SUPPLEMENTARY INFORMATION:

I. Background

Under Section 1115 of the Social Security Act (the Act), the Department of Health and Human Services (HHS) may consider and approve research and demonstration proposals with a broad range of policy objectives. These demonstrations can lead to improvements in achieving the purposes of the Act.

In exercising her discretionary authority, the Secretary has developed a number of policies and procedures for reviewing proposals. On September 27, 1994, we published a notice in the **Federal Register** (59 FR 49249) that specified (1) the principles that we ordinarily will consider when approving or disapproving

demonstration projects under the authority in section 1115(a) of the Act; (2) the procedures we expect States to use in involving the public in the development of proposed demonstration projects under section 1115; and (3) the procedures we ordinarily will follow in reviewing demonstration proposals. We are committed to a thorough and expeditious review of State requests to conduct such demonstrations.

II. Listing of New and Pending Proposals for the Months of November and December 1994

As part of our procedures, we are publishing a monthly notice in the **Federal Register** of all new and pending proposals. This notice contains proposals for the months of November and December 1994. This initial publication of information on section 1115 demonstration proposals lists all proposals submitted, approved or disapproved since January 1, 1993. Future notices will only list actions occurring in a single month, including new submissions, pending proposals, approvals, and disapprovals. Proposals submitted in response to a grant solicitation or other competitive process will be reported as received during the month that such grant or bid is awarded, so as to prevent interference with the awards process.
