## SUPPLEMENTARY INFORMATION:

### Introduction

On August 26, 1994, President Clinton signed into law the Hazardous Materials Transportation Authorization Act of 1994 (HMTAA; Pub. L. 103-311). Section 119 of the HMTAA amended 49 U.S.C. 5116 to add a new subsection (j) concerning supplemental training grants. These supplemental grants are intended to further the purposes of the State and Indian tribe grants under section 5116(b) to train public sector employees to respond to accidents and incidents involving hazardous material. Section 5116(j)(1) provides that the Secretary of Transportation shall, subject to the availability of funds, make grants to national nonprofit employee organizations engaged solely in firefighting to train instructors to conduct training programs for individuals responding to hazardous materials accidents. Section 5116(j)(2) requires the Secretary to consult with interested organizations to identify regions or locations in which fire departments are in need of training and prioritize those needs. Section 5116(j)(3) provides that funds granted to an organization may only be used to train instructors to conduct hazardous materials response training programs, to purchase equipment used to train those instructors, and to disseminate information necessary to conduct those training programs. Section 5116(j)(4) provides that a grantee must agree to use courses developed under the National Training Curriculum, and section 5116(j)(5) provides that the Secretary may impose such additional terms and conditions on grants as the Secretary determines are necessary to carry out the objectives of the supplemental grant program. RSPA asks commenters to address the definitions of eligible applicants and criteria for grant selection described below.

### Availability of Funds

Section 119(b) of the HMTAA amended 49 U.S.C. 5127(b) to provide that there shall be available to the Secretary, from the registration fee account established under section 5116(i), \$250,000 for each of fiscal years
