

used if approved by the Manager, Seattle Aircraft Certification Office (ACO), FAA, Transport Airplane Directorate. Operators shall submit their requests through an appropriate FAA Principal Maintenance Inspector, who may add comments and then send it to the Manager, Seattle ACO.

Note 2: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Seattle ACO.

(e) Special flight permits may be issued in accordance with sections 21.197 and 21.199 of the Federal Aviation Regulations (14 CFR 21.197 and 21.199) to operate the airplane to a location where the requirements of this AD can be accomplished.

(f) The modification shall be done in accordance with GATX/Airlog Service Bulletin 94-MG-1000-009, dated May 4, 1994. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies may be obtained from GATX/Airlog Company, Tulsa International Airport, P.O. Box 582527, Tulsa, Oklahoma 74158. Copies may be inspected at the FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

(g) This amendment becomes effective on January 23, 1995.

Issued in Renton, Washington, on December 27, 1994.

James V. Devany,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910-13-U

14 CFR Part 71

[Airspace Docket No. 94-AGL-33]

Establishment of Class E Airspace Areas; Moline, IL, Springfield, IL, Grand Rapids, MI, and South Bend, IN

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action establishes Class E airspace areas at Quad-City Airport, Moline, IL; Capital Airport, Springfield, IL; Kent County International Airport, Grand Rapids, MI; and Michiana Regional Transportation Center Airport, South Bend, IN. Presently, these areas are designated as Class C airspace when the associated control towers are in operation. However, controlled airspace to the surface is needed when the control towers located at these airports are closed. The intended effect of this action is to provide adequate Class E airspace for instrument flight rule (IFR) operations when these control towers are closed.

EFFECTIVE DATE: 0901 UTC, March 30, 1995.

FOR FURTHER INFORMATION CONTACT: Jeffrey L. Griffith, Air Traffic Division, System Management Branch, AGL-530, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018, telephone (708) 294-7568.

SUPPLEMENTARY INFORMATION:

History

On November 30, 1994, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) to establish Class E airspace areas at Moline, IL, Springfield, IL, Grand Rapids, MI, South Bend, IN (59 FR 61299). Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received.

The coordinates for this airspace docket are based on North American Datum 83. Class E airspace designations are published in Paragraph 6002 of FAA Order 7400.9B dated July 18, 1994, and effective September 16, 1994, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

The Rule

This amendment to part 71 of the Federal Aviation Regulations establishes Class E airspace areas at Moline, IL, Springfield, IL, Grand Rapids, MI, and South Bend, IN. Currently these airspace areas are designated as Class C when the associated control towers are in operation. However, controlled airspace to the surface is needed for IFR operations at Quad-City Airport, Moline, IL; Capital Airport, Springfield, IL; Kent County International Airport, Grand Rapids, MI; and Michiana Regional Transportation Center Airport, South Bend, IN, when the control towers are closed. The intended effect of this action is to provide adequate Class E airspace for IFR operations at these airports when these control towers are closed.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated

impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—[AMENDED]

1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. app. 1348(a), 1354(a), 1510; E.O. 10854, 24 FR 9565, 3 CFR, 1959-1963 Comp., p. 389; 49 U.S.C. 106(g); 14 CFR 11.69.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9B, Airspace Designations and Reporting Points, dated July 18, 1994, and effective September 16, 1994, is amended as follows:

Paragraph 6002 Class E airspace areas designated as a surface area for an airport.

* * * * *

AGL IL E2 Moline, IL [New]

Moline, Quad-City Airport, IL
(Lat. 41°26'56" N., long. 90°30'24" W.)

Within a 5-mile radius of the Quad-City Airport. This Class E airspace area is effective during the specific dates and times established in advance by a Notice to Airmen. The effective dates and times will thereafter be continuously published in the Airport/Facility Directory.

* * * * *

AGL IL E2 Springfield, IL [New]

Springfield, Capital Airport, IL
(Lat. 39°50'38" N., long. 89°40'39" W.)

Within a 5-mile radius of the Capital Airport. This Class E airspace area is effective during the specific dates and times established in advance by a Notice to Airmen. The effective dates and times will thereafter be continuously published in the Airport/Facility Directory.

* * * * *

AGL MI E2 Grand Rapids, MI [New]

Grand Rapids, Kent County International Airport, MI
(Lat. 42°52'58" N., long. 85°31'26" W.)

Within a 5-mile radius of the Kent County International Airport. This Class E airspace area is effective during the specific dates and times established in advance by a Notice to Airmen. The effective dates and times will

thereafter be continuously published in the Airport/Facility Directory.

* * * * *

AGL IN E2 South Bend, IN [New]

South Bend, Michiana Regional Transportation Center Airport, IN (Lat. 41°42'32" N., long. 86°19'07" W.)

Within a 5-mile radius of the Michiana Regional Airport, excluding that airspace within a 1-mile radius of the Chain-O-Lakes Airport, and excluding that airspace 1 mile either side of the 214° bearing from the Chain-O-Lakes Airport to the 5-mile radius of the Michiana Regional Airport. This Class E airspace area is effective during the specific dates and times established in advance by a Notice to Airmen. The effective dates and times will thereafter be continuously published in the Airport/Facility Directory.

BILLING CODE 4910-13-M

14 CFR Part 71

[Airspace Docket No. 94-AEA-01]

Modification of Class E Airspace; New York, NY

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action modifies Class E airspace to accommodate a standard instrument approach procedure (SIAP) for the Teterboro, NJ Airport, for aircraft operating under instrument flight rules (IFR).

EFFECTIVE DATE: 0901 U.T.C. March 30, 1995.

FOR FURTHER INFORMATION CONTACT: Frank Jordan, Designated Airspace Specialist, System Management Branch, AEA-530, F.A.A. Eastern Region, Fitzgerald Federal Building #111, John F. Kennedy International Airport, Jamaica, New York 11430; telephone: (718) 553-0857.

SUPPLEMENTARY INFORMATION:

History

On August 22, 1994, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) to revise Class E Airspace in the vicinity of New York, NY (59 FR 46206). The proposal would establish additional controlled airspace extending upward from 700 feet above the surface of the earth for IFR procedures at the Teterboro, NJ, Airport.

Interested parties were invited to participate in this rulemaking

proceeding by submitting written comments on the proposal to the FAA. One comment was submitted concurring with the proposal.

Airspace Reclassification, in effect as of September 16, 1993, has discontinued the use of the term "Transition Area," and certain controlled airspace extending upward from 700 feet or more above the surface of the earth is now Class E airspace. Except for editorial changes, this amendment is the same as that proposed in the notice. The coordinates for this airspace docket are based on North American Datum 83. Class E airspace designations are published in Paragraph 6005 of FAA Order 7400.9B, Airspace Designations and Reporting Points, dated July 18, 1994, and effective September 16, 1994, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The Rule

This amendment to part 71 of the Federal Aviation Regulations revises Class E airspace in the vicinity of New York, NY, for aircraft utilizing SIAPS at the Teterboro, NJ, Airport.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—[AMENDED]

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. app. 1348(a), 1354(a), 1510; E.O. 10854, 24 FR 9565, 3 CFR, 1959-1963 Comp., p. 389; 49 U.S.C. 106(g); 14 CFR 11.69.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9B, Airspace Designations and Reporting Points, dated July 18, 1994, and effective September 16, 1994, is amended as follows:

Paragraph 6005—Class E airspace areas extending upward from 700 feet or more above the surface of the earth
