has set an industrial energy efficiency improvement target under section 374 of EPCA (42 U.S.C. 6344) is required to submit this report to FEA, unless exempted in accordance with section 376(g) of EPCA (42 U.S.C. 6346(g)) because it fully participates in an adequate voluntary reporting program.

C. TO WHOM

Form FEA-U524-P-O should be submitted to:

Federal Energy Administration, Office of Industrial Reporting Programs, 12th Street and Pennsylvania Avenue NW., Washington, D.C. 20461.

Additional copies of the reporting form may be obtained from the above address. Indicate the number of copies needed and the address to which they should be sent.

D. WHEN

The initial submission of Form FEA-U524-P-O covering calendar year 1976 must be received by FEA no later than 4 weeks after notice in the FEDERAL REGISTER that the form is final and that a report must be submitted. Thereafter, unless otherwise required, the form must be received by FEA by March 15 and September 15 of each year covering the preceding half calendar year (e.g., March 15 1978, for the period July through December 1977). Submission of a revised report must be made within 30 days of the scheduled date.

E. DEFINITIONS

For the purposes of this form:

"Actual energy consumption" means the sum of the Btu content of all energy sources (not used as feedstocks) consumed within the United States in an identified industry by the reporting corporation during the covered reporting period.

"Btu" means British thermal unit.

"Commercial quality production" means the manufacture of products suitable in quality for shipment and/or sale.

"Energy efficiency ratio" means the amount of energy in Btu's consumed per unit of production output.

"EPA" means the Environmental Protection Agency.

"EPCA" means the Energy Policy and Conservation Act (Pub. L. 94-163).

"Identified industry" means an industry identified by FEA under section 373 of EPCA.

"Manufacturing" means the mechanical or chemical transformation of materials or substances into new products, as described at page 57 of the Office of Management and Budget Standard Industrial Classification Manual (1972).

"Operational change" means an identifiable variation in manufacturing subsequent to 1972, such as decreases or increases in production capacity utilization, product mix changes, and fuel conversions from oil or gas, that (i) is required by statute, rule, regulation or ordinance, (ii) results from policies designed to use waste materials and abundant energy sources, or (iii) is due to changing quality of raw material.

"OSHA" means the Occupational Safety and Health Administration.

"Product" means an item or grouping of items that is the output of a manufacturing corporation and is classified and described by a 4-digit SIC code.

"Production" means the quantity of the reporting corporation's product output (or raw material input in the case of the petroleum industry).

"Reporting corporation" means any corporation required to submit this report to FEA, pursuant to paragraph B, above.

"SIC" means the standard industrial classification system described in the Office of Management and Budget, Standard Industrial Classification Manual (1972).

"United States" means the 50 states, the District of Columbia, Puerto Rico, and all territories and possessions of the United States, including the Outer Shelf, as defined in 43 U.S.C. 1331.

F. INSTRUCTIONS FOR COMPLETE INDUSTRIAL ENERGY CONSERVATION AND CONSUMPTION REPORT

Part I.—*Identification Information*

Item 1.1: *Name and Address.* Enter the name and the complete address of the reporting corporation. Enter the state abbreviation and zip code (use the official U.S. Postal Service state abbreviations).

Item 1.2 *Employer Identification Number (EIN).* Enter the reporting corporation's Internal Revenue Service Employer Identification Number.

Item 1.3: *Period Covered.* Enter the reporting period covered by this report, specifying the year and portion of year that applies, as indicated by paragraph D, above (e.g., January 1, 1977 = 01 01 77 to June 30, 1977 = 06 30 77).

Item 1.4: *Energy Contact Person.* Enter the name, title, and telephone number of the individual, who may be contacted regarding this report.

Item 1.5: *Revised Report.* Check if this is a revised report.

Item 1.6 *Change of Address.* Check if there has been any change since the previous report.

Part II: *Certification*

This part must be completed each time the Form FEA-U524-P-O is submitted. Type or print in block letters the name and title of the individual who has signed the certification and the date of the signature in the spaces provided on the form. The individual

who signs and certifies this Form FEA–U524–P–O must be the chief executive officer of the reporting corporation or such other corporate officer authorized by the chief executive officer to sign for him for this purpose. In the latter case, the reporting corporation must file with FEA a letter of authorization (see Attachment to these instructions) signed by the chief executive officer which identifies other officials authorized to certify Form FEA–U524–P–O for the corporation.

Part III. *Actual Energy Consumption Data*

Actual Energy Consumption Data. Enter the applicable 2-digit SIC code in the ( ) above the column for each identified industry in which the reporting corporation is required to report, pursuant to paragraph B, above. Enter the actual energy consumption data for the reporting period, by energy source and 2-digit SIC code. In the actual energy consumption data, include actual energy consumption for every corporation, company, association, firm, partnership, society, trust, joint venture and joint stock company of which the reporting corporation is the ultimate parent, whether by direct or indirect control. Report the energy content of all fuels consumed in billions of Btu's, expressed as a decimal with three places to the right of the decimal point (e.g., .001 one million) and state the conversion factor of the fuel, as explained below, in the appropriate row of the last column.

Where actual energy consumption of any energy source did not occur totally within the identified industry in which the corporation is reporting, allocate in a reasonable manner to such identified industry the appropriate potrion of such consumption. Do not report in actual energy consumption the Btu content of thermally self-generated electricity.

In the "Other" categories, include actual energy consumption, by energy source, for energy sources not otherwise designated.

Use the actual Btu content of any energy source except electricity as the conversion factor of that energy source where the energy source was purchased according to or with knowledge of its actual Btu content. Where the energy source was not purchased according to or with knowledge of its actual Btu content and in the case of electricity (purchased or self-generated hydropower), use the appropriate conversion factor as follows:

Energy type	*Conversion factor (Btu's/energy unit)*
Bituminous coal	23,650,000/short t.
Anthracite	25,400,000/short t.
Coke	24,800,000/short t.
Ethane	3,082,000/bbl.
Propane	3,847,806/bbl.
LPG	4,011,000/bbl.
Natural gasoline	4,620,000/bbl.
Gasoline (including aviation).	5,248,000/bbl.
Special naptha	5,248,000/bbl.
Kerosene	5,670,000/bbl.
Distillate fuel oil (including diesel).	5,825,000/bbl.
Still gas	6,000,000/bbl.
Petroleum coke	6,024,000/bbl.
Residual fuel oil	6,287,000/bbl.
Crude oil	5,800,000/bbl.
Natural gas, dry	1,031/bbl.
Electricity (purchased and self-generated hydropower).	3,412/kWh.
Other energy types (hogged fuel, bark, black liquor, off-gas, etc.)	Determined by corporation using standard calorimetric methods in current use within the industry.

Application of conversion factors requires that quantification of the fuels be compatible with conversion factor dimensions e.g., tons of solids, U.S. gallons for liquids (42 gal/barrels) and standard cubic feet for gases.

Supply actual energy consumption totals for each 2-digit SIC code.

Part IV: *Energy Efficiency Data*

Item 4.1: *Current Consumption Adjusted to 1972 Energy Base.* Enter under the appropriate 2-digit SIC code column the total energy in billions of Btu's (expressed as a decimal with three places to the right of the decimal point) developed in accordance with procedures applicable to column 4 of the Energy Efficiency Algorithm described in paragraph G of these instructions.

Item 4.2: *Current Actual Consumption Adjusted to Current Operations* Enter under the appropriate 2-digit SIC code column the total energy in billions of Btu's developed in accordance with procedures applicable to column 7 of the Energy Efficiency Algorithm tabulation described in paragraph G of these instructions.

Item 4.3: Enter under Item 4.3 the percentage of operational changes required by OSHA and EPA regulations developed in accordance with step 8 of paragraph G of these instructions.

G. ENERGY EFFICIENCY ALGORITHM AND DIRECTIONS FOR USE ENERGY EFFICIENCY ALGORITHM

An Energy Efficiency Algorithm must be applied for each identified industry in which a corporation is reporting. The Algorithm must be applied according to the following format, which contains quantities presented for purposes of illustration only:

1	2	3	4	5	6	7
Products	1972 Energy efficiency ratio (Btu's/unit)	Current reporting period production (Unit)	Current consumption adjusted to 1972 Btu's (Col. 2 X Col. 3)	Current actual consumption (Btu's)	Consumption due to operation changes since 1972 (±Btu's)	Current actual consumption adjusted to current operations (Col. 5 adjusted by Col. 6)
#1	600,000 (Btu's/Ton)	1,600,000 (Tons)	960 Billion	900 Billion	-21 Billion	879 Billion
#2	100,000 (Btu's/Ton)	1,000,000 (Tons)	100 Billion	90 Billion	-7 Billion	83 Billion
#3	15,000 (Btu's/Ft^3)	3,000,000 (Ft^3)	45 Billion	36 Billion	+3 Billion	39 Billion
All other	200,000 (Btu's/Bbl)	200,000 (Bbl)	40 Billion	35 Billion	-2 Billion	33 Billion
TOTAL			1.145 Trillion	1.061 Trillion	-27 Billion	1.034 Trillion

To derive the entries for the Energy Efficiency Algorithm, perform the following steps:

Step 1. *Products.* Each reporting corporation should list in column 1 at the 4-digit level of detail the products that currently comprise its 2-digit SIC code production.

Step 2. *1972 Energy-Efficiency Ratio (Btu's/Unit).* List the energy-efficiency ratio for each product in column 2. The energy-efficiency ratio, as defined in paragraph E, is determined by the reporting corporation for each product based on the energy in Btu's required to manufacture a physical unit of output of that product in calendar year 1972. The description of and rationale for the selection of the particular unit(s) of output of the product must be provided in writing by that corporation as a part of that corporation's first report and as a part of any subsequent reports covering periods in which a new product is added. The rationale is to be provided as an attached narrative statement.

If the commercial quality production of any product began after 1972, list the energy-efficiency ratio as though that product was manufactured in 1972. Once the commercial quality production energy-efficiency ratio has been determined for a product this initial ratio must remain constant throughout the life of this reporting system to assure measurement on a constant basis. When any product is phased out after 1972, delete the contribution made by that product to the 1972 energy base.

Step 3. *Current Reporting Period Production.* List the totals of current production of each product in column 3 using units that are consistent with the units selected for each energy-efficiency ratio calculation in column 2.

Step 4. *Current Energy Consumption Adjusted to 1972 Efficiency.* Calculate the energy (in Btu's) that would have been required for the production of each product during the applicable reporting period in terms of 1972 energy consumption by multiplying the production of each product in physical units as entered in column 3 by the corresponding energy-efficiency ratio of each product entered in column 2, and record the numbers in column 4. Add the numbers in column 4 and provide FEA with the total of column 4 by entering the total in 4.1 of Part IV of Form FEA–U524–P–O.

Step 5. *Current Actual Consumption in Btu's.* Enter the energy (in Btu's) required to produce each product during the applicable reporting period on column 5. Add the numbers in column 5 and compare the total as a check against the corresponding total in the applicable 2-digit SIC code column in

Part III, line 3.15. The totals should be the same.

Step 6. *Consumption Due to Operational Changes Since 1972 (plus or minus Btu's).* Operational changes may alter the amount of energy consumed and the apparent efficiency of manufacturing processes. Determine the increase or decrease in energy required for the manufacturing of each product during the applicable reporting period as a result of operational changes since 1972 as described below. This increase or decrease is determined by comparing base year consumption for all fuels to current year consumption for all fuels.

Select an applicable operational change for treatment. Determine the portion of the change in energy required for each product due to such operational change and if the operation change has caused an increase or decrease in energy consumption; and quantify the change in energy consumption as Btu's.

If the change represents an increase in consumption, make a record of the Btu's for subsequent combination with other identified increases in energy consumption due to other operational changes.

If the change represents a decrease in consumption make a record of the Btu's for subsequent combination with other identified decreases in energy consumption due to other operational changes.

After identifying all operational changes, sum all quantities (Btu's) representing increases in energy consumption to yield the total in Btu's for all such increases; and sum all quantities (Btu's) representing decreases in energy consumption to yield the total in Btu's for all such decreases.

Subtract the total Btu's for all increases in energy consumption from the total Btu's for all decreases in energy consumption to obtain the net change (difference) in energy consumption for all operational changes.

If the total Btu's for all increases in energy consumption due to operational changes is numerically greater than the total Btu's for all decrease in energy consumption due to operational changes, assign a minus (−) sign to the number representing the net change or difference; conversely, if the total Btu's for all decreases in energy consumption due to operational changes is numerically greater, assign a plus or positive (+) sign to the number representing the net change or difference. Enter this number with its sign in the appropriate row in column 6.

In order to adjust for variations in energy consumption due to changes in capacity utilization, a corporation must determine the relationship between its energy use and production level for the product being considered. The difference in energy consumption between the base year 1972 production capacity utilization level and the current production capacity utilization level is determined based on this relationship. The increases or decreases in energy consumption are combined with energy consumption increments for other operational changes as previously described.

If a product entered in any row in column 1 represents several discrete products of a classification less than the 4-digit SIC code level, then adjustments for any variation in energy consumption due to variations in the manufacturing or production level (or product mix) in such products represented by this entry to the mix of such products in the base year 1972 must be made. An increase or decrease in energy consumption due to a product mix change is combined as previously described with energy consumption increments for other operational changes.

Increases or decreases in energy consumption due to EPA and OSHA regulatory requirements are combined with energy consumption increments for other operational changes as previously described. (The total change in energy consumption due to EPA and OSHA for all products within all reported SIC codes will be treated in step 8.) Examples of regulatory requirements include pollution control (e.g., baghouse operation, electrostatic precipitator and scrubber use, etc.) and/or occupational and safety requirements such as dust control units.

The operational change that results from a conversion (between 1972 and the current reporting period) from a higher efficiency fuel system to a lower efficiency fuel system (e.g., natural gas to coal) is calculated by determining the difference in energy consumption required by the two systems to produce the same level of energy output. For example, a switch from the use of natural gas to the use of coal in a boiler for steam generation may be treated by subtracting the energy consumption in Btu's input for the natural gas-fired system from the energy consumption in Btu's input for the coal-fired system for the same quantity of steam generated at a given temperature and pressure. Increases or decreases in energy consumption due to fuel conversion are combined with energy consumption increments for other operational changes as previously described.

Waste energy sources used in manufacturing a product during the current reporting period that were not used in 1972 also represents an operational change (fuel conversion) and must be compared with the fuel used to produce the same product in 1972. Increases or decreases in energy consumption due to utilization of waste energy sources are combined with energy consumption increments for other operational changes as previously described.

Each operational adjustment contributing to the entry in column 6 must be identified in writing. The written narrative or list of operational adjustments must be submitted as an attachment to the report.

Step 7. *Current Actual Consumption Adjusted to Current Operations (Column 5 Adjusted by Column 6).* Adjust the energy required by the manufacturing of each product during the current reporting period by algebraically combining the numbers in column 6 with the numbers in column 5.

List the adjusted energy numbers for each product in column 7. If an adjustment is not required, record the same number in column 7 that is recorded in column 5. Add the numbers in column 7 and provide the total of column 7 to FEA by entering the total in item 4.2 of Part IV of Form FEA–U524–P–O.

Step 8. *Percentage Change in Energy Consumption Due to EPA/OSHA Requirements.* Sum all increments in energy consumption dut to EPA/OSHA regulatory requirements (generally all the changes in energy consumption will be increases). Divide this sum by the algebraic total (last row of column 6) of all energy consumption due to all operational changes. Multiply this expression by 100 to form the percentage value. Enter this number in the appropriate 2-digit SIC code column item 4.3 in Part IV of Form FEA–U524–P–O.

H. ENERGY EFFICIENCY NARRATIVE

Each reporting corporation must provide FEA with a written text not longer than two typewritten, single-spaced pages on specific measures that the corporation has implemented to improve its energy efficiency during the reporting period. This document should be attached to the corporation's report.

I. RETENTION OF DATA

All data are to be retained by the reporting corporation for a minimum period of 2 years.

J. CONFIDENTIALITY OF INFORMATION

Any reporting corporation which believes that any information provided to FEA in Form FEA–U524–P–O is a trade secret, or commercial or financial information that is privileged or confidential, and that disclosure of this information may cause significant competitive damage to it must inform FEA of this conclusion. Specifically, the reporting corporation must: (1) file, together with the Form FEA–U524–P–O a second copy of such form on which the information which if released the corporation believes would cause significant competitive damage is clearly indicated, (2) indicate on the original form that it contains confidential information, and (3) file a concise statement which explains, item by item, the exact nature of the significant competitive damage which would result from the release of such item, and whether that item is customarily treated as confidential by the reporting corporation and the industry. A detailed explanation of the competitive damage resulting from public disclosure—rather than general statements that an item is confidential—is needed by FEA to determine whether the item may be released. FEA retains the right to make its own determination regarding any claim of confidentiality. Prior to disclosing any information contained in Form FEA–U524–P–O which the Administrator determines is information described in 5 U.S.C. 552(b)(4), the Administrator will afford, pursuant to section 376(e) of the Energy Policy and Conservation Act (15 U.S.C. 956(e)), the person who provided the information an opportunity to comment on the proposed disclosure.

DELEGATION OF AUTHORITY TO SIGN AND CERTIFY

_____
(Date of Signing)

_____
(Name of Reporting Corporation)

I, _____, hereby
(Name of Chief Executive Officer)

certify that I am the _____ of the
(Title)

above-named corporation and that, as such, I am authorized to sign documents and to certify, on behalf of said corporation, the accuracy and completeness of all documents required to be submitted to the U.S. Government. Pursuant to the power vested in me, I hereby delegate all or, to the extent indicated below, a portion of that authority to the person(s) listed below, who is(are) corporate officers of the above-named corporation. This delegation is effective until it is revoked in writing and teh Federal Energy Administration is so notified.

System of Records

Notice is hereby given that the Federal Energy Administration (FEA) intends to operate a system of records designated as "FEA-21, Electric Rate Demonstration Data Base." FEA has previously published a notice of a proposal to this effect (42 FR 13584) and as provided by Section 3(e)(11) of the Privacy Act of 1974 (5 U.S.C. 552a(e) (11)), interested persons were invited to submit written data, views or arguments related to this proposal. One comment was received, from the Los Angeles Department of Water and Power, suggesting that the Privacy Act is inapplicable to the Electric Rate Demonstration Program, and therefore, with respect to that program, no system of records is being maintained by a Federal agency. However, since (i) there is a chain of funds which links the FEA and the utilities participating in this program, (ii) the cooperative agreements between FEA and the sponsoring local agencies provide that the provisions of the Privacy Act of 1974 will apply, (iii) the FEA has provided by contract that the sponsoring local agencies and their subcontracting utilities not use the information gathered in the conduct of the projects for any purpose other than those explicitly stated in the project plans (i.e., the analysis of non-traditional rate forms and load management techniques), and (iv) other safeguards against unauthorized access to information generated in the course of the projects are imposed by agreements to which the FEA is a party, FEA considers the Privacy Act to be properly applied to the records generated by the program and the Agency does not deem it necessary to modify or withdraw the proposed system of records. Accordingly, FEA adopts FEA-21 as originally proposed.

(Privacy Act of 1974 (5 U.S.C. 552a); Federal Energy Administration Act of 1974 (15 U.S.C. 761 et seq.), as amended by Pub. L. 94-385; E.O. 11790 (39 FR 23185, June 27, 1974).)

Issued in Washington, D.C., April 28, 1977.

ERIC J. FYGI,
Acting General Counsel.

[FR Doc.77-12752 Filed 5-3-77;8:45 am]

FEDERAL MARITIME COMMISSION

BOARD OF TRUSTEES OF THE GALVESTON WHARVES AND FARMERS EXPORT CO.

Agreements Filed

Notice is hereby given that the following agreements have been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreements at the Washington office of the Federal Maritime Commission, 1100 L Street NW., Room 10126; or may inspect the agreements at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California, and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before May 24, 1977. Any person desiring a hearing on the proposed agreements shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreements (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Mr. Carl S. Parker, Jr., Traffic Manager, Board of Trustees of the Galveston Wharves, 802 Rosenberg, P.O. Box 328, Galveston, Texas 77553.

Agreement No. T-3463, which is between the Board of Trustees of the Galveston Wharves (Port) and Farmers Export Co. (FEC), provides for FEC's lease of a 16.021 acre agricultural bulk commodities facility, including the exclusive use of 1,000 linear feet of both space at Piers 30, 32, and a small portion of Pier 33; and the preferential use of the apron lying between these piers and the adjacent transit sheds. This facility is to be operated by FEC as a public elevator

terminal and materials handling facility on a first-come, first-serve, nonexclusive basis; serving the general public for the warehousing, storing, marketing, conditioning and shipping of bulk commodities, including dry agricultural products. The term of the agreement commences upon its approval by this Commission and terminates on the scheduled maturity date of the last maturing City of Galveston, Texas, Special Contract Revenue Bonds, Series 1977 (Bonds) issued for payment of the acquisition of the facility and the payment of any remaining costs of constructing the facility. The lease has four successive five-year renewal options. FEC is to publish tariffs setting forth the rates, charges, rules and regulations governing the facility's operation, which are subject to the Port's approval prior to publication. However, the Port will collect and retain dockage and wharfage on all cargo other than bulk commodities handled at the facility in accordance with its tariffs. As compensation, the Port is to receive: (1) basic rental in an amount equal to the total principal, interest and premium, if any, and paying agent fees the Port is obliged to pay on the Bonds, less any amounts which are on deposit in the Bond's Interest and Redemption Fund; and (2) other rental, consisting of (a) $200,000 annually for the exclusive use of the berth space granted under the agreement and the right to receive certain dockage fees, (b) $80,105 annually as ground rental for the facility, and (c) seventy-five percent (75 percent) of the dockage fees received by FEC.

Agreement No. T-3464 is also between the Port and FEC and is intended to take effect only in the event that the proceeds of the Bonds are unavailable on or before May 31, 1977, the date upon which the leasehold obligations of Cook Terminal Company, Inc., under FMC Agreements Nos. T-2814, T-2814-A and T-2814-B, as amended, terminate and FEC becomes the Port's tenant. This agreement is identical to Agreement No. T-3463, above, except that references to the bonds and related subjects, and the basic rental intended to repay the Bonds have been removed. The term of this agreement—in the event it is implemented—is thirty years, with seven successive five-year renewal options.

By order of the Federal Maritime Commission.

Dated: April 29, 1977.

JOSEPH C. POLKING,
Acting Secretary.

[FR Doc.77-12822 Filed 5-3-77;8:45 am]

FLOTA MERCANTE GRAACOLUMBIANA, S.A. AND MARITIMA TRANSLIGRA, S.A.

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street NW., Room 10126; or may inspect the agreements at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California and San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before May 24, 1977. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Renato C. Giallorenzi, Esquire, Giallorenzi and Stiles, 67 Broad Street, New York, New York 10004.

Agreement No. 10295, between Flota Mercante Grancolombiana, S.A. (Flota) and Maritima Transligra, S.A. (Transligra), would provide for the establishment of a space chartering arrangement for the transportation of bulk liquid cargo in the trade between U.S. Gulf ports and West Coast ports of Colombia, whereby Transligra will provide Flota with the necessary space on vessels owned or operated by Transligra pursuant to the terms and conditions set forth in the Agreement.

By order of the Federal Maritime Commission.

Dated: April 29, 1977.

JOSEPH C. POLKING,
Acting Secretary.

[FR Doc.77-12821 Filed 5-3-77; 8:45 am]

FEDERAL POWER COMMISSION

[Docket No. ER76-530]

ARIZONA PUBLIC SERVICE CO.

Order Granting Petition to Intervene Out of Time

APRIL 28, 1977.

On February 26, 1976, Arizona Public Service Company (APS) tendered for filing a rate increase pursuant to Section 205 of the Federal Power Act which would increase revenues from jurisdictional sales and service by $3,627,560, based on the 12-month period ending March 31, 1976.

Public notice of said filing was issued on March 2, 1976, with protests or petitions to intervene due on or before March 19, 1976.

By order issued March 31, 1976, the Commission accepted in part and rejected in part the proposed rate schedule for filing, instituted a Section 206 investigation, and suspended the proposed increases until May 1, 1976, to become effective thereafter subject to refund.

On March 22, 1977, Wellton-Mohawk Irrigation and Drainage District filed an untimely petition to intervene. Our review indicates that Wellton-Mohawk has a sufficient interest in this proceeding so as to warrant intervention because it purchases electric power at wholesale under APS's Rate Schedule No. 58.

The Commission finds: (1) Since participation by Wellton-Mohawk will not delay the instant proceeding upon the conditions attached herein, good cause exists for accepting its late petition to intervene.

(2) Participation by Wellton-Mohawk may be in the public interest.

(3) Waiver of § 1.8(d) of the Commission's Rules of Practice and Procedure should be granted.

The Commission orders: (A) The timely filing requirement of § 1.8(d) of the Commission's Rules of Practice and Procedure is hereby waived and the out-of-time petition to intervene of Mohowk-Wellton Irrigation & Drainage District is hereby granted.

(B) Wellton-Mohawk is hereby permitted to intervene in this proceeding subject to the rules and regulations of the Commission; *Provided, however,* That participation of such intervenor shall be limited to matters affecting asserted rights and interests as specifically set forth in the petition to intervene; and *Provided, further,* That the admission of such intervenor shall not be construed as recognition by the Commission that it might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(C) The late intervention granted herein shall not be the basis for delaying or deferring any procedural schedules heretofore established for the orderly and expeditious disposition of this proceeding.

(D) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-12795 Filed 5-3-77;8:45 am]

[Docket No. RI77-21]

BETTIS, BOYLE & STOVALL (OPERATOR), ET AL.

Order Granting Petition for Special Relief and Permitting Intervention

APRIL 26, 1977.

On December 29, 1976, Bettis, Boyle and Stovall, (Operator), et al. (Bettis, Boyle and Stovall) filed a petition for special relief pursuant to § 2.76 of the Commission's General Policy and Interpretations (18 CFR 2.76) for the sale of natural gas to Cities Service Gas Company (Cities Service) from seven leases

in the Northwest Knowles Field, Beaver County, Oklahoma.

Bettis, Boyle and Stovall is an independent small producer which was issued a small producer certificate in Docket No. CS71-127 on January 18, 1971. Holding a 100 percent interest in the leases, Bettis, Boyle and Stovall is selling natural gas to Cities Service at a rate of 40 cents per Mcf at 14.65 psia pursuant to a contract dated October 5, 1960.

In contemplation of price increases sufficient to recover the costs including a reasonable return, Bettis, Boyle and Stovall undertook extensive rework of the wells and the gathering systems. However, Bettis, Boyle and Stovall states that the rate allowed small producers under Opinion No. 742-A and Order No. 553 is insufficient to recover costs and a reasonable return. To avoid premature abandonment, Bettis, Boyle and Stovall requests that the Commission authorize it to collect $1.10 per Mcf at 14.65 psia. A December 16, 1976 amendment to a prior gas purchase contract signed by Bettis, Boyle and Stovall and by Cities Service authorized the increase of the rate to $1.10 per Mcf or that found by the Federal Power Commission to be just and reasonable.

Notice of Bettis, Boyle and Stovall's petition for special relief was issued on January 17, 1977 and was published in the FEDERAL REGISTER. Cities Service filed a timely petition to intervene.

Based on an analysis of data submitted by Bettis, Boyle and Stovall, Staff estimates that 751,000 Mcf remain to be produced over a period of seven years, and concludes that the requested special relief is warranted on a cost basis.[1]

After reviewing the costs incurred and the reserves to be recovered, the Commission determines that Bettis, Boyle and Stovall's petition for special relief is warranted and that it is in the public interest to grant this petition.

The Commission finds:

The petition for special relief filed by Bettis, Boyle and Stovall meets the criteria set forth in § 2.76 of the Commission's General Policy and Interpretations.

The Commission orders: (A) The petition for special relief of Bettis, Boyle and Stovall is hereby granted.

(B) Effective upon the date of issuance of this order, Bettis, Boyle and Stovall is authorized to collect $1.10 per Mcf at 14.65 psia for natural gas sold to Cities Service from seven leases in the Northwest Knowles Field, Beaver County, Oklahoma under its October 5, 1960 contract, as amended.

(C) Cities Service is permitted to intervene in the above-entitled proceeding, subject to Rules and Regulations of the Commission; provided however, that its participation shall be limited to matters affecting asserted rights and interests specifically set forth in its petition for leave to intervene; and provided further, that the admission of Cities Service in the manner provided shall not be construed as recognition by the Commission that Cities Service might be aggrieved because of any order or orders entered in this proceeding, and that Cities Service agrees to accept the record as it now stands.

(D) Within thirty days of the date of issuance of this order, Bettis, Boyle and Stovall must file a statement signed by Cities Service that the work has been completed to their satisfaction.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[1] See Appendix.

[Docket No. CP77-341]

COLUMBIA GAS TRANSMISSION CORP.

Application

APRIL 25, 1977.

Take notice that on April 14, 1977, Columbia Gas Transmission Corporation (Applicant), 1700 MacCorkle Avenue SE., Charleston, West Virginia 25314 filed in Docket No. CP77-341 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain natural gas facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to construct and operate approximately 8.5 miles of 20-inch transmission pipeline replacing a like amount and size of pipeline located in Rockbridge and Augusta Counties, Virginia. Applicant states that the proposed replacement will be in four separate sections as follows:

Section No. 1 consists of approximately 1.9 miles of pipeline near Lexington, Rockbridge County, Virginia;

Section No. 2 consists of approximately 4.5 miles of pipeline near Fairfield, Rockbridge County, Virginia;

Section No. 3 consists of approximately 0.9 mile of pipeline near Steeles Tavern, Augusta County, Virginia; and

Section No. 4 consists of approximately 1.2 miles of pipeline near Lofton, Augusta County, Virginia.

Applicant states that the segments of pipeline to be replaced are mainly bare coupled pipe installed in 1931 without protection against corrosion, and that because of their age and deteriorating condition, Applicant has determined that these four sections of pipeline must be replaced with cathodically protected pipe in order to assure continued and reliable service. The proposed replacements are said to be compatible with those segments of this pipeline Applicant has previously replaced. Applicant states that the proposed construction cost is estimated to be $2,635,000 which cost would be financed with funds generated from internal sources. Applicant asserts that the proposed replacement should result in a de minimis decrease in annual operating and maintenance expense.

Any person desiring to be heard or to make any protest with reference to said application should on or before May 17, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-12788 Filed 5-3-77;8:45 am]

[Docket No. CP77-336]

CONSOLIDATED GAS SUPPLY CORP.

Application

APRIL 25, 1977.

Take notice that on April 12, 1977, Consolidated Gas Supply Corporation (Applicant), 445 West Main Street, Clarksburg, West Virginia 26301, filed in Docket No. CP77-336 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain field compression and transmission facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to construct and operate a new 1,200 horsepower field compressor station and related facilities near Pepper, Barbour County, West Virginia, and to reclassify an existing gathering pipeline to transmission service, in order to increase the gas supplies available to it from an existing production area located in Barbour County.

Applicant states that the proposed compressor station and related facilities will be located near an existing production area from which natural gas is produced by Applicant and purchased by it from local independent producers, and that these natural gas supplies are gathered through an extensive system of small-diameter gathering lines prior to their introduction into Applicant's interstate transmission system at its Bridgeport Compressor Station, in Harrison County, West Virginia.

It is stated that at the present the line pressures prevailing throughout the gathering system are too high to allow maximum rates of production from the wells producing into the system, and Applicant anticipates extensive future drilling activity in the Barbour County area, both by itself and by local independent producers. Applicant states that this increased drilling activity would not only increase the prevailing pressure in the gathering system but may also result in inadequate capacity at the Bridgeport Station. Applicant further states that Pepper Station, which would be located in the southern terminus on Applicant's Line No. TL-373, is designed to pump gas from the gathering system into Line No. TL-373, thereby reducing the pressures in the gathering system and permitting increased production from present and future wells in the Barbour County area. The proposed compressor facility would increase deliverability from the Barbour County production by approximately 3,000 Mcf of natural gas per day, it is said.

Applicant states that the estimated cost of the proposed facilities is $1,117,225 and would be financed from funds on hand and from funds to be obtained from Applicant's parent corporation, Consolidated Natural Gas Company.

It is stated that previously the TL-373 line fed into the suction side of the Bridgeport Station, which raised the natural gas gathered in the Barbour County gathering system to transmission pressure and injected it into Applicant's main transmission system. Applicant states that the proposed Pepper Station would perform this function, and Bridgeport Station can be bypassed, and that it believes that its Line No. TS-373 should be classified and operated as a transmission pipeline.

Applicant asserts that the proposed field compression facility is required to ameliorate the effects of the gas shortage on Applicant and its customers.

Any person desiring to be heard or to make any protest with reference to said application should on or before May 17, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedures (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, purusant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 77-12791 Filed 5-3-77;8:45 am]

[Docket No. RI77-30]

KARIS OIL CO., INC.

Amended Petition for Special Relief

APRIL 25, 1977.

Take notice that on April 11, 1977, Karis Oil Company, Inc. (Karis), 6607 Orchid Lane, Dallas, Texas 75230, submitted an amendment to its December 20, 1976, petition for special relief filed pursuant to § 2.76 of the Commission's General Policy and Interpretations in the above-captioned docket. By this amendment Karis seeks a rate of $1.10 per Mcf for its sale of gas to Northwest Pipeline Company from the Government No. 1 Well located in Rio Blanco, Colorado. Karis had previously sought a rate of $1.80 per Mcf.

Any person desiring to be heard or to make any protest with reference to said petition should on or before May 16, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission Rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-12793 Filed 5-3-77;8:45 am]

[Docket No. CP77-338]

LONE STAR GAS CO., DIVISION OF ENSERCH CORP.

Application

APRIL 25, 1977.

Take notice that on April 13, 1977, Lone Star Gas Company, a Division of Enserch Corporation (Applicant), 301 South Harwood Street, Dallas, Texas 75201, filed in Docket No. CP77-338 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the exchange of up to 1,000 Mcf of natural gas per day between Applicant and Arkansas Louisiana Gas Company (Arkla), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it has entered into a gas exchange agreement dated November 1, 1975, with Arkla to exchange natural gas for a period of 15 years in order to enable Arkla to obtain, by displacement, natural gas for resale to customers served by its Kingston, Oklahoma, distribution system. Applicant further states that under the agreement it is obligated to deliver such volumes of gas to Arkla as may be available to meet the requirements of Arkla's customers in Kingston, Oklahoma and its environs, up to a maximum of 1,000 Mcf of natural gas per day and Arkla is obligated to redeliver to Applicant equal volumes of gas delivered to it by Applicant.

Applicant and Arkla propose to deliver and receive the gas, as the case may be, to be exchanged at the following points.

1. *Point of delivery.* The point of delivery to Arkla shall be at a mutually agreeable point on Applicant's Line E-5-A-8 in Marshall County, Oklahoma.

2. *Point of redelivery.* The point of redelivery to Applicant shall be at a point where the pipeline facilities of the two companies interconnect in McClain County, Oklahoma.

It is stated that some of the gas that Arkla returns to Applicant would be gas produced outside the state of Oklahoma.

The facilities by means of which Arkla would return gas to Applicant involve the use of an existing tap at a point where the pipeline systems of the two companies interconnect, it is said. Applicant states that Arkla would install, operate and maintain at its own risk and expense, pipeline and other equipment including stand-by regulating and metering facilities, necessary to receive gas at the point of Delivery. Applicant proposes to install, operate and maintain at its own risk and expense gas exchange facilities in order to receive gas from Arkla in McClain County, Oklahoma.

Any person desiring to be heard or to make any protest with reference to said application should on or before May 16, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act

(18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-12789 Filed 5-3-77;8:45 am]

[Docket No. RP77-56]

NORTHERN NATURAL GAS CO.

Proposed Rate Increase

APRIL 28, 1977.

Take Notice that Northern Natural Gas Company on April 21, 1977, tendered for filing proposed changes in its F.P.C. Gas Tariff, Third Revised Volume No. 1 and Original Volume No. 2. The proposed changes would increase revenues from jurisdictional sales by $109,339,593 annually, based on sales volumes and costs for the twelve months ended December 31, 1976, as adjusted for the Test Period. Northern states the principal reasons for the proposed rate increase are: (1) Increased costs of obtaining new gas supplies, (2) Increased costs associated with a growing need for additional storage capacity required to maintain peak day and winter period deliveries to high priority customers, (3) The loss of revenues due primarily to declining gas supplies and resultant reductions in sales to low priority end use customers, (4) The need to provide a return of 11.125 percent on its utility investment, (5) Increased annual depreciation expense, (6) Increased income taxes and (7) Increased costs of operations. The proposed effective date is May 27, 1977.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with § 1.8, 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests must be filed on or before May 19, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-12796 Filed 5-3-77;8:45 am]

[Docket No. CP77-342]

TENNESSEE GAS PIPELINE CO.; DIVISION OF TENNECO INC.

Application

APRIL 25, 1977.

Take notice that on April 15, 1977, Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Applicant), Tenneco Building, Houston, Texas 77002, filed in Docket No. CP77-342 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the exchange of 12,000 Mcf of natural gas per day with Arkansas Louisiana Gas Company (Arkla), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to receive daily volumes of natural gas for Arkla's account in Desoto Parish, Louisiana, and to exchange such volumes, up to 12,000 Mcf per day, with Arkla on an Mcf for Mcf basis at the outlet of the Champlin-Carthage Plant in Panola County, Texas.

It is stated that Applicant and Arkla have contracted, under separate contracts to buy natural gas from ENERCO Exploration & Management Co. (ENERCO) from properties in the Chemard Lake Area, Desoto Parish, Louisiana, in the proportions 75 percent by Arkla and 25 percent by Applicant. Applicant states that in order to minimize the additional pipeline construction necessary to receive their proportionate shares of the ENERCO gas into their respective systems, Applicant and Arkla have entered into a contractual arrangement substantially as follows:

(a) Arkla would construct, operate, and maintain for the joint account of both parties a pipeline and related measurement and other facilities (all herein referred to as the Lateral Pipeline) necessary to receive gas from ENERCO under the contracts at the specified delivery point in Desoto Parish, Louisiana, and to transport said gas approximately 3 miles to a point of connection on Applicant's 20 inch O.D. Carthage Line in Desoto Parish, Louisiana, for delivery to Tennessee.

(b) Applicant would receive into its Carthage line from the Lateral Pipeline all of the gas purchased by Applicant and Arkla from ENERCO under their contracts.

(c) As contemporaneously as practicable, Applicant would deliver to Arkla at the outlet of the Champlin-Carthage Plant in Panola County, Texas (to which both Applicant and Arkla are connected) a volume equal to Arkla's proportionate part[1] of the ENERCO gas pursuant to the Gas Exchange and Transportation Agreement dated February 16, 1977.

Applicant asserts that the proposed exchange of gas with Arkla would allow Arkla to receive needed supplies of natural gas without the duplication of facilities, and that it would serve to augment Arkla's total gas supply available to its customers.

Applicant indicates that pursuant to the Gas Exchange and Transportation Agreement dated February 16, 1977, between Arkla and Applicant, it would reimburse Arkla for 25 percent of the cost of the Lateral Pipeline upon completion of the Lateral Pipeline; that Applicant would reimburse Arkla for 25 percent of the direct cost of operating and maintaining the Lateral Pipeline, and that the Lateral Pipeline would be owned jointly by Arkla and Applicant, 75 percent by Arkla and 25 percent by Applicant.

Applicant states that it will initially finance its cost of the proposed facilities from general funds of the company and/or borrowings under the Applicant's revolving credit agreements, and/or cause such costs to be financed in the event a a person other than Applicant participate as owner of any of the facilities.

It is stated that on February 12, 1977, Applicant was authorized to transport up to 850 Mcf of natural gas per day for 2 years for Briggs Corporation (Briggs) from ENERCO, and pursuant to this authorization ENERCO constructed temporary delivery facilities to Applicant's Carthage Line in Desoto Parish, Louisiana in order to commence the delivery of the gas to Applicant for the account of Briggs. Applicant states that its right to purchase 25 percent of the gas during the 2 year duration of the Briggs transportation service is subject to Briggs' prior right to 850 Mcf of natural gas per day of ENERCO's production, which volumes would otherwise be delivered to Applicant under a contract between Applicant and ENERCO dated January 6, 1977.

Any person desiring to be heard or to make any protest with reference to said application should on or before May 17, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to

[1] Applicant is receiving an average 33,000 Mcf of natural gas per day at the outlet of the Carthage Plant pursuant to Gas Purchase and Sales Agreements between applicant and a number of producers. Thus, Applicant has the capability to deliver up to 12,000 Mcf of natural gas per day to Arkla at such point, it is asserted.

a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-12794 Filed 5-3-77;8:45 am]

[Docket No. CP77-340]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Application

APRIL 25, 1977.

Take notice that on April 14, 1977, Transcontinental Gas Pipe Line Corporation (Applicant), P.O. Box 1396, Houston, Texas 77001, filed in Docket No. CP77-340 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of up to 15,000 Mcf of natural gas per day at 14.73 psia on an interruptible basis for Elizabethtown Gas Company (Elizabethtown), an existing distribution customer of Applicant, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to transport a total of 1,500,000 Mcf (14.73 psia) of natural gas in daily volumes not to exceed 15,000 Mcf during the period April 1, 1977 through March 31, 1978 for Elizabethtown pursuant to an agreement dated February 15, 1977, among Applicant, Elizabethtown and National Fuel Gas Supply Corporation (Supply). Applicant states that Elizabethtown has contracted with Supply for limited-term storage service of the subject gas, and has requested Applicant to transport storage quantities to Supply during the 1977 injection period (April 1 through October 31) and to return such quantities to Elizabethtown during the 1977-78 withdrawal period (November 1 through March 31).

Injection quantities would be delivered to Supply through existing facilities at the Wharton Storage Field in Pennsylvania, and withdrawal quantities would be delivered to Applicant at that point and in turn delivered to Elizabethtown at existing points of delivery to that customer in New Jersey, it is said. Applicant indicates that it would retain 3 percent of the quantities of gas transported during injection and 4 percent of the quantities of gas transported during withdrawal for compressor fuel and line loss makeup, subject to change as operating conditions warrant. Applicant states that Elizabethtown would pay an initial rate of 9.55 cents per dekatherm for all quantities transported and delivered.

Applicant states that no facilities are required to render the proposed service. Applicant asserts that the proposed service is needed to assist Elizabethtown in minimizing curtailments to its high priority markets during the 1977-78 heating season, and such storage service would assist in offsetting the uncertainties of weather-related demand and lessening the adverse impact of winter curtailments by Elizabethtown's pipeline supplier.

Any person desiring to be heard or to make any protest with reference to said application should on or before May 16, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate, is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 77-12790 Filed 5-3-77;8:45 am]

[Docket No. CP76-413]

UNITED GAS PIPE LINE CO. AND TENNESSEE GAS PIPELINE CO.

Application To Amend

APRIL 26, 1977.

On April 20, 1977, United Gas Pipe Line Company (United), P.O. Box 1478, Houston, Texas 77001, and Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Tennessee), P.O. Box 2511, Houston, Texas 77001, filed in Docket No. CP76-413 an application to amend the Commission's order, issued October 5, 1976, pursuant to Section 7(c) of the Natural Gas Act by authorizing an extension to March 31, 1978, subject to a 20-day extension for balancing if required, of an exchange arrangement and related service and for the continued storage service of volumes (approximately 400,000 Mcf) which because of operating conditions remained in Northern Illinois Gas Company's (NI-Gas) facilities on April 1, 1977,[1] all as more fully set forth in the application to amend which is on file with the Commission and open to public inspection.

The order of October 5, 1976, authorized a similar service for the period ending March 31, 1977, subject to a 20-day extension. It is stated that during early 1976, United projected that it would be 25,000,000 Mcf of gas short of meeting the high priority needs of its customers and thus in an effort to ameliorate this situation, it entered into a Limited Term Exchange Agreement, dated June 18, 1976, with Tennessee whereby United was able to translate volumes of gas which it was able to obtain during the 1976 summer into winter quantities during the 1976-77 winter season. United anticipates that its gas supply available for sale during the 1977-78 winter season would again be insufficient to meet the high priority needs of its customers assuming normal weather conditions and United and Tennessee have agreed to amend the Limited Term Exchange Agreement so as to provide for the exchange of gas and related service with Tennessee as set forth above.

It is indicated that in furtherance of such arrangements, Tennessee, midwestern Gas Transmission Company (Midwestern), and NI-Gas have amended their triparty Rescheduling Agreement, dated June 18, 1976, to allow Tennessee to reschedule deliveries to Midwestern and Midwestern would then increase deliveries to NI-Gas, its customer, by an amount equivalent to that provided for under the exchange agreement, as amended. Applicants state that the volumes made available to Tennessee for United's account would be so delivered or caused to be so delivered at Crowley,

[1] It is stated that such remaining original volumes would be returned to United in the manner prescribed in the Rescheduling Agreement, as amended.

Acadia Parish, Louisiana, and/or at other mutually agreeable delivery points between United and Tennessee, but that the rescheduling agreement, as amended, further acknowledges that United may enter into short-term emergency transportation or sales agreements with others for delivery of gas to NI-Gas for the account of Midwestern and Tennessee as rescheduled volumes.

It is stated that gas delivered or caused to be delivered by United to Tennessee during the May to November period [2] would be returned or caused to be returned to United by Tennessee during the period November 1, 1977, through March 31, 1978, and that based on the reduced winter takes of NI-Gas and Midwestern pursuant to the rescheduling agreement, as amended, NI-Gas would reduce its takes from Midwestern by an aggregate amount equal to the rescheduled volumes delivered to it during the May 1 through November 1 period and Midwestern would in turn reduce its takes from Tennessee. It is asserted that the volumes thus made available to Tennessee would enable Tennessee to deliver equivalent volumes to United at Bayou Sale, St. Mary Parish, Louisiana, and/or at other mutually agreeable existing points of interconnection of United's and Tennessee's systems and should Midwestern determine that due to operating conditions it is unable to so reduce its takes from Tennessee, then Tennessee would complete the return of the total aggregate volumes delivered to NI-Gas as rescheduled volumes.

The application shows that in accordance with the provisions of the rescheduling agreement, as amended, Tennessee would pay NI-Gas the current unit rate per Mcf of gas as a rescheduling charge and Tennessee would also pay Midwestern an amount equal to the product of the total volumes of rescheduled gas delivered to NI-Gas times 7.24 cents. It is further shown that United would pay to Tennessee rates computed as follows: (1) For those volumes delivered to Tennessee for United's account at Crowley, 29.2 cents per Mcf times the volumes received by NI-Gas as rescheduled volumes as defined in the rescheduling agreement; (2) in the event delivery point or points other than Crowley are used the rate to be charged United would be computed by adding the aforementioned 7.2 cents per Mcf to the product of the volumes so delivered to Tennessee times (a) the distance in miles between point of receipt of such gas by Tennessee and the point of delivery to Midwestern and (b) Tennessee's system average transportation cost per mile per Mcf (0.0368 cent per Mcf per miles; (3) for rescheduled volumes which are delivered to NI-Gas for the account of Midwestern and Tennessee pursuant to short-term emergency transportation or sales arrangements with others as provided for in the rescheduling agreement, as amended, United would pay to Tennessee 23.2 cents per Mcf times such volumes received by NI-Gas. Further, it is stated that in addition to these payments, United would pay to Tennessee the payments which Tennessee is required to pay NI-Gas pursuant to the rescheduling agreement, as amended.

It is asserted that the exchange agreement with Tennessee, as amended, together with the rescheduling agreement among Tennessee, Midwestern and NI-Gas, as amended, would enable United to utilize better its available gas supply in meeting the high priority requirements of its customers and that in order to accomplish this objective, it is essential that United be permitted to recover the jurisdictional portion of the associated costs. In connection therewith, United proposes that such costs be recovered through a special surcharge to be applied to deliveries made by United during the months of November 1977 through March 1978. It is stated that United was authorized by the order of October 5, 1976, to recover the jurisdictional portion of costs incurred under the exchange agreement during the initial term thereof by means of such a special surcharge. Specific Commission approval is requested for the exact procedure by which United proposes to recover its costs and also for the derivation of Tennessee's aforesaid charge of 29.2 cents per Mcf as provided for in the exchange agreement, as amended.

Any person desiring to be heard or to make any protest with reference to said application to amend should on or before May 16, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any persons wishing to become a party to the proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-12786 Filed 5-3-77;8:45 am]

[2] It is indicated that United would deliver to Tennessee up to an aggregate volume of 10,000,000 Mcf of gas during the period May 1 to November 1, 1977, and that the parties have agreed to use their best efforts to accommodate the delivery of the total aggregate volume and to increase such volume to 20,000,000 Mcf if possible. Further, it is indicated that deliveries to Tennessee by United may, by agreement of the parties, continue through November 30, 1977, but that the return phase of the exchange agreement, as amended, would begin no later than November 30, 1977, and continue through March 31, 1978.

[Project No. 1759]

WISCONSIN MICHIGAN POWER CO.

Application for Amendment of License

APRIL 25, 1977.

Public notice is hereby given that an application was filed on December 3, 1976, under the Federal Power Act, 16 U.S.C. §§ 791a–825r, by Wisconsin Michigan Power Company (Applicant) (Correspondenct to: Mr. Jermond L. Ellefson, Assistant Vice President and General Manager, Wisconsin Michigan Power Company, 807 South Oneida Street, Appleton, Wisconsin 54911) for an amendment of the license for Project No. 1759, known as the Michigamme Project. Project No. 1759 is located on the Michigamme and Menominee Rivers in Iron and Dickinson Counties, Michigan and Florence County, Wisconsin.

Applicant seeks amendment of its license to raise the normal headwater elevation of the Michigamme Reservoir and and Way Plant one foot from 1374 to 1375 m.s.l. The Way Dam, which impounds the Michigamme Reservoir, is located on the Michigamme River in Iron and Dickinson Counties, Michigan. The raising of the elevation of the reservoir by one foot would provide an additional 255 million cubic feet of water to be stored in the reservoir. The additional storage would be utilized to generate an estimated 2.2 million kilowatthours of electricity annually. No structural modifications to the project works would be necessary.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 18, 1977, file with the Federal Power Commission, 825 N. Capitol Street NE., Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1976). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and conferred upon the Federal Power Commission by Sections 308 and 309 of the Federal Power Act, 16 U.S.C. Sections 825g and 825h, and the Commission's Rules of Practice and Procedure, specifically § 1.32(b), as amended by Order No. 518, a hearing on this application may be held before the Commission without further notice if no issue of substance is raised by any request to be heard, protest, or petition filed subsequent to this notice within the time required herein. If an issue of substance is so raised, further notice of hearing will be given.

Under the shortened procedure herein provided for, unless otherwise advised,

it will not be necessary for Applicant to appear or be represented at the hearing before the Commission.

The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-12792 Filed 5-3-77;8:45 am]

[Docket No. CP77-348]

COLUMBIA GULF TRANSMISSION CO. ET AL.

Application

APRIL 27, 1977.

Take notice that on April 19, 1977, Columbia Gulf Transmission Company (Columbia Gulf), 3805 West Alabama Avenue, Houston, Texas 77027; Northern Natural Gas Company (Northern), 2223 Dodge Street, Omaha, Nebraska 68102, and Tennessee Gas Pipeline Company, A Division of Tenneco Inc. (Tennessee), hereinafter jointly referred to as "Applicants", filed an application pursuant to Section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of 1.6 miles of 12-inch pipeline from a producer platform in Block 609, West Cameron Area, Offshore Louisiana to an existing underwater tap in Block 617 to attach and transport gas from reserves in Block 609, to shore through existing facilities from Block 617 to the Blue Water Project and through the Blue Water Project to shore, in which facilities some or all of Applicants have an interest.

Any person desiring to be heard or to make any protest with reference to said application, on or before May 19, 1977, should file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-12761 Filed 5-3-77;8:45 am]

[Docket No. CP74-126]

EL PASO NATURAL GAS CO.

Petition To Amend

APRIL 27, 1977.

Take notice that on April 14, 1977, El Paso Natural Gas Company (Petitioner), P.O. Box 1492, El Paso, Texas 79978, filed in Docket No. CP74-126 a petition to amend the Commission's order of February 14, 1977, issued in the instant docket (57 FPC _____) pursuant to Section 7 (c) of the Natural Gas Act so as to permit Petitioner's participation in the facilities necessary to connect the MRT Exploration-Kirtley well Unit No. 1 (Kirtley Well) to Natural Gas Pipeline Company of America's (Natural) gathering system in Beckham County, Oklahoma, all as more fully set forth in the petition which is on file with the Commission and open to public inspection.

Petitioner states that pursuant to the Commission's order dated February 14, 1977, issued in the instant docket and Docket No. CP74-162, Petitioner and Natural were granted authorization to construct and operate certain facilities and to increase the quantities of gas to be exchanged between Petitioner and Natural. It is said that pursuant to such authorization Petitioner proposed to construct and operate, inter alia, facilities necessary to connect the Kirtley well to one of Natural's existing 8-5 inch O.D. gathering system pipelines so as to deliver, on an exchange basis, Petitioner's share of the gas produced from such well to Petitioner at a point on Petitioner's system identified as the Beckham No. 2 Exchange Point, in Beckham County, Oklahoma. The subject facilities consisted of approximately 1.13 miles of 6⅝ inch O.D. pipeline, a 4½ inch O.D. meter run and a 5,000 Mcf per day dehydration unit, all at an estimated direct cost of $73,000, it is said.

Petitioner states that since the filing of its initial application, it has entered into a letter agreement dated January 13, 1977, with Mississippi River Transmission Corporation (MRT) and Panhandle Eastern Pipeline Company (Panhandle) relating to the construction, ownership, maintenance and operation of the well-tie and gathering facilities necessary to attach the Kirtley well to Natural's gathering system. Pursuant to this agreement, MRT will construct and operate, on its own behalf and on behalf of all other interest owners in production from the Kirtley well, the gathering facilities necessary to connect the well to Natural's gathering system, and such facilities are estimated to have a cost of approximately $79,700. It is stated that based upon the approximate 23 percent interest owned by Petitioner in the Kirtley well production, Petitioner would pay to MRT 23 percent of the actual cost incurred by MRT in such construction and would own an equivalent interest in the facilities, and normal operations would be provided by MRT at no charge to participants, it is said. Petitioner states that as a consequence of the Letter Agreement dated January 13, 1977, it no longer proposes to construct or operate any facilities relating to the attachment of production from Kirtley well to Natural's gathering system pipeline.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before May 20, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-12764 Filed 5-3-77;8:45 am]

[Docket No. CP77-349]

FLORIDA GAS TRANSMISSION CO.

Application

APRIL 27, 1977.

Take notice that on April 19, 1977, Florida Gas Transmission Company (Florida Gas), filed in Docket No. CP77-349, an application pursuant to Section 7(c) of the Natural Gas Act and Section 157.7 of the Commission's Regulations thereunder (18 CFR 157.7) for a certificate of public convenience and necessity authorizing the construction and operation of a compressor station and related facilities at or near the interconnection of Transcontinental Gas Pipe Line Corporation's (Transco's) and Florida Gas' facilities in Vermilion Parish, Louisiana, and further the transportation of natural gas for the account of Southern Natural Gas Company (Southern) from said interconnection to the authorized existing interconnection of Florida Gas' and Southern's systems in Washington Parish, Louisiana, or any other authorized point of interconnection which may be mutually agreeable to Florida Gas and Southern.

Florida Gas and Southern have entered into a transportation agreement dated March 15, 1977, pursuant to which Southern will deliver or cause to be delivered up to 100,000 MMBtu per day at the Transco-Florida Gas interconnection identified above, for ultimate redelivery to Southern at the existing Southern-Florida Gas Exchange point near Frank-

linton Washington Parish, Louisiana or at any other authorized point of interconnection which may be mutually agreeable to Florida Gas and Southern from time to time. Florida Gas proposes to charge Southern 11.1 cents per MMBtu for each MMBtu redelivered at the point of redelivery. Said rate is composed of a facility charge (8.6 cents per MMBtu) and a service charge (2.5 cents per MMBtu). The rate is subject to increase or decrease pursuant to any order issued by the Commission or any successor governmental body having jurisdiction.

Additionally, Florida Gas indicates that in order to deliver the anticipated quantities of natural gas to Southern it will be necessary to install a 2,500 horsepower compressor at or near the aforementioned Vermilion Parish interconnection. Southern shall reimburse Florida Gas for all costs so incurred by Florida Gas.

Any person desiring to be heard or to make any protest with reference to said application, on or before May 23, 1977, should file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-12765 Filed 5-3-77;8:45 am]

[Docket No. ER76-211]

FLORIDA POWER & LIGHT CO.

Electric Rates, Order Approving Settlement

APRIL 28, 1977.

On February 4, 1977, Florida Power & Light Company (FP&L) filed a Motion for Approval of Settlement Agreement (Agreement). For the reasons set forth herein, the Commission approves the Agreement which effectively terminates this proceeding.

Proceedings were initiated in this docket on October 31, 1975, when FP&L tendered for filing a proposed rate increase (SR-1) in FPC Electric Tariff, Original Volume No. 1, amounting to $6,740,000 for certain cooperatives and $462,000 for certain municipal customers on a period II calendar 1976 test period basis.

By order issued December 31, 1975 the Commission suspended the proposed increase for three months to allow it to go into effect April 1, 1976 subject to refund. By order issued March 29, 1976 the Commission deferred action on Staff's motion for summary disposition of the tax normalization issue, pending the final resolution of Order No. 530-A.

Formal settlement conferences were held on August 5, 1976 and September 10, 1976. On February 4, 1977, as mentioned above, FP&L submitted a Motion for Approval of Settlement Agreement. Notice of the proposed settlement was issued February 16, 1977. Staff filed comments in support of the settlement on February 24, 1977. Additional supporting comments were filed by parties to the settlement.

In summary the agreement provides (1) for a reduction in the proposed increase to $4,000,000 for the cooperatives and $269,000 for the municipals; (2) for a reduction in the proposed filed rate demand ratchet for the full-requirement customers from 75 percent to 70 percent of the highest metered demand during the preceding eleven months; (3) for refunds to be made with 9 percent interest per annum; (4) for a phase out of the 23kv service to Homestead and New Symrna by June 30, 1977, subsequent interconnection services then to be rendered at higher voltage. No concession is made with respect to any rate-making principle or law.

The settlement revenue level generates a 9.67 percent overall rate of return including 13.0 percent return on common equity. This is the rate of return on common equity utilized by the Staff in the preparation of the top sheets that form the basis of settlement in this case. The common stock equity ratio utilized in the rate of return determination was 35.7 percent. A 13 percent rate of return on common stock equity at an equity ratio of 35.7 percent is consistent with rates of return on common stock equity that we have authorized in recent proceedings and appears reasonable in this case. Inter-period tax normalization as claimed by the company, is in accordance with Order 530-B. A test period revenue comparison is presented below:

	Cooperatives	Municipals	Total	Percentage increase
Prior rates	$34,498,000	$2,364,000	$36,862,000	
Originally proposed increase	6,740,000	462,000	7,202,000	19.5
Settlement increase	4,000,000	269,000	4,269,000	11.6

Based on our review of the Settlement Agreement record in these proceedings, we conclude that the agreement represents a reasonable resolution of the issues in the proceeding in the public interest, and that the settlement should be approved accordingly.

The Commission finds: The Settlement Agreement filed in this docket on February 4, 1977, should be approved and made effective, as hereinafter ordered.

The Commission orders: (A) The Settlement Agreement filed with the Commission in this proceeding on February 4, 1977 is incorporated herein by reference, accepted and approved.

(B) Within 30 days of the date of issuance of this order, FP&L shall file revised tariff sheets to effectuate the provisions of the Agreement and upon acceptance by the Commission of the filing of the revised tariff sheets, FP&L shall make refunds to the affected customers of all amounts collected in excess of the settlement rates provided for in the Agreement and approved herein. Said refunds shall be made in accordance with the terms of the Agreement and shall bear interest at the rate of 9 percent annum.

(C) Within 15 days after refunds are made, FP&L shall file a refund report with the Commission, shall serve a copy thereof upon all affected customers, and shall furnish a copy to the State Commission within whose jurisdiction the wholesale customers distribute and sell electric energy at retail. Such report shall show monthly billing determinants and revenues under prior, present and settlement rates; the monthly settlement rate increase; the monthly refund; and the monthly interest computation together with a summary of such information for the total refund period.

(D) This order is without prejudice to any findings or orders which have been made or which may hereafter be made by the Commission, and is without prejudice to any claims or contentions which may be made by the Commission, its Staff, or any party or person affected by this order in any proceeding now pending or hereafter instituted by or against FP&L or any other person or party.

(E) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER77-309]

MONONGAHELA POWER CO. AND WEST PENN POWER CO.

Changes in Rates and Charges

APRIL 28, 1977.

Take notice that Allegheny Power Service Corporation (APSC) on April 18,

1977 tendered for filing on behalf of Monongahela Power Company (Monongahela) and West Penn Power Company (West Penn), two of the electric utilities which make up the integrated Allegheny Power System, Amendment No. 5 dated April 14, 1977 to the Interchange Agreement dated October 17, 1968 between Monongahela, West Penn and the Ohio Edison Company and Pennsylvania Power Company designated Monongahela Rate Schedule FPC No. 29 and West Penn Rate Schedule FPC No. 27.

APSC indicates that Amendment No. 5 provides for an increase in the demand charge for short-term power from $0.50 to $0.60 per kilowatt week and an increase in the charge for short-term power obtained by the supplying party from another system from $0.125 to $0.15 to become effective May 23, 1977. APSC states that since short-term power transactions are scheduled from time to time as load capacity conditions on the systems of the parties dictate, it is impossible to estimate the increase in revenues which would result from Amendment No. 5.

Any person desiring to be heard or protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure. All such petitions or protest should be filed on or before May 11, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-12762 Filed 5-3-77;8:45 am]

[Docket No. CP77-346]

NATURAL GAS PIPELINE CO. OF AMERICA, ET AL.

Application

APRIL 27, 1977.

Take notice that on April 13, 1977, Natural Gas Pipeline Company of America, 122 South Michigan Avenue, Chicago, Illinois, 60603, Trunkline Gas Company, 3000 Bissonnet Avenue, Houston, Texas, 77005, and Columbia Gulf Transmission Company, 3805 West Alabama Avenue, Houston, Texas, 77027 (Applicants), filed in Docket No. CP77-346 a joint application pursuant to Section 7 (c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of pipeline and related facilities necessary to connect gas supplies located in High Island Area Block A-343, A-342 and A-337, Offshore, Texas, to a point of interconnection with High Island Offshore System (HIOS) facilities on a platform owned by HIOS also located in Block A-343, all as more fully set forth in the application which is on file with the Commission.

The application states that the facilities necessary to attach the gas from the producers' platform in Block A-343 to the HIOS platform in Block A-343 are 1.24 miles of 20-inch gathering line and other appurtenant facilities. Applicants estimate that the total cost of such facilities will be approximately $2,889,600. The application further states that the facilities necessary to attach the gas from the producers' platform in Block A-342 to the producers' platform in Block A-343 are 2.19 miles of 12-inch gathering line and other appurtenant facilities. Applicants estimate the total cost of such facilities will be approximately $3,627,600.

Any person desiring to be heard or to make any protest with reference to said application, on or before May 25, 1977, should file with the Federal Power Commission, Washington, D.C., 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-12760 Filed 5-3-77;8:45 am]

[Docket No. G-10632]

NORTHERN ILLINOIS GAS CO.

Petition to Amend

APRIL 27, 1977.

Take notice that on April 20, 1977, Northern Illinois Gas Company (NI-Gas), P.O. Box 190, Aurora, Illinois 60507, filed in Docket No. G-10632 a petition to amend the Commission's order issued October 5, 1976, in said docket pursuant to section 1(c) of the Natural Gas Act by authorizing an additional declaration of continued applicability of NI-Gas' existing exemption from the provisions of the Natural Gas Act pursuant to Section 1(c) thereof, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

It is asserted that NI-Gas is engaged in the business of selling and distributing gas to more than 1,300,000 customers in the State of Illinois, including most of the Chicago suburban area and that it is a public utility subject to the jurisdiction of the Illinois Commerce Commission. NI-Gas states that it has been exempt from the provisions of the Natural Gas Act under section 1(c) thereof by order issued July 26, 1956, in Docket No. G-10632.

NI-Gas states that United Gas Pipe Line Company (United), Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Tennessee), and Midwestern Gas Transmission Company (Midwestern) are filing in Docket Nos. CP76-413 and CP76-414 1977 amendatory agreements to the Limited Term Exchange Agreement between United and Tennessee and to the Rescheduling Agreement among Tennessee, Midwestern, and NI-Gas together with a request for a one-year extension of the authorization granted by the order issued October 5, 1976, in those dockets and in the instant docket. It is said that the amended agreements provide for a rescheduling of gas deliveries from Tennessee to Midwestern and from Midwestern to NI-Gas and an exchange of up to 20,000,000 Mcf of natural gas during the period May 1, 1977, through March 31, 1978, similar to that authorized by the order of October 5, 1976.

NI-Gas states that it is advised that the amended exchange agreement between United and Tennessee is necessary in order to aid United in meeting peak day requirements of its high priority customers, and that in order to permit Tennessee to enter into the amended agreement, NI-Gas and Midwestern have agreed to reschedule deliveries under the amended rescheduling agreement. NI-Gas asserts that since the deliveries of rescheduled gas during the period beginning May 1, 1977, through October 31, 1977, would replace volumes normally delivered to Midwestern and NI-Gas during the period beginning November 1, 1977, through March 31, 1978, there would be not net increase in deliveries by Tennessee to Midwestern or by Midwestern to NI-Gas due to the proposed rescheduling.

NI-Gas states that the amended rescheduling agreement is for a limited term ending March 31, 1978, and is intended only as a temporary arrangement to assist Tennessee in meeting its obligations to United under the amended exchange agreement. NI-Gas asserts that all of the natural gas delivered to it would be received within the State of Illinois and would be ultimately con-

sumed within said state and that no gas received by NI-Gas would leave the State of Illinois or be redelivered in any way to Midwestern, Tennessee, or United.

Accordingly, NI-Gas requests that the Commission issue an order declaring that the existing exemption of NI-Gas under section 1(c) of the Natural gas Act is not affected by its participation in the extension of the rescheduling of deliveries contemplated under the amended agreements.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before May 18, 1977 file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH E. PLUMB,
Secretary.

[FR Doc.77-12757 Filed 5-3-77;8:45 am]

[Docket No. ER76-820]

PUBLIC SERVICE CO. OF OKLAHOMA

Electric Rates: Rehearing; Order Denying Motion for Reconsideration and Granting Motion for Extension of Time

APRIL 27, 1977.

On March 28, 1977, the Public Service Company of Oklahoma (PSCO), complainant in the above captioned docket against the Grand River Dam Authority (GRDA), filed a petition for rehearing of our order issued March 7, 1977.[1] In that order, we, inter alia, set the matter of PSCO's FPC Rate Schedule No. 162 with GRDA for investigation pursuant to Section 206(a) of the Federal Power Act and subject to the burden of persuasion for fixed rate contracts enunciated in *FPC vs. Sierra Pacific Power Company* 350 U.S. 348 (1956). Specifically, PSCO in its present motion seeks reconsideration and clarification, or modification, of our ordering paragraph (D) of the March 7 order which requires PSCO to update its filed cost of service study in the present docket to reflect additional revenues that would be generated by the annual energy cost rate change to GRDA accepted by us in Docket No. ER77-170, effective January 1, 1977.

In support of its motion PSCO states that the amendment of the subject cost of service study to reflect revenues received in 1977 pursuant to the energy rates approved in Docket No. ER77-170 would make no sense. PSCO asserts that the filed Period I (1975) and Period II (1976) already reflect the application of the energy adjustment clause, and thus, the imputing of 1977 revenues on the 1976 Period II results in an inapplicable double counting of the energy clause in one year.

PSCO also filed on March 31, a motion for a stay or for a 30-day extension of time to amend its filing in compliance with our ordering paragraph (D) in the order of March 7, if its misnamed petition for rehearing is denied.

Full consideration of PSCO's motion for reconsideration in relation to its filing leads the Commission to the conclusion that the large amount of additional revenues generated through the energy adjustment clause accepted in Docket No. ER77-170 is material to a consideration of the fixed rate contract rates in the present docket, particularly in light of the *Sierra* burden placed on PSCO. PSCO should supplement its filing, without prejudice to its case in chief, pursuant to ordering paragraph (D). In other words, in addition to filing in compliance with paragraph (D), PSCO may make any further showing it deems germane to the issues at bar. Further the Commission considers it reasonable to grant PSCO's motion for extension of time to amend its filing.

The Commission finds: (1) Good cause exists to deny PSCO's motion requesting reconsideration of our ordering paragraph (D) in our order of March 7, 1977 in this proceeding.

(2) Good cause exists to extend the time to supplement PSCO's filing in accordance with ordering paragraph (D) in our March 7, 1977, order.

The Commission orders: (A) PSCO's application for rehearing treated as a motion for reconsideration is hereby denied.

(B) PSCO's request for an extension of time is hereby granted and, within 30 days of the issuance of this order, PSCO shall supplement, without prejudice, its cost of service study filed with us in the present docket to reflect additional revenues that would be generated by the annual energy rate change to GRDA approved in Docket No. ER77-170, effective as of January 1, 1977.

(C) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-12758 Filed 5-3-77;8:45 am]

[Docket No. CP77-345]

SOUTHERN NATURAL GAS CO.

Application

APRIL 27, 1977.

Take Notice that on April 18, 1977, Southern Natural Gas Company (Southern), P.O. Box 2563, Birmingham, Alabama, 35202, filed in Docket No. CP77-345, an application pursuant to Section 7(b) of the Natural Gas Act for an order authorizing the abandonment of facilities. In this application Southern also requests an order pursuant to Section 1.7(c) of the Commission's Regulations under the Natural Gas Act approving the permanent relocation of the facilities to be abandoned and the retention of their value and the inclusion of the costs incurred in their relocation in its rate base.

Specifically, Southern seeks authority to abandon and relocate one 2,500 horsepower compressor and related equipment from its Lacombe Compressor Station located in St. Tammany Parish, Louisiana. These facilities will be installed at an existing point of interconnection of the pipeline systems of Transcontinental Gas Pipe Line Corporation and Florida Gas Transmission Company (Florida Gas) pursuant to a transportation agreement between Southern and Florida Gas. The facilities sought to be abandoned were installed in the Lacombe Compressor Station pursuant to temporary and permanent certificates of public convenience and necessity issued in Docket No. CP64-314 on April 13, 1965, and June 8, 1966, respectively.

Southern states that these facilities are no longer necessary for the operation of the Lacombe Compressor Station and have been idle for the past four years.

The proposal is more fully described in the application on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said application, on or before May 24, 1977, should file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be

[1] Rehearing of an interlocutory order such as the March 7 order is not permitted by the Federal Power Act or our Rules. The petition is, therefore, being treated as a motion for reconsideration.

unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-12763 Filed 5-3-77;8:45 am]

[Docket No. CP77-344]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Application

APRIL 27, 1977.

Take notice that on April 18, 1977, Transcontinental Gas Pipe Line Corporation (Applicant), P.O. Box 1396, Houston Texas 77001, filed in Docket No. CP 77-344 an application pursuant to Section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of up to 5,000 dekatherms (dt) of natural gas per day on an interruptible basis for Carolina Pipeline Company; NCNG Exploration Corporation, representative of North Carolina Natural Gas Corporation; Philadelphia Electric Company; Piedmont Exploration Company, Inc., representative of Piedmont Natural Gas Company, Inc.; Rockingham Exploration Company, representative of North Carolina Gas Service Division of Pennsylvania & Southern Gas Company; Tar Heel Energy Corporation, representative of Public Service Company of North Carolina, Inc.; United Cities Gas Company, North and South Carolina Division; Owens-Corning Fiberglas Corporation; Burlington Industries, Inc.; [1] Devco Enterprises, Inc., representative of Cherokee Brick Company of North Carolina, Inc., deliveries to be made to Public Service Company of North Carolina, Inc.; (Customers) all of which are existing customers of Applicant direct and indirect, who have working interests entitling them to a share in the production from successful gas wells discovered under a joint venture exploration and development program to which these customers made substantial financial commitments, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that in 1975, in another effort to increase the gas supplies available to its system, it took the initiative in establishing a joint venture drilling program, the Transmac Exploration and Development Program (Transmac) under the management and operation of McMoRan Exploration Co. It is said that Transco Exploration Company (TXC), Applicant's exploration and production affiliate, became a substantial participant in the program and several of Applicant's existing distribution customers, certain industrial customers served by the distributors and a direct industrial customer also joined the program as contributing participants. Applicant indicates that the Transmac drilling fund was to be a 3-year program with a total budget of $36 million, and that the program is in the process of being revised and expanded with a proposed annual budget of $20 million beginning in September 1977, increasing to $22.5 million and $25 million annually in the next two succeeding years.

The Transmac fund is limited strictly to exploring onshore drilling prospects, or offshore prospects in state waters, in the Gulf Coast area, principally in the States of Louisiana, Mississippi and Texas, it is said. Applicant states that all of the participants have the right to take in kind the production attributable to their working interests in any successful wells developed under the program, and that the working interest attributable to TXC's participation would be sold to Applicant, unless prior dedications prevent such a sale, or unless the location and the size of the discovery would make delivery into Applicant's system economically infeasible. Applicant further states that its customers joined the Transmac program and made substantial financial commitments to the drilling fund with the expectation that gas attributable to their working interest could be taken in kind and transported to their respective market areas or to their plants and Applicant committed itself to undertake to arrange the transportation of the customers' gas. Several of Applicant's customers participating in the Transmac drilling program elected to be represented in the joint venture through subsidiaries or affiliates, and the representatives of the distribution companies are expected to qualify as "small producers", it is said. Applicant states that where the principal is represented in the program through an affiliate or subsidiary, the transportation service would be rendered for the representative in some cases and for the principal in some cases, with deliveries being made to the principal at existing delivery points on Applicant's system, and that deliveries to indirect customers who have participated would be made at existing delivery points to the Applicant distributors serving such customers.

The following are said to be participants in the successful drilling prospects developed to date under the Transmac program for which transportation service is proposed indicating, where appropriate, the relationships explained above:

1. RESALE CUSTOMERS

Carolina Pipeline Company.
NCNG Exploration Corporation, representative of North Carolina Natural Gas Corporation.
Philadelphia Electric Company.
Piedmont Exploration Company, Inc., representative of Piedmont Natural Gas Company, Inc.
Rockingham Exploration Company, representative of North Carolina Gas Service Division of Pennsylvania & Southern Gas Company.
Tar Heel Energy Corporation, representative of Public Service Company of North Carolina, Inc.
United Cities Gas Company, North and South Carolina Division.

2. DIRECT SALE CUSTOMER

Owens-Corning Fiberglas Corporation.

3. INDIRECT CUSTOMERS

Burlington Industries, Inc.
Devco Enterprises, Inc., representative of Cherokee Brick Company of North Carolina, Inc., deliveries to be made to Public Service Company of North Carolina, Inc.

Applicant indicates that the proposed transportation customers undertake to have their gas delivered to Applicant's system at no expense to Applicant, and it is understood that no facilities are to be constructed to effectuate deliveries to them.

Applicant indicates that the rates it proposes to charge for the proposed transportation service depend upon location of the delivery point on Applicant's system. Applicant states that the current rates for the transportation service are: Zone 1 deliveries, 42.8 cents per dt; Zone 2 deliveries, 45.8 cents per dt; and Zone 3 deliveries, 49.9 cents per dt. Applicant further states that these are the rates applicable to all long-haul interruptible transportation services rendered under agreements in which Applicant has the right to change its rates for such services. Applicant states that it would retain a percentage of the gas delivered to its system by the proposed transportation customers for compressor fuel and line loss make-up, such percentages to be the same as Applicant retains for other interruptible transportion deliveries in the same zone where delivery is made under the proposed transportation service.

Applicant states that under the proposed transportation agreements, it is provided, in the case of distributors who would receive the transportation gas, that the quantity transported (less the quantities retained for compressor fuel and line loss make-up), when combined with the quantities the distributor is scheduling under Applicant's Contract Demand (CD) Rate Schedule, other transportation agreements with Applicant, and any quantities being scheduled for transportation by industrial and commercial customers of the distributor, shall not exceed the distributor's authorized daily entitlement under its CD Rate Schedule, and that similar limitations apply to the transportation deliveries to the direct and indirect industrial customers.

Applicant asserts that the gas proposed to be transported would be utilized by the principals who have participated in the drilling programs to moderate the impact on their high-priority end uses of Applicant's curtailments of gas deliveries under CD service agreements and its one direct sales contract. None of the transportation gas would be utilized for boiler fuel purposes, it is said.

[1] Burlington Industries owns facilities which are served by the following distribution customers of Applicant: Carolina Pipeline Company, North Carolina Gas Corporation, Piedmont Natural Gas Company, Inc., Public Service Company of North Carolina, Inc., Public Service Electric and Gas Company, Virginia Pipeline Company. Transportation deliveries for Burlington Industries' account would be made to the distributors serving Burlington's facilities.

It is stated that drilling under the Transmac program in three fields has resulted in successful wells located in the Loisel Field, Iberia Parish and the West Mermentau Area, Acadia Parish, Louisiana and in the Kawitt Area, Karnes and DeWitt Counties, Texas, and that one successful well has been discovered in each field, but additional drilling on acreage held by the Transmac program is probable in the West Mermentau Area and in the Kawitt Area; as additional production is available from these fields, it would be transported for the account of the proposed transportation customers.

Applicant states that transportation gas from the Loisel Field would be delivered to its system through a transportation arrangement with Southern Natural Gas Company (Southern) which Applicant, acting as agent, has negotiated with Southern, and that transportation gas from the Kawitt Area would be delivered into Applicant's system on its McMullen Lateral, in Goliad County, Texas, near Applicant's Station 05 through arrangements which the participants in the well have worked out with Intrastate Gathering Corporation and National Gas Gathering Company, two gathering operators. Gas produced in the West Mermentau Area would be delivered into Applicant's system for the account of the transportation customers through a transportation or exchange arrangement between Applicant and Michigan Wisconsin Pipe Line Company, it is said.

Any person desiring to be heard or to make any protest with reference to said application should on or before May 26, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for lease to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-12759 Filed 5-3-77;8:45 am]

[Docket No. CP77-333]

TEXAS GAS TRANSMISSION CORP.
Application

APRIL 22, 1977.

Take notice that on April 6, 1977, Texas Gas Transmission Corporation (Applicant) P.O. Box 1160, Owensboro, Kentucky 42301, filed in Docket No. CP77-333, an application pursuant to section 7(c) of the Natural Gas Act and § 2.79 of the Commission's General Policy and Interpretations (18 CFR 2.79), for a certificate of public convenience and necessity authorizing the transportation of up to 895 Mcf of natural gas per day at 14.73 psia, on an interruptible basis for Associated Dry Goods Corporation, Peerless Pottery, Inc.; Indian Summer, Inc.; Zeidler Flora Company; Hahn, Inc.; Windsor Plastics, Inc.; Thin Twin Potato Chip Corporation; Babcock and Wilcox Company; White Swann Cleaners and Launderers of Evansville, Inc.; Indian Industries, Inc.; Hartford Bakery, Inc.; K & S Green Houses, Inc.; George Kock Sons, Inc.; American Dairy of Evansville, Inc.; and Modern Maid Food Products, Inc. (15 customers of Southern Indiana Gas and Electric Company (SIGECO), an existing resale customer of Applicant), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to transport up to 895 Mcf of natural gas per day at 14.73 psia, on an interruptible basis, for 2 years for 15 customers of SIGECO pursuant to a Transportation Agreement, dated February 12, 1977, between Applicant and Customers. Applicant states that these 15 customers, through their duly authorized agent, Southwestern Indiana Intrastate Gas Co-Operative, Inc., have entered into a contract with Ergon, Inc. (Ergon), for the purchase of volumes of natural gas to be produced from certain wells presently owned by Ergon in the Monroe Gas Field, Union Parish, Louisiana. It is stated that Ergon would sell the proposed volumes of gas to these 15 customers at a price of $2.25 per Mcf for gas having a gross heating value of 1,000 Btu's per cubic foot, and if it delivers gas gross heating value of more or less less than 1,000 Btu's per cubic foot, the price shall be adjusted by multiplying such price by a fraction, the numerator of which shall be the actual Btu content of the gas at the point of delivery and the denominator of which shall be 1,000.

Applicant states that the gas proposed to be transported would be delivered to it at an existing meter station operated by Applicant on Applicant's 26-inch mainline system in Union Parish, Louisiana, and Applicant would simultaneously redeliver the gas to its existing point or points of delivery with SIGECO for the account of the proposed 15 customers. In no event shall Applicant be obligated to deliver on any day an aggregate amount of more than the contract demand of 104,043 Mcf of natural gas through all points of delivery of Applicant to SIGECO, it is said. It is stated that SIGECO would accept volumes of natural gas up to 895 Mcf per day to be transported and delivered by Applicant to SIGECO for the account of the 15 proposed customers.

Applicant states that it would retain a volume equal to 7.0 percent above the delivered volume as makeup for compressor fuel loss and line loss, which percentage was calculated on an incremental basis for pipeline throughput to and within the rate zone in which the delivery by Applicant would be made, i.e., Zone 3. Applicant further states that it would collect an initial charge of 14.64 cents per Mcf (at 14.73 psia) for all quantities of gas transported and delivered to SIGECO for the account of the 15 customers. The proposed interruptible transportation rate is computed in the same manner, exclusive of the cost of compressor station fuel, as that rate charged for comparable long-haul interruptible transportation service by Applicant, it is said.

Applicant indicates that it would use its existing facilities to render the proposed transportation service. Applicant states that Ergon has gas purchase contracts with Reynolds Metals Company (Reynolds) and H. H. Robertson Company (Robertson) and only such gas as Ergon's Wells may produce in excess of the quantities delivered to Reynolds and Robertson, shall be dedicated to the contract between Ergon and the 15 proposed customers. Applicant indicates that the subject gas is new gas from which no previous sales have been made and that, in the event this gas is not sold to the 15 customers, it would be sold to local intrastate systems or to other high priority consumers.

Each of the 15 proposed customers has indicated that for each month of the proposed transport period the proposed end use of such natural gas is classified Priority II for process and plant protection gas. The curtailment schedules for each of the 15 proposed customers and the allocations of the gas proposed to be transported for each is as follows:

Associated Dry Good Corporation,
dba Stewart's Dry Good Company (Stewart)

Table I (Curtailment)

Period	Priority II
4/46 - 10/76	20%
11/76 - 3/77	60%
4/77 - 10/77	20%*
11/77 - 3/78	60%*
4/78 - 10/78	20%*

*(Estimated by Stewart's)

Based upon the above curtailments, SIGECO has informed Stewart's that it would receive the following allocations of gas:

Table II (Figures Given In Mcf)

Period	Priority II Requirements	SIGECO Allocation	Short Fall	Short Fall Percentage of Priority II Requirements

Peerless Pottery Co., Inc.

TABLE I
(curtailment)

Period	Priority 3	Priority 2
11-76/3-77	100%	60%

For Peerless Pottery Co., SIGECO has announced that it would receive the following allocation of gas for the period November 1, 1976 through March 31, 1977;

TABLE II
(figures given in Mcf)

Period	Priority 2 Requirements	S I G & E Co. Allocation	Peerless Shortfall	Shortfall % of priority 2 requirements
11-76/3-77	6,796	2,719	4,077	60 %
2-77/10-77	7*	6*	1*	20 %
11-77/3-78	6,796	2,719	4,077	60 %
4-78/10-78	7*	6*	1*	20 %
Total	13,606	5,450	8,156	

* Note:
It is stated that Peerless Pottery Co., Inc., purchased this plant in 1972. Prior to this time this plant is said to have been empty and no gas was used in the first part of the base year. This leaves Peerless without an allocation ample to heat the plant in the early months and the late summer period, it is said. It is indicated that the above volumes pertain to the actual gas usage at the plant.

Any person desiring to be heard or to make any protest with reference to said application should on or before May 13, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this appliction if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

GENERAL ACCOUNTING OFFICE

REGULATORY REPORTS REVIEW

Receipt of Report Proposals

The following request for clearance of reports intended for use in collecting information from the public were received by the Regulatory Reports Review Staff, GAO, on April 26, 1977 (NRC), April 27, 1977 (NRC) and April 28, 1977 (CAB). See 44 U.S.C. 3512 (c) and (d). The purpose of publishing this notice in the FEDERAL REGISTER is to inform the public of such receipt.

The notice includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Written comments on the proposed NRC and CAB requests are invited from all interested persons, organizations, public interest groups, and affected businesses. Because of the limited amount of time GAO has to review the proposed requests, comments (in triplicate) must be received on or before May 23, 1977, and should be addressed to Mr. John M. Lovelady, Acting Assistant Director, Regulatory Reports Review, United States General Accounting Office, Room 5033, 441 G Street NW., Washington, D.C. 20548.

Further information may be obtained from Patsy J. Stuart of the Regulatory Reports Review, Staff 202-275-3532.

NUCLEAR REGULATORY COMMISSION

NRC requests an extension no change clearance of 10 CFR 35.14, Specific licenses for certain groups of medical uses of byproduct material. In accordance with § 35.14(a), and subject to specified limitations, an application for a specific license pursuant to §§ 35.11, 35.12, or 35.13 for any medical use specified in one or more of Groups I to VI of § 35.100 will be approved for all of the uses within the group or groups which include the use specified in the application. Section 35.14 also includes recordkeeping requirements showing results of leak tests of sealed sources, and reporting requirements for leak tests of sealed sources or devices which reveal the presence of specified quantities of removable contamination. NRC estimates potential respondents are approximately 1500 licensees holding specific licenses for certain groups of medical uses of byproduct material. NRC estimates that there is no additional burden to licensees imposed by § 35.14(a), and that the respondent burden for reports of leaking or contaminated sources is a total of 5 hours and the respondent burden for maintaining records of leak test results and making quarterly inventories of sealed sources is a total of 999 hours.

NCR requests an extension no change clearance of 10 CFR Part 71, Packaging of Radioactive Material for Transport and Transportation of Radioactive Material Under Certain Conditions. Section 71.12 provides that the general licensee, prior to his first use of the package, shall submit to NRC his name and license number, the name and license number of the specific licensee, and the model number of the packaging. Sections 71.21 through 71.24 specify the information required in a license application under Part 71 for each proposed packaging design and method of transport. Section 71.61 requires a licensee to report any instance in which there is a substantial reduction in the effectiveness of any authorized packaging during use. Section 71.62 requires the licensee to maintain records of certain shipments. NRC estimates approximately 100 licensees are potential respondents and that the total annual respondent burden under 10 CFR Part 71 is approximately 43,000 hours.

NRC requests an extension no change clearance of 10 CFR Part 73, Physical Protection of Plants and Materials. Part 73 prescribes requirements for physical protection of special nuclear material at fixed sites and in transit and of plants in which special nuclear material is used, for the purpose of protection against acts of industrial sabotage and protection of special nuclear material against theft by establishment and maintenance of a physical protection system. Reporting and recordkeeping requirements are set out in §§ 73.70(f), 73.31(b), 73.33(a), 73.36(e), 73.36(f), 73.7, 703.71(a), 73,71 (b), 73.72. NRC estimates approximately 30 NRC licensees holding licenses for special nuclear material will file reports and maintain records pursuant to 10 CFR Part 73. The total respondent burden is estimated by NRC to be 5,035 hours annually.

CIVIL AERONAUTICS BOARD

CAB requests an extension no change clearance of Form 183, Report of Extension of Credit to Political Candidates. This form requires certificated air carriers to file special data with respect to credit extended to political candidates for air transportation services, pursuant to Section 401 of the Federal Election Campaign Act of 1971, when transportation furnished to a candidate for Federal office or a person acting in his behalf exceeds $5,000 on the last day of a month during the six months before an election or nomination. The reporting requirement, once activated, continues until the candidate's aggregate indebtedness balance drops to $5,000 or less. Potential respondents are 42 certificated air carriers and the reporting burden is estimated to be approximately two hours per report.

NORMAN F. HEYL,
Regulatory Reports Review Officer.

GENERAL SERVICES ADMINISTRATION

[Intervention Notice No. 28]

GEORGIA POWER CO.

Proposed Intervention in Electric Rate Increase Proceeding; Georgia Public Service Commission

The General Services Administration seeks to intervene in a proceeding before the Georgia Public Service Commission concerning a request filed by the Georgia Power Company for an increase in electric revenues. The GSA represents the interests of the executive agencies of the United States Government, as users of electric services.

The Georgia Power Company has requested authority to increase total electric revenues by $197.5 million, or 18.8 percent. The proposed increase would have an impact on the Federal Government of approximately $2 million annually.

Persons desiring to make inquiries concerning this case to GSA should submit them, in writing, to Mr. Spence W. Perry, Assistant General Counsel, Regulatory Law Division, General Services Administration, 18th and F Streets NW., Washington, D.C. 20405, telephone 202-566-0750, on or before June 3, 1977, and refer to this notice number.

Persons making inquiries are put on notice that the making of an inquiry shall not serve to make any persons parties of record in the proceeding.

(Sec. 201(a)(4), Federal Property and Administrative Services Act, (40 U.S.C. 481(a)(4)).)

Dated: April 19, 1977.

ROBERT T. GRIFFIN,
Acting Administrator of General Services.

[FR Doc.77-12738 Filed 5-3-77;8:45 am]

[Intervention Notice No. 27; Docket No. 1108]

MOUNTAIN STATES TELEPHONE & TELEGRAPH CO.

Proposed Intervention in Telephone Rate Increase Proceeding; Colorado Public Utilities Commission

The General Services Administration seeks to intervene in a proceeding before the Colorado Public Utilities Commission concerning the tariff changes filed by the Mountain States Telephone & Telegraph Company designed to increase intrastate revenues. The GSA represents the interests of the executive agencies of the United States Government, as users of telecommunications services.

The Mountain States Telephone & Telegraph Company filed tariffs with the Commission which would increase their annual intrastate revenues by $50.2 million. The proposed increase would have an impact on the Federal Government of approximately $1.6 million annually.

Persons desiring to make inquiries concerning this case to GSA should submit them, in writing, to Mr. Spence W. Perry, Assistant General Counsel, Regulatory Law Division, General Services Administration, 18th and F Streets NW., Washington, D.C. 20405, telephone 202-566-0750, on or before June 3, 1977, and refer to this notice number.

Persons making inquiries are put on notice that the making of an inquiry shall not serve to make any persons parties of record in the proceeding.

(Sec. 201(a)(4), Federal Property and Administrative Services Act, (40 U.S.C. 481(a)(4)).)

Dated: April 15, 1977.

ROBERT T. GRIFFIN,
Acting Administrator of General Services.

[Intervention Notice No. 29; Cause No. 25971]

OKLAHOMA CORPORATION COMMISSION

Proposed Intervention in Telephone Rate Increase Proceeding; Southwestern Bell Telephone Co.

The General Services Administration seeks to intervene in a proceeding before the Oklahoma Corporation Commission concerning the application of the Southwestern Bell Telephone Company for an increase in annual revenues. The GSA represents the interests of the executive agencies of the United States Government, as users of telecommunications services.

The Southwestern Bell Telephone Company has proposed increases in intrastate rates which would yield an estimated $35 million in increased annual revenues. This would have an impact on the Federal Government of about $864,000 annually, an 18 percent increase over present Government costs.

Persons desiring to make inquiries concerning this case to GSA should submit them, in writing, to Mr. Spence W. Perry, Assistant General Counsel, Regulatory Law Division, General Services Administration, 18th and F Streets NW., Washington, D.C. 20405, telephone 202-566-0750, on or before June 3, 1977, and refer to this notice number.

Persons making inquiries are put on notice that the making of an inquiry shall not serve to make any persons parties of record in the proceeding.

(Sec. 201(a)(4), Federal Property and Administrative Services Act, 40 U.S.C. 481(a)(4).)

Dated: April 25, 1977.

ROBERT T. GRIFFIN,
Acting Administrator of General Services.

REGIONAL PUBLIC ADVISORY PANEL ON ARCHITECTURAL AND ENGINEERING SERVICES

Meeting

APRIL 19, 1977.

Pursuant to Pub. L. 92-463, notice is hereby given of a meeting of the Regional Public Advisory Panel on Architectural and Engineering Services, Region 3, May 24 and 25, 1977, from 9 a.m. to 4 p.m., Room 5651, GSA Regional Office Building, Seventh and D Streets SW., Washington, D.C. The meeting will be devoted to the initial step of the procedures for screening and evaluating the qualifications of architect-engineers under consideration for selection to furnish professional services for the following proposed projects: (a) Renovations to the Heating, Ventilating and Airconditioning Systems, Federal Building No. 6, Washington, D.C., (b) Renovations to the Heating Ventilation and Airconditioning Systems, Electrical System, and architectural and structural improvements, Federal Trade Commission Building, Washington, D.C. The meeting will be open to the public.

BEN SCHIFFMAN,
Acting Regional Administrator.

[Federal Property Management Regs.; Temporary Reg. F-423]

SECRETARY OF DEFENSE

Delegation of Authority

1. *Purpose.* This regulation delegates authority to the Secretary of Defense to represent the consumer interests of the executive agencies of the Federal Government in an electrical rate increase proceeding.

2. *Effective date.* This regulation is effective immediately.

3. *Delegation.* (a) Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, particularly sections 201(a)(4) and 205(d) (40 U.S.C. 481(a)(4) and 486(d)), authority is delegated to the Secretary of Defense to represent the consumer interests of the executive agencies of the Federal Government before the North Carolina Utilities Commission (Docket No. E-2, Sub 297) involving a petition filed by the Carolina Power & Light Company requesting an increase in electric rates.

(b) The Secretary of Defense may redelegate this authority to any officer, official, or employee of the Department of Defense.

(c) This authority shall be exercised in accordance with the policies, procedures, and controls prescribed by the General Services Administration, and shall be exercised concurrently with the responsible officers, officials, and employees thereof.

ROBERT T. GRIFFIN,
Acting Administrator of General Services.

FEDERAL ASSISTANCE TO DROUGHT STRICKEN AREAS AND RELATED DETERMINATIONS

Memorandum of Agreement

Correction

In FR Doc. 77-12528 appearing at page 21855 in the issue for Friday, April 29, 1977 the headings should have read as set forth above. Also, the title under the signature of A. Vernon Weaves appearing in the third column should have read "Administrator, Small Business Administration".

DEPARTMENT OF THE INTERIOR

Bonneville Power Administration

BONNEVILLE POWER PROCUREMENT INSTRUCTIONS

Supplement to Federal Procurement Regulations

The Comptroller General of the United States, in Decision No. B-114858, has stated that in view of Bonneville Power Administration's authority to settle its claims with finality, his office will discontinue reviews of bid protests and mistakes in bids involving BPA procurements and contracts. The Deputy Assistant Secretary—Administration and Management reviewed and approved, for use on a trial basis for the period ending March 31, 1978, procedures for handling BPA bid protests and mistakes in bid cases. After that time a decision will

be made as to whether the procedures should continue on a permanent basis.

In view of Decision B–114858, matters involving mistakes in bids and protests against awards will be reviewed and decided as final and conclusive by BPA. The following clause will be incorporated in all BPA soliciations:

Protests against award. Pursuant to Decision B–114858, dated July 13, 1976, from the General Accounting Office, bid protests against award by the Bonneville Power Administration will no longer be reviewed by that Office for compliance with applicable laws and regulations. Therefore, offerors who are unable to resolve disagreements on contract awards informally with the contracting officer shall send a written notice of protest to the Contracts Manager, P.O. Box 3621, Portland, Oregon 97208. The protest shall contain: (1) the name and address of the protester, (2) identity of the contracting officer and the solicitation or contract involved, (3) a statement of the grounds for the protest, and (4) a request for a ruling by EPA.

Protesters must file a request for a ruling within 10 working days of the date on which they had actual or constructive notice of the alleged adverse procurement action. Protests not filed within this time limitation will not be considered. Protests based upon alleged adverse action in any type of solicitation which are apparent prior to the opening of bids or the closing date for the receipt of proposals must be filed before those dates.

Late protests will not be considered unless they were sent by express, certified, or registered mail not later than the fifth working day after the cause for the protest was known. Only postmarked U.S. Potal Receipts will be considered acceptable evidence of mailing.

Decisions issued by the Administrator shall be final and conclusive.

Any questions regarding the above procedures should be directed to the Contracts Manager, Bonneville Power Administration, P.O. Box 3621, Portland, Oregon 97208; or telephone 503–234–3361, Extension 4763.

DONALD PAUL HODEL,
Administrator.

[Wyoming 59126]

WYOMING

Application

APRIL 25, 1977.

Notice is hereby given that pursuant to Section 28 of the Minerals Leasing Act of 1920, as amended (30 U.S.C. 185), the Northwest Pipeline Corporation of Salt Lake City, Utah filed an application for a right-of-way to construct a 4½" O.D. pipeline for the purpose of transporting natural gas across the following described national resource lands:

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 26 N., R. 113 W., Sec. 3, NW¼SE¼, NE¼SW¼.

The pipeline is a proposed addition to a gathering system transporting natural gas from a well in the NE¼SW¼, section 3 into an existing pipeline in the NW¼SE¼, section 3, T.26 N., R. 113 W. in Lincoln County, Wyoming.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should do so promptly. Persons submitting comments should include their name and address and send them to the District Manager, Bureau of Land Management, P.O. Box 1869, Highway 187 North, Rock Springs, Wyoming 82901.

HAROLD G. STINCHCOMB,
Chief, Branch of Lands and Minerals Operations.

[NTL–5]

NATURAL GAS

Procedures for Determining Value for Royalty Purposes

AGENCY: Geological Survey.

ACTION: Final notice to lessees and operators.

SUMMARY: The Geological Survey has finalized its procedures for determining the value for royalty computation purposes of natural gas produced from, or for the benefit of, onshore Federal and Indian oil and gas leases, except those on the Osage Indian Reservation.

EFFECTIVE DATE: June 1, 1977.

FOR FURTHER INFORMATION CONTACT:

Mr. Eddie R. Wyatt, Conservation Division, U.S. Geological Survey, National Center (620), Reston, Virginia 22092 (703–860–7535).

SUPPLEMENTARY INFORMATION: In recognition of the increasing value of natural gas, greater acceptance of the Btu method for gas settlement, and the need to assure the receipt of the fair market value for gas produced from leases under its jurisdiction, the Geological Survey concluded it was necessary to modify its policies and procedures for determining the value of natural gas for royalty computation purposes.

On November 21, 1975, the Geological Survey published, in the FEDERAL REGISTER (Vol. 40, No. 226, pp. 54268–54270), a proposed Notice, NTL–5, for public comment. Subsequently, the comment period on the proposed Notice was extended from February 1 to March 1, 1976, by a Notice which appeared in the FEDERAL REGISTER on January 30, 1976 (Vol. 41, No. 21, pg. 4609). Written comments and suggestions received are on file with the Geological Survey and have been carefully considered in the preparation of the final Notice. A substantial number of the comments and suggestions have been incorporated or essentially satisfied, and the Geological Survey has made other changes on its own motion. The principal changes are discussed below:

FORMAT

The organization of NTL–5, as proposed, was restructured so that "interstate" and "intrastate" gas are discussed fully in separate sections. Effective dates and procedures for establishing initial and redetermined base values of natural gas production have been modified.

EXISTING CONTRACTS

The proposed NTL–5 was modified to permit the base value of gas produced from wells commenced prior to June 1, 1977, and which are committed to existing arm's-length contracts entered into prior to that date to be determined in accordance with the price provisions of said contracts, provided, however, that said base value will be adjusted for the Btu content of the gas with an established minimum value of 18 cents/MCF.

LOST GAS

As all gas production on which royalty or compensation is due is subject to NTL–5, references to NTL–4 and NTL–4A have been eliminated.

ESTABLISHMENT OF MARKET

The section in the proposed NTL–5 relating to the establishment of market for royalty valuation purposes has been deleted.

REDUCTION OF ROYALTY RATE

This section of the proposed NTL–5 was also eliminated in the final notice.

ESTABLISHMENT OF ROYALTY VALUES

A new section was added relating to the requirements of NTL–1 and NTL–1A that lessees and operators submit Application for the Establishment of Royalty Values (Form 9–1926) for all leasehold production.

ANNUAL ESCALATION

The provision relating to a minimum annual escalation of 1¢/MCF on intrastate gas was eliminated.

The Geological Survey has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A–107.

V. E. MCKELVEY,
Director.

NOTICE TO LESSEES AND OPERATORS OF FEDERAL AND INDIAN ONSHORE OIL AND GAS LEASES (NTL–5)

VALUE OF NATURAL GAS FOR ROYALTY PURPOSES

This Notice is issued pursuant to the authority prescribed in the Oil and Gas Operating Regulations, 30 CFR 221, which provide in part:

"The value of production, for the purpose of computing royalty, shall be the estimated reasonable value of the product as determined by the Supervisor, due consideration being given to the highest price paid for a part or for a majority of production of like quality in the same field, to the price received by the lessee, to posted prices, and to other relevant matters. Under no circumstances shall the value of production of any of said substances for the purposes of computing royalty be deemed to be less than the gross proceeds accruing to the lessee from the sale thereof or less than the value computed on such reasonable unit value as shall have been determined by the Secretary. In the absence of good reason to the contrary, value computed on the basis of the highest price per barrel, thousand cubic feet, or gallon paid or offered at the time of production in a fair and open market for the major portion of like-quality oil, gas, or other products produced and sold from the field or area where the leased lands are situated will be considered to be a reasonable value."

In accordance with the regulations and the terms of the various oil and gas leases issued pursuant to the Mineral Leasing Act of February 25, 1920, as amended and supplemented (30 U.S.C. 181–287), the Mineral Leasing Act for Acquired Lands of August 7, 1947 (30 U.S.C. 351–359), the implied authority of the Executive Branch as defined in the Attorney General's Opinion of April 2, 1941 (Vol. 40 Op. Atty. Gen. 41), the Allotted Indian Land Leasing Act of March 3, 1909, as amended (25 U.S.C. 396), and the Unallotted Indian Leasing Act of May 11, 1938, as amended (25 U.S.C. 396a), the Area Oil and Gas Supervisor (Supervisor) has the authority to establish royalty values for gas produced from Federal and Indian leases, except those on the Osage Indian Reservation. This authority will be exercised to insure that royalties are computed on the reasonable value of gas produced from, or for the benefit of, such leases.

I. INTERSTATE SALES SUBJECT TO THE PRICE JURISDICTION OF THE FEDERAL POWER COMMISSION (FPC)

A. ESTABLISHMENT OF ROYALTY VALUES

1. For sales from wells commenced prior to June 1, 1977, and which are subject to an arm's-length contract entered into prior to that date, the base value for royalty purposes shall be established as the higher of:

a. The price received by the lessee or operator in accordance with the provisions of the applicable sales contract, or

b. A minimum value of not less than 18 cents per MCF at 14.73 psia and 60°F.

2. For sales from wells commenced on or after June 1, 1977, and which are subject to an arm's-length contract executed prior to, on, or after that date; for sales made pursuant to an arm's-length contract renegotiated on or after June 1, 1977; and for all sales not involving an arm's-length contract, the base value for royalty purposes shall be established as the higher of:

a. The price received by the lessee or operator in accordance with the provisions of the applicable sales contract, or

b. The highest applicable ceiling rate then established by the FPC for the same vintage gas.

B. REDETERMINATION OF ROYALTY VALUES

The base value established for royalty purposes shall be redetermined by the Supervisor whenever necessary to conform with any subsequent FPC ceiling or minimum rate which may be prescribed for the same vintage gas. Provided, however, that for sales from wells commenced prior to June 1, 1977, and which are subject to an arm's-length contract entered into prior to that date, the readjustment of the base value will consider the extent to which the lessee or operator is entitled to collect a higher rate under the terms of the applicable contract or FPC ruling.

C. EFFECTIVE DATES

All initial base values established will be effective as of the date of first production or June 1, 1977, whichever is later. All redetermined base values will be effective as of the date the FPC prescribes or permits a revised price.

D. ADJUSTMENTS

All base values will be adjusted for the Btu content of the gas as provided in section IV of this Notice. All gathering, tax reimbursement, adjustments authorized by FPC, and other factors, as described by section V of this Notice, will also be considered by the Supervisor in determining the value used for royalty computation purposes.

E. SMALL PRODUCERS

As used in this Notice, the term ceiling rate or national rate does not mean the rate applicable to small producers as defined by FPC. The base value for small producers will be determined by the Supervisor in accordance with the provisions of this Notice and FPC regulations. Provided, however, for sales

from wells commenced prior to June 1, 1977, and which are subject to an arm's-length contract entered into prior to that date, the Supervisor will consider the extent to which the small producer is entitled to collect such higher rate under the applicable contract of FPC ruling.

II. INTRASTATE AND OTHER SALES OR DISPOSITIONS NOT SUBJECT TO PRICE JURISDICTION OF THE FPC

A. ESTABLISHMENT OF ROYALTY VALUES

1. For sales from wells commenced prior to June 1, 1977, and which are subject to an arm's-length contract entered into prior to that date, the base value for royalty purposes shall be established as the higher of:

a. The price received by the lessee or operator in accordance with the provisions of the applicable sales contract, or

b. A minimum value of not less than 18 cents per MCF at 14.73 psia and 60°F.

2. For sales from wells commenced on or after June 1, 1977, and which are subject to an arm's-length contract entered into prior to, on, or after that date; for sales made pursuant to an arm's-length contract renegotiated on or after that date; and for all sales or other dispositions not involving an arm's-length contract, the base value for royalty purposes shall be established as the higher of:

a. The price received by the lessee or operator in accordance with the provisions of the applicable sales contract, or

b. The highest price paid or offered for a majority of like quality gas produced in the field or area. *Provided, however,* That if such information is not readily available, or the highest price paid or offered for said majority of like quality productions does not reflect the reasonable value of the gas, the Supervisor may determine the base value as the highest applicable national rate then currently established by FPC for the same vintage gas.

B. REDETERMINATION OF ROYALTY VALUES

The base value established for royalty purposes shall be redetermined by the Supervisor whenever necessary to reflect market conditions. When the base value is redetermined, it will be based on the higher of:

1. The escalated price received or receivable by the lessee or operator under the provisions of the applicable sales contract, or

2. The highest price paid or offered for a majority of like quality gas produced in the field or area. Provided, however, that if such information is not readily available or the highest price paid or offered for said majority of like quality production does not reflect the reasonable value of the gas, the Supervisor may redetermine the base value as the highest applicable national rate then currently established by the FPC for the same vintage gas.

Any readjusted base value for sales from wells commenced prior to June 1, 1977, and which are subject to an arm's-length contract made pursuant to contract entered into prior to that date, will consider the extent to which the lessee or operator is entitled to collect a higher rate pursuant to the provisions of the applicable contract.

C. EFFECTIVE DATES

1. All initial base values established will be effective as of the date of first production or June 1, 1977, whichever is later.

2. Those redetermined base values established in accordance with escalation provisions of a gas sales contract will become effective on the date specified in the contract. For redeterminations of base values made pursuant to section II.B.2. above, the effective date will be the first day of the month next following the month in which changing market conditions warrant a redetermination under this provision.

D. ADJUSTMENTS

All base values will be adjusted for the Btu content of the gas as provided in section IV of this Notice. Other factors, described by section V of this Notice, will also be considered in determining the value used for royalty computation purposes.

III. ESTABLISHMENT OF ROYALTY VALUES

In accordance with the regulations contained in 30 CFR 221 and Notices to Lessees and Operators, NTL–1 and NTL–1A, a copy of each agreement or contract for the disposal of leasehold products shall be furnished to the Supervisor. In addition, lessees and operators are required by NTL–1 and NTL–1A to submit a properly completed Application for the Establishment of Royalty Values (Form 9–1926) for all production from, or for the benefit of, onshore Federal and Indian oil and gas leases. Once the Supervisor has established the initial base value, any subsequent adjustments or amendments affecting said base value must be reported promptly to the Supervisor by the lessee or operator.

Where the royalty value for gas is based on the extent to which a new, revised, or redetermined rate or price can be collected under the terms of an existing arm's-length sales contract, the Supervisor may request evidence showing the efforts of the lessee or operator to obtain such higher price.

QUALITY ADJUSTMENT

The base value established or redetermined pursuant to sections I and II hereof will be based on gas at 60° F, a pressure base of 14.73 psia, and a heating value of 1,000 Btu's per cubic foot. Such base value will be adjusted upward or downward in proportion to the actual heating value of the gas. However, where the established or redetermined base value of the gas, as adjusted for its Btu content, does not properly reflect the value of its entrained liquids, a further adjustment to compensate for that variance may be made by the Supervisor.

The heating value of the gas will be the weighted average Btu content of all gas produced from, or for the benefit of, the lease, communitized area, or unit participating area during the month. Where multiple purchasers are involved, the weighted average Btu content may be reported separately for the gas sold to each purchaser. Provided, however, that slight differences (±1 percent) between Btu measurements of a lessee or operator and its purchaser or between different purchasers shall not require adjustment.

The heating value of natural gas shall be determined as the number of British thermal units (Btu's) produced by the combustion, at constant pressure, of the amount of gas which would occupy a volume of 1 cubic foot at a temperature of 60°F saturated with water vapor and under a pressure equivalent to that of 30 inches of mercury at 32°F and standard gravitational force (980.665 centimeters per second squared) with air of the same temperature and pressure, when the products of combustion are cooled to the initial temperature of the gas and air, and the water formed by the combustion is condensed to the liquid state.

The Btu content will be determined at least semiannually, unless otherwise required by the Supervisor, by means of (1) a recording calorimeter, (2) calculations based on a complete compositional analysis of the gas and the heating value of each constituent, or (3) such other methods as may be approved by the Supervisor. The Supervisor shall be apprised of the method used for each such determination and shall be furnished with such analytical data or other documentation as the Supervisor may require. The Btu content most recently determined and used by the lessee or opeartor for royalty computation purposes shall be reported monthly to the Supervisor on the Monthly Report of Operations (Form 9–329).

When approved by the Supervisor, mass measurement, based on dekatherms per pound, may be used for quality adjustments in lieu of volumetric measurements based on the Btu content per cubic foot.

V. OTHER FACTORS IN COMPUTING ROYALTY VALUES

A. GROSS PROCEEDS

Under no circumstances will royalty be computed on less than the gross proceeds accruing to the lessee or operator from the sale of leasehold production. Gross proceeds include, but are not limited to, tax reimbursements and payments to the lessee or operator for the performance of certain services such as measuring, field gathering, compressing, sweetening, and dehydrating which are necessary to place the gas into marketable condition and which the lessee or operator is obligated to perform at no cost to the lessor. Likewise, no deductions will be allowed for the uncompensated cost of placing the gas into marketable condition.

B. MEASUREMENT STANDARDS

All gas measurements shall be adjusted to 60°F and 14.73 psia, regardless of the base conditions at which the measurement was actually made.

C. POINT OF ROYALTY COMPUTATION

Royalty generally will be computed on the volume and value of marketable production at the lease, communitized area, or unit participating area boundary. When appropriate, volume and/or value may be determined at a central gathering point in the field or at such other point in the field as may be prescribed by the Supervisor.

VI. PRODUCTION DISPOSED OF WITHOUT SALE

The base value for gas disposed of without sale and for which royalty or other compensation is due will be calculated in the same manner as the Supervisor calculates the value of other gas sold from the lease, communitized area, or unit participating area in accordance with the provisions of this Notice. Provided, however, where no contract exists for the lease, communitized area, or unit participating area, the base value for royalty purposes will be calculated at the current national rate for new gas as established by FPC.

OZARK NATIONAL SCENIC RIVERWAYS ADVISORY COMMISSION

Meeting

Notice is hereby given in accordance with Public Law 99–463 that a meeting of the Ozark National Scenic Riverways Advisory Commission will be held on

Thursday, May 26, 1977 at 1:00 p.m. (CDT) at the Riverways' Headquarters on U.S. Highway 60 in Van Buren, Missouri.

The Commission was established by Public Law 88-429 to meet and consult with the Secretary of the Interior on general policies and specific matters related to the administration and development of the Ozark National Scenic Riverways.

The members of the Commission are:

Dr. Oscar Hawksley, Warrensburg, Missouri (Chairman).
Mr. Kirby Hart, Houston, Missouri.
Mr. James A. Roark, Hunter, Missouri.
Mr. Carlton E. Bay, Salem, Missouri.
Mr Edward Hodge, Eminence, Missouri.
Lt. Col. William Moore, USAR Ret., Ellington, Missouri.
Mr. James Grassham, Van Buren, Missouri.

Matters to be discussed at this meeting include:

1. Comments received on the Statement for Management pertaining to the Riverways.
2. Special concerns of the Advisory Commission Members regarding the Riverways.
3. Research findings and some possible alternatives in river use.
4. Wilderness planning and land ownership.

The meeting will be open to the public. It is expected that 25 persons in addition to the members of the Commission will be able to attend this meeting. Interested persons may file written statements with the official listed below prior to the meeting.

Further information concerning this meeting may be obtained from Arthur L. Sullivan, Superintendent, Ozark National Scenic Riverways, P.O. Box 490, Van Buren, Missouri 63965, telephone 314-323-4236. Minutes of the meeting will be available four weeks after the meeting at Ozark National Scenic Riverways headquarters in Van Buren, Missouri.

Dated: April 25, 1977.

MERRILL D. BEAL,
Regional Director,
Midwest Region.

INTERNATIONAL TRADE COMMISSION

[Investigation No. 337-TA-25]

ABOVE-GROUND SWIMMING POOLS

Notice and Order Concerning Commission Determination

Upon consideration of the presiding officer's recommended determination and the record in this proceeding, the Commission hereby orders the termination of investigation No. 337-TA-25, Certain Above-Ground Swimming Pools, on the basis of a determination that no violation of section 337 of the Tariff Act of 1930, as amended, exists.

Copies of the Commission Memorandum Opinion in support of the Commission action are available to the public during official working hours at the Office of the Secretary, United States International Trade Commission, 701 E Street NW., Washington, D.C. 20436. Notice of the institution of the investigation was published in the FEDERAL REGISTER on April 29, 1976 (41 FR 17975).

Issued: April 29, 1977.

By order of the Commission.

KENNETH R. MASON,
Secretary.

DEPARTMENT OF JUSTICE

Office of the Attorney General

[Order No. 715-77]

PRIVACY ACT OF 1974

System-Wide Routine Use

Notice is hereby given that pursuant to Section 3(e) (4) and (11) of the Privacy Act of 1974, 5 U.S.C. 552a(e) (4) and (11), the Department of Justice proposes to add the routine use reprinted below to all systems of records maintained by the Department. This proposed routine use would permit the routine disclosure of information to the National Archives and Records Service in connection with records management inspections authorized by the "Federal Records Management Amendments of 1976," Pub. L. No. 94-575, 90 Stat. 2723 (October 21, 1976).

Inquiries or comments may be submitted in writing to Harry L. Gastley, Administrative Counsel, Office of Management and Finance, Room 1121, Department of Justice, Washington, D.C. 20503. All comments must be received on or before June 3, 1977. No oral hearings are contemplated.

Dated: April 25, 1977.

GRIFFIN B. BELL,
Attorney General.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (77-29)]

RESEARCH AND TECHNOLOGY ADVISORY COUNCIL; PANEL ON RESEARCH

Meeting

The NASA Research and Technology Advisory Council Panel on Research will meet on May 25 and 26, 1977, at the NASA Lewis Research Center, Cleveland, Ohio 44135. The meeting will be held in Room 215, Administration Building. The purpose of this meeting is to gain first-hand knowledge of the research work and the management of university sponsored research at Lewis Research Center. The OAST Research Council will meet concurrently with the Panel on Research. The meeting is open to the public on a first-come, first-served basis, limited by the seating capacity of the meeting room which holds 60 persons. All visitors must sign in prior to attending the meeting.

The Panel on Research of the Research and Technology Advisory Council serves in an advisory capacity only. There are 13 members. The Panel makes recommendations to the Council and to the Director, Research Division, and the OAST Research Council on program goals, trends, content, scope and technical balance for OAST basic research as related to OAST aeronautics and space missions. The chairman is Professor A. Hertzberg. The following list sets forth the approved agenda and schedule for the meeting of this Panel on Research on May 25 and 26, 1977. For additional information, please contact Mr. F. C. Schwenk, Area Code 202, 755-2488, at NASA Headquarters, Washington, D.C., or Mr. W. E. Moeckel, Area Code 216, 433-6200, at the Lewis Research Center, Cleveland, OH.

MAY 25, 1977

TIME AND TOPIC

8 a.m.—Introduction. (Purpose: Welcome by Lewis officials and remarks by the Chairman on the conduct of the review.)

8:15 a.m.—Review of (1) Aircraft Engines and Components, (2) Propulsion Aerodynamics and Controls, and (3) Aeroacoustics and Aeroelasticity. (Purpose: Review of the in-house and university sponsored research in the areas listed.)

1:15 p.m.—Review of (1) Materials, and (2) Plasmadynamics and Energy Conversion. (Purpose: Review of the in-house and university sponsored research in the areas listed.)

MAY 26, 1977

8 a.m.—Review of (1) Space Propulsion, Power and Communications, and (2) Physics and Fluid Mechanics. (Review of the in-house and university research in the areas listed.)

1:30 p.m.—Executive Session. (Purpose: To discuss the overall review and to make recommendations.)

2:30 p.m.—Meeting with Center Director. (Purpose: To inform Center Director of the findings and recommendations.)

3:30 p.m.—Review of OAST 5-Year Plan. (Purpose: To inform the Panel of current OAST plans.)

4:30 p.m.—Adjournment.

KENNETH R. CHAPMAN,
Assistant Administrator for DOD and Interagency Affairs, National Aeronautics and Space Administration.

NATIONAL FOUNDATION ON THE ARTS AND HUMANITIES

National Endowment for the Arts

FEDERAL GRAPHICS EVALUATION ADVISORY PANEL

Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given that a meeting of the Federal Graphics Evaluation Advisory Panel to the National Council on the Arts will be held on May

20, 1977, from 9:30 a.m. to 4:30 p.m., in Room 1125, Columbia Plaza Building, 2401 E. Street NW., Washington, D.C.

A portion of this meeting will be open to the public on May 20, from 9:30 a.m. to 11:30 a.m. and 2:30 p.m. to 4:30 p.m. on a space available basis. The agenda will include discussions of graphics and related materials of the Headquarters, Department of Defense. Interested persons may submit written statements with the committee.

The remaining sessions of this meeting on May 20, from 1:30 p.m. to 2:30 p.m., are for the purpose of Panel review, discussion, evaluation, and recommendation on Federal Graphics under the National Foundation on the Arts and the Humanities Act of 1965, as amended in accordance with the President's Directives of May 16, 1972, August 23, 1974, and June 26, 1975, on Improvement of Federal Graphics. In accordance with the determination of the Chairman published in the FEDERAL REGISTER of March 17, 1977. These sessions may be closed to the public pursuant to subsection (c), (6) and 9(B) of section 552B of Title 5, United States Code.

Further information with reference to this meeting can be obtained from Mr. Robert M. Sims, Advisory Committee Management Officer, National Endowment for the Arts, Washington, D.C. 20506 or call 202-634-6377.

ROBERT M. SIMS,
Administrative Officer, National Endowment for the Arts, National Foundation on the Arts and the Humanities.

MUSIC ADVISORY PANEL

Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given that a meeting of the Music Advisory Panel (Planning Section) to the National Council on the Arts will be held on May 25-27, 1977, from 8:45 a.m. to 5:00 p.m. each day, at the Holiday Inn of Charleston Downtown, Meeting Street at Calhoun Street, Charleston, South Carolina.

A portion of this meeting will be open to the public on May 25, from 11:10 a.m. to 5:00 p.m.; May 26, from 8:45 a.m. to 5:00 p.m.; and May 27, from 10:45 a.m. to 5:00 p.m. on a space available basis. The agenda for these sessions will include long-range planning discussions.

The remaining sessions of this meeting on May 25, from 8:45 a.m. to 11:10 a.m., and May 27, from 8:45 a.m. to 10:45 p.m., are for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by grant applicants. In accordance with the determination of the Chairman published in the FEDERAL REGISTER March 17, 1977, these sessions may be closed to the public pursuant to subsection (c) (4), (6) and 9(B) of section 552b of Title 5, United States Code.

Further information with reference to this meeting can be obtained from Mr. Robert M. Sims, Advisory Committee Management Officer, National Endowment for the Arts, Washington, D.C. 20506 or call 202-634-6377.

ROBERT M. SIMS,
Administrative Officer, National Endowment for the Arts, National Foundation on the Arts and the Humanities.

OFFICE OF MANAGEMENT AND BUDGET

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on April 28, 1977 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; the names of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

Requests for extension which appear to raise no significant issues are to be approved after brief notice through this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503 (202-395-4529), or from the reviewer listed.

NEW FORMS

DEPARTMENT OF COMMERCE

Bureau of Economic Analysis:
- Benchmark Survey of U.S. Direct Investment Abroad—1976, single-time, foreign investors, C. Louis Kincannon, 395-3211.
- Industry Classification Questionnaire, BE-507, on occasion, foreign investors, C. Louis Kincannon, 395-3211.

REVISIONS

ENVIRONMENTAL PROTECTION AGENCY

Air Pollutant Emissions Report, On occasion, industrial plants, Warren Topelius, 395-5872.

DEPARTMENT OF COMMERCE

Statistical Reporting Service, Environment and Corn Yield Study (Missouri), single time, sample of corn farmers, Gaylord Worden, 395-4730.

Bureau of Economic Analysis:
- Direct Transactions of U.S. Reporter With Unincorporated Foreign Banking Affiliate, BE 578B, quarterly, foreign investors, C. Louis Kincannon, 395-3211.
- Direct Transactions of U.S. Reporter With Unincorporated Foreign Affiliate, Except a Bank, BE 578, quarterly, foreign investors, C. Louis Kincannon, 395-3211.
- U.S. Reporter's Directly-Owner Foreign Affiliate's Share in Net Income Indirectly-owned Foreign Affiliates, BE-577S, annually, foreign investors, C. Louis Kincannon, 395-3211.
- Direct Transaction of U.S. Reporter With Foreign Affiliate Incorporated Abroad, BE-577, quarterly, foreign investors, C. Louis Kincannon, 395-3211.

EXTENSIONS

DEPARTMENT OF AGRICULTURE

Agricultural Stabilization and Conservation Service, Application for Disaster Credit—Farms, ASCS-574, on occasion, farms, Warren Topelius, 395-5872.

Foreign Agricultural Service, Application for Clearance of Labels on Export Food Products, FAS-633, on occasion, food processors and exporters, Warren Topelius, 395-5872.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Federal Disaster Assistance Administration:
- Request for Partial Payment, HUD 489.1, on occasion, State and local governments in disaster areas, Housing, Veterans, and Labor Division, 395-3532.
- Request for Advance of Funds, HUD 489, on occasion, State and local governments in disaster areas, Housing, Veterans, and Labor Division, 395-3532.

PHILLIP D. LARSEN,
Budget and Management Officer.

POSTAL SERVICE

PRIVACY OF INFORMATION

Routine Uses of Systems of Records

AGENCY: Postal Service.

ACTION: Advance Notice of Proposed Routine Use of Systems of Records.

SUMMARY: This document proposes an additional routine use for several Postal Service systems of records, permitting certain information to be disclosed to the Civil Service Commission with regard to the investigation of discrimination complaints.

DATES: Comments must be received on or before: June 6, 1977.

ADDRESSES:
Records Officer, U.S. Postal Service, Washington, D.C. 20260.

FOR FURTHER INFORMATION CONTACT:
Mr. John E. Finlay, 202-245-4142.

SUPPLEMENTARY INFORMATION: The Postal Service proposes to establish an additional routine use for each of the Postal Service systems of records listed below by USPS identification number:

010.030	120.038
010.040	120.040
010.080	120.050
030.010	120.070
030.020	120.080
050.005	120.090
050.010	120.100
050.020	120.110
050.040	120.120
080.010	120.130
080.030	120.150
100.010	120.170
110.010	120.180
120.030	120.190
120.035	120.210
120.036	170.010

A complete statement of the existence and character of each of these systems appeared in the FEDERAL REGISTER on October 14, 1976 (41 FR 45132). The proposed routine use would apply to the extent that it is relevant to the particular records maintained in these systems, and would permit the release to the United States Civil Service Commission of certain information related to the investigation of discrimination complaints against the Postal Service. The proposed new routine use is necessary to assure that Postal Service application of the Privacy Act of 1974, Pub. L. No. 93-579, is accommodated with the obligations of the Postal Service under the Equal Employment Opportunity Act of 1972, Pub. L. No. 92-261.

As required by 5 U.S.C. 552a(e)(11), interested persons are invited to submit written data, views, or arguments on this proposed new routine use. Final notice regarding the proposed use will be given after the time for public comment has elapsed. The proposed use follows:

POSTAL SERVICE SYSTEMS OF RECORDS—NEW ROUTINE USE

Add the following text as the last use to the routine use section of each system notice for the above listed systems:

Use—Information contained in this system of records may be disclosed to an authorized investigator appointed by the United States Civil Service Commission, upon his request, when that investigator is properly engaged in the investigation of a formal complaint of discrimination filed against the U.S. Postal Service under 5 CFR 713, and the contents of the requested record are needed by the investigator in the performance of his duty to investigate a discrimination issue involved in the complaint.

ROGER P. CRAIG,
Deputy General Counsel.

DEPARTMENT OF THE TREASURY

Fiscal Service

[Dept. Circ. 570, 1976 Rev., Supp. No. 14]

AIU INSURANCE CO.; CHANGE OF NAME

Surety Companies Acceptable on Federal Bonds

American International Insurance Company, a New York corporation, has formally changed its name to AIU Insurance Company, effective October 26, 1976. Documents evidencing the change of name are on file in the Treasury.

A new certificate of authority as an acceptable surety on Federal bonds, dated October 26, 1976, has been issued by the Treasury to AIU Insurance Company under sections 6 to 13 of Title 6 of the United States Code, to replace the certificate issued July 1, 1976 (41 FR

[1] Itemized List of Objects included in the Exhibition Thracian Treasures. List filed as part of the original document.

28240, July 8, 1976) to the company under its former name, American International Insurance Company. The underwriting limitation of $356,000 previously established for the company remains unchanged.

The change in name of American International Insurance Company does not affect its status or liability with respect to any obligation in favor of the United States or in which the United States has an interest, which it may have undertaken pursuant to the certificate of authority issued by the Treasury.

Certificates of authority expire on June 30 each year, unless sooner revoked and new certificates are issued on July 1, as long as the companies remain qualified (31 CFR Part 223). A list of qualified companies is published annually as of July 1, in Deartment Circular 570, with details as to underwriting limitations, areas in which licensed to transact surety business and other information. Copies of the circular, when issued, may be obtained from the Audit Staff, Bureau of Government Financial Operations, Department of the Treasury, Washington, D.C. 20226.

Dated: April 28, 1977.

D. A. PAGLIAI,
Commissioner, Bureau of Government Financial Operations.

[FR Doc.77-12755 Filed 5-3-77;8:45 am]

Office of Revenue Sharing

ENTITLEMENT PERIOD NINE DATA

Use of Estimate for General Revenue Sharing Purposes

Pursuant to § 51.20(b)(3) of the revenue sharing regulations (31 CFR 51.20 (b)(3) and the authority of the Secretary of the Treasury under § 109(a)(7)(B) of the State and Local Fiscal Assistance Act of 1972 (31 U.S.C. 1228(a)(7)(B)), notice is hereby given that the Secretary has used additional data and estimates which have necessitated upward revisions to the populations of certain counties and states for purposes of the intrastate allocations for Entitlement Period Nine (October 1, 1977 to September 30, 1978). Such revisions are contained in the accompanying table which shows original and revised 1975 population estimates.

Section 51.20(a) of the regulations (31 CFR 51.20(a) provides that the data used in the determination of allocations and adjustments will be the latest and most complete data supplied by the Bureau of the Census or such sources of data as in the judgment of the Secretary will provide for equitable allocations. Section 51.20(b)(3) of the regulations (31 CFR 51.20(b)(3)) requires that where the Secretary determines that the data provided by the Bureau of the Census or the Department of Commerce are not current enough, not comprehensive enough, or are otherwise inadequate to provide for equitable allocations the Secretary may use other data, including estimates. The Secretary's determination shall be final.

These revisions are a direct consequence of data verifications initiated by the Navajo, Oglala Sioux, and Osage Indian tribes for Entitlement Periods Five and Six. Documentary evidence presented by the tribes, and estimates developed by the Bureau of Indian Affairs, indicated higher population totals for those tribes than the Census-based estimates had provided for those entitlement periods. The documentary evidence and estimates necessitated upward revisions in the 1970 Census of population and the 1973 Census-based estimates of population of those counties and states in the accompanying table, for purposes of equitably determining the intrastate allocations for Entitlement Periods Five and Six. Such revisions were published in the FEDERAL REGISTER on July 3, 1975 (40 FR 28106). The revised 1973 estimates of population were also used for Entitlement Periods Seven and Eight.

Since the 1975 Census-based estimates of population (as denoted by the column designated "Original") do not reflect the earlier documentation and Bureau of Indian Affairs estimates of population, it has been necessary to adjust comparably the 1975 population estimates of these same affected counties and states in the intrastate allocations for Entitlement Period Nine.

Dated: April 27, 1977.

BERNADINE DENNING,
Director,
Office of Revenue Sharing.

State and county	1975 population (entitlement period 9)

INTERSTATE COMMERCE COMMISSION

[Notice No. 382]

ASSIGNMENT OF HEARINGS

APRIL 29, 1977.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC 139923 (Sub-No. 24), Miller Trucking Co., Inc., now assigned June 7, 1977, at San Francisco, Calif. is canceled and application dismissed.

MC 139495 (Sub-180), National Carriers, Inc., now being assigned June 6, 1977 (1 day) at Columbus, Ohio, in a hearing room to be later designated.

MC 117416 (Sub-53), Newman and Pemberton Corporation, now being assigned June 7, 1977 (1 day) at Columbus, Ohio, in a hearing room to be later designated.

MC-F-13044, Consolidated Freightways Corp. of Delaware—Purchase (Portion)—Point Express, Inc., now being assigned June 8, 1977 (3 days) at Columbus, Ohio, in a hearing room to be later designated.

MC 118989 Sub 145, Container Transit, Inc., now assigned May 9, 1977 at Chicago, Illinois is postponed indefinitely.

MC-F 12978, Navajo Freight Lines, Inc.—Purchase—Utica Transfer Inc. now being assigned July 11, 1977 (1 week) at Omaha, Nebraska in a hearing room to be later designated.

MC 142463, Specialized Hauling, Inc. now being assigned July 6, 1977 (3 days) at Omaha, Nebraska in a hearing room to be later designated.

ROBERT L. OSWALD,
Secretary.

FOURTH SECTION APPLICATIONS FOR RELIEF

APRIL 29, 1977.

An application, as summarized below, has been filed requesting relief from the requirements of Section 4 of the Interstate Commeree Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the General Rules of Practice (49 CFR 1100.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

FSA No. 43356—*Anhydrous Ammonia from Woodward, Oklahoma.* Filed by Southwestern Freight Bureau, Agent, (No. B-667), for interested rail carriers. Rates on anhydrous ammonia, in tank-car loads, as described in the application, from Woodward, Oklahoma, to points in southwestern and western trunk-line territories.

Grounds for relief—Market competition.

Tariff—Supplement 83 to Southwestern Freight Bureau, Agent, tariff 273-G, I.C.C. No. 5188. Rates are published to become effective on June 1, 1977.

FSA No. 43357—*Joint Rail-Water Container Rates—Seaspeed Services.* Filed by Seaspeed Services, (No. 1), for itself and interested rail carriers. Rates on general commodities, from railroad terminals at U.S. Gulf Coast ports, to ports in the Middle East.

Grounds for relief—Water competition.

Tariff—Seaspeed Services joint railwater freight tariff No. 1, I.C.C. No. 1, F.M.C. No. 2. Rates are published to become effective on May 27, 1977.

By the Commission.

ROBERT L. OSWALD,
Secretary.

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY—ELIMINATION OF GATEWAY LETTER-NOTICES

Notice

APRIL 29, 1977.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination Rules (49 CFR Part 1065), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before May 16, 1977. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 113855 (Sub-No. E418), filed July 6, 1976. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Rd. SE, Rochester, Minn. 55901. Applicant's representative: Michael E. Miller, 502 First Nat'l Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Metal and Metal articles* (a) between points in Wyoming, on the one hand, and, on the other, points in Maryland (except Garrett and Allegany Counties), and the District of Columbia; (b) between points in Wyoming (except Crook, Weston, Campbell, Niobrara, Converse, Albany, Platte, Goshen, and Laramie Counties), on the one hand, and, on the other, points in Garrett and Allegany Counties, Md.; (c) between points in Wyoming, on the one hand, and, on the other, points in Virginia in, east, and north of Rockingham, Albamarie, Fluvanna, Coochland, Powhattan, Chesterfield, Dinwiddie, and Greensville Counties; (d) between points in Goshen, Platte, Laramie, Albany, and Carbon Counties), on the one hand, and, on the other, points in and east of Caswell, Alamance, Orange, Wake, Johnson, Sampson, Pender, and Brunswick, N.C.; (e) between points in Goshen, Platte, Laramie, Albany, and Carbon Counties, Wyo., on the one hand, and, on the other, points in North Carolina in and east of Carteret, Jones, Lenoir, Greene, Wilson, Nash, Halifax, and North Hampton Counties; and (f) between points in Wyoming, on the one hand, and, on the other, points in New York (except points in Niagara, Orleans, Genesee, Wyoming, Erie, Chautauqua, and Cattaraugus Counties). The purpose of this filing is to eliminate the gateways of South Dakota east of the Missouri River, and points in Pennsylvania on and east of a line beginning at the Maryland-Pennsylvania State line and extending along unnumbered highway formerly portion U.S. Highway 15) to junction Business U.S. Highway 15, near Fairplay, Pa., thence along Business U.S. Highway 15 through Gettysburg, Pa., to junction U.S. Highway 15, thence along U.S. Highway 15 to junction unnumbered highway (formerly portion U.S. Highway 15, thence along unnumbered highway through Clear Spring, Pa. to junction U.S. Highway 15, thence along U.S. Highway 15 to the Pennsylvania-New York State line (except points in Berks, Bucks, Chester, Delaware, Montgomery and Philadelphia Counties, Pa., and points in Pennsylvania on and east of the above described line in Adams, York, Cumberland, Perry, Dauphin, Lebanon, and Lancaster Counties, Pa., and points in Pennsylvania on and east of U.S. Highway 15 and north of the East Branch of the Susquehanna River in Tioga, Bradford, Lycoming, Sullivan, Union, Snyder, Northumberland, Montour, and Columbia Counties, Pa.).

No. MC 113855 (Sub-No. E419), filed August 2, 1976. Applicant: INTERNATIONAL TRANSPORT, INC. 2450 Marion Road, S.E., Rochester, Minn. 55901. Applicant's representative: Michael E. Miller, 502 First National Bank Building, Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Metal* and *metal articles* (a) between points in Colorado, on the one hand, and, on the other, points in Iowa (except points located in Harrison, Shelby, Audubon, Guthrie, Pottawattamie, Cass, Adair, Mills, Montgomery, Adams, Union, Fremont, Page, Taylor, and Ringgold Counties); and (b) between points in Colorado (except points located in Logan, Washington, Lincoln, Crowley, Otera, Sedgwick, Phillps, Yuma, Kit Carson, Cheyenne, Klowa, Bent, Prowers, and Baca Counties, on the one hand, and, on the other, points in Harrison, Shelby, Audubon, Guthrie, Pottawattamie, Cass, Adair, Mills, Montgomery, Adams, Union, Fremont, Page, Taylor, and Ringgold Counties, Iowa. The purpose of this filing is to eliminate the gateway of South Dakota.

No. MC 113855 (Sub-No. E436), filed July 19, 1976. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Rd., SE., Rochester, Minn. 44901. Applicant's representative: Michael E. Miller, 502 First Nat'l Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Metal and metal articles*, (a) between points in Montana, on the one hand, and, on the other, points in West Virginia and Kentucky (points in South Dakota east of the Missouri River and Elgin, Ill.) *;

(b) Between points in Montana and Wyoming, on the one hand, and, on the other, points in Massachusetts, Connecticut, Rhode Island, Delaware, New Jersey, and the District of Columbia (points in South Dakota east of the Missouri River, and points in Pennsylvania on and east of a line beginning at the Maryland-Pennsylvania State line and extending along unnumbered highway to junction Business U.S. Highway 15, near Fairplay to junction U.S. Highway 15, to junction unnumbered highway, through Clear Spring to junction U.S. Highway 15 to the Pennsylvania-New York State line (except points in Berks, Bucks, Chester, Delaware, Montgomery, and Philadelphia Counties, Pa., and points in Pennsylvania on and east of the above-described line in Adams, York, Cumberland, Perry, Dauphin, Lebanon, and Lancaster Counties, Pa., and points in Pennsylvania on and east of U.S. Highway 15 and north of the East-Branch of the Susquehanna River in Tioga, Bradford, Lycoming, Sullivan, Union, Snyder, Northumberland, Montour, and Columbia Counties, Pa.) *; and

(c) Between points in Wyoming, on the one hand, and, on the other, points in West Virginia and Kentucky (points in South Dakota east of the Missouri River or east of South Dakota Highway 73, and Elgin, Ill.) *. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 113855 (Sub-No. E437), filed July 19, 1976. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Rd., SE., Rochester, Minn. 55901. Applicant's representative: Michael E. Miller, 502 First Nat'l Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Metal and Metal articles* between points in North Dakota, on the one hand, and, on the other, (A) points in Iowa, (points in Minnesota within 50 miles of Sioux Falls, S.D., or points in South Dakota east of South Dakota Highway 73) *

(B) Points in Kansas, Missouri, Illinois, Indiana, Ohio, Pennsylvania and Wisconsin. (South Dakota) * The purpose of this filing is to eliminate the gateways indicated by astericks above.

No. MC 113855 (Sub-No. E438), filed July 19, 1976. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Rd., SE., Rochester, Minn. 55901. Applicant's representative: Michael E. Miller, 502 First Nat'l Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Metal and Metal articles*, (a) between points in Idaho south of Lehmi, Valley and Idaho Counties, on the one

hand, and, on the other, points in South Dakota, (Utah) *

(b) Between points in Idaho, on the one hand, and, on the other, points in South Dakota east of the Missouri River, (Montana or Wyoming) *

(c) (i) Between points in Idaho, on the one hand, and, on the other, points in Nebraska (except Sheridan, Box, Butte, Dawes, and Sioux Counties), (ii) Between points in Idaho (except Benewah, Shoshone, Kastenai, Bonner and Boundary Counties, on the one hand, and, on the other, points in Nebraska, Utah, Montana, or Wyoming; and points in South Dakota east of the Missouri River) *. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 113855 (Sub.-No. E439), filed July 19, 1976. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Rd. SE., Rochester, Minn. 55901. Applicant's representative: Michael E. Miller, 502 First Nat'l Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Metal and Metal articles*, (a) between points in Wyoming, on the one hand, and, on the other, points in North Dakota (except points in Divide, William, McKenzie, Dunn, Golden Valley, Billings, Stark, Slope, Hettinger, Bowman, and Adams Counties); (b) between points in Weston, Crook, Campbell, Sheridan, Johnson, Big Horn, Washakie, Hot Springs, Park, Yellowstone, and Teton Counties, Wyo., on the one hand, and, on the other, points in Nebraska on and east of U.S. Highway 281; (c) between points in Niobrara, Converse, Natrona, Fremont, and Sublette Counties, Wyo., on the one hand, and, on the other, points in Washington, Douglas, Sarpy, Dodge, Saunders, Lancaster, Cass, and Otoe Counties, Nebr.; (d) between points in Wyoming in and north of Teton, Park, Hot Springs, Washakie, Johnson, Campbell, and Weston Counties, on the one hand, and, on the other, points in Kansas on and east of U.S. Highway 81; (e) between points in Sublette, Fremont, Natrona, Converse, and Niobrara Counties, Wyo., on the one hand, and, on the other, points in Kansas on and east of U.S. Highway 75; (f) between points in Wyoming (except Laramie County), on the one hand, and, on the other, points in Missouri; and (g) between points in Laramie County, Wyo., on the one hand, and, on the other, points in Missouri on and east of U.S. Highway 65. The purpose of this filing is to eliminate the gateways of South Dakota east of the Missouri River.

No. MC 113855 (Sub-No. E440), filed July 19, 1976. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Rd. S.E., Rochester, Minn. 55901. Applicant's representative: Michael E. Miller, 502 First Nat'l Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Metal and Metal articles*, (a) between points in South Dakota, on the one hand, and, on the other, points in Kentucky and West Virginia (Elgin, Ill.) *; (b) between points in South Dakota, on the one hand, and, on the other, points in Massachusetts, Connecticut, Rhode Island, Delaware, New Jersey, and the District of Columbia (points in Pennsylvania on and east of a line beginning at the Maryland-Pennsylvania State line and extending along unnumbered highway (formerly portion U.S. Highway 15) to junction Business U.S. Highway 15 near Fairply, Pa., thence along Business U.S. Highway 15 through Gettysburg, Pa., to junction U.S. Highway 15, thence along U.S. Highway 15 to junction unnumbered highway (formerly portion U.S. Highway 15), thence along unnumbered highway through Clear Spring, Pa., to junction U.S. Highway 15, thence along U.S. Highway 15 to Pennsylvania-New York State line (except points in Berks, Bucks, Chester, Delaware, Montgomery, and Philadelphia Counties, Pa., and points in Pennsylvania on and east of the above-described line in Adams, York, Cumberland, Perry, Dauphin, Lebanon, and Lancaster Counties, Pa., and points in Pennsylvania on and east of U.S. Highway 15 and north of the East Branch of the Susquehanna River in Tioga, Bradford, Lycoming, Sullivan, Union, Snyder, Northumberland, Montour, and Columbia Counties, Pa.) *;

(c) Between points in Nebraska, on the one hand, and, on the other, points in New Jersey, Delaware, Connecticut, Massachusetts, Rhode Island, and the District of Columbia (points in Pennsylvania on and east of a line beginning at the Maryland-Pennsylvania State line and extending along unnumbered highway (formerly portion U.S. Highway 15) to junction Business U.S. Highway 15, near Fairplay, Pa., thence along Business U.S. Highway 15 through Gettysburg, Pa., to junction unnumbered highway (formerly portion U.S. Highway 15), thence along unnumbered highway to Clear Spring, Pa., to junction U.S. Highway 15, thence along U.S. Highway 15 to the Pennsylvania-New York State line (except points in Berks, Bucks, Chester, Delaware, Montgomery, and Philadelphia Counties, Pa., and points in Pennsylvania on and east of the above-described line in Adams, York, Cumberland, Perry, Dauphin, Lebanon, and Lancaster Counties, Pa., and points in Pennsylvania on and east of U.S. Highway 15 and north of the East Branch of the Susquehanna River at Tioga, Bradford, Lycoming, Sullivan, Union, Snyder, Northumberland, Montour, and Columbia Counties, Pa., and points in South Dakota) *. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 113855 (Sub-No. E443), filed July 19, 1976. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Rd. SE., Rochester, Minn., 55901. Applicant's representative: Michael E. Miller, 502 First Nat'l Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Metal and Metal articles*, (a) between points in Colorado and North Dakota, on the one hand, and, on the other, points in New Jersey, Delaware, Connecticut, Rhode Island, Massachusetts, and the District of Columbia (South Dakota and points in Pennsylvania on and east of a line beginning at the Maryland-Pennsylvania State line and extending along unnumbered highway (formerly portion U.S. Highway 15) to junction Business U.S. Highway 15, near Fairplay, to junction U.S. Highway 15, thence along U.S. Highway 15 to junction unumbered highway (formerly portion U.S. Highway 15), thence along U.S. Highway 15 to the Pennsylvania-New York State line (except points in Berks, Bucks, Chester, Delaware, Montgomery and Philadelphia Counties, Pa., and points in Pennsylvania on and east of the above-described line in Adams, York, Cumberland, Perry, Dauphin, Lebanon, and Lancaster Counties, Pa., and points in Pennsylvania on and east of U.S. Highway 15 and north of the East Branch of the Susquehanna River in Tioga, Bradford, Lycoming, Sullivan, Union, Snyder, Northumberland, Montour and Columbia Counties, Pa.) *; and (b) between points in North Dakota, and on the one hand, and, on the other, points in West Virginia and Kentucky (South Dakota and Elgin, Ill.) *. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 113855 (Sub-No. E444), filed July 19, 1976. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Rd. SE., Rochester, Minn. 55901. Applicant's representative: Michael E. Miller, 502 First Nat'l Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, Transporting: *Metal and Metal articles*, (A) (1) Between points in Cheyene County, Kans,. on the one hand, and, on the other, points in Kentucky on and east of a line beginning at the Kentucky-Indiana State line extending along U.S. Highway 421 to junction U.S. Highway 60, thence along U.S. Highway 60 to junction Kentucky Highway 15, thence along Kentucky Highway 15 to junction U.S. Highway 119, thence along U.S. Highway 119 to the Kentucky-Virginia State line; (2) between points in Kansas on, west and north of a line beginning at the Kansas-Nebraska State line extending along U.S. Highway 281 to junction Kansas Highway 61, thence along Kansas Highway 61 to junction U.S. Highway 54, thence along U.S. Highway 54 to junction U.S. Highway 183, thence along U.S. Highway 183 to the Kansas-Oklahoma State line, on the one hand, and, on the other points in Indiana on and north of U.S. Highway 30; (3) between points in Kansas, on west and north of a line beginning at the Nebraska-Kansas State line extending along U.S. Highway 183 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction U.S. Highway 283, thence along U.S. Highway 283 to junction Kansas Highway 96, thence along Kansas Highway 96 to the Kansas-Colorado State line, on the one hand, and, on the other, points in West Virginia; (4) between points in Kansas on, west and north of a line beginning at the Nebras-

ka-Kansas State line extending along U.S. Highway 281 to junction U.S. Highway 56 thence along U.S. Highway 56 to junction U.S. Highway 183, thence along U.S. Highway 54 thence along U.S. Highway 54 to the Kansas-Oklahoma State line (except points described in (3) above, on the one hand, and, on the other, points in West Virginia on and north of U.S. Highway 33 and on and west of U.S. Highway 250.

(B) (1) Between points in Kansas on and west of U.S. Highway 77, on the one hand, and, on the other, points in Massachusetts, Connecticut, Rhode Island and New Jersey; (2) between points in Kansas east of U.S. Highway 77 and on and north of U.S. Highway 24, on the one hand, and, on the other, points in Massachusetts on and east of Interstate Highway 93; (3) between points in Kansas on and west of a line beginning at the Kansas-Nebraska State line extending along U.S. Highway 81 to junction Kansas Highway 61, thence along Kansas Highway 61 to junction U.S. Highway 54, thence along U.S. Highway 54 to junction U.S. Highway 281, thence along U.S. Highway 281 to the Kansas-Oklahoma State line, on the one hand, and, on the other, points in Delaware; (4) between points in Kansas on and west of U.S. Highway 281, on the the one hand, and, on the other, points in New York in, east and south of Cayuga Tompkins, and Tioga Counties; (5) between points in Kansas on and west of U.S. Highway 81, on the one hand, and, on the other, points in New York on and south of Interstate Highway 84. The purpose of this filing is to eliminate the gateways of South Dakota, Davenport, Iowa, and Elgin, Ill., in (A) above; and South Dakota and points in Pennsylvania on and east of a line beginning at the Pennsylvaia-Maryland State line extending along unnumbered highway to junction Business U.S. Highway 15 near Fairplay, thence to junction U.S. Highway 15, thence along unnumbered highway through Clear Spring to junction U.S. Highway 15, thence along U.S. Highway 15 to the Pennsylvania-New York State line (except points in Berks, Bucks, Chester, Delaware, Montgomery, and Philadelphia Counties, Pa., and points in Pennsylvania on and east of the above-described line in Adams, York, Cumberland, Perry, Dauphin, Lebanon, and Lancaster Counties, Pa., and points on and east of U.S. Highway 15 and north of the East Branch of the Susquehanna River in Tioga, Bradford, Lycoming, Sullivan, Union, Snyder, Northumberland, Montour, and Columbia Counties, Pa., in (B) above.

No. MC 113855 (Sub-No. E445), filed July 19, 1976. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Rd. SE., Rochester, Minn. 55901. Applicant's representative: Michael E. Miller, 502 First Nat'l Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Metal and Metal articles*, (a) between points in Wisconsin, on the one hand, and, on the other, points in Indiana, Kentucky, Ohio and Scranton, Reading, Allentown, Harrisburg, Lancaster, and Hazleton, Pa., and mines in that part of Pennsylvania south and west of a line beginning at the Pennsylvania-Ohio State line and extending along U.S. Highway 422, thence along U.S. Highway 422 to junction U.S. Highway 19 near Rose Point, Pa., thence along U.S. Highway 19 to junction unnumbered highway near Portersville, Pa., thence along unnumbered highway via Pospect, Pa., to junction U.S. Highway 422, thence along U.S. Highway 422 to Ebensburg, Pa., thence along U.S. Highway 22 to junction U.S. Highway 522 to junction Pennsylvania Highway 641 (formerly Pennsylvania Highway 433), thence along Pennsylvania Highway 997, and thence along Pennsylvania-Maryland State line, including points on the indicated portions of the highways specified; (b) between points in Wisconsin, on the one hand, and, on the other, points in New York on and east of Interstate Highway 81; (c) between points in Wisconsin, on the one hand, and, on the other, points in Massachusetts, Connecticut and Rhode Island;

(d) Between points in Wisconsin, on the one hand, and, on the other, points in Hyde, Washington, Tyrrell, Dare, Chowan, Gates, Ferquimans, Pasquotank, Camden, and Corrituck Counties, NC.; (e) between points in Wisconsin, on the one hand, and, on the other, points in and east of Southhampton, Sussex, Prince George, Charles City, James City, Gloucester, and Middlesex Counties, Va.; and (f) between points in Wisconsin on and west of U.S. Highway 51, on the one hand, and, on the other, points in the District of Columbia and Virginia on and east of Interstate Highway 95. The purpose of this filing is to eliminate the gateways of Elgin, Ill., in (a) Elgin, Ill., and Scranton, Pa. in (b), Elgin, Ill. and Scranton, Pa., in (c) above; and Elgin, Ill., and Allentown, Pa., in (d), (e), and (f).

No. MC 113855 (Sub-No. E447), filed July 19, 1976. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Road SE., Rochester, Minn. 55901. Applicant's representative: Michael E. Miller, 502 First National Bank Building, Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Metal and Metal articles* between points in Montana, on the one hand, and, on the other, (a) points in Wisconsin (points in South Dakota east of the Missouri River)*; (b) points in Illinois, Michigan and Missouri (points in South Dakota east of the Missouri River or east of South Dakota Highway 73)*; (c) points in Indiana, (points in South Dakota east of the Missouri River or east of South Dakota Highway 73; or points in South Dakota east of the Missouri River, Davenport, Iowa and Elgin, Ill)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 113855 (Sub-No. E448), filed July 19, 1976. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Road SE., Rochester, Minn. 55901. Applicant's representative: Michael E. Miller, 502 First National Bank Building, Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Metal and Metal articles* between points in Wyoming, on the one hand, and, on the other, (a) points in Wisconsin, Illinois, Indiana, and Michigan (points in South Dakota east of the Missouri River or South Dakota Highway 73)* (b) points in Minnesota (points in South Dakota east of the Missouri River)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 113855 (Sub-No. E449), filed July 19, 1976. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Road SE., Rochester, Minn. 55901. Applicant's representative: Michael E. Miller, 502 First National Bank Building, Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Metal and Metal articles* (a) between points in California, on the one hand, and, on the other, (1) points in South Dakota (Nebraska)* and (2) points in Minnesota (Iowa or Nebraska, and points in Minnesota within 50 miles of Sioux Falls, S. Dak.)*; (b) between points in Utah, on the one hand, and, on the other, points in North Dakota and Minnesota (South Dakota)*; and (c) between points in Montana, on the one hand, and, on the other, points in Iowa, Ohio, and Pennsylvania (points in South Dakota east of the Missouri River)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 113855 (Sub-No. E451), filed July 19, 1976. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Rd., S.E., Rochester, Minn. 55109. Applicant's representative: Michael E. Miller, 502 First Nat'l Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Metal and Metal articles*, (a) between points in Colorado on, west, and south of a line beginning at the Colorado-New Mexico State line, thence along Interstate Highway 25 to Denver, Colo., thence westerly along U.S. Highway 40 to the Utah-Colorado State line, on the one hand, and, on the other, points in Nebraska on, east, and north of a line beginning at the Iowa-Nebraska State line, thence along U.S. Highway 77 to junction U.S. Highway 275, thence southeasterly along U.S. Highway 275 to the Iowa-Nebraska State line.

(b) Between points in Nebraska on and north of U.S. Highway 20, on the one hand, and, on the other, points in Kansas on, south, and east of a line beginning at the Kansas-Missouri State line, thence along U.S. Highway 169 to junction U.S. Highway 54, thence along U.S. Highway 54 to junction U.S. Highway 75, thence southerly along U.S. Highway 75 to the Kansas-Oklahoma State line.

(c) Between points in Nebraska on and east of U.S. Highway 81, on the one hand, and, on the other, North Dakota south of a line beginning at the Montana-North Dakota State line and extending along U.S. Highway 2 to Lakota, thence along North Dakota Highway 1 to the United States-Canada Boundary line, not including points on the indicated portions of the highways specified other than Minot, and

(d) Between points in Nebraska west of U.S. Highway 81, on the one hand, and, on the other, points in North Dakota on and east of a line beginning at the North Dakota-South Dakota State line, thence northerly along North Dakota Highway 18 to junction Interstate Highway 94, thence westerly along Interstate Highway 94 to junction North Dakota Highway 1, thence northerly along North Dakota Highway 1 to the United States-Canada Boundary line (except points on North Dakota Highway 1 lying on or north of U.S. Highway 2). The purpose of this filing is to eliminate the gateways of points in South Dakota in (a) and (b) and points in Minnesota within 50 miles of Sioux Falls, S. Dak. in (c) and (d).

No. MC 113855 (Sub-No. E452), filed July 15, 1976. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Rd., S.E., Rochester, Minn. 55901. Applicant's representative: Michael E. Miller, 502 First Nat'l Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Metal and metal articles*, (a) between points in Colorado, on the one hand, and, on the other, points in North Dakota, Ohio and Pennsylvania (South Dakota)*.

(b) Between points in Colorado, on the one hand, and, on the other, points in Minnesota (South Dakota, and points in Minnesota on or south of U.S. Highway 12 and on or west of a line beginning at the Wisconsin-Minnesota State line and extending along U.S. Highway 65, to junction Minnesota Highway 50, to junction Minnesota Highway 3, to junction U.S. Highway 65, to junction Minnesota Highway 30, to junction unnumbered highway near Ellendale, to junction U.S. Highway 65, to the Minnesota-Iowa State line, or Minot, N. Dak., or points in North Dakota south of a line beginning at the North Dakota-Montana State line and extending along North Dakota Highway 1 to junction North Dakota Highway 2, to the United States-Canada International Bounday line)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 113855 (Sub-No. E454), filed July 15, 1976. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Rd., S.E., Rochester, Minn. 55901. Applicant's representative: Michael E. Miller, 502 First Nat'l Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Metal and metal articles*, (A) between points in Box Elder, Toole, Cache, Rich, Weber, Davis, Morgan, Summit, Salt Lake, Utah, Wasatch Counties, Utah, on the one hand, and, on the other, points in Kansas on and east of U.S. Highway 281, (South Dakota*).

The purpose of this filing is to eliminate the gateway of Chicago, Illinois.

No. MC 117815 (Sub-No. E85), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 SE. 20th Street, Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise as is dealt in by wholesale grocery* and *food business houses*, and in connection therewith, *equipment, mate-*

rials and *supplies used in the conduct of such business*, when moving to or from such business houses or other facilities thereof, between Des Moines, Iowa, on the one hand, and, on the other, points in that part of Indiana bounded by a line commencing at the Illinois-Indiana state line at unnumbered highway approximately four miles north of Effner, Indiana, and extending in a northeasterly direction (through Brook, Collegeville, Francesville, and Winamac, Indiana), to Warsaw, Indiana, thence north over Indiana Highway 15 to Goshen, Indiana, and thence in a northwesterly direction to the Indiana-Michigan state line near Granger, Indiana. The purpose of this filing is to eliminate the gateway of Chicago, Illinois.

No. MC 117815 (Sub-No. E86), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 SE. 20th Street, Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from the plantsite and storage facilities utilized by Banquet Foods Corporation at Macon and Moberly, Missouri, to points in that part of Indiana on and north of a line commencing at the Illinois-Indiana state line west of Enos, Indiana, thence east to Enos, Indiana, thence east over Indiana Highway 14 to junction of U.S. Highway 421, thence south over U.S. Highway 421 to junction of Indiana Highway 16, thence east over Indiana Highway 16 to Royal Center, Indiana, thence southeast over U.S. Highway 35 to Walton, Indiana, thence east over Indiana Highway 218 to junction of Indiana Highway 21, thence south over Indiana Highway 21 to junction Indiana Highway 18, thence east over Indiana Highway 18 to junction of Indiana Highway 3, thence south over Indiana Highway 3 to junction of Indiana Highway 26, and thence east over Indiana Highway 26 to the Indiana-Ohio state line, restricted to traffic originating at the named facilities and to movements, from, to or between wholesale grocery houses, their warehouses, and retail outlets. The purpose of this filing is to eliminate the gateway of Chicago, Illinois.

No. MC 117815 (Sub-No. E87), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 SE. 20th Street, Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Poultry* and *dairy products*, from Centerville, Iowa, to points in that part of Indiana on and north of a line commencing at the Illinois-Indiana state line on Indiana Highway 114 west of Moroco, Indiana, thence east over Indiana Highway 114 to Rensselaer, Indiana, thence south over U.S. Highway 231 to junction of Indiana Highway 18, thence east over Indiana Highway 18 to junction of Indiana Highway 29, thence south over Indiana Highway 29 to Middlefork, Indiana, thence east over Indiana Highway 26 to junction of U.S. Highway 31, thence south over U.S. Highway 31 to junction of Indiana Highway 28, thence east over Indiana Highway 28 to junction of Indiana Highway 9, thence south over Indiana Highway 9 to Anderson, Indiana, thence east over Indiana Highway 32 to junction of Indiana Highway 67, thence east over Indiana Highway 67 to junction of Indiana Highway 3, thence south over Indiana Highway 3 to junction of U.S. Highway 36, thence east over U.S. Highway 36 to junction of U.S. Highway 35, thence south over U.S. Highway 35 to junction of unnumbered highway at Williamsburg, Indiana, thence south over unnumbered highway to junction of U.S. Highway 40, and thence east over U.S. Highway 40 to the Indiana-Ohio state line, restricted to movements from, to or between wholesale grocery houses, their warehouses, and retail outlets. The purpose of this filing is to eliminate the gateway of Chicago, Illinois.

No. MC 117815 (Sub-No. E88), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 SE. 20th Street, Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned vegetables*, from the plantsites of the Green Giant Company at Beaver Dam and Fox Lake, Wisconsin, to points in Illinois within the territory bounded by a line beginning at Galena, Illinois, and extending in a southeasterly direction to Savanna, Illinois, thence south to Galesburg, Illinois, thence in a southeasterly direction to Peoria, Illinois, thence northeast over Illinois Highway 116 to Metamora, Illinois, thence north over Illinois Highway 89 to Magnolia, Illinois, thence east over Illinois Highway 18, to Streator, Illinois, thence north over Illinois Highway 23 to Ottawa, Illinois, thence east over U.S. Highway 6 to Joliet, Illinois, thence north over Illinois Highway 53 to junction U.S. Highway 14, thence northwest over U.S. Highway 14 to junction Illinois Highway 47, thence north over Illinois Highway 47 to Hebron, Illinois, thence west along a line through South Beloit and Warren, Illinois, to Galena, Illinois, restricted to traffic originating at the plantsites of Green Giant Company and to movements from, to or between wholesale and retail grocery houses, their warehouse, and retail outlets. The purpose of this filing is to eliminate the gateway of Clinton, Iowa.

No. MC–117815 (Sub-No. E89), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 SE. 20th Street, Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned vegetables*, from the plantsites of Green Giant Company at Ripon and Rosendale, Wisconsin, to points in Illinois within the territory bounded by a line beginning at Galena, Illinois, and extending in a southeasterly direction to Savanna, Illinois, thence south to Galesburg, Illinois, thence in a southeasterly direction to Peoria, Illinois, thence north over Illinois Highway 116 to Metamora, Illinois, thence north over Illinois Highway 89 to Spring Valley, Illinois, thence east over U.S. Highway 6 to junction Illinois Highway 23, thence north over Illinois Highway 23 to Genoa, Illinois, thence northwest over unnumbered road to Belvidere, Illinois, thence west over U.S. Highway 20 to Rockford, Illinois, thence north over Illinois Highway 2 to South Beloit, Illinois, and thence west along a line through Warren, Illinois, to Galena, Illinois, restricted to traffic originating at the plantsites of Green Giant Company and to movements from, to or between wholesale and retail grocery houses, their warehouses and retail outlets and to traffic originating at the named plantsites. The purpose of this filing is to eliminate the gateway of Clinton, Iowa.

No. MC 117815 (Sub-No. E90), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 SE. 20th Street, Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Condiments* and *canned goods*, from points in that part of Indiana bounded by a line commencing at the Illinois-Indiana state line at unnumbered highway approximately four miles north of Effner, Indiana, and extending in a northeasterly direction (through Brook, Collegeville, Francesville, and Winamac, Indiana), to Warsaw, Indiana, thence north over Indiana Highway 15 to Goshen, Indiana, and thence in a northwesterly direction to the Indiana-Michigan state line near Granger, Indiana, to points in that part of Iowa on and north of a line beginning at the Iowa-Illinois state line and extending along U.S. Highway 6 to junction unnumbered highway, west of Ladora, Iowa, thence along unnumbered highway via Victor, Camforth and Brooklyn, Iowa, to junction U.S. Highway 6, and thence along U.S. Highway 6 to junction U.S. Highway 69, and on and east of U.S. Highway 69 from junction U.S. Highway 6 to the Iowa-Minnesota state line, restricted to movements from, to or between wholesale grocery houses, their warehouses, and retail outlets. The purpose of this filing is to eliminate the gateway of Chicago, Illinois.

No. MC 117815 (Sub-No. E91), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 SE. 20th Street, Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (*Poultry, eggs, dairy products, fresh meats, canned foods*, and *packing house*

products, supplies and *equipment*, from points in that part of Indiana bounded by a line commencing at the Illinois-Indiana state line at unnumbered highway approximately four miles north of Effner, Indiana, and extending in a northeasterly direction (through Brook, Collegeville, Francesville, and Winamac, Indiana) to Warsaw, Indiana, thence north over Indiana Highway 15 to Goshen, Indiana, and thence in a northwesterly direction to the Indiana-Michigan state line near Granger, Indiana, to points in Iowa on and east of U.S. Highway 69, restricted to movements from, to or between wholesale grocery houses, their warehouses, and retail outlets. The purpose of this filing is to eliminate the gateway of Chicago, Illinois.

No. MC 117815 (Sub-No. E92), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 SE. 20th Street, Des Moines, Illinois 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Illinois 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products*, and *meat by-products, dairy products*, and *articles distributed by meat packinghouses*, as described in Sections A, B, and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except animal and poultry feed), from points in that part of Indiana bounded by a line commencing at the Illinois-Indiana state line at unnumbered highway approximately four miles north of Effner, Indiana, and extending in a northeasterly direction (through Brook, Collegeville, Francesville, and Winamac, Indiana) to Warsaw, Indiana, thence north over Indiana Highway 15 to Goshen, Indiana, and thence in a northwesterly direction to the Indiana-Michigan state line near Granger, Indiana, to Adel, Cedar Rapids, Clarion, Creston, Fort Dodge, Guthrie Center, Jefferson, Mason City, Mount Ayr, Muscatine, Perry, and Winterset, Iowa, restricted to movements from, to or between wholesale grocery houses, their warehouses, and retail outlets. The purpose of this filing is to eliminate the gateway of Chicago, Illinois.

No. MC 117815 (Sub-No. E93), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 SE. 20th Street, Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned goods*, from points in that part of Indiana bounded by a line commencing at the Illinois-Indiana state line at unnumbered highway approximately four miles north of Effner, Indiana, and extending in a northeasterly direction (through Brook, Collegeville, Francesville, and Winamac, Indiana), to Warsaw, Indiana, thence north over Indiana Highway 15 to Goshen, Indiana, and then in a northwesterly direction to the Indiana-Michigan state line near Granger, Indiana, to Adel, Cedar Rapids, Clarion, Creston, Fort Dodge, Guthrie Center, Jefferson, Mason City, Mount Ayr, Muscatine, Perry and Winterset, Iowa, restricted to movements from, to or between wholesale grocery houses, their warehouses, and retail outlets. The purpose of this filing is to eliminate the gateway of Chicago, Illinois.

No. MC 118831 (Sub-No. E93), filed April 19, 1976. Applicant: CENTRAL TRANSPORT, INC., P.O. Box 5388, Uwharrie Road, High Point, N.C. 27263. Applicant's representative: E. Stephen Heisley, Suite 805, 666 Eleventh St., NW, Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid petrochemicals* (except anhydrous ammonia, fertilizer, and fertilizer materials), in bulk, in tank vehicles, from points in that part of North Carolina in and east of the counties of Transylvania, Henderson, Buncombe, and Madison to points in Georgia, restricted against the transportation of caustic soda from Acme, N.C. and points within 5 miles thereof to points in Georgia. The purpose of this filing is to eliminate the gateway of points in South Carolina.

No. MC 118831 (Sub-No. E94), filed April 19, 1976. Applicant: CENTRAL TRANSPORT, INC., P.O. Box 5388, Uwharrie Road, High Point, N.C. 27263. Applicant's representative: E. Stephen Heisley, Suite 805, 666 Eleventh St., NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid petrochemicals* (except fertilizer and vegetable oils), in bulk, in tank vehicles, from points in Calhoun, Chester, Chesterfield, Clarendon, Darlington, Dillon, Fairfield, Florence, Georgetown, Horry, Kershaw, Lancaster, Lee, Marion, Marlboro, Richland, Sumter, Williamsburg, and York Counties, S.C., to points in Alabama. The purpose of this filing is to eliminate the gateway of Charlotte, N.C., Lanett, Ala., and points in that part of Georgia in the Lanett, Ala., commercial zone.

No. MC 118831 (Sub-No. E95), filed April 19, 1976. Applicant: CENTRAL TRANSPORT, INC., P.O. Box 5388, Uwharrie Road, High Point, N.C. 27263. Applicant's representative: E. Stephen Heisley, Suite 805, 666 Eleventh St., NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid petrochemicals* (except fertilizer and vegetable oils), in bulk, in tank vehicles, from points in South Carolina (except Charleston) to points in Mississippi. The purpose of this filing is to eliminate the gateway of Lanett, Ala. and points in its commercial zone.

No. MC 118831 (Sub-No. E102), filed November 19, 1976. Applicant: CENTRAL TRANSPORT, INC., P.O. Box 5388, Uwharrie Road, High Point, N.C. 27263. Applicant's representative: E. Stephen Heisley, Suite 805, 666 Eleventh St. N.W., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *liquid petrochemicals*, in bulk, from points in Richmond County, Ga., to points in Georgia except those points in Georgia beginning at the intersection of U.S. Highway 378 and the Georgia-South Carolina boundary, thence, in a westerly direction through Washington, to Covington, Ga.; thence, in a southerly direction to Monticello; Ga.; thence, in a southerly direction to Roberta, Ga., thence, in an easterly direction through Hawkinsville, McRae, and Springfield, Ga., to the South Carolina-Georgia State line. The purpose of this filing is to eliminate the gateway of points in South Carolina.

No. MC 118831 (Sub-No. E103), filed November 19, 1976. Applicant: CENTRAL TRANSPORT, INC., P.O. Box 5388, Uwharrie Road, High Point, N.C. 27263. Applicant's representative: E. Stephen Heisley, Suite 805, 666 Eleventh St., NW., Washington, D. C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dimethyl Terephthalate*, molten, in bulk, from Gibbstown, New Jersey to points in that part of Mississippi on and south of U.S. Highway 82. The purpose of this filing is to eliminate the gateway of plant site of the E. I. Dupont Company at Graingers, N.C., Spartanburg, S.C., and Robertson County, Tenn.

No. MC 118831 (Sub-No. E104), filed November 19, 1976. Applicant: CENTRAL TRANSPORT, INC., P.O. Box 5388, Uwharrie Road, High Point, N.C. 27263. Applicant's representative: E. Stephen Heisley, Suite 805, 666 Eleventh St., NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid fertilizer and fertilizer materials*, in bulk, from points in South Carolina to points in Delaware, New Jersey, and those parts of Pennsylvania, Maryland, and West Virginia lying on an east of a line beginning on U.S. Highway 522 at the West Virginia-Virginia State Line (near Ridge, West Virginia) and extending northward on U.S. Highway 522 to Hancock, Maryland; thence, along Interstate 70 to its junction with Pennsylvania Highway 56 (northwest of Bedford, Pennsylvania); thence, northwestward along Pennsylvania Highway 56 to its junction at U.S. 119 at Homer City, Pennsylvania; thence, over U.S. 119 to its junction with U.S. 219 at Sandy, Pennsylvania; thence, over U.S. 219 to the New York State Line. The purpose of this filing is to eliminate the gateway of points in Hertford County, N.C.

No. MC 118831 (Sub-No. E105), filed November 10, 1976. Applicant: CENTRAL TRANSPORT, INC., P.O. Box 5388, Uwharrie Road, Highpoint, N.C. 27263. Applicant's representative: E. Stephen Heisley, Suite 805, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a *common*

carrier, by motor vehicle, over irregular routes, transporting: *liquid petrochemicals* (except anhydrous ammonia, fertilizer and fertilizer materials), in bulk, in tank or hopper-type vehicles, from the plant site of Howerton-Gowen Company, Inc., at Chesapeake, Virginia, to points in South Carolina and to points in that part of Virginia on and west of a line beginning with U.S. Highway 301 at the North Carolina-Virginia State line and proceeding north to Emporia; thence, over U.S. Highway 58 to Lawrenceville, Va.; thence, over Virginia Highway 46 to Blackstone, Va.; thence, over U.S. Highway 460 to Farmville, thence, over U.S. Highway 15 to a point two miles north of Sprouses Corner, Va.; thence, over Virginia Highway No. 20 to Charlottesville, Va.; thence, over U.S. Highway 29 to Culpepper; thence, over U.S. Highway 522 to Winchester; thence, over U.S. Highway 11 to the West Virginia State line. The purpose of this filing is to eliminate the gateway of points in North Carolina on and east of U.S. 21 and on and north of U.S. 74 and points in South Carolina.

No. MC 118831 (Sub-No. E106), filed November 19, 1976. Applicant: CENTRAL TRANSPORT, INC., P.O. Box 5388, Uwharrie Road, High Point, N.C. 27263. Applicant's representative: E. Stephen Heisley, Suite 805, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *liquid petrochemicals* (except anhydrous ammonia, and fertilizer, and fertilizer materials), in bulk, in tank *or hopper-type vehicles, from the plant* site of Howerton-Cowen Company in Chesapeake, Virginia (in the Norfolk Commercial Zone) to points in Georgia. The purpose of this filing is to eliminate the gateway of points in North Carolina on and east of U.S. 21 and on and north of U.S. 74 and points in South Carolina.

No MC 118831 (Sub-No. E107), filed November 19, 1976. Applicant: CENTRAL TRANSPORT, INC., P.O. Box 5388, Uwharrie Road, High Point, N.C. 27263. Applicant's representative: E. Stephen Heisley, Suite 805, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *liquid petrochemicals* (except anhydrous ammonia, fertilizer, and fertilizer materials), in bulk, in tank vehicles, from points in that part of North Carolina (except Charlotte) on and east of U.S. Highway 25 to points in that part of Florida on and south of Sarasota, Fla., and proceeding along Florida Highway 72 to Arcadia, Fla.; thence, over Florida Highway 70 to Okeechobee, Florida; thence, over Florida Highway 710 to West Palm Beach, Fla. The purpose of this filing is to eliminate the gateway of points in South Carolina within the Charlotte Commercial Zone.

No. MC 118831 (Sub-No. E108), filed November 19, 1976. Applicant: CENTRAL TRANSPORT, INC., P.O. Box 5388, Uwharrie Road, High Point, N.C. 27263. Applicant's representative: E. Stephen Heisley, Suite 805, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *liquid petrochemicals* (except anhydrous ammonia, fertilizer, and fertilizer materials), in bulk, in tank or hopper-type vehicles, from the plant site of Howerton-Gowen Company, Inc., at Chesapeake, Va. (within the Norfolk Commercial Zone), to points in that part of North Carolina lying on, south, and west of a line beginning at the Atlantic Ocean and running along U.S. Highway 74 to Charlotte, N.C.; thence, northward along N.C. Highway 115 to Mooresville, N.C.; thence, westward along N.C. Highway 150 to N.C. Highway 16; thence, northward along N.C. Highway 16 to Conover, N.C.; thence, westward along Interstate Highway 40 to Hickory, N.C.; thence, northward along U.S. Highway 321 to the Tennessee State line. The purpose of this filing is to eliminate the gateways of points in North Carolina on and east of U.S. 21 and on the north of U.S. 74 and points in South Carolina.

No. MC 118831 (Sub-No. E109), filed November 19, 1976. Applicant: CENTRAL TRANSPORT, INC., P.O. Box 5388, Uwharrie Road, High Point, N.C. 27263. Applicant's representative: E. Stephen Heisley, Suite 805, 666 Eleventh St., NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid petrochemicals*, in bulk, (except anhydrous ammonia fertilizer, and fertilizer materials), from points in North Carolina bounded as follows: Beginning at the North Carolina-South Carolina State Line on U.S. 321 and proceeding northward to N.C. 275; thence, over N.C. 275 to N.C. 16; thence, north over N.C. 16 to N.C. 150; thence eastward over N.C. 150 to U.S. 29 and 70; thence, northeastward over U.S. 29 and 70 to Greensboro; thence, eastward over U.S. 70 to Hillsboro; thence, eastward over Interstate Highway 85 to U.S. 15 near Oxford, N.C.; thence, over U.S. 15 to Oxford; thence, over U.S. 158 to Interstate 85; thence, over Interstate 85 to Manson; thence, over U.S. 1 to Norline; thence, over U.S. 401 to Warrenton; thence, over N.C. 58 to Nashville; thence, over U.S. 64 to Rocky Mount; thence, over N.C. 97 to Hobgood; thence, over N.C. 125 to Williamston; thence, over U.S. 17 to Washington; thence, over U.S. 264 to the Atlantic Ocean; thence, running with the Atlantic Coast to the North Carolina-South Carolina State Line and westward with the North Carolina-South Carolina State Line to point of beginning, including all points on said boundary (except not applicable on caustic soda from Acme, N.C., and points within 5 miles thereof); to points in Missouri (except points in the St. Louis, Missouri Commercial Zone), points in Illinois (except points in the East St. Louis, Illinois Commercial Zone), points in Wisconsin, and points in the states of Tennessee, Kentucky, Ohio, Indiana, and Michigan on and west of a line described as follows:

Beginning at the North Carolina-Tennessee State Line on Tennessee Highway 123 to Tennessee Highway 68 to U.S. 411 to Tennessee Highway 33 to Interstate Highway 75 to Tennessee 61 to U.S. 441 to U.S. 25–W to Interstate 75 to Careyville; thence, Tennessee Highway 63 to U.S. Highway 27; U.S. Highway 27 to Somerset, Kentucky; thence, Kentucky Highway 80 to Kentucky Highway 461 to U.S. Highway 25 to Richmond, Kentucky; thence, Kentucky Highway 388 to Winchester, Kentucky; thence, Kentucky Highway 227 to Paris, Kentucky; thence, U.S. Highway 27 to Cincinnati, Ohio; thence, via Ohio Highway 4 to Hamilton, Ohio; Ohio Highway 177 to Indiana Highway 227 to U.S. 35 to Indiana Highway 3 to Indiana Highway 28 to Indiana Highway 15 to Indiana Highway 9 to Indiana Highway 105 to Indiana Highway 205 to Indiana Highway 327 to the Michigan State Line; thence, over unnumbered Michigan Highway to Bronson, Michigan; thence, over U.S. Highway 12 to Interstate Highway 69; thence, over Michigan Highway No. 60 to Jackson, Michigan; thence, over Interstate Highway 94 to Detroit. The purpose of this filing is to eliminate the gateway of points in South Carolina and Charlotte, N.C.

No. MC 118831 (Sub-No. E110), filed November 19, 1976. Applicant: CENTRAL TRANSPORT, INC., P.O. Box 5388, Uwharrie Road, High Point, N.C. 27263. Applicant's representative: E. Stephen Heisley, Suite 805, 666 Eleventh St., NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid petrochemicals*, in bulk, (except anhydrous ammonia, fertilizer, and fertilizer materials), from points in North Carolina bounded as follows (including points on said boundary): Beginning on the North Carolina-South Carolina State Line on U.S. 321; thence, northward to Interstate 85; thence, eastward to N.C. 73; thence, eastward to N.C. 24; thence, eastward to N.C. 50; thence, southeastward to the Atlantic Ocean; thence, southward and westward along the Atlantic Coast to the North Carolina-South Carolina State Line; thence, westward along the North Carolina-South Carolina State Line to point of beginning (except not applicable on Caustic Soda from Acme, N.C., and points within five miles) to points in the states of Illinois (except points in East St. Louis, Illinois Commercial Zone), Indiana, Michigan, Missouri (except points in the St. Louis, Missouri Commercial Zone), Tennessee, Wisconsin, and points in Kentucky and Ohio on, north, and west of a line described as follows: Beginning on Kentucky Highway 80 at Elkhorn City; thence, northward to U.S. 460; thence, to U.S. 23 to Kentucky Highway 201 to Kentucky Highway 1 to U.S. 23; U.S. 23 to Portsmouth, Ohio; Ohio Highway 139 to Ohio Highway 124 to Ohio Highway 346 to Athens, Ohio; thence, over U.S. Highway 50 to Belpre, Ohio. The purpose of this filing is to eliminate the

gateway of points in South Carolina, and Charlotte, N.C.

No. MC 123407 (Sub-No. E252), filed November 30, 1975. Applicant: SAWYER TRANSPORT, INC., South Haven Square, U.S. Highway—6, Valparaiso, Ind. 46383. Applicant's representative: Richard L. Loftus (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fabricated steel pipe and conduit* (except oilfield commodities as described in *Mercer Extension—Oil Field Commodities*, 74 M.C.C. 459), from the plantsite and warehouse facilities of Allied Tube & Conduit Corporation at Harvey, Ill., to points in Florida (except points in Nassau County), points in Alabama in and south of the counties of Sumter, Greene, Hale, Perry, Dallas, Lowndes, Montgomery, Bullock, and Barbour, and points in Georgia in and south of the counties of Quitman, Randolph, Terrell, Lee, Worth, Tift, Berrien, Atkinson, and Clinch. The purpose of this filing is to eliminate the gateway of the plantsite and warehouse facilities of Henderson Steel Corporation located in Lauderdale County, Miss.

No. MC 123407 (Sub-No. E258), filed March 30, 1976. Applicant: SAWYER TRANSPORT, INC., U.S. Highway—6, South Haven Square, Valparaiso, Ind. 46383. Applicant's representative: Richard L. Loftus (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irreguluar routes, transporting: *Such iron and steel articles as are roofing, building, or paving materials* (except commodities in bulk, and commodities which because of their size or weight require the use of special equipment), from Brookville, Ind., to points in Alabama, Arkansas, Georgia, Mississippi, South Carolina, Texas, Wisconsin, and Louisiana, North Carolina in the counties in and east of Henderson, Rutherford, McDowell, Burke, Caldwell, Wilkes, Yadkin, Forsyth, Guilford, Alamance, Orange, Durham and Granville. The purpose of this filing is to eliminate the gateway of New Castle, Ind.

No. MC 123407 (Sub-No. E259), filed March 30, 1976. Applicant: SAWYER TRANSPORT, INC., U.S. Highway 6, South Haven Square, Valparaiso, Ind. 46383. Applicant's representative: Richard L. Loftus (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such iron and steel articles* as are building materials, from Coatesville, Brackenridge, West Leechburg, and Bagdad, Pa., to points in Minnesota, South Dakota, Nebraska, Kansas, and the Upper Peninsula of Michigan in the counties of Gogebic, Ontonagon, Houghton, Keweenaw, Baraga, and Iron. The purpose of this filing is to eliminate the gateway of those points in the Warren, Ill., commercial zone located in Wisconsin.

No. MC 123407 (Sub-No. E261), filed March 30, 1976. Applicant: SAWYER TRANSPORT, INC., U.S. Highway 6, South Haven Square, Valparaiso, Ind. 46383. Applicant's representative: Richard L. Loftus (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such iron and steel articles* as are building materials, from New Castle, Ind., to points in Minnesota, South Dakota, Nebraska, Kansas in the counties of Cheyenne, Rawlins, Decatur, Norton, and Phillips, and the Upper Peninsula of Michigan in the counties of Gogebic, Ontonagon, Houghton, Baraga, Iron, Marquette, Dickinson and Menominee. The purpose of this filing is to eliminate the gateway of those points in the Warren, Ill. commercial zone located in Wisconsin.

No. MC 123407 (Sub-No. E262), filed March 30, 1976. Applicant: SAWYER TRANSPORT, INC., U.S. Highway 6, South Haven Square, Valparaiso, Ind. 46383. Applicant's representative: Richard L. Loftus (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fabricated steel*, from New Castle, Ind., to points in Florida in the counties of Escambia, Santa Rosa, Okaloosa, Walton, Holmes, Washington, Bay, Jackson, Calhoun, Gulf, Gadsden, Liberty, Franklin, Wakulla, Pinellas, Hillsborough, Manatee, Hardee, Highlands, Okeechobee, St. Lucie, Sarasota, DeSoto, Martin, Charlotte, Glades, Lee, Hendry, Palm Beach, Collier, Broward, Monroe, and Dade. The purpose of this filing is to eliminate the gateway of the plantsite and warehouse facilities of Henderson Steel Corporation, located in Lauderdale County, Miss.

No. MC 123407 (Sub-No. E266), filed March 30, 1976. Applicant: SAWYER TRANSPORT, INC., U.S. Highway 6, South Haven Square, Valparaiso, Ind. 46383. Applicant's representative: Richard L. Loftus (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such iron and steel articles as are building materials*, from International Falls, Minn., to points in Alabama, Georgia, Mississippi, North Carolina, and South Carolina. The purpose of this filing is to eliminate the gateways of Warren, Ill., and New Castle, Ind.

No. MC 123407 (Sub-No. E267), filed March 30, 1976. Applicant: SAWYER TRANSPORT INC., U.S. Highway 6, South Haven Square, Valparaiso, Ind. 46383. Applicant's representative: Richard L. Loftus (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such iron and steel articles* as are roofing materials, from Chicago, Ill., to points in Alabama, Georgia, North Carolina, South Carolina, Texas, Louisiana, Arkansas in and south of the counties of Sevier, Howard, Pike, Nevada, Ouachita, Calhoun, Bradley, Lincoln, Drew, and Chicot, and Mississippi in and south of the counties of Issaquena, Sharkey, Yazoo, Madison, Leake, Winston, Oktibbeha, and Lowndes. The purpose of this filing is to eliminate the gateway of New Castle, Ind.

No. MC 123407 (Sub-No. E268), filed March 30, 1976. Applicant: SAWYER TRANSPORT, INC., U.S. Highway 6, South Haven Square, Valparaiso, Ind. 46383. Applicant's representative: Richard L. Loftus (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such iron* and *steel articles as are building materials*, from Coatesville, Brackenridge, West Leechburg, and Bagdad, Pa., to points in North Dakota (except in the counties of Emmons, Logan, McIntosh, and Cass). The purpose of this filing is to eliminate the gateways of those points in the Warren, Ill. commercial zone located in Wisconsin and L'Anse, Mich.

No. MC 123407 (Sub-No. E270), filed March 30, 1976. Applicant: SAWYER TRANSPORT, INC., U.S. Highway 6, South Haven Square, Valparaiso, Ind. 46383. Applicant's representative: Richard L. Loftus (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel windows and doors*, restricted against the transportation of commodities, which, because of their size or weight, require the use of special equipment or special handling, from Columbus, Ohio, to points in North Carolina in and east of the counties of Vance, Franklin, Nash, Wilson, Greene, Lenoir, Jones and Onslow. The purpose of this filing is to eliminate the gateway of West Leechburg, Pa.

No. MC 123407 (Sub-No. E271), filed March 30, 1976. Applicant: SAWYER TRANSPORT, INC., U.S. Highway 6, South Haven Square, Valparaiso, Ind. 46383. Applicant's representative: Richard L. Loftus (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such iron and steel articles as are building materials*, from Clinton, Iowa, to points in North Carolina, South Carolina, Alabama in the counties of Barbour, Dale, Henry and Houston, and Georgia (except in the counties of Floyd, Polk, Haralson, and Carroll). The purpose of this filing is to eliminate the gateways of Warren, Ill., and New Castle, Ind.

No. MC 123407 (Sub-No. E272), filed March 30, 1976. Applicant: SAWYER TRANSPORT, INC., U.S. Highway 6, South Haven Square, Valparaiso, Ind. 46383. Applicant's representative: Richard L. Loftus (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel used construction forms*, from New Castle, Ind., Coatesville, Brackenridge, West Leechburg, and Bagdad, Pa., to points in Florida. The purpose of this filing is to eliminate the gateway of Atlanta, Ga.

No. MC 123407 (Sub-No. E274), filed March 30, 1976. Applicant: SAWYER TRANSPORT, INC., U.S. Highway 6, South Haven Square, Valparaiso, Ind. 46383. Applicant's representative: Richard L. Loftus (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes,

transporting: *Iron and steel used construction forms,* from Coatesville, Brackenridge, West Leechburg, and Bagdad, Pa., to points in Minnesota, North Dakota, South Dakota, Nebraska, Wyoming, and Iowa. The purpose of this filing is to eliminate the gateway of Beloit, Wis.

No. MC 123407 (Sub-No. E275), filed March 30, 1976. Applicant: SAWYER TRANSPORT, INC., U.S. Highway 6, South Haven Square, Valparaiso, Ind. 46383. Applicant's representative: Richard L. Loftus (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Such iron and steel articles as are building materials* (except commodities in bulk), from Port Clinton, Ohio, to points in Arkansas, Georgia, Mississippi, Texas, Louisiana, Alabama, North Carolina in and west of the counties of Watauga, Caldwell, Catawba, Lincoln, and Gaston, and South Carolina in and west of the counties of Lancaster, Kershaw, Lee, Sumter, Clarendon, Orangeburg, Dorchester, and Charleston. The purpose of this filing is to eliminate the gateway of New Castle, Ind.

No. MC 123407 (Sub-No. E276), filed March 30, 1976. Applicant: SAWYER TRANSPORT, INC., U.S. Highway 6, South Haven Square, Valparaiso, Ind. 46383. Applicant's representative: Richard L. Loftus (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Iron and steel used construction forms,* from New Castle, Ind., to points in Illinois in the counties of Jo Daviess, Stephenson, Winnebago, Boone, McHenry, Lake, Carroll, Ogle, Whiteside, Lee, and Cook. The purpose of this filing is to eliminate the gateway of Wilmot, Wis.

By the Commission.

ROBERT L. OSWALD,
Secretary.

[Notice No. 56]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

MAY 3, 1977.

The following are notices of filing of applications for temporary authority under Section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the ICC Field Office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 69397 (Sub-No. 25TA), filed April 8, 1977. Applicant: JAMES H. HARTMAN & SON, INC., P.O. Box 85, U.S. Route 13, Pocomoke City, Md. 21851. Applicant's representative: Wilmer B. Hill, Suite 805, 666 Eleventh Street, NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Lumber, lumber products, wood, and wood products,* from points in Accomac and Northampton Counties, Va., to points in Maryland, Delaware, Pennsylvania, New Jersey, New York, Connecticut, Rhode Island, Massachusetts, and the District of Columbia, for 180 days. Supporting shipper(s): Lewis Lumber and Piling, Accomac, Va., Eastern Shore Lumber Industries, Inc., Wenona, Md., Palmer Lumber Co., Nassawadox, Va. Send protests to: Interstate Commerce Commission, 12th and Constitution Avenue, NW., Room 1413, W. C. Hersman, District Supervisor, Washington, D.C. 20423.

No. MC 89684 (Sub-No. 98TA), filed April 1, 1977. Applicant: WYCOFF COMPANY, INCORPORATED, 560 South 300 West, Salt Lake City, Utah 84110. Applicant's representative: Harry D. Pugsley, Suite 1200, 310 South Main Street, Salt Lake City, Utah 84101. Authority sought to operate as a *common carrier,* by motor vehicle, over regular routes, transporting: *General commodities* (except articles of unusual value), classes A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment. (Restricted to packages each weighing not more than 100 pounds and against the transportation of more than 200 pounds in the aggregate, from one consignor at one location to one consignee at one location during a single day.) (a) Between Elko, Nev., and the Nevada-California border serving all intermediate points and their commercial zones via U.S. Highway I-80, U.S. 40 and U.S. 95 and serving the following off-route points and their commercial zones: Black Springs, Verdi, Hazen, Fallon, Schurz, Yerington, Weed Heights, Wabuska, Weeks, Silver Springs, Fernley, Dayton, Carson City, Glenbrook, Lake Tahoe, Crystal Bay, Franktown, Steamboat, Sparks, Virginia City, Minden, Gardnerville, Stateline, Genoa, Zephyr Cove, Silver City, Goldhill, Incline Village, Washoe, Huffaker, Vista, Appian, Lux, Lawton, Mogul, Wadsworth, Lamoille and Carlin, Nev. (b) Between Wendover and Ely, Nev., serving all interminate points via U.S. Highways Alternate 50 and U.S. 93 zones: Ruth, Keystone Lane, Copper Flat, Reipetown, Kimberly and East Ely, Nev., for 180 days.

NOTE.—Applicant requests authority for tacking at Elko and Wendover, Nev.

Supporting Shipper(s): There are approximately 66 statements of support attached to the applicant which may be examined at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: District Supervisor Lyle D. Helfer, Interstate Commerce Commission, Bureau of Operations, 5301 Federal Building, 125 South State Street, Salt Lake City, Utah 84138.

No. MC 108207 (Sub-No. 460TA), filed April 11, 1977. Applicant: FROZEN FOOD EXPRESS, INC., 318 Cadiz Street, P.O. Box 5888, Dallas, Tex. 75222. Applicant's representative: Mike Smith (same address as applicant). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Plastic or rubber sheets or sheeting, NOI, and solvents,* from Akron, Ohio to Dallas and Amarillo, Tex.; Tulsa, Okla.; Wichita, Kans.; and Los Angeles, Calif. Restricted to traffic moving in vehicles, equipped with mechanical refrigeration, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper(s): The B. F. Goodrich Company, 500 S. Main Street, Akron, Ohio 44318. Send protests to: Opal M. Jones, Transportation Assistant, Interstate Commerce Commission, 1100 Commerce Street, Room 13C12, Dallas, Tex. 75242.

No. MC 110525 (Sub-No. 1188TA), filed April 8, 1977. Applicant: CHEMICAL LEAMAN TANK LINES, INC., 520 E. Lancaster Avenue, P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same address as applicant). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Chemical coatings* (other than petroleum), in bulk, in tank vehicles, from Garland, Tex. (Dallas commercial zone), to Fairfield, Ala.; Tampa, Fla.; Evansville, Ind.; Louisville, Ky.; New Orleans, La. and Norman, Okla., for 180 days. Supporting shipper(s): DeSoto, Inc., 1700 S. Mt. Prospect Road, Des Plaines, Ill. 60018. Send protests to: Monica A. Blodgett, Transportation Assistant, Interstate Commerce Commission, 600 Arch Street, Room 3238, Philadelphia, Pa. 19106.

No. MC 110563 (Sub-No. 200TA), filed April 13, 1977. Applicant: COLDWAY FOOD EXPRESS, INC., P.O. Box 747,

113 N. Ohio Ave., Ohio Bldg., Sidney, Ohio 45365. Applicant's representative: John L. Maurer (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Confectionery and confectionery products* (except in bulk), in vehicles equipped with mechanical refrigeration, from: The storage facilities utilized by M&M/MARS, located at or near Hapden Township, Cumberland County, Pa., to points in Illinois, Indiana, Kentucky, Michigan, Missouri, Ohio and Wisconsin, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of Operating authority. Supporting shipper(s): M&M/MARS, a division of Mars, Incorporated, High Street, Hackettstown, N.J. 07840. Send protests to: Keith D. Warner, District Supervisor, Bureau of Operations—Interstate Commerce Commission, 313 Federal Office Building, 234 Summit Street, Toledo, Ohio 43604.

No. MC 115311 (Sub-No. 217TA), filed April 11, 1977. Applicant: J & M TRANSPORTATION CO., INC., P.O. Box 488, Milledgeville, Ga. 31061. Applicant's representative: Edward L. Fox, P.O. Box 488, Milledgeville, Ga. 31061. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, from the facilities of East Highlands Company, Forest Products Division at Albertville, Ala., to points in Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee, Virginia and West Virginia and those points in Louisiana east of the Mississippi River, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper(s): East Highlands Company, P.O. Box 746, Albertsville, Ala. 35950. Send protests to: Sara K. Davis, Transportation Assistant, Bureau of Operations, Interstate Commerce Commission, 1252 W. Peachtree St. NW., Rm. 546, Atlanta, Ga. 30309.

No. MC 117416 (Sub-No. 55TA), filed April 8, 1977. Applicant: NEWMAN & PEMBERTON CORP., 2007 University Avenue N.W., Knoxville, Tenn. 37921. Applicant's representative: Herbert Alan Dubin, 1819 H Street N.W., Suite 1030, Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned and processed foodstuffs*, other than in bulk or frozen, from Hoopeston and Princeville, Ill., to all points in the United States of Alabama, Florida, Georgia, North Carolina, South Carolina and Tennessee, for 180 days. Supporting shipper(s): Joan of Arc Company, 2231 West Altorfer Drive, Peoria, Ill. 61614. Send protest to: Joe J. Tate, District Supervisor, Bureau of Operations—Interstate Commerce Commission, Suite A-422—U.S. Court House, 801 Broadway, Nashville, Tenn. 37203.

No. MC 123255 (Sub-No. 99TA), filed April 14, 1977. Applicant: B & L MOTOR FREIGHT, Inc., 140 Everett Avenue, Newark, Ohio 43055. Applicant's representative: C. F. Schnee, Jr. (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fiberglas materials and fiberglas products, fibrous glass textile materials, fibrous glass textile products, plastic materials, and plastic products*, from the plantsite and warehouse facilities of Owen-Corning Fiberglas Corporation at or near Newark, Ohio, to points in the states of Arkansas, Louisiana, Oklahoma and Texas, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper(s): Owen-Corning Fiberglass Corporation, Case Avenue, Newark, Ohio 43055. Send protests to: Frank L. Calvary, District Supervisor, Interstate Commerce Commision, 220 Federal Bldg. & United States Courthouse, 85 Marconi Boulevard, Columbus, Ohio 43215.

No. MC 123316 (Sub-No. 6TA), filed April 8, 1977. Applicant: MILAN TRUCKING CO., INC., 233 South Gladstone Avenue, Columbus, Ind., 42741. Applicant's representative: Robert W. Loser, 1009 Chamber of Commerce Bldg., Indianapolis, Ind. 46204. MOTOR CARRIER OPERATING RIGHTS APPLICATION

Special Notice

MAY 2, 1977.

The following applications are governed by Special Rule 247 of the Commission's General Rules of Practice (49 CFR 1100.247). These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after the date of notice of filing of the application is published in the FEDERAL REGISTER. Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with § 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of § 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) further provides, in part, that an applicant who does not intend timely to prosecute its application shall promptly request dismissal thereof, and that failure to prosecute an application under procedures ordered by the Commission will result in dismissal of the application.

Further processing steps will be by Commission order which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the FEDERAL REGISTER of a notice that the proceeding has been assigned for oral hearing.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

No. MC 102181 (Sub-No. 8), filed March 24, 1977. Applicant: O. H. & F. INC., a Delaware Corporation, P.O. Box 129, Grayville, Ill. 62844. Applicant's representative: George M. Catlett, 708 McClure Building Frankfort, Ky. 40601. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, in the transportation of *machinery, equipment, materials,* and *supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and *machinery, materials, equipment,* and *supplies* used in, or in connection with, the construction, operation, repair, servicing maintenance and dismantling of pipe lines, including the stringing and picking up thereof, *earth drilling machinery and equipment,* and *machinery, equipment materials, supplies and pipe* incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites, and (d) the injection or removal of commodities into or from holes or wells, between points in Connecticut, Delaware, Florida, Georgia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Rhode Island, South Carolina, and Virginia, on the one hand, and, on the other, points in Alabama, Arkansas, Illinois, Indiana, Kansas Kentucky, Louisiana, Michigan, Mississippi, Missouri, Nebraska, Ohio, Oklahoma, Pennsylvania, Tennessee, Texas, and West Virginia. Hearing: May 9, 1977, at 9:30 am Local Time, at the Whitehall Hotel, 1700 Smith Street, Cullen Center, Houston, Tex., before Administrative Law Judge Robert E. Joyner.

By the Commission.

ROBERT L. OSWALD,
Secretary.

AGENCY HOLDING THE MEETING: Federal Reserve System.

On Monday, May 9, 1977, at 10 a.m., a meeting of the Board of Governors of the Federal Reserve System will be held at the Board's offices at 20th Street and Constitution Avenue NW., Washington, D.C., to consider the following item(s) of official Board business:

1. Request by State of New York Banking Department for a determination that the proposed amendments to its loan disclosure regulation (Supervisory Procedure G–107) satisfy the stated conditions in the Board's Order of December 8, 1976 exempting certain New York State depository institutions from disclosure requirements of Regulation C (Home Mortgage Disclosure). (Proposed earlier for public comment; docket no. R–0047).

2. A possible Board interpretation of Regulation B (Equal Credit Opportunity) to clarify the meaning of § 202.8, Special Purpose Credit Programs, by defining the phrase "expressly authorized by law".

3. A request for the Board's consent under Regulation L (Interlocking Bank Relationships under the Clayton Act) to a proposed interlocking director relationship between Mechanics & Farmers Bank, Durham, North Carolina, and the Wachovia Corporation and Wachovia Bank and Trust Company, N.A., Winston-Salem, North Carolina.

4. Report to the Federal Deposit Insurance Corporation regarding the competitive factors involved in the proposed merger of Elkton Banking and Trust Company of Maryland, Elkton, Maryland, with The Citizens National Bank of Havre de Grace, Havre de Grace, Maryland.

5. Any agenda items carried forward from a previously announced open meeting.

This meeting will be open to public observation. Information with regard to this meeting may be obtained from Mr. Joseph R. Coyne, Assistant to the Board, at 202–452–3204.

Board of Governors of the Federal Reserve System, April 29, 1977.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

[S–324–77 Filed 5–2–77;11:06 am]

2

AGENCY HOLDING THE MEETING: Indian Claims Commission.

FEDERAL REGISTER CITATION OF PREVIOUS ANNOUNCEMENT: 42 FR 21344, April 26, 1977.

PREVIOUSLY ANNOUNCED TIME AND DATE OF THE MEETING: 10:15 a.m., May 4, 1977.

CHANGE OF MEETING SUBJECT MATTER: The following closed item is added to the Commission meeting of May 4, 1977:

Personnel

APRIL 29, 1977.

[S–325–77 Filed 5–2–77;2:42 pm]

3

AGENCY HOLDING THE MEETING: Postal Rate Commission.

TIME AND DATE: 9:30 a.m., Tuesday, May 3, 1977.

PLACE: Conference Room, Room 500, 2000 L St. NW., Washington, D.C.

STATUS: Closed.

MATTERS TO BE CONSIDERED:

1. Docket No. MC76–1.
2. Pending Commission litigation.

(Authority to conduct closed meeting: 5 U.S.C. 552b(c)(10).)

The Commission has determined by recorded vote that notice cannot be given at least one week prior to the meeting since Commission business requires that the meeting be called at an earlier time. A copy of the vote is on file in the Office of the Secretary to the Commission.

CONTACT PERSON FOR MORE INFORMATION:

Ned Callan, Information Officer, Postal Rate Commission, Room 500, 2000 L Street NW., Washington, D.C. 20268, Telephone 202–254–5614.

[S–315–77 Filed 4–29–77;10:50 am]

4

AGENCY HOLDING THE MEETING: Securities and Exchange Commission.

TIME AND DATE: 2 p.m., Thursday, April 28, 1977.

PLACE: Room 825, 500 North Capitol Street, Washington, D.C.

STATUS: Closed to the Public.

The Commission will consider an offer of settlement of litigation.

Chairman Williams, Commissioners Loomis, Evans and Pollack voted to close this meeting.

The Commissioners, their legal assistants, the Secretary of the Commission and recording secretaries will attend the meeting. Certain staff members who are responsible for the calendared matters may be present.

The General Counsel of the Commission has certified that the items to be considered at the closed meeting may be so considered pursuant to one or more of the exemptions set forth in 5 U.S.C. 552b(c)(4)(8)(9)A and 10.

Requests for information concerning the meeting(s) should be directed to Ed Horahan 202–376–8072.

Dated: April 28, 1977.

GEORGE A. FITZSIMMONS,
Secretary.

[S–321–77 Filed 5–2–77;9:17 am]

5

AGENCY HOLDING THE MEETING: Securities and Exchange Commission.

FEDERAL REGISTER CITATIONS OF PREVIOUS ANNOUNCEMENTS: 42 FR 17580, April 1, 1977, and Notices Dated April 25, 1977 and April 26, 1977.

CHANGES IN THE MEETINGS AND AMENDMENT TO NOTICE dated April 26, 1977.

1. April 28—Delete Item 7 of the Notice published April 1, relating to amendment of § 240.12a–6 (17 CFR 204.12a–6) on extension of exemption from registration, to certain underlying securities which are traded solely in the over-the-counter market. Additional review of this matter is required.

2. May 4—Delete Item 7 of the Notice dated April 26, 1977 relating to opinions regarding options trading proposals. Additional review of this matter is required.

3. May 5—Items respecting HR 3222 and HR 3518 are deleted to allow additional review of these matters.

Chairman Williams, Commissioners Loomis, Evans and Pollack, have determined that Commission business requires the above changes and that no earlier announcement of the changes was possible.

The Notice of Meetings, dated April 26, 1977 concerning meetings to be held during the week of May 3, 1977 is amended as follows.

CONTACT PERSONS FOR MORE INFORMATION:

Angela M. Desmond, 202–755–1173; Ted Scallet, 202–376–8025.

Dated: April 28, 1977.

GEORGE A. FITZSIMMONS,
Secretary.

PART II

CONSUMER PRODUCT SAFETY COMMISSION

■

MATCHBOOKS

Establishment of Safety Standard

Title 16—Commercial Practices

CHAPTER II—CONSUMER PRODUCT SAFETY COMMISSION

SUBCHAPTER B—CONSUMER PRODUCT SAFETY ACT REGULATIONS

PART 1202—SAFETY STANDARD FOR MATCHBOOKS

Establishment of Standard

AGENCY: Consumer Product Safety Commission.

ACTION: Final Regulation.

SUMMARY: The purpose of this document is for the Consumer Product Safety Commission (Commission) to issue a consumer product safety standard for matchbooks. The requirements are designed to reduce or eliminate certain unreasonable risks of injury from accidents associated with matchbooks.

EFFECTIVE DATE: May 4, 1978.

ADDRESS: Copies of all documents relating to the development of this standard are available through the Office of the Secretary, Consumer Product Safety Commission, 1118 18th Street NW., Washington, D.C. 20207, 202–634–7700.

FOR FURTHER INFORMATION CONTACT:

James M. McNamara, Office of Standards Coordination and Appraisal, 5401 Westbard Avenue, Bethesda, Maryland 20207, (301–492–6470).

SUPPLEMENTARY INFORMATION: In the FEDERAL REGISTER of September 4, 1974 (39 FR 32050), the Commission began a proceeding under section 7 of the Consumer Product Safety Act (15 U.S.C. 2056) (Act) for the development of a consumer product safety standard applicable to matchbooks. On October 24, 1974, the Commission accepted the offer of the American Society for Testing and Materials (ASTM) to develop a recommended standard. The Commission's acceptance of the offer from ASTM was formalized on December 30, 1974, and was announced in the FEDERAL REGISTER of January 7, 1975 (40 FR 1298). On January 31, 1975, ASTM submitted to the Commission a recommended standard.

Section 7(f) of the Act (prior to its amendment on May 11, 1976) provided that within 210 days after the publication in the FEDERAL REGISTER of a notice of proceeding to develop a consumer product safety standard (here published September 4, 1974), the Commission must either publish a proposed standard or withdraw the notice of proceeding. The Commission could extend the 210-day period for good cause by publishing a notice of extension in the FEDERAL REGISTER. Several extensions were taken for good cause.

On April 1, 1976, the Commission proposed for comment in the FEDERAL REGISTER (41 FR 14112) a consumer product safety standard for matchbooks. The standard as proposed was similar to the recommended standard submitted by ASTM with the exception of the addition of child-resistant requirements for the matchbook cover as developed by the Commission's staff.

The background of the development of the proposed standard and its consideration by the Commission are more fully detailed in the preamble to the proposal of April 1, 1976 (41 FR 14112). A discussion of the Commission's preliminary determination that there are unreasonable risks of injury associated with matchbooks and a reference to the technical rationale which formed the basis for the Commission's proposal of the standard are also found in that preamble.

The Commission received approximately 226 written comments on the proposed standard and, additionally, interested parties made oral presentations concerning the proposal on May 20–21, 1976. On September 14, 1976, following a preliminary review and assessment by the Commission of the written comments and the oral presentations, the Commission announced in the FEDERAL REGISTER that it had decided to extend from July 31, 1976 until May 1, 1977 the period in which the Commission must publish a final standard. The Commission also announced its decision not to include in the final standard the provisions of the proposal requiring a child-resistant matchbook cover, requiring identification on the matchbook cover of the manufacturer by zip cope, and restricting the use of coupon advertising. The Commission also announced that it was considering extending the effective date of the final standard for those provisions on limited burn time/distance. The basis for these decisions is discussed below.

Before proceeding with this discussion it should be noted that the terms "matchbook" and "bookmatch" both appear throughout but are not interchangeable. The term "bookmatch" refers to the single ignition device that is contained within a matchbook. The term "matchbook" refers to the entire article.

RESPONSE TO PROPOSAL OF APRIL 1, 1976

As mentioned above, the Commission's matchbook proposal of April 1, 1976 elicited 231 written comments and several oral presentations of comments from a broad spectrum of interested parties. The parties include: individual consumers; consumer groups; matchbook manufacturers; paperboard suppliers; a manufacturer of matchbook machinery; inventors submitting alternative designs or methods, patented devices and the like; a Federal agency; private health and safety specialists; employees of matchbook manufacturers; and, an official of a labor union. The principal issues raised by the comments and the Commission's decisions thereon are set forth below.

I. SCOPE

Part 1202, as proposed, was intended to prescribe safety requirements for the performance of all matchbooks manufactured in or imported into the U.S. after the effective date. By definition, "matchbook" did not include wooden matches packaged in boxes, survival matches, or "strike anywhere" wooden kitchen matches.

1. A large number of commenters question the Commission's action in proposing this Standard for matchbooks without also proposing regulation of other related and "more hazardous products" such as wooden matches and disposable butane lighters.

In issuing this standard the Commission is in no way trying to minimize the hazards associated with either wooden matches or lighters, including the disposable butane type. The Commission's data are inconclusive as to whether wooden matches are more hazardous than bookmatches. Further, the latest estimated number of injuries related to lighters which were treated in hospital emergency rooms in the U.S. is significantly lower than that related to all matches over the same period. (For the reasons discussed below in number 3 of the risk of injury section the Commission is unable to break down its estimate of match-related injuries by wooden and bookmatches, and therefore a direct comparison between the estimated number of accidents involving disposable butane lighters and bookmatches is not possible.) The Commission will continue to monitor injury data on these and all other consumer products under its jurisdiction and, when or if it is deemed appropriate, exercise its administrative discretion in taking the necessary corrective action.

2. One commentor argues that by regulating matchbooks and not also regulating wood matches the Commission is denying matchbook manufacturers equal protection of the law as guaranteed by the Fifth and Fourteenth Amendments of the U.S. Constitution. It is further argued that since wood matches present "at least as great a risk to the public as bookmatches, the Commission's action below is "manifestly unreasonable."

The Commission finds no merit in this argument. The Commission was created by Congress to, among other things, protect the public against unreasonable risks of injury associated with consumer products. Implicit in this power is the power of the Commission to exercise its best discretion in ordering its own priorities. It is a practical impossibility for the Commission to simultaneously promulgate multiple safety standards so as to eliminate all unreasonable risks of injury associated with consumer products. Absent a showing that the Commission acted "arbitrarily and capriciously" and thereby abused its discretionary power to order priorities, this argument must be rejected. In this instance the Commission's decision to deal at this time with the risks associated with matchbooks is clearly a proper exercise of discretion.

3. Several commentors express concern about the adverse economic effects which they claim this standard will have by decreasing the functionality and utility of matchbooks and thereby greatly increasing the cost to the consumer. The results of this, they claim, will be an increased consumer demand for substitute

light sources such as wooden matches and inexpensive, disposable butane lighters, many of which are imported, to the competitive disadvantage and detriment of the domestic paper matchbook industry and its many employees.

These comments correctly point out that potentially adverse economic effects may result if directly competing products not subject to the proposed standard are substituted for the products which are subject to that standard. Substitution effects, however, are likely to be significant only if there are substantial changes in the relative prices of matchbooks vis-a-vis prices of the competing products, or if there are substantial decreases in the acceptability or utility of matchbooks. Potentially substantial changes of these types may have occurred if the final standard had included the more costly provisions for a child-resistant cover and limited burn time/distance. However, since these provisions which appeared in the proposal, are not included in the final standard issued below, it is no longer likely that any significant substitution effects will occur. In fact, the standard, as issued, may increase acceptability and utility because of the lessened risk of injury associated with these matchbooks.

II. RISK OF INJURY

In the preamble to its proposal of Part 1202 on April 1, 1976, the Commission estimated that during fiscal year 1975, approximately 9,500 people throughout the U.S. required hospital emergency room treatment for match-related injuries. This estimate was based on 368 emergency room reports from 119 statistically selected hospitals transmitting data to the Commission's National Electronic Injury Surveillance System (NEISS). Additional data from the Commission's Death Certificate Program, the National Fire Protection Association (NFPA), and the Flammable Fabrics Accident Case and Testing System (FFACTS) further expanded the data from which the Commission identified the nature of the risk of injury associated with bookmatches.

On the basis of these data the Commission proposed a standard for matchbooks which was designed to reduce or eliminate the following risks of death or serious injury:

1. Burn injuries sustained by children and others, including mentally or physically impaired persons, who play with or otherwise improperly use matchbooks.

2. Burn injuries sustained by persons who use bookmatches that spark or have delayed ignition.

3. Eye injuries sustained by persons who use bookmatches that fragment and cause particles from such matches to lodge in a person's eye.

4. Burn injuries sustained by persons who use bookmatches that, when struck, ignite the remaining matches in the matchbook.

5. Burn injuries sustained by persons, including children, using bookmatches that after ignition have dropped on exposed parts of the body or that have been dropped on and have ignited clothing because such bookmatches have failed to extinguish in time to avoid such injuries.[1]

6. Burn injuries sustained by persons from fires that have resulted from unexpected ignition of bookmatches with no deliberate action by the user.

7. Burn injuries that have been sustained by persons from fires that have been set by the afterglow of what appears to be extinguished bookmatches.

The Commission received numerous comments questioning reliance on the NEISS data as a determinant of risk of injury and other comments related to the application of the NEISS in the regulatory development process.

1. One comment received from a U.S. Senator stated the opinion that the NEISS lacks clarity and specificity and therefore its usefulness in the regulatory development process is questionable. Specifically, he says that because of the lack of specificity "it is difficult to conclude that all of the matchbook standards being considered will reduce burn accidents." He suggests modifying the NEISS data gathering so as to better pinpoint the element or elements of a product which caused the problem.

The Commission is continually working to upgrade and improve the data gathering capabilities of the NEISS. However, the NEISS is the only statistical data collection system available designed to gather product-related injury data from a probability sample of hospital emergency rooms throughout the contiguous United States. This system is designed to measure the incidence of accidental injuries seen in hospital emergency rooms. The data received from the hospitals do not include etiological information since it is not feasible to expect an injured victim awaiting emergency treatment to supply answers to the types of complex questions that are necessary to understand the causal factors leading to the injury.

The statistics derived through NEISS provide a measure of the magnitude of the hospital emergency room treated injury problem associated with specific products which are then used to set priorities and provide important clues for further investigation. However, no action is ever taken by the Commission based solely on the information generated through this emergency room reporting system. To determine the causal factors which are related to the injury, trained investigators selectively interview injury victims and witnesses and complete an in-depth investigation report. This report contains detailed information about the product involved and its role in the accident, the accident sequence, and the characteristics of the victim and his or her environment. Other available data sources (such as Death Certificates, NFPA data, FFACTS, etc.) are used to supplement the NEISS and the in-depth investigative reports.

Data on match-related injuries occurring in the United States have been compiled using the best data sources available at this time. Each of these data sources was designed to meet specific needs but none was designed specifically for the collection of information on match-related injuries. For these reasons, none of the data sources alone adequately or accurately measures the full magnitude of the match-related injuries occurring in this country. However, collectively, the data sources presented in the Hazard Analysis of Match-Related Injuries (on file with the Commission) do typify the match characteristics and experiences known to exist.

2. Some commentors question the significance of the estimated 9,500 match-related injuries for FY 1975 cited by the Commission when compared with the number of matches distributed and/or used annually. According to several of these commentors, using the above comparison the "risk of injury in using a match is one in fifty million."

Another group of commentors make a related comment and compare the 9,500 match-related injury figure to the population of the U.S. They state that match-related injuries requiring hospital treatment occur to "less than one half of one hundredth of 1 percent of our population!!"

Match-related injuries are known to be underrepresented in the NEISS data because the NEISS estimated number of injuries is only an estimate of the number of people in the United States who for a year's time received hospital emergency room treatment primarily for injuries received from direct contact with a match. This estimate does not include match-related injuries treated by private physicians, specialized burn facilities, or clinics and hospitals which do not have an emeregncy room nor does it include injuries sustained by victims who accidentally dropped a lit match on clothing or other fabric items causing serious burn injuries which required extensive medical treatment and prolonged hospitalizaton. It also does not include match-related injuries sustained in conflagrations due to the extreme difficulty the surviving victims often have in identifying the ignition source.

The NEISS estimate is further limited by the fact that coders can report only one product per injury treated in the hospital emergency room although several products may have been involved. If one of the products involved is a fabric item, then the coder is instructed to report the fabric item as the involved product to the exclusion of any other. Thus, in cases where garment or fabric ignition contributed to the victim's injuries, the injuries are "credited" to garment or fabrics rather than to the original ignition source.

By candidly setting out the limitations in its NEISS data collection system, the

[1] Because the provisions for limited burn time/distance are being deleted in the final regulation (as discussed below), this risk of injury which appeared in the proposal and was to be primarily addressed in the final regulation by those provisions, has been deleted and will not be addressed in the final standard issued below.

Commission is trying to show that its figure of 9,500 match-related injuries for FY 1975 is a minimum estimate but at the same time is an important element in fulfilling the Commission's legal responsibility to gather and present all injury data relevant to match-related injuries occurring in the U.S. It is conceded that none of the data sources used either alone or collectively measure the true magnitude of the match-related injuries occurring in this country annually. Collectively, however, they best identify the many factors which combine to contribute to match-related injuries.

In conclusion, it should also be noted that the Commission totally disagrees with the notion that it is required to have actual injury data associated with a product (take a body count), before deciding to move to regulate a consumer product. Action is often taken on the basis of the potential for injury posed by a particular consumer product.

3. Some commentors expressed concern over the fact that the NEISS product category #1704 for "Matches" (and thus the estimated number of injuries), includes both wooden and bookmatches. They believe that the estimate unfairly reflects the estimated number of injuries while the regulation only addresses bookmatches.

The commentors are rightfully concerned over the fact that the NEISS product code for "Matches" does not differentiate between wooden and bookmatches. This shortcoming is inherent within the reporting system because: (a) the contact with the victim and the initial report is made by hospital emergency room staff whose primary mission is, and should be, to efficiently and expeditiously treat the victim/patient and not to fill out overly detailed reports, and; (b) the victim/patient is often unable or in no condition to provide the necessary details of the accident. The amount of detailed information in the surveillance data concerning the product will, by design, always be limited by these factors. However, it is hoped that the problem can be somewhat rectified by utilizing the NEISS data in concert with the detailed description of the product and the accident scenario contained in the in-depth investigation which often follow.

The hazard analysis of injuries associated with a product includes all components and functions of the product and all variations or types of the product. Therefore, all types of matches were considered in the hazard analysis. Generally, it was possible to distinguish the various types of matches involved in the in-depth investigation reports.

4. Certain commentors criticized the Commission's in-depth investigations for not being statistically representative of the match-related injuries. One commentor characterized them as comprised of "haphazardly chosen (and unduly severe) incidents."

Although criticizing the in-depths as not being statistically representative of match-related injuries, some of these commentors then proceeded to treat them as a statistical sample and projected the proportions of different types of matches and match injuries found in the in-depths to the NEISS estimate of match-related injuries. Using this erroneous approach, they were then able to conclude that the "low" NEISS estimate could be reduced even further.

The choice of accidents that will be the subject of an in-depth investigation is determined on a case-by-case basis and is further based on injury severity and on the Commission's needs and priorities. In-depth investigation reports used in the Commission's hazard analysis of match-related injuries are not intended nor represented to be a statistical sample of the data collection procedures employed by CPSC. Only the NEISS gathers product-related injury data from a statistical sample. As discussed above, this system is designed to measure accidental, emergency room treated, injuries which involve consumer products. The data received from the hospitals do not include etiological information since it is not feasible to expect an injury victim awaiting emergency treatment to supply answers to the complex questions that are required to understand the causal factors leading to the injury.

To determine these causal factors, follow-up in-depth investigations are conducted. Information is obtained about the brand and model of product(s) involved, the role of the product(s) in the accident, the accident sequence, and characteristics of the victim and his or her environment which related to the accident. While only some injuries reported through NEISS are investigated, the Commission also does in-depth investigations of reports of injuries from other sources, including consumer complaints, newspaper accounts, and information from other government agencies. In general, products which appear to be involved frequently in injuries or to cause severe injuries, are given priority for in-depth investigation. Although the in-depth investigations are used to identify hazard patterns, they cannot be and are not used to make projections to the NEISS Surveillance estimate because they are not stastistically representative.

5. Several commentors state that some types of match-related injuries have been assigned an unreasonably high severity rating on the Severity Index and as a result have presented a seriously distorted picture of the risks of matchbooks in relation to other consumer products.

The Severity Index is a management tool which was devised for assessing the severity of product-related injuries reported through NEISS. This Index, which is based on medical opinion, combines the information on injury diagnosis, body parts affected, and disposition of victim to establish a severity ranking for the products reported through NEISS.

The Index is currently comprised of seven categories ranging in severity from minor injuries (Category 1) to injuries resulting in death (Category 7). Each injury, as described by a combination of diagnosis, body part affected, and disposition, is categorized by the Commission for presumptive severity. Category 6 is used for the most severe combination short of death. If the victim is hospitalized, the category number normally assigned is raised one number.

Each category has a crude severity number, arbitrarily selected, but mathematically derived, by increasing each successive numerical level by the geometric proportions of the preceding level. As an example, for category 1, the severity number is 10 and for Category 7 the number is 2516. The mean severity for a given product is calculated by summing the product of the number of injuries in each severity category and the severity value assigned to each category and dividing the summation by the total number of injuries.

For Fiscal Year 1975, the mean severity of all NEISS reported match-related injuries was 153. In terms of the seven severity categories in the Severity Index, match-related injuries fell between Category 5 and Category 6. The two largest severity categories for these match-related injuries were Categories 2 and 6 and involved eye injuries primarily. There were slightly more injuries assigned to Category 6 than Category 2 by coders in the NEISS hospitals. Eye injuries assigned to Category 2 were reported on the hospital emergency room records as being either contusion/abrasion or dermatitis. For comparison, other types of injuries which fall into Category 2 include dislocation of a limb; burn to an ear, finger or toe; and laceration to a limb or ear. Eye injuries assigned to Category 6 were reported as being burns. Other types of injuries which fall into Category 6 include burns to 25 percent or more of the body surface area and limb amputation.

Eye injuries involving burns are ranked high on the Severity Index due to the potential for permanent damage and disability. As stated above, the Severity Index is a management tool which, like the Hazard Index described below, is used in setting Commission priorities. However, it was not designed, nor is it ever used, to determine whether or not a product was at fault.

The Commission wishes to stress that a product's ranking on the Severity Index is helpful as a management tool in setting priorities and providing important areas in need of further investigation, but is never the sole basis for regulatory action by the Commission.

6. Citing what they characterized as the relatively "low" ranking of matches in the Hazard Index, several commentors question the need for matchbook regulation at this time.

The Hazard Index is a management tool in which the frequency of product-related injuries and their severity are aggregated to determine the ranking of the product on the Index.

In Fiscal Year 1975, matches ranked 44 in a list of some 367 product categories. This would put matches in the top 13 percent on the Index. This is

hardly a "low" ranking as was the claim of these commentors.

Finally, as in the case of the Severity Index, the Commission points out that the Hazard Index is never the sole basis for regulatory action.

7. Certain commentors made the assumption that an overly large proportion of the NEISS estimated 9,500 match-related injuries involved infants, toddlers, and children. Based on this assumption they questioned whether it was fair for the Commission to regulate the safety of matches without considering the problem of parental negligence and misuse.

The Commission disagrees with the contention that an overly large proportion of infants, toddlers, and children were involved in the 9,500 estimate. Of the estimated 9,500 people throughout the contiguous United States who sought hospital emergency room treatment for match-related injuries, the majority are estimated to be youths and adults in the 13–45 age range who were injured much more frequently than would be expected based on their representation in the U.S. population. In comparison, it is estimated that infants, toddlers, and children (ages 0–12 years) are not injured nearly as frequently as would be expected based on their representation in the population.

The majority of the injuries sustained by victims seeking hospital emergency room treatment were reported as thermal burns, affecting primarily the eye. It is assumed, based on surveillance data and the in-depth investigations, that most of these injuries occurred as the result of a defective, lit matchhead breaking off or fragmenting when struck and subsequently hitting the victim in the eye. It is unlikely that these could be attributed to misuse or negligence by the children or their parents.

8. In reviewing the NEISS sample of match-related injuries over a three-year period, several commentors concluded that those injuries have been steadily decreasing as evidenced by the decline from 442 cases in 1973 to 368 cases in 1975.

In evaluating the Commission injury data from 1973–1975, the commentors were using the NEISS sample instead of the NEISS estimate. The NEISS sample or "actual number" of match-related injuries for each year is not meaningful. The 119 hospitals participating in NEISS represent a probability sample of all hospital emergency rooms within the contiguous United States. An inflation factor or weight is assigned to each participating hospital and is based on the inverse of the probability that the hospital would be selected for the sample. Injuries reported in this sample are inflated to obtain a meaningful estimate of all product-related injuries treated only in hospital emergency rooms within the contiguous United States.

Neither the sample nor the estimate derived from the sample can be compared from year to year due primarily to reporting fluctuations and sampling errors. A standard error is calculated for each estimate. A standard error is a measure of sampling variability, that is, the variations that might occur by chance because only a sample of hospital emergency rooms in the U.S. is surveyed. The chances are about 68 out of 100 that an estimate from the samples will differ from a survey of all hospitals by less than the standard error. The chances are 95 out of 100 that the differences would be less than twice the standard error. When the standard error for these estimates was considered, no significant change has been noted by the Commission in the estimated number of match-related injuries derived from the NEISS during the time the system has been in operation.

9. Some commentors question the seriousness of those match-related eye injuries resulting from fragmenting or broken matchheads where the victims are treated and released after initial emergency room treatment. In their view these injuries are minor.

The disposition "treated and released" does not imply that further medical attention was unnecessary nor is it in any way indicative of the seriousness of the injury. Due to the potential for permanent damage or disability, injuries affecting the eyes may not require hospitalization but may frequently necessitate return visits to the hospital as an outpatient, or to a physician or clinic.

Recently, the Commission learned of an incident relevant to this discussion. The incident involved a person who was struck in the eye by a fragment of a matchhead from a match being used to light a cigarette. The victim was treated by a physician in his office (thereby not being recorded in the NEISS) for a corneal abrasion which caused a pin-head size hole in the cornea. The victim was required to wear a patch and was under the physician's care for three days during which time she suffered extreme pain and discomfort, both physical and mental.

The injury in this instance did not permanently impair the victim's vision. Even if the abrasion occurred in the more critical portion of the eye where the line of vision would have been affected it is doubtful whether this type of injury would have necessitated immediate hospitalization, and the patient would likely have been "treated and released."

10. Numerous commentors state that the NEISS estimate of 9,500 match-related injuries resulted primarily from the ignition of other intermediate combustible substances and not as a direct result of the ignition source.

Of the estimated 9,500 match-related injuries treated in hospital emergency rooms throughout the U.S., most did not involve ignition of intermediate combustibles or conflagrations. It is estimated that approximately 6,346 of these injuries were from burns. It is further estimated that approximately 3,513 of these burn injuries were localized thermal burns affecting the eye and not the extensive types which are commonly associated with fabric ignition (the most common intermediate combustibles). As discussed in number 2 above, NEISS is designed for the reporting of only one product per injury. If the injury involves ignition of a combustible item, then match coders are instructed to report the injury under the code for the particular combustible item.

The Commission is studying the problem of both ignition sources and intermediate combustibles which relate to burn injuries. Because of the severity of burn injuries and the complexity of the burn problem, efforts to reduce the incidence of burn injuries require a multifaceted approach with no single resolution expected.

11. Our Commentor objects to the Commission's use of the NEISS estimate because the data include injuries such as ingestions, lacerations, and chemical burns which are not being addressed by the proposed standard.

An estimate based on NEISS data is a measure of the number of all emergency room treated injuries associated with a certain product. The estimate is not intended or used to imply that a product is at fault in every injury, but merely that the product was involved.

The Commission reiterates that the estimates derived through NEISS provide a measure of the magnitude of a problem associated with specific products which are then used as one of several management tools by the Commission to set priorities and provide important clues for further investigation. However, these estimates are never the sole basis for regulatory action taken by the Commission and therefore, the concerns expressed by this commentor are not relevant.

12. Another commentor suggests that the proposed matchbook standard be expanded to address what it claims is a hazard to small children from the ingestion of bookmatches.

The Commission has considered this comment and finds no basis for any such action. According to the "Handbook on Poisoning," by Robert H. Driesback, the ingestion of matches poses no known danger to small children from toxicity or poisoning. The Commission has no other evidence to the contrary.

III. EFFECTIVE DATE

Part 1202, as proposed, set the effective date to be 365 days after publication of the final standard in the FEDERAL REGISTER.

Almost all of the comments received concerning the proposed effective date dealt with the problems of complying with the child-resistant cover and limited burn time/distance provisions contained in the proposed standard within the time proposed. Since those provisions have been dropped from the final standard as issued below, it is the Commission's view that no response to those comments is necessary.

Of the remaining comments on the effective date received by the Commission, one group of commentors asked for a longer lead time because of the reverse friction provision, and others because of

the uncertainty of the presently unproposed certification rule under section 14 of the Act.

1. One commentor notes that, although converting to reverse friction requires only simple mechanical revisions on printing, scoring, and slitting machines, remaking all art designs and printing plates to comply with the requirement for reverse friction, proposed § 1202.5(a) will cost the commentor or his customers an estimated $15,000 and take approximately 24 months to complete. He also contends that split-shipment orders already produced for regularly scheduled shipment to customers would have to be scrapped and re-run at a cost additional to the estimated conversion costs. He claims that a 365 day effective date is not in the public interest and urges the Commission to allow a period of from 2 to 3 years within which to convert to reverse friction.

Other commentors state that any economic burden of conversion to reverse friction can be lessened if an effective date for this requirement is set to coincide with the average contract duration of about two years.

Well over two years ago, the manufacturers of matchbooks undertook a voluntary effort to convert all of their accounts and all matchbook production to reverse friction. According to the Commission's latest information, some companies have completed the conversion while other companies have converted a majority of their accounts and are approaching complete conversion. One of the methods employed by these companies to reduce the costs of conversion has been to insist on reverse friction in contracts at a time coincident with art work or design changes otherwise necessitating printing plate changes. As more time passes since the initial undertaking of the voluntary effort by the industry, there are fewer outstanding contracts specifying front friction.

Although the Commission recognizes that there may be some matchbook accounts which do not need or want art or design changes and are resistant to plate changes at the time of contract renewal, it is the Commission's view that the additional 365 days from now to the standard's effective date affords the industry ample time in which to complete conversion at minimal cost, especially in light of the voluntary conversion already undertaken. Moreover, there will be no need to scrap and re-run orders already produced and on hand for shipment at the effective date of the standard because the standard applies only to matchbooks manufactured in or imported into the United States after its effective date.

2. Another commentor states that the Commission is required to issue a certification regulation containing a sampling plan either as part of the Matchbook Standard or for comment at the same time as the standard.

The Commission disagrees with this position. Section 7(a) of the CPSA as amended by Section 6 of the Consumer Product Safety Improvements Act of 1976 expressly provides that:

> No consumer product safety standard promulgated under this section [section 7 of CPSA] shall require, incorporate, or reference any sampling plan * * *.

Thus, the Commission is expressly forbidden from including a sampling plan as part of the Matchbook Standard.

Further, section 14(a) of the Act requires that manufacturers and private labelers certify that their products conform to a consumer product safety standard, based either on a reasonable testing program or on a test of each product.

Finally, the following language of section 14(b) using the word "may" clearly gives the Commission the discretion to either issue a certification rule embodying a reasonable testing plan, with or without a sampling plan, or to issue no rule at all thereby allowing manufacturers and private labelers to develop their own plans:

> The Commission *may* by rule prescribe reasonable testing programs for consumer products which are subject to consumer product safety standards under this Act and for which a certificate is required under subsection (a) [of section 14] * * *. (emphasis added)

Thus, the Commission, though not prohibited from incorporating a sampling plan in a section 14 rule, is not required by the Act to incorporate such a plan in any reasonable testing program.

In the case of the Matchbook Standard issued below, the Commission intends, as soon as possible, to propose for public comment a certification rule without a required testing program, but including parameters to guide manufacturers in formulating such a program and, to issue a final certification rule for matchbooks before the Matchbook Standard becomes effective.

IV. TECHNICAL REQUIREMENTS

The technical requirements contained in the Commissions proposal of April 1, 1976 included requirements for a child-resistant matchbook cover, a limited burn time/distance feature, fragmentation, delayed ignition, reverse friction, afterglow, and certain other less prominent performance requirements. These requirements, and comments regarding them, are discussed in the following section.

A. *Child-resistant matchbook cover.* As proposed, those provisions of Part 1202 dealing with this subject required that, among other things, all matchbooks manufactured in or imported into the U.S. after the effective date resist an opening force of 22.2N (5.0 lbf) in any direction and be capable of being relatched by a single motion requiring less than 4.45N (1.0 lbf) of force. These provisions were proposed with the intent of reducing "the likelihood of young children gaining access to or igniting a bookmatch."

As explained above in the "Supplementary Information" section, on September 14, 1976 the Commission conducted a review and assessment of all the public comments received and of the oral presentations of May 20–21, 1976. Approximately 89 comments addressed the child-resistant cover provisions and most were in opposition. Some of the reasons given by the commentors in opposition included: the possible creation of additional safety hazards (frustrated adult users would tear off the entire child-resistant cover); the lack of economic feasibility; and, the absence of testing and research necessary to support the effectiveness of the latching-cover concept that was proposed or any other acceptable concept.

The Commission has considered all of the above, as well as the data on child-resistant covers that existed in the record prior to the proposal, and a report[3] that was prepared under contract from the Commission and included in the record by the Commission after the proposal. The Commission concludes that to require a child-resistant cover would not be in the public interest because the proposed child-resistant cover is of questionable effectiveness, would impose severe economic burdens without offsetting injury reduction, and could actually increase risks of injury if frustrated users chose to defeat the requirements.

Therefore, on the basis of all of this the final standard issued below will not include any of the provisions dealing with the child-resistant matchbook cover. Specifically, §§ 1202.4 and 1202.7 as proposed on April 1, 1976 and any other reference contained elsewhere in that proposal have been removed. The numbering of the various remaining sections has been adjusted to reflect the deletions.

B. *Limited burn time/distance provisions.* As proposed, § 1202.6(b) provides that a bookmatch "be constructed so that, when tested in accordance with § 1202.8, the flame goes out within 12.7 mm (0.5 in) down from the top of the splint and within a 15-second burn time." As noted previously, the provisions dealing with this subject were included in the Commission's proposal in order to address the risk of injury resulting from lit matches being accidentally dropped on exposed parts of the body and/or clothing, which then ignite.

Also, as part of the September 14, 1976 Commission review and assessment of all the public comment received on its proposal of April 1, 1976, the issue of whether to include limited burn time/distance in the final regulation was considered and the Commission announced that it was considering an extended effective date on these provisions.

Due to the many questions related to this problem which are still unanswered the Commission has reconsidered its former position on this issue. Some of these unanswered questions are:

1. Whether a limit on burn time/distance as a means to reduce injury is efficacious? Two manufacturers who did testing with limited burn matches concluded that a limited burn time/distance

[3] "Economic Impact of Proposed Matchbook Standard—Phase II," Dr. W. E. Riddle and A. R. Buhr, Battelle Columbus Laboratories.

match dropped relatively soon after ignition offers no substantial increase in safety over a regular bookmatch;

2. If limited burn time/distance were found to be efficacious, it has not been determined what is a reasonable burn time/distance; and

3. The technical and economic feasibility of such a requirement, including the impact that limited burn time/distance will have on the utility of the product and an assessment of the effects that a substitution of other ignition sources might have.

The Commission now believes that because these questions are unanswered it cannot include these provisions in the final standard even with an extended effective date and therefore is issuing its Matchbook Standard below without the provisions for limited burn time/distance.

C. *Definitions.* One commentor objected to the definition of "Fragments" in § 1202.3(i), as proposed. The objection was based on the small size of cold particles or fragments specified (greater than 0.76 mm (0.030 in)). The commentor believes that this size limitation is unreasonable and believes that it should be increased.

The recommended standard submitted to the Commission by the offeror provided that only fragments which either scorched or burned holes in white bond paper constituted dangerous fragments. However, the Commission's injury data showed that, in addition to the risk of thermal eye burns dealt with by the offeror's recommended standard, contusion/abrasion, dermatitis/conjunctivitis, and foreign object injuries were also frequently reported and needed to be addressed in the Standard.

In addressing the hazard from cold particles, the Commission's Office of the Medical Director (OMD) stated that the maximum size of inert particles which they would find acceptable was 1 mm (.039 in). This figure was based on information obtained from the "Merck Manual of Diagnosis and Therapy," Merck, Sharp, Dohme Research Laboratories, Rahway, New Jersey, Twelfth Edition, 1972, page 997.

The reduction in particle size from .039 to .030 inches was made by the Commission in its proposal for the following reasons:

1. As an allowance or safety factor for any particles breaking as a result of hitting the striking enclosure or being consumed in the process of burning.

2. Laboratory data indicated that .030 inch fragments can also cause scorch marks on bond paper which was one of the offeror's criteria for fragmentation.

3. Data from observations made by the Commission and NBS indicated that many persons strike matches as close as 6 inches from the face and that particles .030 inches and larger are also capable of propelling themselves in excess of 6 inches.

Although there is engineering judgment and medical opinion favoring the .030 inches fragment size, no hard medical or engineering evidence was presented or is otherwise available to support the smaller fragment size. Therefore, the Commission has changed the definition of "fragments" contained in § 1202.3(i) as proposed, to "* * * particles * * * that measure more than 1.0 mm (.039 in) in the maximum dimension * * *", as it appears below. Also, it should be noted that since the definition "[c]hild-resistant matchbook cover," which was proposed as § 1202.3(f), has been deleted, all subsequent definitions were moved up one letter in the final standard issued below.

D. *Matchbook general requirements.* Section 1202.5, as proposed, contains eight general requirements for the acceptable construction of a matchbook. Based on the deletions discussed previously, this section which appeared as § 1202.5, when proposed, will appear as § 1202.4 as issued below.

1. *Staple requirement.* Section 1202.5 (h), as proposed, restricted the use of any staples or assembly or latching devices with sharp edges or points which are exposed to the user. This requirement prompted two comments.

(a) One commentor points out that this requirement was included in the offeror's proposal because it was believed that if, during striking, the match encountered the sharp staple, the probability of fragmentation would increase. The commentor observed that, since proposed § 1202.5(g) prohibits any part of the staple from being within the friction area, the sharp staple requirement becomes superfluous in addressing fragmentations.

The offeror's proposed wording on the sharp staple requirement was that "[t]he staple shall be fully clinched and shall not have any sharp edges exposed." A staple not fully clinched or with edges exposed could cause fragmentation if struck by a match even though it was not inside or touching the friction. Therefore, the Commission believes that this requirement is necessary in addition to those prescribed in § 1202.5(g).

Th "fully clinched" phrase was not included in the Commission's proposed standard because a staple that was used as part of a child-resistant latching cover device might not function properly if fully clinched. Since the requirement for the child-resistant matchbook cover has been dropped, the requirement addressing the staple has been changed in § 1202.4(h) below as follows:

> A staple used as an assembly device shall be fully clinched so that the ends are flattened or turned into the cover.

(b) The other commenter suggested that the manufacturer should be required to insert the staple from the back of the matchbook so as to prevent loose staple points from injuring fingers contacted during the striking process.

In view of the change set out immediately above requiring staples to be fully clinched, the risk of injury to fingers will no longer be a factor. Therefore, the Commission finds this suggestion to be unnecessary.

E. *Matchbook performance requirements.* Section 1202.6, as proposed, sets out several performance requirements dealing with delayed ignition and afterglow of bookmatches, separating splints, matchheads that fragment or fall off, and frictions that burn or produce fragments. This section, which appeared as § 1202.6 when proposed, has been moved up one section and will appear as § 1202.5 as issued below.

1. *Delayed ignition.* Section 1202.6(a)(1), as proposed, states as follows:

> A bookmatch is defective if it has, when tested in accordance with * * * (1) [d]elayed ignition exceeding 2 seconds.

A commenter wrote in support of the two second limitation, but stated that the standard made no mention of when the delay time was to begin. The commenter suggests that delayed ignition should be measured as the elapsed time between the first appearance of a glow in the matchhead and the development of a flame.

This commentor may be technically correct with his suggestion, however, in practicality it is extremely difficult to determine exactly when the ignition of a match begins without aid of a very expensive high speed motion analysis.

It is the Commission's opinion that the two-second period for delayed ignition is a reasonable time to detect matches exhibiting this defect whether the delay starts at the beginning of the striking motion or when the matchhead first begins to glow. Therefore, in order to simplify the timing procedure the Commission will measure the 2-second delay from the time the striking motion is initiated to the development of a visible flame. This clarification will be reflected in § 1202.6(d)(2)(i)(B) as issued below.

F. *Test procedures for general and performance requirements.* Section 1202.8, as proposed, sets out the test procedures to be used by the Commission to determine compliance with the standard. This section, which appeared as § 1202.8 when proposed, has been moved up two sections and will appear as § 1202.6 as issued below.

1. *General.* One commentor complained that the test procedures described in § 1202.8, as proposed, are not consistently reproducible, and are unnecessary, burdensome, and incomplete. Further, this commentor states that fragmentation, (which it believes to be the major single cause of match-related injuries) is only casually dealt with.

After reviewing the standard submitted by the offeror, the Commission determined that there were a number of inadequacies in the recommended standard. The major inadequacies in the test procedures were:

> Inadequately defined match striking test instrument.
> Improper conditioning requirements.
> Inadequate method of fragmentation detection.

These inadequacies were addressed in the Commission's proposal of April 1, 1976, in the following manner:

(a) The inadequately defined match striking test instrument was replaced with an easily repeatable hand striking procedure. The striking force prescribed in the proposed standard is based on striking tests with human subjects.

(b) The offeror's recommended conditioning procedures were changed to assure that the matches are adequately preconditioned in an oven and then exposed to an acceptable conditioning environment prior to testing.

(c) Test data developed by the Commission indicated that the fragmentation detection method proposed by the offeror was inadequate as a means of detecting matches which fragment. This method was only capable of detecting hot fragments which landed in a very small area under the matchbook. The method proposed by the Commission was designed to detect both hot and cold fragments regardless of the fragment trajectory.

Therefore, it is the opinion of the Commission that, contrary to those views expressed by this commentor, the test procedures in the proposed standard are both complete and necessary. Further, the Commission disagrees with the commentor's statement that fragmentation is only casually dealt with in the proposed standard. With the elimination of the burn control requirements, it should be noted that the primary emphasis of the test method is now on the detection of fragments and other performance malfunctions. Also, in light of other comments received on the proposed standard, certain of the procedures discussed below have been revised to be more efficient and still be consistent with the objectives of the tests.

2. *Preconditioning and conditioning.* Section 1202.8(b), as proposed, specifies the preconditioning and conditioning to which bookmatch samples must be subjected before being tested.

(a) One commentor complained of the extended time or lag period required to complete the testing provided in the proposed standard. The commentor noted that almost 75 percent of the testing lag period was taken up by the preconditioning and conditioning requirements of the proposed standard and stated that by cutting down this period of time the Commission could lessen the "unreasonable burdens" that these requirements place on the manufacturer.

The Commission notes that the conditioning times contained in the proposed standard were based upon specifying a single procedure for both performance testing and burn control testing. Conditioning for burn control requires a longer total time than for other performance requirements because a higher preconditioning temperature, which would be satisfactory for other requirements, could melt the paraffin on the bookmatch and thereby alter its burn time/burn distance characteristics. Since the burn control requirement is not being included in the Standard, the Commission is able to shorten the preconditioning and conditioning times to those required for the remaining performance tests and to reduce the lag time between the start of testing and final results.

Section 1202.8(b) (1) and (2) issued below as § 1202.6(b) (1) and (2), has been revised to reflect these shorter times. Specifically, the standard now requires that the matchbook be preconditioned for 45 minutes at 120° F followed by a minimum conditioning period of 15 minutes in the conditioning chamber or test room.

(b) Another commentor also raises the 3½ hour conditioning requirements for samples, claiming that it creates storage problems and unreasonable additional costs for handling. This commentor describes his previous experience of rapidly drying matches at 120° F in 10 to 15 minutes and then testing matches for all their functioning characteristics after a five minute cooling period and is concerned about the Commission's rejection of this shorter time interval.

The Commission's matchbook tests do not substantiate the 15-minute drying time for assembled matchbooks. Engineering data show that assembled matchbooks at 10 percent moisture by weight could not be dried in 10 to 15 minutes as recommended by the commentor or by ASTM in their recommended standard. The data also show that 45-minute drying time is required to precondition the complete matchbook from the 10 percent moisture condition. Test data indicate, however, that bookmatches tested without covers, with 10 percent moisture can be preconditioned within a 15-minute period at 120° F in a circulating air oven. Since the test procedures in the standard are based on testing the assembled matchbook, the longer preconditioning time is required.

(c) A third commentor recommends changing the upper humidity range specified in § 1202.8(b)(2), as proposed from 30 percent–50 percent to 30 percent–52 percent to be consistent with TAPPI (Technical Association of Pulp and Paper Industry) conditions.

The TAPPI conditions referred to are 50 percent ±2 percent relative humidity and appear in SATM D685–73 entitled, "Standard Method of Conditioning Paper and Paper Products for Testing." The Commission concurs with this recommendation and has made the change in § 1202.6(b)(2) issued below.

3. *Inspection for general requirements.* One commentor questions the need for the preconditioning and conditioning steps to be performed on matches prior to their being inspected for general requirements (§ 1202.8(c), as proposed).

The Commission did not intend to require that the matchbook be conditioned prior to inspection for general requirements, since matchbooks only need to be visually inspected for these requirements. As suggested by the commentor, the visual inspection could be performed prior to conditioning, thereby shortening the response time between testing and correction of a general requirement defect.

Therefore, the Commission is switching the order of §§ 1202.8(b) and (c), as proposed, so that as issued below the inspection requirement (§ 1202.6(b)) precedes the conditioning requirements (§ 1202.6(c)).

4. *Test device and fragment collection box.* Section 1202.8(d)(1)(i), as proposed, describes the devices to be used to test bookmatches for fragmentation.

Three persons made related comments on the proposed test device and collection box. Two of the three commentors addressed the need for a "human-engineered" test box. One stated that the proposed front hinged access door is cumbersome to handle and that it is impossible for an average-sized person to strike a match while at the same time observing the force gage in the box. Two of the three commentors also cited the need for a ventilated box in order to purge the test environment of combustion products from the match and to protect the operator from smoke and fumes. One of these further commented that the prolonged exposure to these gases would have a corrosive effect on the inner workings of the force gage test device.

The Commission concurs with the need for adequate ventilation and improved human engineering of the test box. The test box has been redesigned and the following design changes have been made:

Improved ventilation.

Force gage attachment altered from top to side.

Operator position moved from top to side to facilitate striking and viewing of force gage.

Size changed to decrease paper cost.

The redesigned box (see Figure 1 of the Standard) is well ventilated, to permit natural convection of exhaust fumes to the outside. Baffle plates cover the intake and exhaust holes to reduce the draft near the center of the box. The box can be opaque with the exception of a transparent viewing window for observing the striking of a match and for convenient viewing of the force gage dial. The force gage is suspended from the side, thus allowing clearance for inserting a full sheet of collection paper. The lower portion of the front is a door hinged at the base and contains a hand hole for striking the match. After striking the test match, the door is opened and the base can be slid out for examination of fragments. The base of the fragmentation test box is raised to support the 16 lb. bond paper. This permits transferring the paper to the lowered door during the fragmentation inspection period without having to touch or disturb the paper itself.

5. *Conditioning chamber.* Section 1202.8(d)(1)(iv), as proposed, describes the environmental conditions which must be maintained in the conditioning chamber used in the test procedure.

A commentor states that the requirements of the proposed standard place a humidity limitation on preconditioning and, therefore, both preconditioning and conditioning chambers will require humidity control. The commentor also states that the standard would require

separate preconditioning and conditioning chambers, each approximately 5'x5'x7' high in order to allow for reasonable storage and access to the materials being conditioned. The commentor's engineering department estimated that each chamber would cost about $10,000.

The commentor also points out that under "worst case" humidity conditions which may exist in the manufacturing plant the preconditioning temperature of 102° F might not adequately dry the matchbook. Although one way to avoid this problem is to place a humidity limitation on preconditioning, another method is to perform the preconditioning in a circulating air oven in a humidity controlled environment.

With deletion of the cover requirement to the burn time/distance requirement, the preconditioning and conditioning chamber requirements as specified in the proposed standard are no longer applicable. The preconditioning requirements have been changed to 45 minutes at 120° F in a circulating air oven and the conditioning requirements changed to 15 minutes at 70–77° F at 30–52 percent relative humidity. Under these conditions, humidity control would not be needed to achieve proper preconditioning.

The Commission, in responding to this comment, would like to point out that using a test room maintained at the prescribed conditioning environment would eliminate some of the problems associated with performance testing.

Commission data [3] show that the cost of such a test room would be significantly less than the $10,000 estimated by the commentor for conditioning chambers. The preconditioning circulating air oven would be contained in the test room and there would be no need for a time limit on how long a match or matchbook was exposed to the test room environment before conducting the performance tests.

The test room need not be larger than 10'x10'x8' to allow for freedom of movement for at least two testers. It must contain a hot air circulating oven, storage racks for samples to be tested, a table on which a collection box is placed and an area for afterglow testing. Afterglow testing can be done with the room lights out, within a darkened area of the room or in an opaque box with a viewing window. The Commission estimates that such a room could be erected in existing space and fully equipped for less than $5,000.

One or more smaller conditioning chambers may be used instead of a conditioning room. If the conditioning chamber(s) is used, the conditioned matchbooks must be tested within 10 minutes after removal from the conditioning chamber(s).

6. *Collection sheet.* Section 1202.8(d)(1)(v), as proposed, specifies that a 16 pound white bond paper be utilized to cover the base of the collection box so as to collect, for examination, the fragments which occur as a result of the testing.

A commentor states that white bond paper is not commercially available in a 2' x 2' size to fit the bottom of the proposed collection box. The closest available sizes to 2' x 2' are legal size at 8½'' x 14'' and a larger size at 24'' x 38''. If forced to use the larger size, the commentor estimates a yearly cost of $23,750 for test paper based on using 125,000 sheets per year (250 days×500 sheets per day) at a cost of $.037 per sheet, plus an estimated $.15 per sheet for cutting and fitting the paper to the collecting box size.

The Commission concurs that the paper requirement as proposed is a nonstandard size and consequently the cost may be higher than necessary. Therefore, the dimensions of the collection box as specified in § 1202.8(d)(1)(i), as proposed, was reduced in § 1202.6(d)(1)(i) as issued below to accommodate a sheet 12'' x 19'' which is one-fourth of a standard 24'' x 38'' mill size sheet.

Based on the cost data collected by the Commission [3] and using the 125,000 sheets per year estimated by the commentor, the Commission's estimate of cost is $1,762.50/year. By redesigning the size of the collection box, the Commission has eliminated the need for individual cutting and fitting of the collection paper and has thereby reduced the total cost to 1/13 of that estimated by the commentor. The above cost figure is dependent on the number of tests that need to be conducted and whether the paper is reused or not. This figure can be further reduced by buying in large quantities.

7. *Conditioned matchbook container.* Section 1202.8(d)(1)(vi), as proposed, specifies a desiccator containing anhydrous silica gel as a holding chamber for conditioned matchbooks awaiting testing.

One commentor points out that it is possible for matches stored in the conditioned matchbook container (dessicator) to be dried out below the acceptable test humidity and, therefore, a time limit should be placed on the use of the conditioned matchbook container. The commentor also points out that preconditioned matches could be stored in the conditioning chamber specified in § 1202.6(d)(1)(iv) below until they are needed for testing rather than in the conditioned matchbook container.

The Commission concurs with the commentor regarding the use of a conditioned matchbook container. Prolonged storage in a desiccator would dry the samples out and offers no control on the matchbook condition. It is the Commission's opinion that conditioned matches should not be stored in a desiccator and therefore, this provision has been eliminated from the final standard issued below, thereby allowing the storage of the matches in a conditioning chamber until needed for testing.

8. *Required strike force.* Section 1202.8(d)(2)(i), as proposed, sets out the striking force required in testing samples of matchbooks and bookmatches for the various performance defects listed in § 1202.5 issued below.

(a) One commentor undertook two experiments to determine if the 1.0–1.5 lbf striking force specified in proposed § 1202.8(d)(2)(i) was typical of the match-consuming public. The first experiment involved members of the commentor's quality control staff, while the second test involved persons who were not experienced match testers. The results of these experiments showed that many persons strike at a force level lower than that specified in the proposed Standard. This data leads the commentor to recommend that the minimum force should be lowered to 0.5 lb, making the total range 0.5 to 1.5 lbs. The Commentor points out that sensitive matches, which require less force to ignite, should not be penalized by requiring a typically high force: whereas, the harder striking match could still be subjected to the upper test range.

The values in the proposed standard are based on limited striking tests performed by the Commission. In order to evaluate this commentor's data, the Commission performed additional striking tests using males and females and both smokers and non-smokers.[4]

The striking test consisted of placing the matchbook on an instrumented load cell and recording the output. The subjects were told to strike the matches in their normal uninhibited manner.

The tests showed the average striking force of the subjects to be 0.83 lbf. The test data also show that at least 20 percent of the subjects struck with a force of 1.25 lbf or more, and 71 percent of them struck with less than 1.0 lbf. Therefore, in order to provide a margin of protection for those persons that strike with more than average force the Commission is of the opinion that the selected striking force of 1.0 to 1.50 lbf is an acceptable force range.

The Commission rejects the commentor's request to reduce the minimum striking force to 0.5 lbf. The data show that people tend to strike matches with a higher average force than this and also they tend to use similar force regardless of the matchbook sensitivity or manufacture. Since the Commission's data do not indicate that strikers differentiate between matches, allowing some manufacturers to test with a lower striking force could possibly allow potentially-dangerous matches to be certified.

(b) Another commentor stated that using the Commission's proposed procedure resulted in a striking force variation of between 1.05 and 1.9 lbf even though the intial pressure exerted on the striker strip is between 1–1.5 lbf. The commentor further stated that the procedures provide no means of controlling the pressure, velocity or acceleration while striking the match. Therefore, this commentor has recommended that the striking force and velocity should be accurately controlled and that instrumentation should be developed for this purpose.

Since the data referred to by the commentor was not included in the package reviewed, the Commission set up an independent testing program to assess the validity of this comment.

[3] Commission's Bureau of Engineering Sciences responses to public comments and evaluation of supportive test data, on file with and available through the Commission's Office of the Secretary, Washington, D.C. 20207.

Ten persons struck a total of 90 matches and the initial force and the force achieved during striking were recorded. The strikers were told to initially apply 1.0 lbf to the match. One out of the 90 strikes reached a value of 1.6 lbf. Three out of the 90 were 1.3 lbf, however, 86 (or 95 percent) of the strikes were between 0.95 and 1.25 lbf. Since matches which are initially subjected to the maximum 1.5 lbf could exceed the prescribed upper limit, the Commission has modified the striking procedures set out in proposed §§ 1202.8(d)(2)(i)(A) in 1202.6(d)(2)(i)(A) as issued below, to state that the initial force should be 1.0–1.1 lbf and that striking force should be maintained between 1.0–1.5 lbf during the striking motion. The previously specified range (1.0–1.5 lbf) remains the same, however, but the new procedures should reduce the possibility of exceeding the maximum striking force.

As to the second part of this comment, the Commission concedes that a match-striking instrument, if designed properly, could provide a uniform striking procedure. It should be pointed out that the offeror's recommended standard required a test instrument for match striking, however, no instrument had been designed nor specifications provided for building such a device. This provision was later changed by the offeror to allow a hand-striking procedure. It is the opinion of the Commission that the procedures as outlined in § 1202.6(d)(2)(i)(A) of the standard, which specify initial force and striking distance, provide reasonably consistent procedures for igniting matches so as to determine performance defects. It is not the intention of the Commission to inhibit or stifle progress in improving testing procedures. Therefore, if an instrument is developed which will give identical performance results and which will be compatible with the collection box and match striking parameters set in the Standard, the industry is free to utilize it, subject only to applicable certification requirements.

9. *Test procedures for afterglow.* Tests for afterglow under § 1202.8(d)(2)(ii), as proposed, were to be conducted in conjunction with the burn time/distance test. The afterglow time was to be determined by measuring the time from self-extinguishment of the visible flame until the disappearance of the visible afterglow.

One commentor objects to being required to use the same collection box for both fragmentation and afterglow testing as proposed in § 1202.8(d)(2)(ii). Since different "fixturing" (apparatus) and levels of illumination are required for each test, the commentor feels that a single box does not allow efficient bookmatch testing and, therefore, recommends using two separate test boxes.

Since the burn time/distance provision is not included in the standard as issued below, it is no longer required that afterglow testing be performed in a test box. Section 1202.6(d)(2)(ii)(A) as issued below, now requires that afterglow testing be performed within an area which can be darkened to 0.3 ft-candles. A vent or hood may be needed for this area.

Additionally, because the burn time/distance provision is not included in the final standard, the Commission has modified the test procedures so that the afterglow testing can be conducted with a non self-extinguishing match. During experimentation, the Commission staff observed that, after a match had burned for approximately ½ inch, the paraffin would be consumed and the splint would show visible signs of charring. Therefore, it was determined that a suitable test for afterglow would be to allow the match to burn for at least ½ inch and then to extinguish the match. The procedure for timing the afterglow would then be the same as in the proposed standard. These changes are reflected in § 1202.6(d)(2)(ii) as issued below.

10. *Report of test result.* Section 1202.8(e), as proposed, requires that a written report be kept recording all test results obtained and documenting that the bookmatches were tested in accordance with this section.

The Commission believes that this provision is unnecessary because of the Commission's intention to issue a certification rule for matchbooks which will include the necessary recordkeeping requirements.

11. *Miscellaneous*—(a) *Advance testing for cover/comb requirements.* One commentor was disturbed by the possibility of large quantities of noncomplying matchbooks being produced during the period between the completion of the manufacturing process and completion of testing. This commentor suggested that comb and/or cover tests could be conducted during the manufacturing process prior to their assembly into finished matchbooks.

In response to this the Commission first wants to point out that the elimination of the child-resistant cover requirements and the shortening of the preconditioning and conditioning times should greatly alleviate this commentor's concern.

With regards to the commentor's suggestion about the comb and/or cover tests, the Commission believes that in determining compliance with its product safety standards, it is generally considered better to sample and test finished products. Therefore, any compliance testing performed by the Commission on matchbooks will be performed on the finished, assembled matchbook according to the test methods outlined in the standard.

The certification rule, which will subsequently be proposed by the Commission for comment, will establish the parameters of a reasonable testing program. A manufacturer would be required to certify that his product complies with the standard, based on such a program. It may be that a reasonable testing program will include test procedures which are different from those set out in the standard, but the Commission will test for compliance by using the procedures in the standard. For example, a program could include "in process" testing procedures if they were found to be appropriate for the conditions. The manufacturer would design a testing program and perform whatever quality control testing was necessary to insure that the requirements of the standard are met.

(b) *Additional suggested requirements.* There are a number of comments which relate generally to matchbook safety but not directly to any of the requirements contained in the proposed Standard.

A number of persons comment that certain "design" type requirements should have been included in the Matchbook Standard. The comments addressed the following areas:

Minimum splint dimension or strength requirement.
Matchhead and friction requirements.
Uniform striking characteristics.

The commentors feel that such requirements would further enhance matchbook safety.

Three commentors specifically comment on match splint requirements as related to dropped matches. One states that, although it is primarily concerned with preventing injuries from fragmentation which causes in excess of 60 percent of all match-related injuries, it is also concerned with the strength of the match splint which it believes would significantly reduce the problem of dropped matches. Another commenter states that matches with stronger splints will not have to be held so close to the matchhead and, thus, will reduce the likelihood of fingers being burned and matches being dropped. Another commentor feels that the greatest hazard is that of the match stems used in some matches are being made from poor, flexible material that make it difficult to strike without getting burned.

On the matter of matchhead and friction requirements, one commentor feels that there should be specifications for raw materials, compositions, production methods, and drying techniques for both matchheads and friction.

Another commentor states that all matches should have uniform striking characteristics and this could be achieved by having standard formulas for head and friction compositions. This commentor's concern is that presently some matches are more sensitive (i.e., easier to light) than others, and a person not knowing the difference might use excessive pressure on a sensitive match, resulting in fragmentation of that match.

The Commission is limited by the Consumer Product Safety Act to issuing safety regulations which are reasonably necessary to prevent or reduce only those risks of injury associated with a consumer product that are found to be unreasonable. Although the Commission is aware of differences in match sensitivities, head hardness, splint strength and in the force required to ignite various matches, the Commission is unaware of any injury data or any other reasons which indicate that, except as they interface with those provisions of the standard issued below, the various ad-

ditional requirements suggested by these commentors are related to an unreasonable risk of injury associated with matchbooks.

Since the Commission can take action only where an unreasonable risk of injury associated with matchbooks is shown to exist and not when it is simply felt that a better or more efficient matchbook can be designed, it wishes to state that it appreciates the concern expressed by these commentors but is unable to act on any of these suggestions.

(c) *Availability of test equipment.* One commentor states that the proposed procedures involve test equipment not normally used in the industry and this poses additional problems to manufacturers.

The Commission concurs that some of the equipment in the proposed standard, such as the test device and collection box, is not normally used in the industry. However, as discussed above, since each manufacturer will develop its own reasonable testing program, use of these devices by the manufacturer is not mandatory. Notwithstanding this fact, these are relatively inexpensive items to purchase, and in the case of the collection box, to build. The most costly items will be the conditioning test room chamber and attendant conditioning equipment. Some items, however, such as the circulating air oven, timers, detection paper and even the test area, have been observed as part of existing facilities at some manufacturers.

V. MARKING

The marking and advertising provisions of § 1202.10 in the Commission's proposal deals with various requirements for identifying the manufacturer, limitation on the use of the matchbook cover as an advertising medium, and with the storage warning marking.

A. *Manufacturer's name and city.* One commentor urges the Commission to change its proposed requirement regarding identification by means of the manufacturer's name and city. He notes that for his firm, an important part of its total sales is in sales to jobbers (or private labelers as they are referred to in section 3 of the Act) who in turn sell the matchbooks. Such a private labeler places on the matchbook cover its name, city, and state for its own advertising purposes. The commentor contends that to require a product stocked and sold by a middleman to carry a manufacturer's name would be to compete directly with the jobbers business and its own use of advertising space. The commentor also states that the requirement is an infringement on the manufacturer's ability to sell its product and may substantially reduce its sales.

The Commission agrees that § 1202.10 (a), as proposed, is unfair to the manufacturer in the situation outlined by the commentor. Accordingly, revisions have been made to § 1202.8 as issued below which will allow for the use of a private labeler's name and city or its identifying symbol to appear on the matchbook in lieu of the manufacturer, provided that the private labeler can identify the manufacturer if requested to do so.

B. *Manufacturer's zip code.* Several commentors oppose the requirement for identification by zip code stating that it has no relevance to risk reduction, is not necessary for identification, and takes up space which is costly since it can otherwise be used for design and advertising purposes.

One commentor points out that, for its firm, one-time cost of approximately $75,000 would be required to make changes to existing artwork and printing plates. This cost would follow directly a $150,000 cost, recently absorbed, to make art and plate changes to accommodate reverse friction. Another respondent notes that a zip code necessitates a renovation of each plate from which the matchbook cover is printed at an estimated cost of $35 per plate per customer for his firm.

A third respondent points out that, because his firm has sales offices throughout the country, the requirement to print zip codes for each of these and to change codes when offices are relocated would impose unreasonable expense. He states that the firm has in excess of 10,000 active accounts, and estimates that the total cost of changing all its plates to accommodate the proposed zip code would exceed $400,000.

The Commission recognizes that several manufacturers and importers of matchbooks would have to remake all printing plates to comply with the proposed requirement for zip code identification since it cannot be added to existing plates. Although the Commission has not estimated the total number of plates affected, it has received estimates from manufacturers of more than 60 percent of the matchbooks manufactured in the United States placing the cost for conversion at between $35 and $47 per plate. The Commission has also estimated that substantial inventory losses would be incurred in scrapping all previously printed cover stock that did not include a zip code. The Commission has also been apprised that, with some exceptions, the Postal Service does not consider a zip code without a street address as a sufficient address. Further, the Commission is aware of the fact that most manufacturers maintain listings of the street address and telephone number in city directories.

The Commission has considered all these factors and has concluded that the costs associated with requiring a zip code identification are unreasonably high when compared to the marginal effect that inclusion of the proposed zip code requirement could have on protecting the public against unreasonable risks of injury associated with matchbooks. Accordingly, the zip code requirement has been deleted from § 1202.8 as issued below.

C. *Coupon advertising.* Section 1202.10 (b) and (c), as proposed, would prohibit the use of coupons printed on matchbook covers which require the cover, or any portion of it, to be torn off in order to take advantage of the coupon offer, unless the cover is designed so that the friction must also be removed with or so that the coupon contains a message instructing the user to discard the balance of the bookmatches.

Several commenters express concern about the economic burden of complying with the requirements on coupons, and point out that the additional costs are especially unnecessary because there is no identifiable link between the coupon restrictions and increased safety.

One commentor states that the proposed coupon requirements were unnecessarily restrictive because of the absence of any information linking a matchbook coupon with an injury or accident. The commentor feels that since the requirements are economically burdensome, restrictive, and without benefit to safety, they should not be included in the standard.

Another commentor points out that since 75 percent of his firm's general advertising sales, or a total of 37.5 percent of its total sales, are in coupon matchbooks, the proposed coupon requirements will cause a material reduction in revenues and will seriously affect the firm's profitability. He also states that considerable expense is involved in complying with the requirements since either changes in printing layout or a reduction in the space available for the coupon is required. He notes that coupon advertisers can hardly be expected to pay the same amount for less space, or for the same space, part of which has reduced visibility.

The Commission agrees that there is no evidence of injury sustained as a result of events linked with matchbook coupons. The Commission does, however, have documentation of a number of cases where injury was sustained when a bookmatch being ignited with the matchbook cover open, ignited the remaining bookmatches. The Commission therefore believes that injuries related to removing coupons from matchbooks could occur. After analyzing the estimated costs associated with the proposed coupon requirements and their potential differential impacts on the four manufacturers presently producing matchbooks with coupons, the Commission concludes that the additional cost burden cannot readily be justified nor supported on the basis of reducing risk of injury. The requirements relating to coupons have, therefore, been deleted from § 1202.8 as issued below.

D. *Storage warning.* Section 1202.10 (d), as proposed, sets out the requirement that any box or carton in which two or more caddies of matchbooks are shipped be marked, "For safety, store in a cool, dry place."

One commentor requests that the Commission change the wording of this proposed requirement to permit the use of the alternate wording being presently used by him, "store in a cool, dry place," until the dies used to manufacture the shipping containers come up for regular modification and remake. The commen-

tor points out that, although sufficient time is available in which to use existing container inventory and in which to remake all dies, an across-the-board change to all dies, most of which would otherwise not require modification at this time, would require an outlay by the firm of $2,000 in addition to administration costs involved. On the other hand, he states that a gradual change over several years would not add any additional costs to carton manufacturers and would still provide the existing message "store in a cool, dry place".

Although the Commission recognizes that the additional words, "For safety * * * " may appear to the commentor to be insignificant in light of the estimated costs for conversion, the language is intended to point up the importance of specifying that the storage instructions, to "store in a cool, dry place" are also directly related to the safety of the product, in that improper storage of matchbooks could cause changes in the properties of the bookmatch relating to their safety. Further, the Commission is of the opinion that the costs of providing the specific wording may be reduced if instead of a one-time, across-the-board remake of all dies, manufacturers use a combination of die changes at regular die-modification plus adhesive labels, rubber-stamped, or other means of adding the words "For safety."

VI. PROHIBITED STOCKPILING

The prohibited stockpiling provisions of § 1202.11 in the Commission's proposal specifies that manufacturers and importers shall not manufacture or import matchbooks that do not comply with the requirements of this Part 1202 at a rate greater than the rate of production of importation during the "base period" plus 15 percent of that rate between its date of issuance and its effective date.

Section 1202.11(c), as proposed, contained a provision requiring manufacturers and importers to maintain appropriate documentation to prove compliance with this section. Although not raised in the comments received, the Commission notes that no period of time was specified for which this documentation was to be maintained. In issuing its proposal of this section, the Commission assumed that the retention period for these records would be for a reasonable time. In retrospect, the Commission sees the practical need to set a time period and has selected six (6) months. Section 1202.9, as issued below, has been revised accordingly.

ECONOMIC CONSIDERATIONS

1. Several commentors express general doubt about the cost-effectiveness of the proposed standard for matchbooks and urge the Commission to consider fully the potential costs and benefits before reaching a final decision on a standard. One commentor urges the Commission to improve its cost analysis, to evaluate each component of the proposed standard in terms of cost-benefit or cost-effectiveness analysis, and to consider the impact of the proposed standard on the viability and competitiveness of the matchbook industry.

The requests made by these commentors parallel certain of the requirements of Section 9(c)(1) of the Act. This section requires that the Commission consider and make findings (which are to be included in the rule) with respect to (1) the probable effect of its rules upon the utility, cost, or availability of products subject to the consumer product safety rule, and (2) any means of achieving the objective of such a rule while minimizing adverse effects on competition or disruption or dislocation of manufacturing and other commercial practices consistent with the public health and safety. To support the findings required, the Commission (in its proposal of April 1, 1976) solicited comments, data, and information on the potential cost effects of the proposed standard and undertook special studies of the potential economic impact of the proposal, including those provisions being deleted from the final regulation. A chief purpose and result of these studies was to improve the Commission's cost data and analyses. The required findings and supporting information are set out and discussed in § 1202.2 issued below.

2. Two commentors state that, in proposing this standard, the Commission failed to comply with the requirements of Section 9(c) of the Act.

One contends that the proposed standard has been arbitrarily and unreasonably determined and is discriminatory. It further contends that there is no evidence that the Commission considered the probable effect of such rules upon the utility, cost or availability of such consumer products or, that the Commission even considered effects on competition or disruption or dislocation of manufacturers, and that the Commission certainly could not have considered the adverse effects of the proposed standard with respect to these factors.

A commentor notes that the Act requires that the Commission study alternative methods of reducing the identified risk and review the impact of these alternative methods on commercial practices and economics, and contends that the briefing package on the proposed standards and other staff materials failed to do this at all. The commentor states that the rationale accompanying the proposed standard does not contain any economic data relative to the cost of implementation or the effect in the marketplace, and objects because an economic analysis of the proposed standard, underway at the time of proposal, was not available for public comment prior to the end of the comment period.

Section 9(a)(2) of the Act (15 U.S.C. 2058 (a)(2)) requires the Commission to comply with 5 U.S.C. 553 (the Administrative Procedure Act) in issuing rules such as this, proposed under Section 7(f) of the Act. 5 U.S.C. 553(b)(3) requires an agency to publish in the FEDERAL REGISTER a general notice of proposed rulemaking setting forth "either the terms or substance of the proposed rule or a description of the subjects and issues involved."

Once a proposed rule is published for comment, 5 U.S.C. 553 requires agencies to allow the public to submit written data, views, or arguments on the proposal. In addition, Section 9(a)(2) the Act specifically requires the Commission to provide an opportunity for the oral presentation of data, views, or arguments. These requirements were fully complied with by the Commission.

The comment correctly points out that Section 9(c)(1) of the Act, as well as the legislative history of that section, requires the Commission, prior to promulgating a standard, to consider and make appropriate findings concerning certain of its economic effects for inclusion in the final standard. The legislative history of the Act, however, also indicated that to allow comments on the Commission's findings under Section 9(c)(1) would be unwise and unnecessary. As noted in the comments section of the Senate Commerce Committee Report:

> To require the Agency to announce its findings before receipt of comment on its specific proposal would seem both unwise—because they would not reflect the data and views submitted during that stage of the proceedings devoted to the solicitation and evaluation of comment upon the proposed standard—and unnecessary—since the findings in question are not intended as a basis for comment but as a way of insuring that the grounds for the ultimate decision are made a matter of record. (S. Rept. 740, 92d Cong. 2d Sess., p. 81 (1972)).

It is the Commission's view that all persons were afforded an adequate opportunity to present data, views or arguments concerning the proposed standard, including its economic impact. All such comments were considered by the Commission prior to issuing a final standard.

Moreover, research reports prepared for the Commission by Battelle Columbus Laboratories on the potential economic effects of the proposed standard, entitled "Analysis of the Bookmatch Industry and the Potential Impact of a Proposed Standard on Bookmatches: Phase I—Industry Information and Analysis" (March 18, 1975), and "Important Economic Issues Related to Matchbook Standard" (August, 1975), were included in the staff's briefing package to the Commission of November 17, 1975, were available for comment and were extensively commented upon in several responses to the proposal.

OTHER CONSIDERATIONS

I. INFORMATION AND EDUCATION PROGRAMS

Throughout the comments received, commentors question the extent of the Commission's efforts to deal with the unreasonable risks of injury associated with matchbooks through information and education programs.

At the present time, there are two major Commission information and education programs which address, among other things, the hazards of matchbooks.

The first of these programs is the Burn Injury Education Demonstration Project

which is a four-year program designed to test, in a scientific way, approaches to providing education on burn hazards and injuries. Injury data have been collected in a test and control site in the Boston, Massachusetts area. Three types of educational programs will be implemented at the test site, while the control site will receive no special treatment. Following the intervention stage (scheduled for FY '78), changes in knowledge and awareness levels of consumers in the test site will be compared with any change in the control site. In addition, reductions in injury rates in the test site will be compared with injury rates in the control site. The program itself will consist of educational materials, media materials and educational strategies aimed at school systems and the adult community. The hazards of matches as an ignition source will be one part of the program and will include such things as scald burns, general information regarding burn hazards, information on how to prevent burns from specific products, and proper treatment of burns.

The other program is the Flammable Products and Ignition Sources program which is a national information and education program focusing on the hazards associated with eight products within the Commission's jurisdiction. These products are: flammable liquids, matches, ovens, lighters, space heaters, flammable fabrics, extension cords, and fireplaces. The materials used in the program will consist of an activities guide for use in schools and organizations, as well as a catalogue of hazards to look for. These materials should be ready for public distribution in mid-1977. In addition, the Commission has prepared and distributed to more than 660 television stations, four TV spots on fire/burn hazards, one of which involved children playing with matches, and one which addressed the hazard of cigarette ignition of upholstered furniture.

The Commission views the education about fires and burns to be a high priority, and has expended more than $700,000 over the past two years for the development, testing, printing, and dissemination of information and education materials on these subjects.

II. ENVIRONMENTAL EFFECTS

Prior to publishing the proposed standard on April 1, 1976, the Commission considered the environmental effects of its action and determined that, with the possible exception of the burn time/distance provision, the proposed standard would not cause significant effects on the environment. The factors leading to the original determination were set forth in an environmental assessment of the proposed standard which is on file with and available from the Commission's Office of the Secretary.

With the deletion of the burn time/distance provision by the Commission from the final Matchbook Standard issued below, the Commission now concludes that the final standard will have no significant effects on the environment and that no environmental impact statement is necessary.

III. ADVERSE AFFECT ON THE ELDERLY AND HANDICAPPED

Section 9(b) of the Act as amended, requires the Commission to consider and take into account the special needs of elderly and handicapped persons to determine the extent to which such persons may be adversely affected by Part 1202 as issued below.

After review of all the materials in the public record for this proceeding, the Commission anticipates no increased risk of injury to the elderly or handicapped by use of a complying matchbook nor increased inconvenience to these persons. Therefore, the Commission finds that the special needs of the elderly or handicapped will not be adversely affected by the issuance below of Part 1202.

IV. REQUIRED SECTION 9(C) FINDINGS

Section 9(c) of the Act (15 U.S.C. 2058(c)) requires that prior to promulgating a consumer product safety rule the Commission shall consider and shall make appropriate findings for inclusion in the rule as to: (1) The degree and nature of the risk of injury the rule is designed to eliminate or reduce; (2) the approximate number of consumer products, or types or classes thereof, subject to the rule; (3) the need of the public for the consumer products subject to the rule, and the probable effect of the rule upon the utility, cost or availability of such products to meet that need; (4) any means of achieving the objective of the rule while minimizing adverse effects on competition or disruption or dislocation of manufacturing and other commercial practices consistent with the public health and safety; (5) the necessity of the rule to eliminate or reduce an unreasonable risk associated with such product; and (6) the fact that the promulgation of the rule is in the public interest.

The findings required by Section 9(c) have been made by the Commission and are contained in § 1202.2 below.

CONCLUSION AND PROMULGATION

Having considered the offeror's submission, the published proposal, the oral and written responses to the proposal, and other relevant material, the Commission issues the safety standard for matchbooks as set forth below.

Therefore, pursuant to provisions of the Consumer Product Safety Act (Sec. 9(a), Pub. L. 92-573, 86 Stat. 1215; 15 U.S.C. 2058(a)), a new Part 1202 is added to Title 16 Chapter II, Subchapter 13, as follows:

Subpart A—The Standard

Sec.
1202.1 Scope and effective date.
1202.2 Findings.
1202.3 Definitions.
1202.4 Matchbook general requirements.
1202.5 Matchbook performance requirements.
1202.6 Test procedures for general and performance requirements.
1202.7 Certification.
1202.8 Marking.
1202.9 Prohibited stockpiling.

AUTHORITY: Secs. 2, 3, 7, 9, 14, 16, and 19, Pub. L. 92-573, 86 Stat. 1212-17; 15 U.S.C. 2051, 2052, 2056, 2058, 2063, 2065, and 2068.

§ 1202.1 Scope and effective date.

(a) *Scope.* This Part 1202, a consumer product safety standard, prescribes the safety requirements, including labeling and performance requirements, for the matchbook. This Part 1202 applies to all matchbooks manufactured in or imported into the United States after its effective date.

(b) *Effective date.* The effective date shall be May 4, 1978.

§ 1202.2 Findings.

(a) *Risk of injury.* The Commission finds that unreasonable risks of injury from accidents are associated with matchbooks. These unreasonable risks, which this Part 1202 is intended to reduce or eliminate, are:

(1) Burn injuries, sustained by children and others, including mentally or physically impaired persons, who play with or otherwise improperly use bookmatches.

(2) Burn injuries sustained by persons who use bookmatches that fragment or have delayed ignition.

(3) Eye injuries sustained by persons who use bookmatches that fragment and cause particles from such matches to lodge in a person's eye.

(4) Burn injuries sustained by persons who use bookmatches that, when struck, ignite the remaining matches in the matchbook.

(5) Burn injuries sustained by persons from fires that have resulted from unexpected ignition of bookmatches with no deliberate action by the user.

(6) Burn injuries that have been sustained by persons from fires that have been set by the afterglow of extinguished bookmatches.

(b) *Products subject to this standard.* (1) The products subject to this standard are those kinds of manufactured ignition devices known as matchbooks. The matchbook consists of a group of bookmatches joined together and fastened within a cover. Although matchbooks are commonly referred to as paper matches or paper-stem matches to distinguish them from individual stick matches such as wooden stem matches packaged in boxes, all matchbooks, regardless of the materials of manufacture of the covers or of the bookmatches fastened within, are subject to this Standard.

(2) Matchbooks subject to this standard can be divided into two basic categories: Resale matchbooks and special reproduction matchbooks. Resale matchbooks can be subdivided into advertising and non-advertising matchbooks. Non-advertising matchbooks are generally sold by large chain stores, and constitute a small portion of the total resale matchbook volume. Resale matchbooks with advertising are generally given away by tobacco shops, drug stores, vending firms and other mass distribution outlets. Spe-

cial reproduction matchbooks, characterized by their distinctive and unique cover designs, are purchased and distributed for promotional purposes by hotels, restaurants, financial institutions and other business enterprises, and are given free to users.

(3) The Commission estimates that resale matchbooks accounted for almost 75 percent of the volume of matchbooks in 1975, or about 15 billion matchbooks, while special reproduction matchbooks accounted for just over 25 percent, or about 5.5 billion matchbooks.

(c) *Effects on utility, cost, and availability.* (1) The Commission finds that the public need for ignition devices which are small, portable, and can be used to provide a source of fire, is substantial since such products meet basic requirements for a source of fire to ignite tobacco, products, fires, candles or other products, and are also used for miscellaneous other purposes such as providing short term illumination. Three types of products: matchbooks, individual stick matches, and lighters, predominately supply the source of fire to meet these requirements.

(i) The Commission estimates that in 1976 U.S. consumers required approximately 645 billion such fire sources or "lights," as they are known, with almost 98 percent of this total required for tobacco products. In the aggregate, the requirements by U.S. consumers for a source of fire has been growing at an annual rate of approximately 3 percent. Matchbooks, the products regulated in this standard, are estimated to have supplied about 65 percent of the source of lights, lighters accounted for about 25 percent, and individual stick matches (primarily wooden-stem type) accounted for the remainder.

(ii) The Commission also finds that matchbooks fulfill a need by institutions and business enterprises for a particular form of specialty advertising that is both relatively inexpensive and effective in reaching a specified audience or population segment with the advertiser's message. Various studies of matchbooks as a form of advertising have found that readership can average 3 to 15 times higher than average readership, listenership, and viewership figures from competing media such as magazines, newspapers, radio, and television, and that readership retention of the matchbook advertising message was extremely high, about 45 percent. In addition, matchbooks tend to be considerably less expensive than other forms of specialty advertising, including those competing advertising items such as address books, key cases, litterbags and the like, which are themselves relatively inexpensive.

(2) The Commission finds that the standard will have no adverse effects on the utility that consumers derive from matchbooks. To the extent that injuries and property damage associated with the use of matchbooks is reduced or eliminated as a result of this standard, the utility of matchbooks as a source of fire will be increased.

(3) The Commission estimates that manufacturing cost increases as a direct or indirect effect of this standard will be modest for the industry as a whole. Such increases will tend to be concentrated in one-time costs to complete change-over to reverse friction, and in costs to establish and implement testing programs and certification procedures.

(i) Because some 80–90 percent of the matchbooks produced annually are given free to consumers, there is not likely to be any direct cost impact on the consumer as a result of the standard. Some proportion of increased manufacturing costs will be passed on to the institutions and business enterprises that purchase matchbooks for promotional purposes. To the extent that increases in advertising and promotional costs may be reflected in higher prices for goods and services sold by these businesses, there may be indirect cost effects on consumers. If so, such impacts would likely be small, if not imperceptible.

(ii) For the 10–20 percent of matchbooks that are purchased at retail by consumers, some proportion of any manufacturing cost increases may be passed on to the consumer. A resulting increase in retail prices for such matchbooks will be small, no more than a few cents per box of 50 matchbooks.

(4) The Commission finds that the standard will not have impacts of significant magnitude on the availability of matchbooks. Although some institutions and business enterprises may reduce their matchbooks purchases or eliminate them in response to any increased price of matchbooks, the large number of such purchasers, and the large volume purchased annually, are such that curtailment of purchases by some businesses is likely to have very small effects on the total number of matchbooks available to U.S. consumers.

(d) *Alternatives.* (1) The Commission has considered other means of achieving the objective of the standard throughout the course of its development. Certain other more elaborate test requirements were considered and were shown to have the potential for severe adverse effects on competition and estimated to result in disruptions and dislocations of manufacturing and commercial practices. Therefore, having considered and rejected such other means of achieving the objective of the standard, the Commission has found none that would cause less disruption or dislocation of manufacturing and other commercial practices, consistent with the public health and safety than this standard.

(2) Because of competition from substitute products such as inexpensive disposable butane lighters and because of other prevailing business and economic conditions, the industry manufacturing matchbooks has been in a state of contraction in recent years. This contraction, marked by the exit of some firms and by plant closings or consolidations, is likely to continue in the future; but this will neither be the result of, nor significantly accelerated by, effects of the standard. Currently, aggressive price and service competition prevails among firms vying for customer accounts. It is anticipated that this competition for sales may increase as an indirect effect of the standard. To the extent that this occurs, there may be some disruption or dislocation of manufacturing, sales, or distribution practices in certain matchbook product categories and market segments. Marginal firms and firms producing limited product categories or for limited market segments may be affected to a greater degree than multi-product category or multi-market firms.

(e) *Conclusion.* The Commission finds that this standard, including its effective date, is reasonably necessary to eliminate or reduce the unreasonable risks of injury associated with matchbooks and that the issuance of the standard is in the public interest.

§ 1202.3 Definitions.

In addition to the definitions given in Section 3 of the Consumer Product Safety Act (15 U.S.C. 2052), the following definitions apply for the purpose of this standard.

(a) "Afterglow" means a visible glow in the splint after all the visible flame has been extinguished.

(b) "Bookmatch" means a single splint, with a matchhead attached, that comes from a matchbook.

(c) "Bridge" means the matchhead material held in common by two or more splints.

(d) "Broken bridge" means a bridge that has become separated.

(e) "Caddy" means a package of 2 or more matchbooks wrapped or boxed together at a production plant.

(f) "Comb" means a piece of wood, paper, or other suitable material that has been formed into splints, that remain joined at their base, and that are designed to have matchheads attached to their tips.

(g) "Cover" means the paperboard or other suitable material that is wrapped around and fastened to the comb(s).

(h) "Fragments" means particles of the matchhead or friction material that results from the ignition of a bookmatch on the friction surface and that measure more than 1.0 mm (.039 inch) in the maximum dimension or particles that leave scorch or burn marks on the detection paper when tested in accordance with § 1202.6.

(i) "Friction" means the dried chemical mixture on the matchbook cover used to ignite the bookmatch.

(j) "Match" means a single splint with matchhead attached.

(k) "Matchbook" means one or more combs with matchheads attached and a cover that is wrapped around and fastened to those combs.

(l) "Matchhead" means the dried chemical mixture on the end of a splint.

(m) "Splint" means the support for the matchhead or that portion normally held when using the bookmatch.

§ 1202.4 Matchbook general requirements.

A matchbook shall meet the following general requirements and shall be tested for these requirements as prescribed in § 1202.6(b):

(a) The friction shall be located on the outside back cover near the bottom of the matchbook.

(b) The cover shall remain closed without external force.

(c) No friction material shall be located on the inside of the cover where possible contact with the matchheads may occur during ordinary use.

(d) There shall be no bridge(s) or broken bridge(s).

(e) No matchhead in the matchbook shall be split, chipped, cracked, or crumbled.

(f) No portion of any matchhead shall be outside the matchbook cover when the cover is closed.

(g) No part of a staple or other assembly device for securing the cover and combs shall be within or touching the friction area.

(h) A staple used as an assembly device for securing the cover and combs shall be fully clinched so that the ends are flattened or turned into the cover.

§ 1202.5 Matchbook performance requirements.

A matchbook is defective and therefore does not meet the requirements of this standard if it has, when tested in accordance with § 1202.6, any of the following performance defects:

(a) Delayed ignition exceeding 2 seconds.

(b) A splint that separates into two or more pieces.

(c) A matchhead that produces fragments as defined in § 1202.3(h).

(d) A matchhead that falls off.

(e) Friction that burns or produces fragments as defined in § 1202.3(h).

(f) Afterglow exceeding 5 seconds or the reappearance of a visible flame after the first extinction of the original flame.

§ 1202.6 Test procedures for general and performance requirements.

(a) *Safety precautions.* (1) When striking the bookmatch, keep the matchbook cover closed to avoid possible ignition of the remaining test bookmatches. Perform test bookmatch ignitions in the collection box with the matchbook affixed in its holder. (See Figure 1 and § 1202.6(d)(1)(i)).

(2) After performance testing, place the used bookmatches in a disposal container. Safety glasses should be worn by the tester.

(b) *Inspection for general requirements.* Inspect the matchbooks under test for the general requirements listed in § 1202.4.

(c) *Conditioning.* (1) Before testing for performance requirements, precondition the specimen matchbooks at 49° ±2° C (120°±3.6° F) for 45 minutes in the circulating air oven in a manner that will permit free circulation of air through the combs of the matchbooks to be conditioned. Open the matchbook covers, separate each comb so that the matchheads have a minimum separation of 1.6 mm (1/16 in) and place the matchbooks in the oven so that air flow through the combs is allowed.

(2) After preconditioning and prior to testing, place the specimens in a conditioning room or chamber for a period of not less than 15 minutes at 23±2° C (73.4±3.6° F) and at a relative humidity within the range of 30–52 percent.

(3) Samples shall be tested within 10 minutes of removing from the conditioning chamber. If testing is to be performed in a conditioned room, as defined in § 1202.6(d)(1)(iv), the 10 minute time limitation does not apply.

(d) *Test for performance requirements.* These methods will test for the performance defects stated in § 1202.5:

(1) *Apparatus and materials*—(i) *Test device and fragment collection box.* A device shall be provided that is capable of indicating a force and of holding the matchbook above the base of the collection box. The device shall hold the matchbook with the long dimension of the friction in a vertical position to permit ignition of the bookmatch by striking in a path perpendicular to the base. The friction surface of the matchbook shall be perpendicular to the collection box front panel. The device shall be contained in a collection box with interior dimensions of 48.3 cm x 30.5 cm x 61 cm (19 in L x 12 in W x 24 in H±.4 in). (See Figure 1). This box is for the purpose of collecting fragmentation debris. The matchbook shall be centered between the four vertical sides of the box with the top of the matchbook 28.6±1 cm (11.3±.4 in) above the collection base. The collection box shall have a hinged access panel on the front vertical face to permit access to the collecting paper. The access panel shall have a handhole no larger than 12.7 cm x 12.7 cm (5 in x 5 in) to facilitate striking of matches. The side of the box toward the operator should be transparent to observe the loading and striking of the match.

(ii) *Fragment measuring instrument.* A device, such as an optical comparator with reticle, that is capable of measuring particle size of 1.0±.05 mm (0.039±0.002 in) shall be used.

(iii) *Preconditioning chamber.* A circulating air oven of adequate size to precondition the specimen matchbooks at 49°±2° C (120±3.6° F) shall be used.

(iv) *Conditioning room or chamber.* A conditioning room or chamber that can be controlled to a temperature of 23.0°± 2.0° C (73.4°±3.6° F) and a relative humidity within the range of 30–52 percent shall be used.

(v) *Collection sheet.* The fragment collection sheet of 7.26 kg (16 lb) white bond paper is placed on the base of the collection box and may be removed for examination for fragments and scorch marks.

(vi) *Timer.* A timing device with an accuracy of ±0.2 second shall be used.

(2) (i) *Procedures.* (A) Position the fragment collection sheet in the collection box on the base panel. Attach the force measuring and matchbook holding fixture within the box so that the matchbook friction surface is centered within 2.5 cm (1 in) of the four vertical sides of the box. Remove one randomly selected bookmatch from the matchbook. Place the matchbook in the holding fixture with the plane of the friction surface perpendicular to the collection sheet and the friction surface oriented for a vertical striking mode. Hold the splint's wide surface parallel to the striking direction and perpendicular to the friction surface. Press the matchhead against the strip 6.4 mm (¼ in) from the top of the friction pad with an initial force of 4.5–0+.04 N (1.0–0+.1 lbf). Strike the match with a rapid downward motion. The contact between the matchhead and the friction should be maintained for at least a distance of 1.3 cm (0.5 in), but should not exceed 3.8 cm (1.5 in) during the striking motion (see Figure 2). The striking force must not exceed 6.7 N (1.5 lbf) during the striking motion. The striking stroke should be terminated within 7.6 cm (3 in) after leaving the bottom edge of the friction.

(B) Strike the matchbook as in paragraph (d)(2)(i)(A) of this section and measure the time lapsed from the start of the striking motion to the appearance of a visible flame. Note any delayed ignition exceeding two seconds. Observe and note if the performance defect in § 1202.5(b) occurred.

(C) After the bookmatch has been struck, observe any burning of the friction and measure any debris on the collection sheet for fragments and note the presence of any scorch marks on the collection sheet.

(ii) *Afterglow test.* (A) Assure that the illumination in the area where the match is being struck does not exceed 0.3 ft-candles. Hold the bookmatch hozizontally in a clamping device with the wide dimension of the bookmatch in a vertical position. The clamping device shall be at least 1.3 cm (0.5 in) from the bottom of the matchhead. Ignite the test bookmatch and allow it to burn until the flame is extinguished. Measure the elapsed time from extinguishment until all afterglow disappears. Disregard any afterglow under the head. Observe and note any afterglow exceeding five seconds or any reappearance of a visible flame after first extinction of the visible flame.

(B) Observe and note if the performance defect in § 1202.5(d) occurred.

§ 1202.7 Certification.

Certification shall be in accordance with section 14(a)(1) of the Consumer Product Safety Act (15 U.S.C. 2063(a)(1)) and regulations issued under section 14.

§ 1202.8 Marking.

(a) The manufacturer's or private labeler's name and city or a symbol which will identify the name and city shall appear on the matchbook. In addition, every private labeler must label the matchbook with a code which enables it to identify, if requested, the manufacturer of the product.

(b) Boxes or cartons in which two or more caddies are shipped shall be marked "For safety, store in a cool, dry place."

§ 1202.9 Prohibited stockpiling.

Section 9(d)(2) of the CPSA authorizes the Commission to prohibit manufacturers and importers from stockpiling a product subject to a consumer product safety standard between its date of issuance and its effective date. A manufacturer or importer is in violation of § 9(d)(2) of the CPSA and of this § 1202.9 if it fails to comply with the following:

(a) *Definitions.* (1) "Base period" means, at the option of the manufacturer or importer concerned, any period of 365 consecutive days beginning on or after January 1, 1973, and ending on or before December 31, 1975.

(2) "Rate of production (or importation)" means the total number of matchbooks manufactured (or imported) during a stated time period. In determining whether a matchbook was manufactured during a stated time period, the date on which the cover and combs were assembled to form a matchbook shall be used. In the event that a manufacturer currently operates a matchbook manufacturing plant that it did not operate during the base period, or that it did not operate for an entire base period, that manufacturer shall use, as the rate of production during the base period for that plant, either (i) the average daily rate of production (including nonproduction days such as Sundays, holidays, and vacations) for the part of the base period he did operate that plant, multiplied by 365 or (ii) the rate of production during the base period of his most nearly similar matchbook manufacturing plant.

(b) *Prohibited act.* Manufacturers and importers of matchbooks, as these products are defined in § 1202.3(k), shall not manufacture or import matchbooks that do not comply with the requirements of this Part 1202 between the date that this Part 1202 is issued and the date that it becomes effective at a rate that is greater than the rate of production or importation during the base period plus 15 percent of that rate.

(c) *Documentation.* Manufacturers and importers shall maintain, for a period of six (6) months after the effective date specified in § 1202.1(b), appropriate documentation to be able to substantiate to the Commission that they are in compliance with the provisions of this section.

(Sec. 9(a), Pub. L. 92-573, 86 Stat. 1215; 15 U.S.C. 2058(a).)

Dated: April 28, 1977.

SADYE E. DUNN,
Secretary, Consumer Product Safety Commission.

PACIFIC FISHERY MANAGEMENT COUNCIL

Statement of Organization, Practices, and Procedures

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

PACIFIC FISHERY MANAGEMENT COUNCIL

Statement of Organization, Practices, and Procedures

Pursuant to section 302(f)(6) of the Fishery Conservation and Management Act of 1976 (Pub. L. 94-265), each Regional Fishery Management Council is responsible for determining its organization and prescribing its practices and procedures for carrying out its functions under the Act in accordance with such uniform standards as are prescribed by the Secretary of Commerce. Further, each Council must publish and make available to the public a statement of its organization, practices, and procedures. As required by the Act, the Pacific Fishery Management Council has prepared and is hereby publishing its Statement of Organization, Practices, and Procedures.

Dated: April 28, 1977.

WINFRED H. MEIBOHM,
Associate Director, National Marine Fisheries Service.

DEPARTMENT OF COMMERCE

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

PACIFIC FISHERY MANAGEMENT COUNCIL

STATEMENT OF ORGANIZATION, PRACTICES, AND PROCEDURES

The Pacific Fishery Management Council, created by section 302(a)(7) of the Fishery Conservation and Management Act of 1976 (Pub. L. 94-265), hereby publishes a Statement of Organization, Practices, and Procedures, as required by section 302(f)(6) of the Act. This Statement of Organization, Practices, and Procedures for carrying out the Council's functions under the Act, was adopted by the Council during its public meeting held on January 12-13, 1977 in San Diego, California. Copies may be obtained by writing the Executive Director, Pacific Fishery Management Council, 526 S.W. Mill Street, Portland, OR 97201.

PURPOSE

The Council shall:

A. Prepare and submit to the Secretary of Commerce a fishery management plan with respect to each fishery within its geographical area of authority and, from time to time, such amendments to each such plan as are necessary;

B. Prepare comments on any application for foreign fishing transmitted to it by the Secretary of State, and any fishery management plan or amendment transmitted to it by the Secretary of Commerce;

C. Conduct public hearings, at appropriate times and in appropriate locations in the geographic area concerned, so as to allow all interested persons an opportunity to be heard in the development of fishery management plans and amendments to such plans, and with respect to the administration and implementation of the provisions of this Act;

D. Submit to the Secretary of Commerce:

1. A report, before February 1 of each year, on the Council's activities during the immediately preceding calendar year,

2. Such periodic reports as the Council deems appropriate, and

3. Any other relevant report which may be requested by the Secretary of Commerce;

E. Review on a continuing basis, and revise as appropriate, the assessments and specifications made with respect to the optimum yield from, and the total allowable level of foreign fishing in, each fishery within its geographic area of authority; and

F. Conduct any other activities which are necessary and appropriate to the foregoing functions.

COUNCIL COMPOSITION

The Pacific Fishery Management Council shall consist of representatives of the States of California, Oregon, Washington, and Idaho, and shall have authority over the fisheries in the Pacific Ocean seaward of such coastal states. The Pacific Council shall have 13 voting members, including 8 appointed by the Secretary, at least one of whom shall be appointed from each such state.

The voting members of the Council shall be:

A. The principal state official with marine fishery management responsibility in the States of Washington, Oregon, Idaho, and California, or the designee of such official;

B. The Regional Director of the Northwest Region of the National Marine Fisheries Service, or his designee; and

C. Eight appointed members from the states represented on the Council.

The non-voting members of the Council shall be:

A. The Regional Director of the U.S. Fish and Wildlife Service Northwest Region, or his designee;

B. The Commander, Pacific Area of the U.S. Coast Guard, or his designee;

C. The Executive Director of the Pacific Marine Fisheries Commission, or his designee;

D. A representative of the U.S. Department of State, or his designee;

E. A representative of the State of Alaska.

OFFICERS AND TERMS OF OFFICE

The Council officers shall be a Chairman and a Vice-Chairman, with a term of office of one year each.

STAFF

A. Composition: The staff of the Council shall comprise an Executive Director, Administration Officer, Executive Secretary, and such other staff as are necessary to carry out Council activities.

B. Function: The staff is responsible for administration and execution of Council operations. Functions include budget preparation, financial management, procurement, coordination of planning efforts, liaison between Council committees or advisory panels and fishery planning teams, maintenance of Council records, correspondence, preparation of required Council reports, and other administrative activities.

C. Employment Practices: The Council is an equal opportunity employer in full compliance with all requirements of the nondiscrimination clause attached to this Statement. Council staff positions are filled solely on the basis of merit, fitness, competence, and qualifications.

1. In setting rates of pay for Council staff, the principle of equal pay for substantially equal work shall be followed. Variations in basic rates of pay should be in proportion to substantial differences in the difficulty and responsibilities of the work performed.

2. Employees of the Council shall be granted paid leave for holidays, vacations or exigencies, sickness, and civic duties (jury, military reserve obligations) as determined by the Council. Paid annual leave shall not exceed 20 days per year, and sick leave shall not exceed 13 days per year.

3. The Council shall provide its employees the opportunity to participate in group medical insurance, life insurance, and retirement plans and pay a reasonable proportion of the cost of such plans.

4. The Councils are responsible for maintaining high standards of ethical conduct among themselves and their staffs. These standards include the following principles:

a. No employee of the Council shall use his or her official authority or influence derived from his or her position with the Council for the purpose of influencing or affecting the result of an election to or a nomination for any national, state, county, or municipal elective office.

b. No employee of the Council shall be deprived of employment, position, work, compensation, or benefit provided for or made possible by the Act on account of any political activity or lack of such activity in support of or in opposition to any candidate or any political party in any national, state, county, or municipal election or on account of his or her political affiliation.

c. No Council member or employee shall pay, or offer, or promise, or solicit, or receive from any person, firm, or corporation, either as a political contribution or a personal emolument any money, or anything of value in consideration of either support, or the use of influence, or the promise of support, or influence in obtaining for any person, any appointive office, place or employment under the Council.

d. No employee of the Council shall have a direct or indirect financial interest that conflicts with the fair and impartial conduct of his or her Council duties.

e. No Council member or employee of the Council shall use or allow the use of, for other than official purposes, information obtained through or in connection with his or her Council employment which has not been made available to the general public.

f. No Council member or employee of the Council shall engage in criminal, infamous, dishonest, notoriously immoral, or disgraceful conduct prejudicial to the Council.

No Council member or employee of the Council shall use Council property on other than official business. Such property shall be protected and preserved from improper or deleterious operation or use.

STANDING COMMITTEES OF COUNCIL MEMBERS

The Pacific Council has no standing committees of Council members. In the event such a committee is established in the future, the Council shall file an amendment to this Statement with the required information.

MEETINGS

A. Frequency: The Council shall meet as often as is necessary to discharge its duties, but shall meet at least once in each quarter of the fiscal year.

B. Duration: Council meetings shall vary in duration, except that every meeting shall last at least one full day.

C. Location: Council meetings shall occur throughout the area of concern of the Council. Criteria for selection of meeting locations shall include ease of transportation for both Council members and the public. The Council shall endeavor to meet in the area in which persons reside who might be immediately affected by actions taken by the Council at that particular meeting.

D. Agenda or Orders of Business: Notice of Council meetings with agenda will be published in the FEDERAL REGISTER at least 20 days prior to the meeting. The Council will also issue Press Releases and use other media

to announce time, location, and agenda for each meeting.

E. Minutes: Detailed minutes will be kept of all Council meetings. Summary minutes will be prepared for all open portions of Council meetings and will be made available to the public through both public and private groups and organizations; for example, Sea Grant institutions, Marine Advisory Program Offices of Sea Grant, environmental groups, trade associations, and libraries.

F. General Rules of Procedure: Councils will meet at the call of the Chairman or upon request of a majority of the voting members. Meetings shall be conducted in a manner to permit the greatest possible participation by all members of the Council and the public. Decisions by concensus are permitted except where the issue is Council approval or amendment of a Fishery Management Plan (including any proposed regulations), or comments for the Secretary on foreign fishing applications or Secretarially-prepared management plans. In these cases, a vote is required.

1. A majority of the voting members of any Council shall constitute a quorum for Council meetings, but one or more such members designated by the Council may hold hearings.

2. When there is a vote, the majority of the voting members present and voting shall rule. The use of proxy is not permitted.

3. The Council shall conduct all meetings and hearings within its geographic area of concern, except when interregional resources are concerned.

4. Voting members of the Council who dissent on any issue to be submitted to the Secretary are permitted to submit a statement of their reasons for dissent to the Secretary.

G. Authority of the Chair: The Chairman, or in his absence the Vice-Chairman, shall convene and preside over Council meetings. The Chairman may designate Council members to serve on such subcommittees of Council members as are established. The Chairman may also designate Council members to officiate at public hearings. The Chairman will retain full voting rights.

HEARINGS

The Council shall hold public hearings in order to provide the opportunity for all interested persons to be heard in the development of Fishery Management Plans, amendments thereto, and with respect to the administration and implementation of the Act. The Council may use its judgment regarding when and where such hearings should be held, provided they are held in the particular geographic area concerned.

A. Conduct: When it is determined that a hearing is appropriate, the Chairman of the Council will designate at least one voting member of the Council to officiate. Conduct of the hearing, beyond the stipulation that all points of view be given a chance for expression, is within the discretion of the hearing official under whatever instructions the Council may wish to provide.

B. Notice of hearings will be published in the FEDERAL REGISTER at least 20 days prior to the hearing. Advance notice also should be given in the local media where the hearing is to take place. Publicity should be sufficient to assure that all interested parties are aware of the opportunity to make their views known.

C. Record: An accurate record of the participants and their views, obtained by use of either a court reporter or detailed minutes, must be reported back to the Council and maintained as a part of the Council's official records.

SCIENTIFIC AND STATISTICAL COMMITTEE

The Pacific Council shall have a Scientific and Statistical Committee made up of scientists of national reputation from State and Federal agencies, academic institutions, and other sources. Members shall represent a wide range of disciplines required for preparation and review of management plans. The Committee shall meet at the call of the Council or with the approval of the Chairman. The Committee shall:

A. Identify scientific resources required for the development of management plans and recommend and/or designate resources for management plan teams.

B. Provide a multidisciplinary, blue-ribbon committee to review alternative management plans and advise the Council on their scientific content.

C. Assist the Council in the development, collection, and evaluation of such statistical, biological, economic, social, and other scientific information as is relevant to the Council's activities.

ADVISORY PANELS

The Pacific Council shall establish and select the members of an advisory panel for each fishery management unit for which a plan will be developed. Advisory panels are accountable to and report to the Council, and shall meet with the approval of the Council Chairman.

Advisory panels shall have representation from the several groups and interests concerned with management of the fishery resources in the area of the Pacific Council. The functions of panels shall be to advise the Council as to fishery management problems, to provide inputs to fishery management planning efforts, to advise the Council on the content and effects of management plans, and, through the Executive Director, to advise the Scientific and Statistical Committee as to potential participants on fishery management planning teams.

ORGANIZATION OF MANAGEMENT PLAN DEVELOPMENT TEAMS

A. Organization: Management plan development teams shall be working teams of State, Federal, and nongovernment specialists. A planning team shall be established for each management unit which will be the subject of a planning effort. The planning teams will report to the Council through the Executive Director.

B. Practices and Procedures: Planning teams will be established by the Council. The Scientific and Statistical Committee will recommend to the Council persons who should serve or agencies which should be represented on each planning team. Each team shall have a team leader or chairman. The team will meet or consult as needed with the appropriate advisory panel and the Scientific and Statistical Committee, with coordination being provided by the Executive Director. The Council will be informed of progress periodically. The team shall develop draft fishery management plans (FMP) considering all management alternatives and shall thoroughly evaluate the effects of such alternatives in terms of objectives or criteria determined by the Council. The planning team shall conduct its planning and evaluation effort in such a way as to satisfy the Fishery Conservation and Management Act requirements as well as National Environmental Policy Act (NEPA) requirements. Concurrently, each team shall prepare a draft environmental impact statement (DEIS). On completion of each DEIS/FMP, they will be transmitted to the Council through the Executive Director. Copies will be transmitted to the Scientific and Statistical Committee and the appropriate advisory panel for review and comment. Comments will be made to the Council. The Council will evaluate these comments and, if necessary, refer the DEIS/FMP back to the planning team for further work. The revised DEIS/FMP will be submitted to the Council. When the Council is satisfied with the DEIS/FMP, it will transmit the DEIS/FMP through the National Marine Fisheries Service (NMFS) Regional Director to the Department of Commerce so that a notice of availability may be published according to NEPA requirements. Following notification of the publishing of the notice of availability of the DEIS, the Council shall sponsor public hearings to solicit inputs and comments from those groups or individuals who might be affected by future regulatory action. Prior to holding public hearings on the DEIS/FMP, the Council will distribute copies widely so that all interests have an opportunity to review and consider the proposed action. After consideration of public comments, the planning team shall make such revision of the DEIS/FMP as the Council deems necessary and may draft proposed regulations. Upon final adoption of the fishery management plan, the Council shall transmit the final EIS/FMP through the NMFS Regional Director to the Secretary of Commerce for final approval and promulgation of implementing regulations. If the Council determines that emergency actions are needed, this procedure may be modified accordingly. Public hearings may be held prior to promulgation of regulations to implement a plan. Additional hearings may be held as deemed necessary during the development of fishery management plans.

BALANCE AMONG CRITERIA

A. Financial Responsibility: The organization structure of the Council clearly relates the decision making responsibility of the Council; the advisory nature of planning teams, advisory panels, and the Scientific and Statistical Committee; and the coordination responsibilities of the Executive Director.

B. Administrative Simplicity: The organization of the major units of the Council is along major functional lines, with clear lines of authority between and within individual units.

C. Flexibility: There is sufficient flexibility in the structure to allow for variations within separate units to accommodate changes in priorities or conditions. Separate fishery-related advisory panels are deemed more desirable than a single, multifishery advisory panel because the former can be established and terminated in accordance with shifts in priorities and representation can be more selective.

D. Independence and Relevance of Science: The Scientific and Statistical Committee is a separate unit in the Council's organizational structure, and Committee members have been selected on the basis of scientific expertise in several disciplines. This will assure that the Council receives independent and objective scientific advice on alternative management plans and consequences of these plans. Further, management planning teams will comprise representatives of diverse disciplines and interests, and these teams will present plan alternatives and evaluation for Council considerations. In this manner, planning teams will not make judgments as to whether a particular plan is "right" or "wrong", and evaluations should be complete and objective.

E. Quality of Scientific and Technical Information: The Council has insured the integrity and independence of science through the organizational structure chosen. Selection of individuals to serve on the Scientific and Statistical Committee and the planning teams will be based on expertise and skills, thus assuring that the Council will receive high quality information.

F. Minimum Cost: The organizational structure of the Council is the most cost-effective means to carry out its functions. Fishery planning teams and advisory panels are temporary units which will function until a plan for the specific fishery has been developed and implemented. This approach provides resources for the planning effort without creating large and permanent planning teams or advisory panels. Resources can be assigned in accordance with shifts in priorities. Specialized resources can be obtained readily when necessary rather than being permanently retained at high cost.

FINANCIAL MANAGEMENT SYSTEM

Office of Management and Budget Circular No. A-110 provides uniform administrative requirements applicable to the Pacific Fishery Management Council, including standards for financial management, financial reporting, property management, and procurement. The Council will operate in full compliance with these standards.

A. Procurement/Property Management System: Management of this system will be a direct responsibility of the Staff Administrative Officer.

1. Contracts: Negotiated and advertised contracts will be administered under the same principles of equality and integrity outlined under the section "Employment Practices," and will generally follow the specifications normally characteristic of contracts with public entities (e.g., public announcement, emphasis on competition, change orders, etc.).

2. Purchases: Commodities and services will be procured by means of a document-oriented system, with a receipt, check, or purchase order type document maintained on all transactions. Typical suspense systems will be maintained for any partial and undelivered procurements. Equipment and supplies available in the General Services Administration will usually be given primary consideration, except where cost-effectiveness and efficiency dictate otherwise. A petty cash fund for over-the-counter purchases will be maintained as necessary in the Council Staff office.

3. Property: An accountability system of all durable or capitalized personal property will be maintained by means of an inventory system.

4. Real Property: The leasing, renting, and acquisition of real property and space will be effected in a manner consistent with customary practices related to contracts with public entities. Real property files will be maintained on all transactions, including litigation, connected therewith.

B. Fiscal Management System: The finance and budget control systems will be maintained in compliance with all Department of Commerce requirements, pursuant to the Act, Treasury Department (IRS) regulations, as well as any applicable local requirements (state, municipal, etc.).

1. Financial control will be effected by means of a basic document-oriented accrual accounting system, which will include provisions for at least the following: Direct labor (salary), indirect labor (employer contributions for FICA, life and health insurance, retirement, and unemployment taxes), travel expenses (transportation and subsistence), transportation of things, rent, and utilities, taxes (nonemployment), printing, communications, supplies, equipment, contracts, and any appropriate contra-accounts (depreciation, contract accruals, etc.)

2. As a minimum, a Cash Receipts and Disbursements Journal will be maintained and will be used to prepare periodic reports for review by the Executive Director, the Council, or Department of Commerce representatives. A complete financial status report will be completed on a monthly basis. The financial management system will be coordinated with the budget process so that current and projected fund usage can be determined at any time.

3. A separate payroll register, indicating all applicable expenses, will be maintained on each member of the Council and the Council staff.

4. All financial records will be kept until audited and/or approved for disposal by the appropriate Department of Commerce representative.

5. Specific details related to implementing the above will, in general, correspond to the NMFS 1976 model accounting system for Regional Councils.

RELATIONSHIP TO UNIFORM STANDARDS FOR COUNCIL ORGANIZATION

This Statement of Organization, Practices, and Procedures is intended to carry out and be in compliance with the requirement of the Interim Regulations published in the FEDERAL REGISTER on September 15, 1976, as Volume 41, No. 180, pages 39436-39445.

ATTACHMENT

NON-DISCRIMINATION CLAUSE

(a) The Pacific Fishery Management Council (the "Council" hereinafter) will not participate directly or indirectly (through contractual or other arrangements)

(1) in excluding any person in the United States, on the ground of race, color or national origin, from participating in, in denying the benefits of, or otherwise subjecting to discrimination under, the program to which this clause applies.

(2) in any act or course of conduct which on the ground of race, color or national origin:

(i) Denies to a person any service, financial aid, or other benefit provided under the program;

(ii) Provides any service, financial aid, or other benefit, to a person which is different, or is provided in a different manner, from that provided to others under the program;

(iii) Subjects a person to segregation or separate treatment in any matter related to his receipt of any such service, financial aid, property, or other benefit under the program;

(iv) Restricts the person in any way in the enjoyment of services, facilities, or any other advantage, privilege, property, or benefit provided to others under the program;

(v) Treats a person differently from others in determining whether he satisfies any admission, enrollment, quota, eligibility, membership, or other requirement or condition which persons must meet in order to be provided any service, financial aid, or other benefit provided under the program;

(vi) Denies a person an opportunity to participate in the program through the provision of property or services or otherwise, or affords him an opportunity to do so which is different from that afforded others under the program; and

(vii) Denies to the person the same opportunity or consideration given others to be selected or retained or otherwise to participate as a contractor or subcontractor when a program is applicable thereto.

(3) in utilizing criteria or methods of administration in determining the types of services, financial aid, or other benefits, or facilities which will be provided or the class of persons to whom, or the situations in which, such services, financial aid, other benefits, or facilities will be provided, or the class of persons to be afforded an opportunity to participate in, the program to which this clause applies, which have the effect of subjecting persons to discrimination because of their race, color, or national origin, or have the effect of defeating or substantially impairing accomplishment of the objectives of the program as respect any persons of a particular race, color, or national origin.

(b) The Council agrees to secure the compliance or to cooperate actively with the Department of Commerce to secure the compliance by others with this non-discrimination clause. In the event that the Council becomes involved in litigation with a noncomplying party as a result of such action, the Council may request the Department to enter into such litigation to protect the interests of the United States.

(c) The Council shall not take action that is calculated to bring about indirectly what this clause forbids it to accomplish directly.

(d) The Council gives the United States a right to seek Judicial enforcement of the provisions under this clause.

(e) This clause shall be in effect for the duration of the period during which Federal financial assistance is extended to the Council.

(f) The Council will include the provisions of paragraphs 1 through 4 in every subgrant, contract, subcontract or lease so that such provisions will be binding upon such subgrantee, contractor, subcontractor or lessee directly or indirectly receives reimbursement or payment from the Federal financial assistance provided under this specific program or non-Federal funds, property, facilities, or other resources provided to meet the conditions under which such Federal financial assistance will be received, but this requirement excludes contracts, subcontracts, or leases (including purchase orders) for commercial equipment, supplies or services (including utilities), the price for which is based on established catalog or market prices for such items or services sold in substantial quantities to the general public or is set by law or regulation.

(g) In addition to the explicit and implicit statements in this section affecting discrimination for reasons of race, creed or national origin, discrimination against persons for reasons of sex are prohibited.

PART IV

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of the Secretary

■

NONDISCRIMINATION ON BASIS OF HANDICAP

Programs and Activities Receiving or Benefiting from Federal Financial Assistance

Title 45—Public Welfare

SUBTITLE A—DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE, GENERAL ADMINISTRATION

PART 84—NONDISCRIMINATION ON THE BASIS OF HANDICAP IN PROGRAMS AND ACTIVITIES RECEIVING OR BENEFITING FROM FEDERAL FINANCIAL ASSISTANCE

AGENCY: Department of Health, Education, and Welfare.

ACTION: Final rule.

SUMMARY: This regulation implements section 504 of the Rehabilitation Act of 1973, 29 U.S.C. 706, with regard to federal financial assistance administered by the Department of Health, Education, and Welfare. Section 504 provides that "no otherwise qualified handicapped individual * * * shall, solely by reason of his handicap, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance." The regulation, which applies to all recipients of federal assistance from HEW, is intended to ensure that their federally assisted programs and activities are operated without discrimination on the basis of handicap. The regulation defines and forbids acts of discrimination against qualified handicapped persons in employment and in the operation of programs and activities receiving assistance from the Department. As employers, recipients must make reasonable accommodation to the handicaps of applicants and employees unless the accommodation would cause the employer undue hardship. As providers of services, recipients are required to make programs operated in existing facilities accessible to handicapped persons, to ensure that new facilities are constructed so as to be readily accessible to handicapped persons, and to operate their programs in a nondiscriminatory manner.

EFFECTIVE DATE: June 3, 1977.

John Wodatch, Director, Office of New Programs, Office for Civil Rights, Department of Health, Education, and Welfare, Washington, D.C. 20201, 202–245–1821.

SUPPLEMENTARY INFORMATION:

BACKGROUND

As part of the Rehabilitation Act of 1973 (Public Law 93–112) Congress enacted section 504, which provides that "no otherwise qualified handicapped individual in the United States, as defined in section 7(6), shall, solely by reason of his handicap, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financal assistance." In the same statute, Congress defined the term "handicapped individual" solely with relationship to employment; section 7(6) of the 1973 Act defined the term "handicapped individual" as "any individual who (a) has a physical or mental disability which for such individual constitutes or results in substantial handicap to employment and (b) can reasonably be expected to benefit in terms of employability from vocational rehabilitation services * * *." However, the following year, in section 111(a) of the Rehabilitation Act Amendments of 1974 (Public Law 93–516), Congress amended the definition of "handicapped individual" for purposes of section 504 and the other provisions of titles IV and V of the Rehabilitation Act so that the definition is no longer limited to the dimension of employability. For purposes of section 504 of the Act, a "handicapped individual" is defined as "any person who (A) has a physical or mental impairment which substantially limits one or more of such person's major life activities, (B) has a record of such an impairment, or (C) is regarded as having such an impairment." With this amended definition, it became clear that section 504 was intended to forbid discrimination against all handicapped individuals, regardless of their need for or ability to benefit from vocational rehabilitation services.

Section 504 thus represents the first Federal civil rights law protecting the rights of handicapped persons and reflects a national commitment to end discrimination on the basis of handicap. The language of section 504 is almost identical to the comparable nondiscrimination provisions of title VI of the Civil Rights Act of 1964 and title IX of the Education Amendments of 1972 (applying to racial discrimination and to discrimination in education on the basis of sex). It establishes a mandate to end discrimination and to bring handicapped persons into the mainstream of American life. The Secretary intends vigorously to implement and enforce that mandate.

THE PROBLEM OF DISCRIMINATION

From the outset, the Department has recognized that the problem of ending discrimination on the basis of handicap presents considerations that are extremely complex. The diversity of types of handicaps, as well as the wide variety of settings in which programs financed by the Department are offered, make the task of prescribing general rules of nondiscriminatory treatment a difficult one.

There is overwhelming evidence that in the past many handicapped persons have been excluded from programs entirely or denied equal treatment, simply because they are handicapped. But eliminating such gross exclusions and denials of equal treatment is not sufficient to assure genuine equal opportunity. In drafting a regulation to prohibit exclusion and discrimination, it became clear that different or special treatment of handicapped persons, because of their handicaps, may be necessary in a number of contexts in order to ensure equal opportunity. Thus, for example, it is meaningless to "admit" a handicapped person in a wheelchair to a program if the program is offered only on the third floor of a walk-up building. Nor is one providing equal educational opportunity to a deaf child by admitting him or her to a classroom but providing no means for the child to understand the teacher or receive instruction.

These problems have been compounded by the fact that ending discriminatory practices and providing equal access to programs may involve major burdens on some recipients. Those burdens and costs, to be sure, provide no basis for exemption from section 504 or this regulation: Congress' mandate to end discrimination is clear. But it is also clear that factors of burden and cost had to be taken into account in the regulation in prescribing the actions necessary to end discrimination and to bring handicapped persons into full participation in federally financed programs and activities.

The very general language of section 504 itself and the scant legislative history surrounding its enactment provide little guidance as to how these complex issues should be resolved. The rulemaking process in which the Department has engaged has, however, provided a basis for an initial resolution of those issues. The Secretary believes the resulting regulation offers genuine promise of providing an effective and workable program for ending discrimination against handicapped persons.

RULEMAKING HISTORY

On May 17, 1976, the Department published a Notice of Intent to Issue Proposed Rules, seeking public comment on fifteen identified critical issues. 41 FR 20296. A draft proposed rule was attached to the Notice of Intent, as was a statement of the estimated economic and inflationary impact of the draft proposal, prepared in accordance with the requirements of Executive Order 11821.

Over three hundred written comments were received in response to the Notice of Intent. The written comments were supplemented by a series of ten meetings conducted by the Office for Civil Rights at various locations across the country.

On July 16, 1976, the Department published a Notice of Proposed Rulemaking analyzing comments received on the critical issues identified in the Notice of Intent and setting forth a revised proposed regulation for public comment. 41 FR 29548. The initial 60-day comment period was extended in response to numerous requests until October 14, 1976. Additional comments received since that date have also been considered to the extent feasible. A total of more than 700 comments were received in response to the July 16 Notice of Proposed Rulemaking; they have been analyzed along with approximately 150 comments sent in response to May 17 Notice that were received too late to be analyzed during the first comment period. Finally, an additional twenty-two public meetings were held after publication of the July 16 Notice, again designed to inform interested persons and organizations of the proposed regulation and to solicit their comments and recommendations. Transcripts of all these meetings were made and analyzed along with the writ-

ten comments. Copies of these transcripts, as well as the written comments, are available for public inspection in Room 5400, 330 Independence Avenue, S.W., Washington, D.C. 20201.

The Secretary believes that both the written comments and the views expressed at the public meetings have illuminated the complex issues involved in implementing section 504 in an effective and workable fashion. The Secretary's response to the comments of interested parties, and the explanation for changes in the proposed regulation, are set forth in the section-by-section analysis of each subpart of the regulation, which appears as Appendix A to the regulation. As that analysis explains, a number of provisions in the proposed regulation have been eliminated as duplicative or unnecessary; others have been shortened or clarified. The goal throughout has been to design a regulation that preserves the essential elements of a strong and effective program for ending discrimination, while avoiding the imposition of unnecessary or counterproductive administrative obligations on recipients.

Overview of Regulation

The regulation is divided into seven subparts. Subpart A (General Provisions) defines the important terms that are used throughout the regulation and states in general terms the discriminatory acts that are prohibited. It also sets forth what the Secretary believes is a simple, workable system of administration: assurances of compliance, self-evaluation by recipients, establishment of grievance procedures, and notification of employes and beneficiaries of the recipient's policy of nondiscrimination on the basis of handicap. The regulation covers all types of physical and mental impairments, including drug addition and alcoholism.

Subpart B, dealing with employment practices, bars discrimination by recipients of HEW assistance in recruitment, hiring, compensation, job assignment and classification, and fringe benefits. It also requires employers to make reasonable accommodation to qualified handicapped applicants or employees unless it can be demonstrated that the accommodation would impose an undue hardship on the employer.

Subpart C sets forth the central requirement of the regulation—program accessibility. All new facilities are required to be constructed so as to be readily accessible to and usable by handicapped persons. Every existing facility need not be made physically accessible, but all recipients must ensure that programs conducted in those facilities are made accessible. While flexibility is allowed in choosing methods that in fact make programs in existing facilities accessible, structural changes in such facilities must be undertaken if no other means of assuring program accessibility is available.

Subparts A, B, and C of the regulation, as well as subpart G—which incorporates by reference the Department's procedures under title VI of the Civil Rights Act of 1964—apply to all recipients of financial assistance from the Department. The remaining subparts of the regulation contain more specific requirements applicable to three major classes of recipients.

Subpart D is concerned with preschool, elementary, and secondary education. Its provisions have been closely coordinated with those of the Education for All Handicapped Children Act of 1975 (Pub. L. 94–142). They require, basically, that recipients operating public education programs provide a free appropriate education to each qualified handicapped child in the most normal setting appropriate. The regulation also sets forth evaluation requirements designed to ensure the proper classification and placement of handicapped children, and due process procedures for resolving disputes over placement of students. While the Department does not intend to review individual placement decisions, it does intend to ensure that testing and evaluation procedures required by the regulation are carried out, and that school systems provide an adequate opportunity for parents to challenge and seek review of these critical decisions. And the Department will place a high priority on pursuing cases in which a pattern or practice of discriminatory placements may be involved.

Subpart E deals with postsecondary education. It proscribes discrimination against handicapped persons in recruitment, admission and treatment after admission. Colleges and universities are required to make reasonable adjustments to permit handicapped persons to fulfill academic requirements, and to ensure that they are not effectively excluded from programs because of the absence of auxiliary aids. Groups of colleges may not establish consortia exclusively for handicapped students.

Finally, Subpart F deals with health, welfare and other social service programs. It forbids discrimination in providing such services and requires larger recipients to provide auxiliary aids to handicapped individuals where necessary. Specific provisions require hospitals not to discriminate against addicts or alcoholics who need medical services and to establish emergency room procedures for communication with persons with impaired hearing. Under Subpart C, health and social service providers may satisfy their program accessibility obligations with respect to existing facilities by arranging to meet beneficiaries in accessible locations. In addition, small providers may refer patients or other beneficiaries to accessible providers as a "last resort" alternative to making significant structural changes.

Executive Order 11914

Under Executive Order 11914 (41 FR 17871, April 28, 1976), the Department is required to issue general standards for other departments and agencies of the Federal government to follow in promulgating regulations implementing Section 504. This responsibility will be fulfilled promptly and independently from this regulation. The Department does, however, expect to incorporate the definition of handicapped person adopted in § 84.3 (j) of this regulation in the standards for determining what persons are covered by the Act. The Secretary also anticipates that the relevant provisions of Subparts A, B and C of the regulation will be the basis for guidelines, pursuant to the Executive Order, as to what are discriminatory practices.

Economic Impact

The Department has previously certified, in issuing the Notice of Intent and the Notice of Proposed Rulemaking, that the economic and inflationary impact of the proposed regulation had been carefully evaluated in accordance with OMB Circular A–107. That analysis, which was printed at 41 FR 20312 (May 17, 1976), has been revised and updated, and is available on request.

Section-by-Section Analysis of Regulation

Appended to the final regulation is a section-by-section analysis of the regulation, which describes the basis and purpose of each section, discusses significant comments, and explains the basis for any changes made from the proposed regulation published in July 1976.

In consideration of the foregoing, Part 84, to read as set forth below, is hereby ordered to be added to Title 45 of the Code of Federal Regulations.

Dated: April 28, 1977.

JOSEPH A. CALIFANO, Jr.,
Secretary, Department of Health, Education, and Welfare.

Subpart A—General Provisions

Sec.
84.1 Purpose.
84.2 Application.
84.3 Definitions.
84.4 Discrimination prohibited.

APPENDIX A—ANALYSIS OF FINAL REGULATION

AUTHORITY: Sec. 504, Rehabilitation Act of 1973, Pub. L. 93-112, 87 Stat. 394 (29 U.S.C. 794); sec. 111(a), Rehabilitation Act Amendments of 1974, Pub. L. 93-516, 88 Stat. 1619 (29 U.S.C. 706); sec. 606, Education of the Handicapped Act (20 U.S.C. 1405), as amended by Pub. L. 94-142, 89 Stat 795; sec. 321, Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment, and Rehabilitation Act of 1970, 84 Stat. 182 (42 U.S.C. 4581), as amended; sec. 407, Drug Abuse Office and Treatment Act of 1972, 86 Stat. 78 (21 U.S.C. 1174), as amended.

Subpart A—General Provisions

§ 84.1 Purpose.

The purpose of this part is to effectuate section 504 of the Rehabilitation Act of 1973, which is designed to eliminate discrimination on the basis of handicap in any program or activity receiving Federal financial assistance.

§ 84.2 Application.

This part applies to each recipient of Federal financial assistance from the Department of Health, Education, and Welfare and to each program or activity that receives or benefits from such assistance.

§ 84.3 Definitions.

As used in this part, the term:

(a) "The Act" means the Rehabilitation Act of 1973, Pub. L. 93-112, as amended by the Rehabilitation Act Amendments of 1974, Public Law 93-516, 29 U.S.C. 794.

(b) "Section 504" means section 504 of the Act.

(c) "Education of the Handicapped Act" means that statute as amended by the Education for all Handicapped Children Act of 1975, Pub. L. 94-142, 20 U.S.C. 1401 et seq.

(d) "Department" means the Department of Health, Education, and Welfare.

(e) "Director" means the Director of the Office for Civil Rights of the Department.

(f) "Recipient" means any state or its political subdivision, any instrumentality of a state or its political subdivision, any public or private agency, institution, organization, or other entity, or any person to which Federal financial assistance is extended directly or through another recipient, including any successor, assignee, or transferee of a recipient, but excluding the ultimate beneficiary of the assistance.

(g) "Applicant for assistance" means one who submits an application, request, or plan required to be approved by a Department official or by a recipient as a condition to becoming a recipient.

(h) "Federal financial assistance" means any grant, loan, contract (other than a procurement contract or a contract of insurance or guaranty), or any other arrangement by which the Department provides or otherwise makes available assistance in the form of:

(1) Funds;

(2) Services of Federal personnel; or

(3) Real and personal property or any interest in or use of such property, including:

(i) Transfers or leases of such property for less than fair market value or for reduced consideration; and

(ii) Proceeds from a subsequent transfer or lease of such property if the Federal share of its fair market value is not returned to the Federal Government.

(i) "Facility" means all or any portion of buildings, structures, equipment, roads, walks, parking lots, or other real or personal property or interest in such property.

(j) "Handicapped person." (1) "Handicapped persons" means any person who (i) has a physical or mental impairment which substantially limits one or more major life activities, (ii) has a record of such an impairment, or (iii) is regarded as having such an impairment.

(2) As used in paragraph (j)(1) of this section, the phrase:

(i) "Physical or mental impairment" means (A) any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one or more of the following body systems: neurological; musculoskeletal; special sense organs; respiratory, including speech organs; cardiovascular; reproductive, digestive; genito-urinary; hemic and lymphatic; skin; and endocrine; or (B) any mental or psychological disorder, such as mental retardation, organic brain syndrome, emotional or mental illness, and specific learning disabilities.

(ii) "Major life activities" means functions such as caring for one's self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, and working.

(iii) "Has a record of such an impairment" means has a history of, or has been misclassified as having, a mental or physical impairment that substantially limits one or more major life activities.

(iv) "Is regarded as having an impairment" means (A) has a physical or mental impairment that does not substantially limit major life activities but that is treated by a recipient as constituting such a limitation; (B) has a physical or mental impairment that substantially limits major life acitivities only as a result of the attitudes of others toward such impairment; or (C) has none of the impairments defined in paragraph (j)(2)(i) of this section but is treated by a recipient as having such an impairment.

(k) "Qualified handicapped person" means:

(1) With respect to employment, a handicapped person who, with reasonable accommodation, can perform the essential functions of the job in question;

(2) With respect to public preschool elementary, secondary, or adult educational services, a handicapped person (i) of an age during which nonhandicapped persons are provided such services, (ii) of any age during which it is mandatory under state law to provide such services to handicapped persons, or (iii) to whom a state is required to provide a free appropriate public education under § 612 of the Education of the Handicapped Act; and

(3) With respect to postsecondary and vocational education services, a handicapped person who meets the academic and technical standards requisite to admission or participation in the recipient's education program or activity;

(4) With respect to other services, a handicapped person who meets the essential eligibility requirements for the receipt of such services.

(l) "Handicap" means any condition or characteristic that renders a person a handicapped person as defined in paragraph (j) of this section.

§ 84.4 Discrimination prohibited.

(a) *General.* No qualified handicapped person shall, on the basis of handicap, be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination under any program or activity which receives or benefits from Federal financial assistance.

(b) *Discriminatory actions prohibited.* (1) A recipient, in providing any aid, benefit, or service, may not, directly or through contractual, licensing, or other arrangements, on the basis of handicap:

(i) Deny a qualified handicapped person the opportunity to participate in or benefit from the aid, benefit, or service;

(ii) Afford a qualified handicapped person an opportunity to participate in or benefit from the aid, benefit, or service that is not equal to that afforded others;

(iii) Provide a qualified handicapped person with an aid, benefit, or service that is not as effective as that provided to others;

(iv) Provide different or separate aid, benefits, or services to handicapped persons or to any class of handicapped persons unless such action is necessary to provide qualified handicapped persons with aid, benefits, or services that are as effective as those provided to others;

(v) Aid or perpetuate discrimination against a qualified handicapped person

by providing significant assistance to an agency, organization, or person that discriminates on the basis of handicap in providing any aid, benefit, or service to beneficiaries of the recipients program;

(vi) Deny a qualified handicapped person the opportunity to participate as a member of planning or advisory boards; or

(vii) Otherwise limit a qualified handicapped person in the enjoyment of any right, privilege, advantage, or opportunity enjoyed by others receiving an aid, benefit, or service.

(2) For purposes of this part, aids, benefits, and services, to be equally effective, are not required to produce the identical result or level of achievement for handicapped and nonhandicapped persons, but must afford handicapped persons equal opportunity to obtain the same result, to gain the same benefit, or to reach the same level of achievement, in the most integrated setting appropriate to the person's needs.

(3) Despite the existence of separate or different programs or activities provided in accordance with this part, a recipient may not deny a qualified handicapped person the opportunity to participate in such programs or activities that are not separate or different.

(4) A recipient may not, directly or through contractual or other arrangements, utilize criteria or methods of administration (i) that have the effect of subjecting qualified handicapped persons to discrimination on the basis of handicap, (ii) that have the purpose or effect of defeating or substantially impairing accomplishment of the objectives of the recipient's program with respect to handicapped persons, or (iii) that perpetuate the discrimination of another recipient if both recipients are subject to common administrative control or are agencies of the same State.

(5) In determining the site or location of a facility, an applicant for assistance or a recipient may not make selections (i) that have the effect of excluding handicapped persons from, denying them the benefits of, or otherwise subjecting them to discrimination under any program or activity that receives or benefits from Federal financial assistance or (ii) that have the purpose or effect of defeating or substantially impairing the accomplishment of the objectives of the program or activity with respect to handicapped persons.

(6) As used in this section, the aid, benefit, or service provided under a program or activity receiving or benefiting from Federal financial assistance includes any aid, benefit, or service provided in or through a facility that has been constructed, expanded, altered, leased or rented, or otherwise acquired, in whole or in part, with Federal financial assistance.

(c) *Programs limited by Federal law.* The exclusion of nonhandicapped persons from the benefits of a program limited by Federal statute or executive order to handicapped persons or the exclusion of a specific class of handicapped persons from a program limited by Federal statute or executive order to a different class of handicapped persons is not prohibited by this part.

§ 84.5 Assurances required.

(a) *Assurances.* An applicant for Federal financial assistance for a program or activity to which this part applies shall submit an assurance, on a form specified by the Director, that the program will be operated in compliance with this part. An applicant may incorporate these assurances by reference in subsequent applications to the Department.

(b) *Duration of obligation.* (1) In the case of Federal financial assistance extended in the form of real property or to provide real property or structures on the property, the assurance will obligate the recipient or, in the case of a subsequent transfer, the transferee, for the period during which the real property or structures are used for the purpose for which Federal financial assistance is extended or for another purpose involving the provision of similar services or benefits.

(2) In the case of Federal financial assistance extended to provide personal property, the assurance will obligate the recipient for the period during which it retains ownership or possession of the property.

(3) In all other cases the assurance will obligate the recipient for the period during which Federal financial assistance is extended.

(c) *Covenants.* (1) Where Federal financial assistance is provided in the form of real property or interest in the property from the Department, the instrument effecting or recording this transfer shall contain a covenant running with the land to assure nondiscrimination for the period during which the real property is used for a purpose for which the Federal financial assistance is extended or for another purpose involving the provision of similar services or benefits.

(2) Where no transfer of property is involved but property is purchased or improved with Federal financial assistance, the recipient shall agree to include the covenant described in paragraph (b)(2) of this section in the instrument effecting or recording any subsequent transfer of the property.

(3) Where Federal financial assistance is provided in the form of real property or interest in the property from the Department, the covenant shall also include a condition coupled with a right to be reserved by the Department to revert title to the property in the event of a breach of the covenant. If a transferee of real property proposes to mortgage or otherwise encumber the real property as security for financing construction of new, or improvement of existing, facilities on the property for the purposes for which the property was transferred, the Director may, upon request of the transferee and if necessary to accomplish such financing and upon such conditions as he or she deems appropriate, agree to forbear the exercise of such right to revert title for so long as the lien of such mortgage or other encumbrance remains effective.

§ 84.6 Remedial action, voluntary action, and self-evaluation.

(a) *Remedial action.* (1) If the Director finds that a recipient has discriminated against persons on the basis of handicap in violation of section 504 or this part, the recipient shall take such remedial action as the Director deems necessary to overcome the effects of the discrimination.

(2) Where a recipient is found to have discriminated against persons on the basis of handicap in violation of section 504 or this part and where another recipient exercises control over the recipient that has discriminated, the Director, where appropriate, may require either or both recipients to take remedial action.

(3) The Director may, where necessary to overcome the effects of discrimination in violation of section 504 or this part, require a recipient to take remedial action (i) with respect to handicapped persons who are no longer participants in the recipient's program but who were participants in the program when such discrimination occurred or (ii) with respect to handicapped persons who would have been participants in the program had the discrimination not occurred.

(b) *Voluntary action.* A recipient may take steps, in addition to any action that is required by this part, to overcome the effects of conditions that resulted in limited participation in the recipient's program or activity by qualified handicapped persons.

(c) *Self-evaluation.* (1) A recipient shall, within one year of the effective date of this part:

(i) Evaluate, with the assistance of interested persons, including handicapped persons or organizations representing handicapped persons, its current policies and practices and the effects thereof that do not or may not meet the requirements of this part;

(ii) Modify, after consultation with interested persons, including handicapped persons or organizations representing handicapped persons, any policies and practices that do not meet the requirements of this part; and

(iii) Take, after consultation with interested persons, including handicapped persons or organizations representing handicapped persons, appropriate remedial steps to eliminate the effects of any discrimination that resulted from adherence to these policies and practices.

(2) A recipient that employs fifteen or more persons shall, for at least three years followed completion of the evaluation required under paragraph (c)(1) of this section, maintain on file, make available for public inspection, and provide to the Director upon request: (i) a list of the interested persons consulted, (ii) a description of areas examined and any problems identified, and (iii) a description of any modifications made and of any remedial steps taken.

§ 84.7 Designation of responsible employee and adoption of grievance procedures.

(a) *Designation of responsible employee.* A recipient that employs fifteen or more persons shall designate at least one person to coordinate its efforts to comply with this part.

(b) *Adoption of grievance procedures.* A recipient that employs fifteen or more persons shall adopt grievance procedures that incorporate appropriate due process standards and that provide for the prompt and equitable resolution of complaints alleging any action prohibited by this part. Such procedures need not be established with respect to complaints from applicants for employment or from applicants for admission to postsecondary educational institutions.

§84.8 Notice.

(a) A recipient that employs fifteen or more persons shall take appropriate initial and continuing steps to notify participants, beneficiaries, applicants, and employees, including those with impaired vision or hearing, and unions or professional organizations holding collective bargaining or professional agreements with the recipient that it does not discriminate on the basis of handicap in violation of section 504 and this part. The notification shall state, where appropriate, that the recipient does not discriminate in admission or access to, or treatment or employment in, its programs and activities. The notification shall also include an identification of the responsible employee designated pursuant to § 84.7(a). A recipient shall make the initial notification required by this paragraph within 90 days of the effective date of this part. Methods of initial and continuing notification may include the posting of notices, publication in newspapers and magazines, placement of notices in recipients' publication, and distribution of memoranda or other written communications.

(b) If a recipient publishes or uses recruitment materials or publications containing general information that it makes available to participants, beneficiaries, applicants, or employees, it shall include in those materials or publications a statement of the policy described in paragraph (a) of this section. A recipient may meet the requirement of this paragraph either by including appropriate inserts in existing materials and publications or by revising and reprinting the materials and publications.

§ 84.9 Administrative requirements for small recipients.

The Director may require any recipient with fewer than fifteen employees, or any class of such recipients, to comply with §§ 84.7 and 84.8, in whole or in part, when the Director finds a violation of this part or finds that such compliance will not significantly impair the ability of the recipient or class of recipients to provide benefits or services.

§ 84.10 Effect of state or local law or other requirements and effect of employment opportunities.

(a) The obligation to comply with this part is not obviated or alleviated by the existence of any state or local law or other requirement that, on the basis of handicap, imposes prohibitions or limits upon the eligibility of qualified handicapped persons to receive services or to practice any occupation or profession.

(b) The obligation to comply with this part is not obviated or alleviated because employment opportunities in any occupation or profession are or may be more limited for handicapped persons than for nonhandicapped persons.

Subpart B—Employment Practices

§ 84.11 Discrimination prohibited.

(a) *General.* (1) No qualified handicapped person shall, on the basis of handicap, be subjected to discrimination in employment under any program or activity to which this part applies.

(2) A recipient that receives assistance under the Education of the Handicapped Act shall take positive steps to employ and advance in employment qualified handicapped persons in programs assisted under that Act.

(3) A recipient shall make all decisions concerning employment under any program or activity to which this part applies in a manner which ensures that discrimination on the basis of handicap does not occur and may not limit, segregate, or classify applicants or employees in any way that adversely affects their opportunities or status because of handicap.

(4) A recipient may not participate in a contractual or other relationship that has the effect of subjecting qualified handicapped applicants or employees to discrimination prohibited by this subpart. The relationships referred to in this subparagraph include relationships with employment and referral agencies, with labor unions, with organizations providing or administering fringe benefits to employees of the recipient, and with organizations providing training and apprenticeship programs.

(b) *Specific activities.* The provisions of this subpart apply to:

(1) Recruitment, advertising, and the processing of applications for employment;

(2) Hiring, upgrading, promotion, award of tenure, demotion, transfer, layoff, termination, right of return from layoff, and rehiring;

(3) Rates of pay or any other form of compensation and changes in compensation;

(4) Job assignments, job classifications, organizational structures, position descriptions, lines of progression, and seniority lists;

(5) Leaves of absense, sick leave, or any other leave;

(6) Fringe benefits available by virtue of employment, whether or not administered by the recipient;

(7) Selection and financial support for training, including apprenticeship, professional meetings, conferences, and other related activities, and selection for leaves of absence to pursue training;

(8) Employer sponsored activities, including social or recreational programs; and

(9) Any other term, condition, or privilege of employment.

(c) A recipient's obligation to comply with this subpart is not affected by any inconsistent term of any collective bargaining agreement to which it is a party.

§ 84.12 Reasonable accommodation.

(a) A recipient shall make reasonable accommodation to the known physical or mental limitations of an otherwise qualified handicapped applicant or employee unless the recipient can demonstrate that the accommodation would impose an undue hardship on the operation of its program.

(b) Reasonable accommodation may include: (1) making facilities used by employees readily accessible to and usable by handicapped persons, and (2) job restructuring, part-time or modified work schedules, acquisition or modification of equipment or devices, the provision of readers or interpreters, and other similar actions.

(c) In determining pursuant to paragraph (a) of this section whether an accommodation would impose an undue hardship on the operation of a recipient's program, factors to be considered include:

(1) The overall size of the recipient's program with respect to number of employees, number and type of facilities, and size of budget;

(2) The type of the recipient's operation, including the composition and structure of the recipient's workforce; and

(3) The nature and cost of the accommodation needed.

(d) A recipient may not deny any employment opportunity to a qualified handicapped employee or applicant if the basis for the denial is the need to make reasonable accommodation to the physical or mental limitations of the employee or applicant.

§ 84.13 Employment criteria.

(a) A recipient may not make use of any employment test or other selection criterion that screens out or tends to screen out handicapped persons or any class of handicapped persons unless: (1) the test score or other selection criterion, as used by the recipient, is shown to be job-related for the position in question, and (2) alternative job-related tests or criteria that do not screen out or tend to screen out as many handicapped persons are not shown by the Director to be available.

(b) A recipient shall select and administer tests concerning employment so as best to ensure that, when administered to an applicant or employee who has a handicap that impairs sensory, manual, or speaking skills, the test results accu-

rately reflect the applicant's or employee's job skills, aptitude, or whatever other factor the test purports to measure, rather than reflecting the applicant's or employee's impaired sensory, manual, or speaking skills (except where those skills are the factors that the test purports to measure).

§ 84.14 Preemployment inquiries.

(a) Except as provided in paragraphs (b) and (c) of this section, a recipient may not conduct a preemployment medical examination or may not make preemployment inquiry of an applicant as to whether the applicant is a handicapped person or as to the nature or severity of a handicap. A recipient may, however, make preemployment inquiry into an applicant's ability to perform job-related functions.

(b) When a recipient is taking remedial action to correct the effects of past discrimination pursuant to § 84.6 (a), when a recipient is taking voluntary action to overcome the effects of conditions that resulted in limited participation in its federally assisted program or activity pursuant to § 84.6(b), or when a recipient is taking affirmative action pursuant to section 503 of the Act, the recipient may invite applicants for employment to indicate whether and to what extent they are handicapped, *Provided*, That:

(1) The recipient states clearly on any written questionnaire used for this purpose or makes clear orally if no written questionnaire is used that the information requested is intended for use solely in connection with its remedial action obligations or its voluntary or affirmative action efforts; and

(2) The recipient states clearly that the information is being requested on a voluntary basis, that it will be kept confidential as provided in paragraph (d) of this section, that refusal to provide it will not subject the applicant or employee to any adverse treatment, and that it will be used only in accordance with this part.

(c) Nothing in this section shall prohibit a recipient from conditioning an offer of employment on the results of a medical examination conducted prior to the employee's entrance on duty, *Provided*, That: (1) All entering employees are subjected to such an examination regardless of handicap, and (2) the results of such an examination are used only in accordance with the requirements of this part.

(d) Information obtained in accordance with this section as to the medical condition or history of the applicant shall be collected and maintained on separate forms that shall be accorded confidentiality as medical records, except that:

(1) Supervisors and managers may be informed regarding restrictions on the work or duties of handicapped persons and regarding necessary accommodations;

(2) First aid and safety personnel may be informed, where appropriate, if the condition might require emergency treatment; and

(3) Government officials investigating compliance with the Act shall be provided relevant information upon request.

§§ 84.15—84.20 [Reserved]

Subpart C—Program Accessibility

§ 84.21 Discrimination prohibited.

No qualified handicapped person shall, because a recipient's facilities are inaccessible to or unusable by handicapped persons, be denied the benefits of, be excluded from participation in, or otherwise be subjected to discrimination under any program or activity to which this part applies.

§ 84.22 Existing facilities.

(a) *Program accessibility.* A recipient shall operate each program or activity to which this part applies so that the program or activity, when viewed in its entirety, is readily accessible to handicapped persons. This paragraph does not require a recipient to make each of its existing facilities or every part of a facility accessible to and usable by handicapped persons.

(b) *Methods.* A recipient may comply with the requirement of paragraph (a) of this section through such means as redesign of equipment, reassignment of classes or other services to accessible buildings, assignment of aides to beneficiaries, home visits, delivery of health, welfare, or other social services at alternate accessible sites, alteration of existing facilities and construction of new facilities in conformance with the requirements of § 84.23, or any other methods that result in making its program or activity accessible to handicapped persons. A recipient is not required to make structural changes in existing facilities where other methods are effective in achieving compliance with paragraph (a) of this section. In choosing among available methods for meeting the requirement of paragraph (a) of this section, a recipient shall give priority to those methods that offer programs and activities to handicapped persons in the most integrated setting appropriate.

(c) *Small health, welfare, or other social service providers.* If a recipient with fewer than fifteen employees that provides health, welfare, or other social services finds, after consultation with a handicapped person seeking its services, that there is no method of complying with paragraph (a) of this section other than making a significant alteration in its existing facilities, the recipient may, as an alternative, refer the handicapped person to other providers of those services that are accessible.

(d) *Time period.* A recipient shall comply with the requirement of paragraph (a) of this section within sixty days of the effective date of this part except that where structural changes in facilities are necessary, such changes shall be made within three years of the effective date of this part, but in any event as expeditiously as possible.

(e) *Transition plan.* In the event that structural changes to facilities are necessary to meet the requirement of paragraph (a) of this section, a recipient shall develop, within six months of the effective date of this part, a transition plan setting forth the steps necessary to complete such changes. The plan shall be developed with the assistance of interested persons, including handicapped persons or organizations representing handicapped persons. A copy of the transition plan shall be made available for public inspection. The plan shall, at a minimum:

(1) Identify physical obstacles in the recipient's facilities that limit the accessibility of its program or activity to handicapped persons;

(2) Describe in detail the methods that will be used to make the facilities accessible;

(3) Specify the schedule for taking the steps necessary to achieve full program accessibility and, if the time period of the transition plan is longer than one year, identify steps that will be taken during each year of the transition period; and

(4) Indicate the person responsible for implementation of the plan.

(f) *Notice.* The recipient shall adopt and implement procedures to ensure that interested persons, including persons with impaired vision or hearing, can obtain information as to the existence and location of services, activities, and facilities that are accessible to and usable by handicapped persons.

§ 84.23 New construction.

(a) *Design and construction.* Each facility or part of a facility constructed by, on behalf of, or for the use of a recipient shall be designed and constructed in such manner that the facility or part of the facility is readily accessible to and usable by handicapped persons, if the construction was commenced after the effective date of this part.

(b) *Alteration.* Each facility or part of a facility which is altered by, on behalf of, or for the use of a recipient after the effective date of this part in a manner that affects or could affect the usability of the facility or part of the facility shall, to the maximum extent feasible, be altered in such manner that the altered portion of the facility is readily accessible to and usable by handicapped persons.

(c) *American National Standards Institute accessibility standards.* Design, construction, or alteration of facilities in conformance with the "American National Standard Specifications for Making Buildings and Facilities Accessible to, and Usable by, the Physically Handicapped," published by the American National Standards Institute, Inc. (ANSI A117.1–1961 (R1971)),[1] which is incorporated by reference in this part, shall constitute compliance with paragraphs (a) and (b) of this section. Departures from particular requirements of those standards by the use of other methods shall be permitted when it is clearly evident that equivalent access to the facility or part of the facility is thereby provided.

§§ 84.24–84.30 [Reserved]

Subpart D—Preschool, Elementary, and Secondary Education

§ 84.31 Application of this subpart.

Subpart D applies to preschool, elementary, secondary, and adult education programs and activities that receive or benefit from federal financial assistance and to recipients that operate, or that receive or benefit from federal financial assistance for the operation of, such programs or activities.

§ 84.32 Location and notification.

A recipient that operates a public elementary or secondary education program shall annually:

(a) Undertake to identify and locate every qualified handicapped person residing in the recipient's jurisdiction who is not receiving a public education; and

(b) Take appropriate steps to notify handicapped persons and their parents or guardians of the recipient's duty under this subpart.

§ 84.33 Free appropriate public education.

(a) *General.* A recipient that operates a public elementary or secondary education program shall provide a free appropriate public education to each qualified handicapped person who is in the recipient's jurisdiction, regardless of the nature or severity of the person's handicap.

(b) *Appropriate education.* (1) For the purpose of this subpart, the provision of an appropriate education is the provision of regular or special education and related aids and services that (i) are designed to meet individual educational needs of handicapped persons as adequately as the needs of nonhandicapped persons are met and (ii) are based upon adherence to procedures that satisfy the requirements of §§ 84.34, 84.35, and 84.36.

(2) Implementation of an individualized education program developed in accordance with the Education of the the Handicapped Act is one means of meeting the standard established in paragraph (b)(1)(i) of this section.

(3) A recipient may place a handicapped person in or refer such person to a program other than the one that it operates as its means of carrying out the requirements of this subpart. If so, the recipient remains responsible for ensuring that the requirements of this subpart are met with respect to any handicapped person so placed or referred.

(c) *Free education*—(1) *General.* For the purpose of this section, the provision of a free education is the provision of educational and related services without cost to the handicapped person or to his or her parents or guardian, except for those fees that are imposed on nonhandicapped persons or their parents or guardian. It may consist either of the provision of free services or, if a recipient places a handicapped person in or refers such person to a program not operated by the recipient as its means of carrying out the requirements of this subpart, of payment for the costs of the program. Funds available from any public or private agency may be used to meet the requirements of this subpart. Nothing in this section shall be construed to relieve an insurer or similar third party from an otherwise valid obligation to provide or pay for services provided to a handicapped person.

(2) *Transportation.* If a recipient places a handicapped person in or refers such person to a program not operated by the recipient as its means of carrying out the requirements of this subpart, the recipient shall ensure that adequate transportation to and from the program is provided at no greater cost than would be incurred by the person or his or her parents or guardian if the person were placed in the program operated by the recipient.

(3) *Residential placement.* If placement in a public or private residential program is necessary to provide a free appropriate public education to a handicapped person because of his or her handicap, the program, including nonmedical care and room and board, shall be provided at no cost to the person or his or her parents or guardian.

(4) *Placement of handicapped persons by parents.* If a recipient has made available, in conformance with the requirements of this section and § 84.34, a free appropriate public education to a handicapped person and the person's parents or guardian choose to place the person in a private school, the recipient is not required to pay for the person's education in the private school. Disagreements between a parent or guardian and a recipient regarding whether the recipient has made such a program available or otherwise regarding the question of financial responsibility are subject to the due process procedures of § 84.36.

(d) *Compliance.* A recipient may not exclude any qualified handicapped person from a public elementary or secondary education after the effective date of this part. A recipient that is not, on the effective date of this regulation, in full compliance with the other requirements of the preceding paragraphs of this section shall meet such requirements at the earliest practicable time and in no event later than September 1, 1978.

§ 84.34 Educational setting.

(a) *Academic setting.* A recipient to which this subpart applies shall educate, or shall provide for the education of, each qualified handicapped person in its jurisdiction with persons who are not handicapped to the maximum extent appropriate to the needs of the handicapped person. A recipient shall place a handicapped person in the regular educational environment operated by the recipient unless it is demonstrated by the recipient that the education of the person in the regular environment with the use of supplementary aids and services cannot be achieved satisfactorily. Whenever a recipient places a person in a setting other than the regular educational environment pursuant to this paragraph, it shall take into account the proximity of the alternate setting to the person's home.

(b) *Nonacademic settings.* In providing or arranging for the provision of nonacademic and extracurricular services and activities, including meals, recess periods, and the services and activities set forth in § 84.37(a)(2), a recipient shall ensure that handicapped persons participate with nonhandicapped persons in such activities and services to the maximum extent appropriate to the needs of the handicapped person in question.

(c) *Comparable facilities.* If a recipient, in compliance with paragraph (a) of this section, operates a facility that is identifiable as being for handicapped persons, the recipient shall ensure that the facility and the services and activities provided therein are comparable to the other facilities, services, and activities of the recipient.

§ 84.35 Evaluation and placement.

(a) *Preplacement evaluation.* A recipient that operates a public elementary or secondary education program shall conduct an evaluation in accordance with the requirements of paragraph (b) of this section of any person who, because of handicap, needs or is believed to need special education or related services before taking any action with respect to the initial placement of the person in a regular or special education program and any subsequent significant change in placement.

(b) *Evaluation procedures.* A recipient to which this subpart applies shall establish standards and procedures for the evaluation and placement of persons who, because of handicap, need or are believed to need special education or related services which ensure that:

(1) Tests and other evaluation materials have been validated for the specific purpose for which they are used and are administered by trained personnel in conformance with the instructions provided by their producer;

(2) Tests and other evaluation materials include those tailored to assess specific areas of educational need and not merely those which are designed to provide a single general intelligence quotient; and

(3) Tests are selected and administered so as best to ensure that, when a test is administered to a student with impaired sensory, manual, or speaking skills, the test results accurately reflect the student's aptitude or achievement level or whatever other factor the test purports to measure, rather than reflecting the student's impaired sensory, manual, or speaking skills (except where those skills are the factors that the test purports to measure).

(c) *Placement procedures.* In interpreting evaluation data and in making placement decisions, a recipient shall (1) draw upon information from a variety of sources, including aptitude and achievement tests, teacher recommendations, physical condition, social or cultural background, and adaptive behavior, (2) establish procedures to ensure that information obtained from all such

sources is documented and carefully considered, (3) ensure that the placement decision is made by a group of persons, including persons knowledgeable about the child, the meaning of the evaluation data, and the placement options, and (4) ensure that the placement decision is made in conformity with § 84.34.

(d) *Reevaluation.* A recipient to which this section applies shall establish procedures, in accordance with paragraph (b) of this section, for periodic reevaluation of students who have been provided special education and related services. A reevaluation procedure consistent with the Education for the Handicapped Act is one means of meeting this requirement.

§ 84.36 Procedural safeguards.

A recipient that operates a public elementary or secondary education program shall establish and implement, with respect to actions regarding the identification, evaluation, or educational placement of persons who, because of handicap, need or are believed to need special instruction or related services, a system of procedural safeguards that includes notice, an opportunity for the parents or guaradian of the person to examine relevant records, an impartial hearing with opportunity for participation by the person's parents or guardian and representation by counsel, and a review procedure. Compliance with the procedural safeguards of section 615 of the Education of the Handicapped Act is one means of meeting this requirement.

§ 84.37 Nonacademic services.

(a) *General.* (1) A recipient to which this subpart applies shall provide nonacademic and extracurricular services and activities in such manner as is necessary to afford handicapped students an equal opportunity for participation in such services and activities.

(2) Nonacademic and extracurricular services and activities may include counseling services, physical recreational athletics, transportation, health services, recreational activities, special interest groups or clubs sponsored by the recipient, referrals to agencies which provide assistance to handicapped persons, and employment of students, including both employment by the recipient and assistance in making available outside employment.

(b) *Counseling services.* A recipient to which this subpart applies that provides personal, academic, or vocational counseling, guidance, or placement services to its students shall provide these services without discrimination on the basis of handicap. The recipient shall ensure that qualified handicapped students are not counseled toward more restrictive career objectives than are nonhandicapped students with similar interests and abilities.

(c) *Physical education and athletics.* (1) In providing physical education courses and athletics and similar programs and activities to any of its students, a recipient to which this subpart applies may not discriminate on the basis of handicap. A recipient that offers physical education courses or that operates or sponsors interscholastic, club, or intramural athletics shall provide to qualified handicapped students an equal opportunity for participation in these activities.

(2) A recipient may offer to handicapped students physical education and athletic activities that are separate or different from those offered to nonhandicapped students only if separation or differentiation is consistent with the requirements of § 84.34 and only if no qualified handicapped student is denied the opportunity to compete for teams or to participate in courses that are not separate or different.

§ 84.38 Preschool and adult education programs.

A recipient to which this subpart applies that operates a preschool education or day care program or activity or an adult education program or activity may not, on the basis of handicap, exclude qualified handicapped persons from the program or activity and shall take into account the needs of such persons in determining the aid, benefits, or services to be provided under the program or activity.

§ 84.39 Private education programs.

(a) A recipient that operates a private elementary or secondary education program may not, on the basis of handicap, exclude a qualified handicapped person from such program if the person can, with minor adjustments, be provided an appropriate education, as defined in § 84.33(b)(1), within the recipient's program.

(b) A recipient to which this section applies may not charge more for the provision of an appropriate education to handicapped persons than to nonhandicapped persons except to the extent that any additional charge is justified by a substantial increase in cost to the recipient.

(c) A recipient to which this section applies that operates special education programs shall operate such programs in accordance with the provisions of §§ 84.35 and 84.36. Each recipient to which this section applies is subject to the provisions of §§ 84.34, 84.37, and 84.38.

§ 84.40 [Reserved]

Subpart E—Postsecondary Education

§ 84.41 Application of this subpart.

Subpart E applies to postsecondary education programs and activities, including postsecondary vocational education programs and activities, that receive or benefit from federal financial assistance and to recipients that operate, or that receive or benefit from federal financial assistance for the operation of, such programs or activities.

§ 84.42 Admissions and recruitment.

(a) *General.* Qualified handicapped persons may not, on the basis of handicap, be denied admission or be subjected to discrimination in admission or recruitment by a recipient to which this subpart applies.

(b) *Admissions.* In administering its admission policies, a recipient to which this subpart applies:

(1) May not apply limitations upon the number or proportion of handicapped persons who may be admitted;

(2) May not make use of any test or criterion for admission that has a disproportionate, adverse effect on handicapped persons or any class of handicapped persons unless (i) the test or criterion, as used by the recipient, has been validated as a predictor of success in the education program or activity in question and (ii) alternate tests or criteria that have a less disproportionate, adverse effect are not shown by the Director to be available;

(3) Shall assure itself that (i) admissions tests are selected and administered so as best to ensure that, when a test is administered to an applicant who has a handicap that impairs sensory, manual, or speaking skills, the test results accurately reflect the applicant's aptitude or achievement level or whatever other factor the test purports to measure, rather than reflecting the applicant's impaired sensory, manual, or speaking skills (except where those skills are the factors that the test purports to measure); (ii) admissions tests that are designed for persons with impaired sensory, manual, or speaking skills are offered as often and in as timely a manner as are other admissions tests; and (iii) admissions tests are administered in facilities that, on the whole, are accessible to handicapped persons; and

(4) Except as provided in paragraph (c) of this section, may not make preadmission inquiry as to whether an applicant for admission is a handicapped person but, after admission, may make inquiries on a confidential basis as to handicaps that may require accommodation.

(c) *Preadmission inquiry exception.* When a recipient is taking remedial action to correct the effects of past discrimination pursuant to § 84.6(a) or when a recipient is taking voluntary action to overcome the effects of conditions that resulted in limited participation in its federally assisted program or activity pursuant to § 84.6(b), the recipient may invite applicants for admission to indicate whether and to what extent they are handicapped, *Provided,* That:

(1) The recipient states clearly on any written questionnaire used for this purpose or makes clear orally if no written questionnaire is used that the information requested is intended for use solely in connection with its remedial action obligations or its voluntary action efforts; and

(2) The recipient states clearly that the information is being requested on a voluntary basis, that it will be kept confidential, that refusal to provide it will not subject the applicant to any adverse treatment, and that it will be used only in accordance with this part.

(d) *Validity studies.* For the purpose of paragraph (b)(2) of this section, a recipient may base prediction equations on first year grades, but shall conduct peri-

odic validity studies against the criterion of overall success in the education program or activity in question in order to monitor the general validity of the test scores.

§ 84.43 Treatment of students; general.

(a) No qualified handicapped student shall, on the basis of handicap, be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination under any academic, research, occupational training, housing, health, insurance, counseling, financial aid, physical education, athletics, recreation, transportation, other extracurricular, or other postsecondary education program or activity to which this subpart applies.

(b) A recipient to which this subpart applies that considers participation by students in education programs or activities not operated wholly by the recipient as part of, or equivalent to, an education program or activity operated by the recipient shall assure itself that the other education program or activity, as a whole, provides an equal opportunity for the participation of qualified handicapped persons.

(c) A recipient to which this subpart applies may not, on the basis of handicap, exclude any qualified handicapped student from any course, course of study, or other part of its education program or activity.

(d) A recipient to which this subpart applies shall operate its programs and activities in the most integrated setting appropriate.

§ 84.44 Academic adjustments.

(a) *Academic requirements.* A recipient to which this subpart applies shall make such modifications to its academic requirements as are necessary to ensure that such requirements do not discriminate or have the effect of discriminating, on the basis of handicap, against a qualified handicapped applicant or student. Academic requirements that the recipient can demonstrate are essential to the program of instruction being pursued by such student or to any directly related licensing requirement will not be regarded as discriminatory within the meaning of this section. Modifications may include changes in the length of time permitted for the completion of degree requirements, substitution of specific courses required for the completion of degree requirements, and adaptation of the manner in which specific courses are conducted.

(b) *Other rules.* A recipient to which this subpart applies may not impose upon handicapped students other rules, such as the prohibition of tape recorders in classrooms or of dog guides in campus buildings, that have the effect of limiting the participation of handicapped students in the recipient's education program or activity.

(c) *Course examinations.* In its course examinations or other procedures for evaluating students' academic achievement in its program, a recipient to which this subpart applies shall provide such methods for evaluating the achievement of students who have a handicap that impairs sensory, manual, or speaking skills as will best ensure that the results of the evaluation represents the student's achievement in the course, rather than reflecting the student's impaired sensory, manual, or speaking skills (except where such skills are the factors that the test purports to measure).

(d) *Auxiliary aids.* (1) A recipient to which this subpart applies shall take such steps as are necessary to ensure that no handicapped student is denied the benefits of, excluded from participation in, or otherwise subjected to discrimination under the education program or activity operated by the recipient because of the absence of educational auxiliary aids for students with impaired sensory, manual, or speaking skills.

(2) Auxiliary aids may include taped texts, interpreters or other effective methods of making orally delivered materials available to students with hearing impairments, readers in libraries for students with visual impairments, classroom equipment adapted for use by students with manual impairments, and other similar services and actions. Recipients need not provide attendants, individually prescribed devices, readers for personal use or study, or other devices or services of a personal nature.

§ 84.45 Housing.

(a) *Housing provided by the recipient.* A recipient that provides housing to its nonhandicapped students shall provide comparable, convenient, and accessible housing to handicapped students at the same cost as to others. At the end of the transition period provided for in Subpart C, such housing shall be available in sufficient quantity and variety so that the scope of handicapped students' choice of living accommodations is, as a whole, comparable to that of nonhandicapped students.

(b) *Other housing.* A recipient that assists any agency, organization, or person in making housing available to any of its students shall take such action as may be necessary to assure itself that such housing is, as a whole, made available in a manner that does not result in discrimination on the basis of handicap.

§ 84.46 Financial and employment assistance to students.

(a) *Provision of financial assistance.* (1) In providing financial assistance to qualified handicapped persons, a recipient to which this subpart applies may not (i), on the basis of handicap, provide less assistance than is provided to nonhandicapped persons, limit eligibility for assistance, or otherwise discriminate or (ii) assist any entity or person that provides assistance to any of the recipient's students in a manner that discriminates against qualified handicapped persons on the basis of handicap.

(2) A recipient may administer or assist in the administration of scholarships, fellowships, or other forms of financial assistance established under wills, trusts, bequests, or similar legal instruments that require awards to be made on the basis of factors that discriminate or have the effect of discriminating on the basis of handicap only if the overall effect of the award of scholarships, fellowships, and other forms of financial assistance is not discriminatory on the basis of handicap.

(b) *Assistance in making available outside employment.* A recipient that assists any agency, organization, or person in providing employment opportunities to any of its students shall assure itself that such employment opportunities, as a whole, are made available in a manner that would not violate Subpart B if they were provided by the recipient.

(c) *Employment of students by recipients.* A recipient that employs any of its students may not do so in a manner that violates Subpart B.

§ 84.47 Nonacademic services.

(a) *Physical education and athletics.* (1) In providing physical education courses and athletics and similar programs and activities to any of its students, a recipient to which this subpart applies may not discriminate on the basis of handicap. A recipient that offers physical education courses or that operates or sponsors intercollegiate, club, or intramural athletics shall provide to qualified handicapped students an equal opportunity for participation in these activities.

(2) A recipient may offer to handicapped students physical education and athletic activities that are separate or different only if separation or differentiation is consistent with the requirements of §84.43(d) and only if no qualified handicapped student is denied the opportunity to compete for teams or to participate in courses that are not separate or different.

(b) *Counseling and placement services.* A recipient to which this subpart applies that provides personal, academic, or vocational counseling, guidance, or placement services to its students shall provide these services without discrimination on the basis of handicap. The recipient shall ensure that qualified handicapped students are not counseled toward more restrictive career objectives than are nonhandicapped students with similar interests and abilities. This requirement does not preclude a recipient from providing factual information about licensing and certification requirements that may present obstacles to handicapped persons in their pursuit of particular careers.

(c) *Social organizations.* A recipient that provides significant assistance to fraternities, sororities, or similar organizations shall assure itself that the membership practices of such organizations do not permit discrimination otherwise prohibited by this subpart.

§§ 84.48—84.50 [Reserved]

Subpart F—Health, Welfare, and Social Services

§ 84.51 Application of this subpart.

Subpart F applies to health, welfare, and other social service programs and activities that receive or benefit from federal financial assistance and to recipients that operate, or that receive or benefit from federal financial assistance for the operation of, such programs or activities.

§ 84.52 Health, welfare, and other social services.

(a) *General.* In providing health, welfare, or other social services or benefits, a recipient may not, on the basis of handicap:

(1) Deny a qualified handicapped person these benefits or services;

(2) Afford a qualified handicapped person an opportunity to receive benefits or services that is not equal to that offered nonhandicapped persons;

(3) Provide a qualified handicapped person with benefits or services that are not as effective (as defined in § 84.4(b)) as the benefits or services provided to others;

(4) Provide benefits or services in a manner that limits or has the effect of limiting the participation of qualified handicapped persons; or

(5) Provide different or separate benefits or services to handicapped persons except where necessary to provide qualified handicapped persons with benefits and services that are as effective as those provided to others.

(b) *Notice.* A recipient that provides notice concerning benefits or services or written material concerning waivers of rights or consent to treatment shall take such steps as are necessary to ensure that qualified handicapped persons, including those with impaired sensory or speaking skills, are not denied effective notice because of their handicap.

(c) *Emergency treatment for the hearing impaired.* A recipient hospital that provides health services or benefits shall establish a procedure for effective communication with persons with impaired hearing for the purpose of providing emergency health care.

(d) *Auxiliary aids.* (1) A recipient to which this subpart applies that employs fifteen or more persons shall provide appropriate auxiliary aids to persons with impaired sensory, manual, or speaking skills, where necessary to afford such persons an equal opportunity to benefit from the service in question.

(2) The Director may require recipients with fewer than fifteen employees to provide auxiliary aids where the provision of aids would not significantly impair the ability of the recipient to provide its benefits or services.

(3) For the purpose of this paragraph, auxiliary aids may include brailled and taped material, interpreters, and other aids for persons with impaired hearing or vision.

§ 84.53 Drug and alcohol addicts.

A recipient to which this subpart applies that operates a general hospital or outpatient facility may not discriminate in admission or treatment against a drug or alcohol abuser or alcoholic who is suffering from a medical condition, because of the person's drug or alcohol abuse or alcoholism.

§ 84.54 Education of institutionalized persons.

A recipient to which this subpart applies and that operates or supervises a program or activity for persons who are institutionalized because of handicap shall ensure that each qualified handicapped person, as defined in § 84.3(k)(2), in its program or activity is provided an appropriate education, as defined in § 84.33(b). Nothing in this section shall be interpreted as altering in any way the obligations of recipients under Subpart D.

§§ 84.55–84.60 [Reserved]

Subpart G—Procedures

§ 84.61 Procedures.

NOTE: Incorporation by reference provisions approved by the Director of the Federal Register, May 27, 1975. Incorporated documents are on file at the Office of the Federal Register.

The procedural provisions applicable to title VI of the Civil Rights Act of 1964 apply to this part. These procedures are found in §§ 80.6–80.10 and Part 81 of this Title.

§§ 84.62–84.99 [Reserved]

APPENDIX A—ANALYSIS OF FINAL REGULATION

SUBPART A—GENERAL PROVISIONS

Definitions—1. *"Recipient"*. Section 84.23 contains definitions used throughout the regulation. Most of the comments concerning § 84.3(f), which contains the definition of "recipient," commended the inclusion of recipients whose sole source of federal financial assistance is Medicaid. The Secretary believes that such Medicaid providers should be regarded as recipients under the statute and the regulation and should be held individually responsible for administering services in a nondiscriminatory fashion. Accordingly, § 84.3(f) has not been changed. Small Medicaid providers, however, are exempt from some of the regulation's administrative provisions (those that apply to recipients with fifteen or more employees). And such recipients will be permitted to refer patients to accessible facilities in certain limited circumstances under revised § 84.22(b). The Secretary recognizes the difficulties involved in federal enforcement of this regulation with respect to thousands of individual Medicaid providers. As in the case of title VI of the Civil Rights Act of 1964, the Office for Civil Rights will concentrate its compliance efforts on the state Medicaid agencies and will look primarily to them to ensure compliance by individual providers.

One other comment requested that the regulation specify that nonpublic elementary and secondary schools that are not otherwise recipients do not become recipients by virtue of the fact their students participate in certain federally funded programs. The Secretary believes it unnecessary to amend the regulation in this regard, because almost identical language in the Department's regulations implementing title VI and title IX of the Education Amendments of 1972 has consistently been interpreted so as not to render such schools recipients. These schools, however, are indirectly subject to the substantive requirements of this regulation through the application of § 84.4(b)(iv), which prohibits recipients from assisting agencies that discriminate on the basis of handicap in providing services to beneficiaries of the recipients' programs.

2. *"Federal financial assistance"*. In § 84.3(h), defining federal financial assistance, a clarifying change has been made: procurement contracts are specifically excluded. They are covered, however, by the Department of Labor's regulation under section 503. The Department has never considered such contracts to be contracts of assistance; the explicit exemption has been added only to avoid possible confusion.

The proposed regulation's exemption of contracts of insurance or guaranty has been retained. A number of comments argued for its deletion on the ground that section 504, unlike title VI and title IX, contains no statutory exemption for such contracts. There is no indication, however, in the legislative history of the Rehabilitation Act of 1973 or of the amendments to that Act in 1974, that Congress intended section 504 to have a broader application, in terms of federal financial assistance, than other civil rights statutes. Indeed, Congress directed that section 504 be implemented in the same manner as titles VI and IX. In view of the long established exemption of contracts of insurance or guaranty under title VI, we think it unlikely that Congress intended section 504 to apply to such contracts.

In its May 1976 Notice of Intent, the Department suggested that the arrangement under which individual practitioners, hospitals, and other facilities receive reimbursement for providing services to beneficiaries under Part B of title XVIII of the Social Security Act (Medicare) constitutes a contract of insurance or guaranty and thus falls within the exemption from the regulation. This explanation oversimplified the Department's view of whether Medicare Part B constitutes Federal financial assistance. The Department's position has consistently been that, whether or not Medicare Part B arrangements involve a contract of insurance or guaranty, no Federal financial assistance flows from the Department to the doctor or other practitioner under the program, since Medicare Part B—like other social security programs—is basically a program of payments to direct beneficiaries.

3. *"Handicapped person"*. Section 84.3(j), which defines the class of persons protected under the regulation, has not been substantially changed. The definition of handicapped person in paragraph (j)(1) conforms to the statutory definition of handicapped person that is applicable to section 504, as set forth in section 111(a) of the Rehabilitation Act Amendments of 1974, Pub. L. 93–516.

The first of the three parts of the statutory and regulatory definition includes any person who has a physical or mental impairment that substantially limits one or more major life activities. Paragraph (j)(2)(i) further defines physical or mental impairments. The definition does not set forth a list of specific diseases and conditions that constitute physical or mental impairments because of the difficulty of ensuring the comprehensiveness of any such list. The term includes, however, such diseases and conditions as orthopedic, visual, speech, and hearing impairments, cerebral palsy, epilepsy, muscular dystrophy, multiple sclerosis, cancer, heart disease, diabetes, mental retardation, emotional illness, and, as discussed below, drug addiction and alcoholism.

It should be emphasized that a physical or mental impairment does not constitute a handicap for purposes of section 504 unless its severity is such that it results in a substantial limitation of one or more major life activities. Several comments observed the lack of any definition in the proposed regulation of the phrase "substantially limits." The Department does not believe that a definition of this term is possible at this time.

A related issue raised by several comments is whether the definition of handicapped person is unreasonably broad. Comments suggested narrowing the definition in various ways. The most common recommendation was that only "traditional" handicaps be covered. The Department continues to believe, however, that it has no flexibility within the statutory definition to limit the term to persons who have those severe, permanent,

or progressive conditions that are most commonly regarded as handicaps. The Department intends, however, to give particular attention in its enforcement of section 504 to eliminating discrimination against persons with the severe handicaps that were the focus of concern in the Rehabilitation Act of 1973.

The definition of handicapped person also includes specific limitations on what persons are classified as handicapped under the regulation. The first of the three parts of the definition specifies that only physical and mental handicaps are included. Thus, environmental, cultural, and economic disadvantage are not in themselves covered; nor are prison records, age, or homosexuality. Of course, if a person who has any of these characteristics also has a physical or mental handicap, the person is included within the definition of handicapped person.

In paragraph (j)(2)(i), physical or mental impairment is defined to include, among other impairments, specific learning disabilities. The Department will interpret the term as it is used in section 602 of the Education of the Handicapped Act, as amended. Paragraph (15) of section 602 uses the term "specific learning disabilities" to describe such conditions as perceptual handicaps, brain injury, minimal brain dysfunction, dyslexia, and developmental aphasia.

Paragraph (j)(2)(i) has been shortened, but not substantively changed, by the deletion of clause (C), which made explicit the inclusion of any condition which is mental or physical but whose precise nature is not at present known. Clauses (A) and (B) clearly comprehend such conditions.

The second part of the statutory and regulatory definition of handicapped person includes any person who has a record of a physical or mental impairment that substantially limits a major life activity. Under the definition of "record" in paragraph (j)(2)(iii), persons who have a history of a handicapping condition but no longer have the condition, as well as persons who have been incorrectly classified as having such a condition, are protected from discrimination under section 504. Frequently occurring examples of the first group are persons with histories of mental or emotional illness, heart disease, or cancer; of the second group, persons who have been misclassified as mentally retarded.

The third part of the statutory and regulatory definition of handicapped person includes any person who is regarded as having a physical or mental impairment that substantially limits one or more major life activities. It includes many persons who are ordinarily considered to be handicapped but who do not technically fall within the first two parts of the statutory definition, such as persons with a limp. This part of the definition also includes some persons who might not ordinarily be considered handicapped, such as persons with disfiguring scars, as well as persons who have no physical or mental impairment but are treated by a recipient as if they were handicapped.

4. *Drug addicts and alcoholics.* As was the case during the first comment period, the issue of whether to include drug addicts and alcoholics within the definition of handicapped person was of major concern to many commenters. The arguments presented on each side of the issue were similar during the two comment periods, as was the preference of commenters for exclusion of this group of persons. While some comments reflected misconceptions about the implications of including alcoholics and drug addicts within the scope of the regulation, the Secretary understands the concerns that underlie the comments on this question and recognizes that application of section 504 to active alcoholics and drug addicts presents sensitive and difficult questions that must be taken into account in interpretation and enforcement.

The Secretary has carefully examined the issue and has obtained a legal opinion from the Attorney General. That opinion concludes that drug addiction and alcoholism are "physical or mental impairments" within the meaning of section 7(6) of the Rehabilitation Act of 1973, as amended, and that drug addicts and alcoholics are therefore handicapped for purposes of section 504 if their impairment substantially limits one of their major life activities. The Secretary therefore believes that he is without authority to exclude these conditions from the definition. There is a medical and legal consensus that alcoholism and drug addiction are diseases, although there is disagreement as to whether they are primarily mental or physical. In addition, while Congress did not focus specifically on the problems of drug addiction and alcoholism in enacting section 504, the committees that considered the Rehabilitation Act of 1973 were made aware of the Department's long-standing practice of treating addicts and alcoholics as handicapped individuals eligible for rehabilitation services under the Vocational Rehabilitation Act.

The Secretary wishes to reassure recipients that inclusion of addicts and alcoholics within the scope of the regulation will not lead to the consequences feared by many commenters. It cannot be emphasized too strongly that the statute and the regulation apply only to discrimination against qualified handicapped persons solely by reason of their handicap. The fact that drug addiction and alcoholism may be handicaps does not mean that these conditions must be ignored in determining whether an individual is qualified for services or employment opportunities. On the contrary, a recipient may hold a drug addict or alcoholic to the same standard of performance and behavior to which it holds others, even if any unsatisfactory performance or behavior is related to the person's drug addiction or alcoholism. In other words, while an alcoholic or drug addict may not be denied services or disqualified from employment solely because of his or her condition, the behavioral manifestations of the condition may be taken into account in determining whether he or she is qualified.

With respect to the employment of a drug addict or alcoholic, if it can be shown that the addiction or alcoholism prevents successful performance of the job, the person need not be provided the employment opportunity in question. For example, in making employment decisions, a recipient may judge addicts and alcoholics on the same basis it judges all other applicants and employees. Thus, a recipient may consider—for all applicants including drug addicts and alcoholics—past personnel records, absenteeism, disruptive, abusive, or dangerous behavior, violations of rules and unsatisfactory work performance. Moreover, employers may enforce rules prohibiting the possession or use of alcohol or drugs in the work-place, provided that such rules are enforced against all employees.

With respect to services, there is evidence that drug addicts and alcoholics are often denied treatment at hospitals for conditions unrelated to their addiction or alcoholism. In addition, some addicts and alcoholics have been denied emergency treatment. These practices have been specifically prohibited by section 407 of the Drug Abuse Office and Treatment Act of 1972 (21 U.S.C. 1174) and section 321 of the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970 (42 U.S.C. 4581), as amended. These statutory provisions are also administered by the Department's Office for Civil Rights and are implemented in § 84.53 of this regulation.

With respect to other services, the implications of coverage of alcoholics and drug addicts are two-fold: first, no person may be excluded from services solely by reason of the presence or history of these conditions; second, to the extent that the manifestations of the condition prevent the person from meeting the basic eligibility requirements of the program or cause substantial interference with the operation of the program, the condition may be taken into consideration. Thus, a college may not exclude an addict or alcoholic as a student, on the basis of addiction or alcoholism, if the person can successfully participate in the education program and complies with the rules of the college and if his or her behavior does not impede the performance of other students.

Of great concern to many commenters was the question of what effect the inclusion of drug addicts and alcoholics as handicapped persons would have on school disciplinary rules prohibiting the use or possession of drugs or alcohol by students. Neither such rules nor their application to drug addicts or alcoholics is prohibited by this regulation, provided that the rules are enforced evenly with respect to all students.

5. *"Qualified handicapped person."* Paragraph (k) of § 84.3 defines the term "qualified handicapped person." Throughout the regulation, this term is used instead of the statutory term "otherwise qualified handicapped person." The Department believes that the omission of the word "otherwise" is necessary in order to comport with the intent of the statute because, read literally, "otherwise" qualified handicapped persons include persons who are qualified except for their handicap, rather than in spite of their handicap. Under such a literal reading, a blind person possessing all the qualifications for driving a bus except sight could be said to be "otherwise qualified" for the job of driving. Clearly, such a result was not intended by Congress. In all other respects, the terms "qualified" and "otherwise qualified" are intended to be interchangeable.

Section 84.3(k)(1) defines a qualified handicapped person with respect to employment as a handicapped person who can, with reasonable accommodation, perform the essential functions of the job in question. The term "essential functions" does not appear in the corresponding provision of the Department of Labor's section 503 regulation, and a few commenters objected to its inclusion on the ground that a handicapped person should be able to perform all job tasks. However, the Department believes that inclusion of the phrase is useful in emphasizing that handicapped persons should not be disqualified simply because they may have difficulty in performing tasks that bear only a marginal relationship to a particular job. Further, we are convinced that inclusion of the phrase is not inconsistent with the Department of Labor's application of its definition.

Certain commenters urged that the definition of qualified handicapped person be amended so as explicitly to place upon the employer the burden of showing that a particular mental or physical characteristic is essential. Because the same result is achieved by the requirement contained in paragraph (a) of § 84.13, which requires an employer to establish that any selection criterion that tends to screen out handicapped persons is job-related, that recommendation has not been followed.

Section 84.3(k)(2) (formerly § 84.3(k)(3)) defines qualified handicapped person, with respect to preschool, elementary, and secondary programs, in terms of age. Several

commenters recommended that eligibility for the services be based upon the standard of substantial benefit, rather than age, because of the need of many handicapped children for early or extended services if they are to have an equal opportunity to benefit from education programs. No change has been made in this provision, again because of the extreme difficulties in administration that would result from the choice of the former standard. Under the remedial action provisions of § 84.6(a)(3), however, persons beyond the age limits prescribed in § 84.3(k)(2) may in appropriate cases be required to be provided services that they were formerly denied because of a recipient's violation of section 504.

Section 84.3(k)(2) states that a handicapped person is qualified for preschool, elementary, or secondary services if the person is of an age at which nonhandicapped persons are eligible for such services or at which state law mandates the provision of educational services to handicapped persons. In addition, the extended age ranges for which recipients must provide full educational opportunity to all handicapped persons in order to be eligible for assistance under the Education of the Handicapped Act—generally, 3–18 as of September 1978, and 3–21 as of September 1980 are incorporated by reference in this paragraph.

Section 84.3(k)(3) (formerly § 84.3(k)(2)) defines qualified handicapped person with respect to postsecondary educational programs. As revised, the paragraph means that both academic and technical standards must be met by applicants to these programs. The term "technical standards" refers to all nonacademic admissions criteria that are essential to participation in the program in question.

6. *General prohibitions against discrimination.* Section 84.4 contains general prohibitions against discrimination applicable to all recipients of assistance from this Department.

Paragraph (b)(1)(i) prohibits the exclusion of qualified handicapped persons from aids, benefits, or services, and paragraph (ii) requires that equal opportunity to participate or benefit be provided. Paragraph (iii) requires that services provided to handicapped persons be as effective as those provided to the nonhandicapped. In paragraph (iv), different or separate services are prohibited except when necessary to provide equally effective benefits.

In this context, the term "equally effective," defined in paragraph (b)(2), is intended to encompass the concept of equivalent, as opposed to identical, services and to acknowledge the fact that, in order to meet the individual needs of handicapped persons to the same extent that the corresponding needs of nonhandicapped persons are met, adjustments to regular programs or the provision of different programs may sometimes be necessary. For example, a welfare office that uses the telephone for communicating with its clients must provide alternative modes of communicating with its deaf clients. This standard parallels the one established under title VI of Civil Rights Act of 1964 with respect to the provision of educational services to students whose primary language is not English. See *Lau* v. *Nichols*, 414 U.S. 563 (1974). To be equally effective, however, an aid, benefit, or service need not produce equal results; it merely must afford an equal opportunity to achieve equal results.

It must be emphasized that, although separate services must be required in some instances, the provision of unnecessarily separate or different services is discriminatory. The addition to paragraph (b)(2) of the phrase "in the most integrated setting appropriate to the person's needs" is intended to reinforce this general concept. A new paragraph (b)(3) has also been added to § 84.4, requiring recipients to give qualified handicapped persons the option of participating in regular programs despite the existence of permissibly separate or different programs. The requirement has been reiterated in §§ 84.38 and 84.47 in connection with physical education and athletics programs.

Section 84.4(b)(1)(v) prohibits a recipient from supporting another entity or person that subjects participants or employees in the recipient's program to discrimination on the basis of handicap. This section would, for example, prohibit financial support by a recipient to a community recreational group or to a professional or social organization that discriminates against handicapped persons. Among the criteria to be considered in each case are the substantiality of the relationship between the recipient and the other entity, including financial support by the recipient, and whether the other entity's activities relate so closely to the recipient's program or activity that they fairly should be considered activities of the recipient itself. Paragraph (b)(1)(vi) was added in response to comment in order to make explicit the prohibition against denying qualified handicapped persons the opportunity to serve on planning and advisory boards responsible for guiding federally assisted programs or activities.

Several comments appeared to interpret § 84.4(b)(5), which proscribes discriminatory site selection, to prohibit a recipient that is located on hilly terrain from erecting any new buildings at its present site. That, of course, is not the case. This paragraph is not intended to apply to construction of additional buildings at an existing site. Of course, any such facilities must be made accessible in accordance with the requirements of § 84.23.

7. *Assurances of compliance.* Section 84.5(a) requires a recipient to submit to the Director an assurance that each of its programs and activities receiving or benefiting from federal financial assistance from this Department will be conducted in compliance with this regulation. To facilitate the submission of assurances by thousands of Medicaid providers, the Department will follow the title VI procedures of accepting, in lieu of assurances, certification on Medicaid vouchers. Many commenters also sought relief from the paperwork requirements imposed by the Department's enforcement of its various civil rights responsibilities by requesting the Department to issue one form incorporating title VI, title IX, and section 504 assurances. The Secretary is sympathetic to this request. While it is not feasible to adopt a single civil rights assurance form at this time, the Office for Civil Rights will work toward that goal.

8. *Private rights of action.* Several comments urged that the regulation incorporate provision granting beneficiaries a private right of action against recipients under section 504. To confer such a right is beyond the authority of the executive branch of government. There is, however, case law holding that such a right exists. *Lloyd* v. *Regional Transportation Authority*, 548 F. 2d 1277 (7th Cir. 1977); *see Hairston* v. *Drosick*, Civil No. 75–0691 (S.D. W. Va., Jan. 14, 1976); *Gurmankin* v. *Castanzo*, 411 F. Supp. 982 (E.D. Pa. 1976); *cf. Lau* v. *Nichols*, *supra*.

9. *Remedial action.* Where there has been a finding of discrimination, § 84.6 requires a recipient to take remedial action to overcome the effects of the discrimination. Actions that might be required under paragraph (a)(1) include provision of services to persons previously discriminated against, reinstatement of employees, and development of a remedial action plan. Should a recipient fail to take required remedial action, the ultimate sanctions of court action or termination of federal financial assistance may be imposed.

Paragraph (a)(2) extends the responsibility for taking remedial action to a recipient that exercises control over a noncomplying recipient. Paragraph (a)(3) also makes clear that handicapped persons who are not in the program at the time that remedial action is required to be taken may also be the subject of such remedial action. This paragraph has been revised in response to comments in order to include persons who would have been in the program if discriminatory practices had not existed. Paragraphs (a)(1), (2), and (3) have also been amended in response to comments to make plain that, in appropriate cases, remedial action might be required to redress clear violations of the statute itself that occurred before the effective date of this regulation.

10. *Voluntary action.* In § 84.6(b), the term "voluntary action" has been substituted for the term "affirmative action" because the use of the latter term led to some confusion. We believe the term "voluntary action" more accurately reflects the purpose of the paragraph. This provision allows action, beyond that required by the regulation, to overcome conditions that led to limited participation by handicapped persons, whether or not the limited participation was caused by any discriminatory actions on the part of the recipient. Several commenters urged that paragraphs (a) and (b) be revised to require remedial action to overcome effects of prior discriminatory practices regardless of whether there has been an express finding of discrimination. The self-evaluation requirement in paragraph (c) accomplishes much the same purpose.

11. *Self-evaluation.* Paragraph (c) requires recipients to conduct a self-evaluation in order to determine whether their policies or practices may discriminate against handicapped persons and to take steps to modify any discriminatory policies and practices and their effects. The Department received many comments approving of the addition to paragraph (c) of a requirement that recipients seek the assistance of handicapped persons in the self-evaluation process. This paragraph has been further amended to require consultation with handicapped persons or organizations representing them before recipients undertake the policy modifications and remedial steps prescribed in paragraphs (c)(ii) and (iii).

Paragraph (c)(2), which sets forth the recordkeeping requirements concerning self-evaluation, now applies only to recipients with fifteen or more employees. This change was made as part of an effort to reduce unnecessary or counterproductive administrative obligations on small recipients. For those recipients required to keep records, the requirements have been made more specific; records must include a list of persons consulted and a description of areas examined, problems identified, and corrective steps taken. Moreover, the records must be made available for public inspection.

12. *Grievance procedure.* Section 84.7 (formerly § 84.8) requires recipients with fifteen or more employees to designate an individual responsible for coordinating its compliance efforts and to adopt a grievance procedure. Two changes were made in the section in response to comment. A general requirement that appropriate due process procedures be followed has been added. It was decided that the details of such procedures could not at this time be specified because of the varied nature of the persons and entities who must establish the procedures and of the programs to which they apply. A sentence was also added to make clear that

grievance procedures are not required to be made available to unsuccessful applicants for employment or to applicants for admission to colleges and universities.

The regulation does not require that grievance procedures be exhausted before recourse is sought from the Department. However, the Secretary believes that it is desirable and efficient in many cases for complainants to seek resolution of their complaints and disputes at the local level and therefore encourages them to use available grievance procedures.

A number of comments asked whether compliance with this section or the notice requirements of § 84.8 could be coordinated with comparable action required by the title IX regulation. The Department encourages such efforts.

13. *Notice.* Section 84.8 (formerly § 84.9) sets forth requirements for dissemination of statements of nondiscrimination policy by recipients.

It is important that both handicapped persons and the public at large be aware of the obligations of recipients under section 504. Both the Department and recipients have responsibilities in this regard. Indeed the Department intends to undertake a major public information effort to inform persons of their rights under section 504 and this regulation. In § 84.8 the Department has sought to impose a clear obligation on major recipients to notify beneficiaries and employees of the requirements of section 504, without dictating the precise way in which this notice must be given. At the same time, we have avoided imposing requirements on small recipients (those with fewer than fifteen employees) that would create unnecessary and counterproductive paperwork burdens on them and unduly stretch the enforcement resources of the Department.

Section 84.8(a), as simplified, requires recipients with fifteen or more employees to take appropriate steps to notify beneficiaries and employees of the recipient's obligations under section 504. The last sentence of § 84.8 (a) has been revised to list possible, rather than required, means of notification. Section 84.8(b) requires recipients to include a notification of their policy of nondiscrimination in recruitment and other general information materials.

In response to a number of comments, § 84.8 has been revised to delete the requirements of publication in local newspapers, which has proved to be both troublesome and ineffective. Several commenters suggested that notification on separate forms be allowed until present stocks of publications and forms are depleted. The final regulation explicitly allows this method of compliance. The separate form should, however, be included with each significant publication or form that is distributed.

Former § 84.9(b)(2), which prohibited the use of materials that might give the impression that a recipient excludes qualified handicapped persons from its program, has been deleted. The Department is convinced by the comments that this provision is unnecessary and difficult to apply. The Department encourages recipients, however, to include in their recruitment and other general information materials photographs of handicapped persons and ramps and other features of accessible buildings.

Under new § 84.9 the Director may, under certain circumstances, require recipients with fewer than fifteen employees to comply with one or more of these requirements. Thus, if experience shows a need for imposing notice or other requirements on particular recipients or classes of small recipients, the Department is prepared to expand the coverage of these sections.

14. *Inconsistent State laws.* Section 84.10 (a) states that compliance with the regulation is not excused by state or local laws limiting the eligibility of qualified handicapped persons to receive services or to practice an occupation. The provision thus applies only with respect to state or local laws that unjustifiably differentiate on the basis of handicap.

Paragraph (b) further points out that the presence of limited employment opportunities in a particular profession does not excuse a recipient from complying with the regulation. Thus, a law school could not deny admission to a blind applicant because blind lawyers may find it more difficult to find jobs than do nonhandicapped lawyers.

Subpart B—Employment Practices

Subpart B prescribes requirements for nondiscrimination in the employment practices of recipients of federal financial assistance administered by the Department. This subpart is consistent with the employment provisions of the Department's regulation implementing title IX of the Education Amendments of 1972 (45 CFR Part 86) and the regulation of the Department of Labor under section 503 of the Rehabilitation Act, which requires certain Federal contractors to take affirmative action in the employment and advancement of qualified handicapped persons. All recipients subject to title IX are also subject to this regulation. In addition, many recipients subject to this regulation receive federal procurement contracts in excess of $2500 and are therefore also subject to section 503.

15. *Discriminatory practices.* Section 84.11 sets forth general provisions with respect to discrimination in employment. A new paragraph (a)(2) has been added to clarify the employment obligations of recipients that receive federal funds under Part B of the Education of the Handicapped Act, as amended (EHA). Section 606 of the EHA obligates elementary or secondary school systems that receive EHA funds to take positive steps to employ and advance in employment qualified handicapped persons. This obligation is similar to the nondiscrimination requirement of section 504 but requires recipients to take additional steps to hire and promote handicapped persons. In enacting section 606 Congress chose the words "positive steps" instead of "affirmative action" advisedly and did not intend section 606 to incorporate the types of activities required under Executive Order 11246 (affirmative action on the basis of race, color, sex, or national origin) or under sections 501 and 503 of the Rehabilitation Act of 1973.

Paragraph (b) of § 84.11 sets forth the specific aspects of employment covered by the regulation. Paragraph (c) provides that inconsistent provisions of collective bargaining agreements do not excuse noncompliance.

16. *Reasonable accommodation.* The reasonable accommodation requirement of § 84.12 generated a substantial number of comments. The Department remains convinced that its approach is both fair and effective. Moreover, the Department of Labor reports that it has experienced little difficulty in administering the requirement of reasonable accommodation. The provision therefore remains basically unchanged from the proposed regulation.

Section 84.12 requires a recipient to make reasonable accommodation to the known physical or mental limitations of a handicapped applicant or employee unless the recipient can demonstrate that the accommodation would impose an undue hardship on the operation of its program. Where a handicapped person is not qualified to perform a particular job, where reasonable accommodation does not overcome the effects of a person's handicap, or where reasonable accommodation causes undue hardship to the employer, failure to hire or promote the handicapped person will not be considered discrimination.

Section 84.12(b) lists some of the actions that constitute reasonable accommodation. The list is neither all-inclusive nor meant to suggest that employers must follow all of the actions listed.

Reasonable accommodation includes modification of work schedules, including part-time employment, and job restructuring. Job restructuring may entail shifting nonessential duties to other employees. In other cases, reasonable accommodation may include physical modifications or relocation of particular offices or jobs so that they are in facilities or parts of facilities that are accessible to and usable by handicapped persons. If such accommodations would cause undue hardship to the employer, they need not be made.

Paragraph (c) of this section sets forth the factors that the Office for Civil Rights will consider in determining whether an accommodation necessary to enable an applicant or employee to perform the duties of a job would impose an undue hardship. The weight given to each of these factors in making the determination as to whether an accommodation constitutes undue hardship will vary depending on the facts of a particular situation. Thus, a small day-care center might not be required to expend more than a nominal sum, such as that necessary to equip a telephone for use by a secretary with impaired hearing, but a large school district might be required to make available a teacher's aide to a blind applicant for a teaching job. Further, it might be considered reasonable to require a state welfare agency to accommodate a deaf employee by providing an interpreter, while it would constitute an undue hardship to impose that requirement on a provider of foster home care services.

The reasonable accommodation standard in § 84.12 is similar to the obligation imposed upon federal contractors in the regulation implementing section 503 of the Rehabilitation Act of 1973, administered by the Department of Labor. Although the wording of the reasonable accommodation provisions of the two regulations is not identical, the obligation that the two regulations impose is the same, and the federal government's policy in implementing the two sections will be uniform. The Department adopted the factors listed in paragraph (c) instead of the "business necessity" standard of the Labor regulation because that term seemed inappropriate to the nature of the programs operated by the majority of institutions subject to this regulation, e.g., public school systems, hospitals, colleges and universities, nursing homes, day-care centers, and welfare offices. The factors listed in paragraph (c) are intended to make the rationale underlying the business necessity standard applicable to and understandable by recipients of HEW funds.

17. *Tests and selection criteria.* Revised § 84.13(a) prohibits employers from using test or other selection criteria that screen out or tend to screen out handicapped persons unless the test or criterion is shown to be job-related and alternative tests or criteria that do not screen out or tend to screen out as many handicapped persons are not shown by the Director to be available. This paragraph is an application of the principle established under title VII of the Civil Rights Act of 1964 in *Griggs* v. *Duke Power Company*, 401 U.S. 424 (1971).

Under the proposed section, a statistical showing of adverse impact on handicapped persons was required to trigger an employer's obligation to show that employment criteria

and qualifications relating to handicap were necessary. This requirement was changed because the small number of handicapped persons taking tests would make statistical showings of "disproportionate, adverse effect" difficult and burdensome. Under the altered, more workable provision, once it is shown that an employment test substantially limits the opportunities of handicapped persons, the employer must show the test to be job-related. A recipient is no longer limited to using predictive validity studies as the method for demonstrating that a test or other selection criterion is in fact job-related. Nor, in all cases, are predictive validity studies sufficient to demonstrate that a test or criterion is job-related. In addition, § 84.13(a) has been revised to place the burden on the Director, rather than the recipient, to identify alternate tests.

Section 84.13(b) requires that a recipient take into account that some tests and criteria depend upon sensory, manual, or speaking skills that may not themselves be necessary to the job in question but that may make the handicapped person unable to pass the test. The recipient must select and administer tests so as best to ensure that the test will measure the handicapped person's ability to perform on the job rather than the person's ability to see, hear, speak, or perform manual tasks, except, of course, where such skills are the factors that the test purports to measure. For example, a person with a speech impediment may be perfectly qualified for jobs that do not or need not, with reasonable accommodation, require ability to speak clearly. Yet, if given an oral test, the person will be unable to perform in a satisfactory manner. The test results will not, therefore, predict job performance but instead will reflect impaired speech.

18. *Preemployment inquiries.* Section 84.14, concerning preemployment inquiries, generated a large number of comments. Commenters representing handicapped persons strongly favored a ban on preemployment inquiries on the ground that such inquiries are often used to discriminate against handicapped persons and are not necessary to serve any legitimate interests of employers. Some recipients, on the other hand, argued that preemployment inquiries are necessary to determine qualifications of the applicant, safety hazards caused by a particular handicapping condition, and accommodations that might be required.

The Secretary has concluded that a general prohibition of preemployment inquiries is appropriate. However, a sentence has been added to paragraph (a) to make clear that an employer may inquire into an applicant's ability to perform job-related tasks but may not ask if the person has a handicap. For example, an employer may not ask on an employment form if an applicant is visually impaired but may ask if the person has a current driver's license (if that is a necessary qualification for the position in question). Similarly, employers may make inquiries about an applicant's ability to perform a job safely. Thus, an employer may not ask if an applicant is an epileptic but may ask whether the person can perform a particular job without endangering other employees.

Section 84.14(b) allows preemployment inquiries only if they are made in conjunction with required remedial action to correct past discrimination, with voluntary action to overcome past conditions that have limited the participation of handicapped persons, or with obligations under section 503 of the rehabilitation Act of 1973. In these instances, paragraph (b) specifies certain safeguards that must be followed by the employer.

Finally, the revised provision allows an employer to condition offers of employment to handicapped persons on the results of medical examinations, so long as the examinations are administered to all employees in a nondiscriminatory manner and the results are treated on a confidential basis.

19. *Specific acts of Discrimination.* Sections 84.15 (recruitment), 84.16 (compensation), 84.17 (job classification and structure) and 84.18 (fringe benefits) have been deleted from the regulation as unnecessarily duplicative of § 84.11 (discrimination prohibited). The deletion of these sections in no way changes the substantive obligations of employers subject to this regulation from those set forth in the July 16 proposed regulation. These deletions bring the regulation closer in form to the Department of Labor's section 503 regulation.

Proposed § 84.18, concerning fringe benefits, had allowed for differences in benefits or contributions between handicapped and nonhandicapped persons in situations only where such differences could be justified on an actuarial basis. Section 84.11 simply bars discrimination in providing fringe benefits and does not address the issue of actuarial differences. The Department believes that currently available data and experience do not demonstrate a basis for promulgating a regulation specifically allowing for differences in benefits or contributions.

Subpart C—Program Accessibility

In general, Subpart C prohibits the exclusion of qualified handicapped persons from federally assisted programs or activities because a recipient's facilities are inaccessible or unusable.

20. *Existing facilities.* Section 84.22 maintains the same standard for nondiscrimination in regard to existing facilities as was included in the proposed regulation. The section states that a recipient's program or activity, when viewed in its entirety, must be readily accessible to and usable by handicapped persons. Paragraphs (a) and (b) make clear that a recipient is not required to make each of its existing facilities accessible to handicapped persons if its program as a whole is accessible. Accessibility to the recipient's program or activity may be achieved by a number of means, including redesign of equipment, reassignment of classes or other services to accessible buildings, and making aides available to beneficiaries. In choosing among methods of compliance, recipients are required to give priority consideration to methods that will be consistent with provision of services in the most appropriate integrated setting. Structural changes in existing facilities are required only where there is no other feasible way to make the recipient's program accessible.

Under § 84.22, a university does not have to make all of its existing classroom buildings accessible to handicapped students if some of its buildings are already accessible and if it is possible to reschedule or relocate enough classes so as to offer all required courses and a reasonable selection of elective courses in accessible facilities. If sufficient relocation of classes is not possible using existing facilities, enough alterations to ensure program accessibility are required. A university may not exclude a handicapped student from a specifically requested course offering because it is not offered in an accessible location, but it need not make every section of that course accessible.

Commenters representing several institutions of higher education have suggested that it would be appropriate for one postsecondary institution in a geographical area to be made accessible to handicapped persons and for other colleges and universities in that area to participate in that school's program, thereby developing an educational consortium for the postsecondary education of handicapped students. The Department believes that such a consortium, when developed and applied only to handicapped persons, would not constitute compliance with § 84.22, but would discriminate against qualified handicapped persons by restricting their choice in selecting institutions of higher education and would, therefore, be inconsistent with the basic objectives of the statute.

Nothing in this regulation, however, should be read as prohibiting institutions from forming consortia for the benefit of all students. Thus, if three colleges decide that it would be cost-efficient for one college to offer biology, the second physics, and the third chemistry to all students at the three colleges, the arrangement would not violate section 504. On the other hand, it would violate the regulation if the same institutions set up a consortium under which one college undertook to make its biology lab accessible, another its physics lab, and a third its chemistry lab, and under which mobility-impaired handicapped students (but not other students) were required to attend the particular college that is accessible for the desired courses.

Similarly, while a public school district need not make each of its buildings completely accessible, it may not make only one facility or part of a facility accessible if the result is to segregate handicapped students in a single setting.

All recipients that provide health, welfare, or other social services may also comply with § 84.22 by delivering services at alternate accessible sites or making home visits. Thus, for example, a pharmacist might arrange to make home deliveries of drugs. Under revised § 84.22(c), small providers of health, welfare, and social services (those with fewer than fifteen employees) may refer a beneficiary to an accessible provider of the desired service, but only if no means of meeting the program accessibility requirement other than a significant alteration in existing facilities is available. The referring recipient has the responsibility of determining that the other provider is in fact accessible and willing to provide the service. The Secretary believes this "last resort" referral provision is appropriate to avoid imposition of additional costs in the health care area, to encourage providers to remain in the Medicaid program, and to avoid imposing significant costs on small, low-budget providers such as day-care centers or foster homes.

A recent change in the tax law may assist some recipients in meeting their obligations under this section. Under section 2122 of the Tax Reform Act of 1976, recipients that pay federal income tax are eligible to claim a tax deduction of up to $25,000 for architectural and transportation modifications made to improve accessibility for handicapped persons. Many physicians and dentists, among others, may be eligible for this tax deduction. See 42 FR 17870 (April 4, 1977), adopting 26 CFR 7.190.

Several commenters expressed concern about the feasibility of compliance with the program accessibility standard. The Secretary believes that the standard is flexible enough to permit recipients to devise ways to make their programs accessible short of extremely expensive or impractical physical changes in facilities. Accordingly, the section does not allow for waivers. The Department is ready at all times to provide technical assistance to recipients in meeting their program accessibility responsibilities. For this purpose, the Department is establishing a special technical assistance unit. Recipients are encouraged to call upon the unit

staff for advice and guidance both on structural modifications and on other ways of meeting the program accessibility requirement.

Paragraph (d) has been amended to require recipients to make all nonstructural adjustments necessary for meeting the program accessibility standard within sixty days. Only where structural changes in facilities are necessary will a recipient be permitted up to three years to accomplish program accessibility. It should be emphasized that the three-year time period is not a waiting period and that all changes must be accomplished as expeditiously as possible. Further, it is the Department's belief, after consultation with experts in the field, that outside ramps to buildings can be constructed quickly and at relatively low cost. Therefore, it will be expected that such structural additions will be made promptly to comply with § 84.22(d).

The regulation continues to provide, as did the proposed version, that a recipient planning to achieve program accessibility by making structural changes must develop a transition plan for such changes within six months of the effective date of the regulation. A number of commenters suggested extending that period to one year. The Secretary believes that such an extension is unnecessary and unwise. Planning for any necessary structural changes should be undertaken promptly to ensure that they can be completed within the three-year period. The elements of the transition plan as required by the regulation remain virtually unchanged from the proposal but § 84.22(d) now includes a requirement that the recipient make the plan available for public inspection.

Several commenters expressed expressed concern that the program accessibility standard would result in the segregation of handicapped persons in educational institutions. The regulation will not be applied to permit such a result. See § 84.4(c)(2)(iv), prohibiting unnecessarily separate treatment; § 84.35, requiring that students in elementary and secondary schools be educated in the most integrated setting appropriate to their needs; and new § 84.43(d), applying the same standard to postsecondary education.

We have received some comments from organizations of handicapped persons on the subject of requiring, over an extended period of time, a barrier-free environment—that is, requiring the removal of all architectural barriers in existing facilities. The Department has considered these comments but has decided to take no further action at this time concerning these suggestions, believing that such action should only be considered in light of experience in implementing the program accessibility standard.

21. *New construction.* Section 84.23 requires that all new facilities, as well as alterations that could affect access to and use of existing facilities, be designed and constructed in a manner so as to make the facility accessible to and usable by handicapped persons. Section 84.23(a) has been amended so that it applies to each newly constructed facility if the construction was commenced after the effective date of the regulation. The words "if construction has commenced" will be considered to mean "if groundbreaking has taken place." Thus, a recipient will not be required to alter the design of a facility that has progressed beyond groundbreaking prior to the effective date of the regulation.

Paragraph (b) requires certain alterations to conform to the requirement of physical accessibility in paragraph (a). If an alteration is undertaken to a portion of a building the accessibility of which could be improved by the manner in which the alteration is carried out, the alteration must be made in that manner. Thus, if a doorway or wall is being altered, the door or other wall opening must be made wide enough to accommodate wheelchairs. On the other hand, if the alteration consists of altering ceilings, the provisions of this section are not applicable because this alteration cannot be done in a way that affects the accessibility of that portion of the building. The phrase "to the maximum extent feasible" has been added to allow for the occasional case in which the nature of an existing facility is such as to make it impractical or prohibitively expensive to renovate the building in a manner that results in its being entirely barrier-free. In all such cases, however, the alteration should provide the maximum amount of physical accessibility feasible.

As proposed, § 84.23(c) required compliance with the American National Standards Institute (ANSI) standard on building accessibility as the minimum necessary for compliance with the accessibility requirement of §§ 84.23 (a) and (b). The reference to the ANSI standard created some ambiguity, since the standard itself provides for waivers where other methods are equally effective in providing accessibility to the facility. Moreover, the Secretary does not wish to discourage innovation in barrier-free construction by requiring absolute adherence to a rigid design standard. Accordingly, § 84.23 (c) has been revised to permit departures from particular requirements of the ANSI standard where the recipient can demonstrate that equivalent access to the facility is provided.

Section 84.23(d) of the proposed regulation, providing for a limited deferral of action concerning facilities that are subject to section 502 as well as section 504 of the Act, has been deleted. The Secretary believes that the provision is unnecessary and inappropriate to this regulation. The Department will, however, seek to coordinate enforcement activities under this regulation with those of the Architectural and Transportation Barriers Compliance Board.

Subpart D—Preschool, Elementary, and Secondary Education

Subpart D sets forth requirements for nondiscrimination in preschool, elementary, secondary, and adult education programs and activities, including secondary vocational education programs. In this context, the term "adult education" refers only to those educational programs and activities for adults that are operated by elementary and secondary schools.

The provisions of Subpart D apply to state and local educational agencies. Although the subpart applies, in general, to both public and private education programs and activities that are federally assisted, §§ 84.32 and 84.33 apply only to public programs and § 84.39 applies only to private programs; §§ 84.35 and 84.36 apply both to public programs and to those private programs that include special services for handicapped students.

Subpart B generally conforms to the standards established for the education of handicapped persons in *Mills* v. *Board of Education of the District of Columbia*, 348 F. Supp. 866 (D.D.C. 1972), *Pennsylvania Association for Retarded Children* v. *Commonwealth of Pennsylvania*, 334 F. Supp. 1257 (E.D. 1971), 343 F. Supp. 279 (E.D.Pa. 1972), and *Lebanks* v. *Spears*, 60, F.R.D. 135 (E.D. La. 1973), as well as in the Education of the Handicapped Act, as amended by Public Law 94-142 (the EHA).

The basic requirements common to those cases, to the EHA, and to this regulation are (1) that handicapped persons, regardless of the nature or severity of their handicap, be provided a free appropriate public education, (2) that handicapped students be educated with nonhandicapped students to the maximum extent appropriate to their needs, (3) that educational agencies undertake to identify and locate all unserved handicapped children, (4) that evaluation procedures be improved in order to avoid the inappropriate education that results from the misclassification of students, and (5) that procedural safeguard be established to enable parents and guardians to influence decisions regarding the evaluation and placement of their children. These requirements are designed to ensure that no handicapped child is excluded from school on the basis of handicap and, if a recipient demonstrates that placement in a regular educational setting cannot be achieved satisfactorily, that the student is provided with adequate alternative services suited to the student's needs without additional cost to the student's parents or guardian. Thus, a recipient that operates a public school system must either educate handicapped children in its regular program or provide such children with an appropriate alternative education at public expense.

It is not the intention of the Department, except in extraordinary circumstances, to review the result of individual placement and other educational decisions, so long as the school district complies with the "process" requirements of this subpart (concerning identification and location, evaluation, and due process precedures). However, the Department will place a high priority on investigating cases which may involve exclusion of a child from the education system or a pattern or practice of discriminatory placements or education.

22. *Location and notification.* Section 84.32 requires public schools to take steps annually to identify and locate handicapped children who are not receiving an education and to publicize to handicapped children and their parents the rights and duties established by section 504 and this regulation. This section has been shortened without substantive change.

23. *Free appropriate public education.* Former §§ 84.34 ("Free education") and 84.36(a) ("Suitable education") have been consolidated and revised in new § 84.33. Under § 84.34(a), a recipient is responsible for providing a free appropriate public education to each qualified handicapped person who is in the recipient's jurisdiction. The word "in" encompasses the concepts of both domicile and actual residence. If a recipient places a child in a program other than its own, it remains financially responsible for the child, whether or not the other program is operated by another recipient or educational agency. Moreover, a recipient may not place a child in a program that is inappropriate or that otherwise violates the requirements of Subpart D. And in no case may a recipient refuse to provide services to a handicapped child in its jurisdiction because of another person's or entity's failure to assume financial responsibility.

Section 84.33(b) concerns the provision of appropriate educational services to handicapped children. To be appropriate, such services must be designed to meet handicapped children's individual educational needs to the same extent that those of nonhandicapped children are met. An appropriate education could consist of education in regular classes, education in regular classes with the use of supplementary services, or special education and related services. Special education may include specially designed instruction in classrooms, at home, or in private or public institutions and may be accompanied by such related services as developmental, corrective, and other supportive services (including psychological, counseling, and medical diagnostic services). The placement of the child must however, be con-

sistent with the requirements of § 84.34 and be suited to his or her educational needs.

The quality of the educational services provided to handicapped students must equal that of the services provided to nonhandicapped students; thus, handicapped student's teachers must be trained in the instruction of persons with the handicap in question and appropriate materials and equipment must be available. The Department is aware that the supply of adequately trained teachers may, at least at the outset of the imposition of this requirement, be insufficient to meet the demand of all recipients. This factor will be considered in determining the appropriateness of the remedy for noncompliance with this section. A new § 84.33(b)(2) has been added, which allows this requirements to be met through the full implementation of an individualized education program developed in accordance with the standards of the EHA.

Paragraph (c) of § 84.33 sets forth the specific financial obligations of a recipient. If a recipient does not itself provide handicapped persons with the requisite services, it must assume the cost of any alternate placement. If, however, a recipient offers adequate services and if alternate placement is chosen by a student's parent or guardian, the recipient need not assume the cost of the outside services. (If the parent or guardian believes that his or her child cannot be suitably educated in the recipient's program, he or she may make use of the procedures established in § 84.36.) Under this paragraph, a recipient's obligation extends beyond the provision of tuition payments in the case of placement outside the regular program. Adequate transportation must also be provided. Recipients must also pay for psychological services and those medical services necessary for diagnostic and evaluative purposes.

If the recipient places a student, because of his or her handicap, in a program that necessitates his or her being away from home, the payments must also cover room and board and nonmedical care (including custodial and supervisory care). When residential care is necessitated not by the student's handicap but by factors such as the student's home conditions, the recipient is not required to pay the cost of room and board.

Two new sentences have been added to paragraph (c)(1) to make clear that a recipient's financial obligations need not be met solely through its own funds. Recipients may rely on funds from any public or private source including insurers and similar third parties.

The EHA requires a free appropriate education to be provided to handicapped children "no later than September 1, 1978," but section 504 contains no authority for delaying enforcement. To resolve this problem, a new paragraph (d) has been added to § 84.33. Section 84.33(d) requires recipients to achieve full compliance with the free appropriate public education requirements of § 84.33 as expeditiously as possible, but in no event later than September 1, 1978. The provision also makes clear that, as of the effective date of this regulation, no recipient may exclude a qualified handicapped child from its educational program. This provision against exclusion is consistent with the order of providing services set forth in section 612(3) of the EHA, which places the highest priority on providing services to handicapped children who are not receiving an education.

24. *Educational setting.* Section 84.34 prescribes standards for educating handicapped persons with nonhandicapped persons to the maximum extent appropriate to the needs of the handicapped person in question. A handicapped student may be removed from the regular educational setting only where the recipient can show that the needs of the student would, on balance, be served by placement in another setting.

Although under § 84.34, the needs of the handicapped person are determinative as to proper placement, it should be stressed that, where a handicapped student is so disruptive in a regular classroom that the education of other students is significantly impaired, the needs of the handicapped child cannot be met in that environment. Therefore, regular placement would not be appropriate to his or her needs and would not be required by § 84.34.

Among the factors to be considered in placing a child is the need to place the child as close to home as possible. A new sentence has been added to paragraph (a) requiring recipients to take this factor into account. As pointed out in several comments, the parents' right under § 84.36 to challenge the placement of their child extends not only to placement in special classes or separate schools but also to placement in a distant school and, in particular, to residential placement. An equally appropriate educational program may exist closer to home; this issue may be raised by the parent or guardian under §§ 84.34 and 84.36.

New paragraph (b) specifies that handicapped children must also be provided nonacademic services in as integrated a setting as possible. This requirement is especially important for children whose educational needs necessitate their being solely with other handicapped children during most of each day. To the maximum extent appropriate, children in residential settings are also to be provided opportunities for participation with other children.

Section 84.34(c) (formerly § 84.38) requires that any facilities that are identifiable as being for handicapped students be comparable in quality to other facilities of the recipient. A number of comments objected to this section on the basis that it encourages the creation and maintenance of such facilities. This is not the intent of the provision. A separate facility violates section 504 unless it is indeed necessary to the provision of an appropriate education to certain handicapped students. In those instances in which such facilities are necessary (as might be the case, for example, for severely retarded persons), this provision requires that the educational services provided be comparable to those provided in the facilities of the recipient that are not identifiable as being for handicapped persons.

25. *Evaluation and placement.* Because the failure to provide handicapped persons with an appropriate education is so frequently the result of misclassification or misplacement, section 84.33(b)(1) makes compliance with its provisions contingent upon adherence to certain procedures designed to ensure appropriate classification and placement. These procedures, delineated in §§ 84.35 and 84.36, are concerned with testing and other evaluation methods and with procedural due process rights.

Section 84.35(a) requires that an individual evaluation be conducted before any action is taken with respect either to the initial placement of a handicapped child in a regular or special education program or to any subsequent significant change in that placement. Thus, a full reevaluation is not required every time an adjustment in placement is made. "Any action" includes denials of placement.

Paragraphs (b) and (c) of § 84.35 establishes procedures designed to ensure that children are not misclassified, unnecessarily labeled as being handicapped, or incorrectly placed because of inappropriate selection, administration, or interpretation of evaluation materials. This problem has been extensively documented in "Issues in the Classification of Children," a report by the Project on Classification of Exceptional Children, in which the HEW Interagency Task Force participated. The provisions of these paragraphs are aimed primarily at abuses in the placement process that result from misuse of, or undue or misplaced reliance on, standardized scholastic aptitude tests.

Paragraph (b) has been shortened but not substantively changed. The requirement in former subparagraph (1) that recipients provide and administer evaluation materials in the native language of the student has been deleted as unnecessary, since the same requirement already exists under title VI and is more appropriately covered under that statute. Subparagraphs (1) and (2) are, in general, intended to prevent misinterpretation and similar misuse of test scores and, in particular, to avoid undue reliance on general intelligence tests. Subparagraph (3) requires a recipient to administer tests to a student with impaired sensory, manual, or speaking skills in whatever manner is necessary to avoid distortion of the test results by the impairment. Former subparagraph (4) has been deleted as unnecessarily repetitive of the other provisions of this paragraph.

Paragraph (c) requires a recipient to draw upon a variety of sources in the evaluation process so that the possibility of error in classification is minimized. In particular, it requires that all significant factors relating to the learning process, including adaptive behavior, be considered. (Adaptive behavior is the effectiveness with which the individual meets the standards of personal independence and social responsibility expected of his or her age and cultural group.) Information from all sources must be documented and considered by a group of persons, and the procedure must ensure that the child is placed in the most integrated setting appropriate.

The proposed regulation would have required a complete individual reevaluation of the student each year. The Department has concluded that it is inappropriate in the section 504 regulation to require full reevaluations on such a rigid schedule. Accordingly, § 84.35(c) requires periodic reevaluations and specifies that reevaluations in accordance with the EHA will constitute compliance. The proposed regulation implementing the EHA allows reevaluation at three-year intervals except under certain specified circumstances.

Under § 84.36, a recipient must establish a system of due process procedures to be afforded to parents or guardians before the recipient takes any action regarding the identification, evaluation, or educational placement of a person who, because of handicap, needs or is believed to need special education or related services. This section has been revised. Because the due process procedures of the EHA, incorporated by reference in the proposed section 504 regulation, are inappropriate for some recipients not subject to that Act, the section now specifies minimum necessary procedures: notice, a right to inspect records, an impartial hearing with a right to representation by counsel, and a review procedure. The EHA procedures remain one means of meeting the regulation's due process requirements, however, and are recommended to recipients as a model.

26. *Nonacademic services.* Section 84.37 requires a recipient to provide nonacademic and extracurricular services and activities in such manner as is necessary to afford handicapped students an equal opportunity for participation. Because these services and activities are part of a recipient's education program, they must, in accordance with the

provisions of § 84.34, be provided in the most integrated setting appropriate.

Revised paragraph (c)(2) does permit separation or differentiation with respect to the provision of physical education and athletics activities, but only if qualified handicapped students are also allowed the opportunity to compete for regular teams or participate in regular activities. Most handicapped students are able to participate in one or more regular physical education and athletics activities. For example, a student in a wheelchair can participate in regular archery course, as can a deaf student in a wrestling course.

Finally, the one-year transition period provided in former § 84.37(a)(3) was deleted in response to the almost unanimous objection of commenters to that provision.

27. *Preschool and adult education.* Section 84.38 prohibits discrimination on the basis of handicap in preschool and adult education programs. Former paragraph (b), which emphasized that compensatory programs for disadvantaged children are subject to section 504, has been deleted as unnecessary, since it is comprehended by paragraph (a).

28. *Private education.* Section 84.39 sets forth the requirements applicable to recipients that operate private education programs and activities. The obligations of these recipients have been changed in two significant respects: first, private schools are subject to the evaluation and due process provisions of the subpart only if they operate special education programs; second, under § 84.39(b), they may charge more for providing services to handicapped students than to nonhandicapped students to the extent that additional charges can be justified by increased costs.

Paragraph (a) of § 84.39 is intended to make clear that recipients that operate private education programs and activities are not required to provide an appropriate education to handicapped students with special educational needs if the recipient does not offer programs designed to meet those needs. Thus, a private school that has no program for mentally retarded persons is neither required to admit such a person into its program nor to arrange or pay for the provision of the person's education in another program. A private recipient without a special program for blind students, however, would not be permitted to exclude, on the basis of blindness, a blind applicant who is able to participate in the regular program with minor adjustments in the manner in which the program is normally offered.

SUBPART E—POSTSECONDARY EDUCATION

Subpart E prescribes requirements for nondiscrimination in recruitment, admission, and treatment of students in postsecondary education programs and activities, including vocational education.

29. *Admission and recruitment.* In addition to a general prohibition of discrimination on the basis of handicap in § 84.42(a), the regulation delineates, in § 84.42(b), specific prohibitions concerning the establishment of limitations on admission of handicapped students, the use of tests or selection criteria, and preadmission inquiry. Several changes have been made in this provision.

Section 84.42(b) provides that postsecondary educational institutions may not use any test or criterion for admission that has a disproportionate, adverse effect on handicapped persons unless it has been validated as a predictor of academic success and alternate tests or criteria with a less disproportionate, adverse effect are shown by the Department to be available. There are two significant changes in this approach from the July 16 proposed regulation.

First, many commenters expressed concern that § 84.42(b)(2)(ii) could be interpreted to require a "global search" for alternate tests that do not have a disproportionate, adverse impact on handicapped persons. This was not the intent of the provision and, therefore, it has been amended to place the burden on the Director of the Office for Civil Rights, rather than on the recipient, to identify alternate tests.

Second, a new paragraph (d), concerning validity studies, has been added. Under the proposed regulation, overall success in an education program, not just first-year grades, was the criterion against which admissions tests were to be validated. This approach has been changed to reflect the comment of professional testing services that use of first-year grades would be less disruptive of present practice and that periodic validity studies against overall success in the education program would be sufficient check on the reliability of first-year grades.

Section 84.42(b)(3) also requires a recipient to assure itself that admissions tests are selected and administered to applicants with impaired sensory, manual, or speaking skills in such manner as is necessary to avoid unfair distortion of test results. Methods have been developed for testing the aptitude and achievement of persons who are not able to take written tests or even to make the marks required for mechanically scored objective tests; in addition, methods for testing persons with visual or hearing impairments are available. A recipient, under this paragraph, must assure itself that such methods are used with respect to the selection and administration of any admissions tests that it uses.

Section 84.42(b)(3)(iii) has been amended to require that admissions tests be administered in facilities that, on the whole, are accessible. In this context, "on the whole" means that not all of the facilities need be accessible so long as a sufficient number of facilities are available to handicapped persons.

Revised § 84.42(b)(4) generally prohibits preadmission inquiries as to whether an applicant has a handicap. The considerations that led to this revision are similar to those underlying the comparable revision of § 84.14 on preemployment inquiries. The regulation does, however, allow inquiries to be made, after admission but before enrollment, as to handicaps that may require accommodation.

New paragraph (c) parallels the section on preemployment inquiries and allows postsecondary institutions to inquire about applicants' handicaps before admission, subject to certain safeguards, if the purpose of the inquiry is to take remedial action to correct past discrimination or to take voluntary action to overcome the limited participation of handicapped persons in postsecondary educational institutions.

Proposed § 84.42(c), which would have allowed different admissions criteria in certain cases for handicapped persons, was widely misinterpreted in comments from both handicapped persons and recipients. We have concluded that the section is unnecessary, and it has been deleted.

30. *Treatment of students.* Section 84.43 contains general provisions prohibiting the discriminatory treatment of qualified handicapped applicants. Paragraph (b) requires recipients to ensure that equal opportunities are provided to its handicapped students in education programs and activities that are not operated by the recipient. The recipient must be satisfied that the outside education program or activity as a whole is nondiscriminatory. For example, a college must ensure that discrimination on the basis of handicap does not occur in connection with teaching assignments of student teachers in elementary or secondary schools not operated by the college. Under the "as a whole" wording, the college could continue to use elementary or secondary school systems that discriminate if, and only if, the college's student teaching program, when viewed in its entirety, offered handicapped student teachers the same range and quality of choice in student teaching assignments afforded nonhandicapped students.

Paragraph (c) of this section prohibits a recipient from excluding qualified handicapped students from any course, course of study, or other part of its education program or activity. This paragraph is designed to eliminate the practice of excluding handicapped persons from specific courses and from areas of concentration because of factors such as ambulatory difficulties of the student or assumptions by the recipient that no job would be available in the area in question for a person with that handicap.

New paragraph (d) requires postsecondary institutions to operate their programs and activities so that handicapped students are provided services in the most integrated setting appropriate. Thus, if a college had several elementary physics classes and had moved one such class to the first floor of the science building to accommodate students in wheelchairs, it would be a violation of this paragraph for the college to concentrate handicapped students with no mobility impairments in the same class.

31. *Academic adjustments.* Paragraph (a) of § 84.44 requires that a recipient make certain adjustments to academic requirements and practices that discriminate or have the effect of discriminating on the basis of handicap. This requirement, like its predecessor in the proposed regulation, does not obligate an institution to waive course or other academic requirements. But such institutions must accommodate those requirements to the needs of individual handicapped students. For example, an institution might permit an otherwise qualified handicapped student who is deaf to substitute an art appreciation or music history course for a required course in music appreciation or could modify the manner in which the music appreciation course is conducted for the deaf student. It should be stressed that academic requirements that can be demonstrated by the recipient to be essential to its program of instruction or to particular degrees need not be changed.

Paragraph (b) provides that postsecondary institutions may not impose rules that have the effect of limiting the participation of handicapped students in the education program. Such rules include prohibition of tape recorders or braillers in classrooms and dog guides in campus buildings. Several recipients expressed concern about allowing students to tape record lectures because the professor may later want to copyright the lectures. This problem may be solved by requiring students to sign agreements that they will not release the tape recording or transcription or otherwise hinder the professor's ability to obtain a copyright.

Paragraph (c) of this section, concerning the administration of course examinations to students with impaired sensory, manual, or speaking skills, parallels the regulation's provisions on admissions testing (§ 84.42(b)) and will be similarly interpreted.

Under § 84.44(d), a recipient must ensure that no handicapped student is subject to discrimination in the recipient's program because of the absence of necessary auxiliary educational aids. Colleges and universities expressed concern about the costs of compliance with this provision.

The Department emphasizes that recipients can usually meet this obligation by assisting students in using existing resources for auxiliary aids such as state vocational re-

habilitation agencies and private charitable organizations. Indeed, the Department anticipates that the bulk of auxiliary aids will be paid for by state and private agencies, not by colleges or universities. In those circumstances where the recipient institution must provide the educational auxiliary aid, the institution has flexibility in choosing the methods by which the aids will be supplied. For example, some universities have used students to work with the institution's handicapped students. Other institutions have used existing private agencies that tape texts for handicapped students free of charge in order to reduce the number of readers needed for visually impaired students.

As long as no handicapped person is excluded from a program because of the lack of an appropriate aid, the recipient need not have all such aids on hand at all times. Thus, readers need not be available in the recipient's library at all times so long as the schedule of times when a reader is available is established, is adhered to, and is sufficient. Of course, recipients are not required to maintain a complete braille library.

32. *Housing.* Section 84.45(a) requires postsecondary institutions to provide housing to handicapped students at the same cost as they provide it to other students and in a convenient, accessible, and comparable manner. Commenters, particularly blind persons, pointed out that some handicapped persons can live in any college housing and need not wait to the end of the transition period in Subpart C to be offered the same variety and scope of housing accommodations given to nonhandicapped persons. The Department concurs with this position and will interpret this section accordingly.

A number of colleges and universities reacted negatively to paragraph (b) of this section. It provides that, if a recipient assists in making off-campus housing available to its students, it should develop and implement procedures to assure itself that off-campus housing, as a whole, is available to handicapped students. Since postsecondary institutions are presently required to assure themselves that off-campus housing is provided in a manner that does not discriminate on the basis of sex (§ 86.32 of the title IX regulation), they may use the procedures developed under title IX in order to comply with § 84.45(b). It should be emphasized that not every off-campus living accommodation need be made accessible to handicapped persons.

33. *Health and insurance.* Section 84.46 of the proposed regulation, providing that recipients may not discriminate on the basis of handicap in the provision of health and related services, has been deleted as duplicative of the general provisions of section 84.43. This deletion represents no change in the obligation of recipients to provide nondiscriminatory health and insurance plans. The Department will continue to require that nondiscriminatory health services be provided to handicapped students. Recipients are not required, however, to provide specialized services and aids to handicapped persons in health programs. If, for example, a college infirmary treats only simple disorders such as cuts, bruises, and colds, its obligation to handicapped persons is to treat such disorders for them.

34. *Financial assistance.* Section 84.46(a) (formerly § 84.47), prohibiting discrimination in providing financial assistance, remains substantively the same. It provides that recipients may not provide less assistance to or limit the eligibility of qualified handicapped persons for such assistance, whether the assistance is provided directly by the recipient or by another entity through the recipient's sponsorship. Awards that are made under wills, trusts, or similar legal instruments in a discriminatory manner are permissible, but only if the overall effect of the recipient's provision of financial assistance is not discriminatory on the basis of handicap.

It will not be considered discriminatory to deny, on the basis of handicap, an athletic scholarship to a handicapped person if the handicap renders the person unable to qualify for the award. For example, a student who has a neurological disorder might be denied a varsity football scholarship on the basis of his inability to play football, but a deaf person could not, on the basis of handicap, be denied a scholarship for the school's diving team. The deaf person could, however, be denied a scholarship on the basis of comparative diving ability.

Commenters on § 84.46(b), which applies to assistance in obtaining outside employment for students, expressed similar concerns to those raised under § 84.43(b), concerning cooperative programs. This paragraph has been changed in the same manner as § 84.43(b) to include the "as a whole" concept and will be interpreted in the same manner as § 84.43(b).

35. *Nonacademic services.* Section 84.47 (formerly § 84.48) establishes nondiscrimination standards for physical education and athletics counseling and placement services, and social organizations. This section sets the same standards as does § 84.38 of Subpart D, discussed above, and will be interpreted in a similar fashion.

Subpart F—Health, Welfare, and Social Services

Subpart F applies to recipients that operate health, welfare, and social service programs. The Department received fewer comments on this subpart than on others.

Although many commented that Subpart F lacked specificity, these commenters provided neither concrete suggestions nor additions. Nevertheless, some changes have been made, pursuant to comment, to clarify the obligations of recipients in specific areas. In addition, in an effort to reduce duplication in the regulation, the section governing recipients providing health services (proposed § 84.52) has been consolidated with the section regulating providers of welfare and social services (proposed §84.53). Since the separate provisions that appeared in the proposed regulation were almost identical, no substantive change should be inferred from their consolidation.

Several commenters asked whether Subpart F applies to vocational rehabilitation agencies whose purpose is to assist in the rehabilitation of handicapped persons. To the extent that such agencies receive financial assistance from the Department, they are covered by Subpart F and all other relevant subparts of the regulation. Nothing in this regulation, however, precludes such agencies from servicing only handicapped persons. Indeed, § 84.4(c) permits recipients to offer services or benefits that are limited by federal law to handicapped persons or classes of handicapped persons.

Many comments suggested requiring state health, welfare, and social service agencies to take an active role in the enforcement of section 504 with regard to local health and social service providers. The Department believes that the possibility for federal-state cooperation in the administration and enforcement of section 504 warrants further consideration. Moreover, the Department will rely largely on state Medicaid agencies, as it has under title VI, for monitoring compliance by individual Medicaid providers.

A number of comments also discussed whether section 504 should be read to require payment of compensation to institutionalized handicapped patients who perform services for the institution in which they reside. The Department of Labor has recently issued a proposed regulation under the Fair Labor Standards Act (FLSA) that covers the question of compensation for institutionalized persons. 42 FR 15224 (March 18, 1977). This Department will seek information and comment from the Department of Labor concerning that agency's experience administering the FLSA regulation.

36. *Health, welfare, and other social service providers.* As already noted, § 84.53 has been combined with proposed § 84.53 into a single section covering health, welfare, and other social services. Section 84.52(a) has been expanded in several respects. The addition of new paragraph (a)(2) is intended to make clear the basic requirement of equal opportunity to receive benefits or services in the health, welfare, and social service areas. The paragraph parallels §§ 84.4 (b)(ii) and 84.43(b). New paragraph (a)(3) requires the provision of effective benefits or services, as defined in § 84.4(b)(2) (i.e., benefits or services which "afford handicapped persons equal opportunity to obtain the same result (or) to gain the same benefit * * *").

Section 84.52(a) also includes provisions concerning the limitation of benefits or services to handicapped persons and the subjection of handicapped persons to different eligibility standards. (These provisions were previously included in the welfare recipient section (§ 84.53(a)).) One common misconception about the regulation is that it would require specialized hospitals and other health care providers to treat all handicapped persons. The regulation makes no such requirement. Thus, a burn treatment center need not provide other types of medical treatment to handicapped persons ,unless it provides such medical services to nonhandicapped persons. It could not, however, refuse to treat the burns of a deaf person because of his or her deafness.

Commenters had raised the question of whether the prohibition against different standards of eligibility might preclude recipients from providing special services to handicapped persons or classes of handicapped persons. The regulation will not be so interpreted, and the specific section in question has been eliminated. Section 84.4(c) makes clear that special programs for handicapped persons are permitted.

A new paragraph (a)(5) concerning the provision of different or separate services or benefits has been added. This provision prohibits such treatment unless necessary to provide qualified handicapped persons with benefits and services that are as effective as those provided to others.

Section 84.52(a)(2) of the proposed regulation has been omitted as duplicative of revised § 84.22 (b) and (c) in Subpart C. As discussed above, these sections permit health care providers to arrange to meet patients in accessible facilities and to make referrals in carefully limited circumstances.

Section 84.52(a)(3) of the proposed regulation has been redesignated § 84.52(b) and has been amended to cover written material concerning waivers of rights or consent to treatment as well as general notices concerning health benefits or services. The section requires the recipient to ensure that qualified handicapped persons are not denied effective notice because of their handicap. For Example, recipients could use several different types of notice in order to reach persons with impaired vision or hearing, such as brailled messages, radio spots, and tactile devices on cards or envelopes to inform blind persons of the need to call the recipient for further information.

Sections 84.52(a)(4), 84.52(a)(5), and 84.52(b) have been omitted from the regula-

tion as unnecessary. They are clearly comprehended by the more general sections banning discrimination.

Section 84.52(c) is a new section requiring recipient hospitals to establish a procedure for effective communication with persons with impaired hearing for the purpose of providing emergency health care. Although it would be appropriate for a hospital to fulfill its responsibilities under this section by having a full-time interpreter for the deaf on staff, there may be other means of accomplishing the desired result of assuring that some means of communication is immediately available for deaf persons needing emergency treatment.

Section 84.52(d), also a new provision, requires recipients with fifteen or more employees to provide appropriate auxiliary aids for persons with impaired sensory, manual, or speaking skills. Further, the Director may require a small provider to furnish auxiliary aids where the provision of aids would not adversely affect the ability of the recipient to provide its health benefits or services. Thus, although a small nonprofit neighborhood clinic might not be obligated to have available an interpreter for deaf persons, the Director may require provision of such aids as may be resonably available to ensure that qualified handicapped persons are not denied appropriate benefits or services because of their handicaps.

37. *Treatment of Drug Addicts and Alcoholics.* Section 84.53 is a new section that prohibits discrimination in the treatment and admission of drug and alcohol addicts to hospitals and outpatient facilities. This section is included pursuant to section 407, Public Law 92-255, the Drug Abuse Office and Treatment Act of 1972 (21 U.S.C. 1174), as amended, and section 321, Public Law 91-616, the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment, and Rehabilitation Act of 1970 (42 U.S.C. 4581), as amended, and section 321, Public Law 93-282. Section 504 itself also prohibits such discriminatory treatment and, in addition, prohibits similar discriminatory treatment by other types of health providers. Section 84.53 prohibits discrimination against drug abusers by operators of outpatient facilities, despite the fact that section 407 pertains only to hospitals, because of the broader application of section 504. This provision does not mean that all hospitals and outpatient facilities must treat drug addiction and alcoholism. It simply means, for example, that a cancer clinic may not refuse to treat cancer patients simply because they are also alcoholics.

38. *Education of institutionalized persons.* The regulation retains § 84.54 of the proposed regulation that requires that an appropriate education be provided to qualified handicapped persons who are confined to residential institutions or day care centers.

Subpart G—Procedures

In § 84.61, the Secretary has adopted the title VI complaint and enforcement procedures for use in implementing section 504 until such time as they are superseded by the issuance of a consolidated procedural regulation applicable to all of the civil rights statutes and executive orders administered by the Department.

Appendix B—Enforcement Procedures

Sections 80.6-80.10 and Part 81 of Title 45 of the Code of Federal Regulations are reprinted here without change for the convenience of the reader:

§ 80.6 Compliance information.

(a) *Cooperation and assistance.* The responsible Department official shall to the fullest extent practicable seek the cooperation of recipients in obtaining compliance with this part and shall provide assistance and guidance to recipients to help them comply voluntarily with this part.

(b) *Compliance reports.* Each recipient shall keep such records and submit to the responsible Department official or his designee timely, complete and accurate compliance reports at such times, and in such form and containing such information, as the responsible Department official or his designee may determine to be necessary to enable him to ascertain whether the recipient has complied or is complying with this part. For example, recipients should have available for the Department racial and ethnic data showing the extent to which members of minority groups are beneficiaries of and participants in federally-assisted programs. In the case of any program under which a primary recipient extends Federal financial assistance to any other recipient, such other recipient shall also submit such compliance reports to the primary recipient as may be necessary to enable the primary recipient to carry out its obligations under this part.

(c) *Access to sources of information.* Each recipient shall permit access by the responsible Department official or his designee during normal business hours to such of its books, records, accounts, and other sources of information, and its facilities as may be pertinent to ascertain compliance with this part. Where any information required of a recipient is in the exclusive possession of any other agency, institution or person and this agency, institution or person shall fail or refuse to furnish this information the recipient shall so certify in its report and shall set forth what efforts it has made to obtain the information. Asserted considerations of privacy or confidentiality may not operate to bar the Department from evaluating or seeking to enforce compliance with this Part. Information of a confidential nature obtained in connection with compliance evaluation or enforcement shall not be disclosed except where necessary in formal enforcement proceedings or where otherwise required by law.

(d) *Information to beneficiaries and participants.* Each recipient shall make available to participants, beneficiaries, and other interested persons such information regarding the provisions of this regulation and its applicability to the program for which the recipient receives Federal financial assistance, and make such information available to them in such manner, as the responsible Department official finds necessary to apprise such persons of the protections against discrimination assured them by the Act and this regulation.

(Sec. 601, 602, Civil Rights Act of 1964; 78 Stat. 252; 42 U.S.C. 2000d, 2000d–1) [29 FR 16298, Dec. 4, 1964, as amended at 32 FR 14555, Oct. 19, 1967; 38 FR 17981, 17982, July 5, 1973]

§ 80.7 Conduct of investigations.

(a) *Periodic compliance reviews.* The responsible Department official or his designee shall from time to time review the practices of recipients to determine whether they are complying with this part.

(b) *Complaints.* Any person who believes himself or any specific class of individuals to be subjected to discrimination prohibited by this part may by himself or by a representative file with the responsible Department official or his designee a written complaint. A complaint must be filed not later than 180 days from the date of the alleged discrimination, unless the time for filing is extended by the responsible Department official or his designee.

(c) *Investigations.* The responsible Department official or his designee will make a prompt investigation whenever a compliance review, report, complaint, or any other information indicates a possible failure to comply with this part. The investigation should include, where appropriate, a review of the pertinent practices and policies of the recipient, the circumstances under which the possible noncompliance with this part occurred, and other factors relevant to a determination as to whether the recipient has failed to comply with this part.

(d) *Resolution of matters.* (1) If an investigation pursuant to paragraph (c) of this section indicates a failure to comply with this part, the responsible Department official or his designee will so inform the recipient and the matter will be resolved by informal means whenever possible. If it has been determined that the matter cannot be resolved by informal means, action will be taken as provided for in § 80.8.

(2) If an investigation does not warrant action pursuant to subparagraph (1) of this paragraph the responsible Department official or his designee will so inform the recipient and the complainant, if any, in writing.

(e) *Intimidatory or retaliatory acts prohibited.* No recipient or other person shall intimidate, threaten, coerce, or discriminate against any individual for the purpose of interfering with any right or privilege secured by section 601 of the Act or this part, or because he has made a complaint, testified, assisted, or participated in any manner in an investigation, proceeding or hearing under this part. The identity of complainants shall be kept confidential except to the extent necessary to carry out the purposes of this part, including the conduct of any investigation, hearing, or judicial proceeding arising thereunder.

(Sec. 601, 602, Civil Rights Act of 1964; 78 Stat. 252; 42 U.S.C. 2000d, 2000d–1) [29 FR 16298, Dec. 4, 1964, as amended at 38 FR 17981, 17982, July 5, 1973]

§ 80.8 Procedure for effecting compliance.

(a) *General.* If there appears to be a failure or threatened failure to comply with this regulation, and if the noncompliance or threatened noncompliance cannot be corrected by informal means, compliance with this part may be effected by the suspension or termination of or refusal to grant or to continue Federal financial assistance or by any other means authorized by law. Such other means may include, but are not limited to, (1) a reference to the Department of Justice with a recommendation that appropriate proceedings be brought to enforce any rights of the United States under any law of the United States (including other titles of the Act), or any assurance or other contractual undertaking, and (2) any applicable proceeding under State or local law.

(b) *Noncompliance with § 80.4.* If an applicant fails or refuses to furnish an assurance required under § 80.4 or otherwise fails or refuses to comply with a requirement imposed by or pursuant to that section Federal financial assistance may be refused in accordance with the procedures of paragraph (c) of this section. The Department shall not be required to provide assistance in such a case during the pendency of the administrative proceedings under such paragraph except that the Department shall continue assistance during the pendency of such proceedings where such assistance is due and payable pursuant to an application therefor approved prior to the effective date of this part.

(c) *Termination of or refusal to grant or to continue Federal financial assistance.* No order suspending, terminating or refusing to grant or continue Federal financial assistance shall become effective until (1) the responsible Department official has advised the applicant or recipient of his failure to comply and has determined that compliance cannot be secured by voluntary means, (2) there has been an express finding on the record, after opportunity for hearing, of a failure by the applicant or recipient to comply with a requirement imposed by or pursuant to this part, (3) the expiration of 30 days after the Secretary has filed with the committee of the House and the committee of the Senate having legislative jurisdiction over the program involved, a full written report of the circumstances and the grounds for such action. Any action to suspend or terminate or to refuse to grant or to continue Federal financial assistance shall be limited to the particular political entity, or part thereof, or other applicant or recipient as to whom such a finding has been made and shall be limited in its effect to the particular program, or part thereof, in which such noncompliance has been so found.

(d) *Other means authorized by law.* No action to effect compliance by any other means authorized by law shall be taken until (1) the responsible De-

partment official has determined that compliance cannot be secured by voluntary means, (2) the recipient or other person has been notified of its failure to comply and of the action to be taken to effect compliance, and (3) the expiration of at least 10 days from the mailing of such notice to the recipient or other person. During this period of at least 10 days additional efforts shall be made to persuade the recipient or other person to comply with the regulation and to take such corrective action as may be appropriate.

(Sec. 601, 602, Civil Rights Act of 1964; 78 Stat. 252; 42 U.S.C. 2000d, 2000d-1. Sec. 182, 80 Stat. 1209; 42 U.S.C. 2000d-5) [29 FR 16298, Dec. 4, 1964, as amended at 32 FR 14556, Oct. 19, 1967; 38 FR 17982, July 5, 1973]

§ 80.9 Hearings.

(a) *Opportunity for hearing.* Whenever an opportunity for a hearing is required by § 80.8(c), reasonable notice shall be given by registered or certified mail, return receipt requested, to the affected applicant or recipient. This notice shall advise the applicant or recipient of the action proposed to be taken, the specific provision under which the proposed action against it is to be taken, and the matters of fact or law asserted as the basis for this action, and either (1) fix a date not less than 20 days after the date of such notice within which the applicant or recipient may request of the responsible Department official that the matter be scheduled for hearing or (2) advise the applicant or recipient that the matter in question has been set down for hearing at a stated place and time. The time and place so fixed shall be reasonable and shall be subject to change for cause. The complainant, if any, shall be advised of the time and place of the hearing. An applicant or recipient may waive a hearing and submit written information and argument for the record. The failure of an applicant or recipient to request a hearing for which a date has been set shall be deemed to be a waiver of the right to a hearing under section 602 of the Act and § 80.8(c) of this regulation and consent to the making of a decision on the basis of such information as may be filed as the record.

(b) *Time and place of hearing.* Hearings shall be held at the offices of the Department in Washington, D.C., at a time fixed by the responsible Department official unless he determines that the convenience of the applicant or recipient or of the Department requires that another place be selected. Hearings shall be held before a hearing examiner designated in accordance with 5 U.S.C. 3105 and 3344 (section 11 of the Administrative Procedure Act).

(c) *Right to counsel.* In all proceedings under this section, the applicant or recipient and the Department shall have the right to be represented by counsel.

(d) *Procedures, evidence, and record.* (1) The hearing, decision, and any administrative review thereof shall be conducted in conformity with sections 5–8 of the Administrative Procedure Act, and in accordance with such rules of procedure as are proper (and not inconsistent with this section) relating to the conduct of the hearing, giving of notices subsequent to those provided for in paragraph (a) of this section, taking of testimony, exhibits, arguments and briefs, requests for findings, and other related matters. Both the Department and the applicant or recipient shall be entitled to introduce all relevant evidence on the issues as stated in the notice for hearing or as determined by the officer conducting the hearing at the outset of or during the hearing. Any person (other than a Government employee considered to be on official business) who, having been invited or requested to appear and testify as a witness on the Government's behalf, attends at a time and place scheduled for a hearing provided for by this part, may be reimbursed for his travel and actual expenses of attendance in an amount not to exceed the amount payable under the standardized travel regulations to a Government employee traveling on official business.

(2) Technical rules of evidence shall not apply to hearings conducted pursuant to this part, but rules or principles designed to assure production of the most credible evidence available and to subject testimony to test by cross-examination shall be applied where reasonably necessary by the officer conducting the hearing. The hearing officer may exclude irrelevant, immaterial, or unduly repetitious evidence. All documents and other evidence offered or taken for the record shall be open to examination by the parties and opportunity shall be given to refute facts and arguments advanced on either side of the issues. A transcript shall be made of the oral evidence except to the extent the substance thereof is stipulated for the record. All decisions shall be based upon the hearing record and written findings shall be made.

(e) *Consolidated or Joint Hearings.* In cases in which the same or related facts are asserted to constitute noncompliance with this regulation with respect to two or more programs to which this part applies, or noncompliance with this part and the regulations of one or more other Federal departments or agencies issued under Title VI of the Act, the responsible Department official may, by agreement with such other departments or agencies where applicable, provide for the conduct of consolidated or joint hearings, and for the application to such hearings of rules of procedures not inconsistent with this part. Final decisions in such cases, insofar as this regulation is concerned, shall be made in accordance with § 80.10.

(Sec. 602, Civil Rights Act of 1964; 78 Stat. 252; 42 U.S.C. 2000d-1) [29 FR 16298, Dec. 4, 1964, as amended at 32 FR 14555, Oct. 19, 1967; 38 FR 17981, 17982, July 5, 1973]

§ 80.10 Decisions and notices.

(a) *Decisions by hearing examiners.* After a hearing is held by a hearing examiner such hearing examiner shall either make an initial decision, if so authorized, or certify the entire record including his recommended findings and proposed decision to the reviewing authority for a final decision, and a copy of such initial decision or certification shall be mailed to the applicant or recipient and to the complainant, if any. Where the initial decision referred to in this paragraph or in paragraph (c) of this section is made by the hearing examiner, the applicant or recipient or the counsel for the Department may, within the period provided for in the rules of procedure issued by the responsible Department official, file with the reviewing authority exceptions to the initial decision, with his reasons therefor. Upon the filing of such exceptions the reviewing authority shall review the initial decision and issue its own decision thereof including the reasons therefor. In the absence of exceptions the initial decision shall constitute the final decision, subject to the provisions of paragraph (e) of this section.

(b) *Decisions on record or review by the reviewing authority.* Whenever a record is certified to the reviewing authority for decision or it reviews the decision of a hearing examiner pursuant to paragraph (a) or (c) of this section, the applicant or recipient shall be given reasonable opportunity to file with it briefs or other written statements of its contentions, and a copy of the final decision of the reviewing authority shall be given in writing to the applicant or recipient and to the complainant, if any.

(c) *Decisions on record where a hearing is waived.* Whenever a hearing is waived pursuant to § 80.9(a) the reviewing authority shall make its final decision on the record or refer the matter to a hearing examiner for an initial decision to be made on the record. A copy of such decision shall be given in writing to the applicant or recipient, and to the complainant, if any.

(d) *Rulings required.* Each decision of a hearing examiner or reviewing authority shall set forth a ruling on each finding, conclusion, or exception presented, and shall identify the requirement or requirements imposed by or pursuant to this part with which it is found that the applicant or recipient has failed to comply.

(e) *Review in certain cases by the Secretary.* If the Secretary has not personally made the final decision referred to in paragraphs (a), (b), or (c) of this section, a recipient or applicant or the counsel for the Department may request the Secretary to review a decision of the Reviewing Authority in accordance with rules of procedure issued by the responsible Department official. Such review is not a matter of right and shall be granted only where the Secretary determines there are special and important reasons therefor. The Secretary may grant or deny such request, in whole or in part. He may also review such a decision upon his own motion in accordance with rules of procedure issued by the responsible Department official. In the absence of a review under this paragraph, a final decision referred to in paragraphs (a), (b), (c) of this section shall become the final decision of the Department when the Secretary transmits it as such to Congressional committees with the report required under section 602 of the Act. Failure of an applicant or recipient to file an exception with the Reviewing Authority or to request review under this paragraph shall not be deemed a failure to exhaust administrative remedies for the purpose of obtaining judicial review.

(f) *Content of orders.* The final decision may provide for suspension or termination of, or refusal to grant or continue Federal financial assistance, in whole or in part, to which this regulation applies, and may contain such terms, conditions, and other provisions as are consistent with and will effectuate the purposes of the Act and this regulation, including provisions designed to assure that no Federal financial assistance to which this regulation applies will thereafter be extended under such law or laws to the applicant or recipient determined by such decision to be in default in its performance of an assurance given by it pursuant to this regulation, or to have otherwise failed to comply with this regulation unless and until it corrects its noncompliance and satisfies the responsible Department official that it will fully comply with this regulation.

(g) *Post-termination proceedings.* (1) An applicant or recipient adversely affected by an order issued under paragraph (f) of this section shall be restored to full eligibility to receive Federal financial assistance if it satisfies the terms and conditions of that order for such eligibility or if it brings itself into compliance with this part and provides reasonable assurance that it will fully comply with this part. An elementary or secondary school or school system which is unable to file an assurance of compliance with § 80.3 shall be restored to full eligibility to receive Federal financial assistance, if it files a court order or a plan for desegregation which meets the requirements of § 80.4(c), and provides reasonable assurance that it will comply with the court order or plan.

(2) Any applicant or recipient adversely affected by an order entered pursuant to paragraph (f) of this section may at any time request the responsible Department official to restore fully its eligibility to receive Federal financial assistance. Any such request shall be supported by information showing that the applicant or recipient has met the requirements of subparagraph (1) of this paragraph. If the responsible Department official determines that those requirements have been satisfied, he shall restore such eligibility.

(3) If the responsible Department official denies any such request, the applicant or recipient may submit a request for a hearing in writing, specifying why it believes such official to have been in error. It shall thereupon be given an expeditious hearing, with a decision on the record, in accordance with rules of procedure issued by the responsible Department official. The applicant or recipient will be restored to such eligibility if it proves at such hearing that it satisfied the requirements of subparagraph (1) of this paragraph. While proceedings under this paragraph are pending, the sanctions imposed by the order issued under paragraph (f) of this section shall remain in effect.

(Sec. 602, Civil Rights Act of 1964; 78 Stat. 252; 42 U.S.C. 2000d–1) [29 FR 16298, Dec. 4, 1964, as amended at 32 FR 14555, Oct. 19, 1967; 38 FR 17981, 17982, July 5, 1973]

PART 81—PRACTICE AND PROCEDURE FOR HEARINGS UNDER PART 80 OF THIS TITLE

Subpart A—General Information

Sec.
81.1 Scope of rules.
81.2 Records to be public.
81.3 Use of gender and number.
81.4 Suspension of rules.

Subpart B—Appearance and Practice

81.11 Appearance.
81.12 Authority for representation.
81.13 Exclusion from hearing for misconduct.

Subpart C—Parties

81.21 Parties; General Counsel deemed a party.
81.22 Amici curiae.
81.23 Complainants not parties.

Subpart D—Form, Execution, Service and Filing of Documents

81.31 Form of documents to be filed.
81.32 Signature of documents.
81.33 Filing and service.
81.34 Service—how made.
81.35 Date of service.
81.36 Certificate of service.

Subpart E—Time

81.41 Computation.
81.42 Extension of time or postponement.
81.43 Reduction of time to file documents.

Subpart F—Proceedings Prior to Hearing

81.51 Notice of hearing or opportunity for hearing.
81.52 Answer to notice.
81.53 Amendment of notice or answer.
81.54 Request for hearing.
81.55 Consolidation.
81.56 Motions.
81.57 Responses to motions and petitions.
81.58 Disposition of motions and petitions.

Subpart G—Responsibilities and Duties of Presiding Officer

81.61 Who presides.
81.62 Designation of hearing examiner.
81.63 Authority of presiding officer.

Subpart H—Hearing Procedures

81.71 Statement of position and trial briefs.
81.72 Evidentiary purpose.
81.73 Testimony.
81.74 Exhibits.
81.75 Affidavits.
81.76 Depositions.
81.77 Admissions as to facts and documents.
81.78 Evidence.
81.79 Cross-examination.
81.80 Unsponsored written material.
81.81 Objections.
81.82 Exceptions to rulings of presiding officer unnecessary.

Sec.
81.83 Official notice.
81.84 Public document items.
81.85 Offer of proof.
81.86 Appeals from ruling of presiding officer.

Subpart I—The Record

81.91 Official transcript.
81.92 Record for decision.

Subpart J—Posthearing Procedures, Decisions

81.101 Posthearing briefs; proposed findings and conclusions.
81.102 Decisions following hearing.
81.103 Exceptions to initial or recommended decisions.
81.104 Final decisions.
81.105 Oral argument to the reviewing authority.
81.106 Review by the Secretary.
81.107 Service on amici curiae.

Subpart K—Judicial Standards of Practice

81.111 Conduct.
81.112 Improper conduct.
81.113 Ex parte communications.
81.114 Expeditious treatment.
81.115 Matters not prohibited.
81.116 Filing of ex parte communications.

Subpart L—Posttermination Proceedings

81.121 Posttermination proceedings.

Subpart M—Definitions

81.131 Definitions.

AUTHORITY: The provisions of this Part 81 are issued under 5 U.S.C. 301 and 45 CFR 80.9(d).

SOURCE: The provisions of this Part 81 appear at 32 F.R. 15156, Nov. 2, 1967, unless otherwise noted.

Subpart A—General Information

§ 81.1 Scope of rules.

The rules of procedure in this part supplement §§ 80.9 and 80.10 of this subtitle and govern the practice for hearings, decisions, and administrative review conducted by the Department of Health, Education, and Welfare, pursuant to Title VI of the Civil Rights Act of 1964 (sec. 602, 78 Stat. 252) and Part 80 of this subtitle.

§ 81.2 Records to be public.

All pleadings, correspondence, exhibits, transcripts of testimony, exceptions, briefs, decisions, and other documents filed in the docket in any proceeding may be inspected and copied in the office of the Civil Rights hearing clerk. Inquiries may be made at the Central Information Center, Department of Health, Education, and Welfare, 330 Independence Avenue SW., Washington, D.C. 20201.

§ 81.3 Use of gender and number.

As used in this part, words importing the singular number may extend and be applied to several persons or things, and vice versa. Words importing the masculine gender may be applied to females or organizations.

§ 81.4 Suspension of rules.

Upon notice to all parties, the reviewing authority or the presiding officer, with respect to matters pending before them, may modify or waive any rule in this part upon determination that no party will be unduly prejudiced and the ends of justice will thereby be served.

Subpart B—Appearance and Practice

§ 81.11 Appearance.

A party may appear in person or by counsel and participate fully in any proceeding. A State agency or a corporation may appear by any of its officers or by any employee it authorizes to appear on its behalf. Counsel must be members in good standing of the bar of a State, Territory, or possession of the United States or of the District of Columbia or the Commonwealth of Puerto Rico.

§ 81.12 Authority for representation.

Any individual acting in a representative capacity in any proceeding may be required to show his authority to act in such capacity.

§ 81.13 Exclusion from hearing for misconduct.

Disrespectful, disorderly, or contumacious language or contemptuous conduct, refusal to comply with directions, or continued use of dilatory tactics by any person at any hearing before a presiding officer shall constitute grounds for immediate exclusion of such person from the hearing by the presiding officer.

Subpart C—Parties

§ 81.21 Parties; General Counsel deemed a party.

(a) The term party shall include an applicant or recipient or other person to whom a notice of hearing or opportunity for hearing has been mailed naming him as respondent.

(b) The General Counsel of the Department of Health, Education, and Welfare shall be deemed a party to all proceedings.

§ 81.22 *Amici curiae.*

(a) Any interested person or organization may file a petition to participate in a proceeding as an amicus curiae. Such petition shall be filed prior to the prehearing conference, or if none is held, before the commencement of the hearing, unless the petitioner shows good cause for filing the petition later. The presiding officer may grant the petition if he finds that the petitioner has a legitimate interest in the proceedings, that such participation will not unduly delay the outcome, and may contribute materially to the proper disposition thereof. An amicus curiae is not a party and may not introduce evidence at a hearing.

(b) An amicus curiae may submit a statement of position to the presiding officer prior to the beginning of a hearing, and shall serve a copy on each party. The amicus curiae may submit a brief on each occasion a decision is to be made or a prior decision is subject to review. His brief shall be filed and served on each party within the time limits applicable to the party whose position he deems himself to support; or if he does not deem himself to support the position of any party, within the longest time limit applicable to any party at that particular stage of the proceedings.

(c) When all parties have completed their initial examination of a witness, any amicus curiae may request the presiding officer to propound specific questions to the witness. The presiding officer, in his discretion, may grant any such request if he believes the proposed additional testimony may assist materially in elucidating factual matters at issue between the parties and will not expand the issues.

§ 81.23 Complainants not parties.

A person submitting a complaint pursuant to § 80.7(b) of this title is not a party to the proceedings governed by this part, but may petition, after proceedings are initiated, to become an amicus curiae.

Subpart D—Form, Execution, Service and Filing of Documents

§ 81.31 Form of documents to be filed.

Documents to be filed under the rules in this part shall be dated, the original signed in ink, shall show the docket description and title of the proceeding, and shall show the title, if any, and address of the signatory. Copies need not be signed but the name of the person signing the original shall be reproduced. Documents shall be legible and shall not be more than 8½ inches wide and 12 inches long.

§ 81.32 Signature of documents.

The signature of a party, authorized officer, employee or attorney constitutes a certificate that he has read the document, that to the best of his knowledge, information, and belief there is good ground to support it, and that it is not interposed for delay. If a document is not signed or is signed with intent to defeat the purpose of this section, it may be stricken as sham and false and the proceeding may proceed as though the document had not been filed. Similar action may be taken if scandalous or indecent matter is inserted.

§ 81.33 Filing and service.

All notices by a Department official, and all written motions, requests, petitions, memoranda, pleadings, exceptions, briefs, decisions, and correspondence to a Department official from a party, or vice versa, relating to a proceeding after its commencement shall be filed and served on all parties. Parties shall supply the original and two copies of documents submitted for filing. Filings shall be made with the Civil Rights hearing clerk at the address stated in the notice of hearing or notice of opportunity for hearing, during regular business hours. Regular business hours are every Monday through Friday (legal holidays in the District of Columbia excepted) from 9 a.m. to 5:30 p.m., eastern standard or daylight saving time, whichever is effective in the District of Columbia at the time. Originals only of exhibits and transcripts of testimony need be filed. For requirements of service on amici curiae, see § 81.107.

§ 81.34 Service—how made.

Service shall be made by personal delivery of one copy to each person to be served or by mailing by first-class mail, properly addressed with postage prepaid. When a party or amicus has appeared by attorney or other representative, service upon such attorney or representative will be deemed service upon the party or amicus. Documents served by mail preferably should be mailed in sufficient time to reach the addressee by the date on which the original is due to be filed, and should be air mailed if the addressee is more than 300 miles distant.

§ 81.35 Date of service.

The date of service shall be the day when the matter is deposited in the U.S. mail or is delivered in person, except that the date of service of the initial notice of hearing or opportunity for hearing shall be the date of its delivery, or of its attempted delivery if refused.

§ 81.36 Certificate of service.

The original of every document filed and required to be served upon parties to a proceeding shall be endorsed with a certificate of service signed by the party making service or by his attorney or representative, stating that such service has been made, the date of service, and the manner of service, whether by mail or personal delivery.

Subpart E—Time

§ 81.41 Computation.

In computing any period of time under the rules in this part or in an order issued hereunder, the time begins with the day following the act, event, or default, and includes the last day of the period, unless it is a Saturday, Sunday, or legal holiday observed in the District of Columbia, in which event it includes the next following business day. When the period of time prescribed or allowed is less than 7 days, intermediate Saturdays, Sundays, and legal holidays shall be excluded from the computation.

§ 81.42 Extension of time or postponement.

Requests for extension of time should be served on all parties and should set forth the reasons for the application. Applications may be granted upon a showing of good cause by the applicant. From the designation of a presiding officer until the issuance of his decision such requests should be addressed to him. Answers to such requests are permitted, if made promptly.

§ 81.43 Reduction of time to file documents.

For good cause, the reviewing authority or the presiding officer, with respect to matters pending before them, may reduce any time limit prescribed by the rules in this part, except as provided by law or in Part 80 of this title.

Subpart F—Proceedings Prior to Hearing

§ 81.51 Notice of hearing or opportunity for hearing.

Proceedings are commenced by mailing a notice of hearing or opportunity for hearing to an affected applicant or recipient, pursuant to § 80.9 of this title.

§ 81.52 *Answer to notice.*

The respondent, applicant or recipient may file an answer to the notice within 20 days after service thereof. Answers shall admit or deny specifically and in detail each allegation of the notice, unless the respondent party is without knowledge, in which case his answer should so state, and the statement will be deemed a denial. Allegations of fact in the notice not denied or controverted by answer shall be deemed admitted.

Matters alleged as affirmative defenses shall be separately stated and numbered. Failure of the respondent to file an answer within the 20-day period following service of the notice may be deemed an admission of all matters of fact recited in the notice.

§ 81.53 Amendment of notice or answer.

The General Counsel may amend the notice of hearing or opportunity for hearing once as a matter of course before an answer thereto is served, and each respondent may amend his answer once as a matter of course not later than 10 days before the date fixed for hearing but in no event later than 20 days from the date of service of his original answer. Otherwise a notice or answer may be amended only by leave of the presiding officer. A respondent shall file his answer to an amended notice within the time remaining for filing the answer to the original notice or within 10 days after service of the amended notice, whichever period may be the longer, unless the presiding officer otherwise orders.

§ 81.54 Request for hearing.

Within 20 days after service of a notice of opportunity for hearing which does not fix a date for hearing the respondent, either in his answer or in a separate document, may request a hearing. Failure of the respondent to request a hearing shall be deemed a waiver of the right to a hearing and to constitute his consent to the making of a decision on the basis of such information as is available.

§ 81.55 Consolidation.

The responsible Department official may provide for proceedings in the Department to be joined or consolidated for hearing with proceedings in other Federal departments or agencies, by agreement with such other departments or agencies. All parties to any proceeding consolidated subsequently to service of the notice of hearing or opportunity for hearing shall be promptly served with notice of such consolidation.

§ 81.56 Motions.

Motions and petitions shall state the relief sought, the authority relied upon, and the facts alleged. If made before or after the hearing, these matters shall be in writing. If made at the hearing, they may be stated orally; but the presiding officer may require that they be reduced to writing and filed and served on all parties in the same manner as a formal motion. Motions, answers, and replies shall be addressed to the presiding officer, if the case is pending before him. A repetitious motion will not be entertained.

§ 81.57 Responses to motions and petitions.

Within 8 days after a written motion or petition is served, or such other period as the reviewing authority or the presiding officer may fix, any party may file a response thereto. An immediate oral response may be made to an oral motion.

§ 81.58 Disposition of motions and petitions.

The reviewing authority or the presiding officer may not sustain or grant a written motion or petition prior to expiration of the time for filing responses thereto, but may overrule or deny such motion or petition without awaiting response: *Provided, however,* That prehearing conferences, hearings and decisions need not be delayed pending disposition of motions or petitions. Oral motions and petitions may be ruled on immediately. Motions and petitions submitted to the reviewing authority or the presiding officer, respectively, and not disposed of in separate rulings or in their respective decisions will be deemed denied. Oral arguments shall not be held on written motions or petitions unless the presiding officer in his discretion expressly so orders.

Subpart G—Responsibilities and Duties of Presiding Officer

§ 81.61 Who presides.

A hearing examiner assigned under 5 U.S.C. 3105 or 3344 (formerly sec. 11 of the Administrative Procedure Act) shall preside over the taking of evidence in any hearing to which these rules of procedure apply.

§ 81.62 Designation of hearing examiner.

The designation of the hearing examiner as presiding officer shall be in writing, and shall specify whether the examiner is to make an initial decision or to certify the entire record including his recommended findings and proposed decision to the reviewing authority, and may also fix the time and place of hearing. A copy of such order shall be served on all parties. After service of an order designating a hearing examiner to preside, and until such examiner makes his decision, motions and petitions shall be submitted to him. In the case of the death, illness, disqualification or unavailability of the designated hearing examiner, another hearing examiner may be designated to take his place.

§ 81.63 Authority of presiding officer.

The presiding officer shall have the duty to conduct a fair hearing, to take all necessary action to avoid delay, and to maintain order. He shall have all powers necessary to these ends, including (but not limited to) the power to:

(a) Arrange and issue notice of the date, time, and place of hearings, or, upon due notice to the parties, to change the date, time, and place of hearings previously set.

(b) Hold conferences to settle, simplify, or fix the issues in a proceeding, or to consider other matters that may aid in the expeditious disposition of the proceeding.

(c) Require parties and amici curiae to state their position with respect to the various issues in the proceeding.

(d) Administer oaths and affirmations.

(e) Rule on motions, and other procedural items on matters pending before him.

(f) Regulate the course of the hearing and conduct of counsel therein.

(g) Examine witnesses and direct witnesses to testify.

(h) Receive, rule on, exclude or limit evidence.

(i) Fix the time for filing motions, petitions, briefs, or other items in matters pending before him.

(j) Issue initial or recommended decisions.

(k) Take any action authorized by the rules in this part or in conformance with the provisions of 5 U.S.C. 551–559 (the Administrative Procedure Act).

Subpart H—Hearing Procedures

§ 81.71 Statement of position and trial briefs.

The presiding officer may require parties and amici curiae to file written statements of position prior to the beginning of a hearing. The presiding officer may also requre the parties to submit trial briefs.

§ 81.72 Evidentiary purpose.

(a) The hearing is directed to receiving factual evidence and expert opinion testimony related to the issues in the proceeding. Argument will not be received in evidence; rather it should be presented in statements, memoranda, or briefs, as determined by the presiding officer. Brief opening statements, which shall be limited to statement of the party's position and what he intends to prove, may be made at hearings.

(b) Hearings for the reception of evidence will be held only in cases where issues of fact must be resolved in order to determine whether the respondent has failed to comply with one or more applicable requirements of Part 80 of this title. In any case where it appears from the respondent's answer to the notice of hearing or opportunity for hearing, from his failure timely to answer, or from his admissions or stipulations in the record, that there are no matters of material fact in dispute, the reviewing authority or presiding officer may enter an order so finding, vacating the hearing date if one has been set, and fixing the time for filing briefs under § 81.101. Thereafter the proceedings shall go to conclusion in accordance with Subpart J of this part. The presiding officer may allow an appeal from such order in accordance with § 81.86.

§ 81.73 Testimony.

Testimony shall be given orally under oath or affirmation by witnesses at the hearing; but the presiding officer, in his discretion, may require or permit that the direct testimony of any witness be prepared in writing and served on all parties in advance of the hearing. Such testimony may be adopted by the witness at the hearing, and filed as part of the record thereof. Unless authorized by the presiding officer, witnesses will not be permitted to read prepared testimony into the record. Except as provided in §§ 81.75 and 81.76, witnesses shall be available at the hearing for cross-examination.

§ 81.74 Exhibits.

Proposed exhibits shall be exchanged at the prehearing conference, or otherwise prior to the hearing if the presiding officer so requires. Proposed exhibits not so exchanged may be denied admission as evidence. The authenticity of all proposed exhibits exchanged prior to hearing will be deemed admitted unless written objection thereto is filed prior to the hearing or unless good cause is shown at the hearing for failure to file such written objection.

§ 81.75 Affidavits.

An affidavit is not inadmissible as such. Unless the presiding officer fixes other time periods affidavits shall be filed and served on the parties not later than 15 days prior to the hearing; and not less than 7 days prior to hearing a party may file and serve written objection to any affidavit on the ground that he believes it necessary to test the truth of assertions therein at hearing. In such event the assertions objected to will not be received in evidence unless the affiant is made available for cross-examination, or the presiding officer determines that cross-examination is not necessary for the full and true disclosure of facts referred to in such assertions. Notwithstanding any objection, however, affidavits may be considered in the case of any respondent who waives a hearing.

§ 81.76 Depositions.

Upon such terms as may be just, for the convenience of the parties or of the Department, the presiding officer may authorize or direct the testimony of any witness to be taken by deposition.

§ 81.77 Admissions as to facts and documents.

Not later than 15 days prior to the scheduled date of the hearing except for good cause shown, or prior to such earlier date as the presiding officer may order, any party may serve upon an opposing party a written request for the admission of the genuineness and authenticity of any relevant documents described in and exhibited with the request, or for the admission of the truth of any relevant matters of fact stated in the request. Each of the matters of which an admission is requested shall be deemed admitted, unless within a period designated in the request (not less than 10 days after service thereof, or within such further time as the presiding officer or the reviewing authority if no presiding officer has yet been designated may allow upon motion and notice) the party to whom the request is directed serves upon the requesting party a sworn statement either denying specifically the matters of which an admission is requested or setting forth in detail the reasons why he cannot truthfully either admit or deny such matters. Copies of requests for admission and answers thereto shall be served on all parties. Any admission made by a party to such request is only for the purposes of the pending proceeding, or any proceeding or action instituted for the enforcement of any order entered therein, and shall not constitute an admission by him for any other purpose or be used against him in any other proceeding or action.

§ 81.78 Evidence.

Irrelevant, immaterial, unreliable, and unduly repetitious evidence will be excluded.

§ 81.79 Cross-examination.

A witness may be cross-examined on any matter material to the proceeding without regard to the scope of his direct examination.

§ 81.80 Unsponsored written material.

Letters expressing views or urging action and other unsponsored written material regarding matters in issue in a hearing will be placed in the correspondence section of the docket of the proceeding. These data are not deemed part of the evidence or record in the hearing.

§ 81.81 Objections.

Objections to evidence shall be timely and briefly state the ground relied upon.

§ 81.82 Exceptions to rulings of presiding officer unnecessary.

Exceptions to rulings of the presiding officer are unnecessary. It is sufficient that a party, at the time the ruling of the presiding officer is sought, makes known the action which he desires the presiding officer to take, or his objection to an action taken, and his grounds therefor.

§ 81.83 Official notice.

Where official notice is taken or is to be taken of a material fact not appearing in the evidence of record, any party, on timely request, shall be afforded an opportunity to show the contrary.

§ 81.84 Public document items.

Whenever there is offered (in whole or in part) a public document, such as an official report, decision, opinion, or published scientific or economic statistical data issued by any of the executive departments (or their subdivisions), legislative agencies or committees, or administrative agencies of the Federal Government (including Government-owned corporations), or a similar document issued by a State or its agencies, and such document (or part thereof) has been shown by the offeror to be reasonably available to the public, such document need not be produced or marked for identification, but may be offered for official notice, as a public document item by specifying the document or relevant part thereof.

§ 81.85 Offer of proof.

An offer of proof made in connection with an objection taken to any ruling of the presiding officer rejecting or excluding proffered oral testimony shall consist of a statement of the substance of the evidence which counsel contends would be adduced by such testimony; and, if the excluded evidence consists of evidence in documentary or written form or of reference to documents or records, a copy of such evidence shall be marked for identification and shall accompany the record as the offer of proof.

§ 81.86 Appeals from ruling of presiding officer.

Rulings of the presiding officer may not be appealed to the reviewing authority prior to his consideration of the entire proceeding except with the consent of the presiding officer and where he certifies on the record or in writing that the allowance of an interlocutory appeal is clearly necessary to prevent exceptional delay, expense, or prejudice to any party, or substantial detriment to the public interest. If an appeal is allowed, any party may file a brief with the reviewing authority within such period as the presiding officer directs. No oral argument will be heard unless the reviewing authority directs otherwise. At any time prior to submission of the proceeding to it for decision, the reviewing authority may direct the presiding officer to certify any question or the entire record to it for decision. Where the entire record is so certified, the presiding officer shall recommend a decision.

Subpart I—The Record

§ 81.91 Official transcript.

The Department will designate the official reporter for all hearings. The official transcripts of testimony taken, together with any exhibits, briefs, or memoranda of law filed therewith shall be filed with the Department. Transcripts of testimony in hearings may be obtained from the official reporter by the parties and the public at rates not to exceed the maximum rates fixed by the contract between the Department and the reporter. Upon notice to all parties, the presiding officer may authorize corrections to the transcript which involve matters of substance.

§ 81.92 Record for decision.

The transcript of testimony, exhibits, and all papers and requests filed in the proceedings, except the correspondence section of the docket, including rulings and any recommended or initial decision shall constitute the exclusive record for decision.

Subpart J—Posthearing Procedures, Decisions

§ 81.101 Posthearing briefs; proposed findings and conclusions.

(a) The presiding officer shall fix the time for filing posthearing briefs, which may contain proposed findings of fact and conclusions of law, and, if permitted, reply briefs.

(b) Briefs should include a summary of the evidence relied upon together with references to exhibit numbers and pages of the transcript, with citations of the authorities relied upon.

§ 81.102 Decisions following hearing.

When the time for submission of posthearing briefs has expired, the presiding officer shall certify the entire record, including his recommended findings and proposed decision, to the responsible De-

partment official; or if so authorized he shall make an initial decision. A copy of the recommended findings and proposed decision, or of the initial decision, shall be served upon all parties, and amici, if any.

§ 81.103 Exceptions to initial or recommended decisions.

Within 20 days after the mailing of an initial or recommended decision, any party may file exceptions to the decision, stating reasons therefor, with the reviewing authority. Any other party may file a response thereto within 30 days after the mailing of the decision. Upon the filing of such exceptions, the reviewing authority shall review the decision and issue its own decision thereon.

§ 81.104 Final decisions.

(a) Where the hearing is conducted by a hearing examiner who makes an initial decision, if no exceptions thereto are filed within the 20-day period specified in § 81.103, such decision shall become the final decision of the Department, and shall constitute "final agency action" within the meaning of 5 U.S.C. 704 (formerly section 10(c) of the Administrative Procedure Act), subject to the provisions of § 81.106.

(b) Where the hearing is conducted by a hearing examiner who makes a recommended decision, or upon the filing of exceptions to a hearing examiner's initial decision, the reviewing authority shall review the recommended or initial decision and shall issue its own decision thereon, which shall become the final decision of the Department, and shall constitute "final agency action" within the meaning of 5 U.S.C. 704 (formerly section 10(c) of the Administrative Procedure Act), subject to the provisions of § 81.106.

(c) All final decisions shall be promptly served on all parties, and amici, if any.

§ 81.105 Oral argument to the reviewing authority.

(a) If any party desires to argue a case orally on exceptions or replies to exceptions to an initial or recommended decision, he shall make such request in writing. The reviewing authority may grant or deny such requests in its discretion. If granted, it will serve notice of oral argument on all parties. The notice will set forth the order of presentation, the amount of time allotted, and the time and place for argument. The names of persons who will argue should be filed with the Department hearing clerk not later than 7 days before the date set for oral argument.

(b) The purpose of oral argument is to emphasize and clarify the written argument in the briefs. Reading at length from the brief or other texts is not favored. Participants should confine their arguments to points of controlling importance and to points upon which exceptions have been filed. Consolidations of appearances at oral argument by parties taking the same side will permit the parties' interests to be presented more effectively in the time allotted.

(c) Pamphlets, charts, and other written material may be presented at oral argument only if such material is limited to facts already in the record and is served on all parties and filed with the Department hearing clerk at least 7 days before the argument.

§ 81.106 Review by the Secretary.

Within 20 days after an initial decision becomes a final decision pursuant to § 81.104(a) or within 20 days of the mailing of a final decision referred to in § 81.104(b), as the case may be, a party may request the Secretary to review the final decision. The Secretary may grant or deny such request, in whole or in part, or serve notice of his intent to review the decision in whole or in part upon his own motion. If the Secretary grants the requested review, or if he serves notice of intent to review upon his own motion, each party to the decision shall have 20 days following notice of the Secretary's proposed action within which to file exceptions to the decision and supporting briefs and memoranda, or briefs and memoranda in support of the decision. Failure of a party to request review under this paragraph shall not be deemed a failure to exhaust administrative remedies for the purpose of obtaining judicial review.

§ 81.107 Service on amici curiae.

All briefs, exceptions, memoranda, requests, and decisions referred to in this subpart J shall be served upon amici curiae at the same times and in the same manner required for service on parties. Any written statements of position and trial briefs required of parties under § 81.71 shall be served on amici.

Subpart K—Judicial Standards of Practice

§ 81.111 Conduct.

Parties and their representatives are expected to conduct themselves with honor and dignity and observe judicial standards of practice and ethics in all proceedings. They should not indulge in offensive personalities, unseemly wrangling, or intemperate accusations or characterizations. A representative of any party whether or not a lawyer shall observe the traditional responsibilities of lawyers as officers of the court and use his best efforts to restrain his client from improprieties in connection with a proceeding.

§ 81.112 Improper conduct.

With respect to any proceeding it is improper for any interested person to attempt to sway the judgment of the reviewing authority by undertaking to bring pressure or influence to bear upon any officer having a responsibility for a decision in the proceeding, or his decisional staff. It is improper that such interested persons or any members of the Department's staff or the presiding officer give statements to communications media, by paid advertisement or otherwise, designed to influence the judgment of any officer having a responsibility for a decision in the proceeding, or his decisional staff. It is improper for any person to solicit communications to any such officer, or his decisional staff, other than proper communications by parties or amici curiae.

§ 81.113 Ex parte communications.

Only persons employed by or assigned to work with the reviewing authority who perform no investigative or prosecuting function in connection with a proceeding shall communicate ex parte with the reviewing authority, or the presiding officer, or any employee or person involved in the decisional process in such proceedings with respect to the merits of that or a factually related proceeding. The reviewing authority, the presiding officer, or any employee or person involved in the decisional process of a proceeding shall communicate ex parte with respect to the merits of that or a factually related proceeding only with persons employed by or assigned to work with them and who perform no investigative or prosecuting function in connection with the proceeding.

§ 81.114 Expeditious treatment.

Requests for expeditious treatment of matters pending before the responsible Department official or the presiding officer are deemed communications on the merits, and are improper except when forwarded from parties to a proceeding and served upon all other parties thereto. Such communications should be in the form of a motion.

§ 81.115 Matters not prohibited.

A request for information which merely inquires about the status of a proceeding without discussing issues or expressing points of view is not deemed an ex parte communication. Such requests should be directed to the Civil Rights hearing clerk. Communications with respect to minor procedural matters or inquiries or emergency requests for extensions of time are not deemed ex parte communications prohibited by § 81.113. Where feasible, however, such communications should be by letter with copies to all parties. Ex parte communications between a respondent and the responsible Department official or the Secretary with respect to securing such respondent's voluntary compliance with any requirement of Part 80 of this title are not prohibited.

§ 81.116 Filing of ex parte communications.

A prohibited communication in writing received by the Secretary, the reviewing authority, or by the presiding officer, shall be made public by placing it in the correspondence file of the docket in the case and will not be considered as part of the record for decision. If the prohibited communication is received orally, a memorandum setting forth its substance shall be made and filed in the correspondence section of the docket in the case. A person referred to in such memorandum may file a comment for inclusion in the docket if he considers the memorandum to be incorrect.

Subpart L—Posttermination Proceedings

§ 81.121 Posttermination proceedings.

(a) An applicant or recipient adversely affected by the order terminating, discontinuing, or refusing Federal financial assistance in consequence of proceedings pursuant to this title may request the responsible Department official for an order authorizing payment, or permitting resumption, of Federal financial assistance. Such request shall be in writing and shall affirmatively show that since entry of the order, it has brought its program or activity into compliance with the requirements of the Act, and with the Regulation thereunder, and shall set forth specifically, and in detail, the steps which it has taken to achieve such compliance. If the responsible Department official denies such request the applicant or recipient shall be given an expeditious hearing if it so requests in writing and specifies why it believes the responsible Department official to have been in error. The request for such a hearing shall be addressed to the responsible Department official and shall be made within 30 days after the applicant or recipient is informed that the responsible Department official has refused to authorize payment or permit resumption of Federal financial assistance.

(b) In the event that a hearing shall be requested pursuant to subparagraph (a) of this section, the hearing procedures established by this part shall be applicable to the proceedings, except as otherwise provided in this section.

Subpart M—Definitions

§ 81.131 Definitions.

The definitions contained in § 80.13 of this subtitle apply to this part, unless the context otherwise requires, and the term "reviewing authority" as used herein includes the Secretary of Health, Education, and Welfare, with respect to action by that official under § 81.106.

Transition provisions: (a) The amendments herein shall become effective upon publication in the FEDERAL REGISTER.

(b) These rules shall apply to any proceeding or part thereof to which Part 80 of this title as amended effective October 19, 1967 (published in the FEDERAL REGISTER for Oct. 19, 1967), and as the same may be hereafter amended, applies. In the case of any proceeding or part thereof governed by the provisions of Part 80 as that part existed prior to such amendment, the rules in this Part 81 shall apply as if these amendments were not in effect.

FAIR MARKET RENTS FOR SECTION 23 AND SECTION 8 EXISTING HOUSING PROGRAMS

Proposed Amendment of Schedule B—Section 8 Existing Housing and Section 23 Existing Housing

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Assistant Secretary for Housing—Federal Housing Commissioner

[24 CFR Parts 803, 888]

[Docket No. R-77-311]

FAIR MARKET RENTS FOR SECTION 23 AND 8 EXISTING HOUSING PROGRAMS

Proposed Amendment of Schedule B—Section 8 Existing Housing and Section 23 Existing Housing

AGENCY: Department of Housing and Urban Development.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Department is proposing to amend the schedules that set forth Fair Market Rent Revisions under the "Section 23" and "Section 8" Low Income Housing Programs for Existing Housing. The last nationwide revision of these levels, required on an annual basis by law, was published in the FEDERAL REGISTER on March 29, 1976 (41 FR 13042). On the basis of current data submitted by the public and by HUD field offices, new levels are now being proposed in order to meet specific local housing market or submarket conditions. In addition, there is included a new method of computing levels for five or six bedroom units, which had not been previously treated. The intent of all these changes is to provide more current and adequate rents for each of the classes of housing decribed in the schedules.

DATES: Deadline for submission of written comments and suggestions: May 18, 1977.

ADDRESSES: All materials which persons wish to submit should be sent to the Rules Docket Clerk, Office of the Secretary, Room 10141, Department of Housing and Urban Development, 451 7th Street, SW., Washington, D.C. 20410. A copy of each comment will be available for public inspection at this address during regular business hours.

FOR FURTHER INFORMATION CONTACT:

Bernard Horn, Acting Director, Office of Economic and Market Analysis, PD&R, HUD Washington, D.C. 20410. (202-755-5816).

SUPPLEMENTARY INFORMATION: The Department has been concerned about the adequacy of the Fair Market Rents for large size units because of field studies and program experience indicating problems in leasing such units. However, based upon housing data in the 1970 Census updated by the Department of Commerce Annual Housing Survey, which is sponsored by HUD, we do not have sufficient statistical evidence to increase the differential used in calculating Fair Market Rents for three and four bedroom units nationwide. Public Housing Agencies and other interested parties are therefore encouraged to comment on these proposed Fair Market Rents incorporating market data on rental levels of such units. Such data may be provided on the suggested format in the Section 8 Existing Housing Handbook or in another suitable format.

The Fair Market Rents Schedule set forth below will provide Fair Market Rents to be calculated for five and six bedroom units as follows:

Five bedrooms—150 percent of two bedroom Fair Market Rent.

Six bedrooms—175 percent of two bedroom Fair Market Rent.

Because it is necessary to the operation of the section 8 and 23 programs that Fair Market Rents remain as current as possible, and because interested parties are encouraged at all times to submit information and data on those rents which will be considered in initiating revisions as needed, it has been determined that it is impracticable and unnecessary to provide a 30-day period for comments on these proposed revisions and that a 15-day period is reasonable and in the public interest.

By nature, Fair Market Rent schedules are subject to periodic revisions where data and information indicate change is needed. Accordingly, Schedule B Fair Market Rents will contine to be amended in the future in those local housing market or submarket areas where changes are deemed appropriate on the basis of available data and information.

Interested persons are invited to participate in the making of these proposed rules by submitting to the address set forth above such written comments or suggestions as they may desire. Communications should identify the subject matter by the above title, docket number, and date of publication. All relevant material received on or before the date specified above will be considered before adoption of revised Fair Market Rents.

The Department has determined that these regulations do not constitute a major Federal action significantly affecting the quality of human environment. Accordingly, a finding of inapplicability of environment impact has been prepared and is available for public inspection during regular business hours at the office of the Rules Docket Clerk, at the address specified above. It is hereby certified that the economic and inflationary impacts of this regulation have been carefully evaluated in accordance with Executive Order No. 11821.

It is therefore proposed that Title 24, Part 888, Schedule B and Part 803, Schedule B be revised as set forth below.

This notice of proposed rulemaking is issued under the authority of sec. 7(d), Department of HUD Act (42 U.S.C. 3535(d)).

Issued in Washington, D.C., on April 27, 1977.

LAWRENCE B. SIMONS,
Assistant Secretary for Housing—Federal Housing Commissioner.

OFFICE OF MANAGEMENT AND BUDGET

■

DEPARTMENTS OF COMMERCE AND THE TREASURY

Budget Rescission and Deferral

OFFICE OF MANAGEMENT AND BUDGET

DEPARTMENTS OF COMMERCE AND THE TREASURY

Budget Rescission and Deferral

TO THE CONGRESS OF THE UNITED STATES:

In accordance with the Impoundment Control Act of 1974, I herewith report one new deferral of budget authority amounting to $6.0 million for the antirecession financial assistance fund of the Department of the Treasury. In addition, I am reporting a revision in the basis for and a reduction in the amount of a previously transmitted Department of Commerce deferral.

The details of each deferral are contained in the attached reports.

Jimmy Carter

THE WHITE HOUSE, April 28, 1977.

CONTENTS OF SPECIAL MESSAGE
(in thousands of dollars)

Deferral #	Item	Budget Authority
	Commerce:	
	National Oceanic and Atmospheric Administration	
D77-46A	Operations, research, and facilities	6,300
	Treasury:	
	Office of the Secretary	
D77-57	Antirecession financial assistance fund	6,030
	Total, deferrals	12,330

SUMMARY OF SPECIAL MESSAGES
FOR FY 1977

(in thousands of dollars)

	Rescissions	Deferrals
Eleventh special message:		
New items	---	6,030
Changes to amounts previously submitted	---	-1,200
Effect of the eleventh special message	---	4,830
Previous special messages	1,040,378	7,215,588
Total amount proposed in special messages	1,040,378 (in 13 rescission proposals)	7,220,418 (in 57 deferrals)

NOTE: All amounts listed represent budget authority except for $134,807,092 consisting of two general revenue sharing deferrals of outlays only (D77-26 and D77-27A). Reports for D77-26 and D77-27A are included in the special messages of October 1, 1976, and December 3, 1976, respectively.

D77-46A

SUPPLEMENTARY REPORT

Report Pursuant to Section 1014(c) of Public Law 93-344

This report revises Deferral No. D77-46 transmitted to the Congress on January 17, 1977, and printed as House Document No. 94-48 and Senate Document No. 95-19.

This revision reflects a decrease in the amount deferred in fiscal year 1977 for the operations, research, and facilities appropriation of the National Oceanic and Atmospheric Administration from $7,500,000 to $6,300,000. The decrease of $1,200,000 in the amount deferred will permit funds to be made available for additional operating requirements of the eight regional fishery management councils, provide administrative support to the 29 states and territories represented on the councils, and implement an observer program on foreign fishing vessels. Use of the funds for these purposes is consistent with an approved reprogramming which recognizes that construction of one rather than two fishery research vessels is now required. The remaining funds will be deferred for the entire year for use in fiscal year 1978.

Deferral No: D77-46A

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Agency: Department of Commerce	New budget authority (P.L. 94-362): $566,215,000 1/
Bureau: National Oceanic and Atmospheric Administration	Other budgetary resources: 62,781,270
Appropriation title & symbol: Operations, Research, and Facilities (Ship Construction) 13X1450	Total budgetary resources: 628,996,270
	Amount to be deferred: Part of year: $ ____
	Entire year: 6,300,000*
OMB identification code: 13-1450-0-1-306	Legal authority (in addition to sec. 1013): ☐ Antideficiency Act
Grant program ☐ Yes ☒ No	☐ Other ____
Type of account or fund: ☐ Annual ☐ Multiple-year ____ (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other ____

*Justification

This deferral of $6.3 million will delay funding until 1978 for the construction of one new (Class IV) fishery research vessel, and provide funding in 1978 for eight regional fishery councils, administrative support for the 29 states and territories represented on the fishery councils, and an observer program on foreign fishing vessels. The funds being deferred were provided in the Departments of State, Justice, and Commerce, the Judiciary, and Related Agencies Appropriation Act, 1977 (P.L. 94-362).

Expanded fisheries resources conservation, assessment, and management efforts are authorized by section 304 of the United States Fisheries Management and Conservation Act of 1976 (P.L. 94-265). The National Oceanic and Atmospheric Administration (NOAA) had originally planned to use these funds to further fisheries resources efforts by construction of two fishery research vessels. It was subsequently determined, however, that mission requirements for additional ship-days could be met in the near future with existing NOAA vessels and in the longer term by constructing one vessel for service on the east coast and using charter vessels on the west coast.

The deferral will permit efficient use of the funds by assuring (1) that the new vessel is not ready for service before it can be most effectively used and (2) that the portion of the deferred funds related to other fisheries resources efforts in 1978 is reserved until it is actually needed.

*Revised from previous report
1/ Does not include $55,000 transfer to General Administration, Department of Commerce, for water resources planning activity.

D77-46A

-2-

* Estimated Effects

The construction delay should have no adverse impact on the fisheries resources program. Adequate ship time is available and satisfactory substitute charter vessels are available on the west coast to achieve research missions for the next several years.

* Outlay Effect (estimated in millions of dollars)

Comparison with President's 1978 Budget:

1. Budget outlay estimate for 1977	$572.9
2. Outlay savings, if any, included in the budget outlay estimate	3.8

Current Outlay Estimates for 1977:

3. Without deferral	576.7
4. With deferral	574.8
5. Current outlay savings (line 3 minus line 4)	1.9
Outlay Savings for 1978	-0-
Outlay Savings for 1979	-1.9

*Revised from previous report

Deferral No: D77-57

DEFERRAL OF BUDGET AUTHORITY

Report Pursuant to Section 1013 of P.L. 93-344

Agency: Department of the Treasury	New budget authority (P.L. 94-447) $ 937,500,000
Bureau: Office of the Secretary	Other budgetary resources 312,500,000
Appropriation title & symbol: Antirecession Financial Assistance Fund 207/80108	Total budgetary resources 1,250,000,000
	Amount to be deferred: Part of year $ ____
	Entire year 6,030,000
CMB identification code: 20-0108-0-1-852	Legal authority (in addition to sec. 1013): [X] Antideficiency Act
Grant program [X] Yes [ ] No	[X] Other P.L. 94-369
Type of account or fund: [ ] Annual	Type of budget authority: [X] Appropriation
[X] Multiple-year September 30, 1978 (expiration date)	[ ] Contract authority
[ ] No-year	[ ] Other ____

Justification

The Secretary of the Treasury must hold a portion of this account in reserve to meet valid claims from State and local governments that past antirecession financial assistance payments to them were too small. Because the total amount appropriated for all governments is fixed, the alternative to such a reserve is recurring recomputations of entitlements of 39,000 governments for prior entitlement periods. Accordingly, the Office of Revenue Sharing has withheld from obligation an amount equal to one-half of one percent of the amounts appropriated for the transition quarter and FY 1977.

This cumulative unobligated reserve, totaling $6.0 million, is available to the Secretary of the Treasury to satisfy legitimate claims against the fund for prior entitlement periods. The unobligated amount retained in the fund will be reduced whenever the Secretary determines that a lesser amount is adequate to meet foreseeable liabilities against the fund. The reduction will be made by paying the additional amount to recipients as part of a regular distribution.

Estimated Effect

This action will postpone distribution of the amount of the reserve until necessary adjustments and corrections have been identified. It will also avoid substantial confusion and complexities in the administration of the program.

Outlay Effect (estimated in millions of dollars)

Comparison with President's 1978 Budget:

1. Budget outlay estimate for FY 1977	$1,250.0
2. Outlay savings, if any, included in the budget outlay estimate	-0-

Current Outlay Estimates for FY 1977:

3. Without deferral	1,250.0
4. With deferral	1,244.0
5. Current outlay savings (line 3 - line 4)	+6.0
Outlay savings for FY 1978	-6.0
Outlay savings for FY 1979	-0-
