### Office of the Secretary

#### Proposed Establishment of the Ski Fee System Advisory Committee

**AGENCY:** Department of Agriculture.

**ACTION:** Notice; proposed establishment of Advisory Committee.

**SUMMARY:** This notice announces the proposed establishment of a Federal advisory committee by the Secretary of Agriculture in accordance with the provisions of the Federal Advisory Committee Act. The purpose of the committee is to advise the Secretary on developing a new ski area fee system to be administered by the Forest Service on National Forest System lands.

**EFFECTIVE DATE:** This decision is effective February 17, 1995.

**FOR FURTHER INFORMATION CONTACT:**

Questions about this committee should be addressed to Lyle Laverty, Director, Recreation, Heritage, and Wilderness Resources Staff, Forest Service, USDA, PO Box 96090, Washington, DC 20090-6090, (202) 205-1706.

**SUPPLEMENTARY INFORMATION:** The Forest Service is responsible for developing and administering a permit fee system based on fair market value for the use of National Forest System lands by ski areas, and is developing a revised ski fee system to more closely reflect fair market value. The Secretary of Agriculture (Secretary) proposed to establish the Ski Fee System Advisory Committee (Committee) in accordance with the provisions of the Federal Advisory Committee Act (FACA) (5 U.S.C. app.), for the purpose of advising the Secretary during the development of the new ski fee system. This advice will include: consideration of diverse interests in the development of a new ski fee system; the methodologies selected and employed by the Forest Service in developing a new ski fee system based on fair market value; implementation options the agency might consider; and other matters relating to the new ski area fee system as deemed necessary by the Secretary.

The Secretary shall appoint the members of the Committee. Equal opportunity practices in line with USDA policies will be followed in all appointments to the Committee. To ensure that the recommendations on the Committee have taken into account the

needs of the diverse groups served by the Department, membership shall include, to the extent practicable, individuals with demonstrated ability to represent minorities, women, and persons with disabilities. To achieve a balance of views, members shall represent the ski industry, ski area users, nationally or regionally recognized environmental or resource conservation groups, and employees of State and Federal agencies with jurisdiction over matters related to skiing, public land management, recreational access to public lands, fish and wildlife conservation, or environmental protection. Membership shall include individuals who have expertise through their education or practical experience in ski area permit administration, recreation business management, economic sciences, natural resources management, or similar disciplines.

The Secretary has determined that the Committee is necessary and in the public interest.

Dated: February 10, 1995.

#### Limited Global Cotton Import Quota Announcement

**AGENCY:** Office of the Secretary, USDA.

**ACTION:** Notice.

**SUMMARY:** A limited global import quota for upland cotton equal to 193,632,858 kilograms (426,887,727 pounds) is established in accordance with section 103B(n) of the Agricultural Act of 1949, as amended (1949 Act). This quota is covered under Presidential Proclamation 6301 of June 7, 1991, and is referenced as the Secretary of Agriculture's Limited Global Cotton Import Quota Announcement, chapter 99, subchapter III, subheading 9903.52.00 of the Harmonized Tariff Schedule (HTS).

**DATES:** The quota is established for the 90-day period beginning on January 6 and ending on April 6, 1995.

**FOR FURTHER INFORMATION CONTACT:** Janise Zygmunt, Consolidated Farm Service Agency, United States Department of Agriculture, Room 3756-

S, PO Box 2415, Washington, DC 20013-2415 or call 202-720-8841.

**SUPPLEMENTARY INFORMATION:** The 1949 Act requires that a limited global import quota for upland cotton be determined and announced immediately whenever the average price of the base quality of upland cotton in the designated spot markets for a month exceeds 130 percent of the average price of such quality of cotton in such markets for the preceding 36 months. The limited global import quota means a quantity of imports that is not subject to the over-quota tariff rate of a tariff-rate quota. The December 1994 spot market average for base quality cotton was 81.92 cents per pound, which is 136 percent of the 60.06 cents-per-pound average of the previous 36-month period from December 1991 through November 1994.

The 1949 Act requires that if a quota has been established under the authority of section 103(B)(n) during the preceding 12 months, the quantity of the quota shall be the smaller of 21 days of domestic mill consumption at the seasonally-adjusted average rate of the most recent 3 months for which data are available (21-day supply) or the quantity required to increase supply to 130 percent of demand. Since the 21-day supply is smaller than the amount needed to increase supply to 130 percent of demand, the quota is equal to 21 days of domestic mill consumption of upland cotton at the seasonally-adjusted average rate for the period September through November 1994. The quota is not divided by staple length or by country of origin. The quota does not affect existing tariff rates or phytosanitary regulations.

**Authority:** 7 U.S.C. 1444-2 (n) and U.S. Note 6(b), Subchapter III, Chapter 99 of the HTS.

Signed at Washington, DC, on February 10, 1995.

**Richard E. Rominger,**

*Acting Secretary.*

## Forest Service

### Notice of the Preparation of the Southern Appalachian Assessment, and the Beginning of the Forest Plan Revision Efforts for the National Forests in Alabama, Chattahoochee-Oconee, Cherokee, and Sumter National Forests

**AGENCY:** Forest Service, USDA.

**ACTION:** Notice.

**SUMMARY:** This Notice is to announce the U.S. Forest Service's participation in the preparation of the Southern Appalachian Assessment (SAA). This Assessment is being prepared by the U.S. Forest Service (the Southern Region of the National Forest System and the Southeastern Forest Experiment Station) in cooperation with the other Federal agencies that are members of SAMAB (Southern Appalachian Man and the Biosphere Cooperative). It will include national forest lands of the George Washington, Jefferson, Nantahala-Pisgah, Cherokee, and Chattahoochee National Forests; and parts of the Sumter and Talladega National Forests. Also involved will be National Park Service lands in the Great Smoky Mountains National Park, Shenandoah National Park, and the Blue Ridge Parkway.

This Notice also announces the beginning of the efforts to revise the Land and Resource Management Plans (Forest Plans) for the National Forests in Alabama, the Chattahoochee-Oconee, the Cherokee, and the Sumter National Forests. This is not the "Notice of Intent" (NOI) for the Environmental Impact Statements that will accompany the Revised Forest Plans. Those NOIs will be issued at a later date.

The Southern Appalachian Assessment will support and facilitate ecosystem management decisions to be made in Forest Plan revisions. As the National Forests in the Southern Appalachians are conducting their local efforts to describe their "Analysis of the Management Situation" (AMS), they will also be providing information for the larger scale Southern Appalachian Assessment.

The Assessment will be used to help determine each National Forests' "Need for Change" section of their AMS. This information will then be used to publish the Notices of Intent to prepare the Environmental Impact Statements, which will begin the NEPA (National Environmental Policy Act) processes associated with each Forest Plan revision.

Public involvement is critical throughout these processes and it will be requested and accepted continually throughout these efforts. Formal public involvement with the Forest Plan revision efforts will also be conducted through "Scoping", following the issuance of the National Forests NOIs.

**DATES:** The Southern Appalachian Assessment is scheduled to be completed by January 1996.

The National Forests in Alabama, the Chattahoochee-Oconee National Forests, the Cherokee National Forest, and the

Sumter National Forest are scheduled to complete the drafts of their Analysis of the Management Situation between October 1995 and January 1996. During this same time period, these Forests are scheduled to issue their Notices of Intent to Prepare an Environmental Impact Statement (NOI) for their Revised Land and Resource Management Plans. A Revised NOI for the Jefferson National Forest will also be issued during this time period.

**ADDRESSES:** Requests for information, and comments concerning this notice can be sent to:
