

representatives, and undertakes other studies and activities related to those issues as directed by the Commission. The Committee interacts with representatives of the Advisory Committee on Reactor Safeguards, the Department of Energy, NRC, other Federal, State, and local agencies, Indian Nations, private organizations, etc., as appropriate to fulfill its responsibilities.

A wide variety of engineering and scientific skills are needed to conduct the broadly based review processes required in the Committee's work. Engineers and scientists with work experience in the high- and low-level radioactive waste disposal programs coupled with broad experience in a pertinent technical field such as nuclear chemistry, nuclear science and technology, risk assessment, and systems engineering are highly sought.

Individuals should have a minimum of 20 years' work experience in related fields or fields that can be applied directly to the work of the Committee. In addition, individuals must be able to devote approximately 50–100 days per year to Committee business. Most meetings are held in Rockville, Maryland, although some additional travel is required to various sites outside the Rockville area.

Because of potential conflict of interest, individuals currently involved in areas related to nuclear waste disposal might be of limited use to the Committee. The degree and nature of any such involvement will be carefully considered. Each qualified nominee's financial interests must be reconciled with applicable Federal and NRC rules and regulations prior to final appointment to the Committee. This may result in the candidate being required to divest himself or herself of securities issued by nuclear industry entities, discontinue research projects, and/or limit involvement in certain types of contracts, based on a determination of conflict of interest.

Copies of a résumé describing the educational and professional backgrounds of the nominee, including any special accomplishments, professional references, current address, and telephone number should be provided. All qualified nominees will receive full consideration. Appointment will be made without regard to such factors as race, color, religion, national origin, sex, age, or handicapped condition. Nominees must be granted security clearances based on a full background investigation and be citizens of the United States. Applications will be accepted until March 15, 1995.

Dated: January 6, 1995.
