"THE FEDERAL REGISTER—WHAT IT IS AND HOW TO USE IT"

Reservations for March are being accepted for the free Friday workshops on how to use the FEDERAL REGISTER. The sessions are held at 1100 L Street NW., Washington, D.C. in room 9409 from 9 to 11:30 a.m.

Each session includes a brief history of the FEDERAL REGISTER, the difference between legislation and regulations, the relationship of the FEDERAL REGISTER to the Code of Federal Regulations, the elements of a typical FEDERAL REGISTER document, and an introduction to the finding aids.

FOR RESERVATIONS call: Martin V. Franks, Workshop Coordinator, 202-523-3517.

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday). This is a voluntary program. (See OFR notice 41 FR 32914, August 6, 1976.)

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/COAST GUARD	USDA/ASCS		DOT/COAST GUARD	USDA/ASCS
DOT/NHTSA	USDA/APHIS		DOT/NHTSA	USDA/APHIS
DOT/FAA	USDA/FNS		DOT/FAA	USDA/FNS
DOT/OHMO	USDA/FSQS		DOT/OHMO	USDA/FSQS
DOT/OPSO	USDA/REA		DOT/OPSO	USDA/REA
	CSC			CSC
	LABOR			LABOR
	HEW/ADAMHA			HEW/ADAMHA
	HEW/CDC			HEW/CDC
	HEW/FDA			HEW/FDA
	HEW/HRA			HEW/HRA
	HEW/HSA			HEW/HSA
	HEW/NIH			HEW/NIH
	HEW/PHS			HEW/PHS

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

ATTENTION: For questions, corrections, or requests for information please see the list of telephone numbers appearing on opposite page.

federal register

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Title 3—The President

Executive Order 12038 • **February 3, 1978**

Relating to Certain Functions Transferred to the Secretary of Energy by the Department of Energy Organization Act

By virtue of the authority vested in me as President of the United States of America, in order to reflect the responsibilities of the Secretary of Energy for the performance of certain functions previously vested in other officers of the United States by direction of the President and subsequently transferred to the Secretary of Energy pursuant to the Department of Energy Organization Act (91 Stat. 565; 42 U.S.C. 7101 *et seq.*), it is hereby ordered as follows:

SECTION 1. *Functions of the Federal Energy Administration.* In accordance with the transfer of all functions vested by law in the Federal Energy Administration, or the Administrator thereof, to the Secretary of Energy pursuant to Section 301(a) of the Department of Energy Organization Act, hereinafter referred to as the Act, the Executive Orders and Proclamations referred to in this Section, which conferred authority or responsibility upon the Administrator of the Federal Energy Administration, are amended as follows:

(a) Executive Order No. 11647, as amended, relating to Federal Regional Councils, is further amended by deleting "The Federal Energy Administration" in Section 1(a)(10) and substituting "The Department of Energy", and by deleting "The Deputy Administrator of the Federal Energy Administration" in Section 3(a)(10) and substituting "The Deputy Secretary of Energy".

(b) Executive Order No. 11790 of June 25, 1974, relating to the Federal Energy Administration Act of 1974, is amended by deleting "Administrator of the Federal Energy Administration" and "Administrator" wherever they appear in Sections 1 through 6 and substituting "Secretary of Energy" and "Secretary", respectively, and by deleting Section 7 through 10.

(c) Executive Order No. 11912, as amended, relating to energy policy and conservation, and Proclamation No. 3279, as amended, relating to imports of petroleum and petroleum products, are further amended by deleting "Administrator of the Federal Energy Administration", "Federal Energy Administration", and "Administrator" (when used in reference to the Federal Energy Administration) wherever those terms appear and by substituting "Secretary of Energy", "Department of Energy", and "Secretary", respectively, and by deleting "and the Administrator of Energy Research and Development" in Section 1(b) of Executive Order No. 11912, as amended.

SEC. 2. *Functions of the Federal Power Commission.* In accordance with the transfer of functions vested in the Federal Power Commission to the Secretary of Energy pursuant to Section 301(b) of the Act, the Executive Orders referred to in this Section, which conferred authority or responsibility upon the Federal Power Commission, or Chairman thereof, are amended or modified as follows:

(a) Executive Order No. 10485 of September 3, 1953, relating to certain facilities at the borders of the United States is amended by deleting Section 2 thereof, and by deleting "Federal Power Commission" and "Commission"

wherever those terms appear in Sections 1, 3 and 4 of such Order and substituting for each "Secretary of Energy".

(b) Executive Order No. 11969 of February 2, 1977, relating to the administration of the Emergency Natural Gas Act of 1977, is hereby amended by deleting the second sentence in Section 1, by deleting "the Secretary of the Interior, the Administrator of the Federal Energy Administration, other members of the Federal Power Commission and" in Section 2, and by deleting "Chairman of the Federal Power Commission" and "Chairman" wherever those terms appear and substituting therefor "Secretary of Energy" and "Secretary", respectively.

(c) Paragraph (2) of Section 3 of Executive Order No. 11331, as amended, relating to the Pacific Northwest River Basins Commission, is hereby amended by deleting "from each of the following Federal departments and agencies" and substituting therefor "to be appointed by the head of each of the following Executive agencies", by deleting "Federal Power Commission" and substituting therefor "Department of Energy", and by deleting "such member to be appointed by the head of each department or independent agency he represents,".

SEC. 3. *Functions of the Secretary of the Interior.* In accordance with the transfer of certain functions vested in the Secretary of the Interior to the Secretary of Energy pursuant to Section 302 of the Act, the Executive Orders referred to in this Section, which conferred authority or responsibility on the Secretary of the Interior, are amended or modified as follows:

(a) Sections 1 and 4 of Executive Order No. 8526 of August 27, 1940, relating to functions of the Bonneville Power Administration, are hereby amended by substituting "Secretary of Energy" for "Secretary of the Interior", by adding "of the Interior" after "Secretary" in Sections 2 and 3, and by adding "and the Secretary of Energy," after "the Secretary of the Interior" wherever the latter term appears in Section 5.

(b) Executive Order No. 11177 of September 16, 1964, relating to the Columbia River Treaty, is amended by deleting "Secretary of the Interior" and "Department of the Interior" wherever those terms appear and substituting therefor "Secretary of Energy" and "Department of Energy", respectively.

SEC. 4. *Functions of the Atomic Energy Commission and the Energy Research and Development Administration.*

(a) In accordance with the transfer of all functions vested by law in the Administrator of Energy Research and Development to the Secretary of Energy pursuant to Section 301(a) of the Act, the Executive Orders referred to in this Section are amended or modified as follows:

(1) All current Executive Orders which refer to functions of the Atomic Energy Commission, including Executive Order No. 10127, as amended; Executive Order No. 10865, as amended; Executive Order No. 10899 of December 9, 1960; Executive Order No. 11057 of December 18, 1962; Executive Order No. 11477 of August 7, 1969; Executive Order No. 11752 of December 17, 1973; and Executive Order No. 11761 of January 17, 1974 are modified to provide that all such functions shall be exercised by (1) the Secretary of Energy to the extent consistent with the functions of the Atomic Energy Commission that were transferred to the Administrator of Energy Research and Development pursuant to the Energy Organization Act of 1974 (Public Law 93-438; 88 Stat. 1233), and (2) the Nuclear Regulatory Commission to the extent consistent with the functions of the Atomic Energy Commission that were transferred to the Commission by the Energy Reorganization Act of 1974.

(2) Executive Order No. 11652, as amended, relating to the classification of national security matters, is further amended by substituting "Department

of Energy" for "Energy Research and Development Administration" in Sections 2(A), 7(A) and 8 and by deleting "Federal Power Commission" in Section 2(B)(3).

(3) Executive Order No. 11902 of February 2, 1976, relating to export licensing policy for nuclear materials and equipment, is amended by substituting "the Secretary of Energy" for "the Administrator of the United States Energy Research and Development Administration, hereinafter referred to as the Administrator" in Section 1(b) and for the "Administrator" in Sections 2 and 3.

(4) Executive Order No. 11905, as amended, relating to foreign intelligence activities, is further amended by deleting "Energy Research and Development Administration", "Administrator of the Energy Research and Development Administration", and "ERDA" wherever those terms appear and substituting "Department of Energy", "Secretary of Energy", and "DOE" respectively.

(5) Section 3(2) of each of the following Executive Orders is amended by substituting "Department of Energy" for "Energy Research and Development Administration":

(i) Executive Order No. 11345, as amended, establishing the Great Lakes River Basin Commission.

(ii) Executive Order No. 11371, as amended, establishing the New England River Basin Commission.

(iii) Executive Order No. 11578, as amended, establishing the Ohio River Basin Commission.

(iv) Executive Order No. 11658, as amended, establishing the Missouri River Basin Commission.

(v) Executive Order No. 11659, as amended, establishing the Mississippi River Basin Commission.

SEC. 5. *Special Provisions Relating to Emergency Preparedness and Mobilization Functions.*

(a) Executive Order No. 10480, as amended, is further amended by adding thereto the following new Sections:

"Sec. 609. Effective October 1, 1977, the Secretary of Energy shall exercise all authority and discharge all responsibility herein delegated to or conferred upon (a) the Atomic Energy Commission, and (b) with respect to petroleum, gas, solid fuels and electric power, upon the Secretary of the Interior.

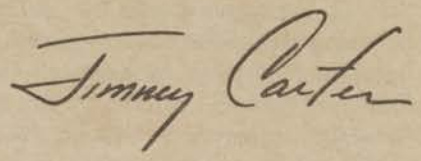
"Sec. 610. Whenever the Administrator of General Services believes that the functions of an Executive agency have been modified pursuant to law in such manner as to require the amendment of any Executive order which relates to the assignment of emergency preparedness functions or the administration of mobilization programs, he shall promptly submit any proposals for the amendment of such Executive orders to the Director of the Office of Management and Budget in accordance with the provisions of Executive Order No. 11030, as amended.".

(b) Executive Order No. 11490, as amended, is further amended by adding thereto the following new section:

"Sec. 3016. Effective October 1, 1977, the Secretary of Energy shall exercise all authority and discharge all responsibility herein delegated to or conferred upon (a) the Federal Power Commission, (b) the Energy Research and Development Administration, and (c) with respect to electric power, petroleum, gas and solid fuels, upon the Department of the Interior.".

SEC. 6. This Order shall be effective as of October 1, 1977, the effective date of the Department of Energy Organization Act pursuant to the provisions of Section 901 thereof and Executive Order No. 12009 of September 13,

1977, and all actions taken by the Secretary of Energy on or after October 1, 1977, which are consistent with the foregoing provisions are entitled to full force and effect.



THE WHITE HOUSE,
February 3, 1978.

[3195-01]

PROCLAMATION 4550

National Poison Prevention Week, 1978

By the President of the United States of America

A Proclamation

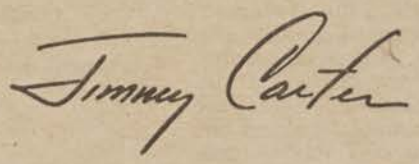
When stored safely and used properly, products such as medicines, polishes, solvents, and pesticides can make our lives easier.

But many of these products contain toxic ingredients which, when used or stored carelessly, can find their way into the hands of our children. Although special packaging has reduced dramatically the number of incidents each year, household substances still poison many children. Therefore, the theme of this year's National Poison Prevention Week is: "Children Act Fast—So Do Poisons."

To remind all Americans of the dangers of poisonings and to encourage all of us to eliminate this problem, the Congress, by joint resolution of September 26, 1961 (75 Stat. 681, 36 U.S.C. 165) has requested the President to issue annually a proclamation designating the third week in March as National Poison Prevention Week.

NOW, THEREFORE, I, JIMMY CARTER, President of the United States of America, do hereby designate the week beginning March 19, 1978, as National Poison Prevention Week. I call upon the people of the United States and all agencies and organizations concerned with the prevention of poisoning and the welfare of our Nation's youngsters to join in promoting increased awareness of, and better protection against, the dangers of poisoning.

IN WITNESS WHEREOF, I have hereunto set my hand this sixth day of February, in the year of our Lord nineteen hundred seventy-eight, and of the Independence of the United States of America the two hundred and second.



[FR Doc. 78-3546 Filed 2-6-78; 10:43 am]

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

[6325-01]

Title 5—Administrative Personnel

CHAPTER I—CIVIL SERVICE COMMISSION

PART 213—EXCEPTED SERVICE

Department of Commerce

AGENCY: Civil Service Commission.

ACTION: Final rule.

SUMMARY: This amendment changes the title of one Confidential Assistant to the Deputy Under Secretary for Field Programs to one Confidential Assistant to the Deputy Under Secretary for Regional Affairs in order to reflect the superior's new title in the organization. One additional position of Confidential Assistant to the Deputy Under Secretary for Regional Affairs is excepted under Schedule C because it is confidential in nature.

EFFECTIVE DATE: February 7, 1978.

FOR FURTHER INFORMATION CONTACT:

William Bohling, 202-632-4533.

Accordingly, 5 CFR 213.3314(a)(2) is amended as set out below:

§ 213.3314 Department of Commerce.

(a) *Office of the Secretary.* • • •

(20) Two positions of confidential Assistant to the Deputy Under Secretary for Regional Affairs.

(5 U.S.C. 3301, 3302; EO 10577, 3 CFR 1954-1958, Comp., p. 218.)

UNITED STATES CIVIL SERVICE COMMISSION,
JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc. 78-3282 Filed 2-6-78; 8:45 am]

[6325-01]

PART 213—EXCEPTED SERVICE

Department of Health, Education, and Welfare, Department of Energy, General Services Administration, Department of Housing and Urban Development

AGENCY: Civil Service Commission.

ACTION: Final rule.

SUMMARY: The following positions are excepted under Schedule C because they are confidential in nature:

Department of Health, Education, and Welfare—one position of Special Assistant to the Assistant Secretary for Health.

Department of Energy—one position of Assistant to the Secretary.

General Services Administration—two positions of Confidential Assistant to the Director, Federal Preparedness Agency.

Department of Housing and Urban Development—one position of Special Assistant to the Administrator, Federal Disaster Assistance Administration.

EFFECTIVE DATE: February 7, 1978.

FOR FURTHER INFORMATION CONTACT:

William Bohling, 202-632-4533.

Accordingly, 5 CFR 213.3316(h)(14), 213.3337(e), and 213.3384(a)(14) are added and 213.3331(a)(7) is amended as set out below:

§ 213.3316 Department of Health, Education, and Welfare.

• • • • •

(h) *Office of the Assistant Secretary for Health.* • • •

(14) One Special Assistant to the Assistant Secretary.

• • • • •

§ 213.3331 Department of Energy.

(a) *Office of the Secretary.* • • •

(7) Two Assistants to the Secretary.

• • • • •

§ 213.3337 General Services Administration.

• • • • •

(e) *Federal Preparedness Agency.*

(1) Two Confidential Assistants to the Director.

• • • • •

§ 213.3384 Department of Housing and Urban Development.

(a) *Office of the Secretary.* • • •

(14) One Special Assistant to the Administrator, Federal Disaster Assistance Administration.

(5 U.S.C. 3301, 3302; EO 10577, 3 CFR 1954-1958 Comp., p. 218.)

UNITED STATES CIVIL SERVICE COMMISSION,
JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc. 78-3280-Filed 2-6-78; 8:45 am]

[6325-01]

PART 213—EXCEPTED SERVICE

Department of Health, Education, and Welfare

AGENCY: Civil Service Commission.

ACTION: Final rule.

SUMMARY: This amendment modifies the exception under Schedule B of six positions of Librarian, GS-7, in the National Library of Medicine, with the provision that employment under this authority is not to exceed 1 year. These positions are excepted under Schedule B because it is not practicable to examine competitively for them.

EFFECTIVE DATE: February 7, 1978.

FOR FURTHER INFORMATION CONTACT:

William Bohling, 202-632-4533.

Accordingly, 5 CFR 213.3216(d)(1) is amended as set out below:

§ 213.3216 Department of Health, Education, and Welfare.

• • • • •

(d) *National Library of Medicine.*

(1) Six positions of Librarian, GS-7, the incumbents of which will be trainees in the Library Associate Training Program in Medical Librarianship and Biomedical Communications. Employment under this authority is not to exceed 1 year.

(5 U.S.C. 3301, 3302; EO 10577, 3 CFR 1954-1958 Comp., p. 218.)

UNITED STATES CIVIL SERVICE COMMISSION,
JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc. 78-3281 Filed 2-6-78; 8:45 am]

[6325-01]

PART 213—EXCEPTED SERVICE

Correction

AGENCY: Civil Service Commission.

ACTION: Correction to final rule.

SUMMARY: This document (1) corrects a final rule which appeared in 43 FR 2377 on January 17, 1978, under paragraph 213.3315(a)(1), to show that one position of Secretary to the Secretary, was revoked in error and (2) revokes two positions of Staff Assistant to the Secretary under the automatic revocation provisions because they have been vacant longer than 60 days.

EFFECTIVE DATE: February 7, 1978.

FOR FURTHER INFORMATION CONTACT:

William Bohling, 202-632-4533.

Accordingly, 5 CFR 213.3315(a)(1) is amended as set out below:

§ 213.3315 Department of Labor.

(a) *Office of the Secretary.*

(1) One Private Secretary, one Secretary, two Special Assistants, and one Confidential Assistant to the Secretary.

(5 U.S.C. 3301, 3302; EO 10577, 3 CFR 1954-1958 Comp., p. 218.)

UNITED STATES CIVIL SERVICE COMMISSION,
JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc. 78-3284 Filed 2-6-78; 8:45 am]

[6325-01]

PART 302—EMPLOYMENT IN THE EXCEPTED SERVICE

Correction

AGENCY: Civil Service Commission.

ACTION: Correction to final rule.

SUMMARY: This document corrects an error in the authority for Part 302 which appeared at 43 FR 2378 on January 17, 1978.

EFFECTIVE DATE: January 17, 1978.

FOR FURTHER INFORMATION CONTACT:

Raleigh Neville, 202-632-6817.

Accordingly, the authority statement for 5 CFR 302 should read:

Title 7—Agriculture

CHAPTER I—AGRICULTURAL MARKETING SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER—MARKETING OF PERISHABLE AGRICULTURAL COMMODITIES

PART 46—REGULATIONS (OTHER THAN RULES OF PRACTICE) UNDER THE PERISHABLE AGRICULTURAL COMMODITIES ACT, 1930

Misrepresentation or Misbranding

AGENCY: Agricultural Marketing Service.

ACTION: Revision of regulations.

SUMMARY: This document revises the regulations under the Perishable Agricultural Commodities Act, 1930 ("Act") to replace general wording with specific definitions and a detailed outline of the procedure used in administering the provisions of the Act relating to misrepresentation or misbranding. The revised regulations result from a request by industry to give more details on procedures used by the Department in administering section 2(5) of the Act.

EFFECTIVE DATE: February 7, 1978.

FOR FURTHER INFORMATION CONTACT:

Michael D. Price, 202-447-4180.

SUPPLEMENTARY INFORMATION: Interested parties have been afforded the opportunity to comment by notice of proposed revision published in the FEDERAL REGISTER on November 15, 1977 (42 FR 59088). A total of thirteen (13) replies were received. A large grower-shipper association and the State of Utah favored the proposal as written.

Several firms and associations suggested minor changes in wording and punctuation to clarify the definitions including an addition to paragraph (3)(ii) to require "written notice" and a change in the wording of paragraph (3)(iii) from "full details" to "known material facts." It was suggested that the wording, "* * * but are not necessarily limited to * * *" in the first sentence of (a)(1) Serious violations, and (a)(2) Very serious violations, be eliminated as being repetitious. These changes have been adopted by AMS.

Six proposals were made to provide firms with a large volume of shipments a greater tolerance for violations than firms with a lesser volume of shipments. This proposal was not accepted as there is no way to provide such a tolerance for violations. The statute is intended to suppress unfair and fraudulent practices by all licensees without regard to their volume of business.

Five comments suggested that firms other than the grower-packer or original shipper should be excused from violations because they do not have control over the product. This proposal was not accepted as anyone who ships, sells, or offers fruits and vegetables for sale in interstate or foreign commerce has the responsibility to assure itself that any representation as to grade, size, weight, etc., is true and correct.

Four comments recommended that the record of violations as explained in paragraph (d)(2) be expunged after 24 months even if they are involved in informal or formal proceedings. This recommendation was not accepted as adoption would, in most instances, prevent successful conclusion of formal proceedings to sanction repeated violators. Formal proceedings cannot usually be completed within two years from the date of the earliest violation. Also, there would be less opportunity for exercising the option to permit informal settlement because of the need to begin formal proceedings to suspend or revoke a violator's license earlier.

Three comments suggested that firms should not be held responsible for "inadvertent" misrepresentations and that action should be taken only when a firm "knowingly" misrepresents produce. The suggestion was not accepted as section 2(5) of the PAC Act does not contain this limitation, and it could not be adopted through rulemaking.

Three comments recommended that firms who obtain full-time shipping point inspection should be exempted from all liability for misrepresentation. This proposal was not accepted since lots which have been shipping point inspected and maintain their identity are not currently considered as violations if found to be misrepresented at destination. If the original inspection cannot be reversed because of loss of identity or because the factor in question was not certified at shipping point, there is no basis for excusing the violation.

Individual comments were received concerning definitions of terms, procedures used in determining violations, and other related matters. These recommendations were not accepted as they could not be resolved through rulemaking procedures, are already covered in the present regulations, or seek relief from violations for small segments of the industry.

Accordingly, § 46.45 of the regulations is revised as set forth below.

Effective Date: February 7, 1978.

WILLIAM T. MANLEY,
Deputy Administrator, Marketing Program Operations.

MISREPRESENTATION OR MISBRANDING

§ 46.45 Procedure in administering Section 2(5) of the Act.

It is a violation of section 2(5) for a commission merchant, dealer or

broker to misrepresent by word, act, mark, stencil, label, statement, or deed, the character, kind, grade, quality, quantity, size, pack, weight, condition, degree of maturity, or State, country, or region of origin of any perishable agricultural commodity received, shipped, sold, or offered to be sold in interstate or foreign commerce.

(a) *Violations.* Violations are considered to be serious, very serious, or repeated and/or flagrant, depending upon the circumstances of the misrepresentation.

(1) *Serious violations.* Include the following:

(i) Any lot of a perishable agricultural commodity shown by official inspection to contain scorable defects, offsize, off-count, exceeding the tolerance(s) in an amount up to and including double the tolerance provided in the applicable grades, standards or inspection procedures;

(ii) Any lot of perishable agricultural commodity officially certified as failing to meet the declared weight;

(iii) Any lot of a perishable agricultural commodity in which the State, country, or region of origin of the produce is misrepresentated because the lot is made up of containers with various labels or markings that reflect more than one incorrect State, country or region of origin. Example: A lot with containers individually marked to show the origin as Idaho or Maine or Colorado when the produce was grown in Wisconsin; or

(iv) Any other physical act, verbal or written declaration, or record entry that misrepresents a lot of a perishable agricultural commodity to the same extent as the examples listed.

(2) *Very serious violations.* Include the following:

(i) Any lot of a perishable agricultural commodity shown by official inspection to contain scorable defects, offsize, off-count, in excess of double the tolerance(s) provided in the applicable grades, standards or inspection procedures;

(ii) Any lot of a perishable agricultural commodity packed in containers showing a single point of origin, which is other than that in which the produce was grown, such as containers marked "California" when the produce was grown in Arizona;

(iii) Any lot of a perishable agricultural commodity officially certified as having an average net weight more than four percent below the declared weight;

(iv) Multiple sales or shipments of a misrepresented perishable agricultural commodity within a seven day period that can be attributed to one cause; or

(v) Any other physical act, verbal or written declaration, or record entry that misrepresents a lot of a perishable agricultural commodity to the same extent as the examples listed.

(3) *Flagrant violations:* Include, but are not necessarily limited to, the following examples:

(i) Shipment or sale of a lot of a perishable agricultural commodity from shipping point after notification by official inspection that the inspected commodity fails to comply with any marking on the container without first correcting the misbranding;

(ii) To offer for resale or consignment, a lot of a perishable agricultural commodity that has been officially inspected at destination and found to be misbranded without advising a prospective receiver that the lot is misbranded and that the misbranding must be corrected before resale. When a resale or consignment is finalized, *written* notice must be given that the lot is misbranded and must be corrected before resale; or

(iii) To withhold or fail to disclose known material facts with respect to a misrepresentation or misbranding.

(b) *Evidence.* (1) Evidence concerning a misrepresentation or misbranding includes official certificates of an inspection made by any person authorized by the Department to inspect fruits and vegetables or other public certifiers, and includes investigations and audit findings and any business records, testimony or other evidence bearing on the subject.

(2) When a lot of a perishable agricultural commodity has been officially inspected, and certification is made that the descriptive container markings are correct, but a subsequent inspection reverses the original findings, both inspection certificates will be accepted as evidence to show that the shipper/seller has *not* misrepresented the lot. The receiver of the commodity will be in violation if the misrepresentation is not corrected before the commodity is shipped, sold or offered for resale.

(c) *Sanctions.* (1) *Informal:* When liability for a violation of section 2(5) of the Act is to be settled informally, the violator may:

(i) Be given written warnings; or

(ii) Be given notice that liability for a violation may be settled by admitting the violation in writing and paying a penalty in an amount satisfactory to the Secretary in lieu of formal disciplinary action. In the event of a formal proceeding to suspend or revoke the license of such person because he has committed other violation(s), the admitted violation(s) will not be used to support the formal complaint but may be admitted to show a course of conduct prior to the filing of the formal complaint;

(iii) The schedule for informal disposition is as follows:

Violation:	*Disposition*
1st	Warning letter.
2d	Warning letter.
3d	$200	$250
4th	350	500
5th	500	1,000
6th	1,000	2,000
7th	2,000	.....

(2) *Formal:* Formal proceedings to suspend or revoke a license may be instituted at any time against a person who has committed repeated and/or flagrant violations.

(d) *Cumulative Record.* A cumulative record of a licensee's misrepresentation violations will be maintained with the following limitations:

(1) Two years after the date it was committed or after payment of a monetary penalty, the violation will not be used as a basis for instituting formal disciplinary action. However, it may be cited as a part of the pattern of violations if formal proceedings are instituted and will be used in determining the level of monetary penalty for informal settlements.

(2) The record of violations *not* involved in formal proceedings will be expunged if there are no violations during a 24-month period from the date of the most recent violation.

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND CALIFORNIA

Expenses, Rate of Assessment, and Carryover of Unexpected Funds

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This regulation authorizes expenses and a rate of assessment for the 1977-78 fiscal year, to be collected from handlers to support activities of the Navel Orange Administrative Committee which locally administers the Federal marketing order covering Arizona and California navel oranges.

DATES: Effective November 1, 1977, through October 31, 1978.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, 202-447-6393.

SUPPLEMENTARY INFORMATION: On January 17, 1978, notice was published in the FEDERAL REGISTER (43 FR 2401) inviting written comments not later than January 31, 1978, on proposed expenses, rate of assessment, and carryover of unexpended funds, under Marketing Order No. 907, as amended (7 CFR Part 907), regulating the handling of navel oranges grown

in Arizona and designated part of California. None were received. This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674).

After consideration of all relevant matter presented, including the proposals in the notice, it is found that:

§ 907.215 Expenses, rate of assessment, and carryover of unexpended funds.

(a) Expenses that are reasonable and likely to be incurred by the Navel Orange Administrative Committee during the period November 1, 1977, through October 31, 1978, will amount to $474,720.

(b) The rate of assessment for said period payable by each handler in accordance with § 907.41 is fixed at $0.013 per carton of navel oranges.

(c) Unexpended assessment funds in excess of expenses incurred during the fiscal year ended October 31, 1977, shall be carried over as a reserve in accordance with § 907.42.

It is further found that good cause exists for not postponing the effective date until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) as the order requires that the rate of assessment for a fiscal year shall apply to all assessable navel oranges handled from the beginning of the year.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674.)

Dated: February 2, 1978.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

CHAPTER VII—AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE (AGRICULTURAL ADJUSTMENT), DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

PART 724—FIRE-CURED, DARK AIR-CURED, VIRGINIA SUN-CURED, CIGAR-BINDER (TYPES 51 AND 52), AND CIGAR-FILLER AND BINDER (TYPES 42, 43, 44, 53, 54, AND 55)

Subpart—Proclamations, Determinations and Announcements of National Marketing Quotas and Referendum Results

1978 NATIONAL MARKETING QUOTAS, DETERMINATIONS, AND ANNOUNCEMENTS

AGENCY: Agricultural Stabilization and Conservation Service.

ACTION: Final rule.

SUMMARY: This document proclaims national marketing quotas for cigar binder (types 51 and 52) tobacco and cigar filler and binder (types 42-44; 53-55) tobacco. This document also announces national acreage allotments for the following kinds of tobacco: Fire-cured, dark air-cured, Virginia sun-cured, cigar binder (types 51 and 52), and cigar filler and binder. The law requires that these announcements be made by February 1, 1978. These actions are being taken to insure that adequate supplies of these kinds of tobacco will be available for the 1978-79 marketing year.

EFFECTIVE DATE: February 1, 1978.

FOR FURTHER INFORMATION CONTACT:

Robert L. Tarczy, 202-447-7601, Price Support and Loan Division, ASCS, U.S. Department of Agriculture, P.O. Box 2415, Washington, D.C. 20013.

SUPPLEMENTARY INFORMATION: Sections 724.6 and 724.7 are issued pursuant to and in accordance with the Agricultural Adjustment Act of 1938, as amended, hereinafter referred to as the "Act", to proclaim national marketing quotas for cigar-binder (types 51 and 52), and cigar-filler and binder (types 42, 43, 44, 53, 54, and 55) tobacco, respectfully, for each of the 3 marketing years beginning October 1, 1978, October 1, 1979, and October 1, 1980. Sections 724.12 through 724.17 are issued pursuant to, and in ac- cordance with, the Act to announce the reserve supply level and the total supply of fire-cured, dark air-cured, Virginia sun-cured, cigar-binder, and cigar-filler and binder tobacco for the marketing year beginning October 1, 1977, and to announce for the 1978-79 marketing year the amounts of the national marketing quotas, national acreage allotments, national acreage factors for apportioning the national acreage allotments (less reserves) to old farms, and the amounts of the national reserves and parts thereof available for: (a) new farms and (b) making corrections and adjusting inequities in old farm allotments for fire-cured (type 21), fire-cured (type 22-24), dark air-cured, Virginia sun-cured, cigar-binder, and cigar-filler and binder tobacco. The material previously appearing in these sections under centerheads "Proclamation of Quotas and Determinations and Announcements—1977-78 Marketing Year" remain in full force and effect as to the crop to which it was applicable.

The determinations contained in §§ 724.12 through 724.17 have been made on the basis of the latest available statistics of the Federal Government, and after due consideration of data, views, and recommendations received from tobacco producers and others as provided in a notice (42 FR 65202) given in accordance with the provisions of 5 U.S.C. 553.

It is determined that acreage-poundage quotas will not be announced for the 1978-79 marketing year for any of these kinds of tobacco.

DISCUSSION OF COMMENTS

Fire-cured (Type 21).—One comment was received from the Virginia State ASC Committee requesting no change in quota.

Fire-cured (Types 22-23).—One comment was received from a tobacco association favoring no change in quota for type 22.

Dark-air cured (Types 35-36).—One comment was received from a tobacco association favoring no change in quota for type 35. One other comment was received from a member of the tobacco trade who desired an increase in quota for both types 35 and 36.

Virginia sun-cured (Type 37).—One comment was received requesting an increase in quota for type 37. One other comment was received from the Virginia State ASC Committee requesting no change in quota.

Cigar binder (Types 51 and 52).—One comment was received from a State ASCS Office favoring no change from last year's quota.

Cigar filler and binder (Types 42-44 and 53-55).—No comments were received.

Section 312(b) of the Act provides, in part, that the amount of the national marketing quota is the total quantity of a kind of tobacco which may be marketed which will make available during such marketing year a supply of such tobacco equal to the reserve supply level. The amount of the national marketing quota so announced may, no later than the following March 1, be increased by not more than 20 percent if the Secretary determines that such increase is necessary in order to meet market demands or to avoid undue restrictions of marketings in adjusting the total supply to the reserve supply level.

The reserve supply level is defined in the Act as 105 percent of the normal supply. The normal supply is defined in the Act as a normal year's domestic consumption and exports, plus 175 percent of a normal year's domestic consumption and 65 percent of a normal year's exports. A normal year's domestic consumption is defined in the Act as the yearly average quantity produced in the United States and consumed in the United States during the 10 marketing years immediately preceding the marketing year in which such consumption is determined, adjusted for current trends in such consumption. A normal year's exports is defined in the Act as the yearly average quantity produced in the United States which was exported from the United States during the 10 marketing years immediately preceding the marketing year in which such exports are determined, adjusted for current trends in such exports.

FIRE-CURED (TYPE 21) TOBACCO

The yearly average quantity of fire-cured (type 21) tobacco produced in the United States which is estimated to have been consumed in the United States during the 10 marketing years preceding the 1977-78 marketing year was about 2.1 million pounds. The average annual quantity of fire-cured (type 21) tobacco produced in the United States and exported from the United States during the ten marketing years preceding the 1977-78 marketing year was 4.6 million pounds (farm-sales weight basis). Taking into account the irregular pattern of both domestic use and exports, and the market demand for the various grades, 3.1 million pounds have been used as a normal year's domestic consumption and 5.2 million pounds have been used as a normal year's exports. Application of the formula prescribed by the Act results in a reserve supply level of 18 million pounds.

Manufacturers and dealers reported stocks of fire-cured (type 21) tobacco held on October 1, 1977, as 6.7 million pounds. The 1977 fire-cured (type 21) tobacco crop is estimated to be 7.3 million pounds. Therefore, the total supply of fire-cured (type 21) tobacco for the 1977-78 marketing year, is 14 million pounds. During the 1977-78 marketing year, it is estimated that disappearance will total about 5.8 million pounds. By deducting this disappearance from the total supply, a carryover of 8.2 million pounds for the 1978-79 marketing year is obtained.

The difference between the reserve supply level and the estimated carryover on October 1, 1978, results in a computed national marketing quota for the 1978-79 marketing year of 9.8 million pounds. Use of the authority of the Secretary in section 312(b) of the Act to increase the computed quota by 20 percent to 11.8 million pounds, is deemed to be justified in order to avoid undue restrictions of marketings. This results in a national marketing quota of 11.8 million pounds.

In accordance with section 313(g) of the Act, the 1978 national marketing quota, divided by the 1973-77, 5-year national average yield of 1,065 pounds per acre, results in a 1978 national acreage allotment of 11,079.81 acres.

Pursuant to the provisions of section 313(g), a national acreage factor of 1.0 is determined by dividing the national acreage allotment, less a national reserve of 100.00 acres, by the total of the 1978 preliminary farm acreage allotments. The preliminary farm acreage allotments reflect the factors specified in section 313(g) for apportioning the national acreage allotment, less reserve, to old farms.

FIRE-CURED (TYPES 22-24) TOBACCO

The yearly average quantity of fire-cured (types 22-24) tobacco produced in the United States which is estimated to have been consumed in the United States during the 10 years preceding the 1977-78 marketing year was about 14.9 million pounds. The average annual quantity of fire-cured (types 22-24) tobacco produced in the United States and exported during the 10 marketing years preceding the 1977-78 marketing year was 22.2 million pounds (farm-sales weight basis). Domestic use and exports of fire-cured (type 22-24) tobacco are very irregular. Accordingly, a normal year's domestic consumption has been set at 18.3 and a normal year's exports at 27.0. Application of the formula prescribed by the Act results in a reserve supply level of 99.6 million pounds.

Manufacturers and dealers reported stocks of fire-cured (types 22-24) tobacco held on October 1, 1977, as 41.2 million pounds. The 1977 fire-cured (types 22-24) crop is estimated to be 46.9 million pounds. Therefore, the total supply of fire-cured (types 22-24) tobacco for the marketing year beginning October 1, 1977 is 88.1 million pounds. During the 1977-78 marketing year it is estimated that disappearance will total about 34.5 million pounds. By deducting this disappearance from the total supply, a carryover of 53.6 million pounds for the 1978-79 marketing year is obtained.

The difference between the reserve supply level and the estimated carryover on October 1, 1978, results in a computed national marketing quota for the 1978-79 marketing year of 46.0 million pounds. Use of the authority of the Secretary in section 312(b) of the Act to increase the computed quota by 20 percent to 55.2 million pounds is deemed to be justified in order to avoid undue restrictions of marketings. This results in a national marketing quota of 55.2 million pounds.

In accordance with section 313(g) of the Act, the 1978 national marketing quota, divided by the 1973-77, 5-year national average yield of 1,691 pounds per acre, results in the 1978 national acreage allotment of 32,643.41 acres.

Pursuant to the provisions of section 313(g), a national acreage factor of 1.0 is determined by dividing the national acreage allotment, less a national reserve of 56.00 acres, by the total of the 1978 preliminary farm acreage allotments. The preliminary farm acreage allotments reflect the factors specified in section 313(g) for apportioning the national acreage allotment, less reserve, to old farms.

DARK AIR-CURED TOBACCO

The yearly average quantity of dark air-cured tobacco produced in the United States which is estimated to have been consumed in the United States during the ten years preceding the 1977-78 marketing year was about 16.1 million pounds, and the average annual quantity produced domestically and exported during this period was 2.5 million pounds (farm-sales weight basis). There appears to be no distinct trends in either. Therefore, in accordance with the Act, the 10 year average of 16.1 million pounds has been used as a normal year's domestic consumption and the 10 year average of 2.5 million pounds as a normal year's exports. Application of the formula prescribed by the Act results in a reserve supply level of 50.8 million pounds.

Manufacturers and dealers reported stocks of dark air-cured tobacco held on October 1, 1977, as 26.1 million pounds. The 1977 dark air-cured crop is estimated to be 20.3 million pounds. Therefore, the total supply for the marketing year beginning October 1, 1977, is 46.4 million pounds. During the 1977-78 marketing year, it is estimated that disappearance will total about 18.0 million pounds. By deducting this disappearance from the total supply, a carryover of 28.4 million pounds for the 1978-79 marketing year, is obtained.

The difference between the reserve supply level and the estimated carryover on October 1, 1978, results in a national marketing quota for the 1978-79 marketing year of 22.4 million pounds.

Use of the authority of the Secretary in section 312(b) of the Act to increase the computed quota by 1.3 percent to 22.7 million pounds is deemed to be justified in order to avoid undue restrictions of marketings. This results in a national marketing quota of 22.7 million pounds.

In accordance with section 313(g) of the Act, the 1978 national marketing quota, divided by the 1973-77, 5-year national average yield of 1,711 pounds per acre, results in a 1978 national acreage allotment of 13,267.10 acres.

Pursuant to the provisions of section 313(g), a national acreage factor of 1.0 is determined by dividing the national acreage allotment, less a national reserve of 90.00 acres, by the total of the 1978 preliminary farm acreage allotments. The preliminary farm acreage allotments reflect the factors specified in section 313(g) for apportioning the national acreage allotment, less reserve, to old farms.

VIRGINIA SUN-CURED TOBACCO

The yearly average quantity of Virginia sun-cured tobacco produced in the United States which is estimated to have been consumed in the United States during the ten marketing years preceding the 1977-78 marketing year was about 1,010 thousand pounds, and the average annual quantity produced in the United States and exported during the same period was about 240 thousand pounds (farm-sales weight

basis). Domestic use is very erratic while exports have trended downward. With this in mind, the 10 year average of 1,010 thousand pounds has been used as a normal year's domestic consumption and 200 has been used as a normal year's exports. Application of the formula prescribed by the Act results in a reserve supply level of 3,263 thousand pounds.

Manufacturers and dealers reported stocks of Virginia sun-cured tobacco held on October 1, 1977, as 1,767 thousand pounds. The 1977 Virginia sun-cured tobacco crop is estimated to be 810 thousand pounds. Therefore, the total supply of Virginia sun-cured tobacco for the 1977–78 marketing year is 2,577 thousand pounds. During the 1977–78 marketing year, it is estimated that disappearance will total about 1,000 thousand pounds. By deducting this disappearance from the total supply, a carryover of 1,577 thousand pounds for the 1978–79 marketing year, is obtained.

The difference between the reserve supply level and the estimated carryover on October 1, 1978 results in a computed national marketing quota for the 1978–79 marketing year of 1,686 thousand pounds and is hereby announced.

In accordance with section 313(g) of the Act, the 1978 national marketing quota, divided by the 1973–77, 5-year national average yield of 1,129 pounds per acre, results in a 1978 national acreage allotment of 1,493.36 acres.

Pursuant to the provisions of section 313(g), a national acreage factor of 1.0 is determined by dividing the national acreage allotment, less a national reserve of 12 acres, by the total of the 1978 preliminary farm acreage allotments. The preliminary farm acreage allotments reflect the factors specified in section 313(g) for apportioning the national acreage allotment, less reserve, to old farms.

CIGAR-BINDER (TYPES 51 AND 52) TOBACCO

The yearly average quantity of cigar-binder (types 51 and 52) tobacco produced in the United States which is estimated to have been consumed in the United States during the ten years preceding the 1977–78 marketing year was about 3.5 million pounds. The average annual quantity of cigar-binder tobacco produced in the United States and exported from the United States during the ten marketing years preceding the 1977–78 marketing year was 0.4 million pounds (farm-sales weight basis). Domestic use is erratic while exports have trended downward. Accordingly, 3.8 million pounds has been used as a normal year's domestic consumption and 0.2 million pounds has been used as a normal year's exports. Application of the formula prescribed by the Act results in a reserve supply level of 11.2 million pounds. Manufacturers and dealers reported stocks of cigar-binder tobacco held on October 1, 1977, as 4.3 million pounds. The 1977 cigar-binder crop is estimated to be 2.6 million pounds. Therefore, the total supply of cigar-binder tobacco for the 1977–78 marketing year is 6.9 million pounds. During the 1977–78 marketing year, it is estimated that disappearance will total about 2.4 million pounds. By deducting the estimated disappearance during the 1977–78 marketing year from the total supply, a carryover of 4.5 million pounds at the beginning of the 1978–79 marketing year is obtained.

The difference between the reserve supply level and the estimated carryover on October 1, 1978, results in a computed national marketing quota for the 1977–78 marketing year of 6.7 million pounds. Use of the authority of the Secretary in Section 312(b) of the Act to increase the computed quota by 20 percent to 8.0 million pounds is deemed to be justified in order to avoid undue restrictions of marketings. This results in a national marketing quota of 8.0 million pounds.

In accordance with section 313(g) of the Act, the 1978 national marketing quota of 8.0 million pounds, divided by the 1973–77, 5-year national average yield of 1,662 pounds per acre, results in a 1978 national acreage allotment of 4,813.48 acres.

Pursuant to the provisions of section 313(g), a national acreage factor of 1.0 is determined by dividing the national acreage allotment, less a national reserve of 23 acres, by the total of the 1978 preliminary farm acreage allotments. This preliminary farm acreage allotments reflect the factors specified in section 313(g) for apportioning the national allotment, less reserve, to old farms.

CIGAR-FILLER AND BINDER TOBACCO

The yearly average quantity of cigar-filler and binder tobacco produced in the United States which is estimated to have been consumed in the United States during the ten years preceding the 1977–78 marketing year was about 23.3 million pounds. The average annual quantity of cigar-filler and binder tobacco produced in the United States and exported from the United States during the ten marketing years preceding the 1977–78 marketing year was 0.1 million pounds (farm-sales weight basis). Following the cyclical marketing trends, a normal year's domestic consumption has been set at 27.8 million pounds and a normal year's exports at 0.1 million pounds. Application of the formula prescribed by the Act, results in a reserve suppy level of 80.4 million pounds.

Manufacturers and dealers reported stocks of cigar-filler and binder tobacco held on October 1, 1977, as 46.0 million pounds. The 1977 cigar-filler and binder crop is estimated to be 26.6 million pounds. Therefore, the total supply of cigar-filler and binder tobacco for the 1977–78 marketing year is 72.6 million pounds. During the 1977–78 marketing year, it is estimated that disappearance will total about 22.2 million pounds. By deducting this disappearance from the total supply, a carryover of 50.4 million pounds at the beginning of the 1978–79 marketing year is obtained.

The difference between the reserve supply level and the estimated carryover on October 1, 1978, results in national marketing quota for the 1978–79 marketing year of 30.0 million pounds. Use of the authority of the Secretary in section 312(b) of the Act to increase the computed quota by 20 percent to 36.0 million pounds, is deemed to be justified in order to avoid undue restrictions of marketings. This results in a national marketing quota of 36.0 million pounds.

In accordance with section 313(g) of the Act, the 1978 national marketing quota of 36.0 million pounds, divided by the 1973–77, 5-year national average yield of 1,858 pounds per acre, results in the 1978 national acreage allotment of 19,375.67 acres.

Pursuant to the provisions of section 313(g), a national acreage factor of 1.0 is determined by dividing the national acreage allotment, less a national reserve of 45.00 acres, by the total of the 1978 preliminary farm acreage allotments. The preliminary farm acreage allotments reflect the factors specified in section 313(g) for apportioning the national acreage allotment, less reserve, to old farms.

Since the Act requires the holding of separate referendums of fire, dark air, sun-cured, cigar-binder, and cigar-filler and binder tobacco farmers within 30 days after issuance of the proclamation of national marketing quotas to determine whether such farmers favor marketing quotas, and since farmers must be notified, insofar as practicable, of their farm acreage allotments prior to the referenda and since notices of allotments cannot be mailed until the issuance of the proclamation, and since fire-cured, dark air-cured, and sun-cured tobacco farmers are now making their plans for producing tobacco in 1978 and need to know, at the earliest possible date, the applicable 1978 tobacco allotments for their farms, it is hereby found that compliance with the 30-day effective date provisions of 5 U.S.C. 553 is impracticable and contrary to the public interests. Therefore, this revision is issued without following such procedure.

FINAL RULE

Part 724 of Title 7 is amended by revising §§ 724.6 and 724.7 and §§ 724.12 through 724.17 and the centerheads which precede them to read as follows:

PROCLAMATION OF QUOTAS

§ 724.6 Cigar Binder Tobacco (types 51 and 52)—1978–79, 1979–80, and 1980–81 marketing years.

Since the 1977–78 marketing year is the last of three consecutive years for which marketing quotas previously proclaimed will be in effect for cigar-binder tobacco, a national marketing quota for such kind of tobacco for each of the three marketing years beginning October 1, 1978, October 1, 1979, and October 1, 1980 is hereby proclaimed.

§ 724.7 Cigar-Filler and Binder Tobacco (types 42, 43, 44, 53, 54, and 55)—1978–79, 1979–80, and 1980–81 marketing years.

Since the 1977–78 marketing year is the last of three consecutive years for which marketing quotas previously proclaimed will be in effect for cigar-filler and binder tobacco, a national marketing quota for such kind of tobacco for each of the three marketing years beginning October 1, 1978, October 1, 1979, and October 1, 1980 is hereby proclaimed.

DETERMINATIONS AND ANNOUNCEMENTS—1978–79 MARKETING YEAR

§ 724.12 Fire-cured (type 21) tobacco.[1]

(a) *Reserve supply level.*[1] The reserve supply level for fire-cured (type 21) tobacco is 18.0 million pounds, calculated, as provided in the Act, from a normal year's domestic consumption of 3.1 million pounds and a normal year's exports of 5.2 million pounds.

(b) *Total supply.*[1] The total supply of fire-cured (type 21) tobacco for the marketing year beginning October 1, 1977, is 14.0 million pounds, calculated in accordance with the Act, from a carryover of 6.7 million pounds and estimated 1977 production 7.3 million pounds.

(c) *Carryover.*[1] The estimated carryover of fire-cured (type 21) tobacco for the marketing year beginning October 1, 1978, is 8.2 million pounds, calculated in accordance with the Act by subtracting the estimated disappearance for the marketing year beginning October 1, 1977, of 5.8 million pounds from the total supply of such tobacco.

(d) *National marketing quota.*[1] The amount of fire-cured (type 21) tobacco which will make available during the marketing year beginning October 1, 1978, a supply equal to the reserve supply level of such tobacco is 9.8 million pounds, and a national marketing quota of such amount is hereby announced. It is determined however, that a national marketing quota in the amount of 9.8 million pounds would result in undue restriction of marketings during the 1978–79 marketing year and such amount is hereby increased by 20 percent. Therefore, the amount of the national marketing quota for fire-cured (type 21) tobacco in terms of the total quantity of such tobacco which may be marketed during the marketing year beginning October 1, 1978 is 11.8 million pounds.

(e) *National acreage allotment.* The national acreage allotment, calculated in accordance with the Act by dividing the national marketing quota for the 1978–79 marketing year by the 5-year 1973–77 national average yield of 1,065 pounds is 11,079.81.

(f) *National acreage factor.* The national acreage factor for use in determining farm acreage allotments is 1.0. It was calculated in accordance with the Act by dividing the national acreage allotment, less the national reserve, by the total of the preliminary allotments for 1978 old farms.

(g) *National reserve.* The national acreage reserve is 100.00 acres, of which 20.00 acres are made available for 1978 new farms, and 80.00 acres are made available for making corrections and adjusting inequities in old farm allotments.

§ 724.13 Fire-cured (types 22–24) tobacco.

(a) *Reserve supply level.*[1] The reserve supply level for fire-cured (types 22–24) tobacco is 99.6 million pounds, calculated, as provided in the Act, from a normal year's domestic consumption of 18.3 million pounds and a normal year's exports of 27.0 million pounds.

(b) *Total supply.*[1] The total supply of fire-cured (types 22–24) tobacco for the marketing year beginning October 1, 1977, is 88.1 million pounds, calculated in accordance with the Act, from a carryover of 41.2 million pounds and estimated 1977 production of 46.9 mlion pounds.

(c) *Carryover.*[1] The estimated carryover of fire-cured tobacco (types 22–24) for the marketing year beginning October 1, 1978, is 53.6 million pounds, calculated in accordance with the Act by subtracting the estimated disappearance for the marketing year beginning October 1, 1977, of 34.5 million pounds from the total supply of such tobacco.

(d) *National marketing quota.*[1] The amount of fire-cured (types 22–24) tobacco which will make available during the marketing year beginning October 1, 1978, a supply equal to the reserve supply level of such tobacco is 46.0 million pounds, and a national marketing quota of such amount is hereby announced.

It is determined, however, that a national marketing quota in the amount of 46.0 million pounds would result in undue restriction of marketings during the 1978–79 marketing year and such amount is hereby increased by 20 percent. Therefore, the amount of the national marketing quota for fire-cured (types 22–24) tobacco in terms of the total quantity of such tobacco which may be marketed during the marketing year beginning October 1, 1978, is 55.2 million pounds.

(e) *National acreage allotment.* The national acreage allotment, calculated in accordance with the Act by dividing the national marketing quota for the 1978–79 marketing year by the 5-year 1973–77 national average yield of 1,691 pounds is 32,643.41.

(f) *National acreage factor.* The national acreage factor for use in determining farm acreage allotments for the 1978–79 marketing year is 1.0. It was calculated in accordance with the Act by dividing the national acreage allotment, less the national reserve, by the total of the preliminary allotments for the 1978 old farms.

(g) *National reserve.* The national acreage reserve is 56.00 acres, of which 6.00 acres are made available for 1978 new farms and 50.00 acres are made available for making corrections and adjusting inequities in old farm allotments.

§ 724.14 Dark air-cured tobacco.

(a) *Reserve supply level.*[1] The reserve supply level for dark air-cured tobacco is 50.8 million pounds, calculated, as provided in the Act, from a normal year's domestic consumption of 16.1 million pounds and a normal year's exports of 2.5 million pounds.

(b) *Total supply.*[1] The total supply of dark air-cured tobacco for the marketing year beginning October 1, 1977, is 46.4 million pounds calculated in accordance with the Act, from a carryover of 26.1 million pounds and estimated 1977 production of 20.3 million pounds.

(c) *Carryover.*[1] The estimated carryover of dark air-cured tobacco for the marketing year beginning October 1, 1978, is 28.4 million pounds, calculated in accordance with the Act by subtracting the estimated disappearance for the marketing year beginning October 1, 1977, of 18.0 million pounds from the total supply of such tobacco.

(d) *National marketing quota.*[1] The amount of dark air-cured tobacco which will make available during the marketing year beginning October 1, 1978, a supply equal to the reserve supply level of such tobacco is 22.4 million pounds, and a national marketing quota of such amount is hereby announced.

It is determined, however, that a national marketing quota in the amount of 22.4 million pounds would result in undue restriction of marketings during the 1978–79 marketing year and such amount is hereby increased by 1.3 percent. Therefore, the amount of the national marketing quota for dark air-cured (types 35-36) tobacco in terms of the total quantity of such tobacco which may be marketed during the marketing year beginning October 1, 1978, is 22.7 million pounds.

[1] Rounded to the nearest tenth of a million.

(e) *National acreage allotment.*[1] The national acreage allotment, calculated in accordance with the Act by dividing the national marketing quota for the 1978–79 marketing year by the 5-year, 1973–77, national average yield of 1,711 pounds, is 13,267.10 acres.

(f) *National acreage factor.* The national acreage factor for use in determining farm acreage allotments for the 1978–79 marketing year is 1.0. It was calculated in accordance with the Act by dividing the national acreage allotment, less reserve, by the total of the preliminary allotments for 1978 old farms.

(g) *National reserve.* The national acreage reserve is 90.00 acres, of which 10.00 acres are made available for 1978 new farms, and 80.00 acres are made available for making corrections and adjusting inequities in old farm allotments.

§ 724.15 Virginia sun-cured tobacco.

(a) *Reserve supply level.*[2] The reserve supply level for Virginia sun-cured tobacco is 3,263 thousand pounds, calculated, as provided in the Act, from a normal year's domestic consumption of 1,010 thousand pounds and a normal year's exports of 200 thousand pounds.

(b) *Total supply.*[2] The total supply of Virginia sun-cured tobacco for the marketing year beginning October 1, 1977, calculated in accordance with the Act, is 2,577 thousand pounds, consisting of carryover of 1,767 thousand pounds and estimated 1977 production of 810 thousand pounds.

(c) *Carryover.*[2] The estimated carryover of Virginia sun-cured tobacco for the marketing year beginning October 1, 1978, is 1,577 thousand pounds, calculated in accordance with the Act by subtracting the estimated disappearance for the marketing year beginning October 1, 1977, of 1,000 thousand pounds from the total supply of such tobacco.

(d) *National marketing quota.*[2] The amount of Virginia sun-cured tobacco which will make available during the marketing year beginning October 1, 1978, a supply equal to the reserve supply level of such tobacco is 1,686 thousand pounds, and a national marketing quota of such amount is hereby announced.

(e) *National acreage allotment.* The national acreage allotment, calculated in accordance with the Act by dividing the national marketing quota for the 1978–79 marketing year by the 5-year, 1973–77, national average yield of 1,129 pounds, is 1,493.36.

(f) *National acreage factor.* The national acreage factor for use in determining farm acreage allotments for the 1978–79 marketing year is 1.0. It was calculated in accordance with the Act by dividing the national acreage allotment, less reserve, by the total of the preliminary allotments for 1978 old farms.

(g) *National reserve.* The national acreage reserve is 12.00 acres, of which 5.00 acres are made available for 1978 new farms, and 7.00 acres are made available for making corrections and adjusting inequities in old farm allotments.

§ 724.16 Cigar-binder (type 51 and 52) tobacco.

(a) *Reserve supply level.*[1] The reserve supply level for cigar-binder (types 51 and 52) tobacco is 11.2 million pounds calculated as provided by the Act, from a normal year's domestic consumption of 3.8 million pounds and a normal year's exports of 0.2 million pounds.

(b) *Total supply.*[1] The total supply of cigar-binder (types 51 and 52) tobacco for the marketing year beginning October 1, 1977, is 6.9 million pounds, calculated in accordance with the Act from a carryover of 4.3 million pounds and estimated 1977 production of 2.6 million pounds.

(c) *Carryover.*[1] The estimated carryover of cigar-binder (types 51 and 52) tobacco for the marketing year beginning October 1, 1978, is 4.5 million pounds, calculated in accordance with the Act, by subtracting the estimated disappearance for the marketing year beginning October 1, 1977, of 2.4 million pounds from the total supply of such tobacco.

(d) *National marketing quota.*[1] The amount of cigar-binder (types 51 and 52) tobacco which will make available during the marketing year beginning October 1, 1978, a supply equal to the reserve supply level of such tobacco is 6.7 million pounds, and a national marketing quota of such amount is hereby announced. It is determined, however, that a national marketing quota in the amount of 6.7 million pounds would result in undue restrictions of marketings during the 1978–79 marketing year and such amount is hereby increased by 20 percent. Therefore, the amount of the national marketing quota for cigar-binder (types 51 and 52) tobacco in terms of the total quantity of such tobacco which may be marketed during the marketing year beginning October 1, 1978, is 8.0 million pounds.

(e) *National acreage allotment.* The national acreage allotment, calculated in accordance with the Act by dividing the national marketing quota for the 1978–79 marketing year by the 5-year, 1973–77 national average yield of 1,662 pounds is 4,813.48 acres.

(f) *National acreage factor.* The national acreage factor for use in determining farm acreage allotments for the 1978–79 marketing year is 1.0. It was calculated in accordance with the Act by dividing the national acreage allotment, less reserve, by the total of the preliminary allotments for the 1978 old farms.

(g) *National reserve.* The national acreage reserve is 23.00 acres of which 8.00 are made available for new farms and 15.00 for making corrections and adjusting inequities in old farm allotments.

§ 724.17 Cigar-filler and binder (types 42–44, 53–55) tobacco.

(a) *Reserve supply level.*[1] The reserve supply level for cigar-filler and binder (types 42–44, 53–55) tobacco is 80.4 million pounds, calculated, as provided in the Act, from a normal year's domestic consumption of 27.8 million pounds and a normal year's exports of 0.1 million pounds.

(b) *Total supply.*[1] The total supply of cigar-filler and binder (types 42–44, 53–55) tobacco for the marketing year beginning October 1, 1977, is 72.6 million pounds calculated in accordance with the Act, from a carryover of 46.0 million pounds and estimated 1977 production of 26.6 million pounds.

(c) *Carryover.*[1] The estimated carryover of cigar-filler and binder (types 42–44, 53–55) tobacco for the marketing year beginning October 1, 1978, is 50.4 million pounds, calculated in accordance with the Act, by subtracting the estimated disappearance for the marketing year beginning October 1, 1977, of 22.2 million pounds from the total supply of such tobacco.

(d) *National marketing quota.*[1] The amount of cigar-filler and binder (types 42–44, 53–55) tobacco which will make available during the marketing year beginning October 1, 1978, a supply equal to the reserve supply level of such tobacco is 30.0 million pounds, and a national marketing quota of such amount is hereby announced.

It is determined however, that a national marketing quota in the amount of 30.0 million pounds would result in undue restriction of marketings during the 1978–79 marketing year and such amount is hereby increased by 20 percent. Therefore, the amount of the national marketing quota for cigar-filler and binder (types 42–44, 53–55) tobacco in terms of the total quantity of such tobacco which may be marketed during the marketing year beginning October 1, 1978, is 36.0 million pounds.

(e) *National acreage allotment.* The national acreage allotment, calculated in accordance with the Act by dividing the national marketing quota for the 1978–79 marketing year by the 5-year, 1973–77 national average yield of 1,858 pounds, is 19,375.67 acres.

(f) *National acreage factor.* The national acreage factor for use in determining farm acreage allotments for the 1978–79 marketing year is 1.0. It was calculated in accordance with the Act by dividing the national acreage allotment, less reserve by the total of

[1] Rounded to the nearest thousand pounds.

the preliminary allotments for 1978 old farms.

(g) *National reserve.* The national acreage reserve is 45.00 acres, of which 40.00 acres are made available for 1978 new farms, and 5.00 acres are made available for making corrections and adjusting inequities in old farm allotments.

(Secs. 301, 312, 313, 375, 52 Stat. 38, as amended, 46, as amended, 66 as amended; 7 U.S.C. 1301, 1312, 1313, 1375.)

Signed at Washington, D.C., on January 31, 1978.

STEWART N. SMITH,

PART 726—BURLEY TOBACCO

Subpart—Proclamations, Determinations and Announcements of National Marketing Quotas and Referendum Results

1978 NATIONAL MARKETING QUOTA FOR BURLEY TOBACCO

AGENCY: Agricultural Stabilization and Conservation Service.

ACTION: Final rule.

SUMMARY: The Secretary of Agriculture has determined that the burley tobacco marketing quota shall be 615 million pounds for the 1978-79 marketing year. The law requires this announcement by February 1, 1978. This action is being taken to insure that adequate supplies of burley tobacco will be available for the 1978-79 marketing year.

EFFECTIVE DATE: February 1, 1978.

FOR FURTHER INFORMATION CONTACT:

Robert L. Tarczy, 202-447-7601, Price Support and Loan Division, ASCS, U.S. Department of Agriculture, P.O. Box 2415, Washington, D.C. 20013.

SUPPLEMENTARY INFORMATION: Section 726.11 is issued pursuant to, and in accordance with, the Agricultural Adjustment Act of 1938, as amended, hereinafter referred to as the "Act", to announce for burley tobacco the amounts of the national marketing quota, the national reserve, and the national factor for the 1978-79 marketing year. The material previously appearing in these sections under centerheads PROCLAMATION OF QUOTAS AND DETERMINATION AND ANNOUNCEMENTS—1977-78 MARKETING YEAR remains in full force and effect as to the crop to which it was applicable.

The determinations by the Secretary contained in § 726.11 have been made on the basis of the latest available statistics of the Federal Government, and after due consideration of data, views, and recommendations received from burley tobacco producers and others pursuant to a notice given in accordance with the provisions of 5 U.S.C. 553.

DISCUSSION OF COMMENTS

On Tuesday, December 20, 1977, there was published in the FEDERAL REGISTER (42 FR 63790) a notice of proposed rulemaking stating that the Secretary of Agriculture was preparing to determine and announce the national marketing quota for burley tobacco for the 1978-79 marketing year. The proposed rule invited the public to submit written comments, views and recommendations by January 19, 1978.

During the announced comment period, 20 responses were received. Included were comments from farmers, members of the trade and related associations, and farm groups. Eighteen favored no reduction in quota, with some stating that a reduction in quota would hurt exports. One favored a 5-percent reduction in the quota, stating that supplies were up. The other comment made no commitment.

In keeping with the Secretary's obligations to maintain an adequate supply of burley tobacco, but not to build up excess stocks, a marketing quota equal to expected disappearance of 615 million pounds is hereby determined and announced for the 1978-79 marketing year.

Section 319(c) of the Act provides that the national marketing quota determined under such section for burley tobacco for any marketing year shall be the amount produced in the United States which the Secretary estimates will be utilized in the United States and will be exported during such marketing year, adjusted upward or downward in such amount as the Secretary, in his discretion, determines is desirable for the purpose of maintaining an adequate supply or for effecting an orderly reduction of supplies to the reserve supply level. Any such downward adjustment shall not exceed 5 percent of such estimated utilization and exports. For each marketing year for which marketing quotas are in effect under this section, the Secretary in his discretion may establish a reserve (hereinafter referred to as the "national reserve") from the national marketing quota in an amount not in excess of 1 percent of the national marketing quota to be available for making corrections and adjusting inequities in farm marketing quotas, and for establishing marketing quotas for new farms.

Section 319(e) of the Act provides, in part, that the 1978 farm marketing quota shall be determined by multiplying the previous year's farm marketing quota by a national factor obtained by dividing the national marketing quota (less the national reserve) by the sum of the farm marketing quotas for the immediately preceding year for all farms for which burley tobacco marketing quotas will be determined for 1978: *Provided*, That such national factor shall not be less than 95 percent.

The reserve supply level is defined in the Act as 105 percent of the normal supply. The normal supply is defined in the Act as a normal year's domestic consumption and exports, plus 175 percent of a normal year's domestic consumption and 65 percent of a normal year's exports. A normal year's domestic consumption is defined in the Act as the yearly average quantity produced in the United States and consumed in the United States during the 10 marketing years immediately preceding the marketing year in which such consumption is determined, adjusted for current trends in such consumption. A normal year's exports is defined in the Act as the yearly average quantity produced in the United States which was exported from the United States during the 10 marketing years immediately preceding the marketing year in which such exports are determined, adjusted for current trends in such exports.

The reserve supply level is 1,678 million pounds, based on a normal year's domestic consumption of 515 million pounds and a normal year's exports of 110 million pounds. The average domestic usage for the past 10 marketing years amounts to 518 million pounds. However, domestic usage has trended downward with 1976 being the lowest disappearance of the 10 year period. The 10 year average exports amounted to 71 million pounds. Exports have averaged 92 million pounds during the past 3 marketing years and are expected to continue their upward trends in the future as foreign manufacturers upgrade their blends. In view of these data and estimates, a reserve supply level of 1,678 million pounds appears reasonable.

The total supply for the 1977-78 marketing year, October 1 carryover stocks plus estimated production of the 1977 crop, is 1,865 million pounds. This is 187 million pounds above the reserve supply level.

Total disappearance for the 1978-79 marketing year is estimated at 615 million pounds. It has been determined that no adjustment is necessary to maintain an adequate supply or for effecting an orderly reduction of supplies to the reserve supply level. Accordingly, the National Marketing Quota for burley tobacco for the mar-

keting year beginning October 1, 1978, is determined to be 615 million pounds. The sum of the preliminary farm marketing quotas for the 1978-79 marketing year is 636,313,044 pounds. The quota of 615 million pounds, less a national reserve of 1,590,000 pounds would result in a national factor of .964.

Since farmers are now making their plans for 1978 production of burley tobacco and need to know the marketing quota for their farms for the 1978-79 marketing year, it is hereby found that compliance with the 30-day effective date requirements of 5 U.S.C. 553 is impracticable and contrary to the public interest.

FINAL RULE

Accordingly 7 CFR Part 726 is amended to read as follows:

Section 726.11 and the preceding centerhead is revised to read as set forth below, effective for the 1978 crop of burley tobacco.

DETERMINATIONS AND ANNOUNCEMENTS—1978-79 MARKETING YEAR

§ 726.11 Burley tobacco.

(a) *National marketing quota.* A national marketing quota for burley tobacco on a poundage basis for the marketing year beginning October 1, 1978, is hereby determined and announced in the amount of 615 million pounds. This quota is based upon expected utilization and exports for the 1978-79 marketing year.

(b) *National Factor.* The national factor determined under § 319(e) of the Act is .964.

(c) *National reserve.* The national reserve for making corrections and adjusting inequities in old farm quotas and for establishing quotas for new farms is 1,590,000 pounds.

(Secs. 301, 319, 375, 52 Stat. 38, as amended, 85 Stat. 23, 52 Stat. 66, as amended, 7 U.S.C. 1301, 1314e, 1375.)

NOTE.—The Agricultural Stabilization and Conservation Service has determined that this document contains a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821 and OMB Circular A-107, and certifies that an Economic Impact Statement has been prepared.

Signed at Washington, D.C., on January 31, 1978.

STEWART N. SMITH,
Acting Administrator, Agricultural Stabilization and Conservation Service.

Title 10—Energy

CHAPTER I—NUCLEAR REGULATORY COMMISSION

PART 35—HUMAN USES OF BYPRODUCT MATERIAL

Group Licensing for Certain Medical Uses

AGENCY: U.S. Nuclear Regulatory Commission.

ACTION: Final rule.

SUMMARY: The Nuclear Regulatory Commission (NRC) is amending its regulations to add a new reagent kit to its list of authorized radioactive drugs, reagent kits, and procedures. The amendment adds to these lists a kit for preparation of technetium-99m labeled medronate sodium for bone imaging. This action is being taken by NRC because of the recent Food and Drug Administration approval of technetium-99m labeled medronate sodium for bone imaging.

EFFECTIVE DATE: February 7, 1978.

FOR FURTHER INFORMATION CONTACT:

John E. Bowyer, Division of Fuel Cycle and Material Safety, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, 301-427-4232.

SUPPLEMENTARY INFORMATION: Notice is hereby given of the amendment of the Nuclear Regulatory Commission's Regulation, "Human Uses of Byproduct Material", 10 CFR Part 35.

Section 35.100 of 10 CFR Part 35 lists groups of medical uses of radioisotopes that have similar requirements for user training and experience, facilities and equipment, and radiation safety procedures.

The notice of proposed rule making that was published in the FEDERAL REGISTER on January 21, 1974 (39 FR 2384) stated that the groups of licensed uses would be amended from time to time to add new radio-pharmaceuticals, sources, devices and uses as they are developed. The Food and Drug Administration (FDA) has recently approved a "New Drug Application" for technetium-99m as labeled medronate sodium for bone imaging and this procedure is hereby added to Group III.

Because these amendments relate solely to procedural matters, the Commission has found that good cause exists for omitting notice of proposed rule making, and public procedure thereon, as unnecessary. Since the amendment relieves licensees from restrictions under regulations currently in effect, it may become effective without the customary 30 day notice.

Pursuant to the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974, as amended, and sections 552 and 553 of Title 5 of the United States Code, the following amendments to Title 10, Chapter I, Code of Federal Regulations, Part 35 are published as a document subject to codification.

1. Paragraph (c)(3)(x) of § 35.100 is amended by changing the period at the end of paragraph (c)(3)(x) to a semicolon, and adding a new paragraph (c)(3)(xi) to read as follows:

§ 35.100 Schedule A-Groups of medical uses of byproduct material.

* * * * *

(c) * * *
(3) * * *

(xi) Medronate sodium for bone imaging.

(Secs. 81, 161b, Pub. L. 83-703, as amended; 68 Stat. 935, 948 (42 U.S.C. 2111, 2201);)

(Sec. 201, Pub. L. 93-438, as amended; 88 Stat. 1242 (42 U.S.C. 5841).)

Dated at Bethesda, Md. this 1st day of February 1978.

For the Nuclear Regulatory Commission.

LEE V. GOSSICK,
Executive Director for Operations.

Title 17—Commodity and Securities Exchanges

CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Release No. SAB-20]

PART 211—INTERPRETATIVE RELEASES RELATING TO ACCOUNTING MATTERS

Subpart B—Staff Accounting Bulletins

STAFF ACCOUNTING BULLETIN NO. 20

AGENCY: Securities and Exchange Commission.

ACTION: Publication of Staff and Accounting Bulletin.

SUMMARY: These interpretations of the staff of the Commission provide guidance to registrants in disclosing replacement cost data. Large nonfinancial registrants are required to disclose in their financial statements certain replacement cost information relating to inventories and productive capacity. In the staff's view, (1) registrants have flexibility in changing the methods and assumptions used in estimating the required replacement cost information from those used in the prior year, and (2) disclosures of replacement cost information, including those in material pertaining to proposed business combinations, should avoid simplistic presentations of the information.

DATE: January 31, 1978.

FOR FURTHER INFORMATION CONTACT:

Gary A. Zell, 202-376-8019 or Richard C. Adkerson 202-755-1671, Office of the Chief Accountant, Securities and Exchange Commission, Washington, D.C. 20549.

SUPPLEMENTARY INFORMATION: The statements in Staff Accounting Bulletins are not rules or interpretations of the Commission nor are they published as bearing the Commission's official approval; they represent interpretations and practices followed by the Division of Corporation Finance and the Office of the Chief Accountant in administering the disclosure requirements of the Federal securities laws.

GEORGE A. FITZSIMMONS,
Secretary.

JANUARY 31, 1978.

STAFF ACCOUNTING BULLETIN No. 20

The following interpretations provide guidance to registrants in disclosing the replacement cost information required by 17 CFR 210.3-17 as adopted in Accounting Series Release No. 190 (41 FR 13596).

TOPIC 6: INTERPRETATIONS OF ACCOUNTING SERIES RELEASES

* * * * *

I. Accounting Series Release No. 190—Amendments to regulation S-X requiring disclosure of certain replacement cost data (§ 210.3-17).

* * * * *

2. GENERAL

* * * * *

g. *Disclosure of comparative replacement cost data.*—Section 210.3-17 requires that registrants disclose certain replacement cost information in financial statements for the current year and, beginning for years ending on or after December 25, 1977, for the immediately preceding year. Certain registrants may wish, in developing estimates of the required data for the current year, to change either the methods used to estimate the data in the preceding year or to change the assumptions underlying such estimates.

Question 1

Is it appropriate to change the methods or the assumptions, or both, used to develop the estimates of replacement cost information from those used previously?

Interpretive response

Yes. The Commission in Accounting Series Release No. 190 encouraged meaningful experimentation in developing estimates of replacement cost information. If registrants conclude that methods or assumptions different from those used previously provide more appropriate or, while still resulting in acceptable estimates, less costly estimates of the required replacement cost information, they should not feel constrained to the methods or assumptions used in prior years.

Question 2

What disclosures does the staff suggest when such changes are made in the replacement cost methods or assumptions?

Interpretive response

Registrants should describe changes in the methods and assumptions used to estimate replacement cost information in the manner they consider appropriate. At a minimum, a registrant making changes of this nature should comment briefly on the changes and the reasons for making them. Registrants are not required either to restate the replacement cost information presented for the prior year to reflect newly adopted methods and assumptions or to provide any reconciliation of the amounts disclosed in the prior year using the new and old bases for estimating the data. The prior year data may be restated to reflect the new methods or assumptions if the registrant believes that restatement is appropriate. Restatement of the replacement cost information presented in the prior year would be necessary to reflect (a) corrections of errors, such as omissions and mathematical mistakes and (b) restatements of financial statements required by generally accepted accounting principles, such as for a business combination accounted for as a pooling-of-interests.

* * * * *

9. MISCELLANEOUS

* * * * *

c. *Presentation of replacement cost information in material pertaining to proposed business combinations.*

Facts

Certain registrants have recently disclosed replacement cost information in material filed with the Commission relating to proposed business combinations. For instance, one such registrant disclosed the difference between the historical cost and replacement cost of inventories and productive capacity as additional indicated stockholders' equity per share with no adjustments for income taxes or other possible effects.

Question

Does the staff consider such use of replacement cost data appropriate?

Interpretive response

The staff would consider the specific situation discussed above to be an inappropriate use of the replacement cost information required by § 210.3-17. Converting the data to additional stockholders' equity on a basis of accounting other than generally accepted accounting principles is a complex undertaking which requires consideration of matters other than the replacement cost of inventories and productive capacity. Adding the difference between the replacement costs and historical costs of these assets directly to reported stockholders' equity is a simplistic use of the data about which the Commission cautioned investors and analysts in Accounting Series Release No. 190.

Title 20—Employees' Benefits

CHAPTER III—SOCIAL SECURITY ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

[Reg. No. 4]

PART 404—FEDERAL OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE

Subpart J—Procedures, Payment of Benefits, and Representation of Parties

Consolidation of Hearings in Disability Cases With Common Issues

AGENCY: Social Security Administration, HEW.

ACTION: Final rule.

SUMMARY: These amendments provide for consolidation of hearings on the issue of medical improvement in cases of dual entitlement under both the Social Security Disability (Title II) and the Supplemental Security Income (Title XVI) programs when the individual has a right to a hearing under the title XVI program. They are needed to eliminate the mandatory reconsideration step for title II appeals. Through bypassing the reconsideration step under the title II program the common issues will be resolved in a single hearing and at an earlier point in time.

EFFECTIVE DATE: These amendments shall be effective on February 7, 1978.

FOR FURTHER INFORMATION CONTACT:

Ms. Dorothy E. Algea, Legal Assistant, Office of Policy and Regulations, Social Security Administration, 6401 Security Boulevard, Baltimore, Md. 21235, telephone 301-594-5587.

SUPPLEMENTARY INFORMATION: Regulations No. 4 (i.e., 20 CFR 404.917) now require reconsideration

review as the first appellate step after the initial determination in all title II disability insurance claims. Regulations No. 16, on the other hand, provide for a hearing as the first appellate step after the initial cessation decision due to medical improvement in supplemental security income disability cases (see 20 CFR 416.1426).

Since an individual receiving payments based on disability or blindness under both the Federal Old-Age, Survivors, and Disability Insurance program and the Supplemental Security Income program is in needy financial circumstances, it is important to provide him or her with the protection of procedural due process and to decide the issue of medical cessation of blindness or disability promptly. Since presiding officers at hearings (like all other employees) are governed by the regulations (20 CFR 404.909, 404.910, and 404.917(a)) which apply to all types of title II retirement, survivors, and disability claims, it is necessary to align those regulations with the title XVI regulations (20 CFR 416.1425(a)(4) and 416.1436(b)) so there is no opportunity for dismissal of requests for hearings under title II in cases where the common issue of medical cessation of blindness or disability is properly before them under title XVI. By amending §§ 404.910 and 404.917 to show that the first appellate step in an appropriate dual entitlement case is the hearing stage, dismissals of title II hearing requests will be prevented and smooth and prompt processing of consolidated hearings assured. Bypassing the administratively mandated reconsideration step will not adversely affect the rights of any claimant. Elimination of the reconsideration step in concurrent title II-title XVI medical cessation cases in no way affects the payment of benefits.

On August 1, 1977, there was published in the FEDERAL REGISTER (42 FR 38918-38919) a notice of proposed rulemaking setting forth proposed amendments to the regulations providing for consolidation of hearings on the issue of medical improvement in cases of dual entitlement under both the Social Security Disability (Title II) and the Supplemental Security Income (Title XVI) programs which involve the common issue of cessation of blindness or disability. Interested parties were given the opportunity to submit, not later than September 15, 1977, data, views, and arguments pertaining to the proposal.

The only comment received was from the State of Mississippi. It commended the Social Security Administration for this positive step toward bringing uniformity to program requirements. In the absence of any unfavorable comment, the proposed regulations are hereby adopted without change and are set forth below.

(Secs. 205, 221(d), 1102, Social Security Act, as amended; 49 Stat. 624, as amended by 53 Stat. 1368, 67 Stat. 632, 68 Stat. 1082, 49 Stat. 647, as amended by 86 Stat. 1489 (42 U.S.C. 405, 421(d), 1302))

(Catalog of Federal Domestic Assistance Program No. 13.802, Social Security—Disability Insurance.)

NOTE.—The Social Security Administration has determined that this document does not require preparation of an Economic Impact Statement under Executive Order 11821 (November 27, 1974), as amended by Executive Order 11949 (December 31, 1976), and OMB Circular A-107.

Dated: November 25, 1977.

J. B. CARDWELL,
Commissioner of Social Security.

Approved: February 1, 1978.

JOSEPH A. CALIFANO, Jr.,
Secretary of Health, Education, and Welfare.

Part 404 of Chapter III of Title 20 of the Code of Federal Regulations is amended as set forth below:

1. Section 404.910 is revised to read as follows:

§ 404.910 Reconsideration; right to reconsideration.

The Social Security Administration shall, except as provided in § 404.910(d), reconsider an initial determination if a written request for reconsideration is filed, as provided in § 404.911:

(a) By or for the party to the initial determination (see § 404.905).

(b) By an individual as a wife, widow, divorced wife, surviving divorced wife, surviving divorced mother, husband, widower, child, parent, individual alleging equitable entitlement to a lump sum, or representative of a decedent's estate, who makes a showing in writing that his or her rights with respect to monthly benefits, a lump sum, a period of disability, or entitlement to hospital or supplementary medical insurance benefits, may be prejudiced by such determination. Such request for reconsideration is not applicable under this paragraph with respect to the revision of the Social Security Administration's earnings records.

(c) By a person as a widow, divorced wife, surviving divorced wife, surviving divorced mother, widower, child, parent, or individual alleging equitable entitlement to a lump sum, or representative of the decedent's estate relating to the revision of the Social Security Administration's record of the earnings (see § 404.905(g)) of a deceased individual.

(d) When the Social Security Administration has made an initial determination under title II that blindness or disability has ceased due to medical improvement and a hearing or right to hearing is pending under title XVI with respect to the same party and the same issue, appeal of the initial determination under title II shall be made directly to the hearing as provided in § 404.917.

2. Section 404.917(a) is amended to read as follows:

§ 404.917 Hearing; right to hearing.

An individual has a right to hearing about any matter designated in § 404.905, if:

(a) The Social Security Administration has made:

(1) An initial determination and a reconsideration of the initial determination; or

(2) A revised determination of an initial or reconsideration determination as provided in § 404.961; or

(3) An initial determination that blindness or disability has ceased due to medical improvement: *Provided*, That there is also pending a hearing or right to hearing under title XVI with respect to the same party and the same issue; and

* * * * *

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER A—GENERAL

[Docket No. 76C-0425]

PART 74—LISTING OF COLOR ADDITIVES SUBJECT TO CERTIFICATION

PART 81—GENERAL SPECIFICATIONS AND GENERAL RESTRICTIONS FOR PROVISIONAL COLOR ADDITIVES FOR USE IN FOODS, DRUGS, AND COSMETICS

PART 82—LISTING OF CERTIFIED PROVISIONALLY LISTED COLORS AND SPECIFICATIONS

D. & C. Red No. 34; Confirmation of Effective Date

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: This document confirms the effective date of December 27, 1976, of a regulation concerning the use of D. & C. Red No. 34 in externally applied drugs and cosmetics.

DATES: Effective date confirmed: December 27, 1976.

FOR FURTHER INFORMATION CONTACT:

Gerad L. McCowin, Bureau of Foods (HFF-334), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C Street SW., Washington, D.C. 20204, 202-472-5740.

SUPPLEMENTARY INFORMATION: A regulation published in the FEDERAL

REGISTER of November 23, 1976 (41 FR 51592), that added §§ 74.1334 and 74.2334 (21 CFR 74.1334 and 74.2334) (formerly §§ 8.4128 and 8.7195 prior to recodification published in the FEDERAL REGISTER of March 22, 1977 (42 FR 15553)), to provide for safe use of D. & C. Red No. 34 in externally applied drugs and cosmetics and amended § 81.1 (21 CFR 81.1, formerly 21 CFR 8.501) by deleting D. & C. Red No. 34 from the provisionally listed colors in paragraph (b). The regulation of November 23, 1976 also amended the identity nomenclature and specifications for the certification of D. & C. Red No. 34 § 82.1334 (21 CFR 82.1334, formerly 21 CFR § 9.179) to reference § 74.1334.

Under the Federal Food, Drug, and Cosmetic Act (secs. 706 (b), (c), and (d), 74 Stat. 399-403 (21 U.S.C. 376 (b), (c), and (d))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.1), notice is given that no objections or requests for hearing were filed in response to the regulation of November 23, 1976. The Commissioner has determined, in the absence of such objections, that the notice that appeared in the FEDERAL REGISTER of March 4, 1977 (42 FR 12424) that stayed the regulation was inappropriate. Therefore, the Commissioner is nullifying the stay of effectiveness and, accordingly, the amendments listing D. & C. Red No. 34 promulgated by the order of November 23, 1976 became effective on December 27, 1976.

Dated: February 1, 1978.

WILLIAM F. RANDOLPH,
Acting Associate Commission for Compliance.

[FR Doc. 78-3199 Filed 2-6-78; 8:45 am]

[4110-03]

SUBCHAPTER E—ANIMAL DRUGS, FEEDS, AND RELATED PRODUCTS

PART 520—ORAL DOSAGE FORM NEW ANIMAL DRUGS NOT SUBJECT TO CERTIFICATION

Uredofos Tablets

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The animal drug regulations are amended to reflect approval of a new animal drug application filed by Affiliated Laboratories Division, Whitmoyer Laboratories, providing for use of uredofos tablets for removal of certain intestinal worms in dogs and cats.

EFFECTIVE DATE: February 7, 1978.

FOR FURTHER INFORMATION CONTACT:

Henry C. Hewitt, Bureau of Veterinary Medicine (HFV-112), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-3430.

SUPPLEMENTARY INFORMATION: Affiliated Laboratories Division, Whitmoyer Laboratories, Inc., 1 Gibraltar Plaza, Horsham, Pa. 19044, filed a new animal drug application (NADA) (100-745V) providing for oral administration of the organophosphate uredofos for removal of roundworms, hookworms, and tapeworms in dogs and cats and whipworms in dogs.

In accordance with the freedom of information regulations and § 514.11(e)(2)(ii) (21 CFR 514.11(e)(2)(ii)) of the animal drug regulations, a summary of safety and effectiveness data and information submitted to support approval of this application is released publicly. The summary is available for public examination at the office of the Hearing Clerk (HFC-20), Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857, from 9 a.m. to 4 p.m., Monday through Friday, except on Federal holidays.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.1), Part 520 is amended by adding new § 520.2645 to read as follows:

§ 520.2645 Uredofos tablets.

(a) *Chemical name.* Diethyl [[[2-[[[[(4-methylphenyl)-sulfonyl] amino] carbonyl] amino] phenyl] aminothioxomethyl] phosphoramidate.

(b) *Specifications.* Each tablet contains 25, 62.5, 125, 250, or 500 milligrams of uredofos.

(c) *Sponsor.* See No. 011794 in § 510.600(c) of this chapter.

(d) *Conditions of use*—(1). *Amount.* 25 milligrams per pound (55 milligrams per kilogram) body weight.

(2) *Indications for use*—(i). *Dogs.* For removal of roundworms (*Toxocara canis, Toxascaris leonina*), hookworms (*Ancylostoma canium, Uncinaria stenocephala*), whipworms (*Trichuris vulpis*), and tapeworms (*Dipylidium caninum, Taenia pisiformis*).

(ii) *Cats.* For removal of roundworms (*Toxocara cati*), hookworms (*Ancylostoma tubaeforme, A. Braziliens*), and tapeworms (*Taenia taeniaformis*).

(3) *Limitations.* (i) For roundworms, hookworms, and tapeworms in dogs and cats, administer single oral dose of 25 milligrams per pound (55 milligrams per kilogram) body weight. For maximum efficacy in removing whipworms from dogs, administer same single oral dose and repeat treatment in approximately 24 hours.

(ii) The drug is a cholinesterase inhibitor. It is recommended that dogs being treated for whipworm infestation be kept under observation for 12 hours following the second dose. Do not use simultaneously or within a few days of exposure to or treatment with cholinesterase-inhibiting drugs.

(iii) Do not use with other anthelmintics.

(iv) Do not administer to animals showing signs of mechanical blockage of intestinal tract or infectious disease.

(v) Do not administer to cats or puppies under 10 days of age or under 1 pound of body weight.

(vi) Federal law restricts this drug to use by or on the order of a licensed veterinarian.

Effective date. This regulation becomes effective February 7, 1978.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)).)

Dated: February 1, 1978.

C. D. VAN HOUWELING,
Director, Bureau of Veterinary Medicine.

[FR Doc. 78-3203 Filed 2-6-78; 8:45 am]

[4110-03]

PART 522—IMPLANTATION OR INJECTABLE DOSAGE FORM NEW ANIMAL DRUGS NOT SUBJECT TO CERTIFICATION

Sterile Triamcinolone Acetonide Suspension; NAS/NRC Update

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The animal drug regulations are amended to reflect previously unpublished approval of a new animal drug application (NADA) filed by E. R. Squibb & Sons, Inc., providing for use of a synthetic corticosteroid for treatment of dogs, cats, and horses.

EFFECTIVE DATE: February 7, 1978.

FOR FURTHER INFORMATION CONTACT:

Robert A. Baldwin, Bureau of Veterinary Medicine (HFV-114), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-3420.

SUPPLEMENTARY INFORMATION: E. R. Squibb & Sons, Inc., P.O. Box 4000, Princeton, N.J. 08540, filed an NADA (12-198V) providing for use of a synthetic corticosteroid for treatment of inflammatory disorders in dogs, cats, and horses; plus treatment of arthritis and allergic and dermatologic disorders in dogs and cats. In addition, a supplemental NADA revises the indications for use. These were approved without publications in the FEDERAL REGISTER reflecting the approval.

Triamcinolone acetonide was one of several adrenocortical steroids that were subject of the National Academy

of Science/National Research Council (NAS/NRC), drug efficacy study implementation report published in the FEDERAL REGISTER of April 12, 1969 (34 FR 6447). The NAS/NRC report concluded that several adrenocortical steroids are effective as anti-inflammatory agents. The agency concurred with the Academy's conclusions. In the cited publication, the agency stated:

> These drugs are synthetic corticosteroids and possess glucocorticoid activity. They are not specie specific and differ only in their anti-inflammatory potency and ability to manifest mineralocorticoid properties.

Although Squibb's dosage-form tablet for oral administration differs from that of the NAS/NRC report, the product's bioavailability data have demonstrated its bioequivalency. A supplemental NADA, filed by Squibb in response to the NAS/NRC review, revised the indications for use. No new efficacy data were required.

This document amends the regulations to indicate by footnote those conditions of use for which applications for identical products need not include certain types of efficacy data as required for approval in § 514.111(a)(5)(vi) (21 CFR 514.111(a)(5)(vi)) of the animal drug regulations. In lieu of that data, approval may require bio-equivalency or similar data as suggested in the guideline for submitting NADA's for NAS/NRC reviewed generic drugs, available with the Hearing Clerk (HFC-20), Food and Drug Administration.

In accordance with the freedom of information regulations and § 514.11(e)(2)(ii) (21 CFR 514.11(e)(2)(ii)) of the animal drug regulations, a summary of safety and effectiveness data and information submitted to support approval of this NADA is released publicly. The summary is available for public examination at the office of the Hearing Clerk (HFC-20), Rm. 4-65, 5600 Fishers Lane, Rockville, Md. 20857, from 9 a.m. to 4 p.m., Monday through Friday, except Federal holidays.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.1), Part 522 is amended by adding new § 522.2483, to read as follows:

§ 522.2483 Sterile triamcinolone acetonide suspension.

(a) *Specifications.* Each milliliter of suspension contains 2 or 6 milligrams triamcinolone acetonide.

(b) *Sponsor.* See No. 000003 in § 510.600(c) of this chapter.

(c) *Conditions of use*—(1). *Amount*—(i) *Dogs and cats.*

(*a*) *Intramuscular or subcutaneous.* Single injection of 0.05 to 0.1 milligram (mg.) per pound of body weight in inflammatory, arthritic, or allergic disorders. Single injection of 0.1 mg. per pound of body weight in dermatologic disorders. If symptoms recur, the dose may be repeated, or oral corticosteroid therapy may be instituted.[1]

(*b*) *Intralesional.* 1.2 to 1.8 mg., divided in several injections, spaced around the lesion at 0.5 to 2.5 centimeters apart depending on the size. At any one site the dose injected should not exceed 0.6 mg. and should be well into the cutis to prevent rupture of the epidermis. When treating animals with multiple lesions, do not exceed a total dose of 6 mg.

(*c*) *Intra-articular and intrasynovial.* Single injection of 1 to 3 mg. dose, dependent on size of joint and severity of symptoms. After 3 or 4 days, repeat dosage if indicated. If initial results are inadequate or too transient, dosage may be increased, not to exceed 3 mg.

(*ii*) *Horses*—(*a*) *Intramuscular or subcutaneous.* Single injection of 0.01 to 0.02 mg. per pound of body weight. Usual dose, 12 to 20 mg.

(*b*) *Intra-articular and intrasynovial.* Single injection of 6 to 18 mg. dose, dependent on size of joint and severity of symptoms. After 3 or 4 days, repeat dosage if indicated. If initial results are inadequate or too transient, dosage may be increased, not to exceed 18 mg.

(2) *Indications for use.* Treatment of inflammation and related disorders in dogs, cats, and horses[1]; and management and treatment of acute arthritis and allergic and dermatologic disorders in dogs and cats.

(3) *Limitations.* (i) Do not use in viral infections. With bacterial infections, appropriate antibacterial therapy should be used.

(ii) Do not use in animals with tuberculosis, chronic nephritis, or cushingoid syndrome, except for emergency therapy.

(iii) Not for use in horses intended for food.

(iv) Clinical and experimental data have demonstrated that corticosteroids administered orally or parenterally to animals may induce the first stage of parturition when administered during the last trimester of pregnancy and may precipitate premature parturition followed by dystocial, fetal death, retained placenta, and metritis.

(v) Do not use in the treatment of laminitis.

(vi) Intra-articular injection in equine leg injuries may produce osseous metaplasia.

(vii) Federal law restricts this drug to use by or on the order of a licensed veterinarian.

[1] These conditions are NAS/NRC reviewed and are deemed effective. Applications for these uses need not include the effectiveness data specified by § 514.111 of this chapter, but may require bioequivalency and safety information.

Effective Date: February 7, 1978.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)).)

Dated: February 1, 1978.

C. D. VAN HOUWELING,
Director, Bureau of Veterinary Medicine.

PART 522—IMPLANTATION OR INJECTABLE DOSAGE FORM NEW ANIMAL DRUGS NOT SUBJECT TO CERTIFICATION

Gentamicin Sulfate Injection

Correction

In FR Doc. 78-914 appearing on page 1941 in the issue of Friday, January 13, 1978, the 1st line should read, "AGENCY: Food and Drug Administration.".

[4110-03]

PART 558—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

Monensin

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The animal drug regulations are amended to reflect approval of a supplemental new animal drug application (NADA) filed by Elanco Products Co., providing for a 60-grams-per-pound monensin premix for chickens.

EFFECTIVE DATE: February 7, 1978.

FOR FURTHER INFORMATION CONTACT:

Adriano R. Gabuten, Bureau of Veterinary Medicine (HFV-149), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-4913.

SUPPLEMENTARY INFORMATION: Elanco Products Co., A Division of Eli Lilly & Co., 740 S. Alabama Street, Indianapolis, Ind. 46206, filed a supplemental NADA (38-878V) providing for a 60-grams-per-pound monensin premix intended for subsequent manufacture of a complete feed for broiler and replacement chickens. The feed thus produced would aid in prevention of coccidiosis. The complete feed produced from this higher concentration premix is to be used in accordance with currently approved conditions of use. This independent action has not required a reevaluation of the parent NADA and does not constitute a reaffirmation of the drug's safety and effectiveness.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82

Stat. 347 (21 U.S.C. 360(b)(i))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.1), Part 558 is amended in § 558.355 by revising paragraph (b)(1) to read as follows:

§ 558.355 Monensin.

* * * * *

(b) * * *

(1) To 000986: 44, 45, or 60 grams per pound, paragraphs (f)(1)(i) and (f)(4) of this section.

* * * * *

Effective date: February 6, 1978.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)).)

PART 558—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

Tylosin

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The animal drug regulations are amended to reflect previously unpublished approval of a new animal drug application (NADA) and its supplement filed by Land O'Lakes, Inc., for tylosin premixes to be used for subsequent manufacture of complete swine feed used for increased rate of weight gain and improved feed efficiency.

EFFECTIVE DATE: February 7, 1978.

FOR FURTHER INFORMATION CONTACT:

Jack C. Taylor, Bureau of Veterinary Medicine (HFV-136), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-5247.

SUPPLEMENTARY INFORMATION: Land O'Lakes, Inc., Agricultural Services, 2827 8th Avenue, South Fort Dodge, Iowa 50501, filed an NADA (91-738V) providing for use of 10 grams of tylosin (as tylosin phosphate) per pound of premix and a supplement for use of 4 grams of tylosin per pound of premix. These applications were approved by letters on February 27, 1973 and May 21, 1973, respectively.

Approval of these applications relies upon safety and effectiveness data contained in Elanco Products Co.'s approved NADA 12-491V, which is incorporated by reference. These approvals have not required a reevaluation of the referenced NADA and do not constitute a reaffirmation of the drug's safety and effectiveness.

In accordance with the freedom of information regulations and § 514.11(e)(2)(ii) (21 CFR 514.11(e)(2)(ii)) of the animal drug regulations, a summary of safety and effectiveness data and information submitted to support approval of these applications is released publicly. The summary is available for public examination at the office of the Hearing Clerk (HFC-20), Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857, from 9 a.m. to 4 p.m., Monday through Friday, except on Federal holidays.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.1), Part 558 is amended in § 558.625 by adding new paragraph (b)(53), to read as follows:

§ 558.625 Tylosin.

* * * * *

(b) * * *

(53) To 034500: 4 and 10 grams per pound; paragraph (f)(1)(vi)(a) of this section.

* * * * *

Effective date. February 7, 1978.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)).)

Dated: February 1, 1978.

C. D. VAN HOUWELING,
Director, Bureau of Veterinary Medicine.

Title 28—Judicial Administration

CHAPTER I—DEPARTMENT OF JUSTICE

PART 2—PAROLE, RELEASE, SUPERVISION AND RECOMMITMENT OF PRISONERS, YOUTH OFFENDERS, AND JUVENILE DELINQUENTS

Paroling, Recommitting, and Supervising Federal Prisoners

AGENCY: United States Parole Commission.

ACTION: Final rule.

SUMMARY: This action deletes a rule concerning the internal administration of the Commission which formalized a number of working committees of Commissioners to deal with various aspects of the Commission's functions. Since the nature of the issues facing the Commission has proved to require a more flexible approach in the Chairman's coordination of the policy-making business of the Commission, the retention of a formal rule on this subject is not considered to be advantageous.

EFFECTIVE DATE: March 9, 1978.

FOR FURTHER INFORMATION CONTACT:

Michael Stover, Office of the General Counsel, United States Parole Commission, 320 First Street NW., Washington, D.C., phone 202-724-3092.

Accordingly, pursuant to the provisions of 18 U.S.C. 4203(a)(1) and 4204(a)(6), 28 CFR Chapter 1, Part 2, is amended by the deletion of 28 CFR 2.59 from the Code of Federal Regulations.

Date: February 1, 1978.

CECIL C. MCCALL,
Chairman,
U.S. Parole Commission.

[FR Doc. 78-3214 Filed 2-6-78; 8:45 am]

[4410-01]

PART 2—PAROLE, RELEASE, SUPERVISION AND RECOMMITMENT OF PRISONERS, YOUTH OFFENDERS AND JUVENILE DELINQUENTS

Paroling, Recommitting and Supervising Federal Prisoners

AGENCY: United States Parole Commission.

ACTION: Interim rule.

SUMMARY: In the Proposed Rules section of this issue, the Commission is soliciting comment from the public on a proposed rule governing appeals before the Commission by prisoners denied parole under the Commission's original jurisdiction procedure. The rule which appears below will be effective in the interim preceding adoption of a final rule. The rule provides that appeals must be received at least thirty days in advance of the meeting at which they are to be reviewed in order to permit adequate consideration by the Commission. For the same purpose, the rule also contains an advisory requirement that all documents accompanying an appeal be submitted to the Commission at least two weeks in advance of the meeting.

EFFECTIVE DATE: February 7, 1978.

FOR FURTHER INFORMATION CONTACT:

Michael A. Stover, Office of the General Counsel, 320 First Street NW., Washington, D.C. 20537, telephone 202-724-3092.

SUPPLEMENTARY INFORMATION: The text of the rule which this interim rule amends may be found at 28 CFR 2.27. While the Commission is soliciting comment from the public prior

to publishing this amendment as a final rule, the continuing backlog of appeal cases before the Commission, which was caused by prolonged vacancies in Commission positions during the spring and summer of 1977, makes it imperative that the Commission adopt this procedure as an interim rule in order to meet its statutory deadlines in an orderly fashion: see 5 U.S.C. 553(d) (2) and (3).

It should be noted that the thirty day period is considered necessary because appeals must be processed and submitted to each of the Regional Commissioners in time to permit adequate study prior to the Commission's meetings. It should also be noted that the Commission's meetings are presently held on a bi-monthly basis.

Accordingly, pursuant to the provisions of 18 U.S.C. 4203(a)(1) and 4204(a)(6), 28 CFR Chapter 1 Part 2, is amended as follows:

§ 2.27 Appeal of original jurisdiction cases.

(a) Cases decided under the procedure specified in § 2.17 may be appealed within thirty days of the date of the decision on a form provided for this purpose. Appeals will be reviewed at the next regularly scheduled meeting of the Commission provided they are received thirty days in advance of such meeting. Appeals received in the office of the Commission's National Appeals Board in Washington, D.C., less than thirty days in advance of the next regularly scheduled meeting will be reviewed at the next following regularly scheduled meeting. A quorum of five Commissioners shall be required and all decisions shall be by majority vote. This appellate decision shall be final.

(b) Attorneys, relatives, and other interested parties who wish to submit written information in support of a prisoner's appeal should send such information to the National Appeals Board Analyst, United States Parole Commission, 320 First Street NW., Washington, D.C. 20537. Written material should be submitted at least two weeks in advance of the meeting at which the appeal will be heard, in order to permit consideration thereof by the Commission.

Dated: February 1, 1978.

CECIL C. MCCALL,
Chairman,
U.S. Parole Commission.

[FR Doc. 78-3218 Filed 2-6-78; 8:45 am]

[4410-01]

Part 16—PRODUCTION OR DISCLOSURE OF MATERIAL OR INFORMATION

Public Observation of Parole Commission Meetings

AGENCY: United States Parole Commission.

ACTION: Final rule

SUMMARY: The United States Parole Commission is amending a regulation which states that meetings of committees of Commissioners, including certain named committees established by regulation, are not "meetings" within the terms of the Government in the Sunshine Act. This amended rule deletes reference to the named committees because they have been dissolved. However, the underlying intent of the rule remains that a meeting of any committee not constituting a quorum of the Commission is not subject to the Sunshine Act.

EFFECTIVE DATE: March 9, 1978.

FOR FUTHER INFORMATION, CONTACT:

Michael Stover, Office of General Counsel, U.S. Parole Commission, 320 First Street NW., Washington, D.C. Telephone, 202-724-3092.

SUPPLEMENTARY INFORMATION: The language of the amended rule conforms to that which was originally proposed in 42 FR 6610 (Thursday, February 3, 1977). A reference to certain named committees, which was added to the final rule, is now deleted since the Commission has formally dissolved these committees.

Accordingly, pursuant to the authority of 18 U.S.C. 4203(a)(1) and 5 U.S.C. 552b(g), Subpart F of 28 CFR Chapter I, Part 16, is amended as follows:

§16.200 Definitions.

* * * * *

(d) Specifically excluded from the term meeting are:

* * * * *

(5) Meetings of special committees of Commissioners not constituting a quorum of the Commission, which may be established by the Chairman to report and make recommendations to the Commission or the Chairman on any matter.

Dated: February 1, 1978.

CECIL C. MCCALL,
Chairman, U.S. Parole Commission.

[FR Doc. 78-3215 Filed 2-6-78; 8:45 am]

[3710-92]

Title 33—Navigation and Navigable Waters

CHAPTER II—CORPS OF ENGINEERS, DEPARTMENT OF THE ARMY

[ER 1140-2-4]

PART 221—WORK FOR OTHERS

Investigation and Supervision of Hydropower Projects Under the Federal Power Act

AGENCY: Corps of Engineers, DOD.

ACTION: Final rule.

SUMMARY: This action publishes as a final rule the procedures to be followed by the Corps of Engineers involving investigation and supervision of hydropower projects under the Federal Power Act. On October 29, 1976, notice was published in the FEDERAL REGISTER that the Secretary of the Army, acting through the Chief of Engineers, has proposed a regulation prescribing policies and procedures for investigation of license and permit applications filed with the Federal Energy Regulatory Commission (FERC) and referred to the Corps of Engineers for review and comments. The intent of the regulation is to establish Corps of Engineers review procedures in conformance with applicable provisions of the Federal Power Act of 1920, as amended; the River and Harbor Act of 1899; and the Federal Water Pollution Control Act Amendments of 1972.

EFFECTIVE DATE: February 7, 1978.

FOR FURTHER INFORMATION CONTACT:

Mrs. S. A. Zanganeh, Office of the Chief of Engineers, ATTN: DAEN-CWE-HY, Washington, D.C. 20314, 202-693-7330.

SUPPLEMENTARY INFORMATION: Interested persons were given until December 13, 1976 to submit written comments. Significant comments were received from the U.S. Environmental Protection Agency (EPA), The Duke Power Company, and the State of California, Department of Fish and Game.

DISCUSSION OF COMMENTS RECEIVED

In a letter dated December 15, 1976, EPA stated that it generally concurs in the proposed regulation and the procedures it describes. However, EPA expressed concern that Corps recommendations to the FERC relating to water quality and low flow augmentation aspects of FERC license and permit applications may not include coordination with State and area-wide water quality management planning agencies as well as the Administrator, EPA. The Corps recognizes the need for inter-agency coordination as suggested by EPA. However, in response to a written request from the FERC, the Corps review and recommendations on water quality or any other technical matters will be forwarded to the FERC who, as the responsible agency for licensing non-Federal hydroelectric projects, will consider any needed coordination. The EPA, and local agencies are afforded an opportunity by the FERC to review the same permit and license applications that the Corps receives for review from the FERC. The Corps believes that coordination of its recommendations to the FERC, as suggested by the EPA, will

encompass duplication of the Commission's efforts in this regard and delay in FERC licensing procedures.

EPA also suggested that the need for permits under Section 10 of the 1899 Act be clarified to require separate review if the issuance of a Section 10 permit would constitute a major Federal action under NEPA. Paragraph 10 of the instant regulation has been expanded to show more specifically that in connection with FERC licensed projects, proposals concerning non-power water oriented activities affecting navigable waters will be reviewed by the Corps under authority of Section 10 of the River and Harbor Act of 1899. Full consideration of the overall public interest, including environmental concerns, is required by NEPA and is an integral part of the permitting process. The regulation further provides that the Corps of Engineers responsibilities under Section 10 of the River and Harbor Act of 1899 for power related activities may be met through FERC licensing procedures. Specific recommendations concerning Section 10 requirements for the construction of dam(s), powerhouse(s) and appurtenant structures will be made to the Commission by the Corps. The Corps believes that in the context of the Commission's licensing procedures, this input plus FERC's lead agency preparation of environmental impact statements will adequately fulfill NEPA requirements. By letter dated 10 December 1976, Duke Power Company stated that the regulation should provide for one single review by the Corps, which would result in a recommendation to the FERC for issuance of a Section 404 permit pursuant to the Federal Water Pollution Control Act (FWPCA) of 1972. A section 404 permit under the FWPCA is required for any discharge of dredged or fill material into navigable waters and wetlands. This permit would be in addition to the FERC license issued under the Federal Power Act. However, pursuant to statute and judicial mandate, the Corps has no authority to delegate its Section 404 permit responsibilities to another Federal agency.

Accordingly, the instant regulation provides that the responsibilities under Section 404 of the FWPCA pertinent to discharge of dredged or fill material into navigable waters at specified disposal sites will be met only through the Department of the Army permit procedures as specified in ER 1145-2-303 (33 CFR 209.120), "Permits for Work in Navigable Waters and Ocean Waters." Duke Power Company also suggested that the Corps should review FERC license applications and make recommendations to the EPA regarding Section 402 requirements of the FWPCA. However, any Corps comments to the EPA pursuant to their Section 402 authority are based on a Corps review of Section 402 permit applications filed with the EPA, rather than the FERC license application. Duke Power Company further stated that the Corps study of FERC license applications for determination as to whether or not project development should be undertaken by the U.S., is redundant since the FERC is charged with that responsibility. This statement is correct. The Corps study and recommendations to the FERC on this matter are undertaken only on request from the FERC. The instant Regulation has been clarified on this subject. The State of California, Department of Fish and Game, by letter dated December 10, 1976 raised no objections to the proposed Corps of Engineers Regulation, but suggested that the Corps in its review of FERC license or relicense applications for hydroelectric projects, consider coordination with the State on matters concerning fish and wildlife resources affected by FERC projects.

The Corps concurs with the need for coordination with the State. However, since the Corps of Engineers review is basically limited to navigation under section 4(e) of the Federal Power Act, other reviews under laws such as Fish and Wildlife Coordination Act will be accomplished by the FERC. Since the FERC seeks review and comments on applications for license and relicense from the appropriate Federal, State and local agencies, the State of California will have the same opportunity as the Corps to furnish its review comments to the FERC. The Commission, as the responsible agency on hydroelectric licensing, will determine the need for coordination based on review comments that it receives. The Corps believes that further formal coordination in conjunction with its review action will be a duplication of efforts and will cause delay in the FERC licensing procedures.

NOTE.—The U.S. Army Corps of Engineers has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A-107.

Dated: January 23, 1978.

For the Chief of Engineers:

JAMES N. ELLIS,
Colonel, Corps of Engineers,
Executive Director, Engineer Staff.

Accordingly, Title 33 of the Code of Federal Regulations is amended as follows:

1. Part 221 is added to read as set forth below.

Sec.
221.1 Investigation and supervision of hydropower projects under the Federal Power Act (ER 1140-2-4).
221.2 through 221.9 [Reserved]

AUTHORITY: Sections 2 and 4(e) of the Federal Power Act of 1920 (41 Stat. 1603, 16 U.S.C. 791-823), as amended; Section 10 of the River and Harbour Act of 1899 (30 Stat. 1151, 33 U.S.C. 403); and Section 404 of Federal Water Pollution Control Act Amendments of 1972 (86 Stat. 816, 33 U.S.C. 1344).

§ 221.1 Investigation and supervision of hydropower projects under the Federal Power Act (ER 1140-2-4).

(a) *Purpose.* This regulation[1] establishes procedures for executing Corps of Engineers functions under the authority of the Federal Power Act (FPA) administered by the Department of Energy, Federal Energy Regulatory Commission (FERC), formerly Federal Power Commission. Based on a specific request from FERC, these functions include:

(1) Investigation of applications filed with FERC for permits and licenses, and for relicensing of projects to ascertain impacts on Corps of Engineers responsibilities.

(2) Investigation of applications for surrender or termination of license to ascertain impacts on Corps of Engineers responsibilities.

(3) Supervision and inspection of operations of licensed hydroelectric projects to ascertain impacts on Corps of Engineers responsibilities.

(b) *Applicability.* This regulation applies to all field operating agencies having Civil Works responsibilities.

(c) *References.* (1) Federal Power Commission publication entitled "Federal Power Act", as amended, dated 1 April 1975. The Act was originally enacted 10 June 1920 (41 Stat. 1063, 16 U.S.C. 791-823). This publication can be obtained from the U.S. Government Printing Office, Washington, D.C. 20402.

(2) Code of Federal Regulations, Title 18, Part I to 149 relating to FERC General Rules and Regulations, available at the U.S. Government Printing Office, Washington, D.C. 20402.

(3) ER 1145-2-303 (33 CFR 209.120), Permits for Activities in Navigable Waters or Ocean Waters.

(4) ER 1140-2-1, Submission of Data for Headwater Benefits Determination.

(d) *Definitions*—(1) *Licensed project.* A non-Federal hydroelectric project for which the FERC has issued a license granting authority for either construction, in the case of a proposed project, or for continued operation and maintenance of an existing project.

(2) *Major projects.* Hydroelectric projects with more than 2,000 horsepower installed capacity.

[1] This regulation supersedes ER 1140-2-4, 8 December 1967, and ER 1140-2-2, 10 September 1965.

(3) *Minor projects.* Hydroelectric projects having installed capacity of 2,000 horsepower or less.

(4) *Preliminary permit application.* An application filed by a non-Federal entity with the FERC as a preliminary step in anticipation of filing for a license to construct and operate a hydroelectric project. A preliminary permit does not authorize construction. It merely gives the permittee priority of application for a FERC license over other non-Federal entities for a period of time. The permittee then develops information necessary for inclusion in an application for license to construct and operate a hydroelectric project. Analysis of this information may result in a decision to apply for the license or to withdraw the intent.

(5) *Relicensing.* A procedure applicable to projects for which the original period of license (usually 50 years) will expire or has expired and application for new license has been or will be filed with the FERC.

(6) *Take over.* An act whereby the Federal government assumes project ownership. Upon expiration of a license for a hydroelectric project, the United States, under certain specific conditions set forth in Section 14 of the Federal Power Act may "take over", maintain and operate the project. This does not apply to any project owned by a State or local government. Take over procedures are not applicable to "Minor Projects."

(e) *Authorities.* The Federal Power Act as amended delegates to the Secretary of the Army, the Chief of Engineers and the Corps of Engineers certain functions necessary for the FERC's administration of the Act. Implementation was provided through instructions issued by the President in a letter dated 18 May 1931 to the Secretary of War. These functions are set forth in the following excerpts from the Act:

(1) Section 2 of the Act provides in part that:

> The Commission may request the President to detail an officer or officers from the Corps of Engineers, or other branches of the United States Army to serve the Commission as engineer officer or officers * * *.

(2) Section 4(e) of the Act provides in part that:

> The Commission is hereby authorized and empowered * * * to issue licenses to citizens of the United States, or to any associations of such citizens, or to any corporation organized under the laws of the United States or any State thereof, or to any State or municipality for the purpose of construction, operating, and maintaining dams, water conduits, reservoirs, powerhouses, transmission lines, or other project works necessary or convenient for the development and improvement of navigation and for the development, transmission, and utilization, of power across, along, from or in any of the streams or other bodies of water over which Congress has jurisdiction * * *.
>
> * * *Provided that no license affecting the navigable capacity of any navigable water of the United States shall be issued until the plans of the dam or other structures affecting navigation have been approved by the Chief of Engineers and the Secretary of the Army.

(f) *Investigation of application for permits, licenses, or relicensing of projects.* Upon referral by the FERC, the Chief of Engineers will assign the investigation of an application for permit, license or relicensing to the appropriate Division Engineer who will submit a report on the investigation as specified herein to HQDA (DAEN-CWE-HY) WASH DC 20314 (exempt from reports control, Paragraph 7-2y, AR 335-15). The investigation should be coordinated with all interested organization elements including Engineering, Construction/Operations, Planning and Office of the Counsel. The date that the report is to be submitted will be specified. The nature of investigation and report by the Division Engineer will depend upon the nature of the request from the FERC. In general, reports as appropriate for the type of application filed with the Commission will consider the following items as pertinent and will include recommendation of pertinent license provisions:

(1) *License applications.* (i) The effect of the project on navigation and flood control, including adequacies of the plans of the structures affecting navigation. Section 4(e) of the Federal Power Act provides for approval of plans for hydroelectric power projects as noted in paragraph (e)(2) of this ER. Section 4(e) approval normally will obviate the need for a Department of Army permit under Section 10 of the 1899 River and Harbor Act. The basis for Corps approval under Section 4(e) will be limited to effects on navigation; however, Section 4(e) does not obviate the need for a Department of the Army permit pursuant to Section 404 of the Federal Water Pollution Control Act (see paragraph (i)(2)). Such a permit is subject to a full public interest review pursuant to 33 CFR 320 and the application of the Environmental Protection Agency's guidelines in 40 CFR Part 230.

(ii) Recommendations for license provisions required to protect the interest of navigation. This item is discussed under paragraphs 7, 8 and 9.

(iii) Consideration of the project in relation to a comprehensive plan for developing the basin water resources from the standpoint of the Corps of Engineers' programs and responsibilities. Specific references should be made to pertinent published Congressional documents containing results of studies and/or to Congressional resolutions directing studies to be made to provide identification.

(iv) Consideration of environmental aspects of a project as related to navigation and flood control matters or other specific Corps interests and responsibilities in particular cases.

(v) The matter of possible redevelopment of an existing project to improve the usefulness of the project in relation to the objectives of the Corps program in the basin. In the case of an unconstructed project, based on request from the Commission, a recommendation along with justification, should be included as to whether or not development should be undertaken by the United States.

(vi) Consideration of structural safety and adequacy of spillway design flood for FERC licensed projects are the responsibility of the FERC. The Dam Safety Act, Pub. L. 92-367 provides that dams constructed pursuant to license issued under the authority of Federal Power Act are specifically exempted from the Corps National inspection program. This does not preclude the Corps District and Division offices from making comments on license applications for the FERC information, about any design deficiencies that are brought to their attention.

(2) Relicensing (New License) Application.

(i) Consider paragraphs (f) (1) through (6) of this section.

(ii) Recommendations should be furnished to the FERC with respect to possible need for "take over" of a project by the Federal Government. Details on "take over" under the Federal Power Act are provided in Part 16 of the Code of Federal Regulations, Title 18 (Part 1 to 149). A copy of Part 16 is provided for ready reference in Appendix A of this part.

(iii) FERC Preliminary Permit Application. Consider appropriate recommendations to insure coordination of applicant's studies with the Division or District Engineer in cases where responsibilities and interests of the Corps of Engineers would be affected. The report should include discussion of Corps interests which could result in recommendations for provisions to be included in a subsequent license. In general proposed construction of power facilities at or in conjunction with a Corps reservoir project will be reviewed with the objective of recommending design, construction and operation factors that the applicant must consider in its studies in order for the proposed power development to be compatible, physically and economically, with the authorized function of the Corps project(s).

(g) *Terms and conditions for insertion in FERC permits and licenses.* In investigation of an application for FERC license or permit, consideration will be given to aspects of the project affecting authorized functions of the Corps as well as to the responsibilities assigned to the Corps by the Federal Power Act. Accordingly, the Division

engineer in his report on an application to the Chief of Engineers will always consider the necessity for including in any license or permit terms and conditions to protect the interests of navigation. Recommendations involving other responsibilities of the Corps in the area of water control management such as flood control, low flow augmentation minimum instantaneous releases, and other purposes should also be considered.

(h) *Standard terms and conditions used by the FERC in its permits and licenses.* Appendix B to this Regulation includes standard terms and conditions used by the FERC in licenses for projects affecting navigable waters of the U.S. The standard articles, included in Appendix B, are identified by the FERC in the following Forms:

(1) Form L-3 (Revised October 1975)

Terms and Conditions of License for Constructed Major Project Affecting Navigable Waters of the United States.

(2) Form L-4 (Revised October 1975)

Terms and Conditions of License for Unconstructed Major Project Affecting Navigable Waters of the United States.

Any special terms and conditions pertaining to the Corps of Engineers responsibilities, in addition to those identifed in Appendix B should be tailored to suit the situation involved. Appendix B also provides a list of other FERC standard articles Forms that could be obtained from FERC offices.

(i) *Distinction between Corps of Engineers and FERC jurisdiction with respect to non-Federal Hydroelectric projects.*

(1) The following procedures are currently being followed in connection with Department of Army permit responsibilities involving pre-1920 legislation:

(i) In regard to FERC licensing of projects, Corps responsibilities under Section 10 of the River and Harbor Act of 1899, for power related activities, may normally be met through the FERC licensing procedure including insertion of terms and conditions in the license of the interest of navigation. Section 4(e) of the Federal Power Act provides for approval of plans of project works by the Chief of Engineers and Secretary of the Army from the standpoint of interests of navigation. The consideration for our approval under Section 4(e) will be limited to effects of project power related activities on navigation.

(ii) Applications to Corps Divsion or District Engineers for approval of repairs, maintenance or modification of non-Federal water power projects authorized under River and Harbor Acts as well as special Acts of Congress prior to 1920, or requests for advice with respect thereto should be referred to the FERC for consideration in accordance with the provisions of the Federal Power Act. The permittee should be advised that the application is being referred to the FERC for consideration and that if a FERC license is required Corps recommendations will be furnished to the FERC.

(2) Responsibilities under Section 404 of the Federal Water Pollution Control Act as amended in 1972 (33 U.S.C. 1151) pertinent to discharge of dredged or fill material into the navigble waters at specified disposal sites will be met only through the Department of Army permit procedures as specified in ER 1145-2-303. In regard to FERC cases involving Section 404, our report to the FERC through (DAEN-CWE-HY) will specify the need for a Department of Army permit. (Section 404) if, on the basis of the Division and District Engineers' reports, such permit is deemed necessary. A Department of the Army permit will be required for any portion of a proposed project which involves the discharge of dredged or fill material into the waters of the United States. This includes the placement of fill necessary for construction of a project's dam and appurtenant structures.

(3) When applicable, FERC will be advised that the requirement for Department of the Army permit pursuant to Section 103 of the Marine Protection, Research and Sanctuaries Act of 1972 for the transport of dredged material from the project site for the purpose of dumping it into the ocean waters will be met only through the Department of the Army permit program.

(4) In connection with FERC licensed projects there may be proposed non-power water oriented activities, such as recreational development, which are associated with the overall project but may not be a part of the hydroelectric power facilities at the project. Such cases, if involving navigable waters should be reviewed from the standpoint of need for a Section 10 permit. Such Section 10 permit actions would involve consideration of the overall public interest, including water quality, fish and wildlife, recreation, general environmental concerns and the needs and welfare of the people. Corps responsibilities for permit requirements under Section 10 of the River and Harbor Act of 1899 for nonpower activities affecting navigable waters at the FERC projects will be met only through the Corps permit procedures. The Corps' report to FERC through (DAEN-CWE-HY) will specify the need for such permit when recommended by the Division and District Engineers' report.

(j) *Investigation of applications for surrender or termination of license.* The period of the FERC license for hydroelectric projects is usually 50 years. During and/or upon the expiration of the period of a license, a licensee may file with the FERC an application for surrender or termination of its license. These applications may encompass requests for physical removal of an existing dam and/or powerhouse structures from a stream. Division Engineers who would be assigned by the Chief of Engineers to review such applications will consider, in their review and report to DAEN-CWE-HY, the possibility that sediment discharge resulting from removal of a dam structure from a navigable river or from any site that may affect navigable waters would impair the anchorage and navigation and/or flood carrying capacity of the stream. In cases where there is a possibility of significant downstream shoaling (sedimentation) as the result of removal of a dam and its appurtenant structures, recommendation may be made to the FERC, through DAEN-CWE-HY, requiring licensee as a condition of approval of dam removal to agree to bear the expense for removal of any shoaling at the navigable river(s) which would be determined by the Corps to be detrimental to navigation. Other recommendations to be considered include gradual lowering of a dam over a period of time and/or possibility of sediment removal prior to dam removal. It should also be noted that a Department of the Army permit under Section 404 of the Federal Water Pollution Control Act amendments of 1972 (33 U.S.C. 1151), as discussed in Paragraph 9b of this regulation, may be needed in connection with removal of dams on or affecting the navigable waters if a discharge of dredged or fill material also occurs during the removal operation. Other recommendations within the Corps authority that should be considered in reviewing applications for surrender or termination of licenses for projects where their power facilities have been removed, or recommended for removal, is that upon any approval of such application by the FERC, continuation of existence of the nonpower project on or affecting the navigable waters of the U.S. will require a Department of the Army permit in compliance with Section 10 of the River and Harbor Act of 1899. Furthermore, it should be noted that in the absence of FERC nonpower use license, pursuant to 16 U.S.C. 808(b), the structural safety and maintenance of dam and reservoir for a nonpower project will be governed by the laws and regulations of the State in which the project is located.

(k) Supervision and Inspection of Operation of Licensed Hydroelectric Projects. Corps Division and District Engineers responsibilities with respect to any project affecting navigable waters include surveillance of oper-

ation and maintenance to insure that the interests of navigation are not adversely affected. In addition, in certain cases the Corps, at the request of the FERC, may act as agent for the FERC for overall supervision of project operation and maintenance. Corps Division Engineers have, in the past, represented the FERC in supervision and inspection of a number of FERC licensed projects within their respective divisions. The Commission by letter dated March 4, 1976 relieved the Corps of Engineers from acting as the Commission's representative for supervision and inspection of its licensed projects. This responsibility has been transferred by the Commission to its own regional engineers. There are no requirements for any periodic or annual reports from the Division offices regarding the operation of FERC licensed hydroelectric projects. However, Division Engineers will report to DAEN-CWE-HY on a current basis any significant detrimental effects with respect to Corps of Engineers responsibilities or other matters which come to their attention.

(l) Safety of Licensed Hydroelectric Projects. The Dam Safety Act, Public Law 92-367, provides that dams constructed pursuant to licenses issued under the authority of the Federal Power Act are specifically exempted from the national inspection program administered by the Corps. However, the law further provides that the Secretary of the Army upon request of the FERC may inspect dams which have been licensed under the Federal Power Act. The Commission by letter dated August 29, 1972 informed the Corps that the Commission does not expect to request the Corps' assistance for inspecting the projects licensed under the Federal Power Act.

(m) *Supervision of construction of licensed hydroelectric projects.* In cases where the FERC may request the Corps to supervise the actual construction of licensed hydroelectric project on behalf of the Commission, instructions will be furnished to the appropriate District Engineer through the Division Engineer at the time the request is made.

(n) *Other investigation under the Federal Power Act.* Corps of Engineers operations under the Federal Power Act also include participation in FERC procedures in determining headwater benefits from Corps reservoir projects (RCS, 1461-FPC). This matter is discussed in ER 1140-2-1.

(o) *Funding of operations under the Federal Power Act.* (1) The salaries of the Corps of Engineers personnel involved in investigations discussed herein will be charged against funds for "Special Investigations" under the appropriation for "General Expenses." The FERC may provide reimbursement if requested by the Chief of Engineers to cover the nonpersonal expenses which may be incurred in the investigation and supervision of projects under permits and licenses.

(2) Non-personal costs amounting to less than $100 for any single investigation will not be reimbursed from the Commission funds but will be charged also to "Special Investigations" under the appropriations for "General Expenses." Each Division Engineer charged with a detailed investigation of an application for license or the supervision of a project that will require more than a nominal amount of nonpersonal costs will be specifically requested to submit an estimate of the funds required upon assignment of the work by the Chief of Engineers.

(3) Reimbursement from the FERC funds for nonpersonal costs in excess of $100 will be made by the Chief of Engineers upon submission of a voucher on Standard Form 1080 by the District Engineer through the Division Engineer. The voucher will show the fiscal year during which the work was done and the Commission project number on which the money was spent.

APPENDIX A.—PART 16—PROCEDURES RELATING TO TAKEOVER AND RELICENSING OF LICENSED PROJECTS

Sec.
16.1 Purpose and coverage.
16.2 Public notice of projects under expiring license.
16.3 When to file.
16.4 Notice upon filing of application.
16.5 Annual license.
16.6 Applications for new license for projects subject to sections 14 and 15 of the Act and all other major projects.
16.7 Application for nonpower license.
16.8 Departmental recommendation for takeover.
16.9 Commission recommendation to Congress.
16.10 Motion for stay by Federal department or agency.
16.11 Procedures upon congressional authorization of takeover.
16.12 Renewal of minor and minor part licenses not subject to sections 14 and 15.
16.13 Acceptance for filing or rejection of application.

AUTHORITY: The provisions of this Part 16 issued under Federal Power Act, secs. 7(c), 14, 15, 309 (16 U.S.C. 800, 807, 808, 825h).

(Part 16 contained in Order 141, 12 F.R. 8461, Dec. 19, 1947; as amended by Order 175, 19 F.R. 5212, Aug. 18, 1954; Order 260, 28 F.R. 814, Jan. 11, 1963; 28 F.R. 1680, Feb. 21, 1963; 28 F.R. 2270, Mar. 8, 1963; Order 288, 29 F.R. 14106, Oct. 14, 1964; Order 384, 34 F.R. 12269, July 25, 1969 and as otherwise noted.)

§ 16.1 *Purpose and coverage.*

This part implements the amendments of sections 7(c), 14, and 15 of Part I of the Federal Power Act, as amended, enacted by Public Law 90-451, 82 Stat. 616, approved August 3, 1968. It applies to projects subject to sections 14 and 15 of the Federal Power Act including projects for which a nonpower license may be issued. Procedures are provided for the filing of applications for either power or nonpower licenses for projects whose licenses are expiring. A license for a power project issued to either the original licensee or another licensee is referred to in this part as a "new license" and a license for a nonpower project as a "non-power license". Also provided are procedures for the filing of recommendations for takeover by Federal departments or agencies and applications for renewal of licenses not subject to section 14.

§ 16.2 *Public notice of projects under expiring license.*

In order that there should be adequate notice and opportunity to file timely applications for a license the Commission's Secretary will give notice of the expiration of license of a project (except transmission line and minor projects) 5 years in advance thereof in the same manner as provided in section 4(f) of the Act. The Secretary shall upon promulgation of the rules herein give notice, as provided in section 4(f) of the Act, of all whose license terms have expired since January 1, 1968, or which will expire within 5 years of the effective date of this rule. In addition, the Commission each year will publish in its annual report and in the FEDERAL REGISTER a table showing the projects which will expire during the succeeding 5 years. The table will list these licenses according to their expiration dates and will contain the following information: (a) License expiration date; (b) licensee's name; (c) project number; (d) type of principal project works licensed, e.g., dam and reservoir, powerhouse, transmission lines; (e) location by State, county, and stream; also by city or nearby city when appropriate; and (f) plant installed capacity.

§ 16.3 *When to file.*

(a) An existing licensee must file an application for a "new license" or "nonpower license" or a statement of intention not to file an application for a "new license" no earlier than 5 years and no later than 3 years prior to the expiration of its license, except that, where the license will expire within 3½ years of the issuance of this part, such applications or statements shall be filed within 6 months from the effective date of this part. Applicants which have applications pending which were filed under previous Commission regulations shall supplement their applications in accordance with pertinent provisions of this part within 6 months of the effective date of this part.

(b) Any other person or municipality may file an application for a "new license" or "non-power license" within 5 years of the expiration of the license, but in no event, unless authorized by the Commission, later than 6 months after issuance of notice of the filing of an application or statement by the licensee under § 16.4 or 2½ years before the expiration of the license, whichever is earlier.

(c) Any application submitted after the expiration of the time specified herein for filing must be accompanied by a motion requesting permission to file late, which motion shall detail the reasons of good cause why the application was not timely filed and how the public interest would be served by its consideration.

§ 16.4 *Notice upon filing of application.*

When any timely application or statement within the meaning of § 16.3 is received, or when the Commission grants any motion for consideration of a late filed application,

notice of receipt thereof will be furnished the applicant, and public notice will be given in the same manner as provided in sections 4(f) and 15(b) of the Act (49 Stat. 838; 41 Stat. 1072; 82 Stat. 616; 16 U.S.C. 797, 808) §§ 1.37 and 2.1 of this chapter, the Fish and Wildlife Coordination Act, 48 Stat. 401, as amended, 16 U.S.C. 661 *et seq.*, and by publication in the FEDERAL REGISTER.

§ 16.5 *Annual licenses.*

No application for annual license need be filed nor will such application be accepted under section 15 of the Act. An existing licensee making timely filing for a new license will be deemed to have filed for an annual license. If the Commission has not acted upon an application by licensee for a new license at the expiration of the license terms, by the issuance of an order granting, denying or dismissing it, an annual license shall be issued by notice of the Secretary.

§ 16.6 *Applications for new license for projects subject to sections 14 and 15 of the Federal Power Act and all other major projects.*

(a) Each application for a new license hereunder shall conform in form to § 131.2 of this chapter, and shall set forth in appropriate detail all information and exhibits prescribed in §§ 4.40 through 4.42 of this chapter, inclusive and in § 4.51 of this chapter, as well as additional information specified in paragraphs (b) through (e) of this section, except that Exhibit A may be incorporated in an application by reference where one applicant files applications for several projects, one of which already contains an Exhibit A or in any case where applicant has filed an Exhibit A within 10 years preceding the filing of the application, and that Exhibits N and O as specified in § 4.41 of this chapter need only be filed as provided in paragraph (c) of this section. An original and fourteen conformed copies of the application and all accompanying exhibits shall be submitted to the Commission plus one additional conformed copy for each interested State Commission.

(b) An application for a "new license" hereunder shall include a statement showing the amount which licensee estimates would be payable if the project were to be taken over at the end of the license term pursuant to the provisions of sections 14 and 15 of the Federal Power Act. This statement shall include estimates of: (1) Fair value; (2) net investment; and (3) severance damages. (This subsection is not applicable to State, municipal, or nonlicensee applicants.)

(c) If the applicant proposes project works in addition to those already under license, the maps, plans, and descriptions of the project works (Exs. I, J, L and M) shall distinguish the project works of parts thereof which have been constructed from those to be constructed. Exhibits N and O shall also be included in the application relating to new construction.

(d) Applicant shall furnish its plans for the future modification or redevelopment of the project, if any, and shall set forth in detail why technically feasible, additional capacity is not proposed for installation at the time of relicensing.

(e) Applicant shall file a statement on the effect that takeover by the United States or relicensing to another applicant would have upon the supply of electric energy to the system with which it is interconnected, the rates charged its customers, the licensee's financial condition, and taxes collected by local, State, and Federal Governments. (This subsection is not applicable to State, municipal or nonlicensee applicants.)

§ 16.7 *Application for nonpower license.*

Each application for "non-power license" shall generally follow the form prescribed in § 131.6 of this chapter, except for subsections 7 and 8 thereof. It shall be accompanied by Exhibits K, L, R, and S prepared as described in section 4.41, and shall include the information specified in paragraphs (a) through (c) of this section. Unless otherwise specified, an original and 14 conformed copies of the application and all accompanying exhibits shall be submitted with one additional conformed copy for each interested State commission. Additional information may be requested by the Commission if desired.

(a) Applicant shall furnish a description of the nonpower purpose for which the project is to be utilized and a showing of how such use conforms with a comprehensive plan for improving or developing a waterway or waterways for beneficial uses, including a statement of the probable impact which conversion of the project to nonpower use will have on the power supply of the system served by the project.

(b) Applicant shall identify the State, municipal, interstate or Federal agency, if any, which is authorized or willing to assume regulatory supervision over the land, waterways and facilities to be included within the nonpower project. (If there is such an agency, applicant shall foward one copy of the application to such agency.)

(c) Applicant shall submit a proposal for the removal or other disposition of power facilities of the project.

A "non-power license" shall be effective until such time as in the judgement of the Commission a State, municipal, interstate, or Federal agency is authorized and willing to assume regulatory supervision over the land, waterways, and facilities included within the "non-power license" or until the project structures are removed. Such State, municipal, interstate or Federal agency may petition the Commission for termination of a "non-power license" at any time. Where the existing project is located on the public lands or reservations of the United States, and there is no application for relicensing as a power project either by the original licensee, or some other entity, or a takeover recommendation, the Commission may, in its discretion, and upon a showing by the agency having jurisdiction over the lands or reservations that it is prepared to assume requisite regulatory supervision for the nonpower use of the project, terminate the proceeding without issuing any license for nonpower use.

§ 16.8 *Departmental recommendations for takeover.*

A recommendation that the United States exercise its right to take over a project may be filed by any Federal department or agency no earlier than 5 years and no later than 2 years prior to the expiration of the license term; *Provided, however,* That such recommendation shall not be filed later than 9 months after the issuance of a notice of application for a new license. Departments or agencies filing such recommendations shall thereby become parties to the relicensing-takeover proceeding. An original and 14 copies of the recommendation shall be filed together with one additional copy for each interested State commission. The recommendation shall specify the project works which would be taken over by the United States, shall include a detailed description of the proposed Federal operation of the project, including any plans for its redevelopment and shall indicate how takeover would serve the public interest as fully as non-Federal development and operation. It shall also include a statement indicating whether the agency making the recommendation intends to undertake operation of the project. A copy of the recommendation shall be served upon the licensee by the Commission's Secretary. Any applicant for a new license covering all or part of the project involved in the takeover recommendation shall have 120 days within which to serve a reply to the recommendation upon the Commission with copies to any parties in the proceeding.

§ 16.9 *Commission recommendation to Congress.*

If the Commission, after notice and opportunity for hearing, concludes upon departmental recommendation, a proposal of any party, or its own motion, that the standards of section 10(a) of the Act would best be served if a project whose license is expiring is taken over by the United States, it will issue its findings and recommendations to this effect, and after any modification thereof, upon consideration of any application for reconsideration, made in conformity with the provisions of § 1.34 of this chapter governing applications for rehearing, forward copies of its findings and recommendations to the Congress.

§ 16.10 *Motion for stay by Federal department or agency.*

If the Commission does not recommend to the Congress that a project be taken over, a Federal department or agency which has filed a timely recommendation for takeover as provided in this part may, within thirty (30) days of issuance of an order granting a license, file a motion, with copies to the parties in the proceeding, before the Commission requesting a stay of the license order. Upon the filing of such a motion, the license order automatically will be stayed for 2 years from the date of issuance of the order, unless the stay is terminated earlier upon motion of the department or agency requesting the stay or by action of Congress. The Commission will notify Congress of any such stay. Upon expiration or termination of the stay, including any extension thereof by act of Congress, the Commission's license order shall automatically become effective in accordance with its terms. The Commission will notify Congress of each license order which has become effective by reason of the expiration or termination of a stay.

§ 16.11 *Procedures upon congressional authorization of takeover.*

A determination whether or not there is to be a Federal takeover of a project would ultimately be made by Congress through the enactment of appropriate legislation. If Congress authorizes takeover, the Secretary will immediately give the Licensee not less than 2 years' notice in writing of such action. Within 6 months of issuance of such notice the Licensee shall present to the Commission any claim for compensation consistent with the provisions of section 14 of the Federal Power Act and the regulations of the Commission.

§ 16.12 *Renewal of minor or minor part licenses not subject to sections 14 and 15.*

Licenses whose minor or minor part licenses are not subject to sections 14 and 15 of the Act and wish to continue operation of the project after the end of the license term shall file an application for a "new license" 1 year prior to the expiration of their original license in accordance with applicable provisions of part 4 of this chapter.

§ 16.13 *Acceptance for filing or rejection of application.*

Acceptance for filing or rejection of applications under this part shall be in accordance with the provisions of § 4.31 of this chapter.

APPENDIX B.—FEDERAL ENERGY REGULATORY COMMISSION FORM L-3 (REVISED OCTOBER 1975)

TERMS AND CONDITIONS OF LICENSE FOR CONSTRUCTED MAJOR PROJECT AFFECTING NAVIGABLE WATERS OF THE UNITED STATES

Article 1. The entire project, as described in this order of the Commission, shall be subject to all of the provisions, terms, and conditions of the license.

Article 2. No substantial change shall be made in the maps, plans, specifications, and statements described and designated as exhibits and approved by the Commission in its order as a part of the license until such change shall have been approved by the Commission: *Provided, however,* That if the Licensee or the Commission deems it necessary or desirable that said approved exhibits, or any of them, be changed, there shall be submitted to the Commission for approval a revised, or additional exhibit or exhibits covering the proposed changes which, upon approval by the Commission, shall become a part of the license and shall supersede, in whole or in part, such exhibit or exhibits theretofore made a part of the license as may be specified by the Commission.

Article 3. The project area and project works shall be in substantial conformity with the approved exhibits referred to in Article 2 herein or as changed in accordance with the provisions of said article. Except when emergency shall require for the protection of navigation, life, health, or property, there shall not be made without prior approval of the Commission any substantial alteration or addition not in conformity with the approved plans to any dam or other project works under the license or any substantial use of project lands and waters not authorized herein; and any emergency alteration, addition, or use so made shall thereafter be subject to such modification and change as the Commission may direct. Minor changes in project works, or in uses of project lands and waters, or divergence from such approved exhibits may be made if such changes will not result in a decrease in efficiency, in a material increase in cost, in an adverse environmental impact, or in impairment of the general scheme of development; but any of such minor changes made without the prior approval of the Commission, which in its judgement have produced or will produce any of such results shall be subject to such alteration as the Commission may direct.

Article 4. The project, including its operation and maintenance and any work incidental to additions or alterations authorized by the Commission, whether or not conducted upon lands of the United States, shall be subject to the inspection and supervision of the Regional Engineer, Federal Power Commission, in the region wherein the project is located, or of such other officer or agent as the Commission may designate, who shall be the authorized representative of the Commission for such purposes. The Licensee shall cooperate fully with said representative and shall furnish him such information as he may require concerning the operation and maintenance of the project, and any such alterations thereto, and shall notify him of the date upon which work with respect to any alteration will begin, as far in advance thereof as said representative may reasonably specify, and shall notify him promptly in writing of any suspension of work for a period of more than one week, and of its resumption and completion. The Licensee shall submit to said representative a detailed program of inspection by the Licensee that will provide for an adequate and qualified inspection force for construction of any such alterations to the project. Construction of said alterations or any feature thereof shall not be initiated until the program of inspection for the alterations or any feature thereof has been approved by said representative. The Licensee shall allow said representative and other officers or employees of the United States, showing proper credentials, free and unrestricted access to, through, and across the project lands and projects works in the performance of their official duties. The Licensee shall comply with such rules and regulations of general or special applicability as the Commission may prescribe from time to time for the protection of life, health, or property.

Article 5. The Licensee, within five years from the date of issuance of the license, shall acquire title in fee or the right to use in perpetuity all lands, other than lands of the United States, necessary or appropriate for the construction, maintenance, and operation of the project. The Licensee or its successors and assigns shall, during the period of the license, retain the possession of all project property covered by the license as issued or as later amended, including the project area, the project works, and all franchises, easements, water rights, and rights of occupancy and use; and none of such properties shall be voluntarily sold, leased, transferred, abandoned, or otherwise disposed of without the prior written approval of the Commission, except that the Licensee may lease or otherwise dispose of interests in projects lands or property without specific written approval of the Commission pursuant to the then current regulations of the Commission. The provisions of this article are not intended to prevent the abandonment or the retirement from service of structures, equipment, or other project works in connection with replacements thereof when they become obsolete, inadequate, or inefficient for further service due to wear and tear; and mortgage or trust deeds or judicial sales made thereunder, or tax sales, shall not be deemed voluntary transfers within the meaning of this article.

Article 6. In the event the project is taken over by the United States upon the termination of the license as provided in Section 14 of the Federal Power Act, or is transferred to a new licensee or to a non-power licensee under the provisions of Section 15 of said Act the Licensee, its successors and assigns shall be responsible for, and shall make good any defect of title to, or of right of occupancy and use in, any of such project property that is necessary or appropriate or valuable and serviceable in the maintenance and operation of the project, and shall pay and discharge, or shall assume responsibility for payment and discharge of, all liens or encumbrances upon the projects or project property created by the Licensee or created or incurred after the issuance of the license: *Provided,* That the provisions of this article are not intended to require the Licensee, for the purpose of transferring the project to the United States or to a new licensee, to acquire any different title to, or right of occupancy and use in, any of such project property than was necessary to acquire for its own purposes as the Licensee.

Article 7. The actual legitimate original cost of the project, and of any addition thereto or betterment thereof, shall be determined by the Commission in accordance with the Federal Power Act and the Commission's Rules and Regulations thereunder.

Article 8. The licensee shall install and thereafter maintain gages and streamgaging stations for the purpose of determining the stage and flow of the stream or streams on which the project is located, the amount of water held in and withdrawn from storage, and the effective head on the turbines; shall provide for the required reading of such gages and for the adequate rating of such stations; and shall install and maintain standard meters adequate for the determination of the amount of electric energy generated by the project works. The number, character, and location of gages, meters, or other measuring devices, and the method of operation thereof, shall at all times be satisfactory to the Commission or its authorized representative. The Commission reserves the right, after notice and opportunity for hearing, to require such alterations in the number, character, and location of gages, meters, or other measuring devices, and the method of operation thereof, as are necessary to secure adequate determinations. The installation of gages, the rating of said stream or streams, and the determination of the flow thereof, shall be under the supervision of, or in cooperation with, the District Engineer of the United States Geological Survey having charge of stream-gaging operations in the region of the project, and the Licensee shall advance to the United States Geological Survey the amount of funds estimated to be necessary for such supervision, or cooperation for such periods as may be mutually agreed upon. The Licensee shall keep accurate and sufficient records of the foregoing determinations to the satisfaction of the Commission, and shall make return of such records annually at such time and in such form as the Commission may prescribe.

Article 9. The Licensee shall, after notice and opportunity for hearing, install additional capacity or make other changes in the project as directed by the Commission, to the extent that it is economically sound and in the public interest to do so.

Article 10. The Licensee shall, after notice and opportunity for hearing, coordinate the operation of the project, electrically and hydraulically, with such other projects or power systems and in such manner as the Commission may direct in the interest of power and other beneficial public uses of water resources, and on such conditions concerning the equitable sharing of benefits by the Licensee as the Commission may order.

Article 11. Whenever the Licensee is directly benefited by the construction work of another licensee, a permittee, or the United States on a storage reservoir or other headwater improvement, the Licensee shall reim-

burse the owner of the headwater improvement for such part of the annual charges for interest, maintenance, and depreciation thereof as the Commission shall determine to be equitable, and shall pay to the United States the cost of making such determination as fixed by the Commission. For benefits provided by a storage reservoir or other headwater improvement of the United States, the Licensee shall pay to the Commission the amounts for which it is billed from time to time for such headwater benefits and for the cost of making the determinations pursuant to the then current regulations of the Commission under the Federal Power Act.

Article 12. The United States specifically retains and safeguards the right to use water in such amount, to be determined by the Secretary of the Army, as may be necessary for the purposes of navigation on the navigable waterway affected; and the operations of the Licensee, so far as they affect the use, storage and discharge from storage of waters affected by the license, shall at all time be controlled by such reasonable rules and regulations as the Secretary of the Army may prescribe in the interest of navigation, and as the Commission may prescribe for the protection of life, health, and property, and in the interest of the fullest practicable conservation and utilization of such waters for power purposes and for other beneficial public uses, including recreational purposes, and the Licensee shall release water from the project reservoir at such rate in cubic feet per second, or such volume in acre-feet per specified period of time, as the Secretary of the Army may prescribe in the interest of navigation, or as the Commission may prescribe for the other purposes hereinbefore mentioned.

Article 13. On the application of any person, association, corporation, Federal agency, State or municipality, the Licensee shall permit such reasonable use of its reservoir or other project properties, including works, lands and water rights, or parts thereof, as may be ordered by the Commission, after notice and opportunity for hearing, in the interests of comprehensive development of the waterway or waterways involved and the conservation and utilization of the water resources of the region for water supply or for the purposes of steam-electric, irrigation, industrial, municipal or similar uses. The Licensee shall receive reasonable compensation for use of its reservoir or other project properties or parts thereof for such purposes, to include at least full reimbursement for any damages or expenses which the joint use causes the Licensee to incur. Any such compensation shall be fixed by the Commission either by approval of an agreement between the Licensee and the party or parties benefiting or after notice and opportunity for hearing. Applications shall contain information in sufficient detail to afford a full understanding of the proposed use, including satisfactory evidence that the applicant possesses necessary water rights pursuant to applicable State law, or a showing of cause why such evidence cannot concurrently be submitted, and a statement as to the relationship of the proposed use to any State or municipal plans or orders which may have been adopted with respect to the use of such waters.

Article 14. In the construction or maintenance of the project works, the Licensee shall place and maintain suitable structures and devices to reduce to a reasonable degree the liability of contact between its transmission lines and telegraph, telephone and other signal wires or power transmission lines constructed prior to its transmission lines and not owned by the Licensee, and shall also place and maintain suitable structures and devices to reduce to a reasonable degree the liability of any structures or wires falling or obstructing traffic or endangering life. None of the provisions of this article are intended to relieve the Licensee from any responsibility or requirement which may be imposed by any other lawful authority for avoiding of eliminating inductive interference.

Article 15. The Licensee shall, for the conservation and development of fish and wildlife resources, construct, maintain, and operate, or arrange for the construction, maintenance, and operation of such reasonable facilities, and comply with such reasonable modifications of the project structures and operation, as may be ordered by the Commission upon its own motion or upon the recommendation of the Secretary of the Interior or the fish and wildlife agency or agencies of any State in which the project or a part thereof is located, after notice and opportunity for hearing.

Article 16. Whenever the United States shall desire, in connection with the project, to construct fish and wildlife facilities or to improve the existing fish and wildlife facilities at its own expense, the Licensee shall permit the United States or its designated agency to use, free of cost, such of the Licensee's lands and interests in lands, reservoirs, waterways and project works as may be reasonably required to complete such facilities or such improvements thereof. In addition, after notice and opportunity for hearing, the Licensee shall modify the project operation as may be reasonably prescribed by the Commission in order to permit the maintenance and operation of the fish and wildlife facilities constructed or improved by the United States under the provisions of this article. This article shall not be interpreted to place any obligation on the United States to construct or improve fish and wildlife facilities or to relieve the Licensee of any obligation under this license.

Article 17. The Licensee shall construct, maintain, and operate, or shall arrange for the construction, maintenance, and operation of such reasonable recreational facilities, including modifications thereto, such as access roads, wharves, launching ramps, beaches, picnic and camping areas, sanitary facilities, and utilities, giving consideration to the needs of the physically handicapped, and shall comply with such reasonable modifications of the project, as may be prescribed hereafter by the Commission during the term of this license upon its own motion or upon the recommendation of the Secretary of the Interior or other interested Federal or State agencies, after notice and opportunity for hearing.

Article 18. So far as is consistent with proper operation of the project, the Licensee shall allow the public free access, to a reasonable extent, to project waters and adjacent project lands owned by the Licensee for the purpose of full public utilization of such lands and waters for navigation and for outdoor recreational purposes, including fishing and hunting: *Provided*, That the Licensee may reserve from public access such portions of the project waters, adjacent lands, and project facilities as may be necessary for the protection of life, health, and property.

Article 19. In the construction, maintenance, or operation of the project, the Licensee shall be responsible for, and shall take reasonable measures to prevent, soil erosion on lands adjacent to streams or other waters, stream sedimentation, and any form of water or air pollution. The Commission, upon request or upon its own motion, may order the Licensee to take such measures as the Commission finds to be necessary for these purposes, after notice and opportunity for hearing.

Article 20. The Licensee shall clear and keep clear to an adequate width lands along open conduits and shall dispose of all temporary structures, unused timber, brush, refuse, or other material unnecessary for the purposes of the project which results from the clearing of lands or from the maintenance or alteration of the project works. In addition, all trees along the periphery of project reservoirs which may die during operations of the project shall be removed. All clearing of the lands and disposal of the unnecessary material shall be done with due diligence and to the satisfaction of the authorized representatives of the Commission and in accordance with appropriate Federal, State, and local statutes and regulations.

Article 21. Material may be dredged or excavated from, or placed as fill in, project lands and/or waters only in the prosecution of work specifically authorized under the license; in the maintenance of the project; or after obtaining Commission approval, as appropriate. Any such material shall be removed and/or deposited in such manner as to reasonably preserve the environmental values of the project and so as not to interfere with traffic on land or water. Dredging and filling in a navigable water of the United States shall also be done to the satisfaction of the District Engineer, Department of the Army, in charge of the locality.

Article 22. Whenever the United States shall desire to construct, complete, or improve navigation facilities in connection with the project, the Licensee shall convey to the United States, free of cost, such of its lands and rights-of-way and such rights of passage through its dams or other structures, and shall permit such control of its pools, as may be required to complete and maintain such navigation facilities.

Article 23. The operation of any navigation facilities which may be constructed as a part of, or in connection with, any dam or diversion structure constituting a part of the project works shall at all times be controlled by such reasonable rules and regulations in the interest of navigation, including control of the level of the pool caused by such dam or diversion structure, as may be made from time to time by the Secretary of the Army.

Article 24. The Licensee shall furnish power free of cost to the United States for the operation and maintenance of navigation facilities in the vicinity of the project at the voltage and frequency required by such facilities and at a point adjacent thereto, whether said facilities are constructed by the Licensee or by the United States.

Article 25. The Licensee shall construct, maintain, and operate at its own expense such lights and other signals for the protection of navigation as may be directed by the Secretary of the Department in which the Coast Guard is operating.

Article 26. If the Licensee shall cause or suffer essential project property to be removed or destroyed or to become unfit for use, without adequate replacement, or shall

abandon or discontinue good faith operation of the project or refuse or neglect to comply with the terms of the license and the lawful orders of the Commission mailed to the record address of the Licensee or its agent, the Commission will deem it to be the intent of the Licensee to surrender the license. The Commission, after notice and opportunity for hearing, may require the Licensee to remove any or all structures, equipment and power lines within the project boundary and to take any such other action necessary to restore the project waters, lands, and facilities remaining within the project boundary to a condition satisfactory to the United States agency having jurisdiction over its lands or the Commission's authorized representative, as appropriate, or to provide for the continued operation and maintenance of nonpower facilities and fulfill such other obligations under the license as the Commission may prescribe. In addition, the Commission in its discretion, after notice and opportunity for hearing, may also agree to the surrender of the license when the Commission, for the reasons recited herein, deems it to be the intent of the Licensee to surrender the license.

Article 27. The right of the Licensee and of its successors and assigns to use or occupy waters over which the United States has jurisdiction, or lands of the United States under the license, for the purpose of maintaining the project works or otherwise, shall absolutely cease at the end of the license period, unless the Licensee has obtained a new license pursuant to the then existing laws and regulations, or an annual license under the terms and conditions of this license.

Article 28. The terms and conditions expressly set forth in the license shall not be constructed as impairing any terms and conditions of the Federal Power Act which are not expressly set forth herein.

FEDERAL ENERGY REGULATORY COMMISSION

FORM L-4 (REVISED OCTOBER, 1975)

TERMS AND CONDITIONS OF LICENSE FOR UNCONSTRUCTED MAJOR PROJECT AFFECTING NAVIGABLE WATERS OF THE UNITED STATES

Article 1. The entire project, as described in this order of the Commission, shall be subject to all of the provisions, terms, and conditions of the license.

Article 2. No substantial change shall be made in the maps, plans, specifications, and statements described and designated as exhibits and approved by the Commission in its order as a part of the license until such change shall have been approved by the Commission: *Provided, however,* That if the Licensee or the Commission deems it necessary or desirable that said approved exhibits, or any of them, be changed, there shall be submitted to the Commission for approval a revised, or additional exhibit or exhibits covering the proposed changes which, upon approval by the Commission, shall become a part of the license and shall supersede, in whole or in part, such exhibit or exhibits theretofore made a part of the license as may be specified by the Commission.

Article 3. The project works shall be constructed in substantial conformity with the approved exhibits referred to in Article 2 herein or as changed in accordance with the provisions of said article. Except when emergency shall require for the protection of navigation, life, health, or property, there shall not be made without prior approval of the Commission any substantial alteration or addition not in conformity with the approved plans to any dam or other project works under the license or any substantial use of project lands and waters not authorized herein; and any emergency alteration, addition, or use so made shall thereafter be subject to such modification and change as the Commission may direct. Minor changes in project works, or in uses of project lands and waters, or divergence from such approved exhibits may be made if such changes will not result in a decrease in efficiency, in a material increase in cost, in an adverse environmental impact, or in impairment of the general scheme of development; but any of such minor changes made without the prior approval of the Commission, which in its judgment have produced or will produce any of such results, shall be subject to such alteration as the Commission may direct.

Upon the completion of the project, or at such other time as the Commission may direct, the Licensee shall submit to the Commission for approval revised exhibits insofar as necessary to show any divergence from or variations in the project area and project boundary as finally located or in the project works as actually constructed when compared with the area and boundary shown and the works described in the license or in the exhibits approved by the Commission, together with a statement in writing setting forth the reasons which in the opinion of the Licensee necessitated or justified variation in or divergence from the approved exhibits. Such revised exhibits shall, if and when approved by the Commission, be made a part of the license under the provisions of Article 2 hereof.

Article 4. The construction, operation, and maintenance of the project and any work incidental to additions or alterations shall be subject to the inspection and supervision of the Regional Engineer, Federal Power Commission, in the region wherein the project is located, or of such other officer or agent as the Commission may designate, who shall be the authorized representative of the Commission for such purposes. The Licensee shall cooperate fully with said representative and shall furnish him a detailed program of inspection by the Licensee that will provide for an adequate and qualified inspection force for construction of the project and for any subsequent alterations to the project. Construction of the project works or any feature or alterations thereof shall not be initiated until the program of inspection for the project works or any such feature thereof has been approved by said representative. The Licensee shall also furnish to said representative such further information as he may require concerning the construction, operation, and maintenance of the project, and of any alteration thereof, and shall notify him of the date upon which work will begin, as far in advance thereof as said representative may reasonably specify, and shall notify him promptly in writing of any suspension of work for a period of more than one week, and of its resumption and completion. The Licensee shall allow said representative and other officers or employees of the United States, showing proper credentials, free and unrestricted access to, through, and across the project lands and project works in the performance of their official duties. The Licensee shall comply with such rules and regulations of general or special applicability as the Commission may prescribe from time to time for the protection of life, health, or property.

Article 5. The Licensee, within 5 years from the date of issuance of the license, shall acquire title in fee or other right to use in perpetuity all lands, other than lands of the United States, necessary or appropriate for the construction, maintenance, and operation of the project. The Licensee or its successors and assigns shall, during the period of the license, retain the possession of all project property covered by the license as issued or as later amended, including the project area, the project works, and all franchises, easements, water and rights of occupancy and use; and none of such properties shall be voluntarily sold, leased, transferred, abandoned, or otherwise disposed of without the prior written approval of the Commission, except that the Licensee may lease or otherwise dispose of interests in project lands or property without specific written approval of the Commission pursuant to the then current regulations of the Commission. The provisions of this article are not intended to prevent the abandonment or the retirement from service of structures, equipment, or other project works in connection with replacements thereof when they become obsolete, inadequate, or inefficient for further service due to wear and tear; and mortgage or trust deeds or judicial sales made thereunder, or tax sales, shall not be deemed voluntary transfers within the meaning of this article.

Article 6. In the event the project is taken over by the United States upon the termination of the license as provided in Section 14 of the Federal Power Act, or is transferred to a new licensee or to a non-power licensee under the provisions of Section 15 of said Act, the Licensee, its successors and assigns shall be responsible for, and shall make good any defect of title to, or of right of occupancy and use in, any of such project property that is necessary or appropriate or valuable and serviceable in the maintenance and operation of the project, and shall pay and discharge, or shall assume responsibility for payment and discharge of, all liens or encumbrances upon the project or project property created by the Licensee or created or incurred after the issuance of the License: *Provided,* That the provisions of this article are not intended to require the Licensee, for the purpose of transferring the project to the United States or to a new licensee, to acquire any different title to, or right of occupancy and use in, any of such project property than was necessary to acquire for its own purposes as the Licensee.

Article 7. The actual legitimate original cost of the project, and of any addition thereto or betterment thereof, shall be determined by the Commission in accordance with the Federal Power Act and the Commission's Rules and Regulations thereunder.

Article 8. The Licensee shall install and thereafter maintain gages and streamgaging stations for the purpose of determining the stage and flow of the stream or streams on which the project is located, the amount of water held in and withdrawn from storage, and the effective head on the turbines; shall provide for the required reading of such gages and for the adequate rating of such stations; and shall install and maintain standard meters adequate for the determination of the amount of electric energy generated by the project works. The number, character, and location of gages, meters, or other measuring devices, and the method of operation thereof, shall at all times be satisfactory to the Commission or

its authorized representative. The Commission reserves the right, after notice and opportunity for hearing, to require such alterations in the number, character, and location of gages, meters, or other measuring devices, and the method of operation thereof, as are necessary to secure adequate determinations. The installation of gages, the rating of said stream or streams, and the determination of the flow thereof, shall be under the supervision of, or in cooperation with, the District Engineer of the United States Geological Survey having charge of stream-gaging operations in the region of the project, and the Licensee shall advance to the United States Geological Survey the amount of funds estimated to be necessary for such supervision, or cooperation for such periods as may be mutually agreed upon. The Licensee shall keep accurate and sufficient records of the foregoing determinations to the satisfaction of the Commission, and shall make return of such records annually at such time and in such form as the Commission may prescribe.

Article 9. The Licensee shall, after notice and opportunity for hearing, install additional capacity or make other changes in the project as directed by the Commission, to the extent that it is economically sound and in the public interest to do so.

Article 10. The Licensee shall, after notice and opportunity for hearing, coordinate the operation of the project, electrically and hydraulically, with such other projects or power systems and in such manner as the Commission may direct in the interest of power and other beneficial public uses of water resources, and on such conditions concerning the equitable sharing of benefits by the Licensee as the Commission may order.

Article 11. Whenever the Licensee is directly benefited by the construction work of another licensee, a permittee, or the United States on a storage reservoir or other headwater improvement, the Licensee shall reimburse the owner of the headwater improvement for such part of the annual charges for interest, maintenance, and depreciation thereof as the Commission shall determine to be equitable, and shall pay to the United States the cost of making such determination as fixed by the Commission. For benefits provided by a storage reservoir or other headwater improvement of the United States, the Licensee shall pay to the Commission the amounts for which it is billed from time to time for such headwater benefits and for the cost of making the determinations pursuant to the then current regulations of the Commission under the Federal Power Act.

Article 12. The United States specifically retains and safeguards the right to use water in such amount, to be determined by the Secretary of the Army, as may be necessary for the purposes of navigation on the navigable waterway affected; and the operations of the Licensee, so far as they affect the use, storage and discharge from storage of waters affected by the license, shall at all times be controlled by such reasonable rules and regulations as the Secretary of the Army may prescribe in the interest of navigation, and as the Commission may prescribe for the protection of life, health, and property, and in the interest of the fullest practicable conservation and utilization of such waters for power purposes and for other beneficial public uses, including recreational purposes, and the Licensee shall release water from the project reservoir at such rate in cubic feet per second, or such volume in acre-feet per specified period of time, as the Secretary of the Army may prescribe in the interest of navigation, or as the Commission may prescribe for the other purposes hereinbefore mentioned.

Article 13. On the application of any person, association, corporation, Federal agency, State or municipality, the Licensee shall permit such reasonable use of its reservoir or other project properties, including works, lands and water rights, or parts thereof, as may be ordered by the Commission, after notice and opportunity for hearing, in the interests of comprehensive development of the waterway or waterways involved and the conservation and utilization of the water resources of the region for water supply or for the purposes of steam-electric, irrigation, industrial, municipal or similar uses. The Licensee shall receive reasonable compensation for use of its reservoir or other project properties or parts thereof for such purposes, to include at least full reimbursement for any damages or expenses which the joint use causes the Licensee to incur. Any such compensation shall be fixed by the Commission either by approval of an agreement between the Licensee and the party or parties benefiting or after notice and opportunity for hearing. Applications shall contain information in sufficient detail to afford a full understanding of the proposed use, including satisfactory evidence that the applicant possesses necessary water rights pursuant to applicable State law, or a showing of cause why such evidence cannot concurrently be submitted, and a statement as to the relationship of the proposed use to any State or municipal plans or orders which may have been adopted with respect to the use of such waters.

Article 14. In the construction or maintenance of the project works, the Licensee shall place and maintain suitable structures and devices to reduce to a reasonable degree the liability of contact between its transmission lines and telegraph, telephone and other signal wires or power transmission lines constructed prior to its transmission lines and not owned by the Licensee, and shall also place and maintain suitable structures and devices to reduce to a reasonable degree the liability of any structures or wires falling or obstructing traffic or endangering life. None of the provisions of this article are intended to relieve the Licensee from any responsibility or requirement which may be imposed by any other lawful authority for avoiding or eliminating inductive interference.

Article 15. The Licensee shall, for the conservation and development of fish and wildlife resources, construct, maintain, and operate, or arrange for the construction, maintenance, and operation of such reasonable facilities, and comply with such reasonable modifications of the project structures and operation, as may be ordered by the Commission upon its own motion or upon the recommendation of the Secretary of the Interior or the fish and wildlife agency or agencies of any State in which the project or a part thereof is located, after notice and opportunity for hearing.

Article 16. Whenever the United States shall desire, in connection with the project, to construct fish and wildlife facilities or to improve the existing fish and wildlife facilities at its own expense, the Licensee shall permit the United States or its designated agency to use, free of cost, such of the Licensee's lands and interests in lands, reservoirs, waterways and project works as may be reasonably required to complete such facilities or such improvements thereof. In addition, after notice and opportunity for hearing, the Licensee shall modify the project operation as may be reasonably prescribed by the Commission in order to permit the maintenance and operation of the fish and wildlife facilities constructed or improved by the United States under the provisions of this article. This article shall not be interpreted to place any obligation on the United States to construct or improve fish and wildlife facilities or to relieve the Licensee of any obligation under this license.

Article 17. The Licensee shall construct, maintain, and operate, or shall arrange for the construction, maintenance, and operation of such reasonable recreational facilities, including modifications thereto, such as access roads, wharves, launching ramps, beaches, picnic and camping areas, sanitary facilities, and utilities, giving consideration to the needs of the physically handicapped, and shall comply with such reasonable modifications of the project, as may be prescribed hereafter by the Commission during the term of this license upon its own motion or upon the recommendation of the Secretary of the Interior or other interested Federal or State agencies, after notice and opportunity for hearing.

Article 18. So far as is consistent with proper operation of the project, the Licensee shall allow the public free access, to a reasonable extent, to project waters and adjacent project lands owned by the Licensee for the purpose of full public utilization of such lands and waters for navigation and for outdoor recreational purposes, including fishing and hunting: *Provided*, That the Licensee may reserve from public access such portions of the project waters, adjacent lands, and project facilities as may be necessary for the protection of life, health, and property.

Article 19. In the construction, maintenance, or operation of the project, the Licensee shall be responsible for, and shall take reasonable measures to prevent, soil erosion on lands adjacent to streams or other waters, stream sedimentation, and any form of water or air pollution. The Commission, upon request or upon its own motion, may order the Licensee to take such measures as the Commission finds to be necessary for these purposes, after notice and opportunity for hearing.

Article 20. The Licensee shall consult with the appropriate State and Federal agencies and, within one year of the date of issuance of this license, shall submit for Commission approval a plan for clearing the reservoir area. Further, the Licensee shall clear and keep clear to an adequate width lands along open conduits and shall dispose of all temporary structures, unused timber, brush, refuse, or other material unnecessary for the purposes of the project which results from the clearing of lands or from the maintenance or alteration of the project works. In addition, all trees along the periphery of project reservoirs which may die during operations of the project shall be removed. Upon approval of the clearing plan all clearing of the lands and disposal of the unnecessary material shall be done with due diligence and to the satisfaction of the authorized representative of the Commission and in accordance with appropriate Federal, State, and local statutes and regulations.

Article 21. Material may be dredged or excavated from, or placed as fill in, project

lands and/or waters only in the prosecution of work specifically authorized under the license; in the maintenance of the project; or after obtaining Commission approval, as appropriate. Any such material shall be removed and/or deposited in such manner as to reasonably preserve the environmental values of the project and so as not to interfere with traffic on land or water. Dredging and filling in a navigable water of the United States shall also be done to the satisfaction of the District Engineer, Department of the Army, in charge of the locality.

Article 22. Whenever the United States shall desire to construct, complete, or improve navigation facilities in connection with the project, the Licensee shall convey to the United States, free of cost, such of its lands and rights-of-way and such rights of passage through its dams or other structures, and shall permit such control of its pools, as may be required to complete and maintain such navigation facilities.

Article 23. The operation of any navigation facilities which may be constructed as a part of, or in connection with, any dam or diversion structure constituting a part of the project works shall at all times be controlled by such reasonable rules and regulations in the interest of navigation, including control of the level of the pool caused by such dam or diversion structure, as may be made from time to time by the Secretary of the Army.

Article 24. The Licensee shall furnish power free of cost to the United States for the operation and maintenance of navigation facilities in the vicinity of the project at the voltage and frequency required by such facilities and at a point adjacent thereto, whether said facilities are constructed by the Licensee or by the United States.

Article 25. The Licensee shall construct, maintain, and operate at its own expense such lights and other signals for the protection of navigation as may be directed by the Secretary of the Department in which the Coast Guard is operating.

Article 26. If the Licensee shall cause or suffer essential project property to be removed or destroyed or to become unfit for use, without adequate replacement, or shall abandon or discontinue good faith operation of the project or refuse or neglect to comply with the terms of the license and the lawful orders of the Commission mailed to the record address of the Licensee or its agent, the Commission will deem it to be the intent of the Licensee to surrender the license. The Commission, after notice and opportunity for hearing, may require the Licensee to remove any or all structures, equipment and power lines within the project boundary and to take any such other action necessary to restore the project waters, lands, and facilities remaining within the project boundary to a condition satisfactory to the United States agency having jurisdiction over its lands or the Commission's authorized representative, as appropriate, or to provide for the continued operation and maintenance of nonpower facilities and fulfill such other obligations under the license as the Commission may prescribe. In addition, the Commission in its discretion, after notice and opportunity for hearing, may also agree to the surrender of the license when the Commission, for the reasons recited herein, deems it to be the intent of the Licensee to surrender the license.

Article 27. The right of the Licensee and of its successors and assigns to use or occupy waters over which the United States has jurisdiction, or lands of the United States under the license, for the purpose of maintaining the project works or otherwise, shall absolutely cease at the end of the license period, unless the Licensee has obtained a new license pursuant to the then existing laws and regulations, or an annual license under the terms and conditions of this license.

Article 28. The terms and conditions expressly set forth in the license shall not be construed as impairing any terms and conditions of the Federal Power Act which are not expressly set forth herein.

LIST OF FPC STANDARD ARTICLES FORMS USED IN PERMITS AND LICENSES FOR HYDROELECTRIC PROJECTS

The following FPC standard articles Forms, in addition to the standard Forms L-3, and L-4 which are provided in this appendix, are available from the FPC offices:

FPC Forms:[1]	*Title*
P-1	Terms and conditions of preliminary permit.
L-1	Terms and conditions of license for constructed major project affecting lands of the United States.
L-2	Terms and conditions of license for unconstructed major project affecting lands of the United States.
L-5	Terms and conditions of license for constructed major projects affecting navigable waters and lands of the United States.
L-6	Terms and conditions of license for unconstructed major project affecting navigable waters and lands of the United States.
L-9	Terms and conditions of license for constructed minor projects affecting navigable waters of the United States.
L-10	Terms and conditions of license for constructed major project affecting the interests of interstate or foreign commerce.
L-11	Terms and conditions of license for unconstructed major project affecting the interests of interstate or foreign commerce.
L-14	Terms and conditions of license for unconstructed minor project affecting navigable waters of the United States.
L-15	Terms and conditions of license for unconstructed minor project affecting the interests of interstate or foreign commerce.
L-16	Terms and conditions of license for constructed minor project affecting lands of the United States.
L-17	Terms and conditions of license for unconstructed minor project affecting lands of the United States.
L-18	Terms and conditions of license for constructed minor project affecting navigable waters and lands of the United States.
L-19	Terms and conditions of license for unconstructed minor project affecting navigable waters and lands of the United States.

Title 39—Postal Service

CHAPTER I—UNITED STATES POSTAL SERVICE

PART 111—GENERAL INFORMATION ON POSTAL SERVICE

Preparation for Mailing—Packaging

AGENCY: Postal Service.

ACTION: Final rule.

SUMMARY: This rule amends postal regulations to establish more realistic and enforceable packaging requirements. The final regulation is designed to reflect established commercial standards identified during an extensive packaging task force study, as modified pursuant to comments received in the course of a public rulemaking proceeding. The new requirements are intended to facilitate the safe handling of packages by eliminating damage due to the use of inadequate containers, closure and reinforcement materials, as well as to eliminate lost and delayed parcels due to the placement of inadequate and confusing markings on the outside of the package.

EFFECTIVE DATE: March 9, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. F. E. Gardner, 202-245-4529.

SUPPLEMENTARY INFORMATION: On September 23, 1977, the Postal Service published for comment in the FEDERAL REGISTER proposed changes to Part 121 of the Postal Service Manual as described above (42 FR 48349). The proposed changes were intended to establish more practicable criteria for acceptance of parcels in order to hold the damage and loss rate due to faulty packaging and marking at or below a level of ½ of 1 percent. In brief, the container requirements were generally relaxed, while closure, reinforcement and marking requirements were selectively strengthened to eliminate specific areas of loss and damage. In addition, optional guidelines on items which had experienced the greatest rates of damage were developed to assist mailers and the Postal Service in maintaining adequate packaging.

Interested persons were invited to submit written comments concerning the proposed regulations. Upon request the comment period was extended from October 26 to November 16, 1977 (42 FR 56960). All comments received during the comment period were considered, including those that arrived after the extended date, up to December 1, 1977.

A total of 87 comments were received. About 75 percent of the comments were from the general public, largely in response to newspaper articles and television announcements informing the public of the FEDERAL REGISTER notice. The media advised

the public that postal officials were looking for suggestions on packaging. Eight commenters concurred in the proposed regulations as written. Another eight requested copies of the proposal, which was sent to them.

Fifteen commenters attributed loss and damage of parcels to poor handling or the use of improper equipment rather than improper packaging. Handling procedures have been and will continue to be improved as problem areas are identified. The proposed packaging regulations are a part of a program to reduce damage which includes upgrading parcels as well as improving mechanized handling and vehicle loading procedures.

Eleven commenters suggested that the Postal Service should sell packaging materials. The Postal Service still sells padded shipping bags. However, many mail packaging items formerly sold in post offices were removed from sale in May 1975 at the request of a Subcommittee of the House Committee on Post Office and Civil Service. This request for removal was instigated by complaints from small businessmen and stationery store owners that the Postal Service was competing unfairly in offering these items for sale.

Another eleven commenters objected to the elimination of twine and cord. Twine and cord is still acceptable for closure and reinforcement of containers. However, reinforced tape is preferred.

Two commenters objected to the exclusion of masking tape for closure and reinforcement. Masking tape is designed to cover or protect margins or borders during painting. Its low tensile strength and adhesion properties make it inadequate as a tape for closing or reinforcing packages.

Each of the following comments was made by a separate individual who

(1) Objected to the exclusion of padded bags for items of registered mail. See 161.31 of the Postal Service Manual. The question of whether padded bags may be used for registered mail items is beyond the scope of this rulemaking. Nevertheless, there is a good reason, in our opinion, for not permitting padded bags for registered mail. The reason is security. Registered mail frequently contains valuable items. Such items may be easily removed from padded bags, and evidence of the opening and removal (and absence of the contents) may be undetectable until too late to trace the time and place of removal.

(2) Wanted positive rather than negative regulations. In our opinion, these regulations are basically framed in positive language. Some regulations, however, must be written in the negative to specifically preclude the use of materials such as masking tape, which have been demonstrated to be inadequate for packaging.

(3) Objected to the prohibition of the word "Rush" on packages unless special handling or special delivery are used. Packages marked RUSH and DO NOT DELAY which do not bear postage entitling them to special delivery or special handling do not deserve such expedited service. Nevertheless, such markings may cause postal employees to extend the more costly expedited service to such packages, to the detriment of the Postal Service.

(4) Requested simpler instructions for small mailers and the general public. The Postal Service will provide simpler instructions via customer service posters, which will be distributed to post offices after these final regulations are published.

(5) Sent to us for inspection a sample carton that had been designed and used satisfactorily for more than 20 years to send books and requested our opinion on whether the carton would comply with the proposed packaging requirements. We determined that the sample carton complies both with the proposed regulation and the regulation as adopted.

(6) Believed mistakenly that the Postal Service had created a category of "perishable" items limited to produce and meats, and stated that baked goods, candies and other foodstuffs should be included. The Postal Service did not attempt to define or categorize perishable items. It simply stated that perishable markings are to be applied to any package which will degrade or decompose rapidly, and gave as examples meat, produce, plants, or certain chemical samples. See 121.42b. A mailer should apply a perishable marking to any item, including baked goods, if it is perishable.

(7) Recommended that the regulations permit the use of staples for closure. The regulations permit staples and steel stitching under certain conditions. See 121.345 of the regulations.

Some commenters were concerned with insurance rates and individual claims for damaged parcels. These comments were referred to the offices that handle such matters.

Approximately two dozen replies were received from major mailers, including Federal Government agencies, mailers' associations and organizations. The majority of these comments concerned the mandatory closure and reinforcement requirements and the optional container requirements of the guidelines. Of these commenters seven Federal agencies concurred in the proposed rule as written.

Other commenters from these groups made the following comments on specific sections:

One Federal department requested modification of section 121.1 to permit military supplies, prepared in accordance with military and Federal specifications and standards, to be accepted for mailing without regard to postal packaging requirements. In our opinion, this request must be denied because military and Federal specifications and standards often do not conform to Postal Service standards. For example, many military supplies are packed in a manner known as "Level C", which is described as "best commercial practice". However, this "practice" may not meet Postal Service standards. Furthermore, the Postal Service has no control over the content of these specifications.

A supplier of packaging materials mistakenly assumed that sections 121.321 a and b of the Postal Service Manual, which deal with paperboard boxes, were being deleted. Those provisions are being retained without change.

Other comments on container requirements suggested that the Postal Service change the bursting strength in proposed 121.321d(3) from a 295 pound test to 275 and to provide a weight limit of 90 pounds instead of 70 pounds for that grade of box. The figure 295 was a printing error; the correct figure is 275. As to the weight 70 pounds is the maximum weight limit the Postal Service is authorized to transport.

Other commenters suggested a 25 pound weight limit (instead of 20 pounds) for 175 pound test boxes and a 50 pound weight limit (instead of 45 pounds) for 200 pound test boxes in 121.321d. Since the weight limits in the regulations are the weight limits for special requirements under Federal specification PPP-B-636, Boxes, Shipping, Fiberboard, and the Commercial Freight Tariffs on which it is based, the Postal Service will not change them.

Another commenter suggested that the weight limits for paper and plastic bags in 121.323 be replaced by size differentials. All data available to the Postal Service during its packaging study were based on weight rather than size differentials. Packaging specifications are based on weight differentials throughout the packaging industry. The Postal Service cannot disregard the practice of an industry without a good reason. The commenter gave no reason for doing so.

Comments on closure, sealing and reinforcement included a request that polystyrene foam caps be included in the principal methods of closure in section 121.341. There is nothing in that section to preclude use of these specific caps. Accordingly, they may be used.

Three commenters suggested that we eliminate the phrase in section 121.342b "by the use of warm water with a wetting agent", which prescribes how gummed tape must be activated prior to application, and replace it with a test that assumes ade-

quate activation if the tape remains attached to the container during handling and if, during removal, at least 50% fiber tear occurs on the surface to which the tape is applied or if the tape delaminates. The suggestion clarifies the intent of the regulation, and so we have adopted it.

Two commenters suggested that we reword the strength characteristics for nonreinforced plastic tapes in 121.342d. We adopted the suggestion since it would clarify the intent of the regulation to guard against splitting of the tape during handling. We did not, however, adopt a suggestion that Mil-STD-224 become mandatory for tape application, since Mil-STD-224 is not generally available outside of the Federal government.

One commenter offered a complete rewrite of 121.343 on adhesives. The rewrite was adopted as a worthwhile clarification.

Several commenters suggested amendments of the descriptions preceding the first two drawings in illustration 5 on adequate closure. We adopted the suggestions as useful clarifications of the regulation.

Two commenters suggested that we amend 121.345 to increase the allowable spacing of staples from 2½ inches to 5 inches. We accepted the increase to 5 inches for easy and average loads, as the 5 inch spacing is based on industry standards in the Uniform Freight Classification. We believe it necessary, however, to retain the 2½ inch spacing requirement for difficult loads.

The following comments deal with the marking requirements in 121.4. One commenter suggested that 121.41a would be clearer if the Postal Service required that a specific type font or character size be used instead of requiring that markings must be sharp and clear at a distance of 30 inches. We did not adopt this suggestion, because to require use of a specific type font would preclude all other type fonts. The commenter provided no basis for choosing one type font over another, and we know of none.

Section 121.43 provides that if address labels and envelopes are attached to containers, there must be no more than a ⅛ inch separation between the edge of the envelope and the container. A commenter requested that mailings which do not meet this requirement not be rejected unless they cause problems in processing. We intended to deal with non-complying mailings as the commenter suggested. However, we have modified the regulation to make our intentions specific.

There were two comments concerning 121.6b, which permits packages which do not meet the minimum requirements of Part 121 to be accepted in a "test" status. If the test packaging achieves acceptable performance levels, the mailer may continue to use the packaging. One commenter suggested that "test" status should be available also under the guidelines in 121.7. We agree with the commenter and have added a sentence to 121.6b to make it clear that test status is also available for packages mailed under the guidelines. Another commenter requested that the Postal Service publish a statement of uniform standards or criteria for the acceptance of packages in a "test" status to which a mailer could refer in order to determine if his package would be accepted for test. The commenter also requested that acceptable "test" packages be marked so that approved packaging will be uniformly received by each post office. We are unable to publish standards at this time since there are presently no test standards established for the postal handling environment. We expect to develop such standards gradually, based on experience gained with packages admitted to test status. As to marking acceptable packages, the Postal Service does not object to such marking. However, we prefer to delay regulating on this subject until some experience is gained with the test status procedure.

Some commenters suggested that we indicate what parts of the guidelines in 121.7 are optional and what parts are mandatory. We have done that by adding an explanatory sentence at the end of 121.7. They also requested that we guarantee that the optional parts will not become mandatory. Of course, we cannot give a guarantee on the content of regulations. Changing circumstances may make it imperative that guidelines become requirements.

The guidelines on packaging of books were the subject of several comments. Two commenters requested deletion of the reference to shrink wrap in 121.711a, because of its conflict with 121.711c. We agree and have deleted the reference. Another commenter requested a change in the minimum piece size in 121.711a to conform to the dimensions in 121.324a. Since the two dimensions are the same, no change is necessary. A commenter suggested that the ¼ inch thickness requirement in 121.711b and 121.741a not apply to fiberboard boxes, since there is no fiberboard box made that is less than ¼ inch thick. Although all fiberboard boxes are at least ¼ inch thick, a specific exemption for boxes made from this material would confuse rather than clarify the section. One commenter recommended that 121.712b and 121.713b be amended to describe how non-metallic banding must be applied. We amended the sections as suggested. Several commenters suggested that 121.714 and 121.715 be amended to reduce the fiberboard box bursting strength requirements in the 25 to 50 and 50 to 70 pound ranges to 200 and 275 pound

test, respectively, for paperback books. We adopted the suggestion. The requirements for paperback books were inadvertently omitted from the proposal.

Several commenters suggested that the weight limits in 121.321d and 121.72 should be increased for the fiberboard box test strengths specified in those sections. We are unable to follow the suggestion, because the weight limits are the minimum requirements set by commercial freight tariffs for difficult loads and high density items.

Several commenters discussed 121.73, which is concerned with packaging of softgoods. The suggestion that the basis weight requirements be reduced to a point below the minimums specified in 121.323a had to be rejected, since those minimums are mandatory and cannot be changed. Other commenters requested that we delete the guideline in 121.731e to reinforce containers holding softgoods with a density of less than four pounds per cubic foot. We are persuaded by operating experience to retain this guideline. However, mailers should note that it is an optional, not a mandatory guideline. Two commenters suggested that the weight limits in 121.733 through .735 should be increased for the fiberboard box test strengths specified in those sections. We are unable to follow the suggestion, because the weight limits are the minimum requirements set by commercial freight tariffs for difficult loads, such as high density items and softgoods. One commenter suggested a revision of 121.733b to include reinforced paper tape among the materials that may be used for closure of boxes. We believe the suggestion is a good one. It would clarify the intent of that provision. Accordingly, we made the change.

One commenter requested an exemption for the handicapped from the guidelines on sound recordings (121.74). For the most part the guidelines are optional; therefore, no exemption is necessary. In those cases where the guidelines are the same as the mandatory requirements, they must be applied to all mailers equally. One commenter suggested that 121.741a should be amended to permit records in sleeves or shells weighing up to three pounds to be packed in 70 pound basis weight envelopes, instead of outer corrugated fiberboard containers as the proposal provides. We have adopted the suggestion since it is an acceptable commercial practice. Another commenter suggested that 121.741b should be amended to refer to "hot or cold" adhesives instead of merely adhesives as a method of closure. We think the proposed change is unnecessary. The word adhesives includes both hot and cold adhesives as well as any other adhesive that may be devised that is neither hot nor cold.

One commenter suggested that the reference in 121.31 to the National Safe Transit Association Test Standards should be amended to refer to "Procedure Project 1A", since Project 1A deals with packages of 100 pounds or less, and 70 pounds is the maximum weight the Postal Service may carry. We adopted the suggestion.

In view of the considerations discussed above, the Postal Service hereby adopts, as amended, the following revision of the Postal Service Manual:

PART 121—PACKAGING

1. Revise 121.1 to read as follows:

121.1 Packaging adequacy.

Articles accepted for mailing shall be prepared according to the general criteria and regulations specified herein. The Postal Service will accept properly packaged and marked parcels and reserves the right to refuse non-mailable or improperly packaged articles or substances. Other regulations, concerning packaging and mailability, are contained in Part 124 for articles mailable under special rules, Part 126 for overseas military post offices, and Publication 42 for international mail.

2. In 121.2 delete "or fiberboard" from the last sentence of .21c, and revise the last sentence of .21b to read as follows:

121.2 Definitions.

.21 Types of loads.

* * * * *

b. * * * Average loads may be prepackaged by nesting items within partitions or in separate paperboard boxes. This tends to stabilize items to prevent shifting and damage to them and the container.

3. In 121.3 redesignate .321d–f as .321 e–g; strike out the words "six inches" in the last sentence of redesignated .321e and insert "eight inches" in lieu thereof; strike out "illustration 7" in the third sentence of redesignated .321g and insert "illustration 5" in lieu thereof; strike out "4½" in the first sentence of .324a and insert "4¼" in lieu thereof; strike out "illustrations 4, 5, and 6" in the last sentence of .331 and insert "Illustrations 3 and 4" in lieu thereof; revise .31 and .321c, add new .321d, and revise .322, .323, .325, .333, and .34 to read as follows:

121.3 Packaging for mailing.

.31 Preservation.

It is the responsibility of the mailer to provide protection against deterioration or degradation of the contents. Preshipment testing is practiced by the airline carriers and by many company managers to determine the effectiveness of their packaging as well as the durability and the quality of their

product. The mailer should be aware of the characteristics of the item he is mailing, the transit time, and the mail handling and transportation environment. The National Safe Transit Association Test Procedure Project 1A is recommended for customer's evaluation of their packages. Postmasters and customer services representatives will keep customers advised on service and transit times.

.32 Containers acceptable for mailing.

.321 Boxes.

* * * * *

c. Unless otherwise specified, see 121.5 and 126.12, solid and corrugated fiberboard boxes are acceptable for easy and average loads upon to the following weight limits:

(1) 125 pound test board up to 20 pounds.
(2) 175 pound test board up to 40 pounds.
(3) 200 pound test board up to 65 pounds.
(4) 275 pound test board up to 70 pounds.

d. Unless otherwise specified, see 121.5 and 126.12, solid and corrugated fiberboard boxes are acceptable for difficult loads up to the following weight limits:

(1) 175 pound test board up to 20 pounds.
(2) 200 pound test board up to 45 pounds.
(3) 275 pound test board up to 70 pounds.

* * * * *

.322 Outside wraps for boxes.

It is preferable that paper wrappers be omitted if the box itself constitutes an adequate shipping container. However, wrapping paper equivalent to the strength of the average large grocery bag, 60 pound basis weight, may be used as an outside cover for boxes. Closure and reinforcement will be accomplished by use of the tape, see 121.23.

.323 Bags, bales, bundles, and wraps.

Bags, bales, bundles, and wraps shall not be accepted with difficult loads. The contents in bags, bales, bundles and wraps will be compressed whenever possible:

a. Paper bags and wraps are acceptable for easy loads of up to five pounds when they are at least 50 pounds basis weight and the items are immune from impact or pressure damage. A combination of plies adding up to or exceeding 50 pounds basis weight is not acceptable. Reinforced bags or bags with a minimum of 70 pounds basis weight are acceptable for easy and average loads up to 20 pounds. Non-reinforced loose-fill padded bags are not acceptable as exterior containers, except when the exterior ply is at least 60 pounds basis weight.

b. Plastic bags shall, as a minimum, be at least two mil thick polyethylene or equivalent for easy loads up to five pounds and four mil for easy loads up to 10 pounds. Experience indicates that plastic bags, which will stretch and resist puncturing are more durable than most nonreinforced paper bags and provide a high degree of waterproofness. However, the ordinary plastic bag without the above strength characteristics is to be avoided.

ILLUSTRATION 1

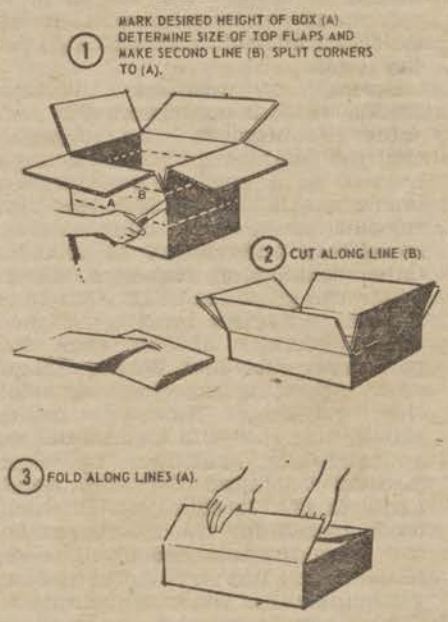

ILLUSTRATION 2

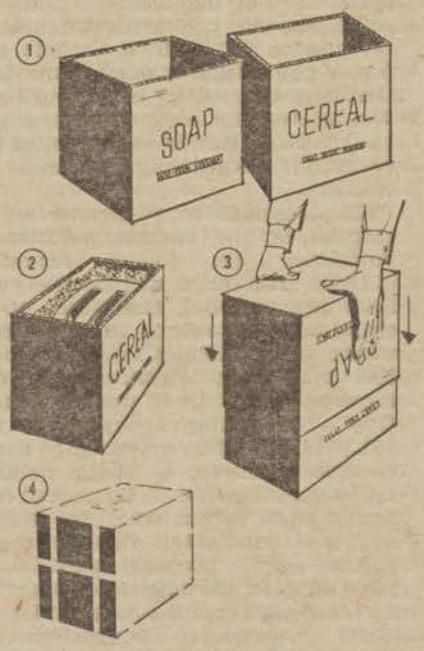

The usual point of fracture is at the taped corners.

c. Cloth bags are acceptable for easy and average loads of up to 10 pounds provided their seams are equivalent in strength to the basic material.

d. Bales and bundles are acceptable within postal weight limits provided they are adequately compressed and reinforced to contain the material.

* * * * *

.325 Fiberboard Tubes and Similar Long Packages.

Fiberboard tubes and similar long packages are acceptable providing their length does not exceed 10 times their girth. As a minimum, the strength of the tube ends must be equal to the tube sidewall strength, except when the contents are light-weight rolled items. In any event, sidewall strength will be equal to solid fiberboard 1/16 inch thick for tubes under 18 inches long, 3/32 inch thick for tubes 18 to 32 inches long, and 5/32 inch thick for tubes over 32 inches long. Crimped or taped end closures are not acceptable for other than lightweight, rolled items. Tape must completely encircle the seams on friction side closures of mailing tubes.

* * * * *

.333 When several items are within a package they must be protected from each other as well as from external forces. Concentrated heavy items must not be packed with fragile items unless extreme care is exercised to separate the items from each other. Heavy items must be adequately stabilized.

ILLUSTRATION 3

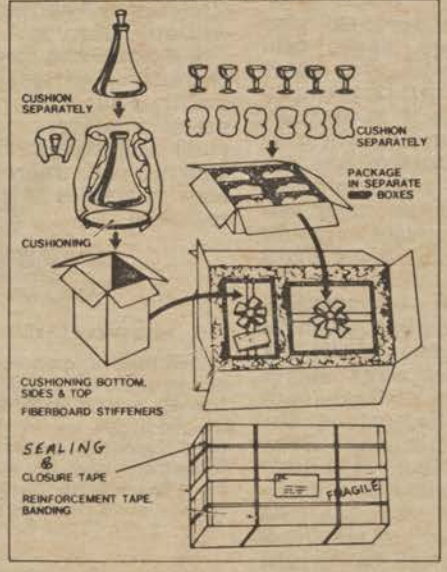

ILLUSTRATION 4

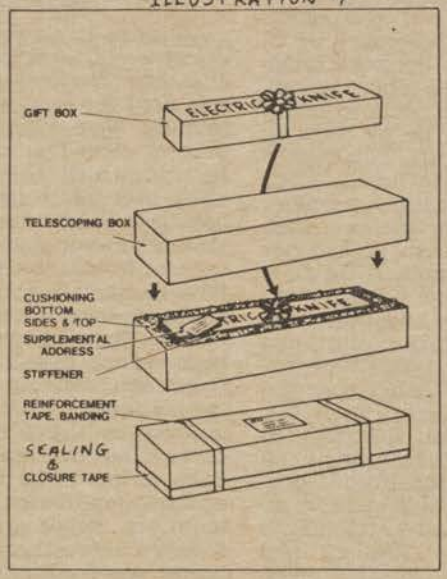


.34 Closure, sealing, and reinforcement.

.341 General.

Closure and reinforcement of packages are primary considerations in the preparation and acceptability of any parcel. The principal methods of closure and reinforcement employ gummed and pressure sensitive tapes, adhesives, strapping, staples for boxes and bags; and various friction closures, screw caps and locking devices for cans and similar containers.

.342 Tape.

a. Tape is used for closure, sealing, and reinforcement of containers. Cellophane and masking tape shall not be used for closure or reinforcement of packages, but may be used to augment adhesive closures on envelopes or to cover staples on bags. Pressure sensitive, filament reinforced tape is recommended for closure and reinforcement.

b. Paper tape must be at least 60 pounds basis weight kraft. This tape is widely used for closure and sealing, but is not adequate for reinforcement. Reinforced kraft paper tape is considerably more durable than plain kraft tape, and take less time and tape for an equal closure. The adhesive on gummed tapes must be adequately activated prior to application and must be firmly applied with the tape extending at least three inches over the adjoining side of the box. Improper application results when the gummed adhesive is not activated or when the water is absorbed by the fibrous container. Adequate activation shall be assumed if the tape remains attached to the container during handling and transportation and if at least 50% fiber tear occurs on the surface to which the tape is applied or if the tape delaminates during removal. The tape must be kept from freezing for at least one hour after application. Special care should be taken when extremely cold temperatures are anticipated. Even properly applied gummed tapes tend to crack under these conditions.

c. Pressure sensitive tapes come with various paper, cloth, or plastic backings, both plain and reinforced, and may be readily applied on a clean surface at any temperature above freezing. Applications, especially in below freezing temperature, requires that the tape be rubbed down well to assure adhesion. Pressure sensitive tape should be used on the container in the same way as gummed tapes.

d. Illustration 5 shows proper methods of applying reinforced paper tapes and reinforced pressure sensitive tapes. Tapes can also be used to close other types of packages not illustrated, including those of irregular shapes and soft wrapped items. Packages properly closed with reinforced tape are substantially stronger than are parcels closed with reinforced paper tape. Except for pressure sensitive filament tape, tapes used for closure and reinforcement shall not be less than two inches wide. Nonreinforced plastic tapes shall be at least as strong in the cross direction as in the machine (long) direction.

.343 Adhesive.

ATTACHMENT I

Adhesive is a general term covering cement, glue, mucilage, paste, cold emulsion, thermal plastic, etc. Adhesive used for closure shall be assumed to have been adequate if at least 50 percent fiber-tear occurs on the surface to which the adhesive was applied. Adhesives used for closure on box flaps or on tapes must remain servicable in temperatures from minus 20 degrees fahrenheit to plus 160 degrees fahrenheit. It is recommended that an adhesive cover at least 50 percent of the box flaps and be applied not more than ¼ inch from the ends of the box flaps. Alternatively, four strips of hot melt adhesive may be used on each portion of the box flap where the outer flap overlays the inner flap. Each strip will be 3/16 inch wide after compression. Strips should be a maximum 1½ inches apart, with the first strip no more than ½ inch from the center seam. All strips will be the full width of the inner flap, or hot melt adhesive should be applied to 25 percent of the area where the outer flap overlays the inner flap.

.344 Banding.

When banding is used for closure and reinforcement, it should encircle the package at least once girthwise and lengthwise over the sides, ends and tops of rectangular containers and bundles. Although it is preferred that twine and cord not be used for closure and reinforcement, if used, they should be at least 20 pounds tensile strength and must be secured at an intersection at least once on each side. Strapping includes both metallic and nonmetallic banding and pressure sensitive filament tape. Loose strapping, especially metal, is not acceptable because it constitutes a hazard to employees and equipment and does not reinforce the container. It is preferred that flat steel strapping have smooth or plastic coated edges.

.345 Staples and steel stitching.

a. Staples and steel stitching are acceptable providing they are spaced not more than 5 inches apart for easy and average loads and 2½ inches apart for difficult loads and not more than 1¼ inches from the ends of the box. Boxes that do not meet these requirements may be made acceptable by application of a strip of three-inch-wide, reinforced, tape in the gap between the staples or by strapping to compensate for the gap in the staple closure. Illustration 6 shows banding augmented staple closures.

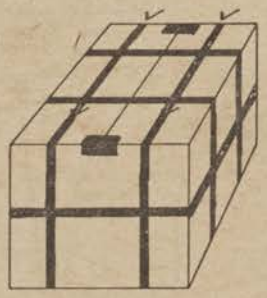
b. Staples and steel stitching are acceptable on envelopes and bags providing they do not present a hazard to postal employees, equipment or other mail. Mailing pieces with improperly clinched or unprotected protruding ends of staples or stitches are not acceptable.

ILLUSTRATION 5

ADEQUATE CLOSURE

PRESSURE SENSITIVE FILAMENT TAPE

This tape is composed of filaments imbedded in pressure sensitive adhesive. It is extremely strong and only short "L" or "C" shaped strips are needed to accomplish effective closure. However, closure and reinforcement may be accomplished by complete banding as illustrated. It is important to tape down the ends of the flaps (↙)



REINFORCED KRAFT PAPER TAPE

This tape is about 3 inches wide and is composed of several laminated layers with filaments running both lengthwise and across. It is extremely break resistant and has excellent adhesive qualities. Reinforced

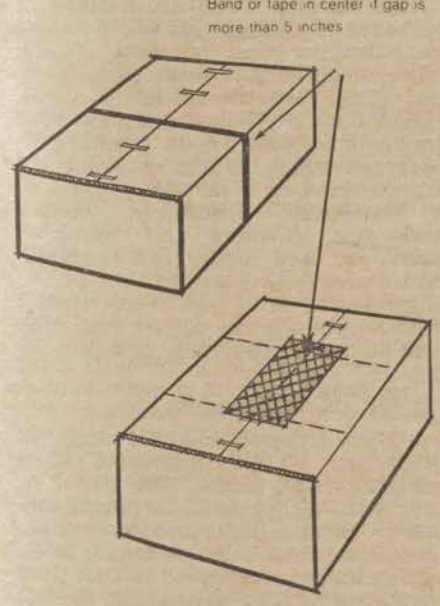
tape is preferred over the plain kraft tape. Equivalent plastic tapes may be used in the same manner.

KRAFT PAPER TAPE

This is a one-thickness tape available in many widths and strengths. It must be correctly applied, both as to positioning and adhesion, and must be graded in use according to the size, shape, and weight of the package. It is not adequate for heavy packages. Of particular importance is the absolute necessity for fully taping down the ends of the package flaps. (✓).

NOTE.—Bursting of corners, especially taped joints, may be a problem for containers under heavy impact.

ILLUSTRATION 6



4. Revise 121.4 to read as follows:

121.4 Marking.

.41 General.

a. Marking by the mailer must be by a material which is not readily water soluble nor which can easily be rubbed off or smeared and will be sharp and clear at a distance of 30 inches. It is recommended that the name and address of the sender and addressee also be inserted within the package to aid in delivery if the address on the package is defaced.

b. Restricted articles shall be marked and labeled in accordance with 124.15.

.42 Special markings.

Special markings as identified shall be placed in an area below the postage and above the name of the addressee:

a. Fragile markings shall only be applied to any package containing delicate items such as glass and electrical appliances. Identification of contents is not required.

b. Perishable markings shall be applied to any package which will degrade or decompose rapidly such as meat, produce, plants, or certain chemical samples.

c. Handling markings, such as Do Not Bend, shall be used only when contents are protected with stiffeners.

d. Words implying expedited handling, such as Rush Do Not Delay, shall not be used on any package except those intended for shipment as special delivery or special handling mail.

e. Unauthorized markings which do not designate the address, nature of contents, or handling are not permitted. Obsolete markings will be obliterated. Containers improperly identified as to contents are not acceptable: e.g., a box marked as containing art supplies which contains flammable liquid. Extraneous information, such as order numbers, which will be confused with ZIP Codes, are not permitted adjacent to or immediately under the last line of the address.

.43 Marking surfaces.

Marking methods or surfaces shall be of such type as to permit postal endorsements to be made by hand stamp, ball point pen, or Number 2 grade pencil. Package surfaces which will not retain an adhesive stamp, postage meter impression, ball point pen or pencil markings are not acceptable. Address labels and particularly envelopes will be firmly sealed to containers with no more than ⅛ inch separation between edges of the envelope and containers. Mailings with labels and envelopes which do not adhere to the ⅛ inch requirement will be rejected if they cause problems in processing.

5. In 121.5 revise .51 and .52 and renumber illustration 9 as illustration 7 and revise to read and appear as follows:

121.5 Mailability.

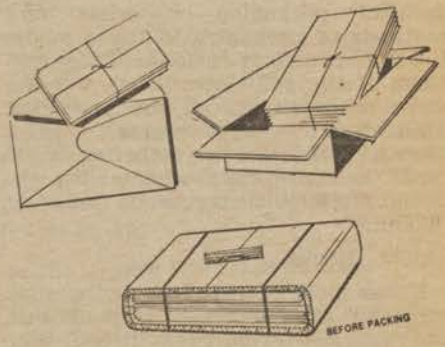
.51 Acceptability.

Acceptability of packaging is a principal criterion of mailability. No item shall be packaged so that its contents may harm personnel or equipment or other mail. Fragile items must be packaged to withstand the mail processing and transportation environment. Heavy items must be braced and cushioned to prevent damage to other mail. Some general classes of items which cause a continuing problem due to packaging deficiencies are described in this section. Further information may be obtained from parcel post window clerks, dock foremen, and mailing requirements personnel. Requests for exceptions to the prohibitions set forth herein shall be submitted for a ruling to the Office of Mail Classification, Rates and Classification Department, U.S. Postal Service, Washington, D.C. 20260.

.52 Stationery.

Stationery-type items constitute a major source of loose-in-the-mail items. Problems occur because of unrestrained, concentrated or shifting contents, and the use of containers, internal packaging, closures and reinforcements which are inadequate. Stationery-type items exceeding one inch in depth or one pound in weight should not be accepted in letter-style envelopes. The contents of these packages must be unitized by tying or banding or through the use of partitions on close fitting interior containers to prevent shifting. Illustration 7 gives several examples of unitizing this type material.

ILLUSTRATION 7



6. Revise 121.6 to read as follows:

121.6 Packaging Improvement Report.

a. When packaging deficiencies are noted after acceptance that are not of such a serious nature as to require refusal for dispatch or removal from the mails, the receiving Postal employee will complete a Packaging Improvement Notice, Form 3823, noting the potential source of loss or damage in accordance with 331.22. When damage occurs as a result of inadequate packaging Form 3823 will be prepared in accordance with 334.723.

b. Packaging which does not meet the minimum requirements of this Part may be allowed in a "test" status. If the test packaging achieves acceptable performance levels, the mailer may continue to use the packaging. Authority to grant "test" status to mailers may be considered by the originating Bulk Mail Center general manager. This decision is subject to an appeal to the Office of Mail Classification, Rates and Classification Department. Requests for interpretations of Postal Service regulations which cannot be resolved by the accepting postmaster. Bulk Mail Center manager, or customer requirements officer, will be referred to the Postal Services Centers. When significant deviations from existing requirements are successful the Office of Mail Classification will be notified. Test status is also available for any of the provisions under 121.7.

7. Add new 121.7 reading as follows:

121.7 Guidelines.

The following guidelines apply to all pieces of any class of mail which will be individually processed in the Bulk Mail System. Those recommended packaging materials and methods of packaging in these guidelines that are identical with mandatory requirements in 121.32-34 and 121.4 are mandatory. Particular attention is directed to the closure and reinforcement regulations in sections 121.34 and marking regulations in 121.4. Other recommended packaging materials and methods of packaging in these guideiines are presently optional. Those sections of the guidelines which are the same as or similar to the preceding mandatory requirements 121.1 through 121.5, use the verbs "shall" or "will" as appropriate, whereas the optional sections use the verbs "may" or "should."

121.71 Books.

Books including catalogs and similar material for purposes of packaging only and not for purposes of mail classification are defined as any item having 24 pages or more, fastened together along one edge between either hardback, paperback, or self covers. These guidelines are designed to assure safe handling of packages which, if the contents are unrestrained or allowed to shift, or if inadequate containers, internal packaging, closures and reinforcement are used, are subject to possible damage.

121.711 *Up to 5 Pounds.*

a. Books exceeding 1 inch in depth or one pound in weight will not be accepted in letter style envelopes, which are defined as those non-gusseted, flat envelopes from 3" x 4½" up to 6⅛" x 11½". Other envelopes, as defined in 121.324b, will be used.

b. Book shipments up to five pounds should be packaged in close fitting paperboard or fiberboard boxes or padded or reinforced bags (exterior ply minimum 60 pounds basis weight) or wraps (corrugated or minimum 60 pounds basis weight paper). The container should be no less than ¼" thick. The contents of paperboard containers should support the package and should not permit a lateral shift of the books of more than ½". A snug fitting container is recommended.

c. Closure should be accomplished by multiple friction closures (e.g., the insertion of more than one flap or tab), completely clinched staples to avoid handling injuries, heat sealing, adhesives, tape or non-metallic banding. Although shrink wrap is not acceptable as the only packaging for hardback books exceeding one pound or one inch in depth, it may be used on the exterior of otherwise acceptable containers. Shrink wrap may be used as the only method of packaging for paperback books up to three pounds. Shrink wrap material should have a coefficient of friction of .025 to .040 on metal surfaces at 20 to 25 degree elevations.

121.712 *From 5 to 10 pounds.*

a. Books in this weight range should be packaged in fiberboard boxes with a minimum of 175 pound test board or equivalent.

b. Closures will be accomplished by the use of tape or non-metallic banding or adhesives. The use of reinforced tape or non-metallic banding is adequate for both closure and reinforcement. Non-metallic banding must be firmly applied to the point that the straps must be tightened until they depress the carton at the edges in order to meet the requirements of this section.

121.713 *From 10 to 25 pounds.*

a. Books in this weight range should be packaged in fiberboard boxes with a minimum of 200 pound test board or equivalent.

b. Closure should be as above in 121.712b for the 5 to 10 pound range, except that the container should be reinforced or banded in the direction which will provide the greatest support with reinforced paper tape, equivalent plastic tape, pressure sensitive filament tape, or firmly applied nonmetallic banding. The use of reinforced tape or non-metallic banding is adequate for closure and reinforcement of these containers. Non-metallic banding must be firmly applied to the point that the straps must be tightened until they depress the carton at the edges in order to meet the requirements of this section.

121.714 *From 25 to 50 pounds.*

a. Books in this weight range should be packaged and closed as above in 121.713b for the 10 to 25 pound range, except that hard-bound books will be packaged in 275 pound test fiber board and paperbacks will be packaged in 200 pound test containers.

b. Outer containers of books should be reinforced at two points to provide the greatest support with reinforced paper or plastic tape, pressure sensitive filament tape, or firmly applied non-metallic banding.

121.715 *From 50 to 70 pounds.*

Hard-bound books in this weight range should be packaged as above in 121.714 for the 25 to 50 pound range, except that they should be packed in fiberboard boxes with a minimum 350 pound test board or equivalent. Paperback books will be packaged in 275 pound test fiberboard boxes.

121.716 *Cushioning.*

Void spaces within multiple book containers will be filled with dunnage or otherwise stabilized to prevent shifting or damage to the contents or container.

121.72 *High density items.*

High density items are defined as packages of solid objects which exceed 15 pounds per cubic foot, such as hardware, machine and auto parts, tools and similar metal or heavy items, except books. These requirements are designed to assure safe handling of packages which, if the contents are unrestrained, or if allowed to shift, or if inadequate containers, internal packaging, closures and reinforcements are used, are subject to significant damage. Articles of this type will be packaged so as not to exert more than 60 pounds per square foot pressure on the smallest side of a container.

121.721 *15 to 20 pounds.*

a. These items should be packaged in fiberboard boxes constructed of a minimum 200 pound test board or equivalent wood, metal or plastic containers. Plastic, metal and similar hard containers should be packaged, treated, or otherwise prepared so that their coefficient of friction or ability to slide on a smooth, hard surface is similar to that of a domestic class of fiberboard box of the same approximate size and weight.

b. Closure should be accomplished by staples, heat shrinking, adhesives or tape.

c. Boxes without inner packing or containing loose material should be reinforced or banded with reinforced paper of plastic tape, pressure sensitive filament tape or firmly applied nonmetallic banding.

d. Internal blocking and bracing, including the use of interior containers, cut forms, partitions, dunnage, and liners, should be used as required so that packages will be capable of maintaining their integrity without damage to the contents if dropped once on one of their smallest sides on a solid surface from a height of 3 feet.

121.722 *From 20 to 45 pounds.*

These items will be packaged, closed and reinforced as above in 121.721, except that reinforcement should be by the use of pressure sensitive filament tape or non-metallic banding.

121.723 *From 45 to 70 pounds.*

These items will be packaged, closed and reinforced as above in 121.722, except that exterior containers will be a minimum of 275 pound test fiberboard or equivalent.

121.73 *Softgoods.*

Softgoods are defined as any textile material, normally associated with wearing apparel, sheets, blankets, pillows and pillow cases, draperies, cloth, dry goods, hats and fabrics, etc. These guidelines are designed to assure safe handling of packages which, if the containers are inadequately closed or cannot withstand puncture, friction, or compression during normal handling operations, are subject to significant damage.

121.731 *Up to 5 pounds.*

a. Softgoods in quantities up to five pounds should be packaged in cloth bags or paper bags or wraps (outer ply minimum 50 pounds basis weight), plastic bags (minimum two mil thick polyethylene or equivalent strength), paperboard or fiberboard boxes. Boxes must be filled to capacity.

b. Paper bags, plastic bags or wraps should be closed or vented in a manner to permit rapid compression of the pack.

c. Closure of bags may be by completely clinched staples, heat sealing, adhesives, sewing or tape. Improperly clinched staples will be removed to prevent injury to handling personnel and other mail.

d. Closure of boxes may be by staples, adhesives, tape, heat shrinking, or non-metallic banding. Paper tape should be applied along all box flaps and closure seams. Equivalent strength plastic tape is also acceptable. Although shrink wrapping is not acceptable as the only means of packaging, it may be used on the exterior of otherwise acceptable boxes.

e. When the density of softgoods is less than four pounds per cubic foot in boxes, they should be reinforced in at least two of the longest directions.

121.732 *From 5 to 10 pounds.*

a. Softgoods in this weight range should be packaged in cloth bags, paper bags or wraps (outer ply minimum 70 pounds basis weight) filament reinforced paper bags, plastic bags (minimum 4 mil thick polyethylene or equivalent strength), or fiberboard boxes.

b. The methods of closure of these containers should be as specified in 121.731c and 121.731d. Reinforced tape is adequate for both closure and reinforcement.

121.733 *From 10 to 20 pounds.*

a. Softgoods in this weight range should be packaged in paper bags or wraps (minimum 70 pounds basis weight paper), reinforced paper bags or cloth bags or fiberboard boxes with a minimum 175 pounds test board or equivalent.

b. Closure of boxes may be by staples, adhesives, reinforced paper tape or equivalent plastic tape, except that the container should be reinforced or banded by the method which will provide the greatest support with pressure sensitive filament tape, or firmly applied non-metallic banding. The use of reinforced tape is adequate for closure and reinforcement of these containers.

121.734 *From 20 to 45 pounds.*

a. Softgoods in this weight range should be packaged as specified for the 10 to 20 pound weight range in 121.733a, except that fiberboard containers will be a minimum of 200 pound test board.

b. Closure should be as specified in 121.733b. Containers should be reinforced at two points to provide the greatest support with reinforced paper or plastic tape, pressure sensitive filament tape, or firmly applied non-metallic banding.

121.735 *From 45 to 70 pounds.*

Softgoods in this weight range should be packaged, closed and reinforced as specified for the 20 to 45 pound range, except that fiberboard containers will be a minimum of 275 pound test board.

121.74 *Sound recordings.*

Sound recordings are defined for purposes of packaging only and not for purposes of mail classification as plastic, nonbreakable disc type records, normally 33⅓, 45, or 78 RPM, as well as magnetic tapes, normally used in home and auto sound reproducing equipment. These guidelines are designed to assure safe handling and reduce breakage and loss of destination markings.

121.741 *Records up to 10 pounds.*

a. Records in paper sleeves, paper board or chipboard shells will be packed in 70 pound basis weight envelopes for weights up to 3 pounds, or outer corrugated, fiberboard containers for weights up to 10 pounds. The containers should be no less than ¼" thick.

b. Closure should be accomplished by the use of adhesives, Kraft paper tape, equivalent plastic tape, or staples.

121.742 *Records from 10 to 20 pounds.*

Multiple shell containers should be closed as above in 121.741b except that the outer container should be reinforced in at least one direction with reinforced paper or plastic tape, pressure sensitive filament tape, or firmly applied non-metallic banding. The use of reinforced tape is adequate for closure and reinforcement of the outer container.

121.743 *Records from 20 to 40 pounds.*

Multiple shell containers will be packaged in 175 pound test fiberboard containers or equivalent and closed and reinforced as above in 121.741b except that the containers should be reinforced at two points with pressure sensitive filament or non-metallic banding to provide the greatest support.

121.744 *Records from 40 to 70 pounds.*

Multiple shell containers up to 65 pounds will be packaged in 200 pound test fiberboard containers or equivalent and closed and reinforced as above in 121.743, except that containers will be reinforced approximately every eight inches around the package. Containers over 65 pounds will be 275 pound test fiberboard or equivalent.

121.75 *Acceptability of magnetic tape.*

Tape cassettes and cartridges are a problem because of inadequate containers for small quantities and failure to provide internal and external reinforcement of large quantities of tapes in a single parcel.

121.751 *Tapes up to five pounds.*

a. Individual tapes may be packaged in plastic film wrap (minimum 0.00075 mil), cushioned bags or cushioned and packaged in paper bags with a minimum basis weight of 60 pounds. Multiple tapes will be packed in outer fiberboard containers or chipboard containers (minimum 0.022 mil).

b. Closure will be accomplished by multiple friction closures, (e.g., the insertion of more than one flap or tab), completely clinched staples, heat shrinking, or adhesives, or by tape. Paper tape must be a minimum of 60 pounds basis weight kraft. Shrink wrapping is acceptable on the exterior of otherwise acceptable boxes of multiple tape shipments.

121.752 *Tapes from 5 to 10 pounds.*

In addition to the guidelines in 121.751, closure will be accomplished only by the use of adhesives, tape or staples.

121.753 *Tapes from 10 to 20 pounds.*

Packaging and closure will be as above in 121.752 for the five to ten pound range, except that the container should be reinforced or banded in a direction which will provide the greatest support with reinforced paper or plastic tape, pressure sensitive filament tape, or firmly applied non-metallic banding. The use of reinforced tape is adequate for closure and reinforcement of these containers.

121.754 *Tapes from 20 to 40 pounds.*

Tapes in this weight range will be packaged in fiberboard boxes of 175 pound test. Closure will be as above in 121.753 for the 10 to 20 pound range, except that the container will be banded or reinforced at two points with reinforced paper or plastic tape, pressure sensitive filament tape, or firmly applied non-metallic banding, to provide the greatest support.

121.755 *Tapes from 40 to 65 pounds.*

Tapes in this weight range up to 65 pounds will be packaged, closed and reinforced as above in 121.754 for the 20 to 40 pound range, except that fiberboard containers of at least 200 pound test board or equivalent will be used. Containers over 65 pounds will be 275 pound test fiberboard or equivalent.

A Post Office Services (Domestic) transmittal letter making these changes in the pages of the Postal Service Manual will be published and will be transmitted to subscribers automatically. These changes will be published in the FEDERAL REGISTER as provided in 39 CFR 111.3.

(39 U.S.C. 401(2).)

ROGER P. CRAIG,
Deputy General Counsel.

Title 41—Public Contracts and Property Management

CHAPTER 101—FEDERAL PROPERTY MANAGEMENT REGULATIONS

[FPMR Amdt. B-39]

PART 101-11—RECORDS MANAGEMENT

Subpart 101-11.5—Microfilming

PROCESSING FILM

AGENCY: National Archives and Records Service, General Services Administration.

ACTION: Final rule.

SUMMARY: The National Archives and Records Service (NARS) conducts hyposulfite tests of film used to make photographic or microphotographic copies of permanent records for Federal agencies to determine whether it meets processing standards described in FPMR 101-11.504-3. This regulation is intended to inform agencies that the current fee charged by NARS for the tests is contained in a GSA FPMR bulletin.

EFFECTIVE DATE: This change is effective February 7, 1978.

FOR FURTHER INFORMATION CONTACT:

James Megronigle, Director, Planning and Analysis Division, Office of the Executive Director, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, 202-523-3214.

Section 101-11.504-3 is revised as follows:

§ 101-11.504-3 Processing film.

The film used to make photographic or microphotographic copies of permanent records shall be processed so that the residual thiosulfate concentration shall be greater than zero but shall not exceed 1 microgram per square centimeter. An optimum concentration of 0.7 micrograms per square centimeter in a clear area is recommended. Agencies conducting their own microfilming program may determine whether their processed film meets this requirement by performing the tests specified in ANSI PH4.8; Methylene Blue Method for Measuring Thiosulfate and the Silver Densitometric Method for Measuring Chemicals in Films, Plates, and Papers; or by submitting a sample for testing from a clear area of the film, measuring at least 2 square inches, to the Office of the Executive Director (NAP), National Archives and Records Service, General Services Administration, Washington, D.C. 20408. A charge will be made for each sample tested. The fee charged for this service is announced in a GSA FPMR bulletin or can be obtained by writing to the above address. COM-produced microfilm of permanent records shall meet the processing standards above. If the processing is to be of the reversal type, it must be full photographic reversal and not the halide-type reversal.

(Sec. 205(c), 63 Stat. 390 (40 U.S.C. 486(c)).

NOTE.—The General Services Administration has determined that this document does not contain a major proposal requiring preparation of an inflation impact statement under Executive Order 11821 and OMB Circular A-107.

Dated: January 23, 1978.

JAY SOLOMON,
Administrator of General Services.

SUBCHAPTER E—SUPPLY AND PROCUREMENT

[FPMR Amdt. E-215]

PART 101-30—FEDERAL CATALOG SYSTEM

Subpart 101-30.7—Item Reduction Program

AGENCY: General Services Administration.

ACTION: Final rule.

SUMMARY: This regulation announces the implementation of a Governmentwide item reduction program. The General Accounting Office concluded in a 1974 report to the Congress that the number of similar items within the Government supply system exists due to the lack of adequate agency guidelines. This amendment takes the necessary action by amending the GSA regulations to include an item reduction program.

EFFECTIVE DATE: February 7, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. John I. Tait, Director, Regulations and Management Control Division, Office of the Executive Director, Federal Supply Service, General Services Administration, Washington, D.C. 20406 (703-557-1914).

SUPPLEMENTARY INFORMATION: Although an item reduction program has existed for several years, the number of items in the Federal supply system has remained relatively constant. This situation was recognized by the Comptroller General of the United States in his October 21, 1974, report to the Congress entitled "Number of Items in Federal Supply Catalog Can Be Reduced," B-146778, which recommended that an adequately defined and coordinated item reduction program be developed.

A subsequent GAO report to the Congress entitled "How the Item Reduction Program of the General Services Administration Could Be More

Effective," LCD-76-459, dated July 11, 1977, acknowledged the actions being taken by GSA in response to the 1974 GAO report, and offered additional recommendations relative to strengthening the item reduction program.

In consonance with a recommendation in the 1974 GAO report, the regulations of GSA are changed to incorporate provisions for a continuing item reduction program as an integral element of the Federal Catalog System and to authorize the issuance of the GSA Handbook, Item Elimination, as follows:

The table of contents for Part 101-30 is amended to add the following entries:

Subpart 101-30.7—Item Reduction Program

Sec.
101-30.700 Scope of subpart.
101-30.701 Definitions.
101-30.701-1 Item reduction study.
101-30.701-2 Item standardization code.
101-30.701-3 Preparing activity.
101-30.701-4 Standardization relationship.
101-30.702 Determining item reduction potential.
101-30.703 Program objectives.
101-30.704 Agency responsibilities.
101-30.704-1 General Services Administration.
101-30.704-2 Other agencies.
101-30.705 GSA assistance.

Subparts 101-30.8—101-30.48 [Reserved]

Subpart 101-30.7 is added to read as follows:

Subpart 101-30.7—Item Reduction Program

§ 101-30.700 Scope of subpart.

This subpart defines the objectives of the item reduction program and assigns responsibilities for its operation. Procedures implementing the policy set forth herein are contained in the GSA Handbook, Item Elimination (FPMR 101-30.7), issued by the Commissioner, Federal Supply Service.

§ 101-30.701 Definitions.

As used in this Subpart 101-30.7, the following terms shall have the meanings set forth in this § 101-30.701.

§ 101-30.701-1 Item reduction study.

"Item reduction study" means the study of a group of generally similar items which are subject to evaluation by physical and performance characteristics. This evaluation process identifies items determined to be unnecessarily similar or uneconomical for Government use and which will be considered for removal from Government supply systems. For items so identified, a replacement item shall be proposed. The result of item reduction studies will indicate items which are authorized for procurement or not authorized for procurement.

§ 101-30.701-2 Item standardization code.

"Item standardization code (ISC)" means a code assigned an item in the supply system which identifies the item as authorized for procurement or not authorized for procurement.

§ 101-30.701-3 Preparing activity.

"Preparing activity" means a Government agency responsible for the preparation of item reduction studies, or an activity authorized by the listed agencies to conduct an item reduction study. The DOD Standardization Directory SD-1 provides such a listing.

§ 101-30.701-4 Standardization relationship.

"Standardization relationship" means the relationship between the replaced item and the replacement item. The replaced item will contain an item standardization code designating the item as not authorized for procurement and therefore must have a replacement item. The relationship of the two items is displayed within the item reduction study by item standardization codes and, upon approval of the study, in the Federal catalog system data base at the Defense Logistics Services Center (DLSC).

§ 101-30.702 Determining item reduction potential.

Item reduction studies are required where there are large numbers of generally similar items which are subject to grouping and examination by item name, item name modifiers, or other characteristics such as sizes, grades, lengths, and materials. Before conducting a full scale item reduction study, the assignee activity shall determine whether sufficient item reduction potential appears to exist. Item reduction studies shall be undertaken only when the expected benefits outwiegh the costs of performing the study.

§ 101-30.703 Program objectives.

The objective of the item reduction program is to reduce the varieties and sizes of similar items in the Government supply system by:

(a) Implementing a coordinated item reduction process among supply managers of using activities;

(b) Standardizing items the Government uses;

(c) Ensuring that all participants in item reduction studies give priority to controlling and completing item reduction studies;

(d) Promptly recording decisions in the Federal catalog system data base; and

(e) Phasing out of the Government supply system those items identified in item reduction studies as not authorized for procurement to reduce cataloging, supply management, and warehousing costs; then following through to eliminate the items from agency catalog systems.

§ 101-30.704 Agency responsibilities.

§ 101-30.704-1 General Services Administration.

(a) The General Services Administration (GSA) will develop or authorize other Government agencies to develop item reduction studies on items within the Federal supply classification (FSC) classes for which GSA is the integrated material manager.

(b) GSA, as the civil agency coordinating activity for item reduction studies originated by both GSA and DOD, will:

(1) Distribute proposed item reduction studies, as appropriate, to all civil agencies recorded as users of the item in the DLSC data base. This distribution will be made by coordination letters in which a time frame for a response will be specified. GSA will interpret each nonresponse to a proposed study to mean that the activity concurs with the study. Extensions, when requested by an agency, will be granted by GSA.

(2) Respond to questions concerning proposed item reduction studies.

(3) Prepare a consolidated civil agency position paper (including comments and nonconcurrences) relative to each study upon receipt of user responses.

(4) Incorporate civil agency positions into proposed item reduction studies prepared by GSA or forward a consolidated civil agency position paper to appropriate preparing activities.

(5) Resolve controversies arising from proposed item reduction study recommendations.

(6) Review approved item reduction studies to ensure that concurrences and nonconcurrences from all civil agencies are accurately reflected.

(7) Register into the Federal catalog system, data base approved item reduction decisions concerning items within the FSC classes which are managed by GSA.

(8) Implement decisions documented in approved item reduction studies within the GSA supply system.

(9) Distribute approved item reduction studies to all recorded civil agency users. All civil agencies (except direct submitters of catalog data to DLSC) will also be forwarded covering letters which will request specific information relative to implementing the studies; i.e., inventory levels of items coded ISC 3. Activities not responding within the time frame specified (60 calendar days) will receive a followup notice before being automatically withdrawn as users of all items coded as not authorized for procurement.

§ 101-30.704-2 Other agencies.

Civil agencies participating in the Federal Catalog System shall:

(a) Conduct a review of the items included in the proposed study by the

preparing activity with respect to the ISC to determine the impact the assigned code may have on the agency's supply system.

(b) Prepare and submit written comments on the proposed study to GSA within the time frame specified in the GSA coordination letter, concur with the study, or nonconcur on specific proposed standardization relationships. If comments cannot be prepared and submitted within the time frame specified, an extension shall be requested from GSA.

(c) Review the approved item reduction study and notify GSA in writing if the activity desires to remain or be deleted as a user of any item coded as not authorized for procurement. Those agencies which are direct submitters of catalog data to DLSC are excluded from the aforementioned requirement. Direct submitters of catalog data to DLSC shall promptly take all necessary cataloging actions resulting from the approved item reduction studies.

(d) Implement within the agency those item reduction decisions resulting from the study.

§ 101-30.705 GSA assistance.

Activities requiring assistance in fulfilling their responsibilities to the program shall contact the General Services Administration (FFL), Washington, D.C. 20406.

Subparts 101-30.8—101-30.48—[Reserved]

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c).)

NOTE.—The General Services Administration has determined that this document does not contain a major proposal requiring preparation of an inflation impact statement under Executive Order 11821 and OMB Circular A-107.

Dated: January 30, 1978.

JAY SOLOMON,
Administrator of General Services.

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 21457; RM-2941]

PART 73—RADIO BROADCAST SERVICES

Changes made in Table of Assignments; FM Broadcast Station in Bridgeport, Tex.

AGENCY: Federal Communications Commission.

ACTION: Report and order.

SUMMARY: Action herein assigns a first Class A FM channel to Bridgeport, Tex. The station will provide a first full-time local aural broadcast service to the community.

EFFECTIVE DATES: March 16, 1978.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Mildred B. Nesterak, Broadcast Bureau, 202-632-7792.

SUPPLEMENTARY INFORMATION:

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Bridgeport, Tex.). Docket No. 21457 RM-2941. Report and order. Proceeding terminated. See 42 FR 57974.

Adopted: January 25, 1978.

Released: January 31, 1978.

1. On October 28, 1977, the Commission adopted a Notice of Proposed Rule Making, 42 FR 57974, proposing the assignment of Channel 244A to Bridgeport, Tex., as its first FM assignment. Petitioner, Wise Media Inc., filed supporting comments reaffirming its intention to immediately make application for the channel, if assigned. No oppositions to the proposal were received.

2. Bridgeport (pop. 3,614), in Wise County, (pop. 19,687)[1], is located in north central Texas approximately 64 kilometers (40 miles) northwest of Fort Worth and approximatly 103 kilometers (64 miles) northwest of Dallas. Bridgeport has no local aural broadcast service.

3. Petitioner states that Bridgeport is the largest incorporated city in Wise County. We are told that its economy involves gas and oil production, stone and gravel production, as well as ranching and farming.

4. We have given careful consideration to the proposal and believe that Channel 244A should be assigned to Bridgeport, Tex. An interest has been shown for its use, and the assignment would provide the community with an opportunity to acquire its first local aural broadcast service which would be in the public interest. Assignment of Channel 244A to Bridgeport can be made in conformity with the minimum distance separation requirements, provided the transmitter site is located approximately 8 kilometers (5 miles) northeast of the community. Operation from such a site, the station would be able to provide the requisite city grade coverage to Bridgeport.

5. Authority for the action taken herein is contained in sections 4(i), 5(d)(1), 303 (g) and (r) and 307(b) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's Rules.

6. In view of the foregoing, *It is ordered*, That effective March 16, 1978, § 73.202(b) of the Commission's Rules, the FM Table of Assignments, as regards Bridgeport, Tex., is amended as follows:

City: Bridgeport, Tex., Channel No. 244A.

7. *It is further ordered*, That this proceeding is terminated.

Secs. 4, 5, 303, 48 Stat., as amended, 1066, 1068, 1082; 47 U.S.C. 154, 155, 303.

FEDERAL COMMUNICATIONS COMMISSION,
WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

[FR Doc. 78-3213 Filed 2-6-78; 8:45 am]

[4310-05]

Title 30—Mineral Resources

CHAPTER VII—OFFICE OF SURFACE MINING RECLAMATION AND ENFORCEMENT, DEPARTMENT OF THE INTERIOR

SURFACE MINING RECLAMATION AND ENFORCEMENT PROVISIONS

Collection, Submission or Retention of Information

AGENCY: Office of Surface Mining Reclamation and Enforcement, Department of the Interior.

ACTION: Final rules.

SUMMARY: These regulations confirm clearance by the General Accounting Office of surface mining reclamation and enforcement regulations requiring collection, submission or retention of information. Filing deadlines for submission of plans for the reconstruction of pre-existing, nonconforming structures and for applications for the small operator exemption are extended to March 1, 1978. In addition, the information to be filed by March 1, 1978, for pre-existing, nonconforming structures has been changed to require a written statement rather than a professionally engineered plan.

EFFECTIVE DATE: February 7, 1978.

ADDRESSES: Director, Office of Surface Mining Reclamation and Enforcement, Department of the Interior, Washington, D.C. 20240, 202-343-4237. Assistant Director, Regulatory Reports review, U.S. General Accounting Office, Room 5033, 441 G Street, NW., Washington, D.C. 20548.

FOR FURTHER INFORMATION CONTACT:

Peter Kelsey, 202-343-2107.

SUPPLEMENTARY INFORMATION: On December 13, 1977, the Secretary of the Interior promulgated regulations at Title 30, Code of Federal Regulations Chapter VII (42 FR 62639-62716) under the Surface Mining Control and Reclamation Act of 1977, Pub. L. 95-87. A number of the regulations requiring collection, submission or re-

tentin of information were adopted subject only to review by the General Accounting Office (GAO) pursuant to 44 U.S.C. 3512. The General Accounting Office solicited public comments on these regulations by public notice in the FEDERAL REGISTER on December 23, 1977 (42 FR 64436). GAO clearance of each of the regulations listed at 42 FR 62675 and 62714 except as noted below and of §§ 715.15(a)(9) and 715.15(b)(12) was given on February 3, 1978. Accordingly, these regulations are effective immediately.

Two of the provisions which were subject to GAO review, §§ 710.11(d)(2)(ii) and 710.12(d), contained filing dates of February 3, 1978. In view of the delayed effective date of these sections required by GAO review and clearance procedures pursuant to 44 U.S.C. 3512, it is necessary to revise the filing dates so as to allow reasonable notice and time for operators to avail themselves of these provisions. Therefore, the deadline for submission of a plan to the regulatory authority for the reconstruction of pre-existing, non-conforming structures is extended to March 1, 1978. Similarly, the deadline for submission of an application to the Director for a special exemption for small operators is extended to March 1, 1978.

As a result of the review process the reporting requirements under § 710.11(d)(2) for pre-existing nonconforming structures are being revised. The revision lessens the reporting burden while maintaining the obligation to provide justification for nonconforming structures which cannot physically be brought into conformance with applicable standards by May 4, 1978.

The reporting requirements contained in 30 CFR § 710.4(b), 710.11(d)(2)(ii), and 710.12(e) have been approved by the U.S. General Accounting Office under number B-190462 (R0493).

The reporting and recordkeeping requirements contained in 30 CFR § 715.11(c), 715.13(d), 715.15(a)(9), 715.15(b)(12), 715.17(j)(3), 715.18(b) (2) and (6), 715.19 (b), (c), (d), and (e)(4) have been approved by the U.S. General Accounting Office under number B-190462 (R0494).

The reporting requirements contained in 30 CFR 716.7(c), (d) and (e) have been approved by the U.S. General Accounting Office under number B-190462 (R0495).

The reporting requirements contained in 30 CFR 717.18(b) (2) and (6) have been approved by the U.S General Accounting Office under Number B-190462 (R0496).

The reporting requirements contained in 30 CFR 718.1(b) have been approved by the U.S. General Accounting Office under number B-190462 (R0497).

The reporting requirements contained in 30 CFR 720.13 have been approved by the U.S. General Accounting Office under number B-190462 (R0498).

The reporting and recordkeeping requirements contained in 30 CFR 725.15, 725.23(a) and 725.24 have been approved by the U.S. General Accounting Office under number B-190462 (R0499).

The reporting and recordkeeping requirements contained in 30 CFR 740.13 (a) and (b), 740.16(e), 740.18, 740.26, and 740.27 have been approved by the U.S. General Accounting Office under number B-190462 (R0500).

The reporting requirements contained in 30 CFR 795.11 (a) and (b), 795.12, 795.14, 795.16, and 795.17 have been approved by the U.S. General Accounting Office under number B-190462 (R0501).

The recordkeeping requirement contained in 30 CFR 837.16 has been approved by the U.S. General Accounting Office under number B-190462 (R0502).

This rulemaking includes amendments to the appropriate parts of 30 CFR Chapter VII to note that GAO clearance has been received as noted above for the identified recordkeeping and reporting requirements.

In keeping with GAO review and clearance procedures, the Office of Surface Mining will amend 30 CFR 715.17(b)(v) and 717.17(b)(v) to make the reporting time period consistent with EPA reporting periods under the NPDES system. The amendment will also provide the option to operators or submitting a copy of the report, or notification of where the report has been filed under NPDES requirements, if the report contains the same information and is filed at the same reporting intervals. This amendment will be published as soon as EPA's written concurrence is obtained as required by section 501(a) of the Surface Mining Control and Reclamation Act of 1977. GAO has indicated it will clear these sections as soon as EPA concurrence of the amendment is received.

The written comments received by the General Accounting Office and a letter responding to the comments from the Director, Office of Surface Mining Reclamation and Enforcement are available for public inspection at the Office of the Assistant Director, Regulatory Reports Review, U.S. General Accounting Office, Room 5106, 441 G Street NW., Washington, D.C. 20548.

DRAFTING INFORMATION

Principal authors of these regulations are William A. Gershuny and Peter B. Kelsey, Office of the Solicitor, Division of Surface Mining.

Dated: February 3, 1978.

WALTER N. HEINE,
Director, Office of Surface Mining Reclamation and Enforcement.

Chapter VII of Title 30 of the Code of Federal Regulations is amended as follows:

PARTS 710, 715, 716, 717, 718, 720, 725, 740, 795, 837 [Amended]

1. 30 CFR §§ 710.4(b), 710.11(d)(2)(ii), 710.12(e), 715.11(c), 715.13(d), 715.15(a)(9), 715.15(b)(12), 715.17(j) (3) and (5), 715.18(b) (2) and (6), 715.19 (b), (c), (d), and (e)(4), 716.7 (c), (d), and (e), 717.18(b) (2) and (6), 718.1(b), 720.13, 725.15, 725.23(a), 725.24, 740.13 (a) and (b), 740.16(e), 740.18, 740.26, 740.27, 795.11 (a) and (b), 795.12 (a) and (b), 795.14, 795.16, 795.17(a) (3) and (b), and 837.16 are effective on (date of publication)

2. In 30 CFR 710.11 paragraph (d)(2) is revised to read as follows:

§ 710.11 Applicability

* * * * *

(d) * * *

(2) Any pre-existing, nonconforming structure or facility which is used in connection with or to facilitate mining after the effective date of these regulations shall comply with the requirements of the regulations, unless—

(i) The permittee submits to the regulatory authority by March 1, 1978, a statement in writing demonstrating that it is physically impossible to bring the structure or facility into compliance by May 4, 1978. The statement shall include the steps to be taken to reconstruct the structure or facility in conformance with applicable performance standards and a schedule for reconstruction including the estimated date of completion;

(ii) The regulatory authority finds in writing that it is physically impossible to bring the structure or facility into compliance by May 4, 1978;

(iii) The construction work is to be performed in accordance with plans designed by a professional engineer; and

(iv) the construction work is to be started and completed as soon as possible and in no event is to be started later than May 4, 1978 and completed later than November 4, 1978.

§ 710.12 [Amended]

3. In 30 CFR 710.12 paragraph (d) is revised to read as follows:

* * * * *

(d) Application for an exemption under this section shall be submitted to the Director of the Office by March 1, 1978 with a copy to the State regulatory authority.

4. Included after § 710.12 in Part 710 is the following note:

NOTE.—The reporting requirements contained in 30 CFR § 710.4(b), 710.11(d)(2)(ii),

and 710.12(e) have been approved by the U.S. General Accounting Office under number B-190462 (R0493).

§ 715.20 [Amended]

5. Included after § 715.20 in Part 715 is the following note:

NOTE.—The reporting and recordkeeping requirements contained in 30 CFR § 715.11(c), 715.13(d), 715.15(a)(9), 715.15(b)(12), 715.17(j)(3), 715.18(b) (2) and (6), 715.19 (b), (c), (d) and (e)(4) have been approved by the U.S. General Accounting Office under number B-190462 (R0494).

§ 716.7 [Amended]

6. Included after § 716.7 in Part 716 is the following note:

NOTE.—The reporting requirements contained in 30 CFR 716.7 (c), (d) and (e) have been approved by the U.S. General Accounting Office under number B-190462 (R0495).

§ 717.20 [Amended]

7. Included after § 717.20 in Part 717 is the following note:

NOTE.—The reporting requirements contained in 30 CFR 717.18(b) (2) and (6) have been approved by the U.S. General Accounting Office under B-190462 (R0496).

§ 718.1 [Amended]

8. Included after § 718.1 in Part 718 is the following note:

NOTE.—The reporting requirements contained in 30 CFR 718.1(b) have been approved by the U.S. General Accounting Office under number B-190462 (R0497).

§ 720.13 [Amended]

9. Included after § 720.13 in Part 720 is the following note:

NOTE.—The reporting requirements contained in 30 CFR 720.13 have been approved by the U.S. General Accounting Office under number B-190462 (R0498).

§ 725.25 [Amended]

10. Included after § 725.25 in Part 725 is the following note:

NOTE.—The reporting and recordkeeping requirements contained in 30 CFR 725.15, 725.23(a) and 725.24 have been approved by the U.S. General Accounting Office under number B-190462 (R0499).

§ 740.28 [Amended]

11. Included after section 740.28 in Part 740 is the following note:

NOTE.—The reporting and recordkeeping requirements contained in 30 CFR 740.13 (a) and (b), 740.16(e), 740.18, 740.26, and 740.27 have been approved by the U.S. General Accounting Office under number B-190462 (R0500)

§ 795.19 [Amended]

12. Included after § 795.19 in Part 795 is the following note:

NOTE.—The reporting requirements contained in 30 CFR 795.11 (a) and (b), 795.12, 795.14, 795.16 and 795.17 have been approved by the U.S. General Accounting Office under number B-190462 (R0501).

§ 837.16 [Amended]

13. Included after § 837.16 in Part 837 is the following note:

NOTE.—The recordkeeping requirement contained in 30 CFR 837.16 has been approved by the U.S. General Accounting Office under number B-190462 (R0502).

(Secs. 201 and 501, Pub. L. 95-87, 91 Stat. 445 (30 U.S.C. 1201).)

[7 CFR Part 730]

1978 RICE PROGRAM

Proposed Determinations Regarding 1978 Crop of Rice Set-Aside Program and Land Diversion Payments

AGENCY: Agricultural Stabilization and Conservation Service, USDA.

ACTION: Proposed Rule.

SUMMARY: Section 101(h) of the Agricultural Act of 1949, as added by section 702 of the Food and Agriculture Act of 1977, provides that the Secretary of Agriculture will make the following determinations with respect to the 1978 crop of rice: Whether there should be a set-aside program and, if so, the extent of such program and whether there should be provisions for land diversion payments and, if so, the extent of such diversion. The Secretary shall provide for a set-aside program if he determines that the total supply of rice will, in the absence of a set-aside, be excessive. The Secretary may make land diversion payments to assist in adjusting the national acreage of rice whether or not a set-aside program is in effect. This notice invites written comments on the proposed determinations.

DATE: Comments must be received on or before March 9, 1978.

ADDRESS: Acting Director, Production Adjustment Division, ASCS, USDA, Room 3630, South Building, P.O. Box 2415, Washington, D.C. 20013.

FOR FURTHER INFORMATION CONTACT:

George H. Schaefer (ASCS), 202-447-8480.

DESCRIPTION OF SUBJECTS AND ISSUES INVOLVED

The following determinations with respect to the 1978 crop of rice are to be made pursuant to the Agricultural Act of 1949, as amended by the Food and Agriculture Act of 1977.

A. *Whether there should be a set-aside program and, if so, the extent of such program.* Section 101(h)(5) of the Agricultural Act of 1949, as amended, provides that the Secretary shall provide for a set-aside of cropland if he determines that the total supply of rice will, in the absence of a set-aside likely be excessive taking into account the need for an adequate carryover to maintain reasonable and stable supplies and prices and to meet a national emergency. If a set-aside is in effect, then as condition of eligibility for loans, purchases, and payments, cooperators on a farm must set aside and devote to conservation uses an acreage of cropland equal to such percentage of the farm acreage allotment as may be specified by the Secretary (but not to exceed 30 percentum of the farm acreage allotment) plus, if required by the Secretary, the acreage of cropland devoted in preceding years to soil-conserving uses, as determined by the Secretary. In addition, under section 1001 of the Food and Agriculture Act of 1977, a cooperator's acreage planted to crops designated by the Secretary in 1978 can be no more than his normal crop acreage less the set-aside.

The Prospective Plantings Report of the Economics, Statistics, and Cooperative Service, USDA, issued on January 20, 1978 indicates that the prospective acreage planted to rice for 1978 will be 2,482,000 acres, a 10 percent increase over the acreage planted to rice in 1977. Plantings at this level would indicate a production of about 115 million hundredweights. Assuming a production variation of about 6 percent, production could range from 108 to 122 million hundredweights. When combined with a 1978 carryover ranging from 22 to 29 million hundredweights, total supply varying from about 130 to 151 million hundredweights is suggested. Utilization of U.S. rice in 1978 could be as high as 117 million hundredweights and as low as 107 million hundred-weights, depending primarily on fluctuation in the level of exports. A combination of the lower supply and higher utilization figures would bring about ending stocks of about 13 million hundredweights; the higher supply and lower usage figures would on the other hand result in ending stocks of 44 million hundredweights.

B. *Whether there should be provisions for land diversion payments and if so, the extent of such diversion payment and the payment therefor.* Section 101(h)(6) of the Agricultural Act of 1949, as amended, provides that the Secretary may make land diversion payments to cooperators whether or not a set-aside for rice is in effect, if he determines that such land diversion payments are necessary to assist in adjusting the total national acreage of rice to desirable goals. Land diversion payments shall be made to cooperators on a farm who devote to approved conservation uses an acreage of cropland on the farm on the basis of land diversion contracts. Amounts payable to cooperators under land diversion contracts may be determined through submission of bids for such contracts by cooperators in such manner as prescribed by the Secretary or through such other means as the Secretary determines appropriate. In determining the acceptability of contract offers, the Secretary shall take into consideration the extent of the diversion to be undertaken by the cooperators and the productivity of the acreage diverted. The Secretary shall limit the total acreage to be diverted under contracts in any county or local community so as not to affect adversely the economy of the county or local community.

Prior to making any of the foregoing determinations, consideration will be given to any data, views and recommendations with regard to these determinations which are submitted in writing to the Acting Director, Production Adjustment Division, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture, Washington, D.C. 20250. In order to be assured of consideration, all submissions must be received by the Acting Director not later than March 9, 1978. All written submissions made pursuant to this notice will be made available for public inspection from 8:15 a.m. to 4:45 p.m., Monday through Friday, in Room 3630, South Building, 14th and Independence Avenue SW., Washington, D.C.

An economic impact statement is being prepared.

Signed at Washington, D.C., on February 1, 1978.

S. N. SMITH,
Acting Administrator, Agricultural Stabilization and Conservation Service.

DEPARTMENT OF THE TREASURY

Comptroller of the Currency

[12 CFR Part 9]

FIDUCIARY POWERS OF NATIONAL BANKS AND COLLECTIVE INVESTMENT FUNDS

Proposed Rulemaking

AGENCY: Comptroller of the Currency.

ACTION: Proposed Amendment.

SUMMARY: This proposed amendment would require that national banks establish uniform procedures and records relating to the handling of securities transactions for trust department accounts and for customers. Similar proposals are being published by the Board of Governors of the Federal Reserve System and the Federal Deposit Insurance Corporation. These proposals in part result from the recommendations of the Final Report on Bank Securities Activities of the Securities and Exchange Commission. Though not included in the proposed amendment, comments are also requested as to the feasibility of regulations which would recognize the duty of banks to obtain best execution of securities transactions and which would establish personnel training and testing requirements. The proposed amendment will provide for proper safeguards intended to permit effective supervision by the banks and by bank supervisors and which are intended to protect the interests of bank customers.

DATE: Written comments must be received on or before March 31, 1978.

ADDRESSES: Comments should be addressed to Mr. Dean E. Miller, Deputy Comptroller for Trust Operations, Office of the Comptroller of the Currency, 490 L'Enfant Plaza, SW., Washington, D.C. 20219.

FOR FURTHER INFORMATION CONTACT:

Mr. Dean E. Miller, Deputy Comptroller for Trust Operations, at the above address or by telephone at 202-447-1731.

SUPPLEMENTARY INFORMATION: On June 30, 1977, the Securities and Exchange Commission published its Final Report on Bank Securities Activities. This report recommended, among other things, that the Federal bank regulatory agencies issue and enforce specific rules and regulations governing the conduct of banks in effecting transactions in securities for their fiduciary accounts and for customers. It further specified that such rules should cover all aspects of this activity, including personnel competency standards, recordkeeping requirements and confirmation requirements. This publication in part results from the recommendations of the SEC Final Report.

An essential element of bank fiduciary activities is the purchase and sale of securities, primarily for accounts under management in the trust department, as well as for other customers. As the size of these activities has increased, the need for improved supervision has also increased to insure that banks perform these activities in accordance with the highest standards necessary to protect the public interest. The Comptroller, therefore, proposes to require national banks to establish and maintain uniform procedures providing for proper safeguards which are intended to permit effective supervision by the banks and by bank supervisors, and which are intended to protect the interests of these bank customers.

This proposed regulation would require specific written procedures for the handling of securities transactions and the maintenance of certain records relating to these transactions. It would require confirmations of all securities transactions, except those in obligations of the United States, of Federal agencies or of States and municipalities, effected for customers and non-discretionary agency accounts, disclosing specific data, including the bank's compensation for effecting the transactions. As to other trust department securities transactions, the proposal would require monthly or quarterly statements of transactions. Bank personnel, who effect securities transactions as part of their employment, would be required to advise the bank, on a regular basis, of securities transactions made by them or on their behalf, either at the bank or elsewhere, in which they have a beneficial interest.

The Comptroller is also considering the desirability of adopting in regulatory form a requirement that a bank must obtain best execution of securities transactions. The SEC, in its Final Report on Bank Securities Activities, recognized that under traditional agency principles, banks like brokers, have a duty to use reasonable care to obtain the best terms available for their customers. However, no specific regulation states this duty in a manner similar to that which is applicable to broker-dealers, and there is some uncertainty as to the degree to which it applies to banks. In addition, no rules have been proposed by the banking agencies under section 28(e) of the Securities Exchange Act of 1934 concerning payment for securities transactions. Accordingly, the views of all interested parties are hereby solicited as to whether the Comptroller should amend Part 9 to provide national banks specific directions and guidance in this area. Commentators might wish to suggest wording or comments on whether regulatory provisions should be enacted and, if so, how specific the regulation should be.

The Comptroller similarly is requesting the views of all interested parties as to possible regulations respecting personnel training and competency requirements. The SEC Final Report recommended that bank employees engaged in purchasing or selling corporate securities for bank customers should be subject to special competency and testing requirements, as are brokerage firm employees engaged in comparable activity. Further, it recommended that banks should be required to adopt specific supervisory procedures regarding these activities. Banks involved only in small transactions might be exempt from competency requirements, but not from requirements regarding knowledge of the Federal securities laws. While the Comptroller presently expects national banks to establish policies and procedures providing for the proper training of bank securities personnel, commentators are requested to advise as to what additional measures are necessary and feasible. In this respect, comments are requested as to: (a) Whether tests should be required; (b) if so, what personnel should be required to take them; (c) if so, by whom should they be administered; (d) whether training programs should be required of banks, without respect to size, and (e) whether specific training programs should be prescribed by regulation.

DRAFTING INFORMATION

The principal drafter of this document is Mr. Dean E. Miller, Deputy Comptroller for Trust Operations.

PROPOSED AMENDMENT

The Comptroller proposes to amend 12 CFR Part 9 by amending § 9.11 as follows:

§ 9.11 Investment of funds held as fiduciary.

* * * * *

(e) Every national bank effecting securities transactions for a customer shall furnish to such customer as to all transactions, except in securities issued and guaranteed by the United States, Federal agency obligations and municipal securities, as defined in section 3(a) (29) of the Securities Exchange Act, written notification disclosing:

(1) The name, address and telephone number of the bank;

(2) The name of the customer;

(3) The capacity in which the bank effected the transactions;

(4) The name of the person from whom the security was purchased, to whom it was sold, or the fact that such

information will be furnished within a reasonable time upon written request of such customer;

(5) The source and amount of any remuneration received or to be received by the bank in connection with the transaction, unless remuneration is determined pursuant to a written agreement otherwise than on a transactional basis.

(6) The amount of any remuneration received or to be received by any broker from such customer in connection with the transaction; and

(7) The date and time of the transaction (or the fact that the time of the transaction will be furnished, within a reasonable time, upon written request of such customer) and the identity, price and number of shares or units (or principal amount in the case of debt securities) of such security purchased or sold by such a customer.

(f) A national bank which effects securities transactions for a customer shall furnish to such customer the written notification described in paragraph (e) of this section, except in securities issued or guaranteed by the United States, Federal agency obligations, or municipal securities, as defined in section 3(a)(29) of the Securities Exchange Act, within 5 business days from the date of the transaction, unless the transaction is effected with respect to:

(1) Accounts, except collective investment funds, for which the bank exercises investment authority, in which instance the bank, within 5 business days after the end of each month in which a transaction occurred, shall furnish a written statement disclosing with respect to each transaction effected during the month the information required in paragraph (e) of this section. This statement shall also include information concerning any dividend or distribution credited to or reinvested for such customer. The bank shall furnish the written statement to the person having power to terminate the account or, if there is no such person, to the ascertained beneficiaries of those accounts or their legal representatives.

(2) A collective investment fund, in which the provisions of § 9.18(b)(5) shall apply.

(3) A periodic plan, in which instance the bank shall furnish the customer within 5 business days after the end of each quarterly period in which a transaction occurred, a written statement disclosing with respect to each transaction effected during the period the information described in paragraph (e) of this section. This statement shall include information concerning any dividend or distribution credited to, or reinvested for each customer. In addition, the bank shall furnish the information described in paragraph (e) of this section upon written request from the customer within 5 business days of receipt as to transactions during the present quarter, and within 15 business days of receipt as to transactions during previous quarters.

(g) For the purposes of paragraphs (e) and (f) of this section:

(1) "Time of transaction" means the time of execution of the customer's order, to the extent feasible;

(2) "Periodic plan" means any written authorization for a bank acting as agent to purchase or sell for a customer a specific security or securities, in specific amounts (calculated in security units or dollars), at specific time intervals and setting forth the commission or charges to be paid by the customer in connection therewith or the manner of calculating them;

(3) "Customer" shall include any person or account for which the bank effects or participates in effecting the purchase or sale of securities, but shall not include a broker, dealer, dealer bank or issuer of the securities which are the subject of the transaction;

(4) "Security" means any interest or instrument commonly known as a "security", whether in the nature of debt or equity, including any stock, bond, note, debenture, evidence of indebtedness or any participation in or right to subscribe to or purchase any of the foregoing. The term "security" does not include (i) a deposit as defined in section 3(*l*) of the Federal Deposit Insurance Act, 12 U.S.C. 1813(1), (ii) a loan participation, (iii) a letter of credit or other form of bank indebtedness incurred in the ordinary course of business, (iv) currency or, (v) any note, draft, bill of exchange, or bankers acceptance which has a maturity at the time of issuance of not exceeding 9 months, exclusive of days of grace, or any renewal thereof the maturity of which is likewise limited.

(5) Copies of all reports required shall be retained by the bank for 3 years.

(h) Every national bank shall maintain the following records with respect to securities transactions for 6 years:

(1) "Blotters" or other records of original entry, containing an itemized daily record of all purchases and sales of securities, all receipts and deliveries of securities (including certificate, bond or note numbers), all receipts and disbursements of cash with respect to transactions in securities and all other debits and credits pertaining to transactions in securities. The records of original entry shall also show the account for which each such transaction was affected, the description of the securities, the unit and aggregate purchase or sale price (if any), the trade date and the name or other designation of the person from whom purchased or received or to whom sold or delivered;

(2) Account records for each customer which shall reflect all purchases and sales of securities, all receipts and deliveries of securities, all receipts and disbursements with respect to transactions in securities for such account, and all other debits and credits pertaining to transactions in securities. Account records of bank employees shall be so designated as to be readily identifiable from those records relating to other customers of the bank but need not be segregated;

(3) A separate record (for example, an order ticket) of each order to purchase or sell securities (whether executed or canceled), which shall include:

(i) The account for which the transaction was effected;

(ii) Whether the transactions was a market order, limit order, or subject to special instructions;

(iii) The time the order was received by the party responsible for effecting the transaction;

(iv) The time the order was executed or canceled;

(v) The price at which the order was executed; and

(vi) The broker/dealer utilized and the market in which the transaction occurred.

(4) A record of all broker/dealers used by the bank to effect securities transactions.

(i) Every national bank shall establish written policies and procedures with respect to securities transactions for customers providing:

(1) Assignment of responsibility for supervision of all officers or employees who trade in securities;

(2) For the fair and equitable allocation of securities and prices to accounts when orders for the same security are received and combined for execution at approximately the same time;

(3) For the crossing of buy and sell orders on a fair and equitable basis to the parties to the transaction;

(4) That bank officers or employees, whose duties include account management or effecting securities transactions for customers, or who supervise such activities, must promptly report to the bank all securities transactions, made by them or in their behalf, either at the bank or elsewhere, in which they have a beneficial interest. These reports must be retained by the bank for 6 years.

(j) In appropriate cases the Comptroller may waive one or more of the requirements set forth in paragraphs (e), (f), (g), (h), and (i) of this section, either in whole or in part.

Dated: December 2, 1977.

JOHN G. HEIMANN,
Comptroller of the Currency.

[6210-01]

FEDERAL RESERVE SYSTEM

[12 CFR Part 208]

[Docket No. R-0142; Reg. H]

CERTAIN SECURITIES TRANSACTIONS EFFECTED BY STATE MEMBER BANKS

Proposed Recordkeeping and Confirmation Requirements

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Proposed rule.

SUMMARY: The Board of Governors of the Federal Reserve System is proposing amendments to its Regulation H (12 CFR Part 208) to require that State member banks that effect certain securities transactions for customers provide confirmations of and maintain records with respect to such transactions. Commentators are also invited to consider whether and to what extent regulations should be promulgated which would (1) expressly recognize the duty of State member banks to obtain the best execution of securities transactions which they effect for customers and (2) establish competency and testing requirements for bank employees engaged in effecting securities transactions for customers. Similar proposals are expected to be published for comment by the Comptroller of the Currency and the Federal Deposit Insurance Corporation.

DATE: Comments must be received on or before March 31, 1978.

ADDRESS: Secretary, Board of Governors of the Federal Reserve System, 20th and Constitution Avenue, NW., Washington, D.C. 20551. All material submitted should be in writing and should refer to Docket No. R-0142. Such materials will be available for public inspection during the regular hours of the Office of the Secretary at the above address.

FOR FURTHER INFORMATION CONTACT:

Robert S. Plotkin, Assistant Director, Division of Banking Supervision and Regulation, Board of Governors of the Federal Reserve System, Washington, D.C. 20551 202-452-2781.

SUPPLEMENTARY INFORMATION: On June 30, 1977, the Securities and Exchange Commission (SEC) published its Final Report on Bank Securities Activities (the Final Report), pursuant to its mandate under Section 11A(e) of the Securities Exchange Act of 1934. The Final Report includes a recommendation to Congress that the federal banking agencies be mandated to issue and enforce specific rules and regulations governing the conduct of banks in effecting transactions in securities for the accounts of others. This recommendation would require that such rules and regulations cover all aspects of this activity, including personnel competency standards, recordkeeping requirements and confirmation requirements. This proposal is responsive, in part, to the recommendations of the SEC Final Report.

An essential element of bank fiduciary activities is the purchase and sale of securities for accounts under management in a trust department, and also for bank customers generally. Because of the growth of these activities, improved supervision is necessary to ensure that banks perform these activities in accordance with the highest standards, in order to protect the public interest. Accordingly, the Board proposes to require State member banks to establish and maintain uniform procedures to facilitate effective supervision by banks and their supervisory personnel and to assist in protecting the interests of these bank customers.

This proposal would require specific written procedures in connection with effecting securities transactions for customers and the maintenance of certain records with respect to such transactions. As proposed, the recordkeeping requirements would apply to all securities transactions by the bank for customers, but the confirmation requirements would not apply to transactions in U.S. Government obligations, federal agency obligations, and obligations of States and municipalities. State member banks that are municipal securities dealers are already required to comply with comparable rules of the Municipal Securities Rulemaking Board with respect to transactions in municipal securities.

Generally, confirmation of securities transactions would be required to be furnished to customers within 5 business days. In the case of accounts for which the bank exercises investment discretion, collective investment funds and periodic plans administered by the bank, monthly, quarterly or annual statements of transactions and certain other information would be required. Further, bank personnel engaged in effecting securities transactions would be required to advise the bank of their personal transactions in securities, wherever effected.

The Board is considering the necessity for regulation in two additional areas address in the SEC Final Report. The Final Report observed that under traditional agency principles banks, like brokers, have a duty to obtain the best terms for their customers. No specific regulation applicable to State member banks articulates this duty in a manner similar to that imposed upon broker/dealers and there is uncertainty as to the degree to which this principle of "best execution" is applicable to banks. The Board would appreciate receiving the views of interested parties as to (a) the need for such a regulation, and (b) the appropriate scope and content of an implementing regulation.

The SEC Final Report also recommended that bank employees engaged in effecting transactions in securities for others be subject to competency and testing requirements regarding securities laws and operations of securities markets, as are brokerage personnel similarly engaged, and that banks to be required to adopt specific supervisory procedures with respect to these activities. The Board believes that its statutory authority to prescribe competency and testing requirements of the magnitude contemplated by the SEC Report is questionable. However, assuming such authority exists, the Board invites comment with respect to (a) the scope and content of competency and testing standards, (b) the scope and content of such regulation, with particular regard to types of personnel who should be subject to competency and testing standards.

1. Pursuant to sections 9 and 11 of the Federal Reserve Act (12 U.S.C. 321, 248 (a) and (l)) and section 8(b)(1) et seq. of the Federal Deposit Insurance Act (12 U.S.C. 1818(b)) the Board proposes to amend Regulation H (12 CFR Part 208) by adding a paragraph (k) to § 208.8 as set forth below:

PART 208—MEMBERSHIP OF STATE BANKING INSTITUTIONS IN THE FEDERAL RESERVE SYSTEM

§ 208.8 Banking practices.

* * * * *

(k) *Recordkeeping and confirmation of certain securities transactions effected by State member banks.* (1) For purposes of this paragraph (k):

(i) "Customer" shall mean any person including any trust, estate, guardianship, committee or other fiduciary account for which a State member bank effects or participates in effecting the purchase or sale of securities, but shall not include a broker, dealer, dealer bank or issuer of the securities which are the subject of the transaction;

(ii) "Time of Transaction" means the time of execution of the customer's order, to the extent feasible;

(iii) "Periodic plan" means any written authorization for a State member bank acting as agent to purchase or sell for a customer a specific security or securities, in specific amounts (calculated in security units or dollars), at specific time intervals and setting forth the commission or charges to be paid by the customer in connection therewith or the manner of calculating them;

(iv) "Collective investment fund" means funds held by a State member bank as fiduciary and, consistent with local law, invested collectively (A) in a common trust fund maintained by such bank exclusively for the collective investment and reinvestment of monies contributed thereto by the bank in its capacity as trustee, executor, administrator, or guardian, or (B) in a fund consisting solely of assets of retirement, pension, profit sharing, stock bonus or similar trusts which are exempt from Federal income taxation under the Internal Revenue Code.

(v) "Security" means any interest or instrument commonly known as a "security," whether in the nature of debt or equity, including any stock, bond, note, debenture, evidence of indebtedness or any participation in or right to subscribe to or purchase any of the foregoing. The term "security" does not include (A) a deposit as defined in Section 3(*l*) of the Federal Deposit Insurance Act, 12 U.S.C. 1813(*l*), (B) a loan participation, (C) a letter of credit or other form of bank indebtedness incurred in the ordinary course of business, (D) currency, or (E) any note, draft, bill of exchange, or bankers acceptance which has a maturity at the time of issuance of not exceeding 9 months, exclusive of days of grace, or any renewal thereof the maturity of which is likewise limited;

(vi) A bank shall be deemed to exercise "investment discretion" with respect to an account if, directly or indirectly, the bank (A) is authorized to determine what securities or other property shall be purchased or sold by or for the account, or (B) makes decisions as to what securities or other property shall be purchased or sold by or for the account even though some other person may have responsibility for such investment decisions.

(2) Every State member bank effecting securities transactions for customers shall maintain the following records with respect to such transactions for 6 years;

(i) "Blotters" or other records of original entry, containing an itemized daily record of all purchases and sales of securities, all receipts and deliveries of securities (including certificate, bond or note number), all receipts and disbursements of cash with respect to transactions in securities and all other debits and credits pertaining to transactions in securities. The records of original entry shall also show the account for which each such transaction was effected, the description of the securities, the unit and aggregate purchase or sale price (if any), the trade date and the name or other designation of the person from whom purchased or received or to whom sold or delivered;

(ii) Account records for each customer which shall reflect all purchases and sales of securities, all receipts and deliveries of securities, and all receipts and disbursements of cash with respect to transactions in securities for such account and all other debits and credits pertaining to transactions in securities. Account records of bank employees shall be so designated as to be readily identifiable from those records relating to other customers of the bank but need not be segregated.

(iii) A separate record (for example, an order ticket) of each order to purchase or sell securities (whether executed or canceled) which shall include:

(*a*) The account for which the transaction was effected;

(*b*) Whether the transaction was a market order, limit order, or subject to special instructions;

(*c*) The time the order was received by the bank employee responsible for effecting the transaction;

(*d*) The time the order was executed or canceled;

(*e*) The price at which the order was executed;

(*f*) The broker/dealer utilized and the market in which the transaction occurred.

(iv) A record of all broker/dealers used by the bank to effect securities transactions.

(3) Every State member bank effecting securities transactions for a customer shall furnish to such customer as to all such transactions, written notification disclosing:

(i) The name, address and telephone number of the bank;

(ii) The name of the customer;

(iii) The capacity in which the bank effected the transaction;

(iv) The name of the person from whom the security was purchased, to whom it was sold, or the fact that such information will be furnished within a reasonable time upon written request of such customer;

(v) The source and amount of any remuneration received or to be received by the bank from the customer or any other source in connection with the transaction, unless remuneration is determined pursuant to a written agreement otherwise than on a transactional basis;

(vi) The amount of any remuneration received or to be received, directly or indirectly, by any broker from such customer in connection with the transaction; and

(vii) The date and time of the transaction (or the fact that the time of the transaction will be furnished, within a reasonable time, upon written request of such customer) and the indentity, price and number of shares or units (or principal amount in the case of debt securities) of such security purchased or sold by such a customer:

Provided, however, That the requirements of this subparagraph (3) shall not be applicable to transactions in (a) securities issued or guaranteed as to principal or interest by the United States: (B) Federal agency obligations; or (C) municipal securities as defined in section 3(a)(29) of the Securities Exchange Act of 1934.

(4) A State member bank which effects securities transactions for a customer shall furnish to such customer the written notification described in subparagraph (3) of this paragraph within 5 business days from the date of the transaction, unless the transaction is effected with respect to:

(i) Accounts, except collective investment funds, for which the bank exercises investment discretion, in which instance the bank, within 5 business days after the end of each month in which a transaction occurred, shall furnish a written statement disclosing with respect to each transaction effected during the month the information required in subparagraph (3) of this paragraph. This statement shall also include information concerning any dividend or distribution credited to or reinvested for such customer. The bank shall furnish the written statement to the person having power to terminate the account or, if there is no such person, to the ascertained beneficiaries of those accounts or their legal representatives.

(ii) A collective investment fund, in which instance the bank shall at least annually furnish the customer a copy of a financial report of the fund, or provide notice that a copy of such report is available and will be furnished upon request, to each person to whom a regular periodic accounting would ordinarily be rendered with respect to each participating account. This report shall be based upon an audit made by independent public accountants or internal auditors responsible only to the board of directors of the bank.

(iii) A periodic plan, in which instance the bank shall furnish the customer within 5 business days after the end of each quarterly period in which a transaction occurred, a written statement disclosing with respect to each transaction affected during the period the information described in subparagraph (3) of this paragraph. This statement shall include information concerning any dividend or distribution credited to, or reinvested for each customer. In addition, the bank shall furnish the information described in subparagraph (3) of this paragraph, upon written request from the customer within 5 business days of receipt as to transactions during the present quarter, and within 15 business days of receipt as to transactions during previous quarters.

(5) Every State member bank effecting securities transactions for customers shall establish written policies and procedures providing:

(i) Assignment of responsibility for supervision of all officers or employees who trade in securities;

(ii) For the fair and equitable allocation of securities and prices to accounts when orders for the same security are received and combined for execution at approximately the same time;

(iii) For the crossing of buy and sell orders on a fair and equitable basis to the parties to the transaction;

(iv) That bank officers or employees whose duties include account management or effecting securities transactions for customers, or who supervise such activities, must promptly report to the bank all securities transactions made by them or in their behalf, either at the bank or elsewhere, in which they have a beneficial interest. These reports must be retained by the bank for 6 years.

(6) A State member bank that is in compliance with rules of the Municipal Securities Rulemaking Board with respect to transactions in municipal securities shall be considered to be in compliance with the requirements of this paragraph (k).

Board of Governors of the Federal Reserve System, January 30, 1978.

THEODORE E. ALLISON,
Secretary of the Board.

[6210-01]

[12 CFR Part 217]

[Reg. Q; Docket No. R-0027]

INTEREST ON DEPOSITS

Automatic Transfers of Savings Deposits

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Proposed rule.

SUMMARY: This proposed rule would permit member banks to arrange with their depositors for the automatic transfer of funds from depositors' savings accounts to their demand deposit (checking) accounts to cover checks drawn by depositors or to replenish depositors' checking accounts. Such transfers are now prohibited by Board regulations. The proposed transfer service rule is entirely voluntary; member banks could not require depositors to accept the service, and automatic transfers could not be made unless previously authorized by the depositor. The proposed automatic transfer service would be available only to individuals and not to business organizations or governmental units. Comments on the proposal may be submitted until March 20, 1978. The proposed amendment is intended to increase the efficiency of the Federal Reserve's check clearing operations and provide depositors with added customer convenience.

DATE: Comments must be received by March 20, 1978.

ADDRESS: Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551. All material submitted should include the Docket Number R-0027.

FOR FURTHER INFORMATION CONTACT:

Allen L. Raiken, Associate General Counsel, Legal Division, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, telephone 202-452-3625.

SUPPLEMENTARY INFORMATION: In March 1976, the Board solicited comments on a proposed amendment to Regulation Q to permit member banks to provide their depositors with the automatic transfer of savings deposits to cover checks drawn by depositors on their demand deposit (checking) accounts or to replenish their demand deposit accounts (41 FR 12039). The Federal Deposit Insurance Corporation proposed a similar amendment to its regulations applicable to federally insured banks that are not members of the Federal Reserve System.

On April 29, 1976, the Board issued a clarification of the proposal indicating that the automatic transfer service would be completely voluntary and that depositors could not be required to obtain the service (41 FR 18523). Similarly, member banks would not be authorized to transfer a depositor's funds from a savings account unless the depositor voluntarily had entered into an agreement previously with the bank specifically authorizing the transfer service. This provision, however, would not affect the ability of a member bank to use a depositor's savings deposit in satisfaction of a debt where the bank is authorized to do so under local law.

The automatic transfer service is intended to increase the efficiency of the Federal Reserve's check clearing operations by reducing the number of return items processed by the System as well as to provide depositors with the convenience of a deposit transfer service that would be available in addition to the telephone and bill payment transfer services that member banks currently are authorized to offer to depositors. This service would provide an alternative to existing procedures where there are insufficient funds in depositors' checking accounts. Generally, if a customer's check is presented to the bank and there are insufficient funds in the customer's checking account the check is returned to the payee with the term "insufficient funds" indicated on the check. As a result, the bank usually charges a fee to the customer when it is necessary to return these checks. As an alternative to returning checks, many banks currently advance funds to customers in accordance with overdraft loan agreements. Under such overdraft loan agreements, depositors usually incur interest charges on the funds advanced.

The Board is of the view that the costs incurred by consumers, banks, merchants, other businessmen, and the Federal Reserve System, because of the existence of return items, can be reduced as a result of the proposed automatic transfer amendment. Because of the special handling procedures required to process customer overdrafts, many banks impose a substantial charge to their customers for checks and drafts that must be returned because of insufficient funds. The existence of return items also has a substantial effect upon the speed and efficiency of the check clearing operations of the Federal Reserve System. As a result, the Federal Reserve System incurs a substantial expense in the handling of returned checks and drafts. The Board's proposed amendment is intended to permit an alternative to the existing practice of returning checks and drafts drawn on insufficient funds. The Board believes that the proposed amendment represents a reasonable accommodation that may be offered by member banks to their depositors in order to reduce the likelihood that depositors' checks will be returned to the presenting parties because of insufficient funds in depositors' checking accounts. It is anticipated that the proposed service would reduce the number of checks that are returned through the check clearing operations of the banking system, thereby resulting in substantial savings for all parties concerned.

This proposed amendment would not affect existing arrangements whereby a thrift institution has agreed with its customer to transfer funds automatically or otherwise to the customer's demand deposit account at a commercial bank in accordance with a preauthorized agreement. Transfers of funds from a thrift institution to a commercial bank would not be subject to the proposed minimum interest penalty forfeiture provision.

In view of the comments received in response to the Board's previous automatic transfer proposal, the Board has modified the proposed amendment and again requests public comment on the proposed automatic transfer service. Under the proposed amendment, member banks could make the proposed transfer service available only to individuals, and not to business organizations, governmental units or other organizations.

The proposed amendment reflects two additional modifications from the proposal originally announced by the Board. The proposal does not require a minimum denomination for funds that may be transferred pursuant to this proposed amendment. As originally proposed, the amendment would have required that transfers be made in multiples of no less than $100. The Board believes that a minimum transfer amount requirement may unduly penalize depositors that may incur overdrafts in amounts less than the required minimum denomination resulting in a transfer from savings of more than the amount needed to cover the check or to replenish the account. The Board believes therefore, that it may be inappropriate to establish a requirement that could result in a transfer of more than the amount necessary to cover the check, especially since member banks would be required to impose an interest penalty as described below. Nothing in the proposal, however, would prohibit a member bank from establishing minimum transfer amounts if they so desired in view of internal bank operational procedures.

The second modification relates to the minimum amount of interest that must be forfeited by the depositor on funds transferred. As originally proposed, a depositor would have been required to forfeit a minimum of 30 days' interest on the funds transferred. Depositors, therefore, would have incurred an interest penalty even if no interest actually had been earned during the previous 30 days on the funds transferred. The Board believes it is unnecessary to require a minimum interest penalty that may result in forfeiture of an amount that is more than the amount of interest actually earned on the funds transferred during the previous 30 day period. Consequently, the amendment proposed by the Board would require a forfeiture of interest in an amount no less than the amount of interest actually earned during the previous 30 days on the funds that are transferred from savings to checking. Public comment also is requested on whether any interest forfeiture should be required.

Interest actually earned during the previous 30 days would include interest that has been accrued but not yet paid (credited to the account or paid to the depositor or other party) as well as interest that had been paid on the funds transferred.

Member banks would continue to be required to reserve the right to impose at least a 30-day notice period on intended withdrawals of savings deposits as presently required in § 217.1(e) of Regulation Q.

Under the terms of the proposed amendment, if in accordance with the bank's usual methods of computing interest, no interest has been earned on the funds on deposit during the previous 30 day period, no interest need be forfeited if funds are transferred automatically to cover checks. Similarly, if the funds transferred had been on deposit for less than 30 days, only the amount of interest earned for the period of time the funds had been on deposit need be forfeited. It is recognized that application of this forfeiture requirement may result in forfeiture of varying amounts of interest based on differences in bank rules regarding computing and calculating interest. For example, a bank's use of the last-in first-out method in determining which deposits are being transferred could alter the minimum penalty amount that must be imposed. The following are examples of how the required penalty provision may be applied:

EXAMPLE 1

Bank pays interest on savings deposits at an annual rate of 5 percent from day of deposit to day of withdrawal. Interest is credited quarterly. Depositor establishes a new savings account and deposits $500 on January 1. On February 28, bank transfers $100 from savings to demand to cover depositor's overdraft. The minimum interest forfeiture required is $0.42, which represents 30 days' interest earned on the funds transferred.

EXAMPLE 2

Same facts as Example 1 except bank transfers $100 on January 15 to cover overdraft. Minimum forfeiture required is $0.21, which represents 15 days' interest earned on the funds transferred.

EXAMPLE 3

Same facts as Example 1 except bank computes interest quarterly, and no interest is paid on funds withdrawn prior to the end of a calendar quarter. No interest forfeiture is required since under the bank's rules no interest was actually earned during the previous 30 days on the funds transferred.

EXAMPLE 4

Bank pays interest at an annual rate of 5 percent from day of deposit to day of withdrawal and uses the last-in, first-out method in computing interest. The depositor deposits $500 into the savings account on January 1 and deposits an additional $100 on February 1. Bank transfers $200 from the depositor's savings account to his checking account to cover overdrafts on February 15. The minimum interest forfeiture required is $0.63 which is determined as follows: Since the $100 deposit of February 1 had only been on deposit for 15 days, the depositor need only forfeit a minimum of $0.21, which represents the actual interest earned on the $100 during the 15 day period it remained on deposit. The depositor is required to forfeit at least $0.42 on the remaining $100 that has been transferred. This amount represents 30 days' interest earned on those funds.

EXAMPLE 5

Same facts as Example 4. However, bank uses first-in, first-out method in computing interest. Under those circumstances, the depositor is required to forfeit minimum interest of $0.84, which is computed as follows: Since the funds transferred are deemed to be those that were deposited first, the depositor actually earned interest on the $200 transferred for the entire 30 days prior to the date of transfer. Consequently, the depositor is required to forfeit a minimum of $0.84, which represents the actual interest earned on the funds transferred during the previous 30-day period.

Member banks would be required to maintain data on fund transfers via the automatic transfer service in a manner that will facilitate data collection by the Board.

To aid in the consideration of this matter by the Board, interested persons are invited to submit relevant data, views, or comments. Any such material should be submitted in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received by March 20, 1978. All material submitted should include the Docket Number R-0027. Such material will be made available for inspection and copying upon request except as provided in § 261.6(a) of the Board's Rules Regarding Availability of Information (12 CFR 261.6(a)).

If, after consideration of the comments received, the Board adopts the proposed amendment, it is anticipated that it would not become effective for a period of at least 60 days following adoption. Public comment is requested on whether a 60 day deferred effective date is sufficient to provide member banks with time to implement operational and marketing procedures necessary to offer the service to depositors.

Pursuant to its authority under section 19 of the Federal Reserve Act (12 U.S.C. 461, 371b), the Board of Governors proposes to amend § 217.5(c) of Regulation Q (12 CFR 217.5(c)) as follows:

§ 217.5 Withdrawal of savings deposits.

* * * * *

(c) *Manner of payment of savings deposits.* * * *

(2) * * * However, withdrawals may be permitted by a member bank to be made automatically from a savings de-

posit that consists of funds deposited to the credit of and in which the entire beneficial interest is held by one or more individuals through payment to the bank itself or through transfer of credit to a demand or other deposit account of the same depositor pursuant to an agreement between a member bank and its depositor that authorizes such payments or transfers in order to cover checks or drafts drawn by the depositor upon the bank; provided, the depositor shall forfeit an amount no less than the amount of interest actually earned during the previous 30 days on the funds withdrawn and transferred from a savings deposit in the manner described. In accordance with § 217.1(e)(2), a member bank must reserve the right to require the depositor to give notice in writing of an intended withdrawal not less than 30 days before such withdrawal is made and may not require a depositor to enter into an agreement providing for such automatic transfer of savings deposits.

* * * * *

By order of the Board of Governors, January 27, 1978.

THEODORE E. ALLISON,
Secretary of the Board.

FEDERAL HOME LOAN BANK BOARD

[12 CFR Part 545]

[No. 78-65]

FEDERAL SAVINGS AND LOAN SYSTEM

Proposed Amendments Regarding Electronic Fund Transfers Through Remote Service Units

FEBRUARY 2, 1978.

AGENCY: Federal Home Loan Bank Board.

ACTION: Proposed rule.

SUMMARY: The Federal Home Loan Bank Board proposes to extend continued operation of remote service units (RSUs) by Federally-chartered savings and loan institutions until June 30, 1978. The Board's present regulations require that all such operations cease on March 31, 1978. This extension of time will allow accountholders to enjoy uninterrupted RSU service while the Board considers proposing new, permanent regulations covering electronic fund transfers. This extension would not permit new applications for RSUs.

COMMENTS MUST BE RECEIVED ON OR BEFORE: February 22, 1978.

ADDRESS: Send comments to the Office of the Secretary, Federal Home Loan Bank Board, 1700 G Street NW., Washington, D.C. 20552. Comments will be available for public inspection at this address.

FOR FURTHER INFORMATION CONTACT:

Harry W. Quillian, Associate General Counsel, Federal Home Loan Bank Board 202-377-6440 at the above address.

SUPPLEMENTARY INFORMATION: The Federal Home Loan Bank Board proposes to amend paragraph (k) of 12 CFR 545.4-2 of the rules and regulations for the Federal Savings and Loan System to extend the expiration date of its experimental remote service unit regulations from March 31, 1978, to June 30, 1978. The Board has postponed issuing permanent regulations so that it might benefit from experience gained in conducting a pilot remote service unit program, and from the research and conclusions of the National Commission on Electronic Fund Transfers. A previous extension (42 FR 61450) of the existing experimental regulation from December 31, 1977 until March 31, 1978, has proved insufficient for completion of work on permanent regulations.

The Board believes that any new remote service unit regulation it may propose should be open to public comment for a reasonable period before final Board action on them. New regulations could not be implemented before the March 31 expiration date of the present temporary § 545.4-2 and still allow time for comment and analysis. In the meantime, the Board believes that the public would best be served by allowing uninterrupted use of existing remote service units, and therefore proposes an additional 3-month extension of the present temporary regulation.

Applications approved under existing § 545.4-2 would be extended to June 30, 1978 without further application. No new applications will be permitted.

Accordingly, the Board hereby proposes to amend paragraph (k) of § 545.4-2 to read as set forth below.

§ 545.4-2 Remote service units (experimental provision).

* * * * *

(k) *Termination.* This section and any approval granted under this section shall automatically terminate at the close of June 30, 1978.

(Sec. 5, 48 Stat. 132, as amended (12 U.S.C. 1464); sec. 2, Pub. L. 93-100, 87 Stat. 342; Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR 1943-48 Comp., 1071.)

By the Federal Home Loan Bank Board.

RONALD A. SNIDER,
Assistant Secretary.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 558]

[Docket No. 77N-0318]

ANIMAL FEEDS CONTAINING PENICILLIN AND TETRACYCLINE

Public Hearings

AGENCY: Food and Drug Administration.

ACTION: Notice of Public Hearings.

SUMMARY: The Commissioner of Food and Drugs announces that public hearings will be held on March 23, 1978 in Ames, Iowa, on March 30, 1978 in Raleigh, N.C., and on April 6, 1978 in Dallas, Tex. to receive information and views from interested persons on the proposed regulations that would (1) limit the distribution of animal feed premixes containing penicillin and tetracycline (chlortetracycline and oxytetracycline) to feed mills that hold approved medicated feed applications which permit the mills to manufacture such medicated feeds and (2) restrict further distribution of such feeds to the order of a licensed veterinarian as part of the record maintenance requirements of the Federal Food, Drug, and Cosmetic Act.

DATES: Public hearings on March 23, 1978, March 30, 1978, and April 6, 1978, at 9 a.m.; written notices of participation by March 8, 1978.

ADDRESS: Written notices of participation to the Hearing Clerk (HFC-20), Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, Md. 20857.

For the addresses of the hearings, see Supplementary Information.

FOR FURTHER INFORMATION CONTACT:

Gerald B. Guest, Bureau of Veterinary Medicine (HFV-101), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-4313.

SUPPLEMENTARY INFORMATION: In the FEDERAL REGISTER of January 20, 1978 (43 FR 3032), the Commissioner of Food and Drugs proposed to limit the distribution of animal feed premixes containing penicillin, chlortetracycline, and oxytetracycline to feed mills holding approved medicated feed applications which permit the mills to manufacture such medicated feeds. He also proposed to restrict the further distribution of such feeds to the order of a licensed veterinarian as part of the record maintenance requirements of the Federal Food, Drug, and Cosmetic Act.

Because of the broad public interest in and concern about the proposed restrictions on the distribution of animal feeds containing penicillin and tetracycline, the Commissioner has determined that, in addition to the 90-day comment period for receipt of written comments provided by the notice of proposed rule making, informal public hearings in accord with the provisions of 21 CFR Part 15 should be held on the proposal in geographic areas where it will have its major impact. The purpose of the informal hearings is to provide an open forum for the presentation of information and views concerning all aspects of the proposal by interested persons, be they consumers, scientists, farmers, feed manufacturers, or representatives of manufacturers of regulated products.

In preparing a final regulation, the Commissioner will consider the administrative record of these hearings along with all other written comments received during the comment period specified in the proposal.

The Ames hearing will be held on March 23, 1978, starting at 9 a.m. in C. Y. Stephens Auditorium, Iowa State Center, Iowa State University, Ames, Iowa 50011. The presiding officer will be Donald Kennedy, Commissioner of Food and Drugs.

The Raleigh hearing will be held on March 30, 1978, starting at 9 a.m. in the McKimmon Center, North Carolina State University, Western Boulevard, Raleigh, N.C. 27607. The presiding officer will be Robert Edler, Deputy Associate Commissioner for Science.

The Dallas hearing will be held on April 6, 1978, starting at 9 a.m. in the Grand Ballroom, Northpark Inn, 9300 North Central Expressway, Dallas, Tex. 75231. The presiding officer will be Sherwin Gardner, Deputy Commissioner of Food and Drugs.

A written notice of participation must be filed pursuant to § 12.45 (21 CFR 12.45) with the Hearing Clerk (HFC-20), Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, Md. 20857 not later than March 8, 1978. The envelope containing the notice of participation, and the notice of participation itself, should be prominently marked "Ames Antibiotics Hearing," or "Raleigh Antibiotics Hearing," or "Dallas Antibiotics Hearing," depending upon the hearing for which the notice of participation is filed. The notice of participation should also contain the Hearing Clerk Docket No. 77N-0318, the name, address, and telephone number of the person desiring to make a statement, along with any business affiliation, a summary of the scope of the presentation and the approximate amount of time requested for the presentation. A schedule for the hearing will be mailed to each person who files a notice of participation; the schedule will also be available from the FDA Hearing Clerk. Individuals and organizations with common interests are urged to consolidate or coordinate their presentations.

In the event that the responses to this notice of hearing are so numerous that insufficient time is available to accommodate the full amount of time requested in the notices of participation received, the Commissioner will allocate the available time among the persons making the oral presentation to be used as they wish. Formal written statements (preferably four copies) may be presented to the presiding officer on the day of the hearing or submitted to the Hearing Clerk by April 20, 1978 for inclusion in the administrative record.

The hearings will be open to the public. Any interested person who files a written notice of participation may be heard with respect to matters relevant to the issues under consideration.

Dated: February 2, 1978.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for Compliance.

DEPARTMENT OF JUSTICE

Parole Commission

[28 CFR Part 2]

PAROLE, RELEASE, SUPERVISION AND RECOMMITMENT OF PRISONERS, YOUTH OFFENDERS AND JUVENILE DELINQUENTS

Soliciting Public Comment

AGENCY: United States Parole Commission.

ACTION: Proposed rule.

SUMMARY: The Commission is soliciting comment from the public on a proposed rule governing appeals before the Commission by prisoners denied parole under the Commission's original jurisdiction procedure. An interim rule appearing in this issue of the FEDERAL REGISTER will be effective pending final adoption. The interim rule provides that appeals must be received at least 30 days in advance of the meeting at which they are to be reviewed in order to permit adequate consideration by the Commission. For the same purpose, the interim rule also contains an advisory requirement that all documents accompanying an appeal be submitted to the Commission at least 2 weeks in advance of the meeting.

DATES: Comments must be received on or before March 10, 1978.

ADDRESSES: Send comments to the United States Parole Commission, 320 First Street, NW., Washington, D.C. 20537, Attention of Office of General Counsel.

FOR FURTHER INFORMATION, CONTACT:

Michael A. Stover, Office of the General Counsel, telephone: 202-724-3092.

SUPPLEMENTARY INFORMATION: The text of the interim rule may be found in this issue of the *Federal Register*, at Document No. 78-3218, appearing in the Rules and Regulations section.

Dated: February 1, 1978.

SUPPLEMENTARY INFORMATION:

Adopted: January 25, 1978.

Released: February 7, 1978.

In the matter of: Amendment of Part 76 of the Commission's rules and regulations to govern importation of radio signals by Cable Television Systems, Docket No. 19418, RM-2528, RM-2575. Report and order—(proceeding terminated).

INTRODUCTION

1. The Commission has before it for disposition three related proceedings. A "Notice of Proposed Rulemaking in Docket 19418" was adpoted on February 2, 1972, to examine the question of whether, and under what conditions, cable television systems should be permitted to carry radio broadcast signals. FCC 72-110, 36 FCC 2d 630. The time for filing comments and reply comments was extended twice, until April 17, 1972 and May 8, 1972 respectively. To date, approximately 80 comments and reply comments have been received and evaluated.[1] Subsequently, on February 28, 1975, the National Association of FM Broadcasters (NAFMB), filed the first-captioned petition for rulemaking, RM-2528, requesting that the Commission adopt rules prohibiting cable television systems from cablecasting aural entertainment programming. This petition for rulemaking is supported by American Broadcasting Cos., Inc. (ABC), and the Rocky Mountain Broadcasters Association (RMBA), and is opposed by a number of other parties, including the National Cable Television Association (NCTA) and the Inter-Collegiate Broadcasting System (IBS). The second petition for rulemaking, RM-2575, was submitted by the National Association of Broadcasters (NAB) on July 18, 1975. NAB requests that the Commission adopt a rule requiring that cable television systems cablecasting aural programming, and providing it to subscribers by a direct input to the subscribers' radio receiver, also carry the signals of all local stations whose reception would otherwise be precluded and provide these to subscribers by the same direct input. NCTA opposes this petition for rulemaking.

BACKGROUND OF DOCKET 19418

2. The Commission first recognized in 1965[2] that cable television system carriage of radio broadcast signals might raise some of the same issues that were presented by the carriage of television broadcast signals. However, while the issues were theoretically similar, little evidence of abuse or adverse economic impact surfaced in the area of radio signal carriage.[3] In 1972, the issue was raised again by the inclusion of the following language in the "Consensus Agreement" which preceded the "Cable Television Report and Order":[4]

> When a CATV system carries a signal from an AM or FM radio broadcast station licensed to a community beyond a 35 mile radius of the system, it must, on request, carry the signals of all local AM or FM stations respectively.

3. The Rocky Mountain Broadcasters Association, concerned with what it felt was a serious lack of regulation regarding the carriage of radio signals, in April of 1971 filed a "Petition for Institution of Rule Making Barring or Restricting Importation of Non-Local Radio Station Signals by CATV Systems." The Petition asserted that the Commission's recognition of the potential for significant television audience fragmentation through unrestricted importation of distant television signals should be expanded to include importation of distant radio signals. Petitioner argued that the importation of distant radio signals by cable television systems has the potential, absent some restrictions, to erode the advertising revenue base and future revenue potential of radio stations to an extent which could make it virtually impossible for small radio stations to conduct economically viable radio service. This in turn, Petitioner asserted, would adversely affect the ability of the small market stations to continue serving the public due to forced cutbacks in programming and would cause the probable demise of many small market stations.

---

[1] Comments from KMAM (AM)/KMOE (FM) and supplemental comments from NAB received subsequent to the filing deadline will also be included in our consideration. See 37 FR 7108, April 8, 1972.

[2] Paragraph 63 of the Notice of Inquiry and Notice of Proposed Rule Making in Docket No. 15971, 1 FCC 2d 453 (1965) stated:

> It has been brought to our attention that a standard broadcast or FM radio station might face serious audience fractionalization if a CATV system were to bring a number of competing aural signals to its subscribers. Accordingly, comments are requested as to whether any serious problem exists, or is likely to exist, in this area and, if so, the nature of any regulatory measures which might be appropriate to govern the distribution of aural signals by CATV.

[3] The issue has received some limited *ad hoc* consideration. In one instance, involving a cross-ownership question and the alleged preferential carriage of one radio station for anti-competitive purposes, the matter was set for hearing. John M. Spottswood, 30 FCC 2d 943 (1971), 58 FCC 2d 155 (1975).

[4] The Consensus Agreement is found as Appendix D to the Cable Television Report and Order, 36 FCC 2d 143, 284 (1972). Its origin and significance are described in paragraphs 61-67 of the Cable Report. See also Memorandum Opinion and Order in RM-2488 and RM-2537, FCC 76-1071, 62 FCC 2d 192 (1976) (discussing proposals for rule changes relating to the "Consensus Agreement.")

4. In response to the foregoing matters related to cable carriage of radio signals the "Notice of Proposed Rulemaking in Docket 19418" was issued concurrent with the adoption of the "Cable Television Report and Order". Because of a concern with difficulties in removing signals once carried, interim processing measures were adopted in the "Notice". Pursuant to these measures, the Commission indicated that it would not process a certificate of compliance application if it appeared therefrom that the cable system was going to import a radio signal from more than 75 miles: (1) Into a community having both a licensed radio station and a population of 50,000 or less, or (2) into any community unless all radio stations of the same type (AM or FM) licensed to the cable community were also carried. These interim measures were intended to balance the existing and expected impact of the carriage of distant signals until data and comments filed in this proceeding could be evaluated in order to set forth a rule which accurately resolved the issues involved. The Commission there stated that it was seeking comments upon the interim measures, upon the definition of the term "local signal," upon the question of grandfathering, and upon the appropriateness of a radio leapfrog policy. Additionally, the Commission noted its consideration of the desirability of devising importation policies premised either upon the size of the market involved, or the type of signals imported.

COMMENTS

COMMENTS IN DOCKET 19418

5. The great majority of the comments filed in response to the Notice of Proposed Rulemaking were only one, two, or three pages long and reflected, without significant elaboration, the following debate: by radio broadcasters and their trade associations—if additional radio signals are imported, the audience of each local station will most certainly decrease, revenues will decrease, and service to the public will be lost; by cable television system operators and their trade association—stifling of the carriage of radio signals by CATV will simply deprive subscribers of listening diversity and the ability to have clear reception over the receiver; cable radio carriage has had no significant impact on local radio service and has no potential for impact; those systems carrying radio signals deliver them to a small percentage of their subscribers only; and there is no evidence of existing or potential injury that would warrant restricting the carriage of radio signals.

6. Although most of the comments concentrated on urging either that radio and aural programming, and particularly distant signal programming, be severely restricted or that rules were not needed in this area, a number of other more specific proposals were given some attention. Here again, however, most of the suggestions were without significant elaboration. Among the specific suggestions or comments were the following:

A system carrying a radio signal should be required to carry all local signals. Among the suggested definitions of local were: 30-35 miles (Blackstone Broadcasting), for class IV AM and class A FM stations 15 miles, for all other stations 25 miles (American Broadcasting Co's), all stations licensed to the community in which the system operates (KXLO Broadcasting, Inc., LVO Cable, Inc., Hopkinsville Broadcasting, Athena et al., National Cable Television Association, Community Broadcasters Association, Inc.), stations picked up by the cable system's local antenna (Gateway Broadcasting Co.), 35 miles (Green Bay Broadcasting, Joliet Radio Corp.), only those listing the community in which the cable system operates as one of the communities to be served when applying for an FCC license (Huachuca Broadcasting Co.), 5m/vm but in no event less than 2 mv/m (Itasca Broadcasting Co., Greater New York Media, Inc.), 1 mv/m contour for FM stations (Johnny Appleseed Broadcasting Co., Pacific FM, Inc.), 1 mv/m or greater placed throughout the principle community of the CATV system (KOKX, Inc.).

Radio stations may be even more vulnerable to cable competition than television stations. In 1970 some 35 percent of radio stations reported losses. 70 percent of FM stations showed losses. (ABC).

No radio stations should be microwaved in that the local cable system's antenna cannot ordinarily pick up off-the-air. (Gateway Broadcasting Co.).

A restrictive leapfrog policy is appropriate for radio carriage on cable systems. (KOXK, Inc.).

Cable systems wishing to carry radio stations should first file an application with the FCC to do so. (SWANCO Broadcasting, Inc.).

The Commission should consider permitting the importation of distant signals of specialized format such as ethnic, all news, religious or classical programming where there is no local station of comparable format. (Wood Broadcasting, Inc.).

If rules are adopted, an exemption should be included which will permit cable system carriage of foreign language and foreign broadcast stations. (Cypress Communications Corp.).

No one can object if the cable system adds something different, such as educational stations, because this is in the public interest. (Itasca Broadcasting).

Background music service over CATV is wholly appropriate (KOKX, Inc.).

Any cable system which carries radio signals, whether voluntarily or by reason of Commission requirement, should be required to carry a representative proportion of local noncommercial radio signals. (Corporation for Public Broadcasting).

If the cable is not likely to improve coverage for local stations, both the stations and the subscribers would benefit if the local stations are not carried. In this case, the system should be required to furnish a switch to permit off air FM reception. (Western Broadcast Services).

Require all FM stations which are carried to be carried on their assigned frequencies within the 88 to 108 MHz band to the extent possible. (Pacific FM).

Cable system aural originations should not be permitted within the 88 to 108 MHz band and should not be made available to subscribers through FM radio receivers. (Johnny Appleseed Broadcasting Co.)

Technical standards to insure adequate reception of radio signals should be required. (Pacific FM, Inc., Peer Broadcasting, Western Broadcast Services.) Technical standards should be adopted as follows:

(1) Separate receiving and processing equipment with appropriate automatic and manual level adjustment for each received channel;

(2) Requirements that signals be amplified and retransmitted as received or in a frequency translated position rather than demodulated and remodulated as is now the practice on some systems;

(3) 400 kHz separation between channels if carrier frequencies are converted from original FCC assignments;

(4) Conversion of carriers between 88 and 92 MHz to avoid any possibility of interference with television channel 6;

(5) systems designed to provide monophonic or sterophonic reception free from objectionable beats or other types of interference, with precautions taken to avoid phase and nonlinear distortions which would be detrimental to FM, particularly stereo quality. (Corporation for Public Broadcasting.)

Cable systems should not be permitted to locate their antennae in the null or non-reception area of local stations. (Pleasant Broadcasters.)

(1) Limit the number of non-local radio signals which a CATV system may carry after it carries all local radio stations; (2) afford duplication protection, on a priority basis, to the network programming of local radio stations; (3) prevent the use of grandfathering arguments by CATV systems as a means of avoiding the applicability of the carriage rules suggested by Rust Craft to existing carriage situations; (4) require CATV systems to obtain a certificate of compliance before carrying the signal of any radio station; (5) impose logging, reporting, and public file requirements at least comparable in scope to those adopted with respect to the carriage of television stations by CATV systems; (6) insure diversification of ownership of CATV systems by those owning or having an interest in radio stations; (7) require that CATV systems carrying the signal of any radio station be owned only by American citizens. (Rust Craft Broadcasting.)

7. Among the more extensive comments were those filed by American Broadcasting Co. ABC's filing clearly sets forth some of the many difficulties of regulating in this area, as follows:

In attempting to fashion a comprehensive approach for regulating CATV carriage of radio signals, the Commission is confronted with a far more intricate structure of broadcast station allocations than is true in the television service. For one thing, the technical operating characteristics of both AM and FM stations differ widely. AM stations vary from 50 kw clear channel stations to 250-watt daytime operations; FM stations from 100 kw Class C operations to low power Class A facilities. More than one-fourth of the total number of existing AM

stations are daytime-only; probably most full-time stations operate with more power day than night; nearly half the full-time stations licensed operate with varying types of directional antenna arrays at night; and in many instances, directional AM operations in multiple station markets—day or night—broadcast signals of an entirely different configuration than other stations in the community. Hence, the ability to formulate a simple, single standard for determining what radio stations are to be carried during what hours in what geographic areas is immeasurably more compex than comparable questions vis-a-vis the television service.

A second complicating element in formulating general rules in this area—particularly in determining what radio signals will be considered "local"—is the fact that, unlike the case of television stations, there is a wide disparity in the nature of service which the various classifications of radio stations are intended to provide. Under the Commission's rules, clear channel AM stations are intended to "render service over wide areas" (§ 73.12(a)); regional stations are "designed to render service primarily to a principal center of population and the rural area contiguous thereto" (§ 73.21(b)(1)); and local channel Class IV stations are "to render service primarily to a city or town and the suburban and rural areas contiguous thereto" (§ 73.21(c)(1)). In the FM service, Class C stations are "designed to render service to a community, city or town and large surrounding area" (§ 73.206(b)(4)); Class B facilities are intended "to render service to a sizeable community, city or town or to the principal city or cities of an urbanized area, and to the surrounding area" (§ 73.206(b)(2)); and Class A stations are "designed to render service to a relatively small community, city or town and the surrounding rural area" (§ 73.206(a)(2)).

8. NAB filed supplemental comments in July and December, 1976. Its brief July comment consisted mainly of a resolution adopted by its Radio Board of Directors, urging that cable systems having subscribers in the community of license of any standard AM or FM station should carry all the local AM or FM licensees if a distant station of the same class were carried. No definitions of "local" or "distant" stations were suggested. In its December filing NAB proposed instead that systems located within specified signal strength contours of AM or FM stations[5] not be permitted to carry any distant radio signals at all. NAB submitted the results of a survey taken in December 1975 as supportive of its proposal. The survey, sent to a approximately 700 radio broadcasters in areas of high cable penetration, is designed to show cable systems' practices in carrying local and distant signals and in cablecasting radio programming, and to highlight trends and make recommendations in light of these practices. NCTA replied to the December filing, questioning the sufficiency of the survey to show that cable systems' carriage of radio signals—regardless of how it is being done—has caused any harm at all to radio broadcasters.

[5]The specified contours were 0.5 mv/m contour for AM stations and 1 mv/m contour for FM stations.

COMMENTS ON RULEMAKING PETITIONS

9. The crux of the rulemaking petitions filed by NAFMB and NAB is that cable television systems possess an inherent and unfair advantage over radio broadcasters when they cablecast radio programming.[6] This advantage is, according to the proponents, the minimal cost involved in cablecasting radio programming as compared to broadcasting radio programming. The competitive edge it engenders is seen to be so great that permanent injury to local radio stations, particularly local FM stations, is perceived to be likely absent Commission intervention. The proponents would take different steps to deal with this danger. NAFMB recommends a total prohibition on cable television systems' cablecasting aural entertainment programming. Although conceding that "the number of cable radio operations today is not large" and that NAFMB is "most optimistic that FM is rapidly developing into a strong and thoroughly viable medium," NAFMB asserts that "the potential for economic impact on broadcasting in and of itself warrants commission consideration and action at this time." To support this thesis, NAFMB lists Commission regulations—minimum schedule of operation, cross-ownership, staff maintenance, technical requirements, and so forth—that radio broadcasters must observe and that radio cablecasters need not. The resulting vastly reduced costs of radio cablecasting enable radio cablecasters to set advertising rates 75 to 85 percent lower than radio broadcasters. NAFMB cites the practice of one cablecast radio programmer in Los Angeles as indicative of this unfair and potentially threatening advantage in that it can choose hours of operation and operate inexpensively absent technical standards. Moreover, NAFMB asserts that the policy considerations underlying the Commission's commitment to cablecasting in general—the advancement of program diversity and the opening of new outlets for local expression—do not apply to radio entertainment cablecasting, because FM stations in fact serve many small communities and thus perform these functions. To support its allegations of feared competitive impact, NAFMB submits the results of a survey it took of approximately 2,500 of its members: Of those responding that cable television systems in their markets were providing cablecast radio programming, 50 percent indicated concern over the potential detrimental effect. Thus, NAFMB concludes that allowing cable television systems to cablecast audio entertainment programming represents a potentially serious economic threat to the FM broadcast medium, circumvents Commission policy, and is at cross-purposes with the Commission's statutory mandate, under Section 303 of the Communications Act, to "encourage the larger and more effective use of radio in the public interest." ABC and the Rocky Mountain Broadcaster's Association generally support NAFMB's petition for rulemaking.

[6]Cablecast programming includes origination programming, which is either produced or controlled by the system operator, and access programming, which is produced and controlled by some other party.

10. In its petition for rulemaking, NAB particularly emphasizes the view that cable television systems exercise a natural monopoly in supplying radio signals to their subscribers, and therefore that "the basic issue here is whether cable will be permitted to exploit its unique, monopoly position to foreclose competition from another program source." NAB largely restates NAFMB's arguments as to the competitive edge radio cablecasting enjoys over radio broadcasting because of reduced operating costs, but sees the crucial factor rendering regulation necessary to be that, once a cable radio subscriber is connected to the system, "the cable operator or channel lessee gains exclusive access to the subscriber's receiver * * * cable subscribers who elect to hook up to the cable aural program channel will be deprived of access to all over-the-air radio stations which they previously have been able to receive." This is due to the fact that a cable television system carries all radio programming in the FM band and provides it to subscribers by direct connection to an FM receiver. Thus, the system's drop wire replaces the subscriber's FM antenna. To cure this problem, NAB proposes that any cable television system that provides aural cablecast programming by direct input to subscribers' radio receivers also be required to provide by the same input those local signals whose carriage would otherwise be precluded. NAB would define a "local" radio signal as any radio station placing a city-grade contour over all or part of the community of the cable system. In practical effect, the proposed rule would require systems cablecasting radio programming to carry only city-grade FM signals because a subscriber's AM reception is not affected by connection to the system. NAB avers that compliance with the proposed rule, besides being necessary, is easily achievable: Systems can use broadband signal processing, by which means all FM signals receivable off-air would be carried, or they can use sepa-

rate antennas for picking up selected signals for carriage, or they can provide subscribers with switches with which to select either cable-input signals or off-air signals. Alternatively, NAB notes that systems could avoid complying with the rule entirely by using low-power radio frequency (RF) transmitters to provide radio cablecast programming only to subscribers.

11. A number of parties oppose the petitions for rulemaking. RVS Cablevision interposes a procedural objection to NAFMB's petition, arguing that it simply reiterates issues raised previously and should therefore be dismissed. NCTA advances substantive objections to both petitions. In answer to the argument that the more extensive regulation to which FM radio broadcasters are subject places them at a grave competitive disadvantage with radio cablecasting, NCTA points out that the difference in regulation merely reflects that two different transmission media are used. Whereas cablecast radio programming occupies one of a number of channels available for similar programming and is supplied only to those who want the service, NCTA states, FM broadcast stations use spectrum space, a finite resource, and therefore are obligated to operate so as to best serve the general public interest, thus necessitating more pervasive regulation. In any event, NCTA argues, these regulatory differences can hardly be relied upon as sufficient justification for prohibiting one service in favor of another. As to the purported competitive edge this regulatory difference creates, allowing the sale of advertising time by radio cablecasters at cheaper rates, NCTA and RVS Cablevision argue that NAFMB is in error. These parties state that the reason advertising rates for cable radio are lower is due to the fact that advertisers know that cable radio delivers only a very small audience in comparison with that of FM broadcast stations. The Intercollegiate Broadcasting System (IBS) and the National Citizens Committee for Broadcasting, National Black Media Coalition, Philadelphia Community Cable Coalition, and Citizens for Cable Awareness in Pennsylvania, commenting jointly (NCCB et al.), generally concur. IBS, NCCB et al., and the Boston Committee for Community Access argue that, precisely because of its low costs, cable radio is uniquely able to offer programs for specialized audiences that are not otherwise served by broadcast radio, which must offer programming of more general appeal. As such, cable radio constitutes an ideal medium for developing program diversity and encouraging new program producers, and therefore should be fostered rather than abolished. In response to NAB's petition, NCTA catalogues other recent developments in radio cablecasting which it attributes directly to the feasibility of offering a greater variety of program choices at a low incremental cost: These include on-the-spot radio cablecasting, improved fidelity in cablecast music, simulcasting of high-fidelity live concert music in conjunction with video cablecasting of the performance, and all-day weather information. NCTA maintains that compliance with the proposed rule could prove impossible, particularly in large markets, thus accomplishing by indirection what NAFMB seeks directly in its petition. Nor is this drastic result warranted, NCTA contends, on the grounds of eliminating a supposed stranglehold of cable over subscribers' access to local FM stations: in small markets, systems usually carry these signals as a matter of good business judgment, and in large markets over 75 percent of cable homes have more than one FM receiver, and this number is growing. Thus, NCTA states that, as a practical matter, no anticompetitive "bottleneck" of radio signals can be said to exist.

Discussion

Carriage of radio broadcast signals

12. In attempting to decide whether any rules should be adopted to govern cable carriage of radio broadcast signals, we must be able to define those situations or sets of circumstances in which the public interest would require that cable television systems carry certain radio signals, and, also, those situations wherein the carriage of certain radio signals should be prohibited. To do this, we must weigh a number of interrelated factors, including the different types and classes of radio service, their relative strength in comparison with each other and with the size of market served, the source of audience and advertising revenues of each, the current practices of cable systems respecting the carriage of these signals, and how this has affected all or any of the classes of stations involved.

13. The comments herein contain speculation that cable systems will ultimately cause a net loss of radio service to the public and, as we have outlined above, suggest diverse solutions for averting this. Missing from the record to date, however, are facts indicating that present cable carriage of local or distant radio signals harms anyone—radio broadcasters, cable subscribers, or members of the general public—nor has our own inquiry into the relevant issues disclosed the existence of significant and pervasive problems in any respect. As a consequence we must find that we lack a sufficient basis on which to adopt rules of general applicability in this matter. While we are not unsympathetic to the concerns of the broadcasters that unregulated cable carriage of radio broadcast signals could have an adverse impact on local radio licensees, no facts appear in the record to indicate: (a) That cable systems discriminate against local signals in favor of distant signals or that local stations are significantly affected by non-carriage; (b) that there is an existing pattern or incentive for cable systems in major markets or substantial size cities to seek out and obtain distant radio signals; or that (c) regardless of market size, audience diversion in cable homes or in the local stations' market as a whole would be significant if distant signals were imported; or (d) that such audience diversion as might occur could be directly related to any net loss of broadcast service to the public.

14. The disincentive for cable systems to discriminate against local signals in favor of distant ones, or to import large numbers of distant signals, arises from the nature of cable television service and the way in which cable television systems can provide subscribers with radio service. Cable systems can carry radio signals in four ways—by "all-band FM" signal carriage, by individual signal processing, by a combination of both, or by carriage for reception on television sets as background for an automated news, time and weather or similar channel. All-band FM carrigage is by far the most economical. It involves simply the erection of an FM antenna, which then receives only those FM signals that are receivable off-air. To carry only selected FM signals or to carry any AM signals,[7] the system operator must resort to individual signal processing. This is a more costly undertaking, costing approximately $400 to $1,000 per signal as compared to a total cost of $400 for all-band FM carriage. Regardless of how the signals are picked up, they are typically provided by direct connection to the subscriber's FM receiver. This direct connection replaces the receiver's FM antenna, but does not replace its AM antenna.

15. Cable television systems primarily distribute television, as opposed to radio, programming. Radio signals, is carried, are offered as a supplemental service. For these reasons, radio signals are normally carried as economically as possible. Data drawn from the annual reporting forms submitted by cable television systems (FCC Form 325) revels that 27 percent of all cable systems carry no radio signals at all, and 51 percent carry all-band FM signals.

16. Allband FM service by its very nature would seem to require little, if any, regulation: It ordinarily assures carriage of all FM signals licensed to

[7] AM signals must be demodulated and transposed to the FM frequency to be carried by the system.

the cable community and does not introduce any FM signals that are not receivable off-air. Moreover, although allband FM carriage does not include carriage of any AM stations, it in no way interferes with the subscriber's normal off-air AM reception. Accordingly, in most instances allband FM carriage would not appear to upset the pattern of radio reception that already exists in the cable community.

17. By contrast, those systems carrying selected AM and/or FM* signals may be perceived as causing a potential problem to local radio licensees, either because a number of competing, truly "distant," signals are being carried, or because local signals are not. Several factors mitigate these perceived effects. First and foremost, the cost of processing each signal imposes a natural limit on the number that will be carried in this manner. As a result, the smaller a cable community is, the less likely it becomes that signals will be processed individually or, if they are, the fewer will be carried. However, the crucial factor militating against harm, either to a local FM station from noncarriage or to a local AM or FM station from competition with the selected signals, is that cable-carried radio signals are generally fed to only one FM receiver per household, which is normally a standard table-model receiver, while there are usually several more receivers in the household which are frequently listened to that are not interconnected to provide the signals. Recent statistics indicate that the average radio household has 5.8 radio receivers, including some which usually are not or cannot be connected to the cable system, such as portable transistors, clock radios, car radios, and so forth. Thus, not all, or even most, of the radio receivers to which the average person listens during the day transmit any of the radio signals received by the system, regardless of whether the signals are carried on a selective basis, by allband carriage, or by both means.

18. The unlikelihood that cable systems' importation of non-local signals, whether by the allband or selected-signal method, will affect local radio licensees regardless of the size of the market may be shown by statistics obtained from the annual reports. These indicate that carriage of signals other than those receivable off-air by cable systems in smaller radio markets is not extensive. In fact, the percentage of cable systems not carrying any radio signals at all increases as the size of the cable community decreases. Thus, in larger cable communities having between 10,000 and 50,000 persons, 56 percent of the systems indicate they are carrying allband FM signals, 27 percent indicated carriage of selected signals, and 10 percent are carrying no signals at all. In cable communities with between 1,000 and 10,000 persons, 52 percent of the systems are carrying allband FM, and the percentage of systems not carrying radio signals increased to 31 percent, while the percentage of systems carrying only selected signals dropped to 14 percent. Finally, in cable communities of 1,000 and less, 49 percent of the systems indicated no radio signal carriage, 44 percent carried allband FM, and only 5 percent indicated carriage of selected signals.

19. Nor does NAB's 1975 survey (virtually the only submission in this proceeding that contains any hard data) indicate the existence of pervasive problems attending either noncarriage of local radio signals or importation of distant ones. NAB states that it directed its survey to member radio stations in the six NAB districts (out of a total 17 NAB districts) which were most likely to have experienced the effects of cable. The questionnaires were completed and returned by about half the stations surveyed;* of this number, 85 percent reported one or more systems operating within the local radio market. Of this number, 39 percent indicated they were carried by a cable system in their market and 61 percent indicated they were not. NAB does not, however, give a breakdown of how much of this 61 percent is accounted for by systems carrying no radio signals at all, nor does it state what percentage of local stations not carried were AM stations which, as we have already noted, are not generally carried because of the costs involved but are in no way harmed by being cut off from the audience they are licensed to serve if they are not carried.[10] Moreover, when asked whether cable carriage of a local radio station could be expected to increase that station's audience, 58 percent of the licensees indicated that only marginal increases were likely while 39 percent said no increase was likely. Although NAB apparently did not ask how cable carriage in the local station's own market could expand even marginally the station's local audience,[11] the only answer that suggests itself is that cable carriage of a "local" station may be helpful where off-air reception is poor. The answers given to the questions on distant signal carriage similarly fail to point out the existence of a major problem attending this aspect of radio signal carriage. NAB's questionnaire first asked if any cable system in the market were carrying distant radio signals. 67 percent of the stations surveyed responded affirmatively. NAB apparently did not ask, however, whether any of these "distant"—presumably, non-local market—stations were actually receivable off-air.[12] Although in answer to an open-ended question about the effect of this "distant" radio signal carriage about 37 percent responded that their audiences were fractionalized, only 6 percent—or 11 of the 181 stations reporting "distant" signal carriage in their markets—indicated any resulting reduction in revenues or increased competition for advertisers, and no specifics as to the extent or effects of the revenue reduction or increased competition were apparently solicited or submitted. In contrast, 44 percent answered that the distant signal importation had either little or no effect, or that its effect was hard to measure because of the absence of any evidence of any effect. In sum, NAB's survey does not demonstrate that problems with respect to cable carriage of either local or distant radio signals are of such magnitude that the public interest necessitates adoption of rules at this time.

20. Recognizing the limitations of the data filed in the comments to this proceeding, we have made some effort to determine through our own data

*Although nominally 22 percent of all systems appear to be carrying signals selectively, this figure is probably somewhat inflated. An indeterminate number of systems reporting listed individual signals carried although these were actually being carried on an allband FM basis.

*323 stations completed the survey, which NAB states was "slightly less than half" of the original sample. Thus, if we presume the original sample to be roughly 650 stations, the universe of radio stations deemed by NAB to have most likely experienced the effects of cable is roughly only 8 percent of the total 7,982 licensed commercial AM and FM stations.

[10] Answers given to other questions, however, suggest that much of this 61 percent incidence of noncarriage is accounted for either by lack of radio carriage of any sort or else by allband FM carriage. When asked what other types of local radio stations were carried on a cable system in the market, 69 percent answered "FM", while only 4 percent indicated "AM"; and, in response to an open-ended question about any problems perceived as a result of distant radio signal carriage in the market, only 2 percent, or 3 of the 181 stations reporting distant signal carriage in the market, indicated that their local stations were not being carried.

[11] In fact, there is no indication whether, or how, NAB defined "local" stations, "distant" stations, or a station's "market", in taking its survey.

[12] It would seem, however, that in many cases these "distant" stations actually were receivable off-air, because the raw number of affirmative responses to "distant" signal carriage (182) roughly equals the raw number of responses indicating carriage of "local" FM stations (181). Allband FM carriage would, of course, account for carriage of all FM signals receivable off-air, whether they originate from within the system's radio market ("local"), or from outside it ("distant").

collection and analysis the nature and likely scope of the problem. In excess of 5,000 Cable Television Annual Reports (Form 325) were reviewed to determine patterns of cable radio carriage. As indicated above, approximately 78 percent (51 percent carrying allband FM and 27 percent carrying no radio signals) did not appear to be significantly involved in the matters of principal concern in this proceeding either because they were carrying all locally available FM signals and no more or because they were carrying no signals at all.[13] Because our annual reports do not reflect how many cable subscribers are subscribers to a cable radio service we conducted an informal telephone survey to obtain some information on this question. While the sample was not large enough to provide statistically conclusive information on the point, it did tend to confirm our general understanding that the typical cable radio service is accepted by 20 percent or less of cable subscribers. Adding to this information the fact that nationwide cable penetration is only approximately 13 percent, that the average household has 5.8 radio receivers only one of which would typically be cable connected, and that the average home receives perhaps 10 radio station signals off-the-air, some information on the magnitude of cable radio as compared to radio audiences generally can be calculated. That is, if only 13 percent of the nation's households are cable subscribers, if 75 percent of these are not carrying radio signals or are carrying signals in a manner not calculated to create problems, if only 20 percent of cable subscribers are typically cable radio subscribers, and assuming that perhaps as much as half of cable radio listening was to distant stations, and given the average 5.8 radios per home and average access to 10 stations, it can be seen that on the average, the cable caused loss of audience of any particular local station would be less than half of one percent. While this calculation does provide some rough measure of the magnitude of this issue on a nationwide basis, we recognize that it does not account for the situation where a confluence of factors, including a small radio market and high cable radio penetration results in a more exaggerated impact.[14] On the other hand it also fails to measure the very significant gains in program diversity (and perhaps radio listening levels) that could result from the introduction of new radio formats and sources of programming.[15] Although recognizing the limitation of our attempt to generalize in this area, we are not in a position without more detailed information as to the relevant factors of individual markets, factors best known to individual broadcasters in those markets, to be more precise as to the existing or likely cable radio impact on radio service to the public.

21. In sum, we find in the comments received an abundance of concern and speculation over possibilities of harm to private interests or public service, but a paucity of data from which to generalize or to pinpoint those areas where our traditional belief in the value of unregulated individual enterprise must give way to the need for regulatory intervention. Moreover, there is little in the comments that even reveals the nature of the problem by way of specific example or case study and except for one or two comments such as ABC's (para. 7, *supra*), there is little appreciation of the administrative complexities involved in regulating in this area. Without such concrete information and with only speculation as to how the existing situation is detrimental to the public, we are not prepared at this time to adopt any rules of general applicability.

22. We do take note of some of the comments that suggest we simply mandate carriage of local signals and that we require carriage without material degradation. We believe that even these more limited proposals are fraught with administrative difficulties[16] and ought not to be undertaken without some persuasive showing of real public need. More particularly, with respect to the question of technical standards, we believe that this matter is more appropriately considered along with the other recommendations of the Cable Technical Advisory Committee since there was no notice that the matter might be considered in this proceeding.

23. While we must decline to adopt rules of general applicability, we nevertheless realize that individual situations might arise in which a system's radio signal carriage would adversely impact a particular radio broadcaster to such a critical extent that his continued ability to operate in the public interest would be jeopardized. We would be remiss in discharging our statutory responsibilities pursuant to sections 301, 303 and 307(b) of the Communications Act were we to allow this to happen. We will, therefore, entertain petitions for special relief from individual radio broadcasters who find themselves adversely impacted by the radio signal carriage of local cable television systems.[17] As always, we shall expect such petitions for special relief to detail with specificity the carriage practice complained of and how it directly impacts the station's economic well-being, and to otherwise conform to the requirements for special relief petitions contained in § 76.7 of the rules.

CARRIAGE OF AURAL CABLECAST PROGRAMING

24. We turn now to the petitions for rulemaking filed by NAFMB and NAB. Here again, we must declined to adopt either of the proposed rules. Our reason for so doing is, like our reason for declining to adopt rules on radio broadcast signal carriage, found in the comments in these proceedings; however, unlike the record adduced in the other proceeding, it is not what is missing from NAFMB's and NAB's comments, but rather what appears plainly on their face, that compels this action.

25. We do not find that radio cablecasting contravenes the purposes of the Communications Act or that it poses any realistic threat to the structure of over-the-air FM broadcasting. We agree with the opponents of NAFMB's petition that cablecast radio programming, like its counterpart cablecast video programming, offers a unique opportunity for citizen access to a mass-communications medium and for this reason constitutes a source of programming of particular interest to members of the community whose needs and interests are not otherwise filled by broadcast radio programming. By increasing the diversity of radio programming available to the listener, as well as by providing radio programming where there might otherwise be none, radio cablecasting un-

[13] Some additional percentage of systems, not specifically broken out for reporting purposes, distribute aural radio signals only as background for an automated time and weather, stock market, news wire, or similar television channels. It is not technically feasible for such channels to distribute more than one radio signal at a time on such channels so that some of the concerns raised in this proceeding do not appear applicable to such operations.

[14] We recognize, moreover, that the average calculation can provide only a rough estimate because some of the assumptions in it, such as the amount of audience that might be diverted to distant stations and the number of stations typically available off-the-air are not based on evidence and are used simply to provide what we believe is a conservative estimate of the overall impact.

[15] Moreover, it should be remembered that audience loss is of no concern to the Commission unless it results in a loss of broadcast service to the public.

[16] These proposals, for example, offer no explanation of how such carriage could be accommodated when only one channel is available nor do they define "local" versus "distant" in a manner that would be easy to administer.

[17] We note that the critically adverse impact with which we are concerned is not simply audience fragmentation per se, but rather with impact on station revenues and profits that is so great as to diminish the station's ability to serve the public interest. Paragraph 91, "Cable Television Report and Order," 36 FCC 2d 143, 179 (1972).

questionably furthers the aims of the Communications Act. Nor do we agree that radio cablecasting's sale of advertising time at much lower rates that broadcast FM stations bodes any real danger to the latter, at least in the foreseeable future. In its comments, IBS notes that of the 48 cable radio stations it knows of, 45 are directly associated with colleges and the others are operated by local community groups. One-third of these stations are directly supported by student association funds and have no advertising; another third have yearly advertising revenues of under $2,000. Ninety percent of the stations selling advertising have revenues of less than $11,000 per year and none exceeds $20,000. IBS notes that all of these stations program for youthful and minority-group audiences, and sell only enough advertising to cover their varying operating expenses. Neither would it appear that NAFMB has anything to fear from cable radio stations that attempt to provide entertainment formats similar to those of FM broadcasters; the Los Angeles cable radio experiment cited by NAFMB in its petition as "typical of the growing number of cable radio operations around the country," has since gone out of business.

26. NAFMB's survey, as well as that portion of NAB's survey that centers on radio cablecasting, also fail to show why cablecast radio programming constitutes anything like a threat to FM broadcasting. NAFMB's survey was sent to 2,500 stations; 32 percent responded (800 stations). Of this 32 percent, "more than sixty percent" (let us say 500 stations) reported one or more cable television systems in their markets. Of these approximately 500 stations, only about 20 percent—100, or 4 percent of the original survey—indicated that cablecasting of audio programming was occurring, and of these 100 stations only 50—2 percent of the original survey sample—indicated concern over the potential detrimental effect of cablecast radio programming. NAB's survey is similarly unpersuasive. It will be recalled that its questionnaire was sent to an undisclosed number of radio licensees whose markets NAB adjudged were most likely to have felt the effects of cable. Of the 275 stations responding that their markets did have at least one cable system, only 18 percent (51) stations reported the system(s) were cablecasting some kind of radio programming, but 15 of these were only providing audio background music for their own video originations. When asked how cablecast radio programming had affected local radio, the largest number—37 percent—answered it had little or no effect, another 10 percent answered it actually had positive effects. By contrast, only 28 percent observed any audience fractionalization or increased competition for advertising dollars, and, as in the portion of the survey dealing with distant signal carriage, no data on the extent or effects of either was given.[18]

27. Our own inquiry indicates that national advertisers do not even include cablecast radio programming as an advertising medium,[19] and that local advertisers do not support it to any significant extent because of the small, and often specilized, audience it reaches. One study has estimated that by 1985 all cablecast programming will account for only 0.7 percent of advertising revenues,[20] an estimate we find, in light of current practice, to be reasonable if not somewhat generous. In light of the absence of any actual or potential likelihood that cablecast radio programming can even approach threatening FM broadcasters in any appreciable way, we must deny NAFMB's petition that it be prohibited.

28. We also find NAB's arguments in support of its proposed rulemaking to be untenable. As a practical matter, it is simply not accurate that "cable subscribers who elect to hook up to the cable aural program channel will be deprived of access to all over-the-air radio stations which they previously have been able to receive," and that rulemaking is therefore necessary to prevent anticompetitive "bottlenecking" by the radio cablecaster. As we described at some length in paragraphs 15-16 above, all radio signals distributed by a cable television system through a subscriber's radio receiver are placed in the receiver's FM band. Radio cablecast programming is no exception; it, too, is fed into the FM receiver along with any AM or FM broadcast signals carried. As we have said, this process does not affect the subscriber's off-air AM reception at all, so providing radio cablecast programming connot "bottleneck" that off-air service. Nor has NAB demonstrated a practice by system operators to provide only radio cablecast programming, and no FM broadcast stations, when they provide cable radio service. Judging from the paucity of cablecast radio programming and its apparently modest appeal, we surmise this is not happening—and even if it did the fact that the average radio household possesses 5.8 radio receivers, most of which are either FM or AM/FM combinations,[21] suggests that in most cases off-air FM reception could not be bottlenecked either. Given these facts, we cannot see how a system operator could realistically "bottleneck" a subscriber's reception of off-air radio stations when he provieds cable radio programming of any type, broadcast or cablecast. We shall, accordingly, deny NAB's rulemaking petition.

Conclusion

29. For the reasons indicated above, we are terminating Docket 19418 along with the interim procedures contained in it and are denying the two petitions for rulemaking. In doing so, however, we do not reject the possibility that special relief may be appropriate in individual cases or that trends may develop or evidence come to light in the future suggesting that general regulation is needed. In an area such as this, which is faught with so many complexities, it is particularly important that any regulatory action we may take, whether on a case-by-case or industry-wide basis, be based on a firm factual foundation so that the parties involved will not be unduly burdened by needless regulation, the public will not be denied such additional program diversity as cable radio carrage makes possible, and the regulation will be defensible not only to the public but to the Congress and the courts which have review and oversight responsibility with respect to the Commission. Thus, while we shall entertain, and endeavor to act promptly upon, any future requests for rulemaking or special relief, such requests must provide

[18] Although the survey did not ask the crucial question of how many systems sold advertising time on their radio cablecast programming, it did ask how many sold advertising on either their audio *or* video cablecast programming. Only 38 percent of the licensees indicated that systems in their markets sold advertising for either. We presume that a large part of this is accounted for by advertising on video, rather than audio, cablecasting, since advertisers choosing cable would more naturally select the programming receivable by all subscribers rather than only a portion of them.

[19] Media Decision's sixth annual media cost survey lists nighttime and daytime network television, spot television, network and spot radio, consumer magazines, Sunday supplements, daily newspapers, outdoor posters, and business publications. Non of the leading advertising agencies surveyed apparently consider cablecast programming—television or radio—a significant medium for advertising. By contrast, the advertising agencies surveyed indicated that network and spot radio advertising's audience increased in 1976 an average 2.15 percent, the highest percentage audience increase in any of the media listed, including television (average 1.9 percent).

[20] This figure represents the consensus prediction of a large group of experts questioned in a comprehensive survey by Cox Broadcasting Co., released in February 1975.

[21] Sales of FM or AM/FM receivers have steadily increased over the last 10 years while sales of AM receivers have declined. Thus, in 1965 AM receivers accounted for 85 percent of the total sold, while in 1975 they accounted for only 35 percent, with FM or AM/FM sets comprising 65 percent of sales. This trend runs through all types of receivers—table radios, clock radios, portable radios, and so forth.

adequate factual documentation for assertions that unregulated cable carriage of radio signals threatens a net loss of radio service to the public.

Accordingly, it is ordered, That proceeding in Docket 19418 is terminated.

It is further ordered, That the request for rulemaking filed by the National Association of FM Broadcasters on February 28, 1975 (RM 2528) and the request for rulemaking filed by the National Assoication of Broadcasters on July 18, 1975 (RM-2772) are denied.

ADVISORY COUNCIL ON HISTORIC PRESERVATION

PUBLIC INFORMATION MEETING

Notice is hereby given in accordance with § 800.5(c) of the Council's "Procedures for the Protection of Historic and Cultural Properties" (36 CFR Part 800) that on February 23, 1978, at 7 p.m., a public information meeting will be held at the Fairhaven Middle School, 164 Grand Avenue, New Haven, Conn. The purpose of this meeting is to provide an opportunity for representatives of national, State, and local units of government, representatives of public and private organizations, and interested citizens to receive information and express their views on the proposed replacement of the Grand Avenue Bridge, an undertaking licensed by the United States Coast Guard, assisted by the Federal Highways Administration, and supplemented by Community Development Block Grant moneys of the City of New Haven, Conn., that will adversely affect the Grand Avenue Bridge over the Quinnipiac River, New Haven, Conn., a property determined by the Secretary of the Interior to be eligible for inclusion in the National Register of Historic Places.

The following is a summary of the agenda of the public information meeting:

I. An explanation of the procedures and purpose of the meeting by a representative of the Executive Director of the Council.

II. A description of the undertaking and an evaluation of its effects on the property by the above-mentioned Federal agencies.

III. A statement by the Connecticut State Historic Preservation Officer.

IV. Statements from local officials, private organizations, and the public on the effects of the undertaking on the property.

V. A general question period.

Speakers should limit their statement to 10 minutes. Written statements in furtherance of oral remarks will be accepted by the Council at the time of the meeting. Additional information regarding the meeting is available from the Executive Director, Advisory Council on Historic Preservation, 1522 K Street NW., Suite 430, Washington, D.C. 20005.

ROBERT M. UTLEY,
Deputy Executive Director.

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

JAPANESE BEETLE QUARANTINE AND CONTROL PROGRAM

Notice of Meeting

AGENCY: Animal and Plant Health Inspection Service, USDA

ACTION: Notice of public meeting.

SUMMARY: A notice appeared in the FEDERAL REGISTER (43 FR 3732) on January 27, 1978, announcing two public meetings to be held in order to provide a public forum for a discussion of the status of the Japanese beetle quarantine and control program. The first meeting is to be held on February 28, 1978, at Baltimore, Md., and the second on March 14, 1978, at Phoenix, Ariz. The purpose of this notice is to announce that a third meeting is to be held on March 15, 1978, at San Francisco, Calif., as detailed below.

TIME, DATE, AND PLACE OF MEETING: March 15, 1978, at 1 p.m. San Francisco Airport Hilton, Roosevelt Rooms B and C, San Francisco, Calif. 94128.

SUPPLEMENTAL INFORMATION: The meeting, which is open to all interested agencies, groups, and individuals, is designed to brief the public on the current Japanese beetle situation, and create an opportunity for an open discussion of the Department's program in this area.

The meeting will be conducted by representatives of the Animal and Plant Health Inspection Service (APHIS), which is the lead Government Agency involved in the present cooperative Federal-State Japanese beetle program.

At present, Japanese beetles are found in 22 States east of the Mississippi River and in the State of Missouri. A federal quarantine program is currently being conducted to prevent the spread of this insect into areas where it is not currently located. The agenda will include presentations from APHIS on the history and biology of the Japanese beetle in the United States, a history of regulatory and control actions, and a discussion of the economic significance of the Japanese beetle. Throughout the program, the questions and views of all interested members of the public will be solicited.

FOR FURTHER INFORMATION CONTACT:

James O. Lee, Jr., Deputy Administrator, Plant Protection and Quarantine Programs, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Room 302-E, Administration Building, 14th and Independence Avenue SW., Washington, D.C. 20250, 301-447-5601.

J.G. DARLING
Acting Deputy Administrator, Plant Protection and Quarantine Programs Animal and Plant Health Inspection Service.

Forest Service

LAND MANAGEMENT PLAN, LICK MOUNTAIN-ROCK CANDY PLANNING UNIT

Availability of Draft Environmental Statement

Pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for the Land Management Plan—Lick Mountain-Rock Candy Planning Unit, Forest Service Report No. USDA-FS-R1(14)-DES-Adm-78-5.

The environmental statement concerns the proposed implementation of a revised Land Management Plan for the Lick Mountain-Rock Candy Planning Unit, Yaak Ranger District, Kootenai National Forest, Lincoln County, Mont. About 143,015 acres of National Forest land are affected. The planning unit is divided into nine subunits of similar resource potential and limitations to management. Significant values, management direction, and specific statements to guide land management have been developed for each subunit.

This draft environmental statement was transmitted to EPA on January 30, 1978.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Building, Room 3230, 12th Street and Independence Avenue SW, Washington, D.C. 20250.

USDA, Forest Service, Northern Region, Federal Building, Missoula, Mont. 59801.

USDA, Forest Service, Kootenai National Forest, P.O. Box AS, Libby, Mont. 59923.

USDA, Forest Service, Sylvanite Ranger Station, Troy, Mont. 59935.

A limited number of single copies are available upon request to:

USDA, Forest Service, Kootenai National Forest, P.O. Box AS, Libby Mont. 59923.

USDA, Forest Service, Sylvanite Ranger Station, Troy, Mont. 59935.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the EPA guidelines.

Comments are invited from the public and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to Forest Supervisor Floyd J. Marita, Kootenai National Forest, P.O. Box AS, Libby, Mont. 59923.

Comments must be received by March 31, 1978, to be considered in the preparation of the final environmental statement.

Dated: January 30, 1978.

JAMES E. REID,
Acting Regional Forester,
Northern Region, Forest Service.

[FR Doc. 78-3184 Filed 2-6-78; 8:45 am]

Rural Electrification Administration

INTENT TO PREPARE ENVIRONMENTAL IMPACT STATEMENT

Notice is hereby given that the Rural Electrification Administration intends to prepare an Environmental Impact Statement in accordance with section 102(2)(C) of the National Environmental Policy Act of 1969 in connection with a possible loan guarantee for Western Farmers Electric Cooperative, P.O. Box 429, Anadarko, Okla. 73005. The funds would be to finance the construction of a coal-fired generating unit to be located in southeastern Oklahoma together with related transmission lines and terminal facilities.

Interested persons are invited to submit comments which may be helpful in preparing the draft EIS.

Comments should be forwarded to the Assistant Administrator-Electric, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250, with a copy to Western Farmers, whose address is given above. Additional information may be obtained at the borrower's office during regular business hours.

Any loan which may be made pursuant to this possible application will be subject to, and release of funds thereunder will be contingent upon, REA's reaching satisfactory conclusions with respect to environmental effects and final action will be taken only after compliance with Environmental Statement procedures required by the National Environmental Policy Act of 1969.

Dated at Washington, D.C., this 30th day of January 1978.

DAVID A. HAMIL,
Administrator, Rural
Electrification Administration.

FEDERAL EMPLOYEES PAY COUNCIL

Meeting

In accordance with the Federal Advisory Commission Act, Pub. L. 92-463, the President's Pay Agent announces the following meeting:

Name: Federal Employees Pay Council.
Date and time: March 1, 1978, 2 p.m.
Place: U.S. Civil Service Commission, 1900 E Street NW., Washington, D.C., Room 5A06A.
Type of meeting: Open.
Contact person: Claire G. Kline, Committee Management staff for the President's Pay Agent, U.S. Civil Service Commission, 1900 E Street NW., Washington, D.C., telephone 202-632-5595.
Purpose of committee: To make recommendations to the President's Pay Agent with respect to the process and procedures leading to, and amounts of, annual comparability adjustments in Federal white-collar pay.
Agenda: Discussions on the 1978 comparability adjustment for the statutory pay systems of the Federal Government, which are defined in section 5301 of title 5, United States Code.

For the President's Pay Agent.

RICHARD H. HALL,
Committee Management Officer for the President's Pay Agent.

[3510-25]

DEPARTMENT OF COMMERCE

Industry and Trade Administration

EXPORT MONITORING REPORT FOR COAL AND COKE OF COAL

Week Ending December 16, 1977

Total bituminous coal exports for the week ending December 16, 1977, were 788,274 short tons, an increase from 679,883 short tons exported the preceding week. This increase does not appear to be statistically significant, however, but rather reflects normal weekly variation in the number of ships loading coal which was either at port or enroute thereto when the strike began.

Low volatile metallurgical coal exports were 96,895 short tons compared with 199,136 short tons for the previous week. There was no apparent reason for this decrease other than normal weekly variation in export loadings. Europe was the primary importer of this grade of coal, at 69,440 short tons, with Asia importing 24,808 short tons and the Western Hemisphere 2,647 short tons. The average export price of low volatile coal for the week was $52.33 per short ton, with high and low prices for the week of $61.34 and $48.99 per short ton, respectively. This compares with an average export price of $60.38 the preceding week, with high and low prices for that week of $62.21 and $52.19, respectively, thus indicating an average decrease in export prices during the reporting period.

Medium volatile metallurgical coal exports for the week totaled 118,632 short tons, a decrease from 283,420 short tons exported the previous week. Again there appears to be no explanation for this drop in volume other than normal weekly variation in the number of ships loading coal. Anticipated export data show that, if sufficient coal is available, exports of this grade of coal will run at about the 250,000 short ton level weekly for the next several weeks. Asia was the major recipient of this coal, at 93,291 short tons, with Europe receiving 15,958 short tons and the Western Hemisphere 9,383 short tons. The average price of these exports was $56.03, with a high of $58.00 and a low of $47.86. For the previous week, the average price was $53.16, with a high of $59.90 and a low of $42.00 per short ton. Average and low prices increased this week, but the reported high price decreased when compared to the price reported for the week of December 9. This may indicate either a general upward price movement or, possibly, that higher quality medium volatile coal was exported during the week. Price movement of this grade of coal will be carefully noted in subsequent reports.

High volatile metallurgical coal exports for the week were 176,827 short tons, compared with 47,055 short tons in the previous week. Again, the increase in exports does not appear to reflect increased foreign demand, but rather an erratic pattern of weekly shipments. This week 76,532 short tons were exported to Europe, and 100,295 short tons were exported to the Western Hemisphere, while no exports were made to Asian destinations. The average export price of this coal during the reporting period was $51.55 per short ton. The high was $55.00 and the low $49.20. The preceding week, the average export price was $47.76, with a high of $53.30 and a low of $43.71 per short ton. The average upward price movement noted this week, as compared to the preceding week, could be indicative of insufficient shipments in the preceding week to develop representative price data, shipment of higher quality coal, or an upward price movement. Caution must be exercised in interpreting price data since coal in any grade category varies considerably in quality, and higher quality commands a higher price. Substantial shipments of higher quality coal during a reporting period could result in higher prices being reported without indicating an upward trend in price.

Exports of other bituminous coal, including steam coal, were 351,669 short tons during the week, compared with 129,424 short tons exported the preceding week. It is not believed that this increase represents a trend toward increased demand, but rather that it reflects shipments in response to heavy pre-strike orders from foreign power plants seeking to stockpile coal in preparation for the strike. Contract data showing exports of other bituminous coal over the next several weeks bears out this conclusion by predicting a substantial decline from this week's export level. The average export price of this coal was $34.69 per short ton. The high was $35.00 and the low was $29.04.

Last week, an average price of $35.64 was reported per short ton, with a high of $58.50 and a low of $33.53. The low prices reported in these two weeks reflect the normal variation in price of this type of coal and are not thought to be indicative of any price trend.

Coke of coal exports for the week were 9,624 short tons compared with 3,922 short tons in the preceding week. Once again this increase is without apparent statistical significance, although it does accurately reflect the erratic pattern of anticipated weekly exports of this product over the next several weeks as shown by reported contracts. normal average weekly exports of coke of coal at this time of year are about 8,000 short tons per week, approximately the level of ex-

ports during the week under review. The average export price of this product during the week was $77.52 per short ton, with the high at $137.79 and the low at $29.94. The preceding week, the average price was $126.84 per short ton, with a high of $137.79 and a low of $94.60. That week's prices represent the typical price spread for this product. This week's average and low prices are not representative, for they are based on a substantial volume of breeze coke exports. Breeze coke is a by-product consisting of fine coke particles which are screened from primary coke production. Since it is not suitable for normal blast furnace or cupola operations, it is priced at approximately ¼ to ⅓ the price of prime coke. In structuring the export monitoring program, it was necessary to combine exports of prime coke and breeze coke to maintain consistency with statistics from previous years; however, this grouping distorts low and average coke price data for the current monitoring period.

Domestic coal data developed by the Department of Energy shows that coal production for the week was 5,080,000 short tons, a drop from 9,100,000 short tons produced during the preceding week. This production drop was anticipated since this week's data represents the first full week of the United Mine Workers of America (UMW) strike. These data also include the loss in production of non-UMW mines which are closed by UMW picketing activities. Total domestic bituminous coal consumption for the week was 12,170,000 short tons, compared with 11,848,000 short tons for the preceding week. Normal weekly variance in consumption and colder weather probably account for this slight increase. Total coal stocks at the end of the week were 165,715,000 short tons compared with 170,750,000 short tons at the end of the preceding week, a loss of 5,035,000 short tons. With consumption at a 12,170,000 short ton level for the week, it appears that 7,135,000 short tons were received by coal consumers during the week to augment their stocks.

These coal receipts consist of non-UMW mine production, imports, or previously mined coal in transit when the strike began. Domestic price data for the week reveals no change from the preceding week.

In general, the present level of coal exports is expected to continue for the next week or two, with a significant decrease in exports anticipated in the following weeks as stocks of coal at port or in transit when the strike began are depleted.

EXPORT MONITORING REPORT FOR COAL AND COKE OF COAL

Week Ending December 23, 1977

Total bituminous coal exports this week were 580,609 short tons, compared with 788,274 short tons during the week ending December 16, a total of 679,883 short tons during the week ending December 9, and a weekly average of 1,047,451 short tons in the month of November 1977. The most significant change was a decrease in exports of 292,169 short tons of other bituminous (steam) coal. This decrease in other bituminous coal exports was anticipated by advance contract data previously reported and it represents the normal mid-December decrease in the winter movement of this type of coal via the Great Lakes.

A comparison of this week's exports of metallurgical grade coal with those reported for the week ending December 16 indicates that low volatile metallurgical coal exports decreased, while medium and high volatile metallurgical coal exports increased, for a net total metallurgical coal exports increase of 84,504 short tons. (Due to a limited number of firms reporting this data, figures showing a breakdown by volatility have been withheld to prevent disclosure of information deemed confidential. See footnote 4, Table 1.) The average export price for metallurgical grade coal was $52.68; the average price of all bituminous coal exported this reporting period was $50.73, with a high and low price reported of $61.50 and $35.00, respectively. Comparison of these data with data reported for the weeks ending December 16 and December 9 indicates no strong upward movement in export prices, but merely reflects an increase in the quantity of higher grade coal.

Other bituminous, or steam, coal exports for the week were 59,500 short tons, compared with 351,669 short tons exported in the preceding week. This decrease was predicted by previously reported export contract data and represents the normal fall-off in winter exports of steam coal via the Great Lakes.

Coke of coal exports for the week were 2,843 short tons, compared with 9,624 short tons in the preceding week. This drop appears to reflect normal weekly variation in export shipments of this product. The average price of coke exports during the week was $125.86, while high and low prices were $137.79 and $102.30, respectively. These prices are in line with those reported for the week ending December 9. No comparison is made with coke export prices reported for the week ending December 16, since the inclusion of low value breeze coke in export shipments that week served to distort the reported average and low prices.

Domestic coal production for the week was 5,380,000 short tons and showed little change from the 5,080,000 short tons produced during the week of December 17. Domestic consumption of coal also remained relatively stable, with a total of 11,925,000 short tons being consumed, compared with 12,170,000 short tons in the preceding week. Coal stocks were reduced during the week by 5,844,000 short tons, to a total week-end inventory level of 159,871,000 short tons. Domestic coal prices showed no change from that reported two weeks ago. Domestic coke prices showed some price movement, although this movement was not considered to be significant.

National Oceanic and Atmospheric Administration

MARINE MAMMAL PERMIT

Receipt of Application

Notice is hereby given that an Applicant has applied in due form for a Permit to take marine mammals as authorized by the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407); and the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR Part 216).

1. Applicant: (a) Name: Mr. & Mrs. Lawrence Jeffrey Foerder, (b) Address: Route 2, Box 605M, Arroyo Grande, Calif. 93420.
2. Type of Permit: Public Display.
3. Name and Number of Animals: California sea lions (*Zalophus californianus*), 2.
4. Type of Activity: To capture and maintain. Animals are to be part of a traveling show.
5. Location of Activity: California Channel Islands, Calif.
6. Period of Activity: 2 years.

The arrangements and facilities for transporting and maintaining the marine mammals are requested in the above described application have been inspected by a licensed veterinarian, who has certified that such arrangements and facilities are adequate to provide for the well-being of the marine mammals involved.

Concurrent with the publication of this notice in the FEDERAL REGISTER the Secretary of Commerce is forwarding copies of this application to the Marine Mammal Commission and the Committee of Scientific Advisors.

Written data or views, or requests for a public hearing on this application should be submitted to the Assistant Administrator for Fisheries, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235, on or before March 9, 1978. Those individuals requesting a hearing should set forth the specific reasons why a hearing on this particular application would be appropriate. The holding of such hearing is at the discretion of the Assistant Administrator for Fisheries.

All statements and opinions contained in this application are summaries of those of the Applicant and do not necessarily reflect the views of the National Marine Fisheries Service.

Documents submitted in connection with the above application are available for review in the following offices:

Assistant Administrator for Fisheries, National Marine Fisheries Service, 3300 Whitehaven Street NW., Washington, D.C.; and

Regional Director, National Marine Fisheries Service, Southwest Region, 300 South Ferry Street, Terminal Island, Calif. 90731.

Dated: January 16, 1978.

ROLAND FINCH,
Acting Deputy Assistant Director for Fisheries Management, National Marine Fisheries Service.

[FR Doc. 78-3258 Filed 2-6-78; 8:45 am]

[3510-22]

ISSUANCE OF PERMIT TO TAKE MARINE MAMMALS

On November 25, 1977, notice was published in the FEDERAL REGISTER (42 FR 60198), that an application had been filed with the National Marine Fisheries Service by Dr. Kenneth Norris, Coastal Marine Laboratory, University of California, Santa Cruz, Calif. 95064, for a permit to take fifteen (15) spinner porpoises (*Stenella longirostris*) for scientific research.

Notice is hereby given that on January 31, 1978, and as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407), the National Marine Fisheries Service issued a Scientific Research Permit to Dr. Norris, subject to certain conditions set forth therein. The Permit is available for review in the following offices:

Assistant Administrator for Fisheries, National Marine Fisheries Service, 3300 Whitehaven Street NW., Washington, D.C.; and

Regional Director, National Marine Fisheries Service, Southwest Region, 300 South Ferry Street, Terminal Island, Calif. 90731.

Dated: January 31, 1978.

WINFRED H. MEIBOHM,
Associate Director, National Marine Fisheries Service.

[FR Doc. 78-3257 Filed 2-6-78; 8:45 am]

MODIFICATION OF PERMIT

Notice is hereby given that, pursuant to the provisions of Sections 216.33 (d) and (e) of the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR Part 216), Permit No. 217 issued to Dr. Bruce Mate, Marine Science Center, School of Oceanography, Oregon State University, Newport, Oreg., on December 27, 1977 (43 FR 30), is modified in the following manner:

1. Section A-1 under the Permit which states that one hundred and seventy-five (175) harbor seals may be captured, marked, tagged, identified, and released, has been changed to read:

A. *Number and kind of marine mammals.*—1. One hundred seventy-five (175) harbor seals of either sex may be harassed in the course of capturing ninety (90) harbor seals which will be marked, tagged, identified, and released. Recapture of already tagged animals will not be counted as part of the taking authorized herein.

The Permit, as modified, is effective on the date of publication of this notice in the FEDERAL REGISTER. The modification is available for review in the following offices:

Assistant Administrator for Fisheries, National Marine Fisheries Service, 3300 Whitehaven Street NW., Washington, D.C.; and

Regional Director, National Marine Fisheries Service, Northwest Region, 7700 Westlake Avenue North, Seattle, Wash. 98109.

Dated: January 17, 1978.

ROLAND FINCH,
Acting Deputy Assistant Director for Fisheries Management.

EXECUTIVE COMMITTEE OF THE NATIONAL BOARD FOR THE PROMOTION OF RIFLE PRACTICE

Open Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), announcement is made of the following committee meeting:

Name of committee: Executive Committee of the National Board for the Promotion of Rifle Practice.

Date of Meeting: March 22, 1978.

Place: Secretary of the Army Conference Room, Room 2E 687, the Pentagon.

Time: 0900 hours.

PROPOSED AGENDA: 1. Public relations program for the civilian marksmanship program. 2. Instructor training course for the small arms firing school. 3. Expansion of the DCM ammunition sales program. 4. NBPRP support for a pistol program. 5. M14 rifle use in the civilian marksmanship program. 6. M1 rifle sales program. 7. Issue of rifles for competition at the national matches. 8. Current and future national match program of events. 9. Nomination for board membership. 10. Implementation of A.D. Little report recommendations.

This meeting is open to the public. Any interested person may attend, appear before, or file statements with the committee at the time and in the manner permitted by the committee.

Dated: February 1, 1978.

ROBERT VINSON,
Administrative Officer.

DEPARTMENT OF ENERGY

ISSUANCE OF PROPOSED DECISIONS AND ORDERS BY THE OFFICE OF ADMINISTRATIVE REVIEW

January 16 through January 20, 1978

Notice is hereby given that during the period January 16 through January 20, 1978, the Proposed Decisions and Orders which are summarized below were issued by the Office of Administrative Review of the Economic Regulatory Administration of the Department of Energy with regard to Applications for Exception which had been filed with that Office.

Amendments to the DOE's procedural regulations, 10 CFR, Part 205, were issued in proposed form on September 14, 1977 (42 FR 47210 (September 20, 1977)), and are currently being implemented on an interim basis. Under the new procedures any person who will be aggrieved by the issuance of a Proposed Decision and Order in final form may file a written Notice of Objection within ten days of service. For purposes of the new procedures, the date of service of notice of issuance of a proposed decision and order shall be deemed to be the date of publication of this Notice or the date of receipt by an aggrieved person of actual notice, whichever occurs first. The new procedures also specify that if a Notice of Objection is not received from any aggrieved party within the time period specified in the regulations, the party will be deemed to consent to the issuance of the Proposed Decision and Order in final form. Any aggrieved party that wishes to contest any finding or conclusion contained in a Proposed Decision and Order must also file a detailed Statement of Objections within 30 days of the date of service of the Proposed Decision and Order. In that Statement of Objections an aggrieved party must specify each issue of fact or law contained in the Proposed Decision and Order which it intends to contest in any further proceeding involving the exception matter.

Copies of the full text of these Proposed Decisions and Orders are available in the Public Docket Room of the Office of Administrative Review, Room B-120, 2000 M Street NW., Washington, D.C. 20461, Monday through Friday, between the hours of 1 p.m. and 5 p.m., e.s.t., except Federal holidays.

MELVIN GOLDSTEIN,
Director,
Office of Administrative Reivew.

JANUARY 30, 1978.

PROPOSED DECISIONS AND ORDERS

Arizona Fuels Corp., Salt Lake City, Utah, DXE-0224, crude oil

Arizona Fuels Corp. filed an Application for Exception from the provisions of 10 CFR 211.67. The exception request, if granted, would result in the issuance of an order relieving Arizona Fuels of any obligation to purchase entitlements beginning with the month of January 1978. On January 16, 1978, the DOE issued a Proposed Decision and Order which determined that the firm's request be granted in part.

Caribou Four Corners, Inc., Afton, Wyo., DEE-0104, crude oil

Caribou Four Corners, Inc. filed an Application for Exception from the provisions of 10 CFR, Part 212. The exception request, if granted, would permit Caribou to receive "new" oil prices for condensate which the firm sold during the months of January and February 1976. On January 20, 1978, the DOE issued a Proposed Decision and Order which determined that the exception request be granted.

Intercoastal Operating Co., Houston, Tex., FEE-4013, crude oil

Intercoastal Operating Co. filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D. The exception request, if granted, would permit Intercoastal to sell the crude oil produced from the J. R. Rosson Lease at prices which are in excess of the lower tier ceiling price levels specified in 10 CFR 212.73. On January 17, 1978, the DOE issued a Proposed Decision and Order which determined that the exception request be granted.

Larco Drilling Co., Inc., Jackson, Miss., FEE-4770, Crude oil

Larco Drilling Co., Inc. filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D. The exception request, if granted, would permit Larco to sell the crude oil which it produces from the Mooringsport Formation Unit at prices which exceed the lower tier ceiling price levels specified in 10 CFR 212.73. On January 20, 1978, the DOE issued a Proposed Decision and Order which determined that the exception request be granted in part.

Marshall R. Young Oil Co., Midland, Tex., FEE-4803, Crude oil

Marshall R. Young Oil Co. (Young) filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D. The exception request, if granted, would permit Young to sell the crude oil which it produces from the Sawyer "A" Well at upper tier ceiling prices. On January 16, 1978, the DOE issued a Proposed Decision and Order which determined that the exception request be granted in part.

Maurice L. Brown Co., Kansas City, Mo. FEE-4455, Crude oil

The Maurice L. Brown Co. filed an Application for Exception from the provisions of 10 CFR, Part 212.73. The exception request, if granted, would permit Brown to sell the crude oil produced from the Midwest Federal lease locaed in Lea County, N. Mex. at upper tier ceiling prices. On January 17, 1978, the DOE issued a Proposed Decision and Order which determined that the exception request be granted in part.

Mid-Michigan Truck Service, Inc., Grand Rapids, Mich., DXE-0155, Motor gasoline

Mid-Michigan Truck Service, Inc. filed an Application for Exception from the provisions of 10 CFR, Part 211:25. The exception request, if granted, would require Mid-Michigan's base period supplier, the Gulf Oil Corp., to furnish Mid-Michigan with its base period use of petroleum products directly rather than through Gulf's designated substitute supplier, the Bestrom Oil Co. In addition, Gulf would be required to determine its current maximum allowable selling prices to Mid-Michigan on the basis of actual selling prices and credit terms which existed between the two firms on May 15, 1973. On January 19, 1978, the DOE issued a Proposed Decision and Order which determined that the exception request be granted.

Pennzoil Producing Co., Houston, Tex., FXE-4776, Crude oil

Pennzoil Producing Co. filed an Application for Exception from the provisions of 10 CFR, Part 212.73. The exception request, if granted, would permit Pennzoil to sell a portion of the crude oil produced from the Perry Sand Waterflood Unit, North Segment, at upper tier prices. On January 19, 1978, the DOE issued a Proposed Decision and Order which determined that the exception request be granted.

R. W. Tyson Producing Co., Inc., Jackson, Miss., FEE-4440, Crude oil

R. W. Tyson Producing Co., Inc., filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D. The exception request, if granted, would permit the firm to sell at market price levels the crude oil produced from the Stevens No. 1 Lease, the Stevens No. 2 Lease and the Stevens No. 3 Lease, all located in the Glazier Field, Perry County, Miss. On January 20, 1978, the DOE issued a Proposed Decision and Order which determined that the exception request be granted in part.

Sabre Refining, Inc., Bakersfield, Calif., DXE-0346, Crude oil

Sabre Refining, Inc. filed an Application for Exception from the provisions of 10 CFR, Part 211.67. The exception request, if granted, would relieve Sabre or its obligation to purchase entitlements commencing in the month of January 1978. On January

16, 1978, the DOE issued a Proposed Decision and Order which determined that the exception request be denied.

San Joaquin Refining Co., Bakersfield, Calif., FEX-0180, Crude oil

Pursuant to a prior Decision and Order which granted the firm exception relief from the provisions of 10 CFR 211.67, San Joaquin Refining Co. filed financial material showing actual results for its fiscal year ended April 30, 1977. On January 16, 1978, the DOE issued a Proposed Decision and Order which determined that San Joaquin had received excess exception relief during its 1977 fiscal year and should therefore be required to purchase additional entitlements during current periods.

Company	Case No.	Plant	Location	Amount of price increase (dollars in gallons)

REQUEST FOR EXCEPTION RECEIVED FROM A NATURAL GAS PROCESSOR

The Office of Administrative Review of the Department of Energy has issued a Proposed Decision and Order granting exception relief from the provisions of 10 CFR 212.65 to the natural gas processor listed below. The proposed exception relief permits the firm involved to increase the prices of the production of the gas plants listed below to reflect certain non-product cost increases:

[6740-02]

Federal Energy Regulatory Commission

[Docket No. RM76-15]

REGULATION OF SMALL PRODUCERS

Order Granting Motion for Supplemental Order

JAUARY 30, 1978.

On October 1, 1977, Pursuant to the provisions of the Department of Energy Organization Act (DOE Act), Pub. L. 95-91, 91 Stat. 565 (August 4, 1977) and Executive Order No. 12009, 42 FR 46267 (September 15, 1977), the Federal Power Commission ceased to exist and its functions and regulatory responsibilities were transferred to the Secretary and the Federal Energy Regulatory Commission (FERC) which, as an independent commission within the Department of Energy, was activated on October 1, 1977.

The "savings provisions" of section 705(b) of the DOE Act provide that proceedings pending before the FPC on the date The DOE Act takes effect shall not be affected and that orders shall be issued in such proceedings as if the DOE Act had not been enacted. All such proceedings shall be continued and further actions shall be taken by the appropriate component of DOE now responsible for the function under the DOE Act and regulations promulgated thereunder. The functions which are the subject of these proceedings were specifically transferred to the FERC by section 402(a)(1) of the DOE Act.

The joint regulation adopted on October 1, 1977 by the Secretary and the FERC entitled "Transfer of Proceedings to the Secretary of Energy and the FERC," 10 CFR ——, provided that this proceeding would be continued before the FERC. The FERC takes action in this proceeding in accordance with the above mentioned authorities.

On July 22, 1977, Beren Corp. (Beren), a small producer, filed a motion in the above-captioned proceeding requesting issuance of a Comission order supplementing Order No. 568, issued July 14, 1977. In its motion Beren states that on November 24, 1976, and March 28, 1977, respectively, it filed motions for waiver of section 157.40(c) of the Commission's regualtions requesting small producer certificate coverage of sales made from developed reserves acquired in place from large producers. Beren further states that the Commission has not as yet acted upon such motions. Beren observes that Order No. 568 eliminated on a prospective basis the requirement that waivers of section 157.40(c) be obtained and then argues that it would be appropriate for the Commission to supplement Order No. 568 by issuing a general order granting all motions for waiver pending at the time of issuance of Order No. 568. Beren claims that such an order would eliminate the backlog of pending motions and would provide to the small producers involved the certainty that is one of the purposes of the small producer regulations.

We believe that Beren's suggestion has merit. Accordingly, we will grant all pending motions for waiver of section 157.40(c) involving sales made by small producer certificate holders from developed reserves acquired in place from large producers provided that the small producer movants charge prices no higher than those which the respective large producer predecessors would be entitled to charge for sales from such reserves.

The attached appendices list all known pending motions. Appendix A lists those cases where small producers have obtained conventional certificates and filed rate schedules as successors to the large producers, whereas appendix B lists those cases where conventional succession filings have either not been made by the small producers or were still pending and are being dismissed as moot.

The Commission orders: (A) The motion requesting issuance of a supplemental order filed by Beren on July 22, 1977, is hereby granted.

(B) All pending motions for waiver of section 157.40(c) involving sales made by small producer certificate holders from developed reserves acquired in place from large producers are granted provided that the small producer movants charge prices no higher than those which the respective large producer predecessors would be entitled to charge for sales from such reserves.

(C) The conventional certificates of the small producer movants listed in appendix A and the predecessors in interest identified in appendix B are terminated and the related rate schedules canceled insofar as they cover the properties transferred to the listed small producer certificate holders. This action does not relieve movants or their predecessors from any refund obligations which they may have pursuant to any certificate conditions under section 7(c) of the Natural Gas Act or any proceedings under sections 4 and 5 of said Act with respect to the sales involved.

(D) The succession-in-interest filings by applicants as noted in appendix B are dismissed as moot.

(E) The predecessors listed in appendix B who have not filed rate schedule supplements reflecting their partial assignments are required to do so pursuant to section 154.97 of our regulations.

(F) The request for waiver filed in Docket No. CS77-237 is considered as a request for waiver in Docket No. CS71-833. Waiver is granted, the certificate in Docket No. CS71-833 is amended accordingly, and Docket No. CS77-237 is canceled.

By the Commission.

LOIS D. CASHELL,
Acting Secretary.

1/ Applicant has since succeeded to the interest of Underwood Oil Company.

2/ Assignment from Carl E. Hiss who acquired properties from listed large producer predecessors on September 29, 1972 (Rate Schedule No. 1), August 1, 1972 (Rate Schedule No. 2), and September 19, 1973 (Rate Schedule Nos. 3 and 4).

3/ W. W. F. Oil Corporation is holder of a small producer certificate in Docket No. CS71-833. Said certificate is amended to reflect the subject request for waiver and Docket No. CS77-237 is canceled.

4/ Predecessor has not filed to amend its rate schedule (partial succession involved) but should do so.

5/ Petition states interest had been "recently purchased."

6/ Applicants request waiver of Section 157.40(c) retroactive to the assignment effective dates listed herein. However, consistent with prior Commission action (Crystal Oil Company, Docket No. CI73-106, order issued June 28, 1976), the effective date is the filing date of the request.

7/ Applicants succeeded to the interests of G. E. Kadane & Sons, a dissolved partnership.

8/ Total succession. Predecessor's certificate is terminated and related rate schedule canceled.

9/ Petition also involves other matters not disposed of here.

10/ Supplement to predecessor's rate schedule is being processed.

11/ Supplemental information filed February 18, 1977.

12/ Applicant's succession-in-interest filing in Docket No. CI77-310 is dismissed as moot.

13/ Applicants' succession-in-interest filings in Docket Nos. CI77-429, CI77-430, CI77-431, CI77-432, CI77-433 and CI77-434 are dismissed as moot.

14/ Applicant's succession-in-interest filing in Docket No. CI77-118 is dismissed as moot.

15/ Petroleum, Inc., filed an application for a small producer certificate on November 17, 1977, in Docket No. CS78-111.

16/ No record that Petroleum, Inc., had certificate and rate schedule for subject sale made to Kansas-Nebraska Natural Gas Company, Inc., under a contract dated April 15, 1963, as amended. Applicant indicates sale was not in interstate commerce until May 28, 1975, at which time acquisition was being negotiated.

[Docket No. E-7440; Project Nos. 2165 and 2203]

ALABAMA WATER IMPROVEMENT COMMISSION v. ALABAMA POWER CO.

Filing of Settlement Agreement and Stipulation

FEBRUARY 1, 1978.

Notice is hereby given that a settlement agreement and stipulation has been filed with the Commission and certified by the Administrative Law Judge for consideration and action in the above proceedings. The provisions of the settlement agreement would effect a termination of the instant proceeding and settle all pending issues. The staff of the Commission has advised the Administrative Law Judge that it has no objection to the certification of the settlement agreement.

Docket No. E-7440 arose from a complaint by the Alabama Water Improvement Commission concerning the effect of the Holt project upon water quality of the Black Warrior River. On September 3, 1968, an order was issued consolidating the complaint with the Holt project proceeding (No. 2203) and Lewis Smith and Bankhead projects (No. 2165). These projects were licensed on October 7, 1965 (Holt, 34 FPC 1108), and September 12, 1957 (Smith and Bankhead, 18 FPC 327). The Holt project is located at the U.S. Holt Lock and Dam in Tuscaloosa County, Ala. The Bankhead project is located at the U.S. Bankhead Lock and Dam in Jefferson County, Ala. The Smith project is located in Cullman, Walker, and Winston Counties, Ala.

On August 11, 1972, the Commission issued Opinion No. 625, which among other things, provided for futher evaluation studies of water quality in the pertinent stretches of the Black Warrior River, further hearings before the Administrative Law Judge, and filing of an environmental impact statement. A final environmental impact study was issued by the Bureau of Power in October 1976. Proceedings have been conducted before the hearing officer since that time.

Under Article 43 of the Holt project license, Alabama Power Co. is obligated to modify the project structures and operation in the event of deleterious effect on water quality by operation of the powerhouse.

The United States and Alabama agencies have set a water quality standard of 4 mg/1 dissolved oxygen for the pertinent parts of the Black Warrior River. The settlement proposal is contained in exhibit Nos. 200 and 201.

The instant settlement proposal would require, through amendment of the respective licenses, that Alabama Power Co.: (1) Maintain a dissolved oxygen content of 4 mg/1 in the waters of the turbine discharge, provided that the quality of the inlet water is 3.7 mg/1 or greater at Holt and 2 mg/1 at Bankhead, respectively; (2) operate turbine aspirator systems when inlet water quality is 4.2 mg/1 or below; (3) continue aspirator operations until dissolved oxygen level exceeds 4.7 mg/1; (4) maintain efficient operation of aspiration equipment; (5) prepare and file annual reports and make tests of water quality through 1980, and beyond if requested by a specified Federal or State agency; and (6) when water quality falls below 4 mg/1 in the turbine discharge, Alabama Power Co. will operate the turbine aspirators at the maximum air injection rates feasible. Other provisions of the settlement proposal protect the future rights of Federal and State agencies to take action if necessary under applicable law.

Any person desiring to be heard or to make protests with reference to the said settlement proposal should, on or before March 16, 1978, file with the Federal Energy Regulation Commission, 825 North Capitol Street NE., Washington, D.C. 20426, comments, petitions to intervene, or protests in accordance with the requirements of the Commission's rules of practices and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the proper action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing herein must file petitions to intervene in accordance with the Commission's rules. The settlements proposal is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[6740-02]

[Docket No. ES78-18]

COMMUNITY PUBLIC SERVICE CO.

Application

JANUARY 31, 1978.

Take notice that on January 23, 1978, the Community Public Service Co. filed an application with the Commission pursuant to section 204 of the Act and Part 34 of the regulations, for authorization to engage in negotiations for the sale of up to 200,000 shares of common stock, par value $10 per share pursuant to section 34.1a(a)(4) and 34.2(f)(2) of the regulations under the Act.

Applicant is incorporated under the laws of the State of Texas, with its principal business office at Fort Worth, Tex., and is engaged in the generation, transmission, distribution, purchase, and sale of electrical energy in the States of Texas and New Mexico.

The applicant indicates that the proceeds from the financing will be used to repay outstanding short-term debt as of April 1, 1978, which have been or will be used for the company's construction program.

The applicant believes that a negotiated public sale would be advantageous to it because of the relatively small number of shares now outstanding (1,638,864); the proposed sale of up to 200,000 common shares is a relatively small issue providing an estimated $4,200,000 before expenses, assuming a price of $21 per share and; the ability of an underwriter will be required to presell the issue to ensure a satisfactory market.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests shall be filed on or before February 10, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[6740-02]

[Project No. 2331]

DUKE POWER CO.

Application for Approval of Exhibit R (Recreational Use Plan)

FEBRUARY 1, 1978.

Public notice is hereby given that application for approval of exhibit R was filed by Duke Power Co. (correspondence to: William L. Porter, Esq., Duke Power Co., P.O. Box 2178, Charlotte, N.C. 28242, and Richard A. Brown Esq., Wall, Harkrader and Ross, 1320 Nineteenth Street NW., Washington, D.C. 20036) on April 4, 1977, in compliance with regulations promulgated pursuant to the Federal Power Act, 16 U.S.C. §§ 791a-825r.

Applicant (Duke Power Co.) seeks approval of exhibit R as part of, and in accordance with article No. 30 of, its existing FERC license for the con-

structed Ninety-Nine Islands project No. 2331.

Ninety-Nine Islands dam is located on the Broad River, a navigable water of the United States within Cherokee County in north-central South Carolina. The project is approximately 6 miles south of Blacksburg and 8 miles east of Gaffney, S.C.

The reservoir behind the dam extends approximately 4 miles upstream to the Cherokee Falls dam. The reservoir was put into operation to generate hydroelectric power in 1910 with an original full pond surface area of 388 acres.

The applicant's exhibit R states that it has no plans for any recreational development at the Ninety-Nine Islands project for the following reasons:

1. Accumulation of silt has reduced the useable head to approximately 3 feet at the project and has reduced the water surface acreage.

2. The reservoir is very shallow except for the river channel and many of the shallow areas have become filled with brush and other vegetation, thereby rendering the reservoir unsuitable for boating or water skiing. A possibility does exist for low profile activities such as canoeing and bank fishing which occur occasionally at the reservoir.

3. The river water, rated class B, remains muddy most of the year.

4. There are no existing facilities associated with water-oriented recreation, i.e., marinas, piers, etc., at the reservoir.

5. No local or State agency contacted has stated any present or future plans for recreational development at the reservoir.

6. The people living near the Ninety-Nine Islands project have a choice of several alternative reservoirs on which to pursue water-oriented activities. Within a 50-mile radius are Lake Wylie, Fishing Creek Lake, Great Falls, Rocky Creek, Lake Wateree, Mt. Island Lake, Lake Norman, and Lake Adger with a combined surface area of 66,900 acres.

7. Kings Mountain National Military Park, Kings Mountain State Park, Rose Hill State Park, Chester State Park, Paris Mountain State Park, Croft State Park, Landsford Canal State Park, Andrew Jackson Historical State Park, and Duke Power State Park, are all within a 50-mile radius of Ninety-Nine Islands reservoir. These parks provide camping, hiking, swimming, picnicking, and other related activities.

Any person desiring to be heard or to make protest with reference to the subject application should, on or before April 1, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, protests or petitions to intervene in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR §1.10 or §1.8 (1977)). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

The public should take further notice that on October 1, 1977, pursuant to the provisions of the Department of Energy Organization Act (DOE Act), Pub. L. 95-91, 91 Stat. 565 (August 4, 1977) and Executive Order No. 12009, 42 FR 46467 (September 15, 1977), the Federal Power Commission ceased to exist and its functions and regulatory responsibilities were transferred to the Secretary of Energy and the Federal Energy Regulatory Commission (FERC) which, as an independent commission within the Department of Energy, was activated on October 1, 1977.

The "savings provisions" of section 705(b) of the DOE Act provided that proceedings pending beefore the FPC on the date the DOE Act takes effect shall not be affected and that orders shall be issued in such proceedings as if the DOE Act had not been enacted. All such proceedings shall be continued and further actions shall be taken by the appropriate component of DOE now responsible for the function under the DOE Act and regulations promulgated thereunder. The functions which are the subject of this proceeding were specifically transferred to the FERC by section 402(a)(1) or 402(a)(2) of the DOE Act.

The joint regulation adopted on October 1, 1977, by the Secretary and the FERC entitled "Transfer of Proceedings to the Secretary of Energy and the FERC," 10 CFR ——, provided that this proceeding would be continued before the FERC. The FERC takes action in this proceeding in accordance with the above-mentioned authorities.

KENNETH F. PLUMB,
secretary.

[6740-02]

[Docket No. ER77-578]

KANSAS GAS & ELECTRIC CO.

Order Granting in Part and Denying in Part Motion to Reject, Instituting Section 206 Proceedings and Denying Petition for Rehearing

FEBRUARY 1, 1978.

On October 1, 1977, pursuant to the provisions of the Department of Energy Organization Act (DOE Act), Pub. L. 95-91, 91 Stat. 565 (August 4, 1977) and Executive Order No. 12009, 42 FR 46267 (September 15, 1977), the Federal Power Commission ceased to exist and its functions and regulatory responsibilities were transferred to the Secretary and the Federal Energy Regulatory Commission (FERC) which, as an endependent commission within the Department of Energy, was activated on October 1, 1977.

The "savings provisions" of section 705(b) of the DOE Act provide that proceedings pending before the FPC on the date the DOE Act takes effect shall not be affected and that orders shall be issued in such proceedings as if the DOE Act had not been enacted. All such proceedings shall be continued and further actions shall be taken by the appropriate component of DOE now responsible for the function under the DOE Act and regulations promulgated thereunder. The functions which are the subject of these proceedings were specifically transferred to the FERC by section 402(a)(1) of the DOE Act.

The joint regulation adopted on October 1, 1977, by the Secretary and the FERC entitled "Transfer fo Proceedings to the Secretary of Energy and the FERC," 10 CFR ——, provided that this proceeding would be continued before the FERC. The FERC takes action in this proceeding in accordance with the above mentioned authorities.

PROCEDURAL HISTORY

On September 6, 1977, Kansas Gas and Electric Co. (KG&E) tendered for filing a proposed rate increase for wholesale electric service rendered to twenty-four (24) municipal systems,[1] eight (8) rural electric cooperatives,[2] and two (2) private utility companies.[3] The proposed rates would result in an increase of revenues of about $5,298,060.[4]

On September 26, 1977, the Cities of Iola, Augusta, Chanute, Coffeyville,

---

[1] Kansas Cities of Augusta, Burlington, Chanute, Coffeyville, Fredonia, Girard, Iola, Mulvane, Neodesha, Wellington, Winfield, Arcadia, Arma, Blue Mound, Bronson, Elsmore, Erie, Haven, La Harpe, Mindenmines, Moran, Mount Hope, Mulberry, and Savonburg.

[2] The Butler Rural Electric Cooperative Association, Inc., The Caney Valley Electric Cooperative Association, Inc., Coffey County Rural Electric Cooperative Association, Inc., The Radiant Electric Cooperative, Inc., The Sedgwick County Electric Cooperative Association, Inc., The Sekan Electric Cooperative Association, Inc., Summer-Cowley Electric Cooperative, Inc., and United Electric Cooperative, Inc.

[3] Missouri Public Service Co. and the Kansas Power and Light Co.

[4] By letter dated October 6, 1977, we informed KG&E of certain deficiencies in its filing. KG&E cured the deficiencies by November 9, 1977.

Girard, Mulvane, Neodesha, Winfield, Bronson, and Erie filed a Motion to Reject, Protest and Petition to Intervene. The Motion to Reject was based on the assertion that the filing was in violation of the *Mobile-Sierra* doctrine.[5] On the same day, the company's eight cooperative customers (Coops) filed a Protest and Petition to Intervene.[6] The Coops did not raise the fixed rate, fixed term issue.

By order issued December 8, 1977, the Commission, inter alia, conditionally accepted the company's filing pursuant to Section 205, pending review of the contracts in light of the *Mobile-Sierra* allegation.[7] We also ordered KG&E to file all supplemental agreements to the contracts.

On January 3, 1978, KG&E filed an answer to Cities' consolidated motions in which it addresses the *Mobile-Sierra* issue. Further, KG&E states that its filing is not deficient, that the proposed increase in rates is neither discriminatory nor anticompetitive and that the effective date for the proposed increase should be within 30 days of the date of filing.

On January 6, 1978, Cities filed a Petition for Rehearing of the December 8, 1977, order in this docket and a reply to KG&E's answer. In the pleading, Cities argued that KG&E has not complied with either the Federal Power Act of the Commission's Regulations regarding the filing of its contracts. In support, Cities state that the company has not filed its Amendment No. 2 to the contracts of Iola, Burlington, Winfield, Coffeyville, Chanute, Girard, Neodesha and Wellington, Kans.

Mobile-Sierra Issue

Cities contend that each of the contracts between KG&E and rate increase pursuant to section 205 of the Federal Power Act. In sum, Cities argue that the Company's filing is in violation of the *Mobile-Sierra* doctrine.

The rule of *Mobile-Sierra* is that the Commission has no power under the Act to accept for filing rates that contravene existing contracts. That doctrine broadly holds that the contracts govern the legality of rate filings.[8] The Commission must summarily reject rate filings inconsistent with outstanding fixed-rate contracts whether or not the contracts have been filed with the Commission.[9]

Moreover, we are under a duty to determine whether proposed rate increases conflict with any existing contractual arrangements between KG&E and each of its customers regardless of whether they have raised the issue in their pleadings.[10] *Sam Rayburn Dam Electric Cooperative* v. *FPC*, 515 F. 2d 998, 1009 (CADC 1975). To this end we have examined each of the contracts and subsequent amendments between KG&E and its customers in this docket in order to determine if the Company's filing is consistent with its contractual obligations.

(1) Bronson-type Contracts

We initially turn to the contract provisions found in the agreements between KG&E and the Cities of Bronson, Arma, Mulberry, Savonburg, Arcadia, Elsmor, Haven, LaHarpe, Mt. Hope, Moran, and Blue Mound, Kans., and Mindenmines, Mo. These cities are grouped together because their contracts with KG&E contain identical language.

For example, Bronson entered into an Agreement for Wholesale Electrical Service with KG&E on February 1, 1968. The salient contract provision reads:

> Company's Rate Schedule PWM-268, as well as its Service Regulations, is expressly subject to change pursuant to orders of the State Corporation Commission or any other governmental body having jurisdiction. Any such change so ordered or approved shall affect this agreement only with respect to the portion or subject matter so changed, all other portions or provisions remaining in full force and effect, both parties reserving the right to contest the validity of any such orders or approvals in the courts.

Cities interpret this provision as allowing the Company to change its rate only after the issuance of a Commission order pursuant to Section 206. On the other hand, KG&E argues that this provision, when read with subsequently filed rate schedules, authorizes the company to file unilaterally under Section 205.

The Company's argument is predicated primarily on the language in Rate Schedules PWM-173 and PWM-575 which were unexecuted and unilaterally filed by the Company.[11] The key provision provides that "the company reserves the right to seek unilateral changes or substitutions, in accordance with law, from such regulatory authority."

Admittedly the provision in PWM-173 allows the Company to file under section 205, but we cannot allow KG&E to improperly use the Commission's statutory filing mechanism to circumvent and subordinate the broad and familiar dictates of contract law.[12] A properly executed contract amendment explicitly recognizing KG&E's right to file unilaterally pursuant to section 205 would have been an appropriate and acceptable method for KG&E to obtain the right to file unilaterally. But this is not the factual scenario in the instant case.

We find that the February 1, 1968, contract governs the contractual arrangement between KG&E and Bronson. Contractual provisions containing similar language have consistently

---

[5] The Cities also alleged that KG&E's filing failed to conform with the Commission's Rules of Practice and Procedure and that the rate increase was discriminatory and anti-competitive. Errata Amendment to Motion to Reject was filed on September 27, 1977 by the Cities. It added the City of Burlington, Kans., to the list. Further, on December 1, 1977, the Cities filed an amendment and supplement to its Motion to Reject which raises additional arguments in support of its *Mobile-Sierra* allegation. *FPC* v. *Sierra Pacific Power Company* 350 U.S. 348 (1956) and *United States Gas Pipe Line Company* v. *Mobile Gas Service Corp.*, 350 U.S. 332 (1956). The amendment added the Cities of Wellington, Arma, Elsmore, Haven, La Harpe, Mount Hope, Moran and Blue Mound, Kans. Although our December 8th order in this docket implied that additional issues were raised in this amendment, we find that the Cities' filing presented no substantive issues not raised in its September 26th Motion.

[6] Also, a Notice of Intervention by the State Corporation Commission of the State of Kansas and four protests were filed in this docket. See our order issued December 8, 1977, in this docket for a discussion of the protests.

[7] In the December 8th order, we also suspended the proposed increased rates until January 9, 1978 on which date they became effective subject to refund; established price squeeze procedures pursuant to Order No. 563; granted the petitions for intervention, and held that KG&E had substantially complied with our filing requirements.

[8] The Court of Appeals in *Richmond Power & Light of Richmond, Ind.* v. *FPC*, 481 F. 2d 490, 493 (D.C. Cir. 1973) has clearly enunciated the rule for us to follow: "The rule * * * is refreshingly simple: the contract between the parties governs the legality of the filing. Rate filings consistent with contractual obligations are valid; rate filings inconsistent with contractual obligations are invalid * * *" Our regulations recognize that contracts between the parties govern the legality of rate filings. A public utility company filing either a new or a revised rate schedule must "show that all requisite agreement to the rate schedule or the filing thereof, including any contract embodied therein, has in fact been obtained." 18 CFR section 35.12(a) and 35.13(a)(1977).

[9] *Borough of Lansdale, Pa.* v. *FPC*, 494 F. 2d 1104, 1114 (D.C. Cir. 1974).

[10] See, *Louisiana Power & Light Company*, Docket No. ER77-533, order issued November 21, 1977. Appeal pending *sub nom. Louisiana Power & Light Company* v. *FERC* (5th Cir. No. 77-3452).

[11] Rate Schedule PWM-173 was filed on November 8, 1972 and Rate Schedule PWM-575 was filed with the FPC on March 31, 1975. The key provision reads in its entirety as follows: "The rates and any terms or conditions provided herein are subject to changes or substitutions either in whole or in part, made from time to time by a legally effective filing of the Company with, or by order of, the regulatory authority having jurisdiction, *and the Company reserves the right to seek unilaterally changes or substitutions, in accordance with law, from such regulatory authority.*" (Emphasis added.)

[12] *Richmond Power & Light of Richmond, Ind.* v. *FPC*, 481 F. 2d 490 (D.C. Cir. 1973).

been held not to reserve the right to make a section 205 rate filing.[13]

We reject KG&E's section 205 rate filing as to these cities and we shall institute a section 206 proceeding applying the just and reasonable burden of proof, with all changes to be prospective in application.

(2) IOLA-TYPE CONTRACTS

The contractual relationship between KG&E and the cities of Iola, Fredonia, Burlington, Winfield, Coffeyville, Chanute and Girard, Kans., are identical. We traced the changes of the contractual terms in successive agreements between KG&E and Iola, for these also exemplify the other cities' negotiating histories.

KG&E and Iola first entered into a contract on April 13, 1962. The Iola contract contains the following language in Article IX entitled *Commission and Other Approval:*[14]

This contract and all obligations hereunder are conditioned upon the valid orders of and the granting of approval and authorization by, any Commission, or other regulatory body, having jurisdiction or whose approval or authorization may be required by law.

In order to bring the contractual arrangement into sharper focus, Article IX must be juxtaposed with the Service Schedule referenced in the April 13th contract.[15] In section 4 entitled "Term", the parties bargained for the right to seek a revision of the rates if there is a material increase or decrease in the cost of rendering service.

The contract provision further provides that neither party could request a revision of the rates more often than once every five years after the initial five year period. Additionally, the section states that any disputes as to the rate change would be submitted to binding arbitration.

Cities interpret the above contractual provisions as prohibiting the proposed rate increase from becoming effective until a Commission order has been issued under section 206 of the Act. Moreover, Cities argue that the Company must meet the stricter *Mobile-Sierra* burden of proof.[16] In support of this position, Cities state that the contract is fixed term and fixed rate and that the rates could only be changed through binding arbitration.

In its answer, KG&E requests that the Commission either accept the proposed rate change pursuant to section 205 or, alternatively, institute a section 206 proceeding applying the just and reasonable burden of proof.

Article IX of the Iola contract is silent as to future rate changes.[17] However, we interpret the contractual provisions in the Service Schedule to provide that the rate may be changed either after a negotiated agreement or after binding arbitration.

The Service Schedule also provides that neither party can seek more than one rate revision in a five year period. KG&E's present request is its second in the past five years for these cities. KG&E filed for its last rate increases on July 14, 1975.

In order to be consistent with the underlying contractual arrangement between the parties, we must reject KG&E's section 205 filing. We shall institute a section 206 proceeding. However, we cannot apply the just and reasonable standard under the circumstances in the instant case. Rather, we shall apply the stricter *Mobile-Sierra* standard. KG&E must prove during the proceeding that the contract rate is so low as to adversely affect the public interest.

(3) NEODESHA-TYPE CONTRACTS

Turning to the Agreements between KG&E and the cities of Mulvane, Neodesha and Wellington, we find that the language in these three contracts is similar.[18]

The Cities contend that the contract provisions in question prohibit KG&E from filing pursuant to section 205. KG&E requests that the Commission accept its section 205 filing as to these cities or, alternatively, institute a section 206 proceeding applying the just and reasonable standard.

KG&E and Neodesha executed a contract on March 22, 1972. The salient provision—Article IX—which governs future rate changes reads: This Agreement and all obligations hereunder are subordinate to, subject to and conditioned upon the valid orders (including but not necessarily limited to

---

[13] *Louisiana Power and Light Company*, Docket No. ER77-533, order issued November 21, 1977; *Detroit Edison Company*, Docket No. ER77-264, order issued June 30, 1977, and *Indiana and Michigan Electric Company*, Docket No. E-7740, order issued June 3, 1974.

[14] Clearly, the Company's right to change its rates has been an issue during the negotiations between the parties. Amendment No. 1 to the contract which was undated, unexecuted and unilaterally filed with the Commission changed Article IX to provide that the Company had the right to file unilaterally for a rate increase. The salient provision reads: "The rates and any terms or conditions provided herein are subject to changes or substitutions, either in whole or in part, made from time to time by a legally effective filing by the Company with, or by order of, the regulatory authority having jurisdiction, and the Company reserves the right to seek unilaterally changes or substitutions, in accordance with law, from such regulatory authority." However, Amendment No. 2, which was executed February 27, 1973 modified Article IX to read as it read in the April 13th contract. Although we ordered KG&E to file all supplemental agreements within fifteen (15) days of our December 8th order in this docket, the Company has not filed this amendment. The Cities attached a copy of Amendment No. 2 of the Iola contract to its Amendment and Supplement to The Motion to Reject, Protest and Petition to Intervene.

[15] This Service Schedule was superseded by Service Schedule A which was executed on May 20, 1968. However, Section 4 was unaltered in the superseding schedule and reads: "This Service Schedule shall become effective concurrently with the Interconnection Contract dated April 13, 1962, of which this Service Schedule is a part and shall continue for a period of twenty-five years and thereafter until terminated by either party upon twelve (12) months written notice to the other. *In the event that the costs of rendering service under this Schedule are materially increased or decreased, either party may request a revision of the rates as set forth in Section 2 at or after the end of the fifth year of the term, but not oftener than once each five years thereafter.* Such revision shall be negotiated between the parties hereto in an effort to agree upon a revised rate which will equitably reflect the changed condition. Written notice of a desire to revise the rate and the reason therefor shall be given by the party desiring the revision to the other, and in the event the parties are unable to agree within thirty (30) days thereafter, the dispute shall be submitted to arbitration. The American Arbitration Association of New York shall designate the arbitrators and their fees and expenses shall be borne equally by the parties. Such arbitrators will commence hearings within thirty (30) days after the conclusion of the hearing or hearings, they shall deliver a written report of their decision to each party which shall be binding (sic) upon both parties." (emphasis supplied)

[16] In the *Mobile* case, supra, footnote 5, the Supreme Court in referring to Section 5(a) of the Natural Gas Act (Same as Section 206(a) of the Federal Power Act) stated: "And, if the Commission, after hearing, determines the contract rate to be so low as to conflict with the public interest, it may under Section 5(a) authorize the Natural gas company to file a schedule increasing the rate." The Court then outlined the standard by which the Commission should discharge its duty under section 206(a) to reform fixed rate contracts: "In such circumstances, the sole concern of the Commission would seem to be whether the rate is so low as to adversely affect the public interest . . . as where it might impair the financial ability of the public utility to continue its service, cast upon other customers an excessive burden, *or be unduly discriminatory.*" (Sierra, supra, 350 U.S. at 355.)

[17] Compare the Iola-type provision with the pertinent clause in the Bronson-type contracts. That provision provides that the rate schedule is "expressly subject to change pursuant to orders of the State Corporation Commission or any other governmental body having jurisdiction." The Iola provision is silent as to change.

[18] Wellington's contract with KG&E (executed January 7, 1963) contains slightly different language. The import of Wellington's contract is the same as the contracts between KG&E and the other two cities.

orders fixing or approving rates and/or standards and conditions of service) of, and the granting of approval and authorization by any Commission or other regulatory body having rate making and/or other jurisdiction or whose approval or authorization may be required by law including any judicial review thereof.[19]

This provision indicates that the parties bargained for and obtained the right to request a rate change pursuant to section 206. Our interpretation is underpinned by the parenthetical provision that explicitly includes orders fixing or approving rates. Accordingly, we reject KG&E's filing as to these cities and we shall institute a section 206 proceeding applying the just and reasonable standard. The proposed rates will be prospective in application.

(4) ERIE AND AUGUSTA CONTRACTS

The Erie Contract for wholesale service with KG&E was executed on November 7, 1974. The contract language is identical to that in the Bronson-type contracts except that the contract referenced rate schedule was PWM-173 which provides that the "company reserves the right to seek unilaterally changes or substitutions, in accordance with law, from such regulatory authority."

Cities argue that the apparent conflict concerning the manner in which contractual changes can be instituted should be resolved in favor of the Bronson-type clause. Cities, in posturing this argument, incorrectly state tht Paragraph 1 of the contract is drafted with greater specificity than the pertinent clause in PWM-173 and, therefore, it should be controlling.

In reading the provisions in question, we find that the provision entitled *Commission and Other Approval* in PWM-173 is more explicit than paragraph 1 in describing the manner in which changes in rates may be made.[20] Clearly, KG&E bargained for and obtained the right to unilaterally change its rates.

We deny Cities' Motion to Reject KG&E's section 205 rate filing as to Erie.

KG&E and the Cities agree that the contract between the Company and Augusta permits the Company to make unilateral filings pursuant to section 205.[21] However, Cities argue that the section 205 filings as to Augusta must be rejected on the ground that it would be discriminatory to now allow the Company to increase its rates only for the city of Augusta. In support of this argument, Cities state that section 205(b) of the Act precludes KG&E from unduly discriminating against customers of the same class.

In the same vein, KG&E contends in its answer that the Commission should accept its filing under section 205 for all cities in order to avoid discrimination among its customers of the same class.[22] Implicit in Cities and KG&E's arguments, is the incorrect proposition that section 205(b) requires the Commission to interpret the contracts of all customers in the same class with absolute uniformity, notwithstanding the contractual provisions. Indeed, such a position would require the abrogation of contract rights to insure absolute uniformity of treatment.

The Supreme Court held in the *Mobile* case that the Act "expressly recognizes that rates to particular customers may be set by individual contracts."[23] The various contracts in the instant case mirror how similarly situated customers through either clearer foresight or shrewder bargaining have obtained differing advantages as to the Company's right to seek any future change in rates.

Consistent with section 205(b), we may interpret some of KG&E's contracts as fixed rate and others as non-fixed rate. We find that Cities have not shown that KG&E unduly discriminated in violation of section 205(b) by contracting for a fixed rate with some customers and a non-fixed rate with others.

We accept KG&E's section 205 filing for the City of Augusta. The proposed rates will be effective as of January 9, 1978, subject to refund.

(5) COOPERATIVES' AND PRIVATE COMPANIES' CONTRACTS

In examining the contractual arrangements between KG&E and its cooperative customers, we view the bargaining scenario as virtually the same for all eight cooperatives.

For example, Caney Valley Electric Cooperative Association (Caney Valley) entered into its original contract with KG&E on April 18, 1950. The key provision dealing with future contract changes read:

> This agreement is subject to the present and future lawful orders, rules and regulations of the State Corporation Commission of Kansas and of any other regulatory body having jurisdiction.

During the next twenty-three (23) years, KG&E and Caney Valley executed nineteen (19) amendments to the original contract. On January 10, 1973, a unilaterally filed, unexecuted rate schedule (REC-173) became effective. The rate schedule contained a provision that reserves to the Company "the right to seek unilaterally changes or substitutions, in accordance with law, from such regulatory authority."[24] On February 1, 1975, KG&E filed another unexecuted rate schedule (REC-375) containing the same language.

As stated above, we cannot rely upon an unexecuted, unilaterally filed rate schedule as a substitute for a validly executed contract amendment. The original contract provision governs the legality of KG&E's filing. We find that the Company apparently did not bargain for the right to file pursuant to section 205. The rate increase will be prospective in application.

Finally, we turn to the contrac- tual arrangements between KG&E and two investor-owned utilities—Kansas Power and Light Co. (KP&L) and Missouri Public Service Co. (Missouri). KG&E's contractual arrangements with these two companies are similar.

On June 27, 1967, KG&E validly executed a modification of its agreement with KP&L. The key provision provided that "Rate Schedule PWM-564 is expressly subject to change by the orders of any governmental body having jurisdiction." This clause is identical to the Bronson-type provisions. KG&E on November 8, 1972, unilaterally filed an unexecuted rate schedule with a clause that reserved to the company the right to file unilaterally. For the reasons expressed above, we find that the existing contractual provisions between KG&E and each of the two investor-owned utilities will be contravened if the Commission accepts KG&E's rate filing under section 205.

However, the Coops and the two investor-owned utilities have not contended that KG&E's filing is in violation of their understanding of the contractual arrangement.

---

[19] Clearly, Article X has been a focal point of the parties negotiations. KG&E unilaterally filed an unexecuted Amendment 1 to the contract with Neodesha. The language is identical to Amendment No. 1 to the Iola contract (Footnote 14, *supra*). *On March 5, 1973, KG&E and Iola executed Amendment No. 2 reinstating the original language in Article X. In examining Mulvane's contracts we found that KG&E and Mulvane never changed through the amendment process their original contract language in Article X.*

[20] The Bronson-type contract which was executed by both parties provides in Paragraph 1 that PWM-173 is to be incorporated and made a part of the agreement.

[21] The contract was executed July 2, 1974, and contains in Article X both a Neodesha-type provision and a clause identical to the one in PWM-173 which specifically reserves to KG&E the right to seek a unilateral change in rates.

[22] KG&E argues in the alternative that the rates should become effective pursuant to section 205 for the "Erie Cities" and that the Commission should institute a section 206 proceeding for the "Iola Cities" in order to avoid any discriminatory effect.

[23] *Mobile*, supra, 350 U.S. at 338.

[24] The contract provision is identical to the one in PWM-173 set forth in its entirety at Footnote 11, *supra*.

In order to assure the correctness of our interpretation of the contract, we will permit KG&E's filing, insofar as it applies to the Coops and the two investor-owned utilities to become effective subject to refund, under section 205 of the Act, unless these customers within thirty (30) days from the date of the issuance of this order specifically notify the Commission that our interpretation of the contract to preclude a section 205 filing is the intent of the parties.

In the event these customers concur with our interpretation of the contractual arrangements, we shall reject KG&E's section 205 rate filing and institute a section 206 proceeding applying the just and reasonable burden of proof with all rate charges to be prospective in application.

PETITION FOR REHEARING OF DECEMBER 8th ORDER

In its Petition for Rehearing, Cities request that the Commission extend the suspension period. In our December 8, 1977, order, we suspended the proposed increased rates until January 9, 1978, when they became effective, subject to refund.

In support of its request, Cities contend that the suspension period should be extended to permit the Commission time to consider the *Mobile-Sierra* issue. It is well established that decisions regarding the necessity and length of rate increase suspension lie within the sound discretion of the Commission. A review of the record in this proceeding reveals that the Commission acted properly in suspending the rates until January 9, 1978. *Municipal Light Boards, v. FPC*, 450 F.2d, 1349-52 (D.C. Cir. 1971), cert. denied 405 U.S. 989 (1972).

Another primary argument by Cities is that the Commission should reject KG&E's filing for failure to comply with section 35.13(a) of the Commission's Regulations. Cities aver that KG&E has not filed its Amendment No. 2 to the contracts of eight of its customers. Although on page 6 of its Answer KG&E admitted that Amendment No. 2 was executed by the parties, the Company has failed to file these documents. Notwithstanding this filing deficiency, we find that it would not be in the public interest to reject KG&E's filing since refiling would only increase the costs to consumers. Therefore, we shall accept KG&E's submittal for filing and deny Cities' Motion for Rehearing of the December 8th order.

In the December 8th order, we ordered KG&E to submit for filing within 15 days from the issuance date of that order all supplemental agreements to the contracts. The Company has failed to comply with this order. KG&E is subject to a statutory obligation to file any new or altered contract which it has negotiated. Breach of the filing obligations gains the company nothing.[25]

(2) Good cause exists to reject KG&E's proposed rate increase pursuant to section 205 of the Act, for all its customers in this docket except the cities of Erie and Augusta, Coops KP&L and Missouri.

(3) Good cause exists to institute a section 206 proceeding applying the just and reasonable burden of proof with all rate changes to be prospective in application for the cities of Bronson, Arma, Mulberry, Savonburg, Arcadia, Elsmore, Haven, La Harpe, Mt. Hope, Moran and Blue Mound, Kans., and Mindenmines, Mo.

(4) Good cause exists to institute a section 206 proceeding applying the *Mobile-Sierra* burden of proof and with all rate changes to be prospective in application for the Cites of Iola, Fredonia, Burlington, Winfield, Coffeyville, Chanute and Girard, Kans.

(5) Good cause exists to deny Cities' Petition for Rehearing of our December 8, 1977 order in this docket.

(6) Good cause exists to require KG&E to refund all amounts collected, if any, since January 9, 1978, under the subject rate schedules to all of its customers except Augusta and Erie.

(7) Good cause exists to order KG&E to file all supplemental agreements to its contracts with its wholesale customers and to institute enforcement proceedings under Section 314 and Section 316 of the Act if they fail to comply with this order.

The Commission orders: (A) The Cities' Motion to Reject is hereby granted in part and denied in part as provided herein.

(B) If either Coops, KP&L or Missouri notifies the Commission within thirty (30) days of the date of issuance of this order and states with specificity that its interpretation of the contract provisions in question is to preclude KG&E from making a Section 205 filing then this order insofar as it allows KP&L to file pursuant to section 205 will be voided and a section 206 proceeding will be instituted applying the just and reasonable rate.

(C) Ordering Paragraph (B) in the Commission's December 8, 1977, order in this docket is terminated as it pertains to all of KG&E's customers in this docket except Augusta, Erie, Coops, KP&L and Missouri. As to these customers, the pargraph is modified to grant unconditional acceptance for filing.

(D) Pursuant to the authority of section 206 of the Federal Power Act, an investigation is ordered to determine the just and reasonable rates to be charged the cities of Bronson, Arma, Mulberry, Savonburg, Arcadia, Elsmore, Haven, La Harpe, Mt. Hope, Moran and Blue Mound, Kans., and Mindenmines, Mo. The investigation will be based on KG&E's September 6, 1977 filing and KG&E shall gave to meet the just and reasonable burden of proof.

(E) Pursuant to the authority of section 206 of the Federal Power Act, an investigation is ordered to determine the just and reasonable rates to be charged the cities of Iola, Fredonia, Burlington, Winfield, Coffeyville, Chanute, and Girard, Kans. The investigation will be based on KG&E's September 6, 1977, filing and KG&E shall have to meet the *Mobile-Sierra* burden of proof.

(F) The Cities' Petition for Rehearing of the Commission's December 8, 1977 order is hereby denied.

(G) KG&E shall refund with appropriate interest, within 30 days all amounts collected, if any, under the subject rate schedules to all of its customers except Augusta and Erie.

(H) KG&E shall file within 30 days of the issuance of this order all supplemental agreements to its contracts with its wholesale customers. If the Company fails to file, we shall institute an enforcement proceeding pursuant to section 314 and section 316.

(I) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

LOIS D. CASHELL,
Acting Secretary.

[FR Doc. 78-3274 Filed 2-6-78; 8:45 am]

[25] In *Natural Gas Pipeline Co. of America v. Harrington*, 246 F.2d 915, 919 (5th Cir. 1958) cert. denied, 356 U.S. 957, 78 S.Ct. 992, 2 L.Ed. 2d 1065 (1958), the court stated: "The failure to file (a rate contract) earlier, however, did not prevent the jurisdiction of the Commission from attaching * * * (U)nder the rationale of *United Gas Pipe Line Co. v. Mobile Gas Corp., supra*, the contract rate, even though unfiled, became and remained the only lawful rate until changed by order of the Federal Power Commission. * * *"

[Docket No. ER78-68]

OKLAHOMA GAS & ELECTRIC

Extension of Time

JANUARY 31, 1978.

On January 20, 1978, Oklahoma Gas & Electric Co. (OG&E) filed a motion to extend the time for filing the rates and cost support required by Commission Order issued November 30, 1977, in Docket Nos. ER77-422, ER78-20, and ER78-49. The motion states that Staff Counsel and counsel for the Southwestern Power Administration do not object to the requested extension.

On January 24, 1978, the municipalities of Clarksville and Paris, Ark., and Commanche, Copan, Duncan, Eldor-

ado, Goltry, Granite, Lexington, Manitou, Olustee, Purcell, Ryan, Skiatook, Spiro, Walters, Wetumka, and Yale, Okla. (Municipal Customer Group) filed comments to OG&E's January 20 motion. The comments state that it is the position of the Municipal Customer Group that delays in this proceeding should be kept to an absolute minimum.

Upon consideration, notice is hereby given that an extension of time is granted to and including March 1, 1978, within which OG&E shall file the rates and cost support required by the November 30, 1977, Order.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-3270 Filed 2-6-78; 8:45 am]

[6740-02]

[Docket No. ER77-86]

SOUTHERN CO. SERVICES, INC.

Accepting Comments Out of Time

JANUARY 31, 1978.

On January 23, 1978, Staff Counsel filed a motion to extend the time for filing comments on the proposed settlement agreement filed by Southern Co. Services, Inc., on December 7, 1977, and noticed on December 22, 1977, in the above referenced proceeding.

Upon consideration, notice is hereby given that the comments filed by Staff Counsel on January 23, 1978, are accepted out of time.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-3271 Filed 2-6-78; 8:45 am]

[6740-02]

[Docket No. ER78-145]

ARIZONA PUBLIC SERVICE CO.

Order Accepting in Part, Rejecting in Part, Suspending Proposed Rate Increase, Granting Intervention, Waiving Regulation, Denying Motions To Reject, Providing for Hearing, and Establishing Procedures

JANUARY 30, 1978.

On December 22, 1977, Arizona Public Service Co. (APS) tendered for filing proposed revised rate provisions applicable to 19 wholesale customers,[1] which would increase revenues to APS by approximately $10,270,238 based on the 12-month period ending January 31, 1979.

Public notice of the filing was issued on January 4, 1978, with all protests or petitions to intervene required to be filed on or before January 19, 1978. On January 16, 1978, Citizens Utility Co. (Citizens) filed a petition to intervene in these proceedings. On January 19, 1978, the following documents were filed by the designated parties: Petition To Intervene and Protest of Arizona Power Authority (APA) and Wellton-Mohawk Irrigation and Drainage District (Wellton-Mohawk); Petition for Leave To Intervene and Protest of Maricopa County Municipal Water Conservation District No. 1 (Maricopa); Petition To Intervene and Motion To Reject of Papago Tribal Utility Authority (PTUA); Petition of the city of Wickenburg, Ariz. (Wickenburg) for Leave To Protest, Intervene, Motion To Reject Filing, and in the Alternative, Request for Suspension of Rate Schedule; Protest, Petition To Intervene, Motion To Reject, or in the Alternative, Request for Hearing and Suspension for Maximum Period of Arizona Electric Power Cooperative, Inc. (AEPC) and Navopache Electric Cooperative, Inc. (Navopache). Late petitions for leave to intervene and protest were filed on January 20, 1978, by Electrical District No. 3 (ED 3), Electrical District No. 6 (ED 6), Electrical District No. 7 (ED 7), Roosevelt Irrigation District (RID), and Buckeye Water Conservation District (Buckeye), and by Electrical District No. 1 (ED 1).[18]

In these various submittals each of the petitioners states, inter alia, that it is substantially effected by the increased rates proposed by APS in this docket and that its interests will not be adequately represented by any existing party to this proceeding. As to each of these wholesale customers of APS, intervention status will be granted as hereinafter ordered.

APS requests an effective date of February 1, 1978, for 13 of the 19 customers involved in this filing. As to the other six customers, namely: Electric District No. 3 (FPC No. 12), Electric District No. 7 (FPC No.13), Maricopa County Municipal Water Corporation District No. 1 (FPC No. 14), Roosevelt Irrigation District (FPC No. 15), Buckeye Water & Drainage District (FPC No. 16), and Electric District No. 6 (FPC No. 6), APS acknowledges that the proposed rates cannot become effective until the conclusion of an investigation concerning the reasonableness of the rates pursuant to Section 206 of the Federal Power Act. As previously noted by the FPC in orders issued in Docket Nos. ER76-530[2] and ER77-521[3] contractual arrangements between APS and these customers provide only for prospective application of rate increases. Accordingly, the rates proposed herein for sales and service to these six customers shall not become effective pending final Commission determination of the just and reasonable rate level under Section 206 of the Act.

In contrast, no contractual proscription would prevent APS from unilaterally filing proposed rate increases applicable to the remaining 13 customers involved in this docket. In reviewing APS' contracts with all but two of these 13 customers in proceedings involving the Company's previous general wholesale rate increase, the FPC, finding no obstacle to such unilateral filings, accepted the proposed rate increases to these customers for filing, suspended them, and permitted them to become effective, subject to refund.[4] The two additional customers, the Colorado River Indian Irrigation Project (Colorado) and the San

[1] See, Appendix A for Rate Schedule Designations.

[18] Maricopa ED1, ED3, ED6, ED7, RID, and Buckeye state that their petitions and protests incorporate by reference the protest filed jointly in this docket by APA and Wellton-Mohawk. Similarly, Wickenburg asserts that it joins with the objections of AEPC and PTUA.

[2] Order issued March 31, 1976; order issued September 28, 1976. The order of March 31 construed APS' contracts with four of these customers as contemplating a section 206 proceeding and a Commission decision establishing just and reasonable rates prior to rendering the proposed rates effective. The FPC provided for the initiation of a section 206 investigation into the rates proposed by APS for Electrical District No. 3, Electrical District No. 6, Roosevelt Irrigation District, and Maricopa County Municipal Water Conservation District No. 1. See, *United Gas Pipeline Co.* v. *Mobile Gas Service Corp.*, 350 U.S. 332 (1956); *F.P.C.* v. *Sierra Pacific Power Co.*, 350 U.S. 348 (1956). Electrical District No. 7, which had inadvertently been omitted from this group of customers, was included by a later order issued on September 28, 1976.

[3] Order issued September 26, 1977, denying in part and granting in part motions for reconsideration of FPC order issued August 1, 1977. In its order of September 26, the FPC indicated that APS' contract with Buckeye Water Conservation & Drainage District (Buckeye) contained the same rate change language as did the contracts with the customers listed in note 2, supra. Consequently, the FPC added Buckeye to the list of customers for whom rate increases could become effective only after section 206 proceedings.

[4] Order issued March 31, 1976, in Docket No. ER76-530. Although the March 31 order rejected the rate filing as to the town of Wickenburg, Ariz. (FPC No. 34) and deferred decision on a motion to reject the filing as to Navopache Electric Cooperative (FPC No. 17), a subsequent order issued May 14, 1976, accepted these rates for filing, subject to suspension and a refund obligation. Wickenburg's protest was assigned Docket No. ER76-626 and the order of May 14 consolidated this docket with Docket No. ER76-530. In addition, APS states in its present filing that its contracts with these two customers have since expired or been cancelled in accordance with their own terms and, consequently, no contractual language precludes a unilateral rate filing by APS.

Carlos Indian Irrigation Project (San Carlos) are subject to Rate Schedules which were not in existence at the time of APS' earlier general rate proposal.[5] In its present filing, APS suggests that contracts with both Colorado and San Carlos contain language which substantially conforms to the rate change provisions set forth in Section 35.1(d)(2) of the Commission's Regulations and therefore permit unilateral rate filings by the Company. We agree with this assertion and note further that, by FPC order issued June 30, 1976, the rate schedules for both of these customers were accepted for filing and the subject dockets were consolidated for purposes of hearing and decision with the general wholesale rate proceedings.[6]

Two customers of APS, the Papago Tribal Utility Authority (PTUA) (FPC No. 52) and Electrical District No. 1 (ED 1) (FPC No. 68), dispute the FPC's prior determination that their contracts with APS permit unilateral rate change filings, and have challenged this conclusion before the U.S. Court of Appeals for the District of Columbia. PTUA renews this argument in its January 19, 1978 petition in the instant docket and thus moves to reject APS' filing insofar as it pertains to PTUA. Pending a judicial decision to the contrary, we find no reason to deviate from the conclusion reached by the FPC that APS may unilaterally file rate changes for both PTUA and ED 1 and we shall therefore deny PTUA's motion to reject the filing as to PTUA. In its present filing, APS requests that in the event the court reverses the FPC's holding, the Commission should construe the filing with respect to PTUA and ED 1 as a request for a rate change order under section 206 of the Federal Power Act. At this juncture, APS' request is both premature and speculative and we shall deny it without prejudice to APS' right to reinstate its request if a court decision adverse to the FPC's earlier holding renders our consideration of this matter appropriate.

While conceding that its contract with Citizens contains rate change language similar to the provisions in its agreements with PTUA and ED 1, APS states that a resolution of the pending appeal in favor of these two customers should not prevent its unilateral filing as to Citizens. In support of this proposition APS asserts that Citizens has not heretofore joined PTUA and ED 1 in their challenges to APS' right to make such unilateral rate filings either in prior FPC proceedings or before the appellate court. Appended to APS' letter of transmittal accompanying the present rate filing are various correspondence which, according to APS, demonstrate that both Citizens and APS have interpreted their contract as having been intended to permit unilateral rate change filings after the first year of its term. In its January 16 petition to intervene, Citizens contests the contention that it would be unaffected by the outcome of the judicial proceedings. We believe that Citizens' objection is premature.

APS aptly notes that its proposed rate increase as to ED 1 assumes a unique posture in these proceedings. An FPC order issued August 1, 1977, in Docket No. ER77-521, accepted for filing a proposed rate increase to ED 1 which APS tendered on July 21, 1977, and suspended those rates until February 1, 1978, when they are to become effective, subject to refund.[7] Because the rate change provisions in the instant docket pertaining, in part, to ED 1, were tendered for filing within the period of suspension, APS requests waiver of the provisions of section 35.17(b) of the Commission's Regulations which provide as follows:

> A public utility may not, within the period of suspension, file any change in the rate schedule or part thereof which has been suspended by order of the Commission except by special permission of the Commission granted upon application therefor and for good cause shown.[8]

In support of its request for waiver, APS states that the increase proposed for ED 1 in the present filing is "inclusive of the increase under suspension" and that, in the interest of expedition, the Commission should simultaneously consider the rate increase applications for all of APS' wholesale customers subject to section 205 filings. Furthermore, APS expresses apprehension concerning the possibility that if a filing applicable to ED 1 is tendered on or after February 1, 1978, the Commission might not allow APS to rely upon its Period I data since that data, compiled for the 12-months ended June 30, 1977, will be one day more than seven months old on February 1, 1978, and thus out of date under section 35.13(b)(4)(iii) of the Commission's Regulations. Thus, APS notes that a separate filing and hearing might be necessary for ED 1. In its protest of January 20, 1978, ED 1 submits that APS has not shown good cause for its requested waiver and has not demonstrated the need for three rate cases initiated by APS, two of which involve the same customers, to be pending at the same time.

Under the circumstances, APS has sufficiently satisfied the requisite showing of good cause for waiver of the section 35.17(b) restriction. As APS states, it will be free to tender its requested increase for ED 1 in a matter of weeks. At such time, however, APS would be required to seek waiver of the seven month limitation contained in section 35.14(b) (4) (iii) or to revise its period I data so as to comply with that Section. In either situation, it is likely that a subsequent submittal for ED 1 would be consolidated with the main rate proceedings in order to expedite hearing and decision and to avoid unnecessary costs to all parties. Any additional costs incurred by APS in resubmitting and revising its filing would ultimately be borne by consumers. Because we believe that rejection of the requested waiver would serve no useful purpose, we shall grant this request and accept for filing the rates proposed for ED 1, subject to refund, as hereinafter ordered.

Included in APS' filing of December 22, 1977, are proposed Rate Schedule revisions intended to amend existing Rate Schedules governing sales to three customers taking electric power from APS at the United States-Mexican border.[9] with regard to these export customers, we shall reject APS' filed rate increases for the reasons hereinafter specified.

In accordance with section 202(e) of the Federal Power Act (the Act) the sections 32.38 and 35.20 of the Regulations promulgated thereunder, the FPC had previously required persons authorized to transmit electric energy from the United States to file all rate schedules applicable to such service with the FPC in the form and manner required of public utilities for jurisdictional sales and service. However, various transfers of duties and responsibilities accompanied the recent establishment of the Department of Energy. As part of the departmental reorganization, jurisdiction previously vested in the FPC over exportation and importation of electric energy under section 202(e) of the Act and Executive Order No. 10485, was trans-

[5] Colorado and San Carlos are subject to Rate Schedule FPC Nos. 65 and 66, respectively.

[6] The Rate Schedules which were tendered for filing on June 1, 1976, for Colorado and San Carlos were docketed as ER76-717 and ER76-721, respectively. The order of June 30, 1976, consolidated these dockets with Docket No. ER76-530.

[7] In addition, APS' filing of July 21, 1977, included proposed rate increases to the six customers for which the FPC had determined that unilateral rate filings were impermissible. Although the order issued on August 1, 1977, in Docket No. ER77-521 accepted these rates for filing along with the increase proposed for ED 1, a subsequent order issued September 26, 1977, in the same docket, corrected this oversight by withdrawing the February 1, 1978 effective date as to each of these six customers.

[8] 18 CFR section 35.17(b).

[9] Comision Federal de Electricidad (Naco) (FPC No. 51); Comision Federal de Electricidad (Sonoyta) (FPC No. 53); Compania de Servicos Publicos de Agua Prieta, S.A. (FPC No. 54).

ferred to the Secretary of Energy,[10] who delegated this authority to the Administrator of the newly-created Economic Regulatory Administration.[11] We view the FPC's requirement that persons exporting electric energy file all rate schedules governing such service as an adjunct to the FPC's former jurisdiction to issue, modify, and appropriately condition export authorizations and permits under section 202(e) of the Act and Executive Order No. 10485. Consequently, we do not have authority to continue such a requirement and we shall reject the tendered rates for the export customers.

In protesting APS' currently proposed rate increases, APA and Wellton-Mohawk[12] urge that the filing be rejected in substantial part, if not entirely, on the ground that the proposed increase is unwarranted on its face. In support of this contention, petitioners challenge certain cost of service aspects of APS' filing.[13] We find that the matters raised are properly the subject of a full evidentiary hearing which we shall herein order to be convened. Petitioners' assertions do not, however, warrant summary rejection of APS' filing, and accordingly, we shall deny their joint Motion to Reject.

Numerous cost of service issues are also cited by AEPC and Navopache in their January 19, 1978 protest and motion to reject.[14] Again, these issues are properly left to resolution in the hearing process and do not constitute sufficient grounds for rejection of APS' filing. AEPC and Navopache additionally dispute APS' rate design and seek rejection of the filing with regard to all the wholesale customers on the ground that APS has not satisfactorily explained and justified its proferred rate design in the manner required by section 35.13(b)(4)(iii) of the Commission's Regulations. Because our review of APS' tendered rate increase indicates that APS has substantially complied with the Commission's filing requirements, we shall deny the motion of AEPC and Navopache to reject the filing.[15]

In its petition to intervene, protest, and motion to reject of January 19, 1978, Wickenburg alleges that APS serves the area surrounding Wickenburg and that the proposed rate increase will have severe anti-competitive effects. Wickenburg thus request a *"Conway"* investigation and/or the opportunity to supplement its January 19th filing. In order to implement the mandate enunciated by the Supreme Court in *FPC* v. *Conway*, 426 U.S. 271 (1976), aff'g 512 F. 2d 1264 (D.C. Cir. 1975), and to effectuate the policy announced in FPC Order No. 563, issued March 21, 1977, we shall direct the Administrative Law Judge to convene a prehearing conference within fifteen (15) days from the date of this order for the purpose of hearing the petitioner's request for data necessary to present its prima facie showing on discrimination and anti-competitive effect (the price squeeze issue).

APS' proposed rate increases have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory or otherwise unlawful. Accordingly, the Commission shall suspend the increases until July 1, 1978, to become effective, subject to refund, with the exceptions herein noted.

The Commission finds: (1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Federal Power Act that the Commission enter upon a hearing concerning the lawfulness of the proposed increased rates and charges tendered by APS on December 22, 1977, and establish procedures for that hearing.

(2) Good cause exists to accept for filing APS' proposed rate increases tendered on December 22, 1977, except as noted herein.

(3) Good cause exists to reject APS' proposed increased rates insofar as they relate to the Comision Federal de Electricidad (Naco), the Comision Federal de Electricidad (Sonoyta), and Compania de Servicos Publicos de Agua Prieta.[16]

(4) Good cause does not exist to permit the proposed increased rates and charges to become effective with regard to ED 3, ED 6, RID, ED 7, Maricopa, and Buckeye, until just and reasonable rates have been approved by final order of the Commission pursuant to Section 206 of the Federal Power Act.

(5) Good cause exists to suspend those proposed increased rates which are herein accepted for filing but which are not identified in Paragraph (4) above, and to defer the use thereof as hereinafter ordered.

(6) Good cause exists to grant APS' request for waiver of the provisions of section 35.17(b) of the Commission's Regulations as to ED 1.

(7) Good cause exists to deny Motions to Reject APS' filing.

(8) Good cause exists to establish price-squeeze procedures to effectuate the Commission's policy announced in Order No. 563.

(9) Participation in this proceeding by Citizens, AEPC Navopache, PTUA, Maricopa, APA, Wellton-Mohawk, and Wickenburg may be in the public interest.

The Commission orders: (A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by section 402(a) of the DOE Act and by the Federal Power Act, particularly sections 205, 206, 301, 307, 308, and 309 thereof, and pursuant to the Commission's Rules of Practice and Procedure and the Regulations under the Federal Power Act (18 CFR, Chapter I), a public hearing shall be held concerning the justness and reasonableness of the rates proposed by APS in this proceeding.

(B) The proposed increased rates and charges filed by APS on December 22, 1977, are hereby accepted for filing except as to those customers identified in Paragraph (C), below.

(C) The increased rates and charges tendered for filing by APS are hereby rejected insofar as they relate to the Comision Federal de Electridad (Naco), the Comision Federal de Electricidad (Sonoyta), and Compania de Servicos Publicos de Agua Prieta.

(D) The proposed rate increase to ED 3, ED 6, ED 7, Maricopa, RID, and Buckeye shall not become effective prior to investigation pursuant to section 206 of the Federal Power Act and final decision by the Commission establishing just and reasonable rates.

---

[10] See, Department of Energy Organization Act (DOE Act), sections 301(b) and 402(f), Pub. L. 95-91, 91 Stat. 565 (August 4, 1977) and Executive Order No. 12009, 42 FR 46267 (September 15, 1977). Section 402(f) of the DOE Act provides that "No function described in this section which regulates the exports or imports of natural gas or electricity shall be within the jurisdiction of the (Federal Energy Regulatory) Commission unless the Secretary assigns such a function to the Commission."

[11] Pursuant to his authority under section 642 of the DOE Act, the Secretary delegated this authority by Delegation Order No. 0204-4, effective October 1, 1977.

[12] As noted in footnote 1a, supra, Maricopa, ED1, ED3, ED6, ED7, RID, and Buckeye joined in the contentions of APA and Wellton-Mohawk.

[13] Petitioners contest APS' requested return on common, equity, its stated capital structure, its projected increases in cost of service, and its method of allocating demand costs. According to petitioners, these aspects of APS' filing are inconsistent with findings of the Presiding Judge in his Initial Decision issued December 19, 1977, in Docket No. ER76-530, involving APS' prior general wholesale rate increase.

[14] The issues raised by AEPC and Navopache include: rate of return on common equity; APS' capital structure; APS' computation of its income tax allowance; APS' proposed demand ratchet for its full requirements customers; APS' functionalization of intangible, general and common plant; and cost allocation issues. Wickenburg's January 19th petition adopts the objections of AEPC and Navopache. See, footnote 1a, supra.

[15] See *Municipal Light Boards of Reading and Wakefield, Mass.* v. *FPC*, 450 F. 2d 1341, 1348, (D.C. Cir. 1971), cert. denied, 405 U.S. 989 (1972).

[16] With regard to these export sales, the filing should be made with the Economic Regulatory Administration of the Department of Energy, see footnotes 10 and 11, supra, and accompanying test.

(E) Pending hearing and decision thereon, the proposed increased rates and charges as to those customers not referred to in Paragraphs (C) and (D), above, are hereby suspended and the use thereof deferred until July 1, 1978, when they shall be permitted to become effective, subject to refund.

(F) APS' request for waiver of the provisions of section 35.17(b) of the Commission's Regulations is hereby granted.

(G) Petitioners' motion to reject APS' filing in whole or in part, are hereby denied.

(H) Citizens, AEPC, Navopache, PTUA, Maricopa, APA, Wellton-Mohawk, and Wickenburg are hereby permitted to intervene in this proceeding subject to the Rules and Regulations of the Commission: *Provided, however,* That participation of such intervenors shall be limited to the matters affecting asserted rights and interests specifically set forth in the petitions to intervene; and *Provided, further,* That the admission of such intervenors shall not be construed as recognition by the Commission that they might be aggrieved by any orders entered in this proceeding.

(I) The Staff shall prepare and serve top sheets on all parties for settlement purposes on or before April 25, 1978.

(J) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See, Delegation of Authority, 18 CFR section 3.5(d)), shall convene a conference in this proceeding to be held within ten (10) days after the serving of top sheets in a hearing room of the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426. Said Law Judge is authorized to establish all procedural dates and to rule upon all motions (except petitions to intervene, motions to consolidate and sever, and motions to dismiss), as provided for in the Commission's Rules of Practice and Procedure.

(K) The Presiding Administrative Law Judge shall convene a prehearing conference within fifteen (15) days from date of this order for the purposes of hearing petitioners' request for data required to present their case, including a prima facie showing on the prices squeeze issue. Also, the Company shall be required to respond to discovery requests authorized by the Administrative Law Judge within thirty (30) days, and the petitioners shall file their case-in-chief on the price squeeze issue within thirty (30) days after the Company's response.

(L) Nothing contained herein shall be construed as limiting the rights of parties to this proceeding regarding the convening of conferences or offers of settlement pursuant to section 1.18 of the Commission's Rules of Practice and Procedure.

(M) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

LOIS D. CASHELL,
Acting Secretary.

ADDENDUM TO TSCA CANDIDATE LIST OF CHEMICAL SUBSTANCES

Availability of Document

This notice is to announce the availability of Addendum II to the April 1977 Toxic Substances Control Act (TSCA), Pub. L. 94-469, Candidate List of Chemical Substances (GPO No. 055-007-0001-2). This document identifies more than 2,800 substances which are additions to the original Candidate List. It lists only Class I substances; i.e., those substances whose composition may be represented by a definite chemical structure diagram. Assigned to each substance is a Chemical Abstracts Service (CAS) Registry Number and an EPA Code Designation. Addendum II contains a Name Section, a Formula Section, and a Number Section, just as in the original Candidate List.

Addendum II will be available both in printed form and on computer tape. Printed copies will automatically be sent to those persons to whom printed Candidate Lists were sent from EPA. If you do not receive a copy in the mail by February 15, you may order one by contacting the Industry Assistance Office as specified below. Those who purchased printed Candidate Lists from GPO and others may obtain copies by contacting the Director, Industry Assistance Office (TS-788), Office of Toxic Substances, Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460. Call toll free 800-424-9065. In the Washington, D.C. area call 554-1404.

Persons who requested the original Candidate List on computer tape will automatically be sent a computer-readable version of Addendum II. If you do not receive a copy by February 15, you may order one by contacting Mr. Kenneth Olsen, Office of Toxic Substances (WH-557) at the above address, or by calling 202-755-2890. Users of Addendum II on computer tape are subject to the same terms as specified in the April 28, 1977 and July 8, 1977 FEDERAL REGISTER notice regarding use of the computer-readable version of the Candidate List.

Dated: January 31, 1978.

STEVEN D. JELLINEK,
Assistant Administrator for Toxic Substances.

SCIENCE ADVISORY BOARD TECHNOLOGY ASSESSMENT AND POLLUTION CONTROL ADVISORY COMMITTEE

Open Meeting

As required by Pub. L. 92-463, notice is hereby given that a meeting of the Technology Assessment and Pollution Control Advisory Board will be held beginning at 9 a.m., February 24 and 25, 1978, in Room 1101 U.S. Environmental Protection Agency, Waterside Mall, 401 M Street SW., Washington, D.C.

This meeting is a regularly scheduled meeting of the Committee. The Committee will be briefed on selected Agency activities and will discuss recommendations for long range and anticipatory environmental research needs, future committee activities and member items of interest.

The meeting is open to the public. Any member of the public wishing to attend or submit a paper should contact Elaine Hance or Lloyd T. Taylor, Executive Secretary, Technology Assessment and Pollution Control Advisory Committee, 703-557-7720 by February 14, 1978.

RICHARD M. DOWD,
Staff Director, Science Advisory Board.

JANUARY 30, 1978.

[FRL 851-7]

STATE OF MICHIGAN

Determination of Primary Enforcement Responsibility

This public notice is issued under section 1413 of the Safe Drinking Water Act, Pub. L. 93-523, December 16, 1974, and section 142.10 of the National Interim Primary Drinking Water Regulations, published in the FEDERAL REGISTER on January 20, 1976.

A submission, dated July 7, 1977, has been received from the Director, requesting a determination that the Michigan Department of Public Health has met requirements for primary enforcement responsibility for public water systems in the State of Michigan, in accordance with the provisions of this Act.

In response, I determined on August 31, 1977, that the Michigan Department of Public Health has the statutory authority and, with the adoption of the rules in a form similar to those submitted to the U.S. Environmental Protection Agency, will meet all conditions of the Safe Drinking Water Act and subsequent regulations for the assumption of primary enforcement responsibility for public water systems in the State of Michigan. Such rules have since been adopted. Therefore, I have determined that the Michigan Department of Public Health has met all conditions of the Safe Drinking Water Act and subsequent regulations for the assumption of primary enforcement responsibility for public water systems in the State of Michigan. The State—

(1) Has adopted drinking water regulations which are no less stringent than the National Interim Primary Drinking Water Regulations.

(2) Has adopted and will implement adequate procedures for the enforcement of such State regulations, including adequate monitoring and inspections;

(3) Will keep such records and make such reports as required;

(4) Will issue variances and exemptions in accordance with the provisions of the National Interim Primary Drinking Water Regulations; and

(5) Has adopted and can implement an adequate plan for the provision of safe drinking water under emergency circumstances.

A copy of my preliminary determination was published in the FEDERAL REGISTER on September 7, 1977. At that time I asked for public comment and scheduled a public hearing to consider this application. The hearing was held on October 7, 1977. No substantive comments adverse to my preliminary decision have been received, either during the public comment period or at the public hearing.

Therefore, I am affirming my determination that the Michigan Department of Public Health has met all conditions of the Safe Drinking Water Act and subsequent regulations for the assumption of primary enforcement responsibility for public water systems in the State of Michigan.

Dated: February 1, 1978.

GEORGE R. ALEXANDER, Jr.,
Regional Administrator, Region V, U.S. Environmental Protection Agency.

FEDERAL COMMUNICATIONS COMMISSION

[CC Docket No. 78-24; Transmittal No. 78; FCC 78-36]

AMERICAN TELEVISION RELAY, INC., TARIFF FCC NO. 8

Memorandum Opinion and Order Instituting Investigation

Adopted: January 19, 1978.

Released: February 2, 1978.

1. We have before us revisions made by American Television Relay, Inc. (ATR), to its Tariff FCC No. 8, filed June 22, 1977, pursuant to our Order in *American Television Relay, Inc., (ATR)*, 63 FCC 2d 911 (1977);[1] *recon. denied*, 65 FCC 2d 792 (1977); *review pending*, Case No. 77-1910 (D.C. Cir.). The major portion of these revisions represent ATR's effort to comply with the *ATR* decision by discarding its population-sensitive rate structure and substituting a more "cost-related" structure. ATR has also attempted to revise some of its revenue requirement calculations to adhere to the Order.[2] United Cable Television Corp. (United Cable) has filed a "Petition for Suspension of New Tariff Proposal." Las Cruces TV Cable, Teleprompter Corp. and UA-Columbia Cablevision, Inc. have filed "Comments on New Tariff Proposal"[3] and Cablecom-General, Inc. has filed "Comments Concerning ATR's Revised Tariff." These comments contained no formal requests for specific Commission action. ATR has replied to these comments and the parties have filed oppositions thereto. ATR's revised tariff is scheduled to become effective on January 20, 1978.

[1] In our *ATR* decision, we directed ATR to file a revised tariff within 90 days of the release date of the Order and on 90 days public notice, as specified in 47 CFR § 61.58(b). ATR filed its revised tariff, under cover of Transmittal No. 78, within the 90 day period. The revised tariff was scheduled to become effective on September 20, 1977. We then granted Special Permission No. 8520 to defer the effective date until December 19, 1977. See *ATR*, Mimeo No. 88368, released August 30, 1977. This deferral was continued to January 20, 1978 by Special Permission No. 8719.

[2] For the most part, the Commission decision, *ATR*, supra, affirmed the Common Carrier Bureau's *Recommended Decision*, 65 FCC 2d 387 (1975), on the revenue requirement issues.

[3] The substance of this pleading is merely a reiteration of the arguments made by these same parties in a separate "Motion for Issuance of Refund Order." Since the pleading makes no comments on the lawfulness of the subject tariff revisions, we do not consider it here. Rather, we will consider these comments in the context of our refund order, which will be issued very shortly.

I. Background

2. ATR is a miscellaneous microwave common carrier which delivers the video signals of four Los Angeles independent television stations to cable television system operators serving communities in California, Arizona, New Mexico and Texas. In its Tariff FCC No. 8, filed on August 15, 1972 under cover of Transmittal No. 50, ATR incorporated a population-sensitive rate factor into its overall rate structure. This factor operated to increase the customer's rate as the population density of the community served by the cable system increased. In ATR, supra, we held, inter alia, that such a pricing technique constitutes value of service rate design and is inherently discriminatory. We stressed that rates based on costs were more in accord with the requirements of sections 201(b) and 202(a) of the Communications Act, 47 U.S.C. 201(b), 202(a), and that miscellaneous microwave carriers therefore should strive to structure their rates on a cost of service basis.[4] We did not, however, conclude that population-sensitive rate structures are per se unlawful because, in a limited number of situations, other public interest considerations could militate in their favor. But because the direct consequence of these rate structures is discriminatory rates, we established a specific burden that carriers would be required to meet if they chose to employ such structures.[5] The purpose of this burden is to ensure that our enunciated public interest considerations will be satisfied and that the resulting rates are just, reasonable and not unreasonably discriminatory. On the record then before us, we held that ATR's rate structure was unlawful, but afforded the carrier an opportunity to either justify its population factor by submitting the specific evidence necessary to meet the newly established burden, or return to a more cost related method of rate design. Via Transmittal No. 78, the subject of this proceeding, ATR has revised its Tariff FCC No. 8 by eliminating the population-sensitive rate factors and replacing them with what ATR avers is a cost of service rate structure. United Cable and Respondents now question the lawfulness of these tariff revisions.

II. ART's Revised Rate Structure: Description and Rationale

3. ATR's revised rate structure is based on two rate cost elements: (1) dedicated drop costs and, (2) trunkline joint costs. A customer determines his monthly microwave charge by adding these two elements together.[6] The specific dollar amounts applicable to each customer for each element are contained in the tariff. In addition, ATR has established a separate category of rates which are lower than those which otherwise would flow from equal application of the revised rate structure to all of ATR's customers. These lower "exception rates" are founded on the theories of competitive necessity and financial inability to pay the structured tariff rate.[7]

A. Dedicated drop costs

4. Dedicated drop costs are simply those costs incurred by the carrier when it must split a signal off of the main trunkline in order to deliver it to a particular customer location.[8] ATR has calculated specific dollar amounts to recover these drop costs according to the number of channels to which a customer subscribes. The drop cost rates range from $918 for all four Los Angeles independent channels to $551 for a single channel.[9]

B. Trunkline joint cost allocation

5. ATR employs two different cost allocation method in ascertaining what proportion of the trunkline joint costs should be borne by each customer. These methods can be described as: (i) shared repeater costs and (ii) weighted repeater costs. ATR then combines the results of these two methods to calculate the rate a customer will pay under the joint cost element of its rate structure.

(i) *Shared repeater cost*

6. Under this method of cost allocation, each cable system customer will share in the cost of only those repeaters which are specifically used in relaying the resignals to his premise. Thus, because the first repeater is used to convey the Los Angeles television signals to all of ATR's customers, all will share equally in that repeater's cost, taking into account the number of channels to which the customer subscribes. To further illustrate, the customers taking service at the third repeater site will share in the cost of the three repeaters used to carry the signal that distance, but will not be assessed any additional joint cost for repeaters used to provide signals to customers located farther down the mi-

[7] See ATR Tariff FCC No. 8, revised para. C.2.

[8] Such costs generally include the installation of antennas, waveguide, waveguide components and power splitter as well as other necessary radio receiver equipment at the customer's receiver location.

[9] In Schedules 4 and 5 of the Appendix to the materials submitted in compliance with § 61.38 of our Rules, 47 CFR § 61.38, ATR has presented financial data demonstrating how it determined the drop cost charges.

crowave trunkline. Because the customers situated at the end of the trunkline will share in the cost of every repeater used to serve them, their rates obviously will be the highest. ATR does not, however, assign an equal amount of cost to each repeater. It weights each repeater on the basis of its second method of cost allocation. As described below, this weighting process distributes more repeater costs to the front end repeaters thereby reducing the amount of shared repeater cost that the customers at the end of the trunkline would pay if only the shared repeater method of cost allocation was employed.

(ii) Weighted repeater costs

7. This second method of cost allocation imposes more joint cost upon customers served from repeaters physically located closer to the origination point than it imposes upon those located toward the far end of the trunkline. ATR accomplishes this graduated redistribution of repeater costs through a formula entitled "Sum of the Digits."[10] This formula operates by symetrically allocating a different fraction of the total repeater costs to each repeater site. More precisely, it allocates 27/378 of the total repeater cost to the first repeater, 26/378 to the second repeater and so on until the last repeater is given a 1/378 portion of the total repeater cost.[11] The numerator in these cost assignment fractions represents which repeater is being weighted (with 27 representing the first repeater) and the denominator is the sume of the sequential digits leading to the number 27, i.e., 1+2+3+ . . . 27=378.

8. ATR's rationale for use of the Sum of the Digits in its rate structure is threefold. First, ATR asserts that the "major portion of operations and maintenance costs are actually incurred at the front end of the system."[12] This is so, states ATR, because the initial repeater equipment must be kept in peak condition to prevent signal degradation toward the end of the trunkline. Because approximately two-thirds of maintenance personnel and equipment costs are devoted to these initial repeaters, the carrier maintains that these repeaters should be assigned a greater portion of the common costs. ATR claims that the Sum of the Digits apportionment formula is a reasonable means of allocating these costs to achieve these ends. Second, ATR believes that customers at the end of the system should not be "unduly burdened with excessive costs." ATR asserts that if it relied solely on the shared repeater method of allocation, with each repeater assigned equal cost, then the end customers would have to pay rates so high that they could not afford to take the service. ATR claims that it is better to have these customers make some contribution to joint cost, thereby reducing all the customers' rates, than have them discontinue the service. This is especially so for the customers which will be charged exception rates, as discussed below. Third, ATR supports this method of cost allocation by stating that customers at the end of the system should not bear excessive costs "merely because of the way the system was built." ATR refers to the fact that the system extends outward into the far southeastern corner of New Mexico, but then swings back toward California ending in the northwestern corner of New Mexico. Therefore, the customers at the end of the trunkline may be physically closer to the origination source of the signal than those further back on the system. ATR maintains that the "Sum of the Digits method helps normalize these geographic factors, giving weight to both distance from the origination source and system routing."

C. EXCEPTION RATES

9. For those customers who are financially incapable of paying the tariffed allocated joint cost rate, or for those customers who would shift to competitive sources of supply if required to pay such a rate, ATR has devised a separate tariff category for exception rates.[13] The tariff itself does not specify when or under what conditions ATR would grant a rate lower than that found in the tariff. It states that the customer must request an exception and be willing to submit financial and market data which is necessary for the carrier to determine if the customer's request is valid. No standards or criteria are set forth on the face of the tariff informing the customer of the showing that must be made before such request will be deemed valid. In its § 61.38 materials, however, ATR explains that the lower exception rates will be granted when the tariffed rate for microwave service would exceed 20 percent of the cable customer's gross revenues. This is ATR's financial incapability test.[14] ATR would then reduce the tariffed rate until it drops to the 20 percent level. The tariff lists three customers which now qualify for this type of exception rate and goes on to specify the exact rate those customers would be charged. The other type of exception rate is predicated on competitive necessity grounds. The revised tariff lists one customer to receive a lower rate due to the competitive threat of satellite service.

10. Because these lower exception rates will necessarily cause revenue deficiencies, ATR has decided to meet its revenue requirement by redistributing the total amount of the deficiency back over the other customers. This reallocation is to be accomplished by also using the Sum of the Digits method.

III. CONTENTIONS OF THE PARTIES

A. UNITED CABLE

11. Pursuant to section 204 of the Communications Act, 47 U.S.C. 204, United Cable requests that we suspend the effective date of ATR's revised tariff and institute a hearing into the reasonableness of the proposed rates. United Cable points to the fact that the new rate structure will raise the total monthly microwave bill for United Cable's two cable systems by $2,344, or some 27 percent above the current rate level. Moreover, United Cable requests that we examine ATR's cost and revenue data to insure that ATR is complying with the holdings of the *ATR* decision regarding the carrier's rate base, rate of return, and operating expenses.

(i) Rate structure issues

12. United Cable begins by questioning the sufficiency of the support materials submitted by ATR to justify the Sum of the Digits method of cost allocation. It claims that ATR has offered no cost data to verify its assertions that more operation and maintenance costs are incurred by the carrier at the front end of the system and for thereby imposing those costs on front end customers. Without such data, United Cable contends that the assertions are nothing more than empty rationalizations for the skewing of repeater costs by the Sum of the Digits allocation formula. United Cable then argues that the rationale for alleviating undue and uneven cost burdens to end customers by use of the Sum of the Digits implies that there are undue burdens to be alleviated and uneven costs to be redistributed. But, states United Cable, ATR has not submitted work sheets or cost data which

[10] Sum of the Digits is more commonly encountered in the area of the tax law and is recognized as an accelerated method of depreciation. See 26 U.S.C. 167(b)(3).

[11] See Schedule 1 of the § 61.38 materials accompanying Transmittal No. 78.

[12] See the § 61.38 materials accompanying Transmittal No. 78 at page 7.

[13] See ATR Tariff FCC No. 8, revised para. C.2. The provision is set forth in its entirety in paragraph 40 infra along with a discussion thereof.

[14] ATR established this test on the basis of what it interprets to be the proper exception to a cost based rate structure enumerated in *ATR*, supra at 926. We devote a discussion to this exception in para. 39 infra. ATR does submit three cost studies to justify the 20 percent cutoff level. See the section 61.38 materials accompanying Transmittal No. 78 at Schedule 14 of the Appendix.

show what burdens are being alleviated or what costs are being distributed. United Cable concludes that ATR's "failure to furnish meaningful information at the outset mandates the test of an investigation."

13. When ATR grants an exception rate, either for financial incapability or competitive necessity, it plans to make up the resulting revenue deficiency by reallocating that amount over the remaining customers by using the Sum of the Digits method. United Cable argues that this additional reallocated assessment violates the *ATR* decision. When a carrier chooses to employ value of service pricing, states that United Cable, the *ATR* decision requires it to demonstrate that discriminatory lower rates in favor of some customers will benefit all other customers by reducing their rates. This is because joint costs can then be spread over more ratepayers. United Cable contends that ATR's reallocation of the exception rate revenue deficiency to the other customers does not result in lower prices for all, but higher prices than otherwise would be charged. Consequently, United Cable believes that ATR's method of recouping its exception rate deficiency is contrary to the conditions which must exist before value of service pricing can be permitted.

14. United Cable asserts that the most questionable aspect of ATR's tariff revision is its standard for allowing exception rates. With respect to the competitive necessity exception, United Cable claims that even if a customer were to cancel ATR's services and take satellite service instead, ATR's investment for service to that customer is fully protected by the tariff's termination charge. Under this provision, if a customer cancels service before expiration of the initial contract period, ATR can recover all of its nonrecoverable capital costs or the unpaid monthly charges remaining in the contract.[16] Therefore, United Cable contends ATR's investment is fully secure and satellite service presents no danger to the carrier. With regard to the financial incapability exception, United Cable states that ATR "has failed to adequately articulate its standards." United Cable questions why some cable systems near the end of the trunkline have been given exception rates, while United Cable's two systems similarly situated have not been granted these exceptions. United Cable then compares the penetration levels and financial statements of its systems with those granted exceptions, finds them to possess analogous characteristics, and concludes that ATR is applying its own standards in an unlawfully discriminatory fashion.

[16] See ATR Tariff F.C.C. No 8, revised para. C.6.

15. Finally, United Cable states that there are other elements of ATR's rate structure which are questionable or insufficiently explained. While United Cable understands why ATR assesses a drop charge for customers which are served from one hop off a truckline repeater location, it questions why the drop charge is also applicable to those customers served directly from truckline repeater locations with no associated drop equipment.[16] Furthermore, United Cable claims that ATR subjectively mixed the cost of new and used equipment in determining the rates for the dedicated drop cost element of the revised rate structure.

(ii) Revenue Requirement Issues

16. In this portion of its Petition, United Cable raises a series of questions and issues that it believes warrant suspension and investigation before we can permit these tariff revisions to become effective. First, United Cable points to ATR's request[17] for an increase in the prescribed rate of return on the cost of equity from a range of 15–18 percent[18] to a range of 18–21 percent. United Cable claims that such an increase would raise ATR's overall rate of return to a range of 14.5 to 16 percent,[19] thereby exceeding the Commission's prescribed overall rate of return of 12.9 percent to 14.5 percent. United Cable believes that the justifications submitted by ATR for this increase are "insufficiently documented" to support the request.[20]

17. Second, United Cable objects to ATR's limiting the allocation of its rate case costs to only the years 1974 through 1978. United Cable asserts that many of the rate case expenses occurred in 1972 and 1973 and that ATR must allocate expenses in the year in which they occur.

18. Third, United Cable contends that ATR has defied a Commission order by not incorporating in the rate base the amount of depreciation reserve calculated by the Common Carrier Bureau in the Recommended Decision, found to be proper by the Commission in the ATR decision, and reaffirmed on reconsideration. Specifically, United Cable states that ATR has returned to its Los Angeles plant valuation $325,283 that the Commission ordered ATR to add to its depreciation reserve.

19. United Cable points to a substantial discrepancy between the actual amount of income tax paid by ATR in 1976 for purposes of its revenue requirement calculations and the amount of income tax reported by ATR on its Form P.[21] United Cable states that "what this means, we are not certain," but asserts that this discrepancy raises significant questions of fact and law which must be resolved before the lawfulness of ATR's revised rates can be judged.

20. Lastly, United Cable challenges the lawfulness of ATR's 1976 Form P entry which states that the carrier intends to amortize its plant acquisition adjustment over a 10 year period. United Cable argues that this is exactly what was forbidden by the *ATR* decision.

(iii) *Retransmission issue*

21. In paragraph B.4.e of ATR's revised Tariff FCC No. 8, ATR requires a customer to give five months prior written notice if the customer intends to relay the signal to any point outside the specific delivery area.[22] United Cable contends that this provision violates the spirit and letter of the holdings in *ATR* because it implies that ATR has a property right to the signals it delivers and can control their usage.

B. CABLECOM-GENERAL

22. The informal comments filed by Cablecom-General, Inc. with respect to ATR's rate structure and revenue requirement calculations focus essentially on the same issues raised by United Cable. We see no need to reiterate those arguments here.

ATR

23. ATR notes that United Cable is the only one of its twenty-nine cable systems customers which has filed a petition requesting suspension of the revised tariff. ATR states that the "nub of United's complaint is probably the fact that its rates will be increased 27 percent over the existing rates." ATR further states that this increase is a natural result of changing from a value of service rate structure to a more cost based and distance sensitive rate design. Since United Cable is situated near the end of a 1,400 mile system, ATR reasons that it will neces-

[16] By "no associated drop equipment," we presume United Cable means equipment other than that specified in n.8 supra.

[17] See the § 61.38 materials accompanying Transmittal No. 78 at pages 20–21.

[18] The cost of equity was prescribed by the Common Carrier Bureau's Recommended Decision, 65 FCC 2d at 400, and affirmed by the Commission, ATR, 63 FCC 2d at 932.

[19] Debt: 45.75% × 10.4% = 4.76% Equity: 54.25% × 18 – 21% = 9.76%–11.39%/ 14.52%–16.15%

[20] ATR's justification is presented in paragraph 29 infra.

[21] Form P is the "Annual Report of Miscellaneous Microwave Common Carriers" and generally includes financial and system data.

[22] The exact language of this tariff regulation can be found in paragraph 50 infra.

sarily experience higher rates. However, ATR also declares that the "new rate structure is designed to minimize the impact of the new costing guidelines on customers such as United."

(i) Rate structure issues

24. In its Reply, ATR begins by refuting United Cable's assertion that the Sum of the Digits method of allocating joint costs has not been adequately justified. ATR reiterates its claim that two-thirds of the physical and operating costs are incurred at the front end of the system, especially for maintaining the peak perormance of the initial repeaters so as to arrest later signal degradation. The Sum of the Digits, contends ATR, takes these cost characteristics into account by weighting those costs where they are actually incurred. Next, ATR argues that if it were not for the Sum of the Digits weighted repeater cost allocation, customers toward the end of the system, such as United Cable, would be paying only their shared repeater costs and those rates would approximate $11,000 to $14,000 per month for four channels of service. The Sum of the Digits allocation argues ATR, makes it feasible for end customers to receive service at reasonable rates. ATR also recounts that the Sum of the Digits normalizes the factors of distance due to the U-shaped routing of the system.

25. ATR believes that United Cable's complaints regarding the financial incapability and competitive necessity exceptions stems from the fact that its two cable systems have not been granted these exceptions, and not because United Cable questions the appropriateness of these features as part of the revised rate structure. Moreover, ATR strenuously argues that the lower rates to be assessed to the four exception customers do not cause the remaining customers to pay higher rates when the total amount of the exception rate deficiency is reallocated among those customers. ATR cites the cost figures submitted in its section 61.38 materials to illustrate that the contributions to joint costs which will be produced by the rates collected from the exception customers are substantially greater than the reallocated joint costs distributed among the other customers.[23] Consequently, if there were no provisions for these exception rates, and if customers discontinued taking service because they could no longer afford the new cost based rates, then ATR argues that United Cable's rates and the rates of other customers would be significantly higher because fewer customers would be sharing in the joint network costs. ATR maintins that this is precisely the showing required by the *ATR* decision to justify exceptions from cost based rates. Therefore, ATR concludes that its financial incapability and competitive necessity exceptions are fully justified.

26. ATR disagrees with United Cable's contention that it has not set forth standards for the financial incapability and competitive necessity exceptions. With respect to financial incapability, ATR directs United Cable's and our attention to section II-B of its § 61.38 materials entitled, "Explanation and Justification for Waiver Request." That section establishes the 20 percent gross revenue test and includes a case by case analysis of all the cable system customers to which the test might apply. ATR also notes that United Cable does not contest the 20 percent gross revenue test itself, only the fact that United Cable's system did not qualify under that test. ATR then provides financial and economic descriptions of United Cable's two systems and explains why those systems did not come within the 20 percent cut-off limit. Next, ATR argues that the existence of its termination charge does not undercut the validity of its competitive necessity exception. Regardless of whether ATR can recover its capital costs for the reaminder of the initial contract period, ATR contends that this argument fails to recognize the basic reason for having the special exception rate category. That reason, states ATR, is to keep the exception customers on the system and thereby maintain rates at reasonable levels to all other customers through the contribution to joint costs made by the customers qualifying for special exception rates. Without these customers, ATR reasons that the termination charge will not remedy the long-term effect of fewer customers sharing in the joint network costs.

27. With regard to United Cable's question of why a drop charge is assessed to those customers which receive service at trunkline repeater locations, ATR responds that if the drop charge were not tacked to every customer's monthly bill, then the joint costs which would have to be allocated among all customers would be increased. ATR asserts "that the use of the drop charge is a fair and reasonable method of allocating overall service costs among ATR's customers." ATR goes on to state that the "drop charge * * * represents the average cost of delivering service directly to its customers." Therefore, by eliminating the drop or hookup charge for all customers, ATR maintains that United Cable is arguing against its own interests.

28. In developing the rates for its drop charges, ATR states that because of its years of experience, its estimated mix of 50 percent new and 50 percent used equipment is entirely proper.[24] ATR denies that its drop charge assessment was calculated in a subjective manner.

(ii) Revenue Requirement Issues

29. It is ATR's position that its request for a minimum return on equity of 18 percent, with an upward range to 21 percent, is not unreasonable because increased economic risks now exist which were not present when the Common Carrier Bureau released its Recommended Decision and which the Commission affirmed on this point in the ATR decision. ATR contends that a substantial economic risk was created when, in March 1977, the Commission found ATR's population sensitive rate structure to be unlawful. In support of this argument, ATR refers to a passage from the Recommended Decision which states that the importation of Los Angeles signals could become prohibitively expensive and create a great economic risk to ATR's Los Angeles service, but that the population-sensitive rate structure alleviates economic problems of this nature.[25] By subsequently finding that rate structure to be unlawful, ATR contends that "this economic risk factor is seemingly restored." ATR also mentions the relaxation of the leapfrogging rules for cable television and recent approval of small antenna dishes for receive-only earth stations as new risk factors which threaten the continued viability of ATR's Los Angeles signal service. For these reasons, ATR contends "the Commission must find ATR's rate of return computations are reasonable and proper."

30. The fact that ATR did not write off its rate case costs for the years 1972 and 1973 is not contrary to any Commission rule or regulation requiring it to write off rate cases costs in any particular manner, states ATR. United Cable does not challenge the amount of the rate case costs, and ATR argues that it has proceeded to write them off over a reasonable period of time.

31. ATR argues that the ATR decision merely found that ATR had not adequately demonstrated in that proceeding that the amount it claimed for its depreciation reserve was proper. Therefore, the Commission independently calculated a reasonable depreciation reserve. ATR now submits that the Commission's determination was incorrect and that in the context of this new tariff filing it "has fully documented . . . that its depreciation re-

[23] ATR specifically references columns 2 and 3 of Schedule 2 attached to the § 61.38 material.

[24] See Schedule 4 of ATR's section 61.38 materials.

[25] 65 FCC 2d at 400.

serve was as ATR stated in the Docket 19609 proceeding." Thus, ATR contends that it is not defying a Commission order, but rather is simply justifying what the Commission previously held to be unjustified.

32. As concerns its income tax calculations, ATR asserts that it is consistent with the ATR decision and "that income charges based on the tax rates are reasonable and a necessary part of a carrier's cost of service." Since ATR is a part of a carrier group and affiliated with a parent corporation, ATR argues that its "1976 Form P income tax figures are immaterial and irrelevant."[26]

33. ATR also disputes United Cable's contention that it is amortizing its plant acquisition adjustment in violation of the ATR decision. ATR refers to its § 61.38 material which states that the "carrier's plant acquisition adjustment account has not been amortized for the years 1973 through 1976, nor has the amount of the Account been included in the indicated rate bases." ATR explains that its 1976 Form P entry was inadvertently not modified to reflect this change, but that its current practice is as described in the filing.

IV. Discussion

34. Before we begin our analysis of ATR's tariff revisions, we wish to make some general observations regarding the *ATR* decision and our efforts to implement the holdings therein. First, we remain committed to the concept that rates based on costs are generally the most consistent with the requirements of sections 201(b) and 202(a) of the Communications Act. In this respect, we do not intend to retreat from the general holdings of *ATR* and other Commission decisions that all carriers should strive to structure their rates on the basis of costs, or otherwise be prepared to meet the burden of justifying any departures therefrom.[27] Second, the *ATR* decision was intended to initiate a direct application of our general ratemaking principles to miscellaneous microwave and satellite common carriers providing video relay service. In this respect, *ATR* was a case of first impression. Consequently, some carriers may be experiencing difficulties in their efforts to comply with the decision. We are not unaware of nor insensitive to these difficulties. It is for that very reason that the Common Carrier Bureau deferred its review of the tariffs of other miscellaneous microwave and satellite carriers until "Commission policy with regard to population-sensitive rate structures [could] be more clearly enunciated." *In the Matter of Tariff Revisions in Light of the Commission's Decision in Docket No. 19609, American Television Relay, Inc.*, Mimeo 88312, released August 26, 1977. We since have decided that the most worthwhile means for further developing these policy determinations should be through a rulemaking proceeding. We anticipate that this approach will have the benefit of broader input, as well as specific economic, financial, geographic and other relevant information concerning microwave and satellite carriers providing video relay service. The focus of the rulemaking will be to devise a specific set of rate structuring guidelines consistent with our general ratemaking principles yet responsive to the unique characteristics of these types of carriers. We believe that this approach will lead to a more reasoned and meaningful set of rules and principles that such carriers can utilize in structuring their rates. To continue to address these matters on an ad hoc basis may lead to greater confusion and a substantial waste of carrier and Commission resources. We will institute this rulemaking proceeding in the very near future. With these considerations in mind, we shall now address United Cable's Petition to Suspend ATR's revised tariff filing.

35. Our initial examination of ATR's tariff reveals that the carrier has made an effort to come within the holdings of our *ATR* decision. Significantly, ATR has abandoned its population-sensitive rate structure and substituted what it believes is a cost based structure with acceptable departures therefrom. We consider ATR's revisions to be a step in the right direction and an improvement over the presently effective unlawful tariff. However, as discussed below, this new tariff filing does raise a number of questions and concerns. Nonetheless, we do not believe ATR's customers should be required to continue paying rates pursuant to a tariff declared unlawful after hearing when the carrier has filed a new tariff that, taken as a whole, does not appear to be unlawful on its face. This is especially so in those instances where the Commission has ordered a carrier to file a revised tariff eliminating an unlawful discrimination, rather than prescribing lawful rates for the carrier. Such is the procedure we have followed in this case. *ATR*, 63 FCC 2d at 932-33. As stated in *National Association of Motor Bus Owners (NAMBO) v. FCC*, 460 F. 2d 561 (2nd Cir. 1972):

> [I]t is within the Commission's sole discretion either to prescribe a remedy pursuant to section 205(a) of the Act or to order, pursuant to the broad authority conferred on it by other provisions of the Act, that carriers themselves end the discrimination [citations omitted]. The language of section 205 does not mandate prescription; it merely authorizes and empowers the FCC to prescribe fair and reasonable charges or practices when existing charges or practices are found to be unlawful. The choice of prescription vel non is entirely one for the agency, not the courts.

Id. at 565.

See also, *AT&T* (Hi-Lo), 55 FCC 2d 224, 242-44 (1975), *aff'd. sub nom., Commodity News Services, Inc. v. FCC*, No. 75-2057 (D.C. Cir. 1977).[28] Of course, the revised tariff filing is subject to the statutory provisions of Title II of the Communications Act, including suspension or investigation. But the Commission does not have to allow an unlawful tariff to continue in effect until it determines the legality of a new tariff filing. *NAMBO*, 460 F. 2d at 568. Accordingly, we shall permit the new tariff to become effective, thereby ending the unlawful discrimination that presently exists.

36. Our decision not to suspend the revised tariff, however, must not be interpreted as Commission approval of the new filing. As indicated in the following paragraphs, we not only have questions regarding ATR's new rate structure, but also have serious concerns regarding the calculations used in determining the revenue requirement and other aspects of the filing. We therefore shall exercise the authority granted by sections 204 and 205 of the Act, 47 U.S.C. sections 204 and 205, to institute an investigation into the lawfulness of these tariff revisions. However, since many of these concerns will relate, either directly or indirectly, to the matters addressed in the rulemaking, we will defer the start of the investigation until after our rulemaking proceeding has been concluded.[29] We will then have the benefits of the ratemaking principles established therein so that a prospective application thereof can be made in our investigation. To assist in preparation for our forthcoming rulemaking proceeding, as well as the investigation of ATR's tariff subsequent thereto, we wish to highlight some of the aspects of this revised tariff which we currently find to be the most troublesome.

---

[26] Form P sets forth the actual taxes paid.

[27] See *Tariff Revisions In Light of Decision in Docket 19609, The ATR Rate Case*, 66 FCC 2d 417 (1977).

[28] Specifically, the court affirmed para. 79 of the Commission's Order in *AT&T* (Hi-Lo), 55 FCC 2d at 248. That paragraph states:

> 79. *It is further ordered*, That pursuant to section 202(a) of the Communications Act, AT&T shall file, within thirty days of the release of this Order, effective upon not less than thirty days notice, the tariff schedules designed to remove the unlawful discrimination between the rates for Series 2000/3000 services and the rates for TELPAK end links specified in Series 5000 in AT&T Tariff FCC No. 260.
> (Emphasis added.)

A. RATE STRUCTURE ISSUES

37. The fact the ATR has elected to weight the cost of its repeaters so as to allocate more joint costs to front end customers through the use of the Sum of the Digits formula raises two substantial issues. First, we agree with United Cable that ATR has not submitted any significant cost figures to support its declarations that it expends more resources for the operation and maintenance of its front repeaters than it does for those located toward the end of the system. At a minimum, ATR must provide us with relevant data revealing how much more, if any, is spent on the initial repeaters vis-a-vis the remaining repeaters. Second, even if ATR did supply such cost data, we would still have reservations as to whether the Sum of the digits formula is a just and reasonable ratemaking practice within the meaning of section 201(b) of the Communications Act. Although we fully comprehend ATR's efforts to mitigate the harsh effects of its shared repeater allocation and the unusual contour of its system, it appears that the Sum of the Digits may artifically shift some of the joint trunkline costs towards the front of the system. On the basis of the evidence and justifications now before us, we cannot conclude that the Sum of the Digits is a just and reasonable ratemaking practice as is required by section 201(b) of the Act. If ATR can submit additional jusification for the principle and theory behind this method of joint cost allocation in the context of the rulemaking proceeding, we certainly will accord it further consideration. We anticipate that the conclusions reached in that proceeding will then be prospectively applied in the subsequent investigation of ATR's revised tariff filing.

38. The Sum of the Digits method of cost allocation also raises questions of lawfulness under section 202(a) of the Act. At first glance, is appears that like services are being provided at different rates to different customers. Of course, such a discrimination would not violate section 202(a) if ATR could adequately demonstrate that there are differences in costs, differences attributable to competitive sources of supply, or other public interest factors, such as financial incapability under the ATR standard, that would justify the rate differentials to customers receiving the like services. As stated above, ATR has not provided us with sufficient financial information to support its assertion that there are higher cost differentials at the beginning of the system and that customers so located should be reasonably expected to bear those costs. With regard to the competitive necessity and financial incapability justifications, we believe such factors are deserving of further consideration, as applied to video relay carriers. That shall be one of the goals of our rulemaking proceeding. However, as set forth below, we are unable to conclude, at this time, that ATR's specific use of these factors in its revised rate structure meets the statutory requirements of the Communications Act.

39. In the ATR decision, we concluded that ATR's population-sensitive rate structure was an unlawful departure from the Commission's cost of service ratemaking principles. Our analysis indicated that population-sensitive rate factors constitute value of service pricing, and as such, are inherently discriminatory. However, we also stated that population-sensitive rate structures were not per se unlawful if the carrier could demonstrate that the discrimination resulting therefrom was no unreasonably discriminatory because it promoted certain other public interest considerations. We then esablished a specific burden that carriers employing these structures would have to meet to ensure that the inherent discrimination was justifiable. Specifically we said:

> This is not to say, however, that a population based value of service rate structure could never be found just and reasonable, and not unreasonably discriminatory * * *. ATR would have to demonstrate by convincing and substantial evidence that if its cable customers serving small, remote localities did not receive a rate benefit vis-a-vis the more populated areas, that those customers would be financially incapable of subscribing to its service and that the area served by them would therefore be deprived of the television signals involved. In addition, with respect to the current system, ATR would have to show that the lower rates will at least provide sufficient revenues to cover the direct costs of connection to the main trunkline plus an additional contribution to the joint or common network costs.
>
> 63 FCC 2d at 929-30.

We then anticipated that carriers employing population-sensitive rate structures would submit the additional evidence necessary to so justify these value of service structures or else would revise their rate structure to reflect the actual cost of service.[30] ATR now avers that its revised tariff incorporates a cost based rate structure. However, ATR's exception rate category based on financial incapability is obviously founded upon the above-quoted burden we established to justify a population-sensitive value of service rate structure. At the time we adopted the ATR decision, we did not contemplate that carriers would use the justification for departing from cost based rate structures to create special exceptions within a cost based rate structure. The financial incapability standard set forth in the ATR decision was intended to be a justification for population-sensitive value of service rate structures, and was not intended to apply to individual exceptions to cost of service rate structures.[31] While ATR's interpretation is not totally untenable, we believe it is not consistent with the general thrust of the decision. However, we cannot conclusively find that ATR has violated a Commission order by inserting a population-sensitive value of service justification concept into its cost based rate design. On the other hand, we cannot conclude that this structure, as it presently stands, is just and reasonable within the meaning of section 201(b) or does not result in unreasonable discrimination in violation of section 202(a). We intend to address this general issue in our rulemaking proceeding and will reexamine ATR's revised tariff based on the findings therein in our subsequent investigation thereof.

40. There are some other issues with respect to the exception rate category that must be resolved before we can determine if ATR's revised tariff is lawful. First, even if these special exceptions to cost based rate structures are ultimately found to be consistent with the requirements of the Communications Act, then the lawfulness of reallocating the revenue deficiency caused thereby by use of the Sum of the Digits must also be examined.[32] Second, ATR has failed to state in its exception provision what evidence a customer would have to submit to qualify for an exception rate. The provision states:

> The carrier does provide for financial/competitive necessity exception to the tariffed rate structure shown above. However, to qualify for this exception a customer must request for such exception and be willing to submit such financial and market data information as necessary for the carrier to analyze and determine the validity of the customer's request. Financial/competi-

[30] In fact, we issued a public notice advising carriers to reevaluate their tariffs in light of the holdings in the ATR decision. See Public Notice, Tariff Revisions in Light of Decisions in Docket No. 19609, The ATR Rate Case, 66 FCC 2d 417 (1977).

[31] ATR, 63 FCC 2d at 929.

[32] In this regard, we have an additional observation. One normally would expect that the added reallocation by the Sum of the Digits would result in the customers near the beginning of the system paying a greater share of the reallocations. However, the actual result of this method, as applied by ATR, is to assess customers at the end of the system a greater percentage than customers toward the beginning. For example, the three customers served from the second repeater location at Toro Peak, Calif., pay a reallocated share of approximately 10 percent of their allocated joint cost, whereas one customer served from the 27th repeater location at El Huerfano, N. Mex. pays a reallocated share in excess of 13 percent of his allocated joint cost. See Schedule 2 of ATR's § 61.38 material accompanying Transmittal No. 78.

tive necessity exceptions are only allowed for a maximum of two channels of service (except for grandfathered service).

The following exception rates are applicable: Aztec, N. Mex., 1 channel, $1,575 per month; Grants, N. Mex., 4 channels (grandfathered) $3,680 per month; Artesia, N. Mex., 4 channels (grandfathered) $2,693 per month; Las Vegas, N. Mex., 2 channels $2,244 per month.

The conspicuous absence of any standards or criteria which notify customers of when exception rates will be granted or denied opens the door to arbitrary and discriminatory decisions on the part of the carrier. The fact that ATR has explained in its § 61.38 materials that it intends to use the 20 percent gross revenue test is not adequate public notice. Customers normally rely on the tariff pages alone to acquire information about a carrier's services, rates and regulations and should not have to glean essential information from the economic support materials accompanying tariff filings. Accordingly, we shall require ATR to revise this tariff provision to indicate the conditions precedent to the grant of an exception rate. The reason we are requiring ATR to amend this provision now is to protect customers who may apply for such rates between the time the revised tariff becomes effective and the time we complete our investigation into the lawfulness of the exception category. The entire amended exception provision, however, may be subject to further review pending the outcome of our rulemaking and investigation.

41. While the Commission has, in the past, accepted the principle of competitive necessity as justification for lower rates to a class of customers or for a particular service, ATR presents us with the novel approach of applying the principle as justification for only a single customer's rate. Whether this is a proper application of the competitive necessity principle will be examined in our subsequent investigation. Of course, we will welcome additional comments on this factor in our rulemaking.

42. We have one final comment about ATR's rate structure. As United Cable points out, ATR assesses every customer a drop charge regardless of whether the customer is served directly from a repeater location on the trunkline or from one hop off a trunkline repeater location. Without more persuasive explanation and evidentiary support than that submitted by ATR, we are unable to find that ATR's application of a drop charge to all customers is reasonable.

B. REVENUE REQUIREMENT ISSUES

43. At the outset, we note that United Cable has raised significant questions regarding the revenue requirement calculations submitted with ATR's revised tariff filing. In such situations, our normal procedure would be to exercise our power to suspend the revised tariff for 5 months and institute an investigation with the objective of resolving the questions before the tariff became effective by operation of law. However, as explained in paragraph 35 herein, were we to pursue this normal procedure, ATR's customers would continue to be bound to the presently effective unlawful tariff. Because we ordered ATR to file a revised tariff eliminating the unlawful aspects of its presently effective tariff, we believe, on balance, that the revised tariff should be allowed to become effective. While our rulemaking proceeding will aid in the subsequent resolution of many of the rate structure issues of ATR's revised tariff, that proceeding will not settle some of the questions raised with respect to ATR's revenue requirement calculations. Although we could permit the tariff to become effective and immediately institute an investigation into these matters, we do not believe it is wise to investigate a single tariff filing in such a piecemeal fashion. Rather than have separate hearings at separate times on the revenue requirement and rate structure issues specified herein, a consolidated hearing on all aspects of the revised filing would better facilitate the resolution of this case. Accordingly, we will issue an order immediately after our rulemaking proceeding designating some of the below-described questions for hearing.

44. We are particularly troubled by ATR's depreciation reserve calculation accompanying its revised tariff filing. ATR is correct in contending that we would allow its proposed depreciation reserve to stand if ATR could "adequately justify the accuracy of its calculations." Reconsideration, 65 FCC 2d at 794. However, we do not consider the materials submitted by ATR to sufficiently justify its revised depreciation reserve.

45. In the *ATR* proceeding, ATR originally claimed that its Los Angeles depreciation reserve for 1972 was $507,496. We adjusted this figure by $328,283 and allowed $835,779 as the reserve for depreciation. This adjustment was made to avoid the "double depreciating" inherent in ATR's reversal of its former practice of using an accelerated method of depreciation for both book and tax purposes. Thus, we did not allow ATR to debit the depreciation reserve by $920,000 ($422,556 for the Los Angeles allocation). See *ATR*, 63 FCC 2d at 921-22; Recommended Decision, 65 FCC 2d at 396-397. We found the appropriate figure for 1972 to be $835,779. See 65 FCC 2d at 412. In ATR's newly submitted § 61.38 materials, it has recalculated the 1972 reserve for depreciation to be $535,099. ATR states that it arrived at this figure by not including the $328,283 adjustment made by the Recommended Decision "due to the fact that it was erroneously calculated." Although ATR has submitted a working paper showing how it derived its depreciation reserve, it has not specified or further explained what error was made in our calculation, and more importantly, it has not justified the methodology it employed in arriving at the $535,099 figure. Specifically, ATR has not demonstrated how its method of calculating the depreciation reserve will protect its ratepayers from the "double counting" inherent in its previous depreciation reserve submission. This double counting arises because ATR's customers were originally charged for depreciation expense using an accelerated method of depreciation. ATR is now proposing to recalculate its depreciation reserve using a straight line methodology for present as well as past years. The difference in depreciation reserve between ATR's proposed straight line method and the previous accelerated method in 1972 is the amount that ATR would be depreciating for a second time, or double counting. Thus, the effect of ATR's proposal would cause ratepayers to twice bear the expense of depreciating the same plant represented by the aforementioned difference. The Commission's reversal of this practice in the *ATR* decision is designed to prevent this from happening. By not including any of the $328,283 adjustments we made to the depreciation reserve, it is now apparent that ATR's revised calculation does not account for the effect of double depreciation. And by not submitting any explanation as to why no adjustments were made, ATR has not adequately justified its calculations.

46. Therefore, we shall now require ATR to make the adjustments to its depreciation reserve prescribed in our *ATR* decision and affirmed on Reconsideration. These adjustments were prescribed pursuant to section 205 of the Act and the statute provides that ATR must now "conform to and observe the * * * practice so prescribed" and that the practice must be "thereafter followed." Consequently, ATR is legally bound to our section 205 prescription and must make the adjustments set forth in *ATR*. If ATR believes our depreciation reserve adjustment is erroneous, its recourse is, of course, through the appellate process.[33] It cannot, however, attempt to depart from our prescription by rearguing the position taken in the *ATR* hearing in the context of this new tariff filing, which is supposed to implement the Commission's orders in *ATR*. As provided by section 408 of the Act, 47 U.S.C. § 408, a Commission order "shall continue in force * * * unless the same shall be suspended or

[33] In its Petition for Review filed with the U.S. Court of Appeals for the District of Columbia Circuit, ATR has requested the Court to review this specific aspect of the *ATR* decision.

modified or set aside by the Commission, or be suspended or set aside by a court of competent jurisdiction." None of these events has occurred. Accordingly, ATR must revise its Tariff FCC No. 8, Transmittal No. 78, so that the rates therein will accurately reflect the adjustments made by the *ATR* decision to the reserve for depreciation. We shall afford ATR 20 days from the release of this order to make the necessary adjustments.[34] Also, to prevent the churning of rates which would result if the subject tariff became effective on January 20, and the revised rates were filed 20 days subsequent thereto, we request ATR to voluntarily defer the effective date of its tariff to coincide with the effective date of the rate revisions described above.

47. ATR indicates that its overall rate or return for 1977 will be 14.04 percent. In the ATR decision, we found 12.9–14.5 percent to be a reasonable return on investment. Now, ATR requests that we increase the allowed return on its cost of equity from the prescribed range of 15–18 percent to a range of 18–21 percent. Assuming for the moment that ATR's rate base and expense calculations are correct, we are concerned that ATR may already be using the 18–21 percent figure it has requested, but which we have not authorized. If the 18 percent cost of equity figure was used in calculating the overall revenue requirement, ATR could be earning a 14.5 percent return on total investment. Whether that 18 percent figure is the upper limit of the 15–18 percent range or the lower limit of the requested 18–21 percent range is of little consequence. ATR should currently be pegging its cost of equity at 15 percent, so as to yield the lower 12.9 percent prescribed overall rate of return. The company can then earn up to 14.5 percent through efficiencies, but not by originally setting its cost of equity at 18 percent to achieve the upper limit of the prescribed 12.9 to 14.5 percent range. In the Common Carrier Bureau's Recommended Decision, the Bureau emphasized "that rates are being set on a 15 percent level." 65 FCC 2d at 400. We affirmed the Bureau's recommendation on this point. ATR, 63 FCC 2d at 916, 932. Our policy on this issue has also been set forth in Communications Satellite Corp., 56 FCC 2d 1101 (1975); *remanded on other grds., Communications Satellite Corp.* v. *FCC*, No. 75-2193 (D.C. Cir., 1977) where we stated:

> Recently we have been allowing carriers ranges of rate of return. The purpose of establishing a range of rate of return is to provide a carrier with the incentive, on a rate schedule *designed to yield a return at the low end of the range*, to achieve a return at the upper end of the range through operating and internal efficiencies. Thus, while the rates remain constant the carrier is provided the opportunity to achieve a higher rate of return.
>
> 56 FCC 2d at 1173 (emphasis added).

ATR does not refer to any efficiencies which could have led to this result. In fact, we observe that during the period from 1973 to 1975, while revenue increased ony 20 percent, general and administrative expenses increased by greater than 90 percent and operating expenses increased about 25 percent.[35] It thus appears that the 14.04 percent overall rate of return for 1977 is not due to operating and internal efficiencies. For this reason, we suspect that ATR may be using the 18 percent figure it has requested or may be pegging at the upper limit we prescribed. From the information presently before us, we simply cannot ascertain with any degree of certainty exactly what ATR is doing. Therefore, because ATR's § 61.38 materials place its overall rate of return within the prescribed 12.9 to 14.5 range at 14.04 percent, we will not reject this tariff for being unlawful on its face. However, unless ATR can submit the pertinent data necessary to clearly demonstrate that it is pegging its cost of equity at the 15 percent level prescribed by the Commission in the ATR decision, then we shall require ATR to revise its Tariff FCC No. 8, Transmittal No. 78, so that the rates therein do reflect a cost of equity set at the 15 percent level. This action is taken for the same reasons specified in paragraph 46 with respect to the depreciation reserve adjustment. ATR must submit the above described data or the rate revisions within 20 days from the release of this order,[36] and again, we request ATR to voluntarily defer the effective date of its revisions to Tariff FCC No. 8, Transmittal No. 78, to prevent an unnecessary churning of rates.

48. With respect to the ATR's request for an increase in the prescribed return on equity to a range of 18–21 percent, we will consider whether such an increase is necessary in our investigation.

49. ATR contends that it may use the maximum statutory Federal corporate income tax rate of 48 percent as an appropriate expense for ratemaking purposes because these taxes "are reasonable and a necessary part of a carrier's cost of service." In the ATR proceeding, we permitted ATR to use the corporate tax rate for ratemaking purposes once the proper amount of taxable income was ascertained. See 65 FCC 2d at 392. However, in this regard, we also stated that the "rates to be determined in this proceeding are prospective in nature and our concern lies with current conditions, *unless there are compelling reasons to do otherwise.*" 65 FCC 2d at 492. (Emphasis added.) At that time, we found no such reasons to deny ATR the use of the maximum corporate tax rate for ratemaking purposes. In the context of the revised filing, however, we now believe compelling reasons have surfaced which should be thoroughly investigated before we allow ATR to continue to use the 48 percent corporate tax rate. In particular, we note that ATR has never paid the amount of the statutory rate for the past five years. This means that when ATR uses 48 percent of its taxable income as an expense to be covered by the ratepayers, but the amount is not actually paid, then rates may be too high.[37] We believe that this practice raises substantial questions of lawfulness and therefore warrants an investigation into the appropriate effective tax rates which should be employed by ATR for ratemaking purposes.

C. RETRANSMISSION

50. Finally, we believe ATR's retransmission provision violates the ATR decision, and therefore, should be rejected as being unlawful on its face. In *ATR* we held that a "carrier has no legal basis upon which to restrict the cable operator's use of the signal" and therefore, tariff regulations requiring prior written authorization from the carrier are unlawful because such provisions "could have the practical effect of a total prohibition on retransmission." 63 FCC 2d at 930. We also established a general restriction against retransmission charges by the carrier unless the carrier could demonstrate that it incurred some specific costs when a cable customer retransmits the signal. In response to these holdings, ATR has revised its retransmission regulation to provide that:

> The customer shall not cause or permit the service delivered to it by the carrier to be used by any other person or entity, or to be relayed or carried to any point outside the community, locality or specific delivery area, without giving the carrier five months'

[34] Pursuant to § 1.3 of our Rules and Regulations, 47 CFR 1.3, we hereby waive the notice requirements of 47 CFR 61.58 and order ATR to file the above described rate revisions on one day's notice.

[35] See Appendix VI to the § 61.38 materials accompanying Transmittal No. 78.

[36] As set forth in n. 34 supra, we hereby order ATR to file these rate revisions on one day's notice.

[37] These low effective tax rates for ATR arise because ATR's ultimate parent, TCI, chose to file consolidated tax returns for the years 1972 to 1976 in order to use ATR's and other subsidiaries' positive earnings to offset TCI's losses. TCI then distributes the benefits of such tax savings proportionally to the contributing subsidiaries. ATR, FCC Form P. 1976.

prior written notice. If the customer receives service under the special exception provisions of Part C, 2, or if the usage of the service indicated in the notice otherwise requires the carrier to file for rate changes and notice of such changes is given to the customer by the carrier within 60 days of the date of the customer's notice, the proposed usage shall not be permitted until the necessary rate changes, which in either case will be filed on 90-day notice within the aforementioned 60-day period, become effective or are superseded.

Although ATR has eliminated the prior authorization requirement, it has replaced it with a prior notification provision that we believe has "the practical effect of a total prohibition on retransmission" for five months. Thus ATR's prior notification provision is patently unlawful. This is not to say however, that a mere notice provision without an attendant restriction on customer retransmission for the period of the notice is unlawful. We would not consider a requirement of notice, and notice alone, to be unreasonable.

D. OTHER ISSUES

51. From our review of ATR's § 61.38 materials, it does not presently appear that ATR is amortizing its plant acquisition adjustment account in violation of the ATR decision. Moreover, ATR's amortization of its rate case costs as an operating expense over a four-year period does not seem unreasonable at this time.

V. CONCLUSIONS

52. Pursuant to our order in the ATR decision, ATR has filed a revised tariff which it believes eliminates the rate structure discriminations and revenue requirement computation errors found to exist in its presently effective Tariff FCC No. 8, filed under cover of Transmittal No. 50. Although ATR has made a significant effort to comply with the holdings of the ATR decision, especially by discarding its population-sensitive value of service rate structure, we nevertheless have concluded that substantial questions have been raised as to whether the revised tariff meets the requirements of sections 201(b) and 202(a) of the Communications Act. However, we have decided that the public interest would be better served by not suspending the revised tariff's effective date because a suspension would necessarily bind ATR's customers to the unlawful tariff now in effect. Moreover, we consider the revised tariff to be a substantive improvement over the present tariff. We shall therefore permit the revised tariff to become effective, but shall institute an investigation into the issues specified herein. We will not begin this investigation, however, until after our forthcoming rulemaking proceeding is completed. We can then make a prospective application of the ratemaking and other principles formulated therein in the subsequent investigation of the specific elements of ATR's revised Tariff FCC No. 8, filed under cover of Transmittal No. 78. We have also concluded that administrative efficiency would be furthered, as well as a more expeditious resolution of this entire case, if certain revenue requirement issues were investigated in the same proceeding as the rate structure issues. Consequently, we shall defer the investigation into the revenue requirement issues pending completion of the rulemaking.

53. We have also determined that ATR has failed to justify its assertion that the adjustments we made to its reserve for depreciation in the ATR decision were "erroneous." Therefore, we shall require ATR to file revised rates within 20 days of the release of this order which accurately reflect the adjustments to the depreciation reserve specified in the Recommended Decision, adopted in ATR, and affirmed on Reconsideration. In addition, unless ATR can submit the data necessary to demonstrate clearly that it is pegging its cost of equity at 15 percent, then it must revise its rates to reflect the 15 percent peg prescribed in our ATR decision. We shall require ATR to file such data or rate revisions within 20 days of the release of this order.

54. Furthermore, we have concluded that ATR must add a statement in the exception customer provision specifying the conditions precedent to the application of an exception rate. Such a provision is necessary for the protection of all customers who may apply for such rates between the time the revised tariff becomes effective and the time we complete our investigation into the lawfulness of the exception category. Without such a provision during this interim period, we have concluded that this tariff regulation creates the possibility of carrier discrimination in the granting or denying of exception rates.

55. Finally, we have concluded that ATR's retransmission provision, which could have the effect of a total prohibition on customer retransmission for the five month notice period, is in direct violation of the ATR decision and therefore, must be rejected.

VI. ORDER

56. Accordingly, *It is ordered*, That the "Petition to Suspend" American Television Relay, Inc.'s revisions to its Tariff FCC No. 8, filed by United Cable Television Corp., *Is denied* to the extent specified herein, and otherwise *Is granted*.

57. *It is further ordered*, That ATR file tariff revisions to its customer rates to accurately reflect the adjustments made in the ATR decision to its reserve for depreciation, as described in paragraph 45 herein. These rate revisions must be made within 20 days of the release of this Order.

58. *It is further ordered*, That ATR file rate revisions to reflect a cost of equity pegged at 15 percent, unless ATR can convincingly demonstrate that it is now pegging its cost of equity to earn a return of 15 percent. The rate revisions or data submission must be made within 20 days from the release of this Order.

59. *It is further ordered*, That Paragraph C.2 of ATR's revised Tariff FCC No. 8, be amended as described in paragraphs 40 and 56 herein, within 20 days of the release of this Order.

60. *It is further ordered*, That paragraph B.4.e of ATR's revised Tariff FCC No. 8 *Is rejected*, for the reasons specified in paragraph 50 herein.

61. *It is further ordered*, That pursuant to section 1.3 of our Rules and Regulations, 47 CFR 1.3, the requirements of § 61.58 of our Rules, 47 CFR 61.58 are waived so that the revisions ordered in paragraphs 57, 58 and 59 herein can be made on one day's notice to the public. Any party that may wish to file pleadings and comments with respect to these rate revisions and other tariff changes may proceed to do so within 30 days of the release of this Order, and ATR may respond within 14 days thereafter. Such comments and pleadings will be considered in our investigation of this tariff, or otherwise as may be appropriate.

62. *It is further ordered*, That, pursuant to sections 4(i), 4(j), 201, 202, 204, 205, and 403 of the Communications Act of 1934, as amended, an investigation is instituted into the lawfulness of the tariff schedules filed by American Television Relay, Inc. with Transmittal No. 78, including any cancellations, amendments or reissues thereof.

63. *It is further ordered*, That pursuant to section 4(j) of the Act, hearings in this investigation are deferred until further Commission order.

FEDERAL COMMUNICATIONS COMMISSION,
WILLIAM J. TRICARICO,
Secretary.

[6712-01]

[BC Docket Nos. 78-15—78-17; File Nos. BPH-9670, etc.; FCC 78-15]

BURT H. OLIPHANT, ET AL

Memorandum Opinion and Order Designating Applications for Consolidated Hearing on Stated Issues

Adopted: January 11, 1978.

Released: January 31, 1978.

In re applications of Burt H. Oliphant, Bozeman, Mont., BC Docket

No. 78-15, File No. BPH-9670, Requests: 93.7 MHz, No. 229; 60 kW; 430 feet; Western Media, Inc., Bozeman, Mont., BC Docket No. 78-16, File No. BPH-9772, Requests: 93.7 MHz, No. 229; 63 kW; 195 feet; Northern Sun Corporation, Bozeman, Mont., BC Docket No. 78-17, File No. BPH-9841, Requests: 93.7 MHz, No. 229; 100 kW; 220 feet, for construction permits.

1. The Commission has before it: (i) The above-captioned mutually exclusive applications of Burt H. Oliphant (Oliphant), Western Media, Inc. (Western Medial), and Northern Sun Corporation (Northern Sun); and, (ii) a Petition to Deny the Oliphant application, filed by Western Media, and related pleadings.

2. Data on file indicate there would be a significant difference between the areas and populations which would receive service from the proposals.[1] Consequently, for the purposes of comparison, the areas and populations which would receive FM service of 1 mV/m or greater intensity together with the availability of other primary aural services in such areas will be considered under the standard comparative issue, for the purpose of determining whether a comparative preference should accrue to any of the applicants.

3. In its petition, Western Media alleges that Mr. Rex K. Jensen is a real party in interest to the Oliphant application, that Oliphant's community leader survey is defective, and that Oliphant has not established his financial qualifications. The substance of Western Media's argument for a real party in interest issue is that Oliphant and Jensen are acting in concert as evidenced by their familial relationship, their common ownership of Magicland Broadcasting Co. (Magicland), licensee of Stations KBBJ(AM) and KBBK(FM), Boise, Idaho, and the substantial similarities between Oliphant's application and Jensen's applications for Boise, Idaho (BPH-9674) and Missoula, Mont. (BPH-9664). According to Western Media, Jensen is Mrs. Oliphant's nephew. In addition, it is stated that Jensen is president, a director, and, in conjunction with his wife, 10 percent owner of Magicland, white Oliphant is vice-president, a director, and, in conjunction with his wife, ninety percent owner of Magicland. The alleged similarities in the Oliphant application and two Jensen applications are that each of the three applications specify identical proposed hours of operation, times for news and public affairs programming, and numbers of public service announcements proposed to be broadcast. Finally, the responses to FCC Form 301 (Nov. 1974 ed.), Section IV-A, paragraphs 1-C, 16, and 28, and Section VI are allegedly identical, and the responses to Section IV-A, paragraphs 1-A, 17, 19, and 25, are allegedly substantially similar.

4. As stated in "Sumiton Broadcasting Co., Inc.," 15 FCC 2d 400, 405, 14 RR 2d 1000 (1968), "the test for determining whether a third person is a real party in interest is whether that person has an ownership interest, or is or will be in a position to actually or potentially control the operation of the station." We are unable to find that Western Media's allegations meet this test. While it is true that Jensen prepared some of Oliphant's exhibits, a fact indicated on page 2, Section I of Oliphant's application, and while there are many similarities between the applications, Western Media has not substantiated its charge that Jensen is a real party in interest. There is no indication here that Jensen is supplying any funds to Oliphant, as is the usual case when a real party in interest issue is specified. See, "e.g., KOWL, Inc.," 49 FCC 2d 962, 31 RR 2d 1589 (Rev. Bd., 1974). Ample Commission precedent demonstrates that neither a family relationship nor assistance in preparation of an application, standing alone, is sufficient to support the addition of a real party in interest issue. See, "e.g., Corvallis Broadcasting Corp.," 38 FCC 2d 30, 25 RR 2d 824 (Rev. Bd., 1972).

5. Western Media correctly indicates in its petition that Oliphant's ascertainment survey contained in the application as originally filed was deficient in many respects: Demographic data for Bozeman was lacking; there was no clear indication that the community leader survey was conducted by a management-level employee; it was not clear that sufficient community leaders or members of the general public were contacted; the dates upon which the surveys were conducted were not provided; and, the proposed programs were not correlated with ascertained needs. However, Oliphant submitted an amended ascertainment survey on March 21, 1977 which corrected each of these defects and, accordingly, we find no basis upon which to specify an issue inquiring into the efforts made by Oliphant to ascertain the problems, needs and interests of the residents of Bozeman.

6. We find, though, that there is merit to Western Media's charge that Oliphant has not established his financial qualifications. Analysis of Section III of Oliphant's application, as amended, reveals that $145,762 will be required to construct and operate the proposed station for a period of one year, without revenue, itemized as follows:

Equipment	$28,500
Land	250
Building	3,500
Miscellaneous	10,000
Working capital (first year)	103,512
Total	$145,762

To meet this requirement, applicant relies upon the following: Deferred credit, $42,615; existing capital, $28,185; and, bank loans, $88,125. However, the manufacturer's letter of credit, dated October 23, 1975, shows that $65,000, not $28,500, worth of equipment will be purchased, and shows deferred credit in the amount of $40,138 rather than $42,615 as indicated in Section III. In addition, since the bank letters do not show the terms of repayment or interest to be charged as required by paragraph 4(a), page 3, Section III, FCC Form 301, they cannot be considered available. Accordingly, an appropriate issue will be specified.

7. Western Media has failed to comply with the requirements of the "Primer on Ascertainment of Community Problems by Broadcast Applicants" 27 FCC 2d 650, 21 RR 2d 1507 (1971). While Western Media indicates that community leaders were interviewed by employees of commonly-owned Station KBMN under the direction of Mr. Leonard Kehl, Vice President of Western Media, we are unable to determine on the basis of the information before us whether the community leaders were contacted by principals or management-level employees as required by question and answer 11(a) of the "Primer." Further, while Western Media lists the names of 216 members of the general public who were interviewed, since it has supplied neither information regarding the methodology used to achieve randomness nor sufficient information concerning the people interviewed, we cannot determine whether a random sample was achieved. See "Primer", question and answer 13(b). Finally, Western Media has not provided the time segment for any of the proposed programs as required by question and answer 29. Accordingly, an appropriate issue will be specified.

8. Analysis of the financial portion of Western Media's application reveals that $104,000 will be required to construct and operate the proposed station for a period of one year, itemized as follows:

Equipment	$41,000
Miscellaneous	6,000
Loan repayment with interest	21,000
Working capital (first year)	36,000
Total	104,000

To meet this requirement, applicant relies upon the following: existing capital, $32,000; loans from shareholders, $100,000; and, profits from existing operations, $55,000. However, the $32,000 is not reflected in its balance sheet. In

[1] The applicants indicate in Section V-B of their applications that the areas (in square miles) and populations, respectively, their proposals would serve would be as follows: (i) Oliphant: 5000; 45,573; (ii) Western Media: 2547; 27,685; and, (iii) Northern Sun 2725; 27,790.

addition, the balance sheets of shareholders Gerald Rounsborg and Leonard V. Kehl do not segregate current and long-term liabilities as required by paragraph 4(b), page 3, section III of FCC Form 301, and the bank letter to Kehl does not indicate terms of repayment, interest, or security required, if any, as required by paragraph 4(a) of Form 301. Finally, since "profits from existing operations" has not been defined, funds cannot be considered available from this source. Accordingly, an appropriate issue will be specified.

9. Oliphant and Northern Sun propose independent programming, while Western Media proposes to duplicate the programming of its commonly owned AM station, KBMN, during 50 percent of its broadcast time. Therefore, evidence regarding program duplication will be admissible under the standard comparative issue. When duplicated programming is proposed, the showing permitted under the comparative issue will be limited to evidence concerning the benefits to be derived from the proposed duplication which would offset its inherent inefficiency. "Jones T. Sudbury," 8 FCC 2d 360, 10 RR 2d 114 (1967).

10. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. However, since the proposals are mutually exclusive, they must be designated for hearing in a consolidated proceeding on the issues specified below.

11. *Accordingly, it is ordered,* That pursuant to section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine with respect to the application of Burt H. Oliphant:

(a) The applicant's first year equipment costs;

(b) The source and availability of funds above and beyond the $28,185 indicated; and,

(c) Whether, in light of the evidence adduced pursuant to (a) and (b) above, the applicant is financially qualified.

2. To determine the efforts made by Western Media, Inc. to ascertain the needs and interests of the area to be served and the means by which Western Media, Inc. proposes to meet those needs and interests.

3. To determine whether Western Media, Inc. is financially qualified to construct and operate as proposed.

4. To determine which of the proposals would, on a comparative basis, best serve the public interest.

5. To determine, in light of the evidence adduced pursuant to the foregoing issues, which of the applications should be granted.

12. *It is further ordered,* That, the petition to deny filed by Western Media, Inc. is granted to the extent indicated above, and is denied in all other respects.

13. *It is further ordered,* That, to avail themselves of the opportunity to be heard, the applicant and parties respondent herein, pursuant to § 1.221(c) of the Commission's Rules, in person or by attorney shall, within twenty (20) days of the mailing of this order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

14. *It is further ordered,* That, the applicant herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's rules give notice of the hearing within the time and manner prescribed in such rule, and shall advise the Commission of publication of such notice as required by § 1.594 of the rules.

FEDERAL COMMUNICATIONS COMMISSION,
WILLIAM J. TRICARICO,
Secretary.

RM-2698; FCC 78-53]

CENTRAL STATION ELECTRICAL PROTECTION INDUSTRY

Memorandum Opinion and Order Denying Rulemaking in Part

Adopted: January 25, 1978.

Released: February 7, 1978.

By the Commission: Commissioner Washburn absent.

In the matter of Amendment of Parts 89 and 91 of the Commission's Rules to transfer central station electrical protection industry licensees and certain frequencies allocated to their use from the Business Radio Service to the Special Emergency Radio Service; Memorandum opinion and order (Denying Rule Making in Part).

1. The Central Station Electrical Protection Association (CSEPA) has petitioned the Commission to reconsider its decision of May 20, 1977, denying CSEPA's petition to make central station electrical protection companies eligible in the Special Emergency Radio Service (Part 89, Subpart P of the Commission's Rules).[1] CSEPA's petition is opposed by the International Municipal Signal Association (IMSA).

2. In support of its request, CSEPA complains that the Commission was not accurately and fully informed by the staff of all of the considerations which CSEPA viewed as relevant to the issues involved in its rule making request, and, as a consequence CSEPA argues, the Commission has not fully recognized and, therefore, has not adequately accommodated the valuable public service which central station electrical protection companies provide. CSEPA's basic position is that central station electrical protection companies should be regarded as quasi-public safety organizations and be included in the Special Emergency Radio Service or, in the alternative, in a new radio service to be established within the public safety radio services group rather than be authorized in the Business Radio Service along with other commercial enterprises.

3. While the Commission believes it considered all of the pertinent factors in its decision in this case, we have determined to grant reconsideration, and to review the matter again because we feel that some modification of the original decision is warranted and also because we want to assure the petitioner that full and complete consideration has been given to all of the pertinent arguments it has advanced.

4. Briefly, as we understand them, the petitioner's arguments (as advanced in its original petition for rulemaking, in additional filings concerning that petition, in the instant petition for reconsideration, and in correspondence related to it) may be summarized as follows: According to the petitioner, the central station electrical protection industry plays an important role in the overall national effort to curb crime, in that it provides protection to valuable private as well as public property. It states that its services are effective, and parallel those of public safety agencies, such as police and fire departments; that other Federal agencies, such as the Law Enforcement Assistance Administration, have recognized the importance of private policing and other private protection services; and that this Commission should recognize their importance as well. CSEPA argues that since the services provided by the central station electrical protection industry are akin to the services of such public safety agencies as police and fire departments, the central station electrical protection industry should be accommodated in the same group of radio services as are the police, fire, and other local governmental functions, namely, the Public Safety Radio Services. The Special Emergency Radio Service, in which the petitioner specifically seeks eligibility for the industry, is now one of the Public Safety Radio Services.

5. CSEPA's basic objective is to have the central station electrical protection industry qualified for the higher

[1] FCC 77-321, released May 20, 1977.

priority in frequency allocations and for the greater latitude in the use of frequencies which the petitioner feels have been accorded traditionally to licensees in the Public Safety Radio Service. However, the petitioner states that it is not proposing that the industry share the use of radio frequencies now allocated in the Special Emergency, or in the other Public Safety Radio Services.

6. One of the petitioner's immediate objective (as we understand it), is for us to allow central station electrical protection entities to use for point-to-point communication purposes the five pairs of frequencies we have earmarked for their use in most parts of the country (2 nationwide and 3 in the largest 87 urban areas). Under existing rules, these frequencies may now be used for point-to-point communications only outside the largest 40 urbanized areas of the country. The petitioner appears to believe that the chances for obtaining such rules changes would be better, if its members were made eligible in the Public Safety Radio Services. The petitioner also seems to believe that the future chances for obtaining allocation of additional radio frequencies for the industry's point-to-point communications would be better, if it were part of the Public Safety Radio Services.

7. CSEPA's original petition for rulemaking was opposed by the Associated Public Safety Communications Officers (APCO), which is the traditional spokesman before the Commission on police and other public safety radio communication matters, and by the International Municipal Signal Association (IMSA), traditional spokesman for the Fire Radio Service. IMSA also opposed CSEPA's petition for reconsideration. Without detailing the specific objections voiced by these organizations, they argued basically that central station electrical protection entities do not belong in the Special Emergency Radio Service, or in any of the Public Safety Radio Services, because they are commercial entities providing service to specific customers and, as such, should not be equated in terms of their claim to the radio spectrum with tax-supported governmental entities, which provide protection and other governmental services to the entire public.

8. The Commission has reconsidered the petitioner's arguments carefully as well as the arguments advanced in opposition by IMSA and by APCO. We have decided to affirm our earlier decision, in so far as we declined to propose rules which would make central station electrical protection entities eligible in the Special Emergency Radio Service, or which would establish a new radio service for this industry within the Public Safety Radio Services group. We find nothing in the original petition or in the petition for reconsideration which requires or warrants a different conclusion. The Public Safety Radio Services were established primarily to accommodate local governmental requirements, and we perceive no good reason to introduce new non-governmental functions there. Further, as the Commission pointed out in its Memorandum Opinion and Order, the Special Emergency Radio Service is also not the appropriate home for this industry. The Special Emergency Radio Service is principally oriented towards life protection, and it accommodates hospitals, ambulances, rescue and disaster organizations, and physicians as part of the Commission's extensive regulatory program for authorizing emergency medical service communications. The Commission, therefore, affirms its conclusion that commercial central station electrical protection entities do not belong in the Special Emergency Radio Service.

9. This is not to say that the Commission is not aware of the importance of the commercial protection services being provided by this industry. The importance of these services has been recognized by us for many years. As early as 1960 the Commission made specific provisions to allow this industry to test the feasibility of central radio alarm systems in the 952-960 MHz band, and authorized the operation of such systems on a developmental basis. Later, at the request of the industry, in Docket No. 17891, the Commission adopted rules which allowed the industry to operate radio alarm systems in that band on a regular basis, while we maintained the "developmental" status of similar operations of others.[2] Further, in Docket 19869[3] the Commission was convinced by this industry to adopt technical standards less stringent than originally proposed and called for by the state-of-the-art, in order to promote the development of low cost central radio alarm systems in the 962-960 MHz band.[4] Finally, in Docket 13847[5] the Commission earmarked five pairs of frequencies in the 460-470 MHz band exclusively for the use of members of this industry, two of them nationwide and three in the largest 87 urbanized areas.

10. The significant issue, as we see it, is not whether the central station electrical protection industry deserves to become eligible in the Public Safety Radio Services, but whether its legitimate and substantial radio communication requirements are being reasonably accommodated. On this point, it is our understanding that except for the additional protection sought by the industry in the recently submitted RM-2957, the industry's mobile communication requirements are being satisfactorily accommodated by existing rule provisions. The industry's major, if not sole, concern appears to relate to requirements for fixed point-to-point radio communications to satisfy present and more importantly future needs. This concern becomes evident from the petitioner's lengthy discussion of the industry's desire for radio circuits to connect the alarms at the customer's premises with central stations.[6] Additionally, the industry would like to have radio point-to-point circuits with which to transmit messages about alarms received at the central station to appropriate police and fire departments. Toward this end, as we stated above, CSEPA seeks to have the Commission adopt rules which would allow central station electrical protection licensees to operate point-to-point communications for alarm signalling and other purposes on the frequency or frequencies assigned to them for land mobile radio communications.[7]

11. On reconsideration, we believe that this aspect of the petition could be granted and we have adopted a Notice of Proposed Rule Making to amend the appropriate rules in the Business Radio Service to allow secondary point-to-point uses of the five pairs of frequencies earmarked for the central station protection industry. We base this conclusion on CSEPA's representation on behalf of the industry that these five pairs of frequencies have enough unused capacity to accommodate the limited point-to-point communications asked for by the petitioner, in addition to the industry's mobile radio service communications requirements.

12. We have considered petitioner's Petition For Leave To File Additional Pleading, submitted, August 12, 1977, and petitioner's Request To Set Petition For Reconsideration For Oral Argument or in the alternative, Request To Refer Initial Decision to the Office of Opinions and review For Recommendation, submitted the same date.

---

[2] 13 FCC 2d 713 (1968).

[3] 52 FCC 2d 894 (1975).

[4] It is noted with considerable disappointment that, although the radio frequencies in the 952-960 MHz band have been available to central station electrical protection industry for more than 15 years, no such system is in operation to date.

[5] 11 FCC 2d 648 (1968) Feb. 9.

[6] These requirements, as we have indicated, were to be accommodated on frequencies in the 952-960 MHz band but as mentioned, such radio systems have not been developed.

[7] In addition, there is a pending RM-2713, a Petition filed by CSEPA, looking for 200 kHz of radio spectrum in the 27-40 MHz region for the use of central station commercial protection industry, and for "a few frequencies" in the 27-76 MHz band for alarms to be transmitted at locations other than central stations. This petition will be considered separately.

The Petition For Leave To File Additional Pleading is granted and the information has been considered. We do not see the necessity for the Request To Set Petition For Reconsideration For Oral Argument, or in the alternative, the Request To Refer Initial Decision To The Office Of Opinions and Review For Recommendation and these are denied.

13. In view of the foregoing, the Petition for Reconsideration filed by the Central Station Electrical Protection Association on June 20, 1977, and its petition for rule making RM-2698 are granted to the extent indicated in the foregoing opinion and are denied in all other respect. Authority for this action is contained in Sections 4(i), 303, and 405 of the Communications Act of 1934, as amended.

14. *It is further ordered,* That the Petition For Leave To File Additional Pleadings filed by the Central Station Electrical Protection Association on August 12, 1977, is granted and the Request To Set Petition for Reconsideration For Oral Argument or in the alternative the Request To Refer Initial Decision To the Office of Opinions and Review are denied.

FEDERAL COMMUNICATIONS COMMISSION,
WILLIAM J. TRICARICO,
Secretary.

FEDERAL MARITIME COMMISSION

NOTICE OF AGREEMENTS FILED

The Federal Maritime Commission hereby gives notice that the following agreements have been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of each of the agreements and the justifications offered therefor at the Washington office of the Federal Maritime Commission, 1100 L Street NW., Room 10126; or may inspect the agreements at the field offices located at New York, N.Y.; New Orleans, La.; San Francisco, Calif.; and San Juan, P.R. Interested parties may submit comments on each agreement, including requests for hearing, to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before February 27, 1978. Comments should include facts and arguments concerning the approval, modification, or disapproval of the proposed agreement. Comments shall discuss with particularity allegations that the agreement is unjustly discriminatory or unfair as between carriers, shippers, exporters, importers, or ports, or between exporters from the United States and their foreign competitors, or operates to the detriment of the commerce of the United States, or is contrary to the public interest, or is in violation of the Act.

A copy of any comments should also be forwarded to the party filing the agreements and the statement should indicate that this has been done.

AGREEMENT No. 8770-7

Filing party: Howard A. Levy, Esquire, Suite 727, 17 Battery Place, New York, N.Y. 10004.

Summary: Agreement No. 8770 modifies the U.K./U.S.A. Gulf Rate Agreement by adding a new paragraph to Article 4 to articulate the authority of the Agreement Chairman and staff to compile statistics and data relating to rate applications, shipper requests and other Agreement business.

AGREEMENT No. 9988-7

Filing party: Howard A. Levy, Esquire, Suite 727, 17 Battery Place, New York, N.Y. 10004.

Summary: Agreement No. 9988-7 modifies the Continental/U.S. Gulf Freight Association Agreement by adding a new paragraph to Article 11 to articulate the authority of the Agreement Chairman and staff to compile statistics and data relating to rate applications, shipper requests and other Association business.

AGREEMENTS Nos. T-2851-A AND T-2851-B

Filing party: Peter P. Wilson, Senior Counsel, Matson Navigation Co., 100 Mission Street, San Francisco, Calif. 94105.

Summary: Agreement No. T-2851-A, between Matson Terminals, Inc. (Matson), and McCabe, Hamilton & Renny Co., Ltd. (McCabe), and Agreement No. T-2851-B, between Matson Navigation Co. (Matson) and McCabe, provide for the lease of certain equipment from Matson to McCabe so that McCabe can perform services for Matson in certain specified Hawaii ports. These two agreements will facilitate McCabe in the discharge and performance of cargo services pursuant to approved Federal Maritime Commission Agreement No. T-2851, between the same parties. Agreement No. T-2851-A provides for the lease to McCabe of equipment including, but not limited to, yard tractors, straddle carriers, container lifting beams, mobile radio equipment and RoRo ramps. Agreement No. T-2851-B provides for the lease to McCabe of equipment including, but not limited to, trailers. Neither agreement requires any payments to Matson for use of the aforesaid equipment. It is, nevertheless, understood that McCabe will maintain all such leased equipment in good operating condition, with the stipulation that Matson will reimburse McCabe for certain maintenance costs as detailed in the agreements.

AGREEMENT No. T-3414-1

Filing party: H. H. Wittren, Manager, Waterfront Real Estate, Port of Seattle, P.O. Box 1209, Seattle, Wash. 98111.

Summary: Agreement No. T-3414-1, between Port of Seattle (Port) and Sea-Land Service, Inc. (Sea-Land), modifies the parties' basic agreement providing for the 5-year lease to Sea-Land of property at Terminal 5, Seattle, Wash., to be operated as a marine terminal facility. The purpose of the modification is to make certain changes in the rental schedule and lease bond requirements, reimburse Sea-Land for partially completed facility improvements and modify commencement dates of rentals in certain areas of the lease premises.

AGREEMENTS Nos. T-3565 AND T-3565-A

Filing party: Amy Loeserman Klein, Esquire, Galland, Kharasch, Calkins & Short, Canal Square, 1054 31st Street NW., Washington, D.C. 20007.

Summary: Agreements Nos. T-3565 and T-3565-A are between the Puerto Rico Ports Authority (Port) and Sea-Land Service, Inc. (Sea-Land). Agreement No. T-3565 grants Sea-Land preferential use of: (a) Berths E and F, Puerto Nuevo, San Juan; and (b) approximately 300,000 square feet of adjoining apron and cargo-in-transit area. The agreement's initial term is 5 years, with four 5-year renewal options. As compensation, the Port is to receive: (a) $15,000 annually for Sea-Land's preferential rights; (b) all Port dockage and wharfage charges, subject to an annual minimum guarantee of $375,000; and (c) all other applicable Port charges. The Port retains secondary berthing privileges under the agreement, and dockage and wharfage collected from non-Sea-Land vessels calling at the facility will be credited to Sea-Land's minimum annual guarantee. Agreement No. T-3565-A provides for Sea-Land's lease and exclusive use of 1,126,831.13 square feet (577,793.45 square feet (Area A) upon the agreement's effective date, and an additional 549,037.68 square feet (Area B) commencing July 1, 1979) adjacent to the area preferentially assigned Sea-Land under Agreement No. T-3565, above. The agreement's initial term is five years, with four 5-year renewal options. As compensation, the Port is to receive $174,812.26 annually for Area A and $166,113.28 annually for Area B.

AGREEMENTS Nos. T-3567 AND T-3567-A

Filing party: Amy Loeserman Klein, Esquire, Galland, Kharasch, Calkins & Short, Canal Square, 1054 31st Street NW., Washington, D.C. 20007.

Summary: Agreements Nos. T-3567 and T-3567-A are between the Puerto Rico Ports Authority (Port) and the

Puerto Rico Maritime Shipping Authority (PRMSA). Agreement No. T-3567 grants PRMSA preferential use of: (a) Berths G and H, Puerto Nuevo, San Juan; and (b) approximately 300,000 square feet of adjoining apron and cargo-in-transit area. The agreement's initial term is 25 years, with a renewal option for an additional 5 years. As compensation, the Port is to receive: (a) $15,000 annually for PRMSA's preferential rights; (b) all Port dockage and wharfage charges, subject to an annual minimum guarantee of $375,000; and (c) all other applicable Port changes. The Port retains secondary berthing rights under the agreement, and dockage and wharfage collected from non-PRMSA vessels will be credited to PRMSA's minimum annual guarantee. Agreement No. T-3567-A provides for PRMSA's lease and exclusive use of 1,683,387.68 square feet, 549,037.68 square feet of which (i.e., Area B) will revert to the Port on July 1, 1979. The agreement's initial term is 25 years, with a renewal option for an additional 5 years. As compensation, the Port is to receive $509,304.32 annually, which is to be reduced by $166,113.28 once Area B reverts to the Port.

AGREEMENT No. T-3570

Filing party: Peter P. Wilson, Senior Counsel, Matson Navigation Co., 100 Mission Street, San Francisco, Calif. 94105.

Summary: Agreement No. T-3570, between Matson Terminals, Inc. (Matson), and McCabe, Hamilton & Renny Co., Ltd. (McCabe), provides for the lease of certain equipment from Matson to McCabe so that McCabe can perform services for Matson at the Port of Honolulu, Hawaii. Specifically, the agreement provides for the lease to McCabe of equipment including but not limited to yard tractors. The agreement does not require any payments to Matson for use of the aforesaid equipment. It is nevertheless understood that McCabe will maintain all such leased equipment in good operating condition with the stipulation, that Matson will reimburse McCabe for certain maintenance costs as detailed in the agreement.

AGREEMENT No. T-3574

Filing party: Mr. Donald C. O'Malley, Jr., Director, Tariffs and Regulatory Affairs, Crowley Maritime Corp., Caribbean Division, P.O. Box 2110, Jacksonville, Fla. 32203.

Summary: Agreement No. T-3574, between the Lake Charles Harbor and Terminal District (Port) and Trailer Marine Transport Corp. (TMT), provides for the 6-month (with renewal options) lease of certain premises in Ward 3, Calcasieu Parish, La., to be used for roadways, parking, and the operation of a roll-on/roll-off trailer barge service by TMT. As compensation, TMT shall pay the Port $1,125.00 for the 6-month period.

By order of the Federal Maritime Commission.

Dated: February 1, 1978.

FRANCIS C. HURNEY,
Secretary.

[FR Doc. 78-3276 Filed 2-6-78; 8:45 am]

[6730-01]

NOTICE OF AGREEMENTS FILED

The Federal Maritime Commission hereby gives notice that the following agreements have been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of each of the agreements and the justifications offered therefor at the Washington Office of the Federal Maritime Commission, 1100 L Street NW., Room 10136; or may inspect the agreements at the Field Offices located at New York, N.Y.; New Orleans, La.; San Francisco, Calif.; and San Juan, Puerto Rico.

AGREEMENT No. 9902-8.

Filing party: Edward Schmeltzer, Esquire, Schmeltzer, Aptaker & Sheppard, P.C., Counselors at Law, Suite 305, 1150 Connecticut Avenue NW., Washington, D.C. 20036.

Summary: Agreement No. 9902-8 modifies the organic agreement of the Euro-Pacific Joint Services to (1) limit the joint service parties to one vote in any conference to which they belong; (2) authorize the parties to interchange empty cargo containers and/or related equipment; (3) allocate Compagnie Generale Maritime (CGM) and Intercontinental Transport (ICT) 50 percent of the space on each sailing and Hapag-Lloyd 50 percent; (4) authorize CGM and ICT to market their half of the service separately from Hapag-Lloyd; (5) permit the parties to charter space from each other in addition to the amount allocated; (6) authorize the joint service to operate containerships in the trade with an approximate ten-day sailing frequency and with a one-way limit of 800 TEU's every ten days; and (7) establish a term of four years and six months or until December 31, 1982, whichever is earlier. This agreement, if approved, would supersede all pending modifications presently under investigation in Federal Maritime Commission Docket No. 77-4.

This agreement has been incorporated into Docket No. 77-4 concerning Agreements Nos. 9902-3, et al. All persons, except present parties to Docket No. 77-4, desiring to comment upon this amendment may do so by filing petitions to intervene in this proceeding.

AGREEMENT No. 9929-5.

Filing party: Edward Schmeltzer, Esquire, Schmeltzer, Aptaker & Sheppard, P.C., 1150 Connecticut Avenue NW., Washington, D.C. 20036.

Summary: Agreement No. 9929-5, between Hapag-Lloyd, A.G., Intercontinental Transport (ICT) B.V. and Compagnie Generale Maritime, modifies the Combi Line Joint Service Agreement by (1) removing obsolete references, clarifying certain provisions and rearranging the order of the Articles, (2) clarifying the inclusion of Mexico in the scope of the Agreement, (3) setting new capacity limits for the coordinated container service, and (4) making other administrative changes.

This agreement has been incorporated into Docket No. 77-7 concerning Agreements Nos. 9929-2, et al. All persons, except present parties to Docket No. 77-7, desiring to comment upon this amendment may do so by filing petitions to intervene in this proceeding.

AGREEMENT No. 10266-2.

Filing party: Edward Schmeltzer, Esquire, Schmeltzer, Aptaker & Sheppard, P.C., 1150 Connecticut Avenue NW., Washington, D.C. 20036.

Summary: Agreement No. 10266-2, between Intercontinental Transport (ICT) B.V. and Compagnie Generale Maritime, modifies the basic joint marketing agreement by (1) correcting the name designation of CGM, (2) deleting Article 5 pertaining to conference matters, (3) specifying a new termination date, and (4) making other administrative changes.

This agreement has been incorporated into Docket No. 77-7 concerning Agreements Nos. 10266-2, et al. All persons, except present parties to Docket No. 77-7, desiring to comment upon this amendment may do so by filing petitions to intervene in this proceeding.

By order of the Federal Maritime Commission.

Dated: February 2, 1978.

FRANCIS C. HURNEY,
Secretary.

[Independent Ocean Freight Forwarder License No. 518]

GILBERT GARCIA D.B.A. GARCIA BROS.

Order of Revocation

The bond issued in favor of Gilbert Garcia d.b.a. Garcia Bros., 1805 Congress Building, Miami, Fla. 33132,

FMC No. 518, was canceled effective January 26, 1978.

By letter dated December 30, 1977, the licensee was advised by the Federal Maritime Commission that Independent Ocean Freight Forwarder License No. 518 would be automatically revoked or suspended unless a valid surety bond was filed with the Commission on or before January 26, 1978.

Section 44(c), Shipping Act, 1916, provides that no independent ocean freight forwarder license shall remain in force unless a valid bond is in effect and on file with the Commission. Rule 510.9 of Federal Maritime Commission General Order 4, further provides that a license will be automatically revoked or suspended for failure of a licensee to maintain a valid bond on file.

The licensee has failed to furnish a valid surety bond.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 201.1 (revised) Section 5.01(d) dated August 8, 1977;

It is ordered, That Independent Ocean Freight Forwarder License No. 518 be and is hereby revoked effective January 26, 1978.

It is further ordered, That Independent Ocean Freight Forwarder License No. 518 issued to Gilbert Garcia d.b.a. Garcia Bros., be returned to the Commission for cancellation.

It is further ordered, That a copy of this Order be published in the FEDERAL REGISTER and served upon Gilbert Garcia d.b.a. Garcia Bros.

LEROY F. FULLER,
Director, Bureau of Certification and Licensing.

[Independent Ocean Freight Forwarder License No. 1975]

NICHOLAS A. SCULLY AND STEPHEN C. SCULLY D.B.A. SCULLY & CO.

Order of Revocation

On January 30, 1978, Nicholas A. Scully and Stephen C. Scully d.b.a. Scully & Co., voluntarily surrendered their Independent Ocean Freight Forwarder License No. 1975 for revocation.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 201.1 (Revised), Section 5.01(c), dated August 8, 1977;

It is ordered, That Independent Ocean Freight Forwarder License No. 1975 issued to Nicholas A. Scully and Stephen C. Scully d.b.a. Scully & Company, be and is hereby revoked effective January 30, 1978 without prejudice to reapply for a license in the future.

It is further ordered, That a copy of this Order be published in the FEDERAL REGISTER and served upon Nicholas A. Scully and Stephen C. Scully d.b.a. Scully & Co.

LEROY F. FULLER,
Director Bureau of Certification and Licensing.

FEDERAL RESERVE SYSTEM

FIRST AFFILIATED BANCORPORATION, INC.

Formation of Bank Holding Company

First Affiliated Bancorporation, Inc., Stevens Point, Wis., has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company by acquiring 80 percent or more of the voting shares of First National Bank of Stevens Point, Stevens Point, Wis. and 80 percent or more of the voting shares of Bank of Park Ridge, Park Ridge, Wis. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Chicago. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received no later than February 24, 1978.

Board of Governors of the Federal Reserve System, February 1, 1978.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

[FR Doc. 78-3207 Filed 2-6-78; 8:45 am]

[6210-01]

MERCANTILE BANCORPORATION INC.

Proposed Acquisition of Thorp Credit Co. of Parkersburg

Mercantile Bancorporation Inc., St. Louis, Mo., has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y (12 CFR 225.4(b)(2)), for permission to acquire through its subsidiary, Franklin Finance Co., Clayton, Mo., the assets of Thorp Credit Co. of Parkersburg, Parkersburg, W. Va. Notice of the application was published on November 4, 1977, in the Parkersburg Sentinel, a newspaper circulated in Parkersburg, W. Va.

Applicant states that the proposed subsidiary would engage in the activities of making direct consumer loans under the West Virginia Industrial Loan Act and selling credit related life and disability insurance in connection with those loans. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of St. Louis.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than February 20, 1978.

Board of Governors of the Federal Reserve System, January 30, 1978.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

GENERAL SERVICES ADMINISTRATION

[Intervention Notice 51; Formal Case No. 1517]

TEXAS PUBLIC UTILITY COMMISSION, TEXAS POWER & LIGHT CO.

Proposed Intervention In Rate Increase Proceeding

The Administrator of General Services seeks to intervene in a proceeding before the Texas Public Utility Commission concerning an application of the Texas Power & Light Co. for an increase in its tariffed rates for intrastate utility services. The Administrator of General Services represents the interests of the executive agencies of the U.S. Government, as users of utility services.

Persons desiring to make inquiries concerning this case to GSA should submit them, in writing, to Mr. Spence W. Perry, Assistant General Council, Regulatory Law Division, General Ser-

vices Administration, 18th and F Streets NW., Washington, D.C. 20405, telephone 202-566-0750, on or before March 9, 1978 and refer to this notice number.

Persons making inquiries are put on notice that the making of an inquiry shall not serve to make any persons parties of record in the proceeding.

(Section 201(a)(4), Federal Property and Administrative Services Act, 40 U.S.C. 481(a)(4).)

Dated: January 27, 1978.

JAY SOLOMON,
Administrator of General Services.

[Temporary Regulation F-456]

FEDERAL PROPERTY MANAGEMENT REGULATIONS

Delegation of Authority

1. *Purpose.* This regulation delegates authority to the Secretary of Defense to represent, in conjunction with the Administrator of General Services, the interests of the executive agencies of the Federal Government in a telephone rate increase proceeding.

2. *Effective date.* This regulation is effective immediately.

3. *Delegation.* (a) Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, particularly sections 201(a)(4) and 205(d) (40 U.S.C. 481(a)(4) and 486(d)), authority is delegated to the Secretary of Defense to represent, in conjunction with the General Services Administration, the consumer interests of the executive agencies of the Federal Government before the New Jersey Board of Public Utilities involving the application of the New Jersey Bell Telephone Co. requesting an increase in telephone rates.

(b) The Secretary of Defense may redelegate this authority to any officer, official, or employee of the Department of Defense.

(c) This authority shall be exercised in accordance with the policies, procedures, and controls prescribed by the General Services Administration and shall be exercised in cooperation with the responsible officers, officials, and employees thereof.

JAY SOLOMON,
Administrator of General Services.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Alcohol, Drug Abuse, and Mental Health Administration

ADVISORY COMMITTEES

Committee Extensions

Pursuant to the Federal Advisory Committee Act of October 6, 1972 (5 U.S.C. Appendix I), the Alcohol, Drug Abuse, and Mental Health Administration announces the continuance by the Secretary of Health, Education, and Welfare, with the concurrence of the Office of Management and Budget Committee Management Secretariat, of the following advisory committees until September 1, 1978:

Clinical Projects Research Review Committee.
Clinical Psychopharmacology Research Review Committee.
Community Alcoholism Services Review Committee.
Developmental Problems Research Review Committee.
Drug Abuse Training Review Committee.
Epidemiologic Studies Review Committee.
Experimental and Special Training Review Committee.
Mental Health Small Grant Committee.
Paraprofessional Manpower Development Review Committee.
Personality and Cognition Research Review Committee.
Psychiatric Nursing Education Review Committee.
Psychiatry Education Review Committee.
Psychology Education Review Committee.
Social Work Education Review Committee.

Dated: January 30, 1978.

[Docket No. 77N-0245]

RECYCLED ANIMAL WASTE

Request for Data, Information, and Views

Correction

In FR Doc. 77-36739, appearing at page 64662 in the issue for Tuesday, December 27, 1977:

1. On page 64662, second column, in the thirty-sixth line of the first full paragraph, "i.e." should read "e.g.".

2. On page 64663, third column, thirteenth line from the top, "their" should read "other".

3. On page 64665, second column, twenty-third line from the bottom, insert the following after "species": "of food-producing animals"; and in the table heading on that same page, the footnote reference "[12]" should read "[1,2]".

4. On page 64669, second column, first line, "34,000" should be "34,400".

5. On page 64675, third column, second line, insert "Animal" between "of Science".

[4110-03]

[Docket No. 77P-0342]

DIAGNOSTIC PRODUCTS CORP.

Panel Recommendation on Petition for Reclassification

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The agency is issuing for public comment the recommendation of the Clinical Toxicology Device Classification Panel that the 125-I Amikacin RIA Kit be reclassified from class III (premarket approval) to class II (performance standards). This recommendation was made after review of the reclassification petition filed by Diagnostic Products Corp., Los Angeles, Calif., under section 513(f) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360c(f)). After reviewing the panel recommendation and the public comments received, the agency will approve or deny the reclassification by order in the form of a letter to the petitioner. If the device is reclassified, the reclassification will be announced in the FEDERAL REGISTER.

DATE: Comments by March 9, 1978.

ADDRESS: Written comments (preferably four copies) to the Hearing Clerk (HFC-20), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION CONTACT:

S. K. Vadlamudi, Bureau of Medical Devices (HFK-440), Food and Drug Administration, 8757 Georgia Avenue, Silver Spring, Md. 20910, 301-427-7234.

SUPPLEMENTARY INFORMATION: On September 27, 1976, Diagnostic Products Corp., Los Angeles, Calif., submitted to FDA a premarket notification under section 510(k) of the act (21 U.S.C. 360(k)), stating that it intended to market a device the manufacturer calls the 125-I Amikacin RIA Kit. After reviewing the information in the premarket notification, the Commissioner of Food and Drugs determined that the device is not substantially equivalent to any device that was in commercial distribution before May 28, 1976; nor is the device substantially equivalent to a device that has been placed in commercial distribution since that date and subsequently reclassified. Upon this determination, the device is automatically classified into class III under section 513(f) of the act.

Under section 515(a)(2) of the act (21 U.S.C. 360e(a)(2)), before a device that is in class III under section 513(f)(1) of the act can be marketed, it must either be reclassified under section 513(f)(2) of the act or have an approval of an application for premarket approval under section 515 of the act, unless there is in effect for the device an investigational device exemption under section 520(g) of the act (21 U.S.C. 360j(g)).

On August 8, 1977, Diagnostic Products Corp. submitted a reclassification petition for the device under section 513(f)(2) of the act. On October 6, 1977, the Clinical Toxicology Device Classification Panel (panel) reviewed the petition and determined that additional data were necessary. On October 10, 1977, Diagnostic Products

Corp. submitted the additional data. After receiving these additional data, the panel recommended that the device be reclassified into class II.

To determine the proper classification of the device, the panel considered the criteria in section 513(a)(1) of the act.

For the purposes of classification, the panel assigned to the device the name "Radioimmunoassay, Amikacin" and described the device as a kit for radioimmunoassay of serum or a plasma. The device is used to detect the level of amikacin in the human serum or plasma. Amikacin is an antibiotic used to treat infections; an excess of amikacin can result in kidney damage or loss of hearing. If use of this device indicates an excess of amikacin, the physician may adjust the dosage prescribed for a patient.

SUMMARY OF THE REASONS FOR THE RECOMMENDATION

The panel made the following determinations in support of its recommendation:

1. The device is not an implant, nor is it life-sustaining or life-supporting.

2. The device is not potentially hazardous to life or good health when properly used.

3. The device is an in vitro diagnostic product. The device is used to quantitate the levels of amikacin in human serum or plasma by radioimmunoassay. A step-by-step protocol for use by the analyst has been included with the device. Performance data on accuracy, precision, and quantitation of interfering substances have been included. The device has performance characteristics that should be maintained at a satisfactory level.

SUMMARY OF THE DATA ON WHICH THE RECOMMENDATION IS BASED

To determine the safety and effectiveness of the device, it was used in a clinical study on a series of 34 samples of human sera. These same sera samples were run with a currently accepted microbiological assay methodology. The data showed that there is a good agreement between the two methods. The correlation coefficient was 0.877. The panel believes that these studies adequately support the precision claim of the product. The sample-to-sample variation was found to be within an acceptable range. There was no cross-reactivity with other antibiotics except kanamycin, which is structurally similar to amikacin.

RISKS TO HEALTH

The panel noted that failure of the device to produce accurate results could lead to improper medication of the patient. Excessive medication of the patient can cause loss of hearing or damage to the kidney. Lack of medication can result in the patient being unprotected from infection. Therefore, the panel recommended that the device be classified into class II and that a standard directed to the specificity and sensitivity of the device be developed. The panel recommended that development of this standard be a high priority.

The petition and a transcript of the panel meeting are on file in the office of the Hearing Clerk, address noted above.

Dated: January 30, 1978.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for Compliance.

[FR Doc. 78-3100 Filed 2-6-78; 8:45 am]

[4110-03]

[Docket No. 77N-0410]

DRAFT FORMS FOR DRUG REGISTRATION AND LISTING OF DRUGS IN COMMERCIAL DISTRIBUTION

Availability

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is testing drafts of revised drug registration and listing forms and instructions. The revisions are being made to make the forms and instructions more responsive to the needs of FDA and to minimize the reporting burden on the drug industry. Because the drafts are made available to participants in the testing program, the Commissioner of Food and Drugs is placing copies of them on public display for all interested person.

DATE: Comments on the draft forms may be submitted by April 10, 1978.

ADDRESS: Written comments on the draft forms may be sent (preferably four copies) to the Hearing Clerk (HFC-20), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION CONTACT:

Sandra Aquino, Bureau of Drugs (HFD-622), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-3695.

SUPPLEMENTARY INFORMATION: Since implementation of the Drug Listing Act of 1972, the Food and Drug Administration (FDA) has used a computerized system for maintaining the information submitted by members of the drug industry in complying both with the requirements for registration of drug establishments and listing of drug products under section 510 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360) and also FDA's implementing regulations in Part 207 (21 CFR Part 207). Currently, FDA is redesigning the system to make it more responsive to FDA needs and to minimize the reporting burden on the drug industry. The redesign project includes development of new forms and instructions for completing the forms that are used by drug firms in submitting registration and listing information.

The Food and Drug Administration has prepared drafts of the following four forms: Form FD-2656 (Registration of Drug Establishment), Form FD-2657 (Drug Product Listing), Form FD-2657a (Drug Product Listing Kit Assembly Sheet), and Form FD-2658 (Registered Establishment's Report of Private Label Distributors), and a draft instruction book for use in completing the four forms. The forms were revised on the basis of FDA's experience with the forms and instruction book currently in use. To ensure that the forms and instructions are easier to understand and use, FDA is testing them with the cooperation of nine drug establishments. Each establishment has been given copies of the instruction book and draft forms and each establisment has been asked to complete at least one form for each section of the instructions that is relevant to its type of business. The test participants also have been asked to comment on the clarity of the instructions, the ease of completing the forms, the format of the forms and instruction book, and whether the instructions adequately cover problems relevant to the drug establishment. The data required on the draft forms do not differ from the data required on current forms, and thus, the Commissioner does not anticipate changes in the forms and instructions will necessitate revision of Part 207.

Because the draft forms and instruction book are being made available to some members of the regulated industry, the Commissioner believes they should be placed on public display for all interested persons. Accordingly, copies of the draft forms, the instruction book, the test instructions, the letter to test participants, and a questionnaire for test participants on the forms and instruction book have been placed on public display in the office of the Hearing Clerk, FDA. Although copies of the materials on public display may be requested under FDA's public information regulations in Part 20 (21 CFR part 20), the Commissioner advises that copies of the instruction book provided by the agency will differ significantly in format from the instruction book that is on display and actually being tested, for the following reasons: (1) The instruction book, approximately 200 pages long, has been

printed by a contractor in a format that includes many fold-out pages that are essential to the design and use of the book, (2) the printing run of the draft book is restricted to enough books for FDA review and use in conducting the test, and (3) the photocopying equipment available to FDA does not permit exact reproduction of the instruction book.

Any person who wishes to submit written comments on the draft forms and instruction book should submit them (preferably four copies identified with the Hearing Clerk docket number found in brackets in the heading of this document) to the Hearing Clerk, at the address given above, on or before April 10, 1978. Received comments may be seen in that office between 9 a.m. and 4 p.m., Monday through Friday.

Dated: January 30, 1978.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for Compliance.

[FR Doc. 78-3098 Filed 2-6-78; 8:45 am]

[4110-03]

[Docket No. 77N-0431]

HOFFMANN-LA ROCHE, INC.

Panel Recommendation on Petition for Reclassification

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The agency is issuing for public comment the recommendation of the Clinical Toxicology Device Classification Panel that the ABUSCREEN™ Radioimmunoassay for Cocaine Metabolite (BENZOYLECGONINE) be reclassified from class III (Premarket Approval) to class II (Performance Standards). This Recommendation was made after review of a reclassification petition filed by Hoffmann-La Roche, Inc., Nutley, N.J., under section 513(f) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360c(f)). After reviewing the panel recommendation and the public comments received, the agency will approve or deny the reclassification by order in the form of a letter to the petitioner. If the device is reclassified, the reclassification will be announced in the FEDERAL REGISTER.

DATE: Comments by March 9, 1978.

ADDRESS: Written comments (preferably four copies) to the Hearing Clerk (HFC-20), Food and Drug Administration, Room. 4-65, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION CONTACT:

S. K. Vadlamudi, Bureau of Medical Devices (HFK-440), Food and Drug Administration, 8757 Georgia Avenue, Silver Spring, Md. 20910, 301-427-7234.

SUPPLEMENTARY INFORMATION: On August 29, 1976, Hoffman-La Roche, Inc., submitted to FDA a premarket notification under section 510(k) of the act (21 U.S.C. 360(k)) stating that it intended to market a device the manufacturer calls the "ABUSCREEN™ Radioimmunoassay for Cocaine Metabolite (Benzoylecgonine)." After reviewing the information in the premarket notification, the Commissioner determined that the device is not substantially equivalent to any device which was in commercial distribution before May 28, 1976; nor is the device substantially equivalent to a device that has been placed in commercial distribution since that date and subsequently reclassified. Upon this determination, the device is automatically classified in class III under section 513(f)(1) of the act.

Under section 515(a)(2) of the act (21 U.S.C. 360e(a)(2)), before a device that is in class III under section 513(f)(1) of the act can be marketed, it must either be reclassified under section 513(f)(2) of the act or have an approval of an application for premarket approval under section 515 of the act, unless there is in effect for the device an investigational device exemption under section 520(g) of the act (21 U.S.C. 360j(g)).

On August 20, 1976, Hoffmann-La Roche, Inc., submitted a reclassification petition for the device under section 513(f)(2) of the act. On October 4, 1977, the Clinical Toxicology Device Classification Panel (panel) reviewed the petition and recommended that the device be reclassified in class II.

To determine the proper classification of the device, the panel considered the criteria in section 513(a)(1) of the act.

For the purposes of classification, the panel assigned to the device the name "Radioimmunoassay for Cocaine Metabolite (Benzoylecgonine)" and described the device as a kit for enzyme immunoassay for cocaine metabolite. The device is used for detection of cocaine metabolite, a drug that can be abused, in the urine. The device is used primarily in drug abuse clinics to determine whether the patient is a drug abuser. The panel recommended that all devices meeting this description be classified in class II.

SUMMARY OF THE REASONS FOR THE RECOMMENDATION

The panel made the following determinations in support of its recommendation:

1. The device is not an implant, nor is it life-sustaining or life-supporting.

2. The device is not potentially hazardous to life or good health when properly used.

3. The device is used to detect the levels of cocaine metabolite (benzoylecgonine) in human urine. The device is an in vitro diagnostic product. A step-by-step protocol for use by the analyst has been included with the instrument. Performance data on accuracy, precision, specificity, quantitative determinations, and interferring substances have been included. The device has performance characteristics which should be maintained.

SUMMARY OF THE DATA ON WHICH THE RECOMMENDATION IS BASED

To determine the safety and effectiveness of the device, it was used on a series of 200 samples of human urine under clinical study with currently accepted methodology for the assay; gas liquid chromotography, thin layer chromotography and enzyme multiplied immunoassay. A statistically significant concentration (2 micrograms per liter) of cocaine metabolite could be detected in urine with this assay. Full agreement between the ABUSCREEN™ device and the gas liquid chromotography was evidenced in 95.5 percent of the samples analyzed; between the ABUSCREEN™ device and thin layer chromotography, 87 percent; and 84.5 percent between the ABUSCREEN™ device and enzyme multiplied immunoassay. A comparison of gas liquid chromotography to the other analytical methods indicated high correlation between gas liquid chromotography and the ABUSCREEN™ device (correlation coefficient of 0.908). The ABUSCREEN™ device is a sensitive, reproducible and reliable immunoassay for the detection of cocaine in urine.

RISKS TO HEALTH

The panel noted that there is a risk of inaccurate results from the use of the device which may lead to misdiagnosis or improper treatment. Inaccurate results may arise from lack of specificity and sensitivity of the device. The panel recommended that the device be classified in class II and that a standard directed toward the specificity and sensitivity of the device be developed and that development of this standard be a high priority.

The petition and a transcript of the panel meeting are on file in the office of the Hearing Clerk, address noted above.

Dated: January 30, 1978.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for Compliance.

[Docket No. 76N-0400]

GOOD LABORATORY PRACTICE FOR NONCLINICAL LABORATORY STUDIES

Availability of the Economic Impact Assessment

AGENCY: Food and Drug Administration.

ACTION: Notice

SUMMARY: This document announces the availability of the economic impact assessment of the proposed regulations governing good laboratory practice for nonclinical laboratory studies. Based on the available information, the agency concludes that no major economic impact will result in accord with the requirements of Executive Orders Nos. 11821 and 11929, Office of Management and Budget, Circular A-107, and the guidelines issued by the Department of Health, Education, and Welfare.

FOR FURTHER INFORMATION CONTACT:

Susan P. Reinsch, Office of Planning and Evaluation (HFP-14), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857, 310-443-6250.

SUPPLEMENTARY INFORMATION: In the preamble to the proposed good laboratory practice regulations published in the FEDERAL REGISTER of November 19, 1976 (41 FR 51206), the Commissioner of Food and Drugs advised that the agency did not have sufficient information on which to base a sound economic assessment of the costs of compliance by the regulated industries. Accordingly, the agency requested the submission of cost and related economic data which, in conjunction with the results of surveillance inspections of a statistically drawn sample of previously uninspected testing facilities and other data, could be used to prepare a sound economic assessment.

This information has been received and evaluated, and the resultant economic impact assessment is available for review between 9 a.m. and 4 p.m., Monday through Friday, in the office of the Hearing Clerk (HFC-20), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857.

Dated: January 30, 1978.

JOSEPH P. HILE,
Associate Commissioner for Compliance.

[4110-03]

[Docket No. 77F-0441]

ICI AMERICAS, INC.

Filing of Food Additive Petition

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: ICI Americas, Inc., has filed a petition proposing that the food additive regulations be amended to provide for the use of polyethersulfone resins as articles or components of articles intended for repeated use in contact with food.

FOR FURTHER INFORMATION CONTACT:

John J. McAuliffe, Bureau of Foods (HFF-334), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C Street SW., Washington, D.C. 20204, 202-472-5690.

SUPPLEMENTARY INFORMATION: Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5), 72 Stat. 1786 (21 U.S.C. 348(b)(5))), notice is given that a petition (FAP 7B3343) has been filed by ICI Americas, Inc., Wilmington, Del. 19897, proposing that Subpart C of Part 177 (21 CFR Part 177) of the food additive regulations be amended to provide for the use of polyethersulfone resins (poly(oxy-p-phenylenesulfonly-p-phenylene)resin) as articles or as components of articles intended for repeated use in contact with food.

The environmental impact analysis report and other relevant material have been reviewed, and it has been determined under § 25.1(f)(3) (21 CFR 25.1(f)(3)) that the proposed use will not have a significant environmental impact.

Dated: January 30, 1978.

HOWARD R. ROBERTS,
Acting Director, Bureau of Foods.

[4110-03]

[Docket No. 77P-0337]

INTERNATIONAL DIAGNOSTIC TECHNOLOGY

Panel Recommendation on Petition for Reclassification

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The agency is issuing for public comment the recommendation of the Immunology Device Classification Panel that FIAX™ Test Kit for C3 be reclassified from class III (Premarket Approval) to class II (Performance Standards). This recommendation was made after review of the reclassification petition filed by International Diagnostic Technology (IDT), Santa Clara, Calif. under section 513(f) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360c(f)). After reviewing the panel recommendation and the public comments received, the agency will approve or deny the reclassification by order in the form of a letter to the petitioner. If the device is reclassified, the reclassification will be announced in the FEDERAL REGISTER.

DATE: Comments by March 9, 1978.

ADDRESS: Written comments (preferably four copies) to the Hearing Clerk (HFC-20), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION CONTACT:

Srikrishna Vadlamudi, Bureau of Medical Devices (HFK-440), Food and Drug Administration, 8757 Georgia Avenue, Silver Spring, Md. 20910, 301-427-7234.

SUPPLEMENTARY INFORMATION: On September 29, 1976, International Diagnostic Technology (IDT), Santa Clara, Calif., submitted to FDA a premarket notification under section 510(k) of the act (21 U.S.C. 360(k)), stating that it intends to market a device the manufacturer calls the "FIAX™ Test Kit for C3." After reviewing the information in the premarket notification, the Commissioner determined that the device is not substantially equivalent to any device that was in commercial distribution before May 28, 1976; nor is the device substantially equivalent to a device that has been placed in commercial distribution since that date and subsequently reclassified. Upon this determination, the device is automatically classified in class III under section 513(f)(1) of the act.

Under section 515(a)(2) of the act (21 U.S.C. 360e(a)(2)), before a device that is in class III under section 513(f)(1) of the act can be marketed, it must either be reclassified under section 513(f)(2) of the act or have an approval of an application for premarket approval under section 515 of the act, unless there is in effect for the device an investigational device exemption under section 520(g) of the act (21 U.S.C. 360j(g)).

On June 28, 1977, International Diagnostic Technology (IDT) submitted a reclassificaion petition for the device under section 513(f)(2) of the act. On September 26, 1977, the Immunology Device Classification Panel (panel) reviewed the petition and recommended that the device be reclassified into class II.

To determine the proper classification of the device, the panel considered the criteria in section 513(a)(1) of the act.

For the purposes of classification, the panel assigned to the device the name "Complement Component C3 Test" and described the device as a system for determining Complement Component C3 (B1A globulin) in human serum. The device is used for the detection and quantitation of complement component C3, an enzymatic protein that occurs in normal serum. The device is used for diagnosis of diseases in which complement component C3 levels are decreased (especially liver and kidney diseases) and diseases in which complement component C3 levels are increased (inflammatory diseases).

SUMMARY OF THE REASONS FOR THE RECOMMENDATION

The panel made the following determinations in support of its recommendation:

1. The device is not an implant, nor is it life-sustaining or life-supporting.

2. Hazards to life or health may result when the device does not perform properly, because failure of the device may lead to misdiagnosis, which could result in improper or unnecessary treatment.

3. It is possible to develop a standard or set of standards to assure the safety and effectiveness of the device.

SUMMARY OF THE DATA ON WHICH THE RECOMMENDATION IS BASED

A comparison study between the FIAX™ Test Kit for Complement Component C3 and a reference method of radioimmunodiffusion (RID) was done. This study was performed on 19 fresh sera, 12 frozen, aged sera, and also on 14 frozen samples from subjects with Systemic Lupus Erythematosus (SLE). The correlation coefficients were 0.88, 0.92, and 0.85, respectively. The sensitivity of the test system was comparable to or better than other test methods. The two methods were also tested using three groups of myeloma sera. There were no significant differences in quantitation by the two methods.

RISKS TO HEALTH

The panel noted that there is a risk of erroneous results from the use of this device owing to lack of specificity and sensitivity (resulting in false positives and false negatives). This may lead to misdiagnosis and unnecessary treatment or lack of treatment. The panel recommended that the device be classified in class II, that a performance standard directed toward the specificity and sensitivity of the device be developed, and that development of this standard be a high priority.

Restrictions: The panel recommended that this device be used in conjunction with other methods of diagnosis, such as observation of symptoms and examination of the patient's medical history.

The petition and the transcript of the panel meeting are on file in the office of the Hearing Clerk, address noted above.

Dated: January 30, 1978.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for Compliance.

[4110-03]

[Docket No. 75N-0223; DESI 3265]

ANTICHOLINERGIC DRUGS IN CONTROLLED-RELEASE DOSAGE FORM

Rescission of Notice Withdrawing Approval

AGENCY: Food and Drug Administration (FDA).

ACTION: Notice.

SUMMARY: This notice rescinds that part of a notice that withdrew approval of NDA 11-200 for Abbot Laboratories' Tral Gradumets.

EFFECTIVE DATE: February 7, 1978.

FOR FURTHER INFORMATION CONTACT:

Robert H. Hahn, Bureau of Drugs (HFD-32), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-3650.

SUPPLEMENTARY INFORMATION: In a notice published in the FEDERAL REGISTER of November 11, 1975 (40 FR 52651), the Director of the Bureau of Drugs offered an opportunity for hearing on a proposal to issue an order withdrawing approval of the new drug applications for certain anticholinergic drugs in controlled-release dosage form, based upon lack of substantial evidence of effectiveness. The conclusion that the controlled-release products lack evidence of effectiveness was based upon the lack of any data demonstrating a prolonged effect, as compared with the products in conventional dosage form.

The following product was among those named in the November 11, 1975 notice:

Tral Gradumets (controlled-release tablets) containing hexocylium methylsulfate; Abbot Laboratories, Abbott Park, 14th and Sheridan Rd., North Chicago, Ill. 60064 (NDA 11-200).

The noncontrolled-release form of hexocyclium methylsulfate (Tral Tablets) had previously been concluded to be an effective anticholinergic (36 FR 11754; June 18, 1971).

Although Abbott Laboratories did not formally request a hearing pursuant to the November 11, 1975, notice, in a letter of November 21, 1975, Abbott pointed out that it had earlier submitted studies to FDA intended to show the prolonged effect of the controlled-release product as compared to the conventional product and that FDA had approved these studies as adequate on January 8, 1974. The letter thus questioned the applicability to Tral of the November 11, 1975 notice. FDA inadvertently did not refer to those studies or state their deficiencies in the November 11, 1975 notice. In a notice published in the FEDERAL REGISTER of October 7, 1977 (42 FR 54617), the Director of the Bureau of Drugs withdrew approval of Tral Gradumets (NDA 11-200), among other drugs.

In view of the foregoing, the inclusion of Tral Gradumets (NDA 11-200) in the October 7, 1977 notice of withdrawal of approval was inappropriate. Therefore, with respect to that product only, that order is hereby rescinded.

When final conclusions have been reached concerning the data previously submitted by Abbot Laboratories to demonstrate the prolonged effect of Tral Gradumets, an appropriate notice will be published in the FEDERAL REGISTER.

This notice is issued under the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1052-1053, as amended (21 U.S.C. 355)), and under authority delegated to the Director of the Bureau of Drugs (21 CFR 5.82).

Dated: January 31, 1978.

J. RICHARD CROUT,
Director, Bureau of Drugs.

NATIONAL INSTITUTE OF EDUCATION

INFORMATION AND DATA ACQUISITION ACTIVITY

Collection; Opportunity for Comments

Pursuant to section 406g(2)(B), General Education Provisions Act, notice is hereby given as follows:

The National Institute of Education is proposing an information and data acquisition activity which will request information from educational agencies or institutions.

The purpose of publishing this notice in the FEDERAL REGISTER is to comply with paragraph (g)(2)(B) of the "Control of Paperwork" amendment which provides that each educational agency or institution subject to a request under the collection of information and data acquisition activity and their representative organizations shall have an opportunity, during a 30-day period before the transmittal of the request to the Director of the Office of Management and Budget, to comment to the Administrator of the National Center for Education Statis-

tics on the collection of information and data acquisition activity.

This data acquisition activity as described below is also subject to review by the HEW Education Data Acquisition Council.

Written comments on the proposed activities are invited. Comments should refer to the form number and must be received on or before (insert 30 days from date of publication), and should be addressed to the Administrator, National Center for Education Statistics. Attention: Management Information Acquisition, Planning, and Utilization, Room 3001, 400 Maryland Avenue SW., Washington, D.C. 20202.

Further information may be obtained from the Project Officer, Dan Antonopolos, Basic Skills Group, National Institute of Education, 202-254-6572.

Dated: February 3, 1977.

RICHARD S. WERKSMAN,
Forms Clearance Officer,
National Institute of Education.

DESCRIPTION OF A PROPOSED COLLECTION OF INFORMATION AND DATA ACQUISITION ACTIVITY

1. *Title of proposed activity.* Survey of Public School District Evaluation Units.

2. *Agency/bureau/office.* National Institute of Education.

3. *Agency form number.* NIE 189.

4. *Legislative authority for this activity.* "(e)(1) In order to carry out the objectives of the Institute, the Director is authorized, through the Institute, to conduct educational research; collect and disseminate the findings of educational research; train individuals in educational research; assist and foster such research, collection, dissemination, or training through grants, or technical assistance to, or jointly financed cooperative arrangements with, public or private organizations, institutions, agencies, or individuals; promote the coordination of such research and research support within the Federal Government; and may construct or provide (by grant or otherwise) for such facilities as he determines may be required to accomplish such purposes. As used in this subsection, the term 'educational research' includes (basic and applied), planning, surveys, evaluations, investigations, experiments, developments, and demonstrations in the field of education (including career education)." (Section 405(e)(1) of the General Education Provisions Act as amended, Pub. L. 94-482, 20 U.S.C. 1221e)

5. *Voluntary/obligatory nature of response.* Voluntary.

6. *How information collected will be used. Congressional mandates:* The information will enable the National Institute of Education, the National Council on Educational Research, and the Federal Council on Educational Research and Development to meet the specific congressional mandates. Data will be used to draft the required annual reports. *Institute policy planning:* Survey information will be used in Institute policy planning and development regarding agency-field relations and other evaluation policy issues. An analytical report will address questions of current interest to NIE and to other governmental and private policy makers. These issues include: the extent to which formal evaluation functions are concentrated in relatively few public school districts; the level and kinds of evaluation activities carried out in LEA's; the extent to which evaluation units participate in school district decisionmaking; the education levels to which evaluation funds are applied; the experience-education profiles of evaluation unit heads; the level of local and other agency support for evaluation units; resources and constraints associated with evaluation at the LEA level. *Research:* The survey will improve the research base for future work in evaluation theory and practice by providing the first description and analysis of the universe of evaluation units in local education agencies. As a listing of evaluation units in public school districts, the survey will provide presently unavailable sampling frames for use by NIE and others in more efficient sample studies. *Educational evaluation community:* The data will be used to serve and strengthen educational evaluation professionals including, but not exclusive to, the respondent group. An Executive Summary of the Survey results and analysis will be made available to all heads of evaluation organizations in school districts for interaction and information purposes. The project summary will provide information about school district evaluation resources in every area of the country.

7. *Data acquisition plan.*

(a) Method of collection: Mail Survey Questionnaire.

(b) *Time of collection:* Spring, 1978.

(c) Frequency: Single time.

8. *Respondents:*

(a) *Type:* Local Education Agencies (with Evaluation Units).

(b) *Number:* Universe.

(c) *Estimated average person-hours per respondent:* 0.5.

9. *Information to be collected.* The study will seek to collect information about the educational evaluation activities, of respondent organizations. Information will be sought about school district evaluation units including their activities, organization, financing, personnel, and use by agency clients. The data will be comparable for all respondents.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

National Institutes of Health

ANIMAL RESOURCES ADVISORY COMMITTEE

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Animal Resources Advisory Committee, Division of Research Resources, March 8, 9, and 10, 1978, Conference Room 104, Building 14G, National Institutes of Health, Bethesda, Md. 20014.

The meeting will be open to the public on March 8 from 8:30 a.m. to 2:30 p.m., during which time there will be a brief staff presentation on the current status of the Animal Resources Program. The Committee will select future meeting dates. Attendance by the public will be limited to space available.

In accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5, U.S. Code and section 10(d) of Pub. L. 92-463, the meeting will be closed to the public on March 8 from 2:30 to 5 p.m., and on March 9 and March 10 from 8:30 a.m. to adjournment for the review, discussion, and evaluation of individual research grant applications, individual research service awards, and contract proposals. These applications and proposals and the discussions could reveal confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the applications.

Mr. James Augustine, Information Officer, Division of Research Resources, National Institutes of Health, Room 5B13, Building 31, National Institutes of Health, Bethesda, Md. 20014, 301-496-5545, will provide summaries of the meeting and rosters of the Committee members. Dr. Dennis O. Johnsen, Executive Secretary of the Animal Resources Advisory Committee, Room 5B55, Building 31, National Institutes of Health, Bethesda, Md. 20014, 301-496-5175, will furnish substantive program information.

(Catalog of Federal Domestic Assistance Programs No. 13.306, National Institutes of Health.)

Dated: January 27, 1978.

SUZANNE L. FREMEAU,
Committee Management Officer,
National Institutes of Health.

ARTERIOSCLEROSIS AND HYPERTENSION ADVISORY COMMITTEE

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the

Arteriosclerosis and Hypertension Advisory Committee, National, Heart, Lung, and Blood Institute, March 28, 1978, Conference Room 7, Building 31, National Institutes of Health, Bethesda, Md.

The entire meeting will be open to the public from 9 a.m. to 6 p.m. on Wednesday, March 28, to evaluate program support in Arteriosclerosis and Hypertension. Attendance by the public will be limited on a space available basis.

Mr. York Onnen, Chief, Public Inquiries and Reports Branch, NHLBI, Room 5A-03, Building 31, National Institutes of Health, Bethesda, Md. 20014, phone 301-496-4236, will provide summaries of the meeting and rosters of committee members.

Dr. Gardner C. McMillan, Associate Director for Etiology of Arteriosclerosis and Hypertension Program, NHLBI, Room 516, Federal Building, National Institutes of Health, Bethesda, Md. 20014, phone 301-496-1613, will furnish substantive program information.

Dated: January 27, 1978.

SUZANNE L. FREMEAU,
Committee Management Officer,
National Institutes of Health.

BACTERIOLOGY AND MYCOLOGY STUDY SECTION

Amended Notice of Meeting

Notice is hereby given of a change in the meeting date of the Bacteriology and Mycology Study Section, Division of Research Grants, which was published in the FEDERAL REGISTER on January 13, 1978 (43 FR 2004).

The Bacteriology and Mycology Study Section will meet as scheduled February 23-25, 1978. However, they will hold an additional session on February 22, 1978 at 8 p.m., at the Holiday Inn, Bethesda, Md., the same location for which it was originally scheduled.

This meeting will be open to the public for approximately one hour beginning at 8 p.m., on February 22, 1978.

Dated: January 25, 1978.

BOARD OF SCIENTIFIC COUNSELORS; DIVISION OF CANCER CAUSE AND PREVENTION

Establishment

The Director, National Institutes of Health, announces the establishment on January 3, 1978, of the advisory committee indicated below by the Director, National Cancer Institute, under the authority of section 410(a)(3) of the Public Health Service Act (42 U.S.C. 286d). Such advisory committees shall be governed by the provisions of the Federal Advisory Committee Act (Pub. L. 92-463) setting forth standards governing the establishment and use of advisory committees.

Name: Board of Scientific Counselors/Division of Cancer Cause and Prevention.

Purpose: The Committee shall advise the Director, NCI and the Director, Division of Cancer Cause and Prevention, concerning scientific progress and policies, both present and future, as they relate to intramural and collaborative programs of the Division of Cancer Cause and Prevention, NCI. This committee will terminate January 3, 1980, unless renewed by appropriate action as authorized by law.

Dated: January 24, 1978.

DONALD S. FREDRICKSON,
Director,
National Institutes of Health.

[4110-08]

BOARD OF SCIENTIFIC COUNSELORS, NINCDS

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Board of Scientific Counselors, National Institute of Neurological and Communicative Disorders and Stroke, National Institutes of Health, March 23 and 24, 1978, in Conference Room 1B-07, Bldg. 36, Bethesda, Md. 20014. This meeting will be open to the public from 9:45 a.m. to 5 p.m. on March 23 and 9 a.m. to 12:30 p.m. on March 24 to discuss program planning and program accomplishments. Attendance by the public will be limited to space available.

In accordance with the provisions set forth in section 552b(c)(6), Title 5, U.S. Code, and section 10(d) of Pub. L. 92-463, the meeting will be closed to the public from 12:30 p.m. until the conclusion of the meeting on March 24th for the review, discussion, and evaluation of individual programs and projects conducted by the National Institutes of Health, including consideration of personnel qualifications and performances, the competence of individual investigators and similar items, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

The Acting Chief, Office of Scientific and Health Reports, Mr. Robert N. Hinkel, Bldg. 31, Room 8A03, NIH, NINCDS, Bethesda, Md. 20014, telephone 301-496-5751, will furnish summaries of the meeting and rosters of committee members.

The Executive Secretary from whom substantive program information may be obtained is Dr. Thomas N. Chase, Director of Intramural Research Program, NINCDS, Bldg. 36, Room 5A05, NIH, Bethesda, Md. 20014, telephone 301-496-4297.

(Catalog of Federal Domestic Assistance Program No. 13,356, National Institutes of Health.)

Dated: January 25, 1978.

SUZANNE L. FREMEAU,
Committee Management Officer,
National Institutes of Health.

DATA EVALUATION/RISK ASSESSMENT SUBGROUP OF THE CLEARINGHOUSE ON ENVIRONMENTAL CARCINOGENS ET AL.

Open Meetings

Pursuant to Pub. L. 92-463, notice is hereby given of the meetings of committees advisory to the National Cancer Institute.

These meetings will be entirely open to the public to discuss issues relating to committee business as indicated in the notice. Attendance by the public will be limited to space available. Meetings will be held at the National Institutes of Health, 9000 Rockville Pike, Bethesda, Md. 20014, unless otherwise stated.

Mrs. Marjorie F. Early, Committee Management Officer, NCI, Building 31, Room 4B43, National Institutes of Health, Bethesda, Md. 20014, 301-496-5708, will furnish summaries of the meetings and rosters of committee members upon request.

Other information pertaining to the meeting can be obtained from the Executive Secretary indicated.

DATA EVALUATION/RISK ASSESSMENT SUBGROUP OF THE CLEARINGHOUSE ON ENVIRONMENTAL CARCINOGENS

Dates: March 6-7, 1978; 8:30 a.m.-adjournment.
Place: Building 31C, Conference Room 6 (March 6); Building 31C, Conference Room 7 (March 7); National Institutes of Health.
Times: Open for the entire meeting.
Agenda: To review available bioassay reports and other matters relevant to data evaluation and risk assessment.
Executive Secretary: Dr. James M. Sontag, Building 31A, Room 3A16, National Institutes of Health, phone 301-496-5108.

EXPERIMENTAL DESIGN SUBGROUP OF THE CLEARINGHOUSE ON ENVIRONMENTAL CARCINOGENS

Dates: March 7, 1978; 8:30 a.m.-adjournment.
Place: Building 31C, Conference Room 9, National Institutes of Health.
Times: Open for the entire meeting.
Agenda: To discuss experimental design for bioassay and other matters relevant to experimental design.
Executive Secretary: Dr. J. Dan Recer, Landow Building, Room 8C25, National Institutes of Health, phone 301-496-4663.

CHEMICAL SELECTION SUBGROUP OF THE CLEARINGHOUSE ON ENVIRONMENTAL CARCINOGENS

Dates: March 8, 1978; 8:30 a.m.—adjournment.
Place: Building 31C, Conference Room 6, National Institutes of Health.
Times: Open for the entire meeting.
Agenda: To consider chemicals for bioassay and other matters relevant to chemical selection.
Executive Secretary: Dr. J. Dan Recer, Landow Building, Room 8C25, National Institutes of Health, phone 301-496-4663.

PRESIDENT'S CANCER PANEL

Dates: March 14, 1978; 9:30 a.m.—adjournment.
Place: Building 31C, Conference Room 7, National Institutes of Health.
Times: Open for the entire meeting.
Agenda: To hear reports of the Chairman, President's Cancer Panel and the Director, National Cancer Program, NCI.
Executive Secretary: Dr. Richard A. Tjalma, Building 31A, Room 11A46, National Institutes of Health, phone 301-496-5854.

NATIONAL CANCER ADVISORY BOARD SUBCOMMITTEE ON CENTERS

Dates: March 16, 1978; 9 a.m.—adjournment.
Place: Westwood Building, Room 825, 5333 Westbard Avenue, Bethesda, Md. 20016.
Times: Open for the entire meeting.
Agenda: To consider the evaluation summaries from site visits to comprehensive cancer centers conducted under the aegis of the National Cancer Advisory Board.
Executive Secretary: Dr. William A. Walter, Jr., Westwood Building, Room 826, National Institutes of Health, phone 301-496-7427.

Dated: January 27, 1978.

SUZANNE L. FREMEAU,
Committee Management Officer,
National Institutes of Health.

DESIGNS FOR CLINICAL CANCER RESEARCH

Symposium

Notice is hereby given of the Symposium on "Designs for Clinical Cancer Research" sponsored by the Cancer Clinical Investigation Review Committee, Division of Cancer Treatment, April 13-15, 1978, the Queen Anne Room, the Monteleone Hotel, New Orleans, La. 70140.

This meeting will be open to the public on April 13, 1978, from 9 a.m. to 5:15 p.m. and 8 p.m. to adjournment; on April 14, 1978, from 8:30 a.m. to 5 p.m.; and on April 15, 1978, from 8:30 a.m. to 12:30 p.m. for presentation of scientific papers. Attendance by the public will be limited to space available.

For additional information, please contact Mr. Clare W. White, Executive Secretary, Cancer Clinical Investigation Review Committee, Office of the Director, Division of Cancer Treatment, National Cancer Institute, National Institutes of Health, Landow Building, Room 8C09, Bethesda, Md. 20014, 301-496-4471.

Dated: January 27, 1978.

SUZANNE L. FREMEAU,
Committee Management Officer,
National Institutes of Health.

[4110-08]

PRIMATE RESEARCH CENTERS ADVISORY COMMITTEE

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Primate Research Centers Advisory Committee, Division of Research Resources, March 14, 1978, Conference Room 8, Building 31, National Institutes of Health, Bethesda, Md. 20014.

The meeting will be open to the public on March 14 from 9 a.m. to 12 noon, during which time there will be a brief staff presentation on the current status of the Primate Research Centers Program. The Committee will select future meeting dates. Attendance by the public will be limited to space available.

In accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5, U.S.C. and section 10(d) of Pub. L. 92-463, the meeting will be closed to the public on March 14 from 12 noon to adjournment for the review, discussion, and evaluation of individual grant applications. These applications and the discussions could reveal confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the applications.

Mr. James Augustine, Information Officer, Division of Research Resources, National Institutes of Health, Room 5B13, Building 31, National Institutes of Health, Bethesda, Md. 20014, 301-496-5545, will provide summaries of the meeting and rosters of the Committee members. Dr. Dennis O. Johnsen, Executive Secretary of the Primate Research Centers Advisory Committee, Room 5B55, Building 31, National Institutes of Health, Bethesda, Md. 20014, 301-496-5175, will furnish substantive program information.

(Catalog of Federal Domestic Assistance Programs No. 13.306, National Institutes of Health.)

Dated: January 27, 1978.

SUZANNE L. FREMEAU,
Committee Management Officer,
National Institutes of Health.

[4110-08]

SUBCOMMITTEE ON NATIONAL ORGAN SITE PROGRAMS OF THE NATIONAL CANCER ADVISORY BOARD

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Subcommittee on National Organ Site Programs of the National Cancer Advisory Board, National Cancer Institute, March 22, 1978, National Institutes of Health, 9000 Rockville Pike, Building 31C, Conference Room 9.

The entire meeting will be open to the public from 9 a.m. to adjournment to discuss administrative details and review organ site efforts. Attendance by the public will be limited to space available.

Mrs. Marjorie F. Early, Committee Management Officer, National Cancer Institute, Building 31, Room 4B43, National Institutes of Health, Bethesda, Md. 20014, 301-496-5708, will provide summaries of the meeting and rosters of committee members.

Dr. Samuel Price, Executive Secretary, National Cancer Institute, Building 31, Room 10A05, National Institutes of Health, Bethesda, Md. 20014, 301-496-9138, will furnish substantive program information.

Dated: January 27, 1978.

SUZANNE L. FREMEAU,
Committee Management Officer, National Institutes of Health.

[4110-08]

REPORT ON BIOASSAY OF PICLORAM FOR POSSIBLE CARCINOGENICITY

Availability

Picloram (CAS 1918-02-1) has been tested for cancer-causing activity with rats and mice in the Carcinogenesis Program, Division of Cancer Cause and Prevention, National Cancer Institute. A report is available to the public.

Summary: A bioassay of technical/grade picloram for possible carcinogenicity was conducted by administering the test chemical in feed to Osborne-Mendel rats and B6C3F1 mice.

Groups of 50 rats and 50 mice of each sex were administered picloram in the diet at one of the following doses for 80 weeks. Time-weighted average doses for the rats were 7,437 or 14,875 ppm; those for the mice were 2,531 or 5,062 ppm. The rats were then observed for 33 weeks, the mice for 10 weeks. Matched controls consisted of groups of 10 untreated rats or 10 untreated mice of each sex; pooled controls, used for statistical evaluation, consisted of the matched-control groups combined with 30 untreated male and 30 untreated female rats or mice from similar bioassays of three other test chemicals. All surviving rats were killed at 113 weeks; all surviving mice were killed at 90 weeks. Survival was adequate for meaningful statistical analyses of the incidences of tumors in rats and mice of both sexes.

Mean body weights of the high-dose rats were lower than those of the matched controls during the first part of the study; however, beginning at approximately 80 weeks, mean weights of controls were lower than those of treated animals. Body weights of the mice were unaffected by the picloram.

In rats, a relatively high incidence of follicular hyperplasia, C-cell hyperplasia, and C-cell adenoma of the thyroid occurred in both sexes. However, the statistical tests for adenoma did not show sufficient evidence for association of the tumor with picloram administration.

An increased incidence of hepatic neoplastic nodules was observed in treated male and female rats as compared with untreated animals. This lesion is considered to be a benign tumor. In male rats the lesion appeared only in three animals of the low-dose treatment group and was not significant when compared with the controls; however, the test for positive dose-related trend in females was significant (pooled controls 0/39, low-dose 5/50, high-dose 7/49, $P = 0.016$) and the incidence in the high-dose group was significant ($P = 0.014$) when compared with that in the pooled-control group.

There was also one hepatocellular carcinoma in a low-dose male rat and one in a high-dose female rat. In both males and females, there was a possibly treatment-related lesion of the liver diagnosed as foci of cellular alteration. The incidences of this latter lesion were, female rats: matched controls 1/10, low-dose 8/50, high-dose 18/49; male rats: matched controls 0/10, low-dose 12/49, high-dose 5/49. Thus, there is evidence that picloram affected the livers of rats of both sexes, but more particularly those of the females.

No tumors were found in male or female mice or male rats at incidences that could be significantly associated with treatment, and it is concluded that picloram was not carcinogenic for B6C3F1 mice or male Osborne-Mendel rats.

In female rats, treatment with picloram was associated with the development of benign tumors of the liver. It is concluded that under the conditions of the bioassay, the findings are suggestive of the ability of the compound to induce benign tumors in the livers of female Osborne-Mendel rats.

Single copies of the report are available from the Office of Cancer Communications, National Cancer Institute, Building 31, Room 10A21, National Institutes of Health, Bethesda, Md. 20014.

Office of Education

STRENGTHENING RESEARCH LIBRARY RESOURCES

Supplementary Information to Notice of Closing Date for Applicants

In the October 12, 1977 issue of the FEDERAL REGISTER (42 FR 55016, FR Doc. 77-29738), the Office of Education published a notice of closing date inviting applications for grants under the Strengthening Research Library Resources Program authorized by Title II-C of the Higher Education Act of 1965, as amended. The closing dates and other information provided in that notice continue in effect.

The purpose of this notice is to supplement the October 12 notice by informing potential applicants of the approximate number and average size of grants expected to be made under the program in fiscal year 1978.

The total amount of the awards for the grants will be $5 million. All of these will be new awards. It is expected that approximately 20 grants will be made at an average size of about $250,000 each. (Grants will support projects to be carried out in fiscal year 1979 (October 1, 1978-September 30, 1979).)

20 U.S.C. 1041-1046)

(Catalog of Federal Domestic Assistance Number 13.576, Strengthening Research Library Resources.)

Dated: February 3, 1978.

ERNEST L. BOYER,
U.S. Commissioner of Education.

COLORADO

R/W Application for Pipeline

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing act of 1920 (41 Stat. 449), as amended (30 U.S.C. 185), Northwest Pipeline Corp., 315 East 200 South, Salt Lake City, Utah 84111, has applied for a right of way for a 4½" and 6⅝" o.d. natural gas pipelines for the Mountain Fuel and Trail Canyon Gathering Systems approximately 1.2 miles long, across the following Public Lands:

Sixth Principal Meridian, Moffat and Rio Blanco Counties, Colo.:

MOFFAT COUNTY

T. 12 N., R. 95 W.
Sec. 14, Lots 3, 4, S½;
Sec. 23, N½NE¼;
Sec. 24, N½N½, SE¼NE¼.

RIO BLANCO COUNTY

T. 4 S., R. 101 W.
Sec. 11, SE¼SE¼;
Sec. 14, NW¼SE¼;
Sec. 23, SE¼SW¼;

The above-named gathering system will enable the applicant to collect natural gas in the area through which the pipeline will pass and to convey it to the applicants' customers.

The purposes for this notice are: (1) to inform the public that the Bureau of Land Management is proceeding with the preparation of environmental and other analytic reports, necessary for determining whether or not the application should be approved and if approved, under what terms and conditions. (2) To give all interested parties the opportunity to comment on the application. (3) To allow any party asserting a claim to the lands involved or having bona fide objections to the proposed natural gas gathering system to file its claim or objections in the Colorado State Office. Any party so filing must include evidence that a copy thereof has been served on Northwest Pipeline Corp.

Any comment, claim, or objections must be filed with the Chief, Branch of Adjudication, Bureau of Land Management, Colorado State Office, Room 700, Colorado State Bank Building, 1600 Broadway, Denver, Colo. 80202, as promptyly as possible after publication of this notice.

ANDREW W. HEARD, JR.,
Leader, Craig Team, Branch of Adjudication.

NEW MEXICO

Notice of Applications

JANUARY 27, 1978.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920 (30 U.S.C. 185), as amended by the Act of November 16, 1973 (87 Stat. 576), Southern Union Gathering Co. has applied for two 4-inch natural gas pipeline rights-of-way across the following lands:

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

T. 30 N., R. 9 W.,
Sec. 32, SW¼NE¼ and NW¼.
T. 31 N., R. 10 W.,
Sec. 30, lot 9.

These pipelines will convey natural gas across 0.140 miles of public lands in San Juan County, N. Mex.

The purpose of this notice is to inform the public that the Bureau will be proceeding with considereation of whether the applications should be improved, and if so, under what terms and conditions.

Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Management, P.O. Box 6770, Albuquerque, N. Mex. 87107.

Fish and Wildlife Service

MARINE MAMMAL ANNUAL REPORT

AGENCY: U.S. Fish and Wildlife Service, Interior.

ACTION: Notice of availability of marine mammal annual report.

SUMMARY: The Director, U.S. Fish and Wildlife Service, signed on December 21, 1977, the annual administration and status report on the marine mammals under the Service's jurisdiction, as required by section 103(f) of the Marine Mammal Protection Act of 1972. This report covers the period June 22, 1976, to June 21, 1977, and was transmitted to the Congress on February 2, 1978. By this notice, the Director informs the public that the report is available and that any interested individual may secure a single copy by requesting same in writing from the Service.

ADDRESS: Write a copy to Director (WA), U.S. Fish and Wildlife Service, Department of the Interior, Washington, D.C. 20240. Requests will be filled until the supply is exhausted.

FOR FURTHER INFORMATION CONTACT:

Mr. Ruppert R. Bonner, Marine Mammal Coordinator, Office of Wildlife Assistance, U.S. Fish and Wildlife Service, Department of the Interior, Washington, D.C. 20240, 202-343-8961.

SUPPLEMENTARY INFORMATION: The U.S. Fish and Wildlife Service is responsible for eight species of marine mammals under the jurisdiction of the Department of the Interior, as assigned by the Marine Mammal Protection Act of 1972 (MMPA). These species are polar bears, sea and marine otters, walruses, manatees (three species), and dugongs. The report reviews the Service's marine-mammal-related activities during the report period and summarizes the following status information for each species: distribution and migration, abundance and trends, general biology, ecological problems, allocation problems, regulations, and current research. Administrative actions discussed include the amendment of MMPA by the Fishery Conservation and Management Act of 1976, the marine otter, the waiver of the moratorium for nine species of marine mammals, the walrus waiver, legal actions against the Department of the Interior, law enforcement activities, scientific research and public display permits, research, endangered species, Outer Continental Shelf baseline studies, and international activities.

The primary author of this notice is Jackson E. Lewis, Office of Wildlife Assistance, 202-343-8961.

Dated: January 20, 1978.

LYNN A. GREENWALT,
Director, U.S. Fish and Wildlife Service.

Drug Enforcement Administration

IMPORTER OF CONTROLLED SUBSTANCES

Registration

By notice dated November 25, 1977, and published in the FEDERAL REGISTER on December 1, 1977 (42 FR 61088), B. David Halpern, Polysciences, Inc., Paul Valley Industrial Park, Warrington, Pa. 18976, made application to the Drug Enforcement Administration to be registered as an importer of tetrahydrocannabinols, a basic class of controlled substance listed in Schedule I, for the importation of unique isomers and semi-synthetic manufacturers for supply to researchers and analytical laboratories as standards.

No comments or objections have been received. Also the criteria of section 1002(a)(2)(B) of the Controlled Substances Import and Export Act has been met in that there are no registered domestic bulk manufacturers of tetra- hydrocannabinols. Therefore, pursuant to section 1008 of the Controlled Substances Import and Export Act, and in accordance with §1311.42 of Title 21 of the Code of Federal Regulations, the above firm is granted permission as an importer of tetrahydrocannabinols, as specified above.

Dated: February 1, 1978.

PETER B. BENSINGER,
Administrator, Drug Enforcement Administration.

IMPORTER OF CONTROLLED SUBSTANCES

Registration

By notice dated November 25, 1977, and published in the FEDERAL REGISTER on December 1, 1977: (42 FR 61088-61089), Carlton Turner, Department of Pharmacognosy, School of Pharmacy, University of Mississippi, University, Miss. 38677, made application to the Drug Enforcement Administration to be registered as an importer of marihuana, a basic class of controlled substance listed in Schedule I.

No comments or objections have been received. Therefore, pursuant to section 1008(a) of the Controlled Substances Import and Export Act and in accordance with §1311.42 of Title 21 of the Code of Federal Regulations, the above firm is granted registration as an importer of the basic class of controlled substance listed above.

Dated: February 1, 1978.

PETER B. BENSINGER,
Administrator, Drug Enforcement Administration.

MANUFACTURE OF CONTROLLED SUBSTANCES

Application

Pursuant to 21 U.S.C. 823(a)(1), and §1301.43(a) of Title 21 of the Code of Federal Regulations (CFR), notices is hereby given that the following manufacturers made application to the Drug Enforcement Administration (DEA) to be registered as bulk manufacturers of the basic class of controlled substances listed below:

M.B.H. Chemical Corp., 377 Crane Street, Orange, N.J. 07051 (12-21-77):

Drug:	Schedule
Methylphenidate	II

M. D. Pharmaceutical, Inc., 3501 West Garry Avenue, Santa Ana, Calif. 92704 (12-21-77):

Drug:	Schedule
Methylphenidate	II
Diphenoxylate	II

Any other such applicant, and any person who is presently registered with DEA to manufacture such substances, may file comments or objections to the issuance of the above applications and may also file a written request for a hearing thereon in accordance with 21 CFR 1301.54 and in the form prescribed by 21 CFR 1316.47.

Any such comments, objections, or requests for a hearing may be addressed to the Administrator, Drug Enforcement Administration, United States Department of Justice, 1405 I Street NW., Washington, D.C. 20537, Attention: DEA Federal Register Representative (Room 1203), and must be filed no later than March 8, 1978.

Dated: February 1, 1978.

PETER B. BENSINGER,
Administrator, Drug Enforcement Administration.

MANUFACTURE OF CONTROLLED SUBSTANCES

Application

Pursuant to 21 U.S.C. 823(a)(1), and Section 1301.43(a) of Title 21 of the Code of Federal Regulations (CFR), this is notice that on December 19, 1977, Merck & Co. Inc., Dept. A, Bldg. No. 19, Merck Chemical Manufacturing Division, P.O. Box 2000, Rahway, N.J. 07065, made application to the Drug Enforcement Administration (DEA) for registration as a bulk manufacturer of the schedule II controlled substances listed below:

Drug:	Schedule
Codeine	II
Ethylmorphine	II
Hydrocodone	II
Morphine	II
Thebaine	II
Cocaine	II
Anileridine	II

Any other such applicant, and any person who is presently registered with DEA to manufacture such substances, may file comments or objections to the issuance of the above application and may also file a written request for a hearing thereon in accordance with 21 CFR 1301.54 and in the form prescribed by 21 CFR 1316.47.

Any such comments, objections, or request for a hearing may be addressed to the Administrator, Drug Enforcement Administration, United States Department of Justice, 1405 I Street NW., Washington, D.C. 20537, Attention: DEA Federal Register Representative (Room 1203), and must be filed no later than March 8, 1978.

Dated: February 1, 1978.

PETER B. BENSINGER,
Administrator, Drug Enforcement Administration.

OCEANEERING INTERNATIONAL, INC.

Application for Variance and Interim Order

AGENCY: Occupational Safety and Health Administration, Department of Labor.

ACTIONS: (1) Notice of application for variance and interim order, and (2) grant of interim order.

SUMMARY: This notice announces the application of Oceaneering International, Inc., for a temporary variance and interim order pending a decision on the application for a variance from the standard prescribed in 29 CFR 1910.426(b)(1)(ii) concerning the requirement for a closed diving bell. It also announces the granting of an interim order until a decision is rendered on the application for variance.

DATES: The effective date of the interim order is February 7, 1978. The last date for interested persons to submit comments is March 9, 1978. The last date for affected employers and employees to request a hearing on the application is March 9, 1978.

ADDRESS: Send comments or requests for a hearing to: Office of Variance Determination, Occupational Safety and Health Administration, U.S. Department of Labor, Third Street and Constitution Avenue NW., Room N3668, Washington, D.C. 20210.

FOR FURTHER INFORMATION CONTACT:

James J. Concannon, Director, Office of Variance Determination, at the above address, telephone: 202-523-7121,

or the following Regional and Area Offices:

U.S. Department of Labor, Occupational Safety and Health Administration, 555 Griffin Square Building, Room 602, Dallas, Tex. 75202.

U.S. Department of Labor, Occupational Safety and Health Administration, 546 Carondelet Street, Room 202, New Orleans, La. 70130.

NOTICE OF APPLICATION

Notice is hereby given that Oceaneering International, Inc., Drawer H, Morgan City, La. 70380 has made application pursuant to section 6(b)(6)(A) of the Occupational Safety and Health Act of 1970 (84 Stat. 1594; 29 U.S.C. 655) and 29 CFR 1905.10 for a temporary variance, and interim order pending a decision on the application for a variance, from the standards prescribed in 29 CFR 1910.426(b)(1)(ii) which requires the use of a closed bell for mixed-gas diving at depths greater than 300 fsw, except when diving in physically confining spaces.

The addresses of the places of employment that will be affected by the application are all the applicant's dive locations in areas under Federal jurisdiction.

The applicant certifies that employees who would be affected by the variance have been notified of the application by giving a copy of it to their authorized employee representative, and by posting a copy at all places where notices to employees are normally posted. Employees have also been informed of their right to petition the Assistant Secretary for a hearing.

Regarding the merits of the application, the applicant contends that it is unable to compy with the requirements of § 1910.426(b)(1)(ii) by the effective date of the standard.

The applicant states that its employees perform inspections and set anodes at depths greater than 300 fsw using mixed-gas. The applicant's Class I Diving Bell systems are presently being modified to meet the requirements of this standard. All modifications are expected to be completed and the applicant is expected to be in compliance with the standard by April 20, 1978.

In the interim, the applicant proposes to protect health and safety of its employees through the use of a Class II Diving Bell outfitted with an umbilical for gas supply, communications to the surface, emergency breathing supply, and a hot water system. A standby diver will be in the Class II Bell while the diver is working. Both divers will be in constant contact with each other and the surface. A diving supervisor and support crew are on duty whenever diving operations are conducted.

The applicant also states that there is a decompression chamber on deck at the worksite capable of recompression to the deepest depth of the dives. Decompression is done in the open bell and in the decompression chamber. The divers carry a backpack of reserve gas in addition to the primary gas. A safety factor of three is used in calculating gas/time supplies. The diver wears a hot water suit and his body temperature is monitored.

The applicant further states that it meets or exceeds all the other requirements for diving to depths greater than 300 fsw. All dive team members are trained in first aid and cardiopulmonary resuscitation (CPR) and an Emergency Medical Technician/Diving is available at each dive location.

GRANT OF INTERIM ORDER

It appears from the application for a temporary variance and interim order that, as required by section 6(b)(6)(A) of the Act, Oceaneering International, Inc., is unable to comply with the requirements of 29 CFR 1910.426(b)(1)(ii) by the effective date of the standard. It appears that the applicant is taking all available steps to safeguard its employees during the time needed to come into compliance with the standard. It further appears that an interim order is necessary to prevent undue hardship to the applicant and its employees pending a decision on the variance. Therefore it is ordered, pursuant to the authority in section 6(b)(6)(A) of the Occupational Safety and Health Act of 1970, and in 29 CFR 1905.10(c) and in Secretary of Labor's Order No. 8-76 (41 FR 25059), that Oceaneering International, Inc., be, and it is hereby, authorized to conduct mixed-gas diving to depths greater than 300 fsw without the use of a closed diving bell while coming into compliance with the requirements of 29 CFR 1910.426(b)(1)(ii), with the following conditions:

(1) A Class II Bell shall be utilized, outfitted with an umbilical for gas supply, communications to the surface, an emergency breathing supply, and a hot water system;

(2) A standby diver shall be in the bell whenever a diver is working;

(3) The two divers shall be in constant contact with each other and the surface;

(4) The lowest dive depth, or excursion, shall be 350 fsw;

(5) The divers shall carry backpacks of reserve breathing gas; and,

(6) The applicant shall comply with all other applicable portions of the Commercial Diving Operations standard.

Oceaneering International, Inc., shall give notice of this interim order to employees affected thereby by the same means required to be used to inform them of the application for a variance.

This interim order shall remain in effect until April 20, 1978, or until a decision is rendered on the application for a variance.

Signed at Washington, D.C., this 31st day of January 1978.

EULA BINGHAM,
Assistant Secretary of Labor.

J. RAY McDERMOTT & CO., INC.

Application for Variance and Interim Order

AGENCY: Occupational Safety and Health Administration, Department of Labor.

ACTIONS: (1) Notice of application for variance and interim order, (2) Grant of interim order.

SUMMARY: This notice announces the application of J. Ray McDermott & Co., Inc. for a variance and interim order pending a decision on the application for a variance from the standard prescribed in 29 CFR 1910.410(a)(3) concerning first aid and cardiopulmonary resuscitation (CPR) training for commercial diving operations.

It also announces the granting of an interim order until a decision is rendered on the application for variance.

DATES: The effective date of the interim order is February 7, 1978. The last date for interested persons to submit comments is March 9, 1978. The last date for affected employers and employees to request a hearing on the application is March 9, 1978.

ADDRESS: Send comments or requests for a hearing to: Office of Variance Determination, Occupational Safety and Health Administration, U.S. Department of Labor, Third Street and Constitution Avenue NW., Room N-3668, Washington, D.C. 20210.

FOR FURTHER INFORMATION CONTACT:

James J. Concannon, Director, Office of Variance Determination, at the above address, telephone: 202-523-7121.

or the following Regional and Area Offices:

U.S. Department of Labor, Occupational Safety and Health Administration, 555 Griffin Square Building, Room 602, Dallas, Tex. 75202.

U.S. Department of Labor, Occupational Safety and Health Administration, 546 Carondelet Street, Room 202, New Orleans, La. 70130.

I. NOTICE OF APPLICATION

Notice is hereby given that J. Ray McDermott & Co., Inc., P.O. Drawer 38, Harvey, Louisiana 70059 has made application pursuant to section 6(b)(6)(A) of the Occupational Safety and Health Act of 1970 (84 Stat. 1594; 29 U.S.C. 655) and 29 CFR 1905.10 for a temporary variance, and interim order pending a decision on the application for a variance, from the standards prescribed in 29 CFR 1910.410(a)(3) which requires that all dive team members be trained in first aid and CPR.

The addresses of the places of employment that will be affected by the application are all dive locations in areas under Federal jurisdiction.

The applicant certifies that employees who would be affected by the variance have been notified of the application by giving a copy of it to their authorized employee representative, and by posting a copy at all places where notices to employees are normally posted. Employees have also been informed of their right to petition the Assistant Secretary for a hearing.

Regarding the merits of the application, the applicant contends that it is unable to comply with the requirements of § 1910.410(a)(3) by the effective date of the standard.

The applicant states that it has 145 employees to train in first aid and CPR. Of these 145 employees, three are ex-Navy Hospital Corpsmen trained in Hyperbaric Medicine, Combat First Aid, and CPR, one is an ex-Navy Corpsman trained in Respiratory Therapy, Industrial First Aid and CPR, four are Emergency Medical Technicians with CPR, 20 are Advanced First Aid graduates, eight are Standard First Aid graduates and 86 are Multi-Media First Aid graduates. However, even of these, most do not meet the requirements for training in both first aid and CPR.

Although the applicant states that it has ongoing programs for training all employees in first aid and CPR, most

employees will not be available for training until January during the slack work season. The applicant plans to schedule classes in first aid and CPR during January, February, March, and April, coming into compliance with the standard by April 30, 1978.

In the interim, the applicant is providing protection to its employees by having a minimum of six members of each dive team trained in first aid, and by having a qualified medic on each barge, whose sole duties are first aid and safety meetings.

II. GRANT OF INTERIM ORDER

It appears from the application for a variance and interim order that, as required by section 6(b)(6)(A) of the Act, J. Ray McDermott & Co., Inc. is unable to comply with the requirements of 29 CFR 1910.410(a)(3) by the effective date of the standard. It appears that the applicant is taking all available steps to safeguard its employees during the time needed to come into compliance with the standard. It further appears that an interim order is necessary to prevent undue hardship to the applicant and its employees pending a decision on the variance. Therefore it is ordered, pursuant to the authority in section 6(b)(6)(A) of the Occupational Safety and Health Act of 1970, in 29 CFR 1905.10(c) and in Secretary of Labor's Order No. 8-76 (41 FR 25059), that J. Ray McDermott & Co., Inc. be, and it is hereby, authorized to conduct its diving operations while providing protection to its employees through the use of medics on each barge, and a minimum of six members of each dive team trained in first aid while coming into compliance with the requirements of 29 CFR 1910.410(a)(3).

J. Ray Mc Dermott & Co., Inc. shall give notice of this interim order to employees affected thereby by the same means required to be used to inform them of the application for a variance.

This interim order shall remain in effect until April 30, 1978, or until a decision is rendered on the application for a variance.

Signed at Washington, D.C., this 31st day of January, 1978.

EULA BINGHAM,
Assistant Secretary of Labor.

[V-78-2]

SANTA FE ENGINEERING & CONSTRUCTION CO.

Application for Variance and Interim Order

AGENCY: Occupational Safety and Health Administration Department of Labor.

ACTION: (1) Notice of application for variance and interim order. (2) Grant of interim order.

SUMMARY: This notice announces the application of Santa Fe Engineering & Construction Co., for a variance and interim order pending a decision on the application for a variance from the standard prescribed in 29 CFR 1910.410(a)(3) concerning first aid and cardiopulmonary resuscitation (CPR) training for commercial diving operations. It also announces the granting of an interim order until a decision is rendered on the application for variance.

DATES: The effective date of the interim order is February 7, 1978. The last date for interested persons to submit comments is March 9, 1978. The last date for affected employers and employees to request a hearing on the application is March 9, 1978.

ADDRESS: Send comments or requests for a hearing to: Office of Variance Determination, Occupational Safety and Health Administration, U.S. Department of Labor, Third Street and Constitution Avenue NW., Room N-3668, Washington, D.C. 20210.

FOR FURTHER INFORMATION CONTACT:

James J. Concannon, Director, Office of Variance Determination at the above address, telephone: 202-523-7121.

or the following Regional and Area Offices:

U.S. Department of Labor, Occupational Safety and Health Administration, 555 Griffin Square Building, Room 602, Dallas, Tex. 75202.

U.S. Department of Labor, Occupational Safety and Health Administration, 546 Carondelet Street, Room 202, New Orleans, La. 70130.

I. NOTICE OF APPLICATION

Notice is hereby given that Santa Fe Engineering & Construction Co., P.O. Box 813, Houma, La. 70360 has made application pursuant to section 6(b)(6)(A) of the Occupational Safety and Health Act of 1970 (84 Stat. 1594; 29 U.S.C. 655) and 29 CFR 1905.10 for a temporary variance, and interim order pending a decision on the application for a variance, from the standards prescribed in 29 CFR 1910.410 (a)(3) which requires that all dive team members be trained in first aid and CPR.

The addresses of the places of employment that will be affected by the application are all dive locations in areas under Federal jurisdiction.

The applicant certifies that employees who would be affected by the variance have been notified of the application be giving a copy of it to their authorized employee representative, and by posting a copy at all places where notices to employees are normally posted. Employees have also been informed of their right to petition the Assistant Secretary for a hearing.

Regarding the merits of the application, the applicant contends that it is unable to comply with the requriements of §1910.410(a)(3) by the effective date of the standard.

The applicant states that it has 67 employees affected by the requirement for training in first aid and CPR. Of these 67 employees, 25 have had first aid training, 21 have had CPR training, and 6 are classified as Emergency Medical Technicians. However, most of the employees do not meet the requirement for training in both first aid and CPR.

Most employees will not be available for training until January during the slack work season. The applicant proposes to schedule classes in first aid and in CPR during the months of January, February, and March, coming into compliance with the standard by March 31, 1978.

In the interim, the applicant is providing protection to its employees by having trained medics or first aid personnel available at all dive locations. Many of the applicant's operations are conducted from barges with a qualified medic on board, who is available at all times for medical emergencies. On operations which do not have a medic on duty, protection will be provided through the use of first aid graduates, CPR graduates, and Emergency Medical Technicians.

II. GRANT OF INTERIM ORDER

It appears from the application for a variance and interim order that, as required by section 6(b)(6)(A) of the Act, Santa Fe Engineering & Construction Co. is unable to comply with the requirements of 29 CFR 1910.410(a)(3) by the effective date of the standard. It appears that the applicant is taking all available steps to safeguard its employees during the time needed to come into compliance with the standard. It further appears that an interim order is necessary to prevent undue hardship to the applicant and its employees pending a decision on the variance. Therefore it is ordered, pursuant to the authority in section 6(b)(6)(A) of the Occupational Safety and Health Act of 1970, in 29 CFR 1905.10(c) and in Secretary of Labor's Order No. 8-76 (41 FR 25059), that Santa Fe Engineering & Construction Co. be, and it is hereby, authorized to conduct its diving operations while providing protection to its employees through the use of medics, first aid graduates, CPR graduates, or Emergency Medical Technicians at each dive location while coming into compliance with the requirements of 29 CFR 1910.410-(a)(3).

Santa Fe Engineering & Construction Co. shall give notice of this interim order to employees affected thereby by the same means required to be used to inform them of the application for a variance.

This interim order shall remain in effect until March 31, 1978 or until a decision is rendered on the application for a variance.

Signed at Washington, D.C. this 31st day of January, 1978.

EULA BINGHAM,
Assistant Secretary of Labor.

[V-78-1]

TAYLOR DIVING AND SALVAGE CO., INC.

Application for Variance; Interim Order

AGENCY: Occupational Safety and Health Administration Department of Labor.

ACTIONS: (1) Notice of application for variance and interim order. (2) Grant of interim order.

SUMMARY: This notice announces the application of Taylor Diving and Salvage Co., Inc., for a variance and interim order pending a decision on the application for a variance from the standard prescribed in 29 CFR 1910.410(a)(3) concerning first aid and cardio-pulmonary resuscitation (CPR) training for commercial diving operations. It also announces the granting of an interim order until a decision is rendered on the application for variance.

DATES: The effective date of the interim order is February 7, 1978. The last date for affected employers and employees to submit comments or request a hearing on the application is March 9, 1978.

ADDRESES: Send comments or requests for a hearing to: Office of Variance Determination, Occupational Safety and Health Administration, U.S. Department of Labor, Third Street and Constitution Avenue NW., Room N-3668, Washington, D.C. 20210.

FOR FURTHER INFORMATION CONTACT:

Mr. James J. Concannon, Director, Office of Variance Determination, at the above address, telephone: 202-523-7121

or the following Regional and Area Offices:

U.S. Department of Labor, Occupational Safety and Health Administration, 555 Griffin Square Building, Room 602, Dallas, Tex. 75202.

U.S. Department of Labor, Occupational Safety and Health Administration, 546 Carondelet Street, Room 202, New Orleans, La. 70130.

I. NOTICE OF APPLICATION

Notice is hereby given that Taylor Diving and Salvage Co. Inc., 795 Engineers Road, Belle Chasse, La. 70037 has made application pursuant to section 6(b)(6)(A) of the Occupational Safety and Health Act of 1970 (84 Stat. 1594; 29 U.S.C. 655) and 29 CFR 1905.10 for a temporary variance, and interim order pending a decision on the application for a variance, from the standards prescribed in 29 CFR 1910.410(a)(3) which requires that all dive team members be trained in first aid and cardiopulmonary resuscitation (CPR).

The addresses of the places of employment that will be affected by the application are all dive locations in areas that fall within the jurisdiction of the standard.

The applicant certifies that employees who would be affected by the variance have been notified of the application by giving a copy of it to their authorized employee representative, and by posting a copy at ll places where notices to employees are normally posted. Employees have also been informed of their right to petition the Assistant Secretary for a hearing.

Regarding the merits of the application, the applicant contends that it is unable to comply with the requirements of § 1910.410(a)(3) by the effective date of the standard.

The applicant states that it has 605 employees to train in first aid and cardiopulmonary resuscitation (CPR). With 25 employees per class it will take approximately 24 classes to train all employees in first aid and CPR. Because of scheduling problems, the applicant proposes to run one class per week for 24 weeks.

The applicant has further stated that most diving operations are demobilized by December, and thus proposes to begin training on January 9, 1978, and completing it by July 10, 1978.

In further discussions with the applicant, it was learned that training has begun on a smaller scale with approximately 80 employees presently trained. It was also determined that two classes per week would be feasible. Therefore, the applicant would expect to have training of all employees completed in 12 weeks or less. With this schedule all training would be completed by April 3, 1978.

In the interim, the applicant is providing protection to its employees by having trained medics or first aid personnel available at all dive locations. Nearly all of the applicant's operations are conducted from barges with a qualified medic on board, whose sole duty is first aid. A physician is also on call from shore. On operations which do not have a medic on duty, protection will be provided through the use of standard first aid graduates, cardiopulmonary resuscitation (CPR) graduates, emergency medical technicians, paramedics and nurses. In these cases the first aid duty is a collateral duty.

II. GRANT OF INTERIM ORDER

It appears from the application for a variance and interim order that, as required by section 6(b)(6)(A) of the Act, Taylor Diving and Salvage Co., Inc. is unable to comply with the requirements of 29 CFR 1910.410(a)(3) by the effective date of the standard. It appears that the applicant is taking all available steps to safeguard its employees during the time needed to come into compliance with the standard. It further appears that an interim order is necessary to prevent undue hardship to the applicant and its employees pending a decision on the variance. Therefore it is ordered, pursuant to the authority in section 6(b)(6)(A) of the Occupational Safety and Health Act of 1970, in 29 CFR 1905.10(c) and in Secretary of Labor's Order No. 8-76 (41 FR 25059), that Taylor Diving Salvage Co., Inc. be, and it is hereby, authorized to conduct its diving operations while providing protection to its employees through the use of medics, standard first aid graduates, cardiopulmonary resuscitation graduates, emergency medical technicians, paramedics, or nurses at each dive location in lieu of complying with the requirements of 29 CFR 1910.410(a)(3).

Taylor Diving and Salvage Co., Inc. shall give notice of this interim order to employees affected thereby by the same means required to be used to inform them of the application for a variance.

This interim order shall remain in effect until April 3, 1978 or until a decision is rendered on the application for a variance.

Signed at Washington, D.C. this 31st day of January, 1978.

EULA BINGHAM,
Assistant Secretary of Labor.

[4510-26]

INDIANA STATE STANDARDS

Approval

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) (hereinafter called the Act) by which the Regional Administrators for Occupational Safety and Health (hereinafter called Regional Administrator), under a delegation of authority from the As-

sistant Secretary of Labor for Occupational Safety and Health (hereinafter called the Assistant Secretary) (29 CFR 1953.4), will review and approve standards promulgated pursuant to a State plan which has been approved in accordance with section 18(c) of the Act and 29 CFR Part 1902. On March 6, 1974, notice was published in the FEDERAL REGISTER (39 FR 8611) of the approval of the Indiana plan and the adoption of Subpart Z to Part 1952 containing the decision.

The Indiana plan provides for the adoption of Federal standards as State standards after public hearing. By letter dated November 4, 1977, from William H. Lanam, Commissioner, Indiana Division of Labor, to Barry J. White, Regional Administrator, Occupational Safety and Health Administration, and incorporated as part of the plan, the State submitted State standards comparable to:

(1) 29 CFR Part 1910, Subpart T, Commercial Diving Operations, as published in the FEDERAL REGISTER (42 FR 37650) dated Friday, July 22, 1977.

(2) 29 CFR 1915.59, Commercial Diving Operations, as published in the FEDERAL REGISTER (42 FR 37650) dated Friday, July 22, 1977.

(3) 29 CFR 1916.59, Commercial Diving Operations, as published in the FEDERAL REGISTER (42 FR 37650) dated Friday, July 22, 1977.

(4) 29 CFR 1917.59, Commercial Diving Operations, as published in the FEDERAL REGISTER (42 FR 37650) dated Friday, July 22, 1977.

(5) 29 CFR 1918.99, Commercial Diving Operations, as published in the FEDERAL REGISTER (42 FR 37650) dated Friday, July 22, 1977.

(6) 29 CFR 1926.605, Marine Operations and Equipment, as published in the FEDERAL REGISTER (42 FR 37650) dated Friday, July 22, 1977.

(7) 29 CFR 1928.21 (Amended), Safety and Health Standards for Agriculture, as published in the FEDERAL REGISTER (42 FR 37650), dated Friday, July 22, 1977.

These standards, which are contained in the Indiana Occupational Safety and Health Standards, were promulgated after public comment was requested on August 11, 1977, and August 19, 1977, a public hearing was held on September 9, 1977, the Attorney General approved their legality on October 11, 1977, the Governor approved them on October 17, 1977, they were filed with the Secretary of State on October 17, 1977, and they were registered with the Legislative Council on October 17, 1977, pursuant to the Indiana Administrative Adjudication Act.

2. *Decision.* Having reviewed the State submission in comparison with the comparable Federal standards it had been determined that the State standards are identical to the Federal standards and accordingly should be approved.

3. *Location of supplement for inspection and copying.* A copy of the standards supplement, along with the approved plan, may be inspected and copied during normal business hours at the following locations: Office of the Regional Administrator, Occupational Safety and Health Administration, 230 South Dearborn Street, Chicago, Ill. 60604; State of Indiana, Division of Labor, 1013 State Office Building, Indianapolis, Ind. 46204; and the Office of the Directorate of Federal Compliance and State programs, Room N3608, 200 Constitution Avenue NW., Washington, D.C. 20210.

4. *Public participation.* Under §1953.2(c) of this Chapter, the Assistant Secretary may prescribe alternative procedures to expedite the review process or for other good cause which may be consistent with applicable laws. The Assistant Secretary finds that good cause exists for not publishing the supplement to the Indiana State plan as a proposed change and making the Regional Administrator's approval effective upon publication for the following reasons:

1. The standards are identical to the Federal standards and are therefore deemed to be at least as effective.

2. The standards were adopted in accordance with the procedural requirements of State law and further participation and notice would be unnecessary.

This decision is effective February 7, 1978.

(Sec. 18, Pub. L. 91-596, 84 Stat. 1608 (29 U.S.C. 667).)

Signed at Chicago, Ill., this 18th day of November 1977.

BARRY J. WHITE,
Regional Administrator.

[4510-26]

MINNESOTA STATE STANDARDS

Approval

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) (hereinafter called the Act) by which the Regional Administrator for Occupational Safety and Health (hereinafter called the Regional Administrator), under delegation of authority from the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter called the Assistant Secretary) (29 CFR 1953.4), will review and approve standards promulgated pursuant to a State plan which has been approved in accordance with section 18(c) of the Act and 29 CFR Part 1902. On June 8, 1973, notice was published in the FEDERAL REGISTER (38 FR 15076) of the approval of the Minnesota plan and the adoption of Subpart N of Part 1952 containing the decision.

The Minnesota plan provides for the adoption of Federal standards as State standards by reference after an opportunity for public comment and/or requests for public hearings. By notice published on June 30, 1976, in the Minneapolis Tribune (a newspaper of general circulation within the State) and incorporated as part of the plan, Minnesota has adopted State standards comparable to:

(a) Telecommunications Standards as published in the FEDERAL REGISTER, pages 13439 through 13450, on March 26, 1975, including: 29 CFR 1910.67 (b) and (c) Vehicle-mounted elevating and rotating work platforms; §1910.70 Standards Organizations; §1910.183 Helicopters; §1910.189 Sources of Standards redesignated from §1910.183; §1910.190 Standards Organizations redesignated from §1910.184; §1910.268 Telecommunications; §1910.274 Sources of Standards redesignated from §1910.268; §1910.275 Standards Organizations redesignated from §1910.269.

(b) Changes made in Parts 1910 and 1926 as published in the FEDERAL REGISTER, page 23072 on May 28, 1975, and page 23847 on June 3, 1975, to recodify §§1910.93 through 1910.93(q) in old Subpart G to §§1910.1000 through 1910.1017 in new Subpart Z. Also changed were numerous references in the old §1910.93 to references to the new §1910.1000.

No substantial changes in the standards were made. Two new sections were added: 29 CFR 1910.1499 Sources of Standards; 29 CFR 1910.1500 Standards Organizations.

(c) Subpart D Safety for Agricultural Equipment, as published in the FEDERAL REGISTER, pages 10195 through 10197 on March 9, 1976 as 29 CFR 1928.57, Guarding of Farm Field Equipment, Farmstead Equipment and Cotton Gins.

(d) Corrections as published in the FEDERAL REGISTER, page 31598 on July 28, 1975 to 29 CFR 1910.184(e)(9)(i) (Industrial Slings) and page 11022 on March 16, 1976 to 29 CFR 1928.57 (Guarding of Farm Field Equipment, Farmstead Equipment and Cotton Gins).

(e) Amendments as published in the FEDERAL REGISTER, page 11505 on March 19, 1976 to 29 CFR 1910.1001(i) (Asbestos).

(f) Deletion as published in the FEDERAL REGISTER, page 13552 on March 30, 1976, of 29 CFR 1910.184(f)(6) (Industrial Slings).

These standards, which are contained in the Minnesota Occupational Safety and Health Codes and Rules, were promulgated after notice was

published offering an opportunity for public comments and/or requests for public hearings. No written comments or requests for hearing on objections were received concerning the proposed standards. The order of adoption, effective June 15, 1976, was published in a newspaper of general circulation on June 30, 1976, pursuant to Minn. Stat. 182.655.

2. *Decision.* Having reviewed the State submission in comparison with the comparable Federal standards it has been determined that the State standards are identical to the Federal standards and accordingly should be approved.

3. *Location of supplement for inspection and copying.* A copy of the standards supplement, along with the approved plan, may be inspected and copied during normal business hours at the following locations: Office of the Regional Administrator, Occupational Safety and Health Administration, 230 South Dearborn Street, Chicago, Ill. 60604; State of Minnesota, Department of Labor and Industry, 444 Lafayette Road, St. Paul, Minn. 55101; and the Office of the Directorate of Federal Compliance and State Programs, Room N3608, 200 Constitution Avenue NW., Washington, D.C. 20210.

4. *Public Participation.* Under 29 CFR 1953.2(c), the Assistant Secretary may prescribe alternative procedures to expedite the review process or for good cause which may be consistent with applicable laws. The Assistant Secretary finds that good cause exists for not publishing the supplement to the Minnesota plan as a change and making the Regional Administrator's approval effective upon publication for the following reasons:

1. The standards are identical to the Federal standards and are therefore deemed to be at least effective.

2. The standards were adopted in accordance with the procedural requirements of State law and further public participation and notice would be unnecessary.

This decision is effective February 1978.

(Sec. 18, Pub. L. 91-596, 84 Stat. 1608 (29 U.S.C. 667).)

Signed at Chicago, Ill., this 18th day of November 1977.

BARRY J. WHITE,
Regional Administrator.

[4510-28]

Office of the Secretary

[TA-W-2665 and 2666]

ALLEN MINE AND MAXWELL MINE OF CF&I STEEL CORP., WESTON, COLO.

Certifications Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974, the Department of Labor herein presents the results of TA-W-2665 and 2666: Investigations regarding certification of eligibility to apply for worker adjustment assistance as presecribed in section 222 of the Act.

The investigations were initiated on November 29, 1977, in response to worker petitions received November 18, 1977, which were filed by the United Mine Workers of America on behalf of workers and former workers producing coal at the Allen Mine and the Maxwell Mine of CF&I Steel Corp., Weston, Colo.

the Notices of Investigation were published in the FEDERAL REGISTER on December 6, 1977 (42 FR 63486). No public hearing was requested and none was held.

The information upon which the determinations were made was obtained principally from officials of CF&I Steel Corp., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met. It is concluded that all of the requirements have been met.

The Allen Mine and the Maxwell Mine are owned by CF&I Steel Corp. The coal produced at the mines is shipped to CF&I's steel-producing plant in Pueblo, Colo., where it is processed into coke for use in steelmaking. Except for an occasional sale of coal to outside customer, the Allen Mine and the Maxwell Mine are captive suppliers of coal to CF&I's Pueblo plant.

Employment at the Allen Mine began declining in June 1976 and continued to decline in each quarter of 1976 compared to the immediately preceding quarter. Employment declined in the first 11 months of 1977 compared to the like period in 1976.

The Maxwell Mine opened for operations in February 1977. Employment increased in every month through October, then declined in November. The United Mine Workers went on strike beginning December 6, 1977, and both mines have been closed down since that date.

DF&I's Pueblo facility manufactures carbon steel products in seven different categories: rails, rolled products (structural shapes, hot rolled bars and shapes and rebars), pipe, wire products, mining products, cutting edges and wire rod. The plant also produces coke and coke by-product chemicals, primarily for its own use in steelmaking.

Workers engaged in the production of three of the steel product groups (rolled products, pipe and wire products) and workers engaged in coke and chemical production have already been certified eligible to apply for adjustment assistance (see Notice of Determinations, TA-W-1513, 42 FR 43152).

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with the carbon steel rolled products, pipe and wire products produced at the Pueblo, Colo., plant of CF&I Steel Corp. contributed importantly to the total or partial separation of workers at the Allen Mine and the Maxwell Mine, owned by CF&I Steel Corp. In accordance with the provisions of the Act, I make the following certifications:

All workers at the Allen Mine of CF&I Steel Corp., Weston, Colo., who became totally or partially separated from employment on or after November 17, 1976 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

All workers at the Maxwell Mine of CF&I Steel Corp., Weston, Colo., who became totally or partially separated from employment on or after October 30, 1977, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 27th day of January 1978.

HARRY GRUBERT,
Director, Office of Foreign Economic Research.

[FR DOC. 78-3300 Filed 2-6-78; 8:45 am]

[4510-28]

[TA-W-2626]

ANACONDA CO., WEED HEIGHTS, NEV.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2626: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on November 21, 1977, in response to a worker petition received on November 14, 1977, which was filed by three workers on behalf of workers and former workers producing copper at the Weed Heights, Nev., mine of the Anaconda Co.

The notice of investigation was published in the FEDERAL REGISTER on December 6, 1977 (42 FR 61696). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Anaconda Co., the U.S. Department of Commerce, the U.S. International Trade Commission, Metals Week, Metal Bulletin, American Metals Market, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met. It is concluded that all of the requirements have been met.

Increased Imports. U.S. imports of refined copper increased from 147 thousand short tons in 1975 to 384 thousand short tons in 1976. U.S. imports declined from 313 thousand short tons in the first three quarters of 1976 to 275 thousand short tons in the first three quarters of 1977. U.S. imports increased from 101 thousand short tons in the third quarter of 1976 to 111 thousand short tons in the third quarter of 1977.

The ratio of imported refined copper to domestic production increased from 8.6 percent in 1975 to 21.0 percent in 1976. The ratio of imports to domestic production declined from 23.9 percent in the first 6 months of 1976 to 14.8 percent in the first 6 months of 1977.

U.S. imports of copper ore, concentrate, precipitates and matte increased from 74 thousand tons in 1975 to 89 thousand tons in 1976. The ratio of imports to domestic production increased from 5.2 percent in 1975 to 5.5 percent in 1976.

Contributed Importantly. Copper processed from imported concentrates and precipitates by the Anaconda Co. increased 314.8 percent in the fourth quarter of 1976 compared to the fourth quarter of 1975 and increased 29.5 percent in the first quarter of 1977 compared to the first quarter of 1976.

While imports of refined copper had increased by 161 percent in 1976 compared to 1975, domestic demand increased at only a fraction of that rate. Inventory levels of domestic and imported copper on consignment at domestic refineries in December 1976 were 31.4 percent above December 1975 levels and were 143.2 percent above December 1974 levels. Anaconda and other domestic producers of refined copper lost substantial sales in 1977 because of the excessive inventories of domestic and imported refined copper.

Imports of copper are affected by the differential between the domestic price of copper established by COMEX (Commodity Metal Exchange) and the price established by the LME (London Metals Exchange). When the LME price drops more than the estimated transportation costs of 5–8 cents per pound below the COMEX price, the demand for imported copper increases. During May and June 1977 the LME price was almost 11 cents per pound below the COMEX price and in July and August 1977 the LME price was almost 12 cents per pound below the COMEX price. At the same time, the abundant supply of copper stocks in the forseeable future provides no reason for domestic consumers of copper to maintain ties with domestic producers for purposes of a guarantee against copper shortages. Consequently, in the third quarter of 1977, when many domestic copper producers curtailed production because of the depressed market price for copper, imports of refined copper increased 9.9 percent compared to the third quarter of 1976.

Price pressure from imported copper has reduced the ability to profitably mine domestic ore and convert it to copper concentrates and precipitates and then to refined copper. Industry sources state that the weighted average production costs of the lowest cost domestic copper mines are 63 cents per pound. The weighted average costs for the highest cost domestic copper mines are $1.05 per pound. Thus, with a current domestic market price of 60 cents per pound, domestic producers lose, on the average, 3 to 45 cents on each pound of copper they choose to sell.

Anaconda Co.'s decision to lay off workers and reduce its mining operations was based mainly on an attempt to minimize losses which the company could not avoid were it to run at normal production levels at the current market prices for copper.

Comments made by customers purchasing copper from Anaconda Co. substantiate the fact that increased imports have contributed importantly to record inventory levels which have driven the price of domestic copper below the level at which many domestic firms can profitably produce copper.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with copper concentrates and precipitates processed at the Weed Heights, Nev., mine of the Anaconda Co. contributed importantly to the total or partial separations of the workers at that plant. In accordance with the provisions of the act, I make the following certification:

All workers at the Weed Heights, Nev., mine of the Anaconda Co. who became totally or partially separated from employment on or after October 26, 1976, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 31st day of January 1978.

HARRY GRUBERT,
Director, Office of Foreign Economic Research.

[FR Doc. 78-3301 Filed 2-6-78; 8:45 am]

[4510-28]

[TA-W-2252]

ANWELT CORP., FITCHBURG, MASSACHUSETTS

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2252: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on August 15, 1977, in response to a worker petition received on that date which was filed on behalf of workers and former workers producing work shoes and boots at the Fitchburg, Mass. plant of Anwelt Corp.

The notice of investigation was published in the FEDERAL REGISTER on September 2, 1977 (42 FR 44298). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Anwelt Corp., its customers, and the United Shoe Machinery Corp., publications of the U.S. Department of Commerce, the U.S. International Trade Commission, and the American Footwear Industries Association, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met. It is concluded that all of the requirements have been met.

INCREASED IMPORTS

United States imports of work footwear decreased in 1975 to 2.6 million pairs, increased in 1976 to 4.7 million pairs, and remained constant at 3.8 million pairs during the first six months of 1977 compared to the same period in 1976.

The ratio of imports of work footwear to domestic production decreased in 1975 to 10.5 percent, increased in 1976 to 18.0 percent, and increased to 21.3 percent during the first six months of 1977 compared to 18.8 percent for the same period in 1976.

United States imports of misses' and women's nonrubber footwear in-

creased in 1975 to 190.7 million pairs, increased in 1976 to 195.5 million pairs, and decreased to 92.6 million pairs during the first six months of 1977 compared to 110.4 million pairs for the same period in 1976.

The ratio of imports of misses' and women's nonrubber footwear to domestic production increased in 1975 to 114.1 percent, decreased in 1976 to 112.6 percent, and increased to 119.6 percent during the first six months of 1977 compared to 101.7 percent during the same period in 1976.

United States imports of men's dress and casual footwear increased in 1975 to 47.5 million pairs, increased in 1976 to 58.7 million pairs, and decreased to 44.0 million pairs during the first six months of 1977 compared to 44.7 million pairs during the same period in 1976.

The ratio of imports to men's dress and casual footwear increased in 1975 to 58.7 percent, increased in 1976 to 70.4 percent, increased to 75.0 percent during the first six months of 1977 compared to 69.1 percent during the same period in 1976.

CONTRIBUTED IMPORTANTLY

A survey of Anwelt Corp.'s customers revealed that customers increased purchases of imported shoes and boots and decreased purchases from Anwelt Corp. in 1976 compared to 1975, and in the first half of 1977 compared to the first half of 1976. Customers' purchases of imports increased during these periods either directly or by increasing purchases from other domestic sources which supply imported shoes and boots.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with shoes and boots produced at the Fitchburg, Massachusetts plant of Anwelt Corporation contributed importantly to the total or partial separations of the workers at that plant. In accordance with the provisions of the act, I make the following certification:

All workers at the Fitchburg, Mass. plant of Anwelt Corp. who became totally or partially separated from employment on or after August 11, 1976 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 31st day of January 1978.

HARRY GRUBERT,
Director, Office of Foreign Economic Research.

[4510-28]

[TA-W-2370]

ARROW CO., CEDARTOWN, GA.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2370: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the act.

The investigation was initiated on September 22, 1977 in response to a worker petition received on September 20, 1977 which was filed by the Amalgamated Clothing and Textile Workers' Union on behalf of workers and former workers producing men's dress shirts at the Cedartown, Ga. plant of the Arrow Co.

The notice of investigation was published in the FEDERAL REGISTER on October 4, 1977 (42 FR 54032). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Arrow Co., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all four of the above criteria have been met.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

Average weekly employment of production workers at the Cedartown, Ga. plant increased in 1976 compared to 1975 and increased in the first and second quarters of 1977 compared to the same quarters of 1976. Average employment decreased in the third quarter of 1977 compared to the third quarter of 1976. Average weekly hours worked decreased in the first, second, and third quarters of 1977 compared to the same quarters of 1976.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Production of men's dress shirts at the Cedartown, Georgia plant increased in 1976 compared to 1975 and decreased in the first, second, and third quarters of 1977 compared to the same quarters of 1976.

INCREASED IMPORTS

Imports of men's and boys' woven dress and business shirts decreased from 70,666,000 units in 1972 to 42,066,000 units in 1973 to 35,620,000 units in 1974 and to 30,800,000 units in 1975. Imports were recorded at 64,283,000 units in 1976, representing an increase of 108.7 percent compared to 1975. During the first half of 1977, imports were recorded at 32,443,000 units and represented an increase of 20.6 percent compared to 26,906,000 units in the first half of 1976. The ratio of imports to domestic production declined from 49.7 percent in 1972 to 36.2 percent in 1975 and then increased to 67.1 percent during 1976.

CONTRIBUTED IMPORTANTLY

Company imports of men's dress shirts increased in quantity in 1975 compared to 1974 and decreased in 1976 compared to 1975. During the first three quarters of 1977, company imports of men's dress shirts increased 150.7 percent compared to the first three quarters of 1976. The ratio of company imports to company sales of men's dress shirts increased from 5.2 percent in the first three quarters of 1976 to 12.3 percent in the same period of 1977. The Arrow Co. increased its imports of men's dress shirts in 1977 to maintain a given price structure in an increasingly competitive domestic market.

A survey of customers of The Arrow Company indicated that some customers decreased purchases of men's dress shirts from the subject firm while increasing purchases of imported shirts. Price was the main factor influencing the decision to purchase imported shirts.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with men's dress shirts produced at the Cedartown, Georgia plant of The Arrow Company contributed importantly to the decrease in production and to the total or partial separations of the workers of that plant. In accordance with the provisions of the Act, I make the following certification:

All workers at Cedartown, Ga. plant of The Arrow Co. Who became totally or partially separated from employment on or after June 22, 1977, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 31st day of January 1978.

HARRY GRUBERT,
Director, Office of Foreign Economic Research.

[4510-28]

[TA-W-2371]

ARROW CO., BREMEN, GA.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2371: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on September 22, 1977 in response to a worker petition received on September 20, 1977 which was filed by the Amalgamated Clothing and Textile Workers' Union on behalf of workers and former workers producing men's dress shirts at the Bremen, Ga. plant of the Arrow Co.

The notice of investigation was published in the FEDERAL REGISTER on October 4, 1977 (42 FR 54032). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Arrow Co., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all four of the above criteria have been met.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

Average weekly employment of production workers at the Bremen, Ga. plant increased in 1976 compared to 1975 and remained stable in the first quarter of 1977 before decreasing in the second and third quarters of 1977 compared to the same quarters of 1976. Average weekly hours worked decreased in the first, second, and third quarters of 1977 compared to the same quarters of 1976.

SALES OR PRODUCTION, OR BOTH, HAVE DECLINED ABSOLUTELY

Production of men's dress shirts at the Bremen, Ga. plant increased in 1976 compared to 1975 and decreased in the first, second, and third quarters of 1977 compared to the same quarters of 1976.

INCREASED IMPORTS

Imports of men's and boys' woven dress and business shirts decreased from 70,666,000 units in 1972 to 42,066,000 units in 1973 to 35,620,000 units in 1974 and to 30,800,000 units in 1975. Imports were recorded at 64,283,000 units in 1976, representing an increase of 108.7 percent compared to 1975. During the first half of 1977, imports were recorded at 32,443,000 units and represented an increase of 20.6 percent compared to 26,906,000 units in the first half of 1976. The ratio of imports to domestic production declined from 49.7 percent in 1972 to 36.2 percent in 1975 and then increased to 67.1 percent during 1976.

CONTRIBUTED IMPORTANTLY

Company imports of men's dress shirts increased in quantity in 1975 compared to 1974 and decreased in 1976 compared to 1975. During the first three quarters of 1977, company imports of men's dress shirts increased 150.7 percent compared to the first three quarters of 1976. The ratio of company imports to company sales of dress shirts increased from 5.2 percent in the first three quarters of 1976 to 12.3 percent in the same period of 1977. The Arrow Co. increased its imports of men's dress shirts in 1977 to maintain a given price structure in an increasingly competitive domestic market.

A survey of customers of the Arrow Co. indicated that some customers decreased purchases of men's dress shirts from the subject firm while increasing purchases of imported shirts. Price was the main factor influencing the decision to purchase imported shirts.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with men's dress shirts produced at the Bremen, Ga. plant of the Arrow Co. contributed importantly to the decrease in production and to the total or partial separations of the workers of that plant. In accordance with the provisions of the act, I make the following certification:

All workers at the Bremen, Ga. plant of the Arrow Co. who became totally or partially separated from employment on or after July 24, 1977 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 31st day of January 1978.

HARRY GRUBERT,
Director, Office of Foreign Economic Research.

[TA-W-2372]

ARROW CO., BUCHANAN, GA.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2372: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on September 22, 1977 in response to a worker petition received on September 20, 1977 which was filed by the Amalgamated Clothing and Textile Workers' Union on behalf of workers and former workers producing men's dress shirts at the Buchanan, Ga. plant of the Arrow Co.

The notice of investigation was published in the FEDERAL REGISTER on October 4, 1977 (42 FR 54032). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Arrow Co., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necerssarily more important than any other cause.

The investigation has revealed that all four of the above criteria have been met.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

Average weekly employment of production workers at the Buchanan, Ga. plant increased in 1976 compared to 1975 and increased in the first quarter of 1977 before decreasing in the second and third quarters of 1977 compared to the same quarters of 1976. Average weekly hours worked decreased in the first, second and third quarters of 1977 compared to the same quarters of 1976.

SALES OR PRODUCTION, OR BOTH, HAVE DECLINED ABSOLUTELY

Production of men's dress shirts at the Buchanan, Ga. plant increased in 1976 compared to 1975 and increased in the first quarter of 1977 compared to the first quarter of 1976. Production decreased in the second and third quarters of 1977 compared to the same quarters of 1976.

INCREASED IMPORTS

Imports of men's and boys' woven dress and business shirts decreased from 70,666,000 units in 1972 to 42,066,000 units in 1973 to 35,620,000 units in 1974 and to 30,800,000 units in 1975. Imports were recorded at 64,283,000 units in 1976, representing an increase of 108.7 percent compared to 1975. During the first half of 1977, imports were recorded at 32,443,000 units and represented an increase of 20.6 percent compared to 26,906,000 units in the first half of 1976. The ratio of imports to domestic production declined from 49.7 percent in 1972 to 36.2 percent in 1975 and then increased to 67.1 percent during 1976.

CONTRIBUTED IMPORTANTLY

Company imports of men's dress shirts increased in quantity in 1975 compared to 1974 and decreased in 1976 compared to 1975. During the first three quarters of 1977, company imports of men's dress shirts increased 150.7 percent compared to the first three quarters of 1976. The ratio of company imports to company sales of dress shirts increased from 5.2 percent in the first three quarters of 1976 to 12.3 percent in the same period of 1977. The Arrow Co. increased its imports of men's dress shirts in 1977 to maintain a given price structure in an increasingly competitive domestic market.

A survey of customers of the Arrow Co. indicated tht some customers decreased purchases of men's dress shirts from the suject firm while increasing purchases of imported shirts. Price was the main factor influencing the decision to purchase imported shirts.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with men's dress shirts produced at the Buchanan, Ga. plant of the Arrow Co. contributed importantly to the decrease in production and to the total or partial separations of the workers of that plant. In accordance with the provisions of the act, I make the following certification:

All workers at the Buchanan, Ga. plant of the Arrow Co. who became totally or partially separated from employment on or after July 24, 1977 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 31st day of January 1978.

[TA-W-2405, 2489]

ARROW CO., HUNTINGDON, PA.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974, the Department of Labor herein presents the results of TA-W- 2405 and 2489: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on October 3, 1977, in response to a worker petition received on September 29, 1977, which was filed by the Amalgamated Clothing and Textile Workers' Union on behalf of workers and former workers producing men's sport and dress shirts at the Huntingdon, Pa., plant of the Arrow Co. A subsequent petition (TA-W-2489) was filed by the same union on behalf of the same group of workers.

The notice of investigation was published in the FEDERAL REGISTER on October 14, 1977 (42 FR 55315). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Arrow Co., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all four of the above criteria have been met.

Significant total or partial separations. Average weekly employment of production workers at the Huntingdon, Pa., plant increased in 1976 compared to 1975 and decreased in the first, second, and third quarters of 1977 compared to the same quarters of 1976. Average weekly hours worked decreased in the first, second, and third quarters of 1977 compared to the same quarters of 1976. The Huntingdon plant closed permanently on November 18, 1977. Workers were used interchangeably in the production of men's sport and dress shirts.

Sales or production, or both, have declined absolutely. Production of men's sport and dress shirts at the Huntingdon, Pa., plant decreased in 1976 compared to 1975 and decreased in the first three quarters of 1977 compared to the same period of 1976.

Increased imports. Imports of men's and boys' woven dress and business shirts decreased from 70,666,000 units in 1972 to 42,066,000 units in 1973 to 35,620,000 units in 1974 and to 30,800,000 units in 1975. Imports were recorded at 64,283,000 units in 1976, representing an increase of 108.7 percent compared to 1975. During the first half of 1977, imports were recorded at 32,443,000 units and represented an increase of 20.6 percent compared to 26,906,000 units in the first half of 1976. The ratio of imports to domestic

production declined from 49.7 percent in 1972 to 36.2 percent in 1975 and then increased to 67.1 percent during 1976.

Imports of men's and boys' woven sport shirts decreased from 56,285,000 units in 1972 to 41,600,000 units in 1973 and then increased to 49,375,000 units in 1974 and to 61,008,000 units in 1975. Imports were recorded at 79,820,000 units in 1976, representing an increase of 30.8 percent compared to 1975. During the first half of 1977, imports were recorded at 32,561,000 units and represented a decline of 16.3 percent compared to 38,891,000 units in the first half of 1976. The ratio of imports to domestic production decreased from 35.8 percent in 1972 to 27.5 percent in 1973 and then increased to 38.7 percent in 1975 and to 48.6 percent in 1976.

Contributed importantly. Company imports of men's dress shirts increased in quantity in 1975 compared to 1974 and decreased in 1976 compared to 1975. During the first three quarters of 1977, company imports of men's dress shirts increased 150.7 percent compared to the first three quarters of 1976. The ratio of company imports to company sales of dress shirts increased from 5.2 percent in the first three quarters of 1976 to 12.3 percent in the same period of 1977.

Company imports of men's sport shirts increased in quantity in 1975 compared to 1974 and decreased in 1976 compared to 1975. During the first three quarters of 1977, company imports of sport shirts increased 627.3 percent compared to the first three quarters of 1976. The ratio of company imports to company sales of sport shirts increased from 2.6 percent in the first three quarters of 1976 to 19.4 percent in the same period of 1977.

The Arrow Co. increased its imports of men's dress and sport shirts in 1977 to maintain a given price structure in an increasingly competitive domestic market.

A survey of customers of the Arrow Co. indicated that some customers decreased purchases of men's dress and sport shirts from the subject firm while increasing purchases of imported shirts. Price was the main factor influencing the decision to purchase imported shirts.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with men's sport and dress shirts produced at the Huntingdon, Pa., plant of the Arrow Co. contributed importantly to the decrease in production and to the total or partial separations of the workers of that plant. In accordance with the provisions of the Act, I make the following certification:

All workers at the Huntingdon, Pa., plant of the Arrow Co. who became totally or partially separated from employment on or after October 6, 1976, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 31st day of January 1978.

HARRY GRUBERT,
Director, Office of Foreign Economic Research.

[TA-W-2487]

ARROW CO., ELYSBURG, PA.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974, the Department of Labor herein presents the results of TA-W-2487: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on October 20, 1977, in response to a worker petition received on October 14, 1977, which was filed by the Amalgamated Clothing and Textile Workers' Union on behalf of workers and former workers engaged in employment related to the production of men's sport and dress shirts at the Elysburg, Pa., plant and distribution center of the Arrow Co.

The notice of investigation was published in the FEDERAL REGISTER on November 1, 1977 (42 FR 57175). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Arrow Co., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all four of the above criteria have been met.

Significant total or partial separations. Average weekly employment of production workers at the Elysburg, Pa., plant increased in 1976 compared to 1975 and decreased in the first, second, and third quarters of 1977 compared to the same quarters of 1976. Average weekly hours worked decreased in the first, second, and third quarters of 1977 compared to the same quarters of 1976. Workers are used interchangeably in the production of men's sport and dress shirts.

Average weekly employment of production workers at the Elysburg, Pa., distribution center decreased in 1976 compared to 1975 and decreased in the first, second, and third quarters of 1977 compared to the same quarters of 1976.

Sales or production, or both, have declined absolutely. Production of men's sport and dress shirts at the Elysburg, Pa., plant increased in 1976 compared to 1975 and then decreased in the first three quarters of 1977 compared to the same period of 1976.

Increased imports. Imports of men's and boys' woven dress and business shirts decreased from 70,666,000 units in 1972 to 42,066,000 units in 1973 to 35,620,000 units in 1974 and to 30,800,000 units in 1975. Imports were recorded at 64,283,000 units in 1976, representing an increase of 108.7 percent compared to 1975. During the first half of 1977, imports were recorded at 32,443,000 units and represented an increase of 20.6 percent compared to 26,906,000 units in the first half of 1976. The ratio of imports to domestic production declined from 49.7 percent in 1972 to 36.2 percent in 1975 and then increased to 67.1 percent during 1976.

Imports of men's and boys' woven sport shirts decreased from 56,285,000 units in 1972 to 41,600,000 units in 1973 and then increased to 49,375,000 units in 1974 and to 61,008,000 units in 1975. Imports were recorded at 79,820,000 units in 1976, representing an increase of 30.8 percent compared to 1975. During the first half of 1977, imports were recorded at 32,561,000 units and represented a decline of 16.3 percent compared to 38,891,000 units in the first half of 1976. The ratio of imports to domestic production decreased from 35.8 percent in 1972 to 27.5 percent in 1973 and then increased to 38.7 percent in 1975 and to 48.6 percent in 1976.

Contributed importantly. Company imports of men's dress shirts increased in quantity in 1975 compared to 1974 and decreased in 1976 compared to 1975. During the first three quarters of 1977, company imports of men's

dress shirts increased 150.7 percent compared to the first three quarters of 1976. The ratio of company imports to company sales of dress shirts increased from 5.2 percent in the first three quarters of 1976 to 12.3 percent in the same period of 1977.

Company imports of men's sport shirts increased in quantity in 1975 compared to 1974 and decreased in 1976 compared to 1975. During the first three quarters of 1977, company imports of sport shirts increased 627.3 percent compared to the first three quarters of 1976. The ratio of company imports to company sales of sport shirts increased from 2.6 percent in the first three quarters of 1976 to 19.4 percent in the same period of 1977.

The Arrow Co. increased its imports of men's dress and sport shirts in 1977 to maintain a given price structure in an increasingly competitive domestic market.

A survey of customers of the Arrow Co. indicated that some customers decreased purchases of men's dress and sport shirts from the subject firm while increasing purchases of imported shirts. Price was the main factor influencing the decision to purchase imported shirts.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with men's sport and dress shirts produced and distributed at the Elysburg, Pa., plant and distribution center of the Arrow Co. contributed importantly to the decrease in production and to the total or partial separations of the workers of those facilities. In accordance with the provisions of the Act, I make the following certification:

All workers at the Elysburg, Pa., plant and distribution center of the Arrow Co. who became totally or partially separated from employment on or after October 6, 1976, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 31st day of January 1978.

[TA-W-2488]

ARROW CO., LEWISTOWN, PA.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2488: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on October 20, 1977, in response to a worker petition received on October 14, 1977, which was filed by the Amalgamated Clothing and Textile Workers' Union on behalf of workers and former workers producing men's dress and sport shirts at the Lewistown, Pennsylvania plant of The Arrow Co.

The notice of investigation was published in the FEDERAL REGISTER on November 1, 1977 (42 FR 57175). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of The Arrow Co., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all four of the above criteria have been met.

Significant total or partial separations. Average weekly employment of production workers at the Lewistown, Pa., plant increased in 1976 compared to 1975 and decreased in the first, second, and third quarters of 1977 compared to the same quarters of 1976. Average weekly hours worked decreased in the first, second, and third quarters of 1977 compared to the same quarters of 1976. Workers are used interchangeably in the production of men's sport and dress shirts.

Sales or production, or both, have declined absolutely. Production of men's dress and sport shirts at the Lewistown, Pa., plant increased in 1976 compared to 1975. Production decreased in the first three quarters of 1977 compared to the same period of 1976.

Increased imports. Imports of men's and boys' woven dress and business shirts decreased from 70,666,000 units in 1972 to 42,066,000 units in 1973 to 35,620,000 units in 1974 and to 30,800,000 units in 1975. Imports were recorded at 64,283,000 units in 1976, representing an increase of 108.7 percent compared to 1975. During the first half of 1977, imports were recorded at 32,443,000 units and represented an increase of 20.6 percent compared to 26,906,000 units in the first half of 1976. The ratio of imports to domestic production declined from 49.7 percent in 1972 to 36.2 percent in 1975 and then increased to 67.1 percent during 1976.

Imports of men's and boys' woven sport shirts decreased from 56,285,000 units in 1972 to 41,600,000 units in 1973 and then increased to 49,375,000 units in 1974 and to 61,008,000 units in 1975. Imports were recorded at 79,820,000 units in 1976, representing an increase of 30.8 percent compared to 1975. During the first half of 1977, imports were recorded at 32,561,000 units and represented a decline of 16.3 percent compared to 38,891,000 units in the first half of 1976. The ratio of imports to domestic production decreased from 35.8 percent in 1972 to 27.5 percent in 1973 and then increased to 38.7 percent in 1975 and to 48.6 percent in 1976.

Contributed importantly. Company imports of men's dress shirts increased in quantity in 1975 compared to 1974 and decreased in 1976 compared to 1975. During the first three quarters of 1977, company imports of men's dress shirts increased 150.7 percent compared to the first three quarters of 1976. The ratio of company imports to company sales of dress shirts increased from 5.2 percent in the first three quarters of 1976 to 12.3 percent in the same period of 1977.

Company imports of men's sport shirts increased in quantity in 1975 compared to 1974 and decreased in 1976 compared to 1975. During the first three quarters of 1977, company imports of sport shirts increased 627.3 percent compared to the first three quarters of 1976. The ratio of company imports to company sales of sport shirts increased from 2.6 percent in the first three quarters of 1976 to 19.4 percent in the same period of 1977.

The Arrow Co., increased its imports of men's dress and sport shirts in 1977 to maintain a given price structure in an increasingly competitive domestic market.

A survey of customers of The Arrow Co., indicated that some customers decreased purchases of men's dress and sport shirts from the subject firm while increasing purchases of imported shirts. Price was the main factor influencing the decision to purchase imported shirts.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive

with men's sport and dress shirts produced at the Lewistown, Pa., plant of The Arrow Co., contributed importantly to the total or partial separations of the workers of that plant. In accordance with the provisions of the Act, I make the following certification:

All workers at the Lewistown, Pa., plant of The Arrow Co., who became totally or partially separated from employent on or after October 6, 1976 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 31st day of January 1978.

HARRY GRUBERT,
Director, Office of Foreign Economic Research.

[4510-28]

[TA-W-2553]

ARROW CO., ATLANTA, GA.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2553: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on November 3, 1977, in response to a worker petition received on October 20, 1977, which was filed by the Amalgamated Clothing and Textile Workers' Union on behalf of workers and former workers engaged in employment related to the production of men's dress shirts at the Atlanta, Ga., plant and distribution center of The Arrow Co.

The notice of investigation was published in the FEDERAL REGISTER on November 18, 1977 (42 FR 59583). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of The Arrow Co., its customers, the U.S. Department of Commerce, the U.S. Interrnational Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The invesigation has revealed that all four of the above criteria have been met.

Significant total or partial separations. Average weekly employment of production workers at the Atlanta, Ga., plant and distribution center decreased in 1976 compared to 1975 and decreased in the first, second, and third quarters of 1977 compared to the same quarters of 1976. Average weekly hours worked decreased in the first, second, and third quarters of 1977 compared to the same quarters of 1976.

Sales or production, or both, have decreased absolutely. Production of men's dress shirts at the Atlanta, Ga., plant increased in 1976 compared to 1975 and increased in the first and second quarters of 1977 compared to the same quarters of 1976. Production decreased in the third quarter of 1977 compared to the third quarter of 1976.

Increased imports. Imports of men's and boys' woven dress and business shirts decreased from 70,666,000 units in 1972 to 42,066,000 units in 1973 to 35,620,000 units in 1974 and to 30,800,000 units in 1975. Imports were recorded at 64,283,000 units in 1976, representing an increase of 108.7 percent compared to 1975. During the first half of 1977, imports were recorded at 32,443,000 units and represented an increase of 20.6 percent compared to 26,906,000 units in the first half of 1976. The ratio of imports to domestic production declined from 49.7 percent in 1972 to 36.2 percent in 1975 and then increased to 67.1 percent during 1976.

Contributed importantly. Company imports of men's dress shirts increased in quantity in 1975 compared to 1974 and decreased in 1976 compared to 1975. During the first three quartters of 1977, company imports of men's dress shirts increased 150.7 percent compared to the first three quarters of 1976. The ratio of company imports to company sales of dress shirts increased from 5.2 percent in the first three quarters of 1976 to 12.3 percent in the same period of 1977. The Arrow Co., increased its imports of men's dress and sport shirts in 1977 to maintain a given price structure in an increasingly competitive domestic market.

A survey of customers of The Arrow Co., indicated that some customers decreased purchases of men's dress shirts from the subject firm while increasing purchases of imported shirts. Price was the main factor influencing the decision to purchase imported shirts.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with men's dress shirts produced and distributed at the Atlanta, Ga., plant and distribution center of the Arrow Co., contributed importantly to the decrease in production and to the total or partial separations of the workers of those facilities. In accordance with the provisions of the Act, I make the following certification:

All workers at the Atlanta, Ga., plant and distribution center of The Arrow Co., who became totally or partially separated from employment on or after October 12, 1976, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 31st day of January 1978.

HARRY GRUBERT,
Director, Office of Foreign Economic Research.

[TA-W-2554]

ARROW CO., CARBON HILL, ALA.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2554: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on November 3, 1977, in response to a worker petition received on October 26, 1977, which was filed by the Amalgamated Clothing and Textile Workers' Union on behalf of workers and former workers producing men's dress shirts at the Carbon Hill, Ala., plant of the Arrow Co.

The notice of investigation was published in the FEDERAL REGISTER on November 18, 1977 (42 FR 59583). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Arrow Co., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligiblity to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all four of the above criteria have been met.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

Average weekly employment of production workers at the Carbon Hill, Ala., plant increased in 1976 compared to 1975 and decreased in the first, second, and third quarters of 1977 compared to the same quarters of 1976. The Carbon Hill plant closed permanently on November 18, 1977.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Production of men's dress shirts at the Carbon Hill, Ala., plant increased in 1976 compared to 1975 and decreased in the first, second, and third quarters of 1977 compared to the same quarters of 1976.

INCREASED IMPORTS

Imports of men's and boys' woven dress and business shirts decreased from 70,666,000 units in 1972 to 42,066,000 units in 1973 to 35,620,000 units in 1974 and to 30,800,000 units in 1975. Imports were recorded at 64,283,000 units in 1976, representing an increase of 108.7 percent compared to 1975. During the first half of 1977, imports were recorded at 32,443,000 units and represented an increase of 20.6 percent compared to 26,906,000 units in the first half of 1976. The ratio of imports to domestic production declined from 49.7 percent in 1972 to 36.2 percent in 1975 and then increased to 67.1 percent during 1976.

CONTRIBUTED IMPORTANTLY

Company imports of men's dress shirts increased in quantity in 1975 compared to 1974 and decreased in 1976 compared to 1975. During the first three quarters of 1977, company imports of men's dress shirts increased 150.7 percent compared to the first three quarters of 1976. The ratio of company imports to company sales of dress shirts increased from 5.2 percent in the first three quarters of 1976 to 12.3 percent in the same period of 1977. The Arrow Co. increased its imports of men's dress shirts in 1977 to maintain a given price structure in an increasingly competitive domestic market.

A survey of customers of the Arrow Co. indicated that some customers decreased purchases of men's dress shirts from the subject firm while increasing purchases of imported shirts. Price was the main factor influencing the decision to purchase imported shirts.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with men's dress shirts produced at the Carbon Hill, Ala., plant of the Arrow Co. contributed importantly to the decrease in production and to the total or partial separations of the workers of that plant. In accordance with the provisions of the act, I make the following certification:

All workers at the Carbon Hill, Ala., plant of the Arrow Co. who become totally or partially separated from employment on or after October 21, 1976, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 31st day of January 1978.

HARRY GRUBERT,
Director, Office of Foreign Economic Research.

[TA-W-2661]

ARROW CO., JASPER, ALA.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2661: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on November 29, 1977, in response to a worker petition received on November 17, 1977, which was filed by the Amalgamated Clothing and Textile Workers' Union on behalf of workers and former workers producing men's dress shirts at the Jasper, Ala., plant of the Arrow Co.

The notice of investigation was published in the FEDERAL REGISTER on December 16, 1977 (42 FR 63485). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Arrow Co., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation revealed that all four of the above criteria have been met.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

Average weekly employment of production workers at the Jasper, Ala., plant increased in 1976 compared to 1975 and decreased in the first, second, and third quarters of 1977 compared to the same quarters of 1976. Average weekly hours worked decreased in the first, second, and third quarters of 1977 compared to the same quarters of 1976.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Production of men's dress shirts at the Jasper, Ala., plant increased in 1976 compared to 1975 and then decreased in the first nine months of 1977 compared to the same period in 1976.

INCREASED IMPORTS

Imports of men's and boys' woven dress and business shirts decreased from 70,666,000 units in 1972 to 42,066,000 units in 1973 to 35,620,000 units in 1974 and to 30,800,000 units in 1975. Imports were recorded at 64,283,000 units in 1976, representing an increase of 108.7 percent compared to 1975. During the first half of 1977, imports were recorded at 32,443,000 units and represented an increase of 20.6 percent compared to 26,906,000 units in the first half of 1976. The ratio of imports to domestic production declined from 49.7 percent in 1972 to 36.2 percent in 1975 and then increased to 67.1 percent during 1976.

CONTRIBUTED IMPORTANTLY

Company imports of men's dress shirts increased in quantity in 1975 compared to 1974 and decreased in 1976 compared to 1975. During the first three quarters of 1977, company imports of men's dress shirts increased 150.7 percent compared to the first three quarters of 1976. The ratio of company imports to company sales of dress shirts increased from 5.2 percent in the first three quarters of 1976 to 12.3 percent in the same period of 1977. The Arrow Co. increased its imports of men's dress and sport shirts in 1977 to maintain a given price structure in an increasingly competitive domestic market.

A survey of customers of the Arrow Co. indicated that some customers decreased purchases of men's dress shirts from the subject firm while increasing purchases of imported shirts. Price was the main factor influencing the decision to purchase imported shirts.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with men's dress shirts produced at the Jasper, Ala., plant of the Arrow Co. contributed importantly to the decrease in production and to the total or partial separations of the workers of that plant. In accordance with the provisions of the act, I make the following certification:

All workers at the Jasper, Ala., plant of the Arrow Co. who became totally or partially separated from employment on or after November 14, 1976, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 31st day of January 1978.

HARRY GRUBERT,
Director, Office of Foreign Economic Research.

[TA-W-2321]

BIRMINGHAM SOUTHERN RAILROAD CO., BIRMINGHAM, ALA.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2321: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on September 12, 1977, in response to a worker petition received on September 2, 1977, which was filed on behalf of workers and former workers of the Birmingham Southern Railroad Co., Birmingham, Ala.

The notice of investigation was published in the FEDERAL REGISTER on October 4, 1977 (42 FR 54031). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Birmingham Southern Railroad Co., U.S. Steel Corp., the U.S. Department of Commerce, the US. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met. It is concluded that all of the requirements have been met.

INCREASED IMPORTS

Imports of articles like or directly competitive with steel products produced at the Fairfield Works have increased as evidenced by the certification of workers engaged in employment related to the production of these products in previous investigations (see TA-W-1429, 1451, 1452, 2364, 2365, 2366).

CONTRIBUTED IMPORTANTLY

The Birmingham Southern Railroad Co. is a autonomously operated, wholly owned subsidiary of U.S. Steel Corp. The Birmingham Southern Railroad is heavily dependent on rail traffic generated by the fairfield Works of U.S. Steel Corp. as a source of revenue. Declines in the level of steel production at the fairfield Works have resulted in declines in rail traffic for the Birmingham Southern and this has resulted in separations of workers at the Birmingham Southern. The majority of workers engaged in steelmaking operations at the Fairfield Works have been previously certified as eligible to apply for trade adjustment assistance (see TA-W-1429, 1451, 1452, 2364, 2365, 2366). The conditions which led to production declines at the Fairfield Works have also resulted in declines in rail traffic for the Birmingham Southern

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with steel products produced by the Fairfield Works of U.S. Steel Corp. contributed importantly to the total or partial separations of the workers of the Birmingham Southern Railroad Co., a wholly owned subsidiary of U.S. Steel Corp. In accordance with the provisions of the act, I make the following certification:

All workers at the Birmingham Southern Railroad Co., Birmingham, Ala., who became totally or partially separated from employment on or after August 29, 1976, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 31st day of January 1978.

HARRY GRUBERT,
Director, Office of Foreign Economic Research.

[4510-28]

[TA-W-2094]

BOBBIE KNITWEAR, INC. COAMO, P.R.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974, the Department of Labor herein presents the results of TA-W-2094: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on May 24, 1977, in response to a worker petition received on May 23, 1977, which was filed by the International Ladies Garment Workers Union on behalf of workers and former workers producing men's knit sport shirts at Bobbie Knitwear, Inc., Coamo, P.R., owned and operated by Colebrook Mills, Inc., Hialeah, Fla., a wholly owned subsidiary of Bobbie Brooks, Cleveland, Ohio.

The notice of investigation was published in the FEDERAL REGISTER on June 3, 1977 (42 FR 28633). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from Colebrook Mills, Inc., and its customers; M & D Simon Co. and its customers; the National Cotton Council of America, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers; firm or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Evidence developed in the Department's investigation reveals that all four of the above criteria have been met.

Significant Total or Partial Separations. Combined employment of production workers at Bobbie Knitwear and Coamo Knitting Mills increased 18.2 percent in 1976 compared to 1975 and increased 27.3 percent in the first quarter of 1977 compared to the first quarter of 1976.

All workers were laid off on May 27, 1977, when both plants closed.

Sales or Production, or Both, Have Decreased Absolutely. Production of men's knit sport shirts at Bobbie Knitwear Inc., increased 59.2 percent in terms of quantity and increased 51.3 percent in terms of value in 1976 compared to 1975. Production increased 32.2 percent in terms of quantity and increased 43.6 percent in terms of value from the first quarter of 1976 to the first quarter of 1977.

Production increased in 1976 compared to 1975 in order to complete contracts prior to the plant's closing on May 27, 1977.

Bobbie Knitwear Mills does not import any raw materials, yarns or finished garments.

Inventories of men's knit sport shirts decreased 58.5 percent in terms of quantity and decreased 56 percent in terms of value in 1976 compared to 1975.

Increased Imports. U.S. imports in millions of units of men's and boys' knit sport and dress shirts, excluding T-shirts increased from 67.2 in 1972 to 78.8 in 1973. Imports declined to 54.9 in 1974 but increased in 1975 and again in 1976 to 66.2 and 74.0 respectively. Imports for the first quarter of 1977 were 19.9 a decrease from the 20.2 million units imported in the first quarter of 1976. The ratio of imports compared to domestic production increased from 24.0 percent in 1972 to 25.6 percent in 1973. There was a decline in 1974 to 17.8 percent. In 1975, the import-production ratio increased to 22.9 percent and declined slightly in 1976 to 22.6 percent.

Contributed Importantly. A survey of customers who purchased men's knit sport shirts from Colebrook Men's Division and M & D Simon revealed that a substantial portion of men's knit sport shirts purchased from other domestic sources were manufactured offshore. They reported increasing imports in knit sport shirts that are becoming more competitive with domestically manufactured men's sport clothes.

Between 1972 and 1976 the import penetration ratio was in a range from 17.8 percent to 25.6 percent.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with men's knit sport shirts produced by Coamo Knitting Mills, Coamo, P.R., contributed importantly to the separations of workers of that firm. In accordance with the provisions of the Act, I make the following certification:

All workers of Coamo Knitting Mills, Coamo, P.R., owned and operated by Colebrook Mills, Inc., Healeah, Fla. a wholly owned subsidiary of Bobbie Brooks, Inc. Cleveland, Ohio, who became totally or partially separated from employment on or after May 27, 1977, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 31st day of January 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration, and Planning.

[4510-28]

[TA-W-2095]

COAMO KNITTING MILLS, COAMO, P.R.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2095: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on May 24, 1977, in response to a worker petition received on May 23, 1977, which was filed by the International Ladies Garment Workers Union on behalf of workers and former workers producing men's knit sport shirts at Coamo Knitting Mills, Coamo, P.R., owned and operated by Colebrook Mills, Inc., Hialeah, Fla., a wholly owned subsidiary of Bobbie Brooks, Cleveland, Ohio.

The notice of investigation was published in the FEDERAL REGISTER on June 3, 1977 (42 FR 28633). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from Colebrook Mills, Inc., and its customers; M & D Simon Co. and its customers; the U.S. Department of Commerce; the National Cotton Council of America; the U.S. International Trade Commission; industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Evidence developed in the Department's investigation reveals that all four of the above criteria have been met.

Significant Total or Partial Separation. Combined employment of production workers at Bobbie Knitwear and Coamo Knitting Mills increased 18.2 percent in 1976 compared to 1975 and increased 27.3 percent in the first quarter of 1977 compared to the first quarter of 1976.

All workers were laid off on May 27, 1977, when both plants closed.

Sales or Production, or both, Have Decreased Absolutely. Production of men's knit sport shirts at the Coamo Knitting Mills increased 58.4 percent in terms of quantity and increased 57.6 percent in terms of value from 1975 to 1976. Production increased 67.4 percent in terms of quantity and increased 72.0 percent in terms of value from the first quarter of 1976 to the first quarter of 1977.

Production increased in 1976 compared to 1975 and in the first quarter of 1977 compared to the first quarter of 1976 in order to complete contracts prior to the plant's closing in May 27, 1977.

Coamo Knitting Mills does not import any raw materials, yarns or finished garments.

Inventories of men's knit sport shirts decreased 58.5 percent in terms of quantity and decreased 56 percent in terms of value in 1976 compared to 1975.

Increased Imports. U.S. imports in millions of units of men's and boys' knit sport and dress shirts, excluding T-shirts increased from 67.2 in 1972 to 78.8 in 1973. Imports declined to 54.9 in 1974 but increased in 1975 and again in 1976 to 66.2 and 74.0 respectively. Imports for the first quarter of 1977 were 19.9 a decrease from the

20.2 million units imported in the first quarter of 1976. The ratio of imports compared to domestic production increased from 24.0 percent in 1972 to 25.6 percent in 1973. There was a decline in 1974 to 17.8 percent. In 1975, the import-production ratio increased to 22.9 percent and declined slightly in 1976 to 22.6 percent.

Contributely Importantly. A survey of customers who purchased men's knit sport shirts from Colebrook Men's Division and M & D Simon revealed that a substantial portion of men's knit sport shirts purchased from other domestic sources were manufactured offshore. They reported increasing imports in knit sport shirts that are becoming more competitive with domestically manufactured men's sport clothes.

Between 1972 and 1976 the import penetration ratio was in a range from 17.8 percent to 25.6 percent.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with men's knit sport shirts produced by Coamo Knitting Mills, Coamo, P.R., contributed importantly to the separations of workers of that firm. In accordance with the provisions of the Act, I make the following certification:

All workers of Coamo Knitting Mills, Coamo, P.R., owned and operated by Colebrook Mills, Inc., Hialeah, Fla., a wholly owned subsidiary of Bobbie Brooks, Inc., Cleveland, Ohio, who became totally or partially separated from employment on or after May 27, 1977, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 31st day of January 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration, and Planning.

[4510-28]

[TA-W-2291]

CONCA D'ORO, INC., PATERSON, N.J.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2291: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on August 29, 1977 in response to a worker petition received on August 22, 1977 which was filed on behalf of workers and former workers producing women's coats, raincoats, and suits at Conca D'oro, Inc., Paterson, N.J. During the course of the investigation it was revealed that Conca D'oro, Inc. does not produce women's suits.

The notice of investigation was published in the FEDERAL REGISTER on September 20, 1977 (42 FR 47270). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Conca D'oro, Inc., its customers, the National Cotton Council of America, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation revealed that all of the above criteria have been met.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

Average employment of production workers increased 38 percent from 1975 to 1976, however, employment declined 23 percent in the third quarter of 1976 when compared to the third quarter of 1975 and declined 6 percent in the fourth quarter of 1976 when compared to the same period in 1975. Employment then declined 21 percent in the first eight months of 1977 when compared to the same period in 1976.

The plant was shutdown for the months of January 1975, February 1975, March 1975, April 1975, April 1976, January 1977, March 1977 and April 1977 for lack of contract work.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Sales of Conca D'oro, adjusted for price changes, declined 28 percent from 1974 to 1975 and increased 30 percent from 1975 to 1976, however, sales declined 20 percent in the third quarter of 1976 when compared to the third quarter of 1975 and declined 13 percent in the fourth quarter of 1976 when compared to the same period in 1975. Sales then declined 22 percent in the first eight months of 1977 when compared to the same period in 1976.

Conca D'oro is a contractor, therefore, sales and production are equal.

INCREASED IMPORTS

Imports of women's, misses' and children's coats and jackets increased in absolute terms from 1972 to 1973, declined from 1973 to 1974, and increased from 1974 to 1975. Imports increased 48 percent from 1975 to 1976 and increased 24 percent in the first nine months of 1977 compared to the same period in 1976. The ratios of imports to domestic production and consumption increased from 38.9 percent and 28.0 percent, respectively, in 1975 to 57.5 percent and 36.5 percent, respectively, in 1976.

Imports of women's, misses' and children's raincoats declined in absolute terms, from 1972 to 1973, declined from 1973 to 1974, and increased from 1974 to 1975. Imports increased 37 percent from 1975 to 1976 and declined 1 percent in the first nine months of 1977 compared to the same period in 1976. The ratios of imports to domestic production and consumption increased from 36.8 percent and 26.9 percent, respectively, in 1975 to 50.4 percent and 33.5 percent, respectively, in 1976.

CONTRIBUTED IMPORTANTLY

The ratios of imports to domestic production and consumption for women's, misses', and children's coats and jackets increased from 38.9 percent and 28 percent, respectively, in 1975 to 57.5 percent and 36.5 percent, respectively, in 1976. From 1975 to 1976, the ratios of imports to domestic production and consumption for women's, misses', and children's raincoats increased from 36.8 percent and 26.9 percent, respectively, to 50.4 percent and 33.5 percent, respectively.

The Department's investigation revealed that Conca D'oro Inc. produces ladies' winter coats and ladies' raincoats on a contract basis for other manufacturers. A survey revealed that contract work with Conca D'oro was decreased while purchases of imported ladies' coats were increased.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with ladies' winter coats and ladies' raincoats produced at Conca D'oro, Inc., Paterson, N.J. contributed importantly to the decline in sales and production and to the total or partial separation of the workers of that plant. In accordance with the provisions of the act, I make the following certification:

All workers at Conca D'oro, Inc., Paterson, N.J. who became totally or partially sepa-

rated from employment on or after August 17, 1976 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 30th day of January 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration, and Planning.

[TA-W-2557]

CONVY SHOE SUPPLIES CO., CUBA, MO.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2557: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on November 3, 1977, in response to a worker petition received on October 27, 1977, which was filed by the Retail Clerks International Association (AFL-CIO) on behalf of workers and former workers producing shoe supplies, i.e., heels, pads, boxtoes, strips, at Convy Shoe Supplies Co., Cuba, Mo.

The notice of investigation was published in the FEDERAL REGISTER on November 18, 1977 (42 FR 59583). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Convy Shoe Supplies Co., publications of the U.S. Department of Commerce and the U.S. International Trade Commission, the American Footwear Industries Association, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Without regard to whether any of the other criteria have been met, criterion (4) has not been met.

Convy Shoe Supplies Co. was founded in 1927 and incorporated in Missouri. The company operates two manufacturing facilities in Cuba, Mo. and maintains offices and a warehouse in Brentwood, Mo. The petitioning workers are employed at the facilities in Cuba, Mo.

Workers at Convy Shoe Supplies Co. are engaged in fabricating component parts for shoe manufacturers.

Imports of shoes which incorporate shoe component parts are not "like or directly competitive" with shoe components within the meaning of section 222(3) of the Trade Act of 1974.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that articles like or directly competitive with those produced by workers at Convy Shoe Supplies Co., Cuba, Mo. have not contributed importantly to separations, or the threat thereof, nor to the decrease in sales or production at that plant as required in section 222 of the Trade Act of 1974. The petition is therefore denied.

Signed at Washington, D.C. this 27th day of January 1978.

HARRY GRUBERT,
Director, Office of Foreign Economic Research.

[TA-W-1946]

CORONET PRINT, INC., FALL RIVER, MASS.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-1946: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on April 4, 1977, in response to a worker petition received on March 31, 1977, on behalf of workers and former workers producing flock printing on material at Coronet Print, Inc., Fall River, Mass.

The notice of investigation was published in the FEDERAL REGISTER on April 15, 1977 (42 FR 19938). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Cornet Print, Inc., the U.S. Department of Commerce, the U.S. International Trade Commission, the National Cotton Council of America, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The Department's investigation has revealed that without regard to any of the other criteria, criterion four (4) was not met.

Coronet Print Inc. produces flock printing on material according to contracts with manufacturers and converters. The material is owned by the manufacturers who send the material to Coronet to undergo the flocking process. The finished fabric is then sent back to the manufacturers and converters. Flocking is the application of short fiber to a material backing by the use of adhesives or an electrostatic machine.

Coronet Print, Inc. prints fabric for both manufacturers and fabric converters, a customer survey accounting for a substantial proportion of Coronet's sales in 1976 was conducted by the department. The survey indicated that those customers who purchaed imported fabric increased purchases from Coronet in the first half of 1977 compared to the same period of 1976 and decreased purchases of imported fabric during that time period.

Inasmuch as all types of finished fabric, flocked, dyed, and printed, are generally interchangeable and substitutable in their end uses, all types of finished fabric may be considered like or directly competitive with the fabric printed at Coronet Print, Inc.

Aggregate imports of finished fabric (including dyed, printed, and flocked), in absolute terms, declined from 1972 to 1973, declined from 1973 to 1974, and increased from 1974 to 1975. Imports increaed 20 percent from 1975 to 1976.

Imports of finished fabric declined in each quarter of 1976 when compared to the previous quarter. Imports declined 38 percent in the first six months of 1977 compared to the like period of 1976.

Since 1973 the ratio of imports to domestic production has not exceeded 2.0 percent.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with flocked fabric printed at Coronet Print, Inc., Fall River, Mass., did not contribute importantly to the decline in sales or production and to the total or partial separation of workers of that plant.

Signed at Washington, D.C. this 27th day of January 1978.

HARRY GRUBERT,
Director, Office of Foreign Economic Research.

[4510-28]

[TA-W-1897]

COUNTRY MAID APPAREL, PLAINS, PA.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-1897: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on March 24, 1977, in response to a worker petition received on March 24, 1977, which was filed by the International Ladies Garment Workers Union on behalf of workers and former workers producing dresses at the Plains, Pa., a plant of Country Maid Apparel. During the investigation it was determined that girls' sportswear was produced.

The notice of investigation was published in the FEDERAL REGISTER on April 12, 1977 (42 FR 19175). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Country Maid Apparel, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, the National Cotton Council of America, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met. Without regard to whether any of the other criteria have been met the following criterion has not been met:

That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The Department's investigation revealed that Country Maid Apparel is a contractor for girls' sportswear.

A manufacturer representing a substantial proportion of the contract work performed by Country Maid in 1975 went out of business at the end of that year. In 1976 Country Maid performed contract work for several other apparel manufacturers. A survey conducted by the Department indicated that each of these manufacturers increased the amount of work given to Country Maid in 1976 compared to 1975. The survey further indicated that they had increased sales in the first half of 1977 compared to the same period of 1976. The manufacturers indicated that either purchases of imported girls' sportswear had decreased or that they did not purchase imported girls' sportswear, and that they did not utilize foreign contractors.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with those produced by Country Maid Apparel, Plains, Pa., did not contribute importantly to the decline in sales or production and to the total or partial separations of workers at that firm as required in section 222 of the Trade Act of 1974. Therefore, the petition is denied.

Signed at Washington, D.C. this 30th day of January 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration, and Planning.

[4510-28]

[TA-W-2436]

DANIEL GREEN CO., DOLGEVILLE, N.Y.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2436: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on October 11, 1977, in response to a worker petition received on October 5, 1977, which was filed by three workers on behalf of workers and former workers producing men's and women's casual (street) shoes at the Daniel Green Co., Dolgeville, N.Y.

The notice of investigation was published in the FEDERAL REGISTER on October 25, 1977 (42 FR 56375). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Daniel Green Co., its customers the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Act must be met. Without regard to whether any of the other criterria have been met the following criterion has not met:

That sales or production, or both, of such firm or subdivision have decreased absolutely;

Sales and production of footwear manufactured by the Daniel Green Co., Dolgeville, N.Y., increased in terms of quantity and value in 1976 compared to 1975, and increased in terms of quantity and value during the first three quarters of 1977 compared to the same period in 1976.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that sales and production of men's and women's slippers and women's casual shoes produced at the Daniel Green Co., Dolgeville, N.Y., did not decrease absolutely as required for a certification under section 222 of the Trade Act of 1974.

Signed at Washington, D.C. this 31st day of January 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration, and Planning.

[4510-28]

[TA-W-2528]

ELM SHANK & HEEL COMPANY, INC., LYNN, MASS.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2528: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on October 31, 1977, in response to a worker petition received on October 25, 1977, which was filed on behalf of workers and former workers producing steel and fibre shoe shanks at Elm Shank & Heel Co., Inc., Lynn, Mass.

The notice of investigation was published in the FEDERAL REGISTER on November 15, 1977 (42 FR 59131). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Elm

Shank & Heel Co., Inc., publications of the U.S. Department of Commerce and the U.S. International Trade Commission, the American Footwear Industries Association, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Without regard to whether any of the other criteria have been met, criterion (4) has not been met.

Elm Shank & Heel Co., Inc. was founded in 1930 and incorporated in the State of Massachusetts in 1940. The company operates one plant located in Lynn, Mass.; these premises are shared with the Moore Shank Co., which is owned and operated by the same partners.

Workers at the firm produce steel and fibre shoe shanks. Steel shanks are purchased from the Moore Shank Co., and are either sold as plain steel shanks or attached to a fibre shank, then they are packaged and shipped to shoe manufacturers.

Evidence developed in the Department's investigation reveals that there are no separately identifiable imports of shoe shanks. The product is not listed as a separate item of any U.S. Tariff Schedule grouping. In addition, industry spokesmen indicated that imports of footwear components have been negligible in the 1970's.

Imports of shoes which incorporate shoe shanks of the same origin are not like or directly competitive with shoe shanks produced by workers at Elm Shank & Heel Co., Inc., within the meaning of section 222 (3) of the Trade Act of 1974.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that articles like or directly competitive with those produced by workers at Elm Shank & Heel Co., Inc., Lynn, Mass., are not being imported in increased quantities, either actual or relative to domestic production as required in section 222 of the Trade Act of 1974. The petition is therefore denied.

Signed at Washington, D.C., this 31st day of January 1978.

HARRY GRUBERT,
Director, Office of Foreign Economic Research.

[FR Doc. 78-3320 Filed 2-6-78; 8:45 am]

[4510-28]

[TA-W-2351]

GREAT WESTERN RAILWAY CO., LOVELAND, COLO.

Certification Regarding Eligibility To Apply for Worker Adjusment Assistance

In accordance with section 223 of the Trade Act of 1974, the Department of Labor herein presents the results of TA-W-2351: Investigation regarding certification of eligibility to apply for worker adjusment assistance as prescribed in section 222 of the Act.

The investigation was initiated on September 15, 1977, in response to a worker petition received on September 7, 1977, which was filed on behalf of workers and former workers of the Great Western Railway Co., Loveland, Colo., a subsidiary of the Great Western Sugar Co.

The notice of investigation was published in the FEDERAL REGISTER on October 4, 1977 (42 FR 54031). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Great Western Railway Co., the Great Western Sugar Co., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all four of the above criteria have been met:

Significant total or partial separations. The average number of nonoperating personnel (those workers who do not work directly on the trains) declined 10 percent from 1974 to 1975 and declined 12 percent from 1975 to 1976. Employment then declined 33 percent in the period January-August 1977 compared to the same period in 1976. The average number of operating personnel (those employees who work directly on trains) remained the same from 1974 to 1975 and from 1975 to 1976. Employment then declined 25 percent in the period January-August 1977 compared to the same period in 1976.

Sales or production, or both, have decreased absolutely. Records are kept by the Great Western Railway according to carloads shipped. Products shipped by the railroads for the Great Western Sugar Co. represented approximately 90 percent of carloads shipped in 1975 and 1976. The number of freight cars of products used by the Great Western Sugar Co. increased from 1975 to 1976 and railway officials indicated that the number of carloads decreased from 1976 to 1977.

Increased imports. Imports of articles like or directly competitive with products produced by the Great Western Sugar Co. have increased as evidenced by the certification of workers engaged in employment related to the production of these products in previous investigations (see TA-W-1636, 1637, 2283).

Contributed importantly. The Great Western Railway Co. is heavily dependent on rail traffic generated by the Loveland, Longmont, and Johnstown, Colorado plants. The Longmont sugar producing facility and the Johnstown molasses plant ceased operations in February and October 1977, respectively, although liquid sugar is still being produced at the Johnstown plant. The Johnstown monosodium glutamate plant closed in October 1977.

The closing of these plants has resulted in declines in rail traffic for the Great Western Railway Co. an this has resulted in separations of workers at the Great Western Railway. The Johnstown, Colo., molasses plant, the Longmont, Colo., plant and the Johnstown, Colo., monosodium glutamate plant have been previously certified as eligible to apply for trade adjustment assistance (see TA-W- 1636, 1637, 2283). The conditions which led to the closing of the Johnstown and Longmont plants have also resulted in declines in rail traffic for the Great Western Railway Co.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increases of imports of

articles like or directly competitive with sugar products and monosodium glutamate produced by the Longmont and Johnstown, Colo., plants of the Great Western Sugar Co. contributed importantly to the total or partial separations of the workers of the Great Western Railway Co., Loveland, Colo., a wholly owned subsidiary of the Great Western Sugar Co. In accordance with the provisions of the Trade Act of 1974, I make the following certification:

All workers at the Great Western Railway Co., Loveland, Colo., who became totally or partially separated from employment on or after February 1, 1977, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 31st day of January 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration, and Planning.

[FR Doc. 78-3321 Filed 2-6-78; 8:45 am]

[4510-28]

[TA-W-2283]

GREAT WESTERN SUGAR CO., MONOSODIUM GLUTAMATE PLANT, JOHNSTOWN, COLO.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974, the Department of Labor herein presents the results of TA-W-2283: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on August 25, 1977, in response to a worker petition received on August 17, 1977, which was filed by the International Brotherhood of Teamsters, Chauffers, Warehousemen, and Helpers on behalf of workers and former workers producing monosodium glutamate at the Johnstown, Colo., monosodium glutamate plant of the Great Western Sugar Co.

The notice of investigation was published in the FEDERAL REGISTER on September 8, 1977 (42 FR 44615). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Great Western Sugar Co., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met. It is concluded that all the requirements have been met.

Increased imports. Imports of monosodium glutamate increased from 7,781.5 thousand pounds in 1975 to 13,247.3 thousand pounds in 1976 and increased from 6,156.0 thousand pounds in the first half of 1976 to 7,857.0 thousand pounds in the first half of 1977.

Contributed importantly. Great Western distributes MSG exclusively through commissioned sales brokers. Retail customers surveyed who purchased MSG from the brokers reduced purchases of MSG from the brokers in 1977 and increased purchases from foreign sources.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increased imports of articles like or directly competitive with monosodium glutamate produced by the Johnstown, Colo., monosodium glutamate plant of the Great Western Sugar Co. contributed importantly to sales and production declines and to the total or partial separations of workers at the plant. In accordance with the provisions of the Trade Act of 1974, I make the following certification:

All workers at the Johnstown, Colo., monosodium glutamate plant of the Great Western Sugar Co. who became totally or partially separated from employment on or after August 10, 1976, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 31st day of January 1978.

HARRY GRUBERT,
Director, Office of Foreign Economic Research.

[4510-28]

[TA-W-2727]

HANNA FURANCE CORP., BUFFALO, N.Y.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974, the Department of Labor herein presents the results of TA-W-2727: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was intiated on December 6, 1977, in response to a worker petition received on November 23, 1977, which was filed by the United Steelworkers of America on behalf of workers and former workers producing carbon steel products at the Buffalo, N.Y., plant of the Hanna Furance Corp. The investigation revealed that merchant pig iron is the only product produced at the plant.

The notice of investigation was published in the FEDERAL REGISTER on December 30, 1977, (42 FR 65307). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Hanna Furnace Corp., U.S. Department of Commerce, the U.S. International Trade Commission, industry analysist, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met.

that articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production.

The Department's investigation revealed that the Hanna Furnace Corp. produces merchant pig iron exclusively. Merchant pig iron is primarily used in the foundry industry in the production of castings.

Imports of merchant pig iron declined each year from 637,000 tons in 1972 to 342,000 tons in 1974, increased to 478,000 tons in 1975, declined to 415,000 tons in 1976 and continued to decline 29.1 percent from 306,000 tons in the first three quarters of 1976 to 217,000 tons in the first three quarters of 1977.

The ratio of imports of merchant pig iron to domestic production declined each year from 21.9 percent in 1972 to 11.9 percent in 1974, increased to 25.0 percent in 1975, declined to 19.2 percent in 1976 and continued to decline from 18.2 percent in the first three quarters of 1976 to 13 percent in the first three quarters of 1977.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that imports of articles like or directly competitive with the merchant pig iron produced at the Buffalo, N.Y., plant of the Hanna Furnace Corp. have not increased as required for certification under section 222 of the Trade Act of 1974.

Signed at Washington, D.C., this 31st day of January 1978.

HARRY GRUBERT,
Director, Office of Foreign Economic Research.

[FR Doc. 78-3323 Filed 2-6-78; 8:45 am]

[4510-28]

[TA-W-2210]

HAUSSER SCIENTIFIC, BLUE BELL, PA.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2210: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on July 18, 1977 in response to a worker petition received on July 18, 1977 which was filed by three workers employed by Hausser Scientific on behalf of workers and former workers producing microslides at Hausser Scientific, Blue Bell, Pa. During the course of the investigation it was determined that coverglass and bloodtesting equipment are also manufactured by Hausser Scientific.

The notice of investigation was published in the FEDERAL REGISTER on August 2, 1977 (42 FR 39156). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Hausser Scientific, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Without regard to whether any of the other criteria have been met, criterion (4) has not been met.

Customers responding to survey indicated that they have imported no microslides, coverglass or bloodtesting equipment during the 1975-1977 period. A major factor in Hausser's declining sales is the development of new medical technology for performing certain blood tests which has eliminated the need for conventional microslide equipment.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with microslides, cover glass and bloodtesting equipment produced at Hausser Scientific, Blue Bell, Pa. did not contribute importantly to the decline in sales or production and to the total or partial separations of workers at that firm as required in section 222 of the Trade Ace of 1974. Therefore, the petition is denied.

Signed at Washington, D.C., this 27th day of January 1978.

HARRY GRUBERT,
Director, Office of Foreign Economic Research.

[TA-W-2406]

INDUSTRIAL SERVICE CENTERS, INC., CAMBRIDGE, MASS.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2406: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on October 3, 1977 in response to a worker petition received on September 28, 1977 which was filed by three workers on behalf of workers and former workers engaged in the distribution of stainless steel and aluminum sheet, plate and structural products at the Cambridge, Massachusetts plant of Industrial Service Centers, Inc.

The notice of investigation was published in the FEDERAL REGISTER on October 14, 1977 (42 FR 55315). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Industrial Service Centers, Inc., and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjutment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must meet.

If any of the criteria are not satisfied, a negative determination must be made.

Industrial Service Centers, Inc. is a distributor and processor of stainless steel and aluminum. Industrial purchases stainless steel and aluminum from steel and aluminum companies. Industrial purchases stainless steel and aluminum in the form of sheet, plate and bar and either sells these products in "as received condition" or shears, cuts or burns the steel and aluminum to customer specifications. All employees are or were engaged in the processing, marketing, shipping and distribution of stainless steel and aluminum, and performed no production functions.

Industrial Service Centers, Inc. does not produce an article within the meaning of section 222(3) of the act. The Department has already determined that the performance of services are not covered by the adjustment assistance program. Industrial Service Centers, Inc. performs a service; the processing, shipping, and distribution of stainless steel and aluminum.

CONCLUSION

After careful review of the issues, I have determined that servcices of the kind provided by Industrial Service Centers, Inc., Cambridge, Mass. are not "articles" within the meaning of section 222(3) of the Trade Act of 1974. The petition for trade adjustment assistance is therefore denied.

Signed at Washington, D.C. this 31st day of January 1978.

HARRY GRUBERT,
Director, Office of Foreign Economic Research.

[TA-W-1993]

INTERNATIONAL HAT CO., DEXTER, MISSOURI, PLANT NO. 2

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-1993: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on April 19, 1977 in response to a worker petition received on April 19, 1977, which was filed by former employees on behalf of former workers producing headwear at the Dexter, Mo. No. 2 plant (200 North Poplar Street) of the International Hat Co., Inc.

The Notice of Investigation was published in the FEDERAL REGISTER (42 FR 23215) on May 6, 1977. No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the International Hat Co., Inc., its customers, the U.S. Department of Commerce,

the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met. Without regard to whether any other criteria has been met, the following criterion has not been met:

That increased imports have "contributed importantly" to the separations, or threat thereof, and to the decrease in sales and production of the firm or subdivision.

The Department conducted a survey of some of the customers of International Hat Co. All of those that responded indicated that they had not decreased purchases from the Dexter No. 2 plant in 1976 compared to 1975 and increased purchases of imports. Only one of these customers indicated that it decreased purchases from International Hat in 1977 compared to 1976 and increased purchases of imports. This customer accounted for .015 percent of sales in quantity by the Dexter No. 2 plant in the fiscal year ending July 31, 1976. Other customers who decreased purchases from the subject plant indicated that their declines were a result of changes in hat style preferences. They stated that demand for some types of headwear produced by the Dexter No. 2 plant had decreased in the 1976-1977 period.

CONCLUSION

After careful review of the facts obtained in the investigation I conclude that increased imports of articles like or directly competitive with the headwear produced at the Dexter, Mo. No. 2 plant of International Hat Co., Inc., did not contribute importantly to the total or partial separation of workers at the plant as required by section 222 of the Trade Act of 1974.

Signed at Washington, D.C. this 27th day of January 1978.

HARRY GRUBERT,
Director, Office of Foreign Economic Research.

[TA-W-2603]

INTERNATIONAL MILL SERVICE INC., YOUNGSTOWN, OHIO

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2603: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on November 14, 1977 in response to a worker petition received on November 4, 1977, which was filed by the International Union of Operating Engineers on behalf of workers and former workers of International Mill Service at the Youngstown, Ohio plant of the Youngstown Sheet & Tube Co.

The Notice of Investigation was published in the FEDERAL REGISTER on December 12, 1977 (42 FR 63484). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of International Mill Service, Inc. and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met.

Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increased imports of articles like or directly competitive with those produced by the firm or subdivision contributed importantly to the worker separations, or threat thereof, and to the decrease in sales or production.

The International Mill Service, Inc., in Youngstown, Ohio, on a contract basis removed spillage, called slag, from the furnace area at the Youngstown Sheet & Tube Co. International Mill Service then recovered scrap metal from the slag and delivered it back to the Youngstown Sheet & Tube Co. where it was used in the steelmaking process. There is no corporate relationship between International Mill Service, Inc., and Youngstown Sheet & Tube Co.

Imports of scrap steel are negligible. The separation of workers from International Mill Service, Inc., was due to the drastic reduction in steel production caused by the shutdown of major portions of Youngstown Sheet & Tube Co.'s Campbell Works.

CONCLUSION

After careful review of the issues, I conclude that increases of imports like or directly competitive with the steel scrap produced by the International Mill Service, Inc., located in Youngstown, Ohio, did not contribute importantly to the decline in sales or production or to the total or partial separation of workers of the firm and that the workers should therefore be denied eligibility to apply for adjustment assistance.

Signed at Washington, D.C., this 27th day of January 1978.

HARRY GRUBERT,
Director, Office of Foreign Economic Research.

[4510-28]

[TA-W-2567]

INTERNATIONAL SHOE MACHINE CORP., ST. LOUIS, MO.

Termination of Investigation

Pursuant to section 221 of the Trade Act of 1974, an investigation was initiated on November 7, 1977 in response to a worker petition dated September 29, 1977 which was filed on behalf of former workers engaged in installing and servicing shoe manufacturing equipment at International Shoe Machine Corp., St. Louis, Mo.

The notice of investigation was published in the FEDERAL REGISTER on November 18, 1977 (42 FR 59584). No public hearing was requested and none was held.

During the course of the investigation, it was established that there have been no layoffs or reductions in hours at International Shoe Machine Corp. since February 1, 1975. On the basis of current operations there is no threat of separations of workers presently employed. Section 223(b)(1) of the Trade Act of 1974 states that a certification under this section shall not apply to any worker whose last total or partial separation from the firm or appropriate subdivision of the firm occurred more than twelve months before the date of the filing under Title II, Chapter 2 of the Trade Act of 1974.

The date of the petition in this case is September 29, 1977, thus workers terminated prior to September 29, 1976 are not eligible for program benefits under Title II, Chapter 2, Subchapter B of the Trade Act of 1974.

Signed at Washington, D.C., this 23rd day of January 1978.

MARVIN M. FOOKS,
Director, Office of Trade Adjustment Assistance.

[4510-28]

[TA-W-2257]

KAISER STEEL CORP., FONTANA MILL, FONTANA, CALIF.

Determinations Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2257: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on August 15, 1977, in response to a worker petition received on August 15, 1977, which was filed by the United Steelworkers of America on behalf of workers and former workers producing

bars, rods, hot rolled sheet, and tin mill products at Kaiser Steel Corp., Fontana, Calif.

The investigation revealed that rods are included in merchant mill production, which is primarily bars.

The notice of investigation was published in the FEDERAL REGISTER on September 2, 1977 (42 FR 44298). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Kaiser Steel Corp. and its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, the American Iron and Steel Institute, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation revealed that all of the above criteria have been met with regard to the production of steel bars and tin mill products. Without regard to whether any of the other criteria have been met, criterion (4) has not been met with regard to the production of hot rolled sheet.

BARS

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

Combined employment for the merchant and structural mills, which includes workers producing bars, declined 61 percent from 1974 to 1975 and declined 9 percent from 1975 to 1976. Merchant mill employment declined 28 percent from the first to the second quarter of 1977.

All workers at the merchant mill were laid off in November 1977 when the mill closed.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Production of bars declined 72 percent from 1974 to 1975 and increased 54 percent from 1975 to 1976. Production declined 20 percent in the first seven months of 1977 compared to the same period in 1976.

Shipments of bars declined 67 percent from 1974 to 1975 and increased 21 percent from 1975 to 1976. Shipments declined 8 percent in the first seven months of 1977 compared to the same period in 1976.

All production of bars at the merchant mill ceased in November 1977, when the mill closed.

INCREASED IMPORTS

Imports of carbon hot and cold rolled steel bars decreased both absolutely and relative to domestic production and consumption in each year from 1972 through 1976. Imports increased 150 percent in the first six months of 1977 compared to the same period in 1976. The ratios of imports to domestic production and consumption increased from 3.8 percent and 3.7 percent, respectively, in the first six months of 1976 to 8.7 percent and 8.1 percent, respectively, in the first six months of 1977.

Imports of carbon steel bar-size light shapes decreased in absolute terms from 1972 to 1973, increased from 1973 to 1974 and then decreased from 1974 to 1975 and from 1975 to 1976. Imports increased 73 percent in the first six months of 1977 compared to the same period in 1976. The ratios of imports to domestic production and consumption increased from 14.5 percent and 12.8 percent, respectively, in the first six months of 1976 to 21.4 percent and 17.7 percent, respectively, in the first six months of 1977.

CONTRIBUTED IMPORTANTLY

The merchant mill at Kaiser has been shut down intermittently in the past few years. On August 1, 1977, Kaiser announced plans to shut down its merchant mill and it was closed in November 1977.

A survey of customers that purchased bar products from Kaiser indicated that they reduced purchases of bars from Kaiser in 1977 and switched to imported bars.

TIN MILL PRODUCTS

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

Employment at the tin mill increased 8 percent from 1974 to 1975 and increased 9 percent from 1975 to 1976. Employment declined 4 percent in the first seven months of 1977 compared to the same period in 1976. Employment declines began in the fourth quarter of 1976.

SALES OR PRODUCTION, OR BOTH HAVE DECREASED ABSOLUTELY

Production of tin mill products increased 13 percent from 1974 to 1975 and increased 10 percent from 1975 to 1976. Propduction increased 3 percent in the first seven months of 1977 compared to the same period in 1976.

Shipments of tin mill products declined 4 percent from 1974 to 1975 and increased 18 percent from 1975 to 1976. Shipments declined 6 percent in the first seven months of 1977 compared to the same period in 1976.

INCREASED IMPORTS

Imports of tin plate declined in absolute terms from 1972 to 1973 and from 1973 to 1974, increased from 1974 to 1975 and declined from 1975 to 1976. Imports increased 67 percent in the first six months of 1977 compared to the same period in 1976. The ratios of imports to domestic production and consumption increased from 5.5 percent and 5.6 percent, respectively, in the first six months of 1976 to 9.5 percent and 9.1 percent, respectively, in the first six months of 1977.

CONTRIBUTED IMPORTANTLY

A survey of customers that purchased tin mill products from Kaiser indicated that they reduced purchases of tin mill products from Kaiser in 1977 and switched to imported tin mill products.

HOT ROLLED SHEET

The Department's investigation revealed that customers who purchased hot rolled sheet from Kaiser did not reduce purchases from Kaiser in 1977 nor switch to purchases of imports in 1977. No declines in sheet and strip shipments at Kaiser were experienced in 1976.

Production of hot rolled sheet at the hot strip mill of Kaiser increased from 1975 to 1976 and in the first seven months of 1977 compared to the same period in 1976. No quarterly production declines were experienced in 1976 or 1977, when compared to the respective quarter of the previous year.

Shipment data for hot rolled sheet is included with data for sheet and strip. Shipments of sheet and strip declined 2 percent in the first seven months of 1977 compared to the same period in 1976.

Employment at the hot strip mill of Kaiser increased in each quarter from the second quarter of 1976 through the second quarter of 1977, when compared to the respective quarter of the previous year.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with bars and tin mill products produced at the Fontana, Calif., Mill of Kaiser Steel Corp. contributed importantly to the decline in sales or production and to the total or

partial separation of the workers of those subdivisions of the plant. In accordance with the provisions of the act, I make the following certifications:

All workers engaged in employment related to the production of bars in the Merchant Mill Department at the Fontana, Calif., Mill of Kaiser Steel Corp. who became totally or partially separated from employment on or after October 1, 1976, are eligible to apply for adjustment assistance under title II, Chapter 2, of the Trade Act of 1974, and

All workers engaged in employment related to the production of tin mill products in the Tin Mill Department at the Fontana, Calif., Mill of Kaiser Steel Corp. who became totally or partially separated from employment on or after October 1, 1976, are eligible to apply for adjustment assistance under Title II, Chapter 2, of the Trade Act of 1974.

I further conclude that increased imports of hot rolled sheet did not contribute importantly to the decline in sales or the total or partial separations of the workers at the Fontana, Calif., Steel Mill of Kaiser Steel Corp. as required for certification under section 222 of the Trade Act of 1974. Therefore, workers engaged in employment related to the production of hot rolled sheet in the Hot Strip Mill Department at the Fontana, Calif., Mill of Kaiser Steel Corp. are denied eligibility to apply for adjustment assistance.

Signed at Washington, D.C., this 31st day of January 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration, and Planning.

[4510-28]

[TA-W-1854]

LBJ GARMENT CORP., LARKSVILLE, PA.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-1854: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on March 22, 1977, in response to a worker petition received on March 22, 1977, which was filed by the International Ladies' Garment Workers Union on behalf of workers and former workers producing ladies' dresses at LBJ Garment Corp., Larksville, Pa.

The notice of investigation was published in the FEDERAL REGISTER on April 5, 1977 (42 FR 18156). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of LBJ Garment Corp., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, the National Cotton Council of America, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increased imports have "contributed importantly" to the separations, or threat thereof, and to the decrease in sales or production of the firm or subdivision.

The evidence developed in the Department's investigation revealed that LBJ Garment Corp.'s primary manufacturer, representing almost 100 percent of purchases in 1975 shifted nearly all of their contract work to other domestic contractors in 1976 due to changes in management at the manufacturer.

The manufacturer who provided nearly all of LBJ Garment's contract work in 1976 showed an increase in the value of all of the contracts it awarded in 1976 compared to 1975. Although this manufacturer decreased contracts with LBJ Garment in the first quarter of 1977 by 9.3 percent compared to the same quarter in 1976, LBJ began producing for a third manufacturer in 1977, resulting in increased production for LBJ Garment in the first quarter of 1977 compared to the same period in 1976. None of LBJ Garment's manufacturers contracted with foreign sources or imported ladies' dresses. Furthermore, the manufacturers do not believe that there is any import influence impacting the domestic market for ladies' dresses.

The results of the survey of LBJ's manufacturers is consistent with aggregate data for women's and misses' dresses. U.S. production of women's and misses' dresses increased from 1975 to 1976, while the imports/production ratio remained constant at 4.5 percent. In each year from 1972 through 1976 imports of women's and misses' dresses were less than 5 percent of domestic production. In the first nine months of 1977, imports of women's and misses' dresses fell 12.8 percent compared to the first nine months of 1976.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increased imports of articles like or directly competitive with ladies' dresses produced by LBJ Garment Corp., Larksville, Pa., did not contribute importantly to the decline in sales or production or to the total or partial separations of workers at that firm.

Signed at Washington, D.C., this 31st day of January 1978.

HARRY GRUBERT,
Director, Office of Foreign Economic Research.

[4510-28]

[TA-W-2325]

LISH ENTERPRISES, INC., NEW BEDFORD, MASS.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974, the Department of Labor herein presents the results of TA-W-2325: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on September 12, 1977, in response to the worker petition received on September 6, 1977, which was filed on behalf of workers and former workers producing ladies' outerwear at Lish Enterprises Inc., New Bedford, Mass. The investigation revealed that sales office employees located at 1410 Broadway, New York, N.Y., should also be covered by this petition.

The notice of investigation was published in the FEDERAL REGISTER on October 4, 1977 (42 FR 54031). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Lish Enterprises, Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all four of the above criteria have been met.

Significant Total or Partial Separations. Average employment at Lish increased 22 percent in 1976 from 1975. Employment declined 15 percent in the last 6 months of 1976 compared to the same period of 1975 and declined 32 percent in the first 8 months of 1977 compared to the first 8 months of 1976.

Sales or Production, or Both, Have Decreased Absolutely. Sales of sportswear by Lish increased 28 percent in value in 1975 from 1974, decreased 25 percent in value in 1976 from 1975 and decreased 74 percent in value and 71 percent in quantity in the first 8 months of 1977 compared to the same period of 1976.

Production, in quantity, of sportswear by Lish decreased 12 percent in 1975 from 1974, 23 percent in 1976 from 1975 and 76 percent in the first 8 months of 1977 compared to the same period of 1976.

Increased Imports. Imports of women's, misses' and children's coats and jackets increased in absolute terms, from 1972 to 1973, decreased from 1973 to 1974, and increased from 1974 to 1975. Imports increased 48 percent from 1975 to 1976 and increased 24 percent in the first 9 months of 1977 compared to the first 9 months of 1976. the ratios of imports to domestic production and consumption increased from 38.9 percent and 28.0 percent, respectively, in 1975 to 57.5 percent and 36.5 percent, respectively in 1976.

Contributed Importantly. Customers of Lish who were surveyed decreased purchases of ladies' junior jackets from Lish and increased purchases of imports.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with ladies' junior sportswear produced by Lish Enterprises, Inc., New Bedford, Mass., contributed importantly to the total or partial separation of workers at that firm.

In accordance with the provisions of the act, I make the following certification:

All workers at Lish Enterprises, Inc., New Bedford, Mass., and the sales office of Lish Enterprises, Inc., located at 1410 Broadway, New York City, N.Y., who became totally or partially separated from employment on or after October 1, 1976, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 31st day of January 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration, and Planning.

[FR Doc. 78-3331 Filed 2-6-78; 8:45 am]

[4510-28]

[TA-W-1857]

LITTZI FASHIONS, PRINGLE, PA.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974, the Department of Labor herein presents the results of TA-W-1857: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on March 22, 1977, in response to a worker petition received on that date which was filed by the International Ladies' Garment Workers Union on behalf of workers and former workers producing women's and misses' dresses at Littzi Fashions, Pringle, Pa.

The Notice of Investigation was published in the FEDERAL REGISTER on April 5, 1977 (42 FR 18156). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Littzi Fashions, its customers, the National Cotton Council of America, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Act must be met. Without regard to whether any of the other criteria have been met the following criterion have not been met.

That increased imports have "contributed importantly" to the separations, or threat thereof, and to the decrease in sales or production of the firm or subdivision.

Evidence developed during the Department's investigation revealed that Littzi Fashions performed contract work on women's and misses' dresses for one apparel manufacturer from 1974 to mid-1977. A survey conducted by the Department revealed that this manufacturer produces 4 seasonal lines with over a hundred styles. This manufacturer contracts out all of its dress making operations to approximately 10 independent domestic firms such as Littzi Fashions.

The survey revealed that sales of the manufacturer had increased in 1976 compared to 1975. The value of the contract work performed by Littzi Fashions increased in 1976 compared to 1975. The survey also revealed that sales of the manufacturer decreased in the first 6 months of 1977 compared to the same period of 1976. A survey of the apparel manufacturer's customers revealed that the purchases of imported dresses by retail stores accounted for less than 1 percent of their total dress purchases.

The impact of imports in the domestic market for women's and misses' dresses has been small and did not change appreciably from 1975 to 1976 or in the first half of 1977 compared to the first half of 1976. From 1975 to 1976 the ratio of imports to domestic production remained constant at 4.5 percent while imports increased by only 2.2 percent in absolute terms. Imports fell by 12.4 percent in the first half of 1977 compared to the first half of 1976.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that imports of articles like or directly competitive with women's and misses' dresses produced at Littzi Fashions, Pringle, Pa., did not contribute importantly to the decline in sales or production and to the total or partial separations of workers of that firm as required for certification under section 222 of the Trade Act of 1974.

Signed at Washington, D.C., this 30th day of January 1978.

JAMES F. TAYLOR,

[TA-W-2163]

MALAN DYEING AND FINISHING CO., PATERSON, N.J.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2163: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on June 21, 1977 in response to a worker petition received on June 21, 1977, which was filed by a company official on behalf of workers and former workers producing dyed and finished fabrics at Malan Dyeing and Finishing Co., Paterson, N.J.

The Notice of Investigation was published in the FEDERAL REGISTER on July 5, 1977 (42 FR 34388). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Malan Dyeing and Finishing Co., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of

eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met.

Without regard to whether any other criteria has been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with those produced by the firm or subdivision have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The Department's investigation revealed that Malan Dyeing and Finishing Co., dyes and finishes fabric on order to converters. A survey of Malan Dyeing and Finishing Co.'s customers (who are converters) accounting for a large proportion of Malan's sales in 1976 indicated that none of these customers purchased imported finished fabric (dyed, printed, and flocked) during 1975, 1976, or the first half of 1977. A survey of the converters' customers (who are manufacturers) indicated that only one manufacturer increases purchases of imported finished fabric.

Inasmuch as all types of finished fabric, flocked, dyed, and printed, are generally interchangeable and substitutable in their end uses, all types of finished fabric may be considered like or directly competitive with the fabric printed at the Malan Dyeing and Finishing Co.

Aggregate imports of finished fabric (including dyed, printed, and flocked), in absolute terms, declined from 1972 to 1973, declined from 1973 to 1974, and increased from 1974 to 1975. Imports increased 20.2 percent from 1975 to 1976.

Imports of finished fabric (dyed, printed, and flocked) declined in each of the last three quarters of 1976 when compared to the previous quarter. Imports declined 37.9 percent in the first six months of 1977 compared to the like period of 1976.

Since 1973 the ratio of imports to domestic production has not exceeded 2.0 percent.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increased imports of articles like or directly competitive with dyed fabric produced at Malan Dyeing and Finishing Co., Paterson, N.J., have not contributed importantly to the decline in sales or production and to the total or partial separations of workers at that firm as required for certification under section 222 of the Trade Act of 1974.

Signed at Washington, D.C., this 31st day of January 1978.

HARRY GRUBERT,
Director, Office of Foreign Economic Research.

[TA-W-2342]

MARI ANNE BAG CORP., NEW WINDSOR, N.Y.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2342: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on September 14, 1977, in response to a worker petition received on September 12, 1977, which was filed by the International Leather Goods, Plastic and Novelty Workers' Union on behalf of workers and former workers producing handbags at the Mari Anne Bag Corp., New Windsor, N.Y.

the notice of investigation was published in the FEDERAL REGISTER on October 14, 1977 (42 FR 54031). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Mari Anne Bag Corp., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met. It is concluded that all of the requirements have been met.

Increased Imports. Imports of handbags increased from 57.9 million in 1975 to 90.2 million in 1976. Imports of handbags decreased form 45.1 million in the first half of 1976 to 43.0 million in the first half of 1977.

The ratio of imports to domestic production of handbags increased from 75.9 percent in 1975 to 124.8 percent in 1976. The ratio of imports to domestic production increased from 124.6 percent in the first half of 1976 to 170.0 percent in the first half of 1977.

Contributed Importantly. Mari Anne Bag's sole customer in 1975 and 1976 increased contract work with foreign sources while decreasing contract work with Mari Anne, and also increased company imports of handbags in the last quarter of 1976 compared to the last quarter of 1975 and in the first nine months of 1977 compared to the same period in 1976.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with the handbags produced at the Mari Anne Bag Corp., New Windsor, N.Y., contributed importantly to the decline in sales or production and to the total or partial separations of workers engaged in production of handbags at the firm. In accordance with the provisions of the Act, I make the following certification:

All workers at the Mari Anne Bag Corp., New Windsor, N.Y., who became totally or partially separated from employment on or after September 7, 1976, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 27th day of January 1978.

HARRY GRUBERT,
Director, Office of Foreign Economic Research.

[TA-W-2193]

MARKAY HANDBAGS, INC., PLAINFIELD, N.J.

Certification Regarding eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2193: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on July 5, 1977, in response to a worker petition received on June 29, 1977, which was filed by the International Leather Goods, Plastics and Novelty Workers' Union on behalf of workers and former workers producing handbags at Markay Handbag, Inc., Plainfield, N.J.

The notice of investigation was published in the FEDERAL REGISTER on July 15, 1977 (42 FR 36513). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Markay Handbags, Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The Department's investigation has revealed that all four of the above criteria have been met.

Significant total or partial separations. The average number of production workers decreased from fiscal year 1976 to fiscal year 1977 and decreased in the first six months of 1977 compared to the same period of 1976.

Sales or production, or both, have decreased absolutely. Dollar sales decreased from fiscal year 1976 to fiscal year 1977 and decreased in the first six months of 1977 compared to the same period of 1976. Production decreased in quantity and value from fiscal year 1976 to fiscal year 1977 and decreased in the first six months of 1977 compared to the same period of 1976.

Increased imports. Imports of handbags decreased from 67.2 million units in 1972 to 67.0 million in 1973 and decreased again to 54.4 million in 1974. In 1975 imports increased to 57.9 million and increased greatly in 1976 to 90.2 million, an increase of 55.8 percent. In the first half of 1977 imports decreased to 43.0 million, as compared to 45.1 million in the same period of 1976. The ratio of imports to domestic production and consumption increased from 75.9 percent and 43.5 percent, respectively, in 1975 to 124.6 percent and 56.0 percent, respectively, in 1976. The ratios increased from 124.6 percent and 56.0 percent, respectively, in the first six months of 1976 to 170.0 percent and 63.4 percent, respectively, in the first six months of 1977.

Contributed importantly. A sales comparison chart furnished by Markay Handbags, Inc. shows major decreases in purchases by customers from fiscal year 1976 to fiscal year 1977. A survey of these customers revealed that several customers substituted purchases of imported handbags for purchases from Markay Handbags, Inc. in 1976 and 1977.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that imports of articles like or directly competitive with handbags produced by Markay Handbags, Inc. contributed importantly to the decline in sales or production and to the total or partial separations of workers at that firm. In accordance with the provisions of the Act, I make the following certification:

All workers of Markay Handbags, Inc., Plainfield, N.J., and sales offices in New York, N.Y., who became totally or partially separtated from employment on or after February 21, 1977, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 31st day of January 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration, and Planning.

[4510-28]

[TA-W-2537]

MOORE SHANK CO., LYNN, MASS.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2537: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on October 31, 1977 in response to a worker petition received on October 25, 1977 which was filed on behalf of workers and former workers producing shoe shanks at Moore Shank Co., Lynn, Mass.

The notice of investigation was published in the FEDERAL REGISTER on November 15, 1977 (42 FR 59131). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Moore Shank Co., publications of the U.S. Department of Commerce and the U.S. International Trade Commission, the American Footwear Industries Association, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Without regard to whether any of the other criteria have been met, criterion (4) has not been met.

The Moore Shank Co. was founded in 1900 and incorporated in Massachusetts in 1925. Keystone Sole & Shank Co. is a Division of The Moore Shank Co. Keystone has no employees and produces no product; it is used as a sales outlet.

Workers at The Moore Shank Co. produce steel and fibre shoe shanks. Steel shanks are cut and heat treated. Some shanks are attached to a fibre shank. The shanks are marketed through commissioned agents to wholesalers and shoe manufacturers.

Imports of shoes which incorporate shoe shanks are not "like or directly competitive" with shoe shanks within the meaning of Section 222 (3) of the Trade Act of 1974.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that articles like or directly competitive with those produced by workers at Moore Shank Co., Lynn, Mass. have not contributed importantly to separations, or the threat thereof, nor to the decrease in sales or production at that plant as required in section 222 of the Trade Act of 1974. The petition is therefore denied.

Signed at Washington, D.C., this 30th day of January 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration, and Planning.

[TA-W-2343]

NEEVEL LUGGAGE MANUFACTURING CO., KANSAS CITY, MO.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2343: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on September 14, 1977 in response to a worker petition received on September 12, 1977, which was filed on behalf of former workers producing vinyl luggage and tote bags at Neevel Luggage Manufacturing Co., Kansas City, Mo.

The Notice of Investigation was published in the FEDERAL REGISTER on October 4, 1977 (42 FR 54031). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Neevel Luggage Manufacturing Co., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met. The investigation has revealed that all four of the criteria have been met.

INCREASED IMPORTS

The value of imported luggage increased 90 percent from 59,357,000 dollars in 1975 to 112,527,000 dollars in 1976. Imports amounted to 13.8 percent of the value of total domestic production of luggage in 1975 and 24.2 percent in 1976.

CONTRIBUTED IMPORTANTLY

Production and employment at Neevel Luggage Manufacturing Co. declined during July-December 1976 compared to July-December 1975. The company closed in December 1976.

Customers surveyed who decreased purchases from Neevel Luggage in 1976 from 1975 increased purchases of imported luggage during the same period.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with vinyl luggage and tote bags produced at Neevel Luggage Manufacturing Co., Kansas City, Mo. contributed importantly to declines in production and to total or partial separations of workers at that firm. In accordance with the provisions of the Trade Act of 1974, I make the following certification:

All workers at Neevel Luggage Manufacturing Co., Kansas City, Mo. who became totally or partially separated from employment on or after September 6, 1976 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 30th day of January 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration, and Planning.

[4510-28]

[TA-W-2348]

PEERLESS MACHINE CO., NEWTON, MASS.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2348: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on September 14, 1977 in response to a worker petition received on September 12, 1977 which was filed by the Treasurer, of the Peerless Machinery Co. on behalf of workers and former workers producing eyelet and hook setting machinery and spare parts at the Newton, Mass. plant of the Peerless Machinery Co.

The notice of invesigation was published in the FEDERAL REGISTER on October 4, 1977 (42 FR 54031). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Peerless Machinery Co., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

that increases of imports of articles like or directly competitive with articles produced by such workers firm or an appropriate subdivision thereof contributed importantly to such total or partial separation, or threat therof, and to such declines in sales or production.

The Peerless Machinery Co., Newton, Mass. is engaged in the manufacture of eyelet and hook setting machinery and spare parts.

Imports of eyelet and hook setting machinery and spare parts are negligable and did not contribute importantly to any employment declines at the firm. Industry sources indicated that the decline in the demand for footwear machinery is due to the low levels of capital investment and the availability of used machinery in that industry. Imports of shoes, which may be contributing to the uncertainty in the U.S. footwear industry and low levels of capital investment, are not "like or directly competitive" with hook setting machinery and spare parts within the meaning of section 222(3) of the Trade Act of 1974.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increased imports of articles like or directly competitive with the eyelet and hook setting machinery and spare parts produced at the Newton, Mass. plant of the Peerless Machinery Co. did not contribute importantly to the sales or production declines or to the total or partial separation of workers at that plant as required in section 222 of the Trade Act of 1974.

Signed at Washington, DC., this 31st day of January 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration, and Planning.

[4510-28]

[TA-W-1866]

R & K APPAREL CO., PLYMOUTH, PA.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-1866: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on March 22, 1977, in response to a worker petition received on that date which was filed by the International Ladies' Garment Workers Union on behalf of workers and former workers producing women's and misses' dresses at R & K Apparel Co., Plymouth, Pa.

The Notice of Investigation was published in the FEDERAL REGISTER on April 5, 1977 (42 FR 18156). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of R & K Apparel Co., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Without regard to whether any of the other criteria have been met, criterion (4) has not been met.

R & K Apparel Co. is a one-plant facility which was established in Plymouth, Pa., in 1959. R & K performs

contract work for manufacturers producing women's and misses' dresses.

The ratio of imported women's and misses' dresses to total domestic production remained the same in 1976 from 1975. The quantity of imports declined from 540 thousand dozen units during January–September 1976 to 471 thousand dozen units during January–Septemer 1977.

A customer survey, accounting for approximately 90 percent of R & K Apparel's contract work since 1975, indicated that purchases from R & K Apparel had decreased in 1976 and 1977 and purchases from other domestic sources had increased in the same time period. The survey indicated that there were no purchases of imported women's and misses' dresses during this period.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that imports of articles like or directly competitive with women's and misses' dresses produced at R & K Apparel Co., Plymouth, Pa. did not contribute importantly to the decline in sales or production and to the total or partial separations of workers of that firm as required for certification under section 222 of the Trade Act of 1974.

Signed at Washington, D.C., this 27th day of January 1978.

HARRY GRUBERT,
Director, Office of Foreign Economic Research.

[TA-W-1943]

ROTH LECOVER, INC., LOS ANGELES, CALIF.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-1943: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on March 31, 1977 in response to a worker petition received on March 29, 1977, which was filed by the International Ladies' Garment Workers Union on behalf of workers and former workers producing women's dresses, suits, and pantsuits at Roth LeCover, Inc., Los Angeles, Calif.

The Notice of Investigation was published in the FEDERAL REGISTER on April 15, 1977 (42 FR 19937). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from information and publications provided by officials of Roth LeCover, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated.

Employment at Roth LeCover remained unchanged from 1975 to 1976. LeCover began importing less expensive women's dresses in July 1976. These imports, however, were pressed and processed for resale by workers at the LeCover plant. Employment at the LeCover plant increased steadily from the second quarter of 1976 through the first quarter of 1977. Plant employment in the first quarter of 1977 was higher than in the first quarter of 1976.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that total or partial separations have not occurred at Roth LeCover, Inc., Los Angeles, Calif. as required for certification under section 222 of the Trade Act of 1974.

Signed at Washington, D.C., this 30th day of January 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration, and Planning.

[TA-W-2476]

STACKPOLE CARBON CO., ST. MARYS, PA.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2476: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on October 17, 1977, in response to a worker petition received on October 6, 1977, which was filed on behalf of workers and former workers producing fixed composition resistors at the St. Marys, Pa., plant of Stackpole Carbon Co.

The notice of investigation was published in the FEDERAL REGISTER on November 8, 1977 (42 FR 48210). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from Stackpole Carbon Co., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the act must be met. It is concluded that all of the requirements have been met.

INCREASED IMPORTS

U.S. imports of fixed composition resistors increased from 1,401.5 million units in 1975 to 1,754.0 million units in 1976. Imports increased from 812.6 million units in the first six months of 1976 to 1,520.7 million units in the first six months of 1977.

The ratio of imports to domestic production of fixed composition resistors decreased from 49.5 percent in 1975 to 46.5 percent in 1976 and then increased from 45.2 percent in the first six months of 1976 to 85.9 percent in the same period of 1977.

CONTRIBUTED IMPORTANTLY

The evidence developed in the Department's investigation revealed that several customers of Stackpole Carbon Co. decreased purchases of fixed composition resistors from the subject firm in the first nine months of 1977 compared to the same period of 1976, while increasing purchases of imported fixed composition resistors during the same period.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with fixed composition resistors produced at the St. Marys, Pa., plant of Stackpole Carbon Co. contributed importantly to the decline in sales or production and to the total or partial separations of workers at that plant. In accordance with the provisions of the act, I make the following certification:

All workers engaged in employment related to the production of fixed composition resistors at the St. Marys, Pa., plant of Stackpole Carbon Co. who became totally or partially separated from employment on or after October 1, 1977, are eligible to apply for adjustment assistance under Title II, Chapter of the Trade Act of 1974.

Signed at Washington, D.C., this 31st day of January 1978.

HARRY GRUBERT,
Director, Office of Foreign Economic Research.

[TA-W-2477]

STACKPOLE CARBON CO., KANE, PA.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2477: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on October 17, 1977, in response to a worker petition received on October 6, 1977, which was filed on behalf of workers and former workers producing fixed composition resistors at the Kane, Pa., plant of Stackpole Carbon Co.

The notice of investigation was published in the FEDERAL REGISTER on November 8, 1977 (42 FR 48210). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from Stackpole Carbon Co., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the act must be met. It is concluded that all of the requirements have been met.

INCREASED IMPORTS

U.S. imports of fixed composition resistors increased from 1,401.5 million units in 1975 to 1,754.0 million units in 1976. Imports increased from 812.6 million units in the first six months of 1976 to 1520.7 million units in the first six months of 1977.

The ratio of imports to domestic production of fixed composition resistors decreased from 49.5 percent in 1975 to 46.5 percent in 1976 and then increased from 45.2 percent in the first six months of 1976 to 85.9 percent in the same period of 1977.

CONTRIBUTED IMPORTANTLY

The evidence developed in the Department's investigation revealed that several customers of Stackpole Carbon Co. decreased purchases of fixed composition resistors from the subject firm in the first nine months of 1977 compared to the same period of 1976, while increasing purchases of imported fixed composition resistors during the same period.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with fixed composition resistors produced at the Kane, Pa., plant of Stackpole Carbon Co. contributed importantly to the decline in sales or production and to the total or partial separations of workers at that plant. In accordance with the provisions of the act, I make the following certification:

All workers engaged in employment related to the production of fixed composition resistors at the Kane, Pa., plant of Stackpole Carbon Co. who became totally or partially separated from employment on or after October 1, 1977, are eligible to apply for adjustment assistance under Title II Chapter of the Trade Act of 1974.

Signed at Washington, D.C., this 31st day of January 1978.

HARRY GRUBERT,
Director, Office of Foreign Economic Research.

[4510-28]

[TA-W-2642]

SUNAPEE SHOE CO., NEWPORT, N.H.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2642: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on November 21, 1977, in response to a worker petition received on November 14, 1977, which was filed on behalf of workers and former workers at the Sunapee Shoe Co., Newport, N.H.

The notice of investigation was published in the FEDERAL REGISTER on December 6, 1977 (42 FR 61696). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Sunapee Shoe Co. and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the act must be met. Without regard to whether any of the other criteria have been met the following criterion has not been met.

That increases of imports of articles like or directly competitive with these produced by the firm or subdivision have "contributed importantly" to the separations, or threat thereof, and to the decrease in sales or production.

The Sunapee Shoe Co. was founded in January 1977 as a division of Jamesons Shoe Corp. The firm stitched uppers for five shoe manufacturers. The firm did not stitch shoe uppers for Jamesons Shoe Corp.

The Department's investigation revealed that the petitioning group of workers were engaged in employment related to the production of uppers at the Newport, N.H., plant of Sunapee Shoe Co. The firm closed in November 1977. A complete shoe was not produced by the Sunapee Shoe Co.

Imports of footwear uppers are negligible and did not contribute importantly to any dislocations at the firm. The ratio of imports to domestic production was less than one percent from 1972 through the first half of 1977. Imports of shoes which incorporate uppers are not "like or directly competitive" with uppers within the meaning of section 222(3) of the Trade Act of 1974.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increased imports of footwear uppers like or directly competitive with footwear uppers produced at the Sunapee Shoe Corp., Newport, N.H., did not contribute importantly to the total or partial separation of workers at that plant as required in section 222 of the Trade Act of 1974.

Signed at Washington, D.C., this 31st day of January 1978.

HARRY GRUBERT,
Director, Office of Foreign Economic Research.

[4510-28]

[TA-W-2264]

TEXFI INDUSTRIES, INC., ONTARIO, CALIF.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974, the Department of Labor herein presents the results of TA-W-2264: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on August 16, 1977, in response to a worker petition received on August 16, 1977, which was filed by three workers on behalf of workers and former workers producing textured polyester knit fabric at the Ontario, Calif. plant of Texfi Industries, Inc.

The notice of investigation was published in the FEDERAL REGISTER on August 26, 1977 (42 FR 43155). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Texfi In-

dustries, Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of section 222 of the Act must be met. Without regard to whether any of the other criteria have been met the following criterion has not been met.

That increases of imports of articles like or directly competitive with those produced by the firm or subdivision have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The Department's investigation revealed that none of the major customers of the Ontario plant that were surveyed concerning their purchases of finished fabric purchased imported finished fabric during 1975, 1976 or in the first 9 months of 1977. Customers that reduced purchases from Taxfi switched to other domestic sources.

Imports of circular knit fabric declined from 4,840 thousand pounds in 1975 to 3,790 thousand pounds in 1976. Imports declined from 783 thousand pounds in the first 3 months of 1976 to 541 thousand pounds in the first 3 months of 1977.

The ratio of imports to domestic production of circular knit fabric was below 1 percent during 1975 and 1976.

Inasmuch as all types of finished fabric, flocked, dyed, and printed, are generally interchangeable and substitutable in their end uses, all types of finished fabric may be considered like or directly competitive with the fabric knit at the Ontario, Calif. plant of Texfi Industries, Inc.

Aggregate imports of finished fabric (including dyed, printed, and flocked) declined in each of the last 3 quarters of 1976 when compared to the previous quarter. Imports declined 37.9 percent in the first 6 months of 1977 compared to the like period of 1976. Since 1973 the ratio of imports to domestic production has not exceeded 2 percent.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increased imports of finished fabric like or directly competitive with the fabric previously manufactured at the Ontario, Calif. plant of Texfi Industries, Inc., did not contribute importantly to the total or partial separations of the workers or to the decline in sales or production at that plant

Signed at Washington, D.C., this 31st day of January 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration, and Planning.

[4510-28]

[TA-W-2350]

WELL MADE PANTS CO., INC., BALTIMORE, MD.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974, the Department of Labor herein presents the results of TA-W-2350: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on September 14, 1977, in response to a worker petition received on September 13, 1977, which was filed on behalf of workers and former workers producing men's dress trousers, suits, and sportswear at Well Made Pants Co., Inc., Baltimore, Md.

The notice of investigation was published in the FEDERAL REGISTER on October 4, 1977 (42 FR 54031). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Well Made Pants Co., Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The Department's investigation revealed that all four criteria have been met.

Significant total or partial separations. The average number of production workers at Well Made Pants Co., Inc., decreased in 1976 compared to 1975 and in the first 8 months of 1977 compared to the same period of 1976. All workers were laid off in August 1977 when the plant closed.

Sales or production or both, have decreased absolutely. Company sales and production of men's dress trousers and suits decreased in 1976 compared to 1975 and further decreased in the first half of 1977 compared to the first half of 1976. All production ceased in August 1977.

Increased imports. Imports of men's and boys' dress trousers increased steadily from 39,816 thousand in 1974 to 73,209 thousand in 1976. The ratio of imports to domestic production increased steadily from 18.2 percent in 1974 to 41.9 percent in 1976.

Imports of men's and boys' tailored suits increased steadily from 1,954 thousand units in 1972 to 3,562 thousand units in 1976. Imports also increased steadily relative to domestic production from 8.7 percent in 1972 to 20 percent in 1976. Imports also increased in the first 6 months of 1977 compared to the first 6 months of 1976.

Contributed importantly. A survey of customers of Well Made Pants Co, Inc., revealed one customer, representing a significant proportion of the sales of the subject firm, decreased purchases of men's dress trousers from Well Made Pants in 1976 compared to 1975, while increasing purchases of imported men's dress trousers. There were also customers whose response to the survey revealed that they made purchases from other domestic sources who imported.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increased imports like or directly competitive with men's dress trousers, and suits produced at Well Made Pants Co., Inc., Baltimore, Md., contributed importantly to the total or partial separations of the workers of that company. In accordance with the provisions of the Act, I make the following certification:

All workers at Well Made Pants Co., Inc., Baltimore, Md., who became totally or partially separated from employment on or after May 6, 1977, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 31st day of January 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration, and Planning.

[4510-28]

[TA-W-1841 and TA-W-1842]

WILKES-BARRE APPAREL, INC., WILKES-BARRE, PA., AND NOXEN, PA.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-1841 and TA-W-1842: Investi-

gation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on March 21, 1977, in response to worker petitions received on March 18, 1977, which was filed by the International Ladies' Garment Workers' Union on behalf of workers and former workers producing women's dresses at the Wilkes-Barre, Pa., plant of Wilkes-Barre Apparel, Inc., and at the Noxen, Pa., plant of Wilkes-Barre Apparel, Inc. (known prior to January 1, 1977 as the Noxen, Pa., plant of Eastern Sportswear Inc.).

The Notice of Investigation was published in the FEDERAL REGISTER on April 5, 1977 (42 FR 18158). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Wilkes-Barre Apparel, Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Act of 1974 must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increased imports have "contributed importantly" to the separations, or threat thereof, and to the decrease in sales or production of the firm or subdivision.

Wilkes-Barre Apparel, Inc., and Eastern Sportswear, Inc., were contractors producing dresses. They were owned by the same individuals and produced the same garments for the same manufacturers at plants in Wilkes-Barre and Noxen, Pa. As of January 1, 1977, the owners consolidated the operations of the two under the name Wilkes-Barre Apparel. All of the data for the two plants is presented in consolidated form.

Sales and production are equal at Wilkes-Barre Apparel and Eastern Sportswear. Sales and production increased in 1976 compared to 1975 at both companies combined and at each separately.

Wilkes-Barre Apparel, Inc., and Eastern Sportswear, Inc., made dresses for two manufacturers. One of the manufacturers for which Wilkes Barre and Eastern produced dresses experienced increasing sales of women's apparel in fiscal years (fiscal year May 1 through April 30) 1976 and 1977 when compared to the previous fiscal years. This manufacturer's sales of women's apparel continued to increase in the first quarter of their fiscal year 1978 compared to the same period 1 year earlier. This manufacturer imports a minimal amount of women's apparel, amounting to less than 5 percent of the manufacturer's domestic production of women's sportwear in 1976 and 1977. Nearly 50 percent of this manufacturer's apparel-making operations are contracted out to independent firms such as Wilkes-Barre Apparel, Inc., and Eastern Sportswear, Inc. The other manufacturer for which Wilkes-Barre Apparel and Eastern Sportswear worked reported that its sales increased in 1976 compared to 1975 and in each of the first two quarters of 1977 when compared to the same quarters of 1976.

The manufacturers for which Wilkes-Barre Apparel and Eastern Sportswear worked are large diversified clothing firms which produce several seasonal lines with many different styles. Because of the wide range of styles and frequent seasonal lines, the volume of work given to any one contractor fluctuates in accordance with the specific mix of fashions required by the manufacturer at that time.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increased imports of articles like or directly competitive with the dresses produced at the Wilkes-Barre, Pa., and Noxen, Pa., plants of Wilkes-Barre Apparel, Inc., did not contribute importantly to the decline in sales or production and to the total or partial separations of the workers at those plants as required for certification under section 222 of the Trade Act of 1974.

Signed at Washington, D.C., this 27th day of January 1978.

HARRY GRUBERT,
Director, Office of Foreign Economic Research.

[TA-W-2164]

YOUNG VIEWPOINT KNITS, INC., NEW YORK, N.Y. AND JERSEY CITY, N.J.

Negative Determination of Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974, the Department of Labor herein presents the results of TA-W-2164: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on June 21, 1977, in response to a worker petition received on June 20, 1977, which was filed by three workers on behalf of workers formerly producing ladies' dresses at the New York, N.Y., and Jersey City, N.J., plants of Young Viewpoint Knits, Inc.

The Notice of Investigation was published in the FEDERAL REGISTER on July 5, 1977 (42 FR 34388). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Young Viewpoint Knits, Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with those produced by the firm or subdivision have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

Evidence developed during the course of the investigation revealed that the impact of imports in the domestic market for women's and misses' dresses has been small and did not change appreciably from 1975 to 1976 or in the first half of 1977 compared to the first half of 1976. From 1975 to 1976 the ratio of imports to domestic production remained constant at 4.5 percent while imports increased by only 2.2 percent in absolute terms. Imports fell by 12.4 percent in the first half of 1977 compared to the first half of 1976.

A sample survey of Young Viewpoint's customers reflect the relatively minor influence of imports of women's dresses in the market served by Young Viewpoint. Customers responding to the survey indicated that during the period 1975 to 1976 purchases of imported dresses either decreased or represented a relatively small percentage of the respective customer's total purchases of women's dresses. Furthermore these customers indicated that quality of workmanship, style, and fit were the important factors influencing their decision to purchase dresses. The consensus among the respondents was that there was no import influence in the market for women's dresses.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with ladies' dresses produced at the New York, N.Y., and Jersey City, N.J., plants of Young Viewpoint Knits, Inc., did not contribute importantly to the decrease in sales or to the total or partial separation of the workers of those plants.

Signed at Washington, D.C., this 27th day of January 1978.

HARRY GRUBERT,
Director, Office of Foreign Economic Research.

Copyright Office

[Docket RM 78-1]

PRIVACY ACT OF 1974

Systems of Records and Notice of Proposed Routine Uses

AGENCY: Library of Congress, Copyright Office.

ACTION: Proposed routine Uses.

SUMMARY: Two additional systems of records of the Copyright Office of the Library of Congress are hereby published in accordance with the requirements of 5 U.S.C. 522a(e)(4) (Privacy Act of 1974, Pub. L. 93-579, 88 Stat. 1896). All other systems of records and routine uses were published in the FEDERAL REGISTER on December 5, 1977. In accordance with the provisions of 5 U.S.C. 552a(e)(11), the routine uses of these additional systems are set out for public comment. Interested persons are invited to submit written comments with respect to these routine uses.

DATE: Comments should be received on or before March 9, 1978.

ADDRESSES: Interested persons should submit five copies of their written comments, if by mail to: Office of the General Counsel, Copyright Office, Library of Congress, Caller No. 2999, Arlington, Va. 22202 or if by hand: Office of the General Counsel, Copyright Office, Library of Congress, Room 519, Crystal Mall Building No. 2, 1921 Jefferson Davis Highway, Arlington, Va. 22202.

FOR FURTHER INFORMATION CONTACT:

Jon Baumgarten, General Counsel, Copyright Office, Library of Congress, Washington, D.C. 20559, 703-557-8731.

These systems will become effective March 9, 1978, unless the Copyright Office publishes notice to the contrary.

Dated: January 26, 1978.

BARBARA RINGER,
Register of Copyrights.

Approved:

DANIEL J. BOORSTIN,
Librarian of Congress.

PREFATORY STATEMENT

The Copyright Office serves primarily as an office of public record. Section 705 of title 17, United States Code, requires the Copyright Office to open for public inspection all records of copyright deposits, registrations, recordations, and other actions taken under title 17. Therefore, a routine use of all Copyright Office systems of records is disclosure to the public. all Copyright Office systems of records are available for public copying as required by section 706(a), with the exception of copyright deposits, whose reproduction is governed as authorized by section 706(b).

The sources for Copyright Office systems of records are, wherever possible, the individuals to whom the records pertain or their authorized agents. Copyright Office personnel frequently make additions to or notations on Office records in the performance of their duties. Because of the volume of such additions and notations, they are not specifically cited under the heading "source categories" in the New Systems Notice.

CO-10

System name:

Notices of Institution of Actions for the Infringement of Works Refused Registration.

System location:

Copyright Office, Library of Congress, Arlington, Virginia.

Categories of individuals covered by the system:

Persons who have instituted infringement actions in cases where the Office has refused registration of the work which is the subject of the litigation.

Categories of records in the system:

Notice of the institution of an infringement action, a copy of the complaint, and documnents related to that action.

Authority for maintenance of the system:

17 U.S.C. § 411(a) (the Act for General Revision of the Copyright Law).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

The Office uses these records: (1) to determine whether the Register will exercise the option of becoming a party to the action with respect to the issue of registrability of the copyright claim; and

(2) in the preparation of search reports compiled at the request of a member of the public.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: Storage:

Manila folders in file cabinet.

Retrievability:

Alphabetically by name of applicant or applicant's authorized agent.

Safeguards:

These records are maintained in a room which is restricted to authorized personnel and locked during nonworking hours.

Retention and disposal:

Retained indefinitely.

System manager and address:

General Counsel, Copyright Office, Library of Congress, Washington, D.C. 20559.

Notification procedure:

Inquiries about an individual's record should be in writing addressed to the Supervisory Copyright Information Specialist, Information and Publications Section, Information and Reference Division, Copyright Office, Library of Congress, Washington, D.C. 20559.

Record access procedure:

Requests from individuals should be in writing addressed to the official designated under "Notification procedure."

NATIONAL CREDIT UNION ADMINISTRATION

NATIONAL CREDIT UNION BOARD

Meeting and Agenda

Pursuant to the provisions of the Federal Advisory Committee Act, Pub. L. 92-463, 86 Stat. 770, notice is hereby given that the National Credit Union Board will ho'' its quarterly meeting on March 7-8, 1978, at the Offices of the National Credit Union Administration, 2025 M Street NW., Washington, D.C. 20456. The meetings will commence at 9 a.m. daily in Room 4002.

The agenda for this meeting will consist of an update briefing by the Administrator on the Central Liquidity Fund, taxation of credit unions, consumer credit supervision, legislation, and other matters.

This meeting of the National Credit Union Board will be open to the public. Members of the public may file written statements with the Board either before or after the meeting. To the extent that time permits, interested persons may be permitted to present oral statements to the Board only on items listed in the aforementioned agenda. Requests to present such oral statements must be approved in advance by the Chairman of the Board. Such requests should be directed to the Chairman, National Credit Union Board, National Credit Union Administration, Washington, D.C. 20456.

LAWRENCE CONNELL,
Administator.

NATIONAL SCIENCE FOUNDATION

ADVISORY COMMITTEE FOR PHYSICS SUBCOMMITTEE ON JOB-RELATED ISSUES

Meeting

In accordance with the Federal Advisory Committee Act, as amended, Pub. L. 92-463, the National Science Foundation announces the following meeting:

ADVISORY COMMITTEE FOR PHYSICS—SUBCOMMITTEE ON JOB RELATED ISSUES

Date and time: February 24 and 25, 1978; 9 a.m. to 5 p.m. each day.

Place: Room 643, National Science Foundation, 1800 G Street NW., Washington, D.C. 20550.

Type of meeting: Open.

Contact person: Dr. Laura P. Bautz, Executive Secretary, Advisory Committee for Physics, Division of Physics, Room 341, National Science Foundation, Washington, D.C. 20550, telephone 202-632-4175.

Purpose of subcommittee: To analyze issues related to employment opportunities in Physics, with special reference to those for young physicists.

Agenda: The Subcommittee will review data pertaining to current and projected employment opportunities in Physics and will begin discussions of possible alternatives, including suggestions for actions the Federal Government might take relating to the employment of young physicists.

Summary minutes: May be obtained from the Committee Management Coordinator, Division of Financial and Administrative Management, Room 248, National Science Foundation, Washington, D.C. 20550.

M. REBECCA WINKLER,
Acting Committee Management Officer.

FEBRUARY 2, 1978.

[7555-01]

FEDERAL ADVISORY COMMITTEES

Review

The National Science Foundation is conducting a comprehensive review of its advisory groups and is soliciting input from all interested persons for this evaluation.

In the letter of February 25, 1977, to the heads of Executive Departments and Establishments, the President expressed his concern about the number and usefulness of Federal advisory committees, and directed that the comprehensive review be conducted on a zero-based concept and be predicated on the principle that all committees should be abolished except those: (1) for which there is a compelling need; (2) which have truly balanced membership; and (3) which conduct their business as openly as possible consistent with the law and their mandate. He further stated that each agency should provide for open and public participation in its review process to the maximum extent possible.

All comments should be directed to the Committee Management Office, Division of Financial and Administrative Management, Room 248, National Science Foundation, Washington, D.C. 20550, no later than March 1, 1978. These comments will be forwarded to the appropriate officials for consideration in the review process.

In accordance with the President's letter and further instructions from the General Services Administration, the review will be conducted by the Director, NSF, and will encompass the following advisory groups:

Advisory Committee for Behavioral and Neural Sciences.
Advisory Committee for Social Sciences.
Advisory Committee for Physiology, Cellular and Molecular Biology.
Advisory Committee for Environmental Biology.
Advisory Committee for Physics.
Advisory Committee for Chemistry.
Advisory Committee for Engineering.
Advisory Committee for Materials Research.
Advisory Committee for Mathematical and Computer Sciences.

Advisory Committee for Astronomical Sciences.
Advisory Committee for Atmospheric Sciences.
Advisory Committee for Earth Sciences.
Advisory Committee for Ocean Sciences.
Advisory Committee for Polar Programs.
Advisory Committee for Minority Programs in Science Education.
Advisory Committee for Research Applications Policy.
Advisory Committee for Science Education.
Alan T. Waterman Award Committee.
National Science Foundation Advisory Council.
ERDA/NSF Nuclear Science Advisory Committee.
President's Committee on the National Medal of Science.
Advisory Committee for Policy Research and Analysis and Science Resources Studies.
Advisory Committee for Two-Year College Science Education Needs Assessment.
Advisory Committee for Science and Society.
Advisory Committee for International Programs.

FRED K. MURAKAMI,
Committee Management Officer.

FEBRUARY 2, 1978.

FEDERAL SCIENTIFIC AND TECHNICAL INFORMATION MANAGERS

Meeting

The next meeting of the Federal Scientific and Technical Information Managers will be held on Wednesday, February 8, 1978, from 9:30 a.m. to 12 noon, at the National Aeronautics and Space Administration, Conference Room 5026, 400 Maryland Avenue SW., Washington, D.C. The theme of this meeting will be "Zero-Base Budgeting: What We Learned—How We Fared."

These meetings, sponsored by the National Science Foundation, provide a forum for the interchange of information concerning common problems and coordination in the areas of Federal scientific and technical information and communications.

These meetings are designed solely for the benefit of Federal employees and officers, and do not fall under the provisions of the Federal Advisory Committee Act (Pub. L. 92-463). However, this meeting is believed to be of sufficient importance and interest to the public to be announced in the FEDERAL REGISTER.

Any persons wishing to attend this meeting or requiring further information should contact the Division of Science Information, National Science Foundation, Washington, D.C. 20550 telephone 202-632-5824.

LEE G. BURCHINAL,
Director, Division of Science Information.

FEBRUARY 2, 1978.

SUBCOMMITTEE ON ECONOMICS OF THE ADVISORY COMMITTEE FOR SOCIAL SCIENCES

Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, as amended, the National Science Foundation announces the following meeting:

NAME: Subcommittee on Economics of the Advisory Committee for Social Sciences.

DATE AND TIME: February 24 and 25, 1978, 9 a.m. to 6 p.m. each day.

PLACE: Room 1224, National Science Foundation, 1800 G Street NW., Washington, D.C. 20550.

TYPE OF MEETINGS: Closed.

CONTACT PERSON: Dr. James H. Blackman, Program Director for Economics, Division of Social Sciences, telephone 202-632-5968.

PURPOSE OF SUBCOMMITTEE: To provide advice and recommendations concerning support for research in economics.

AGENDA: To review and evaluate research proposals and projects as part of the selection process for awards.

REASON FOR CLOSING: The proposals and projects being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within exemptions (4) and (6) of 5 U.S.C. 552b(c), Government in the Sunshine Act.

AUTHORITY TO CLOSE MEETING: This determination was made by the Committee Management Officer pursuant to provisions of Section 10(d) of Pub. L. 92-463. The Committee Management Officer was delegated the authority to make such determinations by the Acting Director, NSF, on February 18, 1977.

M. REBECCA WINKLER,
Acting Committee Management Officer.

FEBRUARY 2, 1978.

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-329SP and 50-330SP]

CONSUMERS POWER CO. (MIDLAND PLANT, UNITS 1 AND 2)

Order Scheduling Conference, Directing Meeting Among Attorneys, Providing for Nomenclature and Caption for Special Proceeding, and Revising Service List

1. On occasion of the letter of January 30, 1978 from the Chairman of the Commission to the Chairman of the Special Board, a copy of which has been served on all parties of record, the Special Board hereby calls a conference of the attorneys who have entered general or special appearances for parties involved in the special proceeding. The purpose of the conference is to pursue the possibility of settlement of the special proceeding. Such conference is scheduled to be held at 10 a.m., Wednesday, February 15, 1978, in Court Room 8, 4th Floor, U.S. Court House, Constitution Avenue and John Marshall Place NW., Washington, D.C.

2. Also, in keeping with the referenced letter from the Chairman of the Commission, the respective attorneys for the parties involved in the special proceeding are directed to explore among themselves prior to the scheduled conference whether the preferred charges in the special proceeding might be resolved, mooted or otherwise disposed of without an adversary hearing.

3. The caption of this special proceeding is indicated above. The suffix "SP" after the docket numbers is to secure a docket file for the special proceeding separate from the docket file for the underlying proceeding in the Commission's records.

4. This Atomic Safety and Licensing Board for Special Proceeding may be designated as the "Special Board" and the Atomic Safety and Licensing Board which had preferred the charges of professional misconduct now before this Special Board may be designated as the "Hearing Board".

5. Hereafter, except for possible additions to the service list as provided for below, the service list for the special proceeding shall consist of members of the Special Board, the attorneys who have entered general or special appearances for parties involved in the special proceeding, and Chief, Docketing and Service Branch, Office of the Secretary, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Any person on the service list for the underlying proceeding and not identified above may be placed on the service list for the special proceeding upon written request within ten (10) days of the date hereof to the above

Chief, Docketing and Service Branch. This order shall be mailed to everyone on the service list for the underlying proceeding.

Dated at Washington, D.C., this 1st day of February 1978.

VALENTINE B. DEALE,
Chairman, Atomic Safety and Licensing Board for Special Proceeding.

[7590-01]

[Docket Nos. 50-514, 50-515]

PORTLAND GENERAL ELECTRIC CO., ET AL., (PEBBLE SPRINGS NUCLEAR PLANT, UNITS 1 AND 2)

Order Postponing Resumption of Evidentiary Hearing

On December 15, 1977, this Board issued an Order Establishing Schedule For Resumption of Evidentiary Hearing. The hearing was to be resumed on Tuesday, February 14, 1978, at 9 a.m., local time, in the U.S. Court of Appeals Courtroom, The Pioneer Courthouse, 555 Southwest, Yamhill, Portland, Ore. 97204.

At the request of the NRC Staff the proposed session of the evidentiary hearing is being postponed. The Staff advises that it is impossible at this time to indicate when their proposed testimony will be available. Accordingly, the resumption of the evidentiary hearing is postponed until further order of this Board.

Dated at Bethesda, Md., this 1st day of February 1978.

It is so ordered.

For the Atomic Safety and Licensing Board.

JAMES R. YORE,
Chairman.

PETITIONS FOR RULE MAKING

Issuance of Quarterly Report

The Nuclear Regulatory Commission has issued the first quarterly report on petitions for rulemaking. This report is issued in accordance with 10 CFR 2.802 and is a quarterly summary of petitions for rulemaking that are pending final action.

A copy of this report, designated NRC Petitions for Rule Making Pending Final Action as of December 31, 1977, is available for inspection and copying at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C.

Requests for single copies of this report, or requests to be placed on an automatic distribution list for single copies of future reports, should be made in writing to the Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

Dated at Bethesda, Md., this 1st day of February 1978.

For the Nuclear Regulatory Commission.

JOSEPH M. FELTON,
Director, Division of Rules and Records, Office of Administration.

[7590-01]

[Docket Nos. 50-237, 50-249, 50-254 and 50-265]

COMMONWEALTH EDISON CO. AND IOWA-ILLINOIS GAS & ELECTRIC CO.

Issuance of Amendments to Facility Operating Licenses and Negative Declaration

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment Nos. 34, 31, 43, and 41 to Facility Operating License Nos. DPR-19, DPR-25, DPR-29, and DPR-30 (respectively), issued to the Commonwealth Edison Co. (and, in the matter of License Nos. DPR-29 and DPR-30, the Iowa-Illinois Gas & Electric Co.), which revised the licenses for operation of Unit Nos. 2 and 3 of the Dresden Nuclear Power Station (located in Grundy County, Ill.) and Unit Nos. 1 and 2 of the Quad Cities Nuclear Power Station (located in Rock Island County, Ill.). These amendments are effective as of their date of issuance.

The amendments authorize modification of the spent fuel pools at Dresden Station Unit Nos. 2 and 3 to accommodate increased storage of spent fuel from Dresden Station and modification of both spent fuel pools at Quad Cities Station Unit Nos. 1 and 2 to accommodate spent fuel from Quad Cities Station. In addition, the amendments authorize storage of spent fuel discharged from any Dresden Unit in the spent fuel pool of either Dresden Unit Nos. 2 or 3, and the storage of spent fuel discharged from either Quad Cities unit in either Quad Cities spent fuel pool.

The Commonwealth Edison Co.'s (the licensee) request to permit storage of Dresden and Quad Cities Stations fuels in either the storage pools of Dresden Unit Nos. 2 and 3 or Quad Cities Unit Nos. 1 and 2 was not authorized as proposed in the Commission's earlier notices of the below listed dates and FEDERAL REGISTER citations since the licensee withdrew this portion of the application.

The application, as supplemented and amended, for the amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments. Notice of Consideration of Proposed Modification to Facility Spent Fuel Storage Pool in connection with these amendments was published in the FEDERAL REGISTER on August 5, 1976 (41 FR 32798 for Dresden Unit Nos. 1 and 2, and 41 FR 32799 for Quad Cities Unit Nos. 1 and 2). No request for a hearing or petition for leave to intervene was filed following notice of the proposed action.

The Commission has prepared an Environmental Impact Appraisal of the action being authorized and has concluded that an environmental impact statement for this particular action is not warranted because there will be no environmental impact attributable to the action significantly greater than that which has been predicted and described in the Commission's Final Environmental Statement for the Quad Cities facility dated September 1972 and the Dresden facility dated November 1973, and the action will not significantly affect the quality of the human environment.

For further details with respect to this action, see (1) the application for amendment dated September 17, 1975 and supplements thereto dated December 8, 1975, April 23, September 29, October 20, December 7, 1976, February 18, and December 12, 1977, (2) Amendment Nos. 34 and 31 to License Nos. DPR-19 and DPR-25, and Amendment Nos. 43 and 41 to License No. DPR-29 and DPR-30, (3) the Commission's concurrently issued related Safety Evaluation, and (4) the Commission's concurrently issued Environmental Impact Appraisal. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and for those items relating to Dresden Unit Nos. 2 and 3 at the Morris Public Library, 604 Liberty Street, Morris, Ill. 60450, and for those items relating to Quad Cities Unit Nos. 1 and 2 at the Moline Public Library, 504 17th Street, Moline, Ill. 60625. A copy of items (2), (3), and (4) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Md., this 30th day of January 1978.

For the Nuclear Regulatory Commission.

DON K. DAVIS,
Acting Chief, Operating Reactors Branch No. 2, Division of Operating Reactors.

[FR Doc. 78-3240 Filed 2-6-78; 8:45 am]

[7590-01]

[Docket No. 50-334]

DUQUESNE LIGHT COMPANY, ET AL.

Hearing on Amendment of Facility Operating License

The U.S. Nuclear Regulatory Commission on January 27, 1977, published in the FEDERAL REGISTER, 42 FR 5155, a "Proposed Issuance of the Amendment to Facility Operating License" relating to the above-identified facility. The proposed amendment would permit an increase in the spend fuel storage capacity at the Beaver Valley Power Station. An opportunity was afforded to interested parties to request a hearing with regard thereto.

The City of Pittsburgh filed a petition to intervene and requested a hearing in response to the above notice in the FEDERAL REGISTER. That petition was granted and a hearing ordered by the Atomic Safety and Licensing Board which had been established to hear such petitions. Notice of this action was published in the FEDERAL REGISTER, 42 FR 18459, on April 7, 1977.

Please take notice that the evidentiary hearings in this proceeding will commence at 1:30 p.m., March 13, 1978, at the Nuclear Regulatory Commission Hearing Room, 5th Floor, East/West Towers Building, 4350 East/West Highway, Bethesda, Md.

It is so ordered.

For the Atomic Safety and Licensing Board.

Issued at Bethesda, Md., this 1st day of February 1978.

IVAN W. SMITH,
Chairman.

[7590-01]

[Docket No. 50-302]

FLORIDA POWER CORP. ET AL.

Issuance of amendment to Facility Operating License and Negative Declaration

The U.S. Nuclear Regulatory Commission (the Commission) has issued amendment No. 12 to facility operating license No. DPR-72, issued to the Florida Power Corp., city of Alachua, city of Bushnell, city of Gainesville, city of Kissimmee, city of Leesburg, city of New Smyrna Beach and Utilities Commission, city of New Smyrna Beach, city of Ocala, Orlando Utilities Commission and city of Orlando, Sebring Utilities Commission, Seminole Electric Cooperative, Inc., and the city of Tallahassee (the licensees) which revised technical specifications for operation of the Crystal River unit No. 3 nuclear generating plant located in Citrus County, Fla. The amendment is effective as of the date of issuance.

The amendment waives the requirement to perform weekly quantitative sampling of fish and shellfish from the intake screens during the period intake canal modifications are being conducted. The requirement to perform daily visual checks of the screens has been retained.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

the Commission has prepared an environmental impact appraisal for the revised technical specifications and has concluded that an environmental impact statement for this particular action is not warranted because there will be no environmental impact attributable to the action other than that which has already been predicted and described in the Commission's final environmental statement for the facility.

For further details with respect to this action, see: (1) The application for amendment dated November 8, 1977, (2) amendment No. 12 to license No. DPR-72, and (3) the Commission's related environmental impact appraisal. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and at the Crystal River Public Library, Crystal River, Fla. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Md., this 23rd day of January 1978.

For the Nuclear Regulatory Commission.

ROBERT W. REID,
Chief, Operating Reactors Branch No. 4, Division of Operating Reactors.

[7590-01]

[Docket No. 50-250]

FLORIDA POWER & LIGHT CO.

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued amendment No. 32 to facility operating license No. DPR-31, issued to Florida Power & Light Co., for operation of the Turkey Point nuclear generating unit No. 3 located in Dade County, Fla. The amendment is effective as of the date of issuance.

The amendment to the operating license will allow continued operation of Turkey Point unit No. 3 for the next six equivalent full-power months of operation (EFPM) at which time the steam generators shall be inspected, unless: (1) An inspection of the steam generators has previously been performed within the six EFPM period, or (2) an acceptable analysis of the susceptibility for stress corrosion cracking of tubing is submitted to explicitly justify continued operation beyond the authorized six EFPM period.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR §51.5(d)(4) an environmental impact statement, negative declaration or environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For futher details with respect to this action, see: (1) The application for amendment dated December 29, 1977, as modified by letter dated January 18, 1978, (2) amendment No. 32 to license No. DPR-31, and (3) the Commission's related safety evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and at the Environmental and Urban Affairs Library, Florida International University, Miami, Fla. 33199. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Md., this 31st day of January 1978.

For the Nuclear Regulatory Commission.

GEORGE LEAR,
Chief, Operating Reactors Branch No. 3, Division of Operating Reactors.

[7590-01]

[Docket No. 50-285]

OMAHA PUBLIC POWER DISTRICT

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 37 to Facility Operating License No. DPR-40 issued to Omaha Public Power District which revised technical specifications for operation of the Fort Calhoun Station, Unit No. 1, located in Washington County, Nebr. The amendment is effective as of its date of issuance.

The amendment deletes Specifications 5.12—Respiratory Protection Program—which was superseded by the amended section 20.103 of 10 CFR 20.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated September 29, 1977, (2) Amendment No. 37 to License No. DPR-40, and (3) the Commission's letter dated January 31, 1978. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and at the Blair Public Library, 1665 Lincoln Street, Blair, Nebr. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C., 20555, Attention: Director, Division of Operating Reactors

Dated at Bethesda, Md., this 31st day of January 1978.

For the Nuclear Regulatory Commission.

GEORGE LEAR,
Chief, Operating Reactors Branch No. 3, Division of Operating Reactors.

[7590-01]

[Docket No. 50-333]

POWER AUTHORITY OF THE STATE OF NEW YORK

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 33 to Facility Operating License No. DPR-59, issued to Power Authority of the State of New York (the licensee), which revised technical specifications for operation of the James A. FitzPatrick Nuclear Power Plant (the facility) located Oswego County, N.Y. The amendment is effective as of its date of issuance.

This amendment revises the technical specifications to give positive indication that a safety-relief valve has opened. The amendment also corrects a typographical error relating to the pressure of the reactor coolant system.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment submitted by letter dated March 25, 1977, (2) Amendment No. 33 to License No. DPR-59, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and at the Oswego County Office Building, 46 East Bridge Street, Oswego, N.Y. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Md., this 27th day of January 1978.

[Docket No. 50-272]

PUBLIC SERVICE ELECTRIC AND GAS CO.

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 10 to Facility Operating License No. DPR-70, issued to Public Service Electric and Gas Co., Philadelphia Electric Co., Delmarva Power and Light Co. and Atlantic City Electric Co. (the licensees), which revised the operating license for Salem Nuclear Generating Station, Unit No. 1 (the facility) located in Salem County, N.J. The amendment is effective as of its date of issuance.

The amendment consists of (1) changes to the administrative controls portion of the technical specifications and (2) deletion of section 6.12, "Respiratory Protection Program" in accordance with the revocation provisions of the current specifications.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated December 13, 1977, (2) Amendment No. 10 to License No. DPR-70, and (3) the Commission's letter dated January 31, 1978. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and at the Salem Free Public Library, 112 West Broadway, Salem, N.J. A copy of items (2) and (3) may be obtained upon request

[7590-01]

[Docket Nos. 50-259, 50-260, and 50-296]

TENNESSEE VALLEY AUTHORITY

Issuance of Amendments to Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (the Commission) has issued amendment No. 35 to facility operating license No. DPR-33, amendment No. 32 to facility operating license No. DPR-52, and amendment No. 9 to facility operating license No. DPR-68 issued to Tennessee Valley Authority (the licensee), which revised technical specifications for operation of the Browns Ferry nuclear plant, unit Nos. 1, 2, and 3, (the facility) located in Limestone County, Ala. The amendments are effective as of the date of issuance.

Amendment No. 35 to DPR-33 changes the technical specifications to incorporate the limiting conditions for operation associated with cycle 2 operation of Browns Ferry nuclear plant unit 1. These changes involve a revised fuel cladding integrity safety limit for minimum critical power ratio (MCPR), revised operating limit MCPR's for both 7 x 7 and 8 x 8 fuel assemblies, the addition of linear heat generation rate (LHGR) limits for the 8 x 8 fuel, revised limits for the maximum average planar linear heat generation rate (MAPLHGR) for the 7 x 7 and 8 x 8 fuel assemblies, and reduced limits for scram insertion times. The revised MAPLHGR limits are based on the results of a new evaluation of the emergency core cooling system (ECCS) performance submitted in compliance with our order for modification of license dated March 11, 1977. This amendment terminates the March 11, 1977, order. In addition a restriction on power operation during the initial startup for cycle 2 has been imposed until sufficient high temperature recirculation has taken place to ensure disintegration of a rubber shoecover that had fallen into the unit 1 vessel during the refueling outage.

Amendment Nos. 35 to DPR-33, 32 to DPR-52, and 9 to DPR-68 change the technical specifications for each of the Browns Ferry nuclear plant units to clarify the operability requirements of the rod worth minimizer and the rod sequence control system during scram time testing, delete the annual operating report requirements, add standards for qualifications of the health physics supervisor, change the frequency of cycling fire protection system valves from quarterly to annually, and substitute revised, but equivalent, terms in the equations for the limiting settings on the average power range monitors' scram and rod block setpoints.

The applications for the amendments comply with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments. Notice of proposed issuance of amendment to facility operating license in connection with this action was published in the FEDERAL REGISTER on September 15, 1977 (42 FR 46430), and on November 1, 1977 (42 FR 57186). No request for a hearing or petition for leave to intervene was filed following notice of the proposed action.

The Commission has determined that the issuance of these amendments will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) and environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of these amendments.

For further details with respect to this action, see: (1) The applications for amendments dated January 12, May 11, July 8; September 23, 26, 27; October 28; November 16; December 13, 1977; and January 3, 1978, (2) amendment No. 35 to license No. DPR-33, amendment No. 32 to license No. DPR-52, and amendment No. 9 to License No. DPR-68, and (3) the Commission's related safety evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and at the Athens Public Library, South and Forrest, Athens, Ala. 35611. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Md., this 10th day of January 1978.

For the Nuclear Regulatory Commission.

A. SCHWENCER,
Chief, Operating Reactors Branch No. 1, Division of Operating Reactors.

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS WORKING GROUP ON SAFEGUARDS AND SECURITY

Notice of Meeting

The ACRS Working Group on Safeguards and Security will hold a meeting on February 22, 1978, in Room 1046, 1717 H Street NW., Washington, D.C. 20555, to discuss the effectiveness of physical security measures for nuclear facilities.

In accordance with the procedures outlined in the FEDERAL REGISTER on October 31, 1977, page 56972, oral or written statements may be presented by members of the public, recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Working Group, its consultants, and staff. Persons desiring to make oral statements should notify the designated Federal employee as far in advance as practicable so that appropriate arrangements can be made to allow the necessary time during the meeting for such statements.

The agenda for subject meeting shall be as follows:

Wednesday, February 22, 1978: 8:30 a.m. until the conclusion of business.

The Working Group may meet in executive session, with any of its consultants who may be present, to explore and exchange their preliminary opinions regarding matters which should be considered during the meeting and to formulate a report and recommendations to the full Committee.

At the conclusion of the executive session, the Working Group will hear presentations by and hold discussions with representatives of the NRC staff and their consultants, pertinent to this review.

The Working Group may then caucus to determine whether the matters identified in the initial session have been adequately covered and whether the project is ready for review by the full Committee.

In addition, it may be necessary for the Working Group to hold one or more closed sessions for the purpose of exploring matters involving proprietary information. I have determined, in accordance with Subsection 10(d) of Pub. L. 92-463, that, should such sessions be required, it is necessary to close these sessions to protect proprietary information (5 U.S.C. 552b(c)(4)).

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the designated Federal employee for this meeting, Mr. John C. McKinley, telephone 202-634-1371, between 8:15 a.m. and 5 p.m., e.s.t.

Dated: February 3, 1978.

SAMUEL J. CHILK,
Secretary of the Commission.

OFFICE OF MANAGEMENT AND BUDGET

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on January 27, 1978 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

The symbol (x) identifies proposals which appear to raise no significant issues, and are to be approved after brief notice through this release.

Further information about the items on this Daily List may be obtained from the Clearance Office, Office of Management and Budget Washington, D.C. 20503, 202-395-4529.

NEW FORMS

U.S. INTERNATIONAL TRADE COMMISSION

U.S. Purchasers' Questionnaire on Ice Hockey Sticks, single time, business firms, Louis C. Kincannon, 395-3211.

DEPARTMENT OF AGRICULTURE

Agricultural Stabilization & Conservation Service, Grain Storage Survey, single time, farm operators warehousemen, Charles A. Ellett, Office of Federal Statistical Policy and Standards, 395-6132.

DEPARTMENT OF JUSTICE

Material Assistance Program Evaluation Questionnaire, LEAA-7380/3, single time, State law enforcement planning agency (56), Laverne V. Collins, 395-3214.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education, Program Administrative Review, BEH, annually, OE-9066, SEAS, LEAS, INSTS. parent groups, adv. panels, Human Resources Division, Laverne V. Collins, 395-3532.

REVISIONS

VETERANS ADMINISTRATION

Request for Training Supplies, 22-1905M, on occasion, Schools, Housing, Veterans and Labor Division, 395-3532.

DEPARTMENT OF COMMERCE

Bureau of the Census, Annual Survey of Oil and Gas, MA-13K, annually, operators and lessees of oil and gas field properties, Louis C. Kincannon, Office of Federal Statistical Policy and Standards, 395-3211.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration, Quick Response Surveys, Patient Package Inserts, other (See SF 83), telephone households in a national probability sample, Richard Eisinger, Office of Federal Statistical Policy and Standards, 395-3214.

National Institutes of Health, Multiple Risk Factor Intervention Trial, other (See SF 83), individuals at high risk death from coronary disease, Richard Eisinger, Office of Federal Statistical Policy and Standards, 395-3214.

EXTENSIONS

VETERANS ADMINISTRATION

Application for Nonmedical Insurance Age 50 and Under, 29-353A, on occasion, insured veteran, Housing, Veterans and Labor Division, 395-3532.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration:

Establishment License Application for Manufacture of Blood and Blood Components, FD-2599, on occasion, manufacturers of blood and blood components, Human Resources Division, Richard Eisinger, 395-3532.

Supplement To Establishment License Application for Manufacture of Blood and Blood Components, Human Resources Division, Richard Eisinger, 395-3532.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration:

Application for Air Taxi Commercial Operator Certificate Under FAR Part 135, FAA-8000-6, on occasion, private individuals/firms, Economic and General Government Division, Arnold Strasser, 395-4892.

Application for Pilot School Certificate, FAA-8420-8, on occasion, proprietors/firms, Economic and General Government Division, Arnold Strasser, 395-4892.

VELMA N. BALDWIN,
Assistant to the Director for Administration.

RAILROAD RETIREMENT BOARD

DETERMINATION UNDER SECTION 2(h)(4) OF THE RAILROAD UNEMPLOYMENT INSURANCE ACT OF THE ENDING OF A "PERIOD OF HIGH UNEMPLOYMENT", AS DEINFED IN SECTION 2(h)(2) OF THAT ACT

In accordance with the provisions of section 2(h)(4) of the Railroad Unemployment Insurance Act (45 U.S.C. § 352(h)(4)) as amended, the Railroad Retirement Board has determined that the "period of high unemployment" (as defined in section 2(h)(2) of that Act), which began on September 2, 1977, shall end with January 27, 1978. Consequently, no extended benefit period under the second proviso of section 2(c) of that Act shall begin after that date.

By Authority of the Board.

Dated: January 30, 1978.

R. F. BULTER,
Secretary of the Board.

SECURITIES AND EXCHANGE COMMISSION

[812-4260; Release No. 10106]

ADOLF MARCUS ET AL.

And Order of Temporary Application Exemption Pending Determination of the Application

JANUARY 27, 1978.

In the matter of Adolf Marcus, 12 Quai Bustave Ador, Geneva, Switzerland; Philip S. Sassower, 791 Park Avenue, New York, N.Y., Lawrence I. Schneider, 61 Saw Mill Lane, Greenwich, Conn., Alexander Goren, 65 Sharet Street, Tel Aviv, Israel.

Notice is hereby given that Adolf Marcus, Philip S. Sassower, Lawrence I. Schneider and Alexander Goren ("Applicants") have filed an application pursuant to Section 9(c) of the Investment Company Act of 1940 (the "Act") for an order exempting Applicants, and any company of which any of them presently is or in the future may become an affiliated person, from the provisions of Section 9(a) of the Act, and, without prejudice to the Commission's consideration of such exemption, for an order of temporary exemption from Section 9(a) pending the Commission's determination of The Application for permanent exemption. All interested persons are referred to the application on file with the Commission for a statement of the representations made therein which are summarized below.

Applicants state that they are controlling stockholders of Arcs Equities Corp. ("Arcs"). Applicant Marcus served as a Director of Arcs from about May, 1974, until June, 1976, and has been a Director of Bates Manufacturing Company, Incorporated ("Bates") from about March, 1975, to the present. Applicant Sassower since about May, 1972, to the present has been a Director of Arcs and the President and a Director of Bates. Applicant Schneider since about May, 1972, to the present has been President and a Director of Arcs and Chairman of the Board of Directors of Bates.

Applicants represent that Arcs is the owner of 748,643 shares of common stock of Bates, representing approximately 37% of the Bates stock outstanding, and contend that through its working control of Bates Arcs is primarily engaged in the business presently conducted by Bates. Bates is a holding company principally engaged, through a subsidiary in the leasing and subleasing of coal lands, and in selling the coal produced by others.

On January 25, 1978, in an action styled *Securities and Exchange Commission* v. *Bates Manufacturing Company, et al.*, 78 Civ. 0130 (the "Bates action"), the United States District Court for the District of Columbia entered Final Judgments of Permanent Injunction against Applicants, Arcs, Bates and others enjoining them from violating various provisions, including with respect to Applicants Sections 10(b), 13(a), 13(d), 14(a) and 14(e), of the Securities Exchange Act of 1934 ("Exchange Act").

Applicants represent that they agreed to consent to the entry of the Final Judgments against them in order to avoid active litigation with the Commission, which would have involved substantial inconvenience and expense. Applicants agreed to settle the litigation and gave their consent to the entry of the final judgments without admitting or denying the allegations in the Commission's Complaint.

Section 9(a)(2) of the act, as here pertinent, makes it unlawful for any person who, by reason of misconduct, is permanently or temporarily enjoined by order, judgment or decree of any court of competent jurisdiction from engaging in or continuing any conduct or practice in connection with the purchase or sale of any security, to serve or act in the capacity of employee, officer or director of any registered investment company. Section 9(a)(3) makes it unlawful for a company, any affiliated person of which is ineligible by reason of Section 9(a)(2), to serve or act in any of the enumerated capacities.

Section 9(c) provides that upon application the Commission by order shall grant an exemption from the provisions of section 9(a) either unconditionally or on an appropriate temporary or other conditional basis, if it is established that the prohibitions of section 9(a), as applied to the Applicants, are unduly or disproportionately severe or that the conduct of such person has been such as not to make it against the public interest or protection of investors to grant such application.

To the extent that section 9(a) is applicable by virtue of the Judgments entered against Applicants, they are disqualified from serving or acting in any of the capacities set forth in section 9(a).

For the following reasons, Applicants submit (1) that the prohibitions of section 9(a) would be unduly and disproportionately severe if applied to Applicants and (2) that the Applicants' conduct has been such as not to make it against the public interest or the protection of investors to grant the requested permanent exemption under section 9(c) of the Act. These contentions are based on the following representations by Applicants:

1. Arcs filed on January 27, 1978, an application pursuant to sections 6(c) and 6(e) of the Act for an Order of the

Commission granting Arcs a temporary exemption from section 7 of the Act on the terms and conditions outlined therein until such time as the Commission has acted upon Arcs' previous applications under the Act pursuant to section 3(b)(2) and section 6(c) (File 812-4106). As a result of the application filed pursuant to sections 6(c) and 6(e) of the Act, Arcs has agreed that if the Commission exempts Arcs from the provisions of section 7 of the Act, Arcs and other persons in their transactions and relations with it shall be subject to all other provisions of the Act and the rules and regulations thereunder as though Arcs were a registered investment company, other than certain designated sections of the Act set forth in the application. The Order of the Commission requested by Arcs, if granted, would be on the condition that Arcs effect the submission of a plan of complete liquidation and dissolution of Arcs to its stockholders and consummate the plan by the earlier of the liquidation of Arcs as described in the application of Arcs or June 30, 1978. During the pendency of the foregoing, the prohibitions of section 9(a) would deprive Arcs and its stockholders of the services of Mr. Schneider, President and a Director of Arcs, and Mr. Sassower, a Director of Arcs.

2. Applicants represent that the activities of Applicants with regard to the matters covered by the Bates action have not resulted in direct pecuniary benefit for Applicants, and there was no intent to violate any law.

3. In compliance with the terms of the Final Judgment entered against Arcs in the Bates action, Arcs has agreed to establish an audit committee, the members of which will be new independent directors satisfactory to the Commission, and the deliberations of the committee will not be participated in by the Applicants. Such committee will review all material transactions during the remaining corporate existence of Arcs, including its proposed liquidation and dissolution, subject to review by the Arcs board of directors.

4. Applicants state that they have never before been required to apply for an exemption from the provisions of section 9(a) of the Act.

5. Applicants represent Mr. Sassower and Mr. Schneider have heretofore been been engaged actively in the securities business, although they are not presently so engaged. The prohibitions of section 9(a) would deprive Applicants of their ability to serve as directors and officers of Arcs, or serve in any of the other capacities referred to in section 9(a), thereby potentially jeopardizing their livelihoods. The applicants also represent that the Commission has taken the position that it would not oppose, solely on the basis of the entry of the Final Judgments in the Bates action, any application for reaffiliation with a broker-dealer or for affiliation with an investment adviser which Applicants Sassower or Schneider may make in the future.

6. Applicants further represent that the Commission has taken the position that the Arcs and Bates action would not affect Applicants continuing (except as specifically set forth in the Applicants' consents and undertakings in the Bates action) in any of the capacities in which they have been employed or retained by Arcs, Bates or any other entities in which they may be so employed in the future.

For the reasons discussed above, Applicants also submit that the issuance of a temporary exemption from the prohibitions under section 9(a) of the Act is appropriate. Applicants represent that such a temporary exemption would assure continuity of essential operations of Arcs and Bates and protect their respective stockholders until a final determination can be made with regard to the application for a permanent exemption. Applicants further represent that seciton 9(c) of the Act expressly provides for "temporary" exemptions from the application of section 9(a), under appropriate circumstances, and that the Commission has exercised this authority in other cases in the past.

The Commission has considered the matter and finds that (1) the prohibitions of section 9(a) might be unduly or disprotionately severe as applied to Applicants, and (2) the conduct of Applicants has been such as not to make it against the public interest or protection of investors to grant the application for a temporary exemption from section 9(a) pending determination of the application.

Accordingly, *it is ordered*, Pursuant to section 9(c) of the Act that Applicants, and any company of which any of them presently is an affiliated person, be and they hereby temporarily exempted from the provisions of section 9(a) of the Act, operative as a result of the entry of the injunction against Applicants in the Bates action, pending determination by the Commission of Applicants' application for an order unconditionally exempting them from the provisions of section 9(a) operative as a result of the entry of such injunction.

Notice is further given that any interested person may, not later than February 21, 1978, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address set forth above. Proof of such service (by affidavit or in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided in Rule O-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

[8010-01]

[Release No. 14422; SR-AMEX 77-25]

AMERICAN STOCK EXCHANGE

Order Approving Proposed Rule Change

JANUARY 27, 1978.

In the Matter of American Stock Exchange, 86 Trinity Place, New York, N.Y. 10006.

On October 3, 1977, the American Stock Exchange, Inc. ("AMEX") filed with the Commission, pursuant to section 19(b) of the Securities Exchange Act of 1934 (the "Act"), as amended by the Securities Acts Amendments of 1975, and Rule 19b-4 thereunder, copies of a proposed rule change to amend Rule 421 and Rule 924 governing supervisory approval procedures pertaining to discretionary power in customer accounts. The proposal, among other things, requires a written statement of such supervisory procedures and eliminates the annual inquiry into the customer's interest in continuing a descretionary account.[1]

[1] As initially filed, the AMEX proposed to change section (a) of AMEX Rule 421 to eliminate the initialing and approving by supervisory personnel of discretionary orders on the day of entry. The staff has determined that it would require additional time to consider further whether proposed section (a) of AMEX Rule 421 would be consistent with the requirements of the Act. Accordingly, the AMEX has agreed by letter to a 21 day extension of time, beginning after AMEX's filing of an amendment to proposed Rule 421(a), for Commission action as specified in section 19(b)(2) of the

Notice of the proposed rule change together with the terms of substance of the proposed rule change was given by publication of a Commission Release (Securities Exchange Act Release No. 34-14178 (November 16, 1977)) and by publication in the FEDERAL REGISTER (42 Fed. Reg. 60821 (November 29, 1977)).

The Commission finds that the proposed rule change, except as to section (a) of proposed AMEX Rule 421, is consistent with the requirements of the Act and the rules and regulations thereunder applicable to national securities exchanges, and in particular, the requirements of section 6, as appropriate, and the rules and regulations thereunder.

It is therefore ordered, Pursuant to section 19(b)(2) of the Act, that the above-mentioned proposed rule change except with respect to section (a) of proposed AMEX Rule 421 be, and it hereby is, approved.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary

[FR Doc. 78-3194 Filed 2-6-78; 8:45 am]

[8010-01]

[Release No. 10107; 812-4237]

MASSACHUSETTS MUTUAL LIFE INSURANCE CO. AND MASSMUTUAL CORPORATE INVESTORS INC.

Filing of Application

JANUARY 27, 1978.

Notice is hereby given, That Massachusetts Mutual Life Insurance Co. ("Insurance Company"), a mutual life insurance company organized under the laws of the Commonwealth of Massachusetts, and MassMutual Corporate Investors Inc. ("Fund") (hereinafter referred to collectively with the Insurance Company as "applicants"), a non-diversified, closed-end management investment company registered under the Investment Company Act of 1940 ("Act"), filed an application on November 25, 1977, and an amendment thereto on January 17, 1978, pursuant to section 17(d) of the Act and Rule 17d-1 thereunder for an order of the Commission permitting the Insurance Company to purchase, at direct placement, $7,000,000 in principal amount of a new issure of 9.25% 15-Year Senior Notes of WellTech, Inc. ("WellTech"). All interested perons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

The application states that pursuant to an order of the Commission issued August 19, 1971 (Investment Company Act Release No. 6690) ("Original Order"), the Insurance Company, which acts as investment adviser to the Fund, is permitted to invest concurrently for its general account in each issue of securities purchased by the Fund at direct placement and to exercise warrants, conversion privileges and other rights at the same time as the Fund. The Original Order is subject to several conditions, one of which requires, generally, that purchases at direct placement of securities which would be consistent with the investment policies of the Fund be shared equally by the Insurance Company and the Fund. Another condition is that, once the Insurance Company and the Fund have acquired interests in an issuer, neither the Insurance Company nor the Fund, unless otherwise permitted by order of the Commission, may acquire any further interest in such issuer other than interests in all respects identical.

The application states that the Insurance Company proposes to purchase, at direct placement, $7,000,000 in principal amount of a new issue of 9.25 percent 15-Year Senior Notes of WellTech ("New Notes"); it is expected that the total issue of the New Notes will be $10,000,000, with the remaining $3,000,000 in principal amount to be purchased by another investor.

According to the application, the Insurance Company and the Fund each hold $1,095,000 in principal amount of WellTech 10½ percent Subordinated Notes due 1987 ("Non-Convertible Notes") and $405,000 in principal amount of WellTech 10½ percent Convertible Subordinated Notes dues 1989 ("Convertible Notes") (hereinafter referred to with the Non-Convertible Notes as "Jointly-Held Notes"). The application states that the Insurance Company also holds 72,375 shares of WellTech common stock, obtained in August, 1977, as a part of a liquidating distribution from a wholly-owned subsidiary.

Applicants represent that neither the Insurance Company nor any affiliated person of the Insurance Company, nor the Fund nor any affiliated person of the Fund (except one of the Fund's directors who owns 200 shares of WellTech common stock) own any securities of WellTech other than those described above. According to the application, WellTech is engaged in the well servicing segment of the oilfield services industry; WellTech has represented to the Insurance Company that it intends to apply the proceeds from the sale of the New Notes to pay down revolving credit bank debt, applying any balance thereafter to purchase new equipment. Applicants also state that WellTech has represented that the proceeds from the sale of the New Notes will not be applied to pay dividends on WellTech common stock nor will such proceeds be applied to pay any interest or principal with respect to any of the WellTech securities now held by applicants.

Applicants state that the Jointly-Held Notes and the Note Purchase Agreements with respect thereto were modified effective December 1, 1977, relinquishing Applicants' second lien on WellTech's receivables and rigs in consideration of the following: (1) relinquishment of the first lien on said receivables and rigs by certain banks under a revolving credit/term loan agreement with WellTech; (2) extension from April 1, 1981 to April 1, 1983 of the non-callable feature of the Non-Convertible Notes; and (3) restriction of the callable feature of the Convertible Notes so that they will not be callable unless the average prices of WellTech's common stock is at least 250 percent (previously 200 percent) of the conversion price. According to the application, the Fund's Board of directors, by their unanimous written consent, approved said modifications and determined that they were in the best interests of the Fund.

Applicants also state that the Jointly-Held Notes will be subordinate to the New Notes and, as such, junior and subject in right of payment to the extent and in the manner set forth in the Note Purchase Agreements to the Jointly-Held Notes; they add that such Notes Purchase Agreements did not prohibit or require the approval of either the Insurance Company or the Fund to the issuance of the New Notes by WellTech. According to the application, the Fund's Board of Directors, by unanimous written consent, approved the purchase of the New Notes by the Insurance Company, without participation by the Fund in such investment, as in the best interests of the Fund.

Applicants represent that at the time of the Issuance of the Jointly-Held Notes, the Insurance Company did not contemplate any investment in the New Notes, nor was the Insurance Company's acquisition of WellTech common stock or its purchase of the Jointly-Held Notes tied to or induced by any discussions with respect to the purchase and sale of the New Notes or any similar securities. Applicants state that the proposed sale of the New Notes by WellTech to the Insurance Company is in no way connected to the sale of the Jointly-Held Notes to the Insurance Company in March, 1977, or to any other sale of securities to the Insurance Company or the Fund by WellTech other than by virtue of the fact that the Insurance Company had an established relation-

---

Act. Such was transmitted to the Commission by letter from Delia M. Emmons, Secretary of the AMEX to Theodore W. Urban, Branch Chief, dated January 18, 1978.

ship with WellTech through the acquisition of WellTech securities.

Applicants submit that the investment policy of the Fund specifies that the principal investments of the Fund will be long-term obligations and, occasionally, preferred stocks, purchased directly from the issuers, if such obligations or preferred stocks have "equity features" such as accompanying shares of common stock or rights to acquire, or to convert such obligations or preferred stocks into, such shares. Applicants represent that the New Notes do not have any accompanying equity features and, therefore, would not be an investment permitted by the investment policies of the Fund. According to the application, the absence of such equity features accompanying the New Notes is attributable to WellTech's stronger present financial condition as compared to its position at the time the commitment was made to purchase the Jointly-Held Notes and, as a result, when WellTech seeks to borrow at the present time it need not offer any equity interest to potential lenders. Applicants represent that, as a result, equity features accompanying the New Notes were not discussed with WellTech by the Insurance Company.

Section 17(d) of the Act and Rule 17d-1 thereunder, taken together, provide, in part, that it is unlawful for an affiliated person of a registered investment company, acting as principal, to effect any transaction in which such registered company is a joint participant, without the permission of the Commission. Rule 17d-1 provides, in part, that in passing upon applications for orders granting such permission, the Commission will consider (1) whether the participation of the investment company in such transaction on the basis proposed is consistent with the provisions, policies and purposes of the Act and (2) the extent to which such participation is on a basis different from or less advantageous than that of other participants. The Original Order permitting concurrent investment in an issue by the Insurance Company and the Fund prohibits both the Insurance Company and the Fund from acquiring a further interest in such issues unless such interests are in all respects identical, unless otherwise permitted by order of the Commission. Applicants have therefore filed an application pursuant to the provisions of section 17(d) of the Act and Rule 17d-1 thereunder for an order of the Commission permitting the Insurance Company to acquire $7,000,000 in principal amount of the New Notes notwithstanding ownership by the Insurance Company and the Fund of the Jointly-Held Notes, and by the Insurance Company of WellTech common stock.

Applicants submit that the proposed investment by the Insurance Company in the New Notes would not be less advantageous to the Fund than to the Insurance Company since investment in the New Notes would be contrary to the Fund's investment policy. The Insurance Company states that, in its view, disadvantage to the Insurance Company will result if it is not permitted to acquire the New Notes and, therefore, that the purpose of this application is to avoid a disadvantage to the Insurance Company. Applicants submit further that the proposed transaction is consistent with the provisions, policies and purposes of the Act.

Applicants state that the Insurance Company has paid the filing fee in connection with this application and will pay any and all filing fees together with any and all other fees or expenses associated with any application required by the proposed investment of the Insurance Company in the New Notes filed or joined in by the Fund to enable the Fund to convert any of its Jointly-Held Notes.

The application states that the Insurance Company is also investment adviser to MassMutual Income Investors, Inc. ("Income Investors"), a closed-end investment company registered under the Act. Applicants represent that Income Investors is subject to an investment policy that it invest at least 75 percent of its total assets in one or more of five categories of high-grade interest-bearing publicly traded debt securities and in cash or cash equivalents. In addition, Income Investors is subject to an investment restriction that it invest not more than 25 percent of its assets in certain types of securities of lower ratings or in restricted securities (i.e., those subject to legal or contractual delay in, or restrictions on, resale). According to applicants, as of December 31, 1977, Income Investors had approximately $26.9 million (or 19.7 percent) of its assets invested in or committed to that 25 percent category.

The Insurance Company believes that the New Notes are not an appropriate investment for Income Investors. In the opinion of the Insurance Company, WellTech's operating results (sales and earnings) together with its financial position (as indicated by debt as a percentage of total capitalization and/or by guarantees) are not as strong from a credit standpoint as Income Investors' existing direct placement investments and commitments therefor. Even if additional direct placements are deemed advisable for Income Investors sometime in the future, the Insurance Company states that it would expect to find potential direct placement investments in companies larger than WellTech.

Notice is further given, That any interested person may, not later than February 20, 1978, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon applicants at the address stated above. Proof of such service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[8010-01]

[File No. 81-283]

NEW YORK MAGAZINE COMPANY, INC.

Application and Opportunity for Hearing

JANUARY 26, 1978.

Notice is hereby given that New York Magazine Company, Inc. ("Applicant") has filed an application pursuant to Section 12(h) of the Securities Exchange Act of 1934, as amended (the "1934 Act"), that Applicant be granted an exemption from filing an Annual Report on Form 10-K for the year ended December 31, 1977, and all other reports required to be filed pursuant to Section 13 and 15(d) of the 1934 Act, other than Reports on Form 8-K.

Section 12(g) of the 1934 Act requires the registration of the equity securities of every issuer which is engaged in a business affecting interstate commerce, or whose securities are traded by use of the mails or any means of instrumentality of interstate commerce, and on the last day of the fiscal year has total assets exceeding $1 million and a class of equity securities held of record by 500 or more persons.

Sections 13 and 15(d) of the 1934 Act require that issuers of securities regis-

tered pursuant to Section 12 or that have filed a registration statement that has become effective pursuant to the Securities Act of 1933, must file certain periodic reports with the Commission for the protection of investors and to insure fair dealing in the security.

Section 12(h) of the 1934 Act empowers the Commission to exempt, in whole, or in part, any issuer or class of issuers from the provisions of Sections 12(g), 13, 14 or 15(d) of the 1934 Act, if the Commission finds, by any reason of the number of public investors, amount of trading interest in the securities, the nature and extent of the activities of the issuer, income or otherwise, that such exemption is not inconsistent with the public interest or protection of investors.

The applicant states, in part:

1. Prior to a tender offer by City Post Publishing Corporation (CPPC), applicant was subject to the provisions of section 15(d) of the 1934, Act and its common stock was registered pursuant to section 12(g) of the 1934 Act.

2. As a result of the tender offer, the Applicant became a 99% owned subsidiary of CPPC, and has a total of 96 shareholders.

3. On October 3, 1977, after the Applicant filed a certification pursuant to Rule 12g-4 under the 1934 Act, the Applicant's registration under Section 12(g) was terminated. However, the Applicant is required under Section 15(d) to file an annual report on Form 10-K for the year ended December 31, 1977, and any other reports required to be filed under the 1934 Act.

In the absence of an exemption, Applicant is required to file pursuant to Sections 13 and 15(d) of the 1934 Act and the rules and regulations thereunder, an Annual Report on Form 10-K for the year ending December 31, 1977. Applicant believes that its request for an order exempting it from the provisions of Sections 13 and 15(d) of the 1934 Act is appropriate in view of the fact that Applicant believes that the time, effort and expense involved in preparation of additional periodic reports would be disproportionate to any benefit to the public.

For a more detailed statement of the information presented, all persons are referred to said application which is on file in the offices of the Commission at 500 North Capitol Street, N. W., Washington, D.C.

Notice is further given that any interested person not later than February 21, 1978 may submit to the Commission in writing his views or any substantial facts bearing on this application or the desirability of a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 500 North Capitol Street, N. W., Washington, D.C. 20549, and should state briefly the nature of the interest of the person submitting such information or requesting the hearing, the reason for such request, and the issues of fact and law raised by the application which he desires to controvert. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof. At any time after said date, an order granting the application may be issued upon request or upon the Commission's own motion.

For the Commission, by the Division of Corporation Finance pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[8010-01]

[Release No. 14420; File No. SR-NYSE-76-34]

NEW YORK STOCK EXCHANGE, INC.

Order Extending Time for Conclusion of Proceedings on Proposed Changes to New York Stock Exchange Rule 405

JANUARY 27, 1978.

The New York Stock Exchange, Inc. (the "NYSE") has filed pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act"), 15 U.S.C. 78s(b)(1) and Rule 19b-4 thereunder, 17 CFR 240.19b-4, proposed changes to NYSE Rule 405, the "Know Your Customer" rule.[1]

On November 7, 1977 in Securities Exchange Act Release No. 14143,[2] the Commission instituted proceedings to determine whether the proposed rule changes should be disapproved, gave notice of the proposed grounds for disapproval, and established a 30-day period for submission of written comments and of requests for oral presentations of views. In response to a number of requests, this period was extended until January 1, 1978.[3]

EXTENSION OF TIME FOR COMMISSION ACTION

Pursuant to section 19(b)(2) of the Act, proceedings instituted to determine whether proposed rule changes should be disapproved must be concluded within one hundred eighty days of the date of publication of notice of the filing. The Commission published notice of the amended filing of the proposed changes to Rule 405 on August 9, 1977. Absent an extension of time, Commission proceedings must be concluded on or before February 5, 1978.

Section 19(b)(2) of the Act provides that the Commission may extend the time for conclusion of proceedings to determine whether to disapprove a proposed rule change for up to 60 days if it finds good cause for such extension and publishes its reasons for so finding. For the reasons summarized below, the Commission finds that there is good cause for an extension of the time for conclusion of the proceedings for 60 days, i.e., until April 6, 1978.

Subsequent to the close of the comment period, the Commission received a number of comments on the proposed rule changes from industry representatives. In order that the Commission may evaluate carefully these comments as well as others submitted, consider the requests for oral presentations of views in light of the additional submissions, and allow sufficient time for Commission discussion of the issues presented, the Commission, pursuant to section 19(b)(2) of the Act, for good cause, hereby extends until April 6, 1978, the time for conclusion of the proceedings instituted to determine whether to disapprove the proposed changes to NYSE Rule 405.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

[Release No. 34-14423; File No. SR-PSE-78-1]

PACIFIC STOCK EXCHANGE INC.

Proposed Rule Change

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on January 16, 1978, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

PSE'S STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

The Pacific Stock Exchange Incorporated ("PSE") hereby requests to amend Article I, section 1, Article II, section 1(a), Article III, sections 2(a) and 2(b), and Article XVII, section 1 as follows (brackets indicate deletions and italics indicate additions:)

---

[1] Notice of the amended proposal was given by publication of Securities Exchange Act Release No. 13821 (August 2, 1977) and 42 FR 40290 (August 9, 1977).

[2] 42 FR 59148 (November 15, 1977).

[3] Securities Exchange Act Release No. 14285 (December 16, 1977).

ARTICLE I—FLOORS AND PLACES OF BUSINESS

FLOORS

Sec. 1. The Pacific Stock Exchange Inc. (hereinafter referred to as the "Corporation" or the "Exchange"), shall operate in Los Angeles and in San Francisco, with a trading floor in each city. *The requirement of a trading floor will be deemed to be satisfied by an options trading floor in San Francisco and an equity trading floor in Los Angeles.* The term "Floor" or "Floors" as used herein shall be deemed to mean either or both of said Los Angeles and San Francisco trading floors as the context indicates.

ARTICLE II—GOVERNMENT

BOARD OF GOVERNORS

Sec. 1a. The government of the Exchange shall be vested in a Board of Governors (herein sometimes called "the Board") consisting of [fourteen] *fifteen* elected Governors, and the President of the Exchange, provided that *at least* three of the elected Governors shall be representatives of the public and shall not be, or be affiliated with, a broker or dealer in securities. The Board shall hold regular and special meetings at such times and at such places as it may determine. The Board may act on any matter affecting or concering the Exchange, except as otherwise provided by the Certificate of Incorporation or this Constitution. Except where a larger vote is required under any provisions of the Certificate of Incorporation or this Constitution, the Board may act on any matter within its jurisdiction by vote of not less than a majority of the Governors voting at a meeting at which a quorum is present or written consent of a majority of all Governors.

ARTICLE III—ELECTIONS, MEETINGS, TERM OF OFFICE, PROXIES

ANNUAL ELECTION OF GOVERNORS

Sec. 2(a). The elected Governors shall be divided into three classes, [two of which shall be composed of five Governors, and one of which shall be composed of four Governors. At the annual meeting at which the size of the Board of Governors is expanded from thirteen to fifteen, 5 persons will be elected to serve until the annual meeting held in the second year following the year of election, and one person will be elected to serve until the annual meeting held in the second year following the year of election, and one person will be elected to serve until the annual meeting held in the first year following the year of election. Except for the Governors elected, as provided above, for terms less than three years, the Governors elected in each class shall serve until the annual meeting held in the third year following the year of election. The four Governors composing Class I shall have terms expiring at the annual meeting in 1978, and the terms of Governors in Class I shall expire each three years, thereafter. The five Governors composing Class II shall have terms expiring at the annual meeting in 1979, and the terms of Governors in Class II shall expire each three years thereafter. The five Governors composing Class III shall have terms expiring at the annual meeting in 1980, and the terms of Governors in Class III shall expire each three years thereafter.] *each of which shall be composed of five Governors. The five Governors composing Class I shall have terms expiring at the annual meeting in 1981, and the terms in Class I shall expire each three years thereafter. The five Governors composing Class II shall have terms expiring at the annual meeting in 1979, and the terms in Class II shall expire each three years thereafter. The five Governors composing Class III shall have terms expiring at the annual meeting in 1980, and the terms in Class III shall expire each three years thereafter.* There shall also be elected at each annual meeting a Chairman and a Vice Chairman of the Board to serve for one year from the date of election. The elected Chairman shall be one of the Governors presently in office and the Vice Chairman shall be one of the Governors presently in office or one of the newly elected Governors.

ELIGIBILITY OF GOVERNORS

Sec. 2(b). Of the Governors in each of the Classes specified in Sec. 2(a), above, [one shall be a member of the Exchange,] at least two shall be office members or office allied members of the Exchange, and *at least* one shall be a representative of the public and shall not be, or be affiliated with, a broker or dealer in securities. [There shall be at least two floor members on the Board at all times.] *At all times there shall be two floor members on the Board from the equity trading floor and two floor members on the Board from the options trading floor.*

ARTICLE XVII—AMENDMENT OF THE BY-LAWS

MEMBERSHIP APPROVAL

Sec. 1. The Board of Governors may from time to time amend this Constitution by the affirmative vote of not less than a majority of the Governors voting at a meeting at which a quorum is present. Each such amendment shall thereafter be submitted forthwith to each member of the Exchange, and when and if it is approved in writing by the affirmative vote of at least two-thirds of the members of the Exchange voting, but not less than a majority of the members of the Exchange, it shall thereupon become effective, *provided, however, that any amendment to this Constitution which in any way alters or modifies the provisions of Article I, Section 1, concerning the location of the options and equity trading floors of the Exchange, shall not become effective unless it is approved in writing by the affirmative vote of at least three-fourths of the members of the Exchange voting but not less than a majority of the members of the Exchange.* The Board of Governors may from time to time amend the Rules of this Exchange by affirmative vote of not less than a majority of the Governors voting at a meeting at which a quorum is present or written consent of a majority of all Governors.

PSE's Statement of Basis and Purpose

The basis and purpose of the foregoing proposed rule change is as follows:

The purpose of this proposed rule change is twofold. The first is to increase the size of the PSE Board of Governors from 15 to 16 members. This change necessitated a change in the provisions of the PSE Constitution governing the division of Governors into three classes, and the make-up of the Governors in each class.

The second purpose is to provide that the requirement for a trading floor in both Los Angeles and San Francisco shall be satisifed by an options trading floor in San Francisco and an equity trading floor in Los Angeles. This change necessitated a change in the provisions of the PSE Constitution governing the percentage of affirmative membership votes needed to amend the Constitution concerning the location of the options and equity trading floors of the Exchange from two-thirds to three-fourths of the members of the Exchange voting, but not less than a majority of the members of the Exchange.

The proposed rule change by enlarging the Board of Governors of PSE, facilitates the fair representation of members of PSE in the selection of Governors, and provides for three or more Governors to be representatives of issuers and investors, and not be associated with members, brokers, or dealers.

Comments were neither solicited nor received from members, participants or others on the proposed rule change.

The proposed rule change imposes no burdens on competition.

By March 14, 1978, or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above-mentioned self-regulatory organization consents, the Commission will:

(a) By order approve such proposed rule change, or

(b) Institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file six copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street, NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before February 28, 1978.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

Dated: January 27, 1978.

GEORGE A. FITZSIMMONS,
Secretary.

[4810-22]

DEPARTMENT OF THE TREASURY

Customs Service

CHAIN OF IRON OR STEEL FROM JAPAN

Preliminary Countervailing Duty Determination

AGENCY: United States Customs Service.

ACTION: Preliminary Countervailing Duty Determination.

SUMMARY: This notice is to inform the public that a countervailing duty investigation has resulted in a preliminary determination that the Government of Japan has given benefits on the manufacture or exportation of chain of iron or steel and parts thereof which are considered to be bounties or grants under the Countervailing Duty Law. A final determination will be made by August 1, 1978. Interested parties are invited to comment on this action.

EFFECTIVE DATE: February 7, 1978.

FOR FURTHER INFORMATION CONTACT:

David R. Chapman, Duty Assessment Division, United States Customs Service, 1301 Constitution Avenue NW., Washington, D.C. 20229, telephone: 202-566-5492.

SUPPLEMENTARY INFORMATION: On September 28, 1977, A "Notice of Receipt of Countervailing Duty Petition and Initiation of Investigation" was published in the FEDERAL REGISTER (42 FR 49871). The notice stated that a petition in proper form was received on August 1, 1977, alleging that payments or bestowals conferred by the Government of Japan upon the manufacture, production, or exportation of chains of iron or steel and parts thereof constitute the payment or bestowal of a bounty or grant within the meaning of section 303, Tariff Act of 1930, as amended (19 U.S.C. 1303) (referred to in this notice as "the Act").

The merchandise in this investigation is chains of iron or steel, the links or which are of stock essentially round in cross sections and parts thereof. Chain so described is classified under items 652.24, 652.27, 652.30, 652.33, and 652.35 of the Tariff Schedules of the United States (TSUS).

On the basis of an investigation conducted pursuant to section 159.47(c) of the Customs Regulations (19 CFR 159.47(c)) it has been preliminary determined that benefits are available to Japanese manufacturers/exporters of chains of iron or steel and parts thereof which may constitute bounties or grants within the meaning of the Act. These benefits include:

1. Interest free loans in the form of tax deferrals on funds held in the Overseas Market Development Reserve (OMDR).

2. Export promotional assistance from the Japan External Trade Organization (JETRO). This assistance is general in nature and not oriented to the export promotion of specific products. However, these activities do defray costs which would otherwise be incurred by Japanese chain exporters and to that extent may subsidize that industry.

Programs which have been investigated and determined preliminarily to be not applicable to or not utilized by the Japanese chain industry include:

1. Government financing of new machinery and equipment under the provisions of the "Mechanical Industry Development Temporary Measure Law".

2. Preferential financing to specifically designated industries provided by the Japan Development Bank.

3. Preferential financing and export risk insurance provided by the Export-Import Bank of Japan.

The petitioner also alleged that the rebate of the Japanese commodity tax upon export constitutes a bounty or grant. Treasury does not consider the rebate or remission upon exportation of indirect taxes directly related to the product under investigation as countervailable. Consistent with that policy, Treasury does not consider the rebate of the Japanese commodity tax a bounty or grant. Treasury's policy with regard to the rebate of indirect taxes is presently being challenged in the courts. Pending the outcome of that challenge, the Treasury continues to adhere to its present policy.

A final decision in this case is required on or before August 1, 1978.

Before a final determination is made, consideration will be given to any relevant data, views, or arguments submitted in writing with respect to this preliminary determination. Submissions should be addressed to the Commissioner of Customs, 1301 Constitution Avenue NW., Washington, D.C. 20229, in time to be received by his office no later than March 19, 1978.

This preliminary determination is published pursuant to section 303(a), Tariff Act of 1930, as amended (19 U.S.C. 1303(a)).

Pursuant to Reorganization Plan No. 26 of 1950 and Treasury Department Order 190 (Revision 14), July 1, 1977, and the provisions of the Treasury Department Order No. 165, Revised, November 2, 1954, and §159.47 of the Customs Regulations (19 CFR 159.47), insofar as they pertain to the issuance of a preliminary countervailing duty determination by the Commissioner of Customs, are hereby waived.

ROBERT H. MUNDHEIM,
General Counsel of the Treasury.

FEBRUARY 1, 1978.

INTERSTATE COMMERCE COMMISSION

[Docket No. AB-71 (Sub-No. 1)]

ANNE ARUNDEL COUNTY AND CITY OF ANNAPOLIS

Abandonment Over Baltimore & Annapolis Railroad Co. From Glen Burnie to City of Annapolis, Md., Correction[1]

Notice is hereby given pursuant to Section 1a(6)(a) of the Interstate Commerce Act (49 U.S.C. 1a(6)(a)) (originally published at 43 FR 1023, January 5, 1978) that by a report and order entered June 20, 1977, and the order of the Commission, Division 3, as modified, adopted the report and order of the Commission, Review Board Number 5, which is administratively final, stating that, subject to the conditions for the protection of railway employees prescribed by the Commission in *Oregon Short Line R. Co.—Abandonment—Goshen*, 354 I.C.C. 76 (1977) and for public use as set forth in said order, the present and future public convenience and necessity permit the abandonment by the Baltimore & Annapolis Railroad Co. of a portion of the line beginning at Glen Burnie and extending in a southeasterly direction to the City of Annapolis, all in Anne Arundel County, Md., a distance of 15.4 miles. A certificate of abandonment will be issued to the Baltimore & Annapolis Railroad Co. based on the above-described finding of abandonment, March 9, 1978, unless on or before March 9, 1978, the Commission further finds that:

(1) A financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service to be continued; and

(2) It is likely that such proffered assistance would:

(a) Cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or

(b) Cover the acquisition cost of all or any portion of such line of railroad.

If the Commission so finds, the issuance of a certificate of abandonment will be postponed for such reasonable time, not to exceed 6 months as is necessary to enable such person or entity to enter into a binding agreement, with the carrier seeking such abandonment, to provide such assistance or to purchase such line and to provide for

[1] Notice is corrected to show that the Certificate and order will be issued to the Baltimore & Annapolis Railroad Co., the owner of the line, and not to the Anne Arundel County and the City of Annapolis.

the continued operation of rail services over such line. Upon notification to the Commission of the execution of such an assistance or acquisition and operating agreement, the Commission shall postpone the issuance of such a certificate for such period of time as such an agreement (including any extensions or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or the acquisition of the involved rail line are contained in the Notice of the Commission entitled "Procedures for Pending Rail Abandonment Cases" published in the FEDERAL REGISTER on March 31, 1976, at 41 FR 13691. All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced order.

H. G. HOMME, Jr.,
Acting Secretary.

[Notice No. 583]

ASSIGNMENT OF HEARINGS

FEBRUARY 2, 1978.

Cases assigned for hearing, postponement, cancellation, or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC 118130 (Sub-No. 77), South Eastern Express, Inc., now assigned February 22, 1978, at Dallas, Tex., will be held in room 5A15-17, Federal Building, 1100 Commerce Street.

MC 136168 (Sub-No. 15), Wilcon Certified Express, Inc., now assigned February 23, 1978, at Dallas, Tex., will be held in room 5A15-17, Federal Building, 1100 Commerce Street.

MC 135797 (Sub-No. 78), J. B. Hunt Transport, Inc., now assigned February 27, 1978, at Dallas, Tex., will be held in room 5A15-17, Federal Building, 1100 Commerce Street.

MC 129068 (Sub-No. 38), Griffin Transportation, Inc., now assigned March 1, 1978, at Dallas, Tex., will be held in room 5A15-17, Federal Building, 1100 Commerce Street.

MC 116254-108 M1, Chem-Haulers, Inc., now assigned February 2, 1978, for prehearing conference at Washington, D.C., is postponed to a date to be hereafter fixed.

MC 143508, Ashborne Transportation Co., now being assigned April 10, 1978 (1 week), at Philadelphia, Pa., in a hearing room to be later designated.

MC 30605 (Sub-No. 161), Santa Fe Trail Transportation Co., now being assigned April 11, 1978 (14 days), at Houston, Tex., in a hearing room to be later designated.

MC 119777 (Sub-No. 335), Ligon Specialized Hauler, Inc., now assigned February 8, 1978 (3 days), at Atlanta, Ga., is canceled.

MC 76032 (Sub-No. 329), Navajo Freight Lines, Inc., now being assigned April 18, 1978 (9 days), at Albuquerque, N. Mex., in a hearing room to be later designated.

MCC 9761, Carolina Coach Co., et al. v. Mandrell Motor Coach, Inc., now assigned February 22, 1978, at Dover, Del., will be held in the Kent County Levy Court Conference Room on the Green.

MC 119619 (Sub-No. 114), Distributors Service Co., now being assigned April 21, 1978 (1 day), at Philadelphia, Pa., in a hearing room to be later designated.

MC 143507, Ace Transportation Co., Inc., now being assigned April 18, 1978 (3 days), at Philadelphia, Pa., in a hearing room to be later designated.

MC-F-13233, Arkansas Best Freight—Purchase (Portion)—Great Lakes Express Co., MC-F-13116, Gra-Bell Truck Line, Inc.—Purchase (Portion)—Great Lakes Express Co., MC-F-13106, Branch Motor Express Co.—Control—Great Lakes Express Co., MC-F-13100, The Cleveland, Columbus, and Cincinnati Highway, Inc.—Purchase (Portion)—Great Lakes Express Co., MC 3419 (Sub-No. 11), The Cleveland, Columbus, and Cincinnati Highway, Inc., MC-F-13102, Maiers Motor Freight Co.—Purchase (Portion)—Great Lakes Express Co., MC-F-13103, United Trucking Service, Inc.—Purchase (Portion)—Great Lakes Express Co., MC-F-13101, Red Star Express Lines of Auburn, Inc., d.b.a. Red Star Express Lines—Purchase (Portion)—Great Lakes Express Co. and MC-F-13096, Herriott Trucking Co., Inc.—Purchase (Portion)—Great Lakes Express Co. now being assigned June 13, 1978, at the Offices of the Interstate Commerce Commission in Washington, D.C.

MC 134922 (Sub-No. 236), B. J. McAdams, Inc., now being assigned April 17, 1978 (1 day), at Philadelphia, Pa., in a hearing room to be later designated.

MC 116004 (Sub-No. 43), Texas Oklahoma Express, Inc., now assigned February 8, 1978, at Kansas City, Mo., is canceled, application dismissed.

MC 129903 (Sub-No. 7), Emporia Motor Freight, Inc., now being assigned March 27, 1978 (5 days), at Emporia, Kans., in a hearing room to be later designated.

MC-F-13296, Lyons Transportation Lines, Inc.—Control—Modern Truck Lines, Inc., now being assigned April 26, 1978 (3 days), at St. Louis, Mo., in a hearing room to be later designated.

MC 134286 (Sub-No. 31), Illini Express, Inc., now being assigned April 25, 1978 (1 day), at St. Louis, Mo., in a hearing room to be later designated.

MC 141459 (Sub-No. 1), A.G.S. Enterprises, Inc., now being assigned April 24, 1978 (1 day), at St. Louis, Mo., in a hearing room to be later designated.

MC-F—13381, Associated Truck Lines, Inc.—Control and Merger—Centrailia Cartage Co., now being assigned April 19, 1978 (3 days), at St. Louis, Mo., in a hearing room to be later designated.

MC 128007 (Sub-No. 109), Hofer, Inc., now being assigned April 18, 1978 (1 day), at St. Louis, Mo., in a hearing room to be later designated.

H. G. HOMME, Jr.,
Acting Secretary.

[7035-01]

[Docket No. AB-43 (Sub-No. 44)]

ILLINOIS CENTRAL GULF RAILROAD CO. ABANDONMENT BETWEEN HOLTS SPUR AND PADEN IN TISHOMINGO COUNTY, MISS.

Findings

Notice is hereby given pursuant to Section 1a of the Interstate Commerce Act (49 U.S.C. 1a) that by a Certificate and Order dated January 25, 1978, a finding, which is administratively final, was made by the Commission, Review Board Number 5, stating that, the present and future public convenience and necessity permit the abandonment by the Illinois Central Gulf Railroad Co. of its lines extending from railroad milepost 17.0 near Holts Spur, Miss., to railroad milepost 26.0 near Paden, Miss., a distance of 9.0 miles, in Tishomingo County, Miss., subject to the conditions for the protection of employees discussed in Oregon Short Line R. Co.—Abandonment—Goshen, 354 ICC 76(1977), and subject to the further condition that applicant may not exercise the authority granted herein until it has begun lawful operations over the above-described line of railroad being constructed by the U.S. Army Corps of Engineers. A certificate of public convenience and necessity permitting abandonment was issued to the Illinois Central Gulf Railroad Co. Since no investigation was instituted, the requirement of § 1121.38(a) of the Regulations that publication of notice of abandonment decisions in the FEDERAL REGISTER be made only after such a decision becomes administratively final was waived.

Upon receipt by the carrier of an actual offer of financial assistance, the carrier shall make available to the offeror the records, accounts, appraisals, working papers, and other documents used in preparing exhibit I § 1121.45 of the regulations). Such documents shall be made available during regular business hours at a time and place mutually agreeable to the parties.

The offer must be filed and served no later than February 22, 1978. The offer, as filed, shall contain information required pursuant to § 1121.38(b)(2) and (3) of the regulations. If no such offer is received, the certificate of public convenience and necessity authorizing abandonment shall become effective March 27, 1978.

H. G. HOMME, Jr.,
Acting Secretary.

[7035-01]

[No. 36770]

NOBLE GRAHAM TRANSPORT, INC.

Petition for Declaratory Order

Noble Graham Transport, Inc., filed on Sept. 19, 1977, a pleading, styled a "formal complaint", concerning its Tariff MF-ICC No. 20, Item 75, effective June 1, 1977. Item 75 provides that the rates published do not include covering lumber shipments with a tarpaulin, but that an accessorial charge of $30 per truckload shipment will apply if this service is requested by the consignor or consignee.

Petitioner seeks an order which would find this tariff provision to be lawful. The Commission's Bureau of Traffic has advised petitioner that the tariff, in its present form, is subject to rejection because (1) tarping is a transportation service which a carrier of lumber is obliged to hold out to perform; (2) item 75 constitutes an improper limitation on carrier liability for weather damage to lading; and (3) the item is ambiguous in its application to LTL shipments.

In support of its request the petitioner asserts that the tarping provision is common among carriers of lumber within its territory and does not restrict its liability for damage to lading in-transit.

It is ordered:

1. Pursuant to section 5(e) of the Administrative Procedure Act, 5 U.S.C. 554(e), and in the exercise of the Commission's sound discretion thereunder, a declaratory order proceeding is hereby instituted, to be docketed as set forth above.

2. This proceeding is instituted to determine whether tarping of lumber shipments by motor common carriers is a transportation service necessary and incidental to line-haul transportation, and whether the tariff item in question constitutes a limitation on carrier liability for loss and damage to lading in violation of sections 20(11) and 219 of the Interstate Commerce Act or is otherwise unlawful.

3. Since this matter appears to be susceptible of handling under the modified procedure, pursuant to Rules 43 to 52 of the Commission's general rules of practice, 49 CFR 1100.43-52, inclusive, the filing and service of pleadings shall be as follows: (a) Opening statement of facts and argument by petitioner and any parties supporting petitioner on or before February 27, 1978; (b) 30 days after that date, statement of facts and argument by any party in opposition; and (c) 20 days thereafter, replies by petitioner and any supporting parties.

4. A copy of this notice shall be served upon the petitioner, and notice of this proceeding shall be given to the public by depositing a copy in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and by filing a copy with the Director, Office of the Federal Register, Washington, D.C.

Decided January 30, 1978.

By the Commission, Division 2, Commissioners Stafford, Murphy, and Clapp.

H. G. HOMME, Jr.,
Acting Secretary.

[7035-01]

[Finance Docket No. 28320]

STATE OF VERMONT AND VERMONT NORTHERN RAILROAD CO.

Operation Over a Line of Railroad Between St. Johnsbury and Swanton, in Caledonia, Washington, Lamoille and Franklin Counties, Vt.; Correction[1]

The State of Vermont and Vermont Northern Railroad Co., State of Vermont, Montpelier, Vt. 05602, represented by Mr. James E. Hirsch, Counsel, State of Vermont, Agency of Transportation, Department of Bus, Rail, Water and Motor Carrier Service, Montpelier, Vt. 05602, hereby gives notice that it filed with the Interstate Commerce Commission at Washington, D.C., a joint application under section 1(18) of the Interstate Commerce Act for an order approving and authorizing the operation of a line of railroad owned by the State of Vermont and formerly operated by the St. Johnsbury & Lamoille County Railroad between St. Johnsbury and Swanton, in Caledonia, Washington, Lamoille, and Franklin Counties, Vt., a distance of approximately 98.2 miles, which application is assigned Finance Docket No. 28320, published at 42 FR 23022, May 5, 1977.

The State of Vermont through the Vermont Transportation Authority (Vermont Transportation Board is the successor to the Vermont Transportation Authority) leased the railroad right-of-way to the Lamoille County Railroad, Inc. (name changed to St. Johnsbury and Lamoille County Railroad, Inc. in 1974) on September 18, 1973, which lease agreement expired according to its terms on September 18, 1976.

Day to day railroad operations were conducted by the St. Johnsbury and Lamoille County Railroad, Inc. from September 19, 1976, to October , 1976, when the Maintenance-of-Way Union, representing approximately thirty (30) employees of the St. Johnsbury and Lamoille County Railroad, Inc. struck the railroad.

On or about October 5, 1976, the St. Johnsbury and Lamoille County Railroad, Inc. through its president Bruno A. Loati, informed the State of Vermont, through Robert A. Gensburg, Chairman of the Vermont Transportation Board, that it was no longer going to continue operating the railroad.

On or about October 5, 1976, the State of Vermont notified Mr. Loati, president of the St. Johnsbury and Lamoille County Railroad, Inc. that it accepted the termination of the operating arrangement between the State of Vermont and the St. Johnsbury and Lamoille County Railroad, Inc.

By supplemental information filed January 9, 1978, the Lamoille Valley Railroad Co. petitioned the Commission to be substituted as the operator of the line in question. On January 1, 1978, under temporary Service Order Number 1291, Lamoille Valley Railroad Co. was directed to operate the line of railroad in question.

This application is made contingent upon the issuance of an appropriate certificate of public convenience and necessity by the Commission in Docket No. AB-134 of the State of Vermont, through its Agency of Transportation, Department of Bus, Rail, Water and Motor Carrier Service, to abandon its operation over a line of railroad extending from railroad milepost 0.0 near St. Johnsbury, Vt., in a northwesterly direction to end of line near Lamoille, Vt., a distance of 98.2 miles, in Caledonia, Washington, Lamoille, and Franklin Counties, Vt.

In the opinion of the applicant, the granting of the authority sought will not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969.

In accordance with the Commission's regulations (49 CFR 1108.8) in Ex Parte No. 55 (Sub-No. 4), Implementation—National Environmental Policy Act, 1969, 352 ICC 451 (1976), any protests may include a statement indicating the presence or absence of any effect of the requested Commission action on the quality of the human environment. If any such effect is alleged to be present, the statement shall indicate with specific data the exact nature and degree of the anticipated impact. See Implementation—National Environmental Policy, Act, 1969, supra, at p. 487.

Pursuant to the provisions of the Interstate Commerce Act, as amended, the proceeding will be handled without public hearings unless comments in support or opposition on such application are filed with the Secretary, Interstate Commerce Commission, 12th and Constitution Avenue NW., Washington, D.C. 20423, and the aforementioned counsel for applicant, within 30 days after date of first publication in a newspaper of general circulation. Any interested person is entitled to recommend to the Commission that it approve, disapprove, or take any other specified action with respect to such application.

H. G. HOMME, Jr.,
Acting Secretary.

[FR Doc. 78-3292 Filed 2-6-78; 8:45 am]

---

[1] Notice corrected to show that the Lamoille Valley Railroad Company petitioned the Commission to be the operator of the above-described line in question.

[M-97, Amdt. 3; Jan. 31, 1978]

NOTICE OF ADDITION AND DELETION OF ITEMS OF THE FEBRUARY 1, 1978 AGENDA

CIVIL AERONAUTICS BOARD.

TIME AND DATE: 10 a.m., February 1, 1978.

PLACE: Room 1027, 1825 Connecticut Avenue NW., Washington, D.C. 20428.

SUBJECT: (Deletion) 13. Docket 31660, Application for approval for exemption of Air Express International's acquisition of Trans Air Freight System (Memo No. 7730, BOR). (Addition) 13a. Docket 31790, Application of American Air Transport for a section 418 certificate (Memo No. 7742, BOR).

STATUS: Open.

PERSON TO CONTACT:

Phyllis T. Kaylor, the Secretary, 202-673-5068.

SUPPLEMENTARY INFORMATION: The Office of General Counsel has not had an opportunity to coordinate on this item. Additional time is necessary to consider several legal issues raised by the application. Accordingly, the following Members have voted that agency business requires the deletion of Docket 31660, Application for approval for exemption of Air Express International's acquisition of Trans Air Freight System from the February 1, 1978 meeting agenda and that no earlier announcement of this deletion was possible:

Chairman, Alfred E. Kahn
Member, G. Joseph Minetti
Member, Lee R. West
Member, Richard J. O'Melia
Member, Elizabeth E. Bailey

American Air Transport filed an application for a section 418 certificate on December 6, 1977. The Board's staff finished work on this unusually difficult application on January 30, 1978. The Board is required to issue an applicant an all-cargo service certificate 60 days after it files or by February 4, 1978. Because the next scheduled meeting is not until February 9, five days past the statutory deadline for issuing the certificate, the following Members have voted that agency business requires the addition of Docket 31790, application of American Air Transport for a section 418 certificate from the February 1, 1978 meeting agenda and that no earlier announcement of this addition was possible:

Chairman, Alfred E. Kahn
Member, G. Joseph Minetti
Member, Lee R. West
Member, Richard J. O'Melia
Member, Elizabeth E. Bailey

2

[M-97, Amdt. 4; Feb. 1, 1978]

NOTICE OF DELETION OF ITEMS FROM THE FEBRUARY 1, 1978 MEETING

CIVIL AERONAUTICS BOARD.

TIME AND DATE: 10 a.m., February 1, 1978.

PLACE: Room 1027, 1825 Connecticut Avenue NW., Washington, D.C. 20428.

SUBJECT: 8. The Council on Environmental Quality's proposed regulations to implement the National Environmental Policy Act (most specifically, the environmental impact statement process) (Memo No. 7729, BOR, OGC, BLJ, BIA, BFR). 16. Dockets 30090, 30124, 30191, and 30213, petitions of Pan American, TWA, and Seaboard for Reconsideration of Order 77-6-138 granting TIA, AIA, and World blanket exemptions to perform outsized cargo charter flights between U.S. and the Middle East and Africa; Docket 31112, application of ONA for an exemption to perform outsized cargo charter flights between the U.S. and the Middle East and Africa (Memo No. 6999-B, BOR, BFR, OGC).

STATUS: Open.

PERSON TO CONTACT:

Phyllis T. Kaylor, the Secretary, 202-673-5068.

SUPPLEMENTARY INFORMATION: Revisions are being prepared that relate to item 8 and because they were not available before today's meeting and in order that the Board will have the benefit of all information on this case, the following Members have voted that agency business requires the deletion of item 8 from the February 1, 1978 agenda and that no earlier announcement of this deletion was possible:

Acting Chairman, G. Joseph Minetti
Member, Lee R. West
Member, Elizabeth E. Bailey

Member richard J. O'Melia has expressed an interest in item 16 on today's agenda and was unable to attend today's meeting. so that this item can be discussed when Member O'Melia is present, the following Members have voted that agency business requires the deletion of item 16 from the February 1, 1978 agenda and that no earlier announcemenmt of this deletion was possible:

Acting Chairman, G. Joseph Minnetti
Member, Lee R. West
Member, Elizabeth E. Bailey

3

[M-98; Jan. 31, 1978]

CIVIL AERONAUTICS BOARD.

TIME AND DATE: 10 a.m., February 6, 1978.

LACE: Room 1027, 1825 Connecticut Avenue NW., Washington, D.C. 20428.

SUBJECT: Hughes Airwest to make a presentation regarding the status of the company.

STATUS: Open.

PERSON TO CONTACT:

Phyllis T. Kaylor, the Secretary, 202-673-5068.

SUPPLEMENTARY INFORMATION: Due to a clerical error, this notice was not available seven days in advance. So that the Board can meet to hear this presentation at the scheduled time, the following Members have voted that agency business requires that the Board meet on less than seven days' notice and that earlier announcement of the meeting was not possible:

Chairman, Alfred E. Kahn
Member, G. Joseph Minetti
Member, Lee R. West
Member, Richard J. O'Melia
Member, Elizabeth E. Bailey

FEDERAL RESERVE SYSTEM (BOARD OF GOVERNORS).

TIME AND DATE: 10 a.m., Monday, February 13, 1978.

PLACE: 20th Street and Constitution Avenue NW., Washington, D.C. 20551.

STATUS: Open.

MATTERS TO BE CONSIDERED:

Summary Agenda:

Because of their routine nature, no substantive discussion of the following items is anticipated. These matters will be resolved with a single vote unless a member of the Board requests that an item be moved to the discussion agenda.

1. Request for an exemption from the Federal Home Loan Mortgage Disclosure Act for New Jersey-chartered depository institutions that are subject to the New Jersey Home Mortgage Disclosure Act.
2. Department of Justice petition for amendment of the Board's rules (Regulation P) promulgated pursuant to the Bank Protection Act of 1968.

Discussion Agenda:

1. Issuance for public comment of a proposed amendment to Regulation Y (Bank Holding Companies) to permit bank holding companies to engage in the sale at retail of money orders and similar variable denominated instruments, travelers checks, U.S. savings bonds, financial management courses, and other educational materials dealing with financial matters.
2. Requests for a hearing in connection with the application of Commerce Bancshares, Inc., Kansas City, Mo., to merge with Manchester Financial Corp., St. Louis, Mo.
3. Any agenda items carried forward from a previously announced meeting.

CONTACT PERSON FOR MORE INFORMATION:

Mr. Joseph R. Coyne, Assistant to the Board, 202-452-3204.

Dated: February 3, 1978.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

10

TENNESSEE VALLEY AUTHORITY.

TIME AND DATE: 10:30 a.m., Thursday, February 9, 1978.

PLACE: Conference Room B-32, West Tower, 400 Commerce Avenue, Knoxville, Tenn.

STATUS: Open.

MATTERS TO BE CONSIDERED:

A. Personnel actions—None.

B. Consulting and personal service contracts—1. Renewal of consulting contract with Dr. Henry Van der Schalie, Manchester, Mich.—Division of Forestry, Fisheries, and Wildlife Development.

C. Purchase awards—1. Req. No. 821760: Dry fly-ash collection facility including installation for Gallatin Steam Plant Units 1-4; 2. Req. No. 823545: Flue gas desulfurization system including installation for Widows Creek Steam Plant, Unit 7; 3. Req. No. 822893: Pool gates for Harrisville and Phipps Bend Nuclear Plants; 4. Req. No. 560443: Current model sedans and police sedans for TVA garages; 5. Amendment to Contract 76P65-19219-5 with Lucky Mc Uranium Corp. (formerly Utah International, Inc.) for uranium concentrates for TVA nuclear plants.

D. Project authorizations—1. No. 2967.3: Installation of supervisory control masters in the Wilson Hydro and South Nashville, Tenn., area dispatch and control centers and remote supervisory control terminals at various 500-kV and 161-kV substations; 2. No. 3293: Solar energy research, development, and demonstration in the TVA area.

E. Fertilizer items—None.

F. Power items—1. Quitclaim deed to the city of Scottsboro, Ala.—3.95-acre portion of TVA's Scottsboro 161-kV substation site; 2. Letter agreement with Kentucky Utilities Company—delivery of power to Warren Rural Electric Cooperative Corporation for resale to Brown Badgett, Inc.; 3. Amendment to exploration and milling agreement between TVA and Federal-American Partners (formerly Utah International, Inc.)—milling of ores of Lucky Mc Uranium Corp.; 4. New power contract with the city of Russellville, Ala.; 5. Memorandum of Understanding between TVA and the Commonwealth of Kentucky for development and demonstration of energy technologies.

G. Real property transactions—1. Abandonment of present access rights and acceptance of new access rights to a portion of Dyersburg Primary-Ridgely Transmission Line, tract DYR-28; 2. Filing of condemnation suits.

H. Unclassified—1. Financial statements for fiscal year 1977.

Dated: February 2, 1978.

The Board also will conduct the preliminary rate review. In connection with the Board's quarterly financial review, information concerning current and anticipated conditions and costs affecting TVA's power operations and the adequacy of revenues to meet the requirements of the TVA Act and the tests and provisions of its bond resolutions will be discussed with the Board. This information will be considered by the Board in its later determination as to whether an adjustment of the rates and charges for the sale of electric power will be necessary during the quarter beginning April 1, 1978. The Board will complete its quarterly review at the next meeting on Thursday, February 23, at 10:30 a.m. in Conference Room B-32, West Tower, 400 Commerce Avenue, Knoxville, Tennessee.

CONTACT PERSON FOR MORE INFORMATION:

John Van Mol, Director of Information, or a member of his staff can respond to requests for information about this meeting. Call 615-632-3257, Knoxville, Tenn. Information also is available at TVA's Washington Office, 202-566-1401.

DEPARTMENT OF THE INTERIOR

Heritage Conservation and Recreation Service

NATIONAL REGISTER OF HISTORIC PLACES

Annual Listing of Historic Properties

Pursuant to the National Historic Preservation Act of 1966 (80 Stat. 915, 16 U.S.C. 470 et seq.), the National Park Service, Department of the Interior, has undertaken steps to implement the purposes of that act through: (1) Expansion of the National Register of Historic Places, (2) initiating a program of grants-in-aid for historic preservation, and (3) adoption of procedures and criteria for furthering the National's historic preservation program.

It is the purpose of this notice, through publication of the information included herein, to apprise the public, as well as governmental agencies, associations, and all other organizations and individuals interested in historic preservation, of the properties added to the National Register before December 31, 1977, and the properties determined eligible for inclusion in the National Register through December 1977.

WILLIAM J. MURTAGH,
Keeper of the National Register.

The following properties were listed on the National Register of Historic Places as of December 31, 1977. National Historic Landmarks are designated by NHL; properties recorded by Historic American Buildings Survey are designated by HABS; properties recorded by Historic American Engineering Record are designated by HAER; properties receiving National Park Service grants-in-aid for historic preservation are designated by G.

The following properties have been determined to be eligible for inclusion in the National Register. All determinations of eligibility are made at the request of the concerned Federal Agency under the authorities in section 2(b) and 1(3) of Executive Order 11593 as implemented by the Advisory Council on Historic Preservation, 36 CFR Part 800. This listing is not complete. Pursuant to the authorities discussed herein, an Agency Official shall refer any questionable actions to the Director, Office of Archeology and Historic Preservation, Department of the Interior, for an opinion respecting a property's eligibility for inclusion in the National Register.

Historical properties which are determined to be eligible for inclusion in the National Register of Historic Places are entitled to protection pursuant to section 106 of the National Historic Preservation Act of 1966, as amended, and the procedures of the Advisory Council on Historic Preservation, 36 CFR Part 800. Agencies are advised that in accord with the procedures of the Advisory Council on Historic Preservation, before an agency of the Federal Government may undertake any project which may have an effect on such a property, the Advisory Council on Historic Preservation shall be given an opportunity to comment on the proposal.

NATIONAL OCCUPATIONAL INFORMATION COORDINATING COMMITTEE

■

INTERAGENCY AGREEMENT

[4510-30]

NATIONAL OCCUPATIONAL INFORMATION COORDINATING COMMITTEE

OCCUPATIONAL INFORMATION

Interagency Agreement

ACTION: Notice.

SUMMARY: Published below is a revised Interagency Agreement of the National Occupational Information Coordinating Committee (NOICC). This agreement replaces the orginal interagency agreement of the NOICC signed on March 2, 1977 and published as a NOTICE in the FEDERAL REGISTER on April 21, 1977.

The National Occupational Information Coordinating Committee has been established with the general purpose of improving coordination communication, and cooperation in the development of an occupational information system designed to meet the common occupational information and data needs of the vocational education programs and employment and training programs at national, State, and local levels.

In addition, the NOICC is mandated to give special attention to the problems of unemployed youths and to assist and encourage the use of occupational information especially by promoting its use in career decisionmaking.

SUPPLEMENTARY INFORMATION: The Education Amendments of 1976 (Pub. L. 94-482) section 202(a) amends the Vocational Education Act of 1963 and establishes a National Occupational Information Coordinating Committee. An Interagency Agreement of the National Occupational Information Coordinating Committee specifying the purpose and designed to activate working arrangements was signed by the four statutory members March 2, 1977.

This revised agreement among the agencies, signed at a meeting of the four statutory members on January 24, 1978 incorporates those provisions as mandated in the Youth Employment and Demonstration Projects Act of 1977 (Pub. L. 95-93) which amend by the Comprehensive Employment and Training Act.

The Committee, as specified in the Act, is composed of the Commissioner of Education, the Administrator of the National Center for Education Statistics, the Assistant Secretary for Employment and Training and the Commissioner of Labor Statistics.

R. E. ALLYN,
Staff Director, National Occupational Information Coordinating Committee.

INTERAGENCY AGREEMENT OF THE NATIONAL OCCUPATIONAL INFORMATION COORDINATING COMMITTEE

Section 161(b) of the Vocational Education Act of 1963, as amended by Title II of Pub. L. 94-482, the Education Amendments of 1976, establishes a National Occupational Information Coordinating Committee (NOICC). The Committee's legislative mandate was expanded by section 348(c) of the Comprehensive Employment and Training Act of 1973, as amended by Title II of Pub. L. 95-93, the Youth Employment and Demonstration Projects Act of 1977. The members of this Committee are the Commissioner of Education, the Administrator of the National Center for Education Statistics, the Commissioner of Labor Statistics, and the Assistant Secretary of Labor for Employment and Training.

This Agreement replaces the NOICC Interagency Agreement executed on March 2, 1977.

Specifically, the Office of Education and the National Center for Education Statistics of the U.S. Department of Health, Education, and Welfare, and the Bureau of Labor Statistics and the Employment and Training Administration of the U.S. Department of Labor agree to carry out the intent of Congress as set forth in section 161(b) of the Vocational Education Act as amended, and section 348(c) of the Comprehensive Employment and Training Act of 1973, as amended.

The parties agree to the following paragraphs:

1. The NOICC in the use of program data and employment data will improve coordination between and communication among vocational education and employment and training program administrators, planners, researchers, and other trainers. These efforts will be directed toward assuring the availability and systematic use of uniform program and occupational information and employment data giving special attention to the problems of unemployed youths. To this end a system will be designed so that accurate comparisons can be made from State to State and, whenever possible, will include reporting of data by labor market areas within the State for purposes of planning and program development.

2. The NOICC will develop and implement by September 30, 1978, an occupational information system to meet the common occupational information and data needs of the vocational education program and employment and training programs at the national, State, and local levels. This system will include data on occupational demand and supply based on uniform definitions, standardized estimating procedures, and standardized occupational classifications. The system design will also include different delivery systems applicable to user needs including but not limited to the needs of administrators and planners of programs and of clients, students, and others making career choices.

3. The NOICC will assist each State's Occupational Information Coordinating Committee (SOICC) as required by law and as specified in regulations promulgated by NOICC.

4. The NOICC, in carrying out the activities under the Acts, will assist and encourage SOICC's (1) to adopt methods of translating national aggregate occupational outlook data into labor market terms; (2) to provide technical assistance for States and localities that seek to establish facilities to process, disseminate, implement or otherwise use occupational and outlook information and projections; and (3) to encourage and promote greater cooperation in the development of career information systems between those who collect and disseminate occupational information and those who utilize, plan or operate on the basis of such information.

5. NOICC will utilize funds for (1) national activities in improving coordination and communication; (2) designing and implementing an occupational information system (OIS); and (3) funding SOICC activities. These activities will meet the needs for planning and operating programs of the State Board for Vocational Education and administering agencies under the Comprehensive Employment and Training Act (CETA) of 1973.

6. The NOICC will determine the purposes for which disbursement of funds are to be made consistent with fulfilling the requirements of the Acts. Within the legislative authorization, the NOICC will annually estimate the amount of funds required to carry out its functions. A formal budget request to support NOICC's activities, based on such estimates, will be submitted by the Office of Education and the Department of Labor. All funds available to the NOICC under the Comprehensive Employment and Training Act and the Vocational Education Act may be used by the Committee to carry out any of its functions and responsibilities authorized by law.

7. Memoranda of Understanding will be developed, as needed, and agreed to by four statutory members of NOICC covering areas such as policy, staffing, administrative services, and space.

8. The signatories, the four statutory members of NOICC, agree that each will delegate authority to a person on

his or her staff to act as a member of a Technical Steering Group. The signatories further agree that the Commissioner of the Rehabilitation Services Administration should designate a person on his or her staff to work with the Technical Steering Group because the State vocational rehabilitation agency is legislatively required to be represented on each State Occupational Information Coordinating Committee.

9. The Technical Steering Group will, in accordance with Memoranda of Understanding agreed to by the members of the NOICC, carry out the functions assigned to it.

ERNEST G. GREEN,
Assistant Secretary for Employment and Training, Department of Labor.

ERNEST L BOYER,
Commissioner, Office of Education, Department of Health, Education, and Welfare.

JULIUS SHISKIN,
Commissioner, Bureau of Labor Statistics, Department of Labor.

MARIE ELDRIDGE,
Administrator, National Center for Education Statistics, Department of Health, Education, and Welfare.

GRANTS FOR COMMUNITY AND MIGRANT HEALTH SERVICES

Acquisition and Modernization of Existing Buildings

[4110-84]

Title 42—Public Health

CHAPTER I—PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 51c—GRANTS FOR COMMUNITY HEALTH SERVICES

PART 56—GRANTS FOR MIGRANT HEALTH SERVICES

Acquisition and Modernization of Existing Buildings

AGENCY: Public Health Service, HEW.

ACTION: Final rule.

SUMMARY: On December 30, 1976, a new Subpart E of 42 CFR Part 51c, entitled "Acquisition and Modernization of Existing Buildings," was adopted and published in the FEDERAL REGISTER (41 FR 56999). The new Subpart E implements part of section 330 of the Public Health Service Act (42 U.S.C 254c). Although Subpart E was effective upon publication, the Secretary invited public comment and stated that Subpart E of the regulations would be revised as warranted by the comments received. A summary of the substantive comments and actions taken with respect to the regulations appears in the Supplementary Information section below. A revised Part 56 of Title 42, Code of Federal Regulations, entitled "Grants for Migrant Health Services" and consisting of Subparts A through G, was published as interim regulations in the FEDERAL REGISTER on September 13, 1976 (41 FR 38887). The preamble to the interim regulations announced that Subpart H, which would contain specific requirements applicable to all grants under section 319 of the Public Health Service Act (42 U.S.C. 247d) for acquiring and modernizing existing buildings, would be published at a later date. Subpart H is published here following the revision of Subpart E. Publication of the two subparts is necessary to complete the implementation of sections 319 and 330.

EFFECTIVE DATE: February 7, 1978.

FOR FURTHER INFORMATION CONTACT:

For Subpart E: Youn Bock Rhee, Associate Bureau Director for Community Health Centers, Bureau of Community Health Services, Health Services Administration, Room 7A-55, Parklawn Building, Rockville, Md. 20857, 301-443-2260.

For Subpart H: Billy M. Sandlin, Associate Bureau Director for Migrant Health, Bureau of Community Health Services, Health Services Administration, Room 7A-55, Parklawn Building, Rockville, Md. 20857, 301-443-1153.

SUPPLEMENTARY INFORMATION:

Comments received on Subpart E of 42 CFR Part 51c and the changes made to the regulations are as follows:

1. It was recommended that the regulations be revised to permit grantees to substitute new construction in lieu of acquiring and modernizing existing buildings. This recommendation was rejected because the Act specifically limits grants to the acquisition and modernization of existing buildings.

2. The definition of "existing building" in § 51c.502(b) has been revised to make clear, in response to inquiries, that purchase of a building without land (such as where a building is moved to the project site) may be supported under this subpart.

3. It was suggested that minimal requirements or exceptions for small projects—for example, those under $10,000—should be established. This suggestion was not accepted because it is intended that most small projects be handled under the Department's usual procedures for alterations and renovations, rather than under these regulations for acquisition and modernization. Accordingly, § 51c.501 has been revised to limit explicitly the applicability of the regulations to project costs which could not otherwise be supported under the usual alteration and renovation procedures.

4. One commenter recommended that the period of not less than 20 years required by § 51c.503(7)(i) to assure undisturbed use and possession of the site for the purpose of the operation of the project be reduced to the duration of the grant period. This recommendation was not accepted because an interest sufficient to assure undisturbed use and possession for a 20-year period is believed to be reasonably close to a "fee simple" interest and thus more within the intent of the term "acquisition."

5. Minor technical corrections were made to 42 CFR § 51c.503 and § 51c.504.

Since Subpart H is identical in substance to Subpart E and issuance of the regulations at this time will enable currently appropriated grant funds to be used for needed acquisition and modernization, the Secretary has determined that public participation prior to the issuance of Subpart H and a delay in its effective date should be waived as unnecessary and contrary to the public interest, and, accordingly, that good cause exists for making Subpart H effective immediately upon publication.

NOTE.—The Department of Health, Education, and Welfare has determined that these documents do not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A-107.

Dated: November 23, 1977.

JULIUS B. RICHMOND,
Assistant Secretary for Health.

Approved: January 31, 1978.

JOSEPH A. CALIFANO, Jr.,
Secretary.

1. Section 51c.501 of 42 CFR is revised to read as follows:

§ 51c.501 Applicability.

The regulations of this subpart, in addition to the regulations of the other applicable subparts of this part, are applicable to grants under section 330 of the Act for project costs which include the cost of acquisition and/or modernization of existing buildings (including the cost of amortizing the principal of, and paying the interest on, loans), except that, these regulations are not applicable to grants for project costs which include the costs of modernization of existing buildings if those costs can otherwise be supported under subparts B, C, or D of this Part.

2. Section 51c.502 of 42 CFR is revised to read as follows:

§ 51c.502 Definitions.

(a) "Equipment" means nonexpendable personal property as defined in 45 CFR 74.132.

(b) "Existing building" means a completed or substantially completed structure, and may include the realty on which it is or is to be located.

(c) "Modernization" means the alteration, repair, remodeling and/or renovation of a building (including the initial equipment thereof and improvements to the building's site) which, when completed, will render the building suitable for use by the project for which the grant is made.

§ 51c.503 [Amended]

3. 42 CFR 51c.503(a)(7)(vii) is amended by inserting the word "Disaster" between the words "Flood" and "Protection."

§ 51c.504 [Amended]

4. 42 CFR § 51c.504(c)(3)(ii) is amended by inserting the word "applicable" between the words "the" and "requirements."

5. The "Authority" provision of 42 CFR Part 51c is revised to read as follows:

AUTHORITY: Sec. 330, Public Health Service Act, 89 Stat. 342, (42 U.S.C. 254c); Sec. 215, Public Health Service Act, 58 Stat. 690, (42 U.S.C. 216).

6. A new subpart H of 42 CFR Part 56 is adopted, to read as follows:

Subpart H—Acquisition and Modernization of Existing Buildings

Sec.

56.801 Applicability of 42 CFR Part 51c, Subpart E.

AUTHORITY: Sec. 319, Public Health Service Act, 89 Stat. 334, (42 U.S.C. 247d); Sec. 215, Public Health Service Act, 58 Stat. 690, (42 U.S.C. 216).

Subpart H—Acquisition and Modernization of Existing Buildings

§ 56.801 Applicability of 42 CFR Part 51c, Subpart E.

The provisions of 42 CFR Part 51c, Subpart E, establishing requirements for the acquisition and modernization of existing buildings, shall apply to all grants under section 319 of the Act for project costs which include the cost of acquisition and/or modernization of existing buildings (including the cost of amortizing the principal of, and paying the interest on, loans); except that, for purposes of this Subpart, references within Subpart E to Part 51c, or to subparts of Part 51c, shall be deemed to be references to Part 56, or to the appropriate subparts of Part 56, and references to section 330 of the Act shall be deemed to be references to section 319 of the Act.
