

legislative history for purposes of the tie-vote rule. The statute refers to critical circumstances interchangeably as a determination or finding. Therefore, we conclude that Section 771(11) applies to critical circumstances determinations and that it is appropriate to treat the tie vote in this case as an affirmative critical circumstances determination.

All unliquidated entries of coumarin from the PRC, that are entered, or withdrawn from warehouse, for consumption on or after May 6, 1994, the date 90 days prior to the publication of the Department's preliminary determination, except for imports by Jiangsu Native Import and Export Corporation (Jiangsu Native), are liable for the assessment of antidumping duties. In the case of Jiangsu Native, the effective date of suspension of liquidation is August 4, 1994, the date of publication of the Department's preliminary determination, (59 FR 39727).

In accordance with section 736(a)(1) of the Act, the Department will direct Customs officers to assess, upon further advice by the administering authority, antidumping duties equal to the amount by which the foreign market exceeds the United States price for all relevant entries of coumarin from the PRC. Customs officers must require, at the same time as importers would normally deposit estimated duties on this merchandise, a cash deposit equal to the estimated weighted-average antidumping duty margins as noted below. The "All Others" rate applies to all exporters of PRC coumarin not specifically listed below.

The *ad valorem* weighted-average dumping margins are as follows:

Manufacturer/producer/exporter	Weighted-average margin percentage	Critical circumstances
Jiangsu Native Produce I/E Corp.	15.04	Negative.
Tianjin Native Produce I/E Corp.	50.35	Affirmative.
All others	160.80	Affirmative.

This notice constitutes the antidumping duty order with respect to coumarin from the PRC. Interested parties may contact the Central Records Unit, Room B-099 of the Main Commerce Building, for copies of an updated list of antidumping duty orders currently in effect.

This order is published in accordance with section 736(a) of the Act and 19 CFR 353.21.

Dated: February 6, 1995.

Susan G. Esserman,
Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-P

National Oceanic and Atmospheric Administration

[I.D. 020295A]

Endangered Species; Permits

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of receipt of two applications for scientific research permits (P45Q and P770#69) and receipt of an application for modification 1 to scientific research permit 914 (P770#67).

Notice is hereby given that the National Biological Survey in Corvallis, OR (NBS) and the Northwest Fisheries Science Center, NMFS in Seattle, WA (NWFSC) have applied in due form for scientific research permits (P45Q and P770#69) and that the Northwest Fisheries Science Center, NMFS in Seattle, WA (NWFSC) has applied in due form for Modification 1 to scientific research Permit 914 (P770#67) to take listed species as authorized by the Endangered Species Act of 1973 (ESA) (16 U.S.C. 1531-1543) and the NMFS regulations governing listed fish and wildlife permits (50 CFR parts 217-227).

NBS requests authorization for a lethal take of juvenile, endangered, naturally produced Snake River spring/summer chinook salmon (*Oncorhynchus tshawytscha*) as part of a study designed to compare the physiological responses of wild chinook smolts with hatchery-produced chinook smolts when subjected to the bypass and collection facility at Lower Granite Dam on the Lower Snake River in Washington. A comparison of the physiological responses of wild and hatchery-produced chinook smolts may indicate what aspects of bypass and collection for downriver transportation past hydropower projects are most stressful to wild listed fish. The requested duration of the permit is April 15 to June 30, 1995.

NWFSC requests a permit to conduct research with a take of the following endangered species: Juvenile Snake River sockeye salmon (*Oncorhynchus nerka*), juvenile, naturally produced and artificially propagated, Snake River spring/summer chinook salmon (*Oncorhynchus tshawytscha*), and

juvenile Snake River fall chinook salmon (*Oncorhynchus tshawytscha*). NWFSC will capture, handle, and tag subyearling, endangered, fall chinook salmon at McNary Dam on the Columbia River as part of a study comparing the adult recoveries of run-of-river subyearling chinook salmon subjected to transport past hydropower dams versus those migrating inriver under as favorable passage conditions as possible. The other two listed species will be captured and handled incidental to the research. NWFSC will capture, handle, and tag the subyearling fish from June 15 to September 15 during each of 3 separate years, not necessarily in succession. The requested duration of the permit is 5 years.

Permit 914 authorizes NWFSC to capture, handle, and release juvenile, endangered, naturally produced and artificially propagated Snake River spring/summer chinook salmon (*Oncorhynchus tshawytscha*) and juvenile, endangered, Snake River fall chinook salmon (*Oncorhynchus tshawytscha*) as part of a study to assess the incidence of gas bubble disease (GBD) in selected aquatic biota of the Columbia River Basin during episodes of high spill volumes at Ice Harbor Dam on the Snake River and Bonneville Dam on the Columbia River in the Pacific Northwest. For Modification 1, NWFSC requests an increase in the take of the two listed species already authorized to be taken and authorization to capture, handle, and release juvenile, endangered, Snake River sockeye salmon (*Oncorhynchus nerka*) to carry out a new study objective. The purpose of the new objective is to compare the prevalence of signs of GBD in juvenile salmonids collected from the reservoir and tailrace of Ice Harbor Dam on the Snake River and the reservoir of McNary Dam on the Columbia River with the prevalence of signs of GBD in fish examined by Fish Passage Center Smolt Monitoring Program personnel at the same two dams. The requested duration for the new study objective is from April 15 to June 15, 1995. Permit 914 expires on December 31, 1998.

Written data or views, or requests for a public hearing on this application should be submitted to the Chief, Endangered Species Division, Office of Protected Resources, F/PR8, NMFS, 1315 East-West Highway, Silver Spring, MD 20910-3226, within 30 days of the publication of this notice. Those individuals requesting a hearing should set out the specific reasons why a hearing on this particular application would be appropriate. The holding of such hearing is at the discretion of the Assistant Administrator for Fisheries,

NOAA. All statements and opinions contained in this application summary are those of the applicant and do not necessarily reflect the views of NMFS.

Documents submitted in connection with the above application are available for review by interested persons in the following offices by appointment:

Office of Protected Resources, NMFS, NOAA, 1315 East-West Highway, Silver Spring, MD 20910-3226 (301-713-1401); and

Environmental and Technical Services Division, NMFS, NOAA, 525 North East Oregon St., Suite 500, Portland, OR 97232 (503-230-5400).

Dated: February 3, 1995.

Patricia A. Montanio,

Acting Deputy Director, Office of Protected Resources, National Marine Fisheries Service.

BILLING CODE 3510-22-F

[I.D. 012695A]

Endangered Species; Permits

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Issuance of Permit 942 to Jane Provancha (P576).

On December 16, 1994, notice was published (59 FR 65016) that an application had been filed by Jane Provancha of the Biomedical Operations and Research Office of Kennedy Space Center (P576) to take listed green and loggerhead sea turtles (*Chelonia mydas* and *Caretta caretta*), to determine population and distribution trends in Mosquito Lagoon, FL, as authorized by the Endangered Species Act of 1973 (ESA) (16 U.S.C. 1531-1543) and the NMFS regulations governing listed fish and wildlife permits (50 CFR parts 217-222).

Notice is hereby given that on February 3, 1995, as authorized by the provisions of the ESA, NMFS issued Permit No. 942 for the above taking, subject to certain conditions set forth therein.

Issuance of this permit, as required by the ESA, was based on a finding that such permit: (1) Was applied for in good faith; (2) will not operate to the disadvantage of the listed species which are the subject of this permit; (3) is consistent with the purposes and policies set forth in section 2 of the ESA. This permit was also issued in accordance with and is subject to parts 217-222 of Title 50 CFR, the NMFS regulations governing listed species permits.

The application, permit, and supporting documentation are available for review by interested persons in the following offices, by appointment:

Office of Protected Resources, NMFS, 1335 East-West Highway, Silver Spring, MD 20910-3226 (301-713-1401); and

Southeast Region, NMFS, NOAA, 9721 Executive Center Drive, St. Petersburg, FL 33702-2432 (813-893-3141).

Dated: February 3, 1995.

Patricia A. Montanio,

Acting Director, Office of Protected Resources, National Marine Fisheries Service.

BILLING CODE 3510-22-F

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[I.D. 121294B]

Marine Mammals

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce; and Fish and Wildlife Service (FSW), Interior.

ACTION: Issuance of scientific research permit no. 938 (P368D).

SUMMARY: Notice is hereby given that Moss Landing Marine Laboratories, P.O. Box 450, Moss Landing, CA 95039-0450, (Principal Investigators: Drs. James T. Harvey, Daniel P. Costa, John Calambokidis, and Ms. Dawn Goley) has been issued a permit to take marine mammals for purposes of scientific research.

ADDRESSES: The permit and related documents are available for review upon written request or by appointment, in the following offices:

Chief, Permits Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13130, Silver Spring, MD 20910 (301/713-2289); and

Director, Southwest Region, NMFS, 501 W. Ocean Boulevard, Long Beach, CA 90802-4213 (310/980-4047).

SUPPLEMENTARY INFORMATION: On October 11, 1994, notice was published in the **Federal Register** (59 FR 51418) that a request for a scientific research permit to take several species of marine mammals had been submitted by the above-named organization and individuals. The requested permit has been issued under the authority of the

Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA) (16 U.S.C. 1531 *et seq.*), the Regulations Governing the Taking, Importing, and Exporting of Endangered Fish and Wildlife (50 CFR part 222), the Fur Seal Act of 1966, as amended (16 U.S.C. 1151 *et seq.*), and fur seal regulations at 50 CFR part 215.

Issuance of this permit, as required by the ESA, was based on a finding that such permit: (1) Was applied for in good faith; (2) will not operate to the disadvantage of the endangered species which is the subject of this permit; and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.

Dated: February 2, 1995.

William W. Fox, Jr.,

Director, Office of Protected Resources, National Marine Fisheries Service.

Dated: February 2, 1995.

Margaret Tieger,

Acting Chief, Branch of Permits, Office of Management Authority, U.S. Fish and Wildlife Service.
