

This change was delayed previously pending the opening of the new Denver International Airport. This Class B airspace reconfiguration coincides with the scheduled opening date of the new airport.

EFFECTIVE DATE: The final rule at 58 FR 48722, as postponed at 58 FR 60552, as corrected at 59 FR 2953, and as postponed at 59 FR 10744 and 59 FR 24914, is effective 0701 UTC, February 28, 1995.

FOR FURTHER INFORMATION CONTACT:

Norman W. Thomas, Airspace and Obstruction Evaluation Branch (ATP-240), Airspace-Rules and Aeronautical Information Division, Air Traffic Rules and Procedures Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20591; telephone: (202) 267-9230.

SUPPLEMENTARY INFORMATION: On September 17, 1993, the Federal Aviation Administration (FAA) published a final rule altering the Denver, CO, Class B airspace area. On January 20, 1994, a correction to the final rule was published correcting an error in the coordinates for the airport reference point and the supporting Navigational Aid for the new Denver International Airport, and to reflect the upgrading of the Denver Very High Frequency Omnidirectional Range facility to a very high frequency omnidirectional range/tactical air navigational facility. Most recently, the FAA delayed these rules indefinitely pending the official opening of the Denver International Airport. The new Denver International Airport is scheduled to open on February 28, 1995. This airspace reconfiguration coincides with the opening date of the new airport.

Because the public needs to be made aware of the opening date immediately, notice and public procedure are impracticable and good cause exists for making this action effective in less than 30 days.

In consideration of the foregoing, Airspace Docket No. 91-AWA-3 altering the Class B airspace area in Denver, CO, 58 FR 48722 (September 17, 1993); as postponed at 58 FR 60552 (November 17, 1993), as corrected at 59 FR 2953 (January 20, 1994), and as postponed at 59 FR 10744 (March 8, 1994) and 59 FR 24914 (May 13, 1994) is effective February 28, 1995.

Issued in Washington, DC, on February 8, 1995.

Harold W. Becker,

Manager, Airspace-Rules and Aeronautical Information Division.

BILLING CODE 4910-13-M

14 CFR Part 91

[Docket No. 27583; Amendment No. 91-243]

Special Visual Flight Rules (SVFR); Denver, CO

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule announcement of effective date.

SUMMARY: On January 19, 1994, the Federal Aviation Administration (FAA) published a final rule to amend appendix D, part 91 of the Federal Aviation Regulations to accurately reflect the name of the new Denver, Colorado airport. This action was previously delayed pending the opening of the Denver International Airport. This amendment coincides with the scheduled opening date of the new airport.

EFFECTIVE DATE: The final rule at 59 FR 2918, as corrected at 59 FR 6547, as postponed at 59 FR 10958 and 59 FR 24915 is effective 0701 UTC, February 28, 1995.

FOR FURTHER INFORMATION CONTACT: Ellen E. Crum, Air Traffic Rules Branch (ATP-230), Airspace-Rules and Aeronautical Information Division, Air Traffic Rules and Procedures Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone: (202) 267-8783.

SUPPLEMENTARY INFORMATION: On January 19, 1994, the Federal Aviation Administration (FAA) published a technical amendment to sections 1 and 3 of appendix D, 14 CFR part 91, replacing the reference to Stapleton International Airport with the Denver International Airport (Amendment No. 91-236; 59 FR 2918). In the amendment, however, the FAA inadvertently indicated that the word "Stapleton" should be replaced with the word "International". The FAA issued a correcting amendment on February 11, 1994 (59 FR 6547). Most recently, the FAA delayed the rule indefinitely pending the official opening of the Denver International Airport. The new airport is scheduled to open on February 28, 1995. This action coincides with the opening of the new airport. Because the public needs to be made

aware of the opening date immediately, notice and public procedure are impracticable and good cause exists for making this action effective in less than 30 days.

In consideration of the foregoing, the final rule (Docket No. 27583) amending the name of the Denver International Airport in appendix D of 14 CFR part 91 (59 FR 2918; January 19, 1994) and the final rule correction (59 CFR 6547, February 11, 1994) postponed at 59 FR 10958, March 9, 1994, and 59 FR 24915, May 13, 1994 is effective February 28, 1995.

Issued in Washington, DC, on February 8, 1995.

Harold W. Baker,

Manager, Airspace-Rules and Aeronautical Information Division.

BILLING CODE 4910-13-M

14 CFR Part 71

[Airspace Docket No. 95-ANM-7]

Alteration Jet Route J-20

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; clarification.

SUMMARY: This action reflects the name change of the Shreveport, LA, Very High Frequency Omnidirectional Range/Tactical Air Navigation (VORTAC) facility to the Belcher VORTAC in the airspace designation for Jet Route J-20. The description for J-20 was previously modified to support the airspace structure for the new Denver International Airport. That action was delayed pending the opening of the airport and reflected the old name for the Belcher, LA, VORTAC. This action clarifies that the Shreveport, LA, VORTAC is now named the Belcher VORTAC in the new description of J-20 which becomes effective on February 28, 1995.

EFFECTIVE DATE: 0701 UTC, February 28, 1995.

FOR FURTHER INFORMATION CONTACT: Norman W. Thomas, Airspace and Obstruction Evaluation Branch (ATP-240), Airspace-Rules and Aeronautical Information Division, Air Traffic Rules and Procedures Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20591; telephone: (202) 267-9230.

SUPPLEMENTARY INFORMATION:

The Rule

This amendment to part 71 of the Federal Aviation Regulations (14 CFR

part 71) reflects a change to the name of the Shreveport, LA, VORTAC to the Belcher VORTAC. The description for J-20 was previously modified in Docket 91-ANM-16 to support the opening of the new Denver International Airport; that action was delayed pending the opening of the airport. The description for J-20 in Docket 91-ANM-16 contained the old name for the Belcher VORTAC. The airspace configuration to support the opening of the new Denver International Airport will now become effective on February 28, 1995. This action is necessary to clarify the name change of the VORTAC from Shreveport, LA, to Belcher, LA, in the new description of J-20. This action is editorial in nature. I find that notice and public procedure under 5 U.S.C. 553(b) are unnecessary, because this action is a minor technical amendment in which the public is not particularly interested. Jet routes are published in paragraph 2004 of FAA Order 7400.9B dated July 18, 1994, and effective September 16, 1994, which is incorporated by reference in 14 CFR 71.1. The jet route listed in this document will be published subsequently in the Order.

The FAA has determined that this regulation only involves an established body of technical regulations for which

frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—[AMENDED]

1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. app. 1348(a), 1354(a), 1510; E.O. 10854, 24 FR 9565, 3 CFR, 1959–

1963 Comp., p. 389; 49 U.S.C. 106(g); 14 CFR 11.69.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9B, Airspace Designations and Reporting Points, dated July 18, 1994, and effective September 16, 1994, is amended as follows:

Paragraph 2004—Jet Routes

* * * * *

J-20 [Revised]

From Seattle, WA, via Yakima, WA; Pendleton, OR; Donnelly, ID; Pocatello, ID; Rock Springs, WY; Falcon, CO; Hugo, CO; Lamar, CO; Liberal, KS; INT Liberal 137° and Will Rogers, OK, 284° radials; Will Rogers; Belcher, LA; Jackson, MS; Montgomery, AL; Meridian, MS; Tallahassee, FL; INT Tallahassee 129° and Orlando, FL, 306° radials; Orlando; INT Orlando 154° and Fort Lauderdale, FL, 339° radials to Fort Lauderdale.
