

purposes. A bank that adopts a policy to deduct these amounts must apply that approach consistently in all future calculations of the amount of disallowed deferred tax assets under section 2(c)(1)(iii) of this appendix A.

(ii) *Consolidated groups.* The amount of deferred tax assets that a bank can realize from taxes paid in prior carryback years and from reversals of existing taxable temporary differences generally would not be deducted from capital. However, for a bank that is a member of a consolidated group (for tax purposes), the amount of carryback potential a bank may consider in calculating the limit on deferred tax assets under section 2(c)(1)(iii) of this appendix A, may not exceed the amount that the bank could reasonably expect to have refunded by its parent holding company.

(iii) *Nontaxable Purchase Business Combination.* In calculating the amount of net deferred tax assets under section 2(c)(1)(iii) of this appendix A, a deferred tax liability that is specifically associated with an intangible asset (other than purchased mortgage servicing rights and purchased credit card relationships) due to a nontaxable purchase business combination may be netted against that intangible asset. Only the net amount of the intangible asset must be deducted from Tier 1 capital. Deferred tax liabilities netted in this manner cannot also be netted against deferred tax assets when determining the amount of net deferred tax assets that are dependent upon future taxable income.

(iv) *Estimated future taxable income.* Estimated future taxable income does not include net operating loss carryforwards to be used during that year or the amount of existing temporary differences expected to reverse within the year. A bank may use future taxable income projections for their closest fiscal year, provided it adjusts the projections for any significant changes that occur or that it expects to occur. Such projections must include the estimated effect of tax planning strategies that the bank expects to implement to realize net operating losses or tax credit carryforwards that will otherwise expire during the year.

(4) *Deductions from total capital.* The following items are deducted from total capital:

Coast Guard

33 CFR Part 165

[COTP St. Louis 95-001]

RIN 2115-AA97

Safety Zone; Mississippi River, mile 57.8 to mile 55.8

AGENCY: Coast Guard, DOT.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a safety zone on the Mississippi River. This regulation is needed to control vessel traffic in the regulated area to facilitate construction of stone filled weirs in or near the navigable channel to ensure the safety of the construction workers. The regulation will restrict navigation in the regulated area.

EFFECTIVE DATE: This regulation is effective on January 30, 1995 and will terminate on March 31, 1995.

FOR FURTHER INFORMATION CONTACT: LT Siddall, Operations Officer, Captain of the Port, St. Louis, Missouri at (314) 539-3823.

SUPPLEMENTARY INFORMATION:

Drafting Information

The drafters of this regulation are LTJG Andrew Cheney, Project Officer, Marine Safety Office, St. Louis, Missouri and LT S. M. Moody, Project Attorney, Second Coast Guard District Legal Office.

Regulatory History

In accordance with 5 U.S.C. 553, a notice of proposed rulemaking has not been published for this regulation and good cause exists for making it effective in less than 30 days from the date of publication. Following normal rulemaking procedures would have been impracticable. Specifically, the construction of the weirs can only be undertaken below certain river stages and due to the dynamic nature of the river, insufficient time exists to publish a notice of proposed rulemaking. As a result, the Coast Guard deems it to be in the public's best interest to issue a regulation immediately.

Background and Purpose

The Army Corps of Engineers continues to improve channel maintenance through constructing passive channelizing structures. The construction of the stone filled weirs is necessary in this historically troublesome area. As a result of this construction this regulation is necessary to provide safe working conditions and navigation within the affected area.

Regulatory Evaluation

This regulation is not a significant regulatory action under section 3(f) of Executive Order 12866 and does not require an assessment of potential costs and benefits under section 6(a)(3) of that order. It has been exempted from review by the Office of Management and Budget under that order. It is not under the regulatory policies and procedures of the Department of Transportation (DOT) (44 FR 11040; February 26, 1979). The Coast Guard expects the economic impact of this regulation to be so minimal that a full Regulatory Evaluation under paragraph 10E of the regulatory policies and procedures of DOT is unnecessary because the restrictions are anticipated to be of short duration. Changes will be announced by Marine Safety Information Radio

Broadcast on VHF Marine Band Radio, Channel 22 (157.1 MHZ). Mariners may also call the Port Operations Officer, Captain of the Port, St. Louis, Missouri at (314) 539-3823 for current information.

Small Entities

The Coast Guard finds that the impact on small entities, if any, is not substantial. Therefore, the Coast Guard certifies under section 605(b) of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq*) that this temporary rule will not have a significant economic impact on a substantial number of small entities.

Collection of Information

This rule contains no collection of information requirements under the Paperwork Reduction Act (44 U.S.C. 3501 *et seq*).

Federalism Assessment

The Coast Guard has analyzed this regulation under the principles and criteria contained in Executive Order 12612 and has determined that it does not raise sufficient federalism implications to warrant the preparation of a Federalism Assessment.

Environmental Assessment

The Coast Guard considered the environmental impact of this regulation and concluded that, under section 2.B.2. of Commandant Instruction M16475.1B, this regulation is categorically excluded from further environmental documentation.
