

environmental impact statement is not required under the National Environmental Policy Act of 1969. Because the Department, by removing these regulations, is simply relying on more comprehensive internal regulations which are already in place, the Department for good cause, within the meaning of 5 U.S.C. 553(b)(B), finds that notice and public comment on the rule are not required. Finally, the DOI has determined that the rule has no federalism implications affecting the relationship between the national government and the states, as outlined in Executive Order 12612.

This rule does not contain information collection requirements which require approval by the Office of Management and Budget under 44 U.S.C. 3501 *et seq.*
