DG&E/Slocum Limited Partnership; Slocum, TX and TA-W-30,339A Dallas Gas & Electric, Inc. Dallas TX; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 USC 2273) the Department of Labor issued a Certification of Eligibility to apply for Worker Adjustment Assistance on December 12, 1994, applicable to all workers of the subject firm. The certification notice will soon be published in the **Federal Register**.

At the request of the company, the Department reviewed the certification for workers of the subject firm. The sales, production and employment data for the Dallas, Texas office was included with the initial investigation; accordingly, the Dallas office met all three of the Worker Group Eligibility Requirements of the Trade Act for certification.

Therefore, the Department is amending the certification by including the Dallas, Texas location of Dallas Gas & Electric, Inc.

The amended notice applicable to TA-W-30,339 is hereby issued as follows:

All workers of DG&E/Slocum Limited Partnership, Slocum, Texas and the Dallas, Texas Office of Dallas Gas & Electric, Inc., engaged in employment related to the production of crude oil who became totally or partially separated from employment on or after September 6, 1993 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Intera Information Technologies, Inc., Denver, CO; Notice of Affirmative Determination Regarding Application for Reconsideration

On November 15, 1994, one of the petitioners requested administrative reconsideration of the Department of Labor's Notice of Negative Determination Regarding Eligibility to Apply for Worker Adjustment Assistance for workers at the subject firm. The Department's Negative Determination was issued on November 4, 1994 and published in the **Federal Register** on November 16, 1994 (59 FR 59252).

New findings show that Intera performed exploration activities and conducted testings at the well site for unaffiliated firms in the oil industry.

Conclusion

After careful review of the application, I conclude that the claim is of sufficient weight to justify reconsideration of the Department of Labor's prior decision. The application is, therefore, granted.

Signed at Washington, D.C., this 13th day of January 1995.

Magnetek, Huntington, IN; Notice of Revised Determination on Reconsideration

On December 16, 1994, the Department issued an Affirmative Determination Regarding Application for Reconsideration for workers and former workers of the subject firm. The notice was published in the **Federal Register** on December 30, 1994 (59 FR 67735).

The initial investigation findings show that the workers producing magnetic components met all the worker group eligibility requirements for certification but the workers producing electronic ballasts did not meet criterion 3 (increased imports) of

the worker group eligibility requirements.

New findings on reconsideration show production of electronic ballasts ceased at Huntington, Indiana in August, 1994 when substantial worker separations occurred. Other findings on reconsideration show increased corporate imports of electronic ballasts from Mexico in 1994.

Conclusion

After careful consideration of the new facts obtained on reconsideration, it is concluded that workers and former workers of MagneTek in Huntington, Indiana were adversely affected by increased imports of articles that are like or directly competitive with magnetic components and electronic ballasts produced at the subject plant. In accordance with the provisions of the Act, I make the following revised determination for workers of MagneTek in Huntington, Indiana.

"All workers of MagneTek in Huntington, Indiana who became totally or partially separated from employment on or after July 26, 1993 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974."

Signed at Washington, D.C., this 11th day of January, 1995.
