Intent To Prepare an Environmental Impact Statement for the Proposed Maple River Dam Project in Cass County, North Dakota

AGENCY: U.S. Army Corps of Engineers, Omaha District, DOD.

ACTION: Notice of intent.

SUMMARY: The proposed action is to construct a 70-foot high zoned earth embankment dam on the Maple River in Cass County, North Dakota. The dam would be 1850 feet long with a top width of 30 feet and an emergency spillway consisting of a concrete chute to handle the 100-year events; a second stage emergency spillway consisting of a 1300-foot earthen cut in the right abutment which will handle the 200± year flows. The project would be operated essentially as a dry dam, with a very small pool. The proposed dam and spillways would be located primarily in the NE ¼ Sec 14, T 137N, R 54 W of Cass County. This location is approximately 8 miles northeast of Enderlin, North Dakota. The dam and reservoir would reduce the frequency of the full range of potential floods and thereby reduce the potential damage associated with these floods. Reduction in flood flows and damages would be the greatest in the Maple River and Sheyenne River valleys downstream of the project. The primary areas affected by the flooding are urban, agricultural, and environmental in nature. Approximately 15,000 acres are subject to flooding in addition to the urban areas of Durbin, and Mapleton, North Dakota as well as West Fargo and Harwood, North Dakota.

Alternatives which are anticipated to be evaluated include similar dam sites and combinations of multiple dam sites as well as "wet vs. dry" dam concepts. The "no action" alternatives will also be evaluated.

DATE OF SCOPING MEETING: Public Scoping Meeting, March 15, 1995, 7 p.m., Casselton Community Center, 701—1st Street North, Casselton, North Dakota.

ADDRESSES: Omaha District, Army Corps of Engineers, ATTN: CEMRO-PD-M, 215 North 17th Street, Omaha, Nebraska 68102-4978.

FOR FURTHER INFORMATION CONTACT: Mr. Robert S. Nebel, Chief, Environmental Analysis Branch, Planning Division (402) 221-4598.

SUPPLEMENTARY INFORMATION:

Future Schedule

Following review of comments received during scoping, data collection and analysis will begin for the Draft

Environmental Impact Statement (DEIS). The Corps anticipates that the DEIS will be released for public review in October 1995. A final Environmental Impact Statement is anticipated to be completed in early 1996.
