

Act (5 U.S.C. 601 *et seq.*), we need not conduct at this point an examination of impacts on small business. However, we welcome any comments regarding small entity considerations embodied in that Act.

### Environmental and Energy Considerations

Issuing this notice will not significantly affect either the quality of the human environment or the conservation of energy resources because the notice merely seeks information and is not proposing any change in current rules or policy. We preliminarily conclude that, even if we subsequently decide to grant the relief sought by petitioners, an environmental assessment would not be necessary under our regulations because the proposed action would not result in changes in carrier operations that exceed the thresholds established in our regulations. See 49 CFR 1105.6(c)(2). We invite comments on the environmental and energy impacts of the proposal.

**Authority:** 49 U.S.C. 10321 and 10526, and 5 U.S.C. 553.

Public hearing requests were received during the allotted time period from parties in Kansas, Oklahoma, and Texas.

Anyone expecting to make an oral presentation at these hearings is encouraged to provide a written copy of their statement to the hearing officer prior to the start of the hearing. #### Listing Endangered and Threatened Species; Shortnose Sturgeon in the Kennebec River System (Maine)

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of petition finding, initiation of status review; request for comments.

**SUMMARY:** NMFS finds that a petition to remove the shortnose sturgeon (*Acipenser brevirostrum*) population in the Kennebec River system (Androscoggin, Kennebec and Sheepscot Rivers) from the Endangered Species List presents substantial information indicating that the requested action may be warranted. Therefore, NMFS is initiating a status review on the stock to determine if delisting is warranted. To ensure that this status review is complete, NMFS is soliciting information and data regarding the petitioned stock of shortnose sturgeon.

**DATES:** Comments and information must be received by March 7, 1995.

**ADDRESSES:** Copies of the petition are available from, and information should be submitted to, Chief, Habitat and Protected Resources Division, NMFS, One Blackburn Drive, Gloucester, MA 01930-2298.
