SUPPLEMENTARY INFORMATION: The Department published an Advance Notice of Proposed Rulemaking for Energy Conservation Standards for Three Cleaning Products. (59 FR 56423, November 14, 1994).

In its letter of December 2, 1994, to the Department, the Association of Home Appliance Manufacturers (AHAM), on behalf of its members and the American Council for Energy Efficient Economy, the Natural Resources Defense Council, and the New York State Energy Office, requested an extension of the deadline for written comments for dishwashers from January 30, 1995 to April 17, 1995. AHAM stated it and other interested persons need additional time to respond adequately to the issues raised in the advance notice.

In addition, AHAM stated it and a group of environmental organizations, public utilities, and state and local energy and water conservation offices are engaged in discussions to develop a joint recommendation to the Department regarding standard levels for dishwashers. AHAM and the other organizations need the additional time to collect engineering, energy, and cost data. These data will be used in developing dishwasher standard levels to be recommended to the Department for adoption as part of this rulemaking. The substance and possible results of these discussions may significantly affect the nature of the comments on the advance notice.

The Department encourages these discussions between AHAM, its members and non-industry persons. Based on these representations, the Department is extending the written comment period to April 17, 1995.

Issued in Washington, D.C., January 26, 1995.

Christine A. Ervin,

Assistant Secretary, Energy Efficiency and Renewable Energy.
