**NUCLEAR REGULATORY COMMISSION**

[Docket No. 40-8968]

**Hydro Resources, Inc.**

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Notice of extension of public comment period.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC), in cooperation with the U.S. Bureau of Land Management (BLM) and U.S. Bureau of Indian Affairs (BIA), has published a Draft Environmental Impact Statement (DEIS) regarding the proposed construction and operation of an in-situ leach (ISL) project in McKinley County, New Mexico. The DEIS describes and evaluates the potential environmental impacts of granting Hydro Resources, Inc. combined source and byproduct material license and minerals operating leases for Federal and Indian lands for the ISL project. The public comment period for this DEIS is being extended from January 7, 1995 to February 28, 1995.

**DATES:** Written comments should be received on or before February 28, 1995, at the address listed below. Public meetings on this DEIS will be held at times and locations to be announced in a future notice.

**ADDRESSES:** A free single copy of this DEIS (NUREG-1508) may be requested by those considering public comment by writing to the NRC Publications Section, ATTN: Superintendent of Documents, U.S. Government Printing Office, P.O. Box 37082, Washington, DC 20013-7082. A copy is also available for inspection and/or copying in the NRC Public Document Room, 2120 L St. NW., Washington, DC.

Any interested party may submit comments on this document for consideration by the staff. To be certain of consideration, comments on this report must be received by February 28, 1995. Comments received after the due date will be considered to the extent practical. Comments on the DEIS should be sent to Chief, High-Level Waste and Uranium Recovery Projects Branch, Mail Stop TWFN 7-J9, Division of Waste Management, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

**FOR FURTHER INFORMATION CONTACT:** Mr. Michael C. Layton, High-Level Waste and Uranium Recovery Projects Branch, Mail Stop TWFN 7-J9, Division of Waste Management, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Telephone 301/415-6676.

**SUPPLEMENTARY INFORMATION:** The NRC, in cooperation with the BLM and the BIA, has prepared a DEIS regarding the administrative action of authorizing Hydro Resources, Inc. (HRI), to conduct in-situ leach (ISL) uranium mining, also known as solution mining, in compliance with a combined source and byproduct material license issued by the NRC, and minerals operating leases issued for Federal and Indian lands by the BLM and BIA. The license and leases would provide programmatic and regulatory oversight in administrative matters; impose operating restrictions; and specify monitoring, recordkeeping, and reporting requirements. The DEIS describes the evaluation conducted by the interagency review group concerning (1) the purpose of and need for the proposed action, evaluated under NEPA and the agencies' implementing regulations, (2) alternatives considered, (3) existing environmental conditions, and (4) environmental consequences of the proposed action and proposed mitigating measures. This DEIS

concludes, after weighing the environmental, technical, and other benefits of the proposed project against the environmental and other costs, that the appropriate action is to issue the requested license and leases authorizing the applicant to proceed with the project as discussed in this DEIS.

A Notice of Availability and Notice of Opportunity for Hearing were published previously (59 FR 56557, November 14, 1994). Public comment on the DEIS was solicited at that time. Several requests have been received by the NRC to extend the 60-day public comment period. The NRC accedes to these requests. This notice is to inform the public that comments on this report must be received by February 28, 1995. Comments received after this date will be considered to the extent practical. Any interested party may submit comments on this document for consideration by the staff.

Dated at Rockville, Maryland, this 3rd day of January 1995.
