

Accordingly, this approval does not extend to lands within Indian Country in Wyoming, including lands within the exterior boundaries of the Wind River Reservation. Until EPA approves a State or Tribal MSWLF permitting program in Wyoming for any part of Indian Country, the requirements of 40 CFR part 258 will, after October 9, 1993, automatically apply to that area. Thereafter, the requirements of 40 CFR part 258 will apply to all owners/operators of MSWLFs located in any part of Indian Country that is not covered by an approved State or Tribal MSWLF permitting program.

EPA will consider all public comments on its tentative determination received during the public comment period and during any public hearing held. Issues raised by those comments may be the basis for a determination of inadequacy for Wyoming's program. EPA will make a final decision on whether or not to approve Wyoming's program and will give notice of it in the **Federal Register**. The notice will include a summary of the reasons for the final determination and a response to all major comments.

Section 4005(a) of RCRA provides that citizens may use the citizen suit provisions of section 7002 of RCRA to enforce the Federal MSWLF Criteria in 40 CFR part 258 independent of any State/Tribal enforcement program. As EPA explained in the preamble to the final MSWLF Criteria, EPA expects that any owner or operator complying with provisions in a State/Tribal program approved by EPA should be considered to be in compliance with the Federal Criteria. See 56 FR 50978, 50995 (October 9, 1991).
