Beth-Energy Mines Corp., Cambria Slope Mine #33, Ebensburg, PA; Notice of Negative Determination Regarding Application for Reconsideration

By an application dated November 8, 1994, Local #1368 of the United Mine Workers (UMW) requested administrative reconsideration of the subject petition for trade adjustment assistance (TAA). The denial notice was published in the **Federal Register** on November 16, 1994 (59 FR 59253).

Pursuant to 29 CFR 90.18(c) reconsideration may be granted under the following circumstances:

- (1) If it appears on the basis of facts not previously considered that the determination complained of was erroneous;
- (2) if it appears that the determination complained of was based on a mistake in the determination of facts not previously considered; or
- (3) if in the opinion of the Certifying Officer, a misinterpretation of facts or of the law justified reconsideration of the decision.

The investigation files show that the workers produced metallurgical coal until the mine closed in September, 1994. Some of the coal met steam coal specs and was sold to local utilities but this ceased in 1991.

The Department's denial was based on the fact that the increased import and contributed importantly test of the Worker Group Eligibility Requirements of the Trade Act were not met.

U.S. imports of coal have been negligible for the past four years—under one percent of U.S. production. There are no company imports of coal.

The preponderant portion of coal produced by the subject firm went (1) to affiliated Bethlehem steelmaking facilities whose workers are not under a worker certification and (2) to the export market. A decline in sales to the export market would not provide a basis for a worker group certification.

The Department would entertain a new petition when the workers at Bethlehem steelmaking facilities in Bethlehem, Pennsylvania, Burns Harbor, Illinois or Lackawana, New York become certified for TAA.

Conclusion

After review of the application and investigative findings, I conclude that there has been no error or misinterpretation of the law or of the facts which would justify reconsideration of the Department of Labor's prior decision. Accordingly, the application is denied.

Signed at Washington, D.C., this 15th day of December 1994.
