

associated with ambient air particulate matter exposures. These draft chapters will become part of the revised EPA document entitled: Air Quality Criteria for Particulate Matter.

DATES: The first workshop, which addresses respiratory tract dosimetry and toxicologic effects of particulate matter, will be held January 11 through January 13, 1995. The second workshop, which addresses sampling and analysis, concentrations, and exposure to particulate matter, will be held January 17 and 18, 1995. The third workshop, which addresses particulate matter epidemiologic studies, will be held January 23 through January 25, 1995. The daily meeting times for the sessions of all three workshops are from 8:30 a.m. to 5:00 p.m., and the sessions will be held at EPA's Environmental Research Center at Research Triangle Park, NC. The workshops will be open to the public, but advance registration is required due to space limitations.

FOR FURTHER INFORMATION CONTACT: Ms. Annie M. Jarabek, manager for the chapters on dosimetry and on toxicological studies, U.S. Environmental Protection Agency, ECAO, MD-52, Research Triangle Park, NC 27711, telephone 919-541-4847, for information on the first workshop. Information on the second workshop may be obtained from Mr. William G. Ewald, manager for the chapters on sampling and analysis, on concentrations, and on exposure, at the same address, telephone 919-541-4164. For information on the third workshop, contact Dr. Allan Marcus, manager for the chapter on epidemiology studies, at the same address, telephone 919-541-0636. Members of the public wishing to attend any of the three workshops as observers should contact Ms. Emily Lee (telephone 919-541-4169) to register in advance.

SUPPLEMENTARY INFORMATION: As discussed in a previous call for information (59 FR 17375), EPA is undertaking to review, where appropriate, update and revise the document, Air Quality Criteria for Particulate Matter. As part of this review, the first workshop will cover draft chapters on respiratory tract deposition of inhaled particles and on toxicological studies of particulate matter exposures. The second workshop will cover draft chapters on sampling and analysis of airborne particulate matter, on environmental concentrations of particulate matter and on ambient and indoor exposures to airborne particles. The third workshop will cover a draft chapter on the epidemiology studies of particulate

matter exposure including both mortality and morbidity effects associated with short-term and chronic particulate matter exposures. The specific chapters covered at each workshop will be made available to the public at the time of the workshop. Members of the public will have an opportunity at the workshops to make brief, oral statements. Interested parties also are invited to assist the EPA in developing and refining the scientific information base for particulate matter by submitting new information on the topics covered at these three workshops. To be considered for inclusion in the review process, submitted information should be published or accepted for publication in a peer-reviewed, scientific journal.

Dated: December 16, 1994.

Joseph K. Alexander,

Acting Assistant Administrator for Research and Development.

Notice of Open Meeting of the Federal Facilities Environmental Restoration Dialogue Committee

AGENCY: Environmental Protection Agency.

ACTION: FACA Committee meeting—Federal Facilities.

SUMMARY: As required by Section 9(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), we are giving notice of the next meeting of the Federal Facilities Environmental Restoration Dialogue Committee. The meeting is open to the public without advance registration.

The purpose of the meeting is to discuss issues related to the Federal Facilities Environmental Restoration process.

DATES: The meeting will be held on January 24, 1995, from 2 p.m. until 5 p.m., and on January 25 and January 26, 1995 from 8:30 a.m. until 5 p.m. (All times Pacific Standard Time.)

ADDRESSES: The meeting will be held at the Fairmont Hotel, 950 Mason Street, San Francisco, California.

FOR FURTHER INFORMATION CONTACT: Persons needing further information on any aspect of the Federal Facilities Environmental Restoration Dialogue Committee should contact Sven-Eric Kaiser, Office of Solid Waste and Emergency Response, U.S. EPA, 401 M Street, S.W. (5101), Washington, DC 20460, (202) 260-5138.

Dated: December 27, 1994.

James Woolford,

Acting Designated Federal Official.

Issuance of Experimental Use Permits

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has granted experimental use permits to the following applicants. These permits are in accordance with, and subject to, the provisions of 40 CFR part 172, which defines EPA procedures with respect to the use of pesticides for experimental use purposes.

FOR FURTHER INFORMATION CONTACT: By mail: Registration Division (7505C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460.

In person or by telephone: Contact the product manager at the following address at the office location or telephone number cited in each experimental use permit: 1921 Jefferson Davis Highway, Arlington, VA.

SUPPLEMENTARY INFORMATION: EPA has issued the following experimental use permits:

275-EUP-77. Issuance. Abbott Laboratories, 1401 Sheridan Road, North Chicago, IL 60064. This experimental use permit allows the use of 968 pounds of the plant growth regulator [S]-trans-2-amino-4-[2-aminoethoxy]-3-butenic acid hydrochloride on 220 acres of greenhouse ornamentals to evaluate the reduction of shipping-related problems such as, flower senescence and flower bud abortion. The program is authorized only in the States of California, Colorado, Florida, Illinois, Michigan, North Carolina, Ohio, Texas, Utah, Virginia, and Wisconsin. The experimental use permit is effective from June 14, 1994 to June 30, 1995. (Cynthia Giles-Parker, PM 22, Rm. 229, CM #2, (703-305-5540))

67986-EUP-1. Issuance. AgriPhi, Inc., 160 North Main, Logan, Utah 84321. This experimental use permit allows the use of 33.6 pounds of the biological pesticide bacteriophages of *Xanthomas campestris* subsp. *vesicatoria* on 20 acres of peppers and tomatoes to evaluate the control of bacterial spot. The program is authorized only in the State of Florida. The experimental use permit is effective from August 29, 1994 to August 15, 1996. A temporary exemption from the requirement of a
