

fixed overhead costs already reflected inflation. We have, therefore, amended our calculation of fixed overhead by applying a factor to fixed overhead to account only for the effects of inflation on depreciation expense.

Final Results of Review

Upon review of comments submitted, the Department has determined the margin for CINSAs to be 13.35 percent for the period December 1, 1990 through November 30, 1991. The Customs Service shall assess antidumping duties on all appropriate entries.

Furthermore, the following deposit requirements will be effective for all shipments of the subject merchandise, entered, or withdrawn from warehouse, for consumption on or after the publication date of these amended final results of review, as provided for by section 751(a)(1) Tariff Act of 1930, as amended (the Act): (1) the cash deposit rate for CINSAs will be 13.35 percent as outlined above; (2) the cash deposit rate for APSAs will continue to be 4.66 percent, the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or the original less-than-fair-value (LTFV), but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (4) the cash deposit rate for all other exporters will be 29.52 percent, the "all others" rate established in the LTFV investigation. See, *Floral Trade Council v. United States*, Slip Op. 93-79, and *Federal Mogul Corp. v. United States*, Slip Op. 93-83.

These deposit requirements, when imposed, shall remain in effect until publication of the final results of the next administrative review.

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 353.26 to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during the review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

In addition, this notice serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 353.34(d). Timely written notification or conversion to judicial protective order is hereby requested.

Failure to comply with the regulations and terms of the APO is a sanctionable violation.

This notice is in accordance with sections 751(f) of the Act (19 U.S.C. 1675(f)) and 19 CFR 353.28(c).

Dated: February 2, 1995.

Susan G. Esserman,

Assistant Secretary, for Import Administration.

BILLING CODE 3510-DS-P

DEPARTMENT OF DEFENSE

Office of the Secretary

Meeting of the Commission on Roles and Missions of the Armed Forces

AGENCY: Department of Defense, Commission on Roles and Missions of the Armed Forces.

ACTION: Notice.

SUMMARY: On January 25, 1995, 60 FR 4892, the Department of Defense published a notice concerning a meeting of the Commission on Roles and Missions of the Armed Forces. The open portion of this meeting, from 12:45 p.m. until 2:15 p.m., was cancelled. All other information remains unchanged.

Extraordinary circumstances compel this amendment to be posted in less than the 15-day requirement.

Dated: February 3, 1995.

Patricia L. Toppings,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

[FR Doc. 94-3163 Filed 2-7-95; 8:45 am]

BILLING CODE 5000-4-M

Strategic Environmental Research and Development Program, Scientific Advisory Board

ACTION: Notice

In accordance with Section 10(a)(2) of the Federal Advisory Committee Act (P.L. 92-463), announcement is made of the following Committee meeting:

Date of Meeting: March 7-9, 1995 from 0830 to approximately 1630.

Place: U.S. Army Corps of Engineers, Waterways Experiment Station, Vicksburg, MS.

Matters to be Considered: Research and Development proposals and continuing projects requesting Strategic Environmental Research and Development Program funds in excess of \$1M will be reviewed.

This meeting is open to the public. Any interested person may attend, appear before, or file statements with the Scientific Advisory Board at the time and in the manner permitted by the Board.

For Further Information Contact: Ms. Amy Levine, 901 North Street, Suite 303, Arlington, VA, 22203, (703) 696-2124.

Dated: February 2, 1995.

L.M. Bynum,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

[FR Doc. 95-3027 Filed 2-7-95; 8:45 am]

BILLING CODE 5000-04-M

Department of the Army

Intent To Prepare a Draft Environmental Impact Statement (DEIS) for the Proposed Section 204 Habitat Restoration Project at Poplar Island in Talbot County, MD

AGENCY: U.S. Army Corps of Engineers, DoD.

ACTION: Notice of Intent.

SUMMARY: The Baltimore District U.S. Army Corps of Engineers is investigating the use of dredged material to restore Poplar Island. The project would restore Poplar Island to its approximate size in 1857, thereby adding approximately 1,000 acres of wildlife habitat in the Upper Chesapeake Bay. The project would use approximately 10 to 40 million cubic yards of clean material, dredged primarily from the southern approach channels to Baltimore Harbor. The amount of material placed at the site would depend on the final design, including the island size and shape, and the relative proportions of upland and wetland habitat constructed on the island. Dredged material would be placed behind dikes at the site, then shaped and planted to create both intertidal wetland and upland wildlife habitat. The feasibility study is being conducted under the authority of Section 204 of the Water Resources Development Act of 1992. The potential non-Federal sponsor for the project is the Maryland Port Administration (MPA), a part of the Maryland Department of Transportation.

FOR FURTHER INFORMATION CONTACT: Questions about the proposed action and DEIS can be addressed to Ms. Stacey Brown, Project Manager, Baltimore District, U.S. Army Corps of Engineers, ATTN: CENAB-PL-PC, P.O. Box 1715, Baltimore, Maryland 21203-1715, telephone (410) 962-3639.

SUPPLEMENTARY INFORMATION:

1. The project will be constructed under Section 204 of the Water Resources Development Act of 1992, which allows Federal funding for the protection, restoration, and creation of aquatic and ecologically related

habitats, including wetlands, in connection with dredging for construction, operation, or maintenance of an authorized Federal navigation project.

2. Poplar Island is located on the Eastern Shore of the upper Chesapeake Bay, about one mile northwest of Tilghman Island, in Talbot County, Maryland. The present complex consists of four small remnant islands with a combined area of approximately 5 acres. The island has steadily eroded over time; in 1857 the island covered an area of approximately 1,000 acres; the remaining small islands are in danger of completely eroding within the next few years.

3. The project would restore Poplar Island to the approximate size and footprint of the island in 1857. The proposed project actions include the placement of approximately 10 to 40 million cubic yards of clean dredged material behind dikes at the site. The amount of material to be placed would depend partly on the relative proportions of upland and wetland habitat created. The material would be primarily dredged during maintenance of the southern approach channels to Baltimore Harbor. After placement, the material would be shaped and planted to create both intertidal wetland and upland wildlife habitat. Poplar Island has been identified by the U.S. Fish and Wildlife Service, the Maryland Department of Natural Resources, and other natural Resources management agencies as a valuable nesting and nursery area for many species of wildlife, including bald eagles, osprey, heron, and egret.

4. Expected project benefits include the creation of wetland and upland wildlife habitat, stabilization of the rapidly eroding island remnants, and beneficial use of dredged material from Federal navigation channel maintenance activities. A project pre-feasibility report (similar to a Corps of Engineers Reconnaissance report) was completed by the Maryland Port Administration (MPA) in 1993.

5. Various alternative designs and projects size will be considered including the "no action" alternative. Alternatives to be considered will include variations such as the size and location of the placement area; dike configuration and construction materials; site capacity; and the relative proportions and locations on the island of wetland and upland habitat.

6. The Baltimore District is preparing a DEIS which will describe the impacts of the proposed projects on environmental and cultural resources in the study area and the overall public

interest. The DEIS will also apply guidances issued by the Environmental Protection Agency, under authority of Section 404 of the Clean Water Act of 1977 (Pub. L. 95-217). Potential effects of the project on water quality, fish and wildlife resources, recreation, aesthetics, cultural, and other resources will be investigated.

7. The public involvement program will include meetings and coordination with interested private individuals and organizations, as well as concerned Federal, state, and local agencies. A public notice requesting comments on the proposed project and a coordination letter have been sent to appropriate agencies, organizations, and individuals. Additional public information will be provided through printed media, mailings, and radio or television announcements. Two scoping meetings, identical in format, will be held at 7:00 p.m. on 21 February 1995 at Tilghman Elementary School, Tilghman, Maryland, and on 23 February 1995, at Beach Elementary School, in Chesapeake Beach, Maryland. Two meetings will be held to provide equal opportunities for residents on both the Eastern Shore and the west side of the Chesapeake Bay to take part in the public involvement program.

8. In addition to the Corps and the Maryland Port Administration, current participants in the DEIS process include, but are not limited to, the U.S. Environmental Protection Agency, U.S. Fish and Wildlife Service, National Marine Fisheries Service, Maryland Department of Natural Resources, Maryland Department of the Environment, and the Maryland Port Administration. The Baltimore District invites potentially affected Federal, state and local agencies, and other interested organizations and parties to participate in this study.

AVAILABILITY: The DEIS is tentatively scheduled to be available for public review in September of 1995.

Kenneth L. Denton,

Army Federal Register Liaison Officer.

BILLING CODE 3719-41-M

U.S. Marine Corps

Privacy Act of 1974; Amend Record Systems

AGENCY: Marine Corps, Department of the Navy.

ACTION: Amend record system.

SUMMARY: The U.S. Marine Corps proposes to amend a system of records in its inventory of record systems

subject to the Privacy Act of 1974 (5 U.S.C. 552a), as amended. During a recent review, the notice for MJA00009, entitled Marine Corps Command Legal Files, was found to be incorrectly republished in the **Federal Register** on February 22, 1993, at 58 FR 10658. This amendment will correct the notice.

DATES: The amendment will be effective on February 8, 1995.

ADDRESSES: Send comments to the Head, FOIA and Privacy Act Section, Headquarters, U.S. Marine Corps, 2 Navy Annex, Washington, DC 20380-1775.

FOR FURTHER INFORMATION CONTACT: Ms. B. L. Thompson at (703) 614-4008 or DSN 224-4008.

SUPPLEMENTARY INFORMATION: The U.S. Marine Corps record system notices for records systems subject to the Privacy Act of 1974 (5 U.S.C. 552a), as amended, have been published in the **Federal Register** and are available from the address above.

The specific changes to the system of records are set forth below followed by the system of records notice published in its entirety, as amended. The amendment is not within the purview of subsection (r) of the Privacy Act of 1974 (5 U.S.C. 552a), as amended, which requires the submission of new or altered systems reports.

Dated: February 1, 1995.

Patricia L. Toppings,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

MJA00009
