Approval and Promulgation of Air Quality Implementation Plans; Tennessee; Revision to New Source Review, Construction and Operating Permit Requirements

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the State of Tennessee for the purpose of bringing the State's new source review (NSR) regulations into compliance with the 1990 amendments to the Clean Air Act (CAA) and the Federal regulations. In the final rules section of this **Federal Register**, the EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to that direct final rule, no further activity is contemplated in relation to this proposed rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.

DATES: To be considered, comments must be received by March 13, 1995.

ADDRESSES: Written comments should be addressed to: Ms. Karen Borel, at the Regional Office Address listed.

I. Introduction

EPA, Region IV, announces its intent to delete the Site from the NPL, which constitutes Appendix B of the NCP, and requests comments on this proposed deletion. Section II of this notice explains the criteria for deleting sites from the NPL. Section III discusses procedures that EPA is using for this action. Section IV discusses how the Site meets the deletion criteria.
