

National Oceanic and Atmospheric Administration

[I.D. 122294D]

Gulf of Mexico Fishery Management Council; Public Meetings

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of agenda revision.

SUMMARY: An agenda for public meetings of the Gulf of Mexico Fishery Management Council (Council) and its committees, which are scheduled for January 16–19, 1995, was published in the **Federal Register** on January 4, 1995, (60 FR 443). The following change is made to the agenda for January 18:

8:45 a.m. - 3:00 p.m.—receive Public Testimony on the Cooperative Texas Shrimp Closure, the Draft Reef Fish Amendment 8 and Recreational Red Snapper Bag Limits (NOTE: Testimony cards must be turned in to staff before the start of public testimony);

All other information originally published remains unchanged.

FOR FURTHER INFORMATION CONTACT: Wayne E. Swingle, Executive Director, telephone: (813) 228–2815.

Dated: January 6, 1995.

David S. Crestin,

Acting Director, Office of Fisheries Conservation and Management, National Marine Fisheries Service.

BILLING CODE 3510–22–F

Monterey Bay National Marine Sanctuary Advisory Council; Meetings

AGENCY: Sanctuaries and Reserves Division (SRD), Office of Ocean and Coastal Resource Management (OCRM), National Ocean Service (NOS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

ACTION: Monterey Bay National Marine Sanctuary Advisory Council open meeting.

SUMMARY: The Advisory Council was established in December 1993 to advise NOAA's Sanctuaries and Reserves Division regarding the management of the Monterey Bay National Maritime Sanctuary.

TIME AND PLACE: Friday, January 20, 1995, from 8:30 until 5:00. The meeting will be held at the Pacific Grove Natural History Museum, 165 Forest Avenue (intersection of Forest Avenue and Central Avenue), Pacific Grove, California.

AGENDA: General issues related to the Monterey Bay National Marine Sanctuary are expected to be discussed, including strategic planning, the ATOC Project Draft Environmental Impact Statement, and shark chumming.

PUBLIC PARTICIPATION: The meeting will be open to the public. Seats will be available on a first-come, first-served basis.

FOR FURTHER INFORMATION CONTACT:

Scott Kathey at (408) 647–4201 or Elizabeth Moore at (301) 713–3141.

Federal Domestic Assistance Catalog Number 11.429, Marine Sanctuary Program

Dated: January 9, 1995.

W. Stanley Wilson,

Assistant Administrator for Ocean Services and Coastal Zone Management.

BILLING CODE 3510–08–M

[I.D. 122794B]

Endangered Species; Permits

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Issuance of Modification 3 to Scientific Research and Enhancement Permit 848 (P507D).

On October 27, 1994, an application was filed by the Washington Department of Fish and Wildlife (WDFW) for a modification to their scientific research and enhancement Permit 848. Permit 848 authorizes WDFW to collect adult, listed, Snake River spring chinook salmon (*Oncorhynchus tshawytscha*) from the Tucannon River for a captive broodstock program and to release the progeny of the listed adult salmon collected for broodstock.

For Modification 3 to Permit 848, WDFW requested an alteration of their annual release strategy for the hatchery progeny of the listed adult salmon collected for broodstock as authorized by the Endangered Species Act of 1973 (ESA) (16 U.S.C. 1531–1543) and the NMFS regulations governing listed fish and wildlife permits (50 CFR parts 217–222). WDFW proposes to voluntarily release one third to one half of 45,000 – 64,000 presmolts or smolts from the hatchery and to outplant the remainder several miles upstream of the hatchery into the upper Tucannon River watershed during February through April of each year. WDFW had previously been authorized to scatter-plant up to 64,000 hatchery salmon fry in or near October of each year.

Notice is hereby given that on December 30, 1994, as authorized by the provisions of the ESA, NMFS issued Modification 3 to Permit 848 for the above taking, subject to certain conditions set forth therein.

Issuance of this modification, as required by the ESA, was based on a finding that such modification: (1) Was applied for in good faith; (2) will not operate to the disadvantage of the listed species which is the subject of the permit; and (3) is consistent with the purposes and policies set forth in section 2 of the ESA. This modification was also issued in accordance with and is subject to parts 217–222 of Title 50 CFR, the NMFS regulations governing listed species permits.

The application, permit, and supporting documentation are available for review by interested persons in the following offices, by appointment:

Office of Protected Resources, NMFS, NOAA, 1315 East-West Highway, Silver Spring, MD 20910–3226 (301–713–1401); and

Environmental and Technical Services Division, NMFS, NOAA, 525 North East Oregon St., Suite 500, Portland, OR 97232 (503–230–5400).

Dated: January 5, 1995.

William W. Fox, Jr.,

Director, Office of Protected Resources, National Marine Fisheries Service.
