

existing peak day obligations to its other customers.

*Comment date:* March 13, 1995, in accordance with Standard Paragraph G at the end of this notice.

#### Standard Paragraphs

F. Any person desiring to be heard or to make any protest with reference to said application should on or before the comment date, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and/or permission and approval for the proposed abandonment are required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

G. Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a

protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to section 7 of the Natural Gas Act.

#### Havre Pipeline Company, LLC; Renotice of Petition For Declaratory Order

January 26, 1995.

Take notice that on January 25, 1995, Havre Pipeline Company, LLC (Havre), 410 17th Street, Suite 1400, Denver, Colorado 80802, refiled a petition for a declaratory order exempting facilities to be purchased from Northern Natural Gas Company (Northern) from Commission regulation under the Natural Gas Act, and for a determination that Havre will be an intrastate pipeline within the meaning of Section 2(16) of the Natural Gas Policy Act, to reflect corrections in the original petition, all as more fully set forth in the refiled petition which is on file with the Commission and open to public inspection.

Specifically, Havre states that it had committed to make a filing with the Commission no later than January 18, 1995, Havre did make its filing on this date. However, Havre was not formally organized until January 17, 1995 and, according to Havre, changes in its membership structure occurred immediately following the January 18, 1995 filing. In addition, Havre has identified "certain inadvertent typographical and textual errors" in the original filing due to the time constraints involved in finalizing the purchase arrangement, organizing Havre, and "conducting necessary due diligence activities." Havre indicates that all of the exhibits are identical to the January 18, 1995 filing, with the exception of Exhibit C (which is a list of the Montana producers that are members of Havre).

Any person desiring to be heard or to make any protest with reference to said refiled petition should on or before February 16, 1995, file with the Federal Energy Regulatory Commission, Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211). All protests filed with the Commission will be considered by it in determining

the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

#### K N Interstate Gas Transmission Co.; Compliance Filing

January 26, 1995.

Take notice that on January 23, 1995, K N Interstate Gas Transmission Co. (KNI), tendered for filing in compliance with the Commission's January 20, 1995, Letter Order approving the Stipulation and Agreement (Settlement) in the referenced proceeding. KNI states that the tariff sheets implement the Settlement rates and other tariff changes approved by the January 20 Letter Order.

KNI states that copies of the filing were served upon each person designated on the official service list compiled by the Secretary in this proceeding.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington D.C. 20426, in accordance with § 385.211 of the Commission's Rules and Regulations. All such protests should be filed on or before February 2, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make any protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

BILLING CODE 6717-01-M

#### Niagara Mohawk Power Corp.; Public Scoping Meeting and Site Visit

[Project No. 2474]

January 26, 1995.

The Federal Energy Regulatory Commission (Commission) has received an application for a new license (relicense) for the existing project operated by the Niagara Mohawk Power Corporation (Niagara Mohawk) on the

Oswego River in northern New York, in or near Oswego. The project includes three developments: Fulton, Minetto and Varick.

Upon review of the application, supplemental filings and intervenor submittals, the Commission staff has concluded that, given the location and interaction of the project, staff will prepare an Environmental Assessment (EA) that describes and evaluates the probable impacts of the applicant's proposals and alternatives for the project.

One element of the EA process is scoping. Scoping activities are initiated early to:

- identify reasonable alternative operational procedures and environmental enhancement measures that should be evaluated in the EA;
- identify significant environmental issues related to the operation of the existing projects;
- determine the depth of analysis for issues that will be discussed in the EA; and
- identify resource issues that are of lesser importance and, consequently, do not require detailed analysis in the EA.

#### Scoping Meeting and Site Visit

Commission staff will conduct two public meetings for the Oswego River Project. All interested individuals, organizations, and agencies are invited to attend either or both of the planned meetings and help staff identify the scope of environmental issues that should and should not be analyzed in the Oswego River EA.

The evening scoping meeting for the Oswego River Project, primarily for the public, will be conducted at 7:00 PM on Monday, March 6, 1995, at 103 Lanigan Hall on the SUNY-Oswego campus in Oswego, New York. A second meeting, primarily for agencies, will be held on March 7, 1995, at 213 Hewitt Union starting at 9:00 AM.

A site visit to the facilities of each development is tentatively scheduled for March 7 in the afternoon. The purpose of this visit is for interested persons to observe existing area resources and site conditions, learn the locations of proposed new facilities, and discuss project operational procedures with representative of Niagara Mohawk and the Commission. Details concerning the site visit will be available at the scoping meetings.

#### Procedures

The meeting, which will be recorded by a stenographer, will become part of the formal record of the Commission's proceeding on the Oswego River Project. Individuals presenting statements at the

meeting will be asked to sign in before the meeting starts and to identify themselves for the record.

Concerned parties are encouraged to offer us verbal guidance during the public meeting. Speaking time allowed for individuals will be determined before the meeting, based on the number of persons wishing to speak and the approximate amount of time available for the session, but all speakers will be provided at least five minutes to present their views.

#### Scoping Meeting Objectives

At the scoping meeting, the staff will:

- summarize the environmental issues tentatively identified for analysis in the EA;
- identify resource issues that are of lesser importance and, therefore, do not require detailed analysis;
- solicit from the meeting participants all available information, especially quantifiable data, concerning significant local resources; and
- encourage statements from experts and the public on issues that should be analyzed in the EA.

#### Information Requested

Federal and state resource agencies, local government officials, interested groups, area residents, and concerned individuals are requested to provide any information they believe will assist the Commission staff to analyze the environmental impacts associated with relicensing the project. The types of information sought include the following:

- Data, reports, and resource plans that characterize the baseline physical, biological, or social environments in the vicinity of the projects.
- Information and data that helps staff identify or evaluate significant environmental issues.

Scoping information and associated comments should be submitted to the Commission no later than April 6, 1995. Written comments should be provided at the scoping meeting or mailed to the Commission, as follows: Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, DC 20426.

All filings sent to the Secretary of the Commission should contain an original and 8 copies. Failure to file an original and 8 copies may result in appropriate staff not receiving the benefit of your comments in a timely manner. See 18 CFR 4.34(h).

All correspondence should clearly show the following caption on the first page:

FERC No. 2474: Oswego River

Intervenors and interceders (as defined in 18 CFR 385.2010) who file documents with the Commission are reminded of the Commission's Rules of Practice and Procedure requiring them to serve a copy of all documents filed with the Commission on each person whose name is listed on the official service list for this proceeding. See 18 CFR 4.34(b).

#### Northern Natural Gas Company; Site Visit

January 26, 1995.

On January 31 and February 1 and 2, 1995, the OPR staff, accompanied by representatives of Northern Natural Gas Company (Northern), will inspect the proposed location of Northern's facilities in the Eastleg Expansion Project. The proposed facilities are in Hardin, Blackhawk, Delaware, and Dubuque Counties, Iowa; Jo Daviess County, Illinois; and Green, Walworth and Rock Counties, Wisconsin.

Parties to the proceeding may attend. Those planning to attend must provide their own transportation. For further information, call Jeff Gerber, (202) 208-1121.

#### Northwest Pipeline Corporation; Proposed Change in FERC Gas Tariff

January 26, 1995.

Take notice that on January 23, 1995, Northwest Pipeline Corporation (Northwest), tendered for filing as part of its FERC Gas Tariff, Third Revised Volume No. 1, the following tariff sheets with a proposed effective date of November 6, 1994:

Second Substitute Original Sheet No. 232-A  
Second Substitute Original Sheet No. 232-B

Northwest states that the purpose of this filing is to comply with a Commission order issued on January 18, 1995 in Docket No. RP95-6-001. This order directs Northwest to make three revisions to Northwest's December 5,
