

wastewater pursuant to Title III of the Clean Water Act (33 U.S.C. 1251 et seq.). The Task Force consists of members appointed by EPA from industry, citizen groups, state and local government, the academic and scientific communities, and EPA regional offices. The Task Force was created to offer advice to the Administrator on the long-term strategy for the effluent guidelines program, and particularly to provide recommendations on a process for expediting the promulgation of effluent guidelines. The Task Force generally does not discuss specific effluent guideline regulations currently under development.

The meeting agenda will include a presentation on the Task Force accomplishments to date, and a discussion of life-cycle analysis and effluent guidelines regulations. Much of the meeting time will be set aside as working time for the three work groups initiated at the last meeting: selecting industries for regulation; co-regulation (cross-media); and pretreatment (pass-through determination).

The meeting will be open to the public. Limited seating for the public is available on a first-come, first served basis. The public may submit written comments to the Task Force regarding improvements to the Effluent Guidelines program. Comments should be sent to Sheila Frace at the above address. Comments submitted by February 21 will be considered by the Task Force at or subsequent to the meeting.
