Albee Textile, New York, NY; Notice of Revised Determination on Reopening

On December 12, 1994, the Department, on its own motion, reopened its investigation for the former workers of the subject firm. The initial investigation resulted in a negative determination on November 28, 1994 because the "contributed importantly" test of the Group Eligibility Requirements of the Trade Act was not met. The denial notice was published in the **Federal Register** on December 16, 1994 (59 FR 65076).

A late response to the Department's customer survey shows that a major customer accounting for a substantial portion of Albee's 1994 sales decline switched its purchases from the subject firm to imports.

U.S. imports of woven fabric increased, in absolute terms, in 1993 compared to 1992.

Other findings show that sales decreased in the first six months of 1994 compared to the same period in 1993. Substantial worker separations occurred in 1993 and 1994.

Conclusion

After careful consideration of the new facts obtained on reopening, it is concluded that increased imports of articles like or directly competitive with the woven fabric produced by the subject firm contributed importantly to the decline in production and to the total or partial separation of workers at the subject firm. In accordance with the provisions of the Trade Act of 1974, I make the following revised determination:

"All workers and former workers of Albee Textile, New York, New York who became totally or partially separated from employment on or after August 8, 1993, are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974."

Signed at Washington, D.C., this 22nd day of December 1994.

Program Manager, Policy and Reemployment Services, Office of Trade Adjustment Assistance.

Beth-Energy Mines Corp., Cambria Slope Mine #33, Ebensburg, PA; Notice of Negative Determination Regarding Application for Reconsideration

By an application dated November 8, 1994, Local #1368 of the United Mine Workers (UMW) requested administrative reconsideration of the subject petition for trade adjustment assistance (TAA). The denial notice was published in the **Federal Register** on November 16, 1994 (59 FR 59253).

Pursuant to 29 CFR 90.18(c) reconsideration may be granted under the following circumstances:

- (1) If it appears on the basis of facts not previously considered that the determination complained of was erroneous;
- (2) if it appears that the determination complained of was based on a mistake in the determination of facts not previously considered; or
- (3) if in the opinion of the Certifying Officer, a misinterpretation of facts or of the law justified reconsideration of the decision.

The investigation files show that the workers produced metallurgical coal until the mine closed in September, 1994. Some of the coal met steam coal specs and was sold to local utilities but this ceased in 1991.

The Department's denial was based on the fact that the increased import and contributed importantly test of the Worker Group Eligibility Requirements of the Trade Act were not met.

U.S. imports of coal have been negligible for the past four years—under one percent of U.S. production. There are no company imports of coal.

The preponderant portion of coal produced by the subject firm went (1) to affiliated Bethlehem steelmaking facilities whose workers are not under a worker certification and (2) to the export market. A decline in sales to the export market would not provide a basis for a worker group certification.

The Department would entertain a new petition when the workers at Bethlehem steelmaking facilities in Bethlehem, Pennsylvania, Burns Harbor, Illinois or Lackawana, New York become certified for TAA.

Conclusion

After review of the application and investigative findings, I conclude that there has been no error or misinterpretation of the law or of the facts which would justify reconsideration of the Department of Labor's prior decision. Accordingly, the application is denied.

Signed at Washington, D.C., this 15th day of December 1994.

Victor J. Trunzo,

Program Manager, Policy and Reemployment Services, Office of Trade Adjustment Assistance.
