Williams Natural Gas Company; Proposed Changes in FERC Gas Tariff

January 31, 1995.

Take notice that on January 27, 1995, Williams Natural Gas Company (WNG), tendered for filing certain revised tariff sheets to Second Revised Volume No. 1 of its FERC Gas Tariff. The proposed

effective date of these tariff sheets is March 1, 1995.

WNG states that the filing proposes a change in its currently effective transportation, storage, and other rates which would result in an increase in annual revenues of approximately \$28.6 million, based on the test period (the twelve months ended October 31, 1994, adjusted for known changes through July 31, 1995). The Company states that the increased rates are required to permit the Company to recover various substantial cost increases experienced by the Company, as well as to reflect changes in the mix of services being rendered to the Company and the abandonment of most of its gathering facilities. The filing also includes certain tariff modifications.

WNG states that a copy of its filing was served on each of its jurisdictional customers and affected state commissions pursuant to § 154.16(b) of the Commission's Regulations.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20406, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 395.214). All such petitions or protests should be filed on or before February 7, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.
