

failure or the relief of system pressures. The following conditions apply:

(i) Lessees must not flare or vent oil-well gas for more than 48 continuous hours without the approval of the Regional Supervisor. The Regional Supervisor may specify a limit of less than 48 hours when necessary to prevent air quality degradation. Flaring or venting gas from a facility must not continue for more than 144 cumulative hours during any calendar month without the approval of the Regional Supervisor.

(ii) Lessees must not flare or vent gas-well gas beyond the time required to eliminate a temporary emergency without the approval of the Regional Supervisor.

(3) During the unloading or cleaning of a well, drill-stem testing, production-testing, or other well-evaluation testing for periods not to exceed 48 cumulative hours per testing operation on a single completion. The Regional Supervisor may specify a shorter period of time, under prior notice, to prevent air quality degradation.

(b) Lessees may flare or vent oil-well gas for a period not to exceed 1 year when the Regional Supervisor approves the request for one of the following reasons:

(1) The lessee initiated an action which, when completed, will eliminate flaring and venting; or

(2) The lessee submitted an evaluation supported by engineering, geologic, and economic data indicating that the oil and gas produced from the well(s) will not economically support the facilities necessary to save and/or sell the gas, or that sufficient quantities of gas are not available for marketing.

(c) Lessees must not burn produced liquid hydrocarbons without the prior approval of the Regional Supervisor. To burn produced liquid hydrocarbons, the lessee must demonstrate that the amounts to be burned would be minimal, or that the alternatives are infeasible or pose a significant risk to offshore personnel or the environment. Alternatives to burning liquid hydrocarbons include transporting the liquids or storing and re-injecting them into a producible zone.

(d) Lessees must prepare records detailing gas flaring or venting, and liquid hydrocarbon burning, for each facility. The records must include, at a minimum:

(1) Daily volumes of gas flared or vented, and liquid hydrocarbons burned.

(2) Number of hours of flaring, venting, or burning on a daily basis.

(3) Reasons for flaring, venting, or burning.

(4) A list of the wells contributing to flaring, venting, or burning, along with the gas-oil ratio data.

(e) Lessees must keep these records for at least two (2) years. Lessees must make the records available for inspection by Minerals Management Service (MMS) representatives at the lessees' field office that is nearest the Outer Continental Shelf facility, or at other locations conveniently available to the Regional Supervisor. Upon request by the Regional Supervisor, lessees must provide a copy of the records to MMS.

BILLING CODE 4310-MR-M

Office of Surface Mining Reclamation and Enforcement

30 CFR Part 914

[IN-121-FOR; Amendment 94-7]

Indiana Regulatory Program

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Proposed rule; public comment period and opportunity for public hearing.

SUMMARY: OSM is announcing receipt of a proposed amendment to the Indiana regulatory program (hereinafter referred to as the "Indiana program") under the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The proposed amendment consists of changes to the Indiana Surface Coal Mining rules. The amendment is intended to revise 310 IAC 12-5-54.1 and the timing limitations of backfilling and grading for surface coal mining and reclamation operations under IC 13-4.1.

DATES: Written comments must be received by 4:00 p.m., E.S.T. March 20, 1995. If requested, a public hearing on the proposed amendment will be held on March 14, 1995. Requests to speak at the hearing must be received by 4:00 p.m., E.S.T. on March 6, 1995.

ADDRESSES: Written comments and requests to speak at the hearing should be mailed or hand delivered to Roger W. Calhoun, Director, Indianapolis Field Office at the first address listed below.

Copies of the Indiana program, the proposed amendment, a listing of any scheduled public hearings, and all written comments received in response to this document will be available for public review at the addresses listed below during normal business hours, Monday through Friday, excluding holidays. Each requester may receive one free copy of the proposed

amendment by contacting OSM's Indianapolis Field Office.

Roger W. Calhoun, Director,
Indianapolis Field Office, Office of
Surface Mining Reclamation and
Enforcement, Minton-Capehart

1547.

FOR FURTHER INFORMATION CONTACT:
Roger W. Calhoun, Director,
Indianapolis Field Office, Telephone:
(317) 226-6166.

SUPPLEMENTARY INFORMATION:

I. Background on the Indiana Program

On July 29, 1982, the Secretary of the Interior conditionally approved the Indiana program. Background information on the Indiana program, including the Secretary's findings, the disposition of comments, and the conditions of approval can be found in the July 26, 1982, **Federal Register** (47 FR 32071). Subsequent actions concerning the conditions of approval and program amendments can be found at 30 CFR 914.10, 914.15, and 914.16.

II. Discussion of the Proposed Amendment

By letter dated January 31, 1995 (Administrative Record No. IND-1420), the Indiana Department of Natural Resources (IDNR) submitted to OSM a State program amendment package consisting of revisions to the Indiana program rules. The amendment revises language at 310 IAC 12-5-54.1 concerning the timing limitations for backfilling and grading of surface coal mining and reclamation operations. The following amendments are being proposed.

1. 310 IAC 12-5-54.1 Backfilling and Grading; Timing Limitations

Subsection (a). The word "commission" is being deleted and is replaced by the word "director." The word "paragraphs" is being deleted and replaced by "subsection." The words "of this rule" are being deleted.

Subsection (a)(1). The word "and" is being deleted immediately before "eight (180)." The words "an average of" are being deleted immediately preceding "four (4)." The words "(by length)" are being deleted immediately following "four (4) spoil ridges." With these changes, backfilling and grading for dragline type operations which deposit the overburden into spoil ridges must be

accomplished within 180 days of deposition, provided that no more than four (4) spoil ridges remain at any one time.

Subsection (a)(4). In the second sentence, the word "commission" is deleted and is replaced by the word "director."

Subsection (b). The changes to this subsection all involve nonsubstantive wording changes.

Subsection (c). Nonsubstantive wording changes are being made to the first sentence. The second sentence concerning the required commission approval of variances is being deleted in its entirety. With these changes, the revised subsection provides that "[t]he director may grant variances to the limitations of subsection (a) for good cause."

The proposed program amendment submitted by Indiana is available for public inspection at the addresses listed above. The Director now seeks public comment on whether the proposed amendment is no less effective than the Federal regulations. If approved, the amendment will become part of the Indiana program.

III. Public Comment Procedures

In accordance with the provisions of 30 CFR 732.17(h), OSM is seeking comments on whether the proposed amendment satisfies the applicable program approval criteria of 30 CFR 732.15. If the amendment is deemed adequate, it will become part of the Indiana program.

Written Comments

Written comments should be specific, pertain only to the issues proposed in this rulemaking, and include explanations in support of the commenter's recommendations. Comments received after the time indicated under DATES or at locations other than the Indianapolis Field Office will not necessarily be considered in the final rulemaking or included in the Administrative Record.

Public Hearing

Persons wishing to speak at the public hearing should contact the person listed under **FOR FURTHER INFORMATION CONTACT** by 4:00 p.m., E.S.T. on March 6, 1995. The location and time of the hearing will be arranged with those persons requesting the hearing. If no one requests an opportunity to testify at the public hearing, the hearing will not be held.

Filing of a written statement at the time of the hearing is requested as it will greatly assist the transcriber. Submission of written statements in

advance of the hearing will allow OSM officials to prepare adequate responses and appropriate questions.

The public hearing will continue on the specified date until all persons scheduled to speak have been heard. Persons in the audience who have not been scheduled to speak, and who wish to do so, will be heard following those who have been scheduled. The hearing will end after all persons scheduled to speak and persons present in the audience who wish to speak have been heard.

Any disabled individual who has need for a special accommodation to attend a public hearing should contact the individual listed under **FOR FURTHER INFORMATION CONTACT**.

Public Meeting

If only one person requests an opportunity to speak at a hearing, a public meeting, rather than a public hearing, may be held. Persons wishing to meet with OSM representatives to discuss the proposed amendment may request a meeting by contacting the person listed under **FOR FURTHER INFORMATION CONTACT**. All such meetings will be open to the public and, if possible, notices of meetings will be posted at the locations listed under **ADDRESSES**. A written summary of each meeting will be made a part of the Administrative Record.

IV. Procedural Determinations

Executive Order 12866

This rule is exempted from review by the Office of Management and Budget (OMB) under Executive Order 12866 (Regulatory Planning and Review).

Executive Order 12778

The Department of the Interior has conducted the reviews required by section 2 of Executive Order 12778 (Civil Justice Reform) and has determined that, to the extent allowed by law, this rule meets the applicable standards of subsections (a) and (b) of that section. However, these standards are not applicable to the actual language of State regulatory programs and program amendments since each such program is drafted and promulgated by a specific State, not by OSM. Under sections 503 and 505 of SMCRA (30 U.S.C. 1253 and 1255) and 30 CFR 730.11, 732.15, and 732.17(h)(10), decisions on proposed State regulatory programs and program amendments submitted by the States must be based solely on a determination of whether the submittal is consistent with SMCRA and its implementing Federal regulations and whether the other requirements of

30 CFR parts 730, 731, and 732 have been met.

National Environmental Policy Act

No environmental impact statement is required for this rule since section 702(d) of SMCRA (30 U.S.C. 1292(d)) provides that agency decisions on proposed State regulatory program provisions do not constitute major Federal actions within the meaning of section 102(2)(C) of the National Environmental Policy Act (42 U.S.C. 4332(2)(C)).

Paperwork Reduction Act

This rule does not contain information collection requirements that require approval by OMB under the Paperwork Reduction Act (44 U.S.C. 3507 *et seq.*).

Regulatory Flexibility Act

The Department of the Interior has determined that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) The State submittal which is the subject of this rule is based upon corresponding Federal regulations for which an economic analysis was prepared and certification made that such regulations would not have a significant economic effect upon a substantial number of small entities. Accordingly, this rule will ensure that existing requirements previously promulgated by OSM will be implemented by the State. In making the determination as to whether this rule would have a significant economic impact, the Department relied upon the data and assumptions for the corresponding Federal regulations.

List of Subjects in 30 CFR Part 914

Intergovernmental relations, Surface mining, Underground mining.

Dated: February 10, 1995.

Richard J. Seibel,

Acting Assistant Director, Eastern Support Center.
