Market Statement—Indonesia

Category 435—Women's and Girls' Wool Coats

December 1994

Import Situation and Conclusion

U.S. imports of women's and girls' wool coats, Category 435, from Indonesia reached 35,642 dozen for the year ending September 1994, nearly four times the 9,374 dozen imported a year earlier. During the first nine months of 1994, imports from Indonesia were 35,042 dozen, over five times the 6,933 dozen imported during January-September 1993 and more than four and a half times the 7,533 dozen imported during calendar year 1993. Indonesia became the eighth largest supplier of women's and girls' wool coats, Category 435, to the U.S. market, accounting for 3.5 percent of total Category 435 imports during January-September 1994. Indonesia was ranked twenty-eighth among the major suppliers in calendar year 1993, accounting for 0.7 percent of total Category 435 imports.

The sharp and substantial increase in Category 435 imports from Indonesia is causing a real risk of disruption in the U.S. market for women's and girls' wool coats.

U.S. Production, Import Penetration and Market Share

U.S. production of women's and girls' wool coats, Category 435, declined from 981,000 dozen in 1992 to 922,000 dozen in 1993, a decline of 6 percent. U.S. production continued to decline in 1994, falling to 911,000 dozen produced in the year ending in June 1994, 1 percent below the 924,000 dozen produced in the same period a year earlier. In contrast, U.S. imports of Category 435 increased from 834,000 dozen in 1992 to 1,110,000 dozen in 1993, an increase of 33 percent. Category 435 imports continued to increase in 1994 reaching a record level 1,187,552 dozen during the year ending September 1994, 8 percent above the year ending September 1993 level.

The ratio of imports to domestic production increased from 85 percent in 1992 to 120 percent in 1993, and reached 126 percent during the year

ending June 1994. The domestic manufacturers' share of the market for women's and girls' wool coats, Category 435, declined from 54 percent in 1992 to 45 percent in 1993, a decline of 9 percentage points, and fell to 44 percent during the year ending June 1994.

Duty-Paid Value and U.S. Producers' Price

Approximately 83 percent of Category 435 imports from Indonesia during the year ending September 1994 entered under HTSUSA 6202.11.0010—Women's wool overcoats, carcoats, capes and similar items; and HTSUSA 6204.31.2010—Women's wool suit-type coats, other than silk blend jackets of 30% or more silk. These coats entered the U.S. at landed duty-paid values substantially below U.S. producers' prices for comparable wool coats.

Committee for the Implementation of Textile Agreements

January 13, 1995.

Commissioner of Customs,
Department of the Treasury, Washington, DC 20229.

Dear Commissioner: Under the terms of section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854), and the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as further extended on December 9, 1993; pursuant to the Bilateral Cotton, Wool, Man-Made Fiber, and Silk Blend and Other Vegetable Fiber Textile Agreement of May 8, 1992, as amended and extended, between the Governments of the United States and Indonesia; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended, you are directed to prohibit, effective on January 26, 1995, entry into the United States for consumption and withdrawal from warehouse for consumption of wool textile products in Category 435, produced or manufactured in Indonesia and exported during the period beginning on December 29, 1994 and extending through March 28, 1995, in excess of 12,475 dozen.¹

Textile products in Category 435 which have been exported to the United States on and after July 1, 1994 shall remain subject to the levels for Group II and the Group II subgroup established in the directive dated November 3, 1994 for the period July 1, 1994 through December 31, 1994. Also, Category 435 shall remain subject to monitoring in Group II and the Group II subgroup for the January 1, 1995 through December 31, 1995 period (see directive dated December 13, 1994).

Textile products in Category 435 which have been exported to the United States prior to December 29, 1994 shall not be subject to the limit established in this directive.

In carrying out the above directions, the Commissioner of Customs should construe entry into the United States for consumption to include entry for consumption into the Commonwealth of Puerto Rico.

¹ The limit has not been adjusted to account for any imports exported after December 28, 1994.

The Committee for the Implementation of Textile Agreements has determined that this action falls within the foreign affairs exception of the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,

Rita D. Hayes,

Chairman, Committee for the Implementation of Textile Agreements.
