M.C.M. Coats Incorporated, Hoboken, New Jersey; Revised Determination on Reopening

On January 18, 1995, the Department, on its own motion, reopened its investigation for the former workers of the subject firm. The initial investigation resulted in a negative determination on February 24, 1993 because the "contributed importantly" test of the Group Eligibility Requirements of the Trade Act was not met. The denial notice was published in the **Federal Register** on March 22, 1993 (58 FR 15383).

A late response to the Department's customer survey shows that a major customer accounting for a substantial portion of the sales decline for M.C.M. Coats' switched its purchases from the subject firm to imports.

Other findings show that the plant closed on December 15, 1992 when all production workers were laid off.

U.S. imports of women's suits and coats increased in 1993 compared to 1992 and in 1992 compared to 1991.

Conclusion

After careful consideration of the new facts obtained on reopening, it is concluded that increased imports of articles like or directly competitive with the women's suits and coats produced by the subject firm contributed importantly to the decline in production and to the total or partial separation of workers at the subject firm. In accordance with the provisions of the Trade Act of 1974, I make the following revised determination:

"All former workers of M.C.M., Incorporated, Hoboken, New Jersey who became totally or partially separated from

employment on or after January 5, 1992 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974."

Signed at Washington, DC, this 23rd day of January 1995.

Investigations Regarding Certifications of Eligibility To Apply for Worker Adjustment Assistance

Petitions have been filed with the Secretary of Labor under Section 221(a) of the Trade Act of 1974 ("the Act") and are identified in the Appendix to this notice. Upon receipt of these petitions, the Director of the Office of Trade Adjustment Assistance, Employment and Training Administration, has instituted investigations pursuant to Section 221(a) of the Act.

The purpose of each of the investigations is to determine whether the workers are eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act. The investigations will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved.

The petitioners or any other persons showing a substantial interest in the subject matter of the investigations may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than February 13, 1995.

Interested persons are invited to submit written comments regarding the subject matter of the investigations to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than February 13, 1995.

The petitions filed in this case are available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Employment and Training Administration, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20210.

Signed at Washington, D.C. this 17th day of January, 1995.

Union Oil Company of California (d.b.a. UNOCAL) Sugar Land, Texas, et al.

Union Oil Company of California (d.b.a. UNOCAL) Operating at various locations in the following States: TA-W-30,277A Alabama, TA-W-30,277B Illinois, TA-W-30,277C Louisiana, TA-W-30,277D Michigan, TA-W-30,277E Montana, TA-W-30,277F New Mexico, TA-W-30,277G Texas, TA-W-30,277H Utah, TA-W-30,277I Wyoming, TA-W-30,277J Oklahoma; Certification Regarding Eligibility To Apply for Worker Adjustment Assistance.

In accordance with Section 223 of the Trade Act of 1974 (19 USC 2273) as amended by the Omnibus Trade and Competitiveness Act of 1988 (P.L. 100-418), the Department of Labor herein presents the results of an investigation regarding certification of eligibility to apply for worker adjustment assistance.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. It is determined in this case that all of the requirements have been met.

The investigation was initiated in response to a petition received on September 6, 1994 and filed on behalf of workers at Union Oil Company of California, d.b.a. UNOCAL, headquartered in Sugar Land, Texas (TA-W-30,277) and all operations in the following states: (1) Alabama (TA-W-30,277A); (2) Illinois (TA-W-30,277B); (3) Louisiana (TA-W-30,277C); (4) Michigan (TA-W-30,277D); (5) Montana (TA-W-30,277E);

(6) New Mexico (TA-W-30,277F); (7) Texas (TA-W-30,277G); (8) Utah (TA-W-30,277H); (9) Wyoming (TA-W-30,277I); and (10) Oklahoma (TA-W-30,277J). Workers at Union Oil Company of California (UNOCAL), headquartered in Sugar Land, Texas (TA-W-30,277) and operating in various locations in the following states of this entity of the Company (TA-W-30,277A-J) are engaged in employment related to the exploration and production of crude oil, natural gas, and natural gas liquids.

Workers are not separately identifiable between crude oil, natural gas, and natural gas liquids exploration or production. Crude oil represents an important portion of sales at Union Oil Company of California (UNOCAL).

Workers at various locations of UNOCAL Corporation were certified eligible to apply for trade adjustment assistance benefits on September 30, 1992 (TA-W-27,538; TA-W-27,542-27,544; and TA-W-27,544A-D).

Workers at various other locations of UNOCAL Corporation were certified eligible to apply for trade adjustment assistance benefits on November 3, 1992.

U.S. imports of crude oil and natural gas increased absolutely and relative to domestic shipments and consumption in the latest twelve month period of September 1993 through August of 1994 compared to a year earlier.

Corporate-wide sales and production of crude oil at Union Oil Company of California (UNOCAL) declined in 1993 compared to 1992 and in the first six months of 1994 compared to the same period in 1993.

Corporate-wide sales of natural gas liquids at Union Oil Company of California (UNOCAL) declined in 1993

compared to 1992 and in the first six months of 1994 compared to the same period in 1993. Corporate-wide production of natural gas liquids of the subject firm declined in 1993 compared to 1992.

Employment of workers at Union Oil Company of California (UNOCAL) declined in 1993 compared to 1992 and in the first six months of 1994 compared to the same period in 1993 (TA-W-30,277 and TA-W-30,277A-J).

Company imports of import purchases of crude oil in 1993 compared to 1992.

The Department conducted a survey of major customers of Union Oil Company of California (UNOCAL). The survey revealed that respondents increased purchases of imported crude oil in 1993 compared to 1992, and that these respondents continued their reliance of imported crude oil in the first nine months of 1994 compared to the same period in 1993.

Conclusion

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with crude oil and natural gas produced at Union Oil Company of California, d.b.a. UNOCAL contributed importantly to the decline in sales or production and to the total or partial separation of workers of that firm. In accordance with the provisions of the Act, I make the following certification:

"All workers of Union Oil Company of California, d.b.a. UNOCAL, headquartered in Sugar Land, Texas (TA-W-30,277) and at all locations in the following states listed below (TA-W-30,277A-J) engaged in employment related to the exploration and
