50 CFR Part 642

[Docket No. 940710-4292; I.D. 020395A]

Coastal Migratory Pelagic Resources of the Gulf of Mexico and South Atlantic; Closure of a Commercial Fishery

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Closure of a commercial fishery for king mackerel.

SUMMARY: NMFS closes the commercial run-around gillnet fishery for king mackerel in the exclusive economic zone (EEZ) in the Florida west coast sub-zone. This closure is necessary to protect the overfished Gulf king mackerel resource.

EFFECTIVE DATE: February 3, 1995, through June 30, 1995.

FOR FURTHER INFORMATION CONTACT: Mark F. Godcharles, 813-570-5305.

SUPPLEMENTARY INFORMATION: The fishery for coastal migratory pelagic fish (king mackerel, Spanish mackerel, cero, cobia, little tunny, dolphin, and, in the Gulf of Mexico only, bluefish) is managed under the Fishery Management Plan for the Coastal Migratory Pelagic Resources of the Gulf of Mexico and South Atlantic (FMP). The FMP was prepared by the Gulf of Mexico and South Atlantic Fishery Management Councils (Councils) and is implemented by regulations at 50 CFR part 642 under the authority of the

Magnuson Fishery Conservation and Management Act.

Catch limits recommended by the Councils and implemented by NMFS for the Gulf of Mexico migratory group of king mackerel set the commercial quota of king mackerel in the Florida west coast sub-zone at 865,000 lb (392,357 kg). That quota was further divided into two equal quotas of 432,500 lb (196,179 kg) for vessels in each of two groups by gear types—vessels fishing with run-around gillnets and those using hook and line gear.

Under 50 CFR 642.26(a), NMFS is required to close any segment of the king mackerel commercial fishery when its allocation or quota is reached, or is projected to be reached, by publishing a notification in the **Federal Register**. NMFS has determined that the commercial quota of 432,500 lb (196,179 kg) for Gulf group king mackerel for vessels using run-around gillnets in the Florida west coast sub-zone was reached on February 3, 1995. Hence, the commercial fishery for king mackerel for such vessels in the Florida west coast sub-zone is closed effective 6:00 p.m., local time, February 3, 1995, through June 30, 1995, the end of the fishing year.

The Florida west coast sub-zone extends from the Alabama/Florida boundary (87°31'06" W. long.) to: (1) The Dade/Monroe County, Florida boundary (25°20.4' N. lat.) from November 1 through March 31; and (2) the Monroe/Collier County, Florida boundary (25°48' N. lat.) from April 1 through October 31.

NMFS previously determined that the commercial quota of king mackerel from the western zone of the Gulf of Mexico was reached and closed that segment of the fishery on September 24, 1994

(59 FR 49356, September 28, 1994). Consequently, with this closure the only commercial king mackerel fishery remaining open in the Gulf of Mexico EEZ is the fishery in the Florida west coast sub-zone by vessels using hook-and-line gear.

During the closure, no person aboard a vessel that has been issued a gillnet endorsement may fish for or retain king mackerel in the EEZ in the Florida west coast sub-zone.
