1

FEDERAL DEPOSIT INSURANCE CORPORATION.

Notice of change in subject matter of agency meeting.—Pursuant to the provisions of subsection (e)(2) of the "Government in the Sunshine Act" (5 U.S.C. 552b(e)(2)), notice is hereby given that at its open meeting held at 2:00 p.m. on Monday, March 31, 1980, the Board of Directors of the Federal Deposit Insurance Corporation unanimously determined, on motion of Chairman Irvine H. Sprague, seconded by Director William M. Isaac (Appointive), concurred in by Mr. Lewis G. Odom, Jr., acting in the place and stead of Director John G. Heimann (Comptroller of the Currency), that Corporation business required its addition to the agenda for consideration at the meeting, on less than seven days' notice to the public, of a resolution amending Parts 328, 330, and 331 of the Corporation's rules and regulations to reflect an increase in the amount of Federal deposit insurance coverage from $40,000 to $100,000, in implementation of the Consumer Checking Account Equity Act of 1980, which was effective March 31, 1980.

The Board further determined, by the same majority vote, that no earlier notice of the change in the subject matter of the meeting was practicable.

Dated: March 31, 1980.

Federal Deposit Insurance Corporation.
Hoyle L. Robinson,
Executive Secretary.

BILLING CODE 6714-01-M

2

FEDERAL DEPOSIT INSURANCE CORPORATION.

Notice of changes in subject matter of agency meeting.—Pursuant to the provisions of subsection (e)(2) of the "Government in the Sunshine Act" (5 U.S.C. 552b(e)(2)), notice is hereby given that at its closed meeting held at 2:30 p.m. on Monday, March 31, 1980, the Board of Directors of the Federal Deposit Insurance Corporation unanimously determined, on motion of Chairman Irvine H. Sprague, seconded by Director William M. Isaac (Appointive), concurred in by Mr. Lewis G. Odom, Jr., acting in the place and stead of Director John G. Heimann (Comptroller of the Currency), that Corporation business required the addition of the following matters to the agenda for consideration at the meeting, on less than seven days' notice to the public:

Application of State Bank and Trust Company, Unadilla, Georgia, an insured State nonmember bank, for consent to merge, under its charter and title, with Bank of Pinehurst, Pinehurst, Georgia, also an insured State nonmember bank, and for consent to establish the sole office of Bank of Pinehurst as a branch of State Bank and Trust Company.

Legal Division memorandum dated March 21, 1980 regarding the liquidation of assets acquired by the Corporation from Coronado National Bank, Denver, Colorado.

The Board further determined, by the same majority vote, that no earlier notice of these changes in the subject matter of the meeting was practicable; that the public interest did not require consideration of the matters in a meeting open to public observation; and that the matters could be considered in a closed meeting by authority of subsections (c)(6), (c)(8), (c)(9)(A)(ii), and (c)(10) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(6), (c)(8), (c)(9)(A)(ii), and (c)(10)).

Dated: March 31, 1980.

Federal Deposit Insurance Corporation.
Hoyle L. Robinson,
Executive Secretary.

4

FEDERAL DEPOSIT INSURANCE CORPORATION.

Notice of agency meeting. Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that at 2:30 p.m. on Monday, April 7, 1980, the Federal Deposit Insurance Corporation's Board of Directors will meet in closed session, by vote of the Board of Directors pusuant to sections 552b(c)(2), (c)(6), (c)(8), (c)(9)(A)(ii), (c)(9)(B), and (c)(10)

of Title 5, United States Code, to consider the following matters:

Applications for Federal deposit insurance:

Monarch Bank, a proposed new bank, to be located at 30100 Town Center Drive, Laguna Niguel, California, for Federal deposit insurance.

Liberty Bank and Trust Company, a proposed new bank, to be located on West 70th Street (Louisiana Highway 511) at Interstate 20, Greenwood, Louisiana, for Federal deposit insurance.

Bank of LaPlace of St. John the Baptist Parish, Louisiana, a proposed new bank, to be located at 733 West Airline Highway, LaPlace, St. John the Baptist Parish, Louisiana, for Federal deposit insurance.

Application for consent to merge and establish branches:

American Bank and Trust Co. of Pa., Reading, Pennsylvania, an insured State nonmember bank, for consent to merge, under its charter and title, with The Schuylkill Haven Trust Company, Schuylkill Haven, Pennsylvania, and to establish the four offices of The Schuylkill Haven Trust Company as branches of the resultant bank.

Application for consent to merge, establish branches, and redesignate the main office location:

Bergen Bank of Commerce, Paramus, New Jersey, an insured State nonmember bank, for consent to merge, under its charter and with the title of Northeastern Bank, with Franklin Bank, Paterson, New Jersey, for consent to establish the six approved offices of Franklin Bank as branches of the resultant bank, and to redesignate the present main office of Franklin Bank as the main office of the resultant bank.

Recommendations regarding the liquidation of a bank's assets acquired by the Corporation in its capacity as receiver, liquidator, or liquidating agent of those assets:

Case No. 44,264-L—International City Bank and Trust Company, New Orleans, Louisiana.

Case No. 44,267-L—American Bank & Trust, Orangeburg, South Carolina.

Case No. 44,268-NR—United States National Bank, San Diego, California.

Case No. 44,271-NR—United States National Bank, San Diego, California.

Case No. 44,276-L—First Augusta Bank & Trust Company, Augusta, Georgia.

Case No. 44,277-NR—United States National Bank, San Diego, California.

Case No. 44,278-NR—United States National Bank, San Diego, California.

Memorandum re: Franklin National Bank, New York, New York.

Recommendations with respect to the initiation or termination of cease-and-desist proceedings, termination-of-insurance proceedings, or suspension or removal proceedings against certain insured banks or officers or directors thereof:

Names of persons and names and locations of banks authorized to be exempt from disclosure pursuant to the provisions of subsections (c)(6), (c)(8), and (c)(9)(A)(ii) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(6), (c)(8), and (c)(9)(A)(ii).

Personnel actions regarding appointments, promotions, administrative pay increases, reassignments, retirements, separations, removals, etc.

Names of employees authorized to be exempt from disclosure pursuant to the provisions of subsections (c)(2) and (c)(6) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(2) and (c)(6)).

The meeting will be held in the Board Room on the sixth floor of the FDIC Building located at 550—17th Street, N.W., Washington, D.C.

Requests for information concerning the meeting may be directed to Mr. Hoyle L. Robinson, Executive Secretary of the Corporation, at (202) 389-4425.

Dated: March 31, 1980.

BILLING CODE 7905-01-M

13

SECURITIES AND EXCHANGE COMMISSION.

"FEDERAL REGISTER" CITATION OF PREVIOUS ANNOUNCEMENT: [To be published].

STATUS: Closed meeting.

PLACE: Room 825, 500 North Capitol Street, Washington, D.C.

DATE PREVIOUSLY ANNOUNCED: Tuesday, March 25, 1980.

CHANGES IN THE MEETING: Deletion/rescheduling/addition.

The following item will not be considered at a closed meeting scheduled for Wednesday, April 2, 1980, following the 10 a.m. open meeting: Opinion.

The following closed item scheduled for Thursday, April 3, 1980, at 10 a.m., has been rescheduled for Wednesday, April 2, 1980, following the 10 a.m. open meeting: Freedom of Information Act appeal.

The following additional item will be considered at a closed meeting scheduled for Thursday, April 3, 1980, at 10 a.m: Amendment of formal order of investigation.

Chairman Williams and Commissioners Loomis and Evans determined that Commission business required the above changes and that no earlier notice thereof was possible.

At times changes in Commission priorities require alterations in the scheduling of meeting items. For further information and to ascertain what, if any, matters have been added, deleted or postponed, please contact: Paul Lowenstein at (202) 272–2092.

TENNESSEE VALLEY AUTHORITY.

"FEDERAL REGISTER" CITATION OF PREVIOUS ANNOUNCEMENT: 45 FR 21073, March 31, 1980.

PREVIOUSLY ANNOUNCED TIME AND DATE OF MEETING: 10:15 a.m., Thursday, April 3, 1980.

PREVIOUSLY ANNOUNCED PLACE OF MEETING: Conference Room B–32, West Tower, 400 Commerce Avenue, Knoxville, Tennessee.

STATUS: Open.

ADDITIONAL MATTER: The following items are added to the previously announced agenda:

Old business:

1. Project authorization No. 3503—decommissioning of the Edgement, South Dakota, uranium mill.
2. Amendment to Contract No. 78P66–148567 with Silver King Mines, Inc., Salt Lake City, Utah, for project management services for TVA's uranium/vanadium mill site and properties in Edgemont, South Dakota.

CONTACT PERSON FOR MORE INFORMATION: Craven H. Crowell, Jr., Director of Information, or a member of his staff can respond to requests for information about this meeting. Call 615–632–3257, Knoxville, Tennessee. Information is also available at TVA's Washington Office, 202–245–0101.

SUPPLEMENTARY INFORMATION:

TVA Board Action

The TVA Board of Directors has found, the public interest not requiring otherwise, that TVA business requires the subject matter of this meeting to be changed to include the additional items shown above and that no earlier announcement of this change was possible.

The members of the TVA board voted to approve the above findings and their approvals are recorded below.

Approved:

S. David Freeman.

Dated: March 28, 1980.

Richard M. Freeman.

Robert N. Clement.

Disapproved: (None).

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday).

This is a voluntary program. (See OFR NOTICE FR 32914, August 6, 1976.)

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/SECRETARY	USDA/ASCS		DOT/SECRETARY	USDA/ASCS
DOT/COAST GUARD	USDA/APHIS		DOT/COAST GUARD	USDA/APHIS
DOT/FAA	USDA/FNS		DOT/FAA	USDA/FNS
DOT/FHWA	USDA/FSQS		DOT/FHWA	USDA/FSQS
DOT/FRA	USDA/REA		DOT/FRA	USDA/REA
DOT/NHTSA	MSPB/OPM		DOT/NHTSA	MSPB/OPM
DOT/RSPA	LABOR		DOT/RSPA	LABOR
DOT/SLSDC	HEW/FDA		DOT/SLSDC	HEW/FDA
DOT/UMTA			DOT/UMTA	
CSA			CSA	

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408

REMINDERS

The "reminders" below identify documents that appeared in issues of the **Federal Register** 15 days or more ago. Inclusion or exclusion from this list has no legal significance.

Rules Going Into Effect Today

FEDERAL RESERVE SYSTEM

17924 3–19–80 / Reserves of member banks; marginal reserve requirements

HOUSING AND URBAN DEVELOPMENT DEPARTMENT

Government National Mortgage Association—

14026 3–4–80 / List of attorneys-in-fact; update

LABOR DEPARTMENT

Employment and Training Administration—

14180 3–4–80 / Housing for agricultural workers

14185 3–4–80 / Farm Labor Contractor Registration and housing for agricultural workers; cross reference updated

Pension and Welfare Benefit Programs Office–

14029 3–4–80 / Summary plan descriptions; reporting and disclosure regulations

VETERANS ADMINISTRATION

14045 3–4–80 / Construction contracts; amendments to provisions

List of Public Laws

Note: No public bills which have become law were received by the Office of the Federal Register for inclusion in today's **List of Public Laws.**

Education Division General Administrative Regulations (EDGAR)

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Education Division

45 CFR Chapters I, XIV, and XV

Education Division General Administrative Regulations (EDGAR)

AGENCY: Education Division, HEW.

ACTION: Final regulations.

SUMMARY: The Education Division, HEW, issues these general regulations to apply to direct grant and State-administered programs administered by the Education Division, and these general definitions to apply to all programs of the Education Division. The statutory authority for the regulations is the General Education Provisions Act and the statutes that authorize the programs covered.

These regulations provide general rules on how to apply for grants and subgrants, how grants and subgrants are made, the general conditions that apply to grantees and subgrantees, the administrative responsibilities of grantees and subgrantees, and the compliance procedures used by the Education Division. Rules that apply only to a particular program will be included in separate regulations for that program.

EFFECTIVE DATE: These regulations are expected to take effect 45 days after they are transmitted to Congress. Regulations are usually transmitted to Congress several days before thay are published in the **Federal Register**. The effective date is changed by statute if Congress disapproves the regulations or takes certain adjournments. If you want to know the effective date of these regulations, call or write the Education Division contact person.

FOR FURTHER INFORMATION CONTACT: A. Neal Shedd, Director, Division of Regulations Management, U.S. Office of Education, 400 Maryland Avenue, S.W. (Room 2129, FOB-6), Washington, D.C. 20202. Telephone (202) 245-7091 or—for general information on Education Division programs—the appropriate Regional Office listed below:

Region I—Boston, Massachusetts, 617-223-6814.
Region II—New York, New York, 212-264-8145.
Region III—Philadelphia, Pennsylvania, 215-596-1044.
Region IV—Atlanta, Georgia, 404-221-2343.
Region V—Chicago, Illinois, 312-353-6679.
Region VI—Dallas, Texas, 214-767-3711.
Region VII—Kansas City, Missouri, 816-374-5800.
Region VIII—Denver, Colorado, 303-837-4295.
Region IX—San Francisco, California, 415-556-4570.
Region X—Seattle, Washington, 206-442-0450.

SUPPLEMENTARY INFORMATION: The Education Division General Administrative Regulations (EDGAR) were published as a notice of proposed rulemaking in the **Federal Register** on May 4, 1979 (44 FR 26308). The proposed regulations consolidated into a single document common requirements found in existing Education Division regulations. With the publication of these final regulations, overlapping provisions in individual program regulations are being eliminated, as are the general grant regulations of the Office of Education and the National Institute of Education. Revisions to the program regulations—except for certain selection criteria (see below)—are included in this document, following the text of EDGAR. EDGAR contains three parts—100a, for direct grant programs; 100b, for State-administered programs; and 100c, general definitions for all programs. Part 100e, the procedures for the Education Appeal Board, was published as interim final regulations in the **Federal Register** on May 25, 1979 (44 FR 30523). It is published in final in today's **Federal Register** and renumbered as Part 100d.

EDGAR will remain in effect under the Department of Education Organization Act. Technical changes necessary because of the new Department of Education will be made at a future date. In the meanwhile, applicants and grantees under programs now administered by the Education Division are subject to the requirements in EDGAR, except as specified below under "Applicability of EDGAR."

The Education Division received numerous comments from the public on the proposed EDGAR, especially on the major issues that were outlined in the preamble of the proposed EDGAR. A discussion of major issues and a summary of the public comments and Education Division's responses to those comments—including the changes made to the regulations—are attached as Appendix A to this document. Appendix B is a copy of 45 CFR Part 74, the HEW general regulations for the administration of grants. 45 CFR Part 74 applies to Education Division grant programs.

The original intention to include an index to EDGAR and 45 CFR Part 74 with the final regulations has been abandoned; no index will be provided. However, cross-references to relevant sections of 45 CFR Part 74 are included in the text of EDGAR at appropriate places.

Applicability of EDGAR

Part 100a of EDGAR will apply to all grants made after the effective date of EDGAR under Education Division direct grant programs, with the following exception. The pre-grant procedures in Part 100a (Subparts C and D) will not apply immediately to a direct grant program unless the program statute was amended by the Education Amendments of 1978 (Pub. L. 95-561).

The application notice for each program indicates which sections of EDGAR apply to grants for fiscal year 1980.

Note.—Most application notices for Office of Education discretionary grant programs were published in the **Federal Register** on August 23, 1979 (44 FR 49574).

If EDGAR pre-grant procedures do not apply to a program, the program will use its current pre-grant procedures to make grants from appropriations for fiscal year 1980. EDGAR will be fully applicable to these programs for grants made from appropriations for fiscal year 1981, and, in any case, no later than October 1, 1980. The Education Division is proposing to amend the selection criteria for these programs in a proposed rule document in today's **Federal Register** in the proposed rules section.

The proposed rules would make the selection criteria consistent with Edgar. When these proposed rules become final, they will apply to competition for new grants made from appropriations for fiscal year 1981.

Parts 100b and 100c of EDGAR will be fully applicable on the effective date of EDGAR.

Citation of Legal Authority

A citation of statutory or other legal authority appears in parentheses on the line following each section of these regulations.

Dated: February 13, 1980.

Peter D. Relic,

Acting Assistant Secretary for Education.

Dated: February 6, 1980.

William L. Smith,

U.S. Commissioner of Education.

Dated: February 12, 1980.

Michael Timpane,

Acting Director of the National Institute of Education.

Dated: February 11, 1980.

Lee Kimchee,

Director of the Institute of Museum Services.

Approved: March 20, 1980.

Patricia Roberts Harris,

Secretary of Health, Education, and Welfare.

Title 45 of the Code of Federal Regulations is amended as follows:

1. Subchapter A is amended by revising the title and by inserting the following introduction after that title, to read as follows:

SUBCHAPTER A—EDUCATION DIVISION GENERAL ADMINISTRATIVE REGULATIONS

Introduction to Regulations of the Education Division

I. WHAT CAN I LEARN FROM THIS INTRODUCTION?

In this introduction, you will find information that will help you answer the following questions:

- What is the Education Division?
- What kinds of Federal programs of assistance does the Education Division administer?
- What Education Division regulations apply to these programs?
- How do I use Education Division regulations?
- What steps should I take to apply for assistance under an Education Division program?

II. WHAT IS THE EDUCATION DIVISION?

- The Education Division is an agency of the U.S. Department of Health, Education, and Welfare. When the Department of Education Organization Act takes effect, all of the functions of the Education Division will be transferred to the new Department of Education.
- The Education Division includes four parts:

—The Office of the Assistant Secretary for Education (including the National Center for Education Statistics);

—The United States Office of Education;

—The Institute of Museum Services; and

—The National Institute of Education.

- Each of these Offices and Institutes administers Federal programs of assistance.

III. WHAT KINDS OF FEDERAL PROGRAMS OF ASSISTANCE DOES THE EDUCATION DIVISION ADMINISTER?

- The Education Division provides assistance under two kinds of programs:

—Student financial assistance programs; and

—Grant programs.

- Student financial assistance programs include guaranteed loans, fellowships, and grants for individual students.
- Grant programs are generally divided into two kinds:

—Direct grant programs; and

—State-administered programs.

- Under a direct grant program the Education Division makes grants directly to eligible agencies, organizations, and institutions, and—under a few programs—individuals. Subgrants are not authorized.
- Under a State-administered program each State is entitled to receive funds and, depending on the requirements of the program statute, either uses the funds itself or makes subgrants to eligible agencies, organizations, and institutions.

IV. WHAT FEDERAL REGULATIONS APPLY TO THESE PROGRAMS?

- The Education Division publishes its regulations in the **Federal Register**, and codifies the regulations in Title 45 of the Code of Federal Regulations (45 CFR). There are usually regulations for each Federal program of assistance. For example, regulations for the Guaranteed Student Loan Program of the Office of Education are located in 45 CFR Part 177.
- In addition to these program regulations, there are general regulations that apply to certain categories of programs:

—Certain student financial assistance programs are subject to general regulations in 45 CFR Part 168.

—Grant programs are subject to the Education Division General Administrative Regulations (EDGAR) in 45 CFR Parts 100a and 100b. Part 100a applies to direct grant programs. Part 100b applies to State-administered programs.

—All programs are subject to the general definitions in 45 CFR Part 100c of EDGAR.

—The procedures for the Education Appeal Board are in 45 CFR Part 100d.

V. HOW DO I USE EDUCATION DIVISION REGULATIONS?

- Each set of regulations has a table of contents in the front of the regulations. The table of contents lists all of the headings used in the regulations.
- To have a complete set of requirements that apply to a program, you need a copy of—

—The program statute;

—The program regulations;

—EDGAR and 45 CFR Part 74 (for a grant program);

—The application notice that the Education Division publishes in the **Federal Register** each year (for a direct grant program under which an applicant must submit its application by a deadline);

—45 CFR Part 168 (for a student financial assistance program).

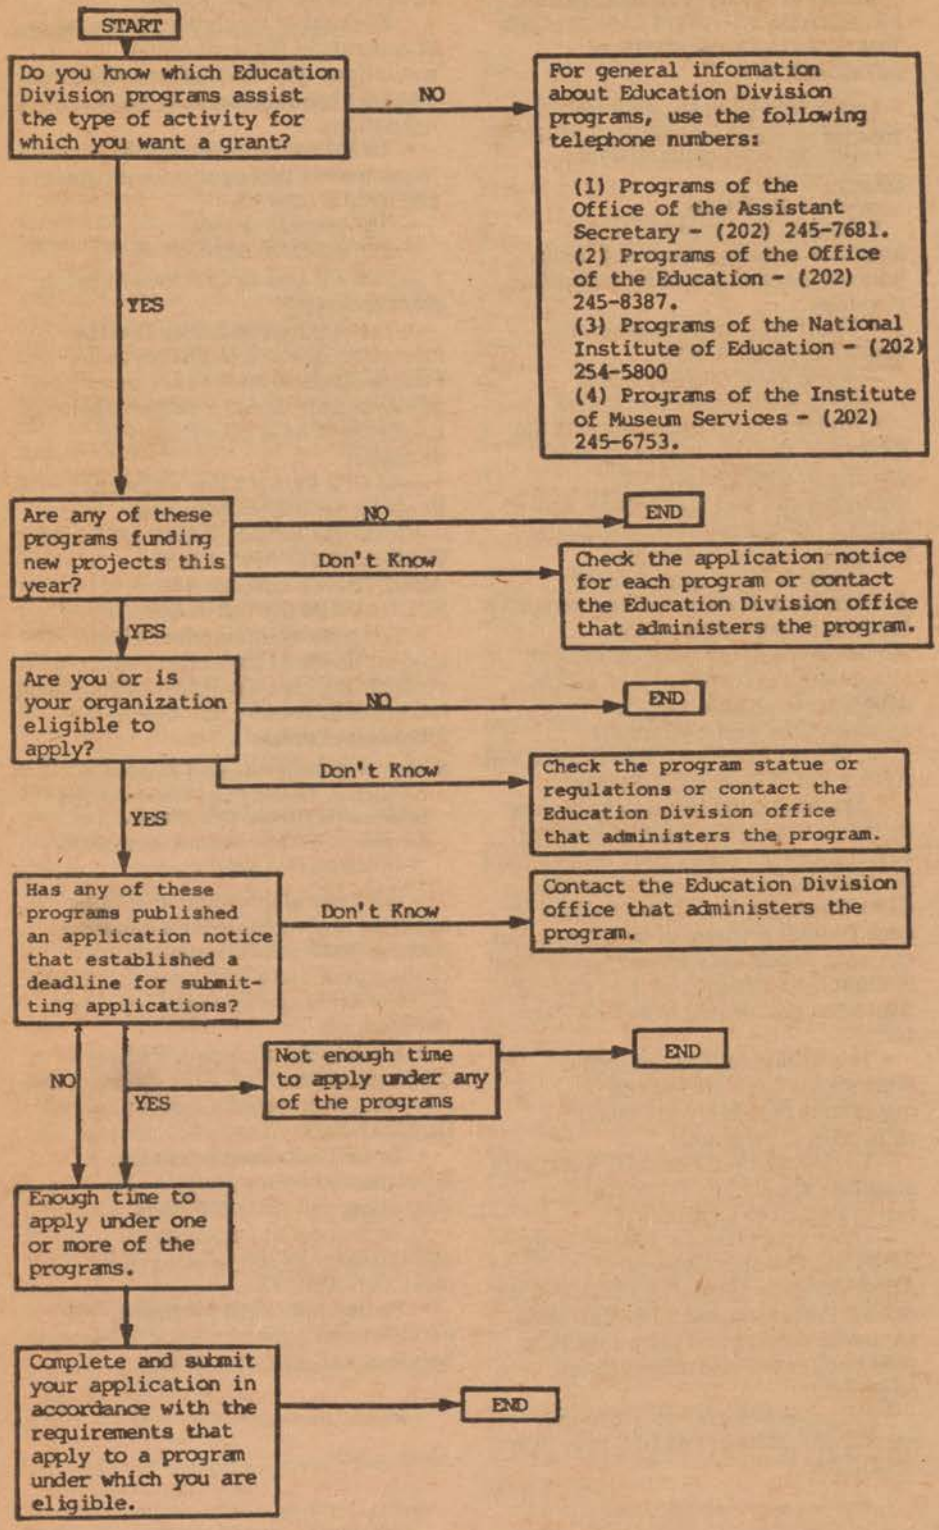
VI. WHAT STEPS SHOULD I TAKE IF I WANT TO APPLY FOR ASSISTANCE UNDER AN EDUCATION DIVISION PROGRAM?

- For general information about student financial assistance, talk to a student financial aid officer at your local college or university, or write to the following address:

Bureau of Student Financial Assistance, Division of Training and Dissemination Information Center, U.S. Office of Education, 400 Maryland Avenue, S.W., Washington, D.C. 20202

- For general information about applying to your State for a subgrant under a State-administered program, contact your State educational agency or other State agency that administers the program.
- For general information about a direct grant program of the Office of the Assistant Secretary for Education, call (202) 245–7681.
- To find out about programs administered by the National Institute of Education, call (202) 254–5800.
- To find out about programs administered by the Office of Education, call (202) 245–8387.
- To find out about programs administered by the Institute of Museum Services, call (202) 245–6753.

To apply under a direct grant program, consider using the steps suggested in the following chart:



PART 100—[REVOKED]

2. Part 100 is revoked.

3. Parts 100a, 100b, and 100c are revised to read as follows:

PART 100a—DIRECT GRANT PROGRAMS

Subpart A—General

Regulations That Apply to Direct Grant Programs

Sec.

100a.1 Programs to which Part 100a applies.
100a.2 Exceptions in program regulations to Part 100a.
100a.3 HEW general grant regulations apply to these programs.
100a.4 Education Division contracts.

Eligibility for a Grant

100a.50 How to find out whether you are eligible.
100a.51 How to prove nonprofit status.

Subpart B—[Reserved]

Subpart C—How To Apply for a Grant

The Application Notice

100a.100 Publication of an application notice; content of the notice.
100a.101 Information in the application notice that helps an applicant apply.
100a.102 Deadline date for applications.
100a.103 Deadline date for preapplications.
100a.104 Applicants must meet procedural rules.

Application Contents

100a.107 Applications for new grants under a discretionary grant program.
100a.108 Applications for new grants under a formula grant program.
100a.109 Changes to application; number of copies.
100a.110 Assure compliance with appropriate requirements of law.
100a.111 Describe the project.
100a.112 Include a proposed project period and a timeline.
100a.113 Describe the key personnel.
100a.114 Describe the resources.
100a.115 Describe the evaluation plan.
100a.116 Demonstrate capability; include evaluation of completed project.
100a.117 Information needed for a multi-year project.
100a.118 Application for a continuation award.
100a.119 Information needed if private school students participate.

Joint Funding Simplification Procedures

100a.124 Applications and preapplications under the Joint Funding Simplification Act.

Separate Applications—Alternative Programs

100a.125 Submit a separate application to each program; exception under the Joint Funding Simplification Act.
100a.126 Application must list all programs to which it is submitted.

Group Applications

100a.127 Eligible parties may apply as a group.
100a.128 Who acts as applicant; the group agreement.
100a.129 Legal responsibilities of each member of the group.

Preapplications

100a.130 Preapplications; purpose of §§ 100a.131–100a.134.
100a.131 Consideration of a preapplication.
100a.132 The effect of not submitting a preapplication.
100a.133 Result of a preapplication.
100a.134 The basis for the preapplication decision.

Open Meeting Certification Under Certain ESEA Programs

100a.138 Open meetings; purpose of §§ 100a.139–100a.141.
100a.139 The local educational agency shall hold an open meeting.
100a.140 Give notice of the open meeting; make information available.
100a.141 Certify that open meeting was held.

State Approval Procedures

100a.150 Review procedure if State must approve applications; purpose of §§ 100a.151–100a.153.
100a.151 When an applicant under § 100a.150 must submit its application to the State; proof of submission.
100a.152 The State reviews each application.
100a.153 Deadlines for State approval.
100a.154 Effect of State approval; failure to approve.

State Comment Procedures

100a.155 Review procedure if State may comment on applications: purpose of §§ 100a.156–100a.158.
100a.156 When an applicant under § 100a.155 must submit its application to the State; proof of submission.
100a.157 The State reviews each application.
100a.158 Deadlines for State comments.
100a.159 Effect of State comments or failure to comment.
100a.160 Procedures for State approval of or comment on preapplications.

OMB Circular A–95 Clearinghouse Procedures

100a.170 Clearinghouse procedures: purpose of §§ 100a.170–100a.173.
100a.171 Notify the appropriate clearinghouses.
100a.172 Applicant shall show compliance with A–95 procedures.
100a.173 The period for clearinghouse review; the effect of not complying with Part I of OMB Circular A–95.

Development of Curricula or Instructional Materials

100a.190 Consultation.
100a.191 Consultation costs.
100a.192 Dissemination.

Subpart D—How Grants Are Made

Selection of New Projects

100a.200 How applications for new grants are selected for funding.
100a.201 How to use the selection criteria.
100a.202 Selection criterion—plan of operation.
100a.203 Selection criterion—quality of key personnel.
100a.204 Selection criterion—budget and cost effectiveness.
100a.205 Selection criterion—evaluation plan.
100a.206 Selection criterion—adequacy of resources.

Selection Procedures

100a.215 How the Education Division selects a new project: purpose of §§ 100a.216–100a.222.
100a.216 Returning an application to the applicant.
100a.217 How the Education Division selects applications for new grants.
100a.218 Applications not selected for funding.
100a.219 Exceptions to the procedures under § 100a.217.
100a.220 Procedures the Education Division uses under § 100a.219(a).
100a.221 Procedures the Education Division uses under § 100a.219(b).
100a.222 Procedures the Education Division uses under § 100a.219(c).

Procedures To Make a Grant

100a.230 How the Education Division makes a grant; purpose of §§ 100a.231–100a.236.
100a.231 Additional information.
100a.232 The cost analysis; basis for grant amount.
100a.233 Setting the amount of the grant.
100a.234 The conditions of the grant.
100a.235 The notification of grant award.
100a.236 Effect of the grant.

Approval of Multi-Year Projects

100a.250 Project period can be up to 60 months.
100a.251 The budget period.
100a.253 Continuation of a multi-year project after the first budget period.
100a.254 Continuation of a multi-year project under the Joint Funding Simplification Act.

Miscellaneous

100a.260 Allotments and reallotments.
100a.261 Extension of a project period.

Subpart E—What Conditions Must Be Met by a Grantee?

Nondiscrimination

100a.500 Federal statutes and regulations on nondiscrimination.

Project Staff

100a.510 Use of a project director.
100a.511 Waiver of requirement for a full-time project director.
100a.515 Use of consultants.
100a.516 Compensation of consultants—employees of institutions of higher education.
100a.517 Changes in key staff members.

100a.518 Minimum wage rates.
100a.519 Dual compensation of staff.

Conflict of Interest

100a.524 Conflict of interest: purpose of § 100a.525.
100a.525 Conflict of interest: participation in a project.

Allowable Costs

100a.530 General cost principles.
100a.531 Limit on total cost of a project.
100a.532 Use of funds for religion prohibited.
100a.533 Acquisition of real property; construction.
100a.534 Training grants—automatic increases for additional dependents.

Indirect Cost Rates

100a.560 General indirect cost rates; exceptions.
100a.561 Approval of indirect cost rates.
100a.562 Indirect cost rates for educational training projects.
100a.563 Restricted indirect cost rate—programs covered.
100a.564 Restricted indirect cost rate—formula.
100a.565 Administrative charge.
100a.566 Fixed charges.
100a.567 Other expenditures.
100a.568 Using the restricted indirect cost rate.

Coordination

100a.580 Coordination with other activities.
100a.581 Methods of coordination.

Evaluation

100a.590 Evaluation by the grantee.
100a.591 Federal evaluation—cooperation by the grantee.
100a.592 Federal evaluation—satisfying requirement for grantee evaluation.

Construction

100a.600 Use of a grant for construction: purpose of §§ 100a.601–100a.615.
100a.601 Applicant's assessment of environmental impact.
100a.602 Preservation of historic sites must be described in the application.
100a.603 Grantee's title to site.
100a.604 Availability of cost-sharing funds.
100a.605 Beginning the construction.
100a.606 Completing the construction.
100a.607 General considerations in designing facilities and carrying out construction.
100a.608 Areas in the facilities for cultural activities.
100a.609 Comply with safety and health standards.
100a.610 Access by the handicapped.
100a.611 Avoidance of flood hazards.
100a.612 Supervision and inspection by the grantee.
100a.613 Relocation assistance by the grantee.
100a.614 Grantee must have operational funds.
100a.615 Operation and maintenance by the grantee.

Equipment and Supplies

100a.618 Charges for use of equipment or supplies.

Publications and Copyrights

100a.620 General conditions on publication.
100a.621 Copyright policy for grantees and contractors.
100a.622 Definition of "project materials."

Inventions and Patents

100a.625 Invention and patent policy.
100a.626 Show Federal support; give papers to vest title.

Other Requirements for Certain Projects

100a.650 Participation of students enrolled in private schools.
100a.681 Protection of human research subjects.
100a.682 Treatment of animals.
100a.683 Health or safety standards for facilities.
100a.684 Day care services.

Subpart F—What Are the Administrative Responsibilities of a Grantee?

General Administrative Responsibilities

100a.700 Compliance with statutes, regulations, and applications.
100a.701 The grantee administers or supervises the project.
100a.702 Fiscal control and fund accounting procedures.
100a.703 Obligation of funds during the grant period.
100a.707 When obligations are made.
100a.708 Prohibition of subgrants.

Reports

100a.720 Financial and performance reports.
100a.721 Reports under the Joint Funding Simplification Act.

Records

100a.730 Records related to grant funds.
100a.731 Records related to compliance.
100a.732 Records related to performance.
100a.733 Records related to State approval of applications.
100a.734 Record retention period.

Privacy

100a.740 Protection of and access to student records.
100a.741 Protection of students' privacy in research and testing.

Data Collection by a Grantee

100a.750 Approval of data collection instruments.
100a.751 Procedures if approval is required.
100a.752 Responsibility for data collection.
100a.753 Confidentiality of response.
100a.754 Exemption from coverage.
100a.755 Definitions used in §§ 100a.750–100a.754.

Subpart G—What Procedures Does the Education Division Use To Get Compliance?

100a.900 Waiver of regulations prohibited.
100a.901 Suspension and termination.
100a.902 Informal procedures.
100a.903 Effective date of termination.

Authority: Sec. 408(a)(1) of Pub. L. 90–247, 88 Stat. 559, 560, as amended (20 U.S.C. 1221e–3(a)(1)), unless otherwise noted.

Subpart A—General

Regulations That Apply to Direct Grant Programs

§ 100a.1 Programs to which Part 100a applies.

The regulations in Part 100a apply to the programs of the Education Division that are listed in the following table. In addition to the name of the program, the table gives the statute that authorizes the program, the regulations that implement the program, and the number that the Catalog of Federal Domestic Assistance (CFDA) gives to the program.

(20 U.S.C. 1221e–3(a)(1))

Note.—Some programs are not currently funded. Check the application notices published each year. See § 100a.100.

Name of program	Authorizing statute	Implementing regulations (45 CFR)	CFDA No.
I. Office of the Assistant Secretary for Education			
Fund for the Improvement of Postsecondary Education	Section 404 of the General Education Provisions Act (20 U.S.C. 1221d).	Part 1501	13.925.
Capacity Building for Statistical Activities in State Educational Agencies.	Section 406 of the General Education Provisions Act (20 U.S.C. 1221–1).	Part 164	13.922.
II. National Institute of Education			
Programs of the National Institute of Education	Section 405 of the General Education Provisions Act (20 U.S.C. 1221e).	Parts 1430, 1450, 1451, 1460, 1470, 1480, 1490, and 1495.	13.950.
III. Institute of Museum Services			
Museum Services Program	Section 206 of the Museum Services Act (20 U.S.C. 965).	Part 64	13.923.

Name of program.	Authorizing statute	Implementing regulations (45 CFR)	CFDA No.
IV. Office of Education			
A. General Programs			
Program Planning and Evaluation	Section 416 of the General Education Provisions Act (20 U.S.C. 1226b).	None	None.
National Diffusion Network	Sections 303 and 376 of the Elementary and Secondary Education Act (20 U.S.C. 2943 and 3041).	Part 193	13.553.
B. Elementary and Secondary Education Programs			
School Construction in Areas Affected by Federal Activities	Public Law 81-815, except section 16 (20 U.S.C. 631-645, 647).	Part 114	13.477.
Entitlements for Handicapped Children	Section 3(d)(2)(C) of Public Law 81-874 (20 U.S.C. 238).	Part 115, Subpart H	13.478.
School Expenditures and Construction in Cases of Certain Disasters.	Sections 7 and 16 of Public Law 81-815 (20 U.S.C. 241-1 and 646).	Part 112	13.477 and 13.478.
Coordination of Migrant Education	Section 143 of the Elementary and Secondary Education Act (20 U.S.C. 2763).	None	None.
Transition of Neglected or Delinquent Children	Section 153 of the Elementary and Secondary Education Act (20 U.S.C. 2783).	None	13.431.
Basic Skills Improvement—National Program	Title II-A of the Elementary and Secondary Education Act (20 U.S.C. 2881-2890).	Part 162	13.599.
Special Projects for Improving Basic Skills	Title II-C of the Elementary and Secondary Education Act (20 U.S.C. 2911-2912).	Part 162	13.599.
Special Projects	Title III-A of the Elementary and Secondary Education Act (20 U.S.C. 2941-2943).	None	None.
Metric Education	Title III-B of the Elementary and Secondary Education Act (20 U.S.C. 2951-2954).	Part 161b	13.561.
Arts Education	Title III-C of the Elementary and Secondary Education Act (20 U.S.C. 2961-2963).	Part 161c	13.566.
Preschool Partnership	Title III-D of the Elementary and Secondary Education Act (20 U.S.C. 2971).	Part 161d	None.
Consumers' Education	Title III-E of the Elementary and Secondary Education Act (20 U.S.C. 2981-2986).	Part 161e	13.564.
Youth Employment	Title III-F of the Elementary and Secondary Education Act (20 U.S.C. 2991-2992).	Part 161f	None.
Law-Related Education	Title III-G of the Elementary and Secondary Education Act (20 U.S.C. 3001-3003).	Part 161g	13.693.
Environmental Education	Title III-H of the Elementary and Secondary Education Act (20 U.S.C. 3011-3018).	Part 161h	13.522.
Health Education	Title III-I of the Elementary and Secondary Education Act (20 U.S.C. 3021-3024).	Part 161i	None.
Correction Education	Title III-J of the Elementary and Secondary Education Act (20 U.S.C. 3031-3034).	Part 161j	None.
Dissemination of Information	Title III-K of the Elementary and Secondary Education Act (20 U.S.C. 3041).	None	None.
Biomedical Sciences	Title III-L of the Elementary and Secondary Education Act (20 U.S.C. 3051-3057).	Part 161l	13.691.
Population Education	Title III-M of the Elementary and Secondary Education Act (20 U.S.C. 3061-3062).	Part 161m	None.
Federal Financial Assistance for Strengthening State Departments of Education—Special Project Grants.	Section 505 of the Elementary and Secondary Education Act (as in effect Sept. 30, 1978).	See 43 FR 57254 (December 7, 1978)	None.
Comprehensive Educational Planning and Evaluation	Sections 531-534 of the Elementary and Secondary Education Act (as in effect Sept. 30, 1978).	See 43 FR 57254 (December 7, 1978)	None.
Bilingual Education	Title VII of the Elementary and Secondary Education Act (20 U.S.C. 3221-3261).	Parts 123, 123a, and 123b	13.403.
Financial Assistance for Demonstration Projects for Reducing School Dropouts.	Section 807 of the Elementary and Secondary Education Act (as in effect Sept. 30, 1978).	See 43 FR 57254 (December 7, 1978)	None.
Grants for Demonstration Projects to Improve School Health and Nutrition Services for Children from Low-Income Families.	Section 808 of the Elementary and Secondary Education Act (as in effect Sept. 30, 1978).	See 43 FR 57254 (December 7, 1978)	None.
Community Schools and Comprehensive Community Education.	Sections 809-813 of the Elementary and Secondary Education Act (20 U.S.C. 3289-3293).	Part 160c, Subparts C, D, and E	13.563.
Gifted and Talented Children	Section 905 of the Elementary and Secondary Education Act (20 U.S.C. 3315).	195	13.562.
Educational Proficiency Standards	Title IX-B of the Elementary and Secondary Education Act (20 U.S.C. 3331-3332).	None	None.
Women's Educational Equity	Title IX-C of the Elementary and Secondary Education Act (20 U.S.C. 3341-3348).	Part 160f	13.565.
Safe Schools	Title IX-D of the Elementary and Secondary Education Act (20 U.S.C. 3351-3354).	Part 161h	None.
Ethnic Heritage Studies Program	Title IX-E of the Elementary and Secondary Education Act (20 U.S.C. 3361-3367).	Part 184	13.549.
Follow Through Program	Sections 551-556 of the Economic Opportunity Act of 1964 (42 U.S.C. 2929-2929c).	Part 158	13.433.
Guidance and Counseling	Title III-D of the Education Amendments of 1976 (20 U.S.C. 2531-2534).	Part 191	13.577
C. Education of the Handicapped Programs			
Regional Resource Centers	Section 621 of the Education of the Handicapped Act (20 U.S.C. 1421).	Part 121b	13.450.
Centers and Services for Deaf-Blind Children	Section 622 of the Education of the Handicapped Act (20 U.S.C. 1422).	Part 121c	13.445.
Early Education for Handicapped Children	Section 623 of the Education of the Handicapped Act (20 U.S.C. 1423).	Part 121d	13.444.
Severely Handicapped Children	Section 624 of the Education of the Handicapped Act (20 U.S.C. 1424).	Part 121e	13.568.
Auxiliary Activities	Section 624 of the Education of the Handicapped Act (20 U.S.C. 1424).	Part 121e	None.
Training Personnel for the Education of the Handicapped	Sections 631, 632, and 634 of the Education of the Handicapped Act (20 U.S.C. 1431, 1432, 1434).	Part 121f	13.451.

Name of program	Authorizing statute	Implementing regulations (45 CFR)	CFDA No.
Recruitment of Personnel and Dissemination of Information	Section 633 of the Education of the Handicapped Act (20 U.S.C. 1433).	Part 121g	13.452.
Research in the Education of the Handicapped	Part E of the Education of the Handicapped Act (20 U.S.C. 1441–1444).	Part 121h	13.443.
Instructional Media for the Handicapped	Part F of the Education of the Handicapped Act (20 U.S.C. 1451–1454).	Part 121i	13.446.
Regional Education Programs for Handicapped Persons	Section 625 of the Education of the Handicapped Act (20 U.S.C. 1424a).	Part 121k	13.560.
Removal of Architectural Barriers to the Handicapped	Section 607 of the Education of the Handicapped Act (20 U.S.C. 1406).	None	None.
D. Occupational and Adult Education Programs			
Commissioner's Discretionary Programs of Vocational Education.	Title I–B and Section 103(a)(1)(B) of the Vocational Education Act (20 U.S.C. 2301–2461).	Part 105	13.498, 13.558, 13.586, 13.587, and 13.588.
Career Education—Model Programs	Section 10 of the Career Education Incentive Act (20 U.S.C. 2609).	161a	None.
Postsecondary Career Education Demonstration Program	Section 11 of the Career Education Incentive Act (20 U.S.C. 2610).	Part 161a	None.
Career Education Information Program	Section 12 of the Career Education Incentive Act (20 U.S.C. 2611).	Part 161a	None.
Adult Education Programs	Sections 309, 317, and 318 of the Adult Education Act (20 U.S.C. 1207a, 1211b, and 1211c).	Part 166	None.
E. Higher Education Programs			
College Library Resources Program	Title II–A of the Higher Education Act (20 U.S.C. 1021–1028).	Part 131	13.406.
Grants for Training in Librarianship	Section 222 of the Higher Education Act (20 U.S.C. 1031–1033).	Part 132	13.468.
Library Resources Demonstration	Section 223 of the Higher Education Act (20 U.S.C. 1034).	Part 133	13.475.
Strengthening Research Library Resources	Title II–C of the Higher Education Act (20 U.S.C. 1041–1046).	Part 136	13.576.
Modern Foreign Language and Area Studies (except Foreign Language and Area Studies Fellowships).	Title VI of the National Defense Education Act (except sections 511(b) and 603) (20 U.S.C. 511–513).	Part 146 (except Subpart D)	13.435 and 13.436.
Higher Education Programs in Modern Foreign Language Training and Area Studies.	Section 102(b)(6) of the Mutual Educational and Cultural Exchange Act (22 U.S.C. 2452(b)(6)).	Part 148	13.438, 13.439, 13.440, and 13.441.
Citizen Education for Cultural Understanding Program	Section 603 of the National Defense Education Act (20 U.S.C. 512a).	Part 146a	None.
Educational Opportunity Centers	Sections 417A and 417B of the Higher Education Act (20 U.S.C. 1070d and 1070d–1).	Part 154	13.543.
Upward Bound Program	Sections 417A and 417B of the Higher Education Act (20 U.S.C. 1070d and 1070d–1).	Part 155	13.492.
Special Services for Disadvantaged Students	Sections 417A and 417B of the Higher Education Act (20 U.S.C. 1070d and 1070d–1).	Part 157	13.482.
Talent Search Program	Sections 417A and 417B of the Higher Education Act (20 U.S.C. 1070d and 1070d–1).	Part 159	13.488.
Strengthening Developing Institutions Program	Title III of the Higher Education Act (20 U.S.C. 1051–1056).	Part 169	13.454.
Training for Higher Education Personnel	Section 533 of the Higher Education Act (20 U.S.C. 1119a–1).	Part 198	13.417.
Financial Assistance for Construction of Higher Education Facilities (except Loans for Construction of Academic Facilities and Annual Interest Grants for Construction of Academic Facilities).	Parts A and B of Title VII of the Higher Education Act (20 U.S.C. 1132a–1132b–1).	See 43 FR 57254 (December 7, 1978)	
Instructional Equipment Grants for Institutions of Higher Education.	Title VI of the Higher Education Act (20 U.S.C. 1121–1129a).	See 43 FR 57254 (December 7, 1978)	13.518.
Financial Assistance for Community Service and Continuing Education Programs—Special Programs and Projects.	Section 106 of the Higher Education Act (20 U.S.C. 1005a).	Part 173, Subpart C	13.557.
Cooperative Education Programs	Title VIII of the Higher Education Act (20 U.S.C. 1133–1133b).	Part 182	13.510.
Veteran's Cost-of-Instruction Payments to Institutions of Higher Education.	Section 420 of the Higher Education Act (20 U.S.C. 1070e–1).	Part 189	13.540.
Public Service Education Program—Public Service Institutional Grants.	Sections 901–904 of the Higher Education Act (20 U.S.C. 1134–1134c).	Part 194, Subpart A	13.555.
Graduate and Professional Study Institutional Grants	Sections 901–904 of the Higher Education Act (20 U.S.C. 1134–1134b).	Part 179 (except Subpart C)	13.580.
State Postsecondary Education Commissions Program—Inter-state Planning.	Section 1203(c) of the Higher Education Act (20 U.S.C. 1142b(c)).	None	13.550.
Community Colleges	Title X of the Higher Education Act (20 U.S.C. 1135 through 1135c–1).	None	None.
F. Other Programs			
Alcohol and Drug Abuse Education Program	Public Law 93–422 (20 U.S.C. 1001–1007)	Part 182a	13.420.
Television Program Assistance	Section 1527 of the Education Amendments of 1978 (20 U.S.C. 1221j).	None	None.
Teacher Corps Program	Section V–A of the Higher Education Act (20 U.S.C. 1101–1107a).	Part 172	13.489.
Teacher Centers Program	Section 532 of the Higher Education Act (20 U.S.C. 1119a).	Part 197	13.416.
Territorial Teacher Training	Section 1525 of the Education Amendments of 1978	None	None.
Education Information Management System	Section 400A (f) and (g) of the General Education Provisions Act (20 U.S.C. 1221–3 (f) and (g)).	None	None.
Indian Education Act (Part A)	Title IV–A of Public Law 92–318 (20 U.S.C. 241aa–241ff).	Parts 186 and 186a	13.534 and 13.551.

Name of program.	Authorizing statute	Implementing regulations (45 CFR)	CFDA No.
Indian Education Act (Part B) (except the Indian Fellowship Program)..	Title IV-B of Public Law 92-318 (20 U.S.C. 887c-1, 3385).	Parts 186 and 186b	13.535.
Indian Education Act (Part C)	Title IV-C of Public Law 92-318 (20 U.S.C. 1211a)	Parts 186 and 186c	13.536.
Desegregation of Public Education	Title IV of the Civil Rights Act of 1964 (42 U.S.C. 2000c through 2000c-5).	Part 180	13.405.
Emergency School Aid	Title VI of the Elementary and Secondary Education Act (20 U.S.C. 3191-3207).	Part 185	13.531, 13.532, 13.681, 13.682, 13.683, 13.684, 13.685, 13.687, and 13.689.
Racially Isolated School Districts	Section 1522 of the Education Amendments of 1978..	None	None.

§ 100a.2 Exceptions in program regulations to Part 100a.

If a program has regulations that are not consistent with Part 100a, the implementing regulations for that program identify the sections of Part 100a that do not apply.

(20 U.S.C. 1221e-3(a)(1))

§ 100a.3 HEW general grant regulations apply to these programs.

The HEW general grant regulations in 45 CFR Part 74 of this title apply to the programs covered by this part. To find subjects covered under 45 CFR Part 74, look in the table of contents at the beginning of 45 CFR Part 74.

(20 U.S.C. 1221e-3(a)(1))

§ 100a.4 Education Division contracts.

(a) A contract of the Education Division is governed by:

(1) Chapters 1 and 3 of Title 41 of the Code of Federal Regulations;

(2) Any applicable program regulations; and

(3) The request for proposals for the procurement, if any, referenced in *Commerce Business Daily.*

(b) The regulations in Part 100a do not apply to a contract of the Education Division unless regulations in Part 100a or a program's regulations specifically provide otherwise.

(20 U.S.C. 1221e-3(a)(1))

Eligibility for a Grant

§ 100a.50 How to find out whether you are eligible.

Eligibility to apply for a grant under a program of the Education Division is governed by the authorizing statute and implementing regulations for that program. The table in § 100a.1 references the statutes and regulations that apply to the direct grant programs of the Education Division.

(20 U.S.C. 1221e-3(a)(1))

§ 100a.51 How to prove nonprofit status.

(a) Under some programs, an applicant must show that it is a nonprofit organization. (See the definition of "nonprofit" in 45 CFR 100c.1.)

(b) An applicant may show that it is a nonprofit organization by any of the following means:

(1) Proof that the Internal Revenue Service currently recognizes the applicant as an organization to which contributions are tax deductible under Section 501(c)(3) of the Internal Revenue Code;

(2) A statement from a State taxing body or the State attorney general certifying that—

(i) The organization is a nonprofit organization operating within the State; and

(ii) No part of its net earnings may lawfully benefit any private shareholder or individual;

(3) A certified copy of the applicant's certificate of incorporation or similar document if it clearly establishes the nonprofit status of the applicant; or

(4) Any item described in paragraphs (b) (1) through (3) of this section if that item applies to a State or national parent organization, together with a statement by the State or parent organization that the applicant is a local nonprofit affiliate.

(20 U.S.C. 1221e-3(a)(1))

Subpart B—[Reserved]

Subpart C—How To Apply for a Grant

The Application Notice

§ 100a.100 Publication of an application notice; content of the notice.

(a) Each fiscal year each appropriate official of the Education Division publishes application notices in the **Federal Register** that explain what kind of assistance is available under the programs that he or she administers.

(b) The application notice for a program explains one or more of the following:

(1) How to apply for a new grant.

(2) How to apply for a continuation award for an existing project already being funded under that program.

(3) If preapplications are used under the program, how to preapply for a new grant.

(20 U.S.C. 1221e-3(a)(1))

Note.—The term "appropriate official of the Education Division" is defined in 45 CFR 100c.1 to mean the official that has overall administrative responsibility for an Education Division program. Depending on the statutory authority for a given program, that official is—

(a) The Assistant Secretary;

(b) The Commissioner;

(c) The Director of the National Institute of Education; or

(d) The Director of the Institute of Museum Services.

§ 100a.101 Information in the application notice that helps an applicant apply.

(a) The application notice for each program gives important information that can help an applicant. The information usually includes—

(1) How an applicant can get an information package that contains detailed information about the program

and the application form that the applicant must use;

(2) Where in the Education Division an applicant must send its application;

(3) The amount of funds available for new grants;

(4) The number of new grants the Education Division expects to make under the program;

(5) The expected budget period, and the average amount of funding that the Education Division will provide to a new grant under the program;

(6) If the programs to approve multi-year projects, the project period that the Education Division will approve under the program;

(7) The amount of funds available for continuation awards under the program;

(8) The number continuation awards the Education Division expects to make under the program;

(9) The average amount of funding that the Education Division expects to provide in these continuation awards; and

(10) A reference to the regulations that apply to the program.

(b) If the appropriate official of the Education Division either requires or permits preapplications under a program, an application notice for the program explains how an applicant can get the preapplication form.

(20 U.S.C. 1221e-3(a)(1))

Cross-reference.—See 45 CFR 100c.1—definitions of "budget period" and "project period."

§ 100a.102 Deadline date for applications.

(a) The application notice for a program sets a deadline date for applications to be mailed or hand delivered to the Education Division.

(b) If an applicant wants a new grant, the applicant shall—

(1) Mail the application to the address specified in the application notice on or before the deadline date; or

(2) Hand deliver the application to the address specified in the application notice by 4:30 p.m. (Washington, D.C. time) on the deadline date.

(c) If an applicant wants a continuation award, the applicant, to be assured of consideration, shall—

(1) Mail the application to the address specified in the application notice on or before the deadline date; or

(2) Hand deliver the application to the address specified in the application notice by 4:30 p.m. (Washington, D.C. time) on the deadline date.

(d) An applicant must show one of the following as proof of mailing:

(1) A legibly dated U.S. Postal Service postmark.

(2) A legible mail receipt with the date of mailing stamped by the U.S. Postal Service.

(3) A dated shipping label, invoice, or receipt from a commercial carrier.

(4) Any other proof of mailing acceptable to the appropriate official of the Education Division.

(e) If an application is mailed through the U.S. Postal Service, the appropriate official does not accept either of the following as proof of mailing:

(1) A private metered postmark.

(2) A mail receipt that is not dated by the U.S. Postal Service.

(20 U.S.C. 1221e-3(a)(1))

Note.—The U.S. Postal Service does not uniformly provide a dated postmark. Before relying on this method, an applicant should check with its local post office.

§ 100a.103 Deadline date for preapplications.

(a) If the appropriate official of the Education Division invites or requires preapplications under a program, the application notice for the program sets a deadline date for preapplications.

(b) An applicant shall submit its preapplication in accordance with the procedures for applications in § 100a.102(b) and (d).

(20 U.S.C. 1221e-3(a)(1))

§ 100a.104 Applicants must meet procedural rules.

The appropriate official of the Education Division may make a grant only to an eligible party that submits an application.

(20 U.S.C. 1221e-3(a)(1))

Application Contents

Cross-reference.—See § 100a.200 for a description of discretionary and formula grant programs.

§ 100a.107 Applications for new grants under a discretionary grant program.

In an application for a new grant under a discretionary grant program, the applicant shall include—

(a) Information that addresses each selection criterion that applies to the program;

(b) The information required by the following sections of EDGAR—

(1) Section 100a.110;

(2) Section 100a.112;

(3) Section 100a.116;

(4) Section 100a.117;

(5) The regulations noted after § 100a.118, if appropriate; and

(6) Section 100a.119, if appropriate; and

(c) All other information that is required under the particular program.

(20 U.S.C. 1221e-3(a)(1))

Cross-reference.—See 45 CFR Part 74, Subpart N—Forms for Applying for Grants.

§ 100a.108 Applications for new grants under a formula grant program.

In an application for a new grant under a formula grant program, the applicant shall include—

(a) The information required by the following sections of EDGAR—

(1) Sections 100a.110–100a.117;

(2) The regulations noted after § 100a.118 if appropriate; and

(3) Section 100a.119, if appropriate; and

(b) All other information that is required under the particular program.

(20 U.S.C. 1221e-3(a)(1))

§ 100a.109 Changes to application; number of copies.

(a) Each applicant shall submit an original and two copies of its application to the Education Division, including any information that the applicant supplies voluntarily.

(b) An applicant may make changes to its application on or before the deadline date for submitting applications under the program.

(20 U.S.C. 1221e-3(a)(1))

Cross-reference.—See § 100a.200 How applications for new grants are selected for funding.

§ 100a.110 Assure compliance with appropriate requirements of law.

An application must include an assurance that a grantee will comply with the requirements imposed by the appropriate official of the Education Division concerning—

(a) Special requirements of law;

(b) Program requirements; and

(c) Administrative requirements.

(20 U.S.C. 1221e-3(a)(1))

§ 100a.111 Describe the project.

An application must describe the project in detail. The description must include—

(a) The purpose of the project;

(b) The design of the project and the plan of management for the project;

(c) Each objective of the project and how the applicant plans to use its resources and personnel to achieve each objective;

(d) The characteristics of intended project participants and beneficiaries, including the extent to which intended participants and beneficiaries are persons who are members of groups that have been traditionally underrepresented, such as—

(1) Members of racial or ethnic minority groups;

(2) Women;

(3) Handicapped persons; and

(4) The elderly; and

(e) The expected effects of the project on persons who are members of groups that have been traditionally underrepresented.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.112 Include a proposed project period and a timeline.

(a) An application must propose a project period for the project.

(b) An application must describe when, in each budget period of the project, the applicant plans to meet each objective of the project.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.113 Describe the key personnel.

An application must include the name and qualifications of each key person in the proposed project. The following information must be included:

(a) The name and qualifications of the project director (if one is to be used.)

(b) The name and qualifications of each of any other key personnel in the project.

(c) The time that each person referred to in paragraphs (a) and (b) of this section plans to commit to the proposed project.

(d) If the name of the project director or any other key person is not known to the applicant when it submits the application, the application must specify the minimum qualifications for that person. This paragraph does not allow an applicant to omit the name or qualifications of the principal investigator for a proposed research project.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.114 Describe the resources.

An application must describe the resources the applicant plans to devote to the project, including—

(a) Facilities; and

(b) Equipment and supplies.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.115 Describe the evaluation plan.

An application must include a description of the applicant's plan to evaluate the project under § 100a.590, the authorizing statute of the program, and the implementing regulations of the program.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.116 Demonstrate capability; include evaluation of completed project.

(a) An application must include information to demonstrate the applicant's capability to—

(1) Conduct the project; and

(2) Meet the needs of the persons (if any) that the applicant plans to serve with the project.

(b) If an applicant wants a grant for a new project that furthers the objectives of a project already completed by the applicant, the applicant shall include any existing evaluation of the completed project.

(20 U.S.C. 1221e-3(a)(1))

§ 100a.117 Information needed for a multi-year project.

An applicant that proposes a multi-year project shall include in its application—

(a) Information that shows why a multi-year project is needed;

(b) A budget for the first budget period of the project; and

(c) An estimate of the Federal funds needed for each budget period of the project after the first budget period.

(20 U.S.C. 1221e-3(a)(1))

§ 100a.118 Application for a continuation award.

(a) An applicant shall comply with paragraph (b) of this section if—

(1) The applicant wants funds to continue a project already approved on a multi-year basis;

(2) The applicant is about to complete one or more of the budget periods; and

(3) The budget period for which the applicant wants a continuation award is within the approved project period.

(b) An applicant for a continuation award shall submit the following:

(1) A revised face page (standard form 424) and revisions to any other affected pages of the approved application.

(2) A budget that covers the next budget period, and an estimate of the amount of funds that will remain unobligated at the end of the current budget period.

(3) An estimate of the Federal funds needed for each budget period that comes after the next budget period.

(c) The appropriate official of the Education Division may also require the applicant to submit a report of project accomplishments to date.

(20 U.S.C. 1221e-3(a)(1))

Cross-reference.—See § 100a.117 Information needed for a multi-year project, and §§ 100a.250–100a.253 Approval of multi-year projects.

Note.—Other sections in this part may require an applicant to put information in its application. However, these sections are not included here because they either—

(1) Apply only to a limited number of programs; or

(2) Apply only under specified circumstances.

A list of these sections follows:

§ 100a.128 Who acts as applicant; the group agreement.

§ 100a.141 Certify that open meeting was held.

§ 100a.151 When an applicant under § 100a.150 must submit its application to the State; proof of submission.

§ 100a.156 When an applicant under § 100a.155 must submit its application to the State; proof of submission.

§ 100a.160 Procedures for State approval of or comment on preapplications.

§ 100a.172 Applicant shall show compliance with A–95 procedures.

§ 100a.192 Dissemination.

§ 100a.601 Applicant's assessment of environmental impact.

§ 100a.602 Preservation of historic sites must be described in the application.

§ 100a.119 Information needed if private school students participate.

If a program requires the applicant to provide an opportunity for participation of students enrolled in private schools, the application must include the information required of subgrantees under 45 CFR 100b.656.

(20 U.S.C. 1221e-3(a)(1))

Joint Funding Simplification Procedures

§ 100a.124 Applications and preapplications under the Joint Funding Simplification Act.

(a) The Joint Funding Simplification Act permits a State or local government or nonprofit organization to seek Federal funds from more than one program in a single application. An applicant shall use the Joint Funding Simplification Act procedures specified in this section if the applicant wants a grant that is funded in part from one Education Division direct grant program and funded in part from—

(1) One or more other Education Division direct grant programs;

(2) One or more other Federal agencies; or

(3) One or more State agencies.

(b) An applicant for a grant under this Act shall comply with the requirements in OMB Circular A–111 and the supplemental procedures in this part. The OMB circular was published in the **Federal Register** on July 30, 1976 (41 FR 32040). An applicant may obtain a copy of this circular by addressing its request to: Joint Funding Information, Director, Division of Regulations Management, Room 2129, 400 Maryland Avenue, S.W., Washington, D.C. 20202.

(c) The supplemental procedures in this part are in—

(1) Section 100a.125;

(2) Section 100a.219(b);

(3) Section 100a.221;

(4) Section 100a.250(b);

(5) Section 100a.254; and

(6) Section 100a.721.

(d) An applicant for a grant under the Joint Funding Simplification Act does not have to comply with any deadline date for applications or preapplications

under an Education Division program from which the applicant seeks funds. However, the appropriate official of the Education Division does not reserve any program funds for jointly funded grants. For this reason, the appropriate official encourages an applicant for a jointly funded grant to apply before the fiscal year in which the grant is to be made or at least before the deadline for applications under the program for that fiscal year.

(42 U.S.C. 4252(a))

Separate Applications—Alternative Programs

§ 100a.125 Submit a separate application to each program; exception under the Joint Funding Simplification Act.

(a) An applicant shall submit a separate application to each program under which it wants a grant.

(b) If an applicant wants a grant under the Joint Funding Simplification Act, the applicant shall submit a single application under the procedures in OMB Circular A–111.

(20 U.S.C. 1221e–3(a)(1); 42 U.S.C. 4252(a))

§ 100a.126 Application must list all programs to which it is submitted.

If an applicant is submitting an application for the same project under more than one Federal program, the applicant shall list these programs in its application. The appropriate official of the Education Division uses this information to avoid duplicate grants for the same project.

(20 U.S.C. 1221e–3(a)(1))

Group Applications

§ 100a.127 Eligible parties may apply as a group.

(a) Eligible parties may apply as a group for a grant.

(b) Depending on the program under which a group of eligible parties seeks assistance, the term used to refer to the group may vary. The list that follows contains some of the terms used to identify a group of eligible parties:

(1) Combination of institutions of higher education.

(2) Consortium.

(3) Joint applicants.

(4) Cooperative arrangements.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.128 Who acts as applicant; the group agreement.

(a) If a group of eligible parties applies for a grant, the members of the group shall either—

(1) Designate one member of the group to apply for the grant; or

(2) Establish a separate, eligible legal entity to apply for the grant.

(b) The members of the group shall enter into an agreement that—

(1) Details the activities that each member of the group plans to perform; and

(2) Binds each member of the group to every statement and assurance made by the applicant in the application.

(c) The applicant shall submit the agreement with its application.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.129 Legal responsibilities of each member of the group.

(a) If the appropriate official of the Education Division makes a grant to a group of eligible applicants, the applicant for the group is the grantee and is legally responsible for—

(1) The use of all grant funds; and

(2) Ensuring that the project is carried out by the group in accordance with Federal requirements.

(b) Each member of the group is legally responsible to—

(1) Carry out the activities it agrees to perform; and

(2) Use the funds that it receives under the agreement in accordance with Federal requirements that apply to the grant.

(20 U.S.C. 1221e–3(a)(1))

Preapplications

§ 100a.130 Preapplications; purpose of §§ 100a.131–100a.134.

The appropriate official of the Education Division considers a preapplication under the procedures in §§ 100a.131–100a.134.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.131 Consideration of a preapplication.

The appropriate official of the Education Division is required to consider a preapplication if—

(a) The applicant complies with the procedural rules that govern submission of the preapplication; and

(b)(1) The preapplication is submitted in response to an application notice that invites or requires preapplications; or

(2) The preapplication is submitted by a government, as defined in 45 CFR 74.3.

Cross-reference—See Subpart N of 45 CFR Part 74.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.132 The effect of not submitting a preapplication.

(a) If the appropriate official of the Education Division invites but does not require preapplications under a program, an applicant may apply for a grant under the program even if the applicant did not preapply.

(b) If the appropriate official of the Education Division requires preapplications under a program and an applicant does not preapply, the applicant may not apply for a grant under the program.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.133 Result of a preapplication.

(a) If an applicant submits a preapplication under a program, the appropriate official of the Education Division—

(1) Informs the applicant that it is eligible and encourages it to apply for a grant under the program;

(2) Informs the applicant that it is eligible but does not encourage it to apply for a grant under the program; or

(3) Informs the applicant that it is ineligible for assistance under the program, and explains why the applicant is ineligible.

(b) An applicant may apply under a program even if the official does not encourage it to apply.

(20 U.S.C. 1221e–3(a)(1))

Cross-reference.—See § 100a.216 Returning an application to an applicant.

§ 100a.134 The basis for the preapplication decision.

To decided whether to encourage a preapplicant to apply, the appropriate official of the Education Division uses the same criteria that the official uses to select an applicant for a grant. (See §§ 100a.200–100a.206 for a description of how selection criteria work.)

(20 U.S.C. 1221e–3(a)(1))

Open Meeting Certification Under Certain ESEA Programs

§ 100a.138 Open meetings; purpose of §§ 100a.139–100a.141.

(a) Sections 100a.139–100a.141 implement Section 1006 of the Elementary and Secondary Education Act of 1965 (ESEA), as amended.

(b) Section 1006 requires a local educational agency that submits an application under certain ESEA programs to certify that it has held an open meeting regarding the contents of the application.

(c) Section 1006 applies to each ESEA program listed in § 100a.1.

(20 U.S.C. 887e)

§ 100a.139 The local educational agency shall hold an open meeting.

(a) If a local educational agency applies for a grant under an ESEA program listed in § 100a.1, the agency shall hold at least one meeting open to the public.

(b) The agency shall inform the people who attend the meeting of—

(1) The ESEA program under which the agency wants a grant;

(2) The kinds of activities that are authorized under the statute and the program regulations; and

(3) The activities for which the agency wants the grant.

(c) The agency shall give each person who attends the meeting an opportunity to comment or make recommendations on the agency's proposed activities.

(20 U.S.C. 887e)

§ 100a.140 Give notice of the open meeting; make information available.

(a) If a local educational agency must hold an open meeting under § 100a.139, the agency shall give notice of the time, place, and purpose of the meeting.

(b) The agency shall give notice that—

(1) Is likely to reach the general public in the area served by the project; and

(2) Gives the public time to prepare for the meeting.

(c) The agency shall take steps to ensure that persons who are members of groups that have been traditionally underrepresented receive the notice required by paragraph (b)(1) and that these persons are encouraged to participate in the meeting. These persons include—

(1) Members of racial or ethnic minority groups;

(2) Women;

(3) Handicapped persons; and

(4) The elderly.

(d) If students enrolled in private schools may participate under the program, the agency shall take steps to ensure that appropriate representatives of those children receive notice of and are encouraged to participate in the meeting.

(e) The agency shall make the following material available for inspection by the public at least 24 hours before the open meeting begins:

(1) An outline of the information described in § 100a.139(b).

(2) A draft copy of the agency's application, if the application has been prepared.

(20 U.S.C. 887e)

§ 100a.141 Certify that open meeting was held.

If a local educational agency must hold an open meeting under § 100a.139, the agency shall certify in its application that—

(a) The agency held at least one open meeting under § 100a.139;

(b) The agency gave notice of each open meeting in accordance with § 100a.140 (a) and (b);

(c) The agency made information available in accordance with § 100a.140(c)–(e);

(d) The agency gave meaningful consideration to any comments or recommendations that it received at each open meeting; and

(e) The agency amended its application, as appropriate, in light of those comments and recommendations.

(20 U.S.C. 887e)

State Approval Procedures

§ 100a.150 Review procedure if State must approve applications; purpose of §§ 100a.151–100a.153.

If the authorizing statute for a program requires the State to approve each application, the State and the applicant shall use the procedures in §§ 100a.151–100a.153.

(20 U.S.C. 1221e–3(a)(1))

Cross-reference.—See § 100a.160 Procedures for State approval of or comment on preapplications; and § 100a.733 Records related to State approval of applications.

§ 100a.151 When an applicant under § 100a.150 must submit its application to the State; proof of submission.

(a) Each applicant under a program covered by § 100a.150 of this Part shall submit a copy of its application to the State at least 15 days before the deadline date for submitting the application to the Education Division.

(b) The applicant shall attach to its application a copy of its letter that requests the State to approve the application.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.152 The State reviews each application.

Each State that receives an application under § 100a.151 of this Part shall review the application to decide if the State wishes to approve or disapprove the application.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.153 Deadlines for State approval.

(a) The appropriate official of the Education Division may publish in the **Federal Register** a notice that establishes a deadline date for receipt of State approvals of applications under a program covered by § 100a.150.

(b) If a State approves an application, the appropriate State official shall—

(1) Sign a statement that approves the application; and

(2) Submit the application and the statement by the deadline date for State approvals. The procedures in § 100a.102(c) (how to meet a deadline date) apply to this submission.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.154 Effect of State approval; failure to approve.

(a) If a State approves an application on or before the deadline date for State approval, the appropriate official of the Education Division may select that project for a grant.

(b) If a State does not approve an application on or before the deadline date for State approval, the appropriate official of the Education Division does not select that project for a grant.

(20 U.S.C. 1221e–3(a)(1))

State Comment Procedures

§ 100a.155 Review procedure if State may comment on applications: purpose of §§ 100a.156–100a.158.

If the authorizing statute or implementing regulations for a program require that a State be given an opportunity to comment on each application, the State and the applicant shall use the procedures in §§ 100a.156–100a.158.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.156 When an applicant under § 100a.155 must submit its application to the State; proof of submission.

(a) Each applicant under a program covered by § 100a.155 shall submit a copy of its application to the State on or before the deadline date for submitting its application to the Education Division.

(b) The applicant shall attach to its application a copy of its letter that requests the State to comment on the application.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.157 The State reviews each application.

A State that receives an application under § 100a.156 may review and comment on the application.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.158 Deadlines for State comments.

(a) The appropriate official of the Education Division may establish a deadline date for receipt of State comments on applications.

(b) The State shall make its comments in a written statement signed by an appropriate State official.

(c) The appropriate State official shall submit comments to the appropriate official of the Education Division by the deadline date for State comments. The procedures in § 100a.102 (b) and (d) (how to meet a deadline) of this Part apply to this submission.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.159 Effect of State comments or failure to comment.

(a) The appropriate official of the Education Division considers those comments of the State that relate to—

(1) Any selection criterion that applies under the program; or

(2) Any other matter that affects the selection of projects for funding under the program.

(b) If the State fails to comment on an application on or before the deadline date for the appropriate program, the State waives its right to comment.

(c) If the applicant does not give the State an opportunity to comment, the appropriate official of the Education Division does not select that project for a grant.

(20 U.S.C. 1221e-3(a)(1))

§ 100a.160 Procedures for State approval of or comment on preapplications.

(a) If the authorizing statute for a program requires that a State approve each preapplication, the State and the applicant shall use the approval procedures in §§ 100a.151–100a.153 for the preapplication.

(b) If the authorizing statute or implementing regulations for a program require that a State be given an opportunity to comment on each preapplication, the State and the applicant shall use the comment procedures in §§ 100a.156–100a.158 for the preapplication.

(20 U.S.C. 1221e-3(a)(1))

OMB Circular A–95 Clearinghouse Procedures

§ 100a.170 Clearinghouse procedures: purpose of §§ 100a.170–100a.173.

(a) Sections 100a.170–100a.173 implement Part I of OMB circular A–95.

(b) Part I of OMB Circular A–95 requires an applicant under certain Federal programs to notify the appropriate State and areawide clearinghouses of the applicant's intent to apply. The clearinghouses may comment on the application.

(c) The following programs listed in § 100a.1 are covered by Part I of OMB Circular A–95:

Name of program	Authorizing statute	Implementing regulations	CFDA No.
Environmental Education	Title III-H of the Elementary and Secondary Education Act (20 U.S.C. 3011).	Part 161h	13.522
Follow Through Program	Sections 551–556 of the Economic Opportunity Act of 1964 (42 U.S.C. 2929–2929e).	Part 158	13.433
Model Programs under the Research in the Education of the Handicapped Program.	Section 641 of the Education of the Handicapped Act (20 U.S.C. 1441).	Part 121h	13.443
Community Service and Continuing Education Programs—Special Programs and Projects.	Section 106 of Title I of the Higher Education Act of 1965 (20 U.S.C. 1005a).	Part 173, Subpart C.	13.557
Financial Assistance for Construction of Higher Education Facilities (except Loans for Construction of Academic Facilities and Annual Interest Grants for Construction of Academic Facilities) (20 U.S.C. 1221e-3(a)(1)).	Parts A and B of Title VII of the Higher Education Act (20 U.S.C. 1132a–1132b–1).	See 43 FR 57254 (Dec. 7, 1978).	

§ 100a.171 Notify the appropriate clearinghouses.

(a) An applicant under a program listed in § 100a.170 shall include in its notice to the clearinghouses a summary of the project.

(b) If a clearinghouse to which a notice is submitted has specified what information is to be included in a summary, the applicant shall provide that information.

(c) If a clearinghouse to which a notice is submitted has not specified what information is to be included in a summary, the applicant shall provide the following information:

(1) The identity of the applicant.

(2) The geographic location of the proposed project (including a map, if appropriate).

(3) A brief description of the proposed project that helps the clearinghouses identify any State and local agencies that have plans or projects that may be affected by the project. The description must include—

(i) The type of project;

(ii) The purpose of the project;

(iii) The general size of the project;

(iv) The estimated cost of the project;

(v) The beneficiaries of the project; and

(vi) Any other information that will help the clearinghouses identify affected agencies.

(4) A statement that shows whether the applicant must prepare an Environmental Impact Statement.

(5) The name of the program and the Catalog of Federal Domestic Assistance number for the program.

(6) The date the applicant expects to submit its application to the Education Division.

(d) If an applicant uses the preapplication procedure in this subpart, the applicant shall submit a copy of the preapplication to the appropriate clearinghouses on the same date it submits the preapplication to the Education Division.

(20 U.S.C. 1221e-3(a)(1))

§ 100a.172 Applicant shall show compliance with A–95 procedures.

An applicant under a program listed in § 100a.170 shall include either of the following in its application—

(a)(1) The comments of each clearinghouse that commented on the application; and

(2) A statement that the applicant considered those comments before submitting the application to the Education Division; or

(b) A statement that the applicant has used the procedures of Part I of OMB Circular A–95 but has not received any clearinghouse comments.

(20 U.S.C. 1221e-3(a)(1))

§ 100a.173 The period for clearinghouse review; the effect of not complying with Part I of OMB Circular A–95.

(a) OMB Circular A–95 gives a clearinghouse 30 days to—

(1) Notify affected agencies and governments; and

(2) Consult with the applicant about the application.

(b) The Circular also permits a clearinghouse to take an additional 30 days to review the application and to transmit comments to the applicant.

(c) The appropriate official of the Education Division may make a grant under a program listed in § 100a.170 only if the applicant has complied with Part I of OMB Circular A–95.

(20 U.S.C. 1221e-3(a)(1))

Development of Curricula or Instructional Materials

§ 100a.190 Consultation.

Each applicant that intends to develop curricula or instructional materials under a grant is encouraged to assure that the curricula or materials will be developed in a manner conducive to dissemination, through continuing consultations with publishers, personnel of State and local educational agencies, teachers, administrators, community

representatives, and other individuals experienced in dissemination.

(20 U.S.C. 1231c(c)(1))

§ 100a.191 Consultation costs.

An applicant may budget reasonable consultation fees or planning costs in connection with the development of curricula or instructional materials.

(20 U.S.C. 1231c(c)(2))

§ 100a.192 Dissemination.

If an applicant proposes to publish and disseminate curricula or instructional materials under a grant, the applicant shall include an assurance in its application that the curricula or materials will reach the populations for which the curricula or materials were developed.

(20 U.S.C. 1231c(c)(3))

Subpart D—How Grants Are Made

Selection of New Projects

§ 100a.200 How applications for new grants are selected for funding.

(a) *Direct grant programs.* The Education Division administers two kinds of direct grant programs. A direct grant program is either a discretionary grant or a formula grant program.

(b) *Discretionary grant programs.* (1) A discretionary grant program is one that permits the appropriate official of the Education Division to use discretionary judgment in selecting applications for funding.

Cross-reference.—See § 100a.219 Exceptions to the procedures under § 100a.217.

(2) The appropriate official of the Education Division uses selection criteria to evaluate the applications submitted for new grants under a discretionary grant program.

(3) Sections 100a.202 through 100a.206 contain the EDGAR selection criteria. The EDGAR criteria used by a program are repeated in the program regulations. If a program does not have selection criteria, the appropriate official uses the EDGAR criteria, with each criterion weighted equally, to evaluate applications.

(c) *Formula grant programs.* (1) A formula grant program is one that entitles certain applicants to receive grants if they meet the requirements of the program. Applicants do not compete with each other for the funds, and each grant is either for a set amount or for an amount determined under a formula.

(2) The appropriate official of the Education Division applies the program statute and regulations to fund projects under a formula grant program. The EDGAR selection criteria in §§ 100a.202–100a.206 are not used to evaluate applications under these programs.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.201 How to use the selection criteria.

(a) *Unweighted criteria.* If the selection criteria for a program are not weighted, the appropriate official of the Education Division evaluates each criterion equally.

(b) *Weighted criteria.* (1) If the selection criteria for a program are weighted, the appropriate official of the Education Division assigns in the program regulations a total number of points that an applicant may receive under all of the criteria.

(2) The minimum weights assigned to EDGAR criteria that are used under a program are stated in §§ 100a.202–100a.206.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.202 Selection criterion—plan of operation.

(a) The appropriate official of the Education Division reviews each application for information that shows the quality of the plan of operation for the project.

(b) The official looks for information that shows—

(1) High quality in the design of the project;

(2) An effective plan of management that insures proper and efficient administration of the project;

(3) A clear description of how the objectives of the project relate to the purpose of the program;

(4) The way the applicant plans to use its resources and personnel to achieve each objective;

(5) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(i) Members of racial or ethnic minority groups;

(ii) Women;

(iii) Handicapped persons; and

(iv) The elderly; and

(6) For grants to be made after October 1, 1980 under a program that requires the applicant to provide an opportunity for participation of students enrolled in private schools—a clear description of how the applicant will provide that opportunity.

(c) Under a program using weighted selection criteria, this criterion is assigned at least 10 percent of the total number of points assigned to the program.

(20 U.S.C. 1221e–3(a)(1))

Note.—Paragraph (b)(5), which is intended to ensure equal access and treatment for groups that have been traditionally underrepresented, does not mean that a grantee may include participants in a project who are ineligible under the program that funds the project. For example, under the program Early Education for Handicapped Children (See § 100a.1), a grantee may not serve women or the elderly, and an applicant under that program would not consider these groups under paragraph (b)(5).

§ 100a.203 Selection criterion—quality of key personnel.

(a) The appropriate official of the Education Division reviews each application for information that shows the qualifications of the key personnel the applicant plans to use on the project.

(b) The official looks for information that shows—

(1) The qualifications of the project director (if one is to be used);

(2) The qualifications of each of the other key personnel to be used in the project;

(3) The time that each person referred to in paragraphs (b) (1) and (2) of this section will commit to the project; and

(4) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(i) Members of racial or ethnic minority groups;

(ii) Women;

(iii) Handicapped persons; and

(iv) The elderly.

(c) To determine personnel qualifications, the official considers experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides.

(d) Under a program using weighted selection criteria, this criterion is assigned at least 7 percent of the total number of points assigned to the program.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.204 Selection criterion—budget and cost effectiveness.

(a) The appropriate official of the Education Division reviews each application for information that shows that the project has an adequate budget and is cost effective.

(b) The official looks for information that shows—

(1) The budget for the project is adequate to support the project activities; and

(2) Costs are reasonable in relation to the objectives of the project.

(c) Under a program using weighted selection criteria, this criterion is

assigned at least 5 percent of the total number of points assigned to the program.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.205 Selection criterion—evaluation plan.

(a) The appropriate official of the Education Division reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference.—See § 100a.590 Evaluation by the grantee.

(b) The official looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable.

(c) Under a program using weighted selection criteria, this criterion, is assigned at least 5 percent of the total number of points assigned to the program.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.206 Selection criterion—adequacy of resources.

(a) The appropriate official of the Education Division reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(b) The official looks for information that shows—

(1) The facilities that the applicant plans to use are adequate; and

(2) The equipment and supplies that the applicant plans to use are adequate.

(c) Under a program using weighted selection criteria, this criterion is assigned at least 3 percent of the total number of points assigned to the program.

(20 U.S.C. 1221e–3(a)(1))

Selection Procedures

100a.215 How the Education Division selects a new project: purpose of §§ 100a.216–100a.222.

Sections 100a.216–100a.222 describe the process the appropriate official of the Education Division uses to select applications for new grants. All of these sections apply to a discretionary grant program. However, only § 100a.216 applies also to a formula grant program.

Cross-reference.—See § 100a.200(b) Discretionary grant program, and (e) Formula grant program.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.216 Returning an application to the applicant.

(a) The appropriate official of the Education Division returns an application to an applicant if—

(1) The applicant is not eligibile.

(2) The applicant does not comply with all of the procedural rules that govern the submission of the application;

(3) The application does not contain the information required under the program; or

(4) The proposed project cannot be funded under the authorizing statute or implementing regulations for the program.

(b) If the appropriate official of the Education Division returns an application under this section, the official includes a statement that explains why the application was returned.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.217 How the Education Division selects applications for new grants.

(a)(1) The appropriate official of the Education Division may use one or more groups of experts to evaluate the applications submitted under each program.

(2) Each group of experts consists of three or more persons who are qualified to evaluate the applications.

(3) In each group of experts, there must be at least one person who is not an employee of the Federal Government.

(4) A person may not serve as a member of a group of experts if—

(i) The person is an employee of HEW who is involved in the administration of the program for which the group is evaluating applications; or

(ii) The person was involved within the past year in the administration of the program for which the group is evaluating applications.

(5) However, if the appropriate official of the Education Division signs a waiver for a person covered by paragraph (a)(4) of this section, that person may serve as a member of a group of experts.

(b) A group of experts uses the selection criteria that apply to the program to evaluate the quality of each application.

(c) After the groups of experts have evaluated the applications, the appropriate official of the Education Division prepares a rank ordering of the applications. The rank ordering of applications is based solely on the evaluations of the applications by the groups of experts.

(d) The official then determines the order in which applications will be selected. The official makes these determinations on the basis of the selection criteria and any priorities or other program requirements that have been published in the **Federal Register** and apply to the selection of applications for new grants. The official may consider the following in making these determinations:

(1) The information in each application.

(2) The rank ordering of the applications.

(3) Any other information relevant to a criterion, priority, or other requirement that applies to the selection of applications for new grants.

(e) The official selects applications in the order determined under paragraph (d) of this section.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.218 Applications not selected for funding.

If an application is not selected for funding, the appropriate official of the Education Division informs the applicant why the application was not selected.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.219 Exceptions to the procedures under § 100a.217.

The appropriate official of the Education Division may select an application for funding without following the procedures in § 100a.217 if—

(a) The objectives of the project cannot be achieved unless the official makes the grant before the date grants can be made under the procedures in § 100a.217; or

(b) The applicant applies for funds under the Joint Funding Simplification Act; or

(c)(1) The application was evaluated by a group of experts under the preceding competition of the program;

(2) The group of experts rated the application high enough to deserve selection under § 100a.217; and

(3) The application was not selected for funding because the application was mishandled by the Education Division.

(20 U.S.C. 1221e–3(a)(1); 42 U.S.C. 4252(a))

§ 100a.220 Procedures the Education Division uses under § 100a.219(a).

If the special circumstances of § 100a.219(a) appear to exist for an application, the appropriate official of the Education Division uses the following procedures:

(a) The official assembles a board to review the application.

(b) The board consists of—

(1) A program officer of the program under which the applicant wants a grant;

(2) An Education Division grants officer; and

(3) An HEW employee who is not a program officer of the program but who is qualified to evaluate the application.

(c) The board reviews the application to decide if—

(1) The special circumstances under § 100a.219(a) are satisfied;

(2) The application rates high enough, based on the selection criteria, priorities, and other requirements that apply to the program, to deserve selection; and

(3) Selection of the application will not have an adverse impact on the budget of the program

(d) The board forwards the results of its review to the appropriate official of the Education Division.

(e) If each of the conditions in paragraph (c) of this section is satisfied, the appropriate official of the Education Division may select the application for funding.

(f) Even if the official does not select the application for funding, the applicant may submit its application under the procedures in Subpart C of this part.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.221 Procedures the Education Division uses under § 100a.219(b).

The appropriate official of the Education Division uses the following procedures for an application submitted under § 100a.219(b):

(a) The official assembles a board to review the application.

(b)(1) The board consists of—

(i) A program officer from each Education Division program under which the applicant wants funds;

(ii) An Education Division grants officer; and

(iii) An HEW employee who is not a program officer for any of the programs under which the applicant wants funds but who is qualified to review the application.

(2) The board may also include one or more persons who do not work for HEW but who are qualified to review the application.

(c) The board reviews the application to decide if—

(1) The proposed project is feasible, and is consistent with Federal and agency policies concerning the scope and purpose of joint funding;

(2) The applicant has properly demonstrated a relationship among the programs included in the joint funding project;

(3) The proposed project is competitive with similar requests for program funds, including the applications submitted under the procedures in § 100a.217;

(4) There will not be an adverse impact on the budget of any Education Division program under which the applicant wants funds if the project is funded; and

(5) The application rates high enough to deserve funding, based on the selection criteria and other requirements that apply to each Education Division program under which the applicant wants funds.

(d) The board forwards the results of its review to the appropriate official of the Education Division.

(e) If each of the conditions in paragraph (c) of this section is satisfied, the appropriate official may—

(1) Select the project for funding; and

(2) Decide which Education Division programs will fund the project.

(42 U.S.C. 4252(a))

§ 100a.222 Procedures the Education Division uses under § 100a.219(c).

If the special circumstances of § 100a.219(c) appear to exist for an application, the appropriate official of the Education Division may select the application for funding if—

(a) The official has documentary evidence that the special circumstances of § 100a.219(c) exist; and

(b) The official has a statement that explains the circumstances of the mishandling.

(20 U.S.C. 1221e–3(a)(1))

Procedures To Make a Grant

§ 100a.230 How the Education Division makes a grant; purpose of §§ 100a.231–100a.236.

If the appropriate official of the Education Division selects an application under §§ 100a.217, 100a.220, or 100a.222, the official follows the procedures in §§ 100a.231–100a.236 to set the amount and determine the conditions of a grant. Sections 100a.235–100a.236 also apply to grants under formula grant programs.

Cross-reverence.—See § 100a.200 How applications for new grants are selected for funding.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.231 Additional information.

After selecting an application for funding, the appropriate official of the Education Division may require the applicant to submit additional information.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.232 The cost analysis; basis for grant amount.

(a) Before the appropriate official of the Education Division sets the amount of a grant, the official does a cost analysis of the project. The official—

(1) Verifies the cost data in the detailed budget for the project;

(2) Evaluates specific elements of costs; and

(3) Examines costs to determine if they are necessary, reasonable, and allowable under applicable statutes and regulations.

(b) The official uses the cost analysis as a basis for determining the amount of the grant to the applicant. The cost analysis shows whether the applicant can achieve the objectives of the project with reasonable efficiency and economy under the budget in the application.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.233 Setting the amount of the grant.

The appropriate official of the Education Division may fund up to 100 percent of the allowable costs in the budget. In deciding what percent of the allowable costs to fund, the official considers—

(a) Matching or cost sharing requirements that apply; and

(b) Any other financial resources available to the applicant.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.234 The conditions of the grant.

The appropriate official of the Education Division makes a grant to an applicant only after determining—

(a) The approved costs; and

(b) Any special conditions.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.235 The notification of grant award.

(a) To make a grant, the appropriate official issues a notification of grant award and sends it to the grantee.

(b) The notification of grant award sets the amount of the grant and gives other information about the grant.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.236 Effect of the grant.

The grant obligates both the Federal Government and the grantee to the requirements that apply to the grant.

(20 U.S.C. 1221e–3(a)(1))

Cross-reference.—See 45 CFR Part 74, Subpart L—Programmatic Changes and Budget Revisions.

Approval of Multiyear Projects

§ 100a.250 Project period can be up to 60 months.

(a) The appropriate official of the Education Division may approve a project period of up to 60 months.

(b) If a project is approved under the Joint Funding Simplification Act, the appropriate official may approve a project period of up to 60 months even if the official has restricted the project period for other projects under the program.

(20 U.S.C. 1221e–3(a)(1); 42 U.S.C. 4252(a))

§ 100a.251 The budget period.

(a) The appropriate official of the Education Division usually approves a budget period of not more than 12 months, even if the project has a multi-year project period.

(b) If the official approves a multi-year project period, the official—

(1) Makes a grant to the project for the initial budget period; and

(2) Indicates his or her intention to make contination awards to fund the remainder of the project period.

(20 U.S.C. 1221e–3(a))

§ 100a.253 Continuation of a multi-year project after the first budget period.

(a) The appropriate official of the Education Division may make a continuation award for a budget period after the first budget period of an approved multi-year project if—

(1) The Congress has appropriated sufficient funds under the program;

(2) The official is satisfied that the grantee will satisfactorily complete the budget period that is about to end;

(3) The grantee has submitted every report that it must submit before the date of the continuation award; and

(4) Continuation of the project is in the best interest of the Federal Government.

(b) Subject to the criteria in paragraph (a) of this section, in selecting applications for funding under a program the appropriate official of the Education Division gives priority to contination awards over new grants.

(c) In determining the amount of a continuation award, the official reduces the amount of funds needed for the next budget period by the amount of funds that remain available from the current budget period.

(d) A grantee that is in the final budget period of a project period may seek continued assistance for the project under the procedures for selecting new projects.

Cross-reference.—See Subpart C—How to Apply for a Grant.

(20 U.S.C. 1221e–3(a)(1))

Cross-reference.—See § 100a.117 Information needed for a multi-year project; and § 100a.118 Application for a continuation award.

§ 100a.254 Continuation of a multi-year project under the Joint Funding Simplification Act.

(a) If the conditions in § 100a.253(a) are met, the appropriate official of the Education Division may make a continuation award to a multi-year project funded under the Joint Funding Simplification Act.

(b) The appropriate official decides whether to make a continuation award in cooperation with any other Federal agencies or any State agencies that are also funding the proeject.

(42 U.S.C. 4252(a))

Miscellaneous

§ 100a.260 Allotments and reallotments.

(a) Under some of the programs listed in § 100a.1, the appropriate official of the Education Division allots funds under a statutory or regulatory formula.

(b) Any reallotment to other grantees will be made by the official in accordance with the authorizing statute for that program.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.261 Extension of a project period.

The appropriate official of the Education Division may extend a project period if—

(a) Special or unusual circumstances will delay completion of the project;

(b) The grantee provides the official with a written request for the extension at least 45 days before the end of the project period;

(c) The grantee states the reasons why it needs the extension;

(d) The extension does not violate any statute or regulations;

(e) The extension does not involve the obligation of additional Federal funds; and

(f) The extension is to carry out the activities in the approved application.

(20 U.S.C. 1221e–3(a)(1))

Subpart E—What Conditions Must Be Met by a Grantee?

Nondiscrimination

§ 100a.500 Federal statutes and regulations on nondiscrimination.

Each grantee shall comply with the following statutes and regulations:

Subject	Statute	Regulations
Discrimination on the basis of race, color or national origin.	Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d through 2000d–4).	45 CFR Part 80.
Discrimination on the basis of sex.	Title IX of the Education Amendments of 1972 (20 U.S.C. 1681–1683).	45 CFR Part 86.
Discrimination on the basis of handicap.	Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794).	45 CFR Part 84.
Discrimination on the basis of age.	The Age Discrimination Act (42 U.S.C. 6101 *et seq.*).	45 CFR Part 90.

(20 U.S.C. 1221e–3(a)(1))

Project Staff

§ 100a.510 Use of a project director.

(a) This section applies to each grantee that uses a project director to administer its project.

(b) The grantee shall insure that its project director has—

(1) Appropriate professional qualifications, experience, and administrative skills, and

(2) A clear commitment to the objectives of the project.

(c) The grantee shall give its project director sufficient authority to conduct the project effectively.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.511 Waiver of requirement for a full-time project director.

(a) If regulations under a program require a full-time project director, the appropriate official of the Education Division may waive that requirement under the following conditions:

(1) The project will not be adversely affected by the waiver.

(2)(i) The project director is needed to coordinate two or more related projects; or

(ii) The project director must teach a minimum number of hours to retain faculty status.

(b) The waiver either permits the grantee—

(1) To use a part-time project director; or

(2) Not to use any project director.

(c)(1) An applicant or a grantee may request the waiver.

(2) The request must be in writing and must demonstrate that a waiver is appropriate under this section.

(3) The appropriate official of the Education Division gives the waiver in writing. The waiver is effective on the date the official signs the waiver.

(20 U.S.C. 1221e–3(a)(1))

Cross-reference.—See 45 CFR 74.103(c) Changes in key people in a research project.

§ 100a.515 Use of consultants.

(a) Subject to Federal statutes and regulations, a grantee shall use its general policies and practices when it hires, uses, and pays a consultant as part of the project staff.

(b) The grantee may not use its grant to pay a consultant unless—

(1) There is a need in the project for the services of that consultant; and

(2) The grantee cannot meet that need by using an employee rather than a consultant.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.516 Compensation of consultants—employees of institutions of higher education.

If an institution of higher education receives a grant for research or for educational services, it may pay a consultant's fee to one of its employees only in unusual circumstances and only if—

(a) The work performed by the consultant is in addition to his or her regular departmental load; and

(b)(1) The consultation is across departmental lines; or

(2) The consultation involves a separate or remote operation.

(20 U.S.C. 1221e-3(a)(1))

§ 100a.517 Changes in key staff members.

A grantee shall comply with 45 CFR 74.103(c)(2) concerning replacement or lesser involvement of any key project staff, whether or not the grant is for research.

(20 U.S.C. 1221e-3(a)(1))

§ 100a.518 Minimum wage rates.

The grantee shall pay a project staff member not less than any minimum wage required under Federal Law.

(20 U.S.C. 1221e-3(a)(1))

§ 100a.519 Dual compensation of staff.

A grantee may not use its grantee to pay a project staff member for time or work for which that staff member is compensated from some other source of funds.

(20 U.S.C. 1221e-3(a)(1))

Conflict of Interest

§ 100a.524 Conflict of interest: purpose of § 100a.525.

(a) The conflict of interest regulations of the Education Division that apply to a grant are in § 100a.525.

(b) These conflict of interest regulations do not apply to a "government" as defined in 45 CFR 74.3.

Note.—A government must provide a conflict of interest assurance under the standard application required by Subpart N of 45 CFR Part 74 (Forms for Applying for Grants).

(c) The regulations in § 100a.525 do not apply to a grantee's procurement contracts. The conflict of interest regulations that cover those procurement contracts are in 45 CFR Part 74.

Subpart P—Procurement Standards

(20 U.S.C. 1221e-3(a)(1))

§ 100a.525 Conflict of interest: participation in a project.

(a) A grantee may not permit a person to participate in an administrative decision regarding a project if—

(1) The decision is likely to benefit that person or a member of his or her immediate family; and

(2) The person—

(i) Is a public official; or

(ii) Has a family or business relationship with the grantee.

(b) A grantee may not permit any person participating in the project to use his or her position for a purpose that is—or gives the appearance of being—motivated by a desire for a private financial gain for that person or for others.

(20 U.S.C. 1221e-3(a)(1))

Allowable Costs

§ 100a.530 General cost principles.

The general principles to be used in determining costs applicable to grants and cost-type contracts under grants are referenced in Subpart Q of 45 CFR Part 74 (Cost Principles).

(20 U.S.C. 1221e-3(a)(1))

Cross-reference.—See 45 CFR Part 74, Subpart G—Matching or Cost Sharing.

§ 100a.531 Limit on total cost of a project.

A grantee shall insure that the total cost to the Federal Government is not more than the amount stated in the notification of grant award.

(20 U.S.C. 1221e-3(a)(1))

§ 100a.532 Use of funds for religion prohibited.

(a) No grantee may use its grant to pay for any of the following:

(1) Religious worship, instruction, or proselytization.

(2) Equipment or supplies to be used for any of those activities.

(3) Construction, remodeling, repair, operation, or maintenance of any facility or part of a facility to be used for any of those activities.

(4) An activity of a school or department of divinity.

(b) As used in this section, "school or department of divinity" means an institution or a component of an institution whose program is specifically for the education of students to—

(1) Prepare them to enter into a religious vocation; or

(2) Prepare them to teach theological subjects.

(20 U.S.C. 1221e-3(a)(1))

§ 100a.533 Acquisition of real property; construction.

No grantee may use its grant for acquisition of real property or for construction unless specifically permitted by the authorizing statute or implementing regulations for the program.

(20 U.S.C. 1221e-3(a)(1))

§ 100a.534 Training grants—automatic increases for additional dependents.

The appropriate official of the Education Division increases an educational training grant to cover the cost of additional dependents not specified in the notification of grant award if—

(a) Allowances for those dependents are authorized by the program statute and are allowable under the grant; and

(b) Appropriations are available to cover the cost.

(20 U.S.C. 1221e-3(a)(1))

Indirect Cost Rates

§ 100a.560 General indirect cost rates; exceptions.

(a) Appendices C–F to 45 CFR Part 74 describe the differences between direct and indirect costs and include the principles for determining the general indirect cost rate that a grantee may use for grants under most programs.

(b) Sections 100a.562–100a.568 provide restrictions on indirect cost rates under certain programs.

(20 U.S.C. 1221e-3(a)(1))

§ 100a.561 Approval of indirect cost rates.

(a) The appropriate official of the Education Division approves an indirect cost rate for a grantee other than a local educational agency. For the purposes of this section, the term "local educational agency" does not include a State agency.

(b) Each State educational agency, on the basis of a plan approved by the Commissioner, shall approve an indirect cost rate for each local educational agency that requests it to do so.

(c) Each indirect cost rate must be approved annually.

(20 U.S.C. 1221e-3(a)(1))

§ 100a.562 Indirect cost rates for educational training projects.

(a) The appropriate official of the Education Division may approve an indirect cost rate for an educational training project at the lesser of—

(1) The actual indirect cost rate of the grantee; or

(2) Eight percent of the total direct costs of the project.

(b) This section does not apply to—

(1) A State (as defined in 45 CFR 74.3); or

(2) A local government (as defined in 45 CFR 74.3).

(20 U.S.C. 1221e-3(a)(1))

§ 100a.563 Restricted indirect cost rate—programs covered.

Sections 100a.564–100a.568 apply to each program that has a statutory requirement not to use Federal funds to supplant non-Federal funds. These programs include the following:

Program	Authorizing statute
Bilingual Education	Title VII–A of the Elementary and Secondary Education Act
Consumer Education Program	Title III–E of the Elementary and Secondary Education Act
Environmental Education Program.	Title III–H of the Elementary and Secondary Education Act
Safe Schools	Title IX–D of the Elementary and Secondary Education Act
Follow Through Program	Sections 551–556 of the Economic Opportunity Act of 1964
National Alcohol and Drug Abuse Prevention Program.	Public Law 93–422
Indian Education Act (Part A)	Title IV–A of Public Law 92–318

(20 U.S.C. 1221e–3(a)(1))

§ 100a.564 Restricted indirect cost rate—formula.

(a) An indirect cost rate for a grant under a program covered by § 100a.563 is determined by the following formula:

Indirect cost rate = (Administrative charge + Fixed charges) ÷ (Other expenditures)

(b) Administrative charges, fixed charges, and other expenditures must be determined under §§ 100a.565–100a.567.

(c) Under the programs covered by § 100a.563, a grantee other than a State or a local government (as those terms are defined in 45 CFR 74.3) may use—

(1) An indirect cost rate computed under paragraph (a) of this section; or

(2) An indirect cost rate of eight percent unless the appropriate official of the Education Division determines that the grantee would have a lower rate under paragraph (a) of this section.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.565 Administrative charge.

(a) As used in § 100a.564, "administrative charge" means the cost of an activity that is for the direction and control of the grantee's affairs that are organization-wide. An activity is not organization-wide if it is limited to one activity, one component of the grantee, one subject, one phase of operations, or other single responsibility.

(b) The term includes the cost of performing a service function, such as accounting, payroll preparation, or personnel management, that is normally at the grantee's level even if the function is physically located elsewhere for convenience or better management.

(c) The term does not include expenditures for—

(1) The governing body of the grantee;

(2) Compensation of the chief Administrative officer of the grantee;

(3) Compensation of the chief administrative officer of any component of the grantee; and

(4) Operation of the immediate offices of these officers.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.566 Fixed charges.

As used in § 100a.564, "fixed charges" means contributions of the grantee to—

(a) Retirement, including State, county, or local retirement funds, Social Security, and pension payments;

(b) Unemployment compensation payments;

(c) Property, employee, health, and liability insurance; and

(d) All similar costs normally considered to be employee fringe benefits.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.567 Other expenditures.

(a) As used in § 100a.564, "other expenditures" means the grantee's total expenditures for its federally- and non-federally-funded activities in the most recent year for which data are available.

(b) The term does not include—

(1) Administrative charges determined under § 100a.565;

(2) Fixed charges determined under § 100a.566;

(3) Capital outlay;

(4) Debt service;

(5) Fines and penalties;

(6) Contingencies; and

(7) Election expenses. However, the term does include election expenses that result from elections required by a program statute.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.568 Using the restricted indirect cost rate.

(a) Under the programs referenced in § 100a.563, the maximum amount of indirect costs under a grant is determined by the following formula:

Indirect costs = (Indirect cost rate) × (Total direct costs of the grant minus any costs for capital outlay, debt service, or election expenses unless the election is required by a program statute)

(b) If a grantee uses an indirect cost rate, the administrative and fixed charges covered by that rate must be excluded by the grantee from the direct costs it charges to the grant.

U.S.C. 1221e–3(a)(1))

Coordination

§ 100a.580 Coordination with other activities.

(a) A grantee shall, to the extent possible, coordinate its project with other activities that are in the same geographic area served by the project and that serve similar purposes and target groups.

(b) A grantee whose project includes activities to improve the basic skills of children, youth, or adults shall, to the extent possible, coordinate its project with other basic skills activities that are in the same geographic area served by the project.

(c) For the purposes of this section, "basic skills" means reading, mathematics, and effective communication, both written and oral.

(d) The grantee shall continue its coordination during the project period.

(20 U.S.C. 1221e–3(a)(1); 2890)

§ 100a.581 Methods of coordination.

Depending on the objectives and requirements of its project, a grantee shall use one or more of the following methods of coordination:

(a) Planning the project with organizations and individuals who have similar objectives or concerns.

(b) Sharing information, facilities, staff, services, or other resources.

(c) Engaging in joint activities such as instruction, needs assessment, evaluation, monitoring, and technical assistance or staff training.

(d) Using the grant funds so as not to duplicate or counteract the effects of funds made available under other programs.

(e) Using the grant funds to increase the impact of funds made available under other programs.

(20 U.S.C. 1221e–3(a)(1))

Evaluation

§ 100a.590 Evaluation by the grantee.

A grantee shall evaluate at least annually—

(a) The grantee's progress in achieving the objectives in its approved application;

(b) The effectiveness of the project in meeting the purposes of the program; and

(c) The effect of the project on persons being served by the project, including—

(1) Any persons who are members of groups that have been traditionally underrepresented, such as—

(i) Members of racial or ethnic minority groups;

(ii) Women;

(iii) Handicapped persons; and

(iv) The elderly; and

(2) If the program statute requires that private school students be provided an opportunity to participate, the students who are enrolled in private schools.

(20 U.S.C. 1221e-3(a)(1))

§ 100a.591 Federal evaluation—cooperation by a grantee.

A grantee shall cooperate in any evaluation of the program by the Secretary or the appropriate offical of the Education Division.

(20 U.S.C. 1226c, 1231a)

§ 100a.592 Federal evaluation—satisfying requirement for grantee evaluation.

If a grantee cooperates in a Federal evaluation of a program, the appropriate official of the Education Division may determine that the grantee meets the evaluation requirements of the program, including § 100a.590.

(20 U.S.C. 1226c, 1231a)

Construction

Cross-reference.—See 45 CFR Part 74, Subpart P—Procurement Standards.

§ 100a.600 Use of a grant for construction: purpose of §§ 100a.601-100a.615.

Sections 100a.601–100a.615 apply to—

(a) An applicant that requests funds for construction; and

(b) A grantee whose grant includes funds for construction.

(20 U.S.C. 1221e-3(a)(1))

§ 100a.601 Applicant's assessment of environmental impact.

An applicant shall include with its application its assessment of the impact of the proposed construction on the quality of the environment in accordance with Section 102(2)(C) of the National Environmental Policy Act of 1969 and Executive Order 11514 (34 FR 4247).

(42 U.S.C. 4332(2)(C))

§ 100a.602 Preservation of historic sites must be described in the application.

(a) An applicant shall describe in its application the relationship of the proposed construction to and probable effect on any district, site, building, structure, or object that is—

(1) Included in the National Register of Historic Places; or

(2) Eligible under criteria established by the Secretary of Interior for inclusion in the National Register of Historic Places.

(Cross-reference.—See 36 CFR Part 60 for these criteria.)

(b) In deciding whether to make a grant, the appropriate official of the Education Division considers—

(1) The information provided by the applicant under paragraph (a) of this section; and

(2) Any comments by the Advisory Council on Historic Preservation.

Cross-reference.—See 36 CFR Part 800, which provides for comments from the Council.

(16 U.S.C. 470f)

§ 100a.603 Grantee's title to site.

A grantee must have or obtain a full title or other interest in the site, including right of access, that is sufficient to insure the grantee's undisturbed use and possession of the facilities for 50 years or the useful life of the facilities, whichever is longer.

(20 U.S.C. 1221e-3(a)(1))

§ 100a.604 Availability of cost-sharing funds.

A grantee shall ensure that sufficient funds are available to meet any non-Federal share of the cost of constructing the facility.

(20 U.S.C. 1221e-3(a)(1))

§ 100a.605 Beginning the construction.

(a) A grantee shall begin work on construction within a reasonable time after the grant for the construction is made.

(b) Before construction is advertised or placed on the market for bidding, the grantee shall get approval by the appropriate official of the Education Division of the final working drawings and specifications.

(20 U.S.C. 1221e-3(a)(1))

§ 100a.606 Completing the construction.

(a) A grantee shall complete its construction within a reasonable time.

(b) The grantee shall complete the construction in accordance with the application and approved drawings and specifications.

(20 U.S.C. 1221e-3(a)(1))

§ 100a.607 General considerations in designing facilities and carrying out construction.

(a) A grantee shall insure that the construction is—

(1) Functional;

(2) Economical; and

(3) Not elaborate in design or extravagant in the use of materials, compared with facilities of a similar type constructed in the State or other applicable geographic area.

(b) The grantee shall, in developing plans for the facilities, consider excellence of architecture and design and inclusion of works of art. The grantee may not spend more than one percent of the cost of the project on inclusion of works of art.

(20 U.S.C. 1221e-3(a)(1))

§ 100a.608 Areas in the facilities for cultural activities.

A grantee shall make reasonable provision, consistent with the other uses to be made of the facilities, for areas in the facilities that are adaptable for artistic and other cultural activities.

(20 U.S.C. 1221e-3(a)(1))

§ 100a.609 Comply with safety and health standards.

In planning for and designing facilities, a grantee shall observe—

(a) The standards under the Occupational Safety and Health Act of 1970 (Pub. L. 91-576) (See 36 CFR Part 1910); and

(b) State and local codes, to the extent that they are more stringent.

(29 U.S.C. 651)

§ 100a.610 Access by the handicapped.

A grantee shall comply with the Federal regulations on access by the handicapped that apply to construction and alteration of facilities. These regulations are—

(a) For residential facilities—24 CFR Part 40; and

(b) For non-residential facilities—41 CFR Subpart 101-19.6.

(20 U.S.C. 1221e-3(a)(1))

§ 100a.611 Avoidance of flood hazards.

In planning the construction, a grantee shall, in accordance with the provisions of Executive Order 11988 of February 10, 1978 (43 FR 6030) and rules and regulations that may be issued by the Secretary to carry out those provisions—

(a) Evaluate flood hazards in connection with the construction; and

(b) As far as practicable, avoid uneconomic, hazardous, or unnecessary use of flood plains in connection with the construction.

(Executive Order 11296.)

§ 100a.612 Supervision and inspection by the grantee.

A grantee shall maintain competent architectural engineering supervision and inspection at the construction site to insure that the work conforms to the approved drawings and specifications.

(20 U.S.C. 1221e-3(a)(1))

§ 100a.613 Relocation assistance by the grantee.

A grantee is subject to the regulations on relocation assistance and real property acquisition in 45 CFR Part 15.

(20 U.S.C. 1221e-3(a)(1))

§ 100a.614 Grantee must have operational funds.

A grantee shall insure that, when construction is completed, sufficient funds will be available for effective operation and maintenance of the facilities.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.615 Operation and maintenance by the grantee.

A grantee shall operate and maintain the facilities in accordance with applicable Federal, State, and local requirements.

(20 U.S.C. 1221e–3(a)(1))

Equipment and Supplies

Cross-reference.—See 45 CFR Part 74, Subpart O—Property.

§ 100a.618 Charges for use of equipment or supplies.

A grantee may not charge students or school personnel for the ordinary use of equipment or supplies purchased with grant funds.

(20 U.S.C. 1221e–3(a)(1))

Publications and Copyrights

§ 100a.620 General conditions on publication.

(a) *Content of materials.* Subject to any specific requirements that apply to its grant, a grantee may decide the format and content of project materials that it publishes or arranges to have published.

(b) *Required statement.* The grantee shall ensure that any publication that contains project materials also contains the following statements:

"The contents of this (insert type of publication; e.g., book, report, film) were developed under a grant from the (insert name of agency in the Education Division that provided the grant), Department of Health, Education, and Welfare. However, those contents do not necessarily represent the policy of that agency, and you should not assume endorsement by the Federal Government."

(20 U.S.C. 1221e–3(a)(1))

§ 100a.621 Copyright policy for grantees and contractors.

(a) A grantee may copyright project materials in accordance with 45 CFR Part 74.

(b) A contractor may not copyright any project materials developed under the contract unless specifically permitted in the contract to do so.

(20 U.S.C. 1221e–3(a)(1))

Cross-reference.—See 45 CFR Part 74, Subpart F—Grant-Related Income; and 45 CFR 74.145 Copyrights.

§ 100a.622 Definition of "project materials."

As used in §§ 100a.620–100a.621, "project materials" means a copyrightable work developed with funds from a grant or contract of the Education Division.

(20 U.S.C. 1221e–3(a)(1))

Inventions and Patents

Cross-reference.—See 45 CFR Part 74.44 Inventions and Patents.

§ 100a.625 Invention and patent policy.

Grantees and contractors are subject to the HEW policy in 45 CFR Parts 6 and 8 regarding inventions and patents.

§ 100a.626 Show Federal support; give papers to vest title.

(a) Any patent application filed by a grantee for an invention made under a grant must include the following statement in the first paragraph:

"The invention described in this application was made under a grant from the (insert name of agency in the Education Division that gave the grant), Department of Health, Education, and Welfare."

(b) On request, the grantee shall furnish HEW with executed instruments prepared by the Federal Government, and other papers that may be necessary, to vest in the Federal Government the rights reserved in accordance with a determination made under 45 CFR Part 8. These instruments and papers enable the Government to apply for and prosecute a patent application, in any country, to cover each invention for which the Federal Government has the right to file an application.

(20 U.S.C. 1221e–3(a)(1))

Other Requirements for Certain Projects

Cross-reference.—See 45 CFR Part 74, Subpart C—Bonding and Insurance.

§100a.650 Participation of students enrolled in private schools.

If the authorizing statute for a program requires a grantee to provide for participation by students enrolled in private schools, the grantee shall provide a genuine opportunity for equitable participation in accordance with the requirements that apply to subgrantees under 45 CFR 100b.650–100b.662.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.681 Protection of human research subjects.

If a grantee uses a human subject in a research project, the grantee shall protect the person from physical, psychological, or social injury resulting from the project.

(20 U.S.C. 1221e–3(a)(1))

Cross-reference.—See 45 CFR Part 46—Protection of Human Research Subjects.

§ 100a.682 Treatment of animals.

If a grantee uses an animal in a project, the grantee shall provide the animal with proper care and humane treatment in accordance with the Animal Welfare Act of 1970.

(Pub. L. 89–544, as amended)

§ 100a.683 Health or safety standards for facilities.

A grantee shall comply with any Federal health or safety requirements that apply to the facilities that the grantee uses for the project.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.684 Day care services.

(a) If a grantee uses program funds to provide day care services, the grantee shall comply with the requirements in 45 CFR Part 71.

(b) The appropriate official of the Education Division may waive this requirement by publication of a notice in the **Federal Register.**

(20 U.S.C. 1221e–3(a)(1))

Subpart F—What Are the Administrative Responsibilities of a Grantee?

General Administrative Responsibilities

§ 100a.700 Compliance with statutes, regulations, and applications.

A grantee shall comply with applicable statutes, regulations, and approved applications, and shall use Federal funds in accordance with those statutes, regulations, and applications.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.701 The grantee administers or supervises the project.

A grantee shall directly administer or supervise the administration of the project.

(20 U.S.C. 1221e–3(a)(1))

§ 100a.702 Fiscal control and fund accounting procedures.

A grantee shall use fiscal control and fund accounting procedures that insure proper disbursement of and accounting for Federal funds.

(20 U.S.C. 1221e–3(a)(1))

Cross-reference.—See 45 CFR Part 74, Subpart B—Cash Depositories, Subpart H—Standards for Grantee and Subgrantee Financial Management Systems, and Subpart K—Grant and Subgrant Payment Requirements.

§ 100a.703 Obligation of funds during the grant period.

A grantee may use grant funds only for obligations it makes during the grant period.

(20 U.S.C. 1221e-3(a)(1))

§ 100a.707 When obligations are made.

The following table shows when a grantee makes obligations for various kinds of property and services.

If the obligation is for—	The obligation is made—
(a) Acquisition of real or personal property.	On the date the grantee makes a binding written commitment to acquire the property.
(b) Personal services by an employee of the grantee.	When the services are performed.
(c) Personnal services by a contractor who is not an employee of the grantee.	On the date on which the grantee makes a binding written commitment to obtain the services.
(d) Performance of work other than personal services.	On the date on which the grantee makes a binding written commitment to obtain the work.
(e) Public utility services	When the grantee receives the services.
(f) Travel	When the travel is taken.
(g) Rental of real or personal property.	When the grantee uses the property.
(h) A preagreement cost that was properly approved by the appropriate official of the Education Division under the cost principles in appendices C-F to 45 CFR Part 74.	On the first day of the grant period.

(20 U.S.C. 1221e-3(a)(1))

§ 100a.708 Prohibition of subgrants.

(a) A grantee may not make a subgrant under a program listed in § 100a.1 unless specifically authorized by statute.

(b) A grantee may contract for supplies, equipment, construction, and other services, in accordance with 45 CFR Part 74, Subpart P—Procurement Standards.

(20 U.S.C. 1221e-3(a)(1))

Reports

Cross-reference.—See 45 CFR Part 74, Subpart I—Financial Reporting Requirements, and Subpart J—Monitoring and Reporting of Program Performance.

§ 100a.720 Financial and performance reports.

(a) This section applies to the reports required under 45 CFR Part 74, Subpart I (financial reporting) and Subpart J (performance reporting).

(b) A grantee shall submit these reports annually, unless the appropriate official of the Education Division allows less frequent reporting. However, the Director of the National Institute of Education may require a grantee to submit performance reports more often than annually.

(c) The appropriate official of the Education Division may, under 45 CFR 74.7 (Special grant or subgrant conditions) or 45 CFR 74.72(e) (Grantee accounting systems), require a grantee to report more frequently than annually.

(20 U.S.C. 1221e-3(a)(1))

§ 100a.721 Reports under the Joint Funding Simplification Act.

(a) The appropriate official of the Education Division determines the frequency and scope of reports necessary to assure proper monitoring of a grant under the Joint Funding Simplification Act.

(b) The appropriate official makes this determination in cooperation with any other Federal or State agencies that are also funding the grant.

(42 U.S.C. 4252(a))

Records

Cross-reference.—See 45 CFR Part 74, Subpart D—Retention and Access Requirements for Records.

§ 100a.730 Records related to grant funds.

A grantee shall keep records that fully show—

(a) The amount of funds under the grant;

(b) How the grantee uses the funds;

(c) The total cost of the project;

(d) The share of that cost provided from other sources; and

(e) Other records to facilitate an effective audit.

(20 U.S.C. 1232f)

§ 100a.731 Records related to compliance.

A grantee shall keep records to show its compliance with program requirements.

(20 U.S.C. 1221e-3(a)(1))

§ 100a.732 Records related to performance.

(a) A grantee shall keep records of significant project experiences and results.

(b) The grantee shall use the records under paragraph (a) to—

(1) Determine progress in accomplishing project objectives; and

(2) Revise those objectives, if necessary.

(20 U.S.C. 1221e-3(a)(1))

Cross-reference.—See 45 CFR 74.103 (b) and (c)—Procedures for revising objectives.

§ 100a.733 Records related to State approval applications.

(a) This section applies to programs that require State approval of applications.

(b) The State shall keep a complete case file on each application it receives.

(c) The State shall keep a full record of—

(1) Any hearing related to an application; and

(2) Any proceeding by which the State establishes relative priorities or recommends Federal shares for eligible projects.

(20 U.S.C. 1221e-3(a)(1))

§ 100a.734 Record retention period.

Unless a longer period is required under 45 CFR Part 74, a grantee shall retain records for five years after the completion of the activity for which it uses grant funds.

Cross-reference.—See 45 CFR Part 74.21—Length of retention period; and 74.22 Starting date of retention period.

(20 U.S.C. 1232f(a))

Privacy

§ 100a.740 Protection of and access to student records.

Most records on present or past students are subject to the requirements of Section 438 of GEPA and its implementing regulations in 45 CFR Part 99. (Section 438 is the Family Educational Rights and Privacy Act of 1974.)

(20 U.S.C. 1231(g))

§ 100a.741 Protection of students' privacy in research and testing.

(a) If a project funded by the Office of Education is designed to explore or develop new or unproven teaching methods or techniques, the grantee must give parents or guardians of children who participate in the project access to instructional material that will be used in connection with the project, including teacher's manuals, films, tapes, or other supplementary instructional material.

(b) No student may be required, as part of any program of the Education Division, to submit to psychiatric examination, testing, or treatment, or psychological examination, testing, or treatment, in which the primary purpose is to reveal information concerning any of the following:

(1) Political affiliations.

(2) Mental and psychological problems potentially embarrassing to the student or his family.

(3) Sex behavior and attitudes.

(4) Illegal, anti-social, self-incriminating and demeaning behavior.

(5) Critical appraisals of other individuals with whom respondents have close family relationships.

(6) Legally recognized privileged and analogous relationships, such as those of lawyers, physicians, and ministers.

(7) Income—other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under the program—without the prior consent of the student (if the student is an adult or emancipated minor) or, in the case of unemancipated minor, without the prior written consent of the parent.

(20 U.S.C. 1232h)

Data Collection by a Grantee

§ 100a.750 Approval of data collection instruments.

(a) The Education Division is the sponsor of the data collection activity of a grantee in any of the following circumstances:

(1) The grantee represents to respondents that the data is being collected for or in association with the Education Division. This does not include acknowledgment of the assistance the grantee received under the grant.

(2) The grantee uses the data collection instrument to collect data that the Education Division has requested for the planning, operation, or evaluation of an Education Division Federal program.

(3) The grant provides for Education Division approval of the survey design, content of the instrument, or data collection procedures.

(4) The grant provides for—

(i) The grantee to submit data on individual respondents; or

(ii) The grantee to prepare and submit tabulations of the data requested by the Education Division.

(b) If the Education Divison sponsors a data collection activity of a grantee, the data collection instruments to be used by the grantee are subject to review under either—

(1) The paperwork control requirements of Section 400A of GEPA (the Federal Education Data Acquisition Council (FEDAC) procedurds); or

(2) The requirements under OMB Circular A–40.

(c) The FEDAC procedures apply to a data collection activity sponsored by the Education Division if—

(1) The respondents are primarily educational agencies or institutions; and

(2) The purpose of the activity is to get information needed for—

(i) The management of Federal educational programs;

(ii) The development of policy related to those programs; or

(iii) Research or evaluation studies related to the implementation of those programs.

(20 U.S.C. 1221–3; 1221e–3(a)(1))

Cross-reference.—See the FEDAC procedures published in the **Federal Register** on August 8, 1979 (44 FR 46535).

§ 100a.751 Procedures if approval is required.

If approval of a data collection instrument is required under the FEDAC procedures or under OMB Circular A–40, the grantee shall submit an original and four copies of each of the following to the appropriate official of the Education Division:

(a) The proposed data collection instrument.

(b) A completed OMB Standard Form 83.

(c) The supporting statement required in the "Instructions for Requesting OMB Approval under the Federal Reports Act," as described in standard form 83A.

(d) Supplementary information required by FEDAC under the procedures published in the **Federal Register** on August 8, 1979 (44 FR 46535).

(20 U.S.C. 1221–3; 1221e–3(a)(1))

§ 100a.752 Responsibility for data collection.

Unless FEDAC or the OMB approves a data collection instrument, the grantee may not in any way represent or imply that the data is being collected by or for the Federal Government. This does not preclude the grantee from acknowledging the assistance it received under the grant.

(20 U.S.C. 1221e–3(a)(1))

§100a.753 Confidentiality of response.

In using data collection instruments, a grantee shall provide for anonymity and confidentiality of responses from individuals.

(20 U.S.C. 1221–3; 1221e–3(a)(1))

§ 100a.754 Exemption from coverage.

The regulations in §§ 100a.750–100a.753 do not apply to data collection instruments that are solely—

(a) Tests or examinations to determine knowledge, ability, or aptitude of individuals; or

(b) Instruments to collect data for identification or classification in connection with those tests or examinations.

(20 U.S.C. 1221–3; 1221e–3(a)(1))

§ 100a.755 Definitions used in §§ 100a.750–100a.754.

As used in §§ 100a.750–100a.754—

"Data collection instrument" means a report form, application form, schedule, questionnaire, or similar instrument for getting answers to identical questions from ten or more respondents.

"Respondent" is an individual or organization from whom a grantee collects information either directly or indirectly.

(20 U.S.C. 1221e–3(a)(1))

Subpart G—What Procedures Does the Education Division Use To Get Compliance?

Cross-reference.—See 45 CFR Part 74, Subpart M—Grant and Subgrant Closeout, Suspension, and Termination.

§ 100a.900 Waiver of regulations prohibited.

(a) No official, agent, or employee of HEW may waive any regulation that applies to an Education Division program, unless the regulation specifically provides that it may be waived.

(b) No act or failure to act by an official, agent, or employee of HEW can affect the authority of the appropriate official of the Education Division to enforce regulations.

(43 Dec. Comp. Gen. 31 (1963))

§ 100a.901 Suspension and termination.

(a) The appropriate official of the Education Division uses the Departmental Grant Appeals Board to resolve disputes within the jurisdiction of that board. The regulations governing the Department Grant Appeals Board are in 45 CFR Part 16.

Cross-reference.—See 45 CFR 16.5 Jurisdiction of the board.

(b) The Commissioner may use the Education Appeal Board to resolve disputes that are not within the jurisdiction of the Departmental Grant Appeals Board. (See 45 CFR Part 100d—Education Appeal Board.)

(c) The following sections in 45 CFR Part 74 apply to suspension and termination of a grant made by the Office of the Assistant Secretary for Education, the National Institute of Education, or the Institute of Museum Services:

(1) Section 74.113 (Violation of terms).

(2) Section 74.114 (Suspension).

(3) Section 74.115 (Termination).

(4) The last sentence of § 74.73(c) (Financial reporting after a termination).

(5) Section 74.112 (Amounts payable to the Federal Government).

(20 U.S.C. 1221e–3(a)(1))

§ 100a.902 Informal procedures.

Athough either the appropriate official of the Education Division or a grantee may request an informal meeting regarding a proposed termination, the grantee is considered, for purposes of 45 CFR 16.5(b)(2), to have exhausted Education Division informal procedures

when the grantee receives the notice of termination.

(20 U.S.C. 1221e-3(a)(1))

§ 100a.903 Effective date of termination.

Termination is effective on the latest of—

(a) The date of delivery to the grantee of the notice of termination;

(b) The termination date given in the notice of termination; or

(c)(1) For a grant made by the Office of Education, the date of a final decision of the Commissioner under 45 CFR Part 100d; or

(2) For a grant made by the Office of the Assistant Secretary for Education, the National Institute of Education, or the Institute of Museum Services, the date of a final decision by the Departmental Grant Appeals Board under 45 CFR Part 16.

(20 U.S.C. 1221e-3(a)(1))

PART 100B—STATE-ADMINISTERED PROGRAMS

Subpart A—General

Regulations that Apply to State-Administered Programs

Sec.

100b.1 Programs to which Part 100b applies.
100b.2 Exceptions in program regulations to Part 100b.
100b.3 HEW general grant regulations apply to these programs.

Eligibility for a Grant or Subgrant

100b.50 Statutes determine eligibility and whether subgrants are made.
100b.51 A State distributes funds by formula or competition.

Subpart B—How a State Applies for a Grant

State Plans and Applications

100b.100 Effect of this subpart.
100b.101 The general State application.
100b.102 Definition of "State plan" for Part 100b.
100b.103 Three-year State plans.
100b.104 A State shall include certain certifications in its State plan.
100b.105 The Governor has 45 days to comment on the State plan.
100b.106 State documents are public information.

Amendments

100b.140 Amendments to a State plan.
100b.141 An amendment requires the same procedures as the document being amended.
100b.142 An amendment is approved on the same basis as the document being amended.

Subpart C—How a Grant Is Made to a State

Approval or Disapproval by the Commissioner

100b.201 A State plan must meet all statutory and regulatory requirements.
100b.202 Opportunity for hearing before a State plan is disapproved.
100b.235 The notification of grant award.

Allotments and Reallotments of Grant Funds

100b.260 Allotments are made under program statute.
100b.261 Realloted funds are part of a State's grant.

Subpart D—How To Apply to the State for a Subgrant

100b.300 Contact the State for procedures to follow.
100b.301 Local educational agency general application.
100b.302 The notice to the subgrantee.
100b.303 Joint applications and projects.
100b.304 Subgrantee shall make subgrant application available to the public.
100b.305 Amendments to applications.

Subpart E—How a Subgrant Is Made to an Applicant

100b.400 State procedures for reviewing an application.
100b.401 Disapproval of an application—opportunity for a hearing.

Subpart F—What Conditions Must Be Met by the State and Its Subgrantees?

Nondiscrimination

100b.500 Federal statutes and regulations on nondiscrimination.

Allowable costs

100b.530 General cost principles.
100b.532 Use of funds for religion prohibited.
100b.533 Acquisition of real property; construction.
100b.534 Use of tuition and fees restricted.

Indirect Cost Rates

100b.560 General indirect cost rates; exceptions.
100b.561 Approval of indirect cost rates.
100b.563 Restricted indirect cost rate—programs covered.

Coordination

100b.580 Coordination with other activities.
100b.581 Methods of coordination.

Evaluation

100b.591 Federal evaluation—cooperation by a grantee.
100b.592 Federal evaluation—satisfying requirement for State or subgrantee evaluation.

Construction

100b.600 Where to find construction regulations.

Participation of Students Enrolled in Private Schools

100b.650 Private schools; purpose of §§ 10b.651–100b.662.
100b.651 Responsibility of a State and a subgrantee.
100b.652 Consultation with representatives of private school students.
100b.653 Needs, number of students, and types of services.
100b.654 Benefits for private school students.
100b.655 Level of expenditures for students enrolled in private schools.
100b.656 Information in an application for a subgrant.
100b.657 Separate classes prohibited.
100b.658 Funds not to benefit a private school.
100b.659 Use of public school personnel.
100b.660 Use of private school personnel.
100b.661 Equipment and supplies.
100b.662 Construction.

Other Requirements for Certain Programs

100b.681 Protection of human research subjects.
100b.682 Treatment of animals.
100b.683 Health or safety standards for facilities.
100b.684 Day care services.

Subpart G—What Are the Administrative Responsibilities of the State and Its Subgrantees?

General Administrative Responsibilities

100b.700 Compliance with statutes, regulations, State plan, and applications.
100b.701 The State or subgrantee administers or supervises each project.
100b.702 Fiscal control and fund accounting procedures.
100b.703 When a State may begin to obligate funds.
100b.704 When certain subgrantees may begin to obligate funds.
100b.705 Funds may be obligated during a "carryover period."
100b.706 Obligations made during a carryover period are subject to current statutes, regulations, and applications.
100b.707 When obligations are made.

Reports

100b.720 Financial and performance reports by a State.
100b.722 A subgrantee makes reports required by the State.

Records

100b.730 Records related to grant funds.
100b.731 Records related to compliance.
100b.734 Record retention period.

Privacy

100b.740 Protection of and accessibility to student records.
100b.741 Protection of students' privacy in research and testing.

Use of Funds by States and Subgrantees

100b.760 More than one program may assist a single activity.
100b.761 Federal funds may pay 100 percent of cost.

State Administrative Responsibilities

100b.770 A State shall perform certain duties with respect to the applications for subgrants.
100b.771 A State shall encourage eligible applicants to apply.
100b.772 Other responsibilities of the State.

Complaint Procedures of the State

100b.780 A State shall adopt complaint procedures.
100b.781 Minimum complaint procedures.

100b.782 An organization or individual may file a complaint.
100b.783 State educational agency action—subgrantee's opportunity for a hearing.

Subpart H—What Procedures Does the Commissioner Use To Get Compliance?

100b.900 Waiver of regulations prohibited.
100b.901 Education Appeal Board.
100b.902 Judicial review.

Authority.—Section 408(a)(1) of Pub. L. 90-247, 88 Stat. 559, 560, as amended (20 U.S.C. 1221e-3(a)(1)), unless otherwise noted.

Subpart A—General

Regulations That Apply to State-Administered Programs

§ 100b.1 Programs to which Part 100b applies.

The regulations in Part 100b apply to the programs of the Office of Education that are listed in the following table. In addition to the name of the program, the table gives the statute that authorizes the program, the regulations that implement the program, and the number that the Catalog of Federal Domestic Assistance (CFDA) gives to the program.

(20 U.S.C. 1221e-3(a)(1))

Note.—Some programs are not currently funded. Check with the State agency responsible for administering the program.

Name of program	Authorizing statute	Implementing regulations (45 CFR)	CFDA No.
2A. Elementary and Secondary Education Programs			
Financial Assistance to Local Educational Agencies To Meet the Special Educational Needs of Educationally Deprived Children (except Coordination of Migrant Education and Transition of Neglected or Delinquent Children—See 45 CFR Part 100a)..	Title I-A of the Elementary and Secondary Education Act (except Sections 143 and 153) (20 U.S.C. 2701-2754).	Parts 116 and 116a	13.428 and 13.512.
Grants to State Agencies for Programs To Meet the Special Educational Needs of Children in Institutions for Neglected or Delinquent Children.	Sections 151-153 of the Elementary and Secondary Education Act (20 U.S.C. 2781-2783).	Parts 116 and 116c	13.428 and 13.431.
Grants to State Educational Agencies for Programs To Meet the Special Educational Needs of Migratory Children.	Section 141-143 of the Elementary and Secondary Education Act (20 U.S.C. 2761-2763).	Parts 116 and 116d	13.428 and 13.429.
State Basic Skills Program	Title II-B of the Elementary and Secondary Education Act (20 U.S.C. 2901-2904).	Part 162	13.599.
Financial Assistance for School Library Resources, Textbooks and Other Instructional Materials.	Title II of the Elementary and Secondary Education Act (as in effect Sept. 30, 1978).	See 43 FR 57253 (December 7, 1978)	None.
Supplementary Centers and Services, Guidance, Counseling, and Testing Programs.	Title III of the Elementary and Secondary Education Act (as in effect Sept. 30, 1978).	See 43 FR 57253 (December 7, 1978)	None.
Educational Improvement, Resources, and Support	Title IV of the Elementary and Secondary Education Act (20 U.S.C. 1801-1832).	Part 134	13.570, 13.571, and 13.——.
Strengthening State Educational Agency Management	Title V-B of the Elementary and Secondary Education Act (20 U.S.C. 3161-3163).	None	None.
Federal Financial Assistance for Strengthening State Departments of Education—Basic Grants.	Title V-A (except Section 505—See 45 CFR Part 100a) of the Elementary and Secondary Education Act (as in effect Sept. 30, 1978).	See 43 FR 57253 (December 7, 1978)	13.486.
Community Schools Program	Title VIII of the Elementary and Secondary Education Act (except Sections 809-813—See 100a) (20 U.S.C. 3281-3288).	Part 160b, Subpart B	None.
Gifted and Talented Children Program	Title IX of the Elementary and Secondary Education Act (except section 905—See 45 CFR Part 100a) (20 U.S.C. 3311-3314; 3316-3318).	Part 195	13.562.
Strengthening Instruction in Academic Subjects in Public Schools.	Title III-A of the National Defense Education Act of 1958 (20 U.S.C. 441-444).	See 43 FR 57254 (December 7, 1978)	None.
B. Education of the Handicapped Programs			
State-operated Programs for Handicapped Children	Sections 146-147 of the Elementary and Secondary Education Act (20 U.S.C. 2771-2772).	Parts 116 and 116b	13.428 and 13.427.
Assistance to States for Education of Handicapped Children..	Part B of the Education of the Handicapped Act (20 U.S.C. 1411-1418; 1420).	Part 121a	13.449.
Incentive Grants	Section 619 of the Education of the Handicapped Act (20 U.S.C. 1419).	Part 121m	13.449.
C. Occupational and Adult Education Programs			
State Vocational Education Programs	Part A of Title I of the Vocational Education Act (20 U.S.C. 2301-2461).	Part 104	13.493, 13.494, 13.495, 13.499, and 13.500.
Career Education—State Allotment Program	Career Education Incentive Act (except Sections 10, 11, and 12—See 45 CFR Part 100a) (20 U.S.C. 1201-2614).	Part 161	None.
State Adult Education Programs	Adult Education Act (except Sections 309, 314, 317, and 318—See 45 CFR Part 100a), (20 U.S.C. 1201-1211a).	Part 166	13.400.
D. Higher Education Programs			
Community Service and Continuing Education Programs (except Special Programs and Projects—See 45 CFR Part 100a).	Title I of the Higher Education Act (except Section 106) (20 U.S.C. 1001-1005; 1006-1011).	Part 173 (except Subpart C)	13.491.

Name of program	Authorizing statute	Implementing regulations (45 CFR)	CFDA No.
State Student Incentive Grant Program	Sections 415A–415E of the Higher Education Act (20 U.S.C. 1070c through 1070c–4).	Part 192	13.548.
Educational Information Centers Program	Sections 418A and 418B of the Higher Education Act (20 U.S.C. 1070d–2 and 1070d–3).	Part 137	13.585.
Incentive Grants for State Student Financial Assistance Training Program.	Section 493C of the Higher Education Act (20 U.S.C. 1088b–3).	Part 178a	13.582.
State Postsecondary Education Commissions Program—Intrastate Planning.	Section 1203(a) of the Higher Education Act (20 U.S.C. 1142b(a)).	Part 199a	13.550.
E. Other Programs			
Library Services, Public Library Construction and Interlibrary Cooperation.	Library Services and Construction Act (20 U.S.C. 351–355e–2).	Part 130	13.464, 13.408, and 13.465.
Assistance to States for State Equalization Plans	Section 842 of the Education Amendments of 1974 (20 U.S.C. 246).	None	13.572.

§100b.2 Exceptions in program regulations to Part 100b.

If a program has regulations that are not consistent with Part 100b, the implementing regulations for that program identify the sections of Part 100b that do not apply.

(20 U.S.C. 1221e–3(a)(1))

§100b.3 HEW general grant regulations apply to these programs.

The HEW general grant regulations in 45 CFR Part 74 apply to the programs covered by this part. To find subjects covered under 45 CFR Part 74, look in the table of contents at the beginning of 45 CFR Part 74.

(20 U.S.C. 1221e–3(a)(1))

Eligibility for a Grant or Subgrant

§ 100b.50 Statutes determine eligibility and whether subgrants are made.

(a) Under a program listed in § 100b.1, the Commissioner makes a grant—

(1) To the State agency designated by the authorizing statute for the program; or

(2) To the State agency designated by the State in accordance with the authorizing statute.

(b) The authorizing statute determines the extent to which a State may—

(1) Use grant funds directly; and

(2) Make subgrants to eligible applicants.

(c) The regulations in Part 100b on subgrants apply to a program only if subgrants are authorized under that program.

(d) The authorizing statute determines the eligibility of an applicant for a subgrant.

(20 U.S.C. 1221e–3(a)(1))

Cross-reference.—See 45 CFR Part 74, Subpart E—Waiver of Single State Agency Requirements.

§ 100b.51 A State distributes funds by formula or competition.

If a program statute authorizes a State to make subgrants, the statute—

(a) Requires the State to use a formula to distribute funds;

(b) Gives the State discretion to select subgrantees through a competition among the applicants or through some other procedure; or

(c) Allows some combination of these procedures.

(20 U.S.C. 1221e–3(a)(1))

Subpart B—How a State Applies for a Grant

State Plans and Applications

§ 100b.100 Effect of this subpart

This subpart establishes general requirements that a State must meet to apply for a grant under a program listed in § 100b.1. Additional requirements are in the authorizing statute and the implementing regulations for the program.

(20 U.S.C. 1221e–3(a)(1))

§ 100b.101 The general State application

(a) This section applies to the programs listed in § 100b.1 under which a State educational agency may make subgrants to local educational agencies.

(b)(1) A State shall submit to the Commissioner a general application that contains the assurances contained in paragraph (e) of this section.

(2) The State may submit—

(i) A single general application to cover all of the programs; or

(ii) More than one general application, each general application covering either a group of programs or an individual program.

(c) A general application must be approved by each official, agency, board, or other entity within the State that, under State law, is primarily responsible for supervision of the activities conducted under each program covered by the application.

(d) Each general application submitted under this section remains in effect for the duration of any program it covers. The Commissioner does not require the resubmission or amendment of that application unless required by changes in Federal or State law or by other significant changes in the circumstances affecting an assurance in that application.

(e) A general application must include assurances, satisfactory to the Commissioner—

(1) That each program will be administered in accordance with all applicable statutes, regulations, State plans, and applicaitons;

(2) That the control of funds provided under each program and title to property acquired with program funds will be in a public agency, or in a nonprofit private agency, institution, or organization if the statute authorizing the program provides for grants to those entities, and that the public agency or nonprofit private

agency, institution, or organization will administer the funds and property;

(3) That the State will adopt and use proper methods of administering each program, including—

(i) Monitoring of agencies, institutions, and organizations responsible for carrying out each program, and the enforcement of any obligations imposed on those agencies, institutions, and organizations under law;

(ii) Providing technical assistance, if necessary, to those agencies, institutions, and organizations;

(iii) Encouraging the adoption of promising or innovative educational techniques by those agencies, institutions, and organizations;

(iv) The dissemination throughout the State of information on program requirements and sucessful practices; and

(v) The correction of deficiencies in program operations that are identified through monitoring or evaluation;

(4) That the State will evaluate the effectiveness of each program in meeting statutory objectives—not less often than once every three years—and that the State will cooperate in carrying out any evaluation of a program conducted by or for the Secretary or other Federal official;

(5) That the State will use fiscal control and fund accounting procedures that will ensure proper disbursement of, and accounting for, Federal funds paid to the State under each program;

(6) That the State will—

(i) Make reports to the Commissioner—including reports on the results of evaluations required under paragraph (e)(4) of this section—as may reasonably be necessary to enable the Commissioner to perform his or her duties under each program; and

(ii) Maintain records, in accordance with the requirements of Section 437 of GEPA—and afford access to those records as the Commissioner may find necessary to carry out his or her duties; and

(7) That the State will provide reasonable opportunities for the participation by local agencies, representatives of the class of individuals affected by each program, and other interested institutions, organizations, and individuals in the planning for and operation of each program, including the following:

(i) The State will consult with relevant advisory committees, local agencies, interest groups, and experienced professionals in the development of State plans.

(ii) The State will publish each proposed State plan, in a manner that will ensure circulation throughout the State, at least 60 days prior to the date on which the plan is submitted to the Commissioner or on which the plan becomes effective, whichever occurs earlier, with an opportunity for public comments on the plan to be accepted for at least 30 days.

(iii) The State will hold public hearings on the proposed State plans if required by the Commissioner by regulation.

(iv) The State will provide an opportunity for interested agencies, organizations, and individuals to suggest improvements in the administration of the program and to allege that there has been a failure by any entity to comply with applicable statutes and regulations.

(20 U.S.C. 1232d)

Note.—The Commissioner interprets Section 435 of GEPA—implemented in this section—not to apply to State Vocational Education Programs. (See § 100b.1) This interpretation is based on the legislative history of both GEPA and the Vocational Education Act.

§ 100b.102 Definition of "State plan" for Part 100b.

As used in this part, "State plan" means any of the following documents that a State submits to the Commissioner under a program listed in § 100b.1:

(a) *Compensatory education.* The application under Section 162 of Title I of the Elementary and Secondary Education Act.

(b) *Migrant children.* The application under Sections 141–143 of the Elementary and Secondary Education Act.

(c) *Basic skills.* The agreement under Title II–B of the Elementary and Secondary Education Act.

(d) *Library resources.* The State plan under Title II of the Elementary and Secondary Education Act (as in effect on Sept. 30, 1978).

(e) *Innovative projects; Guidance and Counseling.* The State plan under Title III of the Elementary and Secondary Education Act (as in effect on Sept. 30, 1978).

(f) *Educational Improvement, Resources, and Support.* The State plan under Title IV of the Elementary and Secondary Education Act.

(g) *State educational agencies.* The State plan under Title V–B of the Elementary and Secondary Education Act.

(h) *State educational agencies.* The application under Title V–A of the Elementary and Secondary Education Act (as in effect September 30, 1978).

(i) *Community schools.* The State plan under Title VIII of the Elementary and Secondary Education Act.

(j) *Gifted and talented children.* The application under Section 904(b)(1) of Title IX of the Elementary and Secondary Education Act.

(k) *Academic subjects.* The State plan under Title III–A of the National Defense Education Act.

(l) *Handicapped children.* The State plan under Part B of the Education of the Handicapped Act.

(m) *Handicapped children.* The application under Section 619 of the Education of the Handicapped Act.

(n) *Vocational education.* The annual program plan and the annual accountability report under Part A of Title I of the Vocational Education Act.

(o) *Career education.* The State plan under Section 7 of the Career Education Incentive Act.

(p) *Adult education.* The State plan under the Adult Education Act.

(q) *Community services.* The State plan under Title I of the Higher Education Act.

(r) *State student incentive grants.* The application under Section 415C of the Higher Education Act.

(s) *Educational information centers.* The State plan under Section 418B of the Higher Education Act.

(t) *Incentive grants for State student financial asistance training.* The application under Section 493C of the Higher Education Act.

(u) *Postsecondary commissions.* The application for intrastate planning under Section 1203(a) of the Higher Education Act.

(v) *Libraries.* The basic State plan and the annual programs under the Library Services and Construction Act.

(w) *State equalization.* The application under Section 842 of the Education Amendments of 1974.

(20 U.S.C. 1221e–3(a)(1))

§ 100b.103 Three-year State plans.

(a) Beginning no later than fiscal year 1981, each State plan will be effective for a period of three fiscal years, unless the program regulations provide for a longer effective period.

(b) If the Commissioner determines that the three-year State plans under a program should be submitted by the States on a staggered schedule, the Commissioner may require groups of States to submit or resubmit their plans in different years.

(c) This section does not apply to—

(1) The annual accountability report under Part A of Title I of the Vocational Education Act;

(2) The annual programs under the Library Services and Construction Act; and

(3) The application under Sections 141–143 of the Elementary and Secondary Education Act.

(d) A State may submit an annual State plan under the Vocational Education Act. If a State submits an annual plan under that program, this section does not apply to that plan.

(20 U.S.C. 1231g(a))

§ 100b.104 A State shall include certain certifications in its State plan.

(a) A State shall include the following certifications in each State plan:

(1) That the plan is submitted by the State agency that is eligible to submit the plan.

(2) That the State agency has authority under State law to perform the functions of the State under the program.

(3) That the State legally may carry out each provision of the plan.

(4) That all provisions of the plan are consistent with State law.

(5) That a State officer, specified by title in the certification, has authority under State law to receive, hold, and disburse Federal funds made available under the plan.

(6) That the State officer who submits the plan, specified by title in the certification, has authority to submit the plan.

(7) That the agency that submits the plan has adopted or otherwise formally approved the plan.

(8) That the plan is the basis for State operation and administration of the program.

(20 U.S.C. 1221e–3(a)(1))

§ 100b.105 The Governor has 45 days to comment on the State plan.

(a) Before a State submits a State plan to the Commissioner, the State shall give its Governor 45 days to comment on the plan.

(b) The State shall attach to the plan any comments the Governor makes.

(c) If the Governor does not comment, the offical who submits the State plan shall certify that—

(1) The State submitted the plan to the Governor at least 45 days before submitting it to the Commissioner; and

(2) The Governor did not comment.

(20 U.S.C. 1221e–3(a)(1))

§ 100b.106 State documents are public information.

A State shall make the following documents available for public inspection:

(a) All State plans and related official materials.

(b) All approved subgrant applications.

(c) All documents that the Commissioner transmits to the State regarding a program.

(20 U.S.C. 1221e–3(a)(1))

Amendments

Cross-reference.—See 45 CFR Part 74, Subpart L—Programmatic Changes and Budget Revisions.

§ 100b.140 Amendments to a State plan.

(a) If the Commissioner determines that an amendment to a State plan is essential during the effective period of the plan, the State shall make the amendment.

(b) A State shall also amend a State plan if there is a significant and relevant change in—

(1) The information or the assurances in the plan;

(2) The administration or operation of the plan; or

(3) The organization, policies, or operations of the State agency that received the grant, if the change materially affects the information or assurances in the plan.

(20 U.S.C. 1221e–3(a)(1); 1231g(a))

§ 100b.141 An amendment requires the same procedures as the document being amended.

If a State amends a State plan under § 100b.140, the State shall use the same procedures as those it must use to prepare and submit a State plan.

(20 U.S.C. 1221e–3(a)(1))

§ 100b.142 An amendment is approved on the same basis as the document being amended.

The Commissioner uses the same procedures to approve an amendment to a State plan—or any other document a State submits—as the Commissioner uses to approve the original document.

(20 U.S.C. 1221e–3(a)(1))

Subpart C—How a Grant Is Made to a State

Approval or Disapproval by the Commissioner

§ 100b.201 A State plan must meet all statutory and regulatory requirements.

The Commissioner approves a State plan if it meets the requirements of the Federal statutes and regulations that apply to the plan.

(20 U.S.C. 1221e–3(a)(1))

§ 100b.202 Opportunity for a hearing before a State plan is disapproved.

The Commissioner may disapprove a State plan only after—

(a) Notifying the State;

(b) Offering the State a reasonable opportunity for a hearing; and

(c) Holding the hearing, if requested by the State.

(20 U.S.C. 1221e–3(a)(1))

§ 100b.235 The notification of grant award.

(a) To make a grant to a State, the Commissioner issues and sends to the State a notification of grant award.

(b) The notification of grant award tells the amount of the grant and provides other information about the grant.

(20 U.S.C. 1221e–3(a)(1))

Allotments and Reallotments of Grant Funds

§ 100b.260 Allotments are made under program statute.

(a) The Commissioner allots program funds to a State in accordance with the authorizing statute for the program.

(b) Any reallotment to other States will be made by the Commissioner in accordance with the authorizing statute for that program.

(20 U.S.C. 1221e–3(a)(1))

§ 100b.261 Reallotted funds are part of a State's grant.

Funds that a State receives as a result of a reallotment are part of the State's grant for the appropriate fiscal year. However, the Commissioner does not consider a reallotment in determining the maximum or minimum amount to which a State is entitled for a following fiscal year.

(20 U.S.C. 1221e–3(a)(1))

Subpart D—How To Apply to the State for a Subgrant

§ 100b.300 Contact the State for procedures to follow.

An applicant for a subgrant can find out the procedures it must follow by contacting the State agency that administers the program.

(20 U.S.C. 1221e–3(a)(1))

Cross-reference.—See Subparts E and G of this part for the general responsibilities of the State regarding applications for subgrants.

§ 100b.301 Local educational agency general application.

(a) A local educational agency that applies for subgrants under one or more programs listed in § 100b.1 shall submit to the State a general application that contains the assurances contained in paragraph (c) of this section. That application covers the participation by that local educational agency in all of those programs.

(b) A general application submitted under this section remains in effect for the duration of the programs it covers.

The State agencies or boards administering the programs covered by the application may not require the resubmission or amendment of the application unless required by a change in Federal or State law or by other significant changes in the circumstances affecting an assurance in the application.

(c) The general application submitted by a local educational agency must include assurances—

(1) That the local educational agency will administer each program covered by the application in accordance with all applicable statutes, regulations, program plans, and applications;

(2) That the control of funds provided to the local educational agency under each program and title to property acquired with those funds will be in a public agency and that a public agency will administer those funds and property;

(3) That the local educational agency will use fiscal control and fund accounting procedures that will ensure proper disbursement of, and accounting for, Federal funds paid to that agency under each program;

(4) That the local educational agency will—

(i) Make reports to the State agency or board and to the Commissioner as may reasonably be necessary to enable the State agency or board and the Commissioner to perform their duties;

(ii) Maintain records—including the records required under Section 437 of GEPA—and provide access to those records as the State agency or board or the Commissioner decides are necessary to perform their duties;

(5) That the local educational agency will provide reasonable opportunities for the participation by teachers, parents, and other interested agencies, organizations, and individuals in the planning for and operation of each program;

(6) That any application, evaluation, periodic program plan or report relating to each program will be made readily available to parents and other members of the general public;

(7) That in the case of any project involving construction—

(i) The project is not inconsistent with overall State plans for the construction of school facilities; and

(ii) In developing plans for construction, due consideration will be given to excellence of architecture and design and to compliance with standards prescribed by the Secretary under Section 504 of the Rehabilitation Act of 1973 in order to ensure that facilities constructed with the use of Federal funds are accessible to and usable by handicapped individuals; and

(8) That the local educational agency has adopted effective procedures for—

(i) Acquiring and disseminating to teachers and administrators participating in each program, significant information from educational research, demonstrations, and similar projects; and

(ii) Adopting, if appropriate, promising educational practices developed through those projects.

(20 U.S.C. 1232e)

§ 100b.302 The notice to the subgrantee.

A State shall notify a subgrantee in writing of—

(a) The amount of the subgrant;

(b) The period during which the subgrantee may obligate the funds; and

(c) The Federal requirements that apply to the subgrant.

(20 U.S.C. 1221e–3(a)(1))

§ 100b.303 Joint applications and projects.

(a) Two or more eligible parties may submit a joint application for a subgrant.

(b) If the State must use a formula to distribute subgrant funds (see § 100b.51), the State may not make a subgrant that exceeds the sum of the entitlements of the separate subgrantees.

(c) If the State funds the application, each subgrantee shall—

(1) Carry out the activities that the subgrantee agreed to carry out; and

(2) Use the funds in accordance with Federal requirements.

(d) Each subgrantee shall use an accounting system that permits identification of the costs paid for under its subgrant.

(20 U.S.C. 1221e–3(a)(1))

§ 100b.304 Subgrantee shall make subgrant application available to the public.

A subgrantee shall make any application, evaluation, periodic program plan, or report relating to each program available for public inspection.

(20 U.S.C. 1221e–3(a)(1); 1232e)

§ 100b.305 Amendments to applications.

If a subgrantee makes a significant amendment to its application, the subgrantee shall use the same procedures as those it must use to submit an application.

(20 U.S.C. 1221e–3(a)(1))

Cross-reference.—See 45 CFR Part 74, Subpart L—Programmatic Changes and Budget Revisions.

Subpart E—How a Subgrant Is Made to an Applicant

§ 100b.400 State procedures for reviewing an application.

A State that receives an application for a subgrant shall take the following steps:

(a) *Review.* The State shall review the application.

(b) *Approval—entitlement programs.* The State shall approve an application if—

(1) The application is submitted by an applicant that is entitled to receive a subgrant under the program; and

(2) The applicant meets the requirements of the Federal statutes and regulations that apply to the program.

(c) *Approval—discretionary programs.* The State may approve an application if—

(1) The application is submitted by an eligible applicant under a program in which the State has the discretion to select subgrantees;

(2) The applicant meets the requirements of the Federal statutes and regulations that apply to the program; and

(3) The State determines that the project should be funded under the authorizing statute and implementing regulations for the program.

(d) *Disapproval—entitlement and discretionary programs.* If an application does not meet the requirements of the Federal statutes and regulations that apply to a program, the State shall not approve the application.

(20 U.S.C. 1221e–3(a)(1))

§ 100b.401 Disapproval of an application—opportunity for a hearing.

(a) *State agency hearing before disapproval.* Under the following programs listed in § 100b.1, the State agency that administers the program shall provide an applicant with notice and an opportunity for a hearing before it may disapprove the application:

(1) Financial Assistance to Local Educational Agencies to Meet the Special Educational Needs of Educationally Deprived Children.

(2) Grants to State Agencies for Programs To Meet the Special Educational Needs of Children in Institutions for Neglected or Delinquent Children.

(3) Supplementary Centers and Services, Guidance, Counseling, and Testing Programs.

(4) Strengthening Instruction in Academic Subjects in Public Schools.

(5) State-operated Programs for Handicapped Children.

(6) Assistance to States for Education of Handicapped Children.

(7) State Vocational Education Programs.

(b) *Other programs—hearings not required.* Under the other programs listed in § 100b.1, a State agency—other than a State educational agency—is not required to provide an opportunity for a hearing regarding the agency's disapproval of an application.

(c) If an applicant for a subgrant alleges that any of the following actions of a State educational agency violates a State or Federal statute or regulation, the State educational agency and the applicant shall use the procedures in paragraph (d) of this section:

(i) Disapproval of or failure to approve the application or project in whole or in part.

(ii) Failure to provide funds in amounts in accordance with the requirements of statutes and regulations.

(d) *State educational agency hearing procedures.*

(1) If the applicant applied under a program listed in paragraph (a) of this section, the State educational agency shall provide an opportunity for a hearing before the agency disapproves the application.

(2) If the applicant applied under a program not listed in paragraph (a) of this section, the State educational agency shall provide an opportunity for a hearing either before or after the agency disapproves the application.

(3) The applicant shall request the hearing within 30 days of the action of the State educational agency.

(4)(i) Within 30 days after it receives a request, the State educational agency shall hold a hearing on the record and shall review its action.

(ii) No later than 10 days after the hearing the agency shall issue its written ruling, including findings of fact and reasons for the ruling.

(iii) If the agency determines that its action was contrary to State or Federal statutes or regulations that govern the applicable program, the agency shall rescind its action.

(5) If the State educational agency does not rescind its final action after a review under this paragraph, the applicant may appeal to the Commissioner. The applicant shall file a notice of the appeal with the Commissioner within 20 days after the applicant has been notified by the State educational agency of the results of the agency's review. If supported by substantial evidence, findings of fact of the State educational agency are final.

(6)(i) The Commissioner may also issue interim orders to State educational agencies as he or she may decide are necessary and appropriate pending appeal or review.

(ii) If the Commissioner determines that the action of the State educational agency was contrary to Federal statutes or regulations that govern the applicable program, the Commissioner issues an order that requires the State educational agency to take appropriate action.

(7) Each State educational agency shall make available at reasonable times and places to each applicant all records of the agency pertaining to any review or appeal the applicant is conducting under this section, including records of other applicants.

(8) If a State educational agency does not comply with any provision of this section, or with any order of the Commissioner under this section, the Commissioner immediately terminates all assistance to the State educational agency under the applicable program.

(e) *Other State agency hearing procedures.* State agencies that are required to provide a hearing under paragraph (a) of this section—other than State educational agencies—are not required to use the procedures in paragraph (d) of this section.

(20 U.S.C. 1221e–3(a)(1); 1231b–2)

Subpart F—What Conditions Must Be Met by the State and Its Subgrantees?

Nondiscrimination

§ 100b.500 Federal statutes and regulations on nondiscrimination.

A State and a subgrantee shall comply with the following statutes and regulations:

Subject	Statute	Regulation
Discrimination on the basis of race, color, or national origin.	Title VI of the Civil Rights Act of 1964 (45 U.S.C. 2000d through 2000d–4).	45 CFR Part 80.
Discrimination on the basis of sex.	Title IX of the Education Amendments of 1972 (20 U.S.C. 1681–1683).	45 CFR Part 86.
Discrimination on the basis of handicap.	Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794).	45 CFR Part 84.
Discrimination on the basis of age.	The Age Discrimination Act (42 U.S.C. 6101 *et seq.*).	45 CFR Part 90.

(20 U.S.C. 1221e–3(a)(1))

Allowable Costs

§ 100b.530 General cost principles.

Subpart Q of 45 CFR Part 74 references the general cost principles that apply to grants, subgrants, and cost-type contracts under grants and subgrants.

(20 U.S.C. 1221e–3(a)(1))

Cross-reference.—See 45 CFR Part 74, Subpart G—Matching or Cost Sharing.

§ 100b.532 Use of funds for religion prohibited.

(a) No State or subgrantee may use its grant or subgrant to pay for any of the following:

(1) Religious worship, instruction, or proselytization.

(2) Equipment or supplies to be used for any of the activities specified in paragraph (a)(1) of this section.

(3) Construction, remodeling, repair, operation, or maintenance of any facility or part of a facility to be used for any of the activities specified in paragraph (a)(1) of this section.

(4) An activity of a school or department of divinity.

(b) As used in this section, "school or department of divinity" means an institution or a component of an institution whose program is specifically for the education of students to—

(1) Prepare them to enter into a religious vocation; or

(2) Prepare them to teach theological subjects.

(20 U.S.C. 1221e–3(a)(1))

§ 100b.533 Acquistion of real property; construction.

No State or subgrantee may use its grant or subgrant for acquisition of real property or for construction unless specifically permitted by the authorizing statute or implementing regulations for the program.

(20 U.S.C. 1221e–3(a)(1))

§ 100b.534 Use of tuition and fees restricted.

No State or subgrantee may count tuition and fees collected from students toward meeting matching, cost sharing, or maintenance of effort requirements of a program.

(20 U.S.C. 1221e–3(a)(1))

Indirect Cost Rates

§ 100b.560 General indirect cost rates; exceptions.

(a) Appendices B–D to 45 CFR Part 74 include—

(1) A description of the difference between direct and indirect costs; and

(2) The principles for determining the general indirect cost rate that a State or subgrantee may use under some programs.

(b) Section 100b.562 provides restrictions on indirect cost rates under certain programs.

(20 U.S.C. 1221e–3(a)(1))

§ 100b.561 Approval of indirect cost rates.

(a) The Commissioner approves an indirect cost rate for a State agency and for a subgrantee other than a local educational agency. For the purposes of

this section, the term "local educational agency" does not include a State agency.

(b) Each State educational agency, on the basis of a plan approved by the Commissioner, shall approve an indirect cost rate for each local educational agency that requests it to do so.

(c) Each indirect cost rate must be approved annually.

(20 U.S.C. 1221e-3(a)(1))

§ 100b.563 Restricted indirect cost rate—programs covered.

A State and a subgrantee shall use a restricted indirect cost rate, computed under 45 CFR 100a.564–100a.568, for each program listed in § 100b.1 that has a statutory requirement not to use Federal funds to supplant non-Federal funds. These programs include the following:

Program	Authorizing statute
Financial Assistance to Local Educational Agencies To Meet the Special Educational Needs of Educationally Deprived Children.	Title I-A of the Elementary and Secondary Education Act.
Grants to State Agencies for Programs To Meet the Special Educational Needs of Children in Institutions for Neglected or Delinquent Children.	Sections 151–153 of the Elementary and Secondary Education Act.
Grants to State Agencies for Programs To Meet the Special Educational Needs of Migratory Children.	Sections 141–143 of the Elementary and Secondary Education Act.
State Basic Skills Improvement Program.	Title II of the Elementary and Secondary Education Act.
Financial Assistance for School Library Resources, Textbooks, and other Instructional Materials.	Title II of the Elementary and Secondary Education Act (as in effect Sept. 30, 1978).
Supplementary Centers and Services, Guidance, Counseling, and Testing Programs.	Title III of the Elementary and Secondary Education Act (as in effect Sept. 30, 1978).
Strengthening Instruction on Academic Subjects in Public Schools.	Title III-A of the National Defense Education Act.
State-operated Programs for Handicapped Children.	Sections 146–147 of the Elementary and Secondary Education Act.
Assistance to States for Education of Handicapped Children.	Part B of the Education of the Handicapped Act.
State Vocational Education Programs.	Part A of Title I of the Vocational Education Act.
Community Service and Continuing Education Programs.	Title I of the Higher Education Act.

(20 U.S.C. 1221e-3(a)(1))

Coordination

§ 100b.580 Coordination with other activities.

(a) A State and a subgrantee shall, to the extent possible, coordinate each of its projects with other activities that are in the same geographic area served by the project and that serve similar purposes and target groups.

(b) A State and a subgrantee whose project includes activities to improve the basic skills of children, youth, or adults shall, to the extent possible, coordinate its project with other basic skills activities that are in the same geographic area served by the project.

(c) For the purposes of this section, "basic skills" means reading, mathematics, and effective communication, both written and oral.

(d) The State or subgrantee shall continue its coordination during the period that it carries out the project.

(20 U.S.C. 1221e-3(a)(1); 2890)

§ 100b.581 Methods of coordination.

Depending on the objectives and requirements of a project, a grantee shall use one or more of the following methods of coordination:

(a) Planning the project with organizations and individuals who have similar objectives or concerns.

(b) Sharing information, facilities, staff, services, or other resources.

(c) Engaging in joint activities such as instruction, needs assessment evaluation, monitoring, technical assistance, or staff training.

(d) Using the grant or subgrant funds so as not to duplicate or counteract the effects of funds used under other programs.

(e) Using the grant or subgrant funds to increase the impact of funds made available under other programs.

(20 U.S.C. 1221e-3(a)(1))

Evaluation

§ 100b.591 Federal evaluation—cooperation by a grantee.

A State and a subgrantee shall cooperate in any evaluation of a program by the Secretary or the Commissioner.

(20 U.S.C. 1226c; 1231a)

§ 100b.592 Federal evaluation—satisfying requirement for State or subgrantee evaluation.

If a State or a subgrantee cooperates in a Federal evaluation of a program, the Commissioner may determine that the State or subgrantee meets the evaluation requirements of the program.

(20 U.S.C. 1226c; 1231a)

Construction

Cross-reference.—See 45 CFR Part 74, Subpart P—Procurement Standards.

§ 100b.600 Where to find construction regulations.

(a) A State or a subgrantee that requests program funds for construction, or whose grant or subgrant includes funds for construction, shall comply with the rules on construction that apply to applicants and grantees under 45 CFR 100a.600–100a.615.

(b) The State shall perform the functions that the appropriate official of the Education Division performs under 45 CFR 100a.602 (Preservation of historic sites) and 100a.605 (Approval of drawings and specifications).

(c) The State shall provide to the Commissioner the information required under 45 CFR 100a.602(a) (Preservation of historic sites).

(20 U.S.C. 1221e-3(a)(1))

Participation of Students Enrolled in Private Schools

§ 100b.650 Private schools; purpose of §§ 100b.651–100b.662.

(a) Under some programs, the authorizing statute requires that a State and its subgrantees provide for participation by students enrolled in private schools. Sections 100b.651–100b.662 apply to those programs and provide rules for that participation. These sections do not affect the authority of the State or a subgrantee to enter into a contract with a private party.

(b) If any other rules for participation of students enrolled in private schools apply under a particular program, they are in the authorizing statute or implementing regulations for that program.

(20 U.S.C. 1221e-3(a)(1)).

Note.—Some program statutes authorize the Commissioner—under certain circumstances—to provide benefits directly to private school students. These "bypass" provisions—where they apply—are implemented in the individual program regulations.

§ 100b.651 Responsibility of a State and a subgrantee.

(a)(1) A subgrantee shall provide students enrolled in private schools with a genuine opportunity for equitable participation in accordance with the requirements in §§ 100b.652–100b.662 and in the authorizing statute and implementing regulations for a program.

(2) The subgrantee shall provide that opportunity to participate in a manner that is consistent with the number of eligible private school students and their needs.

(3) The subgrantee shall maintain continuing administrative direction and control over funds and property that benefit students enrolled in private schools.

(b)(1) A State shall ensure that each subgrantee complies with the requirements in §§100b.651–100b.662.

(2) If a State carries out a project directly, it shall comply with these requirements as if it were a subgrantee.

(20 U.S.C. 1221e-3(a)(1))

§ 100b.652 Consultation with representatives of private school students.

(a) An applicant for a subgrant shall consult with appropriate representatives of students enrolled in private schools during all phases of the development and design of the project covered by the application, including consideration of—

(1) Which children will receive benefits under the project;

(2) How the children's needs will be identified;

(3) What benefits will be provided;

(4) How the benefits will be provided; and

(5) How the project will be evaluated.

(b) A subgrantee shall consult with appropriate representatives of students enrolled in private schools before the subgrantee makes any decision that affects the opportunities of those students to participate in the project.

(c) The applicant or subgrantee shall give the appropriate representatives a genuine opportunity to express their views regarding each matter subject to the consultation requirements in this section.

(20 U.S.C. 1221e–3(a)(1))

§ 100b.653 Needs, number of students, and types of services.

A subgrantee shall determine the following matters on a basis comparable to that used by the subgrantee in providing for participation of public school students:

(a) The needs of students enrolled in private schools.

(b) The number of those students who will participate in a project.

(c) The benefits that the subgrantee will provide under the program to those students.

(20 U.S.C. 1221e–3(a)(1))

§ 100b.654 Benefits for private school students.

(a) *Comparable benefits.* The program benefits that a subgrantee provides for students enrolled in private schools must be comparable in quality, scope, and opportunity for participation to the program benefits that the subgrantee provides for students enrolled in public schools.

(b) *Same Benefits.* If a subgrantee uses funds under a program for public school students in a particular attendance area, or grade or age level, the subgrantee shall insure equitable opportunities for participation by students enrolled in private schools who—

(1) Have the same needs as the public school students to be served; and

(2) Are in that group, attendance area, or age or grade level.

(c) *Different benefits.* If the needs of students enrolled in private schools are different from the needs of students enrolled in public schools, a subgrantee shall provide program benefits for the private school students that are different from the benefits the subgrantee provides for the public school students.

(20 U.S.C. 1221e–3(a)(1))

§ 100b.655 Level of expenditures for students enrolled in private schools.

(a) Subject to paragraph (b) of this section, a subgrantee shall spend the same average amount of program funds on—

(1) A student enrolled in a private school who receives benefits under the program; and

(2) A student enrolled in a public school who receives benefits under the program.

(b) The subgrantee shall spend a different average amount on program benefits for students enrolled in private schools if the average cost of meeting the needs of those students is different from the average cost of meeting the needs of students enrolled in public schools.

(20 U.S.C. 1221e–3(a)(1))

§ 100b.656 Information in an application for a subgrant.

An applicant for a subgrant shall include the following information in its application:

(a) A description of how the applicant will meet the Federal requirements for participation of students enrolled in private schools.

(b) The number of students enrolled in private schools who have been identified as eligible to benefits under the program.

(c) The number of students enrolled in private schools who will receive benefits under the program.

(d) The basis the applicant used to select the students.

(e) The manner and extent to which the applicant complied with § 100b.652 (consultation).

(f) The places and times that the students will receive benefits under the program.

(g) The differences, if any, between the program benefits the applicant will provide to public and private school students, and the reasons for the differences.

(20 U.S.C. 1221e–3(a)(1))

§ 100b.657 Separate classes prohibited.

A subgrantee may not use program funds for classes that are organized separately on the basis of school enrollment or religion of the students if—

(a) The classes are at the same site; and

(b) The classes include students enrolled in public schools and students enrolled in private schools.

(20 U.S.C. 1221e–3(a)(1))

§ 100b.658 Funds not to benefit a private school.

(a) A subgrantee may not use program funds to finance the existing level of instruction in a private school or to otherwise benefit the private school.

(b) The subgrantee shall use program funds to meet the specific needs of students enrolled in private schools, rather than—

(1) The needs of a private school; or

(2) The general needs of the students enrolled in a private school.

(20 U.S.C. 1221e–3(a)(1))

§ 100b.659 Use of public school personnel.

A subgrantee may use program funds to make public personnel available in other than public facilities—

(a) To the extent necessary to provide equitable program benefits designed for students enrolled in a private school; and

(b) If those benefits are not normally provided by the private school.

(20 U.S.C. 1221e–3(a)(1))

§ 100b.660 Use of private school personnel.

A subgrantee may use program funds to pay for the services of an employee of a private school if—

(a) The employee performs the services outside of his or her regular hours of duty; and

(b) The employee performs the services under public supervision and control.

(20 U.S.C. 1221e–3(a)(1))

§ 100b.661 Equipment and supplies.

(a) Under some program statutes, a public agency must keep title to and exercise continuing administrative control of all equipment and supplies that the subgrantee acquires with program funds. This public agency is usually the subgrantee.

(b) The subgrantee may place equipment and supplies in a private school for the period of time needed for the project.

(c) The subgrantee shall insure that the equipment or supplies placed in a private school—

(1) Are used only for the purposes of the project; and

(2) Can be removed from the private school without remodeling the private school facilities.

(d) The subgrantee shall remove equipment or supplies from a private school if—

(1) The equipment or supplies are no longer needed for the purposes of the project; or

(2) Removal is necessary to avoid use of the equipment of supplies for other than project purposes.

(20 U.S.C. 1221e–3(a)(1))

§ 100b.662 Construction.

A subgrantee shall insure that program funds are not used for the construction of private school facilities.

(20 U.S.C. 1221e–3(a)(1))

Other Requirements for Certain Programs

Cross-reference.—See 45 CFR Part 74, Subpart C—Bonding and Insurance; and 45 CFR 74.144—Inventions and patents.

§ 100b.681 Protection of human research subjects.

If a State or a subgrantee uses a human subject in a research project, the State or subgrantee shall protect the person from physical, psychological, or social injury resulting from the project.

(20 U.S.C. 1221e–3(a)(1))

Cross-reference.—See 45 CFR Part 46—Protection of Human Research Subjects.

§ 100b.682 Treatment of animals.

If a State or a subgrantee uses an animal in a project, the State or subgrantee shall provide the animal with proper care and humane treatment in accordance with the Animal Welfare Act of 1970.

(Pub. L. 89–544, as amended)

§ 100b.683 Health or safety standards for facilities.

A State and a subgrantee shall comply with any Federal health or safety requirements that apply to the facilities that the State or subgrantee uses for a project.

(20 U.S.C. 1221e–3(a)(1))

§ 100b.684 Day care services.

(a) If a State or a subgrantee uses program funds to provide any day care services, the State or subgrantee shall comply with the day care requirements in 45 CFR Part 71 of this title.

(b) The Commissioner may waive this requirement by publication of a notice in the Federal Register.

(20 U.S.C. 1221e–3(a)(1))

Subpart G—What Are the Administrative Responsibilities of the State and Its Subgrantees?

General Administrative Responsibilities

§ 100b.700 Compliance with statutes, regulations, State plan, and applications.

A State and a subgrantee shall comply with the State plan and applicable statutes, regulations, and approved applications, and shall use Federal funds in accordance with those statutes, regulations, plan, and applications.

(20 U.S.C. 1221e–3(a)(1))

§ 100b.701 The State or subgrantee administers or supervises each project.

A State or a subgrantee shall directly administer or supervise the administration of each project.

(20 U.S.C. 1221e–3(a)(1))

§ 100b.702 Fiscal control and fund accounting procedures.

A State and a subgrantee shall use fiscal control and fund accounting procedures that insure proper disbursement of and accounting for Federal funds.

(20 U.S.C. 1221e–3(a)(1))

Cross-reference.—See 45 CFR Part 74, Subpart B—Cash Depositories, Subpart H—Standards for Grantee and Subgrantee and Subgrantee Financial Management Systems, and Subpart K—Grant and Subgrant Payment Requirements.

§ 100b.703 When a State may begin to obligate funds.

(a) A State may not begin to obligate funds under a program until the later of the following two dates:

(1) The date that the State plan is mailed or hand delivered to the Commissioner in substantially approvable form.

(2) The date that the funds are first available for obligation by the Commissioner.

(b)(1) The State must show one of the following as proof of mailing:

(i) A legibly dated U.S. Postal Service postmark.

(ii) A legible mail receipt with the date of mailing stamped by the U.S. Postal Service.

(iii) A dated shipping label, invoice, or receipt from a commercial carrier.

(iv) Any other proof of mailing acceptable to the Commissioner.

(2) If a State plan is mailed through the U.S. Postal Service, the Commissioner does not accept either of the following as proof of mailing:

(i) A private metered postmark.

(ii) A mail receipt that is not dated by the U.S. Postal Service.

Note.—The U.S. Postal Service does not uniformly provide a dated postmark. Before relying on this method, a State should check with its local post office.

(c) After determining that a State plan is in substantially approvable form, the Commissioner informs the State of the date on which it could begin to obligate funds. Reimbursement for those obligations is subject to final approval of the State plan.

(20 U.S.C. 1221e–3(a)(1))

§ 100b.704 When certain subgrantees may begin to obligate funds.

(a) If the authorizing statute for a program requires a State to make subgrants on the basis of a formula (see § 100b.5), the State may not authorize an applicant for a subgrant to obligate funds until the later of the following two dates:

(1) The date that the State may begin to obligate funds under § 100b.703; or

(2) The date that the applicant submits its application to the State in substantially approvable form.

(b) Reimbursement for obligations under paragraph (a) of this section is subject to final approval of the application.

(c) If the authorizing statute for a program gives the State discretion to select subgrantees, the State may not authorize an applicant for a subgrant to obligate funds until the subgrant is made. However, the State may approve pre-agreement costs in accordance with the cost principles that are appended to 45 CFR Part 74 (Appendices C–F).

(20 U.S.C. 1221e–3(a)(1))

§ 100b.705 Funds may be obligated during a "carryover period."

(a) If a State or a subgrantee does not obligate all of its grant or subgrant funds by the end of the fiscal year for which Congress appropriated the funds, it may obligate the remaining funds during a carryover period of one additional fiscal year.

(b) The State shall return to the Federal Government any carryover funds not obligated by the end of the carryover period by the State and its subgrantees.

(U.S.C. 1225(b))

§ 100b.706 Obligations made during a carryover period are subject to current statutes, regulations, and applications.

A State and a subgrantee shall use carryover funds in accordance with—

(a) The Federal statutes and regulations that apply to the program and are in effect for the carryover period; and

(b) Any State plan, or application for a subgrant, that the State or subgrantee is required to submit for the carryover period.

(20 U.S.C. 1225(b))

§ 100b.707 When obligations are made.

The following table shows when a State or a subgrantee makes obligations for various kinds of property and services.

If the obligation is for—	*The obligation is made—*
(a) Acquisition of real or personal property,	On the date on which the State or subgrantee makes a binding written commitment to acquire the property.
(b) Personal services by an employee of the State or subgrantee,	When the services are performed.
(c) Personal services by a contractor who is not an employee of the State or subgrantee,	On the date on which the State or subgrantee makes a binding written commitment to obtain the services.
(d) Performance of work other than personal services,	On the date on which the State or subgrantee makes a binding written commitment to obtain the work.
(e) Public utility services,	When the State or subgrantee receives the services.
(f) Travel,	When the travel is taken.
(g) Rental of real or personal property,	When the State or subgrantee uses the property.
(h) A pre-agreement cost that was properly approved by the State under the cost principles in appendices C–F to 45 CFR Part 74,	On the first day of the subgrant period.

(20 U.S.C. 1221e–3(a)(1))

Reports

Cross-reference.—See 45 CFR Part 74, Subpart I—Financial Reporting Requirements, and Subpart J—Monitoring and Reporting of Program Performance.

§ 100b.720 Financial and performance reports by a State.

(a) This section applies to a State's reports required under 45 CFR Part 74, Subparts I (financial reporting) and J (performance reporting).

(b) A state shall submit these reports annually, unless the Commissioner allows less frequent reporting.

(c) However, the Commissioner may, under 45 CFR 74.7 (Special grant or subgrant conditions) or 45 CFR 74.72(e) (Grantee accounting systems), require a State to report more frequently than annually.

(20 U.S.C., 1221e–3(a)(1))

§ 100b.722 A subgrantee makes reports required by the State.

A State may require a subgrantee to furnish reports that the State needs to carry out its responsibilities under the program.

(20 U.S.C. 1221e–3(a)(1))

Records

Cross-reference.—See 45 CFR Part 74, Subpart D—Retention and Access Requirements for Records.

§ 100b.730 Records related to grant funds.

A State and a subgrantee shall keep records that fully show—

(a) The amount of funds under the grant or subgrant;

(b) How the State or subgrantee uses the funds;

(c) The total cost of the project;

(d) The share of that cost provided from other sources; and

(e) Other records to facilitate an effective audit.

(20 U.S.C. 1232f)

§ 100b.731 Records related to compliance.

A State and a subgrantee shall keep records to show its compliance with program requirements.

(20 U.S.C. 1221e–3(a)(1))

§ 100b.734 Record retention period.

Unless a longer period is required under 45 CFR Part 74, a State and a subgrantee shall retain records for five years after completion of the activity for which they use grant or subgrant funds.

(20 U.S.C. 1232f(a))

Cross-reference.—See 45 CFR 74.21 Length of retention period; and 74.22 Starting date of retention period.

Privacy

§ 100b.740 Protection of and accessibility to student records.

Most records on present or past students are subject to the requirements of Section 438 of GEPA and its implementing regulations under 45 CFR Part 99. (Section 438 is the Family Educational Rights and Privacy Act of 1974.)

(20 U.S.C. 1231g)

§ 100b.741 Protection of students' privacy in research and testing.

(a) If a project funded by the Office of Education is designed to explore or develop new or unproven teaching methods or techniques, the grantee must give parents or guardians of children who participate in the project access to instructional material that will be used in connection with the project, including teachers' manuals, films, tapes, or other supplementary instructional material.

(b) No student may be required, as part of any program of the Office of Education, to submit to psychiatric examination, testing, or treatment, or psychological examination, testing, or treatment, in which the primary purpose is to reveal information concerning—

(1) Political affiliations;

(2) Mental and psychological problems potentially embarrassing to the student or his family;

(3) Sex behavior and attitudes;

(4) Illegal, anti-social, self-incriminating and demeaning behavior;

(5) Critical appraisals of other individuals with whom respondents have close family relationships;

(6) Legally recognized privileged and analogous relationships, such as those of lawyers, physicians, and ministers; or

(7) Income—other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under the program—without the prior consent of the student (if the student is an adult or emancipated minor), or in the case of unemancipated minor, without the prior written consent of the parent.

(20 U.S.C. 1232h)

Use of Funds by States and Subgrantees

§ 100b.760 More than one program may assist a single activity.

A State or a subgrantee may use funds under more than one program to support different parts of the same project if the State or subgrantee meets the following conditions:

(a) The State or subgrantee complies with the requirements of each program with respect to the part of the project assisted with funds under that program.

(b) The State or subgrantee has an accounting system that permits identification of the costs paid for under each program.

(20 U.S.C. 1221e–3(a)(1))

§ 100b.761 Federal funds may pay 100 percent of cost.

A State or a subgrantee may use program funds to pay up to 100 percent of the cost of a project if—

(a) The State or subgrantee is not required to match the funds; and

(b) The project can be assisted under the authorizing statute and implementing regulations for the program.

(20 U.S.C. 1221e–3(a)(1))

State Administrative Responsibilities

Cross-reference.—See 45 CFR Part 74, Subpart K—Grant and Subgrant Payment Requirements.

§ 100b.770 A State shall perform certain duties with respect to the applications for subgrants.

With respect to each program that authorizes subgrants, a State shall perform the following duties and any

other duties required by statute or regulations:

(a) Disseminate information regarding the availability of funds under each program.

(b) Develop procedures for applicants to follow in completing and submitting applications for subgrants.

(c) Provide application forms.

(d) Assist applicants in applying for funds.

(e) Review applications and, within the limits of available funds, award subgrants.

(f) Notify each applicant as to whether it will receive a subgrant.

(g) Not act in any manner that prevents eligible applicants from applying under the program.

(20 U.S.C. 1221e-3(a)(1))

§ 100b.771 A State shall encourage eligible applicants to apply.

(a) Each State shall make a reasonable effort to encourage eligible applicants to apply for subgrants.

(b) The State shall inform eligible applicants of—

(1) The availability of subgrants;

(2) The objectives of each program;

(3) The objectives of the State plan for each program;

(4) The assistance the State provides to an applicant in completing and submitting an application; and

(5) The procedures the State uses to select applications for funding.

(20 U.S.C. 1222c-3(a)(1))

§ 100b.772 Other responsibilities of the State.

(a) A State shall—

(1) Provide technical assistance to prospective applicants and subgrantees;

(2) Assist in the evaluation of projects;

(3) Develop and use procedures to monitor each project; and

(4) Develop procedures, issue rules, or take whatever action may be necessary to properly administer each program and to avoid illegal, imprudent, wasteful, or extravagant use of funds by the State or a subgrantee.

(b) This section applies to the program under Title IV of the Elementary and Secondary Education Act unless administrative funds for that program are appropriated under Title V-A of that Act.

(c) This section does not apply to the program under Title I of the Elementary and Secondary Education Act.

Cross-reference.—See § 100b.1 Programs to which Part 100b applies.

(20 U.S.C. 1221e-3(a)(1))

Complaint Procedures of the State

§ 100b.780 A State shall adopt complaint procedures.

(a) A State shall adopt written procedures for—

(1) Receiving and resolving any complaint that the State or a subgrantee is violating a Federal statute or regulations that apply to a program;

(2) Reviewing an appeal from a decision of a subgrantee with respect to a complaint; and

(3) Conducting an independent on-site investigation of a complaint if the State determines that an on-site investigation is necessary.

(b) Sections 100b.780–100b.782 apply to the program under Title IV of the Elementary and Secondary Education Act unless administrative funds for that program are appropriated under Title V-A of that Act.

(c) Sections 100b.780–100b.782 do not apply to the program under Title I of the Elementary and Secondary Education Act.

Cross-reference.—See § 100b.1 Programs to which Part 100b applies.

(20 U.S.C. 1221e-3(a)(1))

§ 100b.781 Minimum complaint procedures.

A State shall include the following in its complaint procedures:

(a) A time limit of 60 calendar days after the State receives a complaint—

(1) If necessary, to carry out an independent on-site investigation; and

(2) To resolve the complaint.

(b) An extension of the time limit under paragraph (a) of this section only if exceptional circumstances exist with respect to a particular complaint.

(c) The right to request the Commissioner to review the final decision of the State.

(20 U.S.C. 1221e-3(a)(1))

§ 100b.782 An organization or individual may file a complaint.

An organization or individual may file a written signed complaint with a State. The complaint must include—

(a) A statement that the State or a subgrantee has violated a requirement of a Federal statute or regulations that apply to a program; and

(b) The facts on which the statement is based.

(20 U.S.C. 1221e-3(a)(1))

§ 100b.783 State educational agency action—subgrantee's opportunity for a hearing.

(a) A subgrantee may request a hearing if it alleges that any of the following actions by the State educational agency violated a State or Federal statute or regulation:

(1) Ordering, in accordance with a final State audit resolution determination, the repayment of misspent or misapplied Federal funds; or

(2) Terminating further assistance for an approved project.

(b) The procedures in § 100b.401(c)(2)-(7) apply to any request for a hearing under this section.

(20 U.S.C. 1231b-2)

Subpart H—What Procedures Does the Commissioner Use to Get Compliance?

Cross-reference.—See 45 CFR Part 74, Subpart M—Grant and Subgrant Closeout, Suspension, and Termination.

§ 100b.900 Waiver of regulations prohibited.

(a) No official, agent, or employee of HEW may waive any regulation that applies to an Office of Education program unless the regulation specifically provide that it may be waived.

(b) No act or failure to act by an official, agent, or employee of HEW can affect the authority of the Commissioner to enforce regulations.

(43 Dec. Comp. Gen. 31(1963))

§ 100b.901 Education Appeal Board.

(a) The Education Appeal Board, established under Part E of GEPA, has the following functions:

(1) Audit appeal hearings under Section 452 of GEPA.

(2) Withholding and termination hearings under Section 453 of GEPA.

(3) Cease and desist hearings under Section 453 of GEPA.

(4) Any other proceeding designated by the Commissioner.

(b) The regulations for the Education Appeal Board are in 45 CFR Part 100d.

(20 U.S.C. 1234)

§ 100b.902 Judicial review.

After a hearing by the Commissioner, a State is usually entitled—generally by the statute that required the hearing—to judicial review of the Commissioner's decision.

(20 U.S.C. 1221e-3(a)(1))

PART 100c—GENERAL

Sec.

100c.1 Definitions that apply to all Education Division programs.
100c.2 Records under the Freedom of Information Act.

Authority: Section 408(a)(1) of Pub. L. 90-247, 88 Stat. 559, 560, as amended (20 U.S.C. 1221e-3(a)(1)), unless otherwise noted.

§ 100c.1 Definitions that apply to all Education Division programs.

(a) Unless a statute or regulation provides otherwise, the definitions in this section apply to the regulations for—

(1) The Museum Services Program (45 CFR Part 64);

(2) Programs of the Office of Education (45 CFR Parts 100–199);

(3) Programs of the National Institute of Education (45 CFR Parts 1400–1499); and

(4) Programs of the Office of the Assistant Secretary for Education (45 CFR Parts 164 and 1501).

(b) The following definitions in 45 CFR Part 74 apply to the regulations listed in paragraph (a) of this section. The section of 45 CFR Part 74 that contains the definition is given in the parentheses.

"Budget" (74.104)

"Contract" (includes definition of "Subcontract") (74.3)

"Equipment" (74.132)

"Federally recognized Indian tribal government" (74.3)

"Grant" (74.3)

"Grantee" (74.3)

"HEW" (74.3)

"Local government" (74.3)

"Personal property" (74.132)

"Real property" (74.132)

"Recipient" (74.3)

"Subgrant" (74.3)

"Subgrantee" (74.3)

"Supplies" (74.132)

(c) The following definitions also apply to the regulations listed in paragraph (a) of this section:

"Acquisition" means taking ownership of property, receiving the property as a gift, entering into a lease-purchase arrangement, or leasing the property. The term includes processing, delivery, and installation of property.

"Applicant" means a party requesting a grant or subgrant under a program of the Education Division.

"Application" means a request for a grant or subgrant under a program of the Education Division.

"Appropriate official of the Education Division" means the official that has overall administrative responsibility for an Education Division program. Depending on the statutory authority for a given program, that official is one of the following:

(a) The Assistant Secretary.

(b) The Commissioner.

(c) The Director of the National Institute of Education.

(d) The Director of the Institute of Museum Services.

"Assistant Secretary" means the Assistant Secretary for Education of the Department of Health, Education, and Welfare or an official or employee of the Education Division acting for the Assistant Secretary under a delegation of authority.

"Award" means an amount of funds that the Education Division provides under a grant or contract.

"Budget period" means an interval of time into which a project period is divided for budgetary purposes.

"Commissioner" means the U.S. Commissioner of Education or an official or employee of the Office of Education acting for the Commissioner under a delegation of authority.

"Department" means the U.S. Department of Health, Education, and Welfare.

"Director of the Institute of Musuem Services" means the Director of the Institute of Museum Services or an officer or employee of the Institute of Museum Services acting for the Director under a delegation of authority.

"Director of the National Institute of Education" means the Director of the National Institute of Education or an officer or employee of the National Institute of Education acting for the Director under a delegation of authority.

"EDGAR" means the Education Division General Administrative Regulations (45 CFR Parts 100a, 100b, 100c, and 100d).

"Education Division" means the HEW agency, headed by the Assistant Secretary, that is composed of—

(a) The Office of the Assistant Secretary (which includes the National Center for Education Statistics);

(b) The Office of Education;

(c) The National Institute of Education; and

(d) The Institute of Museum Services.

"Elementary school" means a day or residential school that provides elementary education, as determined under State law.

"Facilities" means one or more structures in one or more locations.

"Fiscal year" means the Federal fiscal year—a period beginning on October 1 and ending on the following September 30.

"GEPA" means The General Education Provisions Act.

"Grant period" means the period for which funds have been awarded.

"Local educational agency" means—

(a) A public board of education or other public authority legally constituted within a State for either administrative control of or direction of, or to perform service functions for, public elementary or secondary schools in—

(1) A city, county, township, school district, or other political subdivision of a State; or

(2) Such combination of school districts or counties a State recognizes as an administrative agency for its public elementary or secondary schools; or

(b) Any other public institution or agency that has administrative control and direction of a public elementary or secondary school.

(c) As used in 45 CFR Parts 104 and 105 (vocational education programs), the term also includes any other public institution or agency that has administrative control and direction of a vocational education program.

"Minor remodeling" means minor alterations in a previously completed building. The term also includes the extension of utility lines, such as water and electricity, from points beyond the confines of the space in which the minor remodeling is undertaken but within the confines of the previously completed building. The term does not include building construction, stuctural alterations to buildings, building maintenance, or repairs.

"Nonprofit," as applied to an agency, organization, or institution, means that it is owned and operated by one or more corporations or associations whose net earnings do not benefit, and cannot lawfully benefit, any private shareholder or entity.

"Nonpublic," as applied to an agency, organization, or institution, means that the agency, organization, or institution is nonprofit and is not under Federal or public supervision or control.

"Preschool" means the educational level from a child's birth to the time at which the State provides elementary education.

"Private," as applied to an agency, organization, or institution, means that it is not under Federal or public supervision or control.

"Project" means the activity described in an application.

"Project period" means the period for which the appropriate official of the Education Division approves a project.

"Public," as applied to an agency, organization, or institution, means that the agency, organization, or institution is under the administrative supervision or control of a government other than the Federal Government.

"Secondary school" means a day or residential school that provides secondary education as determined under State law. In the absence of State law, the Commissioner may determine, with respect to that State, whether the term includes education beyond the twelfth grade.

"Secretary" means the Secretary of the Department of Health, Education, and Welfare, or an official or employee

of the Department acting for the Secretary under a delegation of authority.

"Service function," with respect to a local educational agency—

(a) Means an educational service that is performed by a legal entity—such as an intermediate agency—

(1)(i) Whose jurisdiction does not extend to the whole State; and

(ii) That is authorized to provide consultative, advisory, or educational services to public elementary or secondary schools; or

(2) That has regulatory functions over agencies having administrative control or direction of public elementary or secondary schools.

(b) The term does not include a service that is performed by a cultural or educational resource.

"State" means any of the 50 States, the Commonwealth of Puerto Rico, the District of Columbia, Guam, American Samoa, the Virgin Islands, the Northern Mariana Islands, or the Trust Territory of the Pacific Islands.

"State educational agency" means the State board of education or other agency or officer primarily responsible for the supervision of public elementary and secondary schools in a State. In the absence of this officer or agency, it is an officer or agency designated by the Governor or State law.

"Work of art" means an item that is incorporated into facilities primarily because of its aesthetic value.

(20 U.S.C. 1221e-3(a)(1))

§ 100c.2 Records under the Freedom of Information Act.

The Education Division makes records available in accordance with the Freedom of Information Act and the Department's regulations in 45 CFR Part 5. The Education Division uses the fee schedule in 45 CFR 5.1.

(5 U.S.C. 552)

PART 100d—CERTIFICATION WITH RESPECT TO OPEN MEETINGS BY LOCAL EDUCATIONAL AGENCIES IN CERTAIN PROGRAMS [REVOKED]

4. Part 100d of the General Provisions for Regulations for Office of Education Programs is revoked, and a new Part 100d—Education Appeal Board is added. (This document is published in today's **Federal Register**.)

PART 104—STATE VOCATIONAL EDUCATION PROGRAMS

§§ 104.263, 104.289, 104.291, 104.292, 104.553, 104.634 [Revoked]

§§ 104.171, 104.271, 104.301, 104.533, 104.612, 104.803 [Amended]

5. The following sections are revoked: §§ 104.171 (a) and (h); 104.263; 104.271 (a), (c), and (d); 104.289; 104.291; 104.292; 104.301 (a) and (b); 104.533(c); 104.553; 104.612(b); 104.634; and 104.803(b).

6. Section 104.3 is revised to read as follows:

§ 104.3 Regulations that apply to State Vocational Education Programs.

(a) *Regulations.* The following regulations apply to State Vocational Education Programs:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100b (State-Administered Programs) and Part 100c (Definitions).

(2) The regulations in this Part 104.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e-3(a)(1))

7. Section 104.141(d) is revised to read as follows:

§ 104.141 Requirement for filing a general application.

* * * * *

(d) This general application is in place of the general State application required by 45 CFR 100b.101 of EDGAR.

* * * * *

8. Section 104.301 (c) and (d) are revised to read as follows:

§ 104.301 Application of Federal requirements.

* * * * *

(c) State and local funds that are applied to the maintenance of effort requirements of the Act are subject to the conditions and requirements of the Act, regulations, five-year State plan, and annual program plan.

(d) The Commissioner accepts only actual expenditures of State and local funds as part of the State's matching and maintenance of effort requirements. This means that the State may not use in-kind contributions as part of its matching and maintenance of effort requirements.

PART 105—COMMISSIONER'S DISCRETIONARY PROGRAMS OF VOCATIONAL EDUCATION

§§105.5, 105.6, 105.7, 105.209, 105.210, 105.507, 105.625 [Revoked]

§§ 105.506, 105.605, 105.614, 105.624, Appendix A [Amended]

9. The following sections are revoked: §§105.5; 105.106; 105.107; 105.209; 105.210; 105.506 (c), (d), and (e); 105.507; 105.605 (a); 105.614 (a), (c)(4), and (e); 105.624 (a), (c), and (d); 105.625; and, in Appendix A, the definitions of "Commissioner," "HEW," "Local educational agency," "Secretary," "State," and "State educational agency."

10. Section 105.4 is revised to read as follows:

§ 105.4 Regulations that apply to the Commissioner's Discretionary Programs of Vocational Education.

(a) *Regulations.* The following regulations apply to the Commissioner's Discretionary Programs of Vocational Education.

(1)(i) For Subparts 1, 2, 4, and 5—the Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(ii) For Subpart 3—EDGAR 45 CFR Part 100c only.

(2) The regulations in this Part 105.

(b) *How to use regulations; how to apply for funds.*

The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e-3(a)(1))

11. Section 105.109(a) is revised to read as follows:

§ 105.109 Exemplary and innovative projects.

(a)(1) The Commissioner makes a contract for an exemplary and innovative project only if the project provides for the participation of students enrolled in nonprofit private schools, to the extent that the educational needs of those students is of the type that the project is to meet.

(2) Section 100a.680 of the EDGAR references the regulations that govern the participation of those students.

* * * * *

12. Section 105.204 is revised to read as follows:

§ 105.204 Competitive awards.

The Commissioner makes awards competitively except to the extent that

appropriate sections of the Indian Self-Determination and Education Assistance Act of 1975 apply or to the extent that more specific regulations in this subpart apply.

(Sec. 103(a)(1)(B)(iii); 20 U.S.C. 2303; 25 U.S.C. 450e(b))

13. Section 105.206 is amended by revising the first sentence to read as follows:

§ 105.206 Applications for assistance contracts.

An application from an eligible tribal organization must be submitted to the Commissioner by the Indian tribe. * * *

14. Section 105.604 is amended by removing paragraphs (b) and (e) and revising paragraph (a) to read as follows:

§ 105.604 Applications for grants or contracts.

(a) An applicant shall give the State board an opportunity to comment on its application.

(b) (Deleted)

* * * * *

(e) (Deleted)

PART 107—FEDERAL FINANCIAL ASSISTANCE FOR PLANNING AND EVALUATION [REVOKED]

15. Part 107 is revoked.

PART 116b—STATE OPERATED PROGRAMS FOR HANDICAPPED CHILDREN

§§ 116b.10, 116b.11 [Revoked]

§§ 116b.13, 116b.23, 116b.32, 116b.60 [Amended]

16. The following sections are revoked: §§ 116b.10; 116b.11; 116b.13(a), (b), and (f); 116b.23(b); 116b.32(b); and 116b.60(a) and (b)(3).

17. Section 116b.2 is revised to read as follows:

§ 116b.2 Regulations that apply to State Operated Programs for Handicapped Children.

(a) *Regulations.* The following regulations apply to State Operated Programs for Handicapped Children:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100b (State-Administered Programs) and Part 100c (Definitions).

(2) The regulations in this Part 116b.

(3) The regulations in 45 CFR Part 116 (general requirements relating to Title I of the Act). However, § 116.40(b) (Use of funds for services that the applicant is required to provide) does not apply.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e-3(a)(1))

PART 116c—GRANTS TO STATE AGENCIES FOR PROGRAMS TO MEET THE SPECIAL EDUCATIONAL NEEDS OF CHILDREN IN INSTITUTIONS FOR NEGLECTED OR DELINQUENT CHILDREN

§§ 116c.3, 116c.13 [Amended]

18. The following sections are revoked: §§ 116c.3(b) and 116c.13(a).

19. Section 116c.1 is amended by revising paragraph (b) to read as follows:

§ 116c.1 Applicability.

* * * * *

(b) *Regulations that apply to programs for neglected or delinquent children.*

(1) *Regulations.* The following regulations apply to programs for neglected or delinquent children:

(i) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100b (State-Administered Programs) and Part 100c (Definitions).

(ii) 45 CFR Part 116 (general requirements relating to Title I of the Act).

(iii) The regulations in this Part 116c.

(2) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(i) Using regulations that apply to Education Division programs; and

(ii) Applying for assistance under an Education Division program.

* * * * *

PART 121a—ASSISTANCE TO STATES FOR EDUCATION OF HANDICAPPED CHILDREN

§§ 121a.15, 121a.112, 121a.113, 121a.114, 121a.120, 121a.135, 121a.142, 121a.143, 121a.150, 121a.181, 121a.191, 121a.228, 121a.232, 121a.233, 121a.234, 121a.236, 121a.239, 121a.386, 121a.453, 121a.454, 121a.455, 121a.456, 121a.457, 121a.458, 121a.459, 121a.460, 121a.581, 121a.582, 121a.583, 121a.590, 121a.591, 121a.592, 121a.593, 121a.601, 121a.602 [Revoked]

§§ 121a.8, 121a.183, 121a.190, 121a.193, 121a.452 [Amended]

20. The following sections are revoked: §§ 121a.8(a); 121a.15; 121a.112; 121a.113; 121a.114; 121a.120; 121a.135; 121a.142; 121a.143; 121a.150; 121a.181; 121a.183(b); 121a.190(a); 121a.191; 121a.193(a) and (b); 121a.228; 121a.232; 121a.233; 121a.234; 121a.236; 121a.239; 121a.386; 121a.452(b); 121a.453; 121a.454; 121a.455; 121a.456; 121a.457; 121a.458; 121a.459; 121a.460; 121a.581; 121a.582; 121a.583; 121a.590; 121a.591; 121a.592; 121a.593; 121a.601; and 121a.602.

21. Section 121a.3 is revised to read as follows:

§ 121a.3 Regulations that apply to Assistance to States for Education of Handicapped Children.

(a) *Regulations.* The following regulations apply to this program of Assistance to States for Education of Handicapped Children.

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100b (State-Administered Programs) and Part 100c (Definitions).

(2) The regulations in this Part 121a.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e-3(a)(1))

Definitions

* * * * *

22. Section 121a.450 is revised to read as follows:

§ 121a.450 Definition of "private school handicapped children."

As used in §§ 121a.451–121a.452, "private school handicapped children" means handicapped children enrolled in private schools or facilities other than handicapped children covered under §§ 121a.400–121a.403.

(20 U.S.C. 1413(a)(4)(A))

23. Section 121a.451 is revised to read as follows:

§ 121a.451 State educational agency responsibility.

The State educational agency shall insure that—

(a) To the extent consistent with their number and location in the State, provision is made for the participation of private school handicapped children in the program assisted or carried out under this part by providing them with special education and related services; and

(b) The requirements in 45 CFR 100b.651–100b.663 of EDGAR are met.

(20 U.S.C. 1413(a)(4)(A))

PART 121b—REGIONAL RESOURCE CENTERS

§§ 121b.1, 121b.13 [Amended]

24. The following sections are revoked: §§ 121b.1(b) and 121b.13(a).

25. A new § 121b.5 is added to read as follows:

§ 121b.5 Regulations that apply to the Regional Resource Centers Program.

(a) *Regulations.* The following regulations apply to the Regional Resource Centers Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(2) The regulations in this Part 121b.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e–3(a)(1))

PART 121c—CENTERS AND SERVICES FOR DEAF-BLIND CHILDREN

§§ 121c.1, 121c.10, 121c.34 [Amended]

26. The following sections are revoked: §§ 121c.1(b); 121c.10 (b) and (c); and 121c.34(b).

27. A new § 121c.4 is added to read as follows:

§ 121c.4 Regulations that apply to the Centers and Services for Deaf-Blind Children Program.

(a) *Regulations.* The following regulations apply to the Centers and Services for Deaf-Blind Children Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(2) The regulations in this Part 121c.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e–3(a)(1))

PART 121d—EARLY EDUCATION FOR HANDICAPPED CHILDREN

§ 121d.54 [Revoked]

§§ 121d.1, 121d.17, 121d.31, 121d.40, 121d.52 [Amended]

28. The following sections are revoked: §§121d.1(b); 121d.17 (1st sentence only); 121d.31(b); 121d.40(b); 121d.52(a); and 121d.54.

29. A new Subpart D is added to read as follows:

Subpart D—Other Applicable Regulations

Sec.

121.60 Regulations that apply to the Handicapped Children Early Education Program.

§ 121d.60 Regulations that apply to the Handicapped Children Early Education Program.

(a) *Regulations.* The following additional regulations apply to the Handicapped Children Early Education Program under Subparts A, B, and C of this part:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(2) The regulations in this Part 121d.

(3) For the programs under Subparts B and C only, the regulations in 45 CFR Part 121e.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e–3(a)(1))

PART 121e—AUXILIARY ACTIVITIES

§ 121e.5 [Revoked]

§ 121e.1 [Amended]

30. The following sections are revoked: §§ 121e.1(b) and 121e.5.

A new § 121e.1–1 is added to read as follows:

§ 121e.1-1 Regulations that apply to the Auxiliary Activities Program.

(a) *Regulations.* The following regulations apply to the Auxiliary Activities Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(2) The regulations in this Part 121e.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1223–3(a)(1))

PART 121f—TRAINING PERSONNEL FOR THE EDUCATION OF THE HANDICAPPED

§§ 121f.1, 121f.5 [Amended]

31. The following sections are revoked: 121f.1(b); 121f.5(d)(1); and 121f.22(b).

32. A new § 121f.6–1 is added to read as follows:

§ 121f.6-1 Regulations that apply to the Training Personnel for the Education of the Handicapped Program.

(a) *Regulations.* The following regulations apply to the Training Personnel for the Education of the Handicapped Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(2) The regulations in this Part 121f.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e–3(a)(1))

PART 121g—RECRUITMENT OF PERSONNEL AND DISSEMINATION OF INFORMATION

§ 121g.1 [Amended]

33. Section 121g.1(b) is revoked.

34. A new § 121g.5 is added to read as follows:

§ 121g.5 Regulations that apply to the Recruitment of Personnel and Dissemination of Information Program.

(a) *Regulations.* The following regulations apply to the Recruitment of Personnel and Dissemination of Information Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(2) The regulations in this Part 121g.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e–3(a)(1))

PART 121h—RESEARCH IN EDUCATION OF THE HANDICAPPED

§ 121h.9 [Revoked]

§§ 121h.1, Appendix [Amended]

35. The following sections are revoked: §§ 121h.1(b); 121h.9; and, in the Appendix, §§ 3.1, 3.2(a) (1st and 2nd sentences only) and (b)(3)(i), (ii), (iii), and (iv), (b)(4)(v), and (b)(5).

36. A new § 121h.1–1 is added to read as follows:

§ 121h.1–1 Regulations that apply to the Research in Education of the Handicapped Program.

(a) *Regulations.* The following regulations apply to the Research in Education of the Handicapped Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(2) The regulations in this Part 121h.

(3) The definitions in 45 CFR Part 121a.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e–3(a)(1))

PART 121i—INSTRUCTIONAL MEDIA FOR THE HANDICAPPED

§§ 121i.89, 121i.90, 121i.119, 121i.120 [Revoked]

§ 121i.1 [Amended]

37. The following sections are revoked: §§ 121i.1(b); 121i.89; 121i.90; 121i.119; and 121i.120.

38. A new § 121i.7 is added to read as follows:

§ 121i.7 Regulations that apply to the Instructional Media for the Handicapped Program.

(a) *Regulations.* The following regulations apply to the Instructional Media for the Handicapped Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(2) The regulations in this Part 121i.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e–3(a)(1))

PART 121k—REGIONAL EDUCATION PROGRAMS FOR HANDICAPPED PERSONS

§§ 121k.1, 121k.19 [Amended]

39. The following sections are revoked: 121k.1(b) and 121k.19(c).

40. A new § 121k.5 is added to read as follows:

§ 121k.5 Regulations that apply to Regional Education Programs for Handicapped Persons.

(a) *Regulations.* The following regulations apply to Regional Education Programs for Handicapped Persons:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(2) The regulations in this Part 121k.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e–3(a)(1))

41. Section 121k.15 is amended by revising the introductory text and deleting paragraphs (f) and (g) as follows:

§ 121k.15 Application requirements.

Applications for funds under this part must contain the following information:

* * * * *

(f) (Deleted)

(g) (Deleted)

42. Section 121k.16 is amended by revising paragraph (f) to read as follows:

§ 121k.16 Initial year application.

* * * * *

(f) A description of how the requirement under 45 CFR 100a.580 of EDGAR (Coordination with other activities) will be met.

* * * * *

PART 121m—INCENTIVE GRANTS

§§ 121m.9, 121m.10 [Revoked]

43. The following sections are revoked: §§ 121m.9 and 121m.10.

44. Section 121m.2 is revised to read as follows:

§ 121m.2 Regulations that apply to the Incentive Grants Program.

(a) *Regulations.* The following regulations apply to the Incentive Grants Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100b (State-Administered Programs) and Part 100c (Definitions).

(2) The regulations in this Part 121m.

(3) The definitions in Part 121a.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e–3(a)(1))

PART 130—LIBRARY SERVICES, PUBLIC LIBRARY CONSTRUCTION, AND INTERLIBRARY COOPERATION

§§ 130.30, 130.41 [Revoked]

§§ 130.3, 130.16, 130.32 [Amended]

45. The following text in Part 130 is revoked: The terms "Commissioner" and "State" in §§ 130.3, 130.16(b)(2); 130.30; 130.32(b); and 130.41.

46. Section 130.2 is revised to read as follows:

Part 130.2 Regulations that apply to the Library Services and Construction Program.

(a) *Regulations.* The following regulations apply to the Library Services and Construction Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100b (State-Administered Programs) and Part 100c (Definitions).

(2) The regulations in this Part 130.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e–3(a)(1))

PART 131—COLLEGE LIBRARY RESOURCES PROGRAM

§ 131.4 [Amended]

47. Paragraphs (a) and (b) or § 131.4 are revoked.

48. Section 131.5 is revised to read as follows:

§ 131.5 Regulations that apply to the College Library Resources Program.

(a) *Regulations.* The following regulations apply to the College Library Resources Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(2) The regulations in this Part 131.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e–3(a)(1))

PART 132—GRANTS FOR TRAINING IN LIBRARIANSHIP

§§ 132.21, 132.37 [Revoked]

49. The following sections are revoked: §§ 132.21 and 132.37.

50. A new § 132.1–1 is added to read as follows:

§ 132.1–1 Regulations that apply to the Training in Librarianship Program.

(a) *Regulations.* The following regulations apply to the Training in Librarianship Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(2) The regulations in this Part 132.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e–3(a)(1))

PART 133—LIBRARY RESEARCH AND DEMONSTRATION

§§ 133.6, 133.9 [Revoked]

51. The following sections are revoked: §§ 133.6 and 133.9.

52. Section 133.4 is revised to read as follows:

§ 133.4 Regulations that apply to the Library Research and Demonstration Program.

(a) *Regulations.* The following regulations apply to the Library Research and Demonstration Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(2) The regulations in this Part 133.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e–3(a)(1))

PART 136—STRENGTHENING RESEARCH LIBRARY RESOURCES

§ 136.10 [Revoked]

§§ 136.01, 136.03, 136.05, 136.08 [Amended]

53. The following text is revoked: § 136.01(b); the definitions of "Past fiscal year" and "State" in §§ 136.03; 136.05(a)(2), (a)(4), (b), (c), and (d); § 136.08(b) and (c); and § 136.10.

54. A new § 136.02–1 is added to read as follows:

§ 136.02–1 Regulations that apply to the Strengthening Research Library Resources Program.

(a) *Regulations.* The following regulations apply to the Strengthening Research Library Resources Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(2) The regulations in this Part 136.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e–3(a)(1))

PART 137—EDUCATIONAL INFORMATION CENTERS PROGRAM

§§ 137.7, 137.8 [Revoked]

§§ 137.1, 137.2 [Amended]

55. The following text is revoked: § 137.1(b); the definition of "State" in §§ 137.2; 137.7; and 137.8.

56. A new § 137.2–1 is added to read as follows:

§ 137.2–1 Regulations that apply to the Educational Information Centers Program.

(a) *Regulations.* The following regulations apply to the Educational Information Centers Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100b (State-Administered Programs) and Part 100c (Definitions).

(2) The regulations in this Part 137.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e–3(a)(1))

57. Section 137.5 is amended to add a new paragraph (c) as follows:

§ 137.5 State plan requirements—initial year.

* * * * *

(c) A State plan remains in effect for the duration of the Education Information Centers authorization.

58. Section 137.6 is amended by revising the introductory text to paragraph (a), by revising (a)(5), (a)(6), and (c) and by deleting paragraphs (a)(1) and (b) as follows:

§ 137.6 Annual applications.

(a) If a State has a State plan in effect, the State may apply to the Commissioner for its allocation of funds for the second and each succeeding year of its participation in the program. The application must include the following information:

(1) (Deleted)

* * * * *

(5) The location of each Center currently operating and any changes in the location of a Center from the previous year;

(6) The program activities and services being provided through each Center and any changes in those activities and services from the previous year;

* * * * *

(b) (Deleted)

(c) A State that, for its initial year, submitted a plan to plan for the development of items required by 45 CFR 136.5(a) (4), (5), (7), (8), and (9) shall submit those completed items with its first application.

(20 U.S.C. 1070d–3)

59. Paragraph (b) of § 137.9 is revised to read as follows:

§ 137.9 Allowable costs—matching requirement.

* * * * *

(b) The State shall provide 33⅓ percent of those costs.

(20 U.S.C. 1070d–2)

PART 146—MODERN FOREIGN LANGUAGE AND AREA STUDIES

§§ 146.15, 146.17, 146.25, 146.27, 146.53 [Revoked]

§§ 146.16, 146.26 [Amended]

60. The following sections are revoked: §§ 146.15; 146.16(a); 146.17; 146.25; 146.26(a); 146.27; and 146.53.

61. Section 146.3 is revised to read as follows:

§ 146.3 Regulations that apply to the Modern Foreign Language and Area Studies Program.

(a) *Regulations.* The following regulations apply to the Modern Foreign Language and Area Studies Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions). (Note: Part 100a does not apply to the Fellowship Program under Subpart D.)

(2) The regulations in this Part 146.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e–3(a)(1))

PART 146a—CITIZEN EDUCATION FOR CULTURAL UNDERSTANDING PROGRAM

§§ 146a.1, 146a.4, 146a.5 [Amended]

62. The following text is revoked: §§ 146a.1(b); 146a.4(b)(2); and 146a.5(a).

63. A new § 146a.2–1 is added to read as follows:

§ 146a.2–1 Regulations that apply to the Citizen Education for Cultural Understanding Program.

(a) *Regulations.* The following regulations apply to the Citizen Education for Cultural Understanding Program.

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(2) The regulations in this Part 146a.

(b) *How to use regulations; how to apply for funds.*
The "Introduction to Regulations of the Education Division at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e–3(a)(1))

64. Paragraph (b) of § 146a.6 is revised to read as follows:

§ 146a.6 Project requirements.

* * * * *

(b) Permissible costs include library acquisition of materials appropriate to the program, the use of computer hardware, and the acquisition or development of computer software.

* * * * *

PART 148—HIGHER EDUCATION PROGRAMS IN MODERN FOREIGN LANGUAGE TRAINING AND AREA STUDIES

§§ 148.1, 148.2, 148.37, 148.51, 148.55, Appendix [Amended]

65. The following text is revoked: § 148.1(b); the definitions of "Local school system," "State," and "State department of education" in §§ 148.2; 148.37(2); 148.51 (a) and (b); 148.55(a); and, in the Appendix, §§ 8.1, 11.1, 12.1, and 12.2.

66. A new § 148.5 is added to read as follows:

§ 148.5 Regulations that apply to this program.

(a) *Regulations.* The following regulations apply to the Higher Education Programs in Modern Foreign Language Training and Area Studies:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(2) The regulations in this Part 148.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e–3(a)(1))

67. Paragraph (a) of § 148.12 is revised to read as follows:

§ 148.12 Applications.

(a) Each fiscal year eligible institutions may recommend graduate students for fellowships under this subpart and forward to the Commissioner applications for those students. Each application must include information as to the student's personal and academic background and proposed research project. In addition to the application, each student shall arrange with appropriate persons to have three reference forms (Form OE 7628–3) and one language reference form (Form 7628–1) submitted through his or her eligible institution to the Commissioner on his or her behalf.

* * * * *

68. Paragraph (a) of § 148.22 is revised to read as follows:

§ 148.22 Applications.

(a) Each fiscal year eligible institutions may recommend to the Commissioner faculty members for assistance under this subpart and forward to the Commissioner applications from those faculty members. Each application must include information as to the faculty member's personal academic background and proposed research project.

* * * * *

69. Section 148.32 is amended by revising paragraph (a), the introduction sentence to paragraph (b), by revising (b)(2) and by deleting paragraph (d), to read as follows:

§ 148.32 Applications.

(a) Each fiscal year eligible institutions may forward proposals to the Commissioner for assistance under this subpart.

(b) An "eligible institution" for the purpose of this subpart means—

* * * * *

(2) A State educational agency;

* * * * *

(d) (Deleted)

70. Section 148.36 is amended by revising the introductory text to paragraph (b) to read as follows:

§ 148.36 Award provisions.

* * * * *

(b) Grant funds under this subpart may only be used for the following:

* * * * *

71. Section 148.42 is amended by revising the introductory text to paragraph (b), by revising (b) (2) and (3) and by deleting paragraph (d) as follows:

§ 148.42 Applications.

* * * * *

(b) An "eligible institution" for the purpose of this subpart means—

* * * * *

(2) A State educational agency;

(3) A local educational agency;

* * * * *

(d) (Deleted)

72. Paragraph (a) of § 148.46 is amended by revising the introductory text to read as follows:

§ 148.46 Award provisions.

(a) Grant funds under this part may be used only for the following:

* * * * *

PART 149—COMMISSIONER'S RECOGNITION PROCEDURES FOR NATIONAL ACCREDITING BODIES AND STATE AGENCIES

§ 149.2 [Amended]

73. Section 149.2 is amended by revoking the definition of "States."

PART 154—EDUCATIONAL OPPORTUNITY CENTERS

74. The following text in Part 154 is revoked: § 154.1(b); the definition of "State" in §§ 154.2; 154.3(a)(2); and 154.11(c).

75. A new § 154.1–1 is added to read as follows:

§ 154.1–1 Regulations that apply to the Educational Opportunity Centers Program.

(a) *Regulations.* The following regulations apply to the Educational Opportunity Centers Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(2) The regulations in this Part 154.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e–3(a)(1))

76. Section 154.5 is amended by revising the introductory text to paragraph (a) and (b) and deleting paragraphs (a)(3)–(6), (b) and (c) as follows:

§ 154.5 Applications.

(a) Applications must include the following:

* * * * *

(3) (Deleted)
(4) (Deleted)
(5) (Deleted)
(6) (Deleted)

* * * * *

(b) (Deleted)
(c) (Deleted)

PART 155—UPWARD BOUND PROGRAM

§ 155.12 [Revoked]

§§ 155.1, 155.2, 155.6 [Amended]

77. The following text is revoked: §§ 155.1(b); 155.2(f); 155.6(b); and 155.12.

78. A new § 155.1–1 is added to read as follows:

§ 155.1–1 Regulations that apply to the Upward Bound Program.

(a) *Regulations.* The following regulations apply to the Upward Bound Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR part 100a (Direct Grant Programs) and Part 100c (Definitions).

(2) The regulations in this Part 155.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e–3(a)(1))

79. Section 155.5 is amended by revising paragraph (e)(3) and by deleting paragraph (e)(4) as follows:

§ 155.5 Summer residential, academic year, and veterans components.

* * * * *

(e) * * *
(3) Engage a full-time project director.
(4) (Deleted)

* * * * *

80. Paragraph (a) of § 155.7 is amended by deleting paragraphs (a)(2)(iv), (a)(3)(iii) and (iv), (a)(4) and (b) as follows:

§ 155.7 Applications.

(a) * * *
(2) * * *
(iv) (Deleted)
(3) * * *
(iii) (Deleted)
(iv) (Deleted)
(4) (Deleted)
(b) (Deleted)

* * * * *

81. Section 155.9 is amended by revising paragraph (a)(3) and by revoking paragraphs (a)(4) and (5), to read as follows:

§ 155.9 Program requirements.

(a) * * *
(3) Engage a full-time project director;
(4) (Deleted)
(5) (Deleted)

* * * * *

82. Section 155.11 is amended by revising the introductory text to paragraph (a) and by deleting paragraphs (b)(1) and (c), as follows:

§ 155.11 Allowable costs-stipends.

(a) Allowable project costs may include:

* * * * *

(b) * * *
(1) (Deleted)

* * * * *

(c) (Deleted)

* * * * *

83. Section 155.14 is amended by revising the introductory text to read as follows:

§ 155.14 Travel.

The following travel is authorized:

* * * * *

84. Section 155.15 is amended by revising the introductory text to read as follows:

§ 155.15 Coordination of administration with other programs authorized by Title IV–A–4 of the Act.

In addition to the requirements in 45 CFR 100a.580 and 155.9, if an aplicant also requests funds to carry out one or more of the programs authorized by Title IV–A–4 of the Act, the application must reflect the following:

* * * * *

PART 156—ASSISTANCE TO STATES FOR STATE EQUALIZATION PLANS [REVOKED]

85. Part 156 is revoked.

PART 157—SPECIAL SERVICES FOR DISADVANTAGED STUDENTS PROGRAM

§ 157.12 [Revoked]

§§ 157.1, 157.2, 157.4 [Amended]

86. The following text is revoked: §§ 157.1(b); 157.2(m); 157.4(b) and (c); and 157.12.

87. A new § 157.1–1 is added to read as follows:

§ 157.1–1 Regulations that apply to the Special Services for Disadvantaged Students Program.

(a) *Regulations.* The following regulations apply to the Special Services for Disadvantaged Students Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(2) The regulations in this Part 157.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e–3(a)(1))

88. Section 157.5 is amended by revising the introductory text of paragraph (a), by revising paragraph (a)(3)(v), and by deleting paragraphs

(a)(2)(iii), (a)(3)(i), (a)(3)(vii), (a)(4) and (b) as follows:

§ 157.5 Applications.

(a) An application must contain the following information:

* * * * *

(2) * * *

(iii) (Deleted)

(3) * * *

(i) (Deleted)

* * * * *

(v) A description of the manner in which the applicant will orient the faculty and staff of the institution to the goals and objectives of the Special Services program;

* * * * *

(vii) (Deleted)

(4) (Deleted)

(b) (Deleted)

* * * * *

89. Section 157.7 is amended by revoking paragraphs (a)(5) and (b)(7), and by revising paragraph (b)(6), to read as follows:

§ 157.7 Program requirements.

(a) * * *

(5) (Deleted)

* * * * *

(b) * * *

(6) Engage a full-time project director;

(7) (Deleted)

* * * * *

90. Section 157.11 is amended by revising the introductory text to paragraph (a) and deleting paragraphs (b)(2) and (c), to read as follows:

§ 157.11 Allowable costs.

(a) Allowable project costs may include the following:

* * * * *

(2) (Deleted)

* * * * *

(c) (Deleted)

91. Section 157.14 is amended by revising the introductory text, to read as follows:

§ 157.14 Travel.

The folllowing travel is authorized:

* * * * *

92. Section 157.15 is amended by revising the introductory text, to read as follows:

§ 157.15 Coordination of administration with other programs authorized by Title IV-A-4 of the Act.

In addition to the requirements in 45 CFR 100a.580 and 157.7, if an applicant under this part also requests funds to carry out one or more of the programs authorized by Title IV-A-4 of the Act, the application must reflect the following:

* * * * *

PART 158—FOLLOW THROUGH PROGRAM

§§ 158.29, 158.30, 158.43, 158.64, 158.66, 158.85 [Revoked]

§§ 158.2, 158.12, 158.13, 158.24 [Amended]

93. The following text is revoked: The definitions of "Local educational agency," "State," and "State educational agency" in § 158.2; §§ 158.12(d); 158.13(b); 158.24(a); 158.29; 158.30; 158.43; 158.64 (the last sentence only); 158.66; and 158.85.

94. A new § 158.4 is added to read as follows:

§ 158.4 Regulations that apply to the Follow Through Program.

(a) *Regulations.* The following regulations apply to the Follow Through Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(2) The regulations in this Part 158.

(b) *Exceptions to EDGAR.* An applicant for a continuation award under the Follow Through Program shall submit, in addition to the information required by EDGAR 45 CFR 100a.118, information that addresses each selection criterion that applies to the program.

(c) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e-3(a)(1))

95. Section 158.24 is amended by revising the introductory text to paragraph (b) and deleting paragraph (a) as follows:

§ 158.24 Evaluation of program effectiveness.

(a) (Deleted)

(b) *Standards for evaluation.* In evaluating the effectiveness of the Follow Through Program, the Commissioner uses standards such as the following:

* * * * *

96. Section 158.84 is revised to read as follows:

§ 158.84 Suspension; refusal to refund.

(a) The Commissioner only suspends assistance under this program in an emergency. An emergency exists if there is evidence of flagrant misuse of funds by a recipient, or evidence of unauthorized activity by the recipient that poses a threat of harm to children participating in the program. (See 45 CFR Part 100e for the procedures of the Education Appeal Board.)

(b) The Commissioner does not deny applications for refunding under this part unless the applicant has been given reasonable notice and opportunity to show cause why this action should not be taken.

PART 159—TALENT SEARCH PROGRAM

§ 159.12 [Revoked]

§§ 159.1, 159.2, 159.5 [Amended]

97. The following text is revoked; §§ 159.1(b); 159.2(j); 159.5(b); and 159.12.

98. A new § 159.1-1 is added to read as follows:

§ 159.1-1 Regulations that apply to the Talent Search Program.

(a) *Regulations.* The following regulations apply to the Talent Search Program—

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(2) The regulations in this Part 159.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e-3(a)(1))

99. Section 159.6 is amended by revising the introductory text to paragraph (a) and by revoking paragraphs (a)(2)(iii), (a)(3) (iii) and (iv), (a)(4), and (b), to read as follows:

§ 159.6 Applications.

(a) An application under this part must provide the following information:

* * * * *

(2) * * *

(iii) (Deleted)

(3) * * *

(iii) (Deleted)

(iv) (Deleted)

(4) (Deleted)

(b) (Deleted)

* * * * *

100. Section 159.9 is amended by revising paragraph (b)(6) and by revoking paragraphs (b) (7) and (8), to read as follows:

§ 159.9 Project activities and services-project requirements.

* * * * *

(b) * * *

(6) Engage a full-time project director.

(7) (Deleted)

(8) (Deleted)

* * * * *

101. Section 159.11 is amended by revising the introductory text to paragraph (a) and by revoking paragraphs (b)(5) and (c), to read of follows:

§ 159.11 Allowable costs.

(a) Allowable project costs may include:

* * * * *

(b) * * *

(5) (Deleted)

* * * * *

(c) (Deleted)

102. Section 159.14 is amended by revising the introductory text as follows:

§ 159.14 Travel.

The following travel is authorized:

* * * * *

103. Section 159.15 is amended by revising the introductory text, to read as follows:

§ 159.15 Coordination of administration with other programs authorized by Title IV-A-4 of the Act.

In addition to the requirements in 45 CFR 100a.580 and § 159.9, if an applicant under this part requests funds to carry out one or more of the programs authorized by Title IV–A–4 of the Act, the application must reflect the following:

* * * * *

PART 160d—CAREER EDUCATION PROGRAM [REVOKED]

104. Part 160d is revoked.

PART 161—CAREER EDUCATION, STATE ALLOTMENT PROGRAM

105. Section 161.3 is amended by revising the term "State," to read as follows:

§ 161.3 Definitions.

* * * * *

"State" means any one of the 50 States of the United States, the District of Columbia, or the Commonwealth of Puerto Rico. The definition of "State" in 45 CFR Part 100c of EDGAR does not apply to this program.

106. Section 161.4 is revised to read as follows:

§ 161.4 Regulations that apply to the State Allotment Program.

(a) *Regulations.* The following regulations apply to the State Allotment Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(2) The regulations in this Part 161.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 2301 *et seq.*)

§ 161.41 [Amended]

107. Section 161.41 is amended by deleting "§ 100b.633" and substituting in its place "§ 100b.662."

PART 161a—CAREER EDUCATION, DISCRETIONARY PROGRAMS

§ 161a.3 [Amended]

108. Section 161a.3(b) is revoked.

PART 164—CAPACITY-BUILDING FOR STATISTICAL ACTIVITIES IN STATE AGENCIES

109. The title of Part 164 is revised to read as above.

§§ 164.06, 164.08, 164.09 [Revoked]

§§164.01, 164.05, 164.07 [Amended]

110. The following text of Part 164 is revoked: §§ 164.01(b); 164.05(a) and (c); 164.06; 164.07(b) (last sentence only) and (d); 164.08; 164.09.

111. A new § 164.01–1 is added to read as follows:

§ 164.01-1 Regulations that apply to this program.

(a) *Regulations.* The following regulations apply to the Capacity-Building Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions);

(2) The regulations in this Part 164.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e–3(a)(1))

112. Section 164.02 is revised to read as follows:

§ 164.02 Purpose of the Capacity-Building Program.

The purpose of this program is to build the statistical capabilities of State agencies by facilitating improvements or automation in their statistical systems.

113. Section 164.03 is amended by revising the introductory text and by deleting the definitions of "State" and "State educational agency" and by adding a definition of "State agency," as follows:

§ 164.03 Definitions.

The following definitions apply to terms used in these regulations:

* * * * *

"State" (Deleted)

"State agency" means—

(a) A State educational agency;

(b) A State agency listed in the appendix to these regulations with statewide responsibility for postsecondary education or, if there is no agency for that purpose, an officer or agency designated by the Governor or by State law; or

(c) The State board or agency designated or established as the sole State agency responsible for the administration, or for the supervision of the administration, of programs authorized by Part A, Title I of the Vocational Education Act of 1963, as amended by Pub. L. 94–482.

"State educational agency" (Deleted)

* * * * *

§§ 164.04, 164.05, and 164.07 [Amended]

114. The following sections are amended by deleting the term "State educational agency" and by inserting instead of that term, the term "State agency": §§ 164.04(a); 164.05(b); and 164.07(a), (b) and (c).

PART 168—GENERAL PROVISIONS RELATING TO STUDENT ASSISTANCE PROGRAMS

§ 168.72 [Amended]

115. Section 168.72 is amended by revoking the definition of "Commissioner."

PART 169—STRENGTHENING DEVELOPING INSTITUTIONS PROGRAM

§§ 169.2, 169.22, 169.51, 169.54 [Amended]

116. The following text is revoked: the definitions of "Applicant," "Commissioner," "Public," and "State" in §§ 169.2; 169.22(b)(2) (ii) and (iii); 169.51 (2d sentence only); and 169.54(c).

117. Section 169.5 is revised to read as follows:

§ 169.5 Regulations that apply to the Strenthening Developing Institutions Program.

(a) *Regulations.* The following regulations apply to the Strengthening Developing Institutions Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions)

(2) The regulations in this Part 169.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e-3(a)(1))

118. Section 169.32 is amended by revoking the introductory text in paragraph (b), by revoking paragraph (b)(3), and by redesignating paragraph (b) (1) and (2) as paragraphs (b) and (c), as follows:

§ 169.32 Allowable costs.

* * * * *

(b) The grantee may not charge indirect costs to the grant.

(c) The purchase of equipment is limited to equipment that is necessary to achieve program objectives.

(20 U.S.C. 1054)

119. Section 169.41 is amended by deleting paragraph (a) and revising paragraph (b) to read as follows:

§ 169.41 Submission of applications.

(a) (Deleted)

(b) An applicant shall include in its application a long-range plan in as much detail as is necessary for the Commissioner to judge proposed activities, appropriate length of funding, and resources needed. An application submitted for funds appropriated for any fiscal year after fiscal year 1979 must specifically include in the long-range plan—

(1) Long- and short-range goals;

(2) Planned activities;

(3) Criteria for measuring progress;

(4) Time schedules;

(5) Resources needed; and

(6) Procedures to be used to monitor progress of the proposed Title III activities against the plan. However, an applicant need not submit a long-range plan if the applicant is seeking funding for planning activities only.

(20 U.S.C. 1051, 1054)

PART 172—TEACHER CORPS

§§ 172.110, 172.127, 172.128, 172.134, 172.136, 172.137 [Revoked]

§§ 172.3, 172.112, 172.132, 172.135 [Amended]

120. The following text is revoked: § 172.1(b); the definitions of "Local educational agency," "State," and "State educational agency" in §§ 172.3; 172.110; 172.112(b); 172.127; 172.128; 172.132 (e) and (f); 172.134; 172.135(b); 172.136; and 172.137.

121. A new § 172.4 is added to read as follows:

§ 172.4 Regulations that apply to the Teacher Corps Program.

(a) *Regulations.* The following regulations apply to the Teacher Corps Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(2) The regulations in this Part 172.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e-3(a)(1))

122. Section 172.30 is amended by revising paragraph (a) to read as follows:

§ 172.30 Project duration.

(a) Each application may be for up to a five-year project period.

* * * * *

PART 173—COMMUNITY SERVICE AND CONTINUING EDUCATION PROGRAMS

§§ 173.2, 173.14, 173.15, 173.16, 173.17, 173.18 173.19, 173.46 [Revoked]

§§ 173.13, 173.21 [Amended]

123. The following text is revoked: §§ 173.2; 173.13(a), (b), (d), and (e); 173.14; 173.15; 173.16; 173.17; 173.18; 173.19; 173.21(a)(2) and (b); and 173.46.

124. A new § 173.9 is added to subpart B, to read as follows:

§ 173.9 Regulations that apply to the State grant program.

(a) *Regulations.* The following regulations apply to the State grant program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100b (State-Administered Programs) and Part 100c (Definitions).

(2) The regulations in this Subpart B.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e-3(a)(1))

125. A new § 173.39 is added to Subpart C, to read as follows:

§ 173.39 Regulations that apply to special programs and projects.

(a) *Regulations.* The following regulations apply to special programs and projects:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(2) The regulations in this Subpart C.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e-3(a)(1))

126. Section 173.44 is revised as follows:

§ 173.44 Application requirements

An application must state—

(a) The applicant's share of the total project cost, which may not be less than 10 percent; and

(b) Assurances that the designated State agency that administers the State grant program under Title I-A has had an opportunity to review and comment on the proposed application.

(20 U.S.C. 1005a(b); S. Rept. No. 92-346 at 10 (1971))

PART 174—NATIONAL DIRECT STUDENT LOAN PROGRAM

§ 174.2 [Amended]

127. Section 174.2 is amended by revoking the following definitions: "Commissioner," "Nonprofit institution," and "State."

PART 175—COLLEGE WORK-STUDY AND JOB LOCATION AND DEVELOPMENT PROGRAM

§ 175.2 [Amended]

128. Section 175.2 is amended by revoking the definitions of "Commissioner," "Nonprofit institutions," and "State."

PART 176—SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANT PROGRAM

§ 176.2 [Amended]

129. Section 176.2 is amended by revoking the definitions of "Commissioner," "Nonprofit institutions," and "State."

PART 177—FEDERAL, STATE, AND PRIVATE PROGRAMS OF LOW-INTEREST LOANS TO VOCATIONAL STUDENTS AND STUDENTS IN INSTITUTIONS OF HIGHER EDUCATION

§ 177.1 [Amended]

130. Section 177.1 is amended by revoking paragraph (q).

PART 178—STUDENT CONSUMER INFORMATION SERVICES

§ 178.7 [Amended]

131. Section 178.7 is amended by revoking paragraph(a).

PART 178a—INCENTIVE GRANTS FOR STATE STUDENT FINANCIAL ASSISTANCE TRAINING PROGRAM

§§ 178a.7, 178a.10 [Revoked]

§§ 178a.1, 178a.2 [Amended]

132. The following text is revoked: § 178a.1(b); the definition of "State" in §§ 178a.2; 178a.7; and 178a.10.

133. A new § 178a.1–1 is added to read as follows:

§ 178a.1–1 Regulations that apply to the Incentive Grants for State Student Financial Assistance Training Program.

(a) *Regulations.* The following regulations apply to the Incentive Grants for State Student Financial Assistance Training Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100b (State-Administered Programs) and Part 100c (Definitions).

(2) The regulations in this Part 178a.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e–3(a)(1))

PART 179—GRADUATE AND PROFESSIONAL STUDY FELLOWSHIPS AND INSTITUTIONAL GRANTS

§§ 179.27, 179.28 [Revoked]

§§ 179.3, 179.4, 179.23, 179.25 [Amended]

134. The following text is revoked: §§ 179.3(i); 179.4(c); 179.23(c); 179.25 (c) and (d); 179.27; and 179.28.

135. A new § 179.20 is added to Subpart B, to read as follows:

§ 179.20 Regulations that apply to the Institutional Grants Program.

(a) *Regulations.* The following regulations apply to the Institutional Grants Programs:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(2) The regulations in this Subpart B.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e–3(a)(1))

136. Section 179.53 is amended by revising paragraph (a) to read as follows:

§ 179.53 Records and reports.

(a) Each institution of higher education that receives an allocation of fellowships under this part shall make the reports that are required by 45 CFR 74.82

* * * * *

PART 180—DESEGREGATION OF PUBLIC EDUCATION

§§ 180.03, 180.16, 180.34, 180.54, 180.63 [Revoked]

§§ 180.20, 180.57, 180.65, 180.73 [Amended]

137. The following text is revoked: the definition of "State educational agency" in §§ 180.03; 180.16; 180.20(c); 180.34; 180.54; 180.57(b); 180.63; 180.65(b); and 180.73(b) (3), (5), and (6).

138. Section 180.01 is revised to read as follows:

§ 180.01 Purpose.

The purpose of awards under this part is to help solve problems related to the race, sex, and national origin desegregation of public elementary and secondary schools.

(42 U.S.C. 2000c–2000c–5)

139. Section 180.02 is revised to read as follows:

§ 180.02 Regulations that apply to the Desegregation of Public Education program.

(a) The regulations in this Part 180 govern grants under the Desegregation of Public Education program.

(b) Awards under this program are subject to the Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(c) 45 CFR 100a.219(a) and 100a.220, relating to the selection of certain projects for funding without competition do not apply to any award under this program.

(d) The following provisions of EDGAR do not apply to Race, Sex, and National Origin Desegregation Assistance Centers under Subpart C:

(1) 45 CFR 100a.250(a), 100a.253 (a), (b) and (d), and 100a.254(a), relating to approval of continuation awards.

(2) Section 100a.232(b) and 100a.233, relating to the amount of a grant.

(e) The provisions of 45 CFR 100a.217 and 100a.219(c) of EDGAR, relating to the selection of projects, do not apply to Special Grants to School Boards for Race and National Origin Desegregation under Subpart F.

(20 U.S.C. 1221e–3(a)(1); 42 U.S.C. 2000c–2000c–5)

PART 182—COOPERATIVE EDUCATION PROGRAMS

§§ 182.5, 182.6, 182.13, 182.34 [Revoked]

§§ 182.18, 182.19 [Amended]

140. The following text is revoked: §§ 182.5; 182.6; 182.13; 182.18(a)(3) and (b); 182.19 (a), (c), (d), and (e); and 182.34.

141. Section 182.4 is revised to read as follows:

§ 182.4 Regulations that apply to the Cooperative Education Programs.

(a) *Regulations.* The following regulations apply to the Cooperative Education Programs:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(2) The regulations in this Part 182.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e-3(a)(1))

PART 182a—NATIONAL ALCOHOL AND DRUG ABUSE PREVENTION PROGRAM

§§ 182a.1, 182a.2, 182a.13, 182a.13, 182a.23, 182a.24 [Amended]

142. The following text is revoked: §§ 182a.1(d); 182a.2 (e) and (f); 182a.13 (a) and (c)(2) and (3); 182a.23(a); and 182a.24(b).

143. A new § 182a.1–1 is added to read as follows:

§ 182a.1–1 Regulations that apply to the National Alcohol and Drug Abuse Prevention Program.

(a) *Regulations.* The following regulations apply to the National Alcohol and Drug Abuse Prevention Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(2) The regulations in this Part 182a.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e-3(a)(1))

144. Section 182a.13 is amended by revising paragraph (d) to read as follows:

§ 182a.13 Application requirements.

* * * * *

(d) An applicant local educational agency shall give its State educational agency an opportunity to comment on its application.

(21 U.S.C. 1002)

145. Section 182a.24 is amended by revising the introductory text to paragraph (a) to read as follows:

§ 182a.24 Application requirements.

(a) An application must contain the following information:

* * * * *

PART 189—VETERANS' COST-OF-INSTRUCTION PAYMENTS TO INSTITUTIONS OF HIGHER EDUCATION

§§ 189.4, 189.31, 189.32, 189.33, 189.34, 189.35 [Revoked]

§§ 189.1, 189.21 [Amended]

146. The following text is revoked: the definition of "State" in §§ 189.1; 189.4; 189.21(a); 189.31; 189.32; 189.33; 189.34; and 189.35.

147. A new § 189.1–1 is added to read as follows:

§ 189.1–1 Regulations that apply to the Veterans' Cost-of-Instruction Payments to Institutions of Higher Education Program.

(a) *Regulations.* The following regulations apply to the Veterans' Cost-of-Instruction Payments to Institutions of Higher Education Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(2) The regulations in this Part 189.

(b) The selection criteria in EDGAR, 45 CFR 100a.202–100a.206, do not apply to this program.

(c) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e-3(a)(1))

148. Section 189.21 is amended by revising the introductory text to paragraph (b) and by deleting paragraph (b)(3) as follows:

§ 189.21 Submission of application by individual institutions.

* * * * *

(b) An application must contain the following:

* * * * *

(3) (Deleted)

* * * * *

149. Section 189.22 is revised to read as follows:

§ 189.22 Submission of applications by parties to consortium agreements.

Each institution proposing to carry out the activities required under this part through a consortium agreement, under § 189.15, shall provide all information and assurances required under § 189.21, as well as information and assurances necessary to a finding by the Commissioner that the conditions for a consortium agreement in § 189.15 have been met.

(20 U.S.C. 1070e–1)

PART 190—BASIC EDUCATIONAL OPPORTUNITY GRANT PROGRAM

§ 190.2 [Amended]

150. The following definitions in § 190.2 are revoked: "Commissioner," "Nonprofit institution," and "State."

PART 191—GUIDANCE AND COUNSELING

§§ 191.34, 191.36, 191.46, 191.47, 191.48 [Revoked]

§§ 191.12, 191.25, 191.35 [Amended]

151. The following text is revoked: §§ 191.12(c), (f), (g), (h), (i), (j), and (m); 191.25(b); 191.34; 191.35(a); 191.36; 191.46; 191.47; and 191.48.

152. Section 191.10 is revised to read as follows:

§ 191.10 Regulations that apply to the Guidance and Counseling Program.

(a) *Regulations.* The following regulations apply to the Guidance and Counseling Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(2) The regulations in this Part 191.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e–3(a)(1))

153. Section 191.31 is amended by revising the introductory text and paragraph (a), (c)(1)(i), and (iii) and by deleting (b), (c)(1)(ii), (v)–(x) and (c)(3) as follows:

§ 191.31 Content of application.

An application must include—

(a) Identification of the purpose and the type of activity—such as training or improved supervisory services—to which the application is addressed;

(b) [Deleted]

(c)(1)(i) A description of the needs of prospective participants for the project, in relation to the needs of students served by these participants, and a description of how the needs were determined;

(ii) [Deleted]

(iii) Information on the size, scope, and duration of the proposed project;

* * * * *

(v) [Deleted]

(vi) [Deleted]

(vii) [Deleted]

(viii) [Deleted]

(ix) [Deleted]

(x) [Deleted]

* * * * *

(3) [Deleted]

154. Section 191.32 is revised to read as follows:

§ 191.32 State review of application.

Each applicant under this subpart must give an opportunity to comment on its application to the State educational agency of each State in which is located the agency or organization to be served under a project for improving supervisory services or in which the prospective trainees are employed, as applicable.

(20 U.S.C. 2533(a)(3), 2534(a))

155. Section 191.44 is amended by revising the introductory text, paragraph (b)(1)(i) and by deleting paragraphs (a), (b)(1)(ii)–(iii), (v)–(ix) and (b)(2) as follows:

§ 191.44 Required application data.

An application must include—

(a) [Deleted]

(b)(1)(i) A description of the needs to be met by the proposed plan; e.g., the need to reduce duplication of efforts in guidance and counseling in the State;

(ii) [Deleted]

(iii) [Deleted]

(iv) * * *

(v) [Deleted]

(vi) [Deleted]

(vii) [Deleted]

(viii) [Deleted]

(ix) [Deleted]

(2) [Deleted]

PART 192—STATE STUDENT INCENTIVE GRANT PROGRAM

§§ 192.11, 192.12 [Revoked]

§§ 192.2, 192.3, 192.10 [Amended]

156. The following text is revoked: the definitions of "Nonprofit" and "State" in §§ 192.2; 192.3(b), (c), (g), and (i); 192.10(b); 192.11; and 192.12.

157. A new § 192.1–1 is added to read as follows:

§ 192.1–1 Regulations that apply to the State Student Incentive Grant Program.

(a) *Regulations.* The following regulations apply to the State Student Incentive Grant Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100b (State-Administered Programs) and Part 100c (Definitions).

(2) The regulations in this Part 192.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e–3(a)(1))

PART 194—PUBLIC SERVICE EDUCATION PROGRAM

§§ 194.1, 194.5, 194.7 [Revoked]

158. The following text is revoked: the definition of "Project" in §§ 194.1; 194.5(a) and (c); and 194.7(c) and (d).

159. Section 194.2 is revised to read as follows:

§ 194.2 Regulations that apply to the Public Service Institutional Grants Program.

(a) *Regulations.* The following regulations apply to the Public Service Institutional Grants Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(2) The regulations in this Subpart A.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e–3(a)(1))

160. A new § 194.20 is added to Subpart B, to read as follows:

§ 194.20 Regulations that apply to the Public Services Fellowships Program.

The following regulations apply to the Public Services Fellowships Program:

(a) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100c (Definitions).

(b) The regulations in this Subpart B.

(20 U.S.C. 1221e–3(a)(1))

PART 196—DOMESTIC MINING AND MINERAL AND MINERAL FUEL CONSERVATION FELLOWSHIPS

161. A new § 196.1–1 is added to read as follows:

§ 196.1–1 Regulations that apply to the Domestic Mining and Mineral and Mineral Fuel Conservation Fellowships Program.

(a) *Regulations.* The following regulations apply to the Domestic Mining and Mineral and Mineral Fuel Conservation Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100c (Definitions).

(2) The regulations in this Part 196.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Divison programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e–3(a)(1))

PART 197—TEACHER CENTERS PROGRAM

§ 197.7 [Revoked]

§§ 197.1, 197.2, 197.8, 197.9 [Amended]

162. The following text is revoked: §§ 197.1(a); the definitions of "Local educational agency," "Non-public school," and "State educational agency" in §§ 197.2; 197.7; 197.8(a)(1), (2), (3), and (6) and (b); the 1st sentence in 197.9; and 197.9(a)(4) and (5)(ii).

163. A new § 197.1–1 is added to read as follows:

§ 197.1–1 Regulations that apply to the Teacher Centers Program.

(a) *Regulations.* The following regulations apply to the Teacher Centers Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(2) The regulations in this Part 197.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e–3(a)(1))

PART 198—TRAINING FOR HIGHER EDUCATION PERSONNEL

§ 198.8 [Revoked]

§§ 198.1, 198.4, 198.6 [Amended]

164. The following text is revoked: §§ 198.1(a); 198.4(a)(2) and (b)(3); the 1st sentence in 198.6 and 198.6(c); and 198.8.

165. A new § 198.1–1 is added to read as follows:

§ 198.1–1 Regulations that apply to the Training for Higher Education Personnel Program.

(a) *Regulations.* The following regulations apply to the Training for Higher Education Personnel Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(2) The regulations in this Part 198.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e-3(a)(1))

PART 199a—STATE POSTSECONDARY EDUCATION

166. Section 199a.3 is revised to read as follows:

§ 199a.3 Regulations that apply to the State Postsecondary Education Program.

(a) *Regulations.* The following regulations apply to the State Postsecondary Education Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100b (State Administered Programs) and Part 100c (Definitions).

(2) The regulations in this Part 199a.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division Programs" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e-3(a)(1))

PART 1400—GENERAL

§§ 1400.4, 1400.5 [Revoked]

§ 1400.3 [Amended]

167. The following text is revoked: §§ 1400.3(b); 1400.4; and 1400.5.

168. Section 1400.1 is revised to read as follows:

§ 1400.1 Definitions.

As used in this chapter—"Council" means the National Council on Educational Research; "Director" means the Director of the National Institute of Education.

"Educational research" means research (basic and applied), planning, surveys, evaluations, investigations, experiments, developments, and demonstrations in the field of education (including career education).

"Institute" means the National Institute of Education.

169. Section 1400.2 is revised to read as follows:

§ 1400.2 Regulations that apply to programs of the National Institute of Education.

(a) *Regulations.* The following regulations apply to programs of the National Institute of Education:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(2) The regulations in this Chapter XIV.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e-3(a)(1))

PART 1403—ELIGIBILITY AND APPLICATION FOR RESEARCH GRANT ASSISTANCE

§§ 1403.1, 1403.4, 1403.5, 1403.7, 1403.9, 1403.11, 1403.13, and 1403.15 [Revoked]

§ 1403.10 [Amended]

170. The following text is revoked: §§ 1403.1; 1403.4; 1403.5; 1403.7; 1403.9; 1403.10(a); 1403.11; 1403.13; and 1403.15.

171. Section 1403.2 is revised to read as follows:

§ 1403.2 Eligibility for award.

(a) *Persons eligible.* Except as otherwise prohibited by law, any individual and any public or nonprofit private organization, institution, or agency found by the Director to be authorized and qualified by educational, scientific, or other relevant competence to carry out a proposed research project shall be eligible for an award.

(b)(1) *Projects eligible.* Any project found by the Director to be an educational research project within the meaning of § 1400.1 of this subchapter shall be eligible for an award.

(2) An eligible project may include planning, laboratory, clinical, population, field, statistical, basic, applied or other type of investigation, study, or experiment, dissemination, use, application, implementation, training, development or demonstration, or combinations of those.

(3) An eligible project may either—

(i) Be limited to one—or a particular aspect of a—problem or subject; or

(ii) Consist of two or more related problems or subjects for concurrent or consecutive investigation and involving multiple disciplines, facilities, and resources.

PART 1405—FEDERAL FINANCIAL PARTICIPATION [REVOKED]

172. Part 1405 is revoked.

PART 1407—COST SHARING [REVOKED]

173. Part 1407 is revoked.

PART 1409—GRANT RELATED INCOME [REVOKED]

174. Part 1409 is revoked.

PART 1410—MISCELLANEOUS REQUIREMENTS

§§ 1410.1, 1410.2, 1410.3, 1410.10, 1410.14, 1410.15, 1410.16, 1410.19, 1410.21 [Revoked]

175. The following text is revoked: §§ 1410.1; 1410.2; 1410.3; 1410.10; 1410.14; 1410.15; 1410.16; 1410.19; and 1410.21.

176. Section 1410.7 is revised to read as follows:

§ 1410.7 Principal investigators.

(a) All grants shall be subject to the condition that the principal investigator(s) designated in the application as responsible for the conduct of the approved project shall continue to be responsible for the duration of the project period.

(b) When an investigator referred to in paragraph (a) of this section is absent for three months or longer or otherwise becomes unavailable to discharge this responsibility, the Director may terminate the grant, unless the grantee replaces the investigator with another person found by the Director to be qualified to direct and conduct the approved project.

PART 1412—MONITORING AND REPORTING PERFORMANCE [REVOKED]

177. Part 1412 is revoked.

PART 1414—PROCUREMENT STANDARDS FOR GRANTEES [REVOKED]

178. Part 1414 is revoked.

PART 1415—PROPERTY MANAGEMENT STANDARDS [REVOKED]

179. Part 1415 is revoked.

PART 1417—FINANCIAL MANAGEMENT STANDARDS [REVOKED]

180. Part 1417 is revoked.

PART 1419—FINANCIAL REPORTING REQUIREMENTS [REVOKED]

181. Part 1419 is revoked.

PART 1420—BONDING AND INSURANCE [REVOKED]

182. Part 1420 is revoked.

PART 1422—CONSTRUCTION [REVOKED]

183. Part 1422 is revoked.

PART 1424—ACCOUNTABILITY FOR FEDERAL FUNDS [REVOKED]

184. Part 1424 is revoked.

PART 1430—EXPERIMENTAL PROGRAM FOR OPPORTUNITIES IN ADVANCED STUDY AND RESEARCH IN EDUCATION

§§ 1430.9, 1430.11, 1430.13 [Revoked]

§§ 1430.4, 1430.6 [Amended]

185. The following text is revoked: §§ 1430.4(b); 1430.6(g); 1430.9; 1430.11; and 1430.13.

186. Section 1430.1 is revised to read as follows:

§ 1430.1 Regulations that apply to the Experimental Program for Opportunities in Advanced Study and Research in Education.

(a) *Regulations.* The following regulations apply to the Experimental Program for Opportunities in Advance Study and Research in Education:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(2) The general provisions for NIE grants in 45 CFR Parts 1400–1410.

(3) The regulations in this Part 1430.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e–3(a)(1))

187. Section 1430.12 is amended by revoking paragraphs (a), (b), and (c) and by revising the introductory text to paragraph (d), to read as follows:

§ 1430.12 Allowable costs.

(a) (Deleted)

(b) (Deleted)

(c) (Deleted)

(d) Allowable costs include—

(1) (Deleted)

(2) (Deleted)

* * * * *

PART 1450—RESEARCH GRANTS PROGRAM

§ 1450.8 [Revoked]

§ 1450.4 [Amended]

188. The following text is revoked: §§ 1450.4 (2nd sentence only) and 1450.8.

189. Section 1450.1 is revised to read as follows:

§ 1450.1 Regulations that apply to the Research Grants Program.

(a) *Regulations.* The following regulations apply to the Research Grants Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(2) The general provisions for NIE grants in 45 CFR Parts 1400–1410.

(3) The regulations in this Part 1450.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e–3(a)(1))

190. Section 1450.5 is amended by revising paragraphs (a)(1), (b), and (c) and removing paragraph (a)(2) to read as follows:

§ 1450.5 Applications.

(a) * * *

(1) *Preapplication.* (i) The applicant shall submit a preapplication for initial review. Only preapplications prepared according to the format described in paragraphs (b) or (c) of this section will be accepted at this initial stage; other submissions will be returned to the applicant.

(ii) No more than one preapplication per individual will be accepted. Although an institutional applicant may submit more than one preapplication, no more than one preapplication per each principal investigator will be considered. In the event that more than one preapplication per individual or principal investigator is received, the preapplication received earlier will be accepted, and subsequent preapplications will be returned to the applicant.

(2) (Deleted)

(b) *Preapplication format.* With respect to applicants other than State and local governments, the preapplication shall include the following:

(1) A cover sheet completed by the principal investigator indicating—

(i) That the preapplication is submitted to the Research Grants Program of the National Institute of Education;

(ii) The title of the study;

(iii) The category of study under which the applicant believes the project should be reviewed as described in § 1450.6(a);

(iv) The name(s), department, institution, address, and telephone number of the principal investigator(s);

(v) The estimated budget amount; and

(vi) The proposed duration and starting date of the project.

(2) A statement of from three to five double-spaced, typewritten pages summarizing the proposed project, including—

(i) *Description and rationale.* A description of the proposed research, its relation to what is already known and to the problems of American education, and the importance of the expected addition to knowledge; and

(ii) *Procedures.* A description of the procedures to be followed in carrying out the research, including, if appropriate, such concerns as sampling, data acquisition, instrumentation, and data analysis.

(3) A description of facilities and arrangements available to the investigator for conducting the research.

(4) Resume(s) of principal investigator(s), including education, applicable experience, and a list of major publications.

(5) An estimated budget covering direct costs (salaries and benefits, travel, supplies and materials, communication, services, equipment) and indirect costs proposed to be charged against the grant.

(c) *Government preapplications.* Preapplications from governments are subject to the requirements in Subpart N of 45 CFR Part 74.

191. Section 1450.6(a) and (b) is revised to read as follows:

§ 1450.6 Review of applications.

(a) *Review categories.* To facilitate and improve the quality of review of applications by the National Institute of Education, each preapplication and invited full proposal received will be assigned to one of the following categories and will be reviewed together with other applications within the same category:

(1) Learning and instruction.

(2) Human development.

(3) Objectives, measurement, evaluation, and research methodology.

(4) Social thought and processes.

(5) Organization and administration.

(6) Anthropology.

(7) Economics.

(8) Political science.

(9) Legal research.

(b) *Selected issues.* The Institute may periodically identify selected issues of particular significance for American education that will serve as conditions of eligibility or with respect to which priority funding consideration will be given.

* * * * *

§ 1450.7 [Amended]

192. Section 1450.7(b) is amended by deleting the word "prospectus" and

inserting, instead, the word "preapplication."

PART 1451—BASIC SKILLS RESEARCH GRANTS PROGRAM

§§ 1451.7, 1451.8 [Revoked]

§ 1451.4 [Amended]

193. The following text is revoked: §§ 1451.4 (a) and (b) (2nd and 3rd sentences only); 1451.7; and 1451.8.

194. Section 1451.1 is revised to read as follows:

§ 1451.1 Regulations that apply to the Basic Skills Research Grants Program.

(a) *Regulations.* The following regulations apply to the Basic Skills Research Grants Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(2) The general provisions for NIE grants in 45 CFR Parts 1400–1410.

(3) The regulations in this Part 1451.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e–3(a)(1))

PART 1460—STATE DISSEMINATION GRANTS PROGRAM

§ 1460.3 [Amended]

195. The definition of "State educational agency" in § 1460.3 is revoked.

196. Section 1460.1 is revised to read as follows:

§ 1460.1 Regulations that apply to the State Dissemination Grants Program.

(a) *Regulations.* The following regulations apply to the State Dissemination Grants Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(2) The general provisions for NIE grants in 45 CFR Parts 1400–1410.

(3) The regulations in this Part 1460.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e–3(a)(1))

197. Section 1460.4 is amended by revising paragraphs (c), (f), (h) and by deleting (a), (d)(3), (e), and (g) as follows:

§ 1460.4 Applicant eligibility.

(a) (Deleted)

* * * * *

(c) A State educational agency (SEA) may submit as many applications as it wishes for intra-State projects but may submit or (under paragraph (d)(1)(i) of this section) participate in only one inter-State project application.

(d) * * *

(3) (Deleted)

(e) (Deleted)

(f)(1) An SEA will receive no more than one award (including any joint award) under each application notice published under § 100a.100 of EDGAR.

(2) An SEA that receives an intra-State award may also participate in one inter-State award to another SEA, as provided in paragraph (d)(1)(i) of this section, under each application notice published under § 100a.100 of EDGAR.

(g) (Deleted)

(h) Any SEA that submits more than one application under paragraph (c) of this section—or that both submits an application or applications and participates in another application submitted by another SEA under paragraph (d) of this section—must rank all of the applications in priority order.

198. Section 1460.5 is amended by revising paragraph (b)(1) and deleting (b)(2) as follows:

§ 1460.5 Types of awards; funding requirements.

* * * * *

(b) * * *

(1) Awards shall not support the salaries of full-time professional or clerical staff.

(2) (Deleted)

* * * * *

PART 1470—EDUCATION AND WORK GRANTS PROGRAM

§ 1470.8 [Revoked]

§ 1470.4, 1470.7 [Amended]

199. The following text is revoked: §§ 1470.4 (a) and (b) (2nd and 3rd sentences only); 1470.7(a), (b) (1) and (2), and (c) (2), (3), and (4); and 1470.8.

200. Section 1470.1 is revised to read as follows:

§ 1470.1 Regulations that apply to the Education and Work Grants Program.

(a) *Regulations.* The following regulations apply to the Education and Work Grants Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(2) The general provisions for NIE grants in 45 CFR Parts 1400–1410.

(3) The regulations in this Part 1470.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e–3(a)(1))

PART 1480—PROGRAM OF RESEARCH GRANTS ON ORGANIZATIONAL PROCESSES IN EDUCATION

§ 1480.10 [Revoked]

§ 1480.4 [Amended]

201. The following text is revoked: §§ 1480.4(b) and 1480.10.

202. Section 1480.1 is revised to read as follows:

§ 1480.1 Regulations that apply to the Program of Research Grants on Organizational Processes in Education.

(a) *Regulations.* The following regulations apply to the Program of Research Grants on Organizational Processes in Education:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(2) The general provisions for NIE grants in 45 CFR Parts 1400–1410.

(3) The regulations in this Part 1480.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e–3(a)(1))

203. Section 1480.8 is amended by revising paragraph (a), (b)(2)(i)(A), introductory text to (b)(4), (b)(4)(vii) and by deleting paragraphs (b)(3), (b)(4)(i)–(iii), (vi), (x), and (d) as follows:

§ 1480.8 Application requirements.

(a) *General.* An applicant shall file an application specificially directed to either the grant or small grant segment of the Program of Research on Organizational Processes in Education.

(b) * * *

(2) *Preapplication format.* The preapplication must include the following:

(i) A cover sheet completed by the principal investigator and by an individual authorized to complete grant applications for the institution, indicating—

(A) That the preapplication is submitted to the Program of Research Grants on Organizational Processes in Education, National Institute of Education; and

* * * * *

(3) (Deleted)

(4) *Full proposal format.* Full proposals must include the following elements. Discussion of objectives and design, described under paragraphs (b)(4)(iv) and (v) of this section, may not exceed 40 pages.

(i) (Deleted)

(ii) (Deleted)

(iii) (Deleted)

* * * * *

(vi) (Deleted)

(vii) If new data are proposed to be collected, the proposal must give evidence of access to suitable organizations for study purposes. Letters of agreement to participate must be included, showing that relevant authorities in school or school-related organizations have reviewed the research plans and agree to take part willingly. A lengthy and complex study that could place special burdens on parts of the educational community may require joint planning and management of the entire project. A proposal for that type of a study must give detailed information to allow reviewers to judge the adequacy of the arrangement.

(d) (Deleted)

PART 1490—EDUCATIONAL EQUITY RESEARCH GRANTS PROGRAM

§§ 1490.7, 1490.9 [Revoked]

§ 1490.4 [Amended]

204. The following text is revoked: §§ 1490.4(b); 1490.7; and 1490.9.

205. Section 1490.1 is revised to read as follows:

1490.1 Regulations that apply to the Educational Equity Research Grants Program.

(a) *Regulations.* The following regulations apply to the Educational Equity Research Grants Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(2) The general provisions for NIE grants in 45 CFR Parts 1400–1410.

(3) The regulations in this Part 1490.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e–3(a)(1))

PART 1495—LAW AND GOVERNMENT STUDIES IN EDUCATION

§§ 1495.7, 1495.10, 1495.12 Appendix B [Amended]

206. The following text is revoked: §§ 1495.7(b); 1495.10 (b), (c), and (d); 1495.12; in Appendix B, paragraphs (a) (1), (2), (3), (6), (7) (1st sentence only), (9), and (10) and (b); and in Appendix C, paragraphs (a) (1), (2), and (3) and (b).

207. Section 1495.1 is revised to read as follows:

§ 1495.1 Regulations that apply to the Law and Government Studies in Education Program.

(a) *Regulations.* The following regulations apply to the Law and Government Studies in Education Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grants Programs) and Part 100c (Definitions).

(2) The general provisions for NIE grants in 45 CFR Parts 1400–1410.

(3) The regulations in this Part 1495.

(b) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e–3(a)(1))

208. Section 1495.9 is amended by revising paragraphs (a), the introductory text of paragraph (b), (b)(1) and (c) and by deleting (b)(2) as follows:

§ 1495.9 Application requirements.

(a) *General.* An applicant shall file an application specifically directed to either the major grant or the small grant segment of the program.

(b) *Major grants.* An applicant for a major grant shall comply with the requirements contained in this paragraph and in Appendices A and B.

(1) *Preapplications.* An applicant shall submit a preapplication for initial review in the format prescribed in Appendix A.

(2) (Deleted)

(c) *Small grants.* An applicant for a small grant shall comply with the requirements contained in Appendix C. An applicant for a small grant does not have to submit a preapplication.

209. Appendix A to Part 1495 is amended by revising the introductory text to paragraph (a), and (a)(1) and by deleting paragraph (a)(2) and (b) as follows:

Appendix A: Administrative Details for a Preapplication for a Major Grant

(a) *Preapplication format.* This appendix provides guidance to applicants concerning the preparation of preapplications for major grants. An applicant that does not follow these suggestions will not be ruled ineligible, but may not be ranked as highly under the evaluation criteria. The statement summarizing the project, paragraph (2) below, must not exceed 10 double-spaced, typewritten pages. The preliminary proposal should include the following:

(1) A cover sheet completed by the applicant or principal investigator—and, if required by the applicant institution, by an individual authorized to complete grant applications for the institution—indicating—

(i) That the preapplication is submitted to the Program of Research Grants on Law and Government Studies in Education, NIE;

(ii) The title of the study;

(iii) The name, department, institution, address, and telephone number of each proposed grantee or principal investigator;

(iv) The estimated budget amount; and

(v) The proposed starting date and duration of the project.

(2) * * *

(b) (Deleted)

PART 1501—FUND FOR THE IMPROVEMENT OF POSTSECONDARY EDUCATION

§ 1501.11 [Revoked]

§§ 1501.3, 1501.5 [Amended]

210. The following text is revoked: The definitions of "Fiscal year," "Nonexpendable personal property," "Nonprofit," "Personal property," "Private," "Public," " Recipient," and "State" in §§ 1501.3; 1501.5 (2nd and 3rd sentences only); and 1501.11.

211. Section 1501.2 is revised to read as follows:

§1501.2 Regulations that apply to the Support for Improvement of Postsecondary Education Program.

(a) *Regulations.* The following regulations apply to the Support for

Improvement of Postsecondary Education Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(2) The regulations in this Part 1501.

(b) *Exceptions to EDGAR.* The following regulations in EDGAR do not apply to this program:

(1) 45 CFR 100a.201(a) (How to use unweighted selection criteria).

(2) 45 CFR 100a.217(a)(2) (Requiring three or more persons to review applications).

(c) *How to use regulations; how to apply for funds.* The "Introduction to Regulations of the Education Division" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1221e-3(a)(1))

212. Section 1501.10 is amended by revising the introductory text to paragraphs (c) and (d), by revising paragraph (d)(2), and by deleting paragraphs (a), (b), (d)(4), (e), (f), (g), and (i) as follows:

§ 1501.10 Application procedures.

(a) (Deleted)

(b) (Deleted)

(c) A preapplication must contain the following information:

* * * * *

(d) An application must contain the information required by EDGAR 45 CFR 100a.107 (Applications for new grants under discretionary grant programs) and the following additional information:

* * * * *

(2) A description of the proposed project, including: its methodology; qualifications of the persons who would conduct it; its short-term and long-term objectives; its specific allocation of available funds in the form of a budget; and the resources (facilities, equipment, and supplies) that the applicant plans to devote to the project.

* * * * *

(4) (Deleted)

(e) (Deleted)

(f) (Deleted)

(g) (Deleted)

* * * * *

(i) (Deleted)

Note.—This Appendix A for Parts 100a–100d will not be published in Title 45 of the Code of Federal Regulations

Appendix A—Analysis of Public Comments and Changes in the Final Regulations

The following is a summary of public comments concerning the EDGAR notice of proposed rulemaking (NPRM) published in the Federal Register on May 4, 1979. Summary is divided into three sections.

The first section, headed "Major Issues," considers the general comments received on five major issues discussed as part of the supplementary information published with the NPRM.

The second section of the summary, headed "General Comments," considers a number of comments and suggestions concerning EDGAR's general approach, format, applicability, timeliness, and similar matters.

The third section, headed "Proposed Rules," concerns comments and suggestions directed to specific sections of EDGAR. The comments and responses in this third section are organized in the same order as the referenced sections are organized in the final EDGAR.

Discussion in the section on "Proposed Rules" includes a number of specific suggestions not directly related to a major issue but directed at sections of EDGAR that address a major issue.

This summary does not include comments that did not suggest how EDGAR should be changed. Nor does it include comments that concern issues beyond the scope of EDGAR, such as provisions in individual program regulations or the General Education Provisions Act (GEPA). Where appropriate, comments that concern issues outside the scope of EDGAR have been referred to the offices within the Department of Health, Education, and Welfare (HEW).

A number of commenters made suggestions regarding the organization of EDGAR or recommended other kinds of technical improvements. A number of these suggestions have been adopted. Some technical revisions also have been made in the language of the regulations. Any change that alters the meaning of a provision of these regulations is summarized—together with the reasons for that revision—in the section headed "Proposed Rules."

Major Issues

Five major policy issues were identified and discussed in the supplementary information published with the NPRM. Many of the comments received and considered by the Education Division in the development of the final regulations were directed to these issues. Comments and suggestions relative to the five issues and the Education Division's responses to them are presented here in the same order as the issues were presented in the NPRM.

Issue: Should EDGAR establish regulations having particular applicability to persons who are members of groups that have been traditionally underrepresented, such as members of racial or ethnic minority groups, women, handicapped persons, and the elderly?

The central purpose of these particular regulations would be to reflect the Education Division's concern that members of traditionally underrepresented groups be provided appropriate opportunities for equitable representation and participation in the planning, operation, and evaluation of projects under grant programs administered by the Education Division.

Comment. A large number of comments were received on this issue. Some commenters suggested that EDGAR not establish regulations having particular applicability to members of traditionally underrepresented groups. Other commenters suggested that the regulations of this type proposed in the NPRM for direct grant programs (Part 100a) be broadened to apply to State-Administered (Part 100b) programs and to include members of groups not mentioned in the examples given. Some commenters suggested that a separate selection criterion be added to give specific emphasis to the selection and funding of projects (1) directed to serving members of traditionally underrepresented groups; or (2) having a project staff that is balanced in terms of members of underrepresented groups. Some commenters suggested that EDGAR encourage grant proposals from women and one commenter said advisory council membership should be evenly divided between men and women.

A number of commenters said the proposed regulations should be retained in EDGAR. Still others said the existing policy of requiring applicants to give assurances of compliance with relevant civil rights statutes and regulations is adequate and nothing else should be added. At least one commenter suggested discontinuing even the assurances required by existing policy. Several commenters asked that the terms "racial or ethnic minorities," "handicapped persons," and "the elderly" be defined.

Commenters who suggested that EDGAR not include regulations regarding members of traditionally underrepresented groups argued that the proposed regulations would—

a. Duplicate Federal and State requirements regarding compliance with applicable civil rights statutes and regulations;

b. Result in divergent program determinations of civil rights compliance requirements, making it impossible for applicants and grantees to use uniform policies in applying for and administering Education Division grants;

c. Result in directing a grant service to persons that the authorizing legislation did not intend to be targets of that service or to persons only incidentally or peripherally involved in the activity or service; and

d. Increase burdens on applicants and grantees by requiring (1) additional information in applications, (2) greater effort to encourage public participation in project planning, and (3) special actions in other areas, including evaluation.

Commenters who suggested that EDGAR include at least the regulations proposed in the NPRM or that those regulations be strengthened or broadened argued that—

a. Existing policies have been ineffective in achieving satisfactory compliance with relevant civil rights statutes and regulations;

b. Relevant civil rights statutes and regulations should be reflected in the regulations that govern administration of Federal educational assistance programs;

c. Regulations are necessary to make sure that everyone concerned with a Federal program and its operation is aware of the relevant civil rights statutes; and

d. There should be both pre-award and post-award determinations of compliance with appropriate civil rights statutes and regulations in order to assure that Federal funds are provided only to grantees who are in compliance with those statutes and regulations.

Response. Certain changes have been made, but the basic policy represented by the NPRM—that EDGAR should contain some special provisions for members of traditionally underrepresented groups—has not been changed. Many of the comments and suggestions were incorrect in their assumption that the relevant provisions of EDGAR are intended to enforce compliance with applicable civil rights statutes. The basic purpose of the provisions is to make applicants and grantees aware that all eligible groups are to receive equitable treatment and consideration in the administration of Education Division programs and the conduct of projects under these programs, regardless of whether the members of those groups are provided special protection or rights by Federal statutes.

Enforcement of applicable civil rights statutes and regulations is presently the responsibility of the Office for Civil Rights, HEW. The EDGAR Provisions do not give Education Division program personnel any responsbility or authority to determine compliance with civil rights requirements; these determinations will continue to be made by the Office for Civil Rights or its successor agency. (The functions of the HEW Office for Civil Rights that are concerned with education will be transferred to the new Department of Education.) The EDGAR provisions do not duplicate Federal and State civil rights compliance requirements.

Under Part 100b States have primary responsibility for assuring that subgrantees provide equitable treatment and consideration in the operation of projects under State-administered programs, while the Education Division has similar responsibility under Part 100a. Although some commenters suggested that the EDGAR provisions on this issue in Part 100a be adapted for and included in Part 100b, the Education Division believes that responsible State authorities should retain primary authority for regulating subgrantees in this area, rather than having requirements imposed by EDGAR. For the most part, the regulations on this subject in Part 100a do not have counterparts in Part 100b (e.g., selection criteria, evaluation, etc.). This is because the State-administered programs, by statute, vest primary administrative responsibility in the State.

The EDGAR provisions do not require that grant services be directed to persons who are ineligible under the authorizing statute for a program. Rather, the EDGAR requirements are designed to help assure that applicants and grantees provide equitable consideration to all persons who are eligible under the program, including those who are members of groups that have been traditionally underrepresented.

The Education Division recognizes that the EDGAR requirements regarding members of traditionally underrepresented groups increase certain burdens on applicants and grantees. The nature and extent of these increased burdens are moderate, however. For example, the information required in an application and the analysis required in an evaluation normally would be included in any adequate description of a project or evaluation of it. Similarly, effective and positive efforts to obtain public involvement in the planning of educational programs would necessarily include the actions required by EDGAR.

After considering commenters' objections to these increased burdens, the Education Division concludes that the goal of achieving greater equity for members of traditionally underrepresented groups justifies the moderate increase in burden. The Education Division agrees with those who suggested that the proposed regulations be retained in EDGAR.

No definitions of "racial or ethnic minorities," "handicapped persons," or "the elderly" have been provided. These terms are used only as examples of "groups that have been traditionally underrepresented" and should not be viewed as either limiting or exhaustive. The basic requirement relates to groups that have been traditionally underrepresented. For this reason, applicants should first make a determination as to whether some groups in the community have traditionally been underrepresented and then seek to overcome that underrepresentation.

This consideration and associated efforts should not be directed solely to members of the groups mentioned several times in these regulations (racial or ethnic minority groups, handicapped persons, women, and the elderly), but should include other groups, if appropriate, such as cultural minorities, the poor, the young, temporary residents, or others not specifically mentioned in the regulations but, nonetheless, traditionally underrepresented in activities or programs in the local area.

The Education Division also concluded that EDGAR should not include pre-award provisions designed to assure that Federal educational assistance funds are granted only to applicants who are determined to be in compliance with applicable civil rights statutes and regulations before a grant award is made, as some commenters suggested. This is a matter that will be considered in the context of the regulations under Title VI of the Civil Rights Act and other civil rights statutes. EDGAR does not include civil rights compliance regulations, but merely references those regulations in § 100a.500 and § 100b.500 for the convenience of readers.

With regard to the proposed regulations that addressed this issue, the following changes have been made in particular sections of EDGAR:

Section 100a.110 has been renumbered as § 100a.111, a new paragraph (d) has been added, and paragraph (e) has been revised. New § 100a.107 and § 100a.108

make it clear that this section only applies to direct formula grant programs, not to discretionary grant programs. The revisions in the text of § 100a.111 make it clear that the section is intended to focus an applicant's attention on persons who are members of traditionally underrepresented groups. Subject to eligibility requirements in a program's statute and its regulations, this focus is expected to be used both in determining project beneficiaries and in designing project objectives.

Section 100a.202—the selection criterion on plan of operation—has been revised to state that an application will be evaluated in part on how the applicant plans to provide equal access and treatment to eligible project participants who are members of traditionally underrepresented groups. This change parallels the clarification in § 100a.111, and will affect all discretionary grant programs that include this criterion in their regulations.

Section 100a.206—the selection criterion on adequacy of resources—has been amended by deleting the reference to underrepresented groups. Access to facilities are better governed by the regulations regarding nondiscrimination referenced in § 100a.500 and § 100b.500. Other methods of judging "adequacy" of facilities and equipment for these groups are better regulated under individual programs, which can provide clearer and more specific guidance than general regulations.

The Education Division has not adopted suggestions for the addition of selection criteria or for the addition of requirements to encourage grant applications from women or to seek balance in project staffing or advisory councils. The EDGAR selection criterion on key personnel (§ 100a.203) seeks to assure that project staff is qualified and that members of underrepresented groups have equitable opportunities for employment by an applicant. The Education Division does not believe that additional general regulations on staffing are necessary.

As for encouraging women to apply for grants, it is Education Division policy to encourage applications from all statutorily eligible applicants rather than from preselected groups. EDGAR does not regulate on program advisory committees because of the variety of statutory provisions and programmatic needs.

The proposed requirement in § 100a.620—that grantees avoid race stereotype and sex bias in materials developed under the project—has been eliminated. Public reaction to the proposed requirement was mixed. The Secretary of Education has decided to study this issue, and therefore the provision will not be adopted at this time. If it is decided at a later date that a regulation is necessary, a notice of proposed rulemaking soliciting further public comment will be published in the **Federal Register.** However, grantees are expected to be sensitive to the necessity of avoiding inappropriate biases and stereotypes in materials developed with Federal funds.

Issue: Participation of students enrolled in private schools.

Comment. Several commenters said EDGAR should consolidate regulations on the participation of students enrolled in private schools. Other commenters said proposed EDGAR provisions on the subject should be deleted because they do not consolidate all relevant program provisions but only part of them, thus creating confusion. Commenters also suggested that the proposed EDGAR provisions establish some boundaries on public and private school responsibilities.

Other commenters said EDGAR provisions should clarify legal responsibilities and be more specific about the programs to which the proposed EDGAR regulations apply. Several asked for other forms of guidance with respect to the requirements of statutes, court decisions, and EDGAR.

Some commenters suggested that public schools are being unduly burdened by EDGAR with regard to services to students enrolled in private schools. These commenters said public schools are required to—

(a) Consult with private schools too early in the project planning process;

(b) Be fiscally responsible for private school programs;

(c) Identify times and places to provide services;

(d) Act as conduits for project proposals and funds for private school students; and

(e) Compete with private schools for grants and subgrants.

One commenter asked that direct grant programs include a selection criterion providing up to five percent of a program's selection points for equitable participation of private school students.

Response. A number of changes have been made, but the major substantive requirements of the regulations on services or responsibilities of applicants to private school students proposed in the NPRM have been retained. In two sections those requirements have been made explicit rather than left implicit. The EDGAR consolidation of these requirements should help ensure consistent Federal, State, and local policies regarding participation of private school students in the affected programs. It is expected that exceptions to these general rules can be kept to a minimum, thereby maintaining this consistency.

Under certain Federal statutes, applicants, grantees, and subgrantees are required to provide opportunities for eligible private school students to participate in Federal programs. The services provided are directed to the eligible private school students, not to the private schools they attend.

In carrying out their responsibilities, grantees and subgrantees are prohibited from serving as a conduit for Federal funds and from allowing private schools control of the Federal Funds used to provide program benefits to private school students. Under these Federal programs private schools generally are not eligible applicants, so there is no competition between them and other applicants for grants or subgrants. The requirements for identifying times and places for providing services are essentially the same requirements as apply to the involvement and participation of public school students.

On the question of applicability of the regulations, program statutes and regulations identify those programs that require that students in private schools be provided an opportunity to participate.

After considering the general comments and suggestions received, the Education Division concluded that there was a need to clarify proposed requirements concerning private school students. In addition, the EDGAR selection criteria in § 100a.202 (Plan of operation) has been amended to include consideration of private school children. (See the discussion below under § 100a.202 in the "Proposed Rules" section of this appendix.)

The responsibilities of public schools applying for direct grants have been clarified with respect to project descriptions (§ 100a.119), open meetings on applications (§ 100a.140), evaluations (§ 100a.590), and the requirement to provide "genuine opportunities" for participation (§ 100a.650). The responsibilities of public schools or of representatives of private schools have not been made more explicit, but some clarification has been provided in response to specific comments on §§ 100a.650 and 100b.650–100b.661 in the "Proposed Rules" section of this appendix.

The major clarifications are as follows:

1. Applicants must make appropriate and diligent efforts to inform and involve representatives of private school students in planning for federally assisted programs.

2. The Education Division expects applicants and recipients to seek needed information about students enrolled in private schools. This information may be provided by representatives of students enrolled in private schools, by the students themselves, or by other responsible parties. Nothing in the Education Division regulations requires any party to take actions that would be futile because of lack of information from or lack of participation by representatives of private school students. The regulations do not require consultation with representatives of private school students who do not respond to reasonable attempts to consult with them.

3. Applicants are required to consult with representatives of private school students about all aspects of the development and design of a project. Grantees and subgrantees are required to consult about any decision that may affect the participation of the private school students in a project.

Issue: Should EDGAR include general selection criteria for direct grant programs?

Comment. A number of commenters suggested that EDGAR include general selection criteria for direct grant programs. Several commenters suggested that these criteria be given standard weights in EDGAR, but some said programs should have freedom to increase or decrease the weights. Commenters also suggested that all selection criteria that apply to a particular program should be published in the regulations of that program. No commenters opposed including general selection criteria in EDGAR, although some hesitation was expressed about the use of standard weights for the criteria.

Response. No change has been made. Weighted selection criteria are retained in EDGAR. However, program regulations will repeat the EDGAR criteria, rather than merely adopt them by reference. As proposed in the NPRM, program regulations may increase the relative weights assigned to the EDGAR criteria, but may not decrease the relative weight of any criterion that is used by the program. Allowing each program to decrease the weights assigned to the EDGAR criteria would have the effect of reducing the relative importance of one or more of the criteria below the level considered minimal for it.

Issue: What should be the copyright policy of the Education Division?

Comment. Most of those who commented on this issue suggested that EDGAR allow a grantee unlimited copyright. No commenter recommended that EDGAR continue the former "limited copyright" policy of the Education Division. Of the commenters supporting the proposed new policy, many advocated the second option discussed in the NPRM: adoption of the 45 CFR Part 74 policy which permits unlimited copyright by a grantee unless otherwise provided in a particular grant. Other commenters suggested that EDGAR adopt the third option presented in the NPRM: permitting individual programs to establish their own copyright limitations through provisions in their respective program regulations. One commenter questioned the fact that EDGAR does not require a competitive process for publisher selection.

Response. No change has been made. The Education Division agrees with the commenters who said that a policy of generally allowing a grantee unlimited copyright will be more conducive to desire dissemination than the former policy of limited copyright. These commenters said the proposed policy would help a grantee deal with publishers and would allow a grantee to benefit from royalty income. Under § 100a.2, a program may establish regulations that differ from EDGAR. This section would permit a program to establish its own copyright policy if that were considered necessary for the program.

The Education Division does not believe that a competitive requirement for prospective publishers is necessary, but encourages each grantee to use care in selecting a publisher to avoid excessive costs to consumers.

Issue: Should EDGAR include regulations on "cooperative agreements?"

Comment. Several comments were received on the matter of whether EDGAR should provide special rules for cooperative agreements. Some commenters suggested that cooperative agreements be treated; others, that they not be treated. None of those who recommended treating cooperative agreements in EDGAR gave reasons to support their suggestions. Those who gave reasons that EDGAR should remain silent on cooperative agreements stated, in effect, that it would be better to wait until the Education Division has had some experience with cooperative agreements before it attempts regulations.

Response. No change has been made. EDGAR will not provide any special rules at this time. The Education Division has had little experience with cooperative agreements. Further, the Office of Management and Budget currently is conducting a congressionally mandated study of cooperative agreements, and it is expected that the outcome will provide some needed guidance. When the matter is clarified, EDGAR can be amended to include special rules for cooperative agreements, if appropriate. In the interim the general rules for grants in 45 CFR Part 74 and in EDGAR will apply to cooperative agreements. (The term "grant" is defined in 45 CFR 74.3 to include all forms of financial assistance, which would include the provision of funds under a cooperative agreement.)

General Comments

Comments. A number of commenters expressed concern that EDGAR might make it more difficult to prepare a grant application and to properly administer a project. These commenters objected to the EDGAR practice of adopting applicable statutory provisions and regulations by reference instead of repeating the pertinent statutory and regulatory language in EDGAR. One commenter summarized these objections and recommendations by saying "We want . . . all the eligibility requirements from 45 CFR Part 74, from EDGAR, from the law, from the program regulations in one place and all the application requirements in one place and all the administrative responsibilities in one place."

Response. Some changes have been made. Appropriate cross references to 45 CFR Part 74 have been added to EDGAR to make it easier for users to find relevant sections. As was done with the NPRM, a copy of 45 CFR Part 74 is appended to EDGAR for the convenience of readers. As a next step, the Education Division will begin the work necessary to incorporate the substantive text of 45 CFR Part 74 into EDGAR. The resulting combined regulations will be published in the **Federal Register** at a future date. Further, pertinent statutory requirements have been written into EDGAR, rather than being cross-referenced. These changes should serve to reduce the necessity of applicants and grantees having to refer to several documents.

The Education Division will consider further means of alleviating this problem. However, the consolidation of general grant regulations in one document, first done in the General Provisions for Office of Education

Programs in 1973, has proved to be an effective means of preventing inconsistency in program regulations that cover the same subject (rules for federally financed construction, for example). EDGAR serves this necessary function and, therefore, must be retained.

Comment. A commenter suggested that EDGAR should state where the applicant can obtain a copy of the General Education Provisions Act.

Response. No change has been made. Part VI of the Introduction to Regulations of the Education Division in the preamble to EDGAR, lists appropriate resources for persons needing information Education Division programs.

Comment. A commenter suggested that EDGAR should state that in cases in which program statutes and implementing regulations are inconsistent with EDGAR the statutory requirements and the implementing regulations for the program shall prevail.

Response. No change has been made. The provision recommended by the commenter is the system used in the current OE general provisions regulations. Under EDGAR, as stated in §§ 100a.2 and 100b.2, if statutory or regulatory requirements for a program conflict with the requirements of EDGAR, the implementing regulations for that program will identify the sections of EDGAR that do not apply. This is intended to reduce confusion as to whether an EDGAR rule applies to a particular program. Unless there is a specific exception, a reader can assume that EDGAR applies. Of course, some regulations in EDGAR are self-limiting. For example, the regulations in §§ 100b.650–100b.662 apply only if the program statute specifically requires an opportunity for participation by students enrolled in private schools.

Comment. A commenter suggested that the Education Division develop a procedure to review program regulations that conflict with EDGAR.

Response. A procedure has been established to review all program regulations to make them consistent with EDGAR. Some exceptions to EDGAR are necessary because of statutory variations among different programs or because of the nature of a particular program.

Comment. A commenter suggested that the issuance of EDGAR at this time could cause confusion if a Department of Education is established.

Response. EDGAR is being issued at this time to enable the Education Division to implement the Education Amendments of 1978, and to govern grants that will be made before the new Department of Education takes effect. Because a Department of Education has been created, EDGAR will be reviewed and necessary technical changes will be made. The Education Division believes that the consolidation of common program provisions in EDGAR will serve as a basis for further consolidation of administrative provisions that will be required for the new Department. In the meantime, EDGAR is needed to govern grants made in the current fiscal year, particularly since it implements the new general grant administration polices in 45 CFR Part 74. Under the Department of Education Organization Act (Pub. L. 96–88), all regulations of the Educaiton Division, including EDGAR, will be automatically transferred to the new Department.

Comment. A commenter suggested that a provision should be added to EDGAR to allow the appropriate official of the Education Division to waive Federal requirements governing a grantee's administrative responsibilities if the grantee can show that its own administrative standards offer suitable protection against misuse of Federal funds.

Response. No change has been made. The major provisions of EDGAR are designed to assure equal treatment of applicants and grantees. A waiver procedure could lead to unequal treatment of applicants and grantees. Further, a waiver procedure based on the specific conditions suggested would, in some instances, be contrary to statutory requirements. However, deviations from the administrative requirements of 45 CFR Part 74 are permissible in the circumstances outlined under 45 CFR Part 74.6.

Comment. A commenter suggested that EDGAR should require project advisory committees and review panels to include people knowledgeable about problems of sex bias and sex stereotyping.

Response. No change has been made. Each individual program currently maintains its own list of qualified experts, selected on the basis of criteria determined by the nature of the program. EDGAR does not regulate the qualifications of review panel members nor does it regulate on the issue of project advisory committees. Decisions on these matters are left to program officials and may, if appropriate, be included in program regulations.

Comment. A commenter requested clarification on the eligibility of nonprofit organizations for grants and the application procedures they should follow.

Response. No change has been made. Nonprofit organizations are covered by all sections of EDGAR unless a section specifies a category of organization that excludes them. See 45 CFR Part 74, Subpart Q, which provides separate cost principles for nonprofit organizations. Proof of nonprofit status is governed by § 100a.51 of EDGAR.

Comment. A commenter suggested that a provision be added to EDGAR that would authorize the evaluation of educational materials that are developed without Federal support.

Response. No change has been made. This issue will be handled in the regulations for the National Diffusion Network. Those regulations were published in the **Federal Register** as a notice of proposed rulemaking on June 25, 1979 (44 FR 37178).

Comment. A commenter suggested that a provision be added to EDGAR to require the Education Division to allow the proposed costs for Alaskan projects to exceed by 20 percent the proposed costs for other projects conducting comparable activities in non-Alaskan locales. Another commenter suggested that the cost of providing regular educational services in a project area should be taken into consideration in determining if a proposed project's costs are "reasonable" under terms of § 100a.204(b)(2).

Response. No change has been made. It is the policy of the Education Division that, whenever feasible, local cost levels are taken into account in determining if project costs are "reasonable."

Comment. A commenter said that the preamble to EDGAR cited Section 400A(a)(1) of GEPA as legal authority for EDGAR. The commenter questioned the adequacy of the section as legal justification for EDGAR.

Response. No change has been made. The preamble to the proposed regulations cited Section 400A(a)(1) of GEPA only in reference to the Education Division's intention to implement new data collection procedures at a later date. The legal authority for EDGAR is Section 408(a)(1) of the General Education Provisions Act (20 U.S.C. 1221e–3(a)(1)), unless otherwise noted. Section 408(a)(1) gives appropriate officials of the Education Division general authority to issue regulations for administration of the programs of the Division.

Proposed Rules

PART 100a—DIRECT GRANT PROGRAMS

Subpart A—General

Regulations that Apply to Direct Grant Programs

§ 100a.1 Programs to which Part 100a applies.

Comment. One commenter suggested that the listing of programs in § 100a.1 should be expanded to indicate whether or not a program is subject to the provisions of OMB Circular A–95—Federal cooperation with State and local governments in the evaluation, review, and coordination of Federal assistance programs and projects. The same suggestion proposed that such an indication in the table in § 100a.1 could be used instead of the separate listing in § 100a.170.

Response. No change has been made. The number of programs in Part 100a to which Circular A–95 applies is relatively small and they can be more readily and easily identified for readers in the separate listing in § 100a.170 than as part of the listing in § 100a.1.

Changes. The list of programs has been updated to conform to changes made in the Education Amendments of 1978 (Pub. L. 95–561).

§ 100a.2 Exceptions in program regulations to Part 100a.

Comment. One commenter asked if EDGAR applies to Public Service Fellowships, inasmuch as application for the fellowships is made through a common application for both the fellowships and the Public Service Institutional Grants made under Sections 901 through 904 of the Higher Education Act, which is covered in Part 100a.

Response. No change has been made. Part 100a applies to Public Service Institutional Grants under 45 CFR Part 194, Subpart A, but does not apply to fellowships awarded to individuals or allotted to institutions by the Commissioner under Subpart B of Part 194. However, the definitions in Part 100c apply to both programs.

Comment. One commenter suggested that this section be revised to allow program regulations to identify the sections of Part 100a that apply to the program, rather than simply identifying those that do not apply.

Response. No change has been made. If appropriate, a program's regulations may specify that only certain sections of EDGAR apply and all others do not apply. Section 100a.2 does not require the identification to be made section by section, but allows a general statement if it is more convenient for the program regulations to do that.

Comment. One commenter suggested that the effectiveness of EDGAR will be lost by exceptions and different interpretations unless program regulations are written so they do not conflict with EDGAR.

Response. No change has been made. Some exceptions to EDGAR are necessary because of statutory variations among different programs or by the nature of a particular program. However, it is the policy of the Education Division to keep exceptions to a minimum.

Subpart C—How to Apply for a Grant

The Application Notice

§ 100a.100 Publication of an application notice; content of the notice.

Comment. One commenter suggested that a provision be added to specify that annual application notices will be sent to all applicants that have sought funding during the previous three years.

Response. No change has been made. The reason for publication in the **Federal Register** is to provide general notice that applications are being solicited. Some programs mail copies to individual applicants in addition to the notice, but it is not considered feasible to have a general provision that requires individual mailings by all programs.

Changes. Proposed paragraph (c) of this section has been deleted as unnecessary. The revision does not represent any change in policy but eliminates reference to an internal Education Division practice of generally publishing a single application notice for all discretionary grant programs. This practice does not require regulation.

§ 100a.101 Information in the application notice that helps an applicant apply.

Changes. Various changes have been made in paragraph (a) to clarify the information that will be in an application notice. For example, the use of multi-year funding and any limits on the length of the project period will be included.

§ 100a.102 Deadline date for applications.

Comment. One commenter suggested that § 100a.102 should be shortened by consolidating the provisions of §§ 100a.102(b) and 100a.102(c) related to satisfying the deadline requirements for submitting applications. As proposed, § 100a.102(b) applies only to applications for new projects and § 100a.102(c) applies only to applications for continuation projects. The same commenter suggested that similar consolidations could be made throughout the proposed regulations.

Response. No change has been made. The provisions of § 100a.102(b) and 100a.102(c) are intended to be substantially different in effect. If an applicant for a new project fails to meet the requirements of § 100a.102(b), the application is not considered. However, if an application for a continuation award is late, the application still may be considered and the applicant granted an award, if the appropriate official of the Education Division chooses to do so.

Changes. Three changes have been made in this section, to conform to current Education Division practice, as follows:

1. The requirement to deliver an application "to the Education Division" has been changed to provide that delivery will be made "to the address specified in the application notice."

2. Two additions have been made with regard to the "proof of mailing" provisions. One allows the proof to be "A dated shipping label, invoice, or receipt from a commercial carrier" and the second is "any other proof of mailing acceptable to the appropriate official of the Education Division."

3. A new paragraph (e) has been added to specify that if an application is mailed through the U.S. Postal Service, the Education Division does not accept either a private metered postmark or a mail receipt not dated by the U.S. Postal Service as proof of mailing.

Application Contents

§§ 100a.107–100a.119

Comment. Several commenters suggested that applicants will be confused by three different sets of requirements, each of which can be understood to constitute a different format for the preparation of applications. The three sets of requirements mentioned by the commenter are—

1. The application content requirements contained in §§ 100a.107–100a.119;

2. The selection criteria contained in §§ 100a.202–100a.206; and

3. The instructions given in the application information package for completing part IV of the standard application form prescribed by OMB Circular A–110. The commenters proposed that a means be found to have one application format.

Response. A change has been made. The format for an application is established by the Education Division for each program in accordance with the

requirements of the statutes and regulations applicable to that program. The regulations in 45 CFR Part 74, a copy of which is appended to EDGAR, implement the policies in OMB Circulars A–102 and A–110.

EDGAR contains requirements that affect the application form, but the form for each program is accompanied by all relevant instructions. EDGAR includes these provisions to avoid repetition in individual program regulations and to achieve consistent treatment among Education Division programs. However, to avoid unnecessary duplication and possible inconsistent requirements, §§ 100a.107 and 100a.108 have been revised to clarify the information that must be submitted. The revisions eliminate the overlap between the EDGAR application content requirements and the EDGAR selection criteria by limiting some of the application content requirements to formula grant programs, which do not use selection criteria.

Changes. Proposed §§ 100a.109–100a.115 have been renumbered as §§ 100a.110–100a.116.

§ 100a.107 Applications for new grants under a discretionary grant program.

This section has been revised to apply only to applications for new grants under discretionary grant programs. As revised, the section incorporates the substance of proposed § 100a.108. The revised section also enumerates the provisions of EDGAR that specify information to be included in each application that the section covers.

§ 100a.108 Applications for new grants under a formula grant program.

This section has been added to enumerate the information that is required in each application for a new grant under a formula grant program administered directly by the Education Division.

§ 100a.108 Address each selection criterion. [Proposed]

Comment. One commenter suggested that this section be clarified as to whether or not each criterion must be discussed in a separate and clearly identifiable section of the application.

Response. No change has been made. The specific format and organization of an application is either specified in the program's application forms or instructions or is left to the judgment and discretion of the applicant. How this is to be accomplished is not restricted by these regulations.

Changes. The substance of this proposed section has been incorporated into § 100a.107.

§ 100a.109 Changes to application; number of copies.

Changes. Paragraphs (a) and (b) of proposed § 100a.116 have been rearranged and the section has been renumbered as §100a.109.

§ 100a.110 Assure compliance with appropriate requirements of law.

Comment. Several commenters suggested that the assurances required under §100a.110 should be required from an applicant only once, rather than with each application.

Response. No change has been made. Section 100a.110 requires that an application for a direct grant include a single, general assurance that a grantee will comply with special requirements of law, program requirements, and administrative requirements. This general assurance applicable to all programs will replace a number of separate specific assurances that many programs previously required and thus constitutes a significant reduction in application content. The assurance is printed in each program's application form and is, therefore, automatically submitted by each applicant. To maintain and accurately use a file containing this general assurance from each of the many thousands of prospective applicants would constitute a significant recordkeeping and procedural burden for the Education Division and would not reduce paperwork for the applicants.

§ 100a.111 Describe the project.

Changes. Two changes have been made.

1. Proposed paragraph (c) has been deleted because it was redundant with proposed paragraph (d), which has been redesignated as paragraph (c).

2. Proposed paragraph (e) has been rewritten as paragraphs (d) and (e) to make it clear that the description of a proposed project is to describe intended program participants and beneficiaries and the expected effects of the project on persons who are members of groups that have been traditionally underrepresented. (See discussion of this revision—under the issue on provisions relating to members of groups that have been traditionally underrepresented—in the "MAJOR ISSUES" section of this summary.)

§ 100a.112 Include a proposed project period and a timeline.

Comment. One commenter asked if the term "budget period" refers to a period of time that is quarterly, monthly, annually, or some other length.

Response. No change has been made. The term is defined in Part 100c as "an interval of time into which a project period is divided for budgetary purposes" and can be variable, depending on the project. Usually, the budget period is 12 months.

Comment. One commenter suggested that all school-based projects should operate on a July 1 through June 30 fiscal year.

Response. No change has been made. Setting a project fiscal year of a particular period for all programs would remove flexibility to meet particular program and grantee needs. For example, some school-based projects might begin in the fall and continue through the following summer. A project period of July 1 through June 30 would be inappropriate for these and other projects.

§ 100a.113 Describe key personnel.

Comment. A number of commenters suggested that the requirement to give the name and qualifications of the project director and other key project personnel should be revised to allow the application to include only job descriptions or qualifications of personnel, if actual employees are unknown at the time the application is filed.

Response. A change has been made. Except for the principal investigator for a proposed research project, the requirement has been revised to require that names be provided only if known at the time of application. If names are not known, an applicant may give a description of qualifications of key personnel to be employed.

§ 100a.115 Describe the evaluation plan.

Comment. One commenter suggested that a separate evaluation plan should not be required for each proposal, inasmuch as it sometimes is more logical for the proposed evaluation to be integrated into the description of the project.

Response. No change has been made. The section does not require a separate evaluation plan but merely a description of the evaluation plan. If appropriate, the applicant may integrate the description into the overall project description. However, the evaluation plan must be sufficiently clear to enable reviewers to judge the application and to award points.

Comment. One commenter suggested that EDGAR require all proposed evaluations to include an analysis of the differential impact of projects on the sexes and on various racial and ethnic groups within each sex.

Response. No change has been made. While the Education Division is

committed to advancing educational equity, the Education Division is also concerned with reducing the paperwork burden on applicants and grantees. Section 100a.590 requires a grantee in its project evaluation to assess the effect of the project on persons being served by the project, including persons who are members of groups that have been traditionally underrepresented, such as members of racial or ethnic minority groups, women, handicapped persons, and the elderly. Without statutory authority for requiring more explicit detail in project evaluations, the Education Division is reluctant to require grantees under all programs to include in their evaluations an analysis as specific as the commenter has proposed. Individual program regulations may require more specificity, if appropriate.

Changes. 1. Because some evaluations are explicity required by statute, § 100a.115 has been revised to refer to evaluations required by both statute and regulations.

2. The revisions also make it clear that the section refers to the applicant's plan to evaluate the project.

§ 100a.116 Demonstrate capability; include evaluation of completed project.

Comment. Two commenters suggested that the requirement for submitting an evaluation of a completed project be modified to allow for the possibility that no evaluation had been completed at the time of application for the new project.

Response. A change has been made. Section 100a.116(b) has been changed to require an evaluation only if one has been completed at the time the application is submitted.

§ 100a.118 Application for a continuation award.

Changes. Proposed paragraph (b)(1) requiring compliance with the deadline date for continuation applications has been deleted as unnecessary because it repeats the requirements in § 100a.102(c), which is cross referenced in this section.

§ 100a.119 Information needed if private school students participate.

Comment. Several commenters suggested that the application include more explicit information related to services to children enrolled in private schools if these services are required or permitted under the authorizing statute.

Response. A change has been made. A new § 100a.119 has been added to require that under certain programs an applicant must include information in its application describing how the project will fulfill Federal requirements to serve children enrolled in private schools.

Joint Funding Simplification Procedures

§ 100a.124 Applications and preapplications under the Joint Funding Simplification Act.

Changes. A number of sections have been added to the final EDGAR to specify the procedures used by the Education Division to implement the Joint Funding Simplification Act of 1974. Section 100a.124 lists the other sections in EDGAR that have been amended to implement the Joint Funding Simplification Act. The procedures in EDGAR supplement the procedures in OMB Circular A–111 (41 FR 32040), published on July 30, 1976. The Office of Education published procedures to supplement this circular on May 18, 1979 (44 FR 29164), and these were used as the basis for the procedural rules in EDGAR. The sections added to EDGAR replace the procedures published on May 18, 1979.

Separate Applications—Alternative Programs

§ 100a.126 Application must list all programs to which it is submitted.

Comment. Several commenters suggested that § 100a.126 should be revised to clarify its meaning.

Response. A change has been made. The title of this section has been changed to better describe the content of the section. Also, some changes have been made in the wording to make its meaning clearer. The purpose of this section and of § 100a.125 is to allow applicants to submit an application to any program from which the applicant thinks it may get funded.

This section requires an applicant to inform the Education Division of any programs from which the applicant seeks funding for the same project. The appropriate official of the Education Division needs this information to carry out official duties under Subpart D. For example, an applicant may submit an application to two programs under either of which the proposed activity could be fully funded. The application may rate highly enough under both programs to deserve funding. However, the appropriate official cannot fund the project for more than 100 percent of the cost of the project. (Cross-reference—See § 100a.233 Setting the amount of the grant.)

If the appropriate official knows in advance all the programs from which an applicant seeks funding, then the official can coordinate the selection and grantmaking procedures under Subpart D.

Preapplications

§ 100a.131 Consideration of a preapplication.

Comment. Two commenters suggested that preapplication procedures not be used by the Education Division, and one commenter suggested that preapplication procedures be used more extensively.

Response. No change has been made. As proposed, the regulations simply allow the use of preapplication procedures. Whether preapplication procedures are useful is an issue that is decided separately for each program. In some programs, the use of preapplications can reduce the paperwork burden on applicants, but in other programs there would be no benefit.

Change. Proposed § 100a.130 has been renumbered as § 100a.131.

§ 100a.133 Result of a preapplication.

Comment. One commenter suggested that it should be made clear whether an applicant may apply under a program even if the appropriate official of the Education Division informs the applicant that it is ineligible for assistance under the program.

Response. No change has been made. Although the regulations do not preclude an ineligible applicant from applying, under § 100a.216(a)(1) an application from an ineligible applicant is not considered for a grant award but is returned to the applicant. A cross reference to § 100a.216 has been added to § 100a.133 to make this outcome clear.

Comment. One commenter suggested that an applicant that is ineligible for assistance should be told why it is ineligible.

Response. A change has been made. Section 100a.133(a)(3) has been revised to provide that an explanation of why an applicant is ineligible will be provided.

Change. Proposed § 100a.132 has been renumbered as § 100a.133.

Open Meeting Certification Under Certain ESEA Programs

§100a.139 The local educational agency shall hold an open meeting.

Comment. Two commenters suggested that giving each person who attends a required public meeting an opportunity to comment is too broad and could result in lengthy meetings at which endless comments might be used to block timely, official action.

Response. No change has been made. Paragraph (c) of this section requires only that a local educational agency give persons who attend a public

meeting an opportunity to comment. This does not mean that unlimited time must be devoted to comments. It is possible, for example, for the local educational agency to place reasonable limits on the amount of time that each person may speak when many people want to speak, or to permit written comments to be submitted by those who do not have time to make a full oral presentation.

Comment. One commenter suggested that the requirements related to open meetings should apply only to applications for grants of $100,000 or more.

Response. No change has been made. These regulations implement a statutory requirement for ESEA programs. The statute does not authorize the limit suggested by the commenter.

§ 100a.140 Give notice of the open meeting; make information available.

Comment. One commenter suggested that this section be revised to require that notice of the planned meeting be in both English and the primary language of any population group that is a direct target of the proposed project.

Response. No change has been made. The notice should be given both in English and in languages other than English, if necessary to communicate with persons or groups affected by the application or to communicate with members of other groups of the kind referred to in § 100a.140(c).

Comment. Several commenters suggested that § 100a.140 be revised to delete requirements for special or extra announcements to ensure that members of groups that have been traditionally underrepresented have an opportunity to participate in the open meeting. Another commenter suggested that the applicant should be required to provide evidence in its application that steps were taken to involve members of traditionally underrepresented groups in the open meeting.

Response. No change has been made. Section 100a.140 does not necessarily require special or extra announcements. It simply requires that reasonable consideration and effort be given to assuring that members of traditionally underrepresented groups have an equal opportunity to receive information about the planned meeting and to participate in it. Requiring evidence that these steps have been taken would place an unwarranted burden on many applicants.

Other changes. See the discussion at the beginning of this Appendix ISSUE: Participation of students enrolled in private schools.

§ 100a.141 Certify that open meeting was held.

Comment. Three commenters suggested deleting the provisions that require an applicant local educational agency to certify that it has considered all comments and recommendations made at a required open meeting and has included the results of its consideration in the application.

Response. A change has been made. It is reasonable to require an applicant to certify that it has conscientiously reacted to all suggestions and recommendations. However, the section has been revised to make it clear that the applicant is not required to identify each recommendation, decision, and consequence in its application, but merely to certify that it amended its application, as appropriate, in light of those comments and recommendations.

State Approval Procedures

§ 100a.150 Review procedure if State must approve applications; purpose of §§ 100a.151–100a.153.

Comment. One commenter suggested that the regulations should include a list of programs to which State approval procedures apply.

Response. No change has been made. Programs that require State approval will specify in their regulations that State approval is required.

§ 100a.151 When an applicant under § 100a.150 must submit its application to the State; proof of submission.

Comment. One commenter suggested that the requirement that an application requiring State approval be sent to the State 15 days before the deadline for its submission to the Education Division should be changed to require that the submittals be made simultaneously.

Response. No change has been made. The requirement gives a State 15 days in which to approve or disapprove the proposal before it is sent to the Education Division. If applications were sent simultaneously to both the State and the Education Division, applications that the State disapproves within the 15-day period would be sent to the Education Division. Inasmuch as the Eduation Division, under these programs, can only fund applications approved by the State, the 15-day period—by enabling States to give early notices of disapproval—can serve to avoid wasted effort for both the applicants and the Education Division.

Comment. One commenter suggested that the postmark provisions regarding the mailing of applications to the Education Division should be extended to cover mailing to State offices, when the latter mailings are required.

Response. No change has been made. The present provision requires only that a copy of the letter requesting State approval be attached to the application sent to the Education Division. If the postmark requirements of § 100a.102 were extended to include submission to the State, applicants would be required to include proof of the postmark with the application to the Education Division. This would involve an undue and unnecessary burden on the applicant and would be difficult for the Education Division to administer effectively.

§ 100a.152 The State reviews each application.

Comment. One commenter suggested that this section should include the criteria to be used by a State in reviewing an application requiring State approval.

Response. No change has been made. The criteria used by the State are determined by the State on the basis of the authorizing statute and the program regulations. The criteria used by a State are not subject to consolidation in EDGAR.

§ 100a.153 Deadlines for State approval.

Comment. One commenter suggested that the appropriate offical of the Education Division be required to publish a deadline in the **Federal Register** for receipt of State approvals of applications, rather than having the option to publish or not to publish a deadline.

Response. No change has been made. Under a program that does not make grants on a competitive basis, it generally is not necessary to establish a deadline for submission of applications. If a deadline is necessary to facilitate selection of applications for support, a deadline will be published. No deadline will be established without publication.

Other changes. Paragraph (b) has been amended to apply a more flexible deadline for receipt of State approvals. This change conforms to current Education Division practice.

§ 100a.154 Effect of State approval; failure to approve.

Comment. Two commenters suggested that the provision that prohibits a grant if a State does not approve an application on or before the deadline for State approval should be modified to allow for an appeal to the Education Division if the State disapproves or fails to approve the project.

Response. No change has been made. Under the programs subject to these

EDGAR provisions, the requirement for State approval is statutory and not subject to modification by regulations. Appeals are allowed only if specifically authorized under a program statute.

State Comment Procedures

§ 100a.155 Review procedure if State may comment on applications: purpose of §§ 100a.156–100a.158.

Comment. One commenter suggested that programs to which State review procedures apply be listed for the convenience of the reader.

Response. No change has been made. Programs that require an opportunity for the State to comment will specify in their program regulations that the opportunity for comment is required.

§ 100a.158 Deadlines for State comments.

Comment. One commenter suggested that the appropriate offical of the Education Division be required to publish a deadline in the Federal Register for receipt of State comments on applications, rather than having the option to publish or not to publish a deadline.

Response. No change has been made. The Education Division generally publishes a deadline for State comments under these programs. Occasionally, however, it may not be necessary or desirable to publish a deadline; therefore, the flexibility in this section has been retained.

Changes. Paragraph (c) has been revised to make it clear that a State's comments must be sent to the Education Division.

§ 100a.159 Effect of State comments or failure to comment.

Comment. One commenter suggested that an applicant should be required to provide the State with a reasonable period of time within which to make its comments. One of the commenters suggested that State comments be made within 30 days after the application is submitted.

Response. No change has been made. If State comments must be submitted to the Education Division by a deadline, the appropriate official of the Education Division, in the Federal Register notice, allows a reasonable period of time between State receipt of the application and the deadline for submission of comments to the Education Division. This period commonly is 30 days or more, but the precise period must be flexible to meet the needs for particular programs.

Comment. One commenter suggested that the word "considers" be defined in order to indicate more clearly what effect State comments have on an application.

Response. No change has been made. The appropriate official of the Education Division gives serious consideration to all comments that a State makes. It is not possible to define generally how this is done for all programs.

OMB Circular A–95 Clearinghouse Procedures.

§§ 100a.179–100a.173

Comment. One commenter suggested that the term "clearinghouse procedures" be defined.

Response. No change has been made. As § 100a.170(b) makes clear, the procedures referred to are those used by clearinghouses established in accordance with OMB Circular A–95.

Comment. One commenter suggested that the listing of programs subject to the requirements of OMB Circular A–95 should include a footnote indicating that the list is subject to change from time to time. The footnote should tell the reader where to find the current listing.

Response. No change has been made. The list in EDGAR will be updated and revised as necessary.

§ 100a.171 Notify the appropriate clearinghouses.

Comment. One commenter suggested that this section be deleted because the provisions are redundant or similar to additional requirements established by the clearinghouses.

Response. A change has been made. The section has been revised so that its provisions apply only if superseding requirements have not been established by the appropriate clearinghouses.

§ 100a.172 Applicant shall show compliance with A–95 procedures.

Comment. One commenter suggested that an applicant be required to include a statement with its application that all comments made by or through a clearinghouse have been considered before the application is submitted.

Response. A change has been made. The revised provision requires that the applicant include a statement that comments made by or through a clearinghouse have been considered before submission of the application to the Education Division. This statement is required by the provisions of OMB Circular A–95.

Comment. One commenter suggested that provisions be added requiring the Education Division to notify clearinghouse of major actions taken on applications submitted to them, as provided for in OMB Circular A–95.

Response. A change has been made. The Education Division complies with the requirements of the OMB Circular and there is no need to include provisions to that effect in EDGAR, which is limited to regulations that directly affect applicants for and recipients of funds from the Education Division.

Development of Curricula or Instructional Materials

§§ 100a.190–100a.192

Comment. Several commenters suggested that EDGAR implement Section 1248 of the Education Amendments of 1978 (Pub. L. 95–561), which amends Section 426 of the General Education Provisions Act. Section 426 requires certain procedures to encourage effective dissemination of curricula or instructional materials developed under contracts or grants.

Response. A change has been made. Sections 100a.190–100a.192 have been added to EDGAR to implement Section 426.

Subpart D—How Grants Are Made

Selection of New Projects

§ 100a.200 How applications for new grants are selected for funding.

Comment. One commenter suggested that each program be required to publish applicable EDGAR selection criteria and other provisions that affect the selection of an application.

Response. A change has been made. For the convenience of applicants, program regulations will include applicable EDGAR selection criteria and the weighting factors that apply to them. Appropriate conforming revisions have been made in §§ 100a.200 and 100a.201.

§ 100a.201 How to use the selection criteria.

Comment. Two commenters suggested that all programs be required to use weighted selection criteria, rather than some programs using weighted criteria and others using unweighted criteria.

Response. No change has been made. The question of whether selection criteria should be weighted or unweighted can most appropriately be resolved on the basis of individual program objectives.

Comment. One commenter suggested that EDGAR selection criteria should be given more than 30 percent of the total number of points allocated among several selection criteria.

Response. No change has been made. By assigning a minimum of 30 percent of all points to the EDGAR selection criteria, the regulations assure that each criterion will receive at least the degree of consideration that the EDGAR

weighting factors specify. To assign more than 30 percent of a program's selection criteria points to EDGAR criteria might result in undesirable distortion of priorities which differ among programs. However, a program may increase the weight given to particular EDGAR criteria.

Changes. Section 100a.201 has been revised to reflect the fact that program regulations will repeat the EDGAR criteria, rather than merely referencing them.

§ 100a.202 Selection criterion—plan of operation.

Comment. A commenter asked that EDGAR include a selection criterion that would provide up to five percent of a program's selection points for equitable participation of private school children.

Response. A change has been made. Under a program that requires participation of private school students, applications will be evaluated in part on the quality of the applicant's plan to provide that participation. Because this was not an explicit criterion in the proposed EDGAR, and because applications must soon be submitted under the affected programs, the new criterion will apply to grants made after October 1, 1980, but not to applications for grants in the current fiscal year. Addition of the criterion is appropriate, since under the affected programs the quality of opportunity for participation of private school students is an important factor in judging the overall quality of an application.

The quality of the opportunity for participation may be shown in many ways. The Commissioner expects that the exact nature of participation may vary widely among school districts. Because the views of local private school representatives may be of value in evaluating the plan of operation, applicants are encouraged to submit statements from these representatives covering such points as—

The success of efforts to involve private school representatives in the planning process;

The reasons for differences in program benefits provided to public and private school students; and

Evaluations of past participation by private school students in similar projects administered by the applicant.

Changes. A note has been added after this section to emphasize that the language regarding traditionally underrepresented groups does not mean that a grantee can or should include ineligible participants in its project.

§ 100a.203 Selection criterion—quality of key personnel.

Comment. Several commenters said it is not possible to name the project director and other personnel at the time an application is submitted.

Response. No change has been made. Applicants may describe minimum qualifications when personnel to be employed have not yet been selected. This does not authorize omission of the name and qualifications of the principal investigator of a research project. If actual personnel are not names, the rating for this criterion will be based on the descriptions of qualifications provided in the application.

Comment. One commenter suggested deleting § 100a.203(b)(4) regarding the amount of time each key person plans to commit to the project.

Response. No change has been made. The qualifications of personnel are relevant only to the extent to which those personnel are available to the project; therefore, time commitments are a necessary consideration.

Comment. One commenter suggested that using "past experience" as the primary basis for determining the qualifications of key personnel constitutes a bias against young but otherwise highly qualified personnel.

Response. A change has been made. Section 100a.203(c) has been revised to provide that both experience and training will be considered to determine the qualifications of a person. The section also allows the applicant to include information to support other measures of personnel qualifications, in addition to experience and training.

Comment. One commenter suggested that applicants be required to give an assurance that project personnel will be hired through affirmative action employment procedures.

Response. No change has been made. Affirmative action procedures are required only to overcome the effects of past discrimination and are not necessarily required with respect to the personnel for a particular project.

Comment. Several commenters suggested deleting proposed § 100a.203(b)(3) from the final regulations. That provision dealt with the qualifications of project employees who are members of an applicant's governing body or who are related to members of the governing body or the project staff.

Response. A change has been made. Section 100a.203(b)(3) has been deleted, and paragraphs (4) and (5) have been redesignated as paragraphs (3) and (4), respectively. Section 100a.525 prohibits grantees from allowing certain conflicts of interest in project activities and is considered sufficient.

§ 100a.204 Selection criterion—budget and cost effectiveness.

Comment. One commenter suggested that the section should be more specific with respect to the information that the application should contain on budget and cost effectiveness, possibly even setting support levels to be provided for each participant in a program.

Response. No change has been made. It is not possible to write requirements that would apply to all programs and yet be specific enough to provide useful guidance for individual programs. If specific requirements are needed, they will be in a program's regulations.

§ 100a.205 Section criterion—evaluation plan.

Comment. One commenter suggested that limiting evaluation to "objective, quantifiable methods" is too restrictive in some cases.

Response. A change has been made. The provision has been revised to allow the use of evaluation methods that are appropriate for the project and requires that the methods be objective "to the extent possible." However, applicants will be expected to use objective methods unless the nature of a project makes it impractical to do so.

Selection Procedures

§ 100a.215 How the Education Division selects a new project: purpose of §§ 100a.216–110a.222.

Comment. One commenter suggested that time limits be established for the Education Division to complete its procedures for review and selection or rejection of applications.

Response. No change has been made. The schedule for awarding grants necessarily varies from year to year, depending on congressional appropriations, new program statutes, and other factors that are not always within the control of the Education Division.

§ 100a.216 Returning an application to the applicant.

Comment. One commenter suggested that a provision be added stipulating that an application be returned to the applicant if State approval is required but has not been obtained. Another commenter suggested that applications received after the deadline should also be returned.

Response. No change has been made. If State approval is required but is not obtained, the application would be returned under paragraph (b)(4) of this section, which provides that if a project

cannot be funded—which would include failure to meet legal requirements, such as State approval or the deadline for submission—the application is returned.

Comment. One commenter suggested that an application that is returned under this section be accompanied by a copy of reviewer comments.

Response. No change has been made. This section provides for return of an application that cannot be considered for support. This means these applications are not reviewed, but are eliminated from the competition, and there are no reviewer comments about these applications. The reason for returning an application is explained when the application is returned by the Education Division.

Changes. Proposed § 100a.104(b)—regarding compliance with procedural rules—has been transferred to § 100a.216(a)(2). Proposed paragraphs (a)(2) and (3) have been renumbered as (a)(3) and (4).

§ 100a.217 How the Education Division selects applications for new grants.

Comment. One commenter suggested that a provision be added to allow interested individuals to submit applications for jobs as review panelists.

Response. No change has been made. Methods of recruiting review panelists are concerns of the particular programs, which establish recruitment policies and procedures appropriate to the particular needs of the respective program. Individuals wishing to serve as review panelists for a particular program should write directly to the Education Division unit that administers the program.

Comment. Several commenters offered suggestions regarding the qualifications of the experts that review applications.

Response. No change has been made. The appropriate official of the Education Division uses experts whom the official considers qualified to review an application and to advise the official about it. The qualifications to perform these responsibilities differ widely among programs. A specific definition of expert might unnecessarily limit the official's ability to select appropriate individuals.

Comment. Two commenters suggested that the Education Division delete from EDGAR the prohibitions against a person serving as a member of a panel of experts if the person is an HEW employee engaged in the administration of the program or was involved in the administration of the program within the past year.

Response. No change has been made. Individuals involved in administration of the program are responsible for reviewing the applications after the group of experts has made its assessment. It would therefore not be appropriate for them to also serve as members of the group.

Comment. Two commenters suggested that if the rank ordering of projects is disregarded in the award of one or more grants, the appropriate official should provide a justification for doing so.

Response. No change has been made. Revised § 100a.218(b) requires that the Education Division inform an applicant why its application was not funded. This would include any necessary justification for changing the initial rank ordering of applications.

Comment. One commenter suggested that a provision should be added with regard to the effect on rank order selection of geographical distribution and similar factors.

Response. A change has been made. The change allows the appropriate official to consider any information relevant to any requirement that applies to the selection of applications for new grants. This could include priorities such as geographic distribution. Some programs do not use priorities in the application selection process but rely solely on evaluative selection criteria for this purpose.

Other changes.

1. Paragraph (a) of the proposed section has been deleted as redundant with paragraph (b). The remaining paragraphs have been redesignated accordingly.

2. Redesignated paragraph (d) has been revised to better reflect the procedures used by the Education Division to select applications for funding. The revised paragraph (d) includes material proposed as § 100a.218(a), (b), and (c).

§ 100a.218 Applications not selected for funding.

Changes. This section has been amended by deleting the requirement for each unfunded application to be returned to the applicant.

§ 100a.219 Exceptions to the procedures under § 100a.217.

Comment. Two commenters suggested that the word "mishandled" in paragraph (b)(3) of this section implies that an Education Division decision not to fund an application can be appealed and asked that the appeal process be specified.

Response. No change has been made. A determination that an application was "mishandled" is made solely by the appropriate official of the Education Division on the basis that an administrative error was made in the selection process. The provision does not imply that a decision not to fund a proposed project based on a low score (for example) can be formally appealed by an applicant. A formal appeal of discretionary judgments, such as the scoring of applications, is neither authorized nor established by this section nor by any other section of Part 100a.

Comment. One commenter suggested that an appeal procedure for unsuccessful applicants be added to the project selection procedures.

Response. No change has been made. It is not feasible to have a formal appeal procedure for the thousands of unsuccessful applicants who submit applications each year.

Comment. One commenter suggested that funding without competition should be made more restrictive and less open-ended.

Response. No change has been made. The provision is quite restrictive as currently written. It is limited to: (a) situations in which the objectives of the project could not be achieved if the more time-consuming procedure in § 100a.217 were used; (b) applications under the Joint Funding Simplification Act; or (c) administrative mishandling during the preceding competition that resulted in an application not being funded when it otherwise would have been. The procedures in § 100a.220 should insure that the situations described in (a) are not expanded inappropriately.

§ 100a.220 Procedures the Education Division uses under § 100a.219(a).

Comment. One commenter suggested that the board to review an application being considered for funding without competition should include an LEA representative.

Response. No change has been made. The board's functions are to make the objective determinations specified in paragraphs (c) (1), (2), and (3) and to submit its findings to the appropriate official of the Education Division. The membership of the board is designed to allow expeditious handling of the application, and the addition of non-Federal personnel to the membership could lead to unacceptable delays in processing the application.

Changes. Paragraph (c)(2) has been revised to recognize that some programs have priorities or other requirements, in addition to selection criteria, that govern the selection of applications for funding.

Procedures To Make a Grant

§ 100a.235 The notification of grant award.

Comment. One commenter suggested that the Education Division notify applicants when the project has been approved, in order that "applicants know where they stand" rather than wait until the amount of the award has been determined as a result of negotiations following original selection.

Response. No change has been made. An applicant is informed soon after selection of its application that the proposed project has been recommended for funding, subject to satisfactory agreement on the amount and other matters. The official notification of a grant award is made only if this agreement is reached. The notification of grant award is then issued, which officially establishes the amount of the grant and the legal conditions related to the transfer of funds. The notification of grants award is a legal document that confirms and formalizes matters that both the applicant and the Education Division have agreed to.

Comment. One commenter suggested that the notification of grant award should indicate the proposal or project title to help recipients identify the program to which the notification relates.

Response. No change has been made. The section allows the desired information to be included. It is not desirable to regulate the specific content matter to be included in all award notifications since needs may vary among programs.

Approval of Multiyear Projects

§ 100a.250 Project period can be up to 60 months.

Comment. One commenter suggested that the maximum project period be less than 60 months in order to leave a maximum amount of funds available for competitive awards that are innovative or that are responsive to newly identified needs.

Response. No change has been made. The section allows each program to choose an appropriate maximum project period. If a program wishes to use a multi-year project period, any limits on the length of the project period will be established in the program's application notice. (See § 100a.101(a)(6).) Most multi-year projects are for a period of 36 months.

Changes. Proposed paragraph (a) and (b) have been combined. The reference to the usual project period of 12 months has been deleted since it was not intended as a restriction and could have been confusing.

§ 100a.253 Continuation of a multi-year project after the first budget period.

Comment. Three commenters suggested that provisions should be added about the use of any funds that are left over at the end of the budget period.

Response. A change has been made. A new paragraph (c) provides that the amount of a continuation award is the total amount of funds that the appropriate official determines is needed for the new budget period minus any funds that remain available from the preceding budget period.

Comment. One commenter suggested that the requirement that a grantee must submit every required report before a continuation award is made should be waived under certain conditions. Another commenter suggested that the requirement be clarified as to exactly what reports are required.

Response. No change has been made. Submission of certain reports is a necessary condition to receiving a continuation award. The requirement covers any report that must be submitted before the date of the continuation award. If a grantee is uncertain about the reports that are due under a particular grant, the grantee should contact the Federal grants officer for that project.

Changes. A new paragraph (b) provides that priority for funding is given to continuation awards over new grants. This priority should serve to ensure consistent treatment of applications for continuation awards under all programs of the Education Division. If Congress appropriates sufficient funds, each application for a continuation award will be judged on the basis of the criteria in § 100a.253(a) and will not be subject to competition with other applications. Each application that meets the criteria will be funded before funds under the applicable program are used to make any new grants.

Miscellaneous

§ 100a.260 Allotments and reallotments.

Comment. One commenter suggested that the reference to §§ 100b.230–100b.235 should be dropped and this section revised to say that reallotment of unneeded funds is done "according to statute."

Response. A change has been made to adopt the suggestion. Section 100a.260 contains the revision.

§ 100.261 Extension of a project period.

Comment. One commenter suggested deletion of the requirement that a grantee seeking an extension must make that request at least 45 days before the end of the project period. The commenter explained that the provision implies that a failure to meet the requirement would preclude a desirable extension of the project period.

Response. No change has been made. The Education Division needs an adequate amount of time to review a request for extension.

Changes. A new paragraph (f) has been added to this section to specify that a project period extension is to be used "to carry out the activities in the approved application."

Subpart E—What Conditions Must Be Met by a Grantee

Nondiscrimination

§ 100a.500 Federal statutes and regulations on nondiscrimination.

Comment. Several commenters suggested that clarification is needed as to how grantee compliance with Federal nondiscrimination statutes and regulations is to be demonstrated.

Response. No change has been made. Any necessary clarification of the statutes and regulations listed in this section is presently the responsibility of the Office for Civil Rights, HEW.

Project Staff

§ 100a.510 Use of a project director.

Comment. A number of commenters suggested deleting this section in the belief that it requires a full-time project director; several other commenters objected to the director's being given authority to spend project funds; and one commenter suggested correcting the implication that some projects do not need directors.

Response. A change has been made. The phrase in paragraph (c) requiring that the project director have authority to spend project funds has been deleted. Whether the project director has spending authority may vary, depending on the policy of the applicant. The rest of the section has been left unchanged.

The provisions of this section apply only to a grantee that uses a project director to administer its project; the section does not require a project director. Not all projects need a salaried project director. To require one in all cases would be wasteful of program funds.

§ 100a.511 Waiver of requirement for a full-time project director.

Comment. Several commenters suggested that the waiver provision be deleted to eliminate unnecessary paperwork; one asked that the section be revised to eliminate any implication that EDGAR requires a full-time project director; and one asked that the waiver provision be retained to make an exception possible if particular projects or circumstances make a full-time director unnecessary.

Response. A change has been made. Paragraph (a) has been revised to make it clear that this section does not require a grantee to use a full-time project director. Rather, it authorizes the appropriate official of the Education Division to waive particular program regulations that do require a full-time director, and it establishes conditions for the waiver. The paperwork required has been kept to a minimum, consisting simply of a written request that shows that a waiver is appropriate.

§ 100a.515 Qualifications of project staff. [Proposed]

Comment. One commenter suggested that this section be deleted and left to State and local control as part of their regular personnel operations. One commenter suggested adding the requirement that members of the project staff have appropriate State certification.

Response. A Change has been made. The section has been deleted. Education Division concern about the qualifications of project staff will be resolved through the application requirements in §§ 100a.113 (for formula grant programs) or by § 100a.203 (for discretionary grant programs) and any resulting grant award, or through individual program requirements.

§ 100a.516 Inservice training for project staff. [Proposed]

Comment. Two commenters suggested that this section be revised to make it clear that grant funds may be used for any training that is necessary for project staff.

Response. A change has been made. The section has been deleted. If training of project staff is necessary, the project application or subsequent amendment will specify the conditions associated with the training, making it unnecessary to regulate those conditions in EDGAR.

§§ 100a.515–100a.519 Project staff.

Other changes. Proposed §§100a.517–100a.521 have been renumbered as §§ 100a.515–100a.519.

§ 100a.515 Use of consultants.

Comment. One commenter suggested that this section establish a maximum rate of pay for a consultant.

Response. No change has been made. The authority for a grantee to use its own general policies and practices when hiring a consultant should be sufficient to control the costs of consultant services.

Comment. One commenter suggested that the provision prohibiting the use of grant funds to pay a consultant, unless the project needs the consultant and cannot meet the need by hiring an employee, is too restrictive and counterproductive from the standpoint of cost-effectiveness and should, therefore, be revised or deleted.

Response. A change has been made. The word "hiring" has been changed to "using." This broadens the provision to apply to current employees as well as to those that grantee might hire. The purpose of the requirement is to prohibit the use of consultants if the grantee's employees can perform the same function, thus reducing the cost to the grant.

§ 100a.516 Compensation of consultants—employees of institutions of higher education.

Comment. Two commenters asked for clarification of the phrase "unusual circumstances" as a condition for paying consultant fees to an employee.

Response. No change has been made. The phrase is used in § 100a.516 to mean that grantees must be able to demonstrate that the circumstances involved are sufficiently unusual to justify payments that otherwise would be prohibited. To define the term more specifically could unnecessarily limit the types of circumstances that the Education Division might judge to be unusual.

Comment. One commenter suggested that the provisions allowing an institution of higher education to pay one or more of its employees consultant fees from grant funds should either be deleted or extended to other grantee organizations.

Response. No change has been made. This section does not give special privileges to institutions of higher education or to their employees, but actually restricts the conditions under which employees may be used as consultants. No change is necessary to enable other grantees to pay one or more employees consultant fees, subject to the provisions of § 100a.515, which apply to all grantees. Under § 100a.515 an employee would be able to act as a consultant only if the service is outside the scope of his or her employment contract.

Conflict of Interest

§ 100a.525 Conflict of interest: participation in a project.

Comment. Two commenters suggested that this section apply only to grantees that have no formal conflict of interest policy.

Response. No change has been made. The requirements in § 100a.525 are considered minimal. If a grantee's conflict of interest policies and practices are at least as restrictive as the requirements of this section, the grantee's policies can be applied. If the grantee's policies and practices are less restrictive, the requirements in this section are considered necessary to avoid the most common forms of conflict of interest.

Comment. One commenter suggested clarifying the prohibition against using a project position for "private gain" to make it clear that the intent is to prohibit "financial gain."

Response. A change has been made. Section 100a.525(b) has been revised to make the prohibition apply with respect to "private financial gain."

Allowable Costs

§ 100a.530 General cost principles.

Comment. One commenter suggested that a percentage of an administrative officer's salary should be allowable to satisfy matching requirements.

Response. No change has been made. If all or part of an administrative officer's salary is an allowable cost under terms of the grant, that amount of the salary could instead be claimed as part of a grantee's matching share.

Cross-reference.—See 45 CFR Part 74 Subpart G—Cost Sharing or Matching.

§ 100a.534 Foreign travel. [Proposed]

Comment. One commenter suggested that prior approval by the appropriate official of the Education Division should be required with respect to all travel using grant funds, not just foreign travel. Several commenters suggested that travel to and from Guam, American Samoa, the Northern Mariana Islands, and the Trust Territory of the Pacific Islands should not be considered foreign travel. Other commenters said travel to and from Canada should not be considered foreign travel, and two commenters suggested that travel to and from Mexico should not be considered foreign travel. One commenter asked that clarification be provided as to what constitutes "advance approval."

Response. A change has been made. The section has been deleted. The cost

principles for institutions of higher education, in Appendix D to 45 CFR Part 74, required prior approval for "travel outside of Canada and the United States and its territories and possessions." This is a general policy of the Federal Government contained in OMB Circular A–21, published in the Federal Register on March 6, 1979.

The circular's restriction does not apply to State or local governments or to other grantees of the Education Division. Despite this, the Education Division has in the past extended the restriction to all grantees. Given the concerns raised by the commenters, it has been decided to discontinue this general policy.

Unless otherwise provided in the cost principles appended to 45 CFR Part 74, imposed through a specific condition of a grant, or required by a program statute or regulation, "foreign travel" by grantee personnel will be treated as any other travel, unless an institution of higher education is the grantee. The Education Division considers the "advance approval" required by 45 CFR Part 74 to be satisfied if the travel is specified in an approved application.

The suggestion that all grantee travel be subject to prior approval by the Education Division has been rejected as unnecessarily burdensome.

Indirect Cost Rates

§ 100a.561 Approval of indirect cost rates.

Comment. One commenter suggested that this section be changed to reflect HEW approval of indirect cost rates.

Response. No change has been made. According to applicable law this is a function that cannot be delegated outside of the Education Division. Section 421A of the General Education Provisions Act states that the Commissioner of Education can only delegate his or her authority to an Office of Education employee. The Department of Health, Education, and Welfare performs a service function for the Education Division in computing indirect cost rates but final approval is determined by the Education Division. Whether this will be affected by the creation of the Department of Education is currently being studied.

Comment. One commenter suggested that this section require States to recognize indirect cost rates established by an institution's cognizant Federal auditor in accordance with OMB Circular No. A–88. (This circular requires that all Federal agencies recognize indirect cost rates established by the institution's cognizant Federal auditor. For each institution that receives Federal grants, a particular agency is designated as the institution's cognizant auditor. All Federal agencies recognize the rate set by the cognizant auditor. This policy prevents Federal agencies from using different indirect cost rates for the institution and simplifies the institution's financial relations with the Federal Government.)

Response. No change has been made. There is no statutory authority to require States to recognize federally established indirect cost rates.

Comment. One commenter suggested that paragraph (b) be revised to make it clear that States do not approve rates for State agencies that provide public education for elementary and secondary students even though these agencies are considered local educational agencies under the definition contained in § 100c.1.

Response. A change has been made. Paragraph (b) has been revised to provide that the term "local educational agency" does not apply to State agencies. This revision conforms the section to current practices in the Education Division.

§ 100a.562 Indirect cost rates for educational training projects.

Comment. One commenter suggested that State and local governments not be excluded from application of the limitations on indirect cost rates for educational training projects. Several other commenters suggested that the limitations be removed from institutions of higher education, hospitals, and nonprofit organizations and that they be allowed to have indirect cost rates established in accordance with OMB Circular No. A–21.

Response. No change has been made. The limitations apply to institutions of higher education, hospitals, and nonprofit organizations only. State and local government rates for all programs—other than those that prohibit the use of Federal funds to supplant non-Federal funds—are established in accordance with Appendix C to 45 CFR Part 74. The limitations on other grantees are necessary to ensure that grant funds are used primarily to support project activities, rather than for indirect costs. It has not been necessary to impose similar limitations on State and local governments, since their indirect cost rates generally are much lower than rates for other types of institutions. The limitations represent a longstanding policy that has been the subject of periodic reassessment. Allowing an unrestricted indirect cost rate would have a substantial adverse impact on the amount of training that could be supported with available funds, because of the typically large indirect cost rates of the institutions to which the limitations apply.

§ 100a.563 Restricted indirect cost rate—programs covered.

Comment. Two commenters said that although regulations for the developing institutions programs under title III of the Higher Education Act do not allow indirect cost rates to be charged to grant funds, this section allows these charges under that program.

Response. A change has been made to delete the program from coverage by § 100a.563 and to rely, instead, on the limitations in the program regulations.

Comment. One commenter suggested clarification of the language in this section with regard to Federal funds being used to supplant non-Federal funds.

Response. A change has been made. The section now provides that Federal funds are not to be used to supplant non-Federal funds. The language in the proposed regulations was an incorrect statement of the statutory provisions.

Comment. One commenter suggested clarification of whether or not a "grant award officer" of the Office of Education has the right to question and attempt to change an approved indirect cost rate.

Response. No change has been made. A grant award officer or a representative of a grant award officer may request clarification of an established rate, but no employee of the Education Division has the authority to increase or decrease a rate approved by the Education Division.

Other changes.

(1) Additional programs have been added to the list. However, the list is not necessarily exhaustive.

(2) A new paragraph (c) has been added to allow institutions other than States and local governments to use an eight percent indirect cost rate under these programs, unless the appropriate official of the Education Division determines that the "restricted" rate would be lower. Since many institutions of higher education and other organizations do not presently have a "restricted" rate, this provision can be used to substantially reduce their paperwork burden by allowing them to adopt a predetermined rate, rather than making a full submission to establish a "restricted" rate. The appropriate official retains authority to require affected institutions to use a lower rate if necessary to prevent supplanting.

§ 100a.564 Restricted indirect cost rate—formula.

Comment. Three commenters suggested that the minus sign in the formula should be changed to a division sign.

Response. A change has been made to effect the suggested change. The minus sign was a typographical error.

Comment. One commenter suggested that the concept of restricted indirect costs is not equitable. The commenter said the formula is inconsistent with the cost principles in the Federal Procurement Regulations and with the Cost Accounting Board's Standard No. 402.

Response. No change has been made. The formula is necessary to remove those items included in the general indirect cost rate that would result in Federal funds supplanting non-Federal funds. The cost principles referred to by the commenter are subject to overriding statutory requirements, including those that prohibit supplanting.

§ 100a.565 Administrative charge.

Comment. One commenter suggested that compensation for the chief administrative officer of the grantee and for his or her immediate staff be included in the term "administrative charge."

Response. No change has been made. The exclusions are necessary to avoid using Federal funds to supplant non-Federal funds.

§ 100a.566 Fixed charges.

Comment. One commenter suggested that this section be changed to identify all current fringe benefits.

Response. A change has been made. As revised, the section includes unemployment compensation payments, health insurance payments, and "all similar costs normally considered to be employee fringe benefits."

§§ 100a.565, 100a.566, and 100a.567 Administrative charge, fixed charges, and other expenditures.

Comment. One commenter expressed concern over the terms that are the subject of the cited sections. The commenter says the terms have broad or ambiguous meanings or require an expanded definition and that the final cost objective of each term may be classified as either a direct or indirect cost by a grantee.

Response. No change has been made. Each grantee must classify costs as either direct costs or indirect costs consistently in like circumstances.

§ 100a.567 Other expenditures.

Changes. A qualification has been added to § 100a.567(a)(7) to allow project funds to be used for election expenses that result from elections required by a program statute. Since these expenses result from a program requirement, a grantee is allowed to include them in computing an indirect cost rate.

§ 100a.568 Using the restricted indirect cost rate.

Changes. A conforming change regarding election expenses has been made in the formula in paragraph (a). See the preceding discussion under § 100a.567.

Coordination

§ 100a.580 Coordination with other activities.

Comment. One commenter suggested that the activities with which coordination is required should be limited to those directed to similar target groups and geographic areas, rather than to all those having similar purposes.

Response. A change has been made. The additional qualifications have been added. The change is intended to ensure that compliance with the requirement is feasible for a grantee. Before the change, the section could have been read to require coordination with activities that a grantee would not reasonably have known about.

Other changes. The section has been amended to implement a statutory requirement for coordination under the Basic Skills Program, Title II, ESEA.

§ 100a.581 Methods of coordination.

Changes. Two new paragraphs have been added. Paragraph (c) adds joint activities to activities that might be included in coordination, and paragraph (e) adds use of grant funds to increase the impact of funds provided under other programs. In addition, the opening phrase has been amended to make it clear that if coordination is appropriate, a grantee must use one or more of the methods listed in this section.

Evaluation

§ 100a.590 Evaluation by the grantee.

Comment. Two commenters suggested that evaluation provisions should include requirements for using evaluation to improve a continuing project.

Response. No change has been made. The use to be made of a program evaluation normally would include improvements to a continuing project, but that use would not be possible in all cases.

Comment. One commenter suggested that annual evaluation may not be appropriate in all cases, and another commenter said evaluation requirements should be left to program regulations.

Response. No change has been made. If annual evaluation is not necessary under a particular program, the program regulations will provide for an exception to this section. However, evaluation is believed to be appropriate for determining the effectiveness of most projects. With respect to the second comment, program regulations—where appropriate—may provide more detail regarding a grantee's responsibility to evaluate its project.

Comment. Two commenters suggested that evaluation should focus on the specific target groups to which the activity is directed, rather than focusing on special groups that are not the particular targets of the activity.

Response. No change has been made. Paragraph (c) of this section already provides that the evaluation include an assessment of the effect of the project on those served by the project.

Changes. A new paragraph (c)(2) has been added to require that project evaluations include participating students who are enrolled in private schools, if the program statute requires that those students be provided an opportunity to participate.

§ 100a.591 Federal evaluation—cooperation by a grantee.

Comment. One commenter suggested that the amount of funds that a grantee should be required to spend to cooperate with evaluations should be limited to the amount provided for that purpose by the grant.

Response. No change has been made. The suggested limitation on a grantee's obligation to cooperate with a Federal evaluation study is not feasible. Because most project grants do not include funds specifically designated for evaluation costs the proposed limitation could negate most requests for cooperation. This would be an unacceptable result, inasmuch as grantee cooperation is necessary in order for the Education Division to carry out statutorily required evaluations. Nevertheless, the Education Division recognizes that cooperation could be, in unusual circumstances, a burden on a grantee. In these cases, § 100a.592 (or § 100b.592) can be used by the Education Division to provide compensating relief. In practice, the Education Division generally plans and conducts national evaluations in a

manner that minimizes the burden placed on grantees.

Comment. One commenter suggested that the required cooperation be limited to evaluations required by statute or by an appropriate official of the Education Division.

Response. No change has been made. Grantee cooperation is required only with evaluations that are authorized by statute.

Construction

§ 100a.601 Applicant's assessment of environmental impact.

Comment. One commenter suggested that an applicant's assessment of a project's environmental impact should be included with the application rather than being sent separately to the HEW regional office.

Response. A change has been made. Environmental impact statements are to be provided with the application in accordance with application submission requirements. The change is intended to simplify the procedures to apply for Education Division grants.

§ 100a.602 Preservation of historic sites must be described in the application.

Changes. This section was revised to reflect the expanded coverage of 45 CFR Part 800. These regulations of the Advisory Council on Historic Preservation now cover property that is *eligible* for inclusion in the National Register of Historic Places. This protection of eligible property is in addition to the protection already afforded to property now on the National Register.

Publication and Copyrights

§ 100a.620 General conditions on publication.

Comment. Several commenters suggested deleting the requirement that published project materials avoid race stereotype or sex bias on grounds that the prohibition violates Section 432 of GEPA and infringes guarantees under the First Amendment of the Constitution. They also objected to the seemingly broad scope of the requirement, arguing that there would be unwarranted restrictions on the content of these materials. One commenter suggested providing an exception for materials in which the presentation of those stereotypes and biases are necessary to the purpose of the materials.

Response. A change has been made. The requirement has been deleted. Given the uncertain scope of the requirement, a regulation on this subject will not be adopted at this time. The Secretary of Education has decided to study this issue, and therefore the provision will not be adopted at this time. If it is determined at a later date that a regulation is appropriate, further public comment will be requested in a notice of proposed rulemaking published in the **Federal Register.** However, grantees are expected to be sensitive to the necessity of avoiding inappropriate biases and stereotypes in materials developed with Federal funds.

§ 100a.621 Copyright policies for grantees and contractors.

Comment. One commenter suggested that limitations to copyright that are specified in the Copyright Law (Pub. L. 94–553) should be incorporated into Part 100a.

Response. No change has been made. EDGAR governs the circumstances under which a grantee may apply for a copyright and the grantee's use of royalty income (by reference to 45 CFR Part 74). However, EDGAR does not include any regulations that implement or interpret the Copyright Law. Any regulations under that law would be issued on a Government-wide basis, not by the Education Division.

Comment. One commenter suggested that there be some limitations on a grantee's right to copyright materials.

Response. No change has been made. The purpose of allowing a grantee the unrestricted right to copyright materials is to encourage the grantee to disseminate the materials more widely. It is the intention of the regulations that grantees who achieve successful dissemination should benefit from owning the copyright to the materials. Further, the change from past practice will reduce burdensome paperwork, both for grantees and for the Federal Government.

§ 100a.622 Definition of "project materials."

Changes. This section has been revised to make the definition of "project materials" apply to §§ 100a.620 and 100a.621, rather than only to § 100a.620, as proposed in the NPRM.

Other Requirements for Certain Projects

§ 100a.650 Participation of students enrolled in private schools.

Comment. One commenter suggested that this section be revised to emphasize that eligible private school children must be given a genuine opportunity to participate if the authorizing statute provides for their participation.

Response. A change has been made. The change provides the suggested emphasis and conforms to similar language used in § 100b.651.

Comment. One commenter suggested that if public school systems have no authority to obtain necessary data from private schools, the public school systems should not be held responsible for the compliance of private schools with the nondiscrimination requirements of Title VI of the Civil Rights Act (CRA) in connection with the participation in Federal programs of children enrolled in private schools.

Response. No change has been made. Sections 100b.651–100b.662 contain rules for providing opportunities for students enrolled in private schools to participate in federally assisted programs. The rules include a number of responsibilities that applicants, grantees, and subgrantees have with respect to providing those opportunities for participation.

In fulfilling these responsibilities, an applicant, grantee, or subgrantee may need certain information about programs and services available to students enrolled in private schools and about the needs of these students. The applicant, grantee, or subgrantee is obligated to seek information that is necessary to fulfill these responsibilities. The information may be provided by representatives of students enrolled in private schools, by the students themselves, or by other knowledgable and responsible individuals or organizations.

Nothing in these regulations requires an applicant, grantee, or subgrantee to undertake responsibilities that cannot properly be fulfilled because of lack of necessary information from or lack of participation by representatives of private school students. However, the applicant, grantee, or subgrantee is expected to make appropriate efforts to obtain the information and participation needed to provide federally assisted program services to eligible students.

The Education Division expects that information and appropriate participation will be provided by representatives of students enrolled in private schools, by the students themselves, or by other knowledgeable and responsible individuals and organizations.

These regulations do not govern compliance with Title VI of the Civil Rights Act and, therefore, do not address the commenter's concern with that aspect of private school students' participation.

Cross-reference.—§ 100a.500 Federal statutes and regulations on non-discrimination.

Other changes. Proposed § 100a.680 has been renumbered as § 100a.650.

§ 100a.681 Indian Self-determination and Education Assistance Act. (Proposed)

Changes. This section has been deleted. Because of the varying requirements under the programs affected, it is not possible to provide consolidated regulations on this subject.

Changes. Proposed §§ 100a.682–100a.685 have been renumbered as §§ 100a.681–100a.684.

§ 100a.681 Protection of human research subjects.

Changes 1. A cross reference to 45 CFR Part 46 has been added to this section. Part 46 contains the HEW regulations covering the protection of human research subjects. A proposed rule that revises these regulations was published in the Federal Register on August 14, 1979 (44 FR 47688). The proposed rule states an exception to the coverage of that part for certain kinds of educational research. Most projects funded by the Education Division will be exempt from the Part 46 institutional review board requirements. However, the EDGAR section affirms a basic policy of the Education Division—a grantee must protect human research subjects from injury.

2. The section has been revised by substituting the term "social injury" for "sociological harm." This change makes the provision consistent with terminology used in 45 CFR Part 46. Another revision makes it clear that the requirement only extends to injuries that might result from the project.

3. Proposed § 100a.682 has been renumbered as § 100a.681.

Subpart F—What Are the Administrative Responsibilities of a Grantee?

General Administrative Responsibilities

§ 100a.701 The grantee administers or supervises the project.

Comment. One commenter suggested that the prohibition against a grantee transferring responsibility to others be clarified.

Response. A change as been made. Paragraph (b) has been deleted because paragraph (a), which requires direct administration, accomplishes the same result. It should be noted that the requirement that a grantee directly administer or supervise administration of project does not preclude obtaining particular services, materials, or other needs by contract. However, it does preclude a grantee from being a "conduit" for the grant funds by passing on its responsibility for the project to another party.

§ 100a.702 Fiscal control and fund accounting procedures.

Comment. One commenter suggested that this section specifically require a double entry system of accounting.

Response. No change has been made. The requirement that the control and accounting systems used by the grantee result in "proper disbursement of and accounting for Federal funds" is believed to be adequate without compelling grantees who do not use double entry accounting to institute that system for handling Federal funds.

§ 100a.707 When obligations are made.

Comment. One commenter suggested that this section should make clear that a ruling by the Internal Revenue Service that a personal service contractor is actually an employee rather than a contractor, does not affect the date when the Education Division considers the obligation to have been made.

Response. No change has been made. If the personal services contract was entered into legally, and in good faith that the arrangement was a contract and not an employee-employer relationship, the provisions of paragraph (c) would be considered binding by the Education Division even if the Internal Revenue Service ruled, for its own purposes, that the relationship is that of an employer and an employee.

Comment. One commenter suggested that personal services by a contractor should be considered to constitute obligations at the time the services are performed, rather than on the date the grantee makes a binding written commitment for the personal services.

Response. No change has been made. To achieve the purposes of the project, performance under a personal services contract may be necessary after the end of the project period. The Education Division may wish to reimburse grantees in these circumstances, and therefore has not adopted the comment.

Note.—Under § 100a.707(b), the phrase "personal services by an employee of a grantee" refers only to services that are within the scope of the employment agreement.

§ 100a.708 Prohibition of subgrants.

Comment. Three commenters suggested that the prohibition against subgrants, unless specifically authorized by statute, should be made less restrictive to allow a State educational agency to make subgrants from Federal grant funds it receives.

Response. No change has been made. Any grants made to State educational agencies under Part 100a are awarded on a competitive basis. (All State formula grant programs are covered under Part 100b of EDGAR.) The purpose of a grant—under a program covered by Part 100a—is to help the recipient carry out its own project. No program listed in § 100a.1 provides Federal funds that are intended for use by recipients other than those directly awarded the grants. Where Congress intended to authorize States to award subgrants, provision is made in the program statute. Those programs are covered under Part 100b.

Comment. Three commenters suggested that the section should be revised to allow grantees to enter into contracts using grant funds.

Response. A change has been made. A new subsection (b) has been added to make clear that a grantee may enter into contracts using grant funds awarded under Part 100a. There was no intent under the proposed section to prohibit contracting under a grant.

Reports

§ 100a.720 Financial and performance reports.

Comment. One commenter suggested that nonprofit grantees should be required to submit financial and performance reports more frequently than annually, primarily because those organizations frequently have deficient financial accounting systems.

Response. No change has been made. Section 100a.720(c) authorizes the appropriate official of the Education Division to require a grantee to report more frequently than annually under certain circumstances, including those referred to by the commenter. However, it is better to make these exceptions case by case, in order to avoid an undue paperwork burden on other grantees.

Comment. Two commenters suggested that financial and performance reports should be required only once a year from grantees of the National Institute of Education, rather than quarterly as the proposed section provided.

Response. A change has been made. Financial reports to NIE are required annually, but the Director of NIE is authorized to require performance reports more often than annually. The National Institute of Education believes that because of the nature of research projects, proper monitoring sometimes requires performance reports more often than annually.

§ 100a.721 Reports under the Joint Funding Simplification Act.

Changes. This section has been added to EDGAR to allow the appropriate official of the Education Division, in cooperation with other Federal or State agencies involved in a grant, to

determine the frequency of financial and performance reports necessary for a grant under the Joint Funding Simplification Act.

Records

§ 100a.730 Records related to grant funds.

Comment. One commenter suggested that the general requirement to keep "records to facilitate an effective audit" is too broad and should be revised to require that the funding agency specify the records that are to be kept to facilitate an audit.

Response. No change has been made. This is a statutory requirement established by Section 437 of the General Education Provisions Act. It is not possible to write general regulations that specify every type of record that should be kept for audit purposes, since programs and projects vary so widely. However, the Education Division will provide technical assistance, at the request of a grantee, regarding appropriate recordkeeping policies.

§ 100a.731 Records related to compliance.

Comment. Several commenters said the requirement that a grantee "keep records to show its compliance with Federal statutes and regulations that apply to the grant" is too broad and might require grantees to generate a wide range of records that are only peripherally related to the grant. Commenters suggested that recordkeeping requirements be limited to those specified by Subpart D of 45 CFR Part 74, in accordance with OMB Circular A–110.

Response. A change has been made. The section now refers to "program requirements" rather than to "Federal statutes and regulations." This change is intended to make it clear that the section does not require a grantee to keep records on matters not directly associated with the purposes and uses of the grant. However, the grantee must keep records that enable it to show that it has met applicable program requirements.

§ 100a.734 Record retention period.

Comment. Two comments suggested that the requirement to retain records for five years is excessive and should be reduced to two or three years.

Response. No change has been made. The five-year retention period is requird by Section 437(a) of the General Education Provisions Act.

Comment. One commenter suggested clarification of the phrase "completion of the activity" to make the beginning of the retention period more definite.

Response. A change has been made. A cross-reference is made to 45 CFR 74.22—Starting date of retention period.

Other changes. This section has been simplified to say that unless a longer period is required under 45 CFR Part 74, a grantee must retain records for five years. The change is intended to eliminate confusion about the applicability of requirements in 45 CFR Part 74. The 45 CFR Part 74 provisions requiring a three-year record retention period are superseded by the statutory requirements of Section 437 of GEPA, on which this section is based, to the extent that Section 437 would require a longer retention period.

Privacy

§ 100a.741 Protection of students' privacy in research and testing.

Changes. This section has been amended by incorporating the statutory provisions referenced in the proposed regulations.

Data Collection by a Grantee

§§ 100a.750–100a.754.

Changes. These sections have been amended to incorporate the latest interpretations and procedures relating to the Federal Education Data Acquisition Council (FEDAC) and the Office of Management and Budget (OMB). References to OMB review of some data collection instruments are included because of the occasional cases in which the data collection activity does not come under the FEDAC procedures.

Subpart G—What Procedures Does the Education Division Use To Get Compliance?

§ 100a.901 Suspension and termination.

Changes. This section has been amended to reflect the fact that the Education Appeal Board, rather than the Departmental Grant Appeals Board, will have jurisdiction over suspension and termination proceedings under any of the Office of Education programs listed in the table following § 100a.1.

§ 100a.903 Effective date of termination.

Comment. One commenter suggested that termination be made effective on delivery to the grantee of the notice of termination or on a date specified by the Education Division in the notice, whichever is later.

Response. A change has been made. The section has been rewritten to provide that termination is effective on the latest of (a) the date of delivery of the termination notice to the grantee, (b) the date specified in the termination notice, or (c) the date a final decision is made by the Commissioner under Part 100d (Education Appeal Board Procedures) or by the Departmental Grant Appeals Board under 45 CFR 16.10. These changes provide needed flexibility in setting termination dates and recognize the jurisdiction of the Education Appeal Board over terminations under Office of Education programs.

PART 100b—STATE-ADMINISTERED PROGRAMS

General Comments

Comment. One commenter asked for a clarification of how this part relates to public junior or community colleges, and suggested that all regulations that apply to public junior or community colleges be contained in separate sections.

Response. No change has been made. If a limited group of agencies is intended, a limiting term (such as "local educational agency") is used, and the regulations apply only to members of that group. If no limitation is intended, a general term (such as "applicant" or "subgrantee") is used.

Cross-reference.—See 45 CFR Part 100c—Definitions.

Subpart A—General

Regulations That Apply to State-Administered Programs

§ 100b.1 Programs to which Part 100b applies.

Changes. Various technical corrections have been made in the list of programs subject to Part 100b.

Eligibility for a Grant of Subgrant

§ 100b.50 Statutes determine eligibility and whether subgrants are made.

Changes. Proposed § 100b.4 has been renumbered as § 100b.50 to conform more closely to the numbering in Part 100a. This and similar numbering changes should make it easier for readers to use Parts 100a and 100b.

§ 100b.51 A State distributes funds by formula or competition.

Comment. One commenter suggested that this section should be changed to recognize that there may be programs that permit the State to make subgrants either by formula or by competition at the State's option.

Response. A change has been made to adopt the substance of this suggestion.

Comment. One commenter questioned the clarity of the term "objective formula" as used in subparagraph (a).

Response. A change has been made. The adjective "objective" has been deleted. The distinction being made is between programs in which a State has little discretion in selecting applications or establishing the amount of a subgrant because there is a statutorily required formula for intra-State distribution of the program funds, and programs in which the State has substantial discretion in these matters.

Other changes. Proposed § 100b.5 has been renumbered as § 100b.51.

Subpart B—How a State Applies for a Grant

State Plans and Applications

§ 100b.101 The general State application.

Comment. One commenter asked why this section was limited to local educational agencies (LEAs) and why no mention was made of public junior or community colleges.

Response. No change has been made. This section implements Section 435 of the General Education Provisions Act, which applies only to programs under which SEAs make subgrants to LEAs. Since public junior or community colleges do not provide elementary or secondary education, they are not covered under the usual statutory definition of LEA. The State Vocational Education Program, which does include them (see the definition of "local educational agency" in Part 100c), is not subject to the State general application requirement. The program has its own general application required by the program statute.

Comment. One commenter suggested that the assurance that "each program will be administered in accordance with all applicable statutes, regulations, program plans, and applications" includes civil rights and other similar statutes and regulations. Therefore, these documents should not have to be submitted with every plan or application.

Response. No change has been made. Civil rights assurances are required by the civil rights regulations referenced in § 100b.500. Amendments to those regulations are outside the scope of EDGAR.

Comment. One commenter suggested that procedures be established, including formal notification in writing, to inform members of traditionally underrepresented groups regarding consultation in the planning process.

Response. No change has been made. Because program statutes vary widely regarding participation of various groups in the planning process, it is not feasible to have a general rule that would apply to all of the programs listed in § 100b.1.

Changes. This section has been amended to incorporate statutory provisions that were referenced in the proposed regulations

§ 100b.102 Definition of "State plan" for Part 100b.

Comment. One commenter suggested that the fact that § 100b.102 includes programs involving public junior or community colleges does not meet the problem that § 100b.101 does not include those institutions.

Response. No change has been made. The general application, which covers only programs under which SEAs make subgrants to LEAs, does not apply to all of the programs listed in § 100b.1. Under some of those programs, no subgrants are authorized. Under others, LEAs are not eligible for subgrants. The definition of "State plan" in § 100b.101 is simply used as a term of convenience to refer to the various documents—not including the State general application—that are subject to various EDGAR requirements, such as the requirement for certification under § 100b.105. Therefore, the State plan or application for each program is referenced in § 100b.101.

Comment. One commenter suggested that the Migant Education Program be listed in § 100b.102.

Response. A change has been made. This suggestion has been adopted. The State application under the migrant program is subject to many of the same rules as the other "State plans" listed in this section.

Other changes. Various corrections have been made to the list of documents covered by this section.

§ 100b.103 Three-year State plan

Comment. One commenter suggested that because paragraph (b) permits the Commissioner to establish a staggered schedule for the submission of three-year State plans, the Commissioner should not ask for the submission of a State plan more often than once every three years.

Response. No change has been made. The establishment of three-year State plans is at the discretion of the Commissioner. The establishment of a staggered schedule would, in the first years, involve the submission of State plans by some States at less than a three-year interval. If there is no objection to the staggered schedule, the Commissioner must be able to take the necessary steps to begin it.

Comment. Several commenters suggested that three-year State plans should not be permitted or, alternatively, that the regulations should require annual amendment of three-year State plans.

Response. No change has been made. The Commissioner believes that making each State plan effective for three years in desirable to reduce paperwork and to improve the quality of each State plan. To require annual updating would largely defeat the advantages of three-year State plans. The Commissioner does, however, retain the right to require an amendment if he or she determines that one is essential. Further, this determination may be made on a case by-case basis or in individual program regulations.

Cross-reference.—See § 100b.140 Amendments to a State plan.

Also, this section does not prevent the Commissioner from obtaining necessary information through reports from the States, rather than in the State plans. Amendments to State plans should be submitted as necessary, not on a predetermined schedule that ignores the need for amendment.

Changes. 1. Certain documents required under Title I of the Vocational Education Act, the Library Services and Construction Act, and Sections 141–143 of ESEA are specifically exempted from application of this section. These exemptions are necessary to accommodate the annual need for these documents.

2. States are given the option of submitting annual plans under the Vocational Education Program, rather than three-year plans. This change is necessary to avoid undue burden on some States that are finding it more convenient to submit annual plans under this program.

§ 100b.104 A State shall include certain certifications in its State plan.

Comment. One commenter suggested that the certifications required by this section be submitted as a part of the State's general application under § 100b.101.

Response. No change has been made. These are two different kinds of statements. The general application includes statutory assurances that remain in effect from year to year but does not contain the specific programmatic information in the State plans that makes the certification necessary.

Comment. One commenter suggested that paragraphs (3), (4), and (5) are redundant and should be dropped.

Response. No change has been made. These paragraphs are necessary to assure the Commissioner that State law will not conflict with implementation of the State plan.

Comment. One commenter suggested that each State should hold a public hearing on each State plan, particularly now that State plans may cover three years.

Response. No change has been made. Under Section 435 of GEPA, public hearings on State plans are required only for programs administered by State educational agencies, under which subgrants are made to LEAs, (see § 100b.101), or programs that have specific requirements for public hearings in the authorizing statutes (such as the State Vocational Education Program (see 45 CFR Part 104)). To extend this requirement to other State-administered programs would put a burden on States and might go beyond the Education Division's legislative authority.

Cross-reference.—See § 100b.101 The general State application.

§ 100b.105 The Governor has 45 days to comment on the State Plan.

Comment. Two commenters suggested that a State be allowed to submit its State plan to the Commissioner at the same time it submits it to the Governor under OMB Circular A–95.

Response. No change has been made. Circular A–95 provides for the Governor's comments or a statement that no comments were received to be submitted with the State plan. A State may send an advance copy of its State plan to the Commissioner to review in draft form. However, the Commissioner cannot approve the State plan until the requirements of this section have been met.

Comment. One commenter objected to the apparent requirement that the 45-day comment period for the Governor and the 60-day publication period required by Section 435(b)(7) (B) of the General Education Provisions Act (now in § 100b.101(e)(7)(ii)) must run consecutively, which would substantially delay submission of State plans.

Response. No change has been made. The Commissioner interprets the statute and the circular as permitting the two periods to run concurrently.

§ 100b.106 State plan is public information.

Comment. One commenter suggested that it should be possible to exclude personally identifiable data from the materials that a State must make available for public inspection.

Response. A change has been made. Paragraph (a)(4) of the proposed rules has been deleted. That paragraph would have required the State to make available to the public "all documents that a State uses to administer or operate a program." The remaining documents subject to this section, such as State plans, do not contain personnally identifiable information that if released would violate an individual's privacy. States would still be expected to make available at least some of the documents that would have been covered under proposed paragraph (a)(4), but may delete confidential information if appropriate.

Comment. One commenter suggested that "available for public inspection" should be interpreted to mean that a member of the public may look at or review documents under the supervision of State personnel or may purchase copies at a reasonable cost.

Response. No change has been made. Each State may establish reasonable rules and procedures for public access. Detailed requirements established by the Commissioner should not be necessary.

Comment. One commenter suggested that correspondence should not be considered public information. The commenter also asked whether "all documents" includes forms.

Response. A change has been made. As noted in the response above, paragraph (a)(4) of the proposed section has been deleted. In general, if a State uses a form in a Federal program, it should make that form available on request. States are also expected to make non-confidential correspondence available, but this section would not require release unless the correspondence was related to the State plan (see § 100a.106(a)).

Comment. One commenter suggested procedures permitting interested parties to notify the State of their interest in inspecting identified State plans. The State would then inform the interested parties, in writing, of the time and place a State plan could be inspected. Further, copies of a State plan would have to be sent by the State to those parties requesting it.

Response. No change has been made. A State may establish reasonable procedures of its own, but the Commissioner believes that detailed Federal procedures to apply to all States are unnecessary and would be overly burdensome.

Other changes. Approved subgrant applications have been added to the list of materials that must be made available for public inspection.

Amendments

§ 100b.140 Amendments to a State plan.

Comment. One commenter objected to giving the Commissioner the authority to require an amendment to a State plan. The commenter said that if the Commissioner approves a State plan, that approval should last through the life of the plan.

Response. No change has been made. The regulations indicate that the Commissioner may require an amendment if it is determined to be essential. This is a statutory requirement from Section 430(a) of GEPA. An example of a situation which would make an amendment essential is a change in the program statute or a change in State law or procedures that has a significant effect on the State's administration of the plan. The Commissioner and the State cannot properly administer a program under procedures that have been changed by a new statute or under other circumstances that would make an amendment to the plan essential.

Comment. A commenter suggested that a State should not have to amend its State plan if a change in administration or operation is still clearly in compliance with the law and the regulations. A description of that type of changes could be made in an appendix to an annual report.

Response. No change has been made. An amendment is required only if a change is significant and relevant. If the change in administration or operation alters the nature of the program or program activities so that the program is no longer what was originally approved by the Commissioner, the State needs the Commissioner's explicit approval to operate under the new policy or procedure. An amendment is the procedure to obtain that approval.

§ 100b.141 An amendment requires the same procedures as the document being amended.

Comment. Several commenters suggested that an amendment should not have to go through the same procedures as the original document. They suggested that many amendments are merely technical in nature and that the broad considerations treated in the clearance process are not necessary for amendments. One commenter suggested that a public hearing not be required if the amendment is minor.

Response. No change has been made. If an amendment to a State plan is required under § 100b.140, it is appropriate for the amendment to be subject to review by the same

organizational units, officials, or groups that were required to review the original plan or other document before it was submitted to the Education Division. The same would be true for other formal documents the State must submit under a program. Under the provisions of § 100b.140, minor or technical changes that are not significant may not require formal amendment of the State plan or other document.

Subpart C—How a Grant Is Made to a State

Approval or Disapproval by the State

§ 100b.202 Opportunity for a hearing before a State plan is disapproved.

Comment. One commenter suggested that a State should be entitled to a hearing within 60 days after disapproval of its State plan is received and that the issue should be resolved within an additional 60 days.

Response. No change has been made. Disapproval of a State plan is a drastic step that would only be used as a last resort. Since the Commissioner does not expect to have to disapprove any State plans, procedures for disapproval would be developed, if necessary, for each case. The Commissioner would, of course, provide the State with an expeditious hearing and final decision if disapproval were to become necessary.

§ 100b.235 The notification of grant award.

Comment. One commenter suggested that the Commissioner notify all States of the approval of a grant application by March 1 preceding the fiscal year in which the grant award is to be made.

Response. No change has been made. Early approval is very desirable, but it would depend on the enactment of appropriation acts, the State's early submission of plans, and other factors not under control of the Commissioner. However, the Office of Education continually works with the States to get earlier approval of State plans every year. Also, the implementation of the three-year State plan may make it possible to accomplish the commenter's purpose, at least in the second and third years of those plans, since there will not be a new approval process to go through.

Changes. Proposed § 100b.203 has been renumbered as § 100b.235.

Allotments and Reallotments of Grant Funds

§ 100b.260 Allotments are made under program statute.

Comment. One commenter suggested that the regulations describe the manner in which a State's need will be determined for reallotment purposes. Another commenter suggested that the State be given an opportunity to expend funds before the Commissioner withdraws them, and one asked if State administrative funds might be withdrawn, as well as local program funds.

Response. A change has been made. Proposed § 100b.230 has been renumbered as § 100b.260 and revised to provide that any reallotment of funds by the Commissioner is made in accordance with the authorizing statute. Proposed §§ 100b.231, 100b.232, 100b.233, and 100b.235 have been deleted. Proposed § 100b.234 has been renumbered as § 100b.261 and provides that reallotted funds are part of the grant of the State that receives the reallotted funds.

The proposed regulations being eliminated include those relative to establishing a State's need for reallotted funds. Because reallotment is a rare occurrence, detailed regulations in EDGAR are not necessary.

If the State has no need for administrative funds, and if it is not authorized or is unable to use them as program funds, the Commissioner may reallot them.

Subpart D—How To Apply to the State for a Subgrant

§ 100b.300 Contact the State for procedures to follow.

Comment. Two commenters suggested that a provision be added to Part 100b that would authorize State educational agencies (SEAs) to approve multi-year applications under which annual continuation of funding would be simpler than under procedures for annual applications. The commenter specifically suggested that SEAs be authorized to adopt continuation procedures similar to those in §§ 100a.117 and 100a.118. Another commenter raised the same issue in the form of a question about State authority to approve multi-year applications.

Response. No change has been made. If the authorizing statute or regulations for a program do not prohibit or otherwise preclude approval of multi-year applications, an SEA is free to adopt these practices. States currently use multi-year application procedures in administering programs authorized under Title IV of the Elementary and Secondary Education Act. If a State chooses to use this kind of system, funding for activities after the first year of a multi-year project must be made subject to the availability of funds.

§ 100b.301 Local educational agency general application.

Comment. One commenter suggested that the term "general application" is confusing and that the term "statement of assurances" should be used instead.

Response. No change has been made. The term "general application" is the term used in the statute; i.e., Section 436 of GEPA. It is probably less confusing to use terminology that is consistent with the Act.

Changes. This section has been amended by incorporating the statutory material referenced in the proposed rules.

§ 100b.302 The notice to the subgrantee.

Comment. One commenter asked if the State must send the subgrantee a copy of the applicable statute and regulations along with the subgrant award document.

Response. No change has been made. A State is not required to provide the subgrantee a copy of the applicable statute and regulations but is encouraged to do so. The State would be expected to provide a copy on request. Distribution of pertinent program requirements is a general administrative duty of the State.

Cross-reference.—See §§ 100b.770–100b.772—Administrative duties of the State.

§ 100b.303 Joint applications and projects.

Comment. Several commenters suggested that it is inefficient and wasteful for a number of subgrantees to combine their subgrants in order to conduct a joint project if they must maintain a separate accounts for the funds each contributes. The commenters suggested that it would be more efficient for one subgrantee to serve as fiscal agent for all the subgrantees and then treat the combined subgrants as a single account.

Response. A change has been made. This section provides a method for both applying for and administering a joint project with one account. The method requires submission of a single joint application if several applicants apply for one combined subgrant.

Under a program in which subgrant amounts are entitlements of the individual subgrantees and must be used for particular purposes, it is necessary for each subgrantee to remain separately accountable for the use of the funds it receives. This would not prevent a State agency—under a program that gives the agency discretion to select subgrantees—from allowing eligible applicants to apply as a consortium

under procedures like those described in §§ 100a.127–100a.129. In such a case, there would only be one subgrantee that would be accountable for all subgrant funds. The other participants would be legally responsible for the funds they receive to carry out their assigned parts of the project.

§ 100b.304 Subgrantee shall make subgrant application available to the public.

Comment. One commenter suggested that this section of EDGAR take precedence over 45 CFR 121a.234 and 45 CFR 121a.280 of the regulations for the Federal education of handicapped children program, which the commenter considered more restrictive.

Response. A change has been made. Section 100b.304 has been revised to require that a subgrantee shall make available to the public any application, evaluation, periodic program plan, or report relating to a program. Although Section 436 applies only to local educational agencies, the policy it expresses is extended to all subgrantees by these regulations. 45 CFR 121a.234 of the handicapped program regulations has been revoked by the revisions published with this document. The regulations in 45 CFR 121a.280 relate to public hearings by State educational agencies on State plans. This section of EDGAR does not deal with that matter.

§ 100b.305 Amendments to applications.

Comment. One commenter suggested that the words "unless the SEA deems otherwise" be added.

Response. A change has been made. This section has been revised to require that only significant amendments to subgrantee applications require the same procedures as the application itself. The purpose of the change is to avoid for minor changes the necessity for formal amendment of the application. Procedures regarding minor changes are left to the discretion of the State.

Subpart E—How a Subgrant Is Made to an Applicant

§ 100b.400 State procedures for reviewing an application

Comment. One commenter suggested that the requirement in paragraph (b) that a State must approve an application does not take into account a situation in a discretionary program in which there are insufficient funds. Another commenter suggested that the requirement does not provide for situations in which a State is either prohibited from or required to establish funding priorities.

Response. A change has been made. Titles have been added to make it clear that paragraph (b) refers only to formula subgrant programs. Under these programs, any State priorities will be governed by the State's authority under the applicable Federal statutes and regulations.

Comment. Two commenters objected to the requirement in paragraph (b) that a State must fund an application if, among other things, the applicant complies with Federal statutes and regulations. The commenter said that the requirement does not recognize a State's interests in adopting State rules that may be more stringent than Federal regulations.

Response. No change has been made. A State may adopt reasonable rules and procedures that are not inconsistent with Federal statutes and regulations. However, paragraph (b) applies to programs in which local agencies are entitled to receive Federal funds. Under these programs, a State must provide the funds if the agency qualifies under the Federal statutes and regulations. The addition of paragraph titles clarifies this distinction.

Other changes. Paragraph (c)(1) has been revised to make it clear that only eligible applicants may receive a subgrant. Eligibility is determined under the program statute and implementing regulations. Paragraph (d) has been rewritten to make its intent clearer.

§ 100b.401 Disapproval of an application—opportunity for a hearing.

Comment. One commenter suggested that there does not appear to be any explanation of why the particular programs are identified in proposed paragraph (b). One commenter wanted clarification of the specific programs that are listed.

Response. No change has been made. The programs listed are those for which the authorizing statutes require an opportunity for a hearing before the State can disapprove an application. Proposed paragraph (b) has been redesignated as paragraph (a), the list has been corrected, and the programs put in the same order as they appear in the table in § 100b.1. Proposed paragraph (a) has been revised and renumbered as paragraph (c), the content of which is discussed below.

Comment. One commenter suggested that under paragraph (a) (as redesignated) all applicants for funds under the listed programs should not have a right to a hearing before decisions are made regarding approval or disapproval. The commenter suggested that the hearing referred to in paragraph (a) be available only after disapproval.

Response. No change has been made. The authorizing statutes for the programs listed require a State to provide for a hearing before disapproval of an application.

Changes. Proposed paragraph (c) has been redesignated as paragraph (b) and revised to clarify the responsibilities of State agencies other than SEAs. Revised paragraphs (c) and (d) specify the conditions and procedures under which an SEA is required to provide an applicant with an opportunity for a hearing if the SEA does not approve an application. The new paragraphs implement procedures required under Section 425 of GEPA. A new paragraph (e) recognizes that State agencies other than SEAs are not bound by the procedures in Section 425 of GEPA, even if they must provide a hearing under a program listed in paragraph (a).

Allowable Costs

§ 100b.530 General cost principles.

Comment. One commenter noted that this section contains a cross-reference to Subpart Q of 45 CFR Part 74 which, in turn, contains a cross-reference to the cost principles in the appendices to 45 CFR Part 74. Appendix C gives the granting agency authority to approve costs of its grantees that are State or local governments. The commenter suggested that a State that is a grantee of a Federal agency may be, in turn, a granting agency itself when it makes a subgrant to a subgrantee. The commenter suggested that the State ought to have authority to approve costs of its subgrantees.

Response. No change has been made. The Commissioner interprets the cost principles in the manner suggested by the commenter. See the discussion under § 100b.707 in this appendix.

§§ 100b.532–100b.533 Particular cost items.

Changes. These sections replace proposed § 100b.531, which cross-referenced identical rules in §§ 100a.532–100a.534. For the convenience of readers, the text of §§ 100a.532 and 100a.533 is now repeated, rather than cross-referenced. Proposed § 100a.534 on foreign travel has been deleted. Foreign travel by grantees or subgrantees that are institutions of higher education is regulated under 45 CFR Part 74. (See the discussion under § 100a.534 in this appendix.)

§ 100b.534 Use of tuition and fees restricted.

Changes. This section has been added to replace the existing § 100b.58 in the General Provisions Regulations for Office of Education Programs. No change in the existing regulations is intended, other than clarifying the language.

Indirect Cost Rates

§ 100b.561 Approval of indirect cost rates.

Changes. This section has been rewritten to conform to § 100a.561. See the preceding discussion under that section.

§ 100b.563 Restricted indirect cost rate—programs covered.

Changes. The list of programs in the proposed section has been corrected and proposed § 100b.562 has been renumbered as § 100b.563. The numbering change is to conform the numbering to that used in Part 100a.

Coordination

§ 100b.580 Coordination with other activities.

Changes. 1. New paragraphs (b) and (c) have been added to implement a statutory coordination requirement under the Basic Skills Program in Title II of ESEA.

2. Proposed paragraph (b) has been redesignated as paragraph (d).

§ 100b.581 Methods of coordination.

Changes. A new paragraph (c) has been added. The new paragraph adds joint needs assessment, evaluation monitoring, technical assistance, and staff training as further examples of coordination. The opening phrase in the section has been conformed to the wording in § 100a.580.

Evaluation

§ 100b.591 Federal evaluation—cooperation by a grantee.

Comment. Three commenters suggested that "any evaluation" is too broad an interpretation of the legislative intent covered in the statutory authority for this section.

Response. No change has been made. Grantee cooperation is required only with evaluations that are authorized by statute. (See the discussion under § 100a.591 in this appendix)

Participation of Students Enrolled in Private Schools

§§ 100b.650–100b.662

Comment. One commenter asked for a list of the programs to which §§100b.650–100b.662 and § 100a.650 apply.

Response. No change has been made. If the authorizing statute for a program requires that students enrolled in private schools be given an opportunity to participate, the program regulations will specify the requirement.

Comment. One commenter suggested that, for some programs, the documentation required is excessive and has never been required before.

Response. No change has been made. If any documentation under EDGAR is not required for a specific program, appropriate language in the regulations for that program will eliminate the requirement, in accordance with the provisions of § 100b.2.

Comment. One commenter complained that the regulations require LEAs to provide services to private schools at LEA cost.

Response. No change has been made. In practically every instance the costs of administering a Federal program are provided as part of the grant or subgrant of Federal funds. In any case, EDGAR does not require that non-Federal funds be used to pay the costs of providing services to private school children.

Comment. Two commenters suggested that a definition of "genuine" is needed, and one commenter said LEAs should not be required to submit for private school children requests for services that are different from services requested for public school children.

Response. No change has been made. The services to be provided vary widely, depending on local circumstances, making it impractical to try to define "genuine" or "genuine opportunity" in detail by regulation.

Under § 100b.654, if the needs of private school children are different from the needs of public school children, it is expected that generally an application will have to contain two different components—one to meet the needs of the public school children and the other to meet the needs of the private school children. If the needs of the two groups differ, the statutes governing participation by private school children generally require that different services be designed to meet those different needs. If this is not true under a particular statute, the program regulations will specify an exception.

§ 100b.650 Private schools; purpose of §§100b.651–100b.662.

Comment. One commenter suggested that paragraph (a) be reworded to read ". . . the authorizing statute requires the participation of children enrolled in private schools."

Response. No change has been made. The pertinent statutes require that opportunity for participation of private school children be provided but regulations cannot compel that participation, as the suggested wording could be understood to do. The language of the section has been changed to more clearly specify the requirement, but the substance of the regulations remains the same.

§ 100b.651 Responsibility of a State and a subgrantee.

Comment. One commenter suggested that paragraph (a) read: ". . . its subgrantees provide for the equitable participation of students enrolled in private schools . . ." Another commenter suggested that the word "provide" be used rather than "give."

Response. The changes have been made. The section has been revised to require that a State and its subgrantees provide students enrolled in private schools with a genuine opportunity for equitable participation. The intent of the change is to emphasize that the regulations require fairness in determining program services for students enrolled in private schools.

Comment. One commenter suggested that other words be substituted for the word "benefits" in proposed § 100b.652.

Response. A change has been made. The word has been replaced by the phrase "funds and property that benefit" and proposed § 100b.652 has been incorporated into § 100b.651. In other sections the term "benefits" is used as a generic description of the services that are provided under the various programs to which §§ 100b.650–100b.662 apply. These services vary, depending on the nature of the program.

Other changes. 1. As a result of proposed § 100b.652 being incorporated into § 100b.651, proposed §§ 100b.653–100b.663 have been renumbered as §§ 100b.652–100b.662.

2. Section 100b.651 has been revised to clarify the responsibility of the State agencies that administer these programs.

§100b.652 Consultation with representatives of private school students.

Comment. One commenter suggested that consultation should required only with representatives who have indicated interest in a proposal.

Response. No change has been made. One purpose of consultation is to inform the representatives of the opportunities available under a program. Without consultation, the representatives might not know enough about the program to indicate any interest.

Comment. One commenter suggested that the requirements for prior consultation be dropped entirely as being an unreasonable burden.

Response. No change has been made. Consultation prior to decision is necessary for effective participation, which is required under these program statutes.

Comment. One commenter suggested deletion of proposed paragraph (d)(1), which would have required consultation about an applicant's decision to participate. The commenter said that a decision not to participate in a program should be made solely by the public agency.

Response. A change has been made. As revised, § 100b.652 provides that appropriate representatives of private school students are to be consulted during all phases of the development and design of the project. The list of examples does not include decisions to participate or not to participate since it would be too difficult to determine when those "decisions" are made. The emphasis should be on early and comprehensive consultation, so that the appropriate representatives have a fair opportunity for involvement in the development and design of the project.

Comment. One commenter suggested that a subgrantee should not have to worry about consulting with private school representatives who do not respond after a specified number of unsuccessful attempts to communicate with them. Another commenter was concerned that the regulations would require consultation with every private school in the area. Another commenter asked for clarification of the term "appropriate representatives."

Response. No change has been made. An applicant or subgrantee is required to consult, but the regulations do not require consultation with any representative of private school students who does not respond to reasonable attempts to consult with him or her. EDGAR does not attempt to define the term "appropriate representatives" because the meaning of the term depends on the nature of the program and the local situation.

§ 100b.654 Same or different benefits for private school students.

Comment. One commenter suggested that any differences should be settled at the planning stage and that this section should be deleted. Another commenter suggested that the provisions of proposed paragraph (b) (different services to meet different needs) be made subject to the provisions of proposed paragraph (a) (concentration of funds).

Response. A change has been made. The section has been rewritten to clarify its intent. This section is designed to ensure equitable participation where the needs of the private school students are either the same as or different from those of the public school students. Paragraph (a) of this section, as rewritten, states the general rule that services for private school students must be comparable to services for public school children. In meeting this general rule, paragraph (b) provides, in essence, that when the needs of public and private school students are the same, program services should be the same. Paragraph (c) provides that when needs are different, services must be different. Both paragraphs (b) and (c) are designed to ensure comparable services. It should be noted that paragraph (b) does not authorize concentration of funds or services beyond that authorized under the program statute and regulations. It merely requires that where funds are concentrated, private school children must be given equitable access.

Comment. One commenter suggested that there may be situations in which the needs of private school children may be beyond the skills, interests, and financial resources of the subgrantee.

Response. No change has been made. No situation should arise in which benefits for private school students are beyond the financial resources of the subgrantee, since the benefits for private school students will be federally funded. Nor should a situation arise which is beyond the competence of the public schools, since services for private school children are to be comparable to services for public school children.

Comment. Several commenters suggested dropping the words "who have needs of equal importance" from proposed paragraph (b)(2).

Response. A change has been made. The words have been deleted as unnecessary to the purpose or meaning of the requirements.

§ 100b.655 Level of expenditures for students enrolled in private schools.

Comment. One commenter suggested that this section could result in inequitable funding and should, therefore, be dropped.

Response. No change has been made. The purpose of the section is to provide for equitable services even though there might be unequal costs.

Comment. One commenter suggested that this section implies that the amount spent for private school students can be equal to or greater than the amount spent for public school students. The commenter suggested that, if costs for meeting the needs of public school students are greater, the subgrantee should be able to spend more for public school students.

Response. No change has been made. This section says that "different" amounts may be spent for services for private school students than are spent for public school students. "Different" means "less" or "more," depending on the circumstances. The services must be "comparable," as required by § 100b.654(a) and other sections.

Comment. One commenter suggested that the provision "shall spend a different average amount" is contrary to Title I of the Elementary and Secondary Education Act (ESEA) and that the word "shall" should be changed to "may".

Response. No change has been made. The word "shall" is used in Section 130(a) of ESEA, and § 100b.655 is, therefore, consistent with Title I.

Comment. Two commenters suggested that equal expenditures is not a good way to judge programs and that comparability is preferable.

Response. No change has been made. Comparability of quality, scope, and opportunity for participation (see § 100b.654) is essential regardless of whether the costs are equal. Equal expenditures is acceptable merely as an initial way to compare program services, particularly if the private school children will receive the same services as the public school children. Where service needs are the same, and costs of meeting those needs are comparable, § 100a.655 could provide a basis for auditing expenditures as a method of achieving compliance. Active consideration is being given to this possibility.

§ 10b.656 Information in an application for a subgrant.

Comment. Two commenters suggested that the number of eligible private school children be included as a required item of information in the application.

Response. A change has been made. The comment has been adopted. This information is necessary to assist the State in ensuring that private school students are receiving comparable benefits under a program. To avoid possible misinterpretations, the section requires the applicant to state the number of private school students "who have been identified as eligible." This should avoid putting an unreasonable burden on the applicant, since the information will be that provided by the appropriate representatives of the private school students.

Comment. One commenter suggested that this section be dropped and that

individual program requirements be included in program regulations.

Response. No change has been made. The information required by this section appears to be the minimum needed for a subgrantee to demonstrate that private school children will have an equitable opportunity to participate in a federally assisted program. If the specification of requirements were left to individual program regulations, the likely result would be inconsistent requirements among the programs. Consolidation of requirements should simplify the application process for a school district that applies under several of these programs.

§ 100b.657 Separate classes prohibited.

Comment. One commenter suggested that this section seems to prohibit dual enrollment.

Response. No change has been made. This section permits dual enrollment but prohibits inappropriate segregation of students who are dual enrollees.

§ 100b.658 Funds not to benefit a private school.

Comment. One commenter suggested that the word "eligible" be inserted in paragraph (b) before the phrase "students enrolled in private schools."

Response. No change has been made. These regulations do not impose special eligibility requirements on these children. Eligibility is governed by the program statutes and regulations.

Comment. One commenter suggested dropping paragraph (b). The commenter said paragraph (b)(1) is a repetition of the language of paragraph (a) and that paragraph (b)(2) would appear to be in conflict with the objectives of such programs as ESEA Title IV–B, which provides library resources, textbooks, and other instructional materials to meet the general needs of students in private schools.

Response. No change has been made. Paragraph (b) prohibits the use of funds to meet the needs of a private school or the general needs of the private school students, regardless of the existing level of instruction referred to in paragraph (a). However, this section should not restrict the provision of materials under ESEA Title IV–B, and the ESEA IV–B program regulations will provide an exception.

§ 100b.659 Use of public school personnel.

Comment. One commenter suggested that there may be other reasons than those given in paragraphs (a) and (b) for providing public personnel on other than public premises. These reasons might, for example, include the health and safety of private school children.

Response. A change has been made. The section has been revised to allow public personnel on nonpublic premises if this is necessary to make programs equitable for private school children. This change is intended to cover other appropriate circumstances, including those suggested by the commenter.

§ 100b.660 Use of private school personnel.

Comment. One commenter suggested that this section implies that administrators can be paid for work outside their regular hours of duty and that this is contrary to Title I, ESEA.

Response. No change has been made. This section applies only to employees of private schools, such as teachers, and does not authorize payment to administrative personnel or other costs that would not be allowable under the particular program.

Other changes. The prohibition against a subgrantee's use of program funds to employ individuals who work part-time at a private school has been deleted from § 100b.660 as being unduly restrictive. Unless specifically restricted by statute (e.g., see 45 CFR Part 134—regulations under Title IV, ESEA), part-time employment by a private school should not automatically disqualify a person from being employed by a subgrantee—for other time periods—to provide program services.

§ 100b.661 Equipment and supplies.

Comment. Two commenters suggested that the term "limited period of time" in paragraph (b), concerning placement of equipment and supplies in a private school, is misleading and vague and that more specific language would be preferable.

Response. A change has been made to clarify the meaning of the requirement.

Comment. One commenter suggested that paragraph (d) on removal of equipment and supplies be dropped as being implicit in the provisions of paragraph (c), which applies to use and installation of equipment and supplies in private schools.

Response. No change has been made. The language in paragraph (c) requires that it must be feasible to remove equipment and supplies from a private school without remodeling the premises, while paragraph (d) requires removal under specified conditions. The two paragraphs are complementary, not redundant.

§ 100b.680 Inventions and patents. [Proposed]

Changes. Section 100b.680 has been deleted. EDGAR will not regulate on this subject for State-administered programs.

Other Requirements for Certain Programs

§§ 100b.682–100b.685 [Proposed]

Changes. These sections have been renumbered as §§ 100b.681–100b.684. Section 100b.681 has been conformed to the wording in § 100a.681.

General Administrative Responsibilities

§ 100b.701 The State or subgrantee administers or supervises each project.

Comment. Several commenters suggested that the language of this section may prohibit contracting or subcontracting for services that the subgrantee may need but cannot provide itself.

Response. A change has been made. The intent of the section is to prevent the transfer of legal or fiscal responsibility but not to preclude appropriate contracts. The change corresponds to a similar change to § 100a.701. (See the discussion under that section in this appendix.)

§ 100b.703 When a State may begin to obligate funds.

Comment. Several commenters suggested that the term "substantially approvable" be defined so that the States are aware promptly of the date on which they can begin to obligate funds. One of these commenters suggested that the Commissioner promptly inform the States of the date when they could being to obligate funds even though some negotiation would be necessary to make the State plan fully approvable.

Response. A change has been made in accordance with the last suggestion. However, the term "substantially approvable" is retained to give the Commissioner flexibility in determining when a plan is close enough to begin approvable to allow a State to begin to obligate funds. This flexibility is necessary because of the wide variations among program statutes and State laws and procedures that affect the content of State plans.

Other changes. Redesignated paragraph (a) has been revised to clarify standards regarding submission of State plans. The date of submission will be determined in the same manner as for applications under Part 100a. A new paragraph (b) provides the standards for determining the date that a State plan was mailed. Proposed paragraph (b) has been redesignated as paragraph (c).

§ 100b.704 When subgrantees may begin to obligate funds.

Comment. One commenter suggested that redesignated paragraph (c)(2) implies that an applicant may begin to obligate funds the moment the application is submitted, whether the State has approved it or not.

Response. A change has been made. The section has been revised to recognize that a State must give authorization before an applicant for a subgrant may begin to obligate funds.

Other changes. 1. A new paragraph (b) has been added to recognize that authorization of obligations is subject to the State's final approval of an application.

2. A new paragraph (c) recognizes the State's authority to approve "pre-agreement" costs under programs in which the applicant for a subgrant is not entitled to the funds.

Cross-reference.—See § 100b.707(h) of EDGAR.

§ 100b.705 Funds may be obligated during a "carryover period."

Comment. One commenter suggested that this section may conflict with the Tydings Amendment.

Response. No change has been made. This section of the regulations restates the Tyding Amendment (Section 412(b) of GEPA) and is not in conflict with it.

§ 100b.706 Obligations made during a carryover period are subject to current statutes, regulations, and applications.

Comment. One commenter suggested that the term "State plan" is more restrictive than the statute on which this section is based, and that the term "other document * * * required" is broader than the statute.

Response. A change has been made so that the terms in this section are consistent with the purpose of the statute (Section 412(b) of GEPA). The term "State plan," as defined in § 100b.102 and as used in this section, includes the terms "program plan" and "application," as used in Section 412(b) of GEPA, and is, therefore, consistent with the provisions of that statute. The term "other document" has been deleted as inappropriate and unnecessary.

Note.—Section 2(b) of Pub. L. 96-46 (enacted August 6, 1979) provides that Section 412(b)(2) of GEPA, which is reflected in § 100b.706, does not take effect with respect to the use of funds under Section 421 of the ESEA (Title IV-B—Instructional Materials and School Library Resources Program) until October 1, 1980, except at the option of local educational agencies. This section of EDGAR will, therefore, have a delayed effective date to this extent.

§ 100b.707 When obligations are made.

Comment. One commenter asked if there is a time limit on the performance of personal services by a contractor or if the services may be performed after the end of the project period.

Response. No change has been made. The contract for personal services establishes the period for the performance of those services. The services should be performed within the project period approved by the State. However, there is no provision in Part 100b that is comparable to § 100a.261 (Extension of a project period). This is a matter left to State administration.

Comment. One commenter suggested that this section should make clear that a ruling by the Internal Revenue Service that a personal service contractor is actually an employee, rather than a contractor, does not affect the date the Education Division considers the obligation to have been made.

Response. No change has been made. If the personal services contract was entered into legally, and in good faith that the arrangement was not an employee-employer relationship, the provisions of paragraph (c) would be considered binding by the Education Division, even if the Internal Revenue Service ruled, for its own purposes, that the relationship is that of an employer and an employee.

Comment. One commenter suggested that personal services by a contractor should be considered to constitute obligations at the time the services are performed, rather than on the date the grantee makes a binding written commitment for the personal services.

Response. No change has been made. To achieve the purposes of the project, performance under a personal services contract may be necessary after the end of the project period. The Education Division may wish to reimburse grantees in these circumstances, and therefore has not adopted the comment.

Changes. A new paragraph (h) has been added to recognize the State's authority to approve preagreement costs. (See also § 100b.704(c).)

Note.—Under § 100b.707(b), the phrase "personal services by an employee of the State or subgrantee" refers only to services that are within the scope of the employment agreement.

§ 100b.720 Financial and performance reports by a State.

Comment. One commenter asked the following:

1. Who establishes the reporting format?

2. Can the Commissioner require reports more often than annually?

Response. No change has been made.

1. The Commissioner establishes the reporting forms.

2. The Commissioner may require reports more often than annually if the conditions in 45 CFR 74.7 or 45 CFR 74.72(e) exist.

Reports

§ 100b.722 A subgrantee makes reports required by the State.

Changes. Proposed § 100b.721 has been renumbered as § 100b.722 to conform more closely to numbering used in Part 100a.

Records

§ 100b.730 Records related to grant funds.

Comment. One commenter suggested that the requirement for a State or subgrantee to keep records that fully show the "share of that cost provided from other sources" will add a burden to reporting.

Response. No change has been made. The requirement to keep records of those costs is in Section 437(a) of GEPA and cannot be waived.

§ 100b.731 Records related to compliance.

Comment. One commenter suggested that the regulations should specifically identify the statutes listed in § 100b.500 as being covered by this section.

Response. A change has been made. This section does not require the retention of records relating to the statutes identified in § 100b.500. Those records are subject to the regulations referenced in § 100b.500, not to the requirements of EDGAR. The change is intended to make this distinction by limiting the recordkeeping responsibility to "program requirements." (See the discussion under § 100a.731 in this appendix.)

§ 100b.734 Record retention period.

Comment. Three commenters noted that the five-year retention period differed from other periods identified elsewhere, particularly in 45 CFR Part 74 which establishes a retention period of three years. They suggested that this be clarified.

Response. A change has been made. The regulations in 45 CFR Part 74 are subject to any inconsistent statutory provisions. For Education Division programs, the five-year period in Section 437 of GEPA controls the minimum retention period. The change makes it clear that records must be retained for five years unless 45 CFR Part 74 requires a longer period, such as during an ongoing audit procedure. (See 45 CFR 74.21(b).)

Comment. One commenter suggested that subgrantees be given permission to dispose of fiscal documentation prior to the end of the five-year retention period if a Federal audit has been completed.

Response. No change has been made. The statutory authority for the five-year retention period (Section 437(a) of GEPA) makes no provision for shortening the records retention period in situations in which Federal audits have been completed.

Privacy

§ 100b.741 Protection of students' privacy in research and testing.

Comment. One commenter asked if this section applied both to State-administered and to direct grant programs. The commenter asked specifically what programs are covered.

Response. No change has been made. The regulations in Part 100b relate only to the programs listed in the table in § 100b.1, but there is a similar provision in Part 100a (§ 100a.741) that applies to all programs listed in § 100a.1. The statute on which these sections of EDGAR are based applies to all Office of Education programs.

Changes. This section has been revised to include the statutory material that was referenced in the proposed regulations.

Use of Funds by States and Subgrantees

§ 100b.761 Federal funds may pay 100 percent of costs.

Comment. One commenter suggested that the provisions of this section appear to be in conflict with 45 CFR 121a.186 of the program regulations under the Education of the Handicapped Act.

Response. No change has been made. Paragraph (b) of this section excludes programs in which the statute or implementing regulations limit the allowability of costs. 45 CFR 121a.186 establishes limits on costs that may be paid with program funds. Section 100b.761, therefore, does not apply to the projects to which the limitations in § 121a.186 apply.

Use of Funds by States and Subgrantees

§§ 100b.760 and 100b.761

Other changes. Proposed §§ 100b.750 and 100b.751 have been renumbered as §§ 100b.760 and 100b.761, respectively.

State Administrative Responsibilities

§ 100b.770 A State shall perform certain duties with respect to applications for subgrants.

§ 100b.771 A State shall encourage eligible applicants to apply.

Comment. One commenter asked what administrative responsibilities and reporting requirements will be made of the States.

Responses. No change has been made. The requirements in §§ 100b.700 and 100b.771 are the minimum that a State should undertake to conduct a sound administrative operation of a Federal program. The Commissioner has established no criteria for determining compliance beyond the regulations contained in EDGAR and in individual program regulations. These sections in EDGAR do not create or impose any new reporting requirements.

Comment. One commenter asked if "eligible applicant" refers to those so identified in the respective grant proposal announcement. Another commenter suggested that "encourage" might involve a big burden and suggested that only a "reasonable effort" be required.

Response. A change has been made to clarify the extent of the State's duty to encourage applicants to seek awards. "Eligible applicant" refers to those identified in the statute and the implementing regulations for a program.

Comment. One commenter suggested that the State be required to encourage only "known" eligible applicants. Another commenter suggested some specific procedures for encouraging eligible applicants to apply.

Response. A change has been made. The word "all" has been deleted to make it clear that a State's duty is to make reasonable efforts, as suggested in the preceding comment. With respect to specific procedures, it is preferable to let States establish their own procedures rather than trying to establish uniform procedures for all States, since circumstances may vary from program to program and State to State (e.g., populous, heavily urbanized States as compared to thinly populated, largely rural States).

§ 100b.772 Other responsibilities of the State.

Comment. One commenter suggested that, in the spirit of paperwork reduction, the Commissioner limit the power of the States to impose special regulations, procedures, etc. Another commenter asked for recognition of the State's authority to regulate.

Response. No change has been made. If the State has the legal responsibility to administer a federally funded program, the State must have the authority to establish reasonable rules and procedures. However, State rules and procedures should be designed in a way that minimize burden on applicants and be directly related to furthering the Federal program purpose.

Changes. 1. Paragraph (a) has been rewritten to require that a State provide general technical assistance and also assistance in the evaluation of projects. Under the proposed section, a State would have been required to provide technical assistance only with respect to evaluation of projects.

2. Paragraphs (b) and (c) have been revised to clarify the relationship of § 100b.772 to programs under Title I and IV of ESEA.

Complaint Procedures of a State

§ 100b.780 A State shall adopt complaint procedures.

Comment. One commenter questioned why the exemptions for Titles I and IV of ESEA provided for in this section are not stated in the same way.

Response. A change has been made. Paragraphs (b) and (c) have been revised to clarify the relationship of this section to the program under Title IV of ESEA. The difference in treatment between programs under Titles I of ESEA and those under Title IV of ESEA results from statutory provisions enacted in the Education Amendments of 1978.

Comment. One commenter suggested that the requirements in this section are excessive and appear to be contrary to the requirements in § 100b.781 (as renumbered).

Response. No change has been made. This section requires the State to establish complaint procedures; § 100b.781 contains certain minimum requirements that must be included in the procedures adopted under this section. The Commissioner believes that these two sections are the minimum necessary to protect the public, the State, and the subgrantees. To clarify the relationship between §§ 100b.781 and 100b.782, the sections have been transposed and renumbered accordingly.

§ 100b.781 Minimum complaint procedures.

Comment. One commenter suggested that this section not apply to due process procedures for students.

Response. No change has been made. The minimum procedures in § 100b.781

relate only to those complaints identified in § 100b.780.

Changes. The section has been revised to make it clear that a State has sixty calendar days from its receipt of a complaint to resolve the complaint. This time limit may be extended only if exceptional circumstances exist with respect to a particular complaint.

§ 100b.783 State educational agency action—subgrantee's opportunity for a hearing.

Other changes. This new section restates Section 425 of GEPA regarding a subgrantee's right to a hearing under certain programs.

Subpart H—What Procedures Does the Commissioner Use to Get Compliance?

§ 100b.900 Waiver of regulations prohibited.

Comment. One commenter said that paragraph (b) has the legal effect of holding the Federal Government harmless with respect to the acts of its agents.

Response. No change has been made. Paragraph (a) provides that no Federal official has any authority to waive any regulations unless the regulations specifically provide for a waiver. Paragraph (b) provides that, even if a Federal official purports to waive regulations, that individual has no authority to do so, and no one should rely on the purported waiver. This section is a formal notice to that effect.

§ 100b.901 Regulations in 45 CFR Part 74 on suspension and termination. (Proposed)

Changes. This section has been deleted. The Education Appeal Board procedures in Part 100d will govern all suspension and termination proceedings for Office of Education programs.

Note.—The procedures for the Education Appeal Board were published originally as interim final regulations (45 CFR Part 100e) in the Federal Register on May 25, 1979 (44 FR 30528).) When published as final regulations today, Part 100e will be redesignated as Part 100d of EDGAR. These regulations are referenced in EDGAR as Part 100d in order to avoid confusion after Part 100d is published in final.

§§ 100b.901–100b.902 Commissioner's compliance procedures.

Changes. Proposed §§ 100b.902 and 100b.903 have been renumbered as §§ 100b.901 and 100b.902. Certain technical corrections also have been made in the wording of these sections.

PART 100c—DEFINITIONS

§ 100c.1 General.

Comment. One commenter suggested that EDGAR include a definition of "consultant."

Response. No change has been made. Since there is no intent to attach a special meaning to the term "consultant," no definition is needed.

Comment. One commenter said that because EDGAR allows each State to determine the scope of the term "elementary school," some States that extend the term to include preschool programs might misspend program funds intended to serve grades 1 through 8.

Response. No change has been made. If program funds are authorized only for grades 1 through 8, the regulations for the program will specify the restriction, and will not use the term "elementary school" to describe allowable activities.

Comment. One commenter suggested that the definition of "fiscal year" be changed to indicate that the term refers to a period that corresponds to the Federal fiscal year.

Response. A change has been made. The revised definition makes it clear that it is a period concurrent with the Federal fiscal year, October 1 through September 30.

Comment. One commenter suggested that a definition for "institution of higher education" be included in EDGAR.

Response. No change has been made. Because of variations among program statutes that define "institution of higher education," a general definition is not included in EDGAR.

Comment. Several commenters suggested that the definition of "local educational agency" be broadened to include community colleges and post-secondary institutions.

Response. A change has been made. The revised definition makes it clear that for purposes of the Vocational Education Program, the term includes any institution that provides a vocational education program. Other statutes that define "local educational agency" preclude a broader definition.

Comment. One commenter suggested that the distinction between "private" and "nonpublic" should be made clearer.

Response. A change has been made. The definition of "nonpublic" has been rephrased to indicate that the difference between "nonpublic" and "private" is that "nonpublic" applies only to nonprofit agencies, organizations, and institutions.

Comment. One commenter suggested that EDGAR include a definition for "post-secondary educational institution" as it appears in the regulations for the Vocational Education Act.

Response. No change has been made. The definition of "post-secondary educational institution" that appears in the regulations for vocational education programs is not applicable to other education programs. The definition will continue to appear in the regulations implementing the Vocational Education Act.

Comment. Several commenters suggested that EDGAR should define the term "private school."

Response. No change has been made. A definition of "private school" could have a significant effect on the eligibility of certain students for participation in Federal education programs. For this reason, the Education Division will consider publishing a proposed definition for private school at a later date, and allow the public an opportunity to comment. Any suggestions regarding a general definition would be welcome. Suggestions may be sent to the contact person named in the preamble to the EDGAR regulations.

Comment. One commenter wanted clarification of the term "service function" with respect to a local educational agency.

Response. No change has been made. "service function" is a statutory term used in the definition of local educational agency. The definition of service function allows certain kinds of intermediate educational units to qualify as local educational agencies.

Comment. One commenter asked for the development of definitions that are consistent with definitions used by other Federal departments and agencies.

Response. No change has been made. Because Federal regulations must use terms as they are used in Federal statutes, separate regulations will continue to use different definitions as long as inconsistencies remain in the statutes. However, the Education Division—and the Department of Education when that agency takes effect—will continue to work toward the use of common definitions for terms used in Federal educational program regulations, as has been done in EDGAR.

Appendix B

PART 74—ADMINISTRATION OF GRANTS

As revised on August 2, 1978 (43 FR 34076).

Note.—Part 74 is republished as Appendix B to the EDGAR final regulations to assist readers in following cross-references to Part

74. This will not be published with Parts 100a–100d in the CFR.

PART 74—ADMINISTRATION OF GRANTS

Subpart A—General

Sec.
74.1 Purpose and scope of this part.
74.2 Scope of subpart.
74.3 Definitions.
74.4 Applicability of this part.
74.5 Appeals.
74.6 Deviations.
74.7 Special grant or subgrant conditions.

Subpart B—Cash Depositories

74.10 Physical segregation and eligibility.
74.11 Checks-paid basis letter of credit.
74.12 Minority-owned banks.

Subpart C—Bonding and Insurance

74.15 General.
74.16 Construction and facility improvement.
74.17 Fidelity bonds.
74.18 Source of bonds.

Subpart D—Retention and Access Requirements for Records

74.20 Applicability.
74.21 Length of retention period.
74.22 Starting date of retention period.
74.23 Substitution of microfilm.
74.24 Access to records.
74.25 Restrictions on public access.

Subpart E—Waiver of Single State Agency Requirements

74.30 Policy.

Subpart F—Grant-Related Income

74.40 Scope of subpart.
74.41 Meaning of program income.
74.42 General program income.
74.43 Program income—proceeds from sale of real property and from sale of equipment and supplies acquired for use.
74.44 Program income—royalties and other income earned from a copyrighted work.
74.45 Program income—royalties or equivalent income earned from patents or from inventions.
74.46 Program income—income after grant or subgrant support not otherwise treated.
74.47 Interest earned on advances of grant funds.

Subpart G—Cost Sharing or Matching

74.50 Scope of subpart.
74.51 Definitions.
74.52 Basic rule: Costs and contributions acceptable.
74.53 Qualifications and exceptions.
74.54 Valuation of donated services.
74.55 Valuation of donated supplies and loaned equipment or space.
74.56 Valuation of donated equipment, buildings, and land.
74.57 Appraisal of real property.

Subpart H—Standards for Grantee and Subgrantee Financial Management Systems

74.60 Scope of subpart.
74.61 Standards.

Subpart I—Financial Reporting Requirements

74.70 Scope and applicability of subpart.
74.71 Definitions.
74.72 General.
74.73 Financial Status Report.
74.74 Federal Cash Transactions Report.
74.75 Request for Advance or Reimbursement.
74.76 Outlay report and request for reimbursement for construction programs.

Subpart J—Monitoring and Reporting of Program Performance

74.80 Scope of subpart.
74.81 Monitoring by recipients.
74.82 Performance reports under nonconstruction grants.
74.83 Performance reports under construction grants.
74.84 Significant developments between scheduled reporting dates.
74.85 Site visits.

Subpart K—Grant and Subgrant Payment Requirements

74.90 Scope of subpart.
74.91 Definitions.
74.92 Basic standard.
74.93 Payment methods under nonconstruction grants.
74.94 Payment methods under construction grants.
74.95 Withholding of payments.
74.96 Requesting advances or reimbursements.
74.97 Payments to subgrantees.

Subpart L—Programmatic Changes and Budget Revisions

74.100 Scope and applicability of this subpart.
74.101 Relationship to cost principles.
74.102 Prior approval procedures.
74.103 Programmatic changes.
74.104 Budgets generally.
74.105 Budget revisions-nonconstruction projects.
74.106 Budget revisions-construction projects.
74.107 Construction and nonconstruction work under the same grant or subgrant.
74.108 Authorized funds exceeding needs.

Subpart M—Grant and Subgrant Closeout, Suspension, and Termination

74.110 Definitions.
74.111 Closeout.
74.112 Amounts payable to the Federal Government.
74.113 Violation of terms.
74.114 Suspension.
74.115 Termination.
74.116 Applicability to subgrants.

Subpart N—Forms for Applying for Grants

74.120 Scope of subpart.
74.121 Authorized forms and instructions for governmental organizations.
74.122 Preapplications for Federal Assistance for governmental organizations.
74.123 Notice of preapplication review action for governmental organizations.
74.124 Application for Federal assistance (nonconstruction programs) for governmental organizations.
74.125 Application for Federal assistance (for construction programs) for governmental organizations.
74.126 Application for Federal assistance (short form) for governmental organizations.
74.127 Authorized forms and instructions for nongovernmental organizations.

Subpart O—Property

General

74.130 Scope and applicability of this subpart.
74.131 Prohibition against additional requirements.
74.132 Definitions.
74.133 Title to real property, equipment, and supplies.

Real Property

74.134 Real property.

Equipment and Supplies

74.135 Exemptions for equipment and supplies subject to certain statutes.
74.136 Rights to require transfer of equipment.
74.137 Use of equipment.
74.138 Replacement of equipment.
74.139 Disposition of equipment.
74.140 Equipment management requirements.
74.141 Supplies.

Federal Share of Real Property, Equipment, and Supplies

74.142 Federal share of property.
74.143 Subgrantee's share of market value or sales proceeds.

Intangible Personal Property

74.144 Inventions and patents.
74.145 Copyrights.

Subpart P—Procurement Standards

74.160 Scope of subpart; terminology.
74.161 General.
74.162 Code of conduct.
74.163 Free competition.
74.164 Procedural requirements.
74.165 Requirement for governments to use formal advertising.
74.166 Contract provisions.

Subpart Q—Cost Principles

74.170 Scope of subpart.
74.171 Governments.
74.172 Institutions of higher education.
74.173 Hospitals.
74.174 Other nonprofit organizations.
74.175 Subgrants and cost-type contracts.
74.176 Costs allowable with approval.

Appendix A—[Reserved]
Appendix B—[Reserved]
Appendix C—Principles for determining costs applicable to grants and contracts with State and local governments.
Appendix D—Part I—Principles for determining costs applicable to research and development under grants and contracts with educational institutions.
Part II—Principles for determining costs applicable to training and other educational services under grants and contracts with educational institutions.
Appendix E—Principles for determining costs applicable to research and development under grants and contracts with hospitals.
Appendix F—Principles for determining costs applicable to grants and contracts with nonprofit institutions.

Authority: 5 U.S.C. 301.

Subpart A—General

§ 74.1 Purpose and scope of this part.

This part establishes uniform requirements for the administration of HEW grants and principles for determining costs applicable to activities assisted by HEW grants.

§ 74.2 Scope of subpart.

This subpart contains general rules pertaining to this Part 74 (definitions, purpose and scope, applicability, and appeals) and procedures for control of deviations from the part.

§ 74.3 Definitions.

As used in this part:

"Awarding party" means (1) with respect to a grant, the granting agency, and (2) with respect to a subgrant, the grantee. (See § 74.4(b))

"Contract" means (except as used in the definitions for "grant" and "subgrant" in this section and except where qualified by "Federal") a procurement contract under a grant or subgrant, and "subcontract" means a procurement subcontract under such a contract.

"Cost-type contract" means a contract or subcontract in which the contractor or subcontractor is paid on the basis of the costs it incurs, but the term does not include such subcontracts under a non-cost-type contract or subcontract.

"Expenditure report" means: (1) For nonconstruction grants, the "Financial Status Report" (or other equivalent report); (2) for construction grants, the "Outlay Report and Request for Reimbursement for Construction Programs" (or other equivalent report). (See subpart I of this part.)

"Federally recognized Indian tribal government" means the governing body or a governmental agency of any Indian tribe, band, nation, or other organized group or community (including any Native village as defined in section 3 of the Alaska Native Claims Settlement Act, 85 Stat. 688) certified by the Secretary of the Interior as eligible for the special programs and services provided by him through the Bureau of Indian Affairs. However, for policies applicable to tribal government hospitals and institutions of higher education, see § 74.4(c), "Applicability of this part."

"Government" means a State or local government or a Federally recognized Indian tribal government. However, for policies applicable to government hospitals and institutions of higher education, see § 74.4(c), "Applicability of this part."

"Grant" means an award of financial assistance in the form of money, or property in lieu of money, by the Federal Government to an eligible recipient. The term includes such financial assistance when provided by contract, but does not include any Federal procurements subject to the procurement regulations in 41 CFR, nor does it include technical assistance, which provides services instead of money, or other assistance in the form of revenue sharing, loans, loan guarantees, interest subsidies, insurance, or direct appropriations. Also, the term does not include assistance, such as a fellowship or other lump sum award, which the recipient is not required to account for on an actual cost basis.

"Grantee" means the government, nonprofit corporation, or other legal entity to which a grant is awarded and which is accountable to the Federal Government for the use of the funds provided. The grantee is the entire legal entity even if only a particular component of the entity is designated in the award document. For example, a grant award document may name as the grantee an agency of a State, or one school or campus of a university. In these cases, the granting agency usually intends, or actually requires, that the named component assume primary or sole responsibility for administering the grant-assisted project or program. Nevertheless, the naming of a component of a legal entity as the grantee in a grant award document shall not be construed as relieving the whole legal entity from accountability to the Federal Government for the use of the funds provided. (This definition is not intended to affect the eligibility provisions of grant programs in which eligibility is limited to organizations, such as State welfare departments, which may be only components of a legal entity.) The term "grantee" does not include any secondary recipients such as subgrantees, contractors, etc., who may receive funds from a grantee pursuant to a grant.

"Granting agency" means any organizational component of HEW authorized to award and administer grants.

"HEW" means the U.S. Department of Health, Education, and Welfare.

"Local government" means a local unit of government including specifically a county, municipality, city, town, township, local public authority, school district, special district, intrastate district, council of governments (whether or not incorporated as a nonprofit corporation under State law), "sponsor or sponsoring local organization" of a watershed project (as defined in 7 CFR 620.2, 40 FR 12472, March 19, 1975), any other regional or interestate government entity, or any agency or instrumentality of a local government. However, for policies applicable to government hospitals and institutions of higher education, see § 74.4(c), "Applicability of this part."

"OGP" means the Office of Grants and Procurement, which is an organizational component within the Office of the Secretary, HEW, and reports to the Assistant Secretary for Management and Budget.

"OMB" means the Office of Management and Budget within the Executive Office of the President.

"Recipient" means grantee or subgrantee. (See § 74.4(b).)

"State" means any of the several States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, or any agency or instrumentality of a State exclusive of local governments. However, for policies applicable to government hospitals and institutions of higher education, see § 74.4(c), "Applicability of this part."

"Subgrant" means an award of financial assistance in the form of money, or property in lieu of money, made under a grant by a grantee to an eligible subgrantee. The term includes financial assistance when provided by contract, but does not include procurements; nor does it include any form of assistance which is excluded from the definition of "grant" in this section.

"Subgrantee" means the government, nonprofit corporation, or other legal entity to which a subgrant is awarded and which is accountable to the grantee for the use of the funds provided. The subgrantee is the entire legal entity even if only a particular component of the entity is designated in the subgrant award document.

"Terms of a grant or subgrant" means all requirements of the grant or subgrant, whether in statute, regulations, the award document or elsewhere.

§ 74.4 Applicability of this part.

(a) *General.* Except where inconsistent with Federal statutes, regulations, or other terms of a grant, this part applies to all HEW grants. However, unless expressly made applicable by the granting agency, this part shall not apply when the grantee is a Federal agency, foreign government or organization, international organization such as the United Nations, for-profit organization, or individual.

(b) *Subgrants.* For each substantive provision in this part, either the language of the provision itself or other text in the same subpart will indicate whether the provision affects only grants, only subgrants, or both. Use of the term "recipient" (as defined in § 74.3) in a provision shall be taken as referring equally to grantees and subgrantees. Similarly, use of the term "awarding party" (as defined in § 74.3) shall be taken as referring equally to granting agencies and to grantees awarding subgrants. However, unless expressly made applicable by the granting agency, this part need not be applied by the grantee to a subgrant if the subgrantee is a Federal agency, foreign government or organization, international organization such as the United Nations, for-profit organization, or individual.

(c) *Public institutions of higher education and hospitals.* Grants and subgrants to institutions of higher education and hospitals operated by a government shall be subject only to provisions of this subpart that apply to nongovernmental organizations.

§ 74.5 Appeals.

In accordance with parts 16 and 75 of this title, grantees may appeal certain postaward administrative decisions made by HEW officials.

§ 74.6 Deviations.

(a) Except as provided in § 74.7, a deviation is any exception to this part not required by Federal statute without allowance of agency discretion. A deviation may be either:

(1) Use of any policy, procedure, form, standard, or grant or subgrant term which is inconsistent with an applicable provision of this part, or

(2) Failure to use any applicable policy, procedure, form, standard, or grant or subgrant term which is required by this part.

(b) In order to maintain uniformity to the greatest extent feasible, deviations shall be kept to a minimum. A deviation, whether proposed by an applicant, a recipient, or an official of the granting agency, may be authorized only when it is necessary to meet programmatic objectives, or to conserve grant funds, or when it is otherwise essential in the public interest.

(c) Except as provided in paragraph (d) of this section, a deviation from this part may be made only when authorized by both:

(1) The head of the granting agency or other officials if designated in or pursuant to formal deviation control procedures established by the agency, and

(2) OGP.

(d) Deviations from subpart Q of this part and appendixes C, D, E, and F to this part in individual cases (i.e., where only a single grant or subgrant is involved) shall not require OGP approval.

§ 74.7 Special grant or subgrant conditions.

(a) Without regard to the deviation control procedures of § 74.6, special grant conditions more restrictive than those prescribed in this part 74 may be imposed as needed when the granting agency has determined that the grantee:

(1) Is financially unstable,

(2) Has a history of poor performance, or

(3) Has a management system which does not meet the standards of this part.

(b) When special conditions are imposed under paragraph (a) of this section, the grantee will be notified in writing:

(1) Why the special conditions were imposed and

(2) What corrective action is needed.

Furthermore, in accordance with OMB Circulars A–102 and A–110, OMB and other Federal agencies in a granting relationship with the grantee will be provided copies of the notice to the grantee.

(c) Grantees may apply the provisions of paragraphs (a) and (b) of this section to their subgrantees. Whenever they do so, a copy of the notice to the subgrantee shall be furnished to the granting agency.

Subpart B—Cash Depositories

§ 74.10 Physical segregation and eligibility.

Except as provided in § 74.11, awarding parties shall not impose grant or subgrant terms which:

(a) Require the recipient to use a separate bank account for the deposit of grant or subgrant funds, or

(b) Establish any eligibility requirements for banks or other financial institutions in which recipients deposit grant or subgrant funds.

§ 74.11 Checks-paid basis letter of credit.

A separate bank account shall be used when payments under letter of credit are made on a "checks-paid" basis. A checks-paid basis letter of credit is one under which funds are not drawn until the recipient's checks have been presented to its bank for payment. (See Subpart K for definition of "letter of credit.")

§ 74.12 Minority-owned banks.

Consistent with the national goal of expanding opportunities for minority business enterprises, grantees and subgrantees are encouraged to use minority-owned banks. Upon request, OGP will furnish a list of minority-owned banks.

Subpart C—Bonding and Insurance

§ 74.15 General.

In administering grants and subgrants, recipients shall observe their regular requirements and practices with respect to bonding and insurance. No additional bonding and insurance requirements, including fidelity bonds, shall be imposed by the terms of the grant or subgrant except as provided in §§ 74.16 through 74.18.

§ 74.16 Construction and facility improvement.

(a) *Scope of this section.* This section covers requirements for bid guarantees, performance bonds, and payments bonds when the recipient will contract for construction or facility improvement (including alterations and renovations of real property) under a grant or subgrant.

(b) *Definitions.* (1) "Bid guarantee" means a firm commitment such as a bid bond, certified check, or other negotiable instrument accompanying a bid as assurance that the bidder will, if its bid is accepted, execute the required contractual documents within the time specified.

(2) "Performance bond" means a bond executed in connection with a contract to secure fulfillment of all the contractor's obligations under the contract.

(3) "Payment bond" means a bond executed in connection with a contract to assure payment as required by law of all persons supplying labor and material in the execution of the work provided for in the contract.

(c) *Bids and contacts of $100,000 or less.* The recipient shall follow its own requirements and practices relating to bid guarantees, performance bonds, and payment bonds.

(d) *Bids and contracts exceeding $100,000.* The recipient may follow its own regular policy and requirements if the HEW granting agency has determined that the Federal Government's interest will be adequately protected. If this determination has not been made, the minimum requirements shall be as follows:

(1) A bid guarantee from each bidder equivalent to 5 percent of the bid price;

(2) A performance bond on the part of the contractor for 100 percent of the contract price; and

(3) A payment bond on the part of the contractor for 100 percent of the contract price.

§ 74.17 Fidelity bonds.

(a) If the grantee is not a government, the granting agency may require it to carry adequate fidelity bond coverage where the absence of coverage for the grant-supported activity is considered as creating an unacceptable risk.

(b) If the subgrantee is not a government, the granting agency or the grantee may require that it carry adequate fidelity bond coverage where the absence of coverage for the subgrant-supported activity is considered as creating an unacceptable risk.

(c) A fidelity bond is a bond indemnifying the recipient against losses resulting from the fraud or lack of integrity, honesty or fidelity of one or more employees, officers or other persons holding a position of trust.

§ 74.18 Source of bonds.

Any bonds required under §§ 74.16(d)(1) through (3) or 74.17 shall be obtained from companies holding certificates of authority as acceptable sureties (31 CFR Part 223). A list of these companies is published annually by the Department of the Treasury in its Circular 570.

Subpart D—Retention and Access Requirements for Records

§ 74.20 Applicability.

(a) Except as provided in paragraph (b) of this section, this subpart applies to all financial and programmatic records, supporting documents, statistical records and other records of recipients and of contractors and subcontractors under grants and subgrants, which are:

(1) Required to be maintained by the terms of an HEW grant, or

(2) Otherwise reasonably considered as pertinent to an HEW grant.

(b) This subpart does not apply to records maintained by the contractor or subcontractor for any of the following types of awards it has received under a grant or subgrant:

(1) Any contract or subcontract of $10,000 or less, or

(2) Any contract or subcontract awarded using the formal advertising method of procurement, whether or not required to be so awarded, or

(3) Any subcontract awarded under a contract or subcontract described in paragraph (b)(2) of this section.

§ 74.21 Length of retention period.

(a) Except as provided in paragraphs (b) and (c) of this section, records shall be retained for 3-years from the starting date specified in § 74.22.

(b) If any litigation, claim, negotiation, audit or other action involving the records has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

(c) In order to avoid duplicate recordkeeping, awarding parties may make special arrangements with recipients to retain any records which are continuously needed for joint use. The awarding party will request transfer of records to its custody when it determines that the records possess long-term retention value. When the records are transferred to or maintained by the awarding party the 3-year retention requirement is not applicable to the recipient.

§ 74.22 Starting date of retention period.

(a) *General.* (1) Where HEW grant support is continued or renewed at annual or other intervals, the retention period for the records of each funding period starts on the day the grantee submits to HEW its single or last expenditure report for that period. However, if HEW grant support is continued or renewed quarterly, the retention period for each year's records starts on the day the grantee submits to HEW its expenditure report for the last quarter of the Federal fiscal year. In all other cases, the retention period starts on the day the grantee submits its final expenditure report to HEW. If an expenditure report has been waived, the retention period starts on the day the report would have been due. "Expenditure report" is defined in § 74.3.

(2) Exceptions to this paragraph are contained in paragraphs (b) through (d) of this section.

(b) *Equipment records.* The retention period for the equipment records required by § 74.140(a) starts from the date of the equipment's disposition (§ 74.139) or replacement (§ 74.138) or transfer at the direction of the awarding party (§ 74.136).

(c) *Records for income transactions after grant or subgrant support.* (1) In some cases an HEW requirement concerning the disposition of program income, as defined in subpart F of this part, will be satisfied by applying the income to costs incurred after expiration or termination of grant or subgrant support for the activity giving rise to the income. In such a case, the retention period for the records pertaining to the costs starts from the end of the recipient's fiscal year in which the costs are incurred.

(2) In some cases, there may be an HEW requirement concerning the disposition of copyright royalties or other program income which is earned after expiration or termination of grant or subgrant support. Where there is such a requirement, the retention period for the records pertaining to the earning of the income starts from the end of the recipient's fiscal year in which the income is earned. (See subpart F of this part.)

(d) *Indirect cost rate proposals, cost allocation plans, etc.*—(1) *Applicability.* This paragraph applies to the following types of documents, and their supporting records:

(i) Indirect cost rate computations or proposals;

(ii) Cost allocation plans under Appendix C to this part;

(iii) Hospital patient care rate computations or proposals; and

(iv) Any similar accounting computations of the rate at which a particular group of costs is chargeable (such as computer usage chargeback rates or composite fringe benefit rates).

(2) *If submitted for negotiation.* If the proposal, plan, or other computation is required to be submitted to the Federal Government (or to the grantee) to form the basis for negotiation of the rate, then the 3-year retention period for its supporting records starts from the date of such submission.

(3) *If not submitted for negotiation.* If the proposal, plan, or other computation is not required to be submitted to the Federal Government (or to the grantee) for negotiation purposes, then the 3-year retention period for the proposal, plan, or computation and its supporting records starts from the end of the fiscal year (or other accounting period) covered by the proposal, plan, or other computation.

§ 74.23 Substitution of microfilm.

Copies made by microfilming, photocopying, or similar methods may be substituted for the original records.

§ 74.24 Access to records.

(a) *Records of grantees.* HEW and the Comptroller General of the United States, or any of their authorized representatives, shall have the right of access to any books, documents, papers, or other records of the grantee which are pertinent to the HEW grant, in order to make audit, examination, excerpts, and transcripts.

(b) *Records of subgrantees.* HEW, the Comptroller General of the United States, and the grantee, or any of their authorized representatives, shall have the right of access to any books, documents, papers, or other records of the subgrantee which are pertinent to the HEW grant, in order to make audit, examination, excerpts, and transcripts.

(c) *Records of contractors and subcontractors.* Except as provided in § 74.20(b), HEW, the Comptroller General of the United States, the grantee, and (if the contract was awarded under a subgrant) the subgrantee, or any of their authorized representatives, shall have the right of access to any books, documents, papers, or other records of the contractor or subcontractor which are pertinent to the HEW grant, in order to make audit, examination, excerpts, and transcripts.

(d) *Expiration of right of access.* The rights of access in this section shall not be limited to the required retention period but shall last as long as the records are retained.

§ 74.25 Restrictions on public access.

Unless required by Federal statutes, awarding parties may not impose grant or subgrant terms which limit public access to records covered by this subpart except after a determination by the granting agency that the records must be kept confidential and would have been excepted from disclosure under HEW's "Freedom of Information" regulation (Part 5 of this title) if the records had belonged to HEW. This section does not require recipients or their contractors and subcontractors to permit public access to their records.

Subpart E—Waiver of Single State Agency Requirements

§ 74.30 Policy.

Requests to HEW from Governors, or other duly constituted State authorities, for waiver of single State agency requirements in accordance with section 204 of the Intergovernmental Cooperation Act of 1968 will be given expeditious handling. Whenever possible, such requests will be granted.

Subpart F—Grant-Related Income

§ 74.40 Scope of subpart.

This subpart contains policies and requirements relating to (a) program income and (b) interest and other investment income earned on advances of grant funds.

§ 74.41 Meaning of program income.

(a) Except as explained in paragraphs (b) and (c) of this section, program income means gross income earned by a recipient from activities part or all of the cost of which is either borne as a direct cost by a grant or counted as a direct cost towards meeting a cost sharing or matching requirement of a grant. It includes but is not limited to such income in the form of fees for services performed during the grant or subgrant period, proceeds from sale of tangible personal or real property, usage or rental fees, and patent or copyright royalties. If income meets this definition, it shall be considered program income regardless of the method used to calculate the amount paid to the recipient—whether, for example, by a cost-reimbursement method or fixed price arrangement. Nor will the fact that the income is earned by the recipient from a Federal procurement contract or from a procurement contract under a Federal grant awarded to another party affect the income's classification as program income.

(b) For research grants that are subject to an institutional cost-sharing agreement, income shall be considered program income only if it is earned from an activity part or all of the cost of which is borne as a direct cost by the Federal grant funds. An institutional cost-sharing agreement is one entered into between HEW and a grantee covering all of HEW's research project grants to the grantee in the aggregate.

(c) The following shall not be considered program income:

(1) Revenues raised by a government recipient under its governing powers, such as taxes, special assessments, levies, and fines. (However, the receipt and expenditure of such revenues shall be recorded as a part of grant or subgrant project transactions when such revenues are specifically earmarked for the project in accordance with the terms of the grant or subgrant.)

(2) Tuition and related fees received by an institution of higher education for a regularly offered course taught by an employee performing under a grant or subgrant.

(d) For the purposes of this subpart, program income is divided into several categories. Each category is treated in a separate section of this subpart.

§ 74.42 General program income.

(a) *Definition.* General program income means all program income accruing to a grantee during the period of grant support or to a subgrantee during the period of subgrant support, other than the special categories of such income treated in §§ 74.43 through 74.45.

(b) *Use.* (1) General program income shall be retained by the recipient and used in accordance with one or a combination of the alternatives in paragraphs (c), (d), and (e) of this section, as follows: The alternative in paragraph (c) may always be used by recipients and must be used if neither of the other two alternatives is permitted by the terms of the grant. The alternatives in paragraphs (d) or (e) may be used only if expressly permitted by the terms of the grant. In specifying alternatives that may be used, the terms of the grant may distinguish between income earned by the grantee and income earned by subgrantees and between the sources, kinds, or amounts of income.

(2) The terms of a subgrant may restrict the use of general program income earned by the subgrantee to only one or some of the alternatives permitted by the terms of the grant, but the alternative in paragraph (c) of this section shall always be permitted.

(c) *Deduction alternative.* (1) Under this alternative, the income is used for allowable costs of the project or program. If there is a cost-sharing or matching requirement, costs borne by the income may not count toward satisfying that requirement. Therefore, the maximum percentage of Federal participation is applied to the net amount determined by deducting the income from total allowable costs and third-party in-kind contributions. The income shall be used for current costs unless the granting agency authorizes deferral to a later period.

(2) To illustrate this alternative, assume a project in which the grantee incurs $100,000 of allowable costs and receives no third-party in-kind contributions. If the grantee earns $10,000 in general program income and this alternative applies, that $10,000 must be deducted from the $100,000 before applying the maximum percentage of Federal participation. If that pecentage is 90 percent, the most that could be paid to the grantee would therefore be $81,000 (90 percent times $90,000).

(d) *Cost-sharing or matching alternative.* (1) Under this alternative, the income is used for allowable costs of the project or program but, in this case, the costs borne by the income may count toward satisfying a cost-sharing or matching requirement. Therefore, the maximum percentage of Federal participation is applied to total allowable costs and third-party in-kind contributions. The income shall be used for current costs unless the granting agency authorizes deferral to a later period.

(2) To illustrate this alternative, assume the same situation as in paragraph (c)(2) of this section. Under this alternative, the 90 percent maximum pecentage of participation would be applied to the full $100,000, and $90,000 could therefore be paid to the grantee. (It should be noted that if $20,000 of general program income is earned, only $80,000 could be paid, since a grant cannot pay for costs which have been borne by general program income.)

(e) *Additional costs alternative.* Under this alternative, the income is used for costs which are in addition to the allowable costs of the project or program but which nevertheless further the objectives of the Federal statute under which the grant was made. Provided that the costs borne by the income further the broad objectives of that statute, they need not be of a kind that would be permissible as charges to Federal funds.

Examples of purposes for which the income may be used are:

(1) Expanding the project or program.

(2) Continuing the project or program after grant or subgrant support ends.

(3) Supporting other projects or programs that further the broad objectives of the statute.

(4) Obtaining equipment or other assets needed for the project or program or for other activities that further the statute's objectives.

§ 74.43 Program income—proceeds from sale of real property and from sale of equipment and supplies acquired for use.

The following kinds of program income shall be governed by subpart O of this part:

(a) Proceeds from the sale of real property purchased or constructed under a grant or subgrant.

(b) Proceeds from the sale of equipment and supplies fabricated or purchased under a grant or subgrant and intended primarily for use in the grant- or subgrant-supported project or program rather than for sale or rental.

§ 74.44 Program income—royalties and other income earned from a copyrighted work.

(a) This section applies to royalties, license fees, and other income earned by a recipient from a copyrighted work developed under the grant or subgrant. Income of that kind is covered by this section whether a third party or the recipient itself acts as the publisher, seller, exhibitor, or performer of the copyrighted work. In some cases the recipient incurs costs to earn the income but does not charge these costs to HEW grant funds, to required cost-sharing or matching funds, or to other program income. Costs of that kind may be deducted from the gross income in order to determine how much must be treated as program income.

(b) The terms of the grant govern the disposition of income subject to this section. If the terms do not treat this kind of income, there are no HEW requirements governing the disposition. A grantee is not prohibited from imposing requirements of its own on the disposition of this kind of income which is earned by its subgrantees provided those requirements are in addition to and not inconsistent with any requirements imposed by the terms of the grant.

§ 74.45 Program income—royalties or equivalent income earned from patents or from inventions.

Disposition of royalties or equivalent income earned on patents or inventions arising out of activities assisted by a grant or subgrant shall be governed by determinations made or agreements entered into under HEW's patent regulations. (See parts 6 and 8 of this title.) If the determination or agreement does not provide for the disposition of the royalties or equivalent income, the disposition shall be in accordance with the recipient's own policies.

§ 74.46 Program income—income after grant or subgrant support not otherwise treated.

(a) This section applies to program income not treated elsewhere in this part which arises from or is attributable to an activity while supported by a grant or subgrant but which does not accrue until after the period of grant or subgrant support. An example is proceeds from the sale or rental of a residual inventory of merchandise fabricated or purchased by a grant-supported workshop during the period of support.

(b) The terms of the grant govern the disposition of income subject to this section. If the terms do not treat this kind of income, there are no HEW requirements governing the disposition. A grantee is not prohibited from imposing requirements of its own on the disposition of this kind of income which is earned by its subgrantees provided those requirements are in addition to and not inconsistent with any requirements imposed by the terms of the grant.

§ 74.47 Interest earned on advances of grant funds.

(a) Except when exempted by Federal statute (see paragraph (b) of this section for the principal exemption), grantees shall remit to the Federal Government any interest or other investment income earned on advances of HEW grant funds. This includes any interest or investment income earned by subgrantees and cost-type contractors on advances to them that are attributable to advances of HEW grant funds to the grantee. Unless the grantee receives other instructions from the responsible HEW official, the grantee shall remit the amount due by check or money order payable to the Department of Health, Education, and Welfare.

(b) In accordance with the Intergovernmental Cooperation Act of 1968 (Pub. L. 90–577), States, as defined in the act, shall not be accountable to the Federal Government for interest or investment income earned by the State itself, or by its subgrantees, where this income is attributable to grants-in-aid, as defined in the act (42 U.S.C. 4213).[1]

(c) Recipients are cautioned that they are subject to the provisions in § 74.61(e) for minimizing the time between the transfer of advances and their disbursement. Those provisions apply even if there is no accountability to the Federal Government for interest or other investment income earned on the advances.

Subpart G—Cost Sharing or Matching

§ 74.50 Scope of subpart.

(a) This subpart contains rules for satisfying Federal requirements for cost sharing or matching. These rules apply whether the cost sharing or matching is required by Federal statute or by other terms of the grant.

(b) HEW and a grantee may enter into an institutional cost-sharing agreement covering all of HEW's research project

[1] "State" is defined in the act to include any agency or instrumentality of a State, and the definition does not exclude a hospital or institution of higher education which is such an agency or instrumentality. "Grant-in-aid" is defined in the act to exclude "payments under research and development contracts or grants which are awarded directly and on similar terms to all qualifying organizations, whether public or private." (42 U.S.C. 4201)

grants to that grantee in the aggregate. Except as provided by the institutional cost-sharing agreement, this subpart applies to the satisfaction of the grantee's obligation under the agreement, as well as to the satisfaction of cost-sharing or matching requirements that apply only to a single grant.

§ 74.51 Definitions.

For purposes of this subpart:

"Cost sharing or matching" means the value of third-party in-kind contributions and that portion of the costs of a grant-supported project or program not borne by the Federal Government.

"Equipment" has the same meaning given to that term in § 74.132, except that instead of "acquisition cost," the words "market value at the time of donation" shall be substituted.

"Supplies" means all tangible personal property other than "equipment" as defined in this section.

"Third-party in-kind contributions" means property or services which benefit a grant-supported project or program and which are contributed by non-Federal third parties without charge to the grantee, the subgrantee, or a cost-type contractor under the grant or subgrant.

§ 74.52 Basic rule: Costs and contributions acceptable.

With the qualifications and exceptions listed in § 74.53, a cost-sharing or matching requirement may be satisfied by either or both of the following:

(a) Allowable costs incurred by the grantee, the subgrantee, or a cost-type contractor under the grant or subgrant. This includes allowable costs borne by non-Federal grants or by other cash donations from non-Federal third parties.

(b) The value of third-party in-kind contributions applicable to the period to which the cost-sharing or matching requirement applies.

§ 74.53 Qualifications and exceptions.

(a) *Costs borne by other Federal grants.* (1) Except as provided by Federal statute, a cost-sharing or matching requirement may not be met by costs borne by another Federal grant. This prohibition does not apply to costs borne by general program income earned from a contract awarded under another Federal grant.

(2) For the purposes of this part, general revenue sharing funds under 31 U.S.C. 1221 are not considered a Federal grant. Therefore, in the absence of any provision of Federal statute to the contrary, allowable costs borne by these funds may count towards satisfying a cost-sharing or matching requirement.

(b) *Costs or contributions counted towards other Federal cost-sharing requirements.* Neither costs nor the values of third-party in-kind contributions may count towards satisfying a cost-sharing or matching requirement of an HEW grant if they have been or will be counted towards satisfying a cost-sharing or matching requirement of another Federal grant, a Federal procurement contract, or any other award of Federal funds.

(c) *Costs financed by general program income.* Costs financed by general program income, as defined in § 74.42, shall not count towards satisfying a cost-sharing or matching requirement of the HEW grant supporting the activity giving rise to the income unless the terms of the grant expressly permit the income to be used for cost sharing or matching. (This is the alternative for use of general program income described in § 74.42(d).)

(d) *Records.* Costs and third-party in-kind contributions counting towards satisfying a cost-sharing or matching requirement must be verifiable from the records of recipients or cost-type contractors. These records must show how the value placed on third-party in-kind contributions was arrived at. To the extent feasible, volunteer services shall be supported by the same methods that the organization uses to support the allocability of its regular personnel costs.

(e) *Special standards for third-party in-kind contributions.* (1) Third-party in-kind contributions shall count towards satisfying a cost-sharing or matching requirement only where, if the party receiving the contributions were to pay for them, the payments would be allowable costs.

(2) A third-party in kind contribution shall not count as direct cost sharing or matching where, if the party receiving the contribution were to pay for it, the payment would be an indirect cost. Cost-sharing or matching credit for such contributions shall be given only if the recipient or contractor has established, along with its regular indirect cost rate, a special rate for allocating to individual projects or programs the value of the contributions. (Information on how to establish these rates can be obtained from the Division of Cost Allocation in any HEW regional office's Regional Administrative Support Center.)

(3) The values placed on third-party in-kind contributions for cost-sharing or matching purposes shall conform to the rules in the succeeding sections of this subpart. If a third-party in-kind contribution is of a type not treated in those sections, the value placed upon it shall be fair and reasonable.

§ 74.54 Valuation of donated services.

(a) *Volunteer services.* Unpaid services provided to a recipient by individuals shall be valued at rates consistent with those ordinarily paid for similar work in the recipient's organization. If the recipient does not have employees performing similar work, the rates shall be consistent with those ordinarily paid by other employers for similar work in the same labor market. In either case, a reasonable amount for fringe benefits may be included in the valuation.

(b) *Employees of other organizations.* When an employer other than a recipient or cost-type contractor furnishes free of charge the services of an employee in the employee's normal line of work, the services shall be valued at the employee's regular rate of pay exclusive of the employer's fringe benefits and overhead costs. If the services are in a different line of work, paragraph (a) of this section shall apply.

§ 74.55 Valuation of donated supplies and loaned equipment or space.

(a) If a third party donates supplies, the contribution shall be valued at the market value of the supplies at the time of donation.

(b) If a third party donates the use of equipment or space in a building but retains title, the contribution shall be valued at the fair rental rate of the equipment or space.

§ 74.56 Valuation of donated equipment, buildings, and land.

If a third party donates equipment, buildings, or land, and title passes to a recipient, the treatment of the donated property shall depend upon the purpose of the grant or subgrant, as follows:

(a) *Awards for capital expenditures.* If the purpose of the grant or subgrant is to assist the recipient in the acquisition of property, the market value of that property at the time of donation may be counted as cost sharing or matching.

(b) *Other awards.* If assisting in the acquisition of property is not the purpose of the grant or subgrant, the following rules apply:

(1) If approval is obtained from the awarding party, the market value at the time of donation of the donated equipment or buildings and the fair rental rate of the donated land may be counted as cost sharing or matching. In the case of a subgrant, the terms of the HEW grant may require that the approval be obtained from the granting agency as well as the grantee. In all

cases, the approval may be given only if a purchase of the equipment or buildings or a purchase or rental of the land would be approved as an allowable direct cost.

(2) If approval is not obtained under paragraph (b)(1) of this section, no amount may be counted for donated land, and only depreciation or use allowances may be counted for donated equipment and buildings. The depreciation or use allowances for this property are not treated as third-party in-kind contributions. Instead, they are treated as costs incurred by the recipient. They are computed and allocated (usually as indirect costs) in accordance with the cost principles specified in subpart Q of this part, in the same way as depreciation or use allowances for purchased equipment and buildings. The amount of depreciation or use allowances for donated equipment and buildings is based on the property's market value at the time it was donated.

§ 74.57 Appraisal of real property.

In some cases under §§ 74.55 and 74.56, it will be necessary to establish the market value of land or a building or the fair rental rate of land or of space in a building. In these cases, the granting agency may require that the market value or fair rental rate be established by a certified real property appraiser (or by a representative of the U.S. General Services Administration, if available) and that the value or rate be certified by a responsible official of the party to which the property or its use is donated. For subgrants, this requirement may also be imposed by the grantee.

Subpart H—Standards for Grantee and Subgrantee Financial Management Systems

§ 74.60 Scope of subpart.

This subpart prescribes standards for financial management systems of grant- and subgrant-supported activities. Awarding parties shall not impose additional standards on recipients unless specifically provided for in a Federal statute (e.g. the Joint Funding Simplification Act, Pub. L. 93–510) or these regulations. However, suggestions and assistance may be provided in establishing or improving financial management systems when needed or requested.

§ 74.61 Standards.

Grantees and subgrantees shall meet the following standards for their grant and subgrant financial management systems.

(a) *Financial reporting.* Accurate, current, and complete disclosure of the financial results of each project or program shall be made in accordance with the financial reporting requirements of the grant or subgrant. The terms of grants and subgrants shall not require financial reporting on the accrual basis if the recipient's accounting system is maintained on the cash basis. When accrual reporting is statutorily required, a recipient whose accounting system is not maintained on that basis shall not be required to convert it to the accrual basis; the recipient may develop the accrual information through an analysis of the documentation on hand.

(b) *Accounting records.* Records which identify adequately the source and application of funds for grant- or subgrant-supported activities shall be maintained. These records shall contain information pertaining to grant or subgrant awards, authorizations, obligations, unobligated balances, assets, outlays, income, and, if the recipient is a government, liabilities.

(c) *Internal control.* Effective control and accountability shall be maintained for all grant or subgrant cash, real and personal property covered by subpart O of this part, and other assets. Recipients shall adequately safeguard all such property and shall assure that it is used solely for authorized purposes.

(d) *Budgetary control.* The actual and budgeted amounts for each grant or subgrant shall be compared. If appropriate or specifically required, recipients shall relate financial information to performance or productivity data, including the production of unit cost information. If unit cost data are required, estimates based on available documentation will be accepted whenever possible.

(e) *Advance payments.* Procedures shall be established to minimize the time elapsing between the advance of Federal grant or subgrant funds and their disbursement by the recipient. When advances are made by a letter-of-credit method, the recipient shall make drawdowns as close as possible to the time of making disbursements. Grantees advancing cash to subgrantees shall conform sustantially to the same standards of timing and amount as apply to advances by Federal agencies to grantees, including requirements for timely reporting of cash disbursements and balances. (See subpart K of this part.)

(f) *Allowable costs.* Procedures shall be established for determining the reasonableness, allowability, and allocability of costs in accordance with the applicable cost principles prescribed by subpart Q of this part and the terms of the grant.

(g) *Source documentation.* Accounting records shall be supported by source documentation such as cancelled checks, paid bills, payrolls, contract and subgrant award documents, etc.

(h) *Audits*—(1) *General.* External or internal audits shall be made in accordance with generally accepted auditing standards, including the standards of the U.S. General Accounting Office's publication "Standards for Audit of Governmental Organizations Programs, Activities, and Functions."[1] The auditors engaged by the recipient shall meet the criteria for qualifications and independence in that publication.

(2) *Purpose and scope.* The purpose of these audits shall be to determine the effectiveness of the financial management systems and internal procedures established by the recipient to meet the terms of its grants and subgrants. The recipient's auditors need not examine every grant or subgrant awarded to the recipient. Rather, audits generally should be made on an organization-wide basis to test the fiscal integrity of financial transactions and compliance with the terms of awards. These tests would include an appropriate sampling of Federal grants and subgrants.

(3) *Frequency.* These audits shall be conducted on a continuing basis or at scheduled intervals, usually once a year, but at least every two years. The frequency shall depend on the nature, size and complexity of the recipient's grant- or subgrant-supported activities.

(4) *Relation to Federal audit.* These audits may affect the frequency and scope of Federal audit. However, nothing in this section is intended to limit the right of the Federal Government to conduct an audit of a grant- or subgrant-supported activity.

(5) *Audit resolution.* The recipient shall follow a systematic method to assure timely and appropriate resolution of audit findings and recommendations.

(6) *Copies of audit reports.* A copy of each audit report, and a description of its resolution, shall be furnished to the appropriate regional office of the HEW Audit Agency.

Subpart I—Financial Reporting Requirements

§ 74.70 Scope and applicability of subpart.

(a) This subpart prescribes requirements and forms for grantees to report financial information to HEW,

[1] Available from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

and to request grant payments when a letter of credit is not used.

(b) This subpart need not be applied by grantees in dealing with their subgrantees. However, grantees are encouraged not to impose on subgrantees more burdensome requirements than HEW imposes on grantees.

§ 74.71 Definitions.

As used in this subpart or in the forms identified by this subpart:

"Accrued expenditures" are the charges by grantee during a given period requiring the provision of funds for: (a) Goods and other tangible property received; (b) services performed by employees, contractors, subgrantees, and other payees; and (c) amounts "becoming owed" for which no current services or performance is required, such as annuities, insurance claims, and other benefit payments.

"Accrued income" is the sum of (a) earnings during a given period from services performed by the grantee and from goods and other tangible property delivered to purchasers, and (b) amounts becoming owed to the grantee for which no current services or performance is required by the grantee.

"Federal funds authorized" means the total amount of Federal funds obligated by the Federal Government and authorized for use by the grantee.

"In-kind contributions" means "third-party in-kind contributions" as defined in subpart G of this part.

"Obligations" are the amounts of orders placed, contracts and subgrants awarded, services received, and similar transactions during a given period, which will require payment during the same or a future period.

"Outlays" are charges made to the grant project or program. Outlays may be reported on a cash or accrual basis.

"Program income" has the same meaning it has in subpart F of this part.

"Unobligated balance" is the portion of the Federal funds authorized which has not been obligated by the grantee and is determined by deducting the grantee's cumulative obligations from the cumulative Federal funds authorized.

"Unliquidated obligations," for reports prepared on a cash basis, are the amount of obligations incurred by the grantee that has not been paid. For reports prepared on an accrued expenditure basis, they are the amount of obligations incurred by the grantee for which an outlay has not been recorded.

§ 74.72 General.

(a) Except as provided in paragraphs (d) and (e) of this section, grantees shall use only the forms specified in §§ 74.73 through 74.76, and such supplementary or other forms as may from time to time be authorized by OGP, for:

(1) Submitting grant financial reports to granting agencies, or

(2) Requesting advances or reimbursements when letters of credit are not used.

(b) Grantees shall follow all applicable standard instructions issued by OMB for use in connection with the forms specified in §§ 74.73 through 74.76. Granting agencies may issue substantive supplementary instructions only with the approval of OGP. Granting agencies may shade out or instruct the grantee to disregard any line item that the granting agency finds unnecessary for its decision making purposes.

(c) Grantees will not be required to submit more than the original and two copies of forms required under this subpart.

(d) Granting agencies may provide computer outputs to grantees to expedite or contribute to the accuracy of reporting. Granting agencies may accept the required information from grantees in machine usable format or computer printouts instead of prescribed formats.

(e) When a granting agency has determined that a grantee's accounting system does not meet the standards for financial management systems contained in subpart H of this part, it may require financial reports with more frequency or more detail (or both), upon written notice to the grantee (without regard to § 74.7), until such time as the standards are met.

(f) HEW may waive any report required by this subpart if not needed.

(g) Granting agencies may extend the due date for any financial report upon receiving a justified request from the grantee.

§ 74.73 Financial Status Report.

(a) *Form.* Grantees shall use Standard Form 269, Financial Status Report, to report the Status of funds for all nonconstruction grants.

(b) *Accounting basis.* Each grantee shall report program outlays and program income on the same accounting basis, i.e., cash or accrued expenditure (accrual), which it uses in its accounting system.

(c) *Frequency.* The granting agency may prescribe the frequency of the report for each project or program. However, the report shall not be required more frequently than quarterly except as provided in §§ 74.7 and 74.72(e). If the granting agency does not specify the frequency of the report, it shall be submitted annually. A final report shall be required upon expiration or termination of grant support.

(d) *Due date.* When reports are required on a quarterly or semiannual basis, they shall be due 30 days after the reporting period. When required on an annual basis, they shall be due 90 days after the grant year. Final reports shall be due 90 days after the expiration or termination of grant support.

§ 74.74 Federal Cash Transactions Report.

(a) *Form.* (1) For grants paid by letters of credit (or Treasury check advances) through any HEW payment office except the Departmental Federal Assistance Financing System (DFAFS), the grantee shall submit to the payment office Standard Form 272, Federal Cash Transactions Report, and when necessary, its continuation sheet, Standard Form 272a. For grants paid by DFAFS, the grantee shall submit DFAFS Report 27, Recipient Report of Expenditures, to DFAFS.

(2) These reports will be used by the HEW payment office to monitor cash advanced to grantees and to obtain disbursement or outlay information for each grant from grantees. The format of the report may be adapted as appropriate when reporting is to be accomplished with the assistance of automatic data processing equipment: *Provided,* That the information to be submitted is not changed in substance.

(b) *Forecasts of Federal cash requirements.* Forecasts of Federal cash requirements may be required in the "Remarks" section of the report.

(c) *Cash in hands of secondary recipients.* When considered necessary and feasible by the responsible HEW payment office, grantees may be required to report the amount of cash subadvances in excess of three days' needs in the hands of their subgrantees or contractors and to provide short narrative explanations of actions taken by the grantee to reduce the excess balances.

(d) *Frequency and due date.* Grantees shall submit the report no later than 15 working days following the end of each quarter. However, where a letter of credit authorizes advances at an annualized rate of one million dollars or more, the HEW payment office may require the report to be submitted within 15 working days following the end of each month.

§ 74.75 Request for Advance or Reimbursement.

(a)(1) *Advance payments.* Requests for Treasury check advance payments shall be submitted on Standard Form

270, Request for Advance or Reimbursement. (This form is not used for drawdowns under a letter of credit or when Treasury check advance payments are made to the grantee automatically on a predetermined basis.)

(2) *Reimbursements.* Requests for reimbursement under non-construction grants shall also be submitted on Standard Form 270. (For reimbursement requests under construction grants, see § 74.76(a).)

(b) The frequency for submitting payment requests is treated in § 74.96.

§ 74.76 Outlay report and request for reimbursement for construction programs.

(a) *Construction grants paid by reimbursement method.* (1) Requests for reimbursement under construction grants shall be submitted on Standard Form 271, Outlay Report and Request for Reimbursement for Construction Programs. Granting agencies may, however, prescribe the Request for Advance or Reimbursement form specified in § 74.75 instead of this form.

(2) The frequency for submitting reimbursement requests is treated in § 74.96.

(b) *Construction grants paid by letter of credit or Treasury check advance.* (1) When a construction grant is paid by letter of credit or Treasury check advances, the grantee shall report its outlays to the granting agency using Standard Form 271, Outlay Report and Request for Reimbursement for Construction Programs. The granting agency will provide any necessary special instruction. However, frequency and due date shall be governed by § 74.73(c) and (d).

(2) When a construction grant is paid by Treasury check advances based on periodic requests from the grantee, the advances shall be requested on the form specified in § 74.75.

(3) The granting agency may substitute the Financial Status Report specified in § 74.73 for the Outlay Report and Request for Reimbursement.

(c) *Accounting basis.* The accounting basis for the Outlay Report and Request for Reimbursement for Construction Programs shall be governed by § 74.73(b).

Subpart J—Monitoring and Reporting of Program Performance

§ 74.80 Scope of subpart.

This subpart sets forth the procedures for monitoring and reporting program performance of recipients. These procedures are designed to place reliance on recipients to manage the day-to-day operations of their grant- and subgrant-supported activities.

§ 74.81 Monitoring by recipients.

Recipients shall monitor the performance of grant- and subgrant-supported activities. They shall review each program, function, or activity to assure that adequate progress is being made towards achieving the goals of the grant or subgrant.

§ 74.82 Performance reports under nonconstruction grants.

(a) Where the granting agency determines that performance information sufficient to meet its programmatic needs will be available from subsequent applications, the granting agency will require the grantee to submit a performance report only upon expiration or termination of grant support. This report will be due on the same date as the final financial Status Report unless waived by the granting agency. Note that the "Application for Federal Assistance (Nonconstruction Programs)" prescribed by subpart N of this part, when used to request continued support, provides information substantially equivalent to a performance report.

(b) Except as provided in paragraph (a) of this section, grantees shall submit annual performance reports unless the granting agency requires quarterly or semiannual reports. Annual reports shall be due 90 days after the grant year; quarterly or semiannual reports shall be due 30 days after the reporting period. A final performance report shall be due 90 days after the expiration or termination of grant support. Granting agencies may extend the due date for any performance report upon receiving a justified request from the grantee. In addition, granting agencies may waive the requirement for any performance report which is not needed.

(c) The content of performance reports shall conform to any instructions issued by the granting agency, including, to the extent appropriate to the particular grant, a brief presentation of the following for each program, function, or activity involved:

(1) A comparison of actual accomplishments to the goals established for the period. Where the output of the project or program can be readily expressed in numbers, a computation of the cost per unit of output may be required if that information will be useful.

(2) The reasons for slippage if established goals were not met.

(3) Other pertinent information including, when appropriate, analysis and explanation of unexpectedly high overall or unit costs.

(d) Grantees will not be required to submit more than the original and two copies of performance reports.

(e) Grantees shall adhere to the standards in paragraphs (a) through (d) of this section in prescribing performance reporting requirements for subgrantees.

§ 74.83 Performance reports under construction grants.

In general, awarding parties rely heavily on on-site technical inspection and certified percentage-of-completion data to keep themselves informed as to progress under construction grants and subgrants. Formal performance reports to supplement those sources of information shall be required only if considered necessary by the awarding party, and in no case more frequently than quarterly.

§ 74.84 Significant developments between scheduled reporting dates.

Between the scheduled performance reporting dates, events may occur which have significant impact upon the grant- or subgrant-supported activity. In such cases, the recipient shall inform the awarding party as soon as the following types of conditions become known:

(a) Problems, delays, or adverse conditions which will materially impair the ability to attain the objective of the award. This disclosure shall be accompanied by a statement of the action taken, or contemplated, and any assistance needed to resolve the situation.

(b) Favorable developments which enable meeting time schedules and goals sooner or at less cost than anticipated or producing more beneficial results than originally projected.

§ 74.85 Site visits.

Site visits may be made as necessary by representatives of HEW to:

(a) Review program accomplishments and management control systems.

(b) Provide such technical assistance as may be required.

Subpart K—Grant and Subgrant Payment Requirements

§ 74.90 Scope of subpart.

This subpart prescribes the basic standard and the methods under which HEW will make grant payments to grantees, and grantees will make subgrant payments to their subgrantees.

§ 74.91 Definitions.

As used in this subpart:

"Advance by Treasury check" is a payment made by a Treasury check to a

grantee, upon its periodic request or through the use of predetermined payment schedules, before payments are made by the grantee.

"Letter of credit" is an instrument certified by an authorized official which authorizes a recipient to draw funds needed for immediate disbursement in accordance with Treasury Circular No. 1075.

"Percentage of completion method" refers to a system under which payments are made for construction work according to the percentage of completion of the work, rather than to the grantee's rate of disbursements.

§ 74.92 Basic standard.

Methods and procedures for making payments to recipients shall minimize the time elapsing between the transfer of funds and the recipient's disbursements.

§ 74.93 Payment methods under nonconstruction grants.

(a) Letters of credit will be used to pay HEW grantees when all of the following conditions exist:

(1) There is or will be a continuing relationship between the grantee and the HEW payment office for at least a year and the total amount of advances to be received from the HEW payment office is $120,000 or more per year,

(2) The grantee has maintained, or demonstrated to HEW the willingness and ability to maintain, procedures that minimize the time elapsing between the transfer of funds from the Treasury and their disbursement by the grantee, and

(3) The grantee's financial management system meets the standards for fund control and accountability in Subpart H of this part.

(b) Advances by Treasury check will be used, in accordance with Treasury Circular No. 1075, when the grantee does not meet the requirements in paragraph (a)(1) of this section but does meet the requirements in paragraphs (a)(2) and (3) of this section.

(c) Reimbursement by Treasury check will be preferred method when the requirements of either paragraph (a)(2) or paragraph (a)(3) of this section are not met. This method may also be used when the major portion of the program is accomplished through private market financing or Federal loans, and the Federal grant assistance constitutes a minor portion of the program.

§ 74.94 Payment methods under construction grants.

(a) Reimbursement by Treasury check shall be the preferred method when the grantee does not meet the requirements specified in § 74.93(a) (2) or (3), and may be used for any HEW construction grant unless HEW has entered into an agreement with the grantee to use a letter of credit for all HEW grants, including construction grants.

(b) When the reimbursement by Treasury check method is not used, § 74.93 (a) and (b) shall apply to the construction grant. Implementing procedures under § 74.93 (a) and (b) will be insofar as possible the same for construction grants as for nonconstruction grants awarded to the same grantee.

(c) HEW will not use the percentage of completion method to pay its construction grants. The grantee may use that method to pay its construction contractor, but if it does, HEW's payments to the grantee will nevertheless be based on the grantee's actual rate of disbursements.

§ 74.95 Withholding of payments.

(a) Unless otherwise required by Federal statute, payments for proper charges incurred by grantees will not be withheld unless (1) the grantee has failed to comply with Federal reporting requirements or (2) the grant is suspended pursuant to § 74.114 or (3) the grantee owes money to the United States and collection of the debt by withholding grant payments will not impair the accomplishment of the objectives of any grant program sponsored by the United States.

(b) Cash withheld for failure to comply with reporting requirements but without suspension of the grant will be released to the grantee upon subsequent compliance. When a grant is suspended, payment adjustments will be made in accordance with § 74.114. When a debt is to be collected, HEW may withhold payments or require appropriate accounting adjustments to recorded grant cash balances for which the grantee is accountable to the Federal Government, in order to liquidate the indebtedness.

§ 74.96 Requesting advances or reimbursements.

(a) If advances are made by Treasury check and the advances are not prescheduled, the grantee shall submit its requests for payment monthly. Less frequent requests are not permitted because they would result in advances covering excessive periods of time.

(b) If payments are made through reimbursement by Treasury check, the grantee may submit its requests for reimbursement monthly and may submit them more often if authorized. The grantee will be paid as promptly as possible, ordinarily within 30 days after receipt of a proper request for reimbursement.

(c) The forms for requesting advances or reimbursements are identified in subpart I of this part.

§ 74.97 Payments to subgrantees.

Grantees shall observe the requirements of this subpart in making (or withholding) payments to subgrantees, with the following exceptions:

(a) Advance payment by check may be used instead of letter of credit;

(b) The forms specified in subpart I of this part for requesting advances and reimbursements are not required to be used by subgrantees; and

(c) The reimbursement by check method may be used to pay any construction subgrant, whether or not HEW has agreed to use a letter of credit for all direct HEW grants to that same recipient.

Subpart L—Programmatic Changes and Budget Revisions

§ 74.100 Scope and applicability of this subpart.

(a) *Scope.* This subpart deals with prior approval requirements for post-award programmatic changes and budget revisions by recipients.

(b) *Exemption of mandatory grants.* Sections 74.103 through 74.106 do not apply to programmatic changes or budget revisions made by grantees under State plan or other grants which the granting agency is required by law to award if the applicant meets all applicable requirements for entitlement. (These are generally called "mandatory" or "formula" grants.)

(c) *Exemption of certain subgrants.* Sections 74.103 through 74.106 do not apply to subgrants from States to their local governments under a mandatory or formula grant, if the local government is not required to apply for the subgrant on a project basis. Generally, such exempt subgrants will occur under a State plan which provides for local administration of a State-wide program under State supervision.

§ 74.101 Relationship to cost principles.

The cost principles in Appendices C, D, E, and F to this part contain requirements for prior approval of certain types of costs (see § 74.176). Except when waived, those requirements apply to all grants and subgrants even if §§ 74.103 through 74.106 do not.

§ 74.102 Prior approval procedures.

(a) *For grants.* When requesting a prior approval required by this subpart, grantees shall address their requests to

the responsible grants officer of the granting agency. Approvals shall not be valid unless they are in writing and signed by either the grants officer, the head of the granting agency, or the head of the granting agency's regional office.

(b) *For subgrants.* Grantees shall be responsible for reviewing requests from their subgrantees for the approvals required by this subpart and for giving or denying the approval. A grantee shall not approve any action which is inconsistent with the purpose or terms of the Federal grant. If an action by a subgrantee will result in a change in the overall grant project or budget requiring granting agency approval, the grantee shall obtain that approval before giving its approval to the subgrantee. Approvals shall not be valid unless they are in writing and signed by an authorized official of the grantee.

(c) *Timing.* Within 30 days from the date of receipt of a request for approval, the approval authority shall review the request and notify the recipient of its decision. If the request for approval is still under consideration at the end of 30 days, the approval authority shall inform the recipient in writing as to when to expect the decision.

§ 74.103 Programmatic changes.

(a) *Scope.* This section contains requirements for prior approval of departures, other than budget revisions, from approved project plans. In addition to the requirements in this section, awarding parties may require prior approval for other kinds of programmatic changes to an approved grant or subgrant project.

(b) *Changes to project scope or objectives.* The recipient shall obtain prior approval for any change to the scope or objectives of the approved project. (For construction projects, any material change in approved space utilization or functional layout shall be considered a change in scope.)

(c) *Changes in key people.* The recipient of a grant or subgrant for research (or any other kind of grant or subgrant if the terms of the award make this rule applicable) shall obtain prior approval:

(1) To continue the project during any continuous period of more than 3 months without the active direction of an approved project director or principal investigator; or

(2) To replace the project director or principal investigator (or any other persons named and expressly identified as key project people in the notice of grant or subgrant award) or to permit any such people to devote substantially less effort to the project than was anticipated when the grant or subgrant was awarded.

(d) *Other programmatic changes.* The following shall require prior approval except to the extent explicitly included in the project plan as approved by the awarding party at the time of award:

(1) Providing financial assistance to a third party by subgranting or any other means.

(2) Tranferring to a third party, by contracting or any other means, the actual performance of the substantive programmatic work. The term "substantive programmatic work" means activities which are central to carrying out the purpose of the project, and not merely incidental. Transfer of substantive programmatic work does not include purchase of supplies, materials, or equipment; acquisition of general or incidental support services; obtaining advice; or transfer of activities whose cost is treated as an indirect cost.

(3) Providing medical care to individuals under research grants.

§ 74.104 Budgets generally.

(a) *Definitions.* In this subpart:

(1) "Budget" means the recipient's financial plan for carrying out the project or program.

(2) "Approved budget" means a budget (including any revised budget) which has been approved by the awarding party.

(b) *Research project budgets.* For research projects, approved budgets shall not include the recipient's share of project costs.

(c) *Non-research project budgets.* For non-research projects which involve cost sharing or matching, approved budgets shall ordinarily consist of a single set of figures covering total project cost (the sum of the awarding party's share and the recipient's share). However, the awarding party may specify that the recipient's share not be included in the approved budget. In no case, however, shall the approved budget be in the form of a separate set of figures for each share.

(d) *Subdivision by programmatic segments.* Some grants and subgrants encompass two or more programmatic segments (such as discrete programs, projects, functions, or types of activities). In these cases, the awarding party may require that the approved budget be subdivided to show the anticipated cost of each programmatic segment.

§ 74.105 Budget revisions—nonconstruction projects.

(a) Except as provided in paragraph (b) of this section, the recipient of a grant or subgrant having an approved budget shall obtain prior approval for any budget revision which will:

(1) Involve transfer of amounts budgeted for indirect costs to absorb increases in direct costs, or

(2) Involve transfer of amounts previously budgeted for student support (tuition waivers, stipends, and other payments to or for trainees), or

(3) Result in a need for the award of additional funds, e.g., an increase in the base upon which indirect costs are calculated which will increase allocable indirect costs and result in a claim for a supplementary award.

(b) Any or all of the prior approval requirements in paragraph (a) of this section may be waived by the awarding party.

(c) Except as provided in §§ 74.107 and 74.176, other budget changes under nonconstruction grants do not require approval.

§ 74.106 Budget revisions—construction projects.

Unless provided otherwise by the terms of the grant or subgrant, revisions to construction project budgets do not require approval.

§ 74.107 Construction and nonconstruction work under the same grant or subgrant.

When a grant or subgrant provides support for both construction and nonconstruction work, the awarding party may require prior approval before any fund or budget transfers between the two types of work.

§ 74.108 Authorized funds exceeding needs.

The recipient shall notify the awarding party promptly whenever the amount of grant or subgrant authorized funds is expected to exceed needs by more than $5,000 or 5 percent of the grant or subgrant, whichever is greater. This notification will not be required under continuing grants or subgrants if the application for the next period's funding will include an estimate of what the unobligated balance of authorized funds will be at the end of the current period.

Subpart M—Grant and Subgrant Closeout, Suspension, and Termination

§ 74.110 Definitions.

"Grant closeout" means the process by which a granting agency determines that all applicable administrative actions and all required work of the grant have been completed by the grantee and the granting agency.

"Suspension" of a grant means temporary withdrawal of the grantee's

authority to obligate grant funds pending corrective action by the grantee or a decision to terminate the grant.

"Termination" of a grant means permanent withdrawal of the grantee's authority to obligate previously awarded grant funds before that authority would otherwise expire. It also means the voluntary relinquishment of that authority by the grantee. "Termination" does not include:

(a) Withdrawal of funds awarded on the basis of the grantee's underestimate of the unobligated balance in a prior period;

(b) Refusal by the granting agency to extend a grant or award additional funds (such as refusal to make a competing or noncompeting continuation, renewal, extension, or supplemental award);

(c) Withdrawal of the unobligated balance as of the expiration of a grant;

(d) Annulment, i.e., voiding, of a grant upon determination that the award was obtained fraudulently, or was otherwise illegal or invalid from inception.

§ 74.111 Closeout.

(a) Each grant shall be closed out as promptly as is feasible after expiration or termination.

(b) In closing out HEW grants, the following shall be observed:

(1) Upon request, HEW shall promptly pay the grantee for any allowable reimbursable costs not covered by previous payments.

(2) The grantee shall immediately refund or otherwise dispose of, in accordance with instructions from HEW, any unobligated balance of cash advanced to the grantee.

(3) The grantee shall submit, within 90 days of the date of expiration or termination, all financial, performance, and other reports required by the terms of the grant. HEW may extend the due date for any report upon receiving a justified request from the grantee, and may waive any report which is not needed.

(4) The granting agency shall make a settlement for any upward or downward adjustment of the Federal share of costs, to the extent called for by the terms of the grant.

(c)(1) The closeout of a grant does not affect the retention period for, or Federal rights of access to, grant records. See subpart D of this part.

(2) If a grant is closed out without audit, the granting agency retains the right to disallow and recover an appropriate amount after fully considering any recommended disallowances resulting from an audit which may be conducted later.

(3) The closeout of a grant does not affect the grantee's responsibilities with respect to property under subpart O of this part, or with respect to any program income for which the grantee is still accountable under subpart F of this part.

§ 74.112 Amounts payable to the Federal Government.

For each grant, the following sums shall constitute a debt or debts owed by the grantee to the Federal Government, and shall, if not paid upon demand, be recovered from the grantee or its successor or assignees by set-off or other action as provided by law:

(a) Any grant funds paid to the grantee by the Federal Government in excess of the amount to which the grantee is finally determined to be entitled under the terms of the grant;

(b) Any interest or other investment income earned on advances of grant funds which is due the Federal Government pursuant to § 74.47;

(c) Any royalties or other special classes of program income which, under the terms of the grant, are required to be remitted to the Federal Government (see subpart F of this part);

(d) Any amounts due the Federal Government under subpart O of this part; and

(e) Any other amounts finally determined to be due the Federal Government under the terms of the grant.

§ 74.113 Violation of terms.

(a) When a grantee has materially failed to comply with the terms of a grant, the granting agency may suspend the grant, in accordance with § 74.114, terminate the grant for cause, as provided in § 74.115, or take such other remedies as may be legally available and appropriate in the circumstances.

(b) If a project or program is supported over two or more funding periods, a grant may be suspended or terminated in the current period for failure to submit a report still due from a prior period.

§ 74.114 Suspension.

(a) When a grantee has materially failed to comply with the terms of a grant, the granting agency may, upon reasonable notice to the grantee, suspend the grant in whole or in part. The notice of suspension will state the reasons for the suspension, any corrective action required of the grantee, and the effective date. The suspension may be made effective at once if a delayed effective date would be unreasonable considering the granting agency's responsibilities to protect the Federal Government's interest. Suspensions shall remain in effect until the grantee has taken corrective action satisfactory to the granting agency, or given evidence satisfactory to the granting agency that such corrective action will be taken, or until the granting agency terminates the grant.

(b) New obligations incurred by the grantee during the suspension period will not be allowed unless the granting agency expressly authorizes them in the notice of suspension or an amendment to it. Necessary and otherwise allowable costs which the grantee could not reasonably avoid during the suspension period will be allowed if they result from obligations properly incurred by the grantee before the effective date of the suspension and not in anticipation of suspension or termination. At the discretion of the granting agency, third-party in-kind contributions applicable to the suspension period may be allowed in satisfaction of cost sharing or matching requirements.

(c) Appropriate adjustments to payments under the suspended grant will be made either by withholding subsequent payments or by not allowing the grantee credit for disbursements made in payment of unauthorized obligations incurred during the suspension period.

§ 74.115 Termination.

(a) *Termination for cause.* The granting agency may terminate any grant in whole, or in part, at any time before the date of expiration, whenever it determines that the grantee has materially failed to comply with the terms of the grant. The granting agency shall promptly notify the grantee in writing of the determination and the reasons for the termination, together with the effective date.

(b) *Termination on other grounds.* Except as provided in paragraph (a) of this section, grants may be terminated in whole or in part only as follows:

(1) By the granting agency with the consent of the grantee, in which case the two parties shall agree upon the termination conditions, including the effective date and in the case of partial terminations, the portion to be terminated, or

(2) By the grantee, upon written notification to the granting agency, setting forth the reasons for such termination, the effective date, and in the case of partial terminations, the portion to be terminated. However, if, in the case of a partial termination, the granting agency determines that the remaining portion of the grant will not accomplish the purposes for which the grant was made, the granting agency

may terminate the grant in its entirety under either paragraph (a) or paragraph (b)(1) of this section.

(c) *Termination settlements.* When a grant is terminated, the grantee shall not incur new obligations for the terminated portion after the effective date, and shall cancel as many outstanding obligations as possible. The granting agency shall allow full credit to the grantee for the Federal share of the noncancellable obligations properly incurred by the grantee prior to termination.

§ 74.116 Applicability to subgrants.

Grantees shall adhere to the same standards regarding closeout, suspension, and termination of subgrants as are prescribed in this subpart for granting agencies.

Subpart N—Forms for Applying for Grants

§ 74.120 Scope of subpart.

(a) This subpart prescribes forms and instructions to be used by governmental organizations (except hospitals and institutions of higher education operated by a government) in applying to HEW for grants. This subpart is not applicable, however, to mandatory or formula grant programs which do not require applicants to apply to HEW for funds on a project basis.

(b) This subpart permits granting agencies to prescribe the form of applications by nongovernmental organizations (including hospitals and institutions of higher education operated by a government), but prescribes the use of a standard facesheet for certain of these applications.

(c) This subpart applies only to applications for grants, and is not required to be applied by grantees in dealing with applicants for subgrants. However, grantees are encouraged not to adopt more detailed or burdensome application requirements for subgrants.

§ 74.121 Authorized forms and instructions for governmental organizations.

(a) In applying to HEW for grants, governments shall use only the forms specified in §§ 74.122 through 74.126, and such supplementary or other forms as may from time to time be prescribed by the granting agency with the approval of OGP.

(b) Governments will not be required to submit more than the original and two copies of their applications.

(c) Governments shall follow all applicable standard instructions promulgated by OMB for use in connection with the forms specified in §§ 74.122 through 74.126. Granting agencies may specify and describe the programs, functions, or activities that will be used to plan, budget, and evaluate the work under a grant. Other supplementary instructions may be issued only with the approval of OGP. For any form, the granting agency may shade out or instruct the applicant to disregard any line item that is not needed.

(d) When a government applies for additional funding (such as a continuation or supplemental award) or amends a previously submitted application, only the facesheet and any other affected pages need be submitted. Previously submitted pages whose information is still current need not be resubmitted.

§ 74.122 Preapplications for Federal Assistance for governmental organizations.

(a) When a preapplication is submitted by a government, the preapplication for Federal assistance form prescribed by OMB Circular A–102 shall be used. The purposes of preapplications shall be to:

(1) Establish communication between the applicant and the granting agency;

(2) Determine the applicant's eligibility;

(3) Determine how well the project can compete with similar applications from others in order to discourage proposals which have little or no chance for Federal funding before applicants incur significant expenditures for preparing an application.

(b) Preapplication shall be mandatory when the potential applicant is a government and the proposed project (1) is for construction, land acquisition, or land development, and (2) would require more than $100,000 of Federal funding. The granting agency may require preapplications regardless of the type of project and regardless of the estimated amount of Federal funding. In addition, any government may submit a preapplication even when not required by the granting agency.

§ 74.123 Notice of preapplication review action for governmental organizations.

The notice of preapplication review action form prescribed by attachment M of OMB Circular No. A–102 will be used by granting agencies to inform governmental applicants of the results of the review of the preapplications submitted to them. The granting agency will send a notice to the applicant ordinarily within 45 days of the receipt of the preapplication form. If the review cannot be made within 45 days, the applicant will be informed by letter as to when the review will be completed.

§ 74.124 Application for Federal assistance (nonconstruction programs) for governmental organizations.

The applicant for Federal assistance (nonconstruction programs) form prescribed by attachment M of OMB Circular No. A–102 shall be used by governments in applying for any grant to which this subpart is applicable except where a form specified in § 74.125 or § 74.126 is to be used.

§ 74.125 Application for Federal assistance (for construction programs) for governmental organizations.

The applicant for Federal assistance (for construction programs) form prescribed by attachment M of OMB Circular No. A–102 shall be used by governments in applying for any grant whose purpose is soley or primarily construction, land acquisition, or land development.

§ 74.126 Application for Federal assistance (short form) for governmental organizations.

The applicant for Federal assistance (short form) form prescribed by attachment M of OMB Circular No. A–102 shall be used by governments in applying for any single-purpose one-time grant of less than $10,000 not requiring clearinghouse review, an environmental impact statement, or the relocation of persons, businesses, or farms. Granting agencies may, at their discretion, authorize or prescribe this form for applications for larger amounts.

§ 74.127 Authorized forms and instructions for nongovernmental organizations.

Nongovernmental organizations shall use application forms and instructions prescribed by the granting agency, except that the facesheet of such applications shall be standard form 424 for grants under programs covered by attachment A. part I, of OMB Circular No. A–95.

Subpart O—Property

General

§ 74.130 Scope and applicability of this subpart.

(a) Except as explained in paragraphs (c), (d), and (e) of this section this subpart applies to real property, equipment, and supplies acquired with grant support. To be considered acquired with grant support, some or all of the property's acquisition cost must be a direct cost under the grant, a subgrant, or a cost-type contract and must be either borne by grant funds or counted toward satisfying a grant cost-sharing or matching requirement.

(b) This subpart also deals with inventions, patents, and copyrights arising out of activities assisted by a grant or subgrant.

(c) This subpart does not apply to—

(1) Property for which only depreciation or use allowances are charged;

(2) Property donated entirely as a third-party in-kind contribution (as defined in § 74.51); or

(3) Equipment or supplies acquired primarily for sale or rental rather than for use.

(d) Equipment or supplies acquired by a contractor under a grant or subgrant shall be subject to this subpart only if, by terms of the contract, title vests in the grantee or subgrantee.

(e) For research grants that are subject to an institutional cost-sharing agreement (see § 74.50(b)), real property, equipment, and supplies shall be subject to this subpart only if at least some part of the acquisition cost is borne as a direct cost by Federal grant funds.

§ 74.131 Prohibition against additional requirements.

Recipients may follow their own property management policies and procedures: *Provided,* They observe the requirements of this subpart. Awarding parties may not impose on recipients property requirements (including property reporting requirements) not authorize by this subpart, unless specifically required by Federal statutes or Executive Orders.

§ 74.132 Definitions.

As used in this subpart:

"Acquisition" of property includes purchase, construction, or fabrication of property, but does not include rental of property or alterations and renovations of real property.

"Acquisition cost" of an item of purchased equipment means the net invoice price of the equipment, including the cost of modifications, attachments, accessories, or auxiliary apparatus necessary to make the equipment usable for the purpose for which it was acquired. Other charges such as the cost of installation, transportation, taxes, duty or protective in-transit insurance shall be included in or excluded from the unit acquisition cost in accordance with the regular accounting practices of the organization purchasing the equipment. If the item is acquired by trading in another item and paying an additional amount, "acquisition cost" means the amount received for trade-in plus the additional outlay.

"Amount received for trade-in" of an item of equipment traded in for replacement equipment means the amount that would have been paid for the replacement equipment without a trade-in minus the amount paid with the trade-in. The term refers to the actual difference, not necessarily the trade-in value shown on an invoice.

"Equipment" means tangible personal property having a useful life of more than one year and an acquisition cost of $300 or more per unit except that organizations subject to Cost Accounting Standards Board (CASB) regulations may use the CASB standard of $500 or more per unit and useful life of two years. An organization may use its own definition of equipment: *Provided,* That such definition would at least include all tangible personal property as defined herein.

"Personal property" means property of any kind except real property. It may be tangible—having physical existence, or intangible—having no physical existence, such as patents, inventions, and copyrights.

"Real property" means land, including land improvements, structures and appurtenances thereto, but excluding movable machinery and equipment.

"Replacement equipment" means property acquired to take the place of other equipment. To qualify as replacement equipment, it must serve the same function as the equipment replaced and must be of the same nature or character, although not necessarily the same model, grade, or quality.

"Supplies" means all tangible personal property other than equipment.

§ 74.133 Title to real property, equipment, and supplies.

Subject to the obligations and conditions set forth in this subpart, title to real property, equipment, and supplies acquired under a grant or subgrant shall vest, upon acquisition, in the grantee or subgrantee respectively.

Real Property

§ 74.134 Real property.

Except as otherwise provided by federal statutes, real property to which this subpart applies shall be subject to the following requirements, in addition to any other requirements imposed by the terms of the grant:

(a) *Use.* The property shall be used for the originally authorized purpose as long as needed for that purpose. When no longer so needed, approval of the granting agency may be requested to use the property for other purposes. Use for other purposes shall be limited to:

(1) Projects or programs supported by other Federal grants or assistance agreements.

(2) Activities not supported by other Federal grants or assistance agreements but having, nevertheless, purposes consistent with those of the legislation under which the original grant was made.

(b) *Transfer of title.* Approval may be requested from the granting agency to transfer title to an eligible third party for continued use for authorized purposes in accordance with paragraph (a) of this section. If approval is permissable under Federal statutes and is given, the terms of the transfer shall provide that the transferee shall assume all the rights and obligations of the transferor set forth in this subpart or in other terms of the grant or subgrant.

(c) *Disposition.* When the real property is no longer to be used as provided in paragraphs (a) and (b) of this section, the disposition instructions of the granting agency shall be followed. Those instructions will provide for one of the following alternatives:

(1) The property shall be sold and the Federal Government shall be paid an amount computed by multiplying the Federal share of the property (see § 74.142) times the proceeds from sale (after deducting actual and reasonable selling and fix-up expenses, if any, from the sales proceeds). Proper sales procedures shall be used that provide for competition to the extent practicable and result in the highest possible return.

(2) The recipient shall have the option either of selling the property in accordance with paragraph (c)(1) of this section or of retaining title. If title is retained, the Federal Government shall be paid an amount computed by multiplying the market value of the property by the Federal share of the property.

(3) The recipient shall transfer the title to either the Federal Government or an eligible non-Federal party named by the granting agency. The grantee shall be entitled to be paid an amount computed by multiplying the market value of the property by the non-Federal share of the property. If the property belonged to a subgrantee, see § 74.143 for subgrantee's share.

Equipment and Supplies

§ 74.135 Exemptions for equipment and supplies subject to certain statutes.

(a) Some Federal statutes, in certain circumstances, permit title to equipment or supplies acquired with grant funds to vest in the recipient without further obligation to the Federal Government or on such terms and conditions as deemed appropriate. An example of such a statute is the Federal Grant and Cooperative Agreement Act of 1977, Pub. L. 95–224, which provides this authority for equipment and supplies

purchased with the funds of grants (and Federal contracts and cooperative agreements) for the conduct of basic or applied scientific research at nonprofit institutions of higher education or at nonprofit organizations whose primary purpose is the conduct of scientific research.

(b) If equipment is subject to a statute of the kind described in paragraph (a) of this section, it shall be exempt from the requirements in the remaining sections of this subpart. However, an item of such equipment having a unit acquisition cost of $1,000 or more shall be subject to § 74.136, concerning rights to require transfer, and, while subject to such a right, to the rules on replacement in § 74.138.

(c) If supplies are subject to a statute of the kind described in paragraph (a) of this section, they shall be exempt from all provisions of the remainder of this subpart which would otherwise apply.

§ 74.136 Rights to require transfer of equipment.

(a) *HEW right.* For items of equipment having a unit acquisition cost of $1,000 or more, the granting agency shall have the right to require transfer of the equipment (including title) to the Federal Government or to an eligible non-Federal party named by the granting agency. This right will normally be exercised by HEW granting agencies only if the project or program for which the equipment was acquired is transferred from one grantee to another. The right shall be subject to the following conditions:

(1) In order for the granting agency to exercise the right, a specific notice that it is exercising the right or considering doing so must be issued no later than the 120th day after the end of HEW grant support for the project or program for which the equipment was acquired. Furthermore:

(i) If the equipment is eligible for the exemptions in § 74.135 and ceases to be needed for the project or program for which it was acquired while the project or program is still being performed by the recipient, the notice must have been received by the grantee while the equipment was still needed for that project or program.

(ii) If the equipment is not eligible for those exemptions, the notice must have been received by the grantee before other permissible disposition of the equipment took place in accordance with § 74.139.

(2) If the right is exercised, the grantee shall be entitled to be paid any reasonable, resulting shipping or storage costs incurred, plus an amount computed by multiplying the market value of the equipment by the non-Federal share of the equipment. (See §§ 74.142 and 74.143.)

(b) *Right of parties awarding subgrants.* When a grantee awards a subgrant, it may reserve for itself a right similar to that in paragraph (a) of this section for items of equipment having a unit acquisition cost of $1,000 or more which are acquired under that subgrant. Without the approval of the granting agency, the right may be exercised only if the project or program for which the equipment was acquired is transferred to another subgrantee and only for the purpose of transferring the equipment to the new subgrantee for continued use in the project or program.

(c) *Equipment lists.* If at any time an awarding party is considering exercising its right to require transfer of equipment, it may require the recipient to furnish it a listing of all items of equipment that are subject to the right. This will enable the awarding party to determine which items, if any, should be transferred.

§ 74.137 Use of equipment.

(a) *Basic rule.* Equipment which has not been transferred under § 74.136 shall be used by the recipient in the project or program for which it was acquired as long as needed, whether or not the project or program continues to be supported by Federal funds. When no longer needed for the original project or program, the recipient shall use the equipment, if needed, in other projects or programs currently or previously sponsored by the Federal Government, in the following order of priority:

(1) Projects or programs currently or previously sponsored by the same granting agency.

(2) Projects or programs currently or previously sponsored by other Federal agencies.

(b) *Shared use.* If equipment is being used less than full time in the project or program for which it was originally acquired, the recipient shall make it available for use in other projects or programs currently or previously sponsored by the Federal Government: *Provided,* Such other use will not interfere with the work on the original project or program. First preference for such other use shall be given to other projects or programs sponsored by the same granting agency.

(c) *Use by other recipients.* When the recipient can no longer use the equipment as required by paragraph (a) of this section, it may voluntarily make the equipment available for use on projects or programs currently or previously sponsored by the Federal Government which the recipient is supporting through subgrants or through non-Federal grants. If the recipient is a subgrantee, it may also voluntarily make the equipment available for use on projects or programs currently or previously sponsored by the Federal Government which are being conducted or supported by the grantee.

(d) *Other uses.* Unless the granting agency provides otherwise, while equipment is being used as described in the preceding paragraphs of this section, it may also be used part time for other purposes. However, use as described in those paragraphs shall be given priority over other uses.

§ 74.138 Replacement of equipment.

(a) Equipment may be exchanged for replacement equipment if needed. The replacement may take place either through trade-in or through sale and application of the proceeds to the acquisition cost of the replacement equipment. In either case, the transaction must be one which a prudent person would make in like circumstances.

(b) If an additional outlay to acquire the replacement equipment is charged as a direct cost to either Federal funds or required cost-sharing or matching under a Federal award, the replacement equipment shall be subject to whatever property requirements or exemptions are applicable to that award. If the award is a grant from HEW, the full acquisition cost of the replacement equipment shall determine which provisions of this subpart apply.

(c) For any replacement not covered by paragraph (b) of this section, the provisions of this subpart applicable to the equipment replaced shall carry over to the replacement equipment. However, none of the provisions of this subpart shall carry over if (1) the Federal share of the equipment replaced was 10 percent or less or (2) the product of that share times the amount received for trade-in or sale is $100 or less.

§ 74.139 Disposition of equipment.

When original or replacement equipment is no longer to be used in projects or programs currently or previously sponsored by the Federal Government, disposition of the equipment shall be made as follows:

(a) *Equipment with a unit acquisition cost of less than $1,000 and equipment with no further use value.* The equipment may be retained, sold, or otherwise disposed of, with no further obligation to the Federal Government.

(b) *All other equipment.* (1) The equipment may be retained or sold, and the Federal Government shall have a right to an amount calculated by multiplying the current market value or

the proceeds from sale by the Federal share of the equipment (see § 74.142). If part of the Federal share in the equipment came from an award under which the exemptions in § 74.135 were applicable, the amount due shall be reduced pro rata. In any case, if the equipment is sold, $100 or 10 percent of the total sales proceeds, whichever is greater, may be deducted and retained from the amount otherwise due for selling and handling expenses.

(2) If the grantee's project or program for which or under which the equipment was acquired is still receiving grant support from the same Federal program and if the granting agency approves, the net amount due may be used for allowable costs of that project or program. Otherwise, the net amount must be remitted to the granting agency by check.

§ 74.140 Equipment management requirements.

Procedures for managing equipment (including replacement equipment) until transfer, replacement, or disposition takes place shall, as a minimum, meet the following requirements:

(a) Property records shall be maintained accurately. (Retention and access requirements for these records are explained in Subpart D of this part.) For each item of equipment, the records shall include:

(1) A description of the equipment, including manufacturer's model number, if any.

(2) An identification number, such as the manufacturer's serial number.

(3) Identification of the grant under which the recipient acquired the equipment.

(4) The information needed to calculate the Federal share of the equipment. (See § 74.142.)

(5) Acquisition date and unit acquisition cost.

(6) Location, use, and condition of the equipment and the date the information was reported.

(7) All pertinent information on the ultimate transfer, replacement, or disposition of the equipment.

(b) A physical inventory of equipment shall be taken and the results reconciled with the property records at least once every 2 years to verify the existence, current utilization, and continued need for the equipment. A statistical sampling basis is acceptable. Any differences between quantities determined by the physical inspection and those shown in the accounting records shall be investigated to determine the causes of the differences.

(c) A control system shall be in effect to insure adequate safeguards to prevent loss, damage, or theft of the equipment. Any loss, damage, or theft of equipment shall be investigated and fully documented.

(d) Adequate maintenance procedures shall be implemented to keep the equipment in good condition.

(e) Where equipment is to be sold and the Federal Government is to have a right to part or all of the proceeds, selling procedures shall be established which will provide for competition to the extent practicable and result in the highest possible return.

§ 74.141 Supplies.

(a) If supplies exceeding $1,000 in total aggregate market value are left over upon termination or expiration of the grant or subgrant for which they were acquired and the supplies are not needed for any project or program currently or previously sponsored by the Federal Government, the grant shall be credited by an amount computed by multiplying the Federal share of the supplies times the current market value or, if the supplies are sold, the proceeds from sale. If the supplies are sold, 10 percent of the proceeds may be deducted and retained from the credit, for selling and handling expenses.

(b) For possible exemptions from this section, see § 74.135.

Federal Share of Real Property, Equipment, and Supplies

§ 74.142 Federal share of property.

Several sections of this subpart require a determination of the Federal (or non-Federal) share of real property, equipment, or supplies. In making such a determination, the following principles shall be observed:

(a) *General.* (1) Except as explained in the succeeding paragraphs of this section, the Federal share of the property shall be the same percentage as the Federal share of the acquiring party's total costs under the grant during the grant or subgrant year (or other funding period) to which the acquisition cost of the property was charged. For this purpose, "costs under the grant" means allowable costs which are either borne by the grant or counted towards satisfying a cost-sharing or matching requirement of the grant. Only costs are to be counted—not the value of third-party in-kind contributions. Moreover, if the property was acquired by a grantee that awarded subgrants, costs incurred by its subgrantees shall be included only to the extent borne by the subgrants. (For example, if a subgrantee incurred $200,000 of project costs, of which $150,000 was borne by the subgrant, only the $150,000 shall be included in the grantee's costs.)

(2) If the property is acquired by a subgrantee, the Federal share of the subgrantee's costs under the grant and hence of the property shall be calculated by multiplying the Federal share of the grantee's costs by the latter's share of the subgrantee's costs. For example, if the Federal share of a grantee's costs is 50 percent and the subgrant bears only 50 percent of a subgrantee's costs, then the Federal share of that subgrantee's costs (and of the property acquired by that subgrantee) is 25 percent.

(b) *Property acquired only partly under a grant.* (1) Sometimes only a part of the acquisition cost of an item of property is borne as a direct cost by the grant or counted as a direct cost towards a cost-sharing or matching requirement. The remainder might, for example, represent voluntary cost sharing or matching, or it might be charged to a different activity. Occasionally, the amount paid for the property is only a part of its value, and the remainder is donated as an in-kind contribution by the party that provided the property.

(2) To calculate the Federal share of such property, first determine the Federal share of the acquiring party's total costs under the grant, as explained in the paragraph (a) of this section. Then multiply that share by the percentage of the property's acquisition cost (or its market value, if the item was partly donated) which was borne as a direct cost by the grant or counted as a direct cost towards a cost-sharing or matching requirement.

(c) *Replacement equipment.* The Federal share of replacement equipment shall be calculated as follows:

(1) *Step 1.* Determine the Federal share (percentage) of the equipment replaced.

(2) *Step 2.* Determine the percentage of the replacement equipment's cost that was covered by the amount received for trade-in or the sales proceeds from the equipment replaced.

(3) *Step 3.* Multiply the step 1 percentage by the step 2 percentage.

(4) *Step 4.* If an additional outlay for the replacement equipment was charged as a direct cost either to HEW grant funds or to required cost-sharing or matching funds, calculate the Federal share attributable to that additional outlay as explained in paragraph (b)(2) of this section. Add that additional percentage to the step 3 percentage.

(d) *Institutional cost-sharing agreements.* If a grant is subject to an institutional cost-sharing agreement (see § 74.130(e)), the Federal share of property acquired under the grant shall

be calculated as though there were no cost-sharing requirement applicable to the grant (that is, as if all the grantee's cost sharing were voluntary).

§ 74.143 Subgrantee's share of market value or sales proceeds.

Where this subpart requires a sharing of the market value or sales proceeds of property acquired under a subgrant, the non-Federal share shall be proportionally divided between the grantee and the subgrantee. The subgrantee shall be entitled to the amount it would have received or retained if the award to it had been made directly by the Federal Government. The remainder of the non-Federal share shall belong to the grantee.

Intangible Personal Property

§ 74.144 Inventions and patents.

HEW's regulations on inventions and patents arising out of activities assisted by a grant are set forth in parts 6 and 8 of this title.

§ 74.145 Copyrights.

(a) *Works under grants.* Unless otherwise provided by the terms of the grant, when copyrightable material is developed in the course of or under a grant, the grantee is free to copyright the material or permit others to do so.

(b) *Works under subgrants.* Unless otherwise provided by the terms of the grant or subgrant, when copyrightable material is developed in the course of or under a subgrant, the subgrantee is free to copyright the material or permit others to do so.

(c) *HEW rights.* If any copyrightable material is developed in the course of or under a HEW grant or subgrant, HEW shall have a royalty-free, nonexclusive, and irrevocable right to reproduce, publish, or otherwise use, and to authorize others to use, the work for Federal Government purposes. A grantee awarding a subgrant may reserve a similar right for itself with respect to copyrightable material developed under that subgrant.

(d) *Exemption of student-developed works.* HEW awards training grants and other kinds of grants under which individuals are provided stipends or other financial assistance for the primary purpose of aiding them to further their education or training. Except as provided by the terms of the grant, copyrightable material developed by an individual or group of individuals in the course of education or training pursued with such assistance shall not be subject to the HEW right described in paragraph (c) of this section, unless the development of the material also receives other forms of support under the same or another HEW grant (such as a research grant).

Subpart P—Procurement Standards

§ 74.160 Scope of subpart; terminology.

(a) This subpart contains standards for use by recipients in establishing procedures for the procurement of supplies, equipment, construction, and other services whose cost is borne in whole or in part as a direct cost by Federal grant funds.

(b) No additional procurement standards or requirements shall be imposed by awarding parties upon recipients unless specifically required by Federal statutes or Executive Orders.

(c) As used in this subpart:

(1) "Formal advertising" refers to that procurement method which involves adequate purchase description, sealed bids, and public opening of bids.

(2) "Negotiation" refers to any method of procurement other than formal advertising.

§ 74.161 General.

(a) Recipients may use their own procurement policies: *Provided,* That procurements subject to this subpart are made in accordance with the standards in this subpart.

(b) The standards in this subpart do not relieve the recipient of the contractual responsibilities arising under its contracts. The recipient is the responsible authority, without recourse to HEW, regarding issues arising out of its procurements. This includes but is not limited to: Disputes, claims, protests of award, source evaluation, or other matters of a contractual nature. Matters concerning violation of law are to be referred to such local, State, or Federal authority as may have proper jurisdiction.

§ 74.162 Code of conduct.

(a) The recipient shall maintain a code or standards of conduct that shall govern the performance of its officers, employees or agents engaged in the awarding and administration of contracts that are subject to this subpart. The code or standards shall provide for disciplinary actions to be applied for violations of the code or standards by the recipient's officers, employees, or agents. For governmental recipients, such disciplinary actions are required only to the extent otherwise permissible under the Government's laws, rules, or regulations. To the extent permissible under its laws, rules, or regulations, the governmental recipient shall also provide for actions to be taken against contractors or their agents who wrongfully take part in a violation of the code or standards of conduct.

(b) The recipient's officers, employees or agents shall neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or potential contractors. This is not intended to preclude bona-fide institutional fund-raising activities.

(c) No employee, officer, or agent of a nongovernmental recipient shall participate in the selection, award, or administration of a contract subject to this subpart where, to his or her knowledge, any of the following has a financial interest in that contract:

(1) The employee, officer, or agent;

(2) Any member of his or her immediate family;

(3) His or her partner;

(4) An organization in which any of the above is an officer, director, or employee;

(5) A person or organization with whom any of the above individuals is negotiating or has any arrangement concerning prospective employment.

§ 74.163 Free competition.

(a) All procurement transactions shall be conducted in a manner to provide, to the maximum extent practicable, open and free competition.

(b) The recipient should be alert to organizational conflicts of interest or noncompetitive practices among contractors that may restrict or eliminate competition or otherwise restrain trade. In particular, a contractor that develops or drafts specifications, requirements, a statement of work, an invitation for bids or a request for proposals for a particular procurement by a nongovernmental recipient should be excluded from competing for that procurement except when, upon request of the recipient, the granting agency waives this requirement for a particular procurement.

(c) Solicitations shall clearly set forth all requirements that the bidder/offerer must fulfill in order for his bid/offer to be evaluated. Awards shall be made to the responsible bidder/offeror whose bid/offer is responsive to the solicitation and is most advantageous to the recipient, price and other factors considered. Factors such as discounts, transportation costs, and taxes may be considered in determining the lowest bid. Any and all bids/offers may be rejected when it is in the recipient's interest to do so, and, in the case of governmental recipients, such rejections are in accordance with the government's applicable law, rules, or regulations.

§ 74.164 Procedural requirements.

The recipient shall establish procurement procedures which provide for, as a minimum, the following:

(a) Proposed procurement actions shall follow a procedure to assure that unnecessary or duplicative items are not purchased. Where appropriate, an analysis shall be made of lease and purchase alternatives to determine which would be the most economical, practical procurement.

(b) Solicitations for goods and services shall be based upon a clear and accurate description of the technical requirements for the material, product, or service to be procured. Such description shall not, in competitive procurements, contain features which unduly restrict competition. "Brand name or equal" description may be used as a means to define the performance or other salient requirements of a procurement, and when so used the specific features of the named brand which must be met by bidders/offerors should be clearly specified.

(c) Where applicable, section 7(b) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450e(b)) shall be observed.

(d) Positive efforts shall be made by procuring parties to utilize small business and minority-owned business sources of supplies and services. Such efforts should allow these sources the maximum feasible opportunity to compete for contracts subject to this subpart. [1]

(e) The type of procuring instruments used—e.g., fixed-price contracts, cost reimbursable contracts, purchase orders, incentive contracts—shall be determined by the recipient but must be appropriate for the particular procurement and for promoting the best interest of the grant project or program involved. The "cost-plus-a-percentage-of-cost" method of contracting shall not be used.

(f) Contracts shall be made only with responsible contractors who possess the potential ability to perform successfully under the terms and conditions of a proposed procurement. Consideration shall be given to such matters as contractor integrity, record of past performance, financial and technical resources or accessibility to other necessary resources.

(g) The terms of the grant may require that the following be submitted for prior approval of the granting agency if the aggregate expenditure is expected to exceed $5,000: (1) Any proposed sole source contract and (2) any contract which a nongovernmental recipient proposes to award after seeking competition but receiving only one bid or proposal.

(h) Nongovernmental recipients should make some form of price or cost analysis in connection with every negotiated procurement action. Price analysis may be accomplished in various ways, including the comparison of price quotations submitted, market prices and similar indicia, together with discounts. Cost analysis is the review and evaluation of each element of cost proposed by the offeror to determine reasonableness, allocability and allowability.

(i) Procurement records and files for purchases in excess of $10,000 shall include the following:

(1) Basis for contractor selection;

(2) Justification for lack of competition when competitive bids or offers are not obtained;

(3) Basis for award cost or price.

(j) A system for contract administration shall be maintained to ensure contractor conformance with terms, conditions and specifications of the contract, and to ensure adequate and timely followup of all purchases.

§ 74.165 Requirement for governments to use formal advertising.

(a) Except as provided in paragraph (b) of this section, in making procurements that are subject to this subpart, governmental recipients shall use formal advertising.

(b) Procurements may be negotiated if it is not practicable or feasible to use formal advertising. Generally, such procurements may be negotiated if one or more of the following conditions prevail:

(1) The public exigency will not permit the delay incident to advertising.

(2) The material or service to be procured is available from only one person or firm.

(3) The aggregate amount involved does not exceed $10,000.

(4) The contract is for personal or professional services, or for any service to be rendered by a university, college, or other educational institution.

(5) The material or services are to be procured and used outside the limits of the United States and its possessions.

(6) No acceptable bids have been received after formal advertising.

(7) The purchases are for highly perishable materials or medical supplies, for material or services where the prices are established by law, for technical items or equipment requiring standardization and interchangeability of parts with existing equipment, for experimental, developmental or research work, for supplies purchased for authorized resale, or for technical or specialized supplies requiring substantial intitial investment for manufacture.

(8) Formal advertising is otherwise not practicable or feasible, and negotiation is authorized by applicable law, rules, or regulations.

(c) Notwithstanding the existence of circumstances justifying negotiation, competition shall be obtained to the maximum extent practicable.

(d) For every negotiated procurement in excess of $10,000 by a governmental recipient, written justification for the use of negotiation in lieu of formal advertising shall be included in the government's procurement records and files, in addition to the information required by § 74.164(i). The justification may be on a class basis, i.e., covering a group of related or similar contracts, or it may be on an individual contract basis.

§ 74.166 Contract provisions.

(a) *Scope.* This section contains requirements relating to provisions that must be included in contracts that are subject to this part. The requirements shall also apply to subcontracts of any tier under such contracts, and the term "contracts" in this section shall be construed as including subcontracts.

(b) *General.* All contracts shall contain sufficient provisions to define a sound and complete agreement.

(c) *Administrative remedies for violations.* Contracts in excess of $10,000 shall contain contractual provisions or conditions that will allow for administrative, contractual or legal remedies in instances in which contractors violate or breach contract terms, and provide for such remedial actions as appropriate.

(d) *Termination provisions.* Contracts in excess of $10,000 shall contain suitable provisions for termination by the party awarding the contract, including the manner by which termination will be effected and the basis for settlement. These contracts shall describe conditions under which the contract may be terminated for default as well as conditions where the contract may be terminated because of

[1] Advice and assistance regarding the use of small or minority businesses may be obtained from the following Federal organizations:

1. The Small Business Administration and its field offices.
2. The Office of Minority Business Enterprise, Department of Commerce.
3. The Office of Facilities Engineering, HEW and its regional offices (for assistance in identifying minority-owned firms interested in performing construction, alteration, or renovation work).
4. The Office for Civil Rights, HEW.
5. The Office of Grants and Procurement, HEW.

circumstances beyond the control of the contractor.

(e) *E.O. 11246.* Where applicable, construction contracts in excess of $10,000 shall contain a provision requiring compliance with Executive Order 11246, entitled "Equal Employment Opportunity," as amended by Executive Order 11375, and as supplemented in Department of Labor regulations (41 CFR Part 60).

(f) *Copeland Act.* Contracts in excess of $2,000 for construction or repair shall include a provision for compliance with the Copeland "Anti-Kick-Back Act" (18 U.S.C. 874) as supplemented in Department of Labor regulation (29 CFR Part 3). All suspected or reported violations shall be reported to the granting agency by the grantee.

(g) *Davis-Bacon Act.* When required by the Federal legislation governing the grant program, all construction contracts in excess of $2,000 shall include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 276a to a–7) as supplemented by Department of Labor regulations (29 CFR Part 5). All suspected or reported violations shall be reported to the granting agency by the grantee.

(h) *Contract Work Hours and Safety Standards Act.* All contracts subject to the Contract Work Hours and Safety Standards Act (40 U.S.C. 327 et seq.) shall include a provision requiring the contractor to comply with the applicable sections of the act and the Department of Labor's supplementing regulations (29 CFR Parts 5 and 1926).

(i) *Inventions and patents.* Contracts which may give rise to inventions subject to parts 6 and 8 of this title shall include a provision requiring compliance with those parts.

(j) *Access to Records.* Contracts that are subject to Subpart D of this part shall include a provision reflecting § 74.24(c) on rights of access to the contractor's records.

(k) *Clean Air and Water Acts.* Contracts in excess of $100,000 shall contain provisions requiring compliance with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act as amended (42 U.S.C. 1857 et seq.) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251 et seq.). Violations shall be reported in writing to the appropriate regional office of the Environmental Protection Agency, and a copy of the report shall be submitted to the granting agency. (See 40 CFR Part 15 for relevant regulations of the Environmental Protection Agency.)

Subpart Q—Cost Principles

§ 74.170 Scope of subpart.

This subpart identifies the principles to be used in determining costs applicable to grants, subgrants, and cost-type contracts under grants and subgrants.

§ 74.171 Governments.

The principles to be used in determining the allowable costs of activities conducted or administered by governments are in Appendix C to this part.

§ 74.172 Institutions of higher education.

(a) *Research and development.* The principles for determining the allowable costs of research and development work performed by institutions of higher education (other than for-profit institutions) are in part I of Appendix D to this part.

(b) *Training and other educational services.* The principles for determining the allowable costs of training and other educational services provided by institutions of higher education (other than for-profit institutions) are in part II of Appendix D to this part.

(c) *Other activities.* Appendix D to this part shall be used as a guide for determining the allowable costs of other activities conducted by institutions of higher education (other than for-profit institutions).

§ 74.173 Hospitals.

(a) *Research and development.* The principles for determining the allowable costs of research and development work performed by hospitals are in Appendix E to this part.

(b) *Other activities.* Appendix E to this part shall be used as a guide for determining the allowable costs of other activities conducted by hospitals.

§ 74.174 Other nonprofit organizations.

(a) *Nonconstruction awards.* Under nonconstruction awards, the principles for determining the allowable costs of activities conducted by nonprofit organizations other than institutions of higher education, hospitals, and governmental organizations are in Appendix F to this part.

(b) *Construction awards.* Appendix F to this part shall be used as a guide for determining the allowable costs of work under construction awards to nonprofit organizations (other than institutions of higher education, hospitals and governmental organizations).

§ 74.175 Subgrants and cost-type contracts.

(a) The cost principles applicable to a subgrantee or cost-type contractor under an HEW grant will not necessarily be the same as those applicable to the grantee. For example, where a State government awards a subgrant or cost-type contract to an institution of higher education, Appendix D to this part would apply to the costs incurred by the institution of higher education, even though Appendix C would apply to the costs incurred by the State.

(b) The principles to be used in determining the allowable costs of work performed by for-profit organizations (other than hospitals) under cost-type contracts awarded to them under HEW grants are in 41 CFR Subpart 1–15.2.

§ 74.176 Costs allowable with approval.

Each set of cost principles identifies certain costs that, in order to be allowable, must be approved by the granting agency. Other costs do not require approval. The following procedures govern approval of these costs.

(a) When costs are treated as indirect costs (or are allocated pursuant to a government-wide cost allocation plan), acceptance of the costs as part of the indirect cost rate or cost allocation plan shall constitute approval.

(b)(1) When the costs are treated as direct costs, they must be approved in advance by the awarding party.

(2) If the costs are specified in the budget, approval of the budget shall constitute approval of the costs.

(3) If the costs are not specified in the budget, or there is no approved budget, the recipient shall obtain specific prior approval in writing from the awarding party. For this purpose the prior approval procedures of § 74.102 shall be followed, except that for formula or mandatory grants, the granting agency's written approval may be signed by any authorized official of the granting agency.

(c) The awarding party may waive or conditionally waive the requirement for its approval of the costs. Such a waiver shall apply only to the requirement for approval. If, upon audit or otherwise, it is determined that the costs do not meet other requirements or tests for allowability specified by the applicable cost principles, such as reasonableness and necessity, the costs may be disallowed.

(d) In the case of subgrants and cost-type contracts, no approval shall be given which is inconsistent with the purpose or the terms of the Federal grant.

Appendix A [Reserved]

Appendix B [Reserved]

Appendix C—Principles for Determining Costs Applicable to Grants and Contracts With State and Local Governments

Part I—General

A. Purpose and Scope

1. *Objectives.* This appendix sets forth principles for determining the allowable costs of programs administered by State and local governments under grants from and contracts with the Federal Government. The principles are for the purpose of cost determination and are not intended to identify the circumstances or dictate the extent of Federal and State or local participation in the financing of a particular grant. They are designed to provide that federally assisted programs bear their fair share of costs recognized under these principles, except where restricted or prohibited by law. No provision for profit or other increment above cost is intended.

2. *Policy guides.* The application of these principles is based on the fundamental premises that:

a. State and local governments are responsible for the efficient and effective administration of grant and contract programs through the application of sound management practices.

b. The grantee or contractor assumes the responsibility for seeing that federally assisted program funds have been expended and accounted for consistent with underlying agreements and program objectives.

c. Each grantee or contractor organization, in recognition of its own unique combination of staff facilities and experience, will have the primary responsibility for employing whatever form of organization and management techniques may be necessary to assure proper and efficient administration.

3. *Application.* These principles will be applied in determining costs incurred by State and local governments under Federal grants and cost reimbursement type contracts (including subgrants and subcontracts) except those with (a) publicly financed educational institutions subject to Appendix D to this part and (b) publicly owned hospitals and other providers of medical care subject to requirements of Appendix E to this part.

B. Definitions

1. *Approval or authorization of the grantor Federal agency* means documentation evidencing consent prior to incurring specific cost.

2. *Cost allocation plan* means the documentation identifying, accumulating, and distributing allowable costs under grants and contracts together with the allocation methods used.

3. *Cost,* as used herein, means cost as determined on a cash, accrual, or other basis acceptable to the Federal grantor agency as a discharge of the grantee's accountability for Federal funds.

4. *Cost objective* means a pool, center, or area established for the accumulation of cost. Such areas include organizational units, functions, objects or items of expense, as well as ultimate cost objectives including specific grants, projects, contracts, and other activities.

5. *Federal agency* means the Department of Health, Education, and Welfare.

6. Grant means an agreement between the Federal Government and a State or local government whereby the Federal Government provides funds or aid in kind to carry out specified programs, services, or activities. The principles and policies stated in this appendix as applicable to grants in general also apply to any federally sponsored cost reimbursement type of agreement performed by a State or local government, including contracts, subcontracts and subgrants.

7. *Grant program* means those activities and operations of the grantee which are necessary to carry out the purposes of the grant, including any portion of the program financed by the grantee.

8. *Grantee* means the department or agency of State or local government which is responsible for administration of the grant.

9. *Local unit* means any political subdivision of government below the State level.

10. *Other State or local agencies* means departments or agencies of the State or local unit which provide goods, facilities, and services to a grantee.

11. *Services,* as used herein, means goods and facilities, as well as services.

12. *Supporting services* means auxiliary functions necessary to sustain the direct effort involved in administering a grant program or an activity providing service to the grant program. These services may be centralized in the grantee department or in some other agency, and include procurement, payroll, personnel functions, maintenance and operation of space, data processing, accounting budgeting, auditing, mail and messenger service, and the like.

C. Basic Guidelines

1. *Factors affecting allowability of costs.* To be allowable under a grant program, costs must meet the following general criteria:

a. Be necessary and reasonable for proper and efficient administration of the grant program, be allocable thereto under these principles, and, except as specifically provided herein, not be a general expense required to carry out the overall responsibilities of State or local governments.

b. Be authorized or not prohibited under State or local laws or regulations.

c. Conform to any limitations or exclusions set forth in these principles, Federal laws, or other governing limitations as to types or amounts of cost items.

d. Be consistent with policies, regulations, and procedures that apply uniformly to both federally assisted and other activities of the unit of government of which the grantee is a part.

e. Be accorded consistent treatment through application of generally accepted accounting principles appropriate to the circumstances.

f. Not be allocable to or included as a cost of any other federally financed program in either the current or a prior period.

g. Be net of all applicable credits.

2. *Allocable costs.* a. A cost is allocable to a particular cost objective to the extent of benefits received by such objective.

b. Any cost allocable to a particular grant or cost objective under the principles provided for in this appendix may not be shifted to other Federal grant programs to overcome fund deficiencies, avoid restrictions imposed by law or grant agreements, or for other reasons.

c. Where an allocation of joint cost will ultimately result in charges to a grant program, an allocation plan will be required as prescribed in section J.

3. *Applicable credits.* a. Applicable credits refer to those receipts or reduction of expenditure-type transactions which offset or reduce expense items allocable to grants as direct or indirect costs. Examples of such transactions are: purchase discounts; rebates or allowances; recoveries or indemnities on losses; sale of publications, equipment, and scrap; income from personal or incidental services; and adjustments of overpayments or erroneous charges.

b. Applicable credits may also arise when Federal funds are received or are available from sources other than the grant program involved to finance operations or capital items of the grantee. This includes costs arising from the use or depreciation of items donated or financed by the Federal Government to fulfill matching requirements under another grant program. These types of credits should likewise be used to reduce related expenditures in determining the rates or amounts applicable to a given grant.

D. Composition of Cost

1. *Total cost.* The total cost of a grant program is comprised of the allowable direct cost incident to its performance, plus its allocable portion of allowable indirect costs, less applicable credits.

2. *Classification of costs.* There is no universal rule for classifying certain costs as either direct or indirect under every accounting system. A cost may be direct with respect to some specific service or function, but indirect with respect to the grant or other ultimate cost objective. It is essential therefore that each item of cost be treated consistently either as a direct or an indirect cost. Specific guides for determining direct and indirect costs allocable under grant programs are provided in the sections which follow.

E. Direct Costs

1. *General.* Direct costs are those that can be identified specifically with a particular cost objective. These costs may be charged directly to grants, contracts, or to other programs against which costs are finally lodged. Direct costs may also be charged to cost objectives used for the accumulation of costs pending distribution in due course to grants and other ultimate cost objectives.

2. *Application.* Typical direct costs chargeable to grant programs are:

a. Compensation of employees for the time and effort devoted specifically to the execution of grant programs.

b. Cost of materials acquired, consumed, or expended specifically for the purpose of the grant.

c. Equipment and other approved capital expenditures.

d. Other items of expense incurred specifically to carry out the grant agreement.

e. Services furnished specifically for the grant program by other agencies, provided such charges are consistent with criteria outlined in Section G of these principles.

F. Indirect Costs

1. *General.* Indirect costs are those (a) incurred for a common or joint purpose benefiting more than one cost objective, and (b) not readily assignable to the cost objectives specifically benefited, without effort disproportionate to the results achieved. The term "indirect costs," as used herein, applies to costs of this type originating in the grantee department, as well as those incurred by other departments in supplying goods, services, and facilities, to the grantee department. To facilitate equitable distribution of indirect expenses to the cost objectives served, it may be necessary to establish a number of pools of indirect cost within a grantee department or in other agencies providing services to a grantee department. Indirect cost pools should be distributed to benefiting cost objectives on bases which will produce an equitable result in consideration or relative benefits derived.

2. *Grantee departmental indirect costs.* Al grantee departmental indirect costs, including the various levels of supervision, are eligible for allocation to grant programs provided they meet the conditions set forth in this Appendix. In lieu of determining the actual amount of grantee departmental indirect cost allocable to a grant program, the following methods may be used:

a. *Predetermined fixed rates for indirect costs.* A predetermined fixed rate for computing indirect costs applicable to a grant may be negotiated annually in situations where the cost experience and other pertinent facts available are deemed sufficient to enable the contracting parties to reach an informed judgment (1) as to the probable level of indirect costs in the grantee department during the period to be covered by the negotiated rate, and (2) that the amount allowable under the predetermined rate would not exceed actual indirect cost.

b. *Negotiated lump sum for overhead.* A negotiated fixed amount in lieu of indirect costs may be appropriate under circumstances where the benefits derived from a grantee department's indirect services cannot be readily determined as in the case of small, self-contained or isolated activity. When this method is used, a determination should be made that the amount negotiated will be approximately the same as the actual indirect cost that may be incurred. Such amounts negotiated in lieu of indirect costs will be treated as an offset to total indirect expenses of the grantee department before allocation to remaining activities. The base on which such remaining expenses are allocated should be appropriately adjusted.

3. *Limitation on indirect costs.* a. Federal grants may be subject to laws that limit the amount of indirect cost that may be allowed. Agencies that sponsor grants of this type will establish procedures which will assure that the amount actually allowed for indirect costs under each such grant does not exceed the maximum allowable under the statutory limitation or the amount otherwise allowable under this Appendix, whichever is the smaller.

b. When the amount allowable under a statutory limitation is less than the amount otherwise allocable as indirect costs under this Appendix, the amount not recoverable as indirect costs under a grant may not be shifted to another federally sponsored grant program or contract.

G. Cost Incurred by Agencies Other Than the Grantee

1. *General.* The cost of service provided by other agencies only may include allowable direct costs of the service plus a pro rata share of allowable supporting costs (section B.12.) and supervision directly required in performing the service, but not supervision of a general nature such as that provided by the head of a department and his staff assistants not directly involved in operations. However, supervision by the head of a department or agency whose sole function is providing the service furnished would be an eligible cost. Supporting costs include those furnished by other units of the supplying department or by other agencies.

2. *Alternative methods of determining indirect cost.* In lieu of determining actual indirect cost related to a particular service furnished by another agency, either of the following alternative methods may be used provided only one method is used for a specific service during the fiscal year involved.

a. *Standard indirect rate.* An amount equal to 10 percent of direct labor cost in providing the service performed by another State agency (excluding overtime, shift, or holiday premiums and fringe benefits) may be allowed in lieu of actual allowable indirect cost for that service.

b. *Predetermined fixed rate.* A predetermined fixed rate for indirect cost of the unit or activity providing service may be negotiated as set forth in section F.2.a.

H. Cost Incurred by Grantee Department for Others

1. *General.* The principles provided in section G. will also be used in determining the cost of services provided by the grantee department to another agency.

I. [Reserved]

J. Cost Allocation Plan

1. *General.* A plan for allocation of costs will be required to support the distribution of any joint costs related to the grant program. All costs included in the plan will be supported by formal accounting records which will substantiate the propriety of eventual charges.

2. *Requirements.* The allocation plan of the grantee department should cover all joint costs of the department as well as costs to be allocated under plans of other agencies or organizational unit which are to be included in the costs of federally sponsored programs. The cost allocation plans of all the agencies rendering services to the grantee department, to the extent feasible, should be presented in a single document. The allocation plan should contain, but not necessarily be limited to, the following:

a. The nature and extent of services provided and their relevance to the federally sponsored programs.

b. The items of expense to be included.

c. The methods to be used in distributing cost.

3. *Instructions for preparation of cost allocation plans.* The Department of Health, Education, and Welfare, in consultation with the other Federal agencies concerned, will be responsible for developing and issuing the instructions for use by State and local government grantees in preparation of cost allocation plans. This responsibility applies to both central support services at the State and local government level as well as indirect cost proposals of individual grantee departments.

4. *Negotiation and approval of indirect cost proposals for States.* a. The Department of Health, Education, and Welfare, in collaboration with the other Federal agencies concerned, will be responsible for negotiation, approval and audit of cost allocation plans, which will be submitted to it by the States. These plans will cover central support service costs of the State.

b. At the grantee department level in a State, a single Federal agency will have responsibility similar to that set forth in a. above for the negotiation, approval and audit of the indirect cost proposal. Cognizant Federal agencies have been designated for this purpose. Changes which may be required from time to time in agency assignments will be arranged by the Department of Health, Education, and Welfare in collaboration with the other interested agencies, and submitted to the Office of Management and Budget for final approval. A current list of agency assignments will be maintained by the Department of Health, Education, and Welfare.

c. Questions concerning the cost allocation plans approved under a. and b. above should be directed to the agency responsible for such approvals.

5. *Negotiation and approval of indirect cost proposals for local governments.* a. Cost allocation plans will be retained at the local government level for audit by a designated Federal agency except in those cases where that agency requests that cost allocation plans be submitted to it for negotiation and approval.

b. A list of cognizant Federal agencies assigned responsibility for negotiation, approval and audit of central support service cost allocation plans at the local government level is being developed. Changes which may be required from time to time in agency assignments will be arranged by the Department of Health, Education, and Welfare in collaboration with the other interested agencies, and submitted to the Office of Management and Budget for final approval. A current list of agency assignments will be maintained by the Department of Health, Education, and Welfare.

c. At the grantee department level of local governments, the Federal agency with the predominant interest in the work of the

grantee department will be responsible for necessary negotiation, approval and audit of the indirect cost proposal.

6. *Resolution of problems.* To the extent that problems are encountered among the Federal agencies in connection with 4. and 5. above, the Office of Management and Budget will lend assistance as required.

Part II—Standards for Selected Items of Cost

A. Purpose and Applicability

1. *Objective.* This part provides standards for determining the allowability of selected items of cost.

2. *Application.* These standards will apply irrespective of whether a particular item of cost is treated as direct or indirect cost. Failure to mention a particular item of cost in the standards is not intended to imply that it is either allowable or unallowable, rather determination of allowability in each case should be based on the treatment of standards provided for similar or related items of cost. The allowability of the selected items of cost is subject to the general policies and principles stated in Part I of this appendix.

B. Allowable Costs

1. *Accounting.* The cost of establishing and maintaining accounting and other information systems required for the management of grant programs is allowable. This includes cost incurred by central service agencies for these purposes. The cost of maintaining central accounting records required for overall State or local government purposes, such as appropriation and fund accounts by the Treasurer, Comptroller, or similar officials, is considered to be a general expense of government and is not allowable.

2. *Advertising.* Advertising media includes newspapers, magazines, radio, and television programs, direct mail, trade papers, and the like. The advertising costs allowable are those which are solely for:

a. Recruitment of personnel required for the grant program.

b. Solicitation of bids for the procurement of goods and services required.

c. Disposal of scrap or surplus materials acquired in the performance of the grant agreement.

d. Other purposes specifically provided for in the grant agreement.

3. *Advisory councils.* Costs incurred by State advisory councils or committees established pursuant to Federal requirements to carry out grant programs are allowable. The cost of like organizations is allowable when provided for in the grant agreement.

4. *Audit service.* The cost of audits necessary for the administration and management of functions related to grant programs is allowable.

5. *Bonding.* Costs of premiums on bonds covering employees who handle grantee agency funds are allowable.

6. *Budgeting.* Costs incurred for the development, preparation, presentation, and execution of budgets are allowable. Costs for services of a central budget office are generally not allowable since these are costs of general government. However, where employees of the central budget office actively participate in the grantee agency's budget process, the cost of identifiable services is allowable.

7. *Building lease management.* The administrative cost for lease management which includes review of lease proposals, maintenance of a list of available property for lease, and related activities is allowable.

8. *Central stores.* The cost of maintaining and operating a central stores organization for supplies, equipment, and materials used either directly or indirectly for grant programs is allowable.

9. *Communications.* Communication costs incurred for telephone calls or service, telegraph, teletype service, wide area telephone service (WATS), centrex, telpak (tie lines), postage, messenger service and similar expenses are allowable.

10. *Compensation for personal services*—a. *General.* Compensation for personal services includes all remuneration, paid currently or accrued, for services rendered during the period of performance under the grant agreement, including but not necessarily limited to wages, salaries, and supplementary compensation and benefits (section B.13.). The costs of such compensation are allowable to the extent that total compensation for individual employees: (1) is reasonable for the services rendered. (2) follows an appointment made in accordance with State or local government laws and rules and which meets Federal merit system or other requirements, where applicable, and (3) is determined and supported as provided in b. below. Compensation for employees engaged in federally assisted activities will be considered reasonable to the extent that it is consistent with that paid for similar work in other activities of the State or local government. In cases where the kinds of employees required for the federally assisted activities are not found in the other activities of the State or local government, compensation will be considered reasonable to the extent that it is comparable to that paid for similar work in the labor market in which the employing government competes for the kind of employees involved. Compensation surveys providing data representative of the labor market involved will be an acceptable basis for evaluating reasonableness.

b. *Payroll and distribution* of time. Amounts charged to grant programs for personal services, regardless of whether treated as direct or indirect costs, will be based on payrolls documented and approved in accordance with generally accepted practice of the State or local agency. Payrolls must be supported by time and attendance or equivalent records for individual employees. Salaries and wages of employees chargeable to more than one grant program or other cost objective will be supported by appropriate time distribution records. The method used should produce an equitable distribution of time and effort.

11. *Depreciation and use allowances.* a. Grantees may be compensated for the use of buildings, capital improvements, and equipment through use allowances or depreciation. Use allowances are the means of providing compensation in lieu of depreciation or other equivalent costs. However, a combination of the two methods may not be used in connection with a single class of fixed assets.

b. The computation of depreciation or use allowance will be based on acquisition cost. Where actual cost records have not been maintained, a reasonable estimate of the original acquisition cost may be used in the computation. The computation will exclude the cost or any portion of the cost of buildings and equipment donated or borne directly or indirectly by the Federal Government through charges to Federal grant programs or otherwise, irrespective of where title was originally vested or where it presently resides. In addition, the computation will also exclude the cost of land. Depreciation or a use allowance on idle or excess facilities is not allowable, except when specifically authorized by the grantor Federal agency.

c. Where the depreciation method is followed, adequate property records must be maintained, and any generally accepted method of computing depreciation may be used. However, the method of computing depreciation must be consistently applied for any specific asset or class of assets for all affected federally sponsored programs and must result in equitable charges considering the extent of the use of the assets for the benefit of such programs.

d. In lieu of depreciation, a use allowance for buildings and improvements may be computed at an annual rate not exceeding 2 percent of acquisition cost. The use allowance for equipment (excluding items properly capitalized as building cost) will be computed at an annual rate not exceeding 6⅔ percent of acquisition cost of usable equipment.

e. No depreciation or use charge may be allowed on any assets that would be considered as fully depreciated: *provided, however,* That reasonable use charges may be negotiated for any such assets if warranted after taking into consideration the cost of the facility or item involved, the estimated useful life remaining at time of negotiation, the effect of any increased maintenance charges or decreased efficiency due to age, and any other factors pertinent to the utilization of the facility or item for the purpose contemplated.

12. *Disbursing service.* The cost of disbursing grant program funds by the Treasurer or other designated officer is allowable. Disbursing services cover the processing of checks or warrants, from preparation to redemption, including the necessary records of accountability and reconciliation of such records with related cash accounts.

13. *Employee fringe benefits.* Costs identified under a. and b. below are allowable to the extent that total compensation for employees is reasonable as defined in section B.10.

a. Employee benefits in the form of regular compensation paid to employees during periods of authorized absences from the job, such as for annual leave, sick leave, court leave, military leave, and the like, if they are: (1) provided pursuant to an approved leave system, and (2) the cost thereof is equitably allocated to all related activities, including grant programs.

b. Employee benefits in the form of employers' contribution or expenses for social security, employees' life and health insurance plans, unemployment insurance coverage, workmen's compensation insurance, pension plans, severance pay, and the like, provided such benefits are granted under approved plans and are distributed equitably to grant programs and to other activities.

14. *Employee morale, health, and welfare costs.* The costs of health of first-aid clinics and/or infirmaries, recreational facilities, employees' counseling services, employee information publications, and any related expenses incurred in accordance with general State or local policy are allowable. Income generated from any of these activities will be offset against expenses.

15. *Exhibits.* Costs of exhibits relating specifically to the grant programs are allowable.

16. *Legal expenses.* The cost of legal expenses required in the administration of grant programs is allowable. Legal services furnished by the chief legal officer of a State or local government or his staff solely for the purpose of discharging his general responsibilities as legal officer are unallowable. Legal expenses for the prosecution of claims against the Federal Government are unallowable.

17. *Maintenance and repair.* Costs incurred for necessary maintenance, repair, or upkeep of property which neither add to the permanent value of the property nor appreciably prolong its intended life, but keep it in an efficient operating condition, are allowable.

18. *Materials and supplies.* The cost of materials and supplies necessary to carry out the grant programs is allowable. Purchases made specifically for the grant program should be charged thereto at their actual prices after deducting all cash discounts, trade discounts, rebates, and allowances received by the grantee. Withdrawals from general stores or stockrooms should be charged at cost under any recognized method of pricing consistently applied. Incoming transportation charges are a proper part of material cost.

19. *Memberships, subscriptions and professional activities*—a. *Memberships.* The cost of membership in civic, business, technical and professional organizations is allowable provided: (1) the benefit from the membership is related to the grant program, (2) the expenditure is for agency membership, (3) the cost of the membership is reasonably related to the value of the services or benefits received, and (4) the expenditure is not for membership in an organization which devotes a substantial part of its activities to influencing legislation.

b. *Reference material.* The cost of books and subscriptions to civic, business, professional, and technical periodicals is allowable when related to the grant program.

c. *Meetings and conferences.* Costs are allowable when the primary purpose of the meeting is the dissemination of technical information relating to the grant program and they are consistent with regular practices followed for other activities of the grantee.

20. *Motor pools.* The costs of a service organization which provides automobiles to user grantee agencies at a mileage or fixed rate and/or provides vehicle maintenance, inspection and repair services are allowable.

21. *Payroll preparation.* The cost of preparing payrolls and maintaining necessary related wage records is allowable.

22. *Personnel administration.* Costs for the recruitment, examination, certification, classification, training, establishment of pay standards, and related activities for grant programs, are allowable.

23. *Printing and reproduction.* Costs for printing and reproduction services necessary for grant administration, including but not limited to forms, reports, manuals, and informational literature, are allowable. Publication costs of reports or other media relating to grant program accomplishments or results are allowable when provided for in the grant agreement.

24. *Procurement service.* The cost of procurement service, including solicitation of bids, preparation and award of contracts, and all phases of contract administration in providing goods, facilities and services for grant programs, is allowable.

25. *Taxes.* In general, taxes or payments in lieu of taxes which the grantee agency is legally required to pay are allowable.

26. *Training and education.* The cost of in-service training, customarily provided for employee development which directly or indirectly benefits grant programs, is allowable. Out-of-service training involving extended periods of time is allowable only when specifically authorized by the grantor agency.

27. *Transportation.* Costs incurred for freight, cartage, express, postage, and other transportation costs relating either to goods purchased, delivered, or moved from one location to another, are allowable.

28. *Travel.* Travel costs are allowable for expenses for transportation, lodging, subsistence, and related items incurred by employees who are in travel status on official business incident to a grant program. Such costs may be charged on an actual basis, on a per diem or mileage basis in lieu of actual costs incurred, or on a combination of the two, provided the method used is applied to an entire trip, and results in charges consistent with those normally allowed in like circumstances in nonfederally sponsored activities. The difference in cost between first-class air accommodations and less-than-first-class air accommodations is unallowable except when less-than-first-class air accommodations are not reasonably available.

C. Costs Allowable With Approval of Grantor Agency

1. *Automatic data processing.* The cost of data processing services to grant programs is allowable. This cost may include rental of equipment or depreciation on grantee-owned equipment. The acquisition of equipment, whether by outright purchase, rental-purchase agreement or other method of purchase, is allowable only upon specific prior approval of the grantor Federal agency as provided under the selected item for capital expenditures.

2. *Building space and related facilities.* The cost of space in privately or publicly owned buildings used for the benefit of the grant program is allowable subject to the conditions stated below. The total cost of space, whether in a privately or publicly owned building, may not exceed the rental cost of comparable space and facilities in a privately owned building in the same locality. The cost of space procured for grant program usage may not be charged to the program for periods of nonoccupancy, without authorization of the grantor Federal agency.

a. *Rental cost.* The rental cost of space in a privately owned building is allowable.

b. *Maintenance and operation.* The costs of utilities, insurance, security, janitorial services, elevator service, upkeep of grounds, normal repairs, and alterations and the like, are allowable to the extent they are not otherwise included in rental or other charges for space.

c. *Rearrangements and alterations.* Cost incurred for rearrangement and alteration of facilities required specifically for the grant program or those that materially increase the value or useful life of the facilities (section C.3.) are allowable when specifically approved by the grantor agency.

d. *Depreciation and use allowances on publicly owned buildings.* These costs are allowable as provided in section B.11.

e. *Occupancy of space under rental-purchase or a lease with option-to-purchase agreement.* The cost of space procured under such arragngements is allowable when specifically approved by the Federal grantor agency.

3. *Capital expenditures.* The cost of facilities, equipment, other capital assets, and repairs which materially increase the value or useful life of capital assets is allowable when such procurement is specifically approved by the Federal grantor agency. When assets acquired with Federal grant funds are (a) sold, (b) no longer available for use in a federally sponsored program, or (c) used for purposes not authorized by the grantor agency, the Federal grantor agency's equity in the asset will be refunded in the same proportion as Federal participation in its cost. In case any assets are traded on new items, only the net cost of the newly acquired assets is allowable.

4. *Insurance and indemnification.* a. Cost of insurance required, or approved and maintained pursuant to the grant agreement, is allowable.

b. Cost of other insurance in connection with the general conduct of activities is allowable subject to the following limitations:

(1) Types and extent and cost of coverage will be in accordance with general State or local government policy and sound business practice.

(2) Costs of insurance or of contributions to any reserve covering the risk of loss of, or damage to, Federal Government property are unallowable except to the extent that the grantor agency has specifically required or approved such costs.

c. Contributions to a reserve for a self-insurance program approved by the Federal grantor agency are allowable to the extent that the type of coverage, extent of coverage, and the rates and premiums would have been allowed had insurance been purchased to cover the risks.

d. Actual losses which could have been covered by permissible insurance (through an approved self-insurance program or otherwise) are unallowable unless expressly provided for in the grant agreement. However, costs incurred because of losses not covered under nominal deductible insurance coverage provided in keeping with sound management practice, and minor losses not covered by insurance, such as spoilage, breakage and disappearance of small hand tools which occur in the ordinary course of operations, are allowable.

e. *Indemnification* includes securing the grantee against liabilities to third persons and other losses not compensated by insurance or otherwise. The Government is obligated to indemnify the grantee only to the extent expressly provided for in the grant agreement, except as provided in d above.

5. *Management studies.* The cost of management studies to improve the effectiveness and efficiency of grant management for ongoing programs is allowable except that the cost of studies performed by agencies other than the grantee department or outside consultants is allowable only when authorized by the Federal grantor agency.

6. *Preagreement costs.* Costs incurred prior to the effective date of the grant or contract, whether or not they would have been allowable thereunder if incurred after such date, are allowable when specifically provided for in the grant agreement.

7. *Professional services.* Cost of professional services rendered by individuals or organizations not a part of the grantee department is allowable subject to such prior authorization as may be required by the Federal grantor agency.

8. *Proposal costs.* Costs of preparing proposals on potential Federal Government grant agreements are allowable when specifically provided for in the grant agreement.

D. Unallowable Costs

1. *Bad debts.* Any losses arising from uncollectible accounts and other claims, and related costs, are unallowable.

2. *Contingencies.* Contributions to a contingency reserve or any similar provision for unforeseen events are unallowable.

3. *Contributions and donations.* Unallowable.

4. *Entertainment.* Costs of amusements, social activities, and incidental costs relating thereto, such as meals, beverages, lodgings, rentals, transportation, and gratuities, are unallowable.

5. *Fines and penalties.* Costs resulting from violations of, or failure to comply with, Federal, State, and local laws and regulations are unallowable.

6. *Governor's expenses.* The salaries and expenses of the office of the Governor of a State or the chief executive of a political subdivision are considered a cost of general State or local government and are unallowable.

7. *Interest and other financial costs.* Interest on borrowings (however represented), bond discounts, cost of financing and refinancing operations, and legal and professional fees paid in connection therewith, are unallowable except when authorized by Federal legislation.

8. *Legislative expenses.* Salaries and other expenses of the State legislature or similar local governmental bodies such as county supervisors, city councils, school boards, etc., whether incurred for purposes of legislation or executive direction, are unallowable.

9. *Underrecovery of costs under grant agreements.* Any excess of cost over the Federal contribution under one grant agreement is unallowable under other grant agreements.

Appendix D

Part I—Principles for Determining Costs Applicable to Research and Development Under Grants and Contracts With Educational Institutions

A. Purpose and Scope

1. *Objectives.* This appendix provides principles for determining the costs applicable to research and development work performed by educational institutions under grants from and contracts with the Federal Government. These principles are confined to the subject of cost determination and make no attempt to identify the circumstances or dictate the extent of agency and institutional participation in the financing of a particular research or development project. The principles are designed to provide recognition of the full allocated costs of such research work under generally accepted accounting principles. No provision for profit or other increment above cost is intended.

2. *Policy guides.* The successful application of these principles requires development of mutual understanding between representatives of universities and of the Federal Government as to their scope, implementation, and interpretation. It is recognized that—

a. The arrangements for agency and institutional participation in the financing of a research and development project are properly subject to negotiation between the agency and the institution concerned in accordance with such Government-wide criteria as may be applicable.

b. Each college and university, possessing its own unique combination of staff, facilities, and experience, should be encouraged to conduct research in a manner consonant with its own academic philosophies and institutional objectives.

c. Each institution, in the fulfillment of its obligations, should employ sound management practices.

d. The application of the principles established herein should require no significant changes in the generally accepted accounting practices of colleges and universities and standards herein provided on a consistent basis. Where wide variations exist in the treatment of a given cost item among institutions, the reasonableness and equitableness of such treatments will be fully considered during the rate negotiations and audit.

3. *Application.* The Department of Health, Education, and Welfare, will apply these principles and related policy guides in determining the costs incurred for such work under any type of research and development agreement. These principles should also be used as a guide in the pricing of fixed-price contracts or lump sum agreements.

B. Definition of Terms

1. *Organized research* means all research activities of an institution that are separately budgeted and accounted for.

2. *Departmental research* means research activities that are not separately budgeted and accounted for. Such research work, which includes all research activities not encompassed under the term "organized research," is regarded for purposes of this document as a part of the instructional activities of the institution.

3. *Research agreement* means any valid arrangement to perform federally sponsored research, including grants, cost-reimbursement type contracts, cost-reimbursement type subcontracts, and fixed-price contracts and subcontracts for research.

4. *Other institutional activities* means all organized activities of an institution not directly related to the instruction and research functions, such as residence halls, dining halls, student hospitals, student unions, intercollegiate athletics, bookstores, faculty housing, student apartments, guest houses, chapels, theaters, public museums, and other similar activities or auxiliary enterprises. Also included under this definition is any other category of cost treated as "unallowable," provided such category of cost identifies a function or activity to which a portion of the institution's indirect costs (as defined in section E.1.) are properly allocable.

5. *Apportionment* means the process by which the indirect costs of the institution are assigned as between (a) instruction and research, and (b) other institutional activities.

6. *Allocation* means the process by which the indirect costs apportioned to instruction and research are assigned as between (a) organized research, and (b) instruction, including departmental research.

7. *Stipulated salary support* is a fixed or a stated dollar amount of the salary of professorial or other professional staff involved in the conduct of research which a Government agency agrees in advance to reimburse an educational institution as a part of sponsored research costs.

8. *Federal agency* or sponsoring agency means the Department of Health, Education and Welfare.

C. Basic Considerations

1. *Composition of total costs.* The cost of a research agreement is comprised of the allowable direct costs incident to its performance, plus the allocable portion of the allowable indirect costs of the institution, less applicable credits as described in section C.5.

2. *Factors affecting allowability of costs.* The tests of allowability of costs under these principles are: (a) they must be reasonable; (b) they must be allocable to research agreements under the standards and methods provided herein; (c) they must be accorded consistent treatment through application of those generally accepted accounting

principles appropriate to the circumstances; and (d) they must conform to any limitations or exclusions set forth in these principles or in the research agreement as to types or amounts of cost items.

3. *Reasonable costs.* A cost may be considered reasonable if the nature of the goods or services acquired or applied, and the amount involved therefor, reflect the action that a prudent person would have taken under the circumstances prevailing at the time the decision to incur the cost was made. Major considerations involved in the determination of the reasonableness of a cost are: (a) whether or not the cost is of a type generally recognized as necessary for the operation of the institution or the performance of the research agreement; (b) the restraints or requirements imposed by such factors as arm's-length bargaining, Federal and State laws and regulations, and research agreement terms and conditions; (c) whether or not the individuals concerned acted with due prudence in the circumstances, considering their responsibilities to the institution, its employees, its students, the Government, and the public at large; and (d) the extent to which the actions taken with respect to the incurrence of the cost are consistent with established institutional policies and practices applicable to the work of the institution generally, including Government research.

4. *Allocable costs.* a. A cost is allocable to a particular cost objective (i.e., a specific function, project, research agreement, department, or the like) if the goods or services involved are chargeable or assignable to such cost objective in accordance with relative benefits received or other equitable relationship. Subject to the foregoing, a cost is allocable to a research agreement if it is incurred solely to advance the work under the research agreement; or it benefits both the research agreement and other work of the institution in proportions that can be approximated through use of reasonable methods; or it is necessary to the overall operation of the institution and, in the light of the standards provided in this appendix is deemed to be assignable in part to organized research. Where the purchase of equipment or other capital items is specifically authorized under a research agreement, the amounts thus authorized for such purchases are allocable to the research agreement regardless of the use that may subsequently be made of the equipment or other capital items involved.

b. Any costs allocable to a particular research agreement under the standards provided in this appendix may not be shifted to other research agreements in order to meet deficiencies caused by overruns or other fund considerations, to avoid restrictions imposed by law or by terms of the research agreement, or for other reasons of convenience.

5. *Applicable credits.* a. The term applicable credits refers to those receipt or negative expenditure types of transactions which operate to offset or reduce expense items that are allocable to research agreements as direct or indirect costs. Typical examples of such transactions are: purchase discounts, rebates, or allowances; recoveries or indemnities on losses; sales of scrap or incidental services; and adjustments of overpayments or erroneous charges.

b. In some instances, the amounts received from the Federal Government to finance institutional activities or service operations should be treated as applicable credits. Specifically, the concept of netting such credit items against related expenditures should be applied by the institution in determining the rates or amounts to be charged to Government research for services rendered whenever the facilities or other resources used in providing such services have been financed directly, in whole or in part, by Federal funds. (See sections F.6., J.10.b., and J.37. for areas of potential application in the matter of direct Federal financing.)

6. *Costs incurred by State and local governments.* Costs incurred or paid by State or local governments in behalf of educational institutions for certain personnel benefit programs such as pension plans, FICA, and any other costs specifically disbursed in behalf of and in direct benefit to the institutions, are allowable costs of such institutions whether or not these costs are recorded in the accounting records of such institutions, subject to the following:

a. Such costs meet the requirements of sections C.1. through C.5.

b. Such costs are properly supported by cost allocation plans in accordance with Appendix C to this part.

c. Such costs are not otherwise borne directly or indirectly by the Federal Government.

D. Direct Costs

1. *General.* Direct costs are those costs which can be identified specifically with a particular research project, an instructional activity or any other institutional activity or which can be directly assigned to such activities relatively easily with a high degree of accuracy.

2. *Application to research agreements.* Identifiable benefit to the research work rather than the nature of the goods and services involved is the determining factor in distinguishing direct from indirect costs of research agreements. Typical transactions chargeable to a research agreement as direct costs are the compensation of employees for performance of work under the research agreement, including related staff benefit and pension plan costs to the extent that such items are consistently treated by the educational institution as direct rather than indirect costs; the costs of materials consumed or expended in the performance of such work; and other items of expense incurred for the research agreement, including extraordinary utility consumption. The cost of materials supplied from stock or services rendered by specialized facilities or other institutional service operations may be included as direct costs of research agreements provided such items are consistently treated by the institution as direct rather than indirect costs and are charged under a recognized method of costing or pricing designed to recover only actual costs and conforming to generally accepted cost accounting practices consistently followed by the institution.

E. Indirect Costs

1. *General.* Indirect costs are those that have been incurred for common or joint objectives and therefore cannot be identified specifically with a particular research project, an instructional activity or any other institutional activity. At educational institutions such costs normally are classified under the following functional categories: general administration and general expenses; research administration expenses; operation and maintenance expenses; library expenses; and departmental administration expenses.

2. *Criteria for distribution—a. Base period.* A base period for distribution of indirect costs is the period during which such costs are incurred and accumulated for distribution to work performed within that period. The base period normally should coincide with the fiscal year established by the institution, but in any event the base period should be so selected as to avoid inequities in the distribution of costs.

b. *Need for cost groupings.* The overall objective of the allocation and apportionment process is to distribute the indirect costs described in section F to organized research, instruction, and other activities in reasonable proportions consistent with the nature and extent of the use of the institution's resources by research personnel, academic staff, students, and other personnel or organizations. In order to achieve this objective, it may be necessary to provide for selective distribution by establishing separate groupings of cost within one or more of the functional categories of indirect costs referred to in section E.1. In general, the cost groupings established within a functional category should constitute, in each case, a pool of those items of expense that are considered to be of like character in terms of their relative contribution to (or degree of remoteness from) the particular cost objectives to which distribution is appropriate. Cost groupings should be established considering the general guides provided in c. below. Each such pool or cost grouping should then be distributed individually to the appertaining cost objectives, using the distribution base or method most appropriate in the light of the guides set out in d. below.

c. *General considerations on cost groupings.* The extent to which separate cost groupings and selective distribution would be appropriate at an institution is a matter of judgment to be determined on a case-by-case basis. Typical situations which may warrant the establishment of two or more separate cost groups (based on account classification or analysis) within a functional category include but are not limited to the following:

(1) Where certain items or categories of expense relate solely to one of the three major divisions of the institution (instruction, organized research or other institutional activities) or to any two but not the third, such expenses should be set aside as a separate cost grouping for direct assignment or selective distribution in accordance with the guides provided in b. above and d. below.

(2) Where any types of expense ordinarily treated as general administration and general expenses or departmental administration expenses are charged to research agreements

as direct costs, the similar type expenses applicable to other activities of the institution must, through separate cost groupings, be excluded from the indirect costs allocable to those research agreements and included in the direct cost of other activities for cost allocation purposes.

(3) Where it is determined that certain expenses are for the support of a service unit or facility whose output is susceptible of measurement on a workload or other quantitative basis, such expenses should be set aside as a separate cost grouping for distribution on such basis to organized research and other activities at the institution or within the department.

(4) Where organized activities (including identifiable segments of organized research as well as the activities cited in section B.4.) provide their own purchasing, personnel administration, building maintenance or similar service, the distribution of general administration and general expenses or operation and maintenance expenses to such activities should be accomplished through cost groupings which include only that portion of central indirect costs (such as for overall management) which are properly allocable to such activities.

(5) Where the institution elects to treat as indirect charges the cost of the pension plan and other staff benefits, such costs should be set aside as a separate cost grouping for selective distribution to appertaining cost objectives, including organized research.

(6) The number of separate cost groupings within a functional category should be held within practical limits, after taking into consideration the materiality of the amounts involved and the degree of precision attainable through less selective methods of distribution.

d. *Selection of distribution method.* (1) Actual conditions must be taken into account in selecting the method or base to be used in distributing to applicable cost objectives the expenses assembled under each of the individual cost groupings established as indicated under b. above. Where a distribution can be made by assignment of a cost grouping directly to the area benefited, the distribution should be made in that manner. Where the expenses under a cost grouping are more general in nature, the distribution to appertaining cost objectives should be made through use of a selected base which will produce results that are equitable to both the Government and the institution. In general, any cost element or cost-related factor associated with the institution's work is potentially adaptable for use as a distribution base provided (a) it can readily be expressed in terms of dollars or other quantitative measure (total direct expenditures, direct salaries, man-hours applied, square feet utilized, hours of usage, number of documents processed, population served, and the like); and (b) it is common to the appertaining cost objectives during the base period.

(2) Results of cost analysis studies may be used when they result in more accurate and equitable distribution of costs. Such cost analysis studies may take into consideration weighting factors, population, or space occupied if they produce equitable results. Cost analysis studies, however, should (a) be appropriately documented in sufficient detail for subsequent review by the cognizant Federal agency, (b) distribute the indirect costs to the appertaining cost objectives in accord with the relative benefits derived, (c) be conducted to fairly reflect the true conditions of the activity and to cover representative transactions for a reasonable period of time, (d) be performed specifically at the institution at which the results are to be used, and (e) be updated periodically and used consistently. Any assumptions made in the study will be sufficiently supported. The use of cost analysis studies and periodic changes in the method of cost distribution must be fully justified.

(3) The essential consideration in selection of the distribution base in each instance is that it be the one best suited for assigning the pool of costs to appertaining cost objectives in accord with the relative benefits derived; the traceable cause and effect relationship; or logic and reason, where neither benefit nor cause and effect relationship is determinable.

3. *Administration of limitations on allowances for research costs.* Research agreements may be subject to statutory or administrative policies that limit the allowance of research costs. When the maximum amount allowable under a statutory limitation or the terms of a research agreement is less than the amount otherwise reimbursable under this Appendix, the amount not recoverable under that research agreement may not be charged to other research agreements.

F. Identification and Assignment of Indirect Costs

1. *General administration and general expenses.* a. The expenses under this heading are those that have been incurred for the general executive and administrative offices of educational institutions and other expenses of a general character which do not relate solely to any major division of the institution; i.e., solely to (1) instruction, (2) organized research, or (3) other institutional activities. The general administration and general expense category should also include the staff benefit and pension plan costs applicable to the salaries and wages included therein, an appropriate share of the costs of the operation and maintenance of the physical plant, and charges representing use allowances and/or depreciation applicable to the buildings and equipment utilized in performing the functions represented thereunder.

b. The expenses included in this category may be apportioned and allocated on the basis of total expenditures exclusive of capital expenditures in situations where the results of the distribution made on this basis are deemed to be equitable both to the Government and the institution; otherwise the distribution of general administration and general expenses should be made through use of selected bases applied to separate cost groupings established within this category of expenses in accordance with the guides set out in section E.2.d.

2. *Research administration expenses.* a. The expenses under this heading are those that have been incurred by a separate organization or identifiable administrative unit established solely to administer the research activity, including such functions as contract administration, security, purchasing, personnel administration, and editing and publishing of research reports. They include the salaries and expenses of the head of such research organization, his assistants, and their immediate secretarial staff together with the salaries and expenses of personnel engaged in supporting activities maintained by the research organization, such as stock rooms, stenographic pools, and the like. The salaries of members of the professional staff whose appointments or assignments involve the performance of such administrative work may also be included to the extent that the portion so charged to research administration is supported as required by section J.7. The research administration expense category should also include the staff benefit and pension plan costs applicable to the salaries and wages included therein, an appropriate share of the costs of the operation and maintenance of the physical plant, and charges representing use allowance and/or depreciation applicable to the buildings and equipment utilized in performing the functions represented thereunder.

b. The expenses included in this category should be allocated to organized research and, where necessary, to departmental research or to any other benefiting activities on any basis reflecting the proportion fairly applicable to each. (See section E.2.d.)

3. *Operation and maintenance expenses.* a. The expenses under this heading are those that have been incurred by a central service organization or at the departmental level for the administration, supervision, operation, maintenance, preservation, and protection of the institution's physical plant. They include expenses normally incurred for such items as janitorial and utility services; repairs and ordinary or normal alterations of buildings, furniture and equipment; and care of grounds and maintenance and operation of buildings and other plant facilities. The operation and maintenance expense category should also include the staff benefit and pension plan costs applicable to the salaries and wages included therein, and charges representing use allowance and/or depreciation applicable to the buildings and equipment utilized in performing the functions represented thereunder.

b. The expenses included in this category should be apportioned and allocated to applicable cost objectives in a manner consistent with the guides provided in section E.2. on a basis that gives primary emphasis to space utilization. The allocations and apportionments should be developed as follows: (1) where actual space and related cost records are available or can readily be developed and maintained without significant change in the accounting practices, the amount distributed should be based on such records; (2) where the space and related cost records maintained are not sufficient for purposes of the foregoing, a reasonable estimate of the proportion of total space assigned to the various cost objectives normally will suffice as a means for effecting distribution of the amounts of operation and maintenance expenses involved; or (3) where

it can be demonstrated that an area or volume of space basis of allocation is impractical or inequitable, other bases may be used provided consideration is given to the use of facilities by research personnel and others, including students.

4. *Library expenses.* a. The expenses under this heading are those that have been incurred for the operation of the library, including the costs of books and library materials purchased for the library, less any items of library income that qualify as applicable credits under section C.5. The library expense category should also include the staff benefit and pension plan costs applicable to the salaries and wages included therein, an appropriate share of the costs of the operation and maintenance of the physical plant, and charges representing the allowances and/or depreciation applicable to the buildings and equipment utilized in the performance of the functions represented thereunder. Costs incurred in the purchases of rare books (museum-type books) with no research value should not be allocated to Government-sponsored research.

b. The expenses included in this category should be allocated on the basis of population including students and other users. Where the results of the distribution made on this basis are deemed to be inequitable to the Government or the institution, the distribution should then be made on a selective basis in accordance with the guides set out in section E.2. Such selective distribution should be made through use of reasonable methods which give adequate recognition to the utilization of the library attributable to faculty, research personnel, students and others. The method used will be based on data developed periodically on the respective institution's experience for representative periods.

5. *Departmental administration expenses.* a. The expenses under this heading are those that have been incurred in academic deans' offices, academic departments and organized research units such as institutes, study centers and research centers for administrative and supporting services which benefit common or joint departmental activities or objectives. They include the salaries, and expenses of deans or heads, or associate deans or heads, of colleges, schools, departments, divisions, or organized research units, and their administrative staffs together with the salaries and expenses of personnel engaged in supporting activities maintained by the department, such as stockrooms, stenographic pools, and the like, provided such supporting services cannot be directly identified with a specific research project, with an instructional activity or with any other institutional activity. The salaries of other members of the professional staff whose appointments or assignments involve the performance of such administrative work may also be included to the extent that the portion so charged to departmental administration expenses is supported as required by section J.7. The departmental administration expense category should also include the staff benefit and pension plan costs applicable to the salaries and wages included therein, an appropriate share of the costs of the operation and maintenance of the physical plant, and charges representing use allowances and/or depreciation applicable to the buildings and equipment utilized in performing the functions represented thereunder.

b. The distribution of departmental administration expenses should be made through use of selected bases applied to cost groupings established within this category of expenses in accordance with the guides set out in section E.2.d.

6. *Setoff for indirect expenses otherwise provided for by the Government.* a. The items to be accumulated under this heading are the reimbursements and other receipts from the Federal Government which are used by the institution to support directly, in whole or in part, any of the administrative or service (indirect) activities described in the foregoing (sections F.1. through F.5.). They include any amounts thus applied to such activities which may have been received pursuant to an institutional base grant or any similar contractual arrangement with the Federal Government other than a research agreement as herein defined (section B.3).

b. The sum of the items in this group shall be treated as a credit to the total indirect cost pool before it is apportioned to organized research and to other activities. Such setoff shall be made prior to the determination of the indirect cost rate or rates as provided in section G.

G. Determination and Application of Indirect Cost Rate or Rates

1. *Indirect cost pools.* a. Subject to b, below, indirect costs allocated to organized research should be treated as a common pool, and the costs in such common pool should then be distributed to individual research agreements benefiting therefrom on a single rate basis.

b. In some instances a single rate basis for use across the board on all Government research at an institution may not be appropriate, since it would not take into account those different environmental factors which may affect substantially the indirect costs applicable to a particular segment of Government research at the institution. For this purpose, a particular segment of Government research may be that performed under a single research agreement or it may consist of research under a group of research agreements performed in a common environment. The environmental factors are not limited to the physical location of the work. Other important factors are the level of the administrative support required, the nature of the facilities or other resources employed, the scientific disciplines or technical skills involved, the organizational arrangements used, or any combination thereof. Where a particular segment of Government research is performed within an environment which appears to generate a significantly different level of indirect costs, provision should be made for a separate indirect cost pool applicable to such work. The separate indirect cost pool should be developed during the course of the regular distribution process, and the separate indirect cost rate resulting therefrom should be utilized provided it is determined that (1) such indirect cost rate differs significantly from that which would have obtained under a. above, and (2) the volume of research work to which such rate would apply is material in relation to other Government research at the institution.

2. *The distribution base.* Indirect costs allocated to organized research should be distributed to applicable research agreements on the basis of direct salaries and wages. For this purpose, an indirect cost rate should be determined for each of the separate indirect cost pools developed pursuant to section G.1. The rate in each case should be stated as the percentage which the amount of the particular indirect cost pool is of the total direct salaries and wages of all research agreements identified with such pool. For the purpose of establishing an indirect cost rate, direct salaries and wages may include that portion contributed to the research by the institution for cost sharing or other purposes. Bases other than salaries and wages may be used provided it can be demonstrated that they produce more equitable results.

3. *Negotiated lump sum for indirect costs.* A negotiated fixed amount in lieu of indirect costs may be appropriate for self-contained, off-campus, or primarily subcontracted research activities where the benefits derived from an institution's indirect services cannot be readily determined. Such amount negotiated in lieu of indirect costs will be treated as an offset to total indirect expenses before apportionment to instruction, organized research, and other institutional activities. The base on which such remaining expenses are allocated should be approximately adjusted.

4. *Predetermined fixed rates for indirect costs.* Public Law 87–638 (76 Stat. 437) authorizes the use of predetermined fixed rates in determining the indirect costs applicable under research agreements with educational institutions. The stated objectives of the law are to simplify the administration of cost-type research and development contracts (including grants) with educational institutions, to facilitate the preparation of their budgets, and to permit more expeditious closeout of such contracts when the work is completed. In view of the potential advantages offered by this procedure, consideration should be given to the negotiation of predetermined fixed rates for indirect costs in those situations where the cost experience and other pertinent facts available are deemed sufficient to enable the parties involved to reach an informed judgment as to the probable level of indirect costs during the ensuing accounting period.

5. *Negotiated fixed rates and carryforward provisions.* When a fixed rate is negotiated in advance for a fiscal year (or other time period), the over- or under-recovery for that year may be included as an adjustment to the indirect cost for the next rate negotiation. When the rate is negotiated before the carryforward adjustment is determined due to the delay in audit, the carryforward may be applied to the next subsequent rate negotiation. When such adjustments are to be made, each fixed rate negotiated in advance for a given period will be computed by applying the expected indirect costs allocable to Government research for the forecast period plus or minus the carryforward

adjustment (over- or under-recovery) from the prior period, to the forecast distribution base. Unrecovered amounts under lump-sum agreements or cost-sharing provisions of prior years shall not be carried forward for consideration in the new rate negotiation. There must, however, be an advance understanding in each case between the institution and the cognizant Federal agency as to whether these differences will be considered in the rate negotiation rather than making the determination after the differences are known. Further, institutions electing to use this carryforward provision may not subsequently change without prior approval of the cognizant Federal agency. In the event that an institution returns to a postdetermined rate, any over- or under-recovery during the period in which negotiated fixed rates and carryforward provisions were followed will be included in the subsequent postdetermined rates. Where multiple rates are used, the same procedure will be applicable for determining each rate. This procedure also applies to rates established for grants and contracts for training and other educational services, but does not apply to cost-type research agreements covering work performed in wholly or partially Government-owned facilities.

H. Simplified Method for Small Institutions

1. *General.* a. Where the total direct cost of all federally supported work under research and educational service agreements at an institution does not exceed $1 million in a fiscal year (excluding direct payments by the institution to participants under educational service agreements for stipends, support, and similar costs requiring little, if any, indirect cost support), the use of the abbreviated procedure described in 2., below, may be used in determining allowable indirect costs. Under this abbreviated procedure, the institution's most recent annual financial report and immediately available supporting information, with salaries and wages segregated from other costs, will be utilized as a basis for determining the indirect cost rate applicable both to federally supported research and educational service agreements.

b. The rigid formula approach provided under this abbreviated procedure should not be used where it produces results which appear inequitable to the Government or the institution. In any such case, indirect costs should be determined through use of the regular procedure.

2. *Abbreviated procedure.* a. Establish the total amount of salaries and wages paid to all employees of the institution.

b. Establish an indirect cost pool consisting of the expenditures (exclusive of capital items and other costs specifically identified as unallowable) which customarily are classified under the following titles or their equivalents:

(1) General administration and general expenses (exclusive of costs of student administration and services, student aid, student activities, and scholarships).

(2) Operation and maintenance of physical plant.

(3) Library.

(4) Department administration expenses, which will be computed as 20 percent of the salaries and expenses of deans and heads of departments.

In those cases where expenditures classified under 2.b.(1) and 2.b.(2) have previously been allocated to other institutional activities, they may be included in the indirect cost pool. The total amount of salaries and wages included in the indirect cost pool must be separately identified.

c. Establish a salary and wage distribution base, determined by deducting from the total of salaries and wages as established under 2.a. the amount of salaries and wages included under 2.b.

d. Establish the indirect cost rate, determined by dividing the amount in the indirect cost pool 2.b. by the amount of the distribution base 2.c.

e. Apply the indirect cost rate established to direct salaries and wages for individual agreements to determine the amount of indirect costs allocable to such agreements.

I. [Reserved]

J. General Standards for Selected Items of Cost

Sections J.1. through J.46. provide standards to be applied in establishing the allowability of certain items involved in determining cost. These standards should apply irrespective of whether a particular item of cost is properly treated as direct cost or indirect cost. Failure to mention a particular item of cost in the standards is not intended to imply that it is either allowable or unallowable; rather determination as to allowability in each case should be based on the treatment or standards provided for similar or related items of cost. In case of discrepancy between the provisions of a specific research agreement and the applicable standards provided, the provisions of the research agreement should govern.

1. *Advertising costs.* The term advertising costs means the costs of advertising media and corollary administrative costs. Advertising media include magazines, newspapers, radio and television programs, direct mail, exhibits, and the like. The only advertising costs allowable are those which are solely for: (a) The recruitment of personnel required for the performance by the institution of obligations arising under the research agreement, when considered in conjunction with all other recruitment costs, as set forth in J.32; (b) the procurement of scarce items for the performance of the research agreement; or (c) the disposal of scrap or surplus materials acquired in the performance of the research agreement. Costs of this nature, if incurred for more than one research agreement or for both research agreement work and other work of the institution, are allowable to the extent that the principles in sections D and E are observed.

2. *Bad debts.* Any losses, whether actual or estimated arising from uncollectible accounts and other claims, related collections costs, and related legal costs, are unallowable.

3. *Capital expenditures.* The costs of equipment, buildings, and repairs which materially increase the value or useful life of buildings or equipment, are unallowable except as provided for in the research agreement. Government funds shall not be used for the acquisition of land, or any interest therein, except with the specific prior approval of the sponsoring agency.

4. *Civil defense costs.* Civil defense costs are those incurred in planning for, and the protection of life and property against, the possible effects of enemy attack. Reasonable costs of civil defense measures (including costs in excess of normal plant pro- tection costs, first-aid training and supplies, firefighting training, posting of additional exit notices and directions, and other approved civil defense measures) undertaken on the institution's premises pursuant to suggestions or requirements of civil defense authorities are allowable when distributed to all activities of the institution. Capital expenditures for civil defense purposes will not be allowed, but a use allowance or depreciation may be permitted in accordance with provisions set forth in section J.10. Costs of local civil defense projects not on the institution's premises are unallowable.

5. *Commencement and convocation costs.* Costs incurred for commencements and convocations apply only to instruction and therefore are not allocable to research agreements, either as direct costs or indirect costs.

6. *Communication costs.* Costs incurred for telephone services, local and long-distance telephone calls, telegrams, radiograms, postage and the like, are allowable.

7. *Compensation for personal services*—a. *General.* Compensation for personal services covers all remuneration paid currently or accured to the institution for services of employees rendered during the period of performance under Government research agreements. Such remuneration includes salaries, wages, staff benefits (see section J.39.), and pension plan costs (see section J.23.). The costs of such remuneration are allowable to the extent that the total compensation to individual employees is reasonable for the services rendered and conforms to the established policy of the institution consistently applied, and provided that the charges for work performed directly on Government research agreements and for other work allocable as indirect costs to organized research are determined and supported as hereinafter provided.

b. *Payroll distribution.* Amounts charged to organized research for personal services, except stipulated salary support, regardless of whether treated as direct costs or allocated as indirect costs, will be based on institutional payrolls which have been approved and documented in accordance with generally accepted institutional practices. Support for direct and indirect allocations of personal service costs to (1) instruction, (2) organized research, and (3) indirect activities as defined in section E.1., or (4) other institutional activities as defined in section B.4., will be provided as described in c., d., e., and f., below.

c. *Stipulated salary support.* As an alternative to payroll distribution, stipulated salary support amounts may be provided in the research agreement for professorial staff, any part of whose compensation is chargeable to Government-sponsored research. Stipulated salary support may also be provided for any other professionals who

are engaged part time in sponsored research and part time in other work. The stipulated salary support for an individual will be determined by the Government and the educational institution during the proposal and award process on the basis of considered judgment as to the monetary value of the contribution which the individual is expected to make to the research project. This judgment will take into account any cost sharing by the institution and such other factors as the extent of the investigator's planned participation in the project and his ability to perform as planned in the light of his other commitments. It will be necessary for those who review research proposals to obtain information on the total academic year salary of the faculty members involved; the other research projects or proposals for which salary is allocated; and any other duties they may have such as teaching assignments, administrative assignments, number of graduate students for which they are responsible, or other institutional activities. Stipulated amounts for an individual must not per se result in increasing his official salary from the institution.

d. *Direct charges for personal services under payroll distribution.* The direct cost charged to organized research for the personal services of professorial and professional staff, exclusive of those whose salaries are stipulated in the research agreement, will be based on institutional payroll systems. Such institutional payroll systems must be supported by either: (1) an adequate appointment and workload distribution system accompanied by monthly reviews performed by responsible officials and a reporting of any significant changes in workload distribution of each professor or professional staff member, or (2) a monthly after-the-fact certification system which will require the individual investigators, deans, departmental chairmen or supervisors having first-hand knowledge of the services performed on each research agreement to report the distribution of effort. Reported changes will be incorporated during the accounting period into the payroll distribution system and into the accounting records. Direct charges for salaries and wages of nonprofessionals will be supported by time and attendance and payroll distribution records.

e. *Direct charges for personal services under stipulated salaries.* The amounts stipulated for salary support will be treated as direct costs. The stipulated salary for the academic year will be prorated equally over the duration of the grant or contract period during the academic year, unless other arrangements have been made in the grant or contract instrument. No time or effort reporting will be required to support these amounts. Special provision for summer salaries, or for a particular "off period" if other than summer, will be required. The research agreements will state that any research covered by summer salary support must be carried out during the summer, not during the academic year, and at locations approved in advance in writing by the granting agency. The certification required in section K will attest to this requirement as well as all others in a given research agreement. Stipulated salary support remains fixed during the funding period of the grant or contract and will be costed at the rate described above unless there is a significant change in performance. For example, a significant change in performance would exist if the faculty member (1) was ill for an extended period, (2) took sabbatical leave to devote effort to duties unrelated to his research, or (3) was required to increase substantially his teaching assignments, administrative duties, or responsibility for more research projects. In the latter event, it will be the responsibility of the educational institution to reduce the charges to the research agreement proportionately or seek an appropriate amendment. In the case of those covered by stipulated salary support, the auditors are no longer required to review the precise accuracy of time or effort devoted to research projects. Rather, their reviews should include steps to determine on a sample basis that an institution is not reimbursed for more than 100 percent of each faculty member's salary and that the portion of each faculty member's salary charged to Government-sponsored research is reasonable in view of his university workload and other commitments. The stipulated salary method may also be agreed upon for that portion of a professional's salary that represents cost sharing by the institution.

f. *Indirect personal services costs.* Allowable indirect personal services costs will be supported by the educational institution's accounting system maintained in accordance with generally accepted institutional practices. Where a comprehensive accounting system does not exist, the institution should make periodic surveys no less frequently than annually to support the indirect personal services costs for inclusion in the overhead pool. Such supporting documentation must be retained for subsequent review by Government officials.

g. *General guidance for charging personal services.* Budget estimates on a monthly, quarterly, semester, or yearly basis do not qualify as support for charges to federally sponsored research projects and should not be used unless confirmed after the fact. Charges to research agreements may include reasonable amounts for activities contributing and intimately related to work under the agreement, such as preparing and delivering special lectures about specific aspects of the ongoing research, writing research reports and articles, participating in appropriate research seminars, consulting with colleagues and graduate students with respect to related research, and attending appropriate scientific meetings and conferences. In no case should charges be made to federally sponsored research projects for lecturing or preparing for formal courses listed in the catalog and offered for degree credit, or for committee or administrative work related to university business.

h. *Nonuniversity professional activities.* A university must not alter or waive university-wide policies and practices dealing with the permissible extent of professional services over and above those traditionally performed without extra university compensation, unless such arrangements are specifically authorized by the sponsoring agency. Where univesity-wide policies do not adequately define the permissible extent of consultantship or other nonuniversity activities undertaken for extra pay, the Government may require that the effort of professional staff working under research agreements be allocated as between (1) university activities, and (2) nonuniversity professional activities. If the sponsoring agency should consider the extent of nonuniversity professional effort excessive, appropriate arrangements governing compensation will be negotiated on a case-by-case basis.

i. *Salary rates for academic year.* Charges for work performed on Government research by faculty members during the academic year will be based on the individual faculty member's regular compensation for the continuous period which, under the practice of the institution concerned, constitutes the basis of his salary. Charges for work performed on research agreements during all or any portion of such period would be allowable at the base salary rate. In no event will the charge to research agreements, irrespective of the basis of computation, exceed the proportionate share of the base salary for that period, and any extra compensation above the base salary for work on Government research during such period would be unallowable. This principle applies to all members of the faculty at an institution. Since intrauniversity consulting is assumed to be undertaken as a university obligation requiring no compensation in addition to full-time base salary, the principle also applies to those who function as consultants or otherwise contribute to a research agreement conducted by another faculty member of the same institution. However, in unusual cases where consultation is across departmental lines or involves a separate or remote operation, and the work performed by the consultant is in addition to his regular departmental load, any charges for such work representing extra compensation above the base salary are allowable provided such consulting arrangement is specifically provided for in the research agreement or approved in writing by the sponsoring agency.

j. *Salary rates for periods outside the academic year.* Charges for work performed by faculty members on Government research during the summer months or other periods not included in the base salary period will be determined for each faculty member at a monthly rate not in excess of that which would be applicable under his base salary and will be limited to charges made in accordance with other subsections of J.7.

k. *Salary rates for part-time faculty.* Charges for work performed on Government research by a faculty member having only part-time appointment for teaching will be determined at a rate not in excess of that for which he is regularly paid for his part-time teaching assignments. Example: An institution pays $5,000 to a faculty member for half-time teaching during the academic year. He devoted one-half of his remaining time (25 percent of his total available time) to Government research. Thus his additional

compensation, chargeable by the institution to Government research agreements, would be one-half of $5,000 or $2,500.

8. *Contingency provisions.* Contributions to a contingency reserve or any similar provision made for events the occurrence of which cannot be foretold with certainty as to time, intensity, or with an assurance of their happening, are unallowable.

9. *Deans of faculty and graduate schools.* The salaries and expenses of deans of faculty and graduate schools, or their equivalents, and their staffs, are allowable.

10. *Depreciation and use allowances.* a. Institutions may be compensated for the use of buildings, capital improvements, and usable equipment on hand through use allowances or depreciation. Use allowances are the means of providing such compensation when depreciation or other equivalent costs are not considered. However, a combination of the two methods may not be used in connection with a single class of fixed assets.

b. Due consideration will be given to Government-furnished facilities utilized by the institution when computing use allowances and/or depreciation if the Government-furnished facilities are material in amount. Computation of the use allowance and/or depreciation will exclude both the cost or any portion of the cost of buildings and equipment borne by or donated by the Federal Government, irrespective of where title was originally vested or where it presently resides and, secondly, the cost of grounds. Capital expenditures for land improvements (paved areas, fences, streets, sidewalks, utility conduits, and similar improvements not already included in the cost of buildings) are allowable provided the systematic amortization of such capital expenditures has been provided, based on reasonable determinations of the probable useful lives of the individual items involved, and the share allocated to organized research is developed from the amount thus amortized for the base period involved. Amortization methods once used should not be changed for a given building or equipment unless approved in advance by the cognizant Federal agency.

c. Where the use allowance method is followed, the use allowance for buildings and improvements will be computed at an annual rate not exceeding 2 percent of acquisition cost. The use allowance for equipment will be computed at an annual rate not exceeding 6⅔ percent of acquisition cost of usable and needed equipment in those cases where the institution maintains current records with respect to such equipment on hand. Where the institution's records reflect only the cost (actual or estimated) of the original complement of equipment, the use allowance will be computed at an annual rate not exceeding 10 percent of such cost. Original complement for this purpose means the complement of equipment initially placed in buildings to perform the functions currently being performed in such buildings; however, where a permanent change in the function of a building takes place, a redetermination of the original complement of equipment may be made at that time to establish a new original complement. In those cases where no equipment records are maintained, the institution will justify a reasonable estimate of the acquisition cost of usable and needed equipment which may be used to compute the use allowance at an annual rate not exceeding 6⅔ percent of such estimate.

d. Where the depreciation method is followed, adequate property record must be maintained and periodic inventory (a statistical sampling basis is acceptable) must be taken to insure that properties for which depreciation is charged do exist and are needed. The period of useful service (service life) established in each case for usable capital assets must be determined on a realistic basis which takes into consideration such factors as type of construction, nature of the equipment used, technological developments in the particular research area, and the renewal and replacement policies followed for the individual items or classes of assets involved. Where the depreciation method is introduced for application to assets acquired in prior years, the annual charges therefrom must not exceed the amounts that would have resulted had the depreciation method been in effect from the date of acquisition of such assets.

e. Where an institution elects to go to a depreciation basis for a particular class of assets, no depreciation, rental or use charge may be allowed on any such assets that, under d. above, would be viewed as fully depreciated provided, however, that reasonable use charges may be negotiated for any such assets if warranted after taking into consideration the cost of the facility or item involved, the estimated useful life remaining at time of negotiation, the actual replacement policy followed in the light of service lives used for calculating depreciation, the effect of any increased maintenance charges or decreased efficiency due to age, and any other factors pertinent to the utilization of the facility or item for the purpose contemplated.

11. *Employee morale, health, and welfare costs and credits.* The costs of house publications, health or first-aid clinics and/or infirmaries, recreational activities, employees' counseling services, and other expenses incurred in accordance with the institution's established practice or custom for the improvement of working conditions, employer-employee relations, employee morale, and employee-performance, are allowable. Such costs will be equitably apportioned to all activities of the institution. Income generated from any of these activities will be credited to the cost thereof unless such income has been irrevocably set over to employee welfare organizations.

12. *Entertainment costs.* Costs incurred for amusement, social activities, entertainment, and any items relating thereto, such as meals, lodging, rentals, transportation, and gratuities, are unallowable.

13. *Equipment and other facilities.* The costs of permanent equipment or other facilities are allowable where such purchases are approved by the sponsoring agency concerned or provided for by the terms of the research agreement. Total expenditures for permanent equipment may not exceed 125 percent of the amount allotted for the permanent equipment category by the sponsoring agency (through an approved budget or other document) except with approval. The term "permanent equipment" shall mean an item of property which has an acquisition cost of $200 or more and has an expected service life of one year or more.

a. *General purpose equipment.* Approval must be obtained to acquire with Government funds any general purpose permanent equipment, i.e., any items which are usable for activities of the institution other than research, such as office equipment and furnishings, air conditioning, reproduction, or printing equipment, motor vehicles, etc., or any automatic data processing equipment.

b. *Research equipment.* Approval must be obtained to acquire with Government funds any item of permanent research equipment costing $1,000 or more.

14. *Fines and penalties.* Costs resulting from violations of, or failure of the institution to comply with, Federal, State, and local laws and regulations are unallowable except when incurred as a result of compliance with specific provisions of the research agreement or instructions in writing from the contracting officer.

15. *Insurance and indemnification.* a. Costs of insurance required or approved, and maintained, pursuant to the research agreement, are allowable.

b. Costs of other insurance maintained by the institution in connection with the general conduct of its activities, are allowable subject to the following limitations: (1) types and extent and cost of coverage must be in accordance with sound institutional practice; (2) costs of insurance or of any contributions to any reserve covering the risk of loss of or damage to Government-owned property are unallowable except to the extent that the Government has specifically required or approved such costs; and (3) costs of insurance on the lives of officers or trustees are unallowable except where such insurance is part of an employee plan which is not unduly restricted.

c. Contributions to a reserve for an approved self-insurance program are allowable to the extent that the types of coverage, extent of coverage, and the rates and premiums would have been allowed had insurance been purchased to cover the risks.

d. Actual losses which could have been covered by permissible insurance (through an approved self-insurance program or otherwise) are unallowable unless expressly provided for in the research agreement, except that costs incurred because of losses not covered under existing deductible clauses for insurance coverage provided in keeping with sound management practice as well as minor losses not covered by insurance, such as spoilage, breakage, and disappearance of small hand tools, which occur in the ordinary course of operations, are allowable.

e. Indemnification includes securing the institution against liabilities to third persons and other losses not compensated by insurance or otherwise. The Government is obligated to indemnify the institution only to the extent expressly provided for in the research agreement, except as provided in d. above.

16. *Interest, fund raising, and investment management costs.* a. Costs incurred for

interest on borrowed capital or temporary use of endowment funds, however represented, are unallowable.

b. Costs of organized fund raising, including financial campaigns, endowment drives, solicitation of gifts and bequests, and similar expenses incurred solely to raise capital or obtain contributions, are not allowable under Government research agreements.

c. Costs of investment counsel and staff and similar expenses incurred solely to enhance income from investments are not allowable under Government research agreements.

d. Costs related to the physical custody and control of monies and securities are allowable.

17. *Labor relations costs.* Costs incurred in maintaining satisfactory relations between the institution and its employees, including costs of labor management committees, employees' publications, and other related activities, are allowable.

18. *Losses on other research agreements or contracts.* Any excess of costs over income under any other research agreement or contract of any nature is unallowable. This includes, but is not limited to, the institution's contributed portion by reason of cost-sharing agreements or any under-recoveries through negotiation of flat amounts for indirect costs.

19. *Maintenance and repair costs.* Costs incurred for necessary maintenance, repair, or upkeep of property (including Government property unless otherwise provided for) which neither add to the permanent value of the property nor appreciably prolong its intended life but keep it in an efficient operating condition, are allowable.

20. *Material costs.* Costs incurred for purchased materials, supplies, and fabricated parts directly or indirectly related to the research agreement, are allowable. Purchases made specifically for the research agreement should be charged thereto at their actual prices after deducting all cash discounts, trade discounts, rebates, and allowances received by the institution. Withdrawals from general stores or stockrooms should be charged at their cost under any recognized method of pricing stores' withdrawals conforming to sound accounting practices consistently followed by the institution. Incoming transportation charges are a proper part of material cost. Direct material cost should include only the materials and supplies actually used for the performance of the research agreement, and due credit should be given for any excess materials retained, or returned to vendors. Due credit should be given for all proceeds or value received for any scrap resulting from work under the research agreement. Where Government-donated or furnished material is used in performing the research agreement, such material will be used without charge.

21. *Memberships, subscriptions, and professional activity costs.* a. Costs of the institution's membership in civic, business, technical, and professional organizations are allowable.

b. Costs of the institution's subscriptions to civic, business, professional, and technical periodicals are allowable.

c. Costs of meetings and conferences, when the primary purpose is the dissemination of technical information, are allowable. This includes costs of meals, transportation, rental of facilities, and other items incidental to such meetings or conferences.

22. *Patent costs.* Cost of preparing disclosures, reports, and other documents required by the research agreement and of searching the art to the extent necessary to make such invention disclosures, are allowable. In accordance with the clauses of the research agreement relating to patents, costs of preparing documents and any other patent costs, in connection with the filing of a patent application where title is conveyed to the Government, are allowable. (See also section J.33.)

23. *Pension plan costs.* Costs of the institution's pension plan which are incurred in accordance with the established policies of the institution are allowable, provided such policies meet the test of reasonableness and the methods of cost allocation are not discriminatory, and provided appropriate adjustments are made for credits or gains arising out of normal and abnormal employee turnover or any other contingencies that can result in forfeitures by employees which inure to the benefit of the institution.

24. *Plant security costs.* Necessary expenses incurred to comply with Government security requirements, including wages, uniforms, and equipment of personnel engaged in plant protection, are allowable.

25. *Preresearch agreement costs.* Costs incurred prior to the effective date of the research agreement, whether or not they would have been allowable thereunder if incurred after such date, are unallowable unless specifically set forth and identified in the research agreement.

26. *Professional services costs.* a. Costs of professional services rendered by the members of a particular profession who are not employees of the institution are allowable subject to b. and c. below, when reasonable in relation to the services rendered and when not contingent upon recovery of the costs from the Government. Retainer fees to be allowable must be reasonably supported by evidence of services rendered.

b. Factors to be considered in determining the allowability of costs in a particular case include (1) the past pattern of such costs, particularly in the years prior to the award of Government research agreements; (2) the impact of Government research agreements on the institution's total activity; (3) the nature and scope of managerial services expected of the institution's own organizations; and (4) whether the proportion of Government work to the institution's total activity is such as to influence the institution in favor of incurring the cost, particularly where the services rendered are not of a continuing nature and have little relationship to work under Government research agreements.

c. Costs of legal, accounting, and consulting services, and related costs, incurred in connection with organization and reorganization or the prosecution of claims against the Government, are unallowable. Costs of legal, accounting and consulting services, and related costs, incurred in connection with patent infringement litigation, are unallowable unless otherwise provided for in the research agreement.

27. *Profits and losses on disposition of plant, equipment, or other capital assets.* Profits or losses of any nature arising from the sale or exchange of plant, equipment, or other capital assets, including sale or exchange of either short- or long-term investments, shall not be considered in computing research agreement costs.

28. *Proposal costs.* Proposal costs are the costs of preparing bids or proposals on potential Government and nongovernment research agreements or projects, including the development of engineering data and cost data necessary to support the institution's bids or proposals. Proposal costs of the current accounting period of both successful and unsuccessful bids and proposals normally should be treated as indirect costs and allocated currently to all activities of the institution, and no proposal costs of past accounting periods will be allocable in the current period to the Government research agreement. However, the institution's established practices may be to treat proposal costs by some other recognized method. Regardless of the method used, the results obtained may be accepted only if found to be reasonable and equitable.

29. *Public information services costs.* Costs of news releases pertaining to specific research or scientific accomplishment are unallowable unless specifically authorized by the sponsoring agency.

30. *Rearrangement and alteration costs.* Costs incurred for ordinary or normal rearrangement and alteration of facilities are allowable. Special arrangement and alteration costs incurred specifically for the project are allowable when such work has been approved in advance by the sponsoring agency concerned.

31. *Reconversion costs.* Costs incurred in the restoration or rehabilitation of the institution's facilities to approximately the same condition existing immediately prior to commencement of Government research agreement work, fair wear and tear excepted, are allowable.

32. *Recruiting costs.* a. Subject to b., c., and d. below, and provided that the size of the staff recruited and maintained is in keeping with workload requirements, costs of "help wanted" advertising, operating costs of an employment office necessary to secure and maintain an adequate staff, costs of operating an aptitude and educational testing program, travel costs of employees while engaged in recruiting personnel, travel costs of applicants for interviews for prospective employment, and relocation costs incurred incident to recruitment of new employees, are allowable to the extent that such costs are incurred pursuant to a well-managed recruitment program. Where the institution uses employment agencies, costs not in excess of standard commercial rates for such services are allowable.

b. In publications, costs of help-wanted advertising that includes color, includes advertising material for other than recruitment purposes, or is excessive in size (taking into consideration recruitment purposes for which intended and normal institutional practices in this respect), are unallowable.

c. Costs of help-wanted advertising, special emoluments, fringe benefits, and salary

allowances incurred to attract professional personnel from other institutions that do not meet the test of reasonableness or do not conform with the established practices of the institution, are unallowable.

d. Where relocation costs incurred incident to recruitment of a new employee have been allowed either as an allocable direct or indirect cost, and the newly hired employee resigns for reasons within his control within 12 months after hire, the institution will be required to refund or credit such relocation costs to the Government.

33. *Royalties and other costs for use of patents.* Royalties on a patent or amortization of the costs of acquiring a patent or invention or rights thereto, necessary for the proper performance of the research agreement and applicable to tasks or processes thereunder, are allowable unless the Government has a license or the right to free use of the patent, the patent has been adjudicated to be invalid or has been administratively determined to be invalid, the patent is considered to be unenforceable, or the patent has expired.

34. *Sabbatical leave costs.* Costs of leave of absence to employees for performance of graduate work or sabbatical study, travel, or research, are allowable provided the institution has a uniform policy on sabbatical leave for persons engaged in instruction and persons engaged in research. Such costs will be allocated on an equitable basis among all appertaining activities of the instiutution. Where sabbatical leave is included in fringe benefits for which a cost is determined for assessment as a direct charge, the aggregate amount of such assessments applicable to all work of the institution during the base period must be reasonable in relation to the institution's actual experience under its sabbatical leave policy.

35. *Scholarships and student aid costs.* Costs of scholarships, fellowships and other forms of student aid apply only to instruction and therefore are not allocable to research agreements, either as direct costs or indirect costs. However, in the case of students actually engaged in work under research agreements, any tuition remissions to such students for work performed are allocable to such research agreements provided consistent treatment is accorded such costs. (See section J.39.)

36. *Severance pay.* a. Severance pay is compensation in addition to regular salaries and wages which is paid by an institution to employees whose services are being terminated. Costs of severance pay are allowable only to the extent that such payments are required by law, by employer-employee agreement, by established policy that constitutes in effect an implied agreement on the institution's part, or by circumstances of the particular employment.

b. Severance payments that are due to normal, recurring turnover and which otherwise meet the conditions of a. above may be allowed provided the actual costs of such severance payments are regarded as expenses applicable to the current fiscal year and are equitably distributed among the institution's activities during that period.

c. Severance payments that are due to abnormal or mass terminations are of such conjectural nature that allowability must be determined on a case-by-case basis. However, the Govermnment recognizes its obligation to participate, to the extent of its fair share, in any specific payment.

37. *Specialized service facilities operated by institution.* a. The costs, including amortization by generally accepted accounting practice, of institutional services involving the use of highly complex and specialized facilities such as electronic computers, including the cost of adapting computers for use, wind tunnels, and reactors are allowable provided the charges therefor meet the conditions of b. or c. below, and otherwise take into account any items of income or Federal financing that qualify as applicable credits under section C.5.

b. The costs of such institutional services normally will be charged directly to applicable research agreements based on actual usage or occupancy of the facilities on the basis of a schedule of rates that (1) is designed to recover only aggregate costs of providing such services over a long term agreed upon in advance by the cognizant Federal agency on an individual basis, and (2) is applied on a nondiscriminatory basis as between organized research and other work of the institution, including usage by the institution for internal purposes. Commercial or accommodation sales of computer services will be charged at not less than the above rates; however, if the rates charged for these services are greater, the total amount of charges above the scheduled rates when significant may be considered in revising the schedule of rates. Further, within the constraints of this paragraph, it is not necessary that the rates charged for services be equal to the cost of providing those services during any one fiscal year.

c. In the absence of an acceptable arrangement for direct costing as provided in b. above, the costs incurred for such institutional services may be assigned to research agreements as indirect costs, provided the methods used achieve substantially the same results. Such arrangements should be worked out in coordination with the cognizant Federal agency in order to assure equitable distribtution of the indirect costs.

38. *Special services costs.* Costs incurred for general public relations activities, catalogs, alumni activities, and similar services, are unallowable.

39. *Staff benefits.* a. Staff benefits in the form of regular compensation paid to employees during periods of authorized absences from the job, such as for annual leave, sick leave, military leave, and the like, are allowable provided such costs are absorbed by all institutional activities, including organized research, in proportion to the relative amount of time or effort actually devoted to each. (See section J.34. for treatment of sabbatical leave.)

b. Staff benefits in the form of employer contributions or expenses for social security, employee insurance, workmen's compensation insurance, the pension plan (see section J.23.), tuition or remission of tuition for individual employees or their families (see section J.35.), and the like, are allowable provided such benefits are granted in accordance with established institutional policies, and provided such contributions and other expenses, whether treated as indirect costs or as an increment of direct labor costs, are distributed to particular research agreements and other activities in a manner consistent with the pattern of benefits accruing to the individuals or groups of employees whose salaries and wages are chargeable to such research agreements and other activities.

40. *Student activity costs.* Costs incurred for intramural activities, student publications, student clubs, and other student activities, apply only to instruction and therefore are not allocable to research agreements, either as direct costs or indirect costs.

41. *Student services costs.* Costs of the deans of students, administration of student affairs, registrar, placement offices, student advisers, student health and infirmary services, and such other activities as are identifiable with student services apply only to instruction and therefore are not allocable to research agreements, either as direct costs or indirect costs. However, in the case of students actually engaged in work under research agreements, a proportion of student services costs measured by the relationship between hours of work by students on such research work and total student hours including all research time may be allowed as a part of research administration expenses.

42. *Taxes.* a. In general, taxes which the institution is required to pay and which are paid or accrued in accordance with generally accepted accounting principles, and payments made to local governments in lieu of taxes which are commensurate with the local government services received are allowable, except for: (1) taxes from which exemptions are available to the institution directly or which are available to the institution based on an exemption afforded the Government and in the latter case when the sponsoring agency makes available the necessary exemption certificates, and (2) special assessments on land which represent capital improvements.

b. Any refund of taxes, interest, or penalties, and any payment to the institution of interest thereon, attributable to taxes, interest, or penalties which were allowed as research agreement costs, will be credited or paid to the Government in the manner directed by the Government provided any interest actually aid or credited to an institution incident to a refund of tax, interest and penalty will be paid or credited to the Government only to the extent that such interest accrued over the period during which the institution had been reimbursed by the Government for the taxes, interest, and penalties.

43. *Transportation costs.* Costs incurred for freight, express, cartage, postage, and other transportation services relating either to goods purchased, in process, or delivered, are allowable. When such costs can readily be identified with the items involved, they may be charged directly as transportation costs or added to the cost of such items. Where identification with the materials received cannot readily be made, inbound transportation costs may be charged to the appropriate indirect cost accounts if the institution follows a consistent, equitable

procedure in this respect. Outbound freight, if reimbursable under the terms of the research agreement, should be treated as a direct cost.

44. *Travel costs.* a. Travel costs are the expenses for transportation, lodging, subsistence, and related items incurred by employees who are in travel status on official business of the institution. Such costs may be charged on an actual basis, on a per diem or mileage basis in lieu of actual costs incurred, or on a combination of the two, provided the method used is applied to an entire trip and not to selected days of the trip, and results in charges consistent with those normally allowed by the institution in its regular operations.

b. Travel costs are allowable subject to c., d., e., and f. below, when they are directly attributable to specific work under a research agreement or are incurred in the normal course of administration of the institution or a department or research program thereof.

c. The difference in cost between first-class air accommodations and less than first-class air accommodations is unallowable except when less than first-class air accommodations are not reasonably available to meet necessary mission requirements, such as where less than first-class accommodations would:

(1) Require circuitous routing, (2) require travel during unreasonable hours, (3) greatly increase the duration of the flight, (4) result in additional costs which would offset the transportation savings, or (5) offer accommodations which are not reasonably adequate for the medical needs of the traveler.

d. Costs of personnel movements of a special or mass nature are allowable only when authorized or approved in writing by the sponsoring agency or its authorized representative.

e. Foreign travel costs are allowable only when the travel has received specific prior approval. Each separate foreign trip must be specifically approved. For purposes of this provision, foreign travel is defined as "any travel outside of Canada and the United States and its territories and possessions."

f. Expenditures for domestic travel may not exceed $500, or 125 percent of the amount allotted for such travel by the sponsoring agency, whichever is greater, except with approval.

45. *Termination costs applicable to research agreements.* a. Termination of research agreements generally gives rise to the incurrence of costs or to the need for special treatment of costs, which would not have arisen had the agreement not been terminated. Items peculiar to termination are set forth below. They are to be used in conjunction with all other provisions of this Appendix in the case of termination.

b. The cost of common items of material reasonably usable on the institution's other work will not be allowable unless the institution submits evidence that it could not retain such items at cost without sustaining a loss. In deciding whether such items are reasonably usable on other work of the institution, consideration should be given to the institution's plans and orders for current and scheduled work. Contemporaneous purchases of common items by the institution will be regarded as evidence that such items are reasonably usable on the institution's other work. Any acceptance of common items as allowable to the terminated portion of the agreement should be limited to the extent that the quantities of such items on hand, in transit, and on order are in excess of the reasonable quantitative requirements of other work.

c. If in a particular case, despite all reasonable efforts by the institution, certain costs cannot be discontinued immediately after the effective date of termination, such costs are generally allowable within the limitations set forth in this Appendix, except that any such costs continuing after termination due to the negligent or willful failure of the institution to discontinue such costs will be considered unacceptable.

d. Loss of useful value of special tooling and special machinery and equipment is generally allowable, provided: (1) such special tooling, machinery, or equipment is not reasonably capable of use in the other work of the institution; (2) the interest of the Government is protected by transfer of title or by other means deemed appropriate by the contracting officer or equivalent; and (3) the loss of useful value as to any one terminated agreement is limited to that portion of the acquisition cost which bears the same ratio to the total acquisition cost as the terminated portion of the agreement bears to the entire terminated agreement and other Government agreements for which the special tooling, special machinery, or equipment was acquired.

e. Rental costs under unexpired leases are generally allowable where clearly shown to have been reasonably necessary for the performance of the terminated agreement, less the residual value of such leases, if: (1) the amount of such rental claimed does not exceed the reasonable use value of the property leased for the period of the agreement and such further period as may be reasonable; and (2) the institution makes all reasonable efforts to terminate, assign, settle, or otherwise reduce the cost of such lease. There also may be included the cost of alterations of such leased property, provided such alterations were necessary for the performance of the agreement, and of reasonable restoration required by the provisions of the lease.

f. Settlement expenses including the following are generally allowable: (1) accounting, legal, clerical, and similar costs reasonably necessary for the preparation and presentation to contracting officers or equivalent of settlement claims and supporting data with respect to the terminated portion of the agreement, and the termination and settlement of subagreements; and (2) reasonable costs for the storage, transportation, protection, and disposition of property provided by the Government or acquired or produced by the institution for the agreement.

g. Claims under subagreements, including the allocable portion of claims which are common to the agreement and to other work of the institution, are generally allowable.

K. Certification of Charges.

To assure that expenditures for research grants and contracts are proper and in accordance with the research agreement documents and approved project budgets, the annual and/or final fiscal reports or vouchers requesting payment under research agreements will include a certification, signed by an authorized official of the univesity, which reads essentially as follows: "I certify that all expenditures reported (or payments requested) are for appropriate purposes and in accordance with the agreements set forth in the application and award documents."

Part II—Principles for Determining Costs Applicable to Training and Other Educational Services Under Grants and Contracts With Educational Institutions

A. *Purpose.* This part extends the scope of Part I to cover the determination of costs incurred by educational institutions under Federal grants and contracts for training and other educational services.

B. *Application.* The Department of Health, Education, and Welfare will use Parts I and II of this Appendix as a basis for determining allowable costs under grants and cost reimbursement type contracts with educational institutions for work performed under federally supported education service agreements.

C. *Terminology.* The following definitions are to be used in determining the indirect cost of federally sponsored training and other educational services under this Part II:

1. *Educational service agreement* means any grant or contract under which Federal financing is provided on a cost reimbursement basis for all or an agreed portion of the costs incurred for training or other educational services. Typical of the work covered by educational service agreements are summer institutes, special training programs for selected participants, professional or technical services to cooperating countries, the development and introduction of new or expanded courses, and similar instructional oriented undertakings, including special research training programs, that are separately budgeted and accounted for by the institution.

The term does not extend to: (a) grants or contracts for organized research, (b) arrangements under which the Federal financing is exclusively in the form of scholarships, fellowships, traineeships, or other fixed amounts such as a cost of education allowance or the normal published tuition rates and fees of an institution, or (c) construction, facility and exclusively general resource or institutional-type grants.

2. *Instruction* means all of the academic work other than organized research carried on by an institution, including the teaching of graduate and undergraduate courses, departmental research (see section B.2. of Part I) and all special training or other instructional-oriented projects sponsored by the Federal Government or others under educational service agreements.

D. *Student administration and services.* In addition to the five major functional categories of indirect costs described in section F of Part I, there is established an additional category under the title "Student administration and services" to embrace the following:

1. The expenses in this category are those that have been incurred for the administration of student affairs and for services to students, including expenses of such activities as deans of students, admissions, registrar, counseling and placement services, student advisers, student health and infirmary services, catalogs, and commencements and convocations. The salaries of members of the academic staff whose academic appointments or assignments involve the performance of such administrative or service work may also be included to the extent that the portion so charged is supported pursuant to section J.2. of Part I. The student administration and services category also includes the staff benefit and pension plan costs applicable to the salaries and wages included therein, an appropriate share of the cost of the operation and maintenance of the physical plant, and charges representing use allowance or depreciation applicable to the buildings and equipment utilized in the performance of the functions included in this category.

2. The expenses in this category are generally applicable in their entirety to the instruction activity. They should be allocated to applicable cost objectives within the instruction activity, including educational service agreements, when such agreements reasonably benefit from these expenses. Such expenses should be allocated on the basis of population served (computed on the basis of full-time equivalents including students, faculty, and others as appropriate) or other methods which will result in an equitable distribution to cost objectives in relation to the benefits received and be consistent with guides provided in section E.2. of Part I.

E. *Direct costs of educational service agreements.* Direct costs of work performed under educational service agreements will be determined consistent with the principles set forth in section D of Part I.

F. *Indirect costs of the instruction activity.* The indirect costs of the instruction activity as a whole should include its allocated share of administrative and supportive costs determined in accordance with the principles set forth in section D above and in section F of Part I. Such costs may include other items of indirect cost incurred solely for the instruction activity and not included in the general allocation of the various categories of indirect expenses. Costs incurred for the institutions by State and local governments are allowable as provided for in section C.6. of Part I.

G. *Indirect costs applicable to educational service agreements.* The individual items of indirect costs applicable to the instruction activity as a whole should be assigned to: (1) educational service agreements, and (2) all other instructional work through use of appropriate cost groupings, selected distribution bases, and other reasonable methods as outlined in section E.2. of Part I. A single indirect pool may be used for all educational service agreements provided this results in a reasonably equitable distribution of costs among agreements in relation to indirect support services provided. However, when the level of indirect support significantly varies for work performed either on campus or off campus under a particular agreement or group of agreements, separate cost pools should be established consistent with the principles set forth in section G.1.b. of Part I. Where direct charges are provided for under educational service agreements for such things as commencement fees, student fees, and tuition, the related indirect costs, through separate cost groupings, should be excluded from the indirect costs allocable to the service agreements.

H. *Indirect cost rates for educational service agreements.* An indirect cost rate should be determined for the educational service agreement pool or pools, as established under section G above. The rate in each case should be stated as the percentage which the amount of the particular educational service agreement pool is of the total direct salaries and wages of all educational service agreements identified with such pool. Indirect costs should be distributed to individual agreements by applying the rate or rates established to direct salaries and wages for each agreement. When a fixed rate is negotiated in advance of a fiscal year, the over- or under-recovery for that year may be included as an adjustment to the indirect cost for the next rate negotiation as in sections G.4. and G.5. of Part I.

I. *General standards for selected items of cost.* The standards for selected items of cost as set forth in sections J.1. through J.46. of Part I applicable to research agreements will also be applied to educational service agreements with the following modifications:

1. *Commencement and convocation costs (J.5.).* Expenses incurred for convocations and commencements apply to the instruction activity as a whole. Such expenses are unallowable as direct costs of educational service agreements unless specifically authorized in the agreement or approved in writing by the sponsoring agency. For eligibility of allocation as indirect costs, see section D.

2. *Compensation for personal services (J.7.).* Charges to educational service agreements for personal services will normally be determined and supported consistent with the provisions of section J.7. of Part I. However, the provision for stipulated salary support will not be used for educational service agreements. Also, charges may include compensation in excess of the base salary of a faculty member for the conduct of courses outside the normal duties of such member provided that: (a) extra charges are determined at a rate not greater than the basic salary rate of the member; (b) salary payments for such work follow practices consistently applied within the institution; and (c) specific authorization for such charges is included in the educational service agreement.

3. *Scholarships and student aid costs (J.35.).* Expenses incurred for scholarships and student aid are unallowable as either direct costs or indirect costs of educational service agreements, unless specifically authorized in the educational service agreement or approved in writing by the sponsoring agency.

4. *Student activity costs (J.40.).* Expenses incurred for student activities are unallowable as either direct costs or indirect costs of educational service agreements, unless specifically authorized in the educational service agreement or approved in writing by the sponsoring agency.

5. *Student services costs (J.41.).* Expenses incurred for student services are unallowable as direct costs of educational service agreements unless specifically authorized in the agreement or approved in writing by the sponsoring agency. For eligibility of allocation as indirect costs, see section D.

Appendix E—Principles for Determining Costs Applicable to Research and Development Under Grants and Contracts With Hospitals

I. Purpose and Scope

A. *Objectives.* This appendix provides principles for determining the costs applicable to research and development work performed by hospitals under grants and contracts with the Department of Health, Education, and Welfare. These principles are confined to the subject of cost determination and make no attempt to identify the circumstances or dictate the extent of hospital participation in the financing of a particular research or development project. The principles are designed to provide recognition of the full allocated costs of such research work under generally accepted accounting principles. These principles will be applicable to both proprietary and non-profit hospitals. No provision for profit or other increment above cost is provided for in these principles. However, this is not to be interpreted as precluding a negotiated fee between contracting parties when a fee is appropriate.

B. *Policy guides.* The successful application of these principles requires development of mutual understanding between representatives of hospitals and of the Department of Health, Education, and Welfare as to their scope, applicability and interpretation. It is recognized that:

1. The arrangements for hospital participation in the financing of a research and development project are properly subject to negotiation between the agency and the hospital concerned in accordance with such Government-wide criteria as may be applicable.

2. Each hospital, possessing its own unique combination of staff, facilities and experience, should be encouraged to conduct research in a manner consonant with its own institutional philosophies and objectives.

3. Each hospital in the fulfillment of its contractual obligations should be expected to employ sound management practices.

4. The application of the principles established herein shall be in conformance with the generally accepted accounting practices of hospitals.

5. Hospitals receive reimbursements from the Federal Government for differing types of services under various programs such as support of Research and Development (including discrete clinical centers) Health Services Projects, Medicare, etc. It is essential that consistent procedures for determining reimbursable costs for similar services be employed without regard to

program differences. Therefore, both the direct and indirect costs of research programs must be identified as a cost center(s) for the cost finding and step-down requirements of the Medicare program, or in its absence the Medicaid program.

C. *Application.* All operating agencies within the Department of Health, Education, and Welfare that sponsor research and development work in hospitals will apply these principles and related policy guides in determining the costs incurred for such work under grants and cost-reimbursement type contracts and subcontracts. These principles will also be used as a guide in the pricing of fixed-price contracts and subcontracts.

II. Definitions of Terms

A. "Organized research" means all research activities of a hospital that may be identified whether the support for such research is from a federal, non-federal or internal source.

B. "Departmental research" means research activities that are not separately budgeted and accounted for. Such work, which includes all research activities not encompassed under the term organized research, is regarded for purposes of this document as a part of the patient care activities of the hospital.

C. "Research agreement" means any valid arrangement to perform federally-sponsored research or development including grants, cost-reimbursement type contracts, cost-reimbursement type subcontracts, and fixed-price contracts and subcontracts.

D. "Instruction and training" means the formal or informal programs of educating and training technical and professional health services personnel, primarily medical and nursing training. This activity, if separately budgeted or identifiable with specific costs, should be considered as a cost objective for purposes of indirect cost allocations and the development of patient care costs.

E. "Other hospital activities" means all organized activities of a hospital not immediately related to the patient care, research, and instructional and training functions which produce identifiable revenue from the performance of these activities. If a non-related activity does not produce identifiable revenue, it may be necessary to allocate this expense using an appropriate basis. In such a case, the activity may be included as an allocable cost (See para. III D below.) Also included under this definition is any category of cost treated as "Unallowable," provided such category of cost identifies a function or activity to which a portion of the institution's indirect cost (as defined in para. V. A.) are properly allocable.

F. "Patient care" means those departments or cost centers which render routine or ancillary services to in-patients and/or out-patients. As used in para. IX B.23, it means the cost of these services applicable to patients involved in research programs.

G. "Allocation" means the process by which the indirect costs are assigned as between:

1. Organized research,

2. Patient care including departmental research,

3. Instruction and training, and

4. Other hospital activities.

H. "Cost center" means an identifiable department or area (including research) within the hospital which has been assigned an account number in the hospital accounting system for the purpose of accumulating expense by department or area.

I. "Cost finding" is the process of recasting the data derived from the accounts ordinarily kept by a hospital to ascertain costs of the various types of services rendered. It is the determination of direct costs by specific identification and the proration of indirect costs by allocation.

J. "Step down" is a cost finding method that recognizes that services rendered by certain nonrevenue-producing departments or centers are utilized by certain other nonrevenue producing centers as well as by the revenue-producing centers. All costs of nonrevenue-producing centers are allocated to all centers which they serve, regardless of whether or not these centers produce revenue. Following the apportionment of the cost of the nonrevenue-producing center, that center will be considered closed and no further costs are apportioned to that center.

K. "Scatter bed" is a bed assigned to a research patient based on availability. Research patients occupying these beds are not physically segregated from nonresearch patients occupying beds. Scatter beds are geographically dispersed among all the beds available for use in the hospital. There are no special features attendant to a scatter bed that distinguishes it from others that could just as well have been occupied.

L. "Discrete bed" is a bed or beds that have been set aside for occupancy by research patients and are physically segregated from other hospital beds in an environment that permits an easily ascertainable allocation of costs associated with the space they occupy and the services they generate.

III. Basic Considerations

A. *Composition of total costs.* The cost of a research agreement is comprised of the allowable direct costs incident to its performance plus the allocable portion of the allowable indirect costs of the hospital less applicable credits. (See para. III–E.)

B. *Factors affecting allowability of costs.* The tests of allowability of costs under these principles are:

1. They must be reasonable.

2. They must be assigned to research agreements under the standards and methods provided herein.

3. They must be accorded consistent treatment through application of those generally accepted accounting principles appropriate to the circumstances (See para. I–E.5.) and

4. They must conform to any limitations or exclusions set forth in these principles or in the research agreement as to types or amounts of cost items.

C. *Reasonable costs.* A cost may be considered reasonable if the nature of the goods or services acquired or applied, and the amount involved therefor reflect the action that a prudent person would have taken under the circumstances prevailing at the time the decision to incur the cost was made. Major considerations involved in the determination of the reasonableness of a cost are:

1. Whether or not the cost is of a type generally recognized as necessary for the operation of the hospital or the performance of the research agreement,

2. The restraints or requirements imposed by such factors as arm's length bargaining, federal and state laws and regulations, and research agreement terms and conditions,

3. Whether or not the individuals concerned acted with due prudence in the circumstances, considering their responsibilities to the hospital, its patients, its employees, its students, the Government, and the public at large, and

4. The extent to which the actions taken with respect to the incurrence of the cost are consistent with established hospital policies and practices applicable to the work of the hospital generally, including Government research.

D. *Allocable costs.* 1. A cost is allocable to a particular cost center (i.e., a specific function, project, research agreement, department, or the like) if the goods or services involved are chargeable or assignable to such cost center in accordance with relative benefits received or other equitable relationship. Subject to the foregoing, a cost is allocable to a research agreement if it is incurred solely to advance the work under the research agreement; or it benefits both the research agreement and other work of the hospital in proportions that can be approximated through use of reasonable methods; or it is necessary to the overall operation of the hospital and, in light of the standards provided in this chapter, is deemed to be assignable in part to organized research. Where the purchase of equipment or other capital items are specifically authorized under a research agreement, the amounts thus authorized for such purchases are allocable to the research agreement regardless of the use that may subsequently be made of the equipment or other capital items involved.

2. Any costs allocable to a particular research agreement under the standards provided in these principles may not be shifted to other research agreements in order to meet deficiencies caused by overruns or other fund considerations, to avoid restrictions imposed by law or by terms of the research agreement, or for other reasons of convenience.

E. *Applicable credits.* 1. The term applicable credits refers to those receipts or negative expenditure types of transactions which operate to offset or reduce expense items that are allocable to research agreements as direct or indirect costs as outlined in para. V-A. Typical examples of such transactions are: purchase discounts, rebates, or allowances; recoveries or indemnities on losses; sales of scrap or incidental services; tuition; adjustments of overpayments or erroneous charges; and services rendered to patients admitted to federally funded clinical research centers, primarily for care though also participating in research protocols.

2. In some instances, the amounts received from the Federal Government to finance hospital activities or service operations

should be treated as applicable credits. Specifically, the concept of netting such credit items against related expenditures should be applied by the hospital in determining the rates or amounts to be charged to government research for services rendered whenever the facilities or other resources used in providing such services have been financed directly, in whole or in part, by federal funds. Thus, where such items are provided for or benefit a particular hospital activity, i.e., patient care, research, instruction and training, or other, they should be treated as an offset to the indirect costs apportioned to that activity. Where the benefits are common to all hospital activities they should be treated as a credit to the total indirect cost pool before allocation to the various cost objectives.

IV. Direct Costs

A. *General.* Direct costs are those that can be identified specifically with a particular cost center. For this purpose, the term cost center refers not only to the ultimate centers against which costs are finally lodged such as research agreements, but also to other established cost centers such as the individual accounts for recording particular objects or items of expense, and the separate account groupings designed to record the expenses incurred by individual organizational units, functions, projects and the like. In general, the administrative functions and service activities described in para. VI are identifiable as separate cost centers, and the expenses associated with such centers become eligible in due course for distribution as indirect costs of research agreements and other ultimate cost centers.

B. *Application to research agreements.* Identifiable benefit to the research work rather than the nature of the goods and services involved is the determining factor in distinguishing direct from indirect costs of research agreements. Typical of transactions chargeable to a research agreement as direct costs are the compensation of employees for the time or effort devoted to the performance of work under the research agreement, including related staff benefit and pension plan costs to the extent that such items are consistently accorded to all employees and treated by the hospital as direct rather than indirect costs (see para. V. B4b); the costs of materials consumed or expended in the performance of such work; and other items of expense incurred for the research agreement, such as extraordinary utility consumption. The cost of materials supplied from stock or services rendered by specialized facilities or other institutional service operations may be included as direct costs of research agreements provided such items are consistently treated by the institution as direct rather than indirect costs and are charged under a recognized method of costing or pricing designed to recover only the actual direct and indirect costs of such material or service and conforming to generally accepted cost accounting practices consistently followed by the institution.

V. Indirect Costs

A. *General.* Indirect costs are those that have been incurred for common or joint objectives, and thus are not readily subject to treatment as direct costs of research agreements or other ultimate or revenue producing cost centers. In hospitals such costs normally are classified but not necessarily restricted to the following functional categories: Depreciation; Administrative and General (including fringe benefits if not charged directly); Operation of Plant; Maintenance of Plant; Laundry and Linen Service; Housekeeping; Dietary; Maintenance of Personnel; and Medical Records and Library.

B. *Criteria for distribution.*—1. *Base period.* A base period for distribution of indirect costs is the period during which such costs are incurred and accumulated for distribution to work performed within that period. The base period normally should coincide with the fiscal year established by the hospital, but in any event the base period should be so selected as to avoid inequities in the distribution of costs.

2. *Need for cost groupings.* The overall objective of the allocation process is to distribute the indirect costs described in para. VI to organized research, patient care, instruction and training, and other hospital activities in reasonable proportions consistent with the nature and extent of the use of the hospital's resources by research personnel, medical staff, patients, students, and other personnel or organizations. In order to achieve this objective with reasonable precision, it may be necessary to provide for selective distribution by establishing separate groupings of cost within one or more of the functional categories of indirect costs referred to in para. V-A. In general, the cost groupings established within a functional category should constitute, in each case, a pool of those items of expense that are considered to be of like character in terms of their relative contribution to (or degree of remoteness from) the particular cost centers to which distribution is appropriate. Each such pool or cost grouping should then be distributed individually to the related cost centers, using the distribution base or method most appropriate in the light of the guides set out in B3 below. While this paragraph places primary emphasis on a step-down method of indirect cost computation, para. VIII provides an alternate method which may be used under certain conditions.

3. *Selection of distribution method.* Actual conditions must be taken into account in selecting the method or base to be used in distributing to related cost centers the expenses assembled under each of the individual cost groups established as indicated under B2 above. Where a distribution can be made by assignment of a cost grouping directly to the area benefited, the distribution should be made in that manner. Care should be given, however, to eliminate similar or duplicative costs from any other distribution made to this area. Where the expenses under a cost grouping are more general in nature, the distribution to related cost centers should be made through use of a selected base which will produce results which are equitable to both the Government and the hospital. In general, any cost element or cost-related factor associated with the hospital's work is potentially adaptable for use as a distribution base provided:

a. It can readily be expressed in terms of dollars or other quantitative measure (total direct expenditures, direct salaries, manhours applied, square feet utilized, hours of usage, number of documents processed, population served, and the like); and

b. It is common to the related cost centers during the base period. The essential consideration in selection of the distribution base in each instance is that it be the one best suited for assigning the pool of costs to related cost centers in accord with the relative benefits derived; the traceable cause and effect relationship; or logic and reason, where neither benefit nor cause and effect relationship is determinable.

4. *General consideration on cost groupings.* The extent to which separate cost groupings and selective distribution would be appropriate at a hospital is a matter of judgment to be determined on a case-by-case basis. Typical situations which may warrant the establishment of two or more separate cost groups (based on account classification or analysis) within a functional category include but are not limited to the following:

a. Where certain items or categories of expense relate solely to one of the major divisions of the hospital (patient care, sponsored research, instruction and training, or other hospital activities) or to any two but not all, such expenses should be set aside as a separate cost grouping for direct assignment or selective distribution in accordance with the guides provided in B2 and B3 above.

b. Where any types of expense ordinary treated as indirect cost as outlined in para. V-A are charged to research agreements as direct costs, the similar type expenses applicable to other activities of the institution must through separate cost grouping be excluded from the indirect costs allocable to research agreements.

c. Where it is determined that certain expenses are for the support of a service unit or facility whose output is susceptible of measurement on a workload or other quantitative basis, such expenses should be set aside as a separate cost grouping for distribution on such basis to organized research and other hospital activities.

d. Where organized activities (including identifiable segments of organized research as well as the activities cited in para. II-E) provide their own purchasing, personnel administration, building maintenance, or housekeeping or similar service, the distribution of such elements of indirect cost to such activities should be accomplished through cost grouping which includes only that portion of central indirect costs (such as for overall management) which are properly allocable to such activities.

e. Where the hospital elects to treat as indirect charges the costs of pension plans and other staff benefits, such costs should be set aside as a separate cost grouping for selective distribution to related cost centers, including organized research.

f. Where the hospital is affiliated with a medical school or some other institution which performs organized research on the

hospital's premises, every effort should be made to establish separate cost groupings in the Administrative and General or other applicable category which will reasonably reflect the use of services and facilities by such research. (See also para. VII-A.3)

5. *Materiality.* Where it is determined that the use of separate cost groupings and selective distribution are necessary to produce equitable results, the number of such separate cost groupings within a functional category should be held within practical limits, after taking into consideration the materiality of the amounts involved and the degree of precision attainable through less selective methods of distribution.

C. *Administration of limitations on allowances for indirect costs.* 1. Research grants may be subject to laws and/or administrative regulations that limit the allowance for indirect costs under each such grant to a stated percentage of the direct costs allowed. Agencies that sponsor such grants will establish procedures which will assure that:

a. the terms and amount authorized in each case conform with the provisions of paragraphs III, V and IX of these principles as they apply to matters involving the consistent treatment and allowability of individual items of cost; and

b. the amount actually allowed for indirect costs under each such research grant does not exceed the maximum allowable under the limitation or the amount otherwise allowable under these principles, whichever is the smaller.

2. Where the actual allowance for indirect costs on any research grant must be restricted to the smaller of the two alternative amounts referred to in C1 above, such alternative amounts should be determined in accordance with the following guides:

a. The maximum allowable under the limitation should be established by applying the stated percentage to a direct cost base which shall include all items of expenditure authorized by the sponsoring agency for inclusion as part of the total cost for the direct benefit of the work under the grant; and

b. The amount otherwise allowable under these principles should be established by applying the current institutional indirect cost rate to those elements of direct cost which were included in the base on which the rate was computed.

3. When the maximum amount allowable under a statutory limitation or the terms of a research agreement is less than the amount otherwise allocable as indirect costs under these principles, the amount not recoverable as indirect costs under the research agreement involved may not be shifted to other research agreements.

VI. Identification and Assignment of Indirect Costs

A. *Depreciation or use charge.* 1. The expenses under this heading should include depreciation (as defined in para. IX-B.9a) on buildings, fixed equipment, and movable equipment, except to the extent purchased through federal funds. Where adequate records for the recording of depreciation are not available, a use charge may be substituted for depreciation (See para. IX-B.)

2. The expenses included in this category should be allocated to applicable cost centers in a manner consistent with the guides set forth in para. V-B, on a basis that gives primary emphasis to (a) space utilization with respect to depreciation on buildings and fixed equipment; and (b) specific identification of assets and their use with respect to movable equipment as it relates to patient care, organized research, instruction and training, and other hospital activities. Where such records are not sufficient for the purpose of the foregoing, reasonable estimates will suffice as a means for effecting distribution of the amounts involved.

B. *Administration and general expenses.* 1. The expenses under this heading are those that have been incurred for the administrative offices of the hospital including accounting, personnel, purchasing, information centers, telephone expense, and the like which do not relate solely to any major division of the institution, i.e., solely to patient care, organized research, instruction and training, or other hospital activities.

2. The expenses included in this category may be allocated on the basis of total expenditures exclusive of capital expenditures, or salaries and wages in situations where the results of the distribution made on this basis are deemed to be equitable both to the Government and the hospital; otherwise the distribution of Administration and General expenses should be made through use of selected bases, applied to separate cost groupings established within this category of expenses in accordance with the guides set out in para. V-B.

C. *Operation of plant.* 1. The expenses under this heading are those that have been incurred by a central service organization or at the departmental level for the administration, supervision, and provision of utilities (exclusive of telephone expense) and protective services to the physical plant. They include expenses incurred for such items as power plant operations, general utility costs, elevator operations, protection services, and general parking lots.

2. The expenses included in this category should be allocated to applicable cost centers in a manner consistent with the guides provided in para. V-B, on a basis that gives primary emphasis to space utilization. The allocations should be developed as follows:

a. Where actual space and related cost records are available or can readily be developed and maintained without significant change in the accounting practices, the amount distributed should be based on such records;

b. Where the space and related cost records maintained are not sufficient for purposes of the foregoing, a reasonable estimate of the proportion of total space assigned to the various costs centers normally will suffice as a means for effecting distribution of the amounts involved; or

c. Where it can be demonstrated that an area or volume or space basis of allocation is impractical or inequitable, other bases may be used provided consideration is given to the use of facilities by research personnel and others, including patients.

D. *Maintenance of plant.* 1. The expenses under this heading should include:

a. All salaries and wages pertaining to ordinary repair and maintenance work performed by employees on the payroll of the hospital;

b. All supplies and parts used in the ordinary repairing and maintaining of buildings and general equipment; and

c. Amounts paid to outside concerns for the ordinary repairing and maintaining of buildings and general equipment.

2. The expenses included in this category should be allocated to applicable cost centers in a manner consistent with the guides provided in para. V-B. on a basis that gives primary emphasis to space utilization. The allocations and apportionments should be developed as follows:

a. Where actual space and related cost records are available and can readily be developed and maintained without significant change in the accounting practices, the amount distributed should be based on such records;

b. Where the space and related cost records maintained are not sufficient for purposes of the foregoing, a reasonable estimate of the proportion of total space assigned to the various cost centers normally will suffice as a means for effecting distribution of the amounts involved; or

c. Where it can be demonstrated that an area or volume of space basis of allocation is impractical or inequitable, other basis may be used provided consideration is given to the use of facilities by research personnel and others, including patients.

E. *Laundry and linen.* 1. The expenses under this heading should include:

a. Salaries and wages of laundry department employees, seamstresses, clean linen handlers, linen delivery men, etc.;

b. Supplies used in connection with the laundry operation and all linens purchased; and

c. Amounts paid to outside concerns for purchased laundry and/or linen service.

2. The expense included in this category should be allocated to related cost centers in a manner consistent with the guides provided in para. V-B. on a basis that gives primary emphasis to actual pounds of linen used. The allocations should be developed as follows:

a. Where actual poundage and related cost records are available or can readily be developed and maintained without significant change in the accounting practices, the amount distributed should be based on such records;

b. Where it can be demonstrated that a poundage basis of allocation is impractical or inequitable other bases may be used provided consideration is given to the use of linen by research personnel and others, including patients.

F. *Housekeeping.* 1. The expenses under this heading should include:

a. All salaries and wages of the department head, foreman, maids, porters, janitors, wall washers, and other housekeeping employees;

b. All supplies used in carrying out the housekeeping functions; and

c. Amounts paid to outside concerns for purchased services such as window washing, insect extermination, etc.

2. The expenses included in this category should be allocated to related cost centers in a manner consistent with the guides provided in para. V–B. on a basis that gives primary emphasis to space actually serviced by the housekeeping department. The allocations and apportionments should be developed as follows:

a. Where actual space serviced and related cost records are available or can readily be developed and maintained without significant change in the accounting practices, the amount distributed should be based on such records;

b. Where the space serviced and related cost records maintained are not sufficient for purposes of the foregoing, a reasonable estimate of the proportion of total space assigned to the various cost centers normally will suffice as a means for effecting distribution of the amounts of housekeeping expenses involved; or

c. Where it can be demonstrated that the space serviced basis of allocation is impractical or inequitable, other bases may be used provided consideration is given to the use of housekeeping services by research personnel and others, including patients.

G. *Dietary.* 1. These expenses, as used herein, shall mean only the subsidy provided by the hospital to its employees including research personnel through its cafeteria operation. The hospital must be able to demonstrate through the use of proper cost accounting techniques that the cafeteria operates at a loss to the benefit of employees.

2. The reasonable operating loss of a subsidized cafeteria operation should be allocated to related cost centers in a manner consistent with the guides provided in para. V–B. on a basis that gives primary emphasis to number of employees.

H. *Maintenance (housing) of personnel.* 1. The expenses under this heading should include:

a. The salaries and wages of matrons, clerks, and other employees engaged in work in nurses' residences and other employees' quarters;

b. All supplies used in connection with the operation of such dormitories; and

c. Payments to outside agencies for the rental of houses, apartments, or rooms used by hospital personnel.

2. The expenses included in this category should be allocated to related cost centers in a manner consistent with the guides provided in para. V–B. on a basis that gives primary emphasis to employee utilization of housing facilities. The allocation should be developed as follows:

a. Appropriate credit should be given for all payments received from employees or otherwise to reduce the expense to be allocated;

b. A net cost per housed employee may then be computed; and

c. Allocation should be made on a departmental basis based on the number of housed employees in each respective department.

I. *Medical records and library.* 1. The expenses under this heading should include:

a. The salaries and wages of the records librarian, medical librarian, clerks, stenographers, etc.; and

b. All supplies such as medical record forms, chart covers, filing supplies, stationery, medical library books, periodicals, etc.

2. The expenses included in this category should be allocated to related cost centers in a manner consistent with the guides provided in para. V–B. on a basis that gives primary emphasis to a special time survey of medical records personnel. If this appears to be impractical or inequitable, other bases may be used provided consideration is given to the use of these facilities by research personnel and others, including patients.

VII. Determination and Application of Indirect Cost Rate or Rates

A. *Indirect cost pools.* 1. Subject to (2) below, indirect costs allocated to organized research should be treated as a common pool, and the costs in such common pool should be distributed to individual research agreements benefiting therefrom on a single rate basis.

2. In some instances a single rate basis for use on all government research at a hospital may not be appropriate since it would not take into account those different environmental factors which may affect substantially the indirect costs applicable to a particular segment of government research at the institution. For this purpose, a particular segment of government research may be that performed under a single research agreement or it may consist of research under a group of research agreements performed in a common environment. The environmental factors are not limited to the physical location of the work. Other important factors are the level of the administrative support required, the nature of the facilities or other resources employed, the scientific disciplines or technical skills involved, the organizational arrangements used, or any combination thereof. Where a particular segment of government research is performed within an environment which appears to generate a significantly different level of indirect costs, provision should be made for a separate indirect cost pool applicable to such work. An example of this differential may be in the development of a separate indirect cost pool for a clinical research center grant. The separate indirect cost pool should be developed during the course of the regular distribution process, and the separate indirect cost rate resulting therefrom should be utilized provided it is determined that:

a. Such indirect cost rate differs significantly from that which would have obtained under (1) above; and

b. The volume of research work to which such rate would apply is material in relation to other government research at the institution.

3. It is a common practice for grants or contracts awarded to other institutions, typically University Schools of Medicine, to be performed on hospital premises. In these cases the hospital should develop a separate indirect cost pool applicable to the work under such grants or contracts. This pool should be developed by a selective distribution of only those indirect cost categories which benefit the work performed by the other institution, within the practical limits dictated by available data and the materiality of the amounts involved. Hospital costs determined to be allocable to grants or contracts awarded to another institution may not be recovered as a cost of grants or contracts awarded directly to the hospital.

B. *The distribution base.* Preferably, indirect costs allocated to organized research should be distributed to applicable research agreements on the basis of direct salaries and wages. However, where the use of salaries and wages results in an inequitable allocation of costs to the research agreements, total direct costs or a variation thereof, may be used in lieu of salaries and wages. Regardless of the base used, an indirect cost rate should be determined for each of the separate indirect cost pools developed pursuant to para. VII–A. The rate in each case should be stated as the percentage which the amount of the particular indirect cost pool is of the total direct salaries and wages (or other base selected) for all research agreements identified with such a pool.

C. *Negotiated lump sum for overhead.* A negotiated fixed amount in lieu of indirect costs may be appropriate for self-contained or off-campus research activities where the benefits derived from a hospital's indirect services cannot be readily determined. Such amount negotiated in lieu of indirect costs will be treated as an offset to the appropriate indirect cost pool after allocation to patient care, organized research, instruction and training, and other hospital activities. The base on which such remaining expenses are allocated should be appropriately adjusted.

D. *Predetermined overhead rates.* The utilization of predetermined fixed overhead rates may offer potential advantages in the administration of research agreements by facilitating the preparation of research budgets and permitting more expeditious close out of the agreements when the work is completed. Therefore, to the extent allowed by law, consideration may be given to the negotiation of predetermined fixed rates in those situations where the cost experience and other pertinent factors available are deemed sufficient to enable the Government and the hospital to reach a reasonable conclusion as to the probable level of the indirect cost rate for the ensuing accounting period.

VIII. Simplified Method for Small Institutions

A. *General.* 1. Where the total direct cost of all government-sponsored research and development work at a hospital in a year is minimal, the use of the abbreviated procedure described in para. VIII–B below may be acceptable in the determination of allowable indirect costs. This method may also be used to initially determine a provisional indirect cost rate for hospitals that have not previously established a rate. Under this abbreviated procedure, data taken directly from the institution's most recent annual financial report and immediately available supporting information will be utilized as a basis for determining the indirect cost rate applicable to research agreements at the institution.

2. The rigid formula approach provided under the abbreviated procedure has

limitations which may preclude its use at some hospitals either because the minimum data required for this purpose are not readily available or because the application of the abbreviated procedure to the available data produces results which appear inequitable to the Government or the hospital. In any such case, indirect costs should be determined through use of the regular procedure rather than the abbreviated procedure.

3. In certain instances where the total direct cost of all government-sponsored research and development work at the hospital is more than minimal, the abbreviated procedure may be used if prior permission is obtained. This alternative will be granted only in those cases where it can be demonstrated that the step-down technique cannot be followed.

B. *Abbreviated procedure.* 1. Total expenditures as taken from the most recent annual financial report will be adjusted by eliminating from further consideration expenditures for capital items as defined in para. IX–B.4 and unallowable costs as defined under various headings in para. IX and para. III–E.

2. Total expenditures as adjusted under the foregoing will then be distributed among (a) expenditures applicable to administrative and general overhead functions, (b) expenditures applicable to all other overhead functions, and (c) expenditures for all other purposes. The first group shall include amounts associated with the functional categories, Administration and General, and Dietary, as defined in para. VI. The second group shall include Depreciation, Operation of Plant, Maintenance of Plant, and Housekeeping. The third group—expenditures for all other purposes—shall include the amounts applicable to all other activities, namely, patient care, organized research, instruction and training, and other hospital activities as defined under para. II–E. For the purposes of this section, the functional categories of Laundry and Linen, Maintenance of Personnel, and Medical Records and Library as defined in para. VI shall be considered as expenditures for all other purposes.

3. The expenditures distributed to the first two groups in para. VIII–B.2 should then be adjusted by those receipts or negative expenditure types of transactions which tend to reduce expense items allocable to research agreements as indirect costs. Examples of such receipts or negative expenditures are itemized in para. III–E.1.

4. In applying the procedures in para. VIII–B.1 and B.2, the cost of unallowable activities such as Gift Shop, Investment Property Management, Fund Raising, and Public Relations, when they benefit from the hospital's indirect cost services, should be treated as expenditures for all other purposes. Such activities are presumed to benefit from the hospital's indirect cost services when they include salaries of personnel working in the hospital. When they do not include such salaries, they should be eliminated from the indirect cost rate computation.

5. The indirect cost rate will then be computed in two stages. The first stage requires the computation of an Administrative and General rate component. This is done by applying a ratio of research direct costs over total direct costs to the Administrative and General pool developed under para. VIII–B.2 and B.3 above. The resultant amount—that which is allocable to research—is divided by the direct research cost base. The second stage requires the computation of an All other Indirect Cost rate component. This is done by applying a ratio of research direct space over total direct space to All Other Indirect Cost pool developed under para. VIII–B.2 and B.3 above. The resultant amount—that which is allocable to research—is divided by the direct research cost base.

The total of the two rate components will be the institution's indirect cost rate. For the purposes of this section, the research direct cost or space and total direct cost or space will be that cost or space identified with the functional categories classified under Expenditures for all other purposes under para. VIII–B.2.

IX. General Standards for Selected Items of Cost

A. *General.* This section provides standards to be applied in establishing the allowability of certain items involved in determining cost. These standards should apply irrespective of whether a particular item of cost is properly treated as direct cost or indirect cost. Failure to mention a particular item of cost in the standards is not intended to imply that it is either allowable or unallowable; rather, determination as to allowability in each case should be based on the treatment or standards provided for similar or related items of cost. In case of discrepancy between the provisions of a specific research agreement and the applicable standards provided, the provisions of the research agreement should govern. However, in some cases advance understandings should be reached on particular cost items in order that the full costs of research be supported. The extent of allowability of the selected items of cost covered in this section has been stated to apply broadly to many accounting systems in varying environmental situations. Thus, as to any given research agreement, the reasonableness and allocability of certain items of costs may be difficult to determine, particularly in connection with hospitals which have medical school or other affiliations. In order to avoid possible subsequent disallowance or dispute based on unreasonableness or nonallocability, it is important that prospective recipients of federal funds particularly those whose work is predominantly or substantially with the Government, seek agreement with the Government in advance of the incurrence of special or unusual costs in categories where reasonableness or allocability are difficult to determine. Such agreement may also be initiated by the Government. Any such agreement should be incorporated in the research agreement itself. However, the absence of such an advance agreement on any element of cost will not in itself serve to make that element either allowable or unallowable. Examples of costs on which advance agreements may be particularly important are:

1. Facilities costs, such as;
a. Depreciation
b. Rental
c. Use charges for fully depreciated assets
d. Idle facilities and idle capacity
e. Plant reconversion
f. Extraordinary or deferred maintenance and repair
g. Acquisition of automatic data processing equipment.
2. Preaward costs
3. Non-hospital professional activities
4. Self-insurance
5. Support services charged directly (computer services, printing and duplicating services, etc.)
6. Employee compensation, travel, and other personnel costs, including;
a. Compensation for personal service, including wages and salaries, bonuses and incentives, premium payments, pay for time not worked, and supplementary compensation and benefits, such as pension and retirement, group insurance, severance pay plans, and other forms of compensation
b. Morale, health, welfare, and food service and dormitory costs
c. Training and education costs
d. Relocation costs, including special or mass personnel movement

B. *Selected items.*—1. *Advertising costs.* The term advertising costs means the costs of advertising media and corollary administrative costs. Advertising media include magazines, newspapers, radio and television programs, direct mail, exhibits, and the like. The only advertising costs allowable are those which are solely for;

a. The recruitment of persons required for the performance by the institution of obligations arising under the research agreement, when considered in conjunction with all other recruitment costs as set forth in para IX–B.34

b. The procurement of scarce items for the performance of the research agreement; or

c. The disposal of scrap or surplus materials acquired in the performance of the research agreement.

Costs of this nature, if incurred for more than one research agreement or for both research agreement work and other work of the institution, are allowable to the extent that the principles in paragraph IV and V are observed.

2. *Bad debts.* Losses arising from uncollectible accounts and other claims and related collection and legal costs are unallowable except that a bad debt may be included as a direct cost of the research agreement to the extent that it is caused by a research patient and approved by the awarding agency. This inclusion is only intended to cover the situation of the patient admitted for research purposes who subsequently or in conjunction with the research receives clinical care for which a charge is made to the patient. If, after exhausting all means of collecting these charges, a bad debt results, it may be considered an appropriate charge to the research agreement.

3. *Bonding costs.* a. Bonding costs arise when the Government requires assurance against financial loss to itself or others by reason of the act or default of the hospital.

They arise also in instances where the hospital requires similar assurance.

Included are such types as bid, performance, payment, advance payment, infringement, and fidelity bonds.

b. Costs of bonding required pursuant to the terms of the research agreement are allowable.

c. Costs of bonding required by the hospital in the general conduct of its business are allowable to the extent that such bonding is in accordance with sound business practice and the rates and premiums are reasonable under the circumstances.

4. *Capital expenditures.* The costs of equipment, buildings, and repairs which materially increase the value or useful life of buildings or equipment should be capitalized and are unallowable except as provided for in the research agreement.

5. *Civil defense costs.* Civil defense costs are those incurred in planning for, and the protection of life and property against the possible effects of enemy attack. Reasonable costs of civil defense measures (including costs in excess of normal plant protection costs, first-aid training and supplies, fire-fighting training, posting of additional exit notices and directions, and other approved civil defense measures) undertaken on the institution's premises pursuant to suggestions or requirements of civil defense authorities are allowable when distributed to all activities of the institution. Capital expenditures for civil defense purposes will not be allowed, but a use allowance or depreciation may be permitted in accordance with provisions set forth elsewhere. Costs of local civil defense projects not on the institution's premises are unallowable.

6. *Communication costs.* Costs incurred for telephone services, local and long distance telephone calls, telegrams, radiograms, postage, and the like are allowable.

7. *Compensation for personal services.*—a. *General.* Compensation for personal services covers all remuneration paid currently or accrued to employees of the hospital for services rendered during the period of performance under government research agreements. Such remuneration includes salaries, wages, staff benefits (see para. IX-B.10), and pension plan costs (see para. IX-B.25). The costs of such remuneration are allowable to the extent that the total compensation to individual employees is reasonable for the services rendered and conforms to the established policy of the institution consistently applied, and provided that the charges for work performed directly on government research agreements and for other work allocable as indirect costs to sponsored research are determined and supported as hereinafter provided. For non-profit, non-proprietary institutions, where federally supported programs constitute less than a preponderance of the activity at the institution the primary test of reasonableness will be to require that the institution's compensation policies be applied consistently both to federally-sponsored and non-sponsored activities alike. However, where special circumstances so dictate a contractual clause may be utilized which calls for application of the test of comparability in determining the reasonableness of compensation.

b. *Payroll distribution.* Amounts charged to organized research for personal services, regardless of whether treated as direct costs or allocated as indirect costs, will be based on hospital payrolls which have been approved and documented in accordance with generally accepted hospital practices. In order to develop necessary direct and indirect allocations of cost, supplementary data on time or effort as provided in (c) below, normally need be required only for individuals whose compensation is properly chargeable to two or more research agreements or to two or more of the following broad functional categories: (1) patient care; (2) organized research; (3) instruction and training; (4) indirect activities as defined in para. V-A; or (5) other hospital activities as defined in para. II-E.

c. *Reporting time or effort.* Charges for salaries and wages of individuals other than members of the professional staff will be supported by daily time and attendance and payroll distribution records. For members of the professional staff, current and reasonable estimates of the percentage distribution of their total effort may be used as support in the absence of actual time records. The term professional staff for purposes of this section includes physicians, research associates, and other personnel performing work at responsible levels of activities. These personnel normally fulfill duties, the competent performance of which usually requires persons possessing degrees from accredited institutions of higher learning and/or state licensure. In order to qualify as current and reasonable, estimates must be made no later than one month (though not necessarily a calendar month) after the month in which the services were performed.

d. *Preparation of estimates of effort.* Where required under (c) above, estimates of effort spent by a member of the professional staff on each research agreement should be prepared by the individual who performed the services or by a responsible individual such as a department head or supervisor having first-hand knowledge of the services performed on each research agreement. Estimates must show the allocation of effort between organized research and all other hospital activities in terms of the percentage of total effort devoted to each of the broad functional categories referred to in (b) above. The estimate of effort spent on a research agreement may include a reasonable amount of time spent in activities contributing and intimately related to work under the agreement, such as preparing and delivering special lectures about specific aspects of the ongoing research, writing research reports and articles, participating in appropriate research seminars, consulting with colleagues with respect to related research, and attending appropriate scientific meetings and conferences. The term "all other hospital activities" would include departmental research, administration, committee work, and public services undertaken on behalf of the hospital.

e. *Application of budget estimates.* Estimates determined before the performance of services, such as budget estimates on a monthly, quarterly, or yearly basis do not qualify as estimates of effort spent.

f. *Non-hospital professional activities.* A hospital must not alter or waive hospital-wide policies and practices dealing with the permissible extent of professional services over and above those traditionally performed without extra hospital compensation, unless such arrangements are specifically authorized by the sponsoring agency. Where hospital-wide policies do not adequately define the permissible extent of consultantships or other non-hospital activities undertaken for extra pay, the Government may require that the effort of professional staff working under research agreements be allocated as between (1) hospital activities, and (2) non-hospital professional activities. If the sponsoring agency should consider the extent of non-hospital professional effort excessive, appropriate arrangements governing compensation will be negotiated on a case by case basis.

g. *Salary rates for part-time appointments.* Charges for work performed on government research by staff members having only part-time appointments will be determined at a rate not in excess of that for which he is regularly paid for his part-time staff assignment.

8. *Contingency provisions.* Contributions to a contingency reserve or any similar provisions made for events the occurrence of which cannot be foretold with certainty as to time, intensity, or with an assurance of their happening, are unallowable.

9. *Depreciation and use allowances.* a. Hospitals may be compensated for the use of buildings, capital improvements and usable equipment on hand through depreciation or use allowances. Depreciation is a charge to current operations which distributes the cost of a tangible capital asset, less estimated residual value, over the estimated useful life of the asset in a systematic and logical manner. It does not involve a process of valuation. Useful life has reference to the prospective period of economic usefulness in the particular hospital's operations as distinguished from physical life. Use allowances are the means of allowing compensation when depreciation or other equivalent costs are not considered.

b. Due consideration will be given to government-furnished research facilities utilized by the institution when computing use allowances and/or depreciation if the government-furnished research facilities are material in amount. Computation of the use allowance and/or depreciation will exclude both the cost or any portion of the cost of grounds, buildings and equipment borne by or donated by the Federal Government, irrespective of where title was originally vested or where it presently resides, and secondly, the cost of grounds. Capital expenditures for land improvements (paved areas, fences, streets, sidewalks, utility conduits, and similar improvements not already included in the cost of buildings) are allowable provided the systematic amortization of such capital expenditures has been provided in the institution's books of accounts, based on reasonable determinations of the probable useful lives of the individual items involved, and the share allocated to organized research is developed

from the amount thus amortized for the base period involved.

c. Normal depreciation on a hospital's plant, equipment, and other capital facilities, except as excluded by (d) below, is an allowable element of research cost provided that the amount thereof is computed:

1. Upon the property cost basis used by the hospital for Federal Income Tax purposes (See section 167 of the Internal Revenue Code of 1954); or

2. In the case of non-profit or tax exempt organizations, upon a property cost basis which could have been used by the hospital for Federal Income Tax purposes, had such hospital been subject to the payment of income tax; and in either case

3. By the consistent application to the assets concerned of any generally accepted accounting method, and subject to the limitations of the Internal Revenue Code of 1954 as amended, including—

i. The straight line method;

ii. The declining balance method, using a rate not exceeding twice the rate which would have been used had the annual allowance been computed under the method described in (i) above;

iii. The sum of the years-digits method; and

iv. Any other consistent method productive of an annual allowance which, when added to all allowances for the period commencing with the use of the property and including the current year, does not during the first two-thirds of the useful life of the property exceed the total of such allowances which would have been used had such allowances been computed under the method described in (ii) above.

d. Where the depreciation method is followed, adequate property records must be maintained. The period of useful service (service life) established in each case for usable capital assets must be determined on a realistic basis which takes into consideration such factors as type of construction, nature of the equipment used, technological developments in the particular research area, and the renewal and replacement policies followed for the individual items or classes of assets involved. Where the depreciation method is introduced for application to assets acquired in prior years, the annual charges therefrom must not exceed the amounts that would have resulted had the depreciation method been in effect from the date of acquisition of such assets.

e. Depreciation on idle or excess facilities shall not be allowed except on such facilities as are reasonably necessary for standby purposes.

f. Where an institution elects to go on a depreciation basis for a particular class of assets, no depreciation, rental or use charge may be allowed on any such assets that would be viewed as fully depreciated; provided, however, that reasonable use charges may be negotiated for any such assets if warranted after taking into consideration the cost of the facility or item involved, the estimated useful life remaining at time of negotiation, the actual replacement policy followed in the light of service lives used for calculating depreciation, the effect of any increased maintenance charges or decreased efficiency due to age, and any other factors pertinent to the utilization of the facility or item for the purpose contemplated.

g. Hospitals which choose a depreciation allowance for assets purchased prior to 1966 based on a percentage of operating costs in lieu of normal depreciation for purposes of reimbursement under Public Law 89–97 (Medicare) shall utilize that method for determining depreciation applicable to organized research.

The operating costs to be used are the lower of the hospital's 1965 operating costs or the hospital's current year's allowable costs. The percent to be applied is 5 percent starting with the year 1966–67, with such percentage being uniformity reduced by one-half percent each succeeding year. The allowance based on operating costs is in addition to regular depreciation on assets acquired after 1965. However, the combined amount of such allowance on pre-1966 assets and the allowance for actual depreciation on assets acquired after 1965 may not exceed 6 percent of the hospital's allowable cost for the current year. After total depreciation has been computed, allocation methods are used to determine the share attributable to organized research.

For purposes of this section, "Operating Costs" means the total costs incurred by the hospital in operating the institution, and includes patient care, research, and other activities. "Allowable Costs" means operating costs less unallowable costs as defined in these principles; by the application of allocation methods to the total amount of such allowable costs, the share attributable to Federally-sponsored research is determined.

A hospital which elects to use this procedure under Public Law 89–97 and subsequently changes to an actual depreciation basis on pre-1966 assets in accordance with the option afforded under the Medicare program shall simultaneously change to an actual depreciation basis for organized research.

Where the hospital desires to change to actual depreciation but either has no historical cost records or has incomplete records, the determination of historical cost could be made through appropriate means involving expert consultation with the determination being subject to review and approval by the Department of Health, Education, and Welfare.

h. Where the use allowance method is followed, the use allowance for buildings and improvements will be computed at an annual rate not exceeding two percent of acquisition cost. The use allowance for equipment will be computed at an annual rate not exceeding six and two-thirds percent of acquisition cost of usable equipment in those cases where the institution maintains current records with respect to such equipment on hand. Where the institution's records reflect only the cost (actual or estimated) of the original complement of equipment, the use allowance will be computed at an annual rate not exceeding ten percent of such cost. Original complement for this purpose means the complement of equipment initially placed in buildings to perform the functions currently being performed in such buildings; however, where a permanent change in the function of a building takes place, a redetermination of the original complement of equipment may be made at that time to establish a new original complement. In those cases where no equipment records are maintained, the institution will justify a reasonable estimate of the acquisition cost of usable equipment which may be used to compute the use allowance at an annual rate not exceeding six and two-thirds percent of such estimate.

i. Depreciation and/or use charges should usually be allocated to research and other activities as an indirect cost.

10. *Employee morale, health, and welfare costs and credits.* The costs of house publications, health or first-aid benefits, recreational activities, employees' counseling services, and other expenses incurred in accordance wtih the hospital's established practice or custom for the improvement of working conditions, employer-employee relations, employee morale, and employee performance, are allowable. Such costs will be equitably apportioned to all activities of the hospital. Income generated from any of these activities will be credited to the cost thereof unless such income has been irrevocably set over to employee welfare organizations.

11. *Entertainment costs.* Except as pertains to 10 above, costs incurred for amusement, social activities, entertainment, and any items relating thereto, such as meals, lodging, rentals, transportation, and gratuities are unallowable.

12. *Equipment and other facilities.* The cost of equipment or other facilities are allowable on a direct charge basis where such purchases are approved by the sponsoring agency concerned or provided for by the terms of the research agreement.

13. *Fines and penalties.* Costs resulting from violations of, or failure of the institution to comply with federal, state and local laws and regulations are unallowable except when incurred as a result of compliance with specific provisions of the research agreement, or instructions in writing from the awarding agency.

14. *Insurance and indemnification.* a. Costs of insurance required or approved and maintained pursuant to the research agreement are allowable.

b. Costs of other insurance maintained by the hospital in connection with the general conduct of its activities are allowable subject to the following limitations: (1) types and extent and cost of coverage must be in accordance with sound institutional practice; (2) costs of insurance or of any contributions to any reserve covering the risk of loss of or damage to government owned property are unallowable except to the extent that the Government has specifically required or approved such costs; and (3) costs of insurance on the lives of officers or trustees are unallowable except where such insurance is part of an employee plan which is not unduly restricted.

c. Contributions to a reserve for an approved self-insurance program are allowable to the extent that the types of coverage, extent of coverage, and the rates and premiums would have been allowed had insurance been purchased to cover the risks. Such contributions are subject to prior approval of the Government.

d. Actual losses which could have been covered by permissible insurance (through an approved self-insurance program or otherwise) are unallowable unless expressly provided for in the research agreement, except that costs incurred because of losses not covered under nominal deductible insurance coverage provided in keeping with sound management practice as well as minor losses not covered by insurance such as spoilage, breakage and disappearance of small hand tools which occur in the ordinary course of operations are allowable.

15. *Interest, fund raising and investment management costs.* a. Costs incurred for interest on borrowed capital or temporary use of endowment funds, however represented, are unallowable.

b. Costs of organized fund raising, including financial campaigns, endowment drives, solicitation of gifts and bequests, and similar expenses incurred solely to raise capital or obtain contributions are not allowable.

c. Costs of investment counsel and staff and similar expenses incurred solely to enhance income from investments are not allowable.

d. Costs related to the physical custody and control of monies and securities are allowable.

16. *Labor relations costs.* Costs incurred in maintaining satisfactory relations between the hospital and its employees, including costs of labor management committees, employees' publications, and other related activities are allowable.

17. *Losses on research agreements or contracts.* Any excess of costs over income under any agreement or contract of any nature is unallowable. This includes, but is not limited to, the hospital's contributed portion by reason of cost-sharing agreements, under-recoveries through negotiation of flat amounts for overhead, or legal or administrative limitations.

18. *Maintenance and repair costs.* a. Costs necessary for the upkeep of property (including government property unless otherwise provided for), which neither add to the permanent value of the property nor appreciably prolong its intended life, but keep it in an efficient operating condition, are to be treated as follows:

1. Normal maintenance and repair costs are allowable;

2. Extraordinary maintenance and repair costs are allowable, provided they are allocated to the periods to which applicable for purposes of determining research costs.

b. Expenditures for plant and equipment, including rehabilitation thereof, which according to generally accepted accounting principles as applied under the hospital's established policy, should be capitalized and subjected to depreciation, are allowable only on a depreciation basis.

19. *Material costs.* Costs incurred for purchased materials, supplies and fabricated parts directly or indirectly related to the research agreement, are allowable. Purchases made specifically for the research agreement should be charged thereto at their actual prices after deducting all cash discounts, trade discounts, rebates, and allowances received by the institution. Withdrawals from general stores or stockrooms should be charged at their cost under any recognized method of pricing stores withdrawals conforming to sound accounting practices consistently followed by the hospital. Incoming transportation charges are a proper part of material cost. Direct material cost should include only the materials and supplies actually used for the performance of the research agreement, and due credit should be given for any excess materials retained or returned to vendors. Due credit should be given for all proceeds or value received for any scrap resulting from work under the research agreement. Where government donated or furnished material is used in performing the research agreement, such material will be used without charge.

20. *Memberships, subscriptions and professional activity costs.* a. Costs of the hospital's membership in civic, business, technical and professional organizations are allowable.

b. Costs of the hospital's subscriptions to civic, business, professional and technical periodicals are allowable.

c. Costs of meetings and conferences, when the primary purpose is the dissemination of technical information, are allowable. This includes costs of meals, transportation, rental of facilities, and other items incidental to such meetings or conferences.

21. *Organization costs.* Expenditures such as incorporation fees, attorneys' fees, accountants' fees, brokers' fees, fees to promoters and organizers in connection with (a) organization or reorganization of a hospital, or (b) raising capital, are unallowable.

22. *Other business expenses.* Included in this item are such recurring expenses as registry and transfer charges resulting from changes in ownership of securities issued by the hospital, cost of shareholders meetings preparation and publication of reports to shareholders, preparation and submission of required reports and forms to taxing and other regulatory bodies, and incidental costs of directors and committee meetings. The above and similar costs are allowable when allocated on an equitable basis.

23. *Patient care.* The cost of routine and ancillary or special services to research patients is an allowable direct cost of research agreements.

a. Routine services shall include the costs of the regular room, dietary and nursing services, minor medical and surgical supplies and the use of equipment and facilities for which a separate charge is not customarily made.

b. Ancillary or special services are the services for which charges are customarily made in addition to routine services, such as operating rooms, anesthesia, laboratory, BMR-EKG, etc.

c. Patient care, whether expressed as a rate or an amount, shall be computed in a manner consistent with the procedures used to determine reimbursable costs under Public Law 89–97 (Medicare Program) as defined under the "Principles Of Reimbursement For Provider Costs" published by the Social Security Administration of the Department of Health, Education, and Welfare. The allowability of specific categories of cost shall be in accordance with those principles rather than the principles for research contained herein. In the absence of participation in the Medicare program by a hospital, all references to the Medicare program in these principles shall be construed as meaning the Medicaid program.

i. Once costs have been recognized as allowable, the indirect costs or general service center's cost shall be allocated (stepped-down) to special service centers, and all patient and nonpatient costs centers based upon actual services received or benefiting these centers.

ii. After allocation, routine and ancillary costs shall be apportioned to scatter-bed research patients on the same basis as is used to apportion costs to Medicare patients, i.e. using either the departmental method or the combination method, as those methods are defined by the Social Security Administration; except that final settlement shall be on a grant-by-grant basis. However, to the extent that the Social Security Administration has recognized any other method of cost apportionment, that method generally shall also be recognized as applicable to the determination of research patient care costs.

iii. A cost center must be established on Medicare reimbursement forms for each discrete-bed unit grant award received by a hospital. Routine costs should be stepped-down to this line item(s) in the normal course of stepping-down costs under Medicare/Medicaid requirements. However, in stepping-down routine costs, consideration must be given to preventing a step-down of those costs to discrete-bed unit line items that have already been paid for directly by the grant, such as bedside nursing costs. Ancillary costs allocable to research discrete-bed units shall be determined and proposed in accordance with Section 23.c.ii.

d. Where federally sponsored research programs provide specifically for the direct reimbursement of nursing, dietary, and other services, appropriate adjustment must be made to patient care costs to preclude duplication and/or misallocation of costs.

24. *Patent costs.* Costs of preparing disclosures, reports and other documents required by the research agreement and of searching the art to the extent necessary to make such invention disclosures are allowable. In accordance with the clauses of the research agreement relating to patents, costs of preparing documents and any other patent costs, in connection with the filing of a patent application where title is conveyed to the Government, are allowable. (See also para. IX–B.36.)

25. *Pension plan costs.* Costs of the hospital's pension plan which are incurred in accordance with the established policies of the institution are allowable, provided such policies meet the test of reasonableness and the methods of cost allocation are not discriminatory, and provided appropriate adjustments are made for credits or gains arising out of normal and abnormal employee turnover or any other contingencies that can result in forfeitures by employees which inure to the benefit of the hospital.

26. *Plan security costs.* Necessary expenses incurred to comply with government security

requirements including wages, uniforms and equipment of personnel engaged in plant protection are allowable.

27. *Preresearch agreement costs.* Costs incurred prior to the effective date of the research agreement, whether or not they would have been allowable thereunder if incurred after such date, are unallowable unless specifically set forth and identified in the research agreement.

28. *Professional services costs.* a. Costs of professional services rendered by the members of a particular profession who are not employees of the hospital are allowable subject to (b) and (c) below when reasonable in relation to the services rendered and when not contingent upon recovery of the costs from the Government. Retainer fees to be allowable must be reasonably supported by evidence of services rendered.

b. Factors to be considered in determining the allowability of costs in a particular case include (1) the past pattern of such costs, particularly in the years prior to the award of government research agreements on the institution's total activity; (2) the nature and scope of managerial services expected of the institution's own organizations; and (3) whether the proportion of government work to the hospital's total activity is such as to influence the institution in favor of incurring the cost, particularly where the services rendered are not of a continuing nature and have little relationship to work under government research agreements.

c. Costs of legal, accounting and consulting services, and related costs incurred in connection with organization and reorganization or the prosecution of claims against the Government are unallowable. Costs of legal, accounting and consulting services, and related costs incurred in connection with patent infringement litigation are unallowable unless otherwise provided for in the research agreement.

29. *Profits and losses on disposition of plant equipment, or other assets.* Profits or losses of any nature arising from the sale or exchange of plant, equipment, or other capital assets, including sales or exchange of either short- or long-term investments, shall be excluded in computing research agreement costs.

30. *Proposal costs.* Proposal costs are the costs of preparing bids or proposals on potential government and non-government research agreements or projects, including the development of technical data and cost data necessary to support the institution's bids or proposals. Proposal costs of the current accounting period of both successful and unsuccessful bids and proposals normally should be treated as indirect costs and allocated currently to all activities of the institution, and no proposal costs of past accounting periods will be allocable in the current period to the government research agreement. However, the institution's established practices may be to treat proposal costs by some other recognized method. Regardless of the methods used, the results obtained may be accepted only if found to be reasonable and equitable.

31. *Public information services costs.* Costs of news releases pertaining to specific research or scientific accomplishment are unallowable unless specifically authorized by the sponsoring agency.

32. *Rearrangement and alteration costs.* Costs incurred for ordinary or normal rearrangement and alteration of facilities are allowable. Special rearrangement and alteration costs incurred specifically for a project are allowable only as a direct charge when such work has been approved in advance by the sponsoring agency concerned.

33. *Reconversion costs.* Costs incurred in the restoration or rehabilitation of the institution's facilities to approximately the same condition existing immediately prior to commencement of government research agreement work, fair wear and tear excepted, are allowable.

34. *Recruiting costs.* a. Subject to (b), (c), and (d) below, and provided that the size of the staff recruited and maintained is in keeping with workload requirements, costs of "help wanted" advertising, operating costs of an employment office necessary to secure and maintain an adequate staff, costs of operating an aptitude and educational testing program, travel costs of employees while engaged in recruiting personnel, travel costs of applicants for interviews for prospective employment, and relocation costs incurred incident to recruitment of new employees are allowable to the extent that such costs are incurred pursuant to a well managed recruitment program. Where an institution uses employment agencies, costs not in excess of standard commercial rates for such services are allowable.

b. In publications, costs of help wanted advertising that includes color, includes advertising material for other than recruitment purposes, or is excessive in size (taking into consideration recruitment purposes for which intended and normal institutional practices in this respect) are unallowable.

c. Costs of help wanted advertising, special emoluments; fringe benefits, and salary allowances incurred to attract professional personnel from other institutions that do not meet the test of reasonableness or do not conform with the established practices of the institution are unallowable.

d. Where relocation costs incurred incident to recruitment of a new employee have been allowed either as an allocable direct or indirect cost, and the newly hired employee resigns for reasons within his control within twelve months after hire, the institution will be required to refund or credit such relocations costs as were charged to the Government.

35. *Rental costs (including sale and lease-back of facilities).* a. Rental costs of land, building, and equipment and other personal property are allowable if the rates are reasonable in light of such factors as rental costs of comparable facilities and market conditions in the area, the type, life expectancy, condition, and value of the facilities leased, options available, and other provisions of the rental agreement. Application of these factors, in situations where rentals are extensively used, may involve among other considerations comparison of rental costs with the amount which the hospital would have received had it owned the facilities.

b. Charges in the nature of rent between organizations having a legal or other affiliation or arrangement such as hospitals, medical schools, foundations, etc., are allowable to the extent such charges do not exceed the normal costs of ownership such as depreciation, taxes, insurance, and maintenance, provided that no part of such costs shall duplicate any other allowed costs.

c. Unless otherwise specifically provided in the agreement, rental costs specified in sale and lease-back agreements incurred by hospitals through selling plant facilities to investment organizations such as insurance companies or to private investors, and concurrently leasing back the same facilities are allowable only to the extent that such rentals do not exceed the amount which the hospital would have received had it retained legal title to the facilities.

36. *Royalties and other costs for use of patents.* Royalties on a patent or amortization of the cost of acquiring a patent or invention or rights thereto necessary for the proper performance of the research agreement and applicable to tasks or processes thereunder are allowable unless the Government has a license or the right to free use of the patent, the patent has been adjudicated to be invalid, or has been administratively determined to be invalid, the patent is considered to be unenforceable, or the patent has expired.

37. *Severance pay.* a. Severance pay is compensation in addition to regular salaries and wages which is paid by a hospital to employees whose services are being terminated. Costs of severance pay are allowable only to the extent that such payments are required by law, by employer-employee agreement, by established policy that constitutes in effect an implied agreement on the institution's part, or by circumstances of the particular employment.

b. Severance payments that are due to normal, recurring turnover, and which otherwise meet the conditions of (a) above may be allowed provided the actual costs of such severance payments are regarded as expenses applicable to the current fiscal year and are equitably distributed among the institution's activities during that period.

c. Severance payments that are due to abnormal or mass terminations are of such conjectural nature that allowability must be determined on a case-by-case basis. However, the Government recognizes its obligation to participate to the extent of its fair share in any specific payment.

38. *Specialized service facilities operated by a hospital.* a. The costs of institutional services involving the use of highly complex and specialized facilities such as electronic computers and reactors are allowable provided the charges therefor meet the conditions of (b) or (c) below, and otherwise take into account any items of income or federal financing that qualify as applicable credits under para. III–E.

b. The costs of such hospital services normally will be charged directly to applicable research agreements based on actual usage or occupancy of the facilities at rates that (1) are designed to recover only actual costs of providing such services, and (2) are applied on a nondiscriminatory basis as between organized research and other

work of the hospital including commercial or accommodation sales and usage by the hospital for internal purposes. This would include use of such facilities as radiology, laboratories, maintenance men used for a special purpose, medical art, photography, etc.

c. In the absence of an acceptable arrangement for direct costing as provided in (b) above, the costs incurred for such institutional services may be assigned to research agreements as indirect costs, provided the methods used achieve substantially the same results. Such arrangements should be worked out in coordination with all government users of the facilities in order to assure equitable distribution of the indirect costs.

39. *Special administrative costs.* Costs incurred for general public relations activities, catalogs, alumni activities, and similar services are unallowable.

40. *Staff and/or employee benefits.* a. Staff and/or employee benefits in the form of regular compensation paid to employees during periods of authorized absences from the job such as for annual leave, sick leave, military leave and the like are allowable provided such costs are absorbed by all hospital activities including organized research in proportion to the relative amount of time or effort actually devoted to each.

b. Staff benefits in the form of employer contributions or expenses for Social Security taxes, employee insurance, Workmen's Compensation insurance, the Pension Plan (see para. IX–B.25), hospital costs or remission of hospital charges to the extent of costs for individual employees or their families, and the like are allowable provided such benefits are granted in accordance with established hospital policies, and provided such contributions and other expenses whether treated as indirect costs or an increment of direct labor costs are distributed to particular research agreements and other activities in a manner consistent with the pattern of benefits accruing to the individuals or groups of employees whose salaries and wages are chargeable to such research agreements and other activities.

41. *Taxes.* a. In general, taxes which the hospital is required to pay and which are paid or accrued in accordance with generally accepted accounting principles, and payments made to local governments in lieu of taxes which are commensurate with the local government services received are allowable except for (1) taxes from which exemptions are available to the hospital directly or which are available to the hospital based on an exemption afforded the Government and in the latter case when the sponsoring agency makes available the necessary exemption certificates, (2) special assessments on land which represent capital improvements, and (3) Federal Income Taxes.

b. Any refund of taxes, interest, or penalties, and any payment to the hospital of interest thereon attributable to taxes, interest or penalties, which were allowed as research agreement costs will be credited or paid to the Government in the manner directed by the Government provided any interest actually paid or credited to a hospital incident to a refund of tax, interest, and penalty will be paid or credited to the Government only to the extent that such interest accrued over the period during which the hospital had been reimbursed by the Government for the taxes, interest, and penalties.

42. *Transportation costs.* Costs incurred for inbound freight, express, cartage, postage and other transportation services relating either to goods purchased, in process, or delivered are allowable. When such costs can readily be identified with the items involved, they may be charged directly as transportation costs or added to the cost of such items. Where identification with the material received cannot readily be made, inbound transportation costs may be charged to the appropriate indirect cost accounts if the institution follows a consistent equitable procedure in this respect. Outbound freight, if reimbursable under the terms of the research agreement, should be treated as a direct cost.

43. *Travel costs.* a. Travel costs are the expenses for transportation, lodging, subsistence, and related items incurred by employees who are in travel status on official business of the hospital. Such costs may be charged on an actual basis, on a per diem or mileage basis in lieu of actual costs incurred, or on a combination of the two provided the method used is applied to an entire trip and not to selected days of the trip, and results in charges consistent with those normally allowed by the institution in its regular operations.

b. Travel costs are allowable subject to (c) and (d) below when they are directly attributable to specific work under a research agreement or when they are incurred in the normal course of administration of the hospital or a department or research program thereof.

c. The difference in cost between first class air accommodations and less than first class air accommodations is unallowable except when less than first class air accommodations are not reasonably available to meet necessary mission requirements such as where less than first class accommodations would (1) require circuitous routing, (2) require travel during unreasonable hours, (3) greatly increase the duration of the flight, (4) result in additional costs which would offset the transportation savings, or (5) offer accommodations which are not reasonably adequate for the medical needs of the traveler.

d. Costs of personnel movements of a special or mass nature are allowable only when authorized or approved in writing by the sponsoring agency or its authorized representative.

44. *Termination costs applicable to contracts.* a. Contract terminations generally give rise to the incurrence of costs or to the need for special treatment of costs which would not have arisen had the contract not been terminated. Items peculiar to termination are set forth below. They are to be used in conjunction with all other provisions of these principles in the case of contract termination.

b. The cost of common items of material reasonably usable on the hospital's other work will not be allowable unless the hospital submits evidence that it could not retain such items at cost without sustaining a loss. In deciding whether such items are reasonably usable on other work of the institution, consideration should be given to the hospital's plans for current scheduled work or activities including other research agreements. Contemporaneous purchases of common items by the hospital will be regarded as evidence that such items are reasonably usable on the hospital's other work. Any acceptance of common items as allowable to the terminated portion of the contract should be limited to the extent that the quantities of such items on hand, in transit, and on order are in excess of the reasonable quantitative requirement of other work.

c. If in a particular case, despite all reasonable efforts by the hospital, certain costs cannot be discontinued immediately after the effective date of termination, such costs are generally allowable within the limitations set forth in these principles, except that any such costs continuing after termination due to the negligent or willful failure of the hospital to discontinue such costs will be considered unacceptable.

d. Loss of useful value of special tooling and special machinery and equipment is generally allowable, provided (1) such special tooling, machinery or equipment is not reasonably capable of use in the other work of the hospital; (2) the interest of the Government is protected by transfer of title or by other means deemed appropriate by the contracting officer; and (3) the loss of useful value as to any one terminated contract is limited to that portion of the acquisition cost which bears the same ratio to the total acquisition cost as the terminated portion of the contract bears to the entire terminated contract and other government contracts for which the special tooling, special machinery or equipment was acquired.

e. Rental costs under unexpired leases are generally allowable where clearly shown to have been reasonably necessary for the performance of the terminated contract, less the residual value of such leases, if (1) the amount of such rental claimed does not exceed the reasonable use value of the property leased for the period of the contract and such further period as may be reasonable; and (2) the hospital makes all reasonable efforts to terminate, assign, settle, or otherwise reduce the cost of such lease. There also may be included the cost of alterations of such leased property, provided such alterations were necessary for the performance of the contract and of reasonable restoration required by the provisions of the lease.

f. Settlement expenses including the following are generally allowable: (1) accounting, legal, clerical, and similar costs reasonably necessary for the preparation and presentation to contracting officers of settlement claims and supporting data with respect to the terminated portion of the contract and the termination and settlement of subcontracts; and (2) reasonable costs for the storage, transportation, protection, and disposition of property provided by the Government or acquired or produced by the institution for the contract.

g. Subcontractor claims including the allocable portion of claims which are

common to the contract and to other work of the contractor are generally allowable.

45. *Voluntary services.* The value of voluntary services provided by sisters or other members of religious orders is allowable provided that amounts do not exceed that paid other employees for similar work. Such amounts must be identifiable in the records of the hospital as a legal obligation of the hospital. This may be reflected by an agreement between the religious order and the hospital supported by evidence of payments to the order.

Appendix F—Principles for Determining Costs Applicable to Grants and Contracts With Nonprofit Institutions

A. Purpose and Scope

1. *Objectives.* This Appendix provides principles for determining the costs applicable to grants and contracts awarded by the Department of Health, Education, and Welfare and performed by nonprofit organizations other than educational institutions, hospitals and State and local Government organizations. These principles are confined to the subject of cost determination and make no attempt to identify the circumstances or dictate the extent of agency and institutional participation in the financing of a particular project. The principles are designed to provide recognition of the full allocated costs of work under generally accepted accounting principles. No provision for profit or other increment above cost is provided for in these principles.

2. *Definition of Nonprofit Institution.* (a) A nonprofit institution for purposes of this document is any corporation, foundation, trust, association, cooperative or other organization other than (i) educational institutions, (ii) hospitals and (iii) State and local Governmental agencies, bureaus or departments, which is operated primarily for scientific, educational, service, charitable, or similar purposes in the public interest, which is not organized primarily for profit and which uses all income exceeding costs to maintain, improve and/or expand its operations.

The charter or other legally binding authority for the existence of the institution must provide that no part of the net earnings, properties or other assets of the institution, on dissolution or otherwise, shall inure to the benefits of any private person or individual including any member, employee, officer, director or trustee of the institution, and that, on liquidation or dissolution all properties and assets remaining after providing for all debts and obligations shall be distributed and paid over to such other fund, foundation or other organization formed and operated as a nonprofit institution, as defined herein, as the board of directors or trustees may determine. Institutions which have received tax exemptions as nonprofit institutions from the U.S. Internal Revenue Service shall be considered to have met the criteria of this definition.

(b) For purposes of this document, the terms nonprofit and not-for-profit as they are descriptively applied to institutions shall be considered synonymous provided the requirements of 2(a) are met.

3. *Policy guides.* The successful application of these principles requires development of mutual understanding between representatives of nonprofit institutions and of the Federal Government as to their scope, applicability, and interpretation. It is recognized that the arrangements for agency and institutional participation in the financing of a project are properly subject to negotiation between the agency and the institution concerned in accordance with such governmentwide criteria as may be applicable, that each institution should be expected to employ sound management practice in the fulfillment of its obligation, and that each grantee or contractor organization in recognition of its own unique combination of staff, facilities and experience should be responsible for employing whatever form of organization and management techniques as may be necessary to assure proper efficient administration.

4. *Application.* These principles shall be applied in determining cost incurred in the performance of all grants and cost-reimbursement type contracts awarded by the Department of Health, Education, and Welfare. The principles shall also apply to cost-reimbursement type contracts performed under DHEW grants and cost-reimbursement type subcontracts and shall be used as a guide in the pricing of fixed price contracts and subcontracts. The principles do not apply to construction grants or contracts.

B. Basic Considerations

1. *Composition of total cost.* The total cost of a contract or grant is the sum of the allowable direct and indirect costs allocable to the grant/contract less any applicable credits. In ascertaining what constitutes costs, any generally accepted accounting method of determining or estimating costs that is equitable under the circumstances may be used.

2. *Factors affecting allowability of costs.* Factors to be considered in determining the allowability of individual items of cost include (a) reasonableness, (b) allocability, (c) application of those generally accepted accounting principles and practices appropriate to the particular circumstances, and (d) any limitations or exclusions set forth in this document or otherwise included in the grant/contract as to types or amounts of cost items.

3. *Definition of reasonableness.* A cost is reasonable if, in its nature or amount, it does not exceed that which would be incurred by an ordinarily prudent person in the conduct of competitive business. The question of the reasonableness of specific costs must be scrutinized with particular care in connection with institutions or separate divisions thereof which may not be subject to effective competitive restraints. What is reasonable depends upon a variety of considerations and circumstances involving both the nature and amount of the cost in question. In determining the reasonableness of a given cost, consideration shall be given to:

(a) Whether the cost is of a type generally recognized as ordinary and necessary for the operation of the institution or the performance of the grant/contract.

(b) The restraints or requirements imposed by such factors as generally accepted sound business practices, arms length bargaining, Federal and State laws and regulations, and grant/contract terms and specifications;

(c) The action that a prudent businessman would take in the circumstances, considering his responsibilities to the public at large, the Government, his employees, his clients, shareholders or members and the fulfillment of the purposes for which the institution was organized; and

(d) Significant deviations from the established practices of the institution which may unjustifiably increase the grant/contract costs.

4. *Definition of allocability.* A cost is allocable if it is assignable or chargeable to a particular cost objective, such as a grant/contract, project, product, service, process, or other major activity, in accordance with the relative benefits received or other equitable relationship. Subject to the foregoing, a cost is allocable to a Government grant/contract if it:

(a) Is incurred specifically for the grant/contract;

(b) Benefits both the grant/contract and other work and can be distributed to them in reasonable proportion to the benefits received; or

(c) Is necessary to the overall operation of the institution, although a direct relationship to any particular cost objective cannot be shown.

Where an organization utilizes the Standards of Accounting and Financial Reporting for Voluntary Health and Welfare Organizations (or comparable generally accepted accounting standards peculiar to its particular organizational structure or activity) to allocate costs to non-HEW supported activities it must also use such standards to allocate costs to HEW grants/contracts.

5. *Applicable credits.* The term applicable credits refers to those receipt or negative expenditure types of transactions which operate to offset or reduce expense items that are allocable to grants or contracts as direct or indirect costs. Typical examples of such transactions are: purchase discounts, rebates or allowances; recoveries or indemnities on losses; sales of scrap or incidental services; and adjustments of overpayments or erroneous charges. The applicable portion of any income, rebate, allowance, and other credit relating to any allowable cost, received by or accruing to the grantee/contractor shall be credited to the Government either as a cost reduction or by cash refund, as appropriate.

C. Direct Costs

1. A direct cost is any cost which can be identified specifically with a particular cost objective. Direct costs are not limited to items which are incorporated in the end product as material or labor. Costs identified specifically with the grant/contract are direct costs of the grant/contract and may be charged directly thereto. Costs identified specifically with other work of the institution are direct costs of that work and are not to be charged to the grant/contract either directly or indirectly. Items charged as direct cost to Government-supported projects must be

charged in a uniform manner to all other work of the institution in order to preclude an overcharge to the Government as a result of the Government's participation in the indirect cost pool. Conversely, where the institution's established accounting system provides for the treatment of certain items of cost as direct costs of the institution, then the same items must be considered direct costs to Government-supported projects and may not be included in the indirect cost pool.

2. Certain types of cost, or costs associated with certain activities are not reimbursable as a charge to a DHEW grant/contract. These unallowable costs or activities are identified in section G. Even though a particular activity or cost is designated as unallowable for purposes of computing costs charged to Government work, it nonetheless must be treated as a direct cost or activity if a portion of the institution's indirect cost (as defined in section D) is properly allocable to it. The amount of indirect cost allocated must be in accordance with the principles set forth in section D–2. In general, an unallowable institutional activity shall be treated as a direct function when it (1) includes salaries of personnel, (2) occupies space, and (3) is serviced by an indirect cost grouping(s). Thus the costs associated with the following types of activities when normal or necessary to an institution's primary mission shall be treated as direct costs:

(a) Maintenance of membership rolls, subscriptions, publications and related functions.

(b) Providing services and information to members, legislative or administrative bodies or the public.

(c) Promotion, lobbying, and other forms of public relations.

(d) Meetings and conferences except those held to conduct the general administration of the institution.

(e) Fund raising.

(f) Maintenance, protection, and investment of special funds not used in operation of institutions.

(g) Administration of group benefits on behalf of members or clients including life and hospital insurance, annuity or retirement plans, financial aid, etc.

(h) Other activities performed primarily as a service to a membership, clients, or the public.

3. This definition shall be applied to all items of cost of significant amount unless the institution demonstrates that the application of any different current practice achieves substantially the same results. Direct cost items of minor amount may be distributed as indirect costs as provided in section D.

D. Indirect Costs

1. An indirect cost is one which, because of its incurrence for common or joint objectives, is not readily subject to treatment as a direct cost. Minor direct cost items may be considered to be indirect costs for reasons of practicality. After direct costs have been determined and charged directly to the grant/contract or other work as appropriate, indirect costs are those remaining to be allocated to the several classes of work. The overall objective of the allocation process is to distribute the indirect costs of the institution to its various major activities or cost objectives in reasonable proportions with the benefits provided to those activities or cost objective. Because of the diverse natures and purposes of organizations falling within the definition of a non-profit organization, it is impractical to specifically identify those functions which constitute major activities for purposes of identifying and distributing indirect costs. Such identification will be dependent upon an institution's purpose-in-being, the services it renders to the public, its clients and/or members, the amount of effort devoted to fund raising activities, public relations, and membership activities, etc. (See section C–2.)

2. Indirect costs shall be accumulated by logical cost groupings with due consideration of the reasons for incurring the costs. Each grouping should be determined so as to permit distribution of the grouping on the basis of the benefits accruing to the several cost objectives. Sub-grouping may be required where there is no single equitable distribution base for all the elements of cost comprising a group. Actual conditions must be taken into account in selecting the method or base to be used in distributing the expenses assembled under each of the individual cost groupings established to applicable cost objectives. Where a distribution can be made by assignment of a cost grouping directly to the area benefited, the distribution should be made in that manner. Where the expenses under a cost grouping are more general in nature, the distribution to the cost objectives should be made through use of a selected base which will produce results which are equitable to both the Government and the institution. In general, any cost element or cost-related factor associated with the institution's work is potentially adaptable for use as a distribution base provided (1) it can readily be expressed in terms of dollars or other quantitative measure (total direct expenditures, direct salaries, manhours applied, square feet utilized, hours of usage, number of documents processed, population served, and the like); and (2) it is common to the cost objectives during the base period. The essential consideration in selection of the distribution base in each instance is that it be the one best suited for assigning the pool of costs to the cost objectives in accord with the relative benefits derived; the traceable cause and effect relationship; or logic and reason, where neither benefit nor cause and effect relationship is determinable.

3. The number and composition of the groupings should be governed by practical considerations and should be such as not to complicate unduly the allocation where substantially the same results are achieved through less precise methods.

4. A base period for distribution of indirect costs is the period during which such costs are incurred and accumulated for distribution to work performed within that period. The base period normally should coincide with the fiscal year established by the institution, but in any event the base period should be so selected as to avoid inequities in the distribution of costs.

E. Determination and Application of Indirect Cost Rate or Rates

1. *Indirect cost pools.* (a) Subject to (b) below, indirect costs allocable to an institution's direct functions should be treated as a common pool, and the costs in such common pool should then be distributed to the individual projects benefiting therefrom by use of a single rate.

(b) In some instances a single rate for use across the board on all activities at an institution may not be appropriate, since it would not take into account those different environmental factors which may affect substantially the indirect costs applicable to a particular segment of work at the institution. For this purpose, a particular segment of work may be that performed under a single grant/contract or it may consist of work under a group of grants/contracts performed in a common environment. The environmental factors are not limited to the physical location of the work. Other important factors are the level of the administrative support required, the nature of the facilities or other resources employed, the scientific disciplines or technical skills involved, the organizational arrangements used, or any combination thereof. Where a particular segment of work is performed within an environment which appears to generate a significantly different level of indirect costs, provision should be made for a separate indirect cost pool applicable to such work. The separate indirect cost pool should be developed during the course of the regular distribution process, and the separate indirect cost rate resulting therefrom should be utilized provided it is determined that (1) such indirect cost rate differs significantly from that which would have been obtained under (a) above, and (2) the volume of work to which such rate would apply is material in relation to other activity at the institution.

2. *The distribution base.* Indirect costs should be distributed to each applicable project on the basis of direct salaries and wages, total direct costs or other basis which results in an equitable distribution. For this purpose, an indirect cost rate should be determined for each of the separate indirect cost pools developed pursuant to section E.1. The rate in each case should be stated as the percentage which the amount of the particular indirect cost pool is of the base selected.

F. Application of Principles and Procedures

1. Costs shall be allowed to the extent that they are reasonable (see B.3) allocable (see B.4) and determined to be allowable in view of the other factors set forth in paragraph B.2. and section G. These criteria apply to all of the selected items of cost which follow notwithstanding that particular guidance is provided in connection with certain specific items for emphasis or clarity.

2. Costs of all subcontracts under a grant or cost-reimbursement type contract are subject to those Federal cost regulations and policies appropriate to the subcontract involved. Thus if the subcontract is for supplies or services with a nonprofit institution other than an educational institution, hospital or State and local governmental unit this document would

apply; if the subcontract is for supplies or services with a commercial organization, Federal Procurement Regulation Part 1.15.2 would apply; if the subcontract is with an educational institution. Appendix D to this Part (Federal Procurement Regulation Part 1.15.3) would apply; if the subcontract is with a hospital, the Department of Health, Education, and Welfare's Cost Principles for Hospitals would apply (see Appendix E to this Part).

3. Selected items of cost are treated in Section G. However, section G does not cover every element of cost and every situation that might arise in a particular case. Failure to treat any item of cost in Section G is not intended to imply that it is either allowable or unallowable. With respect to all items, whether or not specifically covered, determination of allowability shall be based on the principles and standards set forth in this document and, where appropriate, the treatment of similar or related selected items.

G. General Standards for Selected Items of Cost

Sections G–1 through G–46 provide standards to be applied in establishing the allowability of certain items involved in determining costs. These standards should apply irrespective of whether a particular item of cost is properly treated as direct cost or indirect cost. Failure to mention a particular item of cost in the standards is not intended to imply that it is either allowable or unallowable; rather determination as to allowability in each case should be based on the treatment or standards provided for similar or related items of cost. In case of a discrepancy between the provisions of a specific grant/contract and the applicable standards provided, the provisions of the grant/contract shall govern. Under any given grant/contract the reasonableness and allocability of certain items of costs may be difficult to determine. This is particularly true in connection with nonprofit institutions which are so diverse in nature and not subject to effective competitive restraints. In order to avoid possible subsequent disallowance or dispute based on unreasonableness or nonallocability, it is important that institutions entering into grants or contracts with the Government seek agreement in advance of the incurrence of special or unusual costs in categories where reasonableness or allocability are difficult to determine. Such action may also be initiated by the Government. Examples of costs on which advance agreements may be particularly important are:

1. Compensation for personal services;
2. Consultant fees;
3. Deferred maintenance costs;
4. Excess facility costs;
5. Materiel, services, and supplies sold between organizations or divisions under common control;
6. Preaward costs;
7. Publication and public information costs;
8. Royalties;
9. Training and educational costs;
10. Travel costs, as related to special or mass personnel movement, and to the class of air-travel accommodations allowable;
11. Use charge for fully depreciated assets;
12. Depreciation or use charge on assets donated to the institution by third parties.

1. *Advertising costs.* (a) Advertising costs mean the costs of advertising media and corollary administrative costs. Advertising media include magazine, newspapers, radio, and television programs, direct mail, trade papers, outdoor advertising, dealer cards, and window displays, conventions, exhibits, free goods, and samples, and the like.

(b) The only advertising costs allowable are those which are solely for (1) the recruitment of personnel required for the performance by the institution of obligations arising under the grant/contract, when considered in conjunction with all other recruitment costs, as set forth in G.36; (2) the procurement of scarce items for the performance of the grant/contract or (3) the disposal of scrap or surplus materials acquired in the performance of the project. Costs of this nature, if incurred for more than one Government award or for both Government work and other work of the institution, are allowable to the extent that the principles in paragraphs B–3, B–4, and section D are observed.

2. *Bad debts.* Bad debts, including losses (whether actual or estimated) arising from uncollectible customers' accounts and other claims, related costs, and related legal costs, are unallowable.

3. *Bidding or proposal costs.* Bidding or proposal costs are the immediate costs of preparing bids or proposals on potential Government and non-Government contracts or projects or applications for financial assistance under Federal grant and contract programs, including development of scientific, engineering and cost data necessary to support the institution's bids, proposals or applications. Bidding costs of the current accounting period are allowable as part of the indirect cost pool. Costs of past accounting periods are unallowable. Bidding costs do not include any of those costs described in section G–16 and G–30.

4. *Bonding costs.* (a) Bonding costs arise when the Government requires assurance against financial loss to itself or others by reason of the act or default of the grantee/contractor. They arise also in instances where the grantee/contractor requires similar assurance. Included are such bonds as bid, performance, payment, advance payment, infringement, and fidelity bonds.

(b) Costs of bonding required pursuant to the terms of the grant/contract are allowable.

(c) Costs of bonding required by the grantee/contractor in the general conduct of its operations are allowable to the extent that such bonding is in accordance with sound business practice and the rates and premiums are reasonable under the circumstances.

5. *Civil defense costs.* (a) Civil defense costs are those incurred in planning for, and the protection of life and property against, the possible effects of enemy attack. Reasonable costs of civil defense measures (including costs in excess of normal plant protection costs, first-aid training and supplies, fire fighting training and equipment, posting of additional exit notices and directions, and other approved civil defense measures) undertaken on the institution's premises pursuant to suggestions or requirements of civil defense authorities are allowable when allocated to all work of the institution.

(b) Costs of capital assets under (a) above are allowable through depreciation or use charges in accordance with G–10.

(c) Contributions to local civil defense funds and projects are unallowable.

6. *Compensation for personal services—*(a) *Definition.* Compensation for personal services includes all remuneration paid currently or accrued in whatever form and whether paid immediately or deferred for services rendered by employees of the institution during the period of grant/contract performance. It includes, but is not limited to salary, wages, directors' and executive committee members' fees, bonuses, incentive awards, employee insurance, fringe benefits, and contributions to pension, annuity, and management employee incentive compensation plans.

(b) *Allowability.* Except as otherwise specifically provided in this subsection, the costs of compensation for personal services are to be treated as allowable to the extent that:

(1) Compensation is paid in accordance with policy, programs, and procedures that effectively relate individual compensation to the individual's contribution to the performance of grant or contract work, result in internally consistent treatment of employees in like situations, and effectively relate compensation paid within the organization to that paid for similar services outside the organization;

(2) Total compensation of individual employees is reasonable for the services rendered; and

(3) Costs are not in excess of those costs which are allowable by the Internal Revenue Code and regulations thereunder.

(c) *Reasonableness.* (1) When the institution is predominantly engaged in activities other than those sponsored by the Federal Government, compensation for employees on federally sponsored work will be considered reasonable to the extent that it is consistent with that paid for similar work in the institution's other activities;

(2) When the institution is predominantly engaged in federally sponsored activities, and in cases where the kind of employees required for the federally sponsored activities are not found in the institution's other activities, compensation for employees on federally sponsored work will be considered reasonable to the extent that it is comparable to that paid for similar work in the labor markets in which the institution competes for the kind of employees involved.

(d) *Review and approval of compensation of individual employees.* In determining the reasonableness of compensation, the compensation of each individual employee normally need not be subject to review and approval. Reviews and approvals of individuals need be made only in those cases in which a general review reveals amounts or types of compensation which appear unreasonable or otherwise out of line.

(e) *Special considerations in determining allowability.* Certain conditions require special consideration and possible limitation as to allowability for grant and contract cost purposes where amounts appear excessive. Among such conditions are the following:

(1) Compensation to share holders, members, trustees, directors, associates, officers or members of the immediate families thereof, or to persons who are contractually committed to acquire a substantial financial interest in the enterprise. Determination should be made that such compensation is reasonable for the actual personal services rendered rather than a distribution of earnings in excess of costs.

(2) Any change in an institution's compensation policy resulting in a substantial increase in the institution's level of compensation, particularly when it was concurrent with an increase in the ratio of Government awards to other business, or any change in the treatment of allowability of specific types of compensation due to changes in Government policy.

(3) The institution's activities are such that its compensation levels are not subject to the restraints normally occurring in the conduct of competitive business.

(f) Notwithstanding any other provisions of this subsection, costs of compensation are not allowable to the extent that they result from provisions of labor-management agreements that, as applied to work in the performance of Government grants or contracts are determined to be unreasonable either because they are unwarranted by the character and circumstances of the work or because they are discriminatory against the Government. The application of the provisions of a labor-management agreement designed to apply to a given set of circumstances and conditions of employment (for example, work involving extremely hazardous activities or work not requiring recurrent use of overtime) is unwarranted when applied to a Government grant or contract involving significantly different circumstances and conditions of employment, (for example, work involving less hazardous activities or work continually requiring use of overtime). It is discriminatory against the Government if its results in individual personnel compensation (in whatever form or name) in excess of that being paid for similar non-Government work under comparable circumstances. Disallowance of costs will not be made under this subparagraph unless:

(1) The institution has been permitted an opportunity to justify the costs; and

(2) Due consideration has been given to whether there are unusual conditions pertaining to the Government work which impose burdens, hardships, or hazards on the institution's employees, for which compensation that might otherwise appear unreasonable is required to attract and hold necessary personnel.

(g)(1) In addition to the general requirements set forth in (a) through (f) of this subsection, certain forms of compensation are subject to further requirements as specified in (2) through (9) below.

(2) *Salaries and wages.* Salaries and wages for current services include gross compensation paid to employees in the form of cash, products, or services, and are allowable. However, see G.25 as it relates to compensation for overtime.

(3) *Incentive compensation.* Incentive compensation to employees based on cost reduction, or efficient performance, suggestion awards, safety awards, etc. are allowable to the extent that the overall compensation is determined to be reasonable and such costs are paid or accrued pursuant to an agreement entered into in good faith between the institution and the employees before the services were rendered, or pursuant to an established plan followed by the institution to consistently as to imply, in effect, an agreement to make such payment. Awards, and incentive compensation when deferred are allowable to the extent provided in (4) below.

(4) *Deferred compensation.* (a) As used herein, deferred compensation includes all remuneration, in whatever form, for which the employee is not paid until after the lapse of a stated period of years or the occurrence of other events as provided in the plans, except that it does not include normal end of accounting period accruals for regular salaries and wages. It includes (i) contributions to pension and annuity plans, (ii) contributions to disability, withdrawal, insurance, survivorship, and similar benefit plans, and (iii) other deferred compensation.

(b) Deferred compensation is allowable to the extent that (i) except for past service pension and retirement costs, it is for services rendered during the grant/contract period; (ii) it is, together with all other compensation paid to the employee, reasonable in amount; (iii) it is paid pursuant to an agreement entered into in good faith between the institution and its employees before the services are rendered, or pursuant to an established plan followed by the institution so consistently as to imply, in effect, an agreement to make such payments; (iv) the benefits of the plan are vested in the employees or their designated beneficiaries and no part of the deferred compensation reverts to the employer institution; (v) in the case of past service pension costs, it is amortized over a period of ten years or more; and (vi) for a plan which is subject to approval by the Internal Revenue Service, it falls within the criteria and standards of the Internal Revenue Code and the regulations of the Internal Revenue Service.

(c) In determining the cost of deferred compensation allowable under the grant or contract, appropriate adjustments shall be made for credits or gains, including those arising out of both normal and abnormal employee turnover, or any other contingencies that can result in a forfeiture by employees of such deferred compensation. Adjustments shall be made only for forfeitures which directly or indirectly inure to the benefit of the institution; forfeitures which inure to the benefits of other employees covered by a deferred compensation plan with no reduction in the institution's costs will not normally give rise to an adjustment in grant/contract costs. Adjustments for normal employee turnover shall be based on the institution's experience and on foreseeable prospects, and shall be reflected in the amount of cost currently allowable. Such adjustments will be unnecessary to the extent that the institution can demonstrate that its contributions take into account normal forfeitures. Adjustments for possible future abnormal forfeitures shall be effected according to the following rules:

(i) Abnormal forfeitures that are foreseeable and which can be currently evaluated with reasonable accuracy, by actuarial or other sound computation shall be reflected by an adjustment of current costs otherwise allowable; and

(ii) Abnormal forfeitures, not within (i) above, may be made the subject of agreement between the Government and the institution either as to an equitable adjustment or a method of determining such adjustment.

(d) In determining whether deferred compensation is for services rendered during the agreement period or is for future services, consideration shall be given to conditions imposed upon eventual payment, such as requirements of continued employment, consultation after retirement, and covenants not to compete.

(5) *Fringe benefits.* Fringe benefits are allowances and services provided by the institution to its employees as compensation in addition to regular wages and salaries. Costs of fringe benefits, such as pay for vacations, holidays, sick leave, military leave, employee insurance, and supplemental unemployment benefit plans are allowable to the extent required by law, employer-employee agreement, or an established policy of the institution.

(6) Severance pay. See G.40.

(7) Training and education expenses. See G.44.

(8) *Location allowances.* (a) "Location allowances," sometimes called "supplemental pay" or "incentive pay," are compensation in addition to normal wages or salaries and are paid by institutions to especially compensate or induce employees to undertake or continue work at locations which may be isolated or in an unfavorable environment. Location allowances include extra wage or salary payments in the form of station allowances, extended per diem, or mileage payments for daily commuting; they also include such benefits as institution-furnished housing. Payment of location allowances shall be allowed as costs under grants and cost-reimbursement type contracts, or recognized in pricing fixed-price type contracts, only with prior approval in writing from the awarding agency and only where and so long as the isolation or unfavorable environment of the site makes such payments necessary to the accomplishment of the work without unacceptable delays. Whether the site is so isolated, or its environment is so unfavorable, as to require location allowances is to be determined in the light of (a) its location and climate; (b) the availability and adequacy of housing within reasonable commuting distance; and (c) the availability and adequacy of educational, recreational, medical, and hospital facilities. The extent to which compensation includes location allowances is to be determined by comparing it with (a) the institution's normal compensation policy, including pay scales at its principal operating locations; (b) pay scales of other organizations and concerns operating at or near the site; and (c) compensation paid by other concerns within the same field for similar services elsewhere.

(b) Locations for which location allowances are paid shall be reviewed at

least once a year to determine whether such allowances should continue to be allowed.

(9) *Support of salaries and wages.* (a) Direct charges for professionals must be supported by either:

(i) An adequate appointment and workload distribution system, accompanied by monthly reviews performed by responsible change in workload distribution of each professional (i.e., an exception reporting system) or

(ii) A monthly after-the-fact certification system which will require persons in supervisory positions having firsthand knowledge of the services performed to report the distribution of effort (i.e., a positive reporting system). Such reports must account for the *total* salaried effort of the persons covered. Consequently, a system which provides for the reporting only of effort applicable to federally sponsored activities is not acceptable.

(b) Direct charges for salaries and wages of nonprofessionals will be supported by time and attendance and payroll distribution records.

(c) Allowable indirect personal services costs will be supported by the institution's accounting system maintained in accordance with generally accepted institutional practices. Where a comprehensive accounting system does not exist, the institution should make periodic surveys no less frequently than annually to support the indirect personal services costs for inclusion in the overhead pool. Such supporting documentation must be retained for subsequent review by Government representatives.

7. *Capital expenditures.* The costs of equipment, buildings, and repairs which materially increase the value or useful life of buildings or equipment, are unallowable except as provided for in the grant/contract.

8. *Contingencies.* (a) A contingency is a possible future event or condition arising from presently known or unknown causes, the outcome of which is indeterminable at the present time.

(b) In historical costing, contingencies are not normally present since such costing deals with costs which have been incurred and recorded on the institution's books. Accordingly, contingencies are generally unallowable for historical costing purposes. However, in some cases, as for example, terminations, a contingency factor may be recognized which is applicable to a past period to give recognition to minor unsettled factors in the interest of expeditious settlement.

(c) In connection with estimates of future costs, contingencies fall into two categories:

(1) Those which may arise from presently known and existing conditions, the effects of which are foreseeable within reasonable limits of accuracy; e.g., pension funds, sick leave, and vacation accruals, etc. In such situations where they exist, contingencies of this category are to be included in the estimates of future cost so as to provide the best estimate of performance costs; and

(2) Those which may arise from presently known or unknown conditions, the effect of which cannot be measured so precisely as to provide equitable results to the institution and to the Government; e.g., results of pending litigation, and other general business risks. Contingencies of this category are to be excluded from cost estimates under the several items of cost, but should be disclosed separately, including the basis upon which the contingency is computed in order to facilitate the negotiation of appropriate contractual coverage (see, for example, G-17, G-21, and G-40).

9. *Contributions and donations.* (a) Contributions and donations by the grantee/contractor are unallowable.

(b) The value of donated services or goods provided by individual volunteers or members of volunteer organizations is not an allowable cost; however, the fair market value of donated services or goods utilized in the performance of a direct cost activity as defined in C.1 and C.2 shall be considered in the determination of the indirect cost rate(s) and, accordingly, shall be allocated a proportionate share of indirect cost.

10. *Depreciation and use allowances.* (a) Institutions may be compensated for the use of buildings, capital improvements and usable equipment on hand through depreciation or use allowances. Depreciation is a charge to current operations which distributes the cost of a tangible capital asset, less estimated residual value, over the estimated useful life of the asset in a systematic and logical manner. It does not involve a process of valuation. Useful life has reference to the prospective period of economic usefulness in the particular institution's operations as distinguished from physical life. Use allowances are the means of allowing compensation when depreciation or other equivalent costs are not considered.

(b) Depreciation or a use allowance on assets donated by third parties is allowable. However, any limitations on the amount of depreciation which would have applied to the donor as a result of restrictions contained in this Section shall also apply to the recipient organization.

(c) Due consideration will be given to Government-furnished facilities utilized by the institution when computing use allowances and/or depreciation if the Government-furnished facilities are material in amount. Computation of the use allowance and/or depreciation will exclude both the cost or any portion of the cost of grounds, buildings and equipment borne by or donated by the Federal Government, irrespective of where title was originally vested or where it presently resides, and secondly, the cost of grounds. Capital expenditures for land improvements (paved areas, fences, streets, sidewalks, utility conduits, and similar improvements not already included in the cost of buildings) are allowable provided the systematic amortization of such capital expenditures has been provided in the institution's books of account, based on reasonable determinations of the probable useful lives of the individual items involved, and the share allocated to the grant or contract is developed from the amount thus amortized for the base period involved.

(d) Normal depreciation on an institution's plant, equipment, and other capital facilities, except as excluded by (d) below, is an allowable element of cost provided that the amount thereof is computed:

(1) Upon a property cost basis which could have been used by the institution for Federal Income Tax purposes, had such institution been subject to the payment of income tax; and

(2) By the consistent application to the assets concerned of any generally accepted accounting method, and subject to the limitations of the Internal Revenue Code of 1954 as amended, including—

(i) The straight line method;

(ii) The declining balance method, using a rate not exceeding twice the rate which would have been used had the annual allowance been computed under the method described in (i) above;

(iii) The sum-of-the-years-digits method; and

(iv) Any other consistent method productive of an annual allowance which, when added to all allowances for the period commencing with the use of the property and including the current year, does not during the first two-thirds of the useful life of the property exceed the total of such allowances which would have been used had such allowances been computed under the method described in (ii) above.

(v) Where the depreciation method is followed, adequate property records must be maintained. The period of useful service (service life) established in each case for usable capital assets must be determined on a realistic basis which takes into consideration such factors as type of construction, nature of the equipment used, technological developments in the particular area, and the renewal and replacement policies followed for the individual items or classes of assets involved. Where the depreciation method is introduced for application to assets acquired in prior years, the annual charges therefrom must not exceed the amounts that would have resulted had the depreciation method been in effect from the date of acquisition of such assets.

(vi) Depreciation on idle or excess facilities shall not be allowed except on such facilities as are reasonably necessary for standby purposes. (See G. 13.)

(vii) Where an institution elects to go on a depreciation basis for a particular class of assets, no depreciation, rental or use charge may be allowed on any such assets that would be viewed as fully depreciated. *Provided, however,* that reasonable use charges may be negotiated for any such assets if warranted after taking into consideration the cost of the facility or item involved, the estimated useful life remaining at time of negotiation, the actual replacement policy followed in the light of service lives used for calculating depreciation, the effect of any increased maintenance charges or decreased efficiency due to age, and any other factors pertinent to the utilization of the facility or item for the purpose contemplated.

(viii) Where the use allowance method is followed, the use allowance for buildings and improvements will be computed at an annual rate not exceeding 2 percent of acquisition cost. The use allowance for equipment will be computed at an annual rate not exceeding 6⅔ percent of acquisition cost of usable equipment in those cases where the institution maintains current records with

respect to such equipment on hand. Where the institution's records reflect only the cost (actual or estimated) of the original complement of equipment, the use allowance will be computed at an annual rate not exceeding 10 percent of such cost. Original complement for this purpose means the complement of equipment initially placed in buildings to perform the functions currently being performed in such buildings; however, where a permanent change in the function of a building takes place, a redetermination of the original complement of equipment may be made at that time to establish a new original complement. In those cases where no equipment records are maintained, the institution will justify a reasonable estimate of the acquisition cost of usable equipment which may be used to compute the use allowance at an annual rate not exceeding 6⅔ percent of such estimate.

(ix) Depreciation and/or use charges should usually be allocated to all activities as an indirect cost.

11. *Employee morale, health, welfare costs, and credits.* (a) Employee morale, health, and welfare activities are those services or benefits provided by the institution to its employees to improve working conditions, employer-employee relations, employee morale, and employee performance. Such activities include house publications, health or first-aid clinics, recreation, employee counseling services and, for the purpose of this paragraph, food and dormitory services. Food and dormitory services include operating or furnishing facilities for cafeterias, dining rooms, canteens, lunch wagons, vending machines, living accommodations, or similar types of services for the institution's employees at or near its facilities.

(b) Except as limited by (c) below, the aggregate of costs incurred on account of all activities mentioned in (a) above, less income generated by all such activities is allowable to the extent that the net amount is reasonable.

(c) Losses from the operation of food and dormitory services may be included as cost incurred under (b) above, only if the institution's objective is to operate such services on a break-even basis. Losses sustained because food services or lodging accommodations are furnished without charge or at prices or rates which obviously would not be conducive to accomplishment of the above objective, are not allowable, except that a loss may be allowed to the extent the institution can demonstrate that unusual circumstances exist (e.g., (1) where the institution must provide food or dormitory services at remote locations where adequate commercial facilities are not reasonably available or (ii) where it is necessary to operate a facility at a lower volume than the facility could economically support) such that, even with efficient management, operation of the services on a break-even basis would require charging inordinately high prices or prices or rates higher than those charged by commercial establishments offering the same services in the same geographical areas.

(d) In those situations where the institution has an arrangement authorizing an employee association to provide or operate a service such as vending machines in the institution's plant, and retain the profits derived therefrom, such profits shall be treated in the same manner as if the institution were providing the service (but see (e)).

(e) Contributions by the institution to an employee organization, including funds set over from vending machine receipts or similar sources, may be included as cost incurred under (b) above only to the extent that the institution demonstrates that an equivalent amount of the costs incurred by the employee organization would be allowable if incurred by the institution directly.

12. *Entertainment costs.* Costs of amusement, diversion, social activities, ceremonials, and incidental costs relating thereto, such as meals, lodging, rentals, transportation, and gratuities, are unallowable (but see G-11 and G-43).

13. *Excess facility costs.* (a) As used in this paragraph, the words and phrases defined in this subparagraph (a) shall have the meanings set forth below.

(1) Facilities means plant or any portion thereof (inclusive of land integral to the operation); equipment indivdually or collectively; or any other tangible capital asset, wherever located, and whether owned or leased by the institution.

(2) Idle Facilities means completely unused facilities that are excess to the institution's current needs.

(3) Idle Capacity means the unused capacity of partially used facilities. It is the difference between that which a facility could achieve under 100 percent operating time on a one shift basis less operating interruptions resulting from time lost for repairs, setups, unsatisfactory materiels, and other normal delays, and the extent to which the facility was actually used to meet demands during the accounting period. (A multiple shift basis may be used if it can be shown that this amount of usage could normally be expected for the type of facility involved.)

(4) Costs of idle facilities or idle capacity are costs such as maintenance, repair, housing, rent, and other related costs, e.g., property taxes, insurance, and depreciation.

(b) The costs of idle facilities are unallowable except to the extent that:

(i) They are necessary to meet fluctuations in workload; or

(ii) Although not necessary to meet fluctuations in workload, they were necessary when acquired and are now idle because of changes in program requirements, grantee/ contractor efforts to produce more economically, reorganization, termination, or other causes which could not have been reasonably foreseen.

Under the exception stated in (ii) of this subparagraph (b), costs of idle facilities are allowable for a reasonable period of time, ordinarily not to exceed 1 year, depending upon the initiative taken to use, lease, or dispose of such facilities (but see G.42(b) and (e)).

(c) The costs of idle capacity are normal costs of doing business and are a factor in the normal fluctuations of usage or overhead rates from period to period. Such costs are allowable, provided the capacity is reasonably anticipated to be necessary or was originally reasonable and is not subject to reduction or elimination by subletting, renting, or sale, in accordance with sound business, economics, or security practices. Widespread idle capacity throughout an entire plant or among a group of assets having substantially the same function may be idle facilities.

14. *Fines and penalties.* Costs of fines and penalties resulting from violations of, or failure of the institution to comply with, Federal, State, and local laws and regulations are unallowable except when incurred as a result of compliance with specific provisions of the grant or contract instructions in writing from the awarding agency.

15. *Fringe benefits.* (See G.–6–(g)–(5.)

16. *Independent research and development.* (a) An institution's independent research and development (I.R. & D.) is that research and development which is not sponsored by the Government or a non-Government organization or agency under a grant/ contract or other arrangement.

(b) Basic research, for the purpose of this document, is that type of research which is directed toward increase of knowledge within a particular discipline. In such research, the primary aim of the investigator is a fuller knowledge or understanding of the subject under study, rather than any practical application thereof. Applied research, for the purpose of this document consists of that type of effort which (1) is normally derived from the results of basic research, but may not be severable from the related basic research, (2) attempts to determine and expand the potentialities of new scientific discoveries or improvements in technology, materiels, processes, methods, devices, and techniques, and (3) attempts to "advance the state of the art." Applied research, does not include any such efforts when their principal aim is the design, development, or test of specific articles or services to be offered for sale, which are within the definition of the term development as defined in (c) below. Census research, for the purpose of this document, is that type of activity devoted to the compilation and interpretation of statistical and other analytical information acquired through survey (e.g., interview, circularization of questionnaires), observations or from books, treatises, articles or other sources relative to specifically defined activities, occurrences or conditions for the purpose of accomplishing some scientific end.

(c) "Development" is the systematic use of scientific knowledge which is directed toward the production of, or improvements in, useful products to meet specific performance requirements, but exclusive of manufacturing and production engineering.

(d) Independent research and development will be treated in a manner consistent with the treatment of sponsored research and development. Accordingly, an institution's I.R. & D. shall be allocated in proportionate share of indirect costs on the same basis that indirect costs are allocated to sponsored research and development.

(e) The cost of an institution's I.R. & D. including its proportionate share of indirect costs, is unallowable.

17. *Insurance and indemnification.* (a) Insurance includes insurance which the institution is required to carry, or which is approved, under the terms of the grant or contract and any other insurance which the institution maintains in connection with the general conduct of its business.

(1) Costs of insurance required or approved, and maintained, pursuant to the grant or contract are allowable.

(2) Costs of other insurance maintained by the institution in connection with the general conduct of its business are allowable subject to the following limitations:

(a) Types and extent of coverage shall be in accordance with sound business practice and the rates and premiums shall be reasonable under the circumstances;

(b) Costs allowed for business interruption or other similar insurance shall be limited to exclude coverage of profit;

(c) Costs of insurance or of any provision for a reserve covering the risk of loss of or damage to Government property are allowable only to the extent that the institution is liable for such loss or damage and such insurance or reserve does not cover loss or damage which results from willful misconduct or lack of good faith on the part of any of the institution's trustees, directors or officers, or other equivalent representatives, who have supervision or direction of (i) all or substantially all of the institution's business, or (ii) all or substantially all of the institution's operations at any one separate location in which the grant or contract is being performed, or who are specifically identified as the project director in the project or otherwise primarily responsible for the direction and/or execution of the project supported by the grant or contract.

(d) Provisions for a reserve under an approved self-insurance program are allowable to the extent that types of coverage, extent of coverage, and the rates and premiums would have been allowed had insurance been purchased to cover the risks; and

(e) Costs of insurance on the lives of trustees, officers, or other employees holding positions of similar responsibilities are allowable only to the extent that the insurance represents additional compensation. (See G–6).

(3) Actual losses which could have been covered by permissible insurance (through an approved self-insurance program or otherwise) are unallowable unless expressly provided for in the grant or contract, except:

(a) Costs incurred because of losses not covered under nominal deductible insurance coverage provided in keeping with sound business practice, are allowable; and

(b) Minor losses not covered by insurance, such as spoilage, breakage, and disappearance of supplies, which occur in the ordinary course of doing business, are allowable.

(c) Indemnification includes securing the institution against liabilities to third persons and any other loss or damage not compensated by insurance or otherwise. The Government is obligated to indemnify the institution only to the extent expressly provided in (a)(3) above.

18. *Interest and other financial costs.* (a) Costs incurred for interest on borrowed capital or temporary use of endowment funds, however represented, are unallowable.

(b) Costs of organized fund raising, including financial campaigns, endowment drives, solicitation of gifts and bequests, and similar expenses incurred solely to raise capital or obtain contributions, are unallowable.

(c) Costs of investment counsel and staff and similar expenses incurred solely to enhance income from investments are unallowable.

(d) Where substantial effort or time is devoted to fund raising and investment activities as described in (b) and (c) in relation to other functions of an institution, such activities shall be considered as a major activity of the institution and shall be allocated its share of indirect costs in accordance with section D. (See also C–2.)

19. *Labor relations costs.* Costs incurred in maintaining satisfactory relations between the institution and its employees, including costs of labor management committees, employee publications, and other related activities, are allowable.

20. *Losses on other grants or contracts.* Any excess of costs over income on any grant or contract is unallowable as a cost of any other grant or contract.

21. *Maintenance and repair costs.* (a) Costs necessary for the upkeep of property (including Government property unless otherwise provided for), which neither add to the permanent value of the property nor appreciably prolong its intended life, but keep it in an efficient operating condition, are to be treated as follows (but see G–10):

(1) Normal maintenance and repair costs are allowable:

(2) Extraordinary maintenance and repair costs are allowable provided such are allocated to the periods to which applicable for purposes of determining grant or contract costs.

(b) Expenditures for plant and equipment, including rehabilitation thereof, which, according to generally accepted accounting principles as applied under the institution's established policy, should be capitalized and subjected to depreciation, are allowable only on a depreciation basis.

22. *Materiels costs.* (a) The cost of consumable supplies, serum, drugs, fabricated parts, and other materiels necessary to carry out the objectives of a grant or contract, whether purchased outside or manufactured by the institution are allowable subject to the provisions (b) through (e) below. The cost may include such collateral items as inbound transportation and intransit insurance.

In computing these costs consideration will be given to reasonable overruns, spoilage, or defective work if consistent with the nature of the project being performed and the recognized practice of the industry.

(b) Costs of materiel shall be suitably adjusted for applicable portions of income and other credits, including available trade and cash discounts, refunds, rebates, allowances, and credits for scrap and salvage and materiel returned to vendors. Such income and other credits shall either be credited directly to the cost of the materiel involved or be allocated (as credits) to indirect costs. However, where the institution can demonstrate that failure to take cash discounts was due to reasonable circumstances, such lost discounts need not be so credited.

(c) Reasonable adjustments arising from differences between periodic physical inventories and book inventories may be included in arriving at costs, provided such adjustments relate to the period of performance of the grant or contract.

(d) When the materiels are purchased specifically for and identifiable solely with performance under a grant or contract, the actual purchase cost thereof should be charged to that grant or contract. If materiel is issued from stores, any generally recognized method of pricing such materiel is acceptable if that method is consistently applied and the results are equitable. When estimates of materiel costs to be incurred in the future are required, either current market price or anticipated acquisition cost may be used, but the basis of pricing must be disclosed.

(e) Allowance for all materiels, supplies and services which are sold or transferred between any division, subsidiary or affiliate of the institution under a common control shall be on the basis of cost incurred in accordance with these principles, except that when it is the established practice of the transferring organization to price interorganization transfers of materiels, supplies and services at other than cost for non-Government work of the institution or any division, subsidiary or affiliate of the institution under a common control, allowance may be at a price when:

(1) It is or is based on an "established catalog or market price of commercial items sold in substantial quantities to the general public;" or

(2) It is the result of "adequate price competition" and is the price at which an award was made to the affiliated organization after obtaining quotations on an equal basis from such organization and one or more outside sources which normally produce the item or its equivalent in significant quantity.

Provided, that in either case:

(1) The price is not in excess of the transferor's current sales price to his most favored customer (including any division, subsidiary, or affiliate of the institution under a common control) for a like quantity under comparable conditions, and

(2) The price is not determined to be unreasonable by the awarding agency.

The price determined in accordance with (1) above should be adjusted, when appropriate, to reflect the quantities being procured and may be adjusted upward or downward to reflect the actual cost of any modifications necessary because of grant or contract requirements.

23. *Organization costs.* Expenditures, such as incorporation fees, attorney's fees, accountant's fees, broker's fees, fees to promoters and organizers, in connection with (a) organization or reorganization of a business, or (b) raising capital, are unallowable unless specified otherwise in the grant or contract.

24. *Other business expenses.* Included in this item are such recurring expenses as preparation and publication of reports to members and trustees; preparation and submission of required reports and forms to taxing and other regulatory bodies; and incidental costs of director and committee meetings. The above and similar costs are allowable when allocated on an equitable basis.

25. *Overtime, extra-pay shift and multishift premiums.* Premiums for overtime, extra-pay shifts, and multishift work are allowable only to the extent approved by the awarding agency except:

(a) When necessary to cope with emergencies, such as those resulting from accidents, natural disasters, breakdowns of production equipment, or occasional production bottlenecks of a sporadic nature;

(b) When by indirect labor employees such as those performing duties in connection with administration, protection, transportation, maintenance, standby plant protection, operation of utilities, or accounting;

(c) In the performance of tests, laboratory procedures, or other similar operations which are continuous in nature and cannot reasonably be interrupted or otherwise completed; or

(d) When lower overall cost to the Government will result.

Overtime premiums and shift premiums may be considered proper for approval when determined in writing by the awarding agency that approval:

(a) Is necessary to meet delivery or performance schedules, and such schedules are determined to be extended to the maximum consistent with essential program objectives;

(b) Is necessary to make up for delays which are beyond the control and without the fault or negligence of the institution;

(c) Is necessary to eliminate foreseeable bottlenecks of an extended nature which cannot be eliminated in any other way.

Approvals should ordinarily be prospective, but may be retroactive where justified by the circumstances. Such approvals may be for an individual grant or contract project, or program, or for a division, department, or branch, as most practicable.

Overtime for which overtime premiums would be at Government expense should not be approved under an award where the institution is already obligated, without the right to additional compensation, to meet the required delivery date.

Where overtime premiums or shift premiums are being paid at Government expense in connection with the performance of Government grant or contract the continued need therefor should be subject to periodic review by the awarding agency.

26. *Patent and copyright costs.* Costs of preparing disclosures, reports, and other documents required by the grant/contract and of searching the art to the extent necessary to make such disclosures, are allowable. In accordance with the conditions of the grant or contract relating to patents or copyrights, costs of preparing documents and any other costs, in connection with the filing of a patent application or copyright where title is conveyed to the Government, are allowable. However, similar costs incurred in connection with patents or copyrights where title is not conveyed to the Government are unallowable. (See G–39.)

27. *Pension plans.* (See G–6(g)–(4).)

28. *Plant protection costs.* Costs of items such as (a) wages, uniforms, and equipment of personnel engaged in plant protection, (b) depreciation on plant protection capital assets, and (c) necessary expenses to comply with security requirements are allowable.

29. *Plant reconversion costs.* Plant reconversion costs are those incurred in the restoration or rehabilitation of the institution's facilities to approximately the same condition existing immediately prior to the commencement of the grant or contract work, fair wear and tear excepted. Reconversion costs are unallowable except for the cost of removing Government property and the restoration or rehabilitation costs caused by such removal. However, in special circumstances where equity so dictates, additional costs may be allowed to the extent agreed upon in writing before the costs are incurred. Whenever such costs are given consideration, care should be exercised to avoid duplication through allowance as contingencies, as additional profit or fee, or in other grants or contracts.

30. *Preaward costs.* Preaward costs are those incurred prior to the effective date of the grant or contract directly pursuant to the negotiation and in anticipation of the award of the grant or contract where such incurrence is necessary to comply with the proposed delivery schedule or period of performance. Such costs are allowable only to the extent that they would have been allowable if incurred after the date of the award and only with the prior written approval of the awarding agency.

31. *Professional service cost—legal, accounting, scientific and other.* (a) Costs of professional services rendered by members of a particular profession who are not employees of the institution are allowable, subject to (b), (c) and (d) below, when reasonable in relation to the services rendered. (But see G–23.)

(b) Factors to be considered in determining the allowability of costs in a particular case include:

(1) The nature and scope of the service rendered in relation to the service required;

(2) The necessity of contracting for the service considering the institution's capability in the particular area;

(3) The past pattern of such costs, particularly in years prior to the award of Government work;

(4) The impact of Government work on the institution's business (i.e., what new problems have arisen);

(5) Whether the proportion of Government work to the institution's total business is such as to influence the institution in favor of incurring the cost, particularly where the services rendered are not of a continuing nature and have little relationship to work under Government grants/contracts;

(6) Whether the service can be performed more economically by employment rather than by contracting;

(7) The qualifications of the individual or concern rendering the service and the customary fees charged, especially on nongovernment grants/contracts;

(8) Adequacy of the contractual agreement for the service (e.g., description of the service, estimate of time required, rate of compensation; termination provisions).

(c) Retainer fees to be allowable must be reasonably supported by evidence of bona fide services available or rendered.

(d) Costs of legal, accounting, and consulting service, and related costs, incurred in connection with organization and reorganization, defense of anti-trust suits, and the prosecution of claims against the Government, are unallowable. Costs of legal, accounting, and consulting services, and related costs, incurred in connection with patent or copyright infringement litigation, are unallowable unless otherwise provided for in the grant or contract.

32. *Profits and losses on disposition of plant equipment, or other capital assets.* Profits or losses of any nature arising from the sale or exchange of plant, equipment, or other capital assets, including sale or exchange of either short- or long-term investments, shall be excluded in computing grant or contract costs.

33. *Public information services costs.* Public information services costs include the costs associated with promotions, public relations, pamphlets, news releases, and other forms of information services. Such costs are normally incurred to:

(a) Inform or instruct individuals, groups or the general public about health or social problems;

(b) Interest individuals or groups in participating in a service program of the institution;

(c) Provide stewardship reports to State and local Government agencies, benefactor foundations and associations, etc.;

(d) Appeal for funds;

(e) Disseminate the results of sponsored and non-sponsored research or other activity to the scientific community.

To the extent that the costs incurred for any of these purposes are identifiable with a particular cost objective they should be charged to the objective to which they relate.

If these costs are not identifiable with a particular cost objective, they should be allocated as indirect costs to all major activities of the institution except that costs related to fund-raising appeals are unallowable as costs of grants and contracts.

Public information service costs are unallowable as a direct cost of grants and contracts unless formally approved by the awarding agency.

34. *Publication and printing costs.* Publication costs include the costs of printing (including the processes of composition, platemaking, press work, binding and the end products produced by such processes), distribution, promotion, mailing and general handling.

Publication costs are unallowable as a direct cost of grants and contracts unless formally approved by the awarding agency.

35. *Rearrangement and alteration costs.* Costs incurred for ordinary or normal rearrangement and alteration of facilities are allowable. Special arrangement and alteration costs incurred specifically for the

project are allowable when written approval has been given in advance by the awarding agency.

36. *Recruitment costs.* (a) Subject to (b), (c), and (d) of this G–36, and provided that the size of the staff recruited and maintained is in keeping with workload requirements, costs of help-wanted advertising, operating costs of an employment office necessary to secure and maintain an adequate labor force, costs of operating an aptitude and educational testing program, travel costs of employees while engaged in recruiting personnel, and travel costs of applicants for interviews for prospective employement are allowable to the extent that such costs are incurred pursuant to a well managed recruitment program. Where the institution uses employment agencies, costs not in excess of standard commercial rates for such services are allowable.

(b) In publications, costs of help-wanted advertising that (1) includes color, (2) includes advertising materiel for other than recruitment purposes, or (3) is excessive in size (taking into consideration recruitment purposes for which intended and normal business practices in this respect) are unallowable.

(c) Costs of (1) help-wanted advertising and (2) excessive salaries, fringe benefits, and special emoluments that have been offered to prospective employees, designed to attract personnel from another institution performing as grantee or contractor to the Government, or in excess of the standard practices in comparable institutions, are unallowable.

(d) Where relocation costs incurred incident to recruitment of a new employee have been allowed either as an allocable direct or indirect cost and the newly hired employee resigns for reasons within his control within 12 months after hire, the institution shall be required to refund or credit such relocation costs to the Government.

37. *Relocation costs.* (a) Relocation costs, for the purpose of this document, are costs incident to the permanent change of duty assignment (for an indefinite period, or for a stated period of no less than 12 months) of an existing employee or upon recruitment of a new employee. These costs may include, but are not limited to cost of (i) transportation of the employee, members of his immediate family and his household and personal effects to the new location; (ii) finding a new home, such as advance trips by employees and spouses to locate living quarters and temporary lodging during the transition period; (iii) closing costs (i.e., brokerage fees, legal fees, appraisal fees, etc.), incident to the disposition of housing; (iv) other necessary and reasonable expenses normally incident to relocation, such as cost of cancelling an unexpired lease, disconnecting or reinstalling household appliances, and purchase of insurance against damages to personal property; (v) loss on sale of home; and (vi) acquisition of a home in a new location (i.e., brokerage fees, legal fees, appraisal fees, etc.).

(b) Subject to (c) below, relocation costs of the type covered in (a) (i), (ii), (iii), and (iv) above are allowable, provided (i) the move is for the benefit of the employer; (ii) reimbursement is in accordance with an established policy or practice consistently followed by the employer, and such policy or practice is designed to motivate employees to relocate promptly and economically; (iii) the costs are not otherwise unallowable under the provisions of G–36 or any other paragraph of this document and (iv) amounts to be reimbursed shall not exceed the employee's actual (or reasonably estimated) expenses.

(c) Costs otherwise allowable under (b) above are subject to the following additional provisions: (i) the transition period for incurrance of costs of the type covered in (a) (ii) above shall be kept to the minimum number of days necessary under the circumstances, but shall not, in any event, exceed a cumulative total of 30 days including advance trip time; and (ii) allowance for cost of the type covered in (a)(iii) above shall not exceed 8 percent of the sales price of the property sold. Costs of the type covered in (a) (iii) and (iv) above are allowable only in connection with the relocation of existing employees, and are not allowable for newly recruited employees.

(d) Costs of the type covered in (a) (v) and (vi) above are not allowable.

38. *Rental costs (including sale and leaseback of facilities).* (a) Rental costs of land, building, and equipment and other personal property are allowable if the rates are reasonable in light of such factors as rental costs of comparable facilities and market conditions in the area, the type, life expectancy, condition, and value of the facilities leased, options available, and other provisions of the rental agreement. Application of these factors, in situations where rentals are extensively used, may involve among other considerations, comparison of rental costs with the amount which the institution would have received had it owned the facilities.

(b) Charges in the nature of rent between plants, divisions, or organizations under common control are allowable to the extent such charges do not exceed the normal costs of ownership, such as depreciation, taxes, insurance, and maintenance: Provided, That no part of such costs shall duplicate any other allowed costs.

(c) Unless otherwise specifically provided in the grant or contract, rental costs specified in sale and leaseback agreements, incurred by institutions through selling plant facilities to investment organizations, such as insurance companies, associate institutions, or to private investors, and concurrently leasing back the same facilities, are allowable only to the extent that such rentals do not exceed the amount which the grantee/contractor would have received had it retained legal title to the facilities.

(d) Rentals for land, building and equipment and other personal property, owned by affiliated organizations including corporations or by stockholders, members, directors, trustees, officers or other key personnel of the institution or their families either directly or through corporations, trusts or other similar arrangements in which they hold a more than token interest are allowable only to the extent that such rentals do not exceed the amount the institution would have received had legal title to the facilities been vested in it.

(e) The allowability of rental costs under unexpired leases in connection with terminations is treated in G–42(e).

39. *Royalties and other costs for use of patents and copyrights.* (a) Royalties on a patent or copyright or amortization of the cost of acquiring by purchase a copyright, patent or rights thereto, necessary for the proper performance of the grant or contract applicable to grant products or processes, are allowable unless:

(1) The Government has a license or the right to free use of the patent;

(2) The patent or copyright has been adjudicated to be invalid, or has been administratively determined to be invalid;

(3) The patent or copyright is considered to be unenforceable; or

(4) The patent or copyright is expired.

(b) Special care should be exercised in determining reasonableness where the royalties may have been arrived at as a result of less than arm's-length bargaining; e.g.:

(1) Royalties paid to persons, including corporations, affiliated with the institution;

(2) Royalties paid to unaffiliated parties, including corporations, under an agreement entered into in contemplation that a Government grant or contract would be awarded; or

(3) Royalties paid under an agreement entered into after the award of the grant or contract.

(c) In any case involving a patent or copyright formerly owned by the institution, the amount of royalty allowed should not exceed the cost which would have been allowed had the institution retained title thereto.

40. *Severance pay.* (a) Severance pay, also commonly referred to as dismissal wages, is a payment in addition to regular salaries and wages, by institutions to workers whose employment is being terminated. Costs of severance pay are allowable only to the extent that, in each case, it is required by (1) law, (2) employer-employee agreement, (3) established policy that constitutes, in effect, an implied agreement on the institution's part, or (4) circumstance of the particular employment.

(b) Costs of severance payments are divided into two categories as follows:

(1) Actual normal turnover severance payments shall be allocated to all work performed in the institution's facilities; or, where the institution provides for accrual of pay for normal severances, such method will be acceptable if the amount of the accrual is reasonable in light of payments actually made for normal severances over a representative past period, and if amounts accrued are allocated to all work performed in the institution's facilities; and

(2) Abnormal or mass severance pay is of such a conjectural nature that measurement of costs by means of an accrual will not achieve equity to both parties. Thus, accruals for this purpose are not allowable. However, the Government recognizes its obligation to participate, to the extent of its fair share, in any specific payment. Thus, allowability will be considered on a case-by-case basis in the event of occurrence.

41. *Taxes.* (a) Taxes are certain charges levied by Federal, State, or local governments. They do not include fines and penalties except as otherwise provided herein. In general, taxes which the institution is required to pay and which are paid or accrued in accordance with generally accepted accounting principles are allowable, except for:

(1) Federal income taxes and similar levies against income of the institution derived from activities unrelated to the project supported by the grant or contract;

(2) Taxes in connection with financing, refinancing, or refunding operations (see G–18);

(3) Taxes from which exemptions are available to the institution directly or available to the institution based on an exemption afforded the Government except when the awarding agency determines that the administrative burden incident to obtaining the exemption outweighs the corresponding benefits accruing to the Government;

(4) Special assessments on land which represent capital improvements; and

(5) Taxes on any category of property which is used solely in connection with work other than on Government grants or contracts. (Taxes on property used solely in connection with either non-Government or Government work should be considered directly applicable to the respective category of work unless the amounts involved are insignificant or comparable results would otherwise be obtained.)

(b) Taxes otherwise allowable under paragraph (a) of this section, but upon which a claim of illegality or erroneous assessment exists, are allowable provided the institution, prior to payment of such taxes:

(1) Promptly requests instructions from the awarding agency concerning such taxes, and

(2) Takes all action directed by the awarding agency arising out of subparagraph (1) of this paragraph or an independent decision of the Government as to the existence of a claim of illegality or erroneous assessment, including cooperation with and for the benefit of the Government to (i) determine the legality of such assessment, or (ii) secure a refund of such taxes. Reasonable costs of any such action undertaken by the institution at the direction or with the concurrence of the awarding agency are allowable. Interest and penalties incurred by an institution by reason of the nonpayment of any tax at the direction of the awarding agency or by reason of the failure of the awarding agency to issue timely direction after prompt request therefor, are also allowable.

(c) Any refund of taxes, interest, or penalties, and any payment to the institution of interest thereon, attributable to taxes, interest, or penalties which were allowed as project costs, shall be credited or paid to the Government in the manner directed by the Government, provided any interest actually paid or credited to an institution incident to a refund of tax, interest or penalty shall be paid or credited to the Government only to the extent that such interest accrued over the period during which the institution had been reimbursed by the Government for the taxes, interest or penalties.

42. *Termination costs.* Grants and contracts terminations generally give rise to the incurrence of costs, or the need for special treatment of costs, which would not have arisen had the project not been terminated. Cost principles covering these items are set forth below. They are to be used in conjunction with the remainder of this document in termination situations.

(a) *Common items.* The cost of items reasonably usable on the institution's other work shall not be allowable unless the institution submits evidence that it could not retain such items at cost without sustaining a loss. In deciding whether such items are reasonably usable on other work of the institution, the awarding agency should consider the institution's plans and orders for current and scheduled production. Contemporaneous purchases of common items by the institution shall be regarded as evidence that such items are reasonably usable on the institution's other work. Any acceptance of common items as allocable to the terminated portion of the project should be limited to the extent that the quantities of such items on hand, in transit, and on order are in excess of the reasonable quantitative requirements of other work.

(b) *Costs continuing after termination.* If in a particular case, despite all reasonable efforts by the institution, certain costs cannot be discontinued immediately after the effective date of termination, such costs are generally allowable within the limitations set forth in this document, except that any such costs continuing after termination due to the negligent or willful failure of the institution to discontinue such costs shall be considered unallowable.

(c) *Initial costs.* Initial costs, including starting load and preparatory costs, are allowable, subject to the following:

(1) Starting load costs are costs of a nonrecurring nature arising in the early stages of operation, investigation or production and not fully absorbed because of the termination. Such costs may include the cost of labor and materiel, and related indirect cost attributable to such factors as:

(a) Excessive spoilage resulting from inexperienced labor;

(b) Idle time and subnormal production occasioned by testing and changing methods of processing;

(c) Employee training; and

(d) Unfamiliarity or lack of experience with the product, materiels, manufacturing processes, and techniques.

(2) Preparatory costs are costs incurred in preparing to perform the terminated project including costs of initial plant rearrangement and alterations, management and personnel organization, production planning and similar activities, but excluding special machinery and equipment and starting load costs.

(3) If initial costs are claimed and have not been segregated on the institution's books, segregation for settlement purposes shall be made from cost reports and schedules which reflect the high unit cost incurred during the early stages of the project.

(4) When the settlement proposal is on the inventory basis, initial costs should normally be allocated on the basis of total end items called for by the project immediately prior to termination; however, if the project includes end items of a diverse nature, some other equitable basis may be used, such as machine or labor hours.

(5) When initial costs are included in the settlement proposal as a direct charge, such costs shall not also be included in overhead.

(6) Initial costs attributable to only one project shall not be allocated to other projects.

(d) *Loss of useful value.* Loss of useful value of special tooling and special machinery and equipment is generally allowable if:

(1) Such special tooling, machinery, or equipment is not reasonably capable of use in the other work of the institution;

(2) The interest of the Government is protected by transfer of title or by other means deemed appropriate by the awarding agency; and

(3) The loss of useful value as to any one terminated project is limited to that portion of the acquisition cost which bears the same ratio to the total acquisition cost as the terminated portion of the project bears to the entire terminated project and other Government projects for which the special tooling and special machinery and equipment were acquired.

(e) *Rental costs.* Rental costs under unexpired leases are generally allowable where clearly shown to have been reasonably necessary for the performance of the terminated project less the residual value of such leases, if:

(1) The amount of such rental claimed does not exceed the reasonable use value of the property leased for the period of the project and such further period as may be reasonable; and

(2) The institution makes all reasonable efforts to terminate, assign, settle, or otherwise reduce the cost of such lease.

There also may be included the cost of alterations of such leased property, provided such alterations were necessary for the performance of the project, and of reasonable restoration required by the provisions of the lease.

(f) *Settlement expenses.* Settlement expenses including the following are generally allowable:

(1) Accounting, legal, clerical, and similar costs reasonably necessary for—

(a) The preparation and presentation to awarding agency of settlement claims and supporting data with respect to the terminated portion of the project, and

(b) The termination and settlement of subcontracts; and

(2) Reasonable costs for the storage, transportation, protection, and disposition of property acquired or produced for the project.

(g) Subcontractor claims. Subcontractor claims, including the allocable portion of claims which are common to the project and to other work of the institution are generally allowable.

43. *Trade, Business, Technical, and Professional Activity Costs*—(a) *Membership.* This category includes costs of memberships in trade, business, technical, and professional organizations. Such costs are allowable.

(b) Subscriptions. This item includes cost of subscriptions to trade, business, professional,

or technical periodicals. Such costs are allowable.

(c) Meetings and conferences. This item includes costs of meals, transportation, rental of facilities for meetings, and costs incidental thereto, when the primary purpose of the incurrence of such costs is the dissemination of technical information or stimulation of production. Such costs are allowable.

44. *Training and educational costs.* (a) The costs of training courses taken by a bona fide employee to acquire basic skills which he should bring to the job or to qualify a person for duties other than those related to an institution's goals are unallowable.

(b) Costs of on-the-job training and part-time education, at an undergraduate or post-graduate college level, related to the job requirements of bona fide employees, identified in (1) through (5) below, are allowable.

(1) Training materiels;

(2) Textbooks;

(3) Fees charged by the educational institution;

(4) Tuition charged by the educational institution, or in lieu of tuition, instructors' salaries and the related share of indirect cost of the educational institution to the extent that the sum thereof is not in excess of the tuition which would have been paid to the participating educational institution; and

(5) Straight-time compensation of each employee for time spent attending classes during working hours not in excess of 156 hours per year where circumstances do not permit the operation of classes or attendance at classes after regular working hours.

(c) Costs of tuition, fees, training materiels and textbooks (but not subsistence, salary, or any other emoluments) in connection with full time scientific and medical education at a post-graduate (but not undergraduate) college level related to the job requirements of bona fide employees for a total period not to exceed 1 school year for each employee so trained, are allowable when approved in writing by the awarding agency.

(d) Grants to educational or training institutions, including the donation of facilities or other properties, scholarships, or fellowships, are considered contributions and are unallowable.

45. *Transportation costs.* Transportation costs include freight, express, cartage, and postage charges relating either to goods purchased, in process, or delivered. These costs are allowable. When such costs can readily be identified with the items involved, they may be directly costed as transportation costs or added to the cost of such items (see G–22).

Where identification with the materiels received cannot readily be made, inbound transportation costs may be charged to the appropriate indirect cost accounts if the institution follows a consistent, equitable procedure in this respect. Outbound freight, if reimbursable under the terms of the grant or contract, shall be treated as a direct cost.

46. *Travel costs.* (a) Travel costs include costs of transportation, lodging, subsistence, and incidental expenses, incurred by institution personnel in a travel status while on official business.

(b) Travel costs may be based upon actual costs incurred, or on a per diem or mileage basis in lieu of actual costs, or on a combination of the two, provided the method used does not result in an unreasonable charge. The difference in cost between first-class and less than first-class air accommodations is unallowable except when less than first-class air accommodations are not reasonably available to meet necessary mission requirements, such as where less than first-class accommodations would (1) require circuitous routing, (2) require travel during unreasonable hours, (3) greatly increase the duration of the flight, (4) result in additional costs which would offset the transportation savings, or (5) offer accommodations which are not reasonably adequate for the medical needs of the traveler.

(c) Travel costs incurred in the normal course of overall administration of the business are allowable and shall be treated as indirect costs.

(d) Travel costs directly attributable to specific grant or contract performance are allowable and may be charged to the grant or contract in accordance with the principle of direct costing (see section C).

(e) Costs of personnel movement of a special or mass nature are allowable only when authorized or approved in writing by the sponsoring agency.

BILLING CODE 4110–02–M

federal register

Thursday
April 3, 1980

Part III

Department of Health, Education, and Welfare

Office of Education

Education Appeal Board

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

45 CFR Part 100d

Education Appeal Board

AGENCY: Office of Education, HEW.

ACTION: Final regulations.

SUMMARY: These regulations establish rules for the conduct of proceedings before the Education Appeal Board (the Board). The Board conducts (1) audit appeal hearings, (2) withholding, termination, and cease and desist hearings initiated by the U.S. Commissioner of Education (the Commissioner), and (3) any other proceedings designated by the Commissioner as being within the jurisdiction of the Board.

EFFECTIVE DATES: These regulations are expected to take effect 45 days after they are transmitted to Congress. Regulations are usually transmitted to Congress several days before they are published in the **Federal Register**; the effective date is changed by statute if Congress disapproves the regulations or takes certain adjournments. For information concerning the effective date of these regulations, call or write the OE contact person named in this preamble.

When these regulations take effect they will supersede the interim final regulations published in the **Federal Register** on May 25, 1979, which established the Education Appeal Board and interim final rules for the conduct of proceedings before the Board (44 FR 30528). Future proceedings in all cases pending before the Education Appeal Board will be governed by these regulations.

FOR FURTHER INFORMATION CONTACT: Dr. David S. Pollen, Chairman, Education Appeal Board, U.S. Office of Education, 400 Maryland Ave. S.W., Room 4051 (FOB–6), Washington, D.C. 20202. Telephone (202) 245–7835.

SUPPLEMENTARY INFORMATION:

A. Background

In 1972 the Commissioner established the Title I Audit Hearing Board through the publication of a notice in the **Federal Register**. The function of this board was to give State agencies an impartial administrative forum in which to appeal adverse audit determinations resulting from Federal audits of programs administered under Title I of the Elementary and Secondary Education Act of 1965, as amended (Title I, ESEA).

In subsequent years it became apparent that grantees under OE State-administered programs other than Title I ESEA were in need of a similar forum to hear their appeals from adverse audit determinations. Recognizing this need, Congress, in the Education Amendments, of 1978, added Sections 451 through 456 to the General Education Provisions Act. These sections directed the Commissioner to establish an Education Appeal Board, the function of which is conduct audit appeal hearings involving (1) certain State-administered programs (see appendix A to Part 100d), (2) programs conducted under the Bilingual Education Act, and (3) programs conducted under the Emergency School Aid Act. Congress also gave the Board authority to conduct withholding and termination hearings, cease and desist hearings, and other proceedings designated by the Commissioner.

The Commissioner, with the approval of the Secretary of Health, Education, and Welfare, designated the existing Title I Audit Hearing Board as the new Education Appeal Board. Interim final regulations establishing the Title I Audit Hearing Board as the new Board were published in the **Federal Register** on May 25, 1979 (44 FR 30528) and became effective June 29, 1979. On that date, the Education Appeal Board assumed jurisdiction over the cases previously accepted for review by the Title I Audit Hearing Board. Those cases were listed in a notice of jurisdiction published in the **Federal Register** on July 26, 1979 (44 FR 43807).

B. Jurisdiction

Under Sections 451 through 456 of the General Education Provisions Act, the Education Appeal Board has authority to hear audit appeals for (1) State-administered programs listed in appendix A to the regulations, (2) programs conducted under the Bilingual Education Act, and (3) programs conducted under the Emergency School Aid Act. Since sections 451 through 456 of the statute became effective on March 1, 1979, the jurisdiction of the Board extends to appeals from final audit determinations issued by authorized OE officials on or after March 1, 1979.

The Board also has jurisdiction over appeals from final audit determination letters issued by athorized OE officials prior to March 1, 1979, in Title I ESEA programs. The Board, under limited circumstances may also assume jurisdiction over appeals from final audit determination letters issued by authorized officials prior to March 1, 1979, in State-administered programs other the Title I ESEA, for which no prior right of appeal existed. In deciding whether to review an appeal in a State-administered program other than Title I, ESEA, the Board will consider such factors as (1) the dollar amount involved in the audit appeal, (2) the precedential value of the case, and (3) the workload of the Board.

The Board also has jurisdiction over withholding, termination, and cease and desist actions initiated by authorized OE officials on or after March 1, 1979. The Board also hears appeals from State educational agencies that have received notice that the Commissioner intends to disapprove their applications for Title I, ESEA funds. These appeals will be heard by the Board under specific statutory authority found in section 182 of Title I, ESEA, and will be conducted as withholding hearings.

For the purpose of defining the Board's jurisdiction in the interim final regulations, Section 453 of the General Education Provisions Act authorizing the Board to conduct withholding hearings was interpreted as authorizing the Board to conduct termination hearings. This interpretation was based on former Section 434 of the General Education Provisions Act, which authorized termination proceedings and was superseded by the additions of sections 451 through 456 to the Act in 1978.

Two commenters on the interim final regulations questioned that interpretation. To remove any question, the Commissioner, through the publication of these regulations, specifically designates termination proceedings initiated by authorized OE officials as being within the jurisdiction of the Education Appeal Board. Termination hearings in OE discretionary grant programs are transferred from the jurisdiction of the Departmental Grant Appeals Board to the jurisdiction of the Education Appeal Board by these regulations, and will no longer be conducted by the Departmental Grant Appeals Board.

However, some determinations that affect OE programs remain within the jurisdiction of the Departmental Grant Appeals Board. For example, cost disallowances in OE discretionary grant programs—other than discretionary grant programs conducted under the Bilingual Education Act or the Emergency School Aid Act—are within the jurisdiction of the Departmental Grant Appeals Board. Disputes involving indirect cost rates or fringe benefits are also within the jurisdiction of the Departmental Grant Appeals Board rather than the Education Appeal Board (see 45 CFR 16.5(a)(5)).

In addition, other proceedings involving OE programs may fall outside the Board's jurisdiction. For example, bypass actions under Titles I and IV,

ESEA, and limitation-suspension-termination hearings involving student financial assistance programs under the Higher Education Act are not conducted by the Board, but are based on special OE procedures provided for by statute (see 20 U.S.C. 2740, 20 U.S.C. 3086, and 20 U.S.C. 1088f–1).

It is possible that with the creation of the new Department of Education in 1980, certain proceedings may be phased into the Board's jurisdiction under the Commissioner's statutory authority to designate additional programs as being within the Board's jurisdiction. For example, those proceedings discussed above involving OE programs currently within the jurisdiction of the Departmental Grant Appeals Board may be transferred to the Education Appeal Board when OE is transferred to the new Department. Other proceedings that may eventually be designated as Board proceedings include appeals from the disapprovals of State plans for programs other than Title I, ESEA; appeals from State educational agency actions brought by local educational agencies; and equalization proceedings for school assistance in federally affected areas. Notice of any action taken with regard to these proceedings will be published in the **Federal Register**. As of the date of publication of these regulations, the Board's jurisdiction is limited to the proceedings described in the regulations.

C. Comments

OE received a number of comments from the public on the interim final regulations for the Board. In response to those comments, some changes in the regulations have been made. A summary of the public comments and responses appears in appendix B to these regulations.

D. Citation of Legal Authority

As required by Section 431(a) of the General Education Provisions Act, as amended (20 U.S.C. 1232(a)), a citation of statutory authority for each substantive provision has been placed in parentheses immediately following the text of the provision. If all the provisions of a subpart are supported by the same citation, the citation is given at the end of the subpart.

(Catalog of Federal Domestic Assistance Number not applicable)

Dated: February 26, 1980.

William L. Smith,

U.S. Commissioner of Education.

45 CFR is amended by deleting the interim Education Appeal Board rules appearing at 44 FR 30528, which are superseded by the following:

PART 100D—EDUCATION APPEAL BOARD

Subpart A—General

Sec.
100d.1 Purpose.
100d.2 Jurisdiction.
100d.3 Definitions.
100d.4 Board membership.
100d.5 Panels.
100d.6 Eligibility for review.
100d.7 Exhaustion of remedies.
100d.8–100d.10 [Reserved]

Subpart B—Final Audit Determinations

Written Notice

100d.11 Written notice of a final audit determination.
100d.12 Review of the written notice.

Application for Review

100d.13 Filing an application for review.
100d.14 Acceptance of the application for review.
100d.15 Rejection of the application for review.

Burden of Proof

100d.16 Burden of proof.
100d.17–100d.20 [Reserved]

Subpart C—Withholding and Termination

Written Notice

100d.21 Written notice of an intent to withhold or terminate funds.

Application for a Withholding or Termination Hearing

100d.22 Filing an application for a withholding or termination hearing.
100d.23 Acceptance of the application.
100d.24 Rejection of the application.

Suspension of Payments

100d.25 Written notice of an intent to suspend funds.
100d.26 Request to show cause.
100d.27 Show cause hearing.
100d.28 Decision.
100d.29–100d.30 [Reserved]

Subpart D—Cease and Desist

Written Notice

100d.31 Written notice of a cease and desist complaint.

Hearing

100d.32 Right to appear at the cease and desist hearing.
100d.33 Opportunity to show cause.

Order

100d.34 Written report and order.
100d.35–100d.40 [Reserved]

Subpart E—Practice and Procedure

General Rules

100d.41 Applicability of this subpart.
100d.42 Applicability of other laws.
100d.43 Intervention.
100d.44 Representation by counsel.
100d.45 Filing of documents.
100d.46 Availability of decisions.
100d.47 Communications.
100d.48 Transcripts.
100d.49 Subpoenas.
100d.50 Exchange of information.
100d.51 Evidence.
100d.52 Panel decisions.
100d.53 Intermediate review.
100d.54–100d.60 [Reserved]

Panel Proceedings

100d.61 Authority and responsibilities of panels.
100d.62 Conferences.
100d.63–100d.70 [Reserved]

Presentation of Case

100d.71 Written submissions normally required.
100d.72 Notice of an oral argument or evidentiary hearing.
100d.73 Conduct of a hearing.
100d.74–100d.80 [Reserved]

Subpart F—Decisions and Orders

Final Audit Determinations, Withholdings, and Terminations

100d.81 The panel's decision.
100d.82 Opportunity to comment on the panel's decision.
100d.83 The Commissioner's decision.
100d.84 Collection.

Cease and Desist

100d.85 The cease and desist report and order.
100d.86 Enforcement.
100d.87–100d.90 [Reserved]
Appendix A to Part 100d—Audit Appeal Jurisdiction.
Appendix B to Part 100d—Response to Public Comments.

Authority: Section 1232 of the Education Amendments of 1978, Pub. L. 95–561; 92 Stat. 2347–2351 (20 U.S.C. 1234).

Subpart A—General

§ 100d.1 Purpose.

These regulations establish the Education Appeal Board in the Office of Education (OE) in accordance with Section 451 of the General Education Provisions Act, and set forth rules for the conduct of proceedings before the Board.

(20 U.S.C. 1234(a), (e))

§ 100d.2 Jurisdiction.

(a) The Board has jurisdiction to—

(1) Review final audit determinations concerning programs that are—

(i) State-administered programs listed in appendix A (see appendix A to Part 100d);

(ii) Conducted under the Bilingual Education Act; or

(iii) Conducted under the Emergency School Aid Act;

(2) Conduct withholding or termination hearings initiated by authorized OE officials in connection with applicable programs (see § 100d.3 *(Definitions)* for the definition of applicable program);

(3) Conduct cease and desist proceedings initiated by authorized OE officials in connection with applicable programs (see § 100d.3 *(Definitions)* for the definition of applicable program); and

(4) Conduct other proceedings as designated by the Commissioner of Education (the Commissioner) in the **Federal Register.**

(b) The Board also has jurisdiction under Section 182 of Title I of the Elementary and Secondary Education Act of 1965, as amended, to hear an appeal from each State educational agency (SEA) that has received written notice that the Commissioner intends to disapprove the SEA's application for Title I funds. An appeal under section 182 shall be conducted as a withholding hearing.

(20 U.S.C. 1234(a), 20 U.S.C. 2832(b))

§ 100d.3 Definitions.

"Appellant" means an SEA or other recipient that requests—

(a) A review of a final audit determination; or

(b) A withholding or termination hearing.

"Applicable program" means any program administered by an authorized OE official. This definition—

(a) Applies only in the context of withholding or termination hearings and cease and desist hearings;

(b) Includes programs that have been delegated to OE, such as the Emergency School Aid Act;

(c) Does not include the following student assistance programs authorized by Title IV and governed by Section 497A of the Higher Education Act of 1965:

(1) National Direct Student Loan Programs.

(2) College Work-Study Programs.

(3) Supplemental Educational Opportunity Grant Programs.

(4) Guaranteed Student Loan Programs.

(5) Basic Educational Opportunity Grant Programs.

"Authorized OE official" means—

(a) The Commissioner; or

(b) A person employed by OE who has been designated to act under the Commissioner's authority.

"Board" means the Education Appeal Board of OE.

"Board Chairperson" means the Board member designated by the Secretary of the Department of Health, Education, and Welfare to serve as administrative officer of the Board.

"Cease and desist" means to discontinue a prohibited practice or initiate a required practice.

"Final audit determination" means a written notice issued by an authorized OE official disallowing expenditures made by a recipient.

"Hearing" means any review proceeding conducted by the Board. A hearing may include a conference, a review of written submissions, an oral argument, or a full evidentiary hearing.

"Panel" means an Education Appeal Board Panel (see § 100d.5 (*Panels*)).

"Panel Chairperson" means the person designated by the Board Chairperson to serve as the presiding officer of a Panel.

"Party" means—

(a) The recipient requesting or appearing at a hearing under these regulations;

(b) The authorized OE official who issued the final audit determination being appealed, the notice of an intent to withhold or terminate funds, or the cease and desist complaint; and

(c) Any person, group, or agency that files an acceptable application to intervene (see § 100d.43 (*Intervention*)).

"Recipient" means the named party or entity that initially receives Federal funds under an OE grant or cooperative agreement. For example, for a State-administered program conducted under Title I of the Elementary and Secondary Education Act of 1965, as amended, the SEA is the recipient. This definition does not extend to procurement contracts.

"Suspension" means temporarily stopping payment of Federal funds to a recipient and stopping the recipient's authority to charge costs to a program, pending the outcome of a withholding or termination hearing.

"Termination" means ending the payment of Federal funds to a recipient and ending the recipient's authority to charge costs to a program before the recipient's authority to charge costs to a program expires.

"Withholding" means stopping payment of Federal funds to a recipient and stopping the recipient's authority to charge costs to a program, for the period of time the recipient is in violation of a requirement.

(20 U.S.C. 1234(e))

§ 100d.4 Board membership.

The Board consists of 15 to 30 members. Not more than one-third of the Board members may be employees of the Department of Health, Education, and Welfare.

(20 U.S.C. 1234(c))

§ 100d.5 Panels.

(a)(1) For each proceeding before the Board, the Board Chairperson selects a Panel, consisting of at least three members of the Board, and designates one of the Panel members as Panel Chairperson.

(2) The Board Chairperson may designate the entire Board to sit as a Panel for any case or class of cases.

(b) A majority of the members of a Panel must be members of the Board who are not full-time employees of the Federal Government.

(c) No Board member who is a party to, or has or has had any responsibility for the particular matter assigned to a Panel, may serve on that Panel.

(20 U.S.C. 1234(d))

§ 100d.6 Eligibility for review.

(a) Review under these regulations is open to a recipient that receives a written notice from an authorized OE official of—

(1) A final audit determination;

(2) An intent to withhold or terminate funds;

(3) A cease and desist complaint; or

(4) Any other proceeding designated by the Commissioner.

(b) Review under these regulations is also open to an SEA that has received written notice that the Commissioner intend to disapprove the SEA's application for funds under Title I of the Elementary and Secondary Education Act of 1965, as amended. The review shall be conducted as a withholding hearing.

(20 U.S.C. 1234(a), 20 U.S.C. 2832(b))

§ 100d.7 Exhaustion of remedies.

(a) If a recipient receives a written notice referred to in § 100d.6 (*Eligibility for review*) and brings a lawsuit to challenge that notice the recipient has failed to exhaust administrative remedies and the Commissioner may move for dismissal of the lawsuit on that basis.

(b) If the Panel assigned to hear an appeal finds that there are no issues in the appeal within the Board's jurisdiction, the Panel may, at the request of a party or Panel member, issue a decisioin or order to that effect (see subpart F (*Decisions and Orders*)).

(20 U.S.C. 1234, 1234d)

§§ 100d.8–100d.10 [Reserved]

Subpart B—Final Audit Determinations

Written Notice

§ 100d.11 Written notice of a final audit determination.

(a) An authorized OE official may issue written notice of a final audit determination to a recipient in connection with the following:

(1) State-administered programs listed in Appendix A (see appendix A to Part 100d).

(2) Programs administered under the Bilingual Education Act.

(3) Programs administered under the Emergency School Aid Act.

(b) In the written notice, the authorized OE official—

(1) Lists the disallowed expenditures made by the recipient;

(2) Indicates the reasons for the final audit determination in sufficient detail to allow the recipient to respond—for example, by referring to the relevant parts of a separate document, such as an audit report; and

(3) Advises the recipient that it must repay the disallowed expenditures to OE or, within 30 calendar days of its receipt of the written notice, request a review by the Board of the final audit determination.

(c) The authorized OE official sends the written notice to the recipient by certified mail with return receipt requested.

(20 U.S.C. 1234a(a))

§ 100d.12 Review of the written notice.

(a) The Board Chairperson reviews the written notice of the final audit determination after an application for review is received (see § 100d.13 *(Filing an application for review))* to insure that the written notice meets the requirements of § 100d.11(b) (*Written notice of a final audit determination*).

(b) If the Board Chairperson decides that the written notice does not meet the requirements of § 100d.11(b) (*Written notice of a final audit determination*), the Board Chairperson returns the determination to the official who issued it so that the determination may be properly modified.

(c) If the official makes the appropriate modification and the recipient wishes to pursue its appeal to the Board, the recipient shall amend its application for review within 30 calendar days of the date it receives the modification.

(20 U.S.C. 1234a(b))

Application for Review

§ 100d.13 Filing an application for review.

(a) An appellant seeking review of a final audit determination by the Board shall file a written application for review with the Board Chairperson.

(b) The appellant shall attach a copy of the written notice of a final audit determination to the application for review, and shall, to the satisfaction of the Board Chairperson—

(1) Identify the issues and facts in dispute; and

(2) State the appellant's position, together with the pertinent facts and reasons supporting that position.

(c) The appellant shall file the application for review within 30 calendar days after the date it receives the written notice of the final audit determination, unless the Board Chairperson grants an extension of time for a good reason.

(20 U.S.C. 1234.a(b))

§ 100d.14 Acceptance of the application for review.

(a) If the Board Chairperson decides that an application for review satisfies the requirements of § 100d.13 (*Filing an application for review*), the Board Chairperson issues a notice of the acceptance of the application to the appellant and the authorized OE official who issued the final audit determination.

(b) The Board Chairperson publishes a notice of acceptance of the application in the **Federal Register** prior to the scheduling of initial proceedings.

(c) If an acceptable application is filed, the Board Chairperson refers the appeal to a Panel, arranges for the scheduling of initial proceedings, and forwards to the Panel and parties an initial hearing record that includes—

(1) The final audit determination;

(2) The application for review; and

(3) Other relevant documents, such as audit reports.

(20 U.S.C. 1234a(b))

§ 100d.15 Rejection of the application for review.

(a) If the Board Chairperson determines that an application for review does not satisfy the requirements of § 100d.13 (*Filing an application for review*), the Board Chairperson returns the application to the appellant, together with the reasons for the rejection, by certified mail with return receipt requested.

(b) The appellant has 20 calendar days after the date it receives the notice of rejection to file an acceptable application.

(c) If an application for review is rejected two times, OE may take appropriate administrative action to collect the expenditures disallowed in the final audit determination.

(20 U.S.C. 1234a(b))

Burden of Proof

§ 100d.16 Burden of proof.

The appellant shall present its case first and has the burden of proving the allowability of the expenditures disallowed in the final audit determination.

(20 U.S.C. 1234a(b))

§§ 100d.17–100d.20 [Reserved]

Subpart C—Withholding and Termination

Written Notice

§ 100d.21 Written notice of an intent to withhold or terminate funds.

(a) An authorized OE official may issue a written notice of an intent to withhold or terminate funds to a recipient under an applicable program.

(b) In the written notice, the authorized OE official—

(1) States the facts that indicate the recipient failed to comply substantially with a requirement that applies to the funds;

(2) Cites the requirement that is the basis for the alleged failure to comply; and

(3) Advises the recipient that it may request a hearing before the Board.

(c) The authorized OE official sends the written notice to the recipient by certified mail with return receipt requested.

(20 U.S.C. 1234b (a), (b))

Application for a Withholding or Termination Hearing

§ 100d.22 Filing an application for a withholding or termination hearing.

(a) An appellant seeking a withholding or termination hearing before the Board shall file a written application with the Board Chairperson within 30 calendar days after the date it receives the written notice.

(b) In the application for a withholding or termination hearing, the appellant shall attach a copy of the written notice and shall, to the satisfaction of the Board Chairperson—

(1) Identify the issues and facts in dispute; and

(2) State the appellant's position, together with the pertinent facts and reasons supporting that position.

(20 U.S.C. 1234b(b))

§ 100d.23 Acceptance of the application.

(a) If the appellant files an application that meets the requirements of § 100d.22 (*Filing an application for a withholding or termination hearing*), the Board Chairperson issues a notice of the acceptance of the application to the appellant and the authorized OE official who issued the notice of the intent to withhold or terminate.

(b) The Board Chairperson publishes a notice of acceptance of the application in the **Federal Register** prior to the scheduling of initial proceedings.

(c) If the appellant files an acceptable application, the Board Chairperson

refers the appeal to a Panel, arranges for the scheduling of a hearing, and forwards to the Panel and the parties an initial hearing record that includes—

(1) The written notice;

(2) The application for a hearing; and

(3) Other relevant documents.

(20 U.S.C. 1234b(b))

§ 100d.24 Rejection of the application.

(a) If the Board Chairperson determines that an application for a withholding or termination hearing does not satisfy the requirements of § 100d.22 (*Filing an application for a withholding or termination hearing*), the Board Chairperson returns the application to the appellant, together with the reasons for the rejection, by certified mail with return receipt requested.

(b) The appellant has 20 calendar days after the date it receives the notice of rejection to file an acceptable application.

(c) If an application is rejected two times, OE takes appropriate administrative action to withhold or terminate funds.

(20 U.S.C. 1234b(b))

Suspension of Payments

§ 100d.25 Written notice of an intent to suspend funds.

(a) An authorized OE official may issue to the recipient a written notice of an intent to suspend funds during the course of the withholding or termination hearing.

(b) In the written notice, the authorized OE official—

(1) Indicates the reasons for the suspension; and

(2) Advises the recipient that the suspension becomes effective 10 calendar days after the date the recipient receives the written notice, unless within those 10 calendar days the recipient requests an opportunity to show cause why payments should not be suspended.

(c) The authorized OE official sends the written notice to the recipient by certified mail with return receipt requested.

(20 U.S.C. 1234b(c))

§ 100d.26 Request to show cause.

A recipient seeking an opportunity to show cause why payments should not be suspended shall submit a written request for a show cause hearing to the authorized OE official who issued the written notice.

(20 U.S.C. 1234b(c))

§ 100d.27 Show cause hearing.

(a) If a show cause hearing is requested, the authorized OE official—

(1) Notifies the recipient of the time and place for the hearing; and

(2) Designates a person to conduct the show cause hearing. The designee does not have to be a member of the Board but may not be a party to, or have or have had any responsibility for, the matter before the Board.

(b) At the show cause hearing, the designee considers such matters as—

(1) The necessity for the suspension of payments;

(2) Possible factual errors in the written notice of the intent to withhold or terminate;

(3) The nature of the violation charged in the written notice of the intent to withhold or terminate; and

(4) Hardship resulting from the suspension.

(20 U.S.C. 1234b(c))

§ 100d.28 Decision.

(a) The designee who conducts the show cause hearing—

(1) Decides whether there should be a suspension during the course of the withholding or termination hearing;

(2) Issues a written decision which includes a statement of findings;

(3) Submits the decision to the Board Chairperson; and

(4) Sends a copy of the decision to the recipient by certified mail with return receipt requested.

(b) The designee's decision is effective on receipt by the recipient and is not subject to review by the Commissioner.

(c) The Board Chairperson retains the designee's decision as part of the record of the withholding or termination hearing.

(20 U.S.C. 1234b(c))

§§ 100d.29–100d.30 [Reserved]

Subpart D—Cease and Desist

Written Notice

§ 100d.31 Written notice of a cease and desist complaint.

(a) An authorized OE official may issue a written notice of a cease and desist complaint to a recipient receiving funds under an applicable program. The cease and desist proceeding may be used as an alternative to a withholding or termination hearing.

(b) In the written notice, the authorized OE official—

(1) States the facts that indicate the recipient failed to comply substantially with a requirement that applies to the funds;

(2) Cites the requirement that is the basis for the alleged failure to comply; and

(3) Gives notice of a hearing that is to be held at least 30 calendar days after the date the recipient receives the written notice.

(c) The authorized OE official sends the written notice to the recipient by certified mail with return receipt requested.

(20 U.S.C. 1234c(a))

Hearing

§ 100d.32 Right to appear at the cease and desist hearing.

The recipient has the right to appear at the cease and desist hearing, which is held before a Panel of the Board on the date specified in the complaint.

(20 U.S.C. 1234c(b))

§ 100d.33 Opportunity to show cause.

At the hearing the recipient shall have the opportunity to present reasons why a cease and desist order should not be issued by the Board based on the violation of law stated in the complaint.

(20 U.S.C. 1234c(b))

Order

§ 100d.34 Written report and order.

If, after the hearing, the Panel decides that the recipient has violated a legal requirement as stated in the complaint, the Panel—

(a) Makes a written report stating its findings of fact; and

(b) Issues a cease and desist order.

(See § 100d.85 (*The cease and desist report and order*).)

(20 U.S.C. 1234c(c))

§§ 100d.35–100d.40 [Reserved]

Subpart E—Practice and Procedure

General Rules

§ 100d.41 Applicability of this subpart.

This subpart applies only to proceedings before the Board.

(20 U.S.C. 1234(e))

§ 100d.42 Applicability of other laws.

(a) Sections 554, 556, and 557 of the Administrative Procedure Act (5 U.S.C.) apply to proceedings before the Board with respect to—

(1) The receipt of oral or written testimony;

(2) Notice of the issues to be considered;

(3) The right to counsel;

(4) Intervention of third parties; and

(5) Transcripts of proceedings.

(b) Other provisions of the Administrative Procedure Act and the Federal Rules of Civil Procedure do not apply to proceedings before the Board.

(20 U.S.C. 1234(e))

§ 100d.43 Intervention.

(a) A person, group, or agency with an interest in and having relevant information about a case before the Board may file with the Board Chairperson as application to intervene.

(b) The application to intervene shall contain—

(1) A statement of the applicant's interest; and

(2) A summary of the relevant information.

(c)(1) If the application is filed before a case is assigned to a Panel, the Board Chairperson decides whether approval of the application to intervene will aid the Panel in its disposition of the case.

(2) If the application is filed after the Board Chairperson has assigned the case to a Panel, the Panel decides whether approval of the application to intervene will aid the Panel in its disposition of the case.

(d) The Board Chairperson notifies the applicant seeking to intervene and the other parties of the approval or disapproval of the application to intervene.

(e) If an application to intervene is approved, the intervenor becomes a party to the proceedings.

(f) If an application to intervene is disapproved, the applicant may submit to the Board Chairperson an amended application to intervene.

(20 U.S.C. 1234(e))

§ 100d.44 Representation by counsel.

Parties may be represented by counsel.

(20 U.S.C. 1234(e))

§ 100d.45 Filing of documents.

(a) An applicant shall file with the Board Chairperson one copy of an application for review or to intervene.

(b) Once a Panel has been assigned, parties shall—

(1) File with the Board Chairperson five copies of all written motions, briefs—including cited materials that are not readily available—and other documents; and

(2) Provide a copy to each of the other parties to the proceedings.

(c) Parties have 25 calendar days from the date of receipt of any motion to file a response with the Board Chairperson, unless the Panel Chairperson grants an extension for a good reason.

(d) The date of filing is the date the document is postmarked or hand-delivered to the Office of the Board Chairperson. If a scheduled filing date occurs on a Saturday, Sunday, or Federal holiday, the next business day is the date of filing.

(20 U.S.C. 1234(e))

§ 100d.46 Availability of decisions.

The Board Chairperson maintains the files of the Board. The decision of the Board are available to the public on request and with payment of reproduction costs.

(20 U.S.C. 1234(e))

§ 100d.47 Communications.

No party shall communicate with the Panel or Board Chairperson on matters under review, except minor procedural matters, unless all parties to the case are given—

(a) Timely and adequate notice of the communication; and

(b) Reasonable opportunity to respond.

(20 U.S.C. 1234(e))

§ 100d.48 Transcripts.

(a) The Board Chairperson—

(1) Arranges for the preparation of a transcript of each hearing;

(2) Retains the original transcript as part of the record of the hearing; and

(3) Provides one copy of the transcript to each party and Panel member.

(b) Additional copies of the transcript are available on request and with payment of the reporting service's reproduction fee.

(20 U.S.C. 1234(e))

§ 100d.49 Subpoenas.

(a) The Panel does not have authority to issue subpoenas.

(b) The Panel may ask a party to provide for oral or written examination one or more available witnesses who have knowledge about the matter under review.

(20 U.S.C. 1234(e))

§ 100d.50 Exchange of information.

There is no discovery as conducted under the Federal Rules of Civil Procedure, but the parties are encouraged to exchange relevant documents and information.

(20 U.S.C. 1234(e))

§ 100d.51 Evidence.

The Panel accepts any evidence that it finds is relevant and material to the proceedings. Parties may object to evidence they consider to be irrelevant, immaterial, or unduly repetitious.

(20 U.S.C. 1234(e))

§ 100d.52 Panel decisions.

Decisions of the Panel are made by a majority of the Panel members.

(20 U.S.C. 1234(e))

§ 100d.53 Intermediate review.

The parties may not file comments with the Commissioner regarding matters under review or any rulings of a Panel until the Panel has reached its decision. (See § 100d.81 (*The Panel's decision*).)

(20 U.S.C. 1234(e))

§§ 100d.54–100d.60 [Reserved]

Panel Proceedings

§ 100d.61 Authority and responsibilities of Panels.

(a) The Panel may regulate the course of proceedings and the conduct of the parties during the proceedings. The Panel takes all steps necessary to conduct a fair and impartial proceeding, to avoid delay, and to maintain order, including the following:

(1) The Panel may hold conferences or other types of appropriate proceedings to clarify, simplify, or define the issues or to consider other matters that may aid in the disposition of an appeal.

(2) The Panel may require parties to state their positions and to provide all or part of the evidence in writing.

(3) the Panel may require parties to present testimony through affidavits and to conduct cross-examination through interrogatories.

(4) The Panel may direct the parties to exchange relevant documents or information and lists of witnesses, and to send copies to the Panel.

(5) The Panel may receive, rule on, exclude, or limit evidence at any stage of the proceedings.

(6) The Panel may rule on motions and other issues at any stage of the proceedings.

(7) Although hearings are open to the general public, the Panel may establish reasonable rules for public attendance and media coverage of the proceedings.

(8) The Panel may examine witnesses.

(9) The Panel may set reasonable time limits for submission of written documents.

(10) The Panel may end an appeal and issue a decision against a party if that party does not meet the time limits set by the Panel or otherwise delays the appeal.

(b) The Panel may interpret applicable statutes and regulations but may not waive them or rule on their validity.

(20 U.S.C. 1234(e))

§ 100d.62 Conferences.

(a) The Board Chairperson may schedule a prehearing conference of the Panel members and parties.

(b) A Panel member or party may request a conference of the Panel members and parties except in the case of a show cause proceeding. The Panel Chairperson decides whether a conference is necessary.

(c) At a prehearing or other conference the Panel and the parties may consider such subjects as—

(1) Narrowing and clarifying issues;

(2) Assisting the parties in reaching agreements and stipulations;

(3) Clarifying the positions of the parties;

(4) Presenting the direct case of the parties in writing, in whole or in part, or conducting an oral argument or evidentiary hearing;

(5) Setting the dates for the exchange of written documents, the receipt of comments from the parties on the need for an oral argument or evidentiary hearing, and further proceedings before the Panel; and

(6) Requesting the names of witnsses each party wishes to present at an evidentiary hearing and estimates of time for each presentation.

(d) At a prehearing or other conference the parties shall be prepared to respond to the subjects listed in paragraph (c).

(e) Following a prehearing or other conference the Panel may issue a written statement describing the issues raised, the action taken, and the stipulations and agreements reached by the parties.

(20 U.S.C. 1234(e))

§§ 100d.63–100d.70 [Reserved]

Presentation of Case

§ 100d.71 Written submissions normally required.

The parties shall present their positions through briefs and the submission of other documents but may request an oral argument or evidentiary hearing. The Panel shall determine whether an oral argument or evidentiary hearing is needed to clarify the positions of the parties.

(20 U.S.C. 1234(e))

§ 100d.72 Notice of an oral argument or evidentiary hearing.

If the Panel decides that an oral argument or evidentiary hearing is necessary, the Panel Chairperson sends written notice of this decision to all parties. The notice states the time and place of the proceeding and the issues to be considered. The notice may be published in the **Federal Register** upon the request of a party or Panel member.

(20 U.S.C. 1234(e))

§ 100d.73 Conduct of a hearing.

A hearing is generally conducted by all the Panel members, but, if circumstances require, a hearing may be conducted by one or more Panel members. All the Panel members shall participate in the Panel's decision.

(20 U.S.C. 1234(e))

§§ 100d.74–100d.80 [Reserved]

Subpart F—Decisions and Orders

Final Audit Determinations, Withholdings, and Terminations

§ 100d.81 The Panel's decision.

The Panel issues a decision in the appeal from the final audit determination or the intent to withhold or terminate funds. The Board Chairperson submits the Panel's decision to the Commissioner and sends a copy to each party by certified mail with return receipt requested.

(20 U.S.C. 1234a(d), 20 U.S.C. 1234b(d))

§ 100d.82 Opportunity to comment on the Panel's decision.

(a) *Initial comments and recommendations.* Each party has the opportunity to file comments and recommendations on the Panel's decision with the Board Chairperson within 15 calendar days of the date the party receives the Panel's decision.

(b) *Responsive comments and recommendations.* The Board Chairperson sends a copy of a party's initial comments and recommendations to each of the other parties by certified mail with return receipt requested. Each party may file responsive comments and recommendations with the Board Chairperson within 7 calendar days of the date the party receives the initial comments and recommendations.

(c) The Board Chairperson forwards the parties' initial and responsive comments on the Panel's decision to the Commissioner.

(20 U.S.C. 1234a(d), 20 U.S.C. 1234b(d)

§ 100d.83 The Commissioner's decision.

(a) The Panel's decision becomes the final decision of the Commissioner 60 calendar days after the date the recipient receives the Panel's decision, unless the Commissioner, for good cause shown, modifies or sets aside the Panel's decision. If the recipient wishes to file a petition for judicial review of the Panel's decision, the recipient shall file the petition within those 60 days. (See Section 455 of the General Education Provisions Act (20 U.S.C. 1234d) for a discussion of judicial review.)

(b) If the Commissioner modifies or sets aside the Panel's decision within the 60 days, the Commissioner issues a decision that—

(1) Includes a statement of the reasons for this action; and

(2) Becomes the Commissioner's final decision 60 calendar days after it is issued.

(c) The Board Chairperson sends a copy of the Commissioner's final decision and statement of reasons, or a notice that the Panel's decision has become the Commissioner's final decision, to the Panel and to each of the parties. If the recipient wishes to file a petition for judicial review of the Commissioner's final decision, the recipient shall file the petition within 60 calendar days of the date of the Commissioner's final decision (see 20 U.S.C. 1234d).

(d) The final decision of the Commissioner is the final decision of the Department.

(20 U.S.C. 1234a(d), 1234b(d), 1234d)

§ 100d.84 Collection.

If the final decision of the Commissioner sustains the final audit determination or the intent to withhold or terminate funds, OE takes immediate steps to collect the debt or withhold or terminate funds.

(20 U.S.C. 1234a(e), 20 U.S.C. 1234b)

Cease and Desist

§ 100d.85 The cease and desist report and order.

(a) If the Panel issues a cease and desist report and order (described in §100d. 34 *(Written report and order)*), the Board Chairperson sends the report and order to the recipient by certified mail with return receipt requested.

(b) The order becomes final 60 calendar days after the date the order is received by the recipient. The recipient may file a petition for judicial review within those 60 days. (See Section 455 of the General Education Provisions Act (20 U.S.C. 1234d) for a discussion of judicial review.) The order is not subject to review by the Commissioner.

(20 U.S.C. 1234c(d), 1234d)

§ 100d.86 Enforcement.

(a) If the Panel issues a cease and desist report and order, the recipient shall take immediate steps to comply with the order.

(b) If, after a reasonable period of time, the Commissioner determines that the recipient has not complied with the cease and desist order, the Commissioner may—

(1) Withhold funds payable to the recipient under the affected program, including funds payable for administrative costs, without any further proceedings before the Board; or

(2) Certify the facts of the matter to the Attorney General for enforcement through appropriate proceedings.

(20 U.S.C. 1234c(e))

§§ 100d.87–100d.90 [Reserved]

Appendix A to Part 100d—Audit Appeal Jurisdiction

State-Administered Programs within the Audit Appeal Jurisdiction of the Education Appeal Board:

(a) Programs referred to in Section 452 of the General Education Provisions Act (20 U.S.C. 1234a):

(1) Financial assistance to State and local educational agencies under Title I of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 2701).

(2) Financial assistance for school library resources, textbooks, and other instructional materials under Title II of the Elementary and Secondary Education Act of 1965 (as in effect, September 30, 1978) (20 U.S.C. 821).

(3) State basic skills improvement programs under Title II–B of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 2901).

(4) Supplementary educational centers and services; guidance, counseling, and testing under Title III of the Elementary and Secondary Education Act of 1965 (as in effect, September 30, 1978) (20 U.S.C. 841).

(5) Instructional materials and school library resources; improvement in local educational practices; and guidance, counseling, and testing under Title IV of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 1801).

(6) Community schools programs under Title VIII of the Elementary and Secondary Education Act of 1965 (except sections 809–813) (20 U.S.C. 3281).

(7) Gifted and talented children's education programs under Title IX of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 3311).

(8) Assistance to States for education of handicapped children under Part B of the Education of the Handicapped Act (20 U.S.C. 1411).

(9) State adult education programs under the Adult Education Act (except sections 309, 316, and 318) (20 U.S.C. 1201).

(10) Financial assistance for strengthening instruction in science, mathematics, modern foreign languages, and other critical subjects under Title III–A of the National Defense Education Act of 1958 (except section 305) (20 U.S.C. 441).

(11) Programs under the Career Education Incentive Act (except sections 10, 11, and 12) (20 U.S.C. 2601).

(12) Programs under Title II of the Indochina Refugee Children's Assistance Act (20 U.S.C. 1211b).

(13) Programs under Title VI, Part A of the Higher Education Act (20 U.S.C. 1121).

(14) Educational information centers programs under Sections 418 A and B of the Higher Education Act (20 U.S.C. 1070d-2).

(b) Programs designated by the Commissioner as being within the audit appeal jurisdiction of the Education Appeal Board:

(1) Vocational education programs under the Vocational Education Act of 1963: part A of title I (State vocational education programs) (20 U.S.C. 2301).

(2) Community service and continuing education programs under Part A of Title I of the Higher Education Act of 1965 (except sections 106, 110, and 111) (20 U.S.C. 1001).

(3) Programs under the Library Services and Construction Act (20 U.S.C. 351).

Note.—This Appendix B for Part 100d will not be published in Title 45 of the Code of Federal Regulations.

Appendix B to Part 100d—Response to Public Comments

The Commissioner has responded to all the public comments OE recieved concerning the interim final regulations for the Education Appeal Board with the exceptions of general comments that did not suggest how the regulations could be changed, statements that could not be understood, or statements that concerned issues beyond the scope of regulations establishing procedures for the Board. A summary of those comments and the Commissioner's responses follows.

General

Comment. Two commenters raised questions concerning the jurisdiction of the Educational Appeal Board. One commenter suggested that the regulations clarify the fact that the Board has no jurisdiction over bypass actions under Titles I and IV, ESEA, and one commenter asked who would hear appeals if applications for funds are denied.

Response. No change has been made. At present, the Board does not have jurisdiction to conduct bypass actions. It has specific statutory authority to hear appeals from State educational agencies if applications for funds under Title I of the Elementary and Secondary Education Act of 1965, as amended, are disapproved by the Commissioner, but that authority does not exend to appeals from denials of other applications for funds.

Both these points are made in the preamble to the final regulations. However, the Commissioner does not believe that it would be useful to attempt to list all proceedings that fall outside the Board's jurisdiction or appropriate to single out a few of those proceedings for special mention in the final regulations.

Comment. One commenter suggested that cease and desist orders be used to effect complaince with Title IX, and that the regulations make explicit the possibility that violations of program prohibitions against sex discrimination might trigger withholding, termination, or cease and desist proceedings.

Response. No change has been made. Since regulations have been promulgated that give the Department's Office for Civil Rights authority to enforce Title IX, the Commissioner sees a number of legal and practical difficulties in using cease and desist proceedings before the Education Appeal Board to enforce Title IX against recipients of Federal education funds. The Commissioner has determined that in view of possible legal problems resulting from the use of cease and desist orders to enforce Title IX, and the already substantial caseload of the Board, Board proceedings should not be used as an alternative means of enforcing Title IX.

Violations of program prohibitions against sex discrimination contained in various program regulations may give rise to OE enforcement action before the Board. However, the purpose of the Board regulations is to establish the Board and rules for the conduct of proceedings before the Board. The Commissioner does not consider it appropriate, through the publication of these regulations, to single out any particular program or program prohibitions for special emphasis, to suggest that some program prohibitions are more or less important than others, or to involve the neutral and impartial Board in statements of OE policy.

Comment. One commenter suggested that the regulations spell out the form of determinations that may trigger OE initiation of Board proceedings. Another commenter suggested that the regulations set out an internal review process for OE initiation of Board proceedings.

Response. No change has been made. Any attempt to define OE internal decision-making processes through the Board regulations would go beyond the stated purpose of the regulations and exceed the Board's authority. In the Commissioner's judgment, it would be improper to link the Board to any degree with internal OE decisions to initiate enforcement proceedings.

Comment. One commenter suggested that the regulations state when an audit is complete; set standards for the quality of a final audit determination; and limit

audit appeals to the issues presented in the final audit determination.

Response. No change has been made. The Board has no authority to set standards for audits of OE programs. However §§ 100d.11 and 100d.12 of the regulations set notice standards for final audit determinations and provide for review of final audit determinations that have been appealed to ensure that the determinations meet the notice standards. Section 100d.51 and 100d.61(a)(4) allow Panels to rule on questions of relevancy. The Commissioner believes that these provisions are sufficient.

Comment. One commenter suggested that the regulations express the Secretary's intent to ensure adequate representation of women and minorities on the Board.

Response. No change has been made. The Secretary, the Assistant Secetary for Education, and the Commissioner remain committed to ensuring that women and members of minority groups are adequately represented on the Board. Special efforts have been and are being made to recruit women and minorities to fill Board vacancies.

Comment. One commenter objected to the designation of the Title I Audit Hearing Board as the Education Appeal Board.

Response. No change has been made. The Commissioner's designation, and the Secretary's approval, of the Title I Audit Hearing Board as the Education Appeal Board was authorized by Section 451(f) of the General Education Provisions Act. The only requirement was that the existing appeal board be capable of carrying out the functions of the Education Appeal Board. The Commissioner and the Secretary determined that the Title I Audit Hearing Board met this requirement.

Comment. Two commenters questioned the policy of not including in the regulations all the provisions contained in Sections 451 through 456 of the General Education Provisions Act in the regulations.

Response. The Commissioner believes that all the sections that pertain directly to Board proceedings, and that recipients need to know to participate in Board proceedings, are included in the regulations. The sections outlining the Commissioner's authority to compromise claims or return recovered funds and the section providing for judicial review are not appropriate subjects for inclusion in procedural regulations for the Board.

Comment. Several commenters objected to OE's decision to proceed with interim final regulations rather than a notice of proposed rulemaking.

Response. No change has been made. In view of the procedural nature of the rules, the Commissioner does not believe that OE was required to publish a notice of proposed rulemaking. In addition, the Commissioner believes that it was in the public interest to establish the Board as an effective appeal mechanism at the earliest possible date so that recipients would be able to exercise their newly-granted rights of appeal.

The members of the public were given an opportunity to comment on the interim final regulations. Those comments were considered carefully in the drafting of the final regulations.

Section 100d.3 Defintions.

Comment. Two commenters objected to the definition of "authorized OE official" as being too broad and suggested that including the Commissioner as an authorized OE official might lead to a conflict of interest since the Commissioner reviews all decisions. The commenters also suggested that granting authority to "authorized OE officials" conflicts with the recently-published Notice of Proposed Rulemaking for the Education Division General Administrative Regulations (44 FR 26298, May 4, 1979), specifically § 100b.900 which reads:

> No act or failure to act by an official agent, or employee of HEW can affect the responsibility of the Commissioner to enforce a regulation.

Response. No change has been made. The Commissioner does not agree that the definition of "authorized OE official" is too broad, because it is necessary as an administrative matter to allow OE employees to be designated to act for the Commissioner. However, the statute clearly gives the Commissioner the authority to issue final audit determinations and notice of withholding, termination, and cease and desist proceedings, and does not require the Commissioner to delegate that authority. For that reason, the definition of "authorized OE official" includes both the Commissioner and OE employees designated to act under the Commissioner's authority.

Further, the Commissioner does not see a conflict between allowing authorized OE officials to act for the Commissioner and § 100b.900 of the Education Division General Administrative Regulations. Section 100b.900 does not suggest that the Commissioner may not designate OE employees to act under the Commissioner's authority.

Comment. Two commenters objected to the inclusion of the phrase "or initiate a required practice" in the definition of "cease and desist" on the ground that a cease and desist order cannot mandate a required act.

Response. No change has been made. Section 454 of the General Education Provisions Act allows the Board to issue a cease and desist order requiring a recipient that has violated the law to cease and desist from the practice, policy, or procedure that resulted in the violation. The Commissioner believes that, in some instances, compliance with the cease and desist order will require the recipient to perform an affirmative act.

For example, if the recipient violated a statutory or regulatory requirement by failing to keep adequate records, the recipient would have to implement an adequate recordkeeping system to comply with both the order and the law. The Commissioner believes that the definition of "cease and desist" contained in § 100d.3 simply reflects that possibility.

Comment. One commenter said that the definition of "hearing" should be more limited.

Response. No change has been made. Adequate review in a case before the Board could range from a Panel's review of written submissions to an extended series of conferences, oral arguments, or evidentiary hearings. The definition of the word "hearing" was intended to be broad so that Panels might have maximum flexibility in adequately reviewing cases.

Comment. Several commenters suggested that the definition of "recipient" explicitly include a local educational agency.

Response. A change has been made. The word "initially" has been added to the definition of "recipient" so that "recipient" is defined as "the named party or entity that initially receives Federal funds under an OE grant or cooperative agreement."

Under some direct grant programs, a local educational agency will be the named party or entity that initially receives funds, and will have the right to appeal adverse audit determinations or withholding, termination, or cease and desist actions.

Under most State-administered programs, however, the State educational agency initially receives the funds, bears the responsibility for ensuring that Federal education funds are spent properly, and should recieve the final audit determination or written notice of withholding, termination, or cease and desist proceedings. An example now noted in the definition is a program conducted under Title I of the Elementary and Secondary Education

Act of 1965, as amended, where the State educational agency is the recipient and will have the right of appeal.

The addition of the word "initially" to the definition of recipient, and the inclusion of the example, should clarify this point.

Section 100d.4 Board membership.

Comment. One commenter suggested that employees of the HEW Audit Agency be prohibited from serving on the Board.

Response. No change has been made. Section 451 of the statute provides that the Secretary shall designate the members of the Board in consultation with the Assistant Secretary for Education and the Commissioner. The only restriction imposed by the statute is that no more than one-third of the Board members may be HEW employees.

Section 100d.5 Panels.

Comment. One commenter suggested that HEW employees representing the programs involved in the cases before the Board be appointed to the Board.

Response. No change has been made. The Commissioner believes that the Board should be as impartial as possible and that program representatives would have, or at least appear to have, an interest or bias in the matter.

Comment. One commenter pointed out that the statute requires only that a majority of the members of a Panel not be individuals in the full-time employment of the Federal government. The interim final regulations were more restrictive.

Response. A change has been made. The regulations have been amended to reflect the statute.

Comment. One commenter noted that the statute excludes an individual who has responsibility for a matter before the Board from serving on the Panel that hears the matter, while the regulations broaden the provision to exclude any person who has or has had responsibility.

Response. The regulations are more restrictive in an effort to minimize further the possibility that a Board member will have a conflict of interest or bias with regard to the matter at hand.

Section 100d.7 Exhaustion of remedies.

Comment. Several commenters stated that exhaustion of remedies should not be required if the Panel fails or refuses to rule on questions of its own jurisdiction or on the validity of OE rules and regulations.

Response. A change has been made. The Commissioner agrees that if the only issues in a case before the Board fall outside the Board's jurisdiction, the recipient should not be required to argue those issues before the Board. The change in the regulations allows the Panel assigned to hear an appeal to decide that there are no issues in the case within the Board's jurisdiction and to issue a decision or order to that effect. That decision or order would be subject to review by the Commissioner but, once final, should allow the recipient to proceed to court.

Comment. One commenter objected to imposing a timeliness requirement on the recipient but not OE.

Response. A change has been made. The use of the word "timely" in § 100d.7 was not intended to suggest that only the recipient was required to proceed in a timely manner, and the word has been deleted to remove that suggestion. Of course, the recipient must still bring a proper administrative appeal, and a proper administrative appeal would necessarily be timely.

Comment. One commenter objected to the failure to cite a statutory authority for the section, and suggested that the section was contrary to the legislative intent expressed in Section 455 of the General Education Provisions Act providing for judicial review.

Response. A change has been made. Statutory citations have been supplied. The Commissioner believes that by establishing the Board as an administrative forum and providing for judicial review of Board actions, Congress intended recipients to take their cases to the Board before going into court.

Section 100d.11 Written notice of a final audit determination.

Comment. One commenter suggested that OE be required to list the source documents used in making the audit determination.

Response. No change has been made. The written notice of a final audit determination is designed simply to advise the recipient that OE has determined that Federal education funds were misspent, not to lay out OE's case in detail. A listing of source documents may be requested at a later date under § 100d.50 providing for an exchange of relevant information between the parties.

Section 100d.12 Review of the written notice.

Comment. Two commenters suggested that the Board Chairperson review the final audit determination before it is sent to the audited agency.

Response. No change has been made. A final audit determination does not come within the Board's jurisdiction until it has been appealed. Further, the Commissioner does not believe that it would be appropriate to involve the Board in the audit determination process. That involvement would jeopardize the Board's neutrality.

Section 100d.13 Filing an application for review.

Section 100d.14 Acceptance of an application for review.

Section 100d.15 Rejection of an application for review.

Comment. One commenter asked why the Board's authority to review and accept or reject an application for review was delegated under the regulations to the Board Chairperson.

Response. The Board Chairperson was delegated responsibility for reviewing applications for review because it would be administratively difficult, time-consuming, and unduly expensive to convene the entire Board, or even several members of the Board, to review each application for review.

By allowing the Board Chairperson to initially review each application to see if it meets minimal information requirements, the regulations help to streamline the appeal process and allow the time and attention of the other Board members to be saved for, and directed to, the merits of the cases.

Section 100d.13 Filing an application for review.

Comment. One commenter noted that under the statute, the Board is to specify the form and information required in an application for review, but that under the regulations it appeared that the Commissioner is prescribing the format and information required in the application.

Response. No change has been made. The regulations set out certain minimal requirements for review so that appellants will not have to contact the Board or turn to other sources for information before submitting their applications for review. Since appellants have only 30 days in which to seek review, it is to their advantage to have easy reference to the application requirements. Current members of the Board were involved in the drafting of the regulations.

Comment. One commenter noted that the statute—unlike the regulations—did not allow an extension of time for filing an application for review.

Response. No change has been made. Although the legislation does not provide for an extension of the 30-day time period for filing an application for review, the Title I Audit Hearing Board—the predecessor to the

Education Appeal Board—found that some cases involved such complicated issues or so many different localities that 30 days did not allow an appellant sufficient time in which to prepare an adequate application for review.

The Title I Board Chairperson, having received a fair number of requests from appellants for extensions of the 30-day time period, attempted to accommodate the appellants if the requests appeared reasonable. The Commissioner believes that the Education Appeal Board should have the same flexibility.

Comment. Several commenters suggested that the 30 calendar days allowed for filing an application for review should be extended to 60 calendar days.

Response. No change has been made. The 30 day time limit was set by the statute.

Section 100d.14 Acceptance of the application for review.

Comment. One commenter said that the regulations should speak to the quality of audit reports included in initial hearing records.

Response. No change has been made. Since the Board has no authority to oversee audits conducted by employees of the Department, it would not be appropriate to include standards for audit reports in the Board regulations.

Section 100d.15 Rejection of the application for review.

Comment. Several commenters thought that an appellant should have 60 calendar days, rather than 20, to file a second, acceptable application for review. Another commenter thought that an appellant should be allowed to request technical assistance from OE in preparing the second application for review.

Response. The Commissioner believes that since the appellant has already had 30 days to prepare the initial application for review, 20 additional days allows the appellant a reasonable amount of time in which to prepare an amended application for review. The Commissioner also believes that technical assistance from OE is neither necessary, since the requirements for an application for review are so minimal, nor appropriate, since the appellant is appealing an OE determination.

Section 100d.16 Burden of proof.

Comment. One commenter asked why the regulations specified that the appellant in an audit appeal is required to present its case first, and why the statutory wording placing the burden of proof on the appellant was rephrased in the regulations.

Response. No change has been made. The regulations specify that the appellant shall present its case first to settle a procedural issue that frequently arose in cases before the Title I Audit Hearing Board. The Title I Board found that since the appellant had the burden of proof, and generally had access to the necessary materials—e.g., payroll records—it made sense to have the appellant present its case first.

Although the wording of the regulations is slightly different than the wording of the statute with regard to the burden of proof in an audit appeal, the change in wording is not intended to change the meaning of the law. The change was made because the phrase "burden of proof" is commonly used while "burden of demonstration" does not have the same generally accepted meaning.

Comment. One commenter said that the auditing agency should have the burden of proving that expenditures should be disallowed.

Response. No change has been made. Section 452(b) of the statute places the burden of proof in an audit appeal on the appellant.

Subpart C—Withholding and Termination.

Comment. Two commenters objected to the interpretation of withholding to include termination.

Response. A change has been made, as noted in section B of the supplementary information contained in the preamble to the regulations. To remove any objection, the Commissioner designates, under section 451(a)(4) of the statute and through the publication of these regulations, termination proceedings initiated by authorized OE officials as being within the jurisdiction of the Education Appeal Board.

Section 100d.25 Written notice of an intent to suspend funds.

Comment. Several commenters said that a recipient of a written notice of an intent to suspend funds should have 30 days, rather than 10, to request an opportunity to show cause why payments should not be suspended.

Response. No change has been made. The Commissioner believes that if funds are to be suspended to prevent the misspending of the funds, the funds should be suspended as quickly as possible. Further, since the recipient is only required to request an opportunity to show cause why payments should not be suspended within the 10 days, and the suspension is only a temporary hold on funds pending the outcome of the withholding or termination proceeding, the Commissioner believes that the 10 day period is adequate to protect the recipient's interests.

Section 100d.26 Request to show cause.

Section 100d.27 Show cause hearing.

Section 100d.28 Decision.

Comment. One commenter was concerned about who is to be the authorized OE official responsible for overseeing the show cause proceeding, and whether it would present a conflict of interest to have the official who first issued the notice designate the person to conduct the show cause hearing.

Response. A change has been made. The suspension procedures were designed so that any improper expenditure of Federal education funds may be halted as soon as possible. The regulations therefore allow an authorized OE official to designate a person who is not necessarily a Board member, but who is immediately available, to conduct the show cause proceeding.

The regulations have been amended to impose the same conflict of interest standard on a designee as the statute imposes on a Board member; i.e., a person may not be designated to conduct a suspension proceeding who is a party to, or has or has had any responsibility for, the matter before the Board.

Comment. Two commenters did not think that it was clear how a suspension proceeding meshed with a withholding or termination hearing, and suggested that the disposition become part of the record of the case.

Response. A change has been made. The regulations now provide that an order to suspend funds will become part of the record in a withholding or termination proceeding.

Comment. One commenter asked why the decision was not subject to review by the Commissioner.

Response. No change has been made. The designee's decision was not made subject to review by the Commissioner because review would require a substantial amount of time and unduly delay the effective date of the suspension. Since a suspension is only temporary pending the outcome of a withholding or termination hearing, the lack of review should not irreparably harm the appellant.

Section 100d.42 Applicability of other laws.

Comment. Several commenters argued that the entire Administrative Procedure Act and the Federal Rules of Civil Procedure, in particular Rules 26–37

providing for discovery, should be applicable to Board proceedings.

Response. No change has been made. Since section 451(e) of the statute specified certain sections of the Administrative Procedure Act that were to be applicable to Board proceedings, the Commissioner believes that Congress intended only those sections of the APA to apply to Board proceedings. The Commissioner believes that Board proceedings are intended to be less formal, less time-consuming, and less complicated than hearings conducted by administrative law judges or courts of law. For the same reason, the Commissioner does not believe that the Rules of Civil Procedure should be made applicable to Board proceedings.

Section 100d.43 *Intervention.*

Comment. One commenter was concerned that a party who could aid the Board in its disposition of a case might be denied permission to intervene under § 100d.43.

Response. A change has been made. The regulations require approval for intervention so that only those third parties who have a real interest in or contribution to make to Board proceedings may take part in those proceedings. The regulations have been amended so that an applicant who could aid the Board in the disposition of a case will not be denied permission to intervene under this standard.

Comment. Several commenters argued that the regulations should provide for the joinder of local educational agencies in cases involving State-administered programs.

Response. No change has been made. The Board does not have authority under the statute to join local educational agencies that are unwilling to participate in a State educational agency's appeal. Local educational agencies may apply to intervene under § 100d.43 if their interests are at stake.

Section§ 100d.46 *Availability of decisions.*

Comment. One commenter asked whether § 100d.46 limited the provisions of the Freedom of Information Act.

Response. A change has been made. This section of the regulations was not intended to limit the Freedom of Information Act but rather to advise the public that Board decisions are available on request. The regulations have been amended to provide that Board decisions are available on request and with payment of the reproduction costs. This provision is consistent with the Freedom of Information Act.

Section § 100d.49 *Subpoenas.*

Section § 100d.50 *Exchange of information.*

Section § 100d.51 *Evidence.*

Comment. Several commenters suggested that the regulations be changed to require parties to lay proper foundations for the admission of evidence.

Response. No change has been made. Section 100d.51 is intended to allow Panels to (1) conduct proceedings that are less formal and less technical in nature than proceedings conducted by administrative law judges or courts of law, and (2) admit all information that may aid the Panels in reaching their decisions.

Section § 100d.61 *Authority and responsibilities of Panels.*

Comment. Several commenters stated that the Board should have a subpoena power and the authority to order discovery.

Response. No change has been made. The Board does not have statutory authority to issue subpoenas or mandate discovery. Again, the Commissioner believes that Board proceedings are intended to be less formal, less time-consuming, and less complicated than proceedings conducted by administrative law judges or courts of law.

Comment. One commenter stated that the regulations did not cite any statutory authority for § 100d.61.

Response. No change has been made. As noted in section D of the supplementary information in the preamble to the regulations, if all the provisions of a subpart are supported by the same citation, the citation is given at the end of the subpart. Section 100d.61 is supported by the citation given at the end of the subpart on Panel proceedings.

Comment. One commenter was concerned that the dissemination of information concerning a Board proceeding by the appellant might be limited or that proceedings before the Board might be closed to the public.

Response. A change has been made. It is not the Commissioner's intent to either limit the dissemination of information or close Board proceedings to the public. Section 100d.61(a)(7) has been amended to clarify that Board hearings are open to the general public but that the Panel may establish reasonable rules for public attendance and media coverage of the proceedings.

Comment. One commenter suggested that the Panel set a minimum of 30 days for responses unless the recipient indicates that it can respond in a shorter time span.

Response. A change has been made. The Commissioner wishes to allow the Panels maximum flexibility in setting time limits for the submission of written documents. However, the regulations have been amended to provide that the Panel may set reasonable time limits.

Comment. Two commenters objected to the Panel's authority to end an appeal without giving the parties an opportunity for a show cause hearing, and argue that there is no statutory authority for the power.

Response. No change has been made. Section 451(e) of the General Education Provisions Act authorizes the Commissioner to prescribe rules for the conduct of proceedings before the Board. As noted in the preamble to the interim final regulations, the Title I Audit Hearing Board found that parties in several instances were unduly slow in presenting their cases. Panels were given the authority to end appeals so that they might avoid excessive delays in the future. The Commissioner recognizes that the ending of an appeal is a serious remedy, but expects that the remedy will be used judiciously.

Comment. One commenter stated that "Panel interpretations" should be printed in one source and made available.

Response. No change has been made. As provided in § 100d.46 of the regulations, Board decisions are available to the public on request and with payment of reproduction costs.

Section 100d.71 *Written submissions normally required.*

Comment. One commenter said that the audited agency should have the opportunity to request an oral argument or evidentiary hearing. A second commenter said that an oral argument or evidentiary hearing should be schedulde upon a showing of good cause by the recipient. A third commenter said that the regulations should provide standards to be used by Panels to determine the need for oral argument or full hearings.

Response. A change has been made. The regulations have been amended to provide that parties may request oral arguments or evidentiary hearings. The Commissioner believes that determinations as to the need for oral arguments or evidentiary hearings are properly left to the discretion of the Panels hearing the cases.

Section 100d.72 Notice of an oral argument or evidentiary hearing.

Comment. Two commenters argued that notice of oral arguments and evidentiary hearings should be published in the **Federal Register.**

Response. A change has been made. The Commissioner does not believe that it is either necessary in every case or required by law that the Board publish a notice of each hearing in the **Federal Register.** However, the regulations have

been amended to provide that a party or Panel member may request that a notice of a hearing be published in the Federal Register. The Commissioner expects that notices will be published if reasonable requests are made.

Section 100d.73 Conduct of a hearing.

Comment. One commenter thought that a three-member Panel should conduct a hearing. A second commenter asked why a quorum requirement was not imposed for proceedings other than oral arguments and evidentiary hearings.

Response. A change has been made. Under the statute, at least three Board members are assigned to each Panel. The regulations have been amended to make it clear that all the members of a Panel shall participate in the Panel's decision, and that hearings are generally conducted by all Panel members. This provision allows hearings to proceed as scheduled should a Panel member be unable to attend a hearing, but ensures that decisions are made by qll the Panel members.

Section 100d.81 The Panel's decision.

Comment. One commenter suggested that the regulations specify that a majority of the Board be present to approve a finding or decision of a Panel and that a majority approve the findings or decisions.

Response. No change has been made. It was the practice of the Title I Audit Hearing Board to consider the decisions of its Panels to be the decisions of the Board. Since many of the cases are very complex, it would be time-consuming and expensive, as well as administratively difficult, to convene the entire Board or even a majority of Board members to review the decisions of its Panels. The Commissioner therefore believes that it is wise, as well as practical, to continue to allow Panels to make decisions for the Board for submission to the Commissioner.

Section 100d.82 Opportunity to comment on the Panel's decision.

Comment. Two commenters said that post-hearing comments are counterproductive and that the parties should have some assurance the Commissioner will review the comments.

Response. No change has been made. The Commissioner believes that comments will aid the Commissioner in reviewing Board decisions. Parties are not required to submit comments under the regulations, but may take advantage of the opportunity to submit comments for the Commissioner's consideration.

Section 100d.83 The Commissioner's decision.

Comment. One commenter said that it was not clear that the person reviewing the Panel's decision must be the Commissioner.

Response. No change has been made. The word "Commissioner" rather than the phrase "authorized OE official" is used to indicate that the person who reviews the Panel's decision is the Commissioner.

Comment. Two commenters pointed out that there was no statutory basis for stating that the Commissioner would modify or set aside the Panel's decision if that decision were clearly erroneous.

Response. A change has been made. The regulations have been amended to state that the Commissioner may modify or set aside the Panel's decision "for good cause shown," the standard used in the statute.

Section 100d.84 Collection.

Comment. One commenter asked why § 100d.84 on collection was included since it did not pertain directly to Board proceedings. Two commenters pointed out that no statutory authority was cited for the section.

Response. A change has been made. Although the section does not pertain directly to Board proceedings, the Commissioner thought it would be helpful to recipients to indicate the effect of a final decision in audit appeals or withholding or termination proceedings. Citations have been added, which refer readers to Sections 452(e) and 453 of the General Education Provisions Act. Section 452(e) provides that if a Board decision upholds a final audit determination, the decision establishes the amount of the determination as a claim of the United States that the recipient is required to pay. Section 453 authorizes the Commissioner to withhold funds.

Comment. One commenter asked whether local educational agencies would be directly accountable to OE.

Response. Local educational agencies will be directly accountable to OE if they are recipients under OE grants or cooperative agreements. (See the comment and response concerning the definition of "recipient" under the preceding discussion for § 100d.3.)

Section 100d.85 The cease and desist report and order.

Comment. One commenter suggested that the provisions of Section 454(e) of the General Education Provisions Act regarding the enforcement of a cease and desist order be included in the regulations.

Response. A change has been made. Section 100d.86 on enforcement of a cease and desist order has been added to the regulations. The section provides that if after a reasonable period of time, the Commissioner determines that a recipient has not complied with a cease and desist order, the Commissioner may withhold funds or refer the matter to the Attorney General.

BILLING CODE 4110-02-M

federal register

Thursday
April 3, 1980

Part IV

Department of Health, Education, and Welfare

Office of Education

Consolidated Grant Applications for Insular Areas

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

45 CFR Part 100b

Consolidated Grant Applications for Insular Areas

AGENCY: Office of Education.

ACTION: Final rule.

SUMMARY: The Commissioner of Education issues final regulations governing the submission by an Insular Area of a consolidated grant application for formula grant education programs. These regulations are intended to lessen the administrative burdens on an Insular Area and provide it with greater flexibility in making decisions regarding educational programs. The regulations are authorized under Title V of Pub. L. 95–134.

EFFECTIVE DATE: These regulations are expected to take effect 45 days after they are transmitted to the Congress. Regulations are transmitted to the Congress several days before they are published in the **Federal Register**. If the Congress disapproves the regulations or takes certain adjournments, the effective date is changed by statute. To learn the effective date of these regulations, phone or write the contact person listed below.

FOR FURTHER INFORMATION: Dr. O. Ray Warner, U.S. Office of Education, 400 Maryland Avenue, S.W., Washington, D.C. 20202. Telephone: 202–245–7793.

SUPPLEMENTARY INFORMATION: The Commissioner published a Notice of Proposed Rulemaking (NPRM) in the **Federal Register** on May 14, 1979 (44 FR 28012). Interested persons were given 45 days to comment on these proposed regulations. During this period a number of comments were received. The paragraphs below summarize those comments and the Commissoner's responses to them.

These final regulations will be a part of the Education Division General Administrative Regulations (EDGAR) which, when published in final form, will replace the Office of Education General Provisions Regulations (45 CFR parts 100, 100a, 100b, 100c, and 100d). The section numbers of these final regulations for consolidated grant applications have been changed to fit within the format of EDGAR. If these consolidated grant regulations are published in the **Federal Register** before EDGAR is published in final form, the final EDGAR will state that these regulations are not revoked by EDGAR.

These final regulations for consolidated grant applications apply only to consolidated grants for Insular Areas beginning with Fiscal Year 1980 appropriation for use in school year 1980–81.

Section 100b.125 Purpose of §§ 100b.125 through 100b.135. (§ 100b.25 of NPRM)

Comment. A commenter asked why the list of programs in this section (covering programs that can be included in a consolidated grant), does not include discretionary grant programs. The commenter suggested that discretionary grants be included since Title V of Pub. L. 95–134 does not limit the types of grants that can be consolidated.

Response. No change is made. The authorizing statute, Title V of Pub. L. 95–134, states that "any or all grants" may be consolidated. This language is broad enough to cover both State formula grants and discretionary grants. However, because of the administrative problems involved in consolidating discretionary grants, it was decided to include only State formula grants.

Section 100b.128 What is a consolidated grant? (§ 100b.28 of NPRM)

Comment. A commenter requested clarification as to whether two consolidated grant applications could be submitted by an Insular Area.

Response. No change is made. An Insular Area can make only one application for and receive only on consolidated grant each year. The consolidated grant includes funds from two or more of the programs listed in § 100b.125. Within the consolidated grant, the funds may be allocated among the programs as the Insular Area determines. The funds cannot be used for programs and purposes outside the consolidated grant. However, an Insular Area can still apply separately for each program it does not wish to include in the consolidated grant (see § 100b.134). These separate programs are not a part of the consolidated grant application authority.

Section 100b.129 How a consolidated grant works. (§ 100b.29 of NPRM)

Comment. A commenter expressed concern that some programs included in a consolidated grant might receive tol little funds or no funds at all if the Insular Area is free to allocate the funds within the consolidated grant as it sees fit. The commenter suggested, for example, that all funds for libraries be put in an account separate from that for elementary and secondary education. In this way programs of low priority will be guaranteed a fair share of the funds.

Response. No change is made. Title V of Pub. L. 95–134 provides that the Insular Area determines the portion of consolidated funds that will be allocated among the programs and purposes in the consolidated grant. Under this authority the decision regarding allocation of funds rests with the Insular Areas. For example, all of the funds could be used for only one of the programs included in the consolidated grant, or the funds could be divided among several of the programs in the grant. There is no statutory requirement that some funds must go to a particular program or category of programs within the consolidated grant.

Section 100b.33 of NPRM Pre-applications for consolidated grants.

Comment. Several commenters stated that the pre-application provision was an additional burden and should not be included in the regulations.

Response. A change is made. This section on pre-applications has been eliminated, since it is inconsistent with the intent of the law to lessen the administrative burdens of application and reporting procedures on the Insular Areas.

Section 100b.133 Reallocation authority. (§ 100b.36 of NPRM)

Comment. Several commenters expressed concern that the 60-day notification requirement before consolidated grant funds can be reallocated is unduly lengthy and undermines the intent of the law to provide maximum flexibility to the Insular Areas. They suggested that it be eliminated.

Response. A change is made to eliminate the 60-day prior notification requirement for reallocation of funds among the programs in the consolidated grant. The regulations now require the Insular Area to notify the Commissioner of any reallocation by submitting an amendment of its application by the Commissioner that includes an update of information originally provided in its application as required in §100b.131(c).

Comment. A commenter requested clarification as to whether programs not included in the application for a consolidated grant could later be included under the reallocation authority of §100b.133.

Response. No change is made. Once an Insular Area receives a consolidated grant, it may reallocate the funds in that grant among the programs and for the purposes in the consolidated grant and stated in its original consolidated grant application. However, in any fiscal year, an Insular Area may not add new programs which were not originally included in its application submitted for that year.

Section 100b.135 Matching. (§ 100b.37 of NPRM)

Comment. Several commenters said that the limitation on the waiver of matching requirements for programs in a consolidated grant was too restrictive and harsh. They felt that this would discourage Insular Areas from applying for a consolidated grant because of the loss of any waiver of the matching requirements for programs in the consolidated grant.

Response. A clarifying change is made to §100b.135. The Commissioner does not automatically grant a waiver of all matching requirements for programs in a consolidated grant. However, a waiver may be granted if the statutory authority for the specific program in the consolidated grant expressly provides for a waiver of the matching requirement and the statutory conditions for a waiver are met.

Comment: A commenter asked that § 100b.135 be clarified as to whether matching requirements for programs in a consolidated grant could be met through the use of services, facilities and other resources provided by the Insular Area.

Response. No change is made. Matching requirements may be met by the use of services, supplies, facilities and other in-kind contributions. These requirements are covered in 45 CFR Part 74, §§ 74.50 through 74.55.

General

Comment: Several commenters suggested that provision be made for situations in which program funds are administered by different agencies. For example, library funds under the Library Services and Construction Act are administered by an agency other than the State department of education. It was suggested that when consolidated programs are administered by different agencies, allocation of funds among the consolidated programs should only be permitted upon the written approval of each agency involved.

Response: No change is made. The primary purposes of the Title V consolidation authority are to simplify application procedures and promote flexibility in allocating the consolidated funds, thus minimizing the administrative burden on the Insular Areas. Further administrative requirements imposed on the applicant could defeat these purposes. It is up to the Insular Area to work out its own allocation procedures among the various administering agencies involved, without directions by the Federal government.

Comment: Several commenters requested guidance on "set aside" requirements in some formula-grant programs that might be included in a consolidated grant. If, for example, a consolidated program required that 15 percent of the program grant funds be set aside for low income students, does this mean 15 percent of the grant funds which would be applicable if there were no consolidation, or does it mean 15 percent of the consolidated grant funds or of the funds actually used for the particular program in the grant?

Response: No change is made. An Insular Area determines how it allocates the total amount of funds in a consolidated grant among the programs and purposes within that consolidated grant. All set aside requirements apply to the amount of funds the Insular Area actually allocates to and uses and administers under the program requiring the set aside after consolidation.

Comment: Several commenters suggested that one advisory council serve as the advisory council for all programs in the consolidated grant that require an advisory council.

Response: No change is made. An Insular Area may, but is not required to, use a single advisory council for any or all programs in a consolidated grant under which the grant funds will be used and administered that require an advisory council. It may use a separate council for each program or use various combinations of councils for programs that require advisory councils. For example, if five programs in the consolidated grant for which funds are used require advisory councils, one council might serve all five programs. Alternatively, one council might cover only three programs and a second council cover the other two programs. Regardless of the choice, however, the advisory council(s) must meet all advisory council requirements in the authorizing statute of the program(s) in the consolidated grant under which the consolidated grant funds are used and administered.

These final regulations also contain minor editorial, organizational, and clarification changes

Authority: These final regulations are issued under the authority of Title V, Pub. L. 95–134.

Dated: March 7, 1980.

William L. Smith,

U.S. Commissioner of Education.

The Commissioner of Education amends Part 100b of Title 45 of the Code of Federal Regulations by adding new §§ 100b.125 through 100b.135 to Subpart B as follows:

Consolidated Grant Applications From Insular Areas

Scope and Applicability

Sec.

100b.125 Purpose of §§ 100b.125 through 100b.135.
100b.126 Regulations that apply.
100b.127 Purpose of a consolidated grant.
100b.128 What is a consolidated grant?
100b.129 How a consolidated grant works.
100b.130 How consolidated grants are made.
100b.131 How to apply for a consolidated grant.
100b.132 Consolidated grant applicant assurances.
100b.133 Reallocation authority.
100b.134 Relationship between consolidated and non-consolidated grants.
100b.135 Matching.

Authority: Title V, Pub. L. 95–134. (48 U.S.C. 1469a)

Consolidated Grant Applications From Insular Areas

Scope and Applicability

§ 100b.125 Purpose of §§ 100b.125 through 100b.135.

(a) The provisions of §§ 100b.125 through 100b.135 set forth requirements for the submission of an application by an Insular Area for the consolidation of two or more grants under the programs listed in the table in paragraph (c) of this section.

(b) For the purpose of §§ 100b.125 through 100b.135, the term "Insular Area" means the Virgin Islands, Guam, American Samoa, the Trust Territory of the Pacific Islands, or the Northern Mariana Islands.

(c)(1) The Commissioner may make an annual consolidated grant to assist an Insular Area in carrying out one or more of the programs in the following table. The table indicates the number of the program in the Catalog of Federal Domestic Assistance (CFDA), the name of the program, the statute that authorizes it, and the regulations that implement it.

CFDA No. and name of program	Authorizing statute	Implementing regulations—title 45, CFR
13.400 State Adult Education Programs	Adult Education Act (except Sections 309, 317 and 318) (20 U.S.C. 1201–1211a)	Part 166.
13.408 Construction of Public Libraries	Title II, Library Services and Construction Act (20 U.S.C. 355a–355c)	Part 130.
13.427 State Operated Programs for Handicapped Children	Title I, Part B, Sections 146–147 of the Elementary and Secondary Education Act (20 U.S.C. 2771–2772).	Parts 116 and 116b.
13.428 Financial Assistance to Local Education Agencies to Meet the Special Needs of Educationally Deprived Children (except Coordination of Migrant Education and Transition of Neglected or Delinquent Children).	Title I, Part A of the Elementary and Secondary Education Act (except Sections 143 and 153) (20 U.S.C. 2701–2754).	Parts 116 and 116a.
13.429 Grants to State Educational Agencies for Programs to Meet Special Educational Needs of Migrant Children.	Title I, Part B, Sections 141–143 of the Elementary and Secondary Education Act (20 U.S.C. 2761–2763).	Parts 116 and 116d.
13.430 Educationally Deprived Children—State administration	Title I, Section 194 of the Elementary and Secondary Education Act (20 U.S.C. 2844)	Part 116.
13.431 Grants to State Agencies for Programs to Meet the Special Educational Needs of Children in Institutions for Neglected or Delinquent Children.	Title I, Part B, Sections 151–153 of the Elementary and Secondary Education Act (20 U.S.C. 2781–2783).	Parts 116 and 116c.
13.449 Assistance to States for Education of Handicapped Children.	Education of Handicapped Act Part B (except Section 619) (20 U.S.C. 1411–1418; 1420)	Part 121a.
13.449 Incentive Grants (Handicapped Pre-school)	Section 619 of the Education of the Handicapped Act (20 U.S.C. 1419)	Part 121.
13.453 Higher Education Land-Grant Colleges and Universities	Second Morrill Act of 1890 (7 U.S.C. 322 and 323)	Part 101.
13.464 Grants for Public Library Services	Title I, Library Services and Construction Act (20 U.S.C. 351–354)	Part 130.
13.465 Interlibrary Cooperation Services Programs	Title III, Library Services and Construction Act (20 U.S.C. 355e–355e–2)	Part 130.
13.491 Community Services and Continuing Education Program (except Special Programs).	Title I, Part A of the Higher Education Act (except Section 106) (20 U.S.C. 1001–1005; 1006–1011).	Part 173 (except Subpart C).
13.493 State Vocational Educational Program	Title I, Part A of the Vocational Education Act (20 U.S.C. 2301–2461	Part 104.
13.494 Consumer and Homemaking Education		Part
13.495 Program Improvement and Support Services		Part
13.499 Persons with Special Needs		Part
13.500 State Advisory Councils		Part
13.595 State Planning Grants		
13.545 Indochinese Refugee Children Program	Title II of the Indochina Refugee Children Assistance Act (20 U.S.C. 1211b)	Part 122a.
13.548 State Student Incentive Grant Program	Sections 415A–415E of the Higher Education Act (20 U.S.C. 1070c through 1070c–4)	Part 192.
13.550 State Post Secondary Education Commissions, Program-Intrastate Planning.	Title XII, Section 1203(a) of the Higher Education Act (20 U.S.C. 1142b(a))	Part 199a.
13.562 Gifted and Talented Children Program	Title IX, Section 901–908 of the Elementary and Secondary Education Act (except Section 905) (20 U.S.C. 3311–3314; 3316–3318).	Part 195.
13.563 Community Schools Program	Title VIII, Section 801–808 of the Elementary and Secondary Education Act (20 U.S.C. 3281–3288).	Part 160.
13.570 Instructional Materials and School Library Resources	Title IV, Part B of the Elementary and Secondary Education Act (20 U.S.C. 3101–3102)	Part 134 and 134a.
13.571 Improvement in Local Educational practices	Title IV, Part C of the Elementary and Secondary Education Act (20 U.S.C. 1801–1832)	Part 134.
13.573 Architectural Barriers Removal	Title VII, Part E of the Higher Education Act (20 U.S.C. 1132d–11)	Part 170.
13.577 Guidance Counseling and Testing	Title IV, Part D of the Elementary and Secondary Education Act (20 U.S.C. 3121–3127)	Part 134.
13.582 Incentive Grants for State Student Financial Assistance Training program.	Section 493C of the Higher Education Act (20 U.S.C. 1088b–3)	Part 178a.
13.585 Educational Information Centers Program	Sections 418A and 418B of the Higher Education Act (20 U.S.C. 1070d–2–1070d–3)	Part 137.
13.596 Career Education—State Allotment Program	Career Education Incentive Act Program (except Sections 10, 11, 12) (20 U.S.C. 2601–2614).	Part 161.
13.599 State Basic Skills Improvement Program	Title II–B of the Elementary and Secondary Education Act (20 U.S.C. 2901–2904)	Part 162.

(2) In any given year, to keep this list of programs current, the Commissioner may update the list by adding or deleting programs upon publication of a notice in the **Federal Register.**

(d) In any given year, through publication of a notice in the **Federal Register,** the Commissioner may announce funded programs (from the current updated list) for which an Insular Area may apply for a grant under the consolidated grant authority.

(48 U.S.C. 1469(a))

§ 100b.126 Regulations that apply.

The following regulations apply to programs of assistance under a consolidated grant:

(a) The regulations for each program included in a consolidated grant for which funds are used and administered; and

(b) The regulations in this part 100b.

(48 U.S.C. 1469a)

§ 100b.127 Purpose of a consolidated grant.

An Insular Area may apply for a consolidated grant for two or more of the educational programs listed in § 100b.125. This procedure is intended to—

(a) Simplify for the Insular Area the application and reporting procedures that would otherwise be required for each of the programs included in the consolidated grant; and

(b) Provide the Insular Area with flexibility in allocating the funds under the consolidated grant to achieve any of the program purposes to be served by the programs consolidated under the grant.

(48 U.S.C. 1469a)

§ 100b.128 What is a consolidated grant?

(a) A consolidated grant under this subpart is a grant to an Insular Area for any two or more of the programs listed in § 100b.125. The amount of the consolidated grant is the sum of the allocations that would be received under each of the programs included in the consolidated grant if there had been no consolidation.

(b) *Example.* Assume that the Virgin Islands applies for a consolidated grant that includes the State programs under the Adult Education Act, the Career Education Incentive Act, and the Migrant and Handicapped programs under the Elementary and Secondary Education Act. If the allocation under the formula for each of these four programs is $150,000, the consolidated grant to the Virgin Islands would be $600,000.

(48 U.S.C. 1469a)

§ 100b.129 How a consolidated grant works.

(a)(1) An Insular Area shall use the funds it receives under a consolidated grant to carry out, in its jursidiction, one or more of the programs included in the grant.

(2) *Example.* Assume that Guam applies for a consolidated grant under the Library Services and Construction Act, The Career Education Incentive Act, and the Adult Education Act and that the sum of its allocations under these programs is $700,000. Guam may choose to allocate this $700,000 among all of the programs authorized under the three acts. Alternatively, it may choose to allocate the entire $700,000 to one specific program under the grant; for example, the Adult Education Act Program.

(b)(1) An Insular Area shall comply with requirements in the authorizing statute and implementing regulations for each program for which funds from the

consolidated grant are used and administered.

(2) *Example.* Assume that American Samoa uses part of the funds under a consolidated grant for the State program under the Career Education Incentive Act. American Samoa need not submit to the Commissioner a State plan that sets out policies and procedures to assure all students equal access to career education programs. However, in carrying out the program, American Samoa must meet and be able to demonstrate compliance with this equal access requirement.

(48 U.S.C. 1469a)

§ 100b.130 How consolidated grants are made.

(a) *Grant awards.* The Commissioner annually makes a single consolidated grant to each Insular Area that meets the requirements of §§ 100b.125 through 100b.135 and each program under which the grant is to be used and administered.

(b) *Notice.* (1) The Commissioner notifies each Insular Area of the programs in § 100b.125 for which funds have been appropriated and can thus be included in the consolidated grant, and of its allotment under each of these programs for the particular fiscal year.

(2) The Commissioner may decide that one or more programs cannot be included in the Consolidated grant if it is determined that the Insular area failed to meet the program objectives stated in its plan for the previous fiscal year in which it carried out the program(s).

(48 U.S.C. 1469a)

§ 100b.131 How to apply for a consolidated grant.

(a) An Insular Area that desires to apply for a grant consolidating any two or more of the programs in § 100b.125 shall submit to the Commissioner an application that—

(1) Contains the assurances in § 100b.132; and

(2) Meets the application content requirements in paragraph (c) of this section.

(b) The submission of an application that contains these requirements and assurances takes the place of separate State plans or other similar documents required by this part or by the authorizing statutes for programs in the consolidated grant.

(c) An Insular Area shall include in its consolidated grant application a program plan that—

(1) Contains a list of programs in § 100b.125 to be included in the consolidated grant;

(2) Sets forth the program or programs in § 100b.125, under which the consolidated grant funds will be used and administered;

(3) Describes the purposes and objectives for the program(s) for which the Insular Area will use the funds received under the consolidated grant during the fiscal year for which it submits the application, including needs of the population that will be met by the consolidation of funds; and

(4) Contains a budget that includes a description of the allocation of funds—including any anticipated carry over funds (authorized under GEPA § 412b) of the program in the consolidated grant from the preceding year—among the programs to be included in the consolidated grant.

(45 U.S.C. 1469a)

§ 100b.132 Consolidated grant application assurances.

(a) An Insular Area shall include in the consolidated grant application the following assurances.

(b) The Insular Area shall assure the Commissioner that it will—

(1) Follow policies and use administrative methods and practices that will insure that non-Federal funds will not be supplanted by Federal funds made available under the authority of the programs in the consolidated grant;

(2) Comply with the requirements (except those relating to the submission of State plans or similar documents) in the authorizing statutes and implementing regulations for the program(s) under which funds are to be used and administered;

(3) Provide for proper and efficient administration of funds in accordance with the authorizing statutes and implementing regulations for those programs under which funds are to be used and administered;

(4) Provide for fiscal control and fund accounting procedures to assure proper disbursement of, and accounting for, Federal funds received under the consolidated grant;

(5) Make one annual report to the Commissioner, as the Commissioner may require, containing information covering the program(s) for which the grant is used and administered, including financial and program performance information required in 45 CFR Part 74, Subparts I and J;

(6) Provide that Federal funds received under the consolidated grant will be under control of—and that title to property acquired with these funds will be in—a public agency, institution, or organization. The public agency shall administer these funds and property;

(7) Keep records and afford access to these records—as the Commissioner finds necessary—in accordance with Section 437 of the General Education Provisions Act (20 U.S.C. 1232f);

(8) Adopt and use methods of monitoring and providing technical assistance to any agencies, organizations, or institutions that carry out the programs under the consolidated grant and enforce any obligations imposed on them under the law;

(9) Evaluate the effectiveness of these programs in meeting the purposes and objectives in the authorizing statutes under which program funds are used and administered;

(10) Conduct evaluations of these programs at intervals and in accordance with procedures the Commissioner may prescribe; and

(11) Provide appropriate opportunities for participation by local agencies, representatives of the groups affected by the program(s), and other interested institutions, organizations, and individuals in planning and operating the program(s).

(c) These assurances remain in effect for the duration of the program or programs they cover.

(48 U.S.C. 1469a)

§ 100b.133 Reallocation authority.

(a) After an Insular Area receives a consolidated grant, it may reallocate the funds in a manner different from the original allocation described in its application. However, the funds cannot be used for purposes that are not authorized under the program or programs in the consolidated grant under which funds are to be used and administered.

(b) *Notice.* If an Insular Area decides to reallocate the funds it receives under a consolidated grant, it shall notify the Commissioner by amending its original application to include an update of the information required under § 100b.131.

(48 U.S.C. 1469a)

§ 100b.134 Relationship between consolidated and non-consolidated grants.

(a) An Insular Area may request any number of programs in § 100b.125 be included in its consolidated grant and apply separately for assistance under any other programs listed in § 100b.125.

(b) Those programs that an Insular Area decides to exclude from consolidation and for which it must submit separate plans or applications, shall be carried out in accordance with the applicable program statutes and regulations. The excluded programs are not subject to the provisions for allocation of funds among programs in a consolidated grant.

(48 U.S.C. 1469a)

100b.135 Matching.

(a) Appropriate statutory and regulatory requirements that govern matching of Federal funds apply to programs funded by a consolidated grant.

(b) The Commissioner does not automatically waive matching requirements for programs included in a consolidated grant.

(c) A waiver may be granted if the statutory authority for the specific program in the consolidated grant expressly provides for a waiver of the matching requirement and statutory conditions for granting a waiver are met.

(48 U.S.C. 1469a)

Part V

Department of Health, Education, and Welfare

Office of Education

Title I, Elementary and Secondary Education Act; Awarding of Special Grants to Local Educational Agencies

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

45 CFR Part 116a

Title I, Elementary and Secondary Education Act; Awarding of Special Grants to Local Educational Agencies

AGENCY: Office of Education, HEW.

ACTION: Final Regulations.

SUMMARY: The Commissioner of Education issues regulations to govern the awarding of special grants to local educational agencies (LEAs) with especially high concentrations of children from low-income families. These special grants are authorized under the Education Amendments of 1978. The primary purpose of these final regulations is to provide methods for the allocation of remaining special grant funds after all counties which meet the statutory eligibility criteria in a State have received funds according to the statutory formula.

EFFECTIVE DATE: These regulations are expected to take effect 45 days after they are transmitted to the Congress. They are transmitted to the Congress several days before they are published in the **Federal Register**. The effective date is changed by statute if Congress disapproves the regulations or takes certain adjournments. If you want to know the effective date of these regulations, call or write the Office of Education contact person.

FOR FURTHER INFORMATION CONTACT: Ms. Carolyn Horner, Financial Analyst, Division of Education for the Disadvantaged, U.S. Office of Education, 400 Maryland Avenue, S.W., (Room 3642, ROB–3), Washington D.C. 20202. Telephone: 202–245–2638.

SUPPLEMENTARY INFORMATION:

A. Background

As amended by the Education Amendments of 1978 (Pub. L. 95–561), section 117 of title I of the Elementary and Secondary Education Act of 1965 (the Act) authorizes special title I grants for local educational agencies (LEAs) in counties with especially high concentrations of children from low-income families (Sec. 117; 20 U.S.C. 2722).

Section 117(b)(1) of the Act provides that each county—in a State other than Guam, American Samoa, the Virgin Islands, the Northern Mariana Islands, and the Trust Territory of the Pacific Islands—that is eligible for a grant under title I of the Act for any fiscal year is entitled to an additional grant under section 117 for that fiscal year if—

(a) The number of children counted under section 111(c) of the Act for LEAs in the county exceeds five thousand; or

(b) The number of children counted under section 111(c) exceeds 20 percent of the total number of children aged five through seventeen in school districts of the LEAs in the county.

In addition to the above criteria for determining whether a county is entitled to a special grant, section 117(b) provides that no State—other than Guam, American Samoa, the Virgin Islands, the Northern Mariana Islands, and the Trust Territory of the Pacific Islands—shall receive less than one-quarter of 1 percent of the funds appropriated for special grants under section 117. However, the statute does not specify how those grant funds are to be allocated to counties in States in which there are no counties that meet the eligibility criteria in section 117(b)(1).

Similarly, the statute does not specify a method for allocating any remaining special grant funds after all eligible counties in a State have received the amount of special grant funds to which they are entitled under the formula in section 117(b)(3).

B. Overview of the Regulations.

These regulations specify—

(a) Which States are entitled to special grant funds under section 117 of the Act;

(b) The method for determining the amount of special grant funds that each State receives;

(c) The methods for allocating special grant funds to counties within each State that receives these funds;

(d) The method of making the special grants to LEAs; and

(e) The conditions that govern the use of special grant funds.

Sections 116a.34 and 116a.35 of these regulations specify methods for allocating special grant funds in a State that receives the minimum allocation specified by the statute but which—

(a) Has no counties that are eligible for special grant funds under the criteria in the statute; or

(b) Has special grant funds left over after all the eligible counties in that State have received the amount of special grant funds to which they are entitled under the statutory formula.

Those States that are presently receiving the minimum allocation and have either no counties that are eligible for special grant funds or funds left over after all the eligible counties have received the amount of special grant funds to which they are entitled, are—Alaska, Delaware, Idaho, Iowa, Kansas, Maine, Montana, Nebraska, Nevada, New Hampshire, North Dakota, South Dakota, Utah, Vermont, and Wyoming.

In essense, §§ 116a.34 and 116a.35 provide that after each county that meets the statutory eligibility criteria is allocated the amount of special grant funds to which it is entitled under the statutory formula, the Commissioner allocates any remaining special grant funds on the basis of a plan that is—

(a) Proposed by the State educational agency (SEA); and

(b) Approved by the Commissioner.

Under the SEA's plan those remaining funds may be allocated to some counties that would otherwise be ineligible for special grant funds, as well as to some or all of that State's eligible counties already funded under the statutory formula. However, § 116a.36(a) provides that only those counties which are eligible to receive basic grant funds under part A of title I of the Act may receive special grant funds.

If the SEA and the Commissioner cannot agree on an allocation plan, the Commissioner allocates the remaining special grant funds to the counties in the State that are receiving a basic grant under part A of the title I statute. The Commissioner makes this allocation on the basis of the basic grant allocation method in section 111(a) of the Act.

C. Summary of Comments and Responses

A notice of proposed rulemaking (NPRM), which contained proposed regulations to govern the awarding of special grants to LEAs with especially high concentrations of children from low-income families, was published in the **Federal Register** on June 14, 1979 (44 FR 34167). No public meetings were held on the proposed regulations and very few written comments were received. Most of the comments were supportive of the regulations.

The following is a summary of the written comments that requested changes in the regulations and the Office of Education's responses to those comments. The comments and responses are identified by the section number of the proposed regulations to which they refer.

Sections 116a.33–116a.35 Method of computing the State and county allocations.

Comment: One commenter suggested that the NPRM did not specify what methods are used by the Office of Education to determine the minimum amount of special grant funds to be allocated to each State or the amount to be distributed to eligible counties within a State that receives the statutory minimum amount.

Response: Section 116a.33 has been changed to specify that, consistent with section 117(b) of the Act, the minimum amount of special grant funds that each State is entitled to receive is determined by computing one-quarter of one percent of the total special grant appropriation—before setting aside any amounts for State administrative costs and evaluation. In addition, § 116a.34(a) has been changed to clarify that, under the statutory formula, a county that meets the statutory eligibility criteria and is located in a State that receives the minimum allocation of special grant funds is allocated the same proportion, of the total special grant appropriation, as an eligible county that is located in a State which receives more than the minimum allocation.

Section 116a.33 Use of data on free and low-cost meals to determine county eligibility.

Comment: One commenter suggested that data on the number of students receiving free and low-cost meals should be used to determine whether at least 20 percent of the children in the county are from low-income families.

Response: No change has been made in the regulations. The statute requires that the eligibility of a county for special grant funds must be determined on the basis of the number of children counted for the previous year under section 111(c) of title I of the Act. Children are not counted under that section on the basis of whether they receive free or reduced price lunches.

Sections 116a.34 and 116a.35 Reference to "remaining funds" applies only to States receiving the minimum allocation.

Comment: Sections 116a.34 and 116a.35 would be enhanced by explicitly indicating that references to "remaining funds" apply only to those States which receive the minimum allocation of special grant funds.

Response: Section 116a.34(b) has been changed to make this clarification. However, since a State covered by § 116a.35 would have no "remaining funds," no change has been made in that section. Rather, § 116a.35 applies to the entire distribution of special grant funds in States which have no counties that are eligible to receive special grant funds under the statutory formula.

Sections 116a.34(b)(3) and 116a.35(b) Commissioner's disapproval of SEA's plan.

Comment: One commenter suggested that the Commissioner should notify the State in writing of his reasons for disapproving the SEA's plan prior to making the allocation on the basis of the title I basic grant formula.

Response: Sections 116a.34(b)(3) and 116a.35(b) have been changed to provide that the Commissioner must notify the SEA of his reasons for disapproving a plan.

Section 116a.36(a) County eligibility.

Comment: One commenter was concerned that the regulations do not prohibit an SEA from submitting a plan which allocates concentration grant funds to a county that is not eligible to receive basic grant funds under part A of title I.

Response: Section 116a.36(a) of the regulations has been changed to provide that only counties that are eligible to receive basic grant funds under part A, subpart 1, of title I of the Act may receive the special grant funds.

Sections 116a.36 and 116a.37 Criteria for approval of plans.

Comment: One commenter indicated that the language in §§ 116a.36 and 116a.37 regarding the submission and approval of State plans for the distribution of remaining special grant funds is rather vague.

Response: No change has been made. The regulations cannot provide specific criteria that would fit all the individual situations which exist in all the counties within the affected States.

While some States have no areas with high concentrations of children from low-income families, the Congress has specified that the minimum allocation of special grant funds must be made to every State. Additionally, there are wide variations in the distribution of children from low-income families within the States. Therefore, the Commissioner needs the flexibility to take local circumstances into consideration when deciding whether to approve the allocation plans.

Section 116a.36(c) Reallocation.

Comment: One commenter suggested that the regulations should include a requirement that any special grant funds which are refused by an LEA must be reallocated within the county in which that LEA is located.

Response: No change has been made in the regulations. The special grant funds are merely additional title I funds that are allocated under the formula in section 117 of title I of the Act. These funds are added to the amounts provided under the title I basic grant formula and no separate accounting is required for the special grant funds. Therefore, once they are distributed to an LEA, these special grant finds lose their identity and it would not be possible for the SEA to identify the refused funds for reallocation.

Section 116a.38(c) Distrubition of county entitlements among LEAs.

Comment: One commenter suggested that the process for distributing each county's allocation of special grant funds among the LEAs within each county is covered only cursorily by § 116a.38(c). Additional guidance would seem appropriate concerning the selection of data for determining the number of children from low-income families.

Response: Section 116a.38(c) has been changed to paraphrase the procedure that is contained in section 117(b)(5) of the Act. Section 116a.38(c) also specifies that those children that are counted as being from low-income families for purposes of basic grants are the children to be counted as being from low-income families for purposes of distributing the special grant funds to LEAs within the counties that receive these funds.

Section 116a.39 Use of special grant funds.

Comment: One commenter suggested that the regulations provide that special grant funds may be used to provide a title I program in a school that is eligible for title I, but which is not presently being served due to a lack of funds.

Response: No change has been made in the regulations. Section 116a.39 provides that these special funds must be used in accordance with title I program requirements. If an LEA desires to expand its current title I program to serve additional eligible schools, it must submit an amendment to its title I project application to the SEA for approval.

D. Citation of Legal Authority

The reader will find a citation of statutory or other legal authority in parentheses on the line following each substantive provision.

(Catalog of Federal Domestic Assistance No. 13.428; Educationally Deprived Children—Local Educational Agencies)

Dated: February 29, 1980.

William L. Smith,

U.S. Commissioner of Educator.

The Commissioner amends Part 116a of Title 45 of the Code of Federal Regulations by adding §§ 116a.32 through 116a.39 to Subpart C as follows:

PART 116a—FINANCIAL ASSISTANCE TO LOCAL EDUCATIONAL AGENCIES TO MEET THE SPECIAL EDUCATIONAL NEEDS OF EDUCATIONALLY DEPRIVED AND NEGLECTED AND DELINQUENT CHILDREN

Subpart C—Program Requirements

Sec.

116a.32 States entitled to special grant funds under section 117 of the act.
116a.33 Amount of special grant funds that each State receives.
116a.34 Allocation of special grant funds to counties within a State in which at least one county meets the statutory eligibility criteria.
116a.35 Allocation of special grant funds to counties within a State in which no county meets the statutory eligibility criteria.
116a.36 Submission of allocation plans.
116a.37 Commissioner's standards for approval of allocation plans.
116a.38 Method of making special grants.
116a.39 Use of special grant funds.

Authority: Section 117 of the Elementary and Secondary Education Act of 1965, as amended by the Education Amendments of 1978 (Pub. L. 95-561), 20 U.S.C 2722; 92 Stat. 2159-2161.

Subpart C—Program Requirements

§ 116a.32 States entitled to special grant funds under section 117 of the Act.

Section 117(b) of the Act provides that each State—other than Guam, American Samoa, the Virgin Islands, the Northern Mariana Islands, and the Trust Territory of the Pacific Islands—that is eligible for a grant under title I of the Act for any fiscal year is entitled to special grant funds from the amount appropriated under section 117(d) of the Act for the fiscal year.

(Sec. 117(b)(1); 20 U.S.C. 2722(b)(1))

§ 116a.33 Amount of special grant funds that each State receives.

The Commissioner determines the amount of special grant funds that a State receives under section 117 of the Act on the basis of the formula in section 117(b)(3) of the Act. However, each State that is entitled to special grant funds receives at least one-quarter of one percent of the funds appropriated under section 117(d) of the Act for that fiscal year. The minimum amount of special grant funds that each State is entitled to receive is determined by computing one-quarter of one percent of the total special grant appropriation, before setting aside any amounts for State administrative costs and evaluation.

(Sec. 117(b)(1), (2) and (3); 20 U.S.C. 2722(b)(1), (2) and (3))

§ 116a.34 Allocation of special grant funds to counties within a State in which at least one county meets the statutory eligibility criteria.

(a) *General Rule.* Except as provided in paragraph (b) of this section, special grant funds that are awarded to a State in which at least one county meets the eligibility criteria in section 117(b)(1) of the Act are allocated to the eligible counties within the State by the Commissioner in accordance with the formula in section 117(b)(3) of the Act. Under that formula, a county that meets the statutory eligibility criteria and is located in a State that receives the minimum allocation of special grant funds is allocated the same proportion, of the total special grant appropriation, as an eligible county that is located in a State which receives more than the minimum allocation.

(b) *Exceptions.* Except as provided in paragraph (b)(3) of this section, any special grant funds that remain unallocated in a State that received the minimum grant—after all the counties in the State have been allocated the amount of special grant funds to which they are entitled under the statutory formula—are allocated to counties within the State by the Commissioner according to an allocation plan. This allocation plan must—

(1) Be submitted to the Commissioner by the State educational agency (SEA) according to the procedures described in § 116a.36; and

(2) Have the approval of the Commissioner, using the standards described in § 116a.37.

(3) If the SEA does not submit an allocation plan, or the Commissioner disapproves the plan that has been submitted and notifies the SEA of his reasons for disapproving the plan, the Commissioner allocates the remaining special grant funds within the State to those counties that are receiving a basic grant under part A of title I of the Act. The Commissioner makes this allocation on the basic grant allocation method in section 111(a) of the Act.

(Sec. 117(a) and (b); 20 U.S.C. 2722(a) and (b))

§ 116a.35 Allocation of special grant funds to counties within a State in which no county meets the statutory eligibility criteria.

(a) *General Rule.* Except as provided in paragraph (b) of this section, special grant funds that are awarded to a State in which no county meets the eligibility criteria in section 117(b)(1) of the Act are allocated to counties within the State by the Commissioner according to an allocation plan. This allocation plan must—

(1) Be submitted to the Commissioner by the SEA according to the procedures described in § 116a.36; and

(2) Have the approval of the Commissioner, using the standards described in § 116a.37.

(b) *Exception.* If the SEA does not submit an allocation plan or the Commissioner disapproves the plan that has been submitted and notifies the SEA of his reasons for disapproving the plan, the Commissioner allocates the special grant funds within the State to those counties that are receiving a basic grant under part A of title I of the Act. The Commissioner makes this allocation on the basis of the basic grant allocation method in section 111(a) of the Act.

(Sec. 117(a) and (b); 20 U.S.C. 2722(a) and (b))

§ 116a.36 Submission of allocation plans.

(a) *States that may submit an allocation plan.* Each State for which special grant funds remain unallocated—after all the eligible counties in the State have been allocated the amount of special grant funds to which they are entitled under the statutory formula—may submit, for the Commissioner's consideration, a plan for allocation of these unallocated funds to counties within the State. In any event, only those counties that are eligible to receive basic grants under part A of title I of the Act may receive special grant funds.

(b) *Submission through SEA.* Each State that chooses to submit an allocation plan shall do so through its SEA.

(c) *Elements of an allocation plan.* In order to be assured of consideration by the Commissioner, an allocation plan must include—

(1) A list of all counties in the State that meet the eligibility criteria in section 117(b)(1) of the Act, and the amount of special grant funds that each of those counties receives under the formula in section 117(b)(3) of the Act;

(2) A list of all counties in the State, and the amount of special grant funds—if any—that each county would receive under the proposed allocation plan; and

(3) A description of the proposed method for allocating the special grant funds to the counties in the State. This description must include—

(i) The reasons why this method is being proposed;

(ii) How this method meets the statutory purpose of providing special grant funds to those counties with especially high concentrations of children from low-income families.

(iii) The reasons why this method is reasonable in terms of local circumstances, including the distribution

of children from low-income families within counties.

(Sec. 117(a) and (b); 20 U.S.C. 2722(a) and (b))

§ 116a.37 Commissioner's standards for approval of allocation plans.

In deciding whether to approve a proposed allocation plan the Commissioner considers the extent to which the proposed plan—

(a) Meets the requirements in § 116a.36;

(b) Would result in an allocation of special grant funds that meets the statutory purpose of providing special grant funds to those counties with especially high concentrations of children from low-income families; and

(c) Is reasonable in terms of local circumstances, including the distribution of children from low-income families within counties.

(Sec. 117(a) and (b); 20 U.S.C. 2722(a) and (b))

§ 116a.38 Method of making special grants.

(a) The Commissioner includes the amount of special grant funds that a State is entitled to receive during a particular fiscal year, as determined under § 116a.33, in the amount paid to that State under section 191 of the Act for that fiscal year.

(b) Under § 116a.34 or § 116a.35 the Commissioner allocates those special grant funds to counties within each State that receives special grant funds.

(c) Each SEA shall distribute the special grant funds among the local educational agencies (LEAs) in each county that receives those funds on the basis of the current distribution within the county of children aged five to seventeen, inclusive, from low-income families, as determined by using the following procedure:

(1) Each LEA in which 20 percent or more of the children are counted as being from low-income families under the basic grant formula receives a portion of the county's special grant allocation based on the number of children counted under that basic grant formula.

(2) Each LEA in which less than 20 percent of the children are counted as being from low-income families under the basic grant formula receives a portion of the county's special grant allocation based on the number of children counted in that basic grant formula multiplied by a fraction in which the numerator is the percentage of children in the LEA that are counted in the basic grant formula and the denominator is 20.

(Sec. 117(b)(5) and (c)(1); 20 U.S.C. 2722(b)(5) and (c)(1))

§ 116a.39 Use of special grant funds.

Each LEA that receives special grant funds under section 117 of the Act shall use those funds—

(a) To carry out activities that are described in an approved project application for title I funds that the LEA submits under section 121 of the Act; and

(b) In accordance with the title I program requirements in subpart 3 of title I of the Act.

(Sec. 117(c)(2); 20 U.S.C. 2722(c)(2))

Part VI

Department of Health, Education, and Welfare

Office of Education

Grants to State Educational Agencies to Meet the Special Educational Needs of Migratory Children

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

45 CFR Part 116d

Grants to State Educational Agencies to Meet the Special Educational Needs of Migratory Children

AGENCY: Office of Education, HEW.

ACTION: Final regulations.

SUMMARY: The Commissioner issues these final regulations for the program for migratory children under Sections 141–143 of Title I of the Elementary and Secondary Education Act (ESEA). The purpose of the Migrant Education Program is to make Federal funds available to State educational agencies (SEAs) to conduct programs designed to meet the special educational needs of migratory children. These final regulations reflect changes made by the Education Amendments of 1978, changes made as a result of a management review of the program, and changes made in response to comments received on a notice of proposed rulemaking (NPRM) published on May 14, 1979.

EFFECTIVE DATE: These regulations are expected to take effect 45 days after they are transmitted to Congress. Regulations are usually transmitted to Congress several days before they are published in the **Federal Register.** The effective date is changed by statute if Congress disapproves the regulations or takes certain adjournments. If you want to know the effective date of these regulations, call or write the Office of Education contact person.

FOR FURTHER INFORMATION CONTACT: Mr. John Ridgway, Education Program Specialist, Division of Migrant Education, U.S. Office of Education, 400 Maryland Avenue, SW. (FOB–6, Room 2031), Washington, D.C. 20202, telephone (202) 245–2222.

SUPPLEMENTARY INFORMATION:

Background

On November 1, 1978, the Education Amendments of 1978 (Pub. L. 95–561) were signed into law. Title I of this legislation, entitled "Amendment to Title I of the Elementary and Secondary Education Act of 1965," provided a new and substantially expanded text to govern the various title I, ESEA, programs.

In response to the new provisions of these education amendments, revised language for the Migrant Education Program Regulations was drafted and a notice of proposed rulemaking was published in the **Federal Register** on May 14, 1979 (at 44 FR 28184). That NPRM was written to reflect the major changes made by the education amendments with respect to adjustment of the count of children in summer-term projects, special funds for the coordination of migrant education activities, and State and local parent advisory councils.

Additionally, the text and organization of the NPRM were written and fashioned to accomplish the following:

(a) To produce clear and readable regulations.

(b) To reflect a newly-developed format for regulations for State-administered programs.

(c) To clarify existing provisions that still apply.

(d) To propose several program administration revisions, resulting from a management review of the program, with respect to—

(1) The Commissioner's by-pass authority;

(2) The Commissioner's reallocation authority;

(3) The provisions required in a State annual program plan; and

(4) The priority of children for services.

(e) To respond to the recommendations of two major reviews of the agency's program regulations and planning requirements—the Office of Management and Budget's Zero-Based Review of Federal Planning Requirements (November 1977) and the Office of Education's Regulations Reform Project (April 1978).

These final regulations continue to reflect compliance with the objectives of all of the statutory amendments, program studies, and regulations projects referred to in the preceding paragraphs of this section. However, these final regulations also reflect the many public comments—received at the public meetings and in writing—on the proposed regulations and contain some minor changes of an editorial nature.

How To Use These Regulations

These regulations (45 CFR Part 116d) contain only those requirements that apply to the Migrant Education Program alone. The title I General Provisions Regulations (45 CFR Part 116) contain requirements that apply to all title I programs. The Education Division General Administrative Regulations (EDGAR)(45 CFR Parts 100a–100c) contain requirements that apply to all Education Division programs. The HEW General Administration Regulations (45 CFR Part 74) contain requirements that apply to all HEW grant programs.

Policy Manual

The title I statute requires the Office of Education to publish a "policy manual." A separate policy manual will be prepared and published for the Migrant Education Program.

The Commissioner anticipates that the policy manual will consolidate, into one volume, all significant regulations and statutes that govern the Migrant Education Program. The manual will also explain, in fuller and more detailed narrative than the regulations, each Migrant Education Program requirement—with appropriate references to the statute, the regulations, legislative history, court decisions, decisions of the title I Audit Hearing Board (now replaced by the Education Appeal Board), and administrative experience.

The policy manual will be made widely available to State and local program administrators, parent advisory council members, and others involved in the Migrant Education Program.

Public Participation

The Commissioner has undertaken a variety of steps to maximize public participation in the development of these regulation. A notice of proposed rulemaking was published in the **Federal Register** on May 14, 1979. In connection with the proposed rules, the Commissioner sponsored 13 public meetings around the country during June 1979, and established a period, extending through July 13, 1979, for the submission of written comments.

The Commissioner received comments at the public meetings from 158 persons, and also received—in writing—comments from 46 agencies and persons. In total nearly 500 comments were received. Those comments, recommendations, and questions and the responses of the Commissioner are summarized in the appendix, entitled "Summary of Comments and Responses," to these regulations.

Summary of Changes From the Notice of Proposed Rulemaking

These regulations reflect some organizational and wording changes to promote clarity and ease of understanding. For example, most of the section headings are now phrased as questions to which the text of the section responds.

In response to suggestions by the public and other interested parties, these final regulations contain some provisions that were not in the notice of proposed rulemaking. These include certain provisions of the statute governing this program. The purpose of

incorporating these provisions into the final regulations is to enable applicants and grantees to understand better the requirements of this program without having to refer to the statute.

Also, in response to the public comments and in consideration of further program experience, some provisions have been added to the NPRM, some provisions of the NPRM have been clarified, and some have been deleted.

The following list of sections of the final regulations summarizes in greater detail the substantive changes made from the NPRM. Specific responses to comments received on the NPRM are published in the appendix to these final regulations.

Sections 116d.1 and 116d.2 No substantive changes.

Section 116d.3 This section now lists specifically those terms used in these regulations and defined in section 198 of title I of the Act—rather than merely referencing that section.

The definition of "day care services" has been deleted. All title I programs are proposed to be governed by the Federal Interagency Day Care Requirements (FIDCR)(45 CFR Part 71), and the definition of day care and requirements relating to the provisions of those services will be covered by those regulations.

Sections 116d.10 and 116d.11 No substantive changes.

Section 116d.12 This section now includes a listing and description of the substantive kinds of information that must be included in a State annual program plan. The list incorporates, with some changes, the requirements that appeared in the appendix to the NPRM.

The requirement for a needs assessment has been revised to include a requirement that a State annual program plan also "demonstrate that the SEA has obtained an accurate assessment of the cultural and linguistic backgrounds of the children." This language has been continued from the program's previous final regulations.

The requirement for information relative to the State and local parent advisory councils has been revised to require the following additional items:

(a) A description of how the membership of parent advisory councils at the State and operating agency levels will be selected. If the SEA intends to use a method other than an election by the parents of eligible migratory children (e.g., the use of volunteers, selection by program administrators, selection by program teachers), it shall explain why it is necessary to use that alternative method.

(b) A description of the program's strategy for fostering equitable representation of parents of migratory children of different age groups (preschool, elementary, and secondary) and status groups (currently migratory and formerly migratory).

The requirement for information relative to instructional services has been revised to include a requirement for a brief description of the types of services to be provided.

Also, § 116d.12 now includes an additional requirement for information relative to the SEA's plan for training (e.g., inservice training of staff members, training of parent advisory council members).

Section 116d.13 No substantive change.

Section 116d.14 This section was § 116d.24 of the NPRM.

Sections 116d.20 through 116d.22 No substantive changes.

Section 116d.23 This section was § 116d.73 of the NPRM.

Section 116d.24 This section now discusses in further detail the types and scope of projects that the Commissioner might fund under section 143 of title I of the Act. These projects include activities relating to the transfer of school records, parental involvement, resource centers, identification and recruitment of children, secondary school services, information dissemination, and staff development.

This section also clarifies that "the Commissioner consults fully with the SEAs . . . with respect to the types of projects to be proposed, the priority of funding for those projects, evaluation of the effectiveness of existing projects, and the continuation, expansion, or termination of existing projects."

Sections 116d.30 through 116d.33 No substantive changes.

Section 116d.34 This section was § 116d.41 of the NPRM.

Section 116d.40 No substantive change.

Section 116d.41 This section now clarifies the circumstances in which an SEA may consider "by-passing" an LEA and conducting services through a special arrangement with another agency. This section now states that an SEA may consider an LEA "unwilling" to conduct a project if the LEA does not submit an application by a date established by the SEA. The SEA may consider an LEA "unable" to conduct a project if the LEA does not submit, after any needed technical assistance from the SEA, an application of sufficient quality to meet the criteria for approval—established by the SEA through its authority under § 116d.34 of these regulations.

Furthermore, § 116d.41 now states that in accordance with its obligation under § 116d.12(b)(2) to serve "all significant concentrations of currently migratory school-aged children in the State," an SEA shall either provide services directly or implement a special arrangement for services when the non-participation of an LEA affects a "significant concentration" of eligible, currently migratory school-aged children.

Section 116d.50 This section now clarifies that the Migrant Education Program is not governed by the "supplement, not supplant" requirements of section 126(d) of title I of the Act, nor any regulations derived from section 126(d).

Section 116d.51 This section now includes the phrase "particularly any need for improvement in the basic academic subjects" in its explanation of the types of services to be provided. This section also reorders the listing of suggested types of services to reinforce the emphasis placed on basic academic instruction.

Sections 116d.53 and 116d.54 No substantive changes.

Section 116d.55 This section now includes some additional requirements for State and local parent advisory councils. These requirements are adopted from section 125(a) of title I of the Act and include the provision of appropriate information, materials, and training to the councils, and to the extent possible (considering factors such as the duration of the project or the continuing availability of council members), the election of council members by parents of eligible migratory children.

Section 116d.56 No substantive change.

Section 116d.57 This section deletes paragraph (a)(2) of this section as it appeared in the NPRM—relating to the provision of facilities and services to migratory children during times of the year when school is not in "regular" session.

Section 116d.58 This section changes the priority of children for services from that which was indicated in the NPRM. An SEA is now directed to serve, according to their needs, all school-aged migratory children (both currently and formerly migratory) before serving preschool migratory children.

However, if in order to provide title I instructional services to school-aged currently migratory children, it would be necessary to provide day care or similar services to preschool-aged currently migratory children, and no other funds—other than title I funds—are available for that purpose, an SEA or an operating

agency may provide title I instructional services to those preschool children as if those children had a priority higher than school-aged formerly migratory children.

Sections 116d.59 and 116d.60 No substantive changes.

Sections 116d.61 through 116d.63 This information will be included in the Title I General Provisions Regulations (45 CFR Part 116).

Section 116d.64 This section now includes a requirement for an accelerated complaint resolution procedure for short-term migrant education projects. This section also includes language relating to the Commissioner's review of an SEA's resolution of a complaint.

Sections 116d.65 and 116d.70 No substantive changes.

Citation of Legal Authority

The reader will find a citation of statutory or other legal authority in parentheses on the line following each substantive provision.

(Catalog of Federal Domestic Assistance No. 13.429; Educationally Deprived Children-Migrante)

Dated: February 29, 1980.

William L. Smith,

U.S. Commissioner of Education.

The Commissioner revises 45 CFR Part 116d as follows:

PART 116d—GRANTS TO STATE EDUCATIONAL AGENCIES TO MEET THE SPECIAL EDUCATIONAL NEEDS OF MIGRATORY CHILDREN

Subpart A—General

Sec.

116d.1 What is the Migrant Education Program?
116d.2 What regulations apply to the Migrant Education Program?
116d.3 What definitions apply to the Migrant Education Program?
116d.4–116d.9 [Reserved]

Subpart B—How Does a State Apply for a Grant?

116d.10 What documents must a State submit to receive a grant?
116d.11 What Condition must a State meet before submitting its annual program plan?
116d.12 What provisions are required in a State's annual program plan?
116d.13 When must a State's annual program plan be submitted?
116d.14 How is a State's annual program plan reviewed?
116d.15–116d.19 [Reserved]?

Subpart C—How Is a Grant Made to a State?

116d.20 How is the amount available for a State grant determined?
116d.21 How is a State entitlement determined?
116d.22 How are excess funds reallocated?
116d.23 Under what conditions may the Commissioner make a special arrangement for services?
116d.24 What are specail discretionary projects for the coordination of migrant education activities?
116d.25–116d.29 [Reserved]

Subpart D—How Does An Agency Apply to the State for a Subgrant?

116d.30 What documents must an applicant submit to receive a subgrant?
116d.31 [Reserved]
116d.32 What provisions are required in an application for a subgrant?
116d.33 How is an application for a subgrant developed?
116d.34 How is an application for a subgrant reviewed?
116d.35–116d.39 [Reserved]?

Subpart E—How Is a Subgrant Made to an Applicant?

116d.40 How is the amount of a subgrant determined?
116d.41 What are the conditions under which a State may make a special arrangement for services?
116d.42–116d.49 [Reserved]

Subpart F—What Conditions Must Be Met by the State and Its Subgrantees?

Sec.

116d.50 What are the program's fiscal requirements?
116d.51 How may funds be used?
116d.52 [Reserved]
116d.53 What is the requirement for coordination with other groups?
116d.54 What is the requirement for coordination among projects and with other State programs?
116d.55 What are the requirements for parental involvement?
116d.56 How is the eligibility of a participating child documented?
116d.57 What is the requirement for comparable access for migratory children?
116d.58 Under what conditions may services be provided to preschool and formerly migratory children?
116d.59 Under what conditions may supporting services be provided?

Supart G—What Are the Administrative Responsibilities of the State?

116d.60 The State is responsible for reviewing and approving applications.
116d.61 The State is responsible for monitoring and enforcement.
116d.62 Under what conditions must the State withhold funds?
116d.63 How must the State conduct and resolve audits?
116d.64 How must the State resolve complaints?
116d.65 How must the State evaluate the program?
116d.66–116d.69 [Reserved]

Subpart H—What Compliance Procedures Are Used by the Office of Education?

116d.70 Under what conditions does the Commissioner withhold funds?
116d.71–116d.79 [Reserved]

Authority: Subpart 1, Part B of Title I of the Elementary and Secondary Education Act of 1965, as amended by Pub. L. 95–561 (20 U.S.C. 2761–63; 92 Stat. 2177–79), unless otherwise noted.

Subpart A—General

§ 116d.1 What is the Migrant Education Program?

(a) *General.* These regulations govern the Migrant Education Program authorized by Sections 141–143 of Title I of the Elementary and Secondary Education Act (the "Act"). The purposes of the program are to—

(1) Make Federal funds available to State educational agencies (SEAs) to establish or improve State migrant education programs designed to meet the special educational needs of migratory children of migratory agricultural workers or migratory fishers; and

(2) Enable these SEAs to coordinate their State migrant education programs and local projects with similar programs and projects in other States, including the transfer of school records and other information about eligible migratory children.

(b) *Eligibility to participate.* An SEA may apply for a grant to support a State migrant education program. The SEA may operate the program directly, through subgrants to local educational agencies (LEAs), or through special arrangements with public or nonprofit private agencies. Two or more SEAs may apply jointly for a grant to support a migrant education program that benefits eligible migratory children in those States.

(20 U.S.C. 2761, 2762)

§ 116d.2 What regulations apply to the Migrant Education Program?

(a) *Regulations.* The following regulations apply to the Migrant Education Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100b (State-Administered Programs) and 45 CFR Part 100c (Definitions).

(2) The State Administration Regulations in 45 CFR Part 120 (State Administration and Duties)—when applicable.

(3) The Title I General Provisions Regulations in 45 CFR Part 116 (general title I provisions).

(4) The regulations in this part 116d.

(b) *How to use regulations.* The "Introduction to Education Division Programs" at the beginning of EDGAR includes general information to assist recipients in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 2761)

§ 116d.3 What definitions apply to the Migrant Education Program?

(a) *Statutory definitions.* The following terms used in this part are defined in section 198 of title I of the Act:

Equipment
Parent

(b) *Definitions in EDGAR.* The following terms used in this part are defined in 45 CFR Part 100c (EDGAR Definitions):

Applicant
Application
Award
Commissioner
Contract
Grant
Local educational agency
Nonprofit
Preschool
Private
Project
Project period
Public
Secondary school
State
State educational agency
Subgrant

(c) *Definitions in the general title I provisions.* The following terms used in this part are defined in 45 CFR Part 116 (general title I provisions):

Applicant agency
Children

(d) *Program definitions.* The following additional definitions apply specifically to the Migrant Education Program:

(1) "Agricultural activity" means—

(i) Any activity directly related to the production or processing of crops, dairy products, poultry, or livestock for initial commercial sale or as a principal means of personal subsistence;

(ii) Any activity directly related to the cultivation or harvesting of trees; or

(iii) Any activity directly related to fish farms.

(2) "Currently migratory child" means a child—

(i) Whose parent or guardian is a migratory agricultural worker or a migratory fisher; and

(ii) Who has moved within the past 12 months from one school district to another—or, in a State that is comprised of a single school district, has moved from one school administrative area to another—to enable the child, the child's guardian, or a member of the child's immediate family to obtain temporary or seasonal employment in an agricultural or fishing activity. This definition includes a child who has been eligible to be served under the requirements in the preceding sentence, and who, without the parent or guardian, has continued to migrate annually to enable him or her to secure temporary or seasonal employment in an agricultural or fishing activity.

(3) "Fishing activity" means any activity directly related to the catching or processing of fish or shellfish for initial commercial sale or as a principal means of personal subsistence.

(4)(i) "Formerly migratory child" means a child who—

(A) Was eligible to be counted and served as a currently migratory child within the past five years, but is not now a currently migratory child;

(B) Lives in an area served by a migrant education project; and

(C) Has the concurrence of his or her parent or guardian to continue to be considered a migratory child.

(ii) There is a total of six years of program eligibility—a one year status as a "currently migratory child" and up to five additional years as a "formerly migratory child."

(iii) For the purpose of this definition, "area served by a migrant education project" means any portion of the geographic area—

(A) That is within the legally prescribed boundaries of an LEA or a combination of LEAs; and

(B) Within whose boundaries there are currently or formerly migratory children who are receiving migrant education services or who will receive these services within the current grant period of the approved State migrant education program.

(5) "Guardian" means—

(i) A person who has been appointed to be the legal guardian of a child through formal proceedings in accordance with State law; or

(ii) A person who an SEA determines would be appointed to be the legal guardian of a child under the law of the child's domiciliary State if formal guardianship proceedings were undertaken; or

(iii) A person standing in the place of a parent to a child.

(6) "Migratory agricultural worker" means a person who has moved within the past 12 months from one school district to another—or, in a State that is comprised of a single school district, from one school administrative area to another—to enable him or her to obtain temporary or seasonal employment in a fishing activity.

(7) "Migratory fisher" means a person who has moved within the past 12 months from one school district to another—or, in a State that is comprised of a single school district, from one school administrative area to another—to enable him or her to obtain temporary or seasonal employment in a fishing activity.

(8) "Operating agency" means—

(i) An LEA to which an SEA makes a subgrant of migrant education funds; or

(ii) A public or nonprofit private agency with which an SEA makes a special arrangement to carry out a migrant education project.

(20 U.S.C. 2761, 2762)

§§ 116d.4–116d.9 [Reserved]

Subpart B—How Does a State Apply for a Grant?

§ 116d.10 What documents must a State submit to receive a grant?

To receive a grant, an SEA shall submit to the Commissioner the following:

(a) A State monitoring and enforcement plan at least once every three years. The provisions required in a State monitoring and enforcement plan are listed in 45 CFR Part 116 (general title I provisions).

(b) An annual program plan that is detailed enough to allow the Commissioner to determine whether it satisfies the requirements of title I of the Act and all regulations that apply.

(20 U.S.C. 2761, 2762; 20 U.S.C. 2821; 20 U.S.C. 3141; 20 U.S.C. 1232d)

§ 116d.11 What condition must a State meet before submitting its annual program plan?

An applicant SEA may not take into consideration payments of migrant education funds in determining the eligibility of an LEA for State aid or the amount of State aid to be allocated to that agency for the free public education of its children.

(20 U.S.C. 2824)

§ 116d.12 What provisions are required in a State's annual program plan?

An applicant SEA shall provide in its annual program plan the following:

(a) All standard information requested on the form required by § 74.124 of 45 CFR Part 74 (Administration of Grants).

(b) A description of how the SEA will expend program funds during the fiscal year for which the annual program plan is submitted, and how the proposed State migrant education program complies with the Act and all regulations that apply. To enable the Commissioner to evaluate the adequacy of a State's annual program plan, that description must include at least the following information:

(1) *Identification and recruitment.* An SEA shall describe in its plan its

strategy for identifying and recruiting all eligible migratory children in the State.

(2) *Children to be served.* An SEA shall include in its plan a chart showing the estimated number of eligible migratory children expected to reside in the State during the program period and the number of these children to be served—other than with identification and recruitment services or the transfer of records—in the State program. The State shall organize the chart according to the following categories:

(i) Currently migratory school-aged children (elementary or secondary, agricultural or fisher, interstate or intrastate).

(ii) Formerly migratory school-aged children (elementary or secondary, agricultural or fisher).

(iii) Currently migratory preschool children (4 year olds or 3 year olds and under, agricultural or fisher, interstate or intrastate).

(iv) Formerly migratory preschool children (4 year olds or 3 year olds and under, agricultural or fisher).

The SEA shall also assure that it will serve all significant concentrations of currently migratory school-aged children in the State.

(3) *Needs assessment.* An SEA shall include in its plan a brief description of the educational needs of the children eligible to be served. That description must include needs with respect to reading, oral language, mathematics, career awareness, and speaking ability in English, and must demonstrate that the SEA has obtained an accurate assessment of the cultural and linguistic backgrounds of the children. That description must also include needs with respect to supporting services such as health, nutritional, and social services.

(4) *Evaluation.* An SEA shall include in its plan—

(i) The three most important objectives against which program success will be measured; and

(ii) A description of how the measurement will be conducted and how the results will be reported.

(5) *Instructional services.* An SEA shall include in its plan a brief description of—

(i) The types of services to be provided;

(ii) How it will emphasize individualized instruction in conducting its projects; and

(iii) How it will ensure that no migratory child is prevented from benefiting fully from the services provided because he or she does not speak English or has limited English language skills.

(6) *Parent advisory councils.* (i) An SEA shall include in its plan a description of how the required State and local parent advisory councils—

(A) Have participated in the planning of the State's program and its local projects; and

(B) Will be involved in reviewing the operation and evaluation of that approved State program and its local projects.

(ii) An SEA shall also include in its plan—

(A) A description of how the membership of parent advisory councils at the State and operating agency levels will be selected. If the SEA intends to use a method other than an election by parents of eligible migratory children (e.g., the use of volunteers, selection by program administrators, selection by program teachers), it shall explain why it is necessary to use that alternative method; and

(B) A description of the program's strategy for fostering equitable representation of parents of migratory children of different age groups (preschool, elementary, and secondary) and status groups (currently migratory and formerly migratory).

(7) *Parental involvement.* An SEA shall describe in its plan its strategy for involving parents, at the operating agency level, in the education of their children.

(8) *Interstate and intrastate coordination.* An SEA shall describe in its plan its efforts for ensuring continuity in the education of migratory children through—

(i) Working cooperatively with other States that serve migratory children;

(ii) Requiring its operating agencies to cooperate with one another in the education of currently migratory intrastate children; and

(iii) Using fully the migrant student record transfer system including the transfer of the most current academic, health, enrollment, and withdrawal information available for the children served.

(9) *Use of operating agencies.* An SEA shall describe in its plan how it has given careful consideration to the most effective use of LEAs and other public or nonprofit private agencies in operating its projects. This determination does not preclude the possibility that only LEAs will serve as operating agencies.

(10) *Equipment and facilities.* An SEA shall describe in its plan how it will assure that operating agencies make full use of existing equipment and facilities before requesting program funds for those purposes.

(11) *Interagency coordination.* An SEA shall describe in its plan its efforts to coordinate its State migrant education program with programs and services of other public or private agencies, including those projects administered under Section 303 of the Comprehensive Employment and Training Act of 1973 and Title IV of the Economic Opportunity Act of 1964.

(12) *Monitoring and enforcement.* An SEA shall include in its plan a monitoring and enforcement plan (in the format prescribed by the Commissioner) or an appropriate reference to a currently approved plan on file with the Commission.

(13) *Administrative funds.* An SEA shall include in its plan a description of the administrative functions and staff salaries that it proposes to charge to State title I or title V administrative funds, whichever apply.

(14) *Training.* An SEA shall include in its plan a description of its strategy for the inservice training of staff members and the training of parent advisory council members. That description must include information with respect to the following:

(i) The needs and objectives for the training.

(ii) A timeline for the training activities.

(iii) The number and types of staff members, parents, and other persons who will be provided with the training.

(iv) The persons who will be responsible for providing the training.

(v) The estimated cost of the training activities.

(c) A request to use, during the fiscal year for which the annual program plan is submitted, any migrant education funds made available to the SEA for the preceding fiscal year, but not yet obligated.

(20 U.S.C. 2761, 2762)

§ 116d.13 When must a State's annual program plan be submitted?

The Commissioner publishes annually in the **Federal Register** an application notice with the deadline for the receipt of annual program plans.

(20 U.S.C. 2761, 2762; 20 U.S.C. 1232d)

§ 116d.14 How is a State's annual program plan reviewed?

(a) *General criteria.* The Commissioner reviews an SEA's annual program plan and approves it only if the proposed State migrant education program—

(1) Is designed to meet the special educational needs of migratory children eligible to be served; and

(2) Holds reasonable promise of making substantial progress toward meeting those needs.

(b) *Review.* (1) To enable the Commissioner to evaluate the promise of a State annual program plan, that

plan must comply with the informational and content requirements prescribed in § 116d.12 of these regulations. If the Commissioner determines that the criteria for the approval of a State annual program plan have not been satisfied, the Commissioner notifies the SEA and provides it with comments.

(2) The SEA shall revise those parts of its annual program plan that need improvement.

(3) The Commissioner reviews the revised parts of the annual program plan to determine if the criteria for approval have been satisfied.

(20 U.S.C. 2761, 2762)

§ 116d.15–116d.19 [Reserved].

Subpart C—How Is a Grant Made to a State?

§ 116d.20 How is the amount available for a State grant determined?

(a) *General.* (1) The Commissioner determines for each fiscal year the anount of the migrant education grant for which the SEA in each State (including the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the Virgin Islands, the Northern Mariana Islands, and the Trust Territory of the Pacific Islands) may apply according to sections 141(b), 156, and 157 of title I of the Act.

(2) The Commissioner determines these amounts on the basis of the number of eligible migratory children in each State as shown by the migrant student record transfer system or any other system the Commissioner believes most accurately reflects the actual number of eligible migratory children.

(b) *Special summer formula.* The Commissioner adjusts the number of eligible migratory children determined under paragraph (a)(2) of this section to reflect the special needs of migratory children for summer projects and the additional costs of operating these projects. The adjustment factor that the Commissioner uses—

(1) Is based on the best available information about the costs of operating summer projects and the number of children participating in these projects;

(2) Is announced annually in the Federal Register; and

(3) May be redetermined at any time.

(20 U.S.C. 2761, 2762; 20 U.S.C. 2791; 20 U.S.C. 2792)

§ 116d.21 How is a State entitlement determined?

(a) *Estimated cost of a State migrant education program.* An applicant SEA is entitled to receive a migrant education grant in the amount the Commissioner determines necessary to carry out the activities in its annual program plan. This amount may not exceed the total amount available to that SEA as determined by the Commissioner under §§ 116d.20 and 116d.22 of these regulations.

(b) *Informational basis for determination of a State entitlement.* (1) The Commissioner determines the amount of the migrant education grant that an SEA is entitled to receive on the basis of information available at the time that the annual program plan is approved. This information includes the number of children to be served and the nature and scope of the State migrant education program.

(2) The Commissioner may adjust this amount later in the fiscal year on the basis of additional information available at that time.

(c) *Consideration of the costs of past and future activities and the amount of funds available.* In determining the amount of the migrant education grant to which an SEA is entitled, the Commissioner considers the following information:

(1) The amount for which the SEA may apply, as determined under § 116d.20.

(2) The cost of completed program activities under previous grants and the number of children who were served.

(3) The estimated cost of activities not yet begun under the preceding grant and the number of children who will be served.

(4) In the case of a request for an increase in the grant that the Commissioner previously determined necessary to carry out the activities in the approved annual program plan, the estimated cost of providing additional program services before the end of the grant period and the number of children who would receive additional services.

(5) The unused amount of the SEA's preceding migrant education grant.

(6) Any other relevant information.

(20 U.S.C. 2761, 2762)

§ 116d.22 How are excess funds reallocated?

(a) *General.* If the Commissioner determines that the amount for which an SEA may apply, as determined under § 116d.20, is more than the amount needed to carry out the activities in its annual program plan, the Commissioner may allocate some or all of this excess to one or more other SEAs whose amounts available under § 116d.20 would otherwise be insufficient to serve the eligible migratory children in those States.

(b) *Determination of excess funds.* Circumstances in which the Commissioner may determine that an SEA has excess funds include the following:

(1) When the SEA determines from its own information that the amount available to it exceeds the amount it needs to carry out the activities in its annual program plan and notifies the Commissioner of the excess funds.

(2) When for the preceding two fiscal years, the SEA has carried over from one year to the next more than 15 percent of its migrant education grant.

(3) When the Commissioner obtains—later in the fiscal year—information that support a redetermination of the SEA's entitlement.

(c) *Notification to the State.* (1) *Notification.* The Commissioner notifies an SEA if part of the amount available to it is being considered for reallocation.

(2) *State's opportunity to explain.*

(i) The SEA may make a request to the Commissioner for an opportunity to explain why a reallocation is not warranted.

(ii) This request must be submitted within 15 days of the SEA's receipt of the Commissioner's notification of possible reallocation.

(3) *Reallocation decision.* If the SEA does not request an opportunity to explain, or if—after the explanation—the Commissioner determined that the total amount available to the SEA for that fiscal year exceeds the amount needed, the Commissioner may reallocate part of that total amount.

(20 U.S.C. 2761, 2762)

§ 116d.23 Under what conditions may the Commissioner make a special arrangement for services?

(a) *General.* Through a grant or contract, the Commissioner may make a special arrangement with a public or nonprofit private agency to carry out the purposes of the Migrant Education Program if the Commissioner determines that—

(1) An SEA is unwilling or unable to conduct an educational program for the migratory children who are eligible to be served;

(2) The arrangement would result in more efficient and economic administration of the program; or

(3) The arrangement would add substantially to the welfare or educational attainment of the migratory children who are eligible to be served.

(b) *Basis for determination.* The Commissioner may determine that an SEA is unwilling or unable to conduct an eduational program for the migratory children who are eligible to be served if—

(1) The SEA fails to submit an annual program plan by the date established in the Federal Register; or

(2) The SEA fails to submit, after receiving any necessary technical assistance from the Commissioner, an annual program plan that satisfies the criteria for approval.

(c) *Availability of funds.* The Commissioner may use all or part of the total amount of the migrant education grant available to the affected State—under § 116d.20 of these regulations—to make one or more special arrangements.

(d) *Notice to the State.* The Commissioner does not make a special arrangement until after the affected SEA has had reasonable notice and an opportunity for a hearing.

(20 U.S.C. 2761; 20 U.S.C. 2832)

§ 116d.24 What are special discretionary projects for the coordination of migrant education activities?

(a) *General.* In accordance with section 143 of title I of the Act, the Commissioner may, in full consultation with the States, make grants or contracts with an SEA or SEAs to—

(1) Operate a system for the transfer of school records and other information about migratory children; or

(2) Carry out other activities designed to improve the interstate and intrastate coordination of migrant education projects; or

(3) Both (1) and (2).

(b) *Types of projects.* The special coordination projects authorized by section 143 of title I of the Act and paragraph (a) of this section may include, but are not limited to, activities such as the following:

(1) *Transfer of school records.* This type of project would provide for the administration of a system for the transfer of school records and other information about migratory children. The purpose of the system would be to facilitate coordination of projects among school districts and among States and to enhance the continuity of education for migratory children.

(2) *Parental Involvement.* This type of project might include activities such as—

(i) Designing and establishing interstate (i.e., regional) parent advisory councils;

(ii) Conducting research and development activities with respect to effective designs of parental involvement and the training of parent advisory council members; and

(iii) Providing technical assistance to SEAs and LEAs in working with and training parent advisory council members.

(3) *Resource centers.* This type of project might include activities such as—

(i) Evaluating the effectiveness and applicability of materials (such as instruments and procedures for needs assessment surveys, student assessment instruments, curricular materials, and evaluation methods and materials) developed for the Migrant Education Program;

(ii) Disseminating the most appropriate of these materials; and

(iii) Disseminating information about the availability of experts and other resources in the field of migrant education.

(4) *Identification and recruitment of children.* This type of project might include activities such as—

(i) Evaluating State identification and recruitment strategies;

(ii) Developing a coordinated national program for the identification and recruitment of migratory children, including the design of model strategies and instruments; and

(iii) Providing technical assistance to SEAs in the design and implementation of effective child identification and recruitment strategies.

(5) *Secondary school services.* This type of project might include activities such as—

(i) Assessing the needs of secondary school-level migratory children and the degree to which these needs are currently being met;

(ii) Evaluating project designs and materials from Migrant Education Program secondary school projects, such as career education, vocational instruction, and dropout prevention projects, and the transfer of school credits; and

(iii) Providing technical assistance to SEAs and LEAs in the design and implementation of secondary school projects for migratory children.

(6) *Information and dissemination center.* This type of project might include acitivities such as—

(i) Conducting a national awareness project for the Migrant Education Program—directed to the parents of eligible children, other parents and adults, the general education and educational research communities, and other family and child service agencies; and

(ii) Developing and disseminating national Migrant Education Program information materials.

(7) *Staff development services.* This type of project might include activities such as designing, developing, and implementing interstate training strategies for Migrant Education Program staff members.

(c) *Project awards.* Awards to an SEA or SEAs under section 143 of title I of the Act may be made by grant or contract.

(d) *Source of funds.* The Commissioner, in accordance with section 143 of title I of the Act and these regulations, reserves funds for the purposes described in subsection (a).

(e) *Consultation with SEAs.* The Commissioner consults fully with the SEAs participating in the Migrant Education Program with respect to the types of projects to be conducted, the priority of funding for these projects, the evaluation of existing projects, and the continuation, expansion, or termination of existing projects.

(20 U.S.C. 2763)

§§ 116d.25–116d.29 [Reserved]

Subpart D—How Does An Agency Apply to the State for a Subgrant?

§§ 116d.30 What documents must an applicant submit to receive a subgrant?

To receive a subgrant, an LEA shall submit to the SEA a project application—for a period of not more than three years—that is detailed enough to allow the SEA to determine if the proposed project satisfies the requirements of title I of the Act, all regulations that apply, and the provisions of the approved State annual program plan.

(20 U.S.C. 2761, 2762; 20 U.S.C. 3142; 20 U.S.C. 1232e)

§ 116d.31 [Reserved]

§ 116d.32 What provisions are required in an application for a subgrant?

An SEA shall require each LEA that desires to participate in the State migrant education program to submit to it the application required by § 116d.30 of these regulations. In its application the LEA shall include the following:

(a) A description of the project to be carried out by the LEA.

(b) An explanation of the relationship between the project and the State annual program plan.

(c) The objectives to be achieved for each grade group.

(d)(1) The estimated number of eligible migratory children living in the area to be served by the project, and the estimated number of these children who will be served.

(2) If the LEA proposes to provide migrant education program services—other than the identification and recruitment of children and the transfer of records—to fewer eligible migratory children than the number of these eligible children living in the area, it shall explain why.

(e) A description of each service to be provided and its estimated cost.

(f) The types and number of staff to be employed.

(g) A description of how the LEA will comply with § 116d.55 of these regulations concerning parental involvement, including how the members of its parent advisory council will be selected.

(h) A description of how the LEA will coordinate with other agencies—in accordance with section 124(f)(1) of title I of the Act.

(i) A description of how the LEA ensures that no eligible migratory child will be prevented from benefiting fully from the project's services because he or she does not speak English or has limited English-language skills.

(j) Any other relevant information required by the SEA.

(20 U.S.C. 2761, 2762)

116d.33 How is an application for a subgrant developed?

An LEA that applies for a subgrant shall prepare and submit to the SEA its application as follows:

(a) In the form required by the SEA.

(b) According to sections 124 (i) and (j) of title I of the Act, section 502(b)(5) of title V of the Act, and section 436(b)(5) of the General Education Provisions Act that require the participation of parents, teachers, and local school boards in the planning of projects.

(c) According to any other instructions provided by the SEA.

(20 U.S.C. 2734; 20 U.S.C. 2761, 2762; 20 U.S.C. 3142; 20 U.S.C. 1232e)

§ 116d.34 How is an application for a subgrant reviewed?

An SEA shall approve the application of an LEA only if it—

(a) Complies with the requirements of title I of the Act, all regulations that apply, and the provisions of the approved State annual program plan; and

(b) Satisfies all other relevant requirements and criteria of approval that the SEA specifies.

(20 U.S.C. 2761, 2762; 20 U.S.C. 2811)

§ 116d.35–116d.39 [Reserved]

Subpart E—How Is a Subgrant Made to an Applicant?

§ 116d.40 How is the amount of a subgrant determined?

An SEA shall determine the amount of a subgrant to an LEA based on the following criteria:

(a) The number of children to be served.

(b) The nature and scope of the proposed project.

(c) Any other criteria developed by the SEA relevant to matters of the State migrant education program, including its priorities concerning ages and grade levels of children to be served, areas of the State to be served, and types of services to be provided.

(20 U.S.C. 2761, 2762)

§ 116d.41 What are the conditions under which a State may make a special arrangement for services?

(a) *General.* An SEA may make a special arrangement with a public or nonprofit private agency or agencies to carry out a project if the SEA determines that—

(1) An LEA is unable or unwilling to conduct a project;

(2) The arrangement would result in more efficient and economic administration of the State migrant education program; or

(3) The arrangement would add substantially to the welfare or educational attainment of the migratory children who are eligible to be served.

(b) *Basis for determination.* (1) An SEA may determine that an LEA is unwilling or unable to conduct a project for the migratory children who are eligible to be served if—

(i) The LEA fails to submit an application by the date established by the SEA; or

(ii) The LEA fails to submit, after receiving any needed technical assistance from the SEA, an application that satisfies the criteria for approval established by the SEA.

(2) The SEA shall—for each area of the State with a significant concentration of eligible currently migratory school-aged children—either provide services directly, through a subgrant with an LEA, or through a special arrangment with a public or nonprofit private agency.

(c) *Requirements for a special arrangement.* If an SEA makes a special arrangement for service through a public or nonprofit private agency, the SEA shall require that operating agency or apply for funds and administer its project in a manner consistent with the provisions relating to LEAs as subgrantees, as prescribed in subparts D, E, and F of these regulations.

(20 U.S.C. 2761, 2762)

§§ 116d.42—116d.49 [Reserved]

Subpart F—What Conditions Must Be Met by the State and Its Subgrantees?

§ 116d.50 What are the program's fiscal requirements?

(a) *General.* An SEA and its operating agencies shall comply with the requirements of title I of the Act and 45 CFR Part 116 (general title I provisions) relating to the—

(1) Maintenance of fiscal effort;

(2) Restriction limiting the use of program funds to the excess cost of projects;

(3) Requirements that program funds supplement and not supplant non-Federal funds (except for those requirements implementing section 126(d) of title I of the Act);

(4) Public control of funds; and

(5) Use of program funds for staffing, parent council activities, training, planning grants, and cooperative projects.

(b) *State control of funds.* (1) *Adjustment of subgrants.* To promote the efficient administration of the State migrant education program, the SEA shall issue a rule that permits the SEA to make appropriate adjustments to its subgrants and special arrangements to avoid paying funds to an operating agency in excess of that agency's actual needs.

(2) *Adjustment procedures.*

(i) These adjustments shall be based on periodic reports of the operating agency's actual expenditures.

(ii) Following an adjustment, the SEA may increase the funding of one or more other operating agencies that demonstrate a need for additional funds.

(iii) An operating agency affected by an adjustment shall amend its project application to reflect that adjustment and shall note the adjustment in its final financial report.

(c) *Title and control of property.* (1) *State control.* Except as provided by paragraph (c)(2) of this section, and notwithstanding the requirements of 45 CFR Part 116 (general title I provisions), an SEA shall maintain title to and control over all property that is acquired with its migrant education funds.

(2) *Special requirements.* (i) If a State law requires that an agency of the State other than the SEA maintain title to, or control over, property that is acquired with migrant education funds, the SEA shall arrange for those functions to be carried out by the appropriate agency. That State agency shall then be responsible for the exercise of those functions.

(ii) However, the SEA shall retain the right to use, move, or otherwise dispose of this property in a manner designed to carry out most effectively the State migrant education program.

(d) *Source of funds for State administration.* (1) *State administrative funds.* To administer its title I program for migratory children, the SEA shall use funds provided under section 194 of title I of the Act or section 510 of title V of

the Act, whichever applies. It shall use these funds of perform those functions that are the same or similar to the administrative functions carried out by the SEA in connection with projects under 45 CFR Parts 116a (LEA projects in low-income areas), 116b (State agency projects for handicapped children), and 116c (State agency projects for neglected or delinquent children). These functions include the—

(i) Preparation of the SEA's monitoring and enforcement plan and annual program plan to be submitted to the Commissioner;

(ii) Design, publication, and distribution to operating agencies of the application, evaluation, performance, and financial report forms, and the appropriate instructions;

(iii) Provision of technical assistance to operating agencies in developing their applications;

(iv) Review of applications and reports from operating agencies;

(v) Monitoring of projects for compliance with the State migrant education program;

(vi) Design, publication, and final preparation of the evaluation, performance, and financial reports that the SEA submits to the Commissioner;

(vii) Maintenance of fiscal control and accounting procedures;

(viii) Dissemination of information; and

(ix) Coordination of the State migrant education program—and facilitation of the coordination of local projects—with other public and private agencies.

(2) *Program funds.* To administer its title I program for migratory children, an SEA may use title I funds made available for State migrant education programs under section 141 of title I of the Act only to perform those functions that are unique to the Migrant Education Program or that are the same or similar to the functions performed by LEAs in the State under 45 CFR Part 116a. These functions include the—

(i) State-wide identification and recruitment of eligible migratory children;

(ii) Interstate and intrastate coordination of the State migrant education program and its local projects with other State programs and local projects;

(iii) Coordination of project level activities with other public and private agencies;

(iv) Implementation of the migrant student record transfer system;

(v) Processing of reports that are submitted by the operating agencies to the SEA;

(vi) Maintenance of inventories of property acquired with migrant education funds;

(vii) Negotiation and awarding of contracts; and

(viii) Evaluation activities of the State migrant education program other than the design of evaluation report forms and the final preparation of the SEA's evaluation report to the Commissioner.

(20 U.S.C. 2761, 2762; 20 U.S.C. 2844; 20 U.S.C. 3150)

§ 116d.51 How may funds be used?

(a) *General.* An SEA may use funds made available for the State migrant education program under section 141 of title I of the Act only for the following:

(1) To perform the functions described in § 116d.50(d)(2) of these regulations relating to administrative functions that are unique to the State migrant education program.

(2) To support approved projects designed to meet the special educational needs of eligible migratory children.

(b) *Types of services.* The projects referred to in paragraph (a)(2) of this section must be designed to meet the special educational needs of the migratory children eligible to be served, particularly any need for improvement in the basic academic subjects. The project's services must be supplementary to those services provided with State and local funds. These projects may include the following types of services:

(1) Academic instruction.

(2) Remedial and compensatory instruction.

(3) Bilingual and multicultural instruction.

(4) Vocational instruction and career education services.

(5) Special guidance, counseling, and testing services.

(6) Preschool services.

(7) Other educational services that are not available to eligible migratory children in adequate quantity or quality.

(8) The acquisition of instructional materials—such as books and other printed or audiovisual materials—and equipment.

(9) Other services that meet the purposes of the Migrant Education Program.

(20 U.S.C. 2761, 2762)

§ 116d.52 [Reserved]

§ 116d.53 What is the requirement for coordination with other groups?

An SEA shall plan and operate the activities in its annual program plan in coordination with—

(a) Migrant and seasonal farmworker projects administered under Section 303 of the Comprehensive Employment and Training Act of 1973;

(b) Migrant and seasonal farmworker projects administered under Title IV of the Economic Opportunity Act of 1964; and

(c) Projects of any other group or agency that provides benefits or services to migrants.

(20 U.S.C. 2761, 2762; 20 U.S.C. 2734)

§ 116d.54 What is the requirement for coordination among projects and with other State programs?

An SEA shall develop and implement a plan to promote continuity in the education of eligible migratory children. The SEA shall include in this plan appropriate procedures for—

(a) Coordinating projects within the State. This may include the interdistrict transfer of course credits and the intrastate sharing of project planning, evaluation, curricular, and staff training materials;

(b) Coordinating the State migrant education program with similar programs in other States. This may include the interstate transfer of course credits and the interstate sharing of program planning, evaluation, curricular, and staff training materials; and

(c) Using fully the migrant student record transfer system, including the transfer—in an appropriate manner according to instructions of the Commissioner—of the most current academic, health, enrollment, and withdrawal information available for the children served.

(20 U.S.C. 2761, 2762)

§ 116d.55 What are the requirements for parental involvement?

(a) *General.* An SEA shall take the necessary steps to assure effective parental involvement throughout the State migrant education program.

(b) *Requirements for an operating agency advisory council.* An SEA shall require each operating agency to—

(1) Solicit actively parental involvement in the planning, operation, and evaluation of its project; and

(2) Establish and consult a parent advisory council.

(c) *Requirements for the State advisory council.* An SEA shall—

(1) Solicit actively parental involvement in the planning, operation, and evaluation of its State migrant education program; and

(2) Establish and consult a parent advisory council.

(d) *General council requirements.* (1) Each State and operating agency parent advisory council must be composed of people who know the needs of migratory children.

(2) To the extent possible (considering factors such as the duration of the project or the continuing availability of council members), the membership of each council must be elected by parents of eligible migratory children.

(3) A majority of the members of each council must be parents of children who are being served or who are eligible to be served.

(4) An SEA and each operating agency shall give its parent advisory council the responsibility for advising it with respect to the planning, implementation, and evaluation of the State program or the local project, whichever applies.

(5) An SEA and each operating agency shall provide, without charge, to its parent advisory council and, upon request, to each member of its parent advisory council, a copy of the title I migrant education statute and any applicable Federal or State regulations or guidelines.

(6) An SEA and each operating agency shall provide, without charge, to its parent advisory council any report resulting from Federal or State auditing, monitoring, or evaluation of the State program or the local project, whichever applies.

(7) An SEA and, to the extent possible, each operating agency shall provide a program for training the members of its advisory council to carry out their responsibilities. The training program—

(i) Must be planned in full consultation with members of the parent advisory council;

(ii) Must provide each member of the advisory council with appropriate training materials; and

(iii) May be supported by migrant education funds, including the expenses associated with the attendance of members at training sessions.

(8) An operating agency that provides services on a State-wide basis need not create its own advisory council. However, that agency shall consult the State parent advisory council required by paragraph (c) of this section.

(20 U.S.C. 2761, 2762; 20 U.S.C. 2735)

§ 116d.56 How is the eligibility of a participating child documented?

(a) *Basic requirement.* An SEA or an operating agency may not count a child under § 116d.20 or provide program services to that child until the agency has—

(1) Determined that the child is either a currently or formerly migratory child as defined under § 116d.3(d); and

(2) Made a written record of the basis on which the child's eligibility was determined.

(b) *Informational basis.* (1) In determining eligibility, an SEA or an operating agency may rely on credible information from any source, including that provided by the child or his or her parent or guardian.

(2) An SEA or an operating agency is not required to obtain documentary proof of either the child's eligibility or civil status from the child or his or her parent or guardian.

(20 U.S.C. 2761, 2762)

§ 116d.57 What is the requirement for comparable access for migratory children?

(a) *Basic requirement.* In order to participate in the State migrant education program, an LEA shall provide migratory children with access to State and locally funded educational facilities and services comparable to those ordinarily provided to non-migratory children living in the attendance area in which migratory children are being served.

(b) *Relation to other requirements.* The provisions of paragraph (a) of this section do not modify—

(1) The requirements of 45 CFR Part 116 (general title I provisions) relating to supplanting State and local funds and services that the applicant is required by law to provide to all children or specifically to migratory children; or

(2) The requirement in 45 CFR Part 116a relating to the maintenance of comparability in school attendance areas conducting projects that are funded under 45 CFR Part 116a and that serve migratory children.

(c) *Definition of comparable access.* The requirements of paragraph (a) are satisfied only if an LEA gives migratory children access to all State or locally funded instructional, health, nutritional, transportation, and other services on the same basis as the LEA provides to non-migratory children residing in the attendance area where migratory children are being served.

(20 U.S.C. 2761, 2762)

§ 116d.58 Under what conditions may services be provided to preschool and formerly migratory children?

(a) *Preschool migratory children.* (1) An SEA may support a project that provides instructional or supporting services to preschool migratory children if the participation of these children does not—

(i) Prevent the participation of school-aged migratory children; or

(ii) Dilute the effectiveness of the State migrant education program for these school-aged children.

(2) An instructional project that is designed to meet the special educational needs of preschool migratory children is a project that is—

(i) Comprised primarily of activities designed to increase the children's readiness for instruciton in the basic academic skills;

(ii) Limited to children who are under the age at which public elementary education is provided under State law; and

(iii) Conducted by or under the direct supervision of a person who is qualified under State law to conduct the activities referred to in paragraph (a)(2)(i).

(b) *Formerly migratory children.* (1) An SEA may support a project that provides instructional or supporting services to formerly migratory children if the participation of those children does not—

(i) Prevent the participation of currently migratory children of the same age group (i.e., preschool or school-aged); or

(ii) Dilute the effectiveness of the State migrant education program for those currently migratory children.

(2) A formerly migratory child may participate in a project that—

(i) Also includes currently migratory children; or

(ii) Includes only formerly migratory children.

(c) *Service priorities.* An SEA and its operating agencies shall serve eligible migratory children—according to their needs—in the following order:

(1) School-aged currently migratory children.

(2) School-aged formerly migratory children.

(3) Preschool currently migratory children.

(4) Preschool formerly migratory children.

However, if in order to provide title I instructional services to school-aged currently migratory children, it would be necessary to provide day care or similar services to preschool-aged currently migratory children, and no other funds—other than title I funds—are available for that purpose, an SEA or an operating agency may provide title I instructional services instead of day care services to those preschool children as if those children had a priority higher than school-aged formerly migratory children.

(20 U.S.C. 2761, 2762)

§ 116d.59 Under what conditions may supporting services be provided?

(a) *General.* An SEA or an operating agency may provide health, nutritional, social, or other supporting services with migrant education funds if—

(1) These services are necessary to enable eligible migratory children to

participate effectively in instructional services; and

(2) In the case of an operating agency, that agency has first—

(i) Requested assistance from the SEA in locating and using other Federal and State programs to provide these services; and

(ii) Determined that funds or services from other programs are not available or are inadequate to meet the needs of the participating migratory children.

(b) *Day care services.* (1) *Condition for approval.* An SEA or an operating agency may provide day care services for eligible migratory children only as a supporting service to eligible preschool or school-aged migratory children and only with the specific approval of the Commissioner.

(2) *Request to the Commissioner.* An SEA that desires to use program funds for day care services shall include a request in its annual program plan and shall provide adequate information to allow the Commissioner to determine that the proposed day care services are—

(i) Not available from any other source;

(ii) Necessary to enable eligible preschool or school-aged migratory children to receive instructional services supported under title I; and

(iii) Not extravagant in relation to—

(A) The costs;

(B) The number of children who will receive day care services; and

(C) The effect that the availability of these services will have on the participation of eligible migratory children in instructional services supported by title I funds.

(20 U.S.C. 2761, 2762; 20 U.S.C. 2734)

Subpart G—What Are the Administrative Responsibilities of the State?

§ 116d.60 The State is responsible for reviewing and approving applications.

(a) *State review and approval.* An SEA shall review all applications from operating agencies and may approve only those that—

(1) Satisfy the criteria established by the SEA; and

(2) Comply with the requirements of title I of the Act, all regulations that apply, and the provisions of the approved State annual program plan.

(b) *Copy to the Commissioner.* If the Commissioner requests a copy of an approved application, including any amendment, the SEA shall send that copy within 10 days of the request.

(20 U.S.C. 2761, 2762; 20 U.S.C. 2811)

§ 116d.61 The State is responsible for monitoring and enforcement.

[See the Title I General Provisions Regulations (45 CFR Part 116).]

§ 116d.62 Under what conditions must the State withhold funds?

[See the Title I General Provisions Regulations (45 CFR Part 116).]

§ 116d.63 How must the State conduct and resolve audits?

[See the Title I General Provisions Regulations (45 CFR Part 116).]

§ 116d.64 How must the State resolve complaints?

(a) *General.* An SEA shall develop and implement procedures—for resolving complaints—that comply with all of the requirements prescribed by 45 CFR Part 116 (general title I provisions).

(b) *Special procedure.* An SEA shall establish an appropriate accelerated procedure for resolving complaints regarding short-term migrant education projects—such as those that operate for fewer than 90 days.

(c) *Commissioner's review.* The Commissioner may review an SEA's resolution of a complaint. The procedures governing the Commissioner's review of an SEA's resolution of a complaint where published in the **Federal Register** on October 23, 1979 (44 FR 61109). After the review, the Commissioner may, when appropriate—

(1) Issue an order to the SEA prescribing additional actions to be taken by that agency; or

(2) Implement a special arrangement as stated under § 116d.24.

(20 U.S.C. 2761, 2762; 20 U.S.C. 2815; 20 U.S.C. 3147)

§ 116d.65 How must the State evaluate the program?

(a) *General.* An SEA shall submit to the Commissioner an annual report evaluating the effectiveness of its State-wide migrant education program.

(b) *Sampling.* To minimize the reporting burden on projects, the SEA may select each year a representative sample of projects, schools, and children to participate in the State-wide evaluation. The selection of this sample must be done in accordance with any criteria published by the Commissioner.

(20 U.S.C. 2761, 2762; 20 U.S.C. 2822; 20 U.S.C. 3141; 20 U.S.C. 1232d)

§§ 116d.64–116d.69 [Reserved].

Subpart H—What Compliance Procedures Are Used by the Office of Education?

§ 116d.70 Under what conditions does the Commissioner withhold funds?

If the Commissioner determines that an SEA has failed substantially to comply with the requirements of the Act, any regulations that apply, or the provisions of the approved State annual program plan, the Commissioner—

(a) Shall withhold title I migrant education funds from that SEA in accordance with section 186 of title I of the Act and Section 435 of the General Education Provisions Act; or

(b) May enter into a compliance agreement with the SEA in accordance with section 186 of title I of the Act; or

(c) May issue a cease and desist order to the SEA in accordance with Section 454 of the General Education Provisions Act.

(20 U.S.C. 2761, 2762; 20 U.S.C. 2836; 20 U.S.C. 1234b, 1234c)

§§ 116d.71–116d.79 [Reserved]

Note.—This appendix to Part 116d will not be published in Title 45 of the Code of Federal Regulations.

Appendix—Summary of Comments and Responses

The following is a summary of the comments received on the notice of proposed rulemaking (NPRM)—for the Migrant Education Program—published on May 14, 1979. Each comment is followed by a response that indicates any change that has been made or why no change is considered necessary. Specific comments are arranged in order of the sections of these final regulations to which they pertain.

§ *116d.3 What definitions apply to the migrant education program?*

Comment. One commenter requested a clarification of the term "personal subsistence," as used in the definitions of "agricultural activity" and "fishing activity."

Response. No change has been made. However, as explained in the "Summary of Comments and Responses" published with the previous final regulations of November 13, 1978 (at 43 FR 52684), "personal subsistence" means that the agricultural items are produced or fish or shellfish are caught for direct consumption by the worker and his or her family—rather than produced or caught for wages or other income.

Comment. One commenter recommended that the "cultivation and harvesting of trees" be defined

separately from "agricultural activity," as a different occupational activity.

Response. No change has been made. The statute extends program eligibility only to the children of workers involved in either agriculture or fishing. However, Senate Report No. 95–856, 95th Congress, 2d Session at 24, explains that "migratory workers involved in the cutting and harvesting of timber are within the definition of migratory 'agricultural workers.' "

Comment. Two commenters recommended that the processing of trees (that is, the operation of lumber mills) be included as a qualifying occupation under "agricultural activity."

Response. No change has been made. Senate Report No. 95–856, 95th Cong. at 24, indicates that only the "cutting and harvesting of timber" are intended to be included under the definition of "agricultural activity." By including workers who are involved in industrial processing activities, the program would risk serving large numbers of children outside of the group Congress intended to be served.

Comment. Two commenters recommended that the definitions of "currently migratory child," "migratory agricultural worker," and "migratory fisher" be revised to provide that moving from one school attendance area to another qualifies a child or worker as migratory. These commenters pointed out that children and workers may move from place to place within very large school districts.

Response. No change has been made. This recommendation has not been adopted for the reasons given in the preamble to the interim final regulations (at 42 FR 36078) and in the "Summary of Comments and Responses" published with the previous final regulations (at 43 FR 52683). The legislative history of the Migrant Education Program indicates that Congress generally intended the program to serve children who migrate from school district to school district (Conference Report No. 93–1026, 93d Cong., 2d Sess. 142–143). It was the belief of Congress that these children suffer the greatest ill-effects of mobility because different school districts are administered separately and generally provide different curricula.

However, the definitions do continue to cover children and workers who migrate from one school administrative area to another in States that are comprised of a single school district.

Comment. One commenter recommended that a child who moves only during periods of time when school is not in session should not qualify as a "currently migratory child."

Response. No change has been made. The Commissioner has no authority to regulate with respect to the time of the year during which a child migrates.

Comment. Two commenters recommended that the period of eligibility for a "formerly migratory child" should be changed. One commenter recommended reducing the period of eligibility to 2 or 3 years; the other commenter recommended a reduction to one year.

Response. No change has been made. The eligibility of a child as a "formerly migratory child" for up to 5 years is statutory.

Comment. One commenter requested a clarification of the phrase "to enable him or her to obtain temporary or seasonal employment" as used in the definitions of "migratory agricultural worker" and "migratory fisher." More specifically, this commenter asked whether a person would actually have to secure the agricultural or fishing employment in order to qualify as an eligible worker.

Response. No change has been made. The phrase "to enable him or her to obtain temporary or seasonal employment" refers only to the *intent* to obtain employment. As stated in the preamble to the program's interim final regulations (at 42 FR 36078), the Commissioner considers a person to be migratory if that person moves from one school district to another in order to secure seasonal or temporary agricultural or fishing employment, regardless of whether the employment is actually secured.

§ 116d.10 What documents must a State submit to receive a grant?

Comment. One commenter recommended that the State program plan be required only once every three years.

Response. No change has been made. Section 141(a) of title I of the Act states that a State educational agency (SEA) is eligible to receive a grant—annually—"upon application." Therefore, an application document must be submitted for grant awards under this program. Furthermore, section 510 of title V of the Act (State administration requirements for both title I and title IV programs) describes the plan for the Migrant Education Program as "the annual application submitted under Section 142 of this Act."

Comment. One commenter recommended that a State monitoring and enforcement plan be required annually.

Response. No change has been made. Section 171(a) of title I of the Act requires the submission of a State monitoring and enforcement plan at least once every three years. While the statute gives the Commissioner the authority to require the submission of this plan more frequently than once every three years, the Commissioner does not believe that there is a sound programmatic reason for doing so.

The State monitoring and enforcement plan merely describes how the SEA will monitor projects and enforce compliance with legal requirements, and does not include the types of information that need to be reviewed by the Commissioner annually—such as numbers of children, the needs of those children, types of services to be provided, and the cost of those services. All of this information is provided in the annual program plan.

Comment. One commenter recommended that the SEA be required to consult more fully with local educational agencies (LEAs) in the development of the State annual program plan.

Response. No change has been made. Public participation requirements governing the development of the annual program plan are included in the Education Division General Administrative Regulations (EDGAR), and provide for the participation of advisory committees, local agencies, interest groups, and experienced professionals.

Comment. One commenter recommended that an amendment to a State annual program plan should not be required to undergo the same review and approval process as the original plan itself.

Response. No change has been made. The EDGAR govern the amendment of annual program plans. Basically, those rules require an SEA to follow the same procedures in amending its annual program plan as it followed in developing it initially. However, an amendment is required only if the changes are "significant and relevant"—in which case it is appropriate to subject an amendment to full consideration.

§ 116d.14 How is a State's annual program plan reviewed?

Comment. One commenter recommended that the Commissioner use "experts" to review State annual program plans.

Response. No change has been made. It is not the purpose of program regulations to regulate the administrative procedures of the Office of Education. However, the Commissioner is planning to use "experts" in migrant education to review State annual program plans. That

review is described in § 116d.14 of these regulations.

§ 116d.20 How is the amount available for a State grant determined?

Comment. Seven commenters recommended that the Commissioner should not limit, by placing a "cap" on title I State agency program funding, the fiscal growth of the Migrant Education Program. These commenters recommended maintaining the full funding for the program "off-the-top" of the total title I appropriation.

Response. No change has been made. Under section 193 of the title I statute, all title I State agency programs—including the Migrant Education Program—continue to be fully funded "off-the-top" of the total title I appropriation.

Comment. Thirty-two commenters recommended that the funding formula be expanded with respect to the age range of migratory children who are eligible to be counted for funding. Five of these commenters recommended expanding the funding formula to include migratory children aged 18–21 years old; twenty-seven commenters recommended including preschool-aged migratory children in the funding formula.

Response. No change has been made. The funding formula—including the counting of only those migratory children aged 5 through 17 years—is statutory.

Comment. One commenter recommended increasing the amount of title I administrative funds that are provided to an SEA to administer its migrant education program.

Response. No change has been made. The amount of title I administrative funds that an SEA is eligible to receive is statutory (section 194 of title I of the Act).

However, the statute does not specify what portion of the funds authorized under section 194 is to be used for each of the various title I programs. Because the SEA both administers and carries out its program for migratory children, it may also perform a number of administrative type activities, such as those listed in § 116d.50(d)(2), that are performed by LEAs for programs under 45 CFR Part 116a (educationally deprived children) or by other State agencies for programs under 45 CFR Part 116b (handicapped children) and 45 CFR Part 116c (neglected or delinquent children). These activities may be charged to program funds even though they are "administrative" in nature.

Furthermore, the Education Amendments of 1978 did increase the amount of administrative funds to be provided, generally, to each SEA to the greater of $225,000 or 1.5 percent of the State's total of Title I allocations.

Comment. One commenter requested that the funding formula for the Migrant Education Program be explained in detail in the program's regulations.

Response. No change has been made. Section 116d.20 provides a general explanation of how the total grant amount available to an SEA is determined. However, for clarification, a more detailed explanation of how State grant amounts are determined is provided here.

(a) A State is credited with one residency day for each day (during the calendar year period) that a migratory child resides in that State. Residency days for each migratory child are determined on the basis of that child's enrollment data in the migrant student record transfer system (MSRTS).

(b) A State's total of accumulated residency days is divided by 365 (each group or 365 accumulated residency days equals one full-time equivalent (FTE) migratory child).

(c) A State's total FTE of migratory children is then multiplied by 40 percent of the State's per pupil expenditure rate (adjusted to not less than 40 percent of 80 percent nor more than 40 percent of 120 percent of the national average per pupil expenditure rate).

(d) An additional amount (based on a State's enrollment of summer program migratory children and the duration of those summer program enrollments) is then added. That additional amount is added in consideration of "the special needs of . . . children for summer programs and the additional costs of operating such programs during the summer."

The computed amount becomes the total amount available to that State for its title I migrant education grant, unless that State's computed amount results in an amount less than the State received in the prior fiscal year. Section 157 of title I of the Act provides that no State migrant education program shall receive in any fiscal year—through and including fiscal year 1982—less than 100 percent of the amount that it received in the prior fiscal year.

Furthermore, the Commissioner is authorized by section 142(c) of title I of the Act to use all or part of the amount available to an SEA to make a special arrangement with another agency for services to migratory children. Since fiscal year 1969, the Commissioner has withheld a proportionate amount of each State's entitlement to fund the migrant student record transfer system. The remaining amount is then made available to each SEA.

Comment. Ten commenters requested a clarification of the "special summer formula" described in § 116d.20(b). Five of those commenters requested that the regulations include the formula itself.

Response. No change has been made. Section 116d.20(b) provides a general explanation of the objective of the "special summer formula" and the adjustment factor. As new data become available to the Commissioner from year to year, the adjustment factor may be changed based on "the best available information about the costs of operating summer projects." However, as § 116d.20(b) also states, the adjustment factor to be used each year will be announced, in advance, in the **Federal Register.**

Comment. One commenter recommended that the Comissioner establish some additional requirements to be imposed on SEAs that accept the additional funds generated by the special summer formula. One suggestion was that an SEA be required to conduct a summer project of a prescribed duration.

Response. No change has been made. The title I statute and these regulations make it clear that each SEA is charged with the responsibility to determine the special educational needs of the eligible migratory children and to design appropriate projects to meet those needs. It is expected that an SEA will design its summer projects in that same manner. No requirements beyond those generally imposed for other types of projects are warranted.

However, the Commissioner does interpret the statute as authorizing a denial of the additional funds generated by the special summer formula to an SEA that does not conduct a summer project at all.

§ 116d.22 How are excess funds reallocated?

Comment. One commenter recommended that the Commissioner not be authorized to reallocate funds. Two commenters urged that the Commissioner's reallocation authority be maintained.

Response. No change has been made. Section 141(b) of title I of the Act authorizes the Commissioner, in the event it is determined that the amount available to a State exceeds its requirements, to "allocate such excess, to the extent necessary, to other States, whose total of grants under this sentence would otherwise be insufficient for all such children to be served in such States."

Comment. One commenter recommended that the Commissioner not consider reallocating part of a

State's total amount available for its grant unless that State has carried over for two consecutive years more than 25 percent of its entitlement. Another commenter recommended that the figure of 30 percent be used.

Response. No change has been made. The Commissioner believes that a 15 percent carryover of funds for two consecutive years is an appropriate amount to initiate *consideration* of the reallocation of part of these funds—as excess funds.

It is important to note that the repeated occurrence of a 15 percent carryover merely triggers the Commissioner's consideration of the reallocation of funds.

Furthermore, § 116d.22(c) explains that the Commissioner notifies an SEA if a reallocation is being considered, and the SEA is provided with an opportunity "to explain why a reallocation is not warranted." Therefore, if an SEA can demonstrate that it has a genuine need for all of its grant funds and that those funds will be used for current-year program services, the Commissioner may determine that a reallocation is not warranted.

§ 116d.23 Under what conditions may the Commissioner make a special arrangement for services?

Comment. One commenter recommended that the Commissioner should not be authorized to "by-pass" an SEA. Conversely, another commenter recommended that the Commissioner's "by-pass" authority (authority to implement a special arrangement for services) be retained.

Response. No change has been made. The Commissioner's authority to "by-pass" an SEA to provide program services is statutory. Section 142(c) of title I of the Act states that "If the Commissioner determines that a State is unable or unwilling to conduct educational programs for migratory children . . . or that it would result in more efficient and economic administration, or that it would add substantially to the welfare or educational attainment of such children, he may make special arrangements with other public or nonprofit private agencies to carry out the purposes of this section."

Comment. Three commenters requested that parents and agencies be provided with a specific mechanism through which they can petition either the Commissioner or an SEA to implement a special arrangement for services.

Response. No change has been made. The Commissioner does not believe that the creation of district and possibly restrictive petition procedures was warranted. The existing complaint resolution procedures—at both the Federal and State levels—are flexible enough to serve as an effective means through which a request for a special arrangement may be made.

§ 116d.30 What documents must an applicant submit to receive a subgrant?

Comment. One commenter recommended that the Commissioner continue to require the submittal, to the Office of Education, of all approved applications for subgrants.

Response. No change has been made. The Migrant Education Program is both administered and operated by SEAs.

In the event of a subgrant to an LEA or a special arrangement with another agency to conduct program services, the SEA is fully responsible for reviewing and approving the appropriate application for funds. However, the Commissioner is authorized to regulate with respect to the minimum requirements of an application for a subgrant, and has done so in § 116d.32 of these regulations. The Commissioner believes that an application for a subgrant, submitted in accordance with the requirements of subpart D of these regulations (How Does An Agency Apply to the State for a Subgrant?), will provide an SEA with adequate information to determine whether the proposed project complies with applicable regulations and statutes, as well as to evaluate its promise of success in meeting the special educational needs of the children.

Furthermore, the Commissioner is interested in reducing, when reasonable, the paperwork burden imposed on grantees.

The Commissioner is authorized, of course, to oversee the plan and operation of a project conducted by an operating agency. Therefore, § 116d.60 of these regulations requires that "If the Commissioner requests a copy of an approved application, the SEA shall send that copy within 10 days of the request."

§ 116d.32 What provisions are required in an application for a subgrant?

Comment. One commenter recommended that the Commissioner should prescribe more detailed requirements for subgrant applications.

Response. No change has been made. The Commissioner believes that the requirements imposed by § 116d.32 dealing with applications for subgrants are sufficient to permit the SEA to review each application appropriately. As § 116d.32(j) states, the SEA may require "any other relevant information" that it needs to evaluate the application.

§ 116d.40 How is the amount of a subgrant determined?

Comment. One commenter requested a clarification of the "formula" through which an SEA distributes program funds to operating agencies.

Response. No change has been made. There is no "formula" through which an SEA is required to distribute program funds to operating agencies. Section 116d.40 provides a general explanation of the criteria with which an SEA may determine the amount of a subgrant to an LEA. This section provides workable and flexible standards for the SEA.

§ 116d.41 What are the conditions under which a State may make a special arrangement for services?

Comment. Three commenters asked whether an SEA is authorized to provide services through an agency other than an LEA.

Response. No change is required by this comment. Section 116d.41 states clearly that an SEA "may make a special arrangment with a public or nonprofit private agency or agencies to carry out a project."

Comment. Thirteen commenters requested a clarification of the circumstances under which an SEA should consider "by-passing" an LEA and conducting services through a special arrangement with another agency.

Response. A change has been made. Section 116d.41 now includes some further clarification of the circumstances in which an SEA should consider conducting services through a special arrangement with an agency other than an LEA.

This section now indicates that an SEA may determine that an LEA is "unwilling" to conduct a project if the LEA does not submit an application by the date established by the SEA. In addition, the SEA may determine than an LEA is "unable" to conduct a project if it does not submit, after any needed technical assistance from the SEA, an application of sufficient quality to satisfy the SEA's criteria for approval.

Furthermore, § 116d.41 now states that in accordance with its obligation under § 116d.12(d)(2) to serve "all significant concentrations of currently migratory school-aged children in the State," an SEA shall either provide services directly or implement a special arrangement for services when the non-participation of an LEA affects a "significant concentration" of eligible, currently migratory school-aged children.

§ 116d.51 How may funds be used?

Comment. Ten commenters recommended that § 116d.51(b) emphasize instruction in the basic academic subjects, as emphasized in § 116d.39(b) of the previous final regulations. These commenters also suggested that the listing of authorized services in § 116d.51(b) be re-ordered to emphasize academic instruction.

Response. A change has been made. Section 116d.51(b), in referring to appropriate types of project services, now includes the phrase "particularly any need for improvement in the basic academic subjects." Also, the listing of suggested types of services has been re-ordered to give emphasis to basic academic instruction.

Comment. Two commenters recommended that the Commissioner require all State programs to include instruction in several selected, standard disciplines.

Response. No change has been made. The Migrant Education Program is a supplementary, compensatory educational program intended to address "the special educational needs of . . . migratory children particularly any need for improvement in the basic academic subjects." The determination of the special educational needs of the migratory children who will participate is the responsibility of each SEA, as is the design of the programs and projects to meet those needs.

Comment. One commenter recommended that these regulations encourage "non-pullout" services (services provided in the regular classroom).

Response. No change has been made. The title I statute and these regulations make it clear that each SEA is charged with the responsibility to determine the special educational needs of the eligible migratory children and to design appropriate programs and projects to meet those needs.

It is not the intent of these regulations nor of the statute to limit unduly the options of educational agencies with respect to the timing and approaches to be taken in the development of special migrant education instructional activities. The Commissioner supports fully the use of "non-pullout" services, when appropriate.

It should be noted, however, that when special migrant education services are provided in the regular classroom, special precautions must be taken to assure that these services are not diluted by the presence of non-migratory children. Migrant Education Program services must be planned, conducted, and directed for the sole benefit of migratory children selected to participate in the project.

Comment. Two commenters suggested that these regulations should encourage the provision of "summer-term" services.

Response. No change has been made. The title I statute and these regulations make it clear that each SEA is charged with the responsibility to determine the special educational needs of the eligible migratory children and to design appropriate programs and projects to meet those needs. Those needs may require the use of summer-term projects.

However, the Commissioner will encourage indirectly the establishment of summer-term projects through the availability of additional special funds based on the enrollment of eligible migratory children during the summer. Furthermore, the Commissioner interprets the statute as authorizing a denial of the additional funds generated by the "special summer formula"—as explained in § 116d.20(b)—to an SEA that does not provide summer-term services.

Comment. One commenter recommended that the regulations prohibit the payment of "stipends" to participating students.

Response. No change has been made. Section 141(a) of title I of the Act provides that migrant education funds must be used "to establish or improve . . . programs of education for migratory children."

Standing alone, the payment of money to a migratory child has no educational content and does not address directly his or her educational needs. However, if a payment were integrally related to a program of educational services—perhaps as part of a work-study project—such a payment might be permitted. Depending upon the facts of the case, the payment of money might be said to have educational content in its own right.

In addition, any payment would have to be "necessary to enable eligible migratory children to participate effectively in instructional services," as required by § 116d.59(a) of these regulations, and would be subject to the requirement that the expenditure be "necessary and reasonable" according to the standards of appendix C (Principles for determining costs applicable to grants and contracts with State and local governments) that apply to the Migrant Education Program through 45 CFR § 74.171 of the HEW Grants Administration Regulations.

For example, under these standards, migrant education funds could not be used to pay stipends to migratory children merely to encourage them to attend educational programs that they are required to attend under State law.

Comment. A number of commenters recommended that the Commissioner require bilingual and multicultural instructional services when the linguistic circumstances of the children to be served warrant them. More specifically, seven commenters said that bilingual or multicultural instruction should be required; 12 commenters recommended that these regulations require the employment of bilingual or multicultural teachers and other staff members; 10 commenters recommended that these regulations require programs to follow the procedures outlined in the "Task Force Findings Specifying Remedies Available for Eliminating Past Educational Practices Ruled Unlawful Under *Lau* v. *Nichols*," of HEW's Office for Civil Rights.

Response. A change has been made. The provision for a needs assessment—in § 116d.12(b)(3) of these regulations—now includes a requirement that the State annual program plan also "demonstrate that the SEA has obtained an accurate assessment of the cultural and linguistic backgrounds of the children." This requirement is based on the statutory requirement that a State's program be designed to meet the special educational needs of the children.

This language has been continued from the program's previous final regulations. Section 116d.12(b)(3) also requires that the assessment include a description of "the educational needs of the children . . . with respect to . . . speaking ability in English."

Section 116d.12(b)(5)—relating to instructional services—retains the requirement that the State plan include a description of how the SEA ensures that "no migratory child is prevented from benefiting fully from the services provided because he or she does not speak English or has limited English language skills."

Also, § 116d.32(i) retains the requirement that an application for a subgrant include "a description of how the LEA ensures that no eligible migratory child will be prevented from benefiting fully from the project's services because he or she does not speak English or has limited English language skills."

Section 116d.51(b) retains the suggestion that "bilingual and multicultural instruction" is appropriate for support with migrant education funds.

The Act, however, does not authorize, and Section 432 of the General Education Provisions Act forbids, the Office of Education to require any particular type of curriculum, program of

instruction, or staff. Certainly, bilingual or multicultural modes of instruction may be appropriate when the children to be served have particular linguistic needs; however, other curricular responses may also be appropriate.

It is an SEA's responsibility under § 116d.12(b)(3) to assess the linguistic needs of the children to be served and to devise an educational program appropriate to meet those needs.

§ 116d.53 What is the requirement for coordination with other groups?

Comment. Six commenters made general recommendations to strengthen the coordination of a State migrant education program and its local projects with the programs and services of other agencies.

Response. No change has been made. The Commissioner believes that the requirements—for coordination with other agencies—in these regulations are adequate, and that additional regulations such as the prescribing of specific criteria—applicable in all situations—are not warranted.

Section 116d.53 requires an SEA to "plan and operate . . . activities . . . in coordination with . . . migrant and seasonal farmworker projects administered under Section 303 of the Comprehensive Employment and Training Act of 1973 . . . migrant and seasonal farmworker projects administered under title IV of the Economic Opportunity Act of 1964 . . . and . . . projects of any other group or agency that provides benefits or services to migrants." Section 116d.12(b)(11) requires an SEA to describe those coordination efforts in its State plan.

Section 116d.32(h) requires an LEA, in its application for a subgrant, to describe "how the LEA will comply with section 124(f)(1) of title I of the Act concerning coordination with other agencies."

Section 116d.50(d)(1) authorizes the use of title I administrative funds for the "coordination of the State migrant education program—and facilitation of the coordination of local projects—with other public and private agencies." Section 116d.50(d)(2) authorizes the use of Migrant Education Program funds for "coordination of project level activities with other public and private agencies."

Finally, § 116d.59(a)(2)(i) requires an operating agency—before providing any supporting service with migrant education funds—to first "[request] assistance from the SEA in locating and using other Federal and State programs to provide these services."

§ 116d.54 What is the requirement for coordination among projects and with other State programs?

Comment. Sixteen commenters made general recommendations to strengthen the requirements for interstate and intrastate coordination of programs and projects—such as the interdistrict and interstate transfer of course credits and the sharing of program documents.

Response. No change has been made to § 116d.54. However, § 116d.24 of these regulations now discusses in further detail the types and scope of projects that the Commissioner might consider funding under section 143 of title I of the Act. These projects include activities relating to the transfer of school records, parental involvement, resource centers, identification and recruitment of children, secondary school services (including the transfer of course credits), information dissemination, and staff development. These types of projects, which will be conducted through grants or contracts with the Office of Education, should produce significant improvements to the interstate and intrastate coordination of projects.

Also, these regulations retain a number of other provisions that require an SEA to coordinate its State program and local projects with other programs and projects. Section 116d.12(b)(8) requires an SEA to include in its State plan a description of "its efforts for ensuring continuity in the education of migratory children through . . . working cooperatively with other States . . . requiring its operating agencies to cooperate with one another . . . and . . . using fully the migrant student record transfer system."

Section 116d.54 requires each SEA to "develop and implement a plan to promote continuity in the education of eligible migratory children." That section also requires "the SEA . . . [to] . . . include in this plan appropriate procedures for . . . coordinating projects within the State . . . includ[ing] . . . the interdistrict transfer of course credits and the intrastate sharing of project planning, evaluation, curriculum, and staff training materials . . . coordinating the State migrant education program with similar programs in other States . . . and . . . using fully the migrant student record transfer system."

Finally, § 116d.50(d)(2) authorizes the use of migrant education funds for the "interstate and intrastate coordination of the State migrant education program and its local projects."

Comment. Five commenters recommended that these regulations require full use of and participation in the migrant student record transfer system—by all participating SEAs and operating agencies.

Response. No change has been made. Section 116d.12(b)(8) requires an SEA to include in its State program plan a description of its plan for "ensuring continuity in the education of migratory children through . . . using fully the migrant student record transfer system, including the transfer of the most current academic, health, enrollment, and withdrawal information available for the children served."

Section 116d.54 reinforces that requirement through a parallel provision that requires full use of the migrant student record transfer system to be part of the SEA's "plan to promote continuity in the education of eligible migratory children."

Comment. Seven commenters recommended that the types of interstate coordination projects to be considered for funding under section 143 of title I of the Act should be further defined.

Response. A change has been made. Section 116d.24 now includes a much more detailed discussion of the types and scope of projects to be considered for funding under section 143.

Comment. Two commenters recommended that the requirement that the Commissioner consult with the States—with respect to projects funded under section 143 of title I of the Act—be strengthened.

Response. A change has been made. Section 116d.24(e) now states that "the Commissioner consults fully with the SEAs participating in the Migrant Education Program with respect to the types of projects to be conducted, the priority of funding for these projects, the evaluation of existing projects, and the continuation, expansion, or termination of existing projects."

§ 116d.55 What are the requirements for parental involvement?

Comment. Eighty-three commenters spoke of the need to strengthen the requirements relating to parent advisory councils (PACs). Some of the comments were general recommendations; others included recommendations to provide for the election of council members by the parents, to establish interstate parent advisory councils, and to require that program plans and applications be "signed off" by the agency's parent advisory council.

Response. A change has been made. Section 116d.55 now includes some additional requirements for State and local parent advisory councils. These requirements are adopted from section 125(a) of title I of the Act and include the provision of appropriate information,

materials, and training to the councils, and to the extent possible (considering factors such as the duration of the project or the continuing availability of council members), the election of council members by parents of eligible migratory children.

Also, § 116d.24 now indicates that parental involvement activities may be funded under section 143 of title I of the Act. The Commissioner anticipates that a parental involvement special project might include activities such as "designing and establishing interstate (i.e., regional) parent advisory councils . . . conducting research and development activities with respect to effective designs of parental involvement and the training of parent advisory council members . . . and . . . providing technical assistance to SEAs and LEAs in working with and training parent advisory council members."

Also, the requirements (in § 116d.12) for information relative to State and local parent advisory councils has been revised to require a description of how the membership of parent advisory councils will be selected, a statement of the rationale for selecting any method other than elections by parents of eligible migratory children, and a description of the program's strategy for fostering equitable representation of parents of migratory children of different age groups (preschool, elementary, and secondary), and status groups (currently migratory and formerly migratory).

Comment. Nine commenters recommended that these regulations authorize the use of migrant education funds for paying "stipends" to migratory parents. Conversely, two commenters recommended that this type of payment should not be authorized.

Response. No change has been made. The applicable standards for determining the types of parent council expenditures that may be paid from program funds are included in appendix C to the HEW Grants Administration Regulations (45 CFR Part 74). The general standard is that the cost of any service be "necessary and reasonable" to the proper administration of the grant program. The Commissioner recognizes that, in some cases, it may be necessary for an SEA to establish a uniform allowance for parent advisory council members in order to secure the necessary parent participation. This matter must be judged on a case-by-case basis.

The Commissioner expects SEAs and operating agencies to plan parent council meetings according to the scheduling needs of the participating parents and to use stipends only when absolutely necessary.

§ 116d.56 How is the eligibility of a participating child documented?

Comment. One commenter stated that § 116d.56(b) suggests that a child could be enrolled in the program contrary to the parents' wishes.

Response. No change has been made. The language of § 116d.56(b) is not intended to suggest that a child should be enrolled in the program contrary to the wishes of his or her parent or guardian. The intent of that section is to emphasize that an SEA is not required to demand, from the child or his or her parent or guardian, documentary proof of eligibility for the program (for example, proof of prior residence in another school district, proof of previous employment). The determination of eligibility may be made by the SEA solely on the basis of "credible information from any source, including that provided by the child or his or her parent or guardian."

Also, in § 116d.3(d), the definition for "formerly migratory child" explains that program services may be provided to this type of child only with "the concurrence of his or her parent to continue to be considered a migratory child."

When special services are provided to an eligible migratory child, the educational agency alerts the parent on the same basis as it uses when providing special services to any child enrolled in one of its schools. Generally, that standard basis includes notification to the parent of the enrollment into a special program and an explanation of the nature of the special services. In any event, because enrollment into a migrant education project includes enrollment into the migrant student record transfer system, parents are always notified of the enrollment into the program and into the MSRTS—in accordance with the requirements of the Family Educational Rights and Privacy Act.

§ 116d.57 What is the requirement for comparable access for migratory children?

Comment. Thirteen commenters recommended that the proposed § 116d.57(a)(2) be deleted from these regulations. These commenters stated that this subsection suggests that an LEA does not need to provide its own facilities and services to migratory children.

Response. A change has been made. Section 116d.57(a)(2) has been deleted. It is the intent of these regulations to encourage participating agencies to provide all available facilities and services to migratory children on a basis that provides those children with "comparable access" to an appropriate education.

§ 116d.58 Under what conditions may services be provided to preschool and formerly migratory children?

Comment. Many commenters made recommendations regarding the priority of services to the various status groups (currently migratory and formerly migratory) and age groups (school-aged) and preschool-aged) referred to in the title I migrant education statute. Eighteen commenters recommended giving higher priority to services for currently migratory preschool children than to services for all formerly migratory (both school-aged preschool-aged children. Thirty-one commenters recommended that services to all school-aged migratory children (both currently and formerly migratory) be ranked above services to preschool children. Seven commenters said that preschool-aged migratory children are better served by other programs (Migrant Head Start and Title XX, Social Security Act, State Social Services Programs) that are more fundamentally designed to serve this age group of children. Many of these commenters noted that only if preschool children generate funds for a State under the statutory allocation formula would they be in favor of ranking services to currently migratory preschool children above services to formerly migratory school-aged children.

Response. A change has been made. The Commissioner agrees that because preschool children do not generally generate funds under the stautory formula, school-age migratory children should take precedence for services over preschool-aged children.

Accordingly, § 116d.58(c) now orders the program's service priorities as follows:

(a) School-aged currently migratory children.

(b) School-aged formerly migratory children.

(c) Preschool currently migratory children.

(d) Preschool formerly migratory children.

However, if in order to provide title I instructional services to school-aged currently migratory children, it would be necessary to provide day care or similar services to preschool-aged currently migratory children, and no other funds—other than title I funds—are available for that purpose, an SEA or an operating agency may provide title I instructional services instead of day care services to those preschool children as if those

children had a priority higher than school-aged formerly migratory children.

Comment. One commenter requested a clarification of the age group of children considered to be of preschool age.

Response. No change has been made. The Education Division General Administrative Regulations define "preschool" as the "educational level from a child's birth to the time at which elementary education is provided as defined under State law." Each State, of course, is free to establish the age at which free public education commences. Therefore, a child who is under the age at which free public education is provided in that particular State is considered to be of preschool age.

§ 116d.59 Under what conditions may supporting services be provided?

Comment. Four commenters requested that "supporting services" be further defined.

Response. No change has been made. Section 116d.59 states that "supporting services" include services such as health, nutritional, and social services. The Commissioner believes that this definition is sufficiently clear and precise and does not want to limit unduly the types of services that might be considered as supporting services. Section 116d.59 does, however, require that these services be "necessary to enable eligible migratory children to participate effectively in instructional services."

Comment. Three commenters recommended that health services be considered a primary service, and not a supporting service.

Response. No change has been made. The Migrant Education Program is a supplementary, compensatory education program intended to address the special educational needs of the participating migratory children, particularly with respect to the basic academic subjects. Health services are authorized only as a supporting service to those educational services.

Comment. One commenter recommended that supporting services be required as a part of a State migrant education program.

Response. No change has been made. The determination of the special educational needs of the migratory children who will participate in the program is the responsibility of each SEA, as is the design of the programs and projects to meet those needs. If a supporting service is necessary to meet those educational needs, the SEA may be authorized to provide that service.

Comment. Nineteen commenters recommended that the provision of day care services be strengthened. One commenter questioned the authority to provide day care, a supporting service, as part of the Migrant Education Program—an elementary and secondary education program.

Response. No change has been made. The Migrant Education Program is authorized as a program of educational services, and not as a program of various types of family support services. Furthermore, the statute establishes a service priority in favor of school-aged migratory children. In addition, because children from birth through and including four years of age do not generate funds under the statutory formula, school-aged migratory children are considered to take precedence over younger children.

Therefore, day care services are authorized only in special circumstances and only with the explicit approval of the Commissioner. Day care services are not authorized as an alternative to educational services, but only as a supporting service when necessary to enable eligible migratory children to participate in title I instructional services.

§ 116d.64 How must the State resolve complaints?

Comment. Nine commenters recommended maintaining the requirement (in § 116d.26 of the previous final regulations at 43 FR 52681) for a special, expedited complaint resolution procedure for short-term migrant education projects.

Response. A change has been made. The requirement for a special, expedited complaint resolution procedure for the Migrant Education Program has been continued. The Commissioner agrees that the standard complaint resolution procedure required of all title I programs may not be adequate for resolving a complaint that involves a short-term migrant education project.

Comment. One commenter recommended maintaining the provision from the program's previous final regulations (in § 116d.26 at 43 FR 52681) pertaining to the Commissioner's review of an SEA's resolution of a complaint.

Response. A change has been made. The provison for the review, by the Commissioner, of an SEA's resolution of a complaint has been continued from the program's previous final regulations. Furthermore, § 116d.64 now refers to the specific procedures that the Commissioner uses in reviewing an SEA's resolution of a complaint. These procedures were published in the **Federal Register** on October 23, 1979 (at 44 FR 61109).

§ 116d.65 How must the State evaluate the program?

Comment. Several commenters made various recommendations to strengthen and further detail the requirements for the evaluation of the State program.

Response. No change has been made. The Commissioner believes that § 116d.65 provides a sufficiently precise requirement for evaluation of the State program. However, section 183(d) of title I of the Act requires the Commissioner to "provide to State educational agencies, models for evaluations of all programs conducted under [title I] . . . which shall include uniform procedures and criteria to be utilized by . . . the State educational agency in the evaluation of such programs."

That activity is being conducted presently by the Office of Education. When completed, the Commissioner will prepare and publish, as a notice of proposed rulemaking, additional and more detailed evaluation requirements for the Migrant Education Program.

General.

Comment. Ten commenters requested that the appendix to the NPRM (Contents of State Applications) be included in the regulations (§ 116d.12—What provisions are required in a State's annual program plan?).

Response. A change has been made. Substantially the same information that was included in the appendix to the notice of proposed rulemaking—with respect to contents of a State application—is now included in § 116d.12 of these regulations.

Comment. Six commenters recommended that these regulations include the full text of any requirement or definition that has been referenced from a statute or other regulations.

Response. A change has been made. In response to suggestions by the public and other interested parties, these final regulations contain some provisions that were not in the notice of proposed rulemaking. These include certain provisions of the statute governing this program. The purpose of incorporating these provisions into the final regulations is to enable applicants and grantees to understand better the requirements of this program without having to refer to the statute.

Furthermore, as explained in the section of the preamble to these regulations entitled "Policy Manual," the Commissioner is planning to prepare and publish, for the convenience of persons involved with the Migrant Education Program, a consolidation of all regulations and statutes that govern the program.

Thursday
April 3, 1980

Part VII

Department of Health, Education, and Welfare

Office of Education

State Leadership Programs

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

45 CFR Parts 119 and 120

State Leadership Programs

AGENCY: Office of Education, HEW.

ACTION: Final regulations.

SUMMARY: These final regulations implement Parts A and B of Title V of the Elementary and Secondary Education Act of 1965 (ESEA).

Part A of title V is a program for the consolidated State educational agency (SEA) administration of the ESEA Title I and Title IV programs. All SEAs that administer the title I and title IV programs are eligible for support under this program.

Part B of title V is a program to strengthen State educational leadership and to assist SEAs in identifying and meeting critical educational needs of their States. All SEAs are eligible for support under part B. There is authorization for direct appropriation of funds for this program. However, if there is no direct appropriation, funding will be available from the appropriation for ESEA Title IV Part C.

DATES: Effective Date: These regulations are expected to take effect 45 days after they are transmitted to the Congress. Regulations are usually transmitted to the Congress several days before they are published in the **Federal Register.** The effective date is changed by statute if the Congress disapproves the regulations or takes certain adjournments. If you want to know the effective date of these regulations, call or write the Office of Education contact person.

Date for End of Comment Period on §§ 119.11 and 119.40 through 119.42: June 2, 1980.

ADDRESSES: Send comments to Dr. David G. Phillips, Division of State Educational Assistance Programs, U.S. Office of Education, 400 Maryland Avenue, S.W. (ROB–3, Room 3010) Washington, D.C. 20202. Copies of Title V of ESEA and other statutory materials referred to in these regulations may be obtained by contacting this office.

FOR FURTHER INFORMATION CONTACT: Dr. David G. Phillips, Division of State Educational Assistance Programs, U.S. Office of Education, 400 Maryland Avenue, S.W. (ROB–3, Room 3010), Washington, D.C. 20202. Telephone: (202) 245–1990.

SUPPLEMENTARY INFORMATION:

General Information

The Commissioner published a notice of proposed rulemaking in the **Federal Register** on May 14, 1979 (44 FR 28258). During the period allowed for comments, ten written comments were received. In addition, a number of individuals gave oral testimony and comments on the proposed title V regulations at public hearings held by the ten regional offices of the Department of Health, Education, and Welfare on June 19, 1979. The overall reaction to the proposed regulations has been supportive.

Waiver of Proposed Rulemaking Procedures

Prior to the enactment of the Education Amendments of 1978 (Pub. L. 95–561), there was a maintenance of effort requirement in the program to strengthen SEA management. The requirement was inadvertently omitted in the Education Amendments of 1978. Consequently, the proposed regulations in part 119 were drafted without a provision for maintenance of effort. A technical amendment to the Education Amendments of 1978, enacted August 6, 1979, as Pub. L. 96–46, restores this requirement. It is therefore necessary to implement this requirement with respect to those title V–B State plans that become effective October 1, 1979.

A maintenance of effort requirement exists with respect to ESEA Title IV, Part B (Instructional Materials and School Library Resources) and Part D (Guidance, Counseling, and Testing). Proposed regulations for title IV governing that requirement were published—as §§ 134.13 and 134.91 through 134.93—in the **Federal Register** on May 14, 1979. This was the same day that the proposed regulations for title V were published. Sections 119.11 and 119.40 through 119.42 were adapted from the proposed title IV regulations, and the public comments on the latter regulations have been considered in drafting the title V provisions.

In accordance with section 431(b)(2)(A) (public comment on proposed regulations) of the General Education Provisions Act (GEPA) (20 U.S.C. 1232(b)(2)(A)), it has been the practice of the Office of Education to offer interested parties the opportunity to review and comment on proposed regulations. For the reasons described above, the use of this practice in connection with §§ 119.11 and 119.40 through 119.42 is impracticable under 5 U.S.C. 553(b).

The Commissioner, however, welcomes comment on these sections even though they have been issued as final regulations. Accordingly, any written comments received on or before the 60th day following publication of these regulations in the **Federal Register** will be considered by the Commissioner. If there are substantive comments that merit changes in the regulations, the Commissioner will adopt appropriate amendments to the regulations in Part 119.

Title V, Part B

Background

The program of Federal financial assistance to strengthen the leadership capacity of SEAs began under the authority or the original title V of ESEA in 1965. The "strengthening" program was continued under the Education Amendments of 1974, although it was made a part of the title IV–C program (Educational Innovation and Support). The Education Amendments of 1978 identify a number of new supportable activities and continue the "strengthening" program under Title V–B of ESEA.

Summary of Comments and Responses

The following is a summary of the comments received on the notice for proposed rulemaking for part 119 and the Commissioner's responses to these comments. The comments appear in the order of the sections of the final regulations.

§ 119.1 Strengthening State educational agency management.

Comment. One commenter suggested that the level of funding available to SEAs be guaranteed at the fiscal year 1973 level.

Response. The regulatory language in the proposed § 119.1(b), which was intended to do this, has been deleted because, after the proposed regulations were published, a new section 524 of ESEA was enacted. Section 524 prescribes the title V–B allotment to each State at the 1973 level of funding for that State for "strengthening" activities.

§ 119.10 State plan.

(1) *Comment.* Two commenters suggested that the SEA consult with private school officials in the planning that precedes Statewide conferences at which technical assistance is provided to public and private school officials.

Response. No change has been made. Although this may be a good practice, the Commissioner does not believe that there is statutory authority to require an SEA to consult with either public or private school officials before these meetings. Private school officials are consulted on all occasions where public school officials are consulted.

(2) *Comment.* Two commenters suggested that "private school" be defined.

Response. No change has been made. The terms "private" and "nonprofit" are

defined in the Education Division General Administrative Regulations (EDGAR). To the extent that these definitions do not apply or are inadequate, State law or definitions govern.

(3) *Comment.* One commenter suggested that wherever the words "private school officials" or "officials of private schools" appear, the word "appropriate" be added to insure that the responsible private school official is properly consulted.

Response. A change has been made. The Commissioner notes that the word "appropriate" appears in a similar context in section 406 (Participation of Children Enrolled in Private Schools) of ESEA. The Commissioner agrees to apply that word in the regulations.

(4) *Comment.* One commenter suggested that the requirements in § 119.10(b) duplicate in many ways regulations appearing in §§ 100b.650 through 100b.663 of EDGAR and §§ 134.70 through 134.79 of the ESEA Title IV regulations.

Response. No change has been made. The regulations in § 119.10(b) are intended to govern the provision of services to private school officials while the other regulations are intended to govern the provision of services to private school children.

(5) *Comment.* One commenter suggested that the SEA should not have to send information and materials to private school officials that are not interested in receiving it. Another commenter asked how the State can determine that private school officials "do not desire" to have their children participate.

Response. A change has been made to make the language of this paragraph conform more nearly to that of the statute. An SEA should be able to develop reasonable procedures to determine which private school officials do or do not desire to participate in Federal education programs. The Commissioner, however, does not intend to prescribe restrictive procedures or criteria.

(6) *Comment.* One commenter suggested that an entity ought to "qualify" as a nonprofit private school to be entitled to receive information and technical assistance.

Response. No change has been made. Considering the varied types of relationships between SEAs and private schools, it would be virtually impossible to define qualification so that it would be applicable in every State. One way to identify eligible private schools might be to accept any school whose students meet the requirements of the State's compulsory attendance laws—if any—as being qualified to receive information and technical assistance.

(7) *Comment.* One commenter suggested that the comprehensive plan referred to in sections 404(a)(12) and 522 (2) of ESEA and in § 119.10(c) be submitted with either the title IV State plan or the title V–B State plan.

Response. It is a legal requirement for an SEA to submit a comprehensive plan as a part of both the title IV and the title V–B State plans. The Office of Education, however, has issued instructions to SEAs to submit the comprehensive plan as a part of the title IV State plan with an appropriate cross-reference in the title V–B State plan.

(8) *Comment.* One commenter asked for definitions of "inservice training" and "preservice training."

Response. No change has been made. The Commissioner believes that, taken together, these two terms encompass all training for educational personnel and that any distinction within a State can be treated according to that State's definitions. To make a distinction is not relevant for purposes of the title V program.

(9) *Comment.* One commenter suggested that there be a greater involvement of teachers in the development and implementation of the comprehensive plan for training educational personnel.

Response. No change has been made. The statute requires the involvement of teachers in the development of the plan. and § 119.10(c)(2) indicates that this must be done. The statute does not authorize a regulatory requirement for the involvement of teachers in the implementation of the plan.

(10) *Comment.* One commenter suggested that the regulations should clearly require the involvement of State agencies other than the SEA in the development of the comprehensive plan if those other agencies have legal responsibilities for training educational personnel.

Response. A change has been made by adding a new paragraph (4) to § 19.10(c).

(11) *Comment.* One commenter suggested that provision be made for filing a "plan to develop a comprehensive plan."

Response. Section 119.10(c)(3) was intended to permit this. It has been reworded to make this clearer. It might be noted that a correction has been made in this paragraph so that the comprehensive plan must have been developed and submitted to the Commissioner by June 30, 1980. Thus the plan will be completed prior to the awarding of the title IV and title V–B grants for fiscal year 1981.

(12) *Comment.* One commenter suggested that the regulations not only allow but actively encourage the involvement of all interested and affected parties in each State in the development of the comprehensive plan.

Response. No change has been made. Although this may be very worthwhile, it is not the purpose of regulations to encourage action or involvement, but to specify requirements.

(13) *Comment.* One commenter suggested that specific Federal funds be made available to support the development of the comprehensive plan.

Response. A change has been made to clarify that ESEA Title V funds and ESEA Title IV administrative funds may be used for this purposes.

§ 119.22 Criteria for assistance.

Comment. One Commenter suggested some adjustments in the relative values to be assigned to each criteria. The commenter recommended increased values for quality of key personnel and for dissemination and reduced values for limiting programs to elementary and secondary education and for non-supplanting.

Response. Changes have been made. The Commissioner has increased the weights for quality of key personnel, dissemination, and likelihood for results, and decreased the weights for limiting programs to elementary and secondary education and for non-supplanting.

Other changes in regulations

The reference to an entitlement for the Northern Mariana Islands in § 119.1(b)(4) has been dropped since it is covered in the organic act.

Regulations in 45 CFR Part 74 (the Department of Health, Education, and Welfare general regulations governing the administration of grants) are specifically identified in § 119.3(a) as being applicable to the title V–B program.

The language and provisions in § 119.20 have been modified to conform to the provisions of the new section 524 of ESEA as added by Pub. L. 96–46.

The general selection criteria found in EDGAR (§§ 100a.202 through 100a.206) have been incorporated in § 119.22. A new § 119.33, an adaptation of EDGAR § 100a.590, has been added to avoid a cross reference to that section. The purpose of incorporating the EDGAR provisions into the final regulations is to enable applicants and grantees to understand better the criteria for discrentionary grants under this program without having to refer to EDGAR.

A number of editorial changes have been made for purposes of style and

clarity that do not affect the substance of the regulations.

Title V, Part A

Background

Part A of Title V of ESEA is a new authority that is intended to lessen previously burdensome and duplicative administration of Federal educational programs by the States. It provides for the consolidation, into a single account, of the separate administrative accounts for Title I and Title IV of ESEA. It provides, also, for the submission by the SEA of a single general application containing assurances that the two programs will be administered properly. This is nearly identical to the general application required under section 435 of the General Education Provisions Act (GEPA).

It requires a monitoring program, makes the SEA responsible for evaluation, and requires programs of technical assistance, complaint resolution, audit, and audit resolution. There will be an opportunity for wide public consultation in the development of State plans. This is also called for in section 435 of GEPA.

In addition, each LEA that wishes to participate in the title I and title IV programs shall submit to its SEA a general application containing assurances that the LEA will properly administer the two programs. (More programs are similarly covered by the nearly identical LEA general application under section 436 of GEPA.)

Title V–A authorizes an appropriation to fund the consolidated administration of titles I and IV.

Title V–A is not in effect if there is no specific appropriation for the program. If it is not in effect, each SEA will administer the title I and title IV programs separately with administrative funds coming from each program.

Summary of comments and responses

The following is a summary of the comments received on the notice for proposed rulemaking for part 120 and the Commissioner's responses to these comments. The comments appear in the order of the sections of the final regulations.

Comment. Three commenters suggested that the Commissioner require public hearings on State plans for the programs authorized by titles I and IV. This is authorized by section 502(b)(7)(C) of the Act and by section 435(b)(7)(C) of GEPA.

Response. No change has been made. Regulations to implement section 435 of GEPA are in the Education Division General Administrative Regulations (EDGAR), and the provisions there will govern titles I and IV.

§ 120.11 Publication of and comment on State plan.

(1) *Comment.* One commenter recommended that the regulations require an SEA to consult with major teacher organizations and representatives from higher education in the planning and operation of each program.

Response. No change has been made. This suggestion appears to go beyond the requirements in the statute. Section 501(b)(7) of ESEA and section 435(b)(7) of GEPA require "reasonable opportunities for the participation by local agencies, representatives of the class of individuals affected by each program, and other interested institutions, organizations, and individuals in the planning for and operation of each program [and consultation] with relevant advisory committees, local agencies, interest groups, and experienced professionals in the development of program plans." The statutes do not require the participation of any specific group or individual.

(2) *Comment.* One commenter asked whether the printing of announcements in many newspapers throughout a State would require costly printing serving little purpose and might exceed the law.

Response. No change has been made. The word "announcement" was carefully chosen instead of the word "notice." The word "notice" can have the connotation of a paid legal notice and could require the expenditure of funds by the SEA. On the other hand, the word "announcement" is intended to refer to any sort of published statement, including a press release. The intent is clearly to avoid a requirement of having to pay for publication. The Commissioner also believes that an announcement of the availability of the plan would meet the requirements of the statute and would be less costly than the printing and distribution of a plan document itself "throughout the State."

§ 120.21 Additional administrative funds.

(1) *Comment.* One commenter asked why the migrant education program was the only program mentioned in paragraph (c).

Response. No change is required. Paragraph (c) is intended to implement section 510(c)(1)(2) of ESEA. This particular paragraph of the statute refers only to the migrant education program.

(2) *Comment.* One commenter suggested that in paragraph (c) the word "the" before the words "additional administrative funds" be changed to "any" since the original wording seems to suggest that all of the additional administrative funds would be used for the migrant education program.

Response. The suggested change has been made.

§ 120.30 General application from a local educational agency.

Comment. One commenter suggested that an LEA's general application describe the involvement of teachers, parents, school board, and members of the community. The commenter also recommended that the general application describe the strategies for dissemination.

Response. No change has been made. The general application that an LEA submits to its SEA is a document of assurances. The statute does not require any narrative or descriptions.

§ 120.60 Accounting for administrative funds.

Comment. One commenter suggested that the word "shall" in paragraph (a) be changed to "may" so that the clause would read: "the SEA may treat its allocation from this appropriation as a single account."

Response. No change has been made. A review of the legislative history discloses that the Congress intended that funds appropriated under section 510 of ESEA be treated as a single account and that no discretion be given to the States in this respect.

§ 120.64 State action to withhold funds.

Comment. One commenter suggested that the SEA be able to designate one of its employees to serve as the impartial decision-maker if that employee has no direct interest in the case and no conflict of interest in serving as the decision-maker.

Response. A change has been made to permit an SEA employee who has no involvement in the case to serve as an impartial decision-maker.

Other changes in regulations.

A number of editorial changes have been made for purposes of style and clarity that do not affect the substance of the regulations.

The reader will find a citation of statutory or other legal authority in parentheses on the line following each substantive provision.

(Catalog of Federal Domestic Assistance Programs Number 13.486, Strengthening State Educational Agency Management; not assigned, Administration of Educational Programs)

Dated: February 5, 1980.

William L. Smith,

U.S. Commissioner of Education.

PART 119, Title 45 CFR is revised as follows:

PART 119—STRENGTHENING STATE EDUCATIONAL AGENCY MANAGEMENT

Subpart A—General

Sec.

119.1 Strengthening State educational agency management.
119.2 Eligible parties.
119.3 Regulations that apply to this program.
119.4 Definitions.

Subpart B—How a State Applies for a Grant

119.10 State plan.
119.11 Conditions the State must meet before submitting a plan—maintenance of effort.

Subpart C—How the Commissioner Makes a Grant to a State

119.20 Grants to State educational agencies.
119.21 Evaluation of application for discretionary grant.
119.22 Criteria for assistance.

Subpart D—Conditions That the State Must Meet

119.31 Providing resources for other agencies of State government.
119.32 Carry-over funds.
119.33 Evaluation by the State educational agency.

Subpart E—Compliance Procedures Used by the Office of Education

119.40 Waiver of maintenance of effort.
119.41 Procedures for waiver of maintenance of effort.
119.42 Effect of waiver of maintenance of effort.

Authority: Title V, Part B, Elementary and Secondary Education Act of 1965, as amended. 92 Stat. 2248–2249.

(20 U.S.C. 3161–3164)

Subpart A—General

§ 119.1 Strengthening State educational agency management.

This program provides Federal financial assistance to strengthen the educational leadership resources of State educational agencies (SEAs) and to assist SEAs in indentifying and meeting the critical educational needs of the States.

(20 U.S.C. 3161)

§ 119.2 Eligible parties.

(a) All SEAs are eligible for support under this program.

(b) With the concurrence of all the SEAs involved, one SEA may apply for a grant on behalf of itself and other SEAs.

(20 U.S.C. 3161)

§ 119.3 Regulations that apply to this program.

The following regulations apply to this program:

(a) The general regulations of the Department of Health, Education, and Welfare on Administration of Grants in part 74.

(b) The Education Division General Administrative Regulations (EDGAR) in part 100a (Direct Grant Programs) for projects funded with discretionary grants, or part 100b (State-Administered Programs) for all other grants.

(c) The regulations in this part.

(20 U.S.C 3161–3164)

§ 119.4 Definitions.

(a) As used in this part—

"Act" means the Elementary and Secondary Education Act of 1965, as amended (Pub. L. 89–10).

(20 U.S.C. 821)

"Preceding fiscal year" means the twelve-month fiscal period most commonly used in the State for official reporting purposes prior to the beginning of the Federal fiscal year for which funds are available.

"Second preceding fiscal year" means the second twelve-month fiscal period most commonly used in the State for official reporting purposes prior to the beginning of the Federal fiscal year for which funds are available.

(20 U.S.C. 3084(a)(7))

"Title V–B" means part B of title V of the Act.

(20 U.S.C. 3161–3164)

(b) The following terms used in this part are defined in the Act—

Commissioner.
Local educational agency (LEA).
State.
State educational agency.

(20 U.S.C. 881)

Subpart B—How a State Applies for a Grant

§ 119.10 State plan.

(a) An SEA shall describe in its State plan the activities planned for the purpose of strengthening the SEA under title V–B. This description shall include—

(1) The purposes for which the SEA plans to spend title V–B funds;

(2) The activities or groups of related activities the SEA plans to undertake to achieve these purposes;

(3) The ways in which these activities or groups of related activities will (i) strengthen the educational leadership resources of the SEA, or (ii) assist the SEA in identifying and meeting the critical educational needs of the State; and

(4) The estimated annual cost for each program year covered by the State plan for each activity or group of related activities.

(b) An SEA shall describe in its State plan how it will make available information and technical assistance to appropriate private school officials who desire to arrange for children in those schools to participate in Federal elementary and secondary education programs. The following steps are required:

(1) The SEA shall make available to appropriate private school officials the same publications and materials relating to those programs that the SEA provides to LEAs.

(2) The SEA shall invite appropriate officials of private schools to SEA-sponsored or conducted meetings of groups of LEAs at which those programs are to be discussed.

(3) An LEA that receives individual technical assistance from the SEA in planning projects shall invite appropriate officials of all interested private schools in its district to those technical assistance sessions that deal with those programs.

(4) An SEA shall make available appropriate technical assistance to appropriate officials of private schools upon the request of those officials. The SEA shall invite the LEAs in whose districts those private schools are located to these technical assistance sessions.

(5) An SEA is not required to make information and technical assistance available to officials of private schools that have indicated to the SEA that they do not desire to have their children participate in Federal educational programs.

(c)(1) An SEA shall describe in its State plan a comprehensive plan for the coordination of Federal and State funds for training educational personnel. This comprehensive plan need not have been developed solely for the purpose of complying with the requirements of either section 404(a)(12) (comprehensive plan for training) or section 522(2) (comprehensive plan for training) of the Act. An SEA may use its funds under title V–B or its administrative funds under section 404(a)(8) (administration of the title IV State plan) of the Act to develop its comprehensive plan if the development is an identified activity in the appropriate State plan.

(2) The Commissioner accepts a comprehensive plan that was developed prior to the effective date of the title V–B State plan so long as the comprehensive plan meets the

requirements of section 404(a)(12) or section 522(2) of the Act.

(3) The Commissioner accepts a description of the planning that a State is undertaking to meet the specific requirements of section 404(a)(12) or section 522(2) of the Act if the SEA submits the comprehensive plan in final form as an amendment to the appropriate State plan by June 30, 1980.

(4) The comprehensive plan shall be developed with the involvement of teachers, professional associations, institutions of higher education, and other interested individuals and organizations including other affected public agencies.

(d)(1) The SEA shall submit its title V–B State plan in accordance with the instructions and schedules of the Commissioner.

(2) The SEA need not submit a State plan more often than once every three years.

(e) The SEA may submit amendments to its title V–B State plan so long as they conform to the requirements for amendments in part 100a or part 100b of this chapter, whichever is applicable.

(20 U.S.C. 3162 and 3084(a)(12))

§ 119.11 Conditions the State must meet before submitting a plan—maintenance of effort.

(a) To receive title V–B funds, a State shall have expended for programs described in section 521 (authorized activities for strengthening SEA management) of the Act during the preceding fiscal year an amount of non-Federal funds at least equal to the amount of non-Federal funds it expended for those purposes during the second preceding fiscal year.

(b)(1) If non-Federal expenditures for programs described in section 521 of the Act depend on a State appropriation that is not an annual appropriation, the State may average its expenditures over the number of fiscal years for which the appropriation was made.

(2) A State that chooses to average its expenditures in this way shall continue to use this method for computing maintenance of effort for each fiscal year for which the State appropriation was made.

(3) A State that does not average its expenditures shall attribute all expenditures to the fiscal year in which they were incurred.

(c)(1) The SEA shall collect and maintain data that verify the State's compliance with this section and with section 431A (maintenance of effort determination) of the General Education Provisions Act (GEPA).

(2) The State shall make these data available to the Commissioner on request.

(20 U.S.C. 3084 and 1232–1)

Subpart C—How the Commissioner Makes a Grant to a State

§ 119.20 Grants to State educational agencies.

(a) The Commissioner makes grants to applicant SEAs on the basis of the allotments described in section 404(a)(9) (annual funding for title V–B) or section 524(a) (allotments to States) of the Act.

(b) If funds are available to the Commissioner for discretionary grants under section 524(b) (discretionary grants to States) of the Act, each SEA is entitled to compete for grant awards from those funds.

(c)(1) To apply for a discretionary grant, an SEA shall submit an amendment to its title V–B State plan in accordance with instructions and schedules of the Commissioner.

(2) An SEA, in its State plan amendment, shall take into account the funding criteria in §119.22 of this part.

(20 U.S.C. 3164 and 3084(a)(9))

§ 119.21 Evaluation of application for discretionary grant.

(a) The Commissioner evaluates an application for a discretionary grant on the basis of the criteria in § 119.22.

(b) The Commissioner awards up to one hundred possible points for these criteria.

(c) The maximum possible score for each complete criterion is indicated in parentheses at the end of that criterion. The value assigned to each criterion indicates the relative importance the Commissioner places on that criterion.

(20 U.S.C. 1221e–3(a)(1))

§ 119.22 Criteria for assistance.

The Commissioner reviews each application for information about each of the following criteria:

(a) Information that shows the quality of the plan of operation for the project—

(1) High quality in the design of the project;

(2) An effective plan of management that insures proper and efficient administration of the project;

(3) A clear description of how the objectives of the project relate to the purposes of the program;

(4) The way the applicant plans to use its resources and personnel to achieve each objective; and

(5) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as members of racial or ethnic minority groups, women, handicapped persons, and the elderly. (10 points)

(b)(1) Information that shows the quality of the key personnel the applicant plans to use on the project—

(i) The qualifications of the project director (if one is to be used);

(ii) The qualifications of each of the other key personnel to be used in the project;

(iii) The time that each person referred to in paragraphs (b)(1)(i) and (ii) of this section plans to commit to the project; and

(iv) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as members of racial or ethnic minority groups, women, handicapped persons, and the elderly.

(2) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training in fields related to the objectives of the project, as well as other information that the applicant provides. (8 points)

(c) Information that shows that the project has an adequate budget and is cost effective—

(1) The budget for the project is adequate to support the project activities; and

(2) Costs are reasonable in relation to the objectives of the project. (5 points)

(d) Information that shows the quality of the evaluation for the project—methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable. (See also § 119.33 Evaluation by the State educational agency) (8 points)

(e) Information that shows that the applicant plans to devote adequate resources to the project—

(1) The facilities that the applicant plans to use are adequate; and

(2) The equipment and supplies that the applicant plans to use are adequate. (3 points)

(f) Information that shows that the need for each activity or group of related activities is justified on the basis of how—

(1) The proposed activities will strengthen the educational leadership resources of the SEA; or

(2) The proposed activities will assist the SEA in identifying and meeting the critical educational needs of the State as described in section 521 (authorized activities for strengthening SEA management) of the Act. (20 points)

(g) Information that shows that the SEA is likely to achieve results and that these results will strengthen the SEA's management. (10 points)

(h) Information that shows the quality of the plan to disseminate information related to the program. (5 points)

(i) Information that shows that program activities are limited to elementary and secondary education program management. (6 points)

(j) Information that shows that program activities will supplement and not supplant activities supported with other Federal or State program and administrative funds. (10 points)

(k) Information that shows that program activities are included in the list of eligible activities in section 521 of the Act. (15 points)

(20 U.S.C. 3161, 3162)

Subpart D—Conditions That the State Must Meet

§ 119.31 Providing resources for other agencies of State government.

(a) An SEA shall describe, in its State plan, any planned provision of resources to other agencies or branches of State government under the title V–B program.

(b) Other agencies or branches of State government may use resources from the SEA so long as the activities supported by these resources are limited to the conduct of analyses of educational issues within the jurisdiction of the SEA.

(c) Only the SEA may approve the provision of resources to other agencies or branches of State government under this section.

(20 U.S.C. 3161(2))

§ 119.32 Carry-over funds.

(a) Under section 412(b) (availability of appropriations during a succeeding fiscal year) of GEPA, an SEA may carry over title V–B funds from one Year's grant award and obligate them during the next year.

(b)(1) An SEA may carry over funds made available under title IV–C of the Act for the purposes of section 431(a)(3) (strengthening SEAs and LEAs) of the Act as it was in effect September 30, 1978.

(2) The SEA may obligate these carry-over funds under the authority of section 521 (authorized activities for strengthening SEA management) of the Act and the title V–B State plan in effect during the carry-over period.

(20 U.S.C. 1225(b), 1831(a)(3), and 3161)

§ 119.33 Evaluation by the State educational agency.

The SEA receiving a discretionary grant shall evaluate at least annually:

(a) The SEA's progress in achieving the objectives set forth in its approved amendment to its State plan.

(b) The effectiveness of the project in meeting the purposes of the program.

(c) The effect of the project on persons being served by the project, including persons who are members of groups that have been traditionally underrepresented, such as members of racial or ethnic minority groups, women, handicapped persons, and the elderly.

(20 U.S.C. 1221e–3(a)(1))

Subpart E—Compliance Procedures Used by the Office of Education

§ 119.40 Waiver of maintenance of effort.

(a) Because of exceptional and unforeseen circumstances affecting a State, the Commissioner may waive the maintenance of effort requirements of section 404(a)(7) of the Act and of § 119.11 of this part if it is equitable to do so. This waiver is effective for one fiscal year only and may not be repeated.

(b) Examples of exceptional and unforeseen circumstances include—

(1) An unforeseen, substantial reduction of the tax base due to—

(i) A disaster of natural or human origin, or

(ii) A governmental action;

(2) An unforeseen, substantial diversion of available revenue to other purposes outside the control of the SEA due to emergency circumstances such as those resulting from a disaster of natural or human origin;

(3) An unforeseen, substantial decrease in expenditures by a State due to energy shortages or other emergency circumstances; and

(4) A one-time State appropriation to meet an unexpectedly acute educational need.

(c) Examples of circumstances the Commissioner does not consider to be exceptional and unforeseen include—

(1) A deliberate, substantial reduction of available revenue due to an act of the State legislature or the electorate in other than emergency circumstances; and

(2) The failure of an SEA to maintain its fiscal efforts if it had the financial resources available to do this.

(d) In determining whether it is equitable to grant a waiver under paragraph (a) of this section, the Commissioner considers—

(1) The extent to which the circumstances claimed to be exceptional and unforeseen were of the SEA's own making;

(2) The extent to which the SEA attempted to maintain its fiscal effort for programs described in section 521 (authorized activities for strengthening SEA management) of the Act despite those circumstances; and

(3) Any other factors the Commissioner regards as relevant.

(20 U.S.C. 1232–1)

§ 119.41 Procedures for waiver of maintenance of effort.

The first time a State discovers it cannot comply with the assurance in its State plan to maintain effort, it shall—

(a) Promptly notify the Commissioner and request a waiver for the appropriate fiscal year; and

(b) Amend its State plan to reflect the request for a waiver.

(20 U.S.C. 1232–1)

§ 119.42 Effect of waiver of maintenance of effort.

(a) If the Commissioner grants a waiver of maintenance of effort under § 119.40, the Commissioner reduces the total amount a State may receive for that fiscal year by the exact proportion its expenditures for the preceding fiscal year fell short of its expenditures for the second preceding fiscal year.

(b) The Commissioner bases subsequent determinations of whether the State has maintained effort on the expenditures the Act would have required the State to have made had the Commissioner not granted a waiver.

(20 U.S.C. 1232–1)

Part 120 is added to Title 45 CFR as follows:

PART 120—ADMINISTRATION OF EDUCATION PROGRAMS AND DUTIES OF THE STATE EDUCATIONAL AGENCY

Subpart A—General

Sec.
120.1 Administration of education programs and duties of the State educational agency.
120.2 Eligible parties.
120.3 Regulations that apply to this program.
120.4 Definitions.

Subpart B—How a State Applies for a Grant

120.10 General application.
120.11 Publication of and comment on State plan.

Subpart C—How a Grant is Made to a State

120.20 Application for administrative funds.
120.21 Additional administrative funds.

Subpart D—General Application From a Local Educational Agency

120.30 General application from a local educational agency.

Subparts E and F [Reserved]

Subpart G—Administrative Responsibilities of the State

120.60 Accounting for administrative funds.
120.61 Monitoring and enforcement.
120.62 Evaluation.
120.63 Resolution of audit findings and recommendations.
120.64 State action to withhold funds.
120.65 Carry-over funds.

Authority: Title V, Part A, Elementary and Secondary Education Act of 1965, as amended, 92 Stat. 2240–2248 (20 U.S.C. 3141–3150).

Subpart A—General

§ 120.1 Administration of education programs and duties of the State educational agency.

(a) This program provides for the consolidated administration by the State educational agency (SEA) of the title I (financial assistance to meet special educational needs of children) and the title IV (educational improvement, resources, and support) programs.

(b) The Act describes the means of receiving Federal financial support and the regulatory responsibilities and administrative duties of SEAs and local educational agencies (LEAs).

(20 U.S.C. 3141–3150)

§ 120.2 Eligible parties.

All SEAs that administer the title I and title IV programs are eligible for support under this program.

(20 U.S.C. 3141–3150)

§ 120.3 Regulations that apply to this program.

The following regulations apply to this program:

(a) The general regulations of the Department of Health, Education, and Welfare on Administration of Grants in part 74.

(b) The regulations in this part.

(20 U.S.C. 3141–3150)

§ 120.4 Definitions.

(a) As used in the part—

"Act" means the Elementary and Secondary Education Act of 1965, as amended (Pub. L. 89–10).

"Title I" means title I of the Act.

"Title IV" means title IV of the Act.

(b) The following terms used in this part are defined in the Act:

Commissioner.
Local educational agency.
State.
State educational agency.

(20 U.S.C. 3141–3150, 881)

Subpart B—How A State Applies for a Grant

§ 120.10 General application.

(a) An SEA may submit its general application under the authority of either—

(1) Section 501 (single State application) of the Act; or

(2) Section 435 (single State application) of the General Education Provisions Act (GEPA).

(b) If an SEA submits its general application under section 435 of GEPA, that general application must specifically identify titles I and IV as covered programs for the general application to be acceptable by the Commissioner under paragraph (a) of this section.

(c) An SEA shall submit its general application in a form designed or approved by the Commissioner.

(20 U.S.C. 3141, 1232d)

§ 120.11 Publication of and comment on State plan.

(a)(1) An SEA shall publish and circulate throughout the State the title I migrant education annual program plan and the title IV State plan at least 60 days before submitting the plan to the Commissioner or before the effective date of the plan, whichever occurs earlier.

(2) The SEA shall indicate the date of publication on the State plan or annual program plan.

(b) Publication consists of at least paragraphs (b)(1) and (2) or of (3) of this section:

(1) The SEA shall send a copy of the plan to each LEA or each intermediate district or each county superintendent in the State.

(2) The SEA shall arrange for the printing of an announcement, in as many newspapers as will ensure circulation throughout the State, indicating that the plan is available for review in the office of the SEA and in the offices that received copies under paragraph (b)(1) of this section.

(3) The SEA may ask for the Commissioner's approval to use other means that will accomplish effectively the purposes of this section.

(c)(1) In the publication or announcement the SEA shall identify a comment period of at least 30 days, within the 60-day period, for the receipt of comments.

(2) The SEA shall consider all written or oral comments received before the end of the comment period.

(20 U.S.C. 3141(b)(7)(B))

Subpart C—How A Grant Is Made to a State

§ 120.20 Application for administrative funds.

An SEA shall submit its application for administrative funds in accordance with the instructions and schedules of the Commissioner.

(20 U.S.C. 3150)

§ 120.21 Additional administrative funds.

(a) Section 510(c) (payment of additional amounts) of the Act authorizes an additional 25 percent of the 1.75 percent amount authorized for administration of titles I and IV. To qualify, an SEA shall submit a budget for this additional amount at the time it submits its application for administrative funds under § 120.20 of this part.

(b) The SEA shall show in its budget that the additional funds will be spend for monitoring, audit resolution, or similar activities directly and exclusively related to enforcement of the requirements of titles I, IV, and V–A of the Act.

(c) If the State participates in the migrant education program under section 141 (entitlement and amount of grants for programs for migrant children) of the Act, the SEA shall describe in its annual program plan its intended use of any additional administrative funds for the administration of the migrant education program.

(20 U.S.C. 3150 and 2761)

Subpart D—General Application From a Local Educational Agency

§ 120.30 General application from a local educational agency.

An LEA that submits a general application to its SEA to comply with the provisions of section 436 (single LEA application) of GEPA shall also be considered to have met the requirements of section 502 (single LEA application) of the Act if—

(a) The general application under section 436 of GEPA specifically identifies titles I and IV as covered programs; and

(b) The assurance in section 502(b)(7)(C) of the Act—referring to the inclusion of works of art in construction projects—is also included in the general application under section 436 of GEPA, to the extent that this assurance applies to titles I and IV.

(20 U.S.C. 3142 and 1232e)

Subparts E and F [Reserved]

Subpart G—Administrative Responsibilities of the State

§ 120.60 Accounting for administrative funds.

(a) If the Congress appropriates, under section 510(b) (appropriation authorization for title V–A) of the Act, a single fund for the purpose of administering the title I and title IV programs in a State, an SEA shall treat its allocation from this appropriation as a single account.

(b) If the Congress fails to appropriate administrative funds under section 510(b) of the Act, the SEA may not commingle—

(1) Funds under section 194 (State administrative funds for title I) of the Act used to administer the title I program in its State; and

(2) Funds under section 404(a)(8) (State administrative funds for title IV) of the Act used to administer the title IV program in its State.

(c)(1) The SEA shall use its section 194 funds solely for the administration of title I.

(2) The SEA shall use its section 404(a)(8) funds solely for the administration of title IV.

(3) The SEA shall account separately for the funds in (c)(1) and the funds in (c)(2) of this section.

(20 U.S.C. 3150, 2844, and 3084(a)(8))

§ 120.61 Monitoring and enforcement.

(a) An SEA shall follow the rules and procedures found in subart G, Administrative Responsibilities of the SEA and Applicant Agencies, of part 116, Financial Assistance to Local and State Agencies to Meet Special Educational Needs, of this chapter in its monitoring of title I projects and enforcing the requirements of title I.

(b) An SEA shall follow the rules and procedures found in subpart G, Administrative Responsibilities of the State and its Subgrantees, of part 134, Educational Improvement, Resources, and Support, of this chapter in its monitoring of title IV projects and enforcing the requirements of title IV.

(20 U.S.C. 3146)

§ 120.62 Evaluation.

(a) To meet its responsibilities under section 501(b)(4) (evaluation of programs) of the Act to evaluate the effectiveness of the title I and title IV programs, an SEA shall design a program for evaluation of the management and impact of local projects.

(b) the evaluation designs for title I, title I migrant education, and title IV may differ from each other.

(20 U.S.C. 3141(b)(4))

§ 120.63 Resolution of audit findings and recommendations.

If an SEA administers the title I and title IV programs under the authority of title V–A of the Act, the SEA shall apply the following minimum standards for the resolution of audit findings and recommendations:

(a) The SEA shall insure that, no later than 30 days after the completion of an audit, it will send the final audit determination to—

(1) The affected LEA;

(2) The LEA's title I district advisory council if the audited project is a title I project; and

(3) The Commissioner.

(b) After an affected LEA and its district advisory council have received the final audit determination, the SEA shall allow that LEA and its district advisory council 60 days to appeal that determination.

(c) Within 60 days after receiving an appeal, the SEA—or other individual or agency authorized by law to conduct hearings—shall conduct a hearing on that appeal.

(d) Within 60 days following the hearing on the appeal, the SEA—or other authorized individual or agency—shall issue a final decision.

(e) The LEA may appeal the final decision in accordance with section 509(d) (appeal of a final determination) of the Act.

(f) The SEA shall monitor the affected LEA to assure that the LEA carries out all corrective actions recommended in the final audit determination.

(g) The SEA shall assure the recovery of misspent or misapplied funds, either in a single payment or under the terms of a written agreement establishing repayments in specified installments over a period of no more than three years.

(20 U.S.C. 3149)

§ 120.64 State action to withhold funds.

(a)(1) If a State holds a hearing under section 508 of the Act—which deals with the potential withholding of payments under a title I or a title IV subgrant—an impartial decisionmaker shall conduct that hearing.

(2)(i) An impartial decisionmaker is an individual who is not an employee of the SEA or LEA involved in the hearing or a contractor of either agency.

(ii) However, an impartial decisionmaker may be a contractor hired specifically for the purpose of conducting hearings or an SEA employee who has no involvement in the case.

(b)(1) Following the hearing, the impartial decisionmaker shall recommend to the SEA findings of fact and conclusions of law.

(2) The SEA shall accept the impartial decisionmaker's findings of fact if those findings are supported by substantial evidence.

(c) If the definition of an impartial decisionmaker in paragraph (a) of this section is in conflict with State law or State practice, the SEA shall ask the Commissioner to approve an individual or class of individuals to conduct the hearings.

(20 U.S.C. 3148)

§ 120.65 Carry-over funds.

(a) With respect to the carrying over of funds under section 412(b) of GEPA (availability of appropriations during a succeeding fiscal year)—

(1) The Commissioner considers the program of administering title I to be a single program, whether funds are available under section 194 of the Act (State administrative funds for title I) or section 510(b) of the Act (appropriation authorization for title V–A);

(2) The Commissioner considers the program of administering title IV to be a single program, whether funds are available under section 404(a)(8) of the Act (State administrative funds for title IV) or section 510(b) of the Act; and

(b) An SEA may spend carry-over administrative funds under the authority of whatever title of the Act or whatever State plan or application is in effect during the carry-over period.

(20 U.S.C. 1255(b), 2844, 3064(a)(8), and 3150(b))

Department of Health, Education, and Welfare

Office of Education

Gifted and Talented Children's Education Program

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

45 CFR Parts 160b, 195, 195a, 195b

Gifted and Talented Children's Education Program

AGENCY: Office of Education, HEW.

ACTION: Final rule.

SUMMARY: These regulations govern Federal financial assistance under the Gifted and Talented Children's Education Act of 1978. The program assists State and local education agencies, institutions of higher education, and other public and private non-profit agencies to plan, develop, operate, and improve programs designed to meet the special educational needs of gifted and talented children.

EFFECTIVE DATE: These regulations are expected to take effect 45 days after they are transmitted to Congress. Regulations are usually transmitted to Congress several days before they are published in the Federal Register. The effective date is changed by statute if Congress disapproves the regulations or takes certain adjournments. If you want to know the effective date of these regulations, call or write the Office of Education contact person.

FOR FURTHER INFORMATION CONTACT: Dr. Harold C. Lyon, Jr., Director, Office of Gifted and Talented, U.S. Office of Education, 400 Maryland Avenue, S.W., Washington, D.C. 20202. Telephone (202) 245-2482.

SUPPLEMENTARY INFORMATION: The purposes of the Gifted and Talented Children's Education Program are—(a) To provide assistance to meet the special educational needs of the Nation's gifted and talented children; and

(b) To enable these children to fulfill their potential both as individuals and as resources to the Nation.

The Gifted and Talented Children's Education Program provides financial assistance to State and local educational agencies, institutions of higher education and other public and private agencies and organizations to help plan, develop, operate, demonstrate, and improve programs designed to meet the special educational needs of gifted and talented children.

A similar program was originally authorized under section 404 of Pub. L. 93-380, the Special Projects Act. It has been restructured as part A, title IX of the Elementary and Secondary Education Act (ESEA), by the Education Amendments of 1978 (Pub. L. 95-561).

The reauthorization restructures the previous statute by reserving 25 percent of available funds to the Commissioner for discretionary program. The remaining funds are awarded to State educational agencies (SEAs) for grants to local educational agencies (LEAs).

These regulations contain provisions governing Federal financial assistance for:

(a) A State-administered grant program; and

(b) A discretionary grant program for:

(1) Statewide activities projects;

(2) Educational service projects and model projects; and

(3) Professional development;

The regulations give the Commissioner the authority to select in any given year certain activities for funding from among the list of allowable activities in the discretionary grant program.

These regulations do not contain in detail certain types of requirements. These requirements are covered comprehensively in Education Division's General Administrative Regulations (EDGAR), which replace the General Provisions Regulations for Office of Education Programs. Although these regulations contain most of the information that applicants need to know to apply, the following items applicable to this program will now be among those also covered generally in EDGAR:

(a) For the State-administered program (45 CFR 100b):

How a State applies for a grant; how a grant is made to a State; how to apply to the State for a subgrant; how a subgrant is made to an applicant; certain conditions that must be met by the State and its subgrantees; administrative responsibilities of the State and its subgrantees; and compliance procedures used by the Commissioner of Education.

(b) For the discretionary grant program (45 CFR 100a):

How to apply for a grant;

How grants are made;

Certain conditions that must be met by a grantee;

The administrative responsibilities of a grantee; and

The procedures the Office of Education uses to get compliance.

Part 160b has been deleted and the provision of that part will now appear in the following new CFR parts: 195, 195a, and 195b.

Comments on the Proposed Regulations

The public was given sixty days in which to submit comments regarding the proposed regulation. Approximately 50 letters were received containing approximately 40 separate comments not counting duplicate or similar comments submitted by more than one individual. In addition to the written comments, oral comments were received from approximately 30 participants at public meetings in the 10 Federal regions across the country. All of the substantive comments on the regulation have been carefully reviewed by the Commissioner and are responded to in this preamble. Summaries of the comments are set forth below on a section by section basis, together with responses explaining any changes that have been made in the final regulation, or indicating why no changes are appropriate.

Summary of Comments and Responses

The following comments were submitted to the Office of Education regarding the proposed regulation. After the summary of each comment, a response is set forth indicating changes which have been made in the regulation or the reasons why no change is necessary. The comments are arranged in the order of sections of the final regulations.

Subpart A—General

§ 195.2 What is the State administered gifted and talented children's education program?

Comment. One commenter expressed the need for further clarification of the extent to which in-service training may be carried out by SEAs and LEAs funded under the State-administered program.

Response. A change has been made. The relationship of in-service training projects under the State-administered program has been clarified. In-service traning is an activity that may be conducted by the local educational agencies as a component of their projects funded by the SEAs to meet the educational needs of gifted children. An SEA may use up to ten percent of its grant award under the State administrative program for statewide planning and coordination, administration, technical assistance, and in-service training designed to meet the needs of gifted and talented children.

§ 195.2(b)(1)

Comment. A number of commenters believed that the intent of Pub. L. 95-561, Title IX, Part A, Section 904, the State-Administered Program, is to distribute 75 percent of the appropriation on an equal basis, to all of the State that submit an approvable application. These commenters questioned the authority of the Commissioner to distribute, on a competitive basis, those funds remaining after the $50,000 minimum-grant awards are made.

Response. No change has been made. The legislative intent for the competitive portion of the State-Administered Program is clearly stated in H. Rpt. 95–1753, p. 282—"The Commissioner may vary the size of a States' grant, based upon the merits of its application. All States which file a completed application which fully meet the requirements of statute and which is approved by the Commissioner shall receive a minimum grant of $50,000, subject to ratable reduction based on appropriations."

§ 195.2(b)(3)

Comment. Several commenters suggested that the regulations should state that SEAs "shall" provide technical assistance to LEAs, rather than "may" provide technical assistance to LEAs. Some commenters requested clarification as to which LEAs are entitled to technical assistance from SEAs, as well as what kind of technical assistance will be provided.

Response. A change has been made. The regulations state that SEAs shall provide technical assistance to LEAs which are unable to compete due to smaller size or lack of financial resources in preparing proposals and in planning, developing, and operating programs.

§ 195.5 Who is eligible for funds under the discretionary grant program?

§ 195.5(b) Comment. A few commenters felt that LEAs are placed at a disadvantage by being required to complete with SEAs, institutions of higher education, and other public and private organizations for all discretionary grant projects other than statewide planning grants. These commenters felt that LEAs do not typically possess resources commensurate with those of other eligible parties.

Response. No change has been made. The Act does not authorize the Commissioner to limit grant competition to one group of eligible applicants, with the exception of statewide activity grants. For other discretionary grants activities, all eligible parties may apply.

§ 195.6 Definitions in EDGAR.

Comment. One commenter stated that the proposed regulations do not contain any reference to regional or intermediate educational units.

Response. No change has been made. The section to which the comment refers lists definitions that are contained in EDGAR Part 100c. The definition of Local Educational Agency (LEA) which is included in EDGAR, and is further adopted in these regulations, includes regional or intermediate educational units.

§ 195.7 What definitions apply to this program?

(1) "Disadvantaged children from low-income families." One commenter expressed concern that the definition of disadvantaged children as children in schools designated as being in a Title I, ESEA attendance area would not ensure the true participation of disadvantaged children from low-income families, in that many children in Title I, ESEA attendance areas are not necessarily disadvantaged. The commenter believed that this definition would penalize secondary students since the majority of schools in ESEA Title I attendance areas are elementary.

Response. A change has been made. To avoid placing an undue burden on the SEAs, the Commissioner provides the option of using the low-income criteria in Title I, ESEA or using any equitable alternate low-income definition that the SEA promulgates or employs.

(2) "Gifted and talented child." One commenter recommended that the proposed definition for gifted and talented child be revised to read—"an individual who has been identified at the pre-school, elementary, or secondary school level" rather than "an individual in preschool, elementary, or secondary school." In this way, gifted and talented children who may not presently be enrolled in a program, such as children who are of preschool age or high school dropouts, would be eligible to participate. The commenter also recommended changing the phrase "leadership activities," to "leadership abilities," which more closely reflects the statutory meaning. The commenter, in order to provide a clearer meaning, recommended changing the phrase "specialized education or services to develop these special skills" to "special education services as provided through a differentiated curriculum and/or methodology beyond those being provided in regular school systems to children not requiring special education to develop these skills."

Response. Some changes have been made. The proposed definition for gifted and talented child is revised to read: "an individual who has been identified at the preschool, elementary or secondary school level." In addition, the term "leadership abilities" has been substituted for "leadership activities." The recommendation dealing with specialized or differentiated services has been addressed in the paragraph which follows.

(3) "Differentiated education or services." One commenter recommended adding to this regulation the definition of the term "differentiated education or services" used in the regulations governing the gifted and talented special projects under Pub. L. 93–380.

Response. A change has been made. Because the term "differentiated" is accepted as a term of art for educators of the gifted and talented it has been added to the definition of "specialized education or services." The new term "specialized or differentiated educational services" combines elements of both terms. The new term means "instruction or other services designed to—

"(a) Meet the special educational and related needs of each gifted and talented child.

"(b) Provide curriculum which incorporates appropriate high level cognitive and affective content which exceeds instruction or services regularly provided to the average student and enhances the unique learning abilities of each gifted and talented child."

(4) Adding the term "psychomotor."

Comment. A number of commenters have expressed concern that "psychomotor" is omitted from the definition of gifted and talented.

Response. No change has been made. The definition of a "gifted and talented" child is based upon the definition set forth in the statute. The statutory definition does not include the "psychomotor" category.

(5) "Preschool."

Comment. One commenter has recommended that the proposed definition for "preschool" be replaced by the definition of preschool found in the Definitions section of the General Provisions for the Office of Education Programs. The definition of "preschool" in the NPRM for the Gifted and Talented Children's Program means "any educational level prior to the elementary level at which educational services are required to be provided by an LEA under State law", thus suggesting that preschool constitutes only those educational services that are required to be provided prior to the elementary level by an LEA under State law.

Response. A change has been made. The definition is amended to coincide with the definition in EDGAR (45 CFR 100c.1). "Preschool" is thus redefined to mean "the educational level from a child's birth to the time at which the State provides elementary education."

§ 195.8 What characteristics must a project involving children have?

§ 195.8(a). Comment. Several commenters expressed confusion over whether a project could deny a child participation if the child failed to pass one of the identification methods used by the project. Other commenters were uncertain over the minimum number of methods for identification and assessment a project must use. A few other commenters did not understand how many such methods a student must pass in projects using multiple methods.

Response. No change is necessary. However, to clarify this provision, all projects must use no fewer than two methods of identification or selection. If a child fails to pass only one method but meets the other method(s), that child may not be denied participation in the project. The purpose of this provision is to ensure that students are not "screened out" by not attaining a certain level on only one test (e.g., an I.Q. test). There is no minimum number of identification/assessment methods a student must meet to be eligible to participate in a project.

Comment. On commenter has recommended that Individual Educational Plans (IEPs) be required.

Response. No change has been made. Requiring written IEPs for participating students is not required in the Act and, therefore, is not included in the regulations. The individual needs of gifted and talented children must be met.

§ 195.8(b). Comment. One commenter has recommended that undergraduate professional development be supported.

Response. The professional development activities authorized by the Act focus on training of personnel engaged in the education of gifted and talented children.

Teachers and supervisors engaged in educating gifted and talented children are typically beyond the undergraduate level. As a result preservice undergraduate training is not assisted.

Subpart B—How Does a State Obtain a Grant?

§ 195a.10 What documents must an SEA file with the Commissioner?

§ 195a.10(b). Comment. Many commenters were confused about the State application requirements and asked if a separate, second application for the competitive portion of the State-administered program is required. Commenters believed that a separate second application was burdensome.

Response. A change for clarity has been made. The final regulations more clearly state that only a single application with a designated section for the competitive portion of the State-administered program is required.

§ 195a.11 What must the State application contain?

Comment. Several commenters requested clarification of the requirement that projects include a component for identifying and serving disadvantaged gifted and talented children from low-income families.

Response. No change is made. A component is an element of a gifted and talented LEA project that is specially directed toward the identification of low-income, disadvantaged gifted and talented children and provides services to meet their special educational needs.

§ 195.12 May an applicant apply for a project lasting more than one year?

Comment. Some commenters asked if grants awarded to States under the State-Administered program will be awarded for more than one year.

Response. A change for clarity has been made. The $50,000 minimum-grant award under the State-Administered Program will be awarded each year for a three-year period. Grants to States awarded under the competitive portion of the State-Administered Program will be awarded on a yearly basis and the amount of the annual competitive grant may change each year. For both awards, the budget period will be 12 months.

§ 195a.21 What evaluation criteria does the Commissioner use to review applications for competitive State grants?

Comment. Many commenters have requested clarification of the term "comprehensive approach" which is a criterion in evaluating the competitive portion of an application under the State-administered program.

Response. A change has been made. "Comprehensive approach" refers to the SEA's criteria for identifying and meeting the special educational and related needs of gifted and talented children as set out in the State application for distributing funds to LEAs. The State application describes the method.

Comment. A few commenters requested that the points awarded for technical assistance be reduced.

Response. No change has been made. The Commissioner considers technical assistance an important SEA responsibility. The technical assistance provided by the SEA partially reflects a State's commitment to improve the quality of gifted and talented education in the State. In addition, SEAs must provide technical assistance to LEAs which are unable to compete due to smaller size or lack of financial resources. This criterion will continue to be worth 20 points.

Comment. Some commenters thought that the coordination criterion was so important that the number of points assigned to it should be increased.

Response. No change has been made. The Commissioner believes that coordination is an important criterion and is properly weighted.

§ 195a.31 May the SEA award a subgrant to an LEA for more than one year?

Comment. One commenter asked the reason for the requirement placing a limit on the duration of subgrants, when there is no such authority in the statute.

Response. No change has been made. Section 907(c) of the Act requires that no financial assistance may be made to an LEA for a period in excess of five years.

Subpart F—What Conditions Must Be Met by the State and Its Subgrantees?

§ 195a.40 Are there restrictions on the types of costs a grant may support?

Comment. One commenter objected to the language in subsection (b) suggesting that an LEA must obtain direct written authorization from the Commissioner and the SEA to use funds for such purposes as professional travel or conference attendance.

Response. A change has been made. This subsection has been deleted. Funds to be used for such purposes must be itemized in the approved project budget.

§ 195a.41 Must a State and local educational agency provide an opportunity for private school students to participate?

Comment. Commenters have requested that greater restrictions be placed on private school participation.

Response. No change has been made. The regulations are in accord with the provision governing private school participation, Section 406, of the Elementary and Secondary Education Act, which requires that LEAs provide for the equitable participation of gifted and talented students enrolled in private nonprofit elementary and secondary schools in the areas served by the project.

Discretionary Program

Subpart B—What kinds of Projects Does the Office of Education Assist?

§ 195b.10 Does the Commissioner establish priorities?

Comment. Some commenters have recommended that this subpart and

section be rewritten to reflect all of the activities authorized in the law, including model projects, research activities, and the establishment of a clearinghouse.

Response. Changes have been made. Subpart B has been amended to reflect some of these comments. Statewide activities projects may include inservice training, statewide planning, and operating projects to serve gifted and talented children. The category of professional development activity has been enlarged to include activities listed separately in the proposed rules as "professional development, inservice training, and leadership training." Research and clearinghouse activities will be funded by contract based on a request for proposal published in the Commerce Business Daily. These activities are not covered under these regulations.

Comment. A few commenters stated that the rules do not make clear which program options the Commissioner will designate as programmatic priorities. Some of these commenters suggested that an advisory council be formed to assist the Commissioner in making such decisions.

Response. No change has been made. In keeping with HEW practice the rules indicate that the Commissioner will announce the specific activities for which funding is available by publishing a notice in the **Federal Register.** Interested parties may contact the Office of Gifted and Talented and have their names placed on the official mailing list so that these announcements will be sent to them at the appropriate time.

In addition, there is an administrative policy which limits the creation of new advisory councils. The Office of Gifted and Talented provides opportunities for recommendations and general comments on programmatic options, funding, and activities through direct communication with professional organizations and consumers.

§ 195b.11 On what types of activities may a statewide planning project focus?

Comment. One commenter has recommended that, to conform with legislative intent, this section should be limited to participation by States that have, in the past, assumed only a limited effort in the education of gifted and talented children. These are States that may have difficulty in participating under the basic grant program without additional assistance. The same commenter suggested that § 195.11 (b), (c), and (d) be deleted. This commenter suggested that the following provisions be added to § 195.11:

(a) The development of a comprehensive, statewide approach to meet the needs of gifted and talented students;

(b) The provision by a State educational agency of developmental and technical assistance (through regional area service centers or other mechanism) to assist specific local educational agencies in carrying out programs or projects to meet the special educational needs of the gifted and talented;

(c) Surveys and assessments to meet those special education needs which currently exist in local educational agencies in the State;

(d) Determination of the need for particular programs and projects to meet those needs as a result of the surveys and assessments;

(e) Development of a comprehensive plan for serving the gifted and talented in local educational agencies in the State;

(f) Provision for State Coordinator(s) or other official(s) with responsibility for development, improvement, coordination and delivery of other State services with respect to programs for the gifted and talented in local educational agencies; and

(g) The development and implementation of an in-service training program for the purpose of start-up activities for local educational personnel in the administration of appropriate and comprehensive methods for the identification and education of gifted and talented children.

Response. There is no statutory mandate to limit consideration to States that have in the past assumed only a limited effort. However, since this is a discretionary program, the Commissioner may establish such program emphasis as deemed appropriate from year to year.

Section 195b.11 has been amended to include provisions for the following activities:

(1) surveys and assessments to meet those special education needs which currently exist in local educational agencies in the State;

(2) determination of the need for particular programs and projects to meet those needs as a result of the surveys and assessments;

(3) provisions for a State coordinator(s) or other official(s) with responsibility for development, improvement, coordination, and delivery of other State services with respect to programs for the gifted and talented in local educational agencies; and

(4) the development and implementation of an in-service training program for the purpose of start-up activities for local educational personnel in the administration of appropriate and comprehensive methods for the identification and education of gifted and talented children.

The provision of technical assistance and developmental assistance by State educational agencies is already included in § 195b.11(d). The development of a comprehensive plan for serving the gifted and talented in local educational agencies is addressed under § 195b.11(a).

§ 195b.12 On what types of activities may an educational service or model project focus?

§ 195.12(b)(5). Comment. A few commenters stated that outside school personnel and organizations should not displace school personnel and should be used only when qualified school personnel are not available.

Response. No change has been made. The involvement of persons and organizations outside the school is meant to complement and supplement the activities of school personnel. Such involvement should allow for the services of community resources to be used to meet the educational needs of gifted and talented children.

Comment. One commenter recommended that the phrase "educational service projects" be replaced with "model projects." Additionally, the commenter recommended that subsection (a) be rewritten to read: "Model projects" shall involve a program of activities which—

(1) Provide for innovative, demonstrative, or model approaches to educating gifted and talented students; and

(2) Are targeted toward special populations of the gifted and talented (such as bilingual, early childhood, handicapped, educationally disadvantaged, migratory, rural, native American or culturally different).

Response. Changes have been made. Model project activities are more clearly identified as a part of the category of activities under education service or model projects. The section for educational service and model projects is amended to include the following provisions: Model projects may involve a program of activities which—

(1) provide innovative, demonstrative, or model approaches to educating gifted and talented students;

(2) are targeted toward special populations of the gifted and talented (such as bilingual, early childhood, handicapped, educationally disadvantaged, migratory, rural, native American or culturally different); or

(3) focus on a particular type of educational service.

§ 195b.13 On what types of activities may a professional development project focus?

Comment. A few commenters stated that private agencies should not be used to provide internships or work experiences.

Response. No change has been made. There is no statutory restriction on the use of private agencies for the provision of internships or work experiences.

§ 195b.13 (§ 195b.54) On what types of activities may an in-service or national leadership training project focus?

Note.—This section has been merged with § 195b.13—Professional Development.

Comment. Some commenters were confused about the difference between professional development and in-service training. One commenter recommended that this section address national leadership training as a separate entity. The commenter recommends the inclusion of internship activities in local, State or Federal agencies or institutions of higher education as an activity under this section. Additionally, the commenter recommends that these projects be focused on providing unique opportunities for training based upon intensive learning opportunities aimed at developing a cadre of future leaders in the education of the gifted and talented, rather than introductory workshops or conferences for a variety of educational and/or non-educational groups.

Response. A change has been made. In-service training and leadership training are two kinds of professional development activities. Other such activities are graduate level instruction leading to a degree in the education of the gifted and talented, short-term courses and instruction, seminars and other high-level opportunities, internships, and work-training experiences.

The final regulations combine all of these activities under the category of "professional development" to reflect the common relationship among the activities.

§ 195b.30 (§ 195.71) How does the Commissioner evaluate an application?

Note.—This section was formerly titled *What criteria are used to evaluate applications for other discretionary projects?*

Comment. One commenter has questioned the need for two scales to evaluate applications for grants other than Statewide planning projects under the discretionary program.

Response. No change has been made. State-wide activities projects have a different focus from other discretionary activities. As a result, the Commissioner believes that different criteria are appropriate.

§ 195b.50 Are there restrictions on the types of costs a grantee may support?

Comment. A number of commenters stated that the restriction on the use of funds for stipends, substitutes, release time, transportation, or meals for participants in in-service training activities would prove to be a disincentive for LEAs and SEAs to sponsor in-service training programs and for teachers to participate in such programs.

Response. A change has been made. Based on previous experience with funded projects, the Commissioner does not generally allow the use of grant funds to cover certain costs related to in-service training conducted under a program with an appropriation of less than $10 million. This experience has shown that those in-service training activities for which participants are directly reimbursed use a disproportionate share of the funds of such Federal programs. However, there are costs which are necessary in order to free the participants to take part in in-service training activities and, as such, are reasonable costs to be supported with grant funds. Examples of such reasonable costs are substitutes and release time. The final regulations eliminate the restrictions on substitutes and release time.

Section 908 of the Act: Federal Share

Comment. A number of commenters requested clarification of the 10 percent matching funds.

Response. The 10 percent non-federal match may be in cash or in kind fairly evaluated and must be contributed by all grantees with respect to all projects governed by these regulations except projects involving the participation of students in non-profit private elementary or secondary schools.

Citation of legal authority

The reader will find a citation of statutory or other legal authority in parentheses on the line following each substantive provision.

Dated: March 13, 1980.

(Catalog of Federal Domestic Assistance Number 13.562, Gifted and Talented Children's Education Program)

William L. Smith,

Commissioner of Education.

45 CFR is amended by deleting Part 160b and by adding the following Parts:

1. A new Part 195 is added as follows.

PART 195—GIFTED AND TALENTED CHILDREN'S EDUCATION PROGRAM: GENERAL

Subpart A-General

Sec.

195.1 What is the Gifted and Talented Children's Education Program?
195.2 What is the State-administered Program?
195.3 Who is eligible for funds under the State-administered program?
195.4 What is the discretionary grant program?
195.5 Who is eligible for funds under the discretionary grant program?
195.6 What regulations apply to the Gifted and Talented Children's Education Program?
195.7 What definitions apply to this program?
195.8 What characteristics must a project involving children have?
195.9 Must a State or local educational agency provide an opportunity for private school students to participate?

Authority: These regulations are issued under the authority contained in Part A of Title IX of the Elementary and Secondary Education Act as amended by Pub. L. 95-561, 92 Stat. 229

(20 U.S.C. 3311-3318)

Subpart A—General

§ 195.1 What is the Gifted and Talented Children's Education Program?

(a) The Gifted and Talented Children's Education Program provides financial assistance through—

(1) A State-administered program; and

(2) Discretionary grants and contracts awarded by the Commissioner of Education.

(b) The program is designed to—

(1) Meet the special educational needs of the Nation's gifted and talented children; and

(2) Enable these children to fulfill their potential both as individuals and as a resource to the Nation.

(20 U.S.C. 3311-3318)

§ 195.2 What is the State-administered program?

(a) The Commissioner provides financial assistance to State educational agencies (SEAs) to plan, develop, operate, and improve programs to meet the needs of gifted and talented children at the preschool, elementary, and secondary levels.

(20 U.S.C. 3314)

(b) SEAs shall use at least 90 percent of the funds awarded under the State-administered program to make competitive awards to local educational agencies (LEAs) for projects that meet the educational needs of gifted and

talented children. Such projects may include components for in-service training.

(20 U.S.C. 3314(c)(2)(B))

(c) From the remaining 10 percent the SEAs—

(1) Shall provide technical assistance to LEAs—which are unable to compete due to smaller size or lack of financial resources—in preparing proposals and in planning, developing, and operating programs under this section; or

(2) May provide Statewide planning and coordination, administration, or in-service training designed to meet the special educational needs of gifted and talented children.

(20 U.S.C. 3314(c)(2)(A))

§ 195.3 Who is eligible for funds under the State-administered program?

The following are eligible:

(a)(i) SEAs if the appropriation in any year is under $15,000,000.

(ii) For purposes of this subparagraph SEAs include the 50 States, the District of Columbia, Puerto Rico, Guam, American Samoa, the Virgin Islands, the Trust Territory of the Pacific Islands, and the Northern Mariana Islands.

(20 U.S.C. 3314)

(b) If the appropriation in any year exceeds $15,000,000, SEAs, (defined as the several States, the District of Columbia and the Commonweath of Puerto Rico), and schools for Indian Children operated by the Department of the Interior, dependent schools of the Department of Defense, Guam, American Samoa, the Virgin Islands, the Trust Territories of the Pacific Islands, and the Northern Mariana Islands.

(20 U.S.C. 3316)

§ 195.4 What is the discretionary grant program?

The discretionary grant program assists in establishing and maintaining projects to plan, develop, operate, demonstrate and improve programs to meet the special educational needs of gifted and talented children, including the training of personnel engaged in the education of gifted and talented children or supervision of such personnel.

(20 U.S.C. 3315(a))

§ 195.5 Who is eligible for funds under the discretionary grant program?

Under the discretionary program, the Commissioner makes grant awards—

(a) For statewide activities grants to SEAs, and

(b) For all other types of projects, the Commissioner makes grant awards to—

(1) SEAs;

(2) LEAs;

(3) Institutions of higher education;

(4) Other public and private organizations; or

(5) Combinations of the above.

(c) The Commissioner may also enter into contracts with public or private agencies or organizations to operate model projects, disseminate information, or conduct research. Contracts are not covered by these regulations.

(20 U.S.C. 3315(a)(1), (2), (3), (4), (b))

§ 195.6 What regulations apply to the Gifted and Talented Children's Education Program?

(a) *Regulations.* The following regulations apply to the Gifted and Talented Children's Education Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs), 45 CFR Part 100B (State-Administered Programs), and 45 CFR Part 100c (Definitions).

(2) The regulations in this part.

(b) *Definitions in EDGAR.* The following terms used in this part are defined in Part 100c:

Applicant
Application
Award
Budget
Commissioner
Local educational agency (LEA)
Nonprofit
Private
Preschool
Project
Public
State educational agency (SEA)

(20 U.S.C. 1232(a))

§ 195.7 What definitions apply to this program?

As used in these regulations—

"Act" means the Gifted and Talented Children's Education Act of 1978, Title IX–A of the Elementary and Secondary Education Act (ESEA) of 1965 as amended by Pub. L. 95–561.

(20 U.S.C. 3311–3318).

"Child"—including the term "youth"—means any individual from birth through 18 years of age.

"Differentiated or specialized educational services" means instruction or other services designed to—

(a) Meet the special educational and related needs of each gifted and talented child; and

(b) Provide curriculum which incorporates appropriate cognitive and affective content which exceeds the instruction or services regularly provided to the average student and enhances the unique learning abilities of each gifted and talented child.

"Disadvantaged children from low-income families," for purposes of meeting the requirement, shall be children defined by the SEA using either of the following:

(1) The low-income criteria in Title I of ESEA, or

(2) Any other equitable alternate low-income definition that the SEA promulgates or commonly uses on a statewide basis.

"Gifted and talented child" means a child, who has been identified at preschool, elementary, or secondary level and who—

(a) Demonstrates actual or potential high performance capability in areas such as in intellectual, creative, specific academic, or leadership ability or in the performing or visual arts; and

(b) Requires specialized education or services not ordinarily provided by the school;

(20 U.S.C. 3312)

"Indian tribe" means any Federal or State recognized tribe, band, nation, rancheria, pueblo, Alaskan native village—or regional or village corporation as established by the Alaska Native Claims Settlement Act—that exercises the power of self-government.

(20 U.S.C. 3317(b); 45 CFR 187.2)

"Local educational agency" for purposes of this part includes an Indian tribe that operates schools for its children;

(20 U.S.C. 3317(b))

"State," for purposes of the award of funds under section 904 of the Act, means each of the 50 States, the Commonwealth of Puerto Rico, the District of Columbia, Guam, American Samoa, the Virgin Islands, the Northern Mariana Islands, and the Trust Territory of the Pacific Islands.

(20 U.S.C. 3381(j))

§ 195.8 What characteristics must a project involving children have?

(a) Any project that involves the participation of gifted and talented children must use comprehensive and multiple methods for identifying and assessing the needs of those children. No child shall be denied participation in a projection on the basis of only one method of identification. Methods of identification are—

(1) *Comprehensive,* if they are sufficiently broad to assess children who—

(A) May come within the service category addressed by the project, including those who are economically disadvantaged, handicapped, or culturally different; and

(B) Are in the geographic area to be served by the project; and

(2) *Multiple,* if they involve not fewer than two methods of identification, such

as teacher nomination, measures of creativity, peer nomination, intelligence tests, evaluations adapted to the child's cultural norm, or other innovative strategies for identification. For all identification instruments or strategies, the applicant shall demonstrate a logical connection between those instruments or strategies and the purposes of the project.

(b) *Instructional component.* Any project that involves an instructional component shall provide differentiated or specialized educational services.

§ 195.9 Must a State or local educational agency provide an opportunity for private school students to participate?

If an SEA or LEA receives a grant under this program, the Act requires that agency to provide for participation by students and teachers enrolled in private elementary and secondary schools. EDGAR establishes the rules for this participation (See EDGAR, § 100a.650 et seq.).

(20 U.S.C. 3314(c)(5)(B)), 3315(b)(2), 3086)

2. A new Part 195a is added as follows.

PART 195A—GIFTED AND TALENTED CHILDREN'S EDUCATION: STATE-ADMINISTERED PROGRAM

Subpart A—General

Sec.

195a.1 What general requirements apply to this program?

Subpart B—How Does a State Obtain a Grant?

195a.10 What documents must an SEA file with the Commissioner?
195a.11 What must the State application contain?

Subpart C—How is a Grant Made to a State?

195a.20 How is the amount of a State's grant determined?
195a.21 What evaluation criteria does the Commissioner use to review applications for annual competitive State grants?

Subpart D—How Is a Subgrant Made to an LEA?

195a.30 How does an LEA apply to an SEA for a grant?
195a.31 May the SEA award a multi-year subgrant to an LEA?

Subpart E—[Reserved]

Subpart F—What Conditions Must Be Met by the State and Its Subgrantees?

195a.40 Are there restrictions on the types of costs a grant may support?
195a.41 Allowable costs.

Authority: These regulations are issued under the authority contained in Part A of Title IX of the Elementary and Secondary Education Act as amended by Pub. L. 95–561, 92 Stat. 2292

(20 U.S.C. 3311–3318)

Subpart A—General

§ 195a.1 What general provisions apply to this program?

The provisions of Subpart A of Part 195 (§ 195.1 through § 195.9) apply to the State-administered programs under this part.

Subpart B—How Does a State Obtain a Grant?

§ 195a.10 What documents must an SEA file with the Commissioner?

(a) To receive a minimum allotment an eligible applicant shall submit an application and file it with the Commissioner.

(1) At the minimum the application shall contain the assurances required by—

(i) The provisions governing single State applications contained in EDGAR except that § 100b.101(e)(7)(ii) pertaining to Statewide circulation of the plan and § 100b.105 pertaining to governor's review do not apply to applications for fiscal year 1980 funds; and

(ii) By this Act and these regulations.

(20 U.S.C. 1232d(b) and 3314(b)(1) and (c))

(2) A State must revise and resubmit its application for a minimum allotment every three years.

(b) To apply for a competitive award a State shall submit on an annual basis additional information—in a clearly designated section of its application—that responds to the criteria in § 195a.21 and the application to a notice published in the **Federal Register.**

(20 U.S.C. 3314(b)(1); H. Rept. No. 95–1753 at page 282)

§ 195a.11 What must the State application contain?

(a) A State application shall contain a plan for making subgrants on a competitive basis to LEAs to meet the educational needs of gifted and talented children.

(b) This plan shall set forth separately—

(1) Criteria for awarding not less than 50 percent of the funds available to the State to LEAs for projects that include a component for identifying and serving the special educational needs of gifted and talented children from low income families; and

(20 U.S.C. 3314(c)(3))

(2) Criteria for awarding at least 90 percent of the funds available under this program to LEA projects that are directed toward serving the special educational needs of gifted and talented children. The remaining funds—up to 10 percent—may be used by the State for such purposes as administration, technical assistance, coordination, statewide planning, and in-service training.

(20 U.S.C. 3314(c)(2))

Subpart C—How Is a Grant Made to a State?

§ 195a.20 How is the amount of a State's grant determined?

There are two ways the Commissioner determines a State's grant:

(a) If the appropriation for the Act is less than $15 million, the Commissioner awards—

(1) A $50,000 allotment to each eligible applicant submitting an approved general application subject to a ratable reduction based on the appropriations; and

(2) Additional amounts on a competitive basis, if the amount appropriated is greater than the total required to pay the $50,000 allotment to each applicant State.

(20 U.S.C. 3314(b)(1); H. Rept. 95–1753, (page 282))

(b) If the appropriation for the Act exceeds $15 million, the Commissioner allots funds to each eligible applicant submitting an approved general application according to proportion of the number of children aged 5 to 17 in the State compared to the total number in the 50 States, Puerto Rico, and the District of Columbia.

(1) Not more than one percent of the State administered program funds shall be awarded to Guam, American Samoa, the Virgin Islands, the Trust Territory of the Pacific Islands, the Northern Mariana Islands, elementary and secondary schools operated for Indian children by the Department of the Interior, and dependent schools of the Department of Defense.

(2) The Commissioner may reallot funds among States at times established through publication of a notice in the **Federal Register,** whenever a State does not fully use its allotment.

(3) The Commissioner considers realloting funds from States that carry over more than 15 percent of a prior year's allotment.

(20 U.S.C. 3314(b)(2); 3316)

§ 195a.21 What evaluation criteria does the Commissioner use to review applications for annual competitive State grants?

The Commissioner reviews an application for competitive funds on the basis of the criteria in this section totalling 100 possible points. The maximum possible score appears next to

the heading of each criterion and indicates the relative importance assigned to that criterion by the Commissioner.

(a) *Comprehensive approach.* (25 points) The extent to which an SEA proposes comprehensive methods of identifying and meeting the special educational and related needs of gifted and talented chidren throughout the State under the competitive LEA grant process.

(b) *Planning.* (15 points) The extent to which an SEA ensures the involvement of persons and organizations in both the public and private sectors in the development of procedures for awarding funds to LEAs.

(c) *Technical assistance.* (20 points) The quality and type of technical assistance that the SEA proposes to provide to LEAs which are unable to compete due to smaller size or lack of financial resources in planning, developing, and operating LEA projects.

(d) *Administration.* (15 points) The quality of the State's proposed plan and procedures for awarding subgrants to LEAs for projects to identify and meet the special educational needs of gifted and talented children.

(e) *Disadvantaged.* (10 points) The quality of the SEA's plan to ensure that 50 percent of its funds will be awarded on a competitive basis to LEAs that have projects which contain a component to identify and serve the educational needs of disadvantaged gifted and talented children from low-income families.

(f) *Coordination.* (15 points) The quality of the State's plan to coordinate and monitor LEA activities or projects for gifted and talented children and to disseminate the results of these activities or projects.

(20 U.S.C. 3314 (b)(1), (c))

Subpart D—How Is a Subgrant Made to an LEA?

§ 195a.30 How does an LEA apply to an SEA for a grant?

An LEA submits an application to an SEA according to the procedures and requirements set out in the approved State application.

(20 U.S.C. 3314(c)(2)(B))

§ 195a.31 May the SEA award a multi-year subgrant to an LEA?

(a) A State may not award a subgrant to an LEA for more than five years to achieve the purposes of an LEA's project.

(b) If an LEAs initial application proposes a project requiring more than one year for completion, the LEA shall provide the State with budget projections for each year after the initial year.

(c) For approved multi-year projects, the LEA shall file continuation applications with the State for funding each year after the first year.

(20 U.S.C. 3317(c))

Subpart E—[Reserved]

Subpart F—What Conditions Must Be Met by the State and Its Subgrantees?

§ 195a.40 Are there restrictions on the types of costs a grant may support?

Funds may not be used for—

(a) Construction, repair, remodeling, or alteration of facilities or sites;

(b) Stipends, transportation, or meals for participants in in-service training activities.

(20 U.S.C. 1221e-3(a)(1))

§ 195a.41 Allowable costs.

The following costs are allowed:

(a) If a project involves an internship, the payment to each participant of an allowance that is not in excess of the entering salary for professionals in the agency or institution in which the participant is placed.

(b) If the project involves a graduate fellowship, the payment of a stipend, tuition, and fees.

(c)(i) If the project involves in-service or national leadership training, the payment of tuition and fees for university or college courses in education of the gifted and talented; and

(ii) If the project involves in-service training, the payment of reasonable costs for substitutes and for release time.

(20 U.S.C. 3315 (a)(1), (a)(2))

3. A new Part 195b is added as follows:

PART 195B—GIFTED AND TALENTED CHILDREN'S EDUCATION PROGRAM: DISCRETIONARY GRANT PROGRAM

Subpart A—General

Sec.

195b.1 What general requirements apply to this program?

Subpart B—What Kind of Projects Does the Office of Education Assist?

195b.10 Does the Commissioner establish priorities?
195b.11 On what types of activities may a Statewide activities project focus?
195b.12 On what types of activities may an educational service or model project focus?
195b.13 On what types of activities may a professional development project focus?

Subpart C—How Does An Applicant Apply for a Grant?

195b.20 How to apply for a grant.

Subpart D—How Is a Grant Made?

195b.30 How does the Commissioner evaluate an application?
195b.31 What selection criteria does the Commissioner use to evaluate Statewide activities?
195b.32 What selection criteria does the Commissioner use to evaluate all other applications?

Subpart E—[Reserved]

Subpart F—What Conditions Must Be Met by the Grantee?

195b.50 Are there restrictions on the types of costs a grantee may support?
195b.51 Allowable costs.
195b.52 May an applicant apply for a multi-year grant?
195b.53 Must an LEA give the public an opportunity to comment on its application?

Authority: These regulations are issued under the authority contained in Part A of Title IX of the Elementary and Secondary Education Act as amended by Pub. L. 95-561, 92 Stat. 2292 (20 U.S.C. 3311-3318).

Subpart A—General

§ 195b.1 What general requirements apply to this program?

The provisions of Subpart A of Part 195 (§§ 195.1 through 195.9) apply to the discretionary grant programs under this part.

Subpart B—What Kind of Projects Does the Office of Education Assist?

§ 195b.10 Does the Commissioner establish priorities?

The Commissioner establishes programmatic priorities for funding from among the types of activities listed in §§ 195b.11, 195b.12, and 195b.13. In any given year the Commissioner announces—through publication of an application notice in the Federal Register—which of these types of activities will be funded.

(20 U.S.C. 3315)

§ 195b.11 On what types of activities may a Statewide activities project focus?

A statewide activities project may be designed to accomplish one or more of the following:

(a) Develop a comprehensive statewide approach to meet the needs of gifted and talented students.

(b) Involve representatives of parent groups and other public and private organizations interested in education of gifted and talented students.

(c) Develop innovative strategies to identify and serve gifted and talented children, particularly the economically disadvantaged, the handicapped, or

those with culturally different backgrounds;

(d) Provide technical assistance to help public and private schools within the State identify and meet the needs of gifted and talented students in those schools.

(e) Conduct surveys to determine the programs required to meet the needs of gifted and talented children in the state;

(f) Provide a State coordinator or other official who has responsibility for development, improvement, coordination, and delivery of State services with respect to programs for the gifted and talented in local educational agencies.

(g) Develop and implement an in-service training program to train local educational personnel in the administration of appropriate and comprehensive methods for the identification and education of gifted and talented children.

(20 U.S.C. 3315(a)(5))

§ 195b.12 On what types of activities may an educational service or model project focus?

(a) An educational service or model project is principally designed to provide direct educational services to gifted and talented children. The project shall—

(1) Provide innovative, demonstration, or model approaches to educating gifted and talented students or particular categories of those students; or

(2) Operate, expand, or improve existing educational projects to meet the educational needs of gifted and talented students.

(b) An educational service or model project—in addition to meeting the educational needs of the gifted and talented—shall, as appropriate—

(1) Be capable of stimulating similar services and projects by being cost-effective and replicable;

(2) Provide project related in-service training for educational personnel;

(3) Involve persons and organizations outside the school in the planning and operation of the project;

(4) Be based on an existing high quality program that is addressing major needs in identification of and delivery of services to gifted and talented students;

(5) Focus services on special populations of the gifted and talented such as bilingual, early childhood, handicapped, economically disadvantaged, migrant, rural, native American, and/or culturally different; or

(6) Focus on a particular category of educational service, such as early childhood education, arts education, or other category of service.

(20 U.S.C. 3315(a)(1) and (3))

§ 195b.13 On what types of activities may a professional development project focus?

A professional development project shall—

(a) Provide graduate level instruction leading to a degree in gifted and talented education;

(b) Provide a variety of short-term courses and instruction, focusing on the education of gifted and talented children;

(c) Provide seminars and other high-level opportunities for leaders in education, public affairs, industry, and related fields to interact with and promote the professional development of potential leaders in the education of gifted and talented students;

(d) Provide internships or similar, practical, training experience through public or private agencies involved with gifted and talented children;

(e) Provide in-service training for personnel engaged in the education of gifted and talented children or in the supervision of such personnel;

(f) Provide workshops and conferences for SEAs, LEAs, boards of education parents, business and community groups, and other interested parties on issues related to educating gifted and talented students; or

(g) Develop specialized training materials for use by SEAs, LEAs, and other agencies or groups involved in training leaders in the education of gifted and talented students.

(20 U.S.C. 3315(a)(1), (2))

Subpart C—How Does an Applicant Apply for a Grant?

§ 195.20 How to apply for a grant.

The Commissioner makes a grant to an eligible applicant only if the applicant prepares and submits an application according to—

(a) The regulations in this part that govern discretionary grants;

(b) The applicable provisions in Part 100a of EDGAR;

(c) The procedures and priorities contained in the notices published in the Federal Register; and

(d) The instructions and forms included in the application package.

Subpart D—How Is a Grant Made?

§ 195b.30 How does the Commissioner evaluate an application?

(a) The Commissioner evaluates an application—

(1) For statewide activities projects on the basis of the criteria in § 195b.31.

(2) For all other discretionary projects on the basis of the criteria in § 195b.32.

(b) The Commissioner awards up to 100 possible points for these criteria.

(c) The maximum possible score for each criterion is indicated in parentheses next to the heading of that criterion.

§ 195b.31 What selection criteria does the Commissioner use to evaluate Statewide activities?

(a) *Plan of operation.* (35 points)

(1) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(2) The Commissioner looks for information that shows—

(i) High quality in the design of the project;

(ii) An effective plan of management that insures proper and efficient administration of the project;

(iii) A clear description of how the objectives of the project relate to the purpose of the program;

(iv) The way the applicant plans to use its resources and personnel to achieve each objective; and

(v) A clear description of how the applicant will provide in accordance with the project's objectives equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; or

(D) The elderly.

(b) *Quality of key personnel.* (25 points)

(1) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(2) The Commissioner looks for information that shows—

(i) The qualifications of the project director (if one is to be used);

(ii) The qualifications of each of the other key personnel to be used in the project;

(iii) The time that each person referred to in paragraphs (2) (i) and (ii) plans to commit to the project; and

(iv) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(3) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training

in fields related to the objectives of the project, as well as other information that the applicant provides.

(c) *Budget and cost effectiveness.* (15 points)

(1) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(2) The Commissioner looks for information that shows—

(i) The budget for the project is adequate to support the project activities; and

(ii) Costs are reasonable in relation to the objectives of the project.

(d) *Evaluation plan.* (15 points)

(1) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project. (See EDGAR § 100a.590—Evaluation by the grantee.)

(2) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable.

(e) *Adequacy of resources.* (10 points)

(1) The Commissioner reviews each application for information that shows the applicant plans to devote adequate resources to the project.

(2) The Commissioner looks for information that shows—

(i) The facilities that the applicant plans to use are adequate; and

(ii) The equipment and supplies that the applicant plans to use are adequate.

(20 U.S.C. 3315(a)(5))

§ 195b.32 What selection criteria does the Commissioner use to evaluate all other applications?

(a) *Plan of operation.* (10 points)

(1) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(2) The Commissioner looks for information that shows—

(i) High quality in the design of the project;

(ii) An effective plan of management that insures proper and efficient administration of the project;

(iii) A clear description of how the objectives of the project relate to the purpose of the program;

(iv) The way the applicant plans to use its resources and personnel to achieve each objective;

(v) A clear description of how the applicant will provide in accordance with project's objectives equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; or

(D) The elderly.

(vi) For grants made after October 1, 1980, if the applicant is a local educational agency, a clear description of how the applicant will provide an opportunity for participation of students enrolled in non-profit private schools.

(b) *Quality of key personnel.* (7 points)

(1) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(2) The Commissioner looks for information that shows—

(i) The qualifications of the project director (if one is to be used);

(ii) The qualifications of each of the other key personnel to be used in the project;

(iii) The time that each person referred to in paragraphs (2) (i) and (ii) plans to commit to the project; and

(iv) The extent to which the applicant, as part of its non-discriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups:

(B) Women;

(C) Handicapped persons;

(D) The elderly.

(3) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training in fields related to the objectives of the project, as well as other information that the applicant provides.

(c) *Budget and cost effectiveness.* (5 points)

(1) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(2) The Commissioner looks for information that shows—

(i) The budget for the project is adequate to support the project activities; and

(ii) Costs are reasonable in relation to the objectives of the project.

(d) *Evaluation plan.* (5 points)

(1) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project. (See EDGAR § 100a.590—Evaluation by the grantee.)

(2) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and quantifiable.

(e) *Adequacy of resources.* (3 points)

(1) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(2) The Commissioner looks for information that shows—

(i) The facilities that the applicant plans to use are adequate; and

(ii) The equipment and supplies that the applicant plans to use are adequate.

(f) *Level and quality of program.* (25 points)

The Commissioner looks for information that shows the extent to which the applicant proposes a comprehensive program or provides quality courses or specialized services to develop the skills of the gifted and talented children being served, or, in the case of a professional development project, the skills of the participating professional personnel.

(g) *Selection of participants.* (15 points)

The Commissioner looks for information that shows the quality of the proposed procedures for identifying and selecting participants.

(h) *Specially trained personnel, mentors, or advisors.* (15 points)

The Commissioner looks for information that shows the extent to which the applicant will provide specially trained personnel or experienced mentors or advisors to direct or assist the participants.

(i) *Replication.* (5 points)

The Commissioner looks for information that shows the extent to which the proposed project can be adapted for use by other agencies.

(j) *Dissemination.* (5 points)

The Commissioner looks for information that shows the extent to which the applicant demonstrates a capacity to disseminate information about the project or specialized materials developed through the project.

(k) *Needs assessment.* (5 points)

The extent to which the applicant identifies the special educational needs of the gifted and talented children to be served directly or indirectly by the project.

(20 U.S.C. 3315(a) (1), (2), (3), (4), and (6))

Subpart E—[Reserved]

Subpart F—What Conditions Must Be Met by the Grantee?

§ 195b.50 Are there restrictions on the types of costs a grantee may support?

Funds may not be used for either—

(a) Construction, repair, remodeling, or alteration of facilities or sites;

(b) Stipends, transportation, or meals for participants in inservice training activities.

(20 U.S.C. 1221e-3(a)(1))

§ 195b.51 Allowable costs.

The following costs may be paid from a grant:

(a) If a project involves an internship, the payment to each participant of an allowance that is not in excess of the entering salary for professionals in the agency or institution in which the participant is placed.

(b) If the project involves a graduate fellowship, the payment of a stipend, tuition, and fees.

(c)(i) If the project involves inservice or national leadership training, the payment of tuition and fees for appropriate university or college courses.

(ii) If the project involves inservice training, the payment of reasonable costs for substitutes and for release time.

(20 U.S.C. 3315 (a)(1), (a)(2), and (a)(3))

§ 195b.52 May an applicant apply for a multiyear grant?

(a) An applicant may apply for funding for a multiyear project. However, each budget period is 12 months only. In its initial application, an applicant shall provide budget projections for each year after the first year.

(20 U.S.C. 3315)

(b) No financial assistance for a project may be provided to an LEA for a period in excess of 5 years.

(20 U.S.C. 3317(c))

(c) The applicant shall file an application for a continuation award for each year beyond the first year.

(d) EDGAR, §§ 100a.250 through 100a.253 governs multi-year projects and continuation awards.

(20 U.S.C. 3315)

§ 195b.53 Must an LEA give the public an opportunity to comment on its application?

An applicant that is an LEA shall certify that it held an open meeting in order to receive public comment on its application in accordance with § 100a.138–141 of EDGAR.

(20 U.S.C. 3386)

Note.—This Appendix will not be published in Title 45 of the Code of Federal Regulations.

Appendix—Assurances—State-administered program

The State assures the Commissioner that it will conduct the State-administered program to meet the educational needs of gifted and talented children—set out in Parts 195 and 195a—in accordance with the following provisions:

(a) Funds paid to the State educational agency (SEA) will be used for planning, developing, operating, and improving programs to meet the needs of gifted and talented children—

(1) On the State level, through administration, technical assistance, coordination, statewide planning and in-service training; and

(2) Through the award of competitive grants to local educational agencies (LEAs) for local educational projects.

(b) The programs and projects supported by funds under this part—

(1) Are designed to identify the educational needs of gifted and talented children;

(2) Are of sufficient size, scope, and quality to hold reasonable promise of making substantial progresss toward meeting those needs; and

(3) Give appropriate consideration to the special educational needs of disadvantaged gifted and talented children from low-income families.

(20 U.S.C. 3314(c)(1))

(c) The SEA will use not more than 10 percent of the funds received in any fiscal year under this part for administration, technical assistance, coordination, planning, and in-service training.

(20 U.S.C. 3314(c)(2)(A), (6))

(d) The SEA will provide to LEA's that are unable to compete—due to smaller size or lack of financial resources—technical assistance in preparing proposals and in planning, developing, and operating programs under this part.

(20 U.S.C. 3314(c)(6))

(e) The SEA will distribute to LEAs on a competitive basis 90 percent of the funds it receives for the purposes of this part.

(20 U.S.C. 3313(c)(2)(B))

(f) The SEA will make available not less than one-half of the funds available for the State administered program for LEA projects that include a component for the identification and education of disadvantaged gifted and talented children from low-income families.

(20 U.S.C. 3314(c)(3))

(g) Unless the following requirements cannot legally be met in the State—

(1) Assistance under this part will be made available to pupils and teachers in private elementary and secondary schools; and

(2) No LEA application for funds will be approved by the SEA unless it contains evidence that the LEA:

(A) Consulted with appropriate representatives of private school students; and

(B) Has taken other appropriate steps to ensure equitable participation in its project of gifted and talented children attending private elementary or secondary schools.

(20 U.S.C. 3314(c)(5) (A), (B); 3086)

Office of Education

Community Education Program

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE
Office of Education
45 CFR Parts 160c, 163, 163a, 163b, 163c, 163d
Community Education Program

AGENCY: Office of Education, HEW.
ACTION: Final regulations.

SUMMARY: The Commissioner of Education issues final regulations to govern the Community Education Program authorized under the Community Schools and Comprehensive Community Education Act.

The program provides financial assistance to SEAs, LEAs, public agencies and nonprofit private organizations, and institutions of higher education for planning, establishing, expanding, and operating community education programs. Grants will also be awarded for promoting efficient use of school facilities, effective delivery of social services and the training of personnel involved in community education projects.

EFFECTIVE DATE: These regulations are expected to take effect 45 days after they are transmitted to Congress. These regulations will be transmitted to Congress several days before they are published in the **Federal Register.** If the Congress disapproves the regulations or takes certain adjournments, the effective date is changed by statute. If you want to know the effective date of these regulations, call or write the Office of Education contact person.

FOR FURTHER INFORMATION CONTACT: Mr. Ron Castaldi, Community Education Program, 7th and D Streets SW., Room 5622, Washington, D.C. 20202. Telephone: (202) 245–0691.

SUPPLEMENTARY INFORMATION: The Commissioner of Education published in the **Federal Register** on June 29, 1979 (44 FR 38386) a notice of proposed rulemaking on the Community Education Program. On August 7, 1979 public meetings were held on the proposed regulations in all 10 Federal regional office cities. Interested persons were given 60 days to comment on these proposed regulations. During the 60 day comment period 79 individuals and organizations submitted 339 written comments and 57 people made statements or posed questions at the ten public meetings. The national Community Education Advisory Council, fulfilling its Congressional mandate, met on August 13, 1979 and made specific Council recommendations regarding the proposed regulations.

Part 160c has been deleted and the provisions of that part will now appear in the following new CFR parts: 163, 163a, 163b, 163c, and 163d.

All of these comments and recommendations have been carefully reviewed in the context of the provisions of the regulations to which they relate. A summary of the comments and responses is included in Appendix A to these regulations on a section by section basis. Changes as a result of some of these comments have been made in the final regulations. A genuine effort has been made to be fully responsive to the comments, within the constraints of the governing legislation and in keeping with the program purpose.

After the consideration of each comment, a response is included stating changes which have been made in the regulation, or the reasons why no change is considered necessary. The comments are arranged in order of the sections of the final regulations. Where the section number in the final regulations differs from that in the proposed rules, the proposed section number is also identified.

In response to suggestions by the public and other interested parties, these final regulations contain provisions that were not in the notice of proposed rulemaking. These include (1) certain provisions of the statute governing this program and (2) the general selection criteria found in the Education Division General Administrative Regulations (EDGAR §§ 100a.202 through 100a.206). The purpose of incorporating these provisions into the final regulations is to enable applicants and grantees to understand better the requirements of this program without having to refer to these additional documents.

Dated: March 17, 1980.

(Catalog of Federal Domestic Assistance No. 13.563 Community Education Program)

William L. Smith,
U.S. Commissioner of Education.

45 CFR is amended by deleting Part 160c and by adding the following Parts:

1. A new Part 163 is added as follows:

PART 163—COMMUNITY SCHOOLS AND COMPREHENSIVE COMMUNITY EDUCATION PROGRAM

Subpart A—General

Sec.

163.1 Description of the Community Education Act.
163.2 Regulations that apply to the Community Education Act.
163.3 Definitions.
163.4 What are the minimum elements of a community education program?
163.5 How are the minimum elements of a community education program applied?
163.6 Scope of eligible project activities.
163.7 Allowable costs: costs related to administration.
163.8 Limitations on costs.
163.9 Non-Federal contribution for related Federal programs.

Authority: Title VIII of the Elementary and Secondary Education Act of 1965, as amended by Pub. L. 95–561, 92 Stat. 2284, (20 U.S.C. 3281).

Subpart A—General

§ 163.1 Description of the Community Education Act.

(a) *General purpose.* The Community Education Act provides assistance to State educational agencies (SEAs), local educational agencies (LEAs), institutions of higher education, public agencies and nonprofit private organizations to support the costs of planning, establishing, expanding, and operating community education programs.

(b) *Specific purposes.* The purposes of the Act are to—

(1) Assure involvement of citizens in local and State community education efforts;

(2) Encourage the provision in school facilities of services funded under other Federal, State, and local programs;

(3) Encourage efficient use of schools and other public buildings;

(4) Develop capacity within States to support the continued growth of community education; and

(5) Encourage the coordination of community and human services and eliminate duplication and fragmentation of these services in State and local communities.

(c) *Types of projects.* The Community Education Act provides for—

(1) Grants to SEAs to administer State Community Education Programs described under the heading "Community Education—State Program";

(2) Grants to LEAs for projects described under the heading "Grants to Local Educational Agencies";

(3) Grants to or contracts with public agencies and nonprofit private organizations for profits described under the heading "Grants to Public Agencies and Nonprofit Private Organizations"; and

(4) Grants to institutions of higher education for projects described under the heading "Training Grants to Institutions of Higher Education".

(Sec. 802; 20 U.S.C. 3282)

§ 163.2 Regulations that apply to the Community Education Act.

(a) *Regulations that apply to the State formula program.* The following regulations apply to grants and

subgrants under the State Community Education Program:

(1) The Education Division General Administrative Regulations (EDGAR) in Part 100b (State-Administered Programs) and Part 100c (Definitions).

(2) The regulations in Subpart A (General) and under the heading, "Community Education—State Program" in this Part.

(b) *Regulations that apply to direct grant programs.* The following regulations apply to grants under the Community Education Act other than grants and subgrants under the State Community Education Program:

(1) The Education Division General Administrative Regulations (EDGAR) in Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(2) The regulations in this Part, as applicable, except those for the Community Education—State Program.

(c) *Procurement contracts.* The regulations in this Part do not apply to procurement contracts under the Community Education Act. These contracts are subject to—

(1) Federal and HEW procurement regulations in 41 CFR Chapters 1 and 3; and

(2) Requirements and criteria in particular requests for proposals published in Commerce Business Daily.

(Sec. 801; 20 U.S.C. 3281)

§ 163.3 Definitions.

(a) *Definitions in EDGAR.* The following terms used in this Part are defined in Part 100c:

Applicant
Application
Commissioner
Elementary school
Grant
Institution of higher education
Local educational agency (LEA)
Nonprofit
Nonpublic
Private
Project
Public agency
Secondary school
State
State educational agency (SEA)
Subgrant

(b) *Program-specific definitions.* The following definitions apply specifically to this Part:

"Act" or "Community Education Act" means the Community Schools and Comprehensive Community Education Act of 1978, Title VIII of the Elementary and Secondary Education Act of 1965, as amended by the Education Amendments of 1978 (Pub. L. 95–561).

"Program" means a community education program that meets each of the minimum elements in § 163.4.

"Public facility" means a facility owned by any department or branch of a State, county, or municipal government.

"State Community Education Program" refers to the State formula program funded under Section 808 of the Act.

(Sec. 8012; 20 U.S.C. 3281)

§ 163.4 What are the minimum elements of a community education program?

In order to be considered for a grant under the Act, each community education program must have the following minimum elements:

(a) *Role of the local educational agency.*

(1) An LEA shall be involved directly and substantially in administering and operating the program.

(2) However, an LEA is not required to be solely responsible for administering and operating the program.

(b) *Community served.* The program shall serve an identified community. The community shall include, but need not be limited to, the attendance area for the regular instructional program of the schools of the LEA involved in administering and operating the program.

(c) *Community center.*

(1) *Facilities.*

(i) A public facility—such as a public elementary or secondary school or a public community college or junior college center—shall serve as a community center.

(ii) The community center may use satellite or mobile facilities to provide program activities and services. The satellite or mobile facilities may be nonpublic facilities that are made available for use by the public.

(2) *Scope of services and their relationship to regular instructional program.* To be a community center, the public facility shall offer educational, recreational, health care, cultural, and other related community and human services that—

(i) To the extent possible, are broad in their scope and nature. Program services may not be restricted to one or a limited number of program areas such as recreation or adult education, or to one or a limited number of groups of persons in the community;

(ii) To the extent possible, reinforce the regular instructional program of the elementary or secondary school(s) of the LEA involved in administering and operating the program; and

(iii) Extend the services offered by the public facility and the uses made of it by serving more groups or persons, lengthening the hours of service, and broadening the scope and nature of services.

(d) *Community needs.* The program shall include systematic and effective procedures—

(1) For identifying and documenting on a continuing basis the needs, interests, and concerns of the community served with respect to community education activities; and

(2) For responding to those needs, interests, and concerns.

(e) *Community resources and interagency cooperative arrangements.*

(1) The program shall identify and use educational, cultural, recreational, and other existing and planned resources located outside of the school or other public facility—including, but not limited to, services of volunteers—to enhance the size and quality of the program.

(2) The program shall be designed to encourage cooperation among public and private agencies to—

(i) Make maximum use of existing talents and resources; and

(ii) Avoid, to the extent feasible, duplication of services.

(3) An LEA that plans, directs, or operates a program under this part shall show evidence of cooperation between the LEA and any other public agency conducting a similar program or activity.

(f) *Program clients.* The program shall be designed to serve—

(1) All age groups in the community, including preschool children, children and youth, adults, and senior citizens; and

(2) Groups within the community with special needs for community education activities, such as persons of limited English-speaking ability, mentally or physically handicapped persons, or other groups of persons.

(g) *Community involvement in governance.*

(1) In order to meet the needs, interests, and concerns of the population to be served, the program shall be planned and operated in cooperation with the community.

(2) The program shall provide for active and continuous involvement on an advisory basis of—

(i) Individuals, institutions and groups representative of the community, and

(ii) Parents of school children—in planning, development and implementation of programs.

(Secs. 802, 803; 20 U.S.C. 3282, 3283)

§ 163.5 How are the minimum elements of a community education program applied?

(a) Each community education program shall—

(1) Already meet all of the minimum elements specified in § 163.4; or

(2) Be able to meet all of these minimum elements with the assistance provided under the project.

(b) The minimum elements apply to each community education program assisted under the project rather than to the project as a whole. However, the overall local project designed to plan, establish, expand, or operate these programs may be administered in a central office of the LEA.

(Secs. 802, 803; 20 U.S.C. 3282, 3283)

§ 163.6 Scope of eligible project activities.

(a) *General rule.* A community education program may include some or all of the types of activities and services specified in Section 807 of the Act including—

(1) Educational, cultural, recreational, health care, and other related community and human services, whether or not in the form of formal courses;

(2) Activities making the school or other public facilities and equipment available for use by public agencies and private nonprofit organizations, individuals and groups in the community;

(3) Preventive health, dental care, and nutrition;

(4) Special programs for particular target groups, such as older persons;

(5) Services designed to eliminate the high incidence of suspension, expulsion, and other disciplinary action involving chronically maladjusted students;

(6) Services for students who withdraw from school before completing secondary school requirements, regardless of age or time of withdrawal;

(7) Services for mentally or physically handicapped individuals or other health impaired individuals;

(8) Rehabilitation purposes for juvenile and adult offenders;

(9) Parent education for care, development, and education of handicapped children;

(10) Training programs in institutions of higher education for the purpose of assisting full-time training for personnel who are engaged in or who intend to engage in community education programs;

(11) Specialized high schools or schools within schools organized around particular interest such as the arts, or using flexible scheduling and summer learning programs to take into account special needs of students, or creating interrelationships between secondary schools and such community resources as museums, cultural centers, and institutions of higher education;

(12) Development of means to use technology to improve the relationship between the school, the home, and community resources such as libraries, museums, and cultural centers;

(13) Early childhood and family education grants for programs operated by State and local educational agencies and public and private, nonprofit agencies or organizations for children below age six, which may include identification of potential barriers to learning, education of parents in child development, family services, education for parenthood programs and referral services; and

(14) Leisure education.

(Sec. 807, 20 U.S.C. 3287)

(b) *Federal share.* The project to which the Federal share is applied includes activities of planning, establishing, expanding, and operating a community education program that meets or is making progress toward meeting the requirements in § 163.4.

§ 163.7 Allowable costs: costs related to administration.

Allowable costs of a project include leadership, coordinating, administrative, and technical assistance activities involved in planning, establishing, expanding, or operating one or more community education programs. These activities may include but are not limited to—

(a) Employing a community education administrator and the administrator's staff;

(b) Training for the administrator and appropriate members of the administrator's staff, the grantee's chief executive officer and appropriate members of that staff;

(c) Scheduling services and activities;

(d) Assessing community needs and interests;

(e) Recruiting program participants and administrative and instructional staff;

(f) Disseminating information to the community and to other interested persons and organizations;

(g) Obtaining community participation in planning and carrying out the program;

(h) Organizing and training community education task forces or advisory councils and assisting them to plan and carry out their activities;

(i) Budgeting and managing the program;

(j) Identifying and obtaining the participation of other community service providers;

(k) Planning and developing the program;

(l) Evaluating the program, including any outside evaluation of the program;

(m) Coordinating the community education program activities and services throughout the community;

(n) Obtaining technical assistance to carry out these activities; and

(o) Providing training and technical assistance to other projects.

§ 163.8 Limitations on costs.

(a) The following costs are allowable only if the conditions in (b) are met:

(1) Instructional salaries, materials, and equipment; and

(2) Other expenses directly related to the provision of specific community education program activities and services—such as course offerings and transportation for participants.

(b) These costs are allowed only if—

(1) Other public or private resources are unavailable;

(2) The charging of enrollment fees to program participants to cover these costs is not feasible or would create an excessive financial burden on potential program participants; and

(3) The proposed costs are reasonable in terms of the contributions which they will make to the purposes of the community education program.

(Secs. 803, 807; 20 U.S.C. 3283, 3287)

§ 163.9 Non-Federal contribution for related Federal programs.

(a) An SEA or LEA that receives funds under the Act for a community education program may use the fair value of the program as part of or all of the non-Federal contribution that is required under any program listed in paragraph (b) of this section, if both of the following conditions are met:

(1) A portion of any of those programs listed in paragraph (b) of this section is implemented in a building in which a community education program assisted under this Act is conducted; and

(2) There is a necessary and direct relation between the portion of the program in paragraph (b) of this section and any element of the community education program assisted under this Act.

(b) Programs referred to in paragraph (a) of this section include those under:

(1) The Public Health Service Act;

(2) The Headstart-Follow Through Act;

(3) Title XX of the Social Security Act, relating to child care, day care, and other services;

(4) The youth employment demonstration programs authorized under the Comprehensive Employment and Training Act;

(5) The Older Americans Act of 1965;

(6) The Vocational Education Act of 1963;

(7) The Adult Education Act;

(8) Titles I and X of the Higher Education Act of 1965; relating to community services, continuing

education programs, and community college programs;

(9) Titles I through IV and Titles VI through IX of the Economic Opportunity Act of 1964 (also known as the Community Services Act of 1974);

(10) The Legal Services Corporation Act;

(11) Safe Streets and Omnibus Crime Control Act of 1968;

(12) Science education programs assisted under the National Science Foundation Act of 1950;

(13) The Rehabilitation Act of 1973; and

(14) Such other community service programs as the Assistant Secretary of Education deems appropriate.

(Section 806; 20 U.S.C. 3286)

2. A new Part 163a is added as follows:

PART 163a—COMMUNITY EDUCATION—STATE PROGRAM

Subpart A—General

Sec.

163a.1 What general provisions apply to this program?

Subpart B—What Kinds of Activities Are Eligible for Funding Under the State Community Education Program?

163a.10 Purpose of State grants.
163a.11 Eligible activities.
163a.12 Duration of grants.

Subpart C—How Does a State Apply for a Grant?

163a.20 Documents a State must submit to receive a grant.
163a.21 Assistance to community education programs.
163a.22 Use of funds.
163a.23 Expanding community education programs.
163a.24 Distribution of funds.
163a.25 Evaluation procedures.
163a.26 Other State plan provisions.
163a.27 Ten-year plan.

Authority: Title VIII of the Elementary and Secondary Education Act of 1965, as amended by Pub. L. 95-561, 92 Stat. 2284 (20 U.S.C. 3281).

Subpart A—General

§ 163a.1 What general provisions apply to this program?

The provisions of Subpart A of 45 CFR Part 163, §§ 163.1 through 163.9, apply to the State Community Education Program under this part.

Subpart B—What Kinds of Activities Are Eligible for Funding Under the State Community Education Program?

§ 163a.10 Purpose of State grants.

The general purpose of the State Community Education Program is to assure capacity building in the State to support continued development of community education and attain greater State responsibility for this development within the five-year period of authorization of the Act. Specific purposes of the State Community Education Program are described in 45 CFR 163.1 (Description of the Community Education Act).

(Sec. 808, 20 U.S.C. 3288)

§ 163a.11 Eligible activities.

(a) The Commissioner funds SEAs—

(1) To provide financial assistance, through subgrants, to LEAs to plan, establish expand, and operate community education programs;

(2) To administer a State plan governing the community education program;

(3) To provide technical assistance, coordination, and information services; and

(4) To carry out dissemination activities, including conferences, among community education programs in the State.

(b) Any State may apply for a grant to support community education programs that meet or are making progress toward meeting each of the minimum elements in 45 CFR 163.4. This includes the development of new community education programs that will meet these minimum elements.

(Sec. 804; 20 U.S.C. 3284)

§ 163a.12 Duration of grants.

Each State plan will be effective for a period of three fiscal years. The budget period is 12 months.

(Sec. 804; 20 U.S.C. 3284)

Subpart C—How Does a State Apply for a Grant?

§ 163a.20 Documents a State must submit to receive a grant.

To receive a grant—a State through its SEA shall submit to—or have on file with, the Commissioner—

(a) A general application that complies with the requirements—including the assurances—of section 435 (single State application) of the General Education Provisions Act; and

(b) A State plan that complies with the requirements in 45 CFR 163a.21 through 163a.27. The State plan need not be submitted more often than once every three years. EDGAR establishes the rules for this in 45 CFR 100b.103.

(Sec. 808(a); 20 U.S.C. 3288(a))

§ 163a.21 Assistance to community education programs.

In its plan a State shall provide information to document that—

(a) Specific LEA community education programs that are assisted with funds distributed by the State under the State Community Education Program meet or will make substantial progress toward meeting the minimum elements in § 163.4; and

(b) Funds received by the State under the State Community Education Program and reserved for administrative activities—including technical assistance to LEAs—will relate to the development of community education programs that meet these minimum elements.

(Secs. 803, 808(a)(4)-(7); 20 U.S.C. 3283, 3288(a)(4)-(7))

§ 163a.22 Use of funds.

(a) In its plan a State shall explain procedures to ensure that funds received under the State Community Education Program will be used only to pay the Federal share of the eligible costs described in 45 CFR 163.6 (Scope of eligible project activities). Sufficient information must be provided with respect to—

(1) Activities carried out at the State level by the SEA; and

(2) Projects carried out locally with funds distributed by the State among LEAs within the State.

(Secs. 803, 804, 807; 20 U.S.C. 3283, 3284, 3287)

§ 163a.23 Expanding community education programs.

(a) *General.* In its plan a State shall furnish evidence that, to the extent practicable, funds under the State Community Education Program will be used to expand community education programs of the schools of LEAs within the State.

(b) *Expansion activities.* Expanding community education programs includes—

(1) Planning and establishing new community education programs; and

(2) Enlarging the scope of existing community education programs by—

(i) Increasing the number and types of services offered in these programs in response to community needs and interests;

(ii) Increasing the number of community residents, agencies, and organizations that participate in planning and implementing the programs, and improving the quality of that participation; or

(iii) Increasing the time during which public facilities are used in the programs.

(c) *State-wide assessment.* To satisfy paragraph (a) of this section, the State in its plan shall—

(1) Furnish evidence that the SEA has carried out, and describe the manner in

which it has carried out, an assessment to identify—

(i) Existing and planned community education programs throughout the State;

(ii) The locations with the strongest interest in and need for new community education programs;

(iii) Resources available to plan, establish, expand or operate community education programs throughout the State; and

(2) Describe the results of the assessment and the standards for selecting community education programs for funding based on this assessment.

(Sec. 808(a)(1); 20 U.S.C. 3288(a)(1))

§ 163a.24 Distribution of funds.

(a) *Distribution.* In its plan a State shall describe procedures for distributing among LEAs within the State 80 percent of the funds it receives for community education programs.

(b) *Standards.* The State plan must describe the standards and procedures for distributing these funds to LEAs—

(1) Considering the size of the population to be served by the community education programs of each LEA; and

(2) To achieve—

(i) Expansion of community education programs;

(ii) Assistance to existing or proposed community education programs of the highest quality; and

(iii) The most effective use of resources to meet community education needs throughout the State.

(Sec. 808(a)(3); 20 U.S.C. 3288(a)(3))

§ 163a.25 Evaluation procedures.

(a) In its plan a State shall describe procedures to evaluate annually the effectiveness of—

(1) Community education programs that receive financial and technical assistance under the State Community Education Program; and

(2) If possible, LEA programs receiving financial assistance under Sec. 809 of the Act.

(b) The State plan must describe—

(1) The specific criteria to be used in assessing the effectiveness of community education programs;

(2) The evaluation instruments to be used, or how they will be developed or selected; and

(3) The results of the most recently completed evaluation.

(Sec. 808(a)(11); 20 U.S.C. 3288(a)(11))

§ 163a.26 Other State plan provisions.

In its plan a State shall assure that—

(a) *State administration.* The State will meet the requirements in Section 808(a)(10) of the Act with regard to the reservation of 15 percent of the funds under the State allotment for the specified administrative activities of the SEA;

(b) *Remaining funds.* The SEA will use the remaining 5 percent of the funds under the State allotment—after awarding 80 percent to LEAs and reserving 15 percent under paragraph (a) of this section—to train and provide technical assistance to SEA personnel, other State agencies and State community education advisory councils for the purpose of enhancing State community education activities.

(c) *Cost-sharing.* The State will meet the requirements of Section 808(a)(9) of the Act concerning payment from non-Federal sources for the remaining costs of carrying out the State plan.

(Sec. 808(a)(9), (10); 20 U.S.C. 3288(a)(9), (10))

§ 163a.27 Ten-year plan.

(a) *General.* In its plan a State shall assure that, after consulting with appropriate State agencies, it will develop a ten-year plan for coordinating community education programs with all relevant community services, including but not limited to State and local recreation authorities and associations.

(b) *Specific information in the State plan.* The State plan must include the following information on the ten-year coordination plan:

(1) A specific timeline for its development, adoption, and implementation; and

(2) The agencies—including their relationship with the SEA—with which the State will consult in developing and carrying out the plan and the basis for including those agencies.

(c) *Completion, implementation.* The State shall complete its ten-year coordination plan no later than two years after the State receives its first grant under the State Community Education Program.

(Sec. 808(a)(2); 20 U.S.C. 3288(a)(2))

3. A new Part 163b is added as follows:

PART 163b—COMMUNITY EDUCATION—GRANTS TO LOCAL EDUCATIONAL AGENCIES

Subpart A—General

Sec.

163b.1 What general provisions apply to this program?

Subpart B—What Kinds of Projects Does the Office of Education Fund Under This Program?

163b.10 Eligible projects.
163b.11 Purpose of projects.
163b.12 Project period.

Subpart C—How Does an Applicant Apply for a Grant?

163b.20 Appication requirements.
163b.21 State review of local educational agency applications.

Subpart D—How Is a Grant Made?

163b.30 How the Commissioner evaluates an application from a local educational agency.
163b.31 Criteria for evaluating applications.

Subpart E—What Conditions Must be Met by a Grantee?

163b.40 Cost sharing.

Authority: Title VIII of the Elementary and Secondary Education Act of 1965, as amended by Pub. L. 95-561, 92 Stat. 2284 (20 U.S.C. 3281).

Subpart A—General

§ 163b.1 What general provisions apply to this program?

The provisions of Subpart A of 45 CFR Part 163, §§ 163.1 through 163.9, apply to the Community Education—Local Educational Agencies program under this part.

Subpart B—What Kinds of Projects Does the Office of Education Fund Under This Program?

§ 163b.10 Eligible projects.

The Commissioner awards direct grants to LEAs for the Federal share of the costs of planning, establishing, expanding, and operating community education programs.

(Sec. 809; 20 U.S.C. 3289)

§ 163b.11 Purpose of projects.

(a) *General purpose.* The Commissioner funds LEA projects that have the greatest potential for national impact. These projects must show promise for advancing community education by developing exemplary approaches, methods, or information that could be replicated by other LEAs throughout the Nation.

(b) *Eligible activities.* A project shall include the activities described under 45 CFR 163.6 (Scope of eligible project activities).

(Sec. 807, 809; 20 U.S.C. 3287, 3289)

§ 163b.12 Project period.

Approval of a project for more than a year and the award of continuation grants within the project period are covered in 45 CFR 100a.250–100a.254 of EDGAR.

(Sec. 809; 20 U.S.C. 3289)

Subpart C—How Does an Applicant Apply for a Grant?

§ 163b.20 Application requirements.

(a) The Commissioner considers making a grant to an LEA only if it submits an application meeting the requirements under 45 CFR Part 100a, Subpart C of EDGAR and any additional requirements that may be specified in the annual notice inviting applications.

(Sec. 809; 20 U.S.C. 3289)

(b) An application from an LEA must contain a certification that the LEA has held an open meeting regarding the contents of its application, to comply with the requirements of EDGAR, 45 CFR 100a.138–100a.141.

(20 U.S.C. 3386; 887(e))

§ 163b.21 State review of local educational agency applications.

(a) The Commissioner does not approve an application submitted by an LEA unless the SEA of the State in which that LEA is located has been given an opportunity to review and comment on the application.

(b) The procedures for this review and comment are described in 45 CFR 100a.155 through 100a.159 of EDGAR.

(Sec. 809(b); 20 U.S.C. 3289(b))

Subpart D—How Is a Grant Made?

§ 163b.30 How the Commissioner evaluates an application from a local educational agency.

(a) The Commissioner evaluates an application on the basis of the criteria in § 163b.31.

(b) The Commissioner awards up to 100 possible points for these criteria.

(c) The maximum possible score for each complete criterion is indicated in parentheses at the end of that criterion.

(d) Among projects judged to be relatively equal in quality (within 15 points), the Commissioner may select a project to—

(1) Ensure that a diversity of approaches are funded to meet a variety of community education needs throughout the country; and

(2) Avoid duplicating the activities of a currently funded project.

(Sec. 809, 20 U.S.C. 3289)

§ 163b.31 Criteria for evaluating applications.

The Commissioner evaluates an application from an LEA on the basis of the criteria in this section. The maximum possible score for all criteria is 100 points. The maximum possible score for each complete criterion is indicated in parentheses at the end of that criterion.

(a) *Plan of operation.* (1) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(2) The Commissioner looks for information that shows—

(i) High quality in the design of the project;

(ii) An effective plan of management that insures proper and efficient administration of the project;

(iii) A clear description of how the objectives of the project relate to the purpose of the program;

(iv) The way the applicant plans to use its resources and personnel to achieve each objective; and

(v) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly. (10 points)

(b) *Quality of key personnel.* (1) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(2) The Commissioner looks for information that shows—

(i) The qualifications of the project director (if one is to be used);

(ii) The qualifications of each of the other key personnel to be used in the project;

(iii) The time that each person referred to in paragraphs (b)(2) (i) and (ii) of this section plans to commit to the project; and

(iv) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as members of racial or ethnic minority groups, women, handicapped persons, and the elderly.

(3) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides. (7 points)

(c) *Budget and cost effectiveness.* (1) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(2) The Commissioner looks for information that shows—

(i) The budget for the project is adequate to support the project activities; and

(ii) Costs are reasonable in relation to the objectives of the project. (5 points)

(d) *Evaluation plan.* (1) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project. (See 45 CFR 100a.590 of EDGAR—Evaluation by the grantee.)

(2) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable. (5 points)

(e) *Adequacy of resources.* (1) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(2) The Commissioner looks for information that shows—

(i) The facilities that the applicant plans to use are adequate; and

(ii) The equipment and supplies that the applicant plans to use are adequate. (3 points)

(f) *Quality of community education programs.* The quality of the existing or planned community education programs involved in the project in meeting all the minimum elements in § 163.4. In applying this criterion, the Commissioner focuses particularly on—

(1) *School involvement.* (i) The extent to which the local boards of education are involved in program administration and their commitment to the support and improvement of the program;

(ii) Mutual reinforcement, to the extent feasible, between the regular instructional program of the school and community education activities and services; and

(iii) Maximum use of existing school facilities;

(2) *Needs and Services.* (i) The extent to which the program provides services and activities that respond to identified local needs; and

(ii) The extent to which the applicant recognizes and resolves geographic and other constraints to potential participation in the program;

(3) *Agency coordination.* The adequacy of arrangements to—

(i) Achieve maximum coordination and cooperation among public and private agencies;

(ii) Use existing resources—including arrangements to link the program with programs listed in Section 806 of the Act; and

(iii) Avoid duplication in service delivery; and

(4) *Community participation.* The extent of community participation in all

aspects of the program, including needs and resource assessment, application preparation, and implementing and evaluating the program. (30 points)

(g) *Potential for advancing community education.* The project's potential for advancing community education nationally. In applying this criterion, the Commissioner considers the quality of the project in developing any one or a combination of the following:

(1) *Citizen involvement.* The degree to which the project develops exemplary methods of citizen involvement in the governance of a community education program.

(2) *Use of resources.* The degree to which the project develops exemplary methods for the efficient and effective use of human and material resources.

(3) *Incorporating community education.* The degree to which the project develops exemplary methods of incorporating community education as an integral part of an LEA and building long-term support for community education. (30 points)

(h) *Evaluation and potential for replication.* The degree to which the project's results will be evaluated and the degree to which the project is replicable. In applying this criterion, the Commissioner considers—

(1) Whether there is a proposed plan for having the project evaluated;

(2) The proposed use of quantifiable data to measure the extent to which the project achieves its objectives; and

(3) Provisions to develop from the project usable information—including characteristics, practices, procedures, and materials—capable of being disseminated to a broad national audience or to a special client population. (10 points)

(Sec. 809; 20 U.S.C. 3289)

Subpart E—What Conditions Must be Met by a Grantee?

§ 163b.40 Cost sharing.

(a) An LEA that receives a grant shall meet the cost sharing requirement in Section 815(b) of the Act.

(b) The Federal share of the cost of a project is 90 percent for fiscal years 1979 and 1980, and 80 percent for fiscal years 1981, 1982, and 1983.

(c) Cost sharing is subject to the requirement in 45 CFR Part 74, Subpart G.

(Sec. 815(b); 20 U.S.C. 3295(b))

4. A new Part 163c is added as follows:

PART 163c—COMMUNITY EDUCATION—GRANTS TO PUBLIC AGENCIES AND NONPROFIT PRIVATE ORGANIZATIONS

Subpart A—General

Sec.

163c.1 What general provisions apply to this program?

Subpart B—What Kinds of Projects Does the Commissioner Assist Under This Program?

163c.10 Who is eligible to apply under this program?
163c.11 What kinds of projects does the Commissioner assist?
163c.12 State educational agency projects.
163c.13 Projects of other public agencies and nonprofit private organizations.
163c.14 Project period.

Subpart C—How Does an Applicant Apply for a Grant?

163c.20 Application requirements.

Subpart D—How Is a Grant Made?

163c.30 How the Commissioner judges applications from public agencies and nonprofit private organizations.
163c.31 Criteria for evaluating applications from State educational agencies.
163c.32 Criteria for evaluating applications from other public agencies and nonprofit private organizations.

Subpart E—What Conditions Must be Met by a Grantee?

163c.40 Cost sharing.

Authority: Title VIII of the Elementary and Secondary Education Act of 1965, as amended by Pub. L. 95-561, 92 Stat. 2284 (20 U.S.C. 3281).

Subpart A—General

§ 163c.1 What general provisions apply to this program?

The provisions of Subpart A of 45 CFR Part 163, §§ 163.1 through 163.9, apply to the Community Education—Grants to Public Agencies and Nonprofit Private Organizations program under this part.

Subpart B—What Kinds of Projects Does the Commissioner Assist Under This Program?

§ 163c.10 Who is eligible to apply under this program?

The Commissioner may make grants to or contracts with public agencies—including a separate grant category to SEAs—and nonprofit private organizations.

§ 163c.11 What kinds of projects does the Commissioner assist?

(a) *Purpose of projects.* The Commissioner makes grants to encourage the use of school facilities and other public facilities for the efficient and coordinated delivery of community services in community education programs or in other activities described in Section 806(b) of the Act, and 45 CFR 163.7(b) of the regulations.

(b) *Notice of funding reservations.* The Commissioner publishes a notice periodically in the **Federal Register** inviting applications for the program and notifying prospective grant applicants of—

(1) Activities to be carried out by contracts; and

(2) The amount of funds reserved for grants to SEAs and to other public agencies and nonprofit private organizations.

(c) *Non-duplication.* The Commissioner does not award a grant to support activities that duplicate any activities that the Commissioner funds through a contract under the program. For example, if the Commissioner awards a contract to involve parks and recreation agencies in program activities, the Commissioner does not award a grant for these activities.

(Sec. 810; 20 U.S.C. 3290)

§ 163c.12 State educational agency projects.

Grants to SEAs are designed to achieve the purposes in § 163.1(b). A grant supports an SEA in—

(a) Developing and carrying out State-level planning and interagency coordination and statewide dissemination; and

(b) Providing developmental and technical assistance to one or more specific community education programs administered by an LEA or to one or more coordinated programs under Section 806(b) of the Act.

(Sec. 810; 20 U.S.C. 3290)

§ 163c.13 Projects of other public agencies and nonprofit private organizations.

(a) *General.* The Commissioner awards grants to public agencies other than SEAs and to nonprofit private organizations to encourage the use of school facilities and other public facilities for—

(1) Community education programs; and

(2) The improvement and development of exemplary procedures to coordinate delivery of community and human services in these facilities.

(b) *National significance.* The Commissioner awards grants only to projects that have the potential of furthering community education purposes nationally. A project may have this potential because either—

(1) The activities under the project are national in scope; or

(2) The project involves a particularly innovative or exemplary idea or

approach that is worthy of being replicated at other sites or by other organizations throughout the Nation.

(c) *Specific types of projects.* Eligible activities include coordination, sharing of information, technical assistance, and training. A project may focus on—

(1) Training a particular national, regional, or statewide group interested in community education or in the coordinated delivery of community and human services in schools and other public facilities;

(2) Developing working relationships between two or more of these groups; or

(3) Developing, testing, and disseminating exemplary models of local activities to promote improved coordination of community and human services in schools and other public facilities.

(Sec. 810; 20 U.S.C. 3290)

(d) *Outcomes.* Each proposed project shall provide for—

(1) *Evaluation.* An evaluation of the effectiveness of the project, including evaluative reports and products that describe the project, its results, and an analysis of its impact on community education.

(2) *Information.* The development of information that is useful in training others or for distribution to interested persons; and

(3) *Dissemination.* Methods to distribute nationally to all interested parties materials developed as a result of the project.

(Sec. 810; 20 U.S.C. 3290)

§ 163c.14 Project period.

The provisions in 45 CFR 163b.12 concerning project duration apply to grants to SEAs, other public agencies, or nonprofit private organizations.

(Sec. 810; 20 U.S.C. 3290)

Subpart C—How Does an Applicant Apply for a Grant?

§ 163c.20 Application requirements.

The application requirements described in § 163b.20 apply to this program.

(Sec. 810; 20 U.S.C. 3290)

Subpart D—How Is a Grant Made?

§ 163c.30 How the Commissioner judges applications from public agencies and nonprofit private organizations.

(a) The Commissioner evaluates an application on the basis of the criteria in §§ 163c.31 or 163c.32.

(b) The Commissioner awards up to 100 possible points for these criteria.

(c)The maximum possible score for each complete criterion is indicated in parentheses at the end of that criterion.

(d) Among projects judged to be relatively equal in quality (within 15 points), the Commissioner may select a project to—

(1) Ensure that a diversity of approaches are funded to meet a variety of community education needs throughout the country; and

(2) Avoid duplicating the activities of a currently funded project.

(20 U.S.C. 3289)

§ 163c.31 Criteria for evaluating applications from State educational agencies.

The Commissioner evaluates an application from an SEA on the basis of the criteria in this section. The maximum possible score for all criteria is 100 points. The maximum possible score for each complete criterion is indicated in parentheses at the end of that criterion.

(a) *Plan of operation.*

(1) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(2) The Commissioner looks for information that shows—

(i) High quality in the design of the project;

(ii) An effective plan of management that insures proper and efficient administration of the project;

(iii) A clear description of how the objectives of the project relate to the purpose of the program;

(iv) The way the applicant plans to use its resources and personnel to achieve each objective; and

(v) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly. (10 points)

(b) *Quality of key personnel.* (1) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(2) The Commissioner looks for information that shows—

(i) The qualifications of the project director (if one is to be used);

(ii) The qualifications of each of the other key personnel to be used in the project;

(iii) The time that each person referred to in paragraphs (b)(2) (i) and (ii) of this section plans to commit to the project; and

(iv) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as members of racial or ethnic minority groups, women, handicapped persons, and the elderly.

(3) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides. (7 points)

(c) *Budget and cost effectiveness.* (1) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(2) The Commissioner looks for information that shows—

(i) The budget for the project is adequate to support the project activities; and

(ii) Costs are reasonable in relation to the objectives of the project. (5 points)

(d) *Evaluation plan.* (1) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project. (See 45 CFR 100a.590 of EDGAR—Evaluation by the grantee.)

(2) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable. (5 points)

(e) *Adequacy of resources.* (1) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(2) The Commissioner looks for information that shows—

(i) The facilities that the applicant plans to use are adequate; and

(ii) The equipment and supplies that the applicant plans to use are adequate. (3 points)

(f) *Quality of State-level activities.* The quality of State-level activities to develop community education. In applying this criterion, the Commissioner considers the degree to which the SEA has developed and will carry out—

(1) An assessment of State-level agencies and organizations providing programs and services related to community education and of resources available to the SEA in developing its community education activities;

(2) Provisions for participation by State agencies, organizations, personnel,

and the public in the development of the SEA application and in the implementation and evaluation of the project;

(3) A plan for cooperation among existing resources of State agencies, public and private organizations, and State associations providing community and human services related to community education;

(4) A plan for coordination with institutions of higher education for training of—SEA community education personnel, personnel of LEAs assisted by the State project, and personnel of federally funded LEA community education projects in the State;

(5) Activities to foster the inclusion of programs listed in Section 806 of the Act (45 CFR 163.7 of the regulations) in community education programs; and

(6) Activities to create greater awareness of community education among State agencies, organizations, and associations. (30 points)

(g) *Quality of technical assistance.* The overall quality of the plan for assisting local community education programs. In applying this criterion, the Commissioner considers the degree to which the SEA has planned for and will carry out—

(1) A needs assessment of LEAs;

(2) Activities to assist LEAs in developing community education programs, including—

(i) Assisting LEAs to meet the minimum elements of a community education program;

(ii) Helping LEAs plan and develop applications for assistance under the Act;

(iii) Helping to establish and coordinate community education task forces and advisory bodies;

(iv) Providing for the training of local directors of community education programs and their staffs and community members;

(v) Providing assistance in the dissemination of information about community education programs;

(vi) Helping community education programs to develop and conduct evaluations; and

(vii) Helping LEAs bring their community education programs into conformity with any State plan for community education.

(3) A process for involving LEAs, institutions of higher education, and appropriate individuals and groups in the preparation and operation of the technical assistance program. (30 points)

(d) *National impact.* The project's potential usefulness to other SEAs and potential for national impact on the advancement of community education. (10 points)

(Sec. 810; 20 U.S.C. 3290)

§ 163c.32 Criteria for evaluating applications from other public agencies and nonprofit private organizations.

The Commissioner evaluates an application from other public agencies and nonprofit organizations on the basis of the criteria in this section. The maximum possible score for all criteria is 100 points. The maximum possible score for each complete criterion is indicated in parentheses at the end of that criterion.

(a) *Plan of operation.* (1) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(2) The Commissioner looks for information that shows—

(i) High quality in the design of the project;

(ii) An effective plan of management that insures proper and efficient administration of the project;

(iii) A clear description of how the objectives of the project relate to the purpose of the program;

(iv) The way the applicant plans to use its resources and personnel to achieve each objective; and

(v) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly. (10 points)

(b) *Quality of key personnel.* (1) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(2) The Commissioner looks for information that shows—

(i) The qualifications of the project director (if one is to be used);

(ii) The qualifications of each of the other key personnel to be used in the project;

(iii) The time that each person referred to in paragraphs (b)(2) (i) and (ii) of this section plans to commit to the project; and

(iv) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as members of racial or ethnic minority groups, women, handicapped persons, and the elderly.

(3) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides. (7 points)

(c) *Budget and cost effectiveness.* (1) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(2) The Commissioner looks for information that shows—

(i) The budget for the project is adequate to support the project activities; and

(ii) Costs are reasonable in relation to the objectives of the project. (5 points)

(d) *Evaluation plan.* (1) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project. (See 45 CFR 100a.590 of EDGAR—Evaluation by the Grantee.)

(2) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable. (5 points)

(e) *Adequacy of resources.* (1) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(2) The Commissioner looks for information that shows—

(i) The facilities that the applicant plans to use are adequate; and

(ii) The equipment and supplies that the applicant plans to use are adequate. (3 points)

(f) *Client involvement.* (1) The extent to which the applicant plans to involve potential clients of the project in the design and operation of the project; and

(2) Provisions to assure that the applicant has entered or will enter into contractual arrangements or other suitable forms of agreement with the LEA involved in the proposal. (20 points)

(g) *Potential for advancing community education.* The degree to which the proposed project has the potential for advancing community education nationally. In applying this criterion, the Commissioner considers the degree to which the project—

(1) Includes unique or diverse methods of fostering interagency cooperative methods;

(2) Provides a plan to affect a given audience or group nationally; or

(3) Provides different methods of developing community education permanence within the applicant agency or organization. (30 points)

(h) *Dissemination.* The degree to which the applicant plans to evaluate the project results and disseminate them

to a national audience. In applying this criterion the Commissioner considers—

(1) The applicant's proposed plan for developing an evaluation of the project;

(2) The applicant's proposed plan to develop usable information, including characteristics, practices, procedures, and materials, resulting from the project; and

(3) The applicant's provisions for disseminating the project results to a broad audience or to special client groups that could benefit from knowledge or project results. (20 points)

(Sec. 810; 20 U.S.C. 3290)

Subpart E—What Conditions Must be Met by a Grantee?

§ 163c.40 Cost sharing.

(a) An SEA, other public agency, or nonprofit private organization that receives a grant shall meet the cost sharing requirement in Section 815(c) of the Act.

(b) The Federal share of the cost of a project is 80 percent for fiscal years 1979 and 1980 and 90 percent for fiscal years 1981, 1982, and 1983.

(c) Cost sharing is subject to the requirement in 45 CFR Part 74, Subpart G.

(Sec. 815(c), 20 U.S.C. 3295(c))

5. A new Part 163d is added as follows:

PART 163d—COMMUNITY EDUCATION—TRAINING GRANTS TO INSTITUTIONS OF HIGHER EDUCATION

Subpart A—General

Sec.

163d.1 What general provisions apply to this program?

Subpart B—What Kinds of Training Projects Does the Commissioner Fund?

163d.10 Eligible applicants.
163d.11 Types of projects.
163d.12 Training activities.
163d.13 Project period.

Subpart C—How Does an Applicant Apply for a Grant?

163d.20 Application requirements.

Subpart D—How is a Grant Made?

163d.30 How the Commissioner judges projects for training grants to institutions of higher education.
163d.31 Criteria for evaluating applications for training projects from institutions of higher education.

Authority: Title VIII of the Elementary and Secondary Education Act of 1965, as amended by Pub. L. 95-561, 92 Stat. 2284 (20 U.S.C. 3281).

Subpart A—General

§ 163d.1 What general provisions apply to this program?

The provisions of Subpart A of 45 CFR Part 163, §§ 163.1 through 163.9, apply to the Training Grants to Institutions of Higher Education program under this part.

Subpart B—What Kinds of Training Projects Does the Commissioner Fund?

§ 163d.10 Eligible applicants.

The Commissioner awards grants to institutions of higher education to pay all or part of the costs of developing, establishing, expanding, or operating programs to provide training for personnel who are engaged in or who intend to engage in community education programs.

(Sec. 812; 20 U.S.C. 3292)

§ 163d.11 Types of projects.

(a) Projects may focus on one or more of the following areas of training:

(1) General community education training designed to introduce persons interested in commencing and developing community education programs to the practices, procedures, and history of community education.

(2) Training of SEA community education leaders in managing a State program and in providing technical assistance to local districts throughout their State.

(3) Develop training materials based on proven effective strategies that have been used to implement community education programs at the State, local, and institution of higher education levels.

(4) Disseminating information about national training and bringing together different organizations and institutions providing training to persons in community education.

(5) Training by Statewide, regional, or national consortia composed of a variety of skilled trainers—

(i) To provide interdisciplinary training to persons interested in community education; or

(ii) To provide training on new methods of collaboration among agencies and institutions providing services in community education.

(6) Other areas of training in community education.

(b) The Commissioner publishes a notice annually in the **Federal Register** inviting applications for the program. The notice may establish priorities among these areas or reserve funds for them.

(Sec. 812; 20 U.S.C. 3292)

§ 163d.12 Training activities.

The training shall be—

(a) Provided on a continuing basis over the course of the grant period, with provisions for follow-up and reinforcement of specific training skills or activities; and

(b) Offered at times and in a manner that will allow participation by recipients without disrupting their responsibilities for planning and working with community education programs; and

(c) Develop in consultation with appropriate SEAs and LEAs.

(Sec. 812, 20 U.S.C. 3292)

§ 163d.13 Project period.

The provisions in § 163b.12 concerning project duration apply to training grants to institutions of higher education.

(Sec. 812, 20 U.S.C. 3292)

Subpart C—How Does an Applicant Apply for a Grant?

§ 163d.20 Application requirements.

The application requirements described in § 163b.20 apply to this program.

(Sec. 812, 20 U.S.C. 3292)

Subpart D—How is a Grant Made?

§ 163d.30 How the Commissioner judges projects for training grants to institutions of higher education.

(a) The Commissioner evaluates an application on the basis of the criteria in § 163d.31.

(b) The Commissioner awards up to 100 possible points for these criteria.

(c) The maximum possible score for each complete criterion is indicated in parentheses at the end of that criterion.

(d) Among projects judged to be relatively equal in quality (within 15 points), the Commissioner may select a project to—

(1) Ensure that a diversity of approaches are funded to meet a variety of community education needs throughout the country; and

(2) Avoid duplicating the activities of a currently funded project.

(Sec. 809, 20 U.S.C. 3289)

§ 163d.31 Criteria for evaluating applications for training projects from institutions of higher education.

The Commissioner evaluates an application from an institution of higher education on the basis of the criteria in this section. The maximum possible score for all criteria is 100 points. The maximum possible score for each complete criterion is indicated in parentheses at the end of that criterion.

(a) *Plan of operation.*

(1) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(2) The Commissioner looks for information that shows—

(i) High quality in the design of the project;

(ii) An effective plan of management that insures proper and efficient administration of the project;

(iii) A clear description of how the objectives of the project relate to the purpose of the program;

(iv) The way the applicant plans to use its resources and personnel to achieve each objective; and

(v) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly. (10 points)

(b) *Quality of key personnel.*

(1) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(2) The Commissioner looks for information that shows—

(i) The qualifications of the project director (if one is to be used);

(ii) The qualifications of each of the other key personnel to be used in the project;

(iii) The time that each person referred to in pararaphs (b)(2) (i) and (ii) of this section plans to commit to the project; and

(iv) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as members of racial or ethnic minority groups, women, handicapped persons, and the elderly.

(3) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides. (7 points)

(c) *Budget and cost effectiveness.*

(1) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(2) The Commissioner looks for information that shows—

(i) The budget for the project is adequate to support the project activities; and

(ii) Costs are reasonable in relation to the objectives of the project. (5 points)

(d) *Evaluation plan.*

(1) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project. (See §100a.590 of EDGAR—Evaluation by the grantee.)

(2) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable. (5 points)

(e) *Adequacy of resources.*

(1) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(2) The Commissioner looks for information that shows—

(i) The facilities that the applicant plans to use are adequate; and

(ii) The equipment and supplies that the applicant plans to use are adequate. (3 points)

(f) *Quality of project.* The quality of the proposal in addressing one or more of the areas of training described in § 163d.11(a). (15 points)

(g) *Knowledge of existing community education training.*

The extent to which the proposed project reflects and builds upon a knoweldge of existing community education training and research related to the specific training area. (10 points)

(h) *Client involvement.* The extent to which the applicant plans to involve potential clients of the project in designing and implementing the project. (10 points)

(i) *Potential for advancing community education.* The degree to which the proposed project has the potential for advancing community education nationally. In applying this criterion, the Commissioner considers such factors as the degree to which the project—

(1) Includes unique or diverse methods of fostering interagency cooperative methods;

(2) Provides a plan to affect a given audience or group; and

(3) Provides different methods of developing community education permanence within the agency or organization being trained. (20 points)

(j) *Dissemination.* The degree to which the applicant plans to evaluate the project results and disseminate them to a national audience. In applying this criterion, the Commissioner considers—

(1) The applicant's proposed plan for developing and evaluation of the project;

(2) The applicant's proposed plan to develop usable information, including characteristics, practices, procedures, and materials resulting from the project; and

(3) The applicant's provisions for disseminating the project results to a broad audience or to a special client group that could benefit from knowledge of the project results. (15 points)

(Sec. 812; 20 U.S.C. 3292)

Note.—This Appendix A will not be published in Title 45 of the Code of Federal Regulations.

Appendix A—Summary of Comments and Responses

The comments received on these regulations are included below. A response is included after each comment stating changes which have been made in the regulations, or the reason why no change is made. The section numbers in these final regulations are different from those in the NPRM. The new section numbers are followed by the NPRM section number in parentheses.

Subpart A—General

Comment. A large number of commenters generally supported the regulations, expressed satisfaction that they were clear and understandable, and noted appreciation for the work which had been done. One commenter was pleased with the attempt to simplify the NPRM and to minimize education jargon but requested that these efforts be continued during the revision process. Several persons commended the effort to provide meaningful information in the NPRM "Supplementary Information" section of the preamble and suggested that this material be incorporated into the final regulations.

Response. The Commissioner is well aware of the need to provide regulations which are simple, clear, and as brief as possible and, at the same time, provide regulations that govern program administration. Considerable attention has been given to spelling out the basic concepts of community education in the final regulations. Additional information has been detailed in the responses to comments in this appendix. These regulations are the result of extensive interaction with the public. The Commissioner has attempted to produce a document that will clarify the concept of community education as intended by Congress and assist applicants to apply for funding under the Community Schools and Comprehensive Community Education Act.

§ 163.1 (160c.1) Description of the Community Education Act.

Comment. A few commenters expressed support for this section. Others objected to the restriction of Federal funds to "administrative and coordinating costs" and suggested that project-related costs of operation and provision of services be eligible for support.

Response. A change is made. The phrase "administrative and coordinating" has been deleted from § 163.1(a) (160c.1(a) in the NPRM). The Commissioner encourages the funding of leadership, administrative, and coordinating activities involved in planning, establishing, expanding, or operating community education programs. Changes have been made in § 163.8 (160c.6) to allow the Federal share to include costs beyond those described in the proposed regulations. The project may include costs such as instructor salaries, instructional materials and equipment, and other incidental expenses directly related to the provision of specific community education program activities and services, course offerings, and transportation of participants. The grantee must consider whether—

(1) Other public or private resources are unavailable for such costs;

(2) The charging of enrollment fees to program participants to cover such costs is not feasible or would create an excessive financial burden on potential program participants; and

(3) The proposed costs are reasonable in terms of the contributions they will make to the purposes of the community education program. Further information is provided in the response to the comment on § 163.8 (160c.6).

Comment. One commenter recommended that this section of the regulations be expanded beyond providing funding for community education programs.

Response. No change is made. While § 163.1(a) (160c.1(a)) lists the entities eligible for Federal assistance under the Act, § 163.1(b) (160c.1(b)) details the more specific purposes of the Act. These purposes reflect the broader purpose and intent of Congress in creating the Community Schools and Comprehensive Community Education Act.

Comment. One person suggested an additional purpose be added to § 163.1(b) (160c.1(b)) to read as follows: "Increase the capacity of local and State education systems to involve the community at large in planning a comprehensive program, services, and activities and to mobilize the resources for carrying out these community purposes."

Response. No change is made. The above recommendation contains two important elements of community education—the involvement of citizens in State and local comprehensive programming and the maximum utilization of community resources. These two areas are sufficiently addressed in § 163.1(b) (160c.1(b)), particularly § 163.1(b) (1) and (5) (160c.1(b) (1) and (5)) which are based on the authorizing statute.

§ 163.3 (160c.3) Definitions.

Comment. One commenter felt that there should be a specific definition of "new models" as used in §§ 163b.31(c)(1), (2), (3) (160c.35(c)(1), (2), (3)), and 163c.13(a), (b), (d)(3) (160c.42(a), (b), (d)(3)).

Response. A change is made. The term "new" is deleted from the regulations. Please refer to comments and responses for § 163b.31 (160c.35).

Comment. Another commenter suggested changing the term "Community Education Program" used in this section and in § 163.4 (160c.4) to "Community Education System".

Response. No change is made. The Commissioner is aware that community education is unique in that it is a total process, involving a community in assessing needs and identifying resources to meet those needs, as opposed to the direct provision of program services. It is with this understanding that the term "program" is used, meaning a community education program that meets the minimum elements in § 163.4 (160c.4) of the regulations.

§ 163.4 (160c.4) What are the minimum elements of a community education program?

Comment. Several commenters expressed support for the seven minimum elements as written. In addition, most of the individuals commenting on specific paragraphs of this section expressed support for the seven elements. One commenter recommended the use of eight elements as in the previous regulations. A number of comments also urged a stronger role for citizen involvement. One commenter, on the other hand, expressed concern about "certain" minimum elements that are either more specific than the law or without specific references in the law.

Response. Certain clarifying changes have been made to insure that the minimum elements are consistent with the authorizing statute. The Act defines a community education program as "a program in which a public building, including but not limited to a public elementary or secondary school, or a community or junior college (or a related extension center), is used as a community center operated by an LEA in conjunction with other groups in the community, community organizations, and local governmental agencies, to provide educational, recreational, health care, cultural, and other related community and human services for the community that the center serves in accordance with the needs, interests, and concerns of that community."

To clarify this definition, the regulations, in § 163.4 (160c.4), describe the minimum elements of a community education program. These elements apply to each community education program to be assisted under the program, whether through direct grants or under the State formula program.

The definition of community education is substantially the same as the definition in the earlier Community Schools Act of 1974. Likewise, the minimum elements, with some minor changes, remain substantially the same as those in the previous regulations. These elements have been widely supported throughout the history of the program. The present regulations build upon this strong legislative history. These elements are based on the language and intent of the present Act. Certain revisions are made in the final regulations to insure that the minimum elements are consistent with language in the Act. These elements have been carefully developed with the assistance of community education constituents. They are based on current research literature and have widespread acceptance throughout the Nation.

(a) *Role of local educational agency.*

Comment. Two commenters expressed support for the wording of this subpart in the NPRM. A few commenters suggested that the language in the NPRM might eliminate participation by other agencies. Two persons stated that the role of the school should be much stronger. Another commenter questioned whether a community college is eligible to participate in the program as an LEA. Another commenter suggested the concept of an LEA be broadened to include community agencies and organizations.

Response. No change is made. The term "local educational agency" (LEA) is generally defined in Section 1001(f) of the Elementary and Secondary Education Act as "a public board of education or other public authority legally constituted within a State for administrative control or direction of, or to perform a service function for public

elementary and secondary schools * * *" This definition was used in the community education regulations under the Community Schools Act of 1974.

Particular agencies that fall within the definition of "local educational agency" will be recognized as eligible applicants. The regulatory and statutory elements include (1) status as a public authority; (2) legal mandate or authority under State law to perform a service function; and (3) the existing or prospective performance of the service function for public elementary and secondary schools.

For the purposes of the Act, a public authority would, for example, be eligible if it were authorized pursuant to State law to carry out and were carrying out (or proposed to carry out) a community education program (meeting the minimum elements) set forth in § 163.4 (160c.4) in a public elementary or secondary facility. It would not be necessary that the public authority have the sole or primary purpose of providing a service function for public elementary or secondary schools, so long as the public authority had the legal authority to perform such a service function. (Documentation with respect to the status of an agency under State law as a "public authority" and as to its authority to perform a service function for public elementary or secondary schools could be provided through submission of an opinion of counsel or other appropriate legal opinion.)

Comment. One commenter raised questions relative to the meaning of "school". Another commenter suggested that the term "school district" be used instead of "school". Another commenter suggested that the term "local education agency" be used.

Response. A change is made. A school is unlikely to undertake a project without the support of the LEA since ultimate administrative and operational responsibility is vested at this level. Although a single school may be responsible for a community education project, the LEA has the ultimate responsibility in the project. Therefore, the term "local educational agency" is used in subsections 163.4 (a) and (b) (160c.4 (a) and (b)).

Comment. One commenter suggested that advisory committees be required for all programs.

Response. No change is made. The formation and operation of advisory committees is one method of assuring community and citizen involvement, provided for in Sec. 808(7) of the Act and § 163.4(g) (160c.4(g)) of the regulations. However, neither the Act nor the regulations mandate an advisory committee. To prescribe a particular mechanism might limit or discourage the use of other, and possibly more appropriate, means for ensuring community participation, coordination, and consultation. The precise means of implementing this principle stated in the Act and regulations should be determined locally. At the same time, the presence of a strong and viable element of community participation in each community education program will be important in the evaluation of an application.

(b) *Community Served.*

Comment. Several commenters suggested that the statement defining the community served be changed to read as follows: "The community shall include *but not be limited to* the attendance area for the regular instructional program of the school involved in administering and operating the program."

Response. A change is made. The regulations should not be overly restrictive in the definition of a community, therefore a change is made in § 163.4(b) (160c.4(b)). This change will make it clear that a community education program may serve an area larger than the immediate attendance area of the schools of the LEA involved in the program. For example, this might include the entire school district.

(c) *Community Center.*

Comment. One commenter suggested that public libraries be listed as eligible facilities. Another questioned the specific reference to recreation and park centers, since they are not specifically mentioned in the Act.

Response. The reference to recreation and park centers has been deleted. The Commissioner agrees that the inclusion of any specific group not designated in the Act might imply the exclusion of all other groups. The reason for any inclusions of groups is that they are specifically mentioned in the Act. It is not the intent of the Commissioner to eliminate particular groups from participation in, or facility from being used in any State or local community education effort. Rather, the Commissioner encourages the full participation of as many diverse groups and organizations and the use of a wide range of facilities as possible in community education programs.

Comment. One commenter expressed concern over the inclusion of satellite or mobile facilities as centers in § 163.4(c)(1)(ii) (160c.4(c)(1)(ii)).

Response. A change is made to clarify the use of other public facilities. This language is consistent with section 808(a)(6) of the Act which states that a community education program will provide for the identification and use of services outside the school "or other public facility". While a center should serve as a focal point for the community education program, community circumstances may create a need for additional facilities in addition to that center.

Comment. One commenter suggested that the phrase "to the extent feasible" be added to § 163.4(c)(2)(i) (160c.4(c)(2)(i)), since that phrase was used in the Act.

Response. A change is made. The phrase is added to the regulations.

Comment. One commenter expressed the opinion that § 163.4(c)(2)(ii) (160c.4(c)(2)(ii)) is of no benefit and questioned its inclusion in the regulations.

Response. A minor change is made. The Commissioner wishes to emphasize the importance of the school as a focal point in the community education program. This emphasis is based on Sec. 802(a) of the Act, and is illustrated through the regulations. The phrase "are merged with * * *" is deleted from this subsection because it can be seen as having a limiting effect. However, the remainder of the subsection is not changed.

(d) *Community needs.*

Comment. One commenter was concerned that the language of this section emphasized that all services must be provided, rather than attempting to meet local needs.

Response. No change is made. Section 163.4(d) (160c.4(d)) requires "systematic and effective procedures" for identifying, documenting, and responding, on a continuing basis, to the needs of a community. The Commissioner does not intend to designate specific services to be provided by all local programs, but establishes a procedure to assist local programs in determining their own needs, interests, and concerns. This is consistent with the Act's findings in Sec. 802(5) that community schools provide a great potential for the use of needs assessment as a basis for human resources policies.

(e) *Community resources.*

Comment. Several commenters wanted stronger language requiring cooperative agreements between the LEA and other public agencies. One suggested that the regulations mandate that program directors assist other agencies rather than replicate efforts of those agencies.

Response. A change is made. On August 6, 1979 Congress passed Pub. L. 96-46 that makes a technical amendment to Section 809(b) of the Community Education Act. The amendment reads as follows:

No grant may be made to a local educational agency to plan, direct or operate any program or activity that is being conducted by another public agency unless the Commissioner determines that cooperation exists between the local education agency and the public agency conducting such program or activity.

Though originally accepted as a part of the Act, this provision was inadvertently omitted from the final version of the Act. The technical amendment was therefore introduced into Congress in order to formally incorporate the provision into the Act.

Accordingly, a new paragraph has been added to § 163.4(e)(3) (160c.4(e)), to reflect this amendment.

Comment. One commenter questioned the use of the term cooperative "agreements" and suggested the term cooperative "arrangements" be substituted.

Response. A change is made. The word "arrangements" is more appropriate, since it allows for greater diversity of interagency cooperative networks. The language in § 163.4(c)(2) (160c.4(c)(2)) is changed to be consistent with the language of the Act.

Comment. One commenter questioned the use of the phrase "to avoid duplication of services" in § 163.4(e)(2) (160c.4(e)(2)) in relation to cooperation among public and private agencies.

Response. A change is made to encourage programs to avoid duplicating services to the extent feasible. It is not always possible to avoid some duplication of services when public and private agencies cooperate to provide community education services. At the same time, however, the intent of the program is to make the most efficient use of public buildings in providing a wide range of services to a wide variety of groups in a community. To effectively coordinate these services, duplication of services should be avoided.

Comment. One commenter requested that the phrase "or other public facility", used in the law, be added to § 163.4(e)(1) (160c.4(e)(1)).

Response. A change is made to conform § 163.4(e)(1) (160c.4(e)(1)) to the language and intent of the Act with respect to the utilization of community resources outside the school or other public facility. The language is added to § 163.4(e)(1) (160c.4(e)(1)).

Comment. One commenter requested that the phrase "to the fullest extent possible" be deleted from § 163.4(e)(1) (160c.4(e)(1), which provides for the identification and utilization of resources located outside the school to enhance the program.

Response. A change is made. The phase introduces confusion and uncertainty in measuring the identification that would constitute "fullest extent possible". To avoid varying and differing interpretations, the phrase is deleted.

Comment. One commenter questioned the use of the phrase "to enhance the size and quality of the program" in § 163.4(e)(1) (160c.4(e)(1)).

Response. No change is made. Section 808(a)(6) of the Act requires arrangements to make the maximum use of existing resources within the community. The Commissioner believes these arrangements can be "maximized" by increasing qualitative aspects of a program (number of services provided, number of agencies participating, etc.) or improving the quality of working arrangements (higher level of cooperative agreements, sharing of resources, coordination of activities, etc.). The intent is to provide the maximum latitude for local communities planning, establishing, expanding, or operating community education programs.

(f) *Program clients.*

Comment. One commenter wanted the regulation modified so that the community education program could specifically include exceptional children while a second commenter felt that there should be a statement prohibiting duplication of effort to mentally or physically handicapped children. Another commenter suggested that program clients should be expanded to include "women and girls with special educational needs, including, but not limited to single mothers, displaced homemakers, older women, and rural women." Another suggested the inclusion of the requirement: "Access shall include communicational access through the use of qualified spoken language and sign language interpreters".

Response. No change is made. The Commissioner encourages participation by these individuals and groups in a community education program. The regulations as currently written do not eliminate any of these groups. The Act provides that a community education program serve all age groups in the community. Only those groups specifically mentioned in the Act have been included in the regulations. The list of persons in § 163.4(f) (160c.4(f)) is illustrative and not exhaustive. Any program receiving Federal assistance under this Act must, of course, comply with the following statutes and regulations. These statutes prohibit in any Federally assisted activity discrimination based on (1) race, color, or national origin—Title VI of the Civil Rights Act of 1964 (42 CFR Part 80); (2) sex—Title IX of the Education Amendments of 1972 (45 CFR 86); (3) handicap—section 504 of the Rehabilitation Act of 1973 (45 CFR Part 84); and (4) age—The Age Discrimination Act of 1975 (45 CFR Part 90 "General Government-wide Age Discrimination Regulations").

(g) *Community involvement in governance.*

Comment. Several persons requested that the regulations emphasize more strongly the role of local citizens in the governance of the program. One commenter questioned why the regulations did not make a distinction between parents and other groups, why parent involvement in planning and developing the program is not reflected in the regulations, and why the regulations permit the involvement of students. Another suggested rewording the last sentence for clarity. Another commenter suggested that this section include specific provisions for measurable community involvement.

Response. The section is revised to incorporate the above mentioned concerns and to clarify Congressional intent. The revised section maintains the important role of citizen involvement in community education, provides for a greater involvement of parents of students, and clarifies areas of ambiquity. The revised section reflects more clearly the language and intent of the Act.

(a) The program shall be planned and operated in cooperation with the community to be served by the program, in order to fulfill the educational, recreational, health care, cultural and other related community and human services in accordance with the needs, interests and concerns of the community for individuals of the community; and

(b) Involvement shall include active and continuous involvement of (1) individuals, institutions, and groups representative of the community, on an advisory basis; and (2) parents of school children in the planning, development and implementation of programs.

Comment. Several commenters suggested the inclusion of specific citizens or official groups. One commenter wanted to specifically include teachers, another commenter wanted to include locally elected officials, while another suggested the section be expanded to include individuals and groups that represent women and miniorities, and public libraries. One commenter suggested that "local educational groups" be used instead of "community college".

Response. Section 163.4(g) (§ 160c.4(g)) is revised to require cooperation with the communuity

served in order to provide "educational, recreational, health care, cultural, and other related community and human services." The intent is to encourage the involvement of all of the above mentioned groups and at the same time give maximum opportunity for a local community to operate a program in accordance with the "needs, interests, and concerns of that community."

Section 163.5 (160c.5) How are the minimum elements of community education program applied?

Comment. One commenter expressed concern that this section does not allow funding for projects where progress is being made toward meeting the given minimum elements. Another suggested the elimination of the word "already" before the phrase "meet all the minimum elements". It was also mentioned that the language in this section is too broad and does not reflect the intent of the Act.

Response. No change is made. It is not the intent to prohibit funding projects that are progressing toward but have not yet achieved all the minimum elements. Section 163.5(a)(2) (§ 160c.5(b)(2)) of the regulations, which states that "Each community education program shall— * * * (2) Be able to meet all of the minimum elements with the assistance provided under the project", would allow funding of a project that was making progress toward meeting all seven elements. All seven elements do not have to be met when the project is funded, but the goals must include meeting all seven minimum elements before the project is completed.

Section 163.6 (160c.6) Scope of eligible project activities.

Comment. Several commenters supported this section of the regulation as written. Others supported the limits on the use of funds, but wanted to change the wording in the regulation to make this requirement even stronger. These commenters suggested that in the sentence "However, the project to which the Federal share is applied *may* include only the administrative and coordinating activities * * *", the word "may" be replaced with the word "shall". Another commenter supported the limitation, but suggested the inclusion of a provision to allow school districts in rural areas to use the Federal funds for other activities when no other funds are available.

There were additional commenters who opposed limiting the use of Federal funds. One commenter suggested that this limitation would kill the impetus for funding community education in the future. Another commenter suggested that the prohibition against the use of Federal funds for instructional materials and equipment is educationally unsound, and that there is no basis for it in the Act. Another commenter suggested that Federal funds should be used for maintenance and operations of school district buildings after school hours when they are used for community education program purposes.

One commenter questioned the legality of allowing only those activities listed in the regulations.

Response. The regulations are changed to allow projects to include costs beyond those described in the proposed regulations. Now, for example, costs directly related to the provision of program activities and services are allowed. However, the Commissioner believes that while a community education program may encompass virtually any type of educational or other social service, the Federal program was mainly intended to support the processes of organizing and coordinating these services. Therefore, funding of leadership, administrative, and coordinating activities is encouraged.

A major purpose of the legislation is to encourage the better use and coordination of existing resources. The purpose is not to displace other funding of recreational, cultural, or educational programs. It is assumed that the funding for those programmatic costs will continue to be met from other sources. The previous legislation stressed coordination of existing programs and resources and the results of such a funding philosophy have received considerable praise through the evaluation of the program and from various community education constituencies. The Commissioner emphasizes the importance of giving priority to using Federal funds under the Act to clearly establish the process (needs assessment, citizen involvement, etc.) rather than pay for programs (of adult education, recreation, child care, etc.). For further clarification, see response to § 163.1 (§ 160c.1).

Comment. One commenter suggested that § 163.7 (§ 160c.6(b)(2)) be clarified and expanded. Another commenter requested that this subsection be expanded to include: "Training for the administrator and appropriate members of staff and for the grantee's chief executive officer and appropriate members of staff". The same commenter suggested that § 163.7 (§ 160c.6(c)(8)) be amended to read "Organizing and training community education task forces or advisory councils * * *".

Response. These suggestions have been incorporated into the final regulations.

Comment. One commenter requested additional language to clarify § 163.7 (§ 160c.6(c)(12)) regarding how much flexibility LEA's will have to apply evaluation procedures in addition to those specified in the State plan.

Response. Section 163.7 (§ 160c.6(c)(12)) allows an LEA to contract with third party outside evaluators to evaluate the community education program assisted with Federal funds. Valid evaluations of programs funded under the Act will not only provide valuable information at the local level, but can produce important data to assess the impact of Federal involvement in community education. The regulations permit these evaluations. The responsibility of seeing that the evaluation is initiated and carried out is a local responsibility. The Commissioner encourages the greatest flexibility for LEAs to conduct the evaluations.

Comment. One commenter asked if Federal funds could be used for paid media advertising under § 163.7 (§ 160c.6(c)(3) and (5)).

Response. The Commissioner agrees that Federal funds could be used for activities that qualify as procedural activities necessary to providing services and activities or obtaining community participation in carrying out the program. Paid media advertising must be in accord with 45 CFR Part 74, Appendix C, Part II (B)(2).

Section 163.9 (160c.7) Non-Federal contribution for related Federal programs.

Comment. Several commenters supported this section as it was written. One commenter felt that the section could be supported only if there was coordination at the Federal level. Without this coordination the commenter felt that such a policy was worthless. This commenter also cited apparent conflict of this provision with 45 CFR Part 74, Subpart G, § 74.53(a)(1). Finally a few commenters expressed concern that the regulations were more restrictive than the Act and wished to change the term "cost" to "fair value" and "project" to "program".

Response. Minor changes are made in the final regulations. "Costs" and "product", used in the proposed regulations are changed to "fair value" and "program" respectively. These changes provide consistency between the Act and the regulations.

Section 806(a) of the Act provides authority for this section of the regulations. The language "Notwithstanding any other provision of law" eliminates any conflict with 45 CFR 74.53 that prohibits the use of funds

from other Federal grants to meet a cost sharing or matching requirement.

Although coordination between a community education program under this Act and those programs listed in Sec. 806 of the Act, is not required, the requirements set forth in Sec. 806(a)(1) and (2) would most likely lead to coordination of effort. Additionally, since two purposes of the program as stated in Sec. 802(b) of the Act are "(1) * * * collaboration with * * * related human services * * *" and "(2) * * * coordinate the delivery of social services * * *", coordination is emphasized in the final regulations (i.e. § 163.4).

Other comments

Comment. One commenter suggested that a portion of funds be earmarked for exceptional members of the population, i.e. the deaf and blind. Another commenter suggested that a special Indian set aside funding is necessary to achieve the permanent existence of community education programs. Another commenter questioned whether Native American groups are eligible to apply for funding under the current regulations. Finally a commenter suggested that a provision supporting the participation of postsecondary technical and professional education programs for deaf people be included in the regulations.

Response. No change is made. The General Education Provisions Act, Section 421(c)(2)(B) states generally that funds appropriated to carry out a particular program cannot be allotted, apportioned, allocated or otherwise distributed in any manner or by any method different from that specified in the law authorizing the appropriation. Therefore, funds cannot be earmarked for groups not provided for in the Act.

Comment. One commenter stated that the regulations were unclear as to whether an applicant is eligible for simultaneous grants. For example, could an LEA receive a grant under the program for grants to LEAs (Sec. 809 of the Act) and also under the program for grants to public agencies and nonprofit private organizations (Sec. 810 of the Act)?

Response. Applicants should not be eligible for simultaneous grants. Technically, an LEA could qualify as an applicant under both of these programs. However, it is very unlikely that the LEA would receive a grant under both programs simultaneously. With limited funds available, the intent is to spread the benefits of community education to as many areas and individuals as much as possible. In evaluating applications from LEA's under the LEA program, the Commissioner considers the avoidance of duplication of projects in § 163b.30(b)(2) (§ 160c.34(b)(2)) and the funding of a diversity of community education methods in § 163b.30(b)(3) (§ 160c.34(b)(3)). It is unlikely that this duplication could be avoided if one agency received grants for two different community education programs.

Subpart B—State Community Education Program

Section 163a.10 (160c.10) Purpose of State grants.

Comment. One commenter expressed concern that the regulations language is much stronger than the law and House report in emphasizing the limited Federal role. Another commenter expressed support for the regulations language.

Response. A minor change is made. SEAs have played a pivotal role in implementing the Community Schools Act of 1974. They should take the leadership role in building a natural base for continued community education growth. The Community Schools and Comprehensive Community Education Act was developed by Congress, in part, to increase the role that SEA's are to play in the future development of community education. By creating the State formula program with monies flowing to LEAs through States, Congress placed States in a central position. The decreasing Federal match over the five-year period of the Act, also places States in a position to assume the burden of continued growth. However, the regulations do not attempt to limit Federal support for community education to the five years of this Act. In order to emphasize the importance of SEA's, yet not eliminate the possibility of continued Federal support, the phrase "full State responsibility" has been changed to "major State responsibility" for development of community education during the five year period of authorization in the final regulations.

Section 163a.11 (160c.11) Eligible activities.

Comment. One commenter suggested that public agencies and private nonprofit organizations should also be eligible for funds distributed by an SEA in the State formula program.

Response. No change is made. Section 808(a)(3) of the Act provides that the SEA must distribute 80 percent of the funds it receives from its allotment among LEAs. The subgrantee is thus delineated in the Act. Other public agencies and private nonprofit organizations are not included in the Act and therefore are not included in the regulations. Section 808 of the Act states that "payments will be used to expand community education programs of the schools of local educational agencies within the State;". No particular form of administration will be required as long as the school is genuinely involved in the administration of the program. The school must be directly and substantially involved in the administration and operation of the program. The means by which this takes place will vary from school to school and program to program. However, a community education program in which the role of the school is confined solely to making its facilities available and in the administration or operation of which the school plays no genuine role is not a community education program within the meaning of the law.

Comment. One commenter recommended that the word "program" be used instead of community education "activities" in § 163a.11(a)(2) (§ 160c.11(a)(2)).

Response. A change is made to clarify the subsection.

Comment. One commenter suggested that language allowing funds to be used for conferences and dissemination be added in order to be consistent with language in the Act.

Response. The section is changed accordingly.

Comment. One commenter suggested that language be added to allow SEAs to contract with other agencies to perform training functions in all aspects of community education.

Response. No change is made. The Commissioner encourages SEAs to coordinate all activities with appropriate agencies within the State. Each State can best develop a plan to fit its own situation. In doing this it must determine its own training needs and assure appropriate activities to respond to these needs. This assumes maximum State initiative without Federal interference in State and local systems.

Section 163a.20 (160c.12) Documents a State must submit to receive a grant.

Comment. One commenter supported this section as it is written, while two others wanted stronger assurances of citizen involvement in the community education program.

Response. No change is made. (See response to § 163a.23 (§ 160c.15)).

Comment. One commenter suggested that State plans be required on a rotating basis, so that only one-third of them would be forthcoming to OE each year.

Response. No change is made. Section 808(a) of the law requires any State desiring to participate in the program to

submit a plan to the Commissioner. The regulations, in carrying out this Congressional intent, require States to submit State plans prior to receipt of Federal funds. Therefore, each State wishing to participate in the formula program must submit and have approved a State plan for community education development within the respective State. The Commissioner requires State plans prior to the first year of funding of the formula program for all States wishing to participate.

Section 163a.21 (160c.13) Assistance to community education programs.

Comment. One commenter felt that funding should include programs making progress toward meeting the minimum elements. This person also suggested that the regulations allow an SEA to conduct an assessment after, rather than before, receiving Federal funds.

Response. No change is made. As written, the regulations already include programs making progress toward meeting the minimum elements under § 163a.21(a) (§ 160c.13(a)). It is important that a community's needs be assessed before the receipt of Federal funds, since such an assessment is necessary in determining State and local involvement and resources available to effectuate that involvement.

Comment. One commenter recommended that SEAs and LEAs identified in § 163a.21(a) (§ 160c.13(a)) be specified by name and geographic location in the SEA proposal. Another commenter recommended that a State plan contain specific provisions beyond those identified in the regulations.

Response. No change is made. The regulations presently require that a State identify (1) existing and planned community education programs through out the State; (2) the locations with the strongest interests in and needs for new community education programs; and (3) resources available to plan, establish, expand, or operate community education programs throughout the State. To require additional provisions beyond those identified or based on the authorizing legislation would be inappropriate.

Section 163a.23 (160b.15) Expanding community education programs.

Comment. Several commenters expressed concern that the regulations should reflect a more comprehensive State plan than required in this section. These commenters recommended the regulations be strengthened by requiring States to involve citizens in the development of the State plan, develop procedures for continual advice and input, secure State board of education support, and develop and carry out State-level planning and interagency coordinating activities. Many suggested that the appendix be incorporated into this section.

Response. No change is made. Although the regulations are not as specific as many community educators had wished, the Commissioner requires SEAs to submit sufficient information necessary to determine that provisions of the Act are met. The Commissioner is aware that the principles of community education emphasize citizen involvement, cooperative use of public resources through interagency collaboration, assessment of needs that can serve as a basis for program plans. The Commissioner encourages these principles to be carried out by SEAs and has provided additional information in this regard in Appendix B. As administrator of the State program, the SEA must see that the minimum elements in § 163.4 (160c.4) are met in local, as well as the statewide programs. This assures cooperation with other agencies, community involvement, etc. The Commissioner is well aware that the SEAs will play a pivotal role in successful implementation of community education in the future.

Comment. One commenter questioned the inclusion of § 163a.23(b)(2)(ii) (§ 160c.15(b)(2)(ii)) and whether this section would result in expansion of the program.

Response. No change is made. The attempt has been made to provide the greatest flexibility to SEAs in determining the nature of "expanding" community education within the State. Expansion might be interpreted as developing new programs or providing increased services. It might also include increased numbers of individuals and groups participating in the planning and implementation of the program.

Comment. One commenter questioned the inclusion of § 163a.23(c)(1) (i) and (ii), (§ 160c.15(c)(1) (i) and (ii)), since these requirements are not directly stated in the law.

Response. No change is made. Section 808(a)(1) of the Act states that payments will be used to expand community education programs of the schools of LEAs within the State. The regulations require SEAs to conduct a statewide assessment in order to develop a program for expanding community education. The Commissioner believes that the statewide assessment may identify community education needs as well as resources available to meet those needs. Sections 163a.23(c)(i) and (ii), (§ 160c.15(c)(i) and (ii)), will enable an SEA to identify community education needs while § 163a.23(c)(iii) (§ 160c.15(c)(iii)), will allow SEAs to locate resources within the State.

Comment. One commenter wanted locally elected officials to be included in § 163a.23(b)(2)(ii) (§ 160c.15(b)(2)(ii)) which talks about "increasing the number of community organizations that participate in planning and implementing the programs and improving the quality of the participation." Another suggested that appropriate Indian tribes or their designees be included.

Response. No change is made. (See response to § 163.4(c) and (f) (§ 160c.4(c) and (f)).

Section 163a.24 (160c.16) Local distribution of funds.

Comment. One commenter suggested that § 163a.24(b)(2)(ii) (§ 160c.16(b)(2)(ii)) be deleted or changed to read "assistance to existing or proposed community education programs that meet or propose to meet the minimum elements. The same commenter suggested § 163a.24(b)(2)(iii) (§ 160c.16(b)(2)(iii)) be deleted. Another commenter questioned the inclusion of § 163a.24(b)(2) (§ 160c.16(b)(2)).

Response. No change is made. Section 808 of the Act requires among other things that the payments to LEAs under the State program be used to expand local programs, as well as establish and operate community education programs. Limited funds appropriated necessitate focusing on those programs of the highest quality to most effectively meet the community needs throughout the State.

Comment. One commenter suggested that the SEA should provide for quality approaches in granting funds to LEAs, and that because there will be insufficient funds at the SEA level to fund all programs, the regulations should establish a competitive program for distributing State formula Community Education funds. Another commenter wanted emphasis placed on demonstration type projects.

Response. No change is made. The strength of the community education concept and the magnitude of the results achieved have been due to the intense interest and support which is generated at the local level. Therefore, States should have the option of selecting those local programs where genuine commitment and possibility for success are demonstrated through a competitive process. Accordingly, regulations have been developed that allow each State to determine its own procedure for distributing funds, consistent with its own situation. By virtue of their authority over and proximity to LEAs, States are best suited to provide direct

assistance in the planning, initiation, and development of local community education programs. State funds to LEAs should be utilized for the purposes of planning and initiating programs on a broad scale basis throughout the State. States must assume a primary role as the direct link to local community education programs. The Commissioner feels that which programs are assisted, and how such assistance is carried out, should, within the parameters of the Act itself and its regulations, be left to the discretion of each State.

Comment. One commenter asked what provisions and/or alternatives are available if an identified LEA chose not to accept budgeted funds.

Response. The State would have the discretion under (§ 163a.24(a) § 160c.16(a)) to choose another LEA. This would likely be one of "procedures for distribution" which must be included in the State plan.

Section 163a.25 (160c.17) Evaluation procedures.

Comment. One commenter wanted to delete "if possible" from clause (a)(2) so that SEA's had clear responsibility to evaluate LEA projects even if the LEA received direct Federal support. However, a few commenters were opposed to SEA evaluation of Federally funded LEA projects and felt that this paragraph should be deleted.

Response. No change is made. Section 808(a)(11) of the Act requires that a State plan "provide satisfactory assurance that effective procedures will be adopted to evaluate the effectiveness of the community education programs assisted under this title (including where possible payments made directly under § 809)." These regulations adequately reflect the requirements of the Act as written. There is no requirement that SEAs actually evaluate LEA projects.

Comment. One commenter requested that additional reciprocal responsibilities be required between SEA projects and USOE "direct funded" projects.

Response. No change is made. As presently written, the regulations are designed so that each funding category is complete within itself, yet reinforces and is supported by other categories. For example, the minimum elements outlined in the regulations require coordination of agency and citizen involvement. The State Community Education Program, emphasizes assessing the needs of local communities prior to the development of the State plan and provides for State review and comment on LEA discretionary programs. Likewise, LEA's can receive State developmental and technical assistance provided through the SEA.

Section 163a.26 (160c.18) Other State plan provisions.

Comment. Several comments were received concerning § 163a.26(b) (§ 160c.18(b)) regarding the use of the funds remaining in the State's allotment (5 percent) after 80 percent has been subgranted to locals and 15 percent has been used for administration and technical assistance. One commenter was concerned that the remaining five percent of the funds might get lost in the State bureaucracy and consequently its intent also lost. Another commenter suggested that the five percent should be used to "train and provide technical assistance to LEA personnel in the creation, implementation, and administration of community education activities." This commenter also felt that teachers should be included in the definition of LEA personnel. One commenter questioned the justification for using funds for State activities.

Another commenter suggested that the five percent be used to train SEA personnel, with the balance used to train LEA personnel. One commenter wanted to use the five percent for cost over-runs and contingencies and not for technical assistance to SEA personnel.

Finally, a few commenters suggested that the remaining five percent of the funds be used to provide training, travel and other support for State advisory councils or committees.

Response. Section 163a.26(b) (§ 160c.18(b)) is revised. The Commissioner agrees that the NPRM limited the potential use of the five percent remaining funds. Therefore, the subsection has been revised to include training and technical assistance to other State agencies and State community education advisory committees.

Section 163a.27 (160c.19) Ten-year plan.

Comment. Several commenters suggested that the ten-year plan would create difficulties and place a burden on State education agencies.

Although one commenter said that the ten-year plan is a strong aspect of the regulations, there were a few commenters who stated that ten years were too long and recommended changing to a five year plan. Another commenter stated that the Community Education program should be aware that a ten-year period is too long, and that requiring SEA's to develop such long range plans will cause a number of problems.

Response. A change is made. Section 808(a)(2) of the Act mandates States to develop the ten-year plan. This ten-year plan for coordination will require each SEA to carefully plan future growth of community education as it relates to other agencies within the State. Section 160c.19(a) (1), (2), (3), and (4) of the draft regulations have been deleted from § 163a.27 of the final regulations. This gives greater flexibility to the State to provide for coordination that best fits its needs. Additionally, § 163a.27(c) (§ 160c.19(c)) provides for a two-year period for the development of the ten-year plan. It is hoped that the two-year development period will result in quality coordination efforts.

Comment. A few commenters felt that the regulations were not specific enough in detailing which agencies should be included in the ten-year plan. One commenter suggested language mandatory participation of teachers in the development of the plan. Another commenter suggested including libraries in the development and carrying out of the plan. Another commenter suggested that the language of the regulations should be changed to make it clear that LEA's should be included in the development of the ten-year plan. One commenter suggested that Indian tribal governments or their designees be included. Another commenter emphasized the importance of involving and coordinating with existing recreation agencies. Finally, one commenter wanted the input of locally elected officials added to this section of the regulations.

Response. No change is made. The Commissioner encourages the participation of all the above groups in the development of ten-year plans for coordination. The regulations do not exclude any group from participating; rather they encourage States to consult with all appropriate State agencies. The Commissioner suggests that States involve LEA groups as well. Again, certain groups have been mentioned, i.e., State and local recreation authorities and associations, because they are specifically referred to in the Act. However, the Act suggests, but does not limit involvement to these groups. It is left to the State to involve those groups best suited to meet the needs of the State in community education.

Comment. One commenter suggested this section be amended to provide that "two years after" refers to the beginning of the grant period, not to its conclusion.

Response. No change is made. The regulations state that the ten-year plan "must be completed no later than two years after the State receives its first

grant" under the formula program. The two-year period from the time a State begins operating under the formula program should allow for the development of quality plans. The formulation of the ten-year plan will provide a State with a long range schedule for coordination.

Comment. One commenter questioned whether an update or revision of the ten year plan is required with each three year plan and if this up-date would add another three years to the ten-year plan.

Response. No change is made. The regulations do not require an up-date in succeeding three-year plans nor do they require additional years to be added to the original ten-year planning period. However, the Commissioner has provided additional guidance and direction in Section 10 of Appendix B.

Comment. One commenter questioned the amount of detail in the ten-year plan in the regulations, when there is no such detail in the Act. One commenter felt that the meaning of § 163a.27(a)(3) (§ 160c.19(a)(3)) was not clear. Another commenter questioned the meaning of § 163a.27(a)(4) (§ 160c.19(a)(4)).

Response. A change is made. The Commissioner anticipated that a large number of questions would result from the Congressional mandate that the States develop a ten-year plan. Examples of different types of coordination that a State education agency might undertake are deleted, since they do not represent all of the possibilities.

Comment. One commenter questioned the justification for the particular timetable in § 163a.27(c) (§ 160c.19(c)), since none is given in the law.

Response. No change is made. The two-year time period was developed to give State educational agencies additional time to create quality plans. The two-year timeline is considered to be more realistic than requiring the plan at the same time the three-year State plan is submitted to USOE for consideration.

Subpart C—Grants to Local Educational Agencies

Section 163b.10 (160c.30) Eligible projects.

Comment. One commenter asked if a junior or community college could apply as an LEA. Another commenter suggested that community colleges be permitted to apply as LEAs. One commenter suggested that public municipal recreation departments be eligible. One commenter felt public libraries should be included. Another asked if a residential school for the deaf and blind could qualify as an LEA.

Response. No change is made. Refer to the response to § 163.4(a) (§ 160c.4(a)), Role of local educational agency (school).

Section 163b.11 (160c.31) Purpose of projects.

Comment. One commenter suggested that the regulations allow SEAs to award funds to programs directed by agencies other than LEAs.

Response. No change is made. Regulations governing SEA formula grants to local agencies appear in the State Community Education Program. Please refer to the response to § 163a.11 (§ 160c.11), Eligible Activities.

Comment. One commenter questioned the rationale for going beyond showing "reasonable promise of success", as stated in the Act, by requiring funding of programs with national impact.

Response. No change is made. Clarification is provided in the response to comments under § 163b.30 (§160c.34).

Section 163b.21 (160c.33) State review of local educational agency applications.

Comment. A few commenters expressed support for State review of LEA applications. One commenter questioned why this section was included in the regulations, when SEA review is not required by the Act.

Response. No change is made. Among the primary purposes of the Community Schools and Comprehensive Community Education Act are (1) the promotion of coordination and better uses of facilities and resources, and (2) the promotion of a greater role for State education agencies in community education. It would therefore be counterproductive to not allow States to review LEA applications in relation to their own State plans for community education development. State review also gives States an opportunity to identify interested LEAs and to provide technical assistance to those desiring it. This review provides the SEA a mechanism for better overall coordination of community education under its own State program, rather than a veto power over local programs.

Comment. One commenter suggested that the SEA review of LEA applications should be strengthened by requiring the SEA to assign points to each LEA application. A second commenter stated that the time an SEA can review an LEA application should be limited to 45 days. A few commenters suggested that SEA comments be made in the context of LEA compatibility with SEA practices, guidelines, and the State plan. One commenter suggested that an SEA's comments should not have a negative effect on an LEA application, unless the SEA shows that the LEA proposal dramatically varies from the State plan and funding the LEA would have a deleterious effect on implementation of the State plan.

Response. No change is made. The Education Division General Administrative Regulations (EDGAR) govern the procedure for SEA review of LEA applications. These provisions are referenced in the final regulations. The State's views will be given full consideration by the Commissioner in reviewing applications in accordance with the requirements and criteria in these regulations. The SEA is not given a veto authority with respect to LEA applications by the statute, but its comments will serve to advise the Commissioner in reviewing applications under these regulations.

Comment. One commenter suggested the following addition to § 163b.21(a) (§ 160c.33(a)): "For LEAs with 10 percent or more enrolled Indian students, appropriate tribal governments or their designee have been given an opportunity to review and comment on such applications."

Response. No change is made. No group shall be given priority in the regulations. The overall purpose of the Act as stated in Section 882 is the provision of community education services in accordance with the needs, interests, and concerns of the residents of the community involved. This statutory purpose provides all interested groups an opportunity to provide input into a program.

Section 163b.30 (160c.34) How the Commissioner judges applications from local educational agencies.

Comment. One commenter suggested that ranking an LEA's proposal in terms of its capability of promoting community education nationally is an undue burden on the LEA. This commenter felt that projects holding "reasonable promise of success" would likely have a national impact. Therefore, LEA proposals should address local needs rather than concentrate on national impact. Another commenter questioned the rationale for this particular criteria.

Response. A change is made. To clarify the intent, the phrase "through exemplary approaches, methods, or information" is added. By emphasizing "national impact," the regulations concentrate on those projects that hold promise of success in the local community, and which have relevance to a national audience. Those programs which are relevant may then be replicated by other projects throughout the country.

The Federal effort in community education in terms of dollars has been a small experimental program. Such a program makes little sense unless it revolves around a strategy which produces significant national impact. Congress cannot justify Federal expenditures of funds on limited discretionary programs, unless these programs are exemplary in nature. Then, approaches used in these programs can be viewed in terms of their validity and in terms of an ongoing Federal role in their development. Congress, in funding the Community Schools Act of 1974 as well as the present legislation, provided resources in order to test this concept, and to distinguish the possible role of the Federal government from the roles of States, local governments, and other entities. Agencies have a responsibility to Congress to determine how this can best be done with limited funding and staff and in an almost unlimited field.

Some of the Federal dollars have been used to develop local community education models for future use and reference. Other Federal funds have been utilized to support the development of SEA community education capacity. Such an approach has proven to be the best way to achieve nationwide impact with limited dollars in a short time. The purpose is not an assumption of total Federal responsibility for community education at any level.

Comment. One commenter suggested that the phrase "to the extent possible" in § 163b.30(d) (§ 160c.34(b)(1)) is ambiguous and would make execution of the program more difficult.

Response. The suggested deletion is made.

Comment. One commenter suggested changing the wording in § 163b.30(d) (§ 160c.34(b)(2)) to read, "Avoidance of refunding of projects supporting the development and testing of strategies and methodolgies that have been previously demonstrated successful.

Response. A change is made. Section 163b.30(d) (§ 160c.34(b)(2)) has been reworded based on the above suggestion.

Comment. One commenter recommended striking § 163b.30(d) (§ 160c.34(c)), due to the current limited appropriation for the LEA program.

Response. The suggested change is made. Because of anticipated limited funding and considering the overall intent of funding discretionary programs, the Commissioner agrees with the point that it is unlikely that the program under this subsection could be carried out without seriously diminishing the overall impact of the program.

Section 163b.31 (160c.35) Criteria for evaluating applications.

Comment. Several commenters were concerned with the use of the word "new" throughout this section. In particular, these commenters were concerned that this meant only new projects as opposed to existing but innovative or exemplary projects. It was recommended by all these commenters that "new" be changed to "innovative" or "exemplary".

Response. A change has been made in those sections containing the phrase "develops new methods". The terms "exemplary" and/or "innovative" are used in this section and other sections of the regulations to replace the word "new".

Comment. One commenter wanted teacher involvement in the planning and implementation of the community education project to be included in § 163b.31(d) (§ 160c.35(b)(1)). Another commenter wanted to add locally elected officials to the criteria, in § 163b.31(d) (§ 160c.35(b)(3)).

One commenter wanted to add minority populations, handicapped and other disenfranchised group representation to the criteria for judging the application for funding.

Response. No change is made. See response to comments under § 163.4 (c) and (f) § 163a.27 (§§ 160c.4 (c) and (f) and 160c.19).

Comment. One person suggested that the word "integration" be deleted from § 163b.31(f)(1)(ii) (§ 160c.35(b)(1)(ii)), since this might exclude participation by public agencies other than public schools.

Response. The change is made. However, any agency qualifying under the definition of "local educational agency" as detailed in the response to § 163.4(a) (§ 160c.4(a)) (Role of local educational agency), must be "directly and substantially" involved in the project. Further, Section 802(1) of the Act states that "the school is an integral part of the local human service delivery system". A grantee is encouraged to make community education programs an integral part of its delivery system.

Comment. One commenter wanted clarification of (§ 163b.31 (§ 160c.35) regarding the relationship of advisory committees and local boards of education. Another commenter questioned the necessity for so much detail on the issue of citizen involvement, when such detail is lacking in the statute.

Response. No change is made. The presence of a strong element of community participation in each program and in the development of the project is emphasized in the regulations, specifically in the minimum elements in § 163.4(g) (§ 160c.4(g)), and will be important in the evaluation of any application. However, community participation must be on an advisory basis, since ultimate responsibility for the operation of a program or project must be in the administering agency.

Comment. One commenter perceived an over emphasis on innovation and replication in the criteria. Another commenter, agreeing with the need to differentiate purposes of LEA direct grants and LEA formula grants, wanted further clarification on the differences in these two LEA grant areas.

Response. No change is made. However, some clarification is appropriate:

The State formula program provides funds through SEAs to LEAs to expand community education by initiating new programs or increasing the scope of existing programs. Sections 163b.10 through .36 (§§ 160c.30 through .37) cover the provision of grants to LEAs to plan, establish, expand and operate community education programs.

By virtue of their authority over and proximity to LEAs, SEAs are best suited to provide a direct linkage between national and local community education efforts. All of this presumes that SEAs have a strong and pervasive leadership relationship with local community education programs, significant administrative roles and support within the SEA itself and with other agencies. The Act gives States the responsibility of making grants to local districts. It is emphasized that State funds to LEAs be utilized for the purposes of planning and initiating programs on a broad scale basis throughout the State, to provide on-going, long-term maintenance for community education, and basic development and support work. On the other hand, Federal funds should be used to support exceptionally strong projects. These projects then can be the sites for a variety of activities including dissemination of information and training.

Comment. One commenter questioned why outside evaluators are required for the LEA program, when they are not required in the law.

Response. The phrase is deleted from the final regulations. § 163b.12, § 163c.14, § 163d.13 (§§ 160c.37, 160c.48, 160c.66) *Project period.*

Comment. Several commenters stated that one year funding for a Community Education project is too short, and that a minimum of two years should be considered for community education project funding. One commenter wanted a five year maximum while another

wanted a three year maximum. Some felt annual review was necessary and others wanted two years or more of funding guaranteed when the application was approved. Another commenter questioned why the regulations limit grants to two years.

Response. It is anticipated that the Community Education Program will fund primarily 12 month project grants, since this allows funding of more projects with limited funds. Projects may apply for competitive renewal.

Comment. One commenter suggested that the Commissioner delegate the task of selecting appropriate LEA projects for funding to a State liaison officer who would have more knowledge about local capabilities.

Response. No change is made. Section 809 of the Act authorizes the Commissioner to make grants to LEAs. It is the Commissioner's responsibility under the Act to select projects for funding. Delegating this responsibility to a State liaison officer is not authorized.

Comment. One commenter felt that State directors should be allowed to award funds to exemplary community education programs.

Response. No change is made. Each State must develop a plan for utilization of State monies under the State Community Education Program Funds in the Program for grants to LEAs apply to those discretionary monies flowing directly from the Office of Education Community Education Program to LEAs. For information regarding State formula grants, consult comments and responses under the State Program of this appendix.

Comment. One commenter questioned why the regulations did not refer to the list of eligible activities in Sec. 807 of the Act.

Response. Section 163.6 of the final regulations is revised to include activities listed in section 807 of the Act. This listing provides greater clarity and understanding to the regulations.

Comment. One commenter requested that the Kildee Amendment be incorporated into the regulations.

Response. A provision is added to the minimum elements § 163.4(e) to insure that cooperation exists between an LEA and other public agencies conducting programs or activities similar to those planned, directed, or operated by the LEA.

Subpart D—Grants to Public Agencies and Nonprofit Private Organizations

Section 163c.10 (160c.40) Eligible applicants.

Comment. One commenter was concerned that "nonprofit private organization" was not defined clearly enough. In particular, that individual wanted to know if churches are eligible for funding under this category. Another wanted to know if LEAs are eligible to apply under the public agency and nonprofit private organization category. Another commenter requested clarity by the way of examples of agencies and organizations eligible for funding.

Response. A change is made. EDGAR Part 100c provides clear definitions for these terms. It defines: (1) *"Public"* as applied to an agency, organization, or institution, to mean that the agency, organization, or institution is under the administrative supervision or control of a government other than the Federal government; (2) "Nonprofit" as applied to an agency, organization, or institution, to mean that it is owned and operated by one or more corporations as associations whose net earnings do not benefit, and cannot lawfully benefit, any private shareholder or entity; (3) "Nonpublic" as applied to elementary or secondary school to mean nonprofit elementary or secondary school that is operated or controlled by an organization that is not a public agency; and (4) "Private" as applied to an agency, organization, or institution, to mean that it is not under public supervision or control.

These terms are added to the EDGAR references in § 163.3(a) (§ 160c.3(a)). A church is not eligible for funding under this category since this would violate the establishment clause of the First Amendment. An LEA could qualify as a public agency under the program for grants to public agencies.

Comment. Several commenters felt that SEA's should be included in this category under the program for grants to Public Agencies and Nonprofit Private Agencies and hence be eligible for funding. There was one commenter who objected to inclusion of SEAs in this category, and one who felt that if SEAs were included, equal opportunity for grants should be given to public agencies and nonprofit private organizations. One commenter suggested that only those public agencies and nonprofit private organizations not already provided for in the other categories of funding be eligible to apply under this category. Two commenters expressed concern about double funding of SEA's. They were particularly concerned that with the money from the State formula distribution the SEA would have more staff time to devote to preparing a good proposal, thus making competition difficult for public agencies and nonprofit private organizations. Others questioned the reason for separating SEAs out and treating them differently than other public agencies and nonprofit private organizations.

Response. No change is made. These comments are closely related to comments on § 163c.11 (160c.41). Refer to the response to those comments for clarification.

Comment. One commenter questioned need for § 163c.11(b)(2) (§ 160c.40(b)(2)). The same commenter requested information as to why duplication is judged on the basis of the type of grantee rather than nature of the project.

Response. No change is made. The basis for determining the use of a contract or a grant is set out in the Federal Grant and Cooperative Agreement Act of 1977 (Pub. L. 95–224). That Act requires a Federal agency to use a grant, procurement contract, or cooperative agreement, depending on the relationship between the Federal government and the recipient. In the case of contracts and grants, if the relationship is one where the principal purpose is to acquire property or services for the direct benefit of the government, a procurement contract must be used. However, if the principal purpose is one of support or stimulation authorized by the statute, a grant must be used. Activities that would, for example, directly benefit the government would be carried out by contract and not by grant.

Further discussion regarding this comment is found in the first response on § 163c.12.

Section 163c.11 (160c.40) What kinds of projects does the Commissioner assist?

Comment. One commenter wanted the regulations revised to allow for the use of a wider variety of buildings, including those other than school buildings.

Response. No change is made. The minimum element in § 163.4(e)(1)(i) (§ 160c.4(e)(1)(i)) allows for community colleges, junior colleges, recreation, or park centers to serve as a community center; § 163.4(c)(1)(ii) (§ 160c.4(c)(i)(ii)) includes satellite centers; and § 163.4(e)(i) (§ 160c.4(e)(i)) includes "other public facilities" in addition to schools. This broad range of facilities should meet the commenter's concern.

Section 163c.12 (160c.41) State educational agency projects.

Comment. Several commenters expressed support for allowing SEAs to receive funds under the program for Grants to Public Agencies and Nonprofit Private Organizations. One commenter questioned the inclusion of § 163c.12(b) (160c.41(b)). Another approved the

inclusion of the subsection, provided programs receiving Federal assistance are required to avail themselves of SEA assistance. Another commenter stated that SEA's should provide assistance to all community education programs, and not just to those that receive Federal funding.

Response. No change is made. SEAs have played a pivotal role in implementing the Community Schools Act of 1974. They have taken the leadership role in building a natural base for continued community education growth. The Community Schools Act has assisted States to develop a capacity to carry on after the withdrawal of Federal support. This modest Federal investment in a large number of States has provided a mechanism to assist LEAs and active State leadership in implementing community education nationwide.

Given the possibility that the State formula program may not be funded, an avenue is provided to preserve the SEA role in community education by funding SEAs as a separate category in the program for public agencies and nonprofit private organizations. Not to include SEAs would destroy the previous Federal investment. To group SEAs with all other public agencies would undermine any strategy to build SEA capacity. The language of Sec. 810 of the Act is broad enough to cover the funding of specific public agencies, including SEAs. This approach is consistent with the broader Congressional intent in enacting the Community Schools and Comprehensive Community Education Act of 1978. That intent is that SEAs play a larger, not a smaller, role in the Community Education Program. Indeed, the very purpose of the State formula program in Sec. 808 is to recognize the critical role of SEA leadership in community education and to make the SEAs increasingly responsible for community education in their States. Not to maintain a role for SEAs would cause a hiatus in State leadership activities that have been achieved under the program up to this point and impair the States' ability to undertake their responsibilities under the State formula program if it is funded in the future. Provisions in the regulations providing for the reservation of funds to support State technical assistance projects is consistent with overall congressional intent in creating the Community Schools and Comprehensive Community Education Act of 1978.

This does not mean that all funds under this program would necessarily be restricted to any one category. The regulations allow for annually establishing priorities among areas or reserving funds for them in a notice inviting applications.

Comment. One commenter inquired if SEAs can use § 163c.12 (§ 160c.41) monies for flow-through grants to LEAs as well as for general assistance.

Response. No change is made. These SEA funds are for SEA use and not intended for subgrants.

Section 163c.13 (160c.42) Nature of projects for other public agencies and non profit private organizations.

Comment. One commenter questioned why § 163c.13(b) (160c.42(b)) requires programs of national significance. Another strongly supported the "national significance" thrust in the regulations. Two other commenters were also concerned about the meaning of "national significance" and the fact that what is new in one area, may be standard practice in another, yet the first area may need the Federal funds to get a community education project off the ground.

Response. No change is made. Because of the newness of community education, the different funding categories under the Act, and the anticipated limited funding, the regulations continue to focus on projects that can have maximum impact on the nationwide development of community education.

"National in scope" means projects that may be of national significance, not necessarily projects that are national in coverage. This section does not exclude local models. A project may be national in scope or involve an approach that may be replicated by other national, State, or local agencies and organizations.

Comment. One commenter suggested that the language in § 163c.13(a) (§ 160c.42(a)) be added to the language describing eligible applicants in § 163c.10 (§ 160c.40) and that the language in § 163c.10 (§ 160c.40(a)) concerning types of projects eligible for funding be added to the criteria in § 163c.13 (§ 160c.42).

Response. No change is made. These two sections of the regulations should not be read in isolation, but considered in relation to the other sections of the regulations. An applicant must be aware of the requirements in §§ 163c.10 through 163c.13 (§§ 160c.40 and 160c.42), as well as other sections of the regulations, prior to developing a proposal for funding.

Comment. One commenter suggested that elected officials be specifically named in § 163c.13(a)(1) (§ 160c.42(a)(1)).

Response. No change is made. Please refer to response to comment in §§ 163.4(c), (f) and 163a.27 (§§ 160c.4(c), (f) and 160c.19).

Comment. Two commenters expressed concern regarding coordination between LEAs and other public agencies and nonprofit private organizations. One of these commenters suggested that public agencies and nonprofit private organizations be mandated to work cooperatively with the U.S. Office of Education, the SEA, and appropriate LEAs.

Response. No change is made. Coordination among relevant agencies is required in the regulations, including provisions aimed at preventing duplication of services. See §§ 163.1(b) (2) and (5); 163.4(3), (f), and (g) (§§ 160c.1(b) (2) and (5); 160c.4(3), (f), and (g)).

Comment. One commenter inquired as to the reason for including the requirements in § 163c.13(d) (§ 160c.42(c)).

Response. No change is made. Section 802(b) of the Act states that one of the purposes of the legislation is to provide for a research and development emphasis in community education which can contribute to an improved formulation of Federal, State, and local policy. The present legislation also requires evaluation and assessment of the community education program efforts. In order to meet these purposes, it is important that the Commissioner be able to show results of program efforts. The Commissioner considers evaluation and dissemination to be as important as the actual development of projects. A primary intent is to make program results accountable, understandable, and available to the Office of Education and the public as well as to the Congress. Program results will become a basis for research findings regarding the community education processes that have proven to have the greatest potential for success.

Comment. One commenter stated that the list of authorized activities in § 163c.13(c) (§ 160c.42(d)) appears narrower in scope than the law. Another felt that funding priority should be given to local projects that have potential for national significance.

Response. Grantees from national, regional, State, and local levels are eligible. The regulations do not restrict participation to a narrow clientele, nor have they restricted types of activities that can be carried out by that clientele beyond the authority of the Act.

Comment. A few commenters stated that SEA's should have the opportunity to review applications from public agencies and nonprofit private

organizations just as they are afforded the opportunity to review LEA applications under the LEA program.

Response. No change is made. Certain problems arise if SEAs review and comment on these applications, since SEAs as potential grantees under the program for public agencies and nonprofit private organizations would be reviewing other potential grantees in the same program.

Comment. One commenter inquired as to why the regulations do not refer to Sec. 807 of the Act.

Response. The regulations have been revised to incorporate the list of programs in Sec. 807 of the Act. This list has been added to § 163.6 (Scope of eligible project activities) of the regulations.

Section 163c.31 (160c.45) Criteria for evaluating applications from State educational agencies.

Comment. One commenter questioned the appropriateness of these criteria and specifically questioned why SEAs are eligible under this program in light of similar activities in the State formula program.

Response. No change is made. This comment is directly related to similar comments made in relation to §§ 163c.10 and 163c.12 (§§ 160c.40 and 160c.41), concerning inclusion of SEAs within the public agencies and nonprofit private organizations. Please see responses to comments under § 163c.12 (§ 160c.41).

Comment. One commenter felt that the words "has planned for" should be inserted after "has developed" in § 163c.31(f) (§ 160c.45(b)). The commenter felt that grants to increase SEA capacity should not require the SEA to have all elements in place at the time the proposal is submitted.

Response. No change is made. The regulations provide grants to SEAs in this program to carry out State level planning and interagency coordination of activities and statewide dissemination activities and to provide support to one or more specific community education program. The regulations require only that an assessment of State-level organizations and resources be made, and a series of planning activities be prepared prior to presentation of an application to the Office of Education. Sufficient information is required to be able to judge program content and purpose.

Comment. One commenter stated that § 163c.31(g)(2)(i) (§ 160c.45(c)(2)(i)) is not clear. Another person recommended that this section be revised to read "assisting LEAs to meet all the minimum elements". Two commenters felt that more emphasis should be devoted to helping LEA's develop community education plans to meet the minimum standards.

Response. A change is made in accordance with the above comments. Refer to § 163c.31(g)(2)(i) (§ 160c.45(c)(2)(i)) in the final regulations.

Comment. One commenter suggested that § 163c.31(g)(2)(iii) (§ 160c.45(c)(2)(ii)) be made stronger by requiring LEAs to seek involvement and assistance from SEAs at the outset of application development.

Response. No change is made. The criteria in § 163c.31 (§ 160c.45) govern activities conducted by SEAs. Therefore, it is inappropriate that the Commissioner regulate LEAs in this section. All LEAs are encouraged to avail themselves of the assistance provided by SEAs as soon as possible and to assist SEAs in developing and carrying out a State plan for community education development.

Section 163c.32 (160c.46) Criteria for evaluating applications from other public agencies and nonprofit private organizations.

Comment. One commenter wanted the word "client" in § 163c.32(f) (§ 160c.46(b)) replaced with "initiators, administrators, and sponsors of community education projects."

Response. No change is made. The Commissioner agrees that "clients" may include initiators, administrators, and/or sponsors of community education projects, but has chosen to use a broader term that might include any individual or group involved in designing and operating a project.

Comment. Two commenters were concerned that § 163c.32(f) (160c.46(b)) does not reflect the specific requirement of Sec. 810 that nonprofit groups must enter into contractual or other suitable forms of agreement with the LEA concerned. Another commenter recommended that a public agency and nonprofit private organization be required to sign a cooperative agreement with the LEA in its service area.

Response. A change is made. New language is added to § 163c.32(f)(2) (§ 160c.46(b)(2)) to reflect this concern.

Comment. One commenter wanted to add language requiring citizen involvement and agency coordination.

Response. No change is made. As written, the criteria reflect a need for participation by clients who would be involved in the project and by appropriate agencies §§ 163c.32(f), 163c.32(g) (1) and (3) (§§ 160c.46(b), 160c.46(c) (1) and (3)) require involvement of one of these two groups. Additionally, the minimum elements require that all local programs include identification and utilization of community resources and interagency cooperative arrangements (§ 163.4(e)) and community involvement (§ 163.4(g)).

Subpart E—Training Grants to Institutions of Higher Education

Section 163d.10 (160c.60) Eligible applicants.

Comment. One commenter questioned the inclusion of "short term". Another commenter questioned why training is short term in nature.

Response. A change is made. The phrase "short term" has been deleted. However, the regulations focus on training in order to use the limited funds available to train the maximum number of people to have the greatest impact upon community education programs within the authorized life of the Community Schools and Comprehensive Community Education Act. Since private funds now support approximately 80 centers for community education which currently provide full-time degree training, Federal funds should not be utilized to supplant existing programs or duplicate the same training opportunities that they provide. Training should be offered at such times and in such a manner as to allow participation by those persons who are in fulltime positions yet need new skills, or retraining in community education. This type of training can be carried out with a minimum disruption to work responsibilities.

Comment. One commenter wanted to know if IHE/LEA consortia are eligible under this category.

Response. No change is made. The regulations reflect the statutory requirement for training grants; recipients must be institutions of higher education. However, an IHE and an LEA could enter into a cooperative arrangement or consortium to apply for a project. The requirements governing groups of applicants are set out in §§ 100a.127–100a.129 of EDGAR. The IHE must, under Section 812 of the Act, be the lead or administration agency of the group. In other words, the IHE must remain primarily responsible for the project.

Section 163d.11 (160c.61) Types of projects.

Comment. One commenter pointed out that the regulations make no attempt to require applicants to consult with publishers as required under Sec. 426 of the General Education Provisions Act (GEPA). This section requires consultation with publishers in projects

that involve the development of curricula or instructional materials.

Response. No change is made. However, since this requirement as part of section 426 of GEPA applies to all Office of Education programs it will be included in EDGAR which will be soon published in final in the Federal Register. The Community Education Program is subject to EDGAR.

Section 163d.12 (160c.62) Training activities.

Comment. One commenter suggested that § 163d.12 (§ 160c.62) should be expanded to include training to improve leadership and administrative skills necessary to supervise and coordinate programs and to provide training and development of community leaders from among participants on local advisory councils. Another commenter recommended that training include "the training of individuals to work with public institutions and the training of public institutions to work with individuals within the context of the act".

Response. Appropriate changes are made in § 163d.12 (§ 160c.62) of the regulations.

Comment. Several commenters supported this section of the regulations as written. One commenter felt more emphasis needs to be devoted to training LEA personnel. Another expressed an opinion that this section should not limit proposals to those listed.

Response. A change is made. In developing § 163d.12 (§ 160c.62) of the regulations (Training activities) the primary concern was that the potential of this training category not be limited. Section 160c.62(a) of the draft regulations has been deleted from § 163d.12 of the final regulations. That section provides for a great diversity of training areas and of flexibility concerning the kind of information conveyed. Training is not geared to a specific audience; it does not eliminate particular groups. It is designed to fulfill the congressional mandate and provide general parameters to meet current training needs in community education.

Comment. One commenter pointed out that § 163d.12(c) (§ 160c.62(b)(3)) leaves out the legal requirement that institutions of higher education should show evidence of working with State and local educational agencies.

Response. A change is made. The final regulations reflect this requirement in Sec. 812(b)(2) of the Act.

Section 163d.31 (§ 160c.65) Criteria for evaluating applications for training projects from institutions of higher education.

Comment. One commenter suggested that extra criteria points be awarded to those applicants that involve publishers in the development of training materials.

Response. No change is made. Grantees are encouraged to consult with a wide variety of groups in carrying out the project. Section 426 of GEPA requires consultation with publishers when grants are awarded for the development of curricula or instructional materials. Training projects in community education do not necessarily involve this type of activity. The types of projects in § 163d.11 (§ 160c.61) and activities in § 163d.12 (§ 160c.62) are representative of the types of projects or activities that the training grant may include. The list is not all inclusive. Since all grantees may not wish to include a curriculum development component, it would be inappropriate to include criteria points for this consultation.

Comment. One commenter suggested that too many points are awarded in § 163d.31(i)(2) (§ 160c.65)(e)(2)) for programs which impact a given audience or group, given the program emphasis on serving all segments of the community. The same commenter felt too much weight was given to dissemination, since the law indicated no need to impact beyond the area served.

Response. No change is made. The Commissioner awards a maximum of 100 points for all criteria under § 163d.31 (§ 160c.65). The maximum for dissemination is only 15 points or 15 percent of the total possible. The maximum points for the total criteria, potential for advancing community education, is 20 percent of the total possible, of which § 163d.31(i)(2) (§ 160c.65(e)(2)) is one of three factors. Thus, weight for this criterion is approximately 7 percent of the total possible points. It is important to note that major weight is given to EDGAR criteria. An applicant must address all areas, yet the absence of only one (outside EDGAR criteria) may not adversely affect that applicant. However, the criteria mentioned above are important components of training grants. The Commissioner encourages projects that will develop quality methods and procedures to advance community education. A primary consideration in selecting projects is their potential for appylying project results to other settings.

Comment. One commenter recommended that the regulations provide that contracts for the dissemination of materials be awarded on a competitive basis to public or private organizations which will provide assurances that the curricula and instructional materials will reach the target population for which they were developed.

Response. No change is made. These sections of the regulations do not apply to procurement contracts under the Act. For information concerning contracts, please refer to § 163.2(c) (1) and (2) (§ 160c.2(c) (1) and (2)).

Note.—This Appendix B will not be published in Title 45 of the Code of Federal Regulations.

Appendix B—Guidelines for State Community Education Program

1. *Purpose.* These guidelines are recommendations and suggestions for meeting the funding requirements for States under Sec. 808 of the Community Schools and Comprehensive Community Education Act of 1978 and its implementing regulations.

The guidelines describe permissible means of meeting the legal requirements of the Act and regulations and may be relied upon to that extent. The guidelines are not to be construed as legal requirements. Programs that do not come within these guidelines will not be prejudiced.

While there is a variety of ways that an applicant may plan for and then implement a State plan for community education, the following suggestions and guidelines are intended to assist a State in meeting the minimum requirements of the Act and in going beyond those requirements to implement a high quality State program.

(20 U.S.C. 3288, 45 CFR 163a.10)

2. *State educational agency functions.* With respect to the State plan, the regulations specify several requirements that can be met more effectively if adequate planning is carried out prior to submission of the plan. It should be helpful to a State in preparing its plan to consider the dual functions of a State community education program staff:

(a) *State-level and statewide activities.* These include—

(1) Developing and carrying out activities related to State-level planning, interagency coordination, statewide dissemination of information, and obtaining and maintaining citizen participation in the statewide community education effort;

(2) Conducting needs and resource assessments of State agencies and organizations;

(3) Cooperating with institutions of higher education for community education training;

(4) Coordinating activities with other statewide agencies, organizations, and associations; and

(5) Creating statewide awareness of community education.

(b) *Technical and financial assistance.* This includes—

(1) Providing technical and financial assistance to local community education programs within the State, including assistance to LEAs in meeting the minimum elements of the Act;

(2) Helping LEAs to develop applications for assistance under the Act;

(3) Helping LEAs to establish and maintain task forces and advisory bodies;

(4) Assisting local directors of community education, their staffs, and community members in the preparation of local budgets for community education;

(5) Helping evaluate local programs; and

(6) Assisting LEAs to work within the State plan for community education.

(20 U.S.C. 3284, 3288; 45 CFR 163a.11)

The guidelines that follow in sections (3) through (11) of this appendix apply to both State-level and statewide activities and assistance to local community education programs. Each State should consider the following areas while preparing the State plan and develop procedures to assist LEAs within the State consider these areas.

3. *Importance of citizen involvement in development of State plan.* The potential for success of both statewide and technical assistance programs will be greatly enhanced if there is broad representative involvement of diverse segments of the State's population prior to submitting the State plan, during the actual development of the plan, and during the carrying out and evaluation of the State plan.

The State is encouraged to consider developing an effective structure to citizen involvement. Involvement of a variety of interested individuals and groups within and outside the formal community education network increases the likelihood that the State's plan will reflect the needs of citizens.

(20 U.S.C. 3288; 45 CFR 163a.10)

4. *Ongoing citizen participation.* The State should form Advisory councils or groups of citizens to provide continual advice on the total State community education effort. A basic tenet of community education is citizen participation in education and in community problem solving and decision making. Therefore, it would be anomalous for a State that is supporting community education principles to operate a statewide program without the active and continuous involvement of individuals and appropriate groups, organizations, and agencies. This should include involvement in the planning, assessment, implementation, operation, and evaluation of the State program and local activities.

One method of participation might be an advisory council. While the council should be large enough to represent diverse groups and interests, it should not be so large that its size limits efficient operation. For some States a task force or several sub-unit task forces or study groups might be appropriate. Care should be taken to provide sufficient staff support for any council activities.

In keeping with the principles of community education, there should be active and continuous involvement of groups or individuals rather than short-term and interrupted. Also, in order to make citizen participation a component of all local community education projects, a State plan should include appropriate assistance to LEAs.

(20 U.S.C. 3288; 45 CFR 163a.10)

5. *Selection of community members.* In selecting individuals and groups to serve on an advisory council or otherwise provide advice to the State program, the State might consider the following for membership:

(a) Representatives of such groups as social agencies, recreation programs, community colleges, local action groups, and municipal agencies;

(b) Representatives of Federal and State programs, including the programs in Section 806 of the Act;

(c) Representatives of local community education programs, including personnel from cooperating agencies;

(d) Representatives of LEAs within the State;

(e) Representatives of the State education commission and the chief state school officer; and

(f) Representatives of volunteer organizations.

(20 U.S.C. 3288; 45 CFR 163a.10)

6. *Functions of council or citizen group.* The following are examples of functions that might be performed by an advisory council or citizens' group. The council or group might—

(a) Assist in statewide community education planning, including identification of target populations, assessment of needs, and selection of appropriate activities and priorities in response to these needs;

(b) Recruit personnel to assist State or local community education efforts and assist in identification of resources;

(c) Assist in the development of the staff of the community education program;

(d) Assist in identifying agencies that might desire to be involved in State or local community education efforts;

(e) Assist in disseminating information about community education;

(f) Coordinate the efforts of the community education program with appropriate State or local councils, community groups, professional organizations, public and private agencies; and

(g) Evaluate the State or local community education efforts.

(20 U.S.C. 3288; 45 CFR 163a.10)

7. *Program staff development.* The regulations set out several requirements that can be more effectively implemented if the State program staff have adequate experience and expertise in community education. For example, the State staff assists LEAs to: Work with all ages and with persons with special needs; conduct resource and needs assessments; work collaboratively with community agencies and organizations to provide diverse programs; and involve agencies, institutions, and groups in the community education effort.

While any one staff member may not have all of this experience or expertise, the State staff as a whole should have these experiences or should develop a statewide pool of individuals and groups who can provide assistance to LEAs. Additionally, quality staff training opportunities should be provided to enhance the total staff's ability to provide assistance to LEAs.

(20 U.S.C. 3288; 45 CFR 163a.10)

8. *Board of education support.* The Community Schools and Comprehensive Community Education Act includes a five-year program of decreasing Federal assistance to the States. It is assumed that at the end of the five-year cycle of Federal assistance, the State will have the capacity to sustain community education development from State and local resources. One important step toward establishing a base for this State capacity is to develop State education commission support for community education.

(20 U.S.C. 3288; 3295(a); 45 CFR 163a.10, .26)

9. *Expanding community education programs—needs assessment.* Knowledge of community education programs and services that exist in the

State is helpful in determining how the State should plan to expand community education programs. These guidelines suggest that each State introduce a systematic and effective procedure, on a continuing basis, to identify and determine priorities among statewide and LEA needs and plan activities that directly respond to these needs.

Additional information could be obtained by involving public and private agencies and organizations that might be helpful in (a) recruiting participants in the statewide and local efforts and (b) serving as resources of, for example, expertise, training, materials, and volunteers.

The SEA must consider the level of assistance to be provided to each LEA in one or more of the areas of planning, establishing, operating or expanding community education programs based on the statewide and local needs and resources.

(20 U.S.C. 3288(a)(1); 45 CFR 163a.23(c))

10. *Ten-year plan.* The statute and regulations specify that every State provide assurances in its State plan that it will develop a ten-year plan for the coordination of educational programs with all relevant community services. Collaboration is emphasized with public and nonprofit agencies and in the use of various resources. The intent of the statute is for each State, through shared resources, to assume responsibility for community education development.

The regulations state that the ten-year plan shall be completed no later than two years after the State receives its first grant under the State Community Education Program. The State should attach a copy of its ten-year plan with all three-year State plans submitted to the Office of Education for funding. Also, the State should include any amendments to the ten-year plan and describe how it is implementing the ten-year plan.

The ten-year plan should reflect the long range community education goals of the SEA and detail SEA relationships with other State and local agencies involved in the development of community education.

It would be helpful if the SEA were to involve various agencies in resource identification and in the development of a plan for coordination. This plan should provide for commitment of these agencies to develop community education after the expiration of Federal assistance. Although the regulations specify the involvement of State and local recreation authorities and associations, other State and local service agencies—including agencies providing community education training and other services related to community education—should be involved in the total process.

(20 U.S.C. 3288(a)(2); 45 CFR 163a.27)

11. *Evaluation.* The regulations require each SEA to evaluate each LEA program assisted. Both process and impact evaluations should be conducted. Process evaluation can be defined as a timely examination of project activities with respect to—

(a) How they correspond to plans and resources;

(b) The extent to which they appear to be effective; and

(c) How they can be improved.

Impact evaluation examines final results and asks whether the objectives were achieved and to what degree.

(20 U.S.C. 3288(a)(11); 45 CFR 163a.25)

Part X

Department of Health, Education, and Welfare

Office of Education

Women's Educational Equity Act Program

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

45 CFR Part 160f

Women's Educational Equity Act Program

AGENCY: Office of Education, HEW.

ACTION: Final rule.

SUMMARY: This regulation governs awards for projects of general significance under the Women's Educational Equity Act of 1978. Its purpose is to promote educational equity for women in the United States and to enable educational agencies and institutions to meet the requirements of Title IX of the Education Amendments of 1972. This regulation includes two Subparts. Subpart A (General) includes requirements applicable to the Women's Educational Equity Act Program as a whole. Subpart B (Projects of General Significance) includes the description of authorized activities, program priorities, and evaluation criteria.

EFFECTIVE DATE: The regulation is expected to take effect 45 days after it is transmitted to Congress. Regulations are usually transmitted to Congress several days before they are published in the Federal Register. The effective date is changed if Congress disapproves the regulation or takes certain adjournments. If you want to know the effective date of this regulation, call or write the Office of Education contact person.

FOR FURTHER INFORMATION CONTACT: Dr. Leslie R. Wolfe, Director, Women's Educational Equity Act Program, Room 2147 FOB 6, 400 Maryland Avenue, S.W., Washington, D.C. 20202 (202) 245–2181.

SUPPLEMENTARY INFORMATION:

Background

The Women's Educational Equity Act (WEEA) was enacted in 1974 to promote educational equity for women through a program of discretionary grants and contracts. The Act was reauthorized and substantially revised by the Education Amendments of 1978 and is recodified as Title IX, Part C of the Elementary and Secondary Education Act. The reauthorized Act includes a new purpose, to provide financial assistance to enable educational agencies and institutions to meet the requirements of Title IX of the Education Amendments of 1972.

Rulemaking History

The Commissioner of Education published a Notice of Proposed Rulemaking (NPRM) in the Federal Register on May 25, 1979 (44 FR 30540) to amend the regulation governing the Women's Educational Equity Act Program. The amendments reflected the substantial changes in the Act. These statutory changes were described in detail in the preamble to the NPRM. Additional amendments were proposed for the purposes of program reform and conformity with the Education Division General Administrative Regulations (EDGAR).

The Commissioner received approximately 100 letters, including over 400 separate comments on various sections of the proposed regulation. Public hearings were held in June, 1979, in the ten HEW regional offices and transcripts of the testimony were submitted to the Commissioner. In addition, the National Advisory Council on Women's Educational Programs, which was consulted throughout the development of the proposed regulation, provided detailed comments on the NPRM.

Based on a review of all the comments, the Commissioner has made important changes in both the substance and structure of the final regulation. The next part of this preamble discusses major changes in the final regulation. The last part contains a summary of the comments received on each section of the regulation with a statement of changes made in response to those comments or an explanation of why recommended changes were deemed inappropriate.

Major Changes in the Final Regulation

1. *Assistance Grants of Local Significance:* The NPRM included rules governing awards under a new program entitled "Assistance Grants of Local Significance". The purpose of this program is to support activities incident to achieving compliance with Title IX and activities to ensure equal educational opportunities for both sexes. However, the program has not been funded for Fiscal Year 1980, the year in which this regulation takes effect.

Public comment on the rules proposed to govern this program reflect widespread confusion about their meaning and purpose and raise questions about the ability of the program to operate under the proposed rules. In order to respond to these serious concerns, substantial changes in the regulation are required. To make these changes, the Commissioner must publish a new notice of proposed rulemaking. As a result, publication of a final regulation governing assistance grants of local significance is being deferred.

Rather than issue a new NPRM at this time, particularly as the program is not funded for Fiscal Year 1980 and a final regulation, therefore, is not needed immediately, the Commissioner is initiating an intensive review of the regulation and intends to publish a substantially revised notice of proposed rulemaking next spring. Comments received on the NPRM will be considered in the development of the new proposed rules.

This final regulation, therefore, governs *only the program of projects of general significance.*

2. *Restructuring of the Regulation:* The proposed regulation included a "General" section (Subpart A) and two unnumbered sections: (1) "Demonstration Projects of General Significance", and (2) "Assistance Grants of Local Significance". Each of these unnumbered sections included its own Subparts B through E. The proposed regulation, therefore, had two Subparts B, two Subparts C, two Subparts D, and two Subparts E. This structure made the proposed regulation difficult to follow.

The structure of the final regulation has been changed to resolve this serious problem. The final regulation includes a "General" subpart (Subpart A) which includes all sections that apply to any WEEA grant. Subpart B describes the program of "Projects of General Significance", and Subpart C is reserved for the program of grants of local significance, for which new proposed regulations will be published next spring. Other changes have been made within each subpart to consolidate and clarify provisions of the NPRM. Matters that are treated in EDGAR, such as preapplications and the open meeting requirement, are not contained in the final regulation. There is no change in the substance of the NPRM provisions on these matters.

3. *Program Priorities:* A major change in the Act is a requirement that the Commissioner establish priorities to ensure the most effective use of the funds available. The NPRM identified and described six priorities, which generated extensive public comment. The comments received on these priorities and the Commissioner's responses are summarized in the last section of this preamble.

The final regulation establishes five priorities. Three of the priorities proposed in the NPRM have been eliminated: the priority for demonstrations of WEEA materials and programs; the priority for dissemination centers; and the priority for a national WEAA program for change.

One of the priorities proposed in the NPRM, the priority for groups to receive special emphasis, has been expanded into three priorities. The final regulation

establishes separate priorities for model projects dealing with three groups: racial and ethnic minority women and girls; disabled women and girls; and leaders in educational policy and administration.

The other two priorities proposed in the NPRM, the priority for projects in elementary and secondary education and the priority for high risk-high potential projects, have been revised.

The next paragraphs summarize each of the priorities established in the final regulation.

(a) *Model projects on Title IX compliance:* The purpose of this priority is to develop model programs and materials that will assist educational institutions to achieve compliance with Title IX. Products developed by grantees under this priority can be used by local educational agencies (LEAs), institutions of higher education, community groups, student groups, women's groups and others; these products will be especially useful to applicants for grants to conduct projects of local significance, when the second program of grants of local significance is funded in the future.

The Commissioner expects to support a variety of projects under this priority, focused on various types of users, on various Title IX issues, and on various groups, including educators, parents, and students. The Commissioner also may support projects that include activities that address areas not covered by Title IX, such as textbook reform if these are tied to Title IX compliance activities to be carried out under the grant.

This priority reflects a shift in emphasis from the proposed regulation, which included a priority for "model programs on sex discrimination and sex bias in elementary and secondary education". The primary purpose of the proposed priority was to develop models for use by LEAs and other eligible applicants for grants of local significance. However, the focus was exclusively on elementary and secondary education and the content was broadly defined to include all activities to provide "equal educational opportunities for both sexes". The revised priority focuses on Title IX compliance activities at every level of education.

(b) *Model projects on educational equity for racial and ethnic minority women and girls:* The purpose of this priority is to focus much-needed attention on developing model programs and materials which address the situation of double discrimination faced by racial and ethnic minority women. The Commissioner expects to support a variety of projects that address issues of sex and race/ethnic bias, stereotyping, and discrimination at every level of education and that attempt to develop models for overcoming barriers imposed on minority women by combined race/ethnic and sex bias.

(c) *Model projects on educational equity for disabled women and girls:* The purpose of this priority is similar to that for priority (b) above. The Commissioner will focus attention on developing model programs and materials that address the educational needs of disabled women and that seek to overcome barriers to their full participation in educational programs resulting from double discrimination, bias, and stereotyping on the basis of sex and disability.

(d) *Model projects to influence leaders in educational policy and administration:* The purpose of this priority is to increase the commitment to Title IX compliance and to educational equity for women among educational policymakers, administrators, and organizations. The Commissioner expects to support a variety of projects which develop strategies to ensure Title IX compliance and educational equity. The Commissioner believes that true institutional change can occur only when commitment to it comes from the institution's leaders and is conveyed effectively as a priority for the institution. Many educational leaders need assistance in developing effective mechanisms for conveying their support for educational equity for women in concrete ways. This priority is designed to develop model projects to assist in this effort.

(e) *Model projects to eliminate persistent barriers to educational equity for women:* The purpose of this priority is to support projects that address the most critical and unyielding problems in achieving educational equity. The Commissioner will support projects that focus on critical issues related to intractable institutional or attitudinal barriers to the achievement of equity in areas where little change has occurred, such as physical education, vocational education or educational administration.

In the NPRM, this priority was proposed as a priority for "high risk-high potential" projects. The Commissioner recognizes that projects which try to eliminate the most persistent barriers to educational equity may entail a risk of failure, because solutions are extremely difficult to find and strategies for reaching them may not work. The Commissioner also believes that addressing these severe problems is of great importance in efforts to achieve the purpose of the WEEA—to ensure educational equity for women. The Commissioner, therefore, is willing to target some resources on new strategies to break down these barriers.

In addition to these priorities, the Commissioner may continue to provide funds for other authorized activities related to educational equity for women and girls. The establishment of priorities does not imply that the Commissioner discourages applications in other important areas.

4. *Annual designation of priorities for funding:* The NPRM proposed that the Commissioner would select from the priorities described in the regulation those to be funded each year; the NPRM did not provide for public involvement in this process. While the final regulation does not require the Commissioner to use public comment procedures, the Commissioner intends to solicit public comment each year on which priorities should be selected for funding and on the amount of funds to be allocated to each selected priority. The only circumstance under which the Commissioner foresees that public comment would not be solicited is when time does not permit the use of these procedures. Because of the lateness of the publication of this final regulation, it would not be possible to make Fiscal Year 1980 awards on a timely basis if public comment on this year's priorities were solicited. As a result, this year's priorities are set out in the application notice published in the Federal Register on February 26, 1980 at FR 45 12499. In future years, the Commissioner anticipates that public comment will be possible.

The Commissioner believes that the priorities set out in the final regulation reflect the WEEA Program's policy of targeting its resources on areas of greatest need, supporting the development of model projects to provide educational equity for the most underserved groups of women, and encouraging institutional change and the elimination of sexism in educational policy and practices. In addition, the Commissioner believes that, by making many changes suggested by public commenters, the WEEA Program expresses its commitment to public involvement in determining the Program's policy and programmatic strategies for achieving the purposes of the Act. The knowledge and experience of educators, students, the members of the National Advisory Council on Women's Educational Programs, feminist organizations, and other constituents are valuable resources for the WEEA Program. This is the basis for the Commissioner's decision to seek

public comment each year on the annual priorities.

5. *Evaluation criteria:* The criteria for evaluating an application focus on the extent to which the proposed project addresses significant educational equity needs in a realistic and effective manner. Five criteria are established for general grants, for a total possible score of 100 points. In addition to these, a sixth criterion applies only to small grants, for a total possible score of 105 points. These criteria are set forth in §§ 160f.30–35 and are briefly described below:

Section 160f.30—*Need and impact (24 points).* The purpose of this criterion is to determine the extent to which the needs addressed by the project are significant to the achievement of educational equity for women.

Section 160f.31—*Objectives (16 points).* The purpose of this criterion is to determine whether the project's objectives are likely to meet the identified needs and whether the approach to achieving the objectives is a realistic one.

Section 160f.32—*Plan of operation (40 points).* The purpose of this criterion is to evaluate the effectiveness of the proposed strategy and activities designed to achieve the project's objectives. In addition, the proposed management plan, budget, and evaluation plan are evaluated. The process by which the applicant plans to involve appropriate individuals and groups in the project also is reviewed. Finally, the Commissioner evaluates the applicant's specific plans to address the educational equity needs of racial and ethnic minority women in the project.

Section 160f.33—*Applicant's commitment to educational equity for women (10 points).* The purpose of this criterion is to evaluate the applicant's demonstrated commitment to educational equity for all women through review of various factors, including employment practices and programmatic activities.

Section 160f.34—*Staff qualifications (10 points).* Under this criterion the qualifications and capability of both the project director and staff are evaluated. Volunteer experience and involvement in feminist groups are considered, along with formal education and paid work experiences.

Section 160f.35—*Innovative approaches (5 points).* This criterion applies only to applicants for small grants and is designed to evaluate how well the application achieves the purpose of the small grant program, to develop innovative approaches to the achievement of educational equity.

These criteria differ in several respects from those proposed in the NPRM. The changes have been made in response to public comments which are described in detail in the next section of this preamble. The criteria have been rewritten with an eye to simplicity, clarity, and specificity. The following comments were submitted in response to the proposed regulation. After the summary of each comment a response states the changes that have been made in the regulation or the reasons why no change is considered appropriate. The comments are grouped according to the sections of the proposed regulation with which they are concerned.

Section 160f.1—Women's Educational Equity Act Program.

Comment: One commenter recommended that this section state specifically that the purpose of the program is to promote educational equity in all educational settings, including projects sponsored by non-educational institutions, such as the YWCA and other community groups.

Response: The regulation has not been changed. There is nothing in the regulation that would restrict the educational settings in which projects may be carried out. In addition, the regulation clearly states that all non-profit organizations, including community groups, are eligible to apply.

Section 160f.2—Eligible applicants and offerors.

Comment: One commenter criticized the exclusion of profit-making organizations as eligible applicants.

Response: The regulation has not been changed. Section 932(a) of the Act limits eligible applicants to public agencies, nonprofit organizations, and individuals.

Section 160f.4—Educational equity for women.

Comment: One commenter asked that a definition of "equality" be added. Another commenter asked that student organizations be added to the list of groups that should be responsive to the educational needs of women.

Response. The regulation has not been changed. "Educational equity for women" is the term that is relevant for purposes of the WEEA Program. A general definition of equality is unnecessary. The list of groups that should be responsive to the educational needs of women ("* * * policy makers, administrators, instructors, counselors, and other personnel") focuses on those who have authority in the education system. As a result, student organizations, along with other constituent groups, are not included.

Section 160f.10 Demonstration projects.

Comment. Several commenters criticized the prohibition on providing funds directly to an individual for college tuition. Others expressed confusion about whether such costs are, in fact, allowable.

Response. To avoid repetition and confusion, this paragraph has been deleted. However, the regulation states that costs for tuition and fees can be provided only when necessary to the success of a long-term training project funded under a WEEA grant.

Section 160f.12 Equity in education.

Comment. Several commenters objected to the requirement that projects "may address issues of women's rights only within education".

Response. The regulation has not been changed. However, this provision does not limit applicants to those from educational institutions nor does it discourage diversity of project focus. Rather, it limits the focus of WEEA projects to activities that will achieve the purpose of the Act, to "promote educational equity for women". The definition of educational equity for women" included in § 160f.4 is a very broad and inclusive one.

Sections 160f.14,160f.42 Participation by men: Non-discrimination.

Comment. Some commenters supported this provison. Others objected, believing that quotas would be required to prevent discrimination against men. Commenters also suggested that the language of the Act itself is clearer and sufficiently comprehensive. They recommended that the statutory language be used in place of the language in these sections.

Response. These sections have been consolidated and revised to more closely reflect the language of the Act. The regulation does not require that men participate in all WEEA projects. The participation of men in certain activities, such as continuing educational activities for underemployed or unemployed women, may not be appropriate. However, where the participation by men in a project activity would not frustrate the purpose of the activity they may not be barred from participation. This section does not impose an obligation on grantees to recruit men to participate in WEEA projects. As regards employment the elimination of language in the proposed rule prohibiting discrimination in that area is not intended to relieve applicants of their obligation to hire without regard to sex. Rather, repetition of this

requirement in the regulation was regarded as unecessary.

Section 160f.15 General grants.

Comment. One commenter requested clarification on the monetary limits on general grant awards.

Response. The regulation has not been changed. The WEEA Program does not limit the size of a general grant. Potential applicants should refer to the application notice published each year in the **Federal Register** for the range of awards for general grants.

Section 160f.16 Small grants.

Comments. One commenter expressed confusion about the meaning of this provision and another questioned the broad definition of innovative approaches in paragraph (b).

Response. The definition of "innovative approaches" in paragraph (b) has been deleted. In applying the statutory requirement that small grants support innovative approaches to achieving the purposes of the Act, the Commissioner will be guided by the meaning of the term "innovative" in common usage. In addition, a new evaluation criterion for small grants has been added to assess the extent to which the applicant's project will use a new or untried approach to achieving educational equity for women.

Section 160f.17 Contracts.

Comment. One commenter requested clarification regarding this provision.

Response. This section has been rewritten to indicate that contracts may be awarded for particular purposes to promote educational equity and to state the procedures that are used to award contracts.

Section 160f.20 How to use regulations and apply for a grant.

Comment. One commenter objected to the requirement that applicants refer to the regulation, its Appendix, and EDGAR.

Response. To simplify the application process, the Appendix has been omitted in the final regulation. The pertinent information contained in the Appendix, such as the amount of payments for stipends, has been incorporated into the text of the regulation. Applicants still are required to use EDGAR, as it contains many provisions which apply to the WEEA program.

Section 160f.21 State review.

Comment. One commenter requested clearer specification of the role of the State Department of Education.

Response. The requirements for State review of an LEA's application has been deleted because it is not required by the Act and creates an unnecessary burden on LEAs.

Section 160f.23 Preapplications.

Comment. Several commenters urged the Commissioner to institute the preapplication process. The commenters believed that this process makes proposal planning and preparation a much more manageable task.

Response. This section has been deleted because authority to request preapplications is contained in EDGAR (45 CFR 100a.130–100a.134). While it is impossible to require the preapplication process for Fiscal Year 1980 because the regulation will not be published in time to allow for submission and review of both preapplications and applications prior to the closing date the Commissioner intends to use the preapplication process in the future beginning with Fiscal Year 1981.

Section 160f.30 Award decisions for demonstration projects.

Comment. Many commenters agreed that award decisions should be based in part on the need to avoid duplication of previous WEEA projects and to ensure that a variety of delivery systems are supported. Some commenters recommended changes in the section, including the strengthening of the factor relating to the avoidance of duplication. These commenters suggested the addition of points under the evaluation criteria for these concerns. Two commenters critized the use of geographic diversity as a consideration, stating that experts in educational equity, as well as low income and minority women, who are concentrated in certain regions of the country, would be shortchanged. Other commenters suggested the inclusion of student organizations in the list of examples of possible delivery systems. One commenter suggested that postsecondary education (vocational colleges, specifically) be included in the list of levels of education. Finally, commenters suggested that "needs" be added as an additional factor to be considered in making awards.

Response. The regulation has been revised to include "diversity of needs" as a factor to be considered in making grants. Further, student organizations have been included in the list of examples of delivery systems. Because an evaluation criterion already focuses on the extent to which an applicant is knowledgeable about similar projects and demonstrates that its project makes a distinct contribution, the Commissioner believes that further strengthening the factor regarding avoidance of duplication is unnecessary. The factor relating to geographic distribution has been retained. This factor is one among several to be considered and will not lead to the ignoring of an applicant's expertise, nor will it limit support for projects for low income and minority women.

Section 160f.31(a), (b)—Evaluation criteria for demonstration projects (Need and Impact).

Comment: Several commenters suggested clarifications in the language and purpose of the criterion addressing "need". One commenter suggested that this criterion specify Title IX as a purpose of the Act. Other commenters recommended that the criterion include specific requirements that would enhance evaluation of the centrality of the needs to be addressed.

Several commenters were critical of the criterion addressing "impact" and objected to the requirements that applicants submit a dissemination plan and demonstrate financial commitment to the project. The commenters generally agreed that it was unreasonable to require a dissemination plan because it would be duplicative of the work currently performed by the WEEA Programs' dissemination contractor. Commenters suggested that non-traditional recipients, such as women's organizations, would find the requirement for in-kind contributions impossible to meet. Finally, commenters questioned whether organizations have the ability to make an honest commitment to incorporate project results in the on-going program of the agency after termination of the WEEA-funded project. One commenter expressed the concern that such a provision could be misconstrued as a matching requirement for which there is no legal basis.

Response: The criteria for "Need" and "Impact" have been revised and combined into one criterion, for a total of 24 points. The requirements for a dissemination plan and a demonstration of financial commitment have been deleted, in part because they are likely to place an undue burden on many applicants, particularly women's, student, and other community organizations. The criterion has been rewritten to explicitly require applicants to demonstrate how the project focuses on needs that are central to the purpose of the Act, to document the significance of the needs addressed, to show knowledge of similar projects, and to demonstrate how the applicant's project makes a distinct contribution. Applicants also must demonstrate the

national, statewide or general significance of the proposed project.

Section 160f.31(c)—Evaluation criteria for demonstration projects (Plan of operation).

Comment: Many commenters recommended that the criterion for "Plan of operation" be clarified and that the number of points awarded for the management plan and for the reasonableness of proposed costs be reduced. The commenters also objected to the subjectivity and lack of specificity of such terms as "quality" and "understanding", which were used throughout the description of the criterion. Some commenters also thought that the requirement (described in the Appendix to the NPRM) that applicants document the needs of women from special population groups and develop objectives, plans, and activities to address those needs, imposed an undue burden on applicants.

Response: The criterion for "Plan of operation" has been rewritten. A new criterion has been established to assess "Objectives". This criterion is assigned 16 points and evaluates the extent to which the project's objectives are likely to meet the identified needs. The criterion also evaluates the extent to which the approach to achieving the objectives is a realistic one. The criterion still is weighted heavily, with a total of 40 points. However, the number of points for reasonableness of costs has been slightly reduced. In addition, the criterion's requirement that applicants demonstrate "diverse approaches" to the needs of various population groups has been clarified. Specific language has been added to indicate that the criterion evaluates the extent to which the applicant's project will address or can be adapted to address the educational equity needs of racial and ethnic minority women.

Section 160f.31(d)—Evaluation criteria for demonstration projects, (Applicant and staff qualifications).

Comment: Many commenters supported the criterion's reduced emphasis on previous experience in the area of women's educational equity in order to permit the funding of new organizations, particularly grass roots women's groups. Other commenters opposed this provision because it would encourage large institutions and organizations that had exhibited little or no concern for women's educational equity issues to apply and would offer those groups unfair advantage over smaller groups that are less sophisticated in proposal writing. Some commenters suggested that one criterion could be established to consider the qualifications of the project director, staff, and consultants together. Commenters recommended that the Commissioner review the relative positions of women not only on the project staff, but also throughout the applicant institution. Finally, one commenter questioned the feasibility of attempting to judge an applicant's "commitment" to educational equity for women.

Response: The criterion of "Applicant and staff qualifications" has been rewritten. The final regulation includes two criteria, one for "Applicant's commitment to educational equity for women" and one for "Staff qualifications". Each criterion is assigned 10 points. The first criterion evaluates the applicant's demonstrated commitment to educational equity for all women through review of various factors, including programmatic activities and employment practices particularly with regard to positions throughout the applicant institution in which women have been underrepresented. The second criterion assesses the qualifications of the project director and the project staff. Additional points have been added to the criterion for "commitment". These changes indicate the Commissioner's desire to support institutions, organizations, and groups of various sizes, types, and levels of sophistication that have demonstrated a commitment to the full and fair participation of women in their activities at every level.

Section 160f.31(e)—Evaluation criteria for demonstration projects (Priority).

Comment: Several commenters stated that providing an additional ten points to those applicants that chose to compete in a priority area duplicated the evaluation criteria on need and impact and thus served no useful purpose.

Response. The criterion for "Priority" has been deleted. Each application in a particular priority area will be evaluated under the criterion for "Need and impact" on the extent to which it addresses significant needs, demonstrates the importance to those needs, and shows that the proposed project is likely to meet those needs, within the purpose of the priority.

Section 160f.32 Program priorities: General.

Comment. Some commenters questioned whether equal amounts of money would be allocated to each of the six priorities and, if not, who would determine the allocations. One commenter asked whether the priorities selected each year would be only those cited in the final regulation. Several commenters strongly recommended that the Commissioner publish the proposed annual priorities and allocations of funds each year in the **Federal Register** for public comment before final decisions are made. It was recommended that this procedure apply to small grants as well as general grants.

Several commenters objected to the provision that an application which does not identify a priority, or which incorrectly identifies a priority, will be rated with other applications outside the priority areas. Commenters felt that this policy was too harsh, particularly since the proposed regulation also provided an additional ten points in the evaluation criteria that can be earned only by applications within a priority area. Commenters recommended that the Commissioner be required to select the priority under which an application should compete, if the applicant fails to identify a priority or incorrectly selects a particular priority.

Response. The regulation has been revised to make clear that the Commissioner will select priorities to be funded during any given year only from among the priorities included in this regulation. Although it is possible that the Commissioner will decide to allocate equal amounts of money to each priority in a particular year, the Commissioner is not required to do so and will determine each year the appropriate amounts to allocate to each selected priority.

The regulation has not been amended to require the Commissioner to request public comment on proposed priorities and fund allocations each year. However, the Commissioner intends to use public comment procedures each year in which time permits.

The regulation has not been amended to require that the Commissioner select the correct priority for an applicant. Instead, the language of the regulation has been clarified to indicate that applications submitted in a priority area compete only against other applications in that priority and to specify that an applicant must identify the priority area in which it wishes to be considered. Further, applicants may choose to compete for funds allocated to other authorized activities outside the priority area. Applicants which do not identify a priority will compete in this category. The evaluation criterion that awarded up to ten additional points for applicants in any priority area has been deleted.

It is both inappropriate and impracticable for the Commissioner to decide for an applicant in which priority or priorities it should compete. Although the Commissioner wishes to be of assistance to prospective applicants, the

WEEA program expects to receive at least 750 applications in fiscal year 1980. It will be impossible for the Commissioner to review each of these applications in order to select priority areas for them. The Commissioner believes that the amended descriptions of the priorities are clear enough that applicants should not be confused about where their proposed projects are eligible.

Finally, the regulation has been revised to indicate that the Commissioner may apply these priorities to the small grant program and will announce that decision each year. The procedures that govern general grants will apply to small grants as well in any year in which the Commissioner uses priorities for the small grant program.

Section 160f.33 Priority for demonstrations of WEEA materials and programs.

Comment. Most of the comments on this priority were highly critical for a variety of reasons. Several believed that projects funded under this priority would not lead to more widespread use of WEEA materials. Some commenters felt that this priority would represent an unnecessary duplication of both ongoing grant activities and the activities of the WEEA contracts for National Demonstrations of Educational Equity for Women, recently awarded. Many commenters suggested alternative uses for the funds that might be allocated to this priority.

Response. The priority for demonstrations of WEEA materials and programs has been eliminated.

Section 160f.34 Priority for dissemination centers.

Comment. Several commenters suggested substantial revisions to this priority. Many commenters noted that the activities to be supported under this priority directly duplicate activities of both the WEEA dissemination contractor and the Women's Educational Equity Communications Network (WEECN), also funded under the Act. Many commenters wondered how LEAs could compete under this priority; others asked whether materials were to be produced locally or whether materials prepared for national dissemination were to be distributed locally.

Some commenters were confused regarding the definitions of "regional" centers and asked whether the boundaries would be those defined by the ten Federal regions or whether an applicant could form its own region from several counties, cities, or states. One group of commenters opposed the funding of "regional centers", because they might duplicate the activities of the ten regional Sex Desegregation Assistance Centers funded under Title IV of the Civil Rights Act of 1964. In addition, these commenters objected to the funding of centers that would promote the use of WEEA products to the exclusion of other important products developed without the benefit of WEEA grants. They proposed that the funds instead be used to support centers that would serve as network builders and catalysts for community involvement.

Response. The priority for dissemination centers has been eliminated. The confusion expressed regarding its purpose and the serious question of duplication of existing Title IV and WEEA contract activities are compelling arguments. The Commissioner agrees with those commenters who indicated that dissemination of products and materials is one of the WEEA Program's most important activities. Therefore, although this priority has been eliminated, the WEEA Program intends to reassess its dissemination policy and practices during the next year and propose changes where needed to meet more effectively the needs of its grantees and constituents. If necessary, proposed changes will be published for public comment in the **Federal Register.** In the meantime, the WEEA Program welcomes comments on its dissemination activities.

Section 160f.35 Priority for model projects on sex discrimination and sex bias in elementary and secondary education.

Comment. Most of the commenters on this priority proposed a shift in its emphasis. Several commenters objected to the exclusion of postsecondary education while another recommended that the preschool level be included. One commenter suggested that emphasis should be placed on the elimination of sex bias in textbooks through the development of a model textbook series. A group of commenters suggested directing the focus to one or two critical issues that most urgently need attention rather than using the "scattershot" approach. These commenters also objected to the requirement that grantees include in all materials developed an indication of which policies and practices discussed are required by Title IX. The commenters suggested that serious legal questions could arise regarding the competence of any but the official enforcement agency or the courts to determine how the Title IX regulation will be applied.

Response. This priority has been redefined and entitled "Priority for model projects on Title IX compliance". Its emphasis is more clearly on the development of model programs and materials to achieve compliance with Title IX. Products developed under these grants can be used by LEAs and others that will be eligible to apply for grants to conduct projects of local significance when the second program of grants for projects of local significance is funded in the future. The priority has been changed to include all levels of education, not only elementary and secondary education. In addition, clearer direction is provided on types of activities and projects to be supported under this priority.

Although the priority is not targeted narrowly on developing a model textbook series, as one commenter suggested, the regulation makes clear that activities such as textbook reform which are not covered by Title IX may be included in a proposed project if they are tied to other Title IX compliance activities carried out under the project. The provision requiring that applicants indicate in the materials they develop which policies and practices discussed are covered by Title IX has been deleted.

Section 160f.36 Priority for groups to receive special emphasis.

Comment. Numerous comments were received on this priority. More comments addressed § 160f.36(a), "Neediest girls and women", than any other priority area. All of the comments enthusiastically supported the priority's emphasis on the needs of minority, low income, and disabled women. Several commenters strongly recommended that a separate priority be established to address the educational needs of minority women or that special emphasis on minority women be included within the proposed priority. Other commenters recommended the inclusion of additional target groups, such as students, student organizations, community groups, teen-age mothers, single mothers, re-entry women, women over 45, incarcerated women, rural women, and displaced homemakers. Others suggested that discrimination on the basis of marital status and age be added.

Several commenters objected to combining the two subsections of this priority, ((a) Neediest girls and women, and (b) Leaders in educational policy and programs), because they are very different kinds of groups with different needs and concerns. Many commenters

suggested that at least two priorities should be created from the proposed priority to reflect both the significance of each group and the differences between them.

Several commenters feared that the power differential between the educational leaders and the underserved groups represented by "neediest" girls and women would lead to a shortchanging of the latter. These commenters believed that proposals focused on educational leaders would inevitably have an unfair advantage over those focused on minority, low income, and disabled women and girls. Other commenters objected to the combination of poverty and current or past discrimination as criteria for "neediest", because of the implication that minority women must be poverty-stricken in order to achieve high priority. These commenters suggested that poverty and discrimination be separated as criteria for consideration because they reflect different needs and problems.

Most of the commenters on the subsection for "leaders in educational policy and programs" also recommended that this subsection be established as a separate priority. In addition, commenters recommended that the priority describe the agencies and organizations in more detail, include the information provided in the Appendix, and clarify the language substantially.

Response. The regulation has been changed to separate the priority for "special emphasis" groups into three priority areas. The first responds to the overwhelming concern addressed by commenters and establishes a priority for "model projects on educational equity for racial and ethnic minority women". The second, responding to a similar concern, establishes a separate priority for "model projects on educational equity for disabled women". The third new priority represents an expansion of subsection (b) "Leaders in educational policy and programs". It focuses specifically on the need to increase the commitment to Title IX compliance and to educational equity for women among educational policymakers, administrators, and influential organizations.

The titles of the new priority areas have been revised to more appropriately identify the particular population groups on which the priorities focus. Further, the language of the priorities has been clarified to more explicitly reflect their purpose. The priority for racial and ethnic minority women and the priority for disabled women have been rewritten to reflect their intended emphasis on issues of double discrimination, bias, and stereotyping.

Although some commenters recommended that these priorities focus on various other target populations, the Commissioner believes that the limited resources available to the WEEA Program can be used most effectively if they are targeted more narrowly. Although other groups certainly are in need of assistance in overcoming the effects of sex bias, the Commissioner believes, and most commenters agreed, that the WEEA Program now should address itself to the effects of immutable factors such as race/ethnicity and disability, which combine with sex to produce the most severe forms of oppression and "double discrimination". This is not to say that the needs of older women, teenage mothers, re-entry women, rural women, displaced homemakers, and other groups of women identified by commenters as in need of special attention will not be included in projects funded under the current priorities. The WEEA Program expects to continue its commitments to meeting the educational needs of all women and hopes to receive applications that address these needs under all five priorities, as appropriate, as well as in "other authorized activities" outside the priority areas.

Section 160f.37 Priority for a national WEEA program for change.

Comment. All of the comments on this priority reflected concern about its purpose and possible implementation. Those commenters who approve of the concept of training centers raised concerns regarding eligibility requirements, responsibilities of program participants, and selection criteria for participating school districts. In each case, recommendations for substantial change were made. Some commenters suggested the establishment of quotas for participants on the basis of race, national origin, or handicap. Others recommended that the priority be expanded to include baccalaureate training and long-term training in the area of vocational education. Others suggested that priority be given to women who already have earned certification in administration and supervision.

Several commenters were critical of the proposed priority and expressed doubts about the need to establish multiple training centers. Some commenters feared that the WEEA training centers would duplicate existing efforts, such as those under Title IV of the Civil Rights Act of 1964 and the National Endowment for the Humanities. Other commenters were concerned that employment opportunities would not be available to those women who completed the training. Commenters also were concerned about the concentration on developing new training programs at the graduate level rather than focusing on improving existing graduate programs. These commenters feared the establishment of training "ghettos" and the development of a cadre of unemployed or underemployed WEEA-trained women.

Response. The priority for a national WEEA program for change has been deleted. Although the Commissioner believes that it is both necessary and important to develop future leaders in educational equity for women, the concerns raised by commenters proved compelling, particularly the fear that this priority would lead to the development of a "ghetto" of educational equity workers who would not find long term employment in the field. The WEEA Program instead believes that a more effective strategy is to focus attention, through its other priorities, on training educational leaders and other individuals who have direct influence on educational policy and practices, and thereby increasing their commitment to compliance with Title IX and to advancement of educational equity for women and girls. In addition, to avoid duplication of existing training activities in this area, the WEEA Program will seek to coordinate its activities with existing training programs (particularly those funded under Title IV) and jointly determine the extent of need for additional training centers, programs, or courses.

Section 160f.38 Priority for high risk-high potential.

Comment. All of the commenters on this priority supported the special emphasis on difficult and unyielding problems in the achievement of educational equity for women. Many also offered suggestions for improvement of the priority. Several commenters recommended that the regulation identify a similar "critical issues" priority, that would address intransigent and important barriers to educational equity for women, but would be defined more precisely. These commenters suggested that the Commissioner annually select one critical issue from among those enumerated and invite applications to address different aspects of the problem. Other commenters requested additional guidance to applicants to enable them to determine whether their proposed projects would fall under this priority or another.

Response. The priority has been revised to clarify its purpose and to respond to commenters' concern that applicants need additional information to determine whether their proposed projects fall under it. The priority now is entitled "Priority for model projects to eliminate persistent barriers to educational equity for women". Although a separate "critical issues" priority has not been established, the rewritten priority incorporates the concepts embodied in the recommendation to the extent possible. The Commissioner has chosen not to limit the selection of issues in future years to only certain critical issues defined at this time. Rather, the regulation defines the concept of persistent barriers to be addressed by this priority. The particular issues may change over time. Each applicant has the opportunity to demonstrate the significance of the issues to the achievement of educational equity and the persistence of the barriers that the project addresses.

Section 160f.40 Evaluation.

Comment. One commenter questioned whether the Commissioner has the authority to require successful applicants to submit an additional evaluation plan as a condition of the grant award.

Response. The section has been rewritten to make clear that the detailed evaluation plan required of successful applicants is merely an expansion of the evaluation plan submitted in the grant application and is not an additional requirement. An applicant that submitted a sufficiently detailed evaluation plan with its application is not required to submit an additional plan.

Sections 160f.50–160f.82 Assistance grants of local significance.

Comment. The commenters on these sections generally were critical of the proposed regulation's provisions, and suggested substantial changes in each section.

Response. In order to respond to all of the serious concerns raised by commenters, major changes are required in the regulation for grants of local significance. To make these changes, the Commissioner must publish a new Notice of Proposed Rulemaking. Rather than issue new proposed rules at this time, the Commissioner is initiating an intensive review of the issues raised by public comment and intends to publish a substantially revised NPRM next spring.

Citation of Legal Authority

A citation of statutory or other legal authority is placed in parentheses on the line following each substantive provision of the regulation.

Accordingly, 45 CFR Part 160f is amended to read as set forth below.

Dated: February 14, 1980.

(Catalog of Federal Domestic Assistance Program No. 13.565, Women's Educational Equity Act Program)

William L. Smith,

U.S. Commissioner of Education.

Part 160f of Title 45 of the Code of Federal Regulations is revised to read as follows:

PART 160f—WOMEN'S EDUCATIONAL EQUITY ACT PROGRAM

Subpart A—General

Sec.

160f.1 Women's Educational Equity Act Program: Purpose.
160f.2 Eligible applicants.
160f.3 Regulations that apply to the Women's Educational Equity Act Program.
160f.4 Definitions.
160f.5 Equity in education.
160f.6 Equity for all women: Diverse approaches.
160f.7 Participation by men: Nondiscrimination.
160f.8 Evaluation.
160f.9 Indirect costs.
160f.10 Allowable costs.
160f.11 Payment for training and for participation in the testing of materials and programs.

Subpart B—Projects of General Significance

160f.20 Authorized activities.
160f.21 Types of awards.
160f.22 Program priorities—General.
160f.23 Priority for model projects on Title IX compliance.
160f.24 Priority for model projects on educational equity for racial and ethnic minority women and girls.
160f.25 Priority for model projects on educational equity for disabled women and girls.
160f.26 Priority for model projects to influence leaders in educational policy and administration.
160f.27 Priority for model projects to eliminate persistent barriers to educational equity for women.
160f.28 Award decisions.
160f.29 Evaluation criteria.
160f.30 Evaluation criterion: Need and impact.
160f.31 Evaluation criterion: Objectives.
160f.32 Evaluation criterion: Plan of operation.
160f.33 Evaluation criterion: Applicant's commitment to educational equity for women.
160f.34 Evaluation criterion: Staff qualifications.
160f.35 Evaluation criterion: Innovative approaches.

Authority: Title IX, Part C, of the Elementary and Secondary Education Act of 1965, as amended by the Education Amendments of 1978, Pub. L. 95–561, 92 Stat. 2298–2301 (20 U.S.C. 3341–3348).

Subpart A—General

§ 160f.1 Women's Educational Equity Act Program: Purpose.

The purpose of the Women's Educational Equity Act Program is to award grants to—

(a) Promote educational equity for women in the United States; and

(b) Enable educational agencies and institutions to meet the requirements of Title IX of the Education Amendments of 1972 (relating to nondiscrimination on the basis of sex in Federally assisted education programs).

(20 U.S.C. 3341(b))

§ 160f.2 Eligible applicants.

Public agencies, nonprofit private agencies, organizations, and institutions—including student and community groups—and individuals are eligible to receive grants.

(20 U.S.C. 3342(a))

§ 160f.3 Regulations that apply to the Women's Educational Equity Act Program.

(a) The following regulations apply to the Women's Educational Equity Act Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and Part 100c (Definitions).

(2) The regulations in this Part 160f.

(b) If any provision in other regulations conflict with any provision in this part, the provision in this part applies.

(20 U.S.C. 1221e–3(a)(1))

§ 160f.4 Definitions.

"Act" means the Women's Educational Equity Act of 1978.

"Council" means the National Advisory Council on Women's Educational Programs established under section 936 of the Act.

"Discrimination on the basis of sex" means the denial of opportunity, privilege, role, or reward on the basis of sex, regardless of whether that denial is prohibited by law.

"Educational equity for women" means—

The elimination in educational institutions, programs and curricula of discrimination on the basis of sex and of those elements of sex role stereotyping and sex role socialization that prevent full and fair participation by women in educational programs and in American society generally;

The responsiveness of educational institutions, programs, curricula, policymakers, administrators, instructors, counselors, and other personnel to the special educational needs, interests, and concerns of women that arise from inequitable educational policies and practices; and

The elimination of stereotyping by sex, so that both men and women can choose freely among and benefit from opportunities in educational institutions and programs with limitations determined only by each individual's interests, aptitudes, and abilities.

"Sex role stereotyping" means attitudes and actions that reflect assumptions that because females or males share a common gender, they also share common abilities, interests, values, and roles.

"Title IX" means Title IX of the Education Amendments of 1972. (Pub. L. 92–318).

(20 U.S.C. 3341–3348)

§ 160f.5 Equity in education.

A project must be designed to advance equity for women in education and may address issues of women's rights only within education.

(20 U.S.C. 3341(b))

§ 160f.6 Equity for all women: Diverse approaches.

(a) A project that proposes to address the needs of all women shall address the diverse needs of racial and ethnic minority women, disabled women, women of various socio-economic and geographical backgrounds, and women of various age groups.

(b) A project may focus on the particular needs of women from one or more of these groups.

(c) A grantee shall use approaches to the achievement of educational equity appropriate for the groups on which the project focuses.

(20 U.S.C. 3341(b))

§ 160f.7 Participation by men: Nondiscrimination.

Nothing in these regulations prohibits men and boys from participating in any project or activity funded under this part.

(20 U.S.C. 3343(b))

§ 160f.8 Evaluation.

(a) In addition to the requirements in 45 CFR 100a.590–592 (EDGAR) a grantee shall cooperate with the Council in fulfilling its mandate to evaluate projects assisted under the Act.

(b) Before making an award, the Commissioner requires an applicant to submit a detailed expansion of the evaluation plan submitted with the application, unless the application contained a detailed plan that the Commissioner approves without changes.

(20 U.S.C. 3343(a)(3), 3347)

§ 160f.9 Indirect costs.

The provisions governing indirect costs in 45 CFR 100a.560–568 (EDGAR) apply. Individuals may not receive indirect costs.

(20 U.S.C. 1221e–3(a)(1))

160f.10 Allowable costs.

The Commissioner makes funds available only to pay costs that are directly related to the operation of an approved project.

(20 U.S.C. 3342(a))

160f.11 Payments for training and for participation in the testing of materials and programs.

(a) *General.*

(1) The Commissioner allows the payment of stipends, travel costs, and child care costs to persons who participate in training provided under a grant and to persons who participate in field testing of materials and programs developed under a grant.

(2) The Commissioner approves these payments only if the applicant or grantee demonstrates that the payments are necessary to achieve the objectives of the project.

(3) Participants in training or in field testing activities may receive stipends only if they are not otherwise paid for the time during which they participate in the training or field testing.

(b) *Stipends for short-term training and for testing materials and programs.* (1) Short-term training is part-time or full-time training with a duration of less than one academic year.

(2) *Educational personnel.* Payments to educational personnel may be at the rate of up to $30 for each full day of participation, up to $150 a week. For days involving fewer than 5 hours of attendance, payments may be at the rate of up to $6 an hour, subject to the weekly limit of $150. However, if participating educational personnel are covered by a collective bargaining agreement in which the minimum hourly rate for an individual is more than $6 an hour, they may be paid at the rate provided under the agreement.

(3) *Non-educational personnel.* Payment to non-educational personnel, such as parents, students, and school bus drivers, may be made at rates that are not lower than the current Federal minimum wage rate nor higher than the rate for educational personnel.

(c) *Reimbursement for substitutes.* (1) If an educational agency pays teachers or other educational personnel to participate in short-term training or field testing activities and must hire substitutes for those personnel, the grantee may use funds to reimburse the agency to pay these substitutes.

(2) Rates for substitutes may not exceed the rates set out in paragraph (b)(3) of this section.

(3) A grantee may pay either a stipend to a participant, or a reimbursement for the hiring of a substitute for that participant, but may not pay both.

(d) *Stipends for long-term training.* (1) Long-term training is full-time or part-time training with a duration of at least one academic year.

(2) Stipends for participants in long-term training may not exceed $2925 for a nine month academic year or $3900 for a twelve month academic year.

(e) *Tuition and fees.* The Commissioner makes funds available to cover the costs of tuition and fees for participants in a grantee's long-term training project if the grantee demonstrates that payment of these costs is necessary to achieve the objectives of the project.

(20 U.S.C. 3342(a))

Subpart B—Projects of General Significance

160f.20 Authorized activities.

(a) Grants may support demonstration, developmental, and dissemination activities that promote educational equity for women and girls at any level of education, including preschool, elementary and secondary education, higher education, and adult education.

(b) Types of authorized activities include:

(1) The development and evaluation of curricula, textbooks, and other educational materials.

(2) Model training programs for educational personnel.

(3) Research and development projects.

(4) Guidance and counseling activities, including the development of nondiscriminatory tests.

(5) Educational activities to increase opportunities for adult women, including continuing educational activities and programs for underemployed and unemployed women.

(6) Expansion and improvement of educational programs and activities for women in vocational education, career education, physical education, and educational administration.

(c) A project must have national, statewide, or general significance.

(20 U.S.C. 3342(a))

§ 160f.21 Types of awards.

(a) *General Grants.* The Commissioner may award a general grant for demonstration, developmental, or dissemination activities—at any level of education—designed to promote educational equity for women.

(b) *Small Grants.* The Commissioner may award a small grant, not to exceed $25,000, to support an innovative approach to educational equity for women.

(c) *Contracts.* The Commissioner may award a contract for a particular purpose to promote educational equity for women in accordance with the requirements of the Act and 41 CFR Chapters 1 and 3.

(20 U.S.C. 3342(a))

§ 160f.22 Program priorities—General.

(a) The Commissioner establishes priorities for general grants to ensure that available funds are used for projects that are likely to achieve the purpose of the Act most effectively. The priorities appear in §§ 160f.23–160f.27.

(b) Each year, the Commissioner selects one or more of the priorities and allocates funds to each selected priority.

(c) Each year in the application notice, the Commissioner announces the selected priorities and the approximate amount of funds allocated to each priority.

(d)(1) Applicants may submit applications under one or more selected priorities. Applicants must identify the priorities under which they wish to compete in their applications.

(2) Applications under a priority compete against other applications under that priority for funds allocated to the priority.

(e)(1) An applicant may propose a project that is not under a priority, but is within the scope of the authorized activities described in § 160f.20. These applications compete for funds not allocated to any priority.

(2) If an applicant fails to identify a priority, the application competes with other applications that are not under a selected priority.

(f)(1) Each year the Commissioner may select one or more of the priorities establised for general grants to apply to small grants.

(2) In any year that the Commissioner establishes priorities for small grants, the procedures in paragraphs (b) through (e) of this section apply.

(20 U.S.C. 3345)

§ 160f.23 Priority for model projects on title IX compliance.

(a) The Commissioner gives priority to applications for the development of model programs and materials to enable educational agencies and institutions to meet the requirements of Title IX.

(b) The purpose of this priority is to develop a variety of models for use by local educational agencies and others that are eligible to apply for grants to conduct projects of local significance under section 932(a)(2) of the Act.

(c) Throughout the development and testing of model programs and materials, a grantee shall attempt to address the problems that local educational agencies and other users might have in implementing the models.

(d) An applicant may propose to develop models for one or more types of users, such as local educational agencies, State educational agencies, institutions of higher education, or community groups.

(e) An applicant may propose to develop models to address one or more Title IX issues.

(f) An applicant may propose activities which address areas not covered by Title IX, such as textbooks, if these activities are directly related to other activities designed to meet the requirements of Title IX.

(g) An applicant may focus on one or more groups, such as counselors, teachers, students, parents, principals, faculty, administrators, athletic directors, or deans.

(20 U.S.C. 3345)

§ 160f.24 Priority for model projects on educational equity for racial and ethnic minority women and girls.

(a) The Commissioner gives priority to applications for projects that focus on educational equity for women and girls who are members of racial and ethnic minority groups.

(b) The purpose of this priority is to address issues of double discrimination, bias, and stereotyping on the basis of sex and race or ethnic origin.

(20 U.S.C. 3345)

§ 160f.25 Priority for model projects on educational equity for disabled women and girls.

(a) The Commissioner gives priority to applications for projects that focus on educational equity for women and girls who are disabled.

(b) The purpose of this priority is to address issues of double discrimination, bias, and stereotyping on the basis of sex and disability.

(20 U.S.C. 3345)

§ 160f.26 Priority for model projects to influence leaders in educational policy and administration.

(a) The Commissioner gives priority to applications for model projects designed to increase commitment to Title IX compliance and to educational equity for women among individuals and organizations that affect education policy.

(b) The purpose of this priority is to encourage institutional change by assisting policymakers, administrators, and organizations to take positive steps to ensure Title IX compliance and educational equity for women.

(c) A project may focus on individuals responsible for policy making and administration of educational institutions, such as local educational agency or university administrators, school board members, or members of boards of trustees.

(d) A project may focus on organizations that influence educational policy and practice, such as professional associations, student organizations, parent-teacher associations, or labor unions.

(20 U.S.C. 3345)

§ 160f.27 Priority for model projects to eliminate persistent barriers to educational equity for women.

(a) The Commissioner gives priority to applications that address persistent barriers to achieving educational equity. Projects may focus on barriers that have received little attention in the past. Projects may also focus on barriers that past efforts have been unsuccessful in reducing.

(b) An applicant may propose to develop and demonstrate new approaches, or approaches that have not been tried in a particular area, that have the potential for substantial success but also have few guarantees of success.

(c) Projects may focus on one or more issues related to persistent barriers to the achievement of educational equity for women.

(d) An applicant shall demonstrate in its application the significance of the issue to the achievement of educational equity for women and the persistence of the barrier to be addressed.

(20 U.S.C. 3345)

§ 160f.28 Award decisions.

(a) The Commissioner prepares a rank ordering of the applications under each selected priority, and of those under no priority, on the basis of—

(1) The evaluation criteria in §§ 160f.30–160f.34, in the case of general grants; or

(2) The evaluation criteria in §§ 160f.30–160f.35, in the case of small grants.

(b) The Commissioner selects projects on the basis of the following:

(1) The projects' quality based on the evaluation criteria.

(2) The need for projects that collectively—

(i) Address the diverse needs of women among various population groups;

(ii) Address all levels of education, including preschool, elementary and secondary education, higher education, and adult education;

(iii) Use a variety of strategies for addressing needs; and

(iv) Include a variety of grantees, such as community, student and women's organizations, including those that have a substantial membership of minority or disabled women.

(3) The need to avoid duplication of projects that have already been funded.

(4) The need for geographic distribution of projects throughout the Nation.

(20 U.S.C. 3345)

§ 160f.29 Evaluation criteria.

The evaluation criteria in §§ 160f.30–160f.34 apply to an application for a general grant. The evaluation criteria in §§ 160f.30–160f.35 apply to an application for a small grant. The number of points awarded for each criterion depends on how well the application addresses all the factors under the criterion. The total possible score for a general grant application is 100 points. The total possible score for a small grant application is 105 points.

(20 U.S.C. 3345)

§ 160f.30 Evaluation criterion: Need and impact. (24 points)

The Commissioner determines the extent to which:

(a) The proposed project focuses on needs that are central to the purpose of the Act. (9 points)

(b) The applicant documents the significance of the needs addressed by the project. (7 points)

(c) The applicant shows knowledge of similar projects in the subject area and shows how this project makes a distinct contribution. (4 points)

(d) The model program, product, or results of the proposed project has national, statewide, or general significance to the achievement of educational equity for women. (4 points)

(20 U.S.C. 3345)

§ 160f.31 Evaluation criterion: Objectives. (16 points)

The Commissioner determines the extent to which:

(a) The proposed project establishes objectives which are likely to meet the identified needs. (8 points)

(b) The proposed project describes a realistic approach to meeting the objectives. (8 points)

(20 U.S.C. 3345)

§ 160f.32 Evaluation criterion: Plan of operation. (40 points)

The Commissioner determines the extent to which:

(a) The strategy and activities proposed to implement the projects are likely to accomplish the project's objectives successfully. (8 points)

(b) The applicant plans to develop the project in cooperation with representative groups relevant to the project's success, such as potential participants, community representatives, women's groups, students, key administrators, teachers, or faculty. (7 points)

(c) The applicant demonstrates that the project will address or can be adapted to address the educational equity needs of racial and ethnic minority group women. (8 points)

(d) The applicant sets out an effective management plan including appropriate resource allocation, realistic schedules, and a sufficient amount of time to be spent on the project by the proposed staff members. (8 points)

(e) The applicant describes an effective general plan for evaluation. (3 points)

(f) The budget and narrative show that proposed costs are reasonable in relation to the objectives and scope of the project. (6 points)

(20 U.S.C. 3345)

§ 160f.33 Evaluation criterion: Applicant's commitment to educational equity for women. (10 points)

(a) The Commissioner determines the extent to which the applicant demonstrates its commitment to educational equity for all women, including racial and ethnic minority women and disabled women.

(b) Among the factors the Commissioner considers in determining the applicant's commitment to educational equity for all women, are—

(1) The applicant's staffing pattern, with emphasis on employment of women in positions in which they have been underrepresented;

(2) The applicant's recruiting methods; and

(3) The applicant's other efforts to ensure educational equity for all women.

(20 U.S.C. 3345)

§ 160f.34 Evaluation criterion: Staff qualifications. (10 points)

(a) The Commissioner determines the extent to which:

(1) The project director has the qualifications and capability to conduct the project successfully. (6 points)

(2) The staff has the qualifications and capability to implement the project successfully. (4 points)

(b) In evaluating the qualifications and capability of the project director and staff, the Commissioner considers—

(1) Formal educational training;

(2) Employment or volunteer experience;

(3) Experience in designing, managing, or implementing similar projects; and

(4) Experience in addressing issues of women's educational equity in various contexts and settings, such as community groups.

(20 U.S.C. 3345)

§ 160f.35 Evaluation criterion: Innovative approaches. (5 points)

The Commissioner considers the extent to which the applicant for a small grant demonstrates how the project uses a new or untried approach to achieving educational equity for women in a particular area.

Part XI

Department of Health, Education, and Welfare

Office of Education

Arts Education Program

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

45 CFR Parts 160g, 161c

Arts Education Program

AGENCY: Office of Education, HEW.

ACTION: Final Regulations.

SUMMARY: These final regulations authorize grants and contracts to State educational agencies (SEAs), local educational agencies (LEAs), and other nonprofit public and private agencies, organizations, and institutions for programs that strengthen the arts in elementary and secondary education.

EFFECTIVE DATE: These regulations are expected to take effect 45 days after they are transmitted to Congress. Regulations are transmitted to Congress several days before they are published in the **Federal Register**. The effective date is changed by statute if Congress disapproves the regulations or takes certain adjournments. If you wish to know the effective date of these regulations, call or write the Office of Education contact person.

FOR FURTHER INFORMATION CONTACT: Harold Arberg, Director, Arts and Humanities Staff, U.S. Office of Education, 400 Maryland Avenue, S.W., Mail Stop 113, Washington, D.C. 20202. Phone: 202–472–7793.

SUPPLEMENTARY INFORMATION: Proposed regulations published in the **Federal Register** June 18, 1979 at 44 FR 35186 contain background information on legislative and policy changes in the program and how the regulations are intended to work.

Summary of Comments and Responses

A 60-day public comment period followed publication of proposed regulations in the **Federal Register** (June 18, 1979) at 44 FR 35186. Most responses gathered during this period supporting proposed strategies to meet the new eligiblility provision in the law. Some commenters requested clarification of funding procedures, priorities, and program strategies. A few suggested specific changes in the regulations. About one-half of the respondents commented on three new regulation features—cost-sharing requirements, anticipated larger funding awards, and lack of special emphasis on handicapped children (which was part of the former regulation).

Comments that altered the proposed regulations are discussed in Section A below; other comments requiring clarification or explanation follow in Section B.

A. Comments Resulting in Change

Section 161c.4 Definition of handicapped children.

Comment. A number of commenters asked that the definition of handicapped children that was part of the original regulations also be included in the new regulations.

Response. The definition has been restored to the new regulations to guide applicants in designing programs to serve all children and to provide special consideration to the needs of handicapped children.

Section 161c.10 Elements of cooperation.

Comment. One commenter mentioned that the legislation speaks of "arrangements with public and private cultural organizations" which, in the opinion of the commenter, are not the same as the educational agencies and community resource groups referred to in this section of the regulations.

Response. This section has been altered to include the wording in the law as well as the other terms. "Educational and community groups" were included to promote flexible and realistic consideration of area resources which might help build or strengthen the arts in education. Available arts resources, particularly for rural applicants, may be public service organizations—for example, transportation services for the elderly, factories, and churches—which are not ordinarily viewed as "cultural."

Section 161c.23 and 161c.44 Participation of private school children.

Comment. Several commenters suggested specific language for inclusion of private school children, as required by the Act.

Response. Both §§ 161c.23 and 161c.44 now address requirements for SEAs and LEAs concerning participation by private school children. Appropriate EDGAR provisions are referenced.

Section 161c.32 Criteria for evaluation of applicants

Comment. A number of commenters asked that the criterion encouraging consideration of the special populations such as the handicapped, gifted, and underprivileged be worth 10 points, as in the former regulations.

Response. This change has been made. However, to maintain the 100-point total for criteria, weight of the dissemination criterion has been reduced 5 points. (See § 161c.32(h) and discussion on this point under Section B.)

Comment. A number of commenters felt that larger grants contemplated by the new regulations would discourage applicants and discriminate against poor and rural areas.

Response. A new provision has been added to clarify intent of the regulations in §161c.31, item (b). The regulations do not specify either the size or number of awards, so applicants have flexibility in proposing project funding levels. During the past four years awards were *limited* to $10,000 or less for small planning or "seeding" projects. Applicants may still propose a project at this level; however, some applicants are now ready to proceed beyond the *seed money* stages. Cost-sharing will result in budgets and projects of varying size, depending on local resources available and project needs.

Section 161c.41 Ongoing evaluation activities

Comment. Several commenters questioned the inclusion of this provision which is not mandated by the Act and cited potential paperwork burden on State and local education agencies. One commenter questioned the limit of 10 percent on outside evaluation; one objected to the inclusion of collection of data on teacher achievements.

Response. Wording has been changed to clarify the intent that information will be gathered by each project for its own management purposes, not to generate statistics and paperwork for submission to the Federal program. The provision was included to encourage grantees to develop ongoing evaluation to assist in program planning, improvement, and justification. Information and project documentation may help (1) assure that steps are being taken which will lead to project improvement and success; (2) develop and change strategies; and (3) alter the course of a program.

Outside evaluation is limited to 10 percent to build ongoing strengths into each project which might not otherwise result if the project were to employ only outside experts or teams to provide analysis and evaluation.

Section 161c.42 Funding

Comment. Several commenters requested clarification on sources of cash matching, specifically, whether State funds could be included in a project's budget contribution.

Response. A change has been made in the regulation to clarify program intent; however, the section does not *require* "cash" as part of an applicant's share of project costs. In addition, a new paragraph, item § 161c.42(b)(2), permits matching with Federal funds allocated to States, if an applicant chooses to

make these funds part of a project contribution.

In addition to the above changes, typographical, editorial, and technical changes have been made.

B. Response to Other Comments

The following comments did not result in changes in the regulation either because they were beyond the authority of the Act or concerned matters already addressed in the regulations. Commenters are referred to the proposed regulations, which present the basis and rationale for change in the regulations. A number of comments pertained to administrative operation of the program; however, only comments considered to be regulatory issues are included in this section.

Informal questions and comments from a May 30, 1979, public meeting are included, even though this meeting did not occur during the official 60-day comment period.

Section 161c.1 Arts Education Program

Comment. One commenter inquired as to why the wording in this section did not quote the law.

Response. The wording in the law provides the definition of an "arts education program" in § 161c.4 of the regulations. This section simply indicates that funds are available for projects at the elementary and secondary levels of education.

Section 161c.2 Eligible parties

Comment. Several commenters suggested additional categories and subcategories of nonprofit agencies, organizations, and institutions (such as professional artists, teachers and arts educators, State training schools and community-based alternative education programs).

Response. The paragraph lists a series of examples, including those specifically mentioned in the law, and a few illustrative additional categories. The list is not intended to be exhaustive. Commenters are referred to the law, the background in the proposed regs, and the EDGAR definition of "nonprofit".

Section 161c.8 Program elements

Comment. One commenter felt that the comprehensive approach detracts from teaching the basic fundamentals in each discipline; one questioned the inclusion of the specific four art forms; several commenters felt the elements sacrificed "appreciation" in favor of "skills."

Response. The regulations were not designed to supplant the efforts of LEAs and SEAs in the discrete arts; the program is designed to strengthen, not replace, existing arts programs. In a comprehensive arts education program the arts are taught separately and in relation to each other; they may also be combined with other curriculum subjects. All students are exposed to all arts through integrated arts courses, and the arts are infused into various subject areas, in addition to being offered as elective courses. Students gain skills as well as understanding in, and appreciation of, various arts.

Involvement of all students in a school building in the spectrum of the arts—including at least music, drama, visual arts, and dance—was a central feature of the regulation developed when Congress created the Arts Education Program in the Education Amendments of 1974. All awards made over the past four years went only to SEA and LEA programs which addressed at least these four art forms. This comprehensive arts approach is well integrated into the program's history.

Section 161c.8 states that each project must be designed to "provide opportunities for all students * * * to acquire skills *and understanding* in and through several arts media * * *." (*Emphasis* added.) The term "understanding" implies aesthetic awareness and appreciation of the arts, and the two terms are of equal importance. For more background on this concept, see original regulations implementing Sec. 409 of Pub. L. 93-380.

Section 161c.9 Funding categories

Comment. One commenter inquired why, since the law does not specify it, the Commissioner reserves grants in State, urban, and rural categories.

Response. The "reservation" provision was introduced in the former regulation to ensure that States do not compete with local applicants for funds and, extending this technique to the new regulation, that both urban and rural applicants will be funded. Neither this reservation provision nor the definitions of "urban or large community", and "rural or small community" were intended to exclude any applicant from funding. Rather, the intent is to ensure that all applicants have an equal chance to compete for funds. There is flexibility so that, for example, a small community located on the fringe of a large standard metropolitan statistical area, and therefore "isolated", could apply for funds under the rural category rather than the urban category, but not under both. The demand each year warrants funding in each category.

In the proposed regulations, this section was a provision of § 161c.31. It now constitutes a new section, § 161c.9, which establishes that projects in all three categories—State, urban, and rural—will be funded.

Section 161c.10 Project advisory committees

Comment. One commenter inquired as to why advisory committees were required, since the law did not mandate their formation; others commented on committee composition, ranging from suggestions that the committee be more "open-ended" to suit the individual projects to suggestions for specific and narrowly defined committees. One commenter asked that at least one teacher be included on each committee.

Response. The regulation implementing the original program authorized under Section 409 of the Education Amendments of 1974 required that an advisory committee be established for each project funded. At the State level, the provision facilitated the organization of 50 Alliance for Arts Education Committees that now form a national network for information sharing, technical assistance, and review. At the local level, advisory committee members provided access for schools to the universities, museums, theaters, arts councils, and other cultural resources in rural and urban communities.

The regulations are intended to promote cooperation between the formal education system and the nonprofit public and private agencies, organizations, and institutions, which are now eligible for the first time to apply for funds. Advisory committees, which provided the links between schools and cultural resources in projects funded over the past four years, are again vital to collaboration on programs to "establish and conduct programs in which the arts are an integral part of elementary and secondary school curricula."

"Project advisory committee" has not been formally defined in § 161c.4 in order to allow wide diversity in composition. The statement was intended to suggest the types of people which *might* be represented, but in no way mandates the makeup of each committee.

Section 161c.9 & 10 Urban-rural categories

Comment. One commenter inquired as to why a distinction is made between urban and rural projects and why, in the urban category, minimum numbers of schools served and participating organizations are specified.

Response. The urban-rural distinction is an outgrowth of experience over the past four years with the original

program, which separated State and local applicants. In the "local" category, rural applicants often could not compete with large city school districts that had access to experienced proposal writers and Federal project coordinators. Each year proposal reviewers suggested the urban-rural distinction as a way of equalizing funding opportunities, however limited. Many rural areas may need "seed" money for planning or start-up; many urban school districts are ready to mount demonstration projects at various funding levels. The urban-rural project categories also provide guidance for others wishing to replicate or creatively adapt models of similar size and characteristics.

Urban projects must serve a minimum number of five cooperating schools to encourage development of a network of schools rather than a single program in only one school. The requirement encourages urban areas to design systems that reach as many children as possible. Funds and services concentrated on one school often prove too expensive to replicate or even maintain after Federal funding stops. Urban projects must include a minimum of three nonprofit, nonschool arts resources.

Comment. Several commenters requested an additional category for funding regional or interstate projects.

Response. The regulations do not prohibit either regional or interstate projects. Nonprofit organizations or educational service agencies serving several States might apply in any one of the three categories.

Section 161c.11 Eligible activities

Comment. Commenters suggested additions to the list of activities; some opted for definition of activities; several felt the list gives insufficient guidance as to the types of projects that would be considered eligible. One commenter recommended that funds support only the "excess costs" of planning, development, training and evaluation associated with the initiation of significant new programs.

Response. Neither the law nor the regulation prescribes specific activities to integrate the arts into elementary and secondary education. The list in § 161c.11 is not exhaustive, but includes categories of activities funded by the program over the past four years. Mandating specific activities is beyond the scope of the act. It is assumed that applicants will take the responsibility for program definition, strategies, and content, according to their specific needs and program priorities.

Section 161.12 Project duration

Comment. Some commenters felt that, in view of the expected appropriation level, multiple-year grants would stagnate the program. Some suggested the regulations be more specific about renewal funding; that grants be made for more than one year initially; that continuing grants be competitive with other applications. Others suggested the regulations establish decreasing funding percentages for second and third year funding. One commenter inquired whether a multi-year project would receive preference over a one-year project.

Response. We envision few multiple-year grants in view of the expected appropriation level. However, a few small planning projects funded under the rural category and strong urban and State models may show considerable promise of self-sufficiency or survival within a given time period. These may be supported with decreasing Federal dollar commitments for up to three years, on a case-by-case basis.

In view of the appropriation level, continued funding is expected to be the exception rather than the rule. Even under the competitive refunding of past years, only about one in 10 programs was "refunded." In view of the program's intent to give priority to new projects, the provision remains flexible, and each project will be considered individually.

Section 161c.21 Limitation on number of applications

Comment. One commenter felt that the limit of one grant per applicant could discriminate against urban LEAs.

Response. The provision was established in view of limited funds and collaboration strategies. This limit is reinforced by § 161c.31(b), which allows the Commissioner to add extra points to an application to achieve equitable distribution of projects; i.e., no more than one project per urban area.

Section 161c.22 Joint application

Comment. A commenter inquired whether it is possible for two contiguous school districts in different States to apply jointly and, if so, what the role of each State would be in reviewing the proposal.

Response. Two contiguous school districts in separate States may apply jointly. Each would be subject to review by its own State department of education.

Section 161c.24 State review of local applications

Comment. Several commenters requested that SEA review be a required part of Federal application review.

Response. State review is not mandated by law; however, the regulations provide that State education departments are given 30 days in which to comment on local applications. Reviewers have access to these comments and, to the extent that comments bear upon the published criteria, they may be taken into consideration by reviewers. Although State review is not mandated, a local applicant must send its application to the SEA.

Although State review is not "required," the feature was part of the original regulations. States have in the past used the opportunity to comment in a variety of ways. Some States ranked applicants; some provided equal endorsements for all applicants; some chose not to comment at all or commented on only several applications.

Section 161c.31 How the Commissioner judges applications.

Comment. A commenter suggested that a national committee of experts in arts education be appointed to advise the Commissioner.

Response. This is beyond the scope of the Act. It should be noted that the Federal Council on the Arts and the Humanities may serve as a coordinating and review body to review recommendations of application readers; however, all proposal reviews are ultimately the responsibility of the Commissioner and the staff of USOE. Both review panels representative of the field and the Federal Council may, at the Commissioner's request, be asked to make recommendations.

Section 161c.32 Criteria for evaluation of applications.

Comment. One commenter mentioned that program management was weighted more heavily in the criteria than program content and suggested that this be changed.

Response. The criteria judge a variety of approaches to arts education. Program content has traditionally been the responsibility of the State and local education agencies, and mandating criteria for specific program content is beyond the scope of the Act.

Comment. Commenters inquired as to why dissemination is included as a criterion. One commenter suggested specifications for dissemination awards.

Response. The weight of the dissemination criterion has been reduced from 10 to 5 points to take account of a 5-point increase in the handicapped criterion. However, dissemination is a crucial aspect of a Federal demonstration program with a $1.25 million appropriation. From a project's standpoint, the dissemination criterion encourages projects to consider ways of sharing information. Many project sites are unprepared to handle even the most simple inquiry. In the opinion of program staff, dissemination also provides a way to maximize the investment the Federal program makes in the development of ideas.

National dissemination channels presently include only a few arts projects, and various panels and ad hoc committees have cited "dissemination" as a priority for attention. A guidebook for project directors of arts education programs developed under contract with the Office of Education has been distributed to answer some questions on planning for dissemination; hence, the issue is of concern both under the former and the new regulations.

Grants may include activities which lead to the development of curricula and instructional materials; however, the purpose of the program is not the publication and dissemination of curricula or instructional materials. Dissemination of information about a funded project is part of a grant; dissemination contracts are not contemplated.

Section 161c.32(i) Results, end products, or outcome.

Comment. Several commenters ask why "new and innovative" is included in the criteria, and how it is defined.

Response. In view of expected funding ($1.25 million in fiscal year 1980), application reviewers will be looking for ways in which the Federal dollar can make an impact on projects and, in turn, projects can serve as models which promise new and innovative *approaches, methods,* or *materials.*

What is "innovative" in rural areas may be standard in urban programs; what is routine in a densely populated industrial State may be innovative in a sparsely populated agricultural State. The purpose of the criterion is to spur forward-thinking, carefully planned projects which will result in progress toward increasing the effectiveness of arts education.

Most projects will employ one or several standard activities from the "suggested" list in § 161c.11 of the proposed regulations; however, the program believes that potential for innovation or newness may be in strategies that give form and substance to these activities.

Comment. Commenters questioned the ineligibility of salaries for regular full-time instructional personnel as part of project in-kind or Federal share of costs. One commenter asked if cost exclusion extends to full-time teachers who are moved from teaching positions to work on a project.

Response. The intent of this section is to discourage the use of grant funds for regular teachers' salaries, which are a local responsibility. Salaries of faculty released in whole or in part from teaching responsibilities may be counted in cost-sharing, if substitutes are provided. The percentage of allowable teachers' salaries, including college or university faculty, will be proportionate to the time spent on a project.

In response to suggestions by the public and other interested parties, these final regulations contain provisions that were not in the notice of proposed rulemaking. These include (1) the statute governing this program and (2) the general selection criteria found in the Education Division General Administrative Regulations (EDGAR §§ 100a.202 through 100a.206). The purpose of incorporating these provisions into the final regulations is to enable applicants and grantees to understand better the requirements of this program without having to refer to these additional documents.

Citation of Legal Authority

The reader will find a citation of statutory or other legal authority in parentheses on the line following each substantive provision.

(Catalog of Federal Domestic Assistance No. 13.566, Arts Education Program)

Dated: February 14, 1980.

William L. Smith,

U.S. Commissioner of Education.

45 CFR Part 160g is redesignated as Part 161c and revised to read as follows:

PART 160g—[REDESIGNATED AS PART 161c]

PART 161c—ARTS EDUCATION PROGRAM

Subpart A—General

Sec.

161c.1 Arts Education Program.
161c.2 Eligible parties.
161c.3 Regulations that apply to the Arts Education Program.
161c.4 Definitions.

Subpart B—Kinds of Projects Assisted Under This Program

161c.8 Program elements.
161c.9 Funding categories.
161c.10 Elements of cooperation.
161c.11 Eligible activities.
161c.12 Project duration.

Subpart C—How To Apply for a Grant

161c.21 Limitation on number of applications.
161c.22 Joint application.
161c.23 Application requirements.
161c.24 State review of local applications.

Subpart D—How a Grant Is Made

161c.31 How the Commissioner judges applications.
161c.32 Criteria for evaluation of applications.

Subpart E—Conditions That Must Be Met by a Grantee

161c.41 Ongoing evaluation activities.
161c.42 Funding.
161c.43 Limitations on costs.

Authority: Title III, Part C, of the Elementary and Secondary Education Act, as amended by the Education Amendments of 1978, Pub. L. 95–561, 92 Stat. 2212 (20 U.S.C. 2961).

Subpart A—General

§ 161c.1 Arts Education Program.

The Arts Education Program provides Federal financial assistance for the arts in elementary and secondary education.

(20 U.S.C. 2961)

§ 161c.2 Eligible parties.

(a) State educational agencies (SEAs), local educational agencies (LEAs), and nonprofit agencies, organizations, and institutions may apply for grants.

(b) Nonprofit agencies, organizations, and institutions may include, but are not limited to, libraries, museums, theaters, arts councils and centers, colleges and universities, performing arts groups, and parent, youth, and civic organizations.

(20 U.S.C. 2962)

§ 161c.3 Regulations that apply to the Arts Education Program.

(a) *Regulations for grants.* The following regulations apply to grants under the Arts Education Program:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and 45 CFR Part 100c (Definitions).

(2) The regulations in this Part 161c.

(b) *Regulations for procurement contracts.* The Commissioner may award contracts to carry out the purposes of the Act. The regulations in this part, however, do not apply to procurement contracts under the Arts Education Program. These contracts are subject to:

(1) Federal and HEW procurement regulations in 41 CFR Chapters 1 and 3; and

(2) Requirements and criteria in particular requests for proposals (RFPs) published in the *Commerce Business Daily*.

(20 U.S.C. 1221e–3, 2962)

§ 161c.4 Definitions.

(a) The definitions in 45 CFR Part 100c of the Education Division General Administrative Regulations (EDGAR) apply to these regulations, including the following terms:

Budget
Commissioner
Equipment
Facilities
Local educational agency (LEA)
Nonprofit
Public
State
State educational agency (SEA)

(b) In addition, the following definitions apply in these regulations:

"Act" means the Arts in Education Act of 1978, enacted by Pub. L. 95–561 as Part C of Title III of the Elementary and Secondary Education Act of 1965.

"Arts" includes, but is not limited to, music, dance, drama, folk art, creative writing, architecture and allied fields, painting, sculpture, photography, graphic and craft arts, industrial design, costume and fashion design, motion pictures, television, radio, and tape and sound recording; the presentation, performance, execution, and exhibition of these art forms; and the study and application of the arts to the human environment. (20 U.S.C. 2961, 952(b), Pub. L. 89–209)

"Arts education program" means a program in which the arts are an integral part of elementary and secondary school education and that complies with § 161c.8 (Program elements).

"Handicapped children" means children who need special education and related services because they are mentally retarded, hard of hearing, deaf, speech impaired, visually handicapped, seriously emotionally disturbed, crippled, or otherwise health impaired, or have specific learning disabilities.

(20 U.S.C. 1401, 2962)

"Rural or small community," for purposes of this regulation, means a geographic area—other than a State—isolated from a metropolitan area. Cultural resources outside the schools are nonexistent or limited.

"Urban or large community," for purposes of these regulations, means a standard metropolitan statistical area, as defined in section 617(9) of the Elementary and Secondary Education Act.

Subpart B—Kinds of Projects Assisted Under This Program

§ 161c.8 Program elements.

The Commissioner awards grants to assist in establishing, conducting, or improving arts education programs. Each arts education program to be assisted under a project must be designed to—

(a) Provide opportunities for all students in the schools served by the project to acquire skills and understanding in and through several arts media, including, at least, dance, music, theater, and the visual arts; and

(b) Integrate these arts disciplines into the regular educational program of the schools served, rather than to include them on an extra-curricular or peripheral basis.

(20 U.S.C. 2961, 2962)

§ 161c.9 Funding categories.

The Commissioner may fund grants in each of the areas of (a) State projects, (b) urban or large community projects, and (c) rural or small community projects.

(20 U.S.C. 2962)

§ 161c.10 Elements of cooperation.

(a) An applicant shall develop—and describe in its application—a strategy to work collaboratively with State and/or local agencies, including SEAs and LEAs, schools, community organizations, resource groups, colleges and universities, arts organizations, or other public and private cultural organizations in the geographic area to be served by the proposed project.

(b) The applicant or grantee shall involve these groups in planning, conducting, and improving the arts education program proposed for funding.

(c) To be considered for a grant, an arts education project must meet the following minimum elements of cooperation in the funding category under which the applicant applies:

(1) *All projects.* (i) The project must have a project advisory committee consisting of members broadly representative of education, the arts, business, the professions, and parent and youth groups in the project area. A State applicant shall use the State arts education advisory committee (such as the State Alliance for Arts Education Committee) if one exists. A local applicant shall have on its project advisory committee some representation from the State arts education advisory committee, if one exists.

(ii) The advisory committee shall provide advice to assist with the project, in areas such as—

(A) Planning the project proposal;

(B) Meeting with project staff to review and comment on the progress of the project;

(C) Acquainting the community with the project; and

(D) Disseminating information regarding the project.

(2) *State projects.* The proposed project shall provide for interagency program planning and implementation with at least the SEA, the State arts education advisory committee, the State arts agency, a minimum of three LEAs in the State, and a variety of other State and local arts resource organizations, agencies, and institutions.

(3) *Urban or large community projects.* Project cooperation shall include, but need not be limited to—

(i) Serving the elementary and secondary students of a minimum of five cooperating schools located in one or more LEAs; and

(ii) Participation of a minimum of three arts and educational organizations, institutions, and agencies.

(4) *Rural or small community projects.* The project shall utilize available arts and community resources within the project area and may also use resources from outside the area.

(20 U.S.C. 2962)

§ 161c.11 Eligible activities.

Projects to make the arts an integral part of elementary and secondary curriculums may include, but are not limited to—

(a) Leadership training and staff development;

(b) Community awareness programs;

(c) Technical assistance;

(d) Material and curriculum development;

(e) Planning and coordination;

(f) Documentation and evaluation; and

(g) Dissemination.

(20 U.S.C. 2962)

§ 161c.12 Project duration.

(a) The Commissioner may approve a project for a maximum of three years in accordance with EDGAR §§ 100a.250 and 100a.251.

(b) Any continuation awards for budget periods after the first budget period of an approved multi-year project are made for decreasing amounts of funds. See EDGAR §§ 100a.253–100a.254 for provisions on continuation awards and extension of a project.

(c) In deciding whether or not to make a continuation award, the Commissioner considers the factors in § 100a.253 of EDGAR and the degree to which a project shows school-community cooperation and direct benefit to elementary and secondary arts

education, as evidenced by site visits, reports, project evaluation, and documentation.

(20 U.S.C. 1221e–3, 2962)

Subpart C—How To Apply for a Grant

§ 161c.21 Limitation on number of applications.

The Commissioner approves no more than one project application from an applicant in a fiscal year, whether or not that application is filed jointly with other applicants.

(20 U.S.C. 1221e–3, 2962)

§ 161c.22 Joint application.

A single application may be submitted by a group of eligible parties. Joint applications are subject to §§ 100a.127 through 100a.129 of EDGAR.

(20 U.S.C. 1221e–3, 2962)

§ 161c.23 Application requirements.

(a) An applicant must demonstrate in its application that the proposed project will meet the requirements in the following sections of these regulations:

(1) Program elements (§161c.8).

(2) Elements of cooperation (§ 161c.10).

(3) Cost-sharing requirements (§ 161c.42).

(b) In addition, in preparing a grant application, an applicant should address each criterion in § 161c.32.

(20 U.S.C. 1221e–3, 2962)

(c) *Special requirements for SEA or LEA applicants.* (1) An application from an LEA shall comply with the requirements in §§ 100a.138 through 100a.141 of EDGAR concerning an open meeting on the application.

(2) An application from a SEA or a LEA is subject to the requirements in section 302(b) of the Elementary and Secondary Education Act of 1965, as amended, concerning consultation with private school officials in developing the applications. The requirements are implemented in § 100a.650.

(20 U.S.C. 887e, 2942(b))

§ 161c.24 State review of local applications.

(a) The SEA, working with the State arts education advisory committee, may review and comment on local applications.

(b) If a State advisory committee does not exist, the SEA may assemble a committee for this purpose, using the elements for a project advisory committee in § 161c.10 as a guide.

(c) The local applicant shall send a copy of its application to the SEA, at the same time it sends the application to the Commissioner. The application must show that a copy was sent to the SEA.

(d) The SEA has 30 days after date of receipt of the application in which to review it.

(20 U.S.C. 1221e–3, 2962)

Subpart D—How a Grant Is Made

§ 161c.31 How the Commissioner judges applications.

(a) The Commissioner evaluates an application on the basis of the criteria in § 161c.32.

(1) The Commissioner awards up to 100 possible points for these criteria.

(2) The maximum possible score for each complete criterion is indicated in parentheses next to the heading of that criterion.

(b) To ensure geographic and programmatic diversity, the Commissioner may add up to 10 points to the score of an application that will contribute to—

(i) An equitable geographic distribution of arts education programs throughout the United States in both urban and rural areas;

(ii) A variety in types of projects funded that collectively demonstrate diverse approaches to the arts in elementary and secondary education; and

(iii) A range of funding levels, from small planning or development grants of $10,000 or less to larger awards for model or implementation projects.

(20 U.S.C. 2962)

(c) In selecting new or continuing applications the Commissioner may use the Federal Council on the Arts and the Humanities to review or comment on applications.

(1) The Commissioner may, in conjunction with the Council, identify applications that are within the priorities of other funding agencies on the Council.

(2) The Commissioner may decline to fund applications that are within other agencies' priorities.

(3) Applications may be considered for joint support by the Office of Education and other Federal agencies which are members of the Council.

(20 U.S.C. 1221e–3, 2962)

§ 161c.32 Criteria for evaluation of applications.

(a) *Needs assessment.* (10 points) The extent to which the applicant—

(1) Identifies and analyzes, objectively and comprehensively, the elementary and secondary arts education needs in the area to be served. In judging this criterion, the Commissioner considers the application's description of the geographic location to be served by the proposed project, including school population.

(2) Sets forth clear and measurable objectives that relate to the identified needs.

(b) *Coordination.* (25 points)

(1) Quality of the applicant's plan to mobilize and coordinate activities of all agencies, organizations, and institutions involved. In judging this criterion, the Commissioner considers the application's description of how and why each entity is cooperating in the project.

(2) Consistency with plans and/or activities previously carried out in arts education. In judging this criterion, the Commissioner considers how the project relates to the objectives of the State plan for the arts in education, if one exists.

(3) Extent of commitment and involvement of the SEA and LEAs in the proposed project.

(4) The extent to which the applicant makes effective use of the facilities and services of State and local agencies, institutions, and organizations, beyond the minimum requirements in § 161c.10.

(c) *Plan of operation.* (10 points)

(1) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(2) The Commissioner considers—

(i) High quality in the design of the project;

(ii) An effective plan of management that insures proper and efficient administration of the project;

(iii) A clear description of how the objectives of the project relate to the purpose of the program;

(iv) The way the applicant plans to use its resources and personnel to achieve each objective.

(v) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as members of racial or ethnic minority groups, women, handicapped persons, and the elderly.

(vi) For grants made after October 1, 1980, if the applicant is a local educational agency or State educational agency, a clear description of how the applicant will provide an opportunity for participation of students enrolled in nonprofit private schools.

(d) *Quality of key personnel.* (7 points)

(1) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(2) The Commissioner considers—

(i) The qualifications of the project director (if one is to be used);

(ii) The qualifications of each of the other key personnel to be used in the project;

(iii) The time that each person referred to in paragraph (d)(2)(i) and (ii) of this section will commit to the project.

(3) To determine the qualifications of a person, the Commissioner considers evidence of past experience in elementary and secondary arts education, as well as other information that the application provides.

(e) *Budget and Cost effectiveness.* (10 points)

(1) The Commissioner reviews each application for information that shows the project has an adequate budget and is cost effective.

(2) The Commissioner considers—

(i) The budget for the project is adequate to support the project activities; and

(ii) Costs are reasonable in relation to the objectives of the project.

(f) *Evaluation plan.* (5 points)

(1) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project (see § 161g.41—Ongoing evaluation activities).

(2) The Commissioner considers whether the methods of evaluation are appropriate to the project and, to the extent possible, are objective and quantifiable.

(20 U.S.C. 1221e-3(a)(1), 3001, 3002)

(g) *Adequacy of resources.* (3 points)

(1) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(2) The Commissioner looks for information that shows—

(i) The facilities that the applicant plans to use are adequate; and

(ii) The equipment and supplies that the applicant plans to use are adequate.

(h) *Dissemination.* (5 points)

The Commissioner reviews each application for information that shows the adequacy of provisions for disseminating information about the project.

(i) *Results, end products, or outcome.* (15 points)

The extent to which the proposed project employs or will result in new and innovative approaches, methods, or materials of value in increasing the effectiveness of the arts in education.

(j) *Serving all students.* (10 points)

The extent to which the proposed project is designed to serve the needs of all students in the project area, including the handicapped, gifted, and underprivileged.

Subpart E—Conditions That Must Be Met by a Grantee

§ 161c.41 Ongoing evaluation activities.

(a) Throughout a project period, a grantee is responsible for evaluation acitivities that provide information for effective management of the project, including—

(1) Documentation of all activities for self-monitoring purposes; and

(2) Collection of statistics and data a grantee may feel are needed to assess progress and develop local support; for example, on students served, student and teacher achievements and attitudes, and relationships between other academic subjects and the arts.

(b) The Commissioner may require that some of the information in paragraph (a) of this section be included in project reports.

(20 U.S.C. 2962)

§ 161c.42 Funding.

(a) *OE share.* The Office of Education share is limited to a maximum of 50 percent of the costs of a project.

(b) *Project share.* The project share may include cash or in-kind contributions from the cooperating organizations, agencies, and institutions involved in the project.

(1) In-kind contributions may not include salaries of regular full-time instructional personnel.

(2) Cash contribution may include Federal funds that are awarded—

(i) through a State agency; or

(ii) under an authorized statute which expressly permits matching of Federal funds.

(20 U.S.C. 2962)

§ 161c.43 Limitations on costs.

(a) Federal funds may not be used for—

(1) Direct student financial aid; or

(2) Salaries for regular, full-time instructional personnel;

(3) Equipment worth more than five percent of the total grant amount;

(b) Not more than 10 percent of total project costs may be used for outside evaluation of the project.

(20 U.S.C. 2962)

Department of Health, Education, and Welfare

Office of Education

Metric Education Program

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

45 CFR Part 161b

Metric Education Program

AGENCY: Office of Education, HEW.

ACTION: Final regulations.

SUMMARY: The Commissioner of Education issues final regulations governing grants under the Metric Education Program as authorized by the Metric Education Act of 1978. These grants to State educational agencies (SEAs), local educational agencies (LEAs), and other public and nonprofit private agencies, organizations, and institutions are intended to encourage and support projects that prepare students to use the metric system of measurement with ease and facility as a part of the regular education program.

EFFECTIVE DATE: These regulations are expected to take effect 45 days after they are transmitted to Congress. Regulations are transmitted to Congress several days before they are published in the **Federal Register**. The effective date is changed by statute if Congress disapproves the regulations or takes certain adjournments. If you wish to know the effective date of these regulations, call or write the Office of Education contact person.

FOR FURTHER INFORMATION CONTACT: Dr. Floyd A. Davis, Program Manager, Metric Education Program (Riviere Building, Suite 835), 400 Maryland Avenue, S.W., Washington, D.C. 20202. Telephone: (202/653-5920).

SUPPLEMENTARY INFORMATION: The Metric Education Program, formerly authorized under Section 403 of Pub. L. 93-380 (Education Amendments of 1974) has been reauthorized by the Education Amendments of 1978, Pub. L. 95-561, Section 311.

On May 25, 1979 the Commissioner of Education published a notice of proposed rulemaking (NPRM) in the **Federal Register** (44 FR 30636). Interested persons were given forty-five days to comment on this notice. During this period, a number of comments were received. The paragraphs below summarize these comments and the Commissioner's response to them.

In response to the public comments on the NPRM, certain section numbers have changed (the NPRM section number appears in parenthesis following the new number).

Section 161b.1 What is the Metric Education Program?

Comment. One commenter suggested that the regulations should include a provision which ensures that grantees will consult with publishers in projects that involve the development of curricula or instructional materials.

Response. No change is made in these regulations. This requirement is contained in the Education Division General Administrative Regulations (EDGAR) and applies to all Office of Education Programs. The Metric Education Program is subject to EDGAR.

Comment. A commenter expressed a concern for the language used in § 161b.1 which describes the purpose of the Metric Education Program to be that of encouraging people to learn and use the metric system.

Response. A change is made in this section. The revision describes the purpose of the program as being that of encouraging educational agencies and institutions to develop programs to prepare students to use the metric system of measurement as a part of the regular school program.

Section 161b.2 Who is eligible to receive an award?

Comment. One commenter suggested that because the SEAs can reach more areas and people than can LEAs more funds should be given to SEAs. This would provide greater impact for metric education.

Response. No change is made. The Act does not distinguish between types of applicants (SEAs, LEAs, or other public and private nonprofit institutions) as to the amount of funds each applicant receives for a metric education project. The allowability of costs to support the activities described in the application coupled with the nature of the proposed project design are the bases upon which grant amounts are determined regardless of the applicant.

Comment. One commenter suggested that unsuccessful SEA applicants be given a predetermined minimum of funds, viz., $5,000 to support the development and refinement of their application.

Response. No change is made. This strategy is similar to the issuance of planning grants. The statutory authority does not provide for planning grants.

The Metric Education Program is discretionary in nature. The issuance of awards by the Commissioner is based on the outcome of a competitive process. Since all public and private nonprofit agencies and local educational agencies are eligible to submit applications for funding consideration, the provision of funds to unsuccessful SEAs to improve their applications would result in an unfair advantage for SEAs over other categories of eligible applicants. The Commissioner may provide a feasible level of technical assistance to any applicant in the preparation of their application(s). A national conference is generally held annually. This conference provides technical assistance to grantees including some training in application development. *Non-grantees may attend the conference on a space available basis and must pay their expenses.*

Section 161b.10 What categories of activities are supported?

Comment. Another commenter suggested that priorities be set to maximize the effective use of the U.S. Office of Education's limited (metric education) resources.

Response. No change is made. The Metric Education Program has supported metric educational opportunities and has achieved significant results. However, the Commissioner may, in any given year, emphasize one or more activities upon publication of a notice in the **Federal Register.**

Comment. One commenter felt that more emphasis should be placed on the dissemination of existing metric curricula and related materials rather than on developing new materials.

Response. A change is made in § 161b.10(a)(3) to make it clear that both new and existing instructional materials are covered. The Metric Education Program provides maximum flexibility in the designing of cost effective projects which are responsive to the assessed needs of the grantee's learner population(s). These needs might, in some cases, be met by disseminating existing materials, while in other cases it might be necessary to develop new materials. To the extent that the interest of cost-effectiveness can be accommodated by disseminating existing materials without compromising the needs of the learner population(s), the program encourages it. However, it is up to the grantee to determine the method that best meets the needs of its learner population.

On a national level, adequate effective dissemination of existing materials to educational institutions (including those isolated from national education trends) might be a very costly process.

Comment. One commenter suggested that funds "earmarked" for the "training of the parents of students and for developing metric education curricula for higher education", be used instead for teacher training or other "more productive" programs.

Response. A change is made in this section to eliminate the use of funds for training parents and other adults. However, no change is made with respect to redirecting funds to teacher

training. Funds are not "earmarked" for any particular type of activity. The Commissioner makes discretionary awards as a result of a competitive process. Awards may support any of the types of activities in § 161b.10—What categories of activities are supported? However, the Commissioner may in any given year emphasize certain of these activities listed in § 161b.10 upon publication of a notice in the Federal Register. For example, experience with the program may indicate a need for a particular type of activity such as teacher training. The Commissioner may, through a notice in the Federal Register, seek applications for grants to support this type of activity.

Comment. A commenter expressed confusion over the types of activities that can be supported under a procurement contract, since the regulations state that procurement contracts cannot duplicate activities carried out under grants.

Response. A change is made in § 161b.10(c) to clear up any possible confusion. The Federal Grant and Cooperative Agreement Act of 1977 (Pub. L. 95–224) requires a Federal agency to use a grant, procurement contract, or cooperative agreement, depending on the relationship between the Federal government and the recipient. In the case of contracts and grants, if the relationship is one where the principal purpose is to acquire property or services for the direct benefit of the government, a procurement contract must be used. However, if the principal purpose is one of support or stimulation authorized by the statute, a grant must be used. The activities in § 161b.10(a) are supported or assisted by grants. Procurement contracts may be awarded for activities such as technical assistance and other program supportive activities which are national in scope.

Section 161b.31 (§ 161b.30 of the NPRM) How does the Commissioner select a metric education project?

Comment. One commenter expressed a desire that the Metric Education Program encourage the dissemination of products produced at government expense as such products should be made available to anyone who wants to use them.

Response. No change is made. To the extent feasible, the Metric Education Program currently disseminates project products that can be easily duplicated. The staff, through technical assistance, is increasing its efforts to inform project directors of dissemination opportunities through the Educational Resources Information Center and the National Diffusion Network once specific requirements have been satisfied.

Comment. One commenter expressed a concern that to require the learner populations to participate in the planning of the various projects would be "punitive" to projects designed to serve elementary students because of the age of these students.

Response. The language in § 161b.31(f)(3), (§ 161b.30(c)(1)(iii) of the NPRM) is changed to require "feasible participation" by the learner population in the planning of projects. This means participation at a level that is appropriate to their age, experiences, and intellectual maturity. For example, this might include participation in pre-tests, the analysis of which can be used by educational personnel as a basis for identifying, designing, and implementing strategies and alternatives to meet the unique needs of the learner population. With respect to LEAs, the public must be given an opportunity to comment on the subject matter of the applications. In this way parents and other adults are given an opportunity to participate in the planning which reasonably represents and protects the best educational interests of the elementary students.

Comment. A commenter expressed a concern for teacher participation in planning inservice metric education training programs and in the development of metric education curriculum materials.

Response. No change is made. It is not felt that the Program should prescribe the specific areas of participation by teachers in planning activities. It is expected that a well planned project that effectively provides for the needs of the learner population and for staff development will have involved, at an appropriate level, participation of teachers in its development.

Comment. A commenter suggested that the evaluation procedures in § 161b.31 (§ 161b.30 of the NPRM) be changed to give points for providing for participation of children in nonprofit private schools in the metric education project.

Response. No change is made. Under Section 302 of the Elementary and Secondary Education Act, an award cannot be made to an SEA or an LEA for a metric education project, unless the Commissioner determines that the SEA or LEA: (1) Has consulted with nonprofit private school officials in developing the application and (2) Will provide an opportunity for private school children to participate in the project on a comparable basis with public school children. It is not a matter of giving a certain number of points to an application that provides for this participation. This is a basic requirement that must be met. Without it there can be no award. This requirement only applies to applications from SEAs and LEAs.

Section 161b.40 Are there restrictions on the types of costs that may be supported?

Comment. Several commenters suggested that stipends and dependency allowances be provided for educational personnel who receive training in metric education projects.

Response. No change is made. The provision of some staff development opportunities is within the purview of the various school districts. The Metric Education Act of 1978 provides that metric education will be taught "* * * as a part of the regular educational program". This is an applicant responsibility. In view of the fact that the provision of stipends would be very costly, it would seriously limit the metric educational opportunities for students throughout the nation. The program's appropriation is quite limited. It has been able to fund an average of only 10 percent of the applicants during each of the fiscal years that it has operated. The "no stipend" policy is consistent with the legislative intent for low cost metric educational activities.

Comment. One commenter expressed a concern that the acquisition of metric measurement apparatus out of grant funds was an inappropriate use of these funds.

Response. A clarifying change is made in § 161b.40(c) (§ 161b.40(b)(1) of the NPRM). Examples of types of apparatus are added to show that the intent is to include small, relatively inexpensive apparatus that is essential to the implementation of programs designed to prepare students to use the metric system. The acquisition of basic measurement educational equipment, supplies, and apparatus such as metric rulers, scales etc., is essential to the implementation of programs to prepare students to use the metric system of measurement. Measurement involves conceptual as well as manipulative skills. The acquisition of metric measurement materials and equipment is consistent with the legislative purposes to encourage and support programs to prepare students to use the metric system of measurement. It is also supportive of the effective implementation of metric instructional programs conducted by eligible and successful applicants that receive awards from the Commissioner. This is an experience-based program.

Section 161b.41 Must State and local educational agencies provide an opportunity for private school children to participate?

Comment. A commenter expressed concern that the regulations did not adequately provide for equitable treatment of students in nonprofit private elementary and secondary schools. In particular, the commenter suggested that a new section be added under Subpart E—"What conditions must be met by the grantee?" to clearly state the responsibilities for these students.

Response. A new § 161b.41—"Can private school children participate?" is added to delineate the responsibilities of SEAs and LEAs for providing for participation of private elementary and secondary school children in metric education activities under this program. In projects involving training of educational personnel, responsibility for providing an opportunity for private school personnel to participate in this training, is also clearly stated.

In case of an SEA or LEA, the regulations (§ 161b.41) require that the SEA or LEA (1) consult with nonprofit private school officials in developing its application and (2) provide an opportunity for private school children to participate in the proposed metric education activity on a basis comparable to that provided for public school children. These requirements are implemented in § 100a.650 and § 100b.650 through § 100b.663 of EDGAR.

Other Comments

Comment. One commenter expressed concern that a one-year award would not encourage long range planning.

Response. Project duration is not covered in these regulations. This is subject to requirements in § 100a.250 through § 100a.254 of EDGAR. The Commissioner generally approves a project period of not more than 12 months. Under certain conditions described in these provisions of EDGAR, a project period of up to 60 months may be approved. Continuation after the intitial 12 month period is, of course, also subject to the availability of funds and the Commissioner's approval of the rationale provided for the continuation of an existing project or as part of the original plan of operation submitted by the applicant.

Comment. Another commenter expressed a concern that provision for including metric educational opportunities for teachers, parents, and other adults in the regulations goes beyond the legislative intent to prepare students to use the metric system of measurement. The commenter felt that this would divert funds from the expressed purpose of preparing students to use the metric system.

Response. The Commissioner agrees with this concern. Several changes have been made in § 161b.1, § 161b.10 and § 161b.31 (§ 161b.30) of the NPRM) to focus the program on students in the regular educational program, rather than on parents, adults, and other members of the public. However, parents and adults may participate in metric training if they are students in a school's regular educational program.

Comment. A commenter expressed a view that beneficiaries of metric education efforts should be informed that it is not national policy to favor one measurement system over another, i.e., the metric system of measurement over the "standared system" of measurement.

Response. Sections 161b.1 and 161b.10(a) have been changed to make clear that the Metric Education Program complies with current national policy on the metric system of measurement. Conversion to the metric system of measurement is voluntary in the United States. While the national policy is that conversion is voluntary, there are a number of States that have taken official positions supportive of metric conversion. In some other States, timelines have been set for metric conversion in specifiic areas of activity, especially education. The Metric Education Program does not advocate the metric system over the "standard system" of measurement. Instead it provides support for activities that focus on metric education activities to help people who wish to learn to use the metric system. It cannot reasonably be predicted that the national metric policy will be static. Activities, therefore, supported under the Metric Education program include orientation sessions which convey a history of metric measurement, and the status of its development in the United States. Included is information on our Nation's policy on metric measurements.

Comment. One commenter felt that there should be less variation in the amount of grant awards for agencies within each category of eligibility. Policies which allow for extreme differences in these grant amounts serve to limit or deny opportunities to many individuals for access to programs designed to prepare them to use the metric system of measurement. The commenter felt that a categorical grant maximum should be established. Grant awards should not exceed 10 percent of the maximum grant amount for the applicable category of eligibility.

Response. No change is made. Some of the awards that the Commissioner makes support the implementation of projects whose activities are national in scope. Others support project activities that are statewide or multi-state in scope. Some awards are made for projects to be carried out by a group of eligible parties including a consortium or cooperative arrangements. The budgetary resources required to implement these projects will be greater than for project activities for a single school district or institution. For these reasons, there are often variations in the levels of funding for some projects.

The range of funding for projects will be included in the notice of closing date for transmittal of applications and will be published annually in the **Federal Register.**

Comment. One commenter suggested that the final regulations should include a prohibition against teachers participating in metric training or curriculum development activities under this program unless their own local school board or comparable authority had first initiated metric education in the school or schools under its jurisdiction.

Response. No change is made. The statute contains no such prohibition. This type of prohibition would encroach on academic freedom and the individual rights of educational personnel to pursue professional growth. The inclusion of metric education in school classrooms of the Nation—unless specifically prohibited by statute—does not violate the general goals, philosophy, and purposes of education.

Comment. One commenter suggested that the final regulations should include a provision prohibiting the promotion or advocacy of the use or adoption of the metric system through actitivities funded under the program.

Response. No change is made. From an administrative standpoint, it is hard to differentiate between the teacher's effort to motivate the student and advocacy or promotion of the metric system of measurement. Motivation of the student is consistent with accepted strategies for effective teaching. If the student is motivated to learn the metric system and, as a consequence, chooses to use the system it is a choice that the student can make because of the newly acquired skills. Inclusion of the provision suggested by the commenter might be subject to possible criticism as violating section 432 of the General Education Provisions Act (20 U.S.C. 1232a) that prohibits the Federal government from exercising any "direction, supervision, or control over the curriculum, program of instruction,

administration, or personnel of any educational institution, school, or school system * * *"

Comment. A commenter expressed concern that the phrases "performance-oriented approaches" and "project impact potential" were somewhat like education jargon and did not contribute to the goal of using simple and clear language in regulations.

Response. A change is made. These phrases have been eliminated from the definitions in § 161b.4. Since the terms appear only once in § 161b.31 (How does the Commissioner select a metric education project?), the substance of these definitions have replaced these terms in § 161b.31(h) (ii) and (iii) (§ 161b.30 (c)(3) (ii) and (iii) of the NPRM).

These final regulations also contain minor editorial and organizational changes.

In response to suggestions by the public and other interested parties, these final regulations contain provisions that were not in the notice of proposed rulemaking. These include (1) certain provisions of the statute governing this program and (2) the general selection criteria found in the Education Division General Administrative Regulations (EDGAR §§ 100a.202 through 100a.206). The purpose of incorporating these provisions into the final regulations is to enable applicants and grantees to undestand better the requirements of this program without having to refer to these additional documents.

Dated: February 11, 1980.

(Catalog of Federal Domestic Assistance Number 13.561 Metric Education Program)

William L. Smith,

U.S. Commissioner of Education.

The Commissioner redesignates Part 160a of the Code of Federal Regulations (CFR) as Part 161b and revises the regulations to read as follows:

PART 160a—[REDESIGNATED AS PART 161b]

PART 161b—METRIC EDUCATION PROGRAM

Subpart A—General

Sec.

161b.1 What is the Metric Education Program?
161b.2 Who is eligible to receive an award?
161b.3 What regulations apply to the Metric Education Program?
161b.4 What definitions apply to this program?

Subpart B—What Kinds of Projects does the Office of Education Assist Under This Program?

161b.10 What categories of activities are supported?
161b.11 What are the outcomes of an effective metric education project?

Subpart C—How Does One Apply for a Grant?

161b.20 What rules must be followed?

Subpart D—How Is A Grant Made?

161b.30 How does the Commissioner evaluate an application?
161b.31 What selection criteria does the Commissioner use?

Subpart E—What Conditions Must be Met By the Grantee?

161b.40 Are there restrictions on the types of costs that may be supported?
161b.41 Must State and local educational agencies provide an opportunity for private school students to participate?

Authority: Part B of Title III of the Elementary and Secondary Education Act of 1965, as amended by Pub. L. 95–561, 92 Stat. 2211 (20 U.S.C. 2951).

Subpart A—General

§ 161b.1 What is the Metric Education Program?

The Metric Education Program encourages educational agencies and institutions to develop programs to prepare students to use the metric system of measurement. Under this program, the Commissioner awards grants and procurement contracts for metric education projects to encourage the voluntary use of the metric system of measurement.

(20 U.S.C. 2951–2952)

§ 161b.2 Who is eligible to receive an award?

(a) The following are eligible to receive an award:

(1) State educational agencies (SEAs), local educational agencies (LEAs) and other public agencies and organizations,

(2) Public and private institutions of higher education (including junior and community colleges) and other private organizations; and

(3) Any two or more of the parties above.

(b) A grant can only be made to a public agency or nonprofit private organization or institution.

(20 U.S.C. 2952)

§ 161b.3 What regulations apply to the Metric Education Program?

The following regulations apply to the Metric Education Program:

(a) The Education Division General Administrative Regulations (EDGAR), Part 100a (Direct Grant Program) and Part 100c (Definitions);

(b) These regulations in this part 161b; and

(c) For procurement contracts, the applicable provisions of the Federal Procurement Regulations, 41 CFR Chapters 1 and 3.

(20 U.S.C. 2951–2953)

§ 161b.4 What definitions apply to this program?

(a) *Definitions in EDGAR.* The following terms used in these regulations are defined in Part 100c: Applicant, Application, Award, Commissioner, Elementary school, Local educational agency (LEA), Nonprofit, Nonpublic elementary or secondary school, Private, Project, Public, Secondary school and State educational agency (SEA).

(b) *Specific program definitions.* As used in these regulations—"Act" means the Metric Education Act of 1978, Part B of Title III of the Elementary and Secondary Education Act of 1965, as amended by Pub. L. 95–561 (Education Amendments of 1978).

"Adaptation" means the modification of a metric educational strategy or plan to meet the particular needs of a specific learner population.

(20 U.S.C. 2951–2952)

"Institution of higher education" (IHE) means an institution as defined in Section 1001 of the Elementary and Secondary Education Act of 1965, as amended.

(20 U.S.C. 3381)

"Interdisciplinary" means the involvement of two or more academic disciplines, for example, the involvement of disciplines that may include, but are not limited to, mathematics and science.

"Learner population" means the group intended to benefit from or to participate in a metric education project.

"Metric system" or the "Metric system of measurement" means the international system of units (SI) as interpreted or modified for the United States by the Secretary of Commerce. SI was established in 1960 by the General Conference on Weights and Measures under the Treaty of the Meter and includes the meter (length), Kilogram (mass), second (time), Kelvin (thermodynamic temperature), Ampere (electric current), candela (luminous intensity), and the mole (amount of substance.) The radian (plane angle) and the steradian (solid angle) are supplementary units of the system.

(20 U.S.C. 2951–2952)

Subpart B—What Kinds of Projects does the Office of Education Assist Under This Program?

§ 161b.10 What categories of activities are supported?

(a) *Metric education project grants.* To encourage the voluntary use of the metric system of measurement, funds are awarded for metric education projects. These projects may include but are not limited to the following types of activities:

(1) Training educational personnel to teach and carry out projects in the use of the metric system of measurement. This may include inservice and preservice training of teachers and other educational personnel.

(2) Developing an interdisciplinary metric curriculum.

(3) Developing and disseminating effective metric instructional materials (including existing materials).

(4) Developing, demonstrating, improving, expanding, continuing, or adapting metric education projects.

(5) Developing a statewide and multi-state metric education plan. This may include developing a master metric education interdisciplinary curriculum plan that sets forth metric education objectives, strategies, and activities for a variety of academic subjects which are taught in the schools of the local educational agencies.

(6) Developing metric education curriculum and instruction for use in institutions of higher education for purposes other than teacher training.

(7) Developing special strategies for supporting metric education projects in rural or isolated areas. This may include the use of mobile units (such as vans or other vehicles) to reach and provide metric instruction to persons in those areas.

(b) The Commissioner may, in any given year, select priorities for funding from one or more of the activities above upon publication of a notice in the **Federal Register.**

(c) *Procurement contracts.* The Commissioner may award procurement contracts under this program to support activities, usually national in scope, to meet the needs of the Metric Education Program. Requests for proposals are solicited for contracts in the Commerce Business Daily. The Commissioner does not award contracts for activities that duplicate activities that are typically conducted under a grant.

(20 U.S.C. 2952)

§ 161b.11 What are the outcomes of an effective metric education project?

A grantee receiving assistance under this part must demonstrate effective methods for—

(a) Improving the long-term capabilities of individuals to use and teach the metric system of measurement;

(b) Developing or adapting new techniques and approaches to meet the metric educational needs of the learner population(s);

(c) Identifying and using local and other resources for metric education purposes;

(d) Supporting new or existing metric educational activities of educational agencies and institutions;

(e) Continuing successful project activities after Federal funding is ended; and

(f) Evaluating the metric educational activities in meeting the project's objectives.

(20 U.S.C. 2952)

Subpart C—How Does One Apply for a Grant?

§ 161b.20 What rules must be followed?

The Commissioner only makes a grant to an eligible applicant that—

(a) Submits an application; and

(b) Complies with all procedural rules governing the submission of the application.

(20 U.S.C. 2953)

Subpart D—How is a Grant Made?

§ 161b.30 How does the Commissioner evaluate an application?

(a) The Commissioner evaluates an application on the basis of the criteria in § 161b.31.

(b) The Commissioner awards up to 100 possible points for these criteria.

(c) The maximum possible score for each complete criterion is indicated in parentheses at the end of that criterion.

§ 161b.31 What selection criteria does the Commissioner use?

(a) *Plan of operation.* (1) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(2) The Commissioner looks for information that shows—

(i) High quality in the design of the project;

(ii) An effective plan of management that insures proper and efficient administration of the project;

(iii) A clear description of how the objectives of the project relate to the purpose of the program;

(iv) The way the applicant plans to use its resources and personnel to achieve each objective;

(v) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(vi) For grants made after October 1, 1980, if the applicant is a local educational agency or State educational agency, a clear description of how the applicant will provide an opportunity for participation of students enrolled in nonprofit private schools. (20 points)

(b) *Quality of key personnel.* (1) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use in the project.

(2) The Commissioner looks for information that shows—

(i) The qualifications of the project director (if one is to be used);

(ii) The qualifications of each of the other key personnel to be used in the project;

(iii) The time that each person referred to in paragraphs (b)(2) (i) and (ii) of this section plans to commit to the project; and

(iv) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as members of racial or ethnic minority groups, women, handicapped persons, and the elderly.

(3) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training in fields related to the objectives of the project, as well as other information that the applicant provides. (14 points)

(c) *Budget and cost effectiveness.* (1) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(2) The Commissioner looks for information that shows—

(i) The budget for the project is adequate to support the project activities; and

(ii) Costs are reasonable in relation to the objectives of the project. (10 points)

(d) *Evaluation plan.* (1) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project. (See § 100a.590—Evaluation by the grantee.)

(2) The Commissioner looks for information that shows methods of evaluation that are appropriate for the

project and, to the extent possible, are objective and produce data that are quantifiable. (10 points)

(e) *Adequacy of resources.* (1) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(2) The Commissioner looks for information that shows—

(i) The facilities that the applicant plans to use are adequate; and

(ii) The equipment and supplies that the applicant plans to use are adequate. (6 points)

(f) *Needs.* The Commissioner reviews each application for information that shows the extent to which the applicant—

(1) Provides for an effective response to the assessed metric education needs of the learner population;

(2) Focuses on enabling the learner population to acquire measurable skills for using the metric system of measurement; and

(3) Provides for the feasible participation by the learner population in planning project activities that contribute to their acquisition of measurable skills in using the metric system of measurement. (10 points)

(g) *Staff needs.* The Commissioner reviews each application for information that shows the extent to which the proposed project responds to staff development needs in metric education. (8 points)

(h) *Outcomes.* The Commissioner reviews each application for information that shows the extent to which the applicant—

(1) Contributes to the incorporation of metric educational activities and strategies into the regular educational program of the funded agency or institution;

(2) Contributes to metric education approaches that involve students in a sequence of problem solving activities that require concrete solutions and examples;

(3) Has a high potential for contributing to the cost effective adaptation, expansion, and replication of project strategies and activities in the regular educational programs of other agencies; and

(4) Includes a strategy for continuing support after Federal funding is ended. (12 points)

(i) *Dissemination.* The Commissioner reviews an application for information that shows the extent to which the applicant—

(1) Provides a clear description of a planned strategy (including mechanisms) for the dissemination of successful and promising metric education products and instructional strategies and practices which are developed and implemented by the project staff; and

(2) Provides a description of plans for non-participants to capitalize on the skills acquired by project participants. (10 points)

Subpart E—What Conditions Must Be Met by the Grantee?

§ 161b.40 Are there restrictions on the types of costs that may be supported?

(a) Allowable costs under a grant are subject to cost principles provided or referenced in §§ 100a.530 through 100a.535 of EDGAR.

(b) Funds may be used for the following types of travel:

(1) Travel by the project director or his or her designee to attend a national or regional conference sponsored by the Metric Education Program; and

(2) Travel by the project director or by the project's instructional staff to visit or to provide services at the grantee's project training site(s).

(c) Funds may be used for the purchase, replacement, and adaptation of metric measurement apparatus, e.g., metric measurement devices, scales, etc., and other instructionally essential metric supplies and materials if the Commissioner determines that they are necessary for carrying out the proposed metric education project. These costs are limited to 20 percent of the direct costs of the award.

(d) Funds may not be used for the provision of stipends, dependency allowances, substitute pay, or the purchase of textbooks that are not specifically for metric instruction.

(e) Funds may not be used by a private agency, organization or institution for the payment of costs of the regular instructional program.

(20 U.S.C. 5952)

§ 161b.41 Must State and local educational agencies provide an opportunity for private school students to participate?

(a) If an SEA or LEA receives a grant under this program, section 302 of the Elementary and Secondary Education Act requires that the agency provide an opportunity for participation by students enrolled in private elementary and secondary schools. EDGAR establishes the rules for their participation (See EDGAR § 100a.650).

(b) In SEA and LEA projects supporting the training of educational personnel, the grantee shall provide to educational personnel of private schools in the area served by the project, an opportunity to participate in this training on a basis comparable to that provided for educational personnel in the public schools.

(20 U.S.C. 2942(b), 2951–2953)

Part XIII

Department of Health, Education, and Welfare

Office of Education

Consumers' Education Program

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

45 CFR Part 161e

Consumers' Education Program

AGENCY: Office of Education, HEW.

ACTION: Final Regulations.

SUMMARY: The Commissioner of Education issues final regulations governing grants under the Consumers' Education Program as authorized by the Consumer Education Act of 1978. These grants to State and local educational agencies, institutions of higher education, and other public and private non-profit agencies, organizations, and institutions are intended to encourage and support projects that prepare consumers of all ages to function more effectively in the marketplace and in their roles as consumer-citizens. The final regulations simplify previous regulations.

EFFECTIVE DATE: These regulations are expected to take effect 45 days after they are transmitted to the Congress. Regulations are transmitted to the Congress several days before they are published in the **Federal Register.** If the Congress disapproves the regulations or takes certain adjournments, the effective date is changed by statute. To learn the effective date of these regulations, phone or write the contact person for the Office of Consumers' Education listed below.

FOR FURTHER INFORMATION CONTACT: Dr. Dustin W. Wilson, Jr., Director, Office of Consumers' Education (Room 807, Riviere Building), U.S. Office of Education, 400 Maryland Avenue, S.W., Washington, D.C. 20202. Telephone: 202–653–5983.

SUPPLEMENTARY INFORMATION: The Consumers' Education Program, formerly authorized under Section 811 of the Elementary and Secondary Education Act of 1965 has been reauthorized by the Education Amendments of 1978, Pub. L. 95–561. It is now Section 331 of the Elementary and Secondary Education Act.

The Commissioner published a Notice of Proposed Rulemaking (NPRM) in the **Federal Register** on May 16, 1979 (44 FR 28758). Interested persons were given 45 days to comment on these proposed regulations. During this period a number of comments were received.

A major concern expressed in the comments involved the selection criteria of the Education Division General Administrative Regulations (EDGAR) which are referred to in § 161e.30 of the NPRM. It was felt that the EDGAR references were not sufficiently directed to the Consumers' Education Program. As a result, the selection criteria in § 161e.30 were revised to exclude any reference to the EDGAR criteria of the NPRM. Although the criteria in the final regulations remain substantially the same, the EDGAR criteria have been incorporated into the regulations so that each criterion is now specific to the Consumers' Education Program. It is no longer necessary to look outside of § 161e.30 for the selection criteria.

The paragraphs below summarize the comments and the Commissioner's responses to them.

Section 161e.1 What is the Commissioners' Education Program?

Comment. One commenter stated that the description of the Consumers' Education Program in § 161e.1 was too limiting and that it should be made consistent with the definition of Consumers' Education in § 161e.4.

Response. The Commissioner agrees with this comment. Sections 161e.1 and 161e.4 have been amended accordingly.

Section 161e.2 What types of agencies are eligible to receive awards?

Comments. Three commenters expressed fear that consumer and community agencies would be discouraged from applying for support because they would not recognize themselves as "non-profit, private organizations." Two commenters suggested that the term "consumer and community groups" be specifically included. One commenter suggested that the term "agencies or groups" appear in the section heading.

Response. The Commissioner agrees that these concerns are valid. Section 161e.2 has been amended to prevent any misunderstanding as to parties eligible for assistance under the Act.

Section 161e.4 What definitions apply specifically to this program?

Comment. Three commenters made recommendations for simplifying, clarifying, or adding to the definition of consumers' education in § 161e.4(a)(1)–(5). One commenter suggested an extensive revision, condensing the five parts of the definitions into three parts. Another commenter submitted a sample revised definition.

Response. The definition of consumers' education has been amended for clarity, specificity, and conciseness.

Comment. One commenter recommended that the definition of consumers' education in § 161e.4(a)(1) be made more explicit as to types of social and civic services which might be purchased by consumers.

Response. No change is made in this section. However, § 161e.12 has been amended to include examples of types of services that may be purchased.

Comment. A commenter suggested that the definition of consumers' education include a reference to the legislative process as an area in which consumers need to participate effectively.

Response. No change is made in this section. However, § 161e.12 has been amended to include a reference to the legislative process as an appropriate subject for inclusion in a consumers' education project.

Section 161e.10 What are the purposes of the projects?

Comment. One commenter questioned whether the purposes listed in § 161e.10 represented special project emphasis that could be changed each year at the discretion of the Commissioner. Any such change in emphasis should be circulated for consideration and comment, the commenter stated.

Response. The Commissioner does not emphasize different purposes listed in § 161e.10 in any particular year. Each purpose remains equally valid. There is no change from year to year. However, under § 161e.13, the Commissioner may, in any given year, emphasize projects in one or more of the subject matters listed in § 161e.12. This emphasis might reflect the emergence of unanticipated but critical consumer issues of national import. The Commissioner publishes a notice in the **Federal Register** if a particular subject matter listed in § 161e.12 is to be emphasized. Only those subject matters listed in § 161e.12 may be emphasized without further public rulemaking (including public comment).

Comment. One commenter recommended changing the word "impact" to "benefit" in § 161e.10(d).

Response. The Commissioner agrees that "benefit" is a more inclusive term and the regulation has been amended accordingly.

Section 161e.11 What categories of activities are supported?

Comment. One commenter stated that this section could be misconstrued to mean that organizations and groups named in § 161e.11(a)(2) of the NPRM were ineligible for grants.

Response. The Commissioner agrees that the wording is unclear. This section has been changed and the groups listed in this section of the NPRM are now included in § 161e.2 as examples of parties eligible for grants.

Comment. One commenter suggested the addition of "rural people" to the list of target groups having special needs.

Response. The term "low-income" is broadly interpreted to cover people wherever they might live. Both rural and urban areas are covered. The regulations have been changed to reflect this.

Comment. The addition of mentally retarded adults to the list of groups with special needs in § 161e.11(a)(3) was suggested by one commenter.

Response. No change is made. The term "handicapped" includes mentally retarded adults.

Comment. One commenter urged that the list of groups with special needs in § 161e.11(4) (now (3)) be identified as being examples rather than all inclusive.

Response. This section has been changed to indicate that the list is not all inclusive.

Comment. One commenter expressed concern that paragraph (3) of § 161e.11(b) (Procurement contracts) might be interpreted to mean that mass media is the only accepted means of distributing consumers' education materials.

Response. The Commissioner agrees that the meaning of this section is unclear. Changes have been made to indicate that contracts may be awarded for the preparation and distribution of consumers' education material through use of mass media, as well as by other appropriate means.

Section 161e.12 What subject matter may be included?

Comment. One commenter suggested simplifying this section by combining related topics and reducing the number of subject matter examples from eleven to eight.

Response. No change is made. The examples provide ideas for relevant projects and introduce applicants to the many aspects of consumers' education. Though several topics are related, applicants should be aware that there can be several approaches to similar areas of concern.

Comment. A commenter suggested that educating consumers in the use of alternatives for scarce and costly goods, services, or resources should be included.

Response. A change has been made to include this subject in § 161e.12(d). The Commissioner considers this to be a significant component of consumers' education.

Comment. The logic of the sequential listing in § 161e.12(d) (now § 161e.12(e)) was questioned by one person.

Response. The list is reordered in more appropriate sequence. The revision appears as § 161e.12(e).

Comment. Two commenters recommended that in § 161e.12(g) the legislative process be added to those processes in which consumer-citizens may be educated to participate.

Response. Omission of the legislative process was an oversight. The addition is made and appears in § 161e.12(h).

Comment. A commenter stated that medical services, medical insurance, etc., are subjects about which modern consumers require knowledge.

Response. The Commissioner concurs that this is a subject matter area of significance to consumers. Section 161e.12(j) is revised to reflect this.

Comment. Two commenters suggested that § 161e.12 (i) and (j) in the NPRM be combined.

Response. The change is made. These two paragraphs include subjects of critical and timely importance and are therefore combined. The revision appears in § 161e.12(j).

Comment. More emphasis on subject matter related to the purchase of services was suggested by one commenter.

Response. Section 161e.12(c) has been changed to include both the purchase of goods and services.

Comment. One commenter expressed concern that no attention had been paid to behavioral components such as assertiveness or consumer self-confidence, collective action, or organizing techniques.

Response. A new § 161e.12(d) has been added to incorporate instruction in consumer self-reliance as a subject appropriate for grant projects. A change has also been made in § 161e.12(h) to include individual or collective participation in economic and government systems as another appropriate subject.

Section 161e.13 Will particular program subject matter be emphasized?

Comment. One person recommended that energy, energy conservation, and the role of the consumer in determining energy policies be emphasized.

Response. No change is made. The Commissioner has provided opportunities for applicants to emphasize these subjects in § 161e.12(g). In addition, § 161e.12(j) specifically mentions energy as an area of critical importance.

§ 161e.30 What selection criteria does the Commissioner use?

Comment. Two commenters stated that the criteria and points assigned to them were slanted in favor of educational institutions experienced in educational grantsmanship.

Response. The criteria are revised to provide for more equitable and judicious distribution of weights. Other revisions in the criteria are discussed at the beginning of this preamble.

Comment. One commenter said that the allocation of 10 points for increasing the capacity of the applicant to continue the benefits of the project after the grant period (§ 161e.30(5)(ii)) was too high.

Response. Weights allocated to certain criteria have been reassigned and this section is given 7 points. With limited funds available for the program, the Commissioner considers the potential for continuing benefits of the project a significant criterion.

Comment. A commenter noted that the program selection criteria failed to incorporate a significant criterion from EDGAR. That criterion has to do with providing access to project activities and employment to traditionally underrepresented groups.

Response. The language in § 161e.30(b)(1) (i) and (2) (ii) has been changed to conform to the requirements of the EDGAR criteria.

Section 161e.31 What is the duration of a project?

Comment. A person indicated that it would be advantageous to permit some projects to be renewed for two years beyond the initial 12-month period.

Response. No change is made in the regulation. The Commissioner agrees in principle that a 12-month grant limit precludes the development of some types of projects. However, approximately 90 percent of the applicants each year are denied the opportunity to participate in the program because of limited funds. If monies were set aside for continuations or renewals, the number of organizations or groups participating in the program would be further limited. It is the Commissioner's judgement that a 12-month grant duration allows for maximum participation and results in greater innovation.

General

Comment. Three commenters expressed either confusion over or disapproval of the eligibility of profit-making organizations to receive funds under the Consumers' Education Program. One stated that there should be no provision allowing profit-making organizations access to funds from this program. A second commenter recommended that regulations specify non-profit groups as "preferred" recipients of awards. A third commenter suggested that profit-making organizations be awarded procurement contracts only after it is determined that non-profit groups listed in § 161e.2(a) are unable to carry out contract goals.

Response. No change is made in the regulation. Profit-making organizations are eligible for contracts under Section 333 of the Elementary and Secondary Education Act. They are not eligible for grants. Laws governing procurement contracts do not permit the prohibition of profitmaking organizations as bidders on contracts. The statute does not set priorities among types of applicants. Therefore, these regulations cannot exclude or give preference to a particular applicant.

Comment. Two commenters suggested that the distinction between grants and procurement contracts be clarified. One also suggested that the distinction be made under § 161e.1 (What is the Consumers' Education Program?) and the other suggested it appear under § 161e.2 (What types of agencies are eligible to receive awards?)

Response. The distinction between grants and contracts is made in § 161e.11 based on the initiating agency and type of activities to be carried out.

Comment. A commenter urged that requests for proposals (RFPs) for procurement contracts appear in the **Federal Register** and other appropriate journals as well as Commerce Business Daily.

Response. COMMERCE BUSINESS DAILY is designated as the official publication which carries these requests. Every effort is made to circulate information about the RFPs in consumer and other appropriate newsletters and publications. The **Federal Register** does not publish RFPs.

Comment. Three commenters suggested that applicants be required to coordinate with other agencies, organizations, or groups to strengthen and broaden the impact of a project.

Response. No change is made. Not all projects lend themselves to this coordination. The Commissioner feels there is ample opportunity within the regulations for groups to work in consortia or in cooperation with other groups if it appears advantageous or appropriate to do so.

Comment. One person submitted a rewritten version of the regulations and criteria suggesting revisions in all sections except §§ 161e.13, 161e.20, and 161e.40.

Response. Several changes have been made for greater clarity and specificity. Among these changes are the addition of examples of the types of public agencies and non-profit private organizations in § 161e.2 that are eligible for grants; revisions in the definition of consumers' education in § 161e.4; clarifying revisions and additions in the categories of supported activities in § 161e.11 and in the subject matter list of § 161e.12. Revisions in the selection criteria are discussed at the beginning of this preamble.

Comment. One commenter suggested that the regulations include a provision which ensures that grantees will consult with publishers as they proceed to develop curricula or instructional materials.

Response. No change is made. Since this requirement is contained in Section 426 of the General Education Provisions Act and applies to all Office of Education Programs, it will be included in EDGAR, when EDGAR is published in final form in the **Federal Register**. The Consumers' Education Program is subject to EDGAR requirements.

These final regulations contain minor editorial and organizational changes.

In response to suggestions by the public and other interested parties, these final regulations contain provisions that were not in the Notice of Proposed Rule Making. These include (1) additions in the categories of supported activities and subject matter which may be included and (2) the incorporation into Consumers' Education Division General Administrative Regulations (EDGAR §§ 100a.202 through 100a.206). The purpose of incorporating these provisions into the final regulations is to enable applicants and grantees to understand better the requirements of this program without having to refer to additional documents.

Authority: These final regulations are issued under the authority of Part B of Title III of the Elementary and Secondary Education Act of 1965 as amended by Pub. L. 95–561.

(Catalog of Federal Domestic Assistance Number 13.564 Consumers' Education Program)

Dated: February 12, 1980.

William L. Smith,

Commissioner of Education.

The Commissioner redesignates Part 160e of the Code of Federal Regulations (CFR) as Part 161e and revises the regulations to read as follows:

PART 161e—FINANCIAL ASSISTANCE FOR CONSUMERS' EDUCATION PROJECTS

Subpart A—General

Sec.

161e.1 What is the Consumers' Education Program?
161e.2 Who is eligible to receive an award?
161e.3 What regulations apply to the Consumers' Education Program?
161e.4 What definitions apply specifically to this program?
161e.5–9 [Reserved]

Subpart B—What Kinds of Projects Does the Office of Education Assist Under this Program?

161e.10 What are the purposes of the projects?
161e.11 What categories of activities are supported?
161e.12 What subject matter may be included?
161e.13 Will particular program subject matter be emphasized?
161e.14–19 [Reserved]

Subpart C—How Does One Apply for a Grant?

161e.20 How does an applicant apply for funds?
161e.21–29 [Reserved]

Subpart D—How Is a Grant Made?

161e.30 What selection criteria does the Commissioner use?
161e.31 What is the duration of a project?
161e.32–39 [Reserved]

Subpart E—What Conditions Must a Grantee Meet?

161e.40 Are there restrictions on the kind of items a grant may support?
161e.41 What other restrictions apply?
161e.42 What provisions are made for participation of private school students?
161e.43–49 [Reserved]

Authority: Part E of Title III of the Elementary and Secondary Education Act as amended by Pub. L. 95–561, 92 Stat. 2214 (20 U.S.C. 2981–2986).

Subpart A—General

§ 161e.1 What is the Consumers' Education Program?

The Consumers' Education Program supports educational projects designed to assist consumers in developing the skills, knowledge, and understanding which will allow them to function effectively in the marketplace and in their roles as consumer-citizens. Support is through grants and procurement contracts.

(20 U.S.C. 2983)

§ 161e.2 Who is eligible to receive an award?

(a) *Grants.* The following are eligible to receive grants:

(1) Local educational agencies (LEAs);

(2) State educational agencies (SEAs);

(3) Institutions of higher education;

(4) Public agencies and non-profit private organizations, including, for example, State, county, or city government agencies, libraries, educational service agencies, labor unions, and

(5) Other non-profit private organizations including local, regional, and national consumer and community organizations or groups.

(b) *Procurement contracts.* The parties in paragraph (a) of this section and private profit-making organizations are eligible to receive procurement contracts.

(20 U.S.C. 2983)

§ 161e.3 What regulations apply to the Consumers' Education Program?

(a) *Regulations.* The following regulations apply to the Consumers' Education Program:

(1) the Education Division General Administrative Regulations (EDGAR) in Part 100a (Direct Grant Programs) and Part 100c (Definitions);

(2) The regulations in this Part 161e; and

(3) For procurement contracts, the applicable provisions of the Federal Procurement Regulations, 41 CFR, Chapters 1 and 3.

(b) *Definitions in EDGAR.* The following terms used in the part are defined in Part 100c:

"Applicant"
"Application"
"Budget"
"Commissioner"
"Contract"
"EDGAR"
"Elementary school"
"Facilities"
"Grant"
"Institution of higher education"
"Local educational agency"
"Non-profit"
"Private"
"Program"
"Project"
"Public agency"
"Secondary school"
"State educational agency"

(20 U.S.C. 2981)

§ 161e.4 What definitions apply specifically to this program?

(a) As used in these regulations—

"Act" means the Consumer Education Act of 1978, Part E of Title III of the Elementary and Secondary Education Act, as amended by Pub. L. 95–561.

"Consumers' education" means the process by which consumers:

(1) Devleop skills to make informed decisions in the purchase of goods and services in light of personal values, maximum utilization of resources, available alternatives, ecological considerations, and changing economic conditions;

(2) Become knowledgeable about the laws, rights, and methods of recourse in order to participate effectively and self-confidently in the marketplace and take appropriate action to seek consumer redress; and

(3) Develop and understanding of the consumer-citizen role in the economic, social, and government systems and how to influence those systems to make them responsive to consumers' needs.

"Curriculum" means an organized course of study. This includes print and non-print learning materials.

"Educational service agency" means an agency, formed jointly by several LEAs or by State law, to provide to those LEAs special services including, but not limited to, audio-visual aids, vocational training, data processing, and classes for the handicapped.

"Resources" means materials, personnel, methods, or information.

"Short-term training" means training for individual project participants that lasts less than an academic year. This training is usually in the form of workshops, seminars, or similar activities.

"Target group" means the specific group to benefit from or participate in a project.

"Technical assistance" means expert help provided to another agency, organization, or group, in the form of training, planning, consulting, or other specialized services.

(20 U.S.C. 2983)

Subpart B—What Kinds of Projects Does the Office of Education Assist Under this Program?

§ 161e.10 What are the purposes of the projects?

The purposes of the projects are to—

(a) Provide one or more elements of consumers' education as defined in § 161e.4;

(b) Increase the capacity of the applicant to continue the benefits of its consumers' education services on a long-term basis;

(c) Develop new methods, materials, or activities that may be duplicated or adapted by other groups; or

(d) Develop models or new activities with the potential for long-term local, State, regional, or national benefits.

(20 U.S.C. 2983)

§ 161e.11 What categories of activities are supported?

(a) *Grants.* Grants are awarded through a yearly competition to eligible parties in § 161e.2(a). These grants are for projects *initiated by the applicants,* which support activities designed to:

(1) Establish pilot or demonstration projects, or augment existing projects conducted by the parties listed in § 161e.2(a);

(2) Provide short-term training to prepare employees of these parties to plan, organize, and conduct consumers' education projects or teach consumer-related subject matter. Long-term training is not supported;

(3) Establish or expand pilot or demonstration projects to serve the needs of special groups including the elderly, Native Americans, persons with limited English-speaking ability, the handicapped, and urban and rural low-income groups;

(4) Research, develop, pilot test, evaluate, and disseminate curricula and other activities and materials in consumers' education; and

(5) Provide consumers' education at the elementary, secondary and higher education levels by State and local educational agencies and institutions of higher education.

(b) *Procurement contracts.* Procurement contracts are awarded to eligible parties in § 161e.2(b) to support activities, usually national in scope, which are *initiated by the Commissioner* to meet the needs of the Consumers' Education Program. Requests for Proposals (RFPs) are solicited through Commerce Business Daily, published by the Department of Commerce. Projects are designed to:

(1) Research, test, assess, evaluate, and disseminate existing consumers' education activities and materials, including those not otherwise assisted under this program;

(2) Disseminate information and provide developmental and technical assistance to agencies and organizations that are planning, developing, or carrying out consumers' education projects;

(3) Prepare and distribute consumers' education materials by the use of mass media or other appropriate means; and

(4) Support research and other activities the Commissioner determines are necessary for the development of the Consumers' Education Program.

(20 U.S.C. 2981–2983)

§ 161e.12 What subject matter may be included?

Consumers' education projects may include, but need not be limited to, the following—

(a) Basic economics of the marketplace.

(b) Management of personal and financial resources.

(c) Purchase of goods and services such as food, transportation, credit, insurance, housing, repairs, health care, and legal assistance.

(d) Methods of consumer self-reliance and alternatives to the use of scarce or costly goods, services, or resources.

(e) Consumer laws, rights, responsibilities, and redress.

(f) Government assistance and services such as social security and education.

(g) The role of the consumer in determining energy, conservation, and ecological policies.

(h) Individual or collective consumer participation in the economic and governmental systems, including the regulatory and legislative processes.

(i) Special issues and problems, such as advertising or product safety.

(j) Areas of critical, timely importance in which consumer action can limit costs, such as energy, housing, food, and health care (including medical services and insurance).

(k) Emerging issues for consumers.

(20 U.S.C. 2983)

§ 161e.13 Will particular program subject matter be emphasized?

The Commissioner may, in any given year, emphasize projects in one or more of the subject matters in § 161e.12. This emphasis of subject matter would be published as a notice in the **Federal Register.**

(20 U.S.C. 2983)

Subpart C—How Does One Apply for a Grant?

§ 161e.20 How does an applicant apply for funds?

The "Introduction to Education Division Grant Programs" at the beginning of the Educational Division General Administration Regulations (EDGAR) includes general information on—

(a) How to use regulations that apply to Education Division programs; and

(b) How to apply for a grant under an Education Division Program.

(20 U.S.C. 2984)

Subpart D—How is a Grant Made?

§ 161e.30 What selection criteria does the Commissioner use?

(a) The Commissioner evaluates an application for a grant on the basis of the selection criteria contained in these regulations which are specific to the Consumers' Education Program. Applicants are advised to read these criteria carefully.

(b) The following selection criteria total 100 points. The maximum number of points for each criterion indicates the relative importance assigned to the criterion. In evaluating the applications, the Commissioner looks for:

(1) *Project Design.* A project design which:

(i) Describes the consumer education needs of the target group; offers evidence that the target group supports the project; provides access to project activities to traditionally underrepresented groups; and, for grants made after October 1, 1980, if the applicant is a local educational agency or a State educational agency, contains a clear description of how the applicant will provide an opportunity for participation of students enrolled in private, non-profit schools; (10 points)

(ii) States specific goals which relate to the Consumers' Education Program, are relevant to stated needs, and are attainable within the time period of the grant; (5 points)

(iii) Identifies project activities related to the goals and describes how these activities will produce practical and significant results for the target group; (15 points) and

(iv) Reflects knowledge of present consumer education practices and resources, coordinates with other organizations where appropriate, and is innovative in concept. (10 points)

(2) *Management Plan.* A plan to ensure proper and efficient project administration which;

(i) Presents a time and work schedule that includes the use of resources and staff and the sequence of activities; (10 points) and

(ii) Clearly spells out the duties of key personnel, provides access to employment to traditionally underrepresented groups, and indicates the amount of time each person will commit to the project. (5 points)

(3) *Applicant qualifications.* Information on:

(i) Qualifications of the director and other key personnel, including consumer education experience or experience in the types of activities to be carried out in the project; (10 points) and

(ii) The extent and quality of agency or organization experience in consumer education or related activities. (5 points)

(4) *Evaluation.* A plan for:

(i) Evaluation of activities as they take place; (4 points) and

(ii) Evaluation of final outcomes of the project. (4 points)

(5) *Impact of the Project.* An impact which:

(i) Results in models that can be duplicated or adapted by others; (8 points) and

(ii) Increases the capacity of the applicant to continue the benefits of the project after the grant period. (7 points)

(6) *Budget.* A project budget which shows:

(i) Adequate funds to support the project activities and reasonable cost in relation to the Consumers' Education Program activities. (7 points)

§ 161e.31 What is the duration of a project?

Consumers' education grants under this part are for a period of 12 consecutive months.

(20 U.S.C. 2984)

Subpart E—What Conditions Must A Grantee Meet?

§ 161e.40 Are there restrictions on the kind of items a grant may support?

(a) Funds may not be used for construction, repair, remodeling, or alteration of facilities or sites.

(b) Allowable costs are subject to the applicable cost principles provided or referenced in §§ 100a.530 through 100a.535 of EDGAR.

(20 U.S.C. 2984)

§ 161e.41 What other restrictions apply?

Grants may be used to supplement or increase funds made available by the applicant for the project. Grants may not be used to supplant these funds.

(20 U.S.C. 2984)

§ 161e.42 What provisions are made for participation of private school students?

If an SEA or LEA receives a grant under this program, Sec. 302 of the Elementary and Secondary Education Act requires that agency to provide for participation by students enrolled in private elementary and secondary schools. EDGAR establishes the rules for this participation (See EDGAR, § 100a.680).

(20 U.S.C. 2942)

Part XIV

Department of Health, Education, and Welfare

Office of Education

Youth Employment Program

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

45 CFR Part 161f

Youth Employment Program

AGENCY: Office of Education, HEW.

ACTION: Final Regulations.

SUMMARY: The Commissioner of Education issues final regulations governing grants under the Youth Employment Program authorized by Part F of Title III of Elementary and Secondary Education Act, as amended. The grants to State and local educational agencies and other public and non-profit private agencies, organizations and institutions provide assistance to improve youth employment by relating education and work and by improving and coordinating educational and employment services.

EFFECTIVE DATE: These regulations are expected to take effect 45 days after they are transmitted to Congress. Regulations are transmitted to Congress several days before they are published in the **Federal Register**. The effective date is changed by statute if Congress disapproves the provsions of these regulations or takes certain adjournments. If you want to know the effective date of these regulations, call or write the Office of Education contact person.

FOR FURTHER INFORMATION CONTACT: Ronald C. Tarlaian, U.S. Office of Education, 7th and D Streets, SW., Room 5008, ROB#3, Washington, D.C. 20202. Telephone: (202) 245–9730.

SUPPLEMENTARY INFORMATION: The Commissioner of Education published in the **Federal Register** on June 25, 1979 (44 CFR 37184) a notice of proposed rulemaking for this program. On August 3, 1979 public meetings were held on the proposed regulations in each of the HEW regional office cities. Interested persons were afforded 60 days to comment on the proposed regulations. During the comment period 20 persons submitted written comments and 10 person made statements or posed questions at 10 public meetings. The paragraphs that follow summarize those comments and suggestions and the Commissioner's responses to them.

Section 161f.4 Definitions.

Comment. Several commenters suggested that a definition of "youth" be included.

Response. A change has been made. Section 161f.4 has been changed to include a definition of "youth".

Section161f.1 Youth employment program and

Section161f.10 Purpose of the youth employment program.

Comment. A commenter said that neither of these sections make any reference to the research component of the program which is suggested by the language in section 341(b)(1) of the Act.

Response. A change has been made. Section 161f.10 has been changed to include conducting studies on youth employment problems as one of the ways to help prepare youth to take their places as working members of society.

Section 161f.11 What categories of activities are supported?

(1) *Comment.* Two commenters suggested that § 161f.11 be changed to emphasize the coordination of activities under the Youth Employment Program with activities under the Comprehensive Employment and Training Act (CETA) because the Act places particular emphasis on this coordination.

Response. Section 161f.11(b) has been changed to place greater emphasis on coordinating Youth Employment activities with CETA activities.

(2) *Comment.* A commenter suggested that § 161f.11(c) be changed by deleting the word "educational" and inserting the word "academic" before the terms agencies and institutions. Section 161f.11(c) provides assistance for encouraging educational agencies and institutions to develop means to award academic credit for competencies derived from work experience.

Response. No change has been made. The phrase "educational agencies and institutions" is taken from the Act. The use of the term "educational" instead of "academic" provides flexibility to include a broader range of institutions beyond the strictly academic school and, perhaps, better meet the needs of the youth population.

(3) *Comment.* Several commenters suggested the inclusion of a provision in the regulations for handicapped individuals.

Response. No change has been made. The Act authorizes the youth employment program to prepare children to become working members of society. It does not specify any particular group of children. Instead, the program is open to all children. The Youth Employment Program, like other Federal education programs, is subject to Section 504 of the Rehabilitation Act of 1973 and its implementing regulations in 45 CFR Part 84, which prohibit any discrimination on the basis of handicap. Handicapped youth may participate in youth employment activities along with other youth.

(4) *Comment.* A commenter questioned the restriction of technical and other assistance to State educational agencies (SEAs) and local educational agencies (LEAs) because the Act provides for this assistance to "eligible entities".

Response. A change has been made. It was not the intent to exclude public and non-profit private groups from receiving technical assistance. A clarifying change has been made in § 161f.11(h) to include public and non-profit private groups.

Section 161f.12 Emphasis among categories of activities.

Comment. A commenter questioned the rationale in § 161f.12 for the Commissioner to emphasize different categories of activities in a particular year.

Response. No change has been made. The provision for emphasizing one or more of the categories of activities listed in § 161f.11 allows flexibility to meet unanticipated but critical issues that might arise in a given year; give greater support to needs revealed through experience with the program; or fund, in fewer areas but in greater depth, categories of activities that may yield greater benefits to youth.

Section 161f.30 Selection criteria the Commissioner uses.

(1) *Comment.* One commenter stated that the criteria in § 161f.30(c)(1) was confusing because it was unclear whether more points would be awarded on the basis of the percentage of unemployed youth, the number of unemployed youth, or the lack of other resources to address this unemployment problem.

Response. A change has been made. Section 161f.30 has been rewritten to give separate points for (a) the percentage of unemployed youth (§ 161f.30(d)(1)) and (b) resources to address this problem (§ 161f.30(d)(2)).

(2) *Comment.* A commenter stated that the 5 points for the evaluation plan in § 161f.30(c)(4) were insufficient.

Response. No change has been made. The Commissioner believes that the 5 points maximum score given for an evaluation plan is sufficient in relation to the other program specific criteria in § 161f.31(f)(1)–(6).

(3) *Comment.* One commenter felt that language should be included in § 161f.30 to insure that activities under the Youth Employment Act complement activities funded under the Career Education Incentive Act.

Response. A change has been made. The legislative history of the new Title

III of the Elementary and Secondary Education Act of 1965 (ESEA) suggests that where feasible and appropriate, activities funded under the Youth Employment Section should complement activities under the Career Education Incentive Act. Section 161f.31(f)(5) has been revised to reflect this.

(4) *Comment.* Two commenters felt that language should be included in the regulations to assure that any coordination of projects under this Act with projects under the Vocational Education Act and CETA does not result in duplication of activities.

Response. A change has been made. Section 161f.31(d)(5) has been revised to ensure that there is no duplication of activities.

(5) *Comment.* A commenter suggested that the selection criteria in § 161b.30 be changed to give an applicant points for providing for participation of children in nonprofit private schools in a youth employment project.

Response. No change is made. Under Section 302 of the Elementary and Secondary Act, an award cannot be made to an SEA or an LEA for a youth employment project unless the Commissioner determines that the SEA or LEA: (a) Has consulted with non-profit private school officials in developing the application and (b) will provide an opportunity for private school children to participate in the project on a comparable basis with public school children. It is not a matter of giving a certain number of points to an application that provides for this participation; rather, it is a basic requirement that an applicant must meet in order to be considered for an award.

Section 161f.40 State and local educational agencies must provide an opportunity for private school students to participate.

Comment. A commenter expressed concern that the regulations did not adequately provide for equitable treatment of students in non-profit private elementary and secondary schools. In particular, the commenter suggested that a new section be added to clearly state the responsibilities of a grantee with respect to these students.

Response. A change has been made. A new § 161f.40 has been added to delineate the responsibilities of SEAs and LEAs to provide for participation by private elementary and secondary school children in youth employment activities under this program.

These provisions apply to SEAs and LEAs only. Under § 161f.2—Eligible applicants—a non-profit private agency (including an elementary or secondary school) is eligible to receive an award under this program in its own right.

General

Comment. A commenter suggested that greater emphasis be given to promoting sex equality and fairness in projects under the Youth Employment Program.

Response. No change has been made. The purpose of the Youth Employment Program as stated in title III of ESEA of 1965 as amended, is to prepare children to take their place as working members of society. There is no special emphasis on any particular group of children. The program is open to all children, regardless of their sex. However, a grantee under this program, must comply with title IX of the Education Amendments of 1972 and its implementing regulations in 45 CFR Part 86. Title IX prohibits discrimination on the basis of sex. The legislative history of the Youth Employment Program shows concern for coordinating activities under this program with activities under the Career Education Incentive Act, which emphasizes equal opportunities in making career choices without regard to sex. (H. Rep. No. 95–1137, 95th Cong., 2d Sess., 73 (1978)).

The Conference report (H. Rep. No. 95–1753, 95th Cong., 2d Sess., 269–270 (1978)) drops the House provision that would have conditioned the support of activities under the Youth Employment Act on those activities achieving the purposes of the Career Education Incentive Act. However, the Conference report does convey the intent that Youth Employment Act activities be carried out in a nondiscriminatory manner with due regard to sex equity.

In response to suggestions by the public and other interested parties, these final regulations contain provisions that were not in the notice of proposed rulemaking. These include (1) certain provisions of the statute governing this program and (2) the general selection criteria found in the Education Division General Administrative Regulations (EDGAR §§ 100a.202 through 100a.206). The purpose of incorporating these provisions into the final regulations is to enable applicants and grantees to understand better the requirements of this program without having to refer to these additional documents.

Dated: January 29, 1980.

(Catalog of Federal Domestic Assistance Program Number—not assigned)

William L. Smith,

Commissioner of Education.

The Commissioner amends Title 45 of the Code of Federal Regulations by adding a new part 161f to read as follows:

PART 161f—YOUTH EMPLOYMENT PROGRAM

Subpart A—General

Sec.
161f.1 Youth Employment Program.
161f.2 Eligible applicants.
161f.3 Regulations that apply to the Youth Employment Program.
161f.4 Definitions that apply to the program.
161f.5–9 [Reserved]

Subpart B—Kinds of Activities Assisted Under This Program

161f.10 Purpose of the Youth Employment Program.
161f.11 What categories of activities are supported?
161f.12 Emphasis among categories of activities.
161f.13–19 [Reserved]

Subpart C—How to Apply for a Grant

161f.20 How to apply for a grant.
161f.21–29 [Reserved]

Subpart D—How a Grant Is Made

161f.30 How the commissioner evaluates an application.
161f.31 Selection criteria the commissioner uses.
161f.32–39 [Reserved]

Subpart E—Conditions an Applicant Must Meet

161f.40 State and local educational agencies must provide an opportunity for private school students to participate.

Authority: Part f of Title III of the elementary and Secondary Education Act of 1965, as amended by Pub. L. 95–561, 92 Stat. 2215.

(20 U.S.C. 2991–2992)

Subpart A—General

§ 161f.1 Youth Employment Program.

The Youth Employment Program provides financial assistance for activities to improve youth employment by—

(a) Relating education and work; and

(b) Improving and coordinating educational and employment services.

(20 U.S.C. 2991)

§ 161f.2 Eligible applicants.

(a) The following are eligible to receive grants:

(1) State educational agencies (SEAs);

(2) Local educational agencies (LEAs);

(3) Other public and private non-profit agencies, institutions, and organizations.

(b) The following are eligible to receive procurement contracts:

(1) The agencies and organizations in paragraph (a); and

(2) Profit-making private organizations.

(20 U.S.C. 2942, 2991)

§ 161f.3 Regulations that apply to the Youth Employment Program.

(a) *Regulations for grants.* The following regulations apply to grants under the Youth Employment Program:

(1) The Education Division General Administrative Regulations (EDGAR) in part 100a (Direct Grant Programs) and part 100c (Definitions)

(2) Regulations in this part.

(b) *Regulations for procurement contracts.* The regulations in this part do not apply to procurement contracts under this program. Those contracts are subject to—

(1) Federal and HEW procurement regulations in 41 CFR chapters 1 and 3 and;

(2) Requirements and criteria in particular requests for proposal.

(20 U.S.C. 2991)

§ 161f.4 Definitions that apply to the program.

(a) *Definitions in EDGAR.* The following terms used in this part are defined in Part 100c of EDGAR.

Applicant
Applications
Commissioner
Grant
Local educational agency (LEA)
Nonprofit
Private
Program
Project
Public agency
State educational agency (SEA)

(b) *Specific program definitions.* As used in these regulations "Youth" means a person between the ages of 14 and 21.

(20 U.S.C. 1232(a))

Subpart B—Kinds of Projects Assisted Under This Program

§ 161f.10 Purpose of the Youth Employment Program.

The purpose of a Youth Employment Program is to prepare children to take their places as working members of society. This is done by developing ways to improve youth employment through—

(a) Relating education and work;

(b) Coordinating and improving educational and employment services; and

(c) Conducting studies on youth employment problems.

(20 U.S.C. 2991

§ 161f.11 What categories of activities are supported?

The Commissioner provides assistance for appropriate categories of activities such as the following:

(a) Developing ways to improve youth achievement in basic educational skills by involving youth in work experiences.

(b) Improving job opportunities for youth by coordinating educational activities with youth employment activities at the Federal, State, and local levels with particular emphasis on coordination with youth employment activities carried out by the Secretary of Labor, under the Comprehensive Employment and Training Act (CETA).

(c) Encouraging educational agencies and institutions to develop means to award academic credit for competencies derived from work experience.

(d) Studying the relationship of work to academic and intellectual achievement.

(e) Developing ways to improve career guidance and counseling services.

(f) Developing ways to improve placement and follow-up transition services from school to work, using school and community personnel.

(g) Developing ways to make the high school organization and operation more flexible as it relates to education and work. This includes, but is not limited to, flexibility of: course schedules, class locations, and school curricula;

(h) Providing technical assistance, information, training, and other assistance—to State Educational Agencies (SEAs), local educational agencies (LEAs) and other public and non-profit private agencies, organizations, and institutions—for the development of programs that enable students to make the transition from school to work more readily.

(20 U.S.C. 2991)

§ 161f.12 Emphasis among categories of activities.

The Commissioner may, in any given year, emphasize one or more of the categories of activities in § 161f.11 through a notice in the **Federal Register.**

(20 U.S.C. 2991)

Subpart C—How To Apply for a Grant

§ 161f.20 How to apply for a grant.

The "Introduction to Education Division Grant Programs" at the beginning of the EDGAR includes general information on—

(a) How to use regulations that apply to Education Division programs, and

(b) How to apply for a grant under an Education Division program.

(20 U.S.C. 2991)

Subpart D—How a Grant Is Made

§ 161f.30 How the Commissioner evaluates an application.

(a) The Commissioner evaluates an application on the basis of the criteria in § 161f.31.

(b) The Commissioner awards up to 100 possible points for these criteria.

(c) The maximum possible score for each complete criterion is indicated in parentheses at the end of that criterion.

(20 U.S.C. 22991)

§ 161f.31 Selection criteria the Commissioner uses.

(a) *Plan of operation.* (1) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(2) The Commissioner looks for information that shows—

(i) High quality in the design of the project;

(ii) An effective plan of management that insures proper and efficient administration of the project;

(iii) A clear description of how the objectives of the project relate to the purpose of the program;

(iv) The way the applicant plans to use its resources and personnel to achieve each objective; and

(v) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(vi) For grants made after October 1, 1980, if the applicant is a local educational agency or State educational agency, a clear description of how the applicant will provide an opportunity for participation of students enrolled in private schools. (10 points)

(b) *Quality of key personnel.* (1) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(2) The Commissioner looks for information that shows—

(i) The qualifications of the project director (if one is to be used);

(ii) The qualifications of each of the other key personnel to be used in the project;

(iii) The time that each person referred to in paragraphs (b)(2)(i) and (ii) of this section plans to commit to the project; and

(iv) The extent to which the applicant, as part of its nondiscriminatory

employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as members of racial or ethnic minority groups, women, handicapped persons, and the elderly.

(3) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides. (7 points)

(c) *Budget and cost effectiveness.* (1) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(2) The Commissioner looks for information that shows—

(i) The budget for the project is adequate to support the project activities; and

(ii) Costs are reasonable in relation to the objectives of the project. (5 points)

(d) *Evaluation plan.* (1) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project. (See § 100a.590—Evaluation by the grantee.)

(2) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable. (5 points)

(e) *Adequacy of resources.* (1) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project, including resources to meet the needs of persons to be served by the project.

(2) The Commissioner looks for information that shows—

(i) The facilities that the applicant plans to use are adequate; and

(ii) The equipment and supplies that the applicant plans to use are adequate. (3 points)

(f) The criteria contained in the following paragraphs supplement the EDGAR criteria and constitute 70 possible points. The Commissioner evaluates the extent to which an applicant—

(1) Documents the need for the proposed project in terms of the percentage of youth unemployment in the area to be served; (5 points)

(2) Establishes a need for additional resources to address this unemployment problem; (5 points)

(3) Establishes clearly that the stated objectives of the plan of operation meet the needs identified in paragraph (f)(1); (5 points)

(4) Demonstrates how the proposed project will produce new and innovative approaches to solving the youth employment problem including activities linking education and work; (15 points)

(5) Includes appropriate, feasible approaches to foster and sustain communication, coordination, and collaboration—without duplication of efforts—among activities and providers of services under this Act and activities and providers of services under—

(i) The Vocational Education Act;

(ii) The Career Education Incentive Act; and

(iii) In particular, the Comprehensive Employment and Training Act (CETA); (20 points) and

(6) Shows how the results of the proposed project are likely to improve youth employment. (20 points)

(20 U.S.C. 1221e-3(a)(i), 2991)

Subpart E—Conditions an Applicant Must Meet

§ 161f.40 State and local educational agencies must provide an opportunity for private school students to participate.

If an SEA or LEA receives a grant under this program, section 302(b) of the Elementary and Secondary Education Act requires that agency to provide for participation by students enrolled in private elementary and secondary schools. EDGAR established the rules for this participation (See EDGAR, § 100a.650).

(20 U.S.C. 2942(b))

[FR Doc. 80-9533 Filed 4-2-80; 8:45 am]

BILLING CODE 4110-02-M

federal register

Thursday
April 3, 1980

Part XV

Department of Health, Education, and Welfare

Office of Education

Financial Assistance for Environmental Education Projects

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

45 CFR Part 161h

Financial Assistance for Environmental Education Projects

AGENCY: Office of Education, HEW.

ACTION: Final rule.

SUMMARY: The Commissioner of Education revises regulations governing grants under the Environmental Education Act of 1978. Grants assist educational projects that improve public understanding of environmental issues as they relate to the quality of life. The revised regulations incorporate a statutory amendment which permits multi-year funding of projects. The revisions also simplify the regulations.

EFFECTIVE DATES: These regulations are expected to take effect 45 days after they are transmitted to Congress. Regulations are usually transmitted to Congress several days before they are published in the **Federal Register**. The effective date is changed by statute if Congress disapproves the regulations or takes certain adjournments. If you want to know the effective date of these regulations, call or write the Office of Education contact person.

FOR FURTHER INFORMATION CONTACT: Ms. Sylvia Wright, Program Officer, Office of Environmental Education, Room 2025, FOB–6, 400 Maryland Avenue, SW., Washington, D.C. 20202 (202–245–9231).

SUPPLEMENTARY INFORMATION: On March 9, 1979 the Office of Education published proposed regulations (44 FR 13048) for financial assistance for environmental education projects. The proposed regulations simplified the existing regulations governing grant support for developmental, demonstration, and mini-grant projects in environmental education. They also incorporated a new rule for the award of multi-year grants.

Because of the inclusion of the Environmental Education Act in Title III of the Elementary and Secondary Education Act, local educational agencies (LEAs) and State educational agencies (SEAs) must meet the requirements in Title III for involvement of private schools.

A number of comments were received on the proposed regulations, and virtually all of them were favorable. No substantive changes were made in the regulations.

Section 161h.14 What is a mini-grant project?

Comment. One commenter suggested that the mini-grant project category be redefined to include regional groups and the possibility of increased funding if the project is regional in scope.

Response. No change has been made. In keeping with the language of the authorizing legislation, the proposed regulations emphasized community groups and projects. However, regional entities or groups are not excluded from support under the mini-grant project category.

No applicant for a mini-grant project may receive more than $10,000 under the statute. Broader-scoped projects (e.g., regional) that require a higher level of funding than that permitted under the mini-grant project category are eligible for support under other funding categories.

General Comment

Comment. Another commenter suggested that the definition of environmental education be made broader and, specifically, that the following be eligible for funding consideration:

(1) Interdisciplinary outdoor experience that is not exclusively nature study or science oriented and that helps people understand their personal relationship to their whole environment, natural and cultural.

(2) Wilderness living programs that are based on ecological concepts and provide natural world experience through a "structured trip or in-the-wilderness stay."

Response. No change has been made. The proposed regulations do not define the term "environmental education" since it is defined in the statute. The statute defines environmental education as concerned with the relationship of various aspects of the natural and manmade environment and the total human environment. The proposed regulations clarify the concepts of manmade environment or surroundings and total human environment by stating that economic, policy, social, and cultural aspects would be included. This clarification will not result in the exclusion of any specific environmental area of study, issue, or educational approach such as interdisciplinary outdoor education or wilderness living programs, that meets the statutory definition of environmental education.

Other comments

In response to suggestions by the public and other interested parties, these final regulations contain provisions that were not in the notice of proposed rulemaking. These include (1) certain provisions of the statute governing this program and (2) the general selection criteria found in the Education Division General Administrative Regulations (EDGAR §§ 100a.202 through 100a.206). The purpose of incorporating these provisions into the final regulations is to enable applicants and grantees to understand better the requirements of this program without having to refer to these additional documents.

Section 161h.21 (To whom must an applicant submit its application for comment?) has been revised to indicate that (1) all applicants must meet the requirements for clearinghouse procedures; and (2) an applicant LEA Must meet the requirements for open meetings.

The requirements to be met by SEAs and LEAs for involvement of private schools are included in a new § 161h.43.

Finally, there were several editorial suggestions, most of which have been included in these regulations.

The reader will find a citation of statutory or other legal authority in parentheses on the line following each substantive provision.

Dated: January 31, 1980.

(Catalog of Federal Domestic Assistance Number 13.522, Environmental Education Act)

William L. Smith,

Commissioner of Education.

The Commissioner redesignates Part 183 of 45 CFR as Part 161h and revises the regulations to read as follows:

PART 161h—FINANCIAL ASSISTANCE FOR ENVIRONMENTAL EDUCATION PROJECTS

Subpart A—General

Sec.

161h.1 What is the environmental education program?
161h.2 Who is eligible to receive grants?
161h.3 What regulations apply to this program?
161h.4 What definitions apply to this program?

Subpart B—What Kinds of Projects Does the Office of Education Assist Under This Program?

161h.10 What are the Purposes of the projects?
161h.11 What types of projects are supported?
161h.12 What is a comprehensive multi-year project?
161h.13 What is a general project?
161h.14 What is a mini-grant project?
161h.15 Are priorities for funding established?

Subpart C—How Does One Apply for a Grant?

161h.20 What documents govern applications?
161h.21 To whom must an applicant submit its application for comment?

Subpart D—How Is a Grant Made?

161h.30 How does the Commissioner evaluate an application?
161h.31 What selection criteria does the Commissioner use?

Subpart E—What Conditions Must a Grantee Meet?

161h.40 Must a grantee help defray part of its project's costs?
161h.41 Are there restrictions on the types of costs a grant may support?
161h.42 What other restrictions apply to the use of grants?
161h.43 Must State and local educational agencies provide an opportunity for private school students to participate?

Authority: Part H of Title III of the Elementary and Secondary Education Act as amended by Pub. L. 95–561 (20 U.S.C. 3011–3018; 92 Stat. 2217–2221).

Subpart A—General

§ 161h.1 What is the Environmental Education Program?

The Environmental Education Program assists educational projects that improve public understanding of environmental issues as they relate to the quality of life. Under this program, the Commissioner may make direct grants to public or nonprofit private institutions, agencies, or organizations for developmental, demonstration, or mini-grant projects.

(20 U.S.C. 3011–3018)

§ 161h.2 Who is eligible to receive grants?

The following are eligible to receive grants:

(a) Public and private institutions of higher education and other nonprofit private organizations. Each of these applicants shall have been in existence for one year or more prior to submitting an application.

(b) State Educational Agencies (SEAs), local educational agencies (LEAs), and other public agencies and organizations.

(c) Consortia of eligible applicants as defined in paragraphs (a) (1) and (2) of this section.

(20 U.S.C. 3013(b)(1) and 3016)

§ 161h.3 What regulations apply to this program?

(a) *Regulations.* The following regulations apply to the Environmental Education Program:

(1) The Education Division General Administration regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs) and 45 CFR Part 100c (Definitions); and

(2) The regulations in this part.

(b) The "Introduction to Education Division Programs" at the beginning of EDGAR includes general information to assist in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

§ 161h.4 What definitions apply to this program?

(a) *Definitions in EDGAR.* The following terms used in this part are defined in part 100c:

Applicant
Application
Commissioner
EDGAR
Grant
Grantee
Local educational agency (LEA)
Nonprofit
Private
Project
Project period
Public
State
State educational agency (SEA)

(20 U.S.C. 1232)

(b) *The following terms apply specifically to this program:* "Act" means the Environmental Education Act of 1978.

"Consortium" means a group consisting of representatives of various areas of expertise in environmental education, such as State and regional planning, economics, social policy, environmental protection, public interest, business, higher education, secondary education, and community education.

"Environmental area of study" means the study of the relationship between various aspects of the natural and manmade environment and the total human environment. These aspects include the relationship between energy, population, resource allocation and depletion, conservation, transportation, technology, economic impact, urban and rural planning and the total human environment. The term also encompasses specific environmental issues.

"Resources" means materials, personnel, methods, or information.

"Target group" means the group to benefit from or to participate in a project.

(c) The term "environmental education" is defined in the Act.

(20 U.S.C. 3011–3018)

Subpart B—What Kinds of Projects Does the Office of Education Assist under this Program?

§ 161h.10 What are the purposes of the projects?

In order to be considered for a grant, an applicant shall propose a project that—

(a) Includes the study of the policy, social, cultural, and economic aspects of the environmental area of study or issues to be addressed; and

(b) Provides an objective and balanced treatment of different views on environmental issues and resolutions of those issues.

(20 U.S.C. 3011)

§ 161h.11 What types of projects are supported?

The Commissioner may award funds for three types of projects:

(a) Comprehensive multi-year projects.

(b) General projects.

(c) Mini-grant projects.

(20 U.S.C. 3013, 3016)

§ 161h.12 What is a comprehensive multi-year project?

(a)(1) A comprehensive multi-year project is a developmental or demonstration project in environmental education that involves three or more activities and more than one target group.

(2) Specific target groups for a multi-year project may include educational administrators, teachers, students at the elementary, secondary, or post-secondary levels, community organizations, government employees, business and labor leaders, or the general public.

(b) A comprehensive multi-year project is intended to demonstrate effective methods for—

(1) Improving, over the long term, individual and institutional capabilities in environmental education;

(2) Adopting and adapting new knowledge as it becomes available;

(3) Identifying and using, in an appropriate and effective way, a broad range of local and regional resources;

(4) Achieving significant interaction between formal education and community education; and

(5) Facilitating local or regional adoption of the project's activities and the continuation of those activities after the project period ends.

(c) A comprehensive multi-year project requires more than 12 months to achieve its objective(s).

(20 U.S.C. 3013)

§ 161h.13 What is a general project?

(a) A general project is a developmental project in environmental education that focuses on a single activity, such as any one of the activities listed in section 353(b)(2) of the Act.

(b) A general project requires no more than 12 months to achieve its objective(s).

(20 U.S.C. 3013)

§ 161h.14 What is a mini-grant project?

(a) A mini-grant project is one or more community workshops, seminars, symposiums, or conferences on a community or local environmental issue.

(b) A mini-grant project is intended to assist the community—especially adults and members of community organizations other than the grantee organization—in understanding—

(1) The causes and effects of an environmental issue;

(2) Local policies and practices associated with the issue; and

(3) The options for resolving the issue.

(c) In addition to the primary activity, a mini-grant project may include a variety of preparatory and follow-up activities as needed to assure the project's success.

(d) A mini-grant project usually requires fewer than 12 months to achieve its objective(s).

(20 U.S.C. 3016)

§ 161h.15 Are priorities for funding established?

(a)(1) In any given year—through publication of a notice in the Federal Register—the Commissioner may give priority to one or more of the types of projects listed in § 161h.11 and further described in §§ 161h.12 through 161h.14.

(2) Within comprehensive multi-year projects, the Commissioner may in the notice give priority to projects that focus on one or more of the target groups specified in § 161h.12(a)(2).

(3) Within general projects, the Commissioner may in the notice give priority to one or more of the activities listed in section 353(b)(2) of the Act.

(b) In addition—

(1) In awarding grants for comprehensive multi-year projects, the Commissioner may give priority to consortia of eligible applicants; and

(2) In awarding grants for mini-grant projects, the Commissioner may give priority to nonprofit citizens' groups and volunteer organizations.

(20 U.S.C. 3013, 3016)

Subpart C—How Does One Apply for a Grant?

§ 161h.20 What documents govern applications?

The Commissioner considers making a grant to an eligible applicant only if the applicant prepares and submits an application according to—

(a) The regulations in this part;

(b) The applicable provisions in EDGAR;

(c) The procedures and priorities contained in the notices published in the Federal Register; and

(d) The instructions and forms included in the application package.

(20 U.S.C. 1232)

§ 161h.21 To whom must an applicant submit its application for comment?

(a) All applicants must meet the requirements described in EDGAR 45 CFR 100a.170 through 100a.173 (OMB Circular A-95 Clearinghouse Procedures).

(b) In addition, an applicant LEA must—

(1) Meet the requirements for open meetings described in EDGAR 45 CFR 100a.138 through 100a.141; and

(2) Submit a copy of its application to its SEA for review and comment. Procedures are described in EDGAR 45 CFR 100a.156 through 100a.158.

(20 U.S.C. 3014(b))

Subpart D—How is a Grant Made?

§ 161h.30 How does the Commissioner evaluate an application?

(a) The Commissioner evaluates an application on the basis of the criteria in § 161h.31 below.

(b) The Commissioner awards up to 100 possible points for these criteria.

(c) The maximum possible score for each criterion is indicated in parentheses at the end of that criterion.

§ 161h.31 What selection criteria does the Commissioner use?

(a) *Plan of operation.* (1) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(2) The Commissioner looks for information that shows—

(i) High quality in the design of the project;

(ii) An effective plan of management that insures proper and efficient administration of the project;

(iii) A clear description of how the objectives of the project relate to the purpose of the program;

(iv) The way the applicant plans to use its resources and personnel to achieve each objective; and

(v) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(vi) For grants to be made after October 1, 1980, if the applicant is a local educational agency or State educational agency, a clear description of how the applicant will provide an opportunity for participation of students enrolled in nonprofit private schools.

(b) *Quality of key personnel.* (1) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(2) The Commissioner looks for information that shows—

(i) The qualifications of the project director (if one is to be used);

(ii) The qualifications of each of the other key personnel to be used in the project;

(iii) The time that each person referred to in paragraphs (b)(2) (i) and (ii) of this section plans to commit to the project; and

(iv) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as members of racial or ethnic minority groups, women, handicapped persons, and the elderly.

(3) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides. (7 points)

(c) *Budget and cost effectiveness.* (1) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(2) The Commissioner looks for information that shows—

(i) The budget for the project is adequate to support the project activities; and

(ii) Costs are reasonable in relation to the objectives of the project. (5 points)

(d) *Evaluation plan.* (1) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project. (See § 100a.590—Evaluation by the grantee.)

(2) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable. (5 points)

(e) *Adequacy of resources.* (1) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(2) The Commissioner looks for information that shows—

(i) The facilities that the applicant plans to use are adequate, and

(ii) The equipment and supplies that the applicant plans to use are adequate. (3 points)

(20 U.S.C. 1221e(3)(a)(1))

(f) *Adequacy of content treatment.* The Commissioner reviews each application to determine the extent to which the proposed project—

(1) Identifies and organizes into a meaningful relationship to one another the policy, social, economic, cultural, technological, bio-physical, and human health aspects of the environmental area of study or issue(s) to be addressed; (25 points)

(2) Reflects current knowledge of the environmental area of study or issue(s) to be addressed; (10 points)

(3) Is likely to communicate that knowledge in a manner that is appropriate to the project's objective(s) and target group(s). (10 points)

(g) *Project effectiveness.* The Commissioner reviews each application to determine the extent to which the proposed project will enhance the ability of its target group(s) to participate in environmental decision-making by improving the ability of the group(s) to—

(1) Contribute to the identification of environmental issues and alternative resolutions of those issues;

(2) Assess short- and long-term risks, benefits, costs, and acceptability of alternative resolutions; and

(3) Understand the need for practicable resolutions embodying different points of view. (15 points)

(h) *Potential impact.* The Commissioner reviews each application to determine the extent to which the proposed project gives evidence of—under one of the following categories—potential for improving the quality of environmental education:

(1) If the proposed project is a comprehensive multi-year project, the extent to which it has the potential for being a national demonstration project; or

(2) If the proposed project is a general project, the extent to which its results can be adapted for environmental education in other areas of the country; or

(3) If the proposed project is a mini-grant project, the extent to which it is likely to improve the ability of its target group(s) to understand local environmental issues in a broader context. (10 points)

(20 U.S.C. 1221e-3(a)(1); 3013; 3016)

Subpart E—What Conditions Must a Grantee Meet?

§ 161h.40 Must a grantee help defray part of its project's cost?

(a) If the project is a national-level curriculum development, evaluation, dissemination, or demonstration project, the grant may cover 100 percent of the cost.

(b) If the project is a mini-grant project, the grant may cover 100 percent of the cost up to $10,000.

(c)(1) For other types of projects, Federal funding may not exceed 80 percent of the approved project cost for the first year.

(2) In the second and third years, Federal funding decreases to 60 percent and 40 percent respectively, of the approved project cost for the first year, regardless of the actual project cost in the second and third years.

(3) The non-federal contribution to the approved project cost may be in cash or in kind, including fairly evaluated plant, equipment, and services contributions.

(20 U.S.C. 3014(d) and 3016)

§ 161h.41 Are there restrictions on the types of costs a grant may support?

(a) Federal funds may not be used for improvement or alteration of sites.

(b) Funds may not be used for subgrants.

(20 U.S.C. 3013, 3016)

§ 161h.42 What other restrictions apply to the use of grants?

Grants may be used to supplement or increase funds made available by the applicant for these types of activities. Grants may not be used to supplant those funds.

(20 U.S.C. 3014(a)(4))

§ 161h.43 Must State and local educational agencies provide an opportunity for private school students to participate?

If an SEA or LEA receives a grant under this program, the Act requires that agency to provide for participation by students enrolled in nonprofit private elementary and secondary schools. EDGAR establishes the rules for this participation (See EDGAR, 45 CFR 100a.650).

Department of Health, Education, and Welfare

Office of Education

Adult Education State-Administered Program and Commissioner's Discretionary Programs

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

45 CFR Parts 166, 166a, 166b, 166c

Adult Education State-Administered Program and Commissioner's Discretionary Programs

AGENCY: Office of Education, HEW.

ACTION: Final Regulations.

SUMMARY: The Commissioner of Education issues final regulations to implement the Adult Education Act, amended by the Education Amendments of 1978. These regulations govern the State-administered program of adult education and the Commissioner's four discretionary programs. The primary thrust of these regulations is to significantly expand the State delivery system of educational services to adults who are least educated and most in need of assistance. The regulations also address educational programs for adult immigrants and adult Indochina refugees, planning grants to States, and a national development and dissemination program.

EFFECTIVE DATE: These regulations are expected to take effect 45 days after they are transmitted to the Congress. Regulations are transmitted to the Congress several days before they are published in the **Federal Register.** If the Congress disapproves the regulations or takes certain adjournments, the effective date is changed by statute. To learn the effective date of these regulations, phone or write the contact person for the Division of Adult Education listed below.

FOR FURTHER INFORMATION CONTACT: Mr. Paul V. Delker, Director, Division of Adult Education, U.S. Office of Education, 400 Maryland Avenue SW., (ROB–3, Room 5056), Washington, D.C. 20202, (202) 245–2278.

SUPPLEMENTARY INFORMATION:

Background

Title XIII of the Education Amendments of 1978 (Pub. L. 95–561) contains the amendments to the Adult Education Act. The primary purpose of the Adult Education Act has been, and continues to be under the new amendments, to offer educationally disadvantaged persons 16 years of age and older the opportunity to acquire basic skills necessary to function in society and to become more employable, productive, and responsible citizens.

There are two major parts to the adult education program established under the Adult Education Act. One is the State-administered program and the other is comprised of four national discretionary programs.

The State-administered program establishes a cooperative effort between the Federal Government and the States. Funds are allocated to the States on a formula basis and the States, in turn, fund local programs based on need and resources available. Each State is required to match these Federal adult education funds at the rate of ten cents for every ninety cents of Federal money.

The Commissioner of Education considers the most important objective of this Act to be to provide adult basic education for those who are least educated and most in need of assistance. As the House Report on this subject stated, "The needs of those individuals have not been adequately met to date and now is not the time to loosen up the requirements of the Act to spend more funds on those who are better educated and closer to achieving high school equivalency. For this reason, the Committee [on Education and Labor] adopted amendments that specifically direct that the required State plans describe how the program in each State will reach some of the adult populations traditionally most in need of, and least likely to participate in, adult education." (H. Rept. No. 95–1137, p. 128)

Congress amended the Adult Education Act to stress a significant expansion of a State's delivery system and an increased emphasis on outreach activities. With respect to the expansion of its delivery system, a State may now award subgrants to public and private nonprofit agencies in addition to the traditional recipients (i.e., local educational agencies). A State is also required to seek the active participation of representatives of diverse interests in developing and carrying out its State plan.

The new amendments to the Act direct the States to increase their activities to inform the adult populations who are least educated and most in need of assistance of the availability and benefits of the adult education program. In order to ensure the participation of these adult populations, recipients of funds must provide reasonable and convenient access to the program. Programs must be more flexible in their course offerings, locations, and in terms of assuring the availability of additional services such as day care and transportation.

The Act now requires that a State include in its State plan the criteria it will use to assess the applications submitted by eligible applicants. This requirement constitutes a major departure from past practice and will lead to greater accountability for the expenditure of Federal funds.

In addition to the State-administered program, the Act authorizes—

1. A National Development and Dissemination Program;
2. Planning Grants;
3. An Emergency Adult Education Program for Indochina Refugees; and
4. An Adult Education Program for Adult Immigrants.

These regulations do not address contracts under the National Development and Dissemination Program and the Adult Education Program for Adult Immigrants. In the case of contracts, an offeror shall submit to the Commissioner a proposal that meets the requirements of a Request for Proposal (RFP) as announced by the Commissioner in the *Commerce Business Daily*. Selection criteria will be contained in the Request for Proposal. The proposal must meet the requirements of chapters 1 and 3 of Title 41 of the Code of Federal Regulations.

How To Use These Regulations

In response to suggestions by the public and other interested parties, these final regulations contain provisions that were not in the Notice of Proposed Rulemaking. These include (1) certain provisions of the statute governing this program and (2) the general selection criteria found in the Education Division General Administrative Regulations (EDGAR §§ 100a.202 through 100a.206). The purpose of incorporating these provisions into the final regulations is to enable applicants and grantees to understand better the requirements of this program without having to refer to these additional documents.

In addition, the numbering system of these final regulations has been changed to a new format that signifies regulations for multiple programs under one statute. Part 166, covering adult education programs, includes: A general section that applies to all programs under these regulations; Part 166a that pertains only to the State-administered Adult Education Program; Part 166b that pertains only to the National Adult Education Development and Dissemination Program and Planning Grants; and Part 166c that pertains only to the Adult Education Programs for Immigrants and Indochina Refugees.

These regulations do not contain certain types of administrative requirements formerly found in the adult education program regulations. Those requirements are covered in the Education Division's General Administrative Regulations (EDGAR), which replace the General Provisions for Office of Education Programs regulations.

The "Introduction to Education Division Programs" at the beginning of EDGAR includes general information to assist recipients in using regulations that apply to Education Division programs.

Certain other administrative requirements are contained in the Department of Health, Education, and Welfare General Administration regulations in 45 CFR Part 74 (Administration of Grants). These HEW grants administration regulations cover, for example, cost principles, reporting requirements, property requirements, and procurement standards.

The General Education Provisions Act and the various civil rights authorities also govern the operation of the adult education program. The regulations implementing the civil rights authorities and those relating to the protection of human subjects and day care services are referenced in these regulations.

Public Participation

In October and November of 1978, the Office of Education convened four area workshops with State Directors of Adult Education. The purpose of these workshops was to raise issues concerning the fulfillment of the legislative intent with suggested alternatives for resolving the issues. These workshops also provided an opportunity to share with State Directors suggested models and processes for planning and carrying out state adult education programs.

On November 29, 1978, the Commissioner announced in the **Federal Register** (43 FR 58801) a Notice of Intent to Develop Regulations for the Adult Education Program. Following this announcement, ten area meetings were held across the country to identify and resolve major issues raised by the amended legislation before final regulations were implemented.

Many comments and suggestions were submitted at the four workshops and ten area meetings. In addition, over 200 persons mailed comments directly to the Office of Education. These comments were analyzed and, in many instances, incorporated into the proposed regulations.

The Notice of Proposed Rulemaking (NPRM) was published in the **Federal Register** on June 28, 1979 (44 FR 37866). Interested persons were given 60 days to comment on these proposed regulations. On August 7, 1979, public meetings were held in ten cities in order to receive public comment regarding the proposed regulations.

Over 300 public comments were received. The commenters were generally very supportive of the proposed regulations. It was frequently pointed out that the proposed regulations were written in a form that was not overly prescriptive or lengthy; that they retained reliance on the integrity of the State educational agency to administer the State grant program using the broadest delivery mechanism possible; and that they reflect the priorities of the law for the inclusion of those adults who are least educated and most in need of educational assistance.

Appendix B of these regulations contains comments, suggestions, and recommendations that were submitted either in writing or at the public meetings. After each comment summary, a response is given stating the changes that have been made in the regulations or the reasons why no change was considered necessary or appropriate. The comments are arranged in numerical order according to the section of the regulations to which they refer. Comments which could not be classified according to section are included under a general heading at the end of Appendix B.

Citation to Legal Authority

As required by section 431(a) of the General Education Provisions Act, a citation to the statutory or other legal authority for each provision of the regulations has been placed in parentheses on the line immediately following the text of the regulation.

Unless otherwise noted, the statutory citation is to the Adult Education Act, Pub. L. 91–230, as amended. Citation to the United States Code (U.S.C.) generally follows a citation to a section of the Act.

(20 U.S.C. 1232(a))

Dated: March 10, 1980.

William L. Smith,

Commissioner of Education.

(Catalog of Federal Domestic Assistance (CFDA) No. 13.400, Adult Education State-administered Program; No. 13.579, Emergency Adult Education Program for Indochina Refugees; No. 13.692, Adult Education Program for Adult Immigrants. CFDA Nos. not assigned for National Adult Education Development and Dissemination Program and Planning Grants.)

45 CFR is amended as follows:

1. Part 166 is revised to read as follows:

PART 166—ADULT EDUCATION STATE-ADMINISTERED PROGRAM AND COMMISSIONER'S DISCRETIONARY PROGRAMS

Subpart A—General

Sec.

166.1 What are the adult education programs?
166.2 What is the purpose of the Act?
166.3 What other regulations are applicable to the adult education programs?
166.4 What definitions apply to the adult education programs?
166.5–166.9 [Reserved]

Authority: Secs. 301–318 of Pub. L. 91–230, as amended by Title XIII of Pub. L. 95–561, 92 Stat. 2356, 20 U.S.C. 1201–1211c, unless otherwise noted.

Subpart A—General

§ 166.1 What are the adult education programs?

Part 166 contains regulations interpreting or implementing the programs authorized under the Adult Education Act. The programs included in this part are—

(a) State-administered Adult Education Program;

(b) National Adult Education Development and Dissemination Program and Planning Grants; and

(c) Adult Education Programs for Immigrants and Indochina Refugees.

(20 U.S.C. 1201 *et seq.*)

§ 166.2 What is the purpose of the Act?

The purpose of the Act is to—

(a) Expand educational opportunities for adults; and

(b) Encourage the establishment of programs of adult education that will—

(1) Enable all adults to acquire basic skills necessary to function in society;

(2) Enable adults who so desire to continue their education to at least the level of completion of secondary school; and

(3) Make available to adults the means to secure training that will enable them to become more employable, productive, and responsible citizens.

(Sec. 302; 20 U.S.C. 1201)

§ 166.3 What other regulations are applicable to the adult education program?

(a) The following regulations also apply to the State-administered program and the Commissioner's discretionary programs under the Adult Education Act:

(1) The Education Division General Administrative Regulations (EDGAR) in 45 CFR Part 100a (Direct Grant Programs), 45 CFR Part 100b (State-administered Programs), and 45 CFR Part 100c (Definitions).

(2) The Department of Health, Education, and Welfare General Administration Regulations in 45 CFR Part 74 (Administration of Grants).

(3) The Federal Interagency Day Care Regulations in 45 CFR Part 71.

(4) 45 CFR Parts 80 and 81 relating to nondiscrimination on the basis of race.

(5) 45 CFR Part 84 relating to nondiscrimination on the basis of handicap.

(6) 45 CFR Part 86 relating to nondiscrimination on the basis of sex.

(7) 45 CFR Part 46 relating to the protection of human subjects.

(8) 45 CFR Part 90 relating to nondiscrimination on the basis of age.

(b) The "Introduction to Education Division Programs" at the beginning of EDGAR includes general information to assist recipients in—

(1) Using regulations that apply to Education Division programs; and

(2) Applying for assistance under an Education Division program.

(20 U.S.C. 1201, 1221)

§ 166.4 What definitions apply to the adult education programs?

(a) *Statutory definitions.* The following terms used in this part are defined in section 303 of the Act:

(1) The term "adult" means any individual who has attained the age of sixteen.

(2) The term "adult education" means services or instruction below the college level (as determined by the Commissioner), for adults who—

(i) Lack sufficient mastery of basic educational skills to enable them to function effectively in society or who do not have a certificate of graduation from a school providing secondary education and who have not achieved an equivalent level of education; and

(ii) Are not currently required to be enrolled in schools.

(3) The term "adult basic education" means adult education for adults whose inability to speak, read, or write the English language constitutes a substantial impairment of their ability to get or retain employment commensurate with their real ability, which is designed to help eliminate such inability and raise the level of education of such individuals with a view to making them less likely to become dependent on others, to improving their ability to benefit from occupational training and otherwise increasing their opportunities for more productive and profitable employment, and to making them better able to meet their adult responsibilities.

(4) The term "State" includes the District of Columbia, the Commonwealth of Puerto Rico and (except for the purposes of section 305(a)) Guam, American Samoa, the Trust Territory of the Pacific Islands, the Northern Mariana Islands, and the Virgin Islands.

(5) The term "institution of higher education" means any such institution as defined by section 801(e) of the Elementary and Secondary Education Act of 1965.

(Sec. 303; 20 U.S.C. 1202)

(b) *Definitions in EDGAR.* The following terms used in this part are defined in Part 100c:

(1) Applicant
(2) Application
(3) Award
(4) Budget period
(5) Commissioner
(6) Local educational agency
(7) Nonprofit
(8) Private
(9) Project
(10) Project period
(11) Public
(12) State educational agency

(c) *Definitions in Part 74.* The following terms used in this part are defined in 45 CFR Part 74:

(1) Budget
(2) Grant
(3) Grantee
(4) Subgrant
(5) Subgrantee

(d) *Program definitions.* The following definitions also apply to the adult education programs:

(1) "Act" means the Adult Education Act (20 U.S.C. 1201 *et seq.*).

(2) "Expansion" means that the State educational agency has increased during the period covered by the three-year plan—

(i) The number of agencies, institutions, and organizations—other than local educational agencies—used to provide adult education and support services; and

(ii) One or both of the following:

(A) The number of adults least educated and most in need of assistance participating in the adult education program.

(B) The percentage of adults least educated and most in need of assistance who met their educational objectives.

(3) "Immigrant," as used in this part, means any refugee admitted (paroled) into this country or any alien except one who is exempt under the provisions of the Immigration and Nationality Act, as amended.

(8 U.S.C. 1101(a)(15))

(4) "Indochina refugee," as defined in the Indochina Migration and Refugee Assistance Act of 1975, as amended by Pub. L. 94–313, and as used in this part, means an alien who because of persecution or fear of persecution on account of race, religion, or political opinion, fled from Cambodia, Vietnam, or Laos; cannot return there because of fear of persecution on account of race, religion, or political opinion; and is in urgent need of assistance for the essentials of life.

(22 U.S.C. 2601)

(5) "Institutionalized person" means an adult, as defined in the Act, who is an inmate, patient, or resident of a special institution.

(6) "Limited English proficiency" or "limited English language skills" refers to difficulty in speaking, reading, writing, or understanding the English language so that adults are denied the opportunity to learn successfully in a learning environment where the language of instruction is English.

(7) "Outreach" means activities designed to—

(i) Inform adult populations who are least educated and most in need of assistance of the availability and benefits of the adult education program; and

(ii) Assist these adult populations to participate in the program by providing reasonable and convenient access.

(20 U.S.C. 1202)

PART 166a—STATE-ADMINISTERED ADULT EDUCATION PROGRAM

2. A new Part 166a is added as follows:

Subpart A—General

Sec.
166a.10 How is the adult education State-administered program governed?

Subpart B—How a State Applies for a Grant

166a.11 Who is eligible?
166a.12 What documents must a State submit to receive its grant?
166a.13 What must the State plan contain?
166a.14 How is the State plan developed?
166a.15 What other requirements must a State educational agency meet?
166a.16–166a.20 [Reserved]

Subpart C—State Advisory Councils

166a.21 What are a State's responsibilities regarding State advisory councils?
166a.22 How is a State advisory council established?
166a.23 How is the membership of a State advisory council determined?
166a.24 How is the membership of a State advisory council certified?
166a.25 What are the functions and responsibilities of a State advisory council?
166a.26 What are the requirements for State advisory council meetings?
166a.27 What costs are allowable?
166a.28–166a.30 [Reserved]

Subpart D—How a Grant Is Made to a State

166a.31 How is the amount of each State's grant determined?
166a.32 What is each State's limitation on administrative costs?
166a.33–166a.40 [Reserved]

Subpart E—How To Apply to the State for a Subgrant

166a.41 Who is eligible for a subgrant?

166a.42–166a.50 [Reserved]

Subpart F—How a Subgrant Is Made to an Applicant

166a.51 How will a State review annual applications?
166a.52–166a.60 [Reserved]

Subpart G—Conditions That Must Be Met by a State

166a.61 What are the matching requirements of the program?
166a.62 What are the maintenance of effort requirements of the program?
166a.63 How is a maintenance of effort waiver granted?
166a.64 What are exceptional and unforeseen circumstances?
166a.65 How is maintenance of effort computed in the event of a waiver?
166a.66 What are the percentage requirements with respect to State distribution of Federal funds?
166a.67–166a.70 [Reserved]

Subpart H—State-administered Special Experimental Demonstration Projects and Teacher Training Projects

166a.71 Who are the eligible applicants for these projects?
166a.72 What are the criteria and priorities in administering these projects?
166a.73 How will a State administer these projects?
166a.74 How will the results be disseminated?
166a.75–166a.100 [Reserved]

Authority: Secs. 301–318 of Pub. L. 91–230, as amended by Title XIII of Pub. L. 95–561, 92 Stat. 2356, 20 U.S.C. 1201–1211c, unless otherwise noted.

PART 166a—STATE-ADMINISTERED ADULT EDUCATION PROGRAM

Subpart A—General

§ 166a.10 How is the adult education State-administered program governed?

(a) *Federal-State relationship.* The adult education State-administered program is a cooperative effort between the Federal Government and the States to provide adult education. Federal funds are granted to the States on a formula basis. The States fund local programs of adult education based on need and resources available.

(b) *Other applicable provisions.* The provisions of §§ 166.1 through 166.4 of 45 CFR Part 166 apply to the State-administered Adult Education Program under this part.

(20 U.S.C. 1201)

Subpart B—How a State Applies for a Grant

§ 166a.11 Who is eligible?

Any State may apply for a grant under this part.

(Sec. 304(a); 20 U.S.C. 1206)

§ 166a.12 What documents must a State submit to receive its grant?

A State educational agency shall submit to the Commissioner:

(a) A single State application as required by section 435 of the General Education Provisions Act. If a State educational agency has on file with the Commissioner a single State application for all education programs, this requirement is satisfied.

(b) A State plan, developed once every three years, that meets the requirements of these regulations and the Act.

(c) The certification required by 45 CFR § 100b.104 of EDGAR.

(d) Program assurances, signed by an authorized official of the State educational agency, to provide that—

(1) The State educational agency, in carrying out the adult education program, will provide for—

(i) Adequate consultation, cooperation, and coordination among the State educational agency, State manpower service councils, State occupational information systems, and other agencies, organizations, and institutions in the State that operate employment and training programs or other educational or training programs for adults; and

(ii) Coordination of programs carried on under this title with other programs, including reading improvement programs, which are designed to provide reading instruction for adults and are conducted by State and local agencies.

(2) The State educational agency will make available not to exceed 20 percent of the State's allotment for programs of equivalency for a certificate of graduation from a secondary school.

(3) The State educational agency will ensure that special emphasis will be given to adult basic education programs except where these needs have been met in the State.

(4) Adults enrolled in adult basic education programs will not be charged tuition, fees, or any other charges, or be required to purchase any books or any other materials that are needed for participation in the program.

(5) Not more than 20 percent of the funds granted to the State under the Act for any fiscal year shall be used for the education of institutionalized adults.

(6) The State educational agency will provide that special assistance be given to the needs of persons with limited English proficiency by providing bilingual adult education programs of instruction in English and, to the extent necessary to allow these persons to progress effectively through the adult education program, in the native language of these persons. These programs will be carried out in coordination with programs of bilingual education assisted under title VII of the Elementary and Secondary Education Act of 1965 and bilingual vocational education programs under the Vocational Education Act of 1963, as amended.

(7) For each fiscal year covered by this plan, the State will have available for expenditure for adult education from non-Federal sources an amount that is not less than the fiscal effort per student or the aggregate amount expended for adult education purposes from non-Federal sources during the preceding fiscal year.

Note.—In the event of exceptional and unforeseen circumstances, the State may, under § 166a.63, request a one-time waiver of this requirement.

(8) The State educational agency will monitor and report program performance in accordance with Subpart J of 45 CFR Part 74.

(Secs. 304(b), 306, 307(b); 20 U.S.C. 1203, 1205, and 1206)

§ 166a.13 What must the State plan contain?

(a) A State educational agency shall include in its State plan a description of the policies, procedures, and activities for carrying out the requirements—

(1) Listed in section 306(b) of the Act; and

(2) Included in these regulations.

(b) A State educational agency may meet the requirements of section 306(b)(2) and (6), covering administration, fiscal control, and fund accounting procedures, by submitting to the Commissioner a single State application under section 435 of the General Education Provisions Act.

(c) A State educational agency shall describe, for the three-year period covered by the plan, the adult education needs of all segments of the adult population in the State. A State educational agency shall specifically describe the needs of those adults who are least educated and most in need of assistance.

(d) A State educational agency shall identify the other Federal and non-Federal resources available to meet the needs described in paragraph (c) of this section.

(e)(1) A State educational agency shall identify the goals it intends to achieve in meeting the needs described in paragraph (c) of this section for the period covered by the plan.

(2) A State educational agency shall describe proposed activities and estimated expenditures of reaching each goal.

(f)(1) A State educational agency shall describe the outreach activities that the State intends to carry out during the period covered by the plan.

(2) In conjunction with these outreach activities, a State educational agency shall describe the efforts it will undertake to assure support services during the period covered by the plan. Support services include flexible schedules, transportation, and day care services. A State educational agency shall identify the resources to be used for these support services. A concerted effort shall be undertaken to provide these services through other programs, agencies, and organizations.

(g) A State educational agency shall describe its procedures for ensuring that cooperative arrangements will be entered into with other agencies for delivering adult education and support services.

(h) A State educational agency shall describe the criteria for evaluating project applications.

(i) In any plan submitted subsequent to the initial three-year plan under the Act, a State educational agency shall describe—

(1) Its accomplishments, in meeting the goals included in the previous three-year plan; and

(2) How the assessment of accomplishments and the evaluation required by paragraph (k) of this section were considered in establishing the State's goals for adult education in the plan being submitted.

(j) A State educational agency shall describe its policies, procedures, and activities for carrying out special experimental demonstration projects and teacher training projects that meet the requirements of §§ 166a.71 through 166a.74 of these regulations.

(k) A State educational agency shall provide for an evaluation of activities under sections 306 and 310 of the Act. The evaluation shall be performed at least once every three years. Evaluation procedures, schedule of evaluations, and specific criteria to be used in assessing the effectiveness of all activities shall be included in the State plan. A summary of the State's evaluation of activities shall be sent to the Commissioner within 90 days of the close of each program year.

(l) If applicable, a State educational agency shall include in the plan a notification of the establishment of and membership of a State advisory council that meets the rquirements of §§ 166a.21 through 166a.27 of these regulations. Because the Act does not require a State educational agency to establish a State advisory council, only States that fund councils out of the Federal allotment or non-Federal matching funds are subject to these requirements.

(Secs. 306, 312; 20 U.S.C. 1205, and 1211)

§ 166a.14 How is the State plan developed?

(a) A State educational agency shall involve in the development of the plan one or more representatives of each of the following agencies and groups:

(1) The business community
(2) Industry
(3) Labor unions
(4) Public educational agencies and institutions
(5) Private educational agencies and institutions
(6) Churches
(7) Fraternal/sororal organizations
(8) Voluntary organizations
(9) Community organizations
(10) State manpower and training agencies
(11) Local manpower and training agencies
(12) Adult residents of rural areas
(13) Adult residents of urban areas with high rates of unemployment
(14) Adults with limited English language skills
(15) Institutionalized adults

(16) Other entities concerned with adult education, such as the Right to Read and Basic Skills programs, volunteer literacy programs, libraries, and organizations offering education programs for older persons and military personnel and their adult dependents.

(b) A State educational agency shall describe in its plan—

(1) How the representatives in paragraph (a) of this section were selected; and

(2) The means by which these representatives were involved in the development of the plan.

(c) The Commissioner considers the term "involved in the development of the plan" to mean that the representatives in paragraph (a) of this section are given an opportunity to actively participate in all stages of formulating the plan.

(d) If the participating representatives are not able to agree upon the provisions of the final plan, the State educational agency shall make the final decision. A State educational agency shall included in the plan—

(1) Any recommendation that is rejected; and

(2) The reasons for rejecting the recommendation.

(Sec. 306; 20 U.S.C. 1205)

§ 166a.15 What other requirements must a State educational agency meet?

(a) A State educational agency shall develop a statewide program in which the adult populations in the State that are least educated and most in need of assistance learn most effectively.

(b) A State educational agency shall design a statewide program to allow adult education services to be provided by those agencies that can reach the adult populations most in need. This expansion of the adult education program may require using agencies (i.e., a private for-profit organization) other than applicants eligible for subgrants under the Act.

(H.R. Rept. No. 95–1137, p. 128; Sen. Rept. No. 95–856, p. 103)

(c) If a private for-profit organization is used, a State educational agency or eligible applicant shall enter into a contractual arrangement for the provision of adult education services. A contract shall be entered into only upon a determination by a State or eligible applicant that—

(1) The contract is in accordance with State and local law and Subpart P, Procurement Standards, 45 CFR Part 74; and

(2) The service to be provided will constitute a reasonable and prudent use of funds available under the State plan.

(d) A State educational agency or eligible applicant may enter into a voluntary arrangement with a private for-profit organization for the provision of adult education services. For example, an eligible applicant may enter into a voluntary arrangement with a business organization for the use of facilities, personnel, or other services.

(e) At least annually a State educational agency shall give the representatives listed in § 166a.14(a) of these regulations the opportunity to comment on—

(1) How the State educational agency is carrying out the plan; and

(2) The expansion of the delivery system for providing adult education services.

(f) A State educational agency shall consider the comments submitted under paragraph (e) of this section in carrying out its State plan. A State educational agency shall include a summary of these comments in its subsequent three-year plan.

(Sec. 306(b) (7), (8); 20 U.S.C. 1205)

Subpart C—State Advisory Councils

§ 166a.21 What are a State's responsibilities regarding State advisory councils?

(a) A State that receives funds under section 304 of the Act may establish and maintain a State advisory council, or may designate and maintain an existing State advisory council.

(b) A State advisory council that is funded solely from non-Federal sources that are not part of State or local

matching funds is not required to comply with the requirements of §§ 166a.22 through 166a.27.

(Sec. 312(a); 20 U.S.C. 1210)

§ 166a.22 How is a State advisory council established?

A State advisory council shall be appointed by the Governor or, in the case of a State in which members of the State board that governs the State educational agency are elected (including election by the State legislature), by that board.

(Sec. 312(a); 20 U.S.C. 1210)

§ 166a.23 How is the membership of a State advisory council determined?

(a) The membership of a State advisory council shall include a significant proportion of women, the elderly, minorities, and the educationally disadvantaged in the State in order to reflect the diverse interests and needs of the adult population served by the Act.

(b) The membership of the council shall be organized to include—

(1) Persons who, by reason of experience or training, are knowledgeable in the field of adult education or who are officials of the State educational agency or of local educational agencies of that State;

(2) Persons who are receiving or who have received adult education services; and

(3) Persons who are representative of the general public.

(Sec. 312(b); 20 U.S.C. 1210)

§ 166a.24 How is the membership of a State advisory council certified?

(a) A State educational agency shall notify the Commissioner of the establishment of, and membership of, its State advisory council.

(1) The notification shall be attached to the State plan or be submitted at a subsequent time in cases where a State advisory council is established after the State plan has been approved.

(2) The notification shall include the name, education, experience, and current position of each person serving on the State advisory council and shall specify which interest under § 166a.23(b) each person represents.

(b) Upon receiving the notification, the Commissioner shall, as appropriate certify that the council membership is in compliance with the requirements set forth in the Act and in § 166a.23(b) of these regulations.

(Sec. 312(c); 20 U.S.C. 1210)

§ 166a.25 What are the functions and responsibilities of a State advisory council?

A State advisory council shall—

(a) Advise the State educational agency on the development and administration of the State plan approved under the Act and the regulations in this part;

(b) Advise the State educational agency on policy matters arising in the administration of the State plan approved under the Act and the regulations in this part;

(c) Advise the State educational agency with respect to long-range planning;

(d) Advise the State educational agency with respect to studies to evaluate adult education programs, services, and activities assisted under the Act; and

(e) Prepare and submit an annual report of its recommendations to—

(1) The State educational agency; and

(2) The National Advisory Council on Adult Education, established under section 313 of the Act. A copy of any comments of the State educational agency, as that agency considers appropriate, shall be included with this report.

(Sec. 312(b); 20 U.S.C. 1210)

§ 166a.26 What are the requirements for State advisory council meetings?

(a) A State advisory council shall meet within 30 days after certification by the Commissioner and select from its membership a chairperson.

(b) A State advisory council shall meet at least four times each year.

(1) Except as provided in paragraph (a) of this section, the time, place, and manner of subsequent meetings shall be provided by the rules of the State advisory council.

(2) At least one of the meetings each year shall be an open meeting, at which members of the public are given the opportunity to express views concerning adult education.

(Sec. 312(d); 20 U.S.C. 1210)

§ 166a.27 What costs are allowable?

(a) A State advisory council may obtain the services of professional, technical, and clerical personnel as may be necessary to enable it to carry out its functions under the Act.

(b) Members of a State advisory council and its staff, while serving on the business of the council, may receive subsistence, travel allowances, and compensation in accordance with State law, regulations, and practices applicable to persons performing comparable duties and services.

(c) Costs incurred under paragraphs (a) and (b) of this section shall be included as part of the administrative expenditures reported by the State.

(Sec. 312(e); 20 U.S.C. 1210)

Subpart D—How a Grant Is Made to a State

§ 166a.31 How is the amount of each State's grant determined?

(a) The Commissioner determines the amount of each State's grant according to the formula in section 305(a) of the Act.

(b) The Commissioner, from a one percent reserve, determines the amount of the grants to American Samoa, Guam, the Northern Mariana Islands, the Trust Territory of the Pacific Islands, and the Virgin Islands.

(Sec. 305; 20 U.S.C. 1206)

§ 166a.32 What is each State's limitation on administrative costs?

The Commissioner notifies each State annually of the maximum amount allowable for administrative activities under section 315(b) of the Act. The non-Federal share of funds available under the State plan may also be used to pay administrative costs.

(Sec. 315; 20 U.S.C. 1211)

Subpart E—How To Apply to the State for a Subgrant

§ 166a.41 Who is eligible for a subgrant?

(a) A State educational agency shall distribute grants on the basis of annual applications submitted by eligible applicants. Eligible applicants are local educational agencies and public or private nonprofit agencies, organizations, and institutions.

(b) A State educational agency may not review an annual application from a public or private nonprofit agency, organization, or institution other than a local educational agency unless this applicant—

(1) Provides documentation to the State that advice on the development of its annual application has been sought from the applicable local educational agency. For the purpose of this section, "applicable local educational agency" refers to the legally constituted public board of education or administrative agency located in the same city, county, township, school district, or other political subdivision of the State to be served by the application; and

(2) Provides the local educational agency the opportunity to comment on the application prior to submitting it to the State.

(c) A State that is prohibited by State law from awarding Federal funds by grant or contract to public or private nonprofit agencies, other than local educational agencies, shall—

(1) Include in its State plan the legal basis of this prohibition; and

(2) Give priority to local educational agencies that propose to enter into cooperative arrangements with public or private nonprofit agencies for the delivery of services.

(d) A State educational agency shall give public notification of the availability of Federal and State funds to eligible applicants.

(1) For the purpose of notifying local educational agencies, a State educational agency shall provide the notice directly.

(2) For the purpose of notifying public or private nonprofit agencies, organizations, and institutions, a State educational agency shall give sufficient public notice throughout all regions of the State.

(Secs. 304, 306(b)(7); 20 U.S.C. 1203)

Subpart F—How a Subgrant Is Made to an Applicant

§ 166a.51 How will a State review annual applications?

(a) A State educational agency shall review annually all applications submitted by eligible applicants to determine if the requirements of § 166a.41 are satisfied. A State educational agency shall disapprove applications that fail to meet the requirements of § 166a.41.

(b) In evaluating the quality of applications, a State educational agency shall employ a competitive process that considers the best possible combination of agencies, organizations, and institutions. In developing objective criteria for review of applications, a State educational agency shall take into account the following factors:

(1) The needs of the population to be served by the applicant.

(2) The extent to which the applicant proposes projects to reach adult populations least educated and most in need of assistance.

(3) The extent to which the applicant gives special emphasis to adult basic education projects.

(4) The adequacy of outreach activities, including—

(i) Flexible schedules to accommodate the greatest number of adults who are least educated and most in need of assistance;

(ii) Locations of facilities offering programs that are convenient to large concentrations of the adult populations identified by the State in response to § 166a.13(c) of these regulations or how the locations of facilities will be convenient to public transportation; and

(iii) The availability of day care services to participants in the project.

(5) The extent to which cooperative arrangements with other agencies will be used for delivering adult education and support services.

(6) The resources available to the applicant—other than Federal and State adult education funds—to meet these needs (e.g., the Comprehensive Employment and Training Act (CETA), Title XX of the Social Security Act, local cash or in-kind contributions).

(7) The extent to which the proposed activity addressed the identified needs.

(8) The extent to which the project objectives can be accomplished within the amount of the budget request.

(c) A State educational agency shall describe in its State plan the method of determining the amount of funds to be distributed to applicants approved for funding.

(d) A State educational agency that is prohibited by State law from awarding Federal funds by grant or contract to public or private nonprofit agencies, other than local educational agencies, shall describe in its State plan how priority will be given to local educational agencies that propose to enter into cooperative arrangements with public or private nonprofit agencies for the delivery of services.

(Secs. 304, 306; 20 U.S.C. 1205)

Subpart G—Conditions That Must Be Met by a State

§ 166a.61 What are the matching requirements of the program?

(a) The Federal share of expenditures made under the State plan shall not exceed 90 percent.

(b) No matching is required for American Samoa, Guam, the Northern Mariana Islands, the Trust Territory of the Pacific Islands, and the Virgin Islands.

(c)(1) The non-Federal share of expenditures under the State plan shall be the difference between the Federal share and the total expenditures for the purposes for which the Federal share is paid.

(2) The non-Federal share of expenditures under the State plan may be computed on a statewide basis and may come from any source other than Federal assistance so long as these expenditures are made to further the purposes of the State plan approved under this part.

(Sec. 307; 20 U.S.C. 1206)

§ 166a.62 What are the maintenance of effort requirements of the program?

(a)(1) To be eligible for Federal funds a State shall maintain its fiscal effort.

(2) A State shall expend for adult education from non-Federal sources an amount equal to the fiscal effort of the State in the preceding fiscal year.

(3) A State may determine its fiscal effort on a per student basis or on a total expenditure basis.

(b) The Commissioner does not make any payment to a State in any fiscal year unless the Commissioner finds that the fiscal effort of a State for adult education for the preceding fiscal year was not less than the fiscal effort expended for adult education purposes during the second preceding fiscal year.

(Sec. 307; 20 U.S.C. 1206)

§ 166a.63 How is a maintenance of effort waiver granted?

(a) During the life of the Act, the Commissioner may waive for *one* fiscal year only the maintenance of effort requirement in section 307(b) of the Act if the Commissioner determines it would be equitable to do so in view of exceptional and unforeseen circumstances affecting the State.

(b)(1) If a State educational agency wishes to receive a waiver from the maintenance of effort requirement under §166a.62(a) of these regulations, the State educational agency shall submit a request for a waiver with its three-year State plan or as an amendment to the plan.

(2) A State educational agency shall include in the request for a waiver the reason for the request and any additional information the Commissioner may require.

(Sec. 431A (GEPA); 20 U.S.C. 1232–1)

§ 166a.64 What are exceptional and unforeseen circumstances?

(a) The Commissioner considers exceptional and unforeseen circumstances to include situations in which the local educational agency or the State had no control of the events resulting in decreased expenditures but made a reasonable effort in a timely fashion to comply with the maintenance of effort requirement of the Act.

(b) Exceptional and unforeseen circumstances include, but are not limited to, the following situations:

(1) A sudden, substantial reduction in available revenue due to—

(i) A natural or man-made disaster;

(ii) The unforeseen removal of property from the tax roll by government action; or

(iii) The unforeseen departure of an industrial or commercial facility.

(2) A sudden and substantial diversion of available revenue to other purposes outside the control of the local educational agency or the State.

(3) Decreased expenditures by the State that are directly attributable to

strikes involving educational or service personnel or both.

(4) Reductions of services to adults that are directly attributable to energy shortages or conservation measures resulting in a general reduction of educational services throughout the State or any of its local educational agencies.

(Sec. 431A (GEPA); 20 U.S.C. 1232–1)

§ 166a.65 How is maintenance of effort computed in the event of a waiver?

(a) In any case in which the Commissioner grants a waiver to a State under these regulations, the Commissioner reduces the amount of the Federal payment to that State for the current fiscal year in the exact proportion to which the fiscal effort of the State was less than 100 percent of its fiscal effort for the second preceding fiscal year. For example, if a State, having received a waiver under this section, reduced its expenditures in the preceding fiscal year 20 percent below the second preceding fiscal year, the Commissioner reduces the amount of the Federal payment for the current fiscal year by 20 percent.

(b) Fiscal effort for the year following the year for which a waiver is granted shall be based on the level of effort that existed prior to the waiver. For example, if in FY 1981 a State receives a waiver for its failure in FY 1980 to maintain fiscal effort at the level established in FY 1979, the State shall compute its fiscal effort for FY 1981 on the basis of the fiscal effort for FY 1979.

(Sec. 431A (GEPA); 20 U.S.C. 1232–1)

§ 166a.66 What are the percentage requirements with respect to State distribution of Federal funds?

(a) The percentage requirements in this section are applicable to a State's grant under section 305 of the Act.

(b) A State educational agency may expend an amount not to exceed 20 percent of its grant for programs of equivalency for a certificate of graduation from a secondary school.

(c) A State educational agency shall expend an amount not less than 10 percent of its grant for special experimental demonstration projects and teacher training projects described in §§ 166a.71 through 166a.74.

(d) A State educational agency may expend an amount not more than 20 percent of its grant for the education of institutionalized adults.

(Secs. 304, 306, 310; 20 U.S.C. 1203, 1205, 1208)

Subpart H—State-administered Special Experimental Demonstration Projects and Teacher Training Projects

§ 166a.71 Who are the eligible applicants for these projects?

(a)(1) Eligible applicants include any State of local educational agency or public or private nonprofit agency, organization, or institution.

(2) Unless precluded by State law, individuals are eligible applicants.

(b) A State may award funds under this subpart to eligible applicants outside the boundaries of the State if that award is determined to be in the best interest of the State in meeting its priorities and the purposes of the Act.

(Sec. 310; 20 U.S.C. 1208)

§ 166a.72 What are the criteria and priorities in administering these projects?

(a)(1) A State educational agency shall establish its own statewide criteria and priorities for administering special projects and teacher training projects.

(2) A State educational agency shall include the criteria and priorities in the State plan.

(3) In establishing statewide criteria and priorities, a State educational agency shall give consideration to serving adults who are least educated and most in need of assistance.

(b)(1) The Commissioner publishes national priorities in adult education in the Federal Register.

(2) Each State shall indicate in its State plan how the statewide criteria and priorities relate to published national priorities.

(Sec. 310; 20 U.S.C. 1208)

§ 166a.73 How will a State administer these projects?

(a) A State educational agency shall—

(1) Administer these projects consistent with the other regulations listed in 45 CFR 166.3 of these regulations;

(2) Make a general announcement of the availability of Federal and State funds for special projects and teacher training projects;

(3) Establish procedures for submitting and reviewing applications. These procedures shall be consistent with Subparts D and E of 45 CFR Part 100b of EDGAR; and

(4) Distribute funds to applicants approved for funding on the basis of the criteria and priorities developed under § 166a.72 of these regulations.

(b) A State educational agency may—

(1) Approve projects for a multi-year period; and

(2) In accordance with State law, policies, and procedures, make provisions for stipends and travel allowances for participants in teacher training projects.

(Sec. 310; 20 U.S.C. 1208)

§ 166a.74 How will the results be disseminated?

(a)(1) A State educational agency shall develop and describe in its State plan the procedures for disseminating results of these activities.

(2) A copy of each final report of special projects and teacher training projects supported under this subpart shall be sent to—

(i) The Commissioner; and

(ii) The adult education information clearinghouse authorized by section 309(a)(1)(C) of the Act.

(Secs. 435 (GEPA), 310; 20 U.S.C. 1208)

PART 166b—NATIONAL ADULT EDUCATION DEVELOPMENT AND DISSEMINATION PROGRAM AND PLANNING GRANTS

3. A new Part 1666 is added as follows:

Subpart A—General

Sec.

166b.101 How do the National Adult Education Development and Dissemination Program and Planning Grants relate to the overall adult education program?
166b.102 Who is eligible to apply for a grant?
166b.103–166b.110 [Reserved]

Subpart B—Kinds of Projects the Office of Education May Assist Under These Programs

166b.111 What types of projects may be funded?
166b.112–166b.120 [Reserved]

Subpart C—How To Apply for a Grant

166b.121 What must an application for a grant contain?
166b.122 What is the duration of a project grant?
166b.123–166b.130 [Reserved]

Subpart D—How a Grant Is Made

166b.131 How does the Commissioner evaluate an application?
166b.132 What selection criteria does the Commissioner use?
166b.133–166b.140 [Reserved]

Subpart E—Conditions That Must Be Met by a Grantee

166b.141 What are the cost requirements under this program?
166b.142 What documents must a State educational agency have on file with the Commissioner to be eligible for a planning grant?
166b.143 What records and reports are required of the grantee?
166b.144–166b.200 [Reserved]

Authority: Secs. 301–318 of Pub. L. 91–230, as amended by Title XIII of Pub. L. 95–561, 92

Stat. 2356, 20 U.S.C. 1201–1211c, unless otherwise noted.

Subpart A—General

§ 166b.101 How do the National Adult Education Development and Dissemination Program and Planning Grants relate to the overall adult education program?

(a) *Program description.* This program provides Federal assistance for development, demonstration, and dissemination projects that will improve or be of national significance to the adult education program. Planning grants provide Federal assistance to State educational agencies to plan for the expansion of their systems for the delivery of adult education services. This program is authorized under section 309 of the Act.

(b) *Other applicable provisions.* The provisions of 45 CFR 166.1 through 166.4 of Part 166 apply to the National Adult Education Development and Dissemination Program and Planning Grants under this part.

(Sec. 309; 20 U.S.C. 1207a)

§ 166b.102 Who is eligible to apply for a grant?

(a) For a planning grant, only a State educational agency is eligible to apply.

(b) For all other projects, eligible applicants include public and private nonprofit agencies, institutions, and organizations.

(Sec. 309; 20 U.S.C. 1207a)

Subpart B—Kinds of Projects the Office of Education May Assist Under These Programs

§ 166b.111 What types of projects may be funded?

(a) The Commissioner may fund projects and activities that improve and promote effective adult education programs and further the purposes of the Act by—

(1) Carrying out demonstration activities; and

(2) Developing, evaluating, and disseminating systems, materials, new approaches, and innovative methods.

(b) The Commissioner may award a planning grant to a State educational agency to plan the expansion of its adult education delivery system that—

(1) Involves adults with less than a high school education and those adults who are least educated and most in need of assistance in the process of identifying the adult education needs within the State;

(2) Develops a coordinated strategy to meet the adult education needs of the State; and

(3) Involves local educational agencies, business, industries, community organizations, and other institutions.

(c) Projects under paragraph (a) of this section shall address national priorities established and announced in the **Federal Register** by the Commissioner. The Commissioner will invite public comment on the national priorities.

(d) Projects for the development of curricula or instructional materials shall be conducted in accordance with section 426 of the General Education Provisions Act.

(e) The Commissioner may fund one or more of the types of projects described in paragraphs (a) and (b) of this section by publishing a notice in the **Federal Register.**

(Sec. 309; 20 U.S.C. 1207a)

Subpart C—How To Apply for a Grant

§ 166b.121 What must an application for a grant contain?

An application shall contain—

(a) Information required by the Notice of Closing Date published in the **Federal Register;**

(b) Information that meets the application content requirements of 45 CFR 100a.108 through 100a.116 of EDGAR;

(c) For a multi-year or for subsequent years of a development or dissemination project, information that meets the requirements of 45 CFR 100a.117, 100a.118, and 100a.250 through 100a.253 of EDGAR; and

(d) Any additional information required by the Commissioner in the application package.

(Sec. 309; 20 U.S.C. 1207a)

§ 166b.122 What is the duration of a project grant?

(a) A grant period is for not more than one year.

(b) Development and dissemination projects may be approved for a multi-year period.

(c) Planning grants may be approved for a period of not more than one year.

(Sec. 309; 20 U.S.C. 1207a)

Subpart D—How a Grant Is Made

§ 166b.131 How does the Commissioner evaluate an application?

(a) The Commissioner evaluates an application on the basis of the criteria in § 166b.132 of these regulations.

(b) The Commissioner awards up to 100 possible points for these criteria.

(c) The maximum possible score for each complete criterion is indicated in parentheses after the heading for that criterion.

§ 166b.132 What selection criteria does the Commissioner use?

(a) *Plan of operation* (40 points).

(1) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(2) The Commissioner looks for information that shows—

(i) High quality in the design of the project;

(ii) An effective plan of management that ensures proper and efficient administration of the project;

(iii) A clear description of how the objectives of the project relate to the purpose of the program;

(iv) The way the applicant plans to use its resources and personnel to achieve each objective; and

(v) In the case of projects offering educational services, a clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as members of racial or ethnic minority groups, women, handicapped persons, and the elderly.

(b) *Quality of key personnel* (20 points).

(1) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(2) The Commissioner looks for information that shows—

(i) The qualifications of the project director (if one is to be used);

(ii) The qualifications of each of the other key personnel to be used in the project;

(iii) The time that each person referred to in paragraphs (b)(2) (i) and (ii) plans to commit to the project; and

(iv) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as members of racial or ethnic minority groups, women, handicapped persons, and the elderly.

(3) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training in fields related to the objectives of the project, as well as other information that the applicant provides.

(c) *Budget and cost effectiveness* (15 points).

(1) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(2) The Commissioner looks for information that shows—

(i) The budget for the project is adequate to support the project activities; and

(ii) Costs are reasonable in relation to the objectives of the project.

(d) *Evaluation plan* (10 points).

(1) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project. (See 45 CFR 100a.590 of EDGAR—Evaluation by the grantee.)

(2) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable.

(e) *Adequacy of resources* (15 points).

(1) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(2) The Commissioner looks for information that shows—

(i) The facilities that the applicant plans to use are adequate; and

(ii) The equipment and supplies that the applicant plans to use are adequate.

(20 U.S.C. 1221e-3(a)(1))

Subpart E—Conditions That Must Be Met by a Grantee

§ 166b.141 What are the cost requirements under this program?

(a) Allowable costs under grants awarded under section 309 of the Act are determined in accordance with the applicable cost principles of 45 CFR 100a.530 through 100a.534 of EDGAR and Subpart Q of 45 CFR Part 74.

(b) No cost sharing is required.

(c) Neither stipends nor dependency allowances are allowable.

(d) Projects combining funds under section 309 of the Act with other Federal, State, or local funds shall contain provisions for separate accounting.

(Sec. 309; 20 U.S.C. 1207a)

§ 166b.142 What documents must a State educational agency have on file with the Commissioner to be eligible for a planning grant?

A State educational agency must have on file with the Commissioner—

(a) An approved three-year plan. Regulations governing the development, submission, and approval of the plan are in 45 CFR 166.1 through 166a.74 of these regulations.

(b) A single State application required by section 435 of the General Education Provisions Act.

(Sec. 309; 20 U.S.C. 1207a)

§ 166b.143 What records and reports are required of the grantee?

(a) A grantee shall keep records that meet the requirements in 45 CFR 100a.730 through 100a.734 of EDGAR.

(b) A grantee shall submit reports as part of the financial and performance reporting requirements in 45 CFR 100a.720 of EDGAR and Subparts I and J of 45 CFR Part 74.

(Sec. 309; 20 U.S.C. 1207a)

PART 166 C —ADULT EDUCATION PROGRAMS FOR IMMIGRANTS AND INDOCHINA REFUGEES

4. A new Part 166c is added as follows:

Subpart A—General

166c.201 How do the Adult Education Programs for Immigrants and Indochina Refugees relate to the overall adult education program?

166c.202 Who is eligible to apply for a grant?

166c.203–166c.210 [Reserved]

Subpart B—Kinds of Projects the Office of Education May Assist Under These Programs

166c.211 What is a special adult education project for immigrants or Indochina refugees?

166c.212 What are eligible activities under the special adult education programs for immigrants and Indochina refugees?

166c.213 What is the special population to be served by a project?

166c.214–166c.220 [Reserved]

Subpart C—How to Apply for a Grant

166c.221 What must an application for a grant contain?

166c.222 State review of applications.

166c.223 What is the duration of Federal support?

166c.224–166c.230 [Reserved]

Subpart D—How a Grant is Made

166c.231 How does the Commissioner evaluate an application?

166c.232 What selection criteria does the Commissioner use?

166c.233–166c.240 [Reserved]

Subpart E—Conditions That Must Be Met by a Grantee

166c.241 What are the cost requirements under these programs?

166c.242 What records and reports are required of the grantee?

166c.243–166c.300 [Reserved]

Appendix A—Priorities for Programs of National Significance.

Appendix B—Comments and Responses.

Authority: Secs. 301–318 of Pub. L. 91–230, as amended by Title XIII of Pub. L. 95–561, 92 Stat. 2356, 20 U.S.C. 1201–1211c, unless otherwise noted.

Subpart A—General

§ 166c.201 How do the Adult Education Programs for Immigrants and Indochina Refugees relate to the overall adult education program?

(a) *Program description.* These programs provide Federal assistance to operate special adult education projects for immigrants and for Indochina refugees. These programs are authorized under sections 318 and 317 of the Act.

(b) *Other applicable provisions.* The provisions of §§ 166.1 through 166.4 of 45 CFR Part 166 apply to the Adult Education Programs for Immigrants and Indochina Refugees under this part.

(Secs. 318, 317; 20 U.S.C. 1211c, 1211b)

§ 166c.202 Who is eligible to apply for a grant?

(a) Only the following are eligible to apply for a grant to operate an adult education project for immigrants:

(1) State educational agencies.

(2) Local educational agencies.

(3) Public nonprofit agencies, organizations, or institutions.

(4) Private nonprofit agencies, organizations, or institutions.

(b) Only the following are eligible to apply for a grant to operate an adult education project for Indochina refugees:

(1) State educational agencies.

(2) Local educational agencies.

(Secs. 318, 317; 20 U.S.C. 1211c, 1211b)

Subpart B—Kinds of Projects the Office of Education May Assist Under These Programs

§ 166c.211 What is a special adult education project for immigrants or Indochina refugees?

The Commissioner funds projects that—

(a) Enable adult immigrants or adult Indochina refugees to acquire basic skills necessary to function in American society; and

(b) Contribute to the employability of adult immigrants or adult Indochina refugees through development of basic educational and occupational skills.

(Secs. 318, 317; 20 U.S.C. 1211c, 1211b)

§ 166c.212 What are eligible activities under the special adult education programs for immigrants and Indochina refugees?

Grants awarded under section 318 or 317 of the Act may be used for—

(a) Programs of instruction (including administrative costs of planning and operating these programs) for adult immigrants or Indochina refugees for the purpose of enabling these adults to become employable and productive members of American society. These

programs of instruction may be in English as a second language, basic reading, mathematics, the promotion of language and literacy skills in English, and the development and enhancement of necessary skills, such as consumer, social, survival, occupational, and communication skills.

(b)(1) Adult education programs designed to operate in conjunction with existing Federal and non-Federal programs and activities to develop occupational and related skills for adult immigrants or Indochina refugees, particularly programs authorized under the Comprehensive Employment and Training Act of 1973 (20 U.S.C. 801) or under the Vocational Education Act of 1963, as amended (20 U.S.C 1241).

(2) Where occupational skills programs are otherwise unavailable or insufficient, combined occupational-adult education programs to provide adult immigrants or Indochina refugees with skills necessary to their obtaining employment;

(c) Programs providing educational support services that meet the needs of adult immigrants or Indochina refugees, including but not limited to (1) tutoring (in the case of geographically isolated adult immigrants or Indochina refugees) and (2) guidance and counseling with regard to educational, career, and employment opportunities (such as job placement and job follow-up services); or

(d) Any combination of programs described in paragraphs (a), (b), and (c) of this section.

(Secs. 318(a), 317(a); 20 U.S.C. 1211c, 1211b)

§ 166c.213 What is the special population to be served by a project?

(a) Only adult immigrants, as defined in § 166.4(d)(3) of these regulations, are eligible to participate in projects funded under the adult education program for immigrants.

(b)(1) Except as provided in paragraph (b)(2) of this section, only adult Indochina refugees, as defined in § 166.4(d)(4) of these regulations, are eligible to participate in a project assisted under the adult education program for Indochina refugees. An eligible participant is any Indochina adult refugee who—

(i) Has parole status, as indicated by an INS (Immigration and Naturalization Service) Form I–94;

(ii) Has voluntary departure status, as indicated by INS Form I–94;

(iii) Has conditional entry status, as indicated by INS Form I–94;

(iv) Was admitted to the United States with permanent resident status on or after April 8, 1975 (the date on which the President designated Vietnamese and Cambodians to be refugees under the Migration and Refugee Assistance Act), as indicated by INS Form I–151 or I–551; or

(v) Has permanent resident status as a result of adjustment of status under Pub. L. 95–145, as indicated by INS Form I–151 or I–551.

(Pub. L. 95–145, 8 U.S.C. 1255)

(2) Participation of a very limited number of adults other than Indochina refugees is not precluded where the special needs of the Indochina refugees, as included in the application, are being met. This participation of non-Indochina refugees shall not result in a reduction in the quality or quantity of services to the special population as described in paragraph (b)(1) of this section.

(Secs. 318, 317; 20 U.S.C. 1211c, 1211b)

Subpart C—How to Apply for a Grant

§ 166c.221 What must an application for a grant contain?

An application shall contain—

(a) Information required by the Notice of Closing Date published in the **Federal Register**;

(b) Information that meets the application content requirements of 45 CFR 100a.108 through 100a.116 of EDGAR; and

(c) Any additional information required by the Commissioner in the application package.

(Secs. 318, 317; 20 U.S.C. 1211c, 1211b)

§ 166c.222 State review of applications.

(a)(1) An applicant for a grant under the adult education program for immigrants shall first submit a copy of its application to the State educational agency (for the State in which that applicant is located). The State educational agency shall expeditiously review the application in accordance with the provisions of 45 CFR 100a.156 through 100a.159 of EDGAR.

(2) The State educational agency shall include in its comments submitted to the Commissioner whether the application is consistent with the State plan's objectives for meeting the adult education needs of adult immigrants.

(3) The State educational agency shall provide a copy of its comments and recommendations to the applicant.

(b)(1) The Commissioner does not approve an application for a grant under the adult education program for Indochina refugees unless the State educational agency (for the State in which that applicant is located) assures the Commissioner that the proposed activity will not duplicate existing and available (Federal and non-Federal) adult education programs that meet the special needs of adult Indochina refugees.

(2) An applicant shall submit a copy of its application to its State educational agency in accordance with the provisions of 45 CFR 100a.156 through 100a.159 of EDGAR.

(Secs. 318, 317; 20 U.S.C. 1211c, 1211b)

§ 166c.223 What is the duration of Federal support?

(a) A grant period is normally for twelve months but in no event shall it exceed eighteen months.

(b) Projects may be approved for a multi-year period.

(Secs. 318, 317; 20 U.S.C. 1211c, 1211b)

Subpart D—How a Grant is Made

§ 166c.231 How does the Commissioner evaluate an application?

(a) The Commissioner evaluates an application on the basis of the criteria in § 166c.232 of these regulations.

(b) The Commissioner awards up to 100 possible points for these criteria.

(c) The maximum possible score for each complete criterion is indicated in parentheses after the heading for that criterion.

§ 166c.232 What selection criteria does the Commissioner use?

(a) *Plan of operation* (20 points).

(1) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(2) The Commissioner looks for information that shows—

(i) High quality in the design of the project;

(ii) An effective plan of management that ensures proper and efficient administration of the project;

(iii) A clear description of how the objectives of the project relate to the purpose of the program; and

(iv) The way the applicant plans to use its resources and personnel to achieve each objective.

(b) *Quality of key personnel* (15 points).

(1) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(2) The Commissioner looks for information that shows—

(i) The qualifications of the project director (if one is to be used);

(ii) The qualifications of each of the other key personnel to be used in the project;

(iii) The time that each person referred to in paragraphs (b)(2) (i) and (ii) of this section plans to commit to the project; and

(iv) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as members of racial or ethnic minority groups, women, handicapped persons, and the elderly.

(3) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training in fields related to the objectives of the project, as well as other information that the applicant provides.

(c) *Budget and cost effectiveness* (5 points).

(1) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(2) The Commissioner looks for information that shows—

(i) The budget for the project is adequate to support the project activities; and

(ii) Costs are reasonable in relation to the objectives of the project.

(d) *Evaluation plan* (5 points).

(1) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project. (See 45 CFR 100a.590 of EDGAR—Evaluation by the grantee.)

(2) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable.

(e) *Adequacy of resources* (10 points).

(1) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(2) The Commissioner looks for information that shows—

(i) The facilities that the applicant plans to use are adequate; and

(ii) The equipment and supplies that the applicant plans to use are adequate.

(f) *Addressing language and cross-cultural needs* (10 points).

(1) The Commissioner reviews each application for information that shows that the applicant plans to emphasize developing oral and aural English language proficiency.

(2) The Commissioner looks for information that shows—

(i) The use of the best available English language instruction as supported by current valid research findings;

(ii) The use of trained instructional personnel who are native speakers of English or who possess near-native fluency in English; and

(iii) The provision for bilingual personnel and materials in all aspects of the program.

(3) The Commissioner looks for information that demonstrates the applicant's understanding of the cultures of the various immigrant and Indochinese groups served by the programs.

(g) *Need* (10 points.)

(1) The Commissioner reviews each application for information that shows the need for the proposed educational activity.

(2) The Commissioner looks for information that shows—

(i) Specific evidence of the need;

(ii) Where appropriate, current and planned activities in the community relative to the need; and

(iii) Reasonable assurance that the population group to whom the project is addressed will participate in the project if it is available.

(h) *Reaching the geographically isolated* (5 points).

The Commissioner reviews each application for information that shows that the applicant plans to meet the educational needs of previously unserved adult immigrants or adult Indochina refugees living in isolated geographic areas.

(i) *Cooperative arrangements* (20 points).

(1) The Commissioner reviews each application for information that clearly describes cooperative arrangements and support services to be provided by existing agencies, in order to maximize the impact of the proposed project.

(2) The types of agencies with which cooperative arrangements are encouraged include, but are not limited to: Voluntary agencies; sponsor groups; public assistance agencies; social/vocational rehabilitation services; business and industry; social organizations; health services; legal aid; and other agencies operating State and local educational, employment, and training programs.

(20 U.S.C. 1221e-3(a)(1); Secs. 318, 317; 20 U.S.C. 1211c, 1211b)

Subpart E—Conditions That Must Be Met by a Grantee

§ 166c.241 What are the cost requirements under these programs?

(a) Allowable costs under grants awarded under the adult education programs for immigrants and Indochina refugees are determined in accordance with the applicable cost principles of 45 CFR 100a.530 through 100a.534 of EDGAR and Subpart Q of 45 CFR Part 74.

(b) No cost sharing is required.

(c) Neither stipends nor dependency allowances are allowable.

(d) The cost of day care, not to exceed 5 percent of the grant award, may be allowed only if the applicant can demonstrate that—

(1) The absence of this service is a barrier to providing effective educational services; and

(2) The services of volunteers or other community agencies are not available for this purpose.

(e) A grantee may not, under any circumstances, make payments for day care directly to participants.

(f) Transportation costs of participants are allowable up to one percent of the grant award. If more than one percent is necessary, the applicant shall include in its application a justification demonstrating exceptional need.

(g) The cost of developing curriculum materials is allowable up to one percent of the grant award. If more than one percent is necessary, the applicant shall include in its application a justification demonstrating that appropriate materials do not exist or cannot be obtained from existing sources.

(h) The cost of pre-service or in-service training of personnel is allowable up to 5 percent of the grant award. If more than 5 percent is necessary, the applicant shall include in its application a justification demonstrating that the required competence is not otherwise available on a cost-effective basis.

(i) Projects combining funds under the adult education programs for immigrants or Indochina refugees with other Federal, State, or local funds shall contain provisions for separate accounting.

(Sec. 318, 317; 20 U.S.C. 1211c, 1211b)

§ 166c.242 What records and reports are required of the grantee?

(a) A grantee shall keep records that meet the requirements in 45 CFR 100a.730 through 100a.734 of EDGAR.

(b) A grantee shall submit reports as part of the financial and performance reporting requirements in 45 CFR 100a.720 of EDGAR and Subparts I and J of 45 CFR Part 74.

(Sec. 318, 317; 20 U.S.C. 1211c,1211b)

Note.—This appendix A will not be published in Title 45 of the Code of Federal Regulations.

Appendix A—Priorities for Programs of National Significance

For the guidance of State Educational agencies the Commissioner suggests that the following national priorities merit special consideration by States in meeting the special project and staff

development needs of their adult education programs under §§ 166a.71 through 166a.74 of these regulations and section 310 of the Act. These priorities are intended to be responsive to the 1978 amendments to the Adult Education Act.

(1) *Expanding outreach to those adults least educated and most in need.* Evidence indicates that the adult education program is not adequately meeting the needs of significant segments of the adult population that are most in need of and least likely to participate in adult education. New and innovative approaches will be required to expand outreach in order to effectively meet the needs of underserved populations, including adults who are: Older persons; rurally isolated and migrants; located in urban areas of high unemployment; minorities; handicapped; immigrants; refugees; limited in English language proficiency; and women with special needs. In considering support for outreach efforts States should ensure careful attention to innovative plans for informing underserved populations of the availability and benefits of the adult education program and of plans to provide reasonable and convenient access to the program.

States are encouraged to support projects such as those that—(a) Develop new and promising approaches to coordination with business and industry, labor unions, community organizations, and other non-governmental agencies;

(b) Prepare adult education personnel to serve those populations indicated above;

(c) Develop barrier-free and appropriate services based on the needs and life experiences of the learners; and

(d) Use mass media and technological innovations to increase outreach.

(2) *Identifying and preparing for new and emerging roles.* The 1978 amendments to the Adult Education Act emphasize expanded outreach to the least educated adults to enable them to acquire the basic skills necessary to function in society. Adult education personnel will need to perform new or expanded roles to fully implement this objective in the law.

States are encouraged to support projects such as those that—(a) Involve both adult education personnel and adult learners in educational program planning and implementation;

(b) Assist adult education personnel to identify and use non-traditional learning settings in which adult learners can interact with their peers;

(c) Assist in developing the adult's ability to cope with personal and family changes that occur with increased education, independence, and life options; and

(d) Assist adult education personnel to develop their own understanding of and ability to cope with the cultures, life-styles, and mores of the adults they serve, as well as the values and value systems in the American culture.

(e) Develop non-traditional adult education techniques, including, but not limited to, competency assessment and applied performance testing, and train staff in the use of these techniques.

(3) *Mastering basic and life skills necessary to function effectively.* A mastery of basic and life skills is fundamental to the effective functioning of adults in their own environments and in society at large. Without these skills, certifications are meaningless; and opportunities for employment and a productive life are limited.

As a means of addressing this concern, States are encouraged to support projects such as those that—

(a) Assess the statewide educational needs of adults who are least educated and most in need of assistance;

(b) Assess the skill levels of individual adult learners as a basis for providing meaningful and effective developmental experiences with appropriate support services;

(c) Provide curricula designed to enable special adult populations, including adults who are least educated and most in need to function effectively in society;

(d) Develop, demonstrate, and evaluate community-based programs that enable adults to function effectively; or

(e) Develop or adapt alternative high school programs.

(4) *Dissemination in adult education.* Adult education personnel have only limited means for learning of or assessing the kinds and quality of improved practices and products generated in adult education. Many States do not have a mechanism for systematic retrieval, review, assessment, diffusion, and adoption or adaption of improved practices and products. Without these capabilities, programs duplicate effort, lack planning ability, and continue traditional, non-progressive educational strategies. For example, many Adult Performance Level and competency-based adult education products have been developed by States with no effective means of further assessment and dissemination, either statewide or nationally.

States are encouraged to support projects such as those that—

(a) Develop a mechanism to locate improved practices and products and potential users of those practices and products;

(b) Disseminate the practices and products to users; and

(c) Provide training or assistance for adoption or adaption by users.

Note.—This Appendix B will not be published in Title 45 of the Code of Federal Regulations.

Appendix B—Comments and Responses

The following comments, suggestions, and recommendations were received in response to the Notice of Proposed Rulemaking. As explained in the preamble to these final regulations, the citations refer to the appropriate sections of the final regulations rather than to those of the proposed regulations.

§ 166.3 Other applicable regulations.

Comment. A commenter expressed concern that the various civil rights authorities referenced in EDGAR are not sufficient to ensure appropriate governance in the operation of the adult education program. This commenter cited a number of pertinent sections in the regulations requiring compliance with statutory nondiscrimination provisions. Another commenter called for reinstatement from the former State-Federal Agreement for Adult Education of the requirement for development of methods of administration in relation to prohibition of sex discrimination under title IX.

Response. A change is made. The Commissioner agrees that citations to applicable civil rights authorities, when placed within program regulations, prove more effective. The citations have been added in § 166.3 for easy reference. With respect to the suggestion that States submit a method of administration document to implement title IX, it should be noted that neither title IX nor its implementing regulations currently require a State agency carrying out a program of Federal financial assistance to submit methods of administration to assure compliance. If, in the future, the Office for Civil Rights adopts such a requirement, the States will be provided adequate guidance on the development of methods of administration.

§ 166.4(b)(6) Definition—Local educational agency.

Comment. One commenter, while supporting the intent to expand the system of deliverers of adult educational services, believes that public and private nonprofit agencies, organizations, and institutions should be declared as local educational agencies. More specifically, the commenter

proposes that libraries qualify as local educational agencies.

Response. No change is made. The term "local educational agency" is defined in the Act and in EDGAR. The language offers a clear distinction between local educational agencies and public and private nonprofit agencies, organizations, and institutions. Therefore, the definition contained in EDGAR is referenced in § 166.4(b)(6).

§ 166.4(d)(2) Program definitions—Expansion.

Comment. Several commenters addressed the restrictiveness of the definition of "expansion" in that it focuses on quantitative change and does not take into account any qualitative changes. An example was offered—agencies could serve fewer adults with better programs for a longer period of time. Another commenter pointed to the additional costs imposed by inflation and program refinement and to the possibility that a fixed appropriation of funds could actually cause a decrease in numbers of adults served. Recognition of the efforts made by deliverers of educational services to reach those areas not previously served by the State was also suggested.

Response. The definition of expansion has been changed to accommodate the recommendations. A measurable element denoting quality has been added in § 166.4(d)(2). The regulations now define expansion as an increase in the number of agencies, institutions, and organizations—other than local educational agencies—used to provide adult education and support services plus *one or both* of the following two conditions: an increase in the number of adults least educated and most in need of assistance participating in the adult education program; *and/or* an increase in the percentage of these adults who met their educational objectives.

§ 166.4(d)(5) Program definitions—Institutionalized person.

Comment. One commenter suggested that the types of institutions be omitted from the definition of "institutionalized person," with that specificity left to the discretion of the funding agency. At the other extreme, commenters offered additional types of institutions. Among those suggested were substance abuse treatment facilities, residential facilities for the elderly, and nursing homes. Another commenter believes the definition is too broad and promotes competition with elementary and secondary school programs.

Response. A change is made. The Commissioner agrees that the specifics of defining environmental settings should be left to the funding agency. The definition is changed accordingly. It is also changed to show that the institutionalized person shall be an adult, as defined by the Act.

§ 166.4(d)(6) Program definitions—Limited English proficiency or limited English language skills.

Comment. One commenter questioned the use of the term "limited English proficiency" rather than "limited English language skills."

Response. A change is made. The Act uses three terms—"Adults with limited English language skills," "persons of limited English-speaking ability," and "persons with limited English proficiency" (sections 306(b) (1), (8), and (11), 310(1) (A) and (B), and 313(b)). The Commissioner believes that these terms are interchangeable. Since both "adults with limited English language skills" and "persons with limited English proficiency" are used in these regulations, § 166.4(d)(6) has been revised to encompass both terms.

Comment. Several commenters called for inclusion of the verbatim language of the definition in title VII of the Elementary and Secondary Education Act (ESEA) of 1965, as amended. Another commenter requested that the definition clarify the meaning of bilingual adult education. And one commenter questioned the use of "sufficient difficulty" as a qualifier for those to be served.

Response. The definition, as contained in § 166.4(d)(6), while not verbatim, has a like meaning to that included in title VII of ESEA. It was reworded for clarity and understanding. At the Commissioner's discretion, the definition has been tailored for purposes of adult education. No change is made in the definition.

The regulations have been changed in § 166a.12(d) to include program assurances to be signed by an authorized official of the State educational agency. Assurance (6) of that section addresses bilingual adult education.

§ 166.4(d)(7) Program definitions—Outreach.

Comment. A number of commenters expressed the concern that the definition should clearly describe "outreach" as both bringing the adult to the program and bringing the program to the adult. Commenters offered amended language to specifically include: Home instruction for the stationary poor and the socially and physically isolated; televised programs; telephone-assisted programs; and instructional settings where elderly persons congregate, such as senior centers, congregate meal sites, and residential facilities. One commenter viewed a delivery system which is culturally and socially compatible to these adult groupings as an important ingredient for effective outreach.

Response. No change is made. Providing reasonable and convenient access to adult education programs should not be interpreted as designating a specific location for delivery of services. The intent of outreach activities is that the State and local deliverers of adult education services must not only support activities designed to publicize the program but that they must also include efforts to facilitate the participation of eligible persons once those persons become aware of the program. Efforts should be made to create learning situations that are compatible with the educational, social, and psychological needs of participants. The definition allows a State the discretion to perform outreach activities in a manner that most effectively meets the needs of those adults in the State who are least educated and most in need of educational assistance. The Commissioner believes that outreach activities should be broadly construed.

§ 166.4(d) Additional program definitions.

Comment. One commenter suggested that the Adult Performance Level (APL) criteria be addressed in the regulations as a method for identifying adults "least educated and most in need."

Response. No change is made. Each of the three APL levels is related to educational attainment, economic level, and occupational status. States may wish to use these criteria and other indicators of functional competency in setting goals and program policy. Although there are many ways of measuring levels of economic and educational attainment, these measures are best determined at the State and local levels to assure program flexibility and to meet local needs. Therefore, it would be inappropriate to prescribe any particular method of defining the least educated and most in need.

Comment. A commenter suggested that definitions are needed for the terms—"most in need," "rural areas," and "urban areas." Commenters requested clarification of the term "fraternal organizations" referenced under participatory planning agencies and groups under § 166a.14(a)(7).

Response. A change is made. The Commissioner believes that definitions for the first three terms should be left to the discretion of the individual States.

The reference to fraternal organizations in § 166a.14(a)(7) has been changed to fraternal/sororal organizations to clearly indicate that either men's or women's organizations could meet this planning requirement.

§ 166a.10 Purpose of the adult education State-administered program.

Comment. A number of commenters have expressed concern that the regulations do not address the three purposes of section 302 of the Act in relation to the Adult Performance Level (APL) research and subsequent Competency-based Adult Education (CBAE) developmemts.

Response. No change is made. The findings of the APL project have greatly influenced both the wording and the intent of the Statement of Purpose in section 302 of the Act. It is also recognized that the development of APL-based and CBAE programs throughout the Nation are positive and appropriate responses to the need to fulfill these purposes. However, it is inappropriate for the regulations to go beyond the law in requiring any specific approach to instruction. The regulations intentionally provide State and local agencies the flexibility to determine and implement the types of programs appropriate to the needs of adults in each State.

§ 166a.11 The State plan as an application.

Comment. One commenter feels Congress did not intend for States to "apply" for grants and that the State plan is simply a document of compliance.

Response. No change is made. Three requirements in section 306 of the Act are specified as a pre-condition to a State's eligibility to receive its allotment. One of these conditions is a State plan that describes the planned use of funds provided under this title. While there are compliance items contained in the State plan, the main purpose of the document is to set forth a program for the use of funds. The Commissioner has authority to approve or disapprove State plans under section 306(c). A State will not receive its allotment until the Commissioner determines that the proposed use of funds is acceptable under the law and these regulations. Therefore, the State plan is considerably more than a compliance document. It is also an agreement between the State and the Federal Government on the proposed use of funds that will be monitored by both parties.

§ 166a.12(d)(2) Adult secondary education.

Comment. A commenter suggested that the regulations contain more specific requirements to establish programs which provide secondary level education. Another commenter noted that lack of a high school diploma is still a barrier to entering the work force and advancing on the job.

Response. No change is made. Enabling adults who so desire to complete secondary school remains one of the purposes of this legislation as described in section 302 of the Act. However, two other provisions of the Act must also be considered when setting State priorities. Section 306 limits the expenditure of Federal funds for programs leading to completion of secondary school to 20 percent. Section 306 also requires that special emphasis be given to adult basic education programs except where these needs are shown to have been met in a State. Therefore, while secondary level instruction is clearly provided for in the legislation, it is also clear that it is not intended to be the major purpose of the program. A State must describe in its State plan the needs of all segments of the population as they relate to the purposes of the Act, including completion of secondary school.

A State is required under § 166a.12(d)(2) to provide assurance that not more than 20 percent of the State's allotment will be expended for programs of equivalency for a certificate of graduation from a secondary school.

§ 166a.12(d)(4) Tuition and fees.

Comment. Several commenters suggested that the regulations contain a statement relative to tuition and fees for adult education participants.

Response. A change is made. The regulations issued in 1975 and in effect immediately preceding the enactment of the 1978 amendments for the State-administered adult education program contained a prohibition on charging tuition, fees, or any other charges to adults enrolled in adult basic education programs. This provision was inadvertently omitted in the proposed regulations.

The prohibition on charging tuition and fees for adult basic education is an important requirement, especially in light of the legislative emphasis on serving those adults who are least educated and most in need of educational assistance. These adult participants are the ones least likely to have adequate financial resources to defray these costs. The State plan requirement is included as an assurance in § 166a.12(d)(4).

§ 166a.12(d) Program assurances.

Comment. One commenter questioned the rationale for placement of program assurances in an appendix rather than within the text of the regulations.

Response. A change is made. The Commissioner has determined that the program assurances would be more easily referenced if placed within the regulations. The assurances are now contained in § 166a.12(d).

§ 166a.12(d)(6) Bilingual adult education.

Comment. A commenter suggested that a State plan provide for the implementation of instructional programs of bilingual education. Another commenter recommended that the regulations require the submission of a State bilingual education plan. For the purpose of developing and disseminating materials for use in bilingual education classes, a commenter believes a Curriculum Development Center should be established.

Response. A program assurance regarding special assistance through bilingual adult education instruction for persons with limited English proficiency has been added in § 166a.12(d)(6). The Commissioner believes that the State plan requirements under § 166a.13 will adequately show the needs, goals, and activities relating to adults with limited English language skills. Therefore, the Commissioner does not find a separate State bilingual education plan necessary.

The legislation makes no provision for establishing a Curriculum Development Center for bilingual education. However, a State is not precluded from using its funds under section 310 of the Act for a Center of this nature. No other change is made in the regulations.

§ 166a.13(c) Addressing the educational needs of all segments of the adult population in a State.

Comment. The provision that generated the greatest number of comments was the listing of "special adult populations" to be included in the State plan's description of the educational needs of adults in the State. While many of the commenters endorsed the nine population groups specifically identified in this listing, others questioned the necessity for their separate designation since the regulation already required a description of the needs of *all* segments of the adult population in the State. Still others proposed the addition of other

population groups that they felt had in the past been outside the mainstream of the delivery system.

In addition, many of the commenters interpreted this provision as a set-aside or percentage funding requirement for these identified populations.

Response. A change is made. It was not the intent of the proposed regulations to establish funding requirements not contained in the Act. After extensive deliberations on all facets of this issue, the Commissioner has decided to eliminate from § 166a.13(c) the emphasis given to *any* special adult population. The list contained in the proposed regulations was so extensive that no segment of the population was singled out for special treatment. Nevertheless, all the special populations will still be accommodated because the States are clearly directed to describe in their three-year plans the adult education needs of all segments of the adult population in their States and to describe specifically the needs of those adults who are least educated and most in need of assistance. This change in the regulations is compatible with the primary thrust of the legislation, which is to reach the least educated and most in need.

§ 166a.13(d) Other Federal and non-Federal resources.

Comment. One commenter requested that the requirement to identify resources available to meet adult education needs in the State be deleted from the regulations.

Response. No change is made. The State plan requirement to identify other resources in the State available to meet the educational needs of adults is taken directly from the statute in section 306(b)(4).

§ 166a.13(e)(2) State plan goals.

Comment. Referring to the requirement that a State plan include the expenditures for reaching each of the State's identified goals, several commenters suggested inserting the modifier "estimated" before expenditures.

Response. The recommendation is accepted. Since a State must set forth the expenditures covering a three-year period, the Commissioner believes it is appropriate to direct a State to project its best estimate of expenditures covering this period. Therefore, the regulation is changed to include "estimated" before expenditures in § 166a.13(e)(2).

Comment. A commenter suggested that a State educational agency be required to describe personnel in relation to proposed program activities and estimated expenditures.

Response. No change is made. While a State educational agency may desire to show this degree of specificity, the Commissioner does not consider it an appropriate area in which to regulate. A description of proposed activities and estimated expenditures is adequate to enable the Commissioner to make a determination relative to a State educational agency's ability to reach its goals.

§ 166a.13(f) Outreach activities.

Comment. Some commenters questioned the advisability of using program dollars for support services such as transportation and child care. They were particularly concerned over the absence of a ceiling and prescribed monitoring for these expenditures.

Response. To implement section 306(b)(9) of the Act, the proposed rule required that the State agency describe in its plan the efforts it will undertake to *provide* support services such as flexible schedules, transportation, and child care services. Although the same section went on to require the identification of the resources to be used for these support services and further stipulated that a concerted effort be undertaken to provide these services through other programs, agencies, and organizations, many misinterpreted this rule to mean that the State was mandated to use adult education funds for these purposes. The use of adult education funds for support services is only one of the options the State educational agency has available for meeting its responsibilities under section 306(b)(9) of the Act. Therefore, for clarity, the word "provide" has been changed to "assure" in § 166a.13(f)(2) of the final regulations.

The issue of whether to impose a ceiling on these expenditures was discussed at ten public meetings held across the country in December 1978. It was the overwhelming consensus of the members of the public who attended these meetings, as well as of the written responses to this issue, that it would not be practicable to establish a ceiling for these expenditures because (1) the need for these support services and the resources available to meet these needs vary greatly from State to State and (2) any percentage limitation might be interpreted as a set-aside or minimum expenditure requirement. Therefore, this issue was left to the discretion of the States. This regulation has been changed only as noted in the above paragraph.

Comment. Several commenters expressed concern regarding the transportation needs of the elderly and of the physically and mentally handicapped. They suggest that Federal funds be made available for this purpose, as well as for securing buses that have special mechanical aids required by many teachable mentally retarded adults.

Response. No change is made. Since the Act permits a State to use Federal funds for transportation, the provision of transportation services for each of the above groups is permissible. The costs of special services and modifications to equipment for accommodating needs of the handicapped are also permissible under the Act and regulations. It is within the State's discretion to fund these services with Federal or non-Federal resources. Capital expenditures that would not normally be associated with program operations should be approved by the grantor agency prior to purchase.

Comment. A commenter noted that the language of the law regarding convenient locations had been omitted from the regulations.

Response. No change is made. Since the reference to convenient locations is included in the definition of "outreach" in § 166.4(d)(7), the term need not be repeated as an outreach activity.

Comment. Some commenters recommended that State and local outreach efforts to inform and assist adult populations be performed through local media with bilingual presentations, when and where appropriate. Activities to more effectively reach older adults were recommended. Others suggested outreach and support activities to be conducted by direct grants or contracts from a State educational agency.

Response. No change is made. These commenters reinforced the need for a strategy to help inform the least-educated adults. The Commissioner encourages deliverers of adult education services to adopt an effective mode of informing the diverse populations of available services. It is a State educational agency's prerogative to conduct these activities through direct grants or contracts in accordance with provisions of these regulations, 45 CFR Part 74, and its State plan.

§ 166a.13(g) Cooperative arrangements.

Comment. One commenter recommended that a State plan include only a description of the procedures a State educational agency will use to ensure cooperative arrangements with other agencies for delivering adult education and support services. This commenter interpreted the regulation to require that copies of agreements be

submitted with a State plan. Other commenters called for agreements between a State educational agency and subgrantees to explicitly serve a special population group, such as the elderly. More effective use of facilities and support services was offered as a rationale. A general endorsement was made of greater cooperative efforts within States between all subgrantees.

Response. A change is made. The purpose of cooperative arrangements is to enhance the coordinated use of available resources in a State to better meet the needs of adults enrolled in adult education programs. It is recognized that a State enters into cooperative arrangements throughout the year, as needs arise. Therefore, this regulation will be satisfied when a State educational agency describes its procedures for ensuring that cooperative arrangements will be entered into with other agencies. The requirement should not be interpreted to mean that copies of signed agreements must become a part of a State plan. Neither will the regulations be so prescriptive as to cite specific agencies with which a State educational agency must seek cooperation.

The Commissioner gives full support to the call for greater cooperative efforts between a State educational agency and its subgrantees. A State educational agency has the responsibility to establish continuing cooperation and coordination with its subgrantees. However, the Commissioner does not believe a regulatory requirement is in order to effect the latter comment.

Comment. One commenter questioned the absence in the proposed regulations of the listing, contained in the law, of agencies with whom the State educational agency should consult, cooperate, and coordinate.

Response. This listing of agencies is included in the program assurances in § 166a.12(d)(1).

Comment. A commenter requested that the Office of Education publish its cooperative agreements as exemplary models for States.

Response. No change is made. The Office of Education holds interagency agreements with other Federal agencies such as the Administration on Aging, the Department of Labor, and the Department of Defense. However, these written agreements may not be relevant to the cooperative agreements addressed under § 166a.13(g) and may lose their value when considered as a State model. Though useful for Federal functions, these agreements may not be equally germane at State and local levels. Some States might regard models as being overly prescriptive. Federal models could be viewed as limiting the flexibility and innovativeness of agencies, organizations, and institutions within the States. The Commissioner does not consider it feasible to give general dissemination to the interagency agreements.

§ 166a.13(k) Evaluation of activities under sections 306 and 310 of the Act.

Comment. One commenter suggested the regulations require a State to submit a copy of any evaluation under sections 306 and 310 of the Act to the National Advisory Council on Adult Education.

Response. No change is made. Reports of evaluations performed in the States are transmitted to the Commissioner. Since these reports are public information and are available to the public for inspection, the Commissioner does not see the merit in requiring this additional paperwork burden on States. The Commissioner will gladly share any reports with the National Advisory Council on Adult Education.

Comment. One commenter questioned the legal basis for requiring an annual evaluation of activities under sections 306 and 310.

Response. A change is made. The single State application required by section 435(b) of the General Education Provisions Act contains an assurance that the State will evaluate the effectiveness of covered programs in meeting its statutory objectives, at such intervals (not less often than once every three years), and in accordance with such procedures as the Commissioner may prescribe by regulation.

The Commissioner has given further consideration to the proposed requirement for annual evaluations and has determined that this requirement may place an undue burden upon the States. Accordingly, the final regulations will require that evaluations for programs under sections 306 and 310 be performed at least once every three years. Evaluation activities performed during a given program year should be reflected in the narrative section of the annual performance report, to be forwarded to the Commissioner within 90 days of the close of the program year.

§ 166a.14(a) Representation in the development of a State plan.

Comment. A number of commenters gave reasons for the inclusion of additional group representatives in the planning process. The list included: Armed Services (military personnel, their adult dependents, and military educators); State Library Agencies and Libraries; State and Area Agencies on Aging and multi-purpose senior centers; students and teachers involved in the traditional K–12 educational program; minority, handicapped, and women's organizations; teacher organizations; State professional organizations; organizations representing adult educators; and any other agencies and groups that have officially declared in writing to the State their interest in participating in the planning process. It was further suggested that § 166a.14(a)(9) require participation of those community organizations that primarily serve minority or other special groups in need of adult basic education programs. This additional representation was sought to help ensure that the interests of traditionally underrepresented populations receive educational services. It was pointed out that these representatives could also provide a ready source of information concerning educational needs within the State.

Response. A change is made. The Act in section 306(b)(8) is specific relative to fifteen (15) agencies and groups required to be involved in developing and carrying out the State plan. A general category of "other entities in the State concerned with adult education" is added by the legislation and is cited as the sixteenth category in § 166a.14(a) of the regulations. This is the only category in which flexibility by regulation is allowed. The final regulations have added to the list of examples of these "other entites," organizations offering education programs for military personnel and their adult dependents. These examples are intended to be illustrative only and not required by statute. A State, of course, has the option to involve any additional entities it wishes in the planning process.

§ 166a.14(c) Involved in the development of the plan.

Comment. Comments on this requirement cover the entire spectrum from full support to rejection on the basis of exceeding the statute. One commenter called for more specific regulatory language to ensure that special population groups are heard. A commenter suggested that the requirement for participation in "all stages of" formulating the plan exceeds Congressional specifications and is technically impossible. For example, these interests cannot all be involved as voting members of the State board of education nor would it be feasible to include them in the mechanical procedures of writing and editing the plan. Another commenter pointed to the limited funds available at the State level for travel and other meeting expenses. The limiting effect caused by the energy crisis was also cited. Again, pointing to

the excessive time and resources, a commenter took exception to the implied requirement to repeat the participatory process for any alteration or correction of language in the State plan, whether self-inflicted or imposed at the Federal level.

Response. No change is made. The Act and its legislative history reinforce the importance of actively involving the representatives in order to improve the delivery of educational services to those adults who are least educated and most in need of educational assistance.

Therefore, "involved in the development of the plan" is defined in § 166a.14(c) to mean that the representatives of the various agencies and groups are given an opportunity to actively participate in all stages of formulating the plan. In this way, the regulations assure substantive involvement without prescribing the methods or mechanisms through which diverse involvement is achieved. This requirement allows maximum flexibility to a State educational agency while also assuring that token participation will not qualify a State to receive funds. This regulation should not be interpreted to mean that a State educational agency is prohibited from altering its plan or program in the interest of meeting the educational needs of adults. A State educational agency develops procedures and methods for involving the required agencies and groups that best meet the particular needs, problems, and uniqueness of the respective State. Indicators point to positive results on improving and expanding adult education services. The Commissioner believes that any additional time and resources spent on behalf of participatory planning will be more than offset by the benefits derived.

§ 166a.14(d) Agreement by participating representatives.

Comment. Several commenters suggested modifications relating to the disposition of recommendations made by participating representatives. One commenter asked that a clearer explanation be given of how many or what percentage of the participating representatives needed to be in disagreement in order to guide the State as to when to take unilateral action. Comments were made that the State educational agency should only be required to submit documentation for recommendations that were rejected by a majority of representatives participating. This was viewed as a means to ease the paperwork burden.

Response. No change is made. The regulation requirements are intended to ensure that all recommendations receive due consideration by the State educational agency. This is true of a recommendation offered by one or any number of representatives participating. As stated in the preamble of the proposed regulations for this Part, these requirements will also serve as a safeguard against misunderstandings between a State educational agency and participating representatives and will prohibit superficial involvement without substantive impact. A listing of any recommendations that were rejected, with reasons for rejection, will satisfy the requirements. This process is not considered to be one that should result in a voluminous paperwork burden.

§ 166a.15 Delivery system.

Comment. A commenter called attention to the unmet educational needs of young adults, particularly minorities, who are drug abusers. It was recommended that the regulations permit the development of a special delivery system of educational services responsive to their needs.

Response. No change is made. In accordance with the Departmental regulations implementing section 504 of the Rehabilitation Act of 1973, handicapped persons, including drug abusers, are eligible for educational services within the provisions of these adult education regulations. A public or private nonprofit agency, organization, or institution may submit an application to a State educational agency for funds to deliver educational services to adult drug abusers. Any expenditures, however, must be limited to those for educational services; expenses for residential or therapeutic care are not allowable under the adult education program.

§ 166a.15(b) Expansion of the delivery system.

Comment. A number of commenters objected to an expansion of the delivery system through the use of community-based agencies, organizations, and institutions; and, conversely, this expansion was supported by a number of others. The major adversaries cited as their reasons: inadequate Federal, State, and local financial resources; absence of community-based entities in less populous areas of a State; and questionable qualifications of other than public school systems and their teachers to understand and deliver appropriate educational services to the least-educated adults. Established nutrition projects, senior citizens center networks, and regional economic planning authorities were suggested by some commenters as possible means of furthering the expansion efforts.

Response. No change is made. The Congress, in its passage of the 1978 amendments to the Act, placed major emphasis on expansion of the delivery system. Section 306(b)(7) of the Act now requires a State educational agency to describe the means by which the delivery of adult education services will be significantly expanded through the use of agencies, institutions, and organizations other than public school systems. The legislative history clearly indicates that existing cooperative efforts between public school systems and other agencies, organizations, and institutions have not always been adequate to meet the educational needs of those adults who are least educated and most in need of educational assistance. Participation by underserved segments of the population should be increased through the expansion of the delivery system. It is not appropriate for the Commissioner to dictate to State educational agencies which agencies, organizations, and institutions must be used in this expansion effort. Those decisions are left to the discretion of the individual State educational agencies.

§ 166a.15 (b) and (c) Contractual arrangements.

Comment. One commenter expressed the view that financial gain, rather than the provision of education services to needy adults, might be the primary concern of some private for-profit agencies.

Response. No change is made. A State educational agency will make the determination as to the necessity of entering into a contractual arrangement with a private for-profit organization. Such contractual arrangements must be in accordance with State and Federal procurement standards and must constitute a prudent use of funds. The State educational agency is responsible for describing the services and products it wishes to purchase from the private for-profit organization. Furthermore, these regulations will ensure that the needs of the least educated and most in need will be addressed through any contractual arrangements entered into under this provision.

Comment. Several commenters interpreted the provisions of § 166a.15 (b), (c), and (d) as permitting a State educational agency to award grants to, or enter into contracts with, private for-profit organizations. These commenters see the provisions as exceeding the intent of the Act and as direct violations of Federal law.

Response. No change is made. The regulatory provisions of § 166a.15 (b), (c), and (d) do not violate Federal law. The regulations do not authorize a State

to award *grants* to private for-profit organizations. However, Departmental regulations allow State educational agencies and subgrantees to procure services and goods through a contract instrument with private for-profit organizations. Any contract must be in accordance with 45 CFR Part 74, the Education Division General Administrative Regulations, and the HEW Grants Administration Manual.

§ 166a.15(e) Frequency of comments by participating representatives.

Comment. Some commenters expressed the opinion that participating representatives should have an opportunity to comment at least once during the time period covered by a State plan—in this instance, a three-year period. Other commenters did not support the requirement that selected representatives be involved in carrying out the plan. Another commenter questioned a State educational agency's acceptance of comments regarding § 166a.15(e) (1) and (2) from other than selected participating representatives.

Response. No change is made. The planning process is intended to be performed on a continuing basis—from development stages on through the carrying out of the plan. The Act in section 306(b)(8) is specific in this requirement. The regulation is entirely consistent with the legislation.

Regarding the required frequency of comment, the Commissioner believes that the yearly basis is the minimum frequency for which comments could be useful to the State in operating its adult education program. A State plan may be amended at any time the State educational agency feels appropriate. In this manner, new objectives, goals, and directions may be incorporated into the program whenever feasible.

The adult education legislation and its regulations are silent on the solicitation and reaction to suggestions or recommendations from other than participating representatives. However, section 435(b)(7) of the General Education Provisions Act (GEPA) requires that the State provide "reasonable opportunities for the participation by local agencies, representatives of the class of individuals affected by each program and other interested institutions, organizations, and individuals in the planning for and operation of each program * * *." Further, paragraph (B) of that section provides that "the State will publish each proposed plan, in a manner that will ensure circulation throughout the State, at least sixty days prior to the date on which the plan is submitted * * * with an opportunity for public comments on such plan to be accepted for at least thirty days * * *." GEPA and its accompanying regulations are applicable to the adult education programs.

§ 166a.15(f) Consideration of comments by State educational agency.

Comment. Several commenters objected to the requirement to include comments from participatory representatives in the State's subsequent three-year plan. A commenter believed this inclusion to be unnecessary since the State plan content should take into account those comments. This commenter could see no necessity for including comments that, in some cases, would be three years old. Another commenter recommended that the regulations require that comments from participatory representatives on carrying out the three-year plan be submitted with the subsequent three-year plan.

Response. A change is made. Activities of the participating representatives are intended to be on a continuous basis. To assure that these activities receive appropriate consideration, the Commissioner believes that there must be a procedure that requires a State to document its treatment of comments received. This does not eliminate the requirement for participation of representatives in the development of a new three-year plan as regulated in § 166a.14(b)(2). To satisfy the requirement in § 166a.15(f), a summary of comments is adequate rather than actual letters, statements, meeting transcripts, or other primary data.

§ 166a.23 Membership of State advisory councils.

Comment. One commenter believes that State advisory councils should be comprised of members who are representative of all segments of the adult population to be served under the Act. Another commenter suggests membership by military educators on these councils.

Response. A change is made. The Notice of Proposed Rulemaking did not regulate State advisory councils. Section 312 of the Act was referenced for guidance.

Regulations governing State advisory councils are now contained in §§ 166a.21 through 166a.27. Qualifications of membership are extracted from the legislation and included in § 166a.23(b). In an effort to best serve the educational needs of adults, the regulations require that a significant proportion of women, the elderly, minorities, and the educationally disadvantaged be included in the membership.

In response to the second comment, the Commissioner does not believe that the regulations should be so specific but rather that a State should have more flexibility in the selection of State advisory council members.

§ 166a.32 State's limitation on administrative costs.

Comment. Several commenters expressed concern that the 5 percent limitation on funds for administration and development of State plans and other required activities prevents some States from performing adequately those functions required by the statute. Another commenter suggested that a separate appropriation of Federal funds be made to defray administrative costs incurred by the States. Commenters requested clarification of the regulation with regard to any funds a State may contribute toward administrative costs. A further comment called for regulatory authority for the Commissioner to establish guidelines for State administrative costs and to approve these costs based on individual State justifications.

Response. No change is made. Section 315(b) of the Act authorizes an additional appropriation not to exceed 5 percent of the appropriation made under paragraph (a) of that section. The appropriations for each fiscal year have not been made on that two-part basis; rather, for each fiscal year a lump-sum appropriation has been made for the adult education State-administered program. The current policy is to divide the total appropriation into 105 parts, of which not more than 5 parts are available for administrative costs. The Commissioner notifies each State annually of its maximum amount allowable for administrative costs.

The Office of Education may reconsider this policy in the future. At this time, the Commissioner sees no benefits to be derived by requiring individual State justifications for the use of administrative funds.

The regulations provide that the non-Federal share of funds available under the State plan may also be used to pay administrative costs.

§ 166a.41 Eligible applicants for a subgrant.

Comment. A commenter suggested that eligible applicants for subgrants should include local *public* educational agencies and public or private nonprofit agencies, organizations, and institutions. The commenter maintained that this addition would more accurately communicate the actual Congressional

intent for the public system to bear primary responsibility.

Response. No change is made. Both EDGAR and section 303(f) of the Act define a local educational agency as one that is governed by a public board of education. No further language is required to clarify this term.

Comment. To ensure special consideration, a number of commenters suggested that certain agencies, organizations, and institutions be specified in the regulations as eligible deliverers of adult education services. The suggested delivers include women's organizations, fraternal and sororal organizations, churches, labor unions, business and industry, libraries, State agencies for substance abuse and corrections, and agencies to serve the elderly.

Response. No change is made. Section 304(a) of the Act specifies that local educational agencies and public or private nonprofit agencies, organizations, and institutions are eligible to apply to a State educational agency for financial assistance to conduct an adult education program. This language provides sufficient guidance to the State on the question of eligible applicants.

Comment. Because facilities and cultural environments may provide security to the learner, one commenter favors the use of community-based organizations for adult education programs for minority populations. Another commenter suggested that community-based organizations experienced in conducting adult basic education programs apply directly to the Office of Education for funding rather than applying to the State educational agency.

Response. No change is made. Section 304(a) of the Act establishes the State-administered program for adult education. Funds are allocated to the States on a formula basis and the States fund local programs based on need and resources available. The Commissioner does not have the discretion under the authority to fund directly any applications from community-based organizations.

To the extent that community-based organizations qualify as nonprofit agencies, organizations, and institutions, they are eligible applicants for subgrants from State educational agencies. The legislative history clearly indicates that non-school-based programs are sought in an attempt to attract greater participation from many segments of the adult population. Participation by underserved segments, including minorities, should be increased through the legislative requirement for an expansion of the delivery system. Through the expanded delivery system, efforts will be strengthened to meet the educational needs of those adults who are least educated and most in need of educational assistance.

Comment. Several commenters expressed concern about the fairness of various aspects of a competitive application between local educational agencies and public and private nonprofit agencies, organizations, and institutions. One commenter wanted to require a minimum of 120 days lead time from the date a State announces the availability of funds to the closing date. Another recommended that a State be required to notify any interested party, so requesting in writing, of the availability of funds on the same basis as they regularly notify local educational agencies.

Response. No change is made. The Commissioner desires a competitive application process that results in funding the best possible combination of educational deliverers for reaching the adult populations most in need in the most efficient and economical manner. Activities, such as those suggested by the commenter, that may result in a State's improving the process of notifying all eligible applicants of the availability of funds is encouraged. The Commissioner feels, however, that a State should have the flexibility to design and implement a public notice system that best meets its needs. Therefore, it would be improper to regulate on this matter beyond what is already required in § 166a.41(d).

Comment. A commenter suggested that no percentage limitation on the amount of funds available to nonprofit agencies, organizations, and institutions be imposed by a State.

Response. No change is made. Neither the legislation nor the regulations permit a percentage limitation of funds for either local educational agencies or for public and private nonprofit agencies, organizations, and institutions.

Comment. A commenter questioned the proposed requirement that "advice and guidance" be sought from the applicable local educational agency. Some commenters expressed concern that the gap is so great between local educational agencies and nonprofit agencies in the understanding of the needs of the least educated, and in the confidence level in each other's performance capabilities, that consultation will not work. Other commenters feel that consultation will work only if the regulations prescribe the mode and frequency of the consultation that must take place. One commenter specifically suggested that consultation should not take place until after the grant awards are made by a State. Still others were concerned that a local educational agency could jeopardize a nonprofit agency's application through non-action on the request for consultation.

Response. Section 304 of the legislation clearly requires consultation *prior to funding* a nonprofit agency's proposal by a State. The Commissioner wishes to provide a State the flexibility to engage in the type of meaningful consultation determined most effective. It would not be appropriate for these regulations to go beyond the scope of the legislation by prescribing a specific mode or frequency of consultation. The purpose of consultation is to reduce duplication of effort and provide for the best possible delivery of services to the adult populations most in need. Consultation will enable different points of view and understanding, such as those expressed by these commenters, to be considered in an organized way. The initiative for seeking consultation is the responsibility of the public or private nonprofit agency. The local educational agency does not have the authority to certify, approve, or veto a proposal from a nonprofit agency. Nor can the local educational agency jeopardize the nonprofit agency's application through inaction on the request for consultation. If a local educational agency delays in commenting on a nonprofit agency's proposal, a State may still consider the proposal for funding if there is written evidence that consultation was requested in a timely manner. The Commissioner, upon further consideration, has amended § 166a.41(b) to delete the reference to "guidance." No other change is made in the regulations.

Comment. One commenter suggested that the regulations provide for a more equitable distribution of adult education funds to programs serving women and minorities.

Response. No change is made. Eligible applicants under this legislation (local educational agencies and public or private nonprofit agencies, organizations and institutions) expend funds awarded by the State on the basis of local applications. These applications address the needs of the least educated and most in need. Accordingly, the primary factor for eligibility in adult education programs is not the segment of the population to which an individual belongs, but the individual's level of mastery of basic educational skills necessary to function effectively in society. Women and minorities are eligible for services in adult education

programs to the same extent as any other population group.

§ 166a.51 State review of applications.

Comment. Several commenters expressed concern about the capability of private nonprofit agencies to deliver quality educational services, provide adequate fiscal accounting, avoid duplicate purchasing of hardware and software that already exist in the local educational agency, and demonstrate that the least educated and most in need will be served effectively. Others recommended that the State educational agency give first consideration to funding those nonprofit agencies that have years of proven experience with a good track record in serving special populations. Others desired preferential consideration for postsecondary institutions over private enterprises. Some commenters felt that non-educational subgrantees will be inadequately monitored by State and Federal agencies.

Response. No change is made. All of these comments focus on the State educational agency's responsibility to determine which applicants will comprise the statewide delivery system for meeting the needs of underserved populations. The State educational agency must take into consideration each applicant's capability to avoid duplication of costs and overlapping of programs, as well as to provide quality services, fiscal accountability, and access to the least educated and most in need populations. There is no requirement in the Act or in the regulations that gives preferential consideration to private organizations with experience or to postsecondary institutions as part of the delivery system. Neither does the Act guarantee any specific category of eligible recipients for funding. The State educational agency is provided the flexibility to consider consortia made up of private and public nonprofit agencies and the local educational agency.

Furthermore, all applications to the State are judged on the basis of the criteria set forth in the plan. The process of State educational agency review and funding on the basis of the criteria does not preclude an applicant from appealing the decision to the State.

Comment. One commenter suggested that the number of persons needing educational assistance is the most accurate criterion to apply in justifying funds for a program. This commenter expressed the view that having to respond to extensive criteria could require lengthy applications that might be beyond the available resources of some local agencies.

Response. No change is made. The Commissioner believes it is inappropriate to regulate the content of local applications; and, therefore, a State may use the data and criteria it determines best for making funding decisions. However, the factors listed in § 166a.51(b) are what the Commissioner considers essential for developing criteria for the review of local applications that would implement the purpose of the legislation. The Commissioner believes the potential for improved programs outweighs any disadvantages that may occur from increased application requirements.

§ 166a.61 Matching requirements.

Comment. One commenter views the provision for computation of the non-Federal share of expenditures on a statewide basis as reassuring to less affluent deliverers of adult education services. The provision is also considered a factor in encouraging additional contributions from State resources. Another commenter requests that the regulations specifically state that in-kind contributions qualify toward meeting the matching requirement.

Response. No change is made. The Commissioner agrees with the content of the comments. The Department of Health, Education, and Welfare General Administration Regulations in 45 CFR Part 74 are applicable to the adult education programs. Under § 74.52(b) of that Part, the value of third-party in-kind contributions may be used in satisfying the matching requirement.

§§ 166a.62–166a.65 Maintenance of effort.

Comment. One commenter stated that a particular State was currently contributing as much as 60 percent of the total adult education expenditures in the State, substantially more than the 10 percent matching requirement. This commenter expressed concern that future legislation, such as Proposition 13, might prohibit a State appropriation of adult education funds equal to those of previous years. It was suggested that a new subsection (c) be added to § 166a.62 to read: "Notwithstanding § 166a.62 (a) and (b) above, a State shall be eligible for Federal adult education funds provided the State expends for adult education from non-Federal sources a sum equal to 10 percent of the cost of carrying out the State adult education programs in the preceding and in the second preceding fiscal years."

Response. Although the suggested language would conform to the matching requirement in section 307(a) of the Act, it would clearly violate the maintenance of effort requirement in section 307(b). Once a State generates a specific amount for adult education, it cannot decrease that amount without receiving a waiver from the Commissioner. The Notice of Proposed Rulemaking cited as an example of exceptional and unforeseen circumstances "a sudden and substantial diversion of available revenue to other purposes outside the control of the State or local educational agency." For clarification purposes, this provision in § 166a.64(b)(2) has been changed to read "* * * outside the control of the local educational agency or the State." A reduction in State-appropriated adult education funds, such as in a Proposition 13 initiative, would not qualify for a waiver since it does not appear to be an exceptional and unforeseen circumstance.

Comment. One commenter stated that the language of this section is punitive and outside Congressional intent. This commenter also opposed the reduction of the Federal grant in the succeeding year if the State was able to meet its matching requirements for that year.

Response. No change is made. The language of § 166a.65 is based on statutory authority. Section 431A(b) of the General Education Provisions Act specifically directs the Commissioner to reduce the amount of the Federal payment to the State for the *current* fiscal year in the exact proportion to which the amount expended (either on an average per pupil or aggregate basis) was less than the amount required by section 307(b) of the Adult Education Act. Since failure to maintain effort can only be determined on an after-the-fact basis, it would not be possible to reduce the Federal grant in the year in which the failure to maintain effort occurred. Although this commenter referred to waiver of the "matching" requirement, we have interpreted this to mean waiver of the maintenance of effort requirement since the law does not contain any provision for waiver of the matching requirement.

Comment. Several respondents recommended that the regulation governing maintenance of effort be made more lenient by—

(1) Removing the "one year only" provision of § 166a.53;

(2) Not requiring a pro rata reduction in the current year's allotment for failure to maintain effort; and/or

(3) Allowing some leeway for reduction of State and local effort. For example, an allowable percentage reduction could be established that could be applied prior to requiring any pro rata adjustment of the Federal payment for the current year.

Response. No change is made. Since both items (1) and (2) above are contained in the waiver authority of section 431A(b) of GEPA, the regulations must be consistent with these requirements. Although there is precedent in other program authorities for a percentage reduction in State and local maintenance of effort expenditures, the language of the existing legislation governing waivers for the adult education program does not permit such a reduction.

§ 166a.66(c) Funds for section 310 projects.

Comment. Commenters made suggestions ranging from repealing the authority for special experimental demonstration projects and teacher training projects to allowing flexibility by a State educational agency in determining amounts in excess of the 10 percent of a State's allotment as required by the legislation. Other commenters supported a flexible percentage provided that it is justified.

Response. No change is made. Section 310 of the Act requires each State to expend at least 10 percent of its allotment for special experimental demonstration projects and teacher training projects. This is the same minimum percentage contained in the former section 309 of the Act. The Commissioner believes a State is in the best position to determine its needs for section 310 projects and that no programmatic benefit would accrue as a result of establishing a justification requirement or an upper limit. Inflationary pressures appear to have forced State educational agencies to allocate as much as possible of their allotments for program operations.

§ 166a.72 Criteria and priorities for section 310 projects.

Comment. A commenter suggested that, in establishing statewide criteria and priorities for section 310 projects, a State educational agency should be required to give consideration to the degree to which an applicant can demonstrate that it has experience, qualifications, and a successful record in providing services.

Response. No change is made. The Commissioner believes that a State educational agency should be given flexibility in establishing its own statewide criteria and priorities. However, a State must follow the requirements in Subparts D and E of 100b of EDGAR in administering these funds. Those regulations address the general administration principles that consider the concerns expressed by the commenter.

Comment. Several commenters cited the need to upgrade the quality of ESL teachers. One commenter suggested that requiring that adult education teachers be certified would help to improve the quality of ESL teachers.

Response. No change is made. Teacher training is a State responsibility and is an allowable expenditure under the regulations as written.

§166b.111 Compliance with section 426 of GEPA.

Comment. A commenter is concerned that the regulations governing grants under section 309 do not comply with section 426 of the General Education Provisions Act, as amended. More specifically, the commenter suggests that the selection criteria in § 166b.131 be amended to include additional points to those applicants who plan to work with publishers on the development of curricula and instructional materials.

Response. Section 426 of GEPA places responsibility on the Commissioner to encourage applicants for grants that propose to develop curricula or instructional materials to consult with publishers, personnel of State and local educational agencies, teachers, administrators, community representatives, and other individuals experienced in dissemination.

The Commissioner does not view this provision as one for which points could be earned, but rather an area in which the Commissioner will encourage adherence by the applicant. The requirement for compliance with section 426 of GEPA is now contained in § 166b.111 of these regulations.

§166c.202 Applicant eligibility.

Comment. Several commenters questioned the differentiation between agencies eligible to apply for grants under the adult immigrant authority of section 318 and the adult Indochina refugee authority of section 317. The majority of these commenters stated that funding for the Indochina refugee program should not be limited to State and local educational agencies, but instead that this funding should also be available for private nonprofit agencies, organizations, and institutions that have historically provided substantial educational services for Indochina refugees.

Response. No change is made. The legislation is specific regarding who may apply for trants and contracts under these authorities. Section 318 of the Act mandates that not less than 50 percent of the funds appropriated for the adult immigrant program be used to enter into contracts with private nonprofit agencies, organizations, and institutions. However, the Indochina refugee authority in section 317 limits grants to State and local educational agencies, with no provision for the Commissioner to enter into direct contracts for the operation of programs. The evaluation criteria of § 166c.232(i), in recognition of the extreme importance of participation by organizations that are familiar and sensitive to the needs of the refugees, allow up to 20 points for applications that clearly describe cooperative arrangements with other agencies, which would include agencies that have in the past demonstrated experience and/or expertise in working with adult immigrants.

Comment. One commenter expressed the view that both of these programs should be funded directly to the States, based upon adult immigrant and Indochina refugee populations, and that the States, in turn, would fund local programs.

Response. No change is made. Since both sections 318 and 317 specifically describe discretionary programs by the Commissioner, it would be inappropriate to distribute funds to States on a formula basis.

Comment. One commenter misinterpreted the 50 percent minimum for contracts to immigrant programs to refer to State grant funds. This commenter expressed the view that local educational agencies have made an equally valuable contribution to providing educational services for immigrants. Another commenter stated that where schools can do the job effectively they should be funded even if this should result in greater than 50 percent of the total section 318 awards.

Response. No change is made. Under the provisions of section 318(e) of the Act, the Commissioner must use not less than 50 percent of the funds appropriated for the Adult Education Program for Adult Immigrants to enter into contracts with private nonprofit agencies, organizations, and institutions. This requirement does not apply to State grant funds made available under section 305(a). The distribution of State grant funds, as well as the criteria for evaluating applications for these funds, is left to the discretion of the States.

Comment. One commenter suggested that minority and women's organizations be specifically listed as eligible applicants for adult immigrant and Indochina refugee funds.

Response. No change is made. Minority and women's organizations could qualify under the "private nonprofit agencies, organizations, or intitutions" provision of § 166c.202(a)(4), governing eligible applicants under the immigrant authority. As stipulated in

section 317 of the Act, only State and local educational agencies are eligible to apply for grant funds to operate adult education programs for adult Indochina refugees.

§166c.202 Distribution of grants.

Comment. One commenter expressed concern that with the quota lifted, more and more refugees will tend to migrate to already overpopulated areas, such as California. This commenter stated that State and local tax dollars have already been stretched to the limit to provide services for these special populations and that a greater percentage of Federal funds should go to those areas.

Response. No change is made. Since the Act specifically refers to a competitive application process for the distribution of funds under the adult immigrant and Indochina refugee programs, it is not possible to award grants on a quota or fomula basis. Need for the project is, however, taken into consideration as a proposal evaluation criterion in § 166c.232(g) of these regulations.

Comment. Several commenters referred to the need for English as a second language and basic skills programs for adult dependents of military personnel. They pointed out that the Department of Defense has a fully funded education program for active duty and military personnel, but no provision for their adult dependents.

Response. No change is made. Adult dependents of military personnel would be eligible to participate in projects funded under the State grant program. To the extent that these dependents also qualify as immigrants or Indochina refugees, they would also be eligible to participate in projects funded under section 317 or 318 of the Act.

§166c.212 Program purposes.

Comment. One commenter asked about the types of services to be provided adult immigrants and Indochina refugees.

Response. The proposed rule did not list the types of activities that are eligible for funding under these two programs, but instead cited sections 317(a) and 318(a) of the Act. These activities are now reflected, with examples, in § 166c.212 of the final regulations.

Comment. One commenter stated that educational agencies cannot and should not provide social support and that, conversely, other agencies that do provide such support should use educational agencies to teach their clients.

Response. Support services authorized under these regulations are limited in § 166c.212(c) to *educational* support services such as tutoring (in the case of geographically isolated immigrants or Indochina refugees) and guidance and counseling with regard to educational, career, and employment opportunities such as job placement and job follow-up services. As indicated above, these examples are included in the final regulations.

Comment. One commenter recommended that a portion of the funds authorized under section 318 and 317 be used for a national clearinghouse for these programs. This clearinghouse would establish a mechanism whereby technical assistance in both materials and training would be available, on a national basis, concerning languages and cultures of all refugee and immigrant groups.

Response. No change is made. The statute does not include as an eligible activity the establishment of a national clearinghouse for the adult immigrant and Indochina refugee programs. This could, however, be included as part of the dissemination activities of section 309 of the Act.

§§ 166c.212 and 166c.232(f) English as a second language/bilingual instruction.

Comment. Commenters expressed varying views on the language in which instruction and counseling should be offered in programs for adult immigrants and Indochina refugees. Some commenters supported English as a second language, while others gave strong justification for bilingual instruction.

Response. A change is made. The authorizing legislation provides programs of instruction for the purpose of enabling immigrants and Indochina refugees to become productive members of American society and emphasizes the development of literacy and language skills in the English language. Bilingual instruction is not explicitly required in the legislation and is therefore not required in the regulations. The Commissioner agrees, however, that bilingual staff capability may be needed to assist adult immigrants and Indochina refugees in learning English or in acquiring skills that will make them more employable. For this reason a new criterion, "Addressing language and cross-cultural needs," has been added in § 166c.232(f) (1) and (2) to give points for the application's emphasis on the development of oral and aural English language proficiency.

§ 166c.213(b)(1) Eligible participants under the program for adult Indochina refugees.

Comment. One commenter pointed out that the proposed regulations specifically limited eligibility in programs funded under section 317 to Indochina refugees who possess an INS Form I–94. This requirement, he stated, eliminates those adult Indochina refugees who have become permanent resident aliens and, therefore, possess either an INS Form I–151 or I–551.

Response. A change is made. Section 166c.213(b)(1) of the final regulations has been amended to include as eligible participants Indochina adults who: have parole, voluntary departure, or conditional entry status, as indicated by INS Form I–94; were admitted to the United States with permanent resident status on or after April 8, 1975, as indicated by INS Form I–151 or I–551; or have permanent resident status as a result of adjustment status under Pub. L. 95–145, as indicated by INS Form I–151 or I–551.

§ 166c.222 State review of applications.

Comment. Two commenters expressed the view that the procedures for the State review of applications for the adult immigrant and Indochina refugee programs are to cumbersome and that these procedures should be streamlined to encourage more private organizations to operate these programs.

Response. A change is made. The requirements for the State review of applications for these programs are contained in the authorizing legislation.

§ 166c.232(b) and 166c.241(h) Instructional personnel.

Comment. Several commenters referred to the need for pre-service and in-service training for instructional personnel. Many ESL teachers, they stated, are volunteers or retired teachers who want to help but who may not have the training and experience necessary to serve these special populations most effectively.

Response. A change is made. Under the proposed rule, expenditures for pre-service and in-service training were limited to one percent of the grant award, unless otherwise justified in the application. The final regulations, in § 166c.241(h), increase this limitation to 5 percent of the grant award.

Comment. In a closely related issue, one commenter recommended that teacher certification be required for all instructional personnel in both the adult immigrant and the adult Indochina refugee programs.

Response. No change is made. Since teacher certification requirements vary from State to State, it would be inappropriate for the Commissioner to regulate on the issue. However, the quality of key staff members, both administrative and instruotional, will be taken into consideration under the application evaluation criterion contained in § 166c.232(b) of these regulations.

§§ 166c.241(d) and 166a.13(f)(2) Day care.

Comment. A few commenters pointed out that the proposed regulations referred both to "child care" and "day care." One commenter recommended that the provision for day care be expanded to include care for *any* persons residing with participants who are in need of supervisory care. Another commenter asked about the hours of operation of day care centers.

Response. A change is made. In order to conform with the Federal Interagency Day Care Regulations in 45 CFR Part 71, all references to child care in the proposed regulations have been changed to read "day care." Under the authority of 45 CFR 71.1, day care services provide for the direct care and protection of *infants, preschool,* and *school age children* outside of their own homes during a *portion of a 24-hour day.*

General Comments

Comment. A commenter suggested that the citation of legal authority also notes the applicable section or subsection of the Act to which it refers. This citation appears in parentheses on the line following each substantive provision in the regulations.

Response. Although the inclusion of reference sections to the legislation is not a requirement in drafting Federal regulations, the Commissioner agrees with the commenter. Accordingly, the addition has been made in citations to legal authority.

Comment. A commenter suggested postponing the implementation of changes in the administration of the program until fiscal year 1981 in order that the operation of established, successful projects not be disrupted.

Response. No change is made. The legislation became effective on November 1, 1978. Congress requires that laws and regulations be put into force within prescribed periods of time after enactment and final approval. It is not possible to delay the implementation until fiscal year 1981 as suggested by the commenter. However, the Commissioner has periodically since enactment provided States with advice and guidance on implementing the new procedures in the legislation. Therefore, there should be no disruption of established, successful projects that serve the needs of the least educated and most in need.

Section 311(a) Special Projects for the Elderly.

Comment. A commenter suggested that limiting special projects to the elderly who are culturally segregated is a disservice to the elderly and needlessly limits the potential of these programs. Elderly persons are very tolerant of cultural interchange, especially among their peers. Many elderly persons do not have the skills to deal successfully with the practical problems of daily living caused by rapid changes and increased complexity of life. Therefore, it would be more practical to allow these special projects to teach the elderly daily living skills and how to deal with governmental agencies, in addition to teaching English to those whose ability to read and write the English language is limited.

Response. No change is made. Funds have not been made available by Congress to date for Special Projects for the Elderly. However, the elderly are eligible for the types of programs suggested by the commenter under section 304 of the legislation.

Comment. With the increased emphasis in our society on providing educational opportunities for all individuals, one commenter suggested that a college preparatory remedial program is an area that deserves consideration for future support.

Response. The Act does seek to enable adults who so desire to continue their education to at least the level of completion of secondary school. Support for a more specific college preparatory remedial program would require amended or new legislation. Legislative proposals are outside the scope of the regulation process. Therefore, it is inappropriate to respond in these regulations.

Comment. Commenters voiced concern that the adult education reporting system does not adequately reflect the accomplishments of the adult education program. A commenter spoke specifically on behalf of accomplishments by local educational agencies.

Response. No change is made. The Commissioner agrees that the reporting system for adult education needs evaluation and revision. The statistical report and the narrative performance report are of limited value in portraying a true picture of the program. The House of Representatives during its deliberations on the 1978 amendments to the Act voiced a similar desire for improvement of the quality of data on adult education. While the Office of Education is responding with a concerted effort to improve the reporting system, this is not an appropriate area for inclusion in the regulations.

Comment. One reader found the Supplementary Information section of the preamble to the NPRM to be very useful and expressed the desire to see the section published as part of the final regulations.

Response. The supplementary information published on June 28, 1979, in the **Federal Register**, Vol. 44, No. 126, in the proposed rules will not be republished with the final regulations. However, most of the issues addressed in the supplementary information section of the proposed rules are reflected in the preamble and in the responses to comments from the public.

Comment. A commenter asked what procedures had been established for filing complaints regarding noncompliance to these regulations.

Response. No change is made. If a subgrantee, agency, organization, institution, or individual believes that there is a basis for noncompliance pertaining to programmatic issues, that entity should file a written, signed complaint with the State in accordance with the complaint procedures outlined in 45 CFR 100b.780 through 100b.782 of EDGAR. If a complaint deals with an issue or situation related to civil rights, the communication should be sent to the appropriate HEW Regional Office to the attention of the Office for Civil Rights.

Appendix A—National priorities.

Comment. Regarding the development of national priorities, one commenter recommended that national priorities be suggested rather than mandated, and that agencies such as State educational agencies, local educational agencies, and the National Advisory Council on Adult Education be involved in the development of these priorities. Another commenter thought State priorities should have first consideration over national priorities in meeting the special project and staff development needs in the States.

Response. All the points raised by these comments are already contained in the regulations. Section 166a.72(a)(1) of the regulations requires that a State educational agency "establish its own statewide criteria and priorities for administering special projects and teacher training projects." Appendix A (Appendix B of the NPRM) begins: "For the *guidance* of State educational agencies the Commissioner *suggests* that the following national priorities merit

special consideration * * *" (emphasis added). Section 166a.72(b)(2), requiring each State to indicate how its priorities relate to published national priorities, assures that each State has taken the national priorities into consideration. In the event a State indicates its priorities are unique and do not relate to published national priorities, the State will have satisfied the requirements of § 166a.72(b)(2).

Comment. Several commenters addressed the first priority under Appendix A, directed to expanding outreach. These commenters supported the priority as generally stated, while several sought modifications to the expanded text. One commenter urged adding members of ethnic and racial minorities to those included in the list of underserved, while another suggested adding teenage mothers. Another commenter sought special attention for teacher training for those working with migrant populations. Still another commenter urged adding State and area agencies on aging and senior centers to those organizations mentioned in (1)(a) of Appendix A.

Response. The words "migrants" and "minorities" have been added to the list of suggested underserved populations. The phrase "women with special needs" has been substituted for the list of more specific female populations to suggest that all women who are least educated and most in need be addressed.

The Commissioner believes that specifying the types of agencies by broad categories, such as "community organizations and other non-governmental agencies" is preferable to listing organizations and agencies concentrating on only one of the underserved populations, such as aging. This is consistent with the legislative requirement to increase outreach by expanding services through a wide range of organizations, agencies, and institutions that can best provide services to those least educated and most in need. Therefore, no change is made in paragraph (1)(a) of Appendix A.

Comment. One comment was received supporting national priority (2), *Identifying and preparing for new and emerging roles,* while another commenter found the priority too general and lacking in clarity.

Response. The Commissioner has found that general statements of emerging and identified need best accommodate the multiplicity of conditions existing among the 57 States and Territories. Therefore, no change is made in the text of paragraphs (a) through (d) of priority (2). However, a new pararaph (e), relating to non-traditional adult education techniques, has been added to priority (2).

Comment. A wide range of comments was received on priority (3) of Appendix A. One commenter, who was highly supportive of the priority, suggested adding support services to paragraph (3)(b). Another commenter called for eliminating paragraphs (3)(c) and (3)(d) on the basis that further curriculum development is not needed and that special emphasis should be given to priority (4). Another commenter found paragraph (3)(d) unclear and called for adding the development of non-traditional techniques for assessment, and training of staff in these techniques. A countervailing comment pointed to effective assessment instruments already developed in support of the Adult Performance Level project and called for encouraging use of these instruments. Finally, another commenter recommended that the Adult Performance Level curricula be suggested as a means to teach the skills necessary to function in society. This commenter also called for retraining teachers in using the curricula.

Response. Priority (3) has been extensively revised to accommodate these suggestions. Paragraphs (3)(c) and (3)(d) have been revised to avoid duplication, while re-emphasizing the need for curricula effectively related to the least educated and most in need. A new paragraph (e) has been added to priority (2) to further emphasize staff and teacher training in non-traditional adult education techniques. In addition, priority (4) has been amended to emphasize the importance of assessing and disseminating existing developments in Adult Performance Level and competency-based adult education.

The final comment—that of suggesting Adult Performance Level curricula as the desirable ones to teach the skills necessary to function in society—is not adopted. Published national priorities are not the appropriate mechanism for suggesting curricula. The National Diffusion Network is a system developed for disseminating validated instructional programs. Two Adult Performance Level-Based curricula projects have recently been validated and are being disseminated under this system. Other projects are encouraged to utilize this national dissemination mechanism.

Comment. It was suggested that "Women with Special Needs" be added as a fifth national priority.

Response. A change is made. Because women have historically been the majority population served by the Adult Education Program, there appears to be no need to list them as a separate priority deserving special attention beyond the priority of least educated and most in need. However, in response to this comment, "Women with Special Needs" has been incorporated in priority (1) to assure that the needs of all women who are least educated and most in need will be considered.

Department of Health, Education, and Welfare

Office of Education

Cooperative Education Programs

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

45 CFR Part 182

Cooperative Education Programs

AGENCY: Office of Education, HEW.

ACTION: Final regulations.

SUMMARY: The Commissioner of Education amends the regulations for the Cooperative Education Program. The amendment will permit multi-year funding of Demonstration/Exploration Awards from a single year's appropriation.

EFFECTIVE DATE: These regulations are expected to take effect 45 days after they are transmitted to Congress. Regulations are usually transmitted to Congress several days before they are published in the **Federal Register.** The effective date is changed by statute if Congress disapproves the regulations or takes certain adjournments. If you want to know the effective date of these regulations, write or call the Office of Education contact person.

FOR FURTHER INFORMATION CONTACT: Mr. Morris Brown, Chief, Cooperative Education Branch, Division of Training and Facilities, Bureau of Higher and Continuing Education, Room 3053, Regional Office Building 3, 7th and D Streets, S.W., Washington, D.C. 20202. Telephone: (202) 245–2146 or 245–2484.

SUPPLEMENTARY INFORMATION: The Commissioner finds that public comment on this amendment is unnecessary within the meaning of 5 U.S.C. 553(b) because it deals only with the allocation of funds to the different parts of the program and does not affect any substantive aspect of the regulations which were published after a public comment period, in May, 1978 (43 FR 18674). This amendment merely permits the funding of multi-year awards from a single year's appropriation.

Approved: February 5, 1980.

(Catalog of Federal Domestic Assistance No. 13.510; Cooperative Education Program: Demonstration/Exploration)

William L. Smith,

Commissioner of Education.

The Commissioner amends 45 CFR 182.34 by revising paragraph (a); redesignating paragraphs (b) and (c) as paragraphs (d) and (e); and adding new paragraphs (b) and (c) to read as follows:

§ 182.34 Duration of awards.

(a) Awards made under this subpart may be for single-year or multi-year periods.

(b) Awards for multi-year projects will generally be made in accordance with the regulations as set out in 45 CFR 100a.250 and 100a.251 (EDGAR).

(c) The Commissioner may award a grant out of one year's appropriation for multi-year demonstration projects.

Selection Criteria for Fiscal Year 1981 Grants and Contracts

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

45 CFR Parts 105, 121d, 121e, 121f, 121h, 121k, 131, 132, 133, 136, 146, 146a, 148, 154, 155, 157, 158, 159, 164, 169, 172, 173, 179, 182, 182a, 191, 194, 197, and 198

Selection Criteria for Fiscal Year 1981 Grants and Contracts

AGENCY: Education Division, HEW.

ACTION: Proposed rules.

SUMMARY: The Education Division proposes to amend the selection criteria for programs administered under the parts listed in the heading to this document.

The Education Division General Administrative Regulations (EDGAR) are published in today's **Federal Register** as final regulations. EDGAR establishes general selection criteria that are used with program selection criteria to select applications for funding. These proposed revisions are needed to repeat the EDGAR criteria in appropriate program regulations.

The Education Division also proposes to delete selection criteria in these programs that duplicate the EDGAR criteria. The effect of these proposed changes is to provide a uniform set of selection criteria on five subjects: Plan of operation, quality of key personnel, budget and cost effectiveness, evaluation plan, and adequacy of resources.

DATE: Comments must be received on or before June 2, 1980.

ADDRESS: Address comments to the Division of Regulations Management, U.S. Office of Education, Room 2129, FOB–6, 400 Maryland Avenue, SW., Washington, D.C. 20202.

FOR FURTHER INFORMATION CONTACT: Mr. Joseph Connors (202) 245–7091.

SUPPLEMENTARY INFORMATION:

Background

The Education Division published the Education Division General Administrative Regulations (EDGAR) as proposed rules on May 4, 1979 (44 FR 26298). 45 CFR Part 100a of EDGAR describes the procedures an applicant to a direct grant program must follow to apply for a grant. EDGAR also describes the procedures the Education Division uses to make those grants. 45 CFR Part 100a of EDGAR covers may other issues relating to the administration of Education Division direct grant programs. For a full understanding of the scope of EDGAR, please review the EDGAR final regulations published in today's **Federal Register** in the rules and regulations section.

Discretionary Grant Programs and Selection Criteria

The majority of the direct grant programs administered by the Education Division are discretionary grant programs. 45 CFR 100a.200 of EDGAR describes what a discretionary grant program is and how selection criteria are used in this kind of program.

Section 100a.200 How applications for new grants are selected for funding.

(a) *Direct grant programs.* The Education Division administers two kinds of direct grant programs. A direct grant program is either a discretionary grant or a formula grant program.

(b) *Discretionary grant programs.* (1) A discretionary grant program is one that permits the appropriate official of the Education Division to use discretionary judgment in selecting applications for funding. (Cross-reference—See 45 CFR 100a.219 Exceptions to the procedures under § 100a.217).

(2) The appropriate offical of the Education Division uses selection criteria to evaluate the applications submitted for new grants under a discretionary grant program.

(3) Sections 100a.202 through 100a.206 contain the EDGAR selection criteria. The EDGAR criteria used by a program are repeated in the program regulations. If a program does not have selection criteria, the appropriate official uses the EDGAR criteria, with each criterion weighted equally, to evaluate applications.

(c) *Formula grant programs.*

* * * * *

The Changes to the Criteria

The Education Division proposes to revise program selection criteria in appropriate programs by repeating the EDGAR selection criteria. The Education Division also proposes to delete criteria in these programs that duplicate EDGAR criteria. The programs affected by these changes are existing programs of the Education Division other than those amended by the Education Amendments of 1978 (Pub. L. 95–561). The regulations for programs amended by Pub. L. 95–561 are being conformed to EDGAR through separate publications in the **Federal Register.**

The Education Division plans to use the criteria proposed in this document to select applications for grants funded in fiscal year 1981.

Comments

Please send your comments on these revisions to the address specified at the beginning of this document. In making your comments, please use the following guidelines:

1. Identify each section in these proposed regulations on which you want to comment.

2. For each of these sections, explain what you like or dislike about the section. Is the policy expressed in the section a good policy or a poor policy? Why do you think so?

3. If you believe that a section needs to be changed, explain what you want done and explain why your change would improve the proposed regulations.

All comments will be available for public inspection at the address at the beginning of this preamble between the hours of 8:00 a.m. to 4:30 p.m., except Saturdays, Sundays, and Federal holidays.

Dated: February 25, 1980.

Peter D. Relic,

Acting Assistant Secretary for Education.

Dated: February 6, 1980.

William L. Smith,

Commissioner of Education.

Dated: February 22, 1980.

Michael Timpane,

Director of the National Institute of Education.

Dated: February 25, 1980.

Lee Kimchee,

Director of the Institute of Museum Services.

Approved: March 20, 1980.

Patricia Roberts Harris,

Secretary of Health, Education, and Welfare.

The agencies of the Education Division propose to amend 45 CFR as follows:

PART 105—COMMISSIONER'S DISCRETIONARY PROGRAMS OF VOCATIONAL EDUCATION

1. Section 105.110 is revised to read as follows:

§ 105.110 Selection criteria.

The Commissioner uses the criteria in this section to evaluate applications for new awards. The maximum score for all of the criteria is 100 points.

(a) *Plan of operation.* (Maximum 34 points)

(1) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(2) The Commissioner looks for information that shows—

(i) High quality in the design of the project;

(ii) An effective plan of management that insures proper and efficient administration of the project;

(iii) A clear description of how the objectives of the project relate to the purpose of the program;

(iv) The way the applicant plans to use its resources and personnel to achieve each objective; and

(v) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(b) *Quality of key personnel.* (Maximum 8 points)

(1) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(2) The Commissioner looks for information that shows—

(i) The qualifications of the project director (if one is to be used);

(ii) The qualifications of each of the other key personnel to be used in the project;

(iii) The time that each person referred to in paragraphs (b)(2) (i) and (ii) of this section plans to commit to the project; and

(iv) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(3) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides.

(c) *Budget and cost effectiveness.* (Maximum 7 points)

(1) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(2) The Commissioner looks for information that shows—

(i) The budget for the project is adequate to support the project activities; and

(ii) Costs are reasonable in relation to the objectives of the project.

(d) *Evaluation plan.* (Maximum 7 points)

(1) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(2) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable.

(e) *Adequacy of resources.* (Maximum 3 points)

(1) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(2) The Commissioner looks for information that shows—

(i) The facilities that the applicant plans to use are adequate, and

(ii) The equipment and supplies that the applicant plans to use are adequate.

(f) *National need.* (Maximum 15 points). The need section clearly—

(1) Describes the national need in vocational education for the proposed project;

(2) Provides specific evidence of the need;

(3) Indicates specificially who or what will be helped; and

(4) Describes the problem rather than symptoms of the problem.

(g) *Literature review.* (Maximum 5 points). The literature review is sufficiently comprehensive to—

(1) Establish the basis for the problem;

(2) Describe the problem in contrast to the symptoms of the problem;

(3) Provide a strong conceptual framework for the proposed objectives and proposed plan, including the general design and specific procedures of the proposed plan, along with the management, evaluation, dissemination, and training procedures, when appropriate; and

(4) Describe what has been done previously to alleviate the problem and point out the gaps that will be alleviated by this specific proposed work.

(h) *Results, end products, outcomes, and dissemination.* (Maximum 9 points). The application clearly describes:

(1) What will be delivered to the government;

(2) The format in which the results, products, or outcomes will be delivered to the government.

(i) *Institutional capability and commitment.* (Maximum 4 points). The application provides adequate evidence of—

(1) Institutional or individual's experience and commitment to the proposed work; and

(2) Assurance of support from cooperating agencies, local educational agencies, postsecondary institiutions, business, industry, and labor, where applicable for successful implementation of the project.

(j) *Sex bias and stereotyping.* (Maximum 8 points.) The application provides appropriate plans to eliminate sex bias and stereotyping in the proposed results, end products, and outcomes, and the proposed dissemination plans.

(20 U.S.C. 2401)

2. Section 105.211 is revised to read as follows:

§ 105.211 Selection criteria.

The Commissioner uses the criteria in this section to evaluate applications for new awards. The maximum score for all of the criteria is 100 points.

(a) *Program improvement.* (Maximum 15 points). The application focuses on the improvement of occupational training opportunities for Indians and delineates the way in which the proposed program will contribute to improved programs for the specific target groups.

(b) *Need.* (Maximum 10 points). The need section clearly—

(1) Describes the need for the proposed activity;

(2) Provides specific evidence of the need;

(3) Indicates specifically how the need will be met; and

(4) Describes, where appropriate, ongoing and planned activities in the community relative to the need.

(c) *Objectives.* (Maximum 10 points). The objectives—

(1) Relate to the need;

(2) Are significant for vocational education;

(3) Clearly describe proposed program outcomes;

(4) Are capable of being attained; and

(5) Are measurable.

(d) *Plan.* (Maximum 15 points). The plan clearly describes the way in which the objectives will be accomplished by—

(1) The overall design for the proposed program; and

(2) The use of specific procedures to implement activities designed to accomplish each objective of each segment of the proposed program;

(3) A description of—

(i) Specific activities to be conducted in the proposed program;

(ii) Instruments to be used in the proposed program;

(iii) Instructional material to be used in the proposed program, if appropriate; and

(iv) Population to be served by the proposed program; and

(4) Statistical and analytical procedures, if appropriate.

(e) *Management plan.* (Maximum 10 points). The management plan adequately describes the way in which personnel and resources will be utilized to accomplish each objective, the overall design, and each major procedure.

(f) *Evaluation plan.* (Maximum 10 points). The plan includes valid and reliable instruments and procedures for assessing and documenting the impact of project results in terms of the achievement of project goals and objectives.

(g) *Applicant's staff competencies and experience.* (Maximum 10 points). Points will be awarded on the extent to which the application clearly describes—

(1) The competencies that are required for the proposed project;

(2) The names and qualifications (including project management qualifications) of the project director, key professional staff, advisory groups, and any consultants;

(3) Time commitments planned for the project by the project director, key staff, advisory groups, and any consultants;

(4) Evidence of past and successful experience of the proposed project director and key staff members in similar or related projects;

(5) Evidence of commitment to Section 7(b) of the Indian Self-Determination and Education Assistance Act.

(h) *Budget and cost effectiveness.* (Maximum 10 points). Points will be awarded on the extent to which the application provides a justifiable and itemized statement of cost which contains line items in the proposed budget and appears to be cost effective with respect to proposed results.

(i) *Institutional capability and commitment.* (Maximum 10 points). The application provides adequate evidence of—

(1) Institutional experience and commitment to the proposed work;

(2) Appropriate facilities and equipment; and

(3) Documented assurances of support from cooperating local educational agencies, postsecondary institutions, business, industry, or labor, if support from any of these groups is necessary for successful implementation of the project.

(20 U.S.C. 2303; 25 U.S.C. 450f.)

3. Section 105.606 is revised to read as follows:

§ 105.606 Selection criteria.

The Commissioner uses the criteria in this section to evaluate applications for new awards. The maximum score for all of the criteria is 100 points.

(a) *Plan of operation.* (Maximum 33 points).

(1) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(2) The Commissioner looks for information that shows—

(i) High quality in the design of the project;

(ii) An effective plan of management that insures proper and efficient administration of the project;

(iii) A clear description of how the objectives of the project relate to the purpose of the program;

(iv) The way the applicant plans to use its resources and personnel to achieve each objective; and

(v) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(b) *Quality of key personnel.* (Maximum 25 points).

(1) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(2) The Commissioner looks for information that shows—

(i) The qualifications of the project director (if one is to be used);

(ii) The qualifications of each of the other key personnel to be used in the project;

(iii) The time that each person referred to in paragraph (b)(2) (i) and (ii) of this section plans to commit to the project; and

(iv) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(3) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides.

(c) *Budget and cost effectiveness.* (Maximum 10 points).

(1) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(2) The Commissioner looks for information that shows—

(i) The budget for the project is adequate to support the project activities; and

(ii) Costs are reasonable in relation to the objectives of the project.

(d) *Evaluation plan.* (Maximum 12 points).

(1) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(2) The Commissioner looks for information that show methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable.

(e) *Adequacy of resources.* (Maximum 3 points).

(1) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(2) Commissioner looks for information that shows—

(i) The facilities that the applicant plans to use are adequate; and

(i) The equipment and supplies that the applicant plans to use are adequate.

(f) *Need.* (Maximum 10 points).

(1) Describes the need for the proposed bilingual vocational training;

(2) Provides specific evidence of the need;

(3) Indicates specifically how the need will be met; and

(4) Describes, where appropriate, ongoing and planned activities in the community relative to the need.

(g) *Institutional capability and commitment.* (Maximum 7 points). The application provides adequate evidence of—

(1) Institutional experience and commitment to the proposed work;

(2) Documented assurance of support from cooperating agencies, institutions, or community groups where applicable for successful implementation of the project.

(20 U.S.C. 2420)

4. Section 105.616 is revised to read as follows:

§ 105.616 Selection criteria.

The Commissioner uses the criteria in this section to evaluate applications for new awards. The maximum score for all of the criteria is 100 points.

(a) *Plan of operation.* (Maximum 25 points).

(1) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(2) The Commissioner looks for information that shows—

(i) High quality in the design of the project;

(ii) An effective plan of management that insures proper and efficient administration of the projects;

(iii) A clear description of how the objectives of the project relate to the purpose of the program;

(iv) The way the applicant plans to use its resources and personnel to achieve each objective; and

(v) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(b) *Quality of key personnel.* (Maximum 25 points).

(1) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(2) The Commissioner looks for information that shows—

(i) The qualifications of the project director (if one is to be used);

(ii) The qualifications of each of the other key personnel to be used in the project;

(iii) The time that each person referred to in paragraphs(b)(2)(i) and (ii) of this section plans to commit to the project; and

(iv) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(3) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides.

(c) *Budget and cost effectiveness.* (Maximum 10 points).

(1) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(2) The Commissioner looks for information that shows—

(i) The budget for the project is adequate to support the project activities; and

(ii) Costs are reasonable in relation to the objectives of the project.

(d) *Evaluation plan.* (Maximum 12 points).

(1) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(2) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable.

(e) *Adequacy of resources.* (Maximum 3 points).

(1) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(2) The Commissioner looks for information that shows—

(i) The facilities that the applicant plans to use are adequate; and

(ii) The equipment and supplies that the applicant plans to use are adequate.

(f) *Need.* (Maximum 10 points). The need section clearly—

(1) Describes the need for the proposed instructor training;

(2) Provides specific evidence of the need;

(3) Indicates specifically how the need will be met; and

(4) Describes, where appropriate, ongoing and planned activities in the community relative to the need.

(g) *Institutional capability and commitment.* (Maximum 7 points). The application provides adequate evidence of—

(1) Appropriate accreditation of the applicant institution by regional or national associations and approval by appropriate State agencies of the course offered; and

(2) Documented assurance of support from cooperating agencies, institutions, or community groups where applicable for successful implementation of the project.

(h) *Ongoing vocational training.* (Maximum 4 points). The extent to which the applicant actually has an ongoing vocational training or vocational education program in the field for which persons are to be trained. Include a listing of the vocational courses offered by the applicant.

(i) *Language capabilities.* (Maximum 4 points). The extent to which the applicant institution can provide instructors with adequate language capabilities in the language other than English to be used in the bilingual job training program for which the instructors are being trained.

(20 U.S.C. 2420)

5. Section 105.626 is revised to read as follows:

§ 105.626 Selection criteria.

The Commissioner uses the criteria in this section to evaluate applications for new grants. The maximum score for all of the criteria is 100 points.

(a) *Plan of operation.* (Maximum 35 points).

(1) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(2) The Commissioner looks for information that shows—

(i) High quality in the design of the project;

(ii) An effective plan of management that insures proper and efficient administration of the project;

(iii) A clear description of how the objectives of the project relate to the purpose of the program;

(iv) The way the applicant plans to use its resources and personnel to achieve each objective; and

(v) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrespresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(b) *Quality of key personnel.* (Maximum 10 points).

(1) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(2) The Commissioner looks for information that shows—

(i) the qualifications of the project director (if one is to be used);

(ii) The qualifications of each of the other key personnel to be used in the project;

(iii) The time that each person referred to in paragraphs (b)(2)(i) and (ii)

of this section plans to commit to the project; and

(iv) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(3) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides.

(c) *Budget and cost effectiveness.* (Maximum 5 points).

(1) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(2) The Commissioner looks for information that shows—

(i) The budget for the project is adequate to support the project activities; and

(ii) Costs are reasonable in relation to the objectives of the project.

(d) *Evaluation plan.* (Maximum 10 points).

(1) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(2) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable.

(e) *Adequacy of resources.* (Maximum 3 points).

(1) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(2) The Commissioner looks for information that shows—

(i) The facilities that the applicant plans to use are adequate; and

(ii) The equipment and supplies that the applicant plans to use are adequate.

(f) *Need.* (Maximum 20 points). The need section clearly—

(1) Describes the national significance and the need in bilingual vocational training for the proposed project;

(2) Provides specific evidence of the need;

(3) Indicates specifically who are what will be helped; and

(4) Describes the problem rather than the symptoms of the problem.

(g) *Literature review.* (Maximum 5 points). The literature review is sufficiently comprehensive to—

(1) Establish the basis for the problem;

(2) Describe the problem in contrast to the symptoms of the problem;

(3) Provide a strong conceptual framework for the proposed objectives and proposed plan, including the general design and specific procedures of the proposed plan, along with the management, evaluation, dissemination, and training procedures (when appropriate); and

(4) Describe what has been done previously to alleviate the problem and point out the gaps that will be alleviated by this specific proposed work.

(h) *Results, end products, outcomes, and dissemination.* (Maximum 8 points). The application clearly describes—

(1) What will be delivered to the government; and

(2) The format in which the results, products, or outcomes will be delivered to the government.

(i) *Applicant's capability and commitment.* (Maximum 4 points). documented assurance of support from cooperating agencies, local educational agencies or postsecondary institutions, business, industry, and labor, where applicable for successful implementation of the project.

(20 U.S.C. 2420)

PART 121d—EARLY EDUCATION FOR HANDICAPPED CHILDREN

6. Part 121d is amended by adding a new § 121d.61 as follows:

§ 121d.61 Selection criteria.

The Commissioner uses the criteria in this section to evaluate applications for new grants under Subparts A, B, and C of this part. The criteria are not weighted.

(a) *Plan of operation.* (1) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(2) The Commissioner looks for information that shows—

(i) High quality in the design of the project;

(ii) An effective plan of management that insures proper and efficient administration of the project;

(iii) A clear description of how the objectives of the project relate to the purpose of the program;

(iv) The way the applicant plans to use its resources and personnel to achieve each objective; and

(v) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(b) *Quality of key personnel.* (1) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(2) The Commissioner looks for information that shows—

(i) The qualifications of the project director (if one is to be used);

(ii) The qualifications of each of the other key personnel to be used in the project;

(iii) The time that each person referred to in paragraphs (b)(2) (i) and (ii) of this section plans to commit to the project; and

(iv) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(3) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides.

(c) *Budget and cost effectiveness.* (1) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(2) The Commissioner looks for information that shows—

(i) The budget for the project is adequate to support the project activities; and

(ii) Costs are reasonable in relation to the objectives of the project.

(d) *Evaluation plan.* (1) The Commissioner reviews each application for information that shows the quality of the evalution plan for the project.

Cross-reference—45 CFR 100a.590 Evaluation by the grantee.

(2) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible are

objective and produce data that are quantifiable.

(e) *Adequacy of resources.* (1) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(2) The Commissioner looks for information that shows—

(i) The facilities that the applicant plans to use are adequate; and

(ii) The equipment and supplies that the applicant plans to use are adequate.

(20 U.S.C. 1423)

PART 121e—AUXILIARY ACTIVITIES

7. Section 121e.4 is revised to read as follows:

§ 121e.4 Selection criteria.

(a) Activities assisted under this part shall serve to enhance the effectiveness of the center or program to which they will be related.

(b) The activities shall serve to complement rather than displace the basic functions of the center or program to which they will be related.

(c) The criteria in paragraph (d) of this section apply to an application for a new grant under—

(1) 45 CFR Part 121b (Regional Resource Centers);

(2) 45 CFR Part 121c (Centers and Services for Deaf-Blind Children); or

(3) 45 CFR Part 121d (Early Education for Handicapped Children).

(d) *Additional criteria.*—(1) *Plan of operation.* (i) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(ii) The Commissioner looks for information that shows—

(A) High quality in the design of the project;

(B) An effective plan of management that insures proper and efficient administration of the project;

(C) A clear description of how the objectives of the project relate to the purpose of the program;

(D) The way the applicant plans to use its resources and personnel to achieve each objective; and

(E) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly.

(2) *Quality of key personnel.* (i) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(ii) The Commissioner looks for information that shows—

(A) The qualifications of the project director (if one is to be used);

(B) The qualifications of each of the other key personnel to be used in the project;

(C) The time that each person referred to in paragraphs (d)(2)(ii) (A) and (B) of this section plans to commit to the project; and

(D) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly.

(iii) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides.

(3) *Budget and cost effectiveness.* (i) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(ii) The Commissioner looks for information that shows—

(A) The budget for the project is adequate to support the project activities; and

(B) Costs are reasonable in relation to the objectives of the project.

(4) *Evaluation plan.* (i) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

(Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(ii) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable.

(5) *Adequacy of resources.* (i) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(ii) The Commissioner looks for information that shows—

(A) The facilities that the applicant plans to use are adequate; and

(B) The equipment and supplies that the applicant plans to use are adequate.

(20 U.S.C. 1424)

PART 121f—TRAINING PERSONNEL FOR THE EDUCATION OF THE HANDICAPPED

8. Section 121f.20 is revised to read as follows:

§ 121f.20 Selection criteria.

The Commissioner uses the criteria in this section to evaluate applications for new awards. The criteria are not weighted.

(a) *Plan of operation.* (1) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(2) The Commissioner looks for information that shows—

(i) High quality in the design of the project;

(ii) An effective plan of management that insures proper and efficient administration of the project;

(iii) A clear description of how the objectives of the project relate to the purpose of the program;

(iv) The way the applicant plans to use its resources and personnel to achieve each objective; and

(v) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(b) *Quality of key personnel.* (1) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(2) The Commissioner looks for information that shows—

(i) The qualifications of the project director (if one is to be used);

(ii) The qualifications of each of the other key personnel to be used in the project;

(iii) The time that each person referred to in paragraphs (b)(2) (i) and (ii) of this section plans to commit to the project; and

(iv) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(3) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides.

(c) *Budget and cost effectiveness.* (1) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(2) The Commissioner looks for information that shows—

(i) The budget for the project is adequate to support the project activities; and

(ii) Costs are reasonable in relation to the objectives of the project.

(d) *Evaluation plan.* (1) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(2) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable.

(e) *Adequacy of resources.* (1) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(2) The Commissioner looks for information that shows—

(i) The facilities that the applicant plans to use are adequate; and

(ii) The equipment and supplies that the applicant plans to use are adequate.

(f) The extent to which the applicant specifically provides evidence that program graduates are meeting the educational needs of handicapped children at the local, State, or national level.

(g) The extent to which program philosophy, program objectives, and activities implemented to attain program objectives are related to the educational needs of handicapped children.

(h) The extent to which—

(1) Present and former students;

(2) Employing agencies (school districts, State agencies, etc.); and

(3) Individuals (parents, practicing teachers, etc.), are involved in program planning, implemention, and evaluation.

(i) The extent to which the evaluation design and procedures—

(1) Provide for assessment of the effectiveness and efficiency of the use of program resources in the attainment of program objectives; and

(2) Provide for the collection of quantifiable program performance information including—

(i) The numbers of personnel prepared and placed in positions relevant to the education of handicapped children;

(ii) The type and location of positions accepted by program graduates;

(iii) The number of handicapped children served by program graduates;

(iv) The length of time that program graduates serve handicapped children;

(v) Employers evaluation of program graduates' proficiency; and

(vi) The effectiveness of program graduates in facilitating the educational progress of handicapped children.

(j) The extent to which the application describes procedures for assessing the impact, and in case of an application for continuation support, provides evidence of impact of the program upon other related programs within the institution, community programs for the education of handicapped children, and improvement of services for handicapped children at the local, State, and/or national level.

(k) The extent to which the application describes and specifies the various roles or positions for which students are prepared, the tasks associated with such roles, and the competencies that must be acquired to complete each task successfully.

(l) The extent to which the application includes a delineation of competencies that each program graduate will acquire and will subsequently exhibit and how the competencies will be evaluated.

(m) The extent to which substantive content and organization of the program are—

(1) Appropriate for the student's attainment of professional knowledge and competencies that are necessary for the provision of quality educational services for handicapped children; and

(2) Demonstrate an awareness of relevant methods, procedures, techniques, and instructional media or materials that can be used in the preparation of qualified educators of handicapped children.

(n) The extent to which appropriate practicum facilities are—

(1) Utilized for observation, participation, practice teaching, laboratory or clinical experience, internship, and other supervised experiences of adequate scope, combination, and length; and

(2) Accessible to the applicant and students.

(o) The amount of fiscal and other effort the applicant will contribute to the program, and a delineation of the procedures that will be implemented for the increase of such effort over a specified time period in relationship to the amount of Federal funds awarded for support of the program.

(20 U.S.C. 1432, 1434)

PART 121h—RESEARCH IN EDUCATION OF THE HANDICAPPED

9. Section 121h.7 is revised to read as follows:

§ 121h.7 Selection criteria for research projects.

The Commissioner uses the criteria in this section to evaluate applications for new grants. The maximum score for all of the criteria is 100 points.

(a) *Plan of operation.*

(1) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(2) The Commissioner looks for information that shows—

(i) High quality in the design of the project;

(ii) An effective plan of management that insures proper and efficient administration of the project;

(iii) A clear description of how the objectives of the project relate to the purpose of the program;

(iv) The way the applicant plans to use its resources and personnel to achieve each objection; and

(v) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly. (10 points)

(b) *Quality of key personnel.* (1) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(2) The Commissioner looks for information that shows—

(i) The qualifications of the project director (if one is to be used);

(ii) The qualifications of each of the other key personnel to be used in the project;

(iii) The time that each person referred to in paragraphs (2)(i) and (ii) of this section plans to commit to the project; and

(iv) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(3) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides. (10 points)

(c) *Budget and cost effectiveness.*(1) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(2) The Commissioner looks for information that shows—

(i) The budget for the project is adequate to support the project activities; and

(ii) Costs are reasonable in relation to the objectives of the project. (10 points)

(d) *Evaluation plan.* (1) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(2) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable. (5 points)

(e) *Adequacy of resources.* (1) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(2) The Commissioner looks for information that shows—

(i) The facilities that the applicant plans to use are adequate; and

(ii) The equipment and supplies that the applicant plans to use are adequate. (5 points)

(f) The potential importance of the project to the education of the handicapped. (15 points)

(g) The probable impact of proposed research and development products and the extent to which products can be expected to have a direct influence on the handicapped or personnel responsible for the education of the handicapped. (15 points)

(h) Technical soundness of the research and development plan and adequacy of specification of procedures. (30 points)

(20 U.S.C. 1441, 1442)

10. Section 121h.8 is revised to read as follows:

§ 121h.8 Selection criteria for model programs.

The Commissioner uses the criteria in this section to evaluate applications for new awards. The maximum score for all of the criteria is 100 points.

(a) *Plan of operation.*(1) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(2) The Commissioner looks for information that shows—

(i) High quality in the design of the project;

(ii) An effective plan of management that insures proper and efficient administration of the project;

(iii) A clear description of how the objectives of the project relate to the purpose of the program;

(iv) The way the applicant plans to use its resources and personnel to achieve each objective; and

(v) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly. (10 points)

(b) *Quality of key personnel.* (1) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(2) The Commissioner looks for information that shows—

(i) The qualifications of the project director (if one is to be used);

(ii) The qualifications of each of the other key personnel to be used in the project;

(iii) The time that each person referred to in paragraphs (b)(2)(i) and (ii) of this section plans to commit to the project; and

(iv) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(3) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides. (7 points)

(c) *Budget and cost effectiveness.* (1) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(2) The Commissioner looks for information that shows—

(i) The budget for the project is adequate to support the project activities; and

(ii) Costs are reasonable in relation to the objectives of the project. (10 points)

(d) *Evaluation plan.* (1) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(2) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable. (10 points)

(e) *Adequacy of resources.* (1) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(2) The Commissioner looks for information that shows—

(i) The facilities that the applicant plans to use are adequate; and

(ii) The equipment and supplies that the applicant plans to use are adequate. (5 points)

(f) The importance and relevance of the program to the education of handicapped children. (10 points)

(g) The probable impact of proposed services and products. (10 points)

(h) The extent to which the program is eligible for consideration as a "model." (See § 121h.5). (15 points)

(i) Technical soundness of the proposal as judged by plans for assessment of a child's progress and appropriateness of program approach. (13 points)

(j) The extent to which the program plans for the development and implementation of individualized education programs. (See 45 CFR 121a.340). (5 points)

(k) The extent of coordination with other appropriate agencies. (5 points)

(20 U.S.C. 1441, 1442)

PART 121k—REGIONAL EDUCATION PROGRAM FOR HANDICAPPED PERSONS

11. Section 121k.18 is revised to read as follows:

§ 121k.18 Selection criteria.

The Commissioner uses the criteria in this section to evaluate applications for

new awards. The criteria are not weighted.

(a) *Plan of operation.* (1) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(2) The Commissioner looks for information that shows—

(i) High quality in the design of the project;

(ii) An effective plan of management that insures proper and efficient administration of the project;

(iii) A clear description of how the objectives of the project relate to the purpose of the program;

(iv) The way the applicant plans to use its resources and personnel to achieve each objective; and

(v) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(b) *Quality of key personnel.* (1) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(2) The Commissioner looks for information that shows—

(i) The qualifications of the project director (if one is to be used);

(ii) The qualifications of each of the other key personnel to be used in the project;

(iii) The time that each person referred to in paragraphs (b)(2) (i) and (ii) of this section plans to commit to the project; and

(iv) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(3) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides.

(c) *Budget and cost effectiveness.* (1) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(2) The Commissioner looks for information that shows—

(i) The budget for the project is adequate to support the project activities; and

(ii) Costs are reasonable in relation to the objectives of the project.

(d) *Evaluation plan.* (1) The Commissioner reviews each application for information that shows the quality of the evaluaiton plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(2) The Commissioner looks for information that shows methods of evaluating that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable.

(e) *Adequacy of resources.* (1) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(2) The Commissioner looks for information that shows—

(i) The facilities that the applicant plans to use are adequate; and

(ii) The equipment and supplies that the applicant plans to use are adequate.

(f) Whether the program under this part will be carried out in facilities easily accessible to physically handicapped persons.

(g) Whether the program will be located in an area in which public transportation is readily available, or transportation will be provided at reasonable cost to handicapped persons participating in the program.

(h) Whether the program will serve handicapped persons for whom other appropriate education programs are not readily available.

(i) The likelihood that the services provided under the proposed program will be continued by the applicant following the expiration of Federal funding under this part as measured by evidence of financial and other commitment of the applicant to the program and other funds available to the program.

(20 U.S.C. 1424a)

PART 131—COLLEGE LIBRARY RESOURCES PROGRAM

12. Section 131.22 is amended by revising the title and the introductory paragraph to read as follows:

§ 131.22 Selection criteria—supplemental grants.

The Commissioner uses the criteria in this section, in accordance with the point scores in Appendix A to this part, to evaluate applications for supplemental grants.

* * * * *

13. Section 131.32 is revised to read as follows:

§ 131.32 Selection criteria—special purpose grants.

The Commissioner uses the criteria in this section to evaluate applications for special purpose grants. The maximum score for all of the criteria is 30 points for a Type A, Type C, or Type D grant. The maximum score for all of the criteria is 25 points for a Type B grant.

(a) *Type A grant.* (1) Location in a community characterized by significant social and economic deprivation. (4 points)

(2) Location in a designated Model Cities area. (3 points)

(3) Degree of concentration of graduate students from minority groups (American Indian, Negro, Oriental, Spanish-Surnamed American and other.) (3 points)

(4) Potential for strengthening and upgrading existing library materials to support the training of leaders to serve the disadvantaged and black communities described. (6 points)

(5) Degree to which grant and matching funds will meet the special needs described. (3 points)

(6) *Plan of operation.* (i) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(ii) The Commissioner looks for information that shows—

(A) High quality in the design of the project;

(B) An effective plan of management that insures proper and efficient administration of the project;

(C) A clear description of how the objectives of the project relate to the purpose of the program;

(D) The way the applicant plans to use its resources and personnel to achieve each objective; and

(E) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly. (3 points)

(7) *Quality of key personnel.* (i) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(ii) The Commissioner looks for information that shows—

(A) The qualifications of the project director (if one is to be used);

(B) The qualifications of each of the other key personnel to be used in the project;

(C) The time that each person referred to in paragraph (a)(7) (ii) (A) and (B) of this section plans to commit to the project; and

(D) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly.

(iii) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides. (3 points)

(8) *Budget and cost effectiveness.* (i) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(ii) The Commissioner looks for information that shows—

(A) The budget for the project is adequate to support the project activities; and

(B) Costs are reasonable in relation to the objectives of the project. (2 points)

(9) *Evaluation plan.* (i) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(ii) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable. (2 points)

(10) *Adequacy of resources.* (i) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(ii) The Commissioner looks for information that shows—

(A) The facilities that the applicant plans to use are adequate; and (B) the equipment and supplies that the applicant plans to use are adequate. (1 point)

(b) *Type B grant.* (1) Degree of concentration of graduate students from minority groups (American Indian, Negro, Oriental, Spanish-Surnamed American and other) in professional schools. (3 points)

(2) Availability of special collections to support the research and training of graduate students who expect to work in areas affecting the economically disadvantaged of the community. (7 points)

(3) Availability of printed catalog or other guides to collection and number of academic institutions receiving and utilizing the above catalogs and guides. (3 points)

(4) Degree to which the program of acquisition will contribute to the criteria described in subparagraphs (2) and (3) of this paragraph (b). (3 points)

(5) *Plan of operation.* (i) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(ii) The Commissioner looks for information that shows—

(A) High quality in the design of the project;

(B) An effective plan of management that insures proper and effective administration of the project;

(C) A clear description of how the objectives of the project relate to the purpose of the program;

(D) The way the applicant plans to use its resources and personnel to achieve each objective; and

(E) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented; such as—

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly. (3 points)

(6) *Quality of key personnel.* (i) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(ii) The Commissioner looks for information that shows—

(A) The qualifications of the project director (if one is to be used);

(B) The qualifications of each of the other key personnel to be used in the project;

(C) The time that each person referred to in paragraphs(b)(6)(ii) (A) and (B) of this section plans to commit to the project; and

(D) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly.

(iii) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides. (2 points)

(7) *Budget and cost effectiveness.* (i) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(ii) The Commissioner looks for information that shows—

(A) The budget for the project is adequate to support the project activities; and

(B) Costs are reasonable in relation to the objectives of the project. (2 points)

(8) *Evaluation plan.* (i) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(ii) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable. (1 point)

(9) *Adequacy of resources.* (i) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(ii) The Commissioner looks for information that shows—

(A) The facilities that the applicant plans to use are adequate; and

(B) The equipment and supplies that the applicant plans to use are adequate. (1 point)

(c) *Type C grant.* (1) Degree to which members of combinations are supportive of research and training activities which prepare persons to work in areas affecting the disadvantaged, including those supported by other Federal programs. (4 points)

(2) Number of institutions applying as members of the combination submitting application. (4 points)

(3) Availability and adequacy of catalog or other guides to collection and existence of computerized system or other center in operation. (4 points)

(4) Adequate evidence that combination will be able to continue without the support of Federal funds. (4 points)

(5) Degree to which grant and matching funds will meet the special needs described. (3 points)

(6) *Plan of operation.* (i) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(ii) The Commissioner looks for information that shows—

(A) High quality in the design of the project;

(B) An effective plan of management that insures proper and efficient administration of the project;

(C) A clear description of how the objectives of the project relate to the purpose of the program;

(D) The way the applicant plans to use its resources and personnel to achieve each objective; and

(E) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly. (3 points)

(7) *Quality of key personnel.* (i) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(ii) The Commissioner looks for information that shows—

(A) The Qualifications of the project director (if one is to be used);

(B) The qualifications of each of the other key personnel to be used in the project;

(C) The time that each person referred to in paragraphs (c)(7)(ii) (A) and (B) of this section plans to commit to the project; and

(D) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly.

(iii) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides. (3 points)

(8) *Budget and cost effectiveness.* (i) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(ii) The Commissioner looks for information that shows—

(A) The budget for the project is adequate to support the project activities; and

(B) Costs are reasonable in relation to the objectives of the project. (2 points)

(9) *Evaluation plan.* (i) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590. Evaluation by the grantee.

(ii) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable. (2 points)

(10) *Adequacy of resources.* (i) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(ii) The Commissioner looks for information that shows—

(A) The facilities that the applicant plans to use are adequate; and

(B) The equipment and supplies that the applicant plans to use are adequate. (1 point)

(d) *Type D grant.* (1) Number and type of institutions of higher education with which applicant has a formal, cooperative agreement to provide library and information services. (4 points)

(2) Availability of a published catalog of or other guides to the available collection. (4 points)

(3) Existence of a comprehensive collection which meets the special needs of institutions of higher education. (7 points)

(4) Potential for strengthening and upgrading existing library materials to support the training of leaders to serve the disadvantaged. (4 points)

(5) *Plan of operation.* (i) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(ii) The Commissioner looks for information that shows—

(A) High quality in the design of the project;

(B) An effective plan of management that insures proper and efficient administration of the project;

(C) A clear description of how the objectives of the project relate to the purpose of the program;

(D) The way the applicant plans to use its resources and personnel to achieve each objective; and

(E) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly. (3 points)

(6) *Quality of key personnel.* (i) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(ii) The Commissioner looks for information that shows—

(A) The qualifications of the project director (if one is to be used);

(B) The qualifications of each of the other key personnel to be used in the project;

(C) The time that each person referred to in paragraphs (d)(6)(ii) (A) and (B) of this section plans to commit to the project; and

(D) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly.

(iii) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides. (3 points)

(7) *Budget and cost effectiveness.* (i) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(ii) The Commissioner looks for information that shows—

(A) The budget for the project is adequate to support the project activities; and

(B) Costs are reasonable in relation to the objectives of the project. (2 points)

(8) *Evaluation plan.* (i) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(ii) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are

objective and produce data that are quantifiable. (2 points)

(9) *Adequacy of resources.* (i) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(ii) The Commissioner looks for information that shows—

(A) The facilities that the appliant plans to use are adequate; and

(B) The equipment and supplies that the applicant plans to use are adequate. (1 point)

(20 U.S.C. 1024)

PART 132—GRANTS FOR TRAINING IN LIBRARIANSHIP

14. Section 132.9 is revised to read as follows:

§ 132.9 Selection criteria—institute grants.

The Commissioner uses the criteria in paragraph (a) of Appendix A to this part to evaluate applications for institute grants. The maximum score for all of the criteria is 207 points.

(20 U.S.C. 1033)

15. Section 132.11 is amended by revising the title and paragraph (a) to read as follows:

§ 132.11 Selection criteria—fellowship grants.

(a) The Commissioner uses the criteria in paragraph (b) of Appendix A to this part to evaluate applications for fellowship grants. The maximum score for all of the criteria is 108 points.

* * * * *

16. Section 132.12 is amended by revising the title and the introductory paragraph to read as follows:

§ 132.12 Selection criteria and priorities—traineeship grants.

The Commissioner uses the criteria in paragraph (c) of Appendix A to this part to evaluate applications for traineeship grants. The maximum score for all of the criteria is 111 points. The review of applications will also take into account the following priorities:

* * * * *

16–1. Appendix A to Part 132 is revised to read as follows:

Appendix A—Grants for Training in Librarianship

Selection Criteria

(a) *Institute grants.* (Maximum 207 points):

(1) The extent to which the proposed program is jusitified. (10 points)

Consideration will be given to such questions as—

(i) Will the program contribute to reduction of staff shortage?

(ii) Does the program address itself to an appropriate training need?

(iii) Is the subject important and timely?

(iv) Is the applicant well prepared to offer such training?

(2) The extent to which participant selection is appropriate. (10 points)

Consideration will be given to such questions as—

(i) Are the selection criteria appropriate and realistic to meet program objectives?

(ii) Is the need as expressed in the program justification, above, related accurately to the duties of the participant?

(iii) Can the proposed number of participants be accommodated by proposed program method?

(3) The extent to which the proposed program will achieve high quality and effectiveness. (30 points)

Consideration will be given to such questions as—

(i) Is the subject appropriate for intensive or long-range traning?

(ii) Is there adequate program potential for the solution of the training problem or need?

(iii) Is the proposed professional education sound?

(iv) Is there a satisfactory blend of the theoretical and the practical?

(v) Are the training approaches new and imaginative?

(vi) Does the proposed program supplement existing training? Advance study level?

(vii) Will participants be involved in innovative and creative experiences?

(viii) Will the program maintain focus on the subject?

(4) The extent to which the institute format is appropriate. (5 points)

Consideration will be given to such questions as—

(i) Is the type of institute (self-contained or non-self-contained) properly chosen?

(ii) Is the proposed timing well chosen?

(iii) Is the length of the institute right? Too long? Too short?

(5) The extent to which program purposes will be achieved. (30 points)

Consideration will be given to such questions as—

(i) To what degree will the proposed program substantially contribute to librarianship training?

(ii) To what degree will prospects for employment and/or advancement be provided?

(iii) To what degree will training opportunities be provided for minority group and/or disadvantaged persons?

(6) Potential for using the results of the project in other projects or programs for similar educational purposes. (2 points)

(7) Provision for disseminating the results of the project and for making project materials available to interested parties. (5 points)

(8) *Plan of operation.*

(i) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(ii) The Commissioner looks for information that shows—

(A) High quality in the design of the project;

(B) An effective plan of management that insures proper and efficient administration of the project;

(C) A clear description of how the objectives of the project relate to the purpose of the program;

(D) The way the applicant plans to use its resources and personnel to achieve each objective; and

(E) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly (40 points)

(9) *Quality of key personnel.*

(i) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(ii) The Commissioner looks for information that shows—

(A) The qualifications of the project director (if one is to be used);

(B) The qualifications of each of the other key personnel to be used in the project;

(C) The time that each person referred to in paragraphs (a)(9)(ii)(A) and (B) of this section plans to commit to the project; and

(D) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly.

(iii) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the

objectives of the project, as well as other information that the applicant provides. (25 points)

(10) *Budget and cost effectiveness.*

(i) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(ii) The Commissioner looks for information that shows—

(A) The budget for the project is adequate to support the project activities; and

(B) Costs are reasonable in relation to the objectives of the project. (15 points)

(11) *Evaluation plan.*

(i) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(ii) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable. (25 points)

(12) *Adequacy of resources.*

(i) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(ii) The Commissioner looks for information that shows—

(A) The facilities that the applicant plans to use are adequate; and

(B) The equipment and supplies that the applicant plans to use are adequate. (10 points)

(b) *Fellowship grants.* (Maximum 108 points):

(1) *Adequacy of program content.* (9 points)

(i) Are the character and scope of the program appropriate, sound, modern, and cohesive?

(ii) Are contemplated changes well conceived?

(iii) Is the catalog information adequate?

(iv) Do common course requirements meet acceptable standards?

(v) Is the student practicum component sufficient?

(2) *Adequacy of program content as related to objectives.* (5 points)

(54 CFR 100a.26(b)(8)(i))

Consideration will be given to such questions as—

What is the extent to which objectives would be achieved by program content?

(3) *Adequacy of qualifications for admission.* (10 points) consideration will be given to such questions as—

(i) Are selection criteria for fellows suitable and sufficient?

(ii) Are applied tests well recommended?

(iii) Are scholarship requirements adequate?

(4) *Level of institutional expenditures.* (10 points)

Consideration will be given to such questions as—

(i) Are expenditures increasing for education in librarianship?

(ii) What is the relationship of expenditures to student enrollment changes?

(iii) Are expenditures high, medium, or low compared to other library education programs with similar curricula and student enrollment?

(5) *Quantity of enrollment and degrees awarded.* (5 points)

Consideration will be given to such questions as—

(i) Are enrollment and degrees increasing?

(ii) Is the ratio of degrees awarded to enrollment satisfactory?

(6) *Quantity of institutional fellowships and scholarships.* (5 points)

Consideration will be given to such questions as—

(i) Are institutional fellowships and scholarships increasing or decreasing?

(ii) What is the ratio of the requested number of Title II–B fellowships to the institutionally supported number?

(7) *Adequacy of prospects for increasing training opportunities.* (15 points)

Consideration will be given to such questions as—

(i) Is there any evidence that the program will be adequately promoted and that there will be effective recruitment?

(ii) Was the priority selected appropriate to the applicant's capabilities or record of experience in this field?

(8) *Prospect for increasing training opportunities for minority group and/or disadvantaged persons.* (10 points)

(9) *Plan of operation.* (14 points)

(i) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(ii) The Commissioner looks for information that shows—

(A) High quality in the design of the project;

(B) An effective plan of management that insures proper and efficient administration of the project;

(C) A clear description of how the objectives of the project relate to the purpose of the program;

(D) The way the applicant plans to use its resources and personnel to achieve each objective; and

(E) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly.

(10) *Quality of key personnel.* (10 points)

(i) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(ii) The Commissioner looks for information that shows—

(A) The qualifications of the project director (if one is to be used);

(B) The qualifications of each of the other key personnel to be used in the project;

(C) The time that each person referred to in paragraphs (b)(10)(ii)(A) and (B) of this section plans to commit to the project; and

(D) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly.

(iii) To determine the qualifications of person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides.

(11) *Budget and cost effectiveness. (5 points)*

(i) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(ii) The Commissioner looks for information that shows—

(A) The budget for the project is adequate to support the project activities; and

(B) Costs are reasonable in relation to the objectives of the project.

(12) *Evaluation plan.* (5 points)

(i) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(ii) The Commissioner looks for information that shows methods of

evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable.

(13) *Adequacy of resources.* (5 points)

(i) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(ii) The Commissioner looks for information that shows—

(A) The facilities that the applicant plans to use are adequate; and

(B) The equipment and supplies that the applicant plans to use are adequate.

(c) *Traineeship grants.* (Maximum 111 points)

(1) Whether and how the program to be offered substantially furthers the objective of increasing the opportunities of minority group persons and/or disadvantaged persons throughout the Nation for advanced training in librarianship and information science which would result in professional advancement and upward mobility. (17 points)

(2) Whether and how the program to be offered substantially furthers the objective of training librarians to work more responsively with the disadvantaged and of developing viable alternatives to traditional library service patterns. (16 points)

(3) Degree of internship opportunities available through cooperating library agencies and appropriateness of those opportunities to the program objectives. (16 points)

(4) Appropriateness of behavioral objectives as related to the program objectives and the recruitment criteria (16 points)

(5) Degree of individualization of program activities and objectives. (16 points)

(6) *Plan of operation.* (10 points)

(i) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(ii) The Commissioner looks for information that shows—

(A) High quality in the design of the project;

(B) An effective plan of management that insures proper and efficient administration of the project;

(C) A clear description of how the objectives of the project relate to the purpose of the program; and

(D) The way the applicant plans to use its resources and personnel to achieve each objective.

(E) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly.

(7) *Quality of key personnel.* (7 points)

(i) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(ii) The Commissioner looks for information that shows—

(A) The qualifications of the project director (if one is to be used);

(B) The qualifications of each of the other key personnel to be used in the project;

(C) The time that each person referred to in paragraphs (c)(7)(ii) (A) and (B) of this section plans to commit to the project; and

(D) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourage applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly.

(iii) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides.

(8) *Budget and cost effectiveness.* (5 points)

(i) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(ii) The Commissioner looks for information that shows—

(A) The budget for the project is adequate to support the project activities; and

(B) Costs are reasonable in relation to the objectives of the project.

(9) *Evaluation plan.* (5 points)

(i) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(ii) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantificable.

(10) *Adequacy of resources.* (3 points)

(i) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(ii) The Commissioner looks for information that shows—

(A) The facilities that the applicant plans to use are adequate; and

(B) The equipment and supplies that the applicant plans to use are adequate.

(20 U.S.C. 1033)

PART 133—LIBRARY RESEARCH AND DEMONSTRATION

17. Section 133.7 is amended by revising the title of the section and paragraph (c) to read as follows:

§ 133.7 Special consideration; selection criteria.

* * * * *

(c) The Commissioner uses the criteria in Appendix A to this part to evaluate applications for new grants and proposals for new contracts. The maximum score for all of the criteria is 100 points.

(20 U.S.C. 1034)

18. Appendix A to Part 133 is revised to read as follows:

Appendix A—Selection Criteria

(a) The Commissioner uses the following criteria in accordance with § 133.7.

(1) *Significance.* The proposed project promises to contribute to the solution of an important library problem, the improvement of operations or services in a significant number of libraries, or the fulfillment of unmet informational cultural or educational needs; and the relevance of the project to special consideration as reflected in the program regulation. (16 points)

(2) *Problem and needs assessment.* The proposal identifies and demonstrates by objective evidence the nature and magnitude of the needs to be addressed by the proposed program, the degree of the applicant's demonstrated knowledge of previous successes and failures with the same or similar programs, and the ability to accommodate them. (5 points)

(3) *Resources and resource management.* The application indicates that the project will be operated with adequate resources and effective management. Consideration will be given to the following factors:

(i) Coordination with and maximum utilization of existing library resources—(3 points)

(ii) Appropriate utilization of specialists, consultants, community advisory boards, project advisory

boards, and paraprofessionals where necessary—(3 points)

(iii) A budget that minimizes or excludes purchase of books, equipment, and printing and in general does not provide for operational money except as necessary to support the proposed project—(4 points)

(4) *Dissemination.* The proposal contains provisions which promise to result in adequate dissemination of the results of the proposed program and will make outputs available through commercial publications, published articles, conference papers, audio-visual presentations or in other ways as appropriate. (5 points)

(5) *Continuity and replication of project.* The proposed program is designed in a manner to insure the continuity of the project or parts of it at the site selected or its replication at other sites as well as strength of commitment to continuity and where appropriate replication at other sites in supporting letters and documents. (10 points)

(6) *Plan of operation.* (i) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(ii) The Commissioner looks for information that shows—

(A) High quality in the design of the project;

(B) An effective plan of management that insures proper and efficient administration of the project;

(C) A clear description of how the objectives of the project relate to the purpose of the program;

(D) The way the applicant plans to use its resources and personnel to achieve each objective; and

(E) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly. (20 points)

(7) *Quality of key personnel.* (i) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(ii) The Commissioner looks for information that shows—

(A) The qualifications of the project director (if one is to be used);

(B) The qualifications of each of the other key personnel to be used in the project;

(C) The time that each person referred to in paragraphs (a)(7)(ii)(A) and (B) of this section plans to commit to the project; and

(D) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly.

(iii) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the project, as well as other information that the applicant provides. (12 points)

(8) *Budget and cost effectiveness.* (i) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(ii) The Commissioner looks for information that shows—

(A) The budget for the project is adequate to support the project activities; and

(B) Costs are reasonable in relation to the objectives of the project. (5 points)

(9) *Evaluation plan.* (i) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference—45 CFR 100a.590 Evaluation by the grantee.

(ii) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable. (5 points)

(10) *Adequacy of resources.* (i) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(ii) The Commissioner looks for information that shows—

(A) The facilities that the applicant plans to use are adequate, and

(B) The equipment and supplies that the applicant plans to use are adequate. (3 points)

(20 U.S.C. 1031–1034)

PART 136—STRENGTHENING RESEARCH LIBRARY RESOURCES.

19. Section 136.06 is revised to read as follows:

§ 136.06 Selection criteria.

The Commissioner uses the criteria in this section to evaluate applications for new grants. The maximum score for all of the criteria is 110 points.

(a) *Significance as a major research library.* The strength of the applicant in meeting each of the following elements of a major research library:

(1) The extent to which the applicant's library collection makes a significant contribution to higher education and research (16 points). Consideration will be given to such factors as—

(i) Major research projects for which the library has made resources available in the past fiscal year (only a general and brief summary of information is expected in the application);

(ii) For institutions of higher education, the amount the institution expended in Federal and/or other research funds, and the number of projects conducted by the institution with these funds in the past fiscal year;

(iii) Other evidence of substantial service to researchers and scholars; and

(iv) For institutions of higher education, the number of doctoral programs offered and the number of doctoral degrees awarded in the past fiscal year.

(2) The extent to which the applicant's library collections are broadly based (12 points). Consideration will be given to such factors as—

(i) The breadth of the library collections with respect to the number of subject areas covered or the comprehensiveness of special collections in particular subject areas;

(ii) The size of the collection with respect to volumes and titles, manuscripts, microforms, and other types of materials; and

(iii) The number of current periodical subscriptions.

(3) The extent to which the applicant's library collections are recognized as having national or international significance for scholarly research (8 points). Consideration will be given to such factors as—

(i) The number of interlibrary loans (including copies in lieu of originals) made by the applicant during the past fiscal year to libraries located outside the State in which the applicant is located;

(ii) The number of such loans to libraries located outside the regional geographic area in which the applicant is located;

(iii) The number of such loans to libraries located outside the United States,

(iv) The extent to which loans of the applicant's materials described in paragraphs (a)(3) (i)–(iii) of this section are made under cooperative arrangements by the applicant with libraries in other States, regions, and countries; and

(v) Other evidence of national or international significance for scholarly research.

(4) The extent to which the applicant's library collections are of a unique nature, and contain material not widely available (8 points). Consideration will be given to such factors as—

(i) The number and nature of special collections containing research materials not widely available; and

(ii) The availability of printed (or otherwise published) catalogs or other guides to the special collections.

(5) The extent to which the library collections are in substantial demand by researchers and scholars not connected with the applicant institution (4 points). Consideration will be given to such factors as—

(i) The number and type of institutions with which the applicant has formal, cooperative agreements for library and information services;

(ii) The extent to which the library lends more on interlibrary loans than it borrows; and

(iii) The extent of loan requests from users outside the library's primary clientele.

(20 U.S.C. 1041, 1043)

(b) *Nature of project.* (1) The extent to which the specific objectives and activities of the project are designed to contribute to the purposes of this part (20 points) by—

(i) Helping the applicant to maintain and stengthen its library collections, with particular regard to whether the project builds upon one or more existing special collections of the applicant which have national or international significance for scholarly research; and/or

(ii) Making the applicant's research holdings available to other libraries for wider use by researchers and scholars. In applying this factor, the Commissioner considers—

(A) The extent to which the project is designed to increase the availability of existing collections of the applicant which have national or international significance for scholarly research; and

(B) The extent to which the project will strengthen the applicant's capacity for participating in library networks and other cooperative library arrangements for sharing of library resources.

(2) The applicant's institutional commitment and capability to continue and build upon the Federal project upon its expiration (4 points).

(3) The extent to which the specific proposed activities and expenditures under the project are new and innovative activities or are designed to expand upon and supplement the applicant's activities and expenditures (4 points).

(4) *Plan of operation.*

(i) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(ii) The Commissioner looks for information that shows—

(A) High quality in the design of the project;

(B) An effective plan of management that insures proper and efficient administration of the project;

(C) A clear description of how the objectives of the project relate to the purpose of the program;

(D) The way the applicant plans to use its resources and personnel to achieve each objective; and

(E) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly. (11 points)

(5) *Quality of key personnel.*

(i) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(ii) The Commissioner looks for information that shows—

(A) The qualifications of the project director (if one is to be used);

(B) The qualifications of each of the other key personnel to be used in the project;

(C) The time that each person referred to in paragraphs (b)(5)(ii) (A) and (B) of this section plans to commit to the project; and

(D) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly.

(iii) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides. (8 ponts)

(6) *Budget and cost effectiveness.*

(i) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(ii) The Commissioner looks for information that shows—

(A) The budget for the project is adequate to support the project activities; and

(B) Costs are reasonable in relation to the objectives of the project. (6 points)

(7) *Evaluation plan.*

(i) The Commissioner reviews each application for information that shows the quality for the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(ii) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable. (6 points)

(8) *Adequacy of resources.*

(i) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(ii) The Commissioner looks for information that shows—

(A) The facilities that the applicant plans to use are adequate; and

(B) The equipment and supplies that the applicant plans to use are adequate. (3 points)

(c) *Projects eligible under other Federal programs.* Notwithstanding the criteria in paragraphs (b)(8)(ii) (A) and (B) of this section, the Commissioner will not fund a project eligible for assistance under other Federal programs authorizing grants to support research libraries, such as the Medical Library Assistance Act of 1965 (Pub. L. 89–291), unless the application—

(1) Documents that payments under this part will not duplicate payments under other Federal programs; and

(2) Demonstrates a special need for funding under this part.

(20 U.S.C. 1041)

PART 146—MODERN FOREIGN LANGUAGE AND AREA STUDIES

20. The title and paragraph (a) of § 146.14 are revised as follows:

§ 146.14 Selection criteria-centers.

(a) The Commissioner uses the criteria in this section to evaluate applications for new awards. The maximum score for all of the criteria is 80 points.

(1) *Plan of operation.* (8 points)

(i) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(ii) The Commissioner looks for information that shows—

(A) High quality in the design of the project;

(B) An effective plan of management that insures proper and efficient administration of the project;

(C) A clear description of how the objectives of the project relate to the purpose of the program;

(D) The way the applicant plans to use its resources and personnel to achieve each objective; and

(E) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly.

(2) *Quality of key personnel.* (7 points)

(i) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(ii) The Commissioner looks for information that shows—

(A) The qualifications of the project director (if one is to be used);

(B) The qualifications of each of the other key personnel to be used in the project;

(C) The time that each person referred to in paragraphs (a)(2)(ii) (A) and (B) of this section plans to commit to the project; and

(D) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly.

(iii) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides.

(3) *Budget and cost effectiveness.* (10 points)

(i) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(ii) The Commissioner looks for information that shows—

(A) The budget for the project is adequate to support the project activities; and

(B) Costs are reasonable in relation to the objectives of the project.

(4) *Evaluation plan.* (5 points)

(i) The Commission reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(ii) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable.

(5) *Adequacy of resources.* (5 points)

(i) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(ii) The Commissioner looks for information that shows—

(A) The facilities that the applicant plans to use are adequate; and

(B) The equipment and supplies that the applicant plans to use are adequate.

(6) (5 points) The quality of the institution's existing instruction for the world area or topic for which Federal assistance is requested, as evidenced by existing course offerings, faculty qualifications, and the nature and extent of relevant library holdings.

(7) (5 points) The extent to which the proposed instructional activities of the center will strengthen existing international studies of the institution both in range and in depth.

(8) (5 points) The extent to which cooperative arrangements have been worked out with other departments, schools, and special and professional programs of the grantee institution and the extent to which the center includes appropriate multi- and inter-disciplinary instruction.

(9) (5 points) The regular coursework, language training, courses in area of international studies, and provisions for overseas experience which will be provided students participating in center programs.

(10) (5 points) The nature and extent of assistance to be provided by the center for educational outreach activities.

(11) (5 points) The extent to which provision is made by the institution for overseas experience for faculty and students, and for cooperation with foreign scholars, institutions, and governments.

(12) (5 points) Likelihood of achieving results.

(13) (5 points) Need for the project in the area served by the applicant.

(14) (5 points) Expected potential for using the results of the project in other projects for similar purposes.

21. Paragraph (b) of § 146.14 is deleted.

§ 146.14 Selection criteria—centers.

* * * * *

(b) [Deleted].

22. Section 146.24 is revised to read as follows:

§ 146.24 Selection criteria—graduate and undergraduate international studies programs.

The Commissioner uses the criteria in this section to evaluate applications for graduate and undergraduate studies programs. The maximum score for all of the criteria is 70 points.

(a) *Plan of operation.* (8 points)

(1) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(2) The Commissioner looks for information that shows—

(i) High quality in the design of the project;

(ii) An effective plan of management that insures proper and efficient administration of the project;

(iii) A clear description of how the objectives of the project relate to the purpose of the program;

(iv) The way the applicant plans to use its resources and personnel to achieve each objective; and

(v) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(b) *Quality of key personnel.* (5 points)

(1) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(2) The Commissioner looks for information that shows—

(i) The qualifications of the project director (if one is to be used);

(ii) The qualifications of each of the other key personnel to be used in the project;

(iii) The time that each person referred to in paragraphs (b)(2)(i) and (ii) of this section plans to commit to the project; and

(iv) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages

applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(3) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides.

(c) *Budget and cost effectiveness.* (8 points)

(1) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(2) The Commissioner looks for information that shows—

(i) The budget for the project is adequate to support the project activities; and

(ii) Costs are reasonable in relation to the objectives of the project.

(d) *Evaluation plan.* (7 points)

(1) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(2) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable.

(e) *Adequacy of resources.* (14 points)

(1) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(2) The Commissioner looks for information that shows—

(i) The facilities that the applicant plans to use are adequate; and

(ii) The equipment and supplies that the applicant plans to use are adequate.

(f) (6 points) The international nature, contemporary relevance, and interdisciplinary and comparative dimensions of the program.

(g) (6 points) The extent to which a clearly improved educational experience will be available at the institution for students within two years and the caliber of program that will be continued after Federal support is withdrawn.

(h) (6 points) Need for the project in the area to be served by the applicant.

(i) (5 points) Likelihood of achieving results.

(j) (5 points) Expected potential for using the results of the project in other projects for similar purposes.

(20 U.S.C. 511(a))

23. Section 146.33 is revised to read as follows:

§ 146.33 Selection criteria—institutional fellowship quotas.

The Commissioner uses the criteria in this section to evaluate applications from institutions of higher education for quotas of foreign language and area studies fellowships. The criteria are not weighted.

(a) *Plan of operation.* (1) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(2) The Commissioner looks for information that shows—

(i) High quality in the design of the project;

(ii) An effective plan of management that insures proper and efficient administration of the project;

(iii) A clear description of how the objectives of the project relate to the purpose of the program;

(iv) The way the applicant plans to use its resources and personnel to achieve each objective; and

(v) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(b) *Quality of key personnel.* (1) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(2) The Commissioner looks for information that shows—

(i) The qualifications of the project director (if one is to be used);

(ii) The qualifications of each of the other key personnel to be used in the project;

(iii) The time that each person referred to in paragraphs (b) (2)(i) and (ii) of this section plans to commit to the project; and

(iv) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(3) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project as well as other information that the applicant provides.

(c) *Budget and cost effectiveness.* (1) The Commissioner reviews each application for information that shows the project has an adequate budget and is cost effective.

(2) The Commissioner looks for information that shows—

(i) The budget for the project is adequate to support the project activities; and

(ii) Costs are reasonable in relation to the objectives of the project.

(d) *Evaluation plan.* (1) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(2) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable.

(e) *Adequacy of resources.* (1) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(2) The Commissioner looks for information that shows—

(i) The facilities that the applicant plans to use are adequate; and

(ii) The equipment and supplies that the applicant plans to use are adequate.

(f)(1) The extent to which an institution which is applying for a quota of fellowships in African studies includes as part of its language and area studies program such disciplines as economics, history, humanities (art, drama, music, philosophy, religion), sociology, and languages other than Swahili;

(2) The extent to which an institution which is applying for a quota of fellowships in East Asian studies includes as part of its language and area studies program such disciplines as anthropology, economics, geography, sociology, and humanities (art, drama, music, philosophy, religion);

(3) The extent to which an institution which is applying for a quota of fellowships in East European Studies includes as a part of its language and area studies program such disciplines as anthropology, geography, humanities (art, drama, music, philosophy, religion);

sociology, and languages other than Russian;

(4) The extent to which an institution which is applying for a quota of fellowships in Latin American studies includes as part of its language and area studies program such disciplines as humanities (art, drama, music, philosophy, religion); sociology, Portuguese, and American Indian languages;

(5) The extent to which an institution which is applying for a quota of fellowships in Middle Eastern studies includes as part of its language and area studies program such disciplines as anthropology, economics, geography, humanities (art, drama, music, philosophy, religion); political science, sociology, and languages other than Hebrew;

(6) The extent to which an institution which is applying for a quota of fellowships in South Asian studies includes as part of its language and area studies program such disciplines as anthropology, humanities (art, drama, music, philosophy, religion); linguistics, literature, sociology, and geography;

(7) The extent to which an institution which is applying for a quota of fellowships in Southwest Asian studies includes as part of its language and area studies program such disciplines as economics, history, humanities (art, drama, music, philosophy, religion), linguistics, literature, and sociology; and

(8) The extent to which an institution which is applying for a quota of fellowships in Western European studies includes as part of its language and area studies program such disciplines as anthropology, economics, geography, philosophy and religion, political economy, sociology, and languages other than French, German, Italian, or Spanish.

(g) The quality of the institution's existing foreign language and area studies program for the area for which a quota of fellowships is being requested as evidenced by course offerings, faculty, and library holdings.

(h) The degree to which the center or the program of the institution has provided for intra-institutional cooperation with other foreign language and area programs and the nature and extent of coordination with the institution's professional schools and other special university programs.

(i) The degree of institutional commitment to the development of its foreign language and area studies program or center as evidenced by faculty appointments, university scholarships and teaching assistantships, funding of library acquisitions, and continuing support from the institution's general funds.

(j) The degree requirements of the institution's foreign language and area studies center or program and whether proficiency in one or more foreign language is required.

(k) The extent to which the institution's foreign language and area studies center or program provides extra-curricular activities which enhance the student's foreign language proficiency and knowledge of the world area he is studying.

(l) The extent to which the institution's center or program includes in its offerings professional training such as business, law, journalism, or education, and the quality of such offerings.

(m) Likelihood of achieving results.

(n) Need for the project in the area to be served by the applicant.

(o) Expected potential for using the results of the project in other projects for similar purposes;

(p) Lowest priority will be given to applications for fellowships from centers or programs focusing on France, Germany, Italy, and Spain.

(20 U.S.C. 511(b))

24. Section 146.55 is revised to read as follows:

§ 146.55 Selection criteria—research projects.

(a) The Commissioner uses the criteria in this paragraph to evaluate applications for research, studies, and surveys. The maximum score for all of the criteria is 60 points.

(1) *Plan of operation.* (6 points)

(i) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(ii) The Commissioner looks for information that shows—

(A) High quality in the design of the projects;

(B) An effective plan of management that insures proper and efficient administration of the project;

(C) A clear description of how the objectives of the project relate to the purpose of the program;

(D) The way the application plans to use its resources and personnel to achieve each objective; and

(E) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly.

(2) *Quality of key personnel.* (5 points)

(i) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(ii) The Commissioner looks for information that shows—

(A) The qualifications of the project director (if one is to be used);

(B) The qualifications of each of the other key personnel to be used in the project;

(C) The time that each person referred to in paragraphs (a)(2)(ii) (A) and (B) of this section plans to commit to the project; and

(D) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly.

(iii) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides.

(3) *Budget and cost effectiveness.* (5 points)

(i) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(ii) The Commissioner looks for information that shows—

(A) The budget for the project is adequate to support the project activities; and

(B) Costs are reasonable in relation to the objectives of the project.

(4) *Evaluation plan.* (4 points)

(i) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross reference—45 CFR 100a.590 Evaluation by the grantee.

(ii) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable.

(5) *Adequacy of resources.* (5 points)

(i) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(ii) The Commissioner looks for information that shows—

(A) The facilities that the applicant plans to use are adequate; and

(B) The equipment and supplies that the applicant plans to use are adequate.

(6) (5 points) Need for the project in the area to be served by the applicant;

(7) (5 points) Expected potential for using the results of the project in other projects for similar purposes.

(8) (10 points) The extent to which the proposed activity may be expected to develop new knowledge significant to the purpose of section 602 of the Act.

(9) (5 points) The extent to which problems, questions, or hypotheses to be dealt with are well formulated, and reflect adequate knowledge of other related research;

(10) (5 points) The specificity of the statement of procedures to be followed, including sampling techniques, controls, data to be gathered, and statistical and other analyses to be done; and

(11) (5 points) The adequacy of the proposed teaching, testing, and research methodology.

(b) The Commissioner uses the criteria in this paragraph to evaluate applications for the development of instructional materials. The maximum score for all of the criteria is 65 points.

(1) *Plan of operation.* (7 points)

(i) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(ii) The Commissioner looks for information that shows—

(A) High quality in the design of the project;

(B) An effective plan of management that insures proper and efficient administration of the project;

(C) A clear description of how the objectives of the project relate to the purpose of the program;

(D) The way the applicant plans to use its resources and personnel to achieve each objective; and

(E) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly.

(2) *Quality of key personnel.* (5 points)

(i) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(ii) The Commissioner looks for information that shows—

(A) The qualifications of the project director (if one is to be used);

(B) The qualifications of each of the other key personnel to be used in the project;

(C) The time that each person referred to in paragraphs (b)(2)(ii)(A) and (B) of this section plans to commit to the project; and

(D) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourage applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly.

(iii) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides.

(3) *Budget and cost effectiveness.* (5 points)

(i) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(ii) The Commissioner looks for information that shows—

(A) The budget for the project is adequate to support the project activities; and

(B) Costs are reasonable in relation to the objectives of the project.

(4) *Evaluation plan.* (5 points)

(i) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference—45 CFR 100a.590 Evaluation by the grantee.

(ii) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable.

(5) *Adequacy of resources.* (3 points)

(i) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(ii) The Commissioner looks for information that shows—

(A) The facilities that the applicant plans to use are adequate; and

(B) The equipment and supplies that the applicant plans to use are adequate.

(6) (5 points) Need for the project in the area to be served by the applicant;

(7) (5 points) Likelihood of achieving results;

(8) (5 points) Expected potential for using the results of the project in other projects for similar purposes.

(9) (5 points) The extent to which the proposed work may contribute significantly to strengthening international studies programs of educational institutions.

(10) (5 points) The extent to which all existing related materials are cited or accounted for, including a critical commentary on their adequacy, in the justification of the proposal.

(11) (5 points) The degree of specificity concerning the final form of the projected instructional materials.

(12) (5 points) The degree to which the proposed contents and final form of the materials reflect an empirical knowledge of the organization for instruction and academic practices of those American institutions in which they will ultimately be used; and

(13) (5 points) The extent to which provision has been made for pretesting the materials in the classroom and for revision before publication.

(20 U.S.C. 512)

PART 146a—CITIZEN EDUCATION FOR CULTURAL UNDERSTANDING PROGRAM

25. Section 146a.7 is revised to read as follows:

§ 146a.7 Selection criteria.

(a) The Commissioner uses the criteria in this section to evaluate applications. The criteria are not weighted.

(1) *Plan of operation.* (i) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(ii) The Commissioner looks for information that shows—

(A) High quality in the design of the project;

(B) An effective plan of management that insures proper and efficient administration of the project;

(C) A clear description of how the objectives of the project relate to the purpose of the program;

(D) The way the applicant plans to use its resources personnel to achieve each objective; and

(E) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority groups;

(2) Women;
(3) Handicapped persons; and
(4) The elderly.

(2) *Quality of key personnel.* (i) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(ii) The Commissioner looks for information that shows—

(A) The qualifications of the project director (if one is to be used);

(B) The qualifications of each of the other key personnel to be used in the project;

(C) The time that each person referred to in paragraphs (a)(2)(ii)(A) and (B) of this section plans to commit to the project; and

(D) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(1) Members of racial or ethnic minority groups;
(2) Women;
(3) Handicapped persons; and
(4) The elderly.

(iii) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides.

(3) *Budget and cost effectiveness.* (i) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(ii) The Commissioner looks for information that shows—

(A) The budget for the project is adequate to support the project activities; and

(B) Costs are reasonable in relation to the objectives of the project.

(4) *Evaluation plan.* (i) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(ii) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable.

(5) *Adequacy of resources.* (i) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(ii) The Commissioner looks for information that shows—

(A) The facilities that the applicant plans to use are adequate; and

(B) The equipment and supplies that the applicant plans to use are adequate.

(6) The extent to which appropriate segments of the local community were consulted on the development of the application;

(7) The degree to which the proposed project or program provides specifically for cooperation with appropriate segments of the local community; and

(8) The commitment of the agency or organization to the establishment and operation of the program as evidenced by maximum use of non-Federal resources (including financial support). Non-Federal resources include components of the proposed program, such as teaching personnel committed to and available for the project for whom Federal reimbursement is not requested, existing library resources and facilities, volunteer services, and other ongoing activities of the applicant agency or organization which demonstrate a commitment to the additional activities proposed for Federal funding.

(b) In addition to considering the criteria applied to each application individually, the Commissioner seeks to achieve a wide distribution of awards throughout the United States.

(20 U.S.C. 512a)

PART 148—HIGHER EDUCATION PROGRAMS IN MODERN FOREIGN LANGUAGE TRAINING AND AREA STUDIES

26. Section 148.14 is revised to read as follows:

§ 148.14 Selection criteria.

Doctoral dissertation research proposals will be evaluated by the Commissioner in accordance with the criteria contained in this section and in § 148.1(c) as well as program priorities as annually determined and announced by the Commissioner. The criteria are noit weighted. Preference will be given to modern foreign languages where adequate instruction has not been widely available in the United States, and for which there exists a shortage of trained personnel.

(a) *Plan of operation.* (1) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(2) The Commissioner looks for information that shows—

(i) High quality in the design of the project;

(ii) An effective plan of management that insures proper and efficient administration of the project;

(iii) A clear description of how the objectives of the project relate to the purpose of the program;

(iv) The way the applicant plans to use its resources and personnel to achieve each objective; and

(v) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;
(B) Women;
(C) Handicapped persons; and
(D) The elderly.

(b) *Quality of key personnel.* (1) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(2) The Commissioner looks for information that shows—

(i) The qualifications of the project director (if one is to be used).

(ii) The qualifications of each of the other key personnel to be used in the project;

(iii) The time that each person referred to in paragraphs (b)(2)(i) and (ii) of this section plans to commit to the project; and

(iv) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;
(B) Women;
(C) Handicapped persons; and
(D) The elderly.

(3) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides.

(c) *Budget and cost effectiveness.* (1) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(2) The Commissioner looks for information that shows—

(i) The budget for the project is adequate to support the project activities; and

(ii) Costs are reasonable in relation to the objectives of the project.

(d) *Evaluation plan.* (1) The Commissioner reviews each application

for information that shows the quality of the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(2) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable.

(e) *Adequacy of resources.* (1) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(2) The Commissioner looks for information that shows—

(i) The facilities that the applicant plans to use are adequate; and

(ii) The equipment and supplies that the applicant plans to use are adequate.

(22 U.S.C. 2452(b)(6), 2456(a)(2))

27. Section 148.24 is revised to read as follows:

§ 148.24 Selection criteria.

The Commissioner uses the criteria in this section and in § 148.1(c) to evaluate applications under this subpart. The criteria are not weighted.

(a) *Plan of operation.* (1) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(2) The Commissioner looks for information that shows—

(i) High quality in the design of the project;

(ii) An effective plan of management that insures proper and efficient administration of the project;

(iii) A clear description of how the objectives of the project relate to the purpose of the program;

(iv) The way the applicant plans to use its resources and personnel to achieve each objective; and

(v) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(A) Member of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(b) *Quality of key personnel.* (1) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(2) The Commissioner looks for information that shows—

(i) The qualifications of the project director (if one is to be used);

(ii) The qualifications of each of the other key personnel to be used in the project;

(iii) The time that each person referred to in paragraphs (b)(2) (i) and (ii) of this section plans to commit to the project; and

(iv) The extent to which the applicant, as part of its non-discriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(3) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides.

(c) *Budget and cost effectiveness.* (1) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(2) The Commissioner looks for information that shows—

(i) The budget for the project is adequate to support the project activities; and

(ii) Costs are reasonable in relation to the objectives of the project.

(d) *Evaluation plan.* (1) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(2) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable.

(e) *Adequacy of resources.* (1) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(2) The Commissioner looks for information that shows—

(i) The facilities that the applicant plans to use are adequate; and

(ii) The equipment and supplies that the applicant plans to use are adequate.

(f) Relevance of the project to the institution's educational goals and to its plans for developing programs in modern foreign languages and area studies;

(g) The project's potential impact on modern foreign languages and area studies in American education;

(h) Relevance of the project to contemporary issues and problems significantly related to the national interest;

(i) Scholarly qualifications of the candidate and his previous opportunities for research abroad; and

(j) The extent to which direct experience abroad is necessary to conduct the project and the effectiveness with which host country resources would be utilized.

(22 U.S.C. 2452(b)(6), 2456(a)(2))

28. Section 148.34 is revised to read as follows:

§ 148.34 Selection criteria.

The Commissioner uses the criteria in this section and in § 148.1(c) to evaluate applications under this Subpart. The criteria are not weighted.

(a) *Plan of operation.* (1) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(2) The Commissioner looks for information that shows—

(i) High quality in the design of the project;

(ii) An effective plan of management that insures proper and efficient administration of the project;

(iii) A clear description of how the objectives of the project relate to the purpose of the program;

(iv) The way the applicant plans to use its resources and personnel to achieve each objective; and

(v) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(b) *Quality of key personnel.* (1) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(2) The Commission looks for information that shows—

(i) The qualifications of the project director (if one is to be used);

(ii) The qualifications of each of the other key personnel to be used in the project;

(iii) The time that each person referred to in paragraphs (b)(2) (i) and (ii) of this section plans to commit to the project; and

(iv) The extent to which the applicant, as part of its non-discriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(3) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides.

(c) *Budget and cost effectiveness.* (1) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(2) The Commissioner looks for information that shows—

(i) The budget for the project is adequate to support the project activities; and

(ii) Costs are reasonable in relation to the objectives of the project.

(d) *Evaluation plan.* (1) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(2) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and to the extent possible, are objective and produce data that are quantifiable.

(e) *Adequacy of resources.* (1) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(2) The Commissioner looks for information that shows—

(i) The facilities that the applicant plans to use are adequate; and

(ii) The equipment and supplies that the applicant plans to use are adequate.

(f) The potential impact of the project on the development of modern foreign languages and area studies programs in American education;

(g) The project's relevance to the applicant institution's educational goals and its relationship to the institution's program development in modern foreign languages and area studies;

(h) The extent to which direct experience abroad is necessary to achieve the project's objectives and the effectiveness with which relevant host country resources would be utilized; and

(i) Program priorities as annually determined and announced by the Commissioner.

29. Section 148.43 is revised to read as follows:

§ 148.43 Selection criteria.

The Commissioner uses the criteria in this section to evaluate applications under this subpart. The criteria are not weighted.

(a) *Plan of operation.* (1) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(2) The Commissioner looks for information that shows—

(i) High quality in the design of the project;

(ii) An effective plan of management that insures proper and efficient administration of the project;

(iii) A clear description of how the objective of the project relate to the purpose of the program;

(iv) The way the applicant plans to use its resources and personnel to achieve each objective; and

(v) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups.

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(b) *Quality of key personnel.* (1) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(2) The Commissioner looks for information that shows—

(i) The qualifications of the project director (if one is to be used);

(ii) The qualifications of each of the other key personnel to be used in the project;

(iii) The time that each person referred to in paragraphs (b)(2)(i) and (ii) of this section plans to commit to the project; and

(iv) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(3) to determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides.

(c) *Budget and cost effectiveness.* (1) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(2) The Commissioner looks for information that shows—

(i) The budget for the project is adequate to support the project activities; and

(ii) Costs are reasonable in relation to the objectives of the project.

(d) *Evaluation plan.* (1) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(2) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable.

(e) *Adequacy of resources.* (1) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(2) The Commissioner looks for information that shows—

(i) The facilities that the applicant plans to use are adequate; and

(ii) The equipment and supplies that the applicant plans to use are adequate.

(f) Potential impact on the applicant institution's plans for developing its modern foreign language and area studies programs;

(g) Potential effective use of the results of the consultant's work following the completion of the project;

(h) Appropriateness of the consultant's duties and the allocation of time among the duties;

(i) Number of faculty, students, and members of the relevant community who are expected to be affected by the consultant's activities;

(j) Likelihood that educational institutions other than the grantee will share the consultant's services and the extent to which such institutions have participated in helping define the nature of these services;

(k) Adequacy of the arrangements made for coordinating the consultant's work under the supervision of a project director; and

(l) If the proposal is for curriculum development in area studies, focus on area studies in which the applicant

institution lacks adequate instructional materials and trained personnel.

(22 U.S.C. 2452(b)(6))

PART 154—EDUCATIONAL OPPORTUNITY CENTERS

30. Section 154.6 is revised to read as follows:

§ 154.6 Selection criteria.

The Commissioner uses the criteria in this paragraph to evaluate applications. The criteria are not weighted.

(a) *Plan of operation.* (1) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(2) The Commissioner looks for information that shows—

(i) High quality in the design of the project;

(ii) An effective plan of management that insures proper and efficient administration of the project;

(iii) A clear description of how the objectives of the project relate to the purpose of the program;

(iv) The way the applicant plans to use its resources and personnel to achieve each objective; and

(v) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(b) *Quality of key personnel.* (1) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(2) The Commissioner looks for information that shows—

(i) The qualifications of the project director (if one is to be used);

(ii) The qualifications of each of the other key personnel to be used in the project;

(iii) The time that each person referred to in paragraph (b)(2)(i) and (ii) of this section plans to commit to the project; and

(iv) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(3) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides.

(c) *Budget and cost effectiveness.* (1) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(2) The Commissioner looks for information that shows—

(i) The budget for the project is adequate to support the project activities; and

(ii) Costs are reasonable in relation to the objectives of the project.

(d) *Evaluation plan.* (1) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(2) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable.

(e) *Adequacy of resources.* (1) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(2) The Commissioner looks for information that shows—

(i) The facilities that the applicant plans to use to serve the low-income families in the target area;

(ii) The equipment and supplies that the applicant plans to use are adequate.

The degree to which services are needed to enchance access to postsecondary education, as indicated by—

(i) The number of secondary and postsecondary students and other persons residing in the area;

(ii) The number of low-income families in the target area;

(iii) The historical rate of participation in postsecondary education by residents in the area; and

(iv) The number of persons to be served by the Center;

(g) The extent to which the applicant has successfully operated a Center comparable or identical to those authorized under this part. If that Center was not funded under the Educational Opportunity Centers Program, the applicant shall provide a description of the that Center, including the number of low-income persons served and the kinds of services offered, the number of persons enrolled in and graduated from postsecondary institutions as a result of services offered, and the percentage of increase in postsecondary enrollment and graduation by residents of the area served.

(h) The comprehensiveness of the applicant's plan for carrying out the activities under § 154.7 and the extent to which these activities will result in increased enrollment and retention in and graduation of low-income, educationally disadvantaged persons from postsecondary institutions.

(i) The extent to which representatives from the community, secondary schools, and postsecondary schools have participated in the formulation of the proposal and will participate in the operation of the Center;

(j) The extent to which all members of a consortia will make resources available and participate in the activities of the Center to reach the goals and objectives of the proposed work program;

(k) The extent of the Center's relationship to Talent Search, Upward Bound, and Special Services for Disadvantaged Students projects in the area and to such other similar programs and services, including those for the physically handicapped, in terms of—

(i) Coordinating services to individuals who participate in more than one such program;

(ii) Providing services not otherwise available from Talent Search, Upward Bound, and Special Services projects and other similar programs; and

(iii) Avoiding duplication of services;

(l) The degree to which the Center will draw upon and coordinate the resources and staff efforts of institutions of higher education and postsecondary education in admitting low-income, educationally disadvantaged persons.

(m) Geographic considerations. The Commissioner will award grants or contracts to insure that major concentrations of low-income persons, in both urban and rural areas, will be represented among the areas served by Centers.

(20 U.S.C. 1070d-1)

PART 155—UPWARD BOUND PROGRAM

31. Section 155.8 is revised to read as follows:

§ 155.8 Selection criteria.

(a) The Commissioner uses the criteria in this paragraph to evaluate applications for new awards. The maximum score for all of the criteria is 100 points.

(1) *Plan of operation.* (10 points)

(i) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(ii) The Commissioner looks for information that shows—

(A) High quality in the design of the project;

(B) An effective plan of management that insures proper and efficient administration of the project;

(C) A clear description of how the objectives of the project relate to the purpose of the program;

(D) The way the applicant plans to use its resources and personnel to achieve each objective; and

(E) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly.

(2) *Quality of key personnel.* (18 points)

(i) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(ii) The Commissioner looks for information that shows—

(A) The qualifications for the project director (if one is to be used);

(B) The qualifications of each of other key personnel to be used in the project;

(C) The time that each person referred to in paragraphs (a)(2)(ii)(A) and (B) of this section plans to commit to the project; and

(D) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly.

(iii) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides.

(3) *Budget and cost effectiveness.* (5 points)

(i) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(ii) The Commissioner looks for information that show—

(A) The budget for the project is adequate to support the project activities; and

(B) Costs are reasonable in relation to the objectives of the project.

(4) *Evaluation plan.* (5 points)

(i) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(ii) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable.

(5) *Adequacy of resources.* (9 points)

(i) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(ii) The Commissioner looks for information that shows—

(A) The facilities that the applicant plans to use are adequate; and

(B) The equipment and supplies that the applicant plans to use are adequate.

(6) *Need.* (33 points) The number of youths who would be eligible to participate under this part who will be enrolled in the target schools or reside in the area to be served during the project period.

(7) *Design.* (20 points) (i) The comprehensiveness of the applicant's plan for identifying and selecting eligible participants, assessing and documenting their educational need and potential for postsecondary education through the use of standardized measurement instruments, and such other evaluative methods the applicant may choose to use, providing career and academic guidance and counseling, preparing and motivating project participants for admission to postsecondary institutions, and assisting participants in applying for admission to postsecondary institutions which are appropriate for such participants' abilities and ambitions; and

(ii) The extent to which the project will generate academic skills and motivation that will enable the participants to gain admission to postsecondary institutions and assist participants to attain a minimum of one year's growth, as measured by standardized measurement instruments stipulated in the application, in those academic skills such as reading, writing, mathematics and science which are essential for postsecondary education and in which participants are deficient.

(8) In selecting applications for funding, the Commissioner will consider the need for a project in the area that the applicant proposes to serve as compared to the need of the total target population to be served.

(9) Except for veterans projects, preference will be given to those applicants for new awards that proposed to carry out a summer residential component.

(10) Special consideration will be given to those applicants for new awards that propose to serve veterans if the applicant will serve an area in which the needs of eligible veterans for the services provided under this part cannot adequately be met without the project.

(11) National demonstration awards. The Commissioner will select a limited number of applications to be funded as Upward Bound national demonstration projects on the basis of the criteria set forth in paragraph (a)(9) of this section and the following additional criteria:

(i) Whether the proposed project is national or inter-regional in scope, or presents a clearly new or experimental technique or design for the provision of Upward Bound services to eligible participants;

(ii) Whether the proposed project duplicates or competes with existing regional or national programs, or consolidates existing regional or inter-regional educational activities under the aegis of a single agency or institution;

(iii) Whether, with regard to proposed projects presenting a new or experimental technique or design, the proposed activities and results can be readily replicated and utilized by other educational programs concerned with the provision of services for similar youths;

(iv) Whether the proposed project will provide services not readily available on a local or regional basis for such youths; and

(v) Whether the proposed project will provide disadvantaged students a variety of educational opportunities and options for postsecondary education.

(20 U.S.C. 1070d–1)

PART 157—SPECIAL SERVICES FOR DISADVANTAGED STUDENTS PROGRAMS

32. Section 157.6 is revised to read as follows:

§ 157.6 Selection criteria.

(a) The Commissioner uses the criteria in this section to evaluate applications for new awards. The maximum score for all of the criteria is 100 points.

(1) *Plan of operation.* (10 points)

(i) The Commissioner reviews each application for information that shows the quality of the plan of operation for this project.

(ii) The Commissioner looks for information that shows—

(A) High quality in the design of the project;

(B) An effective plan of management that insures proper and efficient administration of the project;

(C) A clear description of how the objectives of the project relate to the purpose of the program;

(D) The way the applicant plans to use its resources and personnel to achieve each objective; and

(E) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly.

(2) *Quality of key personnel.* (7 points)

(i) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(ii) The Commissioner looks for information that shows—

(A) The qualifications of the project director (if one is to be used);

(B) The qualifications of each of the other key personnel to be used in the project;

(C) The time that each person referred to in paragraphs (a)(2)(ii) (A) and (B) of this section plans to commit to the project; and

(D) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly.

(iii) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides.

(3) *Budget and cost effectiveness.* (5 points)

(i) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(ii) The Commissioner looks for information that shows—

(A) The budget for the project is adequate to support the project activities; and

(B) Costs are reasonable in relation to the objectives of the project.

(4) *Evaluation plan.* (9 points)

(i) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(ii) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable.

(5) *Adequacy of resources.* (3 points)

(i) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(ii) The Commissioner looks for information that shows—

(A) The facilities that the applicant plans to use are adequate; and

(B) The equipment and supplies that the applicant plans to use are adequate.

(6) *Need.* (33 points) (i) The extent to which the institution has made available educational opportunites to students of deprived educational, cultural, or economic backgrounds, and to students of limited English-speaking ability, or with physical handicaps, or who are disadvantaged because of severe rural isolation.

(7) *Project plan.* (12 points) The comprehensiveness of the applicant's plan for selecting students to be served by the project, conducting an assessment of supportive services needed by the students, and providing the services.

(8) *Resources and organization.* (21 points)

(i) The degree to which student financial assistance at the applicant institution will be used to meet the needs of the students who will be participating in the project;

(ii) The degree to which administrative and academic policies have as their purpose the maximization of a student's chances for graduating from the host institution;

(iii) The extent to which the project director will be consulted on those administrative and academic policies that affect the participant's chances of completing an educational program at the institution; and

(iv) The extent to which the applicant proposes to orient the faculty and staff of the institution to the goals and objectives of the Special Services Program and to utilize institutional resources available to the project.

(v) In selecting applications for funding, the Commissioner will consider the need for the project in the area the applicant proposes to serve as compared to the need of the total target population to be served.

(b) *National demonstration awards.* The Commissioner will select a limited number of applications to be funded as Special Services national demonstration projects on the basis of the criteria set forth in paragraph (a) of this section and the following additional criteria:

(1) Whether the proposed project is national or inter-regional in scope, or presents a clearly new or experimental technique or design for the provision of special services for students from deprived educational, cultural, or economic backgrounds, or for students with physical handicaps or for students of limited English-speaking ability enrolled at the institution which is the beneficiary of the award;

(2) Whether the proposed project duplicates or competes with existing regional or national programs or consolidates existing regional or inter-regional educational activities under the aegis of a single agency or institution;

(3) Whether, with regard to proposed projects presenting a new or experimental technique or design, the applicant's proposed activities and expected results can be readily replicated and utilized by other educational programs concerned with the provision of special supportive services for similar students;

(4) Whether the proposed project will provide services not readily available on a local or regional basis for participants; and

(5) Whether the proposed proposed will provide disadvantaged students a variety of educational opportunities and career options.

(20 U.S.C. 1070d–1)

PART 158—FOLLOW THROUGH PROGRAM

33. Section 158.15 is revised to read as follows:

§ 158.15 Selection criteria for refunding of projects.

The Commissioner uses the criteria in this section to determine whether an applicant has satisfactorily operated a project funded in the previous year under the Follow Through Program. Each of the criteria is rated on the

following scale: unsatisfactory, satisfactory, above average, outstanding.

(a) *Plan of operation.* (1) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(2) The Commissioner looks for information that shows—

(i) High quality in the design of the project;

(ii) An effective plan of management that insures proper and efficient administration of the project;

(iii) A clear description of how the objectives of the project relate to the purpose of the program;

(iv) The way the applicant plans to use its resources and personnel to achieve each objective; and

(v) A clear description of how the application will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(vi) For grants made after October 1, 1980, a clear description of how the applicant will provide an opportunity for participation of students enrolled in nonprofit private schools.

(b) *Quality of key personnel.* (1) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(2) The Commissioner looks for information that shows—

(i) The qualifications of the project director (if one is to be used);

(ii) The qualifications of each of the other key personnel to be used in the project;

(iii) The time that each person referred to in paragraph (b)(2) (i) and (ii) of this section plans to commit to the project; and

(iv) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(3) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides.

(c) *Budget and cost effectiveness.* (1) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(2) The Commissioner looks for information that shows—

(i) The budget for the project is adequate to support the project activities; and

(ii) Costs are reasonable in relation to the objectives of the project.

(d) *Evaluation plan.* (1) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(2) The commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable.

(e) *Adequacy of resources.* (1) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(2) The Commissioner looks for information that shows—

(i) The facilities that the applicant plans to use are adequate; and

(ii) The equipment and supplies that the applicant plans to use are adequate.

(f) The proportion of children enrolled in the schools of the project who are low-income according to the official poverty line as defined by the Office of Mangement and Budget.

(g) The proportion of children enrolled in the schools of the project who are graduates of Head Start or similar preschool programs as required by § 158.12(a).

(h) The provision of parental and community involvement as required by § 158.26(b).

(i) The participation of Follow Through parents in the development and operation of the project as required by § 158.19 (a) and (d).

(j) The role of the Policy Advisory Committee in recommending the filling of staff positions as required by § 158.19(d) (3) and (4);

(k) The extent to which the membership of the Policy Advisory Committee is composed of low-income parents elected by such parents as required by § 158.19(b);

(l) The extent to which the Policy Advisory Committee participates in the decision-making process in respect to important aspects of the project in accordance with §158.19(d);

(m) The extent to which priority is given to low-income parents in the employment of nonprofessionals and paraprofessionals as required by § 158.20;

(n) If appropriate, the extent to which the supplementary training program is serving nonprofessional and paraprofessional staff of the project in accordance with § 158.26(h)(3).

(o) The role of the Career Development Committee as required by § 158.19(d)(9).

(p) The provision for staff training as required by § 158.26(g);

(q) The extent to which the instructional component is implemented as required by § 158.26(a).

(r) The provision and coordination of comprehensive services as required by §§ 158.26 and 158.26(b):

(1) Nutrition.

(2) Medical and dental services.

(3) Social services.

(4) Psychological services.

(5) Career development.

(s) The use or the coordination, or both, of other resources and programs with the project in accordance with § 158.25(b).

(t) The extent to which the evaluations conducted to date indicate program effectiveness according to criteria such as those defined by § 158.24(b).

(Economic Opportunity Act, Title V, Secs. 551(a) (1), (3), 554(a) (Pub. L. 93-644 Sec. 8(a))

34. The title and paragraph (b) of § 158.42 are revised to read as follows:

§ 158.42 Funding and selection criteria for grants or contracts.

* * * * *

(b) *Section criteria.* The Commissioner uses the criteria in this paragraph (b) to evaluate applications for grants and proposals for contracts under this subpart. The criteria are not weighted, but are each rated on the following scale: unsatisfactory, satisfactory, above average, outstanding.

(1) *Plan of operation.* (i) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(ii) The Commissioner looks for information that shows—

(A) High quality in the design of the project;

(B) An effective plan of management that insures proper and efficient administration of the project;

(C) A clear description of how the objectives of the project relate to the purpose of the program;

(D) The way the applicant plans to use its resources and personnel to achieve each objective; and

(E) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly.

(2) *Quality of key personnel.* (i) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(ii) The Commissioner looks for information that shows—

(A) The qualifications of the project director (if one is to be used);

(B) The qualifications of each of the other key personnel to be used in the project;

(C) The time that each person referred to in paragraphs (b)(2)(ii) (A) and (B) of this section plans to commit to the project; and

(D) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly.

(iii) To determine the qualifications of persons, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides.

(3) *Budget and cost effectiveness.* (i) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(ii) The Commissioner looks for information that shows—

(A) The budget for the project is adequate to support the project activities; and

(B) Costs are reasonable in relation to the objectives of the project.

(4) *Evaluation plan.* (i) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(ii) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable.

(5) *Adequacy of resources.* (i) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(ii) The Commissioner looks for information that shows—

(A) The facilities that the applicant plans to use are adequate; and

(B) The equipment and supplies that the applicant plans to use are adequate.

(6) *Programmatic.* (i) The extent to which the applicant has shown or will show familiarity with the Follow Through program and the projects in its State through site visits and other means;

(ii) The extent to which the applicant will promote coordination of Follow Through with other State and local programs having similar objectives;

(iii) The extent to which the applicant will assist local projects in identifying and making the maximum use of available public and private resources which can contribute to the development of comprehensive projects;

(iv) The extent to which the applicant will assist local projects in improving parent-school community relationships;

(v) The extent to which the applicant will assist local projects in evaluating project activities and disseminating information regarding project activities and their evaluation; and

(iv) The extent to which the applicant will assist local projects with staff training and development programs.

(7) *Management.* The extent to which the applicant will seek information from the local project sites to meet their project needs for technical assistance.

(Economic Opportunity Act, Title V, Sec. 553(a)(3) Pub. L. 93–644 Sec. 8(a))

35. Section 158.52 is revised to read as follows:

§ 158.52 Selection criteria.

The Commissioner provides financial assistance under this subpart only to those applicants who sponsor educational approaches currently being implemented in the Follow Through program. The Commissioner uses the criteria in this section to determine whether an applicant has satisfactorily operated a project funded in the previous year under the Follow Through program. Each of the criteria is rated on the following scale: unsatisfactory, satisfactory, above average, outstanding:

(a) *Plan of operation.* (1) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(2) The Commissioner looks for information that shows—

(i) High quality in the design of the project;

(ii) An effective plan of management that insures proper and efficient administration of the project;

(iii) A clear description of how the objectives of the project relate to the purpose of the program;

(iv) The way the applicant plans to use its resources and personnel to achieve each objective; and

(v) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(b) *Quality of key personnel.* (1) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(2) The Commissioner looks for information that shows—

(i) The qualifications of the project director (if one is to be used);

(ii) The qualifications of each of the other key personnel to be used in the project;

(iii) The time that each person referred to in paragraph (b)(2)(i) and (ii) of this section plans to commit to the project; and

(iv) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups:;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(3) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides.

(c) *Budget and cost effectiveness.* (1) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(2) The Commissioner looks for information that shows—

(i) The budget for the project is adequate to support the project activities; and

(ii) Costs are reasonable in relation to the objectives of the project.

(d) *Evaluation plan.* (1) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(2) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable.

(e) *Adequacy of resources.* (1) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(2) The Commissioner looks for information that shows—

(i) The facilities that the applicant plans to use are adquate; and

(ii) The equipment and supplies that the applicant plans to use are adequate;

(f) The extent to which the evaluations conducted to date indicate program effectiveness according to criteria in § 158.24(b).

(g) The extent to which parents have been and will be involved in sponsor activities.

(h) The extent to which the sponsor has provided and will provide for the training of—

(1) Administrators;

(2) Teachers;

(3) Teacher aides and other paraprofessionals;

(4) Parents, and

(5) Others.

(Economic Opportunity Act, Title V, Sec. 553(a)(1) (Pub. L. 93-644 Sec. 8(a)))

PART 159—TALENT SEARCH PROGRAM

36. Section 159.7 is revised to read as follows:

§ 159.7 Selection criteria.

(a) The Commissioner uses the criteria in this paragraph to evaluate applications for new awards. The maximum score for all of the criteria is 100 points.

(1) *Plan of operation.* (10 points)

(i) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(ii) The Commissioner looks for information that shows—

(A) High quality in the design of the project;

(B) An effective plan of management that insures proper and efficient administration of the project;

(C) A clear description of how the objectives of the project relate to the purpose of the program;

(D) The way the applicant plans to use its resources and personnel to achieve each objective; and

(E) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly.

(2) *Quality of key personnel.* (7 points)

(i) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(ii) The Commissioner looks for information that shows—

(A) The qualifications of the project director (if one is to be used);

(B) The qualifications of each of the other key personnel to be used in the project;

(C) The time that each person referred to in paragraphs (a)(2)(ii)(A) and (B) of this section plans to commit to the project; and

(D) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly.

(iii) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides.

(3) *Budget and cost effectiveness.* (5 points)

(i) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(ii) The Commissioner looks for information that shows—

(A) The budget for the project is adequate to support the project activities; and

(B) Costs are reasonable in relation to the objectives of the project.

(4) *Evaluation Plan.* (5 points)

(i) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(ii) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable.

(5) *Adequacy of resources.* (3 points)

(i) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(ii) The Commissioner looks for information that shows—

(A) The facilities that the applicant plans to use are adequate; and

(B) The equipment and supplies that the applicant plans to use are adequate.

(6) *Need.* (33 points) (i) The extent to which the target area of the project is characterized by having a percent of youths from low-income families, residing or attending school in the area, that exceeds the minimally acceptable 25 percent, or exceeds 15 percent for those proposing to serve sparsely populated or geographically isolated areas; and

(ii) The number of youths who are eligible to be served by a project who reside or attend schools in the target area.

(7) *Design.* (16 points) (i) the extent to which the project will, in the target area, increase the rate of secondary school completion and postsecondary admissions, decrease the rate of secondary school dropouts, and increase the number of secondary and postsecondary dropouts who reenter secondary and postsecondary educational programs; and

(ii) The comprehensiveness of the applicant's plan for—

(A) Identifying and selecting eligible participants and assessing and documenting their potential for postsecondary education;

(B) Providing career and academic guidance and counseling;

(C) Disseminating information on student financial aid to the target population;

(D) Assisting youths in gaining admission or readmission to secondary schools and a variety of postsecondary institutions which have adequate supportive services, if needed by the participants;

(E) Assisting youths enrolling in postsecondary institutions in obtaining student financial aid; and

(F) Determining whether the participants actually enrolled in secondary programs or postsecondary

institutions received adequate financial aid.

(8) *Resources and organization.* (21 points)

(i) The extent to which the applicant has provided for the orientation of secondary and postsecondary schools in the target area to the goals and objectives of the Talent Search Program and has received written commitments by community and other relevant organizations for the utilization of community and other resources to supplement authorized activities.

(ii) *Population to be served.* In selecting applications for funding, the Commissioner will consider the need for the project in the area the applicant proposes to serve as compared to the need of the total target population to be served.

(iii) *National demonstration projects.* The Commissioner will select a limited number of applications to be funded as Talent Search national demonstration projects on the basis of the criteria in paragraph (a)(8)(i) of this section and the following additional criteria:

(A) Whether the proposed project is national or inter-regional in scope or presents a clearly new or experimental technique or design for the provision of Talent Search services to eligible participants.

(B) Whether the proposed project duplicates or competes with existing regional or national programs, or consolidates existing regional or inter-regional educational activities under the aegis of a single agency or institution.

(C) Whether, with regard to proposed projects presenting a new or experimental technique or design, the proposed activities and results can be readily replicated and utilized by other educational programs concerned with the provision of services to similar youths.

(D) Whether the proposed project will provide services not readily available on a local or regional basis to such youths.

(E) Whether the proposed project will provide disadvantaged students a variety of educational opportunities and options for postsecondary education.

(20 U.S.C. 1070d-1).

PART 164—CAPACITY BUILDING FOR STATISTICAL ACTIVITIES IN STATE EDUCATIONAL AGENCIES

37. Section 164.10 is revised to read as follows:

§ 164.10 Selection criteria.

The Administrator uses the criteria in this section to evaluate applications for new grants. The maximum score for all of the criteria is 100 points.

(a) *Plan of operation.* (18 points)

(1) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(2) The Commissioner looks for information that shows—

(i) High quality in the design of the project;

(ii) An effective plan of management that insures proper and efficient administration of the project;

(iii) A clear description of how the objectives of the project relate to the purpose of the program;

(iv) The way the applicant plans to use its resources and personnel to achieve each objective; and

(v) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(b) *Quality of key personnel.* (14 points)

(1) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(2) The Commissioner looks for information that shows—

(i) The qualifications of the project director (if one is to be used);

(ii) The qualifications of each of the other key personnel to be used in the project;

(iii) The time that each person referred to in paragraphs (b)(2) (i) and (ii) of this section plans to commit to the project; and

(iv) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(3) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides.

(c) *Budget and cost effectiveness.* (9 points)

(1) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(2) The Commissioner looks for information that shows—

(i) The budget for the project is adequate to support the project activities; and

(ii) Costs are reasonable in relation to the objectives of the project.

(d) *Evaluation plan.* (5 points)

(1) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(2) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable.

(e) *Adequacy of resources.* (3 points)

(1) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(2) The Commissioner looks for information that shows—

(i) The facilities that the applicant plans to use are adequate; and

(ii) The equipment and supplies that the applicant plans to use are adequate.

(f) *Significance of project.* (37 points).

The significance of the project in improving the long-term statistical capability of the State agency, as measured by a reduction of data burden; improvement in the timeliness of data reporting; improvement in the quality, comparability, or utility of data; increase in educational agencies, institutions of higher education or other agencies of the State; or similar statistical objectives.

(g) *Commitment.* (14 points) The adequacy of the educational agency's commitment and arrangements made to ensure the long-term effect of the proposed activities after the expiration of Federal funds.

(20 U.S.C. 1221-1(b)(3)6(e))

Part 169—Strengthening Developing Institutions Programs

38. Section 169.52 is revised to read as follows:

§ 169.52 Selection criteria.

The Commissioner uses the following criteria to select applications for new grants:

(a) *General criteria.* An applicant may receive up to 50 points for the general selection criteria in this paragraph as follows:

(1) *Plan of operation.* (i) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(ii) The Commissioner looks for information that shows—

(A) High quality in the design of the project;

(B) An effective plan of management that insures proper and efficient administration of the project;

(C) A clear description of how the objectives of the project relate to the purpose of the program;

(D) The way the applicant plans to use its resources and personnel to achieve each objective; and

(E) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly. (17 points)

(2) *Quality of key personnel.* (i) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(ii) The Commissioner looks for information that shows—

(A) The qualifications of the project director (if one is to be used);

(B) The qualifications of each of the other key personnel to be used in the project;

(C) The time that each person referred to in paragraphs (a)(2)(ii) (A) and (B) of this section plans to commit to the project; and

(D) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as–

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly.

(iii) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides. (7 points)

(3) *Budget and cost effectiveness.* (i) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(ii) The Commissioner looks for information that shows—

(A) The budget for the project is adequate to support the project activities; and

(B) Costs are reasonable in relation to the objectives of the project. (14 points)

(4) *Evaluation plan.* (i) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(ii) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable. (9 points)

(5) *Adequacy of resources.*

(i) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(ii) The Commissioner looks for information that shows—

(A) The facilities that the applicant plans to use are adequate; and

(B) The equipment and supplies that the applicant plans to use are adequate. (3 points)

(b) *Program criteria.* An applicant may receive up to 50 points under the following criteria:

(1) The extent to which the applicant's mission and goals statement reflects the needs of its constituents. (14 points)

(2) The extent to which the size, scope, and duration of the proposed activities will contribute to the stated goals. (22 points)

(3) The extent to which any proposed cooperative arrangements will help achieve project objectives. (9 points)

(4) The extent to which a plan has been developed to ensure continuation of the proposed activities after the grant ends. (5 points)

(c) The Commissioner considers for selection only those applications that receive a rating of 50 or more points.

(20 U.S.C. 1051, 1054)

PART 172—TEACHERS CORPS

39. The title of Subpart F and § 172.150 are revised to read as follows:

Subpart F—Selection Criteria

§ 172.150 General selection criteria.

(a) The Commissioner uses the criteria in §§ 172.151–172.154 and the criteria in this section to evaluate applications for new grants. The maximum score for all of the criteria is 100 points.

(b) An applicant may receive up to 30 points under the general criteria in this section, as follows:

(1) *Plan of operation.* (i) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(ii) The Commissioner looks for information that shows—

(A) High quality in the design of the project;

(B) An effective plan of management that insures proper and efficient administration of the project;

(C) A clear description of how the objectives of the project relate to the purpose of the program;

(D) The way the applicant plans to use its resources and personnel to achieve each objective; and

(E) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly. (10 points)

(2) *Quality of key personnel.* (i) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(ii) The Commissioner looks for information that shows—

(A) The qualifications of the project director (if one is to be used);

(B) The qualifications of each of the other key personnel to be used in the project;

(C) The time that each person referred to in paragraphs (b)(2) (ii)(A) and (B) of this section plans to commit to the project; and

(D) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly.

(iii) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides. (7 points)

(3) *Budget and cost effectiveness.* (i) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

((ii) The Commissioner looks for information that shows—

(A) The budget for the project is adequate to support the project activities; and

(B) Costs are reasonable in relation to the objectives of the project. (5 points)

(4) *Evaluation plan.* (i) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(ii) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable. (5 points)

(5) *Adequacy of resources.* (i) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(ii) The Commissioner looks for information that shows—

(A) The facilities that the applicant plans to use are adequate; and

(B) The equipment and supplies that the applicant plans to use are adequate. (3 points)

(20 U.S.C. 1103(g))

40. Section 172.151 is revised to read as follows:

§ 172.151 School learning climate criterion.

(16 points)

In evaluating an application the Commissioner considers the extent to which—

(a) The objectives developed under § 172.62 (school objectives) (improved school climate) are likely to achieve the outcome in § 172.60(a) (8 points); and

(b) The project activities are likely to accomplish the objectives developed under § 172.62 (8 points).

(20 U.S.C. 1103(g))

41. Section 172.152 is revised to read as follows:

§ 172.152 Educational personnel development system criterion

(27 points).

In evaluating an application, the Commissioner considers the extent to which—

(a) The objectives developed under § 172.63 (educational personnel development) are likely to achieve the outcome in § 172.60(b) (improved educational personnel development system) (9 points);

(b) The project training activities are likely to accomplish the objectives developed under § 172.63(b) (Improved educational personnel development system) (9 points); and

(c) The project activities are likely to accomplish the objectives developed under § 172.63 (a) and (c). (9 points)

(20 U.S.C. 1103(g))

42. Section 172.153 is revised to read as follows:

§ 172.153 Institutionalization criterion

(15 points).

In evaluating an application, the Commissioner considers the extent to which—

(a) The objectives developed under § 172.64 (institutionalization) are likely to achieve the outcome in § 172.60(c) (continuation of educational improvements) (7 points); and

(b) The project activities are likely to accomplish the objectives developed under § 172.64 (8 points).

(20 U.S.C. 1103(g))

43. Section 172.154 is revised to read as follows:

§ 172.154 Adaptation of educational improvements criterion

(12 points).

In evaluating an application, the Commissioner considers the extent to which—

(a) The objectives developed under § 172.65 (demonstration and dissemination) are likely to achieve the outcome in § 172.60(d) (adaptation of educational improvements) (6 points); and

(b) The project activities are likely to accomplish the objectives developed under § 172.65 (6 points).

(20 U.S.C. 1103(g))

PART 173—COMMUNITY SERVICE AND CONTINUING EDUCATION PROGRAMS

44. Section 173.45 is revised to read as follows:

§ 173.45 Selection criteria.

The Commissioner uses the criteria in this section to evaluate applications for new grants. The maximum score for all of the criteria is 180 points.

(a) *Plan of operation.* (1) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(2) The Commissioner looks for information that shows—

(i) High quality in the design of the project;

(ii) An effective plan of management that insures proper and efficient administration of the project;

(iii) A clear description of how the objectives of the project relate to the purpose of the program;

(iv) The way the applicant plans to use its resources and personnel to achieve each objective; and

(v) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly. (18 points)

(b) *Quality of key personnel.* (1) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(2) The Commissioner looks for information that shows—

(i) The qualifications of the project director (if one is to be used);

(ii) The qualifications of each of the other key personnel to be used in the project;

(iii) The time that each person referred to in paragraphs (b)(2)(i) and (ii) of this section plans to commit to the project; and

(iv) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(3) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides. (13 points)

(c) *Budget and cost effectiveness.* (1) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(2) The Commissioner looks for information that shows—

(i) The budget for the project is adequate to support the project activities; and

(ii) Costs are reasonable in relation to the objectives of the project. (10 points)

(d) *Evaluation of plan.* (1) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(2) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable. (18 points)

(e) *Adequacy of resources.* (1) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(2) The Commissioner looks for information that shows—

(i) The facilities that the applicant plans to use are adequate; and

(ii) The equipment and supplies that the applicant plans to use are adequate. (10 points)

(f) Whether the proposed activity complements and does not duplicate current demonstrations or programs of experimentation in the field of community service and continuing education, including resource materials sharing (10 points).

(g) The extent to which the proposed activity is responsive to one of the priorities in § 173.42 (19 points).

(h) The potential replicability or adaptability of the project by other institutions of higher education (19 points).

(i) The sufficiency of size, scope, and duration of the project so as to secure productive results (10 points).

(j) The soundness of the proposed plan of operation, including the extent to which—

(1) Where appropriate, provision is made for satisfactory inservice training connected with project services (5 points); and

(2) Provision is made for disseminating the results of the project and for making materials, techniques, and other products available to the general public and specifically to those concerned with the area of education with which the project is itself concerned (19 points).

(k) The degree to which the project proposes to employ, or will result in the development of new approaches, methods, and materials of value in increasing the effectiveness of community service and continuing education programs, including resource materials sharing programs (19 points).

(l) The extent to which the project is coordinated with related Federal, State, or institutional programs in order to promote a comprehensive approach to the solution of national and regional problems of technological and social change, and environmental pollution (10 points).

(20 U.S.C. 1005a; H. (Conf.) Rept. No. 94-1701 at 178 (1976); S. Rept. No. 92-346 at 10 (1971))

PART 179—GRADUATE AND PROFESSIONAL STUDY FELLOWSHIPS AND INSTITUTIONS GRANTS

45. Section 179.26 is revised to read as follows:

§ 179.26 Selection criteria.

(a) The Commissioner uses the criteria in this section to evaluate applications for new grants. The maximum score for all of the criteria in paragraph (b) of this section is 87 points.

(b) *Weighted criteria*—(1) *Plan of operation.* (i) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(ii) The Commissioner looks for information that shows—

(A) High quality in the design of the project;

(B) An effective plan of management that insures proper and efficient administration of the project;

(C) A clear description of how the objectives of the project relate to the purpose of the program;

(D) The way the applicant plans to use its resources and personnel to achieve each objective; and

(E) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly. (9 points.)

(2) *Quality of key personnel.* (i) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(ii) The Commissioner looks for information that shows—

(A) The qualifications of the project director (if one is to be used);

(B) The qualifications of each of the other key personnel to be used in the project;

(C) The time that each person referred to in paragraphs (b)(2)(ii) (A) and (B) of this section plans to commit to the project; and

(D) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly.

(iii) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides. (12 points)

(3) *Budget and cost effectiveness.* (i) The Commissioner reviews each application for information that shows the project has an adequate budget and is cost effective.

(ii) The Commissioner looks for information that shows—

(A) The budget for the project is adequate to support the project activities; and

(B) Costs are reasonable in relation to the objectives of the project. (9 points)

(4) *Evaluation plan.* (i) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference—45 CFR 100a.590 Evaluation by the grantee.

(ii) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable. (4 points)

(5) *Adequacy of resources.* (i) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project;

(ii) The Commissioner looks for information that shows—

(A) The facilities that the applicant plans to use are adequate; and

(B) The equipment and supplies that the applicant plans to use are adequate. (3 points)

(6) The project proposes activities which would assist in providing graduate and professional education to persons with varied backgrounds and experiences including, but not limited to, members of minority groups which are underrepresented in colleges and universities and in the academic and professional career fields to which the education leads. (17 points)

(7) The project is consistent with State, regional, or national priorities. (9 points)

(8) The project includes arrangements related to the thrust of the institution's program. These may be arrangements involving undergraduate, professional, or other graduate units within the institution, or arrangements with outside institutions or agencies. (9 points)

(9) The project provides activities which clearly enhance the institution's

program emphasis or are innovative. (5 points)

(10) The overall graduate or professional academic program of the institution is strong enough to assure the success of the project. (10 points)

(c) *Unweighted criterion.* The Commissioner reviews each application to determine the extent to which funding the project would help provide, as far as practicable, a wide distribution of graduate and professional study programs throughout the United States.

(20 U.S.C. 1134(b))

PART 182—COOPERATIVE EDUCATION PROGRAMS

46. Section 182.16 is revised to read as follows:

§ 182.16 Selection criteria.

The Commissioner uses the criteria in this section to evaluate applications for new awards under this subpart. The maximum score for all of the criteria is 120 points.

(a) *Plan of operation.* (1) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(2) The Commissioner looks for information that shows—

(i) High quality in the design of the project;

(ii) An effective plan of management that insures proper and efficient administration of the project;

(iii) A clear description of how the objectives of the project relate to the purpose of the program;

(iv) The way the applicant plans to use its resources and personnel to achieve each objective; and

(v) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly. (12 points)

(b) *Quality of key personnel.* (1) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(2) The Commissioner looks for information that shows—

(i) The qualifications of the project director (if one is to be used);

(ii) The qualifications of each of the other key personnel to be used in the project;

(iii) The time that each person referred to in paragraphs (b)(2)(i) and (ii) of this section plans to commit to the project; and

(iv) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly. (12 points)

(3) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides. (8 points)

(c) *Budget and cost effectiveness.* (1) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(2) The Commissioner looks for information that shows—

(i) The budget for the project is adequate to support the project activities; and

(ii) Costs are reasonable in relation to the objectives of the project. (6 points)

(d) *Evaluation plan.* (1) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(2) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable. (12 points)

(e) *Adequacy of resources.* (1) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(2) The Commissioner looks for information that shows—

(i) The facilities that the applicant plans to use are adequate; and

(ii) The equipment and supplies that the applicant plans to use are adequate. (3 points)

(f) The extent to which the applicant shows in its application that—

(1) The applicant will use its own resources to increase the size, scope and quality of its cooperative education program during the period of Federal support (13 points);

(2) The applicant has arranged for employment opportunities which to the extent practicable are related to its students' educational, professional, or occupational objectives (8 points);

(3) The applicant supervises its students during the work experience (4 points);

(4) The applicant makes continuing efforts to promote close interaction between its students' work experiences and academic study (4 points);

(5) The President and first-line administrators of the applicant support the program (8 points); and

(6) The applicant has or will develop a record-keeping system that keeps track of each student's status, attendance periods, and work periods (4 points).

(g) Whether the length of work experience is sufficient to make a significant contribution toward meeting the students' educational, professional, and occupational objectives (8 points).

(h) The extent to which the applicant has involved administrators, faculty, students, employers, and cooperative education specialists in both planning and, if the program is already in existence, carrying out the program (4 points).

(i) Whether the applicant has procedures for making curriculum and calendar changes as necessary to meet the particular needs of students (8 points).

(j) Whether the applicant has a written cooperative education philosophy appropriate to the needs and characteristics of the applicant (4 points).

(k) The extent to which programs in the academic discipline with respect to which the application is made have had a favorable reception by employers (7 points).

(l) The extent to which the applicant demonstrates its intention and ability to continue its cooperative education program after Federal financial assistance ends (7 points).

(20 U.S.C. 1133(a), 1133a(b), 1133a(d))

47. Section 182.32 is revised to read as follows:

§ 182.32 Selection criteria for training projects.

The Commissioner uses the criteria in this section to evaluate applications for new training projects under this subpart. The maximum score for all of the criteria is 100 points.

(a) *Plan of operation.* (1) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(2) The Commissioner looks for information that shows—

(i) High quality in the design of the project;

(ii) An efficient plan of management that insures proper and efficient administration of the project;

(iii) A clear description of how the objectives of the project relate to the purpose of the program;

(iv) The way the applicant plans to use its resources and personnel to achieve each objective; and

(v) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly. (10 points)

(b) *Quality of key personnel.* (1) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(2) The Commissioner looks for information that shows—

(i) The qualifications of the project director (if one is to be used);

(ii) The qualifications of each of the other key personnel to be used in the project;

(iii) The time that each person referred to in paragraphs (b)(2)(i) and (ii) of this section plans to commit to the project; and

(iv) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from person who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(3) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides. (7 points)

(c) *Budget and cost effectiveness.* (1) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(2) The Commissioner looks for information that shows—

(i) The budget for the project is adequate to support the project activities; and

(ii) Costs are reasonable in relation to the objectives of the project. (5 points)

(d) *Evaluation plan.* (1) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(2) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable. (5 points)

(e) *Adequacy of resources.* (1) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(2) The Commissioner looks for information that shows—

(i) The facilities that the applicant plans to use are adequate; and

(ii) The equipment and supplies that the applicant plans to use are adequate. (3 points)

(f) The extent to which the applicant proposes to address the responsibilities of—

(1) Cooperative education directors at institutions of higher education to modify existing undergraduate teaching practices, academic calendars and curricula in order to administer cooperative education programs more effectively;

(2) Undergraduate guidance counselors to understand the relationship of the work experience to the students' academic program;

(3) Personnel officers of private or public employers to assist in placing and supervising cooperative education students in work situations; or

(4) Community representatives (10 points).

(g) The extent to which the applicant has based its project on its experience in cooperative education or on successful cooperative education programs, or on innovations which have been used successfully in a cooperative education program (15 points).

(h) The extent to which the applicant has clearly defined procedures that give evidence of comprehensive planning (15 points).

(i) The extent to which the proposed project has promise of developing trainees who can apply their expertise in more than one type of cooperative education program; or in more effective articulation between two and four-year institutions; or in improved employer participation in cooperative education programs; or in improved college-community relations affecting cooperative education programs (15 points).

(j) The extent to which the applicant provides evidence of a need for the training in its geographical area or for training of a specialized nature addressed to a nationwide clientele (15 points).

(20 U.S.C. 1133b)

48. Section 182.33 is revised to read as follows:

§ 182.33 Selection criteria for research and demonstration projects.

The Commissioner uses the criteria in this section to evaluate applications for new research and demonstration projects under this subpart. The maximum score for all of the criteria is 105 points.

(a) *Plan of operation.* (1) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(2) The Commissioner looks for information that shows—

(i) High quality in the design of the project;

(ii) An effective plan of management that insures proper and efficient administration of the project;

(iii) A clear description of how the objectives of the project relate to the purpose of the program;

(iv) The way the applicant plans to use its resources and personnel to achieve each objective; and

(v) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly. (15 points)

(b) *Quality of key personnel.* (1) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(2) The Commissioner looks for information that shows—

(i) The qualifications of the project director (if one is to be used);

(ii) The qualifications of each of the other key personnel to be used in the project;

(iii) The time that each person referred to in paragraphs (b)(2)(i) and (ii) of this section plans to commit to the project; and

(iv) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(3) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides. (10 points)

(c) *Budget and cost effectiveness.* (1) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(2) The Commissioner looks for information that shows—

(i) The budget for the project is adequate to support the project activities; and

(ii) Costs are reasonable in relation to the objectives of the project. (5 points)

(d) *Evaluation plan.* (1) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(2) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable. (5 points)

(e) *Adequacy of resources.* (1) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(2) The Commissioner looks for information that shows—

(i) The facilities that the applicant plans to use are adequate; and

(ii) The equipment and supplies that the applicant plans to use are adequate. (5 points)

(f) The extent to which the applicant demonstrates that the proposed research is responsive to a real problem or need in cooperative education and, further, that the findings would be of potential value to the cooperative education community, including directors of cooperative education and other institutional administrators (23 points).

(g) The extent to which the proposal includes—

(1) Well-defined experimental or data collection methodologies;

(2) A well-defined data analysis plan; and

(3) A well-defined plan for dissemination of the research findings (42 points).

(20 U.S.C. 1133b)

PART 182a—NATIONAL ALCOHOL AND DRUG ABUSE PREVENTION PROGRAM

49. Section 182a.14 is revised to read as follows:

§ 182a.14 Selection criteria.

(a) The Commissioner uses the criteria in this section to evaluate applications for new awards under this subpart. The criteria are not weighted.

(1) *Plan of operation.* (i) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(ii) The Commissioner looks for information that shows—

(A) High quality in the design of the project;

(B) An effective plan of management that insures proper and efficient administration of the project;

(C) A clear description of how the objectives of the project relate to the purpose of the program;

(D) The way the applicant plans to use its resources and personnel to achieve each objective; and

(E) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly.

(2) *Quality of key personnel.* (i) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(ii) The Commissioner looks for information that shows—

(A) The qualifications of the project director (if one is to be used);

(B) The qualifications of each of the other key personnel to be used in the project;

(C) The time that each person referred to in paragraphs (a)(2) (ii)(A) and (B) of this section plans to commit to the project; and

(D) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly.

(iii) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides.

(3) *Budget and cost effectiveness.* (i) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(ii) The Commissioner looks for information that shows—

(A) The budget for the project is adequate to support the project activities; and

(B) Costs are reasonable in relation to the objectives of the project.

(4) *Evaluation plan.* (i) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(ii) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable.

(5) *Adequacy of resources.* (i) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(ii) The Commissioner looks for information that shows—

(A) The facilities that the applicant plans to use are adequate; and

(B) The equipment and supplies that the applicant plans to use are adequate.

(6) The extent of the alcohol and drug abuse problem in the schools and local community to be served.

(7) The extent to which team membership includes persons who have demonstrated leadership capabilities.

(8) The extent to which the proposed alcohol and drug abuse prevention and early intervention program activities of the applicant are addressing or will address unmet alcohol and drug abuse problems in the schools and local communities to be served.

(9) The extent to which alcohol and drug abuse prevention and early intervention efforts by the applicant will be coordinated with related efforts in the schools and communities served by the applicant.

(10) The degree of the applicant's commitment to support and facilitate the alcohol and drug abuse education activities of the team after training is completed as demonstrated by the applicant's stated intent to support these activities administratively and financially.

(11) The extent and manner in which the team will be utilized after training in the development and administration of alcohol and drug abuse prevention and early intervention programs in the schools of the applicant educational agency.

(b) In the awarding of funds under this subpart, the Commissioner will take into consideration the extent to which the funds will be distributed throughout the Nation among school systems of varying characteristics such as geographic size, ethnic composition, concentration of persons with limited English-speaking ability, and socioeconomic levels in urban, suburban and rural areas.

(20 U.S.C. 1002)

50. Section 182a.25 is revised to read as follows:

§ 182a.25 Selection criteria.

The Commissioner uses the criteria in this section to evaluate applications for new awards under this subpart. The criteria are not weighted.

(a) *Plan of operation.* (1) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(2) The Commissioner looks for information that shows—

(i) High quality in the design of the project;

(ii) An effective plan of management that insures proper and efficient administration of the project;

(iii) A clear description of how the objectives of the project relate to the purpose of the program;

(iv) The way the applicant plans to use its resources and personnel to achieve each objective; and

(v) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(b) *Quality of key personnel.* (1) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(2) The Commissioner looks for information that shows—

(i) The qualifications of the project director (if one is to be used);

(ii) The qualifications of each of the other key personnel to be used in the project;

(iii) The time that each person referred to in paragraphs (b)(2) (i) and (ii) of this section plans to commit to the project; and

(iv) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(3) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides.

(c) *Budget and cost effectiveness.* (1) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(2) The Commissioner looks for information that shows—

(i) The budget for the project is adequate to support the project activities; and

(ii) Costs are reasonable in relation to the objectives of the project.

(d) *Evaluation plan.* (1) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(2) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable.

(e) *Adequacy of resources.* (1) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(2) The Commissioner looks for information that shows—

(i) The facilities that the applicant plans to use are adequate; and

(ii) The equipment and supplies that the applicant plans to use are adequate.

(f) The extent of the alcohol and drug abuse problem in the local community to be served.

(g) The extent to which team membership includes persons who have demonstrated leadership capabilities.

(h) The extent to which the proposed program acitivities address unmet alcohol and drug abuse prevention needs in the local community to be served.

(i) The extent to which alcohol and drug abuse prevention efforts by the applicant will be coordinated with related efforts in the schools and communities served by the applicant.

(j) The degree of the applicant's commitment to support and facilitate the alcohol and drug abuse education activities of the team after training is completed as demonstrated by the applicant's stated intent to support these activities administratively and financially.

(k) The extent and manner in which the team will be utilized after training in the development and administration of drug abuse prevention programs in the community.

(20 U.S.C. 1002)

PART 191—GUIDANCE AND COUNSELING

51. Section 191.33 is revised to read as follows:

§ 191.33 Selection criteria.

The Commissioner uses the criteria in this section to evaluate applications for new grants under this subpart. The maximum score for all of the criteria is 100 points.

(a) *Plan of operation.* (Maximum 10 points)

(1) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(2) The Commissioner looks for information that shows—

(i) High quality in the design of the project;

(ii) An effective plan of management that insures proper and efficient administration of the project;

(iii) A clear description of how the objectives of the project relate to the purpose of the program;

(iv) The way the applicant plans to use its resources and personnel to achieve each objective; and

(v) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(b) *Quality of key personnel.* (Maximum 10 points)

(1) The Commissioner reviews each application for information that shows the quality of the key personnel that applicant plans to use on the project.

(2) The Commissioner looks for information that shows—

(i) The qualifications of the project director (if one is to be used);

(ii) The qualifications of each of the other key personnel to be used in the project;

(iii) The time that each person referred to in paragraphs (b)(2) (i) and (ii) of this section plans to commit to the project; and

(iv) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(3) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in field related to the objectives of the project, as well as other information that the applicant provides.

(c) *Budget and cost effectiveness.* (Maximum 10 points)

(1) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(2) The Commissioner looks for information that shows—

(i) The budget for the project is adequate to support the project activities; and

(ii) Cost are reasonable in relation to the objectives of the project.

(d) *Evaluation plan.* (Maximum 10 points)

(1) The Commissioner reviews each application for information that shows the quality of the evaulation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaulation by the grantee.

(2) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable.

(e) *Adequacy of resources.* (Maximum 3 points)

(1) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(2) The Commissioner looks for information that shows—

(i) The facilities that the applicant plans to use are adequate; and

(ii) The equipment and supplies that the applicant plans to use are adequate.

(f) *Need.* (Maximum 9 points) The application clearly described the need, through documented evidence for training and/or improved supervisory services, and the procedures used in determining the need. The need should be based on the guidance needs of students in the location where trainees are employed.

(g) *Activities.* (Maximum 19 points) The application—

(1) Describes training or supervisory objectives and activities which respond effectively to the needs of students documented in the needs assessment;

(2) Describes project activities which are designed to serve as a resource for improving guidance and counseling services within schools which receive supervisory services, or which are served by teacher and counselor trainees;

(3) Gives evidence, in those applications proposing to provide training, of commitments from outside organizations, groups, or individuals to cooperate in the implementation of proposed activities or in those applications proposing to improve supervisory services, of plans for working with other appropriate units; and

(4) Clearly describes the criteria and proposes for selecting participants in training activities and clearly describes criteria and processes for developing comprehensive and coordinated guidance programs in activities to improve supervisory services.

(h) *Distribution of projects.* (Maximum 9 points) The extent to which approval of the project will contribute to—

(1) An equitable geographic distribution of programs funded under this subpart throughout the United States in both urban and rural areas; and

(2) The funding of a wide variety of projects which collectively can demonstrate diverse approaches to meet effectively the purposes of this subpart.

(i) *Models.* (Maximum 10 points) The extent to which approval of the project will contribute to the establishment of a model or models which can be replicated by other agencies or institutions with similar educational needs. In applying this criterion, the Commissioner shall consider—

(1) The extent to which similar needs to those addressed by the proposed project exists in other agencies or institutions; and

(2) The design of the proposed project.

(j) *Alleviation of unemployment among youth.* (Maximum 5 points) The extent to which approval of the project has potential for contributing to the alleviation of unemployment among youth through inter-relationships with business and industry, the professions, and other occupational pursuits.

(k) *World of work.* (Maximum 5 points) The project involves inservice training to—

(1) Increase the understanding of teachers and counselors of the world of business, industry, professions, and other occupational pursuits through exposure to these areas; and

(2) To provide for increased use of persons employed in business, industry, the professions and other occupational pursuits in the guidance and counseling programs by—

(i) Bringing these persons into the schools to assist teachers and counselors; and

(ii) Bringing students into the work-place for observation and participation in order to acquaint them with the nature of the work.

(20 U.S.C. 2534(a))

52. Section 191.45 is revised to read as follows:

§ 191.45 Selection criteria.

The Commissioner uses the criteria in this section to evaluate applications for new grants under this subpart. The maximum score for all of the criteria is 100 points.

(a) *Plan of operation.* (Maximum 47 points)

(1) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(2) The Commissioner looks for information that shows—

(i) High quality in the design of the project;

(ii) An effective plan of management that insures proper and efficient administration of the project;

(iii) A clear description of how the objectives of the project relate to the purpose of the program;

(iv) The way the applicant plans to use its resources and personnel to achieve each objective; and

(v) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(b) *Quality of key personnel.* (Maximum 10 points)

(1) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(2) The Commissioner looks for information that shows—

(i) The qualifications of the project director (if one is to be used);

(ii) The qualifications of each of the other key personnel to be used in the project;

(iii) The time that each person referred to in paragraphs (b)(2) (i) and (ii) of this section plans to commit to the project; and

(iv) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(3) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides.

(c) *Budget and cost effectiveness.* (Maximum 10 points)

(1) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(2) The Commissioner looks for information that shows—

(i) The budget for the project is adequate to support the project activities; and

(ii) Costs are reasonable in relation to the objectives of the project.

(d) *Evaluation plan.* (Maximum 10 points)

(1) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(2) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable.

(e) *Adequacy of resources.* (Maximum 3 points)

(1) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(2) The Commissioner looks for information that shows—

(i) The facilities that the applicant plans to use are adequate; and

(ii) The equipment and supplies that the applicant plans to use are adequate.

(f) *Need.* (Maximum 10 points) The need for the proposed plan to reduce duplication of efforts in the State in guidance and counseling is clearly established.

(g) *Cooperative arrangements.* (Maximum 10 points) The strength and quality of arrangements made by the applicant to work with other appropriate institutions and agencies.

(20 U.S.C. 2534(b))

53. Section 191.49 is revised to read as follows:

§ 191.49 Capacity to carry out the project.

Notwithstanding the specific selection criteria in § 191.45, the Commissioner will not fund an application under this subpart unless the Commissioner is satisfied that the applicant has the capacity successfully to carry out the project.

(a) In making this judgment, the Commissioner will consider such factors as—

(1) Both the programmatic and financial management capacities of the applicant organization and its staff;

(2) Past performance by the applicant—

(i) In carrying out any prior grant under this subpart; or

(ii) In carrying out similar projects—with respect to those matters as achievement of objectives, adherence to the project conditions, programmatic and financial management, and the governing board's assumption of responsibility; and/or

(3) Consideration of local community factors which may prevent the successful operation of the grant.

(b) If the Commissioner decides not to fund an application based upon this section, the Commissioner will do so only after providing reasonable notice and an opportunity to the applicant to rebut, in writing or in an informal meeting with the responsible officials of the U.S. Office of Education, the basis for the decision.

(20 U.S.C. 2534(b))

PART 194—PUBLIC SERVICE EDUCATION PROGRAM

54. Section 194.8 is revised to read as follows:

§ 194.8 Selection criteria.

(a) The Commissioner uses the criteria in this section to evaluate applications for new grants. The maximum score for all of the criteria in paragraph (b) is 100 points.

(b) *Weighted criteria.* The extent to which the proposed project ranks high on the criteria contained below, with the maximum point score for each criterion as shown:

(1) *Plan of operation.* (i) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(ii) The Commissioner looks for information that shows—

(A) High quality in the design of the project;

(B) An effective plan of management that insures proper and efficient administration of the project;

(C) A clear description of how the objectives of the project relate to the purpose of the program;

(D) The way the applicant plans to use its resources and personnel to achieve each objective; and

(E) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly. (10 points)

(2) *Quality of key personnel.* (i) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(ii) The Commissioner looks for information that shows—

(A) The qualifications of the project director (if one is to be used);

(B) The qualifications of each of the other key personnel to be used in the project;

(C) The time that each person referred to in paragraph (2)(ii) (A) and (B) of this section plans to commit to the project; and

(D) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(*1*) Members of racial or ethnic minority groups;

(*2*) Women;

(*3*) Handicapped persons; and

(*4*) The elderly.

(iii) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides. (12 points)

(3) *Budget and cost effectiveness.* (i) The Commissioner reviews each application for information that shows

that the project has an adequate budget and is cost effective.

(ii) The Commissioner looks for information that shows—

(A) The budget for the project is adequate to support the project activities; and

(B) Costs are reasonable in relation to the objectives of the project. (10 points)

(4) *Evaluation plan.* (i) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(ii) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable. (5 points)

(5) *Adequancy of resources.* (i) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(ii) The Commissioner looks for information that shows—

(A) The facilities that the applicant plans to use are adequate; and

(B) The equipment and supplies that the applicant plans to use are adequate. (3 points)

(6) It is likely to result in establishing, strengthening, or improving a program which prepares graduate and professional students for public service. (17 points)

(7) It is related to, or is part of, an academic program which prepares persons for leadership and management positions in local and State governments and nonprofit community service agencies, and for positions in program administration involving intergovernmental relations. (9 points)

(8) It is especially imaginative and innovative. (9 points)

(9) It is consistent with State and regional priorities. (8 points)

(10) The overall academic program of public service education is strong enough to assure the success of the proposed project when measured by such criteria as the following: (17 points)

(i) There is a clear statement of program objectives;

(ii) Institutional resources such as facilities, equipment, and libraries are adequate;

(iii) The multi-disciplinary background, education, and research ability of the faculty are of high quality;

(iv) The program offers opportunities for relevant, supervised practicum and internship experiences;

(v) The program has arrangements with government agencies or jurisdictions or other nonprofit agencies for such activities as program development, personnel exchange, and field work;

(vi) The program involves other graduate units of the institution in supportive or cooperative efforts of practical benefit to public service education; and

(vii) Graduates of the program have achieved leadership and management positions in public service careers.

(c) *Unweighted criteria.* The Commissioner also considers—

(1) The extent to which the institution requests funding of activities which received assistance under this part during the preceding fiscal year but have not been completed, provided there has been substantial progress in meeting the original goals; and

(2) The extent to which funding the application will assist in attaining a wider distribution throughout the United States of high quality public service education program.

(20 U.S.C. 1134a; 1134b(a))

PART 197—TEACHER CENTERS PROGRAM

55. Section 197.11 is revised to read as follows:

§ 197.11 Selection criteria.

The Commissioner uses the criteria in this section to evaluate applications for new grants. The maximum score for all of the criteria is 100 points. An application must receive a minimum of 50 points to be considered for funding.

(a) *Plan of operation.* (1) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(2) The Commissioner looks for information that shows—

(i) High quality in the design of the project;

(ii) An effective plan of management that insures proper and efficient administration of the projects;

(iii) A clear description of how the objectives of the project relate to the purpose of the program;

(iv) The way the applicant plans to use its resources and personnel to achieve each objective; and

(v) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(vi) For grants made after October 1, 1980, a clear description of how the applicant will provide for participation of teachers employed at nonprofit private schools that choose to participate in the teacher center. (10 points)

(b) *Quality of key personnel.* (1) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(2) The Commissioner looks for information that shows—

(i) The qualifications of the project director (if one is to be used);

(ii) The qualifications of each of the other key personnel to be used in the project;

(iii) The time that each person referred to in paragraphs (b)(2) (i) and (ii) of this section plans to commit to the project; and

(iv) The extent to which the applicant, as part of its nondiscriminatory employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(3) To determine the qualifications of a person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides. (7 points)

(c) *Budget and cost effectiveness.* (1) The Commissioner looks for information that shows—

(i) The budget for the project is adequate to support the project activities; and

(ii) Costs are reasonable in relation to the objectives of the project. (5 points)

(d) *Evaluation plan.* (1) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee.

(2) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable. (5 points)

(e) *Adequacy of resources.* (1) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(2) The Commissioner looks for information that shows—

(i) The facilities that the applicant plans to use are adequate; and

(ii) The equipment and supplies that the applicant plans to use are adequate. (5 points)

(f) The extent of the teacher center policy board's authority and responsibility for supervision of the project (10 points).

(g) The potential of the proposed teacher center for increasing the effectiveness of the teachers served, in terms of the learning needs of their students (20 points).

(h) The adequacy of provisions for dissemination of the results of the project (3 points).

(i) The appropriateness of size, scope, and duration of the project so as to secure productive results (5 points).

(j) The potential of the teacher center to impact upon and improve the grantee's overall program of inservice training for teachers (15 points).

(k) The representativeness of the teacher center policy board under § 197.4(b) (10 points).

(l) The extent to which Federal funds will support new or expanded activities rather than supporting activities which are already being paid for from other resources (5 points).

(20 U.S.C. 1119a)

PART 198—TRAINING FOR HIGHER EDUCATION PERSONNEL

56. Section 198.7 is revised to read as follows:

§ 198.7 Selection criteria.

The Commissioner uses the criteria in this section to evaluate applications for new grants. The maximum score for all of the criteria is 100 points. An application must receive a minimum of 50 points to be considered for funding.

(a) *Plan of operation.* (1) The Commissioner reviews each application for information that shows the quality of the plan of operation for the project.

(2) The Commissioner looks for information that shows—

(i) High quality in the design of the project;

(ii) An effective plan of management that insures proper and efficient administration of the project;

(iii) A clear description of how the objectives of the project relate to the purpose of the program;

(iv) The way the applicant plans to use its resources and personnel to achieve each objective;

(v) A clear description of how the applicant will provide equal access and treatment for eligible project participants who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly. (10 points)

(b) *Quality of key personnel.* (1) The Commissioner reviews each application for information that shows the quality of the key personnel the applicant plans to use on the project.

(2) The Commissioner looks for information that shows—

(i) The qualifications of the project director (if one is to be used);

(ii) The qualifications of each of the other key personnel to be used in the project;

(iii) The time that each person referred to in paragraphs (b)(2)(i) and (ii) of this section plans to commit to the project; and

(iv) The extent to which the applicant, as part of its nondiscriminator employment practices, encourages applications for employment from persons who are members of groups that have been traditionally underrepresented, such as—

(A) Members of racial or ethnic minority groups;

(B) Women;

(C) Handicapped persons; and

(D) The elderly.

(3) To determine the qualifications of person, the Commissioner considers evidence of past experience and training, in fields related to the objectives of the project, as well as other information that the applicant provides. (15 points)

(c) *Budget and cost effectiveness.* (1) The Commissioner reviews each application for information that shows that the project has an adequate budget and is cost effective.

(2) The Commissioner looks for information that shows—

(i) The budget for the project is adequate to support the project activities; and

(ii) Costs are reasonable in relation to the objectives of the project. (10 points)

(d) *Evaluation plan.* (1) The Commissioner reviews each application for information that shows the quality of the evaluation plan for the project.

Cross-reference.—45 CFR 100a.590 Evaluation by the grantee

(2) The Commissioner looks for information that shows methods of evaluation that are appropriate for the project and, to the extent possible, are objective and produce data that are quantifiable. (10 points)

(e) *Adequacy of resources.* (1) The Commissioner reviews each application for information that shows that the applicant plans to devote adequate resources to the project.

(2) The Commissioner looks for information that shows—

(i) The facilities that the applicant plans to use are adequate; and

(ii) The equipment and supplies that the applicant plans to use are adequate. (10 points)

(f) The extent of need for the proposed training, as documented in the application, and the responsiveness of the proposed training to that need. (15 points)

(g) Sufficiency of size, scope, and duration of the project so as to secure productive results. (5 points)

(h) The extent to which provision is made for disseminating the results of the project and for making materials, techniques, and other outputs resulting therefrom available to the general public and specifically to those concerned with the area of education with which the project is itself concerned. (5 points)

(i) Adequacy of the methods used to determine the eligibility of persons to be served by the project. (5 points)

(20 U.S.C. 1119a–1)

BILLING CODE 4110-02-M

federal register

Thursday
April 3, 1980

Part XIX

Department of the Interior

Fish and Wildlife Service

Changes in Appendices to Endangered Species Convention

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

50 CFR Part 23

Changes in Appendices to Endangered Species Convention

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Final rule.

SUMMARY: The Convention on International Trade in Endangered Species of Wild Fauna and Flora is a treaty controlling import, export, re-export and introduction from the sea of species listed in its appendices. At their recent meeting in Costa Rica, the Party nations adopted numerous changes in Appendices I and II that took effect on June 28, 1979. Because the appendices are included in Part 23 of Title 50 of the Code of Federal Regulations, the Service issues this rule to make the list of species in Part 23 conform to the list of species now included in the Appendices.

EFFECTIVE DATE: April 3, 1980.

ADDRESSES: Please address correspondence to the Director, U.S. Fish and Wildlife Service, Office of the Scientific Authority, Washington, D.C. 20240. Information on the amendments to the Appendices is available for review during business hours of 7:45 a.m. to 4:15 p.m. Monday through Friday, in room 536, 1717 H St., N.W., Washington, D.C.

FOR FURTHER INFORMATION CONTACT: Dr. Richard L. Jachowski, Office of the Scientific Authority, U.S. Fish and Wildlife Service, Washington, D.C. 20240, telephone (202) 653–5948.

SUPPLEMENTARY INFORMATION: Procedures for amending the list of wildlife and plant species included in Appendices I and II are provided in Article XV of the Convention on International Trade in Endangered Species of Wild Fauna and Flora (T.I.A.S. 8249). Amendments can occur either at meetings of the Conference of the Parties or through a postal procedure. In the former situation, an amendment proposed by a Party is adopted if it is approved by a two-thirds majority of the Parties present and voting. A similar majority is required in postal votes when a vote is required as a result of the entering of an objection by any Party. The term "Party" is used here to mean a nation for which the Convention has entered into force.

The Parties considered numerous proposals to amend Appendices I and II at the second meeting of the Conference of the Parties, held in San Jose, Costa Rica, from March 19 to 30, 1979. The Service announced these proposals and its findings concerning them in a series of notices in the **Federal Register.** The most recent of these notices were published on February 14, 1979, for United States proposals (44 FR 9690–9697) and on March 26, 1979, for proposals by other Parties (44 FR 18150–18159).

In addition to proposals submitted for consideration at their second meeting, the Parties also considered two earlier postal proposals submitted by the United Kingdom to include the Grevy's zebra and Hartmann's mountain zebra in Appendix I. These proposals were referred to the meeting because less than one-half of the Parties voted on them when a postal vote was conducted (see 44 FR 5715, January 29, 1979).

The decisions by the Parties on the proposals were announced in the **Federal Register** on May 1, 1979 (44 FR 25480–25484). That publication listed only the adopted proposals; all other proposals were either withdrawn or defeated.

The regulatory requirements of 50 CFR Part 23 apply to specimens of species included in the Appendices to the Convention. The list of species to be included at 50 CFR 23.23 is provided in this rule for informational purposes. Only the Parties to the Convention, acting pursuant to its provisions, can determine whether species should be protected through inclusion in the appendices.

When the recent decisions of the Parties on proposals to amend the Appendices were announced in the **Federal Register,** comment was invited on whether the United States should enter a reservation with respect to species that would be included in the Appendices. All comments received were carefully considered and are discussed below. The Service determined, in the exercise of its responsibility to communicate with the Parties on these matters, that no reservations should be taken by the United States.

Several changes also have occurred in the list of species included in Appendix III since the list was first published in the **Federal Register** on February 22, 1977 (42 FR 10462–10488). Appendix III includes species that any Party identifies as being subject to regulation within its jurisdiction for the purpose of preventing or restricting exploitation, and as needing the cooperation of other Parties in the control of trade. Inclusion of species in this appendix can be done unilaterally by any Party and does not require approval by the other Parties. The only action other Parties may take if they disagree is to enter a reservation, which means they would not be treated as Parties to the Convention with respect to the species. The present rule incorporates all changes in Appendix III to date.

The following list shows specific reservations now in force for species in all appendices.

Species	Appendix	Parties reserving
Mammals:		
Whales, porpoises, dolphins, (Order Cetacea)	II	Canada, South Africa.
Dolphins, humpback (*Sotalia* spp. and *Sousa* spp.).	I	Canada, South Africa
Porpoise, finless (*Neophocaena phocaenoides*).	I	Canada.
Whale, fin (*Balaenoptera physalus*)	I (except stocks in App. II)	Australia, Canada, South Africa, U.S.S.R.
Whale, fin	II (stocks in North Atlantic off Iceland and Newfoundland, stock in area from 60° to 120° west longitude from 40° south latitude to Antarctic Continent).	Canada, South Africa.
Whale, gray (*Eschrichtius robustus glaucus*)	I	Canada.
Whale, sei (*Balaenoptera borealis*)	I (North Pacific stock and stock in area from 0° longitude to 70° east longitude from equator to Antarctic Continent).	Australia, Canada, South Africa U.S.S.R.
Whale, sei (*Balaenoptera borealis*)	II (except stocks in App. I)	Canada, South Africa.
Bear, grizzly and brown (*Ursus arctos*—North Amercian subspecies).	II	Canada
Bear, red (*Ursus arctos isabellinus*)	I	Switzerland.
Caracal (*Felis caracal*—Asian population)	I	Switzerland.
Cat, rusty spotted (*Felis rubiginosa*—Indian population).	I	Switzerland.
Lynx, European (*Felis lynx*)	II	U.S.S.R.
Otter, European (*Lutra lutra*)	I	U.S.S.R.
Wolf, gray (*Canis lupus*)	II	U.S.S.R.
Wolf, gray (*Canis lupus*—populations of Bhutan, India, Nepal and Pakistan).	I	Switzerland.
Antelope, Tibetan (*Pantholops hodgsoni*)	I	Switzerland.
Sheep, bighorn (*Ovis canadensis*)	II	Canada.
Birds:		
Goose, Aleutian (*Branta canadensis leucopareia*).	I	Switzerland.
Goose, Tule (*Anser albifrons gambelli*)	II	Canada.
Conure, Patagonia (*Cyanoliseus patagonus byroni*).	II	Switzerland.
Hemipode, collared (*Pedionomus torquatus*)	II	Switzerland.
Button quail, black-breasted (*Turnix melanogaster*).	II	Switzerland.

Species	Appendix	Parties reserving
Birds:		
Pigeon, Nicobar (*Caloenas nicobarica*)	I	Switzerland.
Bustard, Houbara (*Chalmydotis undulata*)	I	Switzerland.
Reptiles:		
Caiman, black (*Melanosuchus niger*)	I	France.
Crocodile, African slender-snouted (*Crocodylus cataphractus*).	I	France.
Crocodile, American (*Crocodilus acutus*—United States population).	I	Switzerland.
Crocodile, dwarf (*Osteolaemus tetraspis*)	I	France.
Crocodile, Nile (*Crocodilus niloticus*)	I	France.
Crocodile, saltwater (*Crocodilus porosus*—except Papua New Guinea population).	I	Federal Republic of Germany, France, Switzerland.
Sea turtle, hawksbill (*Eretmochelys imbricata*)	I	France.
Sea turtle, green (*Chelonia mydas*)	I	France.
Fishes:		
Cisco, longjaw (*Coregonus alpenae*)	I	Canada.
Pike, blue (*Stizostedion vitreum glaucum*)	I	Canada.
Sturgeon, Atlantic (*Acipenser oxyrhynchus*)	II	Canada.
Sturgeon, lake (*Acipenser fulvescens*)	II	Canada.
Molluscs:		
Mussel, Chilean (*Mytilus chorus*)	II	Switzerland.
All species of wildlife	III	Denmark.
Plants:		
Cereopegia spp	II	Switzerland.
Freres indica	II	Switzerland.
Byblis spp	II	Switzerland.
Cephalotus follicularis	II	Switzerland.
Chloanthaceae spp	II	Switzerland.
Anigozanthos spp	II	Switzerland.
Macropidia fulginosa	II	Switzerland.
Verticordia spp	II	Switzerland.
Banksia spp	II	Switzerland.
Conospermum spp	II	Switzerland.
Dryandra polycephala	II	Switzerland.
Xylomelum spp	II	Switzerland.
Boronia spp	II	Switzerland.
Crowea spp	II	Switzerland.
Geleznowia verrucosa	II	Switzerland.
Pimelea physodes	II	Switzerland.

The Service's **Federal Register** notice of May 1, 1979, requested information that might lead the United States to enter a reservation with respect to changes in appendices made at the second meeting of the Conference of the Parties. The Executive Director of the Texas Parks and Wildlife Department, in a letter dated May 24, 1979, requested that the United States enter reservations with respect to the orders Cetacea (whales, porpoises and dolphins), Falconiformes (hawks, eagles, etc.) and Strigiformes (owls) in Appendix II, on the grounds that insufficient evidence was presented to justify the listing of many member species in terms of criteria for listing that the Parties previously adopted.

The Service denied this request, citing the negotiations at the second meeting that led the U.S. Delegation to accept these amendments, the difficulties experienced by Customs officials of other nations in distinguishing between protected and unprotected species, and the absence of any significant trade in these species to or from the U.S.

The format of the appendices has been revised in this rule to list vertebrate wildlife species alphabetically by scientific name within each order instead of by common name within each class. Listing by scientific name overcomes the difficulty of finding the entry for a species by common name when the species has several common names. Organizing the species by order should make it easier to find an entry by eliminating the need to search the entire list. The Service plans to publish another list of the same species arranged alphabetically by common name for the convenience of persons accustomed to using such names.

The format includes a column for the date when the Convention applied to each species, for determining if specimens of listed species were acquired before the provisions of the Convention applied to them. Trade in specimens so acquired may occur without need for permits under the Convention if authorized by a certificate to that effect issued by the Management Authority.

The principle followed in applying dates is to use the date when the Convention first entered into force for a species, including circumstances where a species is later transferred from one appendix to another or is grouped with other species in the listing of a taxon above the species level. In the latter circumstance, each species or group of species in the higher taxon having a different date is listed separately.

The introduction to the appendices in 50 CFR 23.23 also has been revised in this rule for clarity and to conform to the new format. Because these paragraphs are explanatory and do not change the effect of the regulation, it has been determined that prior proposal of this revision is not required. For the same reasons, this action will become effective upon publication in the **Federal Register.** The revision includes an explanation of how the effective dates for species listings are determined. It also indicates more clearly whether or not the regulations apply to parts and derivatives of species in the different appendices, as set forth in Article II of the Convention.

The appendices include the following numbers of taxa as of June 28, 1979:

Group	Appendix			Total
	I	II	III	
Mammals	174	61	39	274
Birds	116	90	24	230
Reptiles	52	27	3	82
Amphibians	6	4	0	10
Fishes	8	15	0	23
Molluscs	26	21	0	47
Insects	0	4	0	4
Plants	47	49	5	101
Total	429	271	71	771

The term "taxa" is used here to mean listings as they occur in the appendices, which range from geographically distinct populations up to entire orders. The term "species" as used in this rule is defined by the Convention to mean any species, subspecies, or geographically separate population thereof.

Certain of the listed taxa at or above the species level include species, subspecies or populations that have been listed for different reasons: some because they are currently or potentially threatened with extinction, others because of the need to effectively control trade in such currently or potentially threatened species. Information on the basis for listing species is available from the Office of the Scientific Authority.

Amendments to Appendices I and II contained in this rule have entered into force by the terms of the Convention and cannot be the subject of reservations by the United States. Earlier **Federal Register** notices allowed an opportunity for comment on these

amendments. Therefore, this rule is made effective on the date of **Federal Register** publication, as provided in 43 CFR 14.5(b)(5).

This rule is issued under the authority of the Endangered Species Act of 1973 (16 U.S.C. 1531–1543; 87 Stat. 884, as amended), and was prepared by Dr. Richard L. Jachowski, Office of the Scientific Authority.

Note.—The Department of the Interior has determined that Executive Order 12044 does not apply to this rule beause it involves a foreign affairs function of the United States.

Dated: February 6, 1980.

Robert S. Cook,

Acting Director, Fish and Wildlife Service.

Part 23 of Title 50 of the Code of Federal Regulations is amended by revising § 23.23 to read as follows:

§ 23.23 Species listed in Appendices I, II, and III.

(a) The list in this section includes species of wildlife and plants placed in Appendix I, II or III in accordance with the provisions of Articles XV and XVI of the Convention.

The list of species is organized as follows:

Major group	Subgroups
Mammals	Orders, in taxonomic sequence.
Birds	Do.
Reptiles	Do.
Amphibians	Do.
Fishes	Do.
Molluscs	Classes.
Insects	None.
Plants	Families, in alphabetical sequence.

In each group, species are listed in alphabetical sequence. The scientific name takes precedence over the common name in determining if a species is listed.

(b) The appendix column of the list includes the annotation "pe" (=possibly extinct) for certain species. It also contains the names of Parties including species in Appendix III.

(c) For purposes of issuing United States certificates of exemption under Article VII(3), the date when the Convention applies to a species is the date when the inclusion of that species in the appendices enters into force under the terms of Article XV or XVI of the Convention. The date of first listing is retained if a species is transferred from one appendix to another or if a listed species is subsequently included with other species in the listing of a taxon above the species level. Such species are shown separately in this publication of the appendices. The date of a subsequent listing is used only if a species is entirely deleted from the appendices and is subsequently reincluded after an intervening period of time.

(d) All living or dead wildlife in Appendix I or II and plants included in Appendix I and all readily recognizable parts and derivatives thereof are subject to the regulations of this Part. All living or dead wildlife included in Appendix III and plants included in Appendix II or III, and any readily recognizable parts or derivatives thereof specified in the list of species are subject to the regulations of this part.

Species	Common name	Appendix	Date listed (month/day/year)
CLASS MAMMALIA:	MAMMALS:		
Order Monotremata:	Monotremes:		
Zaglossus spp	Spiny anteaters	II	2/4/77
Order Marsupialia:	Marsupials:		
Bettongia spp (except species listed below)	Rat kangaroos	I	6/28/79
B. penicillata	Brush-tailed rat kangaroo, Woylie	I	7/1/75
B. lesuer	Lesueur's rat kangaroo, Boodie	I	7/1/75
B. tropica	Queensland rat kangaroo, Northern rat kangaroo.	I	7/1/75
Burramys parvus	Mountain pigmy possum	II	7/1/75
Caloprymnus campestris	Desert rat kangaroo	I pe	7/1/75
Chaeropus ecaudatus	Pig-footed bandicoot	I pe	7/1/75
Dendrolagus bennettianus	Bennett's tree kangaroo, Dusky tree kangaroo.	II	6/28/79
D. inustus	Tree kangaroo	II	7/1/75
D. lumholtzi	Lumholtz's tree kangaroo	II	6/28/79
D. ursinus	Grizzled tree kangaroo	II	7/1/75
Lagorchestes hirsutus	Western hare-wallaby, Wurrup	I	7/1/75
Lagostrophus fasciatus	Banded hare-wallaby, Munning	I	7/1/75
Lasiorhinus krefftii	Queensland hairy-nosed wombat	I	7/1/75
Macrotis lagotis	Rabbit bandicoot, Bilby	I	7/1/75
M. leucura	Lesser rabbit bandicoot, Yallara	I	7/1/75
Onychogalea fronata	Bridled nail-tailed wallaby	I	7/1/75
O. lunata	Crescent nail-tailed wallaby	I	7/1/75
Perameles bougainvillei	Barred bandicoot, Long-nosed bandicoot, Marl.	I	7/1/75
Phalanger maculatus	Spotted cuscus	II	6/28/79
P. orientalis	Gray cuscus	II	6/28/79
Sminthopsis longicaudata	Long-tailed marsupial mouse, Long-tailed dunnart.	I	7/1/75
S. psammophila	Large desert marsupial mouse, Sandhill dunnart.	I	7/1/75
Thylacinus cynocephalus	Thylacine, Tasmanian wolf	I pe	7/1/75
Order Insectivora:	Insectivores:		
Erinaceus frontalis	African hedgehog	II	7/1/75
Order Chiroptera:	Bats:		
Vampyrops lineatus (all parts and derivatives)	White-lined bat	III (Uruguay)	7/14/76
Order Primates:	Primates: Monkeys, Apes, etc.:		
All species except those in app. I or with earlier date in app. II.		II	2/4/77
Allocebus spp	Hairy-eared dwarf lemur	I	7/1/75
Alouatta palliata (=*villosa*)	Mantled howler monkey	I	7/1/75
Ateles geoffroyi frontatus	Black-handed spider monkey	I	7/1/75
A. geoffroyi panamensis	Black-handed spider money	I	7/1/75
Avahi spp	Avahis, Woolly lemurs	I	7/1/75
Brachyteles arachnoides	Woolly spider monkey	I	7/1/75
Cacajao spp	Uakaris	I	7/1/75
Callimico goeldii	Goeldi's monkey, Callimico	I	7/1/75
Callithrix aurita	White-eared marmoset	I	2/4/77
C. flaviceps	Buff-headed marmoset	I	2/4/77
Cebus capucinus	White-throated capuchin	II	7/1/75
Cercocebus galeritus galeritus	Tana River mangabey, Agile mangabey	I	7/1/75
Cheirogaleus spp	Dwarf lemurs	I	7/1/75
Chiropotes albinasus	White-nosed saki	I	7/1/75
Colobus badius kirkii	Zanzibar red colobus	I	7/1/75
C. badius rufomitratus	Tana River red colobus	I	7/1/75
C. badius gordonorum	Uhehe red colobus	II	7/1/75
C. versus	Olive colobus	II	7/1/75
Daubentonia madagascariensis	Aye-aye	I	7/1/75
Hapalemur spp	Gentle lemurs	I	7/1/75
Hylobates spp	Gibbons	I	7/1/75
Gorilla gorilla	Gorilla	I	7/1/75
Indri spp	Indri	I	7/1/75
Lemur spp	Lemurs	I	7/1/75
Lepilemur sp	Sportive or weasel lemur	I	7/1/75
Leontopithecus (*Leontideus*) spp	Golden lion tamarin	I	7/1/75
Loris tardigradus	Slender loris	I	7/1/75
Macaca silenus	Lion-tailed macaque	II	7/1/75
M. sylvanus	Barbary ape	II	7/1/75
Microcebus spp	Mouse lemurs	I	7/1/75
Nasalis larvatus	Proboscis monkey	I	7/1/75
Nycticebus coucang	Slow loris	II	7/1/75
Pan paniscus	Pygmy chimpanzee, Bonobo	I	7/1/75
P. troglodytes	Chimpanzee	I	7/1/75
Phaner sp	Fork or fork-marked mouse lemur	I	7/1/75
Pongidae spp. (all species in family except those with earlier date)	Chimpanzees, Gorillas, Orangutans	I	2/4/77
Pongo pygmaeus abelli	Orangutan	I	7/1/75
P. pygmaeus pygmaeus	Orangutan	I	7/1/75
Presbytis entellus	Gray or common Indian langur	I	7/1/75

Species	Common name	Appendix	Date listed (month/day/year)
P. geei	Golden langur	I	7/1/75
P. johni	Nilgiri langur	II	7/1/75
P. pileatus	Capped langur	I	7/1/75
P. potenziana	Long-tailed langur, Mentawai leaf monkey.	I	2/4/77
Propithecus spp	Sifakas	I	7/1/75
Pygathrix nemaeus	Douc langur	I	7/1/75
Rhynopithecus roxellanae	Snub-nosed langur	II	7/1/75
Saguinus bicolor	Pied tamarin	I	2/4/77
S. leucopus	White-footed tamarin, Silvery-brown bare-face tamarin.	I	2/4/77
S. oedipus	Cotton-top tamarin	I	2/4/77
Saimiri oerstedii	Red-backed squirrel monkey	I	7/1/75
Simias concolor	Pagai Island langur	I	7/1/75
Symphalangus syndactylus	Siamang	I	7/1/75
Order Edentata:	Anteaters, Sloths, Armadillos:		
Bradypus boliviensis	Three-toed sloth	II	7/1/75
B. griseus (all parts and derivatives)	Three-toed sloth	III (Costa Rica).	10/28/76
Choloepus hoffmanni (all parts and derivatives).	Two-toed sloth	(Costa Rica)	10/28/76
Cabassous centralis (all parts and derivatives).	Five-toed armadillo	III (Costa Rica).	10/28/76
C. gymnurus (*tatouay*) (all parts and derivatives).	Naked-tailed armadillo	III (Uruguay)	7/14/76
Myrmecophaga tridactyla	Giant anteater	II	7/1/75
Priodontes giganteus (=*maximus*)	Giant armadillo	I	7/1/75
Tamandua tetradactyla chapadensis	Tamandua, Collared anteater	II	7/1/75
Order Pholidota:	Pangolins, Scaly Anteaters:		
Manis crassicaudata	Thick-tailed or Indian pangolin	II	7/1/75
M. gigantea (all parts and derivatives)	Giant pangolin	III (Ghana)	2/26/76
M. javanica	Malayan pangolin	II	7/1/75
M. longicaudata (all parts and derivatives)	Long-tailed pangolin	III (Ghana)	2/26/76
M. pentadactyla	Chinese pangolin	II	7/1/75
M. temmincki	Common African ground pangolin	I	7/1/75
M. tricuspis (all parts and derivatives)	African tree pangolin	III (Ghana)	2/26/76
Order Lagomorpha:	Rabbits, Hares:		
Caprolagus hispidus	Hispid hare, Assam rabbit	I	7/1/75
Nesolagus netscheri	Sumatra short-eared rabbit	II	7/1/75
Romerolagus diazi	Mexican volcano rabbit	I	7/1/75
Order Rodentia:	Rodents:		
Anomalurus spp., species native to Ghana, (all parts and derivatives).	Scaly-tailed flying squirrels	III (Ghana)	2/26/76
Chinchilla spp. (populations of South America, except subspecies listed below).	Chinchilla	I	2/4/77
C. brevicaudata boliviana	Chinchilla	I	7/1/75
Coendou spinosus (all parts and derivatives)	Prehensile-tailed porcupine	III (Uruguay)	7/14/76
Cynomys mexicanus	Mexican prairie dog	I	7/1/75
Dipodomys phillipsii phillipsii	Phillips kangaroo rat	II	7/1/75
Epixerus ebii (all parts and derivatives)	African palm squirrel	III (Ghana)	2/26/76
Hystrix, spp., species native to Ghana (all parts and derivatives).	Crested porcupines	III (Ghana)	2/26/76
Idiurus spp., species native to Ghana (all parts and derivatives).	Pigmy flying squirrels	III (Ghana)	2/26/76
Lariscus hosei	Four-striped or Bornean black-striped ground squirrel.	II	7/1/75
Leporillus conditor	Australian stick-nest rat	I	7/1/75
Notomys spp. (except species listed below)	Australian hopping mice	II	6/28/79
N. aquilo	Australian northern hopping mouse, Cape York hopping mouse.	II	7/1/75
Pseudomys fumeus	Smokey mouse	I	7/1/75
P. praeconis	Shark Bay mouse	I	7/1/75
P. shortridgei	Western pseudo rat, Shortridge's mouse	II	7/1/75
Ratufa spp	Giant squirrels	II	7/1/75
Sciurus deppei (all parts and derivatives)	Deppe's squirrel	III (Costa Rica).	10/28/76
Xeromys myoides	False water rat	I	7/1/75
Zyzomys pedunculatus	McDonnell Range rock rat	I	7/1/75
Order Cetacea:	Whales, Porpoises, Dolphins:		
All species except those in app. I or with earlier date in app. II.		II	6/28/79
Balaena mysticetus	Bowhead whale	I	7/1/75
Balaenoptera borealis (North pacific stock and stock in area from 0° longitude to 70° east longitude from equator to Antarctic Continent).	Sei whale	I	2/4/77
B. borealis (all stocks except those in app. I)	Sei whale	II	2/4/77
B. musculus	Blue whale	I	7/1/75
B. physalus (all stocks except those in app. II).	Fin whale	I	2/4/77
B. physalus (Stocks in North Atlantic off Iceland and Newfoundland, stock in area from 60° to 120° west longitude from 40° south latitude to Antarctic Continent).	Fin whale	II	2/4/77
Eubalaena spp.	Right whale	I	7/1/75
Eschrichtius robustus (*glaucus*)	Gray whale	I	7/1/75
Lipotes vexillifer	White flag dolphin, Chinese river dolphin	I	6/28/79
Megaptera novaeangliae	Humpback whale	I	7/1/75
Monodon monoceros	Narwhal	II	11/16/75
Neophocaena phocaenoides	Finless porpoise	I	6/28/79
Phocoena sinus	Gulf of California harbor porpoise, Cochito.	I	6/28/79
Platanista gangetica	Ganges River Dolphin	I	7/1/75

Species	Common name	Appendix	Date listed (month/day/year)
P. minor	Indus River dolphin	I	6/28/79
Pontoporia (Stenodelphis) blainvillei	LaPlata River dolphin	II	7/14/76
Sotalia spp.	Humpbacked dolphins	I	6/28/79
Sousa spp.	Humpbacked dolphins	I	6/28/79
Order Carnivora:	Carnivores: Cats, Bears, etc.:		
Acinonyx jubatus	Cheetah	I	7/1/75
Ailurus fulgens	Lesser panda	II	7/1/75
Aonyx microdon	West African "clawless" otter	I	7/1/75
Bassaricyon gabbii (all parts and derivatives)	Bushy-tailed olingo	III (Costa Rica).	10/28/76
B. sumichrasti (all parts and derivatives)	Cacomistle	III (Costa Rica).	10/28/76
Canis lupus (all subspecies and populations except those listed below).	Gray wolf	II	2/4/77
C. lupus (India, Pakistan, Bhutan and Nepal populations).	Gray wolf	I	2/4/77
C. lupus crassodon	Gray wolf	II	7/1/75
C. lupus irremotus	Gray wolf	II	7/1/75
C. lupus monstrabilis	Gray wolf	II	7/1/75
C. lupus pallipes	Gray wolf	II	7/1/75
Chrysocyon brachyurus	Maned wolf	II	7/1/75
Conepatus humboldti	Humboldt's hognose skunk	II	6/28/79
Cryptoprocta ferox	Fossa	II	2/4/77
Cuon alpinus	Dhole	II	7/1/75
Cynogale bennetti	Otter civet	II	7/1/75
Dusicyon culpaeus	Culepo fox	II	6/28/79
D. fulvipes	Chiloe fox	II	6/28/79
D. griseus	Chico gray fox Argentine gray fox	II	6/28/79
Enhydra lutris nereis	Southern sea otter	I	7/1/75
Eupleres goudoti	Malagasy mongoose	II	2/4/77
E. major	Malagasy mongoose	II	2/4/77
Felidae spp. (all species in Family except those in app. I or *Felis catus*).	Cats (not including house cats)	II	2/4/77
Felis bengalensis bengalensis	Leopard cat	I	7/1/75
F. caracal (Asian population)	Caracal	I	2/4/77
F. concolor coryi	Florida puma	I	7/1/75
F. concolor costaricensis	Costa Rican puma	I	7/1/75
F. concolor couguar	Eastern puma, Adirondack cougar	I	7/1/75
F. jacobita	Andean cat	I	7/1/75
F. (Lynx) rufa escuinapae	Mexican bobcat	I	7/1/75
F. marmorata	Marbled cat	I	7/1/75
F. nigripes	Black-footed cat	I	7/1/75
F. pardalis mearnsi	Ocelot	I	7/1/75
F. pardalis mitis	Brazilian ocelot	I	7/1/75
F. planiceps	Flat-headed cat	I	7/1/75
F. rubiginosa (Indian population)	Rusty spotted cat	I	2/4/77
F. temminicki	Asian golden cat	I	7/1/75
F. tigrina oncilla	Tiger cat	I	7/1/75
F. wiedii nicaraguae	Central American margay	I	7/1/75
F. wiedii salvinia	Guatemalan margay	I	7/1/75
F. yagouaroundi cacomitli	Gulf Coast jaguarundi	I	7/1/75
F. yagouaroundi fossata	Guatemalan jaguarundi	I	7/1/75
F. yagouaroundi panamensis	Panamanian jaguarundi	I	7/1/75
F. yagouaroundi tolteca	Sinaloan jaguarundi	I	7/1/75
Fennecus zerda (all parts and derivatives)	Fennec fox	III (Tunisia)	4/22/76
Fossa fossa	Fanaloka	II	2/4/77
Galictis allamandi (all parts and derivatives)	Grison	III (Costa Rica).	10/28/76
Hemigalus derbyanus	Banded palm civet	II	2/4/77
Helarctos malayanus	Sun bear	I	7/1/75
Hyaena brunnea	Brown hyaena	I	7/1/75
Lutrinae spp. (all species in subfamily except those in app. I) .	Otters	II	2/4/77
Lutra felina	Marine otter	I	7/1/75
L. longicaudis	Long-tailed or neotropical otter	I	7/1/75
L. lutra	European otters	I	2/4/77
L. provocax	Southern river otter of South America	I	7/1/75
Mellivora capensis (all parts and derivatives)	Honey badger, Ratel	III (Ghana and Botswana).	2/26/76
Mustela nigripes	Black-footed ferret	I	7/1/75
Nasua nasua solitaria (all parts and derivatives).	Coatimundi	III (Uruguary)	7/14/76
Neofelis nebulosa	Clouded leopard	I	7/1/75
Panthera leo persica	Indian lion	I	7/1/75
P. onca	Jaguar	I	7/1/75
P. pardus	Leopard	I	7/1/75
P. tigris (all subspecies except *P. tigris altaica*).	Tiger	I	7/1/75
P. uncia	Snow leopard	I	7/1/75
Prionodon linsang	Banded linsang	II	7/1/75
P. pardicolor	Spotted linsang	I	7/1/75
Proteles cristatus (all parts and derivatives)	Aardwolf	III (Botswana)	4/24/78
Pteronura brasiliensis	Giant otter	I	7/1/75
Selenarctos thibetanus (except subspecies listed below).	Asiatic black bear	I	6/28/79
S. thibetanus gedrosianus	Baluchistan black bear	I	2/4/77
Speothos venaticus	Bush dog	I	2/4/77
Tremarctos ornatus	Spectacled bear	I	2/4/77
Ursus arctos (all North American subspecies except that listed below).	Brown bear, Grizzly	II	7/1/75
U. arctos (Italian population)	European Brown bear	I	7/1/75
U. arctos nelsoni	Mexican grizzly bear	I	7/1/75

Species	Common name	Appendix	Date listed (month/day/year)
U. arctos pruinosus	Tibetan blue bear	I	7/1/75
U. arctos isabellinus	Red bear	I	6/28/79
U. (Thalarctos) maritimus	Polar bear	II	7/1/75
Viverra civetta (all parts and derivatives)	African civet	III (Botswana)	4/24/78
Vulpes cana	Blanford's fox	II	2/4/77
V. velox/hebes	Swift fox	I	7/1/75
Order Pinnipedia:			
Arctocephalus spp. (except species listed below).	Southern fur seals	II	2/4/77
A. australis	Southern fur seal	II	7/1/75
A. galapagoensis	Galapagos fur seal	II	7/1/75
A. philippii	Juan Fernandez fur seal	II	7/1/75
A. townsendi	Guadalupe fur seal	I	7/1/75
Mirounga angustirostris	Northern elephant seal	II	7/1/75
M. leonina	Southern elephant seal	II	7/1/75
Monachus spp.	Monk seals	I	7/1/75
Odobenus rosmarus (all parts and derivatives).	Walrus	III (Canada)	11/16/75
Order Tubulidentata:			
Orycteropus afer	Aardvarks: Aardvark	II	7/1/75
Order Proboscidea:			
Elephas maximus	Elephants: Asian elephant	I	7/1/75
Loxodonta africana	African elephant	II	2/4/77
Order Sirenia:			
Dugong dugon (except for Australian population).	Dugongs, Manatees: Dugong	I	7/1/75
D. dugon (Australian population)	Dugong	II	7/1/75
Trichechus inunguis	South American or Amazonian manatee	I	7/1/75
T. manatus	West Indian manatee	I	7/1/75
T. senegalensis	West African manatee	II	7/1/75
Order Perissodactyla:			
Equus grevyi	Odd-toed ungulates: Grevy's zebra	I	6/28/79
E. hemionus (except subspecies listed below)	Asian wild ass	II	7/1/75
E. hemionus hemionus	Asian wild ass	I	7/1/75
E. hemionus khur	Asian wild ass	I	7/1/75
E. przewalskii	Przewalski's horse	I	7/1/75
E. zebra hartmannae	Hartmann's mountain zebra	II	6/28/79
E. zebra zebra	Cape mountain zebra	I	7/1/75
Tapirus bairdii	Central American tapir	I	7/1/75
T. indicus	Asian tapir	I	7/1/75
T. pinchaque	Mountain tapir	I	7/1/75
T. terrestris	South American tapir	II	7/1/75
Rhinocerotidae spp. (all species in the family except those with earlier date on app. I).	Rhinoceroses	I	2/4/77
Ceratotherium simum cottoni	Northern white rhinoceros	I	7/1/75
Diceros bicornis	Black rhinoceros	I	7/1/75
Didermocerus (=Dicerorhinus) sumatrensis	Sumatran rhinoceros	I	7/1/75
Rhinoceros sondaicus	Javan rhinoceros	I	7/1/75
R. unicornis	Great Indian one-horned rhinoceros	I	7/1/75
Order Artiodactyla:			
Addax nasomaculatus	Even-toed Ungulates: Addax	II	7/1/75
Ammotragus lervia (all parts and derivatives)	Barbary sheep, Aoudad	III	4/22/76
Antilocapra americana mexicana	Mexican pronghorn	II	7/1/75
A. americana peninsularis	Baja pronghorn	I	7/1/75
A. americana sonoriensis	Sonoran pronghorn	I	7/1/75
Antilope cervicapra (all parts and derivatives).	Blackbuck antelope	III (Nepal)	11/16/75
Axis (=Cervus or Hyelaphus) calamianensis	Calamianes deer	I	7/1/75
A. kuhli	Kuhl's deer, Bawean hog deer	I	7/1/75
A. porcinus annamiticus	Indochina hog deer	I	7/1/75
Babyrousa babyrussa	Babirusa	I	7/1/75
Blastocerus dichotomus	Marsh deer	I	7/1/75
Bison bison athabascae	Woods bison	I	7/1/75
Boocercus (Taurotragus) euryceros (all parts and derivatives).	Bongo antelope	III (Ghana)	2/26/76
Bos gaurus	Seladang, Gaur	I	7/1/75
B. (grunniens) mutus	Wild yak	I	7/1/75
Bubalus bubalis (all parts and derivatives)	Water buffalo	III (Nepal)	11/16/75
B. (Anoa) depressicornis	Lowland anoa	I	7/1/75
B. (Anoa) mindorensis	Tamaraw	I	7/1/75
B. (Anoa) quarlesi	Mountain anoa	I	7/1/75
Capra falconeri (except subspecies listed below).	Markhor	II	7/1/75
C. falconeri chialtanensis	Chialtan markhor	I	7/1/75
C. falconeri jerdoni	Straight-horned markhor	I	7/1/75
C. falconeri megaceros	Kabal or straight-horned markhor	I	7/1/75
Capricornis sumatraensis	Sumatran serow	I	7/1/75
Cephalophus monticola	Blue duiker	II	7/1/75
Cervus duvaucelli	Swamp deer	I	7/1/75
C. elaphus bactrianus	Bactrian deer	II	7/1/75
C. elaphus barbarus (all parts and derivatives).	Barbary deer	III (Tunisia)	4/22/76
C. elaphus hanglu	Kashmir stag	I	7/1/75
C. eldi	Eld's brow-antlered deer	I	7/1/75
Choeropsis liberiensis	Pygmy hippopotamus	II	7/1/75
Dama mesopotamica	Persian fallow deer	I	2/4/77
Damaliscus dorcas dorcas	Bontebok	I	7/1/75
D. lunatus (all parts and derivatives)	Sassaby antelope, Korrigum	III (Ghana)	2/26/76
Gazella dorcas (all parts and derivatives)	Dorcas gazelle	III (Tunisia)	4/22/76
G. gazella cuvieri (all parts and derivatives)	Mountain gazelle	III (Tunisia)	4/22/76
G. leptoceros (all parts and derivatives)	Slender-horned gazelle	III (Tunisia)	4/22/76
Hippocamelus antisensis	North Andean huemal	I	7/1/75
H. bisulcus	South Andean huemal	I	7/1/75
Hippopotamus amphibius (all parts and derivatives).	Hippopotamus	III (Ghana)	2/26/76

Species	Common name	Appendix	Date listed (month/day/year)
Hippotragus equinus (all parts and derivatives).	Roan antelope	III (Ghana)	2/26/76
H. niger variani	Giant sable antelope	I	7/1/75
Hyemoschus aquaticus (all parts and derivatives).	Water chevrotain	III (Ghana)	2/26/76
Kobus leche	Lechwe	II	7/1/75
Lama guanicoe	Guanaco	II	8/12/78
Moschus moschiferus (Himalayan population)	Musk deer	I	7/1/75
Moschus spp.* (all except population on app. I).	Musk deer	II	2/16/79
Nemorhaedus goral	Goral	I	7/1/75
Novibos (=Bos) sauveli	Kouprey	I	7/1/75
Oryx dammah	scimitar-horned oryx	II	7/1/75
O. leucoryx	Arabian Oryx	I	7/1/75
Ovis ammon (except subspecies listed below)	Argali	II	7/1/75
O. ammon hodgsoni	Tibetan argali	I	7/1/75
O. canadensis	Bighorn sheep	II	7/1/75
O. orientalis ophion	Cyprian red sheep	I	7/1/75
O. vignei	Shapo, Urial	I	7/1/75
Ozotoceros bezoarticus	Pampas deer	I	7/1/75
Pantholops hodgsoni	Tibetan antelope	I	7/1/75
Pudu mephistophiles	Pudu	II	7/1/75
P. pudu	Pudu	I	7/1/75
Rupicapra rupicapra ornata	Apennian chamois	I	7/1/75
Sus salvanius	pygmy hog	I	7/1/75
Tetracerus quadricornis (all parts and derivatives).	Four-horned antelope	III (Nepal)	11/16/75
Tragelaphus spekei (all parts and derivatives)	Sitatunga antelope	III (Ghana)	2/26/76
Vicugna vicugna	Vicuna	I	7/1/75
CLASS AVES:	BIRDS:		
Order Sphenisciformes:	Penguins:		
Spheniscus demersus	Jackass penguin, Blackfooted Cape penguin.	II	7/1/75
Order Rheiformes:	Rheas:		
Pterocnemia pennata (except subspecies listed below).	Lesser rhea	I	6/2879
P. pennata garleppi	Lesser rhea	I	7/1/75
P. pennata pennata	Darwin's rhea	I	7/1/75
Rhea americana (except subspecies listed below; all parts and derivatives).	Greater or common rhea	III (Uruguay)	7/14/76
R. americana albescens	Greater rhea	II	7/1/75
Order Tinamiformes:	Tinamous:		
Rhynchotus rufescens maculicollis	Red-winged tinamou	II	7/1/75
R. rufescens pallescens	Southern red-winged tinamou	II	7/1/75
R. rufescens rufescens	Western red-winged tinamou	II	7/1/75
Tinamus solitarius	Solitary tinamou	I	7/1/75
Order Podicipediformes:	Grebes:		
Podilymbus gigas	Atitlan grebe	I	7/1/75
Order Procellariiformes:	Albatrosses, Shearwaters, Petrels:		
Diomedea albatrus	Short-tailed albatross	I	7/1/75
	Tropicbirds, Pelicans, Frigatebirds:		
Fregata andrewsi	Andrews frigate bird	I	7/1/75
Pelecanus crispus	Dalmatian pelican	II	7/1/75
Sula abbotti	Abbott's booby	I	7/1/75
Order Ciconiiformes:	Herons, Storks, Ibises, Flamingos:		
Ardea goliath (all parts and derivatives)	Goliath heron	III (Ghana)	2/26/76
Bubulcus (=Ardeola) ibis (all parts and derivatives).	Cattle egret	III (Ghana)	2/26/76
Casmerodius albus (all parts and derivatives)	Great white egret	III (Ghana)	2/26/76
Ciconia ciconia boyciana	Oriental white stork	I	7/1/75
C. nigra	Black stork	II	7/1/75
Egretta garzetta (all parts and derivatives)	Little egret	III (Ghana)	2/26/76
Ephippiorhynchus senegalensis (all parts and derivatives).	Saddlebill stork	III (Ghana)	2/26/76
Geronticus calvus	Southern bald ibis	II	7/1/75
G. eremita	Hermit ibis	I	6/28/79
Hagedashia hagedash (all parts and derivatives).	Hadada ibis	III (Ghana)	2/26/76
Lampribis rara (all parts and derivatives)	Spotted-breasted ibis	III (Ghana)	2/26/76
Leptoptilos crumeniferus (all parts and derivatives).	Marabou stork	III (Ghana)	2/26/76
Nipponia nippon	Japanese crested ibis	I	7/1/75
Phoenicoparrus andinus	Andean flamingo	II	7/1/75
P. jamesi	James flamingo	II	7/1/75
Phoenicopterus ruber chilensis	Chilean flamingo	II	7/1/75
P. ruber ruber	American flamingo	II	6/28/79
Platalea leucorodia	White spoonbill	II	7/1/75
Threskiornis aethiopicus (all parts and derivatives).	Sacred ibis	III (Ghana)	2/26/76
Order Anseriformes:	Ducks, Geese, Swans, Screamers:		
Anatidae, all species in family native to Ghana (all parts and derivatives).		III	2/26/76
Anas aucklandica aucklandica	Auckland Island flightless teal	II	7/1/75
A. aucklandica chlorotis	New Zealand brown teal	II	7/1/75
A. aucklandica nesiotis	Campbell Island flightless teal	I	7/1/75
A. bernieri	Madagascar teal	II	7/1/75
A. laysanensis	Laysan duck	I	7/1/75
A. oustaleti	Marianas mallard	I	7/1/75
Anser albifrons gambelli	Tule goose	II	7/1/75
Branta canadensis leucopareia	Aleutian goose	I	7/1/75
B. ruficollis	Red-breasted goose	II	7/1/75
B. sandvicensis	Hawaiian goose, Nene	I	7/1/75
Cairina scutulata	White-winged duck	I	7/1/75

Species	Common name	Appendix	Date listed (month/day/year)
Coscoroba coscoroba	Coscoroba	II	7/1/75
Cygnus bewickii jankowski	Jankowski's swan	II	7/1/75
C. melanocoryphus	Black-necked swan	II	7/1/75
Dendrocygna arborea	Cuban tree duck, West Indian whistling duck.	II	7/1/75
Rhodonessa caryophyllacea	Pink-headed duck	I	7/1/75
Sarkidiornis melanotos	Comb duck	II	7/1/75
Order Falconiformes:	Hawks, Falcons, Vultures, Eagles:		
All species except Cathartidae and those species in app. I or with earlier date in app. II.	All species except New world vultures and species in app. I.	II	6/28/79
Accipiter gentilis	Northern goshawk	II	2/4/77
A. gundlachii	Gundlach's hawk	II	2/4/77
A. nisus	European sparrow hawk	II	2/4/77
Accipitridae spp. (all South American populations).	Hawks, Harriers	II	10/28/76
Aegypius monachus	European black vulture, Cinereous vulture.	II	2/4/77
Aquila spp., all species except that in app. I or with earlier date in app. II.	Eagles	II	2/4/77
A. chrysaetos	Golden eagle	II	7/1/75
A. heliaca	Imperial eagle	I	2/4/77
Chondrohierax wilsonii	Cuban hook-billed kite	I	2/4/77
Circaetus spp	Snake eagles	II	2/4/77
Circus spp	Harriers	II	2/4/77
Falconidae, all species in family except those in app. I.	Falcons, Caracaras	II	7/1/75
Falco araea	Seychelles kestrel	I	7/1/75
F. newtoni aldabranus	Aldabra kestrel	I	7/1/75
F. peregrinus	Peregrine falcon	I	7/1/75
F. punctatus	Mauritius kestrel	I	7/1/75
F. rusticolus	Gyrfalcon	I	7/1/75
Gymnogyps californianus	California condor	I	7/1/75
Gypaetus barbatus	Lammergeier	II	2/4/77
Gyps fulvus	Griffon vulture	II	2/4/77
Haliaeetus spp. (except species in app. I)	Sea and fish eagles	II	2/4/77
H. albicilla (except subspecies listed below)	White-tailed eagle	I	2/4/77
H. albicilla greenlandicus	Greenland white-tailed sea eagle	I	7/1/75
H. leucocephalus (except population listed below).	Bald eagle	I	2/4/77
H. leucocephalus leucocephalus	Southern bald eagle (Subspecies no longer recognized as valid).	I	7/1/75
Harpia harpyja	Harpy eagle	I	7/1/75
Harpyopsis novaeguineae	New Guinea harpy eagle	II	2/4/77
Milvus milvus	Red kite	II	2/4/77
Pandion haliaetus	Osprey	II	2/4/77
Pithecophaga jefferyi	Monkey-eating eagle	I	7/1/75
Sagittarius serpentarius	Secretary bird	II	2/26/76
Vultur gryphus	Andean condor	I	7/1/75
Order Galliformes:	Pheasants, Curassows, Megapodes, Hoatzins:		
Agelastes meleagrides (all parts and derivatives).	White-breasted guineafowl	III	2/26/76
Argusianus argus	Great argus pheasant	II	7/1/75
Catreus wallichii	Cheer pheasant	I	7/1/75
Colinus virginianus ridgwayi	Masked bobwhite	I	7/1/75
Crax blumenbachii	Red-billed curassow	I	7/1/75
C. rubra (all parts & derivatives)	Great curassow	III (Costa Rica).	10/28/76
Crossoptilon crossoptilon	White eared pheasant	I	7/1/75
C. mantchuricum	Browneared pheasant	I	7/1/75
Cyrtonyx montezumae mearnsi (Mexico population).	Mearn's harlequin quail	II	7/1/75
C. montezumae	Harlequin quail	II	7/1/75
Francolinus ochropectus	Tadjoura francolin	II	7/1/75
F. swierstrai	Sweirstra's francolin	II	7/1/75
Gallus sonneratii	Gray jungle fowl	II	7/1/75
Ithaginus cruentus	Blood pheasant	II	7/1/75
Lophophorus impeyanus	Himalayan monal	I	7/1/75
L. lhuysii	Chinese monal	I	7/1/75
L. sclateri	Sclater's monal	I	7/1/75
Lophura edwardsi	Edward's pheasant	I	7/1/75
L. imperialis	Imperial pheasant	I	7/1/75
L. swinhoii	Swinhoe's pheasant	I	7/1/75
Lyrurus mlokosiewiczi	Caucasian black grouse	II	2/4/77
Macrocephalon maleo	Maleo	I	7/1/75
Megapodius freycinet abbotti	Abbott's megapode or incubator bird	II	7/1/75
M. freycinet nicobariensis	Nicobar megapode	II	7/1/75
Mitu (=Crax) mitu mitu	Mitu, Razor-billed curassow	I	7/1/75
Oreophasis derbianus	Horned guan	I	7/1/75
Pavo muticus	Green peafowl	II	2/4/77
Pipile (=Aburria) jacutinga	Black-fronted piping-guan	I	7/1/75
P. (=Abburia) pipile pipile	Trinidad white-headed curassow	I	7/1/75
Polyplectron bicalcaratum	Gray peacock pheasant	II	7/1/75
P. emphanum	Palawan peacock pheasant	I	7/1/75
P. germaini	Germain's peacock pheasant	II	7/1/75
P. malacense	Malaysian peacock pheasant	II	7/1/75
Syrmaticus ellioti	Elliot's pheasant	I	7/1/75
S. humiae	Bar-tailed pheasant	I	7/1/75
S. mikado	Mikado pheasant	I	7/1/75
Tetraogallus caspius	Caspian snowcock	I	7/1/75
T. tibetanus	Tibetan snowcock	I	7/1/75
Tragopan blythii	Blyth's tragopan	I	7/1/75

Species	Common name	Appendix	Date listed (month/day/year)
T. caboti	Cabot's tragopan	I	7/1/75
T. melanocephalus	Western tragopan	I	7/1/75
T. satyra (*all parts and derivatives*)	Satyr tragopan	III (Nepal)	11/16/75
Tympanuchus cupido attwateri	Attwater's greater prairie chicken	I	7/1/75
Order Gruiformes:	Cranes, Rails, Bustards:		
Balearica regulorum	Crowned crane	II	7/1/75
Chlamydotis undulata	Houbara bustard	I	7/1/75
Choriotis nigriceps	Great Indian bustard	I	7/1/75
Eupodotis bengalensis	Bengal floricon	I	7/1/75
Gallirallus australis hectori	Eastern weka rail	II	7/1/75
Grus americana	Whooping Crane	I	7/1/75
G. canadensis nesiotes	Cuba sandhill crane	I	7/1/75
G. canadensis pratensis	Florida sandhill crane	II	7/1/75
G. canadensis pulla	Mississippi sandhill crane	I	7/1/75
G. japonesis	Manchurian crane	I	7/1/75
G. leucogeranus	Siberian white crane	I	7/1/75
G. monacha	Hooded crane	I	7/1/75
G. nigricollis	Black necked crane	I	7/1/75
G. vipio	White-naped crane	I	7/1/75
Otis tarda	Great bustard	II	7/1/75
Pedionomus torquatus	Collared hemipode	II	6/28/79
Rhynochetos jubatus	Kagu	I	7/1/75
Tricholimnas sylvestris	Lord Howe wood rail	I	7/1/75
Turnix melanogaster	Black-breasted button quail	II	6/28/79
Order Charadriiformes:	Shorebirds, Gulls, Auks:		
Larus brunnicephalus	Brown-headed gull	II	7/1/75
L. relictus	Relict gull	I	7/1/75
Numenius borealis	Eskimo curlew	I	7/1/75
N. minutus	Little whimbrel	II	7/1/75
N. tenuirostris	Slender-billed curlew	II	7/1/75
Tringa guttifer	Nordmann's greenshank	I	7/1/75
Order Columbiformes:	Pigeons, Doves, Sand-grouse:		
Caloenas nicobarica	Nicobar pigeon	I	6/28/79
C. nicobarica pelewensis	Nicobar pigeon	I	7/1/75
Columbidae; all species in family native to Ghana (all parts and derivatives).	Pigeons	III (Ghana)	2/26/76
Ducula mindorensis	Mindoro imperial pigeon	I	7/1/75
Gallicolumba luzonica	Bleeding heart pigeon	II	7/1/75
Goura cristata	Common crowned pigeon	II	7/1/75
G. scheepmakeri	Maroon-breasted crowned pigeon	II	7/1/75
G. victoria	Victoria crowned pigeon	II	7/1/75
Nesoenas (=*Columba*) *mayeri* (all parts and derivatives).	Pink pigeon	III (Mauritius)	12/4/75
Order Psittaciformes:	Parrots, Parakeets, Macaws, Lories:		
Amazona guildingii	St. Vincent parrot	I	7/1/75
A. imperialis	Imperial parrot	I	7/1/75
A. leucocephala	Cuban parrot	I	7/1/75
A. pretrei pretrei	Red-spectacled parrot	I	7/1/75
A. rhodocorytha	Red-browed parrot	I	7/1/75
A. versicolor	St. Lucia parrot	I	7/1/75
A. vinacea	Vinaceous parrot	I	7/1/75
A. vittata	Puerto Rican parrot	I	7/1/75
Anodorhynchus glaucus	Glaucous macaw	I	7/1/75
A. leari	Indigo macaw	I	7/1/75
Ara ambigua (all parts and derivatives)	Great green macaw	III (Costa Rica).	10/28/76
A. macao (all parts and derivatives)	Scarlet macaw	III (Costa Rica).	10/28/76
Aratinga guarouba	Golden conure	I	7/1/75
Cacatua (*Kakatoe*) *tenuirostris*	Slender-billed cockatoo	II	2/4/77
Calyptorhynchus lathami	Glossy cockatoo	II	2/4/77
Coracopsis nigra barklyi	Seychelles vasa parrot	II	7/1/75
Cyanoliseus patagonus byroni	Patagonian conure	II	6/28/79
Cyanopsitta spixii	Red-capped parrot	I	7/1/75
Cyanoramphus auriceps forbesi	Forbe's or yellow-fronted parakeet	I	7/1/75
C. malherbi	Orange-fronted parakeet	II	7/1/75
C. novaezelandiae	New Zealand or red-fronted parakeet	I	7/1/75
C. unicolor	Antipodes green parakeet	II	7/1/75
Eunymphicus cornutus	Horned parakeet	II	7/1/75
Geopsittacus occidentalis	Australian night parrot	I pe	7/1/75
Neophema chrysogaster	Orange-bellied parakeet	I	7/1/75
N. splendida	Scarlet-chested parakeet	II	7/1/75
Opopsitta diophthalma coxeni	Double-eyed fig parrot	II	2/4/77
Pezoporus wallicus	Ground parrot	I	2/4/77
Pionopsitta pileata	Red-capped or pileated parrot	I	7/1/75
Poicephalus robustus	Cape parrot	II	7/1/75
Polytelis alexandrae	Princess parrot	II	2/4/77
Probosciger aterrimus	Great black cockatoo	II	7/1/75
Prosopoeia personata	Masked or yellow-breasted musk parrot	II	7/1/75
Psephotus chrysopterygius	Golden-shouldered parakeet	I	7/1/75
P. pulchemimus	Paradise parakeet	I pe	7/1/75
P. (*Northiella*) *haematogaster narethae*	Blue-bonnet parakeet	II	2/4/77
Psittacidae, all species in family native to Ghana (all parts and derivatives).	Parrots	III (Ghana)	2/26/76
Psittacula krameri echo	Mauritius ring-necked parakeet	I	7/1/75
Psittacus erithacus princeps	Principe parrot	I	7/1/75
Pyrrhura cruentata	Blue-throated or ochre-marked parakeet	I	7/1/75
Rhynchopsitta pachyrhyncha	Thick-billed parrot	I	7/1/75
Strigops habroptilus	Kakapo or owl parrot	I	7/1/75
Tanygnathus lucionensis	Blue-naped parrot	II	2/4/77
Order Cuculiformes:	Cuckoos, Plantain-eaters:		
Gallirex (=*Tauraco*) *porphyreolophus*	Violet-crested turaco	II	7/1/75
Musophagidae, all species in family native to	Turacos	III (Ghana)	2/26/76

Species	Common name	Appendix	Date listed (month/day/year)
Ghana except species in app. II (all parts and derivatives).			
Tauraco corythaix	Knysna loury	II	2/4/77
Order Strigiformes:	Owls:		
All species except those in app. I or with earlier date in app. II.		II	6/28/79
Athene blewitti	Forest little owl, Forest spotted owlet	I	6/28/79
Bubo bubo	Eurasian eagle owl	II	2/4/77
Ninox novaeseelandiae royana	Great hawk owl	I	2/4/77
N. squamipila natalis	Moluccan hawk owl	I	2/4/77
Nyctea scandiaca	Snowy owl	II	2/4/77
Otus gurneyi	Giant scops owl	I	7/1/75
O. nudipes newtoni	Virgin Island screech owl	II	7/1/75
Strigidae, all species in family native to Ghana.	Owls	II	2/26/76
Strix butleri	Hume's wood owl	II	2/4/77
S. nebulosa	Great gray owl	II	11/16/75
Tyto soumagnei	Madagascar owl	I	2/4/77
Tytonidae, all species in family native to Ghana.	Owls	II	2/26/76
Order Apodiformes:	Swifts, Hummingbirds:		
Ramphodon (=Glaucis) dohrnii	Hook-billed hermit	I	7/1/75
Order Trogoniformes:	Trogons:		
Pharomachrus mocinno costaricensis	Central resplendent quetzal	I	7/1/75
P. mocinno mocinno	Northern resplendent quetzal	I	7/1/75
Order Coraciiformes:	Hornbills, Kingfishers, Rollers, Bee-eaters, Motmots:		
Aceros narcondami	Narcondam hornbill	II	7/1/75
Buceros bicornis	Great hornbill	II	7/1/75
B. bicornis homrai	Great Indian hornbill, Great pied hornbill	I	7/1/75
B. hydrocorax hydrocorax	Luzon-Marinduque rufous hornbill	II	7/1/75
B. rhinoceros rhinoceros	Malay rhinoceros hornbill	II	7/1/75
Rhinoplax vigil	Helmeted hornbill	I	7/1/75
Order Piciformes:	Woodpeckers, Toucans, Jacamars, Barbets:		
Campephilus imperialis	Imperial woodpecker	I	7/1/75
Dryocopus javensis richardsi	Tristam's white-bellied woodpecker	I	7/1/75
Picus squamatus flavirostris	Green scaly-bellied woodpecker	II	7/1/75
Order Passeriformes:	Perching birds:		
Atrichornis clamosa	Noisy scrub-bird	I	7/1/75
Bebrornis rodericanus (all parts and derivatives).	Rodriquez Island warbler	III (Mauritius)	12/4/75
Cotinga maculata	Banded cotinga	I	7/1/75
Dasyornis brachypterus longirostris	Western bristlebird	I	7/1/75
D. broadbenti littoralis	Western rufous bristlebird	I pe	7/1/75
Emblema oculata	Red-eared firetail	II	6/28/79
Fringillidae, all species in family native to Ghana (all parts and derivatives).	Finches	III (Ghana)	2/26/76
Gubernatrix cristata (all parts and derivatives)	Yellow cardinal	III (Uruguay)	7/14/76
Leucopsar rothschildi	Rothschild's starling or myna	I	7/1/75
Meliphaga cassidix	Helmeted honey easter	I	7/1/75
Muscicapa (=Niltava) ruecki	Rueck's blue fly-catcher or niltava	II	7/1/75
Paradiseidae, all species in family	Birds of paradise	II	7/1/75
Picathartes gymnocephalus	Bare-headed or yellow-headed rock fowl	I	7/1/75
P. oreas	Gray-necked or red-headed rock fowl	I	7/1/75
Pitta brachyura nympha	Fairy pitta, Blue-winged pitta	II	7/1/75
P. kochi	Koch's pitta	I	7/1/75
Ploceidae, all species in family native to Ghana (all parts and derivatives).	Weaverbirds, weaver finches	III (Ghana)	2/26/76
Pseudochelidon sirintarae	White-eyed river martin	II	7/1/75
Psophodes nigrogularis	Western whipbird	II	7/1/75
Rupicola peruviana	Andean cock-of-the-rock	II	7/1/75
R. rupicola	Guianan cock-of-the-rock	II	7/1/75
Spinus cucullatus	Red siskin	I	7/1/75
S. yarrellii	Yellow-faced siskin	II	7/1/75
Tchitrea (Terpsiphone) bourbonnensis (all parts and derivatives).	Coq de Bois, Mascarene paradise fly-catcher.	III (Mauritius)	12/4/75
Xanthopsar flavus (all parts and derivatives)	Saffron-cowled blackbird	III (Uruguay)	7/14/76
Xipholena atropurpurea	White-winged cotinga	I	7/1/75
Zosterops albogularis	White-breasted or Norfolk Island silver-eye.	I	7/1/75
CLASS REPTILIA:	REPTILES:		
Order Crocodylia:	Crocodiles, Alligators, Caimans, Gavials:		
Alligatoridae, all species in family except those in app. I or with earlier date in app. II.	Alligators, caimans	II	2/4/77
Alligator mississippiensis	American alligator	II	7/1/75
A. sinensis	Chinese alligator	I	7/1/75
Caiman crocodilus apaporiensis	Apaporis River caiman	I	7/1/75
C. crocodilus crocodilus	Common caiman	II	7/1/75
C. crocodilus yacare (=C. yacare)	Yacare	II	7/1/75
C. crocodilus fuscus (Including *C. crocodilus chiapasius*).	Brown caiman	II	7/1/75
C. latirostris	Broad-snouted caiman	I	7/1/75
Crocodylidae, all species in family except those in app. I or with earlier date in app. II.	Crocodiles	II	2/4/77
Crocodylus acutus, except population of United States.	American crocodile	II	7/1/75
C. acutus, United States population	American crocodile	I	7/1/75
C. cataphractus	African slender-snouted crocodile	I	7/1/75
C. intermedius	Orinoco crocodile	I	7/1/75
C. johnsoni	Johnson's crocodile	II	7/1/75
C. moreletii	Morelet's crocodile	I	7/1/75
C. niloticus	Nile crocodile	I	7/1/75
C. novaeguineae (except subspecies listed below).	New Guinea or freshwater crocodile	II	7/1/75

Species	Common name	Appendix	Date listed (month/day/year)
C. novaeguineae mindorensis	Philippine crocodile	I	7/1/75
C. palustris kimbula	Ceylon mugger crocodile	I	7/1/75
C. palustris palustris	Mugger crocodile	I	7/1/75
C. porosus, except population of Papua New Guinea.	Saltwater crocodile	I	7/1/75
C. porosus, Papua New Guinea population	Saltwater crocodile	II	7/1/75
C. rhombifer	Cuban crocodile	I	7/1/75
C. siamensis	Siamese crocodile	I	7/1/75
Gavialis gangeticus	Gavial, gharial	I	7/1/75
Melanosuchus niger	Black caiman	I	7/1/75
Osteolaemus tetraspis (except subspecies listed below).	Dwarf crocodile	I	2/4/77
O. tetraspis osborni	Dwarf crocodile	I	7/1/75
O. tetraspis tetraspis	Dwarf crocodile	I	7/1/75
Paleosuchus trigonatus	Smooth-fronted caiman	II	7/1/75
Tomistoma schlegelii	Tomistoma, False gavial	I	7/1/75
Order Testudinata:	Turtles, Tortoises:		
Batagur baska	River terrapin, Tuntong	I	7/1/75
Caretta caretta	Loggerhead sea turtle	I	7/1/75
Chelonia depressa	Flat-back sea turtle	II	7/1/75
C. mydas, except Australian population	Green sea turtle	I	7/1/75
C. mydas, Australian population	Green sea turtle	II	7/1/75
Cheloniidae, all species in family except those in app. I or with earlier date in app. II.	Sea turtles	II	2/4/77
Chersina (=Testudo) spp.	Bow-sprit tortoises	II	7/1/75
Clemmys muhlenbergi	Bog turtle	II	7/1/75
Dermochelys coriacea	Leatherback sea turtle	I	7/1/75
Eretmochelys imbricata	Hawksbill sea turtle	I	7/1/75
Geochelone spp. (except species listed below).	Land tortoises	II	7/1/75
G. (=Testudo) elephantopus	Galapagos tortoise	I	7/1/75
G. (=Testudo) radiata	Madagascar radiated tortoise	I	7/1/75
G. (Testudo) yniphora	Angulated tortoise	I	7/1/75
Geoclemys (=Damonia) hamiltoni	Spotted pond turtle	I	7/1/75
Geoemyda (=Melanochelys or Nicoria) tricarinata.	Three keeled Asian turtle	I	7/1/75
Gopherus spp. (except species listed below)	Gopher tortoises	II	7/1/75
G. flavomarginatus	Bolson tortoise	I	7/1/75
Homopus spp.	African parrot-beaked tortoises	II	7/1/75
Kachuga tecta tecta	Indian sawback turtle	I	7/1/75
Kinixys spp.	Hinged-back tortoise	II	7/1/75
Lepidochelys kempi	Kemp's or Atlantic ridley sea turtle	I	7/1/75
L. olivacea	Olive ridley sea turtle	I	7/1/75
Lissemys punctata punctata	Indian flap-shell tortoise	I	7/1/75
Malacochersus spp.	Pancake tortoises	II	7/1/75
Morenia ocellata	Burmese peacock turtle	I	7/1/75
Pelomedusa subrufa (all parts and derivatives).	Helmeted terrapin	III (Ghana)	2/26/76
Pelusios spp. all species native to Ghana (all parts and derivatives).	African mud turtles	III (Ghana)	2/26/76
Podocnemis spp.	South American turtles	II	7/1/75
Psammobates geometrica	Geometric turtle	I	2/4/77
Pseudemydura umbrina	Short-necked swamp turtle	I	7/1/75
Pyxis spp	Madagascar spider tortoises	II	7/1/75
Terrapene coahuila	Aquatic box turtle	I	7/1/75
Testudinidae, all species except those in app. I or with earlier date in app. II.	Land tortoises	II	2/4/77
Testudo spp.	Land tortoises	II	7/1/75
Trionyx ater	Cuatro Cienegas softshell turtle	I	7/1/75
T. gangeticus	Indian softshell turtle	I	7/1/75
T. hurum	Peacock softshell turtle	I	7/1/75
T. nigricans	Black softshell turtle	I	7/1/75
T. triunguis (all parts and derivatives)	Three-clawed turtle	III (Ghana)	2/26/76
Order Rhynchocephalia:	Tuatara:		
Sphenodon punctatus	Tuatara	I	7/1/75
Order Squamata:	Lizards, Snakes:		
Acrantophis spp	Madagascar boas	I	2/4/77
Amblyrhynchus cristatus	Galapagos marine iguana	II	7/1/75
Boidae, all species except those in app. I or with earlier date in app. II.	Boa constrictors, Pythons	II	2/4/77
Bolyeria spp	Round Island boa	I	2/4/77
Casarea spp	Round Island boa	I	2/4/77
Chamaeleo spp.	Chamaeleons	II	2/4/77
Cnemidophorus hyperythrus	Orange-throated whiptail lizard	II	7/1/75
Conolophus spp. (except species listed below).	Land lizards	II	2/4/77
C. pallidus	Barrington Island land lizard	II	7/1/75
C. subcristatus	Galapagos land iguana	II	7/1/75
Constrictor constrictor	Boa constrictor	II	7/1/75
Crocodilurus lacertinus	Dragon lizardet	II	2/4/77
Cyclagras (=Hydrodynastes) gigas	South American false water cobra	II	7/1/75
Cyclura spp.	Ground iguanas	II	2/4/77
Cyrtodactylus serpensinsula	Serpent Island gecko	II	2/4/77
Dracaena guianensis	Caiman lizard	II	2/4/77
Elachistodon westermanni	Indian egg-eating snake	II	7/1/75
Epicrates cenchris cenchris	Rainbow boa	II	7/1/75
E. inornatus	Puerto Rican boa	I	2/4/77
Eunectes notaeus	Yellow anaconda	II	7/1/75
E. subflavus	Jamaican boa	I	7/1/75
Heloderma spp. (except species listed below)	Beaded lizards, Gila monster	II	2/4/77
H. horridum	Beaded lizard	II	7/1/75
H. suspectum	Gila monster	II	7/1/75
Iguana spp	Iguanas	II	2/4/77

Species	Common name	Appendix	Date listed (month/day/year)
Paradelma orientalis	Snake lizard	II	2/4/77
Pheisuma spp	Day geckos	II	2/4/77
Phrynosoma coronatum blainvillei	San Diego horned lizard	II	7/1/75
Pseudoboa (=Clelia) cloelia	Mussurana snake	II	7/1/75
Python spp. (except subspecies listed below).	Pythons	II	7/1/75
P. molurus molurus	Indian python	I	7/1/75
Sanzinia madagascariensis	Tree boa	I	2/4/77
Thamnophis elegans (=couchi) hammondi	Two-striped garter snake	II	7/1/75
Tupinambis spp	Tegu lizards	II	2/4/77
Uromastyx spp	Spiny-tailed lizards	II	2/4/77
Varanus spp. (all species except those in app. I).	Monitor lizards	II	7/1/75
V. bengalensis	Bengal monitor	I	7/1/75
V. flavescens	Yellow monitor	I	7/1/75
V. griseus	Desert monitor	I	7/1/75
V. komodoensis	Komodo Island monitor, Komodo dragon	I	7/1/75
CLASS AMPHIBIA:	AMPHIBIANS:		
Order Caudata:	Salamanders:		
Ambystoma dumerilii	Lake Patzcuaro salamander	II	7/1/75
A. lermaensis	Lake Lerma salamander	II	7/1/75
A. mexicanum	Axolotl	II	7/1/75
Andrias (=Megalobatrachus) davidianus	Chinese giant salamander	I	7/1/75
A. (=Megalobatrachus) japonicus	Japanese giant salamander	I	7/1/75
Order Anura:	Frogs, Toads:		
Atelopus varius zeteki	Panamanian golden frog	I	7/1/75
Bufo periglens	Monteverde toad	I	7/1/75
B. retiformis	Sonoran green toad	II	7/1/75
B. superciliaris	Cameroon toad	I	7/1/75
Nectophrynoides spp	African viviparous toads	I	7/1/75
CLASS OSTEICHTHYES:	BONY FISHES:		
Order Acipenseriformes:	Sturgeons:		
Acipenser brevirostrum	Short-nosed sturgeon	I	7/1/75
A. fulvescens	Lake sturgeon	II	7/1/75
A. oxyrhynchus	Atlantic sturgeon	II	7/1/75
A. sturio	Baltic sturgeon	II	7/1/75
Order Osteoglossiformes:	Bonytongues:		
Arapaima gigas	Arapaima	II	7/1/75
Scleropages formosus	Asiatic bonytongue	I	7/1/75
Order Salmoniformes:	Salmon, Trout:		
Coregonus alpenae	Longjaw cisco	I	7/1/75
Salmo chrysogaster	Mexican golden trout	II	7/1/75
Stenodus leucichthys leucichthys	Beloribitsa	II	7/1/75
Order Cypriniformes:			
Chasmistes cujus	Cui-ui	I	7/1/75
Plagopterus argentissimus	Woundfin	II	7/1/75
Probarbus jullieni	Ikan temolek, Pla eesok	I	7/1/75
Ptychocheilus lucius	Colorado River squawfish	II	7/1/75
Order Atheriniformes:	Livebearers:		
Cynolebias constanciae	Annual tropical killifish	II	7/1/75
C. marmoratus	Annual tropical killifish	II	7/1/75
C. minimus	Annual tropical killifish	II	7/1/75
C. opalescens	Annual tropical killifish	II	7/1/75
C. splendens	Annual tropical killifish	II	7/1/75
Xiphophorus couchianus	Monterey platyfish	II	7/1/75
Order Coelacanthiformes:	Coelacanth:		
Latimeria chalumnae	Coelacanth, Gombessa	II	7/1/75
Order Ceratodiformes:	Lungfishes:		
Neoceratodus forsteri	Australian lungfish	II	7/1/75
Order Siluriformes:	Catfishes:		
Pangasianodon gigas	Thailand giant catfish	I	7/1/75
Order Perciformes:	Perch-like fishes:		
Cynoscion macdonaldi	Totoaba	I	2/4/77
Stizostedion vitreum glaucum	Blue pike	I	7/1/75
PHYLUM MOLLUSCA:	MOLLUSCS:		
Class Pelecypoda (=Bivalvia):	Clams, Mussels:		
Conradilla caelata	Birdwing pearly mussel	I	7/1/75
Cyprogenia aberti	Edible pearly mussel	II	7/1/75
Dromus dromas	Dromedary pearly mussel	II	7/1/75
Epioblasma (=Dysnomia or Plagiola) florentina curtisi.	Curtis' pearly mussel	I	7/1/75
E. florentina florentina	Yellow-blossom pearly mussel	I	7/1/75
E. sampsoni	Sampson's pearly mussel	I	7/1/75
E. sulcata perobliqua	White cat's paw mussel	I	7/1/75
E. torulosa gubernaculum	Green-blossom pearly mussel	I	7/1/75
E. torulosa rangiana	Tan-blossom pearly mussel	II	7/1/75
E. torulosa torulosa	Tuberculed-blossom pearly mussel	I	7/1/75
E. turgidula	Turgid-blossom pearly mussel	I	7/1/75
E. walkeri	Brown-blossom pearly mussel	I	7/1/75
Fusconaia cuneolus	Fine-rayed pigtoe mussel	I	7/1/75
F. edgariana	Shiny pigtoe mussel	I	7/1/75
F. subrotunda	Long solid mussel	II	7/1/75
Lampsilis brevicula	Ozark lamp pearly mussel	I	7/1/75
L. higginsi	Higgin's eye mussel	I	7/1/75
L. orbiculata orbiculata	Pink mucket mussel	I	7/1/75
L. satura	Plain pocketbook mussel	I	7/1/75
L. virescens	Alabama lamp pearly mussel	I	7/1/75
Lexingtonia dolabelloides	Slab-side pearly mussel	II	7/1/75
Mytilus chorus	Chilean mussel	II	6/28/79
Plethobasus cicatricosus	White wartyback mussel	I	7/1/75
P. cooperianus	Orange-footed pimpleback mussel	I	7/1/75
Pleurobema clava	Club pearly mussel	II	7/1/75
P. plenum	Rough pigtoe mussel	I	7/1/75
Potamilus (=Proptera) capax	Fat pocketbook mussel	I	7/1/75

Species	Common name	Appendix	Date listed (month/day/year)
Quadrula intermedia	Cumberland monkey-face mussel	I	7/1/75
Q. sparsa	Appalachian monkey-face mussel	I	7/1/75
Toxolasma (=Carunculina) cylindrella	Pale lilliput pearly mussel	I	7/1/75
Unio (=Megalonaias) nickliniana	Nicklin's pearly mussel	I	7/1/75
U. (=Lampsilis or Cyrtonaias) tampicoensis tecomatensis.	Tampico pearly mussel	I	7/1/75
Villosa (=Micromya) trabalis	Cumberland bean mussel	I	7/1/75
Class Gastropoda:	Snails:		
Coahuilix hubbsi	Coahuilix de Hubbs Caracol	II	7/1/75
Cochliopina milleri	Cochliopina de Miller Caracol	II	7/1/75
Durangonella coahuilae	Durangonella de Coahuila Caracol	II	7/1/75
Mexipyrgus carranzae	Mexipyrgus de Carranza Caracal	II	7/1/75
M. churinceanus	Mexipyrgus de Churince Caracol	II	7/1/75
M. escobedae	Mexipyrgus de Escobeda Caracol	II	7/1/75
M. lugoi	Mexipyrgus de Lugo Caracol	II	7/1/75
M. mojarralis	Mexipyrgus del Oeste del Mojarral Caracol.	II	7/1/75
M. multilineatus	Mexipyrgus del Este del Mojarral Caracol.	II	7/1/75
Mexithauma quadripaludium	Mexithauma de Cuatro Cienegas Caracol.	II	7/1/75
Nymphophilus minckleyi	Nymphophilus de Minckley Caracol	II	7/1/75
Paludiscala caramba	Paludiscala Maravillosa Caracol	II	7/1/75
Papustyla (=Papuina) pulcherrima	Manus Island tree snail	II	7/1/75
Paraphanta spp. (New Zealand species only)	New Zealand amber snails	II	7/1/75
PHYLUM ARTHROPODA:	ARTHROPODS:		
Class Insecta:	Insects:		
Ornithoptera spp	Birdwing butterflies	II	2/16/79
O. alexandrae	Birdwing butterfly	II	2/4/77
O. allotei	Birdwing butterfly	II	2/4/77
O. chimaera	Birdwing butterfly	II	2/4/77
O. goliath	Birdwing butterfly	II	2/4/77
O. meridionalis	Birdwing butterfly	II	2/4/77
O. paradisea	Paradise birdwing butterfly	II	2/4/77
O. victoriae	Queen Victoria's birdwing butterfly	II	2/4/77
Parnassius apollo	Mountain apollo butterfly	II	2/4/77
P. apollo apollo	Mountain apollo butterfly	II	7/1/75
Trogonoptera spp	Birdwing butterflies	II	2/16/79
Troides spp	Birdwing butterflies	II	2/16/79
FLORA:	PLANTS:		
Family Apocynaceae:	Dogbanes:		
Pachypodium spp	Elephant's trunk	II	7/1/75
Family Araceae:	Arums:		
Alocasia sanderana		I	7/1/75
A. zebrina		I	7/1/75
Family Araliaceae:	Ginsengs:		
Panax quinquefolius (roots)	American ginseng	II	7/1/75
Family Araucariaceae:	Monkey-puzzle trees:		
Araucaria araucana (timber), all populations except that of Chile.	Monkey-puzzle tree	II	7/1/75
A. araucana, population of Chile	Monkey-puzzle tree	I	7/1/75
Family Asclepiadaceae:			
Ceropegia spp	Ceropegias	II	6/28/79
Frerea indica		II	6/28/79
Family Byblidaceae:			
Byblis spp	Byblis, Rainbow plants	II	6/28/79
Family Cactaceae:	Cacti:		
All species in the Americas		II	7/1/75
Rhipsalis spp	Mistletoe cacti	II	7/1/75
Family Caryocaraceae:	Caryocars:		
Caryocar costaricense		I	7/1/75
Family Caryophyllaceae:	Pinks:		
Gymnocarpos przewalskii		I	7/1/75
Melandrium mongolicum		I	7/1/75
Silene mongolica		I	7/1/75
Stellaria pulvinata		I	7/1/75
Family Cephalotaceae:			
Cephalotus follicularis	Albany pitcher plant	II	6/28/79
Family Chloanthaceae:			
Populations of all species in Australia	Lambs tails	II	6/28/79
Family Compositae—(=Asteraceae):	Composites, Asters:		
Saussurea lappa (roots)	Costas	II	7/1/75
Family Cupressaceae:	Cypresses:		
Fitzroya cupressoides	Fitzroya, Alerce	I	7/1/75
Pilgerodendron uviferum	Pilgerodendron	I	7/1/75
Family Cyatheaceae:	Tree ferns:		
All species in the family (trunks) except those with earlier date.		II	2/4/77
Cyathea (Hemitelia) capensis (trunks)		II	7/1/75
C. dregi (trunks)		II	7/1/75
C. mexicana (trunks)		II	7/1/75
C. (Alsophila) salvinii (trunks)		II	7/1/75
Family Cycadaceae:	Cycads:		
All species except that listed in app. I (trunks)		II	2/4/77
Microcycas calocoma	Palma Corcho, Microcycas	I	7/1/79
Family Dicksoniaceae:			
All species in the family (trunks)		II	2/4/77
Family Didiereaceae:			
All species in the family		II	2/4/77
Family Dioscoreaceae:	Yams:		
Dioscorea deltoidea (roots)		II	7/1/75
Family Euphorbiaceae:	Spurges:		
Euphorbia spp. excluding non-succulent species.	Euphorbias	II	7/1/75

Species	Common name	Appendix	Date listed (month/day/year)
Family Fagaceae:	Beeches:		
Quercus copeyensis (timber)		II	7/1/75
Family Gentianaceae:	Gentians:		
Prepusa hookeriana	Scarlet-flowered prepusa	I	7/1/75
Family Gnetaceae:	Gnetums:		
Gnetum montanum (all parts and derivatives)		III (Nepal)	11/16/75
Family Haemodoraceae:	Bloodworts:		
Anigozanthos spp.	Kangaroo paws	II	6/28/79
Macropidia fuliginosa	Black kangaroo paw	II	6/28/79
Family Humiriaceae:			
Vantanea barbourii		I	7/1/75
Family Juglandaceae:	Walnuts:		
Engelhardtia pterocarpa		I	7/1/75
Family Leguminosae—(=Fabaceae):	Peas, Pulse:		
Ammopiptanthus mongolicum		I	7/1/75
Cynometra hemitomophylla		I	7/1/75
Platymiscium pleiostachyum		I	7/1/75
Tachigalia versicolor		I	7/1/75
Thermopsis mongolica		II	7/1/75
Family Liliaceae:	Lilies, Aloes:		
Aloe spp., all species except those in app. I	Aloes	II	7/1/75
A. albida		I	7/1/75
A. pillansii		I	7/1/75
A. polyphylla	Spiral aloe	I	7/1/75
A. thorncroftii		I	7/1/75
A. vossii		I	7/1/75
Family Magnoliaceae:	Magnolias:		
Talauma hodgsonii (all parts and derivatives)		III (Nepal)	11/16/75
Family Melastomataceae:	Meadow-Beauties:		
Lavoisiera itambana		I	7/1/75
Family Meliaceae:	Mahoganies:		
Guarea longipetiola		I	7/1/75
Swietenia humilis timber		II	7/1/75
Family Moraceae:	Mulberries:		
Batocarpus costaricensis		I	7/1/75
Family Myracaceae:	Myrtles:		
Verticordia spp	Feather flowers	II	6/28/79
Family Orchidaceae:	Orchids:		
All species except those in app. I		II	7/1/75
Cattleya skinneri		I	7/1/75
C. trianae	Christmas orchid	I	7/1/75
Didiciea cunninghamii		I	7/1/75
Laelia jongheana		I	7/1/75
L. lobata		I	7/1/75
Lycaste virginalis var. *alba*	White nun	I	7/1/75
Peristeria elata	Holy Ghost	I	7/1/75
Renanthera imschoestiana		I	7/1/75
Vanda coerulea	Blue vanda	I	7/1/75
Family Palmae (Arecaceae):	Palms:		
Areca ipot		II	7/1/75
Chrysalidocarpus decipiens		II	2/4/77
C. lutescens	Yellow palm	II	2/4/77
Neodypsis decaryi		II	7/1/75
Phoenix hanceana var. *philippinensis*		II	7/1/75
Zalacca clemensiana		II	7/1/75
Family Papaveraceae:	Poppies:		
Meconopsis regia (all parts and derivatives)		III (Nepal)	11/16/75
Family Pinaceae:	Pines, Firs:		
Abies guatemalensis	Guatemalan fir	I	7/1/75
A. nebrodensis		I	7/1/75

The President

Proclamation 4744—Petroleum Import Adjustment Program

Federal Register
Vol. 45, No. 66
Thursday, April 3, 1980

Presidential Documents

Title 3—

The President

Proclamation 4744 of April 2, 1980

Petroleum Import Adjustment Program

By the President of the United States of America

A Proclamation

In March 1979, the Secretary of the Treasury, having conducted an investigation of imports of petroleum and petroleum products in accordance with Section 232 of the Trade Expansion Act of 1962, as amended (19 U.S.C. 1862), concluded that such imports were entering the country "in such quantities and under such circumstances as to threaten to impair the national security." This finding confirmed the results of previous investigations conducted in 1959 and 1975.

The high level of the Nation's consumption of gasoline is the single most important cause of our dependence on foreign oil. At the same time, our consumption of gasoline can be reduced with less serious consequences to our economy than if similar action were taken with respect to other petroleum products, such as home heating oil. Consequently, the Secretary of Energy and the Secretary of the Treasury have advised that I take action to reduce oil imports by imposing a fee on imports of crude oil and gasoline and by establishing a program intended to ensure that the burden of the crude oil fee falls on gasoline. The Secretary of Commerce concurs.

I agree with their advice. To counter this threat to the national security of the United States, I deem it necessary to act pursuant to Section 232 of the Trade Expansion Act to adjust crude oil and gasoline imports through imposition of a gasoline conservation fee on imports of crude oil and gasoline and a system of passing the cost of this fee through on the price of gasoline in a manner consistent with and in furtherance of the objectives of the Emergency Petroleum Allocation Act of 1973 (15 U.S.C. 751 *et seq.*).

NOW, THEREFORE, I, JIMMY CARTER, President of the United States of America, acting under and by virtue of the authority vested in me by the Constitution and the laws of the United States, including Section 232 of the Trade Expansion Act of 1962, as amended (19 U.S.C. 1862), and the Emergency Petroleum Allocation Act of 1973, as amended (15 U.S.C. 751 *et seq.*), do hereby proclaim, effective March 15, 1980, that:

Section 1–1. *Gasoline Conservation Fee*

Sec. 1–101(a). Except as otherwise provided in this Proclamation, no crude oil (except crude oil which is exchanged in accordance with the provisions in the next to last sentence of Section 4(b)(1) of Proclamation 3279, as amended) or gasoline may be entered into the United States unless it is by or for the account of a person to which a license has been issued by the Secretary pursuant to this Proclamation and the entry is made in accordance with the terms of this Proclamation and of such license.

(b) Unexpried and unused licenses, or portions thereof, issued pursuant to Proclamation 3279, as amended, for the entry of crude oil and gasoline may be used for the purpose of entering those respective products through April 23, 1980; *provided,* that the entry is otherwise made in accordance with the terms of this Proclamation and that payment is made for all applicable gasoline conservation fees.

Sec. 1–102(a). Upon application, the Secretary shall issue licenses subject to the gasoline conservation fees provided for in this paragraph.

(1) Except as provided in paragraph (a)(2) of this section, such licenses shall require, among other appropriate provisions, the payment of the following gasoline conservation fees:

(A) With respect to the entry of crude oil, such fee shall be $4.62 per barrel;

(B) With respect to the entry of gasoline, such fee shall be equal to the dollar per barrel amount of the gasoline entitlement determined in accordance with Section 2–1 of this Proclamation for the month in which the entry was made, which amount shall be published by the Secretary on or about the fifteenth day of the second month after the month of entry.

(2) Gasoline conservation fees shall not be applicable with respect to the following types of entries:

(A) Crude oil which is entered into the United States for the Strategic Petroleum Reserve Program by the Department of Energy, or by any other person certified by the Department of Energy as acting on its behalf;

(B) Gasoline produced in the U.S. Virgin Islands or a U.S. Foreign Trade Zone which has incurred a gasoline entitlement obligation in accordance with Section 2–1 of this Proclamation.

(b) All monies received under this section shall be deposited into the Treasury of the United States. The Secretary shall credit to a deposit fund account a portion of the monies received under the terms of this section to be drawn upon by the Secretary for the payment of refunds of gasoline conservation fees. All other amounts shall be credited to miscellaneous receipts. Balances credited in the deposit fund account and not required to be reserved for payments hereinafter provided for shall be transferred at the end of the fiscal year to miscellaneous receipts.

Sec. 1–103(a)(1). Except as provided in paragraph (a)(2) or (a)(3) of this section, applications for licenses subject to payment of a gasoline conservation fee under Section 1–102(a)(1) of this Proclamation shall not be considered unless they are accompanied by payment in the following amounts:

(A) For licenses for the entry of crude oil, such payments shall be in the amount equal to the number of barrels for which the license is to be issued multiplied by $4.62.

(B) For licenses for the entry of gasoline, such payment shall be in the amount equal to the number of barrels for which the license is to be issued multiplied by $4.35. Upon the determination of the actual fee, in accordance with Section 1–102(a)(1)(B) of this Proclamation, for the month in which an entry is made, an adjustment of the amount paid shall be made in accordance with section 1–104(a)(1) of this Proclamation.

(2) In lieu of prepayment in accordance with paragraph (a) of this section, an applicant for a license may submit (A) a bond with a surety on the list of acceptable sureties on Federal bonds, maintained by the Bureau of Government Financial Operations, Department of the Treasury (Department of the Treasury Circular 570) or (B) other security acceptable to the Secretary; *provided,* that for all subsequent entries made pursuant to the license received, payment shall be made for the applicable gasoline conservation fees. Bonds or such other security shall be posted for the amount chargeable under the license, unless the applicant has made timely payment of any fees imposed pursuant either to this Proclamation or to Proclamation 3279, as amended, for the twelve previous calendar months in which the applicant was obligated to pay fees, in which case bonds or such other security may be posted for fifty percent (50%) of the total amount chargeable.

(3) Payment of gasoline conseration fees by or for the account of a department, establishment, or agency of the United States shall be accomplished by transfers, as appropriate, from appropriation accounts available to such department, establishment, or agency. .

(b) Separate licenses shall be issued for crude oil and gasoline and for entries subject or not subject to payment of gasoline conservation fees.

(c) Licenses issued for crude oil and gasoline under this section shall be valid for a period of one year following the date of their issuance unless such licenses have been completely used prior to that time. A license shall be considered to be issued on the date the license is signed by the Secretary.

Sec. 1–104(a)(1). With respect to licenses for the entry of gasoline issued upon prepayment of gasoline conservation fees, the Secretary shall refund such prepaid fees by an amount equal to the difference between the actual fee for the month in which the entry was made and the prepaid amount of $4.35, multiplied by the number of barrels entered; *provided,* that the actual fee for the month in which the entry was made is less than $4.35 per barrel. In the event the actual fee exceeds $4.35 per barrel, the licensee must make payment for the difference.

(2) The Secretary is further authorized to refund fees paid or to reduce fees owed, in whole or in part:

(A) where the licensee prepaid the fees and failed to use the license issued to him;

(B) where the license fee has been improperly charged.

(b)(1) All applications for such refunds or reductions based on entries of crude oil and gasoline must be filed with the Secretary by the end of the sixth month following the month in which the entry was made.

(2) Applications for refunds of fees for any unutilized portion of a prepaid license shall not be acted upon until the license has been received by the Secretary. Such applications must be filed with the Secretary within six months of the expiration date of the license.

(c) Refunds or reductions made pursuant to this section shall be made without interest, and in no case may the total of the refunds or reductions claimed exceed the amount of the fees paid for the license.

Sec. 1–105(a). For the purposes of this Proclamation, crude oil or gasoline shall be deemed to have "entered" the United States when it is released for immediate delivery, or entered, or withdrawn from warehouse for consumption, whichever occurs first as evidenced by the dates on Customs Form 3461, 7501, or 7505, as appropriate, or successor forms.

(b) Licenses shall be presented to the District Director of Customs at a point of entry to be selected by the licensee and shall remain in Customs custody until fully utilized or expired, whereupon they shall be returned by the Customs Service to the Secretary.

Sec. 1–106(a). No license shall be required in connection with the entry into the United States of crude oil or gasoline which is transported from one point in the United States to another such point through a pipeline that passes through a foreign country. If, incidental to such transportation, the crude oil or gasoline is commingled with or displaced by foreign crude oil or gasoline, no license shall be required for the entry of quantities of like kind and quality equivalent to those which left the United States.

(b) In the event the volume of a particular shipment of crude oil or gasoline entered pursuant to a license exceeds, by five percent (5%) or less, the volume stated as remaining on the license against which the crude oil or gasoline is being entered, the Customs officer may permit the entry of the excess without license but in such an event he shall notify the Department of Energy. The licensee must, within ten days of such entry, remit payment for any gasoline conservation fees applicable to such excess.

(c) Customs officers are authorized to permit entry, without license, of quantities not to exceed 550 U.S. gallons of gasoline or 100 barrels of crude oil which otherwise would be subject to the payment of a fee, where the quantities entered are certified as:

(1) constituting samples for testing or analysis;

(2) included in shipments of machinery or equipment and intended for use in connection therewith; or

(3) baggage entries.

Sec. 1–107(a). Unless the Secretary directs otherwise, payment of fees shall be accomplished by wire transfer to an account specified by the Secretary, in accordance with such payment instructions as he may prescribe, or, at the licensee's option where the payment is for an amount less than $1,000,000.00, by delivery to the Secretary of a certified check or a cashier's check payable to the order of the Treasurer of the United States.

(b) Payments in accordance with Sections 1–101(b), 1–103(a)(2) and 1–104(a)(1) must be received by the last day of the second month following the month in which an entry is made if that day is a business day, and if not, by the end of the next business day.

Section 2–1. *Gasoline Entitlements*

Sec. 2–101. For each month beginning with March of 1980, the Secretary shall calculate the "total national fee."The total national fee for a particular month shall be the total amount of the gasoline conservation fees payable for all crude oil entered by all persons in that month.

Sec. 2–102. The price of a gasoline entitlement for each month shall be equal to the total national fee for that month divided by the total number of barrels of gasoline production in that month for which gasoline producers must purchase gasoline entitlements, as adjusted by the Secretary in accordance with Section 2–103 of this Proclamation.

Sec. 2–103. In order to correct for reporting or calculation errors, overpayments, underpayments, and similar occurrences in any month, the Secretary in one or more months subsequent to that month may adjust either or both the price of a gasoline entitlement and the number of gasoline entitlements issued to or required to be purchased by persons.

Sec. 2–104. For each month beginning with March 1980, the Secretary shall issue to each person who entered, during that month, crude oil subject to a gasoline conservation fee pursuant to Section 1–102(a), a number of gasoline entitlements equal in value to the total amount of gasoline conservation fees for crude oil entered in that month that were paid or are payable by that person pursuant to this Proclamation.

Sec. 2–105(a). Except as provided in paragraphs (b) and (c) of this section, with respect to its gasoline production in any month beginning with March 1980, a gasoline producer must purchase gasoline entitlements equal in number to the number of barrels of its gasoline production in that month.

(b) If in any full calendar month the per barrel amount of any additional levy imposed by Puerto Rico or the U.S. Virgin Islands after the effective date of this Proclamation on gasoline consumed in its jurisdiction or produced in its jurisdiction for consumption therein is at least equal to $4.20 or the value of a gasoline entitlement for that month, whichever is less, the number of barrels of gasoline production for which a gasoline producer must purchase gasoline entitlements for that month shall be reduced by the number of barrels of that producer's gasoline production in that month which is subject to the levy.

(c) A person which is issued gasoline entitlements for any month pursuant to Section 2–104 must sell each such gasoline entitlement to a gasoline producer required to purchase gasoline entitlements for that month.

Sec. 2–106. On or about the fifteenth day of the second month following any particular month beginning with March 1980, the Secretary shall publish a list which shall set forth the number of gasoline entitlements which each gasoline producer must purchase and which each person issued entitlements must sell for that particular month. Such purchases and sales shall be completed by the last day of the second month following that particular month. The Secretary

may direct persons that have not purchased or sold the required number of entitlements within that time to purchase or sell such required number of entitlements from or to a person with reciprocal requirements. A person which in a particular month must both purchase and sell entitlements may purchase them from itself.

Sec. 2–107. Notwithstanding any provision to the contrary in the Energy Regulations, no portion of any cost of a gasoline conservation fee imposed under Section 1–1 of this Proclamation may be considered under the Energy Regulations as a cost or part of a cost of crude oil, as that term is defined in the Energy Regulations, or any petroleum product, except as provided in Sections 2–108 and 2–109 of this Proclamation. For purposes of such sections, gasoline conservation fees shall be deemed to have been paid at the time that actual payment of such fees has been made to the Secretary, except that, in the case of an entry made pursuant to a prepaid license, payment of the fee may, at the option of the licensee, be deemed to have been made at the time of entry.

Sec. 2–108. Notwithstanding any provision to the contrary in the Energy Regulations, any person that is not a refiner shall be deemed to have incurred an increased product or acquisition cost for gasoline in any particular month in an amount equal to the sum of (a) the amount of any gasoline conservation fees paid by that person in that month for gasoline entered into the United States, less the amount of any refunds with respect to licenses for gasoline that person has received pursuant to Section 1–104, and (b) the amount paid by such person during that month for gasoline entitlements; *provided,* that, prior to May 15, 1980, no person shall increase the price of gasoline as a result of such increased acquisition or product costs pursuant to this section.

Sec. 2–109. Notwithstanding any provision to the contrary in the Energy Regulations:

(a)(1) A person that is a refiner may add to its $B_i t$ factor for gasoline (its increased purchased product costs as described in Section 212.83 of the Energy Regulations) for any month an amount equal to $4.20 multiplied by the number of barrels of gasoline subject to the gasoline conservation fee which that refiner entered into the United States in the month two months prior to such month. Any increases in gasoline prices that are allowed as a result of such addition to the $B_i t$ factor shall not be made prior to May 15, 1980.

(2) If, in any month beginning with June 1980, the amount of gasoline conservation fees on gasoline paid by a refiner in the month immediately preceding that month was greater or less than an amount determined by multiplying $4.20 by the number of barrels of gasoline subject to the gasoline conservation fee which were entered into the United States by that refiner in the month three months prior to that month, the difference shall be added to or subtracted from, respectively, that refiner's $B_i t$ factor for that month.

(b)(1) A person that is a refiner may add to its $A_i t$ factor for gasoline (its increased crude oil costs as described in Section 212.83 of the Energy Regulations) for any month an amount equal to $4.20 multiplied by the number of barrels of that refiner's gasoline production in the month two months prior to that month. Any increases in gasoline prices that are allowed as a result of such addition to the $A_i t$ factor shall not be made prior to May 15, 1980.

(2) If, in any month beginning with June 1980, the amount paid by a refiner for gasoline entitlements purchased in the month immediately preceding that particular month was greater or less than an amount determined by multiplying $4.20 by the number of barrels of that refiner's gasoline production in the month three months prior to that month, the difference shall be added to or subtracted from, respectively, that refiner's $A_i t$ factor for that month.

(3) The amount added to or subtracted from the $A_i t$ factor pursuant to this section shall not be subject to the "gasoline tilt" provision found in the last sentence of the first paragraph of Section 212.83(a)(2)(iii)(C) of the Energy Regulations.

Section 3–1. *Administrative Provisions*

Sec. 3–101(a). The Secretary is delegated authority to provide for the administration and enforcement of this Proclamation. The Secretary shall, from time to time, in consultation with the Secretaries of Commerce, State, and the Treasury, and other Federal agencies as appropriate, review the status of imports of crude oil and its primary derivatives in respect to the national security. In this connection, he shall inform the President of any circumstances which might indicate the need for further Presidential action under Section 232 of the Trade Expansion Act of 1962, as amended.

(b) The Secretary is delegated the authority to adjust, from time to time, the amount of the gasoline conservation fee specified in Section 1–102(a)(1)(A) of this Proclamation in order to ensure that, as closely as practicable, the value of a resulting gasoline entitlement approximates $4.20.

(c) All departments and agencies of the Executive Branch of the Government shall cooperate with and assist the Secretary in achieving the purposes of this Proclamation.

Sec. 3–102(a). Persons applying for licenses pursuant to Section 1–1 of this Proclamation shall submit such information and make such reports as the Secretary determines necessary to fulfill his responsibilities under this Proclamation.

(b) By the fifth day of the second month following any particular month, beginning with May 5, 1980 for March 1980, each gasoline producer shall report to the Secretary its gasoline production for that month. A person with gasoline production in Puerto Rico or in the U.S. Virgin Islands in any month shall report separately its gasoline production in Puerto Rico or in the U.S. Virgin Islands in that month and the portion of such production which is produced for consumption in Puerto Rico or in the U.S. Virgin Islands.

(c) The Secretary may require a person subject to the reporting requirements of paragraph (a) or (b) of this section to report any additional information determined by the Secretary to be necessary to ensure that the objectives of this Proclamation are attained.

(d) A person required under this Proclamation to submit any report to the Secretary shall correct any errors contained in that report by filing an amended report as promptly as possible but not later than the last day of the eighth month following the month for which the report was filed.

Sec. 3–103(a). A person subject to any reporting requirement under Section 3–103 of this Proclamation shall prepare and maintain at its principal place of business sufficient records, including but not limited to records specifically required by the Secretary, to document its compliance with the provisions of this Proclamation.

(b) All records required to be maintained pursuant to this Proclamation shall be retained for a period of three years.

Sec. 3–104. The Secretary may initiate and conduct audits and investigations relating to the scope, nature, and extent of compliance by any person subject to any provision of this Proclamation.

Sec. 3–105(a). In addition to any other remedies or penalties available to enforce this Proclamation or Proclamation 3279, as amended, the Secretary may revoke or suspend, in accordance with the provisions set forth in Subpart T, Part 205, of Title 10 of the Code of Federal Regulations, licenses issued to any person that violates the terms of this Proclamation or Proclamation 3279, as amended. In addition or in the alternative, and notwithstanding the provisions in Section 1–103(a)(2) of this Proclamation, the Secretary, in his discretion, may require that any person that violates the terms of this Proclamation post bonds for license fees in the full amount chargeable or prepay all license fee amounts in order to receive a license.

(b) In the event a person fails to fulfill an obligation arising under Section 2–1 of this Proclamation, that person shall be subject to the remedies and penalties available under the Emergency Petroleum Allocation Act of 1973.

Sec. 3–106. For purposes of this Proclamation, the following definitions shall apply:

"Crude oil" means a mixture of hydrocarbons that existed in natural underground reservoirs and which is liquid at atmospheric pressure after passing through surface separating processes, and does not include natural gas products. It also includes the initial liquid hydrocarbons produced from tar sands, gilsonite, and oil shale.

"Energy Regulations" means Parts 210, 211 and 212 of Title 10, Code of Federal Regulations.

"Gasoline" means gasoline as that term is defined in Section 212.31 of the Energy Regulations, which definition, for purposes of reference, is as follows: "all of the various grades, other than aviation gasoline, of refined petroleum naphtha which, by its composition, is suitable for use as a carburant in internal combustion engines."

"Gasoline entitlement" means the proportionate share which each barrel of gasoline production for a particular month bears to the total gasoline conservation fees payable for that month.

"Gasoline producer" means that person which first manufactures a volume of gasoline by refining, blending or any other process.

"Gasoline production," for a particular gasoline producer in a particular month, means the total number of barrels of gasoline manufactured by refining, blending, or any other process in that month by that gasoline producer in the United States, the U.S. Virgin Islands, and a U.S. Foreign Trade Zone. Where incremental volumes of gasoline are manufactured through the addition of substances to gasoline for which gasoline entitlement obligations have already been incurred, only the incremental volumes of gasoline, less any volumes of alcohol, are gasoline production. For March 1980, a gasoline producer's gasoline production shall be determined by multiplying the number of barrels of that gasoline producer's gasoline production in March 1980 by 17/31; *provided,* that in the event a gasoline producer can demonstrate that the actual number of barrels of gasoline produced by that gasoline producer in the period March 15 through March 31 was less than 17/31 of that gasoline producer's total gasoline production in March 1980, that gasoline producer may report actual volumes of gasoline production for the period March 15 through March 31. Gasoline manufactured by a gasoline producer on behalf of another person shall be included within the gasoline production of the gasoline producer unless the other person is a refiner, in which case the gasoline shall be included within the gasoline production of the other person.

"Person" means any natural person, or a partnership, association, consortium or any other entity whether organized for a business or other purpose, or a department or other governmental unit of a state, territory of the Federal Government. A person shall include a parent organization and the consolidated and unconsolidated entities which it directly or indirectly controls.

"Refiner" means refiner as that term is defined in Section 212.31 of the Energy Regulations.

"Secretary" means the Secretary of Energy or his delegate.

"United States" means the fifty States, the District of Columbia, and Puerto Rico, but not U.S. Foreign Trade Zones.

Section 4–1 *Conforming Amendments*

Sec. 4–101. Section 1 of Proclamation 3279, as amended, is amended by the addition of a new paragraph (f) to read as follows:

"(f) Except with respect to licenses issued pursuant to the next to last sentence of Section 4(b)(1) of this Proclamation, all licenses issued pursuant to this Proclamation which could be utilized to enter crude oil or gasoline pursuant to another Proclamation shall expire effective 12:01 a.m. April 14, 1980. Notwithstanding any other provision of this Proclamation, no licenses shall be issued hereunder on or after that date for the entry of any crude oil, unfinished oils, or finished products governed by another Proclamation during any period in which a fee of $0.00, as provided in Section 3 of this Proclamation, is in effect."

Sec. 4–102. Section 1(e) of Proclamation 3279, as amended, is amended by deleting the comma appearing after the word "Proclamation" and by adding the words " or any other Proclamation governing the entry of crude oil, unfinished oils or finished products," to immediately follow the word "Proclamation".

Sec. 4–103. Section 8 of Proclamation 3279, as amended, is amended by deleting the period at the end of the next to last paragraph and by adding at the end of that paragraph the following words: "*;provided,* that the system of issuing allocations and licenses with respect to exchanges under Section 4(b)(1) of this Proclamation shall remain in effect during any period in which a fee of $0.00, as provided in Section 3 of this Proclamation, is in effect.".

IN WITNESS WHEREOF, I have hereunto set my hand this second day of April, in the year or our Lord nineteen hundred and eighty, and of the Independence of the United States of America the two hundred and fourth.

Jimmy Carter
