

Only those organizations or associations which meet the criteria for certification of eligibility promulgated at 7 CFR 1260.530 as published in 51 FR 11557, 11559 (April 4, 1986) are eligible for certification. Those criteria are:

(a) For State organizations or associations:

(1) Total paid membership must be comprised of at least a majority of cattle producers or represent at least a majority of cattle producers in a State or unit.

(2) Membership must represent a substantial number of producers who produce a substantial number of cattle in such State or unit.

(3) There must be a history of stability and permanency.

(4) There must be a primary or overriding purpose of promoting the economic welfare of cattle producers.

(b) For organizations or associations representing importers, the determination by the Secretary as to the eligibility of importer organizations or associations to nominate members to the Board shall be based on applications containing the following information:

(1) The number and type of members represented (i.e., beef or cattle importers, etc.).

(2) Annual import volume in pounds of beef and beef products and/or the number of head of cattle.

(3) The stability and permanency of the importer organization or association.

(4) The number of years in existence.

(5) The names of the countries of origin for cattle, beef, or beef products imported.

All certified organizations and associations, including those which were previously certified in the States or units having vacant positions on the Board, will be notified simultaneously in writing of the beginning and ending dates of the established nomination period and will be provided with required nomination forms and background information sheets.

The names of qualified nominees received by the established due date will be submitted to the Secretary of Agriculture for consideration as appointees to the Board.

The information collection requirements referenced in this notice have been previously approved by the Office of Management and Budget (OMB) under the provisions of 44 U.S.C., Chapter 35 and have been assigned OMB No. 0581-0093, except Board member nominee information sheets are assigned OMB No. 0505-0001.

#### Secesh River Subdivision Access Roads

**AGENCY:** Forest Service, USDA.

**ACTION:** Notice of Intent to Prepare Environmental Impact Statement.

**SUMMARY:** The Payette National Forest proposes to issue a special use permit to

allow the Secesh River Property Owners Association to construct/reconstruct, maintain, and use four roads in the Secesh Meadows area to access private land. The total length of the roads is approximately 2,100 feet and would enable development on nine lots in the Secesh River Subdivision #1 and one lot in Secesh River Subdivision #2. The private land lies approximately 25 miles northeast of McCall, Idaho, in T22N, R5E, Sections 9 and 10, and covers 74 acres; it is part of the former Spokane Group #7 patented mining claim, Minerals Survey 3387.

**FOR FURTHER INFORMATION CONTACT:** Linda Fitch, McCall District Ranger (208) 634-0400.

**SUPPLEMENTARY INFORMATION:** In 1994, the Payette National Forest prepared an Environmental Assessment (EA) which analyzed six alternatives for accomplishing the project. The EA was released for 30-days predecisional review and comment on November 21, 1994. In reviewing the Council on Environmental Quality Regulations for significance (40 CFR 1508.27), it was determined this project would be a major Federal action with significant effects, because the Forest Service's biological assessment for endangered chinook salmon made a finding of "Likely to Adversely Affect."

**PURPOSE AND NEED:** The need connected with this project is to respond to the special use application for road construction, use, and maintenance.

**PROPOSED ACTION:** The Proposed Action is a modification of Alternative D from the EA. Alternative D presented in the EA would have allowed Secesh Meadows Property Owners Association to construct/reconstruct, use, and maintain roads #1 (1,200 feet), #2 (300 feet), and #5 (300 feet) to a standard including construction to a grade above ground level (or road side ditch) for good drainage, gravel surfacing, and installation of structures to accommodate overland flow (culverts). Road #3 (300 feet) would be built to a standard of construction of approximately 12 feet in width, native surfacing, and no drainage structures or maintenance. Existing road #4 would be closed, and the owner of lot 10 would have to work out alternative access. In addition, the Proposed Action includes a modification to Alternative D which will require that road #3 also be constructed to a grade similar to other approved roads.

**FOREST PLAN AMENDMENT:** The Proposed Action may require site-specific Forest Plan amendments in standards and guidelines for: anadromous fish habitat, big game calving areas, meadows
