Proposed Continuation of Withdrawals; Utah

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The Forest Service proposes that several withdrawals covering about 25,500 acres be continued. Two of the withdrawals proposed to be continued are for the Salt Lake City Watershed, which were created by Acts of Congress. These lands are closed to surface entry, mining and mineral leasing. The remaining lands are closed to surface entry and mining. There are no changes proposed in the segregative effect of any of the withdrawals.

DATES: Comments should be received by May 1, 1995.

ADDRESSES: Comments should be sent to the State Director, Utah State Office, P.O. Box 45155, Salt Lake City, Utah 84145–0155.

FOR FURTHER INFORMATION CONTACT: Randy Massey, Utah State Office, (801) 539–4119.

SUPPLEMENTARY INFORMATION: The Forest Service proposes that the existing land withdrawals identified below, be continued for thirty years, pursuant to section 204 of the Federal Land Policy and Management Act of 1976, 43 U.S.C.

The purpose of these withdrawals is to protect Forest Service administrative sites, recreation areas, and the watershed of the City of Salt Lake. The administrative sites and recreation areas were closed to surface entry and mining, while the watershed lands were closed to surface entry, mining and mineral leasing. No change is proposed in the purpose or segregative effect of the withdrawals.

For a period of 90 days from the date of publication of this notice, all persons who wish to submit comments in connection with the proposed withdrawal continuations may present their views in writing to the Chief, Branch of Lands and Minerals Operations, in the Utah State Office.

The authorized officer of the Bureau of Land Management will undertake

such investigations as are necessary to determine the existing and potential demand for the land and its resources. A report will be prepared for consideration by the Secretary of the Interior, the President, and Congress, who will determine whether or not the withdrawals will be continued, and, if so, for how long. The final determination on the continuation of the withdrawals will be published in the **Federal Register**. The two withdrawals for the City of Salt Lake can only be modified by an Act of Congress, so no action will take place with them until Congress acts. The existing withdrawals will continue until such final determination is made.

Terry Catlin,

Chief, Branch of Lands and Minerals Operations.

National Park Service**Notice of Availability of Draft Environmental Impact Statement for Foothills Parkway, Section 8D, Great Smoky Mountains National Park, Tennessee**

SUMMARY: This notice announces the availability of a Draft Environmental Impact Statement (DEIS) for construction of Section 8D of the Foothills Parkway. Section 8D lies between Wear Valley and the Pigeon Forge/Gatlinburg Spur in Tennessee. This notice also announces public meetings for the purpose of receiving public comments on the DEIS.

DATES: The DEIS will be on public review until March 17, 1995. Any review comments must be postmarked no later than March 17, 1995, and addressed to the Superintendent, Great Smoky Mountains National Park, at the following address. The dates of the public meetings for the DEIS are February 6, 1995, from 6:30 p.m. to 8:30 p.m. at Gatlinburg American Legion Post 202, Highway 321 North, Gatlinburg, Tennessee, and February 7, 1995, from 5 p.m. to 7 p.m. at Wearwood School Cafeteria, 3150 Wearwood Drive, Sevierville, Tennessee.

FOR FURTHER INFORMATION CONTACT: Superintendent, Great Smoky Mountains National Park, 107 Park Headquarters Road, Gatlinburg, Tennessee 37738, Telephone: (615) 436-1200.

SUPPLEMENTARY INFORMATION: This DEIS assesses the impacts of the proposed construction of this 10-mile section of the Foothills Parkway. The alternative

of not constructing Section 8D is also assessed. Copies of the DEIS are available for review at the Regional Office in Atlanta and also at the park. A limited number of copies are available on request from the Superintendent at the above address.

Dated: January 17, 1995.

W. Thomas Brown,

Associate Regional Director, Planning and External Affairs, Southeast Region.

BILLING CODE 4310-70-M

Notice of Temporary Closure for Direct Reduction of the Population of Nutria, a Non-Native Species, Jean Lafitte National Historical Park and Preserve, Louisiana

SUMMARY: Jean Lafitte National Historical Park and Preserve proposed to directly remove concentrations of nutria from the Barataria Preserve Unit between February 1 and March 15, 1995. The authority for this action is Public Law 95-625, which established Jean Lafitte National Historical Park and Preserve, and specifically authorized hunting and trapping in the Barataria Preserve Unit. Nutria are large rodents that were introduced into Louisiana from South America during the 1930's. Nutria multiply rapidly and cause extensive long-term damage to the coastal marsh environment. The depletion of vegetative cover and soil erosion caused by nutria can be irreversible. If conditions warrant, trained National Park Service rangers will shoot nutria in areas of the greatest concern for marsh damage. Specific areas where reduction operations are carried out will be temporarily closed to the public for reasons of safety. Information as to the specific areas and dates of closure will be available at the Barataria Preserve Visitor Center, 7400 Highway 45, and areas of closure will be posed and patrolled pursuant to 36 CFR 1.7. Direct reduction actions such as this are included as an option in the approved 1990 Trapping Management Plan for the Park's Barataria Preserve Unit. An Environmental Assessment for this plan was released on August 15, 1990, for 30-day public review. Analysis of public and agency comments resulted in a Finding of No Significant Impact. Traditional and contract trapping, which are also approved actions in the plan, have been conducted by Special Use Permit during the past three years. Additional control by direct reduction is now necessary to assure control of nutria in specific areas where nutria damage threatens to undermine the
