BILLING CODE 4910-60-M

DEPARTMENT OF THE TREASURY

Fiscal Service

Fee Schedules for the Issuance of Definitive Securities and TREASURY DIRECT Securities Accounts

AGENCY: Bureau of the Public Debt, Fiscal Service, Treasury.

ACTION: Notice.

SUMMARY: This notice announces two schedules of fees to be assessed for marketable Treasury securities. This assessment of fees implements a provision of the Treasury, Postal Service and General Government Appropriations Act of 1995. Treasury will collect fees to offset the cost of providing services. Fees will be assessed for each definitive security issued to customers, and for annual maintenance for certain TREASURY DIRECT securities accounts. A final rule, which

authorizes the assessment of fees, is published in this issue of the **Federal Register**.

EFFECTIVE DATE: This notice is effective January 23, 1995. However, fees will be assessed beginning January 30, 1995, for definitive securities, and May 19, 1995, for securities accounts in the TREASURY DIRECT book-entry system.

FOR FURTHER INFORMATION CONTACT:

Maureen Parker, Director, Division of Securities Systems, Bureau of the Public Debt (304) 480-7761, Susan Klimas, Attorney-Adviser, Office of the Chief Counsel, Bureau of the Public Debt (304) 480-5192.

SUPPLEMENTARY INFORMATION: The Treasury, Postal Service and General Government Appropriations Act of 1995 (Pub.L. 103-329), authorizes the Secretary to collect a fee of not less than \$46 for each definitive security issued to customers. The legislation also authorizes the Secretary to collect an annual fee for each TREASURY DIRECT Investor Account, referred to in the regulations as a "Securities account", holding securities which exceed \$100,000 in par value. Congress granted the authority to assess fees to enable the Treasury to recover the costs of providing these services to investors.

Fee Schedule for Definitive Securities

Part 306 was amended by a final rule published separately in this issue of the **Federal Register**, to add a new section 306.24.

This section provides that a fee will be charged for each definitive security issued on a transfer, reissue, exchange or withdrawal from book-entry, or the granting of relief on account of loss or theft, in accordance with a fee schedule published in the **Federal Register**. The fees will be imposed beginning January 30, 1995, and the fee schedule appears below in this notice.

Investors requesting a transaction that results in the issue of a registered or bearer Treasury note or bond will be charged a fee of \$50 for each new certificate issued. Payment in the form of a check or money order, payable to the Federal Reserve Bank processing the transaction, must accompany the request. Any request submitted without the fee payment will be returned to the investor. Payments from depository institutions may be debited from the reserve account maintained by the institution at the appropriate Federal Reserve Bank.

Fee Schedule for Securities in the TREASURY DIRECT Book-entry System

31 CFR Part 357, which governs Treasury securities held in the TREASURY DIRECT book-entry system, was amended to add a new paragraph (f) to Section 357.20. Paragraph (f) provides that accounts holding securities above a stipulated par amount will be charged a fee in accordance with a fee schedule published in the **Federal Register**. The
