

Impact Statement prepared by the WDOC (which was incorporated by reference into the EA). It should be noted that the dock construction schedule was developed by the applicant in cooperation with the WDFW to ensure the least impact on the various protected species. Once NMFS was assured that the taking would not result in more than the harassment (as defined by the MMPA Amendments of 1994) of a small number of harbor seals, would have a negligible impact on the species, and would result in the least practicable impact on the stock, NMFS determined that the requirements of section 101(a)(5)(D) had been met and the authorization could be issued.

Additional background information on the activity and request can be found in the notice of receipt and proposed authorization (59 FR 55639, November 8, 1994) and need not be repeated here.

Dated: January 30, 1995.

Patricia A. Montanio,

Acting Deputy Director, Office of Protected Resources, National Marine Fisheries Service.
