M.C.M. Coats Incorporated, Hoboken, New Jersey; Revised Determination on Reopening

On January 18, 1995, the Department, on its own motion, reopened its investigation for the former workers of the subject firm. The initial investigation resulted in a negative determination on February 24, 1993 because the "contributed importantly" test of the Group Eligibility Requirements of the Trade Act was not met. The denial notice was published in the **Federal Register** on March 22, 1993 (58 FR 15383).

A late response to the Department's customer survey shows that a major customer accounting for a substantial portion of the sales decline for M.C.M. Coats' switched its purchases from the subject firm to imports.

Other findings show that the plant closed on December 15, 1992 when all production workers were laid off.

U.S. imports of women's suits and coats increased in 1993 compared to 1992 and in 1992 compared to 1991.

Conclusion

After careful consideration of the new facts obtained on reopening, it is concluded that increased imports of articles like or directly competitive with the women's suits and coats produced by the subject firm contributed importantly to the decline in production and to the total or partial separation of workers at the subject firm. In accordance with the provisions of the Trade Act of 1974, I make the following revised determination:

"All former workers of M.C.M., Incorporated, Hoboken, New Jersey who became totally or partially separated from

employment on or after January 5, 1992 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974."

Signed at Washington, DC, this 23rd day of January 1995.
