The categories, priorities, special considerations and preferences described above are not being proposed for public comment this year. In July 1993, following publication of the Department's Notice of Proposed Rulemaking to revise the MCH special project grant regulations at 42 CFR 51a, the public was invited for a 60-day period to submit comments regarding all aspects of the SPRANS application and review process. Public comments regarding SPRANS priorities received during the comment period were considered in developing this announcement. In responding to those comments, the Department noted the practical limits on Secretarial discretion in establishing SPRANS categories and

priorities owing to the extensive prescription in both the statute and annual Congressional directives.

Comments on this SPRANS notice which members of the public wish to make are welcome at any time and may be submitted to: Director, Maternal and Child Health Bureau, at the address listed in the ADDRESSES section.

Suggestions will be considered when priorities are developed for the next solicitation.
