FOR FURTHER INFORMATION CONTACT: Scott Speer, System Management Branch, AWP-530, Air Traffic Division, Western-Pacific Region, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale,

SUPPLEMENTARY INFORMATION:

History

On July 15, 1994, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) by modifying the Class E airspace area at Marysville, CA (59 FR 36099). This action will provide additional controlled airspace to accommodate an ILS SIAP to Runway 15 at Lincoln Municipal Airport.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments to the proposal were received. Class E airspace areas extending from 700 feet or more above the surface are published in paragraphs 6005 of FAA Order 7400.9B, dated July 18, 1994, and effective September 16, 1994, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The Rule

This amendment to part 71 of the Federal Aviation Regulation amends the Class E airspace area at Marysville, CA, by providing additional controlled airspace for aircraft executing the ILS Runway 15 SIAP to the Lincoln Municipal Airport.

The FAA has determined that this regulation only involves an established body of technical regulations for which

frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

[Airspace Docket No. 94-AEA-02]

Establishment of Class E5 Airspace; Hazelton, PA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action establishes Class E airspace in the vicinity of Hazelton, PA, to contain aircraft operating under instrument flight rules (IFR) to and from the Hazelton Municipal Airport utilizing existing IFR procedures to and from the airport.

EFFECTIVE DATE: 0901 U.T.C., March 30, 1995.

FOR FURTHER INFORMATION CONTACT: Frank Jordan, Designated Airspace Specialist, System Management Branch, AEA-530, F.A.A. Eastern Region, Fitzgerald Federal Building #111, John F. Kennedy International Airport, Jamaica, New York 11430; telephone: (718) 553-0857.

SUPPLEMENTARY INFORMATION:

History

On July 29, 1994, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR Part 71) to establish Class E airspace at Hazelton Municipal Airport, PA (59 FR 42535). The proposal would establish that amount of controlled airspace as deemed necessary by the FAA to contain aircraft utilizing existing IFR procedures to and from the airport.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received.

Airspace Reclassification, in effect as of September 16, 1993, has discontinued the use of the term "Transition Area," and Transition Area is now Class E airspace. Except for editorial changes, this amendment is the same as that proposed in the notice. The coordinates for this airspace docket are based on North American Datum 83. Class E airspace designations for airspace

extending upward from 700 feet above the surface of the earth are published in Paragraph 6005 of FAA Order 7400.9B, Airspace Designations and Reporting Points, dated July 18, 1994, and effective September 16, 1994, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The Rule

This amendment to Part 71 of the Federal Aviation Regulations establishes Class E airspace at Hazelton, PA, to contain aircraft utilizing existing IFR procedures to and from the Hazelton Municipal Airport, PA.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
