DATES: The first workshop, which addresses respiratory tract dosimetry and toxicologic effects of particulate matter, will be held January 11 through January 13, 1995. The second workshop, which addresses sampling and analysis, concentrations, and exposure to particulate matter, will be held January 17 and 18, 1995. The third workshop, which addresses particulate matter epidemiologic studies, will be held January 23 through January 25, 1995. The daily meeting times for the sessions of all three workshops are from 8:30 a.m. to 5:00 p.m., and the sessions will be held at EPA's Environmental Research Center at Research Triangle Park, NC. The workshops will be open to the public, but advance registration is required due to space limitations.

FOR FURTHER INFORMATION CONTACT: Ms. Annie M. SUPPLEMENTARY INFORMATION: As discussed in a previous call for information (59 FR 17375), EPA is undertaking to review, where appropriate, update and revise the document, Air Quality Criteria for Particulate Matter. As part of this review, the first workshop will cover draft chapters on respiratory tract deposition of inhaled particles and on toxicological studies of particulate matter exposures. The second workshop will cover draft chapters on sampling and analysis of airborne particulate matter, on environmental concentrations of particulate matter and on ambient and indoor exposures to airborne particles. The third workshop will cover a draft chapter on the epidemiology studies of particulate

matter exposure including both mortality and morbidity effects associated with short-term and chronic particulate matter exposures. The specific chapters covered at each workshop will be made available to the public at the time of the workshop. Members of the public will have an opportunity at the workshops to make brief, oral statements. Interested parties also are invited to assist the EPA in developing and refining the scientific information base for particulate matter by submitting new information on the topics covered at these three workshops. To be considered for inclusion in the review process, submitted information should be published or accepted for publication in a peer-reviewed, scientific journal.
