

how that interest may be affected by the results of the proceeding. The petition should specifically explain the reasons why intervention should be permitted with particular reference to the following factors: (1) the nature of the petitioner's right under the Act to be made party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. The petition should also identify the specific aspect(s) of the subject matter of the proceeding as to which petitioner wishes to intervene. Any person who has filed a petition for leave to intervene or who has been admitted as a party may amend the petition without requesting leave of the Board up to 15 days prior to the first prehearing conference scheduled in the proceeding, but such an amended petition must satisfy the specificity requirements described above.

Not later than 15 days prior to the first prehearing conference scheduled in the proceeding, a petitioner shall file a supplement to the petition to intervene which must include a list of the contentions which are sought to be litigated in the matter. Each contention must consist of a specific statement of the issue of law or fact to be raised or controverted. In addition, the petitioner shall provide a brief explanation of the bases of the contention and a concise statement of the alleged facts or expert opinion which support the contention and on which the petitioner intends to rely in proving the contention at the hearing. The petitioner must also provide references to those specific sources and documents of which the petitioner is aware and on which the petitioner intends to rely to establish those facts or expert opinion. Petitioner must provide sufficient information to show that a genuine dispute exists with the applicant on a material issue of law or fact. Contentions shall be limited to matters within the scope of the amendment under consideration. The contention must be one which, if proven, would entitle the petitioner to relief. A petitioner who fails to file such a supplement which satisfies these requirements with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing, including the opportunity to present evidence and cross-examine witnesses.

If a hearing is requested, the Commission will make a final determination on the issue of no significant hazards consideration. The final determination will serve to decide when the hearing is held.

If the final determination is that the amendment request involves no significant hazards consideration, the Commission may issue the amendment and make it immediately effective, notwithstanding the request for a hearing. Any hearing held would take place after issuance of the amendment.

If the final determination is that the amendment request involves a significant hazards consideration, any hearing held would take place before the issuance of any amendment.

A request for a hearing or a petition for leave to intervene must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Docketing and Services Branch, or may be delivered to the Commission's Public Document Room, the Gelman Building, 2120 L Street NW., Washington, DC, by the above date. Where petitions are filed during the last 10 days of the notice period, it is requested that the petitioner promptly so inform the Commission by a toll-free telephone call to Western Union at 1-(800) 248-5100 (In Missouri 1-(800) 342-6700). The Western Union operator should be given Datagram Identification Number N1023 and the following message addressed to Herbert N. Berkow: petitioner's name and telephone number, date petition was mailed, plant name, and publication date and page number of this **Federal Register** notice. A copy of the petition should also be sent to the Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555, and to Mr. Arthur H. Dombay, Troutman Sanders, NationsBank Plaza, Suite 5200, 600 Peachtree Street, NE., Atlanta, Georgia, attorney for the licensee.

Nontimely filings of petitions for leave to intervene, amended petitions, supplemental petitions and/or requests for hearing will not be entertained absent a determination by the Commission, the presiding officer or the presiding Atomic Safety and Licensing Board that the petition and/or request should be granted based upon a balancing of the factors specified in 10 CFR 2.714(a)(1)(i)-(v) and 2.714(d).

For further details with respect to this action, see the application for amendments dated January 20, 1995, which is available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street NW., Washington, DC, and at the

local public document room located at the Burke County Public Library, 412 Fourth Street Waynesboro, Georgia.

Dated at Rockville, Maryland, this 1st day of February 1995.

BILLING CODE 7590-01-M

[Docket No. 40-8968]

Hydro Resources, Inc.

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of public meetings.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC), in cooperation with the U.S. Bureau of Land Management (BLM) and U.S. Bureau of Indian Affairs (BIA), will conduct three public meetings for the purpose of receiving comments on the recently published Draft Environmental Impact Statement (DEIS) regarding the proposed construction and operation of an in-situ leach (ISL) project in McKinley County, New Mexico. This DEIS describes and evaluates the potential environmental impacts of granting Hydro Resources, Inc. a combined source and byproduct material license and minerals operating leases for Federal and Indian lands for the ISL project. Comments received on the DEIS will be addressed in the Final Environmental Impact Statement, to be published at a future date.

Two public meetings will be held on February 22, 1995, at the Crownpoint Chapter House, Crownpoint, New Mexico from 10 a.m. to 12 noon and from 6 p.m. to 8 p.m. One public meeting will be held on February 23, 1995, at the Church Rock Chapter House, Church Rock, New Mexico from 6 p.m. to 8 p.m.

DATES: Public meetings for the purpose of receiving comments on the DEIS will be held on February 22, 1995 at the Crownpoint Chapter House, Crownpoint, New Mexico from 10 a.m. to 12 noon and from 6 p.m. to 8 p.m., and on February 23, 1995 at the Church Rock Chapter House, Church Rock, New Mexico from 6 p.m. to 8 p.m. Written comments on the DEIS should be received on or before February 28, 1995, at the address listed below.

ADDRESSES: A free single copy of this DEIS (NUREG-1508) may be requested by those considering public comment by writing to the NRC Publications Section, ATTN: Superintendent of Documents, U.S. Government Office, P.O. Box

37082, Washington, DC 20013-7082. A copy is also available for inspection and/or copying in the NRC Public Document Room, 2120 L St. NW, Washington, DC.

Any interested party may submit comments on this document for consideration by the staff. To be certain of consideration, comments on this report must be received by February 28, 1995. Comments received after the due date will be considered to the extent practical. Comments on the DEIS should be sent to Chief, High-Level Waste and Uranium Recovery Projects Branch, Mail Stop TWFN 7-9, Division of Waste Management, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

FOR FURTHER INFORMATION CONTACT: Mr. Michael C. Layton, High-Level Waste and Uranium Recovery Projects Branch, Mail Stop TWFN 7-9, Division of Waste Management, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Telephone 301/415-6676.

SUPPLEMENTARY INFORMATION: The NRC, in cooperation with the BLM and the BIA, has prepared a DEIS regarding the administrative action of authorizing Hydro Resources, Inc. (HRI), to conduct in-situ leach uranium mining, also known as solution mining, in compliance with a combined source and byproduct material license issued by the NRC, and minerals operating leases issued for Federal and Indian lands by the BLM and BIA. The license and leases would provide programmatic and regulatory oversight in administrative matters; impose operating restrictions and license conditions, as appropriate; and specify environmental monitoring, recordkeeping, and reporting requirements. The DEIS describes the evaluation by the interagency review group concerning (1) the purpose of and need for the proposed action, evaluated under NEPA and the agencies' implementing regulations, (2) alternatives considered, (3) existing environmental conditions, and (4) environmental consequences of the proposed action and proposed mitigating measures. This DEIS concludes, after weighing the environmental, and other benefits of the proposed project against the environmental and other costs, that the appropriate action is to issue the requested license and leases authorizing the applicant to proceed with the project as discussed in this DEIS.

A Notice of Availability and Notice of Opportunity for Hearing were published

previously (59 FR 56557, November 14, 1994). The notice offered members of the public an opportunity to comment upon the DEIS and to request an adjudicatory hearing on the licensing application. The closing date for requesting an Opportunity for Hearing on the pending licensing action expired on December 14, 1994; the date for submitting public comments on the DEIS originally expired on January 7, 1995. Several requests were received by the NRC to extend the 60-day public comment period. The NRC acceded to these requests and extended the comment period from January 7, 1995 to February 28, 1995.

The purpose of this notice is to inform the public that three public meetings will be held at the Chapter Houses in Crownpoint and Church Rock, New Mexico for the purpose of receiving comments on this DEIS. Written comments must be received by February 28, 1995. Comments received after this date will be considered to the extent practical. Any interested party may submit comments on this document for consideration by the staff.

Dated at Rockville, Maryland, this 30th day of January 1995.
