BILLING CODE 4910-13-M

Type Approval of Differential Global Positioning System (DGPS) Ground Stations Request for Industry Input

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice.

SUMMARY: The Federal Aviation Administration requests information and assistance in exploring various methods and criteria for evaluation and approval of commercially developed ground facilities designed to provide local area augmentation to the Global Positioning System (GPS) by the production and delivery of differential corrections and integrity messages. The FAA will host a meeting of interested parties to provide a forum for information exchange that will assist the agency in evaluating the technical merits, efficiency, and cost effectiveness of the alternative methods under consideration. In addition, interested parties are invited to propose other methods or criteria, not identified in this notice but worthy of consideration, that may improve or expedite the evaluation and approval process. The methods identified thus far for consideration by the FAA are: Mathematical modeling and predictive analysis

Environmental exposure testing
Bench testing
Operational testing
Spurious and harmonic radio frequency emission and sensitivity testing
Software audit and validation
Flight testing

In addition to information on these or other testing methods, comments on their relative merit and benefits are welcome.

DATES: The meeting will be held on February 7-8, 1995.

LOCATION: The site of the meeting will be: The Hotel Sofitel, 425 N. Sam Houston Parkway East, Houston, Texas 77060, (713) 445-9000.

Those persons staying at the hotel must make reservations not later than January 26. Reservations should be requested as the type-acceptance industry meeting group.

ADDRESSES: To insure that adequate facilities are available, individuals or organizations that will attend are requested to notify the FAA of their intention to attend. Responses should be mailed to: Federal Aviation Administration, Office of the Associate Administrator for Air Traffic Services, Attn: Airway Facilities Advanced Technologies Implementation Staff, ALM-6, 800 Independence Avenue, SW., Washington, DC 20591.

FOR FURTHER INFORMATION CONTACT: William Dixon, Manager, Advanced Technologies Implementation Staff, ALM-6, Airway Facilities Requirements and Life Cycle Management, 800 Independence Avenue SW., Washington, DC 20591; telephone 202-267-9147.

SUPPLEMENTARY INFORMATION: The evaluation and approval of DGPS ground facilities is being conducted to support early implementation of Special Category I (SCAT-I) approaches. These efforts are based upon the recommendations of RTCA Special Committee 159, as documented in the Minimum Aviation System Performance Standards DGNSS Instrument Approach System: Special Category I (SCAT-I), DO-217, and the guidance provided by FAA Order 8400.11, IFR Approval for Differential Global Positioning System (DGPS) Special Category I Instrument Approaches Using Private Ground Facilities.

Issued in Washington, DC on January 6, 1995.

Joaquin Archilla,

Director of Airway Facilities.
