requested a 30 day extension to the comment period.

The Commission believes that this extension will allow a more complete response to the proposed requirements. It will permit the Commission to receive a more in depth response from a company that has a significant interest in the proposed rule. Granting a 30-day extension of the comment period should not increase the risk of young children being poisoned by naproxen because the two companies marketing naproxen preparations are voluntarily using childresistant packaging.

# Approval and Promulgation of Implementation Plans; Approval of Revisions to Florida Regulations

AGENCY: Environmental Protection

Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** The EPA proposes to approve the state implementation plan (SIP) revision submitted by the State of Florida for the purpose of establishing Reasonably Available Control Technique standards for stationary volatile organic compounds (VOC) and nitrogen (NO<sub>X</sub>) sources and New Source Review Standards for NO<sub>X</sub>. In the final rules section of this Federal Register, the EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to that direct final rule, no further activity is contemplated in relation to this proposed rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time. **DATES:** To be considered, comments must be received by February 10, 1995. ADDRESSES: Written comments on this

action should be addressed to Alan
