

additional public meetings are scheduled at this time.

Comments from the public and other agencies will be used to prepare the Draft Supplemental EIS. The scoping process to date has identified the following preliminary issues:

1. What is the potential for development of acid mine drainage and mobilization of heavy metals from geologic materials exposed by mining activities?

2. How would existing mine facilities and activities be changed to prevent, control or treat ARD? What are the long term maintenance requirements of these facilities along with their predicted long-term viability and stability and how would bonding reflect these changes?

3. What is the potential for adverse impacts to water quality downstream of project facilities due to ARD and how would water quality be maintained and beneficial uses protected?

4. Would fish and their habitat be affected by ARD discharges into area streams? What are the potential impacts to fish species listed as threatened or endangered under the Endangered Species Act?

5. Would water monitoring be adequate to detect and allow for the correction of any water quality problems resulting from the proposed action?

This list may be verified, expanded, or modified based on additional scoping for this proposal.

In order to implement the project, the proponent, TCMC, must obtain approval or consultation of their proposed modification from other regulatory agencies including the Environmental Protection Agency (EPA), National Marine Fisheries Service (NMFS), U.S. Fish and Wildlife Service (USFWS), Idaho Department of Lands (IDL), Idaho Department of Health and Welfare (IDHW) and the Idaho Department of Water Resources (IDWR).

Implementation may take place through the selection of an alternative from the Supplemental EIS.

The Challis National Forest is the lead agency in this environmental analysis and Supplemental EIS. The Salmon District office of the Bureau of Land Management is a cooperating agency.

The Draft Supplemental EIS is expected to be filed with the Environmental Protection Agency (EPA) and available for public review in late July 1995. At that time, the EPA will publish a Notice of Availability of the Draft Supplemental EIS in the **Federal Register**. The comment period on the Draft Supplemental EIS will be 45 days from the date the EPA's notice of availability appears in the **Federal**

Register. It is very important that those interested in this proposal participate at that time. To be most helpful, comments on the Draft EIS should be as specific as possible. The Final Supplemental EIS is scheduled to be completed by December, 1995.

The Forest Service believes, at this stage, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of draft environmental impact statements must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978). Also, environmental objections that could be raised at the draft environmental impact statement stage, but that are not raised until after completion of the final environmental impact statement, may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45-day comment period so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final environmental impact statement.

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments should be as specific as possible. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

I am the responsible official for this environmental impact statement. My address is Salmon and Challis National Forests, P.O. Box 729, Salmon, Idaho 83467.

Dated: February 3, 1995.

Forest Supervisor, Challis National Forest.

COMMISSION ON IMMIGRATION REFORM

Washington, D.C. Consultations

AGENCY: U.S. Commission on Immigration Reform.

ACTION: Announcement of commission consultations.

This notice announces consultations to be held by the U.S. Commission on Immigration Reform in Washington, DC on February 23 and February 24, 1995. The Commission, created by Section 141 of the Immigration Act of 1990, is mandated to review the implementation and impact of U.S. immigration policy and report its findings to Congress. An interim report, U.S. Immigration Policy: Restoring Credibility, was issued on September 30, 1994; the final report is due in 1997.

The consultation participants will include the Commissioners, researchers, government officials, representatives of business, labor, community, ethnic, and religious organizations, and other interested parties. Panels on the first day will examine labor market and employment-based immigration issues. The Commission seeks to gain greater understanding of the effects of legal immigration on the labor market, the objectives and priorities for permanent and temporary workers and procedures for testing the labor market. Panels on the second day will focus on family reunification, including admission priorities, categories, numbers, backlogs, and likely future trends. Policies to be examined include the criteria used for determining who qualifies for family reunification and its impact on U.S. society and economy.

Date: February 23, 1995.

Time: 9:00 am-12:00 pm (Legal Immigration and the Labor Market); 2:00 pm-5:00 pm (Temporary Workers, Labor Certification and other means of Testing the Labor market).

Date: February 24, 1995.

Time: 9:00 am-1:00 pm (Family Reunification).

Address: Room 2226, Rayburn House Office Building, Independence Avenue and South Capitol Street, SW., Washington, DC.

For Further Information: Paul Donnelly (202) 673-5348.

Dated: February 2, 1995.

Susan Martin,

Executive Director.

DEPARTMENT OF COMMERCE

International Trade Administration

[A-570-830]

Notice of Antidumping Order: Coumarin From the People's Republic of China

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: February 9, 1995.

FOR FURTHER INFORMATION CONTACT: David J. Goldberger or Louis Apple, Office of Antidumping Investigations, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230; telephone: (202) 482-4136 or (202) 482-1769, respectively.

Scope of Order

The product covered by this order is coumarin. Coumarin is an aroma chemical with the chemical formula $C_9H_6O_2$ that is also known by other names, including 2H-1-benzopyran-2-one, 1,2-benzopyrone, cis-o-coumaric acid lactone, coumarin anhydride, 2-Oxo-1,2-benzopyran, 5,6-benzo-alpha-pyrone, ortho-hydroxycinnamic acid lactone, cis-ortho-coumaric acid anhydride, and tonka bean camphor.

All forms and variations of coumarin are included within the scope of the order, such as coumarin in crystal, flake, or powder form, and "crude" or unrefined coumarin (*i.e.* prior to purification or crystallization). Excluded from the scope of this order are ethylcoumarins ($C_{11}H_{10}O_2$) and methylcoumarins ($C_{10}H_8O_2$). Coumarin is classifiable under subheading 2932.21.0000 of the Harmonized Tariff Schedule of the United States (HTSUS). Although the HTSUS subheading is provided for convenience and customs purposes, our written description of the scope of this investigation is dispositive.

Antidumping Duty Order

In accordance with sections 735(a) of the Tariff Act of 1930, as amended ("the Act"), the Department of Commerce ("the Department") made its final determination that coumarin from the People's Republic of China ("PRC") is being sold at less than fair value (59 FR 66895, December 28, 1994). On February 1, 1995, the International Trade Commission (ITC) notified the Department of its final determination, pursuant to section 735(b)(1)(A)(i) of the Act, that an industry in the United States is materially injured by reason of imports of the subject merchandise from the PRC.

In addition, three ITC Commissioners found that critical circumstances exist with regard to such products, and three Commissioners found that critical circumstances do not exist with regard to such imports from the PRC. The Commissioners do not agree as to whether three votes constitute an affirmative critical circumstances determination. There is no definition of or limitation on the meaning of the term "determination" in the statute or
