BILLING CODE 4210-29-M

**DEPARTMENT OF THE INTERIOR****Bureau of Land Management**

[MT-060-05-1610-00]

**Availability of the Draft Sweet Grass Hills Resource Management Plan Amendment and Environmental Impact Statement; Liberty and Toole Counties, MT**

**AGENCY:** Department of the Interior, Bureau of Land Management.

**ACTION:** Notice of Availability of the Draft Sweet Grass Hills Resource Management Plan Amendment and Environmental Impact Statement.

**SUMMARY:** The draft Amendment and Environmental Impact Statement (EIS) addresses future management options for land tenure adjustment, off-road vehicle use, oil and gas leasing, and locatable mineral development for lands and minerals administered by the Bureau of Land Management (BLM) in the Sweet Grass Hills in Toole and Liberty Counties, Montana, and amends the West HiLine Resource Management Plan (1988 and 1992). This includes approximately 7,717 surface acres, 19,765 acres of all mineral estate, and 1,644 acres of only oil and gas estate.

These lands are administered by the BLM through the Great Falls Resource Area. The draft preferred alternative and three other alternatives have been developed to provide management options for the Sweet Grass Hills.

**PUBLIC PARTICIPATION:** Copies of the draft Amendment/EIS will be available from the Lewistown District Office, P.O. Box 1160, Lewistown, MT 59457-1160, (406) 538-7461. Public reading copies will be available for review at the following BLM locations: Office of External Affairs, Main Interior Building, Room 5600, 18th and C Streets, NW., Washington, DC 20240; External Affairs Office, Montana State Office, P.O. Box 36800, 222 North 32nd Street, Billings, MT 59107; Lewistown District Office, Airport Road, P.O. Box 1160, Lewistown, MT 59457-1160; and Great Falls Resource Area, 812 14th St. N., Great Falls, MT 59401.

Written comments on the draft Amendment/EIS will be accepted for 90 days following the date the Environmental Protection Agency publishes the Notice of Filing of the Draft in the **Federal Register**. Comments can also be presented at four public meetings to be held at: Shelby, MT, Shelby High School Auditorium, February 27, 1995, 7 p.m.; Browning, MT, Browning High School Annex, February 28, 1995, 7 p.m.; Chester, MT, Chester High School Auditorium, March 1, 1995, 7 p.m.; and Rocky Boy, MT, Community Hall, March 2, 1995, 10 a.m.

**ADDRESSES:** Written comments on the document should be addressed to Richard Hopkins, Area Manager, Great Falls Resource Area, 812 14th St. N., Great Falls, MT 59401.

**FOR FURTHER INFORMATION CONTACT:** Tad Day, Team Lead, Great Falls Resource Area, 812 14th St. N., Great Falls, MT 59401, (406) 727-0503.

**SUPPLEMENTARY INFORMATION:** In August 1993, the BLM segregated the Federal mineral estate in the Sweet Grass Hills for a two-year period which closed the area to the location of new mining claims until August 1995. The BLM also began amending the West HiLine Resource Management Plan to reevaluate current management decisions for the Sweet Grass Hills. The amendment to the West HiLine Resource Management Plan will provide specific direction concerning locatable mineral development and will recommend whether some or all of the area should be closed to mining claim location. If the final amendment and record of decision recommends closure, the BLM would begin processing a 20-year term withdrawal.

Dated: February 7, 1995.

**Gary Slagel,**

*Acting District Manager.*

## Fish and Wildlife Service

### Availability of an Environmental Assessment and Receipt of an Application for an Incidental Take Permit From Mr. Robert Farr, in Baldwin County, AL

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Notice.

**SUMMARY:** Mr. Robert Farr (Applicant), has applied to the Fish and Wildlife Service (Service) for an incidental take permit pursuant to Section 10(a)(1)(B) of the Endangered Species Act (Act). The proposed permit would authorize for a period of 30 years the incidental take of an endangered species, the Alabama beach mouse (*Peromyscus polionotus ammobates*), known to occupy lands owned by the Applicant in Baldwin County, Alabama. The Application proposed to construct and use a single family residence on less than 0.5 acres of privately owned land, which is in the Cabana Beach subdivision.

The Service also announces the availability of an environmental assessment (EA) and habitat conservation plan (HCP) for the incidental take application. Copies of the EA or HCP may be obtained by making requests to the addresses below. The Service is soliciting data on *Peromyscus polionotus ammobates* in order to assist in the requirement of the intra-Service consultation. This notice also advises the public that the Service has made a preliminary determination that issuing the incidental take permit is not a major Federal action significantly affecting the quality of the human environment within the meaning of Section 102(2)(C) of the National Environmental Policy Act of 1969, as amended. The Finding of No Significant Impact is based on information contained in the EA and HCP. The final determination will be made no sooner than 30 days from the date of this notice. This notice is provided pursuant to Section 10(c) of the Act and National Environmental Policy Act Regulations (40 CFR 1506.6).

**DATES:** Written comments on the permit application, EA and HCP should be received on or before March 13, 1995.

**ADDRESSES:** Persons wishing to review the application may obtain a copy by writing the Service's Southeast Regional

Office, Atlanta, Georgia. Persons wishing to review the EA or HCP may obtain a copy by writing the Regional Office or the Jackson, Mississippi, Field Office. Documents will also be available for public inspection, by appointment, during normal business hours at the Regional Office, or the Field Office. Written data or comments concerning the application, EA, or HCP should be submitted to the Regional Office. Please reference permit under PRT-798697 in such comments.

Regional Permit Coordinator (TE), U.S. Fish and Wildlife Service, 1875 Century Boulevard, Suite 210, Atlanta, Georgia 30345, (telephone 404/679-7110, FAX 404/679-7280).

Field Supervisor, U.S. Fish and Wildlife Service, 6578 Dogwood View Parkway, Suite A, Jackson, Mississippi 39213 (telephone 601/965-4900, FAX 601/965-4340).

**FOR FURTHER INFORMATION CONTACT:** Will McDearman at the above Jackson, Mississippi, Field Office.

**SUPPLEMENTARY INFORMATION:** The Alabama beach mouse (AMB), *Peromyscus polionotus ammobates*, is a subspecies of the common oldfield mouse *Peromyscus polionotus* and is restricted to the dune systems of the Gulf Coast of Alabama. The known current range of ABM extends from Fort Morgan eastward to the western terminus of Alabama Highway 182, including the Perdue Unit on the Bon Secour National Wildlife Refuge. The sand dune systems inhabited by this species are not uniform; several habitat types are distinguishable. The species inhabits primary dunes, interdune areas, secondary dunes, and scrub dunes. The depth and area of these habitats from the beach inland varies. Population surveys indicate that this subspecies is usually more abundant in primary dunes than in secondary dunes, and usually more abundant in secondary dunes than in scrub dunes. Optimal habitat consists of dune systems with all dune types. Though fewer ABM inhabit scrub dunes, these high dunes can serve as refugia during devastating hurricanes that overwash, flood, and destroy or alter secondary and frontal dunes. ABM surveys have not been conducted on the Applicant's property. Suitable habitat in the form of secondary and scrub dunes exist on the Applicant's property. These habitats are likely to be occupied by ABM. The Applicant's property resides in designated critical habitat for the ABM. Construction of the single family residence on about 0.1-0.2 acres of the Applicant's property may result in the death of, or injury to, ABM. Habitat alterations due to house placement and

its subsequent use may reduce available habitat for food, shelter, and reproduction.

The EA considers the environmental consequences of three alternatives. The proposed action alternative is the issuance of the incidental take permit. This provided for restrictions that include house placement landward of the frontal crest of the scrub dune line, establishment of a walkover structure across that scrub dune, a prohibition against housing or keeping pet cats, scavenger-proof garbage containers, no landscaping, and the minimization and control of outdoor lighting. The HCP provides a funding source for these mitigation measures.

Dated: February 3, 1995.

**Jerome M. Butler,**

*Acting Regional Director.*

### Availability of an Environmental Assessment and Receipt of an Application for an Incidental Take Permit for a Project Called Cypress Creek (Phase I), a Single Family Residence Subdivision, in Brevard County, FL

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Notice.

**SUMMARY:** RNR Properties, Ltd., (Applicant), is seeking an incidental take permit from the Fish and Wildlife Service (Service), pursuant to Section 10(a)(1)(B) of the Endangered Species Act of 1973 (Act), as amended. The permit would authorize the take of two families of the threatened Florida scrub jay, *Aphelocoma coerulescens coerulescens* in Brevard County, Florida, for a period of 10 years. The proposed taking is incidental to construction of 148 single family homes, including the necessary infrastructure, on approximately 225 acres (Project). Within the Project, 28.7 acres are occupied by Florida scrub jays and will be permanently altered. The Project is called Cypress Creek (Phase I), and it is located on the mainland of Brevard County, in the Town of Grant.

The Service also announces the availability of an environmental assessment (EA) and habitat conservation plan (HCP) for the incidental take application. Copies of the EA or HCP may be obtained by making a request to the Regional Office address below. This notice also advises the public that the Service has made a preliminary determination that issuing the incidental take permit is not a major
