NUCLEAR REGULATORY COMMISSION

[Docket No. 50-131]

Omaha Veterans Administration Medical Center; Consideration of Application for Renewal of Facility License

The United States Nuclear Regulatory Commission (the Commission) is considering renewal of Facility License No. R-57, issued to the Omaha Veterans Administration Medical Center (VA or the licensee) for operation of the VA TRIGA Research Reactor located in the Omaha Veterans Administration Medical Center in the city of Omaha, Douglas County, Nebraska.

The renewal would extend the expiration date of Facility License No. R-57 for 20 years from date of issuance, in accordance with the licensee's timely application for renewal dated May 10, 1993.

Prior to a decision to renew the license, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations.

Within 30 days of publication of this notice, the licensee may file a request for a hearing with respect to renewal of the subject facility license and any person whose interest may be affected by this proceeding and who wishes to participate as a party in the proceeding must file a written request for a hearing and a petition for leave to intervene. Requests for a hearing and a petition for leave to intervene shall be filed in accordance with the Commission's "Rules of Practice for Domestic Licensing Proceedings" in 10 CFR Part 2. Interested persons should consult a current copy of 10 CFR 2.714 which is available at the Commission's Public

Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC 20037. If a request for a hearing or petition for leave to intervene is filed within the time prescribed above, the Commission or an Atomic Safety and Licensing Board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel, will rule on the request and/or petition and the Secretary or the designated Atomic Safety and Licensing Board will issue a notice of hearing or an appropriate order.

As required by 10 CFR 2.714, a petition for leave to intervene shall set forth with particularity the interest of the petitioner in the proceeding, and how that interest may be affected by the results of the proceeding. The petition should specifically explain the reasons why intervention should be permitted with particular reference to the following factors: (1) The nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. The petition should also identify the specific aspect(s) of the subject matter of the proceeding as to which petitioner wishes to intervene. Any person who has filed a petition for leave to intervene or who has been admitted as a party may amend the petition without requesting leave of the Board up to fifteen (15) days prior to the first prehearing conference scheduled in the proceeding, but such as amended petition must satisfy the specificity requirements described above.

Not later than fifteen (15) days prior to the first prehearing conference scheduled in the proceeding, a petitioner shall file a supplement to the petition to intervene which must include a list of the contentions which are sought to be litigated in the matter. Each contention must consist of a specific statement of the issue of law or fact to be raised or controverted. In addition, the petitioner shall provide a brief explanation of the bases of the contention and a concise statement of the alleged facts or expert opinion which support the contention and on which the petitioner intends to rely in proving the contention at the hearing. The petitioner must also provide references to those specific sources and documents of which the petitioner is aware and on which the petitioner intends to rely to establish those facts or expert opinion and the petitioner must provide sufficient information to show that a genuine dispute exists with the

applicant on a material issue of law or fact. Contentions shall be limited to matters within the scope of the amendment under consideration. The contention must be one which, if proven, would entitle the petitioner to relief. A petitioner who fails to file such a supplement which satisfies these requirements with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing, including the opportunity to present evidence and cross-examine witnesses.

A request for a hearing or a petition for leave to intervene must be filed with Secretary of the Commission, U.S.

Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Services Branch, or may be delivered to the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW, Washington, D.C. within the time prescribed above.

Where petitions are filed during the last ten (10) days of the notice period, it is requested that the petitioner promptly so inform the Commission by a toll-free telephone call to Western Union at 1-(800) 325-6000 [in Missouri 1-(800) 342-6700]. The Western Union operator should be given Datagram Identification Number 3737 and the following message addressed to Seymour H. Weiss: petitioner's name and telephone number; date petition was mailed; Omaha Veterans Administration Medical Center; and publication date and page number of this **Federal Register** notice. A copy of the petition should also be sent to the Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and to Mr. Paul L. Pullum, District Council Attorney, Mail Stop 02, Veterans Administration Medical Center, 4101 Woolworth Avenue, Omaha, Nebraska 68105, attorney for the licensee.

Nontimely filings of petitions of leave to intervene, amended petitions, supplemental petitions and/or requests for hearing will not be entertained absent a determination by the Commission, the presiding officer or the presiding Atomic Safety and Licensing Board that the petition and/or request should be granted based upon a balancing of factors specified in 10 CFR 2.714(a)(1)(i)-(v) and 2.714(d).

For further details with respect to this action, see the application for renewal dated May 10, 1993, which is available for public inspection at the

Commission's Public Document Room at 2120 L Street, NW, Washington, D.C. 20555.

Dated at Rockville, Maryland, this 20th day of January, 1995.

For the Nuclear Regulatory Commission.

Singh S. Bajwa,

Acting Director, Non-Power Reactors and Decommissioning Project Directorate, Division of Project Support, Office of Nuclear Reactor Regulation.

In the Matter of All Reactor Licensees With Installed Thermo-Lag 330-1 Fire Barrier Material Receipt of Petition for Director's Decision Under 10 CFR 2.206

Notice is hereby given that by postcard dated November 14, 1994, Mr. Bob DeBolt requests that the U.S. Nuclear Regulatory Commission (NRC) take action with regard to the use of Thermo-Lag by all reactor licensees.

The Petitioner requests shutdown of all reactors in which Thermo-Lag is used until it has been removed and replaced. As the basis for this request, the Petitioner states that Thermo-Lag fails to meet NRC regulations concerning combustibility and that the manufacturer of Thermo-Lag was indicted for defrauding the Government and the utilities.

The Petition is being treated pursuant to 10 CFR 2.206 of the Commission's regulations and has been referred to the Director of the Office of Nuclear Reactor Regulation. As provided by 10 CFR 2.206, appropriate action will be taken on this Petition within a reasonable time. By letter dated January 19, 1995, the Director denied the request for immediate suspension of the operating licenses of all reactors in which Thermo-Lag is used.

A copy of the Petition and the Director's letter are available for inspection at the Commission's Public Document Room at 2120 L Street, NW, Washington, DC.

Dated at Rockville, Maryland, this 19th day of January 1995.

For the Nuclear Regulatory Commission.

Extension

Industry Guides; File No. 270-69

Notice is hereby given pursuant to the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et seq.*), that the Securities and Exchange Commission ("Commission") has requested extension of the Industry Guides.

The industry guides are used by registrants in certain specified industries as disclosure guidelines in preparing Securities Act and Exchange Act registration statements as well as other Exchange Act filings. The Commission estimates for administrative purposes that the total annual burden with respect to the guides is one hour.

General comments regarding the estimated burden hours should be directed to the Clearance Officer of the Securities and Exchange Commission at the address below. Any comments concerning the accuracy of the estimated average burden hours for compliance with Commission rules and forms should be directed to David T. Copenhafer, Acting Director, Office of Information Technology, Securities and Exchange Commission, 450 Fifth Street, N.W., Washington, D.C. 20549 and Clearance Officer for the Securities and Exchange Commission, Office of Management and Budget, (Project No. 3235-0069), Room 3208, New Executive Office Building, Washington, D.C. 20503.

Dated: January 11, 1995.
