Bureau of Land Management

[ES-030-5-1430-01]

Realty Action: Sale of Public Land in Perry County, Missouri

ACTION: Realty Action: Recreation and Public Purposes Classification-MOES-032220.

SUMMARY: The following land has been classified as suitable for disposal to the Missouri Department of Conservation under authority of the Recreation and Public Purposes Act of 1926 (44 Stat. 741), as amended, 43 U.S.C. 869:

Fifth Principal Meridian, T.34N., R.14E. Sec. 20, Lot #5 Containing 0.70 acres.

The purpose of this conveyance is to provide additional protection of Tower Rock for its scenic and natural history values by including it in the Tower Rock Natural Area.

The patent, when issued, will be subject to the provisions in 43 CFR 2741.8. In the event of noncompliance with the terms of the patent, title to the land shall revert to the United States. Classification of this land will segregate it from all appropriation except as to applications under the mineral leasing laws and the Recreation and Public Purposes Act. This segregation will terminate upon issuance of a patent, or eighteen (18) months from the date of this Notice, or upon publication of a notice of termination.

COMMENTS: On or before February 17, 1995, interested parties may submit comments to: District Manager, Milwaukee District Office, Bureau of Land Management, P.O. Box 631, Milwaukee, Wisconsin 53201-0631.

FOR FURTHER INFORMATION: Detailed information concerning this application is available at the Milwaukee District Office, Bureau of Land Management, 310 West Wisconsin Avenue, Suite 225, Milwaukee, Wisconsin 53203 or by calling Larry Johnson at 414-297-4413.

Dated: December 21, 1994.

Gary D. Bauer,

District Manager.

National Park Service

Draft Comprehensive Management and Use Plan/EIS, Jaun Bautista de Anza National Historic Trail; Notice of Management Proposals and Notice of Availability of Draft Environmental Impact Statement

SUMMARY: Pursuant to section 102(2)(C) of the National Environmental Policy

Act of 1969 (P.L. 91-190 as amended), the National Park Service has prepared an environmental impact statement (EIS) and Comprehensive Management and Use Plan for the Juan Bautista de Anza National Historic Trail.

The *Draft Comprehensive Management and Use Plan/Environmental Impact Statement* presents a proposal and three alternatives for the management, use, and development of the Juan Bautista de Anza National Historic Trail. The proposal (alternative D) calls for marking the historic route, identifies an auto route, and envisions a continuous multi-use recreational retracement trail. The National Park Service (NPS) will take an active role in administrative oversight of the trail by helping protect a continuous trail right-of-way and historic, cultural, and natural resources associated with the trail. The NPS will certify eligible sites and segments and provide leadership for state, regional, and local governments, private landowners, organizations, corporations, and individuals to create a continuous and unified trail. The NPS will form a partnership with a non-profit trail association for the Anza Trail under the auspices of Heritage Trails Fund. Interpretive programs and a system of wayside exhibits will enhance visitor opportunities along the route. A planned promotional and tourism program will increase visitor awareness of American Indian and Spanish Colonial culture and history related to the 1775-76 Anza colonizing expedition to San Francisco Bay.

The other alternatives included in this document include a Single Theme (alternative A), Multi-theme (alternative B), and Broad Outreach (alternative C). Because action was legislated, a pure no action alternative is not considered. Alternative A most closely resembles the no action alternative required in an Environmental Impact Statement (EIS). Alternative A would limit trail recognition and resource protection to federal lands and state parks and focus interpretation on only the 1775-76 Anza trek. Trail uses would be limited to those of the original expedition. Management would emphasize volunteers, and the National Park Service would play a minor role. Alternative B is similar to the proposal but would not have the promotional aspects. Alternative C is similar to the proposal, but would broaden the interpretive themes to the overlay of history along the trail route from prehistory to the present and would include a list of points of interest associated with the trail.
