BILLING CODE 6717-01-M

[Docket No. RP95-152-000]

NorAm Gas Transmission Co.; Notice of Proposed Changes in FERC Gas Tariff

February 3, 1995.

Take notice that on February 1, 1995, NorAm Gas Transmission Company (NGT) tendered for filing as part of its FERC Gas Tariff, Fourth Revised Volume No. 1, First Revised Sheet No. 168, Original Sheet No. 168A and First Revised Sheet No. 233 and First Revised Sheet No. 233A, to become effective February 2, 1995.

NGT states that these revised tariff sheets modify Section 12.1 of NGT's General Terms and Conditions to provide that the compressor fuel assessment or retention percentage provisions of the FT, IT, or NNTS Rate Schedule, whichever is applicable, will not apply to transactions in which gas is both received from and delivered to points within the Perryville Hub and to which no compression is required to effectuate these transactions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rules 214 and 211 of the Commission's Rules of Practice and Procedure (18 CFR 385.214 and 385.211). All such motions or protests should be filed on or before February 10, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

[Docket No. RP94-343-003]

NorAm Gas Transmission Co.; Notice of Filing

February 3, 1995.

Take notice that on January 31, 1995, NorAm Gas Transmission Company (NGT) moved to place into effect at the end of the suspension period the rates and tariff sheets in NGT's August 1, 1994 filing in this proceeding.

NGT states that its motion rate filing complies with the Commission's August 31, 1994 suspension order, and that it reflects the elections made by NGT's customers during the open season held to permit customers to select receipt points under NGT's zone rates. Pursuant to the Commission's August 31 Order, NGT's motion rate filing would become effective on February 1, 1995.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, DC 20426, in accordance with Rule 211 of the Commission's Rules of Practice and Procedure (18 CFR 385.211). All such protests should be filed on or before February 10, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

BILLING CODE 6717-01-M

[Docket No. CP95-190-000]

Northwest Pipeline Corp.; Notice of Application

February 3, 1995.

Take notice that on January 31, 1995, Northwest Pipeline Corporation (Northwest), 295 Chipeta Way, Salt Lake City, Utah 84158, filed in Docket No. CP95-190-000 an application pursuant to Section 7(c) of the National Gas Act for a certificate of public convenience and necessity authorizing it to construct and operate certain pipeline loop facilities located in Whatcom County, Washington to enhance the reliability of service to its existing customers, all as more fully set forth in the application on file with the Commission and open to public inspection.

Northwest proposes to construct and operate 550 feet of 30-inch pipeline loop and associated valves beginning at the outlet of its existing Sumas Meter

Station and extending to the point of origin of the existing 30-inch mainline loop upstream of its Sumas Compressor Station "B" Plant compressors all located within its existing Sumas Compressor Station site (milepost 1484.5). Northwest states that the proposed pipeline looping will complete its 30-inch mainline loop between its Sumas Meter Station and its Sumas Compressor Station and will enhance the reliability of service to its shippers receiving Canadian gas supplies. Northwest estimates that the cost of the proposed facilities will be \$553,200.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 24, 1995, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules. Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Northwest to appear or be represented at the hearing.

Lois D. Cashell,

Secretary.
